Lastly, Mr. President, this bill also includes a technical change to the Historically Underutilized Business Zone small business contracting program (HUBZone program) administered by the SBA. The HUBZone program is designed to provide contracting opportunities in economically distressed areas of the country. One of the criteria for this program is that a small business must be located in a qualified census tract or nonmetropolitan county based on unemployment statistics from the Department of Labor and the Department of the Census.

As new data becomes available, there is a possibility that HUBZone firms would lose their eligibility, because the data could reflect that the census tract the firm is located in is technically no longer considered an economically depressed area. As ranking member of the Committee on Small Business and as a cosponsor of the original HUBZone law passed in 1997, I am concerned that when a particular area is no longer deemed economically eligible, small business owners in that area will lose the ability to bid on contracting opportunities under the program with little or no warning. This will be disruptive to the program and could discourage participation by qualified small businesses.

Because it is better policy to provide both small firms and the SBA with some sort of warning before a firm is deemed ineligible, this amendment is intended to allow a HUBZone firm located in an economically depressed area that has been redesignated by either Bureau of Labor Statistics (BLS) or Census data, to remain eligible under the program for three additional years. Thus the firm is put on notice that contracting opportunities under the program may not be available in the future, and the business is given time to plan for this change.

While I understand only a handful of firms were affected by a change in designated areas when new BLS data was released last year, I support the chairman’s effort to ensure that no firm is taken by surprise this year. I am pleased that Senator Bond and his staff worked together with my staff to come up with appropriate language for this amendment.

In closing, I want to thank my colleagues for supporting this bill. If, as expected, it is enacted, they will have improved the business climate and taken a few more steps to ensure that small businesses have access to capital and expanded procurement opportunities.

Mr. ALLARD. I ask unanimous consent to make a technical amendment to the bill. The committee amendment, as amended, was agreed to.

The bill (H.R. 2614), as amended, was read on the third time and passed.
