The Pico Water District currently has nine functional wells available to deliver water. The present energy crunch is being met in Pico Rivera by a water district prepared to provide uninterrupted excellent service. In fact, in the past 75 years, only natural disasters such as earthquakes have interrupted the District’s water service.

The Pico Water District provides only the highest quality water to its customers. Every week, numerous bacteriological and chemical tests are performed by the District. As a result of this meticulous work and the high standards maintained by the District, the quality of Pico Rivera’s water has never been challenged by the Health Department. This high quality service is provided at very reasonable rates. In fact, the Pico Water District remains the only water district in Los Angeles County that does not tax its customers.

I urge all of my colleagues to join me in recognizing the hard work of the Pico Water District. The high quality of service the District provides should serve as a model for water providers throughout California. Since 1926, the Pico Water District has worked as a cohesive unit to provide water to its customers. Please join me in commending them as they celebrate their 75th Anniversary.
