The House met at 12:30 p.m. and was called to order by the Speaker pro tempore (Mr. Pence).

DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC, September 24, 2001.

I hereby appoint the Honorable Mike Pence to act as Speaker pro tempore on this day.

J. Dennis Hastert,
Speaker of the House of Representatives.

MORNING HOUR DEBATES

The SPEAKER pro tempore. Pursuant to the order of the House of January 3, 2001, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning hour debates. The Chair will alternate recognition between the parties, with each party limited to not to exceed 30 minutes, and each Member except the majority leader, the minority leader or the minority whip limited to not to exceed 5 minutes.

The Chair recognizes the gentleman from Oregon (Mr. DeFazio) for 5 minutes.

AIRLINE SECURITY

Mr. DeFazio. Mr. Speaker, last Friday night, Congress rushed through a $15 billion airline bailout, and I am not going to revisit all of the problems with that legislation here this morning, with one exception. That legislation failed to allocate one cent toward additional airline security or mandate an iota of change in a system that we know has failed.

Now, the failings of aviation security were well documented before the terrorist attack. I introduced my first bill to enhance screening at airports and checking of baggage in 1987. Many other Members of Congress have introduced legislation in those intervening 15 years and even before that, but they were always opposed by the Air Transport Association acting on behalf of a number of their member airlines successfully and even in those few cases where we were able to mandate enhanced measures such as credentialing and standards for training and background checks for the screening companies.

The ATA and member airlines and the private security industry itself fought tooth and nail to delay the implementation of those regulations for 5 years. Amazingly, on the floor on Friday night, some of my colleagues on that side of the aisle said we need to privatize the system that failed us.

It took them so long to get out these regulations. It took so long because the private industry, the private security companies fought it. There was not one single airline passenger in there objecting to these regulations, raising concerns, threatening to sue and making comments, except favorable comments, on these improvements.

In 1996, Ms. Hallett, the head of the Air Transport Association, in testimony to the White House commission said it has been suggested by some that we must radically alter our nation’s air transportation system in order to make it secure. Based upon our understanding of the threat presented, this is not the case. The measured and deliberate steps to enhance security which we have put forward are responsive to the need. They then began to fight the recommendations of that commission.

It has always been driven by costs. We had the best system of security you could get by pinching pennies and always, always hiring the lowest bidder to provide the screening at the airports.

A year and a half ago in a hearing I said, and this is what I think has prevailed among the American public for a long time, I have got to tell you, when I am flying, I doubt that I could ever find one person in the plane who would say, gee, I would be really upset if I had to pay one-half of 1 percent more for my ticket to know that the person who screened me was not convicted of various felonies and at high risk of allowing something to happen on this plane. It is just extraordinary to me that we would let this system continue in this way, the lowest bidder.

Tragically, we have. In fact, last week, amazingly, after the tragedy, the CEO of Alaska Airlines told me directly in response to my suggestion that we levy a $3 surcharge on tickets for security, he said no one would ever fly again if I was successful in getting that $3 security surcharge. He said there is only one thing people respond to, quote, “people do not respond to anything other than total price.” I guess he probably flew out here on his own executive jet, and he was not too worried about security. That is how out of touch this industry is.

Then last week at Miami International, a Bureau of Alcohol, Tobacco and Firearms agent acting on his own, having notified authorities, attempted to smuggle at one time on his person three knives through security. He was successful. He even stopped and said to the people, is there anything wrong here, did something go off? And they said, oh, go, go, go. So he had given them an extra chance to ask him some questions.

Now, this same firm had been fined $110,000 in fines and restitution for failing to do background checks on at least 22 employees and then lying about it to Federal regulators, sentenced to 2 years' probation, but they are still providing security at that airport; and their manager was sentenced to 5 years in Federal prison, and they are still providing security at MIA. This is the system we get with privatization.

Security at airports needs to be and is a legitimate function of the Federal Government of the United States, a security function, a law enforcement function. We should no longer resist that on some sort of ideological bias or an attempt to buy security on the cheap.

The administration has convened a task force on kind of a slow timeline; they are proposing to come forward on October 1.

We know what we need to do. Let us not delay another day. I am amzed that this body rejected my motion last Friday night to begin the federalization process now to begin to put firms like this one in Miami International convicted of violating the law and leave them in charge. We need to take charge and make flying safer.

COMMENTING ON LETTERS FROM CONSTITUENTS AFTER THE EVENTS OF SEPTEMBER 11, 2001

The SPEAKER pro tempore. Under the Speaker’s announced policy of January 3, 2001, the gentleman from Florida (Mr. Foley) is recognized during morning hour debates for 5 minutes.

Mr. Foley. Mr. Speaker, I appreciate the Speaker’s recognition. Certainly the people of Indiana are proud to see him in the chair, and we are delighted to be reconvening this Monday morning.

Let me just thank, as chairman of the Travel and Tourism Caucus, my colleagues for working quickly on Friday to bring about some financial stability to the airline industry. And of course today, as I speak, the market, the Dow Jones Industrial Average is up some 350 points, and so we hope we have turned the corner on pessimism; and I know there is still opportunity to review and reflect on what the gentleman from Oregon (Mr. DeFazio) just spoke of.
CONGRESSIONAL RECORD—HOUSE
GUAM STANDS READY

September 24, 2001

The SPEAKER pro tempore. Under the Speaker’s announced policy of January 3, 2001, the gentleman from Guam (Mr. UNDERWOOD) is recognized during morning hour debate for 5 minutes.

Mr. UNDERWOOD. Mr. Speaker: It is in this time of national crisis and in this time of national need that I am proud to stand here in the House to reflect upon it and also to report that Guam stands ready to do its part. In fact, it is doing so as we speak and as we deliberate.

Guam’s strategic location on the other side of the international date line, its very extensive military infrastructure, means that American resources and personnel, some of our strongest assets, are moving through Guam as we speak, through that part of America, on their way to South Asia and on their way to eventual victory.

The people of Guam have had a long experience with the military and, in fact, are very closely aligned with the military not only economically but socially and also politically. We have over 2,000 people in uniform, on active duty, which amounts to about three times the national average. The people of Guam are in every branch and in every special operations unit and in every corner of the world today.

Therefore, I rise today to recognize the people of Guam and to express the shock, repugnance and horror of the People of Guam at the hijacking of American commercial passenger airliners, the terrorist attacks upon the World Trade Center and Pentagon, and extending the condolences, sympathy and prayers of the People of Guam to those injured and the families of those who did not survive these acts of cowardice and inhumanity.

Be it resolved by the Liheslaturan Gua˚han:

Whereas, I Mina’Bente Sais Na Liheslaturan Guåhan (the Twenty-Sixth Liheslaturan Guåhan) as representing the People of Guam, have experienced the horrors of war during the bombing of their island on December 8, 1941 and having experienced the horrors, cruelty and human suffering of war, understand, comprehend, to the frightening terror resulting from the murderous attacks upon the World Trade Center in New York City and the Pentagon in Washington, D.C.; and

Whereas, the People of Guam, though situated more than 10,000 miles from New York and Washington, D.C., through advances in communications and technology, watched, in horror and disbelief, the events beginning with the first aircraft attack upon the World Trade Center, and have continued to follow all news reports on these tragedies; and

Whereas, the People of Guam, being extremely loyal and patriotic Americans, agree, and are in consonance with the words of President George W. Bush that these acts
have inflamed ‘a yielding anger’ in all Americans; have created a firm resolve that no American will be spared as long as justice has not been achieved”; that “there will be no differentiation between those who committed these acts of inhumanity and those who harbor them”;

Whereas, the People of Guam, staunch defenders of liberty, freedom and democracy, do and demand that the United States uphold its role in American policy and philosophy of promoting principles of liberty, freedom and democracy throughout the World for all people; now therefore, be it

Resolved, That I Mina'Bente Sais Na Lihestarian Gua˚han does hereby, on behalf of the People of Guam, condemn the hijacking of American commercial passenger airliners by terrorist forces and the attack and bombing of the New York City World Trade Center Twin Towers and the Pentagon as cowardly acts of war perpetrated upon the United States of America and its People; and be it further

Resolved, That I Mina'Bente Sais Na Lihestarian Gua˚han does hereby, on behalf of the People of Guam, wholeheartedly and resolutely support the promise and determination of George W. Bush, to “hunt down and bring to justice” those who plan and perpetrate such acts of war against any freedom loving people and nation, as well as those who harbor and provide refuge to such perpetrators and mass murderers; and be it further

Resolved, That I Mina'Bente Sais Na Lihestarian Gua˚han does hereby, on behalf of the People of Guam, wholeheartedly support President George W. Bush’s stern intent and resolve to capture, arrest and prosecute all involved in this breach of peace and violation of human rights, and his declaration of and resolution that the search, capture and prosecution of these mass murderers is a top priority of the United States government and its law enforcement agencies; and be it further

Resolved, That I Mina'Bente Sais Na Lihestarian Gua˚han does hereby, on behalf of the People of Guam, extend to the Honorables J. Dennis Hastert, Speaker of the U.S. House of Representatives, and President of the U.S. Senate; to the Honorable Richard B. Cheney, Vice President of the United States; to the Honorable Bush, President of the United States of America; to the Honorable Carl T. Gutierrez, I Maga’lahen Guahan (Governor of Guam).

But at the same time that we stand in solidarity with the rest of America, our own home island is also facing the greatest economic challenge that it has faced since World War II when Guam was devastated as the only American territory occupied by an enemy during the entire 20th Century.

Guam’s economy is fueled primarily by tourism, most of it from Japan. Even prior to this attack, Guam was experiencing a 15 percent unemployment rate, because our economy is tied so much to Japan’s, which was three times the national average. Guam was experiencing a $40 million shortfall in revenues for the Government of Guam, roughly 10 percent of its entire budget, and for months my office, along with other political leaders on Guam and business leaders, have since tried to figure out various economic strategies of recovery.

But since the attack, the results have even been worse. The economic picture that we face is even worse. Because of international uncertainty and safety concerns, and perhaps a little bit out of deference to a Nation in mourning, many international tourists have canceled their plans to come to Guam. This is devastating to my home island.

Continental Micronesia, which is the major airline of Guam, has laid off hundreds of workers. Hotels, restaurants and shops are empty; hundreds have been sent home or had their hours cut back dramatically. The ripple effect on ancillary economic activity and on Government of Guam revenues is immediate and dramatic. 25,000 Japanese tourists have canceled their plans to visit Guam this month, and it is estimated that there will be a 25 to 30 percent decline in the coming months in the number of tourists from Japan.

The people of Guam are no strangers to tough economic times. Time and time again, the people of Guam have weathered the storm and persevered during economic hardship. Whether it was rebuilding the economy after a Supertyphoon, like Omar in 1992 and Paka in 1997, or an earthquake, like the 8.1 on the Richter scale we experienced in 1993, or following World War II, or the Gulf War, the people of Guam have always fought back, remained patient but determined, and eventually overcame the economic difficulty.

Recovery from the Asian financial crisis, the downsizing of the military following the Cold War, and now the recent terrorist attacks, presents an unprecedented challenge. In this hour of national crisis, Guam will do its part, as it has done in the past. We support the national effort and lend our assistance and support to all military activities in Guam.

Economic recovery is perhaps the best way to show that this Nation is back to normal. Economic assistance for communities and workers suffering from the decimation of entire industries is one of the best ways, although not the best way, to demonstrate that this Nation’s political leadership understands the meaning of the attack nearly 2 weeks ago.

In the coming days and weeks, I will vigorously pursue an economic stimulus plan for Guam and the insular areas. There has been some progress on this, but much work needs to be done.

I ask that the U.S. territories not be forgotten as we contemplate economic relief proposals for the entire Nation in the coming weeks and the coming months.

RECESS

The SPEAKER pro tempore (Mr. Pence). Pursuant to clause 12 of rule 1, the Chair declares the House in recess until 2 p.m.

Accordingly (at 12 o’clock and 49 minutes p.m.), the House stood in recess until 2 p.m.

□ 100

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. MILLER of Florida) at 2 p.m.

PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

Lord God of time and eternity, our national story is rooted in faith in You. Motivated by religious sentiments, the chapters of our history turn on pages of prayerful trust during times of crisis.

Be with us at this present hour, during our evolving crisis.

We are on the way, O Lord. Our flag flies at full mast as our planes once again reach for the sky and our ships cross the mighty shoulders of the seas. From memorial services, America struggles from her knees and comes to full stature again, poised for the next move.

Be with us, Lord, in our next step. The distant display of military on the horizon and the powerful workforce engaged by Monday’s routine are united here on the floor of Congress and motivate us to pray.

Be with all of us, Lord, about our daily tasks as Americans.

Ready to defend what we love, alert to alarms and setbacks, yet compassionate to all human limitation and suffering, we are on our way, Lord, to confront the evils of our time. With clear vision and good judgment, inspire in us only just desires.

Be with us, Lord, now and forever.

Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the
CONGRESSIONAL RECORD—HOUSE

EXPRESSING SENSE OF CONGRESS REGARDING ESTABLISHMENT OF NATIONAL CHARACTER COUNTS WEEK

Mr. FLETCHER. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 204) expressing the sense of Congress regarding the establishment of National Character Counts Week.

The Clerk reads as follows:

H. Con. Res. 204

Whereas the well-being of the Nation requires that the young people of the United States become an involved, caring citizenry with good character;

Whereas the character education of children has become more urgent as violence by and against youth increasingly threatens the physical and psychological well-being of the people of the United States;

Whereas more than ever, children need strong and constructive guidance from their families and their communities, including schools, youth organizations, religious institutions, and civic groups;

Whereas the character of a nation is only as strong as the character of its individual citizens;

Whereas the public good is advanced when young people are taught the importance of good character and the positive effects that good character can have in personal relationships, in school, and in the workplace;

Whereas scholars and educators agree that people do not naturally develop good character and that, therefore, conscientious efforts must be made by institutions and individuals that influence young people to help young people develop the essential traits and characteristics that comprise good character;

Whereas, although character development is, first and foremost, an obligation of families, the efforts of faith communities, schools, and youth, civic, and human service organizations also play an important role in fostering and promoting good character;

Whereas Congress encourages students, teachers, parents, youth, and community leaders to recognize the importance of character education in preparing young people to play their role in determining the future of the Nation;

Whereas effective character education is based on core ethical values which form the foundation of democratic society;

Whereas examples of character are trustworthiness, respect, responsibility, fairness, caring, citizenship, and honesty;

Whereas elements of character transcend cultural, religious, and socioeconomic differences;

Whereas the character and conduct of our youth reflect the character and conduct of society; therefore, every adult has the responsibility to teach and model ethical values and every social institution has the responsibility to promote the development of good character;

Whereas Congress encourages individuals and organizations, especially those who have an interest in the education and training of the young people of the United States, to adopt the elements of character as intrinsic to the well-being of individuals, communities, and society;

Whereas many schools in the United States recognize the need, and have taken steps, to integrate the values and traits of good character into their teaching activities;

Whereas the establishment of National Character Counts Week, during which individuals, families, schools, youth organizations, religious institutions, civic groups,
and other organizations would focus on character education, would be of great benefit to the Nation; and

Whereas the week beginning October 15, 2001, and the week beginning October 14, 2002, are appropriate weeks to establish as National Character Counts Week: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That it is the sense of Congress that:

(1) a National Character Counts Week should be established to promote character education; and

(2) the President should issue a proclamation calling upon the people of the United States to:

(A) embrace the elements of character identified by their local schools and communities, such as trustworthiness, respect, responsibility, fairness, caring, citizenship, and honesty; and

(B) observe such a week with appropriate ceremonies, programs, and activities.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Kentucky (Mr. FLETCHER) and the gentleman from California (Ms. SOLIS) each yield 20 minutes.

The Chair recognizes the gentleman from Kentucky (Mr. FLETCHER).

Mr. FLETCHER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the concurrent resolution now under consideration, H. Con. Res. 204.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

Mr. FLETCHER. Mr. Speaker, I yield myself such time as I may consume.

Mr. FLETCHER. Mr. Speaker, I reserve the balance of my time.

Mr. FLETCHER. Mr. Speaker, I yield 4 minutes to the gentleman from Texas (Mr. SMITH).
Mr. SMITH of Texas. First, Mr. Speaker, I want to thank the gentleman from Kentucky (Mr. FLETCHER) for yielding me this time, and I also want to thank him for his help in passing this resolution, which I introduced last July.

Mr. Speaker, a good definition of character is summed up in the old saying “Character is what you do when no one is looking.”

Men and women of character are guided by their sense of right and wrong. They do not look to others for approval or bend to peer pressure.

National polls indicate that moral concerns and family decline are some of the most important problems facing the country today. Too many of our children grow up in a culture that acknowledges no right or wrong.

Americans are concerned about the quality of their children’s education. They are also troubled about the decline in our Nation’s values and its effect on our children. Although parents should be the primary developers of character, educators play an increasingly important role. Communities across the Nation recognize that character education is an integral part of a well-rounded curriculum.

Our Nation’s teachers are aware that character education can establish standards for behavior.

President Bush has made character education an important component of his education reform bill. By allocating funds to character education, States, local education agencies, parents, and students will have an opportunity to promote character and values. This resolution will encourage schools to embrace character education. It designates the third week of October of this year and 2002 as “National Character Counts Week.”

I hope children across the Nation will participate in character-building activities in their schools. It is imperative that we teach our children the values that strengthen their character and make our country strong. To reap the rewards of a virtuous society, we must first sow the seeds of character when we educate our children.

Ms. SOLIS. Mr. Speaker, I would like to just reiterate that this is a good bill and ask my colleagues to support it.

Mr. Speaker, I yield back the balance of my time.

Mr. FLETCHER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, let me just close before I yield back the remainder of my time.

In light of the recent events, it seems even more appropriate to quote Dr. Martin Luther King. Let me read his quote: “The function of education, therefore, is to teach one to think intensively and to think critically. But education which stops with efficiency may prove the greatest menace to society. The most dangerous criminal may be the man gifted with reason and no morals. We must remember that intelligence is not enough. Intelligence plus character, that is the goal of true education.”

Mr. BUYER. Mr. Speaker, I rise in support of this Resolution, House Concurrent Resolution 204, legislation establishing a national “Character Counts Week” sponsored by my friend from Texas, Mr. LAMAR SMITH.

Today, the vast majority of Americans share a respect for fundamental truths: character, honesty, compassion, justice, courage, and perseverance. Yet, in today’s world, all children face great uncertainties in a complex and sometimes troubled society.

Positive character traits are not always readily apparent and easy for them to grasp or learn. When children are young, it can be difficult to decipher between what is right and what is wrong. Therefore, our challenge is to provide youths with the self-esteem, stamina, and support they need to survive, be successful, and develop into strong, competent, caring, and responsible citizens.

This resolution encourages the establishment of a “Character Counts” week, geared towards educators, students and communities to become more involved in the development of positive character traits.

Life consists of a series of choices. Every choice you make helps to define the kind of person you choose to be. Good character requires doing the right thing even when it is costly, risky, or when no one is looking. With all the pressures youths face today, how can we, as lawmakers, encourage our children to do the right thing, while so many elements in our culture say the complete opposite?

That is why it is so important for Congress to pass this resolution. Character education is about celebrating what is right with young people while encouraging and enabling them to develop knowledge and life skills for enhancing ethical and responsible behavior. I urge my colleagues to join with me in support of this measure.

Ms. CARSON of Indiana. Mr. Speaker, “character.”

Webster’s New World Dictionary, Third college Edition defines “character” as “moral strength, self-discipline, fortitude.”

The pillars which guide ethical decision-making, which make up character are: Trustworthiness, respect, responsibility, fairness, caring, citizenship.

Trustworthiness includes morality, honesty, truthfulness, sincerity, candor, loyalty and integrity.

Respect includes civility, courtesy and decency.

Being responsible means being in charge of our choices and, thus, our lives. It means being accountable for what we do and who we are.

Fairness involves issues of equality, impartiality, proportionality and openness.

Caring is ultimately about our responsibilities toward other people. A person who really cares feels an emotional response to both the pain and pleasure of others.

The concept of citizenship includes civic virtues and duties that prescribe how we ought to behave as part of a community. The good citizen gives more than he or she takes.

As leaders of this great nation, especially at this time, we must be examples of strong, moral unblemished character and encourage the young people of this nation to replicate these attributes in all their ways and conduct.

Mr. FLETCHER. Mr. Speaker, I have no further request for time, and I yield back the remainder of my time.

The SPEAKER pro tempore (Mr. MILLER of Florida). The question is on the motion offered by the gentleman from Kentucky (Mr. FLETCHER) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 204.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Ms. Wanda Evans, one of his secretaries.

SMALL BUSINESS TECHNOLOGY TRANSFER PROGRAM REAUTHORIZATION ACT OF 2001

Mr. MANZULLO. Mr. Speaker, I move to suspend the rules and pass the bill (H. R. 1860) to reauthorize the Small Business Technology Transfer Program, and for other purposes, as amended.

The Clerk read as follows:

H. R. 1860

To be enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE. — This Act may be cited as the “Small Business Technology Transfer Program Reauthorization Act of 2001”.

SEC. 2. EXTENSION OF PROGRAM AND EXPENDITURE AMOUNTS.

(a) IN GENERAL. —

SEC. 9(n)(1) of the Small Business Act (15 U.S.C. 638(n)(1)) is amended to read as follows:

“(1) REQUIRED EXPENDITURE AMOUNTS.—

“(A) IN GENERAL. — With respect to each fiscal year through fiscal year 2009, each Federal agency that has an extramural budget that includes activities that meet the requirements of this section and any policy directives and regulations issued under this section.

“(B) EXPENDITURE AMOUNTS. — The percentage of the extramural budget required to be expended by an agency in accordance with subparagraph (A) shall be—

“(i) 0.15 percent for each fiscal year through fiscal year 2003; and

“(ii) 0.3 percent for fiscal year 2004 and each fiscal year thereafter.

(b) CONFORMING AMENDMENT. — Section 9 of the Small Business Act (15 U.S.C. 638) is amended in subsections (b)(4) and (e)(6), by striking “pilot” each place it appears.

SEC. 3. INCREASE IN AUTHORIZED PHASE II AWARDS.

(a) IN GENERAL. — Section 8(p)(2)(B)(ix) of the Small Business Act (15 U.S.C. 638(p)(2)(B)(ix)) is amended —
(1) by striking “$500,000” and inserting “$750,000”;
and
(2) by inserting before the semicolon at the end the following: “; and shorter or longer periods of time to be approved at the discretion of the awarding agency where appropriate for a particular project.”

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall be effective beginning in fiscal year 2004.

SEC. 4. SMALL BUSINESS TECHNICAL INSTITUTE AND TECHNICAL INSTITUTE FOR INTELLECTUAL PROPERTY RIGHTS.

Section 9(o) of the Small Business Act (15 U.S.C. 638(o)) is amended—
(1) in paragraph (12), by striking “and” at the end
(2) in paragraph (13), by striking the period at the end and inserting a semicolon; and
(3) by adding at the end the following: “(14) implement an outreach program to research institutions and small business concerns for the purpose of enhancing its SBIR program, in conjunction with any such outreach done for purposes of the SBIR program; and”.

SEC. 5. POLICY DIRECTIVE MODIFICATIONS.

Section 9(p) of the Small Business Act (15 U.S.C. 638(p)) is amended by adding at the end the following:
“(3) MODIFICATIONS.—Not later than 120 days after the date of enactment of this paragraph, the Administrator shall modify the policy directive issued pursuant to this subsection to clarify that the rights provided for under paragraph (2)(B)(v) apply to all Federal agencies, small business concerns, research institutions and small business concerns and research institutions intellectual property rights and rights, if any, to carry out follow-on research, development, or commercialization.”

SEC. 6. DATABASE.

Section 9(o) of the Small Business Act (15 U.S.C. 638(o)) is amended by adding after the end the following new paragraph:
“(3) DATABASE.—Section 9(k) of the Small Business Act (15 U.S.C. 657d(c)(2)(B)) is amended—
(a) IN GENERAL.—Section 9(o) of the Small Business Act (15 U.S.C. 638(o)), as amended by this Act, is amended by adding at the end the following:
“(15) select, and maintain in a common format in accordance with subsection (v), such information from awardees as is necessary to maintain the database described in subsection (k).”;
(b) DATABASE.—Section 9(k) of the Small Business Act (15 U.S.C. 657d(c)(2)(B)) is amended—
(1) in paragraph (1)—
(A) by inserting “or STTR” after “SBIR” each place it appears;
(B) in subparagraph (D), by striking “and” at the end
(2) in paragraph (D), by striking the period at the end and inserting “; and”;
(3) by adding at the end the following:
“(E) with respect to assistance under the STTR program only—
“(i) whether the small business concern or the research institution initiated their collaboration on each assisted STTR project;
“(ii) whether the small business concern or the research institution originated any technology relating to the assisted STTR project;
“(iii) the length of time it took to negotiate any licensing agreement between the small business concern or the research institution under each assisted STTR project; and
“(iv) how the proceeds from commercialization or sale of technology resulting from each assisted STTR project were allocated (by percentage) between the small business concern and the research institution.”;
and
(2) in paragraph (2)—
(A) by inserting “or an STTR program pursuant to subsection (n)(1)” after “(f)(1)”;
(B) by striking “solely for SBIR” and inserting “exclusively for SBIR and STTR”; and
(C) in subparagraph (A)(ii), by inserting “and STTR” after “SBIR”; and
(D) in paragraph (3), by striking “or STTR” after “SBIR”.

SEC. 7. STTR PROGRAM-WIDE MODEL AGREEMENT FOR INTELLECTUAL PROPERTY RIGHTS.

(a) DEVELOPMENT OF MODEL AGREEMENT.—

Section 9 of the Small Business Act (15 U.S.C. 638) is amended by adding at the end the following:
“(w) STTR MODEL AGREEMENT FOR INTELLECTUAL PROPERTY RIGHTS.

(1) IN GENERAL.—The Administrator shall promulgate regulations establishing a single model agreement for use in the STTR program that allocates between small business concerns and research institutions intellectual property rights and rights, if any, to carry out follow-on research, development, or commercialization.

(2) OPPORTUNITY FOR COMMENT.—In promulgating regulations under paragraph (1), the Administrator shall provide to affected agencies, small business concerns, research institutions, and other interested parties the opportunity to submit written comments.”

SEC. 8. FAST PROGRAM ASSISTANCE TO WOMEN-OWNED AND MINORITY-OWNED SMALL BUSINESS CONCERNS AND CONCERNS LOCATED IN AREAS NOT PARTICIPATING IN SBIR AND STTR.

(a) SELECTION CONSIDERATION.—Section 34(c)(2)(B) of the Small Business Act (15 U.S.C. 657d(c)(2)(B)) is amended—
(1) in clause (iv), by striking “and” at the end;
(2) in clause (v), by striking the period at the end and inserting “; and”;
and
(3) by adding at the end the following new clause:
“(vi) whether the proposal addresses the needs of small business concerns—
“(I) owned and controlled by women;
“(II) owned and controlled by minorities; and
“(III) located in areas that have historically not participated in the SBIR and STTR programs.”;
(b) REGULATIONS.—Section 34(c)(4) of the Small Business Act (15 U.S.C. 657d(c)(4)) is amended by adding after the period at the end the following:
“The Administrator shall promulgate regulations establishing standards for the consideration of proposals under paragraph (2), including standards regarding each of the considerations identified in paragraph (2)(B).”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Illinois (Mr. Manzullo) and the gentleman from Texas (Mr. Gonzalez) each will control 20 minutes.

The Chair recognizes the gentleman from Illinois (Mr. Manzullo).
Participating agencies are directed in this bill to implement an outreach program to research institutions and small business concerns for the purpose of enhancing the SBIR program in conjunction with any such outreach done for purposes of SBIR program.

The bill is important to foster the development of small high technology firms. I commend my Committee on Science and Technology, the gentleman from Michigan (Mr. EHLERS) and the gentleman from Michigan (Mr. BARCIA), in bringing this bill to the floor.

Mr. Speaker, I reserve the balance of my time.

Mr. GONZALEZ, Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today we stand and take the final step toward reauthorizing the Small Business Technology Transfer Program and upgrading it from its current pilot program status.

We began this initiative in 1992 with a unique goal, to help the small business and research communities work together to bring innovative new technologies to the marketplace. It is impossible to overstate the impact that technological innovation has had on the economy and on our lives. Computer and telecommunications innovation, biotechnology and chemical engineering have fueled a boom and profoundly changed the way we work and live.

An important component of this was supposed to be outreach to low-income communities. Unfortunately, the implementing regulation failed to focus on low-income communities. In consultation with the Senate, the committee changed the statutory language specifically to increase STTR and Small Business Innovation Research awards to low-income communities.

With this bill, we required the language to focus awards on businesses owned by women and socially and economically disadvantaged individuals within each State, as well as small businesses in regions that have been previously overlooked by STTR and SBIR awards.

I want to make it absolutely clear that outreach is a critical component to technology development. The enhancements included in this bill will begin to open access to technology for businesses located in low-income communities and other underserved regions, and we will measure the success of this outreach by tracking the number of those awards in those particular communities.

During the past decade, we saw enormous growth in small business and technological innovation. The benefits are many, but the gap between communities who benefit from the economic growth of these efforts and those who are left behind is too wide. STTR is instrumental in helping more researchers and small businesses build the next new thing while at the same time bridging the digital divide.

Mr. Speaker, I urge my colleagues to support this measure.

Mr. Speaker, I reserve the balance of my time.

Mr. MANZULLO, Mr. Speaker, I yield 8 minutes to the gentleman from Michigan (Mr. EHLERS), the primary sponsor of this legislation.

Mr. EHLERS. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I rise in support of H.R. 1860, the Small Business Technology Transfer Program Reauthorization Act of 2001. I thank the gentleman from Illinois (Mr. MANZULLO) and the gentleman from Texas (Mr. GONZALEZ) for their supportive comments on this bill.

Approximately 5 years ago, I was chartered by then-Speaker Gingrich and the gentleman from Wisconsin (Mr. SENSENBRENNER), the chairman of the Committee on Science and Technology, to prepare a report on updating the science policy of our Nation and outlined where we should be heading. That report came out of the Committee on Science and Technology, was approved by the House of Representatives, and became popular enough that it is now in paperback.

In that report, we made a major statement on several issues; one of which was to bridge the so-called valley of death between basic research and applied research so that we could have more ideas flowing out of basic research into applied research and eventually into product development.

The program we are talking about here today is a program which can help bridge that valley. We are recommending, based on the success of this program, that it be reauthorized and, in fact, improved.

Investment in technology, research, and development and this scientific enterprise is a key component of sustaining the economic growth of the past decade, much of which is based on developments in science and technology.

As growth slows, Congress must seek ways to bolster its investment and renew strong economic performance. I am pleased to rise in support of this legislation because it will bring research out of the labs and into the marketplace to help our economic engine roar back to life.
This program, which is the subject of this bill, stimulates technology transfer from research institutions to small businesses by awarding grants for collaborative research endeavors. Small businesses and nonprofit research institutions. This award process has three phases. Phase one is a testing stage to determine the scientific, technical, and commercial merit and feasibility of a proposed R&D effort. During this phase, companies are limited to $100,000 during this stage. Projects that successfully complete phase one may be further developed in phase two, with additional funding up to $500,000. Phase three is designed for final R&D efforts and for commercialization of the idea. However, no Federal STTR funding is allowed for this stage. At that point it becomes the responsibility of the company.

This program is currently funded through a set-aside of 0.15 percent of Federal R&D budgets that exceed the threshold of $1 billion. Currently, five agencies participate in STTR: Department of Defense; National Aeronautics and Space Administration; Department of Health and Human Services, primarily through the National Institutes of Health; the Department of Energy; and the National Science Foundation.

The General Accounting Office evaluated STTR in 2000-2001 and found that companies receiving phase one grants felt that both the company and research counterpart contributed significantly to the expertise and implementation of the project. They reported a variety of outcomes, ranging from product sales to project discontinuation. And 99 percent of the grant recipients surveyed believed the STTR program should continue.

In addition to that, they did a survey of the companies involved to see what the effects were, and they discovered that the potential return on investment. Just the six most successful projects alone accounted for sales of $132 million. That almost covers the cost of the entire STTR program during the first few years. In addition, the top two projects had $115 million of sales. Now, recognize, these sales go on and on for years. These are just the sales for the first year or two. So it clearly is a program that works. It is successful and does improve our economy.

This current bill, which I am offering, H.R. 1860, does several things to improve the program. First, legislation reauthorizes the program through fiscal year 2009 and raises the set-aside percentage from 0.15 percent to 0.3 percent, which will increase the annual awards by approximately $60 million overall. Second, it increases the ceiling on the phase two award from $500,000 to $750,000. This simply reflects the rising costs of doing business since the program’s inception in 1992.

Finally, H.R. 1860 will, among other things, strengthen the data collection and reporting requirements of the agencies and small businesses participating in STTR and standardize intellectual property rights agreements between the recipient and the business partners. That last aspect is very important, because the participants reported a significant amount of their time, money, and effort had gone into developing the property rights agreements between the recipients and the business partners.

This bill standardizes that process and will save a considerable amount of time and money, particularly in attorneys’ fees and the time of the participants.

This bill is a cooperative effort between the House Committee on Science, the House Committee on Small Business and the Senate Small Business Committee. The three committees have worked in a bipartisan, bicameral effort to ensure this important program. In fact, the manager’s amendment reflects that cooperation by inserting the text of Senate bill 856, which is almost identical to our bill, as the manager’s amendment.

I would like to thank the leadership of these committees, Chairman Boehlert, ranking member Hall, Chairman Manzullo and ranking member Velázquez, for their efforts in bringing this bill to the floor. This is a good bill that will improve upon an already successful small business program. It will strengthen R&D partnerships between research institutions and small businesses. It will help America’s economy by encouraging new small business ventures, which are a key component of fueling further economic growth and development initiatives.

This program is designed to add the lack of capital that small business research and development firms experience when getting started. Another unique aspect of the program is that small businesses can partner for research projects with research institutions, federally funded research and development centers, or nonprofit organizations.

By supporting this legislation, we are taking a big step to strengthen and improve the STTR program and its delivery program to women-owned, minority-owned, and those companies located in low-income communities. This program is a valuable tool to assist small business owners who focus on research and development initiatives.

We have expanded the STTR in a number of ways. We raised the percentage of Federal agencies’ research budgets reserved for STTR from 1.5 percent to 3 percent. We also increased the amount of phase two awards from $500,000 to $750,000 to help more innovations get to market. To help small businesses and institutions with a blizzard of different standardized agreements, we are asking the Small Business Administration to develop a single, standardized model agreement.

And we are asking SBA to make a concerted effort to reach out to underserved areas of the country with grants for those communities. We will see how well the agency does by tracking where and to whom STTR and SBIR grants are awarded. Technology can be the great economic equalizer, but the digital divide must be bridged first.

In my district in New Mexico, I have a large rural area. Issues of the digital divide are profound. In fact, one young student recently won a computer in a school contest but did not have a telephone line to hook up the computer. We need an aggressive effort at digital inclusion. The small business technology transfer program will help bridge this gap through a grant program.

I would like to thank all my colleagues on the Committee on Small Business for their support and hard work on this bill, which has been 9 years in the making and is needed now more than ever. I would also like to thank the gentleman from Illinois (Mr. Manzullo). I know that he brings to this committee a bipartisan approach. We have been very successful at working together. I congratulate him for all his hard work and leadership on this bill.

Mr. GONZALEZ. Mr. Speaker, I yield myself the balance of my time.

The Committee on Small Business, Mr. Speaker, has always been recognized as a true model of bipartisanship. I commend the chairman of the committee and all Members for that tradition. I want to commend both the chairman of the committee and the ranking member for being really the guiding light in this as in many other pieces of legislation that will expand that business universe to all the small business men and women in this Nation.
H.R. 1860 today presents a greater opportunity than ever before. It is not only an expansion but it is a monitoring; and it really is an accountability to make sure that the legislation that we pass when it gets down on the ground, in our communities, actually is doing what it is supposed to.

Again, I comment the chairman and the ranking member to make sure that the legislation which we pass when it gets down on the ground, in our communities, actually is doing what it is supposed to.

Mr. MANZULLO. Mr. Speaker, I yield myself the balance of my time. I would urge my colleagues to vote in favor of this bill. We had a very interesting full committee hearing in New Mexico with regard to the Los Alamos, and the Los Alamos lab in the district of the gentleman from New Mexico (Mr. Udall). It became quite apparent that there has to be some way to make at least that lab come to the table and to include more local businesses and people involved in technology as part of their program. If this program is reauthorized, which I hope it will be, we will stay on top of the progress at Los Alamos and the other labs in this country to make sure that the taxpayers’ dollars that they are being given are used wisely and that the portion that is set aside for small businessespeople is done exactly for that purpose.

I would urge my colleagues to vote for the bill.

Ms. VELAZQUEZ. Mr. Speaker, as an original co-sponsor of H.R. 1860, I rise in support of this important legislation to not only reauthorize, but to make permanent the Small Business Administration’s Small Business Technology Transfer (STTR) Program.

As the Ranking Democratic Member on the Committee on Small Business, I am well aware of the important role that technology plays in not only developing small businesses, but in strengthening the nation’s economic growth. The economic boom of the 1990s—the longest period of economic strength in our nation’s history—was fueled by small businesses and, especially, high-tech firms. The strength of the economy, for such an unprecedented time period, was directly related to the success of the high-tech sector.

It might surprise my colleagues to know that small businesses are the leading source of innovations and that small firms produce twice as many innovations per employee as large firms. In fact, small businesses were responsible for most of the important innovations in the twentieth century, including items ranging from such practical consumer products and services as over-night delivery services and quick-frozen food to high-tech items such as the personal computer and the high-resolution computer monitor.

The STTR Program that we are authorizing today increases small business participation in the high-tech industry. Established in 1992, the STTR Program works by allowing small businesses to partner with universities, non-profit organizations, and research institutions. These research partners bring important capabilities that small businesses might not possess on their own. The partnership submits a proposal for necessary Federal research requirements.

With the reauthorization legislation, we have retained the pilot status of the STTR Program, and have extended the Program through fiscal year 2009.

We have also taken important steps to increase the amount of Federal research that will be performed by small businesses by increasing the percentage of agency’s extramural research budgets to be devoted to the STTR Program from .15 percent to .3 percent beginning in fiscal year 2004. This action doubles the amount of research that the government will be performing.

We have increased the grant amount of Phase I awards from the current $500,000 to $750,000. This provision allows small businesses more funding with which to conduct their research, thereby increasing the likelihood that their research will result in useful items that will make it to the marketplace.

Additionally, the bill contains provisions that will assist with the assessment of the STTR program, by requiring the collection and maintaining of pertinent data, that can later be used to evaluate the program’s strengths and weaknesses.

Democratic Members included three important provisions to this reauthorization to encourage the growth of high-tech businesses. These changes include developing an STTR Program-wide model agreement, increasing awards to low-income areas, and tracking low income awards.

The partnership between small businesses and research institutions is a cornerstone of the STTR program. The formalization of these teams, is the development of an agreement outlining the rights and responsibilities of each partner, and addressing the intellectual property rights and rights to carry out follow-on research, development or commercialization, if any, that are assigned to each partner.

It has come to the Committee’s attention that each participating agency has a model agreement, and many universities and non-profits have model agreements. The result is an exercise in which the small business and its research partner must come to an agreement, and have that agreement parallel the agency’s agreement. The scenario often occurs wherein a small business doing work for the same agency, but with multiple research partners, must have multiple agreements, none of which are standard. Ultimately, this results in time devoted to developing partnership agreements when that time would be more effectively used to actually conduct research.

Therefore, Committee Democrats have included language that requires the Small Business Administration (SBA) to go through a rule-making process to develop a single model agreement that can be acceptably used by all small businesses, agencies, and research partners. It is intended that this rule-making process address how to effectively award small business, non-profit, and university agreements, small business owners, research institutions, and other interested parties. The resulting model agreement shall be used by all agencies as their model agreement so that small research firms can devote their time to that which they do best—research.

During last year’s reauthorization of the Small Business Innovation Research (SBIR) Program—the sister program to the STTR Program—important language was included to increase awards to businesses located in low-income areas. Language was included in this Federal and State Technology Partnership Program by House Democrats on the Committee on Small Business that allows a 50 cents private for each federal dollar for assistance directed to low-income areas—even if the state is a high-volume state as far as SBIR awards. We were concerned with this language that it would not be implemented properly, and that not enough emphasis would be placed on this issue. This has become a reality in that the SBA did not include any reference to low-income area assistance under the FAST Program in its recent Policy Directive.

As a result of the SBA not being able to properly implement the low-income area assistance of the FAST Program in accordance with our intent, Committee Democrats included language in the STTR reauthorization legislation to require that a separate evaluation criteria for FAST proposals be developed to ensure that these proposals address how they are going to increase STTR and SBIR awards to businesses located in low-income areas.

When we consulted with the Senate Small Business Committee on this language, they expressed concern that states not having substantive amounts of low-income areas could be penalized in an evaluation criteria totally devoted to increasing opportunities in these areas. Therefore, compromise language was developed to establish an evaluation criteria to ensure that proposals address how they are going to increase STTR and SBIR awards to (1) businesses owned and controlled by women, (2) businesses owned by minorities, and (3) businesses located in areas of high unemployment and low-income—all of which have historically not participated in the SBIR and STTR Programs.

We have also taken important steps to increase STTR and SBIR awards to businesses located in low-income areas. When we consulted with the Senate Small Business Committee on this language, they expressed concern that states not having substantive amounts of low-income areas could be penalized in an evaluation criteria totally devoted to increasing opportunities in these areas. Therefore, compromise language was developed to establish an evaluation criteria to ensure that proposals address how they are going to increase STTR and SBIR awards to businesses located in low-income areas.

Lastly, we included language in the STTR reauthorization to require that the SBA report to Congress, on an annual basis, on the number of SBIR and STTR awards made to small businesses located in the “Historically Underutilized” Zones. These locations have been out of the mainstream of economic growth that the nation has experienced over the past several years, and, as such, these benefit greatly from the economic strength that the technology provides to a community. Further, tracking awards made to these businesses will assist in evaluating the success of the FAST Program.

To conclude, I join my colleagues on the Committee on Small Business who are committed to ensuring that small businesses
across the country are able to grow and expand their technology capabilities. We know that not only do small businesses, in general, employ more than half of the non-farm workforce, but small businesses account for 38 percent of the private sector workforce in the high tech industry. We believe the STTR and SBIR Programs are critical to increasing the capacity of small business technology companies, and that these Programs should continue to be reauthorized and evaluated, and given the appropriate resources to ensure their continued success.

Mr. BOEHLERT. Mr. Speaker, I support the Small Business Technology Transfer Program Reauthorization Act of 2001. The Small Business Technology Transfer Program (STTR) was created in 1992 as an offshoot of the larger Small Business Innovation Research Program (SBIR). Both programs are designed to tap into the innovation of high technology small businesses and foster the commercialization of their research capabilities.

Specifically, the STTR program funds cooperative research projects between a small business and a non-profit research institution, such as a university or Federally funded laboratory. There are currently five participating agencies: Department of Defense, Department of Energy, National Aeronautics and Space Administration, Department of Health and Human Services, and the National Science Foundation. These agencies make R&D awards to the small business collaboration in the hopes of bringing new technology or technology that may have been ‘on the shelf’ of a research institution into the marketplace.

Since its inception, the STTR program has made approximately $300 million in awards to small businesses and research institutions. As GAO recently reported, the return on our investment has been more than satisfactory. Out of the 102 responses from companies participating in the STTR program from fiscal years 1995–97, $132 million in sales and $53 million in additional development funding was reported. In addition, future sales for those projects we be about $2 billion. These successful results are so encouraging since most of the R&D efforts have yet to reach the stage where they are ready for the marketplace.

H.R. 1860 will continue this successful R&D program by reauthorizing it through fiscal year 2009, and doubling the set-aside of the participating agencies to .3 percent. The bill also makes important improvements to the program. One of those is the establishment of an electronic database that will better enable the Small Business Administration to evaluate the process.

Finally Mr. Speaker, I would like to commend the bipartisan effort to ensure this important program continues its successful efforts of technology transfer and innovation. I would like to thank Mr. EHLERS, Chairman of the Subcommittee on Environment, Technology and Standards, the Ranking Member of that Subcommittee Mr. BARCIA, the Chairman of the House Small Business Committee Mr. MANZULLO, and the Ranking Members Ms. VELAZQUEZ for their efforts in crafting the legislation before the House.

H.R. 1860 will strengthen this country’s research and development community by investing in our nation’s innovative small businesses and I ask all Members to support its passage.

The SPEAKER pro tempore (Mr. MILLER of Florida). The question is on the motion offered by the gentleman from Illinois (Mr. MANZULLO) that the House suspend the rules and pass the bill, H.R. 1860, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rule was agreed to, and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

LIMITATION ON PER COUNTRY SHARE OF ASSESSMENTS FOR UNITED NATIONS PEACEKEEPING OPERATIONS

Mr. HYDE. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 248) to amend the Admiral James W. Nance and Meg Donovan Foreign Relations Authorization Act, Fiscal Years 2000 and 2001, to adjust a condition on the payment of arrearages to the United Nations that sets the maximum share of United Nations peacekeeping operation’s budget that may be assessed of any country.

The Clerk reads as follows:

S. 248

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. LIMITATION ON THE PER COUNTRY SHARE OF ASSESSMENTS FOR UNITED NATIONS PEACEKEEPING OPERATIONS.

(a) In General.—Section 91(b)(2) of the Admiral James W. Nance and Meg Donovan Foreign Relations Authorization Act, Fiscal Years 2000 and 2001 (as enacted by section 1000(a)(7) of Public Law 106–113 and contained in appendix G of that Act; 113 Stat. 1501A–480) is amended by striking ‘‘28.15 percent’’ and inserting ‘‘28.15 percent’’.

(b) Conforming Amendment.—The redesignated paragraph under the heading ‘‘ARREARAGE PAYMENTS’’ in title IV of the Department of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1999, 112 Stat. 2681–96 is amended by striking ‘‘25 percent’’ and inserting ‘‘28.15 percent’’.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Illinois (Mr. HYDE) and the gentleman from California (Mr. LANTOS) each will control 20 minutes.

The Chair recognizes the gentleman from Illinois (Mr. HYDE).

General Leave

Mr. HYDE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the Senate bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

Mr. HYDE. Mr. Speaker, I yield myself such time as I may consume.

I rise in strong support of S. 248, a measure urgently requested by the administration. Its enactment will help to ensure that we can pay the second tranche of our arrears to the United Nations in return for continued progress in lowering our assessment ceilings for the U.N. regular budget and for U.N. peacekeeping operations.

Our actions on this measure are all the more important in light of the events of September 11. Meeting our financial obligations to the United Nations will help to ensure that our policymakers can keep the focus on broad policies that unite the members of the security council in the fight against global terrorism.

Its enactment revises one of the provisions of the underlying U.N. reform legislation, known as the Helms-Biden law, to ensure that we do not accumulate any additional arrears and that our assessed share for the United Nations peacekeeping operations will drop from close to 32 percent to 28 percent.

In December of 2000, the U.N. put in place a 6-year plan to reduce our share of U.N. peacekeeping costs, with the result that in 2002, our assessment ceiling will drop to 26.5 percent, with further reductions until it reaches 25 percent in 2006.

Our adoption of S. 248 will also ensure that our assessment ceiling for the U.N. regular budget will go from 25 percent to 22 percent, and that other long-term U.N. reform measures are fully implemented. Over the next 10 years, these lower payment ceilings will provide more than $2 billion of savings to the American taxpayer.

Enacted in the 106th Congress, the Helms-Biden law authorized a total of $819 million in arrears payments to the U.N., including $100 million in fiscal year 1998 funds, $475 million in fiscal year 1999 funds, and $244 million in fiscal year 2000. The legislation also allowed an additional $107 million in debt relief of monies owed to the U.S. by the U.N.

These payments are only made upon specified certifications by the Department of State that the U.N. has implemented reform benchmarks upon each tranche of funds. Among the certifications for release of the first $100 million authorized under the Helms-Biden legislation are stipulations that the U.N. would not implement any measure violating our Constitution, ceding sovereignty, taxing Americans, creating a standing army, charging the U.S. interest on arrears or exercising control over any U.S. park, monument or property.

In December of 1999, this certification was made, and $100 million of fiscal year 1998 funds were paid to the U.N. This legislation would enable the Department of State to pay the second tranche of $475 million, together with the $107 million in debt relief foregone

CONGRESSIONAL RECORD—HOUSE 17691
to the U.S., for a total of $582 million, conditional upon a similar certification that our U.N. assessment ceilings are being reduced.

I urge the adoption of this measure.

Mr. Speaker, I reserve the balance of my time.

Mr. LANTOS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of the resolution.

First, Mr. Speaker, I want to commend my good friend, the distinguished chairman of the Committee on International Relations, the gentleman from Illinois (Mr. HYDE), for his outstanding work in bringing this legislation before the House.

I wish to take this opportunity to discuss the recent terrorist attacks and explain why, in light of these tragic events, it is all the more important that we pay our arrears to the United Nations.

Two weeks ago, Mr. Speaker, our Nation lost its innocence, but it found a new sense of unity and purpose. This new sense of unity comes from the sudden realization that our open and free and democratic way of life is under attack, and it must be and will be defended. We must learn from this tragic experience and we must be able to take intelligent, thoughtful and swift action.

But the United States, Mr. Speaker, cannot act alone and expect to prevail in this long-term painful struggle against international terrorism. All Americans deeply appreciate the many expressions of sympathy and support from our friends and allies, and some who do not fall into either category, but it will require actions, not simply words, to defeat global terrorist organizations and the nations which give them support and safe harbor.

As President Bush and our Nation’s diplomatic corps begin to secure concrete commitments required to wage this battle against international terrorism, we must take advantage of every forum available to reach out to the nations of the world.

The United Nations is clearly the world’s premier forum, and it will be one of the primary theaters for the United States to act diplomatically on this matter.

Within 48 hours of the September 11 outrage, the U.N. Security Council and the General Assembly of the United Nations condemned the violence and voted to support actions taken against those who are responsible and against those that harbor them.

On Friday of that week, U.N. Secretary General Kofi Annan wrote an op-ed piece in the New York Times, and he said the following:

The international communities is defined not only by what we, but by what and whom it is against. The United Nations must have the courage to recognize that just as there are common aims, there are common enemies. To defeat them, all nations must join forces in an effort encompassing every aspect of the open, free global system, so wickedly and viciously exploited by the perpetrators of last week’s atrocity.

Mr. Speaker, United Nations conventions already provide a legal framework for many of the concrete actions which must be taken by nations to eradicate terrorism. These conventions provide for the extradition and prosecution of terrorists and the suppression of money laundering. Nations that are serious about joining the United States in its battle against global terrorism must ratify these important conventions.

The United Nations can also help to ensure that the new battle against global terrorism does not slip to the back burner. Last Thursday President Bush said, “Even grief recedes with time and grace, but our resolve must not pass.”

By helping to focus the international community on the scourge of terrorism, the United Nations can help us turn our collective grief into concrete victories against the new enemy of the 21st century, international terrorism.

Aside from the battle against terrorism, the United Nations continues to play an invaluable role in promoting international peace and stability. Since its inception over half a century ago, the U.N. has negotiated 172 peace accords that have not been taken by nations to eradicate terrorism. Since its inception over half a century ago, the U.N. has negotiated 172 peace accords that have helped to bring to a peaceful settlement 172 conflicts. It also contained what is commonly referred to as the Helms-Biden proviso, Title IX, which contained specific appropriations for the Department of State, contained dozens of reforms for our State Department, refugee protection, freedom broadcasting and a host of other things. As a matter of fact, the embassy security portion of it provided $5.9 billion over 5 years to try to beef up our efforts to fight terrorism.

Now, Mr. Speaker, we cannot ask the United Nations to bring freedom to dic-

Mr. Speaker, H.R. 3427, which authorized appropriations for the Department of State, contained dozens of reforms for our State Department, refugee protection, freedom broadcasting and a host of other things. As a matter of fact, the embassy security portion of it provided $5.9 billion over 5 years to try to beef up our efforts to fight terrorism.

The legislation before our body today brings the U.N. arrears package into line with the far-reaching U.N. reform plan engineered by Ambassador Holbrooke and ensures that the $582 million can move forward expeditiously. I am very pleased that the United Nations arrears legislation en-
Mr. HYDE. Mr. Speaker, I have no additional requests for time; and other additional requests for time; and other

Mr. HYDE. Mr. Speaker, I have no additional requests for time; and other additional requests for time; and other
Mr. KERNS. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1583) to designate the Federal building and United States courthouse located at 121 West Spring Street in New Albany, Indiana, as the “Lee H. Hamilton Federal Building and United States Courthouse.”

The Clerk read as follows:

H.R. 1583

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DESIGNATION.
The Federal building and United States courthouse located at 121 West Spring Street in New Albany, Indiana, shall be known and designated as the “Lee H. Hamilton Federal Building and United States Courthouse”.

SEC. 2. REFERENCES.
Any reference in a law, map, regulation, document, paper, or other record of the United States to the Federal building and United States courthouse referred to in section 1 shall be deemed to be a reference to the “Lee H. Hamilton Federal Building and United States Courthouse”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Indiana (Mr. KERNS) and the gentleman from Illinois (Mr. COSTELLO) each will control 20 minutes.

The Chair recognizes the gentleman from Indiana (Mr. KERNS).

Mr. KERNS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 1583 designates the Federal building and United States Courthouse at 121 West Spring Street in New Albany, Indiana as the “Lee H. Hamilton Federal Building and United States Courthouse.” I would first like to note that this legislation has the strong bipartisan support of the entire Indiana delegation. I am very pleased to be a cosponsor of this important legislation.

Lee Hamilton is an extraordinary individual who represented the Ninth Congressional District in Indiana for 34 years. Congressman Hamilton was born in Dayton Beach, Florida and moved to Evansville, Indiana in 1944 where he attended public schools. Of course, we in Indiana love our basketball; and as a high school athlete, Lee Hamilton led the Evansville Central Golden Bears to the Indiana High School State Championship basketball game. Many believe that if the future congressman had not been injured during the game, the Golden Bears would have won.

Lee went on to graduate from DePauw University in Greencastle, Indiana and then graduated from Indiana University Law School in 1956. Congressman Hamilton was admitted to the State bar in 1957.

He entered private law practice in Chicago, but returned shortly thereafter to Columbus, Indiana where he continued private law practice until seeking election to the U.S. House of Representatives in 1964. He was first elected to serve in the 89th Congress and was reelected to 16 consecutive terms.

While in the House, Congressman Hamilton was a leader with an excellent reputation for working with both sides of the aisle. He served as chairman of the House Committee on Intelligence from 1985 until 1987, and as chairman of the Joint Economic Committee in 1990, and as cochairman of the Committee on International Relations from 1993 until 1995.

Congressman Hamilton was always a strong advocate for diplomatic international solutions. In the post-Cold War, he believed weapons proliferation was a major international concern. He also believed that protecting the environment and the fight against disease and hunger were important major foreign policy goals. Upon his retirement from Congress, Mr. Hamilton continues to serve the public to bridge that important gap between academia and foreign policy.

Today, I serve on the House Committee on International Relations; and during this most difficult time, I draw on the example he set throughout his career. Although he is no longer a member of this legislative body, I know its Members respect his opinion and seek his input on the challenges this crisis presents.

On a more personal note, Congressman Hamilton served with my father-in-law, John Myers, for 30 years in Congress; and, although they are different political parties, they would find common ground and work together on issues to benefit the people in Indiana and our Nation.

As a fellow Hoosier, I take great pride in Congressman Hamilton’s accomplishments and service to Indiana and the Nation. This naming bill is a fitting tribute to a distinguished former Member of the House. I support this bill, and I urge my colleagues to join me in my support.

Mr. Speaker, I reserve the balance of my time.

Mr. COSTELLO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 1583 is a bill to designate the Federal building in New Albany, Indiana as the “Lee H. Hamilton Federal Building and United States Courthouse.” Lee Hamilton is a former colleague who represented the ninth district of Indiana for 34 years. The gentleman from Indiana (Mr. HILL) was talking about Central America or the Soviet Union or its successor states, Lee Hamilton at all times came to his positions on the basis of facts, not on the basis of ideology. The gentleman from Indiana (Mr. HILL) currently holds that seat and is the sponsor of this legislation.

Lee Hamilton graduated from Central High School in Evansville, Indiana, and the prestigious DePauw University and graduated from Indiana University Law School in 1956. While in high school and college, Hamilton was an outstanding basketball player and was inducted into the Indiana basketball Hall of Fame.

During his 34-year tenure in Congress, Lee Hamilton made his mark in foreign affairs and domestic economic policy. He served on the Committee on Foreign Affairs, the Select Committee on Intelligence, the Iran Contra Committee, and the Joint Economic Committee. He had a front row seat for many historic events, including the fall of the Berlin Wall and the Gulf War. As a follower of economic issues, Lee Hamilton was a champion of global competition and encouraged economic development.

During his government service, Lee Hamilton received numerous awards and honors. These include the Knight Commander Cross of the Order of Merit from the Government of Germany, the Paul Nitze Award for Distinguished Authority On National Security Affairs in 1999, and the Edmund Muskie Award for outstanding public service in 1997.

Congressman Hamilton, although a recognized and powerful figure in Washington, D.C., did not lose his sense of humility. He has retained his sense of humor, his grass roots “Hoosier” values, and remained a source of advice and counsel even today to his colleagues. Lee Hamilton is currently the director of the Woodrow Wilson International Center for Scholars here in Washington, D.C.

Mr. Speaker, I strongly support H.R. 1583, and I urge my colleagues to support this bill.

Mr. Speaker, I reserve the balance of my time.

Mr. KERNS. Mr. Speaker, I reserve the balance of my time.

Mr. COSTELLO. Mr. Speaker, I yield such time as he may consume to the distinguished gentleman from Wisconsin (Mr. OBEE), who is the ranking member of the Committee on Appropriations.

Mr. OBEE. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, let me simply say that I had the privilege of the first 15 years of my service here to serve with the gentleman from Indiana (Mr. Hamilton); and, in my view, he is one of the most distinguished persons ever to occupy this body. He has a solid understanding of the economy. He served this House for years on the Joint Economic Committee and served as chair of that committee.

He is without question, in my view, the wisest member of this body in dealing with foreign affairs of any Member I have ever served with. Whether he was talking about Central America or the Middle East or the Soviet Union or its successor states, Lee Hamilton at all times came to his positions on the basis of facts, not on the basis of ideology.

He continues to serve this country well today in this time of crisis as the Director of the Woodrow Wilson Center at the Smithsonian. He has served the people of Indiana with incredible distinction, and he has done great honor to the people of the United States in
the manner of his service in this institution. I am pleased today to see that he is getting at least some of the recognition that all of us who know him understand he deserves.

Mr. KERNS. Mr. Speaker, I continue to reserve the balance of my time.

Mr. COSTELLO. Mr. Speaker, I yield such time as he may consume to the gentleman from Indiana (Mr. HILL).

Mr. HILL. Mr. Speaker, I thank the gentleman for yielding me the time.

Mr. Speaker, it is indeed a pleasure to rise today in support of H.R. 1583, a bill to name the Federal Building and United States Courthouse in New Albany, Indiana after my friend and mentor and colleague and the former Congressman of southern Indiana's ninth district, Lee Hamilton.

I would like to thank all of my colleagues in the House delegation for supporting this bill: the gentlewoman from Indiana (Ms. CARSON), and the gentlemen from Indiana (Mr. BURTON), (Mr. BUYER), (Mr. HOSTETTLER), (Mr. KERNS), (Mr. PENCE), (Mr. ROEMER), (Mr. SOURDELL), and (Mr. VISCLOSKY). I would also like to thank Senators EVAN BAYH and DICK LUGAR for their invaluable help in sponsoring a companion bill in the Senate, and I would also like to thank Indiana State Representatives BILL COCHRAN and JOHN BENTON for urging Congress to designate this building in honor of Lee.

Lee Hamilton served the people of southern Indiana with distinction for 34 years in the United States House of Representatives.

Lee Hamilton's phone rang in the ensuing days from people looking for advice, trying to glean some counsel from Lee Hamilton. He will continue to provide that advice and that counsel and that common sense in the many days and months and years ahead with his leadership at the Woodrow Wilson Center for Scholars.

So I thank my colleagues for bringing this honor to Lee and Nancy and the children and the family, and we are very proud of him in our home State for all he has brought forward.

Mr. ROEMER. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, I would especially associate myself with the complimentary remarks made about the gentleman from Indiana (Mr. HILL), my colleague and friend to the south, for his great leadership on this legislation.

Mr. Speaker, I thank the gentlemen from Indiana, Mr. HILL and Mr. ROEMER, and the other prominent Members around here from Indiana today, for producing this legislation and permitting me to be part of it. I would also like to thank Senators BAYH and LUGAR for introducing the bill in the Senate.

Mr. Speaker, as a boy growing up in Columbus, Indiana, when I was the age of the little boy sitting on my office floor right now, my Congressman was Lee Hamilton; and that famous crew cut, that confident stride of a basketball player, was a frequent image on the streets of Columbus, Indiana.
Congressional Record—House
September 24, 2001

I had the honor of following his career and unsuccessfully applying for a job in his office at one point in my early career. For 24 years, I watched as he served not only Indiana and all of Indiana with humility and distinction. Upon his retirement from the House of Representatives in 1998, Congressman Hamilton left a blueprint in public service here in the halls of the Capitol. His insight and accessibility to his constituents, already commented on eloquently today, is an inspiration for his role.

Congressman Hamilton was most respected and best known for his role as chairman of the House Committee on Foreign Affairs. His broad knowledge of foreign policy recently earned him the honor of serving as the director of the Woodrow Wilson International Center for Scholars.

Congressman Hamilton’s influence is ongoing. He was a leader of world foreign affairs as most Americans know, in the wake of the tragic events of 2 weeks ago. The President recently established this very hall as the Office of Homeland Security. What they may not know is that was a direct result of the vision and the purpose and the leadership which Indiana’s own Lee Hamilton provided as a member of the now-famous Commission on Terrorism.

Mr. Speaker, on Wednesday, as I traveled to Europe to participate in a conference on terrorism, I will carry with me many things. I will carry with me notes to study on the issues about which I will comment; but I will, more than anything else, carry the image of Lee Hamilton, who presented not only the image of a gentleman Hoosier into the foreign scene, but also what it truly is to be an American of principle in the world.

I join my fellow Hoosier delegates in designating the building at 121 West Spring Street in New Albany, Indiana, the Lee H. Hamilton Federal building and U.S. courthouse. It is an honor worthy of one of our Nation’s foremost experts in foreign policy and one of Indiana’s proudest public servants.

Mr. COSTELLO. Mr. Speaker, I yield 2 minutes to my gentleman from Indiana (Ms. CARSON).

Ms. CARSON of Indiana. Mr. Speaker, I thank the gentleman for yielding, and I thank the other members of the Indiana delegation who are gathered here in one place and in one accord in support of naming a Federal building in honor of the Honorable Lee Hamilton.

I had the benefit of having two Congresspeople, I worked at Cummings Engine Company, headquartered in Indiana, for over 10 years. While I was at work during the day, Mr. Hamilton was my Congressman. When I would travel back to Indianapolis, Indiana, Andy Jacobs was my Congressman. So I had the benefit of having a dual congressional honor, if you will: two very famous men in the halls of Congress. We have named a post office after the Honorable Andy Jacobs; and now today, with the help of the two distinguished Senators from Indiana, we will do the same for Mr. Hamilton.

Let me put a different spin on this, however. We know what a brilliant mind Lee Hamilton has now. We understand he was a basketball star, and he even won the prestigious award for his basketball expertise, called the Trester Award.

But Mr. Speaker, on today’s schedule, the resolution immediately preceding the Lee H. Hamilton Federal Building and the United States Courthouse Designation Act, was a resolution expressing the sense of Congress regarding the establishment of a National Character Counts Week.

We hear a lot of diatribe at these microphones about family values and condemned behavior and all that, but Lee Hamilton has an unblemished, uncompromising solid moral character. He is a man who has had the joy of being married to Nancy for countless years, has a beautiful family. So he is the type of individual who does not extol big messages about family values. But he characterized family values in a very positive way.

It is for that reason, and many others, that I am very proud to join my colleagues in support of this resolution naming the post office for Lee Hamilton in New Albany, Indiana.

Mr. KERNS. Mr. Speaker, I reserve the balance of my time.

Mr. COSTELLO. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from California (Mr. LANTOS).

Mr. LANTOS. Mr. Speaker, before saying a word about my friend, Lee Hamilton, let me say something about Nancy Hamilton, who, throughout a remarkable and distinguished public career, has supported, the encouragement, the inspiration which is so exemplary and so rare these days.

Lee Hamilton symbolizes the quintessential public servant. His integrity was unquestioned. His character was an inspiration to all. He was the most hardworking Member of this body.

I had the pleasure and the privilege of sitting next to him in countless committee hearings; and every single time Lee was fully prepared, thoroughly briefed, widely read on any subject that came before the Committee on International Relations.

His bipartisanship was legendary. He could not care whether it was a Democratic proposal or a Republican proposal. He would support it and for the flaws of the proposal and then make up his mind and voted.

When Lee left this House, he left an enormous void. We are very fortunate that his work on behalf of our Nation continues in his present distinguished position. But this House will long remember and cherish and value the incredible contributions of this great son of Indiana who made this body a proud, productive, distinguished group through his presence.

Hamilton will be a tower of strength for all young people from Indiana who aspire for public service, and it is an honor to join my colleagues in recommending an affirmative vote on this important legislation.

Mr. KERNS. Mr. Speaker, I reserve the balance of my time.

Mr. COSTELLO. Mr. Speaker, I yield 2 minutes to the gentleman from New Mexico (Mr. UDALL).

Mr. UDALL of New Mexico. Mr. Speaker, as the House considers H.R. 1583, I would like to rise in recognition of Representative Lee Hamilton for whom H.R. 1583 names the Federal building and United States courthouse in New Albany, Indiana after.

Over the years, I have had the honor and privilege of forming a relationship and friendship with Lee. He is a man for whom I hold in the highest regard and am proud to call him a friend.

As a United States representative from January 1965 until his retirement in 1999, Lee served his constituents of the Ninth District of Indiana with the same honor, integrity, dignity with which he has lived his entire life.

Lee has received many awards throughout his distinguished career, including the Knight Commander’s Cross of the Order of Merit of the Federal Republic of Germany, the Paul H. Nitze Award for Distinguished Authority on National Security Affairs, and the Department of Defense Medal for Distinguished Public Service, and the Central Intelligence Agency Medallion, just to name a few.

Lee Hamilton recently served on a national commission dealing with terrorism and related subjects. A week ago I attended a congressional briefing by Lee Hamilton on terrorism, and as usual, he came forward with significant insights on this very timely topic.

On a personal note, he served with my uncle, Congressman Morris Udall of Arizona, and Mo always used to tell me, listen to Lee Hamilton, he is one of the wisest Members of Congress.

Mr. Speaker, during his 34 years as a Member of Congress, Lee Hamilton was an exceptional legislator who forged partnerships on both sides of the aisle in order to get the American people’s business done. Over the last couple of weeks, we as a Congress have had the opportunity to follow Lee’s example.

Today, we continue to follow that example by honoring him and the city of New Albany.

Mr. KERNS. Mr. Speaker, I reserve the balance of my time.
Mr. RAHALL. Mr. Speaker, I rise today to join with my colleagues in designating the Lee H. Hamilton Federal Building and United States Courthouse in New Albany, Indiana.

Lee’s lifetime commitment to public service, under the administrations of seven Presidents from both parties, never faltered. His enormity and his testament to a remarkable life of selfless duty and an unstinting commitment to the peace and prosperity of the people of Indiana, our Nation and to peoples living in every corner of the world.

Lee Hamilton was known in this House for his unimpeachable integrity, his gentle voice of reason, and professionalism; all for which I had the great fortune from which to benefit.

Lee Hamilton arrived in Washington to begin his long tenure in the House during the Lyndon Johnson administration. As those times demanded, he was present for the creation of such landmark legislation as the Elementary and Secondary and Higher Education Acts, helping assure an educated citizenry so that the socio-economic needs of this country might be met. He also presided over the enactment of legislation to assist those living at or below poverty—especially the children—as Johnson’s War on Poverty began, and the President’s Great Society began to take shape.

There was much going on in this House when Lee Hamilton arrived from Jeffersonville, Indiana to begin his service as the representative of the Ninth District of that great state, and aside from domestic issues, Lee was soon to become deeply involved in international issues as well.

As Lee Hamilton’s distinguished service grew and flourished on behalf of those who needed federal support in order to obtain an education, food, shelter and health care, he quietly became our most able leader in international affairs. As he chaired and served as ranking member of the International Relations Committee for many years Lee devoted himself to his duty throughout upon the world war, helping bring about the fall of the Berlin Wall and the dissolution of the former Soviet Union; and then seeking to strengthen the development of new democracies.

Over the years I was able to look to him for assistance with concerns I have had over events in the Middle East, and especially in the land of my grandparents, Lebanon. His deep understanding of the culture, history and traditions of the Middle Eastern countries is enormous. I know there were many times over the years when, at my request and no matter how busy he was, he took the time to share with me and my colleagues his remarkable insight into how best to address events in a troubled area in times of great distress.

Lee Hamilton continued his distinguished career in foreign relations when he left the House to become Director of the Woodrow Wilson Center for Scholars and Director of the Center on Congress at Indiana University. His unmatched experience in both of these realms continues a distinguished career in advancing America’s leadership on the world stage.

During this tragic time for the United States we need the steady hand and influence of such honorable leaders as Lee Hamilton to guide our nation in her fight against terrorism. I can think of none better to contribute than this most accomplished statesman.

And so I extend to him the highest esteem and deepest appreciation that I join my colleagues in designating the Lee Hamilton Federal Building and United States Courthouse in New Albany, Indiana.

Mr. BERGERT. Mr. Speaker, this Member rises in strong support of H.R. 1583, a bill designating the Federal Building and U.S. Courthouse in New Albany, Indiana, as the “Lee Hamilton Federal Building and United States Courthouse.”

Our colleague, former Congressman Lee Hamilton possessed all attributes that a very distinguished public servant should possess—sound and well-reasoned judgment, unswerving integrity, unfailing courtesy, and intellect. Throughout his 34-year congressional career, while a strong legislative leader, he also consistently sought constructive ways to forge a bipartisan consensus where possible. Also, he certainly knew and represented his Indiana constituents very well.

The people of Indiana’s 9th Congressional District were exceedingly well-served by Representative Lee Hamilton during his service not only by his close attention to domestic issues and District concerns, but as Americans through his vast and respected foreign policy expertise and his leadership by his service as Chairman of the House Permanent Select Committee on Intelligence, and as Chairman and later as Ranking Minority Member of the House International Relations Committee. Indeed, Lee represented all Americans by rationally and insistently approaching foreign policy with U.S. national interests in mind, not simply those of special interest groups. Additionally, people worldwide have benefitted from his dedication to food aid projects, to democracy-building projects in Russia and the former Soviet Union, and to many other international projects too numerous to mention.

Mr. Speaker, this Member served with Lee on the House International Relations Committee from 1983 through 1996 and remain particularly grateful for the informed, insightful assistance and counsel that Lee provided when this Member was a junior member of the Committee’s leadership, and generously as the current Chairman of the Committee and having served earlier for six years, this Member certainly does appreciate Representative Hamilton’s contributions to the Intelligence Committee.

We would all be well-advised to follow his example of setting aside emotion and irrationality from intricate, complex challenges and inserting common sense and careful analysis.

Mr. Sepaker, this Member has served in this body for 23 years and without any hyperbole would say that Lee Hamilton is one of the three or four most distinguished legislators with whom this Member has had the privilege to serve. Naming the New Albany, Indiana, Federal Building and U.S. Courthouse after Representative Hamilton is an appropriate tribute to a man who served Indiana and his country so extraordinarily well. This Member urges his colleagues to vote in favor of H.R. 1583.

Mrs. MINK of Hawaii. Mr. Speaker, I rise today to speak in support of H.R. 1583, which designates the Federal building and United States courthouse located at 121 West Spring Street in New Albany, Indiana, as the “Lee Hamilton Federal Building and United States Courthouse.”

Lee and I were members of the same freshman class in Congress—we both began our service in the 89th Congress in 1965. I was sorry when my friend and valued colleague decided to retire at the end of the 105th Congress in 1998 after 17 terms in the House of Representatives. Lee currently serves as director of the Woodrow Wilson International Center for Scholars and the Center for Congress at Indiana University.

Lee Hamilton is remembered by his colleagues for his skill and practiced service as chair and ranking member on the House Committee on International Affairs. His achievements and deep knowledge of foreign affairs and national security issues have been recognized by numerous awards, including the 1999 Paul H. Nitze Award for Distinguished Authority on National Security Affairs, the Philip C. Habib Award for Distinguished Public Service, the Indiana Humanities Council Lifetime Achievement Award, and the U.S. Association of Former Members of Congress Statesmanship Award.

It is indeed fitting that the people of Indiana have a federal building and courthouse named after Lee Hamilton. His vast knowledge, keen intellect, and deeply held principles have been of great service to the people of Indiana and of the United States.

Mr. HASTINGS of Florida. Mr. Speaker, I rise today in support of H.R. 1583, a bill designating the federal building and courthouse in Albany, Indiana after my good friend Lee Hamilton. I am proud to stand before this body to honor my friend Lee Hamilton for the hard work and dedication to the people of this country.

Born in Daytona Beach, Florida, in 1931, Lee Hamilton is first and foremost an American. He is a Floridan as well, having left a great impression upon the people of Daytona Beach and throughout Florida.

Mr. Speaker, it is a pleasure to stand before you today to recognize a man that I admire professionally and consider a close and genuine friend. Having followed his career success and admired his accomplishments of becoming one of the most honored members of Congress, I had the pleasure of following in Lee’s footsteps on serving on both the House Committee on International Relations and later on House Permanent Select Committee on Intelligence upon which he was distinguished the Chair.

What stands out about Lee and compels me to rise before you today, is not merely his accomplishments and political gains, but the fact that he distinguished himself over 34 years in Congress as a dedicated public servant and remains committed to embrace that integrity at the highest levels.

Mr. Speaker, I rise today to salute my close friend, Lee Hamilton for his significant contributions, hard work and dedication to promoting democracy. I urge my colleagues to support of H.R. 1583 designating the federal building and courthouse in Indiana after my praiseworthy friend Lee Hamilton.
Mr. BURTON of Indiana. Mr. Speaker, it is with great pleasure that I rise today in full support of H.R. 1583, a bill designating the Federal building and United States courthouse located at 121 West Spring Street in New Albany, Indiana as the "Lee H. Hamilton Federal Building and United States Courthouse."

Lee Hamilton is a proud "Hoosier" through and through, and to this day he continues to work for the people of Indiana. Lee was the star of his basketball teams in high school and college, and earned induction into the Indiana Basketball Hall of Fame. Lee attended Evansville Central High School, where he excelled both in the classroom and on the basketball court. As a senior, he led his team to the final game of the Indiana state basketball tournament, and received the prestigious Trester award for scholarship and athletics. After graduation, Lee attended Depauw University where he studied history. Lee graduated with honors in 1952 and was awarded the Walker Cup, given to the most outstanding member of the senior class. He went on to study and then teach in post-war Germany at Goethe University before returning to law school at Indiana University, from which he graduated in 1956.

While representing Indiana's 9th Congressional District in the U.S. House of Representatives, Lee Hamilton earned a reputation as a leader in international affairs, serving as Chairman of the House Foreign Relations Committee, the House Intelligence Committee, and the Iran-Contra Investigation Committee. During his tenure in Congress, Lee Hamilton established a broad record of expertise and influence in foreign affairs. He focused substantial attention on promoting democracy and market reforms in the former Soviet Union and Eastern Europe; advancing peace and stability in the Middle East; expanding U.S. markets overseas; and overhauling U.S. foreign aid.

In addition to his impressive record on foreign affairs, Congressman Hamilton also played an important role in reforming the institution of Congress itself. He co-chaired the Joint Committee on the Organization of Congress where he worked to develop ideas like the one for tightening lobbying restrictions, and applying workplace laws to the United States Congress.

In 1999, after serving in the House of Representatives for 34 years, Lee Hamilton assumed the positions of Director of the Woodrow Wilson International Center for Scholars in Washington, D.C., and the Director of the Center on Congress at Indiana University. The non-partisan Center on Congress at Indiana University aims to educate citizens about the operations and importance of the U.S. Congress, and it includes a special outreach program to the people of Indiana.

I join my colleagues in honoring Lee by designating the New Albany Federal building and courthouse as the Lee H. Hamilton Federal Building and United States Courthouse. I wish him well in his current endeavors.

Mr. Speaker, I urge for today in support of H.R. 1583, legislation introduced by Rep. BARON HILL, to designate the Federal building and U.S. courthouse located at 121 West Spring Street in New Albany, Indiana, as the "Lee H. Hamilton Federal Building and United States Courthouse."

Former Congressman Lee Hamilton retired in 1998 after 34 years of service in the U.S. House of Representatives. Lee Hamilton represented the Ohio River counties of the State of Indiana and was first elected in 1964. Before retiring he served as the Chairman of our House Select Committee on International Relations.

While Chairman, I had the pleasure of working with Lee as the Ranking Republican Member, where I learned of his extensive knowledge and capacity for hard work in addition to his sense of moral imperative. It is at this time that I am left to reflect on Lee's willingness to bring back the pre-World War II era of bipartisan foreign policy.

Lee Hamilton was born in Dayton Beach, Volusia County, Fla. on April 20, 1931 and moved with his parents to Evansville, Ind., in 1944. He graduated from Indiana University School of Law in 1956 and was admitted to the bar in 1957. He began the practice of law in 1958 in Columbus, Ind. In 1968 he was first elected to the Eighty-ninth Congress and to the sixteen succeeding Congresses (January 3, 1965 through January 3, 1999).

Lee Hamilton served as Chairman of the House International Relations Committee during the One Hundred Third Congress, Congressman Hamilton served as Chairman of the Select Committee on Intelligence during the Ninety-ninth Congress; the Select Committee to Investigate Covert Arms Transactions with Iran during the One Hundredth Congress; and the Joint Economic Committee during the One Hundred First Congress.

Accordingly, I urge all of my colleagues to fully support this measure.

Mr. Speaker, I am pleased to lend my support to H.R. 1583, legislation to name the federal building and courthouse in New Albany, Indiana, after a very distinguished former member of this body, Lee Hamilton.

While a Member of the House, Lee Hamilton earned a reputation as foreign policy expert. With the recent tragic events that have struck our country, Lee Hamilton's advise and counsel are again being sought. He served for 34 years in this body before retiring in 1999. While his primary committee focus was in foreign affairs, he was a Member of the Joint Economic Committee and on temporary panels to address standards of conduct and Congressional operations and organization.

Still although having a love of foreign policy, Lee Hamilton never forgot his constituents in Indiana. He worked hard for the well-being of his constituents and reached across the aisle on many issues for the betterment of the Hoosier State.

Finally, it must be noted here, that perhaps one of his greatest accomplishments, came not on the House floor or in committees, but on the basketball court. He was a star player on his high school and college teams and has been inducted into the Indiana Basketball Hall of Fame.

I support H.R. 1583 and urge its adoption.

Mr. BUYER, Mr. Speaker, I rise in strong support of H.R. 1583, which recognizes our former colleague from Indiana, the Honorable Lee H. Hamilton, by naming in his honor a Federal Building and U.S. Courthouse in New Albany, Indiana.

Mr. Speaker, ever since I was elected to the U.S. Congress in 1989, I have served as a member of the House Foreign Affairs/International Relations Committee. In that capacity, it was my distinct pleasure and honor to serve with and get to know our distinguished colleague, the former Chairman and Ranking Democratic Member, Lee Hamilton.

Over the decade that I worked with Mr. Hamilton, he was always looked to by Committee members for bipartisan leadership, wise insight and steady guidance in crafting America's foreign policy.

Mr. Hamilton’s voice was one marked by moderation, thoughtfulness and balance, and he had the vision to look beyond momentary international crises to seek and preserve the long-term interests of our Nation.

In a distinguished career in Congress which spanned 34 years, Mr. Hamilton, in particular, provided exceptional leadership in efforts to promote democratic reforms in the former Soviet Union and Soviet bloc nations, as well his strong support of balanced peace initiatives in the Middle East, Mr. Hamilton was also a major instrumental force in revamping our Nation’s foreign and export policies, while championing the expansion of overseas markets for U.S. products.

Mr. Speaker, all of us in Congress greatly miss our former colleague, Mr. Hamilton. We note, however, that he continues his tremendous contributions to our Nation’s foreign policy by serving as the Director of the Woodrow Wilson International Center for Scholars, the respected international and world affairs think tank.

Mr. Speaker, I urge our colleagues to adopt the legislation before us, which fittingly honors and pays tribute to a great American and one of the most respected leaders in our Nation’s capital.

Mr. COSTELLO. Mr. Speaker, I urge passage of this legislation. I have no further requests for time, and I yield back the balance of my time.

Mr. KERNS. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Indiana (Mr. KERNS) that the House suspend the rules and pass the bill, H.R. 1583.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

Mr. KERNS. Mr. Speaker, I ask unanimous consent that all Members may revise and extend their remarks and include extraneous materials on H.R. 1583.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Indiana?

There was no objection.

Mr. GREEN of Wisconsin. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1850) to extend the
Commission on Affordable Housing and Health Facility Needs for Seniors in the 21st Century and to make technical corrections to the law governing the Commission.

The Clerk read as follows:

H.R. 1850

Be it enacted by the Senate and House of Representa-
tives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Senior Housing Commission Extension Act of 2001”.

SECTION 2. EXTENSION OF SENIORS HOUSING AND HEALTH FACILITY NEEDS COMMISSION AND TECHNICAL CORRECTIONS.

Section 2(c) of the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2000 (42 U.S.C. 12701 note) is amended—

(1) in subsection (d)(4), by striking “reimbursable”; and inserting “non-reimbursable”;

(2) in the first sentence of subsection (f)—

(A) by striking “Banking and”; and

(B) by striking “December 31, 2001” and inserting “December 31, 2002”;

and

(3) in subsection (g), by striking “June 30, 2002” and inserting “March 31, 2003”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Wisconsin (Mr. GREEN) and the gentle-
woman from Indiana (Ms. CARSON) each will control 20 minutes.

The Chair recognizes the gentleman from Wisconsin (Mr. GREEN).

GENERAL LEAVE

Mr. GREEN of Wisconsin. Mr. Speaker, I ask unanimous con-
sent that Members may have 5 legislative days within which to revise and extend their remarks and include extraneous mate-
rial on H.R. 1850.

The SPEAKER pro tempore. Is there objection to the request of the gentle-
man from Wisconsin?

There was no objection.

Mr. GREEN of Wisconsin. Mr. Speaker, I yield myself such time as I may consume.

The purpose of H.R. 1850, the Senior Housing Commission Extension Act, is to extend for 1 year the Commission on Affordable Housing and Health Care Facility Needs of Senior Citizens. In 1999, Congress created this Commission to develop a comprehensive strategy for dealing with the growing needs associated with senior housing.

This extension is necessary because the appointment of commission mem-
bers was delayed for more than 1 year after the passage on October 20, 1999, with commission member appoint-
ments not occurring until January 2, 2001. Given that more than 1 year passed before commission co-chairs—persons, members and a staff could be appointed, the Commission requested an extension of the report deadline from December 31, 2001, to March 30, 2003.

This legislation merely makes tech-
nical corrections to allow the Commission to do the job that Congress origi-
nally intended. H.R. 1850 extends the dates authorizing the Commission’s re-
porting date, termination date and au-

thority to use agency employees on a non-reimbursable basis. The Congres-
sional Budget Office estimates that this bill will require no additional spending.

This country is facing a serious hous-
ing crisis for low and moderate income families and individuals. In no other segment of our population is this crisis more evident than in our senior’s popu-
lation. According to the Department of Commerce, Bureau of the Census, in July 1999 there were more than 35.5 million Americans over 65 years of age, and the Bureau projects that by the year 2075, more than 55.7 million, or one in eight, Americans will be over 65 years in age.

HUD statistics indicate that only one-third of the low income senior citi-
zens in need of affordable housing actu-
ally receives assistance. Appropriate senior housing is only part of the prob-
lem. Along with the decent housing, seniors need supportive services. Over the years, non-profits and faith-based organizations have worked with HUD to develop creative ways to meet the needs of this vulnerable group, but as our population continues to age, we must seek new ways to address this growing problem.

The commission is charged with de-
veloping a comprehensive strategy to address the issues that are inherent to America’s aging population by review-
ing existing programs and exploring new ideas and partnerships. H.R. 1850 will provide the Commission with the time that Congress originally intended that it have to complete this task.

I urge my colleagues’ support and I urge adoption of this measure.

Ms. CARSON of Indiana. Mr. Speaker, I yield myself such time as I may consume. I think the gentleman from Wisconsin (Mr. GREEN) has done a woman’s job in detailing the needs of this legislation.

Let me reinforce a part of his mes-
 sage, and that is, the dire need for af-
fordable, decent, safe housing for our aging population. Since I am probably one of them, this is probably a conflict of interest as I speak.

I rise in support of this bipartisan legislation, which extends the life of the “Commission on Affordable Housing and Health Facility Needs for Seniors in the 21st Century,” commonly re-
ferred to as the Seniors Commission.

The Seniors Commission was established on a bipartisan basis in the last Congress. It is charged with studying and proposing rec-
ommendations dealing with the challenges of aging America’s seniors. As a result, we are extend-
ing the Commission’s reporting deadline and termination date by one year. We also clarify the Commission’s authority to use agency em-
ployees as details on a non-reimbursable basis.

As many of you know, our population is aging, particularly for low- and moderate-income families and individuals. According to the Department of Commerce, Bureau of the Census, in July 1999 there were more than 35.5 million Americans over 65 years of age, and the Bureau projects that by the year 2075, more than 55.7 million, or one in eight Americans, will be over 65 years of age.

These are purely technical corrections worked-out between the majority and minority staffs along with the Commission’s Executive Director—Gerard Holder—that will empower the Commission to provide the type of report and recommendations necessary to assist Congress in addressing elderly housing issues.

Mr. Speaker, I urge passage of this legisla-
tion.

Mr. GREEN of Wisconsin. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Ms. CARSON of Indiana. Mr. Speaker, I yield myself such time as I may consume.

The SPEAKER pro tempore. The question was taken; and (two-
thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.
MARK-TO-MARKET EXTENSION ACT OF 2001

Mr. GREEN of Wisconsin. Mr. Speaker, I move to suspend the rules and pass the bill (S. 2589) to amend the Multifamily Assisted Housing Reform and Affordability Act of 1997 to reauthorize the Office of Multifamily Housing Assistance Restructuring, and for other purposes, as amended.

The Clerk read as follows:

H. R. 2589
Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE AND TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Mark-to-Market Extension Act of 2001".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title and table of contents.
Sec. 2. Purposes.
Sec. 3. Effective date.

TITLE I—MULTIFAMILY HOUSING MORTGAGE ASSISTANCE AND RESTRUCTURING AND SECTION 8 CONTRACT RE-NEWAL

SEC. 101. Definitions.
Sec. 102. Mark-to-market program amendments.
Sec. 103. Consistency of rent levels under enhanced voucher assistance and rent restructuring.
Sec. 104. Eligible inclusions for renewal of partially assisted buildings.
Sec. 105. Eligibility of restructuring projects for miscellaneous housing insurance.
Sec. 106. Technical corrections.

TITLE II—OFFICE OF MULTIFAMILY HOUSING ASSISTANCE RESTRUCTURING

Sec. 201. Reauthorization of Office and extension of program.
Sec. 202. Appointment of Director.
Sec. 203. Vacancy in position of Director.
Sec. 204. Oversight by Federal Housing Commissioner.
Sec. 205. Limitation on subsequent employment.

TITLE III—MISCELLANEOUS HOUSING PROGRAM AMENDMENTS

Sec. 301. Extension of the CDBG public services cap exception.
Sec. 302. Use of section 8 enhanced vouchers for prepayments.
Sec. 303. Prepayment and refinancing of loans for section 202 supportive housing.
Sec. 304. Technical correction.

SEC. 2. PURPOSES.

The purposes of this Act are—

(1) to continue the progress of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (referred to in this section as "that Act");

(2) to ensure that properties that undergo mortgage restructurings pursuant to that Act are rehabilitated to a standard that allows the properties to meet their long-term affordability requirements;

(3) to ensure that, for properties that undergo mortgage restructurings pursuant to that Act, reserves are set at adequate levels to allow the properties to meet their long-term affordability requirements;

(4) to ensure that properties that undergo mortgage restructurings pursuant to that Act are operated efficiently, and that operating expenses are sufficient to ensure the long-term financial and physical integrity of the properties;

(5) to ensure that properties that undergo mortgage restructurings have adequate resources to meet the조건 of that Act; and

(6) to ensure that the Office of Multifamily Housing Assistance Restructuring of the Department of Housing and Urban Development continues to focus on the portfolio of properties eligible for restructuring under that Act;

(7) to ensure that the Department of Housing and Urban Development develops guidelines that fully track the condition of those properties on an ongoing basis;

(8) to ensure that tenant groups, nonprofit organizations, and public entities continue to have the resources for building the capacity of tenant organizations in furtherance of the purposes of this Act; and

(9) to encourage the Office of Multifamily Housing Assistance Restructuring to continue to provide participating administrative entities, including public participating administrative entities, with the flexibility to respond to specific problems that individual cases may present, while ensuring consistent outcomes across the country.

SEC. 3. EFFECTIVE DATE.

Except as provided in sections 106(a)(2), 303(b), and 304(b), this Act and the amendments made by this Act shall take effect or be deemed to have taken effect, as appropriate, on the earlier of—

(1) the date of the enactment of this Act; or

TITLE I—MULTIFAMILY HOUSING MORTGAGE ASSISTANCE AND RESTRUCTURING AND SECTION 8 CONTRACT RE-NEWAL

SEC. 101. DEFINITIONS.

Section 512 of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f note) is amended—

(a) FUNDING FOR TENANT AND NONPROFIT PARTICIPATION.—Section 514(c)(3)(A) of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f note) is amended—

(1) by striking "Secretary shall make available not more than $10,000,000 annually in funding and inserting "Secretary shall make available not more than $10,000,000 annually in funding, which amount shall be in addition to any amounts made available under this subparagraph and carried over from previous years.

(2) by striking 'entities' and for tenant services, and inserting ‘entities', for tenant services and nonprofit organizations, and public entities described in section 517(a)(5).

(b) EXCHANGE RENTS.—Section 514(c)(2)(A) of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f note) is amended by striking "restructured mortgages" and inserting "portfolio restructuring agreements".

(c) NOTICE TO DisPLACED TENANTS.—Section 516(d) of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f note) is amended by striking "restructured mortgages" and inserting "portfolio restructuring agreements".

(d) NOtICE TO DisPLACED TenANTS.—Section 516(d) of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f note) is amended by striking "restructured mortgages" and inserting "portfolio restructuring agreements".

(e) ADdITION OF SIGNIFICANT FEATURES.—Section 517 of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f note) is amended—

(1) by striking subsection (b) (except that the striking of such subsection may not be construed to have any effect on the provision of laws amended by such subsection, except subsection was in effect before the date of the enactment of this Act) as amended;

(2) by adding at the end the following new paragraph:

"(A) AUTHORITY.—An approved mortgage restructuring and rental assistance sufficiency plan may result in the improvement of the project by the addition of significant features.

(B) FUNDING.—Significant features added pursuant to an approved mortgage restructuring and rental assistance sufficiency plan may be paid by the funding sources specified in the first sentence of paragraph (1)(A).

(C) LIMITATION ON OWNER CONTRIBUTION.—An owner of a project may not be required to contribute from non-project resources, to the extent of any additional significant features required pursuant to this paragraph, more than 25 percent of the amount of any assistance received for the inclusion of such features.

(D) APPLICABILITY.—This paragraph shall apply to all eligible multifamily housing projects, except projects for which the Secretary finds that the project is eligible for a mortgage restructuring and rental assistance sufficiency plan on or before the date of the enactment of the Market-to-Market Extension Act of 2001.

(e) LOOK-BACK PROJECTS.—Section 512(2) of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f note) is amended by adding after the period September 24, 2001

17700

CONGRESSIONAL RECORD—HOUSE

September 24, 2001
at the end of the last sentence the following: “Notwithstanding any other provision of this title, the Secretary shall treat the project as an eligible multifamily housing project for purposes of this title if (I) the project is assisted pursuant to a contract for project-based assistance under section 8 of the United States Housing Act of 1937 renewed under section 524 of this Act, (II) the owner consents to such treatment, and (III) the project meets the requirements of the first sentence of this paragraph for eligibility as an eligible multifamily housing project before the initial renewal of the contract under section 524.”

(2) Second Mortgage.—Section 517(a) of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f note) is amended—
(1) in paragraph (1)(B), by striking “no more than the” and inserting the following: “not more than the greater of—
(I) the principal amount of the second mortgage held by the Secretary or an existing mortgage held by the owner or purchaser of the project, (II) if inclusion of such costs will permit capital repairs to the project or acquisition of the project by a nonprofit organization, and (III) to the extent that inclusion of such costs (or a portion thereof) complies with the requirements under clause (ii).”

SEC. 105. ELIGIBILITY OF RESTRUCTURING PROJECTS FOR MISCELLANEOUS HOUSING INSURANCE.

Section 223(a)(7) of the National Housing Act (12 U.S.C. 1715u(a)(7)) is amended—
(1) by striking “under this Act: Provided, That the principal” and inserting the following: “under this Act, or an existing mortgage held by the Secretary that is subject to a mortgage restructuring and rental assistance suficiency plan pursuant to the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f note), provided that—
(A) the principal; (B) by striking “except that (A)” and inserting “except that (ii); (C) by striking “(B)” and inserting “(II); (D) by striking “(i)” and inserting “(iv)”; (E) by striking “(D)” and inserting “(iv); and (F) by striking “Provided further, That a mortgage” and inserting the following: “and “(B) a mortgage that is subject to a mortgage restructuring and rental assistance suficiency plan pursuant to the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f note) and is refinanced under this paragraph may have a term of not more than 30 years;”.

SEC. 106. TECHNICAL CORRECTIONS.

(a) Exemptions From Restructuring.—Section 514(h) of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f note) is amended by inserting at the end the following new section:

“SEC. 525. CONSISTENCY OF RENT LEVELS UNDER ENHANCED VOUCHER ASSISTANCE AND RENT RESTRUCTURINGS.

(a) In General.—The Secretary shall examine the standards and procedures for determining and establishing the rent standards described under subsection (b). Pursuant to such examination, the Secretary shall establish standards and guidelines that are designed to ensure that the amounts determined by the various rent standards for the same dwelling units are reasonably consistent and reflect rents for comparable unassisted units in the same area as such dwelling units.

(b) Rent Standards.—The rent standards described in this subsection are as follows:

(1) Enhanced Vouchers.—The payment standard for enhanced voucher assistance under the multifamily Housing Act of 1937 (42 U.S.C. 1437k(c)).

(2) Mark-to-Market.—The rents derived from comparable properties, for purposes of section 514(h) of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f note).

(b) Applicability.—The amendment made by subsection (a) shall apply to any vacancy in the position of Director of the Office of Multifamily Housing Assistance and Reform of the Department of Housing and Urban Development appointed after the date of the enactment of this Act, and any such Director appointed thereafter.

(c) Vacancy.—A vacancy in the position of Director shall be filled by appointment in the manner provided under subsection (a).

(d) Transfer of Authority.—Effective upon the repeal of subtitle D of this title, all authority and responsibilities to administer the program under subtitle A are transferred to the Secretary of Housing and Urban Development.

(e) Reorganization.—Effective upon such date as the Secretary determines not later than 60 days after such vacancy first becomes vacant, the Secretary shall carry out the functions and duties of the Office of Multifamily Housing Assistance and Reform of the Department of Housing and Urban Development.
U.S.C. 1437f note) is amended by striking “Secretary” and inserting “Assistant Secretary of the Department of Housing and Urban Development who is the Federal Housing Commissioner”.

SEC. 205. LIMITATION ON SUBSEQUENT EMPLOYMENT.

Section 576 of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f note) is amended by striking “2-year period” and inserting “1-year period”.

TITLE III—MISCELLANEOUS HOUSING PROGRAM AMENDMENTS

SEC. 301. EXTENSION OF CBDC PUBLIC SERVICES FUND.

Section 106(a)(8) of the Housing and Community Development Act of 1974 (42 U.S.C. 5305(a)(8)) is amended by striking “through 2001” and inserting “through 2005.”

SEC. 302. USE OF SECTION 8 ENHANCED VOUCHERS FOR PREPAYMENTS.

Section 8(c)(2) of the United States Housing Act of 1937 (42 U.S.C. 1437f(c)(2)) is amended by inserting after “insurance contract for the mortgage for such housing project” the following: “(including any such mortgage prepayment during fiscal year 1996 or a fiscal year thereafter)’’.

SEC. 303. PREPAYMENT AND REFINANCING OF LOW-FARE PROJECTS.

(a) IN GENERAL.—Section 202 of the Multifamily Homeownership and Economic Opportunity Act of 2000 (12 U.S.C. 1701q) is amended by striking subsection (e).

(b) EFFECTIVENESS UPON DATE OF ENACTMENT.—Subsection made by subsection (a) of this section shall take effect upon the date of the enactment of this Act and the provisions of section 202 of the American Homeownership and Economic Opportunity Act of 2000 (12 U.S.C. 1701q), as amended by subsection (a) of this section, shall apply as so amended upon such date of enactment, notwithstanding—

(1) any authority of the Secretary of Housing and Urban Development to issue regulations to implement or carry out the amendments made by subsection (a) of this section or the provisions of section 202 of the American Homeownership and Economic Opportunity Act of 2000 (12 U.S.C. 1701q); or

(2) any failure of the Secretary of Housing and Urban Development to issue any such regulations authorized.

SEC. 304. TECHNICAL CORRECTION.

(a) IN GENERAL.—Section 101(a) of Public Law 100–77 (42 U.S.C. 11931) is amended to read as if the amendment made by section 1 of Public Law 106–400 (114 Stat. 1675) was made to “Section 101” instead of “Section 1”.

(b) RETROACTIVE EFFECT.—The amendment made by subsection (a) of this section is deemed to have taken effect immediately after the enactment of Public Law 106–400 (114 Stat. 1675).

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Wisconsin (Mr. GREEN) and the gentlewoman from Indiana (Ms. CARSON) each will control 20 minutes.

The Chair recognizes the gentleman from Wisconsin (Mr. GREEN).

Mr. GREEN of Wisconsin. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to include extraneous material on H.R. 2589, the bill now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

Mr. GREEN of Wisconsin. Mr. Speaker, I yield myself such time as I may consume.

The legislation we are considering today represents a House-Senate consensus. H.R. 2589 extends the Office of Multifamily Housing Assistance Restructuring, OMHAR, and the Section 8 multifamily housing projects by lowering their rents to market levels when their current Section 8 contracts expire, and also by restructuring their mortgage debt, if such action is necessary, for the property to continue to have a positive cash flow.

In addition to extending OMHAR and the authority of the mark-to-market program, H.R. 2589 simplifies issues of jurisdiction and coordination by requiring the program director to report directly to the Federal Housing Commissioner instead of the Secretary of HUD. At present, the Office of Housing is responsible for Section 8 subsidy payments and the management of insurance contracts while at the same time OMHAR is responsible for restructuring them for the future. The same projects are under the jurisdiction of two separate equal offices, each reporting to the Secretary simultaneously. Having OMHAR report to the Commissioner will simplify these issues of coordination and jurisdiction.

Mr. Speaker, I will be submitting for the record a section-by-section analysis of the bill and also several support letters for this legislation, letters from the National Association of Home Builders, the National Leased Housing Association, the National Housing Trust, and the National Affordable Housing Management Association.

Mr. Speaker, this legislation is supported by the National Leased Housing Association, the National Apartment Association, the National Multi-Housing Council, the National Affordable Housing Management Association, the National Association of Realtors, the Institute of Real Estate Management, the Mortgage Bankers Association, the Council for Affordable and Rural Housing, the Coalition for Affordable Housing Preservation, the Appraisal Institute, the National Housing Trust, and the National Association of Home Builders.

Mr. Speaker, with all of that support, I urge my colleagues to support this legislation, and I urge its adoption.

Mr. Speaker, I submit for the RECORD the letters and section by section analysis I referred to earlier.
Hon. MARGE ROUKEMA, Chair, House of Representatives Subcommittee on Housing and Community Opportunity, Rayburn House Office Building, Washington, DC.

DEAR CHAIRWOMAN ROUKEMA: On behalf of the 205,000 members of the National Association of Home Builders, I write to express our support for H.R. 2589, the Office of Multi-family Housing Assistance Restructuring Act of 2001.”

Timely passage of the reauthorizing legislation is critical to the continuation of the Department of Housing and Urban Development’s (HUD) authority to restructure mortgages on multifamily properties insured by FHA and enhanced by Section 8 rental assistance. This program ensures the continued viability of the multifamily mortgage portfolio and ultimately saves the federal government money. Because the program is due to expire on October 1, 2001, I respectfully request swift passage of H.R. 2589 which extends the program for another five years.

NAHB urges you to support passage of H.R. 2589, as amended, Thank you in advance for your consideration of views important to the housing industry.

Sincerely,

KATHERINE E. DODDRIDGE,
Acting Senior Staff Vice President.

Chair, Subcommittee on Housing & Community Opportunity, Rayburn House Office Building, Washington, DC.

DEAR CHAIRWOMEN ROUKEMA: I am writing on behalf of the National Leased Housing Association (NLHA) in support of H.R. 2589 as revised. The bill includes the necessary reauthorization of the mark to market program while making important non-controversial revisions that will improve processing under the program.

The bill will present a disruption of mortgage current practice. The OMB/HIP pipeline will provide a measure of stability for future properties that will benefit from the technical provisions impacting contributions to rehabilitation, length of second mortgages, and the eligibility of HUD-held loans for certain mortgage processing. The bill also ensures the adequate distribution of technical assistance funding and corrects several inconsistent provisions in current law.

We are grateful for your leadership in drafting a compromise with the Senate to eliminate the controversial provisions in S. 1254, including the National Apartment Association, the Coalition for Affordable Housing and the Council for Affordable Housing Preservation. We appreciate your efforts to address and mitigate those concerns.

As always, we are thankful for your interest in promoting the preservation of the affordable housing stock.

Sincerely,

DENISE B. MUBA, Executive Director.

DEAR CONGRESSWOMAN ROUKEMA: Formed in 1986, the National Housing Trust is a national nonprofit organization, located in Washington, D.C. The Trust is dedicated to the preservation of existing affordable housing. Its board of directors is comprised of nationally recognized authorities and practitioners in the housing and community development field.

The Trust is a multi-faceted organization, with expertise in the financial, regulatory, tax and legal aspects of existing, federal assisted, multifamily affordable housing. It performs a path-finding role in the area through a unique mix of public policy development, technical assistance and transactional activity.

The Trust plays a leading role in providing information and technical assistance to various stakeholders concerning various HUD proposals which concern the mortgage restructuring and subsidy renewal for nearly 1.3 million units of federally assisted and insured housing stock. The Trust has testified numerous times before Congress on this issue, developed policy papers concerning various proposals and developed a unique database for these apartments, noting term of contract, time of expiration, and the relationship of the current contract rent level to local rents. The Trust also trains and helps explain to residents their rights under HUD programs, including HUD’s “Mark to Market” program.

The September 30, 2001 sunset date for the Mark to Market legislative authority provided Congress a unique opportunity to both review the existing program, analyze its progress and remedy any perceived problems that have occurred during the current five-year period. H.R. 2589 is a significant bipartisan response to the need for continued Mark to Market legislation.

The program of marking HUD rents down to comparable market levels has been successful at both saving the taxpayers unnecessary expense and preserving HUD properties. At the same time, experience has shown that many Mark to Market assets provide necessary shelter for very low income American families who would have no other choice if the housing was not available to them. We are currently at mid point in the program’s progress and an extension is obviously necessary.

HR 2589 is to be particularly commended because it not only extends the program but also rectifies some important deficiencies that will make the program work better in the future. For example, apart from the very important procedural changes and extensions of the program itself, there is an additional material cost to the American taxpayer.

HR 2589 makes plain that the HUD Secretary shall provide adequate statutory authority to remove funds from current low-income rental assistance for non-emergencies and to convert the proceeds into other mechanisms, including paying off the mortgage. As originally intended by Congress, the HUD Secretary is given the option to provide sufficient funds for the Secretary to retain control over any property where the Secretary determines that the housing needs of residents and the community cannot be adequately addressed through implementation of the rent limitations in the statute.

HR 2589 makes a technical change permitting subordinate debt to be assumable by a nonprofit organization interested in preserving the housing as affordable;

HR 2589 permits HUD to consider for Mark to Market certain properties for sales to nonprofits and tenant groups which had previously not been permitted in the program;

HR 2589 requires the Secretary to include, for partially assisted projects owned by nonprofit organizations, budget based costs related to the project as a whole, including costs incurred with respect to units not covered by the contract for assistance; and

HR 2589 permits Section 223(a)(4), a HUD insurance program ideally suited for Mark to Market projects, more useful for Mark to Market financing.

Thank you for your leadership on this important issue.

Very truly yours,

Michael Bodaken, Executive Director.

Chair, Committee on Financial Services, House of Representatives, Washington, DC.

Congresswoman MARGE ROUKEMA, Chair, House Financial Services Subcommittee, Housing and Community Opportunity, Rayburn House Office Building, Washington, DC.

Dear Congresswoman Roukema: I am writing on behalf of the National Leased Housing Association (NLHA) in support of H.R. 2589 as revised. The bill includes the necessary reauthorization of the mark to market program while making important non-controversial revisions that will improve processing under the program.

The bill will present a disruption of mortgage current practice. The OMB/HIP pipeline will provide a measure of stability for future properties that will benefit from the technical provisions impacting contributions to rehabilitation, length of second mortgages, and the eligibility of HUD-held loans for certain mortgage processing. The bill also ensures the adequate distribution of technical assistance funding and corrects several inconsistent provisions in current law.

We are grateful for your leadership in drafting a compromise with the Senate to eliminate the controversial provisions in S. 1254, including the National Apartment Association, the Coalition for Affordable Housing and the Council for Affordable Housing Preservation. We appreciate your efforts to address and mitigate those concerns.

As always, we are thankful for your interest in promoting the preservation of the affordable housing stock.

Sincerely,

DENISE B. MUBA, Executive Director.
SEC. 3. EFFECTIVE DATE
Except for sections 106(a)(2) and 303(b), this Act and its amendments take effect on the date of enactment.

Title I—Multifamily Housing Mortgage and Assistance Restructuring and Section 8 Contract Renewal

SEC. 101. DEFINITIONS
This section makes some technical changes to section 512 of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f) designating "office" as OMHAR.

SEC. 102. MARK-TO-MARKET PROGRAM AMENDMENTS
(1) This section amends 514(h)(3) of the Act by requiring HUD to give restructuring grants to tenant groups, tenant-organized cooperatives, nonprofits, and public entities for tenant services in projects undergoing restructuring. These grants are available over a two-year period.

(2) Section 514(h)(a) of the Act—Exceptions—repeals the law that is amended by striking "restructured mortgages in any fiscal year" and inserting "portfolio restructuring agreements".

SEC. 103. ELIGIBLE INCLUSIONS FOR RENTAL AND MARKET-TO-MARKET RENTS
Requires the Secretary to establish procedures and guidelines that ensure that rent payment standards for enhanced voucher assistance, market to market and contract renewal are consistent.

SEC. 104. ELIGIBLE INCLUSIONS FOR RENTAL AND MARKET-TO-MARKET RENTS
Amends section 524(a)(4)(C) to require the Secretary to approve rents under the section for contracts that increase for the project as a whole, including costs incurred with respect to units not covered by the contract for assistance in order to permit capital repairs or acquisition by a nonprofit owner or to the public, or partial claim made under this program or the difference between the first mortgage. This provision also allows the Secretary to assign the second mortgage to an organization, such as a non-profit corporation.

SEC. 105. ELIGIBILITY OF RENOVATION PROJECTS FOR MISCELLANEOUS HOUSING INSURANCE
This section makes technical corrections to the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f) noting.

Title II—Office of Multifamily Housing Assistance Restructuring and Section 8 Contract Renewal

SEC. 201. REAUTHORIZATION OF OFFICE AND EMPLOYMENT
This section extends the Office of Multifamily Housing Assistance Restructuring and Section 8 Contract Renewal for three years and restructuring authority for an additional two years.

Section 579 of the Multifamily Assisted Housing Reform and Affordability Act of 1997 is amended by repealing Subtitle A, the Mark-to-Market program, (except for section 524) effective October 1, 2006. Subtitle D, OMHAR, is repealed effective October 1, 2004 (except for this section).

Repealing Subtitle A in 2006 terminates HUD’s authority to restructure mortgages within 5 years, though excluding section 524 allows HUD to continue to renew contracts indefinitely. Repealing Subtitle D in 2004 terminates OMHAR after 3 years.

The Office shall be under the management of a Director, who shall be appointed by the President. The amendment made by subsection (a)(1) shall apply to the first Director of OMHAR appointed after the date of enactment.

SEC. 202. VACANCY IN POSITION OF DIRECTOR
Section 572 is amended to permit the President to appoint a Director of OMHAR within 60 days after the position becomes vacant.

SEC. 203. OVERSIGHT BY FEDERAL HOUSING COMMISSIONER
Section 578 is amended by placing oversight authority and responsibilities for OMHAR with the Federal Housing Commissioner.

SEC. 204. OVERSIGHT BY FEDERAL HOUSING COMMISSIONER
Section 573(b) is amended by requiring the Director of OMHAR to report semi-annually to the Congress regarding his activities, actions and determinations, rather than to the Secretary of HUD.

SEC. 205. LIMITATION ON SUBSEQUENT EMPLOYMENT
Section 576 is amended by changing the limitation on subsequent employment from 2 years to 1 year (anti-conflict of interest provision).

Title III—Miscellaneous Housing Program Amendments

SEC. 301. EXTENSION OF CBPQ PUBLIC SERVICES CAP EXCEPTION
Section 105(a)(8) of the Housing and Community Development Act of 1974 (42 U.S.C. 5886a(8)) is amended by striking "through 2001" and inserting "through 2003".

SEC. 302. USE OF SECTION 8 ENHANCED VOUCHERS FOR PREPAYMENTS
Section 8(1)(2) of the U.S. Housing Act of 1937 (42 U.S.C. 1437f) is amended to provide a technical correction allowing residents of developments, where the owner prepaid in FY 1996, to be eligible for enhanced vouchers.

SEC. 303. PREPAYMENT AND REFINANCING OF LOANS FOR SECTION 202 SUPPORTIVE HOUSING

Mr. Speaker, I reserve the balance of my time.

Mr. CARSON of Indiana. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of this bipartisan legislation which extends HUD’s authority to reduce above-market rents on expiring section 8 projects and to restructure federally insured mortgages on these properties which the lower rents can no longer support.

The bill before us differs somewhat from the bill passed by voice vote in the Committee on Financial Services in July. However, the changes represent informal bipartisan, bicameral discussions that have taken place over the last few months. The final product is a good consensus bill with bipartisan support; and, certainly, therefore, I urge my colleagues to adopt it.

H.R. 2589 extends for 5 years HUD’s authority to conduct “mark-to-market” activities and extends for three years the Office of Multi-Family Housing Assistance Restructuring also known as OMHAR. This extends HUD’s authority to continue the carry out mark-to-market activities. The purpose of market-to-markets is to reduce the level of project based section 8 rental assistance for affordable housing projects to rent levels commensurate with local market rents.

The end result is that this process saves money for the Federal tax payers.
by reducing our section 8 expenditures. However, the statutory authority for mark-to-market activities and for OMHAR is set to expire at the end of this month. As a consequence, the GAO has identified 1,588 properties that have entered the mark-to-market program but only 500 of these properties have completed rent reductions. Thus, over 1,000 properties have yet to have their rents reduced. As more properties enter this program, there will be additional properties that need to go through rent restructuring.

Therefore, Mr. Speaker, it is essential to extend the program at this time. I would note that this legislation is estimated to save over $500 million through the reduction of rents. I would also note that since this bill saves money, there is a reasonable possibility that it will later be attached to the VA/HUD appropriations conference report in order to receive a credit from the savings from this bill. If that occurs, we would urge appropriators to reinvest these savings in affordable housing programs instead of being diverted to other programs as is often the case.

With respect to the specific provisions of the bill, we have struck a balance between giving OMHAR the tools it needs while retaining accountability. We have also included a number of good provisions to further housing affordability including providing technical assistance to tenant groups and increasing flexibility for nonprofits to operate.

So in conclusion of my remarks, Mr. Speaker, I am heartened by the bipartisan way we have developed the first major piece of housing legislation in this Congress. I am urging a “yes” vote.

Mr. Speaker, I yield such time as he may consume to the gentleman from Massachusetts (Mr. FRANK), a very distinguished, knowledgeable, articulate and dynamic friend of mine.

Mr. FRANK. Mr. Speaker, I thank the gentlewoman for yielding me this time. I am currently in the Committee on the Judiciary having hearings on the important question of the anti-terror legislation. The gentlewoman from Indiana (Ms. CARSON) graciously agreed to come down and has done a very good job of explaining the bill.

I simply want to note that the gentlewoman is correct. This is bipartisan. It is bicameral. We have worked it out in conjunction with the other party. It is important to note what I think is a duality of these issues. When it comes to how best to use existing resources to preserve housing, we are able to work together.

There continues to be differences between the parties on how much we should be putting in additional resources for housing. But once we have come to an agreement by whatever process as to what resources are there, I am very pleased we have been able to work in agreement because I think we are committed to the principle that for the Federal Government to have put money into subsidized housing, to have invited people to come in and live there and then to allow people's economics to drive them out of what have become their homes is simply unacceptable.

We need to have this ongoing commitment to do this. This is part of that ongoing commitment and that we can make adjustments that will save government money as well as require in other instances, not in this bill, increases. So I am grateful for this. I do note it, but I note that it does not do away from what I believe and I know what the gentlewoman from Indiana (Ms. CARSON) believes, is the need to put additional resources in this very rich country into the area of housing.

Let me ask the indulgence to say because I know the other bill will be coming. It goes to the Housing Commission. I also want to express my gratitude to the gentleman from New York (Mr. WALSH), the chairman of the Subcommittee on VA, HUD and Independent Agencies of the Committee on Appropriations because he was helpful in working that out. I am glad we are able to work out the extension and the appropriate staffing.

With that, I will take my leave and let us be guided by the gentlewoman from Indiana and I will go back to the hearing of the Committee on the Judiciary.

Mr. OXLEY. Mr. Speaker, I rise in support of H.R. 2589—the Mark-to-Market Extension Act of 2001.

The Committee on Financial Services approved unanimously this legislation on July 25, 2001 and reported [House Report 107–196] to the House on September 5, 2001. The Senate Committee on Banking, Housing and Urban Affairs considered a similar bill on August 1, 2001. H.R. 2589 will extend authorization of the Office of Multifamily Housing Assistance Restructuring, also known as OMHAR, which is currently a separate office within the Department of Housing and Urban Development (HUD). The authority would extend by three years the office through FY 2004 and extend the Secretary's authority to provide mark-to-market services through FY 2006. We believe that HUD will be provided the special tools necessary to restructure developments that receive both project-based rental section 8 payments and Federal Housing Administration mortgage insurance.

As I understand, the original Act was enacted in 1997 and was designed to curtail expanding section 8 rental costs for units renting at far above the prevailing market rates. Without this Act, section 8 contract renewals could cost HUD $7.5 billion dollars, which is more than one-third of HUD's future budgets. Because the authorization for this office sunsets September 30th of this year, it is necessary that this bill pass the House today.

The Committee majority and minority staff worked with our Senate counterparts to agree on a legislative solution. Moreover, this Committee worked with the Administration and the Department of Housing and Urban Development to accommodate their concerns. According to the Congressional Budget Office, this compromise language will result in savings of over $307 million dollars.

Mr. Speaker, this is a good bill and deserves favorable House consideration. Housing Subcommittee Chairwoman MARGE ROU-KEMA and Ranking Member BARNEY FRANK are to be commended for their leadership on this bill.

Mr. GREEN of Wisconsin. Mr. Speaker, I yield back the balance of my time.

Ms. CARSON of Indiana. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MIL- LER of Florida). The question is on the motion offered by the gentleman from Wisconsin (Mr. GREEN) that the House suspend the rules and pass the bill, H.R. 2589, as amended.

The question was taken.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair’s prior announcement, further proceedings on this motion will be postponed.

MUSCULAR DYSTROPHY COMMUNITY ASSISTANCE, RESEARCH AND EDUCATION AMENDMENTS OF 2001

Mr. BLIRAKIS. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 717) to amend the Public Health Service Act to provide for research and services with respect to Duchenne muscular dystrophy, as amended.

The Clerk read as follows:

H.R. 717

Be it enacted by the Senate and House of Representa-tives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Muscular Dystrophy Community Assistance, Research and Education Amendments of 2001”, or the “MD-CARE Act”.

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) Of the childhood muscular dystrophies, Duchenne Muscular Dystrophy (DMD) is the world’s most common and catastrophic form of genetic childhood disease, and is characterized by a rapidly progressive muscle weakness that almost always results in death, usually by 20 years of age.

(2) Duchenne muscular dystrophy is geneti-cally X-linked, and women are carriers in approximately 70 percent of all cases.

(3) (i) If a female is a carrier of the dystrophin gene, there is a 50 percent chance per birth that her male offspring will have Duchenne muscular dystrophy, and a 50 percent chance per birth that her female offspring will be carriers.

(ii) Duchenne is the most common lethal genetic disorder of childhood worldwide, affecting approximately 1 in every 3,500 boys worldwide.

(4) Children with muscular dystrophy exhibit extreme symptoms of weakness, delay in walk-ing, waddling gait, difficulty in climbing stairs,
and progressive mobility problems often in combination with muscle hypertrophy.

(6) Muscular dystrophy affecting children and adults include Becker, limb girdle, congenital, facioscapulohumeral, myotonic, oculopharyngeal, distal, and Emery-Dreifuss muscular dystrophy.

(7) Myotonic muscular dystrophy (also known as Steinert’s disease and dystrophy myotonia) is the second most prominent form of muscular dystrophy and the most commonly found in adults. Unlike any of the other muscular dystrophies, the muscle weakness is accompanied by myotonia (delayed relaxation of muscles after contraction) and by a variety of abnormalities, in addition to those of muscle.

(8) Facioscapulohumeral muscular dystrophy (referred to in this section as “FSHD”) is a neuromuscular disorder that is inherited genetically and has an estimated frequency of 1 in 20,000. FSHD, affecting between 15,000 to 40,000 persons, causes a progressive and severe loss of skeletal muscle gradually bringing weakness and reduced mobility. Many persons with FSHD become severely physically disabled and spend many decades in a wheelchair.

(9) FSHD is a novel genetic phenomenon resulting from a crossover of subtelomeric DNA and may be the only human disease caused by a deletion-mutation.

(10) Hereditary muscular dystrophies, though distinct in progresivity and severity of symptoms, have a devastating impact on tens of thousands of children and adults throughout the United States and worldwide and impose severe physical and economic burdens on those affected.

(11) Muscular dystrophies have a significant impact on quality of life—not only for the individual who experiences its painful symptoms and resulting disability, but also for family members and caregivers.

(12) Deemphasis in therapies for these disorders, while realistic with recent advances in research, is likely to require costly investments and infrastructure to support gene and other therapies.

(13) There is a shortage of qualified researchers in the field of neuromuscular research.

(14) Many neuromuscular patients and health care professionals lack the knowledge and resources to detect and properly diagnose the disease as early as possible, thus exacerbating the progression of symptoms in cases that go undetected or misdiagnosed.

(15) There is a need for efficient mechanisms to translate clinically relevant findings in muscular dystrophy research from basic science to applied work.

(16) Educating the public and health care community throughout the country about this devastating disease is of paramount importance and in every respect in the public interest and to the benefit of all communities.

SEC. 3. EXPANSION, INTENSIFICATION, AND COORDINATION OF ACTIVITIES OF NATIONAL INSTITUTES OF HEALTH WITH RESPECT TO RESEARCH ON MUSCULAR DYSTROPHY

Part A of title IV of the Public Health Service Act (42 U.S.C. 281 et seq.) is amended by adding at the end the following:

SEC. 404. MUSCULAR DYSTROPHY INITIATIVE THROUGH DIRECTOR OF NATIONAL INSTITUTES OF HEALTH.

(a) EXPANSION, INTENSIFICATION, AND COORDINATION OF ACTIVITIES OF NATIONAL INSTITUTES OF HEALTH.

(1) IN GENERAL.—The Director of NIH, in coordination with the Directors of the National Institute of Neurological Disorders and Stroke, the National Institute of Arthritis, and Musculoskeletal and Skin Diseases, the National Institute of Child Health and Human Development, and the other national research institutes as appropriate, shall expand and intensify programs of such Institutes with respect to research and related activities concerning various forms of muscular dystrophy, including Duchenne, myotonic, and congenital muscular dystrophy (referred to in this section as “FSHD”) and other forms of muscular dystrophy.

(2) COORDINATION.—The Directors referred to in paragraph (1) shall coordinate their programs referred to in such paragraph and consult with the Muscular Dystrophy Interagency Coordinating Committee established under section 6 of Title II of the Public Health Service Act to establish a Coordinating Committee to determine the prioritization of research and education activities relating to biomedical, epidemiological, psychosocial, and rehabilitative issues, including studies of the impact of such diseases in rural and underserved communities.

(b) CENTERS OF EXCELLENCE.—

(1) IN GENERAL.—The Director of NIH shall award grants and contracts under subsection (a)(1) to non-profit private entities to all or part of the cost of planning, establishing, improving, and providing basic operating support for centers of excellence regarding research on various forms of muscular dystrophy.

(2) RESEARCH.—Each center under paragraph (1) shall supplement but not replace the establishment of a comprehensive research portfolio in all the muscular dystrophies. As a whole, the centers shall conduct basic and clinical research in all the muscular dystrophies, including early detection, diagnosis, prevention, and treatment, including the fields of muscle biology, genetics, pharmacology, and other therapies.

(3) COORDINATION OF CENTERS; REPORTS.—

(A) The Director of NIH—

(1) shall, as appropriate, provide for the coordination of information among centers under paragraph (1) and ensure regular communication between such centers; and

(B) shall require periodic preparation of reports on the activities of the centers and the submission of the reports to the Director.

(4) ORGANIZATION OF CENTERS.—Each center under paragraph (1) shall use the facilities of a single institution, or be formed from a consortium of cooperating institutions, meeting such requirements as may be prescribed by the Director of NIH.

(5) DURATION OF SUPPORT.—Support for a center established under paragraph (1) may be provided under this section for a period of not more than 5 years if the operations of such center have been reviewed by an appropriate technical and scientific peer review panel established by the Director of NIH and if such center has been recommended to the Director that such period shall be extended.

(6) FACILITATION OF RESEARCH.—The Director of NIH shall provide for a program under subsection (a)(1) under which samples of tissues and genetic materials that are of use in research on muscular dystrophy are collected, preserved, and made available for such research. The program shall be carried out in accordance with accepted scientific and medical standards for the donation, collection, and preservation of such samples.

(d) COORDINATING COMMITTEE.—

(1) IN GENERAL.—The Director of NIH shall establish the Muscular Dystrophy Coordinating Committee (referred to in this section as the “Coordinating Committee”) to coordinate activities across the Institute and other Federal health programs and activities relating to the various forms of muscular dystrophy.

(2) COMPOSITION.—The Coordinating Committee shall be comprised of persons to be appointed by the Secretary, of which—

(A) ½ of such members shall represent governmental agencies, including the directors or their designees of each of the national research institutes involved in research with respect to muscular dystrophy and representatives of all other Federal departments and agencies whose programs involve health or responsibilities relevant to such diseases, including the Centers for Disease Control and Prevention, the Health Resources and Services Administration and other Federal agencies, and the representatives of other governmental agencies that serve children with muscular dystrophy, such as the Department of Education; and

(B) ½ of such members shall be public members, including a broad cross section of persons affected with muscular dystrophies including parents or legal guardians, affected individuals, researchers, and representatives of other relevant agencies. The Coordinating Committee shall select the Chair for a term not to exceed 2 years.

(e) APPOINTMENT.—The Chair of the Committee shall be appointed by and be directly responsible to the Secretary.

(f) PLAN FOR HHS ACTIVITIES.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this section, the Coordinating Committee shall develop a plan for coordinating and supporting education on muscular dystrophy through the national research institutes and shall periodically review and revise the plan. The plan shall—

(A) provide for a broad range of research and education activities relating to biomedical, epidemiological, psychosocial, and rehabilitative issues, including studies of the impact of such diseases in rural and underserved communities;

(B) identify priorities among the programs and activities of the National Institutes of Health regarding such research and education; and

(C) reflect input from a broad range of scientists, patients, and advocacy groups.

(2) CERTAIN ELEMENTS OF PLAN.—The plan under paragraph (1) shall, with respect to each form of muscular dystrophy, provide for the following as appropriate:

(A) Research to determine the reasons underlying the incidence and prevalence of various forms of muscular dystrophy.

(B) Basic research concerning the etiologies and genetic links of the disease and potential causes of mutations.

(C) The development of improved screening techniques.

(D) Basic and clinical research for the development and evaluation of new treatments, including new biological agents.

(E) Research and education programs for health care professionals and the public.

(f) REPORTS TO CONGRESS.—The Coordinating Committee shall biennially submit to the Committees on Energy and Commerce of the House of Representatives, and the Committee on Health, Education, Labor, and Pensions of the Senate, a report that describes the research, education, and other activities on muscular dystrophy being conducted or supported through...
the Department of Health and Human Services. Each such report shall include the following:

"(a) In General.—The Secretary, acting through the Director of the Centers for Disease Control and Prevention, may make grants to public or nonprofit private entities (including universities and other educational entities) for the purpose of carrying out epidemiological activities regarding Duchenne and other forms of muscular dystrophy, including Duchenne, myotonic, FSHD and other forms of muscular dystrophy.

"(b) Coordination With Centers of Excellence.—The Secretary shall ensure that epidemiological information under subsection (a) and (b) is made available to centers of excellence established by the National Institutes of Health.

"(d) Authorization of Appropriations.—There are authorized to be appropriated such sums as may be necessary to carry out this section."

---

SEC. 5. INFORMATION AND EDUCATION.

(a) In General.—The Secretary of Health and Human Services, acting through the Director of the National Institutes of Health (in this section referred to as the "Secretary") shall establish and implement a program to provide information and education on muscular dystrophy to health professionals and the general public, including information and education on advances in the diagnosis and treatment of muscular dystrophy and training and continuing education through programs for scientists, physicians, medical students, and other health professionals who provide care for patients with muscular dystrophy.

"(b) Stipends.—The Secretary may use amounts made available under this section to provide stipends for health professionals who are enrolled in training programs under this section.

"(c) Authorization of Appropriations.—There are authorized to be appropriated such sums as may be necessary to carry out this section.

---

SEC. 6. REPORT TO CONGRESS.

Not later than January 1, 2003, and each January 1 thereafter, the Secretary shall prepare and submit to the appropriate committees of Congress a report concerning the implementation of this Act and the amendments made by this Act.

---

H.R. 717:

"General Leave

Mr. BILIRAKIS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and insert extraneous material on H.R. 717.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. BILIRAKIS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of H.R. 717, the Duchenne Muscular Dystrophy Childhood Assistance Research and Education Act of 2001 which will help find cures for all forms of muscular dystrophy; and I commend at the outset the gentleman from Mississippi (Mr. WICKER) for writing this bill and for continuing to push for its movement through the process.

Mr. Speaker, the Subcommittee on Health of the Committee on Energy and Commerce held an important hearing on this issue where Ed McMahon spoke in favor of the legislation. I believe that every dollar invested in medical research will yield untold benefits for all Americans in years to come. Indeed, our own lives might some day depend on the efforts of scientists and doctors currently at work in our Nation's laboratories. Medical research represents our most effective weapon against diseases such as muscular dystrophy.

While we live in a modern world, children with DMD are powerless. Boys die before reaching 20, before reaching adulthood, before experiencing life. Duchenne muscular dystrophy is the most common lethal childhood genetic disorder in the world, affecting 1 in 2,328 male newborns worldwide, according to a 1997 German study.

The disease may be inherited within families, or it may be caused by a spontaneous mutation in individuals. In fact, one-third of Duchenne cases are not inherited but are caused by gene mutation.

Children who are born with DMD follow a predictable clinical course. Young children develop difficulties walking and begin falling due to muscle weakness, and by 8 to 10 years, the disease has progressed to the point where most children must rely on wheelchairs. By late teens, most DMD children have succumbed to their disease, usually as victims of respiratory failure. The diagnosis is accompanied by a lifetime of progressive loss of function, loss of independence, dependence on family caregivers, and extraordinary physical, mental, psychological, spiritual, and financial burdens for the family and for society.

As you know, this bill takes significant steps towards increasing Federal research efforts to find a cure for Duchenne and other forms of muscular dystrophy. Specifically, H.R. 717 takes four key steps toward improving the Federal commitment to muscular dystrophy:

First, increased coordination. Building on title II of the Children's Health Act of 2000, H.R. 717 expands, intensifies, and coordinates research activities related to muscular dystrophy by establishing the Muscular Dystrophy Interagency Coordinating Committee.

Secondly, it creates Centers of Excellence at NIH in order to ensure a focused research effort of muscular dystrophy. H.R. 717 establishes Centers of Excellence at NIH to support and expand clinical research on various forms of muscular dystrophy, including investigations into the diagnosis, early detection, prevention, control, and adequate treatment of various forms of DMD.

It also establishes a national muscular dystrophy surveillance program granting to public and nonprofit entities the implementation of the National Muscular Dystrophy Surveillance Program.

In addition, it allows for dissemination of education to medical professionals and promotion of public awareness.

Mr. Speaker, the advances made over the course of the last century cannot have been predicted by the most far-sighted observers. It is equally difficult to anticipate the significant gains from further medical research, particularly in the area of muscular dystrophy.

I urge my colleagues to join the Parent Project on Duchenne Muscular Dystrophy, the Muscular Dystrophy Association, and Mr. Ed McMahon who spoke so eloquently in our subcommittee hearing in defense of all of the children suffering from this disease in support of H.R. 717.
Mr. Speaker, I reserve the balance of my time.

Mr. STRICKLAND. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of this bill. I am glad that the House is considering Muscular Dystrophy Community Assistance, Research and Education Amendments of 2001, and I would like to thank the gentleman from Mississippi (Mr. WICKER) and my other colleagues on the Committee on Energy and Commerce for their strong bipartisan efforts to work in the passage of this legislation. My understanding is there are currently over 300 cosponsors in the House.

Mr. Speaker, the muscular dystrophies are a group of genetic diseases that cause the progressive weakness of skeletal muscles. Duchenne muscular dystrophy is the most common of the childhood muscular dystrophies, and is the world’s most lethal genetic childhood disease.

The disease is characterized by rapidly progressive and painful muscle weakness that almost always results in death, usually by 20 years of age. Duchenne muscular dystrophy primarily affects boys with one in every 3,500 boys worldwide affected.

A woman who is a genetic carrier of the disease has a 50 percent chance of passing it on to her son, and a 50 percent chance that her daughter will also be a carrier. Currently there are no specific treatments, although therapies to improve the quality of life of those suffering from muscular dystrophy can be used.

Scientists are working to seek ways to increase understanding of muscular dystrophy and its causes, develop better therapies, and ultimately find ways to prevent and cure the disorder. However, research into muscular dystrophy is expensive and requires an investment in gene therapies.

H.R. 717 will focus funding within the National Institutes of Health, expanding research programs, and creating Centers of Excellence that will conduct basic and clinical research into Duchenne and other muscular dystrophies. H.R. 717 also directs the Centers for Disease Control and Prevention to collect, analyze, and to report data about Duchenne and other types of muscular dystrophy. This type of close surveillance and research is critical if we are to truly understand this terrible disease and how we can best treat it or even cure it.

In addition, the funding for the CDC will help to coordinate the Institutes of Health and CDC’s research efforts.

Finally, the bill will create an educational program for family physicians who may fail to recognize the symptoms of muscular dystrophy. Identifying the disease early will ensure that treatment programs will be more effective. Hopefully, strides in gene research will make early identification easier and treatment more effective.

H.R. 717 takes important steps toward eradicating muscular dystrophy. Again, I commend my colleagues for their efforts on this legislation. For all of those families who have prematurely lost a son or daughter because of muscular dystrophy, this bill provides us with a hope that science will find a cure so that others do not suffer the same loss.

Mr. Speaker, I reserve the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I yield such time as he may consume to the gentleman from Mississippi (Mr. WICKER), the gentleman responsible for this legislation, who did a fantastic job on it and I commend him for it.

Mr. WICKER. Let me just say, Mr. Speaker, that it is indeed encouraging to see so many of our colleagues coming together in support of H.R. 717, legislation which, as the gentleman from Florida said, is designed to increase the Federal research commitment to combat muscular dystrophy. I want to thank the leadership of the Committee on Energy and Commerce, the gentleman from Louisiana (Mr. TAUTZIN) and the gentleman from Florida (Mr. BILIRAKIS) and the gentleman from Michigan (Mr. DINGELL) and the gentleman from Ohio (Mr. BROWN), for their efforts in moving this bill through their committee and to the floor. I also want to thank my friend from Ohio for his kind comments about this legislation. And I want to thank the 310 cosponsors of this legislation who have demonstrated the broad bipartisan support that this bill enjoys.

In addition, I want to thank the parents of the young boys who suffer from Duchenne muscular dystrophy. Make no mistake about it, the parents and families of these children have been the driving force in moving this bill and calling attention to this dreadful disease, people like Darlene Oliver of Tupelo, Mississippi, who has been tireless in her efforts. These parents, who are sitting around the country today on pins and needles as we debate this legislation, through their letters and visits to Members of Congress, have been instrumental in getting this bill to the House floor today.

I have received a flood of letters, e-mails, and calls from parents of DMD children from all over the country, often accompanied by pictures of their little boys. Even those who have already experienced the sorrow of losing a child have written to express their gratitude for this bill. A few days ago, I received a card from a woman in Raleigh, North Carolina. In part she writes, and I quote, “You can’t possibly know how much your support means to us, Andrew’s family. Our son will not benefit from your largesse, but countless children will. You have given hope to so many.”

Mrs. BIGGERT. Mr. Speaker, I rise today in strong support of H.R. 717, the Duchenne Muscular Dystrophy Childhood Assistance, Research and Education Amendments Act. This legislation will provide much needed resources for research on this terrible disease.

Duchenne Muscular Dystrophy primarily affects boys, and is usually discovered during their toddler or preschool years. Nearly all children with DMD lose the ability to walk some time between the ages of 7 and 12.

DMD is a truly devastating disease for those who have to live with it, and for those who care for them. We need to continue to fight for increased funding for research on this and other diseases, such as cancer, cardiovascular disease, diabetes and arthritis. The research done at NIH and sponsored by NIH at universities across America is on the cutting edge of modern science. This is an arena where the Government must play an important role to ensure that the cures of tomorrow are available to all. Along with many of my colleagues, I have been proud to support the increases which are necessary to double the funding of NIH over a period of 5 years.

However, not all who suffer from disease have been able to realize the promise of NIH research. Duchenne muscular dystrophy, as the chairman pointed out, is the most common and most lethal childhood genetic disorder. Yet less than one one-thousandth of the NIH budget is focused on research linked to muscular dystrophy. Although the dystrophin gene which causes DMD was successfully identified and isolated by medical researchers in 1987, Federal research has been minimal. Many family physicians and health care professionals lack the knowledge and resources to detect and properly diagnose the disease as early as possible, allowing the disease to progress unchecked in cases that are undetected or misdiagnosed.

Mr. Speaker, during the August recess, while I was traveling across my district like so many of my colleagues, I met Walter and Inez Ewing of Prairie, Mississippi, who have lost five of their eight children to this disease. Each of these boys died at a young age, devastating the family and friends in Monroee County, Mississippi. It is my hope that through the enactment of this legislation and with continued increased appropriations for the NIH and CDC, we can make great strides against this killer of our children and we can give more hope to the children and their parents who suffer from its effects.

I urge my colleagues to support this legislation.

Mrs. BIGGERT. Mr. Speaker, I rise today in strong support of H.R. 717, the Duchenne Muscular Dystrophy Childhood Assistance, Research and Education Amendments Act. This legislation will provide much needed resources for research on this terrible disease.

Duchenne Muscular Dystrophy primarily affects boys, and is usually discovered during their toddler or preschool years. Nearly all children with DMD lose the ability to walk some time between the ages of 7 and 12.

DMD is a truly devastating disease for those who have to live with it, and for those who care for them. We need to continue to fight for increased funding for research on this and other diseases, such as cancer, cardiovascular disease, diabetes and arthritis. The research done at NIH and sponsored by NIH at universities across America is on the cutting edge of modern science. This is an arena where the Government must play an important role to ensure that the cures of tomorrow are available to all. Along with many of my colleagues, I have been proud to support the increases which are necessary to double the funding of NIH over a period of 5 years.

However, not all who suffer from disease have been able to realize the promise of NIH research. Duchenne muscular dystrophy, as the chairman pointed out, is the most common and most lethal childhood genetic disorder. Yet less than one one-thousandth of the NIH budget is focused on research linked to muscular dystrophy. Although the dystrophin gene which causes DMD was successfully identified and isolated by medical researchers in 1987, Federal research has been minimal. Many family physicians and health care professionals lack the knowledge and resources to detect and properly diagnose the disease as early as possible, allowing the disease to progress unchecked in cases that are undetected or misdiagnosed.

Mr. Speaker, during the August recess, while I was traveling across my district like so many of my colleagues, I met Walter and Inez Ewing of Prairie, Mississippi, who have lost five of their eight children to this disease. Each of these boys died at a young age, devastating the family and friends in Monroe County, Mississippi. It is my hope that through the enactment of this legislation and with continued increased appropriations for the NIH and CDC, we can make great strides against this killer of our children and we can give more hope to the children and their parents who suffer from its effects.

I urge my colleagues to support this legislation.
symptoms in an effort to optimize the quality of life. The medication required just to treat the symptoms is often too expensive for families to handle. Research is what is desperately needed to fight this deadly disease. This bill will provide a significant step in addressing the lack of knowledge about DMD. By expanding the programs at the National Institute of Neurological Disorders and Stroke, as well as establishing research centers of excellence and authorizes research grants, we can start to find out more about DMD and give hope to families like the DeGreniers.

I urge my Colleagues to support this important legislative action. Mr. EHRLICH. Mr. Speaker, I rise today in strong support of H.R. 717, the Duchenne Muscular Dystrophy (DMD) Childhood Assistance, Research, and Education (CARE) Act. As a cosponsor of H.R. 717, I am extremely pleased this bill, which focuses federal resources on researching DMD, is being considered by the House of Representatives today. DMD is the most common form of genetic childhood disease, affecting approximately one in every 3,500 boys worldwide. As the disease progresses, muscle deterioration in the back and chest exerts pressure against the lungs, making it difficult to breathe. By age 10, children born with DMD will lose the ability to walk. The deterioration process continues until it ultimately takes the boy’s life, typically by the late teens or early twenties.

Although the gene that causes DMD was successfully identified and isolated by medical researchers in 1987, federal research devoted to potential treatment options or a cure since this initial discovery has been minimal. Of the $20.3 billion allocated for the National Institutes of Health (NIH) during FY 2001, only a few million dollars are invested in medical research specific to DMD. This limited federal support has resulted in minimal treatment options aimed at managing the symptoms, not treating the disease.

I want to commend my colleagues, ROGER WICKER and COLIN PETERSON, for introducing H.R. 717, the CARE Act. This legislation will increase the funding available for researching DMD, direct NIH’s attention to solving this problem, and better educate the public on this tragic disease.

Further, I want to thank the leadership of the Energy and Commerce Committee and its Health Subcommittee for expediting this matter to ensure that the federal government acts as quickly as possible to combat DMD. Finally, I want to recognize Parent Project, an important organization for families of sufferers of DMD, and thank them for their continued efforts to significantly increase research at the federal level.

Mr. UPTON. Mr. Speaker, I am very pleased that you have called for our consideration this evening H.R. 717, the Muscular Dystrophy Community Assistance, Research, and Education Amendments of 2001. I am an original cosponsor of H.R. 717, as a legislative design to substantially strengthen support at the national Institutes of Health for research on Duchenne and several other types of muscular dystrophy, coordinate that research across federal agencies, and translate discoveries in the lab into improved patient care. I have seen the human face of Duchenne muscular dystrophy and the toll that it takes on children and families. Some time ago, I had the opportunity to visit with Don and Joyce Carpenter of Kalamazoo, Michigan, and their courageous son Ben, who suffers from Duchenne muscular dystrophy. From them, I learned that Duchenne muscular dystrophy is the most common and the most catastrophic form of genetic childhood disease. Sadly, it generally kills its victims in their late teens or early 20s.

For decades, the only drug treatment known to somewhat alter the course of the disease is the use of steroids—whose serious side effects are well known. We’ve simply got to do better. We have to find a way to prevent this devastating disorder in the first place—perhaps through the promise of gene therapy. And until we learn how to prevent it, we’ve got to learn how to treat it more effectively.

This legislation has strong bipartisan support. It has 310 cosponsors and was unani-

MESSAGE FROM THE SENATE A message from the Senate by Mr. Lundregan, one of its clerks, announced that the Senate has passed without amendment a bill of the House of the following title:

H.R. 2903. An act to implement the agreement establishing a United States-Jordan free trade area.

REPORT ON H.R. 2944, DISTRICT OF COLUMBIA APPROPRIATIONS ACT, 2002

Mr. KNOLLENBERG, from the Committee on Appropriations, submitted a privileged report (Rept. No. 107-316) on the bill (H.R. 2944) making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against the revenues of said District for the fiscal year ending September 30, 2002, and for other purposes, which was referred to the Union Calendar and ordered to be printed.

The SPEAKER pro tempore. Pursuant to clause 1, rule XXI, all points of order are reserved on the bill.
APPOROM OF CONFERENCES ON H.R. 2500, DEPARTMENTS OF COMMERCE, JUSTICE, AND STATE, THE JUDICIARY, AND RELATED AGENCIES APPROPRIATIONS ACT, 2002

Mr. WOLF. Mr. Speaker, I ask unanimous consent to take from the Speaker’s table the bill (H.R. 2500) making appropriations for the Departments of Commerce, Justice, and State, the Judiciary, and related agencies for the fiscal year ending September 30, 2002, and for other purposes, with a Senate amendment thereto, to agree to the Senate amendment, and to agree to the conference report asked for by the Senate.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

MAKING IN ORDER AT ANY TIME CONSIDERATION OF H.R. 65, CONTINUING APPROPRIATIONS, FISCAL YEAR 2002

Mr. YOUNG of Florida. Mr. Speaker, I ask unanimous consent that it be in order at any time without intervention of any point of order to consider in the House the joint resolution (H.J. Res. 65) making continuing appropriations for the fiscal year 2002, and for other purposes; that the joint resolution be considered as read for amendment; that the joint resolution shall be debatable for 1 hour equally divided and controlled by the chairman and ranking member of the Committee on Appropriations; and that the previous question shall be considered as ordered on the joint resolution to final passage without intervening motion except one motion to reconsider.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

GENERAL LEAVE

Mr. YOUNG of Florida. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks (H.J. Res. 65), and that I may include tabular and extraneous material.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

CONTINUING APPROPRIATIONS, FISCAL YEAR 2002

Mr. YOUNG of Florida. Mr. Speaker, pursuant to the order of the House of today, I call up the joint resolution (H.J. Res. 65) making continuing appropriations for the fiscal year 2002, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the joint resolution.

The text of House Joint Resolution 65 is as follows:

H.J. RES. 65

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the following sums are hereby appropriated, out of any money in the Treasury not otherwise appropriated, and out of applicable corporate or other revenues, receipts, and funds, for the several departments, agencies, corporations, and other organizational units of Government for fiscal year 2002, and for other purposes, namely:

SEC. 101. (a)(1) Such amounts as may be necessary under the authority and conditions provided in the following appropriation acts for fiscal year 2001 for continuing projects or activities including the costs of direct loans and loan guarantees (not otherwise specifically provided for in this joint resolution) which were conducted in fiscal year 2001 and for which appropriations, funds, or other authority would be available in the following appropriations Acts:

(A) the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2002;

(B) the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 2002, notwithstanding section 15 of the State Department Basic Authorities Act of 1956, section 313 of the Foreign Relations Authorization Act, Fiscal Years 1994 and 1995 (Public Law 103–266), and section 504(a)(1) of the National Security Act of 1947 (50 U.S.C. 414(a)(1));

(C) the Energy and Water Development Appropriations Act, 2002;

(D) the Department of the Interior and Related Agencies Appropriations Act, 2002; and

(E) the Legislative Branch Appropriations Act, 2002.

Provided, That whenever the amount which would be made available or the authority which would be granted in these Acts as passed by the House of Representatives as of October 1, 2001, is different than that which would be available or granted under current operations, the pertinent project or activity shall be continued at a rate for operations not exceeding the current rate and under the authority and conditions provided in the applicable appropriations Act for fiscal year 2001.

Provided further, That no appropriation or funds made available or authorized pursuant to section 101 for the Department of Defense shall be used for new production of items not funded for production in fiscal year 2001 or prior years, for the increase in production rates above those sustained with fiscal year 2001 funds, or to initiate, resume, or continue any project, activity, operation, or organization which are defined as any project, subproject, activity, budget activity, program element, and subprogram within a program element and for which the funding is not further defined as a P–1 line item in a budget activity within an appropriation account and an R–1 line item which includes a program element and subelement within an appropriation account, for which appropriations, funds, or other authority were not available during fiscal year 2001. Provided, That no appropriation or funds made available or authorized pursuant to section 101 for the Department of Defense shall be used to initiate multi-year procurements unless the appropriated or advanced funding for economic order quantity procurement unless specifically appropriated later.

Appropriations made by section 101 shall be available to the extent and in the manner which would be provided by the pertinent appropriations Act.

17710

CONGRESSIONAL RECORD—HOUSE September 24, 2001

Provided, That whenever there is no amount made available or the authority which would be granted in these Acts as passed by the Senate as of October 1, 2001, is different than that which would be available or granted under such Act as passed by the Senate as of October 1, 2001, the pertinent project or activity shall be continued at a rate for operations not exceeding the current rate and under the authority and conditions provided in the applicable appropriations Act for fiscal year 2001.

Provided, That whenever an Act listed in this subsection as passed by the House or only the Senate as of October 1, 2001, the pertinent project or activity shall be continued at the rate for operations not exceeding the current rate and under the authority and conditions provided in the applicable appropriations Acts for fiscal year 2001.

Provided, That whenever there is no amount made available or the authority which would be granted in these Acts as passed by the Senate as of October 1, 2001, is different than that which would be available or granted under such Act as passed by the Senate as of October 1, 2001, the pertinent project or activity shall be continued at a rate for operations not exceeding the current rate and under the authority and conditions provided in the applicable appropriations Acts for fiscal year 2001.

Provided, That whenever there is no amount made available or the authority which would be granted in these Acts as passed by the Senate as of October 1, 2001, is different than that which would be available or granted under such Act as passed by the Senate as of October 1, 2001, the pertinent project or activity shall be continued at a rate for operations not exceeding the current rate and under the authority and conditions provided in the applicable appropriations Acts for fiscal year 2001.

Provided, That whenever there is no amount made available or the authority which would be granted in these Acts as passed by the Senate as of October 1, 2001, is different than that which would be available or granted under such Act as passed by the Senate as of October 1, 2001, the pertinent project or activity shall be continued at a rate for operations not exceeding the current rate and under the authority and conditions provided in the applicable appropriations Acts for fiscal year 2001.
section 101 shall be used to initiate or re-
sumy any project or activity for which ap-
propriations are made under this joint re-
olution or in the applicable appropriations
Act for fiscal year 2002 until such appro-
priations act, appropriations and funds
appropriated thereby are no longer appro-
priate prior to October 1, 2001.

SEC. 111. Appropriations made available to or by
authority granted pursuant to this joint resolution shall be available
until January 1, 2002, to such extent as is necessary to implement any
appropriations Act for fiscal year 2001 listed in section 101(a) or
in the applicable appropriations Act for fiscal year 2002 listed in
section 101(b) of this joint resolution.

SEC. 112. Appropriations made available pursuant to
clause 8, rule XX, further proceeding on this question will be post-
ed.

SEC. 113. The question was taken; and the
a yes appeared to have it.

SEC. 114. Appropriations authorized by section
107 of the Trade Act of 1974 shall con-
inue through the date specified in section
107(c) of this joint resolution.

SEC. 115. Activities authorized by section 7
of the Export-Import Bank Act of 1945 (12
U.S.C. 630f) and section 1(c) of Public Law
103-428, may continue through the date spec-
ified in section 107(c) of this joint resolution.

SEC. 116. Appropriations authorized by sub-
section (f) of section 403 of Public Law 103-
356 may continue through the date specified in section
107(c) of this joint resolution.

SEC. 117. Activities authorized by subsection
101(a) of this joint resolution, except section
107, the Library of Congress may temporarily transfer
funds made available in
section 103 of Public Law 106-61 to the revolving fund
under section 103 of Public Law 106-61 for any program operations at
a rate not exceeding the rate under authority
applicable prior to October 1, 2001.

SEC. 118. Notwithstanding any other provi-
sion of this joint resolution, except section
107, the Government Accountable Act of
1996 (Public Law 104-208) shall be readjusted to the
revised amount set forth in section 103(c) of
this joint resolution.

SEC. 119. Of amounts provided by section
107 of this joint resolution, funds made available in
the applicable appropriations Act for fiscal year 2001
may continue through the date specified in
section 107(c) of this joint resolution.

SEC. 120. Notwithstanding any other provi-
sion of this joint resolution, except section
107, the ~umpass and Procedures Act of
1996 (Public Law 104-208) shall be readjusted to the
amount set forth in section 103(c) of this joint resolution.

SEC. 121. Collection and use of maintenance
fees as authorized by section 125 of
the Federal Insecticide, Fungicide, and
Rodenticide Act (7 U.S.C. §136(a)) may continue through the date specified in section
107(c) of this joint resolution.

SEC. 122. Notwithstanding section 107 of
this joint resolution, funds made available in
Public Law 107-356 are not limited by the
terms and conditions of this joint resolution.

The SPEAKER pro tempore. The
Speaker pro tempore announced that the
ayes appeared to have it.

Mr. OBRY. Mr. Speaker, I object to the
vote on the ground that a quorum is not present
and the Speaker pro tempore announced that
the ayes appeared to have it.

Mr. OBRY. Mr. Speaker, I object to the
vote on the ground that a quorum is not present
and the Speaker pro tempore announced that
the ayes appeared to have it.
AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. Foley) at 6 p.m.

VACATING ORDERING OF YEAS AND NAYS ON H.R. 2589, MARK-TO-MARKET EXTENSION ACT OF 2001

Mr. HEFLY. Mr. Speaker, I ask unanimous consent to vacate the ordering of the yeas and nays on the motion to suspend the rules and pass the bill, H.R. 2589, as amended, to the end that the Chair put the question on the motion de novo.

There was no objection. The Speaker pro tempore. Is there objection to the request of the gentleman from Colorado?

There was no objection. The Speaker pro tempore. The question is on the motion offered by the gentleman from Wisconsin (Mr. GREEN) that the House suspend the rules and pass the bill, H.R. 2589, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The Speaker pro tempore. Pursuant to clause 8 of rule XX, the Chair will now put the question on the motions to suspend the rules on which further proceedings were postponed earlier today, and the question on passage of House Joint Resolution 65.

Votes will be taken in the following order:

H.R. 117, by the yeas and nays, and H.J. Res. 65, de novo.

The Chair will reduce to 5 minutes the time for any electronic vote after the first such vote in this series.

MUSCULAR DYSTROPHY COMMUNITY ASSISTANCE, RESEARCH AND EDUCATION AMENDMENTS OF 2001

The Speaker pro tempore. The pending business is the question of suspending the rules and passing the bill, H.R. 717, as amended.

The Clerk read the title of the bill.

The Speaker pro tempore. The question is on the motion offered by the gentleman from Florida (Mr. Bilirakis) that the House suspend the rules and pass the bill, H.R. 717, as amended, on which the yeas and nays are ordered.

The vote was taken by electronic device, and there were—yeas 383, nays 0, not voting 47, as follows:

(Roll No. 349)

YEAS—383

[Names of Members]

NAYS—0

[Names of Members]

Not Voting—47

Blumenauer Hulshof Portman
Blunt Innes Raskin
Boehner Lucas (KY) Sabo
Brody (NY) Maloney (NY) Schaffer
Bryant Millender-(FL) Serrano
Buyer Milliken Smith (NJ)
Cooksey Murray Smith (OK)
Crowley Miller, Gary Surratt
Davis (CA) Neal Tanner
DeMint Owens Tiberi
Doolittle Oxley Towns
Drayer Paul Velazquez
Gilliam Payne Vicente
Granger Peterson (MN) Walden
Gutierrez Pombo Watts (OK)
Hayworth Pomery Weiner

So (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

The title of the bill was amended so as to read: “A bill to amend the Public Health Service Act to provide for research with respect to various forms of muscular dystrophy, including Duchenne, Becker, limb girdle, congenital, facioscapulohumeral, myotonic, oculopharyngeal, distal, and Emery-Dreifuss muscular dystrophies.”

A motion to reconsider was laid on the table.

Stated for:

Mr. WALDEN of Oregon. Mr. Speaker, on rollcall No. 349, due to weather-related problems, I missed the vote. Had I been present, I would have voted ‘‘yes.’’

MISSLER-MCDONALD. Mr. Speaker, H.R. 717 was called when I was enroute from the Airport (Dulles) of which I was detained due to a storm that delayed the landing of the flight coming in from California. Had I been present, I would have voted ‘‘yea.’’

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The Speaker pro tempore (Mr. Foley). Pursuant to the provisions of
September 24, 2001

CONGRESSIONAL RECORD—HOUSE

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. PORTMAN. Mr. Speaker, due to the severe weather conditions in the Washington D.C. area, my airplane was not able to land before the votes occurred on H.R. 717, the Duchenne Muscular Dystrophy Childhood Assistance, Research and Education Amendment of 2001, and H.J. Res. 65, the FY 2002 Continuing Resolution.

Had I been present, I would have voted "yea" on each of these bills.

PERSONAL EXPLANATION

Mrs. MALONEY of New York. Mr. Speaker, on September 24, 2001, I was unavoidably detained the train broke down—and I missed rollcall vote 349 and 350. Rollcall vote 349 was on the motion to suspend the rules and pass HR 717, to provide for research and services with respect to Duchenne muscular dystrophy. Rollcall vote 350 was on passage of H. J. Res. 65, to provide for continuing appropriations for the fiscal year, and for other purposes.

Had I been present I would have voted "yea" on both H.R. 717 and H. J. Res. 65.

SUPPORTING THE GOALS OF RED RIBBON WEEK IN PROMOTING DRUG-FREE COMMUNITIES

Mr. BILIRAKIS. Mr. Speaker, I ask unanimous consent for immediate consideration of the House (H. Con. Res. 91) supporting the goals of Red Ribbon Week in promoting drug-free communities.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. Mr. FOLEY. Is there objection to the request of the gentleman from Florida? (Mr. BILIRAKIS.)

Mr. BROWN of Ohio. Mr. Speaker, reserving the right to object, I would like a brief explanation from the gentleman from Florida (Mr. BILIRAKIS).

Mr. BILIRAKIS. Mr. Speaker, will the gentleman yield?

Mr. BROWN of Ohio. I yield to the gentleman from Florida.

Mr. BILIRAKIS. Mr. Speaker, this resolution calls for increased awareness of drug abuse and promotes drug-free communities.

Red Ribbon Week began in 1985 following the death of Enrique "Kiki" Camarena, a drug enforcement agent who was close to uncovering identities of key members of a Mexican drug cartel. Saddened by his death and concerned by the destruction caused by drugs in America, his friends and family in his hometown of Calexico, California began wearing red ribbons in his honor to raise the consciousness of drug abuse and promote drug-free communities.

Today the red ribbon has become the national symbol for drug prevention.
across America. Red Ribbon Week activities make a positive impact in communities nationwide. The program focuses on identifying resources for parents and collaborating with community stakeholders to provide primary prevention and education to strengthen healthy families.

I support the goals of this resolution, Mr. Speaker; and I believe it is a critical task through which local communities learn, educate, and act to ensure a healthier future for our children. I ask my colleagues to support the fight against drugs and to help us pass H. Con. Res. 84, supporting the goals of Red Ribbon Week and promoting drug-free communities.

Mr. BROWN of Ohio. Further reserving the right to object, Mr. Speaker, I yield to my colleague, the gentleman from California (Mr. BACA).

Mr. BACA. Mr. Speaker, I stand here today in support of House Concurrent Resolution 84. This bill expresses a sense of Congress supporting the goals of Red Ribbon Week and preventing drug use. We must focus on awareness and prevention.

The battle against drugs is being fought in our homes, in our living rooms with real human beings and with our children, our brothers, our sisters, our parents, our neighbors, our friends, our relatives and our communities.

In California, I have worked hard to recognize Red Ribbon Week, as you can see by the red ribbon that I am wearing now. And as it was stated earlier before, it originally started in 1985 in Imperial Valley; and we have celebrated in San Bernardino, throughout the last 7 or 8 years, Red Ribbon Week. We have a parade.

I think it is important for our communities to know that drugs kill our children. We must be aware. We must do everything possible to prevent the use of drugs in our lives and getting a child to go in a positive direction is good for our children. Let them know that we will say no to drugs. Drugs are bad, bad for our children, bad for our community, bad for our society, whatever we can do to promote that awareness and involvement in our neighborhoods.

We have got our communities involved. We have schools that are involved. We have businesses that are involved. We have neighborhoods that are involved. We have youth and families that participate because we know what it means and what a disaster it is to a family who is involved in drugs.

It is also a savings in taxpayer dollars to us as well. When we look at a child or someone who is into drugs, it costs us for that particular child to rehabilitate them. It is a lot better to do the prevention and awareness to save the child and save a life.

I believe we have to do everything possible to make sure our communities are drug free. We participate with law enforcement in our communities. We participate with the fire department. We participate with our neighbors. We want healthy and productive and drug-free life society. By all of us being involved and coming together, we are touching the lives and saving the lives of many individuals in our community.

Today we are committed in this movement and we will continue to do this. This is the Red Ribbon Week; and hopefully, everybody will display the red ribbon that I have here alongside, of course, the flag that we carry in our lapel for many Americans right now. As we look at what has happened right now, as many of us in this General Assembly who died there, we want to demonstrate to those individuals who have sacrificed their lives to save a life, it is that life for many other individuals and possibly those children that lost their lives there and many of the children we have to save as well.

Mr. Speaker, I ask everybody to recognize we must save the lives of our children.

Mr. BROWN of Ohio. Mr. Speaker, I support passage of the concurrent resolution, and I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. Speaker, I ask unanimous consent to have my name removed as a cosponsor of H.R. 2269.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, without objection, referred to the Committee on International Relations and ordered to be printed:

To the Congress of the United States:

Section 202(d) of the National Emergencies Act, 50 U.S.C. 1622(d) provides for the automatic termination of a national emergency unless, prior to the anniversary date of its declaration, the President publishes in the Federal Register and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent the enclosed notice, stating that the emergency declared with respect to UNITA (UNITA) is to continue in effect beyond September 26, 2001.

The circumstances that led to the declaration on September 26, 1993, of a national emergency have not been resolved. The actions and policies of UNITA pose a continuing unusual and extraordinary threat to the foreign policy of the United States. United Nations Security Council Resolutions 864 (1993), 1127 (1997), and 1173 (1998) continue to oblige all member states to maintain sanctions. Discontinuation of the sanctions would have a prejudicial effect on the prospects for peace in Angola. For these reasons, I have determined that it is necessary to maintain in force the broad authorities necessary to apply economic pressure on UNITA to reduce its ability to pursue its military operations.

GEORGE W. BUSH.

REPORT ON NATIONAL EMERGENCY WITH RESPECT TO NATIONAL UNION FOR THE TOTAL INDEPENDENCE OF ANGOLA (UNITA)—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 107–125)

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, referred to the Committee on International Relations and ordered to be printed:

To the Congress of the United States:

As required by section 401(c) of the National Emergencies Act, 50 U.S.C. 1641(c), and section 12945 of the National Emergency Economic Powers Act, 50 U.S.C. 1703(c), I transmit hereewith a 6-month periodic report on the national emergency with respect to the National Union for the Total Independence of Angola (UNITA) that was declared in Executive Order 12965 of September 26, 1993.

George W. Bush

BLOCKING PROPERTY AND PROHIBITING TRANSACTIONS WITH PERSONS WHO COMMIT, THREATEN TO COMMIT, OR SUSTAIN ACTS OF TERRORISM—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 107–126)

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, without objection, referred to the Committee on International Relations and ordered to be printed:

To the Congress of the United States:

Pursuant to section 204(b) of the International Emergency Economic Powers Act, 50 U.S.C. 1703(b) (IEEPA), and section 301 of the National Emergencies Act, 50 U.S.C. 1631, I hereby report that I have exercised my statutory authority to declare a national emergency in response to the unusual and extraordinary threat to the national security, foreign policy, and economy of the United States by grave acts of terrorism and threats of terrorism committed by foreign terrorists, including the September 11, 2001, terrorist attacks at the World Trade Center, New York, and in Pennsylvania. I have also issued an Executive Order to help deal with this threat by giving the United States more powerful tools to reach the means by which terrorists and terrorist networks finance themselves and to encourage greater cooperation by foreign financial institutions and other entities that may have access to foreign property belonging to terrorists or terrorist organizations.

The attacks of September 11, 2001, highlighted in the most tragic way the threat posed to the security and national interests of the United States by terrorists who have abandoned any regard for humanity, decency, morality, or honor. These networks operate across international borders and derive their financing from sources in many nations. Often, terrorist property and financial assets lie outside the jurisdiction of the United States. Our efforts to disrupt these networks and destroy the financial underpinnings of global terrorism must therefore be broad, and not only provide powerful sanctions against the United States property of terrorists and their supporters, but also encourage multilateral cooperation in identifying and freezing property and assets located elsewhere.

This Executive Order is part of our national commitment to lead the international effort to bring a halt to the evil of terrorist activity. In general terms, it permits means by which to disrupt the financial support network for terrorist organizations by blocking the U.S. assets not only of foreign persons or entities who commit or pose a significant risk of committing acts of terrorism, but also by blocking the assets of their subsidiaries, front organizations, agents, and associates, and any other entities that provide services or assistance to them. Although the blocking powers enumerate in the order are broad, my Administration is committed to exercising them responsibly, with due regard for the culpability or the persons and entities potentially covered by the order, and in consultation with other countries.

The specific terms of the Executive Order provide for the blocking of the property and interests in property, including bank deposits, of foreign persons designated in the order or pursuant thereto, when such property is or is acquired, directly or indirectly, with the possession or control of United States persons. In addition, the Executive Order prohibits any transaction or dealing by United States persons in such property or interests in property, including the making or receiving of any contribution of funds, good, or services to or for the benefit of such designated persons.

I have identified in an Annex to this order eleven terrorist organizations, twelve individuals terrorist leaders, three charitable or humanitarian organizations that operate as fronts for terrorist financing and support, and one business entity that operates as a front for terrorist financing and support. I have determined that each of these organizations and individuals have committed, or are committing, acts of terrorism that imperil the security of United States nationals or the national security, foreign policy, or economy of the United States. I have also authorized the Secretary of State to determine and designate additional foreign persons who have committed or pose a significant risk of committing acts of terrorism that threaten the security of U.S. national or the national security, foreign policy, or economy of the United States. Such designations are to take effect in consultation with the Secretary of the Treasury and the Attorney General.

The Executive Order further authorizes the Secretary of the Treasury to identify, in consultation with the Secretary of State and the Attorney General, additional persons or entities that:

- Are owned or controlled by, or that act for or on behalf of, those persons designated in or pursuant to the order;
- Assist in, sponsor, or provide financial, material, or technological support for, or financial or other services to or in support of acts of terrorism or those persons designated in or pursuant to the order; or
- Are otherwise associated with those persons designated in or pursuant to the order.

Prior to designating persons that fall within the latter two categories, the Secretary of the Treasury is authorized to consult with any foreign authorities the Secretary of State deems appropriate, in consultation with the Secretary of the Treasury and the Attorney General. Such consultation is intended to avoid the need for additional designations by securing bilateral or multilateral cooperation from governments and foreign financial and other institutions. Such consultation may include requests to foreign governments to seek, in accordance with international law and their domestic laws, information from financial institutions regarding terrorist property and to take action to deny terrorists the use of such property. The order also provides broad authority, with respect to the latter two categories, for the Secretary of the Treasury, in his discretion, in consultation with the Secretary of State and the Attorney General, to take lesser action than the complete blocking of property or interests in property if such lesser action is deemed consistent with the national interests of the United States.

Some of the factors that may be considered in deciding whether a lesser action against a foreign person is consistent with the national interests of the United States include:

- The impact of blocking on the U.S. or international financial system;
- The extent to which the foreign person has cooperated with U.S. authorities;
- The degree of knowledge the foreign person had of the terrorist-related activity of the designated person;
- The extent of the relationship between the foreign person and the designated person; and
- The impact of blocking or other measures on the foreign person.

The Executive Order also directs the Secretary of State, the Secretary of the Treasury, and other agencies to
CONGRESSIONAL RECORD—HOUSE September 24, 2001

make all relevant efforts to cooperate and coordinate with other countries, including through existing and future multilateral and bilateral agreements and arrangements, to achieve the objectives of this order, including the prevention and suppression of acts of terrorism, the denial of the financial and financial services to terrorists and terrorist organizations, and the sharing of intelligence about funding activities in support of terrorism.

In the Executive Order, I also have made determinations to suspend otherwise applicable exemptions for certain humanitarian, medical, or agricultural transfers or donations. Regrettably, international terrorist networks make frequent use of charitable or humanitarian organizations to obtain clandestine financial and other support for their activities. If these exemptions were not suspended, the provision of humanitarian materials could be used as a loophole through which support could be provided to individuals or groups involved with terrorism and where activities endanger the safety of United States nationals, both here and abroad.

The Secretary of the Treasury, in consultation with the Secretary of State and the Attorney General, is authorized to issue regulations in exercise of my authorities under IEEPA to implement the prohibitions set forth in the Executive Order. All Federal agencies are also directed to take actions within their authority to carry out the provisions of the order, and, where applicable, to advise the Secretary of the Treasury in a timely manner of the measures taken.

The measures taken here will immediately demonstrate our resolve to bring new strength to bear in our multifaceted struggle to eradicate international terrorism. It is my hope that the way forward toward a more civilized world nations to adopt similar measures to attack the financial roots of global networks.

In that regard, this Executive Order is an integral part of our larger effort to form a coalition in the global war against terrorism. We have already worked with nations around the globe and groups such as the G-8, the European Union, and the Rio Group, all of which have issued strong statements of their intention to take measures to limit the ability of terrorist groups to operate. In the next several weeks the 33rd Session of the International Civil Aviation Organization (ICAO) General Assembly and other fora will focus on terrorism worldwide. It is our intention to continue to work within the G-7/G-8, the ICAO, and other fora to reach agreement on strong concrete steps that will limit the ability of terrorists to operate.

In the G-7/G-8, the United States will work with its partners, drawing on the G-8 Group on Transnational Crime, the G-8 Group on Counter-Terrorism, the G-7 Financial Action Task Force, and the existing G-8 commitments to build momentum and practical cooperation in the fight to stop the flow of resources to support terrorism. In both the Conventions for the Suppression of the Financing of Terrorism and the Convention for the Suppression of Terrorist Bombings have been forwarded to the Senate, and I will be forwarding shortly to the Congress a legislative petition for both Conventions.

I am enclosing a copy of the Executive Order I have issued. This order is effective at 12:01 a.m. eastern daylight time on September 24, 2001.

GEORGE W. BUSH.

RECOGNIZING SARGENT SHRIVER WITH CONGRESSIONAL GOLD MEDAL

(Mr. FARR of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FARR of California. Mr. Speaker, I rise today to introduce a Congressional Gold Medal resolution for Sargent Shriver who was the first director of the Peace Corps. I do this with my cosponsors, former members of the United States Peace Corps and myself, the gentleman from Connecticut (Mr. Shays), the gentleman from Ohio (Mr. Hall), the gentleman from New York (Mr. Walsh), the gentleman from California (Mr. Honda), and the gentleman from Wisconsin (Mr. Peterson).

I also do it on behalf of the 169,000 volunteers who have served the United States Government in over 135 countries. I also do this based on what I did Saturday which was to celebrate the 40th anniversary of the Peace Corps here in Washington, but then on Sunday I went to the World Trade Center, ground zero in New York City, so I saw peace on Saturday and war on Sunday.

I view the destruction with a renewed commitment to the Peace Corps in order to better understand the world cultures, the world languages and the world differences.

Mr. Speaker, what better way than to authorize the President to present a Congressional Gold Medal to commemorate the 40th anniversary of the Peace Corps in recognition of its founding father.

SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 3, 2001, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

Mr. RAMSTAD. Mr. Speaker, I rise today to pay tribute to a true American hero. America owes Tom Burnett, Jr., a deep debt of gratitude for his bravery on September 11. Indeed, the Members of this very body may owe their very lives to Tom Burnett, Jr.

Mr. Speaker, Tom Burnett, who grew up in Bloomington, Minnesota in the Third Congressional District, which I am privileged to represent, was aboard United Flight 93 on that darkest of days for our Nation. Tom was among the small group of passengers who confronted the hijackers that fateful morning. Department of Transportation officials believe Flight 93 was headed for a target here in Washington, most likely the White House or the Capitol.

Tom was able to reach his wife, Deena, on his cell phone from the plane. She told him that other hijacked planes had crashed into the World Trade Center towers and the Pentagon.

1900

Tom then told her, and I am quoting, “We've got to do something. I know we're all going to die. There's three of us who are going to do something about it.”

Mr. Speaker, that is exactly what Tom Burnett did. His courage and sacrifice foiled the hijackers' plans of mass destruction. Without regard to his own safety, Tom helped save countless lives.

In recent days, after listening to the tape from the black box, law enforcement officials have described a desperate struggle aboard the plane. As FBI Director Mueller said after being briefed on the contents of the tape, and I am quoting, “We believe those passengers were absolute heroes, and their actions during this flight were heroic.”

Mr. Speaker, Tom Burnett, Jr. has shown this kind of selfless leadership many times before. As a quarterback at Thomas Jefferson High School in Bloomington, Minnesota, Tom's inspired play led his team to the conference championship game in 1980, the only game they lost that season. The team that beat them won the State title, in fact. He was also a leader in his remarkable business career, as chief operating officer for a medical device manufacturer in California.

No one who knew Tom Burnett is surprised at his heroism.

His football coach in high school, Bruno Waldner, said, “Tom, if anybody, would have the type of character to do that. He didn't get egotistical. He took everybody up another level. He was on an average football team that went on to play over their heads. And they almost won a championship.”

Mr. JOHNSON of California, the gentleman from California. Mr. Speaker, I rise to extend his remarks.

Tom was a man of action. If he knew that he could have any potential beneficial effect and he knew what the odds were, he would have taken action.”

Another business associate stated: “This was very much in character for Tom Burnett. It's just the type of man he was.”

Mr. Speaker, I rise today to pay tribute to a true American hero. America owes Tom Burnett, Jr., a deep debt of gratitude for his bravery on September 11. Indeed, the Members of this very body may owe their very lives to Tom Burnett, Jr.
Mr. Speaker, such moving testimonials to this great and courageous man have literally come in floods of words and tears in recent days back in Minnesota. At a memorial service last Tuesday night at St. Edward's Catholic Church in Bloomington, I was among the 1,200 mourners who attended and heard many such moving tributes. The streets and parking lot of that church were lined with many other people who could not get into the packed church. Many waved American flags of all sizes. It was very sad. And it was very uplifting.

Mr. Speaker, many people claim America has suffered from a lack of heroes in recent years. Not anymore. Not with Tom Burnett, Jr. to look up to. Like so many heroes of September 11 who gave their lives to help others, from Tom and his fellow passengers on Flight 93, to the police, rescue personnel and firefighters in New York who rushed into those doomed towers and in so many others, America has real heroes to remember and to cherish. We must never forget their ultimate sacrifice.

Mr. Speaker, our thoughts and prayers are with Tom's wonderful family, his loving wife, Deena, their daughters Madison, Halley and Anna-Clair, his parents Thomas Sr. and Beverly of Bloomington, and his sisters Martha O'Brien and Mary Margaret Burnett.

May God bless Tom Burnett and his family. And may God bless America and all the heroes and heroines like Tom Burnett who gave their lives to save others on September 11.

INTRODUCTION OF RESOLUTION IN SUPPORT OF RECOVERY AND RETURN OF LUDWIG KOONS

The SPEAKER pro tempore (Ms. HART). Under a previous order of the House, Mr. Lampson from Texas (Mr. LAMPSON) is recognized for 5 minutes.

Mr. LAMPSON. Madam Speaker, today I rise to let my colleagues know of my introduction of a concurrent resolution in support of the United States Government's becoming actively involved in the recovery and return of Ludwig Koons, a boy who was abducted to Italy by his mother.

Ludwig, son of Jeffrey Koons, an renowned artist, was abducted to Italy by his mother, Ilona Staller, on June 9, 1994. Mr. Koons has filed a petition against the Republic of Italy with the European Court of Human Rights. The court has primary jurisdiction regarding the admissibility of this petition, which had exclusive jurisdiction to decide the parties' custody dispute. The decision of the Italian judicial authorities to declare Ludwig, a native American citizen, from exercising his right of access to the United States, even for temporary visits, in order to maintain meaningful relations with his father and his paternal family is in violation of international principles of law and treaties to the detriment of a U.S. minor.

My resolution states that the United States should request that the Italian Republic immediately return Ludwig Maximillian Koons to the custody of the father in the United States as established by the judgment of divorce in the Supreme Court of New York of December 9, 1994. Pending a final decision by the Republic of Italy regarding the permanent return of Ludwig to the United States, the United States should also request that Italy authorize Ludwig to visit his father in his New York residence on a temporary basis.

As an American citizen, Ludwig has a right to preserve his identity, his nationality, and his family relations and to be raised by the parent who can best assure him a sound and healthy environment.

OH SAY CAN WE SEE?

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Minnesota (Mr. GUTKNECHT) is recognized for 5 minutes.

Mr. GUTKNECHT. Madam Speaker, lying aboard a British warship in Baltimore Harbor, Francis Scott Key listened with the small, undamaged garrison sufferingly found itself under the attack of the greatest Navy in the world. One thousand American soldiers were charged with the daunting task of defending Fort McHenry against 30 British warships and thousands of enemy ground troops. The bombs fell for 25 straight hours. Many hit their target. Others burst overhead, raining shrapnel on the soldiers below. When the rocket explosions died down, the American spirit remained. KEY surely thought that Fort McHenry had been taken.

Straining to see through the smoke that hung over the water in the early morning light, Key wiped away tears to see the Stars and Stripes still flying defiantly over that battered fort. The Americans had achieved the unthinkable. They had bravely held their position against all odds. The magnificent sight moved Key to pen the words that have stirred American hearts ever since, the Star-Spangled Banner.

Two weeks ago, 187 years after the defense of Fort McHenry, our Nation stared in horror at the smoke hanging over New York City and Washington, D.C. We looked on in disbelief as the towers crumbled before our very eyes. Yet out of the destruction shone a beacon of hope. Wiping tears from our eyes, we watched modern heroes, New York's firefighters, raising the Stars and Stripes atop the mountain of rubble. The comparison to Iwo Jima is inescapable.

Madam Speaker, the attack on America was not an attempt to defeat our Army. It was an organized plan to destroy the lives of innocent Americans. It was a direct assault on the American spirit. The terrorists succeeded in killing thousands of our fellow citizens, but they can never kill the American spirit.

Napoleon once said, "The great soldiers run to the sound of the guns." Consider the heroism of the passengers aboard United Flight 93 who attacked their hijackers. They saved thousands of lives on the ground and perhaps the most precious symbols of our Nation. We will never forget the firefighters who gave their lives when they courageously rushed into the burning towers as others streamed out. Now we see the quiet heroism of rescue workers who continue to dig tirelessly through the rubble in hopes of finding just one survivor. These Americans stand on the shoulders of the defenders of Fort McHenry.

Throughout our history, many adversaries have underestimated the steely resolve of the American spirit. They underestimated us now. We have been called to action, to demonstrate the virtues that make this a great Nation. At a similar hour, Winston Churchill said, "Do not let us speak of darker days. Let us speak, rather, of sterner days. These are not dark days. These are great days, the greatest days our country has ever lived. We must all thank God that we have been allowed, each of us according to our stations, to play a part in making these days memorable in the history of our race."

Madam Speaker, as we declare war on terrorism around the world, the
American flag will inspire us just as it inspired Francis Scott Key. It will serve as a notice to our adversaries. Though bruised and bloodied, we remain unbowed. The authors of terror may never understand the words of our national anthem, but they will come to understand the spirit that it embodies. We will turn our rage into moral outrage. When the dust of battle clears, America will remain the land of the free and the home of the brave.

Madam Speaker, to victory. May God bless America.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12 of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 7:00 o'clock and 13 minutes p.m.), the House stood in recess subject to the call of the Chair.

□ 2016

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. Dreier) at 8 o'clock and 16 minutes p.m.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 2944, DISTRICT OF COLUMBIA APPROPRIATIONS ACT, 2002

Mr. LINDER, from the Committee on Rules, submitted a privileged report (Rept. No. 107–217) on the resolution (H. Res. 345) providing for consideration of the bill (H.R. 2944) making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against the revenues of said District for the fiscal year ending September 30, 2002, and for other purposes, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION PROVIDING FOR FURTHER CONSIDERATION OF H.R. 2586, NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2002

Mr. LINDER, from the Committee on Rules, submitted a privileged report (Rept. No. 107–218) on the resolution (H. Res. 346) providing for further consideration of the bill (H.R. 2586) to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, to prescribe military personnel strengths for fiscal year 2002, and for other purposes, which was referred to the House Calendar and ordered to be printed.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(Referred to the House, following the request of Mr. Brown of Ohio to revise and extend their remarks and include extraneous material):

Mr. DeFazio, for 5 minutes, today.

Ms. Millender-McDonald, for 5 minutes, today.

Mr. Conyers, for 5 minutes, today.

Mrs. Meek of Florida, for 5 minutes, today.

Ms. Brown of Florida, for 5 minutes, today.

Mrs. Jones of Ohio, for 5 minutes, today.

Ms. Watson of California, for 5 minutes, today.

Mr. Rodriguez, for 5 minutes, today.

Mr. Sherman, for 5 minutes, today.

Mr. Lampson, for 5 minutes, today.

(The following Members (at the request of Mr. Gutknecht) to revise and extend their remarks and include extraneous material):

Mr. Ramstad, for 5 minutes, today and September 25.

Mr. Kerns, for 5 minutes, today.

Mr. Gutknecht, for 5 minutes, today.

ENROLLED BILL SIGNED

Mr. Trandahl, Clerk of the House, reported and found truly an enrolled bill of the House of the following title, which was thereupon signed by the Speaker.

H.R. 2926. To preserve the continued viability of the United States air transportation system.

BILLS PRESENTED TO THE PRESIDENT

Jeff Trandahl, Clerk of the House, reports that on September 21, 2001, he presented to the President of the United States, for his approval, the following bills.

H.R. 2926. To preserve the continued viability of the United States air transportation system.

ADJOURNMENT

Mr. LINDER. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 8 o'clock and 17 minutes p.m.), under its previous order, the House adjourned until tomorrow, Tuesday, September 25, 2001, at 9 a.m., for morning hour debates.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 8 of rule XII, executive communications were taken from the Speaker's table and referred as follows:

3773. A letter from the Attorney-Advisor, NHTSA, Department of Transportation, transmitting the Department’s final rule—Federal Motor Vehicle Safety Standards; Occupant Crash Protection; Correction (Docket No. NHTSA 00–00782) received August 30, 2001, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

3774. A letter from the Attorney-Advisor, NHTSA, Department of Transportation, transmitting the Department’s final rule—Anthropomorphic Test Devices; 12-Month-Old Child Dummy; Final Rule; Response to Petitions for Reconsideration (Docket No. NHTSA–00–00782) (RIN: 2127–A137) received August 30, 2001, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

3775. A letter from the Attorney Advisor, NHTSA, Department of Transportation, transmitting the Department’s final rule—Approval and Promulgation of State Plans for Designated Facilities and Pollutants; States of Iowa, Kansas, Missouri, and Nebraska (FRL–7032–7) received September 5, 2001, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

3776. A letter from the Attorney, NHTSA, Department of Transportation, transmitting the Department’s final rule—Approval and Promotion of Air Quality Implementation Plans; States of Iowa, Kansas, Missouri, and Nebraska (FRL–7032–7) received September 5, 2001, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

3777. A letter from the Attorney, NHTSA, Department of Transportation, transmitting the Department’s final rule—Approval and Promotion of Air Quality Implementation Plans; State of Colorado; Denver 1-Hour Ozone Redesignation for attainment, Designation of Areas for Air Quality Planning Purposes, and Approval of Related Revisions (CO–001–0055; FRL–7044–8) received September 5, 2001, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.
CONGRESSIONAL RECORD—HOUSE
September 24, 2001

H. J. Res. 65. A joint resolution making continuing appropriations for the fiscal year 2002, and for other purposes. Referred to the Committee of the Whole House on the State of the Union. By Mr. BONIOR.

H.R. 2944. A bill making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against the revenues of said District for the fiscal year ending September 30, 2002, and for other purposes (Rept. 107–217). Referred to the House Calendar. By Mr. Myrick; Committee on Rules. House Resolution 246. Resolution providing for consideration of the bill (H.R. 2944) making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against the revenues of said District for the fiscal year ending September 30, 2002, and for other purposes (Rept. 107–218). Referred to the House Calendar. By Mr. Myrick; Committee on Rules.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions were introduced and severally referred, as follows:

By Mr. KNOLLENBERG.

H.R. 2944. A bill making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against the revenues of said District for the fiscal year ending September 30, 2002, and for other purposes.

By Mr. HASTINGS of Florida.

H.R. 2945. A bill to authorize the Secretary of Transportation to make grants to travel agencies, car rental companies, and other business concerns in the ancillary airline industry to provide compensation for losses incurred as a result of the terrorist attacks on the United States that occurred on September 11, 2001, to the Committee on Transportation and Infrastructure.

By Mr. HASTINGS of Florida (for himself, Mr. Hart, Mrs. Christensen, Mr. Jackson of Illinois, Mr. Moran of Virginia, Mrs. Mink of Hawaii, Ms. Kilpatrick, Mr. Pascrell, Mr. Lantos, Mr. Meneндеz, Mr. Hinchey, Mr. August, Mr. Abraham, Mr. Inslee, Mr. Larsen of Washington, and Ms. Jackson-Lee of Texas):

H.R. 2946. A bill to provide assistance to employees who suffer loss of employment in the airline industry as a result of the terrorist attacks of September 11, 2001, to the Committee on Ways and Means.

By Mr. Kucinich:

H.R. 2947. A bill to allow actions for damages caused by terrorist acts to be brought against any country or officials thereof; to the Committee on the Judiciary.

By Mr. YOUNG of Florida:

H.J. Res. 65. A joint resolution making continuing appropriations for the fiscal year 2002, and for other purposes; considered and passed.

By Mr. Tom Davis of Virginia:

H.Con. Res. 237. Concurrent resolution expressing the sense of the Congress in support of the “National Wash America Campaign”; to the Committee on International Relations. By Mr. Lampson; Committee on Rules.

H.Con. Res. 237. Concurrent resolution expressing the sense of the Congress urging the President to immediately and immediately return Ludwig Maximilian Koons to the custody of his father in New York; to the Committee on International Relations.

ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 17: Mr. Tierney and Mr. Houghton.

H.R. 52: Mr. Baca and Mr. Warman.

H.R. 75: Ms. Norton, Ms. Rivers, Mr. Owens, Mr. Lampson, Mr. Payne, Mr. Davis of Illinois, Mr. Kennedy of Rhode Island, and Mr. Lantos.

H.R. 185: Mr. Levin.

H.R. 336: Mr. Manzullo.

H.R. 458: Mr. Gary G. Miller of California.

H.R. 482: Mr. Wicker and Mr. Welton of Florida.

H.R. 510: Mr. Matherson, Ms. Brown of Florida, Mrs. Napolitano, and Mr. Manzullo.

H.R. 527: Mr. Filner, Mr. Bryant, and Mr. Shore.

H.R. 547: Mr. Schiff.

H.R. 590: Ms. Ros-Lehtinen.

H.R. 612: Mr. Rothman.

H.R. 632: Mr. Borski and Mr. Hinchey.

H.R. 830: Mr. Brown of South Carolina.

H.R. 921: Mr. Wicker.

H.R. 950: Mr. Crane.

H.R. 984: Mr. Barcia.

H.R. 986: Ms. Horsford and Mr. Hergersperger.

H.R. 1004: Mr. Hinchey, Mr. Filner, Mr. Owens, and Mr. Cummings.

H.R. 1070: Ms. Schakowsky and Mr. Bartlett.

H.R. 1136: Mr. Simmons.

H.R. 1138: Mr. Taylor of Mississippi and Mr. Rogers.

H.R. 1354: Mr. Cummings.

H.R. 1405: Mr. Lampson.

H.R. 1436: Mr. Welton of Pennsylvania and Mr. Petri.

H.R. 1466: Mr. Forbes, Mr. LaHood, Mr. Keller, Mr. Saxton, Mr. Riley, and Mr. Cunningham.

H.R. 1511: Mr. Russia and Mr. Baldacci.

H.R. 1622: Ms. Sanchez.

H.R. 1626: Ms. Pryce of Ohio.

H.R. 1700: Mr. Mooney.

H.R. 1734: Mr. Biondi.

H.R. 1744: Mrs. Roukema, Mr. Ramstad, Mrs. Maloney of New York, Mr. Udall of New Mexico, Mr. Kirk, Mr. Gordon, and Mr. Issa.

H.R. 1779: Ms. Watson, Mr. Baird, Ms. McCarthy of Missouri, and Mr. Doyle.

H.R. 1839: Mr. Bryant and Mr. Upton.

H.R. 1939: Mr. Price of North Carolina, and Mr. King.

H.R. 2058: Mr. Udall of New Mexico.

H.R. 2146: Mr. Ryan of Kansas.

H.R. 2229: Mr. Fortman, Mr. Kolbe, Mr. Upton, Mr. Ortiz, Mr. Hinojosa, Mrs. Lowey, and Mr. Condit.

H.R. 2258: Mr. Rangel, Ms. Lofgren, Mr. Essex, Mr. Pastor of North Carolina, Mr. McGovern, and Mr. Meek.

H.R. 2331: Ms. Sanchez.

H.R. 2333: Mr. LaHood and Ms. Solis.

H.R. 2374: Mr. Barcia and Mr. Jefferson.

H.R. 2379: Mr. Pascrell, Mr. Rush, and Mr. Biondi.

H.R. 2380: Mr. Gonzalez, Mrs. Tauscher, Mr. Horen, Mr. Capuano, and Ms. Rivers.

H.R. 2561: Mr. Kenns.
through “GENERAL PROVISIONS” and in the following:

DISTRICT OF COLUMBIA FUNDS

OPERATING EXPENSES

DIVISION OF EXPENSES

The following amounts are appropriated for the District of Columbia for the current fiscal year out of the general fund of the District of Columbia, except as otherwise specifically provided: Provided, That notwithstanding any other provision of law, except as provided in section 450A of the District of Columbia Home Rule Act (Public Law 93–198; D.C. Official Code, sec. 1–204.50a), the total amount appropriated in this Act for operating expenses for the District of Columbia for fiscal year 2002 under this heading shall not exceed the lesser of the sum of the total revenues of the District of Columbia for such fiscal year or $6,025,838,000 (of which $124,163,000 shall be from intra-District funds and $8,809,000 from other funds): Provided, further, That this amount may be increased by (1) proceeds of one-time transactions, which are expended for emergency or unanticipated noncapital needs or (2) additional expenditures which the Chief Financial Officer of the District of Columbia certifies will produce additional revenues of at least $200 percent of such additional expenditures, and which certification shall be approved by the Council, contingent upon (A) no written notice of disapproval received by the Secretary to the Council within 14 calendar days after the receipt of the certification from the Mayor, and no oral notice of disapproval is received by the Secretary to the Council during such 14 calendar day period, the request shall be deemed to be approved and (B) if notice of disapproval is given during such 14 calendar day period, the Council may approve or disapprove the certification by resolution within 30 calendar days after the initial receipt of the certification from the Mayor, or such certification shall be deemed to be approved: Provided further, That the Chief Financial Officer of the District of Columbia shall take such steps as are necessary to ensure that the District of Columbia meets these requirements, including the approvalating by the Chief Financial Officer of the appropriations and funds made available to the District of Columbia for the fiscal year 2002, except that the Chief Financial Officer may not reprogram for operating expenses any funds derived from bonds, notes, or other obligations that do not exceed $500,000: Provided further, That not later than the later of November 1, 2001, or 30 calendar days after the date of the enactment of this Act, the Chief Financial Officer of the District of Columbia shall submit to the appropriate committees of Congress, the Mayor, and the Council a revised appropriated funds operating budget in the format of the budget that the District of Columbia government submitted pursuant to section 450A of the District of Columbia Home Rule Act (Public Law 93–198; D.C. Official Code, sec. 1–204.42), for all agencies of the District of Columbia government for such fiscal year that is in the total amount of the approved appropriation and that reallocs all budgeted data for personal services and other-than-personal-services, respectively, and actual expenditures: Provided further, That not less than $533,000 shall be available to the Office of the Corporation Counsel to support increases in the Attorney Representation Allowance. Provided further, That not less than $50,000 shall be available to support a mediation services program within the Office of the Corporation Counsel: Provided further, That no less than $10,000 shall be available to support a TANF Unit within the Child Support Enforcement Division of the Office of the Corporation Counsel: Provided further, That such funds are available for the houses of the District of Columbia Home Rule Act, approved December 24, 1973 (Public Law 93–198; D.C. Official Code, sec. 1–204.03).".

(1) Subsection (c) is amended by striking “shall receive, in addition to the compensation to which he is entitled as a member of the Council,” and inserting “shall not receive, in addition to the compensation to which he is entitled as a member of the Council, equal installments, for each year he serves as Chairman, but the Chairman”.

(2) A new subsection (d) is added to read as follows:

“(d) Notwithstanding subsection (a), as of the effective date of the District of Columbia Appropriations Act, 2001, the Chairman shall receive compensatory compensation for each year he serves as Chairman, at a rate equal to $10,000 less than the compensation of the Mayor.”.

ECONOMIC DEVELOPMENT AND REGULATION

Economic development and regulation, $290,878,000 (including $65,268,000 from local funds, $96,199,000 from Federal funds, and $73,893,000 from other funds), of which $15,000,000 collected by the District of Columbia in the form of BID tax revenue shall be paid to the respective BIDs pursuant to the District of Columbia Appropriations Act, 2001, and the Business Improvement Districts Amendments Act of 1997 (D.C. Law 12–26; D.C. Official Code, sec. 2–1215.15 et seq.), and the Business Improvement Districts Amendments Act of 1997 (D.C. Law 12–26; D.C. Official Code, sec. 2–1215.15 et seq.): Provided, That such funds are available for the purposes of the General Services Administration: Provided further, That Business Improvement Districts shall be exempt from taxes levied by the District of Columbia: Provided further, That the Department of Consumer and Regulation Aff airs use $50,000 of the receipts from the net proceeds from the contractor (ASL) that handles Council’s Title IX and other procedural licensing to fund additional staff and equipment for the Rental Housing Administration: Provided further, That the Department of Consumer and Regulation Affairs transfer all local funds resulting from the lapse of personnel vacancies, caused by transferring DCRA employees into NSO positions without filling the resultant vacancies, into the revolving 5–513 fund to be used to other procurement review process, or to obtain the approval of or be restricted in any manner by any employee of the District of Columbia government, for purchases that do not exceed $500,000: Provided further, That not later than the later of November 1, 2001, or 30 calendar days after the date of the enactment of this Act, the Chief Financial Officer of the District of Columbia shall submit to the appropriate committees of Congress, the Mayor, and the Council a revised appropriated funds operating budget in the format of the budget that the District of Columbia government submitted pursuant to section 450A of the District of Columbia Home Rule Act (Public Law 93–198; D.C. Official Code, sec. 1–204.42), for all agencies of the District of Columbia government for such fiscal year that is in the total amount of the approved appropriation and that reallocs all budgeted data for personal services and other-than-personal-services, respectively, and actual expenditures: Provided further, That not less than $533,000 shall be available to the Office of the Corporation Counsel to support increases in the Attorney Representation Allowance. Provided further, That not less than $50,000 shall be available to support a mediation services program within the Office of the Corporation Counsel: Provided further, That no less than $10,000 shall be available to support a TANF Unit within the Child Support Enforcement Division of the Office of the Corporation Counsel: Provided further, That such funds are available for the houses of the District of Columbia Home Rule Act, approved December 24, 1973 (Public Law 93–198; D.C. Official Code, sec. 1–204.03).".

AMENDMENTS

Under clause 8 of rule XVIII, proposed amendments were submitted as follows:

H.R. 2954

OFFERED BY: Ms. HOSTETTLER

AMENDMENT No. 1: At the end of the bill, insert the following (pressing the short title) the following new section:

SEC. 2. None of the funds contained in this Act may be used to issue, administer, or enforce any order by the District of Columbia Commission on Human Rights relating toocket numbers 93–630–(PA) and 93–631–(PA).

H.R. 2954

OFFERED BY: Ms. NORTON

AMENDMENT No. 2. Strike “DISTRICT OF COLUMBIA FUNDS” and all that follows

September 24, 2001
implement the provisions in D.C. Act 13-578, the Abatement and Condemnation of Nuisance SIGNS Amendment Act of 2000, pertaining to the prevention of the demolition by neglect of historic properties: Provided further, That the fees established and collected pursuant to D.C. Act 13-578 shall be identified, and an accounting provided, to the District of Columbia Council’s Committee on Consumer and Regulatory Affairs: Provided further, That 18 percent of the annual total amount in the 5–513 fund, up to $500,000, deposited into the 5–513 fund on an annual basis, be used to implement section 102 and other related sections of D.C. Act 13-578: Provided further, That the Department shall hire, with the consultation and guidance of the Director of the Office of Personnel on the necessary qualifications and salary level, from these lapsed funds, as soon as possible, but in no event later than November 1, 2001, a professional human resources manager who will become part of the Department’s senior management team, and provide, in consultation with its newly hired human resources professional manager and the Office of the Attorney General, a detailed plan, identified by the Department in fiscal year 2001, to reclassify positions, augment pay scales once positions are reclassified where needed to fill vacancies and provide necessary personnel, and to fund these new and vacant positions.

PUBLIC SAFETY AND JUSTICE

Public safety and justice, including such sums as may be needed for refunds and for the payment of judgments that have been entered against the District of Columbia government, $632,668,000, including $593,618,000 from Federal funds, $8,298,000 from Federal funds, and $30,752,000 from other funds): Provided, That not to exceed $500,000 shall be available from this appropriation for the Child Fatality Review Committee: Provided further, That no less than $173,000,000 shall be available to the Metropolitan Washington, D.C., Police Department for the taking of a school census in the District of Columbia on the first day of January and shall end on the last day of December of each calendar year, and, beginning the first day of July 2003, the fiscal year for the District of Columbia shall begin on the first day of July and end on the thirtieth day of June of each calendar year: Provided further, That the public schools of the District of Columbia are authorized to accept not to exceed $300,000 for the betterment of facilities for exclusive use in the driver education program.

PUBLIC EDUCATION SYSTEM

Public education system, including the development of national defense education programs, $1,106,165,000 (including $894,694,000 from local funds, $185,044,000 from Federal funds, and $18,000,000 from other funds), as follows: Provided further, That the public schools of the District of Columbia, and $2,000 for the Superintendent of Schools of the University of the District of Columbia, and $2,000 for the Superintendent of Schools of the University of the District of Columbia, and $2,000 for the Public Librarian shall be available from this appropriation for official purposes: Provided further, That 28 percent of the funds contained in this Act may be made available to pay the salaries of any District of Columbia Public School teacher, principal, or employee who knowingly provides false enrollment or attendance information under section 58–1010.15(a)(2) of D.C. Official Code, as amended, to be used for the taking of a school census in the District of Columbia on the first day of January and shall end on the last day of December of each calendar year, and, beginning the first day of July 2003, the fiscal year for the District of Columbia shall begin on the first day of July and end on the thirtieth day of June of each calendar year: Provided further, That the salaries of any District of Columbia Public School teacher, principal, or employee who knowingly provides false enrollment or attendance information under article II, section 5 of the Act entitled “An Act to provide for compulsory school attendance, for the taking of a school census in the District of Columbia, and for other purposes”, approved February 4, 1925 (D.C. Official Code, sec. 38–291 et seq.): Provided further, That this appropriation shall not be available to subsidize the education of any nonresident of the District of Columbia at any of the public schools in the District during fiscal year 2002 unless the nonresident pays tuition to the District of Columbia at a rate that covers 100 percent of the costs incurred by the District of Columbia, which are attributable to the education of the nonresident (as established by the Superintendent of the District of Columbia Public Schools, which appropriation shall not be available to subsidize the education of nonresidents of the District of Columbia at the University of the District of Columbia, Fellows Program in the District’s public charter schools, with the first payment to occur not later than 15 days after the beginning of each fiscal year: Provided further, That if the entirety of this allocation has not been provided as payments to public charter schools currently in operation through the per-pupil funding formula, the remainder of the amount provided herein shall be available in the Department of Corrections in the proposed budget of the District of Columbia Public Schools in the proposed budget of the District of Columbia for fiscal year 2003 (as submitted to Congress), and the amount of such payment shall be chargeable against the final amount provided for such payments under the District of Columbia Appropriations Act, 2003: Provided further, That notwithstanding the amounts otherwise provided under this heading or any other provision of law, there shall be appropriated in this Act $2,198,000 (including $1,760,000 from local funds, $386,000 from Federal funds, and $15,000 from other local funds) for the purpose of making a lump sum payment under the heading “Public Education System” in Public Law 107–20, approved July 24, 2001, is amended to read as follows: “However, the fiscal year for the Armory Board shall begin on the first day of January and shall end on the last day of December of each calendar year, and, beginning the first day of July 2003, the fiscal year for the District of Columbia Schools, District of Columbia Public Charter Schools and the University of the District of Columbia shall begin on the first day of July and end on the thirtieth day of June of each calendar year: Provided further, That the paragraph under the heading “Public Education System” in Public Law 107–20, approved July 24, 2001, is amended to read as follows: “An additional amount for ‘Public Education System’: $1,000,000 from local funds for the State Education Office for a census-type audit of the student enrollment and other provisions Act, 2001, amended November 16, 2000 and of each public charter school, to remain available until expended.”.

HUMAN SUPPORT SERVICES

Human support services, $1,800,923,000 (including $711,072,000 from local funds, $1,075,960,000 from Federal funds, and $16,891,000 from other funds): Provided, That $27,986,000 shall be available until expended, shall be available solely for District of Columbia employees’ disability compensation: Provided further, That $55,000,000 shall be available from funds for the District of Columbia Health and Hospitals Public Benefit Corporation (PBC) to support the continuation of services provided by PBC clinics, unless the District of Columbia Supplemental Appropriations Act, 2001, does not contain additional funding for the Public Benefit Corporation (PBC) to support the continuation of services provided by PBC clinics.
the Congress does not approve the Supplemental Appropriations Act by August 4, 2001, in which case no funds shall be available for the Department of Health's Health Care Safety Net Administration for the purpose of restructuring the delivery of health services in the District of Columbia shall remain available until expended: Provided further, That no less than $7,500,000 of this appropriation, to remain available until expended, shall be deposited in the Addiction Recovery Fund established pursuant to section 5 of the Choice in Drug Treatment Act of 2000, effective July 8, 2000 (D.C. Law 13–146; D.C. Official Code, sec. 7–3084), and the purposes specified by local District law unless the Chief Financial Officer certifies that additional local revenues are available.

RECEIVERSHIP PROGRAMS
For all agencies of the District of Columbia government under court ordered receivership, including $250,015,000 from local funds, $134,339,000 from Federal funds, and $19,014,000 from other funds.

WORKFORCE INVESTMENTS
For workforce investments, $42,896,000 from local funds, to be transferred by the Department of Workforce Investment to the Department of Health for the purpose of restructuring the delivery of health services in the District of Columbia, and $4,303,000 from Federal funds.

RESERVE
For replacement of funds expended, if any, during fiscal year 2002 from the Reserve established by section 202(j) of the District of Columbia Financial Responsibility and Management Assistance Act of 1995 (Public Law 104–8), $120,000,000 from other funds.

RESERVE RELIEF
For the purpose of spending funds made available through the reduction from $340,000,000 to $300,000,000 in the amount required for the Reserve established by section 202(j) of the District of Columbia Financial Responsibility and Management Assistance Act of 1995 (Public Law 104–8), $22,492,000 from local funds.

CONTINGENCY RESERVE FUND
For the contingency reserve fund established under section 450A(b) of the District of Columbia Home Rule Act (Public Law 93–198; D.C. Official Code, sec. 1–204.501–1(a)(i)), $27,030,000 from local funds.

CONTINGENCY RESERVE FUND
For the contingency reserve fund established under section 450A(b) of the District of Columbia Home Rule Act (Public Law 93–198; D.C. Official Code, sec. 1–204.501–1(a)(i)), $27,030,000 from local funds.

REPAYMENT OF GENERAL FUND RECOVERY DEBT
For the purpose of eliminating the $331,589,000 general fund accumulated deficit as of September 30, 1999, $83,300,000 from local funds, $41,700,000 from the proceeds of general fund receivings, $57,200,000 from the proceeds of general fund proceedings, (105 Stat. 540; D.C. Official Code, sec. 1–204.61(a)).

PAYMENT OF INTEREST ON SHORT-TERM BORROWING
For payment of interest on short-term borrowing, $500,000 from local funds.

WILSON BUILDING
For expenses associated with the John A. Wilson Building, $8,659,000 from local funds.

EMERGENCY RESERVE FUND TRANSFER
Subject to the issuance of bonds to pay the purchase price of the District of Columbia right, title, and interest in and to the Master Settlement Agreement, and consistent with the Tobacco Settlement Trust Fund Establishment Act of 1999 (D.C. Official Code, sec. 7–811.01(a)(ii)) and the Tobacco Settlement Financing Act of 2000 (D.C. Official Code, sec. 7–811.01 et seq.), there is transferred an amount of $3,254,000, to the Emergency Reserve Fund established pursuant to section 450(a) of the District of Columbia Home Rule Act (Public Law 93–198; D.C. Official Code, sec. 1–204.50(a)).

NON-DEPARTMENTAL AGENCY
To account for anticipated costs that cannot be allocated to specific agencies during the development of the proposed budget including anticipated employee health insurance cost increases and contract security costs, $5,799,000 from local funds.

ENTERPRISE AND OTHER FUNDS
For operation of the Water and Sewer Authority, $241,978,000 from other funds for fiscal year 2002. For construction projects, $152,114,000, in the following capital programs: Enterprise Fund, established pursuant to the Water and Sewer Authority, $77,957,000 for the water program, $10,182,000 for the capital equipment program: Provided, That the requirements and restrictions that are applicable to general fund capital improvement projects set forth in this Act under the Capital Outlay appropriation title shall apply to projects approved under this appropriation title.

WASHINGTON AQUEDUCT
For operation of the Washington Aqueduct, $46,510,000 from other funds for fiscal year 2002.

STORMWATER PERMIT COMPLIANCE ENTERPRISE FUND
For operation of the Stormwater Permit Compliance Enterprise Fund, $41,100,000 from other funds for fiscal year 2002.

LOTTERY AND CHARITABLE GAMES ENTERPRISE FUND
For the Lottery and Charitable Games Enterprise Fund, $5,100,000 from other funds for fiscal year 2002.
(Public Law 97–91; 95 Stat. 1174, 1175), for the purpose of implementing the Law to Legalize Lotteries, Daily Numbers Games, and Bingo and Raffles for Charitable Purposes in the District of Columbia (D.C. Law 3–172; D.C. Official Code, sec. 3–1301 et seq. and sec. 22–1765 et seq.), $229,688,000: Provided, That the District of Columbia shall identify the source of funding for this appropriation title from the District’s own locally generated revenues: Provided further, That no revenues from Federal sources shall be used to support the operations or activities of the Lottery and Charitable Games Control Board.

SPORTS AND ENTERTAINMENT COMMISSION

For the Sports and Entertainment Commission, $3,127,000 from other funds: Provided, That the Mayor shall submit a budget for the Armory Board for the forthcoming fiscal year as required by section 442(b) of the District of Columbia Home Rule Act (Public Law 93–198; 87 Stat. 824; D.C. Official Code, sec. 1–204.22(b)).

HEALTH CARE RESTRUCTURING

For the Public Benefit Corporation established by section 202 of the Health and Hospitals Public Benefit Corporation Act of 1996 (D.C. Law 11–212; D.C. Official Code, sec. 44–1102.01), $78,355,000: Provided, That the District of Columbia Supplemental Appropriations Act, 2001, contains additional funding for the Public Benefit Corporation beyond the $45,313,000 subsidy contained in the District of Columbia Appropriations Act, 2001, approved November 22, 2000 (Public Law 106–522; D.C. Official Code, sec. 1–204.11), $1,074,604,269 to remain available until expended: Provided, That funds for use of each capital project implementing agency shall be managed and controlled in accordance with all procedures and limitations established under the Financial Management System: Provided further, That all funds provided by this appropriation title shall be available only for the specific projects and purposes intended: Provided further, That the capital budget of $83,400,000 for the Department of Human Services receives a report on the use of any capital funds for projects on the grounds of D.C. General Hospital: Provided further, That notwithstanding the foregoing, all authorizations for capital outlay projects, except those projects covered by the first sentence of section 23(a) of the Federal Aid Highway Act of 1968 (Public Law 90–495; 82 Stat. 827), for which funds are provided by this appropriation title, shall expire on September 30, 2003, except authorizations for projects as to which funds have been obligated in whole or in part prior to September 30, 2003: Provided further, That upon expiration of any such project authorization, the funds provided herein for the project shall lapse: Provided further, That except for funds approved in the budgets prior to the fiscal year 2002 budget and FL–MA2 in the Fiscal Year 2002 Budget Request, no funds from any source may be expended to renovate, rehabilitate or construct any facility within the boundaries of census tract 68.04 for any purpose associated with the D.C. Department of Corrections, the CSOSA, or the Federal Bureau of Prisons unit such time as the Mayor shall present to the Council for its approval, a plan for the development of census tract 68.04 south of East Capitol Street, S.E., and the housing of any misdemeanants, felons, ex-offenders, or persons awaiting trial within the District of Columbia.

GENERAL PROVISIONS

H.R. 2944

Offered By: Ms. Norton

Offered By: Ms. Norton

AMENDMENT No. 4: In lieu of the matter proposed to be inserted by the amendment, insert the following new section: SEC. 134. None of the funds contained in this Act may be used to infringe upon any right of association, guaranteed by the first amendment to the Constitution, of any nonprofit, voluntary membership organization, including the Boy Scouts of America.
The Senate met at 12 noon and was called to order by the President pro tempore [Mr. BYRD].

PRAYER

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

Gracious Father, source of all our blessings, we are amazed as we check the balance in our spiritual bank account. We begin this new week realizing that You have made an immense deposit of grace, strength, wisdom, and courage in our hearts. And what’s exciting is that You constantly will replenish our depleted resources throughout this week. Your love has no limits, Your spiritual resiliency has no energy crisis, Your hope has no restrictions, and Your power has no ending.

Free us from the false assumption that we are adequate for life’s challenges on our own. You promise to go before us. We will encounter no problem for which You have not prepared a solution; we will deal with no person whom You have not prepared to receive a blessing from You through us; we will face no challenge for which You will not make us capable for courageous leadership.

Now, dear God, help the Senators use the abundant blessings You have lavished on them because You have placed them in leadership to get Your work done for our beloved Nation and the welfare of the world. You are our Lord and Saviour. Amen.

PLEDGE OF ALLEGIANCE

The President pro tempore led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

RESERVATION OF LEADER TIME

The President pro tempore. Under the previous order, the leadership time is reserved.

RECOGNITION OF THE ACTING MAJORITY LEADER

The President pro tempore. The Senator from Nevada is recognized.

SCHEDULE

Mr. REID. Mr. President, today will be 2 hours of debate on the Jordan Free Trade Area Implementation Act. We are going to have our first rollcall vote at or near 2 p.m. today on the nomination of Kirk Van Tine to be the general counsel at the Department of Transportation.

Following that, the Senate is going to resume consideration of the Department of Defense authorization bill. I have had a number of conversations this morning with the chairman of the committee and the majority leader, Senator DASCHLE and Senator LIVN. Although I have not spoken to Senator WARNER, I am confident he also believes we should complete this legislation as quickly as possible. It is the intent of the leader to finish this legislation tomorrow. There are a number of amendments that need to be brought forward, one of which deals with base closings, and we would hope that could be done as quickly as possible.

Also, Mr. President, the two managers of the bill will ask for a time for disposing of the amendments, either a finite list or something that would give the managers of the bill some idea of what amendments Members are wanting to offer. Also, because of this very short week which is going to end Wednesday at 2 o’clock because of the Jewish holiday, Yom Kippur, it is important we complete the continuing resolution to get us through the first couple weeks of next month so we can go forward working on appropriations bills.

I am happy to report to the membership that the House has appointed a number of conference committees on the appropriations bills, and that is a good sign that we can move forward in the usual process. I hope by the time we have run out of time on the continuing resolution, we will have made great progress in our appropriations bills. We would ask cooperation of all Members. This is going to be a very important week. The leadership has indicated there may be other things he wishes to bring up in addition to the CR and the Defense bill.

Mr. REID. Mr. President, I understand that S. 1447 is now at the desk and due for its second reading.

The President pro tempore. The Senator is correct.

Mr. REID. I would ask that S. 1447 be read for a second time and then, Mr. President, I would object to any further proceedings on the legislation at this time.

The President pro tempore. The clerk will read the title for the second time.

The assistant legislative clerk read as follows:

A bill [S. 1447] to improve aviation security, and for other purposes.

The President pro tempore. There being no objection to any further proceeding, the bill will go on the calendar.

MEASURE PLACED ON CALENDAR—S. 1447

Mr. REID. Mr. President, I understand that S. 1447 is now at the desk and due for its second reading.

The President pro tempore. The Senator is correct.

Mr. REID. I would ask that S. 1447 be read for a second time and then, Mr. President, I would object to any further proceedings on the legislation at this time.

The President pro tempore. The clerk will read the title for the second time.

The assistant legislative clerk read as follows:

A bill [S. 1447] to improve aviation security, and for other purposes.

The President pro tempore. There being no objection to any further proceeding, the bill will go on the calendar.

UNITED STATES-JORDAN FREE TRADE AREA IMPLEMENTATION ACT

The President pro tempore. Under the previous order, the Finance Committee will now be discharged from further consideration of H.R. 2603, and the Senate will now proceed to its consideration.

The clerk will report the bill by title.

The assistant legislative clerk read as follows:

A bill [H.R. 2603] to implement the agreement establishing a United States-Jordan free trade area.

The President pro tempore. Under the previous order, there will now be 2 hours of debate on the bill with 1 hour under the control of the Senator from Texas, Mr. GRAMM, and 1 hour under the control of the Senator from Montana, Mr. BAUCUS, or his designee.

What is the will of the Senate? Time is running.

The Senator from Montana, Mr. BAUCUS.

Mr. BAUCUS. Mr. President, I rise to urge the adoption of H.R. 2603. That is a bill to implement the United States-Jordan Free Trade Agreement. The House passed the bill by a voice vote just before the August recess. The Finance Committee reported a virtually identical bill, also immediately before the August recess. Only two Members dissented when the Finance Committee reported that bill out.

I have advocated the approval of this agreement since it was negotiated by the Clinton administration last year. Finally, after a number of hitches, a number of setbacks, the administration and Congress appear poised to give final approval to the United States-Jordan Free Trade Agreement.

This implementing bill sends an unmistakable signal of support for an important friend, an important ally in the Middle East. That signal was important when the agreement was signed last October. It is even more important now. Jordan has been a steadfast friend in its support for the United States' efforts to bring peace to the Middle East. We all remember the critical role played by King Hussein a few years ago. King Abdullah has maintained that support.

As we all know, Jordan has been steadfast in its support for America in the wake of the terrorist attacks against us. In a September 12 letter to President Bush, the King condemned the attacks and pledged Jordan’s support in our fight against terrorism. As
he put it, Jordan is committed to work with the United States, "to ensure that the enemies of peace and freedom do not prevail."

Let us precisely the kind of commitment we now need from our friends and our allies. Accordingly, we should do whatever we can to reinforce Jordan's support. By implementing the free trade agreement, we will do just that. But that is only reason we should pass the implementing bill. To put it simply, it is a solid agreement that is not only good for Jordan but it is also good for the United States and good for the world trading system. The agreement itself is closely modeled upon the United States-Israel Free Trade Agreement. It provides for the staged elimination of tariffs and other trade barriers, provides for extensive intellectual property protection, and extends trading rules to new issues such as electronic commerce.

The United States-Jordan Free Trade Agreement is truly a 21st century free trade agreement. But I do not just mean it addresses high-technology trade issues. Our free trade agreement with Jordan also demonstrates a commitment to a progressive trade agenda, an agenda that recognizes the links between trade and environmental standards and between trade and labor standards, an agenda that puts these important matters on the same plane as market access, the protection of intellectual property rights, and other matters.

Some Senators have criticized the labor and environmental provisions in the Jordan agreement. Let me respond and explain why these provisions are, in fact, positive developments that point the way toward further progress. In the areas of labor and environment, the United States and Jordan have undertaken a straightforward, commitment. Both countries have strong labor and environmental laws. Recognizing this, both countries agree to effectively enforce their own laws.

This simple obligation reflects a recognition that, as the more glaring tariff and nontariff barriers come down, measures such as a lowering of labor and environmental standards and nontariff barriers come down, they become an obstacle. The agreement makes perfect sense. Consider the alternative. Would we really want to enter into a trade agreement with a country intent on weakening enforcement of its labor and environmental laws in order to gain a trade advantage? I don't think so. Yet the opponents of the labor and environmental provisions would permit precisely that result. That is not just bad policy. It is bad environmental policy, it is bad labor policy, and bad trade policy. Indeed, I hope that by including labor and environmental provisions in the Jordan agreement we will set a precedent for future trade agreements that are good for the world trading system. The United States-Jordan Free Trade Agreement would be a significant step toward that goal. The agreement makes perfect sense. Consider the alternative. Would we really want to enter into a trade agreement with a country intent on weakening enforcement of its labor and environmental laws in order to gain a trade advantage? I don't think so. Yet the opponents of the labor and environmental provisions would permit precisely that result. That is not just bad policy. It is bad environmental policy, it is bad labor policy, and bad trade policy. Further, no arbitrator can order the United States to change its practices pursuant to the agreement. Let me repeat that. No arbitrator can order the United States to change its practices pursuant to the agreement.

Under the agreement, dispute settlement will be based on nonbinding mediation—not arbitration but non-binding mediation. That is very important. The result is, in an unlikely event that the three conditions are met, and a mediator—not an arbitrator—and a mediator finds against the United States, that determination is purely advisory, intended only to guide the parties in resolving any disputes through consultation.

To my mind, the approach to labor and environment in the Jordan agreement makes perfect sense. Consider the alternative. Would we really want to enter into a trade agreement with a country intent on weakening enforcement of its labor and environmental laws in order to gain a trade advantage? I don't think so. Yet the opponents of the labor and environmental provisions would permit precisely that result. That is not just bad policy. It is bad environmental policy, it is bad labor policy, and bad trade policy. In conclusion, let me stress that getting the United States-Jordan agreement off the ground would be essential even if we were not currently mobilizing support for a global campaign against terrorism. The agreement represents an important expression of American support for a key partner in the Middle East as well as a model of a progressive free trade agreement. I hope the President will sign it immediately so the benefits to both the United States and Jordan can begin to flow.

Mr. President, I suggest the absence of a quorum.

The PRESIDENT pro tempore. The absence of a quorum has been suggested. The roll will now be called.

The assistant legislative clerk proceeded to call the roll.

Mr. BAUCUS. Mr. President, I ask unanimous consent the order for the quorum call be dispensed with.

Mr. President, I ask unanimous consent the order for the quorum call be dispensed with.

Mr. BAUCUS. Mr. President, in order to avoid delay in the Senate while we are waiting for other Senators to speak, I would like to read into the Record the following:

"Mr. President, again, this is an exchange of letters between Ambassador Zoellick and the Ambassador representing Jordan."

I ask unanimous consent to have those letters printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

EXECUTIVE OFFICE OF THE PRESIDENT.

His Excellency MARWAN MUASHER,
Ambassador of the Hashemite Kingdom of Jordan to the United States.

DEAR MR. AMBASSADOR: I wish to share my Government's views on implementation of the dispute settlement procedures in the Agreement between the United States of America and the Hashemite Kingdom of Jordan in the Establishment of a Free Trade Area, signed on October 24, 2000.

Given the close working relationship between our two Governments, the volume of trade between our two countries, and the clear rules of the Agreement, I would expect few if any differences to arise between our two Governments over the interpretation or application of the Agreement. Should any differences arise under the Agreement, my Government will make every effort to resolve them without recourse to formal dispute settlement procedures.

In conclusion, let me stress that getting the United States-Jordan agreement off the ground would be essential even if we were not currently mobilizing support for a global campaign against terrorism. The agreement represents an important expression of American support for a key partner in the Middle East as well as a model of a progressive free trade agreement. I hope the President will sign it immediately so the benefits to both the United States and Jordan can begin to flow.

Mr. President, I suggest the absence of a quorum.

The PRESIDENT pro tempore. Without objection, it is so ordered. The Senator from Montana, Mr. BAUCUS.

Mr. BAUCUS. Mr. President, in order to avoid delay in the Senate while we are waiting for other Senators to speak, I would like to read into the Record the following:

"Mr. President, again, this is an exchange of letters between Ambassador Zoellick and the Ambassador representing Jordan."

I ask unanimous consent to have those letters printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

EXECUTIVE OFFICE OF THE PRESIDENT.

His Excellency MARWAN MUASHER,
Ambassador of the Hashemite Kingdom of Jordan to the United States.

DEAR MR. AMBASSADOR: I wish to share my Government's views on implementation of the dispute settlement procedures in the Agreement between the United States of America and the Hashemite Kingdom of Jordan in the Establishment of a Free Trade Area, signed on October 24, 2000.

Given the close working relationship between our two Governments, the volume of trade between our two countries, and the clear rules of the Agreement, I would expect few if any differences to arise between our two Governments over the interpretation or application of the Agreement. Should any differences arise under the Agreement, my Government will make every effort to resolve them without recourse to formal dispute settlement procedures.

In conclusion, let me stress that getting the United States-Jordan agreement off the ground would be essential even if we were not currently mobilizing support for a global campaign against terrorism. The agreement represents an important expression of American support for a key partner in the Middle East as well as a model of a progressive free trade agreement. I hope the President will sign it immediately so the benefits to both the United States and Jordan can begin to flow. Should any differences arise under the Agreement, my Government will make every effort to resolve them without recourse to formal dispute settlement procedures. Should any differences arise under the Agreement, my Government will make every effort to resolve them without recourse to formal dispute settlement procedures.

Sincerely,

ROBERT B. ZOELICK.
U.S. Trade Representative.
Recognizing the right of each Party to establish its own levels of domestic environmental protection, development policies and priorities, and to adopt or modify accordingly its environmental laws, each Party shall strive to ensure that its laws provide for high levels of environmental protection and shall strive to continue to improve those laws.

3. (a) A Party shall not fail to effectively enforce protection of the environment through a sustained or recurring course of action or inaction, in a manner affecting trade between the Parties, after the date of entry into force of this Agreement.

(b) The Parties recognize that each Party retains the right to exercise discretion with respect to investigatory, prosecutorial, regulatory, and compliance matters and to make decisions regarding the allocation of resources to enforcement with respect to other environmental matters determined to have higher priorities. Accordingly, the Parties understand that a Party is in compliance with subparagraph (a) where a course of action or inaction reflects a reasonable exercise of discretion from a good faith decision regarding the allocation of resources.

4. For purposes of this Article, "environmental laws" mean any statutes or regulations of a Party, or provision thereof, the primary purpose of which is the protection of the environment, or the prevention of danger to human, animal, or plant life or health, through:

(a) the prevention, abatement or control of the release, dilution, transport, dispersal, or emission of pollutants or environmental contaminants;

(b) the control of environmentally hazardous or toxic chemicals, substances, materials and wastes, and the minimization of information related thereto; or

(c) the protection or conservation of wild flora or fauna, including endangered species, their habitat, and specially protected natural areas in the Party's territory, but does not include any statutes or regulations, or provision thereof, directly related to worker safety or health.

Again, to summarize, Mr. President, the labor and environmental provisions are somewhat contentious. They are framed in such a way that I think it helps labor and the environment in both the United States and Jordan, and in a way that does not in any way intrude upon American sovereignty.

Let me repeat: The simple obligation that the United States and Jordan make reflects a recognition that as the more glaring tariff and non-tariff barriers come down, measures such as labor and environmental standards may have an effect on trade. Measures that may have a trade-distorting effect have been dealt with in past trade agreements. A significant compression of labor and environmental standards may distort trade, these too should be dealt with in trade agreements.

The idea here is to encourage countries to provide labor and environment rights and to protect the environment in ways that do not distort trade.

The provisions of this agreement do not in any way prevent us from enacting and enforcing the laws and regulations that we decide are appropriate to protect our environment and the health and safety of our workers.
The provisions in this agreement allow some recourse, in that both sides obligate themselves not to enact trade-distorting measures on labor and the environment. Very precisely, there is at least a process whereby the countries can discuss it. The action by the mediator, if he takes any action, is not binding upon either party.

So I think these are very good provisions. I think they are wise, and therefore, the agreement is something our country should approve and the President should sign very quickly.

Mr. President, I suggest the absence of a quorum.

The PRESIDENT pro tempore. The clerk will call the roll.

Mr. BAUCUS. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

Mr. BAUCUS. Mr. President, I see my good friend from North Dakota is ready to speak. But before he does speak, I would like to reemphasize and underscore the point that trade agreements properly include not only the very traditional trade matters, such as tariffs, quotas, and subsidies, but they also include other matters which do have an effect on trade. I would like to suggest what a few of them are.

For example, the length of product patents and copyrights on music has only recently been addressed in trade agreements. These are not tariffs, quotas, or subsidies, but they certainly affect trade. This is one of those issues were addressed in the Uruguay Round.

What about the use of names, such as “champagne,” on a product label? Some suggest that the use of the word “champagne” is not generic because it means a particular region of the world—in France, Champagne. That was an issue brought up and included in the Uruguay Round.

What about payments to farmers to promote conservation practices, such as land set-asides, or low till agriculture? These are not tariffs, quotas, or subsidies, but they certainly affect trade. This is one of those issues that were addressed in the Uruguay Round.

What about the placement of products on store shelves, just putting products on store shelves? For example, we had a dispute with Canada over distribution of beer and other alcoholic beverages. The point is, obviously, that trade agreements do include matters which should include matters, which could have the effect of distorting trade. And if a country enacts environmental laws or labor laws that have the effect of distorting trade, I think most Americans would think that, if properly worded, in a common-sense way, they, too, should be addressed in trade agreements. That is what we are trying to do with this legislation. This is not a huge leap. This is not unreasonable. This is not radical. This is simply, if you will, but very important.

I urge Senators to look at this legislation closely and look at it in that light. When they do, I think they will recognize this is an agreement that should pass and be approved by the Senate and signed by the President very quickly, particularly in light of the current situation in the Mideast. But apart from the Mideast situation, on its merits only, this is a very good agreement.

Mr. President, I yield to my friend from North Dakota for—how many minutes?

Mr. DORGAN. Ten minutes.

Mr. BAUCUS. Ten minutes.

Mr. DORGAN. Mr. President, I have come to this Senate Chamber to support the trade agreement that is brought to the floor today. I believe it will be approved by the Senate by unanimous consent. Perhaps not, but I am told that it will be approved by the Senate, in any event.

I have been a critic of our trade policies. I have been a critic and have voted against a fair number of trade agreements. This trade agreement, it seems to me, is a reasonable agreement. It is with an abiding friend, Jordan, that has been a very helpful country to us. We have had a long and good friendship with the country of Jordan. This trade agreement includes in it some provisions dealing with the environment and labor. I think this is a breakthrough and a step in the right direction.

While trade relations between the United States and Jordan are important, the size of our trade is not very extensive. As a trading partner, Jordan ranks 98th. While I do not think the U.S.-Jordan Free Trade Agreement is going to, in one way or another, affect our country's balance, I want to say that at this time and place our country needs to worry about its trade policies on a much broader context.

I have brought a chart with me that shows our country's ballooning trade deficit. For years, we have seen relentless growth in it. At the same time, there has been a systematic lack of concern among policymakers about it. It's as if they say: Well, it is happening, so let it happen.

It injures this country to have this kind of relentlessly growing trade deficit. Last year the merchandise deficit was $452 billion. Our deficit with China was $84 billion; with Japan, $81 billion; and with the European Union, $35 billion. That is almost $1.25 billion a day. Every single day, 7 days a week, we are buying more from abroad than we are exporting.

Now, what does that have to do with the current circumstances in the United States? Given the issues of national security, it is important for us to determine how we trade, and that we remain a strong country unless it has a strong, vibrant manufacturing base. We are eroding the manufacturing base of this country.

One thing that is not in this trade agreement and that it has never been in any trade agreement that I am aware of is something that deals with currency fluctuations.

Our manufacturing sector has now discovered that when it tries to sell abroad, it is much more difficult. Due to currency fluctuations, it is more expensive to sell a product abroad than it was 5 years ago. This increase has nothing at all to do with the cost of manufacturing the product. It is solely due to the value of our currency. Because of currency fluctuations, our manufacturing base in this country is being hurt very substantially. There are some who say: Well, the doctrine of comparative advantage ought to determine how we trade, and we ought not worry about whether we retain a strong manufacturing sector in this country. I strongly disagree with that belief.

No country can remain strong unless it has a very vibrant manufacturing base. Yet, due to currency fluctuations that have not been accounted for in our trade agreements, our manufacturing base has been undercut.

We need to negotiate currency fluctuation mechanisms into our trade agreements. We may sign trade agreements that lead to reductions in tariffs. But if the currency fluctuates, and we don't have any mechanisms in place, U.S. exports may end up being more expensive, and U.S. imports may be less expensive.

Currency has fluctuated dramatically over the last few years. The U.S. dollar has risen about 40 percent against the Canadian dollar in the last 10 years. Generally speaking, the U.S. dollar has had a 30-percent increase in value versus 5 years ago. It is worth 10 percent more just a year ago.

On the television news people talk about the “strong dollar.” That is the wrong term. They should be saying, the “Expensive dollar”. The dollar is more expensive today relative to other currencies. When our dollar is more expensive relative to other currencies, it means our manufacturers are at a disadvantage when competing against the rest of the world.

My point is very simple: In these days we are all very concerned about national security. And we should be. We are concerned about what is going to happen around the world with respect to terrorism and our aggressive approach in trying to deal with it. All of us want to speak as one; we want America to have one voice. With relentless determination, we want to
take on terrorists and do what is necessary. Part of national security is in the area of international trade. It is important that larger manufacturers this morning. It was coincidental and had nothing to do with speaking on this bill. The products that this country manufactures have been named, several times, by Fortune magazine as all-American products, the best in the world. The products are made in the finest manufacturing plant in the world; a plant that uses the finest state-of-the-art robotics. There is no manufacturing plant that is more high tech or more modern than the one used by the company.

Yet, the company has discovered that, when trying to sell their product around the rest of the world, it has become more and more difficult. It is not because their product can't compete, but, rather, it is because the fluctuation of currency has made their product more expensive relative to the similar products manufactured in other countries. The president of this company said: The value of the dollar is hurting our company badly. And it is not just his company. It is true all over America.

Jerry Jasinski, president of the National Association of Manufacturers, recently remarked that the dollar is overvalued and that its strong value has led U.S. manufacturers to have little pricing power. In its annual report, the Association noted that: "The dollar has reached a point at which it is pricing many U.S. goods out of world markets and making it harder to compete against imports here at home."

That was from the National Association of Manufacturers.

My only point is this: I am going to support this trade agreement with Jordan because at this point in time it is the right thing to do. Right now, we are not talking about trade policy. With respect to trade policy, I have been a constant critic and will remain so. I voted against the North American Free Trade Agreement. I voted against GATT. Had I had a chance to vote again, I would have voted against it in an instant.

If I might, as an aside, just point out, our negotiators, after long negotiations, agreed to allow China to have a tariff on U.S. automobiles that is 10 times higher than our tariff on Chinese automobiles sold in the United States. We agreed to a 2.5-percent tariff on Chinese automobiles, while they have a 25-percent tariff on U.S. automobiles. This is just a small example of what has happened to us in every trade agreement of consequence.

It is long past time for our country to pay attention. The trade deficit is injuring the United States. Our trade agreement with Jordan will have almost no effect on our deficit and I will support it. It is the first agreement I have supported in a long time.

The job in international trade is to bring NAFTA back and renegotiate it. We need to get rid of those bilateral agreements in which our country has a major disadvantage. We recently lost in the Chinese bilateral agreement. And we lost in the agreements we have had on GATT. People say: That is just the way things are. I say: It is not the way things are. It is the way we allow them to be. We don't have the backbone, the nerve, or the will to stand up and begin to say: We negotiate on behalf of the United States of America and we demand fair trade.

Yet, if I could have just another minute, let me go through a couple of examples, lest people think this is all rhetoric.

How much time do I have remaining?

The PRESIDING OFFICER. Thirty-five seconds.

Mr. DORGAN. I assume the Senator from Montana is delighted I am supporting the bill and probably not happy that I would talk about other trade problems.

Mr. BAUCUS. Mr. President, I will let the Senator speak for a few more minutes. Progress is progress. This is the first time the Senator has supported a trade agreement. I know in the future he will support others. I very much appreciate his taking the time to support this agreement. I yield the Senator another couple minutes.

Mr. DORGAN. Mr. President, I am overwhelmed by the additional minutes.

I have a couple of examples, if I might, on trade issues. Ask those who are working on these issues in the U.S. Trade Representative's office, in the Commerce Department, and those in Congress to try to address these issues with us.

Motor Vehicles in Korea. Last year, we had about 570,000 vehicles shipped into the United States from Korea. Do you know how many vehicles we shipped to Korea? Seventeen hundred. Five hundred seventy thousand vehicles this way, 1,700 that way. Why? Because of the tariff and taxes, it raises substantially the price of American cars in Korea. It doesn't just price. There are other difficulties too in selling foreign vehicles in Korea. Standards and perceptions also play roles. The result is, we are not shipping cars to Korea. They are flooding our markets with theirs.

Canada and Stuffed Molasses. Go to Canada and watch them load up Brazilian sugar on top of liquid molasses so they can ship it down here in the form of stuffed molasses. Then they take the sugar out and send the molasses back. Why? To violate U.S. trade laws.

Japan and Steak. Go to Tokyo and have a T-bone steak and understand, if it came from the United States, it had a 38.5-percent tariff on it, 12 years after the last beef agreement.

People think this is all humorous and interesting. The fact is, it all represents the failure of this country to stand up for its producers. This country ought not be bashful about standing up for its producers, its manufacturers, American men and women and American businesses, who only demand the opportunity to compete fairly. It is not fair when currency fluctuations make our products 40 percent more expensive in foreign countries. We say that doesn't matter. It is not fair. Unfairness matters. We should and must be willing to compete in international trade, but the competition ought to be fair.

I thank my colleague from Montana. I will support this trade agreement. It is a small one, not much of a trade consequence to us, in my judgment. It is written marginally better than previous agreements because it has labor and environmental issues in it.

There is a big job ahead of us. We need to try and deal with the ballooning trade deficit. We need to try to convince the American people that what we are doing represents their best interests. We need to expand trade but it must be done in a manner that is fair to them.

I will have more to say about international trade at some future point in time. I yield the floor.

Mr. BAUCUS. Mr. President, I thank my good friend from North Dakota. He had a very good point. Currency fluctuations certainly in the short term distorts trade almost to the magnitude which he suggested, a 30 to 40 percent differential.

It is also true that, as imperfect as markets are in the long-term, the relative economic strength of countries tends to reflect the value of a country's currency—not entirely but tends to. There have been times when the dollar is low; there are times when the dollar is high. It is very difficult to write into an agreement how to manage currency fluctuations, extremely difficult, particularly with larger countries such as the United States, Japan, the EU, with a single-currency market.

If the United States were to peg exchange rates vis-a-vis those other countries, it would be difficult for those countries to agree. I doubt that they would. Japan tends to like a low yen. It kind of likes the United States having a high dollar. I doubt that Japan would want to address exchange rates in a trade agreement. Could we force them to in a trade agreement? I
don't know. It would be difficult. The same applies to the EU.

Let’s say we were able to peg an exchange rate. Let’s say it happened that the country in question would have to devalue. Let’s say that one of the country’s economies deteriorates, for example, the United States or Japan or some other one. If the currencies are pegged, then it is going to be harder for that country to retain its economic strength, at least with respect to trade.

There will be other distortions. It is like a balloon. If we stop natural competitive pressures worldwide from operating through exchange rates, the problem is going to pop up somewhere else. I don’t know that we have fully thought through where the “someplace else” might be in any rational discussion of exchange rates to include an attempt to address that consideration.

I might add that, to some degree, this is an interna tional matter. It is much more complicated than what meets the eye. The U.S. Government, in many administrations, tends not to discourage a high dollar policy. Why is that? The reason is because the U.S. Government tends to be worried about inflation, as well as other considerations, in addition to the trade imbalance, the current imbalances.

As my friend from North Dakota said—and he is right—trade deficits have been burgeoning, and it is a problem. To say that currency exchange provisions will solve the problem, I think, doesn’t quite do it. The U.S. tends to be a country with a favored currency. We are perceived to be strong and to be dynamic, even in the wake of the events in the last several weeks. Investors worldwide tend to like dollars as opposed to other currencies. That tends to drive up the value of the dollar.

There are a lot of factors to be considered here. Having said all that, I do agree with the Senator that at least an attempt should be made. We should at least have a more open discussion of these issues. I don’t think our Treasury Secretary, or our President, or anybody else of stature in the executive branch, or the Chairman of the Federal Reserve should have an open discussion of these matters, for fear of people misinterpreting what they may be saying. But I do think it is important for the Congress, in the appropriate setting and in the appropriate situation, to begin to examine all the ramifications of exchange rates. It is extremely complicated. In smaller countries we can deal with it, but in larger countries, as in Japan, and with the EU beginning next January, it is going to be difficult.

Mr. DORGAN. Will the Senator yield for a question?

Mr. BAUCUS. I am happy to yield.

Mr. DORGAN. Let me say that it was not my intent to say that solving the issue of fluctuating currencies would solve the trade problem. You cannot solve the trade problem without addressing the fluctuation of currency values. There are many other issues—although the fluctuating value of currency is a 500-pound gorilla issue, it is not the only issue. I don’t mean to suggest that if you solve that, you solve the problems. There are more.

Mr. BAUCUS. Mr. President, I reserve 10 minutes. How much time is remaining?

The PRESIDING OFFICER. Twelve minutes.

Mr. BAUCUS. Mr. President, I reserve myself 5 minutes. I reserve the majority leader 5 minutes when he wishes to speak on the bill. I yield to my good friend from Virginia who I think wants to speak on this measure in 5 minutes.

Mr. ALLEN. I say to the Senator from Montana that I will try to say what I want to say in support of this measure in 5 minutes.

Mr. BAUCUS. I yield the Senator from Virginia, Mr. ALLEN, 5 minutes.

Mr. ALLEN. Mr. President, I rise in support of the United States-Jordan Free Trade Agreement. First, I congratulate Chairman BAUCUS and Senator GRASSLEY for their work in producing this very important legislation, which is a significant step forward in making Jordan a world partner with the United States.

Most of the debate on this matter is centered on the new ground which this measure makes in including multiple worker rights provisions in the body of the U.S. trade agreement, rather than as a side agreement, for the first time. The volume of the bilateral trade between the United States and Jordan throughout the 1990s was consistently modest. Therefore, it is thought, this agreement is unlikely to have any great immediate or dramatic impact on the volume of bilateral trade.

However, I wish to share with my colleagues what this agreement means to the Commonwealth of Virginia and, particularly, to the Albemarle Corporation, headquartered in Richmond, VA. I yield the floor.

The PRESIDING OFFICER. The Senator from Texas is recognized.

Mr. GRAMM. Mr. President, how much time do I have?

The PRESIDING OFFICER. One hour.

Mr. GRAMM. Mr. President, I rise today to support the Jordanian free trade agreement, but I support it with reservations. I am determined that the adoption of this agreement not set a precedent for the future. What I would like to try to do, even though I know it may take a little time to do so, is explain to my colleagues the problems with this agreement, the problem that we have when we bring non-trade matters into fast track, and the very real sovereignty questions that are raised by this small and seemingly insignificant trade agreement.

I would like to try to explain the logic of fast track and its history and, within that context, make it clear that, in the current international crisis in which we find ourselves, I have decided to withdraw my opposition to this agreement and, in the process, see it through the Senate.

Several years ago, Albemarle Corporation began negotiations with the Arab Potash Company to create a joint venture company that will process bromine and bromine derivatives from the Dead Sea. This agreement will allow Albemarle to bring the bromine into the United States tariff free. It will be actually shipped to Albemarle’s facility in Magnolia, AR, for final processing.

This will represent a multimillion-dollar investment and will be used for a variety of products, such as flame retardants for TVs and computers, and other products, and it obviously will provide Albemarle with increased marketing opportunities globally for these products.

It is anticipated that the capital outlay for this joint venture will be $150 million. This outlay makes this joint venture the largest U.S.-Jordanian private venture in Jordan to date. At full operation, they would provide over 200 new jobs at the plant near Safi and its main Amman office.

I congratulate King Abdullah and his government for their efforts leading to Jordan’s accession to the World Trade Organization. Acceptance by the World Trade Organization, combined with Jordan’s economic reforms, are significant steps forward in making Jordan a world partner with the United States.

These developments also make Albemarle more excited about conducting business with its Jordanian partners.

This free trade agreement is another step toward solidifying our relationship and placing Virginia products on the same tariff footing as products from other countries.

I believe fair and free trade is the best way to increase trade, encourage economic development, and improve investment opportunities for all involved. It is important that the achievements made by King Abdullah and the signing of this free trade agreement be recognized and ratified by the Senate. For that reason, I urge my colleagues to support this measure.

I yield the floor.

The PRESIDING OFFICER. The Senator from Texas is recognized.

Mr. BAUCUS. Mr. President, I reserve the floor.
problems we are going to have to ad-
dress. The plain truth is that no one
wants to address these issues, but they
are there whether we like them or not.
Therefore, at some point, we are going
to have to come to grips with them
when we adopt a bill that will provide
what we used to call fast-track author-
ity and now call trade promotion au-
thority.

Let me begin at the beginning. Amer-
ica, in the postwar period, immediately
following World War II, recognized that
world trade was a powerful engine for
creating wealth and democracy and, in
essence, remaking the world in our
image.

We had an incredible bipartisan con-
sensus on trade: that neither party
would try to use trade to politically
benefit itself in the American electoral
process because trade was too impor-
tant in promoting prosperity and de-
mocracy and in fighting communism
in the postwar period.

In that context, we adopted what was
then called fast-track trade authority,
which gave the Executive some re-
markable powers. Under fast track, a
President could negotiate a trade
agreement which, when it came before
Congress, would be unamendable, and
all of the Senate rules related to un-
limited debate and unlimited amend-
ment would be waived; further, there
would be a time limit for consider-
ation, and Congress would then simply
have the ability to vote yes or no.

That made sense in the following con-
text: No. 1, Presidents argued, and I
believe persuasively, that if you are
going to negotiate a trade agreement
where both sides give and take, you
cannot then have that agreement be
subject to further change, by Congress,
after the fact. That is a persuasive ar-
gument, in my opinion.

The second argument was that we
were creating a fast-track limitation of
the constitutional prerogatives of Congress
under article I of the Constitution, and
we had agreed to limit those powers be-
cause we were talking about only ex-
ternal matters, such as protective tar-
iffs. We were not making domestic law,
but were simply setting out trade
agreements that involved external
pricing of American and foreign prod-
ucts but did not make law in America
that would govern the well-being of our
people.

With those two very strong argu-
ments, we adopted fast-track author-
ity, and let me say, the evidence is
overwhelming that we were successful.

When the Berlin Wall came down, it
came down in part because we had the
resolution of our war. And when the
Berlin Wall came down, we were strong enough to deter a
war, and our program of peace through
strength worked. But what happened
that really tore the wall down was that
the growth of world trade generated
wealth-creating engines that created
massive economies in places such as
South Korea and Taiwan where those
economic engines had never existed. It
rebuilt Japan. It rebuilt Europe. The sheer power of that wealth-creating
machine destroyed the Soviet Union.

I am committed to it, it is free trade. I take a back
seat to no one in Congress in my de-
fense of trade, and I make no excuses,
such as talk about “fair trade.” I do
not engage in fair trade with a grocery
store and I will not sell them anything. But what I am in favor
of is trade. Not going to the grocery
store might eliminate unfair trade
with them, but it would mean I might
go hungry, so I choose to go to the gro-
cery store.

One might wonder what is it about
the Jordanian “free trade” agreement
that I am unhappy about, especially
my colleagues who have listened to me
before talk about trade, knowing I am
committed to it and have defended it
with all of its components everywhere. What is wrong with the Jordanian free trade agree-
ment?

What is wrong is, for the first time,
it brings into a trade agreement items
that have to do with domestic law. It
brings into a free trade agreement pro-
visions that relate to labor law and
environmental standards, and environmental law and environmental standards, in
America. And in the process, we are lit-
erally transferring a degree of Amer-
ican sovereignty in labor and environ-
mental areas to decision-making enti-
ties that will be beyond the control of
the United States. This is a very seri-
ous matter.

Let me talk generically about trade
agreements that embody labor and en-
vironmental standards and then talk
about this one in particular.

When we built a consensus on fast-
track authority, the consensus was
based in part on the fact that the Pre-

the postwar period.
and then in the context of GATT. I’ll start with GATT. Using fast-track authority where labor and environmental issues can be included, let us say that we agreed into a GATT agreement where we agreed—as we do in this agreement, and I will talk about it in particular in a minute—on labor and environment provisions. Now, while we have to give the Clinton administration some say in writing all kinds of boilerplate protections for congressional authority, in the end they could not protect what the provision is about.

Under this bill, we agree with Jordan that we will not take any actions with regard to our labor or environmental laws that would advantage us in our trading with Jordan. Now, let me take those provisions and apply it to GATT and the World Trade Organization. Let us say this became the norm for trade agreements where a change in environmental law affects our competitive position with our trading partner? Who decides whether a change in regulation was made to benefit us in trade or because it was made through the Executive power of the President basically to promote the general well-being of the country? Is it not true, at least to a small degree, every change in environmental law and every change in labor law or regulation has a trade effect, making us more or less competitive? If we had the Jordanian free trade agreement as part of GATT, it is literally true, if we decided under the Clean Air Act to grant a clean air waiver to Atlanta, GA, which we have done in the past and to Dallas, TX, which we are doing today, or Houston, which we are doing today, literally if this agreement were in existence as part of GATT a question would arise as to whether granting this waiver under the Clean Air Act and then a third party, in the case of GATT the judgment would be made by the World Trade Organization—a third party, a world organization, determining whether or not we are enforcing the Clean Air Act to benefit us in trade and, therefore, whether we should be penalized with protective tariffs against American products that put Americans out of work.

If we had the provisions of this Jordanian free trade agreement as part of GATT, it is true, if we decided under the Clean Air Act to grant a clean air waiver to Atlanta, GA, which we have done in the past and under the Clean Air Act it is true, that if we violated the trade agreement, we would then be subject to responsibilities and liability. If we violated the trade agreement, we could go see her son play football on Friday afternoon, something that is eminently reasonable and long overdue, if the provisions of this bill were in effect worldwide through the World Trade Organization, we could have a judgment by a world decisionmaking body that we have violated our trade agreements by giving flexibility under the wage and hour laws, flex-time/comp-time we call it; that we have benefited in trade and, therefore, we are subject to reprisal. Who decided whether the Jordanian free trade agreement, and as we go to fast-track authority and as this becomes part of our world trading system, I ask my colleagues, are we ready to give to the President of the United States unilateral authority to write domestic laws that we cannot amend and cannot debate? I am not ready to do that. I love our President. I do not think any Member of the Senate feels closer to our current President than I do, but I am not willing to give that authority to anybody. I do not know who is going to be President in the future. Are we willing, through a free trade agreement and through trade promotion authority, to put ourselves in a situation where the World Trade Organization can determine that by giving a waiver to Atlanta, GA, under the Clean Air Act, we are violating our international trade agreements and, therefore, protective tariffs can be imposed on American products to punish us for exemp the articles I and III of the Constitution?

Is that not a loss of sovereignty that would be virtually unimaginable by the Founding Fathers? I think the answer is clearly yes.

So the first point I wanted to make today is I have decided, just as one Member, to step aside and allow this Jordanian free trade agreement to become law, but not because I think these are good provisions. I think inclusion of these matters is one of the most dangerous actions we have taken since I have been a Member of the Senate. I am doing this today because we have a crisis in the world. We need to reaffirm our relationship with Jordan, a critical country in a very important part of the world, and so as the very moment beginning to look toward a war with terrorism. So our relationship with Jordan is important.

I do it also because our trade with Jordan is relatively insignificant. It is important to Jordan, of course, and we are grateful for it. We want to trade 1,000 times as much with them, but relatively speaking, we are not talking about any significant amount of trade.

Finally, I am willing to do it, making it clear that this sets no precedent for the future. If it is clearly in this current crisis, this trade agreement negotiated by the Clinton administration would never have become the law of the land. I am willing, today, to step aside and vote for it because it sets no precedent and it is critically important internationally at this critical moment in a very important part of the world.

However, I want my colleagues to understand that any efforts to take this process forward would entail giving the President unilateral powers to make domestic law in the labor and the environmental area without Congress having the ability to amend it or to extensively debate it. I am adamantly opposed to that, and I believe the American people would be opposed to it if they were asked to test it.

Second, if we go forward and embody the same provisions in major trade agreements, we are ceding sovereignty to the World Trade Organization and to dispute resolution organizations that will literally have third parties casting the deciding votes as to whether we can grant waivers under the Clean Air Act, or open up ANWR, or change our wage and hour standards, or repeal Davis-Bacon, or do other things that make eminently good public policy. That is a ceding of sovereignty that has no popular support in this country, and it cannot be allowed to go forward.

I turn to the Jordanian free trade agreement. First, if I could pick this pen today and sign a free trade agreement with the world, I would do it. I am in favor of free trade. I believe free trade promotes freedom; I am for freedom. It promotes prosperity; I am for prosperity. My concern about the Jordanian agreement is the nontrade provisions. It has two provisions that may very well never be used in our trade with Jordan but they are extraordinarily dangerous.

The first provision is related to the environment. It says, despite all the boilerplate efforts of the Clinton administration, that if either country—Jordan or the United States—did anything to change its environmental laws that improved its competitiveness with the other country, that would violate the trade agreement. Under the rules of world trade, there would then be a dispute resolution that would ultimately include a United States representative, a Jordanian representative, and a third party, which would determine whether we had violated the agreement and whether the “violating party” would be subject to penalties.

I understand the dollar value of our trade with Jordan is less than the combined budgets of the two great universities in my State. It is not significant in terms of the global picture. But principles are significant. And bad
principles are set often in little, insignificant bills. This provision literally puts us in a position where an international dispute resolution could determine our willingness to cede sovereignty and we are sealing power to other countries. These are the problems that we are committed to our friendship and our partnership. We need Jordan's support in this war on terrorism, and as a result, I think that there are two extraordinarily dangerous things.

This agreement will be approved today. I am going to support it. But I am going to support it as a matter of principle. The President wants to have this agreement to show to Jordan that we are committed to our friendship and our partnership. We need Jordan's support in this war on terrorism, and as a result, I, for one, intend to stop the agreement to adopt. But in doing so, I want to make it clear that this sets no precedent in terms of our willingness to cede sovereignty over America's right to set its own environmental and labor laws and to interpret and enforce those laws without trade organization determining as to whether our people are going to go out of work because we amended labor and environmental laws in conformity with our rights under article I of the Constitution, that is something that I never, ever intend to support and never, ever within the ability to debate it and to fight it intend to see it accepted.

We have to come to grips with these issues. We are putting them off today because this bill needs to pass. But these are matters that are going to have to be understood. They are going to have to be debated as we deal with fast-track authority, or as we now call it, trade promotion authority. To this point, everybody has tried to hide from these issues. But they are not going to be real. They represent an assault on our separation of powers, they represent an assault on national sovereignty, and they do not belong in a fast-track or trade promotion agreement.

I think that, I reserve the remainder of my time. The PRESIDING OFFICER. Who yields time?

Mr. BAUCUS. Mr. President, how much time is remaining?

The PRESIDING OFFICER. The Senator from Texas has 24 minutes and the Senator from Montana has 8.

Mr. BAUCUS. Mr. President, I yield to the Senator from Nebraska, 4 or 5 minutes?

Mr. HAGEL. Let's try 5 minutes. I appreciate that.

Mr. BAUCUS. I yield 5 minutes with the recognition there is only 3 minutes left after the 5 minutes are used.

Mr. HAGEL. Mr. President, I rise today to support the Jordanian free trade agreement. I wish to strongly support the remarks just given by the distinguished senior Senator from Texas, Mr. GRAMM. In my opinion, he has calibrated this exactly right. He has framed it right. He has made poignant remarks about issues that are most important to this debate this day but a continued debate on trade this body was negotiated in the previous administration that has a very severe problem. If this agreement were with another country at another time, I do not think that it would be supported today, facing a war with terrorism and given that this is with Jordan and given that the amount of trade involved is insignificant, from the United States point of view, I for one am willing to step aside and to support this bill. But I want to make it clear that any fast track or trade promotion authority legislation that would transfer the making of domestic law to the President, limiting—in this case eliminating—our power to amend or debate, or any future trade promotion agreement that would grant to a world decisionmaking authority the right to determine whether we have exercised our article I rights under the Constitution of the United States properly, where a trade organization determines as to whether our people are going to be put out of work because we amended labor and environmental laws in conformity with our rights under article I of the Constitution, that is something that I never, ever intend to support and never, ever within the ability to debate it and to fight it intend to see it accepted.

Now people do not want to deal with this issue. It was clear in the Finance Committee, people were not ready to come to grips with this issue. What is appealing about putting labor and environmental provisions into the bill is that it lets us be on three sides of a two-sided issue. It lets us be with the people who want to have international labor and environmental standards, and yet be for trade. The problem is, you are either for trade or you are against it. When we write these provisions into our trade agreement, we are setting ourselves up for loss of sovereignty and we are ceding power to other countries.

If we didn't sell anything to Jordan, it would obviously matter to the companies involved. It would be a terrible thing, but economically it would not be a catastrophe. My objection to including these labor and environmental provisions is based on principle, and if inclusion of these issues goes any further and is established worldwide, it is going to have a profound impact on the lawmaking authority of the U.S. Congress.

Now, granted the Clinton administration puts nice boilerplate language that says to Jordan, you make your own laws; and it says to the United States, you make your own laws. But it also says, if those laws are judged to improve your competitiveness as a result of a reduction in your level of environmental protection, then there can be reprisals.

Who makes that determination? The problem is, the United States does not make that determination. That determination is made by an international dispute resolution system. The same is true in this bill with regard to labor law. Under this bill, you have an obvious question: When have you changed labor standards to benefit yourself in terms of competition? With Jordan, who makes the determination?

I would have no objection if the determination of whether we were meeting our agreement were made by Americans. I think it would be foolish to get into this area, because everyone who is the least bit objective about trade understands. If you care about labor standards, you are for trade, because trading countries are rich, and they have high wages, and they have good working conditions. If you care about the environment, you are for trade, because trading countries are rich and they can protect their environment, and they do.

I know we have people talking about a race to the bottom in labor and environmental standards, but the truth is, trade is a race to the top, not to the bottom. But these are the problems with this bill.

Now people do not want to deal with this issue. It was clear in the Finance Committee, people were not ready to come to grips with this issue. What is appealing about putting labor and environmental provisions into the bill is that it lets us be on three sides of a two-sided issue. It lets us be with the people who want to have international labor and environmental standards, and yet be for trade. The problem is, you are either for trade or you are against it. When we write these provisions into our trade agreement, we are setting ourselves up for loss of sovereignty and we are ceding power to other countries.
It has been almost a year since President Clinton and King Abdullah signed the U.S.-Jordan Free Trade Agreement. By all accounts the agreement should have passed Congress with little controversy.

The Kingdom of Jordan and King Abdullah are good friends of the United States. The agreement itself is a good agreement. It opens up new markets for U.S. exports to Jordan. And it enhances Jordan’s access to our markets. But there is one part of the agreement that caused problems.

These are controversial labor and environment provisions that were put in the U.S.-Jordan Free Trade Agreement. It is these labor and environment provisions which slowed passage of an agreement that should have passed both Houses of Congress quickly.

In the Senate legislation was introduced by MAX BAUCUS on March 29, 2001 to amend the agreement. On July 17 the Finance Committee began to debate the bill.

During debate many Members expressed concern about the labor and environment provisions in the Jordan agreement.

Many others pushed hard for an amendment to the agreement which would give the President trade negotiating authority, which was supported very eloquently by the Senator from Nebraska.

Unfortunately, this amendment was withdrawn because of the chairman’s opposition.

These important letters clarified that neither government intends to apply the labor and environment provisions in a way which blocks trade.

The exchange of letters was an important development.

After all, the purpose of a free trade agreement is to facilitate trade.

After all, we are talking about an agreement that has the purpose of facilitating trade. That is pretty clear with the term “free trade agreement”—not to deal with a bunch of social and environmental issues.

While these commitments did not resolve every Senator’s concern with the agreement, it was an important step forward.

And because of these letters the Finance Committee was able to complete consideration of the bill on July 26, 2001.

Unfortunately, some tend to characterize the labor and environment provisions of the Jordan LTA as a precedent for future trade legislation.

I want it understood very clearly that I do not accept that, and I want to say that loudly and clearly. This should not be considered as a precedent.

It does not mean that the Jordan free trade agreement in other ways does not
set a precedent. It is the first free trade agreement we have entered into with a Muslim country. I hope it is not the last.

I also hope this sends a loud signal to our Muslim friends and our friends around the world. The United States wants close trading relationships with these countries and their people.

We need to help the people of the United States grow through trade. I think it was President Kennedy who said “trade, not aid.”

It enhances the prosperity throughout the Middle East. But the Jordan agreement is precedent setting with a Muslim country, we would surely expect it to enhance prosperity throughout the Middle East as well as the entire world benefiting because we all know that free trade is a very powerful engine of growth. It can lift millions out of poverty, as we have seen in the development of this regime since 1947 when these free trade agreements started—and under the GATT process the revitalization of Japan and all of Western Europe. Countries that were poverty stricken 50 years ago are very prosperous today—Japan, Taiwan, South Korea, to name a few.

Their prosperity depends on a great deal upon trade. Lifting millions out of poverty also in the process opens the door to new hope for people. It offers opportunity to people who have only known despair.

Trade can help undermine terrorism by taking away the fertile ground of poverty and hopelessness from which that terrorism is sown.

It can broaden horizons and lift human spirits to greatness.

Our friends and allies must know that we share their hope in the future. But trade and the regime for arriving at free trade agreements and further negotiations within the World Trade Organization are a way to show that we put our actions where our mouth is.

I also show that we have history on our side—that there has been progress made in the past. It can predict the good future that lies ahead as a result of freeing up trade. They must know we will open up our arms and embrace them through trade. Just as trade lifted Germany and Japan from the ashes of World War II, it will lift nations today.

However, we have to have the tools to make it work. One of those tools, as you keeping in this debate—and a lot of other places—is the need to give the President of the United States trade promotion authority. We ought to do this in the same apolitical or bipartisan way that it has been done over a long period of time. And this is done because we do not put a lot of preconditions on these negotiations. People of good will sit down to work out their differences, each respecting their own national interests. The President of the United States will not negotiate away the interests of the United States of America and its people.

So it is time to give the President the power to negotiate trade agreements with our friends and our allies, and even with countries that we might not consider our friends and allies, if they are in the World Trade Organization.

The Finance Committee has quite a history of bipartisanship in this area, to give President Clinton what he needs to be able to conduct trade negotiations, the authority, now called trade promotion authority.

This type of legislation, over a long period of time, has passed with broad bipartisan support. We in the Senate generally have not waited for others to act. We have seized the reins of leadership and have moved ahead. Today, we need to be doing that as well. I hope I can help move that process along. I hope the bill today helps do that as well. There is bipartisan legislation that is already introduced that would be a good bill for this committee to consider.

At a time when the world economy is slowing, we must act. We must put aside our partisan preconditions and excuses to trade and show the world that the United States is ready, willing, and able to lead.

I thank the Chair and reserve the remainder of what time I did not use for Senator Gramm.

Mr. BINGAMAN. Mr. President, I rise today in very strong support of H.R. 2603, the United States-Jordan Free Trade Area implementing bill. There is a very limited time for debate available to my colleagues today on this legislation, so I will keep my comments short.

First, let me say that the timing for the consideration of this legislation could not be more propitious given the horrific events that have just occurred in our country. As we consider this bill, let us not lose sight of the geopolitical context within which we now conduct international affairs. Trade negotiations between the U.S. and Jordan were initiated for one reason alone, that being that government officials felt it would substantially increase economic interaction between the two countries and thus significantly enhance political stability in the Middle East as a whole. Although the immediate economic gains from the agreement will, no doubt, be modest, the long-term political benefits will be considerable. Of particular importance are the opportunities the agreement potentially provides Palestinians living in Jordan and operating in qualified industrial zones. For these individuals, nearly all of whom at present live in poverty, the chance to improve their lives, this agreement changes the equation and offers real hope. Significantly, it offers a tangible alternative to violence, and I need not emphasize how important a different path like this might be to young individuals, and the strategic interests of the United States, at this time.

I understand the concern of certain colleagues about national sovereignty as it relates to the dispute resolution provisions in the agreement. But clearly, concern over this agreement in particular threatens our sovereignty—from my perspective it does not and it will not, but rather because of the apprehension that this agreement establishes a precedent for future negotiations that relates to this trade agreement being a “model,” and once this trade agreement is passed, others will certainly look much the same.

To this criticism I respond by saying that each agreement negotiated by our country is unique and based on the issues that concern the parties at the time. There is no reason to assume that every agreement will contain similar language to that which is contained in this agreement. Indeed, there is no reason to doubt that will. Clearly, there is a balance that must be found between having an agreement and having ways to ensure that the provisions that are in an agreement are implemented. In this particular case, I think a very appropriate arrangement has been created.

But I want to emphasize today that I do intend to be very cognizant of how we establish dispute resolution mechanisms down the road. And I say this simply because we have reached a point in international trade relations where we have to ask if we are prepared to change the ideas and institutions that form the foundation of our political economic system to attain a trade agreement. That is the essence of the debate at hand, and if we have learned anything at all from NAFTA, it is that this is not something to be taken lightly.

All this said, this legislation must be passed today, and it deserves to be passed today. It serves the people of Jordan that while they are already our political friend and ally, the time has come that they also become our economic partner. I look forward to the benefits, short and long-term, that will come as a result of this historic free trade area agreement. I would like to take this opportunity to compliment the Clinton and Bush Administrations for recognizing its significance and pushing the agreement forward.

Mr. DURBIN. Mr. President, I rise today in support of this trade agreement between the U.S. and Jordan. It is important in terms of national security. Jordan is important in the quest for peace and security in the Middle East, which couldn’t come at a more appropriate time. It is important economically—without a healthy Jordanian economy, they will not be able to play a constructive role in the Middle East.

For me, it is important because it recognizes that included in the economic relationship between the U.S.
and Jordan are labor and environmental standards. It goes without saying that domestic labor markets and environmental standards are relevant to countries in a nation and between nations. Both the U.S. and Jordan have strong practices in the areas of labor and the environment.

Some critics of this historic legislation claim that if either country fails to meet their commitments to enforce these or other provision of the agreement, they do not expect or intend to use traditional enforcement mechanisms to enforce them. This kind of talk is nonsense. To say that regardless of the violations in a trade agreement, enforcement mechanisms will not be used is irresponsible. Trade sanctions are always a last resort. But to set a precedent in any agreement that under no circumstances is there an expectation they may have to be used is a mistake an unwise precedent.

I should remind critics of this legislation that the agreement carefully sets up a framework for various consultations and negotiations over a period of time before either party could use sanctions only after recurring violations affecting trade and only with appropriate and commensurate measures. This is clear. Cutting corners on the important issues of labor and environmental standards in trade agreements is a step backwards for future constructive action on trade.

I support this agreement because of the importance of our relationships, not because the timing couldn’t be more important. I support this agreement because we need to support our friends in the Middle East. By passing this legislation today, the United States Senate sends a clear signal of support to our many friends in the Middle East and the Hashemite Kingdom of Jordan.

As ranking Republican member of the Trade Subcommittee of the Finance Committee, I am pleased that the Jordanian Free Trade Agreement was approved by the full committee and now is receiving floor consideration.

While some would say that this agreement amounts to nothing more than a garden variety trade agreement, they would be wrong. From a strict U.S. economic perspective, it is not a major agreement. However, as King Abdullah has made clear, from the standpoint of the Jordanians, it is an important precedent for his country and for other nations in the region. This was true before the tragic events of September, and may be more true today as our country wages a campaign to reach out to moderate Arab states.

Bilateral free trade agreements between the U.S. and other countries help establish a mutual understanding of the norms and expectations of trade. I think when foreign business interests enter into trading partnerships with American firms under a free trade agreement, both parties can benefit economically, and the U.S. and our trading partner will almost inevitably grow closer together due to this type of joint enterprise.

Mr. HATCH. Mr. President, I rise to urge support of the free trade agreement between the United States and Jordan.

As ranking Republican member of the Trade Subcommittee of the Finance Committee, I am pleased that the Jordanian Free Trade Agreement was approved by the full committee and now is receiving floor consideration.

While some would say that this agreement amounts to nothing more than a garden variety trade agreement, they would be wrong. From a strict U.S. economic perspective, it is not a major agreement. However, as King Abdullah has made clear, from the standpoint of the Jordanians, it is an important precedent for his country and for other nations in the region. This was true before the tragic events of September, and may be more true today as our country wages a campaign to reach out to moderate Arab states.

Bilateral free trade agreements between the U.S. and other countries around the world that the United States is a good partner. King Abdullah and other world leaders need to know that partnering with the United States can result in tangible benefits to their citizens.

I urge my colleagues to vote for this measure.

Mr. MURKOWSKI. Mr. President, the U.S.-Jordan Free Trade Agreement is an important acknowledgment of our long-standing friendship with the Hashemite Kingdom of Jordan, which has been a stalwart ally in pursuing peace and prosperity in the Middle East. Opening our markets to free trade with one another is appropriate, not simply in order to foster the opportunities free trade can bring between our two economies, but to draw our countries closer together in the struggle for peace.

I have been an advocate of this free trade agreement since the prospect of its negotiation was first raised some years ago. I believe strongly in the power of trade to eliminate poverty, encourage political transparency and draw nations closer together. I also believe that free trade is one of the best manifestations of mutual understanding, trust and congruent interests two like-minded countries as the United States and Jordan can have. So I have strongly supported the negotiation and implementation of this agreement on the essential policy grounds on which it is founded.

I do not, however, support the inclusion in this agreement of politically charged provisions linking trade remedies to environmental and labor standards. We have learned over the years that as a means to enforce expressions of U.S. political will on other nations, trade sanctions are ineffective at best. Quite often, they do more harm to American interests, including American labor interests, than any benefits to the third party are ever likely to serve, than doing nothing at all. Those that champion the linkage of trade with non-trade interests understand this basic fact quite well. Sanctions do not work. Sanctions are nothing more than thinly-veiled proxies for economic protectionism.

The effort to link trade and environmental and labor standards are largely championed by those whose primary interest is in limiting the growth of trade. The labor movement is understandably interested in limiting the impact of trade on entrenched labor interests. Their desire is to maintain the economic status quo, not to promote growth through competition. Likewise, the American environmental movement is understandably interested in confronting their interests in preserving the environmental status quo. The evidence is overwhelming that the long-term benefits of trade are vastly more positive for labor and environmental interests. However, labor and environmental groups serve only narrow, short-term interests.
Those of us who understand the overwhelming economic and social benefits of expanded trade are rightly concerned, therefore, with the inclusion of environmental and labor provisions in trade agreements. Even seemingly innocuous provisions such as those slipped in, almost mischievously, by the previous Administration into the U.S.-Jordan Free Trade Agreement are designed as poison pills by the interest groups which championed them. They are invitations for mischief-making on a grand scale.

There is no doubt that opening markets to new economic activity places new pressures on labor and environmental concerns. Attention to easing such impacts is thoroughly appropriate in implementing new trade agreements. To condition trade on prescribed labor and environmental standards is, however, to do the work of the opposition. When, in the case of the Jordan Free Trade Agreement, we establish an open-ended and vague linkage between trade and non-trade standards, we ransom our long-term policy interests for short-term political gain.

Jordan is not, happily, a model for other countries expected or intended to liberalize trade with the United States. Liberalized trade with Jordan will benefit both our economies. Although various Jordanian producers and goods already enjoy duty-free status or low tariff rates, this free trade area will ensure that Jordanian and American consumers enjoy an expansion of commercial choice and value. Both nations will also benefit from greater foreign direct investment and trade-related job creation.

I remain concerned about the hostility this Congress has shown towards free trade. Many important new trade agreements and negotiations toward a new WTO Round, a Free Trade Agreement with our neighbors and largest trading partners. These letters do not specifically mention the labor and environmental provisions of the agreement. The exchange of letters was, however, clearly aimed at the labor and environmental provisions. I think that this exchange of letters was unfortunate. I continue to support the agreement, though, because the letters did not affect the text of the agreement. I believe in the need to have meaningful and binding labor and environmental provisions in trade agreements, provisions that are fully enforceable and can be implemented through the same mechanisms as any other part of the agreement.

The PRESIDING OFFICER. The Senator from Nevada.

Mr. REID. I suggest the absence of a quorum.

The PRESIDING OFFICER. Without objection, it is so ordered. The Clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Nevada.

Mr. REID. Mr. President, there are a number of Senators wishing to speak. The unanimous consent agreement indicated that this debate would be available for 2 hours, which would end at about 2:08. I ask unanimous consent that the time be extended an additional 4 minutes on each side and that the vote occur thereafter.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Just to alert everyone, the two leaders may wish to speak on this legislation. If they do, they will use leader time and extend the time until we vote a little more. If that is the case, they can come and take care of that themselves. So the vote, as I understand it, will occur at approximately 2:15, 2:16, something like that.

The PRESIDING OFFICER. The Senator is correct.

Who yields time?

The Senator from Montana.

Mr. BAUCUS. Mr. President, as a consequence of the recent change in time, will the Presiding Officer indicate how much time is available to each side?

The PRESIDING OFFICER. The Senator from Montana has 5 minutes 20 seconds, and the Senator from Texas has 17 minutes.

Mr. BAUCUS. I thank the Chair.

The PRESIDING OFFICER. The Senator from Texas.

Mr. GRAMM. Mr. President, it may very well be that the distinguished chairman of the Finance Committee would like to end the debate. I will afford him that courtesy.
the world. I am in favor of world free trade. Obviously, I am in favor of free trade with any individual nation.

There are very real problems when you bring law into trade agreements, and I have outlined today the two problems you have in trying to inject, in this case, domestic labor law, domestic environmental law, and then the enforcement of those laws through our courts. When you bring them into trade agreements, you create two very real problems: First, you give an extraordinary grant of power to the executive branch of Government to write domestic laws in a context where Congress’ powers to debate and amend are severely limited; and, second, you pass decisionmaking authority, as to America’s intent and as to the impact of the making of domestic law, to an international decisionmaking unit.

And you create a situation where literally popular support with the best of intentions, with the goal of promoting the well-being of our people—and the only legitimate objective of American Government is to promote the well-being of its people—we could find ourselves in a situation where a change in a labor or an environmental law was judged by an international decisionmaking body or dispute resolution mechanism to benefit us in trade, and I would hope that would be one of our objectives in passing law. But by judging it in those terms, we could literally have tariffs imposed on any American product sold on the world market, and the net result would be severe limits on our national sovereignty.

These are very real issues. They are not easy to fix. If you are going to extend trade promotion authority into the area of domestic law—in this case, labor and environment—my own preference would be, knowing that trade promotion authority, without total freedom that trade promotes labor rights by promoting competition, the ultimate right of a worker comes down to their ability to quit and go get another job. That is the ultimate worker right: I do not have to worry about somebody protecting my rights and treating me well when I can go across the street. Trade promotes that kind of competition. But there are two sides to every story, I know the distinguished chairman has very different views, at least on what he hopes to achieve with labor and environmental provisions.

I conclude by saying I am willing to try to work with him to come up with a way of finding a solution to this problem so that we can give the President the decision authority at a time when we desperately need it, at a time when we need to be promoting world prosperity, and at a time when we need to be promoting democracy and capitalism, because democracy and capitalism do not give rise to the kind of hate that endangers us and our people and our future and our happiness. I do think it is important that we work this out. But these are very real issues, very tough issues.

Let me conclude by saying that in having a bit of economics in my own viewpoint, this is a decision that was made based on the necessity of approving this agreement now as we are looking at a long and difficult war on terrorism, a trade agreement that in the best of economic times is not very important, but the country with which we are entering into this agreement is a critical country, critical for American interests in the Middle East. And it is in the Middle East that many of our problems with world terrorism are focused. Without settling a precedent for this labor and environmental extension into trade or loss of sovereignty or violating the separation of powers, I intend to support the agreement.

I reiterate, in conclusion, that I am willing to work with anybody to try to find a way to get trade promotion authority for the President. It would be a great tragedy if we adjourn this year without the President having this authority. It is an arrow in his quiver that he needs to fight this war. We are not going to win this war just with bullets, though we need some bullets and we need them properly delivered. However many we need, I am willing to buy. That alone will not win this war. Trade and the mutual respect it creates will be important tools, as important as bullets in winning this war.

This trade promotion authority is very important, but to deal with it, we have to come to grips with these issues.

I yield the floor.

The PRESIDING OFFICER (Mr. BAYH). The Senator from Montana.

Mr. BAUCUS. Mr. President, I yield myself the remainder of the time.

I first wish to congratulate Charlene Barsheskay, the very able U.S. Trade Representative who negotiated this agreement, and also President Bush and his administration. They have been very far-sighted in urging the Congress to pass this legislation for all the reasons I and others have mentioned.

I also thank my colleague and good friend from Iowa, Senator Grassley, ranking member of the committee, for his steadfast support for this agreement.

This agreement was signed by both countries last October. The implementing legislation was passed by the House before the August recess. A virtually identical bill was reported out of the Finance Committee with only two dissenting votes, again before the August recess.

The point being, there was immense support for this agreement even before the disastrous events of September 11. Certainly, the events of September 11 make it all the more important now that we pass the bill to implement this agreement.

I also thank Senator Gramm for allowing this bill to come to the floor. He had earlier expressed his disagreement with the bill to the point where its passage would have been in doubt. Very much thank the Senator for allowing this bill to come up and pass and for his support of the bill at this time.

I respectfully disagree with some of his concerns. First, the distinctions he suggests between trade and non-trade issues are just not valid. We have a whole plethora of domestic issues routinely included in trade agreements, whether patents or copyrights or trade marks, issues of geographical indications on labels, farm tilling practices. That gets pretty domestic. You can’t get more domestic than farming. We address farm tilling practices in our discussions of trade. They are now very much in discussion between the European Union and ourselves with respect to which practices are included as trade-distorting subsidies and which are not.

There are a lot of domestic issues that are included in trade agreements.

Second, the statement he made that this agreement impinges upon American sovereignty. It is important to remind ourselves that any agreement the U.S. Government enters into with another country to some degree has sovereignty consequences. Arms control, for example, the Montreal Protocol restricting chloroflorocarbons, tax treaties, all have consequences for American sovereignty. International agreements are not a free lunch. They are bargained-for agreements that have consequences and have effects on each country’s sovereignty.

Also, it is important to remember that a lot of traditional economic provisions included in trade agreements have some effect on our sovereignty. For example, in the GATT, we have mutually agreed to reduce tariffs. If we didn’t agree to reduce our tariffs, we would never get other countries to reduce theirs. The issue of intellectual property rights is another example. Agreements in this area have consequences to one degree or another on actions that this country may or may not take.

The main point I wish to make is that the agreement before us does not infringe upon U.S. sovereignty because, under the agreement, neither country is required to change its laws. And there has been a lot of talk about international dispute settlement mechanisms. There is no binding international dispute settlement mechanism in this agreement. If there is a dispute, as I mentioned previously, three conditions have to be met for either side to require that mechanism. I won’t go through those conditions again, because time is limited. But even if a party claims that the three conditions are met, the next step is to go to mediation, not arbitration. There is mediation, and it is non-binding. A mediator might suggest to the United States or to Jordan, let’s say...
the United States, that the United States has done something untoward. The United States can accept it or not accept it. There is no requirement whatsoever that the United States can accept or not accept what a non-binding mediation panel—one panelist named by the United States, the other by Jordan, a third selected between them—might suggest. Again, it is non-binding.

Finally, I might say that I do believe this agreement does set a precedent, by definition, because it is the first of its kind. That is a precedent. I hope that all future trade agreements will now, after the passage of this agreement, include proper, reasonable labor and environmental provisions, because that is where we are in the world today.

The PRESIDING OFFICER. The Senator's time has expired.

Who yields time? The Senator from Texas.

Mr. GRAMM. Mr. President, I think I have pretty well said everything I came to say. Let me yield back my time and then if someone else wants to speak, they can come speak. If not, we can just remain in a quorum call until we are ready to vote. With that, let me yield back the remainder of my time, seeing the distinguished majority leader.

The PRESIDING OFFICER. The majority leader.

Mr. DASCHLE. Mr. President, I thank the distinguished Senator from Texas. Especially I thank the chair of the Senate Finance Committee and the ranking member for their work in getting us to this point.

I simply wanted to come to the floor before the end of the debate to express my strong support for the Jordan Free Trade Area Implementation Act. This is the first-ever U.S. free trade agreement with an Arab country. I think at these very tenuous and challenging times, there could be no stronger statement for us to make than to pass this legislation. I appreciate very much the work by all of those involved to see that it is done.

I note this agreement was negotiated by the United States and Jordan, and tested by the United States and Jordan Free Trade Agreement a year ago, they expressed their concern about the impact of trade on workers and the environment. I share that concern today.

I am pleased that written into the text for the first time ever are several provisions to protect the environment and the rights of workers.

I see this as not only an important bilateral agreement but hopefully a template for future trade agreements as well.

I recognize, as others have noted, that several of my colleagues have concerns about this agreement is structured, and I thank them for saving this debate for another day and allowing us to move forward on this important legislation.

Our disagreements on this bill are far outweighed by our areas of agreement. We all agree on the strategic importance and good friendship of the King of Jordan.

Bordering Israel, Syria, Iraq, and Saudi Arabia, Jordan sits in the middle of a wide range of critical U.S. national interests—geographically and politically.

This centrality has been bolstered by Jordan's supportive orientation toward U.S. interests. This agreement should stand as a strong symbol of the importance we attach to our relations with Jordan.

The Jordanians have taken admirable steps to improve relations with Israel, including the 1994 peace treaty that helped to advance the Middle East peace process.

This trade agreement, as the foreign assistance and debt relief before it, is a signal to Jordan that we appreciate its efforts at peace in the Middle East and that we hope for more.

That view is held by Israeli Prime Minister Sharon, who, on his first visit to Washington as Prime Minister, urged Congress to pass this historic trade agreement.

This trade agreement is also a signal to King Abdullah that we support his efforts at economic modernization. He and his team have instituted a series of significant economic reforms in order to restore growth.

We understand those reforms, while necessary, are painful. With this vote today, we are telling the Jordanians their reform and austerity will pay dividends.

Lastly, and most importantly, this agreement signals that the United States is not the enemy of the Arab and Muslim world.

Osama bin Laden and his associate extremists argue that the West is waging a war on Islam. Nothing could be further from the truth. We are waging a war on terrorism.

Jordan's participation in this international coalition against terror will only hasten our triumph and isolate the extremists and criminals who attacked America 2 weeks ago.

By further solidifying our important relationship at this critical time, the United States-Jordan Free Trade Area Implementation Act will give further impetus to the international coalition against terrorism and advance vital U.S. national security interests as well.

For these reasons, I come to the floor in support of H. R. 2603 and hope that all my colleagues will do the same.

I yield the floor.

The PRESIDING OFFICER. All time has expired. The bill is before the Senate and open to amendment. If there be no amendment to be offered, the question is on the third reading and passage of the bill.

The bill (H. R. 2603) was ordered to a third reading and was read the third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall the bill pass?

The bill (H. R. 2603) was passed.

Mr. BOND. Mr. President, I move to reconsider the vote.

Mr. GRAMM. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

EXECUTIVE SESSION

NOMINATION OF KIRK VAN TINE, OF VIRGINIA, TO BE GENERAL COUNSEL OF THE DEPARTMENT OF TRANSPORTATION

The PRESIDING OFFICER. The Senate will now go into executive session and proceed to vote on Executive Calendar No. 365, which the clerk will report.

The assistant legislative clerk read the nomination of Kirk Van Tine, of Virginia, to be General Counsel of the Department of Transportation.

The PRESIDING OFFICER. The yeas and nays have been ordered.

The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. REID. I announce that the Senator from Vermont (Mr. JEFFORDS) is necessarily absent.

Mr. NICKLES. I announce that the Senator from Pennsylvania (Mr. SANTORUM and the Senator from Nevada (Mr. ENSIGN) are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 97, nays 0, as follows:

[Rollcall Vote No. 285 Ex.]

The nomination was confirmed.

Mr. LEVIN. Mr. President, I move to reconsider the vote.

Mr. REID. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will now return to legislative session.

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of S. 1438, which the clerk will report by title.

The assistant legislative clerk read as follows:

A bill (S. 1438) to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military construction and emergency activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes.

The PRESIDING OFFICER. The Senator from Nevada.

Mr. REID. As I announced for the majority leader this morning, he has every intent of finishing this bill by tomorrow, which is tomorrow night Wednesday. That is the goal. I take it the Senator would agree with that goal?

Mr. WARNER. I agree.

Mr. DOMENICI. I say to the distinguished chairman, I understand there is an amendment that the Senator from Kentucky will offer.

Mr. LEVIN. Senator Jack Reed has been waiting to make an opening statement.

Mr. DOMENICI. Of course. And I ask it be in order that after the first amendment offered by the Senator from Kentucky, I offer an amendment on behalf of Senator Bingaman.

The PRESIDING OFFICER. Is there objection?

Mr. LEVIN. Mr. President, we have to clear that. I wonder if we could withhold that for a moment.

Mr. DOMENICI. Sure.

Mr. LEVIN. Mr. President, it is hard to hear. I would like to know what kind of agreement we are coming to concerning amendments.

Mr. WARNER. I do not think we have reached any agreement. We have just come to the floor for the purpose of starting consideration of the bill. I defer to my chairman. As I understand, we have colleagues waiting to move ahead. I am prepared to try to do what we can, subject to his concurrence.

Mr. LEVIN. Mr. President, if we could recognize Senator Reed, who is waiting to make an opening statement, and while he is giving that statement, we will try to line up the order of amendments. Is that agreeable?

Mr. WARNER. Operationally, I wonder if it is agreeable to the Speaker?

Mr. LEVIN. I ask that the Chair recognize Senator Reed, then Senator Sessions, and at that point, after opening statements, we hope to have at least one or two amendments lined up in terms of order of recognition.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Michigan regarding the order of speakers?

Without objection, it is so ordered.

The Senator from Rhode Island.

Mr. REED. Mr. President, I thank the Senators from Michigan and Virginia for their gracious offer of the opportunity to speak this afternoon but also for their work as chairman and ranking member of this committee. I thank Chairman Levin and Senator Warner for their leadership.

I was only this afternoon in support of this authorization bill for the Department of Defense for the year 2002. It comes at a critical time in history where we have to prepare for a serious threat, both anticipated before September 11 and now understood very well after September 11, and the legislation we are contemplating is a timeframe to consider these issues because of the late submission of the budget, the Strategic Subcommittee conducted extensive hearings.

The result is the legislation we have before the Senate, a product of these hearings, and of hard work, particularly by the staff. I commend and recognize Senator Warner for their leadership.

The legislation we have before the Senate, a product of these hearings, and of hard work, particularly by the staff. I commend and recognize Senator Warner for their leadership.

wish lists. That gave us a sense of where we had to apply additional resources. We tried to do that.

Now, with respect to space and space systems, the United States has a continuing and increased reliance on access to space. For space programs, we added $33.9 million to improve readiness and operations of safety at the east and west coast space launch and range facilities. This was the Air Force’s No. 1 unfunded priority. We were able to fund a significant portion of their request.

We also added funds to the Air Force to improve its space surveillance capabilities and its communications capabilities. With the additional funds we have provided in this legislation, the Air Force will be able to exercise an option to buy additional wide band gap-filler satellites to ensure global wide band communications capability.

Again, a principle purpose for extensive operations around the world directed at those who attacked us, these types of global communications become more and more critical to the successful operations not only of the Air Force but of our ground elements and all of the elements in the Department of Defense.

In the area of strategic systems, we have included a provision consistent with the requests by the Department of Defense and the administration that would repeal section 1302 of the National Defense Authorization Act for fiscal year 1998. Section 1302 required the Secretary of Defense to stay at the START I nuclear force structure level until such time as START II enters into force. This provision, the provision we have included, will allow significant immediate reduction in the number of strategic nuclear warheads, and will continue the transition of our forces away from a cold war structure with the hope to wait for START II to enter into force.

Also related to the repeal of section 1302 is the inclusion within the bill of funds to allow the Air Force to begin to retire the Peacekeeper ICBMs beginning next year. This is consistent with the overall thrust of the administration to make reductions in our nuclear force structure.

We are awaiting a nuclear posture review, due in the next few weeks. But we are giving the administration what they desire and what we think is appropriate: the authority to begin to make reductions in our nuclear forces and the money to begin immediately to retire the Peacekeeper ICBMs.

Also in the strategic area, we have included funds that would direct the Secretary of the Air Force to keep the full fleet of B-1B bombers in place, including those B-1B bombers that are assigned to the Air National Guard until both the Quadrennial Defense Review and the Nuclear Posture Review are completed and the Secretary has thoroughly reviewed the missions of the B-1B bomber fleet. We have included the necessary $100 million in operations and maintenance funds to keep the B-1B bombers flying in fiscal year 2000.

I also suggest and point out the B-1B bombers are among those assets that have been identified and notified for possible forward deployment in support of our antiterrorist operations.

As we today and in the future place increased reliance on our bomber fleet, not only have we dealt with the B-1B bomber force, we have also added an additional $125 million for much needed upgrades to the B-2 bomber and the B-52 bomber. We have all watched recently as those B-52s left Barksdale Air Force Base in support, again, of our antiterrorist operations, so it is essential to support these Air Force aircraft also.

In the intelligence surveillance and reconnaissance area, we have continued the emphasis started by Senator WARNER on transforming our military forces by promoting unmanned aerial vehicles. This bill includes an additional $61.2 million for unmanned aerial vehicles. As we improve the capability of these vehicles, we will rely on them for a growing list of missions. Once again, in any type of counterterrorism operation where we need relatively low-level, nonobtrusive, we hope, observation from the sky and where we are unwilling to risk plots, these vehicles are terribly useful.

Last year we sponsored a demonstration for the Global Hawk system in an air surveillance role. This bill includes funding for a signals intelligence demonstration project using the Global Hawk UAV. We think it is an important addition to our repertoire of over-the-head reconnaissance.

Another responsibility of the Strategic Subcommitte is the defense-funded programs at the Department of Energy with the exception of the nonproliferation programs. These DOE programs include environmental cleanup programs, the Stockpile Stewardship Program, and intelligence and counterintelligence programs.

This bill would add approximately $855 million for these important programs. The budget request for these programs was not sufficient to cover all the needs for DOE to comply with its cleanup agreements or to improve the conditions of the production complex or to complete stockpile life extension programs. Additional resources are needed to not only maintain weapons reliability and our ability to safely store and use weapons but to also have the responsibility to clean up sites that have been polluted by nuclear processes in the past.

We recognize that more money may be needed but this is a substantial downpayment on cleanup and stockpile security programs. The additional funding included $422 million for the DOE environmental programs and $500 million for the National Nuclear Security Administration.

In addition to the extra funding for DOE programs, we have included legislative provisions to streamline the DOE polygraph program and help the National Nuclear Security Administration complete its reorganization. As we all know, the initial response prompting these programs, the polygraph program and the creation of NNSA, was the situation of security breaches in our nuclear laboratories. We hope and believe that is a thing of the past because of our streamlined security procedures and a more rational, robust, and efficient NNSA.

One of the most controversial elements of our deliberations involve ballistic missile defense. Let me say initially that there is a consensus on the committee that we need robust research and development of ballistic missile defense and immediate deployment of theater missile defenses to counter the threat. But it turns out that when you come to national missile defense there are two schools of thought. There are those who might say it will never work and those who say we don’t care if it works, we need it. The reality is somewhere in between. We have a strong obligation to test and develop national missile defenses so we can bring, we hope, that technology to bear to defend the country. Once we have tested not to deploy something that will not work. That is what we have attempted to do in this legislation, to provide a counter to immediate threats but also ensure that we spend money wisely, with the ultimate goal of producing a technology that works, not fielding a technology that doesn’t work.

Let me first discuss the threat that we face before us immediately. It is most easily divided into the theater threats, short-range, less than 1,000 kilometers, and medium range, 1,000 to 3,000 kilometers, and then those national threats, ICBMs that can travel more than 5,500 kilometers.

You can see there is a large number of countries that have theater missile capability, and it is growing each and every day. These are the threats that immediately challenge our troops in the field, that immediately involve American interests through our forces and our allies throughout the world.

When you go to the area of national missile defense, we know the Russians have thousands of missiles, the Chinese approximately 20, and then it is uncertain, frankly. As we all know, there is a strong suspicion that the North Koreans have that capability. There is certainly an indication of other countries’ capability, but it is unclear to us, and it should be clear to the American public, that the great, immediate threat that should prompt our immediate response is in the area of theater missile defense. This authorization responds to that grave theater missile defense threat.
It responds also to the national missile defense threat by continuing to support robust funding for research and development.

Let me give an overview of the funding levels that we have recommended for the ballistic missile defense program. It is good, I think, to begin with our baseline, which is last year’s authorization: $5.1 billion overall—national missile defense and theater missile defense, as indicated on this bar graph. The “other” category simply refers to other nonspecific BMDO-wide activities such as program operation and other generally supporting programs. The request by the administration was $8.3 billion, about a 60-percent increase, the largest request for any particular category in this DOD authorization. In this chart, you can see roughly the breakout between “other,” national missile defense, and theater missile defense.

After very careful consideration of each and every program, after hours of hearings and discussions with the officers in charge of BMDO, and other officials, we made adjustments unrelated to the debate about the Anti-Ballistic Missile Treaty, related simply to several principles that are important.

Avoid contingency deployments—avoid deploying equipment that has not been tested and we are not quite sure will work. Do not fund activities that cannot be executed this year. We have scarce resources. We are about to mount a worldwide campaign against terrorists and we don’t have the troops, the equipment, and the terrorists who struck us and to fund things this year that cannot be performed when we have other glaring needs, to me is not the way to spend our money wisely and to support our troops appropriately.

Also, to avoid excessive nonspecific funding, requests for large amounts of money without any real plan to spend it—the sense I got from listening to the Administration is that they will figure out what they are doing on the run.

That is the way to develop a system that is going to protect the United States.

Finally, avoid an undue program growth rate—programs that have been moving along with good progress and suddenly are going to be accelerated without justification for the acceleration.

Those are the principles we used to decide program-by-program adjustments we would be making.

The effect was to reduce the overall budget to $7 billion, almost $2 billion more than last year’s authorization; specifically, to increase theater missile defense by $800 million, the immediate threat, while reducing the administration’s request for national missile defense yet still increasing that budget by $1.1 billion. This was a robust authorization for ballistic missile defense.

The committee decisions have been impacted, of course, by what we did last week. In the manager’s amendment, we added back the $1.3 billion we had cut. But we have given the President the opportunity to use this money for either national missile defense or for antiterrorism activity.

I hope he will look at what we have done, and while looking at the ability to deploy systems that aren’t ready and activities that can’t really be executed, the President wisely decided to spend that $1.3 billion for antiterrorism in the conduct of this campaign that threatens America today. If he does that, we will still be on the path to a strong national missile defense, and a strong national missile defense, but we will be able to affect the immediate crisis we face with more resources. I hope he makes that choice. The legislation we presented him after last week’s amendment will give him that choice.

Let me try to go into some detail about the recommendations.

Again, I hope the President and DOD will take our work and use it to form their views with respect to the additional $1.3 billion.

As I mentioned, we have increased theater missile defense by $526 million. We have tried to identify with surety well-defined programs such as the PAC-3 Program, which is just ready for deployment, and to fund them robustly. We have also tried to increase resources for the Navy Area Defense Program and the Airborne Laser to resolve emerging technical problems to keep them on schedule.

In addition to these programs, we have added $76 million to the administration’s request for the Arrow Missile System. The Arrow is a joint Israeli–United States project. These funds will help make Arrow interoperable with our forces. It is an essential part of the development. Today that is one of the few theater missile defense systems that is fielded and operational.

We have also gone ahead and looked at some of these ill-advised contingency deployments.

We save $390 million by not funding untested THAAD missiles, Navy Theater-Wide missiles, premature THAAD radar, and Airborne Laser components. We save over $200 million by rationalizing the Navy Theater-Wide test and radar development programs while funding tests for Block 1 missiles and asking the Secretary of Defense for future plans on Navy Theater-Wide.

When it comes to national missile defense, I also pointed out that we have increased last year’s authorization by a total of $1.1 billion. It would fund a new midcourse test bed. It would provide 25 percent more for NMD, but it would save over $500 million by moderating growth in the NMD system and reducing funding for nonexecutable programs—those programs which we think, after careful analysis, cannot be completed in this year’s authorization.

We also have saved over $500 million by reducing excessive funding for activities not associated with specific programs—essentially large categories of money with very little justification. All of this money can now be used, pursued, the administration of last week for counterterrorism operations, all the things we know we have to do today, and I hope we do today.

We have also funded the request by the administration for a test bed in Alaska. Even though there is a great deal of controversy about the efficacy of this test bed to test missiles, even though there is a suggestion that it could be used for deployment which would raise issues under the ABM Treaty, we have tried to give the administration the benefit of the doubt by not only significantly increasing resources but also assuming that they are working very diligently not to arbitrarily move away from the treaty but to comply with it until they are forced otherwise.

This approach of giving the administration not only permission but authority to establish their test bed is again another commitment to do everything we can to promote research and development of a national missile defense system. As we go forward, we hope we can continue working closely with the administration.

Let me also point out that our response to the proposal by the administration for missile defense was prompted not by an ideological approach to BMD but by a desire to see a program that works. We tried to base our judgments on the experience of these programs before.

One of the most influential aspects of our review was considering the report of General Welch, the former Chief of Staff of the U.S. Air Force, who conducted a thorough study of the THAAD system, the theater high-altitude system. A few years ago, this system was going nowhere, with uncompleted test failure. General Welch was asked to come in and look at the program, analyze its faults, and point out whether it could be saved and how it could be saved. His conclusions were very instructive to our deliberations.

First of all, the Welch panel, set up by the BMD office to look at the failure in this theater high-altitude program, concluded that the THAAD program’s “rush-to-failure” was caused in part by the decision to buy operational missile systems early. That was the key factor in the difficulties of this program. Until they got back to careful, thorough development with requirements and objectives, this program was in danger of failing. If it failed, it would cost us over $1 billion.

The same logic was echoed by GEN Kadish, director of BMDO, when he testified that “emergency deployments are disruptive and can set back normal development programs by years.” That is precisely what the administration was urging us to do in this authorization—to accelerate deployment before...
we had done the testing, to buy miss-
iles that were untested, to rush to failure.

I argue very strenuously that if the pro-
gram adopted by the administration is to simply take this $1.3 billion back and plug it right back into this pro-
gram, it will be a rush to failure, and it will defeat what we all want to see—
the immediate deployment of effective theater missile defenses and the im-
deployment, subject to considerations of international law and treaties at this point, of an effective national missile defense.

Until we have the testing and the de-
development completed, deployment is something that is both premature and ul-
timately harmful to the program de-
velopment. The program should be
careful and deliberate, and we hope ul-
timately successful. As the Welch re-
port concluded, attempting to deploy mini-
missile capability now in hard capabil-
ity “is unlikely to be productive for pro-
grams of this complexity. The drive for
early capability is proving to be coun-
terproductive.”

I hope the administration takes these
words to heart. Much of what we sug-
gested in terms of funding reductions was based upon this logic—the logic of seasoned professionals who looked closely at this program and who want these programs to succeed but under-
stand that they have to be done thor-
oughly and carefully, and not rushed to failure.

As we go forward, we will, I am sure,
continue this debate about national missile defense and ballistic missile de-

fense, and a host of other issues. I hope and I know the full Senate has the
same type of very constructive and very helpful debate that the members of my subcommittee and the members of the full committee had because I think it is important to have this type of open and free debate as we go forward about issues. We have tried to do this, and we have tried to do it thoroughly. I believe we have produced, at the sub-
committee level, and the full com-
mittee, a thoughtful and very logical and very defensive product.

Today we are in this Chamber pre-
senting the administration with the
opportunity to use these resources to
counter terrorism or to go back and in-
vest in programs of dubious immediate efficacy and efficiency and worth for the
national defense. Again, I hope that the administration does this.

Let me just make brief comments
about the situation with respect to the
ABM treaty which, I point out, was
separated from the logic of this discus-
sion.

Regardless of the existence of an
ABM treaty, our responsibility is to
look closely at every one of these pro-
grams and to conclude which ones have real value for national defense and which ones are simply not worth the effort in terms of the resources com-
mited this year. We did that—regard-
less of the existence of the ABM treaty. But the ABM treaty is a factor that
has to be considered when you talk
about national missile defense.

The point I make is that many things changed on September 11. One thing
that changed is the appreciation, I be-
lieve, by all of us and the administra-
tion that we need the help and the co-
operation of the world community to
defeat the terrorists, to root out these networks out and de-
stroy them.

In that context, I suggest and advise
that it would be very counter-
productive for immediate and unilat-
eral departure from the ABM treaty, be-
cause of the consequences it would
produce. That advice, I hope, is taken to heart by the President.

The President clearly has the author-
ity today to withdraw from a treaty.
We attempted—and we continue to at-
tempt—to provide a forum for this Senate at least to consider a proposed departure from the
ABM treaty. But until that other legis-
lation is considered, and perhaps passed, it is clear that the President has this right.

But today, as we assemble a world
colalition to fight people who have
harmad us—grievously—I would think
that he would be very careful not to
withdraw because we need the support of many nations. I think it is particu-
larly inappropriate and premature to
do that since I believe we do not have the technology today that will, in fact,
be capable of deployment within the next few months, perhaps the next few years.

While we are developing the tech-
nology, we should be very careful about
undermining the stability of inter-
national relations, particularly at a
time when we are reaching out to na-
tions across the globe, including our
European allies, including Russia, in-
cluding China, asking them all to stand with us and to trust our judgment and
our leadership as we go forth to
counter and destroy the common
enemy, the terrorists in the world.

So I believe among the many things
that have changed on September 11 is
the attitude that was demonstrable in the administration that we can go it
alone, that we don’t need many other
people; it is our way or the highway.
We are now on a common path, we
hope, to overcome and defeat the ter-

tors. This is not time to debate the language that was embodied in the
original version of the bill which
passed the committee, I do hope there is a more appropriate time soon.

We assembled today at a
momentous time in our history. All of
us are committed to giving our Depart-
ment of Defense every resource it needs to
defend this country and, most spe-
cifically, to destroy those who at-
tacked us and attempted to destroy us.
It is in that spirit we continue these
deliberations. It is in that spirit we
will pass this legislation. And it is in
that spirit we will triumph and prevail.
Mr. President, I yield the floor.

The PRESIDING OFFICER (Mr. Car-
per). Under the previous order, the
Senator from Alabama is recognized.

Mr. WARNER. I ask my colleague to
defer for a moment so that I can recog-
nize the valuable contribution of the
Senator from Rhode Island.

Mr. SESSIONS. I defer to the rank-
ing member.

The PRESIDING OFFICER. The Sen-
ator from Virginia.

Mr. WARNER. I thank the Senator.
We recognize the Senator from Ala-

bama is next to be recognized for an
opening statement.

I commend our colleague from Rhode
Island first for his hard work through-
out the years on the committee on
which he has served from the first day
he came to the Senate, and most par-
specally now in his capacity as the
chairman of the subcommittee, which is
a very important subcommittee
dealing with many issues. I thank him
for his work with Senator LEVIN and
myself as we worked our way through
the resolution of some issues that were
very important to him. I thank the
Senator very much.

Mr. President, I will keep on my
desk, as will the distinguished chair-
man, a list of the amendments which
are now coming in. I am pleased to say
we are down to where there is a single
person who is examining the possibility
of the UC request shortly to be pro-
bounded on the question of putting in
the amendments for consideration by a
certain time today, so we can hopefully
complete this bill tomorrow night.

My understanding is that at the con-
clusion of the remarks of the Senator
from Alabama, we will turn to amend-
ments; and in all probability, our dis-

guished colleague from Kentucky will
be recognized for just an additional
minute without losing his order for
recognition?

Mr. SESSIONS. I am pleased to yield.

The PRESIDING OFFICER. The Sen-
ator from Michigan.

Mr. LEVIN. I thank the Senator from
Rhode Island for not just his opening
statement, which is always extraor-
dinary and thoughtful, but also for his
magnificent work as the chairman of
the Strategic Subcommittee. They are
both invaluable. I thank him very
much for that.

Mr. REED. Mr. President, may I say
what a privilege it is working with
Chairman LEVIN and the ranking mem-
ber from Virginia. Mr. WARNER. The Senators
have led this Senate with great distinc-
tion.

The PRESIDING OFFICER. Under
the previous order, the Senator from
Alabama is recognized.

Mr. SESSIONS. Mr. President, I am
pleased to express my appreciation to
Senator LEVIN and Senator WARNER
September 24, 2001

CONGRESSIONAL RECORD—SENATE

17745

and to all others who have worked very hard to make sure we complete our work in this Chamber in a bipartisan way. We were very close to doing that on almost every issue that has come before us. But one issue did divide us; that was national missile defense. And Senator REED is one of the most knowledgeable and articulate spokesmen concerning that issue.

In my earlier statement, of which I am ranking member, I think Senator KENNEDY and I were able to reach an agreement on issues pertinent to seapower that both of us felt good about. It was not perfect; it was not what we would like; but with the money that was allocated to spend on seapower, I think we did a good job. Our problems simply were the lack of money and resources. And, indeed, I will mention a few things that we were missing as a result of that.

President Bush campaigned that he would improve the situation for our defense people and our defense budget and do some things that needed to be done. If you look at his budget, it represents an historic improvement and increase in defense. This appropriation bill we are voting out today totals $328 billion. Last year, we were at $296 billion. That is a $30 billion increase, plus a $6 billion supplemental we passed. It means a $38 billion increase in defense this year over last year.

That is the biggest increase in probably 15 years in defense. It represents a long overdue step. It was done before we had these terrorist attacks. And it represented a consensus by the administration and their representation to the Congress on the needs of our defense budget. So we made a big step forward, and we are happy about that. We spent a good deal of that money on a number of things, such as a 5-percent per year increase in the pay rate; 6- to 10-percent pay raises for people in critical positions; a $232 million increase in the housing allowance for families—increased funding for housing—an increase for national missile defense, and a number of other increases.

So we are proud of those things. We are proud of the overall increase in the defense budget. However, our defense budget still, as a percentage of our GDP—our total gross domestic product—is far less than it was in the 1980s. At a time when we are seeing increased threats to our ability to function in the world as a result of terrorists and rogue nations, we are going to have to increase the budget in the years to come.

The biggest thing we were not able to do in this budget—and the American people need to understand it—we did not make enough progress in recapitalization, replacing old and worn-out equipment such as tanks, aircraft, and ships; nor did we do enough in research and development of new equipment for the future. We did not make enough progress despite a very significant increase in defense this year.

We are going to have—we approved the other day—an additional $20 billion for defense, most of which—virtually all of which will be spent for the terrorist problem we are now facing. With some of the money to strengthen our Defense Department for other issues, but most of it, indeed, will go to a terrorist response. That is not going to leave us in a significantly stronger position.

If you count that, we are looking at a $38 billion increase over last year. From a financial point of view, we did pretty well. From a procurement point of view, most of us are somewhat concerned.

For example, in the Seapower Subcommittee, of which I am ranking member, we were wrestling with a Navy that now has about 315 ships afloat out there. At one point in this country not too long ago, we were talking about a 600-ship Navy. Along with everything else, we have had a steady reduction in funding for ships. In this budget, we are going to have six new ships approved, which is good—they are expensive, every one of them—but that will not stop the decline. Our estimates from our Navy people are it takes eight to ten ships a year to maintain the current level of 315 ships. So we are still on a downward slope for ships.

At some point, you just have to have a ship on the sea to be able to project American power in areas around the globe. You have to have a certain number. Many of them have to be in home port to be repaired. The sailors need to be home at various times. They need to respond to various crises in different places. It does not leave you that many ships; in some places, they are not there at a given time when they are needed. Seapower is a good example of our inability to be as effective in procuring capital assets for our defense as we would like to be. I wish I had a more positive story to tell there, but I don't.

One defense official recently said that it was like a bow wave in front of a ship, this procurement need. We are just pushing it in front of us. Sooner or later, we will have to confront it. Another defense official in the Clinton administration said we are in a death spiral. What he meant by that was, we are trying to keep afloat and keep operating equipment and airplanes and ships that need constant repair, and they are getting older and older. We want out of a system that is not feasible, that won't work.

One defense official recently said that it was like a bow wave in front of a ship, this procurement need. We are just pushing it in front of us. Sooner or later, we will have to confront it. Another defense official in the Clinton administration said we are in a death spiral. What he meant by that was, we are trying to keep afloat and keep operating equipment and airplanes and ships that need constant repair, and they are getting older and older. We want out of a system that is not feasible, that won't work. We have to get started on building it. A $3 billion increase in national missile defense spending is a reasonable increase when that is the one gap we saw in our defense budget. And, indeed, Assistant Secretary of Defense Paul Wolfowitz, in his testimony,
talked about the Gulf War. He said: If you look at the Gulf War, you could see that in many ways we overestimated our enemy's capability. And, in fact, we overestimated our own capability in virtually every area except one. The one we did not consider enough was his ability to launch missiles, Scud missiles, if you remember, into our military bases and troops out in the field and into Israel and perhaps even in virtually every area except one. The one we did not consider enough was his ability to launch missiles. People say we have a theater missile defense, we do have a theater missile defense. The Russians want to extract compromises from us, and we all understand that. So the President deals with them and works and increases our relationship with Russia, and the mutual interests get furthered. I thought we were on the road to making an agreement with the Russians. They have said some things that indicate they would agree. The Europeans, after initially being opposed, have warmed up to the idea quite considerably. About the only place left that we are having problems with is the U.S. Senate. The House is on board with this, but we are still having some problems here. So there was language in this bill—and the reason I and others voted against it when it came out of committee—which said that if the Russians didn't agree to allow us to build a national missile defense, the President could not go forward, but had to come back to Congress and ask for another treaty. Whereas, under the ABM treaty, the President has personal unilateral power to wipe out the treaty. But if they did agree, the President could go forward. To me, that is an odd thing for the Congress to do—to cede our power to build a national missile defense system to the Russians, to have them have a veto over whether or not we have a missile system deployed. I don't think that was good.

I am glad that this compromise language came out. I am very, very happy that it came out. It is something I don't think we should have done.

As a former Federal lawyer, I think about the legal situation here. The treaty prohibits us from deploying a national missile defense system, the President of the United States at that time, President Clinton, signed that legislation, and the President of the United States today, President Bush, is on developing and deploying one, and we are funding the money to carry one out, we ought to be honest enough to say we are moving to contradiction of the treaty, if we have not already.

We have the intent to deploy a national missile defense system, which is contrary to the treaty. So the President either has to get out of it, or the Russians need to agree to that. Hopefully, they will agree. If not, we need to move on because we have to protect ourselves. We can't let a 1972 treaty with an empire that no longer exists protect us from protecting ourselves from other nations around this world who have the ability to launch missiles that could hit us. It is just that simple. The President said that the language that is in the bill. I salute those who worked hard to make it acceptable.

I will just mention a couple of things in general about this legislation. Secretary Rumsfeld is committed to transforming our military. Certainly, the events of September 11 should make us doubly committed to that goal. The old system of defending against a Soviet attack on the planes of Europe is not what our threat is today. We need a transformation that has more mobility, the ability to move our equipment, to disembark it around the globe. This is what the transformation plan was about that he has pushed, which was in discussion and agreement, really, by all of us before September 11. It was that we be more mobile, have more agility, that the weapons systems and equipment we use have more abilities to perform different functions. It would be more lethal with the smart bombs and the kinds of things. A single round, a single bomb, could be much more directed and effective in its attack.

We needed better surveillance and reconnaissance and intelligence information, and we need a modernized command and control system. Those were the goals of transformation. I believe this legislation supports that, although perhaps not as much as I would like. I would like to believe that the quadrilateral defense review coming out of the Department of Defense within a few weeks, and Secretary Rumsfeld's own internal review, will further push our services to go forward to a transformation to a world that is quite different than the one we have had—part of the world that no longer exists.

I am concerned that we may not have enough money in this budget for smart weapons of all kinds—the kinds we saw in Kosovo that could go in the window of a building. We need an adequate supply of those weapons, but the new funding—the $20 billion we approved—should be able to fill those needs. But
CONGRESSIONAL RECORD—SENATE 17747

September 24, 2001

we have to watch to make sure we have a sufficient supply of those. I don’t think we have been operating at the level we should. We are closer to minimum training rates for production of those kinds of weapons; whereas, we could get the weapons cheaper if we increase the production level.

I thank Chairman Levin for his leadership and dedication, and I particularly thank Mr. Warner, our ranking member, whose advice and wisdom I have called on frequently and value highly.

I believe we have a bill here that is good. But we remain challenged as a nation. Our challenge remains that we have to consider how much more we are going to need for defense, because this remains a dangerous world.

The PRESIDING OFFICER. The Senator from Virginia.

Mr. WARNER. Mr. President, I wish to commend our distinguished colleague from Alabama. He is a tireless worker on our committee and a great watch on taxpayers’ dollars. I especially thank him for his reference to the work done by the full committee, and indeed others subsequent thereto, to resolve such issues as we had during the course of the markup on the missile defense system. He has been a keen observer and a strong contributor to America’s ability to prepare itself against a limited attack. I thank the Senator.

The PRESIDING OFFICER. The Senator from Kentucky is recognized.

AMENDMENT NO. 922

Mr. BUNNING. Mr. President, I send an amendment to the desk.

The PRESIDING OFFICER. The clerk will report.

The bill clerk read as follows:

The Senate from Kentucky [Mr. BUNNING] for himself, Mr. LOTT, Mr. DOMENICI, Mr. BINGAMAN, Mr. CRAIG, Mr. BURNS, Mr. Hutchison, Mr. LEVIN, Mr. MURkowski, Mr. SMITH, Mr. SASSER, Mr. SNOWE, Mr. BACUS, Mr. COCHIN, Mr. CONRAD, Mrs. HUTCHISON, Mr. STEVENS, and Mrs. CLINTON, proposes an amendment.

(Purpose: To strike title XXIX, relating to defense base closure and realignment)

Strike title XXIX, relating to defense base closure and realignment.

Mr. BUNNING. Mr. President, I thank the chairman and ranking member of the full committee for giving me an opportunity to offer this amendment on behalf of 20 cosponsors. This amendment is a straightforward amendment.

The underlying bill authorizes a base closure realignment in the year 2003. This amendment simply strikes that language, that provision.

There are a number of good reasons why we should not move ahead with another BRAC at this time. Most important, there has always been the uncertainty as to whether or not previous rounds of BRAC have actually saved the military and the taxpayers any money. This has always been my main concern with proposals for future BRACs.

I will go further into this aspect in a moment, but right now I, and many others, have a bigger concern with future BRAC rounds, and it unfortunately relates to the terrorist attacks on September 11. Now more than ever, we should hold off further downsizing of our military infrastructure as we analyze how to fight the first war of the 21st century.

Last week, President Bush laid it all out for us. We are gearing up for war. It will be a different kind of war and different from any battles this Nation has ever fought. Its future is unknown. The course of the conflict is uncharted. The strengths we will use and need are unforeseen.

The President has warned us that victory is not going to come quickly and it is not going to come without casualties, paid, and our will and resources will be tested, probably for many years to come.

The fight will require force. It may require more and a different kind of training at our military posts and bases. This war may change from the United States battling only terrorist organizations to the United States battling armies of nations harboring terrorists.

Because of this uncertainty, it is unwise to begin handing away our military infrastructure. I am not here to chant gloom and doom. I know in the end we are going to triumph over evil, but at this point in time, we have to ask a fundamental question: Is now the time to cut bases and to reduce our military infrastructure? The answer is a clear and resounding no.

President Bush said recently the course of this conflict is unknown. If this course is unknown, then it must be prudent to move ahead with another BRAC round until we have a clearer picture of where we are going and how we are going to get there. Now is not the right time to further authorize the reduction of our military infrastructure.

More than ever, we must focus on security and how to maximize our resources. We should not leap before we are even able to look. We are venturing into the unknown and attempting to survey the landscape of 21st century warfare. We should not go blindly or with one hand tied behind our back in the name of so-called efficiency and cost savings.

During markup of this bill, the Readiness Subcommittee heard from our professional staff on the BRAC issue. They were unable to pinpoint any definitive cost savings from the prior BRAC rounds. In fact, they could not provide any firm details because DOD could not provide them definitive numbers from previous BRAC rounds.

We have heard talk about so-called savings numbers from DOD here and there, but when the rubber hits the road, DOD is unable to provide these savings with cold, hard numbers. I and many others have asked the Department of Defense many times to provide detailed data showing savings from previous BRAC rounds. If it is there, we should definitely take a look at it, but until we see real numbers, supportive and another BRAC is only a shot in the dark.

CRS, CBO, and GAO have all been asked to find real savings, and they also have had a tough time finding consistent and detailed savings numbers. Their support and BRAC projections and predictions as their source, but they admit that DOD has been unable to document any detailed underlying savings.

We all support efficiency in not only our military but throughout the Federal Government. But after the attacks of September 11, the landscape for me and others has changed from one of efficiency to one of security. In these turbulent times, we need serious numbers before we can even contemplate another BRAC, let alone approve it.

In conclusion, it seems to me at this point that it would be foolish and dangerous to go ahead with another BRAC. When you boil it down, it is pretty simple: We are entering a new type of conflict in which we are not sure what resources are going to be needed. So how can we take a chance on eliminating resources that may be vital to our struggle against terrorism? In fact, last week, the House of Representatives withdrew a BRAC amendment to their fiscal year DOD authorization bill. It is clear that support in the House for another BRAC round evaporated after the attacks of September 11.

If the Senate bill includes another BRAC round, this could make for a contentious issue in conference, and now is not the time for prolonged contentious debate.

I ask my colleagues’ support for this amendment. In light of the September 11 terrorist attacks, I urge the Senate to act prudently and carefully. Authorizing another BRAC round is neither. I urge my colleagues to support this amendment.

I want to read from Secretary Rumsfeld’s letter of September 21. I want to read a portion of it because it says in the third paragraph: “While our future needs as to base closure are uncertain and are strategically dependent, I would say we must simply go ahead and do it, firmly and strongly disagree with Secretary Rumsfeld. If base closures are uncertain and strategically dependent, then now is not the time when we are planning for a full, all-out war against terrorism.

I yield the floor.

The PRESIDING OFFICER. The Senator from Virginia.

The PRESIDING OFFICER. The Senator from Virginia.

Mr. WARNER. Mr. President, I thank our distinguished colleague from Kentucky for his remarks. He is a very valuable member of our committee, and he straightforwardly told us from the
very first he would be in opposition to the BRAC procedure. The opposition he indicated preceded indeed the crisis we now face as a consequence of the tragedies of September 11. It is fresh in the minds of those Senators and others following this important debate. He read from a letter, and I shall put the letter in the RECORD. It is addressed to me from the Secretary of Defense and I will read it in its entirety momentarily. But he quoted:

While our future needs as to base structure are uncertain and are strategy dependent, we must simply have the freedom to maximize the efficient use of our resources.

Freedom, in a sense, goes directly to what he said. The bill very carefully and simply puts in place, in the hands of the Secretary of Defense, the authority to go forward with such legislation if he deems it necessary at some future date. So the Senate will be asked to make a decision of deleting this provision or sustaining the committee report and bill and thereby just put in place the authority for the Secretary to do the following: If the President does not transmit to Congress the nomination for appointment to the commission on or before the date specified for 1993 in clause 2 of subparagraph B, for 1995 in clause 3 of that paragraph, or for 2003 in section 4, the process by which the military installations may be selected for closure realignment under this part will with respect to that year shall be terminated.

So what we are doing, in a sense, putting aside all of that technical language, is simply giving the Secretary of Defense the authority to proceed. I support it from the committee, and I support it now.

I say to my good friend, after discussion with him and others, I thought as to whether or not we should proceed to put in place on a standby basis the authority. I reflected on the many rounds of base closures in which I have had personal experience. As a matter of fact, I was the author of the legislation involving several previous BRAC rounds. Going as far back as when I was privileged to serve in the Department of Defense, those days a service secretary could initiate the BRAC procedures and did so and closed such major installations as the Boston naval shipyard. That was, I believe, in the 1971–1972 timeframe. So I have had a long history with the BRAC procedures, the goals of BRAC, and I reflected on whether or not I would support the BRAC when this bill came to the floor, and I do so.

My concern was much along the lines of our distinguished colleague from Kentucky. America is experiencing a callup of the Reserve and Guard units. America sees our Nation faced with a great many uncertainties and challenges never before faced, the complexity of the foreign policy considerations, the implications flowing from the tragic events of September 11, without parallel in our history. So why should we at this point in time critical to our national defense and that to help our allies and friends be facing these issues? I long ago made the decision, before we took it up in committee, we would not have 2 years; we would only have the one, and I told that to the Secretary of Defense, and indeed when they came before the Congress they had selected the single year because BRAC brings upon a community a tremendous amount of unsettling factors, particularly in the towns and cities where we have bases. It is home for so many of the men and women of the Armed Forces and civilian workers. It is an unsettling thing from their economic standpoint. They are planning for the future and for business, and to change their head is a difficult situation.

Most communities will go out and expend a considerable sum of money to hire experts who have been through the complicated procedures that BRAC thrusts upon the communities to assist them in stating their claim, as they have a right under the law for continuing to have those military facilities open and not have them the subject of a possible future closure by a base closure commission.

Having thought all through that, I personally talked to the Secretary of Defense and I reiterated these arguments to him. I think it was not more than a day or two after September 11 because I have had an opportunity to visit with him on a number of occasions—and Deputy Secretary Wolfowitz—and I laid before them the fact we are calling up people, we are augmenting our forces, there is uncertainty, and the last thing we need is instability in those communities which provide a home for the men and women of the military.

So I said: I would like to have you send a letter to me, if it is your desire that the Senate proceed to ask for a vote in favor of the bill as now written, and he wrote me on September 21. I will read it because it is very important.

Dear Senator Warner: I write to underscore the importance we place on the Senate’s approval of authority for a single round of base closures and realignments. Indeed, in the wake of the events of September 11, the imperative to convert excess capacity into warfighting capability is enhanced, not diminished. The President has made clear that the Congress has provided additional billions of taxpayers’ funds to the department. We owe it to all Americans, particularly those service members whose situation this would significantly impact, to seek every efficiency in the application of those funds on behalf of our warfighters.

Our installations are the platform from which we will deploy the forces needed for the sustained campaign the President outlined last night. While our future needs as to the structures and facilities are strategy dependent, we simply must have the freedom to maximize the efficient use of our resources. The authority to realign and close bases and facilities is the centerpiece of ensuring the right mix of bases and forces within our warfighting strategy. No one relishes the prospect of closing a military facility. But as we are seeking the authority to do so, but as the President said last evening, ‘We face new and sudden national challenges,’ and those challenges will force us to confront many difficult choices. In that spirit, I am hopeful that Congress will approve our request for authority to close and realign our military base facilities. Thank you for the opportunity to provide our views in this important matter.

Other Senators are anxious to address this matter, and I may reenter the debate subsequently before we proceed to a vote, but I assure the Senate this Senator deliberated long and carefully in making a decision to continue my support. I have given the request by the Secretary simply to put in place the necessary authorization to proceed. If it is his judgment and that of the President to do so some months ahead, then I think it is important we proceed because we have an obligation to the American taxpayers that those dollars that are authorized and appropriated for the Department of Defense be spent very wisely. Subsequently, I will address the question of savings, but my calculation is, the 152 major closures and realignments resulting from the BRAC procedures of 1988 through 1995 will save the Department $14.5 billion by 2001—that fiscal year is about to end and $5.7 billion every year thereafter. There is additional information on the savings which will be placed into the RECORD.

I yield the floor.
September 24, 2001

CONGRESSIONAL RECORD—SENATE

A recent GAO report released in July of this year underscores how costly base closures can be and how ephemeral the savings estimates may be. The base closure program, for example, exclude over $1.2 billion in costs of Federal assistance provided to affected communities. These are costs paid by the Federal Government but not out of the BRAC budget accounts. Some of the environmental cleanup costs were the direct result of the first four BRAC rounds. We ought to be doing a better job of environmental cleanup at our bases, whether they are open or closed. However, we can’t ignore these significant costs. These are considerable costs which only continue to grow, often not counted, as costs associated with closing bases.

There is another more fundamental reason I oppose the BRAC language in this bill. Simply put, BRAC is the wrong process for identifying bases for closure. If the Pentagon believes certain bases are no longer needed, those installations should be identified and included in DOD’s budget submission. There is no need to cast a cloud of uncertainty over every base in virtually every community hosting a base all across this great Nation.

Senator Snowe and I can testify personally that BRAC is not the clinical, impartial process it is often made out to be. Rather, the BRAC process in the past has been highly politicized and it remains susceptible to political pressure in its current form in this bill. While I recognize the need to reduce proven excess capacity, the BRAC procedure has been unfair in the past. It has not produced the savings anticipated by past rounds of closures, and it could at a critical time result in degraded readiness for our Armed Forces.

I will continue, therefore, to voice my strong opposition to closing rounds of base closures. I will continue to work to ensure that critical assets and training capacities provided by our existing force structure and infrastructure are not lost. Now is certainly not the time to create chaos, concern, in every community that has proudly hosted a military installation. Now is certainly not the time to embark on another round of base closures, when all of the energies of our civilian and military leaders must be focused on the overriding goal of crushing the global network of terrorists intent on harming our great Nation and its citizens.

I urge support for the amendment of the Senator from Kentucky.

I yield.

THE PRESIDING OFFICER (Mr. DURBIN). The Senator from Arizona.

Mr. MCCAIN. I intend to speak at greater length later on on this issue. It is very clear, the opinion of Members of this body, including those just articulated by the Senator from Maine who, among other things, said there has been no savings, when we have ample documentation that they have achieved net savings of $15 billion by the end of this fiscal year from the previous base closure rounds, with another $6 billion in savings each and every year thereafter.

What we are really talking about is an opinion held in the Senate, which I respect, for which I have admiration, and for which I have great respect for the individuals who are opposing the base closing round. The fact is, at a time when we rally around the President of the United States and the Secretary of Defense and the men and women in the armed services, we are going in direct contravention to the views of the President of the United States, the Secretary of Defense, and our military and civilian leadership. It is clear.

That is really what this debate is all about.

As the Secretary of Defense wrote on September 21, to Senator CARL LEVIN and Senator JOHN WARNER:

We owe it to all Americans—particularly those members of our military families who our response will depend—to seek every efficiency in the application of those funds on behalf of our warfighters.

Our installations are the platforms from which we will deploy the forces needed for the sustained campaign the President outlined last night. While our future needs as to base structure are uncertain and our strategy dependent, we simply must have the freedom to maximize the efficient use of our resources.

Why is that? Earlier this year there was testimony before the Armed Services Committee by the people who are responsible for our installations. Do you know what they are saying? "We are in a slow death spiral," said Air Force MG Earnest Robbins II, the civil engineer for his service, who predicted the 2002 defense budget will include enough money only to handle the most pressing priorities.

The services have argued that the poor conditions of many facilities and the shortage of money to fix them are proof they must close unneeded bases.

What is going on here, is, because we have so many bases, we don’t have the funds to maintain not only their capabilities but the quality of life. The quality of life deteriorates when we do not maintain these facilities. Therefore, there is a requirement to close the unnecessary ones.

By the way, we will get into this argument about how we do it and whether it is politicized. I will submit for the Record and discuss, over time, clearly the fact that there is no other way to close bases. We went for many years until we came up with the Base Closing Commission.

But if you go out to any military facility, you will see that people have aging, not only installations at which they work but aging installations in which they live. It is because we simply have not enough money to go around to maintain all of these facilities.
So what does that translate into? Difficulties in recruiting, difficulties in retention. According to a study last year, the U.S. Army has had the greatest exodus of captains they have had in their history. What do they say? They say they do not put us in conditions in which we can live. We have men and women in the military living in barracks that were constructed in World War II and Korea.

An example of the problems, Robbins said, is at Travis Air Force Base, where routine operations on one runway had to be suspended because a 90-foot-long, 4- to 6-inch-wide crack has appeared.

The Navy has a $2.6 billion backlog in critically needed repairs, about the same as a year ago, because the budget did not include enough money to make up any ground, officials said. Navy people "are so used to operating and living in inadequate facilities that many accept them as the norm." The carrier berth at Norfolk Naval Air Station is a prime example. Structural deterioration of the berth has forced access restrictions that allow only emergency vehicles to park near the ships.

Marine COL Michael Lehnert, assistant deputy commander for installations and logistics, says his service does not even have enough money to assess problems at its bases.

Assess problems at its bases?

We are doing the right thing; we just aren't doing it fast enough.

At Camp Pendleton, the base sewer system, which spilled 3 million gallons of sewage into the Santa Margarita River last year, needs to be replaced. But that would cost $179 million—more than the entire $173 million construction and demolition proposal by the Marine Corps for 2002.

"The effects of underfunding only get worse as our facilities age," Army MG Robert Van Antwerp, Jr. said. He noted that the backlog has grown to $18.4 billion, a $600 million increase in 1 year.

We are asking these men and women to live and work in facilities that are, at best, substandard, in some cases absolutely abysmal, because we have too many of them. We have too many of them.

I will challenge the proponents of this amendment to find one military expert, active-duty or retired, who would not say we need to close unnecessary bases. I would like for the Senator from Maine to talk to GEN Schwarzkopf. He is a fairly well respected individual. I would like for him to hear all the former Chairmen of the Joints Chiefs of Staff. I would like for him to hear from all the experts on military readiness. All these people unanimously, without exception, will say we have too many bases and we need to reduce those numbers of bases so we can be more efficient, but also we can take the limited assets that we have and put them into the bases that remain so the people there would have the ability and the ability and the ability and the recreation, and living-wise, that would give them the standard of living of most Americans outside the military.

That is all we are asking. The President of the United States needs the flexibility to be able to do that. I know the President feels strongly about this. I know the Secretary of Defense feels strongly about it. I know how the Chairman of the Joint Chiefs of Staff feels about it. But do you know who feels most strongly about it? The squadron commanders and base commanders at these installations where they see their men and women suffering. It is not satisfactory. It is not satisfactory. They know it, I know it, and everybody else knows it.

I believe if we take this base closing amendment out of this bill, we will send a signal to the men and women in the armed forces and the civilians that that are necessary to fight this war on terrorism. The opening signal is business as usual, my friends. We will not even approve giving the Secretary of Defense the authority, through a base closing commission, to make necessary sacrifices—even if it affects our State; a base closing commission can clearly affect my State—that are necessary to fight this war on terrorism.

I admit there were some politics around the base closing. We have fixed this. Senator Levin and I have fixed this with this amendment so that is not possible. The body believes there can be any other process to eliminate these bases, then obviously the history of how we tried to do this in the past shows it doesn't work.

So I say this is a very important vote. It is even more important than whether we are going to have a base closing commission. This vote is really all about whether we are going to do business as usual and preserve our bases in our States, whether they are necessary or not, or whether we are going to have another commission so we can have the most efficient military machine to fight this long, protracted struggle, the opening salvo of which was fired on Tuesday, September 11.

This is a very important vote. I am glad to see the Secretary of Defense has made such a very strong statement, a very strong statement in support of this base closing commission. I hope the Members of this body support of this base closing commission. This vote is really all about whether we are going to do business as usual and preserve our bases in our States, whether they are necessary or not, or whether we are going to have another commission so we can have the most efficient military machine to fight this long, protracted struggle, the opening salvo of which was fired on Tuesday, September 11.

This is a very important vote. I am glad to see the Secretary of Defense has made such a very strong statement, a very strong statement in support of this base closing commission. I hope the Members of this body support of this base closing commission.

I yield the floor.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. REED. Mr. President, I rise to support the language in this legislation that would authorize another round of base closings. I do so, as we all do, knowing full well there are perhaps facilities in my home State that might be considered. I am confident and hopeful that, because of their critical role, they will continue to be vital parts of the Department of Defense. But every Senator is a bit nervous when we authorize a round of base closings.

Simply stated, we have too many facilities. We have a cold-war base structure. We have a post-cold-war Department of Defense. We have to reconcile the two.

I associate myself with the comments of the Senator from Arizona. The bottom line here, the effect that is most obvious from too many bases, is the deteriorating quality of life of the troops who serve in our Armed Forces.

I lived 12 years in the U.S. Army, from 1967 to 1979. There were facilities back then, in the 1970s, which the Army desired to close. Some are still open. There were facilities back then that were inadequate or barely adequate. They remain on the books of the Army. Troops are using them for their barracks. Family housing is being used.

Base closure is just common sense. When you have the demands of training, operational readiness, integrating new equipment, and then family housing, troop housing, and community facilities on Army posts and Navy bases or an Air Force base, something has to give. What typically gives are those quality-of-life items: The community center, the child care center, the library, family housing, and troop housing.

That is multiplied and amplified when you have just too many bases.

About 3 weeks ago, I traveled to Fort Bragg, NC, to watch the 8th Cavalry Division conduct live fire exercise for their division readiness brigade. Those soldiers are today on orders and on alert to go out and be the tip of the spear. I talked to the brigade commander, the division commander, the battalion commander, and the troops.

The one thing they said is they are proud to be in this division, and that one of the reasons they are is because the commanding officer, the division commander, the battalion commander, and the troops.

I do not say that Bragg is one of the primary posts in the Army it does quite well. They are getting ready to conduct massive reconstruction of family housing. They are reconstructing barracks. But they cannot do as much as they want.

When you go away from those major division posts, such as Fort Bragg, Fort
CONGRESSIONAL RECORD—SENATE 17751

September 24, 2001

Campbell, and other posts around the country and go out to other posts that do not have quite that high of a priority, the crisis is even more severe. It is then realized that Senator McCain indicated, in retention problems and in recruiting problems. It is manifested in quality of life which is not commensurate with the sacrifices these young men and women make for their country and so it has worked. Some who thought would not do this because there is not too many environmental flaws; that it turns out to be just a big environmental remediation project. Those environmental costs are not avoidable. It is mandated by law that the DOD, like everyone else, is responsible for serious environmental degradation. They have to pay for it. They are doing it right now on posts that are open and operating. It is not something you can throw into the mix and say don’t close the base because of environmental costs. The environmental costs for open bases. They have to be faced, addressed, and paid for.

For many reasons, I believe we have to follow through on the base closing language in this legislation. I think it is time to give the Department of Defense the flexibility to tailor their resources, to tailor their infrastructure, and to fit the mission that faces us today.

We have the best military force in the world. We will see them in action today. If we want to be efficient and effective, we have to reconcile our infrastructure today. If we need to be efficient and effective, we have to reconcile our infrastructure with our force structure. We are not going to fight World War II again—I hope. We are not going to fight the cold war again—I hope. But we have serious threats before us. Those threats require a faster, leaner military. Part of that efficient, leaner military is allowing the services to make judicial judgments about what real estate they need.

Yes, we have an imperfect structure in terms of base closing conditions. Nothing like that and in bases that some people thought would never be closed in our lifetime, or several lifetimes. So it has worked.

There are other arguments that no savings have been realized. As the Senator from Arizona pointed out, between $15 billion and $16 billion will have been realized by the end of fiscal year 2001 on these base closures. It is projected going forward that we will accrue an annual savings of approximately $6.2 billion. That is real money that has been saved and will be saved. It was suggested that we have already saved anywhere between $7.5 billion to $8 billion, and that going forward we might expect to save another $3 billion each year.

What would we do with that money? There are plenty of things to spend it on in this Defense authorization bill. I will just mention a few of them: Fighter aircraft that we are anxious to build; military airlift capability; cargo aircraft—either anxious to build or upgrade and improve—helicopters that need to be replaced, and ships.

Earlier we heard from the Senator from Alabama that 315 Navy ships continue to diminish. We need to build ships to replace those that are being decommissioned. We need to build submarines as well.

The President and others support the idea of developing and deploying a national missile defense system which will cost tens of billions of dollars. But even if we set aside those weapons systems and simply consider the aircraft and the ships that stay on the ground, with the helicopters that stay on the ground that are used just for cannibalization— we steal their spare parts to keep other ships and other aircraft and other helicopters flying, the ships that aren’t going to sea simply because they lack the spare parts that enable them to carry out their missions.

It has been suggested that in the wake of the tragedies in the last 2 weeks—the terrorist attacks in New York and Virginia—somewhere keeping military bases that are unutilized or underutilized open will enable us to be more vigilant against our enemies. I just do not see it. I just do not see it that way.

The language in the legislation before us today does not mandate the establishment of a base realignment commission. It provides the discretion to the President and to our Secretary of Defense, if they see fit, to appoint the members to serve on a commission. As Senator McCain has suggested, the language in this legislation is crafted in a way to take the politics out of whatever might be done with respect to base realignment.

If the President and if the Secretary of Defense elected to use the discretion provided for them in this legislation, they would ultimately establish the commission, and that commission would ultimately come back to us in this body and in the House of Representatives in order to have the final say, the final word, as to whether or not the bases recommended for closure be closed. We have the final word.

I believe it is prudent for us, in a day and age when we do have substantial needs for additional weapons systems—upgraded weapons systems, and to
make the ones we already have workable—to look for some opportunities to save not just a few dollars but a substantial number of dollars. The potential in this bill, with this approach, is very real.

With that, Mr. President, I urge my colleagues to support the language the committee has reported out, and also to support our President and our Secretary of Defense, as well as our military leaders, who have sought just this kind of authorization.

I yield back my time.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. REID. Will the Senator from North Carolina allow me to propound a unanimous consent request without you losing your right to the floor?

Mr. DORGAN. I have no idea what the Senator from North Carolina would say, but the Senator from North Dakota are to yield.

Mr. REID. I am so sorry.

Mr. DORGAN. They both start with “North.”

Mr. REID. That is why they should change the name to “Dakota.”

The PRESIDING OFFICER. The Senator from Nevada.

Mr. REID. Mr. President, first of all, I am going to propound a unanimous consent request. We have been talking now for a couple days about having a final cutoff time for amendments, telling Senators that they have to give both Cloakrooms amendments so we know how many. We need a finite list of amendments. We have been going back and forth on this. We want to move this along. This is the country’s bill. The President is very interested in getting this passed as quickly as possible. Unless we work out something on these amendments, we will never finish this bill. So this is the purpose of this unanimous consent request.

I ask unanimous consent that the list I will send to the desk be the only first-degree amendments remaining in order to S. 1438, the Department of Defense authorization bill; that these amendments be subject to relevant second-degree amendments; that upon disposition of all amendments the bill be read a third time and the Senate vote on passage of the bill, with no intervening action or debate.

The PRESIDING OFFICER. Is there objection?

Mr. ALLARD. I object. Mr. President, I might explain.

The PRESIDING OFFICER. Objection is heard.

Mr. ALLARD. I understand there are a couple Members yet on our side who are still trying to get on it. I am not sure whether we have those issues resolved or not. As soon as Senator WARNER returns to this Chamber, we might be able to get a final agreement on that.

Mr. REID. Mr. President, I would say we are losing ground. A little while ago we only had one Member who was concerned; now we have two. This has been going on literally all this day. I repeat, I certainly understand the point by my friend from Colorado, but the fact is, we need to move this legislation. This does prevent anyone from offering an amendment. They can offer amendments to their heart’s content. But we need a list of finite amendments so the managers can work on these amendments to move this legislation forward. I think it is really too bad that we can’t get a final list of these amendments. Senator WARNER and Senator LEVIN have worked very hard on this legislation. It is important—I refer to this institution and to the country to get this legislation passed.

So I am very disappointed we were not able to do this. I hope we can do it at some subsequent time. And I hope that subsequent time is not far in the future.

Mr. President, I ask unanimous consent that the list that I will send to the desk at 9:30 a.m. tomorrow, Tuesday, September 25, following the usual opening activities, the Senate resume consideration of S. 1438, the Department of Defense authorization bill; that there be 15 minutes remaining for debate prior to a motion to table the Bunning amendment, with the time equally divided and controlled in the usual form, provided no second-degree amendments be in order prior to the vote.

I would say, before I put this to the Chair in final form, that the managers of the bill are being very gracious in doing this. People tonight can debate this amendment as long as they wish. Either manager, or any anyone else, of course, could move to table at any time. So I think this is certainly generous on behalf of the two managers. People would have all night tonight to debate. We would come in tomorrow morning and have a vote on a motion to table. So I propound this request.

The PRESIDING OFFICER. Is there objection?

Mr. BUNNING. I object. The PRESIDING OFFICER. Objection is heard.

Mr. REID. Mr. President, I again—

Mr. BUNNING. May I state my objection?

Mr. REID. I am very disappointed we were not able to discuss this amendment as long as they wish. Either manager, or anyone else, of course, could move to table at any time. So I think this is certainly generous on behalf of the two managers. People would have all night tonight to debate. We would come in tomorrow morning and have a vote on a motion to table. So I propound this request.

The PRESIDING OFFICER. Is there objection?

Mr. BUNNING. I object. The PRESIDING OFFICER. Objection is heard.

Mr. REID. Mr. President, I again—

Mr. BUNNING. May I state my objection?

Mr. REID. Of course.

Mr. BUNNING. I really have not had a chance to talk to the minority leaders.

Mr. REID. OK.

Mr. BUNNING. As soon as I speak with him, I will get back to you.

Mr. REID. I express my appreciation to the Senator from Kentucky.

Mr. BUNNING. Thank you.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. DORGAN. Mr. President, this amendment deals with an issue that is not new to any of us. We have long debated the issue of base closures and the establishment of a BRAC commission for the purpose of base closures. In fact, we have had previous base closure rounds in 1988, 1991, 1993, and 1995. In those rounds, 451 installations, including 97 major installations, were ordered closed or realigned by the year 2001. And the last two big installations, Kelly Air Force Base and McClellan Air Force Base, were closed this past summer.

Now even though most of those installations have been closed or realigned, only 41 percent of the unneeded base property has, in fact, been transferred. Because of those base closures, over all of that period of time, only 41 percent of the unneeded base property has been transferred.

It takes years to dispose of this property. And, principally, the reason for that is the strict environmental cleanup standards which are very costly and very expensive. In fact, I find it interesting, according to pages 118 and 119 of the Department of Defense’s 1998 Report on Base Realignment and Closure, the first several years after a base closure are additional costs to the government, not savings.

For the 1993 BRAC round, a net cost to the Federal Government—not a net savings—a net cost was incurred for the first 3 years beginning in the year 1994.

If you take a look at the 1995 BRAC round, you find exactly the same thing. The BRAC-related costs exceeded savings by $1.5 billion for five years from fiscal year 1996 to 2000.

One might make the case, if you skip over the next 3-5 years you will find some savings from a new round of base closures. Maybe so, although lying out there is the disposal of almost 40 percent of all the property that has not yet been disposed of because of the environmental cleanup costs. So one wonders exactly what these savings are. They are certainly not in the next 3-5 years.

Those who make the point that there is an urgency to close these bases, at a time when we desperately need investment in the Department of Defense, are probably going to end up costing the Department of Defense additional money through base closures if we, in fact, decide to approve another round.

I support this amendment to strike the base closure provisions from the underlying bill for two reasons. One is military, and the other is economic. First, the military side of things.

We do not know what the force structure is going to be in the Department of Defense. There is a quadrennial review that is going on, but at this point no one in this Chamber knows what the force structure is going to be. If you do not know what the force structure is going to be, how do you know what the base structure should be? How do you know what kind of facilities for military operations you need if you do not know what kind of military force you are going to have?

Will this military force change as a result of the tragedies that occurred on September 11? Probably. Will we—when we see now a renewed attention to
homeland security and homeland defense—will we be more concerned about the issue of bases in this country? Where they are located? Whether they are strategic in & let's say the Department of Defense is already saying our base structure is way out of line, even though they don’t know their force structure.

I deeply respect the men and women in uniform. God bless them. I want to give them everything they need to do their job in preserving liberty and fighting for freedom. But we don’t need a new BRAC round to find savings in the Pentagon. We all know there are areas of inefficiency in the Pentagon. I won’t & dozens of communities, all you one instance I have dealt with in the last 6 months, just as an example. I say this only to say that if there are worries about efficiency, let’s go find where money is being wasted hand over foot.

We have 5,700 trailers that were manufactured for the U.S. Army. They had a problem with the brake actuator. The result is, they put 5,700 trailers in storage facilities, and they were there for years. It turns out in fact, in addition to a brake actuator that didn’t work on the hitch, the bumpers on the Humvees that were supposed to pull the trailers weren’t strong enough. They hooked these things up to the Humvee, and it broke the Humvee. You talk about waste, there’s a lot of waste, a lot of inefficiency. I think we ought to go at that. I don’t think it ought to be business as usual with respect to the waste of the taxpayers’ money.

With respect to the question of which bases are in the future of this country, which bases might be important with respect to homeland security, I don’t think we know the answer to that at this point. We certainly don’t know what the force structure is, so how on Earth would we know what the base structure should be?

Economic circumstances have really changed with respect to this country’s economy. We had a very soft economy prior to the tragedy on September 11. That economy has turned more than 20- or 30-percent unemployment 2 years from now if that base is ordered closed. From a military standpoint and economic standpoint, I think this is a very inappropriate and unwise judgment. That is what will happen if we approve the base closure provision in this bill.

The amendment I support simply says, let’s strip that provision out. My point remains: How can you realign and create a base structure before you know what your force structure is? And we don’t know that. No one in the Senate, no one in the Congress and, for that matter, no one in the Pentagon yet understands what our force structure is going to be.

It might very well be the case—I suspect it will be following the tragedy of September 11, we might have a very different view of the base structure in this country relating to homeland security and homeland defense. If that is the case, it will change the views of this Congress and the Pentagon about what our missions ought to be and where they ought to be placed. At this point I believe strongly that we ought to do the right thing, and the right thing is to take this out of the bill. Pass this amendment. That's the amendment.

My colleague, for whom I have great affection, said that, if we strip this out of the bill, we will be sending a signal that it is business as usual in the Congress. It is not that, with due respect. It just is not that. Business as usual is not the way we used to think. Everyone in this Chamber and in the Congress ought to be prepared to think differently about these issues. We have a quadrennial review commission that will evaluate whether any and every base in this country should be a candidate for closure. That makes no sense to me.

Let me make a couple of additional points. The term they are now using to create a BRAC is “efficient facilities initiative,” which as an acronym is pronounced “iffy.” I really don’t like acronyms very much. This particular one I don’t like a lot. “Iffy” probably describes the difficulty, the serious difficulty, virtually every community in this country that hosts a military installation will have with respect to its future and the consequences of this Congress unleashing another round of base closures.

One of my colleagues said: This doesn’t really create a round, it just authorizes a round. Given it creates a round. There is no difference between authorization and creating one. If we don’t pass this amendment and it strip out the base closure provision, we will have a new round of base closures. And if we have a base closing round, I am certain it will have significant consequences on this country’s economy, beginning immediately. The minute the Congress enacts legislation and it is signed, every single community in this country that hosts a military installation is going to see its investment deteriorate. It is the worst possible result for this country’s economy.

Aside from that, as I said, the issue is not just economics, and should not be. The issue is also military. Given the circumstances with our new needs in homeland defense and given the fact that we don’t know what the military force structure is going to be, this Congress should not at this point that will have with respect to its future and the consequences of this Congress unleashing another round of base closures.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. LEVIN. Will the Senator yield for a unanimous consent request?

Mr. BINGAMAN. I yield to my colleague from Michigan.

Mr. LEVIN. Mr. President, I renew now the unanimous consent request the Senator from Nevada had made before. I understand it has now been cleared.

I ask unanimous consent that at 9:30 a.m. on Tuesday, September 25, following the usual opening activities, the
Senate resume consideration of S. 1438, the Department of Defense authorization bill; that there be 15 minutes remaining for debate prior to a motion to table the Bunning amendment, with the time equally divided and controlled in the usual form, provided no second-degree amendments be in order prior to the vote.

The PRESIDING OFFICER. Is there objection?

Mr. ALLARD. Reserving the right to object, and I don’t plan to object, does that mean there will not be any more votes tonight so Members can clear their schedules?

Mr. REID. May I respond to that on behalf of the manager of the bill? Senator DASCHLE has not made a decision on whether or not there will be more votes tonight. We hope there will be the opportunity to offer other amendments tonight. If people want to debate this base issue until the wee hours of the morning, the two managers have no concern about that. But if people have completed their debate tonight on this issue, we hope that others will offer amendments on other matters. There could be votes. The leader has not made an announcement on that.

I think the Senator from Colorado makes a good point, that the leader needs to make a decision on that, and we will in the near future.

The PRESIDING OFFICER. Is there objection?

Mr. ALLARD. I withdraw my reservation.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from New Mexico.

Mr. BINGAMAN. I join Senator LOTT, Senator BUNNING, my colleague who just spoke, and others, in supporting the amendment to strike section 29 of the bill. That is the provision in the bill that says that the Senate should authorize the Base Realignment and Closure Commission that would be convened 2 years from now.

Simply stated, I believe this is the wrong time for us to be committing our country to this course. It adds greatly to the uncertainty that already is substantial in the country. In the context of this new threat that we have all come to recognize in stark terms in recent weeks, it strikes me as inconsistent for us to agree to close more military facilities, not knowing precisely what our military needs are going to be as we move ahead. We may decide we need to reorient the military and we may need to reconfigure it in a great many ways.

Let me make one other point that I believe is accurate, which I have always thought got too little attention in this discussion; that is, the point that the administration has authority to realign and, in fact, even to close bases—essentially do that—if it determines that is an appropriate course to follow. When they send us their budget each year, they can send us proposals to move people from here to there and, in fact, they don’t need to wait for the next budget cycle or for the next fiscal year to take those actions.

I think the reality is that this whole concept of setting up a commission to make these determinations is a way for the administration to not have to specify what bases it believes ought to be realigned or what bases it believes ought to be closed.

We had a base closed in my State back in the 1990s. Lyndon Johnson was the President at the time that happened. We didn’t have a law on the books that authorized that. If we want strongly about this, it was the decision of the President to support the recommendations made to him by the people he chose to review this matter.

So I don’t really think anyone in this Senate adds to the illusion that if we don’t pass this provision, the administration is totally hamstrung; they are not. If they feel strongly about this, they should come to the Congress and make their recommendation or take their action. If the Department of Defense decides to reduce the number of vulnerable overseas bases and facilities—which they may well do in light of this new terrorist threat of which we have all become aware—then that would require that personnel and equipment and their families be brought home, and we may well need the various facilities in this country to accommodate them at that time. It is another aspect of the uncertainty that we face in going forward. Clearly, there are other aspects of that uncertainty that we also need to take into account.

Let me also raise the obvious issue about the impact that closing bases and realigning bases has on morale and quality of life for the people in uniform relocating as a lot of relocation that goes on when you are in the military. I think we have all observed that, and we see that in our own States. But that relocating is added to very substantially when you go through this process of doing a major realignment and closure of a whole raft of bases. So that needs to be taken into account in determining whether this is the right time to be pursuing this course of action.

Among those who support setting up a new commission on realignment and closure, we hear a lot about savings. They say the reason we are doing this is that this will give us extra money in the defense budget to meet these urgent needs. Several Senators have already said those savings are fairly illusory when you get down to looking at them. The costs of closing bases and realigning bases can be very substantial. When the Department of Defense was closing bases in the 1990s, there were expenditures—identifiable expenditures—of over $3 billion during 1994, 1995, and 1996.

The Congressional Budget Office cited the Department of Defense estimates that an average round of base realignment and closure could average costing more than $1 billion each year during the first 3 years after that process begins. I think what people are not focusing on is that these extra costs—if we approve this provision as it comes to the Senate floor, these extra costs that can be incurred in going forward with this issue are not in the budgets we have been given by the Department of Defense so far. If the Congress approves another round of base realignment and closure, those upfront costs have to come out of either other portion of funds that are identified for the Department of Defense. It could be procurement of weaponry, it could be readiness, and it could be research and development for improvement in our force structure in the future. Those choices, which are already hard to make, become even harder if we lay these additional billions of dollars of expense on the defense budget. So the upfront cost problem is a very real problem and needs to be taken into account.

Supporters of BRAC, as I mentioned before, refer to the billion dollars in savings; there will be savings and I recognize that. But that will be a long time in the future. According to the Department of Defense estimates, the Department did not begin to show overall net savings for the first four rounds of base realignment and closure until at least 10 years after the first round of the base realignment and closure was approved in 1988. So there may be savings, but we need to recognize that those are far in the future, and that for the next several years that will be added on top of the military, which they will have to take out of some other activity in which they are engaged. I believe the timing is wrong for this issue.

From a national security standpoint, it does not make sense to me to commit ourselves to reducing our base infrastructure, with all of the uncertainty we have about what that base infrastructure ought to be as we move forward. It also doesn’t make sense to undertake significant new spending that is not currently in the Department of Defense budget when future budgets promise to be tighter and our economy clearly is more fragile than we thought it was several months ago. All of this we are doing, or proposing to do, in the hope we will have savings in the far distant future.

In my view, that is not an adequate justification for going forward with another base realignment and closure commission. I hope the President will support the amendment Senator LOTT and Senator BUNNING have put forward on this issue. I yield the floor.

The PRESIDING OFFICER. The Senator from Florida is recognized.

Mr. NELSON of Florida. Mr. President, I rise to oppose the amendment...
September 24, 2001

CONGRESSIONAL RECORD—SENATE

and to support our chairman, Senator LEVIN, and our ranking member, Senator WARNER, and to support our Secretary of Defense, Donald Rumsfeld, who has written a very clear letter to all of us, which Senator WARNER has already read into the RECORD, setting forth his reasons why we need to consider realignment and closure of some bases.

We have close to 400 bases in the United States. With a reorganization of the force structure, it is very clearly stated by the Secretary of Defense that we don’t need all of those bases, and that there would be substantial savings from closing some of them.

Now, is any Senator up here going to want any base closed in his or her particular State? Of course not.

Are all of us, with such a recommendation for closure, going to fight like the dickens to keep that base open on an individual Senator? Of course we are. But we are judging a question not within the myopic lens of just the interest of our own States but, rather, from the view as Senators looking at protection and providing for the common defense of the country.

I have heard a number of our colleagues talk about this very sad tragedy of September 11 as a justification for not closing bases. It seems to me it is a justification for exactly the opposite; that it is a justification for recognizing that we need to be smart in how we are going to allocate the funds that are clearly going to be needed for the defense of this country, and that we best utilize and direct those funds in combating this terrible plague that has now beset not only us but the entire world, and that is this plague of terrorism.

I wanted to add my voice to perhaps what is an unpopular point of view. Indeed, if one of our bases ends up on the closure list, it is the making an argument, but that is not the question. The question is what is in the best interest of the country in the allocation of the dollars that are appropriated for the Department of Defense. If we can save some that can be allocated more to the prosecution of this war against terrorism, then, in this Senator’s judgment, that is in the best interest of our country.

I yield the floor.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. McCAIN. Mr. President, I thank my colleague from Florida. He is a man who has served his country in a variety of capacities and understands the military, the men and women in the military; this Senator has not.

None of us who have a significant number of bases—such as is the case in the State of Florida, as is the case in the State of Arizona—that are very important to the economy of our States enjoy this exercise. I respect the views of those who are supporters of the amendment, including the sponsor himself, who is an experienced individual having served in the House and now in the Senate and has been involved in these issues of national security.

We have an honest difference of opinion. I believe this is a good debate to have. I respect—I repeat, I respect—the views articulated by those who are supporters of the amendment. But I do think this is a defining vote. The President of the United States has clearly asked for the authority to close unnecessary bases. The Secretary of Defense has spoken in the strongest terms. Our civilian and military leaders of the services have spoken in the strongest terms. Every objective observer recognizes that we need to have a base closing process.

There are several arguments that are being made in behalf of the amendment of the Senator from Kentucky. One is we don’t need to spend the money in the United States. We have a surplus. The President proposed a substantial surplus. We don’t have a surplus. And the strong argument for not closing bases is that it is a justification for exactly the opposite.

Here are some things we already know. We know we have excess infrastructure. An April 1998 report from the Department of Defense on base closure required by the Congress found that the Department still maintains excess capacity that should be eliminated.

We know having more facilities to run costs more money, and having fewer facilities to run costs less. Excess infrastructure is a drain on resources and the military services are struggling. I quoted earlier from testimony given to the House Armed Services Committee by the people who are responsible for these installations.

Some of the conditions at these bases are deplorable. None of us would want to live and work under the conditions which they presently have, and this does have an affect on morale, which then does have an affect on retention of good men and women in the military. If we don’t need them, more than any time perhaps December 7, 1941.

We know the Base Closure Commission used to reduce that excess in an impartial way not only works well but is considered a model for others to follow. Many times I hear we ought to have a commission on Social Security along the lines of the Base Closure Commission so Congress can vote up or down. It has been a model.

We know the military has unmet needs that have higher priority than preserving our current base structure. The fact is DOD has excess facilities: that closing bases saves money; that the military has other pressing needs for those savings, and BRAC is the fair-est way we know to reduce the excess. I point out, I do not think it is totally fair. As long as you have human beings making these decisions, it will not be a totally fair process. There will be some subjectivity, but for me, some one has to come up with a more objective way. The only way I know is crank all the information into a computer, and I do not think we are quite ready for that process.

People keep saying: We don’t know if closing bases really saves money. The Department of Defense says they will have achieved a net savings of $15 billion by the end of this fiscal year from the previous base closure rounds, with another $6 billion in savings each and every year thereafter.

Some of the things that costs money that was not anticipated was the environmental cleanup costs. We found out that on these bases, particularly those that were built during World War II and before, in some cases there were enormous environmental problems. Those were additional costs associated with closing those facilities.

My response to that is, no, we did not anticipate that, but should we have left these environmental problems alone? Shouldn’t we have cleaned them up already? Were we asking our active duty military men and women to work in places that were environmental hazards, perhaps even to their health? These measures should have been taken while the bases were still open.

We do know it saves money. We do know there are environmental costs, but I would argue those environmental steps should be taken on every base in America whether they are open or closed. Why should we expect a military base to put up with an environmental situation which is not acceptable off the military base? Some people say DOD has not proved that is the right number. This is because the BRAC savings costs you avoid does not mean the savings are not real. The closure bases you have, the more you have to spend. We know that.

We have to wait for Secretary Rumsfeld to finish all his strategy reviews before we authorize any new base closures. The fact is, we are now under the legal authority to close bases. We may revise DOD’s force structure plans and their estimates of what facilities are in excess. Authorizing new base closure rounds now does not preempt these reviews. Just the opposite: It will help Congress.

We are in the process right now and already have spent more money on defense. There will be additional costs for defense because, as the President so eloquently stated to Congress and the American people, we are in a long twilight struggle. But I know of no one who believes we will have to expand the size of the military establishment to fit in these excess costs. I think all of us envision a military that is not necessarily expanded in size but responsive to the environment. Something has been done beginning in 1991 at the time of the collapse of the Soviet Union.

This military structure will not necessarily be a larger one. This military structure will be one that is equipped to respond to emergencies throughout the world, deploy in force, be on the battlefield, effect the outcome, and
leave. That is basically the kind of military we need to meet the challenges and win the first war of the 21st century.

So, yes, there is restructuring in the military; yes, we need more high-tech equipment; yes, we need more of some kinds of equipment. We need less of others. But no one believes we will go back to a military of the size that would end up with the number of bases we have today.

I do not believe the Secretary of Defense would have written the letter he did yesterday that says I want to underscore the importance we place on the Senate’s approval of authority for a single round of base closures and alignments. Indeed, in the wake of the terrible events of September 11, the imperative to convert excess capacity and warfighting ability is enhanced, not diminished.

I repeat, the imperative to convert excess capacity into warfighting ability is enhanced, not diminished.

I want to talk about another issue that is kind of important, although perhaps from a national security standpoint it is not too important, but that is the economic impact it has on the local communities. There is the belief that it devastates the local community. If a base is closed, it can go well, and it can go badly. There are many cases where the local communities put together a good reuse plan and they are as well off or even better off after the closure of an installation.

The Congress and the Defense Department have taken steps, since the last base closure round, to speed up the disposal of property for any future rounds.

In the majority of bases that were closed, there has been an increase both of employment as well as revenues into the local communities. Why is that? One reason is that in a lot of cases you have a nice runway, and an air facility is readily available then for usage; in many of the men and women in the Norfolk naval base will not be closed. I do not see how the Navy could exist without it. Could Luke Air Force Base be closed? It is the only place where F-16 pilots are trained today. I am not so sure. Should Luke Air Force Base be in the top 20? I hope so. But maybe not. Maybe this BRAC could figure they could consolidate F-16 and F-15 training in one base. So that is not, I believe, a procedure that could be used.

There is another issue that is important: Closing bases will deprive military retirees of access to health care, and that happens. Not only health care but commissary facilities and others. That is one of the reasons we induce people to join the military—because they will receive benefits and have access to military bases after they are retired. They have reduced retiree health care options, but the TRICARE For Life Program enacted in the fiscal year 2001 Defense Authorization Act will address this issue by providing a quality benefit package that allows military retirees to get care from civilian doctors. This was a big step forward. It also allows the services in the Base Closure Commission to focus fully on the military value of each base.

I know if Luke Air Force Base were closed, a lot of retirees who use the commissary, use the other facilities, would be deprived. I feel very bad about that, but at least we have taken care, to some degree, of their most important needs, and that is health care they would otherwise get at these installations.

So we have been through this debate for years. We have been through this debate since I came to the Congress in 1983. We had a series of base closures, and unneeded and unwanted and unnecessary bases were closed. If we had not gone through that process and left a number of bases open that had been closed, the BRAC processes, I cannot imagine the costs that would be entailed today.

I note with some interest the Secretary of Defense is asking for another one more round. Perhaps we are getting close to the point where we will not need any more rounds of base closings, but every study, every objective observer, every person I know of—and there may be some who do not, but I do not know of any who are military experts who are admired and respected by the people of this country who think we need another round of BRAC.

Again, I want to point out—and this is a very important point—it is very difficult for us to recruit and maintain a quality military force if they are living in facilities that are inadequate and sometimes unsatisfactory. I mentioned the issue of environmental cleanup. It is obvious now, because of the base closure process, that many of the men and women in the military were working and living in areas that were environmentally unsafe, if not hazardous. So the quality of life does have a significant impact on the efficiency of our military.

We will be asking men and women in the military to go out and fight and perhaps sacrifice their lives. It seems to me the least we can do is make sure their quality of life, both at home and overseas, is at a level we would want for all of us, our families and our friends and particularly those brave young Americans whom we are going to ask to serve and sacrifice in the future.

Is this a life-or-death issue? No, it is not a life-or-death issue. We will muddle through if the Bunning amendment is passed. As I said earlier, I think this sends a signal that could be very wrong, and that is that on a major issue, according to the Secretary of Defense and our uniformed and civilian leaders, we do need a base closing commission, we are not prepared to do that. I think that would be a very serious error on our part.

So I hope we will defeat the Bunning amendment.

I want to thank Senator Levin, the distinguished chairman of the committee, for his unstinting and unrelenting support of this issue. He and I have tried to get this done for a number of years now, and our track record, like mine on several other issues, has not been exemplary, but I think we now have an opportunity.

I thank Senator Levin again for his leadership and his willingness to be involved in this issue. I am aware in the State of Michigan there are bases that could be closed, as there are in any State.

I thank all of those who support this amendment.

The PRESIDING OFFICER. The Senator from Nevada.

Mr. REID. Mr. President, I hope I did not cause the Senator from Arizona to get worked up in his argument prior to when he planned to. I did not mean to do that. Senator Daschle has asked me to announce there will be no more roll call votes tonight. We also hope, if there is a lull in the debate regarding this base closing issue, that Senators offer amendments on other matters, and we would arrange a time to vote on those tomorrow.

We are going to renew our request for a finite list of amendments. We had great difficulty getting that. We are sorry the minority has objected to that. This is a bill that is of the utmost importance, and it appears now there are people who do not want this legislation to go forward, which I think sends a terrible message to the American people.

Mr. LEVIN. Will the Senator from Nevada yield for a question?

Mr. REID. Yes.

Mr. LEVIN. If Senators come forward tonight with other amendments, if the BRAC debate ends at a reasonable hour, would it be possible for those amendments not agreed to, to have
votes on those amendments, stacked immediately after the BRAC motion to table tomorrow morning?

Mr. REID. It may be difficult because the Armed Services Committee is coming before the Judiciary Committee at 10 o'clock. It is a very important meeting. With all he has on his plate, we should not keep him waiting. We will work to arrange the votes as quickly as possible.

Mr. MCCAIN. I am happy to yield.

Mr. REID. I am happy to yield.

Mr. MCCAIN. I was prepared and I think Senator LEVIN was prepared to offer a motion to table very shortly. Is that out of the question at this time?

Mr. REID. I say to my friend from Arizona, we have a vote scheduled at 9:45 in the morning. People said they wanted more time to debate this. Although, as I announced prior to entering into that consent agreement, anyone at any time can move to table, but in consideration of the importance of this issue, we thought it would be best that everyone have everything they have to say tonight.

Mr. MCCAIN. I thank the Senator.

The PRESIDING OFFICER (Mr. ROCKEFELLER). The Senator from New York.

Mrs. CLINTON. Mr. President, I, too, thank the chairman and ranking member and a number of our distinguished colleagues who have risen to support and oppose the Bunning amendment. I believe many Members in this Chamber either had no well-informed or formed opinion prior to September 11, or, perhaps, were inclined to support a new round of base realignment closings. It is with some regret that I rise in support of the amendment from the Senator from Kentucky. I believe after September 11, it is imperative we have more information available than we currently have.

There are many arguments that have already been made on the floor; very good ones, from our colleagues from Arizona, Rhode Island, Delaware, and Florida, as to what efficiency issues should take precedence. I agree we need to constantly be evaluating our defense budget and expenditures, to become as efficient as possible. Yet I also believe there are serious security concerns we are only beginning to address. I take very seriously the Secretary's letter which has been referred to and which has been read into the Record. I believe my colleague from New Mexico, Senator BINGAMAN, is correct in saying the President and the Secretary have inherent power to realign, depending upon the needs we face in any kind of strategic or emergency situation.

We are about to engage in a broad-scale reevaluation of our homeland defense and security. We are going to be asking ourselves some very tough questions about our readiness, about the proper intersection between our domestic policing agencies and functions and our military.

At this point, I think there are several factors that have to be addressed in addition to the request of the Department of Defense and the recommendation from the Armed Services Committee before many Members would be comfortable voting for a new round. I am not sure the new round, if it is only a Defense Department review, will adequately look at some of these other rounds of base realignment and closings. I do not know that the BRAC round has the substantive understanding or impact that we have had in years past, given the new threats we have so tragically suffered. I would be very confident and supportive of our chairman and ranking member and members of the Armed Services Committee, working with the administration, coming up with a proposal that does make some sense.

I listened very carefully to the comments of the Senator from Arizona—maybe certain bases should be taken off the table. Maybe they should. That is something we have never talked about before, but in the context of the new threats we face, I think we have to think differently. It may be we may have to have a BRAC round where some bases would be off the table, some of the assets that we have would be put to one side and we say they are essential to homeland security and they are essential to our projection of force abroad. Therefore, any BRAC round would not look at those. That might be an idea worth considering because I think everything changed on September 11. A threat that was not understood as being so deadly and imminent has caused such terrible destruction and tragedy.

I, for one, will support the Bunning amendment at this time because I think we have to reevaluate what we mean when we think about closing bases and realigning our forces. No one should argue about the efficiency measures that need to be taken, so that we do, No. 1, get the most effective use of our dollars; and, No. 2, provide the kind of infrastructure and resources that our all-volunteer military deserves.

I am concerned at this point we may not be ready for the "son of" BRAC. There may be the need to rethink how we get to the level of bases that are required. I think perhaps for the first time we have to seriously take into account the new mission that the President has given for homeland security, to make sure there is, if necessary, the kind of integration that will make us safe at home as well as abroad in terms of America's values, interests, and security.

I rise with some regret because I have the greatest of respect for our chairman, our ranking member, and those who support this request for another round. I probably will very much end up supporting it, but only after we give the kind of thought I think is required today, to take into account the new threats and perhaps do it differently than we have done before after we carefully evaluate what kind of presence we need, taking into account homeland security. I would support that kind of approach. That is not what is being proposed at this time. I urge my colleagues to support the Bunning amendment.

I yield the floor.

The PRESIDING OFFICER. The Senator from Texas.

Mr. GRAMM. Mr. President, I think it is important we go back and outline how the base-closing commission works. In listening to this debate, we get the idea that by continuing a process of having a base-closing commission, that the commission simply takes on its own head and imposes the closing of bases without regard to the wishes of the Secretary of Defense.

Let me remind my colleagues how the process works. How the process works is, you set up a structure and nothing happens until the President and the Secretary of Defense come forward and say, we believe for these reasons that these bases should be realigned, closed, restructured, merged, et cetera.

Nothing happens until the President makes the proposal.

Look, I understand base closings. We have closed bases in my State. I have a lot of bases. I am proud of every one of them. I love every one of them. And nothing is harder than watching communities that sacrificed and supported the military and helped win the cold war, and then through base closure and realignment we end up closing the base and imposing a very heavy burden on the community. I understand that. I identify with it. I have seen it in flesh and blood in my State.

But the bottom line is we have 20 to 25 percent excessive capacity in military bases in America today. I was for
the Base Closing Commission process before the 11th, but I am stronger for it now. The arguments for it today are stronger than they were then because we need these resources moved into areas where they can support the defense of the American people and into nontraditional areas.

The first proposal the new Secretary of Defense made as part of his military realignment and restructuring was the renewal of the Base Closing Commission process that we had under a Democrat and a Republican President. If we come in now and simply say we forbid them from undertaking this process—we forbid the President and the Secretary of Defense from looking at our new situation and saying that based on where we were before the 11th, based on what happened on the 11th, based on the challenge we face today, we need to close or realign these bases and we want to have the process to have it evaluated and to have Congress vote up or down, yes or no in response to that evaluation—if we come in and take the first proposal the Secretary of Defense has made and say no, we are not going to do it, it seems to me we are basically saying we do not want to restructure the military and we are going to look at our interests in our States and we are going to say those interests supersede the national security interests of the United States.

There are two sides of every argument. I know there are good arguments on the other side, and they are going to be made persuasively. But let me just sum up.

We have 20 to 25 percent excessive capacity in military bases, and I cannot foresee or imagine a circumstance under which that will not grow as a result of the conflict that started on the 11th. No base could be considered for base closing by the Commission unless it serves to be debated. There are two sides of the issue. Strong arguments can be made on both sides.

But my plea to Senator Levin is, this is not the year or the time or the bill, it seems to me, on which to have this debate. I hope we can set aside this divisive issue on which the Senate has been roughly evenly divided. I think in the 6 years or so we have debated this issue, Prison Industries has survived by a handful of votes in each and every one of those years.

I hope we can wait and debate this next year or the year after. We do not have to debate it this year. I think this is an impediment to seeing this important bill pass.

I would just call on the better angels of his nature by the President and the Secretary of Defense.

What we are doing here is taking away flexibility from them, to restructure resources to meet the current needs—not the needs of World War II, not the needs of the Korean conflict, but the needs of the military today. In the end, if we do not agree with the process, if we reject it, we can reject it. But I think it is very important that we do not reject the only reform proposal that has come before the Congress since the new administration took office. I accept the amendment today basically to say to them: Forget about this reform because the first one you proposed, we say no to. I hope this amendment will be rejected. I am not sure that it will be, but I hope it will be.

I would also like to say, while I have Senator Levin here in the Chamber, I thank him for his leadership on this issue. I would like to make a plea to him.

He and I, out of the best of intentions, have for the last half dozen years engaged in a battle about the Prison Industries. I am not going to give a long speech on it today. I will have plenty of opportunities if we do not work something out to do that. But for the last half dozen years we have had a running debate. I believe people in prison ought to work. I think the evidence of decline in recidivism of people who are in Prison Industries is overwhelming. No less an authority than de Tocqueville, when he came to America in the 1830s to study American prisons, and then decided to stay and study democracy, commented on the importance of prison labor and prison industry.

Senator Levin and I have had a running debate about this issue. I want to preserve the prison industry system. He wants to—I would say “kill it,” but I will say “dramatically change it,” in this new spirit of bipartisanship. It is an important issue. It is one that deserves to be debated. There are two sides of the issue. Strong arguments can be made on both sides.

But my plea to Senator Levin is, this is not the year or the time or the bill, it seems to me, on which to have this debate. I hope we can set aside this divisive issue on which the Senate has been roughly evenly divided. I think in the 6 years or so we have debated this issue, Prison Industries has survived by a handful of votes in each and every one of those years.

I hope we can wait and debate this next year or the year after. We do not have to debate it this year. I think this is an impediment to seeing this important bill pass.

I would just call on the better angels of his nature by the President and the Secretary of Defense.

I would just call on the better angels of his nature by the President and the Secretary of Defense.
Mr. GRAMM. Mr. President, I know there are a lot of other people who want to talk. One of the compromises that I would be satisfied with is to have the Defense Department on procuring—competition with Prison Industries but let prison labor within the constraints of not selling locally, which could disrupt the local economy, and not glut the market. We want to charge the Government. Let the Government more than the private sector. Despite all of that, in many states, they want to shut it off at every angle. But at some point we need to allow prisoners working, for their benefit and for America's benefit. I don't know how they can't be competitive with the advantages they have. That is why I am thinking I could support the Senator's amendment on the theory that they would probably tighten things up and get competitive if it passed. But they certainly need to work out there that want to shut it off at any angle. Mr. THOMAS. We are prepared to talk about that.

Mr. SESSIONS. I remember not too many years ago that I met an individual who I had prosecuted as a Federal prosecutor. He served a number of years in jail and was a former elected public official. We got to talking about this very subject. He said to me: If you need a witness, call me because I have been in prison where prisoners work, and I have been in prisons where they don't work. And it is a lot better where they are working. It is when you go to the chow line at 6 o'clock in the afternoon, there are no fights, and no shoving or pushing. People are tired and want to get their food and go to the cell and go to bed. It is a tough call for me because I believe in competition. And I am wrestling with this vote. I understand the Senator's concern about it. But I believe deeply that we have to ensure that prisoners work. There are forces out there that want to shut it off at any angle. But at some point we need these prisoners working, for their benefit and for America's benefit. I don't know how they can't be competitive with the advantages they have. That is why I am thinking I could support the Senator's amendment on the theory that they would probably tighten things up and get competitive if it passed. But they certainly need to work out there that want to shut it off at any angle.

I thank the Senator from Michigan.

Mr. LEVIN. Mr. President, I rise today to support S. 1438, the National Defense Authorization Act for Fiscal Year 2002. This bill provides our armed forces the tools necessary to protect, serve, and defend the United States of America and our allies. Recent events underscore the critical importance of this bill: as the country mourns those lost in last week's terrorist attacks, our armed forces must stand at the ready.

This bill has many laudable initiatives, including several efforts from all three of the subcommittees on which I serve: Seapower, Emerging Threats and Capabilities, and Personnel. In the area of Seapower, our subcommittee was faced with the difficult task of balancing the competing priorities of: new construction of ships for our naval fleet; sustaining our current platforms and weapons systems; and investing in the weapons systems and platforms of the future. I am pleased that this bill takes important steps to ensure that our naval forces can continue to command the seas and project power ashore while sustaining a viable industrial base to support our future national security needs.

The bill approves more than $9 billion in funding for such major programs as three DDG-51 Arleigh Burke class destroyers, one SSN-774 Virginia class attack submarine, and one T-AKE auxiliary cargo and ammunition ship. It is critical that the U.S. Navy's destroyer program sustain a viable production rate to ensure a smooth transition from the current DDG-51 Arleigh Burke destroyer program to the future LPH-8 amphibious assault ship, which will form the backbone of our future fleet. The bill further authorizes advance procurement funding for four LPD-17 amphibious transport dock ships and the LHD-8 amphibious assault ship. Full funding of $649.5 million for the continued research and development...
for the DD-21 Zumwalt land attack destroyer program is also included in this bill. This is particularly important in light of the House’s unfortunate decision to deny the DD-21 authorization for the coming fiscal year.

DD-21 will be vital to assure and sustain access to areas of U.S. interests overseas. It will do so very efficiently, with a target crew size of less than 100 and over-the-horizon innovations that result in significant life-cycle cost reductions over the current destroyer program. The U.S. security strategy to defeat adversaries that seek to deny us access to littoral regions of the world will be critically dependent on U.S. ships that are harder to target and attack, and on weapons systems that can deliver combat power ashore.

The Seapower Subcommittee also allocated substantial resources to strengthen aviation assets in the areas of support for passenger and cargo embarkation and surveillance and surveillance platforms. The bill authorizes nearly $90 million in additional funding to sustain readiness for C-17 maintenance trainers and improved shipboard navigation radars, among other items. Additionally, the bill provides more than $170 million to improve the ability to meet non-traditional threats, including $96 million for P-3 modifications to increase the capability of the P-3 aircraft to support operations in littoral environments. These modifications to the P-3 aircraft will ensure that the aging P-3 aircraft can continue to respond relevant to the changing threat and operational environment.

The Subcommittee on Emerging Threats and Capabilities has spent a great deal of time this year analyzing the military’s ability to meet non-traditional threats. This bill continues to improve the ability of U.S. forces to deter and defend against a very real, asymmetric and growing terrorist threat. Tragically, we have learned just how real the threat has become. The threat is not “emerging”; unfortunately, it’s real and present.

In light of the recent terrorist attacks and testimony of the military regional Commanders-in-Chief, I believe that we must do more in the areas of force protection, antiterrorism, counter-terrorism training, and research and development in order to protect U.S. forces against weapons of mass destruction, and to help them support domestic efforts to manage the deadly consequences of terrorist attacks on our homeland.

The awful events of September 11th should highlight the urgency of ensuring that the nation is prepared for this arena, regarded as one of the new “war” against terrorism, such programs are our front lines.

The Emerging Threats and Capabilities Subcommittee sought to improve capabilities to meet non-traditional threats by encouraging the development of technology for the detection, identification, and measurement of weapons of mass destruction agents, investing in research initiatives that will detect biological and chemical weapons, and funding the terrorism readiness initiative of the Chairman of the Joint Chiefs of Staff.

This bill demonstrates our commitment to reexamine and bolster our efforts to combat terrorism and to extend the Defense Department’s emphasis on non-traditional threats overseas to include better protection at home as well. One of the first hearings held by the Senate Armed Services Committee this year, for example, focused on “lessons learned” from the attack upon the destroyer USS Cole, which had killed 17 sailors. Tragically, we will now have many more lessons to learn.

The Subcommittee on Emerging Threats also has been examining the role of civil support teams in dealing with terrorist attacks and upon broadening our preparedness for “homeland defense.” This work has been eye-opening, and the tragic events of the past few days underscore, as perhaps nothing else could, how important it is to support the Defense Department’s efforts in these areas.

I am pleased with the work of our Personnel Subcommittee as well. The bill we are considering fully funds the Tricare for Life, TFL, initiative authorized in the FY 2001 National Defense Authorization Act, while also improving the compensation and quality of life of U.S. forces and families. The committee added $700 million to the budget request to improve compensation and quality of life, including additional funds to reduce service members’ out-of-pocket housing costs, to increase higher education opportunities, and to provide personal gear to improve the safety and comfort of U.S. forces in the field.

Effective January 1, 2002, every service member will receive a pay raise of at least 5 percent, and personnel in certain pay grades will receive targeted pay raises ranging between 6 and 10 percent. These will be the largest increases in military pay since 1982. Purtz’s bill supports the budget request of $17.9 billion for the Defense Health Program, which represents a significant increase in order to meet rising costs of medical care and increased benefits for military retirees.

While it is our responsibility to exercise our best judgment regarding the security of our Nation, we must do so while considering the administration’s current priorities, as well as the emergent needs of our sailors, soldiers, airmen, and marines. In this time of constrained resources, we study every initiative needs to be carefully considered in the wake of traditional and non-traditional threats.

With that said, it is my belief that we in Congress, and this administration have some very tough choices to make, not only in the areas of missile defense and the new war on terrorism, but also in developing a integrated national security strategy, force structure, and future investments critical to our armed forces. Such fundamental questions should be made first, and we should move forward to the evaluation of where and how our force structure should be supported.

While the debate continues on how to transform our armed forces, and the committee takes action to support our armed forces and the administration’s priorities, I would like to take this opportunity to acknowledge and thank Chairman Levin and Senator Warner for their tireless efforts to tackle these very tough issues and produce an authorization bill that funds a number of critical priorities and provides support for the men and women of our armed forces.

I wish to make a few points in response to the speech given by my distinguished colleague from Arizona earlier today on the issue of base closures.

Many of us have made the argument that it makes far more sense to determine our force structure, particularly in light of the new emphasis that must be placed on homeland defense before we proceed with closing installations that may well prove to be needed later on.

But it isn’t just those of us serving in the Senate who support Senator Bunning’s amendment who feel that way. Let me quote from an answer that my Secretary of the Army, Thomas White, gave to a question regarding base closures put to him by Senator Dorgan at a hearing before the Defense Appropriations Subcommittee in June.

Senator Dorgan gave an excellent response to this issue earlier. Secretary White said:

I think that the cart’s a little before the horse. The first thing we have to nail down is what the national military strategy is . . . in accordance with the QDR process. That’s step one.

Step two is sizing the force against the strategy, and that will flow out of the exercises currently ongoing.

And the third step will be what’s the most efficient basing for that force, and only at that stage of the game, when we try to figure out the most efficient way to base the force and to support it from a business perspective, will we get into which infrastructure is excess or not. This has got to be a strategy driven exercise.

Ironically, Secretary Rumsfeld, in arguing for base closures, also makes the point that:

Our future needs as to base structure are uncertain and strategy dependent.

This is the wrong time. We face tremendous challenges. We should not be embarking on a whole new round of closing and downsizing base installations until we know what our needs are. And then, Mr. President, we should not be using the discredited BRAC process.

My colleague from Maine, Senator Snowe, and I have extensive experience with the BRAC process. We have found it to be unfair. We have found it to be inconsistent in its application.
If the Pentagon identifies bases that are truly excess, that are not needed—and I recognize there is excess capacity—then the Pentagon should identify those bases and put it in the budget. Why should we put every community across this country that hosts a base through the uncertainty, the worry, and the expense of hiring consultants to make the case for the retention of their base? That just does not make sense.

We are experiencing this right now in Maine the Pentagon’s closure of a base in Winter Harbor. We wish that this Navy installation, which has been there for more than 70 years, were going to remain open, but, unfortunately, its mission has become obsolete. What the Maine congressional delegation is doing is working with the local communities, with the Park Service, and with DOD, on a transition plan so it can be effectively reused. We do not need to endure the uncertainties of a politicized BRAC system.

Finally, I want to respond to the comments made by the Senator from Arizona about the need for improved housing for our troops. I could not agree with him more. I have visited our troops stationed at the DMZ in Korea. I was shocked and appalled at how bad the housing was for our brave men and women who are serving there on the front lines. We do have to do better. But that is a completely separate issue from the issue of whether now is the time to embark on base closures.

Now is not the time—now is the worst possible time—to divert the energies of the civilian and military leaders of the Pentagon into an exercise of closing bases that may well prove to be needed later. Now is certainly not the time to create concern and chaos and confusion in every community that has proudly hosted a military installation and is supporting our men and women in uniform. Now is certainly not the time to embark on another round of base closures when all of our energies must be focused on the overriding goal of crushing the international network of terrorist organizations that have so harmed our Nation and its citizens.

I urge support for the amendment offered by the Senator from Kentucky. Thank you, Mr. President. I yield the floor.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. INHOFE. Mr. President, first, I would like to make an inquiry and then I have a couple comments to make.

When are we going to be taking up amendments that have been on the list for quite some time? Has that been decided yet? Or may I ask the manager of the bill, are we going to be disposing of the Bunning amendment before we go to other amendments? Is that going to be the order?

Mr. LEVIN. We are going to be disposing of the Bunning amendment tomorrow morning at 9:15. What we are hoping for is that other people with amendments—if debate ends early enough tonight on the Bunning amendment, we will go to their amendments so we can debate those amendments and then set votes on those amendments tomorrow.

Mr. INHOFE. Yes.

Mr. LEVIN. Senator Reid is here so we will leave that conversation for him.

Mr. REID. The manager of the bill is absolutely right. We are certainly willing tonight to take up any amendments that need to be offered. I say to my friend from Oklahoma, as I have said several times throughout the day, this is a very important amendment, the one now before the Senate. We are going to dispose of it in the morning, more than likely, at 9:45.

But the problem we have, I say to my friend from Alabama, if we cannot get your side to agree on a list of amendments. We are not saying eliminate amendments. We are not saying you cannot offer amendments. We are saying offer anything you want, but let’s have the managers have a finite list of amendments.

And I don’t know what the majority leader is going to do, but if this goes on tomorrow, I think the majority leader would have to think seriously about going to some other legislation because we cannot go on with each hour that goes by with more amendments coming in. We need a cutoff period of some kind.

So I say to my friend from Alabama, if there is some way you can prevail on the people on your side of the aisle to allow us to have this unanimous consent request agreed to—what the consent agreement says is that—I offered it already, and I will just tell you what is in it again—in fact, I will propound it, right at the front of the bill—what the consent agreement says is in it and if they want to try to work out time agreements on these amendments, or if they want to basically accept some of them.

The way it is now, under the Senate rules we will never, ever finish this legislation unless there is a finite list of amendments. And we can’t do it.

Mr. REID. I say to my friend from Alabama, this unanimous consent request that I have propounded does not in any way limit debate. In fact, it will allow unlimited debate on each amendment. We are not saying don’t talk more than an hour on an amendment. We are saying just tell us what you want to talk about so that the managers can determine if they can be accepted as part of a managers’ package, or if they want to try to work out time agreements on these amendments, or if they want to basically accept some of them.

The way it is now, under the Senate rules we will never, ever finish this legislation unless there is a finite list of amendments. And we can’t do it.

Mr. REID. I say to my friend from Alabama, this unanimous consent request that I have propounded does not in any way limit debate. In fact, it will allow unlimited debate on each amendment. We are not saying don’t talk more than an hour on an amendment. We are saying just tell us what you want to talk about so that the managers can determine if they can be accepted as part of a managers’ package, or if they want to try to work out time agreements on these amendments, or if they want to basically accept some of them.

The way it is now, under the Senate rules we will never, ever finish this legislation unless there is a finite list of amendments. And we can’t do it.

Mr. SESSIONS. Mr. President, I object.

The PRESIDING OFFICER. Objection is heard.

Mr. SESSIONS. Mr. President, I understand there are those who wish to continue debate and who have not been prepared to agree to that on this side—maybe somebody on this side. We have had this frustration ever since I have been in the Senate. We have been on the other side as the majority. But maybe we can get this thing moving. I certainly would like to see this bill move. I would not personally object. I am objecting for others who, I understand, have a right to object and have asked that I do so. I certainly will do what I can to see this bill move. I hope we can reach an agreement soon.

Mr. REID. I say to my friend from Alabama, this unanimous consent request that I have propounded does not in any way limit debate. In fact, it will allow unlimited debate on each amendment. We are not saying don’t talk more than an hour on an amendment. We are saying just tell us what you want to talk about so that the managers can determine if they can be accepted as part of a managers’ package, or if they want to try to work out time agreements on these amendments, or if they want to basically accept some of them.

The way it is now, under the Senate rules we will never, ever finish this legislation unless there is a finite list of amendments. And we can’t do it.

Mr. SESSIONS. I understand the Senator’s concerns and frustrations. We have been on this less than 2 full days. This is a major bill. Maybe we can get the agreement soon. I will certainly help him in that regard, if I can.

Mr. INHOFE. Let me reclaim my time.

The PRESIDING OFFICER. The Senator from Oklahoma does have the floor.

Mr. INHOFE. I appreciate this, I say to both the Senator from Alabama and the Senator from Nevada. It is very important. We must get to a point where we can vote on it. I do have three amendments I want to take up. I will just stick it through until such time as I can bring them up.
Let me make a couple comments on some of the debate that has been going on. As far as prison labor is concerned, I assure the Senator from Alabama, who had been concerned about it, expressing his desire to have prisoners work, I can assure him that prisoners can work.

I can also assure him that the language, in my opinion—I have been on this committee since 1994, and I have heard this debate every year since 1994—in the bill is good language. We need to be able to have quality work done on the work we are talking about in conjunction with this prison labor debate.

Let me assure the Senator from Alabama that we can go ahead and keep the language that is in our bill and still have a lot for the prisoners to do. I know a lot about this. I was mayor of Tulsa for three, four terms. During that time I had to deal with the problem that hit Oklahoma and hit my city of Tulsa. It was a very serious problem. Of course, we would throw them in jail. They would get out about 10 minutes later, when their attorneys would come up. What I did was, instead of putting them in jail and incarcerating them, I put them in work details.

We had them out there—it worked out really well—cleaning up our parks. Because they had spiked heels, they could kind of go out there and pick up the trash, and it worked out very well. That program actually stopped that ring. It was because it was hard work. They didn't want to do it.

I can remember once I got a call from someone from Sidney, Australia, on a live radio show. I don't know what time it was there, but it was the middle of the night in Tulsa. He said: Mr. Mayor, how cruel can you be, making those poor women go out and work hard in the hot sun and do all that?

I said: I'll tell what you I will do. We will just package them all up and send them to Sidney, and then it will be your problem.

Then he said: By jove, I think you have a good program there.

There is a lot of work that can be done by prisoners. Anyone who has worked in this area, which I have in Oklahoma with our State penitentiary, knows that can happen. That is not the issue. There is going to be work. They are going to get work anyway that is not as enjoyable as the work we are talking about. I support the language in the bill.

Under the debate right now, we have been talking about the proposed fifth round of the BRAC, base realignment. I have to say this: I am opposed to it, but for a different reason than the Senator from Maine who spoke before me. It is not that I don't believe in the process.

I was elected to the House of Representatives in 1986. DICK ARMEY put out this problem. He said: As it is, we are never going to be able to close installations and get rid of infrastructure that is no longer something we need if we leave it up to the political process. And that is what we are doing. Either those of us who are not a Member of the House or the Senator who is not going to protect his own turf.

That had been true. So I strongly supported DICK ARMEY, and in 1987 we passed the House. There is a reason that we went through four rounds. Until the last round came up, it worked beautifully. It wasn't to everyone's satisfaction. A lot of people were mad about it. But a lot of bases, in New York and other places, were closed down and everyone cooperated.

In the fourth round, politics entered into it. It was a partisan thing because it was Democrats and Republicans who did it. That has taken care of where it can't happen again.

The system followed. I far prefer the system of having BRAC rounds over the system that we used before then.

Here is why I am opposed to it. It is a totally different reason. I heard Senator BURNING ask: Can anyone show me the amount of money that has been saved? We all have opinions as to what is projected into the future. I will say this: One thing we know for sure, we have closed 97 installations. I would suggest we wouldn't have closed one of them if it had not been for this process. We closed them. And in that time that we actually closed those, there wasn't one that didn't lose money for the first 3 or 4 years afterwards.

I think there probably is infrastructure out there that we are going to have to address at some time. We have two things that are going on right now: No. 1, we are bleeding. Everything is hemorrhaging right now. We know we are having problems in our force structure, problems with retention, problems with the fiscal year. We need that to build a missile defense system. All these things have top priority in the bill, and I agree that they should be done. So if we postpone the consideration—I know it doesn't take place until 2005—if we postpone it until a later date, then we will not have to forgo that money that it is going to cost to close bases at a time that we need to go into rebuilding our defense structure. We are repeating something right now like it was in 1981. We have a hollow force. So this is not the time. I might seriously consider it later on.

The second reason is this: We know we are going to change the force structure. We know we are right now at one-half of the force structure we were in 1981. It is not the case. We know that can be documented. That is one-half the Army divisions, one-half the Tactical Air Force, one-half the ships, down from 600 to 300. We know we are going to have to start building that force structure back up.

As we do it, we may be needing some of the infrastructure that right now, if it were looked at by a committee that were appointed now or next year, they might think is not necessary. Let's wait. To artificially lower the infrastructure down to here, when our force structure is too low and we are going to have to raise it up—we don't want what we are going to be needing at the time. The time is not right.

I will support it at the appropriate time. But we need every dollar we can get to rebuild our defenses today. That is what this bill is all about. That is why this is one of the few parts of this bill with which I disagree.

I yield the floor.

The PRESIDING OFFICER (Ms. STABENOW). The Senator from Ohio, Mr. VOINOVICH.

Mr. VOINOVICH. Madam President, I rise today to indicate my strong opposition to amendment No. 1622, which would strip a provision authorizing a round of base closures in fiscal year 2003 from the fiscal year 2002 Defense authorization bill, and differ from some of my colleagues who would like to do that.

As one who voted for base closing last year, I understand how important this provision is to our national security. As many of my colleagues are aware, our military now finds itself with an infrastructure base that is no longer proportionate to its force structure. It is estimated we now support an infrastructure out there of bases; there is 25 percent more than what we really need. I believe rather than continuing to pay for unneeded facilities, our defense dollars can and should be better spent to meet the most pressing needs of our armed services.

I stand behind Chairman LEVIN, Senator WARNER, and other members of the Armed Services Committee who supported the inclusion of this provision in the fiscal year 2002 Defense authorization bill.

As the committee noted in its report accompanying the bill, our top civilian and uniformed military leaders have requested this authority. For the last 5 years, they have been asking for it. I believe we should trust their guidance and act to grant the Defense Department this much-needed authority. Too often I have noticed in this body that we do not support the recommendations of the people we charged with the responsibility to get the job done. We know more about it than they do.

In this case, we have charged these people with the responsibility to secure our freedom and provide our national defense. We should listen to them. I am so glad the Armed Services Committee did so in this case.

The committee said:

The committee believes that the arguing for allowing the elimination of unneeded facilities is clear and compelling. The Department has excess facilities. Closing bases saves money, and the military services have higher priority uses that could be funded with those savings.
September 24, 2001

CONGRESSIONAL RECORD—SENATE

As our Nation prepares to engage in a new battle to combat terrorist threats against the United States and the Free World at large, it is critical that these excesses be used to meet the most pressing defense needs.

I respectfully disagree with the argument that we should not act on this initiative as our country prepares to take on those who commit acts of terrorism against our nation. On the contrary, I believe that now, more than ever before, we need these resources for more important endeavors.

As the Secretary of Defense noted in a letter to Chairman Levin, dated September 21, 2001—I want to make the point that I have heard several people say on the floor of the Senate that they can’t do it, they are too busy with other things, and don’t have the time or resources to properly do the overview that they need to determine which ones are to be closed. It seems to me that they have a better idea of what their capacity is than we have.

In this letter from the Secretary of Defense, dated September 21—that is pretty near—he said:

Indeed, in the wake of the terrible events of September 11, the imperative to convert excess capacity into war-fighting ability is enhanced, not diminished.

Basically, they say we can handle the job. Give us the permission so we can move on with it. We made hard decisions regarding the size of force structure during the past decade and we can continue to do more to make corresponding choices regarding the size and configuration of our military installations. Some of the words I have heard were that we have had base closings and they have been wonderful in terms of cost savings. The cost savings associated with past base realignment and closures, including several from my state of Ohio, is considerable.

That is the other thing. So often when these things come up, people are thinking of their own bases and they don’t want to lose the bases. I didn’t want to lose the bases in Ohio that went through the BRAC process; I thought it was fair and above board. They did close down bases. In other instances, we were able to convince them that the bases should remain open. But the fact is, as a result of these base closings, the Department of Defense has a cost savings of nearly $14 billion because of these initiatives. Given the fact we still have a military infrastructure that is in excess of more than 20 percent, we can continue to generate even more savings with an additional round of base closures.

The Secretary of Defense estimates that with an additional round of base closures, in fiscal year 2003, our taxpayers are going to save $3.5 billion annually. In this particular case, I don’t think the savings are going to be there. We will take the savings and put them to use by taking care of this war-dealing with terrorism. Given these savings, there should be little doubt that additional rounds of closures will do a much better job of directing expenditure priorities where they are most needed.

As I have long advocated during my time in public office, I believe we should work harder and smarter and do more with less. That is what we are asked to do. Keeping excess and unneeded military installations up and running takes scarce and critical resources from meeting important priorities in light of our new war. It just doesn’t make sense.

How can we ask the American people to increase our defense budget by $18.4 billion and, at the same time, know that by closing these bases we can save another $3.5 billion annually? Again, that is $3.5 billion annually. I believe the base closures are essential to allowing our men and women in uniform the ability to be used to best serve the national security interests of the United States.

I strongly oppose any amendment that would remove the much needed provision from the fiscal year 2002 Defense Authorization Act.

The PRESIDING OFFICER. The Senator from New York is recognized.

Mr. SCHUMER. Thank you. Madam President, I will be brief. I rise in reluctant support of this amendment. There have been many who have talked about how to do this—that since September 11 we are in a brave new world; that we may need reassessment, and we probably do; that we probably should not rush to judgment.

Those are good arguments. But I want to talk about the particular issues that affect my State because we are all looking at our States here. I supported BRAC while I was in the House consistently. I knew that it might affect bases in my State. But my State only lost the last BRAC that I cannot support it again. It is not simply that my State suffered dramatically of our large bases—three out of the four were closed—it is rather that the process, by just about all accounts, was highly politicized—at least in the instance of my State.

While the BRAC Commission did recommend the closing of Griffiss Air Force Base, and they did recommend the closing of the Seneca Army Depot, they did not recommend the closing of Plattsburgh. Plattsburgh was a state-of-the-art base, one of the few non-Guard facilities left in New York State. They are: Fort Drum, a state-of-the-art 10th Mountain Division, a highly trained and mobile unit, the soldiers have served nobly in the Bosnian arena. We have Rome Labs, which is an information center for the Air Force. These days, as the tragedy of September 11 showed us, military intelligence, information, and communication is the key.

If I had faith that the decision would be made on the merits, I believe that neither of these bases would be on the list. They are both outstanding and important to our security and unique. Fort Drum is, again, one of the few bases in the East—Northeast—that does this. It is one of the few that can train mountain fighting in the kind of terrain that we will be called upon to be involved with in the near future. Rome Labs, with the work of Congressmen Boehlert and myself, has chipped in $12.5 million to help revitalize, and it is doing state-of-the-art research. I have no doubt that if a decision were made totally on the merit, those bases would not be on a BRAC list. Had not the sour experience of the Plattsburgh Air Force Base existed in my mouth, I would roll the dice and gamble, hoping and believing that a decision would be made based on the merits of those bases.

So, as I said, I will reluctantly vote for this amendment. I would like to see some safeguards put in, and that we take into account areas that are shrinking in terms of population and in terms of jobs.

More important, I would like to see the process insulated from the kind of last-minute political horse trading that occurred and unfairly closed Griffiss and put McGuire in its place.

I appreciate the work of my colleagues on our security and by and large their intentions are the best and, as I said in the past, before I reached the Senate, I had supported this process. I hope we can straighten it out so that decisions are completely made on the merits and I can support it again. But until that time, given, again, the bitter and unfair experience of our State, I cannot.
Thank you, Madam President. I yield the floor.

The PRESIDING OFFICER. The Senator from Maine.

Ms. SMITH. Thank you, Madam President.

I rise today in strong support of the amendment that has been offered by the Senator from Kentucky to strike the base closing provisions within the DOD authorization bill.

We all recognize that this is not business as usual. We also recognize how we will have to reevaluate many of the considerations that are included in the Defense authorization bill, many of the ways in which we viewed our military and our force structure prior to September 11.

Even before the horrific attacks of September 11, I, along with many of my colleagues, had serious questions about the integrity of the base closing process itself, as well as the actual benefits realized. Now, with acts of war committed against the United States, with the President addressing a joint session of Congress that justice will be done, with our Reservists being called up and our troops being deployed and the unpredictability of the mission ahead, of the asymmetric threats, I do not believe this is the time to be considering the closure of additional bases.

Indeed, now more than at any other time in recent history, I believe it is absolutely critical that this Nation not sacrifice valuable defense infrastructure when we have just committed ourselves to a new war on terrorism.

This challenge will require a new overarching military doctrine, one, indeed, that has yet to be developed. One of the central goals of this administration has been to overhaul the military doctrine which has been in place since the cold war, requiring that the United States must be able to be engaged in and to respond to major theater wars at the same time.

Until a new doctrine has been determined, we cannot decide what the military infrastructure should be. Now with the announcement by the President of a Cabinet-level position responsible for homeland defense, we certainly do not know essentially what our requirements at home will be to provide for our national security interests. Until there is an assessment and cataloging of those needs, we simply cannot afford to determine what additional bases should be closed.

I look at the Northeast, and in all the four previous rounds the Northeast has lost 49 bases, roughly 50 percent of what we had prior to the BRAC process. 79, or just under 35 percent of the installations on the east coast, were closed during the previous four rounds.

Although the Office of Homeland Security will not take the place of the Department of Defense, it obviously will be coordinating many of the law enforcement responsibilities of the myriad agencies across the Federal Government, and all of our military installations will no doubt play a critical and prominent role in our homeland security.

Moreover, the war on terrorism will be a long-term challenge, as the President has said repeatedly. This will require a sustained resolve and effort on the part of the United States. It will involve U.S. military, intelligence, and law enforcement personnel and resources. These forces will require the support of our domestic and overseas installations. This is all in addition to our current force deployments and peacekeeping operations that we have in Bosnia and Kosovo and, of course, our logistical support in Macedonia.

Instead of chasing elusive savings, I believe the Department of Defense needs to prepare a comprehensive plan that identifies the operational and maintenance infrastructure required to support the services’ national security requirements. We all know that once the property is relinquished, it is permanently lost as a military asset for all practical purposes.

Proponents of additional base closure rounds are quick to point out that reducing infrastructure has not kept pace with post-cold-war military force reductions. They say bases must be downsized proportionate to the reduction in total force strength. However, the fact of the matter is, there is no strong correlation between the size of our forces and the infrastructure required to support them. Belief that there is disturbs me. I heard it repeatedly when I served on the Senate Armed Services Committee and chaired the Seapower Subcommittee. I was in the House when this whole process began. I think about it in terms of the 1997 QDR. The Quadrennial Defense Review process.

Since the end of the cold war, we have reduced the military force structure by 36 percent and have reduced the Defense budget by 40 percent, but now I ask you: How much are we employing that force? Although the size of our armed service has decreased, the number of contingency operations that our service members, our men and women, who are in the military, have been called upon to respond to in recent years has dramatically increased.

As I said, I chaired the Seapower Subcommittee of the Senate Armed Services Committee in the last Congress. Guess what. The Navy and Marine Corps team alone responded to 58 contingent missions between 1980 and 1989—58 between 1980 and 1989—and between 1990 and 1999 they responded to 333. That’s an increase of 6.4 times.

Between 1980 and 1989, they responded to 58 contingencies. But from 1990 to 1999, in that entire decade, it was 192, and that is just for the Navy and Marine Corps alone.

During the cold war, the U.S. National Security Council rarely approved the creation of peace operations. In fact, it was a relatively rare event. I served on the Foreign Affairs Committee in the House of Representatives, and I was the ranking member of the Subcommittee on International Operations. We rarely had such contingency operations. In fact, the U.N. implemented only 13 peace operations between 1948 and 1978 and none—none—between 1978 and 1988. Through last year, by contrast, there were 38 peace operations, nearly 3 times as many during the previous 40 years.

Madam President, as a former member of the Senate Armed Services Committee, and chair of the Seapower Subcommittee, I can attest that the Armed Services Committee has listened to our leaders in uniform testify that our current military forces have been stretched too thin, and that estimates of forces for the 1997 QDR underestimated how much the United States would be using its military. Clearly, the benefits of the peace dividend were never truly realized. So, we are seeing first hand that the 1997 QDR force levels underestimated how much our military force was intended to be used, that our military force is being called upon now more than what military strategies estimated, and that force levels are being stretched to cover a wide range of operations.

Keep in mind, Mr. President, that force levels may have to be revisited once again in light of the new anti-terror mission our military faces, and may well require an increase. So would we then go and buy back property that we have given up in future base closure rounds to build new bases—I think not.

Madam President, the Department of Defense contends there is 20 to 25 percent excess infrastructure today. Before we legislate defense-wide policy to reduce the number of training areas critical to our force readiness, the Department of Defense ought to be able to tell us, through a comprehensive plan, the level of operational and maintenance infrastructure required to support our shifting national security requirements. Congress, instead, is being pressed to authorize base closures essentially in the dark, without the upcoming Quadrennial Defense Review or Future Years Defense Plan. We will have a preliminary QDR in the near future, but it will have to be revised in light of the new threat facing this nation. How can we make fundamental decisions about our infrastructure needs before we even have any guidance from the QDR?

During the QDR, the committee held a full hearing on the subcommittee hearings that the Armed Services Committee held during the 106th Congress—while I sat on the committee, and chaired the Seapower Subcommittee—the Chief of Naval Operations and fleet commanders testified that the QDR-established force levels were not sufficient to support...
September 24, 2001
CONGRESSIONAL RECORD—SENATE 17765

their operational requirements. A report by the Chairman of the Joint Chiefs of Staff concluded that the submarine force levels needed to be raised from the 1997 Quadrennial Defense Review and I anticipate that the next QDR will support an increase in the Navy force as well.

We simply must not take the risk of losing critical infrastructure at this time. Not only have arbitrary comparison of personnel and infrastructure levels never been the basis for military force structure changes . . . Not only has a direct correlation between force and facility level yet to be established . . . but the Department of Defense has said that the primary criteria for base closure will be military value tied to the forthcoming QDR. But this begs the question as to the validity of the QDR numbers—the 1997 QDR has been heavily criticized for getting the numbers wrong with regard to the Naval fleet size. It could be premature and costly to predicate base closure decisions even on the 2001 QDR, until we knew for certain what our needs will be as we confront the new terrorist threat. Critical assets such as waterfront property, airspace, and bombing ranges would be far more difficult and expensive to replace than troops, ships, and tanks.

Proponents argue that the administration’s approach will be based upon military value and removes parochial and political factors from the process, but in reality, the administration’s Efficient Facilities Initiative is more similar to past BRAC rounds than one might think. Much has been made of the de-politicization of the process by including “military value” and the other criteria in the legislation. However, review of the last process reveals that these criteria are nearly identical to those used in the 1989 round. This is very much in part because in most cases the past BRAC rounds were not fair or equitable, and were not based solely on military value. I have been through BRAC before. And I have to say, I know how the criteria can be twisted to the advantage or disadvantage of a given facility. In fact we had not one but two Air Force generals defending the former Loring Air Force Base before a past BRAC commission; yet the Air Force claimed its facilities were “well below average”—and this despite the fact that $300 million had been spent there over a ten year period to replace our upgrade nearly everything on the base and it ended up being closed on so-called “quality of life” issues even though that was never supposed to be part of the process.

I strongly believe Congress must also consider the economic impact of base closures on communities in light of the uncertainty regarding the nation’s economy in the wake of the September 11 terrorist attacks. Prior to that date, it was clear that the economy was slowing, perhaps even entering a recession. Today, there is a great deal of uncertainty about the state of the economy in the quarters to come.

In August 2001, GAO issued an overview of the status of economic recovery, land transfers, and environmental cleanup in communities that have lost bases during previous BRAC rounds. GAO found that the short term impact of a base closure was traumatic for the surrounding community and that economic recovery was dependent on several factors including the strength of the national economy, federal assistance programs totaling more than $1.2 billion, and an area’s natural resources and economic diversity.

Keep in mind, Mr. President, this assessment was done during a time of unprecedented economic growth and as GAO stated, the health of the national economy was critical to the ability of communities to adjust: “Local officials have often referred to the national economy as one explanation of why their communities have avoided economic harm and found new areas for growth.” GAO also noted: “Local officials from BRAC communities have stressed the importance of having a strong national economy and local industries that could soften the impact of job losses from a base closure.”

With the slow-down of the economy, and the uncertainty brought about by the recent tragedy, it is doubtful that communities will be able to rebound even to the extent they have in previous years. Indeed, it is vital to note that not every community affected by base closures has fared so well in the past—those in rural areas still experienced above average unemployment, and below average per capita incomes.

In this vein, I would like to discuss for a moment the issue of the up-front costs involved in the base closure process. This appears to be noticeably absent from the discussion—some believe that there are, in fact, billions of dollars in costs incurred to close a base. These costs include over $1.2 billion in federal financial assistance provided to each affected community—a cost paid by the federal government, not through base closure budget accounts, and therefore not counted in the estimates. And more significantly, there is at least a $7 billion environmental cleanup bill so far as the result of the first four BRAC rounds—a conservative figure that will continue to grow, according to a December 1998 GAO report.

Indeed, the Department of Defense has admitted that savings would not be immediate; that approximately $10 billion would be needed for up-front environmental and infrastructure improvements. The Department of Defense also projects that savings from 2003 closures would not materialize until 2007.

Advocates of base closure argue that billions of dollars will be saved, despite the fact that there is no consensus on the numbers among different sources. These estimates vary because, as the Congressional Budget Office explains, BRAC savings are really “avoided costs.” Because these avoided costs are not actual expenditures and cannot be reconciled and tracked by the Defense Department accounting systems, they cannot be validated, which has led to inaccurate and overinflated estimates.

The General Accounting Office found that land sales from the first base closure round conducted in 1993 were estimated by Pentagon officials to produce $2.4 billion in revenue; however, as of 1995, the actual revenue generated was only $65.7 million. That’s about 25 percent of the expected value. This type of overly optimistic accounting establishes a very poor foundation for initiating a policy that will have a permanent impact on both the military and the civilian communities surrounding these bases.

And the GAO has found that, in reality, the majority of land designated as excess in previous BRAC rounds is still in DOD possession. Moreover, GAO reports that environmental cleanup costs have been underestimated. So far, as mentioned, $7 billion of the savings from BRAC-associated costs have been attributed to environmental cleanups. This figure is estimated to increase over $3.4 billion after FY01, $1 billion more than the $2.4 billion originally projected in 1999.

Lastly, when and if cost savings materialize, the Department of Defense intends to allow the services to retain savings and use the funding at their discretion. This does not guarantee that any freed up funding will go toward comprehensive modernization or quality of life improvements—one of the arguments employed in favor of the BRAC process.

I believe that the Department of Defense has other long term alternatives to base closures that provide savings for important military programs. The 1997 Defense Reform Initiative included actions such as streamlining, paperless contracting, and reduction in staff personnel. These reforms were estimated to lead to approximately $3 billion in savings. The new administration has proposed similar initiatives and efficiency improvements that could generate substantial savings.

Madam President, I want to protect the military’s critical readiness and operational assets. I want to protect the home port berthing for our ships and submarines, the airspace that our aircraft fly in and the training areas and ranges that our armed forces require to support and defend our Nation and its interests. I want to protect the economic viability of communities in every state. And I want to make absolutely certain that this country has the military infrastructure it will need in the years to come to support the war on terrorism. We must not degrade the readiness of our armed forces by closing more bases, certainly not at this time. Certainly not without information on our future defense needs that we do not have.
Madam President, we say that we are going to have a Quadrennial Defense Review, and at least the preliminary report is expected to be forthcoming this month. We recognize that we need to examine in a professional and skilled way, even in spite of all of the pressures as a result of doing so much more with less.

So I say we have to really draw back. We cannot afford to put this process in an automatic motion for some course in the year 2003 because we have to go back and reexamine exactly what we need and why we need it.

What message does it send to those who are responsible for military forces who are about to deploy, that somehow we are going to be downsizing at home? We might need those bases. I know the Senator from New York mentioned Plattsburgh, that it was a state-of-the-art facility. So too was Loring Air Force Base. It was on the base closing list and was closed in 1991, and we spent a total of $300 million providing every upgrade in that facility. It happened to be a base that was the closest base to Europe, to the Middle East, to Africa, to Russia, but we were told we are in a new era where it is no longer required.

How do we really know, when we see the threat that occurred and the tragedy and the enormity of the impact of that attack on September 11? No one could have fully anticipated what has affected the United States and the civilized world.

So I think it would be prudent on our part to recede from this predicate that somehow we have excess infrastructure because we really do not know. It is an uncertainty. It is as uncertain as the asymmetric threats that are now prevalent in the world today.

So I hope the Senate will support this amendment to strike these provisions because we really do have to re-examine many of the issues that are now prevailing in our world of today. We do not know the validity of what numbers, from which report, will now be applicable in today's world with this threat escalating.

In my own experience, not only with the four previous rounds and the base closing process, but also in terms of underestimating the number of times our men and women would be deployed in other parts of the world, and I know firsthand from the testimony that was provided to my subcommittee when I chaired the Seapower Subcommittee, that our forces were stretched too thin, that we could no longer absorb the demands being placed on us because we were being asked to do so much in so many places around the world.

So now, in view of September 11, it is all the more prudent that we begin to examine what we need in America today to provide for our security, an absolutely critical mission of this administration: Give us your plan, tell us what you think our infrastructure needs and where we need it. In hearing after hearing, I implored the Pentagon and the previous administration: Give us your plan, tell us what you think our infrastructure requirements will be, and based on what threats, that we will need to have so many installations and so many locations around the country. That is something we have never received.

Now they say they base it on the 1997 QDR report. Well, we know that underestimated the utilization of our military forces. Why would we want to put in place another base commission closing process, set it on an automatic path, when we have yet to receive the new Quadrennial Defense Review and how that will have to be re-evaluated in light of the threat we now face with terrorism? It really does not make any sense.

I know the Department of Defense has indicated there is a 20- to 25-percent excess of infrastructure, but I do not know how that has been arrived at that excess of this 20 to 25 percent because we have never had a plan. I know this is a new administration, and it is beginning to evaluate it, and obviously an enormous burden has been placed upon it as a result of September 11. Those of us who have been through the experience of this last decade with contingency operation upon contingency operation that has stretched our forces to the maximum—those of us who have been through the experience of this last decade with contingency operation upon contingency operation that has stretched our forces to the maximum—that has had a tremendous impact on their abilities, and they have performed in a professional and

The environmental cleanup costs have been underestimated. So far, $7 billion, or 32 percent, of the BRAC-associated costs have been attributed to environmental cleanups, and this figure is estimated to increase over $3.4 billion after fiscal year 2001. These figures are for base closures already in progress. If another 20 to 25 percent of installations are environmentally sensitive, cleanup costs can be expected to skyrocket. Increased costs in environmental cleanup have led to delays in the cleanup process and deferment of land transfer for reuse. This further cripples local communities already hurt by the base closures.

There are a number of other issues regarding those savings, and I draw my colleagues' attention to the GAO report "Military Base Closures, DOD's Updated Net Savings Estimate Remains Substantial," dated July, 2001.

In conclusion, this is not the time to ask of this of our communities that would be directly affected by potential closures, the men and women who work at these installations. They have to use their energy, attention, and focus to begin to prepare for the arduous, complex process of trying to determine what the real costs of those who are trying to defend these installations. It costs millions of dollars for communities across this country, with the installations at stake. In Maine, for example, a community in Brunswick has already established a committee to begin to re-evaluate. Now, in light of September
11, that is not what we should be asking of anyone.

We have to absolutely make sure this Nation maintains the military infrastructure in the years to come to support all of our challenges, and certainly this new one, which is the war on terrorism. I hope we will not embark on this process that ultimately could lead to a degradation in terms of the readiness of our Armed Forces, certainly not at this time, not without information on our future defense requirements that we certainly do not have at our disposal at this point.

I hope my colleagues will support the Senator from Kentucky in his effort to strike the language that creates this additional process. I thank Senator Lott, our leader, for all of his efforts. I know he has been supportive in making sure this can happen.

Mr. President, I thank the Senator from Maine for her remarks and for her leadership in this area. She paid attention to these issues when she was in the House and served on the Armed Services Committee in the Senate and is very knowledgeable and makes such a good point. To go forward with this, with no plan, no certainty about where we are going in the future, would be a big mistake. I thank her for her efforts.

As this body considers yet another round of base closure hearings, I think it is very important that we pause and reflect on where we have been, and examine where we are, and particularly today, where we are going with our future force structure considering we find ourselves in a new war against terrorism.

I’ve said it many times before: we have been down this “old BRAC Road” before, actually four times. The pros and cons of the BRAC process should be well defined by now.

I have always opposed the BRAC process because, first and foremost, it is an abdication of responsibility by Congress. For years, Congress made base closure decisions based on recommendations from our military leaders. This supposedly independent BRAC commission was supposed to take politics out of the base closure process, but it has failed. There are always concerns about the fairness of how it is done. There are always implications or indications that some political considerations came into play, and always will be.

Regrettably, there have already been statements from Defense officials, which hint at bases that should be reduced or moved. In a USA Today article Ray DuBois, Deputy Undersecretary of Defense for Installations and Environment, said the Pentagon wants to consolidate its bases by relocating some operations from congested areas to sparsely populated regions. He offered hints about moving training activities that must be brought closer to the Northern Plains State, whittling down some of the 150 military operations in the Norfolk, Virginia area, and moving activities out of Andrews Air Force Base.

Secretary of Defense Donald Rumsfeld recently said the Pentagon was considering a variety of options, including mothballing some bases, mothball part of a base and keep the rest open, or close only part of a base. Mothballing means that even the surrounding community will be prevented from using the abandoned facilities, devastating any hope of economic development in these local communities.

We must realize that an attempt to close bases, through any means, is one of the most difficult decisions of our Armed Forces. With the turnover of our basing structures, our base communities and our Nation’s security should therefore be decided by the elected officials of this nation, not by an appointed commission.

Secondly, we know for certain that the BRAC process severely disrupts the local economies of communities across the nation. Statements like those coming out of the DOD in the past few months only exacerbate the anxieties of local communities. These communities have hired consultants and will spend millions of dollars trying to prove the worth of their bases out of fear that they will be closed.

For such communities, losing a base is more than just an economic loss; it is an emotional loss and a blow to the heart of their identity. These are not just nameless, faceless people involved. In most military communities, personnel from the base are their church leaders, little league coaches and scout leaders. In the future, they will have less money to spend. Communities that closed a base have lost more than economic well being, they have lost friends, neighbors, and community leaders. I think it is very important that we remember what this process does to these communities and to the people who are involved.

The third thing we now know about BRAC is that its savings cannot be documented. The economic and fiscal ramifications of closing and realigning bases Congress has already authorized will stretch well into the 21st century. The proposed savings from previous BRAC rounds are nothing more than imprecise Department of Defense estimates that cannot be confirmed.

In fact, according to the GAO have said the Department of Defense cannot back up its savings estimates with hard facts. Given BRAC’s purpose in life is to save money, I find this especially disturbing. If DOD cannot tell us how much has been saved by previous base closures, it begs the question, how can they say we need more?

Now are know that it is almost impossible to assess the real damages, savings, or benefits from these previous base closings. We have seen this time and time again. For instance, we have made decisions that certain bases would be closed and there would be certain savings. Yet, we have found that it is very difficult to move toward closing these bases and getting the savings for which we have been promised. This introduces a new set of environmental problems in cleaning up those bases before they can be turned over to the private sector or the local communities. To this day, many of the recommendations from previous BRAC’s have not been completed. We are still operating bases, facilities, or depots that supposedly were going to be closed. Today, they are still not closed.

Finally, the objective of BRAC is to match base infrastructure with force structure. Yet today, our Department of Defense is working on their plan to transform our Armed Forces. In light of current events, I think we all agree that a new threat has emerged and a new type of war will be fought. I have to ask, what will be the force structure of the future? And, where will we need bases for operating, training, and maintaining this force? These are just a few of the questions that must be answered before we make a large-scale commitment to change our defense infrastructure.

Secretary Rumsfeld is still working on his Strategic Reviews to define the environment for the future and to make recommendations on force structure changes. He has stated that the fiscal year 2003 Defense budget submission will be his first opportunity to implement these transformational ideas.

DOD is also currently executing the Congressionally mandated Quadrennial Defense Review (QDR), and was scheduled to brief Congress later this month on the results. I have no doubt this report will be delayed due to the terrorist attack on the Pentagon. This body has been patient, and continues to wait anxiously for these reviews because we know their importance to the future of our military.

Why, then, would we make such an important decision as closing certain bases before these long awaited reports are even available?

Without these key assessments, how do we define the base requirements for our future force? We have yet to decide not only what that force should be, but where it should be based. Now is not the time to get the proverbial “cart in front of the horse.” Another round of base closures should not happen until all of the studies and reviews have been completed and the President is given the appropriate time to update the National Security Strategy.

So without having had an opportunity or a means to assess the changes in our infrastructure, and without having the opportunity to get
previously identified bases closed and savings realized, and without even identifying the future force structure of our military, we now have to confront the reallocation and consolidation of infrastructure that we should have yet another round of base closures. As a result of all these factors, CBO observed that additional base closures "should follow an interval during which DOD and independent analyses examined the actual impact of the measure that have been taken."

I agree. Before we go forward, we need to take a look at what we have already done, evaluate it, and make sure we understand the cost savings and the costs that have been expended—both in financial terms and in terms of our military capabilities. Only after this review can we make an informed decision about whether or not to have another round. To go forward and blindly close more bases when we are not even sure whether Bush granted the authorization, just does not seem like good policy.

I have stated to the President, the Secretary of Defense, and all the Service Chiefs of Staffs that if they desire another round I could only support a round that focuses on those areas identified with large excess capacity. This focused round would provide savings but not reduce infrastructure below what might be required by the future force.

One area is overseas bases and facilities. The 1990 BRAC legislation outlines the sense of Congress that closure of military installations outside the United States should be accomplished at the discretion of the Secretary of Defense at the earliest opportunity.

Yet today, we have over 700 activities in Europe and Asia alone. Europe has 523 activities with 115,650 active-duty personnel. We invested $572 million in military construction in Europe from 1997 to 2001. That equates to an average annual investment of $14.5 million per year. In Asia we have 188 activities with 129,482 active-duty personnel. There are more troops in Asia than Europe but 60 percent less activities. The United States invested $653.8 million in military construction in Asia from 1997 to 2001. That equates to an average annual investment of $121 million per year.

In a recent meeting with Secretary of the Army Tom White, he mentioned the possibility of moving 10,000 troops from the European theater to the Pacific theater. During a separate meeting, Deputy Secretary Paul Wolfowitz mentioned transferring 10,000 troops from Europe back to the United States.

Just last week on Friday, September 14, President Bush granted the authority to mobilize 50,000 reserve personnel for Homeland Defense. How will these large-scale troop realignments affect our infrastructure requirements of the future?

Why are we continuing to close installations in the United States when there are so many facilities overseas that we continue to sink large amounts of funds into year after year? In light of the events of September 11, I believe we need to consolidate overseas installations; therefore providing a more secure environment as well as improving the quality of life for our service-members and their families.

These are some of the questions we need answered before we authorize an additional round of BRAC. If after the President's Strategic Reviews and the QDR, the required force structure supports further base closures, then I think DOD should identify bases they no longer feel are necessary and submit their finding to Congress. I have full faith that this body is capable of looking objectively at our defense needs and determining whether a base has outlived its usefulness.

Given what we already know about BRAC, the ongoing reviews, and more importantly, what has happened in recent days, I cannot support and vigorously oppose the Department of Defense's request for another round of base closure.

For that and many other reasons, I offer these amendments, one to strike and one to modify section 29 of the National Defense Authorization Act for Fiscal Year 2002. I hope my colleagues will support me on this important issue.

I support and am a principal cosponsor of the amendment to strike section 29 of the national authorization act of 2002. That section provides authority to carry out the base closure round of 2003.

As this body considers yet another round of base closure hearings and proceedings, I think it is important we pause and reflect on where we have been and examine where we are, and particularly, today, where we plan to be in the future with our force structure. Therefore, consider the duplicity we have witnessed in the last 2 weeks.

I have said many times before we have been down this old BRAC road—actually, four times—and there are pros and cons about whether we should do it.

This time I have listened to the arguments of the Pentagon, and the Secretary of Defense and I have weighed it very carefully. I still oppose the process. I still think this is an abdication of responsibility, to turn decisions of this nature over to this Base Closure Commission. I have always taken that position. Some people, say, well, how did you plan to do it? How did we do it before? We started this process in the 1980s. The Pentagon would make decisions. If bases were not necessary or could not be consolidated, and they sent a recommendation to the Congress. And the Congress would take it under advisement, sometimes accept the recommendation, sometimes reject it. In many instances, bases were closed in the late 1940s and 1950s and 1960s. I know of at least four bases in my immediate region that were closed, including one I believe in the 1970s, Brookley Air Force Base in Mobile, AL, bases around my State.

Congress faced up to it. If it could be justified, if it can be, and we can be assured it will leave us the capacity to do what we need to do, I think Congress will step up to it. Some will say this is a way to get politics out of it. Really? How many think politics did not come into play the last time we had a base closure round? It clearly did. That is why many Democrats and Republicans in the Senate have opposed another BRAC process over the last 2 years.

Some would have said 3 weeks ago that it is time we give it another chance, and we do have duplication and excess capacity. In my meetings with the Secretary of Defense and the service secretaries and representatives of the Office of Management and Budget, I have indicated I would do one round, not two, but also if it would be targeted to those places where we know we have redundancy or excess capacity; or, to put it conversely, where we know we are not going to close bases, then say it will not apply in these areas.

By the way, one of the key questions I want to ask in my remarks: What about bases in other places of the world? We have given the Pentagon the authority to consolidate missions and close bases in Europe and other parts of the world, but they have done very little of it. In fact, I think one of the most interesting statistics I have come across anywhere is this: We have over 700 activities in Europe and Asia alone. Europe has 523 activities with 115,650 active-duty personnel. We have invested $572 million in military construction in Europe from 1997 to 2001. That equates to an average annual investment of $14.5 million per year.

Given what we already know about the budget, we do not have the money to do another round. To go forward and blindly close bases in other parts of the world is just does not seem like good policy.

I would like to make sure in fact something is going to be done in Europe before we start down this track of another base closure round in the United States. We have already had one round. The Deputy Under Secretary of Defense for Installations and Environment was quoted as saying maybe we would want to accommodate bases by relocating some operations from congested areas to sparsely populated regions, even talking of moving bases from one region to another. I understand there is
September 24, 2001

CONGRESSIONAL RECORD—SENATE

17769

some denial of that or apology for it. Maybe it shows some of the thinking.

We have also had the suggestion from the Pentagon that they were considering a variety of options, including mothballing some bases, or mothballing part of a base and keeping the rest open or closing only part of that base. What that means is, even the surrounding community will be prevented from using the abandoned bases. That might be the worst of all worlds. We will not say yes or no. We will say, well, we might want to keep part of it, not this part, maybe mothball this one, will not turn it over to the county, community, the State, for them to do something else with it.

I don’t think this has been thought out. I don’t think there is a plan of how this would work.

We know for certain that the BRAC process severely disrupts local economies of communities across this Nation. If we have another BRAC, every community that has a base future in America, the next 2 years will have to hire some high-priced, high-powered consultants and lobbyists to tell them what to do. You are not talking about cheap money, you are talking about $200,000 a year, a quarter of a million a year. Everybody will get on their war footing to try to satisfy the anxieties. And, by the way, in many instances where they are not even going to be considered—or where they might be considered, but clearly in the end it will not happen. But let me tell you, that is what will happen.

Here is one thing that worries me. I had this feeling basically before 2 weeks ago, but think about it now. Think about it today. Our National Guard units are being activated. Tankers from Meridian, MS, are flying overhead to keep our jets flying. Our Air Guard units that lease the C-141s, the C-141s, they are going to be involved. You can be sure of that. We have already had reservists called up, medical units, intelligence units and military police forces.

At a time when we are activating Reserve units and calling up Guard units and we are telling the American people: We have been attacked, get ready, be ready and break out the flags. Let’s support our men and women in uniform—and by the way, your base may be on the base closure list.

Great timing? This is a great way to rally the troops. While we are expanding and planning for the future and not really sure what all we are going to need, making demands on communities, individuals, every community in every State in America is about to be affected by this, and then we are going to come with this particular proposal? I don’t think so, colleagues.

Some people say: Don’t worry, it will be taken care of in conference. I have counted on that before and it did not quite work out that way.

So I hope my colleagues in the Senate will think about the timing of this. What are we to expect in the future?

The third thing we now know about BRAC is the savings cannot really be documented. Again, we will get arguments there can be savings. Yes, maybe duplication and redundancy and overlapping, things we did not need because of changes in plans for the future, and it would be aimed at those areas, not just a broad brush at every base.

We also have, I listened to the congressionally mandated Quadrennial Defense Review and was scheduled to report to Congress later this month on the results. I have no doubt this report will be delayed due to the terrorist attacks.

So I think I have made my point here. This could be done, but I think it would have to be done with more planning, with more indication of what our needs are going to be, what we want in the future, and with some targeting.

But that is not what we have here.

I say again, I think we need to take a look when we do it, not just at what we have here in America but what we have around the world. We are going to have this new homeland defense position. Would we like to see how that is going to be formed and what their recommendations would be, before we start down this trail?

I think that would be the responsible thing to do. This is an administration that I am very proud of. I have had a long relationship with Secretary Rumsfeld. I have listened to Secretary Cohen, my personal friend—I sat next to him on the Armed Services Committee—the Secretary of Defense with President Clinton; I have listened to the Pentagon officials this time around. I think they are the experts, but I think we have a responsibility to ask the tough questions.

This time, the tough question is, Are we ready? Do we know what we are doing, or is this just the knowledge that maybe we have some activities that we can do without? But is that the case today as it was 2 weeks ago? I don’t think we know.

So I hope we will move on this amendment to strike. I appreciate the effort that has been made by the chairman and the ranking member to come with this bill. Concessions were made. Senator DASCHLE and I kept encouraging them to keep working and they did. They did a great job.

I hate to stand up and speak on behalf of an amendment to strike anything out of this bill. I hoped basically we could just come together and get it done. I still think we can. There is no reason why we should not be able to get a list of amendments agreed to and complete this legislation tomorrow or Wednesday morning. I think that would be an important signal of how we are working together. We are doing the right thing for the defense of our country and our efforts to help the economy and help deal with the threats this country faces.

The American people are saying they like seeing us do that. I think we
should do it on this bill. But for now, I think we should do it without this section. I thank my colleagues for their patience and I yield the floor.

The PRESIDING OFFICER. The Senator from Nevada.

Mr. REID. I ask unanimous consent the list I shortly will send to the desk be the only first-degree amendments remaining in order to S. 1438, the Defense Authorization bill, and that these amendments be subject to relevant second-degree amendments; upon disposition of all amendments, the bill be read a third time, and the Senate vote on passage of the bill with no intervening action or debate.

The PRESIDING OFFICER. Is there objection? The Senator from Texas.

Mr. GRAMM. Reserving the right to object, I was over here trying to do my reading homework. I am not sure I heard. Is the Senator asking that we limit amendments to the bill at this point?

Mr. REID. Yes. The unanimous consent agreement I proposed just now, for the third or fourth time, is that we would have a finite list of amendments, not limiting the amendments but that the two managers would be able to sort through the amendments, find out which ones they agree with, those they want in the managers' amendment. Anyway, they would have a list of amendments.

If we do not do that, I say to my friend from Texas, we will never finish the bill. This doesn't limit debate on any amendment. It doesn't limit the number of amendments that people would want to offer. But it would bring some finality to the list of amendments.

Mr. GRAMM. Further reserving the right to object, I am hoping something can be worked out on a nondefense issue which has found its way into the bill. I don't think I can to expedite that, to get that issue out of the way. I think we can save time by working that out, if we can.

On that basis I have to object.

The PRESIDING OFFICER. Objection is heard.

Mr. REID. I say to my friend, I know there are other items that need to be worked on tonight. I say to my friend from Texas, we are arriving at a point in this legislation where I simply do not think it works to have us on this bill. There are many other important issues we need to finish before Wednesday at 2 o'clock.

One of the things we wanted to finish was this bill. The majority leader badly wanted to finish this bill. The Republicans worked the bill. It is important for this institution and it is important for the country, but unless the managers get a list of amendments, we are not going to finish this bill.

I suggest perhaps to the leader that tomorrow maybe we should go to some of the other legislation that has to be done before we get out of here on Wednesday. I know the Senator from Texas feels strongly about a matter that is in the bill. But I would suggest to him that he should offer an amendment, debate it, and let the cards fall where they may.

But, as I said, the unanimous consent request that has been propounded does not limit debate or amendments in any way.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. VOINOVICH. Mr. President, I rise to speak in opposition to the motion to strike BRAC from the Defense Authorization bill and to speak on behalf of amendments that would put the money that we would save to better use in terms of our national security.

We just elected a new President of the United States. He selected an outstanding management team: Colin Powell, Secretary of State; Donald Rumsfeld, Secretary of Defense; people who are well seasoned in terms of our national security interests. It seems to me if that team we are entrusting the security of the United States of America to believes the BRAC process would be well taken in the best interests of the United States of America and would serve our national security needs that we ought to follow their leadership in that regard.

If we have confidence in them moving forward with all the other aspects of securing our national defense, we ought to also give them some recognition and approval in terms of what they want to do in terms of our infrastructure and our bases in the United States and throughout the world.

I hope the Members of the Senate will consider their recommendations.

As recently as September 21 after the national tragedy on the 11th, Secretary Rumsfeld came back and said to the Armed Services Committee: We want to move forward. We must move forward. I urge my colleagues to pay attention to the folks to whom we have entrusted our security.

Almost two weeks ago, the American people watched in horror as the terrorist attack on the World Trade Center and the Pentagon unfolded before our very eyes.

As the nation slowly recovers, the image that no one will forget is that of Fire, Police and emergency service personnel running towards the flames and destruction while terrified individuals ran the other way.

These brave men and women knew they were racing into obvious danger, risking their own lives in order to save others, but each one knew—and accepted—the fact—that it was their job to do so.

Just three days after the attack on the Pentagon, I got an opportunity to see the devastation at that familiar landmark first-hand.

I was struck by the looks of quiet determination on the faces of the rescue personnel, each knowing the serious business they faced, and contemplating the serious business they have yet to do.

Last Thursday, I was in New York City with 40 of my colleagues to tour the World Trade Center site. Standing at "ground zero," seeing that devastation first hand, has sealed my resolve to do whatever I can to make sure that such terrorism is never again used upon the United States of America.

It is important for the future of our nation—our children and grandchildren—that we support the President. The President was absolutely right in his speech to the nation last Thursday evening when he said "Americans should not expect one battle, but a lengthy campaign unlike any other we have ever seen."

As I said on the floor of the Senate the day after this heinous attack, "our actions must be ongrowing, relentless, and be dedicated to excising the cancer of terrorism wherever it raises its ugly head."

And if we expect to win this war, we will need the resources necessary to do so. And the one resource we need above all others is human capital.

The American people have demanded—and rightly so—that we make our airports and commercial aircraft safer.

They want this government to turn the full force of the FBI towards conducting investigations and pursing terrorism suspects.

They have urged us to beef-up our border patrols and strengthen our immigration and customers enforcement.

And most of all, they want this nation to use the full force of its intelligence, law enforcement and military apparatus to root out and squash every terrorist organization in the world.

To ask their government to do these things is the right of every American, but these will not be easy tasks to accomplish, Mr. President.

They will not be easy because at this moment, the federal government faces a human capital crisis; we are losing the very people we need to run our government—and their valuable experience—with each passing month.

And as they retire, we are not doing enough to replace them with the "best and the brightest": the individuals who will carry-on the important work of our nation.

The human capital crisis saps our strength as a nation, and at this critical time in our history, we cannot afford to be vulnerable.

Since I was elected to the Senate, I have devoted a great deal of my time to examining this crisis in the Federal workforce and how we can address it.

I can tell you that we need a unified strategy to rebuild the federal civil service in light of the challenges it confronts—especially in the aftermath of the attack on our nation on September 11.
The human capital crisis extends not just to our security and law enforcement agencies, but it includes virtually every department, agency, and office in the Federal Government.

While the entire Federal Government is in need of a massive infusion of high quality human capital, I am most concerned about the workforce of the national security establishment, because national security is the most important responsibility of the Federal Government.

On March 29, the Subcommittee on Oversight of Government Management held a hearing entitled, "The National Security Implications of the Human Capital Crisis."

At the March 29 hearing that I chaired, former Defense Secretary James Schlesinger and Admiral Harry Train, United States Navy, retired, testified on behalf of the U.S. Commission on National Security in the 21st Century.

The Commission, which was chartered by former Defense Secretary William Cohen in 1998 and chaired by former Senators Warren Rudman and Gary Hart, undertook a comprehensive evaluation of our national security strategy and structure.

The final report of the Commission, "Road Map for National Security: Imperative for Change," was released this past February. It includes 50 recommendations on such areas as recapitalizing America's strengths in science and education, institutional redesign of critical national security agencies, the human requirements for national security, and securing the national homeland.

On this latter point, I am pleased that the President has taken quick action to establish an Office of Homeland Security. The head of that office, Governor Tom Ridge is a friend of mine, and I believe he is more than able to face this challenge.

Regarding human capital, the Commission's final report concludes:

As it enters the 21st century, the United States finds itself on the brink of an unprecedented crisis of competence in government. The maintenance of American power in the world depends on the quality of U.S. government personnel, civil and military, at all levels. We must take immediate action in the personnel area to ensure that the United States can meet future challenges.

The report went on to state that: . . . it is the Commission's view that fixing the personnel problem is a precondition for fixing virtually everything else that needs repair in the institutional edifice of U.S. national security policy.

The General Accounting Office's Comptroller General, David Walker, also pointed to the human capital crisis as a growing problem in our national security establishment, stating at a hearing I held in February that:

At the Department of Defense, where a Defense Science Board task force found that "there is no overarching framework" for planning DOD's future workforce, civilian downsizing has led to skills and experience imbalances that are jeopardizing acquisition and logistics capabilities. In addition, the State Department is having difficulty recruiting and retaining Foreign Service Officers . . .

In fact, we have less people today applying to the Foreign Service. And of those people who we find meeting those very high standards, less of them are going in the Foreign Service than ever before.

I believe Secretary Schlesinger and Comptroller General Walker hit it right on the head when it comes to human capital.

Consider that we are currently making preparations to take on Osama bin Laden and his Taliban protectors and we don't have enough people who speak their language.

Consider that the investigation that is underway by the FBI is hampered by a lack of language specialists.

Indeed, the Washington Post reported on September 17 that: . . . although investigators are receiving large quantities of data from documents and wiretaps, two well-placed former law enforcement officials said the FBI suffers a lack of Arabic linguists and analysts.

In fact, the situation is such that the United States is now advertising for anyone who speaks Farsi or Arabic to come forward and help out as translators in the aftermath of the September 11 tragedies.

I do not know how many people in the national security establishment actually speak Farsi, but it is apparent that we do not have enough.

And while I believe we need a full scale assault on human capital crisis in the Federal Government, again, the first and foremost obligation of the Nation is to ensure the defense of its citizens.

For the last 2½ years, I have been working on a targeted piece of the human capital needs of the civilian defense workforce.

I remind my colleagues that during the 1990s, over 260,000 Defense Department civilian positions were eliminated with little or no regard for workforce planning. On top of that, new hiring was severely restricted.

Taken together, these two factors have inhibited the development of midlevel career, civilian professionals—the men and women who serve a vital role in the management and development of our Nation's military.

To help remedy this, Senator DeWine and I amended last year's defense authorization bill and provided the Department with a special authority to reshape its workforce after a decade of significant downsizing.

The authority provided to the Department last year allowed it to offer 1,000 voluntary separation incentive payments in fiscal year 2001, and 8,000 total incentive payments and voluntary early retirements—4,000 in fiscal year 2002 and 4,000 in fiscal year 2003—for the purpose of reshaping that workforce. Last year's defense authorization bill required these authorities to be reauthorized this year.

Human capital is the Federal Government's most valuable resource, and this program is only a downpayment on the changes and authorities the U.S. will need to enact and implement to revitalize the civilian side of our defense establishment.

The amendment Senator DeWine and I are offering to section 1113 of this bill is simple: it reauthorizes these important workforce reshaping proposals for both fiscal years 2002 and 2003.

Wright-Patterson Air Force Base in Dayton, Ohio, is an excellent example of the challenge facing military installations across the country. Wright-Patterson is the headquarters of the Air Force Materiel Command, employing 10,900 civilian Federal workers.

By 2005, 40 percent of the workforce will be age 55 or older and another 10 percent will be between 50 and 54 years of age. Thirty-three percent will be in their forties. Only 6 percent will be age 35 to 39, and less than 2 percent will be under the age of 34.

According to these numbers, by 2005—only 4 years from now—60 percent of Wright-Patterson's civilian employees will be eligible for either early or regular retirement.

There is a legitimate concern that when significant portions of the civilian workforce at Wright-Patterson and other military bases retire, including hundreds of key leaders and employees with crucial expertise, the remaining workforce could be left without experienced leadership and most important institutional knowledge.

Military base leaders—indeed, the entire Defense establishment—need to be given the flexibility to hire new employees so they can begin to develop another generation of civilian leaders and employees who will be able to provide critical support to our men and women in uniform.

I thank Chairman Levin and Senator Warner for their support on this amendment.

Incredibly, with a human capital crisis facing our Nation and the report on the vulnerability of U.S. security in the year 2000, it seems that the House of Representatives may not reauthorize the workforce reshaping program that Congress passed last year. We should be very, very concerned about this.

If the provisions of our amendment are not included in the House bill, I would urge the House conferees to join in support of this amendment as the final version of the Defense Authorization Act is being developed.

Let me state again that this amendment does not address all of the human capital needs of the Defense Department. It is just a small down payment.

Additional action needs to be taken to help ensure that the Department of Defense recruits and retains a quality workforce so that our Armed Forces...
may remain the best in the world and be able to keep the world secure in the 21st century.

I will continue to work towards that goal, and will be introducing a more comprehensive bill that not only responds to the human capital crisis in the U.S. security establishment, but in the entire Federal Government as well.

In the wake of these attacks, our men and women in Government all across the Nation have a renewed sense of purpose—to keep America safe and preserve our freedoms. I have never seen more determination and patriotism in my entire life.

Right now, law enforcement and military personnel are standing vigilant to watch over America.

The Border Patrol, the Customs Service, and the Immigration and Naturalization Service are closely monitoring who is coming into the United States—which is now a priority.

Active and reserve elements of the Air Force, Navy, and the Marine Corps have been and will continue to patrol the skies above Washington and other cities.

The Navy and Coast Guard are guarding our ports and patrolling our waters. Tens of thousands of reservists have been called up to assist in these activities.

At this moment, troops are being deployed in Southwest and Central Asia. In the days and weeks and months ahead, our brave soldiers, sailors, airmen and Marines will be called upon to risk their lives and, in some cases, give their lives in an effort to rid the world of the evil scourge of terrorism.

Still, Mr. President, as much as we are asking our military personnel and our Government employees to do what we are asking them to do right now, more is going to be asked of them. More will be asked of them.

We must be focused on the future generations of this Nation to give the Federal Government the tools it needs to help retain and attract the best and the brightest. I believe our amendment is a good first start towards getting that job done.

I think all of us know, if we want to win the World Series or we want to win the Super Bowl, we need the best and the brightest. That is what we need.

And the best and the brightest have not been coming to the Federal Government. In fact, I have talked to the dean of Harvard’s John F. Kennedy School, Dean Nye. He is very concerned about the fact that 10 years ago, 70 percent of their brightest people would be going into Government; today it is around 40 percent. So we have a long way to go.

I hope with this amendment we will be able to attract some of those people to our civilian defense establishment.

Mr. BAUCUS, Mr. President, I rise today to join my colleagues, Senator Bunning and Senator Bayh in strong support of Amendment 1622. This important provision would prevent military base closures through 2003.

In the light of the recent, tragic events, implementing another round of base closures could be a dangerous decision. We are entering a new phase of heightened national security in our great Nation. And President Bush has correctly warned of the continued threat to the security of the United States from terrorist groups and rogue states. I believe that base closures would not be in our country’s best interest any time in the near future.

While the defense budget can be increased in a matter of days for increased intelligence efforts or readiness assistance, the same is not true of the force structure or the base structure. Once property is converted to civilian use, as it would be under another round of Base Closures, it is, for all practical purposes, permanently lost as a military asset.

I would like to draw attention to Malmstrom Air Force Base in my home State of Montana. After two weeks of rigorous evaluations, the 31st Space Wing’s operations, security, maintenance, communications personnel, and equipment were recently given an “excellent” overall rating for Combat Capability Assessment. A very high mark! I’d like to congratulate them on a job well done.

It would take months or even years to reach this state of effectiveness if we had to start from scratch to re-establish the base. To lose this asset in moments of heightened national security could permanently scar our force capability to respond.

While protection of our national security and military readiness is enough of a reason to halt base closures, there are additional concerns to address, as well: first, while reducing spending is the nation’s top priority, base closures, studies have shown that the additional funds are never realized. The majority of savings comes from reductions of personnel, which is not directly tied to base closures. And reduction of personnel shouldn’t be an option given the current circumstances. Second, there is no procedure for selecting which bases are closed. And that is very troubling. “Military value” is only the definition currently used and is open to interpretation. A concrete set of criteria must be developed before any further base closures are conducted.

Since September 11, we have seen that our economic security is clearly tied to our national security. In order to have both, with our economy, we must maintain strength in our military.

We do not have months or years to wait while our bases are refurbished with military personnel, equipment and missions. If additional bases were closed, we would waste valuable resources as we scrambled to reinstate a base during a time of high security. Now is not the time to limit our military’s ability to respond.

I urge my colleagues to vote against further base closures and support amendment 1622.

Mr. HATCH. Mr. President, I rise in support of this amendment to the Defense Authorization Bill.

I must tell you that I have thought long and hard on the subject of base closings. The arguments for and against initiating another process which might lead to additional base closures have weighed heavily on my mind. I have the deepest respect for Defense Secretary Rumsfeld and I know how hard he is working to find efficiencies and economies within the Department of Defense. I know he believes that the time and money spent preparing for base closings will contribute to this effort. Military bases and the military establishment need to be focused on the war effort. Our military leaders and base commanders throughout the country do not need to be worrying about justifying their installations’ existence. The communities around the bases do not need to be worrying about their future economic well-being. At a time when we, as a Nation, face a future that we need not take on a process that is rife with uncertainty and turmoil and which distracts from our national goals.

Additionally, we do not yet know what force structure will be required to accomplish all the missions associated with this new 21st century warfare. I believe it will take some time to determine what our military should look like. Why would we start a base closure process when we have no idea what shape or size our forces will take? Equally important, we do not know which bases will be key to our efforts in building an effective homeland security network.

There is great debate about how much base closings cost and how much base closings save. In a time of economic uncertainty, I do not believe it is wise to spend millions of dollars on a base closure process. I am not willing to sacrifice the readiness of our armed forces for theoretical savings.

The PRESIDING OFFICER. The Senator from Nebraska.

Mr. LEVIN. Will the Senator from Nebraska yield for an inquiry?

Mr. NELSON of Nebraska. I am
Mr. LEVIN. Mr. President, I am wondering if my friend from Oklahoma would agree with me on the following procedure, that after Senator Nelson speaks—I understand that is going to be on the BRAC amendment, I want to speak on the BRAC amendment—that unless others notify our Cloakrooms that they wish to speak on the BRAC amendment, at that point we would be done with the debate. We would then move on amendments offered by the Senator from Oklahoma. I don't want to put that in the form of a UC, but I will state that would be my intention. I am wondering whether or not the Senator will concur.

Mr. INHOFE. I do concur in that. In fact, I will go along with a UC to that effect, whatever the Senator wishes.

Mr. LEVIN. We are not sure yet if anyone else wants to speak on BRAC. I would ask if any of our colleagues want to speak on this amendment that they let our Cloakrooms know so we would then be able to accommodate those Senators before we move to the Senator's two amendments. I thank my friend from Nebraska.

The PRESIDING OFFICER. The Senator from Nebraska.

Mr. NELSON of Nebraska. Mr. President, I rise in support of the amendment of the Senator from Kentucky to strike the BRAC language from the fiscal year 2002 Defense authorization bill.

Senator Dorgan referred to Secretary Rumsfeld's label for BRAC, the Efficient Facilities Initiative, as "iffy." I have to agree with him. I think it is iff in terms of cost, iff in terms of our military force structure, and would be iff to the morale of our troop force.

On Tuesday, September 11, the strategic environment in which the United States operates was completely changed; certainly, as it relates to the military as well. Many issues that crowded our plate disappeared, and we have all begun to focus on the current crisis. I believe that change in environment involves base closures.

I said at the time we were debating this issue during the Defense authorization bill that we should wait on the QDR before we voted to give the administration the ability to close bases. That point of view was not shared by every member of the Armed Services Committee, and accordingly the BRAC language was included in the authorization bill.

We are now told that the Department of Defense will submit an on-time QDR to the Congress and that DOD has indicated they will need an amended QDR to us just as soon as they can at a later date to address the current crisis.

Authorizing another round of BRAC without first reviewing the QDR and without first admitting that our strategic environment has shifted dramatically is a classical case of putting the cart before the horse. I didn't think that BRAC was right before September 11, and I don't think our military knows if it is right now.

We know, for example, as a result of the September 11 events, our fighters and attack jets are flying over major U.S. cities. Those jets need bases from which to fly in and out. It strikes me as a rather odd time to be closing bases.

Now that we are in the process of creating a homeland defense office, what role will our bases play in the protection of our major cities? Will we need increased ground defenses which are located at bases which could otherwise be closed? What role will bases play in our new security structure? Again, haven't had the opportunity to think this through and, therefore, we must, in fact, set aside the BRAC authorization at this time.

Some say that BRAC will provide us savings. Certainly, I am for cost savings. Over the long term it may be possible, but no one disagrees that in the short run, BRAC costs money. Right now we need every bit of our resources, financial and otherwise, to address our significant force protection concerns.

Finally, this sends a mixed message to the men and women who are now preparing to engage in a new and terrible enemy. How can we be united as a country if we are adversely affecting morale? Now is the time to focus on reducing the threat of terrorism, not on relocating and uprooting families from bases. It would be inopportune to include this language in the Defense authorization bill, certainly at this time.

Until I am presented with more persuasive evidence regarding this matter, I simply cannot support an initiative that could hamstring our homeland defense. And in my opinion, it might. Certainly I believe others share that view. I wonder if $150 million is what the hazards are in each of these bases and what it is going to cost for that cleanup to put it in order for the base to either be sold or given back to the community, depending on what the arrangement is, there is no way I would support a base-closing commission.

I think we are spending more closing these bases than we have keeping them open. I am the ranking member of the Military Construction Subcommittee. We are now going to the floor in the next few weeks, $150 million for environmental cleanup that was not anticipated in base closings.

That is not the way we ought to do business. I don't think we ought to say that environmental cleanup is going to be $15 million and then all of a sudden have a bill for $150 million and say that is an efficient use of our assets. We have not done our homework yet.

I yield the floor.

The PRESIDING OFFICER. The Senator from Texas.

Mrs. HUTCHISON. Mr. President, I rise to speak on behalf of the Bunning amendment because I don't think we are ready to make the decisions about which training we need. We didn't know before September 11 exactly what our troop strength was going to be in the future because we didn't have the reviews in place yet from the new administration.

Today we know even less about the troop strength, and we certainly need to know how many we are going to have in our component organizations—the Army, Navy, Air Force, and Marines—before we make the decision on which bases we will need for the future. Also we need to know how we are going to do our training. What is the best place to do the training? I have visited bases overseas where we have training facilities, but we have limited airspace in some of those. We have limited missile range in some of those places.

Is it better to do the training there or is it better perhaps to do it at a U.S. base where we have better facilities and more control over the airspace and the ground space? I don't know the answer to those questions. I know we should have the answer before we make a decision on whether we start closing bases.

I have seen us do two things in previous base closings. I have seen us close bases that we then need in the future. The Air Force has said that we should have kept some of the training bases in the United States opened, but they were already closed. It was too late to do anything about it.

Secondly, I have not seen us estimate anywhere close to the true cost of closing a base. If I could get real numbers that showed that closing a base really saves money, I would consider having another round of base closings. But until we know what the environmental cleanup is, what the hazards are in each of these bases and what it is going to cost for that cleanup to put it in order for the base to either be sold or given back to the community, depending on what the arrangement is, there is no way I would support a base-closing commission.

I think we are spending more closing these bases than we have keeping them open. I am the ranking member of the Military Construction Subcommittee. We are now going to the floor in the next few weeks, $150 million for environmental cleanup that was not anticipated in base closings.
going to be waged and how long it is going to take and where the bases might be needed. We probably will have more overseas bases. But are they going to be in the same places they are now? Maybe not. Maybe we will have to build new bases in other sites.

So I don’t think we ought to be talking about closing things until we know what we intend to do in the future. I am not against base closings; I am just against doing it too soon, because I think we are throwing good money away if we don’t have our ducks in a row and know exactly what our needs will be from the military construction standpoint.

On the Military Construction Subcommittee, I did not like having to spend money on environmental cleanup, when I would have liked to have spent that money building better housing for our military people and building more facilities to do the job that we know we must do. Yet we are still cleaning up bases that were closed 10 years ago. I don’t think that is the way we ought to operate. We ought to operate with good business sense. We ought to decide what our troop strength is going to be, where we can best do the training, what our needs are going to be with this new war that we now know we must fight—and we know it is going to be tough. We are going to support the President and give him the resources he needs to make sure we win because freedom is at stake.

The idea that we would have a premature round of base closings is a bad idea whose time has not come. So I appreciate the work of everyone here. I know we have legitimate disagreements on this issue. But I am going to support the Bunning amendment. I hope we can set it aside for this year. I have an amendment, which I have already written. I hope the Senate will consider. It does have a study that would just ask the questions. I have asked tonight. If we can answer those questions, then we can have base closings based on what we are going to need in the future, based on facts, based on studies, and knowing exactly what we are going to do before we take these steps. Most of all, we will know what the costs are going to be and how much could be saved and how much must be spent for those savings.

Mr. President, I appreciate the work of the distinguished chairman and ranking member, and I hope we can pass the Bunning amendment. I also hope we can pass the Hutchison amendment that will provide studies for the future, that can do it in the right way and in a thoughtful way, in a way that will make sure we do right by our men and women in the services and protect them wherever they may be in the world.

I yield the floor.

The PRESIDING OFFICER. The Senator from Michigan is recognized.

Mr. LEVIN. Mr. President, a number of arguments have been raised this afternoon about the Bunning amendment which would strike the BRAC authority. But the way I see it, this is the first time the Armed Services Committee—at least within my memory—has adopted a bill for an additional round of base closings on a very strong bipartisan vote. It was a very strong bipartisan vote, and unified leadership of our Armed Forces pleaded with us to allow them to get rid of excess structure, which costs a lot of money and makes it impossible for us to do the things we want to do to modernize Air Forces, make them more ready and more lethal, to make them more mobile, to give them greater pay, because we are spending billions of dollars on infrastructure we do not need.

For the last 4 years, Senator MCCAIN and I have come to this floor and said our leadership is asking for the authority—just the authority—to have another round of base closings. It has been denied year after year. We have been told “this is not the time,” year after year. Well, we should have a study year after year. As a matter of fact, in 1997 there was a study that was substituted for the round of base closings. The April 1998 report contained 1,800 pages of detailed backup material for why we should have another round of base closings.

I think the most important question that has been raised is, Does September 11 change all this? That, to me, is the real vital issue. We wanted to get the thinking of our unified and civilian leadership on that issue because, surely, I think each one of us—and perhaps no one more than the person occupying the chair now—would want to know what is the effect of the events of September 11. We have received that letter, we have been told that even though parts of it have been used before, it seems to me this letter addresses that most pungent of all questions. This is from Donald Rumsfeld, dated September 21. The same letter was written to both myself and to Senator WAINSTON. It reads as follows:

I write to underscore the importance we place on the Senate’s approval of authority for a single round of base closures and realignments. Indeed, in the wake of the terrible events of September 11, the imperative to convert excess capacity into warfighting ability is enhanced, not diminished.

Since that fateful day, the Congress has provided additional billions of taxpayer dollars to the Department of Defense to help all Americans—particularly those service members on whom much of our response will depend—to seek every efficiency in the application of those funds on behalf of our warfighters.

Our installations are the platforms from which we will deploy the forces needed for the sustained warfighting President outlined last night. While our future needs as to base structure are uncertain and are strategy dependent, we simply must have the freedom to maximize the efficient use of our resources. The authority to realign and close bases and facilities will be a critical element ensuring the right mix of bases and forces to support our warfighting.

No one relishes the prospect of closing a military facility or even seeking the authority to do so, but as the President said last evening, “we face new and sudden national challenges,” and those challenges will force us to confront many difficult choices.

In that spirit, I am hopeful the Congress will approve our request for authority to close and realign our military base facilities. Mr. President, I hope we will have the will to do something that is not easy. This is not easy for any Member of Congress. We will have to make tough choices, I think we know that. That is why facilities were not closed until we had commissions that were in place. We make a recommendation to the President, and the President would then have a right under our approach to either say yes or no to the entire list. If he says yes, Congress has the right to say yes or no to the entire list.

This does not abdicate responsibility to a base-closing commission. What it does do is permit us to ask the question in a way that is costing us billions, that is detracting from the ability of our warfighters to fight a war, because it means billions of dollars which should go into that effort are instead being spent to maintain structure that is no longer needed.

We should not put excess baggage on a warfighter. We would not tell that warfighter you have to carry a larger load than is necessary. By keeping bases open, that is exactly what we are doing. We are denying the warfighter the resources that would otherwise go into what is needed in the Defense Department.

That is the issue. The issue, if anything, it seems to me, is sharper since 9-11. More than ever, we must avoid waste. More than ever, we must have the will to make tough choices. We have done a lot of things that have been difficult, and we have done a lot of things that were not difficult. In this Congress, we have come together on a lot of issues that we thought we could not come together on, and we have avoided the kind of dissension and debate in which our people do not want us to engage.

Now we have our military leadership and the President of the United States pleading with us to allow them to get rid of excess infrastructure 2 years down the road. That is the plea from our President, that is the plea from our military leadership, civilian and uniformed: to allow them to begin the process 2 years from now of removing excess infrastructure.

I hope we have the will to do that, to respond to the men and women of our military who have much greater needs than excess infrastructure.

We have been told also that we should be closing more bases overseas instead of starting this process here. Since the end of the cold war, the Department of Defense has closed 59 percent of our overseas sites compared to
about 21 percent of our domestic sites. They do not need authority legislatively to close overseas facilities. They have that without our action, and they have those 39 percent of the overseas sites. That is quite a difference from what they have closed in this country. So I do not think that argument works either.

Then we have been told as well that we should know what we want in our force structure before we move for some additional flexibility on our base structure. We ought to know what our force structure is going to be, and there is no doubt about that. Before the base structure is concluded, surely we must know, or should know, what the force structure is going to look like. That is why in this bill we require that “the Secretary shall carry out a comprehensive review of the military installations in the Department of Defense inside the United States based on the force structure plan submitted under section A(2)…” And that plan is very specific. That is part of the budget justification documents submitted to Congress in support of the budget for the Department of Defense for fiscal year 2003: The Secretary shall include a force structure plan for the Armed Forces based on the assessment of the Secretary in the Quadrennial Defense Review under another section.

The force structure plan is required by our law. We have heard many times this afternoon and this evening, and correctly, that we ought to base our base structure on our force structure and we do not know what that force structure is going to be.

The answer is we know that the force structure must be determined prior to the base structure recommendations that go to the Base Closure Commission and then from them to us. It is a required part of our law. We must have a base structure on our force structure and we do not know what that force structure is going to be.

The Senators who have made this point are right; we should know our force structure before we know our base structure, but the inaccuracy is in their argument that we will not know that force structure prior to the decision on base structure, both by the Defense Department, in terms of their recommendation to the Base Closure Commission, and by the Base Closure Commission in their recommendations back to the Secretary, and to the Congress.

The one final point I will make this evening has to do with cost. The argument has been made that there either have not been savings or that the savings have not been demonstrated, or that the force structure is not proof of those savings, or that the savings have not been precise. We have GAO report after GAO report saying that—and I will reading from one:

Our work has consistently affirmed that the net savings from four rounds of base closures and realignments are substantial and are related to decreased funding requirements in specific operational areas.

In addition to our audits, review by the Congressional Budget Office, the Department of Defense Inspector General, the Army Audit Agency have affirmed the net savings are substantial after initial investment costs are recouped.

The Defense Department has even attempted to give us a very precise document as to what those savings are. They have made a real effort by year, item by item, to tell us where there have been costs, where there have been savings, starting in 1990 for each round of base closures.

They have come up with net savings to date of approximately $16 billion. Total savings, and I am rounding this off, is $37 billion. That is gross savings. Those are total costs of about $21 billion—again I am rounding that off—with the savings to date of $16 billion.

Recurring savings from those rounds each year are now about $6 billion per year. That is what we are saving because we are getting the courage to walk down this road, and believe me, I know it takes courage. It is not an easy vote. I have been through a few. We have lost our strategic air command bases. We have some other bases, other facilities that are very nervous about the possibility that maybe in the next round they will be caught. So this is not an easy vote, but it is a cost-effective vote. It is a vote that the President, his Secretary of Defense, the Joint Chiefs of Staff, every military leader we have ever had in front of our committee, civilian or uniformed, is pleading with us to make.

The plea, it seems to me, is more eloquent than ever after September 11 because it is so critically important that we not load down our defense with unneeded infrastructure anymore than we would load down a soldier with unneeded baggage. They are related.

I hope that tomorrow we will cast this vote. The country will be looking at us, the Nation will be looking at us to see whether or not we are willing to do some tough things that our uniform and our civilian leadership in the Defense Department and our President are calling upon us to do. I cannot think of any way more eloquently to state this cause, other than to read from a letter of August 30 from Secretary Rumsfeld and General Shelton. I expect we will be hearing from the Chairman of the Joint Chiefs on this issue tomorrow.

This letter, which I will make part of the RECORD, makes a very potent case for saving the money. I ask unanimous consent that the letter be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

Hon. Carl Levin, Chairman, Committee on Armed Services, and Senator John Warner, Ranking Member, Committee on Armed Services, U.S. Senate, Washington, DC.

Dear Mr. Chairman and Senator Warner:

We are writing to underscore how critically important it is that Congress authorize the Department to conduct another round of base closures and realignments.

The Department must restructure its installations to serve the country’s national security in the 21st century. Currently, our installations do not match and therefore do not address the current and projected force structure. Underutilized facilities, estimated to be 23 percent DoD wide, are a waste of public resources and an impediment to our efforts to protect our national security.

Because current law makes it virtually impossible for the Department to make prudent decisions in managing its facilities, we can only rectify these problems through a Congressionally authorized round of base closures and realignments in 2003. Drawing on the process from past rounds, the Efficient Facilities Initiative is an objective way to rationalize an infrastructure on the basis of military value, verified by an independent commission. In addition, both the General Accounting Office and the Congressional Budget Office confirm DoD’s savings estimates from prior rounds.

The Department is committed to accomplishing the necessary reshaping and restructuring in a single round of base closures and realignments to minimize the difficulty these efforts pose to communities surrounding our bases. While the process may be hard, the record from our previous rounds indicates that the majority of affected communities actually emerge in a better economic condition than prior to the closure or realignment. As before, the Department will work closely with these communities in fostering economic reuse.

We know you share our concerns that additional base closures are a necessity to provide resources necessary to meet our national security requirements. We simply must take action. Please do not hesitate to call on us in your efforts to secure passage of this important legislation.

Sincerely,

General Henry H. Shelton, USA, Chairman of the Joint Chiefs of Staff.

Donald H. Rumsfeld, Secretary of Defense.

Mr. LEVIN. I thank the Chair, and I yield the floor.

The PRESIDING OFFICER. The Senator from Virginia?

Mr. WARNER. Mr. President, I commend my colleague for his strong stance on base closure. He and Senator Mccain have worked for a number of years on this issue.

I do not know how many years ago it was I joined on that legislation, and then, of course, we had a problem with the previous administration. Anyway, I was with them up until that problem arrived. So it is indeed long overdue.

Even though I am proud to say my State has a very significant share of military installations, I stand with my colleagues and the vote of the Senate Armed Services Committee because I think that is what it should be, an efficiency that should be given to the Secretary of Defense. We need the base savings. We need them desperately.

Mr. President, I believe that concludes the remarks on base closure. See the Senator from Oklahoma, one of our valued members of the committee. He wishes to, as I understand it, lay down two amendments for tonight, and then the chairman and I will proceed to...
Mr. LEVIN. The Senator is correct. We now hopefully will turn to our friend, the Senator from Oklahoma, to offer two amendments. I think one of them we may be able to accept, although I am not sure if that is true, on both sides. If that is true, and I think the Senator knows which one that is, he can offer that one first.

Mr. WARNER. That would be—

Mr. INHOFE. The amendment on the waiver process.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. INHOFE. Mr. President, in an effort to try to get this bill through, which America desperately needs now, I had about 16 amendments on which I worked out arrangements and understandings with other people so that I am down to only three amendments. Of these three amendments, as suggested by the Senator from Michigan, one is without controversy, I thought, until about 5 minutes ago.

My understanding is one Republican Senator is going to object to it. That being the case, we will have to have a rollover on that amendment.

I would like to explain that amendment and hopefully that one Senator would be available and tell us if she is not going to object to it.

Mr. President, for quite a number of years we have had a debate, when we do our defense authorization bills, on an issue that is in place in order to keep an internal ability to handle depot maintenance in areas where it might be considered to be core maintenance; in other words, areas where it is necessary to have that ability in order to fight a war. The concern has been this: With the decreasing number of defense contractors and the decreasing number of people who are able to perform certain maintenance functions, if we are in a war, we would not want to be held hostage by a single contractor who would be able to keep us from being able to do it internally.

For that reason, some time ago we passed a law that said under that 50/50 concept, fine. Let us pass a bill or try to pass a bill to do away with 50/50. That is not the issue. The issue is if we are going to use a national security waiver to waive 50/50 for a given year, we need to make sure we know why we are doing it and what can be done for the next year to keep from having to do that. So that is simply it.

I was hoping there might have a note from the Senator. We do, and there will be apparently one vote against this.

So that is an explanation, and I am going to ask that this be voted on tomorrow.

I ask for the yeas and nays.

The PRESIDING OFFICER. The amendment has not been sent up yet.

Mr. INHOFE. Yes, the amendment is at the desk. It has been there since last week.

Mr. LEVIN. Will the Senator yield for a minute?

Mr. INHOFE. Yes.

Mr. LEVIN. Will the Senator call up his amendment so it will be pending immediately after the disposition of the Bunning amendment?

Mr. INHOFE. I call up amendment No. 1594 and ask for its immediate consideration.

The PRESIDING OFFICER. Without objection, the pending amendment is set aside. The clerk will report.

The bill clerk read as follows:

Senator from Oklahoma [Mr. INHOFE] proposes an amendment numbered 1594.

Mr. INHOFE. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To authorize the President to waive a limitation on performance of depot-level maintenance by non-Federal Government personnel)

At the end of subtitle D of title III, add the following:

SEC. 335. REVISION OF AUTHORITY TO WAIVE LIMITATION ON PERFORMANCE OF DEPOT-LEVEL MAINTENANCE.

Section 2666(c) of title 10, United States Code, is amended to read as follows:

"(1) The President may delegate only to the Secretary of Defense authority to exercise the waiver authority of the President under paragraph (1)."

Mr. WARNER. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. WARNER. Mr. President, I ask unanimous consent that the order for the yeas and nays call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. INHOFE. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There appears to be a sufficient second.

The yeas and nays were ordered.

Mr. LEVIN. Mr. President, then there would be additional debate available on this amendment because there has been no time agreement relative to this amendment.

The PRESIDING OFFICER. The Senator is correct.

Mr. LEVIN. As I understand—perhaps the Chair can confirm—after disposition of the Bunning amendment at approximately 9:45 a.m. or 10 a.m. tomorrow, the debate on the first amendment from the Senator from Oklahoma would recur; is that correct?

The PRESIDING OFFICER. That would then be the pending question, the Senator is correct.

Mr. LEVIN. I ask unanimous consent, so that we can sequence amendments, if the Senator from Oklahoma is willing, that we now set aside the pending amendment and the underlying amendment to allow the Senator from Oklahoma to offer an additional amendment, and then part of that unanimous
property under subsection (d)(1).

withstanding the requirement to retain the

DEAR CHAIRMAN LEVIN: As you are aware, the Department of Defense previously sub-
mited proposed legislation that would
eliminate the requirement in Section 1503 of
the Fy 2001 Defense Authorization Act that
authorizes the civilian planning to disconti-
uine training operations on the Island of
Vieques on May 1, 2003. I have been told that the
Vieques is a municipality of Puerto
Rico.

What we believe is a solution to this
problem is that the civilian planning to disconti-
inue training operations on the Island of
Vieques on May 1, 2003. I have been told that the
Vieques is a municipality of Puerto
Rico.

What we believe is a solution to this
problem is that the civilian planning to disconti-
inue training operations on the Island of
Vieques on May 1, 2003. I have been told that the
Vieques is a municipality of Puerto
Rico.
We will become 60-percent dependent upon foreign sources for our ability to fight a war.

I remember a few years ago Don Hodel, Secretary of the Interior, and I used to go to consumption states and make speeches as to how the outcome of every war—back to and including the First World War—has been who controlled the energy supplies. We have gone through the 1990 war, the Persian Gulf war. In 1991, we remember the words of Saddam Hussein who said, "if we had waited for 10 years to go into Kuwait, the Americans would not have intervened because we would have a missile we could shoot over at them. And now we are dependent upon the Iraqis for our imported oil.

It is very much an issue. There has been a lot of things floating around, including letters saying they are saying this has to do with ANWR. It doesn't. I only say this because that should be addressed on this bill, and sometime tomorrow or the next day I will debate this and call for a vote on this.

I yield the floor.

The PRESIDING OFFICER. The Senator from Virginia.

Mr. WARNER. We are ready to handle a series of amendments and complete our work on this bill before the Senate tonight.

AMENDMENT NO. 1660

Mr. WARNER. I offer an amendment on behalf of myself and my distinguished colleague, the chairman, Mr. LEVIN. This amendment would eliminate the cap costs that the Congress very wisely and appropriately placed in the energy policy in this bill.

The question could be asked. Is this an issue that should be put into the Defense authorization bill? I served as chairman of the Senate Armed Services Readiness Subcommittee for 5 years. I can assure Members there is no time in our history that should be more clear that we will have to do something about our dependency on the Middle East for our ability to fight a war. Right now, we are 56.6-percent dependent upon foreign sources for our ability to fight a war. That is not acceptable.

I remember back in the early 1980s during the Reagan administration I criticized the Republicans and Democrats alike. We have been trying to get an energy policy since the Reagan administration. We tried at that time. We introduced one. We were unable to get it done.

We tried during the Bush administration, certainly thinking that a President coming out of the oil patch would understand why we cannot be dependent upon foreign sources for our ability to fight a war. We were unsuccessful. We were unsuccessful during the Clinton administration. We started during the Carter administration.

I have an amendment that will put a policy into effect. I have two amendments. One adopts the House language and the other is to adopt the language of the energy bill that is proposed in the Senate. I cannot bring it up and debate it tonight because I want to do it when everybody is here. This is very significant.

Right now, on a daily basis, we are becoming more and more dependent upon foreign sources for our energy supply. By the end of this decade it is projected to be in excess of 60 percent.
to the 2001 Emergency Supplemental Appropriations Act for Recovery from and Response to Terrorist Attacks on the United States.

(b) QUARTERLY REPORT.—(1) Promptly after the end of each quarter of a fiscal year, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the use of funds made available to the Department of Defense pursuant to the 2001 Emergency Supplemental Appropriations Act for Recovery from and Response to Terrorist Attacks on the United States.

(2) The first report under paragraph (1) shall be submitted not later than January 2, 2002.

(c) PROPOSED ALLOCATION AND PLAN.—The Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives, not later than 15 days after the date on which the Director of the Office of Management and Budget transmits to the Committees on Appropriations of the Senate and House of Representatives the proposed allocation and plan required by the 2001 Emergency Supplemental Appropriations Act for Recovery from and Response to Terrorist Attacks on the United States, a proposed allocation and plan for the use of the funds made available to the Department of Defense pursuant to that Act.

AMENDMENT NO. 1662

(Purpose: To authorize the use of contractors to provide logistical support to the Multinational Force and Observers)

At the end of subtitle B of title XII, add the following:

SEC. 1217. ACQUISITION OF LOGISTICAL SUPPORT SERVICES FOR SECURITY FORCES.

Section 5 of the Multinational Force and Observers Participation Resolution (22 U.S.C. 3424) is amended by adding at the end the following new subsection:

“(d)(1) The United States may use contractors to provide logistical support to the Multinational Force and Observers under this section in lieu of providing such support through support under the authority of members of the United States Armed Forces.

“(2) Notwithstanding subsections (a) and (b) and section 7(b), support by a contractor under this subsection may be provided without reimbursement whenever the President determines that such action enhances or supports the national security interests of the United States.”

AMENDMENT NO. 1663

(Purpose: To clarify the use of State Department authority to contract for personal services in support of activities of the Department of Defense and other departments and agencies of the United States)

At the end of subtitle B of title XII, add the following:

SEC. 1217. PERSONAL SERVICES CONTRACTS TO BE PERFORMED BY INDIVIDUALS OR ORGANIZATIONS ABROAD.

Section 2 of the State Department Basic Authorities Act of 2000 (22 U.S.C. 2659) is amended by adding at the end the following:

“(c) exercisethe authority provided in subsection (c), upon the request of the Secretary of Defense, to the head of any other department or agency of the United States, to enter into personal services contracts with individuals to perform services in support of the Department of Defense or such other department or agency, as the case may be.”

AMENDMENT NO. 1664

(Purpose: To provide SBP eligibility for survivors of retirement-ineligible members of the uniformed services who die while on active duty)

At the end of subtitle D of title VI, add the following:

SEC. 652. SBP ELIGIBILITY OF SURVIVORS OF RETIREMENT-INELIGIBLE MEMBERS OF THE UNIFORMED SERVICES WHO DIE WHILE ON ACTIVE DUTY.

(a) SURVIVING SPOUSE ANNUITY.—Section 1448(d) of title 10, United States Code, is amended by striking paragraph (1) and inserting the following:

“(1) SURVIVING SPOUSE ANNUITY.—The Secretary concerned shall pay an annuity under this subsection to the surviving spouse of—

“(A) a member who dies while on active duty—

“(i) becoming eligible to receive retired pay;

“(ii) qualifying for retired pay except that the member has not applied for or been granted that pay; or

“(iii) completing 20 years of active service before becoming eligible to retire as a commissioned officer because the member has not completed 10 years of active commissioned service; or

“(B) a member not described in subparagraph (A) who dies in line of duty while on active duty.

(b) COMPUTATION OF SURVIVOR ANNUITY.—Section 1451(c)(1) of title 10, United States Code, is amended—

(1) in subparagraph (A)—

“(A) by striking ‘‘based upon his years of active service when he died.’’ and inserting ‘‘based upon the following:’’; and

(2) by adding at the end the following new clause:

“(i) In the case of an annuity payable under section 1448(d) of this title by reason of the death of a member in line of duty, the retired pay base computed for the member under section 1406(b) or 1407 of this title as if the member had been retired under section 1448(d) of title 10, United States Code, is reduced by the amount of the annuity payable under section 1448(d) of title 10, United States Code for death with a disability rated as total.

(ii) In the case of an annuity payable under section 1448(d)(1)(A) of this title by reason of the death of a member not in line of duty, the member’s years of active service when he died.

(iii) In the case of an annuity payable under section 1448(d) of this title, the member’s years of active service when he died.

(iv) in subparagraph (B), by striking ‘‘if the member has not completed 10 years of active commissioned service; or

(2) by adding at the end the following:

“(A) a member who dies while on active duty—

“(i) by striking ‘‘based upon his years of active service when he died.’’ and inserting ‘‘based upon the following:’’; and

“(ii) by striking ‘‘if the member has not applied for or been granted that pay; or

“(iii) completing 20 years of active service before becoming eligible to retire as a commissioned officer because the member has not completed 10 years of active commissioned service; or

“(B) a member not described in subparagraph (A) who dies in line of duty while on active duty.

(c) CONFORMING AMENDMENTS.—(1) The heading for subsection (d) of section 1448 of such title is amended by striking ‘‘RETIREMENT-ELIGIBLE’’.

(2) Section (d)(3) of such section is amended by striking ‘‘1448(d)(1)(B) or 1448(d)(1)(C)’’ and inserting ‘‘clause (ii) or (iii) of section 1448(d)(1)(A)’’.

(d) EXTENSION AND INCREASE OF OBJECTIVES FOR RECEIPTS FROM DISPOSALS OF CERTAIN STOCKPILE MATERIALS AUTHORIZED FOR FISCAL YEARS BEGINNING WITH FISCAL YEAR 1999.—Section 3303(a) of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (Public Law 105-261; 112 Stat. 2362; 50 U.S.C. 98d note) is amended—

(1) by striking ‘‘and’’ and inserting ‘‘and’’; and

(2) in paragraph (4)—

“(A) by striking ‘‘$720,000,000’’ and inserting ‘‘$700,000,000’’; and

“(B) by inserting the period at the end and inserting ‘‘; and’’ and

(e) EFFECTIVE DATE AND APPLICABILITY.—This section and the amendments made by this section shall take effect as of September 10, 2001, and shall apply with respect to deaths of members of the Armed Forces occurring on or after that date.

AMENDMENT NO. 1665

(Purpose: To provide for the construction of a parking garage at Fort DeRussy, Hawaii)

At the end of subtitle D of title XXVIII, add the following:

SEC. 2844. CONSTRUCTION OF PARKING GARAGE AT FORT DERUSSEY, HAWAII.

(a) AUTHORITY TO ENTER INTO AGREEMENT FOR CONSTRUCTION.—The Secretary of the Army may authorize the Army Morale, Welfare, and Recreation Fund, a non-appropriated fund instrumentality of the Department of Defense (in this section referred to as the “Fund”), to enter into an agreement with a governmental, quasi-governmental, or commercial entity for the construction of a parking garage at Fort DeRussy, Hawaii.

(b) FORM OF AGREEMENT.—The agreement under subsection (a) may take the form of a non-appropriated fund contract, conditional gift, or other agreement determined by the Fund to be appropriate for purposes of construction of the parking garage.

(c) USE OF PARKING GARAGE BY PUBLIC.—The agreement under subsection (a) may permit the use by the general public of the parking garage constructed under the agreement if the Fund determines that use of the parking garage by the general public will be advantageous to the Fund.

(d) TREATMENT OF REVENUES OF FUND PARKING GARAGES AT FORT DERUSSEY.—Notwithstanding any other provision of law, amounts received by the Fund by reason of operation of parking garages at Fort DeRussy, including the parking garage constructed under the agreement under subsection (a), shall be treated as non-appropriated funds and shall accrue to the credit of the Fund or its component funds, including the Armed Forces Recreation Center–Hawaii (Hale Koa Hotel).

AMENDMENT NO. 1666

(Purpose: To modify the authority for the development of the United States Army Heritage and Education Center at Carlisle Barracks, Pennsylvania)

Strike section 2841, relating to the development of the United States Army Heritage and Education Center at Carlisle Barracks, Pennsylvania, and insert the following:

SEC. 2841. DEVELOPMENT OF UNITED STATES ARMY HERITAGE AND EDUCATION CENTER AT CARLISLE BARRACKS, PENNSYLVANIA.

(a) AUTHORITY TO ENTER INTO AGREEMENT.—(1) The Secretary of the Army may enter into an agreement with the Military Heritage Foundation, a not-for-profit organization, for the design, construction, and operation of a facility for the United States Army Heritage and Education Center at Carlisle Barracks, Pennsylvania.

(2) The facility referred to in paragraph (1) shall house the collection of artifacts, research facilities, classrooms, and offices, and for education and other activities, agreed to by the Secretary, relating to the heritage of the Army. The facility may also be used to support education and training as the Secretary considers appropriate.

(b) DESIGN AND CONSTRUCTION.—The Secretary may, at the election of the Secretary—
(1) accept funds from the Military Heritage Foundation for the design and construction of the facility referred to in subsection (a); or
(2) permit the Military Heritage Foundation to contract for the design and construction of the facility.

(e) ACCEPTANCE OF FACILITY.—(1) Upon satisfaction of any and all financial obligations incident thereto by the Military Heritage Foundation, the Secretary shall accept the facility from the Military Heritage Foundation, and all right, title, and interest in and to the facility shall vest in the United States.

(2) Upon becoming property of the United States, the facility shall be under the jurisdiction of the Secretary.

(d) USE OF CERTAIN GIFTS.—(1) Under regulations prescribed by the Secretary, the Commandant of the Army War College may, without regard to section 2601 of title 10, United States Code, accept, hold, administer, invest, and spend any gift, devise, or bequest of personal property of a value of $250,000 or less made to the United States if such gift, devise, or bequest is for the benefit of the United States Army Heritage and Education Center.

(2) The Secretary may pay or authorize the payment of any reasonable and necessary expense in connection with the conveyance or transfer of a gift, devise, or bequest under this subsection.

(e) ADDITIONAL TERMS AND CONDITIONS.—(1) The Secretary shall attach such additional terms and conditions in connection with the agreement authorized to be entered into by subsection (a) as the Secretary considers appropriate to protect the interest of the United States.

SEC. 1124. PARTICIPATION OF PERSONNEL IN TECHNICAL STANDARDS DEVELOPMENT ACTIVITIES.

Subsection (d) of section 12 of the National Technology Transfer and Advancement Act of 1995 (109 Stat. 783; 15 U.S.C. 272 note) is amended—
(1) by redesignating paragraph (4) as paragraph (5); and
(2) by inserting after paragraph (3) the following new paragraph (4):

"(4) EXPENSES OF GOVERNMENT PERSONNEL.—Section 5946 of title 5, United States Code, shall not apply with respect to any activity of an employee of a Federal agency or department that is determined by the head of that agency or department as being an activity undertaken in carrying out this subsection."

AMENDMENT NO. 1666

(Purpose: To provide eligibility for senior officers of the Armed Forces to serve as Deputy Directors of facilities of the Armed Forces Retirement Home)

On page 346, line 20, insert after "professional" the following: "or a member of the Armed Forces serving on active duty in a grade above major or lieutenant commander."

AMENDMENT NO. 1667

Mr. LIEBERMAN. Mr. President, I rise to discuss an amendment to the Fiscal Year 2002 National Defense Authorization Act which will serve to assist our military in their continuing transformation into a more efficient fighting force, ready to meet the threats of the 21st century. It amends the National Technology Transfer Act of 1995 in order that the Federal Government can use appropriated funds for personnel to participate in meetings to set technical standards for products, materials, processes, and management practices of interest to the military. Specifically, it eliminates an obscure technical restriction established by an 89-year-old statute so that the Federal Government will be able to offset the expenses of these employees participating in standards activities critical to the Department.

The amendment is consistent with previous act of Congress, Department of Defense policy and Governmentwide policy to support efforts to replace Government-unique standards wherever possible with standards developed...
September 24, 2001

CONGRESSIONAL RECORD—SENATE 17781

jointly with the private sector and other interested parties. There are major Federal savings and national security improvements that can result from this effort. I am proud to be joined by Senator SANTORUM in this effort. I thank my colleagues for their support for this technical amendment.

Mr. WARNER. Mr. President, I move to reconsider the vote.

Mr. KENNEDY. Mr. President, the aftermath of the despicable terrorist attacks continue to weigh heavily on our hearts, and I again express my deepest sympathy to those lost and injured in the attacks, as well as their families. We will do everything in our power to bring all of those responsible to justice and I am confident that our military capabilities, and the resolve we have must be prepared to act in response to act. Congress will see that they are given all they need to accomplish the missions they are given.

This bill increases defense spending. It focuses on improving readiness, and also improving service member quality of life. It contains the largest defense spending increase in many years. At $329 billion, a $33 billion increase over last year, this bill represents a significant new investment in service members and the nation’s security.

As chairman of the Seapower Subcommittee, I have strongly advocated strengthening Navy, Marine Corps and Strategic Lift forces. The worldwide presence of our armed forces requires at least a 300-ship navy. The Navy is facing a serious shortfall in the numbers of ships available to meet the Nation’s future security needs. This bill fully funded the President’s request for most major programs, including the Virginia-class attack submarine, the DDG–51 AEGIS Destroyer, research and development for the DD–21 land attack destroyer, and 13 additional C–17 airlift aircraft.

The bill also supports a series of transformation initiatives, especially the Trident submarine conversion. The Navy’s budget called for converting only two of these submarines. The bill includes an increase of $307 million to reserve the option of converting all four submarines. I believe that the converted submarines can make a significant contribution to the Navy in the future.

The committee also considered the V–22 Osprey program and the future role of this aircraft. We agree that the product is too expensive for the country and we have authorized the minimum sustaining production of nine aircraft. It is the committee’s belief that the minimum sustaining rate is nine rather than twelve aircraft. This reduced number of aircraft will also limit future retrofit costs that the existing V–22 aircraft will require. The committee also recommended the program for the Air Force V–22 version, the CV–22, be restructured by removing the funding for acquisition, but supporting research and development.

Our Armed Forces continue to operate and train at a more robust level than at any other time during this Nation’s history. At this moment, service members are being mobilized for possible action in the current crisis. They are already risking their lives daily by actively enforcing the no-fly zones over Iraq and patrolling the Arabian Gulf for oil smugglers. Our men and women in uniform are overseas providing stability in Kosovo, and they are now involved in bringing peace to Macedonia. They are also monitoring the demilitarized zone in Korea, and they are assisting in the battle against drugs in Central and South America. These activities are in addition to the daily experiences of service members living off base, from 2005 to 2008. The bill increases the number of aircraft will also limit future retrofit costs.

The committee heeded the needs of our military members and their families. The bill provides $451 million for support of service members and their families. The bill grants a minimum of 5 percent pay raise, with personnel in certain pay grades receiving raises between 6 and 10 percent. This raise is the largest since 1982, and the third straight year that the committee has authorized a significant pay raise above the rate of inflation.

The committee also recognizes the importance of providing service members with decent housing and work conditions. The bill provides $451 million above the budget request for military family housing and facilities.

The committee also supports a series of transformation initiatives, especially the Trident submarine conversion. The Navy’s budget called for converting only two of these submarines. The bill includes an increase of $307 million to reserve the option of converting all four submarines. I believe that the converted submarines can make a significant contribution to the Navy in the future.

The committee also considered the V–22 Osprey program and the future role of this aircraft. We agree that the product is too expensive for the country and we have authorized the minimum sustaining production of nine aircraft. It is the committee’s belief that the minimum sustaining rate is nine rather than twelve aircraft. This reduced number of aircraft will also limit future retrofit costs that the existing V–22 aircraft will require. The committee also recommended the program for the Air Force V–22 version, the CV–22, be restructured by removing the funding for acquisition, but supporting research and development.

Our Armed Forces continue to operate and train at a more robust level than at any other time during this Nation’s history. At this moment, service members are being mobilized for possible action in the current crisis. They are already risking their lives daily by actively enforcing the no-fly zones over Iraq and patrolling the Arabian Gulf for oil smugglers. Our men and women in uniform are overseas providing stability in Kosovo, and they are now involved in bringing peace to Macedonia. They are also monitoring the demilitarized zone in Korea, and they are assisting in the battle against drugs in Central and South America. These activities are in addition to the daily experiences of service members living off base, from 2005 to 2008. The bill increases the number of aircraft will also limit future retrofit costs.

The committee heeded the needs of our military members and their families. The bill provides $451 million for support of service members and their families. The bill grants a minimum of 5 percent pay raise, with personnel in certain pay grades receiving raises between 6 and 10 percent. This raise is the largest since 1982, and the third straight year that the committee has authorized a significant pay raise above the rate of inflation.

The committee also recognizes the importance of providing service members with decent housing and work conditions. The bill provides $451 million above the budget request for military family housing and facilities.

The bill also expedites the timeline for the military health care service members living off base, from 2005 to 2008. We also provide additional funding to cover the costs of military health care for service members and their families. These are important steps in retaining them in the armed forces.

The bill allows the transferability of GI bill benefits. Senator CLELAND’s amendment to this bill includes the authorization of $30 million to allow the transfer of up to 18 months of unused G.I. Bill education benefits to a family member, in return for a commitment of four more years of service. This will be significant parts of the Tricare Modernization Act, which I introduced earlier this year, to ensure that disabled family members of active duty service men and women have access to the health care they deserve. Early last year, a young man in the Air Force drove 12 hours with his wife and disabled four-year-old daughter to testify to Congress about the need to make Medicaid more accessible, because the military health care system did not adequately meet his daughter’s needs. In order to continue her eligibility for Medicaid, he could not accept a promotion to a higher rank.

No member of the Armed Forces should ever be put in the position of having to choose between health care for their disabled child and serving our country. These families should not have to rely on Medicaid to obtain health care that works.

The Tricare Modernization Act has been endorsed by The Military Coalition, a consortium of armed forces and veterans’ organizations representing 5.5 million current and former members of the military and their families. We need to correct the injustices that these families have suffered by integrating services for disabled dependents into the basic military health benefit program, so that no medically necessary services are denied.

Last year, the Armed Services Committee heeded the needs of our military retirees, and addressed their number-one priority—the cost of prescription drugs. This benefit, which began in April, lets all men and women in uniform know that we care about their service.

The bill also provides an additional $217 million for protection of our forces against terrorism, for counter-terrorism training, research and development to protect our forces against attacks by weapons of mass destruction, and to help the services in their efforts to support civilian agencies in the battle against terrorism.

The bill also recognizes the very real threat we face from biological weapons. It addresses these threats with significant investments in science and technology for chemical and biological detection and decontamination. It will also support lifesaving research on medical treatments, vaccines, anti-toxins, and advanced diagnostic technology.
In addition, the cyber threat to national security is very real, and our armed forces must be better prepared to deal with this threat and to protect their information systems. The bill adds $5 million to the $7.9 million requested to address this serious and growing threat.

The bill also takes an important stand to begin the process of cleaning up unexploded ordnance. At many active and closed military bases, UXO is a major challenge. The bill addresses these hazards by including a major provision requiring the Department of Defense to establish specific accounts to fund the cleanup of UXO at military bases across the country, which clearly poses a hazard to civilians, military personnel, the environment, and the safe use of live-fire ranges necessary for a high state of military readiness. These new accounts are essential to demobilize the Department’s commitment to safety, the environment, and responsible use of its facilities.

Finally, on the issue of ballistic missile defense, the committee responsibly cut back the President’s $8.3 billion request for research, development, and testing of a ballistic missile defense system by $1.3 billion. The administration’s request was clearly in excess of what the Ballistic Missile Defense Office could have reasonably allocated in the coming year, and the committee was right to give priority to other military programs. The committee also took a strong stand against testing that would violate the Anti-Ballistic Missile Treaty.

It makes no sense to rush forward prematurely with tests that will violate the treaty, or with deployment of a missile defense system, when there are serious doubts about whether it will work. Our European allies and Russia continue to be skeptical about abandoning the ABM Treaty and deploying a missile defense system. We should work with our allies and continue consultations with Russia, not act unilaterally or establish arbitrary deadlines.

It is disappointing that these important ballistic missile defense provisions were removed from the bill we are currently considering. These issues are, and will continue to be, very important.

I commend my colleagues on the Armed Services Committee for their leadership in dealing with the many challenges facing our nation on national and homeland defense. This bill keeps the faith with the 2.2 million armed services who so proudly and now is the time to show our strong support for the men and women in the armed services who so proudly and bravely serve our Nation.

Mr. ROBERTS. Mr. President, I rise in support of S. 1438, the National Defense Authorization Act for fiscal year 2002. As the ranking Republican on the Emerging Threats and Capabilities Subcommittee, I would like to thank subcommittee Chairman LANDRIEU and her staff for their cooperation in the preparation of this bill. While I may have differences with several issues contained within the legislation, I do support the bill and urge its adoption by the full Senate.

At this time I would like to take a moment to highlight a few important issues which are under the jurisdiction of the Emerging Threats and Capabilities Subcommittee.

In particular, the legislation continues to build upon the committee’s past efforts to strengthen and streamline the Department of Defense’s combating terrorism program. As we were tragically reminded by the events on September 11 and last year’s bombing of the U.S.S. Cole, it is vital that we continue to focus on this growing threat.

As we all know, the threat of attacks on our national and defense information systems seem to grow daily. Last year, Senator WARNER proposed an innovative scholarship program to encourage young people to pursue careers with the Federal Government in the information assurance area. I am gratified that our collective efforts this year have increased support for this initiative as well as other Departmental efforts to enhance the security of our critical information systems. However, I am concerned that the funding level included in the bill for the scholarship program may not be sufficient.

Since the creation of the Emerging Threats and Capabilities Subcommittee in 1999, I have worked hard to ensure that our nonproliferation and threat reduction programs in Russia are fulfilling the national security objectives. This year I have worked hard to incorporate the kind of oversight I believe is essential if these nonproliferation programs are going to produce the desired results.

This committee has a long history of supporting a strong and stable science and technology program and I was pleased to see the administration’s budget request of $8.8 billion in this important area. This $1.2 billion increase over last year’s request is the first step towards achieving the Secretary’s goal of having science and technology programs up 3 percent of the overall defense budget. It remains critical that we continue our support of a vibrant science and technology base.

I strongly urge the rapid adoption of this important legislation. Our Nation is faced with a daunting task ahead and now is the time to show our strong support for the men and women in the armed services who so proudly and bravely serve our Nation.

Mr. LEVIN. Mr. President, I ask unanimous consent that there now be a period of morning business with Senators permitted to speak for up to 5 minutes each.

THE PRESIDING OFFICER. Without objection, it is so ordered.

THE DAY OF NINE-ONE-ONE

Mr. REID. Mr. President, Ira Somers was my neighbor and friend when I had my house in McLean, VA. I found Ira to be not only a mental giant but also a splendid human being. I ask unanimous consent to have printed in the RECORD a poem written by Ira Somers that loudly outlines Americans’ thoughts on the events of September 11, 2001.

There being no objection, the poem was ordered to be printed in the RECORD, as follows:

THE DAY OF NINE-ONE-ONE

This began as a quiet day
Lives were normal in every way.
The sun arose with fullest light
And moved the shadow of the night.
But this was not to last for long,
Two big giants tall and strong
Which seemed to stand for what is good
Were struck by evil where they stood.
'Twas on the day of nine-one-one
That they were lost to everyone.
There they were, and now they’re not.
And where they stood’s a gruesome spot.

Twelve lives lost in one day
And the many hours they have spent
Clearing rubble from this event.
A vicious crash at the Pentagon
Tore at the souls of the night.
And reports of heroes in the air
Which seemed to stand for what is good
Touched hearts of people everywhere.
We all can learn from such great loss
To look at need before the cost
When giving help to anyone,
And not say quit ‘till peace has won.—Ira Somers.

LOCAL LAW ENFORCEMENT ACT OF 2001

Mr. SMITH of Oregon. Mr. President, I rise today to speak about hate crimes legislation I introduced with Senator KENNEDY in March of this year. The LOCAL LAW ENFORCEMENT ACT OF 2001 would add new categories to current hate crimes legislation sending a signal that violence of any kind is unacceptable in our society.

I would like to describe a terrible crime that occurred August 29, 1993 in Walla Walla, WA. A man believed to be gay was sexually assaulted with a stick, struck by the assailant’s truck and abandoned in a remote area. Todd I. Kievgard, 27, was charged with felony assault.

I believe that Government’s first duty is to defend its citizens, to defend
them against the harms that come out of hate. The Local Law Enforcement Enhancement Act of 2001 is now a symbol that can become substance. I believe that by passing this legislation, we can change hearts and minds as well.

AUTOMATIC MEMBER PAY INCREASE

Mr. FINKELDORF. Mr. President, there is a great sense of unity across the Nation as we begin to recover from the events of September 11. The President’s speech last week gave both comfort and strength to the American people and to people around the globe.

I have been heartened by the bipartisan unity demonstrated by Congress as it acts to respond to the human and economic devastation, and we will need to maintain that unity as we ask for the sacrifices necessary to end this business.

Given all that has happened and all that will happen, it is all the more inappropriate for Congress to accept a $4,900 backdoor pay raise.

Of course, I believe the automatic pay raise is never appropriate. As my colleagues are aware, it is an unusual thing to have the power to raise our own pay. Few people have that ability. Most of our constituents do not have that power. And that this power is so unusual is good reason for the Congress as it acts to respond to the human and economic devastation, and we will need to maintain that unity as we ask for the sacrifices necessary to end this business.

This process of pay raises without accountability must end. It is offensive. It is wrong. And it is unconstitutional.

In August of 1789, as part of the package of 12 amendments advocated by James Madison that included what has become our Bill of Rights, the House of Representatives approved an amendment to the Constitution providing that Congress could not raise its pay without an intervening election. Almost exactly 212 years ago, on September 9, 1789, Congress submitted the amendments to the States.

Although the amendment on pay raises languished for two centuries, in the 1980s, a campaign began to ratify it. While I was a member of the Wisconsin State Senate, I was proud to help ratify the amendment. Its approval by the Michigan legislature on May 7, 1992, gave it the needed approval by three-fourths of the States.

The 27th amendment to the Constitution now states: “No law, varying the compensation for services of the senators and representatives, shall take effect, until an election of representatives shall have intervened.”

I try to honor that limitation in my own practices. In my own case, throughout my 6-year term, I accept only the rate of pay that Senators receive on the date on which I was sworn

in as a Senator. And I return to the Treasury any additional income Senators get, whether from a cost-of-living adjustment or a pay raise we vote for ourselves. I don’t take a raise until my bosses, the people of Wisconsin, give me one at the ballot box. That is the spirit of the 27th amendment.

This practice must end, and earlier this year I reintroduced legislation to end the automatic cost-of-living adjustment for congressional pay.

But we should not wait to enact that law to say “no” to the $4,900 pay raise that will go into effect beginning next year.

To that end, I call upon the leadership of both parties to work together, in the spirit of the bipartisan unity we have seen flourish in recent days, to stop the pay raise that is scheduled to go into effect in 2002.

I very much hope it will not be necessary to have an issue out on the floor of the Senate. I have an amendment prepared to stop this backdoor pay raise, and am willing to offer it if that becomes necessary, but I want to give our leadership the opportunity to respond.

We are spending the hard-earned tax dollars of millions of Americans to recover from the horrific events of September 11 and to ensure that it does not happen again.

And right this minute, our Nation is sending the men and women of our Armed Services into harm’s way.

This is not the time for Congress to accept a pay raise, and I am confident that upon reflection, Members of the Senate and the other body will want to stop this automatic pay raise from taking effect.

Let’s stop this backdoor pay raise right now, and then, let’s enact legislation to end this practice once and for all.

THE WORLD SITUATION AFTER THE TERRORIST STRIKE

Mr. REID. Mr. President, I ask unanimous consent to have printed in the RECORD a speech delivered by a member of the U.S. Court of International Trade, Evan Wallach. A graduate of Cambridge and a Nevadan, this expert international jurist and expert in the law of war, with clarity reviews the fact that the United States was prepared and ready for the terrorist strike of September 11, 2001.

There being no objection, the speech was ordered to be printed in the RECORD, as follows:

SPEECH, 21 SEPTEMBER, 2001 HUGHES HALL

It is good to be home. Whether it is because we as peoples share the same language and laws, value the same rights of humanity, and pray to the same God, or because I have developed so many deep friendships, I have found, since I first set foot in these halls some twenty-one years ago, I cannot feel myself a stranger in this house and in this fair land. It is good to be home and to share with you our common hopes and our common tragedy.
Congressional Record—Senate

September 24, 2001

PASS OVER HIS THRESHOLD HOLD WITHOUT AN INVITATION TO ENTER

We have taken the rights and liberties of Englishmen and extended them even further. We have enshrined them in a written Constitution and from time to time, as we have done with all previous amendments, we have added additional protections. We have been attacked by people from one particular part of the world. I am not an Arabist or a scholar of that region's history to any great degree but I think I can say those who planned this attack are mistaken about the United States in many ways. I believe they thought to wound us deeply by attacking our national symbols, and that they viewed the WTC as one such symbol. They thought, I imagine, that as a capitalist state, worshipping the almighty dollar, we would reel back, shaken and demoralized, by the loss of this great temple of Mammon. Truly they were mistaken. We reel back, not at the loss of a building, because bricks and mortar can always be replaced, but at the loss of our great freedoms, our rights, support for civil society, and an equal justice to all who come before me, and I trust we will not again make the mistake of the Second World War and presume that because bricks, and mortar can always be replaced, but that the executive branch will equally honor its obligation to protect the rights of those who reside within our national borders, their race or religion. If restrictions there are, and there will be, if some limitations arise on the freedom from government interference with our ability to travel, and as far as I know, they will be applied equally. If individual official policies take simply because of someone's color or creed, we will correct those mistakes as quickly as possible and apologize for the error. We will all face the burden together, we shall spread it as fairly as possible, and we shall bear it with quiet determination, for what we are about to do. When our nation was still in its infancy we fought an undeclared war with your neighbors across the Channel, we sent our young navy to the Mediterranean to battle the corsairs of Barbary, and over the years we have chased bandits and terrorists wherever our national interest required it. Often, and for many decades, we shared that job with the Royal Navy. I cannot, in this English language, say anything about this endeavor upon which we now embark in any way better than my hero who led your fight for civilization in the last world war. Let me quote from two speeches by Mr. Churchill: “There shall be no halting or half measures, there shall be no compromise or palaver. These gang of bandits have sought to darken the light of the world; have sought to stand between the common people and their inheritance. They shall themselves be cast into the pit of death and shame, and only when the earth has been cleansed and purged of their crimes and villainy shall we turn from the task they have forced upon us, a task which we were reluctantly undertaking, but which we shall now most faithfully and punctiliously discharge.”

Mr. Feingold. Mr. President, I rise today to speak about Belarus and my concerns about the country's recent presidential election and the need to stand up for human rights. Belarus has endured tremendous difficulties in its history. For centuries, Belarus has been fought over, occupied and carved up. It has borne heavy losses, including the loss of over 2 million people, its peak population, during WWII. Today, the Belarusian people continue to suffer devastating consequences from the 1986 Chernobyl nuclear disaster in neighboring Ukraine.

Belarus' declaration of independence in 1991 held great promise for a better future. As it broke from communist rule, it had the opportunity to build a free nation and become part of a peaceful, more secure Europe. The country began to embrace economic and political reforms and democratic principles. It courageously chose to be a nuclear-free state, ratified the START Treaty, acceded to the Non-Proliferation Treaty, and became a member of NATO's Partnership for Peace. It established a constitutional framework that would hold its first Presidential election in 1994.

Unfortunately, the prospect of democratic change in Belarus was quickly halted as its first President, Alexander Lukashenka, adopted increasingly authoritarian policies, including amending the constitution in a flawed referendum to extend his term and broaden his powers. Lukashenka's regime has been marked by a terrible human rights record that is progressively getting worse, with little respect for freedom of expression, assembly and an independent media. A pattern of disturbing disappearances of opposition leaders fails to be seriously investigated by authorities. The living conditions in Belarus are declining and Lukashenka's refusal to institute economic reforms has only exacerbated the situation.

For months, nations throughout the world have been following closely the events leading up to the presidential election which took place on September 9, 2001, with hope that Lukashenka would take the necessary steps to allow the election to be free, fair and transparent. The United States, the European Union and leaders of the Organization for Security and Cooperation in Europe, OSCE, had urged Lukashenka to uphold his commitments to democratic principles as an OSCE member state and adhere to international election standards. Lukashenka was encouraged to seize this opportunity to cement the European neighbors and the rest of the world that he is ready to change his heavy handed policies which have isolated his government and earned him a reputation as the lone remaining dictator in Europe.

Unfortunately, this election process demonstrated that Lukashenka is still unwilling to acknowledge the will of the Belarusian people. Much like last year's parliamentary elections, this election was marred by reports of intimidation, harassment and fraud. The OSCE concluded that it failed to meet internationally recognized democratic election standards.

Leading up to the election the opposition was denied fair and equal access to state-controlled media coverage of the independent media was harassed, publishing houses were shut down, and newspapers reporting on the opposition were seized. International observers from the Office for Democratic Institutions and Human Rights were denied entry into the country for several weeks, and some were denied visas altogether, thus hindering efforts to establish a complete and thorough observation mission. Consequently, observation of critical aspects of a free and democratic election were missed, including the formation of election commissions and the candidate registration process. As voters cast their ballots, efforts to conduct a parallel vote-count were thwarted when Belarusian authorities disqualified thousands of domestic election observers. As a result, while most of Belarus' Central and Eastern European neighbors continue to progress toward democracy and integration into a peaceful, more secure Europe, Belarus continues on a path of its own, isolated from much of the world.

The United States must continue to pressure Lukashenka to change his archaic iron fist policies and adopt political reforms that espouse democratic principles such as respect for human rights, support for civil society, and
the rule of law. We must continue to urge his regime to institute desperately needed market-oriented eco-

nomic reforms to promote trade, in-

vestment, growth and development in 

Belarus. We should also engage the 

Russians in high-level discussions, urg-

ing them to raise these issues with their 

neighbor, to pressure Lukashenka to take the steps he knows are nec-

essary to establish normal, productive relations between his country and the 

international community.

While putting pressure on the 

Belarusian Government, the U.S. 

should also continue to support pro-

grams that will strengthen civil soci-

ey and build democracy. The OSCE 

cited one positive observation about 

the Presidential election in Belarus: an 

increasingly pluralistic civil society is 

emerging and working to build the core 

institutions neglected by the state. 

The U.S. should continue to support 

programs that will build upon this 

progress within civil society and help 

restore democracy in Belarus.

ADDITIONAL STATEMENTS

HISPANIC HERITAGE MONTH

• Mr. SARBANES. Mr. President, 
today I rise in recognition of Hispanic Heritage Month. Each year, from Sep-

ember 15 through October 15, we rec-

ognize the contributions that Hispanic Americans bring to the United States. 

During this Hispanic Heritage Month, 

our Nation is in the process of coming 
to terms with the unspeakably savage 

attacks of September 11th and bracing 

for what may follow. Yet, in the wake of 

these heinous terrorist acts, we have 
demonstrated one of our greatest 
strengths, the ability to unite in times 
of crises. A major element of that 
unity is the diversity that has brought 

our country together. The story of immi-

grants searching for a better lifeVisa to 

the strong diverse country that it is.

The story of immigrants searching for 

a better life is a story that has been re-

played countless times throughout our 

history, sustaining the growth of 

America since her beginning. Hispanic 

Americans continue this tradition and 

are an integral part of the rich cultural 

heritage this month.

IN RECOGNITION OF DR. HENRY 

WALL

• Mr. DOMENICI. Mr. President, I rise 
today to recognize the service of Dr. 

Henry Wall to New Mexican veterans. 

Dr. Wall recently retired from the 

Artesia Veterans Affairs community-

based outpatient clinic after nearly 50 

years of service to meeting the health 
care needs of Artesia residents.

Dr. Wall graduated from the Univer-

sity of Oklahoma in 1953 and moved to 

Artesia shortly thereafter. Dr. Wall’s 

private practice spanned from 1955 to 

1991, and he became well known for his 
dedication to patient care, as well as 

for his maternity practice. In fact, 

many Artesia residents remind him 

that “You delivered me, my children, 

and my mom.”

In 1989, the Artesia community-based 

clinic was founded. The clinic was an 

outgrowth of legislation that I spon-

sored to establish six satellite veterans 

outpatient centers. I believed that vet-

erans should have access to quality 

health care at a convenient location. 

Dr. Wall also saw this opening as an 

opportunity to serve the veterans of 

southeastern New Mexico. He joined 

the clinic’s staff and brought his care 

and expertise to the many veterans in 

the local community. Dr. Wall is a vet-

eran himself, having served in the Ma-

rines in World War II. He under-

stood the need to provide our Na-

tion’s veterans with superior health 

care.

I wish to express my gratitude to Dr. 

Henry Wall for his service to Artesia 

and to the veteran population in 

particular. I have frequently stated 

that ensuring the health and well-being 
of the servicemen and women, who 
have placed their lives in harm’s way 
in order to secure our freedoms, should 
be a commitment that Americans do 

not take lightly. I am proud that Dr. 

Wall has done his part to live up to this 
commitment. I am sincerely grateful 

for his service to New Mexico’s vet-

erans.

TRIBUTE TO SISTER MARGARET 

SMITH

• Mr. DAYTON. Mr. President, today, 

I would like to take the opportunity to 

pay special tribute to an exceptional 

person, Sister Margaret Smith of Park 

Rapids, Minnesota. With great pride, 

Minnesotans have named Sister Mar-

garet Minnesota’s Outstanding Older 

Worker for this year. This is an honor 

richly deserved, for Sister Margaret 

has spent 55 of her 80 years serving in 

a variety of capacities at the St. Jo-

seph’s Area Health Services, in Park 

Rapids.

The award for Minnesota’s Out-

standing Older Walker is conferred by 

Green Thumb, Inc., the Minnesota De-

partment of Economic Security, and 

the Minnesota Department of Labor.

Sister Margaret is virtually an institu-

tion, a pillar at St. Joseph’s where 

she has touched the lives of thousands 
of people. With her humor, warmth, 

feeling for people, and dedication, she 

has been a support not only for appre-

ciative patients and their families, but 

also for her coworkers at St. Joseph’s. 

Indeed, one of the affectionate nick-

names conferred on her by the medical 

staff is “The Presence.” This is a fit-

ting title, indeed: She was among the 

seven Sisters of Saint Joseph who ar-

rived in Park Rapids in 1946 to estab-

lish a hospital, is always where she is 

needed, and has never missed a single 
day of work. Moreover, Sister Margaret 
is nothing if not versatile. Having be-

come a certified radiology technician 
in 1945, she has worked in almost every 

department of the hospital, including 

the lab and surgery; was once St. Jo-

seph’s administrator; and now sits on 

the Board of Directors.

Although she no longer performs pro-

cedures, she keeps the radiology de-

partment running smoothly by sched-

uling patients’ appointments; main-

taining statistics, information, and ac-

tivities in superb order; working with 

physicians to arrange radiology proce-

dures; and supervising the depart-

ment’s peer review. In the hospital at
large, she keeps her finger well placed on the pulse of the organization by overseeing quality control. Moreover, Sister Margaret is the hospital historian and photo archivist.

At St. Joseph’s, Sister Margaret is called “the rock, the foundation.” So loved is she for her steadfastness, lightheartedness, and solid values, that patients of 20 years ago return and ask to see her. At its genesis, the success of St. Joseph’s and its founders might not have been predicated. Rather, some in the community opposed a Catholic hospital. Today, sister Margaret says she believes her presence as a Sister of St. Joseph has made a difference. Caring for patients, she believes is sacred. Her philosophy has been to care for the whole person, spiritually as well as physically.

Sister Margaret was to have visited Washington, D.C., during the week of September 11. However, because terrorists attacked the National Prime Time Awards Program. Although our Nation’s crisis made it impossible for this trip to take place, I would like to add my voice to those who have honored Sister Margaret’s constancy of heart and spirit in ministering to so many patients for more than 50 years.

IN RECOGNITION OF I. MARTIN MERCADO

Mr. DOMENICI. Mr. President, I rise today to recognize the accomplishments of Mr. I. Martin Mercado, who will be presented today with the Small Business Administration’s Minority Small Business Person of the Year Award. This prestigious award recognizes the vital role that minority-owned small businesses play in creating jobs and providing robust economic development in their communities. Mr. Mercado is the president of Mercado Construction in Albuquerque and is the perfect example of the important contributions that small business make to our economy.

Mr. Mercado is one of seven children of immigrant parents who left their native country of Mexico in search of better opportunities for their children. Although they had little knowledge of American culture or language, they were able to provide their children with a good education and a bright future. I. Martin Mercado is a wonderful illustration of the American dream. Although he came from this humble background, he has built a successful business from the ground up.

Mercado Construction began in 1994 with only $20,000 in cash and one employee. Mr. Mercado faced the difficulty in securing financing and credit because it was a start-up company. However, after the successful completion of several projects, Mercado Construction was able to demonstrate its ability and began to gain access to working capital. Through hard work and resolve, Mercado Construction has grown exponentially. It now has 23 employees and $4.8 million in revenues and has contributed to many important development projects in the Albuquerque and Rio Rancho communities.

Equally important, Mercado Construction shares its success with other New Mexican small businesses. Mr. Mercado is an active member of the New Mexico 8(a) Association and frequently subcontracts with and purchases materials from other minority- and women-owned small businesses. In fact, over 50 percent of Mercado Construction’s subcontractors are minority- and women-owned firms. Mercado Construction is also an active participant in the Albuquerque community. It has sponsored youth sports teams and contributes to several charities, such as the North Valley Little League and the Big Brothers/Big Sisters program.

I wish to congratulate Mercado Construction and its president, Mr. I. Martin Mercado, on being named a Minority Small Business Person of the Year. I am grateful for their contribution to economic development and job creation in New Mexico, and I look forward to their continued growth and success.

MESSAGES FROM THE PRESIDENT

REPORT ON BLOCKING PROPERTY AND PROHIBITING TRANSACTIONS WITH PERSONS WHO COMMIT, THREATEN TO COMMIT, OR SUPPORT TERRORISM—MESSAGE FROM THE PRESIDENT—PM 44

The PRESIDING OFFICER laid before the Senate the following message from the President:

To the Congress of the United States:

Pursuant to section 204(b) of the International Emergency Economic Powers Act, 50 U.S.C. 1703(b) (IEEPA), and section 301 of the National Emergencies Act, 50 U.S.C. 1631, I hereby report that I have exercised my statutory authority to declare a national emergency in response to the unusual and extraordinary threat posed to the national security, foreign policy, and economy of the United States by grave acts of terrorism and threats of terrorism committed by foreign terrorists, including the September 11, 2001, terrorist attacks at the World Trade Center in New York City and the Pentagon, and in Pennsylvania. I have also issued an Executive Order to help deal with this threat by giving the United States more powerful tools to reach the means by which terrorists and terrorist networks finance themselves and to encourage greater cooperation by foreign financial institutions and other entities that may have access to foreign property belonging to terrorists or terrorist organizations.

The attacks of September 11, 2001, highlighted in the most tragic way the threat posed to the security and national interests of the United States by terrorists who have abandoned any regard for humanity, decency, morality, or honor. Terrorists and terrorist networks operate across borders and derive their financing from sources in many nations. Often, terrorist property and financial assets lie outside the jurisdiction of the United States. Our effort to combat and destroy the financial underpinnings of global terrorism must therefore be broad, and not only provide powerful sanctions against the U.S. property of terrorists and their supporters, but also encourage multilateral cooperation in identifying and freezing property and assets located elsewhere.

This Executive Order is part of our national commitment to lead the international effort to bring a halt to the evil of terrorism. In general terms, it provides additional means by which to disrupt the financial support network for terrorist organizations by blocking the U.S. assets not only of foreign persons or entities who commit or support committing acts of terrorism, but also by blocking the assets of their subsidiaries, front organizations, agents, and associates, and any other entities that provide services or assistance to them. Although the blocking powers enumerated in the order are broad, my Administration is committed to exercising them responsibly, with due regard for the culpability of the persons and entities potentially covered by the order, and in consultation with other countries.

The specific terms of the Executive Order provide for the blocking of the property and interests in property, including bank deposits, of foreign persons designated in the order or pursuant thereto, when such property is within the United States or in the possession or control of United States persons. In addition, the Executive Order prohibits any transaction or dealing by United States persons in such property or interests in property, including the making or receiving of any contribution of funds, goods, or services to or for the benefit of such designated persons.

I have identified in an Annex to this order eleven terrorism organizations, twelve individual terrorist leaders, three charitable or humanitarian organizations that operate as fronts for terrorism, and one business entity that operates as a front for terrorist financing and support. I have determined that each of these organizations and individuals have committed, supported, or threatened acts of terrorism that imperil the security of U.S. nationals or the national security, foreign policy, or economy of the United States.
United States. I have also authorized the Secretary of State to determine and designate additional foreign persons who have committed or pose a significant risk of committing acts of terrorism that threaten the security of U.S. nationals or the national security, foreign policy, or economy of the United States. Such designations are to be made in consultation with the Secretary of the Treasury and the Attorney General.

The Executive Order further authorizes the Secretary of the Treasury to identify, in consultation with the Secretary of State and the Attorney General, additional persons or entities that:

—Are owned or controlled by, or that act for or on behalf of, those persons designated in or pursuant to the order;
—Assist in, sponsor, or provide financial, material, or technological support for, or financial or other services to or in support of acts of terrorism or those persons designated in or pursuant to the order;
—or
—Are otherwise associated with those persons designated in or pursuant to the order.

Prior to designating persons that fall within the latter two categories, the Secretary of the Treasury is authorized to consult with any foreign authorities the Secretary of State deems appropriate, in consultation with the Secretary of the Treasury and the Attorney General. Such consultation is intended to avoid the need for additional designations by securing bilateral or multilateral cooperation from foreign governments and foreign financial and other institutions. Such consultation may include requests to foreign governments to seek, in accordance with international law and their domestic laws, assistance from international financial institutions regarding terrorist property and to take action to deny terrorists the use of such property. The order also provides broad authority, with respect to the latter two categories, for the Secretary of the Treasury, in his discretion, and in consultation with the Secretary of State and the Attorney General, to take lesser action than the complete blocking of property or interests in property if such lesser action is deemed consistent with the national interests of the United States. Some of the factors that may be considered in deciding whether a lesser action against a foreign person is consistent with the national interests of the United States include:

The impact of blocking on the U.S. or international financial system;
—The extent to which the foreign person has cooperated with U.S. authorities;
—The degree of knowledge the foreign person had of the terrorist-related activities of the designated person;
—The extent of the relationship between the foreign person and the designated person; and
—The impact of blocking or other actions taken against the foreign person.

The Executive Order also directs the Secretary of State, the Secretary of the Treasury, and other agencies to make all relevant efforts to cooperate and coordinate with other countries, including through future multilateral and bilateral agreements and arrangements, to achieve the objectives of this order, including the prevention and suppression of acts of terrorism, the denial of the financing of and financial services to terrorists and terrorist organizations, and the sharing of intelligence about funding activities in support of terrorism.

In the Executive Order, I also have made determinations to suspend otherwise applicable exemptions for certain humanitarian and agricultural transfers or donations. Regrettably, international terrorist networks make frequent use of charitable or humanitarian organizations to obtain clandestine financial and other support for their activities. If these exemptions were not suspended, the provision of humanitarian materials could be used as a loophole through which support could be provided to individuals or groups involved with terrorism and whose activities endanger the safety of United States nationals, both here and abroad.

The Secretary of the Treasury, in consultation with the Secretary of State and the Attorney General, is authorized to issue regulations in exercise of my authorities under IEEPA to implement the prohibitions set forth in the Executive Order. All Federal agencies are also directed to take actions within their authority to carry out the provisions of the order, and, where applicable, to advise the Secretary of the Treasury in a timely manner of the measures taken.

The measures taken here will immediately demonstrate our resolve to bring new strength to bear in our multifaceted struggle to eradicate international terrorism. It is my hope that they will point the way for other civilized nations to adopt similar measures to attack the financial roots of global terrorist networks.

In that regard, this Executive Order is an integral part of our larger effort to form a coalition in the global war against terrorism. We have already worked with nations around the globe and groups such as the G-8, the European Union, and the Rio Group, all of which have made statements of their intention to take measures to limit the ability of terrorism groups to operate. In the next several weeks the 33rd Session of the International Civil Aviation Organization (ICAO) General Assembly and other fora will focus on terrorism worldwide. It is our intention to work within the G-7/G-8, the ICAO, and other fora to reach agreement on strong concrete steps that will limit the ability of terrorists to operate. In the G-7/G-8, the United States will work with its partners, drawing on the G-8 Lyon Group on Transnational Crime, the G-8 Group on Counter-terrorism, the G-7 Financial Action Task Force, and the existing G-8 commitments to build momentum and practical cooperation in the fight to stop the flow of resources to support terrorism. In addition, both the Convention for the Suppression of the Financing of Terrorism and the Convention for the Suppression of Terrorist Bombings have been forwarded to the Senate, and I will be forwarding shortly to the Congress implementing legislation for both Conventions.

I am enclosing a copy of the Executive Order I have issued. This order is effective at 12:01 a.m. eastern daylight time on September 24, 2001.

GEORGE W. BUSH.

REPORT ON THE NATIONAL EMERGENCY WITH RESPECT TO NATIONAL UNION FOR THE TOTAL INDEPENDENCE OF ANGOLA (UNITA)—MESSAGE FROM THE PRESIDENT—PM 45

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was referred to the Committee on Banking, Housing, and Urban Affairs.

To the Congress of the United States: As required by section 401(c) of the National Emergencies Act, 50 U.S.C. 1641(c), and section 204(c) of the International Emergency Economic Powers Act, 50 U.S.C. 1704(c), I transmit herewith a 6-month periodic report on the national emergency with respect to the United National for the Total Independence of Angola (UNITA) that was declared in Executive Order 12865 of September 26, 1993.

GEORGE W. BUSH.

REPORT ON THE CONTINUATION OF EMERGENCY WITH RESPECT TO UNIT A—MESSAGE FROM THE PRESIDENT—PM 46

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was referred to the Committee on Banking, Housing, and Urban Affairs.

To the Congress of the United States:

Section 202(d) of the National Emergencies Act, 50 U.S.C. 1622(d) provides for the automatic termination of a national emergency unless, prior to the anniversary date of its declaration, the President publishes in the Federal Register and transmits to the Congress a
notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent the enclosed notice, stating that the emergency declared with respect to the National Union for the Total Independence of Angola (UNITA) is to continue in effect beyond September 26, 2001.

The circumstances that led to the declaration on September 26, 1993, of a national emergency have not been reevaluated. The actions and policies of UNITA pose a continuing unusual and extraordinary threat to the foreign policy of the United States. United Nations Security Council Resolutions 864 (1993), 1127 (1997), and 1173 (1998) continue to oblige all member states to maintain sanctions. Discontinuance of the sanctions would have a prejudicial effect on the prospects for peace in Angola. For these reasons, I have determined that it is necessary to maintain in force the broad authorities necessary to apply economic pressure on UNITA to reduce its ability to pursue its military operations.

GEORGE W. BUSH.

MESSAGE FROM THE HOUSE

Under the authority of the order of the Senate of January 3, 2001, the Secretary of the Senate, on September 21, 2001, during the recess of the Senate, received a message from the House of Representatives announcing that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 296. An act to preserve the continued viability of the United States air transportation system.

ENROLLED BILL SIGNED

Under the authority of the order of the Senate of January 3, 2001, the following enrolled bill, previously signed by the Speaker of the House, was signed by the President pro tempore (Mr. BYRD) on September 21, 2001:

H.R. 296. An act to preserve the continued viability of the United States air transportation system.

MEASURES PLACED ON THE CALENDAR

The following bill was read the second time, and placed on the calendar:

S. 1447. A bill to improve aviation security, and for other purposes.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, to which accompanying papers, reports, and documents, which were referred as indicated:

EC-4099. A communication from the Chairman of the Federal Trade Commission, transmitting, pursuant to law, the Board’s report under the Government in the Sun-shine Act for calendar year 2000; to the Committee on Governmental Affairs.

EC-4100. A communication from the Office of Sustainable Fisheries, Domestic Fisheries Division, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Approach for the U.S. and the United States; Summer Flounder Fishery; Framework Adjustment 2" (RIN0648-A092) received on July 16, 2001, to the Committee on Commerce, Science, and Transportation.

EC-4097. A communication from the Secretary of Transportation, transmitting, a draft of proposed legislation entitled "Coast Guard Authorization Act of 2001"; to the Committee on Commerce, Science, and Transportation.

EC-4100. A communication from the Secretary of the Interior, transmitting, jointly, pursuant to law, a report entitled "A Framework Study of Atlantic Strategic Base"; to the Committee on Commerce, Science, and Transportation.

EC-4100. A communication from the Assistant Secretary of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the report of a certificate of a proposed license for the export of major defense equipment sold under a contract in the amount of $50,000,000 or more to New Zealand; to the Committee on Foreign Relations.

EC-4102. A communication from the Assistant Secretary of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the report of a certification of a proposed license for the export of major defense equipment sold commercially under a contract in the amount of $50,000,000 or more to The Arab Republic of Egypt; to the Committee on Foreign Relations.

EC-4102. A communication from the Assistant Secretary of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the report of a certification of a proposed license for the export of major defense equipment sold commercially under a contract in the amount of $50,000,000 or more to New Zealand; to the Committee on Foreign Relations.

EC-4106. A communication from the Assistant Secretary of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the report of a certification of a proposed license for the export of major defense equipment sold under a contract in the amount of $50,000,000 or more to Brazil; to the Committee on Foreign Relations.

EC-4106. A communication from the Assistant Secretary of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the report of a certification of a proposed license for the export of defense articles or defense services sold commercially under a contract in the amount of $50,000,000 or more to Japan; to the Committee on Foreign Relations.

EC-4107. A communication from the Assistant Secretary of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the report of a certification of a proposed Technical Assistance Agreement for the export of defense articles or services sold commercially under a contract in the amount of $50,000,000 or more to Taiwan; to the Committee on Foreign Relations.

EC-4108. A communication from the Assistant Secretary of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the report of a certification of a proposed license for the export of defense articles or defense services sold commercially under a contract in the amount of $50,000,000 or more to North Korea; to the Committee on Foreign Relations.

EC-4110. A communication from the Assistant Secretary of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the report of a certification of a proposed Manufacturing License with Germany; to the Committee on Foreign Relations.

EC-4111. A communication from the Assistant Secretary of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the report of a certification of a proposed license for the export of defense articles or services sold commercially under a contract in the amount of $50,000,000 or more to Israel; to the Committee on Foreign Relations.

EC-4112. A communication from the Acting Chief, Foreign Counsel, Department of the Treasury, transmitting, pursuant to the Arms Export Control Act, the report of a certificate of a proposed license for the export of defense articles or services sold commercially under a contract in the amount of $50,000,000 or more to the General Secretariat of the Arab League; to the Committee on Foreign Relations.

EC-4113. A communication from the General Counsel, Department of the Treasury, transmitting, a draft of proposed legislation relative to currency, postage stamps, and other security documents for foreign governments, and security documents for State governments, and their agencies, on a reimbursable basis; to the Committee on Banking, Housing, and Urban Affairs.

EC-4114. A communication from the Secretaries of Housing and Urban Development, transmitting, a draft of proposed legislation regarding FHA-insured multifamily housing mortgage and housing restructuring; to the Committee on Banking, Housing, and Urban Affairs.

EC-4115. A communication from the General Counsel, Department of the Treasury and the Department of Commerce, transmitting, a draft of proposed legislation entitled "Trade Sanctions Reform and Export Administration Amendments Act of 2001"; to the Committee on Banking, Housing, and Urban Affairs.

EC-4116. A communication from the Secretaries of Housing and Urban Development, transmitting, pursuant to law, the
report of a rule entitled ‘‘Bookkeeping Services Provided by Auditors to Audit Clients in Emergency Situations,’’ received on August 24, 2001; to the Committee on Banking, Housing, and Urban Affairs.

EC-4118. A communication from the Administrative Officer, Institute of Museum and Library Services, the report of the discontinuation of service in acting role for the position of Director, received on August 16, 2001; to the Committee on Health, Education, Labor, and Pensions.

EC-4119. A communication from the Administrative Officer, Institute of Museum and Library Services, transmitting, pursuant to law, the report of a nomination confirmed for the position of Director, received on August 16, 2001; to the Committee on Health, Education, Labor, and Pensions.

EC-4120. A communication from the Administrative Officer, Institute of Museum and Library Services, transmitting, pursuant to law, the report of a nomination confirmed for the position of Director, received on August 16, 2001; to the Committee on Health, Education, Labor, and Pensions.

EC-4121. A communication from the Director of the Corporate Policy and Research Department, Pension Benefit Guaranty Corporation, transmitting, pursuant to law, the report of a rule entitled ‘‘Benefits Payable in Terminated Single-Employer Plans; Allocation of Final Average Pay and Employer Plan Interest Assumptions for Valuing and Paying Benefits’’ received on August 20, 2001; to the Committee on Health, Education, Labor, and Pensions.

EC-4122. A communication from the Assistant Secretary for Administration and Management, Department of Labor, transmitting, pursuant to law, the report of the discontinuation of service in acting role and a nomination confirmed for the position of Assistant Secretary for Occupational Safety and Health, received on August 20, 2001; to the Committee on Health, Education, Labor, and Pensions.

EC-4123. A communication from the Assistant Secretary for Administration and Management, Department of Labor, transmitting, pursuant to law, the report of a nomination confirmed for the position of Assistant Secretary for Employment and Training, received on August 20, 2001; to the Committee on Health, Education, Labor, and Pensions.

EC-4124. A communication from the Assistant Secretary for Administration and Management, Department of Labor, transmitting, pursuant to law, the report of a nomination confirmed for the position of Assistant Secretary for Employment and Training, received on August 20, 2001; to the Committee on Health, Education, Labor, and Pensions.

EC-4125. A communication from the Secretary for Health, Education, Labor, and Pensions, transmitting, a draft of proposed legislation relating to transportation and environmental matters as they affect the Department; to the Committee on Armed Services.

EC-4126. A communication from the General Counsel of the Department of Transportation, transmitting, a draft of proposed legislation related to the Revision of Determination of Navy Training on Island of Vieques; to the Committee on Armed Services.

EC-4127. A communication from the General Counsel of the Department of Transportation, transmitting, a draft of proposed legislation relating to the operations and management of the Department; to the Committee on Armed Services.

EC-4128. A communication from the General Counsel of the Department of Transportation, transmitting, a draft of proposed legislation relating to the operations and management of the Department; to the Committee on Armed Services.

EC-4129. A communication from the General Counsel of the Department of Transportation, transmitting, a draft of proposed legislation relating to the operation and management of the Department; to the Committee on Armed Services.

EC-4130. A communication from the General Counsel of the Department of Transportation, transmitting, a draft of proposed legislation relating to the operation and management of the Department; to the Committee on Armed Services.

EC-4131. A communication from the General Counsel of the Department of Transportation, transmitting, a draft of proposed legislation relating to the operation and management of the Department; to the Committee on Armed Services.

EC-4132. A communication from the General Counsel of the Department of Transportation, transmitting, a draft of proposed legislation relating to the reduction of recurring reporting requirements; to the Committee on Armed Services.

EC-4133. A communication from the General Counsel of the Department of Transportation, transmitting, a draft of proposed legislation relating to the reduction of recurring reporting requirements; to the Committee on Armed Services.

EC-4134. A communication from the General Counsel of the Department of Transportation, transmitting, a draft of proposed legislation relating to the reduction of recurring reporting requirements; to the Committee on Armed Services.

EC-4135. A communication from the General Counsel of the Department of Transportation, transmitting, a draft of proposed legislation relating to the reduction of recurring reporting requirements; to the Committee on Armed Services.

EC-4136. A communication from the General Counsel of the Department of Transportation, transmitting, a draft of proposed legislation relating to the reduction of recurring reporting requirements; to the Committee on Armed Services.

EC-4137. A communication from the General Counsel of the Department of Transportation, transmitting, a draft of proposed legislation relating to the reduction of recurring reporting requirements; to the Committee on Armed Services.

EC-4138. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of a nomination confirmed for the position of Director, Defense Research and Engineering; received on August 13, 2001; to the Committee on Armed Services.

EC-4139. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of the discontinuation of service in acting role for the position of Assistant Secretary of the Air Force, Financial Management and Comptroller, received on August 13, 2001; to the Committee on Armed Services.

EC-4140. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of the discontinuation of service in acting role for the position of Assistant Secretary of the Air Force, Financial Management and Comptroller, received on August 13, 2001; to the Committee on Armed Services.

EC-4141. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of the discontinuation of service in acting role for the position of Assistant Secretary of the Air Force, Financial Management and Comptroller, received on August 13, 2001; to the Committee on Armed Services.

EC-4142. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of the discontinuation of service in acting role for the position of Assistant Secretary of the Air Force, Financial Management and Comptroller, received on August 13, 2001; to the Committee on Armed Services.

EC-4143. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of a nomination confirmed for the position of Assistant Secretary of the Air Force, Financial Management and Comptroller, received on August 13, 2001; to the Committee on Armed Services.

EC-4144. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of a nomination confirmed for the position of Assistant Secretary of the Air Force, Financial Management and Comptroller, received on August 13, 2001; to the Committee on Armed Services.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced during the first and second times by unanimous consent, and referred as indicated:

By Mr. BENNETT (for himself and Mr. KYL):
S. 1456. A bill to facilitate the security of the critical infrastructure of the United States, to encourage the secure disclosure and protected exchange of critical infrastructure information, to enhance the analysis, prevention, and detection of attacks on critical infrastructure, to enhance the recovery from such attacks, and for other purposes; to the Committee on Governmental Affairs.

By Mr. SARBANES (by request):
S. 1457. A bill to extend FHA-insured multifamily housing mortgage and housing assistance restructuring authority, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. FEINGOLD:
S. 1458. A bill to facilitate the voluntary provision of emergency services during commercial air flights; to the Committee on Commerce, Science, and Transportation.

ADDITIONAL COSPONSORS

S. 1456

At the request of Mr. KERRY, the name of the Senator from New Mexico
At the request of Mr. Frist, the name of the Senator from Nebraska (Mr. HAGEL) was added as a cosponsor of S. 1200, a bill to direct the Secretaries of the military departments to conduct a review of military service records to determine whether certain Jewish American war veterans, including those previously awarded the Distinguished Service Cross, Navy Cross, or Air Force Cross, should be awarded the Medal of Honor.

At the request of Mrs. Carnahan, the name of the Senator from Utah (Mr. HATCH) was added as a cosponsor of S. 1250, a bill to amend title 10, United States Code, to improve transitional medical and dental care for members of the Armed Forces released from active duty to which called or ordered, or for which retained, in support of a contingency operation.

At the request of Mrs. Carnahan, the names of the Senator from Virginia (Mr. Warner), the Senator from Massachusetts (Mr. Kerry), and the Senator from Louisiana (Ms. Landrieu) were added as cosponsors of S. 1454, a bill to provide assistance for employees who are separated from employment as a result of reductions in service by air carriers, and closures of airports, caused by terrorist actions or security measures.

At the request of Mrs. Carnahan, the names of the Senator from Virginia (Mr. Allen), the Senator from Pennsylvania (Mr. Specter), the Senator from Alaska (Mr. Stevens), and the Senator from Maine (Ms. Snowe) were added as cosponsors of S. 1447, a bill to improve aviation security, and for other purposes.

At the request of Ms. Collins, the name of the Senator from Minnesota (Mr. Domenici) was added as a cosponsor of S. 1434, a bill to authorize the President to award posthumously the Congressional Gold Medal to the passengers and crew of United Airlines flight 93 in the aftermath of the terrorist attack on the United States on September 11, 2001.

At the request of Mr. Allen, the name of the Senator from Illinois (Mr. Fitzgerald) was added as a cosponsor of S. 1433, a bill to amend the Internal Revenue Code of 1986 to provide tax relief for victims of the terrorist attacks against the United States on September 11, 2001.

At the request of Mr. Specter, the name of the Senator from Louisiana (Mr. Breaux) was added as a cosponsor of S. 1250, a bill to amend title 10, United States Code, to improve transitional medical and dental care for members of the Armed Forces released from active duty to which called or ordered, or for which retained, in support of a contingency operation.

At the request of Mr. Hatch, the name of the Senator from New Jersey (Mr. Corzine) was added as a cosponsor of S. 760, a bill to amend the Internal Revenue Code of 1986 to encourage and accelerate the nationwide production, retail sale, and consumer use of new motor vehicles that are powered by fuel cell technology, hybrid technology, battery electric technology, alternative fuels, or other advanced motor vehicle technologies, and for other purposes.

At the request of Mr. Baucus, the name of the Senator from Wyoming (Mr. Enzi) was added as a cosponsor of S. 808, a bill to amend the Internal Revenue Code of 1986 to repeal the occupational taxes relating to distilled spirits, wine, and beer.

At the request of Mr. Chafee, the name of the Senator from Connecticut (Mr. Dodd) was added as a cosponsor of S. 830, a bill to amend the Public Health Service Act to authorize the Director of the National Institute of Environmental Health Sciences to make grants for the development and operation of research centers regarding environmental factors that may be related to the etiology of breast cancer.

At the request of Mr. Craig, the name of the Senator from Arkansas (Mr. Hutchinson) was added as a cosponsor of S. 836, a bill to amend part C of title XI of the Social Security Act to provide for coordination of implementation of administrative simplification standards for health care information.

At the request of Ms. Collins, the name of the Senator from Arkansas (Mrs. Lincoln) was added as a cosponsor of S. 917, a bill to amend the Internal Revenue Code of 1986 to exclude from gross income amounts received on account of claims based on certain unlawful discrimination and to allow income averaging for backpay and frontpay awards received on account of such claims, and for other purposes.

At the request of Mr. Cleland, the name of the Senator from Wisconsin (Mr. Feingold) was added as a cosponsor of S. 1200, a bill to direct the Secretaries of the military departments to conduct a review of military service records to determine whether certain Jewish American war veterans, including those previously awarded the Distinguished Service Cross, Navy Cross, or Air Force Cross, should be awarded the Medal of Honor.

At the request of Mrs. Carnahan, the name of the Senator from Utah (Mr. Hatch) was added as a cosponsor of S. 1250, a bill to amend title 10, United States Code, to improve transitional medical and dental care for members of the Armed Forces released from active duty to which called or ordered, or for which retained, in support of a contingency operation.

At the request of Mr. Kennedy, the name of the Senator from Massachusetts (Mr. Kerry) was added as a cosponsor of S. 1274, a bill to amend the Public Health Service Act to provide programs for follow-up treatment, and rehabilitation of stroke.

At the request of Mr. Santorum, the name of the Senator from Georgia (Mr. Miller) was added as a cosponsor of S. 1300, a bill to amend the Internal Revenue Code of 1986 to encourage foundations and corporate charitable giving.

At the request of Mr. Lugar, the name of the Senator from Nebraska (Mr. HAGEL) was added as a cosponsor of S. 1326, a bill to extend and improve working lands and other conservation programs administered by the Secretary of Agriculture.

At the request of Mr. Chafee, the name of the Senator from California (Mrs. Boxer) was added as a cosponsor of S. 1343, a bill to amend title XIX of the Social Security Act to provide for coordination of implementation of administrative simplification standards for health care information.

At the request of Mr. Kyl, the name of the Senator from Massachusetts (Mr. Kennedy) was added as a cosponsor of S. 1400, a bill to amend the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 to extend the deadline for aliens to present a border crossing card that contains a biometric identifier matching the appropriate biometric characteristic of the alien.

At the request of Mr. Breaux, the name of the Senator from Louisiana (Ms. Landrieu) was added as a cosponsor of S. 1454, a bill to provide assistance for employees who are separated from employment as a result of reductions in service by air carriers, and closures of airports, caused by terrorist actions or security measures.

At the request of Mr. Sotorius, the names of the Senator from Pennsylvania (Mr. Specter), the Senator from Alaska (Mr. Stevens), and the Senator from New Mexico (Mr. Domenici) were added as cosponsors of S. Con. Res. 73, a concurrent resolution...
expressing the profound sorrow of Congress for the deaths and injuries suffered by first responders as they endeavored to save innocent people in the aftermath of the terrorist attacks on the World Trade Center and the Pentagon on September 11, 2001.

**AMENDMENT NO. 1599**

At the request of Mr. LOTT, the names of the Senator from Maine (Ms. COLLINS) were added as cosponsors of amendment No. 1599 intended to be proposed to S. 1438, a bill to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes.

**AMENDMENT NO. 1601**

At the request of Mr. LOTT, the name of the Senator from North Dakota (Mr. DORGAN) was added as a cosponsor of amendment No. 1601 intended to be proposed to S. 1438, a bill to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes.

**STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS**

By Mr. BENNETT (for himself and Mr. KYL): S. 1456. A bill to facilitate the security of the critical infrastructure of the United States, to encourage the secure disclosure and protected exchange of critical infrastructure information, to enhance, improve, prevention, and detection of attacks on critical infrastructure, to enhance the recovery from such attacks, and for other purposes; to the Committee on Governmental Affairs.

Mr. BENNETT. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1456

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

**SECTION 1. SHORT TITLE.**

This Act may be cited as the "Critical Infrastructure Information Security Act of 2001."

**SEC. 2. FINDINGS.**

Congress makes the following findings:

(1) The critical infrastructures that underpin our society, national defense, economic prosperity, and quality of life—including energy, finance, transportation, and vital human services, and telecommunications—must be viewed in a new context in the Information Age.

(2) The rapid proliferation and integration of telecommunications and computer systems have connected infrastructures to one another in a complex global network of interdependencies. As a result, new vulnerabilities to such systems and infrastructures have emerged, such as the threat of physical and cyber attacks from terrorists or hostile states. These attacks could disrupt the economy and endanger the security of the United States.

(3) The private sector, which owns and operates the majority of these critical infrastructures, and the Federal Government, which has unique information and analytical capabilities, could both greatly benefit from cooperating in response to threats, vulnerabilities, and actual attacks to critical infrastructures by sharing information and analysis.

(4) The private sector is hesitant to share critical infrastructure information with the Federal Government because—

(A) Federal law provides no clear assurance that critical infrastructure information voluntarily submitted to the Federal Government will be protected from disclosure or misuse;

(B) the framework of the Federal Government for critical infrastructure information sharing and analysis is not sufficiently developed; and

(C) concerns about possible prosecution under the antitrust laws inhibit some companies from partnering with other industry members, including competitors, to develop cooperative infrastructure security strategies.

(5) Statutory nondisclosure provisions that qualify as Exemptions 3 statutes under section 552 of title 5, United States Code (commonly referred to as the Freedom of Information Act), many of them longstanding, prohibit disclosure of numerous classes of information under that Act. These statutes cover specific and narrowly defined classes of information and are consistent with the principles of free and open government that that Act seeks to facilitate.

(6) Since the infrastructure information that this Act contemplates, including the national and public domain, preventing public disclosure of this sensitive information serves the greater good by promoting national security and economic stability.

**SEC. 3. PURPOSE.**

The purpose of this Act is to foster improved security of critical infrastructure by—

(1) promoting the increased sharing of critical infrastructure information both between private sector entities and between the Federal Government and the private sector; and

(2) encouraging the private sector and the Federal Government to conduct better analysis of critical infrastructure information in order to prevent, detect, warn of, and respond to incidents involving critical infrastructure.

**SEC. 4. DEFINITIONS.**

In this Act:

(A) AGENCY.—The term "agency" has the meaning given that term in section 551 of title 5, United States Code.

(B) means physical and cyber-based systems and services essential to the national defense, security, or economy of the United States, including systems essential for telecommunications (including voice and data transmission and the Internet), electric power, air transportation, banking and finance, transportation, water supply, emergency services (including medical, fire, and police services), and the continuity of government operations; and

(C) includes any industry sector designated by the President pursuant to the Critical Infrastructure Protection Act of 1996 (15 U.S.C. 7451 et seq.) or the Defense Production Act of 1950 (50 U.S.C. App. 2061 et seq.) or otherwise to foster the ability of any protected system or critical infrastructure to—

(A) prevent, detect, warn of, and respond to incidents involving critical infrastructure;

(B) any threat to the security of a protected system or critical infrastructure;

(C) by—

(1) communicating or disclosing critical infrastructure information to help prevent, detect, mitigate, or recover from the effects of a problem related to critical infrastructure or protected systems; and

(D) voluntarily disseminating critical infrastructure information to identify members, other Information Sharing and Analysis Organizations, the Federal Government, or any entities which may be of assistance in carrying out the purposes specified in subparagraphs (A) and (B).

(2) includes any physical or computer-based system, process, or procedure that directly or indirectly affects a facility of critical infrastructure; and

(3) includes any physical or computer-based system, including a computer, computer system, computer or communications networks, any component or element thereof, software program, processing instructions, or information or data in transmission or storage therein (irrespective of storage medium).

(E) the term "critical infrastructure information"—

(A) includes any industry sector designated by the President pursuant to the National Security Act of 1947 (50 U.S.C. 401 et seq.) or the Defense Production Act of 1950 (50 U.S.C. App. 2061 et seq.) as essential to provide resources for the execution of the national security strategy of the United States, including emergency preparedness activities pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5156 et seq.).

(B) includes any industry sector designated by the President pursuant to the National Security Act of 1947 (50 U.S.C. 401 et seq.) or the Defense Production Act of 1950 (50 U.S.C. App. 2061 et seq.) as essential to provide resources for the execution of the national security strategy of the United States, including emergency preparedness activities pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5156 et seq.).

**SEC. 3. PURPOSE.**

The purpose of this Act is to foster improved security of critical infrastructure by—

(1) promoting the increased sharing of critical infrastructure information both between private sector entities and between the Federal Government and the private sector; and

(2) encouraging the private sector and the Federal Government to conduct better analysis of critical infrastructure information in order to prevent, detect, warn of, and respond to incidents involving critical infrastructure.
SEC. 5. PROTECTION OF VOLUNTARILY SHARED
CRITICAL INFRASTRUCTURE INFORMATION.

(a) Protection.—

(1) In General.—Notwithstanding any other provision of law, critical infrastructure information that is voluntarily submitted to a covered Federal agency for analysis, warning, interdependency study, recovery, reconstitution, or other informational purpose, when accompanied by an express statement specified in paragraph (3)—

(A) shall not be made available under section 5 of title 5, United States Code (commonly referred to as the Freedom of Information Act); and

(B) may not, without the written consent of the person or entity submitting such information, be used directly by such agency, any other Federal, State, or local authority, or any third party, in any civil action arising under Federal or State law, unless such information is submitted in bad faith; and

(C) may not, without the written consent of the person or entity submitting such information, be used as a purpose other than the purpose of this Act, or disclosed by any officer or employee of the United States, except pursuant to the official duties of such officer or employee pursuant to this Act.

(2) COVERED FEDERAL AGENCY DEFINED.—In

paragraph (1), the term ‘‘covered Federal agency’’ means the following:

(A) The Department of Justice.

(B) The Department of Defense.

(C) The Department of Commerce.

(D) The Department of Transportation.

(E) The Department of the Treasury.

(F) The Environmental Protection Agency.

(G) The General Services Administration.

(H) The Department of Energy.

(I) The Federal Communications Commission.

(K) The National Communication System.

(L) The National Transportation Safety Board.

(M) The National Oceanic and Atmospheric Administration.

(3) EXPRESS STATEMENT.—For purposes of paragraph (1), the term ‘‘express statement’’, with respect to information or records, means—

(A) in the case of written information or records, a written marking on the information or records as follows: ‘‘This information is voluntarily submitted to the Federal Government in expectation of protection from disclosure under the provisions of the Critical Infrastructure Information Security Act of 2001’’; or

(B) in the case of oral information, a statement, substantially similar to the words specified in subparagraph (A), to convey that the information is voluntarily submitted to the Federal Government in expectation of protection from disclosure under the provisions of this Act.

(b) INDEPENDENTLY OBTAINED INFORMATION.—Nothing in this section shall be construed to limit or otherwise affect the ability of the Federal Government to obtain and use under applicable law critical infrastructure information obtained by or submitted to the Federal Government in a manner not covered by subsection (a).

(c) TREATMENT OF VOLUNTARY SUBMITTED INFORMATION.—The voluntary submittal to the Federal Government of information or records is exempt from the disclosure requirements of this section, for purposes provided from disclosure by this section shall not be construed to constitute compliance with any requirement to submit such information to a Federal agency under any other provision of law.

(d) PROCEDURES.—

(1) In General.—The Director of the Office of Management and Budget shall, in consultation with appropriate representatives of the National Security Council and the Office of Science and Technology Policy, establish uniform procedures for the receipt, care, and storage by any Federal agency of critical infrastructure information that is voluntarily submitted to the Federal Government. The procedures shall be established not later than 90 days after the date of the enactment of this Act.

(2) ELEMENTS.—The procedures established under paragraph (1) shall include mechanisms regarding—

(A) the acknowledgement of receipt by Federal agencies of critical infrastructure information that is voluntarily submitted to the Federal Government for purposes of this Act;

(B) the marking of such information as critical infrastructure information that is voluntarily submitted to the Federal Government for purposes of this Act;

(C) the care and storage of such information; and

(D) the protection and maintenance of the confidentiality of such information so as to permit, pursuant to section 6, the sharing of such information by the Federal Government, and the issuance of notices and warnings related to protection of critical infrastructure.

SEC. 6. NOTIFICATION, DISSEMINATION, AND ANALYSIS REGARDING CRITICAL INFRASTRUCTURE INFORMATION.

(a) Notice Regarding Critical Infrastructure Security.—

(1) IN GENERAL.—A covered Federal agency (as specified in section 5(a)(2)) receiving significant information received under section 5 from a private person or entity about the security of a protected system or critical infrastructure of another known or identified private person or entity shall, to the extent consistent with requirements of national security or law enforcement, notify and convey such information to such other private person or entity as soon as reasonably possible after receipt of such information by the agency.

(2) CONSTRUCTION.—Paragraph (1) may not be construed to require the agency to provide specific notice where doing so would not be practicable, for example, based on the quantity of persons or entities identified as having security vulnerabilities. In instances where specific notice is not practicable, the agency should take reasonable steps, consistent with paragraph (1), to issue broadly disseminated advisories or alerts.

(b) ANALYSIS OF INFORMATION.—Upon receipt of critical infrastructure information that is voluntarily submitted to the Federal Government by a covered Federal agency receiving such information shall—

(1) share with appropriate covered Federal agencies any critical infrastructure information that concerns actual attacks, and threats and warnings of attacks, on critical infrastructure and protected systems;

(2) identify and analyze such threats; and

(3) determine whether further analysis in concert with other Federal agencies, or warnings under subsection (c), are warranted.

(c) ACTION FOLLOWING ANALYSIS.—

(1) AUTHORITY TO ISSUE WARNINGS.—As a result of analysis of critical infrastructure information received under subsection (a), the Federal agency may issue warnings to individual companies, targeted sectors, other governmental entities, or the general public regarding potential threats to critical infrastructure.

(2) FORM OF WARNINGS.—In issuing a warning under paragraph (1), the Federal agency shall take appropriate actions to prevent the disclosure of the source of any voluntarily submitted critical infrastructure information that forms the basis for the warning.

(d) STRATEGIC ANALYSES OF POTENTIAL THREATS TO CRITICAL INFRASTRUCTURE.—

(1) IN GENERAL.—The President shall designate an element in the Executive Branch—

(A) to conduct strategic analyses of potential threats to critical infrastructure; and

(B) to submit reports on such analyses to Information Sharing and Analysis Organizations and such other entities as the President considers appropriate.

(2) STRATEGIC ANALYSES.—

(A) INFORMATION USED.—In conducting strategic analyses under paragraph (1)(A), the element designated to conduct such analyses under paragraph (1) shall utilize a range of critical infrastructure information voluntarily submitted to the Federal Government by the private sector, as well as applicable intelligence and law enforcement information.

(B) AVAILABILITY.—The President shall take appropriate actions to ensure that, to the maximum extent practicable, all critical infrastructure information voluntarily submitted to the Federal Government by the private sector is available to the element designated under paragraph (1) to conduct strategic analyses under paragraph (1)(A).

(C) FREQUENCY.—Strategic analyses shall be conducted under this paragraph with such frequency as the President considers appropriate, and otherwise specifically at the direction of the President.

(3) REPORTS.—

(A) IN GENERAL.—Each report under paragraph (1)(B) shall contain the following:

(i) A description of currently recognized methods of attacks on critical infrastructure.

(ii) An assessment of the threats to critical infrastructure that could develop over the year following such report.

(iii) An assessment of the lessons learned from responses to previous attacks on critical infrastructure.

(iv) Such other information on the protection of critical infrastructure as the element conducting analyses under paragraph (1) considers appropriate.

(B) FORM.—Reports under this paragraph may be in classified or unclassified form, or both.

(C) CONSTRUCTION.—Nothing in this subsection shall be construed to modify or alter any responsibility of a Federal agency under subsections (a) through (c).

(e) PLAN FOR STRATEGIC ANALYSES OF THREATS TO CRITICAL INFRASTRUCTURE.—

(1) PLAN.—The President shall develop a plan for carrying out strategic analyses of potential threats to critical infrastructure through the element in the Executive Branch designated under subsection (d)(1).

(2) ELEMENTS.—The plan under paragraph (1) shall include the following:

(A) A methodology for the work under the plan of the element referred to in paragraph (1), including the development of expertise among or with personnel or other resources of the element in order to carry out those mechanisms.
By Mr. FEINGOLD:
S. 1438. A bill to facilitate the voluntary provision of emergency services during commercial air flights; to the Committee on Commerce, Science, and Transportation.

Mr. FEINGOLD. Mr. President, I rise today to introduce the Volunteers For Safe Skies Act of 2001. This bill will allow our Nation’s firefighters, law enforcement officials, and emergency medical technicians, EMTs, to serve voluntarily on commercial aircraft to help ensure the safety of the flying public.

In many cases, these public servants already notify the crew when they board that they are fully trained for emergencies and are willing to help out in the event they are needed.

This bill would simply streamline and organize this practice by requiring the Federal Aviation Administration to create a program through which these officials can register voluntarily and confidentially with the airlines. Our Nation’s law enforcement officials, firefighters, and EMTs, are not trained to respond to armed or other emergency situations and can be of great assistance to an airline crew.

When I was back in Wisconsin following the vicious attacks on our country, I was struck by the outpouring of support and the number of people who wanted to help the victims, their families, and the rescue workers in the attacks. Across Wisconsin and the country, we have all heard the stories of people lining up to buy blood and food, of charities being flooded with donations of goodwill. People are searching for ways to help.

When I held one of my listening sessions last week, Fire Chief James Holme, of the Washington Police Fire Chief Charles Tubbs of Beloit, WI, came up to me with an idea that they thought would help make our skies safer. Part of this idea was to create a registration system through which law enforcement officials, firefighters, and EMTs could register voluntarily to serve in the event of an emergency on a commercial airplane. For example, if an official was going on vacation on an airplane, he or she would register with the air line beforehand to notify them that they would have a trained public safety official on that flight. Like the sky marshals, only the crew would know when one of these volunteers was on the plane.

Keep in mind that this would strictly be a volunteer program. This bill will help make our skies safer while at the same time making it easier for our police officers, firefighters, and EMTs to serve their country.

As many of my colleagues have stated, if the airline industry is to recover fully from the events of September 11, 2001, we must make the flying public feel safe once again in our skies. The Volunteers For Safe Skies Act would help us do just that.

AMENDMENTS SUBMITTED AND PROPOSED

SA 1617. Mr. SANTORUM submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1619. Mr. SANTORUM submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1621. Mr. BINGAMAN submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1623. Mr. BINGAMAN submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1625. Mr. BINGAMAN submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1629. Mr. BOND (for himself and Mr. KEMP) submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1630. Mr. STEVENS (for himself and Mr. WYDEN) submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1631. Mr. BROWNACK submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1633. Mr. HAGEL submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1637. Ms. COLLINS (for herself, Ms. LANDRUIE, and Mr. ALLARD) submitted an amendment intended to be proposed by her to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1638. Mr. Bunning submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1639. Mr. FEINGOLD and intended to be proposed by the bill...
Mr. BINGAMAN submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1640. Mr. HUTCHINSON (for himself and Mrs. LINCOLN) submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1641. Mr. DOMENICI (for himself, Mr. THURMOND, Mr. MUKOWSKI, Mr. BINGAMAN, Mr. LUGAR, and Mr. HOLLINGS) submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1643. Mr. DOMENICI submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1644. Mr. DOMENICI submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1645. Mr. DOMENICI (for himself and Mr. BINGAMAN) submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1646. Mr. DOMENICI submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1647. Mr. DOMENICI submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1648. Mr. DOMENICI submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1652. Mr. NELSON of Florida submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1653. Mr. DOMENICI submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1654. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1655. Mr. DOMENICI (for himself and Mr. REID) submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1656. Mr. DOMENICI submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1657. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1658. Mr. LOTT submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1659. Mr. LOTT submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

SA 1660. Mr. WARNER (for himself and Mr. LEVIN) proposed an amendment to the bill S. 1438, supra.

SA 1661. Mr. LEVIN (for himself and Mr. WARNER) proposed an amendment to the bill S. 1438, supra.

SA 1662. Mr. LEVIN (for himself and Mr. WARNER) proposed an amendment to the bill S. 1438, supra.

SA 1664. Mr. WARNER (for Mrs. HUTCHISON (for himself and Mr. LIEBERMAN)) proposed an amendment intended to be proposed by him to the bill S. 1438, supra.

SA 1665. Mr. LEVIN (for Mr. AKAKA) submitted an amendment intended to be proposed by him to the bill S. 1438, supra.

SA 1666. Mr. WARNER (for Mr. SANTORUM) proposed an amendment to the bill S. 1438, supra.

SA 1667. Mr. LEVIN (for Mr. LIEBERMAN (for himself and Mr. SANTORUM)) proposed an amendment intended to be proposed by him to the bill S. 1438, supra.

SA 1668. Mr. WARNER (for Mr. LOTT) proposed an amendment to the bill S. 1438, supra.

SA 1669. Mr. LEVIN (for Mrs. CARNAHAN) proposed an amendment to the bill S. 1438, supra.

SA 1670. Mr. WARNER (for Mr. LOTT) proposed an amendment to the bill S. 1438, supra.

SA 1671. Mr. DOMENICI (for himself, Mr. REID, and Mr. BINGAMAN) submitted an amendment intended to be proposed by him to the bill S. 1438, supra; which was ordered to lie on the table.

TEXT OF AMENDMENTS

SA 1617. Mr. SANTORUM submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

Strike section 2841, relating to the development of the United States Army Heritage and Education Center at Carlisle Barracks, Pennsylvania, and insert the following:

SEC. 2841. DEVELOPMENT OF UNITED STATES ARMY HERITAGE AND EDUCATION CENTER AT CARLISLE BARRACKS, PENNSYLVANIA.

(a) Authority To Enter Into Agreement.—(1) The Secretary of the Army may enter into an agreement with the Military Heritage Foundation, a not-for-profit organization, for the design, construction, and operation of the United States Army Heritage and Education Center at Carlisle Barracks, Pennsylvania.

(2) The facility referred to in paragraph (1) is to be used for curation and storage of artfacts, research facilities, classrooms, and offices, and for education and other activities, agreed to by the Secretary, relating to the Armed Forces, and for other purposes; which shall be used to support such education and training as the Secretary considers appropriate.

(b) Design and Construction.—The Secretary may, at the election of the Secretary—

(1) accept funds from the Military Heritage Foundation for the design and construction of the facility referred to in subsection (a); or

(2) permit the Military Heritage Foundation to contract for the design and construction of the facility.

(c) Acceptance of Facility.—(1) Upon satisfaction, as determined by the Secretary, of the facility referred to in subsection (a), and upon the satisfaction of any and all financial obligations incident thereto by the Military Heritage Foundation, the Secretary shall accept the facility from the Military Heritage Foundation, and all right, title, and interest in and to the facility shall vest in the United States.

(2) Upon becoming property of the United States, the facility shall be under the jurisdiction of the Secretary.

(d) Use of Certain Gifts.—(1) Under regulations prescribed by the Secretary, the Constitution of the Army War College may, without regard to section 2901 of title 10, United States Code, accept, hold, administer, invest, and spend any gift, devise, or bequest of personal property of a value of $250,000 or less made to the United States if such gift, devise, or bequest is for the benefit of the United States Army Heritage and Education Center.

(2) The Secretary may pay or authorize the payment of any reasonable and necessary expense in connection with the conveyance or transfer of a gift, devise, or bequest under this subsection.

(e) Additional Terms and Conditions.—The Secretary may require such additional terms and conditions in connection with the agreement authorized to be entered into by subsection (a) as the Secretary considers appropriate to protect the interest of the United States.

SA 1618. Mr. TORRICELLI (for himself, Mr. CARPER, and Mr. CORZINE) submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle K of title I, add the following:

SEC. 142. LIMITATIONS ON PROCUREMENT OF AMMUNITION AND AMMUNITION PROPPELLANT.

(a) Procurement Through Manufacturers in National Technology and Industrial Base.—Subsection (a) of section 2534 of title 10, United States Code, is amended by adding at the end of the following new paragraph:

"(6) AMMUNITION AND AMMUNITION PROPPELLANT.—Subject to subsection (j)(5), conventional ammunition and ammunition propellant used therein."

(b) Additional Requirements for Procurement.—Such section is further amended by adding at the end the following new sub-section:
"(j) ADDITIONAL REQUIREMENTS FOR PROCUREMENT OF AMMUNITION AND AMMUNITION PROPELLANT.

(1) Additional requirements to the meeting the requirements under subsection (a)(6) and subject to paragraph (5), the Secretary of Defense shall procure ammunition or ammunition propellant on a competitive basis, whether privately owned or governmentally-owned, meeting the requirements of paragraph (2).

(2) A manufacturer of ammunition or ammunition propellant meets the requirements of this paragraph if the manufacturer warrants that any subcontractor which furnishes smokeless nitrocellulose to the manufacturer—

(A) is a part of the national technology and industrial base; and

(B) was selected to furnish smokeless nitrocellulose through a competition meeting the requirements of paragraph (3).

(3) The competition of a manufacturer for the furnishing of smokeless nitrocellulose under paragraph (2) shall—

(A) be open to all other manufacturers of smokeless nitrocellulose in the national technology and industrial base that manufacturer that is technically appropriate for use in the product to be made by the manufacturer; and

(B) provide that the winner of the competition may not furnish to the manufacturer an amount of smokeless nitrocellulose in excess of 1.5 times the aggregate amount of smokeless nitrocellulose to be furnished to the manufacturer by all other participants in the competition.

(4) This subsection sets forth procurement procedures expressly authorized by statute. The Secretary determines meaning of this section 2304(a)(1) of this title.

(5) The Secretary may waive any requirement under this subsection, with respect to the procurement of ammunition or ammunition propellant if the Secretary determines that the waiver of such requirement is in the national security interests of the United States.

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 2002, and shall apply with respect to the procurement of ammunition and ammunition propellant by the Secretary of Defense on or after that date.

SA 1619. Mr. SANTORUM submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

On page 23, line 12, increase the amount by $1,000,000.

On page 23, line 11, reduce the amount by $1,000,000.

SA 1620. Mrs. FEINSTEIN submitted an amendment intended to be proposed by her to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle D of title III, add the following:

SEC. 335. ASSISTANCE FOR LOCAL EDUCATIONAL AGENCIES.

(a) CONTINUATION OF DEPARTMENT OF DEFENSE PROGRAM FOR FISCAL YEAR 2002.—Of the appropriation provided to be appropriated by section 3015(g) for operation and maintenance for Defense-wide activities—

(1) $30,000,000 shall be available only for the purposes of providing somewhere assistance to local educational agencies; and

(2) $1,000,000 shall be available only for the purpose of making payments to local educational agencies to assist such agencies in adjusting to reductions in the number of military dependent students as a result of the closure or realignment of military installations, as provided in section 386(d) of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102–484; 10 U.S.C. 7103 note).

(b) NOTIFICATION.—Not later than June 30, 2002, the Secretary of Defense shall notify each local educational agency that is eligible for assistance or a payment under subsection (a) for fiscal year 2002—

(1) that agency’s eligibility for the assistance or payment; and

(2) the amount of the assistance or payment for which that agency is eligible.

SA 1621. Mr. DAYTON submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle E of title X, add the following:

SEC. 1066. SENSE OF SENATE ON Mobilization of National Guard and Reserve Forces to Enhance Ground-Based Security at Airports.

It is the sense of the Senate that, in light of the terrorist attacks of September 11, 2001, the President, in consultation with the Secretary of Defense, the Secretary of Transportation, and the chief executive officers of the States, should consider mobilizing appropriate elements of the National Guard and Reserves in order to enhance ground-based security at airports for a period of not less than 120 days or until alternative means of providing adequate ground-based security at airports are in place.

SA 1622. Mr. BUNNING (for himself, Mr. LOTT, Mr. DOMENICI, Mr. BINGAMAN, Mr. CRAIG, Mr. BURNS, Mr. HUTCHINSON, Ms. COLLINS, Mr. INHOPE, Mr. SMITH of New Hampshire, Mr. SNOWE, Mr. BAUCUS, Mr. COCHRAN, Mr. CONRAD, Mrs. HUTCHINSON, Mr. STEVENS, Mrs. CLINTON, and Mr. DORGAN) proposed an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; as follows:

Strike title XXIX, relating to defense base closure and realignment.

SA 1623. Mr. BINGAMAN submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

On page 553, between lines 12 and 13, insert the following:

SEC. 3159. ANNUAL ASSESSMENT AND REPORT ON VULNERABILITY OF DEPARTMENT OF ENERGY FACILITIES TO TERRORIST ATTACK.

(a) In General.—Part C of title VI of the Department of Energy Organization Act (42 U.S.C. 7251 et seq.) is amended by adding at the end the following new section: "ANNUAL ASSESSMENT AND REPORT ON VULNERABILITY OF FACILITIES TO TERRORIST ATTACK.

"SEC. 663. (a) The Secretary shall, on an annual basis, conduct a comprehensive assessment of the vulnerability of Department facilities to terrorist attack.

"(b) Not later than January 31 each year, the Secretary shall submit to Congress a report on the assessment conducted under subsection (a) during the preceding year. Each report shall include the results of the assessment covered by such report, together with such findings and recommendations as the Secretary considers appropriate.

"(b) CLERICAL AMENDMENT.—The table of sections at the beginning of that Act is amended by inserting after the item relating to section 662 the following new item:

"Sec. 663. Annual assessment and report on vulnerability of facilities to terrorist attack.

SA 1624. Mr. BINGAMAN submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle E of title XXXI, add the following:

SEC. ___ CLARIFICATION OF CALCULATION OF ANNUAL INFLATION ADJUSTMENT FOR ECONOMIC ASSISTANCE PAYMENTS FOR THE WASTE ISOLATION PILOT PLANT.

Section 15(c) of the Waste Isolation Pilot Plant Land Withdrawal Act (Pub. L. 102–579; 106 Stat. 4791) is amended—

(1) in paragraph (1)—

(A) in the matter before subparagraph (A), by inserting after "Pilot Plant" the following: "; and

(B) in subparagraph (B), by inserting after "the following:" the following: "; and

(2) in paragraph (2), by striking "the fiscal year prior to the first fiscal year to which subsection (a) applies" and inserting "the fiscal year preceding such preceding fiscal year".

SA 1625. Mr. KERRY submitted an amendment intended to be proposed by
him to the bill S. 1438, to authorize ap-
propriations for fiscal year 2002 for mili-
tary activities of the Department of
Defense, for military constructions, and
for defense activities of the Dep-
artment of Energy, to prescribe per-
sonnel strengths for such fiscal year
for the Armed Forces, and for other
purposes; which was ordered to lie on
the table; as follows:

At the appropriate place, insert the follow-
ing:

SEC. 306. IMPROVEMENTS IN INSTRUMENTATION
AND TARGETS AT ARMY LIVE FIRE
TRAINING RANGES.

(a) INCREASE IN AUTHORIZATION OF APPRO-
PRIATIONS FOR DEFENSE-WIDE PROCU-
REMENT.—The amount authorized to be ap-
propriated by section 302(1) for Defense-wide pro-
curement is hereby increased by $2,400,000, with
the amount of the increase available for the
Navy for procurement of M291 skin decon-
tamination kits for fiscal year 2002 and for
other purposes; which was ordered to lie on
the table; as follows:

At the end of subtitle B of title III, add the
following:

SEC. 142. PROCUREMENT OF ADDITIONAL M291
SKIN DECONTAMINATION KITS.

(a) INCREASE IN AUTHORIZATION OF APPRO-
PRIATIONS.—The amount authorized to be ap-
propriated by section 302(1) for procurement of
M291 skin decontamination kits is increased by
$11,900,000, with the amount of the increase avail-
able for the Army for procurement of M291 skin
decontamination kits in addition to any other amounts available under this Act
for procurement of M291 skin decontamination kits.

SA 1627. Mr. DAYTON submitted an
amendment intended to be proposed by
him to the bill S. 1438, to authorize ap-
propriations for fiscal year 2002 for mili-
tary activities of the Department of
Defense, for military constructions, and
for defense activities of the Dep-
artment of Energy, to prescribe per-
sonnel strengths for such fiscal year
for the Armed Forces, and for other
purposes; which was ordered to lie on
the table; as follows:

At the end of subtitle A of title III, add the
following:

SEC. 306. IMPROVEMENTS IN INSTRUMENTATION
AND TARGETS AT ARMY LIVE FIRE
TRAINING RANGES.

(a) INCREASE IN AUTHORIZATION OF APPRO-
PRIATIONS FOR DEFENSE-WIDE PROCU-
REMENT.—The amount authorized to be ap-
propriated by section 302(1) for Defense-wide pro-
curement is hereby increased by $2,400,000, with
the amount of the increase available for the
Navy for procurement of M291 skin decon-
tamination kits for fiscal year 2002 and for
other purposes; which was ordered to lie on
the table; as follows:

At the end of subtitle B of title III, add the
following:

SEC. 142. PROCUREMENT OF ADDITIONAL M291
SKIN DECONTAMINATION KITS.

(a) INCREASE IN AUTHORIZATION OF APPRO-
PRIATIONS.—The amount authorized to be ap-
propriated by section 302(1) for procurement of
M291 skin decontamination kits is increased by
$11,900,000, with the amount of the increase avail-
able for the Army for procurement of M291 skin decontamination kits in addition to any other amounts available under this Act
for procurement of M291 skin decontamination kits.

SA 1627. Mr. DAYTON submitted an
amendment intended to be proposed by
him to the bill S. 1438, to authorize ap-
propriations for fiscal year 2002 for mili-
tary activities of the Department of
Defense, for military constructions, and
for defense activities of the Dep-
artment of Energy, to prescribe per-
sonnel strengths for such fiscal year
for the Armed Forces, and for other
purposes; which was ordered to lie on
the table; as follows:

At the end of subtitle A of title III, add the
following:

SEC. 306. IMPROVEMENTS IN INSTRUMENTATION
AND TARGETS AT ARMY LIVE FIRE
TRAINING RANGES.

(a) INCREASE IN AUTHORIZATION OF APPRO-
PRIATIONS FOR DEFENSE-WIDE PROCU-
REMENT.—The amount authorized to be ap-
propriated by section 302(1) for Defense-wide pro-
curement is hereby increased by $2,400,000, with
the amount of the increase available for the
Navy for procurement of M291 skin decon-
tamination kits for fiscal year 2002 and for
other purposes; which was ordered to lie on
the table; as follows:

At the end of subtitle B of title III, add the
following:

SEC. 142. PROCUREMENT OF ADDITIONAL M291
SKIN DECONTAMINATION KITS.

(a) INCREASE IN AUTHORIZATION OF APPRO-
PRIATIONS.—The amount authorized to be ap-
propriated by section 302(1) for procurement of
M291 skin decontamination kits is increased by
$11,900,000, with the amount of the increase avail-
able for the Army for procurement of M291 skin decontamination kits in addition to any other amounts available under this Act
for procurement of M291 skin decontamination kits.
and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place in the bill, insert the following new section.

Sec. 1218. PLAN.—The Secretary of the Navy shall, not later than February 1, 2002, submit to Congress a plan to ensure that the embarkation of selected civilian goats does not interfere with the operational readiness and safety operations of Navy vessels. The plan shall include, at a minimum:

Procedures to ensure that guest embarkations are limited only within the framework of regularly scheduled operations and that underway operations are not conducted solely to accommodate non-official civilian guests.

Guidelines for the maximum number of guests that can be embarked on the various classes of Navy vessels.

Guidelines and procedures for supervising civilians operating or controlling any equipment on Navy vessels.

Guidelines to ensure that proper standard operating procedures for activities related to hosting civilians.

Any other guidelines or procedures the Secretary shall consider necessary or appropriate.

Definition. For the purposes of this section, civilian goats are defined as civilians invited to embark on Navy ships solely for the purpose of furthering public awareness of the Navy and its mission. It does not include civilians conducting official business.

SA 1629. Mr. BOND (for himself and Mr. KERRY) submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

On page 270, line 9, strike ‘‘(A)’’ and all that follows through ‘‘(4)’’ on line 25.

On page 271, between lines 8 and 9, insert the following:

(c) EVALUATION OF BUNDLING EFFECTS.—Section 15(h)(2) of the Small Business Act (15 U.S.C. 644(h)(2)) is amended—

(1) in subparagraph (C), by inserting ‘‘and whether contract bundling played a role in the failure,’’ after ‘‘agency goals’’; and

(2) by adding at the end the following:

‘‘(2) The number and dollar value of any bundled contracts awarded to small business concerns, and the number and dollar value of any bundled contracts awarded to concerns that are not small business concerns.’’

(d) REPORTING REQUIREMENT.—Section 15(p) of the Small Business Act (15 U.S.C. 644(p)) is amended to read as follows:

‘‘(p) REPORTING REQUIREMENT.—

‘‘(1) IN GENERAL.—The Administrator shall conduct a study examining the best means to determine the extent of the market research required under subsection (e)(2) for each bundled contract, to determine if the anticipated benefits were realized, or if they were not realized, the reasons there for.

‘‘(2) PROVISION OF INFORMATION.—The head of each contracting agency shall provide, upon request of the Administrator—

(A) all market research required under subsection (e)(2); and

(B) any recommendations for the study required by paragraph (1) of this subsection, in consultation with the Office of Science and Technology Policy.

(2) by redesignating paragraphs (4) through (7) as paragraphs (5) through (8), respectively; and

(2) by inserting after paragraph (3) the following:

‘‘(4) RULE OF CONSTRUCTION RELATING TO CITIZENSHIP.—

‘‘(A) IN GENERAL.—A small business concern described in subparagraph (B) meets the United States citizenship requirement of paragraph (3)(A) if, at the time of application by the concern to become a HUBZone small business concern for purposes of any contract and at such times as the Administrator shall require, no non-citizen has any direct or indirect control of the concern described in subparagraph (B).

‘‘(B) CONCERNS DESCRIBED.—A small business concern is described in this subparagraph if the small business concern—

(i) has a class of securities registered under section 12 of the Securities Exchange Act of 1934 (15 U.S.C. 78l); and

(ii) files reports with the Securities and Exchange Commission as a small business issuer.’’.

(C) NON-CITIZENS.—In this paragraph, the term ‘‘non-citizen’’ means—

(i) an individual that is not a United States citizen; and

(ii) any other person that is not organized under the laws of any State or the United States.’’.

SA 1630. Mr. STEVENS (for himself and Mr. INOUYE) submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle B of title III, add the following:

SEC. 1235. DEPARTMENT OF DEFENSE MOST EFFICIENT ORGANIZATION BID-TO-GOAL AND BEST-VALUE PURCHASING PILOT PROGRAM.

(a) REQUIREMENT FOR PROGRAM.—The Secretary of Defense shall carry out a pilot program to demonstrate an alternative to the Office of Management Budget Circular A-76 approach for achieving cost-effective performance of Department of Defense commercial activities.

(b) ELIGIBLE ACTIVITIES.—(1) The Secretary shall provide under the pilot program for each of not more than five continuing or recurring commercial activities of the Department of Defense to be performed by an organization of the department that is to be considered the most efficient organization for the performance of that activity.

(2) A commercial activity may be covered by the pilot program if, at the time that the activity is designated for performance under the pilot program—

(A) the commercial activity is an activity that is being performed by employees of the United States numbering not less than 150 employees and not more than 750 full-time employees or the equivalent number of full-time and part-time employees; and

(B) the head of the agency concerned has provided the Secretary with an analysis of the impact of the proposal to carry out the pilot program in several projects, as follows:

(1) One project that involves a group of 600 to 750 employees.

(2) Four projects, each of which involves 150 to 599 employees.

(Sec. 1217. REQUIREMENT OF RESTRICTION ON ASSISTANCE TO AZERBAIJAN.

Section 907 of the FREEDOM Support Act (Public Law 102-511; 22 U.S.C. 5812 note) is repealed.

SA 1632. Mr. SANTORUM submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table, as follows:

On page 23, line 12, increase the amount by $6,000,000.

On page 23, line 11, reduce the amount to $1,000,000.

SA 1633. Mr. HAGEL submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table, as follows:

At the end of subtitle D of title III, add the following:

SEC. 1235. DEPARTMENT OF DEFENSE MOST EFFICIENT ORGANIZATION BID-TO-GOAL AND BEST-VALUE PURCHASING PILOT PROGRAM.

(a) REQUIREMENT FOR PROGRAM.—The Secretary of Defense shall carry out a pilot program to demonstrate an alternative to the Office of Management Budget Circular A-76 approach for achieving cost-effective performance of Department of Defense commercial activities.

(b) ELIGIBLE ACTIVITIES.—(1) The Secretary shall provide under the pilot program for each of not more than five continuing or recurring commercial activities of the Department of Defense to be performed by an organization of the department that is to be considered the most efficient organization for the performance of that activity.

(2) A commercial activity may be covered by the pilot program if, at the time that the activity is designated for performance under the pilot program—

(A) the commercial activity is an activity that is being performed by employees of the United States numbering not less than 150 employees and not more than 750 full-time employees or the equivalent number of full-time and part-time employees; and

(B) the head of the agency concerned has provided the Secretary with an analysis of the impact of the proposal to carry out the pilot program in several projects, as follows:

(1) One project that involves a group of 600 to 750 employees.

(2) Four projects, each of which involves 150 to 599 employees.
“(3) At least one project undertaken within the Defense Logistics Agency, Defense Finance and Accounting Service, or any other defense agency not performing base operations.

(d) PERFORMANCE-BASED CONTRACT.—(1) The performance of a Department of Defense commercial activity under the pilot program shall be covered by a performance-based memorandum of understanding that is entered into by the head of the agency concerned and the subordinate of that official who is the head of the organization designated to perform the activity.

(2) The head of the agency concerned shall set forth the performance standards that are applicable to the performance of a commercial activity under the pilot program in the memorandum of understanding for that activity. The performance standards shall include the following:

(A) Achievement of the following cost and performance objectives:

(i) The total amount of the cost savings estimated, as of the beginning of the pilot program, to be achievable by use of the most efficient organization.

(ii) A performance for the period covered by the memorandum that does not exceed the amount equal to 110 percent of the estimated total cost of private sector performance of the activity for that period.

(B) Achievement of the performance improvements projected, as of the beginning of the pilot program, to be achievable by use of the most efficient organization.

(C) Any other performance standards determined appropriate by the head of the agency.

(D) Rigorous use of technology-based solutions, performance measurements, and quality of service standards that will be subject to past performance.

(3) Each memorandum of understanding shall be in effect for five years, except that the head of the agency concerned may terminate the memorandum of understanding earlier on the basis of comparable performance, innovation, and costs, which may not exceed 110 percent of potential costs of performance by a private sector organization.

(e) MANAGEMENT PLAN.—The head of the agency concerned shall prescribe or approve a management plan for the performance of a commercial activity under the pilot program. The management plan shall include the following:

(A) A description of the most efficient organization for the performance of the activity.

(B) A plan for achieving the objectives determined appropriate for the performance of the activity under subsection (d).

(C) For any case in which a reduction in the workforce is necessary to achieve the most efficient organization for performing the activity, provisions for attrition to be used as the principal means for achieving the necessary reduction.

(g) MORATORIUM ON APPLICABILITY OF OMB CIRCULAR A-76.—During the period that a memorandum of understanding is in effect for a Department of Defense commercial activity under subsection (d), no action may be initiated under Office of Management and Budget Circular A-76 regarding the acquisition of performance of that commercial activity.

(h) QUARTERLY REPORT TO HEAD OF AGENCY.—Promptly after the end of each quarter of a year, the head of an organization performing a Department of Defense commercial activity under the pilot program shall submit a report on the performance of that activity during that quarter to the head of the agency concerned. The report shall include an assessment of the performance in terms of the performance standards provided in the memorandum of understanding applicable to the activity under subsection (d).

(i) REPORT TO CONGRESS.—Not later than one year after the date of enactment of this Act, the Secretary of Defense shall submit to Congress a report on the implementation of the pilot program under this section.

(j) DEFINITIONS.—In this section:

(1) The term ‘‘Department of Defense commercial activity’’ means an activity covered by the Department of Defense commercial activity memorandum of understanding under 4100.15 or any successor Department of Defense Directive.

(2) The term ‘‘head of the agency concerned’’ means:

(A) the head of a Defense Agency, with respect to a memorandum of understanding under the pilot program, the head of the agency concerned.

(B) define the scope of the services that comprise the performance of the activity;

(C) provide for an entity independent of the Department of Defense, for the 5-year period to be covered by the memorandum of understanding, the costs that would be incurred for the continued performance of private sector performance of the activity by employees of the United States without a conversion to performance by the most efficient organization;

(D) determine appropriate cost and other performance objectives for the performance of the activity under the pilot program on the basis of comparable performance, innovation, and costs, which may not exceed 110 percent of potential costs of performance by a private sector organization.

(3) At least one project undertaken within the Department of Defense commercial activity carried out by that official.

(4) The term ‘‘Defense Agency’’ has the meaning given the term in section 101(a)(11) of title 10, United States Code.

SA 1634. Mrs. Hutchison (for herself, Mr. Inouye, Mr. Stevens, Mr. DeWine, Mr. Bennett, Mr. Hatch, Mr. Craig, Ms. Mikulski, Mr. Sarbanes, Mr. Voinovich, and Mr. Crafo) submitted an amendment intended to be reported by Mr. Craig, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

"(b) TREATMENT OF FINANCING COSTS AS ALLOWABLE EXPENSES UNDER CONTRACTS FOR UTILITY SYSTEMS CONVEYED UNDER PRIVATIZATION INITIATIVE.—Section 2688 of title 10, United States Code, is amended—"

SA 1637. Ms. COLLINS (for herself, Ms. LANDRIEU, and Mr. ALLARD) submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle B of title VII, add the following:

SEC. 718. MODIFICATION OF PROHIBITION ON REQUIREMENT OF NONAVAILABILITY STATEMENT OR PRIORITY AUTHORIZATION.

(a) CLARIFICATION OF COVERED BENEFICIARIES.—Subsection (a) of section 721 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (enacted in Public Law 106-398; 114 Stat. 1654A-184) is amended by striking "covered beneficiar"

(b) REPEAL OF REQUIREMENT FOR NOTIFICATION REGARDING HEALTH CARE RECEIVED FROM ANOTHER SOURCE.—Subsection (b) of such section is repealed.

SA 1638. Mr. BUNNING submitted an amendment intended to be proposed to amendment SA 1636 submitted by Mr. FEINGOLD and intended to be proposed to amendment SA 1639 submitted by Mr. FEINGOLD and intended to be proposed to the bill (S. 1246) to respond to the continuing economic crisis adversely affecting the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place in title XXVIII, insert the following:

SEC. 3172. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds the following:

"(b) TREATMENT OF FINANCING COSTS AS ALLOWABLE EXPENSES UNDER CONTRACTS FOR UTILITY SYSTEMS CONVEYED UNDER PRIVATIZATION INITIATIVE.—Section 2688 of title 10, United States Code, is amended—"

SEC. 3173. DEFINITIONS.

(a) FINDINGS.—Congress finds the following:

"(b) TREATMENT OF FINANCING COSTS AS ALLOWABLE EXPENSES UNDER CONTRACTS FOR UTILITY SYSTEMS CONVEYED UNDER PRIVATIZATION INITIATIVE.—Section 2688 of title 10, United States Code, is amended—"

SA 1639. Mr. ALLARD submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

Strike sections 3172 through 3178 and insert the following:

SEC. 3173. DEFINITIONS.

(a) FINDINGS.—Congress finds the following:

"(b) TREATMENT OF FINANCING COSTS AS ALLOWABLE EXPENSES UNDER CONTRACTS FOR UTILITY SYSTEMS CONVEYED UNDER PRIVATIZATION INITIATIVE.—Section 2688 of title 10, United States Code, is amended—"

SEC. 3173. DEFINITIONS.

(a) FINDINGS.—Congress finds the following:

SEC. 3173. DEFINITIONS.

(a) FINDINGS.—Congress finds the following:

"(b) TREATMENT OF FINANCING COSTS AS ALLOWABLE EXPENSES UNDER CONTRACTS FOR UTILITY SYSTEMS CONVEYED UNDER PRIVATIZATION INITIATIVE.—Section 2688 of title 10, United States Code, is amended—"

SEC. 3173. DEFINITIONS.

(a) FINDINGS.—Congress finds the following:

"(b) TREATMENT OF FINANCING COSTS AS ALLOWABLE EXPENSES UNDER CONTRACTS FOR UTILITY SYSTEMS CONVEYED UNDER PRIVATIZATION INITIATIVE.—Section 2688 of title 10, United States Code, is amended—"
Governments established by the Intergovernmental Agreement, dated February 16, 1999, among—

(A) the city of Arvada, Colorado;
(B) the city of Boulder, Colorado;
(C) the city of Broomfield, Colorado;
(D) the county of Weld, Colorado;
(E) the town of Superior, Colorado;
(F) Boulder County, Colorado; and
(G) Jefferson County, Colorado.

(B) EXCLUSIONS.—The term “Rocky Flats” means the Rocky Flats Environmental Technology Site, Colorado, a defense nuclear facility, as depicted on the map entitled “Rocky Flats Environmental Technology Site”, dated July 15, 1998, and available for inspection in the appropriate offices of the United States Fish and Wildlife Service.

(B) EXCLUSIONS.—The term “Rocky Flats” does not include—

(i) land and facilities of the Department of Energy’s National Wind Technology Center;

(ii) any land and facilities not within the boundaries depicted on the map identified in subsection (b).

(9) ROCKY FLATS TRUSTEES.—The term “Rocky Flats Trustees” means the Federal and State of Colorado entities that have been identified as trustees for Rocky Flats under section 107(f)(2) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9607(f)(2)).

(10) SEC. 3175. TRANSFER OF MANAGEMENT RESPONSIBILITIES AND JURISDICTION OVER ROCKY FLATS.

(a) IN GENERAL.—The Secretary shall retain jurisdiction, authority, and control over all real property and facilities at Rocky Flats that are to be used for any necessary and appropriate long-term operation and maintenance facility to intercept, treat, or control a radionuclide or any other hazardous substance, pollutant, or contaminant; and

(b) the Secretary and the Secretary of the Interior have requested in writing for refuge management purposes.

(11) ROCKY FLATS TRUSTEES.—The term “Rocky Flats Trustees” means the Federal and State of Colorado entities that have been identified as trustees for Rocky Flats under section 107(f)(2) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9607(f)(2)).

(10) SEC. 3175. TRANSFER OF MANAGEMENT RESPONSIBILITIES AND JURISDICTION OVER ROCKY FLATS.

(a) IN GENERAL.—The Secretary shall provide for the division of responsibilities between the Secretary and the Secretary of the Interior necessary to carry out the proposed transfer of land.

(b) the Secretary shall provide for the sub-
may refer the issue to the Council on Environmental Quality, which shall decide the issue with respect to the Council. The Secretary and the Secretary of the Interior shall then amend the memorandum of understanding required under subsection (a) in conformity with the decision of the Council on Environmental Quality.

(B) MANAGEMENT OF PROPERTY.—
(i) In general.—The Secretary shall consult with the Interior Secretary on the management of the retained property to minimize any conflict between the management of property transferred to the Secretary under paragraph (1), the response action or other action described in subparagraph (A) or (B) of paragraph (1), the Secretary of the Interior on the management of property retained by the Secretary for response actions.
(ii) Conflict.—In the case of any such conflict, implementation and maintenance of the response action shall take priority.

(3) ACCESS.—As a condition of the transfer under subsection (a), the Secretary shall be provided such easements and access as are reasonably required to carry out any obligation or address any liability.

(c) ADMINISTRATION.—
(I) In general.—On completion of the transfer under subsection (a), the Secretary of the Interior shall administer Rocky Flats in accordance with this subtitle subject to—
(A) the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 et seq.); and
(B) any other applicable law.

(II) Management.—In managing the refuge, the Secretary shall ensure that wildlife-dependent recreation and environmental education and interpretation are the priority public uses of the refuge.

(3) MANAGEMENT.—In managing the refuge, the Secretary of the Interior shall administer Rocky Flats as a national wildlife refuge. The Secretary shall consult with the Secretary of the Interior, the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 666dd(e)), the Secretary of the Interior, the members of the Coalition, the Governor of the State of Colorado, and the Rocky Flats Trustees, shall establish a comprehensive planning process that involves the public and local communities.

(b) Other Participants.—In addition to the entities specified in paragraph (a), the comprehensive planning process shall include the opportunity for direct involvement of entities not members of the Coalition as of the date of enactment of this Act, including the Rocky Flats Citizens' Advisory Board and the cities of Thornton, Northglenn, Golden, Louisville, and Lafayette, Colorado.

(c) Dissolution of Coalition.—If the Coalition dissolves, or if any coalition member elects to leave the Coalition during the comprehensive planning process under this section, the comprehensive planning process under this section shall continue.

(2) Required Cleanup Levels.—
(A) In general.—The Secretary shall conduct cleanup and closure of Rocky Flats to the levels established for soil, water, and other media, following a thorough review, by the parties to the RFCA and the public (including the United States Fish and Wildlife Service and other interested government agencies), of the appropriateness of the interim levels in accordance with this subtitle.

(3) No Effect on Obligations for Measures to Control Contamination.—Nothing in this subtitle, affects any long-term obligation or other liability for land transferred under subsection (a), the Secretary of the Interior on the management of property retained by the Secretary for response actions.

(b) Any other applicable law.

(2) Response Actions.—
(A) In general.—The Secretary shall be liable for the costs of any necessary response actions, including any costs or claims asserted against the Secretary, for any release, or substantial threat of release, of a hazardous substance, if the release, or substantial threat of release, is—
(i) located on or emanating from land—
(I) identified for transfer by this section; or
(ii) subsequently transferred under this section;

(ii) not identified for transfer by this section; or
(iii) management of the land by the Secretary;

(B) Use, management, storage, release, treatment or disposal of a hazardous substance on the land by the Secretary.

(C) Recovery from Third Party.—Nothing in this paragraph precludes the Secretary, on behalf of the United States, from a cost recovery, contribution, or other action against a third party that the Secretary reasonably believes may have contributed to the release, or substantial threat of release, of a hazardous substance.

SEC. 3175. CONTINUATION OF ENVIRONMENTAL CLEANUP AND CLOSURE.

(a) ONGOING CLEANUP AND CLOSURE.—
(I) In general.—The Secretary shall—
(A) carry out to completion cleanup and closure at Rocky Flats; and
(B) conduct any necessary operation and maintenance of response actions.

(II) No restriction on use of new technologies.—Nothing in this subtitle, and no action taken under this subtitle, restricts the Secretary from using at Rocky Flats any new technology that may become available for remediation of contamination.

(b) Rules of Construction.—
(I) No relief from obligations under other law.—In general.—Nothing in this subtitle, and no action taken under this subtitle, relieves the Secretary, the Administrator of the Environmental Protection Agency, or any other person from any obligation or other liability with respect to Rocky Flats under the RFCA or any applicable Federal or State law.

(II) No effect on RFCA.—Nothing in this subtitle impairs or alters any provision of the RFCA.

(III) Cleanup levels.—In general.—The Secretary shall conduct cleanup and closure of Rocky Flats to the levels established for soil, water, and other media, following a thorough review by the Secretary of the Interior on the management of property retained by the Secretary for response actions.

(IV) No effect from establishment as National Wildlife Refuge.—
(A) In general.—Nothing in this subtitle, and no action taken under this subtitle, affects the level of cleanup and closure at Rocky Flats required under the RFCA or any Federal or State law.

(B) No effect from establishment as National Wildlife Refuge.—

(c) Payment of Response Action Costs.—

(1) In general.—The Secretary shall be responsible for response actions carried out to abate the release of, or substantial threat of release, of a hazardous substance, if the release, or substantial threat of release, is—

(i) located on or emanating from land—

(A) known at the time of transfer; or

(ii) subsequently transferred under this section;

(B) not identified for transfer by this section; or

(C) management of the land by the Secretary;

(ii) the use, management, storage, release, treatment or disposal of a hazardous substance on the land by the Secretary.

(d) Recovery from Third Party.—Nothing in this paragraph precludes the Secretary, on behalf of the United States, from a cost recovery, contribution, or other action against a third party that the Secretary reasonably believes may have contributed to the release, or substantial threat of release, of a hazardous substance.
SEC. 3153. UNITED STATES PARTICIPATION IN UNITED STATES AND RUSSIA PLUTONIUM DISPOSITION PROGRAMS.—

(a) LIMITATION ON MODIFICATION OF UNITED STATES PARTICIPATION IN PROGRAMS.—No modification of United States participation in the current United States and Russia plutonium disposition programs until the date of the submission to the congressional defense committees of a report setting forth a comprehensive United States strategy for activities under such programs as so modified.

(b) PLUTONIUM DISPOSITION PROGRAMS.—For purposes of this section, the current United States and Russia plutonium disposition programs are the following:

(1) The Uranium Disposition Program identified in the January 1997 Record of Decision setting forth the intention of the Department of Energy to pursue a hybrid plutonium disposition strategy that includes irradiation of mixed oxide fuel (MOX) and immobilization, and the January 2000 Record of Decision of the Surplus Plutonium Disposition Environmental Impact Statement identifying the Savannah River Site, South Carolina, for plutonium disposition activities.

(2) The United States-Russian Agreement on the Management and Disposition of Plutonium Designated as No Longer Required for Defense Purposes and Related Cooperation, signed in September 2000 by the Government of the United States and the Government of Russia.

(c) SCOPE OF MODIFICATIONS.—Any modification of United States participation in a current United States or Russia plutonium disposition program shall provide for the disposition of not less than 34 tons of Russian weapons-grade plutonium, a schedule which completes disposition of such plutonium not later than 2026, the date envisioned in the Agreement referred to in subsection (a).

(d) ELEMENTS OF REPORT ACCOMPANYING MODIFICATION.—If any modification is proposed to United States participation in a current United States or Russia plutonium disposition program, the report under subsection (a) shall—

(1) assess the impact of any such modification on other elements of the environmental management strategy of the Department of Energy for the closure or cleanup of current and former sites in the United States nuclear weapons complex;

(2) specify the costs of such modification, including any costs to be incurred in long-term storage of weapons-grade plutonium or for research and development for proposed alternative disposition strategies; and

(3) describe the extent of interaction in development of such modification with, and concurrence in such modification from—

(A) States directly impacted by the plutonium disposition program;

(B) nations participating in current programs, or proposing to participate in future programs, for the disposition of Russian weapons-grade plutonium, including the willingness of such nations to offset the costs specified under paragraph (2); and

(C) the Russian Federation.

(e) OFFSET.—The amount authorized to be appropriated for operation and maintenance for environmental restoration Defense-wide is hereby reduced by $1,800,000.

SA 1640. Mr. HUTCHINSON (for himself and Mrs. LINCOLN) submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle A of title III, add the following:

SEC. 306. CLARA BARTON CENTER FOR DOMESTIC PREPAREDNESS, ARKANSAS.

(a) INCREASE IN AUTHORIZATION OF APPROPRIATIONS FOR OPERATION AND MAINTENANCE, DEFENSE-WIDE.—The amount authorized to be appropriated by section 303(5) for operation and maintenance for Defense-wide activities, as increased by subsection (b), $1,800,000 shall be available for the Clara Barton Center for Domestic Preparedness, Arkansas.

(b) OFFSET.—The amount authorized to be appropriated by section 303(17) for operation and maintenance for environmental restoration Defense-wide is hereby reduced by $1,800,000.

SA 1641. Mr. DOMENICI (for himself, Mr. THURMOND, Mr. MURkowski, Mr. BINGAMAN, Mr. LUGAR, and Mr. HOLINGS) submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle C of title XXXI, add the following:

SEC. 1234. ESTABLISHMENT OF COMMITTEE ON NONPROLIFERATION PROGRAMS AND ASSISTANCE.

(a) ESTABLISHMENT.—There is established within the executive branch of the Government an interagency committee known as...
the “Committee on Nonproliferation Assistance to the Independent States of the Former Soviet Union” (in this title referred to as the “Committee”).

(b) MEMBERSHIP.—(1) The Committee shall be composed of 6 members, as follows:

(A) A representative of the Department of State designated by the Secretary of State.

(B) A representative of the Department of Energy designated by the Secretary of Energy.

(C) A representative of the Department of Defense designated by the Secretary of Defense.

(D) A representative of the Department of Commerce designated by the Secretary of Commerce.

(E) A representative of the Assistant to the President for National Security Affairs designated by the Assistant to the President.

(F) A representative of the Director of Central Intelligence.

(2) The Secretary of a department named in subparagraph (A), (B), (C), or (D) of paragraph (1) shall designate as the department’s representative an official of that department who is not below the level of an Assistant Secretary of the department.

(b) CHAIR.—The representative of the Assistant to the President for National Security Affairs shall serve as Chair of the Committee. The Chair may invite the head of any other department or agency of the United States to designate as representative of that department or agency to participate from time to time in the activities of the Committee.

SEC. 1234. DUTIES OF COMMITTEE.

(a) IN GENERAL.—The Committee shall have primary continuing responsibility within the executive branch of the Government for—

(1) monitoring United States nonproliferation efforts in the independent states of the former Soviet Union;

(2) coordinating the implementation of United States policy with respect to such efforts; and

(3) recommending to the President, through the National Security Council—

(A) integrated national policies for countering the threats posed by weapons of mass destruction and related materials and technologies;

(B) plans for providing for regular sharing of information among intelligence, law enforcement, and customs agencies of the Federal Government;

(C) plans for establishing appropriate centers for analyzing seized nuclear, radiological, biological, and chemical weapons and related materials and technologies;

(D) plans for establishing appropriate centers for verifying the dismantlement of nuclear weapons;

(E) plans for reducing United States and Russian stockpiles of excess plutonium, which plans shall take into account an assessment of the options for United States cooperation with Russia in the disposition of Russian plutonium.

(b) DUTIES SPECIFIED.—In carrying out the responsibilities described in subsection (a), the Committee shall—

(1) arrange for the preparation of analyses on the issues and problems relating to coordination within and among United States departments and agencies on nonproliferation efforts of the independent states of the former Soviet Union;

(2) arrange for the preparation of analyses on the issues and problems relating to coordination between public and private spending on nonproliferation programs of the independent states of the former Soviet Union; and

(3) provide guidance on arrangements that will coordinate, de-conflict, and maximize the utility of United States public spending on nonproliferation programs of the independent states of the former Soviet Union to ensure efficiency and further United States national security interests.

(4) encourage companies and nongovernmental organizations involved in nonproliferation efforts of the independent states of the former Soviet Union to voluntarily report these efforts to the Committee;

(5) arrange for the preparation of analyses on the issues and problems relating to the coordination between the United States and other countries with respect to nonproliferation efforts in the independent states of the former Soviet Union; and

(6) consider, and make recommendations to the President and Congress with respect to, proposals for new legislation or regulations relating to United States nonproliferation efforts in the independent states of the former Soviet Union as may be necessary.

SEC. 1235. COMPREHENSIVE PROGRAM FOR NONPROLIFERATION PROGRAMS AND ACTIVITIES.

(a) PROGRAM REQUIRED.—The President shall develop a comprehensive program for the Federal Government for carrying out nonproliferation programs and activities.

(b) PROGRAM ELEMENTS.—The program required under subsection (a) shall include plans and proposals as follows:

(1) Plans for countering the proliferation of weapons of mass destruction and related materials and technologies.

(2) Plans for providing for regular sharing of information among intelligence, law enforcement, and customs agencies of the Federal Government.

(3) Plans for establishing appropriate centers for analyzing seized nuclear, radiological, biological, and chemical weapons and related materials and technologies.

(4) Proposals for establishing in the United States appropriate legal controls and authorities relating to the export of nuclear, radiological, biological, and chemical weapons and related technologies.

(5) Proposals for encouraging and assisting governments of foreign countries to implement and enforce laws that set forth appropriate penalties for offenses relating to the smuggling of weapons of mass destruction and related materials and technologies.

(6) Proposals for building the confidence of the United States and each other’s controls over United States and Russian nuclear weapons and fissile materials, including plans for verifying the dismantlement of nuclear weapons.

(7) Plans for reducing United States and Russian stockpiles of excess plutonium, which plans shall take into account an assessment of the options for United States cooperation with Russia in the disposition of Russian plutonium.

(8) Plans for studying the merits and costs of establishing a special network of means for detecting and responding to terrorism or other criminal use of biological agents against people or other forms of life in the United States or anywhere.

(c) REPORT.—(1) At the same time the President submits to Congress the budget for fiscal year 2003 pursuant to section 1105(a) of title 31, United States Code, the President shall submit to Congress a report that sets forth the comprehensive program developed under this section.

(2) The report shall include the following:

(A) The specific plans and proposals for the program under subsection (b).

(B) Estimates of the funds necessary, by agency or department, for carrying out such plans and proposals in fiscal year 2003 and five succeeding fiscal years.

(3) The report shall be in an unclassified form, but may contain a classified annex.

SEC. 1236. ADMINISTRATIVE SUPPORT.

All departments and agencies of the Federal Government shall, to the extent permitted by law, such information and assistance as may be requested by the Committee, make available for consideration by the Committee any report, study, or other materials that in the judgment of the Committee are relevant to the functions and activities under this title.

SEC. 1237. CONFIDENTIALITY OF INFORMATION.

Nothing which has been submitted to the Committee or required to be submitted by the Committee in confidence shall not be publicly disclosed, except to the extent required by law, and such information shall be used by the Committee only for the purpose of carrying out the functions and activities set forth in this title.

SEC. 1238. STATUTORY CONSTRUCTION.

Nothing in this title—

(1) applies to the data-gathering, regulatory, or enforcement authority of any existing department or agency of the Federal Government over nonproliferation efforts in the independent states of the former Soviet Union, and the review of those efforts undertaken by the Committee shall not in any way supersedes or prejudice any other process provided by law; or

(2) applies to any activity that is reportable pursuant to title V of the National Security Act of 1947 (50 U.S.C. 413 et seq.).
military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

On page 317, after line 23, add the following:

SEC. 906. EVALUATION OF STRUCTURE AND LOCATION OF ARMY ENVIRONMENTAL POLICY INSTITUTE.

(a) EVALUATION REQUIRED.—The Secretary of the Army, acting through the Assistant Secretary of the Army for Installations and Environment, shall carry out a thorough evaluation of the current structure and location of the Army Environmental Policy Institute for purposes of determining whether the structure and location of the Institute provide for the most efficient and effective fulfillment of the charter of the Institute.

(b) MATTERS TO BE EVALUATED.—In carrying out the evaluation, the Secretary shall evaluate:

(1) the performance of the Army Environmental Policy Institute in light of its charter;

(2) the current structure and location of the Institute in light of its charter; and

(3) various alternative structures (including funding mechanisms) and locations for the Institute that might enhance the efficient and effective operation of Institute.

(c) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall submit to Congress a report on the evaluation carried out under this section. The report shall include the results of the evaluation and such recommendations as the Secretary considers appropriate.

SA 1645. Mr. DOMENICI (for himself and Mr. BINGAMAN) submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the end of title X, add the following:

SEC. 1066. CRITICAL INFRASTRUCTURES PROTECTION.

(a) FINDINGS.—Congress makes the following findings:

(1) The Information revolution has transformed the conduct of business and the operations of government as well as the infrastructure relied upon for the defense and national security of the United States.

(2) Private business, government, and the national security apparatus increasingly depend on an interdependent network of critical physical and information infrastructures, including telecommunications, energy, financial services, water, and transportation sectors.

(3) A continuing national effort is required to ensure the reliable provision of cyber and physical infrastructure services critical to maintaining the national defense, continuity of government, prosperity, and quality of life in the United States.

(4) This national effort requires extensive modeling and analytic capabilities for purposes of evaluating appropriate mechanisms to ensure the stability of these complex and interdependent systems, and to underpin policy recommendations, so as to achieve the continuing protection of the critical infrastructure of the nation.

SEC. 908. EVALUATION OF STRUCTURE AND LOCATION OF ARMY ENVIRONMENTAL POLICY INSTITUTE.

(a) EVALUATION REQUIRED.—The Secretary of the Army, acting through the Assistant Secretary of the Army for Installations and Environment, shall carry out a thorough evaluation of the current structure and location of the Army Environmental Policy Institute for purposes of determining whether the structure and location of the Institute provide for the most efficient and effective fulfillment of the charter of the Institute.

(b) MATTERS TO BE EVALUATED.—In carrying out the evaluation, the Secretary shall evaluate:

(1) the performance of the Army Environmental Policy Institute in light of its charter;

(2) the current structure and location of the Institute in light of its charter; and

(3) various alternative structures (including funding mechanisms) and locations for the Institute that might enhance the efficient and effective operation of Institute.

(c) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall submit to Congress a report on the evaluation carried out under this section. The report shall include the results of the evaluation and such recommendations as the Secretary considers appropriate.

SEC. 1066. CRITICAL INFRASTRUCTURES PROTECTION.

(a) FINDINGS.—Congress makes the following findings:

(1) The Information revolution has transformed the conduct of business and the operations of government as well as the infrastructure relied upon for the defense and national security of the United States.

(2) Private business, government, and the national security apparatus increasingly depend on an interdependent network of critical physical and information infrastructures, including telecommunications, energy, financial services, water, and transportation sectors.

(3) A continuing national effort is required to ensure the reliable provision of cyber and physical infrastructure services critical to maintaining the national defense, continuity of government, prosperity, and quality of life in the United States.

(4) This national effort requires extensive modeling and analytic capabilities for purposes of evaluating appropriate mechanisms to ensure the stability of these complex and interdependent systems, and to underpin policy recommendations, so as to achieve the continuing protection of the critical infrastructure of the nation.

(b) POLICY OF UNITED STATES.—It is the policy of the United States—

(1) to prevent any physical or virtual disruption of the operation of the critical infrastructures of the United States be rare, brief, geographically limited in effect, manageable, and minimally detrimental to the economy, essential human and government services, and national security of the United States;

(2) that, to the extent practicable to achieve the policy stated in paragraph (1) be carried out in a public-private partnership involving corporate and non-governmental organizations; and

(3) to have in place a comprehensive and effective program to ensure the continuity of essential Federal Government functions under all circumstances.

(c) SUPPORT OF CRITICAL INFRASTRUCTURE PROTECTION AND CONTINUITY BY NATIONAL INFRASTRUCTURE SIMULATION AND ANALYSIS CENTER.—(1) The National Infrastructure Simulation and Analysis Center (NISC) shall provide support for the activities of the President’s Critical Infrastructure Protection and Continuity Board under Executive Order 13149.

(2) The support provided for the Board under paragraph (1) shall include the following:

(A) Modeling, simulation, and analysis of the systems comprising critical infrastructures, including cyber infrastructure, telecommunications infrastructure, and physical infrastructure, in order to enhance understanding of the large-scale complexity of such systems and to facilitate modification of such systems to mitigate the threats to such systems and to critical infrastructures generally.

(B) Acquisition from State and local governments and the private sector of data necessary to create and maintain models of such systems and of critical infrastructures generally.

(C) Utilization of modeling, simulation, and analysis under subparagraph (A) to provide education and training to members of the Board, and other policymakers, on matters relating to—

(i) the analysis conducted under that subparagraph;

(ii) the implications of unintended or unintentional disturbances to critical infrastructures; and

(iii) responses to incidents or crises involving critical infrastructures, including the continuity of government and private sector activities through and after such incidents or crises.

(D) Utilization of modeling, simulation, and analysis under subparagraph (A) to provide recommendations to members of the Board, and to departments and agencies of the Federal Government and private sector persons and entities upon request, regarding means of enhancing the stability of, and preserving, critical infrastructures.

(E) Modeling, simulation, and analysis provided under paragraph (1) by the Board shall be provided, in particular, to the Infrastructure Interdependencies committee of the Board under section 9(c)(b) of the Executive Order referred to in section 1065.

(F) ACTIVITIES OF PRESIDENT’S CRITICAL INFRASTRUCTURE PROTECTION AND CONTINUITY BOARD.—The Board shall provide to the President appropriate information on the critical infrastructure requirements of each Federal agency for purposes of facilitating the provision of support by the Center for the Board under subsection (c).

(e) CRITICAL INFRASTRUCTURE DEFINED.—In this section, the term ‘‘critical infrastructure systems and assets’’ includes physical or virtual, so vital to the United States that the incapacity or destruction of such systems and assets would have a debilitating impact on national economic security, national public health or safety, or any combination of those matters.

SEC. 908. EVALUATION OF STRUCTURE AND LOCATION OF ARMY ENVIRONMENTAL POLICY INSTITUTE.

(a) EVALUATION REQUIRED.—The Secretary of the Army, acting through the Assistant Secretary of the Army for Installations and Environment, shall carry out a thorough evaluation of the current structure and location of the Army Environmental Policy Institute for purposes of determining whether the structure and location of the Institute provide for the most efficient and effective fulfillment of the charter of the Institute.

(b) MATTERS TO BE EVALUATED.—In carrying out the evaluation, the Secretary shall evaluate:

(1) the performance of the Army Environmental Policy Institute in light of its charter;

(2) the current structure and location of the Institute in light of its charter; and

(3) various alternative structures (including funding mechanisms) and locations for the Institute that might enhance the efficient and effective operation of Institute.

(c) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall submit to Congress a report on the evaluation carried out under this section. The report shall include the results of the evaluation and such recommendations as the Secretary considers appropriate.

SA 1646. Mr. DOMENICI submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle B of title II, add the following:

SEC. 215. ADDITIONAL FUNDING FOR ADVANCED RELAY MIRROR SYSTEM DEMONSTRATION.

(a) ADDITIONAL FUNDS.—(1) The amount authorized to be appropriated by section 201(3) for research, development, test, and evaluation for the Air Force for the Advanced Relay Mirror System (ARMS) demonstration (P65900305F) is hereby increased by $5,000,000.

(2) The amount available under paragraph (1) for the Advanced Relay Mirror System demonstration is in addition to any other amounts made available under this Act for the Advanced Relay Mirror System demonstration.

(b) APPROPRIATIONS.—The amount authorized to be appropriated by section 201(3) for the Advanced Relay Mirror System (ARMS) demonstration (P65900305F) is hereby decreased by $5,000,000.

SA 1647. Mr. DOMENICI submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle B of title II, add the following:

SEC. 214. ADDITIONAL FUNDING FOR SATELLITE SIMULATION TOOLKIT.

(a) ADDITIONAL FUNDS.—(1) The amount authorized to be appropriated by section 201(3) for research, development, test, and evaluation for the Air Force for the Satellite Simulation Toolkit (P65902601F) is hereby increased by $2,000,000.

(2) The amount available under paragraph (1) for the Satellite Simulation Toolkit (P65902601F) is hereby decreased by $2,000,000.

17804 CONGRESSIONAL RECORD—SENATE September 24, 2001
SEC. 215. ADDITIONAL FUNDING FOR ADVANCED TACTICAL LASER.

(a) ADDITIONAL FUNDS.—(1) The amount authorized to be appropriated by section 201(2) for research, development, test, and evaluation for the Army for the Cooperative Energetics Initiative (PE690282A) is hereby increased by $10,000,000.

(2) The amount available under paragraph (1) for the Cooperative Energetics Initiative is in addition to any other amounts available under this Act for the Cooperative Energetics Initiative.

(b) OFFSET.—The amount authorized to be appropriated by section 201(1) for research, development, test, and evaluation for the Army for Landmine Warfare/Barrier Engineering Development (PE690480A) is hereby decreased by $10,000,000.

SA 1649. Mr. DOMENICI submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle B of title II, add the following:

SEC. 215. ADDITIONAL FUNDING FOR COOPERATIVE ENERGETICS INITIATIVE.

(a) ADDITIONAL FUNDS.—(1) The amount authorized to be appropriated by section 201(3) for research, development, test, and evaluation for the Air Force for MILSATCOM (PE690349OF) is hereby decreased by $5,000,000.

(b) OFFSET.—The amount authorized to be appropriated by section 201(3) for research, development, test, and evaluation for the Air Force for MILSATCOM (PE690349OF) is hereby decreased by $5,000,000.

SA 1652. Mr. NELSON of Florida submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle D of title VI, add the following:

SEC. 652. REPEAL OF REQUIREMENT OF REDUCTION OF SBP SURVIVOR ANNUITIES BY DEPENDENCY AND INDEMNITY COMPENSATION.

(a) REPEAL.—Section 1451(c) of title 10, United States Code, is amended by striking paragraph (2).

(b) PROHIBITION OF RETROACTIVE BENEFITS.—No benefits may be paid to any person for any period before the effective date specified in subsection (c) by reason of the amendment made by the subsection (a).

(c) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on—

(1) the first day of the first month that begins after the date of the enactment of this Act; and

(2) the first day of the fiscal year that begins in the calendar year in which this Act is enacted, if later than the date specified in paragraph (1).
SA 1655. Mr. DOMENICI (for himself and Mr. REID) submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place in Division C, Title XXXI, Subtitle A, insert a new section as follows:

"(A) $338,944,000 is authorized to be appropriated to the Department of Energy for fiscal year 2002 for military activities of the Office of Nonproliferation and Security, to be available only for research, development, and demonstration of new and advanced technologies to enhance and enable space based nonproliferation activities.

(B) The use of reusable in-space transportation systems can enhance performance of the Nation's space assets, while at the same time reducing space operations costs for commercial and national space programs, by adding new space capabilities developed and operated by the private sector, is an effective means by which the United States can help qualifying private-sector companies secure otherwise unattainable private financing for the development of commercial reusable in-space transportation systems, while at the same time minimizing Government commitment and involvement in the development of such systems.

(2) The availability of limited direct loans and loan guarantees, with the cost of credit risk to the United States paid by the private sector, is an effective means by which the United States can help qualifying private-sector companies secure otherwise unattainable private financing for the development of commercial reusable in-space transportation systems, while at the same time minimizing Government commitment and involvement in the development of such systems.

(3) For the Army Multi-Mode TOP Attack Munition System.

(4) Commercial reusable in-space transportation systems can provide new options for alternative planning approaches and risk management to enhance the mission assurance of national space assets.

(5) Commercial reusable in-space transportation systems developed by the private sector can provide in-space transportation services to the National Aeronautics and Space Administration missions to Mars, Pluto, and other planets.

SA 1656. Mr. DOMENICI submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table as follows:

On page 416, line 22, strike "$1,018,394,000" and replace with "$1,357,338,000".

There is hereby authorized to be appropriated to the Department of Energy for fiscal year 2002 for military activities of the National Nuclear Security Administration.

Congress makes the following findings:

(1) It is in the national interest to encourage the utilization of cost-effective, in-space transportation systems, which would be developed and operated by the private sector on commercial basis.

(2) The use of reusable in-space transportation systems will enhance performance levels of in-space operations, enhance efficient and safe disposal of satellites at the end of their useful lives, and increase the capability and reliability of existing ground-to-space launch vehicles.

(3) Commercial reusable in-space transportation systems will enhance the economic well-being and national security of the United States by reducing space operations costs for commercial and national space programs and by adding new space capabilities to space operations.

(4) Commercial reusable in-space transportation systems will provide new cost-effective space capabilities (including orbital transfer, altitude control, and planet arrival deceleration to support potential National Aeronautics and Space Administration missions to Mars, Pluto, and other planets).

(5) Commercial reusable in-space transportation systems can enhance and enable the space exploration of the United States by providing lower cost trajectory injection capabilities, and for use as a basis for tracking and monitor control of the physical asset.

(6) Satellites stranded in erroneous earth orbit due to deficiencies in their launch represent substantial economic loss to the United States. From this, the United States has实在 a $3,000,000,000 to $4,000,000,000 in a recent 12-month period, and present substantial concerns for the current backlog of national space assets valued at $20,000,000,000.

(7) Commercial reusable in-space transportation systems can provide new options for alternative planning approaches and risk management to enhance the mission assurance of national space assets.

(8) Commercial reusable in-space transportation systems developed by the private sector can provide in-space transportation services to the National Aeronautics and Space Administration missions to Mars, Pluto, and other planets.

(9) The availability of limited direct loans and loan guarantees, with the cost of credit risk to the United States paid by the private sector, is an effective means by which the United States can help qualifying private-sector companies secure otherwise unattainable private financing for the development of commercial reusable in-space transportation systems, while at the same time minimizing Government commitment and involvement in the development of such systems.

SEC. 3502. FINDINGS.

Congress makes the following findings:

(1) It is in the national interest to encourage the utilization of cost-effective, in-space transportation systems, which would be developed and operated by the private sector on commercial basis.

(2) The use of reusable in-space transportation systems will enhance performance levels of in-space operations, enhance efficient and safe disposal of satellites at the end of their useful lives, and increase the capability and reliability of existing ground-to-space launch vehicles.

(3) Commercial reusable in-space transportation systems will enhance the economic well-being and national security of the United States by reducing space operations costs for commercial and national space programs and by adding new space capabilities to space operations.

(4) Commercial reusable in-space transportation systems will provide new cost-effective space capabilities (including orbital transfer, altitude control, and planet arrival deceleration to support potential National Aeronautics and Space Administration missions to Mars, Pluto, and other planets).

(5) Commercial reusable in-space transportation systems can enhance and enable the space exploration of the United States by providing lower cost trajectory injection capabilities, and for use as a basis for tracking and monitor control of the physical asset.

(6) Satellites stranded in erroneous earth orbit due to deficiencies in their launch represent substantial economic loss to the United States. From this, the United States has实在是 a $3,000,000,000 to $4,000,000,000 in a recent 12-month period, and present substantial concerns for the current backlog of national space assets valued at $20,000,000,000.

(7) Commercial reusable in-space transportation systems can provide new options for alternative planning approaches and risk management to enhance the mission assurance of national space assets.

(8) Commercial reusable in-space transportation systems developed by the private sector can provide in-space transportation services to the National Aeronautics and Space Administration missions to Mars, Pluto, and other planets.

(9) The availability of limited direct loans and loan guarantees, with the cost of credit risk to the United States paid by the private sector, is an effective means by which the United States can help qualifying private-sector companies secure otherwise unattainable private financing for the development of commercial reusable in-space transportation systems, while at the same time minimizing Government commitment and involvement in the development of such systems.

SEC. 3503. LOANS AND LOAN GUARANTEES FOR DEVELOPMENT OF COMMERCIAL REUSABLE IN-SPACE TRANSPORTATION SYSTEMS.

(a) AUTHORITY TO MAKE LOANS AND LOAN GUARANTEES.—The Administrator may make loans and guarantees, in accordance with this section, or for the guarantee of a loan under this section, for the benefit of a United States commercial provider under this section.

(b) ELIGIBLE UNITED STATES COMMERCIAL PROVIDERS.—The Administrator shall prescribe requirements for the eligibility of United States commercial providers for loans, and loan guarantees, under this section. Such requirements shall ensure that eligible providers are financially capable of undertaking a loan made or guaranteed under this section.

(c) FEES.—

(A) COLLECTION REQUIRED.—The Administrator shall collect from each United States commercial provider under this section an amount equal to 0.5 percent of the proceeds of the loan guaranteed under this section, or for the guarantee of a loan made under this section.

(B) AVAILABILITY.—Amounts collected by the Administrator under this paragraph shall be available to the Administrator for purposes of carrying out this section.

(d) INTEREST RATE.—The interest rate on a loan made or guaranteed under this section may not be less than an interest rate determined by the Administrator based on a benchmark interest rate on marketable Treasury securities with a similar maturity to the loan.

(e) OTHER TERMS AND CONDITIONS.—

(1) AMORTIZATION PERIOD.—A loan made or guaranteed under this section shall be amortized over the shorter, as determined by the Administrator, of—

(A) 20 years; or

(B) the useful life of the physical asset to be financed by the loan.

(2) PROHIBITION ON SUBORDINATION.—A loan made or guaranteed under this section may not be subordinate to another debt or obligation of the United States or other United States commercial provider concerned, or to any other claims against such provider.

(3) RESTRICTION ON INCOME.—A loan made or guaranteed under this section—

(A) provide income which is excluded from gross income for purposes of chapter 1 of the Internal Revenue Code of 1986; or

(B) in the case of a loan made or guaranteed under this section, provide significant collateral or security, as determined by the Administrator, for other obligations the income from which is so excluded.

(4) TREATMENT OF GUARANTEE.—The guarantee of a loan under this section shall be conclusive evidence of the following:

(A) That the guarantee has been properly obtained.

(B) That the loan qualifies for the guarantee.

(5) OTHER TERMS AND CONDITIONS.—The Administrator may establish any other terms and conditions for a loan made under this section, or for the guarantee of a loan under this section, as the Administrator considers appropriate to enforce any right of the United States.

(f) ENFORCEMENT OF RIGHTS.—

(1) IN GENERAL.—The Attorney General may take any action the Attorney General considers appropriate to enforce any right accruing to the United States under a loan or loan guarantee under this section.

(2) PROHIBITION.—The Attorney General may, with the approval of the parties concerned, forebear from enforcing any right of the United States under a loan made or guaranteed under this section for the benefit of a United States commercial provider if such forbearance will not result in any cost, as defined in section 522(5) of the Federal Credit Reform Act of 1990, to the United States.

(3) UTILIZATION OF PROPERTY.—Notwithstanding any other provision of law and subject to the terms of a loan made or guaranteed under this section, or for the guarantee of a loan made under this section, or for the guarantee of a loan made under this section, the Administrator considers appropriate to protect the financial interests of the United States.

(g) AUTHORIZATION OF APPROPRIATIONS.—There is hereby authorized to be appropriated $1,500,000,000 for the making of loans under this section and for the administration
of loans and loan guarantees under this section.

SEC. 3504. DEFINITIONS.

In this title:
(1) ADMINISTRATOR.—The term ‘‘Administrator’’ means the Administrator of the National Aeronautics and Space Administration.
(2) COMMERCIAL PROVIDER.—The term ‘‘commercial provider’’ means any person or entity providing commercial reusable in-orbit space transportation services, primary control of which is held by persons other than the Federal Government, a State or local government, or a foreign government.
(3) IN-SPACE TRANSPORTATION SERVICES.—The term ‘‘in-space transportation services’’ means operations and activities involved in the direct transportation or attempted transportation of a payload or object from one orbit to another by means of an in-space transportation vehicle.
(4) IN-SPACE TRANSPORTATION SYSTEM.—The term ‘‘in-space transportation system’’ means the space and ground elements, including in-space transportation vehicles and support systems, and ground administration and control facilities and associated equipment, necessary for the provision of in-space transportation services.
(5) IN-SPACE TRANSPORTATION VEHICLE.—The term ‘‘in-space transportation vehicle’’ means a vehicle designed—
(A) to be based and operated in space; and
(B) to transport various payloads or objects from one orbit to another orbit; and
(C) to be reusable and refueled in space.
(6) UNITED STATES COMMERCIAL PROVIDER.—The term ‘‘United States commercial provider’’ means any commercial provider organized under the laws of the United States that is more than 50 percent owned by United States nationals.

SA 1657. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle B of title XII add the following:

SEC. 121E. LIMITED AUTHORITY TO PROVIDE ASSISTANCE TO PAKISTAN AND INDIA.

If the President determines that it is in the national interests of the United States to do so, the President is authorized to provide assistance to Pakistan and India under the Arms Export Control Act, the Foreign Assistance Act of 1961, the Export-Import Bank Act of 1945, and any Act without regard to any grounds for prohibiting or restricting such assistance under those Acts that arose prior to September 11, 2001.

SA 1658. Mr. LOTITT submitted an amendment intended to be proposed by him to the bill S. 1438, to authorize appropriations for the year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle B of title XII, add the following:

SEC. 1217. LIMITED AUTHORITY TO PROVIDE ASSISTANCE TO PAKISTAN AND INDIA.

If the President determines that it is in the national interests of the United States to do so, the President is authorized to provide assistance to Pakistan and India under the Arms Export Control Act, the Foreign Assistance Act of 1961, the Export-Import Bank Act of 1945, and any Act without regard to any grounds for prohibiting or restricting such assistance under those Acts that arose prior to September 11, 2001.

SA 1660. Mr. WARNER (for himself and Mr. LEVIN) proposed an amendment to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle B of title XII, add the following:

SEC. 1217. ACQUISITION OF LOGISTICAL SUPPORT FOR SECURITY FORCES.

Section 5 of the Multinational Force and Observers Participation Resolution (22 U.S.C. 3812) is amended by adding at the end the following new subsection:

‘‘(d) The United States may use contractors to provide logistical support to the Multinational Force and Observers in this section in lieu of providing such support through a logistical support unit composed of members of the United States Armed Forces.

(2) Notwithstanding subsections (a) and (b) and section 7(b), support by a contractor under this subsection without reimbursement whenever the President determines that such action enhances or supports the national security interests of the United States.

SA 1663. Mr. LEVIN (for himself and Mr. WARNER) proposed an amendment to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of

CONGRESSIONAL RECORD—SENATE 17807

SEC. 1219. AUTHORIZATION OF 2001 EMERGENCY SUPPLEMENTAL APPROPRIATIONS ACT FOR RECOVERY FROM AND RESPONSE TO TERRORIST ATTACKS ON THE UNITED STATES.

(a) AUTHORIZATION.—Amounts authorized to be appropriated to the Department of Defense for fiscal year 2001 in the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (as enacted into law by Public Law 106-398) are hereby adjusted by the amounts of appropriations made available to the Department of Defense pursuant to the 2001 Emergency Supplemental Appropriations Act for Recovery from and Response to Terrorist Attacks on the United States.

(b) QUARTERLY REPORT.—(1) Promptly after the end of each quarter of a fiscal year, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the use of funds made available to the Department of Defense pursuant to the 2001 Emergency Supplemental Appropriations Act for Recovery from and Response to Terrorist Attacks on the United States.

(2) PROPOSED ALLOCATION AND PLAN.—The Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives the proposed allocation and plan required by the 2001 Emergency Supplemental Appropriations Act for Recovery from and Response to Terrorist Attacks on the United States, a proposed allocation and plan for the use of the funds made available to the Department of Defense pursuant to that Act.

SEC. 1219. AUTHORIZATION OF 2001 EMERGENCY SUPPLEMENTAL APPROPRIATIONS ACT FOR RECOVERY FROM AND RESPONSE TO TERRORIST ATTACKS ON THE UNITED STATES.

(a) AUTHORIZATION.—Amounts authorized to be appropriated to the Department of Defense for fiscal year 2001 in the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (as enacted into law by Public Law 106-398) are hereby adjusted by the amounts of appropriations made available to the Department of Defense pursuant to the 2001 Emergency Supplemental Appropriations Act for Recovery from and Response to Terrorist Attacks on the United States.

(2) PROPOSED ALLOCATION AND PLAN.—The Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives the proposed allocation and plan required by the 2001 Emergency Supplemental Appropriations Act for Recovery from and Response to Terrorist Attacks on the United States, a proposed allocation and plan for the use of the funds made available to the Department of Defense pursuant to that Act.

SEC. 2842. REPEAL OF LIMITATION ON COST OF RENOVATION OF PENTAGON RESERVOIR.

Defence, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; as follows:

At the end of subtitle D of title VI, add the following:

SEC. 652. SBP ELIGIBILITY OF SURVIVORS OF RETIREMENT-INELIGIBLE MEMBERS OF THE UNIFORMED SERVICES WHO DIE WHILE ON ACTIVE DUTY.

(a) SURVIVOR ANNUITY.—Section 1448(d) of title 10, United States Code, is amended by striking paragraph (1) and inserting the following:

"(1) becoming eligible to receive retired pay;"

(b) COMPETITION OF SURVIVOR ANNUITY.—Section 1451(c)(1) of title 10, United States Code, is amended—

(1) in subparagraph (A)—

(A) by striking "based upon his years of active service when he died," and inserting "based upon the following:"; and

(B) by adding at the end the following new clauses:

"(i) in the case of an annuity under section 1448(f) of this title, the member's years of active service when he died;"; and

(ii) in the case of an annuity under section 1448(d)(1)(A) of this title, the member's years of active service when he died;"

(c) CONFORMING AMENDMENTS.—(1) The heading for subsection (d) of section 1448 of such title is amended by striking "RETIRED-ELIGIBLE".

(2) In subsection (d)(3) of such section—

(A) by striking "section 1448(d)(1)(B) or 1448(d)(1)(C)" and inserting "clause (ii) or (iii) of section 1448(d)(1)(A)";

(d) EXTENSION AND INCREASE OF OBJECTIVES FOR RECEIPTS FROM DISPOSALS OF CERTAIN STOCKPILE MATERIALS AUTHORIZED FOR SEVERAL FISCAL YEARS BEGINNING WITH FISCAL YEAR 1999.—Section 3003(a) of the Strom Thurmond Nuclear Security Authorization Act for Fiscal Year 1999 (Public Law 105–261; 112 Stat. 2262; 50 U.S.C. 98d note) is amended—

(1) by striking "and" at the end of paragraph (3); and

(2) by inserting the following clause after paragraph (4):

"(5) $770,000,000 by the end of fiscal year 2011.";

(e) EFFECTIVE DATE AND APPLICABILITY.—This section shall take effect as of September 10, 2001, and shall apply with respect to deaths of members of the Armed Forces occurring on or after that date.

SA 1665. Mr. LEVIN (for Mr. Akaka) submitted an amendment intended to be proposed by Mr. Levin to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; as follows:

At the end of subtitle D of title VIXXIII, add the following:

SEC. 2844. CONSTRUCTION OF PARKING GARAGE AT FORT DE RUSSEY, HAWAII.

(a) AUTHORITY TO ENTER INTO AGREEMENT.—The Secretary of the Army may enter into an agreement with the Military Heritage Foundation, a non-profit organization, for the design, construction, and operation of a facility for the United States Army Heritage and Education Center at Carlisle Barracks, Pennsylvania, as follows:

(1) accept funds from the Military Heritage Foundation for the design and construction of the facility referred to in subsection (a); and

(2) permit the Military Heritage Foundation to construct the facility, and to enter into an agreement with the Federal Government for the operation of the facility.

(b) ACCEPTANCE OF FACILITY.—The Secretary, or the Secretary’s designee, shall—

(1) accept the facility referred to in paragraph (1) and the improvements made by the Military Heritage Foundation at the site of the Army Heritage and Education Center; and

(2) enter into an agreement with the Military Heritage Foundation to operate the facility, subject to the limitations contained in subsection (a).

(c) USE OF CERTAIN GIFTS.—(1) Under regulations prescribed by the Secretary, the Secretary may, without regard to section 2601 of title 10, United States Code, accept, hold, administer, invest, and spend any gift, devise, or bequest of property of a value of $250,000 or less made to the United States if such gift, devise, or bequest is for the benefit of the United States Army Heritage and Education Center.

(2) The Secretary may pay or authorize the payment of any reasonable and necessary expense in connection with the conveyance or transfer of a gift, devise, or bequest under this subsection.
CONGRESSIONAL RECORD—SENATE 17809

September 24, 2001

(e) ADDITIONAL TERMS AND CONDITIONS.—The Secretary may require such additional terms and conditions in connection with the agreement authorized to be entered into by subsection (a) as the Secretary considers appropriate to protect the interest of the United States.

SA 1667. Mr. LEVIN (for Mr. LIEBERMAN (for himself and Mr. SANTORUM)) proposed an amendment to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; as follows:

At the end of subtitle C of title XI, add the following:

SEC. 1124. PARTICIPATION OF PERSONNEL IN TECHNOLOGY STANDARDS DEVELOPMENT ACTIVITIES.

Subsection (d) of section 12 of the National Technology Transfer and Advancement Act of 1995 (42 U.S.C. 6612) is amended—

(1) by redesignating paragraph (4) as paragraph (5);

(2) by inserting after paragraph (3) the following new paragraph (4):

"(4) EXPENSES OF GOVERNMENT PERSONNEL.—In carrying out the responsibilities of a Federal agency or department that is determined by the head of that agency or department as being an activity undertaken in carrying out this subsection,".

SA 1668. Mr. WARNER (for Mr. LOTT) proposed an amendment to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; as follows:

Strike section 303 and insert the following:

SEC. 303. ARMED FORCES RETIREMENT HOME.

(a) AMOUNT FOR FISCAL YEAR 2002.—There is hereby authorized to be appropriated for fiscal year 2002 from the Armed Forces Retirement Home Trust Fund the sum of $71,400,000 for the operation of the Armed Forces Retirement Home, including the United States Soldiers’ and Airmen’s Home and the Naval Home.

(b) AMOUNTS PREVIOUSLY AUTHORIZED.—Of amounts appropriated from the Armed Forces Retirement Home Trust Fund for fiscal years before fiscal year 2002 by Acts enacted before the date of the enactment of this Act, an amount of $22,400,000 shall be available for those fiscal years, to the same extent as is provided in appropriation Acts, for the development and construction of a blended use, multicare facility at the Naval Home and for the acquisition of a parcel of real property adjacent to the Naval Home, consisting of approximately 15 acres, more or less.

SA 1669. Mr. LEVIN (for Mrs. CARNAHAN) proposed an amendment to the bill S. 1438, to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, for military constructions, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; as follows:

At the end of subtitle C of title X, add the following:

SEC. 1027. COMPTROLLER GENERAL STUDY AND REPORT ON INTERCONNECTIVITY OF NATIONAL GUARD DISTRIBUTIVE TRAINING TECHNOLOGY PROJECT NETWORKS WITH LINKED PUBLIC AND PRIVATE NETWORKS.

(a) STUDY REQUIRED.—The Comptroller General of the United States shall conduct a study to determine the extent to which voice, data, and video networks of the National Guard Distributive Training Technology Project (DTP) and other Department of Defense, Federal, State, and private voice, data, and video networks, including the networks of the distance learning project of the Army known as Classroom XXI, networked programs of public and private institutions of higher education, and networks of the Federal Emergency Management Agency and other Federal, State, and local emergency preparedness agencies, are interconnected.

(b) PURPOSES.—The purposes of the study under subsection (a) are as follows:

(1) To identify existing capabilities, and future requirements, for transmission of voice, data, and video for purposes of operational support of disaster response, homeland defense, command and control of mobilization forces, training of military personnel, training of first responders, and shared use of the networks of the Distributive Training Technology Project by government and members of the networks.

(2) To identify appropriate connections between the networks of the Distributive Training Technology Project and networks of the Federal Emergency Management Agency, State emergency management agencies, and other Federal and State agencies having disaster response functions.

(3) To identify requirements for continuity between the networks of the Distributive Training Technology Project, the Department of Defense, Federal, State, and private networks referred to in subsection (a) in the event of a significant disruption of providers of public services.

(4) To identify means of protecting the networks of the Distributive Training Technology Project from outside intrusion, including an assessment of the manner in which the networks are protected against threats.

(5) To identify impediments to interconnectivity between the networks of the Distributive Training Technology Project and such other networks.

(6) To identify means of improving interconnectivity between the networks of the Distributive Training Technology Project and such other networks.

(c) PARTICULAR MATTERS.—In conducting the study, the Comptroller General shall consider, in particular, the following:

(1) Whether, and to what extent, national security concerns impede interconnectivity between the networks of the Distributive Training Technology Project and other Department of Defense, Federal, State, and private networks referred to in subsection (a).

(2) Whether, and to what extent, limitations on the technological capabilities of the Department of Defense impede interconnectivity between the networks of the Distributive Training Technology Project and such other networks.

AUTHORITY FOR COMMITTEES TO MEET

Mr. LEVIN. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Monday, September 24, 2001, at 3:30 p.m., to hold a nomination hearing.

Nominees: Ms. Charlotte Beers, of Texas, to be Under Secretary of State
for Public Diplomacy; Mrs. Patricia de Stacy Harrison, of Virginia, to be an Assistant Secretary of State (Educational and Cultural Affairs); Mr. John Wolf, of Maryland, to be an Assistant Secretary of State (Non-proliferation); the Honorable Kevin Moley, of Arizona, to be Representative of the United States of America to the European Office of the United Nations, with the rank of Ambassador; the Honorable Kenneth Brill, of Maryland, to be Representative of the United States of America to the Vienna Office of the United Nations, with the rank of Ambassador to the Kingdom of Nepal.

The PRESIDING OFFICER. Without objection, it is so ordered.

SPECIAL COMMITTEE ON AGING

Mr. LEVIN. Mr. President, I ask unanimous consent that the Special Committee on Aging be authorized to meet on Monday, September 24, 2001, from 12 p.m.–3:30 p.m., in Dirksen 192 for the purpose of conducting a hearing: Re long-term care.

The PRESIDING OFFICER. Without objection, it is so ordered.

SELECT COMMITTEE ON INTELLIGENCE

Mr. LEVIN. Mr. President, I ask unanimous consent that the Select Committee on Intelligence be authorized to meet during the session of the Senate on Monday, September 24, 2001, at 3 p.m., to hold an open hearing: Re counter-terrorism.

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGES OF THE FLOOR

Mr. INHOFE. I ask unanimous consent that a military fellow, Dave Teal, be given privileges of the floor during this debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LEVIN. I ask unanimous consent that a member of Senator Jeffords’ staff, Jonathan Farnham, be given floor privileges during consideration of this bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. COLLINS. Mr. President, I ask unanimous consent that Virginia Renee Simpson, a congressional fellow in my office, be permitted floor privileges throughout the debate on the national defense authorization bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MCCAIN. Mr. President, I ask unanimous consent that the privilege of the floor be granted to Kimberly Connor of Senator Bond’s staff, as well as LCDR Dell Bull, during consideration of S. 1438.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. COLLINS. Mr. President, at the request of Senator DOMENICI, I ask unanimous consent that Pete Lyons, a fellow in Senator DOMENICI’s office, be granted floor privileges for the duration of the consideration of this bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

MEASURE INDEFINITELY POSTPONED—S. 643

Mr. LEVIN. Mr. President, I ask unanimous consent that Calendar No. 148, S. 643, be indefinitely postponed.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDERS FOR TUESDAY, SEPTEMBER 25, 2001

Mr. LEVIN. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until the hour of 9:30 a.m., Tuesday, September 25. I further ask consent that on Tuesday, immediately following the prayer and the pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and that the Senate resume consideration of the Department of Defense Authorization Act; further, that the Senate recess from 12:30 to 2:15 p.m. for the weekly party conferences.

The PRESIDING OFFICER. Without objection, it is so ordered.

CONFIRMATION

Executive nomination confirmed by the Senate September 24, 2001:

DEPARTMENT OF TRANSPORTATION

Kirk Van Tine, of Virginia, to be General Counsel of the Department of Transportation; the above nomination was approved subject to the nominee’s commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.
EXTENSIONS OF REMARKS

HON. MICHAEL BILIRAKIS of Florida
IN THE HOUSE OF REPRESENTATIVES
Monday, September 24, 2001

Mr. BILIRAKIS. Mr. Speaker, in the aftermath of the terrorist attacks of September 11, 2001, everyone's thoughts and prayers are with those whose lives have been forever altered by this tragedy. Several days after the attack, I received a copy of a poem entitled "Lady Liberty Still Stands Tall." It was written by a good friend, Dr. Ken Webster. I wanted to share this touching poem with my colleagues.

LADY LIBERTY STILL STANDS TALL
( By Kenneth E. Webster)
The New York Harbor was attacked,
As the twin towers came tumbling down.
With Lady Liberty standing by,
She sheds a tear and a frown.
I've watched this harbor over 100 years,
And welcomed thousands to our shores.
The tired, poor and huddled masses,
As I lift my lite beside the golden door.
People come from all over the world,
Yearning for a life that is free.
They could count on safe harbor here,
For our democracy is the key.
But on September 11th the year 2001,
Some terrorists attack—what a pity.
I saw them fly right past my torch,
As others who visit New York City.
I could see the terror in the eyes,
Of everyone who saw the plan.
He headed straight for the twin towers,
Soon to inflict them all with pain.
I saw the terrible crash occur,
I couldn't believe my eyes.
The buildings exploded into the sky,
And I knew many would lose their lives.
I've never cried here in the harbor,
I've always remained straight and strong.
But today my heart is torn,
As terrorists perform a terrible wrong.
But I'm still standing for all to see,
That America is the land of the free.
We'll survive as we have before,
And I'll stay here for all to see.

HON. DAVE WELDON of Florida
IN THE HOUSE OF REPRESENTATIVES
Monday, September 24, 2001

Mr. WELDON of Florida, Mr. Speaker, let me take this means to pay tribute to Chief Master Sergeant John F. Fitzgerald upon his retirement from the United States Air Force.

Chief Master Sergeant John Fitzgerald has served our nation with honor and distinction for over 26 years, and his performance in his tire career has been characterized by the highest of standards and professionalism. He was born in Evansville, Indiana, on 23 February 1957. He graduated from William Henry Harrison High School in 1975 and entered active duty in January 1976. Upon graduation from basic military training in March 1976, he was assigned under the direct duty assignment program to Charleston Air Force Base and entered into training as an Administrative Specialist. After serving on the base honor guard and coaching little league, he was selected for promotion to Senior Airman Below The Zone and was reassigned to Camp New Amsterdam, The Netherlands, in August 1978. Chief Master Sergeant Fitzgerald's outstanding job performance and professionalism led to his selection for a special duty assignment to join the elite USAF Air Demonstration Squadron, "Thunderbirds," in December 1981. While assigned to the team he was selected as the 1984 Fitzgerald Award Winner, given to the enlisted member of the squadron who contributed most to the team mission. At the culmination of this tour in December 1984, the chief was selected for another special duty assignment to the Headquarters, Tactical Air Command Deputy Chief of Staff, Personnel, at Langley AFB, Virginia. In August 1988, the chief was selected for a special duty assignment to the Commandant of Cadets, USAF Academy, Colorado.

At the end of this tour in December 1991, the chief was selected as a member of the base closure team to end the Air Force's 51-year service at Sondrestrom AB, Greenland. Upon closure of Sondrestrom Air Base on 30 September 1992, the chief was reassigned to Patrick Air Force Base, Florida.

After assignment as the 45th Space Wing Command Section Superintendent, he was reassigned to the 45th Mission Support Squadron as the Military Personnel Flight Superintendent. In March 1999, he was selected to become the Command Chief Master Sergeant for Joint Task Force-Southwest Asia and Operation Southern Watch head-quartered at Eskan Village, Riyadh, Kingdom of Saudi Arabia. In June 2000, Chief Master Fitzgerald returned to his previous position as the Superintendent, Military Personnel Flight for the 45th Mission Support Squadron at Patrick AFB, Florida, and in January 2001, moved to the 45th Space Wing Staff to a newly created position as Superintendent of the Wing Plans Division. In this capacity he supported various high level, special interest projects of vital importance to NASA, the Florida Spaceport Authority, and the 45th Space Wing, in the Development of the Florida Spaceport program.

Chief Master Sergeant Fitzgerald's awards include the Defense Meritorious Service Medal, Meritorious Service Medal with five oak leaf clusters, Air Force Commendation Medal, Air Force Achievement Medal with one oak leaf cluster, USAF Outstanding Airman of the Year Medal, Armed Forces Expeditionary Medal, and the Southwest Asia Service Medal with star.

Chief Master Sergeant Fitzgerald is married to the former Phyllis Ann Vaught, and they have one daughter, Amanda.

Mr. Speaker, I am thankful for the contributions Chief Master Sergeant John Fitzgerald has made to the people of my State, the United States Air Force, and the country. I am certain my colleagues will join me in wishing Chief Master Sergeant Fitzgerald and his wife, Phyllis, all the best. We thank them for over 26 years of service to the United States of America.

TRIBUTE TO FERRIS LIBRARY INFORMATION, TECHNOLOGY AND EDUCATION

HON. DAVE CAMP of Michigan
IN THE HOUSE OF REPRESENTATIVES
Monday, September 24, 2001

Mr. CAMP. Mr. Speaker, I rise today to pay tribute to the Ferris Library for Information, Technology and Education at Ferris State University (FLITE), which is being dedicated today as a Federal Depository Library in the 4th District of Michigan.

I am honored to have assisted Richard Cochran, Dean of Library Services and Education, in making this day possible. Designating the FLITE as a Federal Depository Library will be a tremendous asset to the community, as well as the university’s students.

This is a proud moment for everyone at the dedication today as the FLITE becomes one of more than 1,300 libraries across the country that offers the American public access to information from the three branches of government. As a federal depository library, the FLITE now has the responsibility for assuring that the public has free access to that material, and I am confident that Mr. Cochran and his staff will ensure that the public they serve will receive the kind of service expected from a Federal Depository Library.

On behalf of the 4th District of Michigan, I congratulate the Ferris State University community for joining a select number of libraries who serve our citizens with this important resource.

HONORING THE DISTINGUISHED PUBLIC SERVICE CAREER OF TOM REED

HON. BART GORDON of Tennessee
IN THE HOUSE OF REPRESENTATIVES
Monday, September 24, 2001

Mr. GORDON. Mr. Speaker, I rise today to recognize the outstanding public service of a
great friend of mine, Murfreesboro City Attorney Tom Reed. Tom, who has worked for our city as an attorney for more than 29 years, is retiring at the end of this month.

Tom began his distinguished career with the city of Murfreesboro soon after his graduation from the University of Tennessee School of Law, helping guide the Middle Tennessee community through nearly three decades of unprecedented growth and prosperity.

Tom’s many years of public service have been recognized by many local, state and national committees, boards and professional associations.

He has also been instrumental in bolstering the city’s economic health and development. And he has been actively involved in many local, state and national committees, boards and professional associations.

His unflinching dedication and tireless service to the city will be sorely missed. I congratulate Tom on his outstanding career and wish him well in his future endeavors.

VERMONT HIGH SCHOOL STUDENT CONGRESSIONAL TOWN MEETING

HON. BERNARD SANDERS
OF VERMONT
IN THE HOUSE OF REPRESENTATIVES

Mr. SANDERS. Mr. Speaker, today I recognize the outstanding work done by participants in my Student Congressional Town Meeting held this summer. These participants were a part of a group of high school students from around Vermont who testified about the concerns they have as teenagers, and about what they found that it was interesting and they would like to make as much use of a significant resource as humankindly possible. Cannabis is the only plant that has resilient enough growing habits, fragrant value, and the versatility to provide all the basic necessities of life while helping to save our ecosystem and supply all the energy we would ever need. I feel it is in our best interest to legalize marijuana and developing the cannabis plant that does not contain enough tetrahydrocannabinol, or THC, the psychoactive chemical found in cannabis, to get an individual high. I am convinced cannabis is one of our prime allies in the fight against the greenhouse effect and pollution. This possibility is definitely not given enough credence. I guess it is a horrible thing to explore likely ways to save our ecosystem. The truth is, our oil supplies are not going to last that much longer. Why destroy our world for the sake of a few minutes of pleasure? I take for our oil to be depleted, at which point we will just have to run to a savior such as hemp or our necessity? Pulped hemp is a prime candidate for paper production. The cannabis plant has four times as much paper usable pulp per acre as trees do. Furthermore, it grows back in about four months. Hemp fibers are stronger than man-made and organic fibers. Hemp pulp is biodegradable. In a composite form, it is twice as strong as wood, and is used in most of its forms. Hemp seeds are highly nutritious, even more so than soy. They are roughly 25 percent protein, 30 percent carbohydrates, and contain rare linoleic that is good for the immune system. Hemp seed oil is good for lowering cholesterol levels and strengthening the cardiovascular system. Besides hemp, there are various strains of budding cannabis containing higher levels of THC. Even these are relatively harmless compared to other substances which are legal. There has never been a death caused solely from marijuana. This was confirmed by the National Institute on Drug Abuse. Meanwhile, alcohol and tobacco have a combined death rate of over 500,000 annually, give or take a few thousand. It is hard to count with that many deaths. Even caffeine and salt cause upward of a thousand deaths a year, individually. In 1972, commissioned by President Nixon, the National Committee on Marijuana and Drug Abuse reported that marijuana’s relative potential for harm to the vast majority of individuals and its actual impact on society does not justify a social and fiscal penalty to seek out and use it.” I think that the accepted belief is that Marijuana is on a similar level with alcohol. Of course, there are those who would say it is far worse, and others who say is less harmful. The fact is, if an individual of legal age can go home and drink a few beers and watch TV, why can’t a person go home after work, smoke some marijuana, and watch TV? Is just so happens that, during the cultural development of our country, some substances became more socially acceptable than others. I think the main position taken by anti-marijuana legalization advocates is that it is a gateway drug. This assumption, made by those who would say it is far worse, and others who say is less harmful. It is the only plant that has resilient enough growing habits, fragrant value, and the versatility to provide all the basic necessities of life while helping to save our ecosystem and supply all the energy we would ever need.

Christine Harvey. We have a packet on all the stuff that we did during the day, and some pictures.

ON BEHALF OF JOSH SMOLKIN—REGARDING LEGALIZING CANNABIS, MAY 7, 2001

Josh Smolkin. My name is Joshua Smolkin. Thank you for letting me speak here. Cannabis legalization has been increasingly popular. This push is misunderstood by those who discredit and close their ears to the voices of those who urge for change. It is a shame that people who merely wish to walk down the street and smoke a joint without getting apprehended. It comes from intelligent individuals who wish to make as much use of a significant resource as humankindly possible. Cannabis is the only plant that has resilient enough growing habits, fragrant value, and the versatility to provide all the basic necessities of life while helping to save our ecosystem and supply all the energy we would ever need. I feel it is in our best interest to legalize marijuana and developing the cannabis plant that does not contain enough tetrahydrocannabinol, or THC, the psychoactive chemical found in cannabis, to get an individual high. I am convinced cannabis is one of our prime allies in the fight against the greenhouse effect and pollution. This possibility is definitely not given enough credence. I guess it is a horrible thing to explore likely ways to save our ecosystem. The truth is, our oil supplies are not going to last that much longer. Why destroy our world for the sake of a few minutes of pleasure? I take for our oil to be depleted, at which point we will just have to run to a savior such as hemp or our necessity? Pulped hemp is a prime candidate for paper production. The cannabis plant has four times as much paper usable pulp per acre as trees do. Furthermore, it grows back in about four months. Hemp fibers are stronger than man-made and organic fibers. Hemp pulp is biodegradable. In a composite form, it is twice as strong as wood, and is used in most of its forms. Hemp seeds are highly nutritious, even more so than soy. They are roughly 25 percent protein, 30 percent carbohydrates, and contain rare linoleic that is good for the immune system. Hemp seed oil is good for lowering cholesterol levels and strengthening the cardiovascular system. Besides hemp, there are various strains of budding cannabis containing higher levels of THC. Even these are relatively harmless compared to other substances which are legal. There has never been a death caused solely from marijuana. This was confirmed by the National Institute on Drug Abuse. Meanwhile, alcohol and tobacco have a combined death rate of over 500,000 annually, give or take a few thousand. It is hard to count with that many deaths. Even caffeine and salt cause upward of a thousand deaths a year, individually. In 1972, commissioned by President Nixon, the National Committee on Marijuana and Drug Abuse reported that marijuana’s relative potential for harm to the vast majority of individuals and its actual impact on society does not justify a social and fiscal penalty to seek out and use it.” I think that the accepted belief is that Marijuana is on a similar level with alcohol. Of course, there are those who would say it is far worse, and others who say is less harmful. EXTENSIONS OF REMARKS

September 24, 2001

laws outlawing its use. Law enforcement arrests a marijuana smoker every 54 seconds in America, at a cost to society. Over 10 million Americans have been arrested on marijuana charges since the National Commission on Marijuana and Drug Abuse issued its recommendations to Congress in 1972 to decriminalize the plant. Nonviolent marijuana offenders often serve longer sentences than rapists or murderers, and there are currently 60,000 in jail. This means that peaceful middle-class people are thrown in cells with rapists and murderers.

Civil forfeiture laws allow the police to seize the money and property of suspected marijuana offenders; charges need not even be filed. Vigorous enforcement of the laws forces hardened criminals to take over marijuana trafficking. This causes violence and increased predatory crime. Marijuana prohibition creates a mixed drug market, which puts marijuana customers in contact with hard-drug dealers. Belligerent marijuana would separate marijuana from cocaine, heroin and other hard drugs. Because marijuana is typically used in private, trumping the Bill of Rights is a defining part of marijuana-law enforcement—for example, the use of drug dogs, urine tests, phone taps, government informants, curbside garbage searches, military search warrants, and infrared heat detectors. There are simply so many facts which support cannabis legality that I could speak of them to you all day today. Hopefully, these facts and my opinions that I have presented are helpful and informative. I urge you to support this cause, given the opportunity. The industrial, medicinal, nutritional, and moral benefits of cannabis legalization are too much to ignore.

ROFEH

HON. BARNEY FRANK
OF MASSACHUSETTS
IN THE HOUSE OF REPRESENTATIVES

Monday, September 24, 2001

Mr. FRANK. Mr. Speaker, I have had the very great privilege over the past several years of sharing with my colleagues information about important work done by ROFEH and the New England Chassidic Center. Under the leadership of Grand Rabbi Levi Horowitz, the Bostoner Rebbe, project ROFEH has pioneered in efforts to make it possible for people all over the world to derive the great benefits of the first rate medical care that is available in Boston. Rabbi Horowitz, in addition to his religious role, is a leading scholar in the field of medical ethics—indeed, I have myself benefited from his advice in dealing with some of the important research issues which are now before us—and it is thus not surprising that he has played this leadership role in an organization which make it possible for people to receive vital medical treatment which would otherwise not be available to them.

Every year, ROFEH International and the Chassidic Center come together with their supporters at a dinner, a highlight of which is the recognition of people who have provided especially important service to this wonderful effort. This year’s honorees are two men of very great distinction, Dr. Judah Folkman, and Mr. Arnold Andler.

Professor Judah Folkman, M.D., was born in Cleveland, Ohio. He received his B.A. (cum laude), in 1953 from Ohio State University, and his M.D., ( magna cum laude), in 1957 from Harvard Medical School. While at Ohio State he worked in Dr. Robert Zollinger’s surgical laboratory, which was a co-author on papers describing a new method of hepatectomy for liver cancer. As a student at Harvard Medical School he worked in Dr. Robert Gross’ laboratory where he developed the first atrioventricular implantable pacemaker, for which he received the Boynton Medical Prize, the Soma Weiss Award, and the Borden Undergraduate Award in Medicine.

In 1957, Dr. Folkman started his surgical training at the Massachusetts General Hospital and served as Chief Resident in surgery from 1964–1965. His surgical residency was interrupted between 1960 and 1962 when served as a lieutenant in the U.S. Navy at the Naval National Medical Center in Bethesda. It was here that Dr. Folkman with David Long first reported the use of silicon rubber implantable polymers to sustained-release aminoglycoside antibiotics in both humans and animals. In Bethesda, then, he carried out the experiments of growing tumors in isolated perfused organs, which led to the idea that tumors are angiogenesis-dependent.

In 1965, Dr. Folkman joined Harvard’s Surgical Service at the Boston City Hospital where he was appointed Instructor in Surgery. In 1967 he was promoted to Professor of Surgery at Harvard Medical School and to Surgeon-in-Chief at Children’s Hospital Medical Center, becoming the Julia Dyckman Andrus Professor of Surgery in 1968. After 14 years as Surgeon-in-Chief, he stepped down to devote his full time to research.

Dr. Folkman’s discoveries on the mechanism of angiogenesis opened a field of investigation now pursued worldwide. His laboratory reported the first purified angiogenesis molecule, the first angiogenesis inhibitor, proposed the concept of angiogenic disease, and has begun clinical trials based on this research. Basic fibroblast growth factor (bFGF) was first purified in Folkman’s laboratory (together with Michael Klagsbrun and Yuen Shing). Angiogenesis inhibitors are currently in clinical trials in the U.S. and Europe.

Dr. Folkman’s exceptional achievements have been recognized by numerous national and international awards. In 1990 he was elected to the National Academy of Sciences. He is also a member of the American Academy of Arts and Sciences, the American Philosophical Society and the Institute of Medicine. He holds honorary degrees from five universities. Dr. Folkman is the author of more than 300 peer-reviewed papers as well as may other publications.

Arnold Andler affectionately known as “Arnie” to his family and friends has been an endearing member of the Chassidic Center and ROFEH following in the footsteps of his parents, aunts and uncles and many others in the Andler family.

Arnies spent his early years in Dorchester where his family always kept Judaism in the forefront of his life. In the 50’s Arnie’s family moved to Newton where they became very active in the Jewish Community and in Beth-El Hebrew School. To this day, Arnie is still an active board member, Chairman of the Hebrew School as well as serving on a variety of other committees. He is a staunch supporter of many other organizations and synagogues not only in Boston and its surrounding area, but all over the world.

Arnie is known in the Newton Community as the “Candy Man”, a title inherited from his father, Samuel, of Blessed Memory, and the more recent title of grandfather, a title of which he is exceptionally proud. His three beautiful granddaughters, Brooke, Paige, and Brianna can be seen accompanying him at Shabbos and Holiday Services much to his and everyone’s delight.

Arnie’s mother, Frieda, is still an active member of the Jewish Community and along with his father, Samuel, of Blessed Memory, have given him only the highest of standards to achieve, both religiously and morally. His mother-in-law, Lillian and late father-in-law, Maurice, of Blessed Memory have always been supportive and proud of his accomplishments. Arnie especially thanks his lovely wife Barbara of 40 years, their three children, Doug and wife Kim, Wendy and husband Joseph, and son Greg, and all his brothers and sisters for their understanding and support. Arnie emphasizes—“Without their love and guidance I would not be here today’. This award is humbly accepted in honor and memory of the Andler family and the continuous outstanding work of the Rebbe, the Chassidic Center, and ROFEH.

Mr. Speaker I consider it a very great honor that these important institutions are located in the Congressional district which I am privileged to serve, and I am very proud to have the chance to salute here the important work done by ROFEH and the New England Chassidic Center, and to join in paying tribute to their extremely distinguished honorees.

CONDEMNING BIGOTRY AND VIOLENCE AGAINST ARAB-AMERICANS, AMERICAN MUSLIMS, AND AMERICANS FROM SOUTH ASIA

SPEECH OF

HON. CONSTANCE A. MORELLA
OF MARYLAND
IN THE HOUSE OF REPRESENTATIVES

Friday, September 14, 2001

Mrs. MORELLA. Mr. Speaker, I rise in support of this resolution condemning bigotry and violence against Arab and Muslim-Americans. I also thank Congressman BONIOR for bringing this issue to the full attention of the House, because the incidents seem to be multiplying.

Americans are sharing many emotions. We are angry at our own vulnerability. We grieve for ourselves and the tremendous pain that thousands continue to endure. We watch, feeling helpless and unable to help those in need. Our reactions are frantic but, similar. They are similar because we are Americans.

We stand as a nation-founded on the ideals of freedom, liberty and compassion; a true democracy. Our citizenry shares the ability to accept and to desire to be accepted, for whom we choose to be, and what we choose to believe. We shall never cease to condemn the practice of intolerance, bigotry and discrimination.

This week we have shared a tragedy that must bring ALL Americans together. To facton
ourselfs now is a breakdown of our solidarity, which must be absolute. Racism and hate are characteristics of terrorists, not of individuals who treasure freedom. I urge my colleagues to join me in encouraging unity with our fellow Arab and Muslim Americans and all Americans, who share our commitment to freedom and democracy. Unity, not hatred, will provide our nation with clarity needed to prevail.

As Dr. Martin Luther King, Jr. said, "Through our scientific genius, we have made of this world a neighborhood; now, through our moral and spiritual development we must make of it a brotherhood [and sisterhood]... we must all live together; we must all be concerned about each other."

I hope all Americans can be concerned about each other at this pivotal time in our history.

HONORING ALLAN Y. JENDIAN

HON. GEORGE RADANOVICH
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Monday, September 24, 2001

Mr. RADANOVICH. Mr. Speaker, I rise today to honor Allan Y. Jendian for being elected Secretary/Treasurer of Chapter 97 of the National Treasury Employees Union (NTEU). The NTEU represents 6,000 employees of the Fresno Internal Revenue Service (IRS) Campus.

Jendian has been an IRS Revenue Agent for the past 34 years. During the last fiscal year, he was named "Employee of the Year" of the Compliance Division for his community service at Public Service Recognition ceremonies. Jendian also successfully coordinated the Fresno IRS Campus Combined Federal Campaign, which reached a record-breaking high of over $220,000.

Jendian, who has long been a highly active member of his community, is a Deacon at the Armenian Orthodox Church. He recently served as the Regional Chairman of the Pentecostal Visitation of the Cathols of All Armenians to the Central Valley. In addition, he serves on numerous Boards, including the Armenia Fund of the Western Region, the Diocesan Council of the Western Diocese and the Armenian Inter-Denominational Community Council. Furthermore, Jendian is an active member of the St. Paul Armenian Church, Armenian General Benevolent Union, Knights of Vartan and the Tekeyan Cultural Association, while serving on various committees within these organizations.

Mr. Speaker, I rise to congratulate Allan Y. Jendian for being elected Secretary/Treasurer of Chapter 97 of the National Treasury Employees Union. I urge my colleagues to join me in wishing Mr. Jendian many more years of continued success.

PERSONAL EXPLANATION

HON. DOUG BERUETER
OF NEBRASKA
IN THE HOUSE OF REPRESENTATIVES
Monday, September 24, 2001

Mr. BERUETER. Mr. Speaker, this Member was returning to his district for official business purposes the evening of September 21, 2001, and unfortunately missed several roll call votes on H.R. 2926, the Air Transportation Safety and System Stabilization Act. Had this Member been present, he would have voted in the following ways:

1. Rollcall Number 345—"aye" on the Rule (H. Res. 242) to allow same day consideration of legislation to preserve the continued viability of the United States air transportation system;
2. Rollcall Number 346—"aye" on the Rule (H. Res. 244) for H.R. 2926;
3. Rollcall Number 347—"no" on the motion to recommit with instructions; and
4. Rollcall Number 348—"aye" on final passage of H.R. 2926.

HONORING GEN. HENRY H. "HUGH" SHELTON, USA, FOR HIS EXCEPTIONAL SERVICE AS CHAIRMAN OF THE JOINT CHIEFS OF STAFF

HON. BENJAMIN A. GILMAN
OF IN THE HOUSE OF REPRESENTATIVES
Monday, September 24, 2001

Mr. GILMAN. Mr. Speaker, I am pleased to rise to recognize and commend the exceptional work of a distinguished American, a great friend and an exceptional soldier, General Henry H. "Hugh" Shelton, USA, the 14th Chairman of the Joint Chiefs of Staff. On October 1, 2001, General Shelton, concludes his second term as the principal military adviser to the President, the Secretary of Defense, and to the National Security Council.

General Shelton, known to his friends as "Hugh", was born in Tarboro, North Carolina, and grew up on his family's 1,000 acre farm in the tiny town of Speed, N.C., with its population of 100. He is the oldest of four children whose father was a farmer and sold farm equipment, and his mother was a local school teacher. General Shelton attended the Speed Baptist Church every Sunday where his mother was a Sunday school teacher. General Shelton attended the Speed Baptist Church every Sunday where his mother was a Sunday school teacher.

As a freshman of North Carolina State University Hugh Shelton joined the U.S. Army Reserve Officers' Training Corps (ROTC), where he was drawn to the discipline, the values, and the esprit d' corps of the U.S. Army and the precision of his unit's drills. After completing this two-year ROTC requirement after college, General Shelton went to work at Regal Textiles, a local business served with the 5th Special Forces Group, and with the 173rd Airborne Brigade. It was during his service in Vietnam he earned the Purple Heart.

September 24, 2001

General Shelton also commanded the 3rd Battalion, 60th Infantry Division at Ft. Lewis, Washington; serving as the assistant chief of staff for operations for the 9th Infantry Division at Ft. Drum, New York; as the Regional Chairman of the 101st Airborne Division at Ft. Bragg, North Carolina; served in Ft. Drum, NY as the 10th Mountain Division's Chief of Staff; as the assistant division commander of the 101st Airborne; and commanded the Special Operations Command.

A testament to General Shelton's exceptional leadership and of his commitment to our Nation is his meteoric rise through the Army's general officer ranks from brigadier general through general in 9 years! In 1987, as a brigadier general, General Shelton served for 2 years in the Joint Chiefs of Staff's Operations Directorate, followed by another 2-year assignment as the 101st Airborne Division's Assistant Division Commander, which included a 7-month deployment to the Gulf for Operations Desert Shield and Desert Storm. Following the Gulf War, General Shelton was promoted to the rank of major general and was assigned to command the 82nd Airborne Division at Ft. Bragg, N.C., and in 1993, was promoted to the rank of lieutenant general and assumed the command of the XVIII Airborne Corps.

While serving as Corps Commander, General Shelton commanded the Joint Task Force that conducted Operation Uphold Democracy in Haiti. In February 1996, General Shelton served as the Chief of the Special Operations Command in Tampa, Florida. As the Command's Chief, General Shelton became the overall commander of our Nation's elite fighting forces participation in joint operations.

True to his roots as a "soldier's soldier" and a leader who is "at home" being out in the field, I was not surprised to learn that General Shelton was in Namibia reviewing special operations forces when he was contacted by the Pentagon regarding his interest in being considered for the Chairman's position. Following his nomination by then President Bill Clinton, and confirmation by the Senate, General Shelton was promoted to the rank of General, the Chairman of the Joint Chiefs of Staff to improve the quality of life for our men and women serving in our armed forces.

General Shelton sought and received the largest across the board pay increases for the military in nearly two decades; pushed for greater salary increases for our mid-grade noncommissioned officers; and instituted a retirement reform package that reinstated benefits for those who entered our Nation's military service after 1986; implemented an enhanced housing allowance that gradually eliminated out of pocket expenses for service members living off their post or base; and advocated for medical health care reform that made health care more responsive to the needs of our military and their families, and included military retirees over the age of 65.

As part of Chairman Shelton's dynamic leadership, he established a U.S. Joint Forces Command to serve as the nucleus for Joint Experimentation and Joint Force Readiness; established a Joint Task Force-Civil Support to increase the military's ability to respond to U.S. homeland defense crises, and established a Joint Task Force-Computer Network Operations to develop and enhance...
measures and protocols to further safeguard our information networks. In his Joint Vision 2020, General Shelton set forth the goals and metrics for the future joint force. General Shelton profoundly believes that the defeat of terrorism requires the joint military services to work together to improve the interoperability of our services including: a Joint Warfighting Logistics initiative, a revision of Joint Professional Military Education Programs, development of a Global Information Grid, and an enhancement of the Joint Requirements Oversight Council's focus on joint warfighting. Additionally, General Shelton through his hard work, preparation, and personal presence, the Department of Defense realized an increase of 112 billion dollars for defense spending over the 5-year defense plan, as well as implemented new processes to carefully manage and account for resources in support of the overall National Security Strategy.

During General Shelton’s distinguished career he was awarded numerous awards and decorations, including: the Defense Distinguished Service Medal (with 2 oak leaf clusters), the Distinguished Service Medal, the Legion of Merit (with oak leaf cluster), the Bronze Star Medal with V device I (with three oak leaf clusters), and the Purple Heart, for injuries received during combat in Vietnam. General Shelton has also been awarded the Combat Infantryman Badge, Joint Chiefs of Staff Identification Badge, Air Assault Badge, Military Freefall Badge, Master Parachutist Badge, Pathfinder Badge, and the coveted Special Forces and Ranger Tabs, as well as numerous foreign awards and badges.

General Shelton’s leadership, drive and initiatives have proven time and time again that he was a superb choice to serve as our Nation’s top military adviser as we entered into the 21st Century. On September 11, 2001, our Nation suffered from the horrors of terrorist attacks in New York and in Washington, and I am confident that if it were not for the Joint Chiefs of Staff’s instantaneous and swift response to the attacks under the leadership of General Shelton working under our President, the Secretary of Defense, and the top-notch national security team, the damage and casualties we suffered may have been far greater.

General Shelton meritoriously served as our 14th Chairman of the Joint Chiefs of Staff with honor and distinction, during the past four years. While he may have served as the senior military officer and operated at the highest levels of government, General Shelton never lost touch with our men and women in uniform, and no matter how busy or over committed he is, he always makes the time to assist others. In August 2001, a member of my staff underwent two surgeries and General Shelton and his staff called Matt to see if there was anything that they could do—that is but one example of the true, caring professional that epitomizes General Shelton as a “soldier’s soldier.”

I also want to recognize and offer my sincere gratitude to General Shelton’s wife Carolyne for her dedicated work, tireless efforts, and support of our military families during her service to our Nation. General Shelton’s three sons Jonathan, Mark and Jeffrey deserve our thanks for supporting their father during his distinguished service.

Mr. Speaker, I urge my colleagues to join me in expressing our gratitude to General Henry H. “Hugh” Shelton, the 14th Chairman of the Joint Chiefs of Staff, a superb leader, a quiet diplomat—a true gentleman of the truest sense of the word, and a true friend of mine and of our great Nation!

I also want to recognize and offer my sincere gratitude to General Shelton’s wife Carolyne for her dedicated work, tireless efforts, and support of our military families during her service to our Nation. General Shelton’s three sons Jonathan, Jeffrey and Mark deserve our thanks for supporting their father during his distinguished service.

Mr. Speaker, I urge my colleagues to join me in expressing our gratitude to General Henry H. “Hugh” Shelton, the 14th Chairman of the Joint Chiefs of Staff, a superb leader, a quiet diplomat—a true gentleman of the truest sense of the word, and a true friend of mine and of our great Nation!
way to meet them. I urge my colleagues to join me in voting against this legislation.

AIR TRANSPORTATION SAFETY AND SYSTEM STABILIZATION ACT

SPEECH OF
HON. WILLIAM J. COYNE
OF PENNSYLVANIA
IN THE HOUSE OF REPRESENTATIVES
Friday, September 21, 2001

Mr. COYNE. Mr. Speaker, I rise today in opposition to H.R. 2926, the Air Transportation Safety and System Stabilization Act when it was considered by the House of Representatives on September 21, 2001.

This bill would provide $5 billion in direct aid to the airlines for losses incurred as a result of the government-ordered shut-down of the nation's air travel industry, as well as $10 billion in loan guarantees.

I oppose this legislation because I believe that it is incomplete. It fails to address several important and time-sensitive issues.

I oppose H.R. 2926 because this bill does nothing to help the tens of thousands of hard-working Americans who were laid off by the airlines and airline manufacturers in the wake of the terrorist attacks of September 11, 2001. 78,000 airline employees and 30,000 employees of aircraft manufacturers have been or are going to be laid off. The workers who lost their jobs as a result of these terrorist attacks are also victims of the terrorists. While they were fortunate enough not to have lost their lives, they have lost their livelihoods through no fault of their own.

The airline workers who have lost their jobs will need continued health insurance coverage and job search and possibly retraining assistance. Unemployment benefits don't last very long, so time is of the essence. And while these employees can continue their existing health insurance coverage under COBRA, they will be responsible for the full cost of the premiums, which a family with the chief breadwinner out of work can find it difficult if not impossible to afford. Consequently, I believe that the federal government should provide premium assistance to the affected families.

This bill should contain provisions to help these unemployed individuals and their families. I think that it is unacceptable that Congress will act swiftly to help the airline companies while ignoring the injured employees of those companies. It is even more unacceptable in light of the fact that multi-billion dollar severance packages are available to the Presidents and CEOs of the major airlines.

In addition, I oppose this legislation because it does nothing more than express the concern of the terrorist attacks on the airlines. I believe that improving security in airports and on airplanes should be our first and highest priority. I am convinced that airport security can no longer be left to the airlines. Now that terrorist attacks on airliners have become a major national security threat, I support the assumption of responsibility for airport security.

Finally, I am concerned that the bill does not adequately address the liability issue. I believe that a little more time should be taken to think through the liability issue and come up with a more equitable, comprehensive solution.

Mr. Speaker, I believe that these short-comings should be addressed before the House passes H.R. 2926. Consequently, I urge my colleagues to join me in supporting the motion to recommit and in opposing this legislation in its current form. Thank you, Mr. Speaker.

THE FRIENDS OF CHICKAMAUGA & CHATTANOOGA NATIONAL MILITARY PARK

HON. ZACH WAMP
OF TENNESSEE
IN THE HOUSE OF REPRESENTATIVES
Monday, September 24, 2001

Mr. WAMP. Mr. Speaker, I would like to commend the work of a very special group of people, the Friends of Chickamauga & Chattanooga National Military Park as the country's first national military battlefield park. Those petitioning for its establishment were veterans of both sides who came together in a spirit of reunion and brotherhood to memorialize the hills and fields where their brothers had fought and died.

What is now known as the Chickamauga Battlefield is bisected by a two-lane portion of U.S. Highway 27, a major north-south artery extending from Michigan to Florida. Over the years, heavy commercial and commuter traffic has created a threat to the cultural, historical and abundant natural resources in the national park.

On December 24, 1987, Public Law 100–211 was enacted to authorize the relocation of a 5.7 mile section of U.S. Highway 27. This new section of road, on the western perimeter of the Chickamauga Battlefield, will be officially dedicated on October 12, 2001. Its successful completion is the result of a partnership among the Eastern Federal Lands Highway Division of the Federal Highway Administration, Department of Transportation; the National Park Service, Department of Interior; and the Georgia Department of Transportation.

In honor of this accomplishment, Friends of the Park is presenting a weekend of activities and educational programming and fundraising. I applaud their effort and hard work to protect and preserve this land. Their dedicated membership assures continued support for the protection of the Chickamauga & Chattanooga National Military Park for years to come.

TRIBUTE TO TROOPER BOBBY KINTZEL

HON. SHELLEY BERKLEY
OF NEVADA
IN THE HOUSE OF REPRESENTATIVES
Monday, September 24, 2001

Ms. BERKLEY. Mr. Speaker, I rise today to recognize a truly outstanding individual from Nevada. Trooper Bobby Kintzel of the Nevada Highway Patrol is a six-year highway patrolman, Persian Gulf War veteran, and a Valley High School graduate. Several months ago, Trooper Kintzel was laying tire-piercing spikes across the highway to end a 40-minute high speed chase when a fleeing sport utility vehicle, driven by an escaping murder suspect, purposely struck him at an estimated speed of 90 mph. Trooper Kintzel suffered a fractured pelvis and skull, a severe brain injury, and internal bleeding. A few days later, surgeons removed a portion of his brain that had been irreversibly damaged. The family was devastated and are facing an uncertain future. Trooper Kintzel has recently begun using head and hand signals to communicate, and has had a throat operation to help him speak. Trooper Kintzel's plight has triggered sympathy from fellow law enforcement officers across the United States, as well as in Europe and Australia. More than a thousand well wishes have left encouraging messages for Trooper Kintzel, and on Sunday, September 30, 2001, the City of Las Vegas, and Clark County, Nevada will be honoring the Nevada State Trooper by proclaiming "Trooper Bobby Kintzel Day."

Mr. Speaker, it gives me great pleasure to recognize Trooper Bobby Kintzel before the Congress today. I call upon my colleagues to join me in honoring this special man for his bravery and courage in the line of duty.

IN RECOGNITION OF MR. CARL E. SWEARINGEN UPON HIS RETIREMENT FROM THE NATIONAL BOARD OF ADVISORS FOR THE MUSEUM OF AVIATION IN WARNER ROBINS, GEORGIA

HON. SAXBY CHAMBLISS
OF GEORGIA
IN THE HOUSE OF REPRESENTATIVES
Monday, September 24, 2001

Mr. CHAMBLISS. Mr. Speaker, I want to pay tribute to Mr. Carl Swearingen upon his retirement as the Chairman of the National Board of Advisors established for the Museum of Aviation in Warner Robins, Georgia.

Carl is the kind of man that strives to achieve the maximum of his ability. Following his service in the U.S. Air Force, he began his telephone career with BellSouth in 1972. With increasing responsibility in 1977 he became the general public relations manager for Georgia. By 1985 Carl was appointed assistant vice-president for public affairs in Charlotte, N.C. Four years later in 1989, he was promoted to the noted position of BeltSouth's vice-president of Northern Communications in Georgia. He was elected a corporate officer and promoted to his current position Senior Vice President, Corporate
Compliance and Corporate Secretary from BellSouth Corporation of Georgia in June 1998. He exemplifies strong character, leadership, fine management skills, and a dedication to improving education and his local community. Each of these qualities are demonstrated through the position he holds on several boards including the University of Georgia Foundation, Berry College, American Cancer Society of Georgia, Partnership for Excellence in Education, and Georgia Industry Trade and Tourism.

We hate to see him retire from his position as Chairman of the National Board of Advisors established for the Museum of Aviation in Warner Robins, Georgia where he has served since 1993. He and his wife have personally donated their time, money, and hard work to guarantee the educational programs offered by the museum have grown to reach 62,000 children a year. He has been responsible for raising millions of dollars from corporations and foundations throughout the country to benefit the museum. His leadership has been vital in the expansion and success of the museum and the educational programs associated with it. He is now heading a campaign called Century 2000 The Next Generation to raise $100 million for the expansion of the museum and its programs.

Setting high standards, hard work and dedication have ensured his continued success. We all appreciate his service to the industry, the Museum of Aviation, and the 8th District of Georgia. He is a spectacular example of a fine businessman, family man, and role model for people of all ages. I wish him all the best in his retirement and continued success in all his future endeavors.

"THE KING OF VIBES"
HON. JOHN CONYERS, JR.
OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES
Monday, September 24, 2001

Mr. CONYERS. Mr. Speaker, as the Dean of the Congressional Black Caucus, and chairman of its annual Jazz Issue Forum and Concert, I rise to call to this body’s attention the achievements of a distinguished American, Mr. Lionel Hampton. At the age of 92, he continues a career that has brought him international acclaim as a musician, composer, and bandleader. I am extremely honored that he will be my guest here in Washington, DC, on Thursday, September 27, 2001, during the Congressional Black Caucus Foundation’s Annual Legislative Conference. That evening, my colleagues and I will have the opportunity to thank him for the great pleasure that his life’s work has brought to us, and to millions across this nation and around the world.

The Congressional Black Caucus is not alone this year in recognizing the magnificence of what Lionel Hampton has accomplished. On January 31, 2001, the Smithsonian Institution’s National Museum of American History declared “Hamp’s” vibraphone to its collection of “national treasures.” In addition, on February 22, 2001, the University of Idaho dedicated the Lionel Hampton Center for the Study and Performance of Jazz. The University, however, did not just discover and acknowledge Lionel Hampton’s genius, it did so many years ago by launching the Lionel Hampton Jazz Festival in 1984. It reaffirmed its reverence of Hampton in 1987 by establishing the Lionel Hampton School of Music; the first music school named in honor of a jazz musician.

Born April 12, 1909, in Louisville Kentucky, Lionel Hampton has for 70 years been a giant in the field of jazz. Many highlights of his career are noted in the following excerpts from a biography prepared by the University of Idaho:

Lionel Hampton began his phenomenal musical career at an early age when a student at the Holy Rosary Academy in Kenosha, Wisconsin, where he studied under the strict supervision of the Dominican Sisters. His first instruments was a set of drums and his idol during these early years was drummer Jimmy Bertrand whose records he treasured. Louis Armstrong soon became a major influence in Hamps youth. It was in 1930 that Arm- strong hired him to appear, on the drums, at a Los Angeles night club engagement. Louis was so impressed with Hamp’s talents he invited him to join his big band for a recording session. During the session break, Armstrong led young Hampton to a set of vibes and asked if he knew how to play them. Lionel, who was well schooled in his keyboard studies, picked up the mallets and played. The first tune cut that day, “Memories of You,” (with Lionel on vibes) became a tremendous hit and has remained a classic throughout the years.

In 1936, Benny Goodman asked Lionel to join his small group, featuring Goodman, Teddy Wilson on piano, and Gene Krupa on drums. They immediately became the legendary Benny Goodman Quartet. Musical history was being made, both for the brilliant music produced, and because they were the first racially integrated group of jazz musicians. The Swing Era had begun. “Moonlight,” “Dinah,” and “Vibraphone Blues” were immediate hits and will always remain classics in the jazz annals. Hampton formed his own band in the early 1940’s. “Sunny Side of the Street,” “Goodnight Amos,” “Central Avenue Breakdown,” his signature tune, “Flying Home,” and “Hamp’s Boogie-Woogie” all became top-of-the-chart best-sellers upon release and the name Lionel Hampton became world famous overnight.

The Lionel Hampton Orchestra had a phenomenal array of sidemen. Among those who got their start with Hamp were: Quincy Jones, Wes Montgomery, Clark Terry, Cat Anderson, Emie Royal, Joe Newman and Fats Navarro. Among Lionel’s proteges were singers Dinah Washington, Joe Williams, Betty Carter and Aretha Franklin. Over the years, jazz giant Hampton has received innumerable prestigious awards, which keep coming to the distinguished musical master. Among them: the lifetime achievement award, bestowed by Presidents Eisenhower and Nixon, the Papal Medal from Pope Paul I, Sixteen Honorary Doctorates, and in 1992 the highly esteemed Kennedy Center Honors Award, in which he shared the musical distinction with Melisio Rastropovich.

Also a celebrated composer, Hamp’s original ballad, “Midnight Sun” (with Johnny Mercer and Sonny Burke) has become a beloved classic in American Jazz and popular music. His talent in the symphonic field is highly respected. Two major symphonic works, “King David Suite” and “Blues Suite” have been performed often by leading orchestras throughout the world.

Despite the rigors of his hectic calendar, Hampton continues to amaze those in the music business with the care and time he devotes to many public service efforts. A “dream” of his would be to aid in the creation of a university in Uptown New York “…where young Black kids can learn to be Doctors, Lawyers, IBM technicians, and, maybe even musicians.”

Mr. Speaker, Lionel Hampton has established himself one of our nation’s greatest cultural heroes and ambassadors. Therefore, I urge all Members to join me in paying him this well deserved tribute.

STOP THE VIOLENCE AGAINST SIKHS

HON. EDOLOPHUS TOWNS
OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES
Monday, September 24, 2001

Mr. TOWNS. Mr. Speaker, I was distressed to hear that on Saturday, September 15, a Sikh named Balbir Singh Sodhi, who owned a gas station in Mesa, Arizona, was murdered at his place of business. It appears that he was killed because of his turban and beard, which are required by the Sikh religion. Apparently, his killer thought that Mr. Sodhi was a follower of Osama bin Laden.

This was just one of well over 100 acts of harassment or violence against Sikhs in the week since the terrorist bombings of the Pentagon and the World Trade Center. A list of these acts can be found by visiting http://www.sikh.org/hatecrime.

This past Tuesday, just one week after the terrorists carried out their brutal acts, the Council of Khalistan held a press conference at the National Press Club to denounce these crimes against Sikhs and other minorities. Dr. Gurmit Singh Aulakh, the President of the Council of Khalistan, made some excellent remarks. He called on the Attorney General to investigate and called on the victims of these crimes to contact their local prosecutors and police. At this time, I would like to insert Dr. Aulakh’s remarks into the RECORD so that we can all have a better understanding of this problem.

REMARKS OF DR. GURMIT SINGH AULAKH

Ladies and Gentlemen of the Media: Thank you for coming today. I want to talk to you about a very important issue. Then I will be open-for questions. Sikh Americans, Muslim Americans, Christian Americans, our neighbors and countrymen, are being harassed and acts of violence are being committed against them merely because of their religious or ethnic heritage. All Americans should join together to condemn these cowardly acts.

On behalf of the 2-1/2 million strong Sikh Nation and more than 500,000 Sikhs in the United States, I strongly condemn these acts of violence. I condemn the violence against Muslim Americans and I condemn the attacks on Sikh Americans. There have been
over 100 acts of harassment or violence against Sikhs. A Sikh man was murdered in Mesa, Arizona, by a brick thrown through a window over the weekend. Balbir Singh Sohi, who owned a Chevron gasoline station, was shot to death at his business. Some time later, the same gunman shot a Lebanese gasoline station owner. We demand that the man who killed Balbir Singh Sohi be prosecuted and punished to the fullest extent of the law.

Attackers through the window of a local Sikh, Ranjit Singh of Fairfax, Virginia. Another local Sikh, Sher Singh, was arrested by police in Rhode Island after he attacked, but was released the next day. A couple of young Sikhs were attacked in Brooklyn, New York. Sikh businesses have been stoned and cars have been burned. An Egyptian Christian man was shot in San Gabriel, California. A Pakistani Muslim who owned a grocery store was shot in Dallas.

What a group of terrorists did Tuesday was a terrible crime and an act of war against America, but it was done by a group of individuals who are no more typical of their religion than Timothy McVeigh is typical of Christians. Faithful Sikhs and their religious communities are being targeted for violence, and this is unacceptable, especially in America.

Sikhs are not Muslims. We are not Hindus. Like Hinduism, Christianity, Islam, and any other religion, we are an independent, monotheistic religion with our own symbols. Among them are a turban and beard. That does not make us followers or associates of Osama bin Laden, yet we are being targeted for violence in the wake of the atrocities last Tuesday.

We appreciate the support of Congressmen Dan Burton, Edolphus Towns, and all our other friends in the Congress who condemned the acts of violence against the Sikhs and other minorities. Their statements in the Congressional Record are available here. I call on Attorney General John Ashcroft to look into this nationwide pattern of violence and I urge the victims of these attacks to call their police departments and their local politicians. This is the best way to ensure that those who perpetrate this violence are appropriately punished. Let’s not let America descend to the level of those who attacked it.

STATEMENT OF CONGRESSMAN

ALCEE L. HASTINGS

INTRODUCING THE DISPLACED WORKERS RELIEF ACT OF 2001

HON. ALCEE L. HASTINGS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 24, 2001

Mr. HASTINGS of Florida, Mr. Speaker, earlier today I received a call from George Mador. Mr. Mador is the President of L & M Aircraft Services and he called my office looking for help. L & M is a small aircraft maintenance company that services charter airlines transporting passengers to and from the Bahamas. L & M only has seven employees and many of them have been with the company for a majority of the company’s existence.

However, in the wake of the terrorist attacks on September 11, L & M is now facing imminent bankruptcy and its seven employees, therefore, are facing certain unemployment. George told me that he did not want to get out of bed this morning because of the reality that he will have to lay off at least half of his staff by the end of the week as a result of zero income in the past two weeks. Last week’s paycheck left George and his employees without a paycheck and L & M $500 in the hole. With no apparent income coming in this week, the future of L & M Airport Services and its seven employees are undoubtedly in jeopardy.

At the three international airports serving my district, Ft. Lauderdale/Hollywood, Palm Beach, and Miami, there are more than 300 small businesses just like L & M that are now on the verge of bankruptcy as a result of loss of income. In Miami-Dade County, the airline and aviation industry is the County’s primary economic engine, representing more than nine percent of the County’s total workforce. Thousands of employees have already or will lose their jobs, and hundreds of business will go under nationwide if Congress does not act today.

To help remedy some of the future hardships sure to be faced by hundreds of thousands of people in the coming days, weeks, and months, I am proud to introduce the Displaced Workers Relief Act of 2001. My bill serves as the companion bill to S. 1454, which was introduced in the Senate by Senator JEAN CARNAHAN of Missouri. It provides those who have lost their jobs in the wake of the attacks of September 11 with the ability to pay rent, put food on their table, buy school books for their children, while trying to live their lives even in these difficult times.

My bill extends unemployment benefits from 26 to 78 weeks, provides 26 weeks of unemployment insurance benefits for workers who would not otherwise qualify, extends Job Training Benefits from 52 to 78 weeks, and provides up to 78 weeks of federally subsidized COBRA premiums; and provides optional temporary Medicaid coverage for up to eighteen months to those workers without COBRA coverage.

Under the Displaced Workers Relief Act of 2001, all airline and airport workers, including transit workers, as well as employees who work for airline suppliers, such as service employees and plane manufacturers, will all be eligible to receive these needed benefits.

In the past two weeks, more than 100,000 airline employees have been laid off, and airline analysts suggest that as many as 250,000 additional layoffs in airline-related industries may shortly follow. Everywhere I look in this country, industries and business are hurting. Hotels are reporting record lows in occupancy levels; travel agencies are losing customers by the dozen; the cruise industry has come to a virtual standstill; and service industries dependent upon airlines are closing their doors as we speak. As these businesses suffer, Mr. Speaker, so do their employees, many of whom have no other means of support.

Indeed, Mr. Speaker, last Friday evening, Congress missed a golden opportunity to assist American workers affected by this tragedy. Now, it is time for this body to recognize the responsibility it has to these hard working Americans and provide them with relief. The Displaced Workers Relief Act of 2001 is the vehicle which Congress can use to help these workers at a time that they need it most. For if we fail to act today, then we are neglecting the responsibility that we have to serve the very same people who put us here to represent them. It is essential that Congress move swiftly and pass this legislation immediately.

PERSONAL EXPLANATION

HON. VITO FOSSELLA

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, September 24, 2001

Mr. FOSSELLA, Mr. Speaker, on rollcall No. 348, I was inadvertently detained. Had I been present, I would have voted "yes."

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Tuesday, September 25, 2001 may be found in the Daily Digest of today’s RECORD.

MEETINGS SCHEDULED

SEPTEMBER 26

9 a.m.

Agriculture, Nutrition, and Forestry

To hold hearings to examine Administration's perspective with regard to the new federal farm bill; immediately following, a hearing on the nominations of Elsa A. Murano, of Texas, to be Under Secretary for Food Safety, and Edward R. McPherson, of Texas, to be Chief Financial Officer, both of Department of Agriculture.

SD–106

9:30 a.m.

Banking, Housing, and Urban Affairs

To hold oversight hearings to examine the Administration’s national money laundering strategy for 2001.

SD–538

Energy and Natural Resources

To hold closed hearings to examine critical energy infrastructure security and the energy industry’s response to the events of September 11, 2001.

Room to be announced

10 a.m.

Health, Education, Labor, and Pensions

To hold hearings to examine psychological trauma and terrorism, focusing
on assurance that Americans receive the support they need.

OCTOBER 2
9:30 a.m.
Energy and Natural Resources
To hold hearings to examine the status of proposals for the transportation of natural gas from Alaska to markets in the lower forty-eight states and on proposed legislation that may be required to expedite the construction of a pipeline from Alaska.

SD–366

Commerce, Science, and Transportation
Surface Transportation and Merchant Marine Subcommittee
To hold hearings to examine surface transportation security issues.

SR–253

OCTOBER 4
2:30 p.m.
Energy and Natural Resources
Public Lands and Forests Subcommittee
To hold oversight hearings to examine the interaction of old-growth forest protection initiatives and national forest policy.

SD–366

Governmental Affairs
To resume hearings to examine the security of critical governmental infrastructure.

SD–342

POSTPONEMENTS

SEPTEMBER 26
10 a.m.
Health, Education, Labor, and Pensions
Business meeting to consider pending calendar business.

SD–430

2:30 p.m.
Energy and Natural Resources
Public Lands and Forests Subcommittee
To hold oversight hearings to examine the science and implementation of the Northwest Forest Plan including its effect on species restoration and timber availability.

SD–366
