Richardson and my colleagues in the Congress to do everything I can to give General John Gordon the support he will need to be successful in this demanding job. I think all of us appreciate General Gordon’s willingness to serve his country on this continuing basis and to take on a very difficult assignment.

I yield the floor.

Mr. ALLARD. Mr. President, I rise today to show my support for General John Gordon to be the Director of the National Nuclear Security Administration or the NNSA. But before I do that, I need to mention a related item, the lack of security protections at the Los Alamos lab.

On Monday, June 12, the New York Times reported that computer hardware drives containing valuable nuclear weapons data and other highly sensitive information were found missing from the Los Alamos National Laboratory on May 7th. These classified hard drives were stored in locked containers in a vault at the weapons X Division at the lab. The containers were found but the hard drives are gone. According to reports, the material missing is American nuclear weapons data that the Nuclear Emergency Search Team needs to disarm nuclear devices during emergencies. Also missing is the intelligence information on the Russian nuclear weapons program. To make matters worse, the lab did not begin an intensive search until May 24.

I realize that a fire was raging in the area and that people were focused on that, but to wait that long makes little sense. I understand that the law now requires that any such incident must be reported to the Department of Energy within 8 hours. Finally, DOE headquarters was informed of the missing data on June 1.

While it may seem premature to speculate foul play, I must say that neither DOE nor the Administration has a strong track record in the area of safeguards and security. Unfortunately, this is not the first incident of lax security during this Administration.

Here are just a few of the reported incidents.

March 1999—It was determined that the Chinese had penetrated Los Alamos Laboratory and stole our nuclear secrets.

Last December—A Russian diplomat is ordered to leave after a microphone transmitter is discovered on the 7th floor of the State Department, only a short walk from the office of Secretary Albright.

Then there is the case of the missing laptops at the State Department and the situation with the former CIA Director, Mr. DCI. I wonder how someone could overlook all his clearances, of mishandling classified information.

While not all these cases are related to the newly created NNSA, they do show that a new attitude and new ethic must be incorporated into this Administration. We have had too many problems at too many places.

That is why I am glad that General Gordon is finally being voted on by this Senate. I am sorry that this vote took so long to take place. This vote was objected to by some who wanted to get a deal on a few items in the Defense authorization bill relating to the NNSA. It was my belief there would be obstacles in this job, but I never believed it would happen before he got to the NNSA. However, now that the objection to General Gordon’s nomination has been lifted, we can finally move this nomination. Gen. Gordon’s position is far too valuable to be made a political pawn and the latest incident at Los Alamos proves that.

Also, I let him know that I don’t expect miracles. I just expect our national security to be treated as such. No longer should science and personnel matters out rank security. We must change this culture and I believe that General Gordon is the right person for this job. I want to thank General Gordon for his dedication and commitment to his country and for serving in this new position.

Lastly, Mr. President, I look forward to the hearings on the latest incident at the lab. For too long I have heard this administration crowing that they are taking care of the security problems, but this latest incident shows that their actions don’t match their words. While this administration crowed they attempted to undermine what Congress had done last year to strengthen security in the Department of Energy through amendments in the Strategic Subcommittee of the Armed Services Committee. As chairman of that subcommittee I was appalled at the action of Democrat members of the committee as well as in their attempts to stop the nomination of General Gordon. We must and will get to the bottom of our nation’s security problems.

Mr. WARNER. Mr. President, I suggest the absence of a quorum.

Mr. REID. The PRESIDING OFFICER. The clerk will call the roll.

Mr. REID. All time having expired, the question is, Will the Senate advise and consent to the nomination of Gen. John A. Gordon, United States Air Force, to be Under Secretary for Nuclear Security, Department of Energy? On this question, the yeas and nays have been ordered printed in the record. A roll call vote was ordered.

Mr. REID. The legislative clerk called the roll.

Mr. REID. I announce that the Senator from New York (Mr. MOYNIHAN), the Senator from Rhode Island (Mr. REED), and the Senator from West Virginia (Mr. ROCKEFELLER) are necessarily absent.

LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will now return to legislative session.

Mr. LOTT. Mr. President, we are discussing an agreement as to how to proceed. We need to actually get it typed up where everybody can review it. I say to Senator DASCHLE, I will make some remarks commending the gentleman’s movement to South Carolina. I thought he might want to join me in that. I will take some leader time to do that while we get the final look at the agreement.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LOTT. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

HONORING JIM TALBERT’S RETIREMENT FROM SENATE

Mr. LOTT. Mr. President, let me make a very important correction. The gentleman I am going to speak about briefly is going to be moving to South Dakota, not South Carolina. He obviously likes cooler weather and not hot weather. He deserves to be able to go
