Dr. Reardon noted that drug marketers could obtain information about doctors from other sources, including the federal government. But Mr. Gostin, the privacy expert at Georgetown, who is also the health law and ethics editor of The Journal of the American Medical Association, said that did not justify the association’s action.

“We live in a society where, if you comb long enough and hard enough with sophisticated enough search tools, you can find just about everything,” Mr. Gostin said. “That doesn’t mean it’s all right for people to assemble it, make it easy and sell it.”

As for Dr. Moskowitz, he is still receiving invitations from drug companies, despite his longstanding habit of spurning them. One arrived on Oct. 18, from Aventis Pharmaceuticals and Procter & Gamble Pharmaceuticals, which jointly market Actonel, an osteoporosis drug.

Attendance at the meeting, scheduled for Saturday, will be limited to 12 doctors, the invitation said. Breakfast and lunch will be served, in between, there will be a clinical discussion of osteoporosis, with 30 minutes reserved for doctors’ feedback. The honorarium is $1,000.

HONORING PILGRIM ARMENIAN CONGREGATIONAL CHURCH

HON. GEORGE RADANOVICH
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 25, 2001

Mr. RADANOVICH. Mr. Speaker, I rise today to honor Pilgrim Armenian Congregational Church for its 100 years of service to the Armenian community. The church was founded with only fourteen members on January 26, 1901.

The first Armenian settlers to the area did not speak English. They formed the Armenian Congregational Church so they could worship together, in their native tongue. Although it started with small numbers, church membership has grown steadily over the years. In its 100 years, the church has had eight full-time pastors and several interim pastors who have all served with much pride. Church members remain very dedicated to the church congregation, and the numbers continue to increase.

Members of the church are committed to their congregation, raising every dollar themselves for the construction of new buildings. Pilgrim Armenian Congregational Church has had three different houses of worship, all increasing in size to meet the demands of the congregation. The church has also established two additional funds, with all the income from those funds to be used solely for church needs. Many community members have found a home within Pilgrim Armenian Congregational Church.

Mr. Speaker, I want to congratulate Pilgrim Armenian Congregational Church for its dedication to the community over the past 100 years. I urge my colleagues to join me in wishing Pilgrim Armenian Congregational Church and its members many more years of continued success.

IN SUPPORT OF THE IRAN-LIBYA SANCTIONS ACT

SPEECH OF
HON. JANE HARMAN
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, July 24, 2001

Ms. HARMAN. Mr. Speaker, I rise today to speak in support of the Iran-Libya Sanctions Act. ILSA is an important part of our commitment to prevent the proliferation of weapons of mass destruction and missile technology to Iran and Libya.

I wish I could stand here today and say that sanctions on Iran were no longer necessary. I wish I could say that Iran has responded to diplomatic overtures, halted its weapons programs, or stopped threatening Israel and our other allies in the Middle East.

But the reasons why we passed this law five years ago are even more pressing today. While moderate leaders may be gaining power in Iran, reform has yet to reach their foreign policy.

In fact, Iran and Libya are both seeking to enhance their capabilities for producing and using weapons of mass destruction. Tehran is intent on bolstering her already significant chemical weapons arsenal and developing nuclear and biological weaponry, while Libya is again openly seeking expertise and technology needed for chemical weapons. In the case of Iran at least, this has led the CIA to conclude that it “remains one of the most active countries seeking to acquire weapons of mass destruction,” and the State Department to find that it “remained the most active state sponsor of terrorism in 2000.”

Sanctions work best when part of a comprehensive plan to combat proliferation. They require the support of our partners abroad. Sanctions under ILSA are therefore an important tool not simply to increase pressure on Iran but also to encourage Europe and Russia to cooperate with us on nonproliferation and counter-terrorism. While ILSA is often a sore spot in our relations with Europe, the threat of sanctions is getting the job done. When President Clinton waived sanctions against a foreign investment consortium, including Total SA of France and Gazprom of Russia, the EU and Russia promised greater cooperation on counter-terrorism and limiting the transfer of technology to Iran.

On a recent delegation to Russia led by Dick Gephardt, I met with members of the Russian Space Agency and found that our programs to counter the proliferation of missile technology are paying off. We have invested much time and money in working with the Russian Space Agency on the International Space Station, and the result is that they have improved cooperation on preventing the sale of missile technology to Iran. We need to expand these joint efforts with the Russians, so that we may begin to make progress in areas where they have not been as cooperative—such as the transfer of nuclear technology.

We cannot ease our commitment to prevent proliferation of weapons of mass destruction to Iran—we must step up our efforts with passage of ILSA. I await the day when reform in Iran means that they will no longer threaten the United States and Israel. Until then, we must maintain effective, targeted sanctions.

FOREIGN OPERATIONS, EXPORT FINANCING, AND RELATED PROGRAMS APPROPRIATIONS ACT, 2002

SPEECH OF
HON. LOUISE MCINTOSH SLAUGHTER
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES
Tuesday, July 24, 2001

The House in Committee of the Whole on the State of the Union had under
