

Commission was among the first to suggest not as rhetoric but as a real possibility the holding of free and fair elections, tearing down the Berlin Wall, and beginning a new world order in Europe.

Of course, Mr. Speaker, those of us on the Commission knew that the fall of communism would give rise to new problems, namely the extreme nationalism which communism swept under the rug of repression rather than neutralized with democratic antiseptic. Still, none of us fully anticipated what was to come in the 1990s. It was a decade of democratic achievement, but it nevertheless witnessed the worst violations of Helsinki principles and provisions, including genocide in Bosnia-Herzegovina and brutal conflicts elsewhere in the Balkans as well as in Chechnya, the Caucasus and Central Asia, with hundreds of thousands innocent civilians killed and millions displaced. Again, it was the Commission which helped keep these tragedies on the U.S. foreign policy agenda, holding hearings, visiting war zones and advocating an appropriately active and decisive U.S. response. In the face of such serious matters, too many sought to blame history and even democracy, equated victim with aggressor and fecklessly abandoned the principles upon which Helsinki was based. Again the Commission, on a bipartisan basis in dialogue with different Administrations, took strong issue with such an approach. Moreover, with our distinguished colleague, CHRISTOPHER SMITH of New Jersey, taking his turn as Chairman during these tragic times, the Commission took on a new emphasis in seeking justice for victims, providing much needed humanitarian relief and supporting democratic movements in places like Serbia for the sake of long-term stability and the future of the people living there.

In this new decade, Mr. Speaker, the Commission has remained actively engaged on the issues of the time. Corruption and organized crime, trafficking of women and children into sexual slavery, new attacks on religious liberty and discrimination in society, particularly against Romani populations in Europe, present new challenges. Senator BEN NIGHTHORSE CAMPBELL of Colorado, the latest Commission Chairman, has kept the Commission current and relevant. In addition, there continue to be serious problem areas or widespread or systemic violations of OSCE standards in countries of the Balkans, Central Asia and the Caucasus, or reversals of the democratization process as in Belarus. The Commission was born in the Cold War, but its true mission—the struggle for human rights, democratic government and the rule of law—remains as important now as it was then. It remains an essential element for true security and stability in the world, as well as, to paraphrase Helsinki, for the free and full development of the individual person, from whose inherent dignity human rights ultimately derive.

To conclude, Mr. Speaker, I wish to erase any illusion I have given in my praise for the Helsinki Commission on its first quarter of a century that it had single-handedly vanquished the Soviet empire or stopped the genocidal policies of Slobodan Milosevic. No, this did not occur, and our own efforts pale in comparison to the courage and risk-taking of human rights activists in the countries concerned. But I

would assert, Mr. Speaker, that the wheels of progress turn through the interaction of numerous cogs, and the Commission has been one of those cogs, maybe with some extra grease. The Commission certainly was the vehicle through which the United States Government was able to bring the will of the American people for morality and human rights into European diplomacy.

To those who were in the Soviet gulag, or in Ceausescu's Romania as a recent acquaintance there relayed to me with much emotion, the fact that some Americans and others were out there, speaking on their behalf, gave them the will to survive those dark days, and to continue the struggle for freedom. Many of those voices were emanating in the non-governmental community, groups like Amnesty International, Freedom House and Human Rights Watch. Through the Helsinki Commission, the voice of the United States Congress was heard as well, and I know that all of my colleagues who have been on the Commission or worked with it are enormously proud of that fact.

IN MEMORY OF MR. JAMES V.  
PSENICKA

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 27, 2001

Mr. KUCINICH. Mr. Speaker, I rise today to honor the memory of a very fine man, Mr. James V. Psenicka, for his dedicated years of service and countless contributions to the community.

Mr. Psenicka was born in Maple Heights to Czech immigrants who met and married in the United States. The family then moved to Streetsboro to purchase land. Mr. Psenicka graduated from Kent State High School in 1950 and immediately joined the staff of "The Neighborhood News" where he served as a reporter and advertising salesman. He soon earned his bachelors degree in journalism from Kent State University in 1955.

Mr. Psenicka assumed the role of owner and publisher of "The Neighborhood News" in 1961 after serving in the U.S. Navy Air force in Guam. As publisher, Mr. Psenicka campaigned for cleaner air and strict anti-pollution regulation. He fought for countless causes to make life better for hard-working Czech and Polish-American readers. Under his leadership, the newspaper was named Best Weekly Newspaper by the Neighborhood and Community Press Association of Greater Cleveland in 1999.

Although his commitment to "The Neighborhood News" earned the newspaper countless awards and honors, Mr. Psenicka kept family and friends first. He enjoyed traveling with his wife and three sons to Canada, Greece, Europe, and many other places. He relished boating and gardening. You would often see Mr. Psenicka off the coast of Lake Erie fishing.

Mr. Psenicka also had an incredible dedication to his local community. He served as a member of Karlin Hall on Fleet Avenue and the Small Business Advisory Council to the U.S. Congress. In addition, Mr. Psenicka

served as a dedicated member to the Kiwanis Club of South East Cleveland, the world's largest service organization.

Mr. Speaker, please join me in honoring the memory of Mr. James V. Psenicka, a man that has touched the Cleveland and world community in many ways. His love, dedication, and honor will be greatly missed.

DEPARTMENT OF THE INTERIOR  
AND RELATED AGENCIES APPROPRIATIONS ACT OF 2002

SPEECH OF

HON. WES WATKINS

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2001

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 2217) making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 2002, and for other purposes:

Mr. WATKINS. Mr. Speaker, I rise today in support of H.R. 2217, the Interior Appropriations Act for Fiscal Year 2002. Among the components of that act is funding for the Department of Energy's Office of Fossil Energy and its program of oil and natural gas research and development. Few among us understand what an important role oil and natural gas research and development plays in our nation's ability to produce critical quantities of those resources for our domestic consumption.

I would like to introduce into the RECORD today one of the recommendations contained in a report of the Interstate Oil and Gas Compact Commission (IOGCC) entitled A Dependent Nation: How Federal Oil and Natural Gas Policy is Eroding America's Economic Independence. This report contains the IOGCC governors' own set of recommendations for a national oil and natural gas policy. It is my hope that this information will help explain why federally funded oil and natural gas research and development is so vitally important to this country.

RECOMMENDATION 2: PROMOTE THE EXPANSION  
OF RESEARCH TO RECOVER DOMESTIC OIL  
AND GAS RESOURCES

This far-reaching recommendation encompasses a number of initiatives designed to ensure the nation's reserves are fully developed. First, to make informed decisions regarding the nation's energy future, the public must have definitive information on the actual domestic petroleum resource.

For example, there are vast known reserves of oil in the United States. The IOGCC estimates that 351 billion barrels will remain in the ground after conventional recovery technologies have been applied.

In addition, there are oil and natural gas reserves located on private and public lands and offshore that have not been analyzed or catalogued. Some of these reserves may exist in environmentally sensitive areas or in difficult-to-access locations that would require extraordinary exploration and production measures or advanced research to develop. Therefore, in addition to identifying the entire oil and gas resource base of the country,
