NOR are respondents acquiring relevant information not confided and study determining if awarding prime or sub contracts to DBEs affects contract costs; 67.5% no study on discrimination against DBE firms; 84.2% no study of discrimination against DBEs by financial credit, insurance or bond markets; 79.5% no study of factors making it difficult for DBEs to compete; and 92.8% no study on the impact of the DBE program on competition and the creation of jobs. (pp. 66-68). Only 26.5% of the respondents have developed and implemented use of a bids list, although the regulations require such.

The DBE program has been continuously subject to litigation during its almost two decades of existence. Overall, the picture of the DBE program that emerges from the GAO report is one of essential information that is missing, or if available, does not support any finding of a national pattern of discrimination againstDBEs.

LOCAL LAW ENFORCEMENT ACT OF 2001

Mr. SMITH of Oregon. Mr. President, I rise today to speak about hate crimes legislation I introduced with Senator KENNEDY in March of this year. The Local Law Enforcement Act of 2001 would add new categories to current hate crimes legislation sending a signal that violence of any kind is unacceptable in our society.

I would like to describe a terrible crime that occurred April 18, 1998 in New York City. A man who used anti-gay epithets allegedly slashed a gay man in the face with a knife. Eric Rodriguez, 22, was charged with attempted murder, assault, and criminal possession of a weapon.

I believe that government’s first duty is to defend its citizens, to defend them against violence that comes out of hatred. The Local Law Enforcement Act of 2001 is now a symbol that by passing this legislation, we can change hearts and minds as well.

RAILROAD CROSSING DELAY REDUCTION ACT

Mr. DURBIN. Mr. President, earlier this month I introduced the Railroad Crossing Delay Reduction Act, S. 1015, with my colleagues, Senators Levin and Feingold.

This legislation would accelerate efforts at the U.S. Department of Transportation to address the issue of rail safety by requiring the Secretary of Transportation to issue specific regulations that block automobile traffic at railroad crossings. Currently, there are no Federal limits on how long trains can block crossings. The Railroad Crossing Delay Reduction Act would simply minimize automobile traffic delays caused by trains blocking traffic at railroad grade crossings.

In northeastern Illinois, there are frequent blockages at rail crossings. These blocked crossings prevent emergency vehicles, such as fire trucks, police cars, ambulances, and other related vehicles from getting to their destinations in the times of need. This is a serious problem and one I hope to address by passage of this important legislation.

Blocked rail crossings also delay drivers by preventing them from getting to their destinations. Motorists, knowing they will have to wait for a train to move at blocked crossings, sometimes try to beat the train or ignore signals completely. This is a threat to public safety, and one that must stop. Motorists must act responsibly, but we can reduce the temptation by reducing delays.

Trains stopped for long periods of time also tempt pedestrians to cross between the train cars. I’ve heard from local mayors in my State that children, in order to cross from school, cross between the rail cars. This is a terrible invitation to tragedy.

Trains blocking crossings cause traffic problems, congestion, and delay. These issues are very real. They are serious. And more importantly, they are a threat to public safety. To address these problems, I’ve introduced with my colleagues the Railroad Crossing Delay Reduction Act. I’m hopeful this legislation will provide for a safer Illinois and a safer Nation. I urge my colleagues to join the effort to reduce blocked rail-grade crossings by cosponsoring and supporting S. 1015.

Mr. LEVIN. Mr. President, I am delighted to speak today to acknowledge a leader, from my home State of Michigan, who has dedicated his life to serving the citizens in Michigan, Dr. Richard W. McDowell. Today, many people will gather to pay tribute to Dr. McDowell for his service as President of Schoolcraft College, in Livonia, MI, for the past twenty years.

Dr. McDowell has dedicated his life, both professionally and personally, to the service of his community. Dr. McDowell has served capably and honorably as the President of Schoolcraft College during a period of incredible growth for this institution. He has presided over programs and projects that have reshaped the campus, and enhanced its ability to meet the needs of students at Schoolcraft College.

During his tenure as President, Dr. McDowell has presided over the construction of numerous structures including additions to the Campus Center, the Child Care Center and the student center that bears his name. In addition to enhancing the physical facilities, he has greatly enhanced the economic structure of the campus by forming the Schoolcraft Development Authority, and by expanding the endowment of the college. These efforts will secure the ability of the school to maintain a world-class campus while providing students with access to an affordable education.

In addition to these activities, Dr. McDowell is a leader in his profession and in numerous civic institutions. His love of academia and education translated into his desire to serve the educational community writ large. Dr.
