**STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS**

By Mr. Allard:

S. 1224. A bill to amend title XVIII of the Social Security Act to extend the availability of Medicare cost contracts for 10 years; to the Committee on Finance.

Mr. Allard. Mr. President, I am pleased to introduce the Medicare Cost Contract Extension Act of 2001.

For decades, the Centers for Medicare and Medicaid Services (formerly the Health Care Financing Administration), has successfully offered health insurance providers two contracts to choose from: a Medicare risk contract, (Medicare+Choice), and Medigap's Medicare cost contract. In an effort to expand and refine the Medicare+Choice program, the Balanced Budget Act of 1997 terminated the Medicare cost contract program effective December 31, 2002. To prevent this termination, in 1999 Congress passed the Balanced Budget and Refinement Act, which extended cost contracts for two years through 2004.

I am pleased that Congress passed into law this two-year extension of Medicare cost contracting. This extension will help Medicare beneficiaries in rural communities in the United States keep the quality health care they currently receive under their cost contract plans.

Congress should work to extend further Medicare cost contracts. The Medicare Cost Contract Extension Act of 2001 would accomplish this by extending by ten years the cost contract statute date of December 31, 2004 to December 31, 2014.

Currently 298,683 Americans, and 18,050 Coloradans receive health care through Medicare cost contracts. Of the 18,050 Coloradans with cost contract plans, 16,075 (89 percent) of them live in rural Colorado, where few Medicare and Medicare+Choice providers operate. If Medicare cost contracts are eliminated, essentially two health care options or Medicare beneficiaries would remain: traditional Medicare fee-for-service, which can include Medigap, and Medicare+Choice. If Medicare cost contracts are eliminated, as scheduled in 2004, then thousands of seniors will be forced into these other Medicare programs.

Basic Medicare and Medicare+Choice providers, however, are few in rural Colorado, where health care demands are great. In addition to the fact that 89 percent of Colorado's seniors with cost contract plans live in rural areas, 6,358, 35 percent, of Colorado Medicare managed care beneficiaries live in counties in which Medicare+Choice is not even available. Further, cost contract plans are more widely used across the State than are Medicare+Choice plans: Medicare+Choice is the Medicare option of beneficiaries in only 20 of Colorado's 64 counties, while Medicare cost contracts are enjoyed by seniors in 46 counties in Colorado.

In addition to accessibility, basic Medicare has fewer benefits than cost contract plans, and Medigap has higher out-of-pocket expenses than cost contract plans. Cost contract plans often provide more benefits than Medigap, such as preventive care and prescription drug benefits, and Medicare Part B deductible coverage. In addition, some cost contract plans offer one rate for older Medicare beneficiaries, while Medigap plans charge higher premiums for beneficiaries who are older.

Further, beneficiaries under Medicare cost contracts value the services
