In recognition of Ms. Julie Williamson

Hon. David D. Phelps
Of Illinois

In the House of Representatives

Thursday, June 15, 2000

Mr. Phelps. Mr. Speaker, today I rise to recognize one of my district’s finest teachers, Ms. Julie Williamson. A first grade teacher at the Pioneer School in Neoga, IL, Ms. Williamson recently received the award for “Illinois Ag in the Classroom Teacher of the Year” by the Illinois Farm Bureau. She was chosen as the recipient from a group of more than 1000 Illinois teachers.

Ms. Williamson’s method of teaching allows students to learn about and appreciate the benefits of agriculture. She teaches her students where the products come from and how the products reach them in their everyday lives. She teaches her students to understand the connection between the farm and the table. Ms. Williamson believes that people need to understand where their food originates in order to be more appreciative of the people who supply it. Some of the activities that she brings into her classroom are: bread making, field trips to local farms and orchards, and honey-making with live bees. Ms. Williamson’s next step will be to attend the U.S. Department of Agriculture National Ag in the Classroom Conference in Salt Lake City.

It is with this, Mr. Speaker, that I say congratulations to Ms. Julie Williamson on her excellent accomplishment. Due to her dedication to her students and community, it is clear that Ms. Williamson is an asset to Illinois and the educational system.

Honoring Professor Margaret Murnane

Hon. Mark Udall
Of Colorado

In the House of Representatives

Thursday, June 15, 2000

Mr. Udall of Colorado. Mr. Speaker, today I honor one of my constituents, Margaret Murnane, who is a physicist at the University of Colorado at Boulder. This week Professor Murnane received a “genius” award from the MacArthur Foundation for her work in optical physics. She is one of just twenty-five Americans named as MacArthur fellows this year.

Professor Murnane has developed a camera-like laser that emits pulses of red light. Applications of this laser technology range from laser surgery to monitoring water content in cooking. Additionally, this laser can aid scientists visualize processes that are too fast for the human eye to detect, such as chlorophyll harvesting sunlight, which is a process in plant growth.

When she was a child, her father used to give her math puzzles to solve. Without a doubt, this practice contributed to her passion for science. This shows what a little parental involvement can do to further the development of a child’s mind.

Professor Murnane’s contributions to science, education and technology will have a large impact on our society for years to come. I am pleased to honor her today for her accomplishments.

Commemoration of the 50th anniversary of the start of the Korean War—a special tribute to the 503d Field Artillery Battalion of the 2d Infantry Division

Hon. Charles B. Rangel
Of New York

In the House of Representatives

Thursday, June 15, 2000

Mr. Rangel. Mr. Speaker, I rise to pay tribute to the courageous Americans who fought and died in defense of freedom in the Korean War. On June 25th, we will commemorate the 50th anniversary of the start of that conflict—the so-called “Forgotten War” which claimed more than 35,000 American lives.

On behalf of President Clinton, I will cochair, with Veterans Administration Secretary Togo West, a Presidential Mission to Korea to represent the people of the United States during the anniversary commemoration ceremonies in Seoul. We will be accompanied on that mission by some of my comrades-in-arms with whom I served during my wartime tour in Korea, members of the 503d Field Artillery Battalion of the 2d Infantry Division.

The battle landed in Korea in August 1950, arriving in time to participate in hard-fought battles that defeated the North Korean offensives against the United Nations forces on the Pusan Perimeter. When the Chinese entered the war in November with massive ground assaults against UN forces in North Korea, the 503rd and rest of the 2d Infantry Division fought their way out of encirclement by the Chinese near Kunu-ri.

The battles in North Korea exacted a terrible price—the 503d lost almost all of its equipment and nearly half of its men. But in early 1951, overcoming many obstacles, the battalion rebuilt itself into a combat-ready unit, and played a major role in the 2d Infantry Division’s stubborn stand against a far stronger force during the May 1951 Chinese offensive, an action that earned the entire division a Presidential Unit Citation.

During the battalion’s fifteen months in Korea, members of the 503d received nineteen Silver Stars, four Distinguished Flying Crosses, and seventy-nine Bronze Stars. The battalion suffered 512 casualties, including 150 men who died in Communist prison camps and 79 who remain listed as missing in action.

The 503d, a Black unit, lived up to its motto of “We Can Do It,” serving with heroic valor in the face of relentless attacks by the enemy. In doing so, it shattered the biased and unfair negative stereotypes attached to Black fighting men and women in Korea and earlier wars.

Mr. Speaker, today I pay special tribute to my brave and loyal Brothers who served in the 503d Artillery Battalion, and join with them in saluting all of our comrades-in-arms in Korea, whom we will never forget.

Extensions of Remarks

Presidential Mission to the 50th anniversary commemoration mission of the 503d artillery battalion—June 25, 2000

Commending Dr. Ramek Hunt, Dr. George Jenkins, and Dr. Sampson Davis

Hon. Donald M. Payne
Of New Jersey

In the House of Representatives

Thursday, June 15, 2000

Mr. Payne. Mr. Speaker, I would like to draw to the attention of my colleagues a remarkable and powerful story about three young men who have been selected as recipients of my Congressional Community Service Award. They have also received Year 2000 Essence Award for outstanding community service and have been honored by the organization 100 Black Men. Theirs is a success story rooted in their youthful friendship and nurtured over the years by mutual support and shared determination to reach their goals against all odds.

Thirteen years ago, three teenage boys from the streets of Newark, New Jersey made a pact that they would encourage, support and stand by each other until each graduated from medical school. With hard work, tenacity, and determination to overcome all obstacles, an amazing thing happened—these three friends realized their youthful goal. Their impossible dream came true. Last year, Ramek Hunt and Sampson Davis received degrees from the University of Medicine and Dentistry of New Jersey Robert Wood Johnson Medical School, and George Jenkins graduated from UMDNJ Dental School.

Growing up, Dr. Ramek Hunt lived in Orange, Newark and Plainfield, New Jersey, eventually returning to and settling in Newark. There, he attended University High School and clearly succeeded, but the path to success was often rocky. He began to focus on his future when a recruiter from Seton Hall University visited his school and spoke about careers in medicine and dentistry. George Jenkins encouraged Ramek and Sam to go with him to Seton Hall and become doctors.

Dr. George Jenkins was born in South Carolina, but has lived in Newark, New Jersey since the age of two. He first lived in the Stella Wright Housing projects and then moved to the High Park Gardens Co-op, where he still resides. Dr. Jenkins presence in the Newark community is a source of inspiration for young people who look to him as a solid role model.

Dr. Sampson Davis was born and raised in Newark, New Jersey where he excelled at academics and sports at an early age. As a young man, he reached for the stars, determined to succeed not only for himself, but for the good of the entire community.

Even today, the three friends meet together with the young people of the community and they share a new goal—to open a health clinic.
in their old neighborhood. Mr. Speaker, I know my colleagues join me in commending these remarkable young men, who have set such a fine example of determination to succeed as well as dedication to community service. Let us express appreciation for their work and extend best wishes for continued success to Doctors Ramek Hunt, George Jenkins and Sampson Davis.

COLUMBIA, MISSOURI FIRE DEPARTMENT

HON. KENNY C. HULSHOF
OF MISSOURI
IN THE HOUSE OF REPRESENTATIVES
Thursday, June 15, 2000

Mr. HULSHOF. Mr. Speaker, we all have probably heard the favorite saying of the former Speaker of the U.S. House, Tip O’Neill, “that all politics are local.” Taking this quip to heart, the actions of William Markgraf, the Fire Chief of Columbia, Missouri, show that in this rapidly shrinking world, even strong international relations can be encouraged locally.

Recently, Chief Markgraf informed me about a remarkable relationship that he has formed with another firefighter from Moers, Germany. The story begins about 12 years ago, when a volunteer firefighter named Michael Stroinski from Moers trained and worked with the Columbia Fire Department during their Spring Fire School. Moers, which is about 15 minutes outside of Dusseldorf, has a fire department that is largely composed of volunteers and serves nearly 125,000 people. For the last twelve years, Michael has returned nearly every year to Columbia, sometimes bringing as many as six of his company-mates from Germany with him to train, work and live with members of the Columbia Fire Department. In kind, Michael has repeatedly extended a similar invitation to Chief Markgraf and others from the C.F.D., who have gratefully accepted, resulting in a vibrant exchange program between Moers and Columbia firefighters.

This July, Moers will be celebrating the 150th Anniversary of its central fire station and has invited members of the Columbia Fire Department to attend this celebration. For this reason, I would like to send my thanks to Chief Markgraf and others from the C.F.D., who have gratefully accepted, resulting in a vibrant exchange program between Moers and Columbia firefighters.

EXTENSIONS OF REMARKS

HONORING MS. BOOS’ SECOND GRADE CLASS FROM EVERGREEN AVENUE SCHOOL

HON. ROBERT E. ANDREWS
OF NEW JERSEY
IN THE HOUSE OF REPRESENTATIVES
Thursday, June 15, 2000

Mr. ANDREWS. Mr. Speaker, today I commemorate a special occasion in which 38 children from Evergreen Avenue School have excelled in the classroom. Ms. Boos’ second grade class is a remarkable group of young people. I wish the best of luck and continued success in school to Vanessa Adams, Natasha Barnett, Armand Brown, Roberta Bums, Adrienne Curry, Amber Darling, Brittany Feldman, Ashley Hecht, Ashley Kersey, Markie McDonald, Samantha Miller, Allen Moore, Scharron Nock, Brandon Rivera, Nicholas Schoning, David Viereck, Rashon Warrington, Jaquel Williams, Conner Wisely, Chloe Berger, Brittanı Brydges, Robert Carter, Francis Connor, Shaneeyce Cordy, Ashley Demarco, Thomas Hair, Hailey A. Headrick, Nicole L. Miller, Phillip Morris, Joseph Nunn, Nicole Pentz, Kelsey Serra, Renia Singleton, Angela Vincent, Amy Lynn Watson, Alexander Weiss, Darnell Whye, Analya Young.

COMMEMORATING CHESTERFIELD MISSOURI

HON. JAMES M. TALENT
OF MISSOURI
IN THE HOUSE OF REPRESENTATIVES
Thursday, June 15, 2000

Mr. TALENT. Mr. Speaker, I rise today to commemorate the city of Chesterfield, Missouri which celebrated its birthday on the 1st of June.

Throughout its 400-year history, the area of Chesterfield, Missouri has cultivated a deep tradition and distinguished itself as one of St. Louis County’s fastest growing communities. Chesterfield’s most famous citizen, Frederick Bates, settled there in 1819 and served as Secretary of the new territory. This area remained a collection of rural communities influenced by German settlers throughout the 19th century and for most of the 20th century. In the 1960’s, Chesterfield began aggressive development that paved the way to the prosperous city it is today. The city officially incorporated in 1988 and its economy and community continues to thrive.

Mr. Speaker, as a resident of Chesterfield, it gives me great pleasure to recognize this outstanding city and its citizens for their contributions in making our community a great place to live, work, and raise a family.

I would like to wish the city of Chesterfield a happy birthday and hope for the area’s continued success in the new century.

CONCLUSION

Mr. Speaker, it is my hope that this anniversary celebration will be as successful as the relationship formed between Columbia and Moers, and I wish Michael and the other German firefighters many safe returns to Columbia, Missouri.
