

the public to look at missing child flyers. This recovery is an example of how taking the time to look at a child's face can lead to a happy ending.

Again, congratulations to all involved and welcome home to Marissa.

FOREIGN RELATIONS AUTHORIZATION ACT, FISCAL YEARS 2002 AND 2003

SPEECH OF

**HON. RON LEWIS**

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 16, 2001*

The House in Committee of the Whole House on the State of the Union had under consideration to the bill (H.R. 1646) to authorized appropriations for the Department of State for fiscal years 2002 and 2003, and for other purposes:

Mr. LEWIS of Kentucky. Mr. Chairman, I rise today in strong support of the Hyde-Smith Amendment. Once again, we are debating the use of federal tax dollars for abortion. In a poll taken last year, Fox News surveyed 900 Americans and found that 55% of them believed that abortion was wrong, with 15% not sure. Why are we using taxpayer dollars to fund abortion when the vast majority of Americans don't agree with it?

I am also amazed at the other side's argument that reversing the Mexico City policy will save lives! It does exactly the opposite by murdering children who just happen to have not yet been born. Don't let their rhetoric fool you! We do provide quality family planning for overseas family groups, and keeping the Mexico City policy in place will further protect the newest members of these families.

I urge my colleagues to vote "yes" on the Hyde amendment.

INTRODUCTION OF AN AMENDMENT TO THE INTERNAL REVENUE CODE OF 1986 TO EXPAND THE CREDIT FOR ELECTRICITY PRODUCED FROM CERTAIN RENEWABLE RESOURCES TO ENERGY PRODUCED FROM LANDFILL GAS

**HON. DAVE CAMP**

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Thursday, May 17, 2001*

Mr. CAMP. Mr. Speaker, today, I am reintroducing legislation that would encourage the development of projects that capture landfill gas and use it as an alternative energy source. Furthermore, this bill would add incentives to landfill gas (LFG) projects by making the existing tax credit in Section 45 of the tax code available to them. Section 45 currently provides a tax credit for electricity generated by projects using wind, closed-loop biomass or poultry waste.

I believe the host of environmental and renewable energy benefits that can be provided by LFG projects, as described below, also de-

serve federal support. Additionally, our legislation would extend the current tax credits for wind, closed-loop biomass and poultry waste.

LFG is produced as waste decomposes in the many landfills that serve our communities. If not captured, the gas is odorous, presents a fire hazard, and contributes to local air pollution.

This tax credit will encourage the installation of LFG utilization projects which capture and use the gas which would otherwise go unused. This captured product can then be used to generate electricity or as a fuel for heating. In addition, the captured gas can be used for industrial and commercial use and fuel cells or alternative fuel vehicles, decreasing our dependence on foreign fuels.

For communities owning municipal solid waste landfills, sale of the electricity or gas from such projects can provide a welcome stream of revenues to offset the cost of environmental controls at the landfills, including Clean Air Act requirements, and other costs related to solid waste management and recycling services. LFG's use can also significantly reduce greenhouse gas emissions.

Currently, there are about 270 LFG projects in existence, the bulk of which were made possible by a previous federal tax credit for development of non-conventional fuels. It is estimated that between 400 and 500 additional LFG projects could be brought on line if a tax credit were provided. With these potential energy projects on line, the nation could save more than 40 million barrels of oil annually.

RECOGNIZING DAVE CURTIN FOR HIS TWENTY-SEVEN YEARS OF LAW ENFORCEMENT SERVICE

**HON. MIKE THOMPSON**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, May 17, 2001*

Mr. THOMPSON of California. Mr. Speaker, I rise today to recognize Dave Curtin as he retires from the St. Helena Police Department. Dave, a true friend of mine, has spent the last twenty-four years of his career serving the people of St. Helena, California.

As a native of St. Helena, I can attest to the strong embodiment of law enforcement that Dave proves on a daily basis. It is not solely in law enforcement that Dave has made a positive impact on; his involvement in numerous aspects of community life is invaluable to St. Helena. Dave is a fellow U.S. Army veteran, and he is also a colleague of mine in the American Legion, St. Helena Post 199. He has served as Post Commander five times in St. Helena. I am impressed with his unflinching commitment to our community.

Dave's dynamic experience includes stints as the Police Reserve Coordinator, Check Fraud Officer, Juvenile Officer, and acting Field Supervisor. In the greater community, he has served on the Napa College Criminal Justice Advisory Board, the St. Helena High School Attendance Review Board, and served on the negotiating team as president of the St. Helena Police Officers Association.

Dave is also involved internationally in law enforcement. As a member of the International

Police Association he has been a host to numerous European and South African police officers visiting the Napa Valley.

A native of Northern California, Dave originally hails from Oakland, and he received his Bachelor of Arts Degree in Public Administration from California State University, Sacramento. He also holds a lifetime teaching credential from University of California, Davis.

Dave and his wife, Susan, have been married for over twenty-nine years. Their daughter Shayna, recently graduated from San Jose State University, and their son, Calen, is finishing his senior year at Justin Siena High School in Napa.

Mr. Speaker, it is appropriate at this time that we recognize Dave Curtin for his tremendous work for the people of the Napa Valley. He is a true asset to our community and I speak on behalf of the people of St. Helena when I thank Dave Curtin for his valued service.

TRIBUTE TO THE LATE JAMES EDWARDS, JR.

**HON. NICK LAMPSON**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, May 17, 2001*

Mr. LAMPSON. Mr. Speaker, I rise today with great sadness to honor James Edwards Jr., who passed away at age 68. James Edwards Jr. was a man who not only talked the talk, but walked the walk. He was a true visionary with a vision of a better life for all Americans. He spent his life fighting for equality, justice, and opportunity and was one of the first African-Americans elected to political office in Galveston County in modern times.

He was a community activist who believed in opportunity for all, and was always looking to the future of the Southeast Texas-Gulf Coast area. Throughout his long and successful career he provided opportunity to many. James was a long time union leader who joined the Oil, Chemical and Atomic Workers International Union in 1964 when he went to work at the Marathon Oil Co. Refinery in Texas City. He was named Texas state legislative director by OCAW's District 4 Council in 1983 and served as secretary-treasurer of the Texas City local from 1986 until the early 1990's. James was a tremendous influence on the labor and political community in Texas, and those in that arena often sought his advice.

James was a family man. He is survived by his wife, Johnnie Mae; their son, James Edwards III; and her children from a previous marriage, Deborah Boone, Pierce Boone and Joseph Boone.

Mr. Speaker, despite his great success, James Edwards Jr. remained a man of the people, honest and forthright. His was of the utmost character, and his attributes of selflessness and commitment to others are rare gifts that the Southeast Texas-Gulf Coast area was lucky to have. His work and his dedication to the people of this great country is unparalleled. James Edwards Jr. will be sorely missed.
