

**EXTENSIONS OF REMARKS**

HONORING DR. MICHAEL DEBAKEY

**HON. KEN BENTSEN**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, March 8, 2001*

Mr. BENTSEN. Mr. Speaker, I rise to honor Dr. Michael DeBaKey on the occasion of the dedication of the Methodist DeBaKey Heart Center. For 50 years, Methodist has been the home of internationally acclaimed heart surgeon Dr. Michael DeBaKey, thereby attaining worldwide recognition for its state-of-the-art cardiovascular care. Dr. DeBaKey has been a pioneer of modern medicine, and has helped raise the standard of health care for all mankind. His list of accomplishments, from his innovations in open-heart surgery to his recent pioneering work in the field of telemedicine, is a catalog of many of the greatest accomplishments in the history of medicine.

Dr. DeBaKey serves as Chancellor Emeritus of Baylor College of Medicine, and is internationally recognized as the most famous heart surgeon in the world and a living legend. He is a senior attending surgeon at the Methodist Hospital, the largest hospital in the Texas Medical Center in my District. This prolific surgeon and humanitarian has performed more than 60,000 cardiovascular procedures and has trained thousands of surgeons who practice around the world. Dr. DeBaKey's name is affixed to a number of organizations, centers for learning, and projects devoted to medical education and health education for the general public. It is an honor to the Heart Center that the institution being dedicated on this occasion bears his name.

The Methodist DeBaKey Heart Center is a leader in the prevention, diagnosis, treatment, and research of heart disease. The Center has attracted world-renowned physicians who are continuing the ground-breaking work of Dr. DeBaKey and his associates, who developed many of the life-saving techniques at the Methodist Hospital. Annually, the Center performs more than 6,000 cardiac catheterizations, 2,500 angioplasties, 1,300 open heart surgeries, and has performed more than 425 heart transplants in the last 10 years. The Center is a joint effort between the Methodist Hospital and Baylor College of Medicine, which share the common goal of improving quality of life and satisfaction among heart patients.

While Dr. DeBaKey's life-saving inventions and trailblazing techniques have awed the medical community over the years, his most treasured accomplishments are the family bonds he and his wife Katrin have managed to maintain despite a rigorous schedule. He is close to his four grown sons and daughter, as well as to his own siblings.

Mr. Speaker, throughout his career, Dr. DeBaKey has distinguished himself as a spectacular surgeon and a caring humanitarian to

his patients. I commend him on his inspiring five decades of service to the Houston Medical community, and I look forward to the medical advances that will continue to emanate from the Methodist DeBaKey Heart Center.

**PERSONAL EXPLANATION**

**HON. MICHAEL G. OXLEY**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, March 8, 2001*

Mr. OXLEY. Mr. Speaker, I returned to Ohio yesterday afternoon for the funeral of former Ohio Governor James A. Rhodes, under whom I served as a member of the Ohio House of Representatives. Consequently, I was absent from the House floor during yesterday's rollcall votes on H. Con. Res. 31, H.R. 624, and H. Con. Res. 47. Had I been present, I would have voted "yea" on each of those bills.

**TRIBUTE TO ROGER FONTES**

**HON. DOUG OSE**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, March 8, 2001*

Mr. OSE. Mr. Speaker, today, all eyes are turned to California and the current electricity crisis. While there are many problems and many causes, it is important that we also take a moment to give credit to the individuals and entities that have helped meet our State's energy needs and helped chart a path out of this current crisis. Roger Fontes is one of those individuals.

For the past 13 years, Mr. Fontes has served as the Assistant General Manager of the Northern California Power Agency (NCPA), a joint action agency that serves the wholesale power needs of 15 public power systems, including the City of Gridley in my District. NCPA has been a shining star within the State, and Roger Fontes has played a critical role in that success. Under Roger's supervision, NCPA constructed geothermal, hydroelectric and gas-fired power plants to meet their communities' needs in a reliable and cost-effective fashion. In the midst of the current crisis, it is worth noting that these municipal utilities are islands of stability. Roger also over saw NCPA's legislative and regulatory programs, advancing sound energy policies for the consumers and businesses they serve.

Prior to joining NCPA, Mr. Fontes was responsible for state-wide generation and transmission planning at the California Energy Commission. He also worked at the Los Angeles Department of Environmental Quality and the Los Angeles Department of Water and Power.

While Roger is retiring from NCPA, he is not leaving the field. Roger and his family are moving to Orlando, where he will be the general manager of the Florida Municipal Power Agency. We will miss him in California, but are heartened by the knowledge that his sound public policy counsel will continue to be available. I ask my colleagues to join me in thanking Roger Fontes for his service to California electricity consumers and to wish him and his family the best in his future endeavors.

**LOS ANGELES SCHOOL OF MAKE-UP**

**HON. GARY G. MILLER**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, March 8, 2001*

Mr. GARY MILLER of California. Mr. Speaker, it is with great pleasure that I rise to celebrate the Los Angeles School of Make-Up and their contributions to our community. The Los Angeles School of Make-Up, also known as the Make-Up Designory or MUD, has a strong reputation of supporting education and human rights throughout Southern California.

The founders of the Make-Up Designory Tate P. Holland, John R. Bailey, and Karl E. Zundel, believe that in order to improve their community, one must be an active participant in it. This believe is realized through their involvement in numerous philanthropic activities and educational partnerships.

In addition to serving as educational partners with the Hollywood Entertainment Museum and the Los Angeles County Sheriffs' Juvenile Honors Program, the Make-Up Designory also participates in many local events. Annually, the Make-Up Designory commits to supporting the Kid's Day L.A., KIEV's Special Children's Christmas Program & Party, the Santa Clarita Youth Organization, the Burbank International Children's Film Festival, the Deidre Hall Mother's Day Festival, and the Juvenile Diabetes Foundation Walks. In addition, the Make-Up Designory has actively participated in and donated to many other events, including the CBS "Running Scared" Educational Programs, the March of Dimes, the Revlon Run/Walk, the American Cancer Society Walk, the Mesothelioma Applied Research Fund, the Toluca Lake Lion's Charity, the Toluca Lake Garden Club, and the Charter Oak Elementary School Benefit Silent Auction.

Despite their many commitments, the Make-Up Designory has also found time to work with the Diamond Bar Sister City Program. Their generosity has permitted an orphaned, indigent high school honors student to continue his education, thus gaining the ability to continue the circle of community service. Moreover, the Make-Up Designory has joined the Diamond Bar Sister City Program in sponsoring a foreign exchange student by granting

him a full scholarship. As a result of this scholarship, a gifted student will be able to realize his life-long dream of becoming a professional Make-Up Artist, a highly valuable skill-set in Southern California.

Tate P. Holland, John R. Bailey, and Karl E. Zundel continue to demonstrate that when individuals take the time to help others, they better not only individual lives, but our community as a whole. Mr. Speaker, I ask this 107th Congress to join me in offering our praise and accolades to the Make-Up Designory and its founders.

INTRODUCTION OF "HEATHER FRENCH HENRY HOMELESS VETERANS ASSISTANCE ACT", H.R. 936

**HON. LANE EVANS**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, March 8, 2001*

Mr. EVANS. Mr. Speaker, I rise today to introduce the Heather French Henry Homeless Veterans Assistance Act. This important legislation establishes a national goal of ending homelessness among our nation's veterans within a decade. Mr. Speaker, I firmly believe if 40 years ago we as a nation had the resolve and resources to send men to the moon and return them safely to Earth within a decade, today our great nation can end homelessness among veterans with adequate resolve and resources within ten years.

The measure I introduced today for myself, and almost 100 of my colleagues, is named to recognize and honor Heather French Henry, Miss America 2000. During her year of service to America, Heather French Henry committed the full measure of her time, talents and energy to addressing the needs of homeless veterans. She was our national conscience, calling on us to do more, to do enough to help veterans escape the prison of homelessness. She encouraged homeless veterans to break free from their chains of homelessness. She seems to be everywhere at once advocating for our homeless veterans. Homeless veterans have no better friend and voice.

If we consider how much one young woman accomplished during her year of service as Miss America on behalf of our nation's homeless veterans, there can be no doubt this nation can end homelessness among veterans within a decade. If our nation demonstrates the care, compassion, and fidelity to ending homelessness among veterans as Heather French Henry did during her year of service as Miss America, a decade from now there will be no homelessness among veterans.

The end of veteran homelessness and prompt action on the Heather French Henry Homeless Veterans Assistance Act are a high priority for many. These goals are strongly supported, for example, by the National Coalition of Homeless Veterans and its hundreds of member organizations throughout the nation who daily provide essential services to homeless veterans. I am also pleased the Veterans Organizations Homeless Council which represents many major military and veterans service organizations strongly supports the legislation I am introducing today.

Homelessness is a complex problem for which there is no "quick fix." Homeless veterans are likely to face more than one serious challenge. They are more likely to have serious chronic mental illness, substance use disorders, significant chronic illnesses or disease, to lack the social networks that help most of us through our difficulties and to lack job and even basic living skills. The programs provided by the Heather French Henry Homeless Veterans Assistance Act addresses these problems with comprehensive solutions.

Programs that have demonstrated effectiveness in assisting homeless veterans should be expanded. Better coordination among the services offered by the Department of Veterans Affairs and those offered by other federal, state and local agencies is also needed. Support for private-sector programs serving homeless veterans must be affirmed. We must also make full use of leading experts to enrich current services to homeless veterans and assess program effectiveness and develop needed innovations. A new VA Advisory Committee on Homeless Veterans and an effective federal interagency taskforce on homeless are important parts of the solution.

Many programs provided or funded by VA have demonstrated their effectiveness. Mental health professionals agree, for example, that placement in the community can work, but only with careful monitoring and support of vulnerable populations. This legislation creates incentives for VA to make these services—called Mental Health Intensive Community Management programs—more widely available to veterans with serious mental illness.

Supportive, therapeutic housing is necessary for a veteran's recovery from substance abuse. These "safe havens" must be provided and available to help a veteran in transition from homelessness to a more rewarding life. Community-based providers and more VA domiciliaries are needed to help meet the needs for transitional housing. Comprehensive services for homeless veterans must be more available in our major metropolitan areas to assure that veterans receive services in addition to full information about resources available to them. In our nation's Capital veterans have neither a VA domiciliary nor a comprehensive homeless veterans service program. Both are clearly needed now.

Community-based organizations must receive more assistance to achieve the goal of ending homelessness among veterans. VA's Homeless Grant and Per Diem Providers are a critical source of support to the mission of caring for our nation's homeless veterans. Community-based providers use a collaborative approach to funding and caring for homeless veterans—many of the programs draw from a complex array of funding streams. The cost of caring for veterans is often subsidized by the other funding sources from local, state, and private entities these

VA can and must do more to establish formal agreements with other agencies in and outside of the government in order to ensure that various agencies carefully coordinate services to ensure that veterans at risk of homelessness do not become homeless. The Departments of Defense, Labor and VA cooperatively provide a Transitional Assistance Program (TAP) for servicemembers who are

about to be discharged from the military. This cooperative program could be a model for veterans who are leaving penal institutions or hospital settings. VA should work with a variety of community and other government programs to ensure a safety net is in place.

Finally, my bill advocates a small demonstration program to offer transitional assistance to veterans making the very difficult transition from institutionalization to independent living. These veterans must be provided every chance possible to make it on their own. A one-time, limited grant will provide our veterans a better opportunity to obtain work and housing and avoid becoming homeless and living on the nation's streets.

Mr. Speaker, a member of my staff recently visited a program in Las Vegas, Nevada, where she was told that VA staff can "usually" find a bed for a dying homeless veteran within his or her last week of life. As a nation, we should be outraged and shamed by this treatment of men and women who have served our nation in uniform. Surely we owe our veterans more. I strongly urge my colleagues to join me in supporting homeless veterans on their path to recovery and their full integration into mainstream society to the extent possible. Join me by supporting the Heather French Henry Homeless Veterans Assistance Act.

TAX CREDIT FOR WIND ENERGY PRODUCTION

**HON. MARK FOLEY**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, March 8, 2001*

Mr. FOLEY. Mr. Speaker, I wanted to bring to the attention of the House a measure that has been introduced to extend the current, and very important, tax credit for wind energy production (the PTC) until the year 2007.

I introduced this legislation with my Ways and Means colleagues JERRY WELLER, BOB MATSUI and KAREN THURMAN—as well as JIM MCCRERY, ROB PORTMAN, WES WATKINS, and JIM RAMSTAD—because of the pressing need to get this issue addressed. If we do not extend the credit, the current PTC will expire at the end of the year—a situation that would deliver a stunning setback to a form of alternative energy development that is needed more now than ever, given our growing energy difficulties.

Mr. Speaker, wind energy production credit was originally enacted under the bipartisan Energy Policy Act of 1992 and has enjoyed strong, bipartisan support every since. In fact, during the 106th Congress, 197 House members cosponsored H.R. 750 to extend the credit.

What the credit itself does is to provide an inflation-adjusted 1.5 cents per kilowatt-hour credit for electricity produced with wind power equipment. The credit is only available if the wind energy equipment is located in the United States and electricity is generated and sold by a U.S. taxpayer.

There should be no question, given the current domestic energy crisis, that the need for fostering alternative energy sources in the United States is critical—and wind energy has
