entirely of helium, without protons or atoms, a universe without stars, or a universe that collapsed back in upon itself before the first moments of its existence were up. Even such basics of life as carbon and water depend upon “fine-tuning” at the subatomic level.

Think for a moment about the very nature of water, H2O, which is so vital to life. Unique among the molecules, water is lighter in its solid form than in its liquid form. Ice floats. Every country boy knows that—a country boy like I. I learned a long time ago that ice floats—not just Ivory soap, but ice floats. If it did not float, the oceans would freeze from the bottom up, killing all forms of life there in, and the Earth would now be covered with solid ice.

Witness the vast order that pervades the universe! Could random variation have, even in the longest stretch of the imagination, created such magnificent order in the universe? Could chance have hit upon the order that we see all around us? To believe that it could is to believe that a monkey with a typewriter would eventually type the complete works of Shakespeare. But would he? Would he not more likely produce an infinity’s worth of gibberish? Regardless of the number of days or the length of time available, that monkey could ever provide a single day’s worth of typing Shakespeare—by random, by accident, by chance—let alone the complete works? The works of Shakespeare are complex enough, but they are small potatoes compared to the universe.

Random selection is not the magic bullet that some biologists would hope. One cannot explain away the order in nature by reference to a purely random process. To pretend otherwise is the stuff of science fiction.

Mr. President, as we depart this city for the holidays, let us remember the old, old story. Let us pause at Easter time and think on these things. I close for the holidays, let us remember the nature by reference to a purely random bullet that some biologists would hope.

Mr. BYRD. Mr. President, I ask unanimous consent that the nominations be confirmed, the motions to reconsider be laid upon the table, any statements relating to the nominations be printed in the RECORD, the President be immediately notified of the Senate’s action, and the Senate then return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed are as follows:

- Chris Spear, of Virginia, to be an Assistant Secretary of Labor.
- Kristine Ann Iverson, of Illinois, to be an Assistant Secretary of Labor.

NOMINATION OF CHRIS SPEAR

Mr. HUTCHINSON. Mr. President, I rise today in support of President Bush’s nomination of Chris Spear to be Assistant Secretary of Labor for Policy. I truly believe that President Bush could not have selected a more competent person for this crucial position nor could he have picked a person of better character. Chris served as my Legislative Director for over a year before his nomination. In that time, I found his counsel to be invaluable and of great aid in forwarding my legislative priorities, and I am proud to say that he is not only a former employee but also a good friend. And, I know that I am not alone in wishing Chris well today. He has also served on the staffs of my good friends Senator Enzi and former Senator Alan Simpson. I wish Chris the best of luck in his new position and continued success in his career.

LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will now return to legislative session.

Mr. BYRD. I thank the Chair and I yield the floor.

ADJOURNMENT UNTIL MONDAY, APRIL 23, 2001

The PRESIDING OFFICER. There being no further business to come before the Senate, the Senate stands adjourned until the hour of 12 noon on April 23, under the previous order. Thereupon, the Senate, at 4:02 p.m., adjourned until Monday, April 23, 2001, at 12 noon.
