PN1140 Foreign Service nominations (23) beginning Keith E. Brown, and ending Olivier C. Carduner, which nominations were received by the Senate and appeared in the Congressional Record of October 16, 2001.

LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will now return to legislative session.

UNANIMOUS CONSENT AGREEMENT—CONFERENCE REPORT ACCOMPANYING S. 1447

Mr. DASCHLE. Mr. President, I ask unanimous consent that the majority leader, following consultation with the Republican leader, may proceed to the conference report to accompany S. 1447, the Aviation Security Act; that it be considered under the following limitations: 90 minutes for debate, with the time equally divided and controlled between the chairman and ranking member of the Commerce Committee or their designees; that upon the use or yielding back of time, the conference report be adopted, and the motion to reconsider be laid upon the table, with no further intervening action or debate.

Mr. BURNS. Reserving the right to object, and I will not object, is that S. 1447?

Mr. DASCHLE. That is correct.

Mr. BURNS. Reserving the right to object, and I will not object, there are some of us who did not and will not sign the conference report. I will make my statement this evening, but we have not seen the bill and will not see it until the morning. I think it is asking a little bit of those of us who have a responsibility to the aviation industry and the security of this country to not see that legislation before it passes. We understand there are some dogs and cats in there and some things to which we cannot agree.

So I want to put myself on record that I will oppose this piece of legislation, but I will not hold it up.

I thank the leader.

Mr. DASCHLE. I thank the Senator from Montana.

Mr. MCCAIN. If the majority leader will yield to me for a second, I can inform the Senator from Montana that I understand his concerns. A copy of the bill is available at this time in room SD-512.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. DASCHLE. Mr. President, with that understanding, I inform all Senators there will be no more rollcall votes tonight, nor do we anticipate now that there will be any rollcall votes tomorrow.

We have a number of other matters we will take into account during wrap-up. I will begin with one, and there will be others that will be addressed. All the matters, of course, in wrap-up will be offered in consultation with the Republican leader and have his consent.

HOMESTAKE MINE CONVEYANCE ACT OF 2001

Mr. DASCHLE. Mr. President, I ask unanimous consent that the Environment and Public Works Committee be discharged from further consideration of S. 1389, and the Senate proceed to its consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 1389) to provide for the conveyance of certain real property in South Dakota to the State of South Dakota with indemnification by the United States Government, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 2161

(Purpose: To provide a complete substitute)

Mr. DASCHLE. Mr. President, I have an amendment at the desk, and I ask unanimous consent that the amendment be considered and agreed to, and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 2161) was agreed to.

(The text of the amendment is printed in today's RECORD under "Amendments Submitted.")

Mr. DASCHLE. Mr. President, I am delighted that the Senate has approved a modified version of S. 1389, the Homestake Mine Conveyance Act of 2001.

This important legislation will enable the construction of a new, world-class scientific research facility deep in the Homestake Mine in Lead, SD. Not only will this facility create an opportunity for critical breakthroughs in physics and other fields, it will provide unprecedented new economic and educational opportunities for South Dakota.

Just over a year ago, the Homestake Mining Company announced that it intended to close its 125-year-old gold mine in Lead, SD, at the end of 2001. This historic mine has been a central part of the economy of the Black Hills for over a century, and the closure of the mine was expected to present a significant economic blow to the community.

In the wake of this announcement, you can imagine the surprise of South Dakotans to discover that a committee of prominent scientists viewed the closure of the mine as an unprecedented new opportunity to establish a National Underground Science Laboratory in the United States. Because of the extraordinary depth of the mine and its extensive existing infrastructure, they found that the mine would be an ideal location for research into neutrinos, tiny particles that can only be detected deep underground where thousands of feet of rock block out other cosmic radiation.
