HEALTH CARE FOR MILITARY RETIREES

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Mississippi (Mr. TAYLOR) is recognized for 5 minutes.

Mr. TAYLOR of Mississippi. Mr. Speaker, I want to thank you for the opportunity to speak to the people tonight about the terrible tragedy that occurred a week ago Tuesday, about the terrible loss of life for not only people who serve in the military at the Pentagon, the folks that worked at the World Trade Center, the people on those airplanes, but the firefighters who lost their lives trying to save the lives of others. I think it has caused us all to reflect and hopefully appreciate more those people who work every day to look out for us.

It also brings to the mind the importance of rewarding those people who serve us, treating them well, paying them well, giving them the best possible equipment because as the President spoke last night, they will be called upon in the very near future.

One of the promises that has been made to those people for decades, certainly since World War II and in the Army recruiting those years all the way up to 1991, was a promise of free lifetime health care if they served their country honorably for 20 years or more in the military.

Mr. Speaker, I regret to inform my fellow citizens that because of the failure of an agreement between the Department of Defense and Medicare, those military retirees who were hoping to take that benefit to a military treatment facility will probably be turned away on October 1.

I say I regret that because, as we probably know, more than half of our Nation’s military retirees have chosen to retire near a military treatment facility. That is their family. We as a Nation asked them to leave their parents, their neighbors, their community, and move away on October 1.

So I say to my colleagues who voted to say to our military retirees intentionally bought a home near a base so they could use that base hospital, and now the same Nation that can provide $16 billion in foreign aid, the same Nation that can waive the budget rules to bail out the airlines, give their corporate executives 20 and $30 million a year to run those companies into the ground, the same Nation that can spend money left and right, waiving the rules anytime they feel like it for those who really have not earned it to this extent are going to tell our Nation’s military retirees that because you do not fit quite right into the budget we cannot find the money to do so.

Mr. Speaker, I am asking for an amendment that has already passed this House overwhelming about a year ago right now. There were 406 of my colleagues who voted to say to our Nation’s military retirees that they could continue to use that base hospital and that Medicare is going to reimburse that base hospital for their care. After all, the sailors, the soldiers, the Marines, the airmen paid their Medicare taxes just like everybody else; and if it is their choice to go to a military treatment facility, then that is where they ought to be able to go.

Unfortunately, the law now blocks them from doing so. We sent that bill over to the Senate; and unfortunately the Senate chose to take our language that says they have to do it and said to Medicare, they may do it, they can reach an agreement if they feel like it. Well, the bureaucrats at Medicare did not feel like it; and so now our soldiers, our airmen, our sailors, our coast guardsmen, they are the ones that have to suffer.

Mr. Speaker, I am asking for a real simple thing on the defense authorization bill next week. I am asking for an amendment that the Senate chose to speak in favor for fulfilling the promise of lifetime health care to our Nation’s military retirees and a Nation that is going to find $320 billion to defend itself that just last week spent an additional $40 billion on defense, one would think we could find a hundred million or so to do that for our Nation’s military retirees.

I am particularly disturbed, Mr. Speaker, that you have put the word out that if I so much as ask for that amendment that says we could pull the defense authorization bill. Let me say that again. If an elected representative of the people of south Mississippi so much as asks for a recorded vote on an amendment to fulfill the promise of lifetime health care for our military retirees, the Speaker of the House says he will not allow that bill to take place at all.

World Trade Center, and one a conven-}
