URGING SUPPORT FOR THE INTERNATIONAL SPACE STATION

(Mr. PENCE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PENCE. Mr. Speaker, Tuesday at 1:39 p.m. the Space Shuttle Atlantis and its crew returned to Earth, successfully delivering and installing a new portal for spacewalkers, the International Space Station. On Monday of next week, we just learned, Mr. Speaker, that the debate over the future of NASA will land in this Chamber.

I rise today to urge my colleagues to remember that despite the fact that some of our forebears came to this continent in chains, all Americans are descendents who journeyed to or prevailed in this wilderness nation.

More than any other people on the Earth, we are a nation of explorers, and the debate next week will provide an important opportunity to restate this by providing resources for the International Space Station, for return vehicles and urgent repairs for the vehicle assembly building at Kennedy Space Station.

DEBATING AMERICA'S ENERGY POLICY

(Mr. INSLEE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. INSLEE. Mr. Speaker, next week we will take up the energy policy bill, which really is going to be one of the most important bills, both from an energy and from an environmental perspective, in the next 10 years. It is our hope that during the next few days, the majority leadership will fashion a rule which will, in fact, allow environmental considerations in this bill.

We definitely need to improve this bill. We need to improve it by increasing the energy efficiency of our automobiles. This bill does not do it. We need to have additional tax incentives for renewable energy and clean conservation technologies. This bill does not do it. We need pipeline safety to make sure pipelines do not explode. This bill does not do it. We need better efficiency standards. Lastly, we ought to make sure we do not drill in the Arctic Refuge.

Mr. Speaker, I hope the Speaker will personally use the energy in the majority caucus to make sure we have a fair and honest debate on these very important environmental measures. Next week the House needs to speak on these. Let us give people in America trust in the environment as well as energy next week.

URGING THE HOUSE TO CONTINUE FULL SUPPORT FOR THE INTERNATIONAL SPACE STATION

(Mr. LAMPSON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMPSON. Mr. Speaker, I want to associate my words with those of the gentleman from Indiana (Mr. Pence) who made the comments about the NASA budget, and to urge our colleagues to continue to support the tremendous work that has been done by the Committee on Appropriations to make sure that we have adequate funding to keep the International Space Station on the path that we have set it on, to make sure that we have a full crew of seven researchers and astronauts there, that we accomplish the goals that we set for that, with a safe crew return vehicle and continued operation of the space shuttle in a safe and effective manner.

SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 3, 2001, and under a previous order of the House, the following Members will be recognized for 5 minutes each.
