

NJIT is one of our state's premier research institutions and is uniquely equipped to carry out this critical stormwater research. The university has a long and distinguished tradition of responding to difficult public policy challenges such as environmental emissions standards, aircraft noise, traffic congestion, and alternative energy. More broadly, NJIT has demonstrated an institutional ability to direct its intellectual resources to the examination of problems beyond academia, and its commitment to research allows it to serve as a resource for unbiased technological information and analysis.

An excellent opportunity for NJIT to partner with the federal government and solve the difficult problem of flood control has presented itself in the 2000 Water Resources Development Act (WRDA). The final version of this important legislation includes a provision directing the U.S. Army Corps of Engineers to develop and implement a stormwater flood control project in New Jersey and report back to Congress within three years on its progress. While the Corps of Engineers is familiar with this problem at the national level, it does not have the firsthand knowledge and experience in New Jersey that NJIT has accrued in its 119 years of service to the people of my district and state. Including NJIT's expertise and experience in this research effort is a logical step and would greatly benefit the Army Corps, as well as significantly improve the project's chances of success.

Therefore, I urge the New York District of the Corps of Engineers to work closely with my office and NJIT to ensure the university's full participation in this study. By working together, we can create a nexus between the considerable flood control expertise of the Army Corps and NJIT, and finally solve this difficult problem for the people of New Jersey. I hope my colleagues will support my efforts in this regard.

HONORING THE SAINT ANDREW'S SOCIETY ON THEIR 100TH ANNIVERSARY

HON. ROSA L. DeLAURO

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 7, 2000

Ms. DELAURO. Mr. Speaker, it is an honor for me to rise today to pay tribute to the Saint Andrew's Society, an extraordinary institution in my hometown of New Haven, Connecticut as they celebrate their 100th Anniversary.

Founded in November of 1900, the Saint Andrew's Society quickly became an essential part of our community. In the century since, the group has grown dramatically while retaining its character as an active local force and preserver of tradition. In fact, earlier this year, as a tribute to their invaluable presence in the New Haven community, I was pleased to designate St. Andrew's Society as one of our Local Legacies for the Library of Congress' Bicentennial Project.

The members of the St. Andrew society have assumed a critical responsibility—maintaining the Italian heritage that thousands of Greater New Haven residents share. Members

meet each month in an effort to lead the historic Wooster Square neighborhood that is the focus for Italian-Americans in New Haven. For as long as I can remember, St. Andrew's has played such an important role in forging the bonds of our community. Some of my fondest memories are of the times that I have spent with the people of St. Andrew's. Each year, St. Andrew's keeps our community spirit alive by organizing an annual feast where we celebrate our traditions, history and culture, bringing memories of "the old days" back for all of us. It is through efforts such as these that we renew our history and help pass it along.

The generosity of the St. Andrew's Society members extends far beyond our tight-knit community. Over the last century, members have raised millions of dollars to preserve some of our most treasured monuments—St. Michael's Church, New Haven's oldest Italian Church and the ninth-century Amalfi Cathedral in Italy. It is through such efforts that we remember our history, celebrate our friendships, and continue to strengthen the bonds of our community.

Forged through the bonds of family, St. Andrew's Society now includes fifth and sixth generation members and while none of the founding members are with us today, their decedents continue to be active in the society. The invaluable contributions of the Saint Andrew's Society are still apparent today as we gather to celebrate their centennial anniversary. It is with great pride that I stand today to extend my deepest thanks and warmest congratulations to the members of the Saint Andrew Society on their 100th Anniversary.

DEATH OF MRS. FLOSSIE PARKER BARBER

HON. BOB ETHERIDGE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 7, 2000

Mr. ETHERIDGE. Mr. Speaker, Mrs. Flossie Parker Barber died November 15, 2000, after a life that spanned 91 years. She was my fifth grade teacher. She was also the major influence that took a poor farm boy from Johnston County, described to him the wonderful world he would be entering, and then motivated him to set goals that were beyond his wildest dreams.

She did not know the meaning of the word, "can't," and she instilled that philosophy in her students.

Every individual should have the opportunity to sit before a teacher of the dedication Mrs. Barber displayed. In her 34 years of teaching at the old Cleveland Union School, she was fair and honest with all her students. But she would accept from each nothing less than all the excellence each was capable of providing.

She was never too busy to help a student; she loved us openly and with devotion; and she is, to me, the epitome of what constitutes a good teacher. She described to her students the better world she wanted, and ever since those days in the fifth grade, we have been attempting to build that world for her. Mrs. Barber gave truth to the old adage that a good teacher's influence never stops, that teachers

affect eternity by the influence they have on their students.

I was lucky to have Mrs. Barber for a teacher. I was luckier still that she became my friend and advisor when I became an adult.

Mrs. Barber was a graduate of East Carolina Teachers College, now East Carolina University and was always a strong supporter of the school.

Mrs. Barber was the widow of Percy D. Barber. She is survived by one son, Robert W. Barber and his wife, Elizabeth T. Barber of Clayton. She left two grandchildren and three great-grandchildren.

A funeral service for Mrs. Barber was held at her church, Oakland Presbyterian, on November 17. Mrs. Barber had requested the following, "A Teacher's Prayer," be part of her final ceremony. The prayer is by James J. Metcalf and is presented here:

"I wanted to teach my students how,
"To live this life on earth;
"To face its struggles and its strike,
"And improve their worth.
"Not just the lesson in the book,
"Or how the rivers flow;
"But how to choose the proper path,
"Wherever they may go.
"To understand eternal truth,
"And know the right from wrong;
"And gather all the beauty of,
"A flower and a song.
"For if I helped the world to grow,
"In wisdom and in grace;
"Then I shall feel that I have won,
"And I have filled my place.
"And so I ask your guidance, God,
"That I have done my part;
"For character and confidence.
"And happiness and heart."

We shall miss this remarkable woman, who even now is undoubtedly organizing and teaching all the young angels.

RECOGNIZING SECOND LIEUTENANT KEVIN R. WHITE

HON. JO ANN EMERSON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 7, 2000

Mrs. EMERSON. Mr. Speaker, I rise today to offer my congratulations to Second Lieutenant Kevin R. White on the occasion of his graduation from Officers Training School. This is a considerable achievement, which I am proud to command to the attention of Congress.

Lieutenant White is no stranger to hard work and high achievements. Before graduating from Officers Training School, as an enlisted man he worked toward no less than four different degrees. First he attended and graduated from Georgia Military College in 1989. He then went on to attend the Community College of the Air Force, where he received a degree in Metals Technology in 1991. After that he continued his education by graduating in 1996 from Wayland Baptist University with a B.S. in Occupations Education and graduating from La Verne University in 1999 with a Masters degree in Organizational Management.

Throughout his career in the military and in academia, Lieutenant White received a number of awards and honors. He was awarded two Air Force Commendation Medals and one Air Force Achievement Medal. Lieutenant White was named the Third Equipment Maintenance Squadron, Noncommissioned Officer of the Year in 1997 and the Third Equipment Maintenance Squadron Noncommissioned Officer of the 4th quarter in 1997. While fulfilling his military duties, Lieutenant White also excelled in his studies, making the President's list at Wayland Baptist University in 1996.

In addition to excelling in the Air Force and working toward a top notch education, Lieutenant White was busy fulfilling many military assignments overseas, such as completing a remote tour of Keflavik, Iceland from 1991 to 1992. Additionally, he spent over 9 years overseas in different countries, including Thailand, Iceland, Singapore, Japan, Norway, and Saudi Arabia. Lieutenant White also found time amidst his many responsibilities to volunteer to be a Big Brother while in Alaska. In fact, he received the Big Brother, Big Sister of the Year Award in 1997. Currently, Lieutenant White takes time out of his busy schedule to coach bowling for participants in the Special Olympics.

Lieutenant White has served his community and his country with great distinction. I am honored to pay tribute to his achievements and to recognize his efforts to build a better, stronger America.

HONORING THE LIBERTY SCIENCE
CENTER

HON. ROBERT MENENDEZ

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 7, 2000

Mr. MENENDEZ. Mr. Speaker, today I bring to your attention one of the premier science museums in the nation, the Liberty Science Center (LSC) in Jersey City, New Jersey.

The LSC has a unique mission to serve as an innovative, "hands-on" learning resource for the lifelong exploration of nature, humanity and technology. Its mission is to promote informed stewardship and lifelong interactive learning of the world for all ages. The staff members have extensive backgrounds in science and technology education. They work closely with regional school districts and educators in order to fulfill their goal of bringing the enjoyment of scientific discovery to children.

The LSC has recently initiated a unique, visionary "Partnership Program" with 28 at-risk school districts in New Jersey. This program provides students with a challenging inquiry-based learning experience aligned with New Jersey State Core Curriculum Standards, as well as teacher training and opportunities that encourage the whole family to get involved in the education process. Since the Partnership's inception during the 1998-1999 school year, student participation has increased from 45,000 to 160,000. The New Jersey State Legislature has already appropriated \$6 million to support expansion of the Partnership Program making the Science Center and the

State of New Jersey a model for other partnerships between public school systems and private institutions everywhere in the United States.

The LSC aims to complete a major infrastructure expansion project by the year 2005, so that even more at-risk students and families can reap the benefits of hands-on scientific learning. The museum seeks to emerge as a landmark destination in the region offering experiences that significantly advance the reach and impact of a complete science education both onsite, offsite and online. With this proposed expansion, LSC intends to provide an indispensable public service and remain broadly involved in the growth of Jersey City's diverse urban neighborhood as it begins a renaissance.

I would like to call upon my distinguished colleagues to join with me in the next session of Congress to make the expansion of the LSC a priority on our legislative agendas.

Our most precious resource is our children. Providing them with exciting educational opportunities to expand their horizons should always be a top priority of our nation's leaders, and I hope to continue this important work with my colleagues in the 107th Congress.

HONORING TOM CAMERLO

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 7, 2000

Mr. McINNIS. Mr. Speaker, I would like to take this moment to recognize an outstanding citizen, Tom Camerlo of Florence, CO. Tom has recently been named an inductee into the Colorado Agricultural Hall of Fame. It has been Tom's devoted leadership to the dairy farming community that has helped him to earn this distinguished honor. At this time I would like to pay tribute to Tom for his many personal accomplishments and numerous contributions to his community and profession.

Tom attended Florence High School before enrolling at Colorado State University where he began a course of study that would prepare him for what has become a truly impressive career. He received his Bachelor of Science degree in General Agriculture and has used this knowledge to help benefit dairy farmers all over the country. Along with his education at Colorado State University, Tom also used his leadership as a Captain in the U.S. Army to benefit his community and State.

Tom has used his natural ability to lead along with his knowledge of agriculture to help further such organizations as the Mountain Empire Dairymen's Association, the United Dairy Industry Association, and the Dairy Promotion Federation Association, all in which he served in the capacity of president. Tom is also a current board and executive committee member of the National Milk Producers Federation and serves as president of the National Milk Producer's Federation, a position he has held for over a decade.

Tom's remarkable dedication to the farming industry has also earned him a number of different awards. The awards include Livestock Leader's Award from Colorado State Univer-

sity, the National Cooperative Statesmanship Award from the American Institute of Cooperation and he has been named Colorado Livestock Producer of the Year. Among his greatest accomplishments have been being appointed to the Colorado Agricultural Development Committee and the Presidential Advisory Committee on Trade Policy and Negotiations.

Tom, for the past six years, has been an active member of the Board of Directors for First National Bank of Florence, serving as Chairman for four years. He has also been an active member of School Board RE-2J for almost a decade and has served as president for four years. In addition to these impressive roles in his community he is also part of the Florence Elks Lodge, Lions Club, VFW, Chamber of Commerce and St. Benedict's Catholic Church.

Tom has worked very hard to help the farming community and his many accomplishments are widely admired in the dairy farming industry. He has earned the respect of this body and on behalf of the State of Colorado and the U.S. Congress I would like to congratulate Tom on this distinguished honor. I wish him the very best in his future endeavors.

SANTA CLARA COUNTY MAKES
HISTORY BY PROVIDING HEALTH
COVERAGE FOR ALL CHILDREN

HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 7, 2000

Mr. STARK. Mr. Speaker, Santa Clara County in California has just made history by approving a plan to provide health coverage for all of the estimated 70,000 uninsured children in the county. Unwilling to wait for national and state officials to respond to the problem, the county has obtained funding from a variety of diverse sources to ensure that children receive the health care coverage they need, starting January 2, 2001.

The county will streamline application forms, aggressively conduct outreach, and enroll the approximately 50,000 children who qualify for state and federally funded programs. For the other 20,000 children who don't qualify for existing government assistance, the county will pay the majority of their health insurance premiums.

Not only will Santa Clara County's children be guaranteed health coverage, but also they will be guaranteed comprehensive coverage. Currently, children can obtain access to health care through Medicaid, State Children's Health Insurance Program (SCHIP), and the private sector. Often, the health coverage varies widely. Under Santa Clara County's program though, all children up to the age 19 will be guaranteed comprehensive coverage of a range of services, including vision, dental, and medical care.

I want to commend Santa Clara County for being the first in the nation to set its sights on covering all children with health insurance. The county has proactively found a solution to our nation's pressing problem of the uninsured and has built partnerships with diverse groups to achieve coverage for all children.
