public and emergency management officials of the potential for flooding associated with tropical cyclones. We are in the middle of hurricane season, and a deadly storm could occur any day now. I am pleased that my bill has the support of so many Science Committee members including Chairman Boehlert and ranking member Hall. I hope we can see action on this life-saving bill soon.

AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES—APPROPRIATIONS ACT, 2002

SPEECH OF
HON. THOMAS G. TANCREDO
OF COLORADO
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 11, 2001

The House in Committee of the Whole on the State of the Union had under consideration the bill (H.R. 2330) making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2002, and for other purposes:

Mr. TANCREDO. Mr. Chairman, I rise in opposition to H.R. 2330, the Agriculture Appropriations Act, a bill considered on the floor today which makes appropriations for the Department of Agriculture and related agencies. But more specifically, I rise in strong opposition to the increase provided in the bill for the Food and Drug Administration (FDA) and would like to call the House’s attention to a problem that one of my constituents has been having with the agency and one that I believe deserves careful consideration by the oversight committees in this chamber.

Recently, the FDA gave final approval of my constituent’s Pre-Market Application for both total and partial joint implants after an exhaustive and blatantly biased two year review, but not before costing his company over $8 million in legal fees, lost wages and profits.

In April 1999, I received a phone call and letter from TMJ Implants, a company located in Golden, Colorado, in my district, which had been having problems with the review of its Premarket Approval Application of the TMJ Total and Fossa-Eminence Prosthesis. Up until last year, the company was the premier market supplier of temporomandibular joint prostheses.

Over the last two years, I have taken an active interest and an active role in monitoring the progress of TMJ Implants’ application, which was finally approved in February. On numerous occasions, I met with Dr. Bob Christensen, President of TMJ Implants, to find out information about the approval of the Partial and Total Joint, and personally talked to FDA Commissioner Jane Henney and to members of the Agency about the status of the company’s applications. I was also, and continue to be, in contact with the House Committee on Oversight, which has sole jurisdiction over the FDA and issues relating to abuse and the internal operations of the agency.

Specifically, I closely followed this case since my office’s first contact with Dr. Christensen and TMJ Implants in early May 1999, after a meeting of the FDA’s Dental Products Panel of the Medical Devices Advisory Committee was held to review the company’s PMA and recommended approval of
