

June 24, 2001, Jack was killed on his way home from a training session with the Volunteer Fire Department of West Pueblo.

Jack was born in the nearby community of La Junta. He graduated from La Junta High School, and started his career as a firefighter at the La Junta Volunteer Fire Department, following in the footsteps of his father and grandfather. After moving to Pueblo West in 1978, Jack then joined the Pueblo West Volunteer Fire Department where he was quickly promoted to Lieutenant. After serving only two short years on the Pueblo West squad, Jack was named Captain. Not only did Jack fulfill his duties as Captain, but went above and beyond these duties, by taking many courses that enhanced his career, Highway Emergency Response, Colorado Division of Disaster Emergency Services, and Emergency Response to Hazardous Materials Incidents to name a few. With all the extra time Jack put into his position at the Pueblo West Fire Department, he was the obvious choice for Fire Chief in 1983.

The dedication to his community did not stop with his position on the Fire Department, Jack also volunteered with the Columbine Council Girl Scouts and spent time at the local schools. Jack loved to spend time with his daughters, Allison and Caitlyn, so he never missed an opportunity to volunteer for activities the girls were involved with. Jack balanced his commitment to his community and his family well. This charismatic man was loved by all that knew him. His dedication to Pueblo West and its citizens has left a lasting mark on the community, not to mention the State.

A life dedicated to the service of others, is why I stand before you today, Mr. Speaker, asking Congress to give this man the recognition he so justly deserves. He will be greatly missed by friends, fellow fire fighters and his family, but the State of Colorado will also feel the loss of this man. I would like to offer my condolences to his wife DyAnn and his daughters Allison and Caitlyn, and assure them that Jack Fowler, Jr. will not be forgotten by Pueblo County and the State of Colorado.

FRIENDS OF DISABLED ADULTS
AND CHILDREN

HON. BOB BARR

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 28, 2001

Mr. BARR of Georgia. Mr. Speaker, established in 1986 in order to provide medical equipment and computers to disabled people in the metro Atlanta area who could not otherwise afford it, Friends of Disabled Adults and Children is a full-time ministry which has reached out to all people with disabilities.

After retiring from a 20-year career in the Marines in 1978, Ed Butchart took a position selling medical diagnostics products. After having met many disabled people in need of products and service, he and his wife, Annie, with the support of Mount Carmel Christian Church, started a ministry in their home garage. Ed would repair and refurbish wheelchairs and give them to those disabled individuals who could not afford to purchase one.

Since then, the ministry has helped people ranging in age from 18 months to 103 years of age. The facility is now housed in a 64,800 sq. ft. building in Stone Mountain, Georgia and to date it has provided over 7,000 wheelchairs to needy persons. The retail value of all medical equipment that has been given away now totals over \$20 million.

Friends of Disabled Adults and Children received its 501(c)3, non-profit status in November 1987. Private donations, annual golf tournaments, and community fund raisers help it remain open and able to furnish medical equipment to those who truly need it. On numerous occasions, my staff members have referred disabled adults and children to this agency. It may take a little time to acquire a certain piece of medical equipment, but Friends of Disabled Adults and Children usually is able to accommodate these individuals. Recently a single mother, who has Multiple Sclerosis, was able to get out and watch her son play baseball, because she had received an electric scooter from Friends of Disabled Adults and Children. A senior citizen recently received a new walker, fitted just for her, because her old one was broken.

This organization distributes computers to those who are disabled. This sometimes allows the disabled to learn job skills. In fact, the agency employs many disabled adults. It has a community reentry program for those who suffer from an acquired brain injury. By volunteering at Friends, these people are provided with a caring environment in which they can regain crucial skills needed to once again become productive members of society.

The Butcharts give God full credit for the growth of the center and for the many blessings they have received over the years. The 15th anniversary celebration of Friends of Disabled Adults and Children will be held on September 23rd at Mount Carmel Christian Church in Stone Mountain, Georgia. Mr. and Mrs. Butchart, and their staff, are to be commended for their diligence, hard work, and big hearts. The disabled individuals from the Seventh District of Georgia, who have been served by this fine organization, join me in congratulating them, and thanking them for their kindness.

IN HONOR OF REV. KURT W.
KATZMAR

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 28, 2001

Mr. KUCINICH. Mr. Speaker, I rise today to honor and recognize Rev. Kurt W. Katzmar for his many years of dedicated service to the First Congregational United Church of Christ.

Rev. Katzmar has been the pastor of the First Congregational United Church of Christ since May 1991. As a young boy raised in Strongsville, Rev. Katzmar attended the church he now pastors. He, along with then-pastor of Heritage Congregational Church Rev. David Hawk, founded the Berea Minister's Emergency Relief fund, a precursor to Church Street Ministries. This was one of many examples of his tireless support to the

City of Berea, the people of Berea, and the ministry among the people of Berea.

Rev. Katzmar, along with others in the community area was a founder of the First Church's Church Street Ministries program. Together with Bob Dreese, Rev. Katzmar joined the church's Youth-at Risk program and the Second Mile Thrift Shop together as one ministry. When the businesses in the 17-19 Church Street building decided to move, they designed a combined program that could move into the building, enabling an expansion of the program to include the refugee-resettlement and crisis-response ministries. Rev. Katzmar made presentations to the boards, committees, and congregation, and after the grant was made, the Church Street Ministries was formed and dedicated on May 14, 1994 in a ceremony led by Rev. Katzmar.

My fellow colleagues, please join me in congratulating Rev. Katzmar on all his achievements in helping to create a welcoming atmosphere in the First Congregational United Church of Christ. His love and dedication to serving the Church has touched the hearts of all in the community.

PROTECTING AMERICAN STEEL

HON. KEN LUCAS

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 28, 2001

Mr. LUCAS of Kentucky. Mr. Speaker, America's steel industry has been hit by an unprecedented flood of low-priced, imported steel. As a member of the bipartisan Congressional Steel Caucus, I have become increasingly frustrated as I have watched this flood of low-priced imports force our steel producers to either slow production or close up shop. That is why I was pleased by the Administration's recent decision to heed the advice of the Congressional Steel Caucus and the pleas of the steel industry by initiating an investigation under Section 201 of the Fair Trade Act of 1974. On Friday, June 22, 2001, U.S. Trade Representative, Robert Zoellick requested the International Trade Commission (ITC) to begin that investigation.

Pursuing a Section 201 means that we will now investigate the illegal dumping of foreign steel into our marketplace. If the investigation finds that unfair trade practices were used by foreign countries in the United States, we will be entitled to seek relief from imported steel—including imposing punitive tariffs and trade restrictions. This investigation is a step in the right direction. It puts foreign steel producers on notice that we will not simply stand by while unfairly subsidized steel imports leave our steel plants idle and our steelworkers without work. But we need to do more.

Over 15,000 steelworkers nationwide have lost their jobs due to the current industry crisis. Since 1997, at least 18 steel companies have filed for bankruptcy. The health insurance of 70,000 steel-company retirees is now in jeopardy—that's 70,000 Americans faced with losing health care coverage precisely at the time in their life when they can afford it the least. Although a Section 201 investigation must report its findings within 120 days, the

ITC can take up to a year to figure out how to respond to unfair trade practices. America's steel industry needs relief now. Simply put, Congress needs to enact the Steel Revitalization Act of 200, H.R. 808. And the President needs to sign it.

This bill directs the President to impose quotas, tariff surcharges, or other measures on imports. Among other things, it requires the President to negotiate enforceable, voluntary export restraint agreements. And the Steel Revitalization Act takes care of those who have suffered most from the current situation—the steelworkers who have lost their jobs. The bill establishes programs, such as the Steelworker Retiree Health Care Fund, to help these workers take care of their families. This fund would be accessible by all steel companies to provide health insurance to qualified retirees. The measures included in the Steel Revitalization Act would help families throughout Kentucky's Fourth Congressional District, from Shelby to Boyd Counties, who depend on our domestic steel industry for their livelihood.

Our steelworkers work hard to ensure that quality American steel girds our growing communities. That's why I, along with 220 other members of Congress, have cosponsored the Steel Revitalization Act. I am determined to keep our domestic producers in this important industry from falling victim to unfair trade with foreign nations. Along with the Section 201 investigation, the Steel Revitalization Act would go a long way toward ensuring that steel remains a vital industry in Kentucky and the nation.

PASSAGE OF ENERGY AND WATER
DEVELOPMENT APPROPRIATIONS
BILL

HON. TED STRICKLAND

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 28, 2001

Mr. STRICKLAND. Mr. Chairman, I would like to thank our Subcommittee Chairman and Ranking Member for the hard work they put into this bill, which includes a number of programs that are very important to Southern Ohio. I would like to take this opportunity to comment on these Department of Energy programs that directly affect the workers and communities supporting the Portsmouth Gaseous Diffusion Plant located in Piketon, Ohio.

First, I would like to express my support for the \$110,784,000 included in the Fiscal Year 2002 Energy and Water Appropriations bill for costs associated with winterization of the Portsmouth, Ohio Gaseous Diffusion Plant and maintaining the plant on cold standby. It was just over a year ago today that the United States Enrichment Corporation, Inc. (USEC) announced that it would close the only U.S. uranium enrichment plant capable of meeting industry's nuclear fuel specifications. While I cannot overstate my disagreement, disappointment and disgust with that decision, I am pleased that funding will be available in Fiscal Year 2002 to ensure that the Portsmouth facility remains in a cold standby condition so that it could be restarted if needed in the future. I have been assured by the Department of En-

ergy that the funding levels in this year's appropriations bill will allow the Department to meet its goals as announced in Columbus, Ohio on March 1, 2001 and as stated by then Governor Bush last October.

I am aware of report language accompanying the bill which discusses the non-proliferation programs with Russia and, specifically, the Highly Enriched Uranium (HEU) Agreement. I support this incredibly important foreign policy initiative and I agree with the language calling for the Russian HEU to "be reduced as quickly as possible." I am also aware that the purchase of the 500 metric tons of Russian HEU has not always stayed on schedule, and I support exploring ways to accelerate the purchase of the downblended weapons grade material from Russia. However, I would hope that we can accelerate this program without adversely affecting the domestic uranium enrichment industry. Today, we are dependent upon this downblended Russian HEU for approximately 50 percent of our domestic nuclear fuel supply. Increasing that dependence makes no sense to me, particularly at a time when we are debating a national energy strategy calling for greater energy security in order to avoid price volatility and supply uncertainty. We must act in a manner that strikes a reasonable balance between this significant foreign policy objective and the need to maintain a reliable and economic source of domestic nuclear fuel.

I am disappointed that the Department of Energy's Worker and Community Transition Office funding falls short of the President's request. I am deeply concerned that the allocated funding is inadequate to address the needs of the Department of Energy workers and communities across the DOE complex who depend on these funds to help minimize the social and economic impacts resulting from the changes in the Department of Energy's mission.

Finally, but not least of all, I am concerned about the slight reduction in the funding for the Department of Energy's Environment, Safety and Health Office. I am hopeful that this reduction will not impact the extremely important medical monitoring program at the Portsmouth plant, which also serves to screen past and present workers at other sites throughout the DOE complex. I am hopeful that these funds will be restored as the bill moves through the conference committee. We now know that many workers at DOE sites, including the one in Piketon, Ohio, handled hazardous and radioactive materials with little knowledge and, oftentimes, with inadequate safety practices. In fact, a May 2000 report issued by the Department's Office of Oversight on the Piketon Gaseous Diffusion Plant states, "Due to weaknesses in monitoring programs, such as the lack of extremity monitoring, exposure limits may have unknowingly been exceeded. In addition, communication of hazards, the rationale for and use of protective measures, accurate information about radiation exposure, and the enforcement of protective equipment use were inadequate. Further, workers were exposed to various chemical hazards for which adverse health effects had not yet been identified." Scaling back the medical monitoring program now would be unconscionable knowing what we know today. Furthermore, the compensa-

tion program established last fall by passage of the Energy Employees Occupational Illness Compensation Program Act (EEOICPA), designed to compensate employees made ill by the work they performed for the government, would be weakened if workers are then denied access to medical screening. Although the EEOICPA is not a perfect bill, it would be a shame to hobble a long overdue program before it is even out of the gate.

HONORING THE LIFE OF ED SMITH

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 28, 2001

Mr. McINNIS. Mr. Speaker, I ask today to honor Ed Smith, a true hero, on behalf of Congress. Ed served as the Centennial football coach, as school district administrator, and he served as a model for how to win, how to lose graciously, and how never to give in. He was also a man devoted to his family up until his recent death just months before his 100th birthday.

Professionally, Ed was revered by his colleagues. Central coach, principal and teacher John Rivas told Loretta Sword of The Pueblo Chieftain, "He was the godfather of it all, you might say, and he was always there to help me if I had a problem or a situation I didn't have a handle on." Ms initiative helped ensure that the Dutch Clark Stadium had the financial and community support necessary to be built. Also, he made certain that the annual All-Star games were properly organized when they were in Pueblo, and that everything went smoothly and safely. For his success, he was even named honorary meet director and was honored for the work he did in the athletic arena for the community. Ed was a gifted athlete himself, and he never lost his love for competition, or his skill at it. When he was 91 years old, he shot a hole-in-one with thirty-year-old golf clubs he received as a retirement gift.

During his life, Ed received many honors and awards, including having his name on the rolls of the Greater Pueblo Sports Association Hall of Fame and the Centennial Hall of Fame, but his greatest reward was that, as former coach Sollie Raso attested, "I honestly think . . . [he] and his wife, they were at peace with one another, their family, and their God." Indeed, Ed was a dedicated husband up until his wife, Margaret Boyer Smith's, death. He also devoted himself to his two sons, Dr. Dean B. Smith, who preceded him in death, Dr. E. Jim Smith, and to his sixteen grandchildren and nineteen great-grandchildren.

Clearly, Mr. Speaker, Ed Smith was an inspiration to his students, colleagues, family and friends throughout his life. I am proud to have this opportunity to pay tribute to such an amazing man.
