of America it is a fact that a woman's freedom to make a choice. It gives the woman and her family no freedom to make a decision without unnecessary government interference. Denying a woman the ability to have a safe abortion because she disagrees with the Supreme Court is wrong, but that is what current law does.

Military personnel stationed overseas still vote, still pay taxes, and are protected and punished under U.S. law. They protect the rights and ideals that this country stands for. Whether we agree with abortion or not, we all understand that safe and legal access to abortion is the law of the land. But the current ban on privately-funded abortions takes away the fundamental right of personal choice from American women stationed overseas. And I don’t believe these women should be treated as second class citizens.

It never occurred to me that women’s constitutional rights were territorial. It never occurred to me that American women in our armed forces get their visas and passports stamped when they go abroad—that they are required to leave their fundamental, constitutional rights at the proverbial door. It never occurred to me that in order to find out what freedoms you have as an American, you had to check the time-zone you were in.

The United States willingly sends our service men and women into harms way—yet Congress takes it upon itself to deny 14 percent of our Armed Forces personnel—33,000 military dependents who are stationed overseas—the basic right to safe medical care. And we deny the basic right to safe medical care to more than 200,000 military dependents who are stationed overseas as well.

How can we do this to our service men and women and their families? It seems to me that they already sacrifice a great deal to serve their country. Why burden them with unnecessary risks with their health as well. We should not ask our military personnel to leave their basic rights at the shoreline when we send them overseas.

I believe we owe our men and women in uniform and their families the opportunity to receive the medical care they need in a safe environment. They do not deserve anything less. I urge my colleagues to join me in supporting the Murray-Snowe amendment.

Mr. President, I yield the floor.
