contact lens prescriptions upon request, yet 91% of these same individuals did not hesitate to fill a prescription released by another eye doctor. Where are the health concerns here?

The time has more than come for contact lens wearers to enjoy the same rights as eyeglass wearers. The Contact Lens Prescription Release Act would require the FTC to promulgate a prescription release rule for contact lenses parroting the 1973 rule for eyeglasses. This would require eyecare professionals to release a patient’s contact lens prescription to the patient after completing the fitting process. Upon request, contact lens prescriptions must also be released to an agent of the patient, such as an alternate contact lens distributor. Furthermore, eyecare professionals must promptly verify the information contained in a patient’s prescription when an agent of the patient contacts them for such verification. To ensure that consumers are protected from misrepresentations, the contact Lens Prescription Release Act would also make it an unfair trade practice to state or imply that contact lenses can be purchased without a valid prescription.

I encourage my colleagues to join me in support of this important legislation, what has been endorsed by the Eyecare Workers Union. There is absolutely no reason for the law to be inconsistent relative to vision correction by eyeglasses vs. contact lenses. More fundamentally, there is no reason why any American should be denied the basic right to receive their prescription, whether they wear eyeglasses, contact lenses, or both.

NASA GLENN: A REGIONAL ECONOMIC ENGINE

HON. TOM SAWYER
OF OHIO
IN THE HOUSE OF REPRESENTATIVES

Thursday, July 26, 2001

Mr. SAWYER. Mr. Speaker, Northeast Ohio is home to an outstanding NASA Agency Center bearing the name of one of our nation’s true heroes, and our former colleague from the other body, John H. Glenn.

Just as John Glenn was a leader in space exploration, the NASA Glenn Research Center is a leader in aeronautics, space transportation, spacecraft technology, materials science, and even microgravity research.

NASA Glenn is an integral part of the NASA mission. But while it serves a national mission, it also serves as an incubator for industries and ideas throughout the Cleveland-Akron region and the state. The Greater Cleveland Growth Association estimates that the annual statewide spin-off from NASA Glenn comes in at nearly $1 billion and 12,000 jobs.

In my district, one of the results has been more than 30 grants to the University of Akron, which is itself a national leader in polymer science and engineering. Polymer technology, including nanopolymer technology which builds advanced materials at a molecular level, holds great promise for NASA programs.

From environmentally friendly batteries to vehicle components made from strong, lightweight nanopolymers, there are exciting concepts under development in Ohio. Many of them no doubt will be incorporated into NASA’s aeronautics and space programs of tomorrow, thanks to the energy and vision of the NASA Glenn Research Center. Just as important will be the application of these technologies outside of NASA, through its technology transfer function.

We know that creative scientists can invent important technologies and devices when they are charged with a specific goal, such as sending an astronaut to the moon. But I am awed by the following statistic: The NASA Glenn staff have won more of R&D Magazine’s R&D 100 awards than the staff of all other NASA agency centers combined. I cannot tell you why there is that much excellence at NASA Glenn. But I can tell you that there are very good things happening in Ohio, and they hold enormous importance for us in ways that perhaps neither the scientists nor we can predict.

The action by the Subcommittee, and particularly my good friend, the gentleman from Ohio (Mr. HOSSON), will be of great assistance to keep NASA Glenn and Ohio on this course set for excellence.

TRIBUTE TO TOM BARNES

HON. KEN CALVERT
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES

Thursday, July 26, 2001

Mr. CALVERT. Mr. Speaker, I rise today to pay tribute to a most wonderful person, friend and father—Tom Barnes—who passed away at the young age of 55 last Wednesday, July 18th.

Calvin Coolidge, America’s 13th President, once said, “No person was ever honored for what he received; honor has been the reward for what he gave.” And Tom Barnes gave much to his community and the whole of the Inland Empire during his life.

A small piece of heaven just south of Corona, Tom’s Farms, was Tom Barnes’ gift to countless men, women and children. After years of selling fruit out of the back of his truck, Tom opened Tom’s Farms in 1971. In the tradition of Walter Knott of Knott’s Berry Farm and the culture of roadside stands, Tom offered tourists traveling through California’s Inland Empire fresh fruits, antique furniture and dining all in the picturesque setting of country-style buildings painted yellow with green trim, a lake and the majestic shade of large trees. Today, Tom’s Farms remains the perfect family outing and a traditional “must-stop” for anyone heading south on Interstate 15.

His roots take us back to Kansas City, Missouri where Tom got his start in business by selling his father’s strawberries door to door. And today, Tom’s Farms serves as a proud testimonial to that upbringing where fresh fruit and vegetables, finches and macaws, cheeses and wines, and country and antique furniture is offered for the delight of all who stop and take a moment to enjoy their surroundings. Through present expansion, including the addition of an animal farm, Tom’s Farms promises to provide “down-home” enjoyment and family fun for years to come.

Tom Barnes was best known for his business finesse and a dedication to family and community involvement—particularly when it came to supporting local police and fire safety. In fact, for the past two years, Tom offered up Tom’s Farms for the Great Taste of Corona, an annual event to raise funds for the police and fire departments. Additionally, Tom’s versatility allowed him to expand Tom’s Farms in the form of furniture stores in Corona and San Bernardino. He was also co-owner of TB Scott’s restaurant in Corona with his best friend Scott Sherman.

Tom is survived by his wife, Leslie, two sons, two daughters and a grandson. My prayers go out to them for their loss.

Mr. Speaker, looking back at Tom’s life, we see a man dedicated to his family and community—an American whose gifts to the Inland Empire and southern California led to the betterment of those who had the privilege to come in contact or work with him. Honoring Tom’s memory is the least that we can do today for all that he gave over his lifetime.

MOYLAN’S INSURANCE UNDERWRITERS, INC

HON. ROBERT A. UNDERWOOD
OF GUAM
IN THE HOUSE OF REPRESENTATIVES

Thursday, July 26, 2001

Mr. UNDERWOOD. Mr. Speaker, thirty years ago, a small company founded on Guam with only three employees was charged with the daunting task of servicing the island’s insurance needs. The small company soon blossomed into a thriving business and became a hallmark of professional integrity on Guam—Moylan’s Insurance Underwriters Inc.

For the past thirty years, Moylan’s has earned the reputation of being the “Home of the Good Guys and Gals” and has been at the forefront in providing insurance services to the people of Guam. Founded in 1971 by Kurt S. and Judith Moylan, the business today has nearly 100 employees with branches in Guam, Saipan, Palau, Pohnpei, Yap, Kosrae, Chuuk and the Marshall Islands.

In 1997, Moylan’s Insurance was named General Agent for the MMI Group. One of Australia’s largest general insurers the MMI group is affiliated with some of the largest general insurance companies in the world. In 1998, First Net Insurance Company, a project of Moylan’s Insurance Underwriters, Inc. was incorporated as a domestic Property and Casualty company. The company’s reinsurance program for the year 2000 is underwritten by Allianz AG out of its regional office in Singapore. Allianz is one of the largest reinsurers and financial services organizations around the world, and is rated by Standard & Poor’s as a AAA security, the highest possible rating under S&P’s scale.
