

of respect, and I commend the gentleman for introducing this resolution.

Mr. Speaker, I have no further speakers, and I yield back the balance of my time.

Mrs. JO ANN DAVIS of Virginia. Mr. Speaker, I am pleased to yield as much time as he may consume to the gentleman from Louisiana (Mr. MCCRERY).

Mr. MCCRERY. Mr. Speaker, I thank the gentlewoman from Virginia (Mrs. JO ANN DAVIS) for yielding me the time.

Mr. Speaker, I thank the gentlewoman from Virginia (Mrs. JO ANN DAVIS) and the gentleman from Illinois (Mr. DAVIS) for their eloquent statements on behalf of the support of this resolution for the Year of the Rose.

Mr. Speaker, the American Rose Society is headquartered in my hometown of Shreveport, Louisiana. The American Rose Society has designated 2002 as the Year of the Rose, and at a time in which images of violence and war are a constant reminder of the capacity of man to be cruel to its fellow man, the rose stands as a reminder of the beauty and the fragility of life.

It is my hope, Mr. Speaker, that this resolution will call public attention to the worthy goals of the Year of the Rose, and I urge its adoption.

Mrs. JO ANN DAVIS of Virginia. Mr. Speaker, having no other speakers, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Virginia (Mrs. JO ANN DAVIS) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 292.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds of those present have voted in the affirmative.

Mr. DAVIS of Illinois. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8, rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn.

REPORT ON NATION'S ACHIEVEMENTS IN AERONAUTICS AND SPACE—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, without objection, referred to the Committee on Science:

To the Congress of the United States:

I am pleased to transmit this report on the Nation's achievements in aeronautics and space during Fiscal Year (FY) 2000, as required under section 206 of the National Aeronautics and Space Act of 1958, as amended (42 U.S.C. 2476). Aeronautics and space activities involved 11 contributing departments and agencies of the Federal Government, and the results of their ongoing research and development affect the Nation in many ways.

A wide variety of aeronautics and space developments took place during FY 2000. The National Aeronautic and Space Administration (NASA) successfully completed four Space shuttle flights. In terms of robotic space flights, there were 24 U.S. expendable launch vehicle launches in FY 2000. Five of these launches were NASA-managed missions, nine were Department of Defense (DoD)-managed missions, and eight were FAA-licensed commercial launches. In addition, NASA flew one payload as a secondary payload on one of the FAA-licensed commercial launches. This year, two new launch vehicles debuted: the Lockheed Martin Atlas IIIA and the Boeing Delta III, each serving as transition vehicles leading the way for the new generation of evolved expendable launch vehicles.

Scientists also made some dramatic new discoveries in various space-related fields such as space science, Earth science and remote sensing, and life and microgravity science. In aerospace, achievements included the demonstration of technologies that will reduce the environmental impact of aircraft operations, reinvigorate the general aviation industry, improve the safety and efficiency of U.S. commercial airlines and air traffic control system, and reduce the future cost of access to space.

The United States also entered into many new agreements for cooperation with its international partners around the world in many areas of space activity.

Thus, FY 2000 was a very successful one for U.S. aeronautics and space programs. Efforts in these areas have contributed significantly to the Nation's scientific and technical knowledge, international cooperation, a healthier environment, and a more competitive economy.

GEORGE W. BUSH.
THE WHITE HOUSE, December 19, 2001.
