

In this regard, I am referring to harmful non-native species, invasive species; an issue which is not yet fully in the public's eye. Even if a person has little concern with native fish and wildlife and the habitats they live in, even if that person resides in a city where the major wildlife is found only in alleys, the fact remains that invasive species are a drain on our economy. Included in the \$137 billion figure I referred to earlier are the negative impacts on agricultural production, control costs, and costs in lost land and water resources and uses. This number is too large to ignore, particularly when trends suggest that the number will only go up over time.

For example, my home State of West Virginia is a relatively small in terms of land mass, but here are only a few of the impacts felt from harmful nonnative species:

The balsam fir tree, on the state list of rare plants, is being infected by a small insect, the balsam wooly adelgid, which sucks the sap, killing the tree. This tree is a unique species for the State, and unless drastic measures are taken, it will be completely wiped out by this insect.

Shale barrens, one of the most unique natural plant habitats in West Virginia, have been invaded by many non-native species over the years, but two of the most problematic are spotted knapweed and barren brome grass. These plants out-compete native species and slowly eradicate them from these unique ecosystems.

In a continuation of the plight of the Great Lakes, the zebra mussel has found its way to West Virginia. So far, the zebra mussel is responsible for the federal listing of five species of mussel in the Ohio River, not to mention economic damage from its clogging of water pipes.

These are only three of the over 150 harmful non-natives that currently affect West Virginia. In my view, we have an obligation to our native species to protect, conserve and restore them from the introduction of harmful invasive species.

For these reasons, today I along with the gentleman from Maryland, WAYNE GILCHREST, and the gentleman from Guam, ROBERT UNDERWOOD, are introducing a bill to protect, conserve and restore our native fish, wildlife and their habitats by addressing the threat of these space invaders, harmful invasive species. Maryland, for example, has a nutria problem, too many nutria, and the veined rapa whelk, both of which I know Mr. GILCHREST has great concern with. Mr. UNDERWOOD has chosen to be an original cosponsor because of the enormous impacts the brown tree snake has on Guam, its power lines and native bird species.

The Species Protection and Conservation of the Environment Act, or SPACE Act, would provide the missing link in existing efforts to combat the pernicious and destructive space invasion of some of our most valuable natural areas by:

1. Providing incentive money to States to write State-wide assessments to study exactly where their native species are being threatened by harmful nonnative species;
2. Providing incentives for projects to implement the State assessments;
3. Encouraging the formation of partnerships among the Federal government and non-Federal land and water owners and managers;

4. Addressing harmful nonnative species' migratory pathways;

5. Implementing specific recommendations of the National Strategy written by the National Invasive Species Council;

6. Creating a Federal-level rapid response capability; and

7. Tasking the National Invasive Species Council to develop standard monitoring requirements for projects combating harmful nonnative species.

Using a two-pronged approach, the SPACE Act would provide resources to States and U.S. territories, including Indian Tribes, to address real problems and real solutions. The first prong is a grant program to provide resources to States, territories and tribes to develop assessments to control their harmful nonnative species. Participation in the program would be voluntary, but once this bill becomes law we believe that all States, territories and tribes will want to take advantage of this opportunity and the benefits it can bring to them, aiding them in the organization, prioritizing and specific actions with regards to their harmful non-native species problems and allowing them to apply for what the bill refers to as Aldo Leopold Grants. Technical assistance would also be available to the States, territories and tribes through the National Invasive Species Council to ensure that all assessments would be effective and include the recommendations of the Council's overarching Management Plan.

The second prong is implementing the assessments through what would be known as Aldo Leopold Native Heritage Grant Program, which would be available on a 75% federal, 25% non-federal cost sharing basis. Through a variety of partnerships land and water owners and managers would be eligible to receive grants administered by the Secretary of the Interior. The approved assessment would serve as a guide for developing projects with partners, including Department of Interior and Forest Service lands, working together to control or eradicate harmful nonnative species on the lands and waters under their governance. With the assessment as the foundation for all projects, this legislation would encourage addressing all problems at the ecosystem level and including all land and water owners. To support the use of innovative methods and technologies, grants would be available on an 85% federal, 15% non-federal basis if new techniques are used. Reporting and monitoring requirements are mandated by the grant, allowing for the creation of a database which would track the methods and results of each project, both over the short and long term.

To facilitate and demonstrate how these relationships between federal and other public and private lands and waters should work, the SPACE Act would also create a demonstration program with the National Wildlife Refuge System. This program would implement cooperative projects to be carried out on lands and waters of the National Wildlife Refuge System and their adjacent neighbors, demonstrating cooperation and helping to address the operations and maintenance backlog of the Refuge System. Because this is a demonstration project, the non-Federal lands involved would not have to have a State assessment yet in

place. These projects would be the first to operate under this Act, and the results would be reported to the Council for inclusion in a database.

Finally, this legislation would create a rapid response capability under the National Invasive Species Council. The Governor of a State experiencing a sudden invasion of a harmful nonnative species may apply to the Secretary for monetary assistance to eradicate the species or immediately control it. All assistance would be given by the Secretary in consultation with the Council, and each rapid response project would have the same monitoring and reporting requirements as an Aldo Leopold Grant project.

Mr. Speaker, while there are a number of initiatives already in place aimed at combating invasive species, there is a void in existing statute as no current law is designed to directly protect and conserve our native species from harmful non-native species at the federal or any other level. There are laws directly addressing harmful nonnative species, but mainly through prevention. These include the Non-indigenous Aquatic Nuisance Prevention and Control Act, the Alien Species Prevention and Enforcement Act, the Federal Plant Pest Act, the Plant Protection Act, and the Federal Noxious Weed Act.

In the development of this legislation, we have worked with a number of organizations including the Wildlife Management Institute, the National Wildlife Federation, Defenders of Wildlife, the National Audubon Society, the Aldo Leopold Foundation, the National Wildlife Refuge Association, the Izaak Walton League, the Wildlife Society, the American Fisheries Society and Trout Unlimited. Also consulted were the National Fish and Wildlife Foundation, the National Invasive Species Council, the Northeast Midwest Institute, the International Association of Fish and Wildlife Agencies, The Nature Conservancy, the Natural Resources Defense Council, the American Birding Association and the Wildlife Conservation Society.

I look forward to working with all interested parties as well as the members of the Resources Committee to facilitate the enactment of this bill.

HONORING REVEREND WILLIAM H.
HARGRAVE

HON. STEVEN R. ROTHMAN

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 20, 2001

Mr. ROTHMAN. Mr. Speaker, I rise today to pay tribute to a remarkable friend and spiritual leader—Reverend William Holt Hargrave. For more than 25 years, Reverend Hargrave served with distinction as the Pastor of the Ebenezer Baptist Church in Englewood, New Jersey. As a former Mayor of Englewood, I have had a wonderful opportunity to see him lead his congregation, and to experience his warmth and kindness firsthand.

The members of the Ebenezer Baptist Church are some of the most patriotic and spiritually uplifting people that I have ever had the pleasure of knowing. The congregation is

filled with decent, honest, God-loving people who have a tremendous sense of community. Certainly, Reverend Hargrave's leadership has had a tremendous impact on all of their lives.

As a voice of comfort and reason, Reverend Hargrave committed himself to the church and provided guidance and wisdom to those in his congregation and community. Anyone who has ever known Reverend Hargrave knows full well that his heart is filled with love, compassion, and faith. His presence always put everyone at ease.

I wish Reverend Hargrave and his family all the best. We all thank him for his service and commitment to the Ebenezer Baptist Church and all the people of the great and good city of Englewood.

COMMEMORATING THE CENTENNIAL ANNIVERSARY OF THE 4-H CLUB

HON. BILL SHUSTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 20, 2001

Mr. SHUSTER. Mr. Speaker, I rise today to honor the centennial anniversary of one of America's foremost youth organizations, the 4-H Club. In February, the 4-H Club will celebrate their centennial by holding a "National Conversation on Youth Development in the 21st Century," the results of which will be reported to the President and Congress.

Since its founding in 1902, the National 4-H Club has helped in the education and development of our nation's youth. While 4-H started agricultural in nature, it has since evolved to include a variety of different educational programs for children in rural as well as urban areas, ranging from environmental preservation to career exploration and workforce preparation.

I congratulate the 4-H Clubs of Pennsylvania on their commitment to our nation's leaders of tomorrow. The past 100 years have proven the necessity for the 4-H Club and other similar educational organizations, and I wish for their continued success for many years to come.

TRIBUTE TO DAN RAMIREZ

HON. SUE WILKINS MYRICK

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 20, 2001

Ms. MYRICK. Mr. Speaker, there are a lot of good things going on in our communities that you don't necessarily hear about in the news. Recently, a friend in Charlotte, Dan Ramirez, went above and beyond the call of duty to help a young man, dying of leukemia, get home to his family. Greyban Saenz, a 24 year old native of Honduras, wanted to be with his family. The Buddy Kemp Cancer Caring House in Charlotte contacted Dan the Monday before Thanksgiving to see if there was anything that he could do to help. Dan didn't think twice. He jumped right in to help find an affordable flight and someone to accompany

Greyban on that flight. He worked through Thanksgiving, and got Greyban a flight, met him at the airport, made sure he was safely on the plane, and he even translated the doctor's discharge papers' into Spanish. Dan did all this for a man he had only known for 5 days. Greyban flew home to his family the Saturday morning after Thanksgiving. Dan later said that as sick as Greyban was, he was animated and excited that morning. Glad to go home. I'm thankful for people like Dan Ramirez who go the extra mile to help someone in need. It's people like that make America strong.

TRIBUTE TO CREDIT UNIONS' ASSISTANCE TO AFFECTED BY FIGHT AGAINST TERRORISM

HON. WALTER B. JONES

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 20, 2001

Mr. JONES of North Carolina. Mr. Speaker, in the aftermath of the September 11 terrorist attacks, many of our financial institutions have gone the extra mile to be of assistance to those affected by the incidents and their aftermath.

I rise today to pay particular tribute to the CEOs and volunteer board members of North Carolina credit unions.

Representatives of those credit unions, and of the North Carolina Credit Union League and CUNA, recently made the trip to Washington to visit my office not long after September 11.

While they had thought of canceling the trip out of respect for the larger issues stemming from the tragedy, they instead came to offer their support to this Congress. They also pledged that their credit unions will remain committed to serving the changing financial needs of their members and the citizens of North Carolina during this period of economic uncertainty.

For example, Mr. Speaker, the 3rd District of North Carolina is home to three major military bases—Camp Lejeune, Cherry Point Marine Corps Air Station, and Seymour Johnson Air Force Base—all of which are served by a credit union. These credit union employees help military personnel and their families with the money challenges that they face during these difficult times, and have committed to safeguarding the financial well being of our service men and women deployed overseas.

For instance, the staff of First Flight Federal Credit Union in Havelock, NC, has been working with the base legal department at the Marine Corps Air Station at Cherry Point to ensure that family members have the appropriate authority to conduct financial transactions on behalf of the service member while they are deployed.

Another example is the Seymour Johnson Federal Credit Union in Goldsboro, NC, which has established a call center hotline to provide support and answer questions from family members whose spouses have been deployed.

Mr. Speaker, time does not permit me to list all the great things that these credit unions are doing to assist their members—both military

and civilian during these difficult economic times. But their efforts deserve our praise and our thanks.

I urge my colleagues to speak with the credit unions and other financial institutions in their own districts to learn about all the ways they are helping their customers during this time of need. Through the efforts these financial institutions, and others, we will not only weather this storm but we will be economically stronger for it.

REMARKS BY RABBI MICHAEL MILLER

HON. ANTHONY D. WEINER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 20, 2001

Mr. WEINER. Mr. Speaker, this past month, the Queens community of Belle Harbor was shaken by the crash of American Airlines flight 587. As many of you know, this neighborhood had already been hit particularly hard by the attacks of September 11, as dozens of Belle Harbor residents lost their lives to the attacks, many of them firefighters. A number of us have struggled to find the appropriate words to articulate our emotions during these times of unfathomable loss. At the memorial service for flight 587 the Sunday after the crash, Rabbi Michael Miller managed to find those words. I wanted to share his eloquence with my colleagues, and that is why I ask unanimous consent that these remarks be inserted into the RECORD. I hope that my colleagues will find them as comforting as inspiring as I have.

REMARKS AT A PRAYER SERVICE FOR THE VICTIMS OF THE CRASH OF AMERICAN AIRLINES #587, SUNDAY, NOVEMBER 18, 2001, 2:00 PM, RIIS PARK, QUEENS, NY

In our Jewish tradition it is proper to express appreciation to one's hosts. And it is within that spirit that I thank Mayor Giuliani for convening this service, and for his determined and compassionate leadership, along with Governor Pataki, Senators Schumer and Clinton, and Congressman Anthony Weiner during these difficult times.

[PSALM 121]

Last Monday morning, hundreds of people, men, women and children, the young and the old, woke up before dawn and rose from their beds. A trip was to be taken to the Dominican Republic.

In apartments, houses and hotel rooms last Monday morning, there was the predictable last minute rush. The checklist of things to take. Packing that extra shirt, a pair of stockings, a gift for family in Santo Domingo . . .

And, no doubt, last Monday morning, there was the presence of that anxiety which accompanies travel. Tickets. Passports. Would the car service come on time? Will we get to the airport with minutes to spare? Do we have too much baggage? Too little?

Inevitably, last Monday morning, or maybe it was last Sunday night, there was the farewell. Fathers, mothers; wives, husbands; sons, daughters; sisters, brothers; grandmothers, grandfathers; friends, lovers.

The farewell: a kiss; an embrace, A shake of the hand, or a wave. A "so long" over the phone, "have a good trip."

A farewell. But not a goodbye.
