

original thirteen colonies. It further greeted pioneers as they traveled across the new republic to the West Coast. And to this day it has remained an enduring, valuable, and highly-prized raw material. Its use as beautifully crafted furniture, sturdy door and window framing, ornate flooring and paneling, all reinforce the sensible selection of the oak. This majestic tree, which has long been a part of our national heritage and strength, fully merits this distinction.

I want to personally thank those who took part in the vote for America's national tree, and I applaud Arbor Day for its dedication to the future for which the oak represents. I look forward to working with my colleagues to designate the oak as America's national tree.

PRINTED CIRCUIT INVESTMENT  
ACT OF 2001

**HON. PHILIP M. CRANE**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, May 22, 2001*

Mr. CRANE. Mr. Speaker, I rise today and join my good friend and colleague, Bob Matsui of California, to introduce the Printed Circuit Investment Act of 2001. This simple and straightforward bill allows manufacturers of printed wiring boards and printed wiring assemblies, known as the electronic interconnect industry, to depreciate their production equipment in three years rather than the five years in current law. Printed wiring boards are those ubiquitous little green boards loaded with tiny wires and microchips that are the nerve centers of electronic items from television sets to computers to mobile phones and electronic organizers.

The interconnecting industry, like so much of the electronics industry, has changed dramatically in just the last decade. This industry, which has \$44 billion in annual sales, was once dominated by large companies. Now it consists overwhelmingly of small firms. The rapid pace of technological advancement today makes interconnecting manufacturing equipment obsolete in 18 to 36 months. This makes the interconnecting industry very capital intensive. In fact, capital expenditures last year totaled more than \$3 billion and continue to grow.

The depreciation rules found in the tax code have not kept pace with the realities of this dynamic market. The industry currently relies on tax law passed in the 1980s, that was based on 1970s era electronics technology. US competitors in Asia, however, enjoy much more favorable tax treatment as well as direct government subsidies,

The Printed Circuit Investment Act of 2001 will provide necessary tax relief to the interconnect industry and the 400,000 Americans whose jobs directly rely on the success of this industry. I urge my colleagues to join Congressman MATSUI and I in supporting this important legislation.

EXTENSIONS OF REMARKS

PERSONAL EXPLANATION

**HON. BOB RILEY**

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, May 22, 2001*

Mr. RILEY. Mr. Speaker, I was unavoidably detained for rollcall No. 126, H. Con. Res. 56, Expressing the sense of the Congress regarding National Pearl Harbor Remembrance Day. Had I been present for this vote I would have voted in favor of H. Con. Res. 56.

I was also unavoidably detained for rollcall No. 127, H.R. 1885, To expand the class of beneficiaries who may apply for adjustment of status under section 245(i) of the Immigration and Nationality Act by extending the deadline for classification petition and labor certification filings, and for other purposes. Had I been present for this vote I would have voted against H.R. 1885.

WELCOMING PRESIDENT CHEN  
SHUI BIAN TO THE U.S.

**HON. JIM RYUN**

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, May 22, 2001*

Mr. RYUN of Kansas. Mr. Speaker, a distinguished visitor, President Chen Shui Bian of the Republic of China will be stopping briefly in New York before heading to Central America later this month.

This is the first visit by Mr. Chen to New York as a head of state. President Chen has just completed his first year in office as the Tenth President of the Republic of China on Taiwan. As the former mayor of Taiwan's capital, President Chen has served as a dedicated leader to this island democracy.

President Chen's visit will undoubtedly serve to strengthen the warm friendship between the United States and the Republic of China. I hop my colleagues will join me in extending a word of welcome to President Chen during his visit to the United States.

THE INTRODUCTION OF H.R. 1692,  
TO SIMPLIFY AND MAKE MORE  
EQUITABLE THE TAX TREAT-  
MENT OF SETTLEMENT TRUSTS  
ESTABLISHED PURSUANT TO  
THE ALASKA NATIVE CLAIMS  
SETTLEMENT ACT

**HON. DON YOUNG**

OF ALASKA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, May 22, 2001*

Mr. YOUNG of Alaska. Mr. Speaker, on May 3, 2001, eighteen of our colleagues from both sides of the aisle and I introduced H.R. 1692, a bill to simplify and make more equitable the tax treatment of Settlement Trusts established pursuant to the Alaska Native Claims Settlement Act.

I am very pleased today to add the names of two of our distinguished colleagues, Representative WES WATKINS, a cosponsor from

*May 22, 2001*

last Congress and Member of the Ways and Means Committee to which the bill was referred, and Representative MARK SOUDER.

Also, in my statement upon introduction of the bill, there were two items that need correcting. First, Representative FROST, Representative BONO, and Representative STUPAK should have been referred to as "Representative" as were the other cosponsors. And, in the last paragraph of the statement, the word "vetted" was inadvertently transcribed in the RECORD to read "vetoed." With that edit, that paragraph should have read:

A version of this bill was included by the Ways and Means Committee in legislation last Congress that was vetoed and a version of it passed the Senate as well. This current version of the bill we are introducing today has been vetted over the past several years with the tax writing committees of Congress in the House and Senate, the Joint Committee on Taxation and the Department of Treasury. It addresses the key deficiencies in the current law. I urge that it be included in tax-related legislation considered by the House in this session of the 107th Congress and that our colleagues join the co-sponsors of the bill in supporting this meritorious legislation.

PERSONAL EXPLANATION

**HON. THOMAS H. ALLEN**

OF MAINE

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, May 22, 2001*

Mr. ALLEN. Mr. Speaker, during the weeks of May 7, and May 14, 2001, I was unavoidably absent for seven rollcall votes, due to the illness and death of a family member.

Had I been present I would have voted "yea" on rollcall votes 109, 110, 111, 112, and 113, and voted "nay" on rollcall votes 107 and 108.

PERSONAL EXPLANATION

**HON. BILL PASCHELL, JR.**

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, May 22, 2001*

Mr. PASCHELL. Mr. Speaker, I was unavoidably detained due to a personal issue and was unable to be present last night for floor votes.

If I had been present, I would have voted in the affirmative on H. Con. Res. 56 and H.R. 1885.

TO HONOR MS. TERRI CRUZ AS  
THIS YEAR'S RECIPIENT OF THE  
JEWELL AWARD WHICH HONORS  
THOSE THAT HAVE GIVEN GEN-  
EROUSLY AND SELFLESSLY FOR  
THE BETTERMENT OF THEIR  
COMMUNITY

**HON. ED PASTOR**

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, May 22, 2001*

Mr. PASTOR. Mr. Speaker, I stand before you today to pay tribute to a great woman who

has been an influential force in assisting Arizonans in need. The woman of whom I speak is Ms. Terri Cruz, a woman whose accomplishments in life are reflected in the success of her community and its members.

Ms. Cruz has touched the lives of many citizens of Arizona through her active community involvement. In 1985 she was appointed by former Governor Bruce Babbitt to the Nursing Care Institution Administrators Board, while concurrently serving as the National Chairman of the Hispanic Senior Citizen Foundation Board. Other boards Ms. Cruz has served on are the YWCA, Maricopa County and Phoenix Human Resource Commissions and the Mayor's Commission for the Aging. In addition, she served as President of the West Phoenix LULAC (League of United Latin American Citizens) Council.

Ms. Cruz's work as a Job Developer for Operation S.E.R. provided training for high school students in clerical skills, general office procedures, and other areas, giving young people who may not otherwise have had the opportunity to gain these valuable skills become productive members of their communities.

Currently Ms. Cruz is the Social Services Counselor for Chicanos Por La Causa, Inc., based in Phoenix. Her primary responsibility is providing social services to clients. She helps solve problems they may be having with Social Security, food stamps, health agencies, and landlord/tenant problems. Many of these problems may have gone unchecked if it were not for caring individuals such as Ms. Cruz. As a tribute, Chicanos Por La Causa named one of their buildings after Ms. Cruz for all her work in helping individuals gain job skills and obtain employment.

Because of her lifelong dedication to helping others, Ms. Cruz recently was honored with a Jewell Award. This is an award that annually recognizes "a woman who has given generously and selflessly for the betterment of our community," in metropolitan Phoenix. Her extensive background in job training and development, her commitment to working within business, industry, social and community organizations and government to help others truly has made her deserving of this award.

Therefore, Mr. Speaker, I ask that you and my colleagues join me today in honoring this giving and caring individual, my friend, Ms. Terri Cruz.

PERSONAL EXPLANATION

**HON. J.C. WATTS, JR.**

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, May 22, 2001*

Mr. WATTS of Oklahoma. Mr. Speaker, I was unable to be here yesterday due to my daughter's grade school graduation in Oklahoma, and missed Recorded Votes No. 126 (Motion to suspend the rules and pass H. Con. Res. 56—National Pearl Harbor Remembrance Day), and No. 127 (motion to suspend the rules and pass H.R. 1885—extending section 245(i) of the Immigration and Nationality Act).

Had I been present, I would have voted yea on both of the above motions.

PERSONAL EXPLANATION

**HON. ROBERT W. NEY**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, May 22, 2001*

Mr. NEY. Mr. Speaker, on May 21, 2001 my flight was extremely delayed by over three hours. As a result I missed rollcall vote No. 126 and No. 127. Please excuse my absence from this vote. If I were present, I would have voted yea in support of H. Con. Res. 56 the Pearl Harbor Remembrance Day Resolution.

THE STORY OF EMILY ROSS

**HON. STEVE C. LATOURETTE**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, May 22, 2001*

Mr. LATOURETTE. Mr. Speaker, I rise today to honor a courageous young woman from Westlake, OH, who recently contacted me to share her story and the need for increased funding for Muscular Dystrophy research. Emily, a sophomore at Westlake High School, has Friedreich's Ataxia, one of the many neuromuscular diseases that fall under the umbrella of Muscular Dystrophy. Emily was diagnosed when she was five.

Emily's parents, Charlie and Carolyn Ross, shared with me two articles Emily wrote about her daily struggle with Muscular Dystrophy and how she is overcoming the challenges the disease places before her. The first was written when Emily was in eighth grade, "A Day in the Life of Emily Ross." The second, "Onward and Outward!" was published in the April 2001 edition of The Bay Press. I am submitting the writings of Emily Ross into the CONGRESSIONAL RECORD so they will become a part of the official record of the U.S. House of Representatives.

Mr. Speaker, Emily believes that God chose her to have Muscular Dystrophy because he needed someone to help find a cure. I applaud her courage and grace, and hope that others will be as touched by her story as I was.

A DAY IN THE LIFE OF EMILY ROSS

(By Emily Ross)

When I wake up in the morning, I shut off my alarm and begin my day by stopping to think how I am going to walk across my bedroom floor. Attempting to go into the bathroom is scary because my feet are stiff, my balance is terrible and I manage to bang into every piece of furniture in my bedroom! I get downstairs to the kitchen for breakfast by scooting down on my behind step by step. Going into the kitchen for breakfast I have trouble opening the peanut butter jar, pouring a glass of milk or getting any cereal into my mouth because my hands shake. I hope my teeth are clean because I cannot squeeze the toothpaste. Buttons, zippers and socks are a challenge. I'm already tired but off to school I go with my Mom and my dog, Oats.

At school, my Mom helps me to the door because my feet trip easily on the uneven sidewalk. I cannot open the heavy doors by myself. Once inside, I hop on my battery-powered scooter and go to my locker. If I'm not shaking too badly I can get my combina-

tion lock opened in three tries! Headed to my first class I face crowded hallways, funny looks from other kids and hurtful comments like "there goes the cripple." Sometimes some of the kids will lie on the floor pretending that I have hit them with my scooter which really hurts my feelings. I'm constantly being asked to move out of the way because they say my scooter takes up too much room. After class I'd like a drink of water but the water fountains are too high. At lunchtime I never buy a school lunch because I cannot reach the food on the shelves or get my scooter through the narrow gate. I tried to walk through the lunch line several times but everyone is pushing and I'm scared I'll lose my balance. I dropped my tray once and believe me, once is enough!

It's now sixth period and I'm starting to get really tired and I have two more class periods to go. The bell rings and school is finally over. It's pretty tricky getting my scooter down the hallway with everyone pushing and shoving their way out to the buses. I finally get to my locker, hope I can get it open in time so I don't miss my bus, grab my coat and panic when I can't zip up my backpack. All my papers fall out all over the floor. I frantically stuff them back inside my backpack, park my scooter, and struggle past 800 other kids waiting to catch their bus rides home. My bus finally arrives and I gratefully sit down for my ride home. An aide helps me up to the side door of my house and helps hold my hands steady so I can aim my key in the lock and she also helps me to turn the doorknob so I can get safely inside. Once inside I let my backpack and coat drop on the floor and I fall onto the couch where I am grateful to God that I have made it another day. Oats, my dog, is the only one I can talk to when I get home from school, she always understands me.

My name is Emily Ross. I am 13 years old and in the eighth grade. I have Friedreich's Ataxia which is one of forty neuromuscular diseases listed under Muscular Dystrophy. It is a hereditary degenerative nerve disease which affects the hands and feet resulting in fatigue and loss of feeling and balance. I was diagnosed when I was 5. I thank God allowed me to have MD because he needed someone to help find a cure. He's chosen me and has led me to a team of doctors that have asked to take a biopsy of muscle and nerve tissue in a "one of a kind" research program which The Muscular Dystrophy Society is sponsoring. They are hoping to determine how they can replace or regenerate the protein that is missing in the cells of all Friedreich's patients. Even if a cure is years away, this study may allow for a medicine that could help me and many others to stop shaking and stop our muscles from weakening anymore.

Not all of my days are stressful because I have the love of my family and many good friends who help me throughout each day. My Mom, Dad and my brother, Hunter, help me squeeze the toothpaste, open the peanut butter jar and button my clothes. My school has allowed me to start my school day one hour later than everyone else and when my friends see me coming up to the door, they hold them open for me. Sometimes it's even a really cute boy which makes my day start off pretty darn good!!! My scooter is sometimes being used by my crazy science teacher but she always comes zooming down the hall just in time for me to get to English. My teachers have been wonderful with kind understanding and a willingness to adapt to my special needs. because of my school's support, I am a straight A student. And, if my
