

We are hemorrhaging. Our seniors should not have to choose between electricity and food. Our schools and factories should not have to suffer or close their doors.

This is about children in San Bernardino crosswalks. This is about protecting jobs, having the lights turned on. This is about working families. This is about individuals who are suffering because President Bush has failed to take on the responsibilities.

It was said earlier that it was Governor Gray Davis. No, deregulation was started by Pete Wilson who actually had the State of California deregulate. We are suffering because the Republican Party thought there would be enough energy. We do not have the energy. We need the President to step up to the plate. A tax cut will not make up for the skyrocketing bills. Let us put on a price cap.

FUTURE HOLDS EXPLODING EXPENDITURES AND DEFICITS

(Mr. HOYER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HOYER. Mr. Speaker, in 1981, we ushered in a decade of profligate spending and exploding deficits. In 1990, we passed a budget bill that was tough and it helped bring down those deficits and bring us a surplus. In 1993, we took another action which was tough and helped bring down those deficits and create the surpluses. In 1997, in a bipartisan way, we passed a bill that was tough and helped bring down deficits and create surpluses. We now wait on a conference report that will again, as we did 20 years ago, usher in a decade of exploding expenditures and exploding deficits. That is irresponsible.

We passed a personal bankruptcy bill that said we expected each citizen of America to be personally responsible. Mr. Speaker, it is equally important that we be collectively responsible and reject this bad policy for America.

PRESIDENT BUSH SHOULD STOP SUPPORTING BIG OIL AND SUPPORT THE AMERICAN PEOPLE

(Mr. DEFAZIO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DEFAZIO. Mr. Speaker, the chairman of the Federal Energy Regulatory Commission, hand-picked by President George Bush, Mr. Hebert, has chosen to turn a blind eye toward the price gouging and market manipulation which is enriching a few huge energy companies, several of which happen to be based in Houston, Texas, at the expense of tens of millions of people in the Western United States.

It is not only Californians who are suffering. We are paying a higher aver-

age price in the wholesale market in Oregon and Washington than they are in California, and it is not necessary. It is manipulated.

Let us look at one company, Reliant Power. Profits up by 1,800 percent in one year. Is that not grand, from \$27 million to \$482 million. But on Sunday, the San Francisco Chronicle revealed that they are blatantly manipulating the market. They have phone lines between their traders and their trade rooms and their plant operators in California, and when the price of energy drops, they shut the plants off and turn the lights out.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. DEFAZIO. And then when the price skyrockets, they turn them back on. They are destroying the plants, they are destroying the economy, and the Bush administration and their hand-picked chair of the Federal Energy Regulatory Commission are refusing to take the actions required under the law to stop unjust and unreasonable price gouging and market manipulation.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. DEFAZIO. It is past time for the Bush administration to stop supporting the energy companies and support the American people.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair would appreciate it if the Members would abide by the 1-minute time limit.

FERC MUST INSTITUTE PRICE CAPS

(Ms. LEE asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. LEE. Mr. Speaker, at a time when my home State of California and more and more States in this country are dealing with the most severe energy crisis in the past several decades, I believe it is really the height of irresponsibility to pass huge tax cuts for the very wealthy while, at the same time, not even providing any assistance in the budget for the Low-Income Home Energy Assistance Program. Also, cutting funding for renewable energy research and also neglecting to get a national energy policy in place to help consumers. This is the height of irresponsibility.

The LIHEAP program helps low-income Americans pay their utility bills. It is severely underfunded, so we must fight for an increase in LIHEAP funding this year for our senior citizens and our low-income residents.

Finally, this energy crisis has gotten so bad that many of our California

State legislators and the city of Oakland have joined together to file a lawsuit to make sure that the Federal Energy Regulatory Commission establish just and reasonable prices. It is unconscionable that the price gouging continues to go on, and that our residents in California are going to face a very serious hot summer.

Mr. Speaker, we must move forward with price caps. We must insist that our Federal Government insist that the FERC do this, and we must do this right away.

BLIND CHOICES

(Mr. OWENS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. OWENS. Mr. Speaker, the spirit of Tiananmen Square, blind and extreme, has invaded decisions about energy policies in California. The same spirit of the tanks in Tiananmen Square has invaded the latest decisions with respect to Vieques in Puerto Rico. Both the Navy and a Federal judge are blindly pursuing a policy which rules out the choices of the people, refuses to recognize the choices of the people, and have resorted to measures like putting people in jail for 90 days.

One New York leader, Al Sharpton, has now been sentenced to 90 days in jail in Puerto Rico, and several other political leaders have been sentenced to 40 days in jail.

□ 1030

This kind of extremism will only make martyrs of people and also will call for an invasion of Vieques. The Navy does not need Vieques that badly. We should listen to the will of the people, not have a blind eye similar to the tanks that rolled over the will of the people at Tiananmen Square.

Mr. Speaker, judges have done enough harm also in this generation and should stop seeking their 15 minutes of fame. This judge is wrong. These sentences are wrong. Vieques should be set free.

RISE IN ENERGY PRICES

(Mr. WELLER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WELLER. Mr. Speaker, I have been enjoying some of the rhetoric I have been hearing from some of my friends on the other side of the aisle today. Clearly, when it comes to a rise in energy prices, the policies of my friends on the left side of the aisle is very simple, and that is called pass the buck.

They talk about the California energy crisis. Who has been in charge in California? A Democratic governor, a Democratic State legislature. Who prevented the power plants from being
