There being no objection, the Presiding Officer laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 1515) entitled "An Act to amend the Radiation Exposure Compensation Act, and for other purposes", do pass with the following amendment:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Radiation Exposure Compensation Act Amendments of 2000".

SEC. 2. FINDINGS.

Congress finds that—

(1) the Radiation Exposure Compensation Act (42 U.S.C. 2210 note) recognized the responsibility of the Federal Government to compensate individuals who were harmed by the mining of radioactive materials or fallout from nuclear arms testing;

(2) a congressional oversight hearing conducted by the Committee on Labor and Human Resources of the Senate demonstrated that since enactment of the Radiation Exposure Compensation Act (42 U.S.C. 2210 note), regulatory burdens have made it too difficult for some deserving individuals to be fairly and efficiently compensated;

(3) reports of the Atomic Energy Commission and the National Institute for Occupational Safety and Health testify to the need to extend eligibility to States in which the Federal Government sponsored uranium mining and milling from 1941 through 1971;

(4) scientific data resulting from the enactment of the Radiation Exposed Veterans Compensation Act of 1988 (38 U.S.C. 101 note), and obtained from the Committee on the Biological Effects of Ionizing Radiations, and the President's Advisory Committee on Human Radiation Experiments provide medical validation for the extension of compensable radiogenic pathologies;

(5) above-ground uranium miners, millers and individuals who transported ore should be fairly compensated, in a manner similar to that provided for underground uranium miners, in cases in which those individuals suffered disease or resultant death, associated with radiation exposure, due to the failure of the Federal Government to warn and otherwise help protect citizens from the health hazards addressed by the Radiation Exposure Compensation Act of 1990 (42 U.S.C. 2210 note); and

(6) it should be the responsibility of the Federal Government in partnership with State and local governments and appropriate healthcare organizations, to initiate and support programs designed for the early detection, prevention and education on radiogenic diseases in approved States to aid the thousands of individuals adversely affected by the mining of uranium and the testing of nuclear weapons for the Nation's weapons arsenal.

SEC. 3. AMENDMENTS TO THE RADIATION EXPOSURE COMPENSATION ACT.

(a) **CLAIMS RELATING TO ATMOSPHERIC NUCLEAR TESTING.**—Section 4(a)(1) of the Radiation Exposure Compensation Act (42 U.S.C. 2210 note) is amended to read as follows:

(b) **DEFINITIONS.**—Section 4(b) of the Radiation Exposure Compensation Act (42 U.S.C. 2210 note) is amended—

(1) in paragraph (1)—

(A) in subparagraph (A) by inserting "Wayne, San Juan," after "Millard,"; and
