tradesman, they deserved respect and a better quality of life for their labor and skills. Throughout its century of history, Local 90 has expanded—reaching out to other communities, protecting the interests of electrical tradesman through much of Central and Southern Connecticut.

I have often said that we are fortunate to live in a country that allows its workers to engage in efforts to better employee standards and benefits. Local 90 has fought hard for better wages, more comprehensive health benefits for their members and their families, and safer working environments—ensuring that corporations throughout Connecticut listen to their employees and afford them these basic rights. Local 90 has been a true leader for our working families, giving them a voice during the hardest of economic times.

In addition to their professional contributions, the members of Local 90 are dedicated to our community. For the past several years, Local 90 members have used their expertise to create what has become a highlight of the Christmas season—the Fantasy of Lights exhibition at Lighthouse Point in New Haven. The exhibition and their work benefits the New Haven Rehabilitation Center. The tremendous work that goes into this project is truly remarkable—bringing the spirit and joy of the holiday season for all of our children and families to enjoy.

For the many contributions they have made to the working families of Southern and Central Connecticut, I am proud to stand today to pay tribute to former and present members of Local 90—they have made a real difference in the lives of many. I am honored to extend my sincere congratulations to them as they celebrate their 100th Anniversary and my best wishes for another century of success.

OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 14, 2000

Mrs. WILSON. Mr. Speaker, today I would like to bring to your attention Elwar “Ruben” LaCour, Jr., a student in my district. As a mid-die scholar, he was awarded the U.S. National Award in mathematics. His commitment to learning is an indication of great future success.

Ruben’s recognition from the U.S. Achievement Academy is a great honor. We all know of the studies and reports that say that students in the United States are falling behind in math performance. Ruben’s skills, abilities, and success provides evidence of students excelling in math.

Mr. Speaker, please join me in congratulating Elwar “Ruben” LaCour on his achievement in and dedication to mathematics. We must celebrate achievements and encourage our children to do their very best.
