El Paso Natural Gas, of course, is now under investigation for having withheld gas from the pipeline. Somehow gas provided in Texas shipped to California, which is a little closer to Texas than New York City, was sold at four times the price in California than it was sold in New York City and somehow they did not use a very significant portion of the pipeline capacity, which contributed to the run-up in the price. They had a $2 billion profit, a 301 percent 1-year increase. Not bad, and of course, they share the wealth. Now do they share it with the consumers? Well, no, not exactly. But they do share the wealth.

A number of these companies have very generously shared the wealth with their CEOs. For instance, with Enron, who I mentioned earlier, who had a $979 million, nearly a billion in profits last year, the CEO netted $123 million all by himself. That is the ridiculous thing that the CEOs have. Kind of income that the CEOs have, well, then they might be able to get away with it. But I developed this document, lots of people, They said, well, name some. He said, well. They said, Ken Lay of Enron? And they said, was that the only person? He said, no, I met with lots of people, but he will not tell us who the other lotizes are.

He did admit that he met with Ken Lay of Enron, the same Ken Lay of Enron who called the chair of the Federal Energy Regulatory Commission, who is no friend of consumers, Mr. Hebert of Louisiana, who has refused to act to rein in prices, but he even called him to say that what he was doing was not enough for his company as chair of the Federal Energy Regulatory Commission and if he would do what Mr. Lay wanted, well, then they might be able to assure him that he could continue to be chairman.

Mr. Hebert, again no friend of consumers, was outraged. He went to the press about this and said I cannot believe that this gentleman called me. Well, this is who is writing the energy policy of this country.

Mr. FILNER. Some of our colleagues do watch us as we make these statements and talk about the situation in the West, and they say stop your whining. It is your own damn fault. If you did not have these environmental whackos in California and Oregon who stopped the building of power plants, you would not be in this situation.

Now I would like to hear what the gentleman says to them, but I say that is the ridiculous argument. Number one, I said that there was the situation in the West that chose not to build power plants because they had calculated that they had a surplus. They miscalculated that, but that was a decision made in their economic interest, they thought, not because of any environmental regulations.

I am going to soon announce in San Diego the building of a new power plant.
He is going to show that you can follow every environmental regulation that is there to protect us, every permitting policy, build a plant in a rather quick amount of time, and charge what would be the price under previously relaxed rules, say nickel a kilowatt, as opposed to the 40 cents, $1 or even $4 we have been charged. He is going to put a lie to the notion that it was environmental wackos who caused this.

We are going to have a plant in San Diego that is environmentally sound and produces electricity in a reliable fashion and at moderate price, at a price we can afford in San Diego. When we have control, I hope the City of San Diego and the city of San Diego will own that power plant. That will give us one-third of our needs and give us tremendous leverage over the whole system.

But I am sick of hearing that somehow we caused this thing because we were trying to protect the environment. I know the gentleman has heard the same arguments. I think we have to answer these directly and show that what we are proposing makes more sense to solve this issue.

Mr. DeFAZIO. In fact, I would quote from a spokesman for Reliant Energy on January 25 from the Los Angeles Times. He stated that “claims that air quality restrictions were holding back output were absolutely false.”

Similarly, in May in the New York Times, “Industry executives have been pressing to get relief from environmental laws, most notably the Clean Air Act and land use restrictions, but such regulations are viewed by many executives as nuisances.” Of course, they do not live there and breathe the air there, “rather than barriers to meeting demand. This is borne out by the ongoing surge in construction of transmission lines and power plants that has occurred without any easing of environmental regulations, despite the best efforts of the Bush Administration.”

So, this is a falsehood that was initially and early widely perpetuated across the West that this was a self-inflicted trauma. Of course, that was before we had the numbers to show that all these plants were off line and driving up the price. In fact, California was about 30 percent below its maximum production a number of times when the lights went out. The winter is your low demand period. That is when you usually export energy. Yet the prices were sky high and you were experiencing rolling blackouts and brown outs. This was not the fault of environmental restrictions, it was the fault of greedy companies. The interesting thing is they have been reined in a little bit. As the gentleman and I know, we tried to get the Federal Energy Regulatory Commission for months to act. Their own staff had found that these prices violated the law, they were not just and reasonable. That was a staff finding by the Federal Energy Regulatory Commission.

But Mr. Hebert, as Chairman, refused to take action and do anything about that, refused to do further investigations beyond one whitewash investigation saying there was no manipulation of the market. We now have a GAO report saying there is no way they could have reached that conclusion. They do not have sober, unvarnished to reach beyond all that conclusion. Yet he refused, stonewalled, it was called a sit down strike at FERC. I attended one meeting where he said he would pray for us, but that was all he could do.

Mr. FILNER. I think this administration has a faith-based energy policy. They not only pray for us to do something, they pray to the market where there is no market.

Mr. DeFAZIO. Well, that is exactly it, worshipping the market where there is no market. But, finally, and strangely, after the Senate changed hands from Republican to Democrat and two committees subpoenaed in the Federal Energy Regulatory Commission and their staff to come in under oath and testify about what was going on in western energy markets, somehow 2 days before they were supposed to testify in the United States Senate under the new Democrat control, FERC held an emergency meeting and imposed some minimal price caps.

Now, this is something they refused steadfastly to do for the first 6 months of the Bush Administration. But, suddenly, just because of a little tiny bit of scrutiny, let alone real scrutiny, let alone real regulation, let alone enforcement of the law, investigation by the Justice Department for price fixing, market manipulation, price gouging and all of the other things we know is going on, you cannot take the price of an essential commodity and drive it from $7 billion for the same amount of energy to $27 billion in one year, have profits increase by 300 percent, and then drive it the next year up by another 100 percent, without there being collusion and manipulation in that marketplace. Yet the watchdogs, the toothless, sleeping watchdogs at FERC, led by Mr. Hebert of Louisiana, are just like, oh, we are not quite sure what is going on.

In fact, I had some FERC people into my office last week and we talked about there is a new area coming. They are going to game transmission right now. Right now they are just gaming generation, but they figured out a new, bigger, more lucrative potential game for the future, and it is called transmission.

Mr. FILNER. The gentleman said it earlier, that Enron and the President were trying to get a national system which this could then more readily control. But I would like to also underline what the gentleman just said both manipulation of the market to increase the prices and also the incredible suffering in California and the West.

Not only does that market control give them the ability to fix the prices, but, tragically, for the future it allows them to pick and choose which energy sources will be studied and given development, and they have chosen, because they cannot control it, not to allow research and development into solar, into photovoltaic solar cells, from Reliant Energy sources beyond one whitewash investigation saying there was no manipulation of the market. We now have a GAO report saying there is no way they could have reached that conclusion. They do not have sober, unvarnished to reach beyond all that conclusion. Yet he refused, stonewalled, it was called a sit down strike at FERC. I attended one meeting where he said he would pray for us, but that was all he could do.

Mr. FILNER. This Congress ought to be looking not only at, as the President, new production and et cetera of the fossil fuels, but the structure, the economic structure of the energy industry, which not only has fixed the prices, but has foreclosed or attempted to foreclose part of our future by not allowing the research and development that we so desperately need in these other areas.

Mr. DeFAZIO. If the gentleman will remember back 20 years, back in 1980 the United States of America through our labs, Federal labs in Golden, Colorado, was the world leader in photovoltaics, an endless source of energy coming from the sun, that could replace the fossil fuel use for quality electric, if we could get the price of photovoltaics down.

The Reagan Administration said that research and all of the proprietary work that had been done to the ARCO Corporation, and then the ARCO Corporation sold it to Siemens of Germany, and now the Germans are the world leaders in photovoltaics based on research paid for by U.S. taxpayers, and some day we will probably be buying photovoltaic gear cells from the Germans, like we are having to buy oil from the OPEC cartel.

These future supplies of renewable and sustainable energy are going to be more important to us, and for the United States of America, for the President of the United States to slash investment, which he did in his budget, in these sorts of research, is cutting the legs out from underneath the American consumers, the American people and American business and industry, to make us a sustainable and affordable energy future.

We need to be investing more in fuel cells, more in photovoltaics, more in...
Mr. FILNER. Amen.

Mr. DeFAZIO. Our time is about expired. I do not think really I can end on a much more eloquent note than the gentleman just made, which is that there is sort of two paths that can be chosen for the American people at this point in time. One is a sustainable, reliable, inexpensive energy for the future, and the other is more of what is going on today, crisis after crisis, higher prices, price gouging, manipulation, and being held hostage by the OPEC cartel and the other traditional proponents of the energy industry.

I would like to choose a new path for the 21st century. So far the administration is choosing the 1850 path.

Mr. FILNER. Amen.

THE PRESIDENT'S PLAN FOR ENERGY

The SPEAKER pro tempore (Mr. OSBORNE). Under the Speaker's announced policy of January 3, 2001, the gentleman from California (Mr. RADANOVICH) is recognized for 60 minutes as the designee of the majority leader.

Mr. RADANOVICH. Mr. Speaker, I appreciate the privilege to come on this floor and talk about the President's plan for energy and for the future of the United States of America.

I wanted to make a couple of points in response to the speech of the previous hour regarding the situation in California. I am from California. I represent Fresno, California, and the central part of the state, where we too are at ground zero of the California energy crisis.

There were a couple of statements made earlier which spoke ill of deregulation and used California as an example of that, and I would like to clarify that in California there was never really a deregulation plan. It was half a deregulation plan.

In California's deregulation plan, the rates and the charges that the utilities were able to charge consumers were frozen. They were frozen rates and were not allowed to be increased, whereas the wholesale rates, or those rates that utilities had to go out and purchase energy for, were unlimited and put on the spot market, so that they would change minute by minute, hour by hour, every 24 hours, which made them very susceptible to high price spikes and such.

That was the problem in California, the problem that the price increases could not be passed on as signals to the consumer to start conserving was what created the energy crisis in California.

It was half of a deregulation plan, and under such a situation, it could have been easily corrected, up to a year ago. In May of the year 2000, when evidence started showing in San Diego and other parts of the state, that prices were going through the roof, the Governor of California, who I believe was more concerned about providing leadership in a crisis than, frankly, his own reelection prospects and obtaining the presidency, had he acted earlier and imposed or allowed the PUC, the State PUC, to impose a 20 to 25 percent rate increase, not like the 48 percent rate increase that was passed because he waited so long, I think, people would have been able to begin conserving and he would have been able to get a lot of those utilities off the spot market and into some long-term contracts that made sense, and we would never have faced a $20 billion hit to the State of California.

The minimum damage that could have been done would likely have been around $500 million to $1 billion.

It was due to lack of leadership in California that created the energy crisis, and it was lack of leadership from the Governor and the State of California that the problem got to the point where we have got poor leadership on this issue in the State of California.

If California really wants to get out of their energy crisis, they only need to do a couple of things. I would say three things.

First, the Governor has to stop buying power. I think the Governor has been taking on this responsibility for about 6 months now, and, since then, he has been purchasing energy up to seven times more than what the utilities are able to charge for and get back.

That is an upside down equation that leads to billions and billions of dollars worth of debt that the utilities, after $9 billion in debt, could not manage. So the State has started incurring those losses, and still do.

Today, California's Department of Water Resources, under the eye of the governor, is purchasing power right now 3 to 7 times more than what utilities are able to get from it. Now, granted, those prices are starting to come down, because a rate increase of 48 percent was imposed by the governor a year after he could have done it and averted this whole problem, has come into effect, and people are starting to conserve, and the future prices of energy are beginning to come down.

The only thing that would have happened a year ago and did not happen until now. My own utility bill that I just got from my residence in California right now is about 4 times more than average of it. I think people in general are experiencing a doubling to tripling of their retail rates because of this. A 20 to 25 percent rate increase early on, with decisive leadership from the governor, would have prevented this entire thing and, instead, in waiting so long and in purchasing energy at such convoluted prices, he has led California into this crisis and we are still in the middle of it.

Mr. Speaker, in addition to that, the governor has entered into long-term contracts that do not start for about another year, but the average of those long-term contract prices range from about, again, 3 to 7 times more than what the utilities are able to charge for. I had a company in my office the other day that talked about the inability of the governor to sit down with all those that are involved in the energy crisis in California; that would be the utilities, that would be the marketers, that would be the sellers, that would be the buyers, everyone who cares about California and who has a business stake in California, not only in the short term, but in the long term, and to sit down and work through this process, really resulted in nothing.

In fact, the prices, in fact, did not start until at least 8 months after the crisis began. Had the governor gotten people into his room, he would have been able to negotiate things.
Mr. Speaker, I am grateful that the gentleman from California, who just spoke, pointed out that for 8 years we have just kind of been Moses in the desert wandering, trying to find out where we are going on this thing. I think Mr. Richardson, who is the Secretary of Energy, made an interesting statement when he said something to the effect that for 8 years we had not had a policy, and now it is about time that we started putting one together. So for 8 years we have kind of wandered around wondering where we were going. In
fact, if we did anything, we ruined a lot of areas because of monuments that were not thought out and things along that which are not going to be there.

Vice President Cheney was given the assignment to work on the energy program and did a very commendable job. I read it very carefully and, in my opinion, if there is one word that would explain what the present administration has come up with, it is the word "realistic." They came up with a realistic program on how to face some of these things.

Now, I enjoy hearing my colleagues talk about all of these wonderful things that are going to happen and how it is going to come together, but when we get right down to it, in all honesty, what is "going to happen" is not there. We cannot drive into a gas station and go to this station and get just the energy pump because there is nothing there yet. As we look at which we get our energy, 2 percent comes from alternative areas such as wind and solar and things such as that, and I definitely feel [that] we could do the technology and advance it as far and as rapidly as we can. However, it is not there right now.

I would like to use the illustration of a gentleman that came into my office about 5 or 6 years ago and he started telling me about all of the interesting things that have occurred in transportation. He said, years ago, we used to use horses and then we went to cars and most people went on buses or trains, and it was really a big deal when the 2 trains came together in Promontory, Utah, in my district, incidentally, and every May we celebrate the idea of driving the golden spike. Gosh, we could get on a train and instead of doing 4 miles an hour on a horse, we could breeze across the country in a train. That was a wonderful thing. People really thought it was a Utopian idea. Then came along airplanes and, of course, now we do not see too many people travel on trains, most of us go by air.

Well, he made an interesting statement. He said, I am working on a program, and, he said, I think it will be there, where you walk into a thing like a phone booth and you punch in San Francisco and zap, you end up down in the matter of a blink of an eye, and have shown that they can do that airplane, we still have to drive our cars, we still have to heat our homes, we still have to light our homes. So what is going to get us back to what the Vice President was talking about? We are talking about a realistic program to get us out of this energy problem that we are in.

That is why this bill was introduced today in the Committee on Energy and Commerce today, so we could take care of these things.

I was interested, in listening to the former speakers. When I was listening to them, I thought back to that gentleman who came in and talked to me about this wonderful idea.

Gosh, I know there is a lot of energy from the sun. I agree with the gentleman from Oregon. It is too bad we cannot capture it and make it all work right now. If someone would step up to the plate and say, here is the technology that we have, and doggone it, we are going to do this right now, I commend them, and I hope they come up with something good.

But right now, the plan that we have introduced in both of these committees is around this word "realistic," and realistically, where are we getting our energy? Our energy is basically coming from fossil fuels. Also, it is coming from other areas. We do get some out of water. We do get some out of various sources of energy. But right now, the one that they have come up with takes care of that.

I notice the one gentleman from California talked about the idea that it was not California’s problem, it was the problem of these big energy guys who would not build these things. Well, no disrespect to our good friend from California, and especially my friend, the gentleman from California (Mr. RADANOVICH), but let us look at what California has put in the way of restrictions compared to other areas.

California has made it so difficult to build a nuclear plant, a coal-fired plant, especially a coal-fired plant, a gas-fired plant, that it makes it totally impossible to do it.

A lot of these people come and say there are too many regulations, too many hoops to go through, and therefore, we do not want to do it.

Mr. RADANOVICH. If I may weigh in a little, too, California used to have three nuclear facilities. We only have one, now. A few years ago, the Rancho Seco Nuclear Power Plant, which was in the Sacramento area, the voters in the area voted to shut the thing down, so they not only discouraged new ones, they actually went after existing power-generating facilities.

So if it is true, unfortunately, the view that we could have increased population and not increase energy capacity. That is not realistic, but I think that is the view that the gentleman so well expounded. That alternative energy is great, I think it needs to be expanded, but it is not realistic to think that it is ever going to meet a significant portion of our energy needs. It is just another way of saying that we do not want to develop our own energy resources.

Mr. HANSEN. That is sad, in a way. Because if America is willing to say, all right, we do not want to drive our cars, heat our homes, do not want power or air conditioning, we will just go back to the Stone Age, so to speak, then let us all stand around and say, gee, this is wonderful. Look at this beautiful environment.

But America is not going to do that. America is a forward, progressive country, always looking for that edge of the envelope where we can get ahead. Gosh, will that not be nice when we do develop these things. I hope it is in our lifetime where we can see these things come about, and we will have the energy pollution and that type of thing.

But I hasten to say that a lot of these things are much better. We just talked about nuclear. They are very, very safe. It is kind of sad, but a lot of politicians like to get up and talk about how terrible it is, we are all going to die because we have that. A lot of people do not realize that we have not built these new nuclear plants, but we have gone from 12 percent of nuclear dependency up to 20 percent just through efficiency.

I think really, I would say to my friend, the gentleman from California, that the thing we have to realize is that we are now 57 percent dependent on foreign sources, 57 percent, according to testimony today in the committee from the Department of the Interior.

It was not too long ago. In fact I think right at the time of President Clinton’s administration, where we were about in the thirties. So we have really gone in a hurry to get ourselves up to this amount.

What does America want to do? Where are we getting that 57 percent? Some of it is from our friends from Venezuela, some of those areas. But let us just have the American public look at this. That is, do we want to depend on those we can least depend upon? Do we want to depend upon Iraq, with a man like Saddam Hussein having his hand on the spigot of the oil we get? Do we want to depend on Iran? Do we want to depend on Libya? Do we want to depend on countries that we can hardly depend on who are sworn enemies to us, who many of them practice terrorism on us? Do we want to depend on those people?

People say, OPEC surely does not have the range of this thing. Who are we kidding? They can make this go up and down in the matter of a blink of an eye, and have shown that they can do that.
What was so bad about the idea of looking at other sources? Now, a real great actor who considers himself a great environmentalist, who has probably done more to foul it up than anybody I know, wrote a letter to the administration criticizing them for going to ANWR, and made the statement in his letter, well, we are only getting 6 months' worth out of that.

Come on, let us think about that a while. Where do we get this? Does it all come out of one big spigot? Of course not. We get some from Texas, some from Indiana, some from Utah, some from Venezuela, some from California, some from Saudi Arabia, some out of Alaska, we get some offshore, so it is an aggregate.

If we just took one of those, we could say that about any source there is, that and to tackle the problem, they can go look at this thing at ANWR up on the North Slope of Alaska. What do we have up there? It is east of Prudhoe Bay. The last time I was there and heard these people talk about it, they used a lot of figures. One that jumps out at me was 1 million barrels a day for 100 years. That would be about 11 percent of what we are getting.

Then I debated one of our Senators. He said, there is no infrastructure. Where has he been? It is only 74 miles over to the Ayleska pipeline. That is a lot better than we have in the West in a lot of different instances where they could pipe it to the Ayleska pipeline, down to Valdez, and we could use that source.

Today in testimony it went on ad nauseum, and Secretary Norton did a very fine job in explaining the position of the administration about fouling up ANWR. The gentleman from Alaska (Mr. YOUNG) was there, and very admirably talked about what ANWR is. Frankly, as we look at it, that is 19,600,000 acres. That is the size of South Carolina. If we look at that, we will say, how much are we going to use? The figure now is about 2,000 acres, but it could even be 10,000, but they said 2,000 today. Figure the percentages in that. That is an infinitesimal drop in the bucket.

Also, they talked about the technology, where they can use that small area, and to tackle the problem, they can go to the oil areas, and we would never even know it was there.

The gentleman from Massachusetts said, yes, that is all right, who would be against that? But how do we get it out of there? Do we fly it out, balloon it out? He made light of the idea. He said no, what we do is put in oil lines. That is true, but they are not going all the way out? He made light of the idea. He said no, what we do is put in oil lines. It amazes me that some people will stand on this floor and other areas and criticize the use of hydropower. What is better than that?

I was talking to a gentleman. He said, let us all go to wind. Maybe that is good, I do not know, but I have gone through some of those areas with wind. Maybe they are doing it. But here are these beautiful green acres, and they are all filled up with propellers spinning around. I do not know if that is better. It bothers me maybe as much as an oil rig would. The Audubon Society points out they do not like all the birds going through and getting creamed by those things.

Let us just say to my friend, the gentleman from California, that the bill we have introduced today is a good mix, a good step forward. Four committees of Congress are going to have to be involved, the Committee on Energy and Commerce, the Committee on Resources, the Committee on Ways and Means, and the Committee on Science, to determine if we can come up with a package.

I would just ask the people in America, let us get off this political nonsense. Let us not try to make political hay on this. Let us say we have a President, and we do not care if he is a Democrat or Republican, but this Republican President has decided he wants to cure a problem before it gets disastrous. Let us get behind him and get this done.

The cheap political points some people make on this do not make much sense to me. It makes more sense to say, all right, everyone is going to have to bend a little bit.

In my 42 years as an elected official, the thing that bothers me the most is the person who sees a beautiful piece of legislation, but boy, he cannot go along with it because it has two sentences in it that bother him. If he cannot get them changed, put it on a scale of one to ten, and if it is a 9 or 10, why does he not go with it?

Years ago, I took my young family down to the Grand Canyon. We were standing on one of those beautiful points on the North Rim and looking at one of these seven wonders of the world. It boggles your mind. It is awesome.

My one little son, about 6, he says "Hey, Dad, what about that ugly worm down there?" I said, "Paul, what is the matter with you? Here is the beautiful canyon, and this is the thing that you are worried about?" He said, "Dad, look at the worm." I looked at the worm. I could not get Paul off the idea of that little worm.

Then for somebody say this is a great bill, but it only goes 90 percent, I cannot go for it, for heaven's sakes, if it is 90 percent, go for it. Give it some thought.

Maybe this bill will have something in it that will have something that the gentleman does not like or I do not like, but right now it is the Grand Canyon. Let us not look at the worm.

Mr. RADANOVICH. Mr. Speaker, I thank the gentleman from Utah for that, and for all his work on the Committee on Resources regarding the national energy policy.

Mr. Speaker, there are a couple of things that the previous speakers were speaking about that stick in my craw. I just have to address them.

One was regarding the issue of price-gouging. There was a lot of talk about price spikes and all these out-of-State generators that were making incredibly large fortunes.

FERC did a study. They came back, or at least the judge that is trying to resolve the dispute between all those involved in the California energy crisis, he came back with the numbers. The out-of-State generators, out-of-State of California, made up or earned about 10 percent of those monies that are alleged to be overcharged during these last 6 months. The other 90 percent went to in-State-qualified facilities and also public utilities, like SMUD, the Sacramento Metropolitan Utility District, and in L.A., the similar utility district in California.

Ninety percent of that number that is alleged to be price-gouged went to utilities within the State of California. So we had just better get our numbers right, and better yet, they had better stop doing the blame game and get to solving the problem in California.

There is another thing that was talked about. That is the price caps, the issue of price caps in California, keeping the price down. The FERC did react by providing what they call a 7-24 monitoring system, where 7 days a week, 24 hours a day they will monitor prices, rather than just doing it during
CONGRESSIONAL RECORD—HOUSE  July 11, 2001

Mr. Speaker, I yield to the gentleman from California for yielding to me, Mr. Speaker. I am very pleased to join him and the gentleman from Utah (Mr. Hansen) in a discussion of the Republican energy plan, which is progressing nicely through the House of Representatives. That is, we will be able to enact it fairly soon.

I will be taking a totally different tack in discussing this. This is because of my background as a professor, a nuclear physicist, and also because I have done a fair amount of research on energy over the years. So I am going to deal with the long-term view, but also talk about some basic facts of energy.

Part of the reason is that I listened to the previous hour of debate here in which the other party seemed to be implying that the Republicans do not know anything about energy or energy policy. Well, we have just heard from two speakers on the Republican side who know a great deal about energy policy, first about the situation in California, and secondly, about extraction of resources.

I am going to talk about it from the standpoint of basic science and what we can learn from that and what we can and cannot do and how that impacts us in the future. I am also going to take a rather long-term view on some of these issues because we have to think long term on this.

I do have to say that dealing with energy and public policy has been very frustrating to me because when I was first elected to the Michigan legislature and worked in both the House and the Senate, I tried to work on developing a solid energy policy for the State of Michigan. I couldn't get anyone interested in the public or the legislature because we did not have a crisis at that point. Even I decided I could better spend my time elsewhere.

When I came to the Congress, I tried to do the same, and again no interest. Once the crisis hits, and by a crisis I mean the price of gas at the pump going up and the price of utility bills going up, suddenly everyone is interested then. I am a little concerned now that the price of gas at the pump is going up and they may lose interest again. But regardless of what they say or do, we must have a good energy policy, and I hope that will emerge from my comments.

In the study of energy, one of the first things we encounter is the three laws of thermodynamics. Now, thermodynamics, that very word, means heat going into motion. And that was extremely important about 150 years ago when the laws of thermodynamics were developed because that helped us build steam engines, and not only just build steam engines but helped to build efficient steam engines that led to the industrial revolution in terms of steam engines to do work in the factories and also steam engines to move trains across continents.

The laws of thermodynamics, and I do not want to get into a lot of detail, the first one we can ignore, it is very elementary, just dealing with temperature. The second law of conservation of energy, which simply says that in a closed system, energy can be neither created nor destroyed but can change form, from one form to another.

Well, what are the forms of energy? There are many, but I will just mention a few. First of all, let me explain that I am going to deal with the long-term view. And so when we apply a force through a distance, we do work. And so when we apply a force through a distance, we do work. And when I pull on it, I have to exert a force. Exert a force through a distance, I am doing work on it. I am imparting energy to this. It is stored as potential energy in this rubber band; or at the molecular level it is stored in the molecular stretching of the bonds within the molecules and between the molecules. When I stop exerting the force, it pulls my hands back in. That energy was stored there and it was used to pull my hands back together. But we lost some in the process.

As I said, in a closed system we do not lose energy, but we have lost some to heat, that is because this is a closed system, and that helps to warm the room. In fact, we could easily make a heat machine out of this if we wanted to use it for a heating system. Very inefficient, but we could have one that would just simply stretch rubber bands and the heat generated would be built in being able to heat a substantial space.

The third law of thermodynamics is even more important than the second, even though the second is extremely important. The third one is the statement that entropy and any reaction, any transfer of energy, always increases. Now, I am not going to get into entropy here. It is a very complex concept. But it basically means every time we transfer from one form of energy to another, the quality of the energy degrades. That means it is less useful. It cannot do as much work.

Remember, energy represents the ability to do work, and that is why it is so important to us. We went, as human beings, from the nomadic existence to an agricultural existence, or the agricultural age, where we first learned how to tame nonhuman energy to do work. In other words, animal energy. Before that, humans had to do everything. They tried agriculture and it just did not work that well. There were various agricultural communities, but they all had trouble and many of them failed. Once we had animal energy to use, they learned how to harness domestic animals to do the work, the plowing, et cetera, and agriculture flourished and continued to grow and increase for years.

The next big change was when we learned how to use nonanimal energy, that is the industrial age, where we built steam engines and other machines that allowed us to do more work. And the better the quality of the distance, the more work we can do with it. But as I said, the third law of thermodynamics says every time we use energy, it degrades to a lower level. It is not able to do as much work.
In a modern power plant, we burn natural gas or burn coal, and that produces heat, which we either use to generate power or operate a turbine. Out of that we get waste heat. We use cooling towers to get rid of it, but we could heat a lot of homes or greenhouses with that if we chose to. But we cannot get much more work out of it. Eventually, what we have done radiates out into space.

Now, those are very important concepts because what we have to remember about energy is it is our most basic natural resource simply because we cannot use any of our other natural resources without using energy. If we decide we want to dig a mine in Utah, for example, and extract some materials, and there is a huge copper mine in Utah, as I recall, that takes a lot of energy and extra time. We have to get the mill where it is extracted and smelted, rolled, then transferred to a fabric factory, fabricated, and finally transferred to the consumer. Every single step of the way takes energy, and that is why energy is our most basic natural resource. But it is also our only nonrecyclable resource. The copper that is pulled out of that mine, we can use it, and when we are finished with it in a product, we can recycle it and put it in a different product. But energy cannot be recycled. Once we use it, it is gone.

Now, all of these principles make it very important for us to develop an energy policy that recognizes this, and I believe that the energy policy that Mr. Bush has presented recognizes these issues and begins us on the road for a very long-term plan. There are many different ways of obtaining energy. We have talked tonight about retrieving energy from fossil fuels, primarily oil and natural gas. Another fossil fuel is coal, and that is very useful to us. These involve burning these fossil fuels, because they are combustible, and extracting the heat energy from them and converting that into electrical energy or into energy of motion or things of that sort.

We also know of other ways of using energy. We have Einstein's famous equation, $E=mc^2$ squared, which means that mass can be converted into energy and vice versa. But if we can learn how to convert mass into energy, we get huge amounts of energy out of small amounts of mass. And that is what we have with nuclear power and nuclear weapons. It is just amazing when we consider that the bomb that exploded in Hiroshima had just basically a handful of enriched uranium, of which only a part was converted into energy but was sufficient to destroy a major city; or that a nuclear reactor, rather than a bomb, can generate huge amounts of power for a long time out of small amounts of fuel.

We also have another means of nuclear energy, and that is fusion, where we combine hydrogen nuclei or Lithium nuclei and extract energy that way, because we lose some mass in the process. And someday, it will be a very good source of energy, but it is a number of years away. But, again, we have to do the planning, because we cannot recycle energy, and someday we will have to make sure we run out of the traditional sources.

Now, there are other things we can do. People talk about conserving energy. I do not really like to use that term, even though I support it. But I think it is much better to talk about efficiency of use of energy. Because conservation, I find, gives the image of people freezing in the dark. If we are heating our homes and we want to conserve, we turn the thermostat down, burn the lights out, and freeze in the dark.

In fact, I remember once I was at an event during the first energy crisis we know about, in 1973, and one of the speakers got up and he was very proud because they turned the heat down to 55 degrees. This is in Michigan, where I live. And they turned most of the lights out, and he told his teenage daughters that they were not allowed to use hair dryers. They just had to let their hair dry naturally, and so forth. And he went on and on about conservatism.

I asked him afterwards what kind of house he lived in. He said, well, we have a cement block house. I said do you realize that for a small amount of money you could insulate that concrete block house and still live comfortably with the same fuel bills? He did not realize that. He did not realize, for example, that concrete is not a good insulator. In fact, one-inch of Styrofoam has the same insulating power as four feet of concrete. In other words, by putting just one-inch of Styrofoam around his house, he would have saved as much as having a four foot concrete wall. And if they added a little more insulation, they would have been very comfortable.

That is what I mean about using energy efficiently. It is not a matter of using less, it is a matter of using it efficiently. And everyone, I believe, supports efficient use of resources. That is how businesses make more money, by being more efficient in their use of their material resources, human resources and machinery. So I think it is very important that we try to be as efficient as possible in our use of energy.

We also have to look at alternative ways of using energy. As an example, hydrogen. I think one of the better developments in automobiles that is coming along the path is the use of fuel cells, which we all will be able to use hydrogen, combine it with the oxygen in the atmosphere, and with almost no pollution produce electricity to drive an electric motor. Now, this is not easy technology, but we know it works because we used it on space vehicles, we have used it on the shuttle and other transportation purposes, and we have trial automobiles which use fuel cells. Right now they are still expensive because they are experimental. But someday, when we get the design down and manufacture them in bulk, I am hoping they will be able all as a good source of energy. We can either use gasoline in them or some other fossil fuel and preform it, as they say, so that we extract the hydrogen from it and run the hydrogen through the fuel cell and get our power that way.

Even better would be if we developed a hydrogen economy, where we develop hydrogen out of our fossil fuel resources, or by electrolyzing water, $H_2O$, remember, and separating it into hydrogen and oxygen, and that way we could, using electrical energy from nuclear plants or other plants, generate hydrogen and pipe it around, sell it at hydrogen stations instead of gasoline stations, and power our automobiles that way.

The Hybrid, incidentally, is an interesting way of improving mileage, and again using the energy more efficiently. A couple of manufacturers are doing that now. I expect a few more will be developed. But I regard that as an interim. It is slightly more efficient but not as good as the fuel cell is going to be.

We have to look at other possibilities for alternative sources of energy. Solar energy is tremendously promising in terms of its potential. We get as much energy on this earth from the sun per day as we expend from all our other energy sources for quite a number of years. Huge amounts of energy from the sun hitting the earth. The problem has been, the quality is very, very low quality, very hard to use. But we are making progress in photovoltaic cells, and I expect in not too many years we will find new homes built with solar shingles on the roof, shingles that will generate electricity and help heat the hot water in the House, help heat and cool the house, provide electricity for cooking, for the clothes dryer, and things of this sort, and with some electronics can actually provide high enough quality electricity to run TVs, VCRs, and a number of things.

So that is I think a promising alternative that is coming down the pike. I would estimate probably 10 years from now that will be economical. It is not going to be economically feasible to take our existing shingles off and put these others on. That would be costly. But as part of a new building or as part of a required replacement of shingles, it will become economically feasible.

We have others. Wind as power, of course, has potential. It is not a stable source of energy. We need an energy
storage device or supplementary energy. The same of course is true for solar, but it again depends where one lives. The usual promise, particularly for less developed countries. That, incidentally, is one of reasons and the main reason I was opposed to the Kyoto protocol.

I think President Bush was exactly right in saying that it is dead because it only put restrictions on the developed nations, not to developing nations. If we do not have some restriction on them or at least tell them at a certain date they have to meet these requirements just as we do, we will soon find all of them putting in highly polluting coal burning plants that produce a lot of CO₂ greenhouse gases, a lot of pollutants. Then when we say, there is too much production. There needs to be a cutback. They will say, look, we have all these investments now and all of these marvelous plants. We cannot cut back now.

I think if we have an international agreement. If we ever reach one that places restrictions on us, it also has to place restrictions on less developed countries because then they will make investments in alternative sources of energy such as solar, which is certainly the best answer in many places such as Africa and parts of Asia, rather than building these power plants which will create more problems.

So I have talked about a whole range of different issues tonight, and I did not get into the specifics of some of our current problems. But I am simply saying that the plan that the Republicans are developing is a good launching pad for the things that I have been talking about that we have to move towards in the future. It contains the seeds of a long term national energy policy and certainly include the good short term energy policy that we need right now to address the problems of prices at the gas pump and the crisis in California.

One last thought on that. We have to not only consider energy issues as we have talked about now, but we also have to consider the international relations or foreign policy aspects of it. We are 70 percent dependent right now on oil from other countries. As I said earlier, our country is our most basic natural resource.

We are at the mercy of other countries because if they cut off our supply for whatever reason, political or war or whatever, we are at their mercy because our industry cannot operate without energy and we cannot produce enough internally instantaneously. That is why it is very important, as the energy plan of President Bush points out, that we must establish our independent fuel sources in many countries. We have to develop our own sources. We have to develop alternative sources so we can truly be energy independent and not depend on the good will of individuals who may not feel very kindly toward us at various times. Mr. RADANOVIĆ, Mr. Speaker, in closing, I would like to point out that the lessons that are being learned in California do not have to be learned in the United States to get a decent energy policy. Even though California is second only to Rhode Island in energy conservation, we have had 28 stage one power emergencies, 63 stage two power emergencies and 38 stage three power emergencies.

The way it happens is when electricity begins to run out, that is a stage one alert. When it gets worse, that is a stage three alert and from there we enter into rolling blackouts.

We are having to suffer through that because they have not been keen on making sure that California has had adequate energy supply and we will create that. We will become a great State or continue to be the great State that we are. But I do not want the country to go through the same problems that California is because of an unrealistic expectation out of energy and where the supply needs to go.

California is getting real real fast. I think the rest of the country needs to learn to get real about where our energy supplies need to come from. That is why I applaud the leadership in the House and also the President of the United States for putting this energy plan together, a realistic one that also includes alternative fuels, energies and conservation and puts them in their proper perspective.

ROLE OF THE FEDERAL GOVERNMENT IN AGRICULTURE AND EDUCATION

The SPEAKER pro tempore (Mr. KEINS). Under the Speaker's announced policy of January 3, 2001, the gentleman from New York (Mr. OWENS) is recognized for 50 minutes.

Mr. OWENS. Mr. Speaker, today we concluded the appropriations debate and passed an agricultural appropriations bill for $74.6 billion. I think that it passed with a minimum amount of discussion and controversy.

I think we had an overwhelming vote from all the members. I voted for it myself, even though in the past I have been wary of agricultural bills that have large amounts of subsidies for farmers for crops that no longer need subsidies. But that is not a point that I want to expand on. I want to say that we have passed a bill for $74.6 billion, the Federal Government's involvement in agriculture, and the farmers of the United States are less than 2 percent of the population.

We take good care of our farmers and they give us good return. We are the best fed Nation in the world, but we certainly take very good care of them. Any people among those farmers and that particular group that continues to subsidize the government or complaining about big government, telling government to get off their back, et cetera, it is hypocritical because the government is very much involved in producing the best agricultural system in the world. It is a monument to the achievement of government and education. The Morrell Act which created the land grant colleges in all of the States set off a process which created agricultural engineering and science, an approach to implementing new theories rapidly, the county agents, and a number of different innovations that still survive to this day. There are still committees in every county that relate to the Department of Agriculture.

The system has been very productive. The system is, however, a system that we oversee as the Federal Government, and it is fed and kept alive by the Federal Government. Most people do not know it, but the Department of Government in Washington which has the second largest number of employees, second only to the Pentagon, is the Department of Agriculture, although we now have less than 2 percent of the population which are actually farmers, bodies who can be called farmers.

Mr. Speaker, we take good care of agriculture and as a result, we get good return. There are 53 million children in the public schools of the Nation. That is far more than 2 percent of the population. If we want to put the same kind of investment into education, we would reap greater and greater returns, I assure my colleagues, on education. As I said before, the productivity of our agriculture system is directly related to the fact that we use a large part of the education in agricultural production very early in the life of the Nation. Land grant colleges were not established to teach theology or philosophy. They were established to bring a new approach to teaching engineering, agriculture and biology in all kinds of things that were very practical and productive. So the great system for feeding America which feeds a large part of the world is based on a step taken by the United States Government in the area of education. One of our monumental achievements in the area of education was the Morrell Act which established the land grant colleges in all of the States of the United States.

The Morrell Act, of course, was inspired by Thomas Jefferson's genius when he created the University of Virginia, a State-based university. He took the first step and Morrell followed through, and every single State benefited from the same vision, an extension of the vision of Thomas Jefferson.

We need the same kind of vision as we look at the 53 million children that
are in our public schools. We need to understand that a large part of what we have been able to accomplish as a Nation is based on the fact that we have subscribed from the early days to the philosophy of universal education.

The Federal Government has not played the first role, but the Federal Government certainly has never interfered with the States, and every State accepted the responsibility. It is the ethic of the American people which lead to the creation in the constitution of every State the responsibility for education.

The Federal Government discovered in World War I and World War II that it had to go beyond that in terms of the development of its youth population, its scientists and technicians, and so it began to play a greater role in higher education. We recognize the necessity for that. We recognize the necessity for the Federal Government to have a major role in terms of funding. We actually only fund about 7 percent of the total education budget for the Nation. It is the State and local governments that fund the rest of the education budget, but we are involved.

We recognize the necessity for that involvement and I think every State education official and local education official, and certainly teachers and principals throughout the Nation, will indicate that since the Federal Government got involved to the present there have been improvements.

The Federal Government’s role in education has been a very positive role, a role that we can be proud of. I am here today to remind you that in the era of Lyndon Johnson and the great society where he established the first Federal support for elementary and secondary education, the Federal government has been a partner. We are not just to look back. We do not just want to talk about the good old days, the past. We want to talk about a role that we can be proud of. I am here today to sort of remind us that we have seen the change that has been of a shadow boxing approach to the funding process to have the conferences consider moving from $175 million just for charter schools to a larger amount which would deal with school construction, all schools, not just charter schools but all schools that need it.

We have passed a bill here in the House of Representatives, Leave No Child Behind, the President’s bill, and I am pleased with the fact that Leave No Child Behind is inadequate in so many ways. It is inadequate because it has no money, not a single penny, for school construction. The Leave No Child Behind legislation that passed the House of Representatives did not allow a single penny for school construction. There is some hope because the other body did place $175 million in the budget for charter school construction, then it is certain in order to expand that school construction money to move it to encompass more than just charter schools, and I certainly will be intending to offer an amendment to that effect when the bill comes back to us. I think that the other body had a set of authorizing figures, the amounts for authorization, in a number of areas that are higher than the authorization figures in the House of Representatives bill. So there is hope there that in the conferencing process, we can move in the direction of the amounts of money that have been established by the other body and be able to deal with some of the inadequacies that are left.

I think the important thing is the public should realize that education is on the agenda at all, the fact that it was one of the first items that had need. It is very interesting, in an era where there is a lot of talk about education, there is a lot of discussion, and then when the authorizing and the appropriation process takes place, there is minimum effort. In the Leave No Child Behind legislation, we do not have maximum effort, we have minimum effort. It is important for the public to have in the House of Representatives and the other body. The dilemma is this. We have authorized in the House and in the other body, does not allow for the implementation of the most important provisions of the Leave No Child Behind legislation.

For example, one very important piece, Title I. Title I has been the major instrument for granting and providing public assistance, Federal assistance to education agencies across the country. It is about $8 billion. Title I in the Leave No Child Behind legislation is for the next 5 years beginning with increments which will go into effect this year. So in this year’s budget, there has to be the first increment for the movement of Title I forward. And in a 5-year period, it will reach $17.2 billion, according to the authorization. It is the ethical obligation to have all of the powers that be, the White House, both parties agreed on this, and then to have the authorization sitting there without an appropriation to back it up. There is no room in the budget at this point.

So it is going to have to be negotiated through some extraordinary effort. We are going to have to break the budget or greatly shift some items around in order to accommodate the authorized amount. We certainly want to make certain that the priorities are such that this authorized amount will be honored. The one thing that may be honored. In order to do this, we cannot leave it to the processes here in Washington. The same processes that have generated this movement forward, however small it may be, and I am not pleased with the fact that Leave No Child Behind is inadequate in so many ways. It is inadequate because it has no money, not a single penny, for school construction. The Leave No Child Behind legislation that passed the House of Representatives did not allow a single penny for school construction.

There is some hope because the other body did place $175 million in the budget for charter school construction, then it is certain in order to expand that school construction money to move it to encompass more than just charter schools, and I certainly will be intending to offer an amendment to that effect when the bill comes back to us. If we were to move from $175 million just for charter schools to a larger amount which would deal with school construction, all schools, not just charter schools but all schools that need it.

CONGRESSIONAL RECORD—HOUSE

July 11, 2001

$1.2 billion that the previous administration had appropriated for emergency school construction across the board, not just charter schools but all schools that had need.

So we have work to do. There are inadequacies and some of those inadequacies cannot be addressed in the appropriation process. That fact that the authorization. But some of the inadequacies can be addressed. The one that I have just given as an example can be addressed. And since there is $175 million in the budget for charter school construction, then it is certain in order to expand that school construction money to move it to encompass more than just charter schools, and I certainly will be intending to offer an amendment to that effect when the bill comes back to us. If we were to move from $175 million just for charter schools to a larger amount which would deal with school construction, all schools, not just charter schools but all schools that need it.

There are many other items that they can deal with also because they are in the authorization language and we can move in that respect. I think that the other body had a set of authorizing figures, the amounts for authorization, in a number of areas that are higher than the authorization figures in the House of Representatives bill. So there is hope there that in the conferencing process, we can move in the direction of the amounts of money that have been established by the other body and be able to deal with some of the inadequacies that are left.

I think the important thing is the people should realize that education is on the agenda at all, the fact that it was one of the first items that had need. It is very interesting, in an era where there is a lot of talk about education, there is a lot of discussion, and then when the authorizing and the appropriation process takes place, there is minimum effort. cation should be paid by the Federal

All taxes, all revenue comes from the
local area, anyhow. All politics is
local, all revenue is local. The money
we print in Washington is symbolic, it
is symbolic of the taxes that are flowed in
here from the States and the local-
ities. So give it back to them in ways
which promote the item that the
American public has indicated is the
number one item. They would like to
see more involvement of the Federal
government. Let us keep the debate going,
let us continue to talk in terms of
what is needed, instead of merely set-
tling for the parameters that have been
established by the Leave No Child Be-
hind legislation.
I want to take the opportunity today
to talk about two groups, two state-
ments of vision that have come to my
office very recently. One is a book that
is written by Dwight Allen who is an
education professor at Old Dominion
University and who is now in school with
Cosby. Most people do not know that
Bill Cosby has a Ph.D. in education and
that he has always been interested in
schools and in children. Cosby wrote
several books on children and families
that were best sellers some years ago.
This book is a combination with an
education professor friend of his. The
title of the book is ‘American Schools,
the $100 Billion Challenge.’ The $100
billion does not refer to $100 billion
over the next 10 years. Mr. Spatschak, it
refers to $100 billion per year that
ought to be added to the Federal effort
in education. It is interesting that they
would think in those terms, when a
second presentation by the Children's
Defense Fund, the Act to Leave No
Child Behind as a bill that was intro-
duced in the Senate, S. 940, and in the
House as H.R. 990. Senator Chris-
topher Dodd of Connecticut is the
sponsor in the Senate and the gen-
tleman from California (Mr. GEORGE
Middle, a Democratic Democrat on the
Committee on Education and the
Workforce in the House is the spon-
or. They are talking about $100 bil-
ion, also. It is very interesting. What
can we make of this and should I waste
time with utopian proposals for the
Federal involvement in education?
Frankly, I do not believe they are uto-
opian.
Because we operate within the pa-
rameters of political practicality, I
have no objection to the effect of levels of funding as high as
proposed in these two documents, but
they make sense. Their proposals make
sense. Their proposals talk about mov-
ing away from incremental, nickel-
and-dime approaches to reform and let
us go beyond the limits of necessity on
a scale that is necessary to move us forward. What has America
got to lose by having a greater Federal
investment in education? And what
does it have to gain? I think that the
gains in investment in education are
tremendously geometric. The gains are
fantastic in terms of what you invest and
the educated population that you get as a result, what they produce.
What are we producing in America
now? We are way ahead of the rest of
the world. Agriculture is just an old-
fashioned basic example. We got way
ahead of the world by investing heavily
in education in agriculture. We are way
ahead of the world right now in terms
of education in the sciences. We have
doubled and tripled in many of our uni-
versities as a result of the GI bill, a
Federal bill that paid the bill, paid the
expenses for men, veterans, to become
educated. What came out of that?
Large numbers of men who would never
have gone to college, who would never
have become technicians or never have
become scientists, they entered the
workforce and entered our economy at
a time when automation was taking
place. The great jump forward, the
great leap forward after World War II
was automation in our plants. We had
the technicians and the mechanics and
the people to do that because of this
tremendous investment that this Na-
ation made in education.

It is not people back and really
thoroughly examined what we have
done. The institutional memory of the
American citizens in terms of what we
have done in education and what we
have reaped as a result is not there
automatically. You have to talk about
it. But we got a great boost. The fact
that we are ahead in computer science is
not by accident. We filled our univer-

ities and the great expansion that
took place in education following the
GI bill, once the GI bill recipients were
doctors. There is a profession that
that was publicly financed found its enroll-
ment still going up, because through
that experience, they expanded greatly,
and they made it possible to have lower
tuition and more and more young peo-
ple go to college and become profi-
cations the Federal Government has
acted with broad and thorough funding
powers to boost education.
The GI bill. When the men who
fought in World War II came back,
every single one of them was given the
right to an education financed by the
Federal Government, from A to Z.
There are some who went to barber
school, some who went to business
school. Many went into our univer-
sities. Our universities had never had
such an enrollment. Enrollment was
doubled and tripled in many of our uni-
versities as a result of the GI bill, a
Federal bill that paid the bill, paid the
expenses for men, veterans, to become
educated. What came out of that?
Large numbers of men who would never
have gone to college, who would never

TEACHING AND NURSING. ALL THOSE BARRIERS HAVE FALLEN NOW AND WE HAVE A TERRIBLE SHORTAGE OF TEACHERS RIGHT NOW. SO JUST WHEN I TALK ABOUT A GREAT GEOMETRICAL INCREASE IN THE BENEFITS THAT YOU GET FROM HAVING AN EDUCATED POPULATION, I MEAN MORE THAN JUST REPLACEMENT OF THE SUPPLY OF PROFESSIONAL PEOPLE WHO ARE EDUCATED. BUT I KNOW WHAT YOU ARE THINKING. WHEN I TALK ABOUT A GREAT GEOMETRICAL INCREASE IN THE BENEFITS, YOU ARE THINKING ABOUT PROFESSIONS THAT WE HAVE NOT EVEN CONCEIVED YET THAT ARE JUST SHAPING UP. THE PEOPLE IN THE AREA OF GENETICS, LARGE NUMBERS OF PEOPLE IN THE FIELD OF GENETICS, WHO WERE NOT THERE 10 YEARS AGO, IT IS AN EXPLODING FIELD. PEOPLE IN BIOTECHNOLOGY, ON AND ON IT GOES IN TERMS OF THE KINDS OF RESEARCH THAT IF YOU HAVE THE PERSONNEL, IF YOU HAVE THE PEOPLE WHO HAVE THE SCIENTIFIC KNOW-HOW, THEN YOU CAN MOVE MUCH MORE RAPIDLY TO UNEARTH NEW DISCOVERIES IN SCIENCE. WHETHER YOU ARE TALKING ABOUT DISCOVERIES IN BIOTECHNOLOGY AND MICROBIOLOGY, IN PHYSICS, ALL KINDS OF DISCOVERIES, DISCOVERIES THAT CAN BE MADE, TAKEN INTO SYSTEMS REASONABLELY PROPORTIONAL TO THE NUMBER OF PEOPLE WHO ARE EDUCATED. ALL OF THE FORWARD MOTION IN TERMS OF TECHNOLOGY AND SCIENCE CAN ALSO MOVE FORWARD WITHOUT THE COSTS BEING SO GREAT. THE GREATER THE SUPPLY OF PROFESSIONALS AND TECHNICIANS, THE LESS THE COSTS. WE HAVE SOME HIGH COST SCIENTISTS AND SOME HIGH COST SCIENTIFIC PROJECTS BECAUSE THERE ARE TOO FEW SCIENTISTS AVAILABLE IN THE AREA OF COMPUTER TECHNOLOGY, IT IS KIND OF A RECESSION, A CORRECTION, THEY SAY, IN THE DOT COM INDUSTRY. COMPUTER SPECIALISTS WERE IN HIGH DEMAND. INFORMATION TECHNOLOGY PERSONNEL, IN HIGH DEMAND AND I THINK THIS IS ONLY A BLIP ON THE SCREEN, THAT PRETTY SOON THE DEMAND FOR INFORMATION TECHNOLOGY PERSONNEL WILL BE AS GREAT AS IT WAS BEFORE. SO AN INVESTMENT IN EDUCATION PAYS OFF GEOMETRICALLY. IF WE ADD DOLLARS MORE PER YEAR ON EDUCATION FOR THE NEXT 10 YEARS, IT WILL GIVE THIS SOCIETY BENEFITS WHICH ARE WORTH FAR MORE THAN WE INVEST. IF YOU HAVE TO STATE EVERYTHING IN TERMS OF DOLLAR VALUE, TRILLIONS AND TRILLIONS OF DOLLARS WOULD BE REALIZED BECAUSE WE WOULD DEVELOP, WE KNOW THAT THERE ARE SECRETS OUT THERE WAITING TO BE UNLOCKED IN BIOTECHNOLOGY ALONE, THAT IF YOU PUT MORE PEOPLE TO WORK THERE IS A CORRELATION BETWEEN THE NUMBER OF PEOPLE YOU PUT TO WORK AND THE BENEFITS THAT YOU WOULD ACHIEVE. THE SAME THING IS TRUE IN CERTAIN AREAS OF DIGITALIZATION, COMPUTERIZATION AND THOSE AREAS. THEY REAP BENEFITS, WHAT THEY CALL IN ECONOMIC TERMS PRODUCTIVITY. ACTUALLY PRODUCTS ARE INCREASED, AND ONE OF THE DOWNSIDES OF THE GREAT INCREASE IN PRODUCTIVITY IS THAT IT PUTS OUT OF WORK A LOT OF PEOPLE WHO DID MUNDANE TASKS BUT AT THE SAME TIME IT CREATES A NEED FOR A DIFFERENT KIND OF PERSONNEL WITH MUCH MORE KNOW-HOW.

WE WANT TO HAVE THE PERSONNEL WITH THE KNOW-HOW AVAILABLE TO TAKE THE JOBS. SO OUR INVESTMENT IN EDUCATION HAS A DUAL EFFECT OF MOVING US FORWARD TO AN ERA WHERE MORE WILL BE UNLOCKED AND WE WILL HAVE A DUAL EFFECT. NEW MEDICAL BENEFITS, NEW WAYS TO DECREASE THE ENERGY EMPLOYED TO PRODUCE ITEMS AND ALL OTHER SO-CALLED SEEMINGLY UNSOLVABLE PROBLEMS, PROBLEMS THAT CANNOT BE SOLVED NOW, SOME OF THEM CANNOT BE SOLVED. YOU CAN SOLVE THEM IF YOU GET MORE PERSONNEL, IF YOU GET MORE TRAINED PEOPLE. THE TRAINING PROCESS, THE EDUCATION PROCESS FROM THE FIRST GRADE TO GRADUATE SCHOOL AND BEYOND GRADUATE SCHOOL, IS SUCH THAT YOU ARE ONLY GOING TO PRODUCE A CERTAIN NUMBER OF GENIUSES, BUT YOU CAN REST ASSURED IF YOU PUT A CERTAIN NUMBER OF PEOPLE THROUGH THAT PROCESS THERE WILL BE GENIUSES DISCOVERED. THE WORLD IS NOT RUN BY GENIUSES. GENIUSES ARE REGULAR PEOPLE WHO SOMETIMES WORK WITH PARTNERS WITH THEM, OTHER SCIENTISTS AND THEORETICIANS, AND THE THEORETICIANS AND SCIENTISTS HAVE TO HAVE TECHNICIANS TO WORK WITH THEM. THE TECHNICIANS HAVE TO HAVE MECHANICS. ALL UP AND DOWN THE LINE OF THE FUNNEL YOU WILL HAVE DEVELOPED PEOPLE BREAKING OUT IN THEIR OWN CAPACITY.

IF YOU GIVE THEM THE OPPORTUNITY, THEY WILL DEVELOP TO THEIR FULLEST CAPACITY, WHICH MEANS THAT EVERYBODY WILL BE IMPROVED AND EVERYBODY WILL BE ABLE TO MAKE A CONTRIBUTION THAT THEY COULD NOT MAKE IF THEY DID NOT HAVE THE EDUCATION.

WE SHOULD NOT HOLD BACK AND HESITATE AS MOST OF OUR POLITICAL LEADERS ARE. THE GOVERNORS AND THE MAYORS AND THE PEOPLE WHO ARE IN CHARGE CONTINUALLY BECOME AN OBSTACLE IN THE FORWARD MOVEMENT OF THE APPROPRIATION OF THE ADEQUATE SUMS OF MONEY FOR EDUCATION. THEY ARE THE ONES WHO PREFER TO TALK ABOUT EDUCATION WITHOUT REALLY IMPROVING EDUCATION.

WE HAVE A PROBLEM IN NEW YORK CITY WITH THE RECEIPT OF STATE AID OVER THE YEARS HAVING BEEN CLEARLY UNFAIR. THEY HAVE NOT GIVEN THE CITY PUPILS THE SAME KIND OF SUPPORT FROM THE STATE THAT THE OTHER PUPILS HAVE GOTTEN OUTSIDE OF NEW YORK CITY. A COURT SUIT WAS MOUNTED AND A JUDGE CAME TO THE CONCLUSION THAT YES, IT IS TRUE. THE STATE HAS NOT BEEN APPROPRIATELY FINANCING THE SCHOOLS IN THE CITY AND THE STATE SHOULD TAKE CORRECTIVE ACTION. THE GOVERNOR OF THE STATE HAS APPEALED THAT DECISION, AND ONE OF THE THINGS HE SAID IN HIS APPEAL IS QUITE FRIGHTENING. THE FIRM THAT WAS HIRED BY THE STATE OF NEW YORK, WHICH IS THE FIRM THAT HAS BEEN USED IN A LOT OF SCHOOL SEGREGATION CASES IN THE SOUTH, THAT FIRM HAS BASED ITS DEFENSE, ITS APPEAL ON THE FOLLOWING THEORY: THAT CITY STUDENTS FAILED IN SCHOOL BECAUSE OF THEIR POVERTY. NO AMOUNT OF MONEY, WHETHER TO RAISE TEACHERS' SALARIES TO BUILD MORE SCHOOLS OR TO INSTALL SCIENCE LABS, WOULD MAKE A DIFFERENCE. THAT IS WHAT THE STATES ATTORNEYS ARE SAYING, THAT POVERTY IS THE CAUSE OF THE FAILURE OF THE
school system; the inability of the children to learn is due to their poverty. Now, we know that whether there would be a revolution if the governor had dared to say due to their race, due to their ethnicity or due to their religion. That would be clearly discrimination. Clearly, he would get a reaction from right across about that kind of approach. But it is a hidden statement. Most of the poor children in New York City are minority children, either Hispanic or children of African descent and they are being told in this defense that the governor has put up that poverty is a problem.

It is not the lack of funding. I do not want to go into that too far. I just want to point out that it is a frightening notion. If you move in that direction and do not challenge that kind of theory, the problem is that in 10 years you would end up with a clear statement by policymakers in the State that poverty does not own any children universal education because if they are too poor to learn then we should not invest the money trying to make them learn. The implications of assuming that poverty blocks learning, poverty dooms the school system, the implications are devastating and we hope to deal with that argument right away.

I got something from one of my constituents about a new proposal about reparations. There is a young man who has caused a stir by putting out a pamphlet about reparations, makes a statement about 10 reasons why reparations for blacks is a bad idea for blacks and it is a racist idea also. Reparations become sudden. It is not only a bad idea and something that we should not talk about but it is also a racist notion for any group to say we may be owed reparations. I can see 10 years from now if you let the governor go unchallenged, poverty dooms the school system, the implications are devastating and we hope to deal with that argument right away.

Before we move to more theoretical kinds of considerations of accountability and testing and blaming the teachers, let us put the basics in place. The basics are not there, however. These people who talk about $100 billion per year are on track because instead of proposing utopian ideas, Dwight Allen and Bill Cosby are proposing ideas that make a lot of sense. Senator CHRISTOPHER DODD and the gentleman from California (Mr. GEORGE MILLER) in the Act to Leave No Child Behind, S. 940, H.R. 1990, are making some sound proposals. I point out that the Act to Leave No Child Behind is not just an education bill. This is about children. It goes beyond education, to health, environment, nutrition, housing. This is about a program for children. In terms of the dollar figures, they come out at the same point in trying to promote proposals, but nothing proposed here is outlandish, outrageous, utopian. It is all very sound and very on target.

But we have lost sight of that. In the deliberation of the education bill, I offered a motion to instruct which was related to construction. Now, because of the atmosphere, we are tempted to compromise and to try to win votes by watering down the original amendment that I had made. We came all the way down from an amendment that I made which would have appropriated $10 billion a year over a 10 year period for school construction, to $1.2 billion, the amount equal to the amount appropriated by the outgoing Clinton Administration for school repairs, mostly emergency repairs.

So even though the need clearly is up at the present time, at least $10 billion a year just for school construction, and that is based on several studies that have been conducted by the General Accounting Office and conducted by the National Education Association showing that you needed about $320 billion. The National Education Association study, if you combined school construction and repair with new technology, you need $320 billion. New York State had the highest need of about $44 billion in order to bring the schools up to par to a level where they could serve the present population appropriately.

So my estimates and my figures on school construction were not pulled out of the air. They were already a compromise. But on the floor here I offered a motion to instruct which was watered down to $1.2 billion per year. Of course, that failed. It got a party line vote, and we failed to pass it. But it was a far cry from the need.

We have to do that. As people who are trying to compromise and get something done, we have to sacrifice our vision of what the need is. But I do not want the people out there who have had the common sense all these years to keep the pressure on elected officials. Here is a proposal. We do not need $1.2 billion for school construction, we need $10 billion a year for school construction. We need the kind of figures that are stated in this book, American Schools, the $100 Billion Challenge.

I am going to read a few examples from this $100 billion challenge which Bill Cosby and Professor Dwight Allen put forth. I am going to read these, as I said before, not as a politician, an elected official offering these as suggestions that I intend to put in legislation tomorrow, but as mind-stretching exercises.

Let us stretch our minds and try to look at education from the point of view of these experts. They are both Ph.D.s in education, they are both very concerned about it, but they are outside looking into the governmental process, and some of the conclusions they come to would be instructive. We did not hear from these people in hearings before we passed the Leave No Child Behind legislation. Nobody was interested in hearing these kinds of statements.

But here is a vision that is worth consideration by all that really care about education. In the section $100 billion for teachers, a summary of the listing, they start out with $6 billion for regular in-service training on the Internet for all teachers.

Now, we have pages and pages of discussion of teacher training and teacher improvement, but I do not think any one of our legislative proposals dealt with anything of this nature, certainly not with that kind of potential. Developing and presenting new exercises. I said before, not as a politician, an elected official offering these as suggestions that I intend to put in legislation tomorrow, but as mind-stretching exercises.

Before we move to more theoretical kinds of considerations of accountability and testing and blaming the teachers, let us put the basics in place. The basics are not there, however. These people who talk about $100 billion per year are on track because instead of proposing utopian ideas, Dwight Allen and Bill Cosby are proposing ideas that make a lot of sense. Senator CHRISTOPHER DODD and the gentleman from California (Mr. GEORGE MILLER) in the Act to Leave No Child Behind, S. 940, H.R. 1990, are making some sound proposals. I point out that the Act to Leave No Child Behind is not just an education bill. This is about children. It goes beyond education, to health, environment, nutrition, housing. This is about a program for children. In terms of the dollar figures, they come out at the same point in trying to promote proposals, but nothing proposed here is outlandish, outrageous, utopian. It is all very sound and very on target.

But we have lost sight of that. In the deliberation of the education bill, I offered a motion to instruct which was related to construction. Now, because of the atmosphere, we are tempted to compromise and to try to win votes by watering down the original amendment that I had made. We came all the way down from an amendment that I made which would have appropriated $10 billion a year over a 10 year period for school construction, to $1.2 billion, the amount equal to the amount appropriated by the outgoing Clinton Administration for school repairs, mostly emergency repairs.

So even though the need clearly is up at the present time, at least $10 billion a year just for school construction, and that is based on several studies that have been conducted by the General Accounting Office and conducted by the National Education Association showing that you needed about $320 billion. The National Education Association study, if you combined school construction and repair with new technology, you need $320 billion. We did not hear from these people in hearings before we passed the Leave No Child Behind legislation. Nobody was interested in hearing these kinds of statements.

But here is a vision that is worth consideration by all that really care about education. In the section $100 billion for teachers, a summary of the listing, they start out with $6 billion for regular in-service training on the Internet for all teachers.

Now, we have pages and pages of discussion of teacher training and teacher improvement, but I do not think any one of our legislative proposals dealt with anything of this nature, certainly not with that kind of potential. Developing and presenting new exercises. I said before, not as a politician, an elected official offering these as suggestions that I intend to put in legislation tomorrow, but as mind-stretching exercises.

Before we move to more theoretical kinds of considerations of accountability and testing and blaming the teachers, let us put the basics in place. The basics are not there, however. These people who talk about $100 billion per year are on track because instead of proposing utopian ideas, Dwight Allen and Bill Cosby are proposing ideas that make a lot of sense. Senator CHRISTOPHER DODD and the gentleman from California (Mr. GEORGE MILLER) in the Act to Leave No Child Behind, S. 940, H.R. 1990, are making some sound proposals. I point out that the Act to Leave No Child Behind is not just an education bill. This is about children. It goes beyond education, to health, environment, nutrition, housing. This is about a program for children. In terms of the dollar figures, they come out at the same point in trying to promote proposals, but nothing proposed here is outlandish, outrageous, utopian. It is all very sound and very on target.

But we have lost sight of that. In the deliberation of the education bill, I offered a motion to instruct which was related to construction. Now, because of the atmosphere, we are tempted to compromise and to try to win votes by watering down the original amendment that I had made. We came all the way down from an amendment that I made which would have appropriated $10 billion a year over a 10 year period for school construction, to $1.2 billion, the amount equal to the amount appropriated by the outgoing Clinton Administration for school repairs, mostly emergency repairs.

So even though the need clearly is up at the present time, at least $10 billion a year just for school construction, and that is based on several studies that have been conducted by the General Accounting Office and conducted by the National Education Association showing that you needed about $320 billion. The National Education Association study, if you combined school construction and repair with new technology, you need $320 billion. New York State had the highest need of about $44 billion in order to bring the schools up to par to a level where they could serve the present population appropriately.

So my estimates and my figures on school construction were not pulled out of the air. They were already a compromise. But on the floor here I offered a motion to instruct which was watered down to $1.2 billion per year. Of course, that failed. It got a party line vote, and we failed to pass it. But it was a far cry from the need.

We have to do that. As people who are trying to compromise and get something done, we have to sacrifice our vision of what the need is. But I do not want the people out there who have
master teacher mentors for each teacher in training and for beginning teachers. There would be several concomitant benefits of paying master teachers $2,000 to $5,000 stipends each year. This is above their salary. First of all, well-trained mentors would provide better supervision and guidance for new teachers, and if the mentors are well paid, they will be encouraged to provide more and more and better assistance and they will stay in the school system, instead of moving on to higher paying jobs elsewhere.

Another item, $5 billion, $5 billion, this is one I have never seen before, for a corps of $100,000 classroom teachers. Listen closely, $5 billion for a core of $100,000 classroom teachers. Pay 5 percent of all teachers, pay 5 percent of all teachers, an added $50,000 per year to attract, $50,000 per year for each, of the highest college and university graduates as master teachers.

In other words, you get master teachers who would be making up to $100,000 a year. Pay 5 percent of all teachers $100,000 a year. We need to break the mold of a single salary schedule for all teachers. Just as the dream of a NBA million dollar contract does energize sandlot and school basketball all over the Nation, realistic aspiration of $100,000 stipends per year for even a small percentage of teachers would energize applicants at all levels and increase the recruitment pool. We are a Nation that responds to financial incentives.

Another item, $10 billion, $10 billion, for teaching assistance and other support staff for teachers. Now, I would wholeheartedly endorse this one as being practical, being necessary, and we ought to write it into our legislation right away. Teaching assistance and other staff for all teachers.

Build the concept of a teacher and his or her staff with clerical and technical support in the classroom, including teaching assistants and interns. Teachers are now required to do it all. Teachers are self-contained in their classrooms. Sporadically they may have teaching assistants or some volunteer support. If we are to make the most efficient use of our most valuable resource in education, well-trained teachers, we must begin to provide them the support that is routine for all other professionals. I think we ought to stress that. Real professionals, every other professional, whether you are talking about lawyers or doctors or engineers, they have staff; they have staff assistants, they have people at various levels of support. Teachers deserve the same kind of support, and you would actually have a more efficient and more effective classroom, a more effective use of your highest price personnel, if you were to have each teacher being seen as part of a unit, where they are the head of the unit, directing the unit, but they are not weighted down with a lot of tasks that are not professional, not productive and do not involve learning. So I would endorse that proposal as being a very practical one and one we should have moved on long ago.

We talk a lot of technology in the classroom and about the use of technology in the classroom, computers in the classroom. I do not think teachers should have to learn how to make computers do new things in terms of their curriculum and opening the eyes of youngsters with more creative approaches to teaching. They should not have to do all that and also learn how to fix the machine when it breaks.

When computers are on the blink, they should not have to be the ones to fix them, the servicing of the computers, the purchasing of any equipment. There is a whole array of things that teachers should not have to do, and if you had that built in a system, that taken care of by a unit, you would have more people staying in teaching instead of resigning and retiring as quickly as they can.

Another item they have here in the Cosby-Allen proposals is a $1 billion item, challenge grants for teacher initiatives for educational reform. Teachers should be encouraged to examine their own practices and to try new initiatives. A series of challenge grants should be established, with teachers from other states making a judgment about the priorities of which initiatives to fund.

The whole debate on education and the production of the Leave No Child Behind Act in both Houses of the Congress, the people who were consulted least were the teachers. We talk a lot about what teachers should do, we have left out the most important ingredient, and that is the input, the advice and consultation of the teaching profession and the teachers themselves.

So this $1 billion challenge grant would recognize that teachers have initiatives and teachers are sometimes the best teachers of other teachers. Teachers should be encouraged to examine their own practices and to try new initiatives.

Another item, $6 billion for 6 years of pre-service training for teachers. Provide $10,000 per year for 6 years of universal teacher training for 100,000 teachers each year. There is a wide consensus that we need to attract a share of the brightest student to the profession of teaching. They propose 6 years of funding, an incentive to increase the time of training profession and to raise the standards of the teaching profession generally.

There are all sorts of variations possible. For example, funding can be in the form of loans that include a year of funding forgiven for every year as a teacher. We have had those proposals offered in terms of forgiving loans, but we have not had any proposals that talked about $10,000 per year in order to take students to get a 6 year education.

Another item, $3 billion, one-year internship for teachers after professional training. These are items which coincide with some practical proposals that have been made in legislation already. $1 billion for higher salaries for more teacher educators. Increasing salaries of $10,000 teacher educators by $25,000 to $75,000 per year. Again, the same principle, to attract the brightest graduates into teaching and to stay in the profession.

Another $1 billion is proposed for the development of teacher training materials. Then technology, $15 billion proposed for technology for all schools, the purchase maintenance and replacement. And on and on it goes, into a budget which concludes with $100 billion per year for education, American schools.

Again, I have been talking about a vision offered by Bill Cosby and Dwight Allen. Dwight Allen is a noted Professor of Education Reform at Old Dominion University, and Bill Cosby has a Ph.D. in education and has been interested in education for a number of years and has written several books on children and families.

In conclusion, I have offered these two visions which are outside the usual discussion that takes place here on the Hill. But just so they come at a time when there is a great need to keep the dialogue going.

We cannot sit still and wait until the conference committee acts. We should not sit still and wait until the final negotiation takes place, probably at the end of September. We need to keep the pressure on. The public needs to remind each one of us in the Congress that they have made education a priority, and making education a priority, there is a need to have resources behind the rhetoric.

The dilemma we face is that we have two bills that have passed, one in the other body and one here in the Congress, and both have authorization figures much higher than any provisions that have been made in the budget. We need to solve that dilemma in a positive way. We need to have the pressure applied from those who care about education to make the appropriations figures that can measure up to the authorization figures as a one first positive step.

At least the Leave No Child Behind legislation should not be hypocritical,
it should do what it says it is going to do in the authorization bill. That is the first step. The other steps require the kind of vision to get down that is included in these two visions, one from the book written by Bill Cosby and Dwight Allen, and the other from the Leave No Child Behind legislation which deals with more than just education, but it is sponsored really with the backing of the Children’s Defense Fund.

We are going to hear more about this as we go toward September. The important thing is that we should understand that the door is not closed, and the final decision has not been made. There is room for an appropriation which measures up to the authorization and all of us should dedicate ourselves to the proposition that we will fight to have the appropriation measure up to the authorization for education.

**NIGHTSIDE CHAT**

The SPEAKER pro tempore (Mr. KENNS). Under the Speaker’s announced policy of January 3, 2001, the gentleman from Colorado (Mr. MCINNIS) is recognized for 60 minutes.

**HONORING OUR FALLEN FIREFIGHTERS**

Mr. MCINNIS. Mr. Speaker, I would like to take a few moments of my Special Order to address a very sad situation that occurred yesterday in Winthrop, Washington. As my colleagues know, this time of year is the time of year in our Nation across the Nation that we face horrible forest fires. Most of the time, we are able to conquer those fires through the able leadership of the Forest Service, the BLM, our professional fire departments, our volunteer fire departments and volunteers across the country. But every once in a while the fire gets the best of us, as it did in Storm King Mountain in Glenwood Springs, Colorado, the town that I was born and raised in.

I was in Storm King at the time of the incident and I remember the situation very well. I remember the horrible tragedies and the tears of the young children and the widows and the mothers and the fathers and all the families and the friends and the shock of that community. We had hoped that Storm King Mountain in Glenwood Springs, that the incident would never repeat itself, but we knew at some point in time that it would, because it is almost like part of a fate of fighting fires. Over a period of time, we are going to have casualties. It is a war of its own, really. We think about it, thinking about a fire that is unpredictable, in some cases; some cases it is predictable, an enemy that has no discrimination as far as who it picks to destroy. We see it destroy animals, we see it destroy mountains.

We know that basically, it is a force that can erupt, just like the force erupted yesterday. Yesterday we had a fire of about 5 acres and we had what we call the blowup. The thing that scares anybody dealing with fires, the worst condition that we can have are the conditions that accumulate in the incident called fire blowup. That means we have low humidity, we have very dry timber, and we have a wind that is unexpected that comes in. This fire which burns 5 acres over some period of time exploded from 5 acres to 2,005 acres in a matter of moments. These firefighters that lost their lives yesterday, 4 of them, had no chance. By the way, I understand we lost an additional firefighter who was a pilot on a slurry bomber at another fire; not this fire, but at another fire somewhere in the northwest as well.

So my words of honor this evening are for all 5 of those firefighters. But I am only knowledgeable of the incident of the 4 firefighters who lost their lives yesterday. I would like to mention their names. Tom Craven, Tom was 30 years old. He was from Ellensburg, Washington. Karen L. Fitzpatrick. Karen was 18 years old, of Yakima. Devon A Weaver. Devon was 21 years old of Yakima. Jessica L. Johnson. Jessica was 19, of Yakima.

Tom, Karen, Jessica and Devon 2 days ago were alive. Two days ago, when our country called upon them to respond to a fire, they did so without hesitation. Now, despite the young age and, in fact, this was one of the first fires, or not the first fire for one of those individuals, despite the age, they received training. And at some point, one has to fight their first fire. At some point, one has to pick up actual field experience.

Almost every firefighter we have had in the history of this country gets through those first few fires. In fact, almost all of our firefighters are able to retire, or at least leave it without a fatality. But that was not meant to be the case for these 4 young people. We lost a lot of spirit. We lost a lot of youth. Two days ago, we did not have families in mourning, we had families who were excited that their children, in most cases, and I am sure in this case, were doing what they dreamed of doing for a long time, and that is going out and taking on fire, and going out and helping our country in a time of need. Going out and literally saving communities, saving animals, saving vegetation, saving our mountains. We have seen it. We have seen it throughout our country, what these people do.

I said it before, Storm King Mountain in Glenwood Springs, Colorado, about 7 years ago.

So my comments tonight are intended to be in honor of these 4 firefighters. In fact, I expand that beyond those 4 firefighters to the fifth firefighter who I understand lost their life in Idaho, so all firefighters across the Nation. To those firefighters who today cannot of course hear these words because they are camped out on the side of a mountain fighting a fire somewhere in Colorado fighting a fire in Oregon or Washington out there in California. These are gutsy people, and they carry out a mission that takes a lot of risk. They know the risk. They go into it with full knowledge. But I guess if one is a young spirit, one always goes into it thinking. I can overcome, I can get by it, but they did not get by it, and we should recognize them for the hero status that is properly bestowed upon them.

I can say to the families of these 4 deceased, our Nation, the United States of America, owes your family a great deal of gratitude, that we consider these lost firefighters heroes, the way the word “hero” should be used, not for some celebrity figure, but for a figure to me that is much more of a hero than any movie star or sports figure could ever be, and that is these 4 young people who gave their lives yesterday for the United States of America.

**ENERGY CRISIS IN CALIFORNIA**

Mr. Speaker, I would like to move on to my topic discussion. As usual, as my colleagues know, we have had preceding speakers here on the floor, and it was interesting when I listened to my good friend, the respected gentleman from California (Mr. FILNER) and the respected gentleman from California (Mr. DEFAZIO). Both, most of the time, seem to be fairly knowledgeable on the subjects that they address, but I have disagreements with the statements that they made this evening. I was surprised that the gentlemen from California, when they talked about the energy shortage that they have had in California, as has become typical with some of the people out of California, blame everybody else; blame everybody else.

If we listen to the gentlemen from California this evening, or if we listen to the gentleman from the northwest, one would think that everybody in this Nation is to blame for the shortage, the energy crisis that they have experienced in California, that the blackouts in California have nothing to do with the political leadership of the State of California. That the energy blackouts in the State of California have nothing to do with the fact that they have not been able to build a power generation plant in California for years and years and years. The fact that they have an energy crisis in California has nothing to do with the attitude of some people out there in that State that say, do not build in my State, do not build in my backyard. We do not need electrical generation plants. We do not need gas
transmission lines in our State. Let the other States generate it and we will buy it from them.

It was interesting to hear that the gentleman in the northwest is blaming what he calls the greedy companies. Well, I have seen plenty of greed in my life, and perhaps that is one of the contributing factors, but do not continue to run away from the fact that it was poor policy in California. I say California versus the northwest, because in the northwest it was not necessarily poor policy. In the northwest, they have a minor problem. The Columbia River is going dry. They have had a drought. They did not get the rain or the moisture that they expected, so they were not able to generate the hydropower which, by the way, is very clean power, a very clean way to generate energy. So the northwest is a little unique.

But let me focus in on California. They did not have a river go dry on them. What happened out there is that they refused to accept the responsibility. Politically the political leaders in California, to look to the future, to have a vision for the future, to know that they have to provide energy for their constituents.

Now, I also heard the gentleman say, whacko environmentalists, that those who have criticized the State of California say it is because of whacko environmentalists. Well, there are some whacko environmentalists, there are some whacko developers. But putting that aside, the fact is that California has got a lot of balanced, reasonable environmentalists who understand the fact that they need clean generation of power. But the leadership in California, whether it is at the local level or the State level or the governor's level, have not allowed it to occur. They kind of brought it upon themselves.

Mr. Speaker, I know that the gentleman from California says he was tired of hearing people say, California brought it upon themselves. Well, let me say how interesting it is that it was of 50 States, California stands alone. Do they in California not think that the political leaders in California had a little something to do with the problems that they are facing out there?

Now, my colleague mentioned, well, several of his colleagues have said, the heck with California, that is their problem, let them suffer. That is not the attitude of this Congressman. I think California is a very important State in our Nation. I do not think we can just walk away from California. But it is awful frustrating for those of us who want to help the State of California to see that there are those in California who are too stubborn or too lazy to want to do anything that they will not even pull themselves up by their own bootstraps, that some in California will not provide self-help. That is what the problem is. We cannot walk away from California. This is a nation. This is a nation of 50 States. We are like brothers and sisters. We are tied together. It is a good union of being tied together.

But the fact is, when somebody is not pulling their load, we have to be frank about it and say, you are not pulling your load. It is like pulling a wagon up a hill. If we have somebody that is supposed to be pulling and they continually jump in the back and ride the wagon and you say to them, hey, Johnny, you got to get out of the wagon, you got to help pull it. Johnny gets out and says well, the whole reason I have to get out of this wagon is because the rest of you are not pulling hard enough. That is exactly what California is saying and that is exactly what some of us say from California, especially the gentleman who spoke earlier, and that is a good analogy. We have said to the gentleman from California, look, we are not going to let the wagon go, we still have to get that wagon up the hill, but you have to get out of the wagon and help pull the wagon up the hill. Do not just sit there and complain about how abused you are because the rest of us asked you to get out of the wagon to help us pull the wagon up the hill. Get out of the wagon, get off your duff and help the rest of us.

Mr. Speaker, ever since I was young my folks took us camping. My district is the Rocky Mountains of Colorado, born and raised, multi-generations in Colorado. My folks had a little rule. That is, if you went camping with them and you wanted to enjoy the campfire in the early mornings when it was quite chilly, as we know it gets, my district is the highest in the Nation, so it gets cool there in the mornings, or cold. So if you want to enjoy the camp fire, guess what you got to do? You got to help gather the firewood.

In California, it is the same thing. If you want to have enough energy, not just for this generation, but for future generations, you got to help gather the firewood. You got to help build electrical generation facilities. You have to plan natural gas transmission lines in your State. You have to be serious about conservation. To California's credit, let me say that this energy problem that we have, conservation can make a big dent in it, and California does deserve credit. In the last couple of months, the citizens of California have been responsive to conservation issues, although I am concerned that as this energy problem begins to resolve itself, people will put conservation along the side. I think in this Nation, all of us, every American, needs to adopt conservation on a permanent adoption basis.

Conservation is important. But California, do not expect the rest of us not to be frustrated if they are not going to help themselves get out of this mess. Do not continue to blame the President. But if you want to sound like heroes, that, "We want the Governor out there, did for some period of time. When he found out that was not working, he blamed the greedy companies down in California. Then he threatened to seize the companies, like it was some type of socialistic government that we operate in this country. Everything except themselves they have blamed for this crisis.

I am saying to the leaders and I am saying to the Governor of the State of California and I am saying to my good colleagues here on the floor from California who are taking these issues up about how badly treated California is, we want to help, but they have to help, too. Simply going up and saying, 'In 2 weeks, out in San Diego and cut the ribbon for a power generation company, now pat me on the back, and by the way, you are responsible for our power crisis,' that does not cut it, California. We want to help, but they have to help themselves.

How do they help themselves? The entire Nation can help itself with conservation and alternative fuels, those things. But alternative fuels really are something of the future. Today if we took all of the alternative energy in the world, all of the alternative energy in the world, and we put it all into the United States of America, we are talking about 3 percent of our power needs, 3 percent of our energy needs.

So clearly, alternative energy is going to be what the generation behind myself, my children's generation, my three kids and their generation, they are going to be primarily dependent on that like we are dependent on fossil fuels for our generation, and the two generations preceding us were dependent upon it.

That is going to be important. But in the meantime, what do we do for the current generation? We have to do a couple of things. California has to allow generation facilities to be built on a reasonable basis.

The gentleman from California, as supported by the gentleman from Oregon, seemed to suggest that we set aside, or people on both sides of the aisle say that going to show is that we set aside their environmental regulations and safeguards and build generation facilities wherever we want. They want to sound like heroes, that, "We are not going to let these environmental regulations be set aside. Why should we destroy our environment, like everybody outside of California wants us to do?"

That is absurd on its face. We can build generation facilities that are balanced. We can have a Gray Donut facilities that have an acceptable impact on the environment. I am not asking, and I do not think many of my colleagues, are asking for the State of California
to drop all of their environmental laws. I do not know anybody in here who really is calling the mainstream environmental community in California wackos. I do not think they are wackos at all, and that is a direct quote from the gentleman from California who had spoken previously, about an hour ago. What is not a wacko to see California is, hey, there is a balance with the environmental regulation. There is a balance with the zoning. They are going to have to have a power line in somebody’s backyard in order for everybody’s backyard to enjoy power. They have to be reasonable.

It is unreasonable for California to be the only State in the last 10, 15, 20 years that has not allowed an electrical generation power facility to be built in their State. California is not a little odd that they are one out of 50? Is it not a little odd that they are now the one out of 50 that is suffering the crisis out there?

The rest of the country is not in an energy crisis. Now, we have gotten a very clear warning, no doubt about it, but we are not in an energy crisis. Why? Because the other States have taken a more reasonable approach than has the political leadership of the State of California.

I am telling the Members, in my opinion, the Governor of California has taken absolutely the wrong direction on how to solve the problem. First of all, about 2 or 3 or 4 weeks ago, maybe 5 weeks ago, at the height of the market, the Governor finally decides he is going to sign long-term contracts, so he has bound the people of California into long-term contracts at the highest possible prices, so it has been seen in any number of years for electrical power. So if they think they are going to get rate relief in California, citizens of California, through my colleagues here, they are going to get rate relief.

The second thing is, the Governor of California has tried to say to the people, let us put on price caps. In other words, they say, let us artificially lower the price of the power. Let us not have them pay what the power actually costs to produce, the price that allows for some margin for reinvestment for the next generation, but let us subsidize the power price by either selling bonds, which is what the Governor of California has done, he has invested in billions, by billions of dollars future generations to pay for this generation’s power.

If I was talking to the Governor, I would say that is the wrong approach. First of all, this generation ought to pay for this generation’s power. Furthermore, this generation has an obligation to exercise some type of leadership, some type of responsibility, some type of vision for the next generation. We need to start planning for their energy needs.

California should be left alone. California, if it were a country of its own, would be the sixth most powerful country in the world. California has a lot of American citizens. It is a big part of our Union. It would be a deep, deep mistake for anybody on this House floor to turn their back and walk away from California.

But it is a mistake for anybody on this floor to look at our colleagues from the State of California and say, quit blaming everybody else, Governor. Quit blaming everybody else, newspaper editorialists out there. Accept some of the blame. Consider and accept the fact that they have to have self-help, and let us move forward as a team.

That is my message to California: We want to help them pull the wagon up the hill, but they need to help us pull the wagon. For 10 or 15 years they have given a free ride by riding in the back of the wagon. Now all of a sudden it is time for them to come up and help the rest of us. When they do, they are going to find out, just like I found out when we gathered firewood at the campsite we get to sit by the campfire. But if they are not going to help gather firewood when they have the capability to gather firewood, then they should not sit by the campfire and enjoy the benefits of that fire.

Let me talk just for a moment about conservation, because while we are on energy, I think it is important that we discuss conservation.

I had a fascinating thing happen to me not long ago. I was talking to a young person. I would guess the person was 23, 24 years old, and seemed to me to be very, very bright, very capable. I got to talking, as I often do with that generation, and saying, what are you going to do? What is your career orientation?

This particular individual said to me, well, my orientation, my career, is how do we get energy out of the ocean. How do we get energy out of movement? How do we get energy out of the ocean? How do we get energy out of movement?

Every time there is movement, as those who have studied physics and so on know, every time there is movement, there is energy.

In this particular thing, she said, I think there is energy in movement. How do we harness it? How do we harness it in a way that generates energy? How do we harness it in a way that we can utilize it for energy needs? It was not long after I visited with this young person that I ran into a gentleman. He was in the energy field. I was telling him about it. He reached in his pocket and he said, let me show you what she is talking about. I have one right here. See this?

This gentleman said, just imagine if we could put this in the ocean, where we have natural, continuous movement, we could generate electricity. I thought that little thing right there was fascinating. I thought that is what is the ticket for the future. That is what our generation has an obligation to try and help the future generation, encourage that generation, and then the generations that are not yet born to become dependent upon, to be more creative than using fossil fuels.

But at the same time, we as a generation have an obligation to accept the responsibility that fossil fuels are what we primarily depend upon right now.

I heard my colleagues earlier criticizing the Bush administration about the energy policy. Ironically, I would mention that the Clinton administration and Clinton and Gore had no energy policy for 8 years, had no vision into the future about what to do in regard to energy. The only one who has come up recently, stepping forward, stepping out of the line to take a leadership role, has been President Bush.

I notice that they criticize right off the bat the fact that, in his budget, has cut some funds for some research. Let me tell the Members, this is an old-time Washington, D.C. trick. Every program in the Federal budget has a firetruck. It is either for the children or it is for the future or it is alternative energy.

Why does every program have a good name to it? Because it is hard to cut it. It is hard to take money out of it. Once we create a program back in Washington, D.C., we can pretty well be assured that program has a life, a long life of being able to use taxpayer dollars.

The first thing that happens back here with the special interests, and special interests that go the entire band of interests, these special interest groups, the first thing they do when they get a program, and this includes Federal agencies, the first thing they do when they get a program put into place is to put a protective shield around it, in case somebody ever comes and says, look, what is the bottom line? Tell me, what are we doing for accountability? Tell me what the results are. Oh, we would like to do an audit to see if you are doing what you said you are going to do. What kind of results have you given us for this money?
Then they can immediately deploy their weapons, the weapons of special interest. This is to say, how dare you ask a question of whether we fund it in the first place, or ask a question of whether money is being spent efficiently on the school lunch program? You must want children to starve! It is the same kind of thing we are seeing here. We have research programs that we have funded for years, year after year after year on energy, and the bottom line is the results are not there. They are not there. The minute we go up to them, as the President has done, and said, look, we are going to have to not take the money away and use it for some other purposes, use it for highways or something, we are going to put this money and put it into research we think is going to make a difference, the first thing we do is run to the local or national media and say, my gosh, the President is proposing that we cut research. How terrible, in an energy crisis. This is a President who only wants oil drilling. He wants to cut our research. At best, at best that is a misleading statement. That is giving them the benefit, here. In fact, most of these programs, when we go after accountability, they are well-designed to do whatever is necessary to protect that program and keep that program alive.

Let me talk for a moment about the energy policy of this country. I mentioned earlier that President Clinton, the former President and the Vice President, they had no energy policy. We need an energy policy. What happened in California, what happened in the Northwest, now, the Northwest was primarily because of the Columbia River, but what happened in the Northwest was a warning shot to all 50 States. It was a warning shot saying to us, hey, one of these days we are going to face a real energy crisis. One of these days, we had better be prepared for it, because we are not going to get a second chance. We have to be prepared with energy alternatives.

What do we need to do that? We need to have some kind of energy policy. That is exactly what the President has done. Now, Members may not agree with the policy. Members may not agree with the policy, but whether you agree with the policy, I think every person in this country should agree with the fact that we need a policy.

Now, it is debate on this House floor, it is debate that really should start in the kitchen of every household of this Nation, as to what kind of energy policy should this country have; what kind of components should we put together so that our Nation as a unified group of 50 States has a policy that will get us through future energy crises, that will allow us the kind of vision, leadership, and responsibility that is necessary for future generations, that will allow us to propel our economy and keep it strong, that will allow us to do all of these things that energy allows us to do? Let us look at some of the elements that I think are important for an energy policy. First of all, there is discussion and debate. What President Bush has done is a favor to all of us by stepping forward and putting an energy policy on the table.

And by saying we ought to put conservation on the table, and we ought to put alternative energy on the table, we have to talk about supply. We have to talk about exploration. Put it on the table. We have to talk about what areas of the country should or should not be explored for other kinds of energy recovery. At least the discussion has begun.

Now, that does not mean that we have to adopt everything they have put on the table. That is not what it means. But what it does mean is that we have an opportunity now to start to put this policy together. So discussion is an important benefit of what the President's energy policy has put forward.

Now, let us talk about some of the other elements that are obviously very important for any energy policy. First of all, we have to ask what is it that every American could do? What could every American out there do to help our Nation on an energy policy, to help our Nation through these energy problems, to help our Nation assure future generations that an energy crisis is not going to be something they have to worry about?

The first thing every American can do, every American that is capable of moving and thinking, is conservation. Even simple conservation. Now, there is a lot of conservation that can take place in our Nation without research. Let me give you a couple of examples. Turn off the lights when we leave the room. Now, that sounds kind of simplistic. Sounds like, gosh, that is so basic, of course we turn off the lights. But what difference does it make if I walk out of the room over here and I have the lights off for 2 minutes? I am going to be back there in 2 minutes anyway. Imagine the difference if every American that is using lights right now as I speak shut off their lights for 2 minutes. How much energy would we save? How much conservation is that? It is significant.

And let us put that together with a little less idling of our cars; maybe turning our air conditioning a little lower, at 70 degrees instead of having it set at 68 degrees; maybe in the winter have the heat set at 68 degrees instead of 75 degrees; maybe just simply checking our ceiling fans to make sure they are turning in a clockwise direction or motion so that they draw the cool air up and help cool our homes; maybe going to our car owner's manual and determining that we only need to change the oil of the engine of our car every 6,000 miles instead of every 3,000 miles, as the people out there that market oil products are trying to get us to do. There are a lot of ways that average Americans, every American, can help conserve energy, and that is a very critical part of an energy package. I think it is important for all of us to assume that we have an obligation to help with that. All of us have that obligation. But that is only a part of the energy package that we need for this country. What other element should be in that energy package? Well, of course, alternative energy.

As I mentioned, I was fascinated by this little device, this device that I saw it, whether it is wind power, which seizes energy from motion. That simple motion turns this little light on. That motion, through the physics and all the other engineering, we need to have that. We need to have research. But to have research for alternative energy, we need to be able to have accountability from the people that give this money to. We need to know that our research is at least moving us in the right direction. We need to know that the people doing this research have oversight. Because we do have an obligation not just to throw money at anybody that says I have an idea for future alternative energy, so give me money, Federal taxpayers.

There are a lot of scams that take place out there, and most of the people getting scammed in this country are taxpayers. And most of the scamming is done by special interest groups who know how to give a program a great name and then take gobs and gobs of money. If I say research is very important, it has to be research that makes something. It has to be research that is going to come up with a result or at least move us towards the path of a result.

So we know we need to have conservation. We know we need to have research for alternative fuels. We also need to face the fact, as I said earlier in my comments, that if we took all of the alternative energy in the world, all of it, and we put it all around the world and directed all of it to the United States of America, it would only supply 3 percent of our needs.

So we need to face the fact that as we put this energy policy on the table and we are crafting what a future energy policy should look like, we need to face the fact that we are going to have to decide where we want to drill for oil. We have to come up with additional fossil fuel until that point in time that we have conserved and reached alternative energies so that we
can lessen our dependence on fossil fuels. If we do not do that, the demand for fossil fuels will still exist.

So how do we fill that gap? I will show my colleagues on this chart right here, this is oil field production. This is the oil that we are now bringing out at the 1990–2000 growth rates. It is flat. It is actually not flat, as we can see from the angle of my pointer. It actually is declining. Our oil production is declining. Yet if we look at the red line to my left, we will see a line that is labeled oil consumption, and we see that that is going at an angle up and the oil production, field production, is at an angle going down. That means we have a projected shortfall. That is the blue.

How do we make up the difference? How can we possibly have oil consumption here when we have energy production down here? Does not make sense, does it? Well, it does. Because what fills that blue spot on this chart, what goes in there and fills that big hole is foreign oil. Foreign oil. Our dependence on foreign oil.

Remember the other energy crises? Many are too young to remember, but the energy crisis in the early 1970s is when we were 40 or 30 percent dependent on foreign oil. Today we are over 50 percent dependent on foreign oil. This gap right here is becoming larger and larger and larger. We need to begin to close oil consumption through conservation, and we need to bring up our energy resources through not just alternative energy but also through our own resources so that we become less dependent on countries like Iraq and so on.

So in my opinion an energy policy needs to be put together by this Congress. And we would certainly ask our President. We do not have to agree with all the elements of an energy policy, but certainly everybody in these chambers should commend the President for at least stepping forward and saying, number one, we need an energy policy, which is a dramatic change from what we have had over the last 8 years under the previous administration; and, number two, we need to put an energy policy together that makes sense on a number of different fronts: Conservation, alternative fuels, re-search, and further exploration of fossil fuels.

Now, there are some other areas that an energy policy needs to be put together by this Congress. And we would certainly ask our President. We do not have to agree with all the elements of an energy policy, but certainly everybody in these chambers should commend the President for at least stepping forward and saying, number one, we need an energy policy, which is a dramatic change from what we have had over the last 8 years under the previous administration; and, number two, we need to put an energy policy together that makes sense on a number of different fronts: Conservation, alternative fuels, re-search, and further exploration of fossil fuels.

As many of my colleagues know, this is one of my favorite charts. Why? Take a look at this. This chart shows the population on the eastern part of the United States and there are distinctions there. There are differences between the eastern United States and the western United States. Let me just point out a couple of them.

First of all, water. The State of Colorado, and my district is this color, the poster here to the left. My district is about 64,000 square miles. My district is larger than the entire State of Florida. This is the highest point in the United States right here. As a result, we have water and lots of snow. Our State provides water, just the Colorado River, which goes like this, that river alone provides drinking water for 25 million people. But that water comes from snow melt. Colorado, this State in the center of the United States, has no water. It is the only State in the lower 48, Colorado, that has no free flowing water that comes into State for its use. The only State out of the lower 48. When one takes a look at water in the West, you have the western United States, a chunk about like this, that is over half of the United States, yet that area that I have just pointed out that I have the pointer on, while it consists of over half the land of the United States, it only has 14 percent of the water in the United States. We do not have much rainfall in the West. In the East, people sue each other to shove water, make sure that water is diverted over to their neighbor's property.

In the West, out in the West, life is written in water. Water is like blood in the West. We are an arid region. I had not seen a heavy rain until I came East. Our rain in Colorado is cold and does last a long time. Once in awhile we get some heavy storms, but generally we do not get much rain. We depend very heavily in the West on water storage because for about 6 to 8 weeks, we get all of the water we could possibly ask for generally, and that is in the spring runoff as the high snows begin to melt and come down. But the rest of the year we do not have that kind of water. Even that 6 weeks, it is not on a consistent basis. Some years we have more snow, and some years we have less snow.

So in the West, we are dependent on water storage. In the West we have Hoover Dam with Lake Mead and we have the Glen Canyon Dam with Lake Powell that provides 80 percent of our water storage. Our water storage is necessary to get us from year to year. It is not nearly as critical in the East as it is in the West. In fact, primarily a lot of your water storage facilities in the East are flood control. You have got much water.

Our water storage facilities in the West are also flood control, but primarily utilized to store these waters. That is the difference between the East and the West. Let me tell you another difference between the East and the West, and that is public lands. Follow my pointer over here to the left. In the early days of our country, our population really was on the East Coast like this up in this area. And our Nation began to acquire through the Louisiana Purchase and the Missouri buys and things like that large chunks of land out here. In the East our political leaders decided as we grow this great Nation of ours, we have to figure out how to get ahold of this land and put people out on this land. You see back then, simply having a title, having a piece of paper that said you owned the land, it did not mean a hoot.

What you needed to do if you wanted to own the land is you needed to possess it probably with a six shooter on your side. That is where the old saying came from, "Possession is nine-tenths of the law."

So they came up with a problem, how do we influence people to move to the West? West being just Kentucky, out here in the Virginias. How do we get them to move west? Somebody came up with the idea, "Let's use the Homestead Act." So they came up with a problem, how do we influence people to move to the West? West being just Kentucky, out here in the Virginias. How do we get them to move west? Somebody came up with the idea, "Let's use the Homestead Act." So they came up with a problem, how do we influence people to move to the West? West being just Kentucky, out here in the Virginias. How do we get them to move west? Somebody came up with the idea, "Let's do what we did in 1776." What did they do in 1776? We all remember that. What did they do in 1776? Believe it or not, the government decided that instead of just giving land to deserters, or people who will defect, soldiers who will defect from the British army. As a reward we'll give them land if they will be defectors. So let's deploy the same type of strategy, not for defectors but since land seemed to work pretty well then, let's give away land. Let's tell people that if they move to the West, we will give them 160 acres. We'll call it the Homestead Act.

Here is kind of a demonstration of it. Here is kind of a demonstration of it. In 1862, this is later on, because for a while, we could not get the Homestead Act because the North and the South were constantly fighting because they did not want too much of a population in one area that might go slavery or might be opposed to slavery. But in 1862 the U.S. Congress passed the first of many homestead laws that opened settlement of the West. The law provided that anyone was entitled, either the head of a family, 21 years old or a veteran of 14 days of active service in the U.S. Armed Forces, and who was a citizen or had filled a declaration intending to become a citizen could acquire a tract of land in public domain not occupied by the United States or by state or federal owned lands in all the States except the original 13, Maine, Vermont, West Virginia, Kentucky, Tennessee and Texas. The land was often desolate without trees, wood or adequate water. As a reward we'll give them land if they will be defectors. So let's deploy the same type of strategy, not for defectors but since land seemed to work pretty well then, let's give away land. Let's tell people that if they move to the West, we will give them 160 acres. We'll call it the Homestead Act.

Third Congressional District of Colorado. This is the highest point in the United States right here. As a result, we have got too much water. In fact, primarily we are flood control, but primarily utilized to store these waters. That is the difference between the East and the West as it is in the West. In fact, primarily a lot of your water storage facilities in the East are flood control. You have got much water. Our water storage facilities in the West are also flood control, but primarily utilized to store these waters.

Well, there happened to be a problem. As people began to come out here, they took up the efforts of homesteading and they settled. They're either turning back and going back into the main part of the United States or they're trying to go up and around and come out here on the coast of California where you see this large white patch, but they are not settling in this area. That set off alarm bells in Washington.

Remember what I said. In order for us to grow this Nation, we had to have people in possession. So this great Nation of ours that owned these large, public lands, owners as I said here but nobody was on them to defend them. Nobody was possessing them. So in Washington, the alarm bells went off. We have got to get people into these lands. Somebody said, well, 160 acres in eastern Colorado or Nebraska of Kansas or out here in Missouri, 160 acres is enough to support a family.

They said, well, in the mountains, at those high elevations, in a lot of cases, 160 acres, it won't even feed a cow. What do we do? Somebody says, I'll tell you what we do. Let's give the people 3,000 acres. Let's give them several thousand acres, compared to the 160 acres where the ground is much more fertile and where you can support a family.

Somebody else said, we can't do that politically. There's no way that we can give individuals thousands of acres each. Somebody else came up with an idea and they said, you know what we are going to do, just for formality, let's go ahead and keep the title to all this land in the Federal Government, let's just allow the people to use the land. That is where the concept of public lands came from, and that is where the concept of multiple use came from and that is where the sign that I grew up with, when I would go into the forest or Federal lands and, by the way, in my district almost every community in my district is completely surrounded by public lands, when we went on those public lands, there was a large sign there. "You are now entering the Roosevelt National Forest, a land of many uses." A land of many uses. That is just what I have here to the left of my chart.

What has happened is of late, we have organizations like the National Sierra Club who would like to take down the water storage project at Lake Powell which consists of about 40 percent of our water storage in the West. We have groups like Earth First that are coming out and trying to educate people out here in the East that in the West all this land, the reason it was never put into private ownership was so that
it could be conserved for all future generations and not to be used by the people in the West and really we ought to get rid of the concept of multiple use.

What they do not tell you is there were some lands, like right up there, the great Yellowstone National Park, Teton National Park, fabulous areas. Everybody should go see those areas. Those were set aside specifically as national parks and so on. But this land out here was never intended to be a land with a no trespassing sign on it. It was thought to be a land that could support life, a land of which the people could have multiple uses, whether it was recreation, whether as we know today protection of the environment, whether it was farming or skiing or having a highway or having a power line or having your home or being able to go fishing, or just watch, be a wildlife watcher. That is a big difference between the East and the West.

In the East they do not know what public land is in a lot of States. In the East not a lot of people understand the issues and the differences between water in the East and water in the West. In the East if you are going to build a power line or something like that, you go to your county planning board. Here in the West, our planning board is right back here in Washington, D.C. So you can see why the people of the West get a little sensitive when people in the East start dictating the terms of which the people in the West must live under.

And so my purpose here tonight, after my discussion last night, was not an attack on the East obviously, but to help my dear colleagues from the East, so that you can talk to your constituents and say, you know, life in the West really is different. I mean, they are Americans, we are one country, but we need to take into consideration the fact that in the West, they deal with much different geographic differences, or elevations even, than we do in the East. And as you begin to look at those things, as you begin to hear our side of the story in the West, a lot of you things, as you begin to look at those differences and the differences between the East and the West really is different. I mean, they need to take into consideration the different public lands and private lands. We need to take into consideration the different water issues of the West, compared with the water issues of the East. We need to take into consideration the fact that in the West, they deal with much different geographic differences, or elevations even, than we do in the East.

And as you begin to look at those things, as you begin to hear our side of the story in the West, a lot of you things, as you begin to say, wow, I did not realize that. I did not know that. Gosh, that map that you showed us this evening really does show something that we ought to think about, something we ought to consider when we make legislation off this fine floor of the House of Representatives.

So my purpose again to reiterate tonight is simply to demonstrate that there are differences that we must consider when we have legislation dealing with everything from water to public lands.

Mr. Speaker, let me very quickly end my remarks as I started my remarks, and, that is, I wish to honor this evening four firefighters who lost their lives yesterday in service to their communities. Those firefighters were Tom L. Craven, 30 years old, of Ellensburg; Karen L. Fitzpatrick, 18 years old, of Yakima; Devin A. Weaver, Devin was 21 years old, of Yakima; and Jessica L. Johnson, who was 19 years old, of Yakima.

If some of you colleagues have just come in towards the end of my remarks, let me tell you that 2 days ago, these four young people were called to service to fight a fire, a fire that started at five acres and within minutes moved to 2,500 acres. From five to 2,500. These firefighters and some of the others that managed to survive on that fire experienced the horror every firefighter has, the bad dream that every firefighter has, and that is called a blowout. These four people fit the classification of the definition of the word hero as we see it in our dictionary, as we feel it in our mind, as we think about it in our emotions.

In my concluding remarks tonight, I would ask that this body and every citizen in America, all your constituents, extend their sympathies and their prayers to the families of these firefighters who lost their young loved ones, and also, it also gives us a little time for consideration. The next time you see a fireman, whether it is a volunteer fireman, professional fireman, a police officer, an EMT or just the local volunteer from the community that helps us take on the battle of fires which we face every summer, pat them on the back, tell them thanks, tell them we care about them.

But tonight, colleagues, before you go to sleep, if you say prayers, and I do, if you say prayers, say just a little prayer for those firefighters who gave their lives in the last 24 hours as the duty of their Nation called.

They answered that call. They fulfilled their duty and they are now part of history. I ask for your consideration and your prayers.

RECESS

The SPEAKER pro tempore (Mr. KOEHLER) Pursuant to clause 12 of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 11 o'clock and 31 minutes p.m.), the House stood in recess subject to the call of the Chair.

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. DEERE) at 1 o'clock and 23 minutes a.m.
CONGRESSIONAL RECORD—HOUSE

July 11, 2001

Mr. HORN, for 5 minutes, today.

Mr. WELDON of Florida, for 5 minutes, today. (The following Member (at his own request) to revise and extend his remarks and include extraneous material):

Mr. WAXMAN, for 5 minutes, today.

ADJOURNMENT

Mr. REYNOLDS. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 1 o’clock and 25 minutes a.m.), the House adjourned until Thursday, July 12, 2001, at 10 a.m.

H.R. 2783: Mr. Quinn.

AMENDMENTS

Under clause 8 of rule XVIII, proposed amendments were submitted as follows:

H.R. 2330 Offered By: Mr. Baca

Amendment No. 31: Page 74, after line 21, insert the following new section:

SEC. 74. The amount otherwise provided by this Act in titles V, VI, and VII under the headline "AGRICULTURAL PROGRAMS—COOPERATIVE STATE RESEARCH, EDUCATION, AND EXTENSION SERVICE—RESEARCH AND EDUCATION ACTIVITIES" for an education grants program for Hispanic-serving Institutions (7 U.S.C. 2431) is hereby increased by $16,508,000.
H.R. 2356

OFFERED BY: MR. BENTSEN

AMENDMENT NO. 1: Amend section 308(a)(1) to read as follows:

(1) in subparagraph (A), by striking "$1,000" and inserting "$2,000"; and

H.R. 2356

OFFERED BY: MR. BENTSEN

AMENDMENT NO. 2: Strike subsections (a) and (b) of section 308 and insert the following:

(a) INCREASE IN LIMITS ON INDIVIDUAL CONTRIBUTIONS TO NATIONAL PARTIES.—Section 315(a)(1)(B) of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a(a)(1)(B)) is amended by striking "$20,000" and inserting "$25,000".

(b) AGGREGATE INDIVIDUAL LIMIT.—Section 315(a)(3) of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a(a)(3)), as amended by section 102(b), is amended by striking "$30,000" and inserting "$25,000".

H.R. 2356

OFFERED BY: MR. TERRY

AMENDMENT NO. 3: Amend section 308 to read as follows:

SEC. 308. INCREASE IN CONTRIBUTION LIMITS.

(a) INCREASE IN INDIVIDUAL AND POLITICAL COMMITTEE CONTRIBUTION LIMITS.—Section 315(a) of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a(a)) is amended—

(1) in paragraph (1)—

(A) in subparagraph (A), by striking "$1,000" and inserting "$3,000";

(B) in subparagraph (B), by striking "$20,000" and inserting "$60,000";

(C) in subparagraph (C), by striking "$5,000" and inserting "$15,000"; and

(2) in paragraph (3) (as amended by section 102(b))—

(A) by striking "$30,000" and inserting "$75,000"; and

(B) by striking the second sentence.

(b) INCREASE IN MULTICANDIDATE LIMITS.—Section 315(a)(2) of such Act (2 U.S.C. 441a(a)(2)) is amended—

(1) in subparagraph (A)—

(A) by striking "$5,000" and inserting "$7,500"; and

(B) by inserting "except as provided in subparagraph (D)," before "to any candidate";

(2) in subparagraph (B)—

(A) by striking "$15,000" and inserting "$30,000"; and

(B) by striking "or" at the end;

(3) in subparagraph (C), by striking "$5,000" and inserting "$7,500; or"; and

(4) by adding at the end the following:

"(D) in the case of a national committee of a political party, to any candidate and his authorized political committees with respect to any election for Federal office which, in the aggregate, exceed $15,000.";

(c) INDEXING.—Section 315(c) of such Act (2 U.S.C. 441a(c)) is amended—

(1) in paragraph (1)—

(A) by striking the second and third sentences;

(B) by inserting "(A)" before "At the beginning"; and

(C) by adding at the end the following:

"(B) Except as provided in subparagraph (C), in any calendar year after 2002—

"(i) a limitation established by subsection (a), (b), (d), or (h) shall be increased by the percent difference determined under subparagraph (A); and

"(ii) each amount so increased shall remain in effect for the calendar year.

"(C) In the case of limitations under subsection (a), each amount increased under subparagraph (B) shall remain in effect for the 2-year period beginning on the first day following the date of the last general election in the year preceding the year in which the amount is increased and ending on the date of the next general election."; and

(2) in paragraph (2)(B), by striking "means the calendar year 1974" and inserting "means—

"(i) for purposes of subsections (b) and (d), calendar year 1974; and

"(ii) for purposes of subsections (a) and (h), calendar year 2001".

(d) INCREASE IN SENATE CANDIDATE CONTRIBUTION LIMITS FOR NATIONAL PARTY COMMITTEES AND SENATORIAL CAMPAIGN COMMITTEES.—Section 315(h) of such Act (2 U.S.C. 441a(h)) is amended by striking "$17,500" and inserting "$90,000".

(e) EFFECTIVE DATES.—

(1) Except as provided in paragraph (2), the amendments made by this section shall apply to calendar years beginning after December 31, 2001.

(2) the amendments made by subsection (c) shall apply to calendar years after December 31, 2002.

"(i) a limitation established by subsection (a), (b), (d), or (h) shall be increased by the percent difference determined under subparagraph (A); and

"(ii) each amount so increased shall remain in effect for the calendar year.

"(C) In the case of limitations under subsection (a), each amount increased under subparagraph (B) shall remain in effect for the 2-year period beginning on the first day following the date of the last general election in the year preceding the year in which the amount is increased and ending on the date of the next general election."; and

(2) in paragraph (2)(B), by striking "means the calendar year 1974" and inserting "means—

"(i) for purposes of subsections (b) and (d), calendar year 1974; and

"(ii) for purposes of subsections (a) and (h), calendar year 2001".

(d) INCREASE IN SENATE CANDIDATE CONTRIBUTION LIMITS FOR NATIONAL PARTY COMMITTEES AND SENATORIAL CAMPAIGN COMMITTEES.—Section 315(h) of such Act (2 U.S.C. 441a(h)) is amended by striking "$17,500" and inserting "$90,000".

(e) EFFECTIVE DATES.—

(1) Except as provided in paragraph (2), the amendments made by this section shall apply to calendar years beginning after December 31, 2001.

(2) the amendments made by subsection (c) shall apply to calendar years after December 31, 2002.
INDIA, RUSSIA AGREE ON $10 BILLION IN DEFENSE CONTRACTS

HON. DAN BURTON
OF INDIANA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, July 10, 2001

Mr. BURTON of Indiana. Mr. Speaker, on June 4, the Information Times reported that India and Russia have signed $10 billion worth of defense contracts. This is not good for American interests in the world or for the cause of freedom.

Much has been written lately about the Indian Government’s desire to improve its relations with the United States. However, we must not forget that India just recently voted to oust the United States plan from the UN Human Rights Commission. It supported a Chinese bid to table our resolution condemning Chinese human-rights violations. In May 1999, according to the Indian Express, Defense Minister George Fernandes convened a meeting with the ambassadors to India from Cuba, Communist China, Libya, Yugoslavia, and Russia to construct a security alliance “to stop the U.S.” India was an ally of the former Soviet Union and publicly supported its invasion of Afghanistan.

Mr. Speaker, America’s national interests are best served by seeing new allies in south Asia. The best way to achieve that is to support the legitimate aspirations for freedom of the occupied and oppressed nations of South Asia such as Khalistan, Kashmir, Nagalim, and several others by means of a free and fair plebiscite under international supervision on the question of independence. Until India allows that democratic vote and permits all the minorities and every citizen to exercise their rights freely, we should cut off all aid to India. That should focus their attention on practicing democratic principles, not on grabbing every available military technology in pursuit of hegemony in South Asia. These are the best measures we can take to support the cause of freedom in the Indian subcontinent.

Mr. Speaker, I would like to place the Information Times article of June 4 into the RECORD.

India, Russia Sign About 10 Billion Dollars Defense Contracts

Russia, 4 June 2001 (VOA): India and Russia have signed defense contracts worth some $10 billion as the two countries seek to increase their military cooperation.

The signing came during a visit to Russia by Indian Foreign Minister Jaswant Singh. Singh arrived in Moscow late Sunday for a series of meetings with Russian officials that will also focus on the United States’ proposal for a national missile defense system.

Russia opposes the plan, while India has indicated it is open to the idea.

Among the agreements already concluded are major Indian purchases of Russian Su-30MKI fighter jets and T-90 tanks.

Russian Deputy Prime Minister Ilya Klebanov says the two countries will sign an agreement later this year to jointly develop a military transport aircraft and a next-generation fighter plane. Klebanov says contracts for the sale of a Soviet-era aircraft carrier to India will be signed later this year.

India has traditionally been one of the largest customers for Russian weapons.

RECOGNITION OF THE VETERANS OF WORLD WAR II

HON. MICHAEL FERGUSON
OF NEW JERSEY
IN THE HOUSE OF REPRESENTATIVES
Tuesday, July 10, 2001

Mr. FERGUSON. Mr. Speaker, in recent years there has been an increased movement to recognize veterans of World War II. Despite improved awareness, there are many veterans whose heroic efforts to preserve this great country are still overlooked. Accordingly, we must continue to take greater strides to demonstrate the appreciation and gratitude these loyal Americans deserve for the sacrifices they made.

During World War II, tens of thousands of U.S. POWs were captured and either killed under unspeakable conditions or forced into slave labor for Japanese companies. After the United States surrendered its forces on the Bataan Peninsula, Philippines in early 1942, the infamous 60-mile Bataan Death March claimed the lives of hundreds of Americans. In fact, more than 14,000 American POWs perished from disease, starvation, injury, brutality or execution at an appalling 40 percent death rate that proved it was more deadly to be a prisoner of the Japanese than to fight in battle. The prisoners who survived the Bataan Death March were joined by other American prisoners who were taken at Corregidor and throughout the Pacific—Guam, Wake Island, and survivors of the sinking of the U.S.S. Houston.

Many words used to describe the conditions these American prisoners faced cannot do justice to the pain and suffering that they experienced. Upon arrival in Japan and Japanese-occupied territories such as Manchuria, they were sent to work as slaves for some of Japan’s richest companies, like Mitsubishi and Nippon Steel—companies that remain wealthy and powerful today.

The U.S. played an instrumental role in the discussions between German companies and their victims during the Holocaust litigation, and it is now time that our government extend the same gesture of gratitude and support for the POW veterans of World War II. As such, I am proud to voice my strong support for H.R. 1198, the “Justice for United States Prisoners of War Act of 2001”, introduced by Representatives Darla Rohrabacher (R-CA) and Michael Honda (D-CA).

I applaud Representatives Rohrabacher and Honda for their leadership in bringing these Japanese companies to justice on behalf of the well-deserving veterans who suffered and lost their lives. The bipartisan legislation will rightfully allow American POWs to sue Japanese companies in U.S. state or federal court for losses and injuries sustained during the time they were imprisoned and forced into slave labor. Moreover, the bill also provides that if Japan enters into peace settlement terms with another country more beneficial to that country than to the United States, those additional benefits will also be extended to the United States.

I believe our POWs, who have given years of their lives to serve the cruel interests of our wartime enemies should at least be allowed the opportunity to have their grievances redressed in an international court of law. As a nation, which has thrived because of the sacrifices of these brave men, we must do everything in our power to recognize and repay their courageous efforts.

We owe it to these POWs—both the survivors and those killed in action—who made immeasurable sacrifices for the brighter future of this great nation. We owe it to their families, who also made sacrifices by losing precious days, weeks and months with loved ones who were off serving, preserving the peace and freedom we have in this country today.

CONSECRATION OF FATHER JACOB ANGADIATH

HON. J. DENNIS HASTERT
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES
Tuesday, July 10, 2001

Mr. HASTERT. Mr. Speaker, today, I would like to congratulate Father Jacob Angadiath, who will head up the newly created diocese in Chicago to serve Syro-Malabar Catholics in the United States and Canada. The consecration of Father Angadiath as bishop of the diocese will take place on July 1st.

Earlier this year, Pope John Paul II created the new diocese to serve the Syro-Malabarrians of North America. The Syro-Malabar Archiepiscopal Church is an Eastern Catholic Church with more than 3 million faithful, and they trace their roots to St. Thomas the apostle, who brought the Gospel to South ern India. Though the vast majority of Syro-Malabarrians live in India, about 75,000 live in North America, including about 7,000 in Chicago.

The creation of the new St. Thomas Syro-Malabar Catholic diocese of Chicago is truly a recognition by Pope John Paul II of this faithful community, which refers to itself as “oriental in worship, Indian in culture and Christian in religion.” It is the first Syro-Malabar diocese outside of India.

● This “bullet” symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.
I want to again congratulate Father Angadiath, and wish him the best of luck as he takes on his new responsibilities as bishop. The St. Thomas Syro-Malabar Catholic diocese will provide a spiritual home for the Syro-Malabar Catholics outside of India, and it will be a wonderful addition to Chicago's many other religious communities.

CONGRATULATING STEVE SAMUELIAN

HON. GEORGE RADANOVICH
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, July 10, 2001

Mr. RADANOVICH. Mr. Speaker, I rise today to congratulate Steve Samuelian for being presented with the Chair’s Award from the United Way of Fresno County (UWFC). The Chair’s Award is selected by the Chair of the Board of Directors of the UWFC, and is awarded to the board member who has demonstrated outstanding service to community improvement.

The main goal of the United Way is to maximize financial resources in order to build a healthier community while improving the quality of life. Steve’s exemplary service to the UWFC has helped advance the mission, values, and goals of the United Way. In addition to his work on the Board of Directors, Steve recruited and chaired the Leadership Giving Committee of the United Way of Fresno County. The Leadership Giving Committee is the group that recruits and handles major donors to the United Way of Fresno County. The amount of contributions to this committee has doubled under Steve’s guidance.

Steve serves on the Board of Directors of the Clovis District Chamber of Commerce and participates in the National Education Association’s Read Across America Program. He is also a member of the Resource Development Committee for the Fresno Leadership Foundation. In addition, Steve is actively involved in the Armenian-American community, and serves on the Board of Advisors for the Armenian Studies Program at California State University, Fresno.

Mr. Speaker, I want to congratulate Steve Samuelian for earning the United Way of Fresno County Chair’s Award. I urge my colleagues to join me in recognizing Steve Samuelian’s contributions and dedication to the community.

TRIBUTE TO COLONEL TIMOTHY M. DANIEL

HON. IKE SKELETON
OF MISSOURI
IN THE HOUSE OF REPRESENTATIVES
Tuesday, July 10, 2001

Mr. SKELETON. Mr. Speaker, let me take this means to congratulate and pay tribute to Colonel Timothy M. Daniel, who recently retired from the United States Army Corps of Engineers where he served as Chief, Commander's Planning Group. He has distinguished himself, the Army, and our nation with dedicated service.

EXTENSIONS OF REMARKS

Colonel Daniel, originally from Wyoming, enlisted as a soldier in 1970. Following his tour of duty as a construction surveyor and instructor, he returned to the University of Wyoming where he graduated in 1975. He accepted a ROTC commission and reentered active duty in July 1975.

Colonel Daniel is a graduate of the engineer officer basic and advanced courses, Command and General Staff College. He holds a bachelor’s degree in International Relations. A master’s degree in Public Administration and attended Harvard University’s John F. Kennedy School of Government as a fellow in their national security program.

Prior to his assignment as Chief, Commander’s Planning Group, United States Army Corps of Engineers, he served as the Garrison Commander of the United States Army Garrison, Fort Leonard Wood, Missouri. His other commands include the 35th Engineer Battalion and company command at the United States Army Engineer Center, serving again at Fort Leonard Wood, Missouri.

Other assignments of Colonel Daniel include Long Range Planner, Strategic Plans and Policy Division, Office of the Chief of Staff for Operations and Plans at Headquarters, Department of the Army; Area Engineer for Israel; executive officer, 14th Combat Engineer Battalion, TRADOC Liaison Officer to the French Corps of Engineers, Angers, France; and Group Engineer, United States Army Artillery Group, Cakmakli, Turkey.

Mr. Speaker, Colonel Daniel has dutifully served our nation. As he prepares to spend more time with his wife Carol and his children, Thomas and Kelly, I know the members of the House will join me in expressing appreciation for his years of service.

IN HONOR OF ARTHUR MAYER, JR. WHO HAS BEEN ELECTED NATIONAL PRESIDENT OF THE BENEFICENT AND PROTECTIVE ORDER OF ELKS

HON. ROBERT MENENDEZ
OF NEW JERSEY
IN THE HOUSE OF REPRESENTATIVES
Tuesday, July 10, 2001

Mr. MENENDEZ. Mr. Speaker, I rise today to recognize Arthur Mayer, Jr., who formally became President of the Benevolent and Protective Orders of Elks on Saturday, July 7, 2001. Mr. Mayer assumed his presidency at the 133rd Elks National Convention in Philadelphia, Pennsylvania.

Arthur Mayer, Jr. is a native of Bergenfield, New Jersey and has been an active member of the Bergenfield Elks Lodge #1477 for the past 35 years. In 1978, he was appointed District Deputy Grand Exalted Ruler for the Northeast District of New Jersey. He also served as President of the New Jersey Elks Association from 1985 to 1986. As President of the New Jersey Elks Association, he managed and supervised over 120 lodges throughout New Jersey.

The Benevolent and Protective Order of Elks of the United States of America is one of the largest fraternal organizations in the country. Currently, over 1.2 million men and women serve as members of this prestigious association. In the organization’s 132-year history, it has disbursed over $2 billion in goods and services for projects and civil programs that assist armed service veterans and students in over 2,000 communities nationwide.

As a result of his hard work and diligent efforts, Arthur Mayer, Jr. has helped improve the lives of thousands of families across the country.

Today, I ask my colleagues to join me in honoring Arthur Mayer, Jr. for his commitment to helping others and for his years of distinguished service at the Benevolent and Protective Order of Elks of the United States of America.

INTRODUCTION OF THE “QUINEBAUG AND SHETUCKET RIVERS VALLEY NATIONAL HERITAGE CORRIDOR PROTECTION ACT OF 2001”

HON. ROB SIMMONS
OF CONNECTICUT
IN THE HOUSE OF REPRESENTATIVES
Tuesday, July 10, 2001

Mr. SIMMONS. Mr. Speaker, I rise today with my colleague from Massachusetts, RICHARD NEAL, to introduce the “Quinebaug and Shetucket Rivers Valley National Heritage Corridor Protection Act of 2001.”

The bill would provide for the implementation of a management plan for the Corridor to protect resources critical to maintaining and interpreting the distinctive character of the Quinebaug and Shetucket Rivers Valley National Heritage Corridor.

Created by Congress in 1999, the Quinebaug-Shetucket Rivers Valley National Heritage Corridor (QSHC) encompasses about 695,000 acres in northeastern Connecticut and south-central Massachusetts.

Called “the Last Green Valley” in the sprawling metropolitan Boston-to-Washington, D.C. corridor, the QSHC has successfully assisted in the development and implementation of integrated cultural, historical, and recreational land resource management programs that has and will continue to retain, enhance and interpret these significant features. But much more needs to be done, which is why Mr. NEAL and I introduced this legislation.

The QSHC will embark on two very significant projects. The Green Valley Institute is an expansion of the successful natural resource education program that will serve as a key educational tool for the scores of volunteers who work on the municipal boards, committees and commissions making those important decisions regarding land use and natural resource conservation. The program will also provide much needed information in estate planning, forestland management, and technical assistance in GIS training and other important technology. The Green Valley Institute may be the single most important program that the QSHC can provide its 35 towns.

The other significant project is the planning and consideration of the Gateway Center proposed for I–395 in Thompson, Connecticut. Many entities in northeast Connecticut and south-central Massachusetts are looking to the
RECOGNIZING MISS ARKANSAS 2001  JESSIE WARD  

HON. MIKE ROSS  
OF ARKANSAS  
IN THE HOUSE OF REPRESENTATIVES  
Tuesday, July 10, 2001

Mr. ROSS. Mr. Speaker, it is with honor and great pride that I wish to recognize and congratulate the new Miss Arkansas 2001 Jessie Ward, who was crowned Saturday, June 16th, in Hot Springs, Arkansas. Jessie is a native of my hometown of Prescott, and I have watched her grow up since she was a little girl.

Jessie has always been a caring, talented, and hard-working young lady.

At her first press conference following her crowning as the new Miss Arkansas, Jessie said that during the competition she wanted to be different—to stand out, if you will—while remaining true to herself. I think it’s safe to say she succeeded. In the talent competition, she performed an energetic tap-dance routine to the world famous pop singer, Michael Jackson. Her performance earned her preliminary talent winner honors as well as the coveted $1,000 Coleman Dairy Talent Scholarship.

During an on-stage interview, Jessie explained to the crowd that she enjoys not only bass fishing with her father, but also a rather unique hobby, taxidermy. In her words, she said, “to me, taxidermy is an art form, and everyone needs a little art in their life.”

In addition to her hobby, Jessie is also co-authoring a book with her mother, Karen Ward, on perseverance, which is something I think we could all use a lesson on from time to time.

Jessie’s platform as a contestant, and now as Miss Arkansas, is School Violence Prevention Awareness, and she has spent the past three years traveling through Arkansas and Texas to promote this message. In her program, she stresses the importance of recognizing warning signs and being aware of safe reactions to potentially violent situations. Just recently, she has developed a scholarship program to reward graduating senior each year who exhibits dedication to his or her school and community.

Jessie is affiliated with the National Center for the Prevention of School Violence, and her goal, she says, is to rally the state and national governments for funding of preventative programs and to reach at least two schools in every school district in Arkansas with her school violence prevention message.

I know this is an issue that she cares very deeply about, and I want to applaud her for her interest and leadership in helping to make our schools and communities safer.

Jessie is currently completing undergraduate degrees in biology and radio, television, and film at the University of Arkansas at Little Rock. She plans to attend medical school and begin working in rural medicine—something that is very important to south Arkansas. She eventually hopes to establish herself as a medical correspondent in the national broadcast arena.

Again, I say to Jessie, “Congratulations. We’re proud of you, and we wish you all the best.”

HONORING WAIN JOHNSON  
OF CALIFORNIA  
IN THE HOUSE OF REPRESENTATIVES  
Tuesday, July 10, 2001

Mr. RADANOVICH. Mr. Speaker, I rise today to honor the retirement of Wain Johnson after his twenty years faithful dedication to Mariposa County. Mr. Johnson’s agricultural vision revised and shaped Mariposa County’s grape growing industry.

In March of 1981, Wain began working as the University of California Farm Advisor for Mariposa County. Wain is a past President of the Mariposa Wine Grape Growers Association. His impact on the grape growing industry, in Mariposa County has been great. Wain’s dream was for the county to become a premier grape growing and winemaking region. He helped Mariposa County realize this dream by educating the County’s grape growers, providing classes and seminars in viticulture to local farmers.

Mr. Speaker, I am pleased to pay tribute to Wain Johnson for his service to the people of Mariposa County. I urge my colleagues to join me in wishing him a long and happy retirement.

PERSONAL EXPLANATION  

HON. DENNIS MOORE  
OF KANSAS  
IN THE HOUSE OF REPRESENTATIVES  
Tuesday, July 10, 2001

Mr. MOORE. Mr. Speaker, on June 25, 2001, I inadvertently failed to record my vote on vote No. 4187, H. Res. 99. This motion to suspend the rules adopted a resolution that would urge the Administration to allow Hezbollah to allow Red Cross staff to visit four Israelis abducted by that group in Lebanon last year. I strongly support this resolution and intended to vote “aye.”

RECOGNITION OF FORT CHADBOURNE, COKE COUNTY, TEXAS  
HON. CHARLES W. STENHOLM  
OF TEXAS  
IN THE HOUSE OF REPRESENTATIVES  
Tuesday, July 10, 2001

Mr. STENHOLM. Mr. Speaker, I rise today to recognize Fort Chadbourne, which is located in Coke County, Texas. I commend local citizens, including Garland and Lana Richards, along with many others who have worked to preserve this important part of Texas history.

A part of the Texas Fort Trails, Fort Chadbourne was established in 1852 as one of eight frontier posts set up to provide settlers protection while venturing into the Indian Territory. It also provided a stage stop for the Butterfield Overland Mail Route. The Fort, which is listed in the National Registry of Historic Places, is open to the public for the first time in 120 years.

The Fort Chadbourne Foundation, established in 1999 to preserve and protect the Fort, is currently in the process of stabilizing the Fort ruins and also plans to restore four buildings. In addition, the Foundation has raised more than $1,000,000 and is pursuing funding through the Statewide Transportation Enhancement Program in order to establish a visitors center and museum. The center will enable visitors to learn the history of the Fort and the area.

I wish to include in the RECORD an excellent article by Preston Lewis, a free-lance writer based in San Angelo, that appeared in Sunday’s edition of The Dallas Morning News.

I know that many of my colleagues join me in recognizing the important historic preservation work at Fort Chadbourne.

[From The Dallas Morning News, July 8, 2001]

PIECES OF THE PAST, FORT CHADBOURNE  
PRESTON LEWIS  
PRESEVATION WORK IS COUPLE’S MISSION  
Tuesday, July 10, 2001

FORT CHADBOURNE, Texas—Fort until college did Garland Richards truly realize that not everyone grew up with a genuine frontier fort in the back yard.

Today the 49-year-old, sixth-generation Coke County rancher is opening up his back yard so that all of Texas can share his fascination with the ruins that provided his imagination such a captivating playground during his youth.

Mr. Richards’ mission—or possibly his obsession—is to preserve the history of Fort Chadbourne and to stop the deterioration of the remaining structures. Ultimately, he and his wife, Lana, hope to build a visitors center where travelers on U.S. Highway 277 between San Angelo and Abilene can stop for a break and a history lesson.

“Fort Chadbourne has been good to our family,” Mr. Richards said. “It’s been home. It’s been shelter under the storms and a place where you could keep your saddles dry. The historical value of Fort Chadbourne, which I took for granted for so many years, belongs not just to our family but to everyone.”

Through his personal research of books and of original source materials in Texas repositories and the National Archives, Mr. Richards estimates that about 6,000 soldiers were stationed at the fort during its brief life.
addition to those and the various other men and women who worked on the Fort Chadbourne fort site, a number of forts have been saved from being lost to history. Forts such as Fort Concho, a key fort in the American Civil War, have been preserved and restored to their former glory. Fort Chadbourne, which was established in 1867, was the site of a fort that served as a critical supply depot for the Union Army during the Civil War. Today, the site has been transformed into a historic park, where visitors can learn about the history of the fort and the soldiers who served there.

Mr. Richards has been a tireless advocate for the preservation of Fort Chadbourne. He has dedicated his life to preserving the fort's history and ensuring that it is available for future generations to visit and learn from. His efforts have been recognized by numerous awards and accolades, including the Presidential Volunteer Service Award and the National Park Service Award. Mr. Richards has said that he does not expect to receive any recognition for his work, but he is driven by a desire to see the fort preserved and protected for future generations.

Mr. Richards has been a key figure in the effort to preserve Fort Chadbourne. He has worked tirelessly to secure funding for the project, and he has been a key figure in the planning and construction of the stabilization project. His dedication to the project has been unwavering, and he has been a source of inspiration for those who have worked with him on the project.

Today, Fort Chadbourne is a symbol of the resilience of the human spirit. Despite the challenges that faced the soldiers who served there, they persevered and continued to serve their country. Mr. Richards has been an inspiration to those who have worked on the project, and his dedication to preserving the fort's history is a testament to the lasting impact that he has had on the community.

Mr. Richards has been a true pioneer in the field of historic preservation. His work at Fort Chadbourne is a testament to the power of one person to effect change in the world. His dedication to preserving the fort's history is a source of hope for those who are working to preserve other historic sites across the country. Mr. Richards has shown that even in the face of adversity, it is possible to overcome challenges and achieve great things.
Marrero was credited for cutting back a rash of car thefts that plagued our city in the mid-1990s.

To her friends and family, Marrero will be remembered as a caring person who was always ready to lend a helping hand. In the words of one neighbor, Lois Marrero was “the kind of person you could count on.”

For those of us who never had the privilege of getting to know Officer Marrero, it is our duty to remember Lois for the ultimate sacrifice that she made to keep our community safe. This terrible tragedy reminds us that law enforcement officers put their lives on the line every day to protect us and our families, friends and neighbors. In honoring Lois Marrero, we show our gratitude to the entire law enforcement community.

So today, on behalf of the citizens of Tampa Bay, who came together this week in an outpouring of sympathy, prayers and tributes, I thank Officer Marrero and Tampa’s Police Department for their commitment to our neighborhoods and I send our deepest sympathies to Lois’ family, friends and colleagues for this great loss.

TRIBUTE TO DR. RICHARD W. McDOWELL
HON. JOE KNOLLENBERG
OF MICHIGAN
IN THE HOUSE OF REPRESENTATIVES
Tuesday, July 10, 2001

Mr. KNOLLENBERG. Mr. Speaker, today I pay tribute to Dr. Richard W. McDowell, the longest-serving President in Schoolcraft College’s history. He will be retiring on June 30, 2001. Dr. McDowell has been a great asset to his students, and served the Michigan educational community with diligence and excellence. In addition to his tenure as president, he has served on numerous educational and commerce boards, including the Livonia Chamber of Commerce, American Association of Community Colleges, and Council of North Central Two-year Colleges.

After completing his tenure as vice-president and acting-president at two community colleges in Pittsburgh and Florida respectively, Richard McDowell joined Schoolcraft College in 1981, and helped guide the college through a 20-year period of academic growth and brilliance. On this end, he achieved high standards in increasing staff development, employee recognition, and provided the necessary direction to establishing the Business Development Center that has generated a billion dollars in grants to various local companies.

The increased funds have enabled Schoolcraft College to be expanded considerably, which has made for a livelier and richer educational environment for students. On May 16th, 2001 the college broke ground on a $27 million facility that will house a state-of-the-art information technology center, and it’s culinary arts department, which is recognized nationally.

Through his dedication and hard work to Schoolcraft College and the Michigan educational community, Dr. McDowell is a prime example of the kind of people that we need running the affairs of colleges and universities dedicated to providing the best environment and education possible to our students. I congratulate Richard on his fine achievements and wish nothing but the best in his future endeavors.

A TRIBUTE TO KELLY AIR FORCE BASE
HON. CIRIO D. RODRIGUEZ
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Tuesday, July 10, 2001

Mr. RODRIGUEZ. Mr. Speaker, on Friday, July 13, 2001, after 85 years the flag will be brought down for the final time at Kelly Air Force Base in San Antonio, Texas. In recognition of this momentous occasion I offer the following tribute of Kelly AFB and its lasting legacy to the United States Air Force, the nation, and the San Antonio community.

Seventy-four years after Travis, Crockett and Bowie manned the battlements at the Alamo, a different kind of warrior made his appearance over the South Texas City of San Antonio. He rode on wings of wood and fabric. In January 1910, on orders from Major General James Allen, Chief of the Army Signal Corps, Lieutenant Benjamin Foulois established a flying field at Fort Sam Houston, Texas. Foulois arrived at the Fort with a Wright flyer, the only airplane in the service. In April 1911, three young Army officers joined Foulois fresh from Glenn Curtiss’ Flying School at San Diego. Among them was a thirty-year-old lieutenant from London, England, George Edward Maurice Kelly. Kelly immigrated to America, enlisted in the United States Army and eventually received his citizenship and gained a commission. Volunteering for duty in the Air Service, he trained briefly with Curtis and then joined Foulois at San Antonio. Lieutenant Kelly’s aviation career would be short lived. On May 10, 1911, he crashed his Curtis Type-4 Pusher into the brush near Fort Sam Houston’s Drill Field. Lieutenant Kelly became the first American military aviator to die in the crash of a military aircraft. Six years later, one of the nation’s premier flying fields would bear the name of this brave young aviator.

Lieutenant Kelly’s death caused the Commander at Fort Sam Houston to call a halt to flying at the Post. Aviation didn’t return to the Alamo City until November 1915, when the First Aero Squadron arrived from Fort Sill, Oklahoma. It did not stay long. In March 1916, the Mexican Revolutionary leader, Pancho Villa, attacked Columbus, New Mexico, and the First Aero Squadron, commanded by Foulois, joined a punitive expedition commanded by General John J. Pershing. Within months all its few aircraft were grounded. With World War I raging in Europe, it was clear that American military aviation needed to expand. Foulois, now a major, was called upon to form new squadrons and find a training site. In November 1916, he returned once again to San Antonio. Lacking space to expand at Fort Sam Houston, Foulois looked for another site for an aviation camp, choosing a 700-acre track of land southwest of San Antonio. The land was leased in January 1917. What was once cotton, cabbage, mesquite and cactus, was over-run with men and machinery for a landing field. On April 5th 1917, the first four planes slid out of the sky to land at the new field. The United States entered World War I the next day. Named Kelly Field in July, the new field was seen training aviators, mechanics, and support personnel for duty in France. Within 18 months, Kelly was the largest aviation training, classification and reception center in the United States. With the end of the war to end all wars, Kelly Field was consumed by the lethargy that follows most armed conflicts. The United States adopted an isolationist attitude and military aviation lapsed into a period of near hibernation. Aircraft that had been built for war were now turned to barnstorming and amusement. Throughout the nation aviation camps and depots were closing, but at Kelly Field the pressure was relentless. For a time, all the active flying groups were stationed at Kelly. Then in 1922, the Air Service restructured its training program, making Kelly home to the Air Service Advanced Flying School. For the next two decades, Kelly would become famous as the alma mater of the Air Corps. In these years, some of aviation’s greatest names pressed the rudder pedals of Kelly trainers. Early graduates of the Advanced Flying School include “lone eagle” Charles Lindbergh; General Curtis LeMay, cigar chomping advocate of strategic air power; and future Air Force Chiefs of Staff Hoyt S. Vandenburg, Thomas D. White, John McConnell and George S. Brown.

With the acquisition of more land west of Frio City Road in 1917, Kelly Field was divided into two areas, Kelly Number 1 and Kelly Number 2. While Kelly Number 2 was busy turning out dashing aviators, Kelly Number 1, renamed Duncan Field in 1925, was engaged in a less glamorous task of aviation supply and maintenance. This humble stepchild trained out of necessity would eventually thrive and go on to become an Air Force logistical giant. By 1935, most world powers were struggling to free themselves from the grip of worldwide depression. In Germany, Adolf Hitler had seized the reins of power. On the other side of the globe, Japan was running rampant through Manchuria. The clouds of depression were clearing, but clouds of war were rapidly taking their place. Aircrew training at Kelly was stepped up; courses were conducted in nearly every form of military aviation including attack, pursuit, observation and bombardment. Paved runways and permanent facilities sprouted throughout the installation. When Japanese bombs rained on Pearl Harbor on December 7th, 1941, Kelly Field was ready to take its place as a major cog in America’s war machine. Midway through World War II, Kelly’s logistical role came to the forefront. Pilot training moved to Randolph and other new airfields while an organization known as the San Antonio Air Service Command sought to repair and supply the nation’s aerial fighting force. In two short years, the small force expanded from 1,000 to over 20,000. Many were women, Kelly Katies, the Kelly equivalent of Rosie the Riveter. Peace came in August 1945. Kelly Katy went home. The base paused, caught its breath, and then
C–5 was a Kelly management responsibility. In January 1948, the field became Kelly Air Force Base. Within a year, the base would once more respond to an international challenge. The Russian bear was putting paw prints all over Eastern Europe. When the Soviets attempted to slam the door on West Berlin, allied airpower came to its rescue. Kelly engine maintenance shops operated night and day. Pratt and Whitney R2000 engines rolled off the production lines destined for installation on C–54 aircraft flying the Berlin Airlift. The Russian bear hug on Berlin was broken after 11-months of Soviet pernicious efforts by crews, aircraft and dedicated support by San Antonio Air Materiel Area workers. Less than a year later, the outbreak of the Korean War dropped the temperature of Cold War even further. Kelly personnel labored around the clock to prepare B–9 bombers and Mustang fighters for service on the outposts, looking up the sky at night and became famous as San Antonio’s “Great White Way”. Nuclear deterrent was the “watch word” and Kelly’s people worked in support of the intercontinental B–36 bomber, the first capable of flying anywhere in the world, dropping its nuclear payload and returning home. Its Pratt and Whitney R4360 engines monopolized Kelly’s overhauls for decades. The city was proud of its prowess in maintenance and was called “the Boeing of the East”.

Even before the end of the Cold War, America’s military services saw their budgets grow smaller, and by the early 1990s, people expected to see a “peace dividend” to help reduce the budget deficit and pay for soaring costs of social services. Continuing efforts to cut defense spending by relocating some missions and tasks to other locations were called “legions of logistical magic.”Engines were surged to support NATO’s efforts to end brutal ethnic cleansing in Kosovo.

The dream to keep all of the Cen-
Although the flag came down on the San Antonio Air Logistics Center on July 13, 2001, it was not the end of its story. Kelly Field—Kelly Forever!—is a place where people from all backgrounds came together to roll up their sleeves and work for a united cause—our country’s freedom. For 85 years Kelly AFB made major contributions to the military strength of the United States and the prosperity of the Alamo City. Generations of Hispanic families were employed at Kelly throughout its history, and today many of the city business leaders and even congressional members have their roots as Kelly families.

For decades the men and women of Kelly AFB dedicated their hearts and lives to the service of their country. From its beginnings as a farmer’s cotton field in 1916, Kelly became the largest recruit and aviation training camp in the United States during World War I. In the interwar years, Kelly served as the Alma Mata of the Air Corps while its neighbor Duncan Field provided repair and supply support for America’s small air arm. Following World War I, Kelly became one of the country’s largest logistical supermarkets, supporting the Air Force around the globe. During the most recent conflicts of JUST CAUSE, DESERT SHIELD/DESERT STORM, and Kosovo, the Kelly employees had the greatest logistical support of all the ALCS, shipping more components, more engines, and more munitions. From the beginning of the Kelly Field to the end of the San Antonio Air Logistics Center, the logistical impact and support of Kelly and its employees were vital for the United States to be successful in completing the mission. Today, Kelly transitions again, becoming KellyUSA, an industrial, commercial park for the 21st century. But, through this tradition of service remains and will continue to be—Kelly Forever!

EXTENSIONS OF REMARKS

July 11, 2001

HONORING EDWARD PAELTZ

HON. JOHN SHIMKUS
OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES
Tuesday, July 10, 2001

Mr. SHIMKUS. Mr. Speaker, I rise today to honor Mr. Edward Paeltz of Godfrey, Illinois. Mr. Paeltz is a veteran of World War II and was recently awarded the “General William C. Westmoreland Award” from the National Society of the Sons of the American Revolution for his distinguished service to veterans.

Since World War II, Mr. Paeltz has spent countless hours helping veterans in need of care. With the help of his wife, Nancy, he frequently visits veterans in hospitals, nursing homes, and veteran homes throughout Illinois. During the Christmas season, he brings them cookies and candy and go to see their families. In addition, Mr. Paeltz helps transport veterans from the Veterans Hospital in Marion, Illinois, to a lodge and retreat center in Carbondale so they can participate in recreational activities.

Edward Paeltz is a former commander of Alton American Legion Post 126. He recently fulfilled his dream by designing and organizing the construction of a Veterans’ Memorial in Alton, Illinois, to honor the veterans of all branches of the armed forces. Mr. Paeltz is an inspiration to us all.

A TRIBUTE TO HERB OBERMAN

HON. HILDA L. SOLIS
OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES
Tuesday, July 10, 2001

Ms. SOLIS. Mr. Speaker, I rise today to recognize the retirement of Mr. Herb Oberman, who will step down from his job as a Los Angeles County social worker on July 12, 2001. Mr. Oberman is a dedicated public servant, and has served the people of Los Angeles County for the past 35 years.

Herb has proven that he truly cares about protecting children’s rights. He received his Master’s Degree of Social Work from the University of California Los Angeles in 1966 and spent seven years dedicating himself as a Children’s Service Worker in the Foster Care Program. In 1973, he participated in the formation of Community Service Centers.

Herb has served on the board of directors of several social service organizations. He is the past president of the Santa Clarita Valley Girls and Boys Club and served on the board of directors of the Los Angeles Regional Foodbank between 1973-1993.

Herb Oberman’s contributions have received recognition for his programs, which include the Los Angeles Efficiency and Productivity Program administration of the Los Angeles Citizens Assistance Campaign; the Ford Foundation’s “Innovations in State and Local Government” award in 1986 for his administration of the Los Angeles Regional Foodbank; and the Parents Fair Share Project, a national demonstration project which helps noncustodial parents find employment and pay.

As Herb moves on to new pursuits, I would like to thank him for his remarkable work. I ask my colleagues to join me in honoring his hard work and extraordinary contributions and wish him luck on his retirement.

ENERGY AND WATER DEVELOPMENT APPROPRIATIONS ACT, 2002

SPEECH OF
HON. TOM UDALL
OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES
Wednesday, June 27, 2001

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 2311) making appropriations for energy and water development for the fiscal year ending September 30, 2002, and for other purposes.

Mr. UDALL of New Mexico. Mr. Chairman, I would like to explain my position on the Kucinich amendment that would reduce funding for the National Ignition Facility at Lawrence Livermore National Laboratory and move some of the NIF money into the non-proliferation programs of the national Nuclear Security Administration. There is clearly a need to avoid the damage that would occur to our nonproliferation programs if funding is not increased. The President made a mistake in his budget when he made deep cuts in the nonproliferation programs. The cuts make little sense in a world where many nations have the capability and desire to develop weapons of mass destruction including nuclear, chemical and biological weapons, and therefore increase our capability to monitor developments around the globe in this area.

The President’s budget already cuts the NIF programs. I support that cut given the troubling history of this program. I am very concerned about the recent report findings, which concluded that not only will NIF cost at least $1 billion more than planned and take six years longer than expected to begin operations, but also that the program poses a serious number of unresolved technical problems.

Moreover, because of the critical nature of the GAO findings, the agency reportedly is doing a follow-up report, which it intends to submit to Congress.

Mr. Speaker, furthermore, in an article in the Albuquerque Tribune, the Director of the Dental Laboratory, Mr. Paul Robinson, criticized NIF suggesting there be a reduction in the construction of a Veterans’ Memorial in Alton, Illinois, to honor the veterans of all branches of the armed forces. Mr. Paeltz is an inspiration to us all.

PROJECT VOTE SMART

HON. HENRY J. HYDE
OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 11, 2001

Mr. HYDE. Mr. Speaker, I was recently informed of the efforts of an organization called Project Vote Smart—a group of dedicated individuals who work tirelessly in a non-partisan fashion to develop dependable facts about various national and state issues affecting all Americans while encouraging eligible citizens to vote. I am pleased for his programs and share some background information about the organization, which I hope my colleagues will find interesting and beneficial.

PROJECT VOTE SMART

A few years ago a handful of people, a mixture of young energetic students and retired
leaders from fields in politics, academia and various undertakings, held a meeting about the increasing use of media and technology by campaigns to manipulate information, and the citizen's diminishing access to dependable, abundant information on issues and political candidates.

That meeting gave birth to Project Vote Smart (PVS), a small 501(c)(3) now engulfed in its own success. In the beginning the idea seemed simple: use young people from throughout the country to collect millions of documented facts about issues, candidates and other information about politics; index the information and then categorize it so that citizens could easily access the information through local libraries, toll-free hot lines, the internet and published reports.

Specifically, the Project is in a national library of factual information on over 40,000 candidates and incumbents in public office at all presidential, congressional, gubernatorial, state legislative seats, county, and local candidates and incumbents. They are researching maximum background information about any organization that does—it is supported entirely by philanthropic foundations and the individual contributions of over 45,000 members. Election year programs are sponsored over 4,000 public libraries and hundreds of national and local news organizations. National leaders are allowed to join the foundation board without a political opposite—founding board members are national leaders from fields in politics, academia and the arts; index the information and then categorize it so that citizens could easily access the information through local libraries, toll-free hot lines, the internet and published reports.

The finalists of the LeGrand Smith Congressional Scholarship Program are being honored for showing that same generosity of spirit, understanding of depth, intelligence, and capacity for human service that distinguished the late LeGrand Smith of Somerset, Michigan. They are young men and women of character, ambition, and initiative, who have already learned well the value of hard work, discipline, and commitment.

These exceptional students have consistently displayed their dedication, intelligence, and concern throughout their high school experience. They are people who stand out among their peers by achieving an academic record of achievements and the disciplined manner in which they meet challenges. While they have already accomplished a great deal, these young people possess unlimited potential, for they have learned the keys to success in any endeavor. I am proud to join with their many admirers in extending our highest praise and congratulations to the finalists of the 2001 LeGrand Smith Congressional Scholarship Program.

TRIBUTE TO 2001 LEGRAND SMITH SCHOLARSHIP FINALISTS

HON. NICK SMITH OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 11, 2001

Mr. SMITH of Michigan. Mr. Speaker, it is a sincere pleasure to recognize the finalists of the 2001 LeGrand Smith Scholarship Program. This special honor is an appropriate tribute to the academic accomplishment, demonstration of leadership and responsibility, and commitment to social involvement displayed by these remarkable young adults. We all have reason to celebrate their success, for it is in their promising and capable hands that our future rests:

Brian Anderson of Lansing, Michigan; Nicole Bell of Tecumseh, Michigan; Leah Brady, of Battle Creek, Michigan; Jeremy Connin of Jackson, Michigan; Troy Elliott of Pittsford, Michigan; Calby Garrison, of Onsted, Michigan; Aaron Heinen of Battle Creek, Michigan; Sarah Holliday of Hillsdale, Michigan; Stephanie Lallemend of Battle Creek, Michigan; Tabbetha McLain of Quincy, Michigan; Molly Miller of Marshall, Michigan; Jessica Muterspaugh of Spring Arbor, Michigan; Teresa O'Connor of Saginaw, Michigan; Adam Shissler of Jackson, Michigan; Anna Vanderstell of Charlotte, Michigan; and Randi Wignet of Reading, Michigan.

The finalists of the LeGrand Smith Congressional Scholarship Program are being honored for showing that same generosity of spirit, understanding of depth, intelligence, and capacity for human service that distinguished the late LeGrand Smith of Somerset, Michigan. They are young men and women of character, ambition, and initiative, who have already learned well the value of hard work, discipline, and commitment.

These exceptional students have consistently displayed their dedication, intelligence, and concern throughout their high school experience. They are people who stand out among their peers by achieving an academic record of achievements and the disciplined manner in which they meet challenges. While they have already accomplished a great deal, these young people possess unlimited potential, for they have learned the keys to success in any endeavor. I am proud to join with their many admirers in extending our highest praise and congratulations to the finalists of the 2001 LeGrand Smith Congressional Scholarship Program.

TRIBUTE TO 2001 LEGRAND SMITH SCHOLARSHIP FINALISTS

HONORING THE RETIREMENT OF SERGEANT RON PACKARD, OFFICER JOE REIS AND OFFICER JOHN NYIKES OF THE UNION CITY POLICE DEPARTMENT

HON. FORTNEY PETE STARK OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 11, 2001

Mr. STARK. Mr. Speaker, on July 14, 2001, the Union City Police Department on November 1, 1968. His first assignment was undercover at a local high school, posing as a student. During the day, he attended classes with the intention of identifying sales and distribution of illegal drugs on campus. In the evenings, he completed class homework assignments and police reports. Sergeant Packard progressed in his career and was promoted as the Court Liaison Officer with the New Haven Unified School District.

Officer John Nyikes began his career in law enforcement as a Detroit Police Officer for eight years where he was awarded a meritorious citation. He was hired by the Union City Police Department on July 2, 1980. While assigned Patrol duties with the Department, Officer Nyikes worked as a Field Training Officer and was responsible for training new police officers in Union City. Officer Nyikes was transferred from the Patrol Division to the Investigative Division where he supervised a number of detectives, including Traffic Investigations and Property. Sergeant Packard was instrumental in developing a Recruit Training Officer for ten years. He was responsible for training new Police Officers in Union City and assisted in developing a Recruit Training Manual for the Department. Officer Nyikes continued his enthusiasm for teaching by becoming the instructor of "Introduction of Administration of Justice" at James Logan High School for five years. In addition, Officer Nyikes was one of the Department's Firearms Instructors for nineteen years and was assigned as the Court Liaison Officer with the District Attorney's Office for four years. For the past eight years, Officer Nyikes has served on an assignment he considers the most rewarding, as a D.A.R.E. officer working with the New Haven Unified School District.

I am honored to join the colleagues of Sergeant Packard and Officers Reis and Nyikes in commending them for their many years of dedicated and exemplary service to law enforcement. They have left their indelible mark of excellence on the Union City Police Department.

PAYING TRIBUTE TO LANSING, MI, FOR "HIGH GROWTH" STATUS

HON. MIKE ROGERS OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 11, 2001

Mr. ROGERS of Michigan. Mr. Speaker, I rise to honor the City of Lansing, Michigan, for having been named one of the top five cities in its population category for high-growth companies. The National Commission on Entrepreneurship released a study on High Growth Companies this week. This study was the first of its kind and examined entrepreneurial companies in communities across the country.

Surprisingly to some, but not to the people of Michigan, the report found that the bulk of high-growth companies in the past ten years are not in "high tech" areas, but are instead found in the industrial sectors of America.

High-Growth status is achieved by few companies. It is given only to those that have attained a 15% employment growth per year for 5 years or 100% employment growth over 5 years.

Among the communities recognized for High-Growth is the City of Lansing, Michigan, located in the 8th Congressional District, in the heart of Michigan and the greater Mid-west. Since 1996, the city of Lansing has generated
EXTENSIONS OF REMARKS
TRIBUTE TO THE 18TH ANNUAL FREMONT FESTIVAL OF THE ARTS

HON. FORTNEY PETE STARK
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 11, 2001
Mr. STARK. Mr. Speaker, I would like to pay tribute to the 18th Annual Fremont Festival of the Arts sponsored by the Fremont Chamber of Commerce. The two-day Festival, to be held on July 28 and 29, 2001, is expected to attract over 450,000 attendees and has become a model of success for the modern festival. This single event provides some $400,000 in contributions to non-profits for the betterment of communities in Fremont, California.

Over 780 artists, 35 culinary selections and 20 bands will be featured at the Festival. Three thousand volunteers give willingly of their time to contribute to the Festival’s success. It takes generous and concerned individuals, such as the volunteers, to reach out and make a difference, ensuring promise and opportunity for this and future generations. It also takes the support of business sponsors and patrons to ensure the success of the Festival.

The Festival typifies the spirit of community service, which is alive and thriving in Fremont. I am proud to salute the efforts of this year’s Festival Chairman, David M. O’Hara, the organizers, the volunteers, the sponsors and the patrons of the Fremont Festival of the Arts for their generous and untiring efforts to ensure continued success.

Mr. Speaker, I urge my colleagues in the U.S. House of Representatives to join me in congratulating the Fremont Board of Water and Light and to extend to its board of directors and staff our admiration for their service in the interest of the nation, the State of Michigan, and their own community. We wish them well in their future endeavors.

PAYING TRIBUTE TO THE LAN-SING BOARD OF WATER & LIGHT

HON. MIKE ROGERS
OF MICHIGAN
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 11, 2001
Mr. ROGERS of Michigan. Mr. Speaker, I rise to honor the proactive efforts of the Lansing Board of Water and Light in Lansing, Michigan, to develop a program aimed at using environmentally friendly energy to generate the electricity it provides in the Lansing metropolitan area.

The Board of Water and Light has launched a Green Wise Electric Power program that encourages customers to voluntarily pay an additional minimal fee to cover the added cost of purchasing electricity from “clean” sources. The program allows the municipal utility to buy some or all of its electricity from clean, renewable sources such as wind, water and biomass generation. While the cost of cleaner electricity may be higher than that provided through conventional sources such as coal or natural gas, the environmental advantages make this a highly worthy program.

As America struggles to meet its environmental challenges, the Lansing Board of Water and Light has shown extraordinary vision and commitment to protecting our precious resources while continuing to meet the electric power needs of its customers. They are working hard to achieve that balance between environment and economy which is essential for the future of every community across the nation.

I urge my colleagues in the U.S. House of Representatives to join me in congratulating the Lansing Board of Water and Light and to extend to its board of directors and staff our admiration for their service in the interest of the nation, the State of Michigan, and their own community. We wish them well in their future endeavors.
Tribute to Kristin Anderson of Brooklyn, Michigan

LeGrand Smith Scholarship Winner

Hon. Nick Smith of Michigan

In the House of Representatives

Wednesday, July 11, 2001

Mr. SMITH of Michigan. Mr. Speaker, it is with great respect for the outstanding record of excellence she has compiled in academics, leadership and community service, that I am proud to salute Kristin Anderson, winner of the 2001 LeGrand Smith Congressional Scholarship. This award is made to young adults who have demonstrated that they are truly committed to playing important roles in our Nation’s future.

As a winner of the LeGrand Smith Congressional Scholarship, Kristin is being honored for demonstrating that same generosity of spirit, intelligence, responsible citizenship, and capacity for human service that distinguished the late LeGrand Smith of Somerset, Michigan.

Kristin is an exceptional student at Columbia Central High School and possesses an impressive high school record. Kristin has received numerous awards for her excellence in academics, as well as her involvement in soccer and volleyball. She is active in student government, serving as President of the National Honor Society and Secretary of the student body. Kristin’s volunteer efforts include helping to organize a local coat drive and working with the Toys for Tots Program.

There are too many admirers in extending my highest praise and congratulations to Kristin Anderson for her selection as a winner of a LeGrand Smith Congressional Scholarship. This honor is also a testament to the parents, teachers, and others whose personal interest, strong support and active participation contributed to her success. To this remarkable young woman, I extend my most heartfelt good wishes for all her future endeavors.

In Honor of the Late Justice Stanley Mosk

Hon. Nancy Pelosi of California

In the House of Representatives

Wednesday, July 11, 2001

Ms. PELOSI. Mr. Speaker, I rise to pay my final respects to former California Supreme Court Justice Stanley Mosk. It is with great sadness and deep respect that I share with my colleagues the following words on the life of Justice Stanley Mosk.

Justice Mosk was born in San Antonio, Texas, graduated from the University of Chicago Law School, and in 1933 he moved to California. Justice Mosk served for his country during WWII before returning to his family and career as a judge of the Superior Court in Los Angeles. Justice Mosk was elected Attorney General in 1958 with an overwhelming million vote majority—the largest of any election that year. During his six years as the Chief Law Officer of the State of California he argued before the United States Supreme Court in the Arizona v. California water case and other landmark cases before the California Supreme Court. In 1961 Justice Mosk was credited with persuading the Professional Golf Association to admit African American golfers. In 1964 Justice Mosk was appointed to the California Supreme Court by Governor Pat Brown.

Justice Mosk was an astute, independent thinker whose tenure as a California Supreme Court Justice was both brilliant and controversial. As Mosk’s former colleague California Chief Justice Ronald George stated correctly, “Stanley Mosk was giant in the law.” He revealed that status by writing nearly 1,500 opinions, serving for 37 years, the longest tenure of any California Supreme Court Justice. Stanley Mosk continued his tireless efforts until his last day. Each year in the last decade, Justice Mosk authored more opinions than any other Supreme Court Justice. Although widely considered a liberal, he chose not to abide to any limitations on his opinions. On several occasions, Justice Mosk’s decisions stunned the legal and political community.

As Justice Mosk traveled extensively, he observed the South-West Africa case at the World Court, on behalf of the State Department. He lectured throughout Africa thereafter. Justice Mosk traveled to the Netherlands in 1970 to participate in summer sessions of The Hague Academy of International Law at the Peace Palace. Justice Mosk lectured at Universities throughout the United States as well. Justice Mosk was valued and respected by his colleagues. He will be remembered as a passionate proponent of the will of the law. Justice Mosk was one of the most influential figures in shaping California law and his death brings a void to the bench that will not easily be filled. Justice Mosk was confirmed for a new twelve-year term in November of 1998. Sadly, he was not able to fulfill the wishes of the California people. The death of Justice Stanley Mosk is a tremendous loss to the California Supreme Court, to California, and to America’s judicial system. My thoughts and prayers are with Justice Mosk’s wife Kaygey, and his son Richard. We will all miss him greatly.

Richard Henry Lee “Dick” Kopper, 1948-2001, a Journalist, a Press Secretary and a Friend is Remembered

Hon. ZACH WAMP of Tennessee

In the House of Representatives

Wednesday, July 11, 2001

Mr. WAMP. Mr. Speaker, on Monday, July 2, 2001 in the historical federal courthouse where a consummate young reporter named Dick Kopper gained his reputation for accuracy, integrity and style, many of his friends and admirers gathered for his memorial service. They laughed and cried together in his honor and memory.

Prominent citizens from law, government, journalism and academia came to remember the unique life and times of a brilliant journalist, press secretary, friend and associate who loved life and who was loved by all that came to know him well. They remembered a man of unfailing honesty, of incurable curiosity and a keen sense of humor.

For more than 6 years, Dick Kopper served as my Press Secretary, but he was much, much more than that. He was a valuable resource. If I needed to find a quotation from Sir Winston Churchill or President Ronald Reagan—I would simply ask Dick. If I needed sound policy advice on a difficult decision pending before the House—I would ask Dick. Even if I needed to know where a semicolon went instead of a simple comma—I would always ask Dick. His institutional knowledge consistently amazed me.

As I said at the memorial service, if you knew Dick you would know that he loved Episcopal High School, The University of the South, The Chattanooga Times and it’s reporters, the Republican Party and this great nation. He read, he wrote and he ran (3 miles or so) virtually every day. He also loved to tell stories, do impersonations and he especially loved to talk politics.

Before joining my Washington staff in 1995, Dick was a reporter for The Chattanooga Times for 23 years. During the time that he covered the federal courts, many of his colleagues fondly remember Dick making his way throughout the courthouse—extremely tight lipped—so as not to let on to his latest story.

Dick’s extensive political knowledge was also useful in the successful 1994 campaign of Senator Fred Thompson—where he served as the Tennessee Press Secretary.

Even at the end, Dick was courageous and unselfish. He knew that his illness was serious but he downplayed its effect on his life. Before going into the hospital, he worked every day and insisted to many people that if the doctors hadn’t told him that he was sick, he would not have asked to know. Dick was a professional in every sense of the word. Dick’s spirit was inspiring and his grace was impeccable.

He was indeed, a unique (and some might say eccentric) person, but in my opinion the world needs more folks like Dick Kopper . . . colorful and full of joy. I will miss my good friend.

In Honor of Dr. Dorothy Irene Height

Hon. Steny H. Hoyer of Maryland

In the House of Representatives

Wednesday, July 11, 2001

Mr. HOYER. Mr. Speaker, on July 17, the University System of Maryland Board of Regents will honor civil rights pioneer Dorothy Irene Height with the sixth annual USM Regents’ Frederick Douglass Award.
Dr. Height, chair and president emerita of the National Council of Negro Women (NCNW) in Washington, D.C., is a legendary figure in the civil rights movement. In 1989, President Reagan acknowledged her achievements by presenting her with the Citizens Medal Award. In 1993, the NAACP awarded her its prestigious Spingarn Medal. That was followed by the Presidential Medal of Freedom Award, bestowed by President Clinton in 1994. Last August, a feature story on Dr. Height in the Cincinnati Enquirer declared that every president since Eisenhower has called on her for advice. In their book, The African American Century, Comel West and Henry Louis Gates, Jr., cited her as one of the 100 most influential African-Americans of the 20th century.

Dr. Height was born in Richmond, Virginia, in 1912, but grew up near Pittsburgh in a household where volunteerism prevailed. In those days, many black southerners were migrating north to jobs in the steel mills. Height’s mother and father, a nurse and building contractor respectively, helped those families settle in, thus instilling in her a sense of responsibility and integrity. Dr. Height earned both bachelor’s and master’s degrees in educational psychology from New York University in four years and graduated in 1933—the height of the Depression. She then turned her attention to social work in New York City, later working for the Young Women’s Christian Association (YWCA). During those years, she also was active in community service and religion, and eventually became one of the first leaders of the United Christian Youth Movement.

From her position in the church and at the YWCA in Harlem, she spanned caps between the city’s impoverished ethnic groups and the government, spotlighting the plight of unemployed domestic workers for national figures such as Eleanor Roosevelt and Langston Hughes.

Dr. Height’s successes did not escape notice by the leadership of the NCNW. In 1937, she was approached to conduct committee work for the organization, an affiliation of civic, education, labor, community, church, and professional institutions headquartered in Washington. By 1957, she was its president. Under the guidance of educator and NCNW founder Mary McLeod Bethune, she organized voter registration drives in the South, testified repeatedly before Congress on social issues, and worked tirelessly on the more mundane tasks of the civil rights movement, such as jobs programs. She also was an international leader in the burgeoning field of humanitarianism, working closely with Martin Luther King, Jr., Roy Wilkins, and a host of other legendary leaders.

Dr. Height, who has been called the “grande dame” of the civil rights movement, has served in the leadership of dozens of organizations devoted to social change, most notably as president of Delta Sigma Theta sorority from 1947 to 1956. In 1986, she founded and organized the Black Family Reunion Celebration, a national coming together of African American families designed to promote historic strengths and traditional values.

The Frederick Douglass Award will be presented to Dr. Height at Westminster Hall, in Baltimore, adjacent to the University of Maryland School of Law. Those in attendance will include Maryland Governor Parris N. Glendenning, USM Board of Regents Chairman Nathan A. Chapman, Leronia A. Josey, member of the USM Board of Regents, Thelma T. Daley, past national president of Delta Sigma Theta sorority, and USM Chancellors Donald N. Langenberg, Frederick Douglass IV, professor at Morgan State University and a direct descendant of Douglass, will provide a dramatic reading of the latter’s work. David J. Ramsay, president of the University of Maryland, Baltimore, will welcome the audience.

The Frederick Douglass Award was established in 1995 by the USM Board of Regents to honor individuals “who have displayed an extraordinary and active commitment to the ideals of freedom, equality, justice, and opportunity exemplified in the life of Frederick Douglass.” Previous recipients include the Honorable Parren J. Mitchell, a member of Congress for the 7th District of Maryland since 1996; Benjamin Quarles, scholar at Morgan State University (1997, posthumously); Samuel Lacy, Jr., sportswriter for the Baltimore Afro-American (1998); the Hon. Kweisi Mfume, president of the National Association for the Advancement of Colored People (1999); and Beatrice “Bea” Gaddy, advocate for the poor and homeless and a member of the Baltimore City Council (2000).

Statesman, publisher and abolitionist Frederick Douglass was the leading spokesman of American blacks in the 1800s. Born a slave in 1817 in Tuckahoe, MD, he devoted his life to the abolition of slavery and the fight for black rights. Douglass’s name at birth was Frederick Augustus Washington Bailey, but he changed it when he fled from his master in Baltimore in 1838. He ended up in New Bedford, Mass., where he attempted to ply his trade as a ship caulker, but settled for collecting garbage and digging cellars. In 1841, at a meeting of the Massachusetts Antislavery Society, Douglass delivered a lecture on freedom that so impressed the audience that they asked him to talk publicly about his experiences as a slave. He then began a series of protests against segregation, and published his autobiography, Narrative of the Life of Frederick Douglass, in 1845.

Mr. Speaker, I know the Members of the House take great pride in joining me in congratulating Dr. Dorothy Irene Height on this very special day for her lifelong work. She is truly deserving of the Frederick Douglass Award and I rise to congratulate her on this esteemed award.

TRIBUTE TO JENNIFER ARVER OF BRONSON, MICHIGAN, LEGRAND SMITH SCHOLARSHIP WINNER

HON. NICK SMITH
OF MICHIGAN
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 11, 2001

Mr. SMITH of Michigan. Mr. Speaker, I rise today to congratulate The New Detroit Science Center on its grand opening. I am pleased to say that The New Detroit Science Center will be partnering with Marshall Field’s in its grand opening festivities which will be attended by Governor and Mrs. John Engler on July 28. The celebration, “Marshall Field’s Wonder of Wonder at The New Detroit Science Center—32 Hours of Exploration,” will kick off at 10 AM on July 28 and continue around the clock until 6 PM on July 29.

The Detroit Science Center was founded by Detroit businessman and philanthropist Dexter Ferry nearly 30 years ago. In 1998, plans were made to transform the Detroit Science Center into a leading center for science education. The Center broke ground on its expansion and renovation in 1999. The New Detroit Science Center will serve as a vehicle to educate our children and their families in the areas of science and technology. Detroit is known as a technological hub, and this new Center will involve our children and expose them to the resources that are available.

This Center will serve as a tremendous resource for teachers, children, and families across the State of Michigan. Its exciting programs, which include an IMAX theater, five hands-on laboratories, the DaimlerChrysler Science Stage and Sparks Theater, the Ford Learning Center, and the Digital Dome Planetarium, will create an interest in science, engineering, and technology. The New Detroit
Mr. Speaker, it is an honor to pay tribute to the Mr. Elio Rodoni for his contributions to the farming community and the 15th Congressional District. I commend and congratulate him on this important occasion.

EXTENSIONS OF REMARKS

HON. ADAM H. PUTNAM OF FLORIDA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 11, 2001

Mr. PUTNAM. Mr. Speaker, I was absent the week of June 25, 2001, attending to my wife Melissa during the birth of our first child, Abigail Anna Putnam. Had I been present this is how I would have voted on the following roll call votes.

June 25, 2001:
On Roll Call 186—I would have voted Yea in support of H. Res. 160 calling on the Government of the People's Republic of China to immediately and unconditionally release Li Shaomin and all other American scholars of Chinese ancestry being held in detention, and calling on the President of the United States to continue working on behalf of Li Shaomin and the other detained scholars for their release.

On Roll Call 187—I would have voted Yea in support of H. Res. 99 expressing the sense of the House of Representatives that Lebanon, Syria, and Iran should call upon Hezbollah to allow representatives of the International Committee of the Red Cross to visit four abducted Israelis, Adi Avitan, Binyamin Avraham, Omar Souad, and Elchanan Tannenbaum, presently held by Hezbollah forces in Lebanon.

On Roll Call 188—I would have voted Yea in support of H. Con. Res. 161 honoring the 19 United States servicemen who died in the terrorist bombing of the Khoobar Towers in Saudi Arabia on June 25, 1996.

June 26, 2001:
On Roll Call 189—I would have voted Yea on Approving the Journal.

On Roll Call 190—I would have voted Yea on the motion to consider H. Res. 178.

On Roll Call 191—I would have voted Yea on agreeing to H. Res. 179 providing for the consideration of H.R. 2299, Transportation and Related Agencies Appropriations Act for FY 2002.

On Roll Call 192—I would have voted Yea on agreeing to H. Res. 166 recognizing disaster relief Assistance Provided to Houston, TX after Tropical Storm Allison.

On Roll Call 193—I would have voted Yea on the Sabo amendment to H.R. 2299.

On Roll Call 194—I would have voted Yea in support of H.R. 2299, the Transportation and Related Agencies Appropriations Act for FY 2002.

On Roll Call 195—I would have voted Yea on approving the appeal of the Journal.

On Roll Call 196—I would have voted Yea on agreeing to H. Res. 180, providing for consideration of H.R. 2311; Energy and Water Development Appropriations Act for FY 2002.

On Roll Call 197—I would have voted Yea on H. Res. 172 providing for consideration of H.R. 2330; Agriculture Appropriations Act for FY 2002.

On Roll Call 198—I would have voted Yea on the Davis amendment to H.R. 2311.

On Roll Call 199—I would have voted Yea on the final passage of H.R. 2311, the Energy and Water Development Appropriations Act for FY 2002.

On Roll Call 200—I would have voted Nay on the Hinchey amendment to H.R. 2311.

On Roll Call 201—I would have voted Nay on the Berkley amendment to H.R. 2311.

On Roll Call 202—I would have voted Nay on the Bonior amendment to H.R. 2311.

On Roll Call 204—I would have voted Nay on the Brown of Ohio amendment to H.R. 2311.

On Roll Call 205—I would have voted Yea on the Davis amendment to H.R. 2311.

On Roll Call 206—I would have voted Yea on the Engel amendment to H.R. 2330.

HONORING WAYNE SCOTT ON HIS RETIREMENT AS EXECUTIVE DIRECTOR OF THE TEXAS DEPARTMENT OF CRIMINAL JUSTICE

HON. JIM TURNER
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 11, 2001

Mr. TURNER. Mr. Speaker, I rise to pay tribute and to express the thanks of Texans to our friend Wayne Scott on the occasion of his retirement as Executive Director of the Texas Department of Criminal Justice. His leadership of the fastest growing agency in the State of Texas during years of difficult transitions have earned him the respect and admiration of all Texans.

Wayne began his professional journey in 1972 as a correctional officer at the Huntsville unit of the Texas Department of Corrections. While working there, Wayne Scott received his Bachelor of Business Administration from Sam Houston State University in 1973. Making his way into the system, he became warden of the facility in 1984. In the following years, Wayne served as regional director, deputy director for operations, and institutional division director. In 1996, Wayne Scott was promoted to Executive Director of the Texas Department of Criminal Justice, the largest agency in the state of Texas. It can be said that Wayne began at the bottom of the ladder and climbed to the top through a firm commitment to hard work, a willingness to make the tough decisions, and a constant pursuit of the highest ethical standards for both himself and the department.

With the responsibility of more than 40,000 employees and more than 150,000 felony offenders, Wayne Scott has been recognized by his fellow criminal justice professionals in the American Correctional Association, the Southern States Correctional Association, and the
Association of State Correctional Administrators as an outstanding correctional administrator.

Under Wayne's leadership, the Texas Department of Criminal Justice confinement facilities were accredited by the American Correctional Association. The agency also received Awards of Excellence in community service for its partnership with Habitat for Humanity, and for the nation's largest correctional employee training facility, the Edmundo Mireles Criminal Justice Training Academy. While Executive Director, Wayne developed the Advisory Council on Ethics in order to aid the agency in the awareness of ethical issues and assure the execution of ethical behavior.

Not only has Wayne Scott been a hard working administrator, but he has also been a leader in innovations for rehabilitation of prison inmates. In 1996, he started the Inner Change Freedom Initiative, which was the first faith-based pre-release program in a penal institution in the United States. Also, under Scott's leadership, the Texas Department of Criminal Justice has worked to modify the agency's mission statement to assure justice for victims.

Wayne Scott has served the State of Texas for more than 28 years in the criminal justice field. His leadership in the fastest period of growth in the Texas Department of Criminal Justice have made him well-known in the field of criminal justice not just in Texas, but across the country. The Texas Department of Criminal Justice—and indeed, the entire state of Texas—has been the beneficiary of his service, dedication, and leadership over the last three decades.

TRIBUTE TO EMILY STACK OF HILLSDALE, MICHIGAN, LEGRAND SMITH SCHOLARSHIP WINNER

HON. NICK SMITH
OF MICHIGAN
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 11, 2001

Mr. SMITH of Michigan. Mr. Speaker, it is with great respect for the outstanding record of excellence she has compiled in academics, leadership and community service, that I am proud to salute Emily Stack, winner of the 2001 LeGrand Smith Congressional Scholarship. This award is made to young adults who have demonstrated that they are truly committed to playing important roles in our Nation's future.

As a winner of the LeGrand Smith Congressional Scholarship, Emily is being honored for demonstrating that same generosity of spirit, intelligence, responsible citizenship, and capacity for human service that distinguished the late LeGrand Smith of Somerset, Michigan.

Emily Stack is an exceptional student at Lenawee Christian High School and possesses an impressive high school record. Emily has received numerous awards for her academic achievement, as well as receiving state recognition for her excellent oratory skills. She is active in student government, serving as President of her class for two years. Emily has volunteered her time to various community service projects, such as Big Brothers Big Sisters and Project Build.

EXTENSIONS OF REMARKS

Therefore, I am proud to join with my many admirers in extending my highest praise and congratulations to Emily Stack, for her selection as a winner of a LeGrand Smith Congressional Scholarship. This honor is also a testament to the parents, teachers, and others whose personal interest, strong support and active participation contributed to her success. To this remarkable young woman, I extend my most heartfelt good wishes for all her future endeavors.

IN TRIBUTE TO PERSIS "PERKY" HORNOR HYDE

HON. SAM FARR
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 11, 2001

Mr. FARR of California. Mr. Speaker, I rise today to honor Persis "Perky" Homer Hyde who passed away on June 20, 2000 of breast cancer. During her lifetime, Mrs. Hyde was an active community member and a dedicated mother and wife. She is survived by her husband of 52 years, Harold "Hal" Hyde, four children, one brother, and three grandchildren.

Mrs. Hyde, a 50-year resident of Watsonville, was born in San Francisco on October 2, 1924. She received her education at the University of California at Berkeley, and later became a devoted mother and active community volunteer. She was a leader and board member of many local nonprofit, church, and civic groups which include, but are not limited to, the Girl Scouts, the Santa Cruz Symphony Guild, the Cabrillo College Foundation, and the Pajaro Arts Council. Although she devoted much time and effort to numerous organizations, one of her most cherished causes was the Cabrillo Advancement Program. Mrs. Hyde, and her husband, offered $1000 scholarships to local county schools to encourage kids to stay in school.

During her lifetime, Mrs. Hyde was honored with various awards commemorating her service to the community. In 1977, the Watsonville Chamber of Commerce named her Woman of the Year, and in 2000, Mrs. Hyde was honored by the Watsonville Soroptimists Club with the Women of Distinction Award. Most recently, the United Methodist Church honored Mrs. Hyde for her dedication and continuous service. Although service in local organizations and her family took up much of her time, she still managed to travel, which she enjoyed and often encouraged her children to do; her travels took her to Sweden, Germany, Africa, and South America.

Mr. Speaker, I applaud Mrs. Hyde's achievements and accomplishments. The service of local members of this community are an asset to this nation and I commend Mrs. Hyde for her lifelong dedication to her community and her family. Mrs. Hyde's service is admirable and her character and dedication have made lasting impacts on our community and the people with whom she has worked. I join the County of Santa Cruz, and friends and family in honoring this truly commendable woman and all of her lifelong achievements.

A TRIBUTE TO CAROLINE R. JONES, A WOMAN OF MANY FIRSTS

HON. EDOPHUS TOWNS
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 11, 2001

Mr. TOWNS. Mr. Speaker, I rise in honor of Caroline R. Jones for her tremendous contributions during her shortened life.

Born and raised in Benton Harbor, Michigan, as Caroline Richardson, the eldest daughter in a family of ten children, she graduated from the University of Michigan with a degree in English and science.

Caroline traveled to New York City in 1963 to look for teaching positions. She ended up taking a job as a secretary at J. Walter Thompson, at the time the world's largest advertising firm. She soon started career paths after she was moved to the creative department. It was there that she was selected for a junior copywriter program. With this selection, Caroline became the first African American trained as a copywriter in the firm's 140 years history.

Caroline's success did not end at J. Walter Thompson. She worked at a number of leading general market and black-owned agencies as both a copywriter and as a creative director. Caroline later became the first black woman elected vice president of a major advertising firm. Caroline also helped to found the Black Creative Group as well as Mingo Jones Advertising, where she served as executive vice president as well as creative director. During her time at Mingo-Jones, Jones created the "We Do Chicken Right" campaign for Kentucky Fried Chicken.

Jones started her own firm in the 1980s, Creative Resources Management, as well as many shops under her name. She was also the successful television and radio host of two programs, "In the Black: Keys to Success" and "Focus on the Black Woman."

Mr. Speaker, Caroline Richardson Jones devoted her life to eliminating the barriers of sex and racial discrimination in the advertising arena. Only 59 at her death on June 28 from cancer, she will always be remembered for her tireless efforts in promoting the agenda of Annual Legislative Weekend sponsored by the Congressional Black Caucus. As such, she and her family are more than worthy of receiving our recognition today. I hope that all of my colleagues will join me in remembering and honoring the life of this remarkable woman.

TRIBUTE TO THE 12TH GREAT DOMINICAN PARADE AND CARNIVAL OF THE BRONX

HON. JOSE´ E. SERRANO
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 11, 2001

Mr. SERRANO. Mr. Speaker, once again it is an honor for me to recognize the Great Dominican Parade and Festival of the Bronx on its twelfth year of celebrating Dominican culture in my South Bronx Congressional District.
This year’s festivities will take place on July 15, 2001. Under its Founder and President, Felipe Febles the parade has grown in size and splendor. It now brings together an increasing number of participants from all five New York City boroughs and beyond. I also would like to recognize all the people who, under the leadership of Director Rosa Ayala, are making sure that this year’s events will be successful as in the past.

On Sunday, July 15, thousands of members and friends of the Dominican community will march from Mt. Eden and 172nd Street to East 161st Street and the Grand Concourse in celebration of their Dominican heritage and their achievements in this nation. Among other accomplishments, Dominicans have been instrumental in transforming New York City into a great bilingual city. Moreover, the parade has served as a national landmark in which people from all ethnic groups unite to commemorate our Nation’s glorious immigrant history.

Mr. Speaker, the Board of Directors of the Dominican Parade of the Bronx has chosen me to be their “International Godfather” and I have gladly and humbly accepted that honor. As one who has participated in the parade in the past, I can attest that the excitement it generates brings the entire City together. It is a celebration and an affirmation of life. It feels wonderful to enable so many people to have this experience—one that will change the lives of many of them.

The event will feature a wide variety of entertainment for all age groups. This year’s festival includes the performance of Merengue and Salsa bands, crafts exhibitions, and food typical of the Dominican Republic.

Mr. Speaker, it is with enthusiasm that I ask my colleagues to join me in paying tribute to this wonderful celebration of Dominican culture, which has brought much pride to the Bronx community.

IN RECOGNITION OF MT. ROSE CHURCH OF GOD IN CHRIST

HON. KEN BENTSEN
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 11, 2001

Mr. BENTSEN. Mr. Speaker, I rise today to recognize the 11th Annual Founder’s Day celebration of the Mt. Rose Church of God In Christ and the ground breaking ceremony of their new facility.

The Mt. Rose Church of God was founded in 1944 and is located in Barrett Station, Texas. Though located in Barrett Station, the ministry performed at Mt. Rose Church of God In Christ is felt throughout the greater Houston area. The goal of Mt. Rose Church of God In Christ is to create “The City of Refuge.” A place where the vision of salvation, deliverance, Christian maturity, and support are shared; a place where the doors are always open to new hardships.

The prayerful and Spirit-filled members of Mt. Rose Church of God In Christ have come to the aid of the community in need time and time again. Through their compassionate offerings, these leaders have enhanced the lives of the entire community. Their actions provide a flicker of hope to individuals who were otherwise in despair.

Mr. Speaker, I commend the members of Mt. Rose Church of God In Christ and in particular Pastor Elder Ron Eagleton, whose passionate and dedicated leadership has borne the commitment to service that is so much a part of this congregation.

The 11th Annual Founder’s Day Celebration on Sunday, July 15, 2001, is especially significant because it also marks the ground breaking of the new 43,000 square foot facility to be completed next year. The new sanctuary will seat 1,100 people and the facility will house the more than 20 ministries of Mt. Rose Church of God In Christ. In addition, it will also include a gymnasium for recreational activities.

Mr. Speaker, as Mt. Rose Church of God In Christ continues to grow in size and members, their message of hope and love to the community of Harris County. Their work sets an example for the entire community to follow.

MEDICARE EDUCATION AND REGULATORY FAIRNESS ACT OF 2001

HON. DANNY K. DAVIS
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 11, 2001

Mr. DAVIS of Illinois. Mr. Speaker, I’d like to preface my comments by saying that Medicare is a wonderful program. Since the enactment of Medicare in 1965, seniors and disabled individuals have had better access to physicians and more access to life-saving treatments. And in comparison to managed care, Medicare is also extremely cost-effective.

It’s an under-appreciated fact that Medicare is administered for just two cents on the dollar, while managed care is typically administered at a rate twelve times greater, twenty times greater.

Still, it’s absolutely amazing how much bureaucratic red tape you can generate for two cents on the dollar. This is 500 sheets of paper. If you write double-sided, it’s 1000 pages. Now, if you imagine 110 of these stacks piled on top of each other, you begin to have an idea of how complicated Medicare is. 110,000 pages of regulations—that’s over three times the length of the U.S. tax code.

Every month, physicians receive pages upon pages from their Medicare carriers describing ever-changing policies and regulations. Keeping track of everything is frankly impossible. Yet, if a physician doesn’t follow one of the rules, no matter how unintentionally, he or she can be subjected to the draconian process of a Medicare audit. Currently, when carriers identify an alleged physician billing error, they can “extrapolate” the single identified error to the physician’s other claims. This would be like the IRS identifying an error on your most recent tax return, and then assuming that you made that error on every tax return you ever filed.

The “Medicare Education and Regulated Fairness Act of 2001” is a common-sense piece of legislation that addresses this injustice, as well as many others. This act will guarantee that physicians receive the same due process that we guarantee all our citizens. If this alone were the only virtue of this bill, it would still be worth passing. But there is a larger significance here that extends beyond physicians, and it can be summarized with a simple equation: Less time spent on paperwork means more time spent on patient care. Therefore, as much as physicians will benefit from this legislation, let us always keep in mind that the true beneficiaries are the patients.

Mr. BURTON. Mr. Speaker, I rise today to introduce a bill that would assist federal departments and agencies in their efforts to recruit and retain employees. This bill would allow federal civilian employees to keep frequent flyer miles and other promotional benefits they receive while traveling on official government business.

The existing law, enacted in 1994, intended to save the government money. However, the law has been difficult to implement because the airlines regard frequent flyer miles as belonging to the individual traveler and are generally unwilling to create separate official and personal frequent flyer accounts for the same individual. Overall, the burdens and costs of administering this program have limited its benefits to the government.

Mr. BURTON. Mr. Speaker, today I am introducing a bill that would assist federal departments and agencies in their efforts to recruit and retain employees. This bill would allow federal civilian employees to keep frequent flyer miles and other promotional benefits they receive while traveling on official government business.

The private sector commonly allows its employees to keep the frequent flyer miles they receive while on business travel, giving private companies, including government contractors, a competitive edge over federal agencies in attracting and retaining skilled employees. Changing this policy would help level the playing field.

However, in order for federal employees to keep these benefits, the bill would require that they be obtained under the same terms as provided to the general public and must be at no additional cost to the government. Frequent flyer miles that are accrued during employees’ official travel will also help compensate employees for the sacrifices and frustrations often associated with air travel. Similar to private-sector employees, federal employees must often travel on their personal time to meet work schedules.

This is just one small step to help counteract the effects of the expected retirements in the federal workforce in the coming years, and it would help the government compete for top-quality employees.

I urge my colleagues to cosponsor this legislation.
HONORING THE CITY OF TRINIDAD

BY RESISTING LAYOFFS, SMALL MANUFACTURERS HELP PROTECT ECONOMY
(By Clare Anthey)

IRWIN, PA.—Extrude Hone Corp. is one of the reasons that the bottom hasn’t fallen out of the U.S. economy.

Quietly, but profitably, the company is going about its business: making machines that use a special abrasive putty to smooth out rough edges on aircraft engines, fuel-in-jection nozzles and heart valves. By itself, Extrude Hone, which has a work force of less than 200 locally and 400 worldwide, hardly registers beyond its rural hometown near Pittsburgh and the large community of its customers. But its broader significance lies in the fact that it’s far from alone.

Extrude Hone is just one of about 4,000 manufacturers in this southwest corner of Pennsylvania, nearly all with fewer than 500 workers. As a group, they employ about 170,000 people, and their payrolls total $7.1 billion annually. Most are too small to show up on Wall Street’s radar screen. But these stealth manufacturers, principally durable-goods makers, have had a slight impact on the nation’s economy, and many of them are showing surprising strength.

LAYOFFS VS. HIRING

Though there have been some recent signs of a pickup, the durable-goods sector, which produces big-ticket items designed for repeated use, has borne the brunt of the manufacturing slump that began in the second half of 2000. Many of the sector’s publicly traded giants, such as General Electric Co., Eaton Corp. and International Paper Co., have responded by announcing major layoffs. But despite all that, about 60% of southwest Pennsylvania’s durable-goods manufacturers plan to add workers this quarter, according to a recent survey by staffing agency Manpower Inc.

Why? Larry Rhoades, Extrude Hone’s chief executive, can cite several reasons. So can Kurt Lesker III, whose family-owned company makes vacuum systems, or Robert Moscardini of U.S. Tool & Die Inc., who has nearly tripled his work force to 110 people since 1994 and whose board wants him to increase it to as many as 500.

All three businesses have been understaffed in recent years and have had to invest heavily in recruiting and training. Mr. Moscardini figures U.S. Tool & Die spent 3,000 hours training workers last year, even paying an outside welding company to help it in the effort. “You figure every hour is worth $60 to $100,” he says. “That’s a big investment. You don’t just let those people go.”

EIGHT GREAT YEARS

Nor are many small to midsize manufacturers elsewhere in the nation rushing to cut back. Though some have no choice but to lay off employees, even many of those who have managed to maintain staffs believe they are better off. In that sense, the companies have been able to hold on to their workers, both out of loyalty to their communities and employees and out of fear that they will be left without much-needed talent when the economy recovers. And, unlike many larger companies, they have relatively few employees who are also employees, have remained relatively upbeat, despite the current slowdown.

“During good times you conduct yourself so you can comfortably sustain not-so-good times like now,” Mr. Rhoades says. And, he adds, don’t have Wall Street calling me asking, ‘What have you done for me this week?’

Here in southwest Pennsylvania, industrial stalwarts such as U.S. Steel Corp., Alcoa Inc. and Westinghouse Electric Corp. drove the economy, spawning thousands of smaller operations that were formed solely to supply and serve them. Many of those operations dried up over the decades as Westinghouse left town and steel’s presence here shrank. The small manufacturers that have survived this downturn have done so in step.

Extrude Hone is one of them. Mr. Rhoades’s father started the business 35 years ago in the back of a tire shop. The company’s purpose was to polish rough edges and holes in metal parts. Though that sounds like a minor adjustment, such fine-tuning can greatly enhance a product’s performance. Having a smooth hole, rather than a jagged one, in a fuel-injection system, for example, even when the hole is only twice the diameter of a hair, can increase the efficiency of fuel by 20%. That means improved fuel economy and lower emissions. When it comes to heart valves and knee joints, the difference means better blood flow and less chance of contamination, training.

The fact that Extrude Hone is growing makes it an anomaly among the nation’s machine-tool producers, whose overall sales have slumped since the late 1980s. In a recent speech before a business group in Birmingham, England, where the decline of heavy industry has paralleled that of Pittsburgh’s, Mr. Rhoades shared his company’s survival strategy with the audience, and knew how his manufacturing business had weathered the U.S. steel industry’s diminished local presence.

The fact, Mr. Rhoades said, was exploiting the advantages inherent in being a small manufacturer. Having relatively few employees, he said, helps his company to remain flexible and stay close to its customers and employees. Making things more economically, precisely or consistently isn’t
A few years ago, Mr. Ross got together with some other area manufacturers to discuss the problem. With the help of Duquesne University in Pittsburgh and a local foundation, they developed a training program aimed at people who had planned to go to college and indicated an interest in a career but had ended up in dead-end jobs. So far, Lesker has hired about 15 graduates of the program, which is called Manufacturing 2000, including Dan McKenzie.

MORE EARNING POWER

Mr. McKenzie, 27, had just finished a stint with the Marine Corps and was working in a pizza shop. He saw the program’s ad for free training and jumped on it. Now, he works for Lesker as a machinist and has taken some college courses toward an industrial-engineering degree. As a result, Mr. McKenzie, who made $5.80 an hour delivering pizza, has raised his hourly pay about 40%. "We don’t have the resources to train and recruit that larger companies have," says Lesker’s Mr. Ross. Once it gets people, the company is loath to lose them.

Moreover, the average age of machinists, welders and tool grinders is 43, and welders have received $9 an hour increase substantially. The average annual wage in the manufacturing sector here is $42,000. The sector, which employs about 15% of the region’s workers, accounts for 20% of the region’s wages. According to Barry Macias, of Duquesne’s Institute for Economic Transformation.

Local companies paid $1,250 for each Manufacturing 2000 graduate and considered it a bargain. "We don’t have the resources to train and recruit that larger companies have," says Lesker’s Mr. Ross. Once it gets people, the company is loath to lose them.

his selfless service to America and to his 50 combat flights. These are distinctions one earns for going above and beyond the call of duty.

I am proud to honor Fritz with this Congressional Tribute as he is truly an American hero who exemplifies the spirit of patriotism. He is one individual who added to the collective effort to perpetuate peace and reconciliation following World War II. I commend his notable service and his efforts on the behalf of this country and wish him all of the best in the years to come.

EUROPEAN UNION OPPOSES BEIJING’S OLYMPIC BID—CONGRESS REMAINS SILENT

HON. TOM LANTOS
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 11, 2001

Mr. LANTOS. Mr. Speaker, on July 5th the 626-member European Parliament meeting in Strasbourg, France, adopted a resolution opposing China’s bid to host the 2008 Summer Olympics. In finding that China “clearly fails to uphold universal human, civil and political rights, including freedom of religion,” the European Parliament urges that the International Olympic Committee (IOC) “reconsider Beijing’s candidacy,” only when China has made “fundamental change in their policy on human rights, and the promotion of democracy and the rule of law.”

Last March, with an overwhelming bipartisan vote, the House Committee on International Relations expressed itself against China holding the Olympics by approving H. Con. Res. 73. Now the 626 Members of the European Parliament have voted and approved a similar resolution, yet we in the U.S. House of Representatives have not been given the opportunity to speak as a whole on this critical moral issue. I implore the Speaker and the Majority Leader—stop bottling up this legislation.

Mr. Speaker, I ask that the entire text of the resolution concerning Beijing’s application to host the 2008 Olympic Games, as adopted by the European Parliament on July 5th, be placed in the CONGRESSIONAL RECORD. I urge my colleagues to review this resolution and consider our obligation to join our European colleagues in speaking out against China’s Olympic bid in the few hours that remain before the IOC vote on Friday in Moscow. Religion is persecuted, political freedom does not exist, media freedom does not exist, our airplane is forced down, our servicemen and women are held in captivity for 11 days; yet this body is not allowed to vote on whether the Olympics should be held in Beijing.

EUROPEAN PARLIAMENT RESOLUTION ON BEIJING’S BID TO HOST THE 2008 OLYMPIC GAMES

The European Parliament resolution on Beijing’s bid to host the 2008 Olympic Games, as adopted by the European Parliament on July 5th, is placed in the CONGRESSIONAL RECORD. I urge my colleagues to review this resolution and consider our obligation to join our European colleagues in speaking out against China’s Olympic bid in the few hours that remain before the IOC vote.

CAMPAIGN FINANCE REFORM

HON. JERRY MORAN
OF KANSAS
IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 11, 2001

Mr. MORAN of Kansas. Mr. Speaker, the House this week begins debate on campaign finance reform. This debate is important for a number of reasons. We need to end the practice of unlimited soft money contributions from corporations and labor unions, improve disclosure requirements so that ordinary citizens know who is paying for campaigns. Most importantly, we need to restore people’s confidence that their elected officials are looking out for their interests.

In previous debates on campaign finance reform, I have supported a ban of soft money. These unregulated, unlimited contributions have cast a shadow of impropriety over electioneering efforts by both political parties. Soft money circumvents current campaign finance laws which prohibit corporate contributions to federal campaigns and limit how much an individual can contribute. Banning soft money would eliminate the largest source of questionable campaign money in elections and would help repair Congress’s tarnished public image. Another key principle of campaign finance reform is improved disclosure. Voters have a right to know who is contributing to campaigns, how much and when. They also have a right to know who is paying for advertising and other political activities on behalf of or in opposition to candidates. Armed with this information, voters are more than capable of judging who is representing them and who is representing special interest contributors. Reform legislation should strengthen disclosure requirements and improve electronic access to campaign finance information.

While I strongly support reforming our campaign finance laws, I do not support taxpayer financing of federal elections. Nor do I support proposals that infringe on the free speech rights of individuals or groups. The freedom to support or oppose candidates is fundamental to the American system of government. Public financing forces citizens to support with their taxes candidates they oppose. Reform is improved disclosure. Voters have a right to know who is contributing to campaigns, how much and when. They also have a right to know who is paying for advertising and other political activities on behalf of or in opposition to candidates. Armed with this information, voters are more than capable of judging who is representing them and who is representing special interest contributors. Reform legislation should strengthen disclosure requirements and improve electronic access to campaign finance information.

EXTENSIONS OF REMARKS

on all the people of south Asia. We can do this by maintaining the existing sanctions against India, by stopping our aid to India until it stops funding the terrorists that are the cornerstone of real democracies, and by supporting self-determination for the peoples of South Asia in the form of a fair and free plebiscite on their political status. By these measures, we can help bring freedom, security, stability, and prosperity to the subcontinent and bring America new allies and new influence in this dangerous region.

HONORING NANCY MACCONELL
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 11, 2001

Mr. RADANOVICH. Mr. Speaker, I rise today to honor a great wife, mother, sister, aunt, grandmother, great grandmother and friend. Eighty years ago this Saturday, July 14th, Nancy Leigh MacConell, was born in Globe, Arizona, eldest daughter of Elijah and Alta Phillips.

Nancy is also a treasure to one and all. She has brought great joy to all her family including her beloved sisters Joan and Sidney and her late husband Michele MacConell, Jr.

Nancy is the mother of three; Suzanne Du Pree, Michele King and Michael, the grand- mother of ten and the great grandmother of thirteen. And all firmly believe she has the patience of Job and is the greatest mom there ever was.

I rise today to celebrate and honor Nancy MacConell’s 80th birthday and wish her as much and love and joy in the next 80.

SUPPORTING A COMMEMORATIVE STAMP FOR THE HONORABLE ADAM CLAYTON POWELL, JR.

HON. CHARLES B. RANGEL
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 11, 2001

Mr. RANGEL. Mr. Speaker, I rise to urge my colleagues to support House Concurrent Resolution 182, which recommends a long overdue commemorative stamp for a lawmaker, civil rights advocate and American statesman whose achievements continue to resonate. Congressman Adam Clayton Powell, Jr. remains one of the greatest and most effective legislators in the history of the U.S. Congress. When he was first elected to Congress in 1945, he was one of only two African-American members, and became the first of his race to chair the powerful Committee on Education and Labor from 1961 to 1967.

As Chairman, he spearheaded the legislation that authorized the Medicare, Medicaid, Head Start and school lunch programs, increased the minimum wage and established student loan programs. Congressman Powell also pushed through the landmark Civil Rights Act of 1964, finally codifying his famous “Powell Amendment”; a rider that would deny federal dollars to institutions that practice racial discrimination, which he had introduced repeatedly for years.

Congressman Powell was a pioneer among lawmakers whose legacy continues to inspire countless generations of Americans of all backgrounds, colors, creeds and religions to take part in this grand experiment we call “representative government”.

I respectfully urge my colleagues to join me and cosponsor H. Con. Res. 182 to celebrate a lawmaker whose accomplishments are among the greatest examples of perseverance and triumph in our democratic system.

IN RECOGNITION OF EDUCATOR LARRY RATTO
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 11, 2001

Mr. STARK. Mr. Speaker, I would like to pay tribute to a legendary educator in my congressional district who retired on June 30, 2001 after an illustrious thirty-six year career filled with memorable contributions to the Hayward, California school district.

A native of Alameda, California, Larry began his career in 1965, when he worked as a history/government teacher and counselor at Mt. Eden High School. Four years later, he became an administrator at Tennyson High School where he took the reins and lead with vigor and creativity.

He stood on hot coals more than once for a good five to ten minutes during pep talks to student leaders at their annual weekend retreat.

Many recall the time in 1970 when Larry rode a galloping horse between the Tennyson High School buildings to chase down a truant student—a legendary story that people still talk about three decades later.

In 1971, Larry became vice principal at Hayward High School and five years later he was named as principal of Sunset High School until it closed in 1990. He returned to the 1,900-student Hayward High School as principal, the last position he held before his retirement.

“You got to have some pizzazz,” Larry said, while wrapping up his final days as a public school administrator. “You are competing with the MTV culture.” Larry describes his career as “fun.” He said, “There were days when it was not fun and hours that I thought, ‘Why am I doing this?’”

Having once considered being a lawyer, Larry enjoyed the excitement of a high school principal’s life, that every day was different. He is proud of Hayward High School and its wide class offerings and plethora of extracurricular student activities.

Parents, teachers, students, administrators and community leaders express great admiration for Larry Ratto’s three decades of outstanding leadership in education as well as his exemplary involvement in community activities.

I ask my colleagues to join me in paying tribute to this colorful, legendary educator, and community leader.
IN HONOR OF THE REOPENING OF THE LESBIAN, GAY, BISEXUAL & TRANSGENDER COMMUNITY CENTER

HON. JERROLD NADLER
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 11, 2001

Mr. NADLER. Mr. Speaker, I rise today to recognize the reopening of the newly rennovated and recently renamed Lesbian, Gay, Bisexual & Transgender Community Center located in New York City. The stated mission of the Center is to provide a home for the birth, nurtue and celebration of lesbian, gay, bisexual, and transgender organizations, institutions and culture. For nearly two decades the Center has successfully fulfilled that mission by providing groups and individuals a safe space in which to achieve their fullest potential. The newly renovated space at 208 West 13th Street in Manhattan, will be a permanent home for the local LGBT community, fostering creativity, compassion, and activism.

The Lesbian, Gay, Bisexual & Transgender Community Center has long been a beacon of hope for many in the community, serving thousands upon thousands of residents from all walks of life and from every corner of the world. The Center is not only a host to a wide variety of civic, athletic, health, and cultural groups, but also provides an array of its own programming. Programs such as Project Connect, CenterBridge, Center Kids, the Pat Parker/Vito Russo Center Library, and the National Museum and Archive of Lesbian and Gay History add to the expansive fabric that binds New York’s LGBT Community.

Mr. Speaker, I salute The Lesbian, Gay, Bisexual & Transgender Community Center in its ongoing effort to better enrich the LGBT Community and society as a whole. I am eminently proud to represent such a living landmark. I urge my colleagues to join me in wishing them well and all the hope for the future in their new spectacular facility.

EXTENSIONS OF REMARKS

HON. DON YOUNG
OF ALASKA
IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 11, 2001

Mr. YOUNG of Alaska. Mr. Speaker, I rise today to introduce legislation which will facilitate and promote the successful commercial reuse of the former Naval Air Facility on Adak Island, Alaska. At the same time, this legislation will allow the Aleut people of Alaska to reclaim the island and to make use of its modern developments and important location.

The legislation I introduce today ratifies an agreement between The Aleut Corporation, an Alaska Native Regional Corporation, the Department of the Interior, and the Department of the Navy. “The Agreement Concerning the Conveyance of Property at the Adak Naval Complex, Adak,” Alaska was signed last September and is the result of more than four years of discussions and negotiations among the three parties.

The bill and the Agreement also further the conservation of important wildlife habitat. A portion of Adak is within the Aleutian Islands subunit of the Alaska Maritime National Wildlife Refuge. The Agreement facilitates the Department of the Interior’s continued management and protection of the Refuge lands on Adak and even adds some of the Navy lands to the Refuge. Moreover, in exchange for the developed Navy lands, which are not suitable for the Refuge, but are commercially useful, The Aleut Corporation will convey environmentally sensitive lands it holds elsewhere in the Refuge to the Department of the Interior.

For many years the Navy was an important constituent in Alaska’s Aleutian Chain. Its presence was first established during World War II with the selection and development of the island because of its combination of ability to support a major airfield and its natural and protected deep water port. The Navy’s presence there contributed greatly to the defense of our Pacific coast during World War II and throughout the Cold War. Through the Navy’s presence, Adak became the largest development in the Aleutians as well as Alaska’s sixth largest community. With the end of The Cold War our defense needs changed, however, and Adak was selected for closure during the last base closure round.

Those very same features that made Adak strategically important for defense purposes also make it important for commercial purposes. Adak is a natural stepping stone to Asia and is at the crossroads of air and sea trade between North America, Europe, and Asia. With the ability to use Adak commercially, the Aleut people, through The Aleut Corporation can establish it as an important intercontinental location with enterprise enough to provide year round jobs for the Aleut people. These goals are consistent with the promises and the Alaska Native Claims Settlement Act, the legislation that created the corporation.

This rebirth of Adak is already well underway. The Aleut people assumed responsibility for the operation of the Island from the Navy last October and there are a number of new commercial enterprises and endeavors. At the same time a new community has begun to take shape. Just last month the new City of Adak was established as a result of a public referendum and is in the process of taking over responsibility for the many public facilities.

The Agreement resolves a number of important issues related to the transfer of this former military base and the establishment of the new community on Adak, including responsibility for environmental remediation, institutional controls, indemnification, required public access, and reservation of lands for government use.

This legislation furthers our country’s objectives of conversion of closed defense facilities into successful commercial reuse, it benefits the Aleut people and restores them to their ancestral lands and it benefits the National Wildlife Refuge System. I believe everyone will agree that such legislation is important and worthy of our support.

PRESCRIPTION DRUG BENEFIT

HON. BETTY McCOLLUM
OF MINNESOTA
IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 11, 2001

Ms. McCOLLUM. Mr. Speaker, it is far past the time for us to address the intolerable discrimination in drug pricing and provide a comprehensive prescription drug benefit now. These drug re-importation amendments fail to address the real issue of the lack of affordable prescription drugs and in turn provide no real relief.

Seniors should be able to buy American prescription drugs for the same price in Rochester as you can in Rio, in Mankato as you
Mr. COSTELLO. Mr. Speaker, I rise today to ask my colleagues to join me in recognizing the 125th anniversary of the Village of Baldwin, Illinois.

The Village of Baldwin originally was settled about one mile north of it's present location. The early settlers were the Henderson, Allen and Preston families. In 1874, the Mobile and Ohio Railroad built a railroad line at it's present location. Later, a grain elevator was built along the railroad and the village started to develop. In 1876, villagers circulated a petition requesting the official incorporation of the Village of Baldwin. On July 12, 1876, at a special term of the County Court, this petition was presented to Presiding Judge John H. Lindsey and County Clerk, Miss Mary McIntyre. The petition, signed by fifty legal voters, requested that the organization of the Village of Baldwin located in the County of Randolph be approved. County Judge Lindsey approved the petition and ordered an election be held on Tuesday July 11, 1876 at the office of RH Preston Esq., for the purposes of voting for or against the organization of the Village under the general laws of the State of Illinois. William L. Wilson and James C. Holbrook, Justices of the Peace of Randolph County, canvassed the election returns, finding that all votes cast were unanimously for the organization of the Village. Judge Lindsey ordered that on August 8, 1876 at the office of RH Preston Esq., an election be held for six Village trustees and one Village Clerk. The first Village Board that was elected then was S.H. Johnson, J.E. Davis, W.T. Thompson, James R. Holden, W.M. Wilson and S.B. Adams. The elected Village Clerk was S.D. Lindsey. On August 11, 1876, the Board of Trustees held it's first meeting. S.B. Adams was chosen as the President of the Board and W.S. Johns was appointed Village Constable and S.D. Lindsey was appointed Village Treasurer.

The Village of Baldwin prospered as a small trading Village throughout the years. The main business being a grain elevator, of which there has been one in Baldwin since it's incorporation. At present, the elevator is owned and operated by Gateway FS. In 1932, Highway 154 was built through Baldwin to provide all-weather transportation to neighboring towns and communities. In September of 1940, the Mobile and Ohio Railroad was purchased by the Gulf, Mobile and Northern Railroad and renamed to the Gulf, Mobile and Ohio. Later it merged with the Illinois Central Railroad and today it is part of the Canadian National System. Passenger and freight service was provided on the railroad until October 1958, when passenger service was discontinued in the 1980’s. The present rail system supplies services to the Baldwin Power plant, Fairmont Minerals, the Kaskaskia Regional Port District and Gateway FS.

In the Village of Baldwin the educational system consisted of a three-year high school, a public grade school and a Lutheran grade school. The high school was discontinued in the mid 1940’s and the school district became part of the Red Bud School District. In 1959, the public grade and children were sent to Red Bud schools. The Lutheran grade school also closed in the mid 1970’s and children attend either Prairie or Red Bud. Baldwin is also the home to many churches. Both the St. John’s Lutheran Church and the Baldwin Community Presbyterian Church have organizations to promote the welfare of their members. The Village also has many civic organizations which include the American Legion Nicholas Lauffer Post 619, the Baldwin Athletic Club, the Baldwin Community Auctioneer. In 1964, the Village installed both water and sewer systems. The water plant received severe damage from the 1993 flood and the plant needed to be moved out of the flood plain. After deliberation by the Board, it was determined that the Village became part of the newly formed rural water system. In early last year, the Village water system became part of the Eggleston system which pur- chases water from the City of Sparta. The Village sanitary sewer system was upgraded in 1987 and with federal and state assistance, their water system is about to be improved.

In 1999, the old school building, which previously served as the Village Hall, was razed. With assistance from local political leaders, funds were made available for a new Community Center. Both State Senator David Luechtefeld and State Representative Dan Reitz helped to secure the new Center. This center, when completed, will be used for all community functions and also serve as a meeting room for the Village Board. Offices for the Village President and Village Clerk will also be included in this facility. Today, the Village of Baldwin is presided over by Jeffrey S. Rowold, Village President, Wesley G. Steinhorn-Village Clerk, Eileen Mehring-Village Treasurer, Craig Hartman, James Mueller, Darrell Mueth, Barry Schoenbeck and Cheryl Sellers all Village Trustees.

Mr. Speaker, I ask my colleagues to join me in honoring the 125th Anniversary of the Village of Baldwin and to salute it’s past, present and future residents.
operation of trucks may be a small but necessary part of an individual’s job. We imposed our will on thousands of small businesses not involved in long-haul trucking and somehow expected them to adjust to any circumstance that might arise. Under these conditions, I believe it should be within a state’s discretion to determine what kind of commercial vehicle licensure and testing is required for commerce solely within its borders.

I again want to emphasize that it would be entirely up to each state whether it chooses to reassume authority over licensing and testing of intrastate drivers. A state that chooses to exercise this option would in no way diminish the role of the CDL in the long-haul trucking industry. Additionally, this legislation effectively exercises this option would in no way diminish the role of the CDL in the long-haul trucking industry. Additionally, this legislation effectively precludes two or more states from using this option as the basis for an interstate compact. I am confident that those states taking advantage of this option will develop testing standards that meet or exceed the minimum level of safety decreed by the federal program. After all, the primary mission of all state DOTs is to ensure the safety of those travelling on their roads. This legislation is extremely important to our nation’s small businesses, and I urge the House to adopt this measure.

RECOGNIZING THE CONTRIBUTIONS OF FUJIFILM TO THE SMITHSONIAN INSTITUTION

HON. LINDSEY O. GRAHAM
OF SOUTH CAROLINA
IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 11, 2001

Mr. GRAHAM. Mr. Speaker, I rise today to congratulate Fujifilm for recently receiving the Smithsonian Institution’s 2001 Corporate Leadership Award for its role as lead sponsor of Mei Xiang and Tian Tian, the new giant panda pair at the Smithsonian’s National Zoo. The award recognizes the gift made on behalf of Fujifilm’s 8,000 U.S. associates at 47 separate facilities.

Additionally, I would like to commend Fujifilm for the significant contribution that organization has made to the Smithsonian’s National Zoo in donating $7.8 million, the largest donation in the Zoo’s distinguished history. Fujifilm’s generous gift and lead sponsorship of the project to bring a new giant panda pair to the Zoo and to construct the Fujifilm Giant Panda Conservation Habitat which will serve as the new, permanent home for the pandas. Mei Xiang and Tian Tian have quickly become national treasures. Their arrival at the Zoo, as well as the extensive giant panda education and research activities, initiated through their sponsorship, have been beneficial to the visiting public. Fujifilm hopes that its involvement will create a gateway that will help people better understand the broader issues of species conservation worldwide. Additionally, many items from Fujifilm’s wide range of state-of-the-art imaging, data storage and information products will be used by Zoo researchers as they conduct their projects in the study of the giant pandas.

Mr. Speaker, I urge my colleagues to join me in lauding the outstanding corporate citizenship of Fujifilm and its leadership in conservation efforts. Additionally, I would hope that the members of this body will join me in thanking Fujifilm’s 8,000 U.S. associates for their valuable gift to the National Zoo, its visitors, and its researchers.

PERSONAL EXPLANATION

HON. MARK R. KENNEDY
OF MINNESOTA
IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 11, 2001

Mr. KENNEDY of Minnesota. Mr. Speaker, on rollover Nos. 211, 212 and 213 I was unavoidably detained by airline delays. Had I been present, I would have voted “yea” on each rollover.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur. As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Thursday, July 12, 2001 may be found in the Daily Digest of today’s RECORD.

MEETINGS SCHEDULED

JULY 13

9:30 a.m.

Energy and Natural Resources

SD–366

10 a.m.

Judiciary

To hold hearings on executive branch nominations.

SD–226

2:30 p.m.

Judiciary

Immigration Subcommittee

To hold hearings on S. 121, to establish an Office of Children’s Services within the Department of Justice to coordinate and implement Government actions involving unaccompanied alien children.

SD–226

JULY 16

1 p.m.

Commerce, Science, and Transportation

Science, Technology, and Space Subcommittee

To hold hearings to examine security risks for the E-consumer.

SR–253

JULY 17

9:30 a.m.

Energy and Natural Resources

SD–366

SD–366

SD–366

SD–366

SD–366

SD–366

SD–366

SD–366

Future Years Defense Program, focusing on active and reserve military and civilian personnel programs.

Energy and Natural Resources
To hold hearings on proposals related to energy and scientific research, development, technology deployment, education, and training, including Sections 107, 114, 115, 607, Title II, and Subtitle B of Title IV of S. 388, the National Energy Security Act of 2001; Titles VIII, XI, and Division E of S. 597, the Comprehensive and Balanced Energy Policy Act of 2001; Sections 111, 121, 122, 123, 125, 127, 204, 205, Title IV and Title V of S. 472, the Nuclear Energy Electricity Supply Assurance Act of 2001; S. 90, the Department of Energy Nanoscale Science and Engineering Research Act; S. 193, the Department of Energy Advanced Scientific Computing Act; S. 242, the Department of Energy University Nuclear Science and Engineering Act; S. 259, the National Laboratories Partnership Improvement Act of 2001; and S. 636, a bill to direct the Secretary of Energy to establish a decommissioning pilot program to decommission and decontaminate the Sodium-cooled fast breeder experimental test-site reactor located in northwest Arkansas.

Indian Affairs
To hold oversight hearings on tribal good governance practices and economic development.

Judiciary
To hold hearings to examine reforming the Federal Bureau of Investigation management reform issues.

Health, Education, Labor, and Pensions
Shared by different committees.

Governmental Affairs
Investigations Subcommittee
To hold hearings to examine past and current U.S. efforts to convince offshore tax havens to cooperate with U.S. efforts to stop tax evasion, the role of the Organization of Economic Cooperation and Development tax haven project in light of U.S. objectives, and the current status of U.S. support for the project, in particular for the core element requiring information exchange.

Energy and Natural Resources
To hold hearings on proposals related to removing barriers to distributed generation, renewable energy and other advanced technologies in electricity generation and transmission, including Sections 301 and Title VI of S. 597, the Comprehensive and Balanced Energy Policy Act of 2001; Sections 110, 111, 112, 710, and 711 of S. 388, the National Energy Security Act of 2001; S. 933, the Combined Heat and Power Advancement Act of 2001; hydroelectric relicensing procedures of the Federal Energy Regulatory Commission, including Title VII of S. 386, Title VII of S. 597; and S. 71, the Hydroelectric Licensing Process Improvement Act of 2001.

Governmental Affairs
Intelligence
To hold closed hearings on intelligence matters.

Energy and Natural Resources
To hold hearings on proposals related to global climate change and measures to mitigate greenhouse gas emissions, including S. 597, the Comprehensive and Balanced Energy Policy Act of 2001; S. 388, the National Energy Security Act of 2001; and S. 820, the Forest Resources for the Environment and the Economy Act.

Veterans' Affairs
To hold hearings to examine prescription drug issues in the Department of Veterans' Affairs.

Indian Affairs
To hold oversight hearings on the implementation of the Indian Gaming Regulatory Act.

Indian Affairs
To hold oversight hearings on the implementation of the Indian Health Care Improvement Act.

Veterans' Affairs
To hold hearings on the implementation of the Indian Health Care Improvement Act.

Indian Affairs
To hold hearings on S. 212, to amend the Indian Health Care Improvement Act to revise and extend such Act.
HOUSE OF REPRESENTATIVES—Thursday, July 12, 2001

The House met at 10 a.m.

Rabbi Solomon Schiff, Director, Greater Miami Jewish Federation, Miami, Florida, offered the following prayer:

Heavenly Creator, we ask for Thy blessings upon the Members of this sanctified chamber who have accepted the sacred responsibility to serve with partiality to none and compassion to all. May their deliberations be guided by wisdom, purpose, and dedication.

Bless, we pray, our Nation. Thou has created this land as a haven of hope for the tired, the poor, the huddled masses yearning to breathe free. From the raw elements of justice, liberty, and equality, Thou has created here Heaven on Earth. May we ever remain worthy of this precious gift.

May this Nation serve as an inspiring beacon, whose light will dispel the darkness of despair and will guide the ship of mankind safely home to the port of peace. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day’s proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

Mr. McNULTY. Mr. Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Speaker’s approval of the Journal.

The SPEAKER. The question is on the Chair’s approval of the Journal.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. McNULTY. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Pursuant to clause 8, rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from Nevada (Mr. GIBBONS) come forward and lead the House in the Pledge of Allegiance.

Mr. GIBBONS led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Monahan, one of its clerks, announced that the Senate has passed without amendment H. Con. Res. 174, Concurrent resolution authorizing the Rotunda of the Capitol to be used on July 26, 2001, for a ceremony to present Congressional Gold Medals to the original 29 Navajo Code Talkers.

WELCOMING RABBI SOLOMON SCHIFF, DIRECTOR, GREATER MIAMI JEWISH FEDERATION, MIAMI, FLORIDA

(Ms. ROS-LEHTINEN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. ROS-LEHTINEN. Mr. Speaker, I am so very pleased to introduce my congressional constituent, Rabbi Solomon Schiff, of the Greater Miami Jewish Federation, who led us in our opening prayer today.

I am proud to have a spiritual leader from Miami chosen for this special opportunity, and I thank Rabbi Schiff for sharing his compassionate prayer of hope and peace with our colleagues.

Within the south Florida community, Rabbi Schiff is well-known for his many acts of kindness and charity. In addition to his many duties, he finds time to serve as a member of the Governor’s Commission on Aging with Dignity, as well as the People United to Lead the Struggle for Equality, an African American clergy group.

Rabbi Schiff is currently the executive vice president of the Rabbinical Association of Greater Miami, a position he has held since 1964. He is the longest-serving executive of any board of rabbis.

Additionally, he has served as the President of the Florida Chaplains Association and the South Florida Chaplains Association, and was recently elected as President of the National Association of Jewish Chaplains.

Rabbi Schiff is married to the former Shirley Miller, and they have three sons, Elliott, Jeffrey and Steven, as well as seven grandchildren.

Rabbi Schiff is an exemplary man of faith, and all of us in south Florida share tremendous pride that he is here with us today.

Welcome, Solomon Schiff, the rabbi of our community.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. LaTOURETTE). The Chair will entertain 10 one-minute speeches per side.

SUPPORT ENERGY SECURITY ACT TO MEET ENERGY NEEDS

(Mr. GIBBONS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GIBBONS. Mr. Speaker, due to recent current events, I do not think anyone can deny nor can anyone argue that this country needs more energy. Every estimate I have seen points to a sharp rise in our Nation’s energy demands over the next 20 years. The demand for electricity, for example, is expected to rise 45 percent, according to the DOE, and the demand for natural gas will be even greater. It is expected to rise 62 percent by the year 2020.

Now, everyone knows that conservation can take the edge off that demand, and, in fact, the Republican energy package offers a framework for energy conservation that we have long needed. But, as Californians know quite well, even the best conservation efforts will not solve this problem. They are experiencing about a 15 percent gain in that demand due to conservation. That still leaves us about 40 to 50 percent short, and, without new energy supplies, more businesses, more hospitals, and more homes are going to go dark unnecessarily. We need to produce more energy.

Therefore, I encourage my colleagues to support H.R. 2436 the Energy Security Act, which provides a multifaceted energy package.

ALLOW UP OR DOWN VOTE ON CAMPAIGN FINANCE REFORM

(Mr. CARDIN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CARDIN. Mr. Speaker, today was the day that we were supposed to debate at long last campaign finance reform. The public understands that if we are to pass campaign finance reform, it will be embodied in the principles of McCain-Feingold or Shays-Meehan. But, unfortunately, the Committee on Rules is recommending a rule that will make it extremely difficult, if not impossible, for this body to have an up-or-down vote on the McCain-Feingold/
Shays-Meehan campaign finance reform proposal.

That is not right. Those of us who favor reform, unfortunately, will have to oppose this rule so that we can, in fact, have an honest debate and vote up or down campaign finance reform.

IMPLEMENT PRESIDENT'S ENERGY PLAN

(Mr. PITTS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PITTS. Mr. Speaker, in the last few weeks we have seen gas prices go up and down, and I think we all hope they keep coming down. Energy prices are still too high, supply is not meeting demand, and we are still expecting rolling blackouts in California, and we could still see gas prices as high as $2 a gallon.

This is the time for leadership. We need real solutions. The President has taken the initiative and is working hard to implement his 105-point plan to increase supply and correct the market, but some politicians just cannot resist the temptation to politicize this for personal gain. They are telling people that there is a quick fix and pointing fingers at anyone who says there is not.

But we cannot just put price caps on energy. If anything, that will make the problem worse, by removing any incentive to increase production. We need to remove impediments to production so supply can go up and prices can come down.

The last two economic recessions were preceded by similar energy crunches. Hopefully we can still avert a recession, but only if we stop playing games and implement the President’s energy plan.

RETURN GOVERNMENT BACK TO THE PEOPLE

(Mr. GEORGE MILLER of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GEORGE MILLER of California. Mr. Speaker, it is most unfortunate that the Committee on Rules of this House is thwarting the will of the Members of this House and of the American people to clean up our campaign finance system in this country.

For all too long we have seen the flow of special interest money into the coffers of politicians on both sides of the aisle, in the House and the Senate and the White House, and we have seen the effect of this flow of money. It is now corroding the very pillars of our democracy. It is undermining the foundations of our deliberations in the House and the Senate and at the White House. It means that the people’s business does not get done on a fair and level playing field. It means that there is special access for those who can give huge amounts of money, but there is very little access for those who simply have their voice.

This is not about the first amendment; this is about whether or not this House, this Congress, this Presidency, will return the Government of the United States back to the people and take it away from those who have no end to the amount of money that they can contribute to Members of Congress or the President, those who have so often distorted the debate about the real needs of the American people at this time in our history.

INFLUENCE PEDDLING OF SO-CALLED REFORMERS

(Mr. HAYWORTH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HAYWORTH. Mr. Speaker, I listened with great interest to the words of my friend from California, and I just find it ironic; he hails from a State that once championed the free speech movement at Berkeley, and today on this floor, with a rule that will allow to come to the floor amendments that doctor the so-called campaign reform bill, we will have a chance to see just how corrupting a process can be.

Talk about dirty money, Mr. Speaker. Take a look at the influence-peddling of the so-called reformers.

The simplest way to handle this would be to heed the words of Mr. Justice Brandeis who said that sunlight is the best disinfectant. Yes, it is going to be very enlightening, and I find it fascinating that my friends on the left suddenly now find it unfair to completely debate this important issue. Curiouser and curiouser, said Alice. Today the American people will find out just how corrupt and curious the process has become.

SUCCER FISH DESTROYING LIVELIHOOD OF OREGON FARMERS

(Mr. TRAFICANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAFICANT. Mr. Speaker, the endangered sucker fish is living up to its reputation, sucking the livelihood from 1,400 farmers in Oregon. That is right. This protected bottom feeder now has more rights than farmers out there. If that is not enough to fry your mackerel, this region has now been without irrigated water since April, turning 200,000 acres of farmland into near desert.

Beam me up. Stop this sucker fish crusade. Free these farmers.

I yield back the fact that this sucker fish sucks.

THE PROMISE OF STEM CELLS

(Mr. KIRK asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KIRK. Mr. Speaker, I rise today in strong support of the NIH guidelines for stem cell research. We must look to the promise of stem cell research. The NIH guidelines will enable scientists to proceed with this revolutionary medical breakthrough.

Pluripotent stem cells have the ability to develop into nearly any cell in the human body. This research initiative gives hope to millions of Americans. Stem cells offer hope to patients suffering from diabetes, Parkinson’s disease, cancer and AIDS.

In addition, the research offers hope to those suffering from spinal cord injuries, neurological disorders, sickle cell anemia and muscular dystrophy. Stem cells could also help determine the cause of many birth defects.

Mr. Speaker, millions of Americans are depending on stem cell research to help rid them of painful diseases. Millions of Americans continue to wait as our Government delays in considering this critical form of research. We have a genuine bipartisan opportunity to apply innovative research to take real steps in treating and eliminating a wide range of diseases. The NIH guidelines will help us do that.

MOMENT OF TRUTH FOR CAMPAIGN FINANCE REFORM

(Mr. ISRAEL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ISRAEL. Mr. Speaker, I rise as a very proud cosponsor of the Bipartisan Campaign Finance Reform Act. It was one of the first bills that I cosponsored in this House because it puts people first.

Earlier this week, I had the privilege of standing with our colleagues, Senators MCCAIN and FEINGOLD and the gentleman from Connecticut (Mr. SHAYS) and the gentleman from Massachusetts (Mr. MEEHAN), at the birthdayplace of one of America’s truly great reformers, President Teddy Roosevelt. We stood together in a bipartisan call for campaign finance reform, united in an urgency to restore faith in our democracy.

In his day, President Roosevelt said this: “One of the fundamental necessities in a representative government such as ours is to make certain that the men to whom they delegate their power shall serve the people by whom they are elected and not the special interests.”

Mr. Speaker, today is literally the moment of truth in this House on campaign finance reform. We can keep our

CONGRESSIONAL RECORD—HOUSE 13081 7/12/2001
promises for reform, or we can pretend to keep our promises. The only true reform is known by McCain-Feingold and Shays-Meehan. Let us pass that today.

OPPOSE THE RESTRICTIONS ON FREE SPEECH IN SHAYS-MEEHAN MEASURE

(Mr. CANTOR asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CANTOR. Mr. Speaker, this body is on the verge of a very important vote today, a vote that at its essence is really a vote on whether or not to uphold the constitutional right Americans have to free speech.

The restrictions in the Shays-Meehan bill are an affront to the Jeffersonian values of our country and its rule of law. Individuals, organizations, and businesses in our great land should be able to support the viewpoint and the party of their choice and not be forced to contribute to the candidates of their opponents. The restrictions on how citizens are allowed to participate in our electoral process, we begin to undermine the basis of our Government by the people, a government to which citizens must be able to contribute freely. I urge my colleagues to remember the most essential reform is to ensure that everyone in America has the right to decide how to contribute to our system of democracy.

SUPPORT REAL CAMPAIGN FINANCE REFORM

(Mrs. DAVIS of California asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. DAVIS of California. Mr. Speaker, I rise today in support of real campaign finance reform.

Why is this so critical? Why is it so important to us today? There is far too much special interest money in our political democracy. Special interests are drowning out the voice of the American people, and they are sick of it.

In my race in San Diego, and in the neighboring 49th district, we are never able to debate the outrageous price discrimination against our seniors on their pharmaceuticals. When we are unable to consider critical issues of public policy, on what is never discussed. But it is also particularly evident in the silence on critical issues of public policy, on what is never discussed.

One of the reasons why I ran for Congress was to work to help restore the public's trust in our elected leaders. The Shays-Meehan bill is the first good step in cleaning up our campaign finance system. By eliminating soft money, Americans' confidence in our electoral system will be restored.

Mr. Speaker, this bill helps to control the amount of money contributed in campaigns, but we need to go further. We must take control of how much money is spent on elections. I will work to take the next step on campaign finance reform by limiting the hundreds of millions of dollars spent on our elections. However, we must begin now. We must begin today. Mr. Speaker, I urge my colleagues to support Shays-Meehan and begin the process.

DEFEND CERTAIN AMENDMENTS TO CAMPAIGN FINANCE REFORM BILL

(Ms. SOLIS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. SOLIS. Mr. Speaker, today we have a very important issue before us: campaign finance reform. I want to talk about two amendments that are going to be coming up before us. One is known as the Linder-Schrock amendment, and it bans the use of funds that unions and corporations would give to communicate with their members and stockholders. How ridiculous.

In California we had a similar proposition, and it failed miserably; and that proposition was known as Prop 226. I am glad to say that the residents and those that voted in that election defeated it overwhelmingly. Let us make sure that we defeat that amendment here also.

Another amendment that I believe is egregious would also restrict and limit legal immigrants from making contributions to Federal candidates. Again, we are limiting their ability to vote. The变态 amendment that is known as the Bereuter-Wicker amendment, which would preclude individuals from communicating with people and ideas that they support.

If this is truly America, then we have to stand up for all legal immigrants that are tax-paying, that serve our country, that are playing by the rules, and that are maybe one step away of becoming citizens. Let us do the right thing and defeat these two amendments.

OPPOSE THE RULE ON CAMPAIGN FINANCE REFORM

(Mr. SHERMAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SHERMAN. Mr. Speaker, I am anxious, we are all anxious, to begin campaign finance reform and to begin it by making our rules more fair. Unfortunately, we need to oppose the rule that is coming before this House this morning. It is a rule that tells the gentleman from Connecticut (Mr. SHAYS) and the gentleman from Massachusetts (Mr. MEEHAN) that they cannot present their bill to this House in the form that they want to present it. Instead, the manager's amendment is chopped up into 12 pieces.

This is unprecedented. This is unfair. This is not reform. This is not the way this House should conduct its business. A vote on Shays-Meehan should be a vote on the bill that the authors would support. Instead, the authors would like us to vote on, not an old draft like us to vote on, not an old draft policy, on what is never discussed. But it is also particularly evident in the silence on critical issues of public policy, on what is never discussed. When we are unable to consider critical issues of public health because of the power of the tobacco industry; when we are never able to debate the outrageous price discrimination against our seniors on their pharmaceuticals...
because of the millions of dollars that the pharmaceutical companies contribute and the multiple issues never considered that impact our children, who make no campaign contribution.

Today we have an opportunity to consider a very modest, a very incomplete and imperfect answer to this troubling predicament through bipartisan legislation. This legislation represents our best hope to begin to correct this outrage and restore our democracy.

PASS MEANINGFUL CAMPAIGN FINANCE REFORM

(Ms. DeLAURO asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. DeLAURO. Mr. Speaker, the time has come to pass meaningful campaign finance reform. What it will do, what the bipartisan Shays-Meehan Campaign Reform Act will do is to take the soft money out of politics, take the special interest money out of politics. It will help us to restore the integrity to our political system. It will help us today to restore the confidence for the American public needs to have in people who serve in public life, restore their confidence in our government that, in fact, we can act on behalf of the interests of the people that we represent and not the interests of the moneyed interests in this country.

That is what this bill is about. It is a bipartisan bill. It is authored by the gentleman from Connecticut (Mr. SHAYS) and the gentleman from Massachusetts (Mr. MEEHAN). This bill has passed twice in this House before, and we should take today that opportunity to make it a law.

THE JOURNAL

The SPEAKER pro tempore (Mr. LATOURrette). Pursuant to clause 8 of rule XX, the pending business is the motion to adjourn, the question was taken, and the result of the vote was announced as above recorded.

Mr. THOMPSON of California changed his vote from “yea” to “nay.” So the Journal was approved. The result of the vote was announced as above recorded.

MOTION TO ADJOURN

Mr. McNULTY, Mr. Speaker, I move that the House do now adjourn. The SPEAKER pro tempore (Mr. LATOURrette). The question is on the motion to adjourn offered by the gentleman from New York (Mr. McNULTY).
Mr. McNULTY. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—aye 7, noes 42, not voting 14, as follows:

The question was taken; and the RECORDED VOTE was ordered.

Not voting 14, as follows:

Mr. McNULTY. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—aye 7, noes 42, not voting 14, as follows:

<table>
<thead>
<tr>
<th>Roll No. 223</th>
</tr>
</thead>
<tbody>
<tr>
<td>Speaker pro tempore announced that the conference asked by the Senate amendment, and agree to the Senate amendment, and agree to the conference asked by the Senate.</td>
</tr>
<tr>
<td>The SPEAKER pro tempore. The APPOINTMENT OF CONFEREES ON H.R. 2216, 2001 SUPPLEMENTAL APPROPRIATIONS ACT was announced as above recorded.</td>
</tr>
</tbody>
</table>

So the motion to adjourn was rejected.

The result of the vote was announced as above recorded.

**APPOINTMENT OF CONFEREES ON H.R. 2216, 2001 SUPPLEMENTAL APPROPRIATIONS ACT**

Mr. YOUNG of Florida. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 2216) making supplemental appropriations for the fiscal year ending September 30, 2001, and for other purposes, with a Senate amendment thereto, disagree with the Senate amendment, and agree to the conference asked by the Senate.

The SPEAKER pro tempore. The APPOINTMENT OF CONFEREES ON H.R. 2216, 2001 SUPPLEMENTAL APPROPRIATIONS ACT was announced as above recorded.

The SPEAKER pro tempore. The APPOINTMENT OF CONFEREES ON H.R. 2216, 2001 SUPPLEMENTAL APPROPRIATIONS ACT was announced as above recorded.

**SPEAKER pro tempore.** Is there objection to the request of the gentleman from Florida?

Mr. OBEY. Mr. Speaker, I object.

The SPEAKER pro tempore. Objection is heard.

**MOTION OFFERED BY MR. YOUNG OF FLORIDA**

Mr. YOUNG of Florida. Mr. Speaker, pursuant to clause 1 of rule XXII and by direction of the Committee on Appropriations, I offer a motion.

The Clerk reads as follows:

Mr. YOUNG of Florida moves that the bill (H.R. 2216) making supplemental appropriations for the fiscal year ending September 30, 2001, and for other purposes, with a Senate amendment thereto, be taken from the Speaker's table, that the House disagree to the Senate amendment, and agree to the conference asked by the Senate.

The SPEAKER pro tempore. The Gentleman from Florida (Mr. YOUNG) is recognized for 1 hour.

Mr. YOUNG of Florida. Mr. Speaker, I yield myself such time as I might consume.

Mr. YOUNG of Florida. Mr. Speaker, the motion to go to conference is basically a routine motion. We need to get to conference on this supplemental. We have military operations, training activities, we have readiness issues ready to close down if we do not provide the additional money that is needed. Much of the money that has been used already from the fourth quarter accounts of the military have gone to pay for things like higher fuel costs, like all of us will have to do at the fueling pumps, to pay for medical expenses that have already been incurred but have not been paid. They need to be paid.

There are other items included in this conference, and this time is extremely important. I suggest that we should get on with moving this bill into the conference so that we won't be sitting down with our counterparts in the other body, have the conference, and have a supplemental bill ready to report back to the House early next week.

Mr. OBEY. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Florida. Of course I yield to the gentleman from Wisconsin. Mr. OBEY, Mr. Speaker, does the gentleman intend to yield to this side of the aisle any time?

Mr. YOUNG of Florida. Mr. Speaker, I was not going to until the gentleman asked. I would be more than happy to yield to the gentleman. Would he like to name a specific amount of time?

Mr. OBEY. Mr. Speaker, it depends on how much time the gentleman intends to take. Normally it is an hour, but it can be less than that.

Mr. YOUNG of Florida. Mr. Speaker, actually I am ready to vote, but I would yield to the gentleman 10 minutes.

Mr. OBEY. Mr. Speaker, could we make it 20 minutes on this side?
Mr. YOUNG of Florida. Mr. Speaker, I yield 20 minutes to the gentleman from Wisconsin (Mr. OBEY), and I would advise him that I do not intend to use much more time on this. The issue is so important that we need to get to it.

The SPEAKER pro tempore. The Chair recognizes the gentleman from Wisconsin (Mr. OBEY) for 20 minutes to control debate.

Mr. OBEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we are caught up in two issues here this morning. One is, of course, the issue before us, the question of the proper disposition of the motion to go to conference on the supplemental appropriations. But we are also, in debating that issue, caught up in the larger question this morning of what happens to legislation. How do we fight this battle this day as we move into the subject that will dominate debate for the rest of the day, campaign finance legislation.

This has been the reasonable expectation of reformers on both sides of the aisle, I believe, that the two competing propositions would be allowed to face each other in a stand-up, fair fight. Shays-Meehan on one side of the issue and the Ney-Wynn proposition on the other side of the issue. Instead, the Committee on Rules has not allowed that to happen. What they have done is report a rule which will require campaign finance legislation to be debated under very strange circumstances. It will not allow Shays-Meehan to present their package as a coherent whole. It requires some 12 amendments to be voted on separately. I would say that that is not the way to shop for a car. It is not the way you buy cars, and that is not the way we ought to legislate. We ought to have a fair fight between the two principal propositions that we will be asked to choose between today. But instead we are not going to be given a fair fight, because apparently the people who designed these rules think the only way they can win the debate is to stack the deck. I think that is unfortunate because apparently the people who designed these propositions think the only way they can win the debate is to stack the deck. I think that is unfortunate because it is an abuse of the process, but it is not the first time we have seen that around here.

Mr. Speaker, I reserve the balance of my time.

Mr. YOUNG of Florida. Mr. Speaker, I yield myself such time as I may consume.

I listened with interest to the gentleman’s discussion. I checked my schedule, the card that I carry to tell me where I am supposed to be all day long. I thought we were here talking about a supplemental appropriations bill for national defense and for other health issues and other emergency disaster issues. I did not realize that this motion had anything at all to do with campaign finance reform. That is because it does not. Absolutely nothing. And I will tell you what I think that means. I did not think it was a tax bill. I thought it was a tax bill. But I will tell you what I think that means. I did not think it was a tax bill. It is a tax bill. That is what it is. That is the hope of the people who designed this rule on campaign finance that this motion would go through these kind of machinations and this kind of manipulation and these kind of contortions in order to block the incredibly tepid reform represented by Shays-Meehan, I would hate to see what they would do to block our inclusive reform of campaign finance legislation.

Let me also say a bit about the motion before us. I do not, when the time comes, expect to vote against the motion to go to conference; but I will ask for a rollcall vote on it. I want to express some concerns about what we ought to do on that proposition.

We are being asked to go to conference on a bill which everyone understands is totally inadequate even by administration standards. The administration has told us in the words of the FEMA director, Mr. Albaugh, and also in the words of Mr. Daniels, the OMB director, that they will probably need this money for hurricane relief, and they are appropriately appropriated for FEMA. Yet the House bill for the supplemental actually rescinds existing appropriations for FEMA. That makes no sense whatsoever.

Secondly, the administration is planning to spend $30 million on a political mailing to tell people that they are going to get a tax cut check, and they already know they are going to get a tax cut check. Meanwhile, the Congress is refusing to appropriate the money necessary to the victims of radiation poisoning, a claim which has already been clearly established and an entitlement which has already been clearly established. So they are willing to spend money on this political mailing, but they are not willing to deliver these payments to people who are sick and dying who have been literally fired by their own government. I do not think that makes much sense.

Thirdly, even though the Congress has decided to go to conference, the administration has asked us to provide funding to protect public health and to protect the health of our farm stock from the twin problems of mad cow disease and foot and mouth disease, this Congress has chosen not to appropriate funds requested by the administration for those items. When the proper time comes, I will have a motion instructing conference to accept those three changes in the House bill. But for now I want I want to make clear that this additional step that has been requested because of the anger that is felt I think on the part of people on both sides of the aisle about the stacked deck that has been provided to us in the rule on campaign finance.

This House ought to be able to debate these two issues straight up and not be hampered by indirect and manipulation. The name of the game is clear. It is the hope of the people who designed this rule on campaign finance that they can pick off one or more of these 12 separate fix-up amendments to Shays-Meehan and in the process prevent people from voting on the entire comprehensive, coherent package.

That is indeed unfortunate. I think it is an abuse of the process, but it is not the first time we have seen that around here.

Mr. Speaker, I reserve the balance of my time.

Mr. YOUNG of Florida. Mr. Speaker, I yield myself such time as I may consume.

CONGRESSIONAL RECORD—HOUSE 13085

July 12, 2001

Mr. YOUNG of Florida. Mr. Speaker, I yield 20 minutes to the gentleman from Wisconsin (Mr. OBEY), and I would advise him that I do not intend to use much more time on this. The issue is so important that we need to get to it.
Mr. Speaker, I yield 3 minutes to the distinguished gentleman from California (CUNNINGHAM).

Mr. CUNNINGHAM. Mr. Speaker, let me reiterate one thing that the gentleman from Florida spoke about. There is a problem called "hold harmless" in title I education funds, to where the States that are losing population maintain a certain level, but those States that are gaining children that are impoverished do not get additional dollars. I worked with a Senator in the other body from California, we brought it to conference; and we decided to fund both until we can find resolution to that. Guess what? There was not enough money to do that. So those children that are the poorest of the poor in title I funds, this supplemental takes care of it. That is one of the reasons this is so important.

Secondly, we met with Secretary Rumsfeld this morning. While all the 12 appropriations bills have been going up, if you have got a baseline, up to a level like this, Defense with all of the deployment, we have had, the cost is down here in the cellar. Even this supplemental will only bring us up to a level here. It will not even bring us back up to the baseline.

Secretary Rumsfeld said that one of the most important things that will happen if we do not get this besides all of the ships and things and the repairs and the training that stops, our TDY personnel, that is temporary duty orders, and our permanent moves, right now it is the summertime when our military folks’ kids are out of session, and they are trying to get their families moved in to their next base so that they can enroll their children into the schools. If we do not hurry up and do this, that is going to be delayed; and all of those, the disruption of not having your child entered into a school is going to be affected. So we strongly support this amount in this supplemental. It is critical. We should have done it before we left for our Fourth of July break, and now it is even more critical.

Mr. OBEY. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, my good friend from Florida has indicated what is in this bill. There is no argument about what is in this bill. I intend to vote to go to conference. The problem is what is not in this bill. It does not contain the roughly $1 billion that we have been given indications from the administration itself that in the end we will need to meet our obligations in dealing with the disasters cited by the gentleman from Florida, including the huge disaster in Houston and several in other States, including my own. It does not contain the money that the administration is demanding to protect this country from foot and mouth disease and from mad cow disease. And it does not contain the money that is needed to pay the victims of radiation poisoning who are entitled to that money. We will have a motion to instruct asking that those things be added. We should do that.

With respect to the other point made by the gentleman, I fully grant that this issue does not involve campaign finance. But when what I believe to be a majority of this House, composed of people on both sides of the aisle, when that House majority has been denied the opportunity by the Committee on Rules that runs this House, when they have been denied the opportunity to vote on the package that they believe ought to pass for campaign finance reform, except in pleemeeal fashion, then there are only so many tools available for that majority to protest what is going on. That is why we are having this additional debate this morning. I regret it takes up the time, but not nearly as much as I regret what the Committee on Rules did to what I believe is the majority will of this House.

Mr. YOUNG of Florida. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Ohio (Mr. Hoosoy), who is a member of the Defense Appropriations Subcommittee and chairman of the Subcommittee on Military Construction.

Mr. HOSSON. Mr. Speaker, I normally would not rise to get into this debate, but I just got back from visiting our troops in Korea. They need our help. I just got back from Italy visiting our troops. They need our help. I visited my base at home. They need our help.

I think, with all due respect to the gentleman from Wisconsin, I like the gentleman from Wisconsin and we are friends, but I think to use our servicepeople and involve them in a disagreement over a political matter in this House, I cannot stand idly by and not speak that I think that is inappropriate. Our people in the field need to train, they need care, they need help. To allow them to become part of a partisan battle I think is inappropriate.

We voted on this. We should pass this. We should get this help. I just came back from the Defense Department. They need a lot more help, because we have undervalued the Defense Department. They admit they have waste, they admit they have problems, and they are trying to change them. I think that we should get on with that and not bring other debates into a situation where our troops and their lives and their training and their families on these PCS changes and everything else is affected. It is not appropriate.

Mr. OBEY. Mr. Speaker, I yield myself 1 minute.

Mr. Speaker, I would point out it is the majority in this House that held this supplemental up for 4 months. This debate does not have one whit to do with whether our military personnel will get the funds they need, or whether our neighbors will get the help they need, or whether the victims of radiation poisoning who are entitled to that money will get that money.

To suggest that aid to them will be delayed by 1 day is absurd, preposterous, nonsense. Everybody on both sides of the aisle is going to be for that aid. What we want to see in addition is other obligations of the government also met to American citizens, including the American citizens who were literally killed by their own government through the use of nuclear testing and other problems associated with conducting nuclear tests. That has nothing whatsoever to do with whether our military personnel will get the funds they need. Of course they will.

I challenge the gentleman to name one person involved in this bill on either side of the aisle who is opposed to that money. He cannot because there are not any.

Mr. YOUNG of Florida. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am curious where the figure of 4 months comes from, where they held this bill up for 4 months. We passed this bill on the June 20, which was about 2 weeks after we got the request from the White House. The House expedited consideration of this measure, brought it to the floor; and we passed this bill.

The problem has been that the other body did not take it up right away, and they just passed it a few days ago. So I do not know where the gentleman got the idea that we delayed it for 4 months, because we did not delay it at all.

Mr. OBEY. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Florida. I yield to the gentleman from Wisconsin.

Mr. OBEY. Mr. Speaker, I would be happy to tell the gentleman. The White House itself announced they were not going to send down the request for the supplemental until after the tax bill was finished because they did not want to upset the apple cart on their tax bill.

The last time I looked, the White House was in Republican hands, as is the majority of this House.

Mr. YOUNG of Florida. I just wanted to make sure that the gentleman was not saying that the House delayed this bill, because the House did not delay this bill.

Mr. OBEY. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Florida. I yield to the gentleman from Wisconsin.

Mr. OBEY. No, I am not saying that. I am merely saying that the administration itself delayed the request for over 2 months until they could get their precious tax gift to rich people out of the Congress.
Mr. Young of Florida. Mr. Speaker, I would yield to the gentleman if he would answer this question: Will the gentleman agree then that the House actually did expedite the bill once we got the request?

Mr. O'NEY. Absolutely. No problem with the timing. I have a lot of problems with the timing of the White House on this one.

Mr. Young of Florida. Mr. Speaker, I thank the gentleman from Wisconsin (Mr. O'NEY) for that response.

Mr. Speaker, I am not sure what this argument is about today, because everybody knows we have to go to conference on this bill. Now when we bring the conference report back or during the conference itself, there will be some negotiations and there will be some discussions. There may be some things added and some things taken away, but the truth of the matter is, we sent this bill to the Senate at $6.5 billion, the amount that was agreed upon by the House and the Senate. The Senate leadership said that they would not go above $6.5 billion. Their bill is a little different than ours, but that is also not unusual. That is why we go to conference, to work out those differences.

So I am not sure what this argument is all about. In the beginning, it sounded like it was about campaign finance reform, but I do not think that is the case. We need to get this bill into conference, Mr. Speaker, so I am going to ask for a very strong yea vote so that we can continue the process.

Mr. Speaker, I reserve the balance of my time.

Mr. O'NEY. Mr. Speaker, I yield 1½ minutes to the gentlewoman from New York (Ms. Maloney).

Ms. Maloney of New York. Mr. Speaker, I rise in support of the supplemental but in opposition to the rule for the Shays-Meehan bill. What we needed was a fair fight, an up or down vote on the Shays-Meehan, a quality, balanced, bipartisan finance bill, that a majority of this House has supported twice and that has already passed the Senate.

We needed a fair rule. But what did we get? We got a minefield. We got Shays-Meehan shattered, fragmented, broken into 14 separate parts that needs to be reassembled in separate votes into that fragile flower called consensus. After the minefield, more poison pill votes. Apparently the leadership felt they could not win on the merits so they had to manipulate the process to shortchange the American people once again. Campaign finance reform, the balance of this bill, that a majority of this House has supported.

As a result of Tropical Storm Allison, the damage that we have seen in the last of our state is real and it is pressing now and October 1. The need for money in this fund is real and it is pressing and we should not be reducing or cutting any funding from FEMA.

Already this year there will be 27 major disaster declarations across our country, including the devastating funds in my hometown of Houston and across southern Texas, southeastern Texas, Louisiana, and even up into Philadelphia from Tropical Storm Allison. The damages from this declaration alone are estimated to be $5 billion. Traditionally, FEMA pays about half of this amount in damage assistance so we are talking about $2.5 billion.

Since FEMA’s disaster budget is only $1.6 billion total, we need to make sure that funding is increased and not decreased. There is still a lot of time left in this fiscal year, and I would expect we have made more progress on the disaster declarations and thus need more funding for disaster relief.

To date, FEMA has had $85,000 disaster relief applications in the Houston area from Tropical Storm Allison. Of the over 25,000 cases that FEMA inspected, 67,000 of those inspections are completed and 3,500 were completely destroyed. Over 10,000 suffered major damage and 33,000, almost 34,000, have minor damage, totaling 47,999 affected properties.

Of the more than $500 million initially allocated for this disaster by FEMA, $343 million, or 84 percent of these funds, have already been committed; and we are not even 2 months after the disaster. That is, they either have been or will be sent out to those in need of assistance.

That $343 million is already more than the $389 million that we cut in the last supplemental that passed this House. Remember, this is just one disaster with $5 billion in damages. Twenty-six other parts of our country have suffered disasters of varying degrees. That is why I would hope the House and the Senate would act and restore the $389 million as the first step, and we need to make sure that we provide FEMA the money not just for my own constituents but also for all the people in our country who have experienced disasters.

Mr. Young of Florida. Mr. Speaker, I continue to reserve the balance of my time.
money; and, in fact, they added a million dollars as a place holder to look at additional funds. The director of the Office of Management and Budget, Mr. Daniels, told our committee, the Committee on the Budget, the other day, that he told the Senate Committee on the Budget subsequently that he did not believe that FEMA will need additional money in the current fiscal year.

Now as I said, in the past, when we debated this, when the committee on the House side chose to rescind the $399 million, Tropical Storm Allison had not yet occurred, and had the committee marked up the bill a week later after Tropical Storm Allison, I strongly believe that they would not have chosen to rescind it because they could not have foreseen the disaster that was going to occur.

This was a 500-year event, meaning that it has a half of a percent of a chance of happening in any given year, but it did occur.

So I would hope that the House will adopt the motion of the gentleman from Wisconsin (Mr. OBEY) to instruct, that the House, when it goes to conference with the Senate on this otherwise very important bill, will recede to the Senate's position, restore the $389 million; and I would hope, even more to the point, that the House and the Senate conference will go further and add the billion dollars that is estimated because it is going to be far greater than that. But we know we will have other disasters, and we will have to respond because it is an essential function of the government. And Congress should not be standing in the way of that.

Mr. OBEY. Mr. Speaker, I yield my self the balance of my time.

Mr. Speaker, very briefly, when the vote comes, I will join my friend, the gentleman from Wisconsin, and ask the people to vote yes on a later motion that we will make to add three items to this proposition. We will simply be asking the House to approve three Senate actions that would eliminate the rescission for FEMA, that would fund the administration request for mad cow disease and for hoof and mouth disease, and to fund the claims for radiation victims, many of whom are sick or dying and some of whom have already died.

Mr. Speaker, I yield back the balance of my time.

Mr. OBEY of Florida. Mr. Speaker, I yield myself the balance of my time. Mr. Speaker, I just want to say that I am happy to hear the gentleman from Wisconsin (Mr. OBEY) say that he will vote for this motion. I hope that everybody will vote for this motion so we can get to the business of the conference.

I would point out that the gentleman from Wisconsin will be an important member of that conference committee and will have every opportunity to make the suggestions that he has; and I am satisfied that he would be very influential in that conference committee, as he always is. But we need to vote. I do not know if the gentleman is going to ask for a rollcall vote or not, but we need to get on with the conference. I would like to get the conference work done before the House adjourns for the weekend.

Mr. OBEY of Florida. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 2216, as well as on any motion to go to conference on H.R. 2216, and that I may include tabular and extraneous material.

Mr. Speaker, very briefly, when the gentleman from Wisconsin (Mr. OBEY) says that he will ask for a rollcall vote on a later motion that we will make to add three items to this proposition, I would point out that the gentleman is going to ask for a rollcall vote on a later motion that we will make to add three items to this proposition. We will simply be asking the House to approve three Senate actions that would eliminate the rescission for FEMA, that would fund the administration request for mad cow disease and for hoof and mouth disease, and to fund the claims for radiation victims, many of whom are sick or dying and some of whom have already died.

Mr. Speaker, I yield back the balance of my time.

Mr. OBEY of Florida. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 2216, as well as on any motion to go to conference on H.R. 2216, and that I may include tabular and extraneous material.

Mr. Speaker, very briefly, when the vote comes, I will join my friend, the gentleman from Wisconsin, and ask the people to vote yes on a later motion that we will make to add three items to this proposition. We will simply be asking the House to approve three Senate actions that would eliminate the rescission for FEMA, that would fund the administration request for mad cow disease and for hoof and mouth disease, and to fund the claims for radiation victims, many of whom are sick or dying and some of whom have already died.

Mr. Speaker, I yield back the balance of my time.
Last night we passed the agriculture appropriations bill with 95 percent support in this House. We had similar majorities on other appropriation bills, transportation bill, the energy and water bill, the interior bill. And it seems to me that that kind of consensus we have been able to develop on each of those bills is good for both parties. It has been good for the House, it has been good for the country. It helps us to get our work done, and it helps us to build a foundation for cooperation on other items. I think it has been a very positive thing and something we have not seen enough of in this House in recent years.

However, the legislation which the majority is asking us to pass today in this bill does not represent that type of cooperation which supported this bipartisan legislation. It has been handed down from on high. I think it is severely constrained by a narrow, partisan, ideological judgment about how we spend our money and how we meet the country's needs, and I think the current situation illustrates clearly how misguided that judgment is.

There are a few people on the other side of the aisle and people in the White House who have taken the position that once Congress has passed a budget plan, we have to put together our bills through the year, and that we cannot address any other needs beyond those anticipated in the original plan. It does not matter how much circumstances change; it apparently does not matter what the magnitude of natural disasters are that strike; it does not matter, I suppose, if we decide to go to war. If we have only a few months left in the fiscal year and a hurricane strikes, we can wait until October 1 to provide assistance, or we can fire IRS agents or close down some other badly needed program in order to find the money to pay for that disaster assistance. That, in essence, is the point of view that is controlling the consideration of this bill.

Now, some people are having difficulty understanding the term "faith-based initiative." I think an example might be our disaster assistance program. We are praying that we do not have any more storms. We are trying to preclude acts of God from getting in the way of our budget process. I think that is an arrogant way for human beings to go about legislating, but so be it; that apparently is the mindset around here.

Mr. Speaker, I would point out, and this chart demonstrates one example, which shows what happened to one highway after the reign of terror in June of 2001. Currently, we are trying to cope with that huge gulf storm. Damage in a single county in Texas was estimated to be $4.8 billion.

The director of FEMA called me and told me that he thought that it could be possible that they would need significant additional money above the amount already appropriated by this Congress. And based on the Houston Chronicle, OMB director Daniels stated, and I quote, that "It is highly likely" that FEMA's budget will need another boost this year.

What is going to happen with this bill? OMB told my office last night they are not planning to make a request. They are hoping to slide by on existing funds. If everything goes right and if God decides that the weather is not going to operate the way it normally does, we may just make it through. But if we have a normal year and we have a couple of hurricanes after we leave here in August, what then? We are not going to have the money to respond to those disasters.

Yet, are we not planning to do then? Are we going to go down to Texas and deobligate money that we have initially provided? I would hope not. But whatever happens, without additional funding, we will not be providing normalcy to people who are affected by those storms.

Why is that? The reason is that all of the needs facing the Federal Government apparently must be met within a $6.5 billion package. Why is that? That is because that number was picked out by Congress last December when we were trying to get out of here in time for Christmas.

Does that number have any relationship to the current projected surplus outside of Social Security and Medicare? No, it does not. Did we know at the time how much rising fuel costs would affect steaming costs for the Navy or training exercises in the Air Force? No, we did not. Did we know how much those costs would deplete spare parts inventories of aircraft, tank, and ships? No, we did not.

Did we know we were going to face major electricity blackouts in most of the western United States? No, we did not. Did we know we were going to have a severe storm hit the Gulf coast in the month of June? No, we did not. Did we know that a tornado with 250 mile-an-hour winds was going to hit a town in my own congressional district.

We did not know any of those things. Yet, we are planning to do then? Are we not planning to do then? Are we not planning to ask for them, rather than to pretend that this problem does not exist.

In my view, we are playing a stupid numbers game with the lives of people

CONGRESSIONAL RECORD—HOUSE

13089

Mr. STARK changed his vote from "nay" to "yea."

The motion was agreed to.

The Clerk read as follows:

The SPEAKER pro tempore. The gentleman from Wisconsin (Mr. OBEY) and the gentleman from Florida (Mr. MADOW) each will be recognized for 30 minutes.

Mr. Speaker, I think more than a few Members of this House and a lot of people outside of this institution have been pleasantly surprised at the relative unity this House has had on a bipartisan basis on appropriation bills this year.

Mr. Speaker, I think more than a few Members of this House and a lot of people outside of this institution have been pleasantly surprised at the relative unity this House has had on a bipartisan basis on appropriation bills this year.
So there was a very large vote in the House for the bill as the committee wrote it as modified by three amendments that were agreed to in the House during the debate on that bill. I appreciate the fact that we can work together. I think, before this is over, we will end up having worked together and produced a good conference report.

Secondly, I am going to ask that we instruct the conferees to recede to the Senate and accept the money needed to process the checks that are owed to victims of radiation exposure. Some of those people are extremely ill. Some have already died.

These are people who were exposed, in many instances unknowingly, to radiation as a result of the development, testing, and transportation of radioactive material by the Federal Government. In other words, those people were fried by their own government. It seems to me that a government that can spend $30 million on a political mailing to tell people that they are going to get a tax cut is a government that should not be simultaneously denying already-earned benefits to people who are dying and need that money now, not after they are in the grave.

I would also point out that the administration itself sent a letter commending the Senate "for not including the provision in the House-passed version of the bill that would have rescinded $389 million in disaster relief funding for FEMA."

I would urge Members to listen to the administration on this item, and listen to us on the other two items, do what we know we are going to have to do, and instruct the conferees to accept these three items.

Mr. Speaker, I reserve the balance of my time.

Mr. YOUNG of Florida. Mr. Speaker, I yield myself such time as I may consume.

I would like to start by saying I appreciate the gentleman’s comments about the bipartisan way we have been dealing with appropriation bills. He is right. We have worked together very well. We have had some differences, but that is not unexpected nor unusual for the bill we are talking about now, the supplemental appropriations bill.

He mentioned the agriculture bill passing with about 90 percent aye votes. The truth of the matter is that the bill we are now discussing passed the House with 80 percent of the vote. So there was a very large vote in the House for the bill as the committee wrote it as modified by three amendments that were agreed to in the House during the debate on that bill.

I was asking the gentleman to yield, but he was very busy with his statement and he did not yield. I was going to ask the gentleman, a question. He talked about the FEMA rescission in the House bill, and we did talk about that at length when we debated the bill on the floor on June 20. The fact is that this Congress, under the Republican majority or the Democratic majority, never ignored the needs of our communities when it came to disasters. Whatever funds were needed, we made them available. I do not think that is a concern.

I was going to ask the gentleman if he would be willing to amend his motion to recommit just to include the issue of FEMA. We would be happy to accept it if he would amend it. But we do not want to have our hands tied going into conference. We need the ability to negotiate with the other body, which is the same ability that the other body has to negotiate with us. I think a conference report that I think at least 80 percent of the House would agree with.

Mr. OBEY. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Florida. I yield to the gentleman from Wisconsin.

Mr. OBEY. If the gentleman would like me to respond, and I thank the gentleman for yielding, let me simply say I appreciate the gentleman’s suggestion. I think that demonstrates that even he understands that we need to reject what the House originally did with respect to FEMA.

But I would say that I cannot accept the gentleman’s offer because I think there is no rational reason whatsoever for the House not to do what the Senate has already done and to provide the money that we badly need in the agricultural area, and to provide the money that we know we have a moral obligation to provide to the victims of radiation poisoning. I thank the gentleman.

Mr. YOUNG of Florida. Reclaiming my time, Mr. Speaker, I would suggest to the gentleman that we do not do
Mr. YOUNG of Florida. Mr. Speaker, I yield such time as he may consume to the gentleman from Texas (Mr. BONILLA), the distinguished chairman of the Subcommittee on Agriculture, Rural Development, and Related Agencies.

Mr. BONILLA. Mr. Speaker, I thank the gentleman for yielding me this time; and I rise in opposition to the motion to instruct. My friend from Ohio was just making some points about how we all want to work on stopping any threat from entering our borders and threatening livestock or people in this country from any problem that currently exists overseas. We are in total agreement on wanting to do all we can to stop this from entering our country in any way whatsoever. However, the solution that is being proposed in this motion to instruct is unnecessary because in fact there is a system in place already that can be accessed by the Secretary of Agriculture on a moment’s notice if something were to occur in this country.

We have gone over this over and over again as we have moved separately on our agriculture appropriations bill in pointing this out clearly, and we even asked and reviewed with the Secretary that the money she could access would amount to $30 billion. We are talking about an amount here of $35 million that, when compared to that $30 billion, is a drop in the bucket in terms of what would be necessary to fight whatever threat may enter our borders.

Mr. OBEY. Mr. Speaker, I yield myself 1 minute.

I would simply point out, Mr. Speaker, the administration has asked for the FEMA money. The Congress is responding to it. The gentleman says this money for agriculture was pulled out of the air. This is the administration request that we are simply trying to comply with.

Thirdly, the radiation item is an item which is owed people who are doing their very best in the action of their own government. I think it will be very difficult for Members to explain their opposition to any one of these three items.
Mr. Speaker, I yield 2 minutes to the distinguished gentleman from North Carolina (Mr. PRICE).

Mr. PRICE of North Carolina. Mr. Speaker, I thank the gentleman for yielding me this time, and I commend the gentleman from Wisconsin (Mr. OBEY) and the gentlewoman from Ohio (Mrs. UDALL) for including in this motion language that would instruct con- ferees to accept the Senate provision to provide $35 million for USDA's Animal and Plant Health Inspection Service, as requested by the Bush administration, to protect American agriculture from serious animal diseases like foot and mouth disease and mad cow dis- ease.

Unless we take steps now to protect ourselves, an outbreak of these diseases could be absolutely catastrophic for our State. North Carolina is a good example of that. One estimate says that if foot and mouth disea- se were to break out in certain counties in eastern North Carolina, with concentrated hog operations, within a 20-mile perimeter we would have to destroy more animals than were destroyed in all of the country of England.

Our Governor, Mike Easley, and agri- culture commissioner Meg Scott Phipps have worked hard on a preven- tion effort, but the States need help from the Federal Government. Now, earlier this year Secretary Veneman did authorize the use of $32 million in APHIS funding for foot and mouth and mad cow disease border inspection ac- tivities. During our debate on the Com- mittee on Appropriations, we were ad- vised that this and other funds avail- able from the Commodity Credit Cor- poration were sufficient; that USDA had adequate resources to address for- eign animal disease. That, of course, was not accurate. And I am amaz- ed to hear the subcommittee chairman re- peating that argument this morning.

The President, 8 weeks after Sec- retary Veneman made those funds available, requested $35 million in sup-plemental funding for APHIS. I have confirmed with the Agriculture Depart- ment just this morning that we still need this $35 million in supplemental funding and that without it the Agri- culture Department does not have ade- quate resources to protect the United States against foreign animal diseases. It is amazing to me, it totally escapes me, how we would not want to prepare ourselves for what could be an absolu- tely devastating outbreak.

We have to do all we can to protect this country against the threat of for- eign animal diseases. We should honor the administration's well-justified re- quest and accept the position of the Senate and provide $35 million for the Agri- culture Department. So I urge adoption of the motion to instruct.

Mr. YOUNG of Florida. Mr. Speaker, I reserve the balance of my time until

the gentleman is ready to close, as he has the right to do in this particular case, as I have no further requests at this time.

Mr. OBEY. Mr. Speaker, if I could in- quire of the gentleman. The last time we were in this situation the gen- tleman did not use a lot of his time and I reserve the remainder. If you, at the end, would like to make a closing statement, with several speakers. Is the gen- tleman indicating that he has no addi- tional speakers except himself?

Mr. YOUNG of Florida. No, I just thought I would save a little time. I might have a few closing remarks for our side prior to the gentleman closing.

Mr. OBEY. Mr. Speaker, may I in- quire as to how much time remains on both sides?

The SPEAKER pro tempore (Mr. LATOURETTE). The gentleman from Florida (Mr. YOUNG) has 22 minutes rema- ining and the gentleman from Wis- consin (Mr. OBEY) has 15 minutes rema- ining.

Mr. YOUNG of Florida. Mr. Speaker, I reserve the balance of my time.

Mr. OBEY of Wisconsin. Mr. Speaker, I yield 2 minutes to the gentleman from New Mexico.

Mr. UDALL of New Mexico. Mr. Speaker, I thank the gentleman for yielding me this time. This is an excellent motion to instruct, and I reserve the remainder. I think this is an excellent motion to instruct, and one of the things this motion does is seek to remedy a long overdue injus- tice.

U.S. Citizens who went to work in uranium mines and downwinders who lived below atomic bomb explosions have suffered severely at the hands of the United States Government. Gov- ernment doctors knew they were in danger. The Atomic Energy Commis- sion knew they were in danger. But no- body told them, when they were working in the mines, the mines were dirty and the downwinders were in danger. Nobody told the people living down- wind that they were in danger.

These victims had to go to court to try to seek justice. And they lost in the courts, and the courts came back and said, this situation cries out for justice. Finally, in 1990, the U.S. Con- gress acted and corrected that injustice and said compensation should be paid and a national apology be given to these individuals. Very few occasions in our Nation's industry has that oc- curred.

Many of these victims are Navajo In- dians who live in the remotest part of the country. They knew nothing of the dangers, and they are entitled to this compensation. But guess what, my col- leagues, the government is out of money. The government account is empty, and we are issuing IOUs to those people. We are issuing IOUs to el- derly Navajo widows who have large families, IOUs to people that are living and have lung cancer and are waiting for this payment, many waiting for 25 years. There are 438 IOUs totaling $31 million.
Mr. YOUNG of Florida. Mr. Speaker, I intend to use just a few minutes prior to this gentleman closing on his motion. Other than that, I have no further speakers.

Mr. OBEY. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Utah (Mr. MATHESON).

Mr. MATHESON. Mr. Speaker, I thank the gentleman for yielding me this time, and I want to congratulate the gentleman for submitting this motion to instruct that includes doing the right thing. The Senate recognized it is the right thing to provide this funding for victims of exposure to radiation.

It is interesting. We have a problem in our country where people tend to sometimes lose faith in their government. Here in Congress we stood up. I was not here at the time, but Congress stood up years ago and said, the government did something wrong and we are going to admit responsibility for doing something wrong in terms of appropriately exposing people to radiation and so we are going to compensate these people. But at this point, it looks like Congress was talking a good game; but they are not backing it up with the actual funds.

I have met so many people who have these letters in hand, these promises that someday we are going to give you this money. These are people that went through the process of filing a claim, filling out all the forms, going through their history, and the government then said, yes, you do qualify, but, gee, we do not have any money. That is just not acceptable.

I challenge anyone in this body to look over the victims in the eye and say, well, we do not have enough money for you. We are going to spend $35 million to send a letter to everyone telling them they are going to get a tax rebate, but we do not have enough money to send a letter to everyone who is sick and dying from cancers caused by this Government. These actions have affected people in my State and in my own family.

It is time for Congress to stand up and do what is right and fund this. I encourage everyone to support this motion to instruct.

Mr. OBEY. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from North Carolina (Mrs. CLAYTON).

Mrs. CLAYTON. Mr. Speaker, I thank the gentleman for yielding me this time; and I thank him for this motion.

I stand in strong support of this motion, particularly the portion that gives a certain amount, $35 million, to APHIS. We wish we did not have to call for this emergency, but all of us are keenly aware of the outbreak in England in February of 2001. I can tell my colleagues that it affects all of the United States, but it has a particularly devastating potential effect for the State of North Carolina.

Mr. Speaker, I also would like to enter into the RECORD a letter from our Governor to President Bush. It is a letter to the President of a letter to the President from the commissioner of agriculture as well as the President pro tempore and our Speaker of the House.

STATE OF NORTH CAROLINA,
OFFICE OF THE GOVERNOR,

HON. GEORGE W. BUSH,
President of the United States, The White House, Washington, DC.

HON. ANN VENEMAN,
Secretary of Agriculture, U.S. Department of Agriculture, Washington, DC.

DEAR PRESIDENT BUSH AND SECRETARY VENEMAN: As you are aware, since being confirmed in England on February 19, 2001, Foot and Mouth Disease (FMD) has been extremely active in many sections of the world, culminating in the catastrophic events that have occurred in the United Kingdom and parts of Western Europe over the past 18 months.

Introducing this virus into the United States remains to be seen, but we do know that it would bring catastrophic consequences to our livestock industry with direct and indirect financial losses in the billions of dollars. Of particular concern here in North Carolina is our extensive swine industry (10 million animals), as well as our precious beef and dairy cattle commodities (960,000 head). We have been working diligently over the past month strengthening our safety net minimizing the risk of the introduction of the disease into our state and country.

Because FMD is a foreign animal disease, the USDA has primary jurisdiction over the prevention and eradication of this disease. Through the efforts of our State Veterinarian in the North Carolina Department of Agriculture and Consumer Services, as well as the efforts of members of our General Assembly, we are strengthening the procedures we have in place to prevent this foreign disease from entering our country.

As the efforts of the Georgia Department of Agriculture have held several telephone conferences with the NASDA to discuss the eradication efforts that they have in place and to develop a plan to protect our state. The USDA, APHIS should be urged to do the following:

1. To promptly conduct a full risk assessment, particularly identifying the most likely methods of entry of FMD into the U.S., and implement risk management plans of action based upon the identified or perceived risks.

2. To immediately ban all used farm equipment and supplies (including harness and tack) from FMD countries until further notice. Future action would depend upon the outcome of the USDA, APHIS risk assessment and risk management plan.

3. To work with appropriate federal agencies to immediately install effective sanitary footbaths at the point of entry for all international conveyances (by air, sea, land) and complete complete sanitization and decontamination of all cargo. It should be mandatory that all passengers pass through the footbath upon disembarkation.

4. To conduct a thorough and complete compliance review of the disposal of international garbage from foreign conveyances (by air, sea, land) and complete complete sanitization and decontamination of all cargo.

5. To work with appropriate federal agencies to ensure that all foreign conveyances (by air, sea, and land) are appropriately decontaminated.

6. To immediately enter into active discussions with FEMA officials with the intent of proactively developing a national Emergency Support Function (ESF) for animal industries by USDA being the primary responsible agency. The ESF should address both natural disaster and animal health emergency of national importance. In addition to technical advice and assistance should be provided to states to develop regional compacts among state emergency management agencies.

7. To review the FMD diagnostic capabilities at the Foreign Animal Disease Diagnostic Laboratory on Plum Island and develop a plan of action to enhance its capabilities to an appropriate level. Such plan of action should include supportive Congress to allow FMD testing at certified state laboratories.

8. To notify the AVIC and State Veterinarians in the state of destination in advance of imported animals/animal products.

9. To thoroughly review the manufacturing and distribution capabilities of FMD vaccine and the impact of its use in an FMD eradication program.

10. To work with appropriate federal agencies to ensure full surveillance and decontamination of international parcel post packages.

11. To consider the benefits of restricting the importation of any grooming, training, or riding equipment/supplies for imported equine, with the exception of a halter and lead rope.

12. To notify NASDA of the results of above, including needed resources, in order to develop partnerships to fully implement risk management plans.

13. To ensure that funds are available for indemnification to the producer as provided by federal law.

Many of these suggestions were developed by the Georgia Department of Agriculture and forwarded to the National Association of State Departments of Agriculture (NASDA). The State Commissioners and Directors of Agriculture have held several telephone conferences regarding our situation and have expressed similar concerns.

We must be extremely diligent in our efforts to prevent the introduction of this disease into the United States. The assistance in this will be greatly appreciated. With kindest regards, we remain very truly yours,

MICHAEL F. EASLEY,
Governor.

MRS. SCOTT PHEPPS,
Commissioner of Agriculture.

SENIOR MARC BANSTEIN,
President Pro Tempore.

REPRESENTATIVE JAMES B. BLACK,
Speaker of the House.

Mr. Speaker, let me just quote from this.

To the north Carolina delegation. He called to our attention that North Carolina would be affected greatly. I will not enter into the RECORD because it will not come out right, but if indeed there was an outbreak, we can see that poultry, dairy and indeed all the livestock would be immediately impacted. Within 5 to 15 miles, we will have a devastation on our hands unseen before in the
United States. So they are calling not only because they need to have staff, they also are putting more resources of their own.

I entered into the supplemental bill an amendment in the Committee on Agriculture, when we considered the agricultural supplement, to put $50 million. They could not do it within the amount of money they had. This gives the House the opportunity independently to do this. I would think we would want to do that. We would not want to have the outbreak.

Let us do the right thing and prevent the outbreak by giving sufficient money that the staff can be equipped to handle such a devastation.

Mr. OBEY. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from New York (Mr. HINCHEN). Mr. YOUNG of Florida. Mr. Speaker, I want to pay tribute to the chairman of the Appropriations on Agriculture and the purposeful way in which the appropriation process has proceeded under his leadership. But it is also true that this motion to instruct draws our attention to some very serious deficiencies in the budgetary process which are becoming more obvious with the passage of every day.

The White House today tells us that the anticipated budget surplus of $200 billion for the year is down very very substantially, by more than $30 billion, more than 15 percent.

It is very likely that if disaster strikes from natural causes or if we have an invasion of foreign animal disease strike our shores, that we will respond appropriately with the necessary funds. But the question arises where are those funds going to come from if we do not budget for them in the first instance.

Increasingly one is driven to conclude that the answer to that question is going to be from places like the Medicare Trust Fund initially and perhaps even the Social Security Trust Fund if that becomes necessary. That is why this motion to instruct is very appropriate. Every Member of this House ought to give it their very careful consideration.

We are not being honest in the way we are dealing with the people’s money here.

Mr. YOUNG of Florida. Mr. Speaker, I yield whatever time he might use to pass it.

The gentleman from Texas (Mr. BONILLA), the chairman of the Subcommittee on Agriculture, Rural Development, Food and Drug Administration and related agencies.

Mr. BONILLA. Mr. Speaker, sometimes I wonder when we listen to debate in this Chamber if we are not made up of a lot of Chicken Littles with concerns about the money that is put in here for APHIS and trying to prevent the diseases from coming over here. They are not here.

There is absolutely no threat at this point domestically to any of us, humans, plants, animals, because our systems work. We are working every day in a bipartisan way to make sure that we remain safe from these threats that have devastated other countries.

Can anybody guarantee that nothing is going to happen? Of course not. That is why this is a good thing. It is good to talk to the Secretary and communicate with everyone involved who could possibly have a role in preventing these diseases from entering our country to make sure we are doing everything we can.

Even though there was a request by the administration in this area, we reviewed that with the Secretary of Agriculture over and over again, specifically to find out if she could access this multibillion-dollar fund if, in fact, something happened.

There is also a plan in place that looking a step further, assuming that the sky does fall and Chicken Little is finally right, there would be an indemnity program for livestock if something were to occur. Of course, we can not predict, and all we can do is do all we can to be prepared.

Mr. Speaker, at this point I believe in a bipartisan way in this House we should feel comfortable that we are doing everything we can and say over and over again, oh, my goodness, we have to pour more money in for inspectors and so forth, it is not prudent. You cannot live by the fact that something terrible may happen every day. Let us be optimistic and look at the positives in the bill. We should feel good about that.

Mr. YOUNG of Florida. Mr. Speaker, will the gentleman yield?

Mr. BONILLA. I yield to the gentleman from Texas.

Mr. YOUNG of Florida. Mr. Speaker, did the gentleman say there is already a multibillion-dollar fund available for this purpose?

Mr. BONILLA. Mr. Speaker, the gentleman is correct, there is $30 billion that the Secretary of Agriculture could access if one of these threats entered our country domestically.

Mr. YOUNG of Florida. If the gentleman would continue to yield, that money is available.

Mr. BONILLA. Mr. Speaker, the Secretary could access that, that is correct. If the Secretary or we in this room agreed in a bipartisan way that it was not enough, we could come back and deal with that at the appropriate time.

Mr. YOUNG of Florida. Mr. Speaker, I thank the gentleman for that very revealing information.

Mr. OBEY. Mr. Speaker, I yield 1 minute to the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. Mr. Speaker, I thank the ranking member for the motion to instruct and the time to respond to a crucial provision, and thus insist that no provision to rescind funds from the FEMA Disaster Relief Fund be included in the conference report.

We might think this is a benign instruction, but as we move this supplemental to the floor, many of us have to rise and oppose the rescinding of $329 million, as well as attempting to add more dollars, as the Senate had informed us that FEMA at that time, rather than a billion dollars that was discussed on this floor in their coffers, only had about $178 million.

Mr. Speaker, we are devastated in Houston by Tropical Storm Allison. In my community and the surrounding area alone, 5,000 homes were destroyed. The University of Houston is suffering about $100 million and growing worth of damage; the Medical Center, $2.2 billion and growing; St. Joseph’s Hospital, $60 million; Texas Southern University, another institution of learning, also with damages that are not covered by flood insurance; and many, many people in my community who have not yet filed their FEMA application.

Mr. Speaker, we need more resources. Tropical Storm Allison dumped 36 inches. It was an unpredictable storm. Many people lost their lives, and this is a vital instruction to be able to provide the necessary funds to help those who are still recovering.

Mr. Speaker, I support the motion to instruct.

Mr. YOUNG of Florida. Mr. Speaker, is the gentleman ready to close?

Mr. OBEY. Mr. Speaker, I have only one remaining speaker, me.

Mr. YOUNG of Florida. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I repeat something that I said at the beginning of the debate in opposition to the motion to instruct. On the issue of FEMA, this Congress never ignored the issues of our communities when it came to natural disasters, and I hope that we will never will.

Discussing this floor in to the gentleman from Wisconsin (Mr. OBEY) early in the debate, if he would amend his motion just to deal with FEMA, we would be prepared to accept it, but we are not prepared to accept a motion to instruct that really ties our hands when we go to negotiate with the other body.

One of my colleagues on the other side mentioned Social Security and
Medicare. The only way we would use any money set aside for Social Security and Medicare is if those monies are not control their appetite for spending have their way. We are doing the best we can to hold the line on spending so we do not use any monies from Social Security and Medicare funds. I understand that there are demands for more spending, on not only this issue, but every issue that comes before us. But we have to constrain our appetites for spending by the Federal Government.

An example of what I am talking about, several of my colleagues talked about $389 outstanding payments, worth $31 million, on point number 3 on the motion to instruct. Well, if that is the case, why would we have to go to $84 million if all we need is the $31 million? I use that as an example. We need to work out these figures, work out these disagreements, and come together on them.

All in all, before I yield back my time, and before the gentleman from Wisconsin (Mr. OBEY) closes on his motion, this motion is asking us on the conference committee to cave in to our brothers and sisters in the Senate before we ever go to conference. That is not why we go to conference. We go to conference to work out the differences. If our ability to negotiate is taken away, then the product we bring back may or may not be an acceptable product.

Mr. Speaker, let us dispose of this motion to instruct now. Let us go to conference, do the best we can to represent the interests of the House of Representatives, and bring back a conference report that is really needed. It is late. This supplemental appropriations needs to get passed and sent to the President. Let us get to our job. Let us be fiscally conservative. Let us bring back a conference report on the supplemental that 80 percent or more of the House can agree to.

Mr. Speaker, I yield back the balance of my time.

Mr. Speaker, Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we are asking the House of Representatives today to approve three items which are supported by the Republican administration.

Number one, FEMA. The Director of the Federal Emergency Management Administration tells us we are going to need more money. The OMB Director is quoted in print as saying we will need more money for disaster assistance. Yet this House, without this motion, will be supporting a proposition that cuts from existing funds $389 million for disaster assistance. This issue is not about spending more money, it is about telling the truth about what our spending programs are.

Secondly, the administration has asked for the money to protect us from foot-and-mouth disease and from mad cow disease. The gentleman from Texas said our system works well. “Do not worry, no worry.” Well, I would ask my colleague to recognize what the administration itself has said. “Given the various foreign animal disease outbreaks in other parts of the world this year, USDA has been conducting a top-to-bottom review of its core programs to ensure we have the necessary resources to protect America’s agriculture from devastating animal diseases. These additional funds will help strengthen these important programs. FMD is a highly contagious and economically devastating disease. It is one of the animal diseases that livestock owners dread most because it spreads widely and rapidly, and because it has grave economic consequences.”

The way to save money is to spend it on prevention. You do not wait until the epidemic hits and then try to do something. It is too late. We already have had to destroy virtually every citrus tree in Florida in case of citrus canker from a blight that was not supposed to come into the United States, either. I would say caution ought to be the watchword here.

Lastly, the gentleman says we do not need the $62 million to pay the victims of radiation poisoning. These are people who are dying, at least in part, because of the action of their own government, and they did not know that they were being exposed to danger. I would point out that the Justice Department itself says that we need $92 million this year: not $31 million, $81 million.

Mr. YOUNG of Florida. Mr. Speaker, will the gentleman yield?

Mr. OBEY. I yield to the gentleman from Florida.

Mr. YOUNG of Florida. I was just going by what the speakers on the gentleman’s side said, that it was $31 million that they needed.

Mr. OBEY. With all due respect, I would prefer to go by what we know. We are told by the Republican Justice Department, not us, that we need $81 million. In each of the three cases, what we are asking you to do is to put in what your own administration has said we will need to spend.

This is not about spending levels. It is about truth-in-budgeting. It is about fessing up to what we actually will have to spend in the end. There is no point in hiding from ourselves what the actual costs of these items will be. Every single one of these items has been requested by the administration. Every single one of these items is in the national interest. Every single one of these dollars will have to be spent in the end. We might as well be honest and face up to it now.

Mr. BENTSEN. Mr. Speaker, I rise today to urge my colleagues to support a motion to instruct conference to eliminate the $389 million rescission from FEMA’s Disaster Relief Fund included in the House version that was not included in the Senate version. I went to the Rules Committee and came to this floor in mid-June, not about spending more money, it is not about politics, let us look at the arithmetic. The fund currently has only $583 billion in contingency appropriations which OMB expects to be released soon. The fund also has over $200 million in normal appropriated funds, leaving the Disaster Relief Fund with roughly $800 million. The original funds that the recision had targeted has been spent. The money the House Appropriations Committee thought was available for a recision is now subjected to the unpredictable burden of tropical storm Allison. So far, 85,000 Texans have filed for assistance and FEMA has disbursed well over $300 million, and many sources close to the recovery operation are predicting that federal obligations for recovery will reach $2 billion in Texas alone.

I would like to relate the recent development since we debated this issue in mid-June. The Senate’s version of the bill eliminates the recision and includes an extra $1 million as a placeholder for additional funds. OMB’s latest statements say that more, certainly not less, money will be needed in the Disaster Relief Fund this year. Let me stress this again: the Bush administration says it is “highly likely” to request emergency supplemental funds for the Disaster Relief Fund in 2001. I hope this is so, as a very fiscally conservative administration will convince my colleagues that I was only reacting to nonpartisan arithmetic—there simply was not going to be enough Disaster Relief Fund moneys to pay for repairs in Texas, Louisiana, Mississippi, Florida, and Pennsylvania. The administration recognized the situation back in June, and I am confident that the House Appropriations Committee is well aware of the Disaster Relief Fund situation now. I ask them, in light of the well-publicized financial situation of the fund, to join me in support of this Motion to Instruct Conference.

Damage from tropical storm Allison has been appraised at $4.88 billion in Harris County (Houston), TX. I have heard from the hospitals and medical schools of the Texas Medical Center that damage assessments are $2 billion to state-of-the-art, non-profit health care facilities, 25–30 percent of which is estimated to be covered by insurance. Add this to the fact that over 50,000 Texans in Harris County alone are either in temporary housing or working to make their homes livable again. Given the incredible extent of the damage resulting from tropical storm Allison, the administration is predicting that additional funds will be needed in fiscal year 2001 in addition to the rescission which I urgently hope will be restored.
The vote was taken by electronic device, and there were—yeas 205, nays 219, not voting 9, as follows:

The Appropriations chairman indicated during the debate on the Democrats’ motion to instruct conferees on the supplemental that if it attempted to tie the hands of appropriators as we go to conference. This procedure is a party line vote and has no practical effect on Houston.

We can, should, and will continue to meet our commitment to fiscal responsibility.

Similarly, we can, should, and will continue to put people before politics.

Mr. OBEY. I yield back the balance of my time.

The SPEAKER pro tempore (Mr. LA TOURETTE). Without objection, the previous question is ordered on the motion. There was no objection.

The SPEAKER pro tempore. The question is on the motion to instruct offered by the gentleman from Wisconsin (Mr. OBEY).

Mr. OBEY. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.
CONGRESSIONAL RECORD—HOUSE 13097

Mr. MCNULTY. Mr. Speaker, I move that the House do now adjourn.

The question was taken; and the House resolved itself into the Committee of the Whole House on the state of the Union for the purpose of considering H.R. 2356, Bipartisan Campaign Reform Act of 2001, as agreed to by the Senate.

Mr. REYNOLDS. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 188 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 188

Resolved, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 2(b) of rule X, declare the House resolved into the Committee of the Whole House on the state of the Union for the purpose of consideration of the bill (H.R. 2356) to amend the Federal Election Campaign Act of 1971 to provide bipartisan campaign reform. The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived. General debate shall be confined to the bill and shall not exceed one hour equally divided and controlled by the chairman and ranking minority member of the Committee on House Administration. After general debate the bill shall be considered for amendment under the five-minute rule. The bill shall be considered as ordered printed in the report except those printed in the report of the Committee on Rules accompanying this resolution the Speaker may, pursuant to clause 2(b) of rule X, declare the House resolved into the Committee of the Whole for its immediate consideration.

Mr. DINGELL and Mr. KIRK changed their vote from "aye" to "no."

So the motion to adjourn was rejected. The result of the vote was announced as above recorded.

PROVIDING FOR CONSIDERATION OF H.R. 2356, BIPARTISAN CAMPAIGN REFORM ACT OF 2001

Mr. REYNOLDS. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 188 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 188

Resolved, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 2(b) of rule X, declare the House resolved into the Committee of the Whole House on the state of the Union for the purpose of consideration of the bill (H.R. 2356) to amend the Federal Election Campaign Act of 1971 to provide bipartisan campaign reform. The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived. General debate shall be confined to the bill and shall not exceed one hour equally divided and controlled by the chairman and ranking minority member of the Committee on House Administration. After general debate the bill shall be considered for amendment under the five-minute rule. The bill shall be considered as ordered printed in the report except those printed in the report of the Committee on Rules accompanying this resolution the Speaker may, pursuant to clause 2(b) of rule X, declare the House resolved into the Committee of the Whole for its immediate consideration.

Mr. DINGELL and Mr. KIRK changed their vote from "aye" to "no."

So the motion to adjourn was rejected. The result of the vote was announced as above recorded.

The SPEAKER pro tempore (Mr. LA Tourette). The gentleman from

Mr. DINGELL and Mr. KIRK changed their vote from "aye" to "no."

So the motion to adjourn was rejected. The result of the vote was announced as above recorded.

The SPEAKER pro tempore (Mr. LA Tourette). The gentleman from
New York (Mr. REYNOLDS) is recognized for 1 hour.

Mr. REYNOLDS. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Texas (Mr. FROST), the ranking member of the Committee on Rules, pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

Mr. Speaker, House Resolution 188 is a fair, structured rule that provides for the consideration of H.R. 2356, the Bipartisan Campaign Reform Act of 2001. I would like to point out that this is not an unorthodox rule; rather, this rule is what is known as "regular order."

The rule provides for 1 hour of general debate to be equally divided between the chairman and the ranking minority member of the Committee on House Administration. The rule makes in order 20 amendments that were printed in the report accompanying the resolution. In addition to the full consideration of these amendments, the rule makes in order two substitutes, one offered by the gentleman from California (Mr. DOOLITTLE), which is debatable for 30 minutes, and the other offered by the gentleman from Ohio (Mr. NEY) and the gentleman from Maryland (Mr. WYNN), which is debatable for 60 minutes.

The rule waives all points of order against consideration of the bill, as well as all points of order against the amendments.

After passage of H.R. 2356, the rule provides that it shall be in order to consider in the House Senate 27. It waives all points of order against the Senate bill and against its consideration.

The rule makes in order a motion to strike all after the enacting clause of the Senate bill and insert in lieu thereof of provisions of H.R. 2356 as passed by the House. Furthermore, the rule waives all points of order against the motion to strike and insert. Additionally, the rule provides that if the motion to strike and insert is adopted and the Senate bill, as amended, is passed, it shall be in order to move that the House insist on its amendment and request a conference with the Senate thereon.

Finally, the rule provides one motion to recommit, with or without instructions.

Mr. Speaker, before we begin what is certain to be a very passionate debate, I would first like to commend the gentleman from Illinois (Mr. HASTERT), the Speaker of the House, on his efforts to bring this issue before us today. The Speaker pledged a fair, open, and time-limited debate on both the bill and its amendment. I urge my colleagues to support this rule.

Mr. Speaker, I reserve the balance of my time.

Mr. FROST. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the Republican leadership has brought us a rule that is the height of cynical political maneuvering, and the rule itself is, quite frankly, one of the most stupid proposals I have seen in my 23 years in this institution.

I want to look at the cynical maneuvering, first. We all know that the Republican leadership wants to defeat
Shays-Meehan. There are, of course, Democrats who have some reservations about Shays-Meehan, and their Democratic colleagues believe in fundamental fairness, and that Shays-Meehan should have a clean, legitimate shot on the floor.

The Republican leadership has written a rule that everyone knows may well lose. If we assume that this rule is about cynicism, then what the Republican leadership has done is to present a rule to the House that they know will fail, and then they will refuse to reconvene the Committee on Rules to draft another rule.

They will refuse to schedule campaign finance reform for debate and simply explain it away by saying campaign finance reform is dead because the House refused to pass a rule to bring it up. This is, of course, the equivalent of killing your parents and then throwing yourself on the mercy of the court because you are an orphan.

What is the objective of this rule? Is the objective to lose? Experience is a repeat of a rule that the then Democratic leadership fashioned in 1981 during the debate on the first Reagan budget. In 1981, the Democratic leadership refused to give the Republican alternative, the now infamous Gramm-Latta substitute, a straight up-or-down vote. Rather, the Democratic leadership broke Gramm-Latta into pieces, requiring a series of votes on its provisions, thinking that that was the way to kill it.

Well, surprise, that rule was rejected by the House. Let me repeat, the House rejected that rule as fundamentally unfair to the minority. Now, 20 years later, the Republican leadership has concocted a rule that divides Shays-Meehan into 13 separate amendments.

Sound familiar? Maybe not, because no one in the current Republican leadership was in Congress in 1981. But I find it hard to believe they and their staff can be totally ignorant of history, and that they all have to know that there is a very good chance this rule will be defeated.

Mr. Speaker, one might have to conclude that this is a cynical way to go about achieving their real objective, which is, of course, to kill Shays-Meehan.

Let us look at how incredibly dumb this rule is. It seems to have been written in such a way as to help the strategic objective of killing Shays-Meehan. I would suggest the way this rule is written that it might have the exact opposite effect.

There is a number of Members on both sides of the aisle who have legitimate and sincere concerns about Shays-Meehan. In the event this rule actually passes, the heavy-handed and cynical maneuvering on the part of the Republican leadership may well drive some of the proponents of Shays-Meehan right into the Shays-Meehan camp.

If that is the case, then the Republican leadership will have orchestrated their own defeat, the proverbial snatching of defeat from the jaws of victory.

There are legitimate issues involved in a discussion of the merits of the two main alternatives, Shays-Meehan and Ney-Wynn. I, for one, am concerned that the absolute prohibition in Shays-Meehan on the right of Members of Congress to raise Federal funds for State and local political parties to conduct voter registration and get-out-the-vote activities will weaken the political process and neuter Members of Congress. Members will not be able to play a meaningful role in voter turnout efforts in their home districts, and will become largely irrelevant to their own political parties.

The Ney-Wynn bill does not contain this provision, and it is important for Members to think very carefully about this issue if we get to the point where we might actually vote on the legislation.

However, because of this incredibly dumb rule and the cynical maneuvering on the part of the Republican leadership, we may never get to that point. On the other hand, if this rule is, by some chance, passed, the debate on this issue will be in such a highly charged atmosphere that it may well be impossible to have a rational discussion on the fundamental issues involved. This will be a sad day for the democratic process in this institution and in this country.

Mr. Speaker, this rule should be defeated. The Republican leadership needs to be ashamed into bringing back a new rule that is fair to the House, fair to the proponents of both bills, and fair to the American people.

Mr. Speaker, I reserve the balance of my time.

Mr. REYNOLDS. Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. SESSIONS).

Mr. SESSIONS. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, I have not been in Congress for 22 years, like the gentleman from Texas, but I do know the difference between right and wrong. I think the gentleman from Texas (Mr. Frost) knows the difference between right and wrong.

What I want to emphasize about this rule is that this is an honest up-or-down vote. Yesterday in the Committee on Rules the gentleman from Connecticut (Mr. SHAYS) asked for his bill, and got what he asked for. He received it. That was this bill. We did not gut the bill. We are not putting any amendments against the bill. He gets his bill exactly the way that he said in the Committee on Rules he wanted it. He gets all 12 or 13 amendments.

Where do we come from in Texas, you vote for what you are for and you vote against what you do not like. The fact of the matter is that this is an honest attempt to give our colleagues, who is a Republican, the gentleman from Connecticut (Mr. SHAYS), exactly what he asked for in the Committee on Rules.

We are not hiding anything. We are not making it more difficult. We are simply giving him exactly what he wanted. I have lots of legislation on which I would love to have the same kind of courtesy that we are extending to our colleague.

The fact of the matter is that in the Committee on Rules, it was the Democrats who sit on the Committee on Rules that did the beating up of the gentleman from Connecticut (Mr. SHAYS), that did the beating up of Shays-Meehan. They said that it had virtually no reason to be on the floor of the House of Representatives. It has no reason to take the time that we are spending on it.

The Republican leadership, not only the gentleman from Illinois (Speaker HASTERT) and the gentlemen from Texas, Mr. ARMLEY and Mr. DELAY, but also the gentleman from California (Mr. DREIER), have taken the time to schedule this vote to give the gentleman from Connecticut (Mr. SHAYS) exactly what he asked for yesterday, and to make sure we have a full debate. I think it is not only fair and honest, but it is the right thing to do for our colleagues.

Mr. FROST. Mr. Speaker, I yield 3 minutes to the gentleman from Maryland (Mr. HOYER).

Mr. HOYER. Mr. Speaker, I thank my colleague for yielding time to me.

I am the ranking member of the Committee on House Administration. As such, I participated in the markup of these two pieces of legislation, the Shays-Meehan legislation, which has in the past had 252 votes each time it was offered for passage on the floor of this House, and the Ney-Wynn bill, which is a good bill.

Mr. Speaker, I beg to differ with my friend, the gentleman from Texas (Mr. SESSIONS). At the markup, which was held on June 28, it was my understanding, and I believe the understanding of the gentleman from Connecticut (Mr. SHAYS) and the gentleman from Massachusetts (Mr. MEEHAN), that the gentleman from Ohio (Mr. NEY), the gentleman from Connecticut (Mr. SHAYS), and the gentleman from Massachusetts (Mr. MEEHAN) would have the opportunity, between June 28 and yesterday, to perfect their legislation, to present that perfected legislation to the Committee on Rules, and to have those pieces of legislation, if they wanted, to come to the floor for consideration with such further amendments as others might have.

Mr. Speaker, I believe that was our understanding. I tell my friend, the gentleman from Texas, as a result, I did not offer any amendment. The gentleman from Ohio (Mr. NEY) nor any other Member offered any amendments. Why? Because it was the understanding of all 10 of us, in my opinion,
That was not done. What the gentleman suggests is a fair process is to divide up into 14 different sections the perfections of the gentleman from Connecticut (Mr. SHAYS) and the gentleman from Massachusetts (Mr. MEEHAN) sought, and therefore try to fight each one of those 14 different times.

I frankly think that is not fair. Why is it not fair? Because, as the gentleman from Texas, the ranking member of the Committee on Rules, has put forward, it is a rule which does not comport with what the gentleman from Connecticut (Mr. SHAYS) and the gentleman from Massachusetts (Mr. MEEHAN) want to offer as their base bill.

Mr. REYNOLDS. Mr. Speaker, on the substance of this, the American public in my opinion is very concerned about the amount of money in politics. Rightly or wrongly, and I cast aspersions on no one, I righteously or wrongly, the American public believes that the gargantuan amounts of money that flow into Washington, into State Capitals, into local county seats as political contributions, hard or soft money, and that is a somewhat esoteric distinction that the public does not make, but it is an important one, because one is limited and one is not, they believe this is an important issue. They want to see it considered on its merits, not by procedural dissection, which is essentially what has occurred here.

Mr. REYNOLDS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, there seems to be a little bit of blurry history or rewriting history. I certainly was not here in 1981, as my colleague, the gentleman from Texas (Mr. SESSIONS) was not, either. But as I recall, there was a minority substitute to a majority bill, not the rule affected, that the leadership of that committee and the majority had a victorious day. In those days, the Republicans were the minority.

But when we look at today, I have been here today in both the Committee on House Administration and on the Committee on Rules. It was my understanding that on Wednesday evening, at the insistence of the sponsor of Shays-Meehan that we hold a markup before the July district work period, that was scheduled for Thursday before we left.

On Wednesday at 8 p.m. it was agreed upon by both the gentleman from Ohio (Mr. Ney), who had to produce his bill, and the gentleman from Connecticut (Mr. SHAYS) that he would produce his bill, and at 8 o’clock we would have the bill so the House, the entire House, 435 Members, would have the opportunity to learn what was in both bills.

That was because the Shays-Meehan bill that I knew as a State legislator watching the debate of this great body is now so much different than it was back then.

I am a fan of the 1957 T-Bird. It changed so much in the sixties, when I owned my first T-Bird, and the seventies, in the eighties, and in the nineties, so the T-Bird today that is made reference to no longer looks like the 1957 Thunderbird. So you would have to be clarifying exactly what year of Thunderbird were referring to if you were an admiral.

In Shays-Meehan, this bill before us today is nothing like the Shays-Meehan bill that was constructed years ago and has been debated in this House in previous years. It is substantially different.

On the Committee on Rules, I have the opportunity to see managers’ technical amendments on a frequent occasion. This bill, when we look at what happened when the Committee on Rules, we granted every single request, 12, of the Shays-Meehan bill. Whether they were technical or they were absolute critical changes that were made in the bill that would not be classified a manager’s amendment, we gave it to the Shays-Meehan request.

Just as the Speaker said today, this week, we will have the debate on Shays-Meehan and any other amendments on campaign finance reform. It is here today. So the bill introduced by the gentleman from Connecticut (Mr. SHAYS) and the gentleman from Massachusetts (Mr. MEEHAN) reported by the Committee on House Administration will be debated in its entirety. As a matter of fact, they filed after the deadline, 4 1/2 hours late, these 12 amendments, which were actually put in the rule so they could be debated today in its entirety.

However, when we begin to look at special privileges for any Members, that becomes a political concept of what the Committee on Rules is, in fairness. The gentleman from Connecticut (Mr. SHAYS) said he wanted to divide this up and allow examination of these substantive changes was the right and fair thing to do. So for all of us who have worked so hard to get this bill here today, for everyone who has done so much, no matter where you stand on it, do not kill this rule. Today is the day. Have we not waited long enough?

There is nothing unfair about this rule. And if it is defeated, I hope that this country understands who defeated it.

Mr. FROST. Mr. Speaker, I yield 1 minute to the gentleman from Florida (Mr. HASTINGS), a member of the committee.

Mr. HASTINGS of Florida. Mr. Speaker, I thank the gentleman for yielding me this time. It will be very clear that it will be the Republican majority that defeats the rule, if it does go down.

Mr. Speaker, I rise today to oppose this silly rule. This rule provides the American people with a limited opportunity to debate this important issue. It is a rule that was written by the Republican leadership that fears the will
of the American people to have an open and honest debate on campaign finance reform.

If we are to maintain this institution's reputation as a representative body, then it is imperative that the American people have an opportunity to freely debate this issue here on the floor of the House. It appears the gentleman from New York (Mr. REYNOLDS) does not understand that when this bill is chopped up like it is, it will not have an up or a down vote, which I assure my colleagues, he is not in favor of.

Mr. Speaker, I have another problem with today's debate. I want to know why we are even talking about campaign finance reform before we are talking about election reform. I would think that after last year's travesty of an election, in which it was discovered that 80 percent of America that had wide rights to vote stripped from them, Congress would have acted by now.

Mr. REYNOLDS. Mr. Speaker, I yield 2 minutes to the gentleman from Florida (Mr. KELLER).

Mr. KELLER. Mr. Speaker, I thank the gentleman for yielding me this time, and I rise today in support of the rule as well as in strong support of the need for a paycheck protection provision to the campaign finance reform bill, and I will tell my colleagues why.

Banning soft money to the parties does not take the money out of politics, it only takes the money out of the parties. For example, currently a union such as the AFL-CIO can give $1 million to the Democratic party. The Democratic party will then turn around and run attack ads against Republicans like me that say, "Call Rick Keller and ask him why he is a bad guy." And in the soft money to the party, we will see the exact same TV attack ad on the air. The only difference will be the little disclaimer at the bottom of the screen which will now say, "Paid for by AFL-CIO," as opposed to, "Paid for by the Democratic party."

Any attempts to ban these ads 60 days before an election is blatantly unconstitutional. That is why to be fair and balanced we must also couple the ban on soft money with a paycheck protection provision to the campaign finance reform bill, and I will tell my colleagues why.

I urge my colleagues to support genuine reform; that they not be afraid of the financial process. Restore integrity to our political process, restore America's faith in its political process. Defeat this rule. Support a clean vote on campaign finance reform.

Mr. REYNOLDS. Mr. Speaker, I yield myself such time as I may consume.

I have the unofficial comments made by my colleague, the gentleman from Connecticut (Mr. SHAYS), last night in the Committee on Rules, which I would like to just share with the House as we look at the rule, the debate of the rule, with the balance of the time we have left.

The gentleman from Connecticut (Mr. SHAYS) said: "I just want people to have a fair and open debate on this process. Even if it disadvantage us if we have 200 amendments to go after our bill, I have always believed that the debate is healthy. I have always taken the position that we could be the substitute or the base bill, as long as ultimately you amend whatever is the base bill.

"Obviously, if you take up the Ney bill and he takes us down, we lost. And then you amend the Ney bill. If we survive, then we amend our bill. I have always taken the basic view.

"A vote for the Ney bill is a vote against our bill. And if he is the base bill and we replace him, then we amend our bill. I have always made that assumption."

"This manager's amendment, as I referred to it, I reluctantly call it the manager's amendment, it sounds ostentatious. I am not sure I feel like a manager. But this is an amendment that gets our bill in a form that we are most comfortable defending. And so obviously we like it. Some people have said you might like to divide them up into pieces; however, you decide."

Mr. Speaker, I reserve the balance of my time.

Mr. FROST. Mr. Speaker, I yield 3 minutes to the gentleman from Massachusetts (Mr. MEEHAN).

Mr. MEEHAN. Mr. Speaker, what we are talking about generally is about technicalities, though there is a manager's amendment that we should have been able to offer and, in fact, we will be able to offer, because this rule is going down if we do not get an up or down vote on campaign finance reform.

But what this really is about are technicalities designed to kill a bill to end this soft money abuse. The United States Senate, in a historic vote, voted for a bill we have been working to pass in conference with the other body. We have negotiated over a period of time and had a final product at 12 o'clock midnight on Tuesday. The Committee on Rules did not meet until Wednesday, sometime around 3 o'clock. We should have had the opportunity to present to the committee and have an up or down vote on the bill that we agreed to. But technicalities were being used to try to defeat campaign finance reform.

There is a strong feel across America these unlimited amounts of money have to be curtailed. We cannot get a patient's bill of rights passed in this body because of the influence of soft money. We cannot get Medicare prescription drug coverage for seniors because $15.7 million in soft money are gumming up the works. It becomes difficult to get legislation passed to protect our environment when continually soft money has played a role in killing that legislation.

So my colleagues can talk all the technicalities that they want. The fact of the matter is, my colleagues will either give us an en bloc amendment or defeat the bill. The American people want a vote on Shays-Meehan, and they want that bill to be similar enough to the bill passed in the other body so that we can avoid a conference committee, where legislation to reform our campaign finance laws have historically died, where the Patient's Bill of Rights died, where reasonable gun safety measures to protect America's children have died.
We want to avoid that conference committee. So we have preconferred this bill in an effort to build on the progress that was made in the other body, in an effort to work with Members in a bipartisan way in this body, Republican Members who are willing to take on this issue in a leadership role and a bulk of the Democratic party, to see to it we end this abuse of the other money system. It is inexorable to continue to fund political campaigns through unlimited amounts of money.

I believe tonight, as soon as my colleagues acquiesce on this rule, we will be ready to begin that historic debate.

Mr. REYNOLDS. Mr. Speaker, I yield myself such time as I may consume to comment that I am glad my colleague, the gentleman from Massachusetts (Mr. GERRY), addressed the group in the House today, because he was not at the Committee on Rules to present his case before us as we deliberated over the rule.

Mr. Speaker, I yield such time as he may consume to the gentleman from Texas (Mr. ARMLEY), the majority leader.

Mr. ARMLEY. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, this has been a very difficult couple of days. I have been working with the gentleman from Connecticut (Mr. SHAYS) on this matter for some time ago. Two weeks ago the gentleman from Connecticut, speaking on behalf of himself and his cosponsors, came to me and requested that they be given a fair shake on this, that they get a chance to have their bill heard and have it heard in a timely fashion. We have worked on that. Today is the time that the gentleman from Connecticut and others have agreed to.

The gentleman from Connecticut came to me and said, I do not want anybody to rewrite the rule against me. I want to make sure it is a fair competition between my bill, which over 2 weeks ago he informed me was written. In fact, the gentleman came to me and exercised his frustration and impatience that the bill that the committee would put up was not yet written when his was already written and ready to go, and would I protect his bill so that he could have a straight up and down bill, as his bill was, and was written and was ready to go at least 2 weeks ago. We assured him that that would happen.

He subsequently came back and said I want my bill as a base bill, not the committee’s mark on as the base bill and have mine as a substitute. I want mine as the base bill, and let the committee’s be a substitute. We agreed. We wanted to be fair. We gave him that special consideration. So his bill is the base bill.

And, now, in the last few days, he has come before us and he said I want to amend my bill, and I have a demand that I have my amendment in the way I would like it. And he said, I have 14 different things I would like to do with this bill: 14 different amendments to this bill. Six of the 14 are provisions to strike all together provisions in his bill that was ready to go 2 weeks ago. Six provisions to strike.

Now, what does he want to strike? Are those provisions? I think we ought to talk about it. Three of those were to clarify provisions that he had in his bill, that was ready to go 2 weeks ago. Let us go with it. But now we need time, in this 11th hour, to clarify. What are those three clarifications? What do they mean?

I think we ought to know about that. Here is one, for example. What does this mean? It says he has one amendment that would increase the aggregate limit on individual contributions to $35,000 per cycle, including not more than $37,500 to any one candidate, and reserving $20,000 per cycle for the national party committees.

Is that soft money, or is that hard money? What individuals are we talking about? I think we ought to talk about that amendment.

Our complaint is that I do not get these 14 amendments. Incidentally, I might mention, Mr. Speaker, 145 amendments were submitted to the Committee on Rules. The Committee on Rules accepted 20 amendments. Fourteen of the 20 amendments that were accepted were amendments of the gentleman from Connecticut (Mr. SHAYS). Here is a fellow who has gotten his bill that just 2 weeks ago was ready to go as the base bill, and now he needs 14 amendments.

When was the last time we saw anybody in this House come to the House with their bill and need 14 amendments to their own bill, 14 separate amendments to their bill? Also, if I do not get them, I am not being treated fair. I am a little concerned about that concept of fairness. Fourteen of the 20 were given to the author of the bill himself, to amend his own bill, that just 2 weeks ago was ready to go as the base bill, and now he needs 14 amendments.

What we have is a person who got the bill on the floor when he wanted it on the floor, got the bill that he wrote that was ready to go as the base bill ahead of consideration of the committee’s bill, who has been given the opportunity to have 14 out of the 20 amendments made available to amend his own bill on the floor, who is now complaining that we are not being fair with this Committee on Rules.

What more could the Rules Committee have done? Who else got that much consideration on any bill at any time? It is not fair.

Then further, not being satisfied to just complain that the Committee on Rules is an unfair committee of our colleagues, we have an attack on the Speaker himself from the New York Times.

The New York Times that knows very well their institutional influence over elections will be enhanced by the Shays-Meehan version of the bill more so than the committee mark. The New York Times says the Speaker balkanizes a bill he opposes against the sponsors’ wishes, and he calls it an arrogant abuse of power.

The Speaker has put the bill that was ready to go 2 weeks ago through the Rules Committee on the floor as a base bill. The Speaker has said we are going to allow 20 people to offer 20 amendments to that bill in a timely, orderly fashion. Fourteen of the 20 amendments are given to the author of the bill himself, Mr. Speaker, let me spare myself this embarrassment. I pledge to you right now, should at any time ever in the future of my service in the Congress of the United States I have the honor and the privilege of having the Committee on Rules make my bill in order as the bill, should have the committee’s bill, I will not embarrass myself by asking for 16 amendments to rewrite my bill, and further insist that the 16 amendments be made together as one lump sum amendment, not to be examined, not to be dissected, not to be understood, not to be debated, but just an ad hoc rewrite at the moment on the floor.

I will try to the very best of my ability, when I say my bill is ready to go, to be satisfied, to have my bill ready to go and not need to amend it with 16 amendments.

To further save myself the embarrassment, Mr. Speaker, I pledge right now that should at any time ever in the future of my life as a legislator I have a Committee on Rules that is generous enough to give me, out of 145 requests, 14 of the 20 requests that are honored as amendments to my own bill, I will save myself the indignity of protesting the unfairness of it all.

Let me say to the New York Times, give me a break. What more do they want in the name of fairness?

Here is the deal. We have those people in the Senate, who have decided that their bill does not need to be subjected to a normal legislative process, which is to be conferred with a similar bill from the House, that which happens with virtually every piece of legislation ever legislated in the history of this body, a normal conference process, that believes that they will be cheated if they do not get their exact Senate bill passed in the House.

That is unreasonable, uninformd and arrogant. To say that I am being subjected to unfairness when I am asked to go through a normal legislative process is arrogant.
Mr. Speaker, this Committee on Rules is a decent, honorable committee. They have been fair and just. They have been considerate. The Speaker is a decent, honorable man, who has bent over backwards to be generous to the advocates of the Shays-Meehan bill. He does not deserve this kind of diatribe. I regret there are people in our body who are so small and just.

Mr. FORD. Mr. Speaker, will the gentleman yield?

Mr. ARMEY. I yield to the gentleman from Tennessee.

Mr. FORD. Mr. Speaker, am I correct that the gentleman from Texas, speaking on behalf of the Speaker, is in support of Shays-Meehan; or is the gentleman against Shays-Meehan?

Mr. ARMEY. Mr. Speaker, I am in support of responsible campaign finance reform that does respect the first amendment rights of the American people and does not trespass against freedom of speech; and I am not confident that Shays-Meehan is done as well as the committee mark. But I do believe they care about our Constitution, and they care about the campaign process.

Mr. Speaker, my constituents and people all over this Nation want campaign finance reform like the Shays-Meehan bill that will take big money out of the process. And like all people, they want young people in particular to feel that they belong to the process, that they want to be involved, that they are proud to be voters, that they are proud to be part of the democratic process.

The people I represent in Marin and Sonoma Counties know that our democracy depends on getting everybody involved in our electoral system. We must defeat this bill so we can start over.

Mr. REYNOLDS. Mr. Speaker, I reserve the balance of my time.

Mr. FROST. Mr. Speaker, I yield 1 minute to the gentleman from California (Mr. ROEMER).

Mr. ROEMER. Mr. Speaker, today we have an extremely important vote for this body, a vote that counts instead of a vote that can be passed off and characterized as it does not make a difference.

Today papers all across the country screamed that the Republican Party raises record amounts of money, and the party committee raises record amounts of money. All this big money hurts the little person. It hurts the little person’s voice to be able to participate in this election process.

Mr. Speaker, I would hope that we would defeat this rule as written because this rule not only dissects and bisects the Shays-Meehan language that should have been a manager’s amendment to perfect this bill, but it is an unfair rule. Republicans and Democrats should bring this rule down so we can get legitimate debate on the other matters.

Mr. Speaker, the House centrist coalition of five Democrats and five Republicans strongly supports Shays-Meehan; I hope we vote for that bill at the end of the day.

Mr. REYNOLDS. Mr. Speaker, I yield 30 seconds to the gentleman from California (Mr. HORN).

Mr. HORN. Mr. Speaker, if we are serious about campaign finance reform, this is our one chance. Some of the party leaders in both parties do not want reform, and I think we have seen examples of it during this debate. They do not want reform. They would be lighted for us to turn down the rule. That is exactly what they are waiting for.

Mr. Speaker, I have been a longtime helper with Shays-Meehan, and the money providers who work for each party is what some of these party people are simply working on.

Vote for the rule. It is the one chance we have to make real reform happen. Those who do not vote for this rule will play right into the hands of those who want no reform. I urge my colleagues to vote for this rule.

Mr. FROST. Mr. Speaker, I yield 1 minute to the gentlewoman from California (Ms. WOOLSEY).

Ms. WOOLSEY. Mr. Speaker, I stand in strong opposition to this rule. In fact, it amazes me that we would even consider such a convoluted attempt to sabotage true campaign finance reform.

Mr. Speaker, I represent a district that has an 83 to 85 percent voter turn-out. So my colleagues know that the people I work for care very much about our Nation, our Constitution, and they care about the campaign process.

Mr. Speaker, my constituents and people all over this Nation want campaign finance reform like the Shays-Meehan bill that will take big money out of the process. And like all people, they want young people in particular to feel that they belong to the process, that they want to be involved, that they are proud to be voters, that they are proud to be part of the democratic process.

The people I represent in Marin and Sonoma Counties know that our democracy depends on getting everybody involved in our electoral system. We must defeat this bill so we can start over.

Mr. REYNOLDS. Mr. Speaker, I reserve the balance of my time.

Mr. FROST. Mr. Speaker, I yield 1 minute to the gentleman from California (Mr. CAPPS).

Mrs. CAPPS. Mr. Speaker, when I first came to this House in a special election 3 years ago, my first official act after being sworn in was to sign on to the Shays-Meehan bill. It was one of the proudest moments of my career. Today is one of the darkest days I have ever experienced in this Chamber.

Mr. Speaker, this rule, passed in the dead of night, is unfair. It is undemocratic. It is a cynical parliamentary ploy aimed at stopping a straight up-or-down vote on the Shays-Meehan bill as a whole.

The American people will not stand for this. They want to see democracy restored. They want us to reform a campaign finance system that is awash in unregulated soft money and dominated by special interests.

Mr. Speaker, let us defeat this rule and have a fair and honest debate on the merits of the Shays-Meehan bill.

By defeating the rule we can reassure all Americans that our cherished democracy is not for sale.

Mr. FROST. Mr. Speaker, I yield 1 minute to the gentlewoman from California (Ms. ESHEL).

Ms. ESHEL. Mr. Speaker, rarely are there times that one vote can fundamentally turn the tide of political history. I think today is such a moment. Our generation of political leadership can shape a new future, a future which will be free from the influence of unregulated and unlimited contributions.

Mr. Speaker, I think that we must make it a relic of the past where every issue we consider and every issue we ignore, from health care reform to energy policy, is determined by the clout of one special interest or another, and where our elections become more a marionette than a Legislature.

Mr. Speaker, is it any wonder that less than half of the people of our Nation turn out on election days? Weak substitutes allowing soft money and third-party advertising to continue will only foster a disconnect between the people and those who represent them.

I do not like the push to raise the limits for hard dollars because I think this debate is about limiting the influence of money and politics and not increasing it. But this issue is larger than what my concerns are. We should go back to what our Founders both dreamed about and built when they founded the greatest democracy in the history of the world. We should reform the system. We should defeat this rule, and we should adopt real, meaningful campaign finance reform.
(Mr. MEEHAN) and the gentleman from Connecticut (Mr. SHAYS), went before the committee somehow or another surprised him.

This is the same United States Congress that kept us here until 4 in the morning to vote on a $3.1 trillion budget, in the wee hours of the morning; the same United States Congress that kept us here until 7 in the morning to vote on a budget. Shame on you, Mr. Leader. Thank you, New York Times.

We ought to be thankful that Shays-Meehan will eventually get an up or down vote and will eventually ban soft money. Mr. Leader, bring the ball back. Let the rest of us play. You have a bad bill, but America wants meaningful campaign finance reform.

Mr. FROST. Mr. Speaker, I yield 2 minutes to the gentlewoman from California (Ms. PELOSI).

Ms. PELOSI. I thank the gentleman for yielding me this time.

Mr. Speaker, every person in this body takes an oath of office to protect and defend the Constitution of the United States from all enemies, foreign and domestic. There is no greater enemy to our Constitution, indeed to our democracy, than the role of money in the political process today. Those of us who take this oath of office to serve in Congress serve in Washington, D.C., a city that was built on a swamp. Two centuries later, it is back to being a swamp as political swamp.

Today, we have the opportunity to drain the swamp and change the political landscape of political fund-raising in our country. We have an opportunity to empower the people. How many people have been turned off by the political process because of the role of big money? How many people fear that the Speaker’s gavel is an auctioneer’s gavel, not the gavel of the people? How many people decide not to run for office because of role money plays?

Today, we have an opportunity to send a message to the American people that their role in the political process is important, in supporting candidates or in being candidates. We have an opportunity to clean up our act. And indeed we have a responsibility to do so.

I have great confidence that if we pass the Shays-Meehan bill and when we pass the Shays-Meehan bill, we will clear the way for a new way in America in terms of political involvement. We have the creativity, we have the experience, we have the issues, we have the interest on the part of the American people which will be reawakened to involve them more fully in a government of the people, by the people, and for the people.

I urge my colleagues to take advantage of this historic opportunity and support Shays-Meehan.

Mr. FROST. Mr. Speaker, I yield 1 minute to the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. Mr. Speaker, I thank the gentleman very much for yielding me this time. My applause is to Shays-Meehan and to Ney and Wynn for engaging us in a debate of the role money plays?

I am embarrassed. I am embarrassed that we would take the Shays-Meehan legislative initiative as we would take any other and totally impede it so that a reasonable debate could not be had up or down on this legislative initiative.

I am reminded of the telling of such an act some years ago when we were in the majority and we decided to play politics with a budget bill. It was wrong and we lost on the rule. So I stand here today saying, I am disappointed that the amendments that I had that this empowerment, ensuring that ethnic and racial minorities would be empowered to do voter registration and outreach were denied. But I am more embarrassed and I am outraged that we would not give the Shays-Meehan legislation an up or down vote. Let us decide to give us this long list of fingers, so confusion will abound and the Founding Fathers’ belief in democracy will be extinguished.

We need to defeat this rule so that we can have a fair and democratic process to debate this like our Founding Fathers and I know our Mothers would have wanted us to do.

Mr. Speaker, I rise in opposition to the rule. The purpose of campaign finance reform is to make federal election financing fair and balanced for all candidates. This is something we all agree with, regardless of party. I find it extremely troubling that the Rules Committee would report out a structured rule designed to limit and confuse meaningful debate on H.R. 2356, the “Bipartisan Campaign Finance Act of 2001.”

Mr. Speaker, this rule is simply not in the spirit of bipartisan cooperation. Campaign Finance reform is an important issue for the future health of our country. Every person in America will be affected by the debate we hold today. It is a travesty of good government to prohibit an up or down vote on this piece of legislation. By limiting debate on H.R. 2356 to a technical discussion of individual portions of the bill, the Rules Committee has made it virtually impossible to debate the magnitude of the decision we make here today.

Mr. Speaker, I am also disappointed in the committee’s decision to offer a narrow slate of poison pill amendments for debate. I offered three debates in the spirit of inclusion and good government. The first might have helped this legislation to avoid a constitutional challenge by allowing constituent groups the right to speak with their elected leaders. The second might have allowed for more detailed information on campaign finance reform by tracking its effect on all communities in the United States. The third would have committed this body toward fair and equal participation for all in elections. Rather than consider these proposals, the leadership has stifled considerable debate by reporting a rule designed to push their agenda through without regard to the will of the American people once again.

Mr. Speaker, the United States has reached a crucial point in its history. We could have discussed meaningful amendments that would protect the voices of all Americans. The Rules Committee should have paid attention to both the ancient and recent history of this Nation. Equal access to the right to vote has been a constant struggle within the United States, and until we take seriously the right of every citizen to participate in the political process by developing a campaign finance structure that promotes election reform for all Americans, this country will suffer.

I am disappointed. The American people will be, too. I oppose this rule.

Mr. FROST. Mr. Speaker, I yield 1 minute to the gentlewoman from New York (Mrs. MALONEY).

Mrs. MALONEY of New York. Mr. Speaker, today we are talking about an issue that over 250 Members of this House have voted for twice and passed in the past. A similar bill already passed the Senate in April. The leadership of this House promised supporters of campaign finance reform a straight up or down vote on Shays-Meehan, a bill so similar to the Senate version that a conference committee was not required, and we know that the conference committee has been the graveyard for campaign finance reform. I guess the leadership felt they could not win on the merits, so they had to manipulate the process to shortchange the American people once again.

Let us show the American people that our government is not for sale. Let us show the American people that we support elections, not auctions to the highest bidder. Let us vote against this undemocratic rule. Let us bring it down so that we can bring Shays-Meehan to the floor for an up or down vote and send it to the Senate so a conference committee is not required, the President can sign it, and we can finally pass meaningful reform.

Mr. FROST. Mr. Speaker, I yield 1 minute to the gentlewoman from Michigan (Ms. RIVERS).

Ms. RIVERS. Mr. Speaker, I rise against this rule, and I raise my voice in support of a straight up or down vote on Shays-Meehan.

The Supreme Court of the United States has laid out very clearly for all of us the role that Congress can play in regulating elections in this country. They have told us that Congress can prohibit the use of corporate treasury funds and union dues money in Federal elections. They have told us that we may limit contributions to candidates, parties and political committees; that we can pass laws that eliminate actual corruption and the appearance of corruption in the operation of the Federal Government; that we can require disclosure of the source and size of certain
kinds of spending and most contributions; and that we can regulate coordinated expenditures to thwart attempts to corrupt the existing election law. That is what the Supreme Court has already said.

Shays-Meehan does no more than what the Supreme Court has already endorsed, and it does no more than what is right. I urge Members to vote against this rule and support Shays-Meehan.

Mr. FROST. Mr. Speaker, I yield 1 minute to the gentleman from California (Mr. SCHIFF).

Mr. SCHIFF. Mr. Speaker, I thank the gentleman for yielding me this time. I rise in opposition to the rule, a rule that in effect takes Shays-Meehan and cuts it into 14 little pieces, a rule that says to the supporters of Shays-Meehan, if you vote for it once, we are going to put you to the test of voting for it 14 times.

Why is this being offered over the opposition of both Shays and Meehan? Very simply for this reason, the opposition of Shays and Meehan cannot defeat Shays-Meehan in an up or down vote. The only way they can defeat this legislation is if they can obfuscate; if they can make it ambiguous, unclear; if they can conceal to the American people whether they are really for it or against it.

The American people not only have the right to an up or down vote to end soft money and its corrupting influence on the political process, they have the right to the accountability that comes with a clear and unequivocal vote up or down on campaign finance reform. That is what is being denied with this rule. That is why we must reject this rule, so that the American people can have a clear and unequivocal vote for or against campaign finance reform.

I urge a “no” vote.

Mr. FROST. Mr. Speaker, I yield 1 minute to the gentlewoman from Ohio (Mrs. JONES).

Mrs. JONES of Ohio. Mr. Speaker, to my colleagues, I stand in opposition to this rule. As a second-term Member of Congress, legislation was quite new to me in my first term. What I am seeing happening today is the inability of a legislator with good intention to offer a campaign finance reform bill who after having had a chance to speak with his or her colleagues, saying, Well, maybe that’s a good idea. Maybe I should suggest an amendment or a change. Yes, there are 14. There probably could be 25 amendments that would be offered by colleagues to try and make this a better bill.

I must say very truthfully, I am still torn about how we do campaign finance reform. I support campaign finance reform because I know it is good for all the people of our country. How we get to it seems to be a difficult question. And I say to Mr. Leader and to others here on the floor, let us take some time. The Senate dedicated 2 weeks. Why do we only get 1 day?

Mr. FROST. Mr. Speaker, I yield myself 1 minute.

This is kind of an extraordinary situation we now find ourselves in on the floor. I would like to reiterate something I said at the beginning of this debate. This is a very peculiar result. The Republican leadership has crafted such an unfair and unusual rule that it may have the exact opposite effect of what the Republican leadership intended. They are trying to defeat Shays-Meehan, but they have written such a terrible rule that they may in fact drive some of the opponents of Shays-Meehan into the Shays-Meehan camp. It is a very interesting result.

Mr. Speaker, I yield the balance of my time to the gentleman from Missouri (Mr. GEHRARDT), the Democratic leader.

Mr. GEHRARDT. Mr. Speaker, I hope we can still have a rule today that is fair and seen as fair by Members on both sides of the aisle. This issue is a bipartisan issue. If you want to defeat Shays-Meehan, but you have written such a terrible rule that you may actually defeat Shays-Meehan, you cannot defeat Shays-Meehan, but they have written such a terrible rule that may in fact drive some of the opponents of Shays-Meehan into the Shays-Meehan camp. It is a very interesting result.

Mr. Speaker, I yield the balance of my time to the gentleman from Missouri (Mr. GEHRARDT), the Democratic leader.

Mr. Speaker, I yield the balance of my time to the gentleman from Missouri (Mr. GEHRARDT), the Democratic leader.

Mr. GEHRARDT. Mr. Speaker, I hope we can still have a rule today that is fair and seen as fair by Members on both sides of the aisle. This issue is a bipartisan issue. If you want to defeat Shays-Meehan, but you have written such a terrible rule that may in fact drive some of the opponents of Shays-Meehan into the Shays-Meehan camp. It is a very interesting result.
Mr. FROST. Mr. Speaker, continuing to reserve my right to object, I would ask a question, if I may, and I see that the chairman of the Committee on Rules is on his feet. I would ask the chairman, is it the intention of the majority side to seek a change in the rule at this point to amend the rule at this point?

Mr. DREIER. Mr. Speaker, will the gentleman yield under his reservation?

Mr. FROST. I yield to the gentleman from California.

Mr. DREIER. Mr. Speaker, I thank my friend, the gentleman from Texas (Mr. FROST) for yielding.

Mr. Speaker, let me say it is obvious that we are very much, in a bipartisan way, want to move ahead with campaign finance reform. My friend and I discussed this late last night in the Committee on Rules, and we fashioned a rule and it is quite possible that we could, as we have discussed with the side of the gentleman, propose a modification to the rule. As we work on that unanimous consent request which has just been presented by the gentleman from New York (Mr. REYNOLDS), it is so that we might continue an interesting discussion on the issue of campaign finance reform and, during that time, ensure that we have a package put into place that will allow us to proceed with a fair and vigorous debate throughout the rest of the afternoon and evening.

Mr. FROST. Mr. Speaker, further reserving the right to object, I would ask the gentleman, is this discussion about changes in the rule only occurring on your side of the aisle or are there any Members on our side of the aisle who are being consulted about potential changes in the rule?

Mr. DREIER. Mr. Speaker, at this juncture, I will say that I know that there are consultations that have gone on in a bipartisan way.

Mr. REYNOLDS. I think there are conversations going on everywhere.

The SPEAKER pro tempore. The time is controlled by the gentleman from Texas (Mr. FROST) under his reservation of objection.

Mr. FROST. Mr. Speaker, I yield to the gentleman from Maryland (Mr. HOYER), the ranking member of the Committee on Rules.

Mr. HOYER. Mr. Speaker, I thank the gentleman from Texas (Mr. FROST) for yielding me this time.

Mr. REYNOLDS. Mr. Speaker, I move for a call of the House.

The SPEAKER pro tempore. Without objection, a call of the House is ordered.

Mr. HOYER. Mr. Speaker, I do not believe the gentleman had the floor. He did not have the floor.

Mr. FROST. Mr. Speaker, I believe that I had the floor. I do not believe the other gentleman is recognized.

The SPEAKER pro tempore. Does the gentleman from New York (Mr. REYNOLDS) withdraw his unanimous consent request?

Mr. REYNOLDS. Mr. Speaker, I withdraw my unanimous consent request.

CALL OF THE HOUSE

Mr. REYNOLDS. Mr. Speaker, I move a call of the House.

The call was taken by electronic device, and the following Members responded to their names:

{[Roll No. 227]}

Mr. REYNOLDS. Mr. Speaker, I move a call of the House. The call was taken by electronic device, and the following Members responded to their names:

{[Roll No. 227]}

The SPEAKER pro tempore. Does the gentleman from New York (Mr. REYNOLDS) withdraw his unanimous consent request?

Mr. REYNOLDS. Mr. Speaker, I withdraw my unanimous consent request.

The call was taken by electronic device, and the following Members responded to their names:

{[Roll No. 227]}

The SPEAKER pro tempore (Mr. COBLE). The call of the House is dispensed with. Shays-Meehan, along with the 14 executive sessions and votes, are dispensed with.

July 12, 2001

The SPEAKER pro tempore (Mr. LATOURETTE). On this rollcall, 422 Members have recorded their presence by electronic device, a quorum.

Under the rule, further proceedings under the call are dispensed with.

PROVIDING FOR CONSIDERATION OF H.R. 2356, BIPARTISAN CAMPAIGN REFORM ACT OF 2001

The SPEAKER pro tempore. The gentleman from New York (Mr. REYNOLDS) has 1 minute remaining on debate on the rule.

Mr. REYNOLDS. Mr. Speaker, I yield myself to the balance of my time.

Mr. Speaker, the time is here. We are going to have a vote on this rule. This is a fair rule. It allows for full debate on Shays-Meehan, along with the 14
changes the gentleman from Connecticut (Mr. SHAYS) and the gentle-
men from Massachusetts (Mr. MEEHAN) to their own bills. It pro-
vides an opportunity for an amend-
ment of the Ney-Wynn bill, the DoO-
little bill and the Linder bill, along
with numerous other amendments of
Members who appeared before the Com-
mmittee on Unfinished Business.

It is a fair rule, one that allows for
a full, balanced debate on this very im-
portant legislation. This will bring
about, once and for all, a great debate,
a debate that the entire House can par-
cipate in. The rule that is provided be-
fore us, if it is voted up, we have the
debate; if it is voted down, it is for
those who opposed it to live for an-
other day to demagogue it, rather than
take on it.

Mr. UDALL of New Mexico. Mr. Speaker,
the 2000 presidential election may well be
remembered for “hanging chads” and other evi-
dence of the imperfections in our electoral
system. The right to vote is our most precious
freedom. We cannot afford to have a repeat of
last fall’s election process.

The 2000 presidential election, therefore,
should direct our attention once again to the
need for campaign and electoral reform. Both
political parties are motivated to address the
issue in this 107th session of the Congress. I
have already cosponsored legislation to pro-
vide states with the tools they need to ensure
uniformity and improve voter accuracy and ac-
cess. We must be careful, however, not to let
our efforts to achieve voting reform mask the
critical problem with our electoral process—the
uncontrolled and pernicious influence of big
money on the outcome of our elections. So,
today, I rise in strong support of the Shays-
Meehan legislation, which will help fix many
of our system’s problems.

It is time for Congress to enact campaign fi-
nance reform because quite frankly, Mr. Speaker,
such a federal campaign finance system is
broken. Last year, both parties spent un-
pardoned amounts in soft money for a new
record in the campaigns for control of the
White House and Congress.

New Mexicans—like all Americans—are jus-
tifiedly appalled by the fact that the amount of
money spent in elections has increased expon-
tentially with no end in sight. The Democratic
and Republican national party committees
raised a record $463 million in soft money from
January 1, 1999 through December 31, 2000,
according to a Common Cause analysis
released in February. The amount raised dur-
ing this past election cycle was nearly double
the $235.9 million raised during the 1995–
1996 election cycle. We must take action now.

In the 106th Congress, and again in the
107th, I was elected by my colleagues to take
a leadership role on the issue of campaign fi-
nance reform in the House of Representatives.
In September 1999, I helped floor manage
the House’s passage of the Shays-Meehan legis-
lation which would have closed some of the
worst campaign finance laws. However, this bill
never became law because of the opposition of a single Senator.

In spite of this setback, a bipartisan group,
led by JOHN MCAIN and RUSSELL FEINGOLD,
have passed their legislation in the other body.
It is my hope that, this year, the House will fol-
low suit, and pass meaningful campaign fi-
nance reform legislation and that the President
will sign it into law.

Current law authorizes contributions by indi-
viduals of up to $1,000 per candidate per elec-
tion and up to $5,000 per Political Action
Committee (PAC) per election. Corporations
and unions are prohibited from making any
contributions to candidates or their campaigns.

Nevertheless, individuals, unions, and cor-
porations give contributions of hundreds of
thousands of dollars, indeed, millions to cam-
paigns as so-called “soft” money to the polit-
cal parties themselves. The soft money loophole
is based on the fiction that a contribution to
the Democratic party or the Republican
party is different in reality from a contribution to
the party’s candidates. It is fiction because
parties spend most of the contributions on tele-
vision campaigns and those campaigns have
one goal—electing candidates. Banning un-
regulated, unlimited contributions to parties is
the core of campaign finance reform.

Campaign finance reform is vital to every
other piece of legislation that Congress con-
siders. From the need for a patient bill of
rights to the acute need for a com-
prehensive national energy policy, to the need
for a Medicare prescription drug benefit to
education reform, the people’s voices should be
heard and not drowned out by big money.

Vested interests have too often been able to
exert influence in Congress and White House
through the soft money loophole.

Mr. Speaker, campaign finance reform is the
most important step Congress can take to re-
store citizens’ belief in our democratic proc-
cess. What better motivation for reform than the
egregious excesses of the 2000 election—
both in voter access and in campaign con-
tributions? We must act before the 2002 elec-
tion, before the abuses of the electoral proc-
ess have so distorted the democratic ideal that
we are no longer truly a “government of
the people, by the people and for the people.”

I urge my colleagues to vote for this bill.
The time is now for real campaign finance re-
form. Passage of the Shays-Meehan legisla-
tion is the only true way to achieve that goal.

Mr. BALDACCI. Mr. Speaker, I am outraged by the unprecedented rule that has been de-
veloped for consideration of the Shays-Mee-
han campaign finance reform legislation. I
have never before seen a rule that divides a
Manager’s Amendment into 14 separate provi-
sions and requires each of them to be passed
individually. The Republican Leadership has
really outdone themselves this time in finding
new and creative ways to thwart the will of the
American people.

Since first being elected to office, I have
strongly supported meaningful campaign fi-
nance reform. I was so hopeful last year when
the House passed Shays-Meehan by an over-
whelming vote—only to see it die in the Sen-
ate.

This year, we were hopeful again. The Sen-
ate has passed McCain-Feingold. The House
Leadership was committed to allowing a vote on
Shays-Meehan.

But the Republican Leadership is still trying
to pull the rug from under reform again. The Republican Leadership’s rule is designed to
make it as difficult as possible for Shays-Mee-
han to pass in the form its sponsors rec-
ommend.

The Republican Rule is defeated, as I believe it should be, the Leadership should rest assured that
supporters of campaign finance reform will not
go quietly. The American people have said
and again that they want to see our cam-
paign finance system cleaned up in a mean-
ingful way. Defeating this rule will not defeat
this issue. We will be back, and Shays-Mee-
han will ultimately pass this body.

Americans have lost all confidence in the
campaign finance system. Rules like this may
cause them to lose all confidence in the U.S.
Congress. I urge my colleagues to defeat this
rule and to demand that Shays-Meehan be
brought back under a fair rule so that we can
do the will of the American people and start
the process of restoring the faith of the Amer-
ican people in their government.

Mr. REYNOLDS. Mr. Speaker, I yield back
the balance of my time, and I move the previous question on the res-
olution.

The previous question was ordered.

The SPEAKER pro tempore. The question is on the resolution.

The question was taken; and the
Speaker pro tempore announced that
the ayes appeared to have it.

Mr. FROST. Mr. Speaker, I object to
the vote on the ground that a quorum
is not present and make the point of
order that a quorum is not present.

The SPEAKER pro tempore. Evi-
dently a quorum is not present.

The Sergeant at Arms will notify ab-
sent Members.

The vote was taken by electronic de-
vice, and there were—yeas 203, nays
228, not voting 3, as follows:

[Roll No. 228]

YEAS—203

Aderholt                  Cubin                       Gutierrez
                        Crenshaw                    Hancock (MA)
                        Armes                       Hart
                        Baca                        Davis (CA)
                        Barr                        Davis (WA)
                        Ballenger                  DeLauro
                        Barr                        DeMint
                        Bartlett                   Diba-Bairat
                        Barton                     Doolittle
                        Berenger                   Dreier
                        Biggent                    Duncan

13107
LEGISLATIVE PROGRAM

(Mr. BONIOR asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BONIOR. Mr. Speaker, I rise to inquire of the gentleman from Missouri the schedule for the remainder of the week and for next week.

Mr. BLUNT, Mr. Speaker, will the gentleman yield?

Mr. BONIOR. I yield to the gentleman from Missouri.

Mr. BLUNT. Mr. Speaker, I thank my friend, the gentleman from Michigan, for yielding.

We have now finished the legislative business for this week. We will have a pro forma session on Monday. On Tuesday, the House meets at 10 a.m. We have votes scheduled beginning as early as noon.

The flag-burning constitutional amendment will be on Tuesday; Commerce-State-Justice appropriations on Tuesday; then the Iran-Libya Sanctions Act.

Then the balance of the week we will finish Commerce-State-Justice; Foreign Operations appropriations; charitable choice; and hope to have a patients’ bill of rights on the floor the balance of the week next week.

Mr. BONIOR. Mr. Speaker, if I may inquire further of the gentleman, it is a pretty heavy schedule, the Patients’ Bill of Rights, charitable choice, as I understand it.

Mr. BLUNT. If the gentleman will continue to yield, we expected, of course, to have the campaign finance bill on the floor tonight. That bill will not be on the floor because of the defeat of the rule, and I think we will have to look at the vote today and the structure of that rule and see when and if that bill can come back to the floor.

Mr. BONIOR. So is the gentleman telling us that it may not come back to the floor of the House?

Mr. BLUNT. I am not saying that. I have not had time to calculate this. We really thought we were going to win this rule and vote on this tonight. We thought it was a fair rule, an equitable rule that clearly gave all options. Apparently, the majority did not think that, and I have no further information.

Mr. BONIOR. Let me ask the gentleman when he expects to bring the Patient’s Bill of Rights to the floor; at what point next week?

Mr. BLUNT. We do not know yet, but we are hopeful that that bill could be on the floor next week. We think it would be mid to late in the week. If we get it to the floor, but we are hoping that that is one of the things that will come to the floor next week. It is an important issue; needs to be debated and moved forward. We hope we can start and maybe complete that process next week.

Mr. BONIOR. And do we know under what procedure the Patient’s Bill of Rights may be brought to the floor next week?

Mr. BLUNT. I am unaware of any procedural decisions that have been made on that.

Mr. BONIOR. On the question of the faith-based initiatives, is that a probable, a maybe, or a most likely next week?

Mr. BLUNT. I think it is most likely that that bill will come out of the Committee on Ways and Means and floor next week.

Mr. BONIOR. And if I might ask one other question of my friend from Missouri, what other appropriation bills

Resolved, That the House, at its rising, adjourn until Tuesday, July 10, at 10 a.m.

Mr. LEWIS of California. Mr. Speaker, on rollcall No. 228, I was unavoidably detained. Had I been present I would have voted ‘‘yea.’’

Mr. LEWIS of California. Mr. Speaker, on rollcall No. 228, I was unavoidably detained. Had I been present I would have voted ‘‘yea.’’

Mr. BONIOR. Mr. Speaker, I rise to request of the gentleman from Missouri, what other appropriation bills may have 5 legislative days within which to revise and extend their remarks and include extraneous material on House Resolution 188.

The SPEAKER pro tempore (Mr. LEWIS of California). Mr. Speaker, on rollcall No. 228, I was unavoidably detained. Had I been present I would have voted ‘‘yea.’’

Mr. LEWIS of California. Mr. Speaker, on rollcall No. 228, I was unavoidably detained. Had I been present I would have voted ‘‘yea.’’

CONGRESSIONAL RECORD—HOUSE
13109

July 12, 2001

did the gentleman mention that may see the floor action?

Mr. BLUNT. I mentioned we would go to Committee on Appropriations next week, if we meet our schedule.

Mr. BONIOR. I thank my friend, and I encourage him to encourage the rest of the leadership on his side of the aisle to bring back a rule that reflects the vote we just had. The American people think desperately want us to address this campaign finance issue, they want to do it in a fair way, and I think the gentleman from Massachusetts and the gentleman from Connecticut deserve to have a fair shot at the bill that they want on the House floor.

Mr. BARTON of Texas. Mr. Speaker, will the gentleman yield?

Mr. BONIOR. I yield to the gentleman from Texas.

Mr. BARTON of Texas. I just wanted to announce, for members of the Subcommittee on Energy and Air Quality of the Committee on Energy and Commerce, that we are going to finish our markup this evening. Food will be provided on a bipartisan basis, so I would encourage all members of that subcommittee to come back to the markup, and I thank the gentleman for yielding.

ADJOURNMENT TO MONDAY, JULY 16, 2001

Mr. BLUNT. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at 2 p.m., on Monday, July 16, 2001.

The SPEAKER pro tempore (Mr. LATOURRETTE). Is there objection to the request of the gentleman from Missouri?

There was no objection.

DISPENDING WITH CALENDAR WEDNESDAY BUSINESS ON WEDNESDAY NEXT

Mr. BLUNT. Mr. Speaker, I ask unanimous consent that the business in order under the Calendar Wednesday rule be dispensed with on Wednesday next.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Missouri?

There was no objection.

PERMISSION FOR COMMITTEE ON APPROPRIATIONS TO HAVE UNTIL MIDNIGHT FRIDAY, JULY 13, 2001, TO FILE PRIVILEGED REPORT ON DEPARTMENTS OF COMMERCE, JUSTICE, AND STATE, THE JUDICIARY, AND RELATED AGENCIES APPROPRIATIONS ACT, 2002

Mr. YOUNG of Florida. Mr. Speaker, I ask unanimous consent that the Committee on Appropriations have until midnight, July 13, 2001, to file a privileged report on a bill making appropriations for the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies for the fiscal year ending September 30, 2002, and for other purposes.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

The SPEAKER pro tempore. All points of order are reserved on the bill.

CAMPAIGN FINANCE REFORM

(Ms. JACKSON-LEE of Texas asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. JACKSON-LEE of Texas. Mr. Speaker, it is confusing as to what just occurred. I just hope that we will have an opportunity to fully address what a good portion of this House wanted to do today, and that is to debate in front of the American people the whole question of ridding this system of special interests.

I, for one, want to discuss the empowerment of those who are least empowered, the involvement of the grass roots, the inclusion of every voter. And I had hoped that we would have written a rule that would have allowed the kind of formidable debate that would have addressed the question of making sure that democracy prevails in this Nation. I am equally disappointed that we have not given ourselves the opportunity to debate, as the Senate debated, for a period of time for the American voter to understand that we too believe that the best democracy is that of their vote, and that anything that we do today is based upon our representation of all of our citizens.

So I hope, as we end this week, that we will act upon the comments of the distinguished minority leader and that we will be able to review this and assess this for further consideration. We do need campaign finance reform.

SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of June 27, 2001, to file a privileged report on a bill making appropriations for the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies for the fiscal year ending September 30, 2002, and for other purposes.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California (Mr. DOOLITTLE) is recognized for 5 minutes.

Mr. DOOLITTLE. Mr. Speaker, I just have some comments on the Shays-Meehan bill. This thing just died of the weight of opposition against it. I just want to read from a list of both conservative and liberal groups who oppose this legislation.

In fact, you could get a positive rating from both the NARL, the National Abortion Rights League, and from the National Right to Life Committee by voting against this terrible bill. And then you can also get the same positive rating from the U.S. Chamber of Commerce and from the AFL-CIO.

I would just like to read into the record all these groups, 81 groups, from information obtained from the Committee on House Administration, all the groups who are opposed to the big government's campaign regulation bill, known as Shays-Meehan.

We have the American Civil Rights Union; the Business-Industry PAC; the Center for Reclaiming America; the Christian Coalition; the Free Congress Foundation; Gun Owners Of America; the National Rifle Association; the National Right to Life Committee; the AFL-CIO; the Alliance for Justice; the American Civil Liberties Union; the Cato Institute; the Freedom Forum; the Libertarian Party; the National Association of Broadcasters; the National Association of Manufacturers; Associated Builders and Contractors; the U.S. Chamber of Commerce; Americans For Tax Reform; the United Auto Workers; the American Society for the Prevention of Cruelty to Animals; the Asian American Legal Defense and Education Fund; the Bazelon Center for Mental Health Law; the Business and Professional People for the Public Interest.

Again, just to remind you, Mr. Speaker, these are all the organizations opposed to the government campaign regulation known as Shays-Meehan.

The Center for Digital Democracy; the Center for Law and Social Policy; the Center for Law in the Public Interest; the Center for Science in the Public Interest; the Children's Defense Fund; the Community Law Center; the Consumers Union; the Disability Rights Education and Defense Fund; the Americus Foundation; EarthJustice Legal Defense Fund; Education Law Center; Employment Law Center; and Equal Rights Advocates.

Let me see, the James Madison Center for Free Speech; Gun Owners of America; Free Congress Foundation. Okay, we are at 41. Here are the other 40.

The Food Research and Action Center; the Harmon, Curran, Spielberg & Eisenberg firm; the Human Rights Campaign; Institute for Public Representation at Georgetown University Law Center; the Juvenile Law Center; the League of Conservation Voters Education Fund; the Legal

CONGRESSIONAL RECORD—HOUSE

H. ROHRABACHER (for 60 minutes as a designee of the majority leader).

FUNDING FOR FAITH-BASED INITIATIVES

The SPEAKER pro tempore (Mr. KELLER). Under a previous order of the House, the gentleman from Maryland (Mr. CUMMINGS) is recognized for 5 minutes.

Mr. CUMMINGS. Mr. Speaker, I stand here in support of faith-based entities who have long worked to address social ills. In fact, we just recently, earlier this week, paid a tribute to the efforts of these entities and encouraged private corporations to contribute to their worthwhile efforts.

This bill will also likely consider proposals aimed at providing government funding to faith-based entities. Charitable Choice, however, I have grave concerns with those proposals and believe that before adopting them, they merit serious examination to ensure they do not work to dilute our Nation’s constitutional principles and civil rights law.

First, are we prepared to modify our constitutional principle of separation of church and state to one promoting a church state? The First Amendment says Congress shall make no law respecting an establishment of religion or prohibiting the free exercise thereof. This clause was intended to erect a wall of separation between church and state. In essence, our Nation has been successful in preventing the church from controlling the state and the state from controlling the religion.

The current faith-based proposals threaten this very important principle. Which religious entities will qualify for the government funding? Will the more dominant or better financed faiths be awarded the grants? The government will be forced to choose one religion or denomination over the other. Once the entities accept government funding, then they must be held accountable for the use of these funds. As such, faith-based entities will open themselves up to government regulation. So we must ask ourselves, will groups forego the full expression of their religious beliefs, their independence and autonomy in exchange for money? Are we comfortable with our houses of worship becoming houses of investigation?

Further, while the proposals state that government funds should not be used for worship or proselytization, meaningful safeguards to prevent such action are not included in the provisions. The consequence is the possibility of using funds to promote certain religious beliefs or a beneficiary of social programs being subject to religious influence that is not welcome.

In addition to ensuring that faith-based initiatives do not threaten our Nation’s constitutional principles, we must also guarantee that our citizens will remain protected under our civil rights laws. Religious institutions are currently exempted from the ban on religious discrimination and employment provided under Title VII of the Civil Rights Act of 1964. As such, if faith-based proposals do not include a repeal of this exemption, these institutions will be able to engage in government-funded employment discrimination.

Allowing the exemption to be applied to hiring and staffing decisions by religious entities as they deliver critical services flies in the face of our Nation’s long-standing principle that Federal funds may not be used in a discriminatory fashion.

As I reflect on those who fought hard to secure civil rights for us all, and as one who has been a strong advocate myself, I cannot sit idly by and watch them be eroded. As such, I believe that any faith-based proposals must include a repeal of the Title VII exemption. Only when we review faith-based proposals, it is important to note that under current law religious entities can seek government funding by establishing a 501(c)(3) affiliate organization. Such religiously-affiliated organizations have successfully partnered with government and received government funding for years.

I urge my colleagues to carefully examine these issues. As we continue to support faith-based entities and their good works, we must remember our duty to also protect the very foundation of this Nation, our Constitution and our civil rights laws. Let us stand against discrimination and stand up for religious tolerance and freedom.

PAYING HOMAGE TO A SPECIAL GROUP OF VETERANS, SURVIVORS OF BATAAN AND CORREGIDOR

The SPEAKER pro tempore. Under the Speaker’s announced policy of January 3, 2001, the gentleman from California (Mr. ROHRABACHER) is recognized for 60 minutes as a designee of the majority leader.

Mr. ROHRABACHER. Mr. Speaker, today I rise to pay homage to a very special group of American veterans. As Americans, these World War II survivors have sacrificed and have suffered for their country. But this special group is different.

This group that I would like to call attention to tonight are men who continue to fight for justice even though these many years have passed since the close of World War II. These are men who fought and paid an enormous price for our freedom and for the peace and safety of the world, yet today, I repeat, continue to struggle for justice to their own cause.

Instead of fighting the emperors of Japan which they fought during the second World War, these brave veterans are now forced to fight lawyers, the lawyers of Japanese and international business giants, companies like Mitsubishi, Matsui and Nippon Steel. Instead of battling in the jungles, instead of battling on the islands in the South Pacific, these veterans are battling in the courtroom.

Mr. Speaker, the greatest irony about what is happening today about the veterans of whom I speak, while they battled for our freedom in the second World War, and today, as they say, they are battling lawyers of some of the biggest Japanese companies, the greatest irony is that these American heroes have the United States Government not on their side, but on the side of their adversary. They find themselves arguing against representatives of their own government.

Let me make this clear. Some heroic veterans from World War II were trying
to find justice for their cause, men who put everything on the line and, as we will find out, were held hostage and prisoner of war by the Japanese. These men now in seeking justice for their cause are having to argue against their own government. Their own government is now engaged in a legal process to thwart their efforts.

This is the story of the American survivors of the Bataan Death March in Corregidor. These are some of the most heroic of America's defenders during the Second World War. When they were captured, they were forced to serve as slave labor for private war profiteering companies. Japanese companies during the Second World War. These men, these prisoners of war, these American heroes were deprived of food, medicine, and clean water. These large Japanese companies, whose own work force was away fighting the war in the Japanese uniform, these corporations used our POWs as work animals. These Japanese companies, knowing they were violating the international law, used our American soldiers, sailors, airmen and marines whom they had captured in the Philippines and other places around the Pacific, but mainly the Philippines, they used these people and often worked them to death. The standards they had to endure violated the most basic morality, decency and justice. It also violated international law.

Instead of righting wrongs and admitting that violations had been made and violations of law existed, like German companies have done since the end of World War II, and the German companies have tried to close that chapter by giving compensation and recognizing the violation of rights that took place by their companies to the people whom they wronged, the Japanese corporations have ignored the claims of these American heroes.

And why not? These large Japanese corporations ignore the pleas of American survivors for justice. Why not? After all, the United States State Department has sided with the Japanese and is working against our former POWs that were held by the Japanese during the Second World War. This is a travesty.

Mr. Speaker, if the American people knew what was going on, I am sure there would be a wave of protest and indignation that would sweep this country, a wave that would sweep right into the State Department and perhaps sweep out these individuals who are siding in a battle against America's most heroic defenders.

Dr. Lester Tenney, a survivor of the death march, a survivor of slave camps, says, “I feel as if I am once again being sacrificed by our government, abandoned not for the war effort, as in the past, but for the benefit of big Japanese corporations.”

Dr. Tenney is right. In the hours following the attack on Pearl Harbor, the Japanese attacked U.S. installations in the Philippines. A U.S. contingent there made up of our military forces retreated to the Bataan Peninsula and made their historic standing. They held off the Japanese military juggernaut while the United States had been crippled in Pearl Harbor, and gave us time to rally America, and gave us time to organize an offensive to take back the territory that the Japanese had taken.

Our defenders in Corregidor and on the Bataan Peninsula bought time for the whole United States, and they bought time at the greatest risk to their lives. Our government at that time was forced to make a heart-tearing decision, and that decision was that they were going to have to sacrifice our brave heroes in the Philippines. MacArthur was pulled out, and our troops were left behind. And they were sacrificed because the planners in Washington, D.C., knew full well that much of our strength in the Pacific had been destroyed at Pearl Harbor, and if we tried to save these brave heroes on the Bataan Peninsula, we would have risked so many other military personnel. If we lost that battle, the entire war would have been lost. The risk was so great that it was impossible for us to go to save them.

Yet these men and women, these brave defenders stood their ground and fought a heroic battle. As the song of the day went, their song, the battling bastards of Bataan, no mama, no papa, no Uncle Sam.

After the fall of Bataan, these men, these men were overwhelmed and American-Filipino troops were captured, they were forced to walk more than 60 miles to their places of captivity, to the prison camps and concentration camps in which they were held. That 60-mile march is known in history as the Bataan Death March. They were denied water, beaten; and during the march, hundreds of them, many of them fell, and many of them were bayoneted to death. Some of them were cut to pieces, at least a few beheaded by Japanese officers who were practicing with their samurai sword.

Let us remember at that time the Japanese culture reflected the view that any warrior who survived a battle was a failure and that any warrior who survived a battle, any warrior who survived a battle and surrendered was unfit to be considered a human being.

The Japanese treated our prisoners as less than human beings. They treated them as animals and they murdered them. Over 650 to 700 Americans died on that 60-mile march, the famous Bataan Death March. These were truly heroes, and their sacrifice inspired our Nation. The outrage that swept across our Nation gave us strength to fight against the Japanese militarist thrust in the Pacific and to stand up to the Nazis in Europe, because we saw the heroism of these men. And then after enduring this hell and taking out of sight of the American people, our prisoners of war that were being held by Japan there in the Philippines, many thousands of them were taken from these hell ships and sent off to the concentration camps in Europe.

Our POWs struggled to survive in the harshest conditions imaginable. These heroes were forced to toil beyond human endurance, in mines, in shipyards, in steel mills. Yes, they took the place of the Japanese men who were away serving in the Japanese military. This was in itself a violation of international law. But the jobs that these prisoners were given, these American heroes were given by the Japanese and the treatment they received was well beyond just a violation of international law; it was a crime against humanity.

These men worked the most dangerous jobs, the most terrible conditions, and were treated like animals. They were treated worse than animals. The Japanese would not have treated their animals as they treated our prisoners. Company employees would beat them and harangue them, they were starved and denied adequate medical care. They suffered from dysentery, scurvy, pellagra, malaria, diphtheria, pneumonia and other diseases. One of our prisoners had his leg amputated because it was crushed in a truck slide, and it was amputated by another American POW, the only doctor who happened to have survived this long, and that doctor amputated that leg without anesthetics. The rations that they were given were unfit for human consumption. Our POWs were reduced to skin and bone, looking very much like the prisoners in Auschwitz and in the concentration camps in Europe.

Today, while many of those survivors, of course, died during the war and after the war just from the complications, and today those who managed to survive over these many years have many health problems that relate directly to the conditions that they were kept in during the Second World War. When you hear the survivors tell their stories, it raises the hair right in the back of your neck and sends chills down your body.

Frank Bigelow, 78 years old, from Brookville, Florida, was taken prisoner at Corregidor. Mr. Bigelow was
shipped to Japan where he performed labor in coal mines owned and operated by Mitsubishi. Now this is a name that we have heard, Mr. Bigelow, Mr. Bigelow who had his leg amputated without anesthetic by a fellow POW. At the war’s end, though Mr. Bigelow was 6'4”, he weighed just 95 pounds when he was liberated.

Lester Tenney, 80 years old, of La Jolla, California, became a prisoner at the fall of Bataan in April of 1942. He survived the Bataan Death March and was transported to Japan aboard a hell ship. In Japan, he was sold by the Japanese Government to Mitsui and forced to labor for 12 hours a day, 28 days a month in the Mitsui coal mine.

"This reward I received for this hard labor was being beaten by civilian workers in the mine and constantly humiliated," said Dr. Tenney. These are just a couple of stories. The horrors that they suffered at the hands of these Japanese corporations, who were making a profit off the work they were doing for the war, the horrors that these men suffered could fill books; and let us in those books and in this recalling what happened not forget who it was who was doing this. These were Japanese corporations. Many of these same Japanese corporations still exist today.

The case of our POWs is clear. These facts cannot be denied. Their claims cannot be dismissed or just simply explained away. And that is why it makes it even more difficult for us to understand why our State Department refuses to assist these American heroes, these veterans of the Bataan Death March, these men who stood at a time when our country was in such great peril and endured the unspeakable for us, and now our State Department will not stand with them. In fact, it is standing against them.

It makes it hard to fathom when you think about this why the State Department is doing this when you consider that in Germany, in Nazi Germany, where so many people were wronged and we know about what happened in the concentration camps there and how horrible that was, the Germans have tried to compensate those people, especially German corporations, have tried to compensate those people who they wronged during the war. They have tried to close the book. That is what should happen.

But instead, on the other side of the world, our American heroes have been denied justice by these Japanese corporations. And while our government has encouraged the repayment by German corporations especially in the case of, for example, Swiss bankers who were ripping off the Holocaust survivors from the deposits that their families had made and the huge German insurance companies, while we have encouraged that and tried to side with the victims' cause, our State Department and our government are siding against our defenders who were captured by the Japanese and mistreated in a very similar way.

The lawyers for the State Department have agreed with the war profiteers, these Japanese corporations who made enormous profits in supplying Tokyo’s war efforts, and they have allied themselves against the American victims. Let me just say that their excuse for what they are doing is that they are claiming that the peace treaty that we signed with Japan bars our veterans from these claims. Let me note that that is nonsense. It is total nonsense. If any claims are barred, it is claims brought against the Government by American civilians. There is nothing in that treaty that bars our heroic POWs from suing the Japanese corporations that treated them like animals, that violated their human rights and committed war crimes in doing so.

The argument by our State Department is an argument in which our own government is bending over backwards to try to find an excuse for this great violation of rights of our greatest heroes; they are bending over backwards to try to find an excuse when, in fact, these people deserve us to be doing everything we possibly can to try to find the arguments on their side.

These people are not going to be with us for very long. These people might not be with us for another 10 years. They are dying off every day. They are older men. And our government is trying and doing its best to try to find arguments, to try to undercut their claims against the people who violated their rights, the Japanese corporations that treated them like slave labor during the war. We should be paying honor to these men and giving every everything we can to help them rather than put roadblocks in their way. The State Department should be ashamed of itself.

First, as the State Department has elsewhere conceded, the waiver of claims by U.S. private citizens against private companies of another country is not merely unprecedented in history, in the history of the United States, it is not recognized in international law and raises very serious constitutional and fifth amendment questions.

What are we talking about here is that there is no State Department waiver of the rights of private citizens who have violated their rights and they have a just claim. There is no right of our government to waive that, the rights of our citizens. Now, they maybe can waive the rights against a government, but they certainly cannot waive against a corporation that still exists.

By the way, let us remember this: a corporation is a legal entity. If that corporation made mistakes in the past and it is the same corporate entity, it has responsibility for what action of that corporation took in years past. I do not care if it was during the war or during peacetime. A Japanese corporation bears the same responsibility as an individual bears responsibility.

That is why you have corporations. They take upon themselves that legal responsibility.

A close look at the history of the 1951 treaty that we have that ended the war with Japan reveals that the negotiators considered treaty language which would have permitted POW lawsuits against Japanese companies, those same Japanese companies that had used them as slave labor. But that reference was deleted in the final draft after a demand by other Allied powers was made to that agreement, to that wording to the U.S. delegation.

Now, what does that mean? What is going on here is that we considered actually putting something in the treaty specifically prohibiting that. Well, the argument was that we can’t constitutionally prevent them from doing it, anyway, so why are we putting this in the treaty that could probably be a cause of concern for the Japanese?

And why were we so concerned about the Japanese in 1951? What was that all about? Well, 1951 was another era. And I am afraid that in 1942 when America had to abandon these heroes on the Bataan Peninsula and leave them to their fate and let them be captured and murdered and tortured and worked like slave labor by the Japanese, when we abandoned them to that fate, we abandoned them a second time. That was because we needed to ally ourselves with those victims, our own State Department and our government are siding with those victims, our own State Department siding with those victims, and we should be doing everything we can to help them rather than put roadblocks in their way.

Because at that time the world witnessed a Japan going towards communism, it would have shifted the balance of freedom and democracy in the world and the whole Cold War might have ended a different way. It might have caused the loss of millions of American lives if just that balance of power in Japan would have been shifted. So maybe we needed to bend over backwards to prevent the Japanese at that time, and I just say maybe.

□ 1830

There is no excuse like that today. The Cold War is over. We should not be bending over backwards today. If we do not move forward today to permit these American heroes to at least readdress their grievances and to receive some compensation and to find justice, if we do not act now, we are abandoning them for the third time.
They were abandoned in Bataan. They were abandoned after the war. Are we going to let them go again? Are we going to watch them slip away quietly without knowing how much the American people appreciated what they did for us? How will they know how much we appreciated it if we are turning our backs on this claim, this legitimate claim that Japanese corporations who worked as slave laborers while all around the world other peoples have been able to sue those corporations that violated their human rights during the Second World War and how other people, in fact, have been able to sue Japan and those corporations for what they did to them.

No, the only people left out will be the survivors of the Bataan Death March. This is an insult. It is absurd. It is insane, and it does not speak well of our State Department. It does not speak well of us if we let it happen, and we should not and we will not let that happen.

The treaty in 1951 also includes a clause which automatically and unconditionally extends to the allied powers any more favorable terms than that granted by Japan in any other war claims settlement. Japan has entered into war claims settlements with the Soviet Union, with Burma, Spain, Switzerland, Sweden, the Netherlands and others. These same rights that we are talking about, that we are asking for our own people, have already been granted to the people of other countries. Yet, the State Department in our country continues to work against our heroic Bataan Death March survivors' right to seek justice in the courts against the Japanese corporations that worked them during the war, even though other countries and other peoples have redressed the wrongs and the book has been closed on their cases.

On the public record to date, the State Department simply ignores these people's claims, these brave heroes' claims, or tries to obfuscate the facts. Several weeks ago, Fox News on the Fox News Sunday program, a news program on the weekend, it was probably more like 2 months ago now, Colin Powell, our Secretary of State, promised to review the State Department's erroneous and unyielding stand against that Japanese Embassy staff, and he said that it was unfair of us to compare the Japanese in World War II to the Germans and to the Nazis and that is just not the case. I told him, I said with all due respect, sir, the Japanese militarists of World War II, of which this gentleman's generation he was not part of that generation, committed the same type of atrocities and war crimes as did the Germans, and it is very comparable what the Japanese did to the Chinese people, to the Bataan Death March survivors of World War II, and especially in Asia, that is exactly the kind of a bill that Japan, for their own sake, need to make sure is paid.

The people of Japan are very interested in face. They are also a people who never fail to pay a just debt. This is a just debt. When people work in any capacity, they need to be paid. No Japanese employer, not Mitsubishi, not any of the heavy industry companies that we are talking about here today, not one of them would fail to pay a worker for a day's work. This is the only time in which these companies have gotten labor for which they have not yet paid.

I absolutely support the legislation of the gentleman. I commend him for something that has been long overdue for bringing it to the forefront. I am pleased to be one of the cosponsors; and I look forward to pushing this through the Congress to, in fact, remind the Japanese people that this is the only way they will put the war behind them is to pay the debts that they know they owe, have the corporations pay what they need to pay, with interest, and move on. That is what we do in a civilized society.

Japan is now one of the great nations of the civilized world, and we need them to free themselves of the burden of this past debt. I want to thank the gentleman for yielding, and I want to thank the gentleman once again for authorizing this bill with the gentleman from California (Mr. Honda). And I look forward to seeing it on the floor and enacted.

Mr. ROHRABACHER. Mr. Speaker, the gentleman from California (Mr. Honda) and myself have introduced a bill, the Just and Fair POWs Act of 2001. It is H.R. 1198, and there are over 100 of my colleagues now who have co-sponsored this bill which will grant our POWs from the Bataan Death March the right to sue those Japanese corporations that tortured them and killed them and worked them as animals during the war. Our legislation gives them the right to seek legal redress against those companies.

Mr. Speaker, I would at this time be happy to yield to my friend, the gentleman from California (Mr. Honda), for his remarks.

Mr. Speaker, Mr. Honda. And I am pleased to be one of the cosponsors; and I absolutely support the legislation of the gentleman. I commend him for something that has been long overdue.
times the point that corporations do have responsibility for their actions. Even though it happened a while ago, a corporation should still have legal responsibility for the actions in the past?

Mr. ISSA. Here in America, we have unlimited and permanent liability. There are cases on the American books where a lathe maker who made products in the 1980s had to pay for damages caused to a worker in the 1980s. That is not always considered fair, but corporations understand that one of the advantages they get for that pride of having a plaque that says 50 years or even 100 years in business is in fact that they have to have paid off all of their debts, including the ones that have not yet arisen.

That kind of obligation is understood here in America and very much understood in Japan. The gentleman from California (Mr. HONDA), during many Japanese friends. This in no way on numerous occasions. My family has Japanese at all.

certainly not anti-Japanese whatso-

teleman from California (Mr. HONDA), is

The co-author of this bill, the gen-

to do justice for these Japanese corporations who had used them as slave labor, and they were unable to find justice through the legal system because our own State Department was thwarting them.

My goal is not to humiliate the Japa-

ese or to make the Japanese feel bad, even though in the past they did bad things. The Japanese people did bad things in the distant past, and that was another generation. My goal is to do justice for Uncle Lou and those 5,400 American heroes who survived the Bataan Death March. That is what our goal is.

Before they pass away, let us give them justice. We need to pass H.R. 1198. We need to pass H.R. 1198. It needs to come to the floor for a vote, and we need to do justice by these men and give them a thank you, a thank you for what they did for our country.

Mr. Speaker, there is nothing that existed as a militaristic expansionist power in the Pacific, and they emerged

13114 CONGRESSIONAL RECORD—HOUSE July 12, 2001

Why am I the author of H.R. 1198?

Well, I can tell you, it is a very easy answer, but it requires a little story. I was married about 3½ years ago to the love of my life, who is now Rhonda Rohrabacher. Rhonda’s father, my wife’s father, passed away about 5 years ago of cancer, and at our wedding someone else had to give her away because her father had passed away.

You might say the grand old man of Rhonda’s family is a man named Uncle Lou. Now, Uncle Lou is a survivor of the Bataan Death March, who was taken by the Japanese to Manchuria and worked and lived in a slave labor camp, in a concentration camp in Man-

churia, until the closing days of the war when he was liberated, and Uncle Lou told me the stories, and I met with Uncle Lou’s friends who told me the stories of their ordeal.

These men, who are probably some of the most heroic people I have ever met, told me of the conditions they were kept in, and then they told me that they were unable to sue these Japanese corporations who had used them as slave labor, and they were unable to find justice through the legal system because our own State Department was thwarting them.

My goal is not to humiliate the Japa-

nese or to make the Japanese feel bad, even though in the past they did bad things. The Japanese people did bad things in the distant past, and that was another generation. My goal is to do justice for Uncle Lou and those 5,400 American heroes who survived the Ba-

teen Death March. That is what our goal is.

Before they pass away, let us give them justice. We need to pass H.R. 1198. We need to pass H.R. 1198. It needs to come to the floor for a vote, and we need to do justice by these men and give them a thank you, a thank you for what they did for our country.

Mr. Speaker, there is nothing that existed as a militaristic expansionist power in the Pacific, and they emerged
as a potential enemy of the United States because of that.

The Japanese, as I say, were the primary threat in Asia. They were a fanatic tyranny in the 1920s and 1930s. They were racist. They thought they were racially superior and had a right to dominate all of Asia. As I say, they were militaristic, they were beefing up their military, and they were expansionists. They were taking control of islands and fortifying them all over the Pacific as they built up their own military into an offensive power.

Last, which is an interesting comparison, they were also involved with trade with the United States. They were a wealthy power. They had a very strong economy and a high standard of living, and they depended a great deal on trade with the United States. In fact, the Japanese were the greatest threat to a lot of business with American corporations, and we provided them, at a great profit to these American corporations, I might add, we provided them with steel and oil and scrap metal, and, yes, even aerospace companies were involved with working with the Japanese. All of this, if it rings true a little bit when you think about the comparisons about what has been happening with the Communist Chinese, it is rather frightening.

Yes, there have been reports of, and we know now that some of America's aerospace corporations are actually cooperating with them, and one of our companies is actually trying to develop a manufacturing unit that would help them manufacture their equivalent of the B-17, a long-range bomber.

This is incredible now. What American corporation would do this at a time when the Japanese were the biggest human rights abuser in the world by far? They had been doing it in China and to the people that they had subjugated, and that were militaristic and a threat, and they were dictatorial, with no sight of liberalization? Why would we let American corporations guide American policy while that was going on?

That is with precisely what was going on then, and that is precisely what happened, and that is what is precisely happening today. The Communist Chinese are the greatest threat to peace and freedom in Asia today, and, in fact, I would say in the world today, because they are allied with the worst and most evil forces in the world, just as the Japanese militarists were during the 1920s and 1930s.

The Chinese Communists are a fanatic tyranny. Those ruthless individuals who control Communist China will let nothing get in their way or nothing threaten their power. They are a fanatic like the Japanese militarists of World War II and before that. If you watch the Chinese military marching along, one can only be reminded of the Japanese troops that marched in that very same arrogant fashion.

Yes, the Chinese who control Beijing today are racist. They believe that they have a superior race and that they have a right to dominate all of Asia. And, yes, of course, they are militaristic.

The worst part of their military expansion, however, is that the United States of America, in permitting the economic rules of engagement in which we interact with Communist China, is permitting the Communist Chinese to have an $80 billion annual trade surplus with the United States. With this $80 billion of hard currency, what is being done by the Communist Chinese? What is being done is they are building up their military. They are acquiring weapons systems that will enable them to dominate Americans by the millions in terms of their nuclear weapons capacity and their missile capacity. But they are also obtaining weapons that will permit them to sink American aircraft carriers and shoot down American airplanes and to kill American military personnel.

They are not only militaristic, however, they are also expansionists, just as the Japanese were expansionists. Take a look at what the Japanese claimed. They had a map of the coprosperity sphere. We have Chinese maps which show they, too, believe there is a coprosperity sphere, and guess who is in the center of it? And it is a far greater area of control that the Chinese have in mind than the Japanese.

The Chinese have in mind that they control the entire South China Sea, that they control all the way up to the shoreline of the Philippines and of Indonesia and of Vietnam and Southeast Asia. They have a right to control all of Tibet and the greater expanses of Asia and Southeast Asia, and they have a right to the great Siberian areas of Russia.

This is an expansionist power. These are people who are mad with power; just as the Japanese militarists were in the 1920s and 1930s. And just as the Japanese militarists were fortifying islands with their military weapons and their capabilities during the 1920s and 1930s, China is in the process of doing that now.

In the Spratly Islands, which are an island chain that are claimed by five different countries and are 600 miles away from China, but about 100 miles away from the Philippines, and also mainly claimed by the Philippines, the Chinese Communists are in the middle of an island grab, and what they are doing is sending their warships there, and they have already built fortifications.

Let me add that I, this Congressman, DANA ROHRABACHER, tried to visit the Spratly Islands. For years I tried to visit the Spratly Islands and was prevented from doing so by roadblocks that were put up by who? Who do you think put up those roadblocks so as a Member of Congress, as a Member of the Committee on International Relations, that I would not be able to see what the Communist Chinese were doing in the Spratly Islands? Who put up those roadblocks? My gosh, the same company that is preventing our POWs from suing the Japanese. It is called the United States State Department.

So when I finally got to the Spratly Islands on an old C-130, I might add, from the Philippine military, it was the only one that could fly. I managed to fly out in an old C-130. I had Skunk Baxter with me and a couple of staffers and some folks from the Government of the Philippines. The pilot did not even have a GPS. That is how poor the Philippines and the Chinese now have a GPS system in the only C-130 flying, and they had a Radio Shack GPS system.

But we made our way to the Spratly Islands. We came out of a cloud bank, and there were three huge Chinese military warships, and what we saw in the Spratly Islands is Chinese fortifying those islands with military fortifications. This is somebody else's country and somebody else's territory, and they are fortifying it, and they have Chinese warships in the lagoon. Those Chinese sailors were rushing towards their guns, and we did not know if they were going to try to shoot us down or what, and they did not, and we finally escaped that international incident.

Since that time, guess what has happened? We have let them get away with it. We have let them not only lay their claim, but actually build forts there.

Now what have they done? They have done the same thing in the South China Sea, in the Paracel Islands down off of Vietnam.

The Chinese have also, I might add, since that time begun to send their naval war vessels right up to the coast of the Philippines. A few weeks ago, Chinese war ships were within a short distance from the coast of the Philippines. This is an expansionist power. This is a power that threatens. This is the world's worst human rights abuser. As Japan was the world's worst human rights abuser in the 1920s and 1930s, the Chinese are the same with us today. They are expansionist, they are racist, they are militaristic. Yet we have a trade status with them that permits them an $80 billion surplus.

Now, why do we do this? Within the next couple of weeks, why will this body vote to give that kind of country normal trade relations with the United States? I repeat that: Normal Trade Relations. Should a communist dictatorship have normal trade relations? Should a fanatical tyranny that is racist, the world's worst human
Mr. Speaker, I believe in free trade. I am a Republican free-trader. But I believe in free trade between free people. If we try to do it the other way around, we are doing nothing but bolstering the regime in power in these dictatorial countries around the world.

How long ago was it? Just a few short weeks ago that 24 military American personnel that were being held hostage by this very same Communist Chinese Government. They, in fact, forced an American surveillance aircraft that was in international waters out of the air in an attempt to murder those 24 American service personnel. Instead, the pilot, and they are being imprisoned, lucky; and then they were held hostage for 11 days. That was not so long ago. And now, within a very short period of time, the elected Members of this body are going to vote by a majority to give Normal Trade Relations to that government. That does not make any sense.

Not only were they holding hostage our American military personnel, but we actually have several Americans who are being held right now as we speak, or at least legal residents of the United States, who are being held hostage or being held prisoner by the Chinese, and we are basically talking about giving Normal Trade Relations to a country that is holding Americans, or at least legal residents of our country, holding them illegally, committing torture.

There was a young lady and her daughter who came to our hearing of the Committee on International Relations. Her husband, who is a doctor, a Ph.D., is being held by the Communist Chinese, and her daughter and this lady were begging us: please, please, demand that they bring back my husband, and he is an academic. He is an academic.

The Communist Chinese today are doing what? They are murdering Falon Gong people. Falon Gong, by the way, is nothing more than a meditation cult. I mean, they meditate and they have their gongs, and they are being imprisoned by the tens of thousands and hundreds of them are being murdered in jail, hundreds of them. Many of these women, they are being tortured, not to mention Christians, of course, who, if you do not register like the Jews did with the Nazis, if you do not register, you get thrown in a gulag. What happens in China? What happens in China when you get thrown into the gulag? Yes, right back to World War II. Guess what? Their prisoners are worked like animals.

Mr. Speaker, I would suggest that we should not be granting Normal Trade Relations to a country like this. And when those prisoners are executed, and thousands of them are, China is the execution capital of the world, what does this ghoulish regime in China do? It sends doctors, their doctors out to harvest the organs from the bodies of the prisoners that they have just executed.

Mr. Speaker, I say it is time that we learn our lessons from history, not grant Normal Trade Relations with China, and to make sure we stand up for the rights of our own people and the freedom and dignity of our ex-POWs.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Lundregan, one of its clerks, announced that the Senate agreed to the following resolution:

S. Res. 130

Resolved, That the House of Representa-

tives be notified of the election of the Honor-

able Jeri Thomson as Secretary of the Sen-

ate.

PERMISSION FOR COMMITTEE ON THE JUDICIARY TO HAVE UNTIL 6 P.M., FRIDAY, JULY 13, 2001, TO FILE REPORT ON H.R. 7, COMMUNITY SOLUTIONS ACT OF 2001

Mr. PLATTS. Mr. Speaker, I ask unanimous consent that the Committee on the Judiciary have until 6 p.m. on Friday, July 13, 2001, to file a report on the bill, H.R. 7.

The SPEAKER pro tempore (Mr. KELLER). Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

CAMPAIGN FINANCE REFORM

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Pennsylvania (Mr. PLATTS), as a freshman Member of this Chamber, and as one who has supported campaign finance reform and fought for campaign finance reform for close to 10 years, I need to express my great disappointment in the vote that occurred earlier today in which we defeated the rule on campaign finance reform legislation and, thus, have disallowed that legislation from coming forward.

Before I share exactly how I voted, though, I think it is important to share some of my history on this issue and how I live campaign finance reform and not just talk about it.

Over the last 9 1/2 years as a candidate first in the State House and now in Congress, I have never accepted political action committee money. I have limited the amount of money I have spent; I have limited the amount of my personal money I have spent. In fact, in my campaign for Congress a year ago, I limited my expenditures in the primary to less than $150,000; and I was outspent five to one by my opponent, three to one by another, two to one by a third opponent. We did grassroots campaigning; and thanks to the people of my district, we were successful. I ran in that fashion because I believe money is wrongly influencing the governing process, and I think it is time we do better by the people we are elected to represent.

Unfortunately, we did not get that opportunity today due to my strong support for campaign finance reform; in fact, in the June 30 reports of this year, I imagine I will probably pretty easily be the Member with the lowest amount, with $7,000, maybe $8,000 in my campaign treasury, compared to hundreds of thousands of dollars, because I am not interested in being a fund-raiser, I am interested in being a public servant. But despite that history, despite that I seek not just to preach about campaign finance reform but to try to practice campaign finance reform, citizens may be surprised to learn that I voted against the gentleman from Connecticut (Mr. SHAYS), the maker of the underlying bill that was to come before the House; I voted against the position of the distinguished Senator from Arizona who wanted a vote against the rule. I think it is important that we discuss why I voted that way, even as an adamant supporter of campaign finance reform.

I would contend that the defeat of the rule and, thus, the disallowance of the bill coming up for a vote is a huge step backwards. What we have done is send the bill back to committee where it may never come out of for the rest of the session; and under the best-case scenario under the rules of this House, it will at least be several months before we get another opportunity to bring it to the floor.

What was the alternative if we had supported the rule and brought it forward? Was it perfect? No. In fact, if I had my druthers, I would go one heck of a lot further than we were proposing to do in the underlying legislation and the amendments. But if we had allowed it to come forward, if we had approved the rule, we would have had the gentleman’s bill before this House, a very comprehensive campaign finance reform piece of legislation. We would have had 17 amendments before this House, 12 of which the gentleman from Connecticut (Mr. SHAYS) was preparing to offer. We would have had the opportunity for two substitute campaign finance reform bills to be discussed, debated, and openly voted on in this House. What did we get? Nothing. Not one vote. We got a rule denial that sent it back to committee, and we have lost tremendous ground.

The worst-case scenario that could have occurred if we had supported the rule, that we would move a piece of legislation forward either that was in
such good form and in such similar form as the Senate legislation, as the McCain-Feingold legislation, that the Senate would have concurred in it, and we would have taken a huge step to eliminating soft money, to reducing the influence of money on the process. Under the worst-case scenario, we move forward and come out with a bill that the Senate did not like, we go to conference. So we are in conference where we can hammer it out between the Senate and the House. Instead, we are still in a committee in the House, a long way from getting to a final piece of legislation.

What was the grounds for defeating the rule, those who voted against the rule. Why? What did they not like about the rule? It came down to this. This is important for the citizens of this Nation to understand. It came down to procedure over substance. It was not a question of whether each and every one of the gentleman’s amendments was going to get a vote. All 12 of them under the rule would get a vote. It is that he and others wanted them all to be voted as one, one lump sum, they had to take it or leave it, one lump sum. Do I not think that was a good approach? I think the 12 amendments was fair, was reasonable. Each and every amendment would have gotten a vote on the floor; it would have been openly discussed and debated. Instead, none of them came to the floor and the underlying bill did not.

Mr. Speaker, it is a sad day, I think. As one who has fought for this reform, and we got so close to getting a substantive vote, and instead, we are back in committee. All 228 members who voted against the rule, if they so strongly believe the rule was flawed, I would encourage each and every one of them and I would hope that each and every one of them will bring forward a discharge resolution with what they think we should do and that all 228 are on that discharge resolution.

Mr. Speaker, I urge that we as a House do campaign finance reform once and for all and do it right.

STATUS REPORT ON THE CURRENT LEVELS OF ON-BUDGET SPENDING AND REVENUES FOR FY 2002 AND THE 5-YEAR PERIOD FY 2002 THROUGH FY 2006

Mr. NUSSLE. Mr. Speaker, to facilitate the application of sections 302 and 311 of the Congressional Budget Act and section 201 of the conference report accompanying H. Con. Res. 83, I am transmitting a status report on the current levels of on-budget spending and revenues. H. Con. Res. 83, for the fiscal year period of fiscal years 2002 through 2006. This status report is current through July 11, 2001.

The term “current level” refers to the amounts of spending and revenues estimated for each fiscal year based on laws enacted or awaiting the President’s signature. The first table in the report compares the current levels of total budget authority, outlays, and revenues with the aggregate levels set forth by H. Con. Res. 83. This comparison is needed to enforce section 311(a) of the Budget Act, which creates a point of order against measures that would breach the budget resolution’s aggregate levels. The table does not show budget authority and outlays for years after fiscal year 2002 because appropriations for those years have not yet been considered.

The second table compares the current levels of budget authority and outlays for discretionary action by each authorizing committee with the “section 302(a)” allocations made under H. Con. Res. 83 for fiscal year 2002 and fiscal years 2002 through 2006. “Discretionary action” refers to legislation enacted after the adoption of the budget resolution. This comparison is needed to enforce section 302(f) of the Budget Act, which creates a point of order against measures that would breach the section 302(a) discretionary action allocation of new budget authority for the committee that reported the measure. It is also needed to implement section 311(b), which exempts committees that comply with their allocations from the point of order under section 311(a).

The third table compares the current levels of discretionary appropriations for fiscal year 2002 with the “section 302(b)” suballocations of discretionary budget authority and outlays among Appropriations subcommittees. The comparison is needed to enforce section 302(f) of the Budget Act because the point of order under that section equally applies to measures that would breach the applicable section 302(b) suballocation.

The fourth table gives the current level for 2003 of accounts identified for advance appropriations in the statement of managers accompanying H. Con. Res. 83. This list is needed to enforce section 201 of the budget resolution, which creates a point of order against appropriation bills that contain advance appropriations that are: (i) not identified in the statement of managers or (ii) would cause the aggregate amount of such appropriations to exceed the level specified in the resolution.

The fifth table compares discretionary appropriations to the levels provided by section 251(c) of the Balanced Budget and Emergency Deficit Control Act of 1985. If at the end of a session discretionary spending in any category exceeds the limits set forth in section 251(c) (as adjusted pursuant to section 251(b)), a sequestration of amounts within that category is automatically triggered to bring spending within the established limits. As the determination of the need for a sequestration is based on the report of the President required by section 254, this table is provided for informational purposes only. The sixth and final table gives this same comparison relative to the revised section 251(c) limits envisioned by the budget resolution.

Hon. Jim Nussle, Chairman, Committee on the Budget, House of Representatives, Washington, DC.

Dear Mr. Chairman: The enclosed report shows the effects of Congressional action on the fiscal year 2002 budget and is current through July 11, 2001. This report is submitted under section 308(b) and in aid of section 311 of the Congressional Budget Act, as amended.

The estimates of budget authority, outlays, and revenues are consistent with the technical and economic assumptions of H. Con. Res. 83, the Concurrent Resolution on the Budget for Fiscal Year 2002. The budget resolution figures incorporate revisions submitted by the Committee on the Budget to the House to reflect funding for emergency requirements. These revisions are required by section 314 of the Congressional Budget Act, as amended. This is my first letter for fiscal year 2002.

Since the beginning of the first session of the 107th Congress, the Congress has cleared four acts that changed budget authority, outlays, or revenues for 2002: an act to provide reimbursement authority to the Secretary of Agriculture and the Interior from wildland fire management funds (P.L. 107-13), the Fallen Hero Survivor Benefit Fairness Act of 2001 (P.L. 107-15), the Economic Growth and Tax Relief Reconciliation Act of 2001 (P.L. 107-16), an act to authorize funding for the National 4-H Program Centennial Initiative (P.L. 107-19). The effects of these new laws are identified in the enclosed table.

Sincerely,

BARRY B. ANDERSON
(For Dan L. Crippen, Director)

Enclosure.
TOBACCO IS NUMBER ONE PUBLIC HEALTH CONCERN IN AMERICA

The SPEAKER pro tempore. Under the Speaker's announced policy of January 3, 2001, the gentleman from New Mexico (Mr. Udall) is recognized for 60 minutes as the designee of the minority leader:

Mr. UDALL of New Mexico. Mr. Speaker, it is a real pleasure to be here this evening. Let me begin by talking a little bit this evening about tobacco issues, because I have been involved as a State attorney general on the issue of tobacco. I was involved in the massive piece of tobacco litigation that State attorneys general filed across the country in their respective States, and we also, as a result of that, had a settlement; and we learned a lot about tobacco, about tobacco companies, about tobacco companies targeting kids. It is something that is a pretty incredible story. It also says something about public health in America and where we should be headed.

This is our real purpose here tonight, is to talk about the public health side and to talk also about the side of the administration, this current administration, the Bush administration, carrying on a tobacco lawsuit, the Federal Government versus the tobacco companies; and we will also be talking about that.

First of all, let me talk a little bit about the public health problem when it comes to tobacco, because a lot of people do not understand the massive size of the public health problem that we have here in America when it comes to tobacco. Mr. Speaker, 435,000 people every year are killed by tobacco. These are tobacco-related deaths, and it is a huge number. When we hear the number, we all hear statistics and we wonder what they mean. Take all other causes of death out there, and let us just go through a few here, auto accidents, suicides, murders, deaths by infectious diseases, deaths from AIDS; think of any other chronic illnesses, heart disease. If we add a lot of these up and we total them, we still do not get to the number of deaths caused by tobacco.

So when we talk about the cause of death and talk about public health problems, we clearly have a huge one when it comes to tobacco; and it is one that I think is in a way demonstrated, and I am going to have another Member join me here and maybe others if they want to come down and talk about this; but it is demonstrated by a physician that I talked to, a cancer doctor in New Mexico. She is an oncologist. She told me this story. She said, I work in the cancer field. It is a very trying field to work in. She is very interested in tobacco and lung cancer and that whole relationship.

She said, "If tomorrow we could stop people smoking, one-third of my patients would go away immediately." So the people that she is treating today, if we stopped individuals from smoking, she would lose an entire third of her patients. She of course said that she sees every day all the pain and suffering that people go through. She said, "I would be happy to have that happen, to see that loss of patients." So when we are talking about cancer docs across the country taking a look at this, we can see the kind of impact it is having.

One of the other facts here that is very, very important is that tobacco companies have targeted our kids in America for addicting them to tobacco. I would just like to give some of the facts here.

People do not realize that the tobacco companies saw their markets going down about 10 or 15 years ago. They saw their markets going down. They saw the number of people shrinking. The older people were quitting. They did a lot of research. This is in their files. There were documents that we recovered from them as State attorneys general.

They discovered several things. They discovered first of all if they build their younger market, then they are able to increase their markets dramatically. That is what they did. They started targeting younger people to start smoking. It is documented. It is in there. It is something that is pretty astounding, when we think about it.

Listen to these figures. Almost 90 percent of the adult smokers began at or before the age of 18. So it is the young people that are starting, and they continue for their whole lives. Every day in America more than 3,000 kids become regular smokers. That is more than 1 million kids a year. Roughly one-third of them will eventually die from tobacco-related disease.

Fifteen and one-half million kids are exposed to secondhand smoke at home. More than 3 million of our children ages 12 to 17 are current smokers, and 900 million packs of cigarettes are consumed by our children a year. More than one-third of all these children who ever try smoking a cigarette become regular daily smokers before leaving high school.

That is what these tobacco companies knew all along. They knew if they got young people addicted, that they would stay addicted for a lifetime, and keep buying cigarettes, and their profits would keep going up. It is a horrible story to tell, but it is out there and it is documented. It is part of these tobacco lawsuits that the State attorneys general brought.

Now, who stepped in to do something about this? Very little was done at the Federal level in the 1990s. Did we see any other people stepping out to do something about it? Private individuals hired attorneys and went to court and tried to sue the tobacco companies.

The tobacco companies had never settled a case. They fought these cases all the way to the U.S. Supreme Court, if they had to, and they always defeated these poor little plaintiffs, many of whom had smoked for 30, 40, or 50 years, and then had contracted lung cancer.

But in the 1990s, there were a group of attorneys general, first led by Attorney General Mike Moore from Mississippi, who filed the first lawsuit down there in Mississippi. It grew over the years, and eventually we had 45 attorneys general join this lawsuit.

These lawsuits were pushed hard. They were fought hard. There was an
For a few years after the settlement, the tobacco companies tried to pass a bill and deal with the whole issue at the Federal level. At one press conference, Attorney General Ashcroft was saying “It would be a big-government travesty at its biggest to use the tragedy of tobacco as a smokescreen to cover the expansion of the nanny state." In other cases, Senator Ashcroft at the time said things like this was a frivolous lawsuit. He was the only one on the Senate Committee on Commerce that voted against reporting the tobacco settlement of the Nanny State.

So, basically, we have an individual that is in the Attorney General’s office. He is the lead negotiator on this case. He is somebody that can make the decision one way or another as to how this case is handled, what the strategy is to pursue in court, and whether and on what terms it should be settled. That is really the issue that is before us today.

We have been joined this evening by the gentleman from Colorado (Mr. Udall). I know that he has an interest also in tobacco and these public health problems that are out there. I yield to the gentleman from Colorado (Mr. Udall) to see if he is interested in talking a little bit about this current lawsuit and this current situation, and reflect on his views.

Mr. Udall of Colorado, Mr. Speaker, I thank my colleague, the gentleman from the State of New Mexico, for yielding to me and providing me with some time to talk about this very important issue tonight. I also wanted to applaud his efforts as attorney general of the State of New Mexico, and now as Member of the U.S. House of Representatives.

As I was listening to the gentleman, I was thinking about all of the viewers tonight who have children, and particularly daughters. I have an 11-year-old daughter, a soon to be 11-year-old daughter. She is a very important part of my life.

When I looked at the statistics that the gentleman has shared with us in general, and then broke them down into the statistics that apply to women and girls, I thought it was very striking. I want to share a few of those with the Members tonight, and then talk a little bit about the lawsuit situation, as well. It is stunning to think of some of these statistics and what they really mean.

Smoking prevalence is higher among women with 9 to 11 years of education than women with 13 to 15 years of education, and three times higher than women with 16 or more years of education. Smoking among girls and women has increased dramatically in the 1990s. From 1991 to 1999, smoking among high school girls increased from 27 percent to 34 percent.

A report published in the American Journal of Public Health shows that girls have an easier time buying cigarettes than boys, even at the youngest ages. Now come the tragic statistics. In 1997, nearly 165,000 women died of smoking-related diseases. Since the Surgeon General’s Report on Women and Smoking was released in 1980, more than two million women have died prematurely of smoking-related diseases.

As with men, smoking is related to heart disease and lung cancer, but women smokers also face increased risks of cervical cancer and osteoporosis. In the 1980s, lung cancer overtook breast cancer as the leading cause of cancer death in women. Since 1950, lung cancer mortality rates for women have increased 600 percent.

Cigarette smoking doubles the risk of coronary heart disease, and accounts for more than 80 percent of lung cancers in women. Women also have a much more difficult time when they want to quit smoking. They have lower cessation rates, and girls and women aged 12 to 24 are much more likely to report being able to cut down on smoking than men and boys of those same ages.

Females are significantly more likely than boys to report feeling dependent on cigarettes, and are more likely to report feeling sad, blue, or depressed during attempts to quit smoking.

I would remind the viewers that cigarette companies first began targeting women in the 1920s. Up to that point, smoking among women was not particularly socially acceptable, but they were savvy. They equated smoking with freedom and emancipation.

Women continue to be a target of the cigarette companies. Cigarette advertising and promotions use themes of empowerment and sophistication. The cigarette companies, and I think my colleague, the gentleman from New Mexico, touched on this, but they spent more than $3 billion on advertising and promotion in 1999, a 22 percent increase over the $6.7 billion spent in 1998. This is the largest increase in dollar terms since the Federal Trade Commission began tracking industry sales in advertising in 1970.

Clearly, this points out that we have a real public health challenge, and that it is one that we cannot turn our backs on. The gentleman from New Mexico talked a little bit about the history of the lawsuits brought by the States that was then taken up by the Federal Government.

I, too, want to express my concern that Attorney General Ashcroft, given his past skepticism about the tobacco settlement bill, and indeed, his work to stop the tobacco settlement bill, is now heading up these efforts at the Federal level. I, too, want to lend my voice to the calls for the Attorney General to establish a neutral and independent review board to provide oversight of any proceeds from the settlement.

I think such a review board could be composed of a bipartisan slate of attorneys general from the States who could act as neutral arbitrators. I would hope...
that the Attorney General would recuse himself, at a minimum, from the negotiation process.

This widespread use of tobacco is eating away at our society’s physical and financial health. We cannot bear, I think, to wait another day before we continue these efforts to point out the dangers of this real epidemic to our public health.

I have been pleased to join my colleagues, and at this point would yield back to him for further comments.

Mr. UDALL of New Mexico. I very much want to thank the gentleman from Colorado for those comments. I know that he and I and many others here in the House of Representatives are going to be monitoring this very closely and trying to make sure that Attorney General Ashcroft does what is in the public interest if he stays on the case. I think we both feel he should not be on the case.

Let me also talk a little bit about the gentleman’s comments about women. The women in America have had a tragic situation when it comes to their relationship with tobacco. The statistics are pretty astounding. And that is why when we do these tobacco settlements, one of the conditions that should be in there and one of the ways settlement monies can be used is to try to do everything we can to educate people about quitting, offering them cessation courses, doing counter-advertising.

One of the States that has done an incredible job is the State of California, which has put a tax on cigarettes and then taken that money and advertised and showed everybody that is out there the danger of tobacco, and they in particular target their advertising to young people and say this is going to be your future. They show them lungs that have been damaged. They show older individuals that have wrinkles all over their faces because of premature aging from smoking and try to let them know what kind of damage this is going to do. So it is important that we protect everybody, protect women, and that we come up with a variety of programs with these settlement monies to try to do that.

The gentleman’s comments on Attorney General Ashcroft, I think, are crucial. And over and over again we see the statements he made as a United States Senator before he got to be Attorney General. Listen to his statement on FDA authority over the tobacco industry. This was from a letter dated June 7, 2000. “I believe that the most effective way to combat nicotine addiction by people of all ages is not to allow the FDA to regulate the tobacco industry.”

Well, that is just the opposite of what we ought to be doing. President Clinton used FDA authority to get out there, to regulate, to say that you cannot target young people in this country, and the courts threw it out. So now when we have legislation where the FDA has no regulatory authority. I have authored a bill in the Congress that gives regulatory authority to the FDA. We have a number of sponsors on that, and I think that is a good solid piece of legislation.

Mr. UDALL of Colorado. If the gentleman will continue to yield.

Did now Attorney General Ashcroft, but then Senator Ashcroft, propose a different system or did he just suggest we throw open the gates and everybody have at it? I cannot imagine where we would be if we had that kind of system until this point, when after many years we have been able to gather information and data that suggested the Government’s activities, in regards to the qualities of nicotine and other substances.

It strikes me that this is a very illustrative comment, also one that causes me great concern. Mr. UDALL of New Mexico. The gentleman’s comment is correct, and when Senator Ashcroft made that statement he was specifically targeting FDA regulation. And really what he was saying, he was taking a very libertarian approach; just let anybody do whatever they want and let the private sector work. Let the tobacco companies get out there and advertise all they want and get our young people addicted. And he is saying the government should play no role. That, I think, is an irresponsible position.

Mr. UDALL of Colorado. If the gentleman will continue to yield, the Attorney General is welcome to his own opinions. That is what makes this country so great, the first amendment and all the other traditions we have in our law and in our culture that encourages people to speak out on their point of view. But I would suggest that that particular set of sentiments is not held by the American people; that we have decided as a country that tobacco should be regulated, just like we regulate alcohol and other controlled substances.

That again points out the need to create an unbiased and bipartisan group who would oversee the Federal Government’s efforts to get us out of this lawsuit. And this is not, incidentally, about Democrats or Republicans. There are people who have contracted these diseases and these problems in the 400,000 people the gentleman mentioned who are Republicans, Democrats, Libertarians, Green Party. I am sure there are even some anarchists in this group of people. This is not about partisan advantage, but this is about doing the right thing and representing the rights of what the American people reside I think on this issue, which is that there is more to be done.

Mr. UDALL of New Mexico. The gentleman is absolutely correct, and I cannot emphasize enough that the lawsuits that were brought by State attorneys general were brought by Democrats. An Republican, one of the great gentlemen known, in his home State of Colorado, Attorney General Gale Norton, who is now Secretary of the Interior, she brought a lawsuit in the State of Colorado against the tobacco companies. She was part of the master settlement. She, like everyone else, was very concerned about the situation with women, the targeting of young people and trying to addict them over a lifetime. So she was out there as a Republican, very active, and there were many other Republican attorneys general around the country that were involved. So this was a bipartisan effort.

Back to this issue of Attorney General Ashcroft being in charge of this lawsuit, is the Justice Department’s evidence we have laid out there, I cannot think of a worse individual to be in charge of the Nation’s lawsuit against the tobacco companies. It is really like putting the fox in charge of the hen house. This gentleman condemned these lawsuits. He fought the tobacco settlement. He was the only one in the committee. The vote in the committee was 19 to 1. He was the one in the committee. And now we have him as Attorney General and he is the head litigator.

One of the first things he did was to announce, well, I think we have a weak lawsuit; we better settle. That is no way to go into a lawsuit. It is no way to go into settlement negotiations. You have to get in there and be tough with these companies, as the State attorneys general were. He seems to be folding his tent before he has even started.

Once you raise the whole question of conflict of interest, it raises the question of an appearance problem, and it raises the whole issue of bias. And I think one of the individuals that said it the best was the person that wrote the editorial for The New York Times just a couple of weeks ago when they said “The Bush administration has shown a troubling propensity for putting the interests of industrial campaign backers before its duty to protect public health. The latest case in point is the Justice Department’s curious announcement that it will attempt to settle the huge tobacco lawsuit against the tobacco industry brought by the Clinton administration 2 years ago, explaining in part that it thinks the case is weak. Attorney General John Ashcroft, a major opponent of the lawsuit when he was in the Senate, included no funding for the suit in his budget. So in that sense this week’s action is no surprise. Mr. Bush’s spokesman explains that the President thinks society is ‘too litigious,’ and that it is preferable to ‘reach agreements,’ but abandoning the case is not the way to preserve leverage.”
Mr. UDALL of Colorado. If the gentleman will yield, that is so true. And in any contest you do not tell the other team what you have; but in the court or arrive at the golf course that you have a weakened game that day and your team is not really prepared to compete. And that is what lawsuits are. They are often the last resort option that you have; but in many cases in our society, the judicial system has proven to be an important place to play out further the debate that is necessary in our society.

I was interested to also hear the comments about the Attorney General saying there was not enough money to pursue the case. Well, the number I have heard is about $233 million. That is real money. But when we look at the cost of the lives and the cost that we have don’t illustrate Medicare and Medicaid and all of our private health systems, that is a small amount of money to invest in doing right in all the areas the gentleman has suggested.

I also find it interesting that perhaps it was suggested that there was not any money available to pursue these lawsuits. But the Attorney General himself is in charge of putting together his budget. So it is a bit like saying I do not have any money, even though I am in charge of how the money is allocated. How you spend money gives a sense of your priorities. This clearly is not a priority for the Attorney General and potentially, by extension, the President.

I think it is a priority for the American people. That is why we are here tonight to point out that there are thousands of American citizens who think this lawsuit ought to be pursued and that, in the end, this is not about lawsuits, it is not about money, it is not a money grab, it is about our children in particular and about the costs that tobacco use imposes on our society.

Mr. UDALL of New Mexico. I thank my colleague very much for those comments. And let me follow on one of the thoughts that came out of what the gentleman just said and this New York Times editorial I just talked about.

There was a paragraph in there that I thought was particularly interesting that I thought the gentleman mentioned last night. People may wonder why the Times said this. They said in the editorial, “the interests of industrial campaign backers before its duty to protect the public health.” They were accusing the Bush administration of showing a troubling propensity to put the interests of industrial campaign backers before the duty of public health.

So what are they talking about there? And I have been following this very closely because we all know when we run in campaigns and we are active and we are out there and doing fund-raising the, fund-raising can tell us a lot about actions and agenda and those kinds of things. We have just finished here tonight a discussion of campaign finance reform, and so if we look at the Center for Responsive Politics and what they have researched on money in the last election, 83 percent, 83 percent of the tobacco contributions went to the Republican Party.

So when they talk about following contributors, I think that is what they are talking about there. If we look at individual contributions, $90,000 went specifically to the Bush campaign, only $8,000 to the Gore campaign. So we are talking about another large amount in terms of differences. A large disparity.

So the bottom line here is that President Bush has got to get a new negotiator. I wrote what I considered a very congenial letter. The gentleman mentioned it in his comments, a congenial letter. But this is a problem, this is an appearance, a serious appearance problem. This gentleman has come to the job with a bias and you have to get a new negotiator to protect the public interest.

Now, I do not have anybody in mind, and I would not be presumptuous to tell the President who to pick as his negotiator. He clearly needs someone he can trust, and he ought to replace the current Attorney General and just have him step aside on this. But the other way, it seems to me, with this whole cloud that is out there over this settlement, to take care of this, is to involve the State attorneys general.

There is nobody in the Nation with more credibility on this issue than the State attorneys general. They sued the tobacco companies. They were the first ones to bring them to the table. They were the very first ones to get a settlement of tobacco companies. No other lawyer had ever done this before. The tobacco companies always used to wave their fingers at us and say, we fight to the end. If you file against us, we are going to fight it to the end and we have never paid a penny. Well, they paid $240 billion. So that is a pretty penny there, I will tell you.

Mr. UDALL of Colorado. Again asking my colleague to yield, I would note that the President certainly is a prominent member of the Federalism. It is this problem, this is a conflict, this has an appearance, a serious appearance problem. This gentleman has come to the job with a bias and you have to get a new negotiator to protect the public interest.

Now, I do not have anybody in mind, and I would not be presumptuous to tell the President who to pick as his negotiator. This gentleman has come to the job with a bias and you have to get a new negotiator to protect the public interest.
way that this settlement was worked out, it will flow in over 25 years. We do not have all $1.2 billion at this time. We actually have to put it into trust funds, and they balloon up over time.

Mr. Speaker, let me talk about some of the proposals that were out there and then some of the issues that we are actually doing now, and maybe we can get into a discussion of that. First of all, the public health community came forward, many of these cancer doctors, the oncologists came forward, and the American Cancer Society and the American Lung Society, all of them came forward and said, we need to work on specifically how we spend these dollars.

They came up with what I thought were some very good recommendations. First of all, we could start a trust fund. One of the best recommendations, and I was very supportive of this, as was worked with my legislature, set up a trust fund and try to get the trust fund to the level that it was way up there in dollars so we could then use the principal rather than using the capital. If you took a lot of this money and put it into a trust fund, then there could be a perpetual flow of money to deal with the tobacco issues.

Mr. UDALL of Colorado. Mr. Speaker, so the gentleman is suggesting to treat it as an endowment for our children's future, and direct the return and the interest off the endowment into these efforts, and it would be a very conservative way to proceed, and that would ensure that those monies were there into perpetuity for use of citizens in the gentleman's home State?

Mr. UDALL of New Mexico. Mr. Speaker, the gentleman is correct. And what we were trying to do in recommending some kind of trust fund was to say these issues are not going away. The tobacco companies are advertising, and they are still out there. We prevented them from targeting kids, but they are still out there selling cigarettes. We know how many kids; 3,000 kids are starting smoking every day. The idea is get a trust fund, have those monies, the principal on your trust fund, work toward preventing that.

One of the most effective things that can be done is counteradvertising, and that is one of the recommendations that we were making. Go on television, and go out with billboards, and any information you can give to the public about the dangers of smoking and try to target it to specific audiences and have it be relevant to those audiences.

After somebody gets addicted, they start when they are young, one of the next issues is how do you get them off. There are cessation programs. There are a variety of programs to help people wean themselves from cigarettes; and that would also be funded. Give people a chance to get themselves off of tobacco.

The thing that is deplorable to me is that many of the States have not taken this approach, have not headed down this road. New Mexico is not completely down this road either. They have let it in so it flows into the general fund and spent on whatever comes up. Some States have taken the money and built roads.

Mr. Speaker, let me talk about some of the proposals that were out there and then what they are actually doing now. The tobacco companies are advertising, and they are still out there. We prescribed that they cannot be done solely as individuals. If you prescribed that you could be made that all of the money ought to be used in the way the gentleman has suggested, where the principal is taken, and it generates a return, and all that can be done over a period of time is done to not only begin to reduce smoking, but eventually reach a point where none of our children start smoking at an age before they really understand the consequences.

Mr. Speaker, if an adult wants to utilize tobacco at some point, that is his or her right to do that. But as the gentleman points out, the statistics are staggering as to how many children start. They then carry that habit and addiction on into their adult years.

I was noting, too, the Attorney General mentioned that he had a concern that it would be a big government travesty to use the tragedy of tobacco as a smoke screen to cover the expansion of the nanny state.

Mr. Speaker, I guess I would beg to differ with him, and I think many Americans would, that this is an appropriate place for government regulation. This is an appropriate place for all of us through our government to come together and make sure that our children are not exposed to the great dangers of tobacco.

Abraham Lincoln, the founder of the Republican Party, suggested that we do together through government what cannot be done solely as individuals.

It is clear that the power and the resources of the tobacco companies are enormous, and that the role that government can play in providing a counterbalance is crucial. Our free enterprise system provides for a lot of freedom and for small businesses and large entities to act responsibly. I think that is the purpose at the heart of the litigation that has been brought, and I think that is against why I share the concerns that the Justice Department needs to look for a broader-based approach. It needs to involve other entities besides the individual States in its pursuit of the important lawsuit that we have been discussing tonight.

Mr. UDALL of New Mexico. Mr. Speaker, if the gentleman would yield, there are two important points here. Number one, get a new negotiator. There are plenty of former Attorneys General, there are State attorneys general, there are people in the government. The President should have another negotiator in place.

Secondly, how do you give credibility to this whole process? The process right now has a big cloud over it. There are serious questions that have arisen. I think involving the States attorneys general, a group of attorneys general could come in, and it would cause headway towards a settlement now, in this a good settlement. Then they can visit privately with the administration. Also in the end they should be able to make public pronouncements about the validity of the lawsuit, the size of the settlement, what was extracted in the settlement. There is no group in this country that knows more about what should be in a settlement than State attorneys general.

I would hope that not only would he remove Attorney General Ashcroft from this, but he would also focus on some independent oversight by State attorneys general. I certainly believe that with the combination of those two items, that we would be able to have a good outcome here.

Mr. UDALL of Colorado. Mr. Speaker, if the gentleman would yield, I would appeal to all of our colleagues in the House, all 435 of us, to weigh in with the President and request that he consider what I thought was a very thoughtful request on the part of the gentleman from New Mexico, and I think other colleagues would join the gentleman if they knew the extent to which this is an important issue facing us.

Mr. Speaker, it is an opportunity. It is arguably a health care crisis, but it also presents us with a real opportunity. I hope colleagues who have been here and have listened to our special interest groups, and are also making their own pitch to the President that this is a worthy undertaking and one that will be remembered not just in the near future if we do it right, but will be remembered for decades to come; that we got ahold of this public health problem and that we did something about it when it was appropriate and when our kids are really what are at risk here.

So I want to commend the gentleman for being one the leadership in this important area, and for after 8 years as attorney general and now 3 years in this body is continuing the good work on behalf of our children.
Mr. UDALL of New Mexico. Mr. Speaker, I commend the gentleman from Colorado for his leadership on this issue and caring about our children in this country.

Mr. Speaker, I will say as we wrap up here that these are important issues to the American people.

**LEAVE OF ABSENCE**

By unanimous consent, leave of absence was granted to:

Ms. WATERS (at the request of Mr. GEPPARD) for July 10 on account of illness.

Mr. MOORE (at the request of Mr. GEPPARD) for today after 4:00 p.m. and the balance of the week on account of attending his son's wedding in Hungary.

**SPECIAL ORDERS GRANTED**

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. HASTINGS of Florida) to revise and extend their remarks and include extraneous material):

Ms. NORTON, for 5 minutes, today.

Mr. FALLONE, for 5 minutes, today.

Ms. MILLIENDER-MCDONALD, for 5 minutes, today.

(The following Members (at the request of Mr. WICKER) to revise and extend their remarks and include extraneous material):

Mr. SMITH of Michigan, for 5 minutes, today.

Mr. SIMMONS, for 5 minutes, July 18.

(The following Members (at their own request) to revise and extend their remarks and include extraneous material):

Mr. DOOLITTLE, for 5 minutes, today.

Mr. CUMMINGS, for 5 minutes, today.

Mr. NUSSEL, for 5 minutes, today.

Mr. PLATTS, for 5 minutes, today.

**ADJOURNMENT**

Mr. UDALL of New Mexico. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 8 o'clock p.m.), under its previous order, the House adjourned until Monday, July 16, 2001, at 2 p.m.

**EXECUTIVE COMMUNICATIONS, ETC.**

Under clause 8 of rule XII, executive communications were taken from the Speaker's table and referred as follows:

2861. A letter from the Acting Assistant General Counsel for Regulations, Department of Education, transmitting the Department's final rule—Notice of Final Funding Priorities for Fiscal Years (FY) 2001–2002 for two Rehabilitation Research Training Centers—received July 3, 2001, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Education and the Workforce.

2862. A letter from the Acting Assistant General Counsel for Regulations, Department of Education, transmitting the Department's final rule—Notice of Final Funding Priorities for Fiscal Years (FY) 2001–2002 for three Disability and Rehabilitation Research Projects—received July 3, 2001, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Education and the Workforce.

2864. A letter from the Assistant Secretary, Pension and Welfare Benefits Administration, Department of Labor, transmitting the Department's final rule—Employee Retirement Income Security Act of 1974; Rules and Regulations for Administration and Enforcement [Claimant Review; RIN: 0435–AE41] received July 9, 2001, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Education and the Workforce.

2865. A letter from the Assistant Legal Adviser for Treaty Affairs, Department of State, transmitting copies of international agreements, entered into by the United States, pursuant to 1 U.S.C. 112(b); to the Committee on International Relations.

2868. A letter from the Executive Director, Committee For Purchase From People Who Are Blind Or Have Other Severe Disabilities (RIN: 2511–AF64) received July 9, 2001, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Government Reform.

2869. A letter from the Secretary, Department of Housing and Urban Development, transmitting the Department's FY 2000 Performance and Accountability Report; to the Committee on Government Reform.

2870. A letter from the Acting Assistant Attorney General for Administration, Department of Justice, transmitting the Department's final rule—Privacy Act of 1974; Implementation—received July 3, 2001, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Government Reform.

2872. A letter from the Under Secretary for Legislative Affairs, Department of State, transmitting the Department's final rule—Visas: Documentation of Immigrants under the Immigration and Nationality Act, as amended—Diversity Visas—received July 9, 2001, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on the Judiciary.

2873. A letter from the Chief, Office of Regulations and Administrative Law, USCG, Department of Transportation, transmitting the Department's final rule—Technical Amendments; Organizational Changes; Miscellaneous Editorial Changes and Conforming Amendments [USCG–2001–9236] received July 3, 2001, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2874. A letter from the Chief, Office of Regulations and Administrative Law, USCG, Department of Transportation, transmitting the Department's final rule—Raising the Threshold of Property Damage for Reports of Accidents Involving Recreational Vessels [USCG 1999–6094] (RIN: 2115–AP67) received July 3, 2001, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2875. A letter from the Chief, Office of Regulations and Administrative Law, USCG, Department of Transportation, transmitting the Department's final rule—Sustenance Management Regulations for Marine Events; Maryland Swim for Life, Chester River, Chestertown, Maryland (CGD06–01–031) (RIN: 2115–AE46) received July 3, 2001, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2876. A letter from the Chief, Office of Regulations and Administrative Law, USCG, Department of Transportation, transmitting the Department's final rule—Special Local Regulations for Marine Events; PatapSCO River, Baltimore, Maryland (CGD05–01–032) (RIN: 2115–AE46) received July 3, 2001, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2877. A letter from the Chief, Office of Regulations and Administrative Law, USCG, Department of Transportation, transmitting the Department's final rule—Special Local Regulations for Marine Events; Northeast River, North East, Maryland (CGD46–01–430) (RIN: 2115–AE46) received July 3, 2001, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2881. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Boeing Model 737–800 Series Airplanes [Docket No. 2001–NM–354–AD; Amendment 39–12279; AD 2001–12–23] (RIN: 2120–AA64) received July 9, 2001, pursuant to 5 U.S.C. 801(a)(1); to the Committee on Transportation and Infrastructure.

2882. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Boeing Model 737–700 Series Airplanes [Docket No. 2001–NM–193–AD; Amendment 39–12294; AD 2001–12–51] (RIN: 2120–AA64) received July 9, 2001, pursuant to 5 U.S.C. 801(a)(1); to the Committee on Transportation and Infrastructure.

2883. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Bombardier Model DHC–8–400 Series Airplanes [Docket No. 2001–NM–144–AD; Amendment 39–12253; AD 2001–11–10] (RIN: 2120–AA64) received July 9, 2001, pursuant to 5 U.S.C. 801(a)(1); to the Committee on Transportation and Infrastructure.

2884. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; American Champion Aircraft Corporation 7, 8, and 11 Series Airplanes [Docket No. 2001–CE–121–AD; Amendment 39–12255; AD 2000–25–02 R1] (RIN: 2120–AA64) received July 9, 2001, pursuant to 5 U.S.C. 801(a)(1); to the Committee on Transportation and Infrastructure.

2885. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Eurocopter Agusta A109 Series Helicopters [Docket No. 2001–SW–08–AD; Amendment 39–12248; AD 2001–13–04] (RIN: 2120–AA64) received July 9, 2001, pursuant to 5 U.S.C. 801(a)(1); to the Committee on Transportation and Infrastructure.

2886. A letter from the Director, Office of Regulations Management, Department of Veterans' Affairs, transmitting the Department's final rule—Airworthiness Directives; Eurocopter AS355 Helicopters [Docket No. 2001–SW–29–AD; Amendment 39–12290; AD 2001–13–05] (RIN: 2120–AA64) received July 9, 2001, pursuant to 5 U.S.C. 801(a)(1); to the Committee on Transportation and Infrastructure.

2887. A letter from the Department of Agriculture, transmitting notification of the intention of the Departments of the Army and the Department of Agriculture, transmitting notification of the intention of the Departments of the Army and the Department of Agriculture to interchange jurisdiction of civil works and Forest Service lands at and near the State line of Missouri and Arkansas, as follows:

Mr. HYDE: Committee on International Relations. H. R. 2489. A bill to amend title X VIII of the Social Security Act to improve the provision of items and services provided to Medicare beneficiaries residing in rural areas; referred to the Committee on Ways and Means, and in addition referred to the Committee on Education and the Workforce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. BOSWELL (for himself, Mr. BARRETT, and Mr. OSBORNE):

H. R. 2485. A bill to amend title XVIII of the Social Security Act to improve the provision of items and services provided to Medicare beneficiaries residing in rural areas; referred to the Committee on Ways and Means, and in addition referred to the Committee on Education and the Workforce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. CAPUANO (for himself, Mr. FOLEY, Mr. TOWNS, Mr. WILDON of Florida, Mr. BURGER, and Mr. MCDERMOTT):

H. R. 2484. A bill to amend title XVIII of the Social Security Act to improve the provision of vision services under part B of the Medicare Program; referred to the Committee on Energy and Commerce, and in addition referred to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. ENGLISH (for himself, Mr. NEAL of Massachusetts, Mrs. JOHNSON, and others):

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions were introduced and severally referred, as follows:

By Mr. LUCAS of Oklahoma:

H. R. 2480. A bill to reauthorize, improve, and expand conservation programs administered by the Department of Agriculture, to the Committee on Agriculture.

By Mr. YOUNG of Alaska (for himself, Mr. LOBIONDO, and Ms. BROWN of Florida):

H. R. 2481. A bill to improve maritime safety and the quality of life for Coast Guard personnel, and for other purposes; to the Committee on Transportation and Infrastructure.

By Mr. WILHF (for himself, Mr. GEORGE MILLER of California, Mr. LANTOS, Mr. FILNER, Ms. SANCHEZ, Ms. ROYBAL-ALLARD, Mr. FAHR of California, Mr. FRANK, Mrs. NAPOLITANO, Mr. HONDA, and Ms. WATERS):

H. R. 2482. A bill to repeal the tuition-sensitivity trigger in the Pell Grant program and to expand qualifying expenses and income eligibility for the Hope Scholarship and Lifetime Learning Credits; referred to the Committee on Ways and Means, and in addition referred to the Committee on Education and the Workforce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. BOSWELL (for himself, Mr. BARRETT, and Mr. OSBORNE):

H. R. 2483. A bill to amend title XVIII of the Social Security Act to improve the provision of items and services provided to Medicare beneficiaries residing in rural areas; referred to the Committee on Ways and Means, and in addition referred to the Committee on Education and the Workforce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. CAPUANO (for himself, Mr. FOLEY, Mr. TOWNS, Mr. WILDON of Florida, Mr. BURGER, and Mr. MCDERMOTT):

H. R. 2484. A bill to amend title XVIII of the Social Security Act to improve the provision of vision services under part B of the Medicare Program; referred to the Committee on Energy and Commerce, and in addition referred to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. ENGLISH (for himself, Mr. NEAL of Massachusetts, Mrs. JOHNSON, and others):
of Connecticut, Mr. Tanner, and Mr. Polka.

H.R. 2485. A bill to amend the Internal Revenue Code of 1986 to allow advanced applied technology equipment to be expensed and to reduce the depreciation recovery periods for certain real property; to the Committee on Ways and Means.

By Mr. Etheridge (for himself, Mr. Bordallo of Guam, Mr. Werner of Connecticut, Mr. Mann of Nebraska, Mr. Conyers, Mr. Polka, Mr. Alcee L. Hastings of Florida, Mr. Jackson-Lee of Texas, Mrs. Kennedy of Massachusetts, Mr. Sensenbrenner, Mrs. Christian of Minnesota, Mr. Lantos, Mr. Hoke, Mrs. Clay- lton, Mr. Cramer, and Mr. Diaz-Balart).

H.R. 2486. A bill to authorize the National Weather Service to conduct research and development, training, and outreach activities relating to tropical cyclone inland forecasting improvement, and for other purposes; to the Committee on Science.

By Mr. Gutiérrez.

H.R. 2487. A bill to amend the Higher Education Act of 1965 to establish a scholarship program to encourage and support students who have contributed substantial public service to the Committee on Education and the Workforce.

By Mr. Hansen.

H.R. 2488. A bill to designate certain lands in the State of Utah as wilderness, and for other purposes; to the Committee on Resources.

By Ms. Hart (for herself, Ms. Millicent McDonald, Mr. Bilirakis, Mr. Owens, Mr. Lantos, Ms. Sanchez, Ms. Woolsey, Mrs. Tauscher, Mrs. Morella, Ms. Solis, Ms. Horsley, Mr. Burt of Florida, Mr. George Miller of California, Ms. Waters, Mr. Watkins, Mr. English, Mr. Platts, Mr. Greenwood, Mr. Payne, Mr. Harman, and Mr. Sanders).

H.R. 2489. A bill to provide effective training and education programs for displaced homemakers, single parents, and individuals entering nontraditional employment; to the Committee on Education and the Workforce.

By Mr. Kleczka (for himself and Mr. Spellman).

H.R. 2490. A bill to amend title XVIII of the Social Security Act to limit the hospital inpatient cost sharing that applies to services; to the Committee on Energy and Commerce, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. Mckeeon.

H.R. 2491. A bill to establish a grant program to train law enforcement officers, and for other purposes; to the Committee on the Judiciary.

By Mr. Pence (for himself, Mr. Buyer, Mr. Hostettler, Mr. Schrock, Mr. Kirk, Mr. Kirk of Indiana, Mr. Kirk of Ohio, Mr. Hulpser, Mr. Gravely of Michigan, Mr. Keller, Mr. Rehberg, Mr. Culherson, and Mr. King).

H.R. 2492. A bill to authorize the President to posthumously advance the late Admiral Raymond Ames Spruance to the grade of Fleet Admiral of the United States Navy; to the Committee on Armed Services.

By Mr. Range.

H.R. 2493. A bill to repeal the requirements under the United States Housing Act of 1937 for residents of public housing to engage in economic self-sufficiency programs; to the Committee on Financial Services.

By Mr. Sokolow.

H.R. 2494. A bill to provide an additional 2.3 percent increase in the rates of military basic pay for members of the uniformed services above the pay increase proposed by the Department of Defense so as to ensure at least a minimum pay increase of 7.3 percent for each member; to the Committee on Armed Services.

By Mr. Stupak.

H.R. 2495. A bill to provide for and approve the settlement of certain land claims of the Six Nations of the Grand River, and the Sault Ste. Marie Tribe of Chippewa Indians; to the Committee on Resources.

By Mr. Udall of Colorado.

H.R. 2496. A bill to direct the Secretary of Energy to develop and implement a strategy to encourage and support students to undertake degrees in energy related fields; to the Committee on Energy and Commerce.

By Mr. Velázquez.

H.R. 2497. A bill to amend the Public Health Service Act and the Employee Retirement Income Security Act of 1974 to establish certain requirements for managed care plans; referred to the Committee on Energy and Commerce, and in addition to the Committee on Education and the Workforce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Ms. Waters.

H.R. 2498. A bill to amend the Consumer Credit Protection Act to protect consumers from inadequate disclosures and certain abusive practices in rent-to-own transactions, and for other purposes; to the Committee on Financial Services.

By Mr. Wu.

H.R. 2499. A bill to terminate funding for the Fast Flux Test Facility at the Hanford Nuclear Reservation in Washington; referred to the Committee on Science, and in addition to the Committees on Energy and Commerce, and Armed Services, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. Baca.

H. Res. 190. A resolution expressing the sense of the House of Representatives that the United Nations should immediately transfer to the Israeli Government an unedited and uncensored videotape that contains images which could provide material evidence for the investigation into the incident on October 7, 2000, when Hezbollah forces abducted 3 Israeli Defense Force soldiers, Adi Avitan, Binyamin Avraham, and Omer Samet; to the Committee on International Relations.

ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 12: Mr. Nussle.

H.R. 17: Mr. Baca.

H.R. 94: Mr. Reyes.

H.R. 116: Mr. Meeks of New York.

H.R. 123: Mr. Hayworth, Mr. Nethercutt, Mr. Putnam, and Mr. Stenholm.

H.R. 162: Mr. Boucher.

H.R. 239: Mr. Schiff.

H.R. 265: Mrs. Meek of Florida, Mr. Davis of Illinois, and Mr. Filner.

H.R. 382: Mr. Baca.

H.R. 415: Mr. Sherman.

H.R. 435: Mr. Nussle.

H.R. 570: Mr. Meeks of New York.

H.R. 599: Mr. Bonilla.

H.R. 606: Mr. Olver.

H.R. 638: Mr. Reynolds.

H.R. 664: Mr. Borelli, Mr. Sherman, Mr. Meeks of New York, Mr. Rangel, Mr. Lewis of Georgia, Mr. Ford, Mr. Davis of Illinois, Mr. Naderle, Mr. Moran of Kansas, Mr. Wu, and Mr. Falinomaravides.

H.R. 684: Ms. Eddie Bernice Johnson of Texas and Mr. Schiff.

H.R. 714: Mr. Ehlers.

H.R. 777: Mr. Udall of Colorado.

H.R. 804: Mr. LaHood.

H.R. 817: Mr. Stark.

H.R. 823: Mr. Hilleary, Mrs. Thames, Ms. Jackson-Lee of Texas, Mr. Ortiz, Ms. Kucinich, Mr. Shimkus, and Mr. Hyde.

H.R. 831: Mr. Kenns, Mr. Spence, Mr. Pastor, Mr. Stupak, Mr. Bilirakis, Mr. Bald- win, Mr. Clement, Mr. Carson of Oklahoma, Mr. Gilman, Mr. Sessions, Mrs. Emerson, Mr. Lantos, Mr. Wamp, Ms. Lofgren, Mr. Nussle, Mr. Hinchey, Mr. Nethercutt, Mr. Wolf, Mr. Frost, Mr. Green of Texas, Mr. Pallone, Mrs. Maloney of New York, and Mr. Guttierrez.

H.R. 839: Mr. Meeks of New York.

H.R. 844: Mr. Greenwood.

H.R. 912: Mr. Kelly, Mr. Gillmor, Mr. LaTourette, Mr. Ehlich, Mr. Kingoda, and Mr. Stearns.

H.R. 951: Mr. Green of Wisconsin and Mr. Davis of Illinois.

H.R. 967: Mr. Baird and Mr. Walsh.

H.R. 972: Mr. Holt.

H.R. 984: Mr. Forbes.

H.R. 986: Mr. McHugh and Mr. Baird.

H.R. 1012: Mr. Gary G. Miller of Cali- fornia and Ms. Harman.

H.R. 1016: Mr. Rogers of Kentucky.

H.R. 1071: Ms. Davis of California, Ms. Jackson-Lee of Texas, Mr. Pallone, Mr. Delahunt, Mr. Payne, Mr. Jefferson, Mr. Allen, and Mr. Stupak.
The Senate met at 9 a.m. and was called to order by the Presiding Officer, the Honorable E. BENJAMIN NELSON, a Senator from the State of Nebraska.

The Senate took the recumbent position.

PRAYER

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

Gracious God, the width and depth and height of Your love is beyond our understanding but never beyond our acceptance. Out of love for us You offer Your faithfulness, guidance, and strength. Then You give us work to do to accomplish Your plans through us.

So bless the Senators and all of us privileged to work for and with Them with an acute awareness of our responsibility to You for what we do with the opportunities that You give us.

In response, we consecrate our lives and our work to You; endue them with Your enabling power. We will cooperate with You, seeking Your guidance and obeying You. And we will anticipate Your interventions to help us when we need You to inspire our thinking, strengthen our resolve, and assure success in our efforts for Your glory.

Today we ask Your special blessing for Jeri Thomson as she is sworn in as the Secretary of the Senate. Be with her, guide her, and direct her.

Now Lord, bring on the day; we are ready. You are our Lord and Saviour. Amen.

PLEDGE OF ALLEGIANCE

The Honorable E. BENJAMIN NELSON led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication from the Senate to the President pro tempore [Mr. BYRD].

The legislative clerk read the following letter:

To the Senate:

Under the provisions of rule 1, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable E. BENJAMIN NELSON, a Senator from the State of Nebraska, to perform the duties of the Chair.

ROBERT C. BYRD, President pro tempore.

Mr. NELSON of Nebraska thereupon assumed the chair as Acting President pro tempore.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

BANKRUPTCY ABUSE PREVENTION AND CONSUMER PROTECTION ACT OF 2001—MOTION TO PROCEED

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be a 3-hour period for debate prior to the cloture vote on the motion to proceed to the consideration of H.R. 333, with 2 hours to be under the control of the Senator from Minnesota, Mr. WELLSTONE, and 1 hour to be equally divided under the control of the chairman and ranking member of the Judiciary Committee or their designees.

The clerk will report the motion. The legislative clerk read as follows: A motion to proceed to the bill (H.R. 333) to amend title 11, United States Code, and for other purposes, the ACLU, the Democrats, the Republicans, the Association of Business Professionals, the National Consumer League, the American Bankruptcy Institute, the American Bankruptcy Resources Institute, the National Association of Consumer Bankruptcy Attorneys. The motion is being viewed as a significant step forward in the battle against bankruptcy abuse and consumer protection.

The clerk will report the motion. The legislative clerk read as follows: A motion to proceed to the bill (H.R. 333) to amend title 11, United States Code, and for other purposes, the ACLU, the Democrats, the Republicans, the Association of Business Professionals, the National Consumer League, the American Bankruptcy Institute, the American Bankruptcy Resources Institute, the National Association of Consumer Bankruptcy Attorneys. The motion is being viewed as a significant step forward in the battle against bankruptcy abuse and consumer protection.

Mr. REID. Mr. President, as the Chair has announced, we are now going to resume consideration of the motion to proceed to the House Bankruptcy Reform Act. There are 3 hours of debate, divided as the chair has announced, prior to a cloture vote on the motion to proceed. Following consideration of this bankruptcy debate, under the previous consent order, the Senate will resume consideration of the International Bankruptcy Reform Act with a vote in relation to the Nelson of Florida amendment. So at 12 o'clock there will be one vote, and at approximately 12:20 there will be another.

The majority leader, Senator DASCHLE, has asked me to announce that he has every hope that we can complete this bill—and the two managers last night indicated they believed they were very close to being able to complete the bill—at a reasonable time early this afternoon or this evening. If we cannot, we will work into the evening. And if we cannot finish it then, we will have to come back tomorrow. There is a lot to do. We hope we can finish this tomorrow. There are many things that both the majority and minority would like to do tomorrow if we have the Interior bill out of the way.

Mr. President, at 11:30, as has been announced, the Senate will swear in the new Secretary of the Senate, Jeri Thomson, who has really dedicated her whole life to the U.S. Senate. I know for me it is a special occasion, as I am sure it is for anyone who knows Jeri. So I look forward to that and to a fruitful debate today.

The Senator from Minnesota is here. I did not see him in the Chamber earlier. He has his 2 hours.

The ACTING PRESIDENT pro tempore. Who yields time?

The Senator from Minnesota.

Mr. WELLSTONE. I thank the Chair. Mr. President, if I could get the attention of the Senator from Alabama—

Does the Senator from Alabama—

—does the minority need the floor right now to do some things? If so, I will be pleased to wait; otherwise, I am ready to go.

Mr. President, if I could get the attention of the Senate. I ask unanimous consent that several pages I have of titles of editorials about the bankruptcy bill be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

EDITORIALS AGAINST THE BANKRUPTCY BILL

This “bullet” symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

These are just kind of random samples:

CONGRESSIONAL RECORD—SENATE July 12, 2001
combined income of the debtor and the debtor’s spouse, even if they are separated, the spouse is not filing for bankruptcy, and the spouse is providing no support for her, for the debtor and her children.

In other words, a single mother who is being deprived of needed support from a well-off spouse is further harmed by this piece of legislation which will deem the full income of that spouse available to pay debts for determination of whether the safe harbor applies and means test applies. It makes no sense whatsoever, and it is incredibly harsh.

Over the past 2 years, any pretense that this piece of legislation is urgently needed has evaporated. Now proponents and opponents agree that nearly all the debtors resort to bankruptcy not to game the system but that it is a desperate measure of economic survival and that only a tiny minority of chapter 7 filers, as few as 3 percent, can afford any debt repayment, according to the American Bankruptcy Institute. Yet low- and moderate-income families, especially single-parent families, are those who need most the fresh start provided by bankruptcy protection. The bill will make it harder for them to get out from under the burden of crushing debt, and that is why I oppose it.

The second reason why I oppose this legislation is that the timing of this bill could not be worse. Basically people are not going to be able to file for chapter 7. Chapter 13 is going to be made more unworkable for many debtors. We had a situation where 4 years ago, when we first started this debate, the big banks and credit card companies were pushing so-called bankruptcy reform, to good economic times when the stock market was soaring. The unemployment rate was coming down. But given the economy we find ourselves with right now, given the fact that we no longer have the same boom economy, that people are now out of work or underemployed, that these are harder times, rushing this bill through seems completely divorced from reality.

What is the most cited reason for filing for bankruptcy? Job loss, and the unemployment rate is rising. What is the second most cited reason? Excessive medical bills, and the cost of health care is rising, as are the number of uninsured. At the same time, we are going to make it impossible for people to file for chapter 7 and rebuild their lives.

While the bill will be terrible for consumers and for regular working families even in the best of times, its effects will be all the more devastating now because we have a weakening economy. It boggles the mind that at a time when Americans are most economically vulnerable, when they are most in need of protection from financial disaster, we would eviscerate the major safety net in our society for the middle class, and that is precisely what this legislation will do. It is the height of insanity that we would be contemplating doing what we are doing given this economy.

It may be the case that the Congress and the President will ignore the plight of these families. Each one of them by themselves is not that powerful. Most folks assume this is never going to happen to us. Most people and most families never expect they are going to have to file for bankruptcy, but at least my colleagues should care about the effect on the economy.

This bill could be a disaster, but I do not want you to take my word for it. I want to quote some excerpts from a column by Robert Samuelson in the March 14 Washington Post. To put it delicately, Mr. Samuelson and I rarely agree on anything. In fact, he likes—I want to be intellectually honest about it—he likes the substance of the bankruptcy bill. All the more reason, I say to my colleagues, to pay attention to him. The title of the editorial is “Bad Timing on the Bankruptcy Bill.” He writes:

The bankruptcy bill about to pass Congress arrives at an awkward moment: the tail end of a prolonged boom in consumer borrowing. From 1995 to 2001 Americans increased their personal debts by about 50 percent to roughly $7.5 trillion—a figure including everything from home mortgages to student loans.

Now comes the bankruptcy bill, which would make it slightly harder for consumers to erase debts through bankruptcy. Although the bill is not especially harsh, it could very well worsen the economic downturn. I do not agree with part of his characterization. I am now focusing on his argument about the effect of the economy.

He concludes:

"The real pressures of high debt are now being compounded by scare psychology. "Drowning in Debt," says the cover story of the latest U.S. News & World Report. "Why you're in so deep—and how to get out before it's too late." The bankruptcy bill sends a similar message: Be prudent, don't overborrow. The message is now about four years too late. Now it may simply amplify the growing gloom. This is not a bad bill, but it certainly is badly timed.

There you have it, I say to my colleagues. Not an opponent but a supporter suggesting that now is not the time, that we could end up prolonging or actually worsening the downturn in the economy.

He is not the only one. A May 21 issue of Business Week had an article titled “Reform that Could Backfire.” The article begins:

"Just as bankruptcy reform seemed headed for certain passage, the economic omens point to a sharp rise in personal bankruptcies over the next few years. The likely results, says economist Mark Zandi of Economy.com, include pain for hard-pressed households, little if any gain for lenders, and, in the event of even a mild recession, major problems for the overall economy."

Again, this is not some leftwing rag; this is the magazine of note for corporate America—Business Week. If Business Week and PAUL WELSTONE are in agreement on an issue, then I ask you: How can we be wrong?

The article concludes:

"The drop in bankruptcies in recent years partly reflected the booming economy. Now, with sharply rising unemployment and slowing income gains, Zandi expects high household debt to take its toll. Especially at risk, he believes, are lower- and middle-class families, for whom debt repayment dictated by the pending bankruptcy reform would entail tremendous hardship. "If the economy becomes mired in recession or sluggish growth," he warns, "the loss of the spending power could significantly retard the recovery."

I ask my colleagues, I ask the majority leader—I am not in agreement with him—what is the rush? Why do you want to do this to families? Why do you want to do this to our economy? Why are you prepared to go to such ridiculous lengths to move this legislation?

Mr. President, I have received a note, I say to Senator SESSIONS, that he wants a few minutes before 9:30 a.m. I did not see it until just now. I will be pleased to yield to my colleague.

Mr. SESSIONS. I will be returning later.

Mr. WELSTONE. Whatever is best for the Senator from Alabama families.

Mr. SESSIONS. Somebody else is going to be replacing me. The Senator can go right ahead. I thank the Senator for his courtesy, as always.

Mr. WELSTONE. Mr. President, I do not really get this. One of the arguments being made is that what we are going to see is an increase in bankruptcies because of a slowing economy and high consumer debts that are overwhelming families and, therefore, we need to pass legislation to curb access to bankruptcy relief. Try that on for size.

For 2 years, while the good times were rolling, the proponents of this bill were citing the number of bankruptcy filings as a reason to pass the bill, although there actually was a dramatic drop in filings taking place. I never understood that argument.

Now they are turning around and saying we need to rush to do this because the economy is slowing down and many hard-working people, through no fault of their own, are going to find themselves in dire circumstances; therefore, we had better pass legislation that will curb their access to bankruptcy relief.

It is amazing: Increasing hard times, a lot of people finding themselves in increasingly dire circumstances, and now they want to make it harder for them to get a fresh start. The logic of this argument completely escapes me.
The point Mark Zandi makes in the Business Week article, as other economists have done, is that restricting access to credit and bankruptcy protection will not actually increase the number of filings and defaults because banks will be more willing to lend to marginal candidates. Indeed, it is no coincidence that the single largest surge in bankruptcy filings began immediately after the last major procreditor reforms were passed by Congress in 1984.

This is not a debate about winners and losers because we all lose if we erode the middle class in this country. We lose if we take away one of the critical underpinnings for middle-class people. Sure, in the short run big banks and credit card companies may pad their profits, but in the long run our families will be less secure and our entrepreneurs will become more risk adverse and less entrepreneurial.

The whole point of bankruptcy is to allow people to get a fresh start. Bankruptcy disproportionately affects the financially vulnerable, but it also disproportionately affects the risk takers, small businesspeople or entrepreneurs. Our bankruptcy system ensures that utter insolvent does not need to be a life sentence, but it can be an opportunity to start over, and that is what this bill erodes.

This is not a debate about reducing the high number of bankruptcies. No one can will a piece of legislation that can do that. Indeed, by rewarding—I make this argument—the reckless lending that got us here in the first place, we are going to see more consumers burdened with it.

It is amazing; there is hardly a word in this whole piece of legislation that calls for these credit card companies or lenders to be accountable as they continue to stuff out to our children and grandchildren every day of their every week. But this is perfect for them because they don’t have to worry any longer. They get a blank check from the Government. No, this is a debate about punishing failure—whether self-inflicted—and sometimes it is—or uncontrolled or unexpected. This is a debate about punishing failure.

If there is one thing this country has learned, it is that punishing failure doesn’t work. You need to correct mistakes. You need to prevent abuse. But you also need to lift people up when they have stumbled, not beat them down. This piece of legislation beats them down.

Both the House and Senate bills basically give a free ride to the banks and credit card companies, that deserve much of the credit—you would not want to know it from this legislation—for the high number of bankruptcy filings because of the risk standards. Even the Senate bill does very little to address this issue.

There are some minor disclosure provisions in the Senate bill. But even these don’t go nearly as far as they should. Lenders should not be rewarded for reckless lending. Where is the balance in this legislation? Two are holding debtors accountable, why don’t we hold lenders accountable as well? I know the answer. These financial interests have hijacked this legislative process. As high-cost debt and credit cards and retail charge cards and financing plans for consumer goods have skyrocketed in recent years, so have the bankruptcies. As the credit card industry has begun to aggressively court the poor and vulnerable, is anybody surprised that bankruptcies have risen?

Credit card companies brazenly dangling literally billions of dollars of credit card offers to high-debt families every year, and they are not asked to be accountable. They encourage credit card holders to build toward their card balances, guaranteeing that a few hundred dollars in clothing or food will take years to pay off. The length to which the companies go to keep customers in debt is absolutely ridiculous, and they get away with murder in this legislation. After all, debt involves a borrower and a lender. Poor choices or irresponsible behavior by either party can make the transition go sour.

So who responsible has the industry been? It depends on how you look at it. On the one hand, consumer lending is unbelievably profitable, with high-cost credit card lending the most profitable of all, except for perhaps the even higher costs on payday loans. We don’t go after any of these unsavory characters. So I guess by the standard of the bottom line, they are doing a great job.

This industry is thriving. These credit card companies are making huge profits.

On the other hand, if your definition of responsibility is promoting fiscal health among families, educating them on the judicious use of credit, ensuring that borrowers do not go beyond their means, then it is hard to imagine how the financial services industry could not be a bigger deadbeat. The financial services industry is the big deadbeat.

The problem is that it is the heavy hitter, the big giver, and it has so much money that it dominates the politics in the House of Representatives and the Senate. That is part of what this is about.

Theresa Sullivan, Elizabeth Warren, and Jay Westerbrook wrote a book called “Fragile Middle Class.” I recommend it to everybody. They write:

Many attribute the sharp rise in consumer debt—and the corresponding rise in consumer bankruptcy—to lowered credit standards, with credit card issuers aggressively pursuing families already carrying extraordinary debt burdens on incomes too low to make more than minimum repayments. The extraordinary profitability of consumer debt repayment to financial service providers of the increasingly high risk-high profit business of consumer lending in a saturated market, making the link between the rise in credit card debt and the rise in consumer bankruptcy unmistakable.

Credit card companies perpetuate high interest indebtedness by requiring—and there is not a Senator who can argue against this practice—low minimum payments and, in some cases, canceling the cards of customers who pay off their balance every month. Using a typical monthly payment rate on a credit card, it would take 34 years to pay off a $2,500 loan. Total payments would exceed 900 percent of their original principal. That is really what this is all about. A recent move by the credit card industry to make the minimum monthly payment only 2 percent of the balance rather than 4 percent further exacerbates the problem of some uneducated debtors.

These lenders routinely offer “teaser” interest rates for as little as 2 months, and they engage in “risk-based” pricing which allows them to raise credit card interest rates based on credit changes unrelated to the borrower’s account. It is just unbelievable what they get away with.

Even more ironic is the same time that the consumer credit industry is pushing a bankruptcy bill that requires credit counseling for debtors, the Consumer Federation of America found that many prominent creditors have slashed the portion of debt repayments they shared with credit counseling agencies—in some cases by more than half. This may force some of these agencies to cut programs and serve even fewer debtors.

Well, Mr. President, I am sorry. I am glad there aren’t a lot of Senators on the floor because it is hard to say this because you feel as if you are engaging in personal attacking. I don’t mean it to be that way. I can’t say enough about the hypocrisy of this legislation—not of individual Senators but the essence of this legislation to me is incredible to me the way in which these banks and credit card companies have rigged this system, and we have this harsh piece of legislation in increasingly difficult economic times that is going to make it impossible for many families to rebuild their lives. The vast majority find themselves in these horrible circumstances because of medical bills, having lost their jobs, or divorce.

Do you know what. This legislation doesn’t do anything about the egregious greed, the exploitive practice of this industry. All of us who have children know what they send out in the mail every day.

So the question is: PAUL, if the bill is as bad as you say, how come it has so much support? This is a lonely fight. We are in the Senate opposition. I don’t mean it in a self-righteous way, and it doesn’t make us closer to God or the angels. I don’t understand why the bill is going through.
The bill has a lot of support in the Congress, and some of those who are supporting it, such as Senator Sasser and others, are worthy Senators. We have an honest disagreement. The President says he supports it. But the fact of the matter is—and I am not talking about a specific Senator; I don’t know that but I do know that is not what it is really about. At the institutional level, I believe the reason this legislation has so much support—I will repeat that—at the institutional level, I believe the reason this legislation has so much support is that it is a tribute to the power and the clout of the financial services industry in Washington.

Let’s call it what it is. Might makes right. It is the financial might of the credit card companies and the big banks that are big spenders, heavy hitters, and investors in both political parties. It doesn’t mean individual Senators support this legislation for that reason. I can’t make that argument. People have different viewpoints. But if I look at it institutionally, I can look at the amount of money those folks deliver, their lobbying coalition, and the ways in which they march on Washington every day, and I can’t help but say that is part of what this is about.

Why has the Congress chosen to come down so hard on ordinary working people down on their luck? How is it that this bill is so skewed against the interests and in favor of big banks and credit card companies? These editorials in a lot of newspapers that say the Congress—the House and Senate—comes down on the side of binge banks, not consumers, are right. Well, may be it is too skewed against those families don’t have million-dollar lobbyists representing them before the Congress. They don’t give hundreds of thousands of dollars in soft money to the Democratic and Republican Parties. They don’t spend their days hanging outside the Chamber to bend a Member’s ear. Unfortunately, it looks as if the industry got to us first. The truth is that, outside of this building, the support for this bill is a pitance. I mean the truth of the matter is that if you go outside this building, support for this bill is very narrow. The support has deep pockets. Apparently the Congress responds to deep pockets—not apparently: It is every day. Everybody knows that. People know it in Nebraska; they know it in Alabama; they know it in Minnesota.

We can agree or disagree about this legislation, the views under the table is important and why we have. They say when it comes to our concerns about ourselves and our families, our concerns are of little concern in Washington. Part of that is the mix of money in politics. That is why the vote in the House is important and why everybody should know that McCain-Feingold and Meehan-Shays is just a step. Lord, we will have to do much more.

I am trying to win on a cloture vote on which I will get beat badly. Outside of this building, and I will stake my reputation—outside this building there is no support for this, or very little. People are not running up to us in coffee shops in Nebraska and saying, please pass that bankruptcy bill because, God, that is the most important thing you can do that will help us.

People are talking about health care costs, childcare costs, good education for their children, a fair price for family farmers, how we can keep our small businesses going, the cost of higher education, the cost of prescription drugs, concern people will not have a pension, what happens when you are 75 or 80, in poor health, and you have to go to the poorhouse before you get help in a nursing home or home-based care and receive medical assistance. That is what people talk about. They don’t say, please pass a bankruptcy bill so when we get into trouble, no fault of our own, because of medical bills or we lose our jobs, we will not be able to rebuild our lives. There isn’t any support for this legislation outside this building. The deep pocket folks got to the Congress first, as they usually do.

There is opposition. You can know something about a bill by who the enemies are. Labor unions oppose the bill. Consumer groups oppose the bill. Women and children’s groups all oppose the bill. Civil rights organizations all oppose the bill. Many members of the religious community oppose the bill. Indeed, it is a fairly broad coalition that opposes this. Behind them are millions of working families who have nothing to gain and everything to lose from this legislation. That is why I have been blocking this bill for over 2 years.

I come from the State of Minnesota. We had a great Senator and Vice President, Hubert Humphrey. He once said that the test of a society or the test of a government is how we treat people in the dawn of life, the children, in the twilight of their lives, the elderly, in the shadow of their lives, people who are poor, people who are struggling with an illness, people struggling with a disability. By this standard, this bill is a miserable failure. There is no doubt in my mind this is a bad bill. It punishes the vulnerable and rewards the big banks and credit card companies for their own poor practices. For all I know this legislation will only get worse in conference. I hope that is not the case but it is my fear.

Earlier I used the word “injustice” to describe this bill. That is exactly right. It would be a bitter irony if creditors voted down a bankruptcy reform bill because we are not adding to the economic pain that too many American families are already feeling. Let’s not prolong the pain.

I urge the Senate to change the course. If I lose on this vote, then we will have to have another cloture vote, which will be next week, and there will be more discussion. From there, we will see.

I ask unanimous consent a number of editorials from newspapers all across our country be printed in the Record. There being no objection, the material was ordered to be printed in the Record, as follows:

[From the Los Angeles Times, Mar. 2, 2001]

DEEPER HOLE FOR DEBTORS

The bankruptcy reform legislation President Clinton vetoed last year because it was unfair to consumers is being rushed through Congress again. This time, if passed, President Bush is sure to sign it into law. That would be a great victory for banks, paid for by consumers in financial trouble.

Banks and credit card companies pushing for the reform claim that current law is too lenient on those who file for bankruptcy only to avoid paying bills. There are admittedly abuses—3% of bankruptcies are filed by debtors who are trying to escape their creditors—but this legislation is too harsh on the genuinely distressed 97%. The House approved its version of the measure Thursday, but there is a chance it will be amended or defeated in the evenly divided Senate next week.

Credit card companies could hardly ask for a better law. They would have to take no responsibility for every bankruptcy petition or court ruling, even to those with poor credit records. The companies know that some of that debt will go sour and they account for it in the higher interest rates they charge. The bankruptcy bill deals them a few more aces, making it harder for debtors to get out from under.

Lenders, who spent millions of dollars lobbying for the legislation, argue that the current law allows too many consumer to walk away from debt. But a recent study by the independent American Bankruptcy Institute shows that in 97 out of 100 bankruptcies, the debtors, facing either catastrophic medical bills or loss of income, have hit bottom and cannot repay. Nearly 90% have no assets and owe, on average, $36,000. They are either renters or live in homes worth less than $100,000. The cars they drive are, on average, eight years old, and seven out of 10 don’t earn enough money to cover their living expenses.

The new law would close the door to many consumers filing under Chapter 7, which does not require repayment, and force them into Chapter 13, where they can lose homes and cars. Even in Chapter 7, creditors can force borrowers to repay some money.

Sen. Paul Wellstone (D-Minn.) is leading the battle against the unfair legislation, and he has the support of both California senators. He will need the backing of all Senate Democrats and a Republican or two next week when he takes his fight to the Senate floor.
A BAD BANKRUPTCY BILL

One of the low points in life is about to drop even lower. After soaking up record amounts of special-interest money, Washington is preparing a one-sided overhaul of bankruptcy laws designed to help the credit industry and further punish debtors.

Last year, then-President Clinton wisely vetoed a near-identical plan. The bill, The Bankruptcy Reform Act of 2001, revises historic bankruptcy rules that aim to erase uncollectible debts and let consumers and businesses start over.

But with the new administration, the revived measure has easily passed the House and is due for a Senate vote this week. President Bush has indicated he will sign the legislation.

It’s hard to know what’s worse about this plan: the ingredients making it harder to wipe out debts or the lavish campaign contributions that shadow the bill.

Bankruptcy filings have grown during the last decade, although the numbers declined last year to 1.3 million cases. Most applicants seeking the protection of Chapter 7, a category that allows unsecured debts—generally credit cards—to be canceled, while car and house payments remain.

The bill would push many more people to file for bankruptcy under Chapter 13, which would impose a 3- to 5-year repayment period for credit-card debt and allow creditors to go after cars and homes in some cases. The concept of bankruptcy as a fresh start will be ended.

The bill’s supporters talk of personal responsibility, abuse of bankruptcy laws by deadbeats and millionaires who pour assets into mansions to shield money from bill collectors. But the House bill would child support, alimony or other court-ordered payments. The credit card companies would have as much incentive to pressure debtors to repay even when they aren’t legally obliged to do so.

This time around, senators from both parties are preparing amendments that might fix some of these abuses. The credit card industry, on the other hand, will be issuing reminders of the size of its campaign contributions. Experience shows that it will take presidential leadership to tip the scales against the lobbyists. Let’s hope Mr. Bush delivers it.

[From the San Francisco Chronicle, Mar. 15, 2001]

CONGRESSIONAL RECORD—SENATE July 12, 2001

[From the Atlanta Journal-Constitution, Mar. 18, 2001]

A BUSINESS-DICTATED BANKRUPTCY LAW

Business interests generously supported Republican candidates in the last election and are now reaping the rewards. President Bush and congressional leaders have moved to rescind new Labor Department ergonomics rules aimed at fostering a safer workplace, largely because business leaders feared the cost on lenders, which in turn may be passed on to honest borrowers in the form of higher interest rates.

The legislation makes it harder for debtors to wipe out their debts they could repay. To the extent the bill accomplishes that, it’s a good thing. But it also makes it much more difficult for many of us who have moved to resind the country from filing under Chapter 7 and partially repay all their debts. The bill is being sold as necessary to prevent irresponsible high-rollers from escaping debts they could repay. To the extent the bill accomplishes that, it’s a good thing. But it also makes it much more difficult for many of us who have moved to resind the country from filing under Chapter 7 and partially repay all their debts.

CONGRESS, PRESIDENT SIDE WITH BANKS, NOT CONSUMERS

Consumer confidence is slipping lower as 401(k) balances shrink amid a Wall Street cycle of overvaluation and devaluation of America’s future. The number of consumers who think they have enough money to retire in comfort is at an all-time low. The personal savings rate is down to 1.3 million cases. Most applicants seeking the protection of Chapter 7, a category that allows unsecured debts—generally credit cards—to be canceled, while car and house payments remain.

But with the new administration, the revived measure has easily passed the House and is due for a Senate vote this week. President Bush has indicated he will sign the legislation.

It’s hard to know what’s worse about this plan: the ingredients making it harder to wipe out debts or the lavish campaign contributions that shadow the bill.

Bankruptcy filings have grown during the last decade, although the numbers declined last year to 1.3 million cases. Most applicants seeking the protection of Chapter 7, a category that allows unsecured debts—generally credit cards—to be canceled, while car and house payments remain.

The bill would push many more people to file for bankruptcy under Chapter 13, which would impose a 3- to 5-year repayment period for credit-card debt and allow creditors to go after cars and homes in some cases. The concept of bankruptcy as a fresh start will be ended.

The bill’s supporters talk of personal responsibility, abuse of bankruptcy laws by deadbeats and millionaires who pour assets into mansions to shield money from bill collectors. But the House bill would child support, alimony or other court-ordered payments. The credit card companies would have as much incentive to pressure debtors to repay even when they aren’t legally obliged to do so.

This time around, senators from both parties are preparing amendments that might fix some of these abuses. The credit card industry, on the other hand, will be issuing reminders of the size of its campaign contributions. Experience shows that it will take presidential leadership to tip the scales against the lobbyists. Let’s hope Mr. Bush delivers it.

[From the New York Times, Mar. 16, 2001]
The bill is good business for the credit companies. They’ll see even higher profits, about 5 percent per cent next year. For companies like MBNA, which would see about $75 million extra, that’s a whopping return on last year’s investment in electoral campaigning.

Meanwhile, the blizzard of credit card solicitations continues to blow. There probably is no way to put a number on it, but senators, who should stop credit companies from bombarding even the most bankruptcy-vulnerable consumers with solicitations for easy, high-interest debt, evidently couldn’t even amend a bill to place limits on credit cards granted to minors without parental approval.

The best check on those lenders’ practices is the potential for losses when they give credit cards to consumers with bad credit history.

And we’re sure to see a slew of people do just that in the coming year, who write off this bill, as the economic shakeout continues. For most Americans who are only dimly aware of this legislation, the awakening will be rude indeed.

[From the Boston Globe]

COMPELLING DEBT

If the credit-card companies really wanted to do their job, they wouldn’t be filing the mailboxes of America with ever-more enticing pitches for new credit cards. Instead, they have teamed up with the banks to push a new bill that harshly penalizes families that end up in bankruptcy. Most do so because their jobs, sought by medical bills, or go through a divorce.

Senator Edward Kennedy calls the bill the “turkey of all turkeys.” Laid-off workers will have even worse names for it if it is enacted and the economic slowdown puts more employees on the street.

Kennedy and other senators get their chance this week to amend legislation that swept through the House on a 396–108 vote and has already been approved by the Senate Judiciary Committee. President Clinton vetoed the bill last year, but President George W. Bush has said he would sign it.

The bill’s major shortcomings is that it makes it too difficult for families drowning in debt to get under Chapter 7 bankruptcy, which lets them wipe out credit-card debt and other unsecured loans. Instead, they would be forced into Chapter 13, which requires sometimes onerous repayments. An especially objectionable provision would force parents and children to fight credit-card companies to get their hands on alimony or child support from debtors going through bankruptcy.

Supporters of the bill, many of them recipients of campaign contributions from credit-card companies and banks, in the past election, say it is aimed at the profligate rich who try to walk away from their obligations.

In fact, a 1999 study by federal judges found that the median income of debtors seeking bankruptcy protection was $21,500. Another study, done at Harvard, showed that in 1999 no fewer than 40 percent of all bankruptcies were due to unpaid medical bills. In fact, a 1999 study by federal judges found that the median income of debtors seeking bankruptcy protection was $21,500.

The credit industry had to swallow that profligate rich who try to walk away from their obligations. A 1999 study by federal judges found that the median income of debtors seeking bankruptcy protection was $21,500.

The credit industry had to swallow that profligate rich who try to walk away from their obligations. A 1999 study by federal judges found that the median income of debtors seeking bankruptcy protection was $21,500.

Mr. WELSTONE. While I have the floor, I ask unanimous consent that my following remarks be included as part of morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Madam President, I am asking unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SESSIONS. Madam President, I appreciate the opportunity to make some remarks about our bankruptcy bill that is now back before the Senate again. It is a bill that has been fought over, debated, improved, refined, changed and, I think, gained greater and greater support as we have proceeded.

I know there are some people who remain very emotionally in objection to it, but when analyzed carefully and the provisions in it examined, there is no doubt whatsoever in my mind that this bill is a major step forward for bankruptcy procedure in America.

Let me say what bankruptcy is and what it is not and what the bill is about. Bankruptcy occurs when an individual in America may be being sued and they can’t pay their debt. The bill collectors are calling and their income just won’t pay their debts. So they can go and file a Federal bankruptcy court for relief under the bankruptcy laws. They can file under chapter 13, which says to the court, basically, I believe I can pay my debt back, but I can’t live and be sued, have creditors calling me at home and that sort of thing. But I will take a portion of my money and invest in a risky stock—and who hasn’t lately?—I’m not entitled to get my money back.

And that’s what consumers are to credit card companies—inventories. They’re banking on our ability to repay them. So if they want safeguards, they should be willing to give up something in return. How about a solicitation tax? For every solicitation by phone or mail, the institution must pay a tax. The money could be used to educate consumers about the dangers of overextending their credit.

I’m sure the two chambers, which are about to reconcile their versions of the bill, can come up with additional ideas, some hopefully even more disastrous to the credit card lobby than a solicitation tax.

Mr. WELSTONE. While I have the floor, I ask unanimous consent that my following remarks be included as part of morning business.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. SESSIONS. Madam President, I reiterate the opportunity to make some remarks about our bankruptcy bill that is now back before the Senate again. It is a bill that has been fought over, debated, improved, refined, changed and, I think, gained greater and greater support as we have proceeded.

I know there are some people who remain very emotionally in objection to it, but when analyzed carefully and the provisions in it examined, there is no doubt whatsoever in my mind that this bill is a major step forward for bankruptcy procedure in America.

Let me say what bankruptcy is and what it is not and what the bill is about. Bankruptcy occurs when an individual in America may be being sued and they can’t pay their debt. The bill collectors are calling and their income just won’t pay their debts. So they can go and file a Federal bankruptcy court for relief under the bankruptcy laws. They can file under chapter 13, which says to the court, basically, I believe I can pay my debt back, but I can’t live and be sued, have creditors calling me at home and that sort of thing. But I will take a portion of my money and invest in a risky stock—and who hasn’t lately?—I’m not entitled to get my money back.

And that’s what consumers are to credit card companies—inventories. They’re banking on our ability to repay them. So if they want safeguards, they should be willing to give up something in return. How about a solicitation tax? For every solicitation by phone or mail, the institution must pay a tax. The money could be used to educate consumers about the dangers of overextending their credit.

I’m sure the two chambers, which are about to reconcile their versions of the bill, can come up with additional ideas, some hopefully even more disastrous to the credit card lobby than a solicitation tax.
then I will be able to recover and get back on my feet.

That does a lot. In some States it is very small. In some States only 5 percent of the individuals file under chapter 13. Other States, it is much higher. In my State of Alabama, where chapter 13 originated, the number is almost 80 percent—in some parts of the districts that file under chapter 13. They find it has great advantages. They are able to keep their automobile, for example. They are able to keep their home, keep more of their goods and services. It allows them to stretch out payments, to reduce the interest rates. Normally, the interest rates drop down to zero or whatever, and then they pay it off on a regular basis. It stops the harassment that comes about it and legitimate to make trying to collect the money the individual owes to them.

That is a good system. Too few people utilize chapter 13. It has some good advantages for themselves, not just for the people they are paying off. It has real advantages for them.

The other process which is more widely used is to file under chapter 7. You are in debt. You go down to the bankruptcy court and it wipes out all your debts. The debts are wiped out. Then the person is able to start afresh and not owe anybody. That is the common thing. It is the traditional great American value. It is referred to in the Constitution that the United States shall establish uniform laws for bankruptcy.

It has always been thought of as something we would do in the Federal Government. Bankruptcy laws are handled in Federal courts, and, therefore, to improve them, unlike most collection process, most criminal processes that are in State courts, these are in a separate Federal court.

It is important, since the last 1978 bill that passed, that Congress study what has been happening with bankruptcy and see what we can do to improve it. That is what has occurred here. It is not unexpected that people who are dealing in bankruptcy every day and see how the system works would be people who would have some concerns about it and be able to make suggestions about how to improve it.

First and foremost, it ought to be a high value of America that those who incur debt should pay it back if they can. We do not need to get to a point in this society when people can borrow money from someone, promising to pay them back, and just not do so for light or insignificant reasons.

Let me mention the bankruptcy filing issue. We have had a tremendous number of filings. In 1980, 2 years after the new bankruptcy act passed, there were just 287,000 bankruptcy filings. By 1999, 19 years later, the bankruptcy filings had jumped to 1.3 million a year, a 347-percent increase. How did that happen? There are a lot of reasons for it. I suggest that the major factor for it is when you turn on your television at night on a cable station, or pick up your shoppers guide, there are advertisements and there are even billboards with lawyers saying: If you have got the debt problem, we will wipe them out. People call them. The lawyers don’t get paid unless they take you to court and file for bankruptcy. So there is an incentive there to do that.

I want to mention something. In this 1998–99 period, we were in a very strong economy. Yet we reached the highest point of filings in history. This chart is a little bit out of date. It shows a drop in 1990. Around 2000, it has gone back up. But the numbers are up higher—maybe 3, 4 times what they were 20 years ago. We know we have a problem. Everybody knows that. I believe we can do something good for America.

Let me say this. In the debate, we had a number of votes on this matter and had strong support each time. It is bizarre to me—and I came here in 1997—how hard it is to get a piece of legislation passed. The procedural posture of this bill is interesting. In 2001, the House passed a bankruptcy bill, and all of these are fundamentally similar to what we have today. It passed in the House 306–118. It passed the Senate 97–1. In 1999, it came back, and I think we recessed or something and we never got it to the President to have him sign it into law.

In 1999, it passed 313–108. In 2000, it passed the Senate 63–14. In the House, in 2000, it passed by a voice vote. It passed in the Senate 70–28 in 2000. In the year 2001, we came back again and the House passed it 306–108, and the Senate passed it 83–15. It still hasn’t become law. How did this happen? At any rate, we are going to a point where we are going to make this happen. We have discussed and debated these issues, and we are excited now that we can perhaps see an end to this and have some real reform.

Let me mention one thing the bill does, which I think is significant. The bill provides that before you can go into bankruptcy court, you must at least inquire with a credit counseling agency, if there is one available in the community. The bankruptcy judge can certify if there is not one and would excuse this requirement. But most communities—virtually all of them—have a credit counseling agency. That agency is a voluntary group you can go to and discuss your debt situation and whether or not you have a chance to work your way out of it. They are very good with families. They bring in the mother, father, and sometimes the children, and they sit around the table and they discuss what is going on in the family’s budget.

They call up this washing machine company that you have a debt with, or the bank, or the credit card company, and they say: We are a credit counseling company and we are licensed. They usually do it really. If you will reduce the required payments, reduce your interest, we will commit to you to work with them and see that you get paid so much a month, and in a year, 2 years, 3 years, we will have paid it off. They may even ask them to reduce the amount owed. They may owe you $5,000 and there is no way they can pay that. They might say: They are thinking about bankruptcy. If you will agree to reduce your debt to $3,000, I believe they will pay you all of that.

Sometimes these people do that. Sometimes they work out a budget and they teach the family how to get out of debt and get on their feet and start their lives again. That is a very good thing. You can’t ask the bankruptcy bar don’t do that. When people go to them in response to their ads on television, they go in and talk to them and they say: You have enough debt; we ought to file chapter 7 and wipe this debt out.

So the debt is wiped out, but nothing has been done to deal with the problem in that family that may have caused the debt to begin with. Sometimes there is a gambling addiction, a drug or alcohol problem, and sometimes there are illnesses and problems that may be this credit counseling agency can help them get help for. Our bill says before you can file for bankruptcy, you have to at least talk to a credit counseling agency and see if they might have a plan for the debtor that might be better than simply filing bankruptcy.

I think a lot of people would choose that option. I don’t know how many. It may be 2 percent or it may be 10 percent. But if they know about that option, they will find something good for them to do. We should consider that.

Now, my friend from Minnesota is very aggressive about this bill. He is emotional about this bill. He says two different things. He says, well, only 3 percent of the people will qualify for this thing, so the bill should not pass. Then he says that everybody is going to have their bankruptcy protections eliminated and it is a harsh bill.

Let me talk about the core matter within the bill. The core part of the bill says if you make above median income in America—which is around $45,000 for a family of four—and you are able to pay back a certain percentage of the debt that you owe, you ought not to go into chapter 7 and wipe out all those debts. You ought to be required to go into chapter 13 and pay back the portion of those debts that you can—but under the court’s protection, so nobody will be hounding you for debts and you can’t receive phone calls and you are protected from harassment, but you pay the debt back. It is our view that if you can pay some of your debt, you should do that.
I think that is just and fair. I don’t think the Federal bankruptcy law was ever conceived to create a situation in which a person can simply, routinely go in and file and wipe out all their debts, even though they can pay them back.

We have story after story of doctors and lawyers making $100,000-plus per year going in and wiping out all their debts and keeping right on with the salary they were making. I don’t believe that is justice. I don’t believe that is right. I believe we have a right and a responsibility to say if you can pay back some of that debt, you should do that.

How many people will be covered by that? I don’t know. Maybe 10 percent, or less probably. But 90 percent of the people, because they will be making below median income, will be able to file in bankruptcy just like they do today with very little change. So this catches only what I would say are the abuses. Senator WELLSTONE said it is 3 percent. Maybe it is only 3 percent who make above median income. If so, only they will be affected. Even then, if your debts are large enough, you will be able to stay in chapter 7 and wipe them out if the court finds you can’t pay them. But if you are making $150,000 and you owe your neighbors and the bank and the hospital a total of $150,000, most people would say you pay these down in some fashion. But why should a person making that kind of income just wipe them all out? This would say you would go to the court and you have to submit a plan. The court will put you into chapter 13, and the court may say you have to be able to pay half of those bills, and you will pay them out on a monthly basis over 3, 4, 5 years, and nobody can sue you, nobody can call you at night and harass you. They will have a chance to make the payment on the debt. You simply have to set aside a certain amount of your money. You can’t throw it all away and wipe out debts that you owe.

It is true that a lot of people go into bankruptcy because of medical debt, hospital debt, and things of that nature. They didn’t have insurance and they owe a lot of money for debts. Well, hospitals are not evil people. They are good institutions. Presumably, they supplied a need that they thought was necessary. Hospitals are not evil people. I am sure if you go to these hospitals, they will provide vital timely information to the custodial parent so that he or she can request help from the State child support enforcement agency if they desire. What does all this mean? Jonathon Burris, of the California Family Support Council, put it in an open letter to Congress. The provisions included in this bill are “a veritable wish list of provisions which substantially enhances our efforts to enforce support debts when a debtor has other creditors who are also seeking participation in the distribution of the assets of a debtor’s bankrupt estate.”

In addition, Philip Strauss of the district attorney’s Family Support Bureau—and most district attorneys around the country—are their obligations collecting child support on behalf of indigent spouses and children—wrote to the Judiciary Committee to express his unqualified support for this bill. He notes that he has been in the business of collecting child support for 27 years. He knows what he is talking about. Mr. Strauss notes that the National Child Support Enforcement Association, the National District Attorneys Association, and the Western Interstate Child Support Enforcement Council support his views and support this bill.

I think that should put to rest any allegation that somehow we are abusing children in this legislation, that somehow it is harsh and not actually beneficial to them.

When a parent who is not paying child support and makes above-median income is forced into chapter 13 for 5 years, they are under a Federal judge’s watch and order that entire time. During that 5 years, they have to send their money for child support or they can be held in contempt of court by the bankruptcy judge or have their bankruptcy benefits all thrown out. That to me is a benefit for families and children that is little understood.
There has been a lot of talk about credit cards. Remember, our bill focuses on how to process bankruptcy cases in bankruptcy courts. What kinds of notices that go on credit cards, how they declare their interest, what kinds of rules should cover them is a banking matter that is covered by an entirely different committee of this Congress, the Banking Committee.

The chairman of the Banking Committee has agreed to allow some provisions to be put in this bill, but he asserts his prerogative and the Banking Committee's prerogative, and has done so, to handle any major reform of credit card laws.

That is not what we are about in this legislation. This is bankruptcy court reform. It is not to reform all problems of credit in America, although we have some ideas I sure we will make progress on them.

I inquire, Madam President, about the time.

The PRESIDING OFFICER. The Senate has 34 minutes remaining.

Mr. SESSIONS. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant bill clerk proceeded to call the roll.

Mr. GRASSLEY. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRASSLEY. Madam President, we are about to vote on the cloture motion to proceed to the bankruptcy bill. I strongly urge my colleagues to vote for cloture.

I would like to say at the outset that I am pleased Senator Daschle has decided to move forward with the bankruptcy bill. It's only fair that we go through the regular order on bankruptcy, which is to take up the House passed version, substitute that with the Senate-passed bill, and then proceed to conference to resolve differences between the two bills. The Senate bill, S. 420, went through proper procedure—in the 107th Congress, the Judiciary Committee held a hearing and markup of the bill, and then there was extended debate and amendments on the floor. In March, S. 420 passed out of the Senate by a vote of 83 to 15.

But, to tell you the truth, a bankruptcy bill should have been signed into law last year. We’ve been working on bankruptcy legislation for three Congresses now. The bill has passed both houses several times. Last year, the bill was unfortunately pocket vetoed by President Clinton at the very last minute. The main reason we don’t have a bill enacted into law is because of the determined efforts of certain Senators to delay and obstruct the process, even though a large bipartisan majority of the Congress supports bankruptcy reform. Certain Senators have made a point of impeding progress on this important reform measure ever since the way. They’ve done this because left-wing interest groups think that bankruptcy should be easy. But the majority of us here in Congress don’t think that should be the case.

The bill reforms the bankruptcy system to require repayment of debts by individuals who have the ability to pay their bills, by reestablishing personal responsibility in a bankruptcy system that is now all too often being used as a financial tool for deadbeats. It is clear that the bill reinjects an individual’s personal responsibility in regard to his or her financial situation, while at the same time protecting the right of debtors to a financial fresh start when they are in a situation where they cannot repay their debts or have fallen on hard times through no fault of their own. I repeat, the bill does not eliminate bankruptcy as a recourse for people who come on hard times. In fact, the bill clearly indicates that if there is a change in the circumstances of a debtor, that will be taken into account. And that includes the loss of a job or unexpected medical expenses.

Furthermore, the bill strengthens protections for child support and alimony payments by making family support obligations a first priority in bankruptcy, up from number seven. What could help women and children more than moving family support obligations to the first priority in bankruptcy? We can’t move them higher than number one, we’ve put women and children at the top. The bill makes staying current on child support a condition of discharge—debt discharge in bankruptcy is made conditional upon full payment of past due child support and alimony. So the bill makes payment of child support arrearages a condition of plan confirmation. In addition, the bill gives parents and state child support agencies notice when a debtor who owes child support or alimony files for bankruptcy.

The bill requires bankruptcy trustees to notify child support creditors of their right to use state child support enforcement agencies to collect outstanding amounts due. I think that these provisions will help ensure that women and children are up front when there is a bankruptcy.

The bill does a lot more to help reform the bankruptcy system. For example, the bill makes permanent chapter 12 bankruptcy for family farmers and lessens the capital gains tax burden on farmers who declare bankruptcy. As you know, we just extended chapter 12 for a few more months. It’s high time that Congress get down to business and make chapter 12 permanent. I know that this is an important provision for many Senators out in farm country.

In addition, the bill creates new protections for patients when hospitals and nursing homes declare bankruptcy. This was the subject of a hearing that I held in the Aging Committee when I chaired that committee. And the bankruptcy bill will provide a “patient’s bill of rights” to the elderly residents of bankrupt nursing homes.

Finally, the bill requires that credit card companies provide key information about how much people owe and how long it will take to pay off their credit card debt by only making a minimum payment. To help do that, the bankruptcy bill provides a toll-free number to call where individuals can get information on the length of time it will take to pay off their own credit card balances if they make minimum payments.

The bill prohibits deceptive advertising of low introductory rates, and provides for penalties on creditors who refuse to renegotiate reasonable payment schedules outside of bankruptcy. The bill strengthens enforcement and penalties against abusive creditors for predatory debt collection practices. And the bill includes credit counseling programs to help avoid and break the cycle of indebtedness. So, the bankruptcy bill that the Senate passed actually contains some of the most proconsumer provisions we’ve seen directed toward the credit industry in years.

The reality is that a large majority of the Senate voted for this bill. It’s clear to me that the majority of Senators want a bankruptcy bill to pass. We’ve worked on bankruptcy legislation for three Congresses now, and it is time for us to get down to the business of getting this bill over the goal line once and for all.

We already had an overwhelming vote on the Senate bill—83 to 15 votes. So I’m urging my colleagues to vote for cloture.

Madam President, since I do not see other people ready to speak, I suggest the absence of a quorum. I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will call the roll.

The senior assistant bill clerk proceeded to call the roll.

Mr. HATCH. Madam President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will call the roll.

The Senate bill, H.R. 833, passed the Senate by a vote of 83-15. We’ve made a point of impeding progress on this important reform measure every step of the way. They’ve done this because left-wing interest groups think that bankruptcy should be easy. But the majority of us here in Congress don’t think that should be the case.

The bill reforms the bankruptcy system to require repayment of debts by individuals who have the ability to pay their bills, by reestablishing personal responsibility in a bankruptcy system that is now all too often being used as a financial tool for deadbeats. It is clear that the bill reinjects an individual’s personal responsibility in regard to his or her financial situation, while at the same time protecting the right of debtors to a financial fresh start when they are in a situation where they cannot repay their debts or have fallen on hard times through no fault of their own. I repeat, the bill does not eliminate bankruptcy as a recourse for people who come on hard times. In fact, the bill clearly indicates that if there is a change in the circumstances of a debtor, that will be taken into account. And that includes the loss of a job or unexpected medical expenses.

Furthermore, the bill strengthens protections for child support and alimony payments by making family support obligations a first priority in bankruptcy, up from number seven. What could help women and children more than moving family support obligations to the first priority in bankruptcy? We can’t move them higher than number one, we’ve put women and children at the top. The bill makes staying current on child support a condition of discharge—debt discharge in bankruptcy is made conditional upon full payment of past due child support and alimony. So the bill makes payment of child support arrearages a condition of plan confirmation. In addition, the bill gives parents and state child support agencies notice when a debtor who owes child support or alimony files for bankruptcy.

The bill requires bankruptcy trustees to notify child support creditors of their right to use state child support enforcement agencies to collect outstanding amounts due. I think that these provisions will help ensure that women and children are up front when there is a bankruptcy.

The bill does a lot more to help reform the bankruptcy system. For example, the bill makes permanent chapter 12 bankruptcy for family farmers and lessens the capital gains tax burden on farmers who declare bankruptcy. As you know, we just extended chapter 12 for a few more months. It’s high time that Congress get down to business and make chapter 12 permanent. I know that this is an important provision for many Senators out in farm country.

In addition, the bill creates new protections for patients when hospitals and nursing homes declare bankruptcy. This was the subject of a hearing that I held in the Aging Committee when I chaired that committee. And the bankruptcy bill will provide a “patient’s bill of rights” to the elderly residents of bankrupt nursing homes.

Finally, the bill requires that credit card companies provide key information about how much people owe and how long it will take to pay off their credit card debt by only making a minimum payment. To help do that, the bankruptcy bill provides a toll-free number to call where individuals can get information on the length of time it will take to pay off their own credit card balances if they make minimum payments.

The bill prohibits deceptive advertising of low introductory rates, and provides for penalties on creditors who refuse to renegotiate reasonable payment schedules outside of bankruptcy. The bill strengthens enforcement and penalties against abusive creditors for predatory debt collection practices. And the bill includes credit counseling programs to help avoid and break the cycle of indebtedness. So, the bankruptcy bill that the Senate passed actually contains some of the most proconsumer provisions we’ve seen directed toward the credit industry in years.

The reality is that a large majority of the Senate voted for this bill. It’s clear to me that the majority of Senators want a bankruptcy bill to pass. We’ve worked on bankruptcy legislation for three Congresses now, and it is time for us to get down to the business of getting this bill over the goal line once and for all.

We already had an overwhelming vote on the Senate bill—83 to 15 votes. So I’m urging my colleagues to vote for cloture.

Madam President, since I do not see other people ready to speak, I suggest the absence of a quorum. I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will call the roll.

The senior assistant bill clerk proceeded to call the roll.

Mr. HATCH. Madam President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered. The Senator from Utah.

Mr. HATCH. Madam President, I am pleased to be here today to support the motion to proceed to H.R. 333, the Bankruptcy Abuse Prevention and Consumer Protection Act of 2001. As my colleagues may remember, the Senate passed this legislation, S. 420, passed this Chamber in a bipartisan vote of 83-15 on March 15. Additionally, the conference report to last year’s bill, H.R. 833, passed the Senate by a
similarly wide margin just last December, but was pocket-vetoed by President Clinton at the very end of the legislative session.

Today, we are beginning what I hope will be the final leg of a legislative marathon, a leg I hope we can complete soon. This bill has passed both bodies in the 106th, 108th, and now the 107th Congress. It is time to wrap up this debate, reach consensus and present a good bill to the President for his signature so American consumers can reap the benefits.

I would like to briefly recount the legislative history of S. 420 during this Congress. S. 220, the Bankruptcy Reform Act of 2001 was introduced by Senator GRASSLEY in January and contained the same language as last year's conference report. That bill was given a hearing and amended in mark-up by the Judiciary Committee, Senator LEAHY, to include a discharge in bankruptcy. That bill was given by a consumer to a business debtor or by adding new privacy protections to the bankruptcy code and by creating a consumer privacy ombudsman to appear before the bankruptcy court.

Now, I am the first to acknowledge that there are things I would like to see changed in the bill, but I recognize that we all have cooperated and compromised in order to enact this legislation. It provides for protection of educational and other domestic support obligations and introductory rates for credit cards. It also protects consumers from unscrupulous creditors with new penalties for creditors who refuse to negotiate reasonable payment schedules outside of bankruptcy.

This bankruptcy reform act also requires credit counseling to help people avoid the cycle of indebtedness. It provides for protection of educational savings accounts, and gives equal protection to retirement savings in bankruptcy.

The legislation would also put a stop to letting deadbeat parents use bankruptcy to avoid paying child support. It will also put the lawyers ahead of children who rely on child support. It gives child support and other domestic support obligations first priority status. I am proud to have worked with Senators TORRICELLI and DODD on these important reforms. I am also proud to have cosponsored Senator CLINTON's amendment that further improved these provisions.

Current bankruptcy law simply is not adequate, and frankly I was outraged to learn of the many ways deadbeat parents are manipulating and abusing the current bankruptcy system in order to get out of paying their domestic support obligations. The bill is a tremendous improvement for children and families and over current law. That is why we have such overwhelming support for this legislation from the child support professionals across the country—the very people who go after deadbeats to get children the support they need. In fact, this bill includes a key provision that makes the full payment of past due child support and alimony a condition of getting a discharge in bankruptcy.

I also am pleased to have worked with the chairman of the Judiciary Committee, Senator LEAHY, to include for the first time, privacy protections in bankruptcy. That language protects personally identifiable information given by a consumer to a business debtor or by adding new privacy protections to the bankruptcy code and by creating a consumer privacy ombudsman to appear before the bankruptcy court.

Now, I am the first to acknowledge that there are things I would like to see changed in the bill, but I recognize that we all have cooperated and compromised in order to enact this legislation. It provides new consumer protections, helps children in need of child support, and makes other necessary reforms to a system that is open to abuse.

I want to emphasize emphatically that his legislation does not make it more difficult for people to file for bankruptcy, but it does eliminate some of the opportunities for abuse that exist under the current system. Our current system allows certain people with the ability to pay to continue to abuse the system at the expense of everyone else. People with high incomes can run up massive debts, and then use bankruptcy to get out of honoring them. In the meantime, we are paying for the unscrupulous who abuse the system. In fact, it has been estimated that every American family pays as much as $550 a year in a hidden tax for these abusers. The bankruptcy reform legislation will help eliminate this hidden tax by implementing a means test to make wealthy people who can repay their debts honor them. I support we could call this a tax cut for the responsible person.

There are numerous examples of people who take advantage of loopholes today at the expense of everyone else. A few months ago, I heard from the president of a credit union in Wisconsin, who told me about a young couple who wanted a "clean financial slate" before they got married. What did they do? They ran up their credit card purchases. One of them prepaid on a car loan with the credit union to have the other cosigner released. Then, although they were both employed full time, they filed for bankruptcy to wipe out all their debt. The credit union—and its members—had to eat the $3,000 in credit card debt and another couple of hundred dollars on the car.

Bankruptcy relief was never meant to allow this kind of abuse. Hard-working Americans, including the millions of consumers nationwide who have been victimized by abusers of the current bankruptcy system long enough.

Bankruptcy abuse also hurts our nation's small businesses. Without reforms from this bill, losses from bankruptcy abuse will continue to break the backs of the Nation's small businesses and retailers, which work with slim profit margins and have even smaller margins for error.

Make no mistake: Misrepresentations about this legislation are still running rampant by those who oppose any meaningful bankruptcy reform. Yet despite the allegations of opponents of reform, the poor are not affected by the bankruptcy reform.

I also am pleased to have worked with the Chairman of the Judiciary Committee, Senator LEAHY, to include for the first time, privacy protections in bankruptcy. That language protects personally identifiable information given by a consumer to a business debtor or by adding new privacy protections to the bankruptcy code and by creating a consumer privacy ombudsman to appear before the bankruptcy court.

Now, I am the first to acknowledge that there are things I would like to see changed in the bill, but I recognize that we all have cooperated and compromised in order to enact this legislation. It provides new consumer protections, helps children in need of child support, and makes other necessary reforms to a system that is open to abuse.

I want to emphasize emphatically that his legislation does not make it more difficult for people to file for bankruptcy, but it does eliminate some of the opportunities for abuse that exist under the current system. Our current system allows certain people with the ability to pay to continue to abuse the system at the expense of everyone else. People with high incomes can run up massive debts, and then use bankruptcy to get out of honoring them. In the meantime, we are paying for the unscrupulous who abuse the system. In fact, it has been estimated that every American family pays as much as $550 a year in a hidden tax for these abusers. The bankruptcy reform legislation will help eliminate this hidden tax by implementing a means test to make wealthy people who can repay their debts honor them. I support we could call this a tax cut for the responsible person.

Make no mistake: Misrepresentations about this legislation are still running rampant by those who oppose any meaningful bankruptcy reform. Yet despite the allegations of opponents of reform, the poor are not affected by the bankruptcy reform.
does is force people to go into chapter 13. Therefore, the benefit doesn’t affect low-income people, contrary to what I have heard in Chicago.

The means test is only 9 pages out of a 200-page bill. If the means test was all this bill consisted of, then this bill would have passed 2 years ago or 21/2 years ago.

The bankruptcy bill purports to target abuses of the bankruptcy code by wealthy scofflaws and deadbeats who make up, by the way, 3 percent of all the filers, according to the American Bankruptcy Institute. Yet hundreds of thousands of Americans file for bankruptcy every year, not gaming the system—I need to say it more times—but because they are overwhelmed with medical bills.

Unfortunately, there are at least 15 provisions in S. 420 that make it harder to get a fresh start, regardless of whether the debtor is a scofflaw or a person who must file because they are made insolvent because of their medical debt or because they have lost their jobs or because of a divorce in the family and they are now a single parent with children. These measures not only include but also are in addition to the means test. If the means test was the whole piece of legislation, it would be quite a different story.

Neither the means test nor the safe harbor in the bill apply to the vast majority of new burdens that are placed on debtors.

Under S. 420, debtors will face these hurdles to filing regardless of their circumstances.

An analysis in the Wall Street Journal last week put it this way. These are not my words:

“The bill is full of hassle-creating provisions, some reasonable, and some prone to abuse by aggressive creditors trying to get paid at the expense of others. In a thicket of complexity, Congress is losing sight of the goal of making sure that most debtors pay their bills while offering a fresh start to those who honestly can’t.”

That is the Wall Street Journal analysis.

This amendment will preserve the fresh start for those debtors who honestly can’t make it because they are drowning in medical debt.

My colleague from Alabama said this is a bankruptcy bill. It only deals with the bankruptcy code and bankruptcy court reform, including banking measures targeted at credit card companies that Senator WELLSTONE suggested is inappropriate.

Why is it inappropriate? If the point of this legislation is to reduce bankruptcy, then it would seem to me that we might want to take a look at the big banks and credit cards that have been pushing for their legislation. They are the only ones pushing for this legislation. You are hard pressed to find a bankruptcy judge that supports this legislation. You are hard pressed to find a bankruptcy law professor, a bankruptcy expert of any kind, anywhere, any place in the U.S.A. that backs this bill. This bill was written for the lobby. It is crystal clear.

That is why this piece of legislation doesn’t hold them accountable. It has basically been written for them.

It is ridiculous on its face that this legislation makes possible behavior of the credit card companies from the high number of bankruptcies. All of the evidence points to the fact that lenders and their poor practices are a big part of the problem. It is outrageous that we don’t confront them. There isn’t a parent in this country that is not well aware of the ways in which these credit card companies are constantly pushing these loans onto our children or onto our grandchildren. Everybody knows we are bombarded with it all the time.

Both the House and Senate bills basically give a free ride to banks and credit card companies that deserve much of the blame for the high number of bankruptcies because of their loose credit standards, and Congress has not done very little to address this issue. There is a minor disclosure provision, and that is it. It is pathetic. Lenders should not be rewarded for reckless lending.

Where is the blame? If we are holding the debtors accountable, why aren’t we holding the lenders accountable?

Again, I want to make the argument one more time. I think we know the answer. This legislation has the support of a lot of people, and the President says he supports it. As a matter of fact, there are going to be precious few votes against cloture.

I am going to come back out here next week again and try to delay this bill. I am trying to tell you, it is just testimony to the power and the clout of the financial service industry in Washington. Let’s call it what it is. This legislation is a tribute to the power and the clout of the financial service industry. It is a tribute to the power and the clout of the Senate. It is a tribute to the power and the clout of the Senate Chamber to bend a Member’s ear. I think what happened is that is the microcosm of the political situation we are in today.

Now we are heading into difficult times. We are heading into hard economic times. More people are losing their jobs and medical costs are going up. We are going to make it hard for people to rebuild their lives. We are going to make it hard for people to rebuild their financial lives.

This piece of legislation is too one-sided. Why is it one-sided? It is to the one toll you, it is just testimony to the power of this industry. I do not do any damage to the truth when I say that when I am in a coffee shop in Minnesota, I do not—I repeat this again—have people running up to me saying: Please, Senator WELLSTONE, pass that bankruptcy reform bill because we think you ought to go after all the deadbeats and all the people cheating, although we have no evidence to support that you have a lot of cheaters—not when 50 percent of the people who file it do so because of medical bills, with more and more people losing their jobs, and, as I say, the most dramatic rise is among single adult women who head households.

People do not come up to me and say: Please, do that. They want to talk about the health care costs going up. They want to talk about the fair price, if they are farming. They want to talk about the struggle to find a good job that pays a good wage so they can support their families. They want to talk about the costs of higher education. They want to talk about
about their concern that they will not have a pension. That is what they want to talk about.

What in the world is the Senate doing making this a priority? The folks with the clout, with the power, and with the money got here first. I think that is what this is all about. I am going to continue to oppose this legislation about.

I yield the floor and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DASCHLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDENT pro tempore. Without objection, it is so ordered.

ELECTING JERI THOMSON AS SECRETARY OF THE SENATE

Mr. DASCHLE. Mr. President, I send a resolution to the desk and ask for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 129) electing Jeri Thomson as Secretary of the Senate.

The PRESIDENT pro tempore. Is there objection to the immediate consideration of the resolution?

Without objection, it is so ordered.

Mr. DASCHLE. Mr. President, I ask unanimous consent that the resolution be agreed to and the motion to reconsider be laid upon the table.

The PRESIDENT pro tempore. Without objection, the resolution is agreed to.

The resolution (S. Res. 129) reads as follows:

S. Res. 129

Resolved, That Jeri Thomson be, and she is hereby, elected Secretary of the Senate, effective July 12, 2001.

ADMINISTRATION OF OATH TO THE SECRETARY OF THE SENATE

The PRESIDENT pro tempore. The Secretary-elect will present herself to the podium for the taking of the oath.

The Honorable Jeri Thomson, escorted by the Honorable Tom Daschle and the Honorable Trent Lott, advanced to the desk of the President pro tempore; the oath prescribed by law was administered to her by the President pro tempore.

[Applause, Senators rising.]

NOTIFYING THE HOUSE OF REPRESENTATIVES OF THE ELECTION OF JERI THOMSON AS SECRETARY OF THE SENATE

Mr. DASCHLE. Mr. President, I send a resolution to the desk and ask for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 130) notifying the House of Representatives of the election of a Secretary of the Senate.

The PRESIDENT pro tempore. Is there objection to the immediate consideration of the resolution?

Without objection, it is so ordered.

Mr. DASCHLE. Mr. President, I ask unanimous consent that the resolution be agreed to and the motion to reconsider be laid upon the table.

The PRESIDENT pro tempore. Without objection, the resolution is agreed to.

The resolution (S. Res. 130) reads as follows:

S. Res. 130

Resolved, That the House of Representatives be notified of the election of the Honorable Jeri Thomson as Secretary of the Senate.

NOTIFICATION TO THE PRESIDENT

Mr. DASCHLE. Mr. President, I send a third resolution to the desk and ask for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 131) notifying the President of the United States of the election of a Secretary of the Senate.

The PRESIDENT pro tempore. Is there objection to the immediate consideration of the resolution?

Without objection, it is so ordered.

Mr. DASCHLE. Mr. President, I ask unanimous consent that the resolution be agreed to and the motion to reconsider be laid upon the table.

The PRESIDENT pro tempore. Without objection, the resolution is agreed to.

The resolution (S. Res. 131) reads as follows:

S. Res. 131

Resolved, That the President of the United States be notified of the election of the Honorable Jeri Thomson as Secretary of the Senate.

Mr. DASCHLE. Mr. President, I might take a moment to speak on behalf of what I know is the entire Senate body but in particular the Democratic caucus in congratulating Jeri Thomson. She has been a professional’s professional for the last 30 years.

She has served, as most of our colleagues know, as the Executive Assistant/Democratic Representative in the Office of the U.S. Senate Sergeant at Arms. Her responsibilities included managing all institutional issues for the Senate leader and all Democratic Senators. She had the responsibilities for all the plans and the implementation of the issues conferences and other events for the Democratic caucus and managed all aspects of participation by Democratic Senators in the national party conventions.

But that is just the latest in a series of responsibilities that she has had that go back now almost three decades.

She was the Assistant Secretary of the U.S. Senate from 1989 to 1995. She served as the Chief Operating Officer of the Secretary of the Senate, managing 12 departments with approximately 250 staff members. Her responsibilities at that time included budgeting, policy and program development, and implementation of human resources management. The administrative reform and modernization programs were under her responsibility as well.

Prior to serving in that capacity, she was a senior staff member to Senator John Tunney; special assistant to the Sergeant at Arms; and the Deputy Director of the Democratic Congressional Campaign Committee.

Jeri received her bachelor of arts from the University of Washington. She was Kodak fellow at Harvard University’s program for senior managers in government. She was selected as one of the 100 top data processors in government, industry, and academia for her work in automating the legislative processes and procedures in the Senate in 1995.

That is her resume. What you don’t know in reading the resume is what kind of person she is. I know of no more dedicated person in the Halls of Congress than Jeri Thomson. I know of no one I have had a greater joy working with than Jeri Thomson. I know of no one who loves this institution more than Jeri Thomson. I know of no one who has greater respect among our colleagues in the Senate than Jeri Thomson.

It should come as no surprise that Jeri Thomson is now our Secretary of the Senate. I commend her for all she has done. I thank her for what she has now agreed to do. I wish her well as she begins this very important new responsibility.

I might add that her family, David James and two daughters, Kaftin and Kristin, and mother Louise are all here to help celebrate this momentous occasion. We welcome Jeri’s family. We thank them for being a part of this celebration and we wish them and Jeri well as they begin.

I yield the floor.

The PRESIDENT pro tempore. The Republican leader.

Mr. LOTTT. Mr. President, I certainly join the distinguished Democratic leader in congratulating Jeri Thomson on her selection and election to be the Secretary of the Senate. I know that Senator DASCHLE, as majority leader, will have a very effective Secretary of the Senate in this fine person and that she will do her typical nonpartisan, fair and efficient job in this role.

We know Jeri. She has been here a long time. She is one of the institutions, if I might say—for age, of
course—of the Senate. She has always been very fair and very reasonable in her dealings with the Republicans in the Senate. I am sure that you appreciate that. You know that is the way that she will proceed in the future. This is a very important role. If you go back and look at the history of the Senate, Senator Byrd certainly can tell us that this is a position where he had for years. The first Secretary was chosen on April 8, 1789, two days after the Senate achieved its first quorum for business. It is a very important role in the functioning of the Senate—the paperwork, administratively, the computers, the people serving here in the Chamber. There are so many important roles that that position requires careful consideration of, and work and development. I know she will do that.

I urge Jeri Thomson to do as I urged her predecessor, Gary Sisco, in that position, to make sure you do such a job that when you leave the position, the office and the position will be even better than it was when you took it over. I know you will do that. We extend to you our best wishes and our cooperation.

I yield the floor, Mr. President.

The PRESIDING OFFICER. The Senator from California is recognized.

Mrs. FEINSTEIN. Mr. President, I offer my personal congratulations and all good wishes to Jeri. I think she is going to be a superb Secretary of the Senate. What most people don’t know about Jeri Thomson is that not only is she a talented professional, but she is a very nice person. She and I had knee surgery at approximately the same time, and I really never had a better friend during that period. She sent me books to read, made phone calls, even sent me a special pillow that could be used to help the pain from one knee to another. It was a wonderful gesture.

In the course of discussions about our relative injuries, over the past almost year now, I have come to know her very well. This is truly a distinguished woman because it is very hard to be an excellent professional and also to take the time that is necessary to reach out a hand to make someone feel a little bit better.

Jeri, you are all of the above. Congratulations and godspeed.

Mr. DASCHLE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

(Mrs. CARNAHAN assumed the chair.)

Mr. LEAHY. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LEAHY. Madam President, I was very pleased to see Jeri Thomson become the new Secretary of the Senate. Knowing my own days as a brand new Senator, the role of Secretary of the Senate was very important, and it is even more important now. I am delighted she is here.

BANKRUPTCY ABUSE PREVENTION AND CONSUMER PROTECTION ACT OF 2001—MOTION TO PROCEED—Continued

Mr. LEAHY. I understand that the time of the swearing in and the comments may have affected the time as to the o’clock vote. Can the Chair advise me how much time is remaining under controlled time prior to the vote?

The PRESIDING OFFICER. The Senator from Minnesota has 21 1/2 minutes. Mr. WEBB: I say to my colleague, I think colleagues are expecting a vote at 12. I yield the next 15 minutes to the Senator from Vermont if he wants it.

Mr. LEAHY. I probably won’t even use all of that. I thank the Senator from Minnesota for his customary courtesy.

I suggest that we make a few comments, and I will certainly support whatever moves to yield back whatever time we may have so that we can vote at 12. The Senator from Minnesota is absolutely right. Senators are expecting this noon vote.

After today’s vote on the motion to proceed, I am going to send an amendment to the desk for myself, the distinguished Senator from Utah, Mr. HATCH, and the Senator from Iowa, Mr. GRASSLEY, and ask for its immediate consideration. So that Senators will know, this amendment will be the text of S. 420, the Bankruptcy Reform Act of 2001, as passed the Senate on March 15 by a vote of 83-15. I was one of the 83, as were Senators HATCH and GRASSLEY. I voted for the Senate form because it marked a bipartisan effort on the Senate Judiciary Committee and Members of the floor in the committee and then in the Chamber to produce a more fair and balanced bill because of our bipartisan amendment process.

During our consideration of the Bankruptcy Reform Act, Democratic and Republican Senators authored and passed 38 amendments between the Judiciary Committee and the Senate floor. That improved the bill. I will certainly be able to vote for it on the floor. I will be able to vote for that in conference.

We adopted the Leahy-Hatch amendment to protect the personal privacy of consumers whose information is held by firms in bankruptcy. Our amendment permits bankruptcy courts to honor the privacy policies of business debtors and creates a consumer privacy ombudsman to protect personal privacy in bankruptcy proceedings—the first ever in Federal law.

Unfortunately, we had to do this. The reason the Leahy-Hatch amendment is needed is that the Internet will now be put up for sale in bankruptcy without any privacy considerations. Just so people who don’t spend much time on the Internet will understand what I am talking about, many of them go into a Web site and they will have a very clear privacy policy where they say: We will never share your name, disclose your address or your information. They may well mean it. For example, you may have a case. You want your children to be able to go on, but under the clear privacy—they may be children’s books or anything else. They are willing to have your children go there, and you rely on the privacy line that says, “Under no circumstances will we reveal these names.”

But then if the Web site goes into bankruptcy, the bankruptcy court is faced with this kind of a situation. They look at the failed company, and the way they handle computers, they have a couple scuffed-up desks, a building. They do have one thing that may be worth something, one asset, and that is the list of all the people who have gone there—the names of your children and everybody else who may be on there. The bankruptcy court is put in this kind of a Hobson’s choice. They are sworn to have to seek the best return on whatever assets remain for the creditors. Yet the people who created the assets, those who visit the Web site, are promised nobody is ever going to disclose their names. So this will at least ameliorate, or go a long way toward solving, the problems there.

We adopted the Schumer amendment to prevent the discharge of debts from violence against reproductive health service clinics.

During our hearing on bankruptcy reform legislation, Maria Vullo, a top-rated attorney, testified about the need to amend the bankruptcy code to stop wasteful litigation and end abusive bankruptcy filings used to avoid the legal consequences of violence, vandalism, and harassment to deny access to legal health services. If somebody is going to break the law and use violence against health clinics, and somebody then brings a suit against them to recover damages because of their violence, they should not be able to say: I am going to get away with this and go into bankruptcy court. They should not be shielded by bankruptcy.

We adopted the amendment of the distinguished Senator from Wisconsin, Mr. KOHL, to cap homestead exemptions at $125,000, to limit wealthy debtors from abusing State laws to hide million-dollar mansions from their creditors. If somebody knows they are going to declare bankruptcy, they can take whatever cash on hand and in certain States buy a multimillion-dollar
mansion knowing they might be protected. Senator Kohn has been a champion of closing this loophole for the rich.

At our hearing in the committee, Brady Williamson, the former chair of the National Bankruptcy Reform Commission, testified that ending homestead abuse was a key and consensus recommendation from the Bankruptcy Reform Commission. They all joined on that.

Last month, the Florida Supreme Court issued a ruling that underscores the need for a national homestead cap to prevent bankruptcy abuses. The highest court in Florida ruled a debtor can still keep the full value of his home even if the homestead is acquired with the specific intent to hinder, delay, or defraud creditors. That should not be the case.

We adopted several amendments by Senator Feingold to strengthen chapter 12 to help family farmers with the difficulties they face. I hope we can finally make chapter 12 a permanent part of the bankruptcy code. Family farmers and ranchers deserve these protections to help prevent foreclosures and forced auctions.

I know Senator Grassley and Senator Carnahan, the distinguished President, and other Senators on a bipartisan basis strongly support permanent bankruptcy protection for family farmers, and I am proud to join Senator Grassley and Senator Carnahan in that support.

The complex and competing interests involved in achieving fair and balanced reforms of our bankruptcy system demand we work in a bipartisan manner throughout the legislative process.

I look forward to working with Senators and Representatives on both sides of the aisle to further improve this legislation in conference.

Madam President, I see the distinguished Senator from Iowa is here. I ask unanimous consent that at noon, all time, held by whomever, be deemed to have been yielded back, and we will be prepared then to vote.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. Clinton. Mr. President, I stand here today not in opposition to moving forward with the Bankruptcy Reform Act, but to send a clear message that I continue to have strong reservations about whether this bill is both balanced and reasonable. I have long said that debtors who have the genuine capacity to repay some of their debt should be required to do so, but abuses by creditors need to be stopped.

I grew up with a father who never accepted any debt—never had a credit card in his life. He taught me the importance of always working hard and paying your debts. I believe every American should work hard to spend responsibly and to repay their debts, but I also know that some families are hit by unexpected hardships.

This bill should not make the effect of targeting our most vulnerable consumers—women who are left with little resources as their husbands who were the primary breadwinners leave the family; or families with no health insurance who are struck with financial hardship when one family member becomes critically ill; or another family who suddenly finds that the primary breadwinner is laid off with little employment opportunities available in the region.

These are not the families who need to be further stuck by hardship of bankruptcy reform that is inflexible or overly harsh on debtors.

I voted for the S. 420, the Bankruptcy Reform Act of 2001, because I believed and still do believe that there were some important protections added to the Senate bill, but I will absolutely not vote in favor of the final bankruptcy reform bill if it does not include at least these minimal protections for our most vulnerable consumers.

During the floor debate on S. 420, the Bankruptcy Reform Act of 2001, I worked with my colleagues on both sides of the aisle to add additional protections for women and children. I worked hard to ensure that once bankruptcy is complete, we do more to ensure that single mothers can collect the child support they depend upon. Senator Hatch and I passed an amendment to ensure that the holder of the claim, meaning the parent with custody of the child, most often the mother, is informed by the bankruptcy trustee of his or her right to have the State child support agency collect the nondischargeable child support from the ex-spouse. I believe this change helps inform our clients of their rights to have the State help them in their claims to collect child support.

In addition, I was concerned about competing nondischargeable debt so I worked hard with Senator Boxer to ensure that more credit card debt can be erased so that women who use their credit cards for food, clothing and medical expenses in the 90 days before bankruptcy do not have to litigate each and every one of these expenses for the first $750.

These are the most minimal of changes that I believe need to be in the final bill. I still do not believe that they go far enough. I believe that the final bill should protect child support full stop. I do not believe that child support should have to compete with any credit card debt. But it should certainly not retreat from these changes. The cap on protected expenses should not be lowered to the House version of $250.

I also believe that the bill needs to include Senator Schumer’s amendment to ensure that any debts resulting from any act of violence, intimidation, or threat would be nondischargeable. It was a victory for the Senate to include this important amendment to ensure that those who are responsible for violence against women’s health clinics are held responsible for their actions. I do not believe we should retreat on this point.

Let me be clear. This bill should go far to protect home owners, but it should certainly not retreat from the consumer protections in the bill.

I will vote for cloture on this bill, but I believe that as we move to conference we need to continue to work to ensure that we continue to gain more balance between creditors and debtors.

Mr. Leahy. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. Leahy. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

CLOTURE MOTION

The PRESIDING OFFICER. Under the previous order, the clerk will report the motion to invoke cloture.

The legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close the debate on the motion to proceed to Calendar No. 17, H.R. 333, the Bankruptcy Reform Bill.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the motion to proceed to H.R. 333, an act to amend title 11 of the United States Code, and for other purposes, shall be brought to a close? The yeas and nays are required under the rule.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. FitzGerald (when his name was called). Present.

Mr. Reid. I announce that the Senator from Washington (Ms. Cantwell) is necessarily absent.

I further announce that, if present and voting, the Senator from Washington (Ms. Cantwell) would vote "yea" to close the debate.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 88, nays 10, as follows:
CONGRESSIONAL RECORD—SENATE   J ULY 12, 2001

YEARS—88

Mr. LEAHY. Madam President, on behalf of the majority leader, I send a cloture motion to the desk.

The PRESIDING OFFICER. The cloture motion having been presented under rule XXII, the Chair directs the clerk to read the motion.

The legislative clerk reads as follows: (The amendment is printed in today's Record under "Amendments Submitted and Proposed"

Mr. LEAHY. Madam President, on behalf of the majority leader, I send a cloture motion to the desk.

The PRESIDING OFFICER. The cloture motion having been presented under rule XXII, the Chair directs the clerk to read the motion.

The legislative clerk reads as follows: (The amendment is printed in today's Record under "Amendments Submitted and Proposed"

(Continued)

Mr. LEAHY. Madam President, on behalf of the majority leader, I send a cloture motion to the desk.

The PRESIDING OFFICER. The cloture motion having been presented under rule XXII, the Chair directs the clerk to read the motion.

The legislative clerk reads as follows:

DEPARTMENT OF THE INTERIOR AND RELATED AGENCIES APPROPRIATIONS ACT, 2002

The PRESIDING OFFICER. Under the previous order, the Senate will now resume consideration of H.R. 2217, the bill to which the previous order applied.

The legislative clerk reads as follows:

Amendment No. 989

The PRESIDING OFFICER. Under the previous order, there will now be 4 minutes of debate prior to a vote in relation to the Nelson amendment No. 983.

Whose yields time?

The Senator from Florida.

Mr. NELSON of Florida. Madam President, I yield myself 2 minutes. I say to Senator Graham, if he would like some time of the 2 minutes for closing, I will certainly yield to him.

Madam President, yesterday we had the Durbin amendment, and it was not tabled. It was on the issue of oil drilling in national monuments, national treasures.

Ladies and gentlemen of the Senate, the beaches of Florida are national treasures to us because of the importance of the beaches to our economy. If there is an oil spill, a slick comes into one of our beaches, it will shut down a beach, such as Clearwater Beach, for years and years. In an economy with a $50 billion tourism industry, in the Nation's fourth largest State, that is simply not worth the risk to us in Florida.

For the first time, the eastern planning area of the gulf, which heretofore has not been drilled, save for one test drill up here, is being invaded by this offering for lease of 1.5 million acres coming across the line. It is inevitable, in the march eastward, it would go straight toward Tampa Bay.

This is a matter of national treasure to us. You all honored that yesterday in adopting the Durbin amendment, by vote with me when my colleague from Louisiana, Senator BREAUX, myself, and others—a bipartisan group—in opposing this amendment.

We have a problem in this Nation. Our demand for energy is too high and our supply is not great enough. We use 30 trillion cubic feet of natural gas. We only have 25 trillion cubic feet. We think the Gulf of Mexico, in places far from the shores of Florida, has an ample supply of natural gas.

Let us not move in the wrong direction. Our country needs us to respond in a positive way. This is not a new area. It is rich with natural gas. It was a compromise reached by a Democratic administration with environmental organizations and the industry. It is moderate.

If you are for rolling blackouts and high prices, vote with me when I move, on behalf of Senator BREAUX, to table this amendment.

I yield the Senator 30 seconds.

Mr. BREAUX. I thank the Chair.

I bring to the attention of my colleagues, lease sale 181 was proposed by President Bill Clinton. It was this entire tract of area that I show you on this map. Democratic President Bill Clinton proposed it. The Democratic Governor of Florida at the time was Governor Lawton Chiles, our former
Congressional Record—Senate

July 12, 2001

The PRESIDING OFFICER. The amendment is as follows:

(Purpose: To direct the U.S. Fish and Wildlife Service to take certain actions for the recovery of the lost river sucker and shortnose sucker, and to clarify the operations of the Klamath Project in Oregon and California.)

At the appropriate place in the bill, insert: "None of the funds made available under this Act may be used to provide any flow from the Klamath Project other than those set forth in the 1992 biological opinion for Lost River and shortnose suckers and the July 1999 biological opinion on project operations issued by the National Marine Fisheries Service, until the Fish and Wildlife Service takes the following actions identified or discussed in the April 1993 recovery plan for Lost River suckers and shortnose suckers:

(a) establishes at least one stable refugial population with a minimum of 500 adult fish for each unique stock of Lost River and shortnose suckers;

(b) secures refugial sites for upper Klamath Lake suckers;

(c) uses aeration for improving water quality and to expand refugial areas of relatively good water quality within Upper Klamath Lake;

(d) improves larval rearing and refuge habitat in the lower Williamson and Wood Rivers through increased vegetative cover;

(e) extirpates exotic species that are predators of the suckers;

(f) assesses the need for captive propagation and the potential for improving sucker stocks through supplementation, and the Secretary has submitted a report, including recommendations, to the Congress;

(g) implements a plan to monitor relative abundance of all life stages for all sucker populations;

(h) develops a plan to reduce losses of fish due to water diversions;

(i) determines the distribution and abundance of suckers in all waterbodies in the Upper Klamath Basin;

(j) implements the plan for wetland rehabilitation pilot projects;

(k) implements the most effective strategy to provide fish passage upstream of the Sprague River Dam; and

(l) completes an evaluation of the impact of these actions on the recovery of the suckers before determining whether further modifications to project operations are needed and submits such evaluation to the Secretary of the Interior and to the Congress.

Mr. SMITH of Oregon. Mr. President, many Americans are becoming familiar with a part of my State and a part of California known as the Klamath Basin because of the controversy situation that has developed there in a contest between suckerfish and farmers. If I may be permitted, I will put some context to this conflict.

I am the first Senator to be elected from Oregon who comes from its rural parts—eastern Oregon—in 70 years. I represent all of my State, but I have a special passion to represent those rural parts that I have watched be devastated for too long by Federal action. I believe the Endangered Species Act is a noble act with noble purposes, but I believe it is being used by some to very ignoble ends.

My actions today are not to subvert the Endangered Species Act. This is not reform. This is an act asking that its terms be implemented in a way that will relieve genuine human suffering in a way that may prevent the violence that has already been visited upon Federal property in a contest between farmers and the Bureau of Reclamation for the essential ingredient to life in the West, and that is water.

What has happened to the community of Klamath Falls, by conservative estimates, will cost that county $200 million. I thank the Senator from West Virginia, the chairman of the Appropriations Committee, and others, who helped me to get $20 million of relief to these people. Obviously, it is 10 percent of what is needed, even by conservative estimates.

What I propose to do today is to try to go back to a biological opinion that was in place just last April that would have permitted this drought to be managed as were the droughts in 1992 and in 1994, in which the suckerfish survived, as did the agricultural community around it.

When I speak of the agricultural community, I have to also mention the wildlife refuges that get their water from this basin but which are now drying up. So farmers and fowl are left with nothing under the new biological opinion.

I do this because, in 1993, the Fish and Wildlife Service laid out a plan of action for what it could do to save the suckerfish, so that 200,000 acres of land continue to receive water and that fish could survive. But none of these proposed action plans were pursued. For example, it recommended the removal of the Sprague River Dam; it would have made available tremendous spawning areas for the suckerfish. But that wasn’t done. And there were many other actions that could have been
taken to provide aeration, to improve the condition of this lake, so that the suckerfish could survive and the farmers and the town would not be destroyed. But now what we are doing is we are raising this lake 3 feet—it is a very big lake, very shallow, but it is being raised 3 feet—and cutting off all the water to farmers and fowl. It is being done to save the suckerfish, and now, while it is being saved, it is warming up. So the coho salmon that will soon be returning expecting to receive the cool waters of the Klamath will receive the temperature of a swimming pool. So, potentially, even the coho salmon—which is also a listed species—could be adversely affected by this biological opinion.

Well, there are two agencies of the Federal Government that are competing. This is the front cover of Fish and Wildlife with regard to the suckerfish. The other is the biological opinion of the National Marine Fisheries Service and the Commerce Department that affects the coho salmon. Both biological opinions essentially ask for 100 percent of the water which means cutting off 100 percent of the people.

The point I want to make is that this would not be necessary if the Federal Government over the last 8 years would have kept its part of the bargain and done what it could to mitigate the impact to the sucker so that farmers would not be victimized.

What I do is simply reinstate the previous biological opinions that were in effect before this spring until the Federal Government can complete action on numerous recommendations of its 1993 recovery plan. Again, they were not acted upon over the last 8 years. Why? They say budgetary reasons. I want to put some other context to this. This is a current farm family in Klamath Falls. These are the human faces being affected by what is being done. Foreclosure notices are already going out. Let me tell my colleagues about their parents. These are the parents. This is the front cover of Life magazine, January 20, 1947. This is a veteran of the Second World War. These are people who came home, having saved liberty, having defended democracy, having made the United States the power in the world that it is today, the force for good that it is today.

In his wisdom, Franklin Roosevelt, even before the war, began to open up this land so that people would have a way out of the Great Depression, coming home from the war, and a place to go to work.

This is the land, the valley. I do not know whether my colleagues can see it, but this couple is overlooking the Klamath Basin—farms being developed, hay being raised, corn being raised, potatoes being raised that fill our shelves today. Look at the hopes and dreams in the faces of these people.

This is a little girl at an assembly of people at a rally a few weeks ago. Her sign says: ‘Mommy says I can’t eat, but fish can.’

That is what we are driving them to, and it is not right because they are being told they are of lesser value under our law than the shortnosed sucker.

This is a picture of the shortnosed sucker. It is a bottom-feeding fish. It lives in this shallow lake. It has gone through many droughts along with the farmers. It has survived, stressed, I am sure, just as humans are stressed in conditions.

I am not saying this fish has no value. I have never thought the suckerfish is very good looking, but it has a mother, and that mother, I am sure, loves this fish. I know the Native Americans in this area value this fish, and I am not suggesting in any way that we are not interested in saving this fish.

I am saying the purpose of the Endangered Species Act was not to engage in a process of rural cleansing, of throwing off their property people who had been given great promise and hope for the future. They are meeting the mailmen with foreclosure notices because the Federal Government decided it is going to breach its promise.

Let me show you, Mr. President, the deeds of the lands they were given. These are veterans. I doubt you can see it, but this is a deed assigned to a veteran of the Second World War to go to Klamath. The veteran's name goes in this space, and it is signed by Franklin Delano Roosevelt.

My point is that when we proceed to engage in environmental restoration, we must not forget that we have a human concern as well. We can do both. I am absolutely convinced of it, but we cannot do both under this condition.

This Klamath circumstance is different than other endangered species conflicts that always seem to pit the man against the beast. This is different. This is about something that is possible, where we can save the fish and we do not sacrifice the people.

I want to keep Franklin Roosevelt's promise alive today because these reclamation projects were greatly expanded under his leadership and an inland empire was built of rural people, but now those people are being told they are of lesser value than the suckerfish. I do not think Franklin Roosevelt would that do not agree.

Mr. President, I plead for my colleagues to remember the human faces in this picture, to remember the promises made, and to help me help these people. This is not about a fish versus a farmer, unless we go down the road of these current biological opinions which have not been peer reviewed, in which the people there have no confidence. They are biological opinions that began with a determined outcome, and all of the activities that would be pursued—to provide off-river impoundment, take out a dam, provide some aeration—none of those things was done.

The only way I am going to get the Interior Department to understand that it cannot forget its human stewardship, that the Bureau's promises still ought to matter, is to go back to the old opinion and tell them that the new one cannot happen until they keep the promises made in 1993. In the meantime, this fish will survive, but many farmers will not if we do not begin to reverse course.

It is too late for this year's crops. I want you to remember the sign I showed you a few minutes ago. In a dust bowl that existed prior to Franklin Roosevelt's vision, and foreclosure notices are going out. At least now we can offer some hope that we, on our watch, will not permit this to be repeated. We need to give them some more money to make sure that no farm is lost to foreclosure because of Government inaction and then this action. But we have to help. We have to say this will not happen again.

I do not know how to plead this in a personal terms as I can for the help of this body to head off a disaster. This is not fish versus farmers. It does not have to be that. But it is that now under what has happened over the last 8 years.

I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

Mr. REID. In relation to the Smith amendment, I move to table. I ask for the yeas and nays. And I further ask unanimous consent that the vote be held at 1:45. There are a number of people who are unable to come to the floor.

The PRESIDING OFFICER. Is there a sufficient second on the motion to table?

There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. Is there objection to the unanimous consent request?

Without objection, it is so ordered.

Mr. REID. Mr. President, I ask that prior to the 1:45 vote, the Senator from Oregon be granted 2 minutes to explain the amendment to the Members of the Senate.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.
July 12, 2001

The assistant bill clerk proceeded to call the roll.

MRS. BOXER. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MCCAIN. Mr. President, I thank my friend from Nevada for making a motion to table the Smith amendment, which we will vote on at approximately 1:45. I wanted to thank my friend from Arizona who has an amendment he wants to lay down. He was gracious to allow me to go ahead of him and just not to interrupt the debate.

I hope the motion to table the Smith of Oregon amendment does carry. We all share deep concerns about the current drought in southern Oregon and in northern California. My constituents have also been hard hit by this very dry year. But I think we cannot legislate on an issue that is so far-reaching by bringing an amendment to the floor before we have even looked at the possible remedies.

I joined my colleague from Oregon in seeking $20 million in economic relief for losses facing Klamath Basin farmers, and I certainly pledge to continue working with him to seek more funding and a long-term solution to this very vexing problem of getting enough water for everyone who needs it and everyone who deserves it.

The whole history of my State is, in many ways, built around the water issue. It is something we deal with all the time because we have more ag than any other State. It is one of our biggest businesses in California. We also know our State thrives because of tourism, our environmental ethic is very strong, and we have such a magnificent State we get the tourists.

Of course, we have more people than any other State in the Union—now almost 35 million people. So you have a constant debate, if you will, a constant struggle, if you will, between all the stakeholders. Everyone has something at stake with the water supply: The farmer, urban users, suburban users, and certainly the wildlife which do not have a voice, but we have to be their voice.

I can't join my colleague from Oregon in undermining the Endangered Species Act. The U.S. Fish and Wildlife Service in its own opinion tells us that without this water the endangered fish will go extinct.

Science tells us through the Fish and Wildlife Service that there are two species of fish that will become extinct if we carry out the plan of the Senator from Oregon.

If we are going to take an action that would lead to the extinction of two species of fish, it ought to be done with a little different format and not come as an amendment to the appropriations bill.

I agree that it is very possible that the Fish and Wildlife Service has not fully implemented its 1993 recovery plan for these fish. I call on them to implement that plan. But cutting off water for these fish this year doesn't solve that problem. It will cause the extinction to take place.

I know that the immediate needs of my constituents in the farm areas and those in Oregon will not be helped this year. The reality is that most of the region's farmers didn't plant this year because they knew about this drought. Taking the water from these fish and the needs of these species is not going to help the farmers now. But economic relief will help them. I am certainly committed to that.

We need to answer the dire needs of the farmers of the Klamath Basin. But driving the fish to extinction while providing little real gain to our farmers is certainly the answer.

It is very hard to look constituents in the eye when they have a problem and say: If we help you make a move now that you say will help you even though, in fact, in this case it wouldn't really help you, we can't do it because there is a bigger question; that is, the delicate balance in terms of who needs this water. It is hard to do that. But I think we can't come running to the floor every time to undermine laws that are in place—for real reasons. I happen to believe that we have the Endangered Species Act because we have to protect God's creatures. That is my own feeling. In fact, it is a responsibility that we have as a people to do that. If we don't do it, it is not going to happen. We have to move to protect these species.

Again, there may be a reason to take another look at this matter, but I hope we will move to table. I am certainly committed to having some hearings and making a more economic relief for the farmers that are affected in this Klamath River Basin.

I thank the Chair. I yield the floor. The PRESIDING OFFICER. The Senator from Arizona.

Mr. MCCAIN. Mr. President, is the parliamentary situation such that there will be a vote at 1:45?

The PRESIDING OFFICER. There is to be a vote at 1:45 and there is 4 minutes of debate set aside prior to that vote.

Mr. REID. Mr. President, if the Senator from Arizona will yield, if the Senator from Arizona needs the extra 4 minutes, we would be happy to work that out.

Mr. MCCAIN. I thank the Senator.

AMENDMENT NO. 904
Mr. MCCAIN. Mr. President, I send an amendment to the desk. The PRESIDING OFFICER. Without objection, the pending amendment will be set aside.

The clerk will report.

The bill clerk read as follows:

The Senator from Arizona [Mr. McCain] proposes an amendment numbered 904.
this bill. For example, an increase of $1.3 million is earmarked for an Alaska Native culture training program.

I happen to sit on the Commerce Committee. We were never asked to authorize that.

Another $250,000 for the Alaska Market Access Program; $1.1 million for the Pork $43 million in pork barrel spending—starting today.

For example, what is to stop a Senator from sunny Arizona or New Mexico from demanding Federal dollars for a statue of Apollo, god of the Sun? Or how to we prevent a Senator from California to beseech money for a statue of Bacchus, god of wine?

Or a Senator from Georgia, home to the Georgia Mansion, where the statue was constructed. At the close of the Exposition, the figure was removed to Birmingham and set up in Capital Park to represent the great iron and fuel industries of Alabama. The figure was cast in iron from a model by G. Morelli, a New York sculptor. It was brought to St. Louis in sections in over seven freight cars and mounted on a pedestal of coal and cike. The statue of Vulcan God of Fire and Iron stood 50 feet high and weighed 100,000 pounds. It was the largest iron ever made, and next to “Liberty Enlightening the World,” was the largest statue ever constructed. At the close of the Exposition the figure was removed to Birmingham and set up in Capital Park to remain as a permanent monument. It is a very impressive statue.

Now, in the bill before the Senate today—which, I mentioned, contains over $430 million in spending items that have not been properly reviewed to determine their worthiness for Federal funding—there is another $2 million to add to the $1.5 million last to continue the Pork Barrel spending doled out year after year.

For example, what is to stop a Senator from sunny Arizona or New Mexico from demanding Federal dollars for a statue of Apollo, god of the Sun? Or how to we prevent a Senator from California to beseech money for a statue of Bacchus, god of wine?

Or a Senator from Georgia, home to the great city of Athens, from asking for Federal funds to pay tribute to the Goddess Athena?

Or even a Senator form the home of the Mississippi, West Virginia, from getting Federal funds for Artemis, the ancient Greek goddess of the hunt? Maybe this is the time to stop this. Not one more Federal dollar should be spent on this kind of foolishness.

I ask my colleagues to extinguish the Roman god of fire and strike a victory for taxpayers, the godess of prudence—by throttling down our insatiable appetite for pork barrel spending—starting today.

Finally, Mr. President, there are statues—for a moment of seriousness—all over this Nation that require refurbishing.

The PRESIDING OFFICER. Under the previous order, 4 minutes have been reserved at this time for the Senator from Oregon and the Senator from California.

Mr. MCCAIN. Mr. President, I ask unanimous consent for 1 additional minute.

Mr. MCCAIN. Finally, Mr. President, as I said before, there are statues all over this Nation erected to worthy, wonderful, and patriotic Americans as well as people from other countries that need attention. If we are going to start down this path of millions of dollars to refurbish a statue of Vulcan, I don’t know where it all ends. I yield the floor and ask for the yeas and nays on the amendment.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

Mr. REID. I say to my friend from Arizona, it appears the two parties in relation to the prior amendment are going to talk for a couple minutes.

Mr. MCCAIN. Fine.

Mr. REID. I suggest the absence of a quorum.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will call the roll.

But, Mr. President, I worry this appropriation may set a dangerous prece-
there should be an exception granted to the Endangered Species Act with respect to this particular problem. Unfortunately, I understand he does not desire to do so.

This is a critical issue and for us to summarily do this would be really inconsistent with the purposes of the Endangered Species Act. That act is an important one, and it is one that has saved many species which have resulted in huge breakthroughs in medicine and in other ways.

We have to be very careful about what we do with respect to endangered species. So I will support the motion to table.

Mr. REID. Mr. President, the amendment would prevent the Fish and Wildlife Service from providing water for fish in the Klamath basin. The water at issue here is water the Service has determined is necessary to prevent the extinction of threatened and endangered species like the suckerfish and coho salmon in Oregon and California.

Only 2 days ago, we approved a supplemental appropriations bill. During that debate we heard many Members argue for additional spending for very important priorities. Fiscal constraints prevented us for meeting many of them. But one of the priorities we did add address in that bill dealt with the very subject of this amendment.

The bill provided $20 million to assist Oregon farmers who have been impacted by the drought and species concerns in the Klamath basin—$20 million. They are not the only farmers who have been impacted by drought (it’s a problem that affects Nevada’s farmers and ranchers this year as well), but to my knowledge they are the only farmers that received special aid in the supplemental.

The State of Nevada faces many of the same problems my colleague has spoken about here this afternoon. I would like to work with him to address those problems without modifying the Endangered Species Act in the manner he proposes.

The PRESIDING OFFICER. The question is on agreeing to the motion to table amendment No. 899. The yeas and nays have been ordered. The clerk will call the roll.

The bill clerk called the roll.

The result was announced—yeas 52, nays 48, as follows:

Mr. REID. I move to reconsider the vote.

Mr. BURNS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER (Mr. DAYTON). The Senator from Nevada.

AMENDMENT NO. 904

Mr. REID. Mr. President, with permission of the managers of the bill, I ask that the two Senators from Alabama each have 2 minutes to speak in opposition to the McCain amendment and Senator McCaIN have the final 2 minutes to speak in favor of his amendment.

This appears to be the last amendment we are going to have on this bill. The managers have informed me, along with the two leaders, that around 4 o’clock we will have a vote on final passage. It will take that much time to work on the managers amendment to get together the loose pieces.

I ask unanimous consent that we proceed now to the McCain amendment after the two Senators from Alabama speak and the Senator from Arizona speaks, and I also ask unanimous consent that when that vote is completed, the Senator from Oregon be recognized to speak for 5 minutes in relation to the Smith amendment of which we just disposed.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Alabama, Mr. SHELBY.

Mr. SHELBY. Mr. President, I rise in opposition to the McCain amendment to the Interior appropriations bill. I am troubled, quite frankly, that I have to defend Federal funding for historic preservation of the Vulcan Monument, which is of great importance to the people of Alabama and the South.

The Vulcan Monument in Birmingham, AL, is a unique and enduring hallmark of the city. It was constructed in 1904 to mark the 100th anniversary of the Louisiana Purchase and stands as a symbol of economic transformation in the South. Much like the Arch, the Golden Gate Bridge, the Statue of Liberty, and the Liberty Bell represent their respective cities and are symbols representing greater achievements for their communities and our Nation, the Vulcan stands as an important historical landmark for Birmingham and represents the rebirth of industrial development in the South.

I want the record to be clear that while Federal funding is important to the restoration of the Vulcan Monument, city and local fundraising efforts are leading the way toward completing the restoration project. While the Federal share for restoration efforts reaches $3.5 million, private citizens throughout the region have contributed over $10 million.

This is an excellent example of a public-private partnership trying to preserve an important historical treasure for the South and our Nation. It happens to be in Birmingham, AL.

I believe this amendment is misguided, and I pray it will be defeated.

Mr. SESSIONS. Mr. President, I know that Senator SHELBY travels throughout Alabama every year in every county, as do I. When we do so, we learn something about the State. As a kid going into Birmingham, I saw the Vulcan statue, the symbol for the steel city of Birmingham. It is a preeminent symbol of Alabama, and there will be no other statue in the State with as much prominence.

With the local citizens raising $10 million, with my support and certainly that of Senator SHELBY, the contribution from the Federal Government will help complete this historical renovation and restoration. It is a good use of the money, in my opinion as a Senator from Alabama. It is a good priority use of money for historic development.

I oppose the McCain amendment.

Mr. MCCAIN. Mr. President, let me quote from an October 23, 2000, issue of U.S. News & World Report entitled “Washington Goes On A Spending Spree”...

...a 56-foot, iron rendition of the Roman god of fire and metalwork. Built as an entry for the 1904 World Fair, it won the grand prize in the Palace of Metallurgy. Stewart Dancy, executive director of the Vulcan Park Foundation, says officials at the organization talked to Alabama Sen. Richard Shelby about helping to fund the renovation. “Why are federal tax dollars being spent on a statue in Birmingham?” asked Dancy. “Because Vulcan is symbolic of American industrial strength. He represents the working man...” (This is the best part.) These are federal dollars that would have gone somewhere.

There are statues all over America that need refurbishment. I hope everybody lines up with statues that need to be refurbished because the store seems to be open.

I know this amendment will not pass, but everybody ought to be on record as to whether they support this kind of pork barrel.

I yield the floor.

The PRESIDING OFFICER. The question is on agreeing to amendment
No. 904. The yeas and nays have been ordered.

The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. NICKLES. I announce that the Senator from Wyoming (Mr. Enzi) is necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 12, nays 87, as follows:

[Rollcall Vote No. 233 Leg.]

The amendment (No. 904) was rejected.

The PRESIDING OFFICER. Under the previous order, the Senator from Oregon is recognized for a period of 5 minutes.

AMENDMENT NO. 899

Mr. WYDEN. Mr. President, a few minutes ago the Senate voted on an Endangered Species Act amendment with special impact for farmers and rural people in my home State. I voted against the motion to table with great reluctance and wanted to take just a couple minutes to explain my vote this afternoon.

I think it is dangerous to legislate biological opinions about species without the opportunity to thoughtfully review the effects of such a far-reaching amendment. I think it is just as dangerous to force our citizens in rural communities into dire circumstances when a law that has accomplished many good things contains serious administrative flaws that are producing an increasing number of bad things.

It was my intent, if the Endangered Species Act amendment had not been tabled, to offer a second-degree amendment to it. My amendment would have allowed in the Senate to pick up the very generous offer made by Chairman Jeffords to try to get this job done right.

My amendment would have sought to try to address the problems in the Klamath Basin in a comprehensive way, in a fashion that would have helped farmers produce water conservation and improve water quality and, at the same time, would have protected species.

I think it is very clear that the challenge with the Endangered Species Act is to bring folks together. The challenge is to get everybody at the table—all of the stakeholders; farmers, environmental leaders, scientists, and others—to try to come up with ways that keep important protections of the Endangered Species Act and, at the same time, encourage the administrative flexibility so we can have more homegrown solutions.

I am absolutely convinced that the objectives of the Endangered Species Act make a lot of sense. But what you do in the Klamath Basin has to be different than what you do in the Bronx. And what you do in Detroit to protect a species is different than the challenge in Coos Bay, OR.

I look forward very much to picking up on the generous offer of Chairman Jeffords to work with our colleagues, on a bipartisan basis, to find comprehensive solutions to this Endangered Species Act challenge.

As I say, I voted against the motion to table today with great reluctance. I am very anxious to work with our colleagues, on a bipartisan basis, for a more comprehensive solution.

Mr. President, I appreciate the Senate, on a hectic day, giving me a few minutes this afternoon to explain my vote. I yield back and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mrs. BOXER. Mr. President, I ask unanimous consent that the order for the quorum be rescinded.

The PRESIDING OFFICER. The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 975

Mrs. BOXER. Mr. President, I ask unanimous consent the pending amendment be set aside, and further, I ask unanimous consent to send an amendment to the desk, that it be in order, and it also be set aside.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from California (Mrs. Boxer), for Mr. Byrd, proposes an amendment numbered 975.
July 12, 2001

of 1999 is further amended by striking subsection (m).

(c) APPLICABILITY.—The amendments made by this section shall apply only with respect to any guarantee issued on or after the date of the enactment of this Act.

Mrs. BOXER. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CRAPO. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 878

Mr. CRAPO. Mr. President, I have an amendment at the desk.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senate from Idaho [Mr. CRAPO], for himself and Mr. MURKOWSKI, and Mr. CRAIG, proposes an amendment numbered 878.

Mr. CRAPO. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

SEC. 3. BACKCOUNTRY LANDING STRIP ACCESS.

(a) In general.—Funds made available by this Act shall not be used to permanently close any aircraft landing strip described in subsection (b) without public notice, consultation with appropriate Federal and State aviation officials, and the consent of the Federal Aviation Administration.

(b) AIRCRAFT LANDING STRIPS.—An aircraft landing strip described in subsection (a) is a landing strip on Federal land that—

(1) is officially recognized by an appropriate Federal or State aviation official; and

(2) is administered by the Secretary of the Interior or the Secretary of Agriculture; and

(3) is commonly known for use for, and is consistently used for, aircraft landing and departure activities.

(c) PERMANENT CLOSURE.—For the purposes of subsection (a), an aircraft landing strip shall be considered to be closed permanently if the intended duration of the closure is more than 180 days in any calendar year.

Mr. CRAPO. Mr. President, first, I thank the chairman of the Appropriations Committee, Senator BYRD, and the ranking member, Senator BURNS, for the hard work they have put into this year’s Interior and related agencies appropriations bill. It is a changing process and they have done an excellent job in balancing the competing interests within the confines of our effort to make sure we maintain a balance.

At this point, I want to explain the amendment I present. I intend to withdraw the amendment when I am finished discussing it for reasons that will become apparent as I discuss it. In the past couple of years, we have seen a disturbing trend in the Department of the Interior and the Department of Agriculture regarding our Forest Service relating to back-country airstrips. The administration has begun to follow a pattern of allowing back-country airstrips to either go into a state of disrepair—be it, by not being able to repair—or to actually close, permanently close some of them, which is a serious problem to those parts of our public lands that need the services that these backcountry airstrips can supply.

Idaho, right now, is home to more than 50 of these landing strips, and our State is known nationwide for its air access to public lands and wilderness and primitive areas. Unfortunately, in the past, many of these airstrips in Idaho, and probably of the country, have been rendered unserviceable through the neglect I talked about earlier, or the decisions to close the airstrips without adequate public notice or any justification being provided.

There is a concern about this because these airstrips provide not only access to the back county for recreational use, but they are critical for maintenance and some of the management purposes of the agencies in managing our public lands and fighting forest fires. For example, or in providing the necessary access by agency personnel to perform their work on public lands, and also as part of rescue missions when they find the need to provide for rescue. It is those who use the backcountry airstrips who are often the ones who provide the valiant efforts to make rescues of people who are in distress in our national public lands.

Senators CRAIG and MURKOWSKI are cosponsors with me on the legislation to address this problem. We require the agencies to work with State and local communities and to engage in a process of public notice and justification.

In fact, it is our hope that, ultimately, we will be able to pass this legislation on a permanent basis. That would require the agencies to obtain the consent of the State personnel who are involved with the management of our airways and aviation concerns.

At this point, we were prepared to offer this amendment to the Interior appropriations bill this year to the Interior appropriations bill, which would have, simply for the period of this appropriations bill, required the agencies to consult with the State and Federal officials before closing any of these airstrips in our back-country areas.

However, working with the administration to try to obviate the need to propose this amendment, I am pleased to say, that I am now able to report to the people in the country that both the Department of the Interior and the Department of Agriculture have agreed—and I will be submitting letters for the RECORD which indicate this agreement—that they will honor the purposes of this amendment and make it the policy of those two agencies to comply with the requirements of this amendment and to continue to work with us on permanent legislation so we can address this issue on a permanent basis.

Mr. MURKOWSKI. I wonder if I can interrupt the Senator from Idaho in an effort to develop a colloquy with the Senator with regard to encouraging various agencies to work with the States on the issue of backcountry airport access.

Mr. CRAPO. I will be glad to yield to the Senator from Alaska.

Mr. MURKOWSKI. It is probably not applicable in areas of high concentration of private land, but out West, we have vast areas of virtually nothing. You only approach it if you get in a small airplane and fly over the western part of the United States or my State of Alaska.

I had a group of Senators in a single-engine airplane a few years ago. We had been in the air 2½ hours cruising along at about 80 knots. Finally, one of them asked: How much more wilderness do I have to see to, indeed, believe there is a lot of wilderness to be seen and beauty to be seen?

Nevertheless, when that engine quits, you have a problem. If you do not have some of these areas available—I know many of our friends from the east coast and populated areas cannot quite appreciate why we need them, but we vitally need them.

I join with my colleague in what I understand is a general commitment from the agencies, the Department of Agriculture and the Department of the Interior to work with States to identify what is in the interest of the States from the standpoint of safety access.

I commend him in that effort and hope when legislation is necessary that our colleagues will understand we need this in the wide open spaces out West. I see my friend from Montana who also agrees with this. I yield the floor.

Mr. CRAPO. Mr. President, I thank my friend and colleague from Alaska for his strong support on this issue. He is, as I indicated, a cosponsor of the legislation we will be pursuing and was supporting us in the effort to put this amendment on this bill again as it was last year.

Just so we can understand correctly, I want to read into the RECORD what the Department of the Interior and the Department of Agriculture committed to so we can begin the process, which I think is a very important first step in moving toward resolution of this issue.

The first letter is from Secretary Gale Norton, the Secretary of the Interior:
DEAR SENATOR CRAPO: The U.S. Department of Agriculture is committed to working with you and other Members of Congress to develop a comprehensive process to ensure that state and local governments and citizens are involved in decisions that are critical to maintaining these backcountry airstrips located on lands managed by the U.S. Department of the Interior.

Our Nation’s backcountry airstrips are important to many activities that take place on our public lands. Airstrips provide remote access for aerial firefighting efforts, they are an essential safety tool for pilots operating in rural and mountainous areas, and they provide a vital link to the outside world for many rural communities. It is important to ensure that legitimate uses of backcountry airstrips are protected. It is also a priority for this Department that any proposals to alter use of federal lands must go through open and public processes that include close consultation with local communities. I commit to work with you, and other Members of the congressional delegations, the State of Idaho, and local communities on any proposals to change the use of backcountry airstrips on lands managed by the U.S. Department of the Interior.

The amendment (No. 878) was withdrawn.

Mr. CRAPO. I thank the Chair.

The PRESIDING OFFICER. The amendment is withdrawn.

Mr. GREGG. Mr. President, I rise to respond to the Senator from Arizona who earlier today, in listing programs in this bill, felt it was inappropriate— I believe he used the word “pork” or some other derogatory reference to those programs—cited a $150,000 proposal in this bill to build a barn at the John Hay estate in New Hampshire.

I believe the Senator from Arizona has done a disservice to the people of New Hampshire by citing this item as one of the items on his list. It appears to me the research on that list may be rather weak if he is putting on the list items such as this. I want to give the Senator from Arizona the option.

The John Hay estate is owned by the Fish and Wildlife Service. John Hay was Abraham Lincoln’s secretary. He was Theodore Roosevelt’s and William McKinley’s Secretary of State. He served over 39 years as a public servant of extraordinary importance in our Nation’s history in the latter part of the 19th century and into the beginning of the 20th century, playing a major role in a number of very significant events, especially in the period 1890 to 1905 when he died.

As part of his lifestyle, he was a Renaissance man. He had been, as I mentioned, Secretary to Lincoln and is quite famous for his notes on Lincoln. In Washington, he started something called the Five of Hearts, a very famous historical group that met regularly at his home, which is now the Hay-Adams—Hay-Adams was not actually his home. His home was where the Hay-Adams is. That is the physical location.

That group involved five people of incredible intellectual capacity, and they became known as the Five of Hearts. He was part of that group and his wife was also.

As part of his effort and as part of the culture of that time actually, he wanted to set up a community which would be a respite from the hectic life of policy and government, and he chose the shores of Lake Sunapee in New Hampshire to do that. He came to New Hampshire and purchased a significant amount of land at that time—over a thousand acres—and an old farm and began to try to attract to that part of New Hampshire during the summer people who were world leaders in order to think and relax in what really was a bucolic atmosphere; it still is. It is a fabulous pastoral setting.

It is a lot like what Saint-Gaudens, who was another significant person in that period and tremendous artist in our history, had done in another part of New Hampshire called Cornish. He built a farmhouse; he took the old farmhouse and renovated it. It was situated on 1,000 acres. Of course, with any farmhouse there was a barn, as one would expect in that period and that family has owned that property for years and years. In the late 1980s, his daughter gave the property as part of her estate to the U.S. Government because she thought it was so important it be preserved as part of history because it is a truly unique piece of property.

One of the things he did on that property was bring in some extraordinary plants. In his travels he collected plants of alpine nature and built an alpine yard which is one of the rarest gardens in this country and has been designated so by the national garden groups. He built other gardens around the home. He had Theodore Roosevelt there and planted trees. There is a Theodore Roosevelt tree which grows outside the house.

The house itself was architecturally unique and presents a classic example of a Greek revival farmhouse in the New England tradition that flourished in the late 19th century. But most of those homes have been lost either through fires or being torn down over the years.

The gift of this property to us, the people of America, by his family was an extremely generous act. At that time it was given to us, it involved only 100 acres but over a mile of frontage on the lake. Frontage on the lake is extremely expensive. The house itself was not in good repair, and the barn was not, and the gardens were at risk because the gardener who had been managing them for 50 years was getting a little old and decided to give it up.

So as a result of a community effort with over 600 people involved, called the Friends of John Hay, we restored this home. There has been a fair amount of Federal dollars committed to trying to restore the home over the years. Senator Rudman, my predecessor, got the initial funds, and I have been successful in obtaining funds to restore the home. Why? Because, of course, it is a Federal property and we have responsibility. It would be as if we owned the home, and we may well own the home of Abraham Lincoln of Illinois, for all I know, and are restoring that home. But it is a Federal responsibility for which we have responsibility.

More importantly than that, it is a property that had such a magnetic effect in the region as a truly unique, historical site architecturally and because of the gardens, that the community around the property has risen up and participated, and the support. There are over 600 people who participate now in maintaining the gardens in what is a volunteerism that is rather significant and instructive and now has the gardens back to where they should be, and the home is back to where it should be.

As part of this property, as I mentioned, there was a barn. The barn was
also an architecturally unique building, with unique windows and unique buttresses inside. But more importantly, instead of the proposed snowing over a traditional New England home, it set the nature of the property.

This winter, for those who had the good fortune to go to New Hampshire and ski, we had great snow. We had such great snow, it never stopped snowing all winter long. Throughout our State and Vermont and Maine—Vermont does not get as great snow as we get, but they still get snow—a lot of homes, buildings, schools, in fact, found their roofs caved in. Regrettably, what happened at the Hay estate was, the barn, which was a historical barn, had a snow base on it which it could not maintain, even after 100 years—maybe not 100; maybe 85. Regrettably, the barn collapsed under the weight of the snow.

I guess it is the position of the Senator from Arizona that when a building that is on a historical site, which is the responsibility of the Federal Government to maintain, collapses, we should simply leave it there: Historical building that collapsed? Just leave it there. I guess that is the position of the Senator from Arizona.

What these funds were for—$150,000, which is not a great deal of money when you consider the character and size of the barn—was to restore the barn, put it back together, put it back up, and hopefully put in buttresses which will withstand the next major snow, which, of course, we hope to have again for our skiers.

The fact is, for the Senator from Arizona to come down here and represent it as somehow pork or inappropriate that the Federal Government has a responsibility to maintain a historical site of such significance, which had such huge community involvement when there was a disaster affecting that site which was the result of an act of God—by the way, an excessive snow year is pushing the envelope on how you define what are appropriate expenditures at the Federal level.

I cannot think of anything more appropriate than for the Federal Government to manage the property that has been given to the people of this country in a reasonable way. The reasonable thing to do, of course, is to rebuild the historical barn so the integrity of the property is maintained.

I believe the Senator from Arizona is misguided on this point. I want to put that in the Record. I will be happy to invite the Senator from Arizona on his next trip to New Hampshire, which appears to be reasonably frequent, to stop by at the Hay estate and see the barn, see the estate, see the gardens, maybe meet some people who work there on a regular basis as volunteers, and ask them whether that barn is an important part of that estate and whether the Federal Government has a responsibility to at least rebuild the barn when the people are volunteering literally thousands of hours to maintain the barn free. I look forward to the Senator stopping by at the John Hay estate.

The PRESIDING OFFICER. The Senator from Alaska.

Mr. MURKOWSKI. I thank the Chair and wish the Presiding Officer a good afternoon and hopefully a short one.

It was my understanding there was a distinct possibility with the upcoming expiration of the Iran and Libya Sanctions Act, which expires in August, a renewal of the Iran and Libya Sanctions Act might be offered as an amendment to the Interior appropriations bill. If that had been the case, I was prepared to offer a second-degree amendment to the ILSA renewal with regard to Iraq. I think the occupant and other Members are aware of the Smith-Schumer letter which addresses the ILSA issue by extending for 5 years the moratorium on trade with both Iran and Libya.

The important thing to note is the 71 signatures in favor of extending that moratorium. As we know, it takes a 50 vote point of order to waive rule XVI, which is legislation on appropriations. I am not going to violate that.

We have a great inconsistency here. I have been coming to the floor for a long time talking about energy policies. I am referring today, of course, to our continuing dependence on petroleum from Iraq. We import somewhere between 500,000 and 750,000 barrels of oil from Iraq, but we are considering an act driving this dependence on Iraq. I have an amendment at the desk that would do just that.

I will not call up that amendment at this time, but I would like to alert my colleagues of the significance of what is going on with regard to Iraq. I think the occupant and other Members are aware of the Smith-Schumer letter which addresses the ILSA issue by extending for 5 years the moratorium on trade with both Iran and Libya.

We have a great inconsistency here. I have been coming to the floor for a long time talking about energy policies. I am referring today, of course, to our continuing dependence on petroleum from Iraq. We import somewhere between 500,000 and 750,000 barrels of oil from Iraq, but we are considering an act driving this dependence on Iraq. I have an amendment at the desk that would do just that.

Let me share with the Presiding Officer what the curve is relative to the increase in our oil imports from Iraq to the United States. It started in 1997 and has had its ups and downs. In 1998 we had a takeoff, and we are currently importing somewhere in the area of 700,000 barrels a day.

We had an interesting occurrence about 6 weeks ago where Iraq was unhappy with the U.N. in the G5 and made a decision to reduce its production by 2.5 million barrels a day for a month. That took 60 million barrels a day off the market.

Now, there were many in this body who thought OPEC would simply increase their production and offset that. That was not the case. OPEC simply decided to wait 30 days. As a consequence, the 30 days have passed, and Saddam Hussein did not get what he wanted from the United Nations, but he did turn back his production level.

As a consequence, I think it is important to recognize what is happening with regard to Iraq. Many people forget we had a war over there in 1990 and 1991. That war cost us some 148 American lives. We had 400 some wounded. We relieved 500000 prisoner. We were successful. The purpose of the war was very simple, it was to keep Saddam Hussein from invading Kuwait and going on into Saudi Arabia and basically controlling the world's supply of oil. Make no mistake about it; that was a real war.

The consequences of that are rather interesting to reflect on now. If we look at the situation with regard to our friend, Saddam Hussein, we find American families are now going to Saddam Hussein for energy. Iraq is the fastest growing U.S. source of oil imports: Again, 750,000 from Iraq; about 2.3 million from the Persian Gulf countries; the OPEC countries, about 5 million.

I am not going to stop there because I think that is where the issue is kind of left in the minds of many Americans. But let's think about realities. Since the gulf war, we have enforced an actual blockade. Perhaps some of my colleagues could share with me the difference between an aerial blockade and a surface blockade. A surface blockade with the Navy is generally considered an act of war. We have been enforcing this no-fly zone. We call it a no-fly zone, but it is really an aerial blockade. We have flown nearly 250000 individual sorties, flights, over Iraq, enforcing this aerial blockade. We have done it to prevent Saddam Hussein from threatening our allies in the region.

We are spending billions of dollars to keep Saddam Hussein in check. What are we doing with the oil? We take his oil, we fill up our airplanes, and send our pilots to fly over Iraq. They are not flying chaff; they are flying military artillery. Then they return, fill up on Iraqi oil, and do it again.

I find that discomforting, to say the least. I am indignant. It is unacceptable. I could use many adjectives. But Saddam Hussein is heating our homes in the winter, getting our kids ready for school each day, getting our food from the farm to the table, and we pay him pretty well to do that.

Let me refer to what is happening as a consequence of this. I will get back to this chart a little later. We can view it with some reflection because it represents a very significant trend.

Let's talk about what Saddam Hussein does with the money we pay him. He pays his Republican Guards to keep him alive; he supports international terrorist activities—we are aware of that; he funds his military campaign against American interests, American service men and women and our allies; and he is desperately trying to shoot one of our aircraft down.

When that happens, if it happens, God forbid, I don’t know what the reaction is going to be. But I know what
my personal reaction is. This risk has been evident to the American people and the American Congress. We have conducted hearings, but we have not done anything about it. Why not?

The inconsistency, of course, is we are proposing to extend our sanctions on Iran and Libya for another five years. We have not imported a drop of oil from Iran in 20 years. I am not suggesting we should. But we do not even mention Iraq.

In addition to paying his Republican Guards, supporting international terrorists, he builds an arsenal of weapons of mass destruction with biological capability. Who does he threaten? He threatens our ally, Israel. As a matter of fact, he ends virtually every speech with, ‘Death to Israel.

I don’t know how more pointed I could get. May I be missing something in this. Is this good policy? For a number of years the United States has worked closely with the United Nations on the Oil For Food Program. The program allows Iraq to export petroleum in exchange for funds which can be used for food, medicine, and other humanitarian products. But despite more than $15 billion available for those purposes, Iraq has only spent a fraction of that money for the needs of the Iraqi people. Instead, the Iraqi Government spends it on missile capability, defensive and offensive capability, a highly trained military. One has to wonder why, when billions of dollars are available to care for the people of Iraq; many of whom are malnourished, many of whom are sick, many of who have inadequate medical care; why would Saddam Hussein withhold the money available and choose, instead, to blame the United States for the plight of his people? Why is Iraq spending millions on nutrition and prenatal care? Why are they reducing that amount when billions of dollars are available? Why does $200 million of medicine from the U.N. sit undistributed in Iraqi warehouses? Why, given the urgent state of humanitarian conditions in Iraq, does Saddam Hussein insist that his country’s highest priority is the development of sophisticated telecommunication and transportation infrastructure? Why the billions available and his people are starving, is Iraq only buying about $8 million in agricultural products from the United States?

I do not have any quarrel with the Oil For Food Program. It is well intentioned. I do have a problem with the means with which Saddam Hussein has manipulated our growing dependency on Iraqi oil.

Three times since the beginning of the Oil For Food Program, Saddam Hussein has threatened, or actually halted, oil production, as I indicated, disrupting energy markets, sending world prices skyrocketing. Why did he do this? I guess he wants to send a message to the United States. The message might be: I have leverage over you. Every time I look at the chart I look at the increased leverage associated with Saddam Hussein and OPEC and the cartel. We do not have cartels in this country. We cannot. We have anti-trust laws against it. But we are feeding this cartel with our appetite for crude oil.

The harsh reality is, as much as we would like to relieve our dependence on oil with alternative energies—we have alternative sources of energy. We have coal, we have natural gas, we have the hydro, we have nuclear, but you do not move America or the world on that kind of energy. You move America and the world on oil. We do not have a substitute for that. We do not have anything real that you have.<

We are going to become more dependent unless we address the alternative and that is to reduce our dependence here at home by conservation and opening up new sources where we are likely to find a significant volume of oil.

One of the things in my energy bill as a specific goal and target is to reduce the dependence on imports of oil to less than 50 percent by 2010. You can do it in one fell swoop if, indeed, the oil in ANWR is what it purports to be, somewhere between 5.6 billion and 16 billion barrels a day. The question is, Can you do it safely; and the answer is clearly yes.

There is one other thing I would like to mention that has not gone into the ANWR argument to any extent. That is the interests of the residents of the area. That particular issue involved 95,000 acres of land that are in ANWR, up here at the top of the world, in the Northwest. Kaktovik—these Natives have 95,000 acres of land. I have a chart that shows the Native ownership. The Native ownership is basically such that it has no access to the existing pipeline. It has no access from the standpoint of producing, even for the villagers there, the gas that is in the village site for use by the villagers. They are simply precluded.

We use the term “corridor” in Alaska. Corridor means that when you are fishing and the fish are swimming, somebody takes their net and goes in front of you.

That is just what has happened up here with our Native people. The Native people have 95,000 acres of private land. They are precluded from recovering even their own natural gas for development and usage. That is wrong.

As we look at reality, and as we look at our increased dependence on imports, by the votes we have seen here, whether it is on lease sale 181 or some of the issues relative to our national monuments, we had better come to grips with reality. Where are these deposits going to come from if they do not come from areas that are still open?

This is a chart that shows the areas that are closed. The west coast and the east coast are off limits. Take lease sale 181. Three-quarters of that is off limits. The entire overtrust belt is off limits as a consequence of actions by the last administration.

I make this point simply to highlight the reality. Here we are talking about extending moratoriums against Iran and against Libya with no mention of Iraq. We have placed our energy security in the hands of a madman, Saddam Hussein.

The administration has attempted valiantly to reconstruct a sensible multilateral policy towards Iraq. Those attempts, unfortunately, have not been successful. We are still dependent on our foreign policy. We need to end our addiction to Iraqi oil. We need to basically go cold turkey. To that end, in a moment I will introduce legislation which would prohibit oil imports from Iraq, whether or not under the Oil for Food Program, until it is no longer inconsistent with our national security to resume these imports. I hope that this will be an initial step toward a more rational and coherent policy towards Iraq.

As a consequence, I am withdrawing my amendment at the desk. I trust my colleagues have picked up to some extent the points I have brought out.

Mr. President, I ask unanimous consent for 1 minute as if in morning business to introduce my bill. Then I will yield the floor.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is withdrawn. Without objection, the Senator is recognized.

The remarks of Mr. MURkowski pertaining to the introduction of S. 1170 are located in today’s RECORD under ‘Statements on Introduced Bills and Joint Resolutions.’

Mr. MURkowski. Madam President, I suggest unanimous consent for a quorum.

The PRESIDING OFFICER (Ms. CANTWELL). The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. DASCHLE. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DASCHLE. Madam President, I think we are at a stage in the debate where I can say we have completed all of our work.

I compliment the chairman and the ranking member for their extraordinary work in the last couple of days.
in getting us to this point. Let me also thank Senator GRAMM of Texas for his work in the past couple of hours in working with Senator BYRD on a concern of great import to Senator BYRD.

There has been no request for a rollcall vote on final passage. I am now in a position to announce that there will be no more rollcall votes tonight.

There are no rollcall votes scheduled for tomorrow, nor will there be votes on Monday. My hope is that we will be able to move to the energy and water appropriations bill on Monday for debate only, and then we will move into debate on amendments beginning as early as Tuesday. I hope Senators will file their amendments and will be prepared to offer them even though we will not have votes on Monday. I encourage them to do that.

I am hopeful we can get at least two appropriations bills done, if not more, next week.

We have a lot of work to do. But there are no more votes tonight. As promised, I also made a commitment that a number of nominations—if I recall, something on the order of 20 nominations—will be offered shortly. We are about ready to do that. There is at least one that will be the subject of some discussion. But I know of no requests for rollcalls on those nominations. No more rollcall votes tonight.

We will begin work on Monday, hopefully, on energy and water.

I yield the floor.

Mr. BURNS. Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BURNS. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BURNS. Madam President, I wish to take this opportunity to offer a few observations as we are closing up this Interior appropriations bill. I must thank the senior Senator from West Virginia for his work as chairman of this committee. His staff has been remarkable. They are easy to work with, and they have accommodated, I think, as many people in this body as they possibly could.

Peter Kiehhaber has done a commendable job in his first year as the clerk for the majority. His willingness to work with my staff has ensured that this bill has reached its bipartisan form. He has been assisted by a number of very capable staff members, including Ginny James, Leif Fonnesbeck, Brooke Livingston, and a detaillee from the U.S. Fish and Wildlife Service, Scott Dalzell.

On my side of the ring, I thank my staff members who work with me on the minority side.

Bruce Evans lent his expertise after spending numerous years as the majority clerk under the very able chairman of the Full Committee on Appropriations of Washington. I have a lot more respect for the former Senator from Washington and the work he did because this is my first year on Interior appropriations. I personally thank Bruce for continuing his service in the Senate and helping me through my first year as chairman and then ranking member on this bill.

I also thank Christine Drager for her assistance on a number of extremely difficult accounts, as well as Ryan Thomas, who moved from my personal office to the Appropriations Committee to lend a helping hand in drafting this legislation.

While I am thanking those who have helped in the formation of this legislation, I want to single out Mark Davis. Mark has joined my office as a congressional fellow from the U.S. Forest Service. I want my colleagues to know that it was Mark's efforts that ensured the necessary number of nominations, and all the requests were considered. He sifted through the request letters, organized your request lists, and tracked your staff down to make sure we had the information necessary to help us meet the desires of each Member and make some very tough decisions. I thank him for his service.

Madam President, this has been somewhat of a difficult process. We were not able to fully meet the desires of every Member who offered an amendment to this bill. However, the chairman and I have attempted to remain fair while avoiding adding legislative riders that would slow the progress of this bill.

It is imperative that this bill be moved through Congress and be sent to the President as soon as possible. It is now mid-July and we have a lot of work ahead of us.

Again, I thank my chairman, Senator BYRD of West Virginia. I could not have asked for a better chairman as I enter the first year working on Interior appropriations. I thank him very much for his patience because he helped me through some of the rough spots. I thank him for that.

I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BYRD. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BYRD. Madam President, I express my heartfelt gratitude to the colleagues, the distinguished Senator from Montana, who is the ranking member on the subcommittee of the Department of the Interior.

I thank him for his very able representation of his people. I thank him for the consideration he has accorded to all other Senators as we have developed this bill, brought it to the floor and managed it together. I thank him for his equanimity, his very friendly and accommodating spirit. I thank him for being CONRAD BURNS. I thank him for the contribution he has made in the development of this bill in working with me as we have attempted to manage the bill and bring it to a conclusion.

I thank our respective staffs on both sides of the aisle for their courtesies to the end and to our colleagues. I thank our colleagues for their cooperation and understanding. I thank the leaders on both sides for the assistance they have given to us. I particularly thank our Democratic whip.

I believe that Members will remember my taking the floor on many occasions to speak on the theme that the dog is man's best friend. Harry Truman said, "If you want a friend in Washington, you better get a dog. Well, I believe that. Members often hear me extol the virtues of the dog. Not only can we say that a dog is man's great friend, but for those of us who have to manage bills on the floor, it has been my experience that the majority whip is the best friend that a manager of a bill can have.

I have seen a goodly number of whips in my time on the Senate floor. The Office of Whip goes back a long way, into the 19th century, as a matter of fact, when it was said in the British Parliament that the whipper-in—the individual who kept the hounds from straying from the field during the fox chase. In those days, whips were sent in the form of circular letters to members of the opposition, members of the King's party to northern England, and sent as far away as Paris, France, to tell members to come in on a certain day and be prepared to vote on a certain matter. That was the whip's job.

The whip's position here has grown into an institution. During the early 1900s, during the first quarter of the 20th century, the offices known as majority whip, majority leader, minority leader, minority whip came into being. They are not constitutional offices, but these are offices that have been developed over the years.

The whip system in the House is much more refined and more highly developed than it is in the Senate, not quite so highly developed as it is in the British Parliament. In our body, we do not have the whip system they have in the House, but we have an extraordinarily good whip in HARRY REID from Nevada.

I was what I consider a good whip here for a good many years. I served with Mike Mansfield when he was majority leader. I was the majority whip, and I sat on the floor all the time. I never left the floor but a few minutes at a time. This whip, HARRY REID, performs that same function. He is on the
floor. He is helping Senators with their needs. He is helping the managers of the bill to arrive at agreements. He is helping the other managers of the bill to reach time agreements on amendments once they have been offered. He does an extraordinarily good job.

I express those compliments concerning HARRY REID. I think he is a better whip than ROBERT BYRD ever was. He has more patience than ROBERT BYRD had. I would say he has more political guomption than ROBERT BYRD probably had. He is a great whip. I salute him.

I have no hesitancy at all in saying if somebody does a better job than I can do, I salute them for it. He does an excellent job. I thank him.

He helped me and Senator STEVENS on the supplemental bill. He has helped Senator BYRD and myself on this bill. I thank him.

Madam President, we will be going to conference next week on this bill, and Senator CONRAD BURNS and I will, again, stand shoulder to shoulder with the other members of our team on both sides of the aisle, and we will be working with the House Members in an effort to bring from the conference a bill the President will sign into law.

I merely wanted to express those few compliments, those few expressions of gratitude, and to say I am very glad that the Senate has reached the point now of finalizing the action on this bill prior to it being sent to conference.

The Senate has now approved the fiscal year 2001 Supplemental appropriations bill and the first fiscal year 2002 appropriations bill, the fiscal year 2002 Interior and related agencies appropriations bill. We have scheduled nine bills for action in the Senate Appropriations Committee of work.

We have a long tradition on the Senate Appropriations Committee of working together on a bipartisan basis to produce fiscally responsible and balanced appropriations bills. Working together with my distinguished colleague and good friend TED STEVENS, we have gotten off to a good start this year.

The fiscal year 2001 supplemental appropriations bill passed the Senate on Tuesday by a vote of 98-1. It totaled $63.5 billion, not one thin dime over the President’s request. It is a balanced bill that approved most of the President’s request for defense and included a number of other priority programs such as funding for Education for the Disadvantaged, the Low Income Home Energy Assistance Program, and the Global AIDS program. It included no emergency funding. All unrequested items were fully offset so that we remain under the statutory cap on spending for fiscal year 2001.

Today, we have approved the fiscal year 2002 Interior appropriations bill by a voice vote. We have exercised discipline. The budget resolution sets very tight limits on overall discretionary spending. And this bill stays within the 302(b) allocation that the Appropriations Committees approved pursuant to the budget resolution.

In both bills we held the line. We stayed within our budgetary boundaries. We took a deep breath and were able to squeeze those narrow walls. But the walls are getting tighter. We have been given a difficult task. Much has been asked of us; a tremendous amount is expected when it comes to providing for the national need.

We are attempting to conduct the people’s business—to pass the thirteen bills that fund government in a timely fashion. The clock is ticking. We hope to go to conference soon so that this bill can be sent to the President before the August recess.

The House and Senate Budget Committee are now projecting that we will be dipping into the Medicare surplus in fiscal year 2002 and that this trend is likely to continue for several years. This is taking place before a single appropriations bill has been sent to the President.

I believe that this change in our budget outlook will result in very tight limits on discretionary spending over the next few years. I don’t like it, it won’t be good for America, but it is a reality. As we consider the fiscal year 2002 bills, it will be very important that we understand the long term consequences of our actions. We should not be taking actions this year that will lock us into long term costs. We have a long tradition on this committee for producing responsible bills, one year at a time.

There will be a strong temptation to approve provisions this year that will mandate costs for specific programs in future years. We simply can not go down that road when we know that we are facing tight spending limits over the next few years.

Madam President, I ask unanimous consent that during the pendency of H.R. 2217, the managers be permitted to offer a managers’ amendment; that once the amendment is reported, it be considered agreed to and the motion to reconsider be laid upon the table; that any amendments laid aside be modified that the motion to reconsider be laid upon the table; that no further amendments be in order; that the bill be advanced to third reading; that the Senate proceed to vote on passage of the bill with no intervening action; that the Senate insist on its amendment, request a conference with the House of Representatives, and the Chair be authorized to appoint conference on the part of the Senate.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BYRD. Madam President, I yield the floor.

Mr. BURNS. Madam President, I again thank Senator BYRD for his leadership on this legislation. We set a record for an Interior Appropriations bill due to the chairman’s leadership. Two days is about as fast as we have done an Interior appropriations bill. That is a great credit to his leadership. I thank the Senator from West Virginia.

I yield the floor.

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. BYRD. Madam President, I ask unanimous consent that any statements by Senators in connection with the bill be printed in the RECORD as though spoken.

The PRESIDING OFFICER. Without objection, it is so ordered.

A UNANIMOUS CONSEN T AGREEMENT—NOMINATION OF J. STEVEN GRILES

Mr. REID. Madam President, I ask unanimous consent that immediately following the vote on final passage of H.R. 2217, the Senate proceed to executive session to consider the nomination of J. Steven Griles to be Deputy Secretary of the Interior; that the Senate immediately vote on the confirmation of the nomination, with no intervening action; that the motion to reconsider be laid upon the table; that the President be immediately notified of the Senate’s action; that there then be a period for debate regarding the nomination; and that following that debate, the Senate return to legislative session.

The PRESIDING OFFICER. Is there objection?

The Senator from Oregon.

Mr. WYDEN. Madam President, reserving the right to object, I ask unanimous consent that the agreement be modified to reflect that the vote occur on the nominee following remarks.

The PRESIDING OFFICER. Is there objection?

Mr. CRAIG. Reserving the right to object.

The PRESIDING OFFICER. The Senator from Idaho.

Mr. CRAIG. Madam President, I ask for no more than 2 minutes following the comments of the Senator from Oregon.

Mr. REID. I say under my own consent request, it is likely that the junior Senator from Florida will also want to speak. He has indicated that when we take your voice vote, he wants to be one of those known as having voted no. So I reserve some time for him, too, if he desires to come.

The PRESIDING OFFICER. Does the Senator modify his request?

Mr. REID. Yes.

The PRESIDING OFFICER. Without objection, it is so ordered.

A UNANIMOUS CONSENT AGREEMENT—NOMINATION OF J. STEVEN GRILES

The PRESIDING OFFICER. The clerk will report the managers’ amendment.

The legislative clerk read as follows:
The Senator from West Virginia [Mr. BYRD], for himself and Mr. BURNS, proposes an amendment numbered 976.

(The text of the amendment is located in today's RECORD under "Amendments Submitted.")

The PRESIDING OFFICER. Under the previous order, the amendment is agreed to.

The amendment (No. 976) was agreed to.

The PRESIDING OFFICER. Under the previous order, all the pending amendments are agreed to.

The amendment (No. 880) was agreed to.

The amendment (No. 975), as modified, as agreed to, as follows:

At the appropriate place, insert the following:

SEC. 11. MODIFICATION TO STEEL LOAN GUARANTEE PROGRAM.

(a) IN GENERAL.—Section 101 of the Emergency Steel Loan Guarantee Act of 1999 (Public Law 106-51; 15 U.S.C. 1841 note) is amended as follows:

(1) TERMS AND CONDITIONS.—Subsection (b) is amended by—

(A) in paragraph (1), by striking "2005" and inserting "2015"; and

(B) by amending paragraph (4) to read as follows:

"(4) GUARANTEE LEVEL.—

(A) IN GENERAL.—Except as provided in subparagraphs (B) and (C), any loan guarantee provided under this section shall not exceed 95 percent of the amount of principal of the loan.

(B) INCREASED LEVEL ONE.—A loan guarantee may be provided under this section in excess of 95 percent, but not more than 90 percent, of the amount of principal of the loan, if—

(i) the aggregate amount of loans guaranteed at such percentage and outstanding under this section at any one time does not exceed $100,000,000; and

(ii) the aggregate amount of loans guaranteed at such percentage and outstanding under this section with respect to a single qualified steel company does not exceed $50,000,000.

(C) INCREASED LEVEL TWO.—A loan guarantee may be provided under this section in excess of 95 percent, but not more than 90 percent, of the amount of principal of the loan, if—

(i) the aggregate amount of loans guaranteed at such percentage and outstanding under this section at any one time does not exceed $100,000,000; and

(ii) the aggregate amount of loans guaranteed at such percentage under this section with respect to a single qualified steel company does not exceed $50,000,000.

(b) TERMINATION OF GUARANTEE AUTHORITY.—Subsection (k) is amended by striking "2001" and inserting "2003".

(c) APPLICABILITY.—The amendments made by this section shall apply only with respect to any guarantee issued on or after the date of the enactment of this Act.

Mr. BURNS. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BYRD. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The question is on the engrossment of the amendments and the third reading of the bill.

The amendments were ordered to be engrossed and the bill to be read a third time.

The bill was read the third time.

INDIAN HEALTH SERVICES

Mr. DASCHLE. Madam President, I would like to bring to the attention of the Senate the critical shortfall in Indian Health Service funding. The Indian Health Service is unable to provide basic health services to American Indians and Alaska Natives. We are failing to uphold a promise we made many years ago in federal-tribal treaties as well as federal statute.

The Indian Health Service is tasked with providing full health insurance for American Indians and Alaska Natives, but is hindered by the fact that patients are routinely denied care that that most of us take for granted and, in many cases, call essential. The budget for clinical services is so inadequate that Indian patients are subjected to a “life or limb” test. Unless their condition is life-threatening or they risk losing a limb, their treatment is deferred for higher priority cases; by the time they become a priority, there are often no funds left to pay for the treatment.

I attempted to address this crisis by offering an amendment to the fiscal year 2002 budget resolution. The amendment called for a $1.2 billion increase in the clinical services budget of the Indian Health Service. Seven of my colleagues cosponsored this amendment, which passed the Senate, but was not included in the bill that returned from conference.

I again attempted to address this situation in the Interior Appropriations bill, but it appears that some will be unable to do that at this time due to the inadequate budget allocation facing the Interior Appropriations Subcommittee. I would like to engage in a colloquy with the distinguished chairman of the Appropriations Committee on how we might address this situation in conference and advance the goal of living up to our commitment to provide essential health services to American Indians and Alaska Natives.

Mr. BYRD. Madam President, I am happy to address that issue with the majority leader. Can the leader tell me what would be required to offer the basic health services we promised to American Indians and Alaska Natives?

Mr. DASCHLE. Madam President, we have estimates of the funding that would be required to provide basic clinical services to American Indians and Alaska Natives. The President’s fiscal year 2002 budget requests $1.8 billion for Indian Health Service clinical services. With the increase over the fiscal year 2001 appropriation, it will not allow the Indian Health Service to meet the basic level of health needs for American Indians and Alaskan Natives.

For many years now, appropriations for the Indian Health Service have not even kept pace with medical inflation or population growth. We are failing to invest in health care for each Indian Health Service beneficiary is only one-third of what is spent per capita for the general U.S. population. The Department of Health and Human Services and the Indian Health Service produce a tribal needs-based budget that calculates the true cost of meeting the health needs of Native Americans. According to these estimates, a $1.2 billion increase in the fiscal year 2002 budget is required to meet the most basic health care needs.

The impact of serious, chronic under-funding of the Indian Health Service is immense. The disparities in health outcomes between American Indians and Alaska Natives compared to other Americans is just one example. An American Indian baby is 50 percent more likely to die before the age of one than a Caucasian baby. In some counties of my state, the infant mortality rate is 33.6 per 1,000, more than 5 times the Caucasian rate. The same disparities exist for diabetes, tuberculosis, alcoholism, liver disease, and fetal alcohol syndrome.

The impact of serious, chronic under-funding of the Indian Health Service is immense. The disparities in health outcomes between American Indians and Alaska Natives compared to other Americans is just one example. An American Indian baby is 50 percent more likely to die before the age of one than a Caucasian baby. In some counties of my state, the infant mortality rate is 33.6 per 1,000, more than 5 times the Caucasian rate. The same disparities exist for diabetes, tuberculosis, alcoholism, liver disease, and fetal alcohol syndrome.

Mr. COCHRAN. Madam President, I know that his efforts to increase Indian Health Service funding have been undermined by an inadequate budget allocation for this subcommittee. I certainly appreciate the severe constraints on the Appropriations Committee, particularly in light of the tax cut legislation recently enacted and the budget reestimates that indicate the projected budget surpluses are in doubt.

I hold out hope that, as he and the other conference negotiators stand in the House, they can find some way to provide additional funding for the clinical services budget of the Indian Health Service. As the majority leader, I will work with our colleagues to ensure that the projected budget surpluses are not used to fund domestic priorities.

Mr. BYRD. Madam President, I am concerned about these conditions, and I know that his efforts to increase Indian Health Service funding have been undermined by an inadequate budget allocation for this subcommittee. I certainly appreciate the severe constraints on the Appropriations Committee, particularly in light of the tax cut legislation recently enacted and the budget reestimates that indicate the projected budget surpluses are in doubt.

I hold out hope that, as he and the other conference negotiators stand in the House, they can find some way to provide additional funding for the clinical services budget of the Indian Health Service. As the majority leader, I will work with our colleagues to ensure that the projected budget surpluses are not used to fund domestic priorities.
be provided with health care services under the Indian Health Services Contract Services Program. It is my understanding that there is a procedure which would allow the Mississippi Band of Choctaw Indians to include the approximately 300 tribal members who reside in Ripley, TN, within their authorization area.

The Ripley community lacks the most basic health services. There are no resources for preventive health education and no access to either Indian Health Services or tribally operated facilities.

The Mississippi Band of Choctaw Indians has demonstrated a commitment to these tribal members by providing updated housing and other infrastructure and services. The tribe is currently constructing a health care facility at the Ripley Community. However, it is concerned that it does not yet have the authorization from Indian Health Services to provide those services.

I am sensitive to the constraints in the Interior Appropriations bill, which did not allow an increase in the Contract Services Program. I am hopeful that we can work with our colleagues from the House of Representatives in the conference to fund additional funds for this program, to increase the likelihood that tribal members, no matter where they live, will be able to have access to the health services they need to stay healthy.

Regardless of the funding situation, I hope that the Indian Health Services officials here in Washington, D.C., will review this situation and work closely with Chief Phillip Martin, the tribal council officials of the Mississippi Band of Choctaw Indians, to expand its Contract Health Services area.

Mr. BYRD. The Senator from Mississippi has my assurance that I will support his effort to assist the tribe in his State. I encourage the Director of Indian Health Services to pay particular attention to the request of the Mississippi Band of Choctaw Indians to serve its tribal members in Ripley, TN.

Atlantic Salmon Conservation

Ms. SNOWE. Madam President, my colleague from Maine and I would like to engage the subcommittee chairman and ranking member if we may.

Ms. SNOWE. I also want to thank my colleagues for their support for Atlantic salmon recovery. As the Senators from Maine, $500,000 for Fish and Wildlife Foundation’s Atlantic salmon grant program. The program, which has leveraged an even greater amount of non-federal money, has been extremely successful in identifying and supporting innovative projects that will help with the recovery effort.

Mr. BYRD. I appreciate the comments of my colleagues from Maine and commend them for the hard work they have done to secure resources to help with the Atlantic salmon recovery efforts in their State.

Ms. COLLINS. In reporting its bill, the subcommittee originally provided $500,000 for the Fish and Wildlife Management Account for the National Fish and Wildlife Foundation’s Atlantic salmon grant program. It is my understanding that, in increasing funding for the program to $1.1 million, the subcommittee continues to meet the administration’s request for funding for Atlantic salmon recovery efforts through the Fish and Wildlife Management Account.

Mr. BURNS. The Senator from Maine is correct. The subcommittee recommended an increase of $7,380,000 for Fish and Wildlife Management above the administration’s request for this account. Of the $7,380,000, $600,000 has been reallocated as part of the manager’s amendment to the U.S. Fish and Wildlife Service’s General Administration Account for the National Fish and Wildlife Foundation’s Atlantic salmon grant program, bringing the total provided by the bill for this program to $1.1 million.

Ms. SNOWE. The money that was provided last year has been utilized to engage a wide range of stakeholders, including local community groups as well as aquaculture, agriculture, and forestry companies in cooperative restoration efforts. They have worked hard to aid the rebaking process. It is a reflection of the strong commitment of everyone in Maine that we have far more projects being proposed than funding to accommodate them all. I can assure you that the money you are providing today will make a significant impact. I thank the subcommittee chairman and the ranking member for their courtesy and continued support.

Ms. COLLINS. I also thank the Senators from West Virginia and Montana, and I look forward to continuing to work with them and the senior Senator from Maine to ensure that resources are available to assist in Atlantic salmon recovery efforts.

Funding for the Urban Parks and Recreation Recovery Fund

Mrs. BOXER. Madam President, I would like to take this opportunity to clarify that it is the intent to seek additional funding for the Urban Park and Recreation Recovery Fund, UPARR, when the Senate Interior Appropriations bill goes to conference.

UPARR plays a vital role in supporting the last remaining green spaces in some of our most congested urban areas. This program takes a relatively small amount of federal funds and leverages them to make a substantial contribution to the development and improvement of our nation’s urban parks, playgrounds, and recreational areas. For many of my constituents, these small pockets of open space are a vital part of their community. They serve as playgrounds for children, meeting places for adults, and areas for fun, recreation, and respite from the daily hustle and bustle of our Nation’s most economically and socially stressed neighborhoods.

I was pleased to see that the House included $30 million for this important program in its fiscal year 2002 Interior appropriations bill. This amount includes a slight increase over this year’s funding levels and is consistent with the commitment made to this program last year in title VIII of the Interior appropriations bill.

I was disappointed, however, that the Senate bill did not match this funding level. I realize that this lower level of funding for UPARR is related to the lower overall level of funding in the Senate bill. When the bill gets to conference with the House, I hope we can accept the House level. Is that the chairman’s intent?

Mr. BYRD. I agree with my distinguished colleague from California that UPARR is a worthy program. If additional funds become available in conference, I shall be glad to consider a higher level of funding for UPARR.

Sewall-Belmont House

Mrs. HUTCHISON. Madam President, I rise today to ask my colleagues Senator Byrd and Senator Burns to work with me in conference on the Interior appropriations bill to ensure that the Interior Department provides funding for an important Capitol Hill landmark, the Sewall-Belmont House.

The Sewall-Belmont House has been a center of political life in Washington for more than 200 years. It was the home of Treasury Secretary Albert Gallatin from 1801 to 1813 and the only site in Washington to offer armed resistance when British troops invaded the city in August 1814. The building later became a beacon of liberty for American women in the 20th century as the headquarters of the historic National Woman’s Party and home of the suffragist leader, Alice Paul.

Congress provided $500,000 last year to begin much needed site preservation work at the Sewall-Belmont House. Funds will be needed this year to continue construction and ensure that this site remains a national landmark.

Recognition of the Sewall-Belmont House as a nationally significant heritage site has dramatically increased as
Mr. HARKIN. I thank the Senator.  

OHIO WATER PROJECTS  

Mr. DEWINE. Madam President, I rise to enter into a colloquy with Appropriations Chairman BYRD and the ranking member of Interior Appropriations, Senator BURNS. I want to briefly discuss with my honorable colleagues an important conservation and recreation project that is of great interest to me and request their favorable consideration of $5 million for this project in the fiscal year 2002 Interior Appropriations bill.  

Madam President, a few miles west of Ohio's State capital of Columbus flow two outstanding waterways: the Big and Little Darby Creeks. These two creeks are recognized as State and National Scenic Rivers for their crystal clear water, their abundance of wildlife, and the fact that many Ohioans as a source of high quality outdoor recreation. The Nature Conservancy has even listed these watersheds as one of the "Last Great Places" in the Western Hemisphere. On more than one occasion, I have had the pleasure of visiting these two creeks. As a matter of fact, Mr. President, I spent a wonderful day canoeing on the Big Darby Creek earlier this week with two of my children.  

Since 1959, the Franklin County Metro Parks have been purchasing land from willing sellers along these two creeks as part of their Battelle-Darby Creek Metro Park. The Park currently offers several recreational opportunities including a Streamside Classroom Education Program, a 1.6 mile walking trail, and several canoe access sites. In addition to welcoming the thousands of visitors the park receives each year, the park's dedicated and highly trained staff are conducting important wetland and prairie restoration programs in the area. At this time, there are several potential purchases that could substantially expand the park and ensure the protection of the creek and increase public access opportunities. I have urged my colleagues on the Interior Appropriations Committee to provide funding for these purchases.  

I have discussed my interest in providing financial support for further expansion of the park with Senators BYRD and BURNS and I appreciate their willingness to enter into this colloquy. I also appreciate their interest in exploring funding opportunities for this project through the fiscal year 2002 Interior Appropriations bill.  

Mr. BYRD. Madam President, I have had the opportunity to discuss this project with Senator DeWine, and I rise today to assure him that I appreciate and understand his interest in this important project and will give it serious consideration during the further consideration of the fiscal year 2002 Interior appropriations bill.  

Mr. BURNS. Madam President, I too have had the opportunity to discuss this project with my friend from Ohio. I share Senator BYRD's interest in examining potential funding opportunities to support the Central Idaho Wolf Recovery Program.  

WOLF RECOVERY PROGRAM  

Mr. CRAIG. Madam President, I rise to commend Mr. BYRD and Mr. BURNS on their leadership and hard work on this bill. The subcommittee has had to make hard decisions about scarce resources and has labored to do so fairly. The votes we have made require to make sure the taxpayer's dollar is spent effectively and efficiently. I have seen first-hand, and appreciate, their dedication to the integrity of this process.  

Would the distinguished gentlemen form West Virginia and Montana engage in a colloquy with me concerning the Central Idaho Wolf Recovery Program for the nonexperimental population of gray wolves?  

Mr. BYRD. I would be pleased to engage in such a colloquy.  

Mr. CRAIG. While I wish gray wolves did not reside in my State, they do, and they are not going away. Thus, I believe the U.S. Fish and Wildlife Service must be proactive and aggressive in addressing issues related to the monitoring of the wolf population and working with the affected States of Idaho, Montana, and Wyoming to delist the population. The wolf population in Central Idaho is growing by leaps and bounds. As a result, permittees are faced with growing livestock-wolf conflicts. In addition, private property rights are infringed as these conflicts occur on private property. Yet the permittees must have a Federal permit to address conflict issues on their own land. Last, as the population grows, management efforts have not increased at the same rate. I feel that these individuals should not be punished because the wolves were re-introduced into central Idaho.  

The subcommittee has worked to secure an additional $200,000 for the Central Idaho Wolf Recovery Program. I fear this additional money should be used to increase monitoring efforts and increase communication with potentially affected permittees, as well as, to focus efforts on defining and meeting criteria for delisting the wolves in central Idaho. I believe these funds should work to provide Idaho with flexibility in managing wolf population to meet the needs of those most affected by the wolves.  

Mr. BYRD. I will work with Mr. Craig to see that these funds are used for monitoring of the central Idaho wolf population.  

Mr. BURNS. As this gentleman from Idaho, these funds should be used to provide flexibility in managing the wolf population of central Idaho.
JUDICIAL TRAINING IN THE PACIFIC ISLANDS

Mr. SMITH of Oregon. Madam President, I would like to discuss with distinguished colleagues, the chairman of the Appropriations Committee, and the ranking member on the Interior Appropriations Subcommittee, the need for judicial training in the Pacific Islands.

I have been working over the past year with the judges of the ninth circuit, the circuit charged with overseeing the judiciary in the Pacific Islands, to help them secure the funds to conduct a needs assessment for the training of judges in the United States territories and Freely Associated States in the Pacific. That assessment has been completed, and has identified the need for more training programs for nonlawyer and legally trained judges.

The judges of the ninth circuit have worked with the National Judicial College to design two separate one-year training programs for judges in the Pacific Islands. One is aimed at nonlawyers and would be conducted in Pohnpei, the capital of the Federated States of Micronesia, in order to be the most cost effective. The second program would be conducted in the United States, and would be geared toward chief justices or presiding judges.

These training programs are necessary to help Pacific Islands facing burgeoning populations and judicial systems that are not fully developed. The need for further training of these judges has long been recognized by the ninth circuit. This program has the full support of the judiciary in American Samoa, Guam, the Commonwealth of the Northern Marianas, the Republic of Palau, the Republic of the Marshall Islands, and the Federated States of Micronesia.

If we are to expect these areas to be able fully and effectively enforce applicable laws, including traditional laws, those who serve in the local judiciaries are able fully and effectively enforce applicable laws, including traditional laws, which have served the people of the region well for centuries. The need for our government to provide assistance to the people of these territories to help them establish their own systems of justice is both critical and urgent.

I am concerned, however, that by allowing the project to go forward, we may be sacrificing the ability of the federal government to secure the funds needed to help Pacific Islands facing the need for judicial training. This is a concern that I share with the chairman and the ranking member of the Appropriations Committee, and I want to take this opportunity to discuss this issue with them.

Mr. BYRD. I am familiar with this project. As I understand it, the owner of the land is asking for $300 million in Federal and State funds for the 13,000 acres. While, this may be a worthwhile endeavor, I question whether it will be possible to allocate such a large sum. I have not understood the chairman’s concern about the level of funding required to complete this purchase. I share his concerns. I am personally working with all parties involved in the agreement in an effort to substantially reduce the federal share of the purchase price.

I am concerned, however, that, by providing no funding in the fiscal year 2002 Interior appropriations bill, the seller will be forced to seek other buyers. This would be a loss of opportunity of historic proportions. It would be my intention to secure a small amount of funding in the Senate bill to keep the project alive as we move forward in appropriations process with the goal of increasing the project’s appropriation so that a more realistic price be negotiated.

Mr. SCHUMER. As the Senator from California knows, funding for the Fish and Wildlife Land acquisition account has already exhausted its cap and any new funding would have to be offset from within the account.

I am aware of the problem raised by the ranking member. To this end, I am willing to reduce funding for two California land acquisition projects—the San Diego National Wildlife Refuge and the San Joaquin National Wildlife Refuge—by $250,000 each. I want to be very clear—I fully support these projects. In fact, they were included in the bill at my request. I intend to see that they are fully funded by the end of this process. However, due to the procedural necessity of providing an offset, the only way to ensure that all three equally important projects go forward is to make this reduction. Should the interested parties fail to come to an acceptable agreement over the San Francisco baylands, the funding could return to the San Diego and San Joaquin projects.

Mr. FEINSTEIN. I am aware of the problem raised by the ranking member. To this end, I am willing to reduce funding for two California land acquisition projects—the San Diego National Wildlife Refuge and the San Joaquin National Wildlife Refuge—by $250,000 each. I want to be very clear—I fully support these projects. In fact, they were included in the bill at my request. I intend to see that they are fully funded by the end of this process. However, due to the procedural necessity of providing an offset, the only way to ensure that all three equally important projects go forward is to make this reduction. Should the interested parties fail to come to an acceptable agreement over the San Francisco baylands, the funding could return to the San Diego and San Joaquin projects.

Mr. SCHUMER. As the Senator from California knows, funding for the Fish and Wildlife Land acquisition account has already exhausted its cap and any new funding would have to be offset from within the account.

Should the interested parties fail to come to an acceptable agreement over the San Francisco baylands, the funding could return to the San Diego and San Joaquin projects.
CONGRESSIONAL RECORD—SENATE

July 12, 2001

Mr. SCHUMER. I thank the Senator from West Virginia. I thank the Chair. Mrs. CLINTON. I thank the Chair.

Mr. CLELAND. Madam President, I first thank my distinguished colleagues for their leadership and superb management of this bill. I want to take a moment to express my support for a matter of great importance to the people of my State, specifically obtaining funding for land acquisition in the Chattahoochee National Forest. I understand that the $2,320,000 included in the Appropriations Interior Subcommittee report for that purpose will be used to purchase available tracts of land in, or bordering, the Chattahoochee National Forest in Georgia. I inquire of the distinguished Senator from West Virginia and chairman of the committee, am I correct in understanding that $1,300,000 of that total is intended to purchase property at Mount Yonah near Helen, GA, with the remainder being used to purchase property at Jack’s River near the Cohutta Wilderness and the Etowah River near Dahlonega, GA?

Mr. BYRD. The Senator from Georgia is correct regarding the committee’s intent.

Mr. CLELAND. I thank the Senator for his inclusion of these worthwhile projects in the Interior appropriations bill.

TECHNICAL ASSISTANCE FOR THE NEW RIVER GORGE NATIONAL RIVER PARKWAY

Mr. BYRD. Madam President, I want to take a moment to ask the ranking member for his agreement to continue a program of importance to the State of West Virginia. The New River Gorge National River is a scenic whitewater river that flows through deep canyons and mountains. The Congress has provided $215,000 annually for technical support and maintenance on the New River Gorge National River Parkway. Would the ranking member agree that funding for this purpose be continued within the National Park Service appropriation in fiscal year 2002?

Mr. BURNS. I agree with the distinguished chairman that this funding should be continued in fiscal year 2002.

Mr. LUGAR. Madam President, I appreciate the previous support the subcommittee has granted to the Fine Hardwoods Tree Improvement and regeneration Center at Purdue University. The HTIRC is engaged in research problems and technology transfer related to the regeneration of fine hardwoods. It is a regional center emphasizing not only genetic improvements and silvicultural goals, but addressing wildlife and riparian buffer issues and providing information and outreach to forest landowners.

In establishing the center, I worked with Dr. Robert Lewis of the Forest Service. The project has widespread support and is financially supported not only by the Forest Service and Purdue University, but by the Indiana Department of Natural Resources and by a very wide variety of forest landowner, industry groups and foundations. It is designed to improve the quality of hardwood tree seedlings and to address the annual shortage of hardwood tree seedlings in the midwest.

The Forest Service and the Department of Agriculture view the center as an excellent example of cooperation between government, academia and industry in addressing important issues concerning the regeneration of hardwoods. The proposed new forest biology building and laboratory complex will soon house eighteen Forest Service employees and would provide office space and high tech laboratories for these Forest Service employees rent-free and without any charges for maintenance or services over the lifetime of the facility.

The total cost of the forest complex is $27 million. Purdue has committed $20 million to this effort. The remaining $7 million would be derived from the Forest Service as its share of the cost to house its employees, who would receive office space rent-free and maintenance-free over the lifetime of the facility. Based on a life cycle analysis, the Forest Service has concluded that this degree of cost sharing is fully justified and is in fact extremely favorable for the Forest Service.

I thank the chairman and the ranking member for including a provision in this bill that releases $300,000 in previously appropriated funds for the design and construction of this facility. Construction of the facility is planned to begin during fiscal year 2002 and the Forest Service share of that fiscal year’s funding needs is estimated at $2 million.

Mr. BURNS. I understand the need for the project, and I appreciate the Senator’s leadership and strong desire to bring this into fruition.

Mr. BYRD. Senator BURNS and I will work with the Senator from Indiana to see if we can find sufficient resources through the conference process to support the Forest Service’s share of this worthy effort.

Mr. LUGAR. Madam President, I appreciate the previous support the subcommittee has granted to the Fine Hardwoods Tree Improvement and regeneration Center at Purdue University. The HTIRC is engaged in research problems and technology transfer related to the regeneration of fine hardwoods. It is a regional center emphasizing not only genetic improvements and silvicultural goals, but addressing wildlife and riparian buffer issues and providing information and outreach to forest landowners.

In establishing the center, I worked with Dr. Robert Lewis of the Forest Service. The project has widespread support and is financially supported not only by the Forest Service and Purdue University, but by the Indiana Department of Natural Resources and by a very wide variety of forest landowner, industry groups and foundations. It is designed to improve the quality of hardwood tree seedlings and to address the annual shortage of hardwood tree seedlings in the midwest.

The Forest Service and the Department of Agriculture view the center as an excellent example of cooperation between government, academia and industry in addressing important issues concerning the regeneration of hardwoods. The proposed new forest biology building and laboratory complex will soon house eighteen Forest Service employees and would provide office space and high tech laboratories for these Forest Service employees rent-free and without any charges for maintenance or services over the lifetime of the facility.

The total cost of the forest complex is $27 million. Purdue has committed $20 million to this effort. The remaining $7 million would be derived from the Forest Service as its share of the cost to house its employees, who would receive office space rent-free and maintenance-free over the lifetime of the facility. Based on a life cycle analysis, the Forest Service has concluded that this degree of cost sharing is fully justified and is in fact extremely favorable for the Forest Service.

I thank the chairman and the ranking member for including a provision in this bill that releases $300,000 in previously appropriated funds for the design and construction of this facility. Construction of the facility is planned to begin during fiscal year 2002 and the Forest Service share of that fiscal year’s funding needs is estimated at $2 million.

Mr. BURNS. I understand the need for the project, and I appreciate the Senator’s leadership and strong desire to bring this into fruition.

Mr. BYRD. Senator BURNS and I will work with the Senator from Indiana to see if we can find sufficient resources through the conference process to support the Forest Service’s share of this worthy effort.

CANE RIVER NATIONAL HERITAGE AREA

Ms. LANDRIEU. Madam President, I express my sincere appreciation to the distinguished floor manager and chairman of the Appropriations Committee for support of my request to provide funds for the Cane River Creole National Historical Park and Heritage Area. This park, one of America’s most
Mr. BYRD. The Senator from Louisiana is correct. We were pleased to be able to recommend funding for this high priority of the Senator.

Ms. LANDRIEU. With the Senator's forbearance, I want to clarify the purposes for which these funds are allocated. My request to the committee, and I assume the committee's recommendation, will continue funding for the Cane River Heritage Area at last year's rate of $400,000 for salaries, expenses of the trees in our national forests, and the Minnesota Department of Natural Resources, seven adjacent Minnesota Bands of Chippewa, and the Forest Service plans to continue their recovery work there through fuel reduction, reforestation and general rehabilitation. The bill before us contains increased general funding for such management, recovery and rehabilitation, and I would seek my colleague's assurance that it is his understanding that an adequate portion of that funding will allow the Superior and Chippewa National Forests to continue their crucial efforts.

Mr. WELLSTONE. I believe that both the Superior and Chippewa National Forests bore the brunt of a massive, once-in-a-thousand years wind and rain storm that devastated parts of northern Minnesota. The storm damaged over 300,000 acres in seven counties, including as much as 70 percent of the trees in our national forests, and it washed out numerous roads. The damage severely hindered the U.S. Forest Service's ability to responsibly manage both the Chippewa and Superior National Forests.

The "blowdown" of trees created extreme risk of catastrophic fire due to the amount of downed and dead timber. Yet while the storm has changed affected portions of the forests for years to come and has created new risks and experiences for visitors and residents, it has created new risks and opportunities for the forests for years to come and has created new risks and experiences for visitors and residents, it has created new risks and opportunities for the forests.

Mr. BYRD. I appreciate the Senator's attention to this issue. He is correct to point out the commendable work underway in the Minnesota forests. The Senator is aware that the President requested $70,358,000 for land management planning in fiscal year 2002, while this Appropriations Committee has provided $70,718,000, an increase of $360,000. For that reason, I agree, and I believe the subcommittee would agree, that this legislation should provide adequate resources to the Superior and Chippewa National Forests to complete their forest management plans.

Mr. WELLSTONE. Madam President, I rise today on behalf of myself and Senator Bingaman, both Federal Senators, to state our strong support for critical energy efficiency programs within the Department of Energy. My colleagues and I have been working with the chairman and ranking member over the last few days to restore and fully fund these important programs. We believe that the proven efficacy of these programs merit allocation of additional funds.

The Federal Energy Management Program, or FEMP, uses alternative financing vehicles, technical assistance, and outreach campaigns to make our federal agencies more energy efficient. Although this program uses only a small amount of federal funding, its energy reduction strategies save the U.S. government, and thus American taxpayers, hundreds of millions of dollars a year. This program has proven to be a great investment. The Federal government is the largest user of energy in the United States and FEMP has already helped reduce energy consumption and keep returning those benefits year after year. These programs also lessen the environmental impact of the federal government, reduce our government's dependence on foreign oil, and leverage private sector resources.

I also suggest expanding several successful, community-based building technology assistance programs. These programs provide technical assistance, demonstrations, training, and education communities to accelerate the use of innovative and cost-effective energy technologies, strategies, and methods. One particularly successful example is the Energy Smart Schools...
campaign that provides a comprehensive portfolio of energy efficiency technologies, and works directly with national and local organizations that influence school construction and modernization.

Let me share with you how Seattle Public Schools used this program to reap the extensive rewards of energy-saving retrofits. Through a collaborative effort involving Seattle City Light, Seattle Public Utilities, Puget Sound Energy, and the Bonneville Power Administration, dozens of Seattle public schools received lighting retrofits, water conservation measures, upgraded energy management systems, and education on how to use energy more efficiently. Combined, these efforts reduced the school system’s annual energy bills by a third, saving 15.5 million kWh, or the energy needed to light 1,862 homes for a year.

In recent years, the National Park Service has been unable to properly maintain the physical structure of Arlington House to safeguard its artifacts and collections, thereby causing many of the rooms in this historic house to be closed to the public.

The National Park Service has identified the total funding requirements to restore Arlington House. It is my understanding that a minimum of $5.5 million is needed in fiscal 2002 to preserve this facility.

I am aware that the chairman and ranking member were faced with many significant funding demands in this Congress. They have an impossible job to provide the maximum amount of funding available to preserve our nation’s historic resources. I bring to their attention the significant needs of Arlington House and respectfully request that in conference with the House that this matter be given their attention.

Mr. BYRD. I thank the Senator from Virginia, Mr. WARNER, for his interest in the historic Arlington House. I am aware that funding for the restoration needs for the Arlington House was requested in the President’s budget and I can assure the Senator from Virginia that the committee will carefully consider this important project as we continue to assess the maintenance and restoration needs of National Park Service properties.

Mr. BURNS. I concur with Chairman BYRD and can assure the Senator from Virginia that the restoration of the Arlington House will receive our attention during conference with the House of Representatives. We will make every effort to address the needs of this historic home.

The Forest Service and Wild Fires

Mr. STEVENS. Madam President, there is a serious crisis in my home State of Alaska on the Kenai Peninsula, where literally millions of trees have been killed due to insect infestation. This is causing a major fire danger situation. Many homes and communities are at risk. I was very disturbed to learn recently that the Forest Service had initiated a prescribed burn near Seward that got away from them when the wind shifted. While fortunately the fire was contained before it damaged private property, this incident causes me to be concerned about the level of oversight the agency uses when burning in these very high risk areas.

Mr. BYRD. I recall that my friend from Alaska mentioning this during the committee markup of this bill. I assure you now, as I did then, that I am ready to help in any way possible to be sure the Forest Service applies adequate oversight to its hazard reduction activities.

Mr. STEVENS. I appreciate the chairman’s remarks. I just recently met with Chief Dale Bosworth of the Forest Service to express my concern. I asked the chief to promptly provide me with a report that addresses how communities that are at risk can be assured when the agency plans a prescribed burn, that all potential factors are taken into account, and the decision to initiate a prescribed burn has been adequately reviewed. I also asked the chief to assure that local elected officials concerns are accounted for before a burn is ignited and to look at naming a Forest Service official in each region who would be in charge of approving any burn plans. I have also provided an amendment that I understand is in the managers package that addresses the specific situation with the prescribed burn I just mentioned on the Kenai as well as other areas of high fire risk across the country. This amendment provides the Forest Service with the authority to use $15,000,000 of Wildland Fire Management funds on adjacent non-federal lands, using all authorities available to the agency under its State and Private Forestry Appropriation. These funds will be available for reducing fire hazard on adjacent non-federal lands and protecting communities when hazard reduction activities planned on adjacent national forest lands. The Forest Service assures me that portions of these funds will be used to protect communities on the Kenai Peninsula. I expect the Forest Service to strongly consider areas of the Kenai as candidates for the stewardship end results contracting, as specified in Section 347 of public law 105–277, and which the committee has amended to provide for up to 28 additional contracts.

Mr. BYRD. I am pleased to include this amendment in the managers package and feel it will be extremely helpful in protecting communities from the threat of wild fire.

Smithsonian Center for Materials Research and Education

Mr. SARBANES. Would the distinguished chairman yield for the purpose of a colloquy regarding language contained in the bill concerning the Smithsonian Center for Materials Research and Education.

Mr. BYRD. I would be happy to yield to my friend, the senior Senator from Maryland.

Mr. SARBANES. Mr. Chairman, I remain deeply concerned with the Secretary of the Smithsonian’s intention to close a number of the Institution’s scientific and research facilities, including the Smithsonian Center for Materials Research and Education (SCMRE) located in Prince George’s County, MD. I understand the language contained in the bill would preclude any funds to be utilized for the purpose of closing SCMRE and the other relevant facilities without the approval
by the Board of Regents of recommendations made in this regard by the Secretary's proposed Science Commission.

Mr. BYRD. The Senator is correct.

Mr. SARBANES. It is also my understanding that the bill provides sufficient funding to ensure that SCRMRE's programs can continue at last year's level.

Mr. BYRD. The Senator is again correct.

Mr. SARBANES. For nearly 40 years, researchers and scientists at SCRMRE have been leaders in the field of preservation research and analysis. They have contributed greatly to the conservation efforts of museums and institutions throughout the nation and around the world by offering training programs and technical assistance. I would like to quote from an editorial that appeared on May 8 in the New York Times that captures the importance of preserving this facility:

. . . (C)laring for artworks, which can often be done in museum labs, is far different from scientifically studying how to care for them. Over the years, the Materials Research Center has created an extensive store of archaeological data based on its work on collections from around the world. It makes no sense for the Smithsonian—the most remarkable accumulation of objects on earth—to close a national laboratory whose very purpose is to analyze the material basis of its collections.

I thank the chairman for his time and commend him for his leadership and assistance in this matter.

Ms. COLLINS. Madam President, I rise to thank the managers of the fiscal year 2002 Interior appropriations bill for working with me to provide Forest Legacy funding for an important conservation project in the western mountain region of Maine.

In drafting the Interior appropriations bill for fiscal year 2002, the managers have demonstrated, once again, their commitment to promoting conservation. I am particularly pleased that the bill funds Forest Legacy at $65 million—the most that has ever been allocated for this important and growing program—and I am grateful for the support Chairman BYRD and Senator BURNS have given to projects in my State this year and in years past.

Neither the Interior appropriations bill that passed in the house nor the Senate bill voted out of committee included funding for the Tumbledown/Mt. Blue conservation project in the western mountain region of Maine. Because of the importance of this project to my State, I proposed an amendment to the bill to dedicate Forest Legacy fund to the Tumbledown/Mt. Blue initiative. Chairman BYRD and Ranking Member BURNS have graciously agreed to accept a modified version of my amendment, which will earmark $1 million for the project.

The western mountain region of my State is a beautiful area that has long been valued for recreation, natural resources, scenic values and productive forest lands that fuel Maine's forest product industries. These traditional uses, which would be protected in perpetuity by this conservation project, are of tremendous value to the local communities and the region's economy.

Recent changes in land ownership and land use has led to local concern that the character of the Tumbledown/Mt. Blue area will be permanently altered. This has prompted the State, local businesses, and conservation groups to promote a long-term conservation vision for the region that will prevent this forested landscape from being converted as a result of development pressures. Making this conservation vision a reality entails the acquisition of lands around Mt. Blue State Park and along Tumbledown Mountain through fee and easement purchases.

Funding the Tumbledown/Mt. Blue Conservation project will enable the State to protect critical properties adjacent to the park and some of Maine's most scenic areas—including Tumbledown Mountain, Jackson Mountain, Blueberry Mountain, and trailheads leading to these peaks. I would also proudly point out to my colleagues that Mt. Blue State Park is one of Maine's most popular recreation spots and was recently voted by Outdoor magazine as one of the ten best family vacation areas in the country. The area contains rugged summits, alpine ridges, and wetlands, as well as habitat for the federally listed bald eagle and one of Maine's only successful peregrine falcon nesting territories.

I am pleased to say that several landowners in the Mt. Blue region are already now to put their resource lands into a conservation plan that will permanently protect and allow public access to recreation lands, scenic areas, and trailheads leading up Tumbledown, while providing for sustainable harvesting on the more productive and less environmentally sensitive forested areas. This is a locally driven win-win approach to resolving the various concerns that arise out of changes in the region. I applaud the many individuals and groups that have invested time in bringing this project about. It is heartening to know how deeply they care about their community, and I appreciate having this opportunity to determine my support for their efforts.

Last year, because of the generous funding level the Interior Subcommittee was able to provide the Forest Legacy Program, $1.17 million was allocated to the Mt. Blue/Tumbledown Mountain project for the first phase of the project, this year, however, to complete the project another $4 million is needed. I am concerned that unless we make funding progress in fiscal year 2002 with the willing sellers now in place, Maine will lose a once-in-a-lifetime opportunity to protect a truly wonderful resource.

I want to thank very much the Senators from West Virginia and Montana for their willingness to work with me and Senator SNOWE on this critical important project. Mr. SMITH of New Hampshire, I would like to take this opportunity to commend an agreement that was reached with regards to the Landrieu-Smith amendment to the Interior appropriations bill. Simply put, the purpose of the amendment was to fix what is essentially a technical concern with the bill and improve the way that States received their portions of the $100 million. This would be done by utilizing an already-established wildlife conservation fund and its formula parameters instead of creating a new program with a new formula.

I do want to make it clear that I am extremely supportive of this funding that is provided in this Interior appropriations bill for the State Wildlife Grant Fund. I believe that these dollars will be of great benefit to State efforts to protect wildlife populations. I am especially pleased that the bill allows the States to determine the manner in which to utilize these resources.

The Landrieu-Smith amendment would seek to use the Wildlife Conservation and Restoration Program, under the popular Pittman-Robertson Program, that was established in the fiscal year 2001 Commerce-Justice-State appropriation law. The law also provided $50 million under formula apportionment to the States for high priority wildlife conservation, education and recreation projects. That language was included at my request because of my concern for equitable distribution of valuable conservation funds. In fact, I have recently introduced a bill—the American Wildlife Enhancement Act of 2001, S.990—that would extend the authorization of that program through 2006. The Landrieu-Smith amendment would allocate the $100 million set-aside for the State Wildlife Grants Fund to the already established Wildlife Conservation and Restoration Program.

Adoption of our amendment would improve, and make more equitable, the way that these dollars are allocated to the States. Our amendment would allow for the allocation of funds under the formula established last year in the Wildlife Conservation and Restoration Program. Funding in that program is based two-thirds on the population of the State and one-third on the land area. It also guarantees that a single State would receive no less than one percent and no more than five percent of the available funds. This formula was supported by all 50 State fish and wildlife agencies as being the most equitable distribution to address conservation needs throughout the country.
The Interior appropriations bill that was reported by the Appropriations Committee would have changed that formula. This would result in a considerable gain of funds for only 2 States, but a loss for 37 other States. To change the already established formula would compromise the ability of the majority of our states to effectively address their wildlife conservation needs.

I am seeking to change back to what was established last year because I believe that is what is most fair to all States and already has their strong support. Regardless of whether or not our amendment was agreed to, New Hampshire’s funding will not be impacted—to me it is an issue of fairness.

It also makes much more sense to appropriate the $100 million to an already existing account with set allocation parameters that has demonstrated success than to create a new bureaucratic process. The U.S. Fish and Wildlife Service and State fish and wildlife agencies already familiar with the Wildlife Conservation and Restoration Program and could administer the program efficiently. Why impose a new set of criteria for allocation of the fiscal year 02 funds when the previously established criteria works so well?

Through excellent cooperation between the Fish and Wildlife Service and the State fish and wildlife agencies, all 50 States have already qualified to receive their apportionment of the $50 million made available by last year’s Commerce-Justice-State Appropriations law and are in the process of submitting their project agreements. Adopting this amendment would have allowed this process to continue smoothly into the next fiscal year. I am pleased to support what I believe is a fair compromise to this amendment. The Interior appropriations bill that passed the Senate this evening reflects the changes in the formula that our amendment intended to make, without sending the funds through the Wildlife Conservation and Restoration Program. Even though the previously established account is not being used to distribute the funds, I am pleased that the funds will be allocated using a formula that all 50 State fish and wildlife agencies have agreed to as fair and equitable.

Mr. Voinovich. Madam President, I rise in favor of the Landrieu amendment to the Interior appropriations bill regarding the distribution of $100 million in state wildlife grants for priority wildlife conservation, education, and restoration projects. As currently written, the Interior appropriations bill changes the way these grants are allocated to the States. The change would negatively affect the amount of grant money each state would receive.

Last year, Congress established the Wildlife Conservation and Restoration Account as part of the Pittman-Robertson Wildlife Restoration Fund. It was Congress’ intent that funds from the account be distributed to the states based on one-third of the land area of a state and two-thirds population. Congress also said that no state will receive less than one percent or more than five percent of the total funding.

The Landrieu amendment would distribute the funds under the same formula allocation that was enacted last year by directing them through the Wildlife Conservation and Restoration Account.

All 50 State fish and wildlife agencies agree that the formula Congress enacted last year is the most equitable distribution of these funds. If we agree to the formula proposed in the Interior appropriations bill, 37 States will receive less money. Ohio would receive under $100,000 less than under the already established formula. The Ohio Department of Natural Resources supports the Landrieu amendment.

With so many States facing such large reductions in the amount of grant money they would receive, it makes sense to distribute these funds based on the equitable formula that Congress agreed to last year. Support of the Landrieu amendment will ensure that the $100 million appropriated for State fish and wildlife grants is distributed fairly and provides all states with the funds they need for their most critical wildlife and conservation projects.

Mr. Inouye. Madam President, in the managers’ package is contained an amendment which provides for the repeal of section 819 of the Omnibus Indian Advancement Act.

In my view, this is a matter that is more appropriately addressed in the authorizing committee of jurisdiction, the Committee on Indian Affairs. Accordingly, I intend to work with my colleagues to see that this proposed repeal of a section of authorizing legislation is removed from the Interior appropriations bill and addressed in the appropriate forum.

Mr. Cochran. Madam President, this bill is the first appropriations bill for fiscal year 2002 the Senate is considering. I am pleased to be a member of the subcommittee that has the responsibility for writing this bill each year.

I have enjoyed working on the issues and programs that must be addressed each year during our hearings and the development of this legislation.

The Department of the Interior and the U.S. Forest Service have a major presence in my state. The levels of funding for their activities and responsibilities in Mississippi have a significant impact on our interest in protecting our natural resources and historic attractions.

I am glad the Committee’s bill provides an increase in the funding for operation and maintenance of the Vicksburg National Military Park as well as the Corinth Battlefield in northeast Mississippi which was included in a list of the top ten most interesting Civil War battlefields by former Secretary of the Interior Manuel Lujan. It is located near the Shiloh National Military Park and will be the site of a new Civil War Interpretive Center. This building will be constructed with funds that are included in this bill at the request of our state’s delegation in Congress.

Another interesting destination for visitors is the Corinth Battlefield in northeast Mississippi which was included in a list of the top ten most interesting Civil War battlefields by former Secretary of the Interior Manuel Lujan. It is located near the Shiloh National Military Park and will be the site of a new Civil War Interpretive Center. This building will be constructed with funds that are included in this bill at the request of our state’s delegation in Congress.

My colleague, Trent Lott, has taken the lead in making this new addition to our state’s list of federally supported projects a reality. Congressman Roger Wicker has also been a key influence in the appropriations process on this project as well as the Brice’s Crossroads site.
Taken as a whole, the provisions of this Interior Appropriations bill will contribute to the economy of our state and help develop the valuable natural resources, historic attractions and our environment.

I appreciate the cooperation and assistance of the managers of the bill and my staff member, Ginger Wallace, who worked hard to help develop the provisions of the bill that were of specific interest in our State of Mississippi.

Mr. DORGAN. Madam President, I rise to support the Education and Training Center for the Power Generation Industry at Bismarck State College. Although funding for this program is not explicitly mentioned in the Interior Appropriations bill, I would like to see the relationship between Bismarck State College (BSC) and the Department of Energy grow during the next fiscal year as BSC builds on its Partnership to Improve Energy Technology Training and Education. Last year, BSC’s Energy Technology Program received $50,000 in competitive Federal funding to develop a new curriculum based on conventional and advanced power technologies. Given that the Chairman has been kind enough to increase the budget request for fossil fuel research and development, I would hope that the DoE will provide the funds to expand this program next year, especially given the challenges that the power industry will face in the coming years.

I applaud those at Bismarck State College who have been working on this program, and it is my hope that the Committee could provide some funding for this program as we move this bill to conference so that the College could further develop the curriculum plan and provide nationwide online courses in power management.

Mr. KERRY. Madam President, I rise today to discuss an amendment I have offered to section 107 of the Interior Appropriations bill for fiscal year 2002. The amendment is intended to clarify that under that section preleasing activities are prohibited, just as they are in other sections of the bill that restrict oil and gas development in other waters.

Section 107 now reads as follows: “No funds provided in this title may be expended by the Department of the Interior for the conduct of offshore leasing and related activities placed under restriction in the President’s moratorium statement of June 12, 1998.” This includes the areas of northern, central, and southern California, the North Atlantic, Washington, Oregon, and the eastern Gulf of Mexico south of 26 degrees north latitude and east of 86 degrees west longitude.

I want to thank Chairman BYRD and Ranking Member BURNS for working with me to secure the passage of this important amendment.

Mr. SNOWE. Madam President, Senator KERRY of Massachusetts and I have introduced the Kerry-Snowe Georges Bank amendment to the fiscal year 2002 Interior Appropriations bill today to make absolutely certain that the Administration could be prevented from proceeding with preleasing activities in the Georges Bank area.

I am particularly excited about this program as we begin to celebrate the expenditure of funds by the Department of Interior for activities related to offshore leasing in the North Atlantic area but I want to make it clear that preleasing activities would be out of bounds as well.

Currently, both the United States and Canada have moratoria on oil and gas exploration until 2012 for the ecologically sensitive Georges Bank. What the Kerry-Snowe amendment does is include language in the Senate bill to prohibit any pre-leasing activities for the Georges Bank area, such as is included for the Mid- and South Atlantic.

We are adding this language for the North Atlantic as well because of indications over the past few months that the administration could be considering legal and administrative groundwork for accessing Georges Bank.

Report recommendations to the Secretary of Interior by the Subcommittee on Natural Gas on the Continental Shelf included a recommendation that the Mineral Management Service, in consultation with industry and affected States, identify the five top geologic places for natural gas reserves in the moratoria areas, where industry would most likely explore, and where seismic data could be collected. Georges Bank is reported to be one of these prospects.

Our added pre-leasing language for the North Atlantic area makes Section 107 of the bill consistent with Section 110 of the bill that does not allow Interior Department funding to conduct oil and natural gas pre-leasing, leasing and related activities in the Mid-Atlantic and South Atlantic planning areas.

As I recently wrote the President, I strongly believe that the Georges Bank should not be lifted on this 185-mile-long bank that stretches from Nova Scotia to Cape Cod—five-sixths of which is owned by the U.S. This broad, shallow fishing ground is one of the world’s most productive and current available natural gas reserves in the U.S. dwarf those which are projected to be available on the Georges Bank.

I want to sincerely thank the Interior Appropriations Subcommittee Chairs BYRD and BURNS for accepting the Kerry-Snowe amendment as part of the Managers amendment.

Mr. DORGAN. Madam President, I rise to support the Trails and Rails Program, a national partnership between Amtrak and the National Park Service. This program provides on-board educational programs to rail travelers. It has played a valuable role in educating Americans about the historic landmark sites in this country.

This is an excellent outreach program that allows the National Park Service to reach non-traditional visitors and introduce them to our national parks, trails and historic sites.

I am particularly excited about this program as we begin to celebrate the
bicentennial of the Lewis and Clark expedition. Last May, the famous footsteps of Lewis and Clark along the trail in North Dakota and Montana came alive as their historic journey was retraced by guests aboard Amtrak's Empire Builder train. This program has been laying the foundation for the National Lewis and Clark Bi-Centennial Commemoration, which will officially begin in 2003. Train passengers have already been able to explore historic areas along the Lewis and Clark trail such as the Union Trading Post National Historic Site in Williston, ND. It is my hope that the National Park Service could continue its partnership so that Amtrak passengers can explore other historic sites in the Lewis and Clark expedition.

All subsequent fiscal year 2002 funding has not yet been identified for this program. I invite my colleagues to join me in supporting this important National Park Service partnership. I trust that some funding will be included for this partnership in the final version of the Interior appropriations bill.

Mr. WELLSTONE. Mr. President, I am pleased to support the provisions in this bill that enhance the Steel Loan Guarantee program. The changes adopted today will provide invaluable assistance to our nation's steel companies as they strive to stay afloat in the face of overwhelming surges of finished and semi-finished steel imports.

As you know, our domestic steel industry finds itself reeling from record import surges. Numerous companies are either in bankruptcy, have filed for bankruptcy, or are on the verge of doing so. On the Iron Range in my home state of Minnesota, for example, citing poor economic conditions, LTV Steel Mining Company halted production at the Hoyt Lakes mine, leaving 1400 workers out of work and affecting another 5500 additional workers as well. These are hard working people who want desperately to work the trades they were trained for and have been doing for generation upon generation.

The changes we are making today in the Steel Loan Guarantee program will make it easier for companies to access much needed capital. In particular, we are increasing the loan coverage for a portion of the loans under this program from 85 percent to 95 percent and extending the duration of financing from 5 to 15 years. These changes represent one component of S. 957, the comprehensive Steel Revitalization Act of 2001 that I, along with Senator BYRD, Senator DURBONNAC and others introduced earlier this year.

I am pleased that we are taking the opportunity today to move a portion of this comprehensive measure. And I will continue to press this passage of the remaining elements of this much-needed legislation.

Mr. FEINGOLD. Madam President, I wish to comment on the Interior appropriations bill which the Senate has passed by voice vote. I am satisfied, that unlike in years past, this bill is relatively free from environmental riders. I commend the chairman (Mr. BYRD) and the ranking member (Mr. STEVENS) for producing a bill that is largely free from riders which many of my constituents view as an undemocratic way to address environmentally issues. I have been pleased by the progress on this bill, and by the manager's efforts to allow important environmental issues the benefit of an up or down vote on the floor.

Though the bill this year has been considered by the Senate with an improved process, I do have some concerns about a few of the bill's provisions. First, I understand that the Senate fiscal year 2002 Interior bill includes language which the Forest Legacy Program of the U.S. Forest Service, a program I strongly support. I further understand that, of the $65 million provided for the Forest Legacy program, $35.26 million has been allocated by the Senate Interior Appropriations Subcommittee in the committee report to fund specific projects. I hope that this allocation leaves approximately $29.8 million available to be distributed by the Forest Service to other priority projects, such as the Tomahawk Northwoods project in Northern Wisconsin. The Tomahawk project was specifically enumerated to receive funds by in the House report on the 2002 Interior appropriations bill, and it is my hope that the Senate's bill leaves flexibility so that this project can indeed be funded by the Forest Service.

I also want to share my concern regarding section 330 of the fiscal year 2002 Interior appropriations bill. Section 330 prohibits the use of special use permit for a cabin located in the Absaroka-Beartooth Wilderness Area in Montana. I hope that the conferees on this legislation will give serious consideration to removing this provision and referring the matters to the Senate Energy Committee for their review. My concern, as a Senator who is concerned about federal wilderness management, is that allowing the cabin to remain, without the benefit of review by the appropriate authorizing committee, could set a precedent that is contrary to the Wilderness Act, Forest Service policy and the Custer National Forest Management Plan. It would be my hope that review by the Energy Committee would clarify whether the Montana State University-Billings indeed has the ability to apply for an extension of the special use permit that had been held by the cabin's previous owner.

Finally, I understand that the managers' report contains language concerning the management of cruise ships in Glacier Bay National Park. Though I understand that this language represents a compromise worked out over the last few hours, I feel that an important policy matter such as this one could be the subject for the authorizing committee. I believe legislative language which seeks to address serious legal issues over the reduction of cruise ship traffic required by Federal courts deserves full and fair consideration through proper hearings and review. I hope that the Senate Interior Appropriations Subcommittee will give serious consideration to removing this provision.

I am pleased to support this year's bill, and I hope to see a bill free from environmental riders emerge from conference.

Mr. REID. Madam President, I have been fortunate to be in this Chamber during the entire time the Interior bill has been debated. I would like to take a few minutes to commend the President Pro Tempore, who is also the chairman of the Interior Subcommittee, for the tremendous leadership he has shown not only on the Interior bill but on the supplemental appropriations bill we passed. It shows his experience and his dedication to the Senate. He has taken the helm of the Appropriations Committee firmly and has confidently steered this bill in the right direction. There have been very difficult decisions to make in crafting this bill.

I also want to take a minute to express my public appreciation to Ranking Member BURNS for the work they have done. If there were ever a bipartisan bill—and I hope it remains that way in the remaining hours of this bill, and I am confident it will—this is it.

These two legislators have worked to come up with an appropriate package that has the best they could do with the tools they had, the limited amount of money they had to satisfy hundreds and hundreds of requests from Members and from different entities making up our Federal Government. It has been a very difficult time. From a personal perspective, I think they have done exemplary work.

About 4 years ago I asked President Clinton to convene a summit in Lake Tahoe. I did that out of desperation. I was at the lake and had, for 15 years, worked to try to do something to improve the quality of a place that has been called by Mark Twain the fairest place in all the Earth. It is a beautiful lake. It is a part of nature that you can only appreciate by being there; it is so absolutely fantastic.

We had a show there, and there is a display now in the rotunda of the Russell Building that has great photographs of Lake Tahoe. I spoke briefly there last night. A man by the name of Dr. Goldman, who is the leading expert on the ecology of that lake, spoke. He said it has been all over the world. He has been to Lake Baikal in Siberia in the Soviet Union. Lake Baikal has 20 percent of all the fresh water in the world, in one lake. It is well over a
mile deep. It is a beautiful lake. I am fortunate; I have been there. But Dr. Goldman said he had been to most all the major lakes in the world. In fact, as far as I know, Lake Tahoe is the most beautiful.

So I asked the President to convene a summit because I had not been able to accomplish what I needed. Out of desperation, I said to the press that I thought the only thing that would work is to convene a summit and have the world understand what a calamity is about to occur.

I confided in the President that I had done this and asked if he would support me in this effort. He said: Yes, I will come to Lake Tahoe. And he did. It was not a photo opportunity. And that would have been more than I could ask, if the President of the United States would come to Lake Tahoe for a photo opportunity, but he did more than that.

We had six Cabinet officers who held townhall meetings in the months prior to the President coming. Over 1,000 people participated in those townhall meetings when the summit was convened, with the President and Vice President there at Lake Tahoe, and the groups concerned about the lake—the environmentalists, the people who had wanted to build homes there, contractors, small businessmen, big businessmen, people who were against gambling, people who were for gambling. They were all there speaking from the same page.

They agreed that something had to be done. So the summit—rather than being a boisterous affair where people were pointing fingers at each other—was a lovefest. As a result of that, we have been able to get a lot of help for Lake Tahoe. Part of that help is in this bill.

This bill, increased by over 100 percent, the amount of money going to Lake Tahoe. Senators Feinstein and Boxer—and now Senator Ensign—we have worked together. We have made progress. But it all started as a result of that summit.

I appreciate very much the attention of Senators Burns and Byrd, recognizing that Lake Tahoe really may be the fairest place in all the Earth.

They have increased funding this year by over 100 percent. This commitment will help make the Federal Government a full partner in the ongoing effort to conserve this exquisite jewel of the American environment. California has done its share. Nevada has done its share by floating bond issues. Now the Federal Government is coming through.

Chairman Byrd and ranking member Burns also helped improve the prospects for county governments throughout the entire West by allocating $220 million for the PILT—Payment in Lieu of Taxes—Programs.

I thank Senators Byrd and Burns for making an effort to breathe life back into the budget of the United States Geological Survey, which was treated very badly by this administration. The Bush administration did everything it could to kill the Geological Survey, this great institution of government. John Wesley Powell was the first leader of the U.S. Geological Survey, a man whose arm was cut off. The nerves were exposed and whenever he would bump it, it would hurt more than a person can imagine. With that bad arm, he led the first group to float the mighty Colorado. He was the father of the Geological Survey. Senators Byrd and Burns have breathed life back into this wonderful institution that is so important to our country.

This agency has had a tremendously positive impact all over the United States. For example, the Presiding Officer traveled with me to Fallon, NV, to find out why we have children dying. Since we were there, one child has died. They have discovered two or three other cases of childhood leukemia. We went there seeking evidence as to why these children are sick and dying.

One of the things being done about this is being done by the U.S. Geological Survey. They are testing water wells in Fallon as I speak so people in Nevada know whether the water they are drinking is safe. The U.S. Geological Survey is our preeminent scientific agency, some say the greatest scientific agency we have in Government.

That is debatable, but they do great work.

I appreciate the leaders of the subcommittee who recognized this by restoring the budget. The public land agencies funded by the Interior appropriations bill are of great importance to the State of Nevada: the Bureau of Land Management, Bureau of Reclamation. They do tremendous things for the counties. I am grateful that Chairman Byrd and ranking member Burns have done their best to fund these agencies.

I am confident we can finish this bill today. I hope we can. The managers have worked during the night, and staff members are still working to come up with a proposal to end this legislation quickly. There may be a few disputed matters to be resolved this afternoon. I wanted to spend a minute recognizing the great work done by the two managers.

The PRESIDING OFFICER: The bill having been read the third time, the question is, Shall it pass?

The bill (H.R. 2217), as amended, was passed.

(Oct. 22, 1977), as amended, was passed.

(The bill will be printed in a future edition of the RECORD.)

The PRESIDING OFFICER. Under the previous order, the Senate insists on its amendment and requests a conference with the House of Representatives and the Senate appoints Mr. Byrd, Mr. Leahy, Mr. Hollings, Mr. Reid, Mr. Dorgan, Mrs. Feinstein, Mrs. Murray, Mr. Inouye, Mr. Burns, Mr. Stevens, Mr. Cochran, Mr. Domenici, Mr. Bennett, Mr. Gregg, and Mr. Campbell, conferees on the part of the Senate.
balanced approach to any and all issues.

Again, I was encouraged by these comments. Mr. Griles came to my office. I told him about my concerns about his past record, and given his statements I was hoping he had, in fact, changed, and if he would give me some examples. He really didn't have any at that day. I said: I will ask you about this when you come for your confirmation hearing.

When he came for his confirmation hearing, he was not any more forthcoming. I said after the hearing my door would still be open to him and that I hoped he would give me some examples in areas such as the Endangered Species Act that require so much cooperation, that he would come forward with some specific ideas. He has not. He has not been willing on three separate occasions to show some evidence that he would take a more collaborative, inclusive approach, and that he would be more balanced in his approach to natural resources issues.

My concern is that as of now the record indicates the J. Steven Griles of the past is going to be back in action after the Senate confirms him.

I will talk for a few minutes about how Steven Griles' track record over 20 years. Over 20 years, again and again, he has placed the interests of powerful special interests above the public. This includes the support for environmentally unsound drilling for oil off the coast of California and looking the other way when powerful corporations were fined for breaking the environmental laws.

It is one thing to try to figure out ways to ensure compliance with the environmental laws; however, it is another thing to look through when these powerful interests have actually been fined for violating the law.

I was troubled about those past positions. I told Mr. Griles about that. It is certainly his right to hold those views. I have not made it a habit of opposing candidates with whom I differ on substantive issues. Given those past positions, given his public statements and his private statements to me that, in fact, he was going to change, it is troubling we have not seen any evidence of that.

His record is important. I will give a few examples of that record.

During his service with the Reagan administration, Mr. Griles is reported to have single-mindedly pushed for an oil lease sale off the coast of California, despite objections from his own Fish and Wildlife Service biologists. In 1988, he wrote a memo to the Assistant Secretary advising him to change the tone and conclusions of a Fish and Wildlife Service report citing the specific environmental damage that could be caused by a proposed northern California offshore oil lease. Mr. Griles concluded that memo by stating:

The memorandum is part of the public record and could prove very damaging to this lease sale.

The subsequent final report on the sale, from Fish and Wildlife, did not refer to any potential environmental harm that could result from the lease sale. Within the year, as Americans now know, the Exxon Valdez disaster occurred and, by 1990, the first President Bush declared a moratorium on offshore oil leases, so this lease sale was never completed. But it is certainly troubling to me that Mr. Griles wanted Federal researchers not to report accurate conclusions but to prop up a decision, regardless of the environmental facts.

This, in my view, would have been an ideal issue that Mr. Griles could have raised with me and with colleagues and said: Look, there are some ways that I that I treat these oil sales differently now, having learned from some of the controversy in the past. Yet he was unwilling to say that or anything resembling that.

He has also, as far as the public report, indicated that he has no interest in cracking down on the illegal behavior of polluters and special interests. Of course, that would be a task that he would be expected to perform in his position.

Between 1984 and 1987, the House of Representatives reviewed, for example, the internal workings in the Office of Surface Mining. They found that, under his leadership, this office collected only $6.8 million of an estimated $200 million due in civil penalties for those who broke the environmental laws.

Again, I have tried to single out just the areas of the record that concern me and here are some examples of the Senator who is in favor of breaking the environmental laws. Yet this was an instance where there were no violations and they were not followed up. I think that is troubling and, in fact, in successive years the percentage of collection of the civil penalties that were owed continued to go down.

I am concerned about the past public record, but I would not be here making the statement that I am tonight if Mr. Griles had said: Look, all of us change and here are some approaches that I would take in the days ahead to ensure that we could do the kind of work that Senator Craig—I see my friend Senator Burns here as well—as that the three of us have sought to do.

These natural resources issues are extraordinarily difficult. The American people want what I call the win-win. They want to protect our treasures and at the same time they want to be sensitive to local economic needs. It is a lot easier said than done. But Senator Craig and Senator Burns and I have teamed up to do just that.

I had been hoping that Mr. Griles would offer some specifics, given that he said he had changed, and would indicate he would want to do the kind of collaborative work that Senators have done on some of these particularly contentious issues. Unfortunately, on three separate occasions, in both public and private, Mr. Griles was unwilling to back up his public statements about how he had changed, how he would take a more collaborative approach. So tonight I want to make clear I am opposed to the nomination of J. Steven Griles to be Deputy Secretary of the Department of the Interior. My questions have not been answered. My reservations about the nominee's commitment to finding common ground have not been resolved. I tell my colleagues, I do not think we can get on top of these natural resources issues without a collaborative approach. Mr. Griles has said he is in favor of it but has not offered any evidence that he will actually do it. With that, I yield the floor.

The PRESIDING OFFICER. The Senator from Idaho.

Mr. CRAIG. Mr. President, I ask for a couple of minutes. Let me also ask unanimous consent that Senator Frank Murkowski, who is coming to the floor, be allowed to speak for a period of time prior to the action. I believe Senator Nelson is here to do the same.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CRAIG. Mr. President, I join with my colleague, Chairman Ron Wyden, tonight to visit about Steven Griles and the reality that Steven is about to become a major operative in the Department of the Interior. I stand tonight in full support of the decision of George W. Bush to nominate him to become Deputy Secretary. I do that because I know Steven Griles and I know he will do it when he looks me in the eye and he looks Senator Wyden in the eye and says he will work in the character of the new Secretary, Gale Norton, as it relates to the four Cs that she has so clearly laid out over the time of her confirmation hearings and as, I think, she has clearly demonstrated in the period of time in which she has served our country as our new Secretary of the Interior. That is one of consultation, cooperation, and communication that results in conservation of our natural resources to benefit all of the interests of our country. I believe Steven Griles will do that following the direction of the Secretary of the Interior.

While Ron Wyden and I will disagree a bit, we also understand the critical nature of cooperation, as he has so clearly spelled out, in the collaborative process. The models under which we must make decisions on our public land resources have changed from the days in which Steven Griles served the Reagan administration and in which
Steven Griles will now have the privilege of serving the Bush administration. We have tried to pioneer with the congressional and executive branches. Clearly, the effort Senator Wyden and I launched last year that is now law incorporates within it the idea of bringing all of the principals together to sit down to resolve conflict over resource issues at the local level and ultimately we believe we can aspire to that at the national level.

Therefore, I stand in favor of Steven Griles becoming our new Deputy Secretary at the Department of the Interior and I think he will at the end serve us well and I think the record will demonstrate that.

Let me say in closing, and I say it in all fairness to our majority leader, Tom Daschle, I thank him and I thank Harry Reid. Certainly this Senate has offered to all of us tonight in moving expeditiously some of the nominees that were at the desk or other nominees who were just moved out of committee today, both the Armed Services Committee and the Interior Committee.

It is absolutely critical that the President of the United States be allowed to nominate and have people of his choice to serve him in the administration of our Government at the executive level. Tonight we move a great number of people, probably the largest number we have moved to date at one time. That has been because of a cooperative effort on the part of the majority leader, Tom Daschle, and all of us working together to make that happen.

I hope to achieve our goal that the some 173 who are now before the authorizing committees across the Senate can be brought to hearings, heard, voted on, brought to the floor and I hope many of them could be moved before the August recess.

A lot of these fine people who have been asked to serve our Government are men and women who have families and who need to make decisions over whether to leave their families and their children in the schools where they now are or whether they are going to be allowed to get them in Washington in time to enroll them in school as it would start in late August or early September. Surely this Senate can operate in a reasonable and responsible fashion to do the appropriate hearings, to find out if these men and women are clearly qualified, as the President believes they are, to serve our country at the executive level, bring them from the committee, bring them to the floor, and allow to happen what is happening this evening.

When disagreements arise, as they do—as with Senator Wyden and Mr. Griles—we have voted and spread upon the RECORD as a template from which to judge the people who will serve in the executive branch, and to hold before them as a constant reminder of what they pledged to us in their confirmation hearings before the committee. That is fair and responsible, and it is the job of the Senate to respond in that fashion.

I am extremely pleased that we are able to move expeditiously on a good number tonight to give our President the tools by which to operate the executive branch of Government and to allow him, as the citizens of this country have chosen, to govern our Nation.

I yield the floor.

The PRESIDING OFFICER. The Senator from Alaska.

Mr. MURKOWSKI. Mr. President, let me congratulate the floor manager for offering the conclusion associated with the Interior appropriations bill. It has been a difficult battle, and it has been really tough with the many issues that have been subject to sub judice XVI which often come up in this process.

I thank the Senator from Montana and his colleagues on the other side. They have done an extraordinary job. My purpose in rising is to recognize an individual whom I stand in favor of today, Steven Griles. The injustice was not on the merits of whether Mr. Griles is qualified or not. It is the manner in which his nomination was delayed.

I think it is appropriate that the RECORD note that the intent to nominate Mr. Griles occurred on March 9. The nomination was received on May 1. Hearings were held May 16. He was reported favorably by the Energy Committee, which I happened to chair at that time, 18 to 4. I repeat—18 to 4 on May 23, 2001.

All of this, of course, occurred before the switch of Senator Jeffords and, as a consequence, the control of the Senate.

Mr. Griles was cleared on the Republican side on May 23. In executive session on May 24, we moved one nomination. On May 24 we moved 19 nominations. On May 25 we moved 33 nominations. On May 26 we moved 8 nominations. In each case, Mr. Griles was cleared on our side and was objected to by the Democrats, which they have every right to do.

But during this period, a unanimous consent agreement was offered to allow for 2 hours of debate, and a vote on which the Democrats indicated, according to the RECORD, that they needed 2 hours, with consideration the week we returned from that recess. That was rejected by the Democrats, as was the modification that then deleted the time certain and only included the time limitation.

At that point, it was clear that we would no longer as Republicans control the floor, and hence the timing on our return.

In executive session on June 14, under Democratic control, we cleared three additional nominations, but the Democrats would not agree to Griles. It wasn't agreed to as an issue of the debate on the merits, it was simply an effort to deprive—that is the only conclusion one can come to for the Department of Interior of his services, and hence to the public of this country.

As of today, Mr. Griles has been pending 51 days. Again, I refer to the fact that he was reported out of the committee 18 to 4. He is going to be voted out tonight on a voice vote. But I think it is appropriate to note the manner in which it was handled.

I am very disappointed. I, as chairman under the former administration, felt the obligation to respond to the development of the precedents and the officials within the various Cabinet departments. Under no circumstances had we had a situation similar to this where a nominee was delayed for such an unreasonable amount of time.

Who suffers? Perhaps this body suffers in self-examination. Again, I am not arguing the merits concerning issues that my friend from Oregon or my friend from Florida may have, but clearly the way this was handled was delay, delay, delay. The public suffered. The Department of the Interior suffered. Up until a short time ago, the Department of the Interior had one confirmed position. That was the Secretary of the Interior.

I think all of us have a responsibility to work together, in spite of our political differences, to serve the country.

I think it is appropriate that the RECORD note the reality associated with this nominee. It is my hope that situation is not repeated again because I think this body bears the responsibility.

I am happy to yield to my friend from Florida.

I wish the Presiding Officer a good evening, and the rest of my colleagues, and in particular the staff. I hope we get out at a reasonable hour.

Mr. NELSON of Florida. Mr. President, let me say in closing, and I say it in fairness to our majority leader, Tom Daschle, and all of us working together to make that happen.

It is absolutely critical that the President of the United States be allowed to nominate and have people of his choice to serve him in the administration of our Government at the executive level. Tonight we move a great number of people, probably the largest number we have moved to date at one time. That has been because of a cooperative effort on the part of the majority leader, Tom Daschle, and all of us working together to make that happen.

I hope to achieve our goal that the some 173 who are now before the authorizing committees across the Senate can be brought to hearings, heard, voted on, brought to the floor and I hope many of them could be moved before the August recess.

A lot of these fine people who have been asked to serve our Government are men and women who have families and who need to make decisions over whether to leave their families and their children in the schools where they now are or whether they are going to be allowed to get them in Washington in time to enroll them in school as it would start in late August or early September. Surely this Senate can operate in a reasonable and responsible fashion to do the appropriate hearings, to find out if these men and women are clearly qualified, as the President believes they are, to serve our country at the executive level, bring them from the committee, bring them to the floor, and allow to happen what is happening this evening.

When disagreements arise, as they do—as with Senator Wyden and Mr. Griles—we have voted and spread upon the RECORD as a template from which to judge the people who will serve in the executive branch, and to hold before them as a constant responsibility of what they pledged to us in their confirmation hearings before the committee. That is fair and responsible, and it is the job of the Senate to respond in that fashion.

I am extremely pleased that we are able to move expeditiously on a good number tonight to give our President the tools by which to operate the executive branch of Government and to allow him, as the citizens of this country have chosen, to govern our Nation.

I yield the floor.

The PRESIDING OFFICER. The Senator from Alaska.

Mr. MURKOWSKI. Mr. President, let me congratulate the floor manager for offering the conclusion associated with the Interior appropriations bill. It has been a difficult battle, and it has been really tough with the many issues that have been subject to sub judice XVI which often come up in this process.

I thank the Senator from Montana and his colleagues on the other side. They have done an extraordinary job. My purpose in rising is to recognize an individual whom I stand in favor of today, Steven Griles. The injustice was not on the merits of whether Mr. Griles is qualified or not. It is the manner in which his nomination was delayed.

I think it is appropriate that the RECORD note that the intent to nominate Mr. Griles occurred on March 9. The nomination was received on May 1. Hearings were held May 16. He was reported favorably by the Energy Committee, which I happened to chair at that time, 18 to 4. I repeat—18 to 4 on May 23, 2001.

All of this, of course, occurred before the switch of Senator Jeffords and, as a consequence, the control of the Senate.

Mr. Griles was cleared on the Republican side on May 23. In executive session on May 24, we moved one nomination. On May 24 we moved 19 nominations. On May 25 we moved 33 nominations. On May 26 we moved 8 nominations. In each case, Mr. Griles was cleared on our side and was objected to by the Democrats, which they have every right to do.

But during this period, a unanimous consent agreement was offered to allow for 2 hours of debate, and a vote on which the Democrats indicated, according to the RECORD, that they needed 2 hours, with consideration the week we returned from that recess. That was rejected by the Democrats, as was the modification that then deleted the time certain and only included the time limitation.

At that point, it was clear that we would no longer as Republicans control the floor, and hence the timing on our return.

In executive session on June 14, under Democratic control, we cleared three additional nominations, but the Democrats would not agree to Griles. It wasn't agreed to as an issue of the
gas-industry lobbyist reveals his aggres-
sive support for expanded oil drill-
ing in sensitive areas.

Mr. Griles' support for drilling is so
forthcoming that in biographical infor-
mation he supplied the Senate for his
confirmation he emphasizes his record for
helping lease "more Federal offshore
oil and gas acreage during 1984–
1989 than in any prior period of federal
leasing activities."

His position is clear. Unfortunately,
this position presents a serious risk to
Florida's economy and environment.

I thought I would take this oppor-
tunity to clear up for the Senator from
Alaska some of the things he said.

The Senator from Alaska should
know that this Senator from Florida
did not place a hold on the Griles nomi-
nation until June 19. That is just a
matter of some 2½ weeks ago. It
became apparent to me—and it didn't
have anything to do with personalities
or politics—on the substance of the
matter that this was something of such
importance to Florida on whether or not
we were going to have drilling off
the coast of Florida which would
threaten the economy of Florida be-
cause of its beaches. I think Florida
has the longest coastline of any State
in the country. So much of our eco-
nomic lifeblood comes from those pri-
tise beaches.

When I looked at the substance of the
nominee's background I saw that he
had been an advocate for offshore oil
drilling not only over a decade ago in
California but where he stated in his
testimony that he was in favor of drill-
ning for the entire 6 million acres of the
lease sale 181 and what that rep-
resented as a threat to Florida in that
original lease sale coming to within 30
miles of Perdido Key, which is the west-
ernmost beach of the State of Florida.

It became very clear as a matter of
substance to me that it was going to be
something that was perceived to be—
and he was perceived to be—a threat to
the economic lifeblood of the State of
Florida.

Only on June 19 did I write a letter to
the majority leader asking him to
honor my request, which was a hold on
the consideration of the nomination.

Today, Mr. Griles came to see me. I
find him entirely a delightful fellow,
an engaging fellow, and one with whom
I shared exactly this story. I asked him
the question: Since the likelihood was
that the reduced lease sale 181 was in
fact going to be approved—the adminis-
tration apparently had been working it
very hard and had the votes, as the vote
earlier today showed—what was
his intention with regard to the drill-
ing in the rest of the eastern Gulf of
Mexico planning areas?

He said since he had not been con-
formed that he could not speak with
the administration. But he offered that
he thought he could get an answer
from the administration and get back
to me before this vote occurred.

Indeed, it was only a few minutes
that a phone call came in that Sec-
retary Norton was requesting to come
and see me, of which I gladly received
her. It is the first time I had met her
—a very gracious lady. And I asked her
the same question I asked: Sen-
tor, I want you to assure me that in the
5-year plan, which is going to be issued
next week, there will be no additional
lease sales in the 5-year plan. And the
5-year plan that will be issued next
week is operative, effectively, as law,
since a lease cannot be offered for sale
or lease unless it is in the 5-year plan.

That was a little bit of good news. It
was on the basis of that that I addi-
tionally encouraged the majority leader
that I thought he was right. It is his
prerogative as majority leader to lift
the hold.

I shared with Mr. Griles that I was
going to vote against his nomination
because of his history. I was glad that I
was in this Chamber to hear my friend
from Alaska so that he could hear from
his colleague from Florida as to ex-
tactly what my intention on the sub-
stance of the matter has been.

I yield the floor.

The PRESIDING OFFICER. Is there
further debate on this nomination?

The Senator from Montana.

Mr. BURNS. Mr. President, I am glad
we are finally getting to the nomina-
tion of Steve Griles. It has been a long
time. I can remember going through
the hearings on the Energy Committee
and him being reported out of that
committee on the 22d. It has been a
long 40-some-odd days. It has been too
long.

It seems that we are asking our Cabi-
net Secretaries to do their jobs by
themselves. We are having a hard time
getting any help downtown. I just
think that is a wrong thing to do to
any administration.

I remember when President Clinton
first came to town back in 1992, 1993;
whenever we went through the process.
I always took the position that each
President got his Cabinet members
and the people he wanted in his administra-
tion because he had been duly elected
by the people of this country. So he
could move his agenda as he saw fit.
We have been holding up folks going
downtown far too long.

Twenty-eight percent of Montana is
public land. With the BLM and the For-
est Service and, of course, with the BIA
and the Indian lands and Indian coun-
try, this position is very important. Of
course, with Mr. Griles coming from a
point of multiple use, single use does
not work. I think that we can bal-
ance the use of our lands. We have had
a tendency in the last 10 or 15 years to
redesigning and shrinking the wise use
of any resource. That has been the driving force on any of our
resources found on our public lands and
on our private lands.

I have an agricultural background.
This position in the Department of the
Interior requires a man of not only
high integrity and high purpose but
also to have guts enough to make a
decision. We have gone through these
situations where nobody wants to make a
decision.

We had a situation on the Flathead
Lake in just finding its level. We had
too many cooks in the kitchen and
nobody knew who was in charge when
trying to make a decision on what level
we wanted to maintain at Flat-
head Lake in northwestern Montana.

I know there are some of my col-
leagues in this body who have some
real heartburn with Mr. Griles. In fact,
I know there are many colleagues in
this body who have heartburn with the
words "multiple use."

But, needless to say, we who come
from the land and the resources—and espe-
cially from a resource-based economy—
think we understand just how impor-
tant renewable resources are. We real-
ize that in oil and gas, it is sort of fi-
nitive—it may not be any more of it
made. But on renewables, we should be
using conservation practices that con-
sider wise use.

Tough decisions will have to be made
by the Department. We need someone
who is confident in making them and
also basing the decisions on science
and common sense.

So the reason I support Steve Griles
is because he brings outstanding cre-
dentials to the job. He served at many
levels, both inside and outside of Gov-
ernment. I think everybody will find
he will be an able listener, and he will also
show the cooperation in being a good
Deputy Secretary.

The PRESIDING OFFICER. Is there
further debate on the nomination?

Mr. BURNS. Mr. President, I urge
Mr. Murkowski. Yes.

Mr. BURNS. Mr. President, I urge
Mr. Murkowski. Yes.

Mr. BURNS. Mr. President, I urge
Mr. Murkowski. Yes.
THANKING THE MANAGERS OF INTERIOR APPROPRIATIONS

Mr. REID. Mr. President, while the Presiding Officer is in the Chamber, I rise to express how much I appreciate his welcome of last 2 days. It has been very difficult.

He and I worked together on Military Construction when I was chairman and he was ranking member. Through each ordeal we experience we become closer, and I have become more appreciative of his legislative abilities.

For both of us to be able to work with one of the legends of the Senate, Senator BYRD, is always a pleasure and a learning experience. I want to make sure that spread on the RECORD is my appreciation for the good work done by the two managers of this bill.

EXECUTIVE CALENDAR

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to consider the nominations reported earlier today by the Foreign Relations Committee as follows: Peter R. Chavasse to be Ambassador to the Republic of Sierra Leone; Lori A. Forman to be Assistant Administrator for the United States Agency for International Development; Aubrey Hooks to be Ambassador to the Democratic Republic of the Congo; Donald J. McCall to be Ambassador to the State of Eritrea; Nancy Powell to be Ambassador to the Republic of Ghana; George McDade Staples to be Ambassador to the Republic of Cameroon and to the Republic of Equatorial Guinea; that the nominations be confirmed, and the motions to reconsider be laid on the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations were considered and confirmed as follows:

DEPARTMENT OF DEFENSE

Douglas Jay Feith, of Maryland, to be Under Secretary of Defense for Policy. Peter W. Rodman, of the District of Columbia, to be Assistant Secretary of Defense for International Security Affairs; Thomas P. Christie, of Virginia, to be Director of Operational Test and Evaluation, Department of Defense; Diane K. M. McAnulty, of Texas, to be Deputy Under Secretary of Defense for Logistics and Materiel Readiness; Steven John Morello, Sr., of Michigan, to be General Counsel of the Department of the Army.

William A. Navas, Jr., of Virginia, to be an Assistant Secretary of the Navy; Michael Montelongo, of Georgia, to be an Assistant Secretary of the Air Force; Reginald Jude Brown, of Virginia, to be an Assistant Secretary of the Army; John J. Young, Jr., of Virginia, to be an Assistant Secretary of the Navy; Michael W. Wynne, of Florida, to be Deputy Under Secretary of Defense for Acquisition and Technology; Dionel M. Aviles, of Maryland, to be an Assistant Secretary of the Navy.

DEPARTMENT OF ENERGY

Jessie Hill Roberson, of Alabama, to be an Assistant Secretary of Energy (Environmental Management).

DEPARTMENT OF AGRICULTURE

Joseph J. Jen, of California, to be Under Secretary of Agriculture for Research Education, and Economics; James R. Moseley, of Indiana, to be Deputy Secretary of Agriculture.

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to consider the following nominations reported earlier today by the Energy and Commerce Committee: Patricia Lynn Scarlett to be Assistant Secretary of Interior; William Gerry Myers III to be Solicitor of the Department of the Interior; Bennett William Raley, of Colorado, to be an Assistant Secretary of the Interior.

DEPARTMENT OF ENERGY

Vicky A. Bailey, of Indiana, to be an Assistant Secretary of Energy (International Affairs and Domestic Policy).

DEPARTMENT OF THE INTERIOR

Frances P. Mainella, of Florida, to be Director of the National Park Service.

John W. Keys, III, of Utah, to be Commissioner of Reclamation.

Mr. REID. Mr. President, I ask unanimous consent that the HELP Committee be discharged from consideration of the following nominations: Grover Whitehurst, to be Assistant Secretary of Educational Research and Improvement; Susan B. Neuman, to be the Assistant Secretary for Elementary and Secondary Education; Rebecca Campoverde, to be the Assistant Secretary for Legislation and Congressional Affairs; Robert S. Martin, to be Director of the Institute of Museum and Library Services; that the Senate proceed to their consideration, en bloc; that they be confirmed; that the motions to reconsider be laid on the table; that any statements on any nominations confirmed today appear at the appropriate place in the RECORD; that the President be immediately notified of all the Senate's actions, and the Senate return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations were considered and confirmed as follows:

DEPARTMENT OF EDUCATION

Grover J. Whitehurst, of New York, to be Assistant Secretary for Educational Research and Improvement, Department of Education.

Susan R. Neuman, of Michigan, to be Assistant Secretary for Elementary and Secondary Education, Department of Education.

Rebecca O. Campoverde, of Virginia, to be Assistant Secretary for Legislation and Congressional Affairs, Department of Education.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Robert S. Martin, of Texas, to be Director of the Institute of Museum and Library Services.

LEGISLATIVE SESSION

The PRESIDING OFFICER. The Senate will now return to legislative session.

MORNING BUSINESS

Mr. REID. Mr. President, I ask unanimous consent that there be a period for the transaction of morning business with Senators permitted to speak therein for up to 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

BEIJING’S BID FOR THE OLYMPICS

Mr. WELLSSTONE. The International Olympic Committee is going to announce tomorrow which country will
host the 2008 summer games. The competition is fierce. Toronto and Paris are leading contenders. Yet it seems likely that Beijing will get the event.

I will speak briefly about this decision because I think there should be some discussion on the Senate floor and the implications. I believe China's authoritarian and oppressive government should not be granted the privilege of hosting the 2008 games. The current government in Beijing does not deserve the international legitimacy and the spotlight that this honor bestows. Its chronic failure to respect human rights violates the fundamental spirit of the Games, and I think it should disqualify Beijing.

Many of my colleagues argue that human rights should never be a consideration in determining our trade relations with other countries. I disagree. I do think a government's record on human rights should not be ignored with respect to choosing the site for the Olympics which confers enormous prestige on the host government and which is intended to celebrate human dignity and achievement.

I have a sense-of-the-Senate amendment because the feeling was it would be inappropriate to do it on an appropriations bill. I do not believe doing it that way gets the support that it deserves. I know there are Senators who argue that to say the Olympics should not be in China is to politicize this question. If we are silent about this and Beijing hosts the Olympics, we are making a political statement. The political statement we are making is their violation of human rights does not matter.

Either way, it is a political statement. I prefer to speak out for human rights. The Olympics are first and foremost about sports and the joy of athletic competition, but human rights and dignity are also central to the Olympic ideal. The Olympic charter makes clear "respect for universal fundamental ethical principles" are central to the Olympic ideal.

Look at the State Department report. China's Government record has worsened as it committed "numerous serious abuses" from raiding home churches, imprisoning Tibetan monks and nuns, locking up Internet entrepreneurs, silencing democracy activists, and cracking down on Falun Gong.

"The Chinese Government continues to hold a number of American scholars on suspicious charges of spying. Dr. Gao Zhan has not been allowed to contact her husband, her 5-year-old child, both American citizens, or her lawyer or the State Department.

This doesn't matter? Moreover, hundreds of people languish in jails and prison camps merely because they dared to practice their Christian or Buddhist or Islamic faith. These are the facts. Respected international human rights organizations have documented hundreds of thousands of cases of arbitrary imprisonment, torture, death at the hands of the Government. That is a fact.

What they have done, the brutal crackdown on the Falun Gong is unbelievable. This is a harmless Buddhist sect. According to international media reports, approximately 50,000 of these practitioners have been arrested and detained, more than 5,000 have been sentenced to labor camps without a trial, and hundreds have received prison sentences after sham trials, show trials. Detainees have often been tortured and scores of practitioners of this faith have died in Government custody. These are facts. This is the empirical evidence. Millions of others have been imprisoned for so-called crimes such as if you are ready, advocating for political pluralism and the ideals of democracy. Hundreds continue to languish in jail under a "counterrevolutionary" law which the Government repealed 3 years ago. Some of these are survivors of the Tiananmen Square massacre.

While China signed the International Covenant on Civil and Political Rights—I remember the Clinton administration has made such a big deal of this—the Chinese Government has not ratified it. Instead, it stepped up its repression of individuals seeking to exercise the very rights the covenant is designed to protect. And we do not speak out about this.

We make the argument, to grant this country the honor of hosting the Olympics, we should not raise questions about this because to raise questions would be to make a political statement about the Olympics. Isn't it also making a political statement about the Olympics to simply legitimize and validate this repression?

Chinese courts have sentenced members of the Chinese Democracy Party, an open opposition party, to terms of 11, 12, and 13 years for "conspiring to subvert state power." This is a fact.

Charges against these political activists—do you know what they are? They included this: They organized a party—wound up in prison. They received funds from abroad promoting independent trade unions—they wound up in prison. They used e-mails to distribute materials abroad—they wound up in prison. And they gave interviews to foreign reporters—they wound up in prison.

Here is where the Olympics is going to go. Without a word from our Government? Without a word from the Senate?

Chinese officials have also ruthlessly suppressed dissent from ethnic minorities. In Xinjiang and Tibet. According to a report by Amnesty International, the Chinese Government has reportedly committed gross violations, including widespread use of torture to extract confessions, lengthy prison sentences, and numerous executions. Are we not going to speak up about a government that tortures its citizens and that executes its citizens for no other reason than they have had the courage to speak up for democracy or to try to practice their religion?

In an apparent attempt to stop the flow of information overseas about this crackdown, Chinese security officials continue to detain a prominent businesswoman, Ms. Rebiya Kadeer, in the Province of Xinjiang. Her husband is a U.S. resident who broadcasts on Radio Free Asia and the Voice of America, championing the cause of people. She was arrested by the Chinese security forces on her way to meet with members of a visiting Congressional staff delegation.

The same Ms. Kadeer, the same Ms. Kadeer has been praised by the Chinese Government for her efforts to promote economic development, including a project to help women own their own businesses. She has also been praised in the Wall Street Journal for her business savvy. She owned a department store in a provincial capital, as well as a profitable trading company. But now she has been put out of business, charged with—here is the charge, Mr. President—"illegally offering state secrets across the border" and sentenced to 8 years of hard labor. Her son and her secretary were also detained and sent to a labor camp.

Given this horrendous record, I do not believe China should be rewarded for this sort of repression. I am not a cold war warrior. I am not trying to resurrect the cold war. My father was born in Odessa, Ukraine. Then, to stay ahead of Czarist Russia, he was a Jewish immigrant. They moved to Kansas in the 1910s, and then Harbin, and lived in Pakeen, lived in China, and he came to the United States of America at age 17, in 1914. I am an internationalist.

I look forward to the day that Beijing will host the Olympic games. The Chinese people are some of the most extraordinary, talented, and resourceful people on the planet. I do not for a moment want to bash or overgeneralize. I dream of a day when I can come to the Senate floor and I can celebrate the idea of China hosting the Olympic games. But not now. Not with the persecution, not with the torture, not with the murder of innocent citizens, not with the political oppression, not with the religious persecution, not with what they have done to the country of Tibet, the people of Tibet.

I believe strongly China's authoritarian, repressive Government should not be granted the privilege of hosting the 2008 games to further damage the international legitimacy and spotlight that this honor bestows. Instead, this Government's chronic failure to respect human rights, I believe, violates
the fundamental spirit of the Olympic games and should disqualify Beijing.

This is perhaps my morning for sitting at windmills because I believe the international committee will probably give China the Olympic Games, but sometimes it is important just to make that statement on the floor of the Senate. I believe others should speak out as well.

VIOLENCE AGAINST WOMEN OFFICE ACT

Mr. DOMENICI. Mr. President, I rise today to announce my cosponsorship of S. 570, the Violence Against Women Office Act introduced by my colleague Senator BIDEN. This bill will further our efforts in combating the problem of domestic violence. Domestic violence is not simply a localized, private issue, it is our problem. The violence against women. The office is responsible for the development of policies, programs, public education initiatives, and management of all grant programs funded under the VAWA.

This bill will institutionalize the office and will help to fulfill the federal government’s responsibility to meet the goals embodied in the Violence Against Women Act, (VAWA).

This office will be located within the Associate Attorney General’s Office. The Violence Against Women Office (VAWO) by statute will provide permanency in our federal efforts to combat domestic violence. This bill will institutionalize the office and will help to fulfill the federal government’s responsibility to meet the goals embodied in the Violence Against Women Act, (VAWA).

This nation-wide problem demands a local response. Federal funding is being effectively used to leverage existing community-based services and local law enforcement officials to help prevent and persecute domestic violence.

Last year I cosponsored the Violence Against Women Act. This year I am supporting full funding of VAWA programs for the Justice Department programs and in the Health and Human Services budget, despite the tight fiscal constraints and competing priorities for those agencies.

Domestic violence is a scourge. We must commit to addressing it. This legislation is one concrete step in the right direction.

THE PUBLIC HEALTH IMPLICATIONS OF GUN VIOLENCE

Mr. LEVIN. Mr. President, before we adjourned for the Fourth of July recess, we spent two weeks on the Senate floor discussing the Patients Bill of Rights. I supported the strong, enforceable bill which the Senate finally approved on June 29th. After years of consideration and a hard legislative battle, the bipartisan vote this bill received reflects the overwhelming support the bill has from the American people. Over the next several months we will continue to discuss the importance of reforming our health care system to make it more affordable and more accessible to the American people. But as we debate the subject, we must not ignore an issue that is often overlooked as a public health problem. I’m talking about gun violence.

Because, Mr. President, accompanying the tremendous human costs of gun violence are enormous public health costs that we cannot afford to ignore.

According to a 1999 report from the Office of Juvenile Justice and Delinquency Prevention, every day in the United States, 93 people die as a result of gunshot wounds and an additional 240 sustain gunshot injuries. The report states that “the fatality rate is roughly equivalent to that associated with HIV infection—a disease that the Centers for Disease Control and Prevention has recognized as an epidemic.” In addition, according to a 1997 study cited by the Violence Policy Center, the cost of gunshot wounds exceeded $126 billion in 1992 alone. That same year, the injury cost per bullet sold in the United States exceeded $25.

So as we in the Senate work to improve health care for all Americans, we should not just as hard to close the loopholes in our gun laws. Only by doing the latter can we reduce the costs to public health that result from gun violence.
July 12, 2001

CONGRESSIONAL RECORD—SENATE

BURMA MILITARY PURCHASES

Mr. MCCONNELL. Mr. President, the illegitimate regime in Rangoon has once again shown its true colors. On this sorrowful anniversary morning in Wash-
ington, I want to draw the attention of my colleagues to gathering storm clouds in Southeast Asia.

According to Jane's Defence Weekly, Burma's State Peace and Development Council, SPDC, has signed a contract to purchase 10 MIG-29 fighter aircraft from the Russian Aircraft-building Corporation. These fighters were built in the early 1990s and are being stored at the Lakhovitsky machine-building plant. The total cost of the 10 MIGs to the SPDC is $130 million, 30 percent of which will be paid up front and the balance settled over the next decade.

This purchase is troubling for several reasons. First, the junta clearly has military plans for these aircraft. Second, the acquisition of these aircraft, which boosts the junta's capabilities well beyond the 22 Chengdu F-7M and Nanchang A-5C currently sitting on Burmese runways. Tensions between the Thais and the junta have already spilled over into exchanges of gunfire and mortars; an escalation to an air war would be destabilizing to the entire region.

China may be the only country to view the sale in a positive light, as it strengthens the military capability of one its staunchest allies in the region.

From drug dealing to the forced use of child soldiers, the Burmese military has distinguished itself as a world's leading violator of human rights and dignity. This purchase serves as evidence that the regime is committed to remaining in power at any and all costs. The international community must now double its efforts to ensure that even greater human rights abuses are not waged against the innocent people of Burma by the military, which is corrupt to the core.

The acquisition of MIG fighters adds 10 more reasons why the United States should view skepticaly the discussions between Rangoon's thugs and thieves and Burma's legitimate leader Daw Aung San Suu Kyi. The fact that with Russia sends a signal that despite all the rhetoric and few prisoner releases, the talks may be hollow. It strengthens the military capability of one of the junta's staunchest allies in the region.

Finally, the sale is an indication that the Russians are willing to sell military hardware to anyone, anywhere. We can add Burma to the growing list, which includes Iran and North Korea, of Russian client countries.

RACISM

Mr. BAUCUS. Mr. President, today I rise to call attention to racism in our society.

There are certain moments when we are reminded that it exists, and that it is a very ugly thing. Recently, the Committee of 100, a group of prominent Chinese-Americans, published a survey that measured attitudes toward Asian-Americans, especially those of Chinese descent. It was the first such comprehensive survey—the group wanted to establish a baseline that can be compared to future studies so that we can determine whether racist attitudes against Chinese-Americans are rising or falling.

The result of this first survey was distressing. Apparently, one-quarter of Americans hold "very negative attitudes" toward Chinese-Americans, and one-third think that Chinese-Americans are more likely to be loyal to China than to the United States. Stop and think about that: a charge of disloyalty is a sensational accusation when it is leveled by one American against another. This survey suggests that 90 million people in this country accuse millions of their fellow Americans of disloyalty.

The same poll also tested attitudes toward Asian-Americans in general, with similar results. Twenty-four percent of Americans would be upset if someone in their family married an Asian-American; 23 percent would be uncomfortable voting for an Asian-American president; and 17 percent would be disappointed if an Asian-American moved into their neighborhood. Prejudice toward Chinese-Americans, and toward Asian-Americans in general, is not unique. Immigrants from all parts of the world have been stereotyped and reviled at some point in our history, and many groups continue to face these attitudes today. I chose to focus on Asian-Americans today only because the survey so surprised and concerned me.

Chinese immigrants began entering the country in large numbers in the 1850's. They were initially welcomed in the tight labor market of the rapidly expanding West. In fact, American industry brought many of the immigrants from China as contract laborers. Some of these immigrants toiled in gold mines and on the transcontinental railroad. Others worked in yesteryear's and fruit farms in California or on sugar plantations in Hawaii. Still others opened grocery stores, laundries, and other businesses.

But as labor became more plentiful and the gold rush petered out, public sentiment toward these Asian-Americans changed. The federal government put an official stamp on this racism by passing the Chinese Exclusion Act, which made it illegal for Chinese people to emigrate to this country. This unprecedented and embarrasing law stayed on the books until 1943.

Another indignity that immigrants faced was the system of "anti-miscegenation" laws against intermarriage. In 1880, California passed a statute forbidding marriage of a white person to a Chinese, Mulatto, or Mongolian. The federal government passed the Cable Act in 1922, revoking the citizenship of any American woman who married an Asian man. It wasn't until 1967 that the Supreme Court struck down these laws.

For many very good reasons, I am sorry to report that my own state of Montana was not immune to anti-immigrant action. Census data show that in 1870, the Chinese accounted for the largest foreign-born population in the state—larger even than the Irish. Chinese workers made a particularly significant contribution to the mining town of Butte, but by the 1880's they faced discrimination and hate attacks. Ads in newspapers appeared with the slogan "Chinese need not apply." Anti-peddling ordinances were enacted against Chinese grocers. In fact, the town's fourth mayor rode to victory on the slogan "The Chinese must go."

There is no single description of early Chinese-American experience. Chinese-Americans were already wealthy and well-educated when they arrived here. Others arrived in penury and followed the American path to education and success. Some Chinese-Americans continue to celebrate their Chinese origin. Others deny, or have forgotten completely, the cultural heritage of their ancestors. Yet all are Americans.

Cruz Reynoso, the first Mexican-American to serve on California's Supreme Court, put it this way:

"Americans are not now, and never have been, one people linguistically or ethnically. America is a political union—not a cultural, linguistic, religious, or racial union. It is acceptance of our constitutional ideals of democracy, equality, and freedom which acts as a unifier for us as Americans."

Political scientist Carl Friedrich made a similar point when he wrote in 1933: "To be an American is an ideal, while to be a Frenchman is a fact." An American is an ideal. The United States embraces the founding political ideals of our Nation.

It is the responsibility of all of us, as the elected representatives of the
American people, to combat racism in our society, to raise awareness of how racism damages our nation and our society, to point to the ideals that bind us together as citizens of this great nation. Thank you.

SUPPORT FOR THE U.S. COAST GUARD

Mr. DEWINE. Mr. President, I rise today to thank the chairman and ranking member of the Appropriations Committee, Senators BYRD and STEVENS, for working with me and so many others in support of the $92 million for the U.S. Coast Guard. This funding was included in the 2001 Emergency Supplemental Appropriations bill we recently passed.

The Coast Guard needs this assistance to meet basic operational expenses and fund unexpected fiscal year 2001 budget requirements. We must support the critical services that the Coast Guard performs across the country. By passing this bill, we have demonstrated strong support for its missions and will help it stay in the business of saving lives.

Known as “the rescue expert,” our Coast Guard responds to 40,000 search and rescue cases each year, saving 3,800 lives. And, though it is the rescue and response missions that get the headlines, the Coast Guard also is very dedicated to preventing emergencies. The Coast Guard inspects all commercial ships—including cargo ships, tankers, and cruise ships.

There are many other ways that the Coast Guard protects our citizens. One major component of Coast Guard operations is drug interdiction. Last year, the Coast Guard seized more than 66 tons of cocaine, with a street value of $4 billion—that’s more than the total operating cost of the entire Coast Guard.

Perhaps one of the Coast Guard’s toughest jobs is the day to day enforcement of U.S. immigration law. Coast Guard men and women are challenged daily to carry out their responsibilities with due regard for the law, human dignity, and above all, the safety of human life. It is a tough job, and each case is unique. But day in and day out, the Coast Guard continues to carry out its duties with professionalism and a never-ending commitment to those it serves.

These are just some of the vital missions the Coast Guard conducts. But the Coast Guard is reaching the point where it is stretched so thin and the condition of its equipment is so poor that I fear it will no longer be able to sustain daily operations.

When compared to 41 other maritime agencies around the world, the ships that make up our Coast Guard fleet of cutters are the 38th oldest. Because the fleet is so old, the Coast Guard has had to spend twice as much money to fix equipment and hull problems. This is a very serious problem, Mr. President. It is a problem that does not result from mismanagement, but rather, it is a problem that has resulted from a continual lack of adequate funding for our Coast Guard.

We need to provide the Coast Guard with the resources necessary so the American people can have the services that they require and deserve. The funding included in the 2001 Emergency Supplemental Appropriations bill certainly will help keep our Coast Guard afloat. And, we must remain committed to ensuring that our Coast Guard has adequate resources not just now, but well into the future.

I look forward to continuing to work with my colleagues on this vital issue.

LOCAL LAW ENFORCEMENT ACT OF 2001

Mr. SMITH of Oregon. Mr. President, I rise today to speak about hate crimes legislation I introduced with Senator Kennedy in March of this year. The Local Law Enforcement Act of 2001 would add new categories to current hate crimes legislation sending a signal that violence of any kind is unacceptable in our society.

I would like to describe a terrible crime that occurred March 13, 1998 in San Francisco, California. A gay man, Brian Wilmes, 45, was beaten to death allegedly by another man who yelled anti-gay epithets and then fled with a woman. Edgar Mora, 25, was charged with murder.

I believe that government’s first duty is to defend its citizens, to defend them against the harms that come out of hate. The Local Law Enforcement Enhancement Act of 2001 is now a symbol that can become law. I believe that by passing this legislation, we can change hearts and minds as well.

RURAL TRANSPORTATION

Mrs. CARNAHAN. Mr. President, I rise today to acknowledge a group of courageous young men and women from Canton, MO. They are visiting the Nation’s capital this week.

The group’s journey began more than a year ago on a two-lane road in northeast Missouri. Seventeen-year-old Kristin Hendrickson was killed on Highway 61 when her car struck another vehicle head on. A four-lane road with a divider might have saved her life.

Kristin was just a few months away from graduation at Canton R-5 High School. Her unused prom dress hung in her closet, a reminder of how full of life she had been.

Kristin’s friends tried to make sense of what happened, but rather, it is a determined to make something positive out of this terrible loss, they started a grassroots movement: Students of Missouri Assisting Rural & Urban Transportation, or SMART.

Their goal was to “promote and ensure the safety of rural transportation needs in the State of Missouri.”

Many of the students who created SMART graduated a few weeks later, but younger students carried on the work. And those who graduated stayed involved as advisors. The group developed four objectives: First, to educate the public on the need to improve local transportation; Second, to grow into other local districts, and then move statewide; Third, to lobby legislators for funding to improve rural transportation; and Fourth, to contact candidates for statewide office for their position on transportation, and use this information to educate the public.

SMART has already become a powerful advocacy group in Missouri. Just 2 months after the organization was founded, the nonpartisan group made a presentation at a meeting of the Missouri Highway and Transportation Commission. Their members have also addressed the Missouri Governor’s Conference on Transportation. Representatives of the group have met personally with Missouri Governor Bob Holden and members of the Missouri General Assembly to encourage additional funding for rural transportation projects.

But their greatest victory to date came in January when the Missouri Department of Transportation announced that it would upgrade more than 10 miles of highway 61 between Canton and LaGrange to a four-lane road.

Although the victory came too late for Kristin, there is no way to know how many lives it will save in the years to come. It would not have happened without the forceful activism of these young people.

I am extremely proud of these young people. Not only because of what they accomplished, but because of what they still intend to accomplish. They are not yet satisfied, and we have not heard the last of them.

The group continues to organize similar groups throughout Missouri. They have come to Washington this week to encourage Members of Congress to support highway safety and to advocate for additional federal resources for transportation infrastructure.

These committed young people can teach us all a lesson about how to get things done. The example they have set is not just valuable for other young people, but also for adults who have grown cynical about the political process. These young leaders have shown that you can make a difference—through action and determination. And I intend to work with them to increase the Federal Government’s investment in our Nation’s highways.
THE VERY BAD DEBT BOXSCORE

Mr. HELMS. Mr. President, at the close of business yesterday, Wednesday, July 11, 2001, the Federal debt stood at $5,769,374,137,996.57, five trillion, five hundred ninety-six billion, ninety-six dollars and fifty-seven cents.

Five years ago, July 11, 1996, the Federal debt stood at $3,640,702,137,996.57, three trillion, six hundred forty billion, seven hundred ninety-six dollars and fifty-seven cents.

Ten years ago, July 11, 1991, the Federal debt stood at $3,536,904,000,000,000, three trillion, five hundred thirty-six billion, nine hundred million dollars.

Fifteen years ago, July 11, 1986, the Federal debt stood at $2,068,672,000,000, two trillion, sixty-eight billion, six hundred million dollars.

Twenty years ago, July 11, 1976, the Federal debt stood at $1,052,374,000,000, one trillion, five hundred twenty-three billion, seven hundred forty million dollars.

Thirty years ago, July 11, 1961, the Federal debt stood at $526,204,000,000, five hundred twenty-six billion, two hundred four million dollars.

Forty years ago, July 11, 1951, the Federal debt stood at $109,237,000,000, one hundred nine billion, two hundred thirty-seven million dollars.

Fifty years ago, July 11, 1941, the Federal debt stood at $38,204,000,000, thirty-eight billion, two hundred four million dollars.

Sixty years ago, July 11, 1931, the Federal debt stood at $7,640,000,000, seven billion, six hundred forty million dollars.

Seventy years ago, July 11, 1921, the Federal debt stood at $2,640,000,000, two billion, six hundred forty million dollars.

EIGHTY YEARS AGO, the Federal debt stood at $740,000,000, seven hundred forty million dollars.

NINETY YEARS AGO, the Federal debt stood at $300,000,000, three hundred million dollars.

ONE HUNDRED YEARS AGO, the Federal debt stood at $100,000,000, one hundred million dollars.

HONORING INDEPENDENCE, MISSOURI AS AN ALL-AMERICAN CITY

Mrs. CARNAHAN. Mr. President, I am proud to take this opportunity to honor a very special place in Missouri. On Saturday, June 23rd, Independence, MO, the hometown of Harry S. Truman, was selected as an All-American City. The All-American City Competition is the Nation’s oldest award for civic accomplishment. The winning cities serve as “models of exemplary Grass-roots problem solving.”

A 51-member delegation of business interests, community leaders, and non-profit organizations came together to let Independence shine in the competition. While community partnerships are sprouting up in cities across America, Independence is in a league of its own. Under the leadership of Mayor Ron Stewart, Independence has achieved a real sense of unity and community. So many different entities with widely divergent interests were recognized for their ability to successfully work together when faced with civic challenges.

Independence’s winning presentation, appropriately themed “Together We Can,” highlighted recent citywide improvements such as cleaning up the historic Truman district, a sales tax approved by the community to repair streets and parks, and the William Chrisman High School program which involved youth in public service programs. Furthermore, even Independence’s physical presence at the competition was a united effort. Community groups worked together to raise funds to pay for the trip and prepare the presentation. This truly exceptional community certainly deserves its prestigious recognition as an All-American City.

Congratulations to Mayor Ron Stewart, participation coordinator Larry Kaufman, the delegation, and the residents of Independence. Your passionate work epitomizes the unlimited possibilities of cooperation. Thank you for making me proud to be a Missourian.

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Ms. Evans, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages...
from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MESSAGE FROM THE HOUSE
At 2:52 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House disagrees to the amendment of the Senate to the bill (H.R. 2216) an Act making supplemental appropriations for the fiscal year ending September 30, 2001, and for other purposes, and agrees to the conference asked by the Senate on the disagreeing votes of the two Houses thereon; and appoints the following Members as the managers of the conference on the part of the House: Mr. YOUNG of Florida, Mr. ROYbal-Allard of California, Mr. ROGERS of Kentucky, Mr. SKEEN of Georgia, Mr. WOLF of Virginia, Mr. KOLBE of Arizona, Mr. CALLAHAN of California, Mr. WALSH of Massachusetts, Mr. TAYLOR of North Carolina, Mr. HOIBERG of South Dakota, Mr. ISTOOK of Oklahoma, Mr. BONILLA of Texas, Mr. NOLAN of Maryland, Mr. LEE of Missouri, Mr. DICKS of Washington, Mr. RYAN of Ohio, Ms. KAPTUR of Ohio, Mr. VISCLOSKY of Indiana, Mr. ANDERSON of California, Mr. OLVER of Colorado, and Mr. OLVER of Florida.

MEASURES REFERRED
The following bills were read the first and the second time by unanimous consent, and referred as indicated:

H.R. 2330. An act making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2002, and for other purposes.

The message further announced that pursuant to section 303(a) of Public Law 106-286, the Speaker appoints the following Members of the House of Representatives to the Congressional-Executive Commission on the People's Republic of China: Mr. LEVIN of Michigan, Ms. KAPUTR of Ohio, Ms. PELOSI of California, and Mr. DAVIS of Florida.

EXECUTIVE AND OTHER COMMUNICATIONS
The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC–2759. A communication from the Assistant Attorney General of the Office of Legislative Affairs, transmitting, pursuant to law, the Annual Report of the Office of the Juvenile Justice and Delinquency Prevention for 2000; to the Committee on the Judiciary.

EC–2760. A communication from the Director of the Office of the Inspector General, Office of the Secretary of Transportation, transmitting, pursuant to law, a report relative to consolidated financial statements with supplementary information for 1999 and 2000; to the Committee on the Judiciary.

EC–2761. A communication from the National Treasurer of the Navy Wives Clubs of America, transmitting, pursuant to law, a report relative to financial statement and audit for Fiscal Year 1999; to the Committee on the Judiciary.

EC–2762. A communication from the Federal Co-Chairman of the Appalachian Regional Commission, transmitting, pursuant to law, the report of the Office of the Inspector General for the period beginning October 1, 2000 through March 31, 2001; to the Committee on Governmental Affairs.

EC–2763. A communication from the Acting Inspector General of the General Service Administration, transmitting, pursuant to law, the report of the Office of the Inspector General for the period for the fiscal year ending September 30, 2001; to the Committee on Governmental Affairs.

EC–2764. A communication from the Secretary of the Department of Housing and Urban Development, transmitting, pursuant to law, the Annual Report on Performance and Accountability for Fiscal Year 2000; to the Committee on Governmental Affairs.

EC–2765. A communication from the Secretary of Defense, transmitting, the report of a retirement; to the Committee on Armed Services.

EC–2766. A communication from the Secretary of Defense, transmitting, the report of a retirement; to the Committee on Armed Services.

EC–2767. A communication from the Assistant Director for the Executive and Political Personnel, Department of the Navy, transmitting, pursuant to law, the report of a vacancy in the position of Assistant Secretary of the Navy, received on July 5, 2001; to the Committee on Armed Services.

EC–2768. A communication from the Assistant Director for the Executive and Political Personnel, Department of the Navy, transmitting, pursuant to law, the report of a vacancy in the position of Assistant Secretary of the Navy, received on July 5, 2001; to the Committee on Armed Services.

EC–2769. A communication from the Assistant Director for Economic, Social, and Technical Exports, Department of the Navy, transmitting, pursuant to law, the Annual Materials Plans for Fiscal Years 2001 and 2002; to the Committee on Armed Services.

EC–2770. A communication from the Head of Regulations and Legislation, Office of the Judge Advocate General, Department of the Navy, transmitting, pursuant to law, the report of a rule entitled “Navy Discharge Review Board” (RIN0703–AA46) received on July 5, 2001; to the Committee on Armed Services.

EC–2771. A communication from the Head of Regulations and Legislation, Office of the Judge Advocate General, Department of the Navy, transmitting, pursuant to law, the report of a rule entitled “Public Access to Particular Installations” (RIN0703–AA63) received on July 5, 2001; to the Committee on Armed Services.

EC–2772. A communication from the Head of Regulations and Legislation, Office of the Judge Advocate General, Department of the Navy, transmitting, pursuant to law, the report of a rule entitled “Garnishment of Pay of Naval Military and Civilian Personnel for Collection of Child Support and Alimony” (RIN0703–AA67) received on July 5, 2001; to the Committee on Armed Services.

EC–2773. A communication from the Head of Regulations and Legislation, Office of the Judge Advocate General, Department of the Navy, transmitting, pursuant to law, the report of a rule entitled “Assistance to and Support of Dependents; Paternity Claims” (RIN0703–AA62) received on July 5, 2001; to the Committee on Armed Services.

EC–2774. A communication from the Head of Regulations and Legislation, Office of the Judge Advocate General, Department of the Navy, transmitting, pursuant to law, the report of a rule entitled “Availability of Department of the Navy Records and Publication of Department of the Navy Documents Affecting the Public” (RIN0703–AA58) received on July 5, 2001; to the Committee on Armed Services.

EC–2775. A communication from the Head of Regulations and Legislation, Office of the Judge Advocate General, Department of the Navy, transmitting, pursuant to law, the report of a rule entitled “Application Guidelines for Archeological Research Permits on Ship and Aircraft Wrecks Under the Jurisdiction of the Department of the Navy” (RIN0703–AA57) received on July 5, 2001; to the Committee on Armed Services.

EC–2776. A communication from the Head of Regulations and Legislation, Office of the Judge Advocate General, Department of the Navy, transmitting, pursuant to law, the report of a rule entitled “Garnishment of Pay of Naval Military and Civilian Personnel for Collection of Child Support and Alimony” (RIN0703–AA67) received on July 5, 2001; to the Committee on Armed Services.

EC–2777. A communication from the Head of Regulations and Legislation, Office of the Judge Advocate General, Department of the Navy, transmitting, pursuant to law, the report of a rule entitled “Application Guidelines for Archeological Research Permits on Ship and Aircraft Wrecks Under the Jurisdiction of the Department of the Navy” (RIN0703–AA57) received on July 5, 2001; to the Committee on Armed Services.

EC–2778. A communication from the Head of Regulations and Legislation, Office of the Judge Advocate General, Department of the Navy, transmitting, pursuant to law, the report of a rule entitled “Garnishment of Pay of Naval Military and Civilian Personnel for Collection of Child Support and Alimony” (RIN0703–AA67) received on July 5, 2001; to the Committee on Armed Services.

EC–2779. A communication from the Head of Regulations and Legislation, Office of the Judge Advocate General, Department of the Navy, transmitting, pursuant to law, the report of a rule entitled “Availability of Department of the Navy Records and Publication of Department of the Navy Documents Affecting the Public” (RIN0703–AA58) received on July 5, 2001; to the Committee on Armed Services.

EC–2780. A communication from the Head of Regulations and Legislation, Office of the Judge Advocate General, Department of the Navy, transmitting, pursuant to law, the report of a rule entitled “Garnishment of Pay of Naval Military and Civilian Personnel for Collection of Child Support and Alimony” (RIN0703–AA67) received on July 5, 2001; to the Committee on Armed Services.

EC–2781. A communication from the Program Analyst of the Office of the Managing
Director, Federal Communications Commission, transmitting, pursuant to law, a report of a rule entitled “Assessment and Collection of Regulatory Fees for Fiscal Year 2001” (Doc. No. 01–76) received on July 2, 2001; to the Committee on Commerce, Science, and Transportation.

EC–2782. A communication from the Attorney for the Research and Special Programs Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled “Safety/Security Zone Regulations: Fireworks Display, Hyannis, MA” ((RIN2115–AA97)(2001–0037)) received on July 3, 2001; to the Committee on Commerce, Science, and Transportation.

EC–2783. A communication from the Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled “Safety/Security Zone Regulations: Fireworks Display, Provincetown, MA” ((RIN2115–AA97)(2001–0038)) received on July 3, 2001; to the Committee on Commerce, Science, and Transportation.

EC–2784. A communication from the Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled “Safety/Security Zone Regulations: Milwaukee, WI” ((RIN2115–AA97)(2001–0039)) received on July 3, 2001; to the Committee on Commerce, Science, and Transportation.

EC–2785. A communication from the Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled “Safety/Security Zone Regulations: Kewaunee, WI” ((RIN2115–AA97)(2001–0040)) received on July 3, 2001; to the Committee on Commerce, Science, and Transportation.

EC–2790. A communication from the Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled “Safety/Security Zone Regulations: Lake Erie, Huron, OH” ((RIN2115–AA97)(2001–0041)) received on July 3, 2001; to the Committee on Commerce, Science, and Transportation.

EC–2791. A communication from the Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled “Safety/Security Zone Regulations: Lake Erie, Huron, OH” ((RIN2115–AA97)(2001–0042)) received on July 3, 2001; to the Committee on Commerce, Science, and Transportation.

EC–2792. A communication from the Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled “Safety/Security Zone Regulations: Tall Ships Challenge 2001, Moving Safety Zone, Muskegon Lake, Muskegon, MI” ((RIN2115–AA97)(2001–0043)) received on July 3, 2001; to the Committee on Commerce, Science, and Transportation.

EC–2793. A communication from the Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled “Regatta Regulations; SLR: Maryland Swim for Life, Chester River, Chestertown Maryland” ((RIN2115–AA97)(2001–0044)) received on July 3, 2001; to the Committee on Commerce, Science, and Transportation.

EC–2794. A communication from the Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled “Raising the Threshold of Property Damage for Property Forfeiture for Vessel Involved Recreational Vessels” ((RIN2115–AF97) received on July 3, 2001; to the Committee on Commerce, Science, and Transportation.

EC–2795. A communication from the Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled “Regatta Regulations; SLR: Patapsco River, Baltimore Maryland” ((RIN2115–AE46)(2001–0015)) received on July 3, 2001; to the Committee on Commerce, Science, and Transportation.

EC–2796. A communication from the Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled “Regatta Regulations; SLR: Northeast Ohio Energy and Transportation Conference” ((RIN2115–AE46)(2001–0016)) received on July 3, 2001; to the Committee on Commerce, Science, and Transportation.

EC–2797. A communication from the Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled “Safety/Security Zone Regulations: Milwaukee, WI” ((RIN2115–AA97)(2001–0029)) received on July 3, 2001; to the Committee on Commerce, Science, and Transportation.

EC–2798. A communication from the Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled “Drawbridge Regulations: Sabine Lake, Texas” ((RIN2115–AE47)(2001–0048)) received on July 3, 2001; to the Committee on Commerce, Science, and Transportation.

EC–2799. A communication from the Attorney/Advisor of the Department of Transportation, transmitting, pursuant to law, the report of a nomination for the position of Administrator of the National Highway Traffic Safety Administration, received on July 5, 2001; to the Committee on Commerce, Science, and Transportation.

EC–2800. A communication from the Program Analyst of the Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled “Airworthiness Directives: American Champion Aircraft Corporation 7, 8, and 11 Series Airplanes” ((RIN2115–AA64)(2001–0261)) received on July 9, 2001; to the Committee on Commerce, Science, and Transportation.

A communication from the Secretary of Transportation, transmitting, pursuant to law, the Annual Report on Transportation Security for Calendar Year 1999; to the Committee on Commerce, Science, and Transportation.

REPORTS OF COMMITTEES

The following reports of committees were submitted on July 12, 2001:

By Mr. DURBIN, from the Committee on Appropriations, without amendment:

S. RES. 117: An original bill making appropriations for the Legislative Branch for the fiscal year ending September 30, 2002, and for other purposes (Rept. No. 107–37).

By Mr. BIDEN, from the Committee on Foreign Relations, with an amendment and with an amended preamble:

S. RES. 83: A resolution relating to the transfer of Slobodan Milosevic to the International Criminal Tribunal for Yugoslavia, and for other purposes.

By Mr. BIDEN, from the Committee on Foreign Relations, without amendment and with a preamble:

S. RES. 128: A resolution calling on the Government of the People’s Republic of China to immediately and unconditionally release Li Shaomin and all other American scholars of Chinese ancestry being held in detention, calling on the President of the United States to continue working on behalf of Li Shaomin and the other detained scholars for their release, and for other purposes.

By Mr. BIDEN, from the Committee on Foreign Relations, without amendment:

By Mr. REID, from the Committee on Appropriations, without amendment:

S. 1171: An original bill making appropriations for the Legislative Branch for the fiscal year ending September 30, 2002, and for other purposes.

By Mr. BIDEN, from the Committee on Foreign Relations, without amendment and with an amended preamble:

S. CON. RES. 28: A concurrent resolution calling for a United States effort to end repressive laws in Cyprus.
By Mr. BIDEN, from the Committee on Foreign Relations, with an amendment and an amendment to the title and with an amended preamble:

S. CON. RES. 34: A concurrent resolution congratulating the Baltic nations of Estonia, Latvia, and Lithuania on the tenth anniversary of the reestablishment of their full independence.

By Mr. BIDEN, from the Committee on Foreign Relations, without amendment:

S. CON. RES. 53: Concurrent resolution encouraging the development of strategies to reduce hunger and poverty, and to promote free market economies and democratic institutions, in sub-Saharan Africa.

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committees were submitted:

By Mr. HARKIN for the Committee on Agriculture, Nutrition, and Forestry.

*Nominee: Donald Joseph McConnell.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. CHAFEE (for himself, Mr. DODD, Ms. LEAHY, and Mrs. FINKSTEIN):

S. 1168. A bill to amend the Foreign Assistance Act of 1961 to provide for the establishment of a Clean Water for the Americas Partnership within the United States Agency for International Development; to the Committee on Foreign Relations.

By Mr. FINSTEIN:

S. 1168. A bill to amend the Foreign Assistance Act of 1961 to provide for the establishment of a Clean Water for the Americas Partnership within the United States Agency for International Development; to the Committee on Foreign Relations.
S. 1169. A bill to streamline the regulatory process for home health agencies under the Medicare program under title XVIII of the Social Security Act and the Medicaid program under title XIX of such Act, and for other purposes; to the Committee on Finance.

By Mr. MURkowski:

S. 1170. A bill to make the United States' energy policy toward Iraq consistent with the national security policies of the United States; to the Committee on Finance.

By Mr. REID:

S. 1171. An original bill making appropriations for energy and water development for the fiscal year ending September 30, 2002, and for other purposes; from the Committee on Appropriations; placed on the calendar.

By Mr. DURbin:

S. 1172. An original bill making appropriations for the Legislative Branch for the fiscal year ending September 30, 2002, and for other purposes; from the Committee on Appropriations; placed on the calendar.

By Mr. NAY:

S. 1173. A bill to amend the Internal Revenue Code of 1986 to extend the work opportunity credit to the employment of any adult food stamp recipient; to the Committee on Finance.

By Mr. LEAHY (for himself, Mr. HATCH, and Mr. KENNEDY):

S. 1174. A bill to provide for safe incarceration of juvenile offenders; to the Committee on the Judiciary.

By Mr. LOTT (for himself and Mr. COCHRAN):

S. 1175. A bill to modify the boundary of Vicksburg National Military Park to include the property known as Pemberton's Headquarters, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. VOINOvICH (for himself and Mr. CASSIDY):

S. 1176. A bill to strengthen research conducted by the Environmental Protection Agency, and for other purposes; to the Committee on Environment and Public Works.

By Ms. SNOWE (for herself, Ms. Collins, Ms. JEFFords, and Mr. LEAHY):

S. 1177. A bill to amend title XI of the Social Security Act to clarify that the Secretary of Health and Human Services has the authority to treat certain State payments made in an approved demonstration project as medical assistance under the Medicaid program for purposes of a rebate agreement under section 1927 of the Social Security Act, and for other purposes; to the Committee on Finance.

By Mr. COCHRAN (for himself, Mr. PRest, and Mr. LEAHY):

S. J. Res. 19. A joint resolution providing for the appointment of Anne d'Harnoncourt as a citizen regent of the Board of Regents of the Smithsonian Institution; to the Committee on Rules and Administration.

By Mr. COCHRAN (for himself, Mr. PRest, and Mr. LEAHY):

S. J. Res. 20. A joint resolution providing for the appointment of Roger W. Sant as a citizen regent of the Board of Regents of the Smithsonian Institution; to the Committee on Rules and Administration.

S. Res. 129. A resolution electing Jeri Thomson, temporary of the Senate; considered and agreed to.

By Mr. DASCHLe (for himself and Mr. LOTT):

S. Res. 129. A resolution notifying the House of Representatives of the election of a Secretary of the Senate; considered and agreed to.

By Mr. DASCHLe (for himself and Mr. LOTT):

S. Res. 131. A resolution notifying the President of the United States of the election of a Secretary of the Senate; considered and agreed to.

By Mr. CAMPBELL (for himself, Mr. KoHL, Mr. INHoFFe, Mr. COCHRan, Mrs. LINcOLn, Mr. WALKINg, Mr. ENsON, Mr. DORgan, Mr. DeWIne, Mr. AKARA, Ms. LANDerie, Ms. STABEnwORTh, Mr. DOdd, Mr. SMith of Oregon, Mr. Enzi, Mr. LOTT, Mr. HELMS, Mr. SHEL, Mr. DOMEnici, and Mr. MILLER):

S. Res. 132. A resolution recognizing the social policy of child abuse and neglect, and supporting efforts to enhance public awareness of it; to the Committee on the Judiciary.

By Mr. CORZINE:

S. Res. 138. A resolution expressing the sense of the Senate that information pertaining to Nazi war criminals should be brought to light so that future generations can learn from Holocaust, and for other purposes; to the Committee on Foreign Relations.

ADDITIONAL COSPONSORS

S. 131. At the request of Mr. Johnson, the name of the Senator from Florida (Mr. GRAHAM) was added as a cosponsor of S. 131, a bill to amend title 38, United States Code, to modify the annual determination of the rate of the basic benefit of active duty educational assistance under the Montgomery GI Bill, and for other purposes.

S. 145. At the request of Mr. Thurmond, the names of the Senator from North Carolina (Mr. SESSIONS) and the Senator from Vermont (Mr. JEFFords) were added as cosponsors of S. 145, a bill to amend title 10, United States Code, to increase to parity with other surviving spouses the basic annuity that is provided under the uniformed services Survivor Benefit Plan for surviving spouses who are at least 62 years of age, and for other purposes.

S. 233. At the request of Mr. FeINGold, the name of the Senator from Illinois (Mr. DURbin) was added as a cosponsor of S. 233, a bill to place a moratorium on executions by the Federal Government and urge the States to do the same, while a National Commission on the Death Penalty reviews the fairness of the imposition of the death penalty.

S. 492. At the request of Mrs. BIDEN, his name was added as a cosponsor of S. 492, a bill to provide for a transition to democracy and to promote economic recovery in Zimbabwe.

S. 521. At the request of Mrs. LINcOLn, the names of the Senator from Georgia (Mr. MILLer) was added as a cosponsor of S. 521, a bill to promote recreation on Federal lakes, to require Federal agencies responsible for managing Federal lakes to pursue strategies for enhancing recreational experiences of the public, and for other purposes.

S. 570. At the request of Mr. WELLstone, the names of the Senator from Washington (Ms. CANTWell) and the Senator from Montana (Mr. BAUCUS) were added as cosponsors of S. 543, a bill to provide for equal coverage of mental health benefits with respect to insurance coverage unless comparable limitations are imposed on medical and surgical benefits.

S. 571. At the request of Mr. BIDEN, the name of the Senator from New Mexico (Mr. DOMEnici) was added as a cosponsor of S. 570, a bill to establish a permanent Violence Against Women Office at the Department of Justice.

S. 583. At the request of Mr. THurmonD, the name of the Senator from Alabama (Mr. SessIONS) was added as a cosponsor of S. 571, a bill to provide for the location of the National Museum of the United States Army.

S. 624. At the request of Mr. GriegG, the name of the Senator from Kentucky (Mr. McCONNell) was added as a cosponsor of S. 624, a bill to amend the Fair Labor standards Act of 1938 to provide to private sector employees the same opportunities for time-and-a-half compensatory time off and biweekly work programs as Federal employees currently enjoy to help balance the demands and needs of work and family, to clarify the provisions relating to exemptions of certain professionals from minimum wage and overtime requirements of the Fair Labor Standards Act of 1938, and for other purposes.

S. 654. At the request of Mr. Torricelli, the name of the Senator from Michigan (Mr. Levin) was added as a cosponsor of S. 654, a bill to amend the Internal...
Revenue Code of 1986 to restore, increase, and make permanent the exclusion from gross income for amounts received under qualified group legal services plans.

S. 656

At the request of Mr. REED, the name of the Senator from Maryland (Ms. MIKULSKI) was added as a cosponsor of S. 656, a bill to provide for the adjustment of status of certain nationals of Liberia to that of lawful permanent residence.

S. 672

At the request of Mrs. FEINSTEIN, the name of the Senator from Ohio (Mr. DEWINE) was added as a cosponsor of S. 672, a bill to amend the Immigration and Nationality Act to provide for the continued classification of certain aliens as children for purposes of that Act in cases where the aliens "age-out" while awaiting immigration processing, and for other purposes.

S. 839

At the request of Ms. HUTCHISON, the names of the Senator from South Carolina (Mr. HOLLINGS), the Senator from New Jersey (Mr. CORZINE), and the Senator from Nevada (Mr. REID) were added as cosponsors of S. 839, a bill to amend title XVIII of the Social Security Act to increase the amount of payment for inpatient hospital services under the medicare program and to freeze the reduction in payments to hospitals for indirect costs of medical education.

S. 910

At the request of Mr. ROCKEFELLER, the name of the Senator from Maryland (Mr. SARBANES) was added as a cosponsor of S. 910, a bill to provide certain safeguards with respect to the domestic steel industry.

S. 932

At the request of Mr. HARKIN, the name of the Senator from New Jersey (Mr. TORRICELLI) was added as a cosponsor of S. 932, a bill to amend the Food Security Act of 1985 to establish the conservation security program.

S. 942

At the request of Mr. GRAHAM, the name of the Senator from North Carolina (Mr. EDWARDS) was added as a cosponsor of S. 942, a bill to authorize the supplemental grant for population increases in certain states under the temporary assistance to needy families program for fiscal year 2002.

S. 992

At the request of Mr. NICKLES, the name of the Senator from Maine (Ms. SOWE) was added as a cosponsor of S. 992, a bill to amend the Internal Revenue Code of 1986 to repeal the provision taxing policy holder dividends of mutual life insurance companies and to repeal the policyholders surplus account provisions.

S. 1021

At the request of Mr. BIDEN, the name of the Senator from Connecticut (Mr. DODD) was added as a cosponsor of S. 1021, a bill to reauthorize the Tropical Forest Conservation Act of 1996 through fiscal year 2004.

S. 1042

At the request of Mr. INOUYE, the name of the Senator from Maryland (Mr. SARBANES) was added as a cosponsor of S. 1042, a bill to amend title 38, United States Code, to improve benefits for Filipino veterans of World War II, and for other purposes.

S. 1075

At the request of Mr. GRASSLEY, the name of the Senator from Nebraska (Mr. HAGEL) was added as a cosponsor of S. 1075, a bill to extend and modify the Drug-Free Communities Support Program, to authorize a National Community Antidrug Coalition Institute, and for other purposes.

S. 1087

At the request of Mr. CONRAD, the name of the Senator from Nevada (Mr. REID) was added as a cosponsor of S. 1087, a bill to amend the Internal Revenue Code of 1986 to provide a shorter recovery period of the depreciation of certain leasehold improvements.

S. 1098

At the request of Mr. ROCKEFELLER, the name of the Senator from Florida (Mr. GRAHAM) was added as a cosponsor of S. 1098, a bill to amend title 38, United States Code, to facilitate the use of educational assistance under the Montgomery GI Bill for education leading to employment in high technology industry, and for other purposes.

S. 1099

At the request of Mr. ROCKEFELLER, the name of the Senator from Florida (Mr. GRAHAM) was added as a cosponsor of S. 1099, a bill to increase, effective as of December 1, 2001, the rates of compensation for veterans with service-connected disabilities and the rates dependency and indemnity compensation for the survivors of certain disabled veterans.

S. 1101

At the request of Mr. ROCKEFELLER, the name of the Senator from Florida (Mr. GRAHAM) was added as a cosponsor of S. 1101, a bill to amend section 1116 of title 38, United States Code, to modify and extend authorities on the presumption of service-connection for herbicide-related disabilities of Vietnam era veterans, and for other purposes.

S. 1109

At the request of Mr. ROCKEFELLER, the name of the Senator from Florida (Mr. GRAHAM) was added as a cosponsor of S. 1109, a bill to amend title 38, United States Code, to exclude certain income from annual income determinations for pension purposes, to limit provision of benefits for fugitive and incarcerated veterans, to increase the home loan guaranty amount for construction and purchase of homes, to modify and enhance other authorities relating to veterans' benefits, and for other purposes.

S. 1115

At the request of Mr. KENNEDY, the name of the Senator from New Mexico (Mr. RINGAMAN) and the Senator from Washington (Ms. MURRAY) were added as cosponsors of S. 1115, a bill to amend the Public Health Service Act with respect to making progress toward the elimination of tuberculosis, and for other purposes.

S. 1135

At the request of Mr. GRAHAM, the name of the Senator from Florida (Mr. NELSON) was added as a cosponsor of S. 1135, a bill to amend title XVIII of the Social Security Act to provide comprehensive reform of the medicare program, including the provision of coverage of outpatient prescription drugs under such program.

S. 1167

At the request of Mrs. FEINSTEIN, the name of the Senator from Ohio (Mr. DEWINE) was added as a cosponsor of S. 1167, a bill to amend the Immigration and Nationality Act to permit the substitution of an alternative close family member in the case of the death of the person petitioning for an alien's admission to the United States.

S. RES. 121

At the request of Mr. KERRY, the names of the Senator from Connecticut (Mr. LIEBERMAN), the Senator from Rhode Island (Mr. REED), the Senator from Hawaii (Mr. AKAKA), and the Senator from Maine (Ms. COLLINS) were added as cosponsors of S. Res. 121, a resolution expressing the sense of the Senate regarding the policy of the United States at the 53rd Annual Meeting of the International Whaling Commission.

S. RES. 128

At the request of Mr. TORRICELLI, the name of the Senator from North Carolina (Mr. HELMS) was added as a cosponsor of S. Res. 128, a resolution calling on the Government of the People's Republic of China to immediately and unconditionally release Li Shaomin and all other American scholars of Chinese ancestry being held in detention, calling on the President of the United States to continue working on behalf of Li Shaomin and the other detained scholars for their release, and for other purposes.

S. CON. RES. 1

At the request of Mr. FEINGOLD, the name of the Senator from New York (Mr. SCHUMER) was added as a cosponsor of S. Con. Res. 3, a concurrent resolution expressing the sense of Congress that a commemorative postage stamp should be issued in honor of the U.S.S. Wisconsin and all those who served aboard her.

S. CON. RES. 28

At the request of Mr. BIDEN, the name of the Senator from Connecticut (Mr. DODD) was added as a cosponsor of S. Res. 128, supra.
(Mr. DODD) was added as a cosponsor of S. Con. Res. 28, a concurrent resolution calling for a United States effort to end restrictions on the freedoms and human rights of the enclaved people in the occupied area of Cyprus.

S. CON. RES. 53

At the request of Mr. HAGEL, the name of the Senator from California (Mrs. FEINSTEIN) was added as a co-sponsor of S. Con. Res. 53, concurrent resolution encouraging the development of strategies to reduce hunger and poverty, and to promote free market economies and democratic institutions, in sub-Saharan Africa.

AMENDMENT NO. 907

At the request of Mr. HAGEL, the name of the Senator from Ohio (Mr. VOINOVICH), the Senator from South Dakota (Mr. DASCHLE), the Senator from Arkansas (Mrs. LINCOLN), the Senator from South Carolina (Mr. HOLINGS), and the Senator from South Dakota (Mr. JOHNSON) were added as co-sponsors of amendment No. 907 intended to be proposed to H.R. 2217, a bill making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 2002, and for other purposes.

AMENDMENT NO. 921

At the request of Ms. LANDRIEU, the name of the Senator from Maine (Ms. COLLINS) was added as a cosponsor of amendment No. 921 intended to be proposed to H.R. 2217, a bill making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 2002, and for other purposes.

AMENDMENT NO. 922

At the request of Ms. COLLINS, the name of the Senator from Maine (Ms. SNOWE) was added as a cosponsor of amendment No. 922 intended to be proposed to H.R. 2217, a bill making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 2002, and for other purposes.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. FEINGOLD (for himself, Mr. MURKOWSKI, Ms. COLLINS, and Mr. KERRY):

S. 1169. A bill to streamline the regulatory processes applicable to home health agencies under the Medicare program under title XVIII of the Social Security Act and the Medicaid program under title XIX of such Act, and for other purposes; to the Committee on Finance.

Mr. FEINGOLD. Mr. President, I rise today to introduce the Home Health Nurse and Patient Act of 2001. This legislation redirects administrative burdens, requires a focused analysis of crucial claims processing concerns, and provides the opportunity for constructive reforms of current inefficiencies.

I am especially pleased to be joined by a number of my colleagues, including Senator MURKOWSKI and Senator KERRY, who have been leaders in the regulatory reform movement, and Senator COLLINS, who has truly been a champion for preserving access to home health care.

Without Senator COLLINS' leadership on this issue, including the 1999 hearing that she held on the issue of regulatory burdens facing the home health care industry, this legislation would not be where it is today.

Senator COLLINS' legislation to repeal the 15 percent reduction in payments to home health care providers is also of the utmost importance, and is the other piece to the puzzle in terms of preserving access to home health care. It is my hope that the Senate Finance Committee will report out her legislation this year.

Scope of the problem: As many of my colleagues know, home health care provides compassionate, at-home care to seniors and people with disabilities in cities and towns throughout America.

Without it, many patients have no choice but to go to a nursing home, or even an emergency room, to get the care they need. For too many home health patients in my home state of Wisconsin, that day has arrived.

Over the past few years, home health agencies around Wisconsin have closed their doors due to massive changes in Medicare, and seniors and the disabled have been forced to go elsewhere for care.

In Wisconsin, over 40 Medicare home health providers have shut down since the implementation of the Interim Payment System. Still more have shrunken their service areas, stopped accepting Medicare patients, or refused assignment for high cost patients because the payments are simply too low.

Over the past 3 years, nearly 30 of Wisconsin's 72 counties have lost between one and fifteen home health care agencies.

Quite frankly, in many parts of Wisconsin, beneficiaries in certain areas or with certain diagnoses simply don't have access to home health care.

While we have thankfully moved beyond the interim payment system, many home health agencies are facing another cloud in the horizon—an impending nursing shortage and a regulatory system that causes nurses to fill out paperwork instead of caring for patients.

Burdensome and excessive paperwork often causes nurses to leave the home health care profession, and that can mean that patients stay in the hospital longer than necessary.

A 2000 national survey by the Hospital and Healthcare Compensation Service reported a 21-percent turnover rate for home health registered nurses, a 24-percent turnover rate for home health licensed practicing nurses, and a 28-percent turnover for home health aides.

The actual amount of time that a nurse provides medical care during an average "start of care" home health visit is approximately 45 minutes, only 30 percent of the average 2.5 hours of a nurse's time during the admission visit.

According to Dr. Peter Warehouse Cooper, every hour of patient care time requires 48 minutes of paperwork time for hospital-owned home health agencies.

I would like to share with my colleagues this advertisement from Nursing Spectrum magazine.

Let me read this line here in bold print: "No OASIS."

As you can see the main selling point in the advertisement is the fact that the job will not force nurses to collect OASIS data. This is just one simple example of the administrative burden we have imposed on our nurses.

Our legislation takes a common sense approach to developing Medicare home health regulatory policies that are pro-consumer, provider-friendly, and efficient for the Center for Medicare and Medicaid Services, CMS, to administer.

It would also help to ensure that the policies are successful, fair and effective because all parties would collaborate on recommendations to the Secretary of Health and Human Services, HHS, through joint task forces.

This legislation would significantly alleviate the burdens that the Outcomes Assessment and Information Set (OASIS), the claims process for patients who are enrolled in both Medicare and Medicaid, and certain audit and medical review processes have had on home health providers.

More importantly, the changes to the OASIS and the claims review process also would reduce the stress often experienced by home health patients due to the complexity of both regulations.

It would also create a task force to analyze the appropriateness and efficacy of the OASIS patient assessment instrument on Medicare, Medicaid and non-government financed patients.

During the study, the OASIS process would be optional for the non-Medicare and non-Medicaid patients and inapplicable to those patients receiving personal care services only.

Many beneficiaries are also concerned about arbitrary coverage decisions, that leaves beneficiaries in the lurch. That is why this legislation requires the Secretary to form a task force to develop criteria for the handling of Medicare claims related to individuals also eligible for Medicaid coverage where the claim may not be covered under Medicare.

Finally, the Home Health Nurse and Patient Act would create a task force that would engage in a wholesale evaluation of the process used by Medicare to select and review home health services' claims.
By Mr. MURKOWSKI:

S. 1170. A bill to make the United States’ energy policy toward Iraq consistent with the national security policies of the United States; to the Committee on Finance.

Mr. MURKOWSKI. Mr. President, I take the opportunity at this time to introduce S. 1170. It is my intention to introduce the following bill to make the United States energy policy towards Iraq consistent with the national security policies of the United States. I anticipate that several colleagues will be cosponsoring the bill with me. I will enter into that at a later time.

Mr. MURKOWSKI. Mr. President, for some time I have been coming to the floor to speak of a major inconsistency in our foreign and energy policies. I am referring, of course, to our growing dependence on imported petroleum from Iraq.

We import somewhere between 500,000 to 750,000 barrels of oil from Iraq every day. About six billion dollars worth last year. Since the end of the Gulf war, we have also flown some 250,000 sorties to prevent Saddam Hussein from threatening our allies in the region. We spend billions every year to keep him in check.

We fill up our planes with Iraqi oil, send our pilots to fly over and get shot at by Iraqi artillery, and return to fill up on Iraqi oil again.

Saddam heats our homes in winter, gets our kids to school each day, gets our food from farm to dinner table, and we pay him well to do that.

What does he do with the money he gets from oil?

He pays his Republican Guards to keep him safe.

He supports international terrorist activities; he funds his military campaign against American servicemen and women and those of our allies; and he builds an arsenal of weapons of mass destruction to threaten Israel and our allies in the Persian Gulf.

Am I missing something? Is this good policy? For a number of years the United States has worked closely with the United Nations on the “Oil-for-Food” Program.

This program allows Iraq to export petroleum in exchange for funds which can be used for food, medicine and other humanitarian products.

Despite more than $15 billion available for those purposes, Iraq has spent only a fraction of that amount on its people’s needs.

Instead, the Iraqi government spends that money on items of questionable, and often highly suspicious purposes. Why, when billions are available to care for the Iraqi people, who are malnourished, sick, and have inadequate medical care, would Saddam Hussein withhold the money available, and choose instead to blame the United States for the plight of his people?

Why is Iraq reducing the amount it spends on nutrition and pre-natal care, when millions of dollars are available? Why does $200 million of medicine from the UN sit undistributed in Iraqi warehouses?

Why, given the urgent humanitarian conditions in Iraq, does Saddam Hussein insist that the country’s highest priority is the development of sophisticated telecommunications and transportation infrastructure?

Why, if there are billions available, and his people are starving, is Iraq only buying $8 million of food from American farmers each year?

I have no quarrel with the Oil-for-Food program. It is a well-intentioned effort.

I do, however, have a problem with the means in which Saddam Hussein has manipulated our growing dependence on Iraqi oil.

Three times this year since the beginning of the Oil-for-Food program, Saddam Hussein has threatened or actually halted oil production, disrupting energy markets and sending oil prices skyrocketing.

Why do this? Simply to send a message to the United States: “I have leverage over you.”

Every time he has done this, he has had his way. We have proven ourselves addicted to Iraqi oil. Saddam has been proven right: he does have leverage over us.

We have placed our energy security in the hands of a madman.

The Administration has attempted vauntingly to reconstruct a sensible multilateral policy toward Iraq. Those attempts have unfortunately not been successful.

I think that before we can construct a sensible US policy toward Iraq, we need to end the blatant inconsistency between our energy policy and our foreign policy.

We need to end our addiction to Iraqi oil. We need to go “cold turkey.”

To that end I have introduced legislation today which would prohibit imports from Iraq, whether or not under the Oil for Food Program, until it is no longer inconsistent with our national security to recognize progress toward genuine democracy.

I hope that this will be an initial step towards a more rational and coherent policy toward Iraq.

By Mr. LEAHY (for himself, Mr. HATCH, and Mr. KENNEDY):

S. 1174. A bill to provide for safe incarceration of juvenile offenders; to the Committee on the Judiciary.

Mr. LEAHY. Mr. President, I rise today to introduce with Senator HATCH legislation that addresses the problems caused by housing juveniles who are prosecuted in the criminal justice system in adult correctional facilities. In addition, this legislation reauthorizes the Juvenile Justice and Delinquency Prevention Act, to maintain the core protections afforded to juveniles who are adjudicated delinquent and detained in the juvenile court system.

This two-pronged approach will help ensure that we treat offenders with appropriate severity, but also in a way that assists States in providing safe conditions for their confinement and appropriate access to educational, vocational, and health programs that address the needs of juveniles. Improving conditions for juveniles today will improve the public safety in the future, as juveniles who are not exposed to adult inmates have a lower likelihood of committing future crimes.

The Justice Department reported last fall that of the 50 States and the District of Columbia, 44 house juveniles in adult jails and prisons, and 26 of those do not maintain designated youthful offender housing units. As a nation, we are relying increasingly on adult facilities to house juveniles; for example, according to the Bureau of Justice Statistics’ survey of jails, there was a 35-percent increase in the number of juveniles held in adult jails between 1994 and 1997. I believe that there is a will in the States to improve conditions for these juveniles, but resources are often lacking. The Federal Government can play a useful role by providing funding to States that want to take account of the differences between juveniles and adults.

Although many juvenile offenders serving time in adult prisons have committed extraordinarily serious offenses, others are there because of relatively minor crimes and will be released at a young age. According to the 1999 report of the Office of Juvenile Justice and Delinquency Prevention, 22 percent of juveniles committed to State prisons were there because they had committed property crimes, 11 percent because they committed drug-related crimes, and only 25 percent because they had committed murder, kidnapping, sexual assault or assault. Certainly, many of those juveniles can be convinced not to commit further
crimes. The social and moral cost of not making that attempt is simply incalculable.

There is stunning statistical evidence that something is deeply wrong with our current approach to incarcerating juveniles. According to the Justice Department, the suicide rate for juveniles held in state adult jails is five times the rate in the general youth population and eight times the rate for adolescents in juvenile detention facilities. Juveniles in adult facilities are also more likely to be violently victimized. Sexual assault was five times more likely than in juvenile facilities, beatings by staff nearly twice as likely, and attacks with weapons almost 50 percent more common.

Moreover, many scholars have questioned whether housing juvenile offenders and adult inmates together is a long-term interest in public safety. Multiple studies have shown that youth transferred to the adult system recidivate at higher rates and with more serious offenses than youth who have committed similar offenses but are retained in the juvenile justice system. Some would suggest that we should not be transferring youth to the adult system at all, and I am sympathetic to that view. But that is a decision our States must make, and for now most of our States have taken the contrary position. At the very least, then, we must ensure that juveniles are treated humanely in the criminal justice system to reduce the risks that upon release they will commit additional and more serious crimes. One of the ways we can do that is by helping States improve confinement conditions.

The problem this bill is intended to address cannot be described simply through statistics or academic studies. The compelling stories of young people who have been part of the corrections system should command our attention. For example, United Press International and numerous newspapers have reported the story of 15-year-old Robert, who was held in a Kentucky adult jail for the minor infraction of truancy and petty theft. One night during his time there, Robert wrapped one end of his shirt around his neck and hanged himself. The county has now agreed not to house juveniles and adults together.

The New York Times magazine last year told the story of Jessica, who at 14 was the youngest female in the Florida correctional system and, within her first few weeks in prison, tried to commit suicide. Jessica was then transferred to a rougher Miami prison where she does not receive psychological counseling or mental health care to get her GED. Jessica has found an extensive surrogate prison family whom she turns to for advice. The woman she refers to as “Mommy” is serving a life sentence for murder. Jessica will be released at age 22 with no education beyond the sixth grade, no job skills, and no life experience in the free world after age 13. Now some will point out that Jessica committed a serious criminal offense and two older teenagers robbed her grandparents and she deserves harsh punishment. And I agree that we must deal severely with such crimes. But the fact remains that when Jessica is released from prison she will be 22, with an entire adult life ahead of her. I believe it is critical for the public safety for her and others like her to have options besides a life of crime.

The Miami Herald reported the stories of Joseph Tejera and Rebekah Homerston. Tejera was sentenced as an adult for a burglary offense, and was placed in an adult prison instead of an intensive juvenile program where he would have received 24-hour supervision, had access to educational and other programs, and been surrounded by other juveniles. Instead, at the age of 13, he was placed in a cell besides an adult inmate who constantly tried to beat him up. Despite a sterling disciplinary record, he was involved in five fights because of the aggressiveness of adult inmates. Homerston was the daughter of a father serving life in prison for sex crimes against minors and a mother arrested for theft and drunk driving. At the age of 13, she ran away from home, and lived on the streets of Fort Lauderdale. At 15, she too was prosecuted and sentenced to a two-year term as an adult after vandalizing the city’s recreation center. Upon her release from that prison term, she was arrested at age 16 for shoplifting a shirt, and is now serving three and a half years in an adult facility for that offense. While in prison, she has witnessed numerous suicide attempts.

Housing juveniles with adult inmates creates problems not just for the juveniles involved. Such policies also create difficulties for corrections administrators, whose prisons and jails often lack the physical structure, programs, and trained personnel to manage a mixed juvenile-adult population. John Gorski, the head of the Department of Corrections in my State of Vermont, has advised that corrections officials from around the nation dislike having juveniles in their facilities. These officials often become responsible for delivering those services to which juveniles are entitled, including special education services. As one report on Youth in the Criminal Justice System recently recommended: “Administrative staff and people in policy making positions dealing with youth in the adult system should have education, training, and experience regarding the distinctive characteristics of children and adolescents.” This bill would provide for such education and training to make the jobs of corrections officials around the nation easier. In addition, the presence of juveniles among adult inmates can fuel a prison mentality in young, highly impressionable offenders like Jessica.

Our prisons and jails are too often becoming schools for young lawbreakers.

I would like to explain how this bill addresses confinement conditions for juveniles.

Title I: The first title of this bill creates a new incentive grant program for State and local governments and Indian tribes. These grants can be used for the following purposes related to juveniles under the jurisdiction of an adult criminal court: (a) alter existing correctional facilities, or develop separate facilities, to provide segregated facilities, and retraining, medical, and mental health assessment and treatment, and drug treatment. Grants can also be used to seek alternatives to housing juveniles with adult inmates, including the expansion of juvenile facilities.

It is important to note that States that choose not to house juveniles who are convicted as adults with adult inmates are still eligible for grants under this bill. For example, they could use the money to train staff, or to provide educational or other programs for juveniles, or to improve juvenile facilities.

Applicants for these grants must provide a detailed plan explaining how they will improve conditions for juveniles in their adult correctional system. To be clear: the purpose of this grant program is not to fuel a prison-building boom, or to make it easier for States to prosecute juveniles as adults, but to improve conditions for juveniles.

States will need to take this purpose into account in making their grant proposals. Moreover, to be eligible for a grant, States must have developed guidelines on the appropriate use of force against incarcerated juveniles, and must also have prohibited the use of electroshock devices, chemical restraints, and point restraints. The use of such punishment is inconsistent with our commitments to treating juveniles humanely, and is at variance with the very purpose of this grant program. Every State that can meet the requirements of the grant program will receive funding under this title, and rural representation is guaranteed.

Title II: The second title of the bill authorizes States to use their Violent Offender Incarceration/Transfer in Sentencing (VOLITIS) grant money to improve the treatment of juveniles under the jurisdiction of the adult criminal justice system. It also offers States an
incentive to use a substantial percentage of their VOITIS money for that purpose. States that use 10 percent of their VOITIS money for substance abuse education for people under the jurisdiction of an adult criminal court, or to provide training and supervision of correctional officials and reporting on juvenile conditions will receive a bonus of 5 percent above the amount to which they are otherwise entitled under that program. The money can be used to alter existing facilities to provide separate space for juveniles under the jurisdiction of an adult criminal court, or to provide training and supervision of correctional officials and reporting on juvenile conditions. This title, in conjunction with Title I, allows us to make improving conditions for juveniles a national priority by working through the States. No State will be forced to use their money for this purpose or see their funding reduced if they choose not to. But those States that do make some effort in this regard will be rewarded.

Title III: The third title of this bill reauthorizes the Juvenile Justice and Delinquency Prevention Act. Under the JJDPA, States receiving federal funds must ensure that adequate protections are maintained juveniles. These protections include “sight” and “sound” separation between those in the juvenile detention system and adult offenders. Children cannot be put in adjoining cells with adults, or placed in circumstances that allow them to be subject to threats and verbal abuse from adults in dining halls, recreation areas, and other common spaces. In addition to establishing sight and sound separation, the JJDPA provides three additional core protections: (1) removal of juveniles from adult jails or lockups, with a 24-hour exception for rural areas and other exceptions for travel and weather-related conditions; (2) deinstitutionalization of status offenders; and (3) efforts toward reducing the proportion of detention of minority youth in the juvenile justice system.

I am very pleased that Senator HATCH has agreed with me that we need a straightforward reauthorization of the JJDPA. He and I both worked very hard in the last Congress to reauthorize that law, and our efforts were sidetracked by numerous factors.

Title IV: Finally, the fourth title of this bill contains a number of provisions that I would like to highlight today. First, it authorizes funding for rural States and economically distressed communities that lack the resources to provide secure custody for juvenile offenders. Second, this title calls for a study on the effect of sentencing juvenile drug offenders as adults. Many have raised concerns about the toll taken on some of our communities, especially those in poorer areas, by lengthy drug sentences. There is the position that the proliferation of illegal drugs over the last 20 years has presented a social crisis with particularly serious effects on poor and urban communities. But we need to take a systematic look at whether our approach to that crisis has been effective and fair, and the study in this bill should aid in getting us there. Third, this bill instructs the General Accounting Office to prepare a report on the prevalence and effects of the use of electroshock weapons, 4-point restraints, chemical restraints, restraint chairs, and solitary confinement against juvenile offenders in both the Federal and State corrections systems. I am deeply concerned about the disciplinary methods being used against juvenile offenders in the U.S. and I believe it is important for Congress to receive an accounting of the problem so we can consider whether further legislation in this area is appropriate. Fourth, this title reauthorizes the Family Unity Demonstration Project, which provides funding for projects allowingigneous who are parents to live in structured, community-based centers with their young children. A study by the Bureau of Justice Statistics found that about two-thirds of incarcerated women were parents of children under 18 years old. According to the White House, on any given day, America is home to 1.5 million children of prisoners. And according to Prison Fellowship Industries, more than half of the juveniles in custody in the United States had an immediate family member behind bars. This is a serious problem, and reauthorizing the Family Unity Demonstration Project will help us address it.

I would like to thank numerous people who have worked with me and my staff on this proposal: Ken Schatz of the Vermont Children and Family Council, Marc Schindler and Mark Soler of the Youth Law Center, David Doi of the Coalition for Juvenile Justice, Bill Warda from the Children’s Defense Fund, and John Gorski and John Perry at the Vermont Department of Corrections. Without their help, I would not be able to introduce this bill today.

In conclusion, let me say that Congress must act to ensure that minimum standards are created in as many States as possible to ameliorate the problems resulting from sentencing juveniles as adults. I think this bipartisan bill accomplishes that goal, and I urge the Senate to support it, to allow science to play a more significant role in decision-making in the EPA.

By Mr. VOINOVICH (for himself and Mr. CARPER):

S. 1176. A bill to strengthen research conducted by the Environmental Protection Agency, and for other purposes; to the Committee on Environment and Public Works.

Mr. VOINOVICH. Mr. President, I rise today to introduce legislation with my friend and colleague, Senator CARPER, which will strengthen the use of science at the Environmental Protection Agency. By improving science at the Agency, we will be improving the framework of our regulatory decisions. However, the current conditions be effective, not onerous and inefficient. To make government regulations effective, they must be based on a solid foundation of scientific understanding and data.

Last year, the National Research Council released a report, “Strengthening Science at the U.S. Environmental Protection Agency: Research Management and Peer Review Practices” which outlined current practices at the EPA and made recommendations for improving science within the agency. The bill we are introducing today, the “Environmental Research Enhancement Act,” builds on the NRC report.

When the Environmental Protection Agency was created in 1970 by President Nixon, its mission was set to protect human health and safeguard the environment. In the 1960s, it had become increasingly clear that “we need to know more about the total environment—land, water, and air.” The EPA was part of President Nixon’s re-organizational efforts to effectively ensure the protection, development, and enhancement of the total environment. For the EPA to reach this mission, establishing rules and priorities for clean land, air and water require a fundamental understanding of the science behind the real and potential threats to public health and the environment.

Unfortunately, many institutions, citizens, and groups believe that science has not always played a significant role in the decision-making process at the EPA.

In NRC’s report last year, it was concluded that while there has been fundamental understanding of the science behind the total environment—land, water, and air.” The EPA was part of President Nixon’s re-organizational efforts to effectively ensure the protection, development, and enhancement of the total environment. For the EPA to reach this mission, establishing rules and priorities for clean land, air and water require a fundamental understanding of the science behind the real and potential threats to public health and the environment.

Unfortunately, many institutions, citizens, and groups believe that science has not always played a significant role in the decision-making process at the EPA.

Under our bill, a new position, Deputy Administrator for Science and Technology will be established at the EPA. This individual will oversee the Office of Research and Development; the Environmental Information Agency; the Science Advisory Board; the Science Policy Council; and the scientific and technical activities in the regulatory program at the EPA. This new position is equal in rank to the current Deputy Administrator and would report directly to the Administrator. The new position will be responsible for coordinating scientific research and application between the scientific and regulatory arms of the Agency. This will ensure that sound
CONGRESSIONAL RECORD—SENATE

July 12, 2001

13187

science is the basis for regulatory decisions. The new Deputy’s focus on science could also change how environment decisions are made.

Additionally, the Assistant Administrator for Research and Development, currently the top science job at the EPA, will be appointed for 6 years versus the current 4 years political appointment. Historically, this position is recognized to be one of the EPA’s weakest and most transient administrative positions according to SRC’s report, even though in my view, the position addresses some of the Agency’s more important topics. By lengthening the term of this Assistant Administrator position and removing it from the realm of politics, I believe there will be more continuity in the scientific work of the Agency across administrations and allow the Assistant Administrator to focus on science conducted at the Agency.

In 1997, we learned the problems that can arise when sound science is not used in making regulatory decisions. Following EPA’s ozone and particulate matter regulations there was great uncertainty on the scientific side. When initially releasing the Ozone/PM regulations, the EPA greatly over estimated the impacts for both ozone and PM, and they had to publicly change their figures later on. Additionally, they selectively applied some study results while ignoring others in their calculations. For example, the majority of the health benefits for ozone are based on one PM study by a Dr. Moogarkar, even though the Agency ignored the PM results of that study because it contradicted their position on PM.

The legislation that Senator CARPER and I are introducing will ensure that science no longer takes a “back seat” at the Environmental Protection Agency in terms of policy making. I call on my colleagues to join us in cosponsoring this bill, and I urge speedy consideration of this bill. I ask unanimous consent that the text of the bill be printed in the Record.

There being no objection, the bill was ordered to be printed in the Record, as follows:

S. 176

Be it enacted by the Senate and House of Representa- tives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Environmental Research Enhancement Act of 2001”.

SEC. 2. ENVIRONMENTAL PROTECTION AGENCY RESEARCH ACTIVITIES.

(a) In GENERAL.—Section 6 of the Environ- mental Research, Development, and Demo- stration Authorization Act of 1978 (42 U.S.C. 4365) is amended by adding at the end the following:

“(c) DEPUTY ADMINISTRATOR FOR SCIENCE AND TECHNOLOGY.—There is established in the Environmental Protection Agency (referred to in this section as the ‘Agency’) the position of Deputy Administrator for Science and Technology:

“(1) APPOINTMENT.—

“(A) IN GENERAL.—The Deputy Adminis- trator for Science and Technology shall be appointed by the President, or by and with the advice and consent of the Senate.

“(B) CONSIDERATION OF RECOMMENDA- TIONS.—In making an appointment under subparagraph (A), the President shall consider recommendations submitted by—

“(i) the National Academy of Sciences;

“(ii) the National Academy of Engineering; and

“(2) RESPONSIBILITIES.—The Deputy Administrator for Science and Technology shall—

“(A) OVERSIGHT.—The Deputy Adminis- trator for Science and Technology shall co- ordinate and oversee—

“(i) the Office of Research and Develop- ment of the Agency (referred to in this sec- tion as the ‘Office’):

“(x) the Office of Environmental Informa- tion of the Agency;

“(y) the Science Advisory Board;

“(z) the Office of Research and Develop- ment of the Agency; and

“(ii) scientific and technical activities in the regulatory program and regional offices of the Agency.

“(B) OTHER RESPONSIBILITIES.—The Deputy Administrator for Science and Technology shall—

“(i) ensure that the most important sci- entific issues facing the Agency are identi- fied and defined, including those issues em- bedded in major policy or regulatory pro- posals;

“(ii) develop and oversee an Agency-wide strategy to acquire and disseminate neces- sary scientific information through intra- mural efforts or through extramural pro- grams involving academia, other govern- ment agencies, and the private sector in the United States and in foreign countries;

“(iii) ensure that the complex scientific outreach and communication needs of the Agency are met, including the needs—

“(A) to reach throughout the Agency for credible science in support of regulatory of- fice, regional office, and Agency-wide policy deliberations; and

“(B) to reach out to the broader United States and international scientific commu- nity for scientific knowledge that is relevant to Agency policy or regulatory issues;

“(iv) coordinate and oversee scientific quality-assurance and peer-review activities throughout the Agency, including activities in support of the regulatory and regional of- fices;

“(v) develop processes to ensure that appro- priate scientific information is used in decisionmaking at all levels in the Agency; and

“(vi) ensure, and certify to the Adminis- trator of the Agency, that the scientific and technical information used in each Agency regulatory decision and policy is—

“(A) valid;

“(B) appropriately characterized in terms of scientific uncertainty and cross-media issues; and

“(C) appropriately applied.

“(C) Assistant Administrator for Research and Development.—

“(i) TERM OF APPOINTMENT.—Notwith- standing any other provision of law, the Assistant Administrator for Research and De- velopment of the Agency shall be appointed for a term of 6 years.

“(ii) APPOINTMENT.—There is established in the Environmental Protection Agency (referred to in this section as the ‘Agency’) the position of Deputy Administrator for Science and Technology:

“(B) OTHER RESPONSIBILITIES.—The Deputy Administrator for Science and Technology shall—

“(i) ensure that the most important sci- entific issues facing the Agency are identi- fied and defined, including those issues em- bedded in major policy or regulatory pro- posals;

“(ii) develop and oversee an Agency-wide strategy to acquire and disseminate neces- sary scientific information through intra- mural efforts or through extramural pro- grams involving academia, other govern-ment agencies, and the private sector in the United States and in foreign countries;

“(iii) ensure that the complex scientific outreach and communication needs of the Agency are met, including the needs—

“(A) to reach throughout the Agency for credible science in support of regulatory of- fice, regional office, and Agency-wide policy deliberations; and

“(B) to reach out to the broader United States and international scientific commu- nity for scientific knowledge that is relevant to Agency policy or regulatory issues;

“(iv) coordinate and oversee scientific quality-assurance and peer-review activities throughout the Agency, including activities in support of the regulatory and regional of- fices;

“(v) develop processes to ensure that appro- priate scientific information is used in decisionmaking at all levels in the Agency; and

“(vi) ensure, and certify to the Adminis- trator of the Agency, that the scientific and technical information used in each Agency regulatory decision and policy is—

“(A) valid;

“(B) appropriately characterized in terms of scientific uncertainty and cross-media issues; and

“(C) appropriately applied.

“(C) Assistant Administrator for Research and Development.—

“(i) TERM OF APPOINTMENT.—Notwith- standing any other provision of law, the Assistant Administrator for Research and De- velopment of the Agency shall be appointed for a term of 6 years.

“(ii) APPOINTMENT.—There is established in the Environmental Protection Agency (referred to in this section as the ‘Agency’) the
Ms. SNOWE. Mr. President, I rise today to introduce a bill along with Senator COLLINS, JEFFORDS, and LEAHY to provide the states of Maine and Vermont continued authority to expand access to discounted prescription drugs under Medicaid.

Maine has instituted an innovative demonstration program called the “Healthy Maine Prescriptions” program that is leading the way in providing affordable prescription drugs for qualifying Maine residents. This was made possible with national program drug insurance benefits are enrolled in those programs.

The sad truth is, many low-income individuals cannot afford to purchase the drugs prescribed by their doctors. The result is that these individuals either split the doses to make them last longer—in violation of doctors’ orders; they cut back on other necessities like food or clothing; or they simply decide not to fill the prescription at all—surely a prescription for disaster.

Not only does the inability to pay for medications have an adverse and potentially dangerous effect on individuals, it is also a detriment to the health care system in general when you consider the number and expense of ailments that could have been prevented with the proper prescription drug.

The reason why we are introducing this legislation is that, unfortunately, last month, a three-judge panel of the U.S. Court of Appeals for the District of Columbia ruled against the Vermont program, finding that Vermont “lacked the authority to offer the same prescription rebates offered under federal Medicaid insurance” because Congress “imposed rebate requirements to reduce the cost of Medicaid.”

The reason why we are introducing this legislation is that, unfortunately, last month, a three-judge panel of the U.S. Court of Appeals for the District of Columbia ruled against the Vermont program, finding that Vermont “lacked the authority to offer the same prescription rebates offered under federal Medicaid insurance” because Congress “imposed rebate requirements to reduce the cost of Medicaid.” More recently, because of that ruling, a complaint has been brought by PHARMA against the Secretary of Health and Human Services to provide injunctive relief against the Vermont program.

This bill sets forth findings that support the need and legitimacy of the Maine and Vermont programs and provides, in statute, specific authority for these prescription drug discounts for states whose waivers were approved before January 31, 2001.

Specifically, the bill amends Section 1115 of the Social Security Act—the portion of the act granting the Secretary of Health and Human Services broad authority to approve demonstration projects that are likely to assist in promoting the objectives of the Medicaid program, and waive compliance with any of the state plan requirements of the Medicaid program.

The fact of the matter is, Medicaid demonstration projects help promote the objectives of the Medicaid program, including obtaining information about options for increasing access to prescription drugs for low-income individuals.

If indeed the States are truly laboratories of democracy—and I believe they are—then these demonstration projects deserve the chance to work, to be examined, and to assist those that they are designed to assist. And there is no question of the need—in Maine, 50,000 people signed up within the first three weeks of the program.

Under the “Healthy Maine Prescriptions Program,” Maine provides prescription drug discounts of up to 25 percent for all adults with incomes of up to 300 percent of the Federal Poverty Level. A second benefit offering discounts of 80 percent of the cost of prescription drugs is available for disabled Medicaid beneficiaries age 62 or older, including those in Maine and Vermont programs.

During this time when virtually everyone agrees that something must be done to increase access to affordable prescription drugs, we ought to be encouraging innovative programs like those in Maine and Vermont. Terminating Medicaid demonstration projects prior to their planned expiration dates may result in significant waste of public funds and may be detrimental to those who have come to rely on such projects.

We ought to be doing all we can to provide relief to low-income Americans, and that includes our selves the opportunity to evaluate what works and what doesn’t. Maine and Vermont are to be commended for their efforts, not punished—they are Medicaid do not have to apply in the instance of these programs.

One of the objectives of the Medicaid program is “to enable each State, as far as practicable under the conditions in such State, to provide medical assistance on behalf of families with dependent children and of aged, blind, or disabled individuals, whose income and resources are insufficient to meet the costs of necessary medical services.”

As part of carrying out this objective, every state has elected the option of providing prescription drugs as a benefit under the Medicaid program, thereby providing an important means of increasing the access of low-income individuals to drugs prescribed by their doctors.

Furthermore, Section 1115 of the Social Security Act provides the Secretary of Health and Human Services with broad authority to approve demonstration projects that are likely to assist in promoting the objectives of the Medicaid program, and waive compliance with any of the state plan requirements of the Medicaid program.

The fact of the matter is, Medicaid demonstration projects help promote the objectives of the Medicaid program, including obtaining information about options for increasing access to prescription drugs for low-income individuals.

If indeed the States are truly laboratories of democracy—and I believe they are—these demonstration projects deserve the chance to work, to be examined, and to assist those that they are designed to assist. And there is no question of the need—in Maine, 50,000 people signed up within the first three weeks of the program.

Under the “Healthy Maine Prescriptions Program,” Maine provides prescription drug discounts of up to 25 percent for all adults with incomes of up to 300 percent of the Federal Poverty Level. A second benefit offering discounts of 80 percent of the cost of prescription drugs is available for disabled Medicaid beneficiaries age 62 or older, including those in Maine and Vermont programs.

During this time when virtually everyone agrees that something must be done to increase access to affordable prescription drugs, we ought to be encouraging innovative programs like those in Maine and Vermont. Terminating Medicaid demonstration projects prior to their planned expiration dates may result in significant waste of public funds and may be detrimental to those who have come to rely on such projects.

We ought to be doing all we can to provide relief to low-income Americans, and that includes our selves the opportunity to evaluate what works and what doesn’t. Maine and Vermont are to be commended for their efforts, not punished—they are Medicaid do not have to apply in the instance of these programs.
entirely in keeping with the spirit and intent of Medicaid and I hope my colleagues will recognize the value of these important projects.

Ms. COLLINS. Mr. President, I am pleased to join with my colleague from Maine, Senator Snowe, and my colleagues from Vermont, Senators Jeffords and Leahy, in introducing legislation to ensure that States like Maine and Vermont, which have taken the initiative in developing innovative programs to make prescription drugs more affordable for their citizens, can proceed with these efforts.

The last 20 years have witnessed dramatic pharmaceutical breakthroughs that have helped reduce deaths and disability from heart disease, cancer, diabetes, and many other diseases. As a consequence, millions of people around the world are living longer, more fulfilling lives and more productive lives. These new medical miracles, however, often come with hefty price tags, and many people—particularly lower Americans without prescription drug coverage—are simply priced out of the market.

As so often happens, the States have been the laboratories for reform in this area and have come up with some creative ways to address this problem. In January of this year, the Department of Health and Human Services granted Maine a waiver under the Medicaid program through which States can offer drug discounts of up to 25 percent for individuals with incomes up to three times the Federal poverty level. Our new Healthy Maine Prescriptions Program includes both this new discount prescription drug benefit and a separate benefit, financed entirely with State funds, that offers discounts of up to 80 percent for low-income elderly and the disabled. Maine began providing patients under the Healthy Maine Prescription Program on June 1st of this year, and by June 26th the Department of Human Services had enrolled 50,460 individuals into the program. Ultimately, it is estimated that 225,000 Mainers qualify for the program.

Unfortunately, however, this important new program has run into a stumbling block. Last month, in a case brought by the Pharmaceutical Research and Manufacturers of America (PhRMA), a three-judge appeals panel ruled that a similar program developed by Vermont “lacked the authority to offer the same prescription rebates offered under federal Medicaid insurance” because Congress imposed rebate requirements to reduce the cost of Medicaid. The pharmaceutical trade group has subsequently sued the Department of Health and Human Services to block the Maine waiver, and the State of Maine has become a party to that case.

The Maine program is different enough from Vermont’s to provide a different result in court. However, we believe that innovative programs like these, which meet such a clear human need, should be able to proceed without endless legal battles. That is why we are introducing legislation today to give the Department of Health and Human Services clear authority to grant States these kinds of waivers, which will allow them to pursue innovative uses of Medicaid, such as the Healthy Maine Prescription program. Secretary of Health and Human Services Tommy Thompson made creative use of these kinds of Medicaid waivers when he was Governor of Wisconsin. We believe that he should be able to continue to do so in his new role as Secretary without the chilling effect brought by lawsuits like PhRMA’s.

The legislation we are introducing today will allow States like Maine to proceed with the innovative programs they have developed to meet the prescription drug needs of their citizens, and I urge all of my colleagues to join us in cosponsoring the legislation.

SENATE RESOLUTION 129—ELECTING JERI THOMPSON AS SECRETARY OF THE SENATE

Mr. DASCHLE (for himself and Mr. Lott) submitted the following resolution; which was considered and agreed to:

Resolved, That Jeri Thomson be, and she is hereby, elected Secretary of the Senate, effective July 12, 2001.

SENATE RESOLUTION 130—NOTIFYING THE HOUSE OF REPRESENTATIVES OF THE ELECTION OF A SECRETARY OF THE SENATE

Mr. DASCHLE (for himself and Mr. Lott) submitted the following resolution; which was considered and agreed to:

Resolved, That the House of Representatives be notified of the election of the Honorable Jeri Thomson as Secretary of the Senate.

SENATE RESOLUTION 131—NOTIFYING THE PRESIDENT OF THE UNITED STATES OF THE ELECTION OF A SECRETARY OF THE SENATE

Mr. DASCHLE (for himself and Mr. Lott) submitted the following resolution; which was considered and agreed to:

Resolved, That the President of the United States be notified of the election of the Honorable Jeri Thomson as Secretary of the Senate.
volunteers, as well as government—if our efforts are to be successful.

Though I am encouraged by the statistics which show a continuing decline in the number of children who are maltreated, I believe we must do more to make sure that all children live in safe and loving homes.

I urge my colleagues to act quickly on this resolution so we can move closer to erasing the horror of child abuse from our Nation's history.

Mr. CORZINE submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. Res. 133

Whereas in the 1930s and 1940s, the German National Socialist Party, the Nazi Party, methodically orchestrated acts of genocide resulting in the deaths of 6,000,000 Jews and 5,000,000 Gypsies, Poles, Jehovah’s Witnesses, political dissidents, physically and mentally disabled people, and homosexuals;

Whereas the term Holocaust is used to describe the systematic extermination of Jews and others by the Nazis during the period beginning on March 23, 1933, and ending on May 8, 1945;

Whereas in 1946, the International Military Tribunal at Nuremberg declared the Shutzstaffel or SS, the elite corps of the Nazi Party, to be a criminal organization guilty of persecuting and exterminating Jews; of brutalizing and killing in the concentration camps; of excesses in the administration of the slave labor program; and of mistreatment and murder of prisoners of war;

Whereas criminals include any person who ordered, incited, assisted, or otherwise participated in the persecution of any person because of race, religion, national origin, or political opinion, during the Holocaust, under the direction of, or in association with, the Nazi government of Germany;

Whereas not all of these Nazi war criminals were brought to justice as required by the Nuremberg Tribunal;

Whereas in the 1970s, information began to surface that the United States intelligence community harbored Nazi war criminals, including Klaus Barbie, a Nazi war criminal later found responsible for the torture and death of more than 26,000 people, in order to spy on the former Soviet Union and for other purposes;

Whereas in 1998, the 105th Congress passed and President Bill Clinton signed into law the 9/11 Commission Act of 2002, which provided for the declassification of records relating to Nazi war criminals, Nazi persecution, Nazi war crimes, and Nazi.looted assets, including those held by the Central Intelligence Agency;

Whereas the Nazi War Criminal Inter-agency Working Group was convened by Executive Order on January 11, 1999, to (1) locate, identify, inventory, recommend for de-classification, and make available all classified Nazi war criminal records, subject to certain specified restrictions; (2) coordinate with Federal agencies and expedite the release of such classified records to the public; and (3) complete work to the greatest extent possible and report to the Congress one year after passage of this legislation;

Whereas the Interagency Working Group recently declassified and analyzed documents of the Office of Strategic Services (OSS), forerunner of the Central Intelligence Agency, revealing that the United States used Nazi war criminals for intelligence operations against the Soviet Union beginning on January 11, 1942, under the direction of, or in association with, the Nazi government of Germany;

Whereas the declassified documents reveal further that the OSS assisted Nazi war criminals in evading capture and prosecution and, in a few cases, facilitated their immigration and assimilation in the United States; and

Whereas it is unknown to what extent the former Soviet Union and other nations used Nazi war criminals for spy operations: Now, therefore, be it

Resolved, That it is the sense of the Senate that—

(1) the Nazi War Criminal Interagency Working Group served the public interest by investigating and publicizing the extent to which the United States used criminals for intelligence purposes following the Second World War;

(2) the Administration should work with the intelligence community to expedite the release of information regarding the use of Nazi war criminals as intelligence operatives in the aftermath of the Second World War, especially by the former Soviet Union; and

(3) information pertaining to Nazi war criminals should be brought to light so that future generations can learn from the Holocaust.

A M E N D M E N T S S U B M I T T E D A N D P R O P O S E D

SA 924. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 925. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 926. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 927. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 928. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 929. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 930. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 931. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 932. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 933. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 934. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 935. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 936. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 937. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 938. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 939. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 940. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 941. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 942. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 943. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 944. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 945. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 946. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 961. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.
SA 962. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.
SA 963. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.
SA 964. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.
SA 965. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.
SA 966. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.
SA 967. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.
SA 968. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.
SA 969. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.
SA 970. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.
SA 971. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.
SA 972. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.
SA 973. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, supra; which was referred to the Committee on Health, Education, Labor, and Pensions.
SA 974. Mr. LEAHY (for himself, Mr. HATCH, and Mr. GRASSLEY) proposed an amendment to the bill H.R. 333, to amend title 11, United States Code, and for other purposes.
SA 975. Mrs. BOXER (for Mr. BYRD) proposed an amendment to the bill H.R. 2217, making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 2002, and for other purposes.
SA 976. Mr. BYRD (for himself and Mr. BURNS) submitted an amendment intended to be proposed by him to the bill H.R. 2217, supra.

TEXT OF AMENDMENTS

SA 924. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:

On page 2, line 1, strike “cell”. On page 2, line 1, strike “generation”.
to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 2, line 3, strike "Health".

SA 934. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 2, line 3, strike "Service".

SA 935. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 2, line 3, strike "is".

SA 936. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 2, line 4, strike "Act".

SA 937. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 2, line 4, strike "amended".

SA 938. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 2, line 4, strike "section".

SA 939. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 1, line 3, strike "1.".

SA 940. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 1, line 3, strike "short".

SA 941. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 1, line 3, strike "title".

SA 942. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 1, line 3, strike "this".

SA 943. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 1, line 4, strike "Act".

SA 944. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 1, line 4, strike "may".

SA 945. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 1, line 4, strike "be".

SA 946. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 1, line 4, strike "cited".

SA 947. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 1, line 4, strike "as".

SA 948. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 2, line 1, strike "section".

SA 949. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 1, line 4, strike "the".

SA 950. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 1, line 4, strike "Stem".

SA 951. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 1, line 4, strike "Research".

SA 952. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 1, line 5, strike "Act".

SA 953. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 1, line 5, strike "of".

SA 954. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 1, line 5, strike "2001".

SA 955. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:
On page 2, line 1, strike "sec".

SA 956. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide
for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:

On page 2, line 1, strike “2.”

SA 957. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:

On page 2, line 1, strike “human”.

SA 958. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:

On page 2, line 6, strike “embryonic”.

SA 959. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:

On page 2, line 1, strike “stem”.

SA 960. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:

On page 2, line 4, strike “by”.

SA 961. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:

On page 2, line 5, strike “sec.”.

SA 962. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:

On page 2, line 6, strike “96C.”

SA 963. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:

On page 2, line 6, strike “human”.

SA 964. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:

SA 965. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:

On page 2, line 6, strike “embryonic”.

SA 966. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:

On page 2, line 6, strike “embryonic”.

SA 967. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:

On page 2, line 6, strike “cell”.

SA 968. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:

On page 2, line 5, strike “following”.

SA 969. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:

On page 2, line 5, strike “the”.

SA 970. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:

On page 2, line 5, strike “96B”.

SA 971. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:

On page 2, line 5, strike “section”.  

SA 972. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:

On page 2, line 4, strike “after”.

SA 973. Mr. BROWNBACK submitted an amendment intended to be proposed by him to the bill S. 723, to amend the Public Health Service Act to provide for human embryonic stem cell generation and research; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:

On page 2, line 4, strike “inserting”.

SA 974. Mr. LEAHY (for himself, Mr. HATCH, and Mr. GRASSLEY) proposed an amendment to the bill H.R. 333, to amend title 11, United States Code, and for other purposes; as follows:

Strike all after the enacting clause and insert the following:

SECTION I. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the “Bankruptcy Reform Act of 2001”.

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.
TITLe I—NEEDS-BASED BANKRUPTCY
Sec. 101. Conversion.
Sec. 102. Dismissal or conversion.
Sec. 103. Sense of Congress and study.
Sec. 104. Notice of alternatives.
Sec. 105. Debtor financial management training test program.
Sec. 106. Credit counseling.
Sec. 107. Schedules of reasonable and necessary expenses.
TITLe II—ENHANCED CONSUMER PROTECTION
Subtitle A—Penalties for Abusive Creditor Practices
Sec. 201. Promotion of alternative dispute resolution.
Sec. 203. Discouraging abuse of reaffirmation practices.
Sec. 204. Preservation of claims and defenses upon sale of preatory loans.
Sec. 205. GAO study on reaffirmation process.
Subtitle B—Priority Child Support
Sec. 211. Definition of domestic support obligation.
Sec. 212. Priorities for claims for domestic support obligations.
Sec. 213. Requirements to obtain confirmation and discharge in cases involving domestic support obligations.
Sec. 214. Exceptions to automatic stay in domestic support obligation proceedings.
Sec. 215. Nondischargeability of certain debts for alimony, maintenance, and support.
Sec. 216. Continued liability of property.
Sec. 217. Protection of domestic support claims against transfer of property.
Sec. 218. Disposable income defined.
Sec. 219. Collection of child support.
TITLE XI—HEALTH CARE AND EMPLOYEE BENEFITS

Sec. 1101. Definitions.
Sec. 1102. Disposal of patient records.
Sec. 1103. Administrative expense claim for costs of closing a health care business; on other administrative expenses.
Sec. 1104. Appointment of ombudsman to act as patient advocate.
Sec. 1105. Debtor's possession; duty of trustee to transfer patients.
Sec. 1106. Exclusion from program participation not subject to automatic stay.

TITLE XII—TECHNICAL AMENDMENTS

Sec. 1201. Definitions.
Sec. 1202. Adjustment of dollar amounts.
Sec. 1203. Extension of time.
Sec. 1204. Technical amendments.
Sec. 1205. Penalty for persons who negligently or fraudulently prepare bankruptcy petitions.
Sec. 1206. Limitation on compensation of professional persons.
Sec. 1207. Effect of conversion.
Sec. 1208. Allowance of administrative expenses.
Sec. 1209. Exceptions to discharge.
Sec. 1210. Effect of discharge.
Sec. 1211. Protection against discriminatory treatment.
Sec. 1212. Property of the estate.
Sec. 1213. Preferences.
Sec. 1214. Postpetition transactions.
Sec. 1215. Possession of the property of the estate.
Sec. 1216. General provisions.
Sec. 1217. Abandonment of railroad line.
Sec. 1218. General reclamation plan.
Sec. 1219. Bankruptcy cases and proceedings.
Sec. 1220. Knowing disregard of bankruptcy law or rule.
Sec. 1221. Transfers made by nonprofit charitable corporations.
Sec. 1222. Protection of valid purchase money security interests.
Sec. 1223. Bankruptcy judgeships.
Sec. 1224. Compensating trustees.
Sec. 1225. Amendment to section 362 of title 11, United States Code.
Sec. 1226. Judicial education.
Sec. 1227. Reclamation.
Sec. 1228. Providing requested tax documents to the court.
Sec. 1229. Encouraging creditworthiness.
Sec. 1230. Property no longer subject to re- deemment.
Sec. 1231. Trustees.
Sec. 1232. Bankruptcy forms.
Sec. 1233. Expedited appeals of bankruptcy cases to courts of appeals.
Sec. 1234. Exemptions.
Sec. 1235. Involuntary cases.
Sec. 1236. Federal election law fines and penalties as nondischargeable debt.
Sec. 1237. Bankruptcy for insolvent political committees.

TITLE XIII—CONSUMER CREDIT DISCLOSURE

Sec. 1301. Enhanced disclosures under an open end credit plan.
Sec. 1302. Enhanced disclosure for credit extensions secured by a dwelling.

TITLE XVI—MISCELLANEOUS PROVISIONS

Sec. 1601. Reimbursement of research, development, and maintenance costs.

CONGRESSIONAL RECORD—SENATE
(ii) the assessment of an appropriate civil penalty against the counsel for the debtor; and

(iii) the payment of the civil penalty to the trustee, the United States trustee, or the bankruptcy administrator.

(C) In the case of a violation of rule 9011, the court shall order—

(i) the attorney has no knowledge after an inquiry that the information in the schedules filed with such petition is incorrect.

(5)(A) Except as provided in subparagraph (B) and subject to paragraph (6), the court may award a debtor all reasonable costs (including reasonable attorneys’ fees) in contesting a motion under rule 9011 of the Federal Rules of Bankruptcy Procedure; or

(B) only the judge, United States trustee, or bankruptcy administrator under this subsection if—

(i) the debtor does not grant the motion; and

(ii) the court finds that—

(I) the position of the party that brought the motion violates paragraph (2) of the Federal Rules of Bankruptcy Procedure; or

(II) the party brought the motion solely for the purpose of coercing a debtor into waiving a right guaranteed to the debtor under this title.

(B) A small business that has a claim of

(1) less than 25 full-time employees as determined on the date the motion is filed; and

(2) engaged in commercial or business activity; and

(3) the number of employees of a wholly owned subsidiary of a corporation includes the employees of—

(A) a parent corporation; and

(B) any other subsidiary corporation of the parent corporation.

(6) Only the judge, United States trustee, or bankruptcy administrator may bring a motion under section 707(b), if the current monthly income of the debtor, or in a joint case, the debtor and the debtor’s spouse, as of the date of the order for relief, when multiplied by 12, is equal to or less than—

(A) in the case of a debtor in a household exceeding 4 individuals, the highest median family income of the applicable State for a family of 4 or fewer individuals last reported by the Bureau of the Census, plus $525 per month for each individual in excess of 4; or

(B) in the case of a debtor in a household exceeding 4 individuals, the highest median family income of the applicable State for a family of the same number of fewer individuals last reported by the Bureau of the Census.

(C) in the case of a debtor in a household exceeding 4 individuals, the highest median family income of the applicable State for a family of the same number of fewer individuals last reported by the Bureau of the Census, plus $525 per month for each individual in excess of 4.

(b) Definition.—Section 101 of title 11, United States Code, is amended by inserting after paragraph (30) the following:

(10A) ‘current monthly income’—

‘(A) the monthly income from all sources which the debtor, or in a joint case, the debtor and the debtor’s spouse, receive without regard to whether the income is taxable, derived during the 6-month period preceding the date of determination, which shall be the date which is the last day of the calendar month immediately preceding the date of the bankruptcy filing. If the debtor is providing the debtor’s monthly income of the filing and otherwise the date of determination shall be such date on which the debtor’s current monthly income is determined by the court for the purposes of this Act; and

(2) includes any amount paid by any entity other than the debtor (or, in a joint case, the debtor and the debtor’s spouse), on a regular basis to the household expenses of the debtor or the debtor’s dependents (and, in a joint case, the debtor’s spouse if not otherwise a dependent), but excludes benefits received under the Social Security Act and payments to victims of war crimes or crimes against humanity on account of their status as victims of such crimes.”

(B)(1) With respect to an individual debtor under this chapter—

(A) the United States trustee or bankruptcy administrator shall determine whether the materials filed by the debtor and, not later than 10 days after the date of the first meeting of creditors, file with the court a statement as to whether the debtor is presumed to be an abuse under section 707(b); and

(B) not later than 5 days after receiving a statement under subparagraph (A), the court shall provide a copy of the statement to all creditors.

(2) The United States trustee or bankruptcy administrator shall, not later than 30 days after the date of filing a statement under paragraph (1), either file a motion to dismiss or convert under section 707(b) or file a statement setting forth the reasons the United States trustee or bankruptcy administrator does not believe that such a motion would be appropriate, if the United States
trustee or bankruptcy administrator determines the debtor's case should be presumed to be an abuse under section 707(b) and the product of the debtor's current monthly income, multiplied by 12 is not less than

(A) in the case of a debtor in a household of 1 person, the median family income of the applicable State for 1 earner last reported by the Bureau of the Census; or

(B) in the case of a debtor in a household of 2 or more individuals, the highest median family income of the applicable State for a family of the same number or fewer individuals last reported by the Bureau of the Census.

(3) In any case in which a motion to dismiss or convert, or a statement is required to be filed by this subsection, the United States trustee or bankruptcy administrator may decline to file a motion to dismiss or convert pursuant to section 706(b)(2) if the product of the debtor's current monthly income multiplied by 12 exceeds 100 percent, but does not exceed 150 percent of—

(A)(i) in the case of a debtor in a household of 1 person, the median family income of the applicable State for 1 earner last reported by the Bureau of the Census; or

(ii) the product of the debtor's current monthly income, reduced by the amounts determined under section 707(b)(2)(A)(ii) (except for the amount calculated under the other necessary expenses standard issued by the Internal Revenue Service) and clauses (iii) and (iv) of section 707(b)(2)(A), multiplied by 60 is less than the lesser of—

(i) 25 percent of the debtor's nonpriority unsecured claims in the case or $6,000, whichever is greater; or

(ii) $10,000.

(d) NOTICE.—Section 342 of title 11, United States Code, as amended by adding at the end the following:

(d) In an individual case under chapter 7 in which a petition is filed under section 303(a)(1), the clerk shall give written notice to all creditors not later than 10 days after the date of the filing of the petition that the presumption of abuse has been triggered.

(e) NONLIMITATION OF INFORMATION.—Nothing in this title shall limit the ability of a creditor to provide information to a judge (except for information communicated ex parte, unless otherwise permitted by applicable law), United States trustee, bankruptcy administrator or trustee.

(f) DISMISSAL FOR CERTAIN CRIMES.—Section 707 of title 11, United States Code, as amended by this section, is amended by adding at the end the following:

(c) (1) In this subsection—

(A) the term 'crime of violence' has the meaning given that term in section 16 of title 18; and

(B) the term 'drug trafficking crime' has the meaning given that term in section 924(c)(11) of title 21, United States Code.

(2) Except as provided in paragraph (3), after notice and a hearing, the court, on a motion by the victim of a crime of violence or a drug trafficking crime, may when it is in the best interest of the victims dismiss a voluntary case filed by an individual debtor under this chapter if that individual was convicted of—

(3) The court may not dismiss a case under paragraph (2) if the debtor establishes by a preponderance of the evidence that the filing of the case in this chapter is necessary to satisfy a claim for a domestic support obligation.

(g) CONFIRMATION OF PLAN.—Section 1325(a) of title 11, United States Code, is amended—

(1) in paragraph (5), by striking "and" at the end; and

(2) in paragraph (6), by striking the period and inserting "and the product of the debtor's current gross income for the year in which the filing of the petition was made good.

(h) APPLICABILITY OF MEANS TEST TO CHAPTER 13.—Section 1325(b) of title 11, United States Code, is amended—

(1) in paragraph (1)(A), by inserting "to unsecured creditors" after "to make payments"; and

(2) by striking paragraph (2) and inserting the following:

(2) For purposes of this subsection, the term 'disposable income' means current monthly income and any amount that is not includable in current monthly income under paragraph (2) if the debtor establishes that—

(A) any child support payments, including payments under section 1521 of title 15, United States Code, are made to a child dependent on the debtor; and

(B) the debtor is engaged in business, for the payment of expenditures necessary for the continuation, preservation, and operation of such business.

(i) Amounts reasonably necessary to be expended under paragraph (2) shall be determined in accordance with subparagraphs (A) and (B) of section 707(b)(2). If the debtor has current monthly income, when multiplied by 12, greater than—

(A) the current monthly expenses of a family of the same number or fewer individuals last reported by the Bureau of the Census;

(B) in the case of a debtor in a household of 2, 3, or 4 individuals, the highest median family income of the applicable State for a family of the same number or fewer individuals last reported by the Bureau of the Census; or

(C) the case of a debtor in a household exceeding 4 individuals, the highest median family income of the applicable State for a family of the same number or fewer individuals last reported by the Bureau of the Census, plus $525 per month for each individual in excess of 4.

(1) SPECIAL ALLOWANCE FOR HEALTH INSURANCE.—Section 1325(a)(11) of title 11, United States Code, as amended by inserting the following new paragraph—

(11) reduce amounts to be paid under the plan with the actual amount expended by the debtor to purchase health insurance for the debtor and any dependent of the debtor (if those dependents do not otherwise have health insurance coverage) if the debtor documents the cost of such insurance and demonstrates that—

(A) such expenses are reasonable and necessary to satisfy a claim for a domestic support obligation.

(2) except for the amount calculated under the other necessary expenses standard issued by the Internal Revenue Service standards established to set reasonable costs.

(3) by adding at the end the following:

(a) D EVELOPMENT OF FINANCIAL MANAGEMENT AND TRAINING CURRICULUM AND MATERIALS.—The Director of the Executive Office for United States Trustees shall submit a report to the Committee on the Judiciary of the Senate and the Committee on the Judiciary of the House of Representatives containing the findings of the Director regarding the utilization of Internal Revenue Service standards for determining—

(1) the current monthly expenses of a debtor under section 707(b)(2) of title 11, United States Code; and

(2) the impact that the application of such standards has had on debtors and on the bankruptcy courts.

(2) RECOMMENDATION.—The report under paragraph (1) may include recommendations for amendments to title 11, United States Code, that are consistent with the findings of the Director under paragraph (1).

SEC. 104. NOTICE OF ALTERNATIVES.

Section 342(b) of title 11, United States Code, is amended to read as follows:

"(1) before the commencement of a case under this title by an individual whose debts are primarily consumer debts, the clerk shall give to such individual written notice containing—

(A) a brief description of—

(1) chapters 7, 11, 12, and 13 and the general purposes, benefits, and costs of proceeding under each of those chapters; and

(B) types of services available from credit counseling agencies; and

(2) statements specifying that—

(A) a person who knowingly and fraudulently conceals assets or makes a false oath or statement under penalty of perjury in connection with a bankruptcy case shall be subject to fine, imprisonment, or both; and

B) all information supplied by a debtor in connection with a bankruptcy case is subject to examination by the Attorney General.

SEC. 105. DEBTOR FINANCIAL MANAGEMENT TRAINING TEST PROGRAM.

(a) DEVELOPMENT OF FINANCIAL MANAGEMENT AND TRAINING CURRICULUM AND MATERIALS.—The Director of the Executive Office for United States Trustees shall submit a report to the Committee on the judiciary of the Senate and the Committee on the Judiciary of the House of Representatives containing the findings of the Director regarding the utilization of Internal Revenue Service standards for determining—

(1) the current monthly expenses of a debtor under section 707(b)(2) of title 11, United States Code; and

(2) the impact that the application of such standards has had on debtors and on the bankruptcy courts.

(2) RECOMMENDATION.—The report under paragraph (1) may include recommendations for amendments to title 11, United States Code, that are consistent with the findings of the Director under paragraph (1).
for United States Trustees (in this section referred to as the "Director") shall be carried out with a wide range of individuals who are experts in the field of debtor education, including trustees who are appointed under chapter 13 of title 11, United States Code, who operate financial management education programs for debtors, and shall develop a financial management training curriculum and materials that can be used to educate individual debtors on how to better manage their finances.

(b) SELECTION OF DISTRICTS.—The Director shall select 6 judicial districts of the United States in which to test the effectiveness of the financial management training curriculum and materials developed under subsection (a).

SEC. 106. CREDIT COUNSELING.

(a) WHO MAY BE A DEBTOR.—Section 109 of title 11, United States Code, is amended by adding at the end the following:

"(i) a certificate from the approved nonprofit budget and credit counseling agency that provided the debtor services under section 109(h) describing the services provided to the debtor; and

"(ii) a copy of the debt repayment plan, if any, developed under section 109(h) through the approved nonprofit budget and credit counseling agency referred to in paragraph (1)."

(b) C HAPTER 7 D ISCHARGE.—Section 727(a) of title 11, United States Code, is amended—

"(1) in paragraph (9), by striking ''or'' at the end;

"(2) in paragraph (10), by striking the period and inserting "; or"; and

"(3) by adding at the end the following:

"(i) a certificate from the approved nonprofit budget and credit counseling agency that provided the debtor services under section 109(h) describing the services provided to the debtor; and

"(ii) a copy of the debt repayment plan, if any, developed under section 109(h) through the approved nonprofit budget and credit counseling agency referred to in paragraph (1)."

SEC. 107. DISCHARGE.—Section 1328 of title 11, United States Code, is amended—

"(a) in paragraph (11), by inserting ''(a)'' before ''The debtor shall—"; and

"(b) by adding at the end the following:

"(1) the additional individuals who would otherwise seek credit counseling from that agency by reason of the requirements of paragraph (1) of subsection (a), an individual debtor shall file with the court—

"(i) a certificate from the approved nonprofit budget and credit counseling agency that provided the debtor services under section 109(h) describing the services provided to the debtor; and

"(ii) a copy of the debt repayment plan, if any, developed under section 109(h) through the approved nonprofit budget and credit counseling agency referred to in paragraph (1)."

(c) CHAPTER 13 DISCHARGE.—Section 1328 of title 11, United States Code, is amended—

"(a) in paragraph (12)(A) shall not apply to that debtor after the date that is 30 days after the debtor files a petition, except as provided in paragraph (12)(B), and

"(b) the court shall grant a discharge under this section to a debtor on which the court determines that the approved instructional courses are not adequate to service the additional individuals who would be reasonably able to provide adequate services to the additional individuals who would otherwise seek credit counseling from that agency by reason of the requirements of paragraph (1) of subsection (a)."

CONGRESSIONAL RECORD—SENATE
July 12, 2001

SEC. 107. DISCHARGE.—Section 1328 of title 11, United States Code, is amended—

"(a) in paragraph (11), by inserting ''(a)'' before ''The debtor shall—"; and

"(b) by adding at the end the following:

"(1) the additional individuals who would otherwise seek credit counseling from that agency by reason of the requirements of paragraph (1) of subsection (a), an individual debtor shall file with the court—

"(i) a certificate from the approved nonprofit budget and credit counseling agency that provided the debtor services under section 109(h) describing the services provided to the debtor; and

"(ii) a copy of the debt repayment plan, if any, developed under section 109(h) through the approved nonprofit budget and credit counseling agency referred to in paragraph (1)."

SEC. 107. DISCHARGE.—Section 1328 of title 11, United States Code, is amended—

"(a) in paragraph (11), by inserting ''(a)'' before ''The debtor shall—"; and

"(b) by adding at the end the following:

"(1) the additional individuals who would otherwise seek credit counseling from that agency by reason of the requirements of paragraph (1) of subsection (a), an individual debtor shall file with the court—

"(i) a certificate from the approved nonprofit budget and credit counseling agency that provided the debtor services under section 109(h) describing the services provided to the debtor; and

"(ii) a copy of the debt repayment plan, if any, developed under section 109(h) through the approved nonprofit budget and credit counseling agency referred to in paragraph (1)."

SEC. 107. DISCHARGE.—Section 1328 of title 11, United States Code, is amended—

"(a) in paragraph (11), by inserting ''(a)'' before ''The debtor shall—"; and

"(b) by adding at the end the following:

"(1) the additional individuals who would otherwise seek credit counseling from that agency by reason of the requirements of paragraph (1) of subsection (a), an individual debtor shall file with the court—

"(i) a certificate from the approved nonprofit budget and credit counseling agency that provided the debtor services under section 109(h) describing the services provided to the debtor; and

"(ii) a copy of the debt repayment plan, if any, developed under section 109(h) through the approved nonprofit budget and credit counseling agency referred to in paragraph (1)."
debtor's bankruptcy case number to permit reasonable records (which shall include the course of instruction or program) that are consistent with stated objectives personal financial management; and

(2) To be approved by the United States trustee or bankruptcy administrator, a credit counseling agency shall only approve an instructional course concerning personal financial management if—

(a) be a nonprofit budget and credit counseling agency, the majority of the board of directors of which—

(i) are not employed by the agency; and

(ii) will not directly or indirectly benefit financially from the outcome of a credit counseling session;

(b) if a fee is charged for counseling services, charge a reasonable fee, and provide services without regard to ability to pay the fee;

(c) provide for safekeeping and payment of client funds, including an annual audit of the trust accounts and appropriate employee bonding;

(d) provide full disclosures to clients, including funding sources, counselor qualifications, possible impact on credit reports, and any costs of such program that will be paid by the debtor and how such costs will be paid;

(e) provide adequate counseling with respect to client credit problems that includes an analysis of the client's current situation, what brought them to that financial status, and how they can develop a plan to handle the problem without incurring negative amortization of their debts;

(f) provide trained counselors who receive no commissions or bonuses based on the counseling session outcome, and who have adequate experience, and have been adequately trained to provide counseling services to individuals in financial difficulty, including the matters described in subparagraphs (B) and (C); and

(g) demonstrate adequate experience and background in providing credit counseling; and

(h) have adequate financial resources to provide continuing support services for budgeting plans over the life of any repayment plan.

(2) The United States trustee or bankruptcy administrator shall only approve an instructional course concerning personal financial management if—

(a) has been effective in assisting a substantial number of debtors to understand personal financial management; and

(b) is otherwise likely to increase substantially debtor understanding of personal financial management.

(e) The District Court may, at any time, investigate the qualifications of a credit counseling agency referred to in subsection (a), and require the submission of documents to ensure the integrity and effectiveness of such credit counseling agencies. The District Court may, at any time, remove from the approved list (a credit counseling agency upon finding such agency does not meet the qualifications of subsection (b).

(f) The United States trustee or bankruptcy administrator shall notify the clerk that a credit counseling agency or an instructional course is no longer approved, in which case the clerk shall remove it from the list maintained under subsection (a).

(g) No credit counseling service may provide to a credit reporting agency information concerning whether an individual debtor has received or sought instruction concerning personal financial management from the credit counseling service.

(2) A credit counseling service that willfully or negligently fails to comply with any requirement under this title with respect to a debtor shall be liable for damages in an amount equal to the sum of—

(1) an amount equal to the sum of—

(A) the fee charged for counseling services; financial management instructional courses.

(f) Limitation.—Section 362 of title 11, United States Code, is amended by adding at the end the following:

(2) if a case commenced under chapter 7, 11, or 13 is dismissed due to the creation of a debt repayment plan, for purposes of subsection (c)(3), any subsequent case commenced by the debtor under any such chapter shall not be presumed to be filed not in good faith.

(i) On request of a party in interest, the court shall issue an order under subsection (c) confirming that the automatic stay has been terminated.

SEC. 107. SECURE ACT.

For purposes of section 707(b) of title 11, United States Code, as amended by this Act, the Director of the Executive Office for United States Trustees shall, not later than 180 days after the date of enactment of this Act, issue schedules of reasonable and necessary administrative expenses of administering a chapter 13 plan for each judicial district of the United States.
applicable, then the annual percentage rate is not readily available or not applicable, then—

(ii) if, at the time the petition is filed, the debt is closed end credit as defined under the Truth in Lending Act (15 U.S.C. 1601 et seq.), then—

(I) the annual percentage rate under section 127(b) of the Truth in Lending Act (15 U.S.C. 1638(a)(4)), as disclosed to the debtor in the most recent disclosure statement given the debtor prior to the reaffirmation agreement with respect to the debt, or, if no such disclosure statement was provided the debtor, the annual percentage rate as it would have been so disclosed at the time the disclosure statement is given the debtor, or to the extent this annual percentage rate is not readily available or not applicable, then—

(ii) the simple interest rate applicable to the amount reaffirmed, or

(III) if the entity making the disclosure statement chooses, by disclosing that a security interest or lien in goods or property is asserted over some or all of the obligations you are reaffirming and listing the items and their original amount, the stated secured interest, or if not a purchase-money security interest then listing by items or types and the original amount of the loan.

(H) At the election of the creditor, a statement of the repayment schedule using 1 or a combination of the following—

(i) by making the statement: ‘‘Your first payment in the amount of $ is due on

but the future payment amount may be different. Consult your reaffirmation or credit agreement, as applicable, and stating the amount of the first payment and the due date of that payment in the places provided;

(ii) by making the statement: ‘‘Your payment schedule will be’’, and describing the repayment schedule with the number, amount and due dates or period of payments scheduled to repay the obligations reaffirmed by you as shown then known by the disclosing party; or

(iii) by describing the debtor’s repayment obligations with reasonable specificity to the extent then known by the disclosing party.

(I) The following statement: ‘Note: When this disclosure refers to what a creditor ‘‘may’’ do it does not mean the creditor ‘‘must’’ do it. A creditor ‘‘may’’ give the creditor specific permission. The word ‘‘may’’ is used to tell you what might occur if the law permits the creditor to take what action. If you do not have a separate agreement or what the law requires, talk to the attorney who helped you negotiate this agreement. If you don’t have an attorney helping you, the judge will explain the reasons for your reaffirmation when the reaffirmation hearing is held.’’

(4)(j) The following additional statement—

‘‘Reaffirming a debt is a serious financial decision. The law requires you to take certain steps to make sure the decision is in your best interest.’’

(4)(k) The following additional statement—

‘‘If the underlying debt transaction was closed end credit as defined under the Truth in Lending Act (15 U.S.C. 1601 et seq.), then—

(I) The following statement: ‘‘Your credit agreement may obligate you to make additional payments which may come due after the date of this disclosure. Consult your credit agreement.’’

(E) The ‘‘Annual Percentage Rate’’, using that term, which shall be—

(i) the total amount which the debtor agreed to reaffirm, and

(ii) the total of any other fees or cost accrued as of the date of the disclosure statement.

(D) In conjunction with the disclosure of the ‘‘Amount Reaffirmed’, the statements—

(i) ‘‘The amount of debt you have agreed to reaffirm’’;

(ii) ‘‘Your credit agreement may obligate you to pay additional amounts which may come due after the date of this disclosure. Consult your credit agreement.’’

(C) The ‘‘Amount Reaffirmed’, using that term, which shall be—

(1) in subsection (c), by striking paragraph (3), combining paragraphs (4) through (8), and shall be the only disclosures required in connection with the reaffirmation.

(2) by adding at the end the following:

‘‘Disclosures made under paragraph (1) shall be made clearly and conspicuously and in writing. The terms ‘Amount Reaffirmed’ and ‘Annual Percentage Rate’ shall be disclosed more conspicuously than other terms, data or information provided in connection with the agreement, statement, declaration, motion and order described, respectively, in paragraphs (4) through (8), and shall be the only disclosures required in connection with the reaffirmation.

‘‘Disclosures made under paragraph (1) shall be made clearly and conspicuously and in writing. The terms ‘Amount Reaffirmed’ and ‘Annual Percentage Rate’ shall be disclosed more conspicuously than other terms, data or information provided in connection with the agreement, statement, declaration, motion and order described, respectively, in paragraphs (4) through (8), and shall be the only disclosures required in connection with the reaffirmation.

‘‘Applicability of section (c)(2) shall consist of the disclosure statement described in paragraph (3), completed as required in that paragraph, together with the agreement, statement, declaration, motion and order described, respectively, in paragraphs (4) through (8), and shall be the only disclosures required in connection with the reaffirmation.

‘‘The Truth in Lending Act (15 U.S.C. 1601 et seq.), otherwise, your obligations will be determined by the reaffirmation agreement which may have changed the terms of the original agreement. For example, if you are not using an open-end credit agreement, the creditor may be permitted by that agreement or applicable law to change the terms

C0030 CONGRESSIONAL RECORD—SENATE

July 12, 2001
of the agreement in the future under certain conditions.

‘‘Are you required to enter into a reaffirmation agreement by any law? No, you are not required to reaffirm a debt by any law. Only agree to reaffirm a debt if it is in your best interest. Be sure you can afford the payments you agree to make.

‘‘What if your creditor has a security interest or lien? Your bankruptcy discharge does not eliminate any lien on your property. A ‘lien’ is often referred to as a security interest, deed of trust, mortgage or security agreement. If you do not reaffirm and your personal liability on the debt is discharged, because of the lien your creditor may still have the right to take the security property if you do not pay the debt or default on it. If the lien is on an item of personal property that is exempt under your State’s law or that the trustee has abandoned, you may be able to redeem the item rather than reaffirm the debt. To redeem, you make a single payment to the creditor equal to the current value of the security property, as agreed by the parties or determined by the court.

‘‘(ii) In the case of a reaffirmation under subsection (m)(2), numbered paragraph 6 in the declaratory paragraph required by clause (i) of this subparagraph shall read as follows:

‘‘6. If you were represented by an attorney during the negotiation of the reaffirmation agreement and you do not reaffirm or if you do not reaffirm and the court determines that no undue hardship exists for you, the court, shall approve a reaffirmation agreement. If the presumption is not rebutted, the reaffirmation agreement becomes effective upon filing with the court.

‘‘(4) The form of reaffirmation agreement required under this paragraph shall consist of the following:

‘‘Part B: Reaffirmation Agreement. I agree to reaffirm the obligations arising under the agreement described below.

‘‘Signature:

‘‘Date:

‘‘Borrower:

‘‘Co-borrower, if also reaffirming:

‘‘(m)(2) The declaration shall consist of the following:

‘‘Part C: Certification by Debtor’s Attorney (If Any).

‘‘I hereby certify that (1) this agreement represents a fully informed and voluntary agreement by the debtor(s); (2) this agreement does not impose an undue hardship on the debtor or any dependent of the debtor; and (3) I have fully advised the debtor of the legal effect and consequences of this agreement and any default under this agreement.

‘‘Signature of Debtor’s Attorney:

‘‘Date:

‘‘(B) The statement in support of reaffirmation agreement, which the debtor shall sign and date prior to filing with the court, shall consist of the following:

‘‘(m)(1) Until 60 days after a reaffirmation agreement is filed with the court (or such additional period as the court, after notice and hearing and for cause, orders before the expiration of such period), it shall be presumed that the reaffirmation agreement is an undue hardship on the debtor if the debtor’s monthly income less the debtor’s monthly expenses as shown on the debtor’s completed and signed reaffirmation agreement required under subsection (k)(6)(A) is less than the scheduled payments on the reaffirmed debt. This presumption shall be reviewed by the court. The court, upon motion by the debtor if the statement includes an explanation which identifies additional sources of funds to make the payments as agreed upon under the terms of the reaffirmation agreement. If the presumption is not rebutted to the satisfaction of the court, the court may disapprove the agreement. No agreement shall be disapproved without notice and hearing to the creditor and debtor and such hearing shall be concluded before the entry of the debtor’s discharge.

‘‘(2) This subsection does not apply to reaffirmation agreements where the creditor is a credit union, as defined in section 19(b)(1)(A)(iv) of the Federal Reserve Act (12 U.S.C. 461(b)(1)(A)(iv)).

‘‘Law Enforcement.—

‘‘(1) In general. The Attorney General of the United States shall designate the individuals described in subsection (b) to have primary responsibility in carrying out enforcement activities in addressing violations of section 152 or 157 relating to abusive reaffirmations of debt. In addition to addressing the violations referred to in the preceding sentence, the individuals described under subsection (b) establish procedures for referring any case which may be material fraudulently in bankruptcy schedules that are intentionally false or intentionally misleading.

‘‘(b) United States District Attorneys and the Federal Bureau of Investigation to address abusive reaffirmations of debt and materially fraudulent statements in bankruptcy schedules.

‘‘(a) In general.—The Attorney General of the United States shall designate the individuals described in subsection (b) to have primary responsibility in carrying out enforcement activities in addressing violations of section 152 or 157 relating to abusive reaffirmations of debt. In addition to addressing the violations referred to in the preceding sentence, the individuals described under subsection (b) establish procedures for referring any case which may be materially fraudulent statements in bankruptcy schedules that are intentionally false or intentionally misleading.

‘‘(b) United States District Attorneys and agents of the Federal Bureau of Investigation to address abusive reaffirmations of debt and materially fraudulent statements in bankruptcy schedules.

‘‘(1) United States attorney for each judicial district of the United States; and

‘‘(2) an agent of the Federal Bureau of Investigation (within the meaning of section 3007) for each field office of the Federal Bureau of Investigation.

‘‘(c) Bankruptcy investigations.—Each United States attorney designated under this section shall, in addition to any other responsibilities, have primary responsibility for carrying out the duties of a United States attorney under section 3007.

‘‘(d) Bankruptcy Procedures.—The bankruptcy courts shall establish procedures for referring any case which may contain a materially fraudulent statement in a bankruptcy schedule to the individuals designated under this section.

‘‘Legal Amendment.—The analysis for chapter 9 of title 18, United States Code, is amended by adding at the end the following:
SEC. 204. PRESERVATION OF CLAIMS AND DEFENCES UPON SALE OF PREDA©TY LOANS.
Section 363 of title 11, United States Code, is amended by adding at the end the following:

"(p) Notwithstanding subsection (f), if a person purchases any interest in a consumer credit transaction that is subject to the Truth in Lending Act (15 U.S.C. 1601 et seq.), or any interest in a consumer credit contract as defined by the Federal Trade Commission Preservation of Claims (Trade Regulation, and that interest is purchased through a sale under this section, then that person shall remain subject to all claims and defenses that are related to the consumer credit transaction or contract, to the same extent as that person would be subject to such claims and defenses of the consumer had the sale taken place under title 11.

SEC. 205. GAO STUDY ON REAFFIRMATION PROCESSES.
(a) STUDY.—The General Accounting Office (in this section referred to as the "GAO") shall conduct a study of the reaffirmation process under title 11, United States Code, to determine the overall treatment of consumers within the context of that process, including consideration of—
(1) the policies and activities of creditors with respect to reaffirmation; and
(2) whether consumers are fully, fairly and consistently informed of their rights pursuant to this title.
(b) REPORT TO CONGRESS.—Not later than 18 months after the date of enactment of this Act, the GAO shall submit a report to the Congress on the results of the study conducted under subsection (a), together with any recommendations for legislation to address any abusive or coercive tactics found within the reaffirmation process.

Subtitle B—Priority Child Support Obligation

SEC. 211. DESIGNATION OF DOMESTIC SUPPORT OBLIGATION.
Section 101 of title 11, United States Code, is amended—
(1) by striking paragraph (12A); and
(2) by inserting after paragraph (14) the following:

"(14A) ‘domestic support obligation’ means a debt that accrues before or after the entry of an order for relief under this title, including interest that accrues on that debt as provided under applicable nonbankruptcy law notwithstanding any other provision of this title, that is—

‘(A) owed to or recoverable by—

‘(i) a spouse, former spouse, or child of the debtor or such child’s parent, legal guardian, or responsible relative; or
‘(ii) a governmental unit;

‘(B) in the nature of alimony, maintenance, support (including assistance provided by a governmental unit) of such spouse, former spouse, or child of the debtor or such child’s parent, without regard to whether such order explicitly so designates;

‘(C) established or subject to establishment before or after entry of an order for relief under this title, by reason of applicable provisions of State law; or

‘(D) not assigned to a nongovernmental entity, unless that obligation is assigned voluntarily by the spouse, former spouse, child, or parent, legal guardian, or responsible relative of the child for the purpose of collecting the debt;"

SEC. 212. PRIORITIES FOR CLAIMS FOR DOMESTIC SUPPORT OBLIGATIONS.
Section 507(a) of title 11, United States Code, is amended—
(1) by striking paragraph (7);
(2) by redesignating paragraphs (1) through (6) as paragraphs (2) through (7), respectively;
(3) in paragraph (2), as redesignated, by striking ‘‘First’’ and inserting ‘‘Second’’;
(4) in paragraph (3), as redesignated, by striking ‘‘Second’’ and inserting ‘‘Third’’;
(5) in paragraph (4), as redesignated—
(A) by striking ‘‘Third’’ and inserting ‘‘Fourth’’; and
(B) by striking the semicolon at the end and inserting a period;
(6) in paragraph (5), as redesignated, by striking ‘‘Fourth’’ and inserting ‘‘Fifth’’;
(7) in paragraph (6), as redesignated, by striking ‘‘Fifth’’ and inserting ‘‘Sixth’’;
(8) in paragraph (7), as redesignated, by striking ‘‘Sixth’’ and inserting ‘‘Seventh’’; and
(9) by inserting before paragraph (2), as redesignated, the following:

"(1) First:

‘(A) Allowed unsecured claims for domestic support obligations that, as of the date of the filing of the petition, are owed or recoverable by a spouse, former spouse, or child of the debtor, or the parent, legal guardian, or responsible relative of such child, without regard to whether the claim is filed by such person or is filed by a governmental unit on behalf of that person, on the condition that funds received under this paragraph by a governmental unit under this title after the date of filing of the petition shall be applied and distributed in accordance with applicable nonbankruptcy law.

‘(B) Subject to claims under subparagraph (A), allowed unsecured claims for domestic support obligations (disregarding any order of the court that the petition was filed are assigned by a spouse, former spouse, child of the debtor, or such child’s parent, legal guardian, or responsible relative that assigns such obligation is assigned voluntarily by the spouse, former spouse, child, parent, legal guardian, or responsible relative of the child for the purpose of collecting the debt) are owed directly to or recoverable by a governmental unit under applicable nonbankruptcy law, on the condition that funds received under this paragraph by a governmental unit under this title after the date of filing of the petition be applied and distributed in accordance with applicable nonbankruptcy law.

(2) in section 1222(a)—
(A) in paragraph (1), by striking ‘‘or’’ at the end;
(B) by redesignating paragraphs (2) through (6) as paragraphs (3) through (7), respectively;
(C) by adding at the end the following:
‘‘(7) failure of the debtor to pay any domestic support obligation that first becomes payable after the date on which the petition is filed.’’;
(3) in section 1222(b)—
(A) in paragraph (2), by striking ‘‘and’’ at the end;
(B) by striking paragraph (3), by striking the period at the end and inserting ‘‘; and’’; and
(C) by adding at the end the following:
‘‘(4) notwithstanding any other provision of this section, a plan may provide for less than full payment of all amounts owed for a claim entitled to priority under section 507(a)(1)(B) only if the plan provides that all of the debtor’s projected disposable income for a 5-year period, beginning on the date that the first payment is due under the plan, will be applied to make payments under the plan.’’;
(4) in section 1223(a)—
(A) by redesignating paragraph (11) as paragraph (12); and
(B) by inserting after paragraph (10) the following:

‘‘(11) provide for the payment of interest accruing after the date of the filing of the petition on unsecured claims that are non-dischargeable under section 1328(a), except that such interest may be paid only to the extent that the debtor has disposable income available to pay such interest after making provision for full payment of all allowed claims;’’;
(5) in section 1225(a)—
(A) in paragraph (5), by striking ‘‘and’’ at the end;
(B) in paragraph (6), by striking the period at the end and inserting ‘‘; and’’; and
(C) by adding at the end the following:
‘‘(7) failure of the debtor to pay any domestic support obligation that first becomes payable after the date on which the petition is filed.’’;
(6) in section 1226(a), in the matter preceding paragraph (1), by inserting ‘‘; or’’; and
(C) by adding at the end the following:

‘‘(11) failure of the debtor to pay any domestic support obligation that first becomes payable after the date on which the petition is filed.’’;
(8) in section 1301(c)—
(A) in paragraph (9), by striking ‘‘or’’ at the end;
(B) in paragraph (10), by striking the period at the end and inserting ‘‘; or’’; and
(C) by adding at the end the following:

‘‘(4) notwithstanding any other provision of this section, a plan may provide for less than full payment of all amounts owed for a claim entitled to priority under section 507(a)(1)(B) only if the plan provides that all of the debtor’s projected disposable income for a 5-year period, beginning on the date that the first payment is due under the plan
will be applied to make payments under the plan.

(9) in section 1322(b)—
(A) in paragraph (9), by striking ";" and inserting a semicolon;
(B) by deleting paragraph (10) as paragraph (11); and
(C) inserting after paragraph (9) the following:
"(11) or in the order specified in sections 464 and 466(a)(3) or under an analogous State law; or
(10) in section 1323(a) (as amended by this Act), by adding at the end the following:
"(8) the debtor is required by a judicial or administrative order or statute to pay a domestic support obligation, the debtor has paid all amounts payable under such order or statute for such obligation that first becomes payable as of the date on which the petition is filed; and"
(11) in section 1323(a), in the matter preceeding paragraph (1), by inserting ", and in the case of a debtor who is required by a judicial or administrative order or statute to pay a domestic support obligation, after such debtor certifies that all amounts payable under such order or statute that are due on or before the date of the certification (including amounts due before the petition was filed, but only to the extent provided for in the plan) have been paid", after "completion by the debtor of all payments under the plan".

SEC. 214. EXCEPTIONS TO AUTOMATIC STAY IN DOMESTIC SUPPORT OBLIGATION PROCEEDINGS.

Section 362(b) of title 11, United States Code, is amended by striking paragraph (2) and inserting the following: 
"(2) under subsection (a)—
(A) of the commencement or continuation of a civil action or proceeding—
(i) for the establishment of paternity;
(ii) for the establishment or modification of an order for domestic support obligations;
(iii) concerning child custody or visitation;
(iv) for the dissolution of a marriage, except to the extent that such proceeding seeks to determine the division of property that is property of the estate; or
(v) regarding domestic violence;
(B) the collection of a domestic support obligation from property that is not property of the estate;
(C) with respect to the withholding of income that is property of the estate or property of the debtor for payment of a domestic support obligation under a judicial or administrative order;
(D) the withholding, suspension, or revocation of drivers' licenses, professional and occupational licenses, and recreational licenses under State law, as specified in section 464(a)(16) of the Social Security Act (42 U.S.C. 664(a)(16));
(E) the reporting of overdue support owed by a parent to any consumer reporting agency as specified in section 466(a)(7) of the Social Security Act (42 U.S.C. 666(a)(7));
(F) of tax refunds, as specified in sections 462 and 466(a)(3) of the Social Security Act (42 U.S.C. 662 and 666(a)(3)) or under an analogous State law; or
(G) of any other person by reason of making that person a party to a civil action or proceeding with a request made under subparagraph (B) of paragraph (8) of section 1328(a), in the case of a debtor who is required by a judicial or administrative order or statute to pay a domestic support obligation, provide the applicable notification specified in subsection (c); and

SEC. 215. NONDISCHARGEABILITY OF CERTAIN DEBT IN BANKRUPTCY, MAINTENANCE, AND SUPPORT.

Section 523 of title 11, United States Code, is amended—
(1) in subsection (a)—
(A) by striking paragraph (5) and inserting the following:
"(5) for a domestic support obligation;";
(B) in paragraph (15), by inserting "to a spouse, former spouse, or child of the debtor and" before "not of the kind";
(ii) by inserting "or" after "court of record"; and
(iii) by striking "unless" and all that follows through the end of the paragraph and inserting a semicolon;
(C) by striking paragraph (18); and
(2) in subsection (c), by striking ".(6), or (15)" each place it appears and inserting "or (6)".

SEC. 216. CONTINUED LIABILITY OF PROPERTY.

Section 522 of title 11, United States Code, is amended—
(1) in subsection (c), by striking paragraph (1) and inserting the following:
"(1) a debt of a kind specified in paragraph (1) or (5) of section 523(a) (in which case, notwithstanding applicable nonbankruptcy law to the contrary, such property shall be liable for a debt of a kind specified in section 523(a)(5));"
(2) in subsection (f)(1)(A), by striking the dash and all that follows through the end of the subparagraph and inserting "of a kind that is specified in section 523(a)(5); or";
(3) in subsection (g)(2), by striking "subsection (f)(2)" and inserting "subsection (f)(1)(B)".

SEC. 217. PROTECTION OF DOMESTIC SUPPORT CLAIMS AGAINST PREFERENTIAL TRANSFER MOTIONS.

Section 547(c)(7) of title 11, United States Code, is amended to read as follows: 
"(7) to the extent such transfer was a bona fide payment of a debt for a domestic support obligation;"

SEC. 218. DISCHARGEABLE INCOME DEFINED.

(a) CONFIRMATION OF PLAN UNDER CHAPTER 13.—Section 1225(b)(2)(A) of title 11, United States Code, is amended by inserting ", or for a domestic support obligation that first becomes payable after the date on which the petition is filed" after "dependent of the debtor".
(b) CONFIRMATION OF PLAN UNDER CHAPTER 13.—Section 1225(b)(2)(A) of title 11, United States Code, is amended by inserting ", or for a domestic support obligation that first becomes payable after the date on which the petition is filed" after "dependent of the debtor".

SEC. 219. COLLECTION OF CHILD SUPPORT.

(a) DUTIES OF TRUSTEE UNDER CHAPTER 7.—Section 704 of title 11, United States Code, as amended by this Act, is amended—
(1) in subsection (a)—
(A) in paragraph (8), by striking "and" at the end;
(B) in paragraph (9), by striking the period and inserting ";" and; and
(C) by adding at the end the following:
"(8) if, with respect to an individual debtor, there is a claim for a domestic support obligation, provide the applicable notification specified in subsection (c); and"
(2) by adding at the end the following:
"(b) in any case described in subsection (a)(7), the trustee shall—
(A)(i) notify in writing the holder of the claim of the right of that holder to use the services of a State child support enforcement agency established under sections 464 and 466 of the Social Security Act (42 U.S.C. 664, 666) for the State in which the holder resides for assistance in collecting child support during and after the bankruptcy procedures; and
(ii) include in the notice under this paragraph the address of the holder of the child support enforcement agency and
(iii) include in the notice an explanation of the rights of the holder of the claim to payment of the claim under this chapter; and
"(B)(i) notify in writing the State child support agency of the State in which the holder of the claim resides; and
(ii) in the notice described in paragraph (1) insert the name, address, and telephone number of the holder of the claim; and
(iii) at such time as the debtor is granted a discharge under section 727, notify the holder of that claim and the State child support agency of the State in which that holder resides of—
"(I) the granting of the discharge;
(II) the last known address of the debtor;
(III) the last known name and address of the debtor's employer; and
(IV) with respect to the debtor's case, the name of each creditor that holds a claim that—
(aa) is not discharged under paragraph (2), (4), or (14A) of section 523(a); or
(bb) was reaffirmed by the debtor under section 524(b)(2).
(2)(A) A holder of a claim or a State child support agency may request from a creditor described in paragraph (1)(B)(iii)(IV) the last known address of the debtor.
(3) Notwithstanding any other provision of law, a creditor that makes a disclosure of a last known address of a debtor in connection with a request made under subparagraph (A) shall not be liable to the debtor or any other person by reason of making that disclosure.
(b) DUTIES OF TRUSTEE UNDER Chapter 13.—Section 1106 of title 11, United States Code, is amended—
(1) in subsection (a)—
(A) in paragraph (6), by striking "and" at the end;
(B) in paragraph (7), by striking the period and inserting ";" and; and
(C) by adding at the end the following:
"(8) if, with respect to an individual debtor, there is a claim for a domestic support obligation, provide the applicable notification specified in subsection (c); and"
(2) by adding at the end the following:
"(c)(1) In any case described in subsection (a)(7), the trustee shall—
(A)(i) notify in writing the holder of the claim of the right of that holder to use the services of a State child support enforcement agency established under sections 464 and 466 of the Social Security Act (42 U.S.C. 664, 666) for the State in which the holder resides for assistance in collecting child support during and after the bankruptcy procedures; and
(ii) include in the notice under this paragraph the address of the holder of the child support enforcement agency and
(iii) include in the notice an explanation of the rights of the holder of the claim to payment of the claim under this chapter; and
"(B)(i) notify in writing the State child support agency of the State in which the holder of the claim resides; and
(ii) in the notice described in paragraph (1) insert the name, address, and telephone number of the holder of the claim; and
(iii) at such time as the debtor is granted a discharge under section 1141, notify the holder of the claim and the State child support agency of the State in which that holder resides of—
"(I) the granting of the discharge;
(II) the last known address of the debtor;
(III) the last known name and address of the debtor's employer; and
“(IV) with respect to the debtor’s case, the name of each creditor that holds a claim that—

“(aa) is not discharged under paragraph (2), (3), or (14) of section 523(a); or

“(bb) was reaffirmed by the debtor under section 524(c).”

“(2)(A) A holder of a claim or a State child support agency may request from a creditor described in paragraph (1)(B)(iii)(IV) the last known address of the debtor.

“(B) Notwithstanding any other provision of law, a creditor that makes a disclosure of a last known address of a debtor in connection with a request made under subparagraph (A) shall not be liable to the debtor or any other person by reason of making that disclosure.”

“(c) DUTIES OF TRUSTEE UNDER CHAPTER 13.—Section 1302 of title 11, United States Code, is amended—

(1) in subsection (b)—

(A) in paragraph (4), by striking “and” at the end;

(B) in paragraph (5), by striking the period and inserting “and”;

(C) by adding at the end following:

“(6) if, with respect to an individual debtor, there is a claim for a domestic support obligation, provide the applicable notification specified in subsection (c).”;

(2) by adding at the end following:

“(c)(1) In any case described in subsection (b)(6), the trustee shall—

“(A) notify in writing the holder of the claim of the right of that holder to use the services of a State child support enforcement agency established under sections 464 and 466 of the Social Security Act (42 U.S.C. 664, 666) for the State in which the holder resides; and

“(B) notify in writing the State child support agency of the State in which the holder of the claim resides of—

“(I) the granting of the discharge;

“(II) the last recent known address of the debtor;

“(III) the last recent known name and address of the debtor’s employer; and

“(IV) with respect to the debtor’s case, the name of each creditor that holds a claim that—

“(aa) is not discharged under paragraph (2), (4), or (14) of section 523(a); or

“(bb) was reaffirmed by the debtor under section 524(c).”

“(2)(A) A holder of a claim or a State child support agency may request from a creditor described in paragraph (1)(B)(iii)(IV) the last known address of the debtor.

“(B) Notwithstanding any other provision of law, a creditor that makes a disclosure of a last known address of a debtor in connection with a request made under subparagraph (A) shall not be liable to the debtor or any other person by reason of making that disclosure.”

SEC. 220. NONDISCHARGEABILITY OF CERTAIN EDUCATIONAL BENEFITS AND LOANS.

Section 523 of title 11, United States Code, is amended by striking paragraph (8) and inserting the following:

“(8) unless excepting such debt from discharge under this paragraph would impose an undue hardship on the debtor and the debtor’s dependents, for—

“(A)(i) an educational benefit overpayment or loan made, insured, or guaranteed by a governmental unit, or made under any program funded in whole or in part by a governmental unit or nonprofit institution; or

“(ii) any obligation to repay funds received as an educational benefit, scholarship, or stipend; or

“(B) any other educational loan that is a qualified education loan, as that term is defined in section 221(e)(1) of the Internal Revenue Code of 1986, incurred by an individual debtor;”

Subtitle C—Other Consumer Protections

SEC. 221. AMENDMENTS TO DISCOURAGE ABUSIVE BANKRUPTCY FILINGS.

Section 110 of title 11, United States Code, is amended—

(1) in subsection (a)(1), by striking “an attorney or an employee of an attorney” and inserting “the attorney for the debtor or an employee of such attorney under the direct supervision of such attorney”;

(2) in subsection (b)—

(A) in paragraph (1), by adding at the end the following: “If a bankruptcy petition preparer is not an individual, then an officer, principal, responsible person, or partner of the preparer shall be required to—

“(A) sign the document for filing; and

“(B) print on the document the name and address of that officer, principal, responsible person or partner.”; and

(B) by striking paragraph (2) and inserting the following:

“(2)(A) Before preparing any document for filing or accepting any fees from a debtor, the bankruptcy petition preparer shall provide to the debtor a written notice to debtors concerning bankruptcy petition preparers, which shall be on an official form issued by the Judicial Conference of the United States.

“(B) The notice under subparagraph (A)—

“(i) shall inform the debtor in simple language what a bankruptcy petition preparer is not an attorney and may not practice law or give legal advice;

“(ii) may contain a description of examples of legal advice that a bankruptcy petition preparer is not authorized to give, in addition to any advice that the preparer may not give by reason of subsection (e)(2); and

“(iii) shall—

“(G) be signed by—

“(aa) the debtor; and

“(bb) the bankruptcy petition preparer, under penalty of perjury; and

“(H) be filed with any document for filing.”

(3) in subsection (c)—

(A) in paragraph (2)—

(i) by striking “(2)” for purposes” and inserting “(2)(A) Subject to subparagraph (B), for purposes”; and

(ii) by adding at the end following:

“(B) If a bankruptcy petition preparer is not an individual, the identifying number of the bankruptcy petition preparer shall be the Social Security account number of the officer, principal, responsible person, or partner of the preparer.”;

(B) by striking paragraph (3); and

(4) in subsection (d)—

(A) by striking “(d)(1)” and inserting “(d)”;

(B) by striking paragraph (2); and

(C) by striking paragraph (2) and (4); and

(D) by adding at the end following:

“(2)(A) A bankruptcy petition preparer may not offer a potential bankruptcy debtor any legal advice, including any legal advice described in subparagraph (B).

“(B) The legal advice referred to in subparagraph (A) includes advising the debtor—

“(i) to file a petition under this title; or

“(II) commencing a case under chapter 7, 11, 12, or 13 is appropriate;

“(ii) whether the debtor’s debts will be eliminated or discharged in a case under this title;

“(III) concerning—

“(I) the tax consequences of a case brought under this title; or

“(II) the dischargeability of tax claims; and

“(III) whether the debtor may or should promise to repay debts to a creditor or enter into a reaffirmation agreement with a creditor to reaffirm a debt;
CONGRESSIONAL RECORD—SENATE

SEC. 224. PROTECTION OF RETIREMENT SAVINGS IN BANKRUPTCY

(a) IN GENERAL.—Section 522 of title 11, United States Code, is amended—

(1) in subsection (b)—

(A) in paragraph (2)—

(i) by striking "(A)'' and inserting "(A)'';

(ii) by striking "(C)'' and inserting "(C)'';

(iii) by striking "(E)'' and inserting "(E)'';

(iv) by striking "(G)'' and inserting "(G)'';

(B) by redesignating paragraph (3) as paragraph (4); and

(C) by inserting after paragraph (2) the following:

"(3) The court, as part of its contempt power, may enroll a bankruptcy petition preparer that has failed to comply with a previous order issued under this section. The injury sustained under this paragraph may be assessed upon motion of the court, the trustee, the United States trustee, or the bankruptcy administrator:'':

(ii) by adding at the end the following:

"(1) by adding at the end the following:

"(1) A bankruptcy petition preparer who fails to comply with any provision of subsection (b), (c), (d), (e), (f), (g), (h), or (i) may be fined not more than $500 for each such failure.''

(2) The court shall triple the amount of any fine assessed under paragraph (1) in any case in which the court finds that a bankruptcy petition preparer failed to comply with the notification requirements under paragraph (1)."

(B) by redesignating paragraph (3) as paragraph (2); and

(C) by inserting after paragraph (2) the following:

"(3) The debtor, the trustee, the creditor, the United States trustee, or the bankruptcy administrator may file a motion for an order imposing a fine on the bankruptcy petition preparer for each violation of this section.

"(4)(A) Fines imposed under this subsection in judicial districts served by bankruptcy or administrative trustees shall be paid to the United States trustee or the bankruptcy administrator.

"(B) the bankruptcy petition preparer shall pay into the bankruptcy administrator, and the bankruptcy petition preparer shall be fined not more than $500 for each such violation.''

(2) Property listed in this paragraph is property that is specified under subsection (b), unless the State law that is applicable to the debtor under paragraph (3)(A) specifically does not so authorize.''

(C) by striking "(b) Notwithstanding" and inserting "(b)(1) Notwithstanding";

(D) by striking "(2)'' and inserting "(2)''; and

(E) by striking "(3)'' and inserting "(3)''; and

(F) by striking "(4)'' and inserting "(4)''.

(3) In paragraph (2), as redesignated—

(i) by striking "Within 10 days after the date of filing a petition, a bankruptcy petition preparer shall file a'' and inserting "A'';

(ii) by inserting "by the bankruptcy petition preparer shall be filed together with the petition, after''; and

(iii) by adding at the end the following: "If rules or guidelines for determining a maximum fee for services have been promulgated or prescribed under paragraph (1), the declaration under this paragraph shall include a certification that the bankruptcy petition preparer complied with the notification requirements under paragraph (1)."

(D) by striking paragraph (3), as redesignated, and inserting the following:

"(3)(A) The court shall disallow and order the immediate turnover to the bankruptcy trustee any fee referred to in paragraph (2) found to be in excess of the value of any services—

(i) rendered by the preparer during the 12-month period immediately preceding the date of the petition; or

(ii) found to be in violation of any rule or guideline promulgated or prescribed under paragraph (1)."

(B) All fees charged by a bankruptcy petition preparer may be forfeited in any case in which the bankruptcy petition preparer fails to comply with this subsection or subsection (b), (c), (d), (e), (f), or (g).

(C) An individual may exempt any funds recovered under this paragraph under section 522(b),""; and

(E) in paragraph (4), as redesignated, by striking "or the United States trustee'' and inserting "the United States trustee, the bankruptcy administrator, or the court, on the initiative of the court.''

(2) Property listed in this paragraph is property that is specified under subsection (b), unless the State law that is applicable to the debtor under paragraph (3)(A) specifically does not so authorize.''

(3) The time for filing a claim for a distribution that has not been made by a court or the Internal Revenue Service shall be extended until the claim is filed, and no lien or certificate of nonreceipt shall be filed with respect to such a claim until 180 days after the time for filing a claim for a distribution that has not been made by a court or the Internal Revenue Service has expired.

(4) For purposes of paragraph (3)(C) and subsection (d)(2), the following shall apply:

(A) If the retirement funds are in a retirement fund that has received a favorable determination under section 708B of the Internal Revenue Code of 1986, and the determination is in effect as of the date of the commencement of the case under section 301, subsection (d)(2)(A) of this title shall be presumed to be exempt from the estate.

(B) If the retirement funds are in a retirement fund that has not received a favorable determination under section 708B, those funds are exempt from the estate if the debtor or the court demonstrates that—

(i) no prior determination to the contrary has been made by a court or the Internal Revenue Service; and

(ii)(I) the retirement fund is in substantial compliance with the applicable requirements of the Internal Revenue Code of 1986; or

(ii)(II) the retirement fund is in substantial compliance with the applicable requirements of the Internal Revenue Code of 1986 and the court is not materially responsible for that failure.

(C) A direct transfer of retirement funds from 1 fund or account that is exempt from taxation under section 401, 403, 408, 408A, 414, 457, or 501(a) of the Internal Revenue Code of 1986, or otherwise, shall not cease to qualify for exemption under paragraph (3)(C) or subsection (d)(2) by reason of that direct transfer.

(D)(i) Any distribution that qualifies as an eligible rollover distribution within the meaning of section 401(c) of the Internal Revenue Code of 1986 or that is described in clause (II) shall not be treated as a distribution for purposes of section 401(c) or subsection (d)(2) for purposes of section 408 or 408A, or 414, 457, or 501(a) of the Internal Revenue Code of 1986.

(ii) A distribution described in this clause shall be treated as an eligible rollover distribution within the meaning of section 401(c) of the Internal Revenue Code of 1986 if the distribution is—

(I) made from a fund or account that is exempt from taxation under section 401, 403, 408, 408A, 414, 457, or 501(a) of the Internal Revenue Code of 1986, and

(II) to the extent allowed by law, deposited in such a fund or account not later than
60 days after the distribution of that amount,’; and
(2) in subsection (d)—
(A) in the matter preceding paragraph (1), by striking ‘‘subsection (b)(1)’’ and inserting ‘‘subsection (b)(2)’’; and
(B) by redesignating paragraph (4) as paragraph (5); and
(3) by inserting after paragraph (5) the following:
‘‘(19) under subsection (a), of withholding of income from a debtor’s wages and collection of amounts withheld, under the debtor’s agreement authorizing that withholding and collection for the benefit of a pension, profit-sharing, stock bonus, or other plan established under section 401, 403, 408, 408A, 414, 457, or 501(a) of the Internal Revenue Code of 1986,’’.

(b) AUTOMATIC STAY.—Section 362(b) of title 11, United States Code, is amended—
(1) in paragraph (17), by striking ‘‘or’’ at the end;
(2) in paragraph (18), by striking the period and inserting a semicolon;
(3) by inserting after paragraph (18) the following:
‘‘(19) under subsection (a), of withholding of income from a debtor’s wages and collection of amounts withheld, under the debtor’s agreement authorizing that withholding and collection for the benefit of a pension, profit-sharing, stock bonus, or other plan established under section 401, 403, 408, 408A, 414, 457, or 501(a) of the Internal Revenue Code of 1986, that is sponsored by the employer of the debtor, an affiliated success, or predecessor of such employer—
‘‘(A) to the extent that the amounts withheld and collected are used solely for payments relating to a loan from a plan that satisfies the requirements of section 408(b)(1) of the Employee Retirement Income Security Act of 1974 or is subject to section 72(p) of the Internal Revenue Code of 1986; or
‘‘(B) in the case of a loan from a thrift savings plan described in subchapter III of chapter 8 of title 5, that satisfies the requirements of such title.’’; and
(4) by adding at the end of the flush material at the end of the subsection, the following: ‘‘Nothing in paragraph (19) may be construed to provide that any loan made under a governmental plan under section 414(d), or a contract or account under section 403(b) of the Internal Revenue Code of 1986 constitutes a claim or a debt under this title.’’. (c) EXCEPTIONS TO DISCHARGE.—Section 522(a)(1) of title 11, United States Code, as amended by the Act, is amended by adding at the end the following:
‘‘(18) owed to a pension, profit-sharing, stock bonus, or other plan established under section 401, 403, 408A, 414, 457, or 501(c) of the Internal Revenue Code of 1986, under—
‘‘(A) a loan permitted under section 408(b)(1) of the Employee Retirement Income Security Act of 1974, or subject to section 72(p) of the Internal Revenue Code of 1986; or
‘‘(B) a loan from the thrift savings plan described in subchapter III of chapter 8 of title 5, that satisfies the requirements of section 414(g)(9) of such title.’’.
Nothing in paragraph (18) may be construed to provide that any loan made under a governmental plan under section 414(o), or a contract or account under section 403(b), of the Internal Revenue Code of 1986 constitutes a claim or a debt under this title.’’. (d)(2) by redesignating paragraph (5) as paragraph (10); and
(3) by inserting after paragraph (10) the following:
‘‘(19) funds placed in an education individual retirement account (as defined in section 530(b)(1) of the Internal Revenue Code of 1986) not later than 365 days before the date of the filing of the petition, but—
‘‘(A) only if the designated beneficiary of such account was a son, daughter, stepson, stepdaughter, grandchild, or step-grandchild of the debtor for the taxable year for which such funds were placed in such account; or
‘‘(B) only to the extent that such funds—
‘‘(i) are not pledged or promised to any entity in connection with any extension of credit; and
‘‘(ii) are not excess contributions (as described in section 4973(e) of the Internal Revenue Code of 1986); and
‘‘(C) in the case of funds placed in all such accounts having the same designated beneficiary not earlier than 720 days nor later than 365 days before the date of the filing of the petition, but—
‘‘(A) only if the designated beneficiary of the amounts paid or contributed to such tution program was a son, daughter, stepson, stepdaughter, grandchild, or step-grandchild of the debtor for the taxable year for which such funds were paid or contributed; or
‘‘(B) with respect to the aggregate amount paid or contributed to such program having the same designated beneficiary, only so much of such amount as does not exceed $5,000;’’; and
(6) funds used to purchase a tuition credit or certificate or contributed to an account in accordance with section 529(a)(1) of the Internal Revenue Code of 1986 under a qualified State tuition program (as defined in section 529(b)(1) of such Code) not later than 365 days before the date of the filing of the petition, but—
‘‘(A) only if the designated beneficiary of the amounts paid or contributed to such tution program was a son, daughter, stepson, stepdaughter, grandchild, or step-grandchild of the debtor for the taxable year for which such funds were paid or contributed; or
‘‘(B) with respect to the aggregate amount paid or contributed to such program having the same designated beneficiary, only so much of such amount as does not exceed $5,000;’’; and
(3) by inserting after paragraph (12) the following:
‘‘(12A) ‘debt relief agency’ means any person who provides any bankruptcy assistance to an assisted person in return for the payment of money or other compensation with respect to a case or proceeding under this title;’’; and
(4) by adding the following to the end of the section:
‘‘(A) any person that is an officer, director, employee or agent of that person;
‘‘(B) a nonprofit organization which is exempt from taxation under section 501(c)(3) of the Internal Revenue Code of 1986;
‘‘(C) a creditor of the person, to the extent that the creditor is assisting the person to restructure any debt owed by the person to the creditor;
‘‘(D) a depository institution (as defined in section 3 of the Federal Deposit Insurance Act) or any Federal credit union or State credit union (as those terms are defined in section 101 of the Federal Credit Union Act), or any affiliate or subsidiary of such a depository institution or organization;
‘‘(E) an author, publisher, distributor, or seller of works subject to copyright protection under title 17, when acting in such capacity.’’.

(e) CONFORMING AMENDMENT.—Section 101(b)(1) of title 11, United States Code, is amended by inserting ‘‘101(3),’’ after ‘‘sections’’. (f) by adding at the end the following:
‘‘(e) in determining whether any of the relationships specified in paragraph (5)(A) or (B) a subsection of a legally adopted child of an individual (and a child who is a member of an individual’s household, if placed with such individual by an authorized placement agency for legal adoption by such individual), or a foster child of an individual (if such child has as the child’s principal place of abode the home of the debtor and the member of the household shall be treated as a child of such individual by blood.’’.

(b) DEBTOR’S DUTIES.—Section 521 of title 11, United States Code, as amended by this Act, is amended by adding at the end the following:
‘‘(c) In addition to meeting the requirements under subsection (a), a debtor shall file with the court a record of any interest that a debtor has in an education individual retirement account (as defined in section 530(b)(1) of the Internal Revenue Code of 1986) or under a qualified State tuition program (as defined in section 529(b)(1) of such Code) not later than 365 days before the date of the filing of the petition, but—
‘‘(A) only if the designated beneficiary of the amounts paid or contributed to such tution program was a son, daughter, stepson, stepdaughter, grandchild, or step-grandchild of the debtor for the taxable year for which such funds were placed in such account; or
‘‘(B) only to the extent that such funds—
‘‘(i) are not pledged or promised to any entity in connection with any extension of credit; and
‘‘(ii) are not excess contributions (as described in section 4973(e) of the Internal Revenue Code of 1986); and
‘‘(C) in the case of funds placed in all such accounts having the same designated beneficiary not earlier than 720 days nor later than 365 days before the date of the filing of the petition, but—
‘‘(A) only if the designated beneficiary of the amounts paid or contributed to such tution program was a son, daughter, stepson, stepdaughter, grandchild, or step-grandchild of the debtor for the taxable year for which such funds were paid or contributed; or
‘‘(B) with respect to the aggregate amount paid or contributed to such program having the same designated beneficiary, only so much of such amount as does not exceed $5,000;’’; and
(4A) ‘bankruptcy assistance’ means any goods or services sold or otherwise provided to an assisted person with the express or im-
SEC. 227. RESTRICTIONS ON DEBT RELIEF AGENCIES.

(a) Enforcement.—Subchapter II of chapter 5 of title 11, United States Code, is amended by adding at the end the following:

```
526. Debt relief enforcement.

(a) DISCLOSURES.—Subchapter II of chapter 5 of title 11, United States Code, as amended by adding after the section relating to section 527, the following:

526. Debt relief enforcement.
```

(b) Provided bankruptcy assistance to an assisted person in a case or proceeding under this title that is dismissible or converted to a case or proceeding under this title;

(A) may bring an action on behalf of its resident or the actual damages of an assisted person arising from such violation, including any liability under paragraph (2); and

(B) in the case of any successful action under subparagraph (A) or (B), shall be awarded the costs of the action and reasonable attorney fees as determined by the court;

(2) The United States District Court for any district located in the State shall have concurrent jurisdiction of any action under subparagraphs (A) and (B) of paragraph (3);

(3) Notwithstanding any other provision of Federal law and in addition to any other remedy provided under Federal or State law, if the court, on its own motion or on motion of the United States trustee or the debtor, finds that a person intentionally violated this section, or engaged in a clear and consistent pattern or practice of violating this section, the court may—

(A) enjoin the violation of such section;

(B) impose an appropriate civil penalty against such person.

(c) No provision of this section, section 527, or section 528 shall—

(1) annul, alter, affect, or exempt any person subject to such sections from complying with any law of any State except to the extent that such law is inconsistent with those sections, and then only to the extent of the inconsistency; or

(2) be deemed to limit or curtail the authority or ability—

(A) of a State or subdivision or instrumentality thereof, to determine and enforce qualifications for the practice of law under the laws of the State;

(B) of a Federal court to determine and enforce the qualifications for the practice of law before that court.

(4) The United States District Court for any district in the State for a case or proceeding under this title shall provide each assisted person at the same time as the notices required under subsection (a)(1) with the following statement, to the extent applicable, or one substantially similar.

The statement shall be clear and conspicuous and shall be in a single document separate from other documents or notices provided to the assisted person.

```
IMPORTANT INFORMATION ABOUT BANKRUPTCY ASSISTANCE SERVICES FROM AN ATTORNEY OR BANKRUPTCY PETITION PREPARER.
```

If you decide to seek bankruptcy relief, you can represent yourself, you can hire an attorney to represent you, or you can get help in some localities from a bankruptcy petition preparer. The LAW REQUIRES AN ATTORNEY OR BANKRUPTCY PETITION PREPARER TO GIVE YOU A WRITTEN CONTRACT SPECIFYING WHAT THE ATTORNEY OR BANKRUPTCY PETITION PREPARE WILL DO FOR YOU AND HOW MUCH IT WILL COST. Ask to see the contract before you hire anyone.

The following information helps you understand what must be done in a routine bankruptcy case to help you evaluate how much service you need. Although bankruptcy can be complex, many cases are routine.

Before filing a bankruptcy case, either you or your attorney should analyze your eligibility for different forms of debt relief made available by the Bankruptcy Code and which form of relief is most likely to benefit you. Be sure you understand the relief you can obtain and its limitations. To file a bankruptcy case, documents called a Petition, Schedules and Statement of Financial Affairs as well as a Statement of Intention need to be prepared correctly and filed with the bankruptcy court. You will have to pay a filing fee to the bankruptcy court. Once your case starts, you will have to attend the required first meeting of creditors where you may be questioned by a court official called a “trustee” and by creditors.

If you choose to file a chapter 7 case, you may be asked by a creditor to reaffirm a debt. You may want to consider whether to do so and a creditor is not permitted to coerce you into reaffirming your debts.

If you choose to file a chapter 13 case in which you repay your creditors what you can afford over 3 to 5 years, you may also want help with preparing your chapter 13 plan and with the confirmation hearing on your plan which will be before a bankruptcy judge.

If you select another type of relief under the Bankruptcy Code other than chapter 7 or chapter 13, you will want to find out what needs to be done from someone familiar with that type of relief.

Your bankruptcy case may also involve litigation. You are generally permitted to represent yourself in litigation in bankruptcy court, but only bankruptcy petition preparers, can give you legal advice.

```
c. Except to the extent the debt relief agency provides the required information itself after reasonably diligent inquiry of the assisted person or others so as to obtain such information reasonably accurately for inclusion on the petition or schedules or statement of financial affairs, a debt relief agency providing bankruptcy assistance to an assisted person, to the extent permitted by nonbankruptcy law, shall provide each assisted person at the time required for the notice required under subsection (a)(1) reasonably sufficient information (which shall be provided in a clear and concise writing) to the assisted person on how to provide all the information the assisted person is required to provide under this title pursuant to section 521, including—
  
(1) how to value assets at replacement value, determine current monthly income, the current monthly child support obligation, under section 707(b)(2) and, in a chapter 13 case, how to determine disposable income in accordance with section 707(b)(2) and related calculations;
  
(2) how to provide under this title pursuant to section 528 and to value exempt property at the time of the bankruptcy filing, the present fair market value of such property if the property is described in section 527, including how to determine what amount is owed and what address for the creditor should be shown; and
  
(3) how to value assets at replacement value as defined in section 506 of this title.
  
(d) A debt relief agency shall maintain a copy of the notices required under subsection (a) of this section for 2 years after the date on which the notice is given to the assisted person.
  
(b) CONFORMING AMENDMENT.—The table of sections for chapter 5 of title 11, United States Code, as amended by this Act, is amended by adding after the item relating to section 525 the following:
  
527. Discharge of secured claims and judicial lien.
  
SEC. 229. REQUIREMENTS FOR DEBT RELIEF AGENCIES.
  
(a) ENFORCEMENT.—Subchapter II of chapter 5 of title 11, United States Code, as amended by this Act, is amended by adding at the end of the section:
  
§ 528. Requirements for debt relief agencies.
  
(a) A debt relief agency shall—
  
(1) provide the list of creditors, including how to determine what amount is owed and what address for the creditor should be shown; and
  
(2) provide the assisted person with a copy of a written contract with such assisted person that explains clearly and conspicuously—
  
(A) the services such agency will provide to such assisted person; and
  
(B) the fees or charges for such services, and the terms of payment;
  
(3) clearly and conspicuously disclose in any advertisement of bankruptcy assistance services or of the benefits of bankruptcy directed to the general public (whether in general media, seminars or specific mailings, telephonic or electronic messages, or otherwise) that the services or benefits are with respect to bankruptcy relief under this title; and
  
(4) clearly and conspicuously using the following statement: 'We are a debt relief agency. We help people file for bankruptcy relief under the Bankruptcy Code, or a substantially similar state law in order to—
  
(b)(1) An advertisement of bankruptcy assistance services or of the benefits of bankruptcy directed to the general public includes—
  
(A) descriptions of bankruptcy assistance in connection with a chapter 13 plan whether or not chapter 13 is specifically mentioned in such advertisements;
  
(B) statements such as 'federally supervised repayment plan' or 'federal debt restructuring help' or other similar statements that could lead a reasonable consumer to believe that debt counseling was being performed when in fact the services were directed to providing bankruptcy assistance with a chapter 13 plan or other form of bankruptcy relief under this title.
  
(2) An advertisement, directed to the general public, indicating that the debt relief agency provides assistance with respect to credit defaults, mortgage foreclosures, eviction proceedings, excessive debt, debt collection pressure, or inability to pay any consumer debt shall—
  
(A) disclose clearly and conspicuously in such advertisement that the assistance may involve bankruptcy relief under this title; and
  
(B) include the following statement: 'We are a debt relief agency. We help people file for bankruptcy relief under the Bankruptcy Code, or a substantially similar state law in order to—
  
(3) how to complete the list of creditors, whether or not chapter 13 is specifically mentioned in such advertisements;
  
(4) how to value assets at replacement value as defined in section 506 of this title;
  
(5) how to value exempt property at the time of the bankruptcy filing, the present fair market value of such property if the property is described in section 527, including how to determine what amount is owed and what address for the creditor should be shown; and
  
(6) how to value assets at replacement value as defined in section 506 of this title.
  
(7) how to complete the list of creditors, whether or not chapter 13 is specifically mentioned in such advertisements;
  
(8) how to provide under this title pursuant to section 528 and to value exempt property at the time of the bankruptcy filing, the present fair market value of such property if the property is described in section 527, including how to determine what amount is owed and what address for the creditor should be shown; and
  
(9) how to value assets at replacement value as defined in section 506 of this title.
  
(b) CONFORMING AMENDMENT.—The table of sections for chapter 5 of title 11, United States Code, as amended by this Act, is amended by adding after the item relating to section 527 the following:
  
528. Debtor's bill of rights.
  
SEC. 230. GAO STUDY.
  
(a) STUDY.—Not later than 270 days after the date of enactment of this Act, the Comptroller General of the United States shall conduct a study of the feasibility, effectiveness, and cost of requiring trustees appointed under title 11, United States Code, or the bankruptcy courts, to provide to the Office of Inspector General, and the United States Trustee, the results of the study required by subsection (a).
  
(b) GAO REPORT.—Not later than 270 days after the date of enactment of this Act, the Comptroller General shall submit to the Congress a report containing the results of the study required by subsection (a).
  
SEC. 231. PROTECTION OF NONPUBLIC PERSONAL INFORMATION.
  
(a) IN GENERAL.—Section 363(b)(1) of title 11, United States Code, as amended by the Bankruptcy Abuse Prevention and Consumer Protection Act of 2005, is amended by inserting after the item relating to personal bankruptcy the following:
  
41A. 'personally identifiable information', if provided by the individual to the debtor in connection with obtaining a product or service from the debtor primarily for personal, family, or household purposes—
  
(A) means—
  
(i) the individual’s first name (or initials) and last name, whether given at birth or adoption or legally changed; and
  
(ii) the physical address for the individual’s home;
  
(iii) the individual’s e-mail address;
  
(iv) the individual’s home telephone number;
  
(v) the individual’s social security number; or
  
(vi) the individual’s credit card account number; and
  
(B) means, when identified in connection with one or more of the items of information listed in subparagraph (A) on or before the expiration of 30 days after the date of the order for relief; or
  
(v) the individual’s social security number;
  
(B) statements such as 'federally supervised repayment plan' or 'federal debt restructuring help' or other similar statements that could lead a reasonable consumer to believe that debt counseling was being performed when in fact the services were directed to providing bankruptcy assistance with a chapter 13 plan or other form of bankruptcy relief under this title.
  
(2) An advertisement, directed to the general public, indicating that the debt relief agency provides assistance with respect to credit defaults, mortgage foreclosures, eviction proceedings, excessive debt, debt collection pressure, or inability to pay any consumer debt shall—
  
(A) disclose clearly and conspicuously in such advertisement that the assistance may involve bankruptcy relief under this title; and
  
(B) include the following statement: 'We are a debt relief agency. We help people file for bankruptcy relief under the Bankruptcy Code, or a substantially similar state law in order to—
  
(3) how to complete the list of creditors, whether or not chapter 13 is specifically mentioned in such advertisements;
  
(4) how to value assets at replacement value as defined in section 506 of this title;
  
(5) how to value exempt property at the time of the bankruptcy filing, the present fair market value of such property if the property is described in section 527, including how to determine what amount is owed and what address for the creditor should be shown; and
  
(6) how to value assets at replacement value as defined in section 506 of this title.
  
(b) CONFORMING AMENDMENT.—The table of sections for chapter 5 of title 11, United States Code, as amended by this Act, is amended by adding after the item relating to section 527 the following:
  
528. Debtor’s bill of rights.
  
SEC. 232. CONSUMER PRIVACY OMBUDSMAN.
  
(a) IN GENERAL.—
  
(1) APPOINTMENT ON REQUEST.—If the trustee expects to sell or lease personally identifiable information in a manner which requires a presentation of the debtor's personal bankruptcy case, the trustee shall request, and the court shall appoint, an ombudsman to serve as ombudsman during the case not later than—
  
(A) on or before the expiration of 30 days after the date of the order for relief; or
  
(B) 5 days prior to any hearing described in section 363(b)(1)(B) of title 11, United States Code, as amended by this Act.
  
(2) DUTIES OF OMBUDSMAN.—It shall be the duty of the ombudsman to provide the court information to assist the court in its consideration of the facts, circumstances, and conditions of the sale or lease under section 363(b)(1)(B) of title 11, United States Code, as amended by this Act. Such information may include a presentation of the debtor's privacy policy in effect, potential losses or gains of privacy to consumers if the sale or lease is approved, potential costs or benefits to consumers if the sale or lease is not approved, and potential alternatives which mitigate potential privacy losses or potential costs to consumers.
  
(b) APPOINTMENT.—The ombudsman shall receive notice of, and shall have a right to appear and be heard, at any hearing described in section 363(b)(1)(B) of title 11, United States Code, as amended by this Act.
  
(c) CONFIDENTIALITY.—The ombudsman shall maintain any personally identifiable information obtained by the ombudsman under this title as confidential information.
  
(d) COMPENSATION OF CONSUMER PRIVACY OMBUDSMAN.—Section 330(a)(1) of title 11, United States Code, is amended in the matter preceding subparagraph (A), by inserting "the ombudsman appointed under section 382," before "an examiner".
  
SEC. 233. PROHIBITION ON DISCLOSURE OF IDENTITY OF MINOR CHILDREN.
  
(a) PROHIBITION.—Chapter 11, title 11, United States Code, is amended by adding after section 111, as added by this Act, the following:
  
41. Prohibition on disclosure of identity of minor children—
  
"In a case under this title, the debtor may be required to provide information regarding
a minor child involved in matters under this title, as required to be maintained in the public records in the case the name of such minor child. Notwithstanding section 107(a), the debtor may be required to disclose the name of such minor child in a nonpublic record maintained by the court. Such nonpublic record shall be available for inspection by the judge, United States Trustee, the trustee, or an auditor under section 683 of the Bankruptcy Reform Act of 2001. Each such judge, United States Trustee, trustee, or auditor shall maintain the confidentiality of the identity of such minor child in the nonpublic record;

4. (b) CLERICAL AMENDMENT.—The table of sections for chapter 1 of title 11, United States Code, is amended by adding at the end the following:

"II. Prohibition on disclosure of identity of minor children.

TITLE III—DISCOURAGING BANKRUPTCY ABUSE

SEC. 301. REINFORCEMENT OF THE FRESH START.

Section 362(b) of title 11, United States Code, is amended—

1. (1) by striking "by a court" and inserting "on a party by any court";

2. (2) by striking "section 191(b) or (c)" and inserting subsection (b) or (f)(2) of section 191"

and

3. by adding at the end the following:

"B) such presumption may be rebutted by creditors to be stayed; and

"C) perform the terms of a plan confirmed by the court; or

"D) there has not been a substantial change in the financial or personal affairs of the debtor since the dismissal of the next most previous case under chapter 7, 11, or 13 or any other reason to conclude that the later case were pending within the previous year but were dismissed, other than a case refiled under section 707(b), the stay under subsection (a) shall not go into effect upon the filing of the later case; and

"(ii) as to any creditor that commenced an action under subsection (d) in a previous case in which the individual was a debtor if satisfied as of the date of dismissal of such case, that action was still pending or had been resolved by terminating, conditioning, or limiting the stay as to such creditor; and

"(ii) on request of a party in interest, the court shall Promptly enter an order confirming that no stay is in effect;

"(B) if, within 30 days after the filing of the later case, a party in interest requests the court may order the stay to take effect in the case as to any or all creditors (subject to subparagraph (D) for purposes of subparagraph (B), (ii) on request of a party in interest, the court shall order the stay to take effect in the case as to any or all creditors (subject to subparagraph (D) for purposes of subparagraph (B), or if the bankruptcy case was filed in another proceeding that is the successor or equivalent to the intent of section 366(b) of title 11, United States Code, as amended or a similar non-Federal law); and

"(C) a stay imposed under subparagraph (B) shall be effective on the date of entry of such order allowing the stay to take effect; and

"(D)_for purposes of subparagraph (B), a case is presumed not to be in good faith (but such presumption may be rebutted by clear and convincing evidence to the contrary)

"(ii) as to all creditors if—

"(1) the party in interest demonstrates that the filing of the later case was in good faith as to the creditors to be stayed; and

"(C) for purposes of subparagraph (B), a case is presumed not to be in good faith (but such presumption may be rebutted by clear and convincing evidence to the contrary)

"(i) as to all creditors if—

"(D) the party in interest demonstrates that the filing of the later case was in good faith as to the creditors to be stayed; and

"(C) for purposes of subparagraph (B), a case is presumptively not filed in good faith (but such presumption may be rebutted by clear and convincing evidence to the contrary)

"(ii) as to all creditors if—

"(D) the party in interest demonstrates that the filing of the later case was in good faith as to the creditors to be stayed; and

"(C) for purposes of subparagraph (B), a case is presumptively not filed in good faith (but such presumption may be rebutted by clear and convincing evidence to the contrary)

"(i) as to all creditors if—

"(D) the party in interest demonstrates that the filing of the later case was in good faith as to the creditors to be stayed; and

"(C) for purposes of subparagraph (B), a case is presumptively not filed in good faith (but such presumption may be rebutted by clear and convincing evidence to the contrary)

"(i) as to all creditors if—

"(D) the party in interest demonstrates that the filing of the later case was in good faith as to the creditors to be stayed; and

"(C) for purposes of subparagraph (B), a case is presumptively not filed in good faith (but such presumption may be rebutted by clear and convincing evidence to the contrary)

"(i) as to all creditors if—

"(D) the party in interest demonstrates that the filing of the later case was in good faith as to the creditors to be stayed; and

"(C) for purposes of subparagraph (B), a case is presumptively not filed in good faith (but such presumption may be rebutted by clear and convincing evidence to the contrary)

"(i) as to all creditors if—

"(D) the party in interest demonstrates that the filing of the later case was in good faith as to the creditors to be stayed; and

"(C) for purposes of subparagraph (B), a case is presumptively not filed in good faith (but such presumption may be rebutted by clear and convincing evidence to the contrary)

"(i) as to all creditors if—

"(D) the party in interest demonstrates that the filing of the later case was in good faith as to the creditors to be stayed; and

"(C) for purposes of subparagraph (B), a case is presumptively not filed in good faith (but such presumption may be rebutted by clear and convincing evidence to the contrary)

"(i) as to all creditors if—

"(D) the party in interest demonstrates that the filing of the later case was in good faith as to the creditors to be stayed; and

"(C) for purposes of subparagraph (B), a case is presumptively not filed in good faith (but such presumption may be rebutted by clear and convincing evidence to the contrary)

"(i) as to all creditors if—

"(D) the party in interest demonstrates that the filing of the later case was in good faith as to the creditors to be stayed; and

"(C) for purposes of subparagraph (B), a case is presumptively not filed in good faith (but such presumption may be rebutted by clear and convincing evidence to the contrary)

"(i) as to all creditors if—

"(D) the party in interest demonstrates that the filing of the later case was in good faith as to the creditors to be stayed; and

"(C) for purposes of subparagraph (B), a case is presumptively not filed in good faith (but such presumption may be rebutted by clear and convincing evidence to the contrary)

"(i) as to all creditors if—

"(D) the party in interest demonstrates that the filing of the later case was in good faith as to the creditors to be stayed; and

"(C) for purposes of subparagraph (B), a case is presumptively not filed in good faith (but such presumption may be rebutted by clear and convincing evidence to the contrary)
days after the first meeting of creditors under section 341(a) of title 11, United States Code, as amended by this Act—

"(A) enters into an agreement with the creditor pursuant to section 524(c) of this title with respect to the claim secured by such property; or

"(B) redeems such property from the security interest pursuant to section 722 of this title.

If the debtor fails to so act within the 45-day period beginning on the date the stay provided by subsection (a)(2)(B) is in effect under section 362(a) of this title is terminated with respect to the personal property of the estate or of the debtor which is affected by such order, such property shall no longer be property of the estate, and the creditor may take whatever action as to such property as is permitted by applicable nonbankruptcy law, unless the court determines on the motion of the trustee brought before the expiration of such 45-day period, and after notice and a hearing, that such property is of consequential value or benefit to the estate, orders appropriate adequate protection of the creditor's interest, and orders the debtor to deliver any collateral in the debtor's possession to the trustee.

SEC. 305. RELIEF FROM THE AUTOMATIC STAY WHEN THE DEBTOR DOES NOT COMPLETE INTENDED SURRENDER OF CONSUMER DEBT COLLATERAL—

Title 11, United States Code, is amended—

(1) in section 362—

(A) in subsection (c), by striking "(e), and (f)" and inserting "(e), (f), and (h)";

(B) by redesignating subsection (h) as subsection (k); and

(C) by inserting after subsection (g) the following:

"(h) In an individual case under chapter 7, 11, or 13, the stay provided by subsection (a) is terminated with respect to personal property of the estate or of the debtor securable in whole or in part a claim, or subject to an unexpired lease, and such personal property shall no longer be property of the estate if the refusal in the applicable time set by section 521(a)(2) of this title—

"(A) to file timely any statement of intention required under section 521(a)(2) of this title with respect to property after notice and a hearing, in that statement that the debtor will either surrender the property or retain it and, if retaining it, either redeem the property pursuant to section 722 of this title, reaffirm the debt it secures pursuant to section 524(c) of this title, or assume the unexpired lease pursuant to section 365(p) of this title; or

"(B) to take timely the action specified in that statement of intention, as it may be amended before expiration of the period for taking action, unless the statement of intention specifies reaffirmation and the creditor refuses to reaffirm on the original contract terms;

"(2) Paragraph (1) does not apply if the court determines, on the motion of the trustee filed before the expiration of the applicable time set by section 521(a)(2), after notice and a hearing, that such property is of consequential value or benefit to the estate, and orders appropriate adequate protection of the creditor's interest, and orders the debtor to deliver any collateral in the debtor's possession to the trustee. If the court does not so determine, the stay provided by subsection (a)(2)(B) continues until the expiration of the proceeding on the motion.; and

(2) in section 321—

(A) in subsection (a)(2), as so designated by this Act,

(B) in subsection (a)(2)(B), as so designated by this Act—

"(1) by striking "forty-five days after the filing of a notice of intent under this section" and inserting "30 days after the first date set for the meeting of creditors under section 341(a) of this title"; and

"(2) by striking "forty-five day" and inserting "30-day";

(C) in subsection (a)(2)(C), as so designated by this Act, by inserting ". . . except as provided in section 362(h) of this title" before the semicolon; and

(D) by adding at the end the following:

"(d) If the debtor fails timely to take the action specified in that statement or, in paragraphs (1) and (2) of section 362(h) of this title, with respect to property which a lessor or bailor owns and has leased or converted without completion of the lease, such lien shall prevent or limit the operation of a provision in the underlying lease or agreement which has the effect of placing the debtor in default under such lease or agreement by reason of the occurrence, pendence, or existence of a proceeding under this title or the insolvency of the debtor. Nothing in this subsection shall be deemed to justify limiting such a provision in any other circumstance.

SEC. 306. GIVING SECURED CREDITORS FAIR TREATMENT IN CHAPTER 13—

(a) In GENERAL.—Section 1325(a)(5)(B)(i) of title 11, United States Code, is amended to read as follows:

"(i) the plan provides that—

"(1) the holder of such claim retain the lien securing such claim until the earlier of—

"(A) the payment of the underlying debt determined under nonbankruptcy law; or

"(B) discharge under section 1328; and

"(2) if the case under this chapter is dismissed or converted under applicable nonbankruptcy law; or

"(B) a cooperative that owns property that is the subject of the claim, the debt was incurred within the 3-year period preceding the filing of the petition, and the collateral for that debt consists of a motor vehicle (as defined in section 506 of title 11) acquired in full as of the date of conversion, notwithstanding any valuation or determination of the amount of an allowed secured claim made for the purposes of the chapter 13 proceeding; and

"(ii) unless a prebankruptcy default has been fully cured under the plan at the time of conversion, in any proceeding under this title or otherwise, the default shall have the effect given under applicable nonbankruptcy law.

(b) Rescission of Title 11 Foundation for Secured Credit.—Section 1325(a)(5) of title 11, United States Code, is amended by adding at the end the following:

"(A) means a residential structure, includ

"(B) includes an individual condominium or cooperative unit, a mobile or manufactured home, or trailer; and

"(C) a burial plot for the debtor or a dependent of the debtor uses as a residence; or

"(D) the debtor or a dependent of the debtor uses as a residence; or

"(E) a cooperative that owns property that is the subject of the claim, the debt was incurred within the 3-year period preceding the filing of the petition, and the collateral for that debt consists of a motor vehicle (as defined in section 506 of title 11) acquired in full as of the date of conversion, notwithstanding any valuation or determination of the amount of an allowed secured claim made for the purposes of the chapter 13 proceeding; and

"(ii) unless a prebankruptcy default has been fully cured under the plan at the time of conversion, in any proceeding under this title or otherwise, the default shall have the effect given under applicable nonbankruptcy law.

(c) Definitions.—Section 101 of title 11, United States Code, as amended by this Act, is amended—

"(1) by inserting after paragraph (27) the following:

"(27A) ‘incidental property’ means, with respect to a debtor’s principal residence—

"(A) property commonly conveyed with a principal residence in the area where the real estate is located;

"(B) all easements, rights, appurtenances, fixtures, rents, royalties, mineral rights, oil or gas rights or profits, water rights, escrow funds, or insurance proceeds; and

"(C) all replacements or additions;.

SEC. 307. DOMICILIARY REQUIREMENTS FOR EXEMPTIONS—

Section 522(b)(3)(A) of title 11, United States Code, as so designated by this Act, is amended—

(1) by striking "180 days" and inserting "730 days"; and

(2) by striking ", or for a longer portion of such 180-day period than in any other place" and inserting ", or for a longer portion of such 730-day period than in any other place".

SEC. 308. LIMITATION—

Section 522 of title 11, United States Code, is amended—

(1) in subsection (b)(3)(A), as so designated by this Act, by inserting sub- section (o), “before” any other provision; and

(2) by adding at the end the following new subsection:

"(o) As a result of electing under subsection (b)(3)(A) to exempt property under State or local law, a debtor may not exempt any amount of interest that exceeds, in the aggregate, $125,000 in value in—

"(A) real or personal property that the debtor or a dependent of the debtor uses as a residence; or

"(B) a cooperative that owns property that the debtor or a dependent of the debtor uses as a residence; or

"(2) the limitation under paragraph (1) shall not apply to an exemption claimed under subsection (b)(3)(A) by a family farmer for the principal residence of that farmer.”.

SEC. 309. PROTECTING SECURED CREDITORS IN CHAPTER 13 CASES—

(a) STOPPING ABUSIVE CONVERSIONS FROM CHAPTER 13—

Section 1381(c)(1) of title 11, United States Code, is amended—

(1) by inserting paragraphs (2) and (3) after paragraph (1), by striking "and" at the end;

(2) in subparagraph (B)—

(A) by striking "in the converted case, with allowed secured claims" and inserting "only in a case converted to a case under chapter 11 or 12, but not in a case converted to a case under chapter 7, with allowed secured claims in cases under chapters 11 and 12"; and

(B) by striking the period and inserting "; and

(3) by adding at the end the following:

"(C) with respect to cases converted from chapter 13—

"(i) the claim of any creditor holding security as of the date of the petition shall continue to be secured by that security unless the full amount of such claim determined under applicable nonbankruptcy law has been paid in full as of the date of conversion, notwithstanding any valuation or determination of the amount of an allowed secured claim made for the purposes of the chapter 13 proceeding; and

"(ii) unless a prebankruptcy default has been fully cured under the plan at the time of conversion, in any proceeding under this title or otherwise, the default shall have the effect given under applicable nonbankruptcy law.”.

CONGRESSIONAL RECORD—SENATE
July 12, 2001

CONGRESSIONAL RECORD—SENATE

13211

(b) Giving Debtors the Ability to Keep Leased Personal Property by Assumption.—Section 365 of title 11, United States Code, is amended by adding at the end the following:

"(1) if the debtor fails to make a rental payment that first became due under applicable nonbankruptcy law after the date of the filing of the petition for relief, the court shall retain the property and may condition such assumption on cure of any outstanding default on terms set by the contract;

"(B) the court orders that the exception to the automatic stay shall not become effective, or provides for a later date of applicability;"

and

"(3) by adding at the end of the flush material added by paragraph (2), the following:

"( każde) by adding at the end, a debtor or a dependent of the debtor.''.

SEC. 310. LIMITATION ON LUXURY GOODS.

Section 522(a)(2)(C) of title 11, United States Code, is amended to read as follows:

"(A) the debtor files a certification with the court and serves a copy of such certification upon the lessor or on or before that 15th day, that:

"(B) the court orders that the exception to the automatic stay shall not become effective, or provides for a later date of applicability;"

and

"(C) by adding at the end, the following:

"(1) consumer debts owed to a single creditor and aggregating more than $750 that are extensions of consumer credit under an open end credit plan obtained by an individual debtor on or within 90 days before the order for relief under this title, are preserved to be nondischargeable; and

"(2) if the term 'luxury goods or services' does not include goods or services reasonably necessary for the support or maintenance of the debtor or a dependent of the debtor.''.

SEC. 311. AUTOMATIC STAY.

(a) In General.—Section 362(b) of title 11, United States Code, is amended—

"(1) consumer debts owed to a single creditor and aggregating more than $750 that are extensions of consumer credit under an open end credit plan obtained by an individual debtor on or within 90 days before the order for relief under this title, are preserved to be nondischargeable; and

"(2) if the term 'luxury goods or services' does not include goods or services reasonably necessary for the support or maintenance of the debtor or a dependent of the debtor.''.

(b) GIVING DEBTORS THE ABILITY TO KEEP Leased PERSONAL PROPERTY BY Assumption.—Section 365 of title 11, United States Code, is amended to read as follows:

"(1) unless the court orders otherwise, the debtor shall commence making payments not later than 30 days after the date of the filing of the plan or the order for relief, whichever is earlier, in the amount—

"(A) proposed by the plan to the trustee; and

"(B) scheduled in a lease of personal property directly to the lessor for that portion of the obligation that becomes due after the order for relief, reducing the payments under subparagraph (A) by the amount so paid and providing the trustee with evidence of such payment including the amount and date of payment; and

"(2) by adding at the end, the following:

"(B) the court orders that the exception to the automatic stay shall not become effective, or provides for a later date of applicability;"

and

"(3) by adding at the end, the following:

"(2) in a case under chapter 11 in which the debtor is an individual and in a case under chapter 13, if the debtor is the lessee with respect to personal property and the lease is not assumed in the plan confirmed by the court, the lease is deemed rejected as of the conclusion of the hearing on confirmation. If the lease is rejected in the plan under section 362 and any stay under section 1301 is automatically terminated with respect to the property subject to the lease;

"(B) in a case under chapter 11 in which the debtor is an individual and in a case under chapter 13, if the debtor is the lessee with respect to personal property and the lease is not assumed in the plan confirmed by the court, the lease is deemed rejected as of the conclusion of the hearing on confirmation. If the lease is rejected in the plan under section 362 and any stay under section 1301 is automatically terminated with respect to the property subject to the lease;

"(C) by adding at the end, the following:

"(1) if the court finds that first becomes due after the unexpired specific term of a rental agreement or lease or under a tenancy under applicable nonbankruptcy law where timely payments are made pursuant to clause (i) if the lessor files with the court a certification that the requirements of this clause have been met and serves a copy of the certification upon the debtor;

"(2) if the debtor has a month to month tenancy or notifies the lessor in writing that the rental payment due post-petition or 10 days prior to the petition was made prior to the filing of the debtor's certificate under subparagraph (A), or that the exception to the automatic stay does not exist or has been remedied to the court's satisfaction, then a stay under subsection (a) shall be effective until the 30-day period preceding the date of filing of the petition, the debtor or another occupant of the leased premises—

"(A) commenced another case under this title; and

"(B) failed to make any rental payment that first became due under applicable nonbankruptcy law after the date of the filing of the petition for relief or that other case;"
of the court, the court shall order the stay under subsection (a) to be lifted forthwith. Where a debtor does not file a certificate under subparagraph (A), the stay under subsection (a) shall be lifted by operation of law and the clerk of the court shall certify a copy of the bankruptcy docket as sufficient evidence that the automatic stay of subsection (a) is lifted.

SEC. 312. EXTENSION OF PERIOD BETWEEN BANKRUPTCY DISCHARGES.

Title 11, United States Code, is amended—

(1) in section 727(a)(8), by striking “six” and inserting “eight”; and

(2) in section 1328, by inserting after subsection (e) the following:

“(1) Notwithstanding subsections (a) and (b), the court shall not grant a discharge of all debts provided for by the plan or disallowed under section 502, if the debtor has received a discharge—

“(A) in a case filed under chapter 7, 11, or 12 of this title during the three-year period preceding the date of the order for relief under this chapter, or

“(B) in a case filed under chapter 13 of this title during the two-year period preceding the date of such order, except that if the debtor demonstrates extreme hardship requiring that a chapter 13 case be filed, the court may shorten the two-year period.”.

SEC. 313. DEFINITION OF HOUSEHOLD GOODS AND ANTIQUES.

(a) DEFINITION.—Section 522(f) of title 11, United States Code, is amended by adding at the end the following:

“(i) A subject to subparagraph (B), for purposes of this section, (1) the term ‘household goods’ means—

“(I) clothing;

“(II) furniture;

“(III) bedding;

“(IV) 1 radio;

“(V) 1 television;

“(VI) 1 VCR;

“(VII) linens;

“(VIII) china;”

“(IX) crockery;

“(X) kitchenware;”

“(XI) educational materials and educational equipment primarily for the use of minor dependent children of the debtor, but only 1 personal computer only if used primarily for education or entertainment of such minor children;”

“(XII) medical equipment and supplies;”

“(XIII) furniture exclusively for the use of minor children, or elderly or disabled dependents of the debtor; and

“(XIV) personal effects (including the toys and hobby equipment of minor dependent children and wedding rings) of the debtor and the dependents of the debtor.

“(B) The term ‘household goods’ does not include—

“(i) works of art (unless by or of the debtor or the dependents of the debtor);

“(ii) electronic equipment (except 1 television, 1 radio, and 1 VCR);

“(iii) items acquired as antiques;

“(iv) jewelry (except wedding rings); and

“(v) a computer (except as otherwise provided for in this section), motor vehicle (including a motorcycle or lawn tractor), boat, or a motorized recreational device, conveyance, vehicle, watercraft, or aircraft.”.

(b) STUDY.—Not later than 2 years after the date of enactment of this Act, the Director of the Executive Office for United States Trustees shall submit a report to the Committee on the Judiciary of the Senate and the Committee on Oversight and Government Reform of the House of Representatives containing its findings regarding utilization of the definition of household goods, as defined in section 522(f)(4) of title 11, United States Code, and the impact that section 522(f)(4) of title 11, United States Code, has on account of violations of the stay under section 362(a) or failure to comply with section 542 or 543 may be imposed on any action of the creditor unless the action takes place after the commencement of the case effective under this section.”.

DEBTOR’S DUTIES.—Section 321 of title 11, United States Code, as amended by this Act, is amended—

(1) in subsection (a), as so designated by the directory, by striking paragraph (1) and inserting the following:

“(1) file—

“(A) a list of creditors; and

“(B) unless the court orders otherwise—

“(i) a schedule of assets and liabilities;”

“(ii) a schedule of current income and current expenditures;”

“(iii) a statement of the debtor’s financial affairs and, if applicable, a certificate—

“(I) of an attorney whose name is on the petition as the attorney for the debtor or any bankruptcy petition preparer signing the petition under section 110(b)(1) indicating that such attorney or bankruptcy petition preparer delivered to the debtor any notice required by section 322(b); or

“(II) if no attorney for the debtor is indicated and no bankruptcy petition preparer signed the petition, of the debtor that such notice was obtained and read by the debtor;

“(IV) copies of all payment advices or other evidence of payment, if any, received by the debtor from any employer or creditor in the period 60 days before the filing of the petition;”

“(v) a statement of the amount of monthly net income, itemized to show how the amount is calculated; and

“(vi) a statement disclosing any reasonably anticipated increase in income or expenditures over the 12-month period following the date of filing;”:

and

(2) by adding at the end the following:

“(e) At any time, a creditor, in the case of an individual debtor under chapter 7 or 13, may file with the court notice that the creditor requests the petition, schedules, and a statement of affairs filed by the debtor in the case, and the court shall make those documents available to the creditor who requests those documents.

“(A) The debtor shall provide either a tax return or transcript at the election of the creditor, for the latest taxable period prior to filing for which a tax return has been or should have been filed, and no later than 7 days before the date first set for the first meeting of creditors, or the case will be dismissed, unless the debtor demonstrates that the failure to file a return as required is due to circumstances beyond the control of the debtor.

“(B) If a creditor has requested a tax return or transcript referred to in subparagraph (A), the debtor shall provide such tax

in any case filed under chapter 7 or 13 given below by the creditor unless specified notice is given under section (e) with respect to a particular case.

“(g)(1) Notice given to a creditor other than as provided in this section shall not be effective notice until that notice has been brought to the attention of the creditor. If the creditor designates a person or department to be reasonably notified concerning bankruptcy cases and establishes reasonable procedures so that bankruptcy notices are delivered to such person or department, notice shall not be considered to have been brought to the attention of the creditor until received by such person or department.

“(2) No sanction under section 362(k) or any other sanction that a court may impose on account of violations of the stay under section 362(a) or failure to comply with section 542 or 543 may be imposed on any action of the creditor unless the action takes place after the commencement of the case effective under this section.”.

CONGRESSIONAL RECORD—SENATE

July 12, 2001
to tax information that is required to be provided under this section.

"(3)(A) At any time, a creditor in a case under chapter 7 may file with the court notice that the creditor requests the plan filed by the debtor in the case.

"(B) The court shall make such plan available to the creditor who requests such plan—

"(i) at the time filed with the taxing authority, the Federal tax returns or transcript thereof required under applicable law, with respect to the period from the commencement of the case until such time as the case is closed;

"(2) at the time filed with the taxing authority, the Federal tax returns or transcript thereof required under applicable law, that were filed with the taxing authority when the schedules under subsection (a)(1) were filed with respect to the period that is 3 years before the order of relief;

"(3) to any of the Federal tax returns or transcripts thereof, described in paragraph (1) or (2); and

"(4) in a case under chapter 13, a statement submitted to the party in interest, including a driver’s license, passport, or other document that contains a photograph of the debtor; and

"(2) such other personal identifying information relating to the debtor that establishes the identity of the debtor.’.

SEC. 315. ADJUDICATION OF A CASE.

Section 302(c) of title 11, United States Code, as amended by this Act, is amended by striking ‘‘the applicable commitment period’’ and inserting ‘‘three-year period’’.

SEC. 316. DISMISSAL FOR FAILURE TO TIMELY FILE SCHEDULES OR PROVIDE REQUIRED INFORMATION.

Section 521 of title 11, United States Code, as amended by this Act, is amended by adding at the end the following:

‘‘(i) if requested by the United States trustee or a trustee serving in the case, the court shall enter an order of dismissal not later than 5 days after such request.

‘‘(ii) if less than 3 years, if the current monthly income of the debtor and the debtors is not less than—

‘‘(A) in the case of a debtor in a household of 2, 3, or 4 individuals, the highest median family income of the applicable State for a family of the same number of fewer individuals last reported by the Bureau of the Census;

‘‘(B) in the case of a debtor in a household of 5, 6, or 7 individuals, the highest median family income of the applicable State for a family of the same number of fewer individuals last reported by the Bureau of the Census;

‘‘(C) in the case of a debtor in a household exceeding 4 individuals, the highest median family income of the applicable State for a family of 4 or fewer individuals last reported by the Bureau of the Census, plus $325 per month for each individual in excess of 4, the plan may not provide for payments over a period that is longer than 5 years.

‘‘(3) in section 1325(b), as amended by this Act, by adding at the end the following:

‘‘(4) For purposes of this subsection, the ‘‘applicable commitment period’’ shall be—

"(i) 3 years; or

"(ii) less than 3 years, if the current monthly income of the debtor and the debtors is not less than—

‘‘(A) in the case of a debtor in a household of 1 person, the median family income of the applicable State for 1 earner last reported by the Bureau of the Census;

‘‘(B) in the case of a debtor in a household of 2, 3, or 4 individuals, the highest median family income of the applicable State for a family of the same number of fewer individuals last reported by the Bureau of the Census, plus $325 per month for each individual in excess of 4, the plan may provide for payments over a period that is longer than 5 years.

‘‘(4) in a case under chapter 13, a statement of income and expenditures described in subsection (a)(4), showing—

‘‘(A) the amount and sources of income of the debtor;

‘‘(B) the identity of any person responsible for the support of any dependent of the debtor; and

‘‘(C) the identity of any person who contributed, and the amount contributed, to the household in which the debtor resides.

‘‘(2) The tax returns, amendments, and statement of income and expenditures described in subsection (a)(2)(A) shall be available to the United States trustee, any bankruptcy administrator, any trustee, and any party in interest for inspection and copying subject to the requirements of subsection (b).

‘‘(1) Not later than 180 days after the date of enactment of the Bankruptcy Reform Act of 2001, the Director of the Administrative Office of the United States Courts shall establish procedures for safeguarding the confidentiality of any tax information required under this section.

‘‘(2) The procedures under paragraph (1) shall include restrictions on creditor access to tax information that is required to be provided under this section.

‘‘(3) Not later than 1 year and 180 days after the date of enactment of the Bankruptcy Reform Act of 2001, the Director of the Administrative Office of the United States Courts shall prepare and submit to Congress a report that—

‘‘(A) assesses the effectiveness of the procedures under paragraph (1); and

‘‘(B) if appropriate, includes proposed legislation to—

‘‘(i) further protect the confidentiality of tax information; and

‘‘(ii) provide incentives for the improper use by any person of the tax information required to be provided under this section.

‘‘(A) the amount and sources of income of the debtor and the debtor’s spouse combined, when multiplied by 12, is not less than—

‘‘(B) in the case of a debtor in a household of 2, 3, or 4 individuals, the highest median family income of the applicable State for a family of the same number of fewer individuals last reported by the Bureau of the Census; and

‘‘(C) in the case of a debtor in a household exceeding 4 individuals, the highest median family income of the applicable State for a family of 4 or fewer individuals last reported by the Bureau of the Census, plus $325 per month for each individual in excess of 4, the plan may not provide for payments over a period that is longer than 5 years.

It is the sense of Congress that rule 9011 of the Federal Rules of Bankruptcy Procedure (11 U.S.C. App.) should be modified to include a requirement that all documents (including schedules), signed and unsigned, submitted to the court or to a trustee by debtors who represent themselves and debtors who are represented by an attorney be submitted only after the debtor or the debtor’s attorney has made reasonable inquiry to verify that the information contained in such documents is—

‘‘(1) well grounded in fact; and
the debtor shall remain in possession of all
property of the estate includes, in addition to property included in the estate under section
1115, subject to the requirements of subsection (a)(14).

(ii) modification of the plan under 1127 of this title is not practicable.''.

(c) MODIFICATION OF PLAN.—Section 1127 of title 11, United States Code, is amended by adding at the end the following:

"(2) extend or reduce the time period for completion of all payments under the plan; and

"(3) over all claims or causes of action that involve construction of section 307 of title 11, United States Code, or rules relating to disclosure requirements under section 327."

(b) APPLICABILITY.—This section shall only apply to cases filed after the date of enactment of this Act.

SEC. 324. UNITED STATES TRUSTEE PROGRAM FILING FEE INCREASE

(a) Actions Under Chapter 7 or 13 of Title 11, United States Code.—Section 1930(a) of title 28, United States Code, is amended by striking paragraph (1) and inserting the following:

"(1) For a case commenced—

"(A) under chapter 7 of title 11, $150;

(b) United States Trustees System Fund.—Section 589(a)(1) of title 28, United States Code, is amended—

"(1) by striking paragraph (1) and inserting the following:

"(1)(A) 40.63 percent of the fees collected under section 1930(a)(1) of this title in 2001.
cases commenced under chapter 7 of title 11; and

"(B) 70.00 percent of the fees collected under section 1930(a)(1)(B) of this title in cases commenced under chapter 13 of title 11;"

"(2) in paragraph (2), by striking "one-half" and inserting "three-fourths"; and

"(3) in paragraph (4), by striking "one-half" and inserting "one hundred percent";"

"(c) COLLECTION AND DEPOSIT OF MISCELLA-

NEOUS BANKRUPTCY FEES.—Section 306(b) of the

Judiciary Appropriations Act, 1996 (28 U.S.C. 1513) is amended by striking "pursuant to 28 U.S.C. section 1930(b) and 30.76 percent of the fees hereafter collected under 26 U.S.C. section 1930(a)(1) and 25 percent of the fees hereafter collected under 28 U.S.C. section 1930(a)(3) shall be de-

posited as offsetting receipts to the fund estab-

lished under 26 U.S.C. section 1931" and inserting "under section 1930(b) of title 28, United States Code, and 31.25 percent of the fees collected under section 1930(a)(1)(A) of that title, 30.00 percent of the fees collected under 16 U.S.C. section 3124 of the Endangered Species Act of 1973 and 25 percent of the fees collected under section 1930(a)(3) of that title shall be deposited as offsetting receipts to the fund established under that title".

SEC. 325. SHARING OF COMPENSATION.

Section 504 of title 11, United States Code, is amended by adding at the end the fol-

lowing:

"(c) This section shall not apply with re-

spect to sharing, or agreeing to share, com-

pensation with a bona fide public service at-

torney referral program that operates in ac-

cordance with non-Federal law regulating at-

torney referral services and with rules of pro-

fessional responsibility applicable to at-

torney referral services.

SEC. 326. FAIR VALUATION OF COLLATERAL.

Section 506(a) of title 11, United States Code, is amended by-

ning—

"(1) inserting "(1)" after "(a)"; and

"(2) by adding at the end the following:

"(2) In the case of an individual debtor under chapters 7 and 13, such value with re-

spect to property securing an unex-

pected claim shall be determined based on the re-

placement value of such property as of the date of filing the petition without deduction for

contingencies. With respect to property acquired for personal, family, or household purpose, replacement value shall mean the price a retail merchant would charge for property of that kind considering the age and condition of the property at the time value is determined.

SEC. 327. DEFAULTS BASED ON NONMONETARY OBLIGATIONS.

(a) EXECUTORY CONTRACTS AND UNEXPIRED LEASES.—Section 365 of title 11, United States Code, is amended—

"(1) in subsection (b)—

"(A) in paragraph (1)(A), by striking the semicolon at the end; and

"(B) by inserting "or" after "(a)"; and

"(2) by adding at the end the following:

"(2) In the case of an individual debtor under chapters 7 and 13, such value with re-

pect to property securing an unex-

pected claim shall be determined based on the re-

placement value of such property as of the date of filing the petition without deduction for

contingencies. With respect to property acquired for personal, family, or household purpose, replacement value shall mean the price a retail merchant would charge for property of that kind considering the age and condition of the property at the time value is determined.

SEC. 328. NONINFRINGEMENT OF DEBTS INCURRED THROUGH VIOLATIONS OF LAW RELATING TO THE PROVISION OF LAWFUL GOODS AND SERVICES.

Section 522(a) of title 11, United States Code, is amended—

"(1) in paragraph (17), by striking "or" at the end;

"(2) in paragraph (18), as added by section 223 of this Act, by striking "and" and inserting "or"; and

"(3) by adding at the end of the flush mate-

rial immediately following paragraph (18), as added by section 223 of this Act, the fol-

lowing: "Nothing in paragraph (19) shall be construed to affect any expressive con-

duct (including peaceful picketing or other peaceful demonstration) protected from legal

prohibition by the first amendment to the Constitution of the United States."; and

"(4) by inserting before the flush material following that paragraph (18), the follow-

ing: "(19) that results from any judgment, order, consent order, or decree entered in any Federal or State court, or contained in any settlement agreement entered into by the debtor, including any court-ordered dam-

ages, fine, penalty, citation, or attorney fee or cost owed by the debtor, arising from—

"(A) an action alleging the violation of any Federal, State, or local statutory law, in-

cluding but not limited to violations of sections 247 and 248 of title 18, that results from the
debtor's—

"(I) harassment of, intimidation of, inter-

ference with, obstruction of, injury to, threat to, or violence against, any person—

"(I) that is not a person providing or has

provided lawful goods or services;

"(II) because that person is or has been

obtaining lawful goods or services; or

"(III) to deter that person, any other per-

son, or a class of persons from obtaining or

obtaining lawful goods or services or the pro-

"(II) damage or destruction of property of

a facility providing lawful goods or services; or

"(B) a violation of a court order or injunc-

tion that protects access to a facility that provides lawful goods or services or the pro-

vision of lawful goods or services.".

SEC. 329. CLARIFICATION OF POSTPETITION WAGES AND BENEFITS.

Section 551(b)(1)(A) of title 11, United States Code, is amended to read as follows:

"(A) the actual, necessary costs and ex-

penses of preserving the estate, including

salaries, wages, or commissions for services

rendered after the commencement of the case, and wages and benefits awarded pursu-

ant to an action brought in a court of law or

the National Labor Relations Board as back

pay attributable to any period of time after

commencement of the case as a result of the
debtor's violation of Federal or State law,

regardless to when the original unlawful act

occurred or to whether any services were

rendered if the court determines that the

award will not substantially increase the

probability of layoff or termination of cur-

rent employees or of nonpayment of domes-

tic support obligations during the case;"

TITLE IV—GENERAL AND SMALL BUSINESS BANKRUPTCY PROVISIONS

SEC. 401. ADEQUATE PROTECTION FOR INVE-

SORS.

(a) DEFINITION.—Section 101 of title 11, United States Code, as amended by this Act, is amended by inserting after paragraph (48) the fol-

lowing:

"(49) "securities self regulatory organiza-

tion" means either a securities association registered with the Securities and Exchange Commission under section 15A of the Securi-

ties Exchange Act of 1934 (15 U.S.C. 78o-3) or a national securities exchange registered with the Securities and Exchange Commiss-

ion under section 6 of the Securities Ex-

(b) AUTOMATIC STAY.—Section 362(b) of title 11, United States Code, is amended by inserting after paragraph (24), as added by this Act, the fol-

lowing:

"(25) under subsection (a), of—

"(A) the commencement or continuation of an investigation or action by a securities self regulatory organization to enforce such or-

ganization's regulatory power;

"(B) the enforcement of an order or deci-

sion, other than for monetary sanctions, ob-

tained in an action by the securities self reg-

ulatory organization to enforce such organ-

ization's regulatory power; or

"(C) any act taken by the securities self reg-

ulatory organization to delist, delete, or

refuse to permit quotation of any stock that
does not meet applicable regulatory require-

ments.

SEC. 402. MEETINGS OF CREDITORS AND EQUITY SECURITY HOLDERS.

Section 341 of title 11, United States Code, is amended by adding at the end the fol-

lowing:

"(e) Notwithstanding subsections (a) and

(b), the court, on the request of a party in in-

terest after notice and hearing, for cause may order that the United States

trustee not convene a meeting of creditors or equity security holders if the debtor has filed a

plan as to which the debtor solicited ac-

ceptances prior to the commencement of the case.".

SEC. 403. PROTECTION OF REFINANCE OF SECU-

RITY INTEREST.

Subparagraphs (A), (B), and (C) of section 547(e)(2) of title 11, United States Code, are
SEC. 404. EXECUTORY CONTRACTS AND UNEXPIRED LEASES.

(a) IN GENERAL.—Section 365(d)(4) of title 11, United States Code, is amended to read as follows:

“(4)(A) Subject to subparagraph (B), in any case under any chapter of this title, an unexpired lease of nonresidential real property under which the debtor is the lessee shall be deemed rejected, and the trustee shall immediately surrender that nonresidential real property to the lessor, if the trustee does not assume or reject the unexpired lease by the earlier of—

(i) the date that is 120 days after the date of the order for relief; or

(ii) the date of the entry of an order confirming a plan.

(B) The court may extend the period determined under subparagraph (A), prior to the expiration of the 120-day period, for 90 days upon motion of the trustee or lessor for cause.

(ii) If the court grants an extension under clause (i), the court may grant a subsequent extension only upon prior written consent of the lessor in writing.

(B) EXCEPTION.—Section 365(f)(1) of title 11, United States Code, is amended by striking “subsection (g)” and inserting “subsection (g) (as added by section 129 of the Bankruptcy Reform Act of 2001, or any other Federal or State law that is not a bankruptcy law, or other requirement that representation at the meeting of creditors under subsection (a) be by an attorney, a creditor holding a consumer debt or any representative of the creditor (which may include an entity or an employee of an entity otherwise has demonstrated skill and experience in the bankruptcy field) and

SEC. 405. CREDITOR(S) AND EQUITY SECURITY HOLDERS COMMITTEES.

(a) APPOINTMENT.—Section 1102(a) of title 11, United States Code, is amended by adding at the end the following:

“(4) On request of a party of interest and after notice and a hearing, the court may order the United States trustee to change the membership of a committee appointed under this subsection, if the court determines that the change is necessary to ensure adequate representation of creditors or equity security holders. The court may order the United States trustee to increase the number of members of a committee to include a creditor who is a small business concern (as described in section 3(a)(1) of the Small Business Act (15 U.S.C. 632(a)(1))), if in comparison to the annual gross revenue of that creditor, is disproportionately large.”

(b) INFORMATION.—Section 1102(b) of title 11, United States Code, is amended by adding at the end the following:

“(A) provide access to information for creditors who—

(i) hold claims of the kind represented by that committee; and

(ii) are not appointed to the committee;

(B) solicit and receive comments from the creditors described in subparagraph (A); and

(C) be subject to a court order that compels any additional report or disclosure to be made to the creditors described in subparagraph (A).”

SEC. 406. AMENDMENT TO SECTION 546 OF TITLE 11, UNITED STATES CODE.

Section 546 of title 11, United States Code, is amended—

(1) by redesignating the second subsection designated as subsection (g) (as added by section 193(d) of Public Law 103–394) as subsection (i); and

(2) in subsection (i), as so redesignated, by inserting “and subject to the prior rights of holders of any interests in such goods or the proceeds thereof,” after “consent of a creditor,” and

SEC. 407. AMENDMENTS TO SECTION 330A OF TITLE 11, UNITED STATES CODE.

Section 330(a) of title 11, United States Code, is amended—

(1) in paragraph (3)—

(A) by striking “(A) In” and inserting “(A); and

(B) by inserting “to an examiner, trustee under chapter 11, or professional person” after “awarded”; and

(2) by adding at the end the following:

“(7) In determining the amount of ‘reasonable’ compensation to be awarded to a trustee, the court shall treat such compensation as a commission, based on section 326 of this title.”

SEC. 408. POSTPETITION DISCLOSURE AND SOLICITATION.

Section 1125 of title 11, United States Code, is amended by adding at the end the following:

“(g) Notwithstanding subsection (b), an acceptance or rejection of the plan may be solicited from a holder of a claim or interest if such solicitation complies with applicable nonbankruptcy law and if such holder was solicited before the commencement of the case in a manner complying with applicable nonbankruptcy law.”

SEC. 409. PREFERENCES.

Section 547(c) of title 11, United States Code, is amended—

(1) by striking paragraph (2) and inserting the following—

“(2) to the extent that such transfer was in payment of a debt incurred by the debtor in the ordinary course of business or financial affairs of the debtor and the transferee, and was not a conveyance with intent to hinder, delay, or defraud creditors;”

(2) by redesignating paragraph (3) as paragraph (4) and inserting the following:

“(4) A made in the ordinary course of business or financial affairs of the debtor and the transferee; or

“(B) made according to ordinary business terms;”

(3) by adding to the end the following:

“(9) if, in a case filed by a debtor whose debts are not primarily consumer debts, the aggregate value of all property that constitutes or is affected by such transfer is less than $5,000.”

SEC. 410. VENUE OF CERTAIN PROCEEDINGS.

Section 1409(b) of title 28, United States Code, is amended by inserting “as a disinterested person” after “chapter 13.”

SEC. 411. PERIOD FOR FILING PLAN UNDER CHAPTER 11.

Section 1121(d) of title 11, United States Code, is amended—

(1) by striking “(2) On” and inserting “(1) Subject to paragraph (2), on”;

(2) by striking the period at the end of such subsection and inserting the following:

“(2)(A) The 120-day period specified in paragraph (1)(B) may not be extended beyond a date that is 18 months after the date of the order for relief under this chapter.

(B) The 180-day period specified in paragraph (1)(B) may not be extended beyond a date that is 20 months after the date of the order for relief under this chapter.”

SEC. 412. FEES ARISING FROM CERTAIN OWNERSHIP INTERESTS.

Section 523(a)(16) of title 11, United States Code, is amended—

(1) by striking “dwelling” the first place it appears; and

(2) by striking “or” and inserting “and”.

(3) by striking “housing” the first place it appears; and

(4) by striking “but only” and all that follows through “such period” and inserting “or a lot in a homeowners association, for as long as the debtor or the trustee has legal, equitable, or possessory ownership interest in such unit, such corporation, or such lot.”

SEC. 413. CREDITOR REPRESENTATION AT FIRST MEETING OF CREDITORS.

Section 341(c) of title 11, United States Code, is amended by inserting at the end the following:

“Notwithstanding any local court rule, provision of a State constitution, any other Federal or State law that is not a bankruptcy law, or other requirement that representation at the meeting of creditors under subsection (a) be by an attorney, a creditor holding a consumer debt or any representative of the creditor (which may include an entity or an employee of an entity otherwise has demonstrated skill and experience in the bankruptcy field) and

SEC. 414. DEFINITION OF DISINTERESTED PERSON.

Section 101(14) of title 11, United States Code, is amended to read as follows:

“(14) ‘disinterested person’ means a person that—

(A) is not a creditor, an equity security holder, or an insider;

(B) is not and was not, within 2 years before the date of the filing of the petition, a director, officer, or employee of the debtor; and

(C) does not have an interest materially adverse to the interests of creditors generally, or to the interests of creditors or equity security holders generally, by reason of any direct or indirect relationship to, connection with, or interest in, the debtor, or for any other reason.”

SEC. 415. FACTORS FOR COMPENSATION OF PROFESSIONAL PERSONS.

Section 330(a)(3) of title 11, United States Code, as amended by this Act, is amended—

(1) in subparagraph (D), by striking “and” at the end;

(2) by redesignating subparagraph (E) as subparagraph (F); and

(3) by inserting after subparagraph (D) the following:

“(E) with respect to a professional person, whether the person is board certified or otherwise has demonstrated skill and experience in the bankruptcy field.”

SEC. 416. APPOINTMENT OF ELECTED TRUSTEE.

Section 1104(b) of title 11, United States Code, is amended—

(1) by inserting “(1)” after “(b)”; and

(2) by adding at the end the following:

“(2)(A) If an eligible, disinterested trustee is elected at a meeting of creditors under paragraph (1), the United States trustee shall file a report certifying that election.

“(B) Upon the filing of a report under subparagraph (A), the trustee elected under paragraph (1) shall be considered to have been selected and appointed for purposes of this section; and

CONGRESSIONAL RECORD—SENATE
July 12, 2001
SEC. 418. BANKRUPTCY FEES.

(1) in subsection (a), by striking “subsection” and inserting “subsections (b) and (c)”;

(2) by adding at the end the following:

“(ii) a letter of credit;

(iii) a certificate of deposit;

(iv) a surety bond;

(v) a prepayment of utility consumption; or

(vi) another form of security that is mutually agreed on between the utility and the debtor or the trustee.

(3) For purposes of this subsection an administrative expense priority shall not constitute an assurance of payment.

(4) Subject to paragraphs (3) and (4), with respect to a case filed under chapter 11, a utility referred to in subsection (a) may alter, refuse, or discontinue utility service, if during the 30-day period beginning on the date of filing of the petition, the utility does not receive from the debtor or the trustee adequate assurance of payment for utility service that is satisfactory to the utility.

(5) On request of a party in interest and after notice and a hearing, the court may modify the amount of an administrative expense priority under paragraph (3).

(6) In making a determination under this paragraph whether an assurance of payment is adequate, the court may not consider—

(i) the absence of security before the date of filing of the petition;

(ii) the payment of charges for utility service in a timely manner before the date of filing of the petition; or

(iii) the availability of an administrative expense priority.

(7) Notwithstanding any other provision of law, if a party in interest requests a court to a case subject to this subsection, a utility may recover or set off against a security deposit provided to the utility before the date of filing of the petition without notice or order of the court.

SEC. 419. MORE COMPLETE INFORMATION REGARDING ASSETS OF THE ESTATE.

(a) In General.—

(1) DISCLOSURE.—The Advisory Committee on Bankruptcy Rules of the Judicial Conference of the United States, after consideration of the views of the Director of the Executive Office for United States Trustees, shall prescribe the Federal Rules of Bankruptcy Procedure and Official Bankruptcy Forms directing debtors under chapter 11 of title 11, United States Code, to disclose the information described in paragraph (2) by filing and serving periodic financial and other reports designed to provide such information.

(2) INFORMATION.—The information referred to in paragraph (1) is the value, operations, and profitability of any closely held corporation, partnership, or of any other entity in which the debtor holds a substantial or controlling interest.

(b) PURPOSE.—The purpose of the rules and reports under subsection (a) shall be to assist parties in interest in taking steps in the case in which the debtor’s interest in any entity referred to in subsection (a)(2) is used for the payment of allowed claims against debtor.

SEC. 420. DUTIES WITH RESPECT TO A DEBTOR WHO IS A PLAN ADMINISTRATOR OF AN EMPLOYEE BENEFIT PLAN.

(a) In General.—

(1) DUTY TO FILE AND SERVE DISCLOSURE STATEMENT.—In a case under chapter 11, a plan administrator of a plan (as defined in section 3 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1002)) of which the debtor is a plan administrator (as defined in section 3 of the Omnibus Budget Reconciliation Act of 1981) of an employee benefit plan, if at the time of filing, the debtor, served as the administrator (as defined in section 3 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1002)) of an employee benefit plan, continue to perform the obligations required of the administrator.

(2) DUTIES OF TRUSTEES.—Section 704(a) of title 11, United States Code, as so designated by section 106(d) of this Act, is amended—

(d) INFORMATION.—The information referred to in subsection (a)(2) is used for the payment of allowed claims against debtor.

SEC. 421. UTILITY SERVICE.

(1) in subsection (a)(1), by inserting before “subsections” and inserting “subsections (b) and (c)”;

(2) by adding at the end the following:

“(ii) a letter of credit;

(iii) a certificate of deposit;

(iv) a surety bond;

(v) a prepayment of utility consumption; or

(vi) another form of security that is mutually agreed on between the utility and the debtor or the trustee.

(3) For purposes of this subsection an administrative expense priority shall not constitute an assurance of payment.

(4) Subject to paragraphs (3) and (4), with respect to a case filed under chapter 11, a utility may recover or set off against a security deposit provided to the utility before the date of filing of the petition; or

for utility service in a timely manner before the date of filing of the petition;

is adequate, the court may not consider—

(i) the absence of security before the date of filing of the petition;

(ii) the payment of charges for utility service in a timely manner before the date of filing of the petition; or

(iii) the availability of an administrative expense priority.

(7) Notwithstanding any other provision of law, if a party in interest requests a court to a case subject to this subsection, a utility may recover or set off against a security deposit provided to the utility before the date of filing of the petition without notice or order of the court.

SEC. 431. FLEXIBLE RULES FOR DISCLOSURE STATEMENT AND PLAN.

(a) In General.—

(1) DISCLOSURE.—The Advisory Committee on Bankruptcy Rules of the Judicial Conference of the United States shall propose for adoption amended Federal Rules of Bankruptcy Procedure and Official Bankruptcy Forms directing debtors under chapter 11 of title 11, United States Code, to disclose the information described in paragraph (2) by filing and serving periodic financial and other reports designed to provide such information.

(2) INFORMATION.—The information referred to in paragraph (1) is the value, operations, and profitability of any closely held corporation, partnership, or of any other entity in which the debtor holds a substantial or controlling interest.

(b) PURPOSE.—The purpose of the rules and reports under subsection (a) shall be to assist parties in interest in taking steps in the case in which the debtor’s interest in any entity referred to in subsection (a)(2) is used for the payment of allowed claims against debtor.

SEC. 432. DEFINITIONS.

Sec. 1002(a) of title 11, United States Code, as amended by this Act, is amended by striking paragraph (51C) and inserting the following:

“51C ‘small business case’ means a case filed under chapter 11 of this title in which the debtor is a small business debtor;

51D ‘small business debtor’ means a person engaged in commercial or business activities (including any affiliate of such person that is also a debtor under this title and excluding a person whose primary activity is the business of owning or operating real property or activities incidental thereto that has aggregate noncontingent, liquidated secured and unsecured debt as of the date of the petition or the order for relief in an amount not more than $3,000,000 (excluding debt owed to 1 or more affiliates or insiders) for a case in which the United States trustee has not appointed under section 1102(a)(1) a committee of unsecured creditors or where the court has determined that the committee of unsecured creditors is not sufficiently active and representative to provide effective oversight of the debtor; and

‘(B) does not include any member of a group of affiliated debtors that has aggregate noncontingent liquidated secured and unsecured debts in an amount greater than $3,000,000 (excluding debt owed to 1 or more affiliates or insiders)’.

(2) in paragraph (9), by striking the period after “(2) by adding at the end the following:

“(ii) a letter of credit;

(iii) a certificate of deposit;

(iv) a surety bond;

(v) a prepayment of utility consumption; or

(vi) another form of security that is mutually agreed on between the utility and the debtor or the trustee.

(3) For purposes of this subsection an administrative expense priority shall not constitute an assurance of payment.

(4) Subject to paragraphs (3) and (4), with respect to a case filed under chapter 11, a utility may recover or set off against a security deposit provided to the utility before the date of filing of the petition without notice or order of the court.

SEC. 431. FLEXIBLE RULES FOR DISCLOSURE STATEMENT AND PLAN.

(a) In General.—

(1) DISCLOSURE.—The Advisory Committee on Bankruptcy Rules of the Judicial Conference of the United States shall propose for adoption standard form disclosure statements and plans of reorganization for small business debtors (as defined in section 101 of title 11, United States Code, as amended by this Act), designed to achieve a practical balance between—

(i) the reasonable needs of the courts, the United States trustee, creditors, and other
(2) the small business debtor’s interest that reasonably should be easy and inexpen-

sive to complete; and

(3) the interest of all parties that the re-

quired reports help the small business debtor to understand the small business debtor’s fi-

nancial condition and plan the small busi-

ness debtor’s future.

SEC. 436. DUTIES IN SMALL BUSINESS CASES.

(a) DUTIES IN CHAPTER 11 CASES.—Sub-

paragraph (I) of section 1116 of title 11, United States Code, as amended by this Act, is amended by adding at the end the following:

“(11) Duties of trustee or debtor in posses-

sion in small business cases. In a small business case, a trustee or the debtor in possession, in addition to the du-

ties provided in this title and as otherwise required by law, shall—

(1) append to the voluntary petition or, in an involuntary case, file not later than 7 days after the date of the order for relief—

(A) its most recent balance sheet, state-

ment of operations, cash-flow statement, Federal income tax return; or

(B) a statement made under penalty of perjury that no balance sheet, statement of operations, or cash-flow statement has been prepared and no Federal tax return has been filed;

(2) attend, through its senior manage-

ment or designee, meetings scheduled by the court or the United States trust-

ee, including initial debtor interviews, scheduling conferences, and meetings of creditors convened under section 341, unless the court waives that requirement after not-

ice and hearing, upon a finding of extraor-

dinary and compelling circumstances;

(3) timely file all schedules and state-

ments of financial affairs, unless the court, after notice and a hearing, grants an exten-

sion, which shall not extend such time period to a date later than 30 days after the date of the order for relief, absent extraordinary and compelling circumstances;

(4) file all postpetition financial and other required government filings and making the pay-

ments referred to in subparagraph (A)(ii),

what the failures are and how, at what cost, and to what extent the debtor intends to remedy such failures; and

“(C) adopt reasonable approximations of the debtor’s projected cash receipts and cash disbursements over a reasonable period;

“(3) the reasonable needs of the bankruptcy proceedings being diligently prosecuted; and

“(1) only the debtor may file a plan until

“(1) in compliance in all material respects with the requirements imposed by this title and the Federal Rules of Bank-

ruptcy Procedure; and

“(ii) if the debtor is not in compliance with the requirements referred to in subparagraph (A)(i) or filing tax returns and other required government filings and making the pay-

ments referred to in subparagraph (A)(ii),

the item relating to section 307 the fol-

(2) in paragraph (5), by striking “and” at the end of section 308 of title 11, United States Code, as added by subsection (a).

SEC. 435. UNIFORM REPORTING RULES AND FORMS FOR SMALL BUSINESS CASES.

(a) PROPOSAL OF RULES AND FORMS.—The Advisory Committee on Bankruptcy Rules of the Judicial Conference of the United States shall propose for adoption amended Federal Rules of Bankruptcy Procedure and Official Bankruptcy Forms to be used by small busi-

ness debtors to file periodic financial and other reports containing information, in-

cluding information relating to—

(1) the debtor’s profitability;

(2) the debtor’s cash receipts and disburse-

ments; and

(3) whether the debtor is timely filing tax returns and paying taxes and other administra-

tive claims when due.

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect 60 days after the date on which rules are pre-

scribed under section 209 of title 28, United States Code, to establish forms to be used to comply with section 308 of title 11, United States Code, as added by subsection (a).

SEC. 437. PLAN CONFIRMATION DEADLINES.

Section 1116 of title 11, United States Code, is amended by striking subsection (e) and in-

serting the following:

“(e) In a small business case—

(1) only the debtor may file a plan until after 180 days after the date of the order for relief; and

(2) an extended confirmation deadline, which shall not extend the time for confirmation beyond 45 days after the date of the order for relief; and

“(B) the extension is granted; and

“(C) the order extending time is signed be-

fore the existing deadline has expired.”

SEC. 438. PLAN CONFIRMATION DEADLINE.

Section 1010 of title 11, United States Code, is amended by adding at the end the follow-

ing:

“(e)(1) In a small business case, the plan shall be confirmed not later than 45 days after the date that a plan is filed with the court as provided in section 1112(e).

“(2) The 45-day period referred to in para-

graph (1) may be extended only if—

“(A) the debtor, after notice and hearing, demonstrates that it is more likely than not that the court will confirm a plan in a reasonable period of time;

“(B) a new deadline is imposed at the time at which the extension is granted; and

“(C) the order extending time is signed be-

fore the existing deadline has expired.”

SEC. 439. DUTIES OF THE UNITED STATES TRUS-

TEE.

Section 506(a) of title 28, United States Code, is amended—

(1) in paragraph (3)—

(A) in subparagraph (G), by striking “and” at the end of subparagraph (G); and

(B) by redesignating subparagraph (H) as subparagraph (I); and

(C) by inserting after subparagraph (G) the following:

“(H) in small business cases (as defined in section 101 of title 11), performing the addi-

tional duties specified in title 11 pertaining to such cases; and”;

“(2) in paragraph (5), by striking “and” at the end of section 506(c)(2), maintain insurance customary and appropriate to the industry;”;

(2) the small business debtor’s interest that reasonably should be easy and inexpen-

sive to complete; and

(3) the interest of all parties that the re-

quired reports help the small business debtor to understand the small business debtor’s fi-

nancial condition and plan the small busi-

ness debtor’s future.

SEC. 434. UNIFORM NATIONAL REPORTING RE-

quirements.

(a) REPORTING REQUIRED.—In con-

formity with chapter 3 of title 11, United States Code, is amended by inserting after section 307 the following:

“§ 308. Declarant requirements

(a) For purposes of this section, the term ‘profitability’ means, with respect to a debt-

or, the amount of money that the debtor has earned or lost during current and recent fis-

cal periods.

(b) A small business debtor shall file peri-

odic financial and other reports containing information including—

“(1) the debtor’s profitability;

“(2) reasonable approximations of the debtor’s projected cash receipts and cash dis-

bursements over a reasonable period;

“(3) comparisons of actual cash receipts and disbursements with projections in prior reports;

“(4)(A) whether the debtor is—

“(i) in compliance in all material respects with the requirements imposed by this title and the Federal Rules of Bank-

ruptcy Procedure; and

“(ii) timely filing tax returns and other re-

quired government filings and paying taxes and other administrative claims when due;

“(B) if the debtor is not in compliance with the requirements referred to in subparagraph (A)(i) or filing tax returns and other required government filings and making the pay-

ments referred to in subparagraph (A)(ii),

what the failures are and how, at what cost, and to what extent the debtor intends to remedy such failures; and

“(C) such other matters as are in the best interests of the debtor and creditors, and in the public interest in fair and efficient pro-

ceedures under chapter 11 of this title.”.

(2) CLERICAL AMENDMENT.—The table of sections for chapter 3 of title 11, United States Code, is amended by inserting after the item relating to section 307 the fol-

lowing:

“308. Declarant reporting requirements.”

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect 60 days after the date on which rules are pre-

scribed under section 209 of title 28, United States Code, to establish forms to be used to comply with section 308 of title 11, United States Code, as added by subsection (a).
under section 1112 of title 11, the United States Code, is amended—
(1) in paragraph preceding paragraph (1), by striking ‘‘may’’; and
(2) by striking paragraph (1) and inserting the following:
‘‘(1) there is reasonable likelihood that a plan will be confirmed within the timeframes established in sections 1121(e) and 1129(e) of this title, as amended, or in cases in which these sections do not apply, within a reasonable period of time; and
‘‘(B) the grounds include an act or omission of the debtor—
‘‘(i) for which there exists a reasonable justification for the act or omission; and
‘‘(ii) that, with a reasonable period of time fixed by the court.
‘‘(3) The court shall commence the hearing on any motion under this subsection no later than 30 days after filing of the motion, and shall decide the motion not later than 15 days after commencement of the hearing, unless the movant expressly consents to a continuance for a specific period of time or compelling circumstances prevent the court from meeting the time limits established by this paragraph.
‘‘(4) For purposes of this subsection, the term ‘cause’ includes—
‘‘(A) substantial or continuing loss to or diminution of the estate;
‘‘(B) gross mismanagement of the estate;
‘‘(C) failure to maintain appropriate insurance that poses a risk to the estate or to the public;
‘‘(D) unauthorized use of cash collateral harmful to 1 or more creditors;
‘‘(E) failure to comply with an order of the court;
‘‘(F) repeated failure timely to satisfy any filing or reporting requirement established by this title or any rule applicable to a case under this chapter;
‘‘(G) failure to attend the meeting of creditors convened under section 341(a) or an examination ordered under rule 2004 of the Federal Rules of Bankruptcy Procedure;
‘‘(H) failure timely to provide information or attend meetings reasonably requested by the United States trustee or the bankruptcy administrator;
‘‘(I) failure timely to pay taxes due after the date of the order for relief or to file tax returns due after the order for relief;
‘‘(J) failure to file a disclosure statement, or to file or confirm a plan, within the time fixed by this title or by order of the court;
‘‘(K) failure to pay any fees or charges required under section 1112; or
‘‘(L) revocation of an order of confirmation under section 1144;
‘‘(M) inability to effectuate substantial consummation of a confirmed plan;
‘‘(N) material default by the debtor with respect to a confirmed plan;
‘‘(O) termination of a confirmed plan by reason of the occurrence of a condition specified in the plan; and
‘‘(P) failure of the debtor to pay any domestic support obligation that first becomes payable after the date on which the petition is filed.
‘‘(5) The court shall commence the hearing on any motion under this subsection not later than 30 days after filing of the motion, and shall decide the motion not later than 15 days after commencement of the hearing, unless the movant expressly consents to a continuance for a specific period of time or compelling circumstances prevent the court from meeting the time limits established by this paragraph.

SEC. 442. EXPANDED GROUNDS FOR DISMISSAL OR CONVERSION AND APPOINTMENT OF TRUSTEE.
(a) EXPANDED GROUNDS FOR DISMISSAL OR CONVERSION.—Section 1112 of title 11, United States Code, is amended by striking subsection (b) and inserting the following:
‘‘(b)(1) Except as provided in paragraph (2) of this subsection, subsection (c) of this section, and section 1104(a)(2), on request of a party in interest, and after notice and a hearing, the court shall convert a case under this chapter to a case under chapter 7 or dismiss the case under this chapter, whichever is in the best interests of creditors and the estate, if the movant establishes cause.
‘‘(2) The relief provided in paragraph (1) shall not be granted if the debtor or another party in interest objects and establishes that—
(A) there is a reasonable likelihood that a plan will be confirmed within the timeframes established in sections 1121(e) and 1129(e) of this title, as amended, or in cases

SEC. 443. STUDY OF OPERATION OF TITLE 11, UNITED STATES CODE, WITH RESPECT TO SMALL BUSINESSES.
Not later than 2 years after the date of enactment of this Act, the Administrator of the Small Business Administration, in consultation with the Attorney General, the Director of the Administrative Office of United States Trustees, and the Director of the Administrative Office of the United States Courts, shall—
(1) conduct a study to determine—
(A) the internal and external factors that cause small businesses, especially sole proprietorships, to become debtors in cases under title 11, United States Code, and that cause certain small businesses to successfully complete cases under chapter 11 of such title; and
(B) how Federal laws relating to bankruptcy may be made more effective and efficient in assisting small businesses to remain viable and
(2) submit to the President pro tempore of the Senate and the Speaker of the House of Representatives a report summarizing that study.

SEC. 444. PAYMENT OF INTEREST.
Section 362(d)(3) of title 11, United States Code, is amended—
(1) by inserting ‘‘or 30 days after the court determines that the debtor is subject to this paragraph, whichever is later’’ after ‘‘90-day period’’; and
(2) by striking paragraph (b) and inserting the following:
‘‘(b) the debtor has commenced monthly payments that—
‘‘(i) may, in the debtor’s sole discretion, notwithstanding section 363(c)(2), be made from rents or other income generated before or after the commencement of the case by or from the property to each creditor whose claim is secured by such real estate (other than a claim secured by a judgment lien or by an unmatured statutory lien); and
‘‘(ii) are in an amount equal to interest at the then applicable nondefault contract rate of interest on the value of the creditor’s interest in the real estate in which these sections do not apply, within a reasonable period of time.’’

SEC. 445. PRIORITY FOR ADMINISTRATIVE EXPENSES.
Section 502(b)(6) of title 11, United States Code, is amended—
(1) in paragraph (5), by striking ‘‘and’’ at the end; and
(2) in paragraph (6), by striking the period at the end and inserting a semicolon; and
(3) by adding at the end the following:
‘‘(7) with respect to a nonresident real property lease previously assumed under section 365, and subsequently rejected, a sum equal to all monetary obligations due, excluding those arising from or relating to a failure to operate or penalty provisions, for the period of 2 years following the later of the rejection date or the date of actual turnover of the premises, without reduction or setoff for any reason whatever except for sums actually received or to be received from a nondebtor, and the claim for remaining sums due for the balance of the term of the lease shall be a claim under section 502(b)(6)’’.

TITLE V—MUNICIPAL BANKRUPTCY PROCEEDINGS
SEC. 501. PETITION AND PROCEEDINGS RELATED TO PETITION.
(a) TECHNICAL AMENDMENT RELATING TO MUNICIPALITIES.—Section 921(d)(1) of title 11, United States Code, is amended by inserting ‘‘notwithstanding section 301(b)’’ before the period at the end.
(b) CONFORMING AMENDMENT.—Section 301 of title 11, United States Code, is amended—
(1) by inserting "(a)" before "A voluntary"; and
(2) by striking the last sentence and inserting the following:
"(b) The commencement of a voluntary case under a chapter of this title constitutes an order for relief under such chapter.

SEC. 602. APPLICABILITY OF OTHER SECTIONS TO CHAPTER 9.
Section 901(a) of title 11, United States Code, is amended—
(1) by inserting "555, 556, after "553,"; and
(2) by inserting "559, 560, 561, 562" after "557."

TITLE VI—BANKRUPTCY DATA
SEC. 603. IMPROVED BANKRUPTCY STATISTICS.
(a) IN GENERAL.—Chapter 6 of title 28, United States Code, is amended by adding at the end the following:

"§ 159. Bankruptcy statistics.
"(a) The clerk of each district shall collect statistics regarding individual debtors with primarily consumer debts seeking relief under chapters 7, 11, and 13 of title 11. Those statistics shall be on a standardized form prescribed by the Director of the Administrative Office of the United States Courts (referred to in this section as the "Director").
"(b) The Director shall—
"(1) compile the statistics referred to in subsection (a);
"(2) make the statistics available to the public; and
"(3) not later than October 31, 2002, and annually thereafter, prepare, and submit to Congress a report concerning the information collected under subsection (a) that contains an analysis of the information.
"(c) The compilation required under subsection (b) shall—
"(1) be itemized, by chapter, with respect to title 11;
"(2) be presented in the aggregate and for each district; and
"(3) include information concerning—
"(A) the total assets and total liabilities of the debtors described in subsection (a), and in each chapter 7, 11, or 13 case, and the amount of any difference between the total assets and the total liabilities as reported in the schedules and the amount of such debt reported in categories which are predominantly nondischargeable;
"(B) the average period of time between the filing of the petition and the closing of the case;
"(C) the aggregate amount of debt dischargeable in the reporting period, determined as the difference between the total amount of debt and obligations of a debtor reported on the schedules and the amount of such debt reported in categories which are predominantly nondischargeable;
"(D) the average period of time between the filing of the petition and the closing of the case;
"(E) for the reporting period—
"(i) the number of cases in which a reaffirmation was filed; and
"(ii) the total number of reaffirmations filed;
"(F) with respect to cases filed under chapter 13 of title 11 during the last reporting period—
"(i) the number of cases in which a final order was entered determining the value of property securing a claim in an amount less than the amount of the claim; and
"(ii) the number of final orders determining the value of property securing a claim in an amount less than the amount of the claim; and
"(G) the number of cases dismissed, the number of cases dismissed for failure to make payments under the plan, the number of cases reaffirmed after dismissal, and the number of cases in which the plan was completed, separately itemized with respect to the number of modifications made before completion of the plan, if any; and
"(H) the number of cases in which the debtor filed another case during the 6-year period preceding the filing;
"(I) the number of cases in which creditors were fined for misconduct and any amount of punitive damages awarded by the court for creditor misconduct; and
"(J) the number of cases in which sanctions under rule 9011 of the Federal Rules of Bankruptcy Procedure were imposed against debtor's counsel or damages awarded under such rule.
"(b) The considerations to be established for the compilation and data collection under this section shall be that the data is collected in such a manner that it maximizes the value of data provided to the public and is as cost-effective as possible.
"(c) REQUIRED INFORMATION.—The information required to be collected under subsection (b) shall—
"(1) be recorded in a computer database by the Judicial Conference of the United States;
"(2) be made available to the public and—
"(A) be published periodically, as determined by the Judicial Conference of the United States;
"(B) be made available to the public and—
"(i) be published periodically, as determined by the Judicial Conference of the United States;
"(ii) be available to the public and—
"(I) the reasonable needs of the public for information on bankruptcy and consumer debt administration;
"(II) of those cases in which a reaffirmation was filed, the number of cases in which the reaffirmation was approved by the court;
"(III) of those cases in which a reaffirmation was filed, the number of cases in which the reaffirmation was filed and was entered into the database more than 30 days after the entry of the confirmation order; and
"(IV) of those cases in which a reaffirmation was filed, the number of cases in which the reaffirmation was approved by the court;
"(V) with respect to cases filed under chapter 13 of title 11 during the last reporting period—
"(i) the number of cases in which a final order was entered determining the value of property securing a claim in an amount less than the amount of the claim; and
"(ii) the number of final orders determining the value of property securing a claim in an amount less than the amount of the claim; and
"(VI) the number of cases dismissed, the number of cases dismissed for failure to make payments under the plan, the number of cases reaffirmed after dismissal, and the number of cases in which the plan was completed, separately itemized with respect to the number of modifications made before completion of the plan, if any; and
"(VII) the number of cases in which the debtor filed another case during the 6-year period preceding the filing;
"(VIII) the number of cases in which creditors were fined for misconduct and any amount of punitive damages awarded by the court for creditor misconduct; and
"(IX) the number of cases in which sanctions under rule 9011 of the Federal Rules of Bankruptcy Procedure were imposed against debtor's counsel or damages awarded under such rule.
"(d) FINAL REPORTS.—Final reports required under this section shall be—
"(1) the reasonable needs of the public for information on bankruptcy and consumer debt administration;
"(2) include the information required by subsection (b); and
"(3) be available to the public.

SEC. 602. UNIFORM RULES FOR THE COLLECTION OF BANKRUPTCY DATA.
(a) AMENDMENT.—Chapter 39 of title 28, United States Code, is amended by adding at the end the following:

"§ 589b. Bankruptcy data.
"(a) RULES.—The Attorney General shall, within a reasonable time after the effective date of this section, issue uniform forms for (and from time to time thereafter to appropriately modify and approve—
"(1) the final reports by trustees in cases under chapters 7, 12, and 13 of title 11; and
"(2) the periodic reports in possession of the Attorney General, as the case may be, in cases under chapter 11 of title 11.
"(b) REPORTS.—Each report referred to in subsection (a) shall be prepared (and the requirements as to place and manner of filing shall be established) so as to facilitate compilation of data and maximum possible access of the public, both by physical inspection at one or more central filing locations, and by electronic access through the Internet or other appropriate media.
"(c) REQUIRED INFORMATION.—The information required to be included in the reports referred to in subsection (a) shall be that which is in the best interests of debtors and creditors, and in the public interest in reasonable and adequate information to evaluate the efficiency and practicality of the Federal bankruptcy system. In issuing rules proposing the forms referred to in subsection (a), the Attorney General shall strike the best achievable practical balance between—
"(1) the reasonable needs of the public for information on bankruptcy and consumer debt administration;
"(2) economy, simplicity, and lack of undue burden on persons with a duty to file reports; and
"(3) appropriate privacy concerns and safeguards.
"(d) FINAL REPORTS.—Final reports proposed for adoption by trustees under chapters 7, 12, and 13 of title 11 shall, in addition to such other matters as are required by law or as the Attorney General, in the discretion of the Attorney General, shall propose, include—
"(1) information about the standard industry classification, published by the Department of Commerce, for the businesses conducted by the debtor;
"(2) length of time the case has been pending;
"(3) number of full-time employees as of the date of the order of relief and at the end of each reporting period since the case was filed;
"(4) cash receipts, cash disbursements and profitability of the debtor for the most recent period and cumulatively since the date of the order of relief;
"(5) professional fees approved by the court in the case for the most recent period and cumulatively since the date of the order of relief (separately reported, for the professional fees incurred by or on behalf of the debtor, between those that would have been incurred absent a bankruptcy case and those not); and
"(6) plans of reorganization filed and confirmed and, with respect thereto, by class, the recoveries of the holders, expressed in aggregate dollar values and, in the case of claims, as a percentage of total claims of the class allowed.
"(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 39 of title 28, United States Code, is amended by adding at the end the following:

"589b. Bankruptcy data.".

SEC. 603. AUDIT PROCEDURES.
(a) IN GENERAL.—
(1) ESTABLISHMENT OF PROCEDURES.—The Attorney General (in judicial districts served by United States trustees) and the Judicial Conference of the United States (in judicial districts served by bankruptcy administrators) shall establish procedures to determine the accuracy, veracity, and completeness of petitions, schedules, and other information which the debtor is required to provide under sections 101 and 110 of title 11, and, if applicable, section 111 of title 11, in individual cases filed under chapter 7 or 13 of such title.

SEC. 704. RATE OF INTEREST ON TAX CLAIMS.

SEC. 705. NOTICE OF REQUEST FOR A DETERMINATION OF TAXES.

SEC. 706. RATE OF INTEREST ON TAX CLAIMS.

(a) General.—Subchapter I of chapter 5 of title 11, United States Code, is amended by adding at the end the following:

"§ 507. Rate of Interest on Tax Claims.

(a) In the case of taxes paid under a contract, a claim for interest on taxes shall be treated as a single claim."

SEC. 707. DETERMINATION OF TAX LIABILITY.

(b) After the payment of interest on a tax claim or on an administrative expense tax claim, or on the payment of interest to enable a creditor to receive the present value of the allowed amount of a tax claim, the rate of interest shall be the rate determined under applicable nonbankruptcy law.

(b) In the case of taxes paid under a confirmed plan under this title, the rate of interest shall be determined as of the calendar month in which the plan is confirmed."

section 1308 shall be timely if the claim is for a tax with respect to a return filed under chapter 13, a claim of a governmental unit on or before the date that is 60 days before the order for relief under this title, and the income, gain, loss, deductions, and credits of an estate shall be created in a case concerning a debtor under this title, and the income, gain, loss, deductions, and credits shall be taxed to or claimed by the estate, such income, gain, loss, deductions, and credits shall be taxed to or claimed by the estate, such income, gain, loss, deductions, and credits shall be taxed to or claimed by the estate, the estate shall be liable for any tax imposed on such corporation or partnership, and not for any tax imposed on partners or members.

(“c) With respect to a partnership or any entity treated as a partnership under a State or local law imposing a tax on or measured by income, the taxable period of a partner in a case under this title shall be subject to tax in accordance with subsection (d).

(d) For purposes of any State or local law imposing a tax on or measured by income, a transfer of property from the debtor to the estate or from the estate to the debtor shall not be treated as a disposition for purposes of any provision assigning tax consequences to a disposition, except to the extent that such transfer is treated as a disposition under the Internal Revenue Code of 1986.

(g) The estate in any case described in subsection (a) shall use the same accounting method as the debtor used immediately before the commencement of the case, if such method is consistent with applicable nonbankruptcy tax law.

(h) For purposes of any State or local law imposing a tax on or measured by income, a transfer of property from the debtor to the estate or from the estate to the debtor shall not be treated as a disposition for purposes of any provision assigning tax consequences to a disposition, except to the extent that such transfer is treated as a disposition under the Internal Revenue Code of 1986.

4. The estate in any case described in subsection (a) shall use the same accounting method as the debtor used immediately before the commencement of the case, if such method is consistent with applicable nonbankruptcy tax law.

5. (f) For purposes of any State or local law imposing a tax on or measured by income, a transfer of property from the debtor to the estate or from the estate to the debtor shall not be treated as a disposition for purposes of any provision assigning tax consequences to a disposition, except to the extent that such transfer is treated as a disposition under the Internal Revenue Code of 1986.

6. (g) Whenever a tax is imposed pursuant to a State or local law imposing a tax on or measured by income pursuant to subsection (a) or (b), such tax shall be imposed at rates generally applicable to the same types of entities under such State or local law.

7. (h) The trustee shall withhold from any payment of claims for wages, salaries, commissions, dividends, interest, or other pay-
attribute from one taxable period to a subse-
quent taxable period of the debtor under the In-

(2) After such a case is closed or dis-
misse, the debtor shall succeed to any tax
attribute to which the estate succeeded
under section 1222(b)(1) on the filing date of
the case, whichever is in the best interests of
creditors.

TITLE VIII—ANCILLARY AND OTHER
CROSS-BORDER CASES
SEC. 801. AMENDMENT TO ADD CHAPTER 15 TO
TITLE 11, UNITED STATES CODE
(a) In General—Title 11, United States Code, is amended by inserting after chapter
13 the following:

"CHAPTER 15—ANCILLARY AND OTHER
CROSS-BORDER CASES"

"Sec.
1501. Purpose and scope of application.
1502. Definitions.
1504. Commencement of ancillary case.
1505. Authorization to act in a foreign country.
1506. Public policy exception.
1507. Additional assistance.
1508. Interpretation.
1511. Commencement of case under section 301 or 303.
1512. Participation of a foreign representative in a case under this title.
1513. Access of foreign creditors to a case under this title.
1514. Notice to foreign creditors concerning a case under this title.
1516. Presumption concerning recognition.
1517. Order granting recognition.
1518. Subsequent information.
1519. Relief that may be granted upon filing petition for recognition.
1520. Effects of recognition of a foreign main proceeding.
1521. Relief that may be granted upon recognition.
1522. Protection of creditors and other interested persons.
1523. Actions to avoid acts detrimental to creditors.
1524. Intervention by a foreign representative.
1525. Cooperation and direct communication between the court and foreign
courts or foreign representatives.
1526. Cooperation and direct communication between the trustee and foreign
courts or foreign representatives.
1527. Forms of cooperation.
1528. Commencement of a case under this title after recognition of a for-
"minal proceeding.
1529. Coordination of a case under this title and a foreign proceeding.
1530. Coordination of more than 1 foreign proceeding.
1531. Presumption of insolvency based on recognition of a foreign main proceeding.
1532. Rule of payment in concurrent pro-
ceedings.
"(a) The purpose of this chapter is to incor-
porate the Model Law on Cross-Border In-

solvency so as to provide effective mecha-
nisms for dealing with cross-border insolvency with the objectives of—

"(1) cooperation between—
"(A) United States courts, United States
trustees, trustees, examiners, debtors, and
debtors in possession;
"(B) the courts and other competent au-
thorities of foreign countries involved in

"(2) greater legal certainty for trade and investment;
"(3) fair and efficient administration of cross-border insolvencies that protects the
interests of all creditors, and other inter-
ested entities, including the debtor;
"(4) protection and maximization of the
tax attribute to a taxable period of the debt-
or; and
"(B) the same or a similar tax attribute
may be carried back by the estate to such
a taxable period of the debtor under the In-

"(2) Notwithstanding any other provi-
dion of this section and section 505, the time and manner of fil-
ing tax returns and the items of income, gain, loss, deduction, and credit of any tax-
payer shall be determined under applicable nonbankruptcy law.

"(2) In general—For Federal tax purposes, the provi-
sions of this section are subject to the Internal
Revenue Code of 1986 and other applicable
Federal nonbankruptcy law.

"(b) Cooperation with Foreign Authorities
(1) Section 728 of title 11, United States
Code, is repealed.
(2) Section 1165 of title 11, United States
Code, is amended—
(A) by striking subsections (a) and (b); and
(B) by redesignating subsections (c) and (d)
as subsections (a) and (b), respectively.
(3) Section 1221 of title 11, United States
Code, is amended—
(A) by striking subsections (a) and (b); and
(B) by redesignating subsections (c) and (d)
as subsections (a) and (b), respectively.

SEC. 720. DISMISSED FOR FAILURE TO TIMELY
FILE TAX RETURNS.
Section 521 of title 11, United States Code, as amended by this Act, is amended by add-
ing at the end the following:
"(k)(1) Notwithstanding any other provi-
dion of this section, if the debtor fails to file a tax return that becomes due after the com-
 mencement of the case or to properly obtain an extension of the due date for filing such
return, the taxing authority may request that the court convert or dismiss the case.

"(2) If the debtor does not file the required return or obtain the extension referred to in
paragraph (1) within 90 days after a request is filed by the taxing authority under that
paragraph, the court shall convert or dismiss the case, whichever is in the best interests of
creditors.
"§ 1503. International obligations of the United States

"(a) Subject to the specific limitations stated elsewhere in this chapter the court, if recognition is granted, may provide additional assistance to a foreign representative under this title or under other laws of the United States.

"(b) In determining whether to provide additional assistance under this title or under other laws of the United States, the court shall consider whether such additional assistance, when combined with the principles of comity, will reasonably assure—

"(1) just treatment of all holders of claims against or interests in the debtor's property;

"(2) protection of claim holders in the United States against prejudice and inconvenience in the processing of claims in such foreign proceeding;

"(3) prevention of preferential or fraudulent dispositions of property of the debtor;

"(4) distribution of proceeds of the debtor's property substantially in accordance with the order of priority prescribed by this title; and

"(5) if appropriate, the provision of an opportunity for a fresh start for the individual that such foreign proceeding concerns.

"§ 1507. Additional assistance

"(a) Upon recognition, a foreign representative may commence—

"(1) an involuntary case under section 303; or

"(2) a voluntary case under section 301 or 302, if the foreign proceeding is a foreign main proceeding.

"(b) The action commencing a case under subsection (a) must be accompanied by a certified copy of an order granting recognition. The court where the petition for recognition has been filed must be advised of the foreign representative's intent to commence a case under subsection (a) prior to such commencement.

"§ 1512. Participation of a foreign representative in a case under this title

"(a) Whenever in a case under this title no foreign proceeding is pending, the court shall consider its international origin, and shall also give such other form of notification as may be more appropriate. No letter or other formality is required.

"(b) If the court grants recognition under this chapter, the court may issue any appropriate order necessary to prevent the foreign representative from obtaining comity or cooperation from courts in the United States.

"(c) Whether or not the court grants recognition under this chapter, a foreign representative is subject to applicable bankruptcy law.

"§ 1514. Notification to foreign creditors concerning a case under this title

"(a) Whenever in a case under this title notice is to be given to creditors generally or to any class or category, such notice shall also be given to the known creditors generally, or to creditors in the notified class or category, that do not have addresses in the United States. The court may order that appropriate steps be taken with a view to notifying any creditor whose address is not yet known.

"(b) In the absence of notice to creditors with foreign addresses described in subsection (a) shall be given individually, unless the court considers that, under the circumstances, some other form of notification would be more appropriate. No letter or other formality is required.

"(c) When a notice of commencement of a case is to be given to foreign creditors, the notification shall—

"(1) indicate the time period for filing proofs of claim and specify the place for their filing;

"(2) indicate whether secured creditors need to file their proofs of claim; and

"(3) contain any other information required to be included in such a notification to creditors under this title and the orders of the court.

"(d) Any rule of procedure or order of the court as to notice or the filing of a claim shall provide such additional time to creditors with foreign addresses as is reasonable under the circumstances.

"SUBCHAPTER III—RECOGNITION OF A FOREIGN PROCEEDING AND RELIEF

"§ 1515. Application for recognition

"(a) A foreign representative applies to the court for recognition of the foreign proceeding in which the foreign representative has been appointed by filing a petition for recognition.

"(b) A petition for recognition shall be accompanied by—

"(1) a certified copy of the decision commencing the foreign proceeding and appointing the foreign representative;

"(2) a certificate from the foreign court affirming the existence of the foreign proceeding and of the appointment of the foreign representative; or

"(3) the absence of evidence referred to in paragraphs (1) and (2), any other evidence acceptable to the court of the existence of the foreign proceeding and of the appointment of the foreign representative.

"(c) A petition for recognition shall also be accompanied by a statement identifying all foreign proceedings with respect to the debtor that are known to the foreign representative.

"(d) The documents referred to in paragraphs (1) and (2) of subsection (b) shall be translated into English if the foreign court may require a translation into English of additional documents.

"§ 1516. Presumptions concerning recognition

"(a) If the decision or certificate referred to in section 1515(b) indicates that the foreign proceeding is a foreign proceeding (as defined in section 101) and that the person or
body is a foreign representative (as defined in section 1519), the court is entitled to so presume.

(b) The court is entitled to presume that documents submitted in support of the petition for recognition are authentic, whether or not they have been legalized.

(c) In the absence of evidence to the contrary, the debtor's registered office, or habitual residence in the case of an individual, is presumed to be the center of the debtor's main interests.

§ 1517. Order granting recognition

(a) Subject to section 1506, after notice and a hearing, an order recognizing a foreign proceeding shall be entered if—

(1) the foreign proceeding for which recognition is sought is a foreign main proceeding or foreign nonmain proceeding within the meaning of section 1502; and

(2) the foreign representative applying for recognition is a person or body as defined in section 1510; and

(3) the petition meets the requirements of section 1519.

(b) The foreign proceeding shall be recognized—

(1) as a foreign main proceeding if it is taking place in the country where the debtor has that part of its business or assets; and

(2) as a foreign nonmain proceeding if the debtor has an establishment within the foreign country where the proceeding is pending.

(c) A petition for recognition of a foreign proceeding shall be decided upon at the earliest possible time. Entry of an order recognizing a foreign proceeding constitutes recognition under this chapter.

(d) The provisions of this subchapter do not prejudice the termination of recognition if it is shown that the grounds for granting it were fully or partially lacking or have ceased to exist, but in considering such action the court shall give due weight to possible prejudice to parties that have relied upon the order granting recognition.

The case under this chapter may be closed in the manner prescribed under section 350.

§ 1518. Subsequent information

"From the time of the filing of the petition for recognition, information relating to a foreign representative shall file with the court promptly a notice of change of status concerning—

(1) substantial change in the status of the foreign proceeding or the status of the foreign representative's appointment; and

(2) any other foreign proceeding regarding the debtor that becomes known to the foreign representative.

§ 1519. Relief that may be granted upon filing petition for recognition

(a) From the time of filing a petition for recognition until the court rules on the petition, the court may, at the request of the foreign representative, where relief is urgently needed to protect the assets of the debtor—

(1) stay the commencement or continuation of any action or proceeding concerning the debtor's assets, rights, obligations or liabilities to the extent that they have not been stayed under section 1520(a); and

(2) entering execution against the debtor's assets.

(b) The court may grant relief—

(1) staying the commencement or continuation of an individual action or proceeding concerning the debtor's assets, rights, obligations or liabilities to the extent that they have not been stayed under section 1520(a); and

(2) suspending the right to transfer, encumber or otherwise dispose of any assets of the debtor to the extent that such relief would interfere with the administration of a foreign main proceeding.

(c) The court may not enjoin a police or regulatory act of a governmental unit, including a criminal action or proceeding, under this section.

(d) The standards, procedures, and limitations applicable to an injunction shall apply to relief under this section.

(e) The exercise of rights not subject to the stay arising under section 362(a) pursuant to paragraph (6), (7), (17), or (27) of section 362(b) or pursuant to section 362(l) shall not be stayed by any order of a court or administrative agency in any proceeding under this chapter.

§ 1520. Effects of recognition of a foreign main proceeding

(a) Upon recognition of a foreign proceeding that is a foreign main proceeding—

(1) sections 361 and 362 apply with respect to the debtor and that property of the debtor that is within the territorial jurisdiction of the United States; and

(2) sections 363, 549, and 552 of this title apply to a transfer of an interest of the debtor in property that is within the territorial jurisdiction of the United States to the same extent that the sections would apply to property of an estate.

(b) Subsection (a) does not affect the right to commence an individual action or proceeding in a foreign country to the extent necessary to preserve a claim against the debtor.

(c) Subsection (a) does not affect the right of a foreign representative or an entity to file a petition commencing a case under this title on behalf of the debtor's business and may exercise the rights and powers of a trustee in such case to the extent permitted by law, or to file claims or take other proper actions in such a case.

§ 1521. Relief that may be granted upon recognition

(a) Upon recognition of a foreign proceeding, whether main or nonmain, where necessary to effectuate the purpose of this chapter and to protect the assets of the debtor or the interests of the creditors, the court may, at the request of the foreign representative, grant any appropriate relief, including—

(1) staying the commencement or continuation of an individual action or proceeding concerning the assets, rights, obligations or liabilities of the debtor; and

(2) providing for the examination of witnesses, the taking of evidence or the delivery of information concerning the debtor's assets, rights, obligations or liabilities; and

(b) Unless extended under section 1520(a), the relief granted under this section terminates when the petition for recognition is granted.

(c) It is a ground for denial of relief under this chapter that such relief would interfere with the administration of a foreign main proceeding.

(d) The court may not enjoin a police or regulatory act of a governmental unit, including a criminal action or proceeding, under this section.

(e) The standards, procedures, and limitations applicable to an injunction shall apply to relief under this section.

(f) The exercise of rights not subject to the stay arising under section 362(a) pursuant to paragraph (6), (7), (17), or (27) of section 362(b) or pursuant to section 362(l) shall not be stayed by any order of a court or administrative agency in any proceeding under this chapter.

§ 1522. Protection of creditors and other interested persons

"The court may grant relief under section 1519 or 1521, or modify or terminate relief under subsection (c), only if the interests of the creditors and other interested entities, including the debtor, are sufficiently protected.

(b) The court may subject relief granted under section 1519 or 1521, or the operation of any provision of this title, to conditions it considers appropriate, including the giving of security or the filing of a bond.

The court may, at the request of the foreign representative or an entity affected by relief granted under section 1519 or 1521, or at its own motion, modify or terminate such relief.

(d) Section 1104(d) shall apply to the appointment of an examiner under this chapter. Any examiner shall comply with the qualifications requirements imposed on a trustee by section 323.

§ 1523. Actions to avoid acts detrimental to creditors

(a) Upon recognition of a foreign proceeding, the foreign representative has standing in a case concerning the debtor pending under another chapter of this title to initiate actions under sections 522, 544, 547, 548, 550, and 726(a).

(b) When the foreign proceeding is a foreign nonmain proceeding, the court may be satisfied that an action under subsection (a) relates to assets that, under United States law, should be administered in the foreign nonmain proceeding.

§ 1524. Intervention by a foreign representative

(a) Upon recognition of a foreign proceeding, the foreign representative may intervene in

within the territorial jurisdiction of the United States to the foreign representative or another person, including an examiner, authorized by the court;

(b) Extending relief granted under section 1519 or 1521;

(c) Granting any additional relief that may be available to a trustee, except for relief available under sections 522, 544, 547, 548, 550, and 726(a).

(d) Upon recognition of a foreign proceeding, whether main or nonmain, the court may, at the request of the foreign representative or an entity, trust the distribution of all or part of the debtor's assets located in the United States to the foreign representative or another person, including an examiner, authorized by the court, provided that the court is satisfied that the interests of creditors in the United States are sufficiently protected.

(e) In granting relief under this section to a representative of a foreign nonmain proceeding, the court must be satisfied that the relief relates to assets that, under the law of the United States, should be administered in the foreign nonmain proceeding or concerns information required in that proceeding.

(f) The court may not enjoin a police or regulatory act of a governmental unit, including a criminal action or proceeding, under this section.

(g) The standards, procedures, and limitations applicable to an injunction shall apply to relief under paragraphs (1), (2), (3), and (6) of subsection (a).

(h) The exercise of rights not subject to the stay arising under section 362(a) pursuant to paragraphs (6), (7), (17), or (27) of section 362(b) or pursuant to section 362(l) shall not be stayed by any order of a court or administrative agency in any proceeding under this chapter.

§ 1525. Effects of recognition of a foreign main proceeding

(a) Upon recognition of a foreign proceeding that is a foreign main proceeding—

(1) sections 361 and 362 apply with respect to the debtor and that property of the debtor that is within the territorial jurisdiction of the United States; and

(2) sections 363, 549, and 552 of this title apply to a transfer of an interest of the debtor in property that is within the territorial jurisdiction of the United States to the same extent that the sections would apply to property of an estate.

(b) Section 1104(d) shall apply to the appointment of an examiner under this chapter. Any examiner shall comply with the qualifications requirements imposed on a trustee by section 323.

§ 1526. Actions to avoid acts detrimental to creditors

(a) Upon recognition of a foreign proceeding, the foreign representative has standing in a case concerning the debtor pending under another chapter of this title to initiate actions under sections 522, 544, 547, 548, 550, and 726(a).

(b) When the foreign proceeding is a foreign nonmain proceeding, the court may be satisfied that an action under subsection (a) relates to assets that, under United States law, should be administered in the foreign nonmain proceeding.

§ 1527. Intervention by a foreign representative

(a) Upon recognition of a foreign proceeding, the foreign representative may intervene in...
any proceedings in a State or Federal court in the United States in which the debtor is a party.

"SUBCHAPTER IV—COOPERATION WITH FOREIGN COURTS AND FOREIGN REPRESENTATIVES

§ 1525. Cooperation and direct communication between the court and foreign courts or foreign representatives

(a) Consistent with section 1501, the court shall cooperate to the maximum extent possible with foreign courts or foreign representatives, either directly or through the trustee.

(b) The court is entitled to communicate directly with, or to request information or assistance directly from, foreign courts or foreign representatives, subject to the rights of parties in interest to notice and participation.

§ 1526. Cooperation and direct communication between the trustee and foreign courts or foreign representatives

(a) Consistent with section 1501, the trustee or other person, including an examiner, authorized by the court, shall, subject to the supervision of the court, cooperate to the maximum extent possible with foreign courts or foreign representatives.

(b) The trustee or other person, including an examiner, authorized by the court is entitled, subject to the supervision of the court, to communicate directly with foreign courts or foreign representatives.

§ 1527. Forms of cooperation

"Cooperation referred to in sections 1525 and 1526 may be implemented by any appropriate means, including—

(1) appointment of a person or body, including an examiner, to act at the direction of the court;

(2) communication of information by any means considered appropriate by the court;

(3) coordination of the administration and supervision of the debtor’s assets and affairs;

(4) approval or implementation of agreements concerning the coordination of proceedings; and

(5) coordination of concurrent proceedings regarding the same debtor.

"SUBCHAPTER V—CONCURRENT PROCEEDINGS

§ 1528. Commencement of a case under this title—recognition of a foreign main proceeding

After recognition of a foreign main proceeding, a case under another chapter of this title may be commenced only if the debtor has assets in the United States. The effects of such case shall be restricted to the assets of the debtor that are within the territorial jurisdiction of the United States and, to the extent necessary to implement cooperation and coordination under sections 1525, 1526, and 1527, to other assets of the debtor that are within the jurisdiction of the court under sections 541(a) of this title, and 1330(e) of title 28, to the extent that such other assets are not subject to the jurisdiction and control of a foreign proceeding that has been recognized under this chapter.

§ 1529. Coordination of a case under this title and a foreign proceeding

If a foreign proceeding and a case under another chapter of this title are taking place concurrently regarding the same debtor, the court shall seek cooperation and coordination under sections 1525, 1526, and 1527, and the following shall apply:

(1) the court in the United States is taking place at the time the petition for recognition of the foreign proceeding is filed—

(A) any relief granted under section 1519 or 1521 shall be modified or terminated if inconsistent with the relief granted in the case in the United States; and

(B) any relief that has been recognized under sections 1525, 1526, and 1527 shall be modified or terminated if inconsistent with the relief granted in the case in the United States.

(2) If a case under the United States Code commenced after recognition, or after the filing of the petition for recognition, of the foreign proceeding—

(A) any relief in effect under section 1519 or 1521 shall be reviewed by the court and shall be modified or terminated if inconsistent with the case in the United States; and

(B) if the foreign proceeding is a foreign main proceeding, the stay and suspension reenacted in section 1520(a) shall be modified or terminated if inconsistent with the relief granted in the case in the United States.

(3) In granting, extending, or modifying relief granted to a representative of a foreign nonmain proceeding, the court must be satisfied that the relief relates to assets that, under the laws of the United States, should be administered in the foreign nonmain proceeding or concerns information required in that proceeding.

(4) In achieving cooperation and coordination between the court in the United States and the court, the court may grant any of the relief authorized under section 305.

§ 1530. Coordination of more than 1 foreign proceeding

In matters referred to in section 1501, with respect to more than 1 foreign proceeding regarding the debtor, the court shall seek cooperation and coordination under sections 1525, 1526, and 1527, and the following shall apply:

(1) Any relief granted under section 1519 or 1521 to a representative of a foreign main proceeding must be consistent with the foreign main proceeding.

(2) If a foreign main proceeding is recognized under section 1501, the court shall grant, modify, or terminate relief for the purpose of coordinating the proceeding under section 1520(a) shall be modified or terminated if inconsistent with the foreign main proceeding.

(3) If, after recognition of a foreign nonmain proceeding, any relief in effect under section 1519 or 1521 shall be reviewed by the court and modified or terminated if inconsistent with the foreign main proceeding.

(4) If, after recognition of a foreign nonmain proceeding, any relief in effect under section 1519 or 1521 shall be reviewed by the court and modified or terminated if inconsistent with the foreign main proceeding.

§ 1531. Presumption of insolvency based on recognition of a foreign main proceeding

In the absence of evidence to the contrary, recognition of a foreign main proceeding for the purpose of coordinating a proceeding under section 303, proof that the debtor is generally not paying its debts as such debts become due.

§ 1532. Rule of payment in concurrent proceedings

"Without prejudice to secured claims or rights in rem, a creditor who has received payment with respect to its claim in a foreign proceeding, under a law relating to insolvency may not receive a payment for the same claim in a case under another chapter of this title regarding the debtor, so long as the payment to other creditors of the same class is proportionately less than the payment the creditor has already received.”

§ 1533. Other Sections of Title 11

(a) Section 109(b)(3) of title 11, United States Code, is amended by inserting after the word "HS" the following: 1101. Venue of cases ancillary to foreign proceedings

A case under chapter 15 of title 11 may be commenced in the district court for the district—

(1) in which the debtor has its principal place of business or principal assets in the United States;

(2) if the debtor does not have a place of business or assets in the United States, in which there is pending against the debtor an action or proceeding in a Federal or State court;

(3) in a case other than those specified in paragraph (1) or (2), in which venue will be consistent with the interests of justice and the convenience of the parties, having regard to the relief sought by the foreign representative.

(b) Other Sections of Title 11

(1) Section 307(b)(3) of title 11, United States Code, is amended to read as follows: 1501. Ancillary and Other Cross-Border Cases

SEC. 307. OTHER AMENDMENTS TO TITLES 11 AND 28, UNITED STATES CODE.
“(3)(A) a foreign insurance company, engaged in such business in the United States; or
“(B) a foreign bank, savings bank, cooperative bank, savings and loan association, building and loan association, or credit union that is a branch or agency (as defined in section 1(b) of the International Banking Act of 1978 (12 U.S.C. 3101) in the United States.

(2) Section 303(k) of title 11, United States Code, is repealed.

(3)(A) Section 304 of title 11, United States Code, is repealed.

(B) The table of sections at the beginning of chapter 3 of title 11, United States Code, is amended by striking the item relating to section 304.

(C) Section 306 of title 11, United States Code, is amended by striking “, 304,” each place it appears.

(4) Section 305(a)(2) of title 11, United States Code, is amended to read as follows:

“(2)(A) a petition under section 1515 of this title for recognition of a foreign proceeding has become effective;

“(B) the purposes of chapter 15 of this title are to reorganize, liquidate, or dissolve a person, and the foreign proceeding is one where recognition of the proceeding is necessary to carry out these purposes; or

“(C) there is a need to stay an action or process pending in a United States court that relates to the foreign proceeding.

(5) Section 508 of title 11, United States Code, is amended—

(A) by striking subsection (a); and

(B) in subsection (b), by striking “(b)”,

TITLE IX—FINANCIAL CONTRACT PROVISIONS

SEC. 901. TREATMENT OF CERTAIN AGREEMENTS BY CONSERVATORS OR RECEIVERS OF FAILED DEPOSITORY INSTITUTIONS.

(a) DEFINITION OF QUALIFIED FINANCIAL CONTRACT.—Section 11(e)(8)(D)(i) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)(D)(i)) is amended by inserting “resolution, or order” after “any similar agreement that the Corporation determines by regulation.”

(b) DEFINITION OF SECURITIES CONTRACT.—Section 11(e)(8)(D)(ii) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)(D)(ii)) is amended to read as follows:

“(ii) SECURITIES CONTRACT.—The term ‘securities contract’—

“(I) means an agreement, including related agreements or transactions referred to in clauses (ii), (III), (IV), (V), (VI), (VII), (VIII), or (IX); and

“(II) includes—

“(III) any agreement that provides for an agreement or transaction referred to in clause (I), (II), (III), (IV), (V), (VI), (VII), (VIII), or (IX), and is entered into, including, a repurchase transaction, reverse repurchase transaction, consignment, lease, swap, hedge transaction, default option, option, repurchase agreement, unallocated transaction, or any other similar agreement;

“(IV) any combination of agreements or transactions referred to in subclauses (I) and (II); and

“(V) any agreement referred to in any such subclause.”.

(c) DEFINITION OF COMMODITY CONTRACT.—Section 11(e)(8)(D)(iii) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)(D)(iii)) is amended to read as follows:

“(iii) COMMODITY CONTRACT.—The term ‘commodity contract’—

“(I) means an agreement, including related agreements or transactions referred to in clause (I), (II), (III), (IV), (V), (VI), (VII), (VIII), (IX), or (X); and

“(II) includes—

“(iii) any agreement or transaction referred to in clause (I), (II), (III), (IV), (V), (VI), (VII), (VIII), (IX), or (X), and is entered into, including, a repurchase transaction, reverse repurchase transaction, commodity options, consignment, lease, swap, hedge transaction, default option, option, repurchase agreement, unallocated transaction, or any other similar agreement;

“(IV) any combination of agreements or transactions referred to in subclauses (I) and (II); and

“(V) any agreement referred to in any such subclause.”.

(d) DEFINITION OF FORWARD CONTRACT.—Section 11(e)(8)(D)(iv) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)(D)(iv)) is amended to read as follows:

“(iv) FORWARD CONTRACT.—The term ‘forward contract’ means—

“(I) a contract (other than a commodity contract) for the purchase, sale, or transfer of a commodity or any similar good, article, security, right, or interest which is presently or in the future becomes the subject of dealing in the forward contract trade, or product or byproduct thereof, with a maturity date more than 2 days after the date the contract is entered into, including, a repurchase transaction, reverse repurchase transaction, commodity options, consignment, lease, swap, hedge transaction, default option, option, repurchase agreement, unallocated transaction, or any other similar agreement;

“(II) any combination of agreements or transactions referred to in subclauses (I) and (III); and

“(III) any option to enter into any agreement or transaction referred to in subclause (I); or

“(IV) a master agreement that provides for an agreement or transaction referred to in subclause (I), (II), (III), (IV), or (V) including any guarantee or reimbursement obligation related to any agreement or transaction referred to in any such subclause.”.

(e) DEFINITION OF REPURCHASE AGREEMENT.—Section 11(e)(8)(D)(v) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)(D)(v)) is amended to read as follows:

“(v) REPURCHASE AGREEMENT.—The term ‘repurchase agreement’ (which definition also applies to a reverse repurchase agreement)—

“(I) means an agreement, including related terms, which provides for the transfer of one or more certificates of deposit, mortgage-related securities (as such term is defined in the Securities Exchange Act of 1934), mortgage loans, interests in mortgage-related securities or mortgage loans, eligible bankers’ acceptances, qualified foreign government securities or securities that are direct obligations of, or that are fully guaranteed by, the United States or any agency of the United States against the transfer of funds by an eligible dealer, a commodity option, a commodity contract, a commodity option contract, or a commodity contract on a commodity for future delivery on, or subject to the rules of, a contract market or board of trade; or

“(II) includes—

“(i) any agreement other than a commodity contract, a commodity option, a commodity contract on a commodity for future delivery on, or subject to the rules of, a contract market or board of trade that is entered into, including, a repurchase transaction, reverse repurchase transaction, commodity options, consignment, lease, swap, hedge transaction, default option, option, repurchase agreement, unallocated transaction, or any other similar agreement;

“(ii) any combination of agreements or transactions referred to in clause (I); and

“(iii) any agreement referred to in any such subclause.”.

(f) DEFINITION OF GUARANTEE AGREEMENT.—Section 11(e)(8)(D)(vi) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)(D)(vi)) is amended to read as follows:

“(vi) GUARANTEE AGREEMENT.—The term ‘guarantee agreement’ means—

“(I) means an agreement, including related terms, which, in its terms, gives rise to a guarantee obligation related to any agreement or transaction referred to in any such agreement or transaction by an eligible dealer, a commodity option, a commodity contract, a commodity option contract, or a commodity contract on a commodity for future delivery on, or subject to the rules of, a contract market or board of trade; or

“(II) includes—

“(i) any agreement other than a commodity contract, a commodity option, a commodity contract on a commodity for future delivery on, or subject to the rules of, a contract market or board of trade that is entered into, including, a repurchase transaction, reverse repurchase transaction, commodity options, consignment, lease, swap, hedge transaction, default option, option, repurchase agreement, unallocated transaction, or any other similar agreement;
July 12, 2001

rmajette on PROD1PC67 with BOUND RECORD

‘‘(II) does not include any repurchase obligation under a participation in a commercial
mortgage loan unless the Corporation determines by regulation, resolution, or order to
include any such participation within the
meaning of such term;
‘‘(III) means any combination of agreements or transactions referred to in subclauses (I) and (IV);
‘‘(IV) means any option to enter into any
agreement or transaction referred to in subclause (I) or (III);
‘‘(V) means a master agreement that provides for an agreement or transaction referred to in subclause (I), (III), or (IV), together with all supplements to any such
master agreement, without regard to whether the master agreement provides for an
agreement or transaction that is not a repurchase agreement under this clause, except
that the master agreement shall be considered to be a repurchase agreement under this
subclause only with respect to each agreement or transaction under the master agreement that is referred to in subclause (I),
(III), or (IV); and
‘‘(VI) means any security agreement or arrangement or other credit enhancement related to any agreement or transaction referred to in subclause (I), (III), (IV), or (V) including any guarantee or reimbursement obligation in connection with any agreement
or transaction referred to in any such subclause.
For purposes of this clause, the term ‘qualified foreign government security’ means a
security that is a direct obligation of, or
that is fully guaranteed by, the central government of a member of the Organization for
Economic Cooperation and Development (as
determined by regulation or order adopted
by the appropriate Federal banking authority).’’.
(f) DEFINITION OF SWAP AGREEMENT.—Section 11(e)(8)(D)(vi) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)(D)(vi)) is
amended to read as follows:
‘‘(vi) SWAP AGREEMENT.—The term ‘swap
agreement’ means—
‘‘(I) any agreement, including the terms
and conditions incorporated by reference in
any such agreement, which is an interest
rate swap, option, future, or forward agreement, including a rate floor, rate cap, rate
collar, cross-currency rate swap, and basis
swap; a spot, same day-tomorrow, tomorrownext, forward, or other foreign exchange or
precious metals agreement; a currency swap,
option, future, or forward agreement; an equity index or equity swap, option, future, or
forward agreement; a debt index or debt
swap, option, future, or forward agreement; a
total return, credit spread or credit swap, option, future, or forward agreement; a commodity index or commodity swap, option, future, or forward agreement; or a weather
swap, weather derivative, or weather option;
‘‘(II) any agreement or transaction that is
similar to any other agreement or transaction referred to in this clause and that is
of a type that has been, is presently, or in
the future becomes, the subject of recurrent
dealings in the swap markets (including
terms and conditions incorporated by reference in such agreement) and that is a forward, swap, future, or option on one or more
rates, currencies, commodities, equity securities or other equity instruments, debt securities or other debt instruments, quantitative measures associated with an occurrence, extent of an occurrence, or contingency associated with a financial, commercial, or economic consequence, or economic

or financial indices or measures of economic
or financial risk or value;
‘‘(III) any combination of agreements or
transactions referred to in this clause;
‘‘(IV) any option to enter into any agreement or transaction referred to in this
clause;
‘‘(V) a master agreement that provides for
an agreement or transaction referred to in
subclause (I), (II), (III), or (IV), together with
all supplements to any such master agreement, without regard to whether the master
agreement contains an agreement or transaction that is not a swap agreement under
this clause, except that the master agreement shall be considered to be a swap agreement under this clause only with respect to
each agreement or transaction under the
master agreement that is referred to in subclause (I), (II), (III), or (IV); and
‘‘(VI) any security agreement or arrangement or other credit enhancement related to
any agreements or transactions referred to
in subclause (I), (II), (III), (IV), or (V) including any guarantee or reimbursement obligation in connection with any agreement or
transaction referred to in any such subclause.
Such term is applicable for purposes of this
title only and shall not be construed or applied so as to challenge or affect the characterization, definition, or treatment of any
swap agreement under any other statute,
regulation, or rule, including the Securities
Act of 1933, the Securities Exchange Act of
1934, the Public Utility Holding Company
Act of 1935, the Trust Indenture Act of 1939,
the Investment Company Act of 1940, the Investment Advisers Act of 1940, the Securities
Investor Protection Act of 1970, the Commodity Exchange Act, the Gramm-LeachBliley Act, and the Legal Certainty for Bank
Products Act of 2000.’’.
(g) DEFINITION OF TRANSFER.—Section
11(e)(8)(D)(viii) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)(D)(viii)) is
amended to read as follows:
‘‘(viii) TRANSFER.—The term ‘transfer’
means every mode, direct or indirect, absolute or conditional, voluntary or involuntary, of disposing of or parting with property
or with an interest in property, including retention of title as a security interest and
foreclosure of the depository institution’s
equity of redemption.’’.
(h) TREATMENT OF QUALIFIED FINANCIAL
CONTRACTS.—Section 11(e)(8) of the Federal
Deposit Insurance Act (12 U.S.C. 1821(e)(8)) is
amended—
(1) in subparagraph (A)—
(A) by striking ‘‘paragraph (10)’’ and inserting ‘‘paragraphs (9) and (10)’’;
(B) in clause (i), by striking ‘‘to cause the
termination or liquidation’’ and inserting
‘‘such person has to cause the termination,
liquidation, or acceleration’’; and
(C) by striking clause (ii) and inserting the
following:
‘‘(ii) any right under any security agreement or arrangement or other credit enhancement related to one or more qualified
financial contracts described in clause (i);’’;
and
(2) in subparagraph (E), by striking clause
(ii) and inserting the following:
‘‘(ii) any right under any security agreement or arrangement or other credit enhancement related to one or more qualified
financial contracts described in clause (i);’’.
(i) AVOIDANCE OF TRANSFERS.—Section
11(e)(8)(C)(i) of the Federal Deposit Insurance
Act (12 U.S.C. 1821(e)(8)(C)(i)) is amended by
inserting ‘‘section 5242 of the Revised Statutes of the United States (12 U.S.C. 91) or

PO 00000

Frm 00101

Fmt 0686

Sfmt 0634

any other Federal or State law relating to
the avoidance of preferential or fraudulent
transfers,’’ before ‘‘the Corporation’’.
SEC. 902. AUTHORITY OF THE CORPORATION
WITH RESPECT TO FAILED AND
FAILING INSTITUTIONS.

(a) IN GENERAL.—Section 11(e)(8) of the
Federal Deposit Insurance Act (12 U.S.C.
1821(e)(8)) is amended—
(1) in subparagraph (E), by striking ‘‘other
than paragraph (12) of this subsection, subsection (d)(9)’’ and inserting ‘‘other than subsections (d)(9) and (e)(10)’’; and
(2) by adding at the end the following new
subparagraphs:
‘‘(F) CLARIFICATION.—No provision of law
shall be construed as limiting the right or
power of the Corporation, or authorizing any
court or agency to limit or delay, in any
manner, the right or power of the Corporation to transfer any qualified financial contract in accordance with paragraphs (9) and
(10) of this subsection or to disaffirm or repudiate any such contract in accordance with
subsection (e)(1) of this section.
‘‘(G) WALKAWAY CLAUSES NOT EFFECTIVE.—
‘‘(i) IN GENERAL.—Notwithstanding the provisions of subparagraphs (A) and (E), and sections 403 and 404 of the Federal Deposit Insurance Corporation Improvement Act of
1991, no walkaway clause shall be enforceable
in a qualified financial contract of an insured depository institution in default.
‘‘(ii) WALKAWAY CLAUSE DEFINED.—For purposes of this subparagraph, the term
‘walkaway clause’ means a provision in a
qualified financial contract that, after calculation of a value of a party’s position or an
amount due to or from 1 of the parties in accordance with its terms upon termination,
liquidation, or acceleration of the qualified
financial contract, either does not create a
payment obligation of a party or extinguishes a payment obligation of a party in
whole or in part solely because of such party’s status as a nondefaulting party.’’.
(b) TECHNICAL AND CONFORMING AMENDMENT.—Section 11(e)(12)(A) of the Federal
Deposit
Insurance
Act
(12
U.S.C.
1821(e)(12)(A)) is amended by inserting ‘‘or
the exercise of rights or powers by’’ after
‘‘the appointment of’’.
SEC. 903. AMENDMENTS RELATING TO TRANSFERS OF QUALIFIED FINANCIAL
CONTRACTS.
(a) TRANSFERS OF QUALIFIED FINANCIAL
CONTRACTS TO FINANCIAL INSTITUTIONS.—Sec-

tion 11(e)(9) of the Federal Deposit Insurance
Act (12 U.S.C. 1821(e)(9)) is amended to read
as follows:
‘‘(9) TRANSFER OF QUALIFIED FINANCIAL CONTRACTS.—
‘‘(A) IN GENERAL.—In making any transfer
of assets or liabilities of a depository institution in default which includes any qualified
financial contract, the conservator or receiver for such depository institution shall
either—
‘‘(i) transfer to one financial institution,
other than a financial institution for which
a conservator, receiver, trustee in bankruptcy, or other legal custodian has been appointed or which is otherwise the subject of
a bankruptcy or insolvency proceeding—
‘‘(I) all qualified financial contracts between any person or any affiliate of such person and the depository institution in default;
‘‘(II) all claims of such person or any affiliate of such person against such depository
institution under any such contract (other
than any claim which, under the terms of
any such contract, is subordinated to the
claims of general unsecured creditors of such
institution);

Section 11(e)(10)(A) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(10)(A)) is amended—

(a) Definitions.—Section 402 of the Federal Deposit Insurance Corporation Improvement Act of 1991.—

(1) A bridge bank.

(2) A depository institution organized by the Corporation, for which a conservator is appointed either—

(i) immediately upon the organization of the institution; or

(ii) at the time of a purchase and assumption transaction between the depository institution and the Corporation as receiver for a depository institution in default.

(b) Notice to Qualified Financial Contract Counterparties.—Section 11(e)(10)(A) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(10)(A)) is amended in the material immediately following clause (ii) by striking “the conservator” and all that follows through the period and inserting the following: “the conservator or receiver shall notify any person who is a party to any such contract of such transfer by 5:00 p.m. (eastern time) on the business day following the date of the appointment of the receiver in the case of a receiver, or the business day following such transfer in the case of a conservatorship.”

(c) Treatment of Foreign Bank, Foreign Financial Institution, or Branch of a Foreign Bank or Financial Institution.—In transferring any qualified financial contracts and related claims and property under subparagraph (A)(i), the conservator or receiver for the depository institution shall not make such transfer to a foreign bank, financial institution organized under the laws of a foreign country, or a branch or agency of a foreign bank or financial institution unless, under the law applicable to such bank, financial institution, branch or agency, to the qualified financial contracts, and to any netting contract, any security agreement or arrangement or other credit enhancements pursuant to subparagraph (A)(i) and such contract is cleared by or subject to the rules of a clearing organization, the clearing organization shall not be required to accept the transferee as a member by virtue of the transfer.

(D) Definitions.—For purposes of this paragraph, a ‘financial institution’ means a broker or dealer, a depository institution, a futures commission merchant, or any other institution, as determined by the Corporation, to be a financial institution, and the term ‘clearing organization’ has the same meaning as in section 402 of the Federal Deposit Insurance Corporation Improvement Act of 1991.

SUBSECTION 532: CONGRESSIONAL RECORD—SENATE July 12, 2001

subsection (A) (with respect to such person or any affiliate of such person); and

(3) by including at the end of section 11(e) the following new paragraph:

(ii) the depository institution in default; or

(B) disaffirm or repudiate none of the qualified financial contracts and related claims and property under subparagraph (A)(i), the conservator or receiver for such institution shall either—

(A) disaffirm or repudiate all qualified financial contracts referred to in subparagraph (A) (with respect to such person or any affiliate of such person); and

(2) by inserting after paragraph (10) the following new paragraph:

(11) DISAFFIRMANCE OR REPUDIATION OF QUALIFIED FINANCIAL CONTRACTS.—In exercising the rights of disaffirmance or repudiation of a conservator or receiver with respect to any qualified financial contract to which the institution to which the conservator or receiver for such institution is a party, the conservator or receiver for such institution shall either—

(A) disaffirm or repudiate all qualified financial contracts referred to in subparagraph (A) (with respect to such person or any affiliate of such person); and

(1) A party to a qualified financial contract with an insured depository institution may not exercise any right that such person has to terminate, liquidate, or net such contract under paragraph (8)(A) of this subsection or section 403 or 404 of the Federal Deposit Insurance Corporation Improvement Act of 1991, solely by reason of or incidental to the appointment of a receiver for the depository institution (or the insolvency or financial condition of the depository institution for which the receiver has been appointed)—

(1) until 5:00 p.m. (eastern time) on the business day following the date of the appointment of the receiver pursuant to paragraph (9)(A), or

(2) after the person has received notice that the contract has been transferred pursuant to paragraph (9)(A), or

(3) by including at the end of section 11(e) the following new paragraph:

(ii) the depository institution in default; or

(1) A party to a qualified financial contract with an insured depository institution may not exercise any right that such person has to terminate, liquidate, or net such contract under paragraph (8)(E) of this subsection or sections 403 or 404 of the Federal Deposit Insurance Corporation Improvement Act of 1991, solely by reason of or incidental to the appointment of a conservator for the depository institution (or the insolvency or financial condition of the depository institution for which the conservator has been appointed)

(iii) Notice.—For purposes of this paragraph, the Corporation as receiver or conservator of an insured depository institution shall be deemed to have notified a person who is a party to a qualified financial contract with such depository institution (or the insolvency or financial condition of such depository institution) if the Corporation has taken steps reasonably calculated to provide notice to such person by the time specified in subparagraph (A).

(c) Treatment of Master Agreement as One Agreement.—Any master agreement for any contract or agreement described in any preceding clause of this subparagraph (or any amendment, modification, or supplemental agreement to such master agreement or agreements), together with all supplements to such master agreement, shall be treated as a single agreement and a single qualified financial contract, and such agreement shall be deemed to be a qualified financial contract only with respect to those transactions that are themselves qualified financial contracts.

(a) Definitions.—Section 402 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 4821(e)) is amended—

(1) in paragraph (2)—

(A) in subparagraph (A)(ii), by inserting before the semicolon “; or”, is exempt from such future clearing organization, Securities and Exchange Commission;” and

(b) by inserting in subparagraph (B) a period “;” that has been granted an exemption under section 5 of the Commodity Exchange Act, or that is a multilateral clearing organization (as defined in section 408 of this Act)”;

(2) in paragraph (6)—

(A) by redesignating subparagraphs (B) through (D) as subparagraphs (C) through (E), respectively;

(b) by inserting after subparagraph (A) the following new subparagraph:

(1) by redesigning paragraphs (11) through (15) as paragraphs (12) through (16), respectively;

(2) by inserting after paragraph (10) the following new paragraph:

(11) DISAFFIRMANCE OR REPUDIATION OF QUALIFIED FINANCIAL CONTRACTS.—In exercising the rights of disaffirmance or repudiation of a conservator or receiver with respect to any qualified financial contract to which the institution to which the conservator or receiver for such institution is a party, the conservator or receiver for such institution shall either—

(A) disaffirm or repudiate all qualified financial contracts referred to in subparagraph (A) (with respect to such person or any affiliate of such person); and

(3) by including at the end of section 11(e) the following new paragraph:

(ii) the depository institution in default; or

(B) disaffirm or repudiate none of the qualified financial contracts referred to in
("(1) means a contract or agreement between two or more financial institutions, clearing organizations, or members that provides for netting present or future payment obligations or payment entitlements (including liquidation values and other values relating to such obligations or entitlements) among the parties to the agreement; and"; and
(5) by adding at the end the following new paragraph:
"(b) PAYMENT.—The term 'payment' means a payment of United States dollars, another currency, or a composite currency, and includes a transfer of a payment or delivery to liquidate an uninsured obligation.''

(b) ENFORCEABILITY OF BILATERAL NETTING CONTRACTS.—Section 403 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 4404) is amended—
(1) by striking subsection (a) and inserting the following:
"(a) GENERAL RULE.—Notwithstanding any other provision of State or Federal law (other than paragraphs (8)(E), (8)(F), and (10)(B) of section 5(b)(2) of the Federal Deposit Insurance Act or any other order authorized under section 5(b)(2) of the Securities Investor Protection Act of 1970), the covered contractual payment obligations and the covered contractual payment entitlements between any 2 financial institutions shall be netted in accordance with, and subject to the conditions of, the terms of any applicable netting contract (except as provided in section 561(b)(2) of title 11, United States Code).''; and
(2) by adding at the end the following new subsection:
"(c) ENFORCEABILITY OF SECURITY AGREEMENTS.—The provisions of any security agreement or arrangement or other credit enhancement related to one or more netting contracts between any 2 financial institutions shall be enforceable in accordance with their terms (except as provided in section 561(b)(2) of title 11, United States Code), and shall not be stayed, avoided, or otherwise limited by any State or Federal law (other than paragraphs (8)(E), (8)(F), and (10)(B) of section 5(b)(2) of the Securities Investor Protection Act and section 5(b)(2) of the Securities Investor Protection Act of 1970).''.

(c) ENFORCEABILITY OF CLEARING ORGANIZATION CONTRACTS.—Section 407A of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 4404) is amended—
(1) by striking subsection (a) and inserting the following:
"(a) GENERAL RULE.—Notwithstanding any other provision of State or Federal law (other than paragraphs (8)(E), (8)(F), and (10)(B) of section 5(b)(2) of the Federal Deposit Insurance Act or any other order authorized under section 5(b)(2) of the Securities Investor Protection Act of 1970), the covered contractual payment obligations and the covered contractual payment entitlements of a member of a clearing organization to and from all other members of a clearing organization shall be netted in accordance with and subject to the conditions of any applicable netting contract (except as provided in section 561(b)(2) of title 11, United States Code).''; and
(2) by adding at the end the following new subsection:
"(b) LIABILITY.—The liability of a receiver or conservator of an uninsured national bank, uninsured Federal branch or agency, a corporation chartered under section 25A of the Federal Reserve Act, or an uninsured State member bank which operates, or operates as, a multilateral clearing organization pursuant to section 409 of this Act shall be determined in the same manner and subject to the same provisions that apply to receivers and conservators of insured depository institutions under section 11(e) of the Federal Deposit Insurance Act.''

(d) DEFINITION.—(1) In general.—The Comptroller of the Currency and the Board of Governors of the Federal Reserve System in each case shall ensure that their regulations generally are consistent with the regulations and policies of the Federal Deposit Insurance Corporation adopted pursuant to the Federal Deposit Insurance Act.
(2) Definitions.—For purposes of this section, the terms ‘Federal branch’, ‘Federal agency’, and ‘foreign bank’ have the same meanings as in section 11(e) of the International Banking Act of 1978.''

SEC. 907. BANKRUPTCY CODE AMENDMENTS.

(a) DEFINITIONS OF FORWARD CONTRACT, REPURCHASE AGREEMENT, SWAP AGREEMENT, ABSENTEE CONSENT, AND SECURITIES CONTRACT.—Title 11, United States Code, is amended—
(1) in section 101—
(A) in paragraph (25)—
(i) by striking ‘means a contract’ and inserting ‘means—’;
(ii) by striking ‘, or any combination thereof or option thereon;’ and inserting ‘, or any other similar agreement;’; and
(iii) by adding at the end the following:
‘‘(B) any combination of agreements or transactions referred to in subparagraphs (A) and (C);’’;
(B) any option to enter into an agreement or transaction referred to in subparagraph (A) or (B);
(C) any master agreement that provides for an agreement or transaction referred to in subparagraph (A), (B), or (C), together with all supplements to any such master agreement, without regard to whether such master agreement provides for an agreement or transaction that is not a forward contract under this paragraph, except that such master agreement shall be considered to be a forward contract under this paragraph only with respect to each agreement or transaction under such master agreement that is referred to in subparagraph (A), (B), or (C); or
(D) any security agreement or arrangement, or other credit enhancement related to any agreement or transaction referred to in subparagraph (A), (B), (C), or (D) including any guarantee or reimbursement obligation by or to a forward contract merchant or financial participant in connection with any agreement or transaction referred to in any such subparagraph, but not to exceed the damages in connection with any such agreement or transaction, measured in accordance with subsection (b);’’;
(2) in section 552—
(A) in paragraph (46), by striking ‘on any day during the period beginning 90 days before the date of’ and inserting ‘at any time before the date of’;
(B) by amending paragraph (47) to read as follows:
‘‘(47) ‘repurchase agreement’ (which definition also applies to a reverse repurchase agreement)—’’;
"(A) means—"
``(i) an agreement, including related terms, which provides for the transfer or one or more certificates of deposit, mortgage-related securities (as defined in section 3 of the Securities Exchange Act of 1934), mortgage loans, interests in mortgage-related securities of a mortgage loan, eligible bankers’ acceptances, securities, mortgage loans, or interests, with a simultaneity agreement by such transferee to transfer to the transferee thereof certificates of deposit, eligible bankers’ acceptances, securities, mortgage loans, or interests of the kind described in this clause, at a date certain not later than 1 year after such transfer or on the occurrence of an event or occurrence, including terms and conditions incorporated by reference therein; and

(ii) any combination of agreements or transactions referred to in clauses (i) and (iii);"
7/12/2001

CONGRESSIONAL RECORD—SENATE

13233

section (a) pursuant to paragraph (6), (7), or (17) for each individual contract covered thereby, to the extent that such master netting agreement participant otherwise did not take (or is otherwise not deemed to have taken) such transfer for value.''

(g) TERMINATION OR ACCELERATION OF SECURITIES CONTRACTS.—Section 555 of title 11, United States Code, is amended—

(1) by amending the section heading to read as follows:

"1555. Contractual right to liquidate, terminate, or accelerate a securities contract";

and

(2) in the first sentence, by striking "liq-

uization" and inserting "liquidation, termi-

nation, or acceleration";

(h) TERMINATION OR ACCELERATION OF COM-

MODITIES OR FORWARD CONTRACTS.—Section 556 of title 11, United States Code, is amended—

(1) by amending the section heading to read as follows:

"1556. Contractual right to liquidate, terminate, or accelerate a commodities contract or forward contract";

(2) in the first sentence, by striking "liq-

uization" and inserting "liquidation, termi-

nation, or acceleration"; and

(3) in the second sentence, by striking "As used and all that follows through "right,''

and inserting "As used in this section, the term 'contractual right' includes a right set forth in a rule or bylaw of a derivatives clearing organization (as defined in the Com-

modities Exchange Act) or a securities clear-

ing organization (as defined in the Federal Deposit Insurance Corporation Improvement

"(C) any security agreement or arrange-

ment, or any security agreement or transaction referred to in this paragraph including any guarantee or reimbursement obligation by or to a com-

modity broker or financial participant in connection with any such agreement or transaction, measured in accordance with section 561(a); or

(b) DEFINITIONS OF FINANCIAL INSTITUTION, FINANCIAL PARTICIPANT, AND FORWARD CON-

TRACTS.—Section 101 of title 11, United States Code, is amended—

(1) by striking paragraph (22) and inserting the following:

"(22) 'financial institution' means—

"(A) a Federal reserve bank, or an entity (domestic or foreign) that is a commercial or savings bank, industrial savings bank, savings and loan association, trust company, or receiver or conservator for such entity and, when any such Federal reserve bank, receiver, conservator or entity is acting as agent for a customer or after a transaction with a securities contract, as defined in section 741, such customer; or

"(B) in connection with a securities con-

tract, a commodity, as defined in section 741, a commodity merchant registered under the Investment Company Act of 1940;'';

(2) by inserting after paragraph (22) the follow-

ing:

"(22A) 'financial participant' means—

"(A) an entity that, at the time it enters into a securities contract, commodity contract, commodity agreement, repurchase agreement, or forward contract, or at the time of the filing of the petition, has one or more agreements or transactions described in paragraphs (2), (3), (4), (5), or (6) of section 561(a) with the debtor or any other entity (other than an affiliate) of a total gross dollar value of not less than $1,000,000,000 in natural or actual principal amount outstanding on any day during the previous 15-month period, or has gross mark-to-market positions of not less than $100,000,000 (aggre-

gated across counterparties) in one or more such agreements or transactions with the debtor or any other entity (other than an af-

filiate) on any day during the previous 15-

month period and inserting '; and''; and

(3) by striking paragraph (25) and inserting the following:

"(25) 'forward contract merchant' means a Federal reserve bank, or an entity the business of which consists in whole or in part of entering into forward contracts as or with merchants in a commodity, as defined in section 761 or any similar good, article, service, right, or interest which is presently or in the future becomes the subject of dealing in the forward contract trade.''

(c) DEFINITION OF MASTER NETTING AGREE-

MENT AND MASTER NETTING AGREEMENT PAR-

TICIPANT.—Section 101 of title 11, United States Code, is amended by inserting after paragraph (24) the following new paragraph:

"(38A) 'master netting agreement'—

"(A) means an agreement providing for the exercise of rights, including rights of net-

tlement, acceleration, termination, or liquidation, in one or more contracts that are described in any one or more of paragraphs (1) through (5) of section 561(a), or any security agreement or arrangement or other credit enhancement related to one or more of the foregoing, including any guarantee or reim-

bursement obligation related to 1 or more of the foregoing; and

"(B) if the agreement contains provisions relating to agreements or transactions that are not contracts described in paragraphs (1) through (5), is deemed to be a master netting agreement only with respect to those agreements or transactions that are described in any one or more of paragraphs (1) through (5) of section 561(a); and

"(38B) 'master netting agreement partici-

pant' means an entity that, at any time be-

fore the commencement of the case, is a party to an outstanding master netting agreement with the debtor;'';

(d) SWAP AGREEMENTS, SECURITIES CON-

TRACTS, COMMODITY CONTRACTS, FORWARD CON-

TRACTS, REPURCHASE AGREEMENTS, AND MASTER NETTING AGREEMENTS UNDER THE AUTOMATIC-STAY.—

(1) IN GENERAL.—Section 362(b) of title 11, United States Code, as amended by this Act, is amended—

(A) in paragraph (6), by inserting "pledge to and under the control of, or under liquidation, termination, or acceleration''.

"(B) in paragraph (7), by inserting "pledge to and under the control of, or under liquidation, termination, or acceleration''.

"(C) by striking paragraph (17) and inserting the following:

"(17) under subsection (a), of the setoff by a swap participant or financial participant of a mutual debt and claim under or in connec-

tion with one or more swap agreements that consti-

tutes the setoff of a claim against the debtor for any payment or other transfer of property due from the debtor under or in connection with any swap agreement against any payment due to the debtor from the swap participant under or in connection with any swap agree-

ment or against cash, securities, or other property held by, pledged to and under the control of, or due from such swap participant or financial participant to margin, guar-

antee, secure, or settle any swap agree-

ment;''; and

"(D) by inserting after paragraph (26), as added by this Act, the following new para-

graph:

"(27) under subsection (a), of the setoff by a master netting agreement participant of a mutual debt and claim under or in connec-

tion with one or more master netting agree-

ments or any contract or agreement subject to such agreements that constitutes the setoff of a claim against the debtor for any payment or other transfer of property due from the debtor under or in connection with such agreements or any contract or agree-

ment subject to such agreements against any payment due to the debtor from such master netting agreement participant under or in connection with such agreements or any con-

tract or agreement subject to such agree-

ments or against cash, securities, or other property held by, pledged to and under the control of, or due from such master netting agreement participant to margin, guarantee, secure, or settle such agreements or any con-

tract or agreement subject to such agree-

ments or against cash, securities, or other property held by, pledged to and under the control of, or due from such master netting agreement participant to margin, guar-

antee, secure, or settle any swap agree-

ment;''; and

"(E) a master netting agreement partici-

pant that receives a transfer in connection with any master netting agreement or any individual contract covered thereby for value to the extent of such transfer, except that, with respect to a transfer under any in-

dividual contract covered thereby, to the ex-

tent that such master netting agreement participant otherwise did not take (or is oth-

erwise not deemed to have taken) such trans-

fer for value,''.

(2) in subparagraph (D), by striking the pe-

riod and inserting ': and'';

(3) by adding at the end the following new subpara-

graph:

"(F) a master netting agreement partici-

pant otherwise did not take (or is oth-

erwise not deemed to have taken) such trans-

fer for value.''

(g) TERMINATION OR ACCELERATION OF SECURITIES CONTRACTS.—Section 555 of title 11, United States Code, is amended—

(1) by amending the section heading to read as follows:

"1555. Contractual right to liquidate, termi-

nate, or accelerate a securities contract";

and

(2) in the first sentence, by striking "liq-

uization" and inserting "liquidation, termi-

nation, or acceleration";

(h) TERMINATION OR ACCELERATION OF COM-

MODITIES OR FORWARD CONTRACTS.—Section 556 of title 11, United States Code, is amended—

(1) by amending the section heading to read as follows:

"1556. Contractual right to liquidate, termi-

nate, or accelerate a commodities contract or forward contract";

(2) in the first sentence, by striking "liq-

uization" and inserting "liquidation, termi-

nation, or acceleration"; and

(3) in the second sentence, by striking "As used and all that follows through "right,''

and inserting "As used in this section, the term 'contractual right' includes a right set forth in a rule or bylaw of a derivatives clearing organization (as defined in the Com-

modities Exchange Act) or a securities clear-

ing organization (as defined in the Federal Deposit Insurance Corporation Improvement
Act of 1991, a national securities exchange, a national commodities exchange, a securities clearing agency, a contract market designated under the Commodity Exchange Act, a derivative transaction execution facility registered under the Commodity Exchange Act, or a board of trade (as defined in the Commodity Exchange Act) or in a resolution of the governing board thereof and a right, (1) liquidation, termination, or acceleration''; and

(2) by inserting in subsection (a)(2)(B)(ii) of section 556, 556, 559, or 560 for each individual contract covered by the master netting agreement in issue.

Section 560. Contractual right to liquidate, terminate, or accelerate a swap agreement;

(2) by amending the section heading to read as follows:

"§ 559. Contractual right to liquidate, terminate, or accelerate a repurchase agreement;"

(2) in the first sentence, by striking "liq- uidation'' and inserting ''liquidation, termi- nation, or acceleration'' and

(3) in the third sentence, by striking "As used in this section, the term 'contractual right' includes a right set forth in a rule or bylaw of a derivatives clearing organization (as defined in the Commodity Exchange Act), a multilateral clearing organization (as defined in the Federal Deposit Insurance Corporation Improvement Act of 1991), a national securities association, a securities clearing agency, a contract market designated under the Commodity Exchange Act, a derivative transaction execution facility registered under the Commodity Exchange Act, or a board of trade (as defined in the Commodity Exchange Act) or in a resolution of the governing board thereof and a right, (1) liquidation, termination, or acceleration''; and

(2) by amending the section heading to read as follows:

"§ 560. Contractual right to liquidate, terminate, or accelerate a swap agreement;"

(2) in the first sentence, by striking "termi- nation of a swap agreement'' and inserting "liquidation, termination, or acceleration of one or more swap agreements'';

(3) by striking "in connection with any swap agreement'' and inserting "in connection with the termination, liquidation, or ac- contentment of one or more swap agreements'';

(4) in the second sentence, by striking "As used in this section, the term 'contractual right' includes a right set forth in a rule or bylaw of a derivatives clearing organization (as defined in the Commodity Exchange Act), a multilateral clearing organization (as defined in the Federal Deposit Insurance Corporation Improvement Act of 1991), a national securities exchange, a national securities association, a securities clearing agency, a contract market designated under the Commodity Exchange Act, a derivative transaction execution facility registered under the Commodity Exchange Act, or a board of trade (as defined in the Commodity Exchange Act) or in a resolution of the governing board thereof and a right, (1) liquidation, termination, or offset under a master netting agreement and across contracts; proceedings under chapter 15

(a) IN GENERAL.—Subject to subsection (b), the exercise of any contractual right, be- cause of a condition of the kind specified in section 365(e)(1), to cause the termination, liquidation, or acceleration of or to offset or net termination values, payment amounts, or other transfer obligations arising under or in connection with one or more (or the termi- nation, liquidation, or acceleration of one or more)—

(1) securities contracts, as defined in section 761;

(2) commodity contracts, as defined in section 761(4); (3) forward contracts;

(4) repurchase agreements;

(5) swap agreements; or

(6) master netting agreements, shall not be stayed, avoided, or otherwise limited by operation of any provision of this title or by any order of a court or administrative agency in any proceeding under this title.

(2) IN GENERAL.—A party may exercise a contractual right described in subsection (a) to terminate, liquidate, or accelerate only to the extent that such party could exercise a contractual right described in subsection (a) or (b) of section 365(e) of this title.

(b) EXCEPTION.—Notwithstanding any other provision of this title, the exercise of a right of a forward contract merchant, a derivative contract merchant, a commodity broker, stockbroker, financial institution, financial participant, securities clearing agency, swap participant, repo participant, or master netting agreement participant under this title shall not affect the priority of any unsecured claim it may have after the exercise of such rights.

Section 753. Stockbroker liquidation and forward contract merchants, commodity brokers, stockbrokers, financial institutions, financial participants, securities clearing agencies, swap participants, repo participants, and master netting agreement participants;

Notwithstanding any other provision of this title, the exercise of rights by a forward contract merchant, a derivative contract merchant, a commodity broker, stockbroker, financial institution, financial participant, securities clearing agency, swap participant, repo participant, or master netting agreement participant under this title shall not affect the priority of any unsecured claim it may have after the exercise of such rights.

Act of 1991, a national securities exchange, a national commodities exchange, a securities clearing agency, a contract market designated under the Commodity Exchange Act, a derivative transaction execution facility registered under the Commodity Exchange Act, or a board of trade (as defined in the Commodity Exchange Act) or in a resolution of the governing board thereof and a right, (1) liquidation, termination, or acceleration''; and

(2) by amending the section heading to read as follows:

"§ 561. Contractual right to liquidate, terminate, or accelerate a swap agreement; proceedings under chapter 15

(a) IN GENERAL.—Subject to subsection (b), the exercise of any contractual right, be-

cause of a condition of the kind specified in section 365(e)(1), to cause the termination, liquidation, or acceleration of or to offset or net termination values, payment amounts, or other transfer obligations arising under or in connection with one or more (or the termi- nation, liquidation, or acceleration of one or more)—

(1) securities contracts, as defined in section 761;

(2) commodity contracts, as defined in section 761(4); (3) forward contracts;

(4) repurchase agreements;

(5) swap agreements; or

(6) master netting agreements, shall not be stayed, avoided, or otherwise limited by operation of any provision of this title or by any order of a court or administrative agency in any proceeding under this title.

(2) IN GENERAL.—A party may exercise a contractual right described in subsection (a) to terminate, liquidate, or accelerate only to the extent that such party could exercise a contractual right described in subsection (a) or (b) of section 365(e) of this title.

(b) EXCEPTION.—Notwithstanding any other provision of this title, the exercise of a right of a forward contract merchant, a derivative contract merchant, a commodity broker, stockbroker, financial institution, financial participant, securities clearing agency, swap participant, repo participant, or master netting agreement participant under this title shall not affect the priority of any unsecured claim it may have after the exercise of such rights.

‘‘Notwithstanding any other provision of this title, the exercise of rights by a forward contract merchant, a derivative contract merchant, a commodity broker, stockbroker, financial institution, financial participant, securities clearing agency, swap participant, repo participant, or master netting agreement participant under this title shall not affect the priority of any unsecured claim it may have after the exercise of such rights.’’;

(n) SETOFF.—Section 553 of title 11, United States Code, is amended by inserting after section 752 the following:

"§ 757. Stockbroker liquidation and forward contract merchants, commodity brokers, stockbrokers, financial institutions, financial participants, securities clearing agencies, swap participants, repo participants, and master netting agreement participants;

Notwithstanding any other provision of this title, the exercise of rights by a forward contract merchant, a derivative contract merchant, a commodity broker, stockbroker, financial institution, financial participant, securities clearing agency, swap participant, repo participant, or master netting agreement participant under this title shall not affect the priority of any unsecured claim it may have after the exercise of such rights.’’;
2362(b)(6), 362(b)(2), 362(b)(7), 362(b)(17), 362(b)(27), 555, 556, 559, 560, or 561"

(2) in subsection (a)(3)(C), by inserting before the period the following: “(except for a setoff of a kind described in section 362(b)(6), 362(b)(7), 362(b)(17), 362(b)(27), 555, 556, 559, 560, or 561)”.

(3) in subsection (b)(1), by striking “362(b)(14)” and inserting “362(b)(17),”.

(4) in section 548(d)(2)(A), by inserting “financial participant,” after “financial institution,”.

(5) in section 548(d)(2)(C), by inserting “or financial participant” after “repo participant”.

(6) in section 548(d)(2)(D), by inserting “or financial participant” after “swap participant”.

(7) in section 555—

(A) by inserting “financial participant,” after “financial institution,”; and

(B) by striking the second sentence and inserting the following: “As used in this section, the term ‘commercial right’ includes a right set forth in a rule or bylaw of a derivatives clearing organization (as defined in the Commodity Futures Trading Commission Act of 1974), a multilateral clearing organization (as defined in the Federal Deposit Insurance Corporation Improvement Act of 1991), a national securities exchange, a national securities association, a securities clearing agency, a contract market designated under the Commodity Exchange Act, a derivatives transaction execution facility registered under the Commodity Exchange Act, or a board of trade (as defined in the Commodity Exchange Act), or in a resolution of the governing board thereof, and a right, whether or not in writing, arising under common law, under law merchant, or by any other transfer obligations arising under or in connection with one or more of such contracts or agreements, securities lent under a securities lending agreement, or a securities lending agreement participant, or swap participant, or master netting agreement participant.”.

(8) in section 556, by inserting “financial participant,” after “commodity broker”;

(9) in section 559, by inserting “or financial participant” after “repo participant” each place that term appears; and

(10) in section 560, by inserting “or financial participant” after “swap participant”.

(11) in the table of sections for chapter 7—

(A) by inserting after the item relating to section 766 the following:

“766. Commodity broker liquidation and forward contract merchants, commodity brokers, stockbrokers, financial institutions, financial participants, securities clearing agencies, swap participants, repo participants, and master netting agreement participants.”;

and

(B) by inserting after the item relating to section 767 the following:

“767. Stockbroker liquidation and forward contract merchants, commodity brokers, stockbrokers, financial institutions, financial participants, swap participants, repo participants, and master netting agreement participants.”.

SEC. 907A. SECURITIES BROKER-COMMODITY BROKER LIQUIDATION.

The Securities and Exchange Commission and the Commodity Futures Trading Commission may consult with each other with respect to, under what circumstances, and the extent to which security futures products will be treated as commodity contracts or securities in a liquidation of a person that is both a securities broker and a commodity broker, and with respect to the treatment in such a liquidation of accounts in which both commodity contracts and securities are carried.

SEC. 908. RECORDKEEPING REQUIREMENTS.

Section 11(e)(8) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)) is amended by adding at the end the following new subparagraph:

“(II) RECORDKEEPING REQUIREMENTS.—The Corporation, in consultation with the appropriate Federal banking agencies, may by regulation require more detailed recordkeeping by any insured depository institution with respect to qualified financial contracts (including master netting agreements) such insured depository institution is in a troubled condition (as such term is defined by the Corporation pursuant to 12 U.S.C. 1831n);”.

SEC. 909. SECURITIES CONTINGENT LIEN.

Section 3(e)(2) of the Federal Deposit Insurance Act (12 U.S.C. 1823(e)(2)) is amended to read as follows:

“(2) EXEMPTIONS FROM CONTEMPORANEOUS EXECUTION REQUIREMENT.—An agreement to provide for the lawful collateralization of—

(A) deposits of, or other credit extension by, a Federal, State, or local governmental entity, or of any depositor referred to in section 11a(2), including an agreement to provide collateral in lieu of a surety bond;

(B) bankruptcy estate funds pursuant to section 365(b)(2) of title 11, United States Code;

(C) extensions of credit, including any overdraft, from a Federal reserve bank or Federal home loan bank; or

(D) one or more qualified financial contracts, as defined in section 11a(2)(B), shall not be deemed invalid pursuant to paragraph (1)(B) solely because such agreement was not executed contemporaneously with the acquisition of the collateral or because of pledges, delivery, or substitution of the collateral made in accordance with such agreement.”.

SEC. 910. DAMAGE MEASURE.

(a) IN GENERAL.—Title 11, United States Code, is amended—

(1) by inserting after section 561, as added by this Act, the following:

“§ 562. Damage measure in connection with swap agreements, securities contracts, forward contracts, commodity contracts, repurchase agreements, or master netting agreements.

If the trustee rejects a swap agreement, securities contract (as defined in section 741), forward contract, commodity contract (as defined in section 761), repurchase agreement, or master netting agreement pursuant to section 365(a), or if a forward contract, stockbroker, financial institution, or a securities clearing agency, financial participant, master netting agreement participant, or swap participant liquidates, terminates, or accelerates such contract or agreement, damages shall be measured as of the earlier of—

“(1) the date of such rejection; or

“(2) the date of such liquidation, termination, or acceleration.”;

and

(2) in the table of sections for chapter 5, by inserting after the item relating to section 561, as added by this Act, the following:

“562. Damage measure in connection with swap agreements, securities contracts, forward contracts, commodity contracts, repurchase agreements, or master netting agreements.”.

(b) CLAIMS ARISING FROM REJECTION.—Section 562(g) of title 11, United States Code, is amended—

(1) by inserting “(1)” after “(q)”; and

(2) by adding at the end the following:

“A claim for damages calculated in accordance with section 562 of this title shall be allowed under subsection (a), (b), or (c), or disallowed under subsection (d) or (e), as if an application, order, or decree may operate as a stay of the foreclosure on, or disposition of, securities collateral pledged by the debtor, whether or not with respect to one or more of such contracts or agreements, or to foreclose on any cash collateral pledged by the debtor, whether or not with respect to one or more of such contracts or agreements.”.

SEC. 911. SIPC STAY.

Section 5(b)(2)(C) of the Securities Investor Protection Act of 1970 (15 U.S.C. 78eee(b)(2)) is amended by adding at the end the following new subparagraph:

“(C) EXCEPTION FROM STAY.—(i) Notwithstanding section 362 of title 11, United States Code, neither the filing of an application under subsection (a)(3) nor any order or decree obtained by SIPC from the court shall operate as a stay of contractual rights of a creditor to liquidate, terminate, or accelerate a securities contract, commodity contract, forward contract, repurchase agreement, swap agreement, or master netting agreement, as those terms are defined in sections 101, 741, and 761 of title 11, United States Code, to offset or net termination values, payment amounts, or other transfer obligations arising under or in connection with one or more of such contracts or agreements, or to foreclose on any cash collateral pledged by the debtor, whether or not with respect to one or more of such contracts or agreements.

(ii) Notwithstanding clause (1) such application, order, or decree may operate as a stay of the foreclosure on, or disposition of, securities collateral pledged by the debtor, whether or not with respect to one or more of such contracts or agreements, securities sold by the debtor under a repurchase agreement, or securities lent under a securities lending agreement.

(3) As used in this paragraph, the term ‘contractual right’ includes a right set forth in a rule or bylaw of a national securities exchange, a national securities association, or a securities clearing agency, right set forth in a bylaw of a clearing organization or contract market or in a resolution of
the governing board thereof, and a right, whether or not in writing, arising under common law, under law merchant, or by reason of normal business practice.

SEC. 912. ASSET-BACKED SECURITIZATIONS. Section 541 of title 11, United States Code, is amended—

(1) in subsection (b), by inserting after paragraph (7), as added by this Act, the following:

"(8) any eligible asset (or proceeds thereof), to the extent that such eligible asset was transferred by the debtor, before the date of commencement of such case, to an eligible entity in connection with an asset-backed securitization, except to the extent such asset (or proceeds or value thereof) may be reacquired, redeemed, or repurchased by such entity after the date of commencement of such case.

(2) by adding at the end the following new subsection:

"(f) For purposes of this section—
"(1) the term ‘asset-backed securitization’ means a securitization, except to the extent such asset (or proceeds or value thereof) may be reacquired, redeemed, or repurchased by such entity after the date of commencement of such case.

"(2) the term ‘eligible asset’ means—

(A) financial assets (including interests therein and proceeds thereof), either fixed or revolving, whether or not the same are in existence as of the date of the transfer, including residential and commercial mortgage loans, consumer receivables, trade receivables, accounts receivable, governmental units, including pension obligations relating to taxes, receipts, fines, tickets, and other sources of revenue, and lease receivables, that, by their terms, convert into cash within a finite time period, plus any residual interest in property subject to receivables included in such financial assets plus any rights or other assets described in subparagraph (A); and

(B) cash and

(C) securities, including without limitation, all securities issued by governmental units, including member limited liability company, or other entity engaged exclusively in the business of acquiring and transferring eligible assets directly or indirectly to an issuer and taking actions ancillary thereto;

(d) the term ‘issuer’ means a trust, corporation, partnership, governmental unit, limited liability company, or other entity engaged exclusively in the business of acquiring and transferring eligible assets directly or indirectly to an issuer and taking actions ancillary thereto; and

(e) the term ‘transferred’ means the debtor, or, under a written agreement, represented and transferable assets owned, held in trust, contributed, or otherwise conveyed with the intention of removing them from the estate of the debtor pursuant to subsection (b)(8) (whether or not reference is made to this title or any section hereof), irrespective and without limitation of—

(A) whether the debtor directly or indirectly held an interest in the issuer or in any securities issued by the issuer;

(‘B) whether the debtor had an obligation to reacquire or to service or supervise the servicing of all or any portion of such eligible assets; or

(C) the characterization of such sale, contribution, or other conveyance for tax, accounting, regulatory reporting, or other purposes;"

SEC. 913. EFFECTIVE DATE; APPLICATION OF AMENDMENTS. (a) EFFECTIVE DATE.—This title shall take effect on the date of enactment of this Act.

(b) APPLICATION OF AMENDMENTS.—The amendments made by this title shall apply to transfers of eligible assets made under any amendment to section 541(18) of title 11, United States Code, or any section added by this title, on or after the date of enactment of this Act, but shall not apply with respect to transfers made under any act made applicable by section 541(18) of title 11, United States Code.

SEC. 914. SAVINGS CLAUSE. The meaning of terms used in this title are applicable for purposes of this title only, and shall not be construed or applied so as to affect or challenge the characterization, definition, or treatment of any similar terms under any other statute, regulation, or rule, including the Gramm-Leach-Bliley Act, the Legal Certainty for Bank Products Act of 1996, the Securities Act of 1933, the Securities Exchange Act of 1934, and the Commodity Exchange Act.
title 46) who is engaged in recreational fish-

ing; 

“(B) ‘commercial fishing vessel’ means a vessel used by a fisherman to carry out a commercial fishing operation;”;

(2) by inserting after paragraph (19) the fol-

lowing:

“(19A) ‘familial fisherman’ means—

(A) an individual or individual and spouse owned in a commercial fishing operation (including aquaculture for purposes of chapter 12)—

(i) whose aggregate debts do not exceed $1,500,000, as long as all less than 80 percent of whose aggregate noncontingent, liquidated debts (excluding a debt for the principal resi-

dence of such individual or such individual and spouse, unless such debt arises out of a com-

mercial fishing operation), on the date the case is filed, arise out of a commercial fishing operation owned or operated by such individual or such individual and spouse; and

(ii) who receive from such commercial fishing operation more than 50 percent of such individual’s or such individual’s and spouse’s income for the taxable year in which the case concerning such individual or such in-

dividual and spouse was filed; or

(B) a corporation or partnership—

(i) in which more than 50 percent of the outstanding stock or equity is held by—

(1) a family that conducts the commercial fishing oper-

ation; and

(ii)(I) more than 80 percent of the value of the assets consists of assets related to the commercial fishing operation;

(I) Rule of construction—

(ii)(A) aggregate debts do not exceed $1,500,000 and not less than 80 percent of its aggregate noncontingent, liquidated debts (excluding a debt for 1 dwelling which is owned by such corporation or partnership and which a shareholder or partner main-

tains as a principal residence, unless such debt arises out of a commercial fishing operation) on the date the case is filed, arise out of a commercial fishing operation owned or operated by such corporation or such part-

nership; and

(ii)(B) if any corporation issues stock, such stock is not publicly traded;”; and

(3) by inserting after paragraph (19A) the fol-

lowing:

“(19B) ‘familial fisherman with regular annual income’ means a familial fisherman whose annual income is sufficiently stable and regular to enable such familial fisherman to make payments under a plan under chapter 12 of this title.”;

(b) WHO MAY BE A DEBTOR.—Section 109(f) of title 11, United States Code, is amended by inserting—“‘familial fisherman’ after ‘family

farmer’.”;

(c) CHAPTER 12.—Chapter 12 of title 11, United States Code, is amended—

(1) in the chapter heading, by inserting “OR FISHERMAN” after “FAMILY FARM-

ER”;

(2) in section 1201, by adding at the end the following:

“(e)(1) Notwithstanding any other provi-

sion of law, for purposes of this subsection, a guarantor of a claim of a creditor under this section who is named in the same manner as a creditor with respect to the operation of a stay under this section;”;

(2) in section 1203, by inserting “or com-

mercial fishing operation” after “farm”;

(3) in section 1206, by striking “if the prop-

erty is not equipment” and insert-

ing “if the property is farmland, farm equipment, or property of a commercial fish-

ing operation (excluding a commercial fishing vessel)”; and

(5) by adding at the end the following:

§1232. Additional provisions relating to fam-

ily fishermen

“(a)(1) Notwithstanding any other provi-

sion of law, excepted had provided in subsection (c), with respect to any commercial fishing vessel of a familial fisherman, the debts of that familial fisherman shall be treated in the following new item:

“(2)(A) For purposes of this chapter, a claim for a lien described in subsection (b) for a commercial fishing vessel of a familial fisherman that could, but for this sub-

section, be subject to a lien under otherwise applicable maritime law, shall be treated as an unsecured claim.

(B) Subparagraph (A) applies to a claim for a lien resulting from a debt of a familial fisherman incurred on or after the date of enactment of this chapter.

“(D) A lien described in this subsection is—

(1) a maritime lien under subchapter III of chapter 313 of title 46 without regard to whether that lien is recorded under section 3143 of title 46; or

(2) a lien under applicable State law (or the law of a political subdivision thereof).

(c) Subsection (a) shall not apply to—

(1) a claim made by a member of a crew or a seaman including a claim made for—

(A) wages, maintenance, or cure; or

(B) personal injury; or

(2) a preferred ship mortgage that has been perfected under subchapter II of chapter 313 of title 46.

“(d) For purposes of this chapter, a mort-

gage described in subsection (c)(2) shall be treated as a secured claim.”;

(d) CLERICAL AMENDMENTS.—

(1) TABLE OF SECTIONS.—In the table of chapters for title 11, United States Code, the item relating to chapter 12, is amended to read as follows:

“12. Adjustments of Debts of a Family Farmer or Family Fisherman with Regular Annual Income

1201.

(2) TABLE OF SECTIONS.—The table of sec-

tions for chapter 12 of title 11, United States Code, is amended by adding at the end the following:

“1232. Additional provisions relating to fam-

ily fishermen.”;

(e) Applicability.—

Nothing in this section shall change, af-

fect, or impact the Conservation and Manage-

TITLE XI—HEALTH CARE AND EMPLOYEE BENEFITS

SEC. 1101. DEFINITIONS.

(a) HEALTH CARE BUSINESS DEFINED.—Sec-

tion 101 of title 11, United States Code, is amended—

(1) by redesignating paragraph (27A), as added by this Act, as paragraph (27B); and

(2) by inserting after paragraph (27B) the fol-

lowing:

“(27A) ‘health care business’—

(A) means any public or private entity (without regard to whether that entity is or-

ganized for profit or not for profit) that is primarily engaged in offering to the general public facilities and services for—

(i) the diagnosis or treatment of injury, deformity, or disease; and

(ii) surgical, drug treatment, psychiatric, or obstetric care; and

(B) includes—

(i) any—

(I) general or specialized hospital;

(II) ambulatory surgical center, emergency, or surgical treatment facility;

(III) hospice;

(IV) home health agency; and

(V) other health care institution that is similar to an entity referred to in subclause (I), (II), (III), or (IV); and

(ii) any long-term care facility, including any—

(I) skilled nursing facility;

(II) intermediate care facility;

(III) assisted living facility;

(IV) home for the aged;

(V) domiciliary care facility; and

(VI) health care institution that is re-

lated to a facility referred to in subclause (III), (IV), or (V), if that institution is primarily engaged in offering room, board, laundry, or personal assistance with activi-

ties of daily living and incidentals to activi-

ties of daily living;

(b) PATIENT AND PATIENT RECORDS DEFINED.—Section 101 of title 11, United States Code, is amended by inserting after para-

graph (40) the following:

“(40A) ‘patient’ means any person who ob-

tains or receives services from a health care business;

(40B) ‘patient records’ means any written document relating to a patient or a record recorded in a magnetic, optical, or other form of electronic medium;”

Rule of Construction.—The amend-

ments made by subsection (a) of this section shall not affect the interpretation of section 100(b) of title 11, United States Code.

SEC. 1102. DISPOSAL OF PATIENT RECORDS.

(a) IN GENERAL.—Subchapter III of chapter 3 of title 11, United States Code, is amended by adding at the end the following:

“§351. Disposal of patient records

“(A) If a health care business commences a case under chapter 7, 9, or 11, and the trustee does not have a sufficient amount of funds to pay for the storage of patient records in the manner required under applicable Federal or State law, the following requirements shall apply:

“(1) The trustee shall—

(A) promptly publish notice, in 1 or more appropriate newspapers, that if patient records are not claimed by the patient or an insurance provider (if applicable law permits the insurance provider to make that claim) by the date that is 365 days after the date of that notification, the trustee will destroy the patient records; and

(B) during the first 180 days of the 365-day period described in subparagraph (A), promptly attempt to notify directly each pa-

tient that is the subject of the patient records and appropriate insurance carrier concerning the patient records by mailing to the last known address of that patient, or a family member or contact person for that patient, and to the appropriate insurance carrier an appropriate notice regarding the claiming or disposing of patient records.

“(B) if providing the notification under paragraph (1), patient records are not claimed during the 365-day period described under that paragraph, the trustee shall mail, at the end of such 365-day period a written request to each appropriate Federal agency to request permission from

July 12, 2001

13237

CONGRESSIONAL RECORD—SENATE
that agency to deposit the patient records with the trustee. The court shall reject that no Federal agency is required to accept patient records under this paragraph.

(3) If, following the 365-day period described in paragraph (2) and after providing the notice required by paragraph (1), patient records are not claimed by a patient or an insurance provider, or request is not granted by a local or State agency to deposit such records with that agency, the trustee shall destroy those records by—

(a) if the records are written, shredding or burning the records;

(b) if the records are magnetic, optical, or other electronic records, by otherwise destroying those records so that those records cannot be retrieved.

(b) CLERICAL AMENDMENT.—The table of sections for chapter 3 of title 11, United States Code, is amended by inserting after the item relating to section 330 the following:

"331. Disposal of patient records.".

SEC. 1103. ADMINISTRATIVE EXPENSE CLAIM FOR CONCLUDING A HEALTH CARE BUSINESS AND OTHER ADMINISTRATIVE EXPENSES.

Section 1103 of chapter 7, 9, or 11, United States Code, as amended by this Act, is amended by adding at the end the following:

"(8) the actual, necessary costs and expenses of closing a health care business incurred by a trustee or by a Federal agency (as that term is defined in section 551(1) of title 5) or a department or agency of a State or political subdivision thereof, including any cost or expense incurred—

(A) in disposing of patient records in accordance with section 331; or

(B) in connection with transferring patients from the health care business that is in the process of being closed to another health care business;"

(9) with respect to a nonresidential real property lease previously assumed under section 365, and subsequently rejected, a sum equal to all monetary obligations due, exclusive of lessor or related to a failure to operate or penalty provisions, for the period of 2 years following the later of the rejection date or date of actual turnover of the premises, without reduction or setoff of the rejection date or date of actual turnover of the premises, without reduction or setoff.

SEC. 1104. APPOINTMENT OF OMBUDSMAN TO ACT AS PATIENT ADVOCATE.

(a) IN GENERAL.—

(1) APPOINTMENT OF OMBUDSMAN.—Subchapter II of chapter 3 of title 11, United States Code, is amended by inserting after section 331 the following:

"332. Appointment of ombudsman

"(a) IN GENERAL.—

"(1) AUTHORITY TO APPOINT.—Not later than 30 days after a case is commenced by a case that is a long-term care health care business under chapter 7, 9, or 11, the court shall order the appointment of an ombudsman to monitor the quality of patient care in a long-term care facility, unless the court determines that the ombudsman is not necessary for the protection of patients under the specific facts of the case.

(2) QUALIFICATIONS.—If the court orders the appointment of an ombudsman, the United States trustee shall appoint 1 disinterested person, other than the United States trustee, to serve as an ombudsman. If the health care business is a long-term care facility, the trustee may appoint a person who is already serving as a State Long-Term Care Ombudsman appointed under title VII of the Older Americans Act of 1965 (42 U.S.C. 3021 et seq., 3058 et seq.). In the event that the trustee does not appoint an ombudsman to monitor the quality of patient care in a long-term care facility, the court shall appoint 1 disinterested person who serves as the State Long-Term Care Ombudsman of the name and address of the individual who is appointed.

(b) DUTIES.—An ombudsman appointed under subsection (a) shall—

(1) monitor the quality of patient care, to the extent necessary under the circumstances, including interviewing patients and physicians;

(2) not later than 60 days after the date of appointment, and not less frequently than every 3 months, submit to the court, at a hearing or in writing, regarding the quality of patient care at the health care business; and

(3) if the ombudsman determines that the quality of patient care is declining significantly or is otherwise being materially compromised, notify the court of the ombudsman's determination.

"(c) CONFIDENTIALITY.—An ombudsman shall maintain any information obtained by the ombudsman under this section that relates to patients (including information relating to patient records) as confidential information. The ombudsman may not review confidential patient records, unless the court provides prior approval, with restrictions on the ombudsman to protect the confidentiality of patient records. If the individual appointed as ombudsman is a person who is also serving as a State Long-Term Care Ombudsman appointed under title VII of the Older Americans Act of 1965 (42 U.S.C. 3021 et seq., 3058 et seq.), that person shall have access to patient records, consistent with authority spelled out in the Older Americans Act and State laws governing the State Long-Term Care Ombudsman program.

(2) CLERICAL AMENDMENT.—The table of sections for chapter 3 of title 11, United States Code, is amended by inserting after the item relating to section 331 the following:

"332. Appointment of ombudsman.

(b) COMPENSATION OF OMBUDSMAN.—Section 330A(b)(1) of title 11, United States Code, is amended—

(1) in the matter preceding subparagraph (A), by inserting "an ombudsman appointed under section 331, or" before "a professional person;"

and

(2) in subparagraph (A), by inserting "ombudsman," before "professional person;"

SEC. 1105. DEBTOR IN POSSESSION; DUTY OF TRUSTEE TO TRANSFER PATIENTS.

(a) IN GENERAL.—

(1) In section 104 of title 11, United States Code, as added by this Act, is amended by adding at the end the following:

"(ii) use all reasonable and best efforts to transfer the health care business that is in the process of being closed to an appropriate health care business that—

(A) is in the vicinity of the health care business that the debtor is in the process of being closed; and

(B) provides the patient with services that are substantially similar to those provided by the health care business that is in the process of being closed; and

(C) maintains a reasonable quality of care."

(b) CONFORMING AMENDMENT.—Section 1105(a)(1) of title 11, United States Code, is amended by striking "sections 704(2), 704(5), 704(7), 704(8), and 704(9)" and inserting "paragraphs (2), (5), (7), (8), (9), and (11) of section 704(a)".

SEC. 1106. EXCLUSION FROM PROGRAM PARTICIPATION NOT SUBJECT TO AUTOMATIC STAY.

Section 362(b) of title 11, United States Code, is amended by inserting after paragraph (27), as added by this Act, the following:

"(28) under subsection (a), of the exclusion by the Secretary of Health and Human Services of the debtor from participation in the medicare program or any other Federal health care program (as defined in section 1128B(f) of the Social Security Act (42 U.S.C. 1320a-7(b)(1)) pursuant to title XI of such Act (42 U.S.C. 1395 et seq.) or title XVIII of such Act (42 U.S.C. 1395 et seq.)."

TITLE XII—TECHNICAL AMENDMENTS

SEC. 1201. DEFINITIONS.

Section 101 of title 11, United States Code, as amended by this Act, is amended—

(1) by striking "In this title—" and inserting "In this title, the following definitions shall apply;"

(2) in each paragraph, by inserting "The term" after the paragraph designation;

(3) in paragraph (35)(B), by striking "paragraphs (21B) and (33)(A)" and inserting "paragraphs (23) and (35)";

(4) in each of paragraphs (35A) and (38), by striking "; and" and inserting "; and at the end and inserting a period;

(5) in paragraph (51B)—

(A) by inserting "who is not a family farmer or a debtor" after "debtor" the first place it appears; and

(C) by inserting “(2) in the second undesignated paragraph—

(A) by inserting “(2) the” term before “document”;

(B) by striking “this subsection” and inserting “title 11.”

SEC. 1221. TRANSFERS MADE BY NONPROFIT CHARITABLE CORPORATIONS.

(a) SALE OF PROPERTY OF ESTATE.—Section 361(d) of title 11, United States Code, is amended by striking “only” and all that follows that substituted property.

(1) in accordance with applicable nonbankruptcy law that governs the transfer of property by a corporation or trust that is not a moneyed, business, or commercial corporation or trust; and

(2) to the extent not inconsistent with any applicable provisions of nonbankruptcy law that govern the transfer of property by a corporation or trust that is not a moneyed, business, or commercial corporation or trust.

(b) APPLICABILITY.—The amendments made by this section shall apply to any case that is pending or commenced on or after the date of enactment of this Act.

SEC. 1222. PROTECTION OF VALID PURCHASE MONEY SECURITY INTERESTS.

Section 549(c)(3)(B) of title 11, United States Code, is amended by striking “title 11”.

SEC. 1223. BANKRUPTCY JUDGESHIPS.

(a) TITLES.—This section may be cited as the “Bankruptcy Judgeship Act of 2001.”

(b) TEMPORARY JUDGESHIPS.—(1) APPOINTMENTS.—The following judgeships shall be filled in the manner prescribed in section 152(a)(1) of title 28, United States Code, for the appointment of bankruptcy judges provided for in section 152(a)(2) of such title:

(A) One additional bankruptcy judgeship for the eastern district of California.

(B) Four additional bankruptcy judgeships for the central district of California.

(C) One additional bankruptcy judgeship for the district of Delaware.

(D) Three additional bankruptcy judgeships for the southern district of Florida.

(E) One additional bankruptcy judgeship for the southern district of Georgia.

(F) One additional bankruptcy judgeship for the district of Maryland.

(G) One additional bankruptcy judgeship for the eastern district of Michigan.

(H) One additional bankruptcy judgeship for the southern district of Mississippi.

(I) One additional bankruptcy judgeship for the district of New Jersey.

(J) One additional bankruptcy judgeship for the eastern district of New York.

(K) One additional bankruptcy judgeship for the northern district of New York.

(L) One additional bankruptcy judgeship for the southern district of New York.

(M) One additional bankruptcy judgeship for the eastern district of North Carolina.

(N) One additional bankruptcy judgeship for the eastern district of Pennsylvania.

(O) One additional bankruptcy judgeship for the middle district of Pennsylvania.

(P) One additional bankruptcy judgeship for the district of Puerto Rico.

(Q) One additional bankruptcy judgeship for the western district of Tennessee.

(R) One additional bankruptcy judgeship for the eastern district of Virginia.

(S) One additional bankruptcy judgeship for the district of South Carolina.

(T) One additional bankruptcy judgeship for the district of Nevada, and one for the district of Delaware.

(2) VACANCIES.—The first vacancy occurring in the office of a bankruptcy judge in each of the judicial districts set forth in paragraph (1) shall not be filled if the vacancy results from the death, retirement, resignation, or removal of a bankruptcy judge; and
(b) occurs 5 years or more after the appointment or reappointment of a bankruptcy judge appointed under paragraph (1).

(c) EXTENSIONS.

(1) IN GENERAL.—The temporary bankruptcy judgeships for districts positions authorized for the northern district of Alabama, the district of Delaware, the district of Puerto Rico, and the eastern district of Tennessee under paragraphs (1), (3), (7), and (9) of section 3(a) of the Bankruptcy Judgeship Act of 1992 (28 U.S.C. 152 note) are extended until the first vacancy occurring in the office of a bankruptcy judge occurs in the applicable district resulting from the death, retirement, resignation, or removal of a bankruptcy judge and occurs—

(A) 11 years or more after November 8, 1993, with respect to the northern district of Alabama;

(B) 13 years or more after October 28, 1993, with respect to the district of Delaware;

(C) 11 years or more after August 29, 1994, with respect to the district of Puerto Rico; and

(D) 11 years or more after November 23, 1993, with respect to the eastern district of Tennessee.

(2) APPLICABILITY OF OTHER PROVISIONS.—All other provisions of section 3 of the Bankruptcy Judgeship Act of 1992 (28 U.S.C. 152 note) remain applicable to temporary judgeships created pursuant to this subsection.

(d) TECHNICAL AMENDMENTS.—Section 152(a) of title 28, United States Code, is amended—

(1) in paragraph (1), by striking the first sentence and inserting the following:— "Each bankruptcy judge to be appointed for a judicial district, as provided in paragraph (2), shall be appointed by the United States court of appeals for the circuit in which such district is located:"; and

(2) in paragraph (2)—

(A) in the item relating to the middle district of Georgia, by striking "2" and inserting "3"; and

(B) in the collective item relating to the middle and southern districts of Georgia, by striking "Middle and Southern . . . . . .".

(e) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of enactment of this Act.

SEC. 1224. COMPENSATING TRUSTEES.

Section 1326 of title 11, United States Code, is amended—

(1) in subsection (b)—

(A) in paragraph (1), by striking "and"

(B) in paragraph (2), by striking the period at the end and inserting "; and"

(C) by adding at the end the following:

"(3) if a chapter 7 trustee has been allowed compensation due to the conversion or dismissal of the debtor's prior case pursuant to section 707(b), and some portion of that compensation remains unpaid in a case converted to this chapter or in the case dismissed under section 707(b) and refiled under this chapter, the amount of any such unpaid compensation, which shall be paid monthly—

"(A) by prorating such amount over the remaining duration of the plan; and

"(B) by monthly payments not to exceed the greater of—

"(i) the amount payable to unsecured nonpriority creditors, as provided by the plan, multiplied by 5 percent, and the result divided by the number of months in the plan."; and

(2) by adding at the end the following:

"(d) Notwithstanding any other provision of this Act or subsection (b), (3) is payable and may be collected by the trustee under that paragraph, even if such amount has been paid in a prior proceeding under this title; and

"(2) such compensation is payable in a case under this chapter only to the extent permitted by paragraph (3);"

SEC. 1225. AMENDMENT TO SECTION 362 OF TITLE 11, UNITED STATES CODE.

Section 362(b)(18) of title 11, United States Code, is amended—

(1) by inserting "(1)" after "(d)"; and

(2) by adding at the end the following:

"(C) 11 years or more after October 28, 1993,

SEC. 1226. JUDICIAL EDUCATION.

The Director of the Federal Judicial Center, in consultation with the Director of the Executive Office for United States Trustees, shall develop materials and conduct such training as may be useful to courts in implementing this Act and the amendments made by this Act, including the requirements relating to the means test and reaffirmations under section 1303 of title 11, United States Code, as amended by this Act.

SEC. 1227. RECLAMATION.

(a) RIGHTS AND POWERS OF THE TRUSTEE.—Section 546(c)(8), as added by this Act, is amended to read as follows:

"(c)(1) Except as provided in subsection (d) of this section and subsection (e) of section 507, and subject to the prior rights of holders of security interests in such goods or the proceeds thereof, the rights and powers of the trustee under sections 541(a), 545, 546, and 547 and other sections of this title relevant to the sale of goods that has sold goods to the debtor, in the ordinary course of such seller's business, to reclaim such goods if the debtor has received and sold goods while insolvent, not later than 45 days prior to the date of the commencement of a case under this title, but such seller may not reclaim such goods unless such seller demands in writing reclamation of such goods—

"(A) not later than 45 days after the date of receipt of such goods by the debtor; or

"(B) not later than 20 days after the date of commencement of the case, if the 45-day period expires after the commencement of the case.

"(2) If a seller of goods fails to provide notice in the manner described in paragraph (1), the seller still may assert the rights contained in section 506(b)(7)."

(b) ADMINISTRATIVE EXPENSES.—Section 503(b) of title 11, United States Code, as amended by this Act, is amended by inserting after paragraph (2)(B) the following:

"(2) the effects of such practices on consumers are capable of repaying the resulting debt; and

"(C) in a manner that encourages consumers to accumulate additional debt, and

"(2) may issue regulations that would require additional disclosures to consumers; and

"(3) may take any other actions, consistent with its existing statutory authority, that the Board finds necessary to ensure responsible industrywide practices and to prevent resulting consumer debt and insolvency.

SEC. 1229. ENCOURAGING CREDITWORTHINESS.

(a) SENSE OF THE CONGRESS.—It is the sense of the Congress that—

(1) certain lenders may sometimes offer credit to consumers indiscriminately, without taking steps to ensure that consumers are capable of repaying the resulting debt, and in a manner which may encourage certain consumers to accumulate additional debt; and

(2) resulting consumer debt may increasingly be a major contributing factor to consumer insolvency.

(b) STUDY REQUIRED.—The Board of Governors of the Federal Reserve System (hereafter in this section referred to as the "Board") shall conduct a study of—

"(1) consumer credit industry practices of soliciting and extending credit—

"(A) indiscriminately; and

"(B) without taking steps to ensure that consumers are capable of repaying the resulting debt; and

"(C) in a manner that encourages consumers to accumulate additional debt, and

"(2) the effects of such practices on consumer debt and insolvency.

(c) REPORT AND REGULATIONS.—Not later than 12 months after the date of enactment of this Act, the Board—

"(1) shall make public a report on its findings with respect to the indiscriminate solicitation and extension of credit by the credit industry;

"(2) may issue regulations that would require additional disclosures to consumers; and

"(3) may take any other actions, consistent with its existing statutory authority, that the Board finds necessary to ensure responsible industrywide practices and to prevent resulting consumer debt and insolvency.

SEC. 1230. PROPERTY NO LONGER SUBJECT TO REDEMPTION.

Section 510(b) of title 11, United States Code, is amended by inserting after paragraph (8), as added by this Act, the following:

"(9) subject to subchapter III of chapter 5, and in a manner which may encourage creditors to redeem at a stipulated price; and

"(B) consumer credit industry practices of soliciting and extending credit by the credit industry; and

"(2) may issue regulations that would require additional disclosures to consumers; and

"(3) may take any other actions, consistent with its existing statutory authority, that the Board finds necessary to ensure responsible industrywide practices and to prevent resulting consumer debt and insolvency.

SEC. 1231. TRUSTEES.

(a) SUSPENSION AND TERMINATION OF PANEL TRUSTEES AND STANDING TRUSTEES.—Section 586(d) of title 28, United States Code, is amended—

"(1) by inserting "(1)" after "(d);" and

"(2) by adding at the end the following:

"(2) A trustee whose appointment under subsection (a) or under subsection (b) is terminated who has exercised any right to redeem provided under the contract or State law, in a timely manner as provided under State law and section 109(b) of this title; or"

"(C) may obtain judicial review of the final agency decision by commencing an action in the
CONGRESSIONAL RECORD—SENATE

SEC. 1232. BANKRUPTCY FORMS.

Section 2075 of title 28, United States Code, is amended by adding at the end the following:

“(b) EXPENSES OF STANDING TRUSTEES.—Section 586(e) of title 28, United States Code, is amended by adding at the end the following:

“(3) After first exhausting all available administrative remedies, an individual appointed under subsection (b) may obtain judicial review of final agency action to deny a claim of actual, necessary expenses under this subsection by commencing an action in the United States district court in the district where the individual resides. The decision of the agency shall be affirmed by the district court unless it is unreasonable and without cause based on the administrative record before the agency.”.

SEC. 1233. EXPEDITED APPEALS OF BANKRUPTCY CASES TO COURTS OF APPEALS.

(a) APPEALS.—Section 158 of title 28, United States Code, is amended—

(1) by striking “district court,” “court of appeals,” and “district clerk,” as used in subsections (c) and (d), respectively.

(b) EXPENSES OF STANDING TRUSTEES.—Section 586(e) of title 28, United States Code, is amended by adding at the end the following:

“(3) After first exhausting all available administrative remedies, an individual appointed under subsection (b) may obtain judicial review of final agency action to deny a claim of actual, necessary expenses under this subsection by commencing an action in the United States district court in the district where the individual resides. The decision of the agency shall be affirmed by the district court unless it is unreasonable and without cause based on the administrative record before the agency.”

SEC. 1234. EXEMPTIONS.

Section 522(g)(2) of title 11, United States Code, is amended by striking “subsection (i)(2)” and inserting “subsection (i)(1)(B)”.

SEC. 1235. INOVLUNTARY CASES.

Section 303 of title 11, United States Code, is amended—

(1) in subsection (b)(1), by—

(A) inserting “as to liability or amount” after “bona fide dispute”;

(B) striking “if such claims” and inserting “if such undisputed claims”; and

(2) in subsection (b)(1), by inserting before the semicolon the following:

“...to liability or amount...”.

SEC. 1236. FEDERAL ELECTION LAW FINES AND PENALTIES AS NONDISCHARGEABLE DEBT.

Section 523(a) of title 11, United States Code, is amended by inserting after paragraph (14)(A) the following:

“(14B) incurred to pay fines or penalties imposed under Federal election law.”

SEC. 1237. NOTWITHSTANDING INCONSTANCY OF LEGISLATIVE COMMITTEES.

Section 105 of title 11, United States Code, is amended by adding at the end the following:

“(c) A political committee subject to the jurisdiction of the Federal Election Commission shall be subject to any Federal election law that applies to such committee regardless of whether such committee is in existence at the time Federal election laws were enacted in the cases in which such committee is involuntarily appointed under sub-paragraph (A) in lieu of the disclosure required under sub-paragraph (B). “(E) The Board shall, by rule, periodically recalculate an estimated interest rate and repayment period under subparagraphs (A), (B), and (C).
The toll-free telephone number disclosed under subparagraph (A), (B), or (G), as applicable, by a creditor that maintains a toll-free telephone number for the purpose of providing customers with the actual number of months that it will take to repay the customer’s outstanding balance is not subject to the requirements of subparagraph (A) or (B).

Section 127(b)(11) of the Truth in Lending Act (15 U.S.C. 1679n(11)) is amended—

(A) by striking "CONSULTATION OF TAX ADVISER. — A statement that the" and inserting the following: "TAX DEDUCTIBILITY. — A statement that--"

"(A) the interest on the portion of the credit extension that is greater than the fair market value of the dwelling is not tax deductible for Federal income tax purposes; and"

"(B) the consumer should consult a tax advisor for further information regarding the deductibility of interest and charges.";

(b) NON-OPEN END CREDIT EXTENSIONS.—

(1) CREDIT APPLICATIONS.—Section 13242 (the Truth in Lending Act (15 U.S.C. 1632(b)(13)) is amended—

(A) by striking "If any" and inserting the following: "If a consumer pays only the required minimum periodic payment features of—"

"(B) minimum periodic payment features offered in connection with open end credit plans impact consumer default rates; and"

"(C) consumers make only the required minimum payment under open end credit plans; and"

"(D) consumers are aware that making only required minimum payments is a cause to increase the cost and repayment period of an open end credit obligation; and"

"(E) the availability of low minimum payment features does not change the financial difficulty.

(3) REPORT TO CONGRESS.—Findings of the Board in connection with any study conducted under this subsection shall be submitted to Congress. Such report shall also include recommendations for legislative initiatives, if any, of the Board, based on its findings.

SEC. 1302. ENHANCED DISCLOSURE FOR CREDIT EXTENSIONS SECURED BY A DWELLING

(a) OPEN END CREDIT EXTENSIONS.—

(1) CREDIT APPLICATIONS.—Section 127A(a)(13) of the Truth in Lending Act (15 U.S.C. 1677a(a)(13)) is amended—

"(a) by striking "If any" and inserting the following: "If a consumer pays only the required minimum periodic payment features of—"

"(B) minimum periodic payment features offered in connection with open end credit plans impact consumer default rates; and"

"(C) consumers make only the required minimum payment under open end credit plans; and"

"(D) consumers are aware that making only required minimum payments is a cause to increase the cost and repayment period of an open end credit obligation; and"

"(E) the availability of low minimum payment features does not change the financial difficulty.

(3) REPORT TO CONGRESS.—Findings of the Board in connection with any study conducted under this subsection shall be submitted to Congress. Such report shall also include recommendations for legislative initiatives, if any, of the Board, based on its findings.

SEC. 1302. ENHANCED DISCLOSURE FOR CREDIT EXTENSIONS SECURED BY A DWELLING

(a) OPEN END CREDIT EXTENSIONS.—

"(a) by striking "If any" and inserting the following: "If a consumer pays only the required minimum periodic payment features of—"

"(B) minimum periodic payment features offered in connection with open end credit plans impact consumer default rates; and"

"(C) consumers make only the required minimum payment under open end credit plans; and"

"(D) consumers are aware that making only required minimum payments is a cause to increase the cost and repayment period of an open end credit obligation; and"

"(E) the availability of low minimum payment features does not change the financial difficulty.

(3) REPORT TO CONGRESS.—Findings of the Board in connection with any study conducted under this subsection shall be submitted to Congress. Such report shall also include recommendations for legislative initiatives, if any, of the Board, based on its findings.

SEC. 1302. ENHANCED DISCLOSURE FOR CREDIT EXTENSIONS SECURED BY A DWELLING

(a) OPEN END CREDIT EXTENSIONS.—

(1) CREDIT APPLICATIONS.—Section 127A(a)(13) of the Truth in Lending Act (15 U.S.C. 1677a(a)(13)) is amended—

"(a) by striking "If any" and inserting the following: "If a consumer pays only the required minimum periodic payment features of—"

"(B) minimum periodic payment features offered in connection with open end credit plans impact consumer default rates; and"

"(C) consumers make only the required minimum payment under open end credit plans; and"

"(D) consumers are aware that making only required minimum payments is a cause to increase the cost and repayment period of an open end credit obligation; and"

"(E) the availability of low minimum payment features does not change the financial difficulty.

(3) REPORT TO CONGRESS.—Findings of the Board in connection with any study conducted under this subsection shall be submitted to Congress. Such report shall also include recommendations for legislative initiatives, if any, of the Board, based on its findings.
"(B) the consumer should consult a tax advisor for further information regarding the deductibility of interest and charges;"; and

"(B) in subsection (b), by adding at the end the following:

"(3) in the case of a credit transaction described in paragraph (15) of subsection (a), disclosures required by that paragraph shall be made to the consumer at the time of application for such extension of credit.

(2) CREDIT ADVERTISEMENTS.—Section 144 of the Truth in Lending Act (15 U.S.C. 1664) is amended by adding at the end the following:

"(e) each advertisement to which this section applies that relates to a consumer credit transaction that is secured by the principal dwelling of a consumer in which the extension of credit may exceed the fair market value of the dwelling, and which advertisement is disseminated in paper form to the public or through the Internet, as opposed to by radio or television, shall clearly and conspicuously disclose in a prominent manner or with such application or solicitation—

"(i) a general description of the circumstances that may result in the revocation of the temporary annual percentage rate; and

"(ii) if the annual percentage rate that will apply upon the revocation of the temporary annual percentage rate—

"(I) will vary in accordance with an index, the rate that will apply after the temporary period, based on an annual percentage rate that was in effect within 60 days before the date of mailing the application or solicitation.

"(D) DEFINITIONS.—In this paragraph—

"(1) the terms 'temporary annual percentage rate' mean any rate of interest applicable to a credit card account for an introductory period of less than 1 year, if that rate is less than an annual percentage rate that was in effect within 60 days before the date of mailing the application or solicitation.

"(2) EFFECTIVE DATE.—Section 127(c)(6) of the Truth in Lending Act, as added by this section.

"(A) 12 months after the date of enactment of this Act; or

"(B) 12 months after the date of publication of such final regulations by the Board.

SEC. 1363. DISCLOSURES RELATED TO 'INTRODUCTORY RATES'.

(a) Introductory Rate Disclosures.—Section 127(c)(6) of the Truth in Lending Act (15 U.S.C. 1637(c)) is amended by adding at the end the following:

"(6) ADDITIONAL NOTICE CONCERNING 'INTRODUCTORY RATES'—

"(A) IN GENERAL.—Except as provided in subparagraph (B), an application or solicitation to open a credit card account and all promissory notes and other documents in such application or solicitation for which a disclosure is required under paragraph (1), and that offers a temporary annual percentage rate of interest, shall—

"(i) use the term 'introductory' in immediate proximity to each listing of the temporary annual percentage rate applicable to such account, which term shall appear clearly and conspicuously;

"(ii) if the annual percentage rate of interest that will apply after the end of the temporary rate period will be a fixed rate, state in a clear and conspicuous manner in a prominent location closely proximate to the first listing of the temporary annual percentage rate (other than a listing in the tabular format prescribed by section 122(c)), the time period in which the introductory period will end and the annual percentage rate that will apply after the end of the introductory period; and

"(iii) if the annual percentage rate that will apply after the end of the temporary rate period will vary in accordance with an index, state in a clear and conspicuous manner in a prominent location closely proximate to the first listing of the temporary annual percentage rate (other than a listing in the tabular format prescribed by section 122(c)), the time period in which the introductory period will end and the annual percentage rate that will apply after that, based on an annual percentage rate that was in effect within 60 days before the date of mailing the application or solicitation.

"(B) EXCEPTION.—Clauses (i) and (ii) of subparagraph (A) do not apply with respect to any listing of a temporary annual percentage rate on an envelope or other enclosure in which an application or solicitation to open a credit card account is mailed.

"(C) CONDITIONS FOR INTRODUCTORY RATES.—(1) the consumer should consult a tax advisor for further information regarding the deductibility of interest and charges;"; and

"(D) RELATION TO OTHER DISCLOSURE REQUIREMENTS.—Nothing in this paragraph may be construed to supersede subsection (a) of section 122, or any disclosure required by paragraph (1) or any other provision of this subsection.

(b) REGULATORY IMPLEMENTATION.—

"(1) IN GENERAL.—The Board shall promulgate regulations implementing the requirements of sections 127(c)(6) of the Truth in Lending Act, as added by this section.

"(a) DISCLOSURES RELATED TO LATE PAYMENT DEADLINES AND PENALTIES.—

"(1) IN GENERAL.—The Board shall promulgate regulations implementing the requirements of section 127(c)(7) of the Truth in Lending Act, as added by this section.

"(B) FORM OF DISCLOSURE.—The disclosures required by subsection (a) shall be—

"(i) readily accessible to consumers in close proximity to the solicitation to open a credit card account; and

"(ii) in a tabulated format to reflect the current policies, terms, and fee amounts applicable to the credit card account.

"(C) DEFINITIONS.—For purposes of this paragraph—

"(i) the term 'Internet' means the international computer network of both Federal and non-Federal interoperable packet switched data networks; and

"(ii) the term 'interactive computer service' means any information service, system, or access software provider that provides or enables computer access to a computer, including a computer server, including a service or system that provides access to the Internet and such systems operated or serviced by libraries or educational institutions.

(b) REGULATORY IMPLEMENTATION.—

"(1) IN GENERAL.—The Board shall promulgate regulations implementing the requirements of section 127(b) of the Truth in Lending Act (15 U.S.C. 1637(b)) is amended by adding at the end the following:

"(B) EFFECTIVE DATE.—The amendment made by subsection (a) and the regulations issued under paragraph (1) of this subsection shall not take effect until the later of—

"(A) 12 months after the date of enactment of this Act; or

"(B) 12 months after the date of publication of such final regulations by the Board.

SEC. 1364. DISCLOSURES RELATED TO CREDIT CARD SO-CALLED 'INTEREST CHARGES'.

(a) INTERNET-BASED APPLICATIONS AND SO-CALLED 'INTEREST CHARGES'.—Section 127(c) of the Truth in Lending Act, as added by this section, and regulations issued under paragraph (1) of this subsection shall not take effect until the later of—

"(A) 12 months after the date of enactment of this Act; or

"(B) 12 months after the date of publication of such final regulations by the Board.

SEC. 1386. PROHIBITION ON CERTAIN ACTIONS FOR FAILURE TO INCUR FINANCE CHARGES.

(a) PROHIBITION ON CERTAIN ACTIONS FOR FAILURE TO INCUR FINANCE CHARGES.—Section 127 of the Truth in Lending Act (15 U.S.C. 1637) is amended by adding at the end the following:

"(h) PROHIBITION ON CERTAIN ACTIONS FOR FAILURE TO INCUR FINANCE CHARGES.—A
creditor of an account under an open end consumer credit plan may not terminate an account prior to its expiration date solely because the consumer has not incurred finance charges on the account. Nothing in this subsection shall prohibit a creditor from terminating an account for inactivity for 3 or more consecutive months.

(b) REGULATORY IMPLEMENTATION.—
(1) IN GENERAL.—The Board shall promulgate regulations implementing the requirements of section 127(h) of the Truth in Lending Act, as added by this section.
(2) EFFECTIVE DATE.—The amendment made by subsection (a) and regulations issued under paragraph (1) of this subsection shall not take effect until the later of—
(A) 12 months after the date of enactment of this Act; or
(B) 12 months after the date of publication of such final regulations by the Board.

SEC. 1307. DUAL USE DEBIT CARD.

(a) REPORT.—The Board may conduct a study of, and present to Congress a report containing its analysis of, consumer protections under existing law to limit the liability of creditors for losses arising out of the improper use of a debit card or similar access device. Such report, if submitted, shall include recommendations for legislative initiatives, if any, of the Board to carry out that Act, are necessary to provide adequate unauthorized use liability protections for consumers;
(b) CONSIDERATIONS.—In preparing a report under subsection (a), the Board may include—
(1) the extent to which section 909 of the Electronic Fund Transfer Act (15 U.S.C. 1693), as in effect at the time of the report, and the regulations promulgated by the Board to carry out that section provide adequate unauthorized use liability protection for consumers;
(2) the extent to which any voluntary industry rules have enhanced or may enhance the level of protection afforded consumers in connection with such unauthorized use liability; and
(3) whether amendments to the Electronic Fund Transfer Act (15 U.S.C. 1693 et seq.), or revisions to regulations promulgated by the Board, are necessary to further address adequate protection for consumers concerning unauthorized use liability.

SEC. 1308. STUDY OF BANKRUPTCY IMPACT OF CREDIT EXTENDED TO DEPENDENT STUDENTS.

(a) STUDY.—
(1) IN GENERAL.—The Board shall conduct a study regarding the impact that the extension of credit described in paragraph (2) has on the rate of bankruptcy cases filed under title 11, United States Code.
(2) EXTENSION OF CREDIT.—The extension of credit described in this paragraph is the extension of credit to individuals who are—
(A) claimed as dependents for purposes of the Internal Revenue Code of 1986; and
(B) enrolled within 1 year of successfully completing all required secondary education requirements and on a full-time basis, in postsecondary educational institutions.

(b) REPORT.—Not later than 1 year after the date of enactment of this Act, the Board shall submit to the Senate and the House of Representatives a report summarizing the results of the study conducted under subsection (a).

SEC. 1309. CLARIFICATION OF CLEAR AND CONSPICUOUS.

(a) REGULATIONS.—Not later than 6 months after the date of enactment of this Act, the Board, in consultation with the other Federal banking agencies (as defined in section 3 of the Federal Deposit Insurance Act), the National Credit Union Administration Board, and the Office of the Comptroller of the Currency, shall promulgate regulations to provide guidance regarding the meaning of the term "clear and conspicuous", as used in subparagraphs (A), (B), and (C) of section 127(b)(11) and clauses (i) and (ii) of section 127(c)(6)(A) of the Truth in Lending Act.

(b) EXAMPLES.—Regulations promulgated under this section may include—
(1) clear and conspicuous model disclosures for the purposes of disclosures required by the provisions of the Truth in Lending Act referred to in subsection (a).

TITLE XIV—EMERGENCY ENERGY ASSISTANCE AND CONSERVATION MEASURES

SEC. 1401. SHORT TITLE.

This title may be cited as the ‘‘Energy Emergency Response Act of 2001’’.

SEC. 1402. FINDINGS AND PURPOSES.

(a) FINDINGS.—The findings are—
(1) high energy costs are causing hardship for families;
(2) restructured energy markets have increased the need for a higher and more consistent level of funding for low-income energy assistance programs;
(3) conservation programs implemented by the States and the Federal Government weatherization program reduce costs and need for additional energy supplies;
(4) energy conservation is a cornerstone of national energy security policy; and
(5) the Federal Government is the largest consumer of energy in the economy of the United States; and
(b) PURPOSES.—The purposes of this title are to provide assistance to individuals most affected by high energy prices and to promote and accelerate energy conservation investments in private and Federal facilities.

SEC. 1403. INCREASED FUNDING FOR LIHEAP.

(a) LIHEAP.—(1) Section 2602(b) of the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8262(b)) is amended by striking the first sentence and inserting the following:

‘‘There are authorized to be appropriated to carry out the provisions of this title (other than section 2607A, $3,400,000,000 for each of fiscal years 2001 through 2003.’’. (2) Section 2604(b)(2) of the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8264(b)(2)) is amended by adding at the end the following:

‘‘(A) $1 billion for fiscal year 2001; $1.75 billion for each of fiscal years 2002 through 2005; $2 billion for each of fiscal years 2006 through 2010; $2.75 billion for each of fiscal years 2011 through 2015; and $3 billion for each of fiscal years 2016 through 2020.’’. (b) WEATHERIZATION AND STATE ENERGY GRANTS.

(1) LIHEAP.—Section 2609 of the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8269) is amended by striking the second sentence and inserting the following:

‘‘There are authorized to be appropriated to carry out the provisions of this title (other than section 2607A, $3,390,000,000 for each of fiscal years 1999 through 2003, $3,400,000,000 for each of fiscal years 2004 through 2006, $3,410,000,000 for each of fiscal years 2007 through 2010, $3,420,000,000 for each of fiscal years 2011 through 2013, $3,430,000,000 for each of fiscal years 2014 through 2016, and $3,440,000,000 for each of fiscal years 2017 through 2020’’. (c) PRIORITY RESPONSE REVIEWS.

Section 543 of the National Energy Conservation Policy Act (42 U.S.C. 8253) is amended by adding at the end the following:

‘‘(e) PRIORITY RESPONSE REVIEWS.—Each agency shall—
(1) not later than October 1, 2001, undertake a comprehensive review of all practicable measures for—
(A) increasing energy and water conservation; and
(B) utilizing renewable energy sources;
and
(2) not later than 180 days after completing the review, implement measures to achieve not less than 10 percent of the potential efficiency and renewable savings identified in the review.’’. SEC. 1405. CREDIT TO REPLACE REPLACEMENT ITEMS.

Section 801(a) of the National Energy Conservation Policy Act (42 U.S.C. 8287(a)) is amended by adding at the end the following:

‘‘(A) In case of an energy savings contract or energy savings performance contract providing for energy savings through the construction and operation of one or more buildings or facilities to replace one or more existing buildings or facilities, benefits ancillary to the purpose of such contract under paragraph (1) may include savings resulting from reduced costs of operation and maintenance at such replacement buildings or facilities when compared with costs of operation and maintenance at the buildings or facilities being replaced.

‘‘(B) Notwithstanding paragraph (2)(B), aggregate annual payments by an agency under an energy savings contract or energy savings performance contract referred to in subparagraph (A) may take into account (through the procedures developed pursuant to this section) savings resulting from reduced costs of operation and maintenance as described in subparagraph (A).’’. SEC. 1406. REPEAL OF ENERGY SAVINGS PERFORMANCE CONTRACT DEFINITIONS.

Section 801(c) of the National Energy Conservation Policy Act (42 U.S.C. 8287(c)) is repealed.

SEC. 1407. ENERGY SAVINGS PERFORMANCE CONTRACT DEFINITIONS.

(a) ENERGY SAVINGS.—Section 804(2) of the National Energy Conservation Policy Act (42 U.S.C. 8287(c)(2)) is amended to read as follows—

‘‘(2) The term ‘energy savings’ means a reduction in the cost of energy, water, or wastewater treatment from a base cost established through a methodology set forth in the contract, used by either—

(A) an existing federally owned building or buildings or other federally owned facilities as a result of—

(i) the lease or purchase of operating equipment, improvements, altered operation and maintenance, or technical services;

(ii) more efficient use of existing energy sources by cogeneration or heat recovery, excluding any cogeneration process for other than an existing federally owned building or buildings or other federally owned facilities; or

(iii) more efficient use of water at an existing federally owned building or buildings, in an interior or exterior plumbing system, or

(B) a replacement facility under section 801(a)(3).’’. (b) ENERGY SAVINGS CONTRACT.—Section 803(3) of the National Energy Conservation Policy Act (42 U.S.C. 8287(c)(3)) is amended to read as follows:—
TITLE XV—GENERAL EFFECTIVE DATE; APPLICATION OF AMENDMENTS

SEC. 1501. EFFECTIVE DATE; APPLICATION OF AMENDMENTS.

(a) EFFECTIVE DATE.—Except as otherwise provided in this Act, this Act and the amendments made by this Act shall take effect not later than January 15, 2002, upon the date of enactment of this Act.

(b) APPLICATION OF AMENDMENTS.—Except as otherwise provided in this Act, the amendments made by this Act shall not apply with respect to contracts commenced under title II, United States Code, before the effective date of this Act.

TITILE XVI—MISCELLANEOUS PROVISIONS

SEC. 1601. REIMBURSEMENT OF RESEARCH, DEVELOPTMENT, AND MAINTENANCE COSTS.

(a) IN GENERAL.—Not later August 1, 2001, the Federal Crop Insurance Corporation shall promulgate final regulations to carry out section 551(d) of the Federal Crop Insurance Act (7 U.S.C. 2287c(d)); or

(b) CONGRESSIONAL REVIEW OF AGENCY RULEMAKING.—In carrying out this section, the Corporation shall use the authority provided under section 804 of title 5, United States Code.

(c) EFFECTIVE DATE.—The final regulations promulgated under section (a) shall take effect on the date of the final publication of the regulations.

SA 976. Mrs. BOXER (for Mr. BYRD) proposed an amendment to the bill H.R. 2217, making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 2002, and for other purposes; as follows:

At the appropriate place, insert the following:

SEC. 2. MODIFICATION TO STEEL LOAN GUARANTEE PROGRAM.

(a) IN GENERAL.—Section 101 of the Emergency Steel Loan Guarantee Act of 1999 (Public Law 105-300) is amended as follows:

(1) REQUIREMENTS FOR LOAN GUARANTEES.—

(A) in paragraph (1), by striking “2005” and inserting “2015”;

(B) by amending paragraph (4) to read as follows:

(4) GUARANTEE LEVEL.—

(A) IN GENERAL.—Except as provided in subparagraph (B), any loan guarantee provided under this section shall not exceed 85 percent of the amount of principal of the loan.

(B) INCREASED LEVEL.—A loan guarantee may be provided under this section in excess of 85 percent, but not more than 95 percent, of the amount of principal of the loan if—

(i) the aggregate amount of loans guaranteed at such percentage and outstanding under this section at any one time does not exceed $500,000,000; and

(ii) the aggregate amount of loans guaranteed at such percentage under this section with respect to loan guarantees provided under this section shall be consistent with customary practices in the commercial banking industry. Minor or inadvertent reporting violations shall not cause termination of any guarantee provided under this section.”;

(2) TERMS AND CONDITIONS.—Subsection (b) is amended—

(A) in paragraph (1), by striking “2005” and inserting “2015”; and

(B) by amending paragraph (4) to read as follows:

(4) GUARANTEE LEVEL.—

(A) IN GENERAL.—Except as provided in subparagraph (B), any loan guarantee provided under this section shall not exceed 85 percent of the amount of principal of the loan.

(B) INCREASED LEVEL.—A loan guarantee may be provided under this section in excess of 85 percent, but not more than 95 percent, of the amount of principal of the loan if—

(i) the aggregate amount of loans guaranteed at such percentage and outstanding under this section at any one time does not exceed $500,000,000; and

(ii) the aggregate amount of loans guaranteed at such percentage under this section with respect to loan guarantees provided under this section shall be consistent with customary practices in the commercial banking industry. Minor or inadvertent reporting violations shall not cause termination of any guarantee provided under this section.”;

(3) REPORTS TO CONGRESS.—Subsection (i) is amended by striking “of fiscal years 1999 and 2000, and annually thereafter,” and inserting “fiscal year”;

(4) TERMINATION OF GUARANTEE AUTHORITY.—Subsection (b) is amended by striking “2005” and inserting “2003”;

(5) REPORTING, RECORDING, AND FORECLOSURE PROCEDURES.—Subsection (i) is amended by adding at the end the following:

“Notwithstanding any other provisions of law, Federal agencies may foreclosure, and record, any interest in property in which Federal funds have been invested or in which the United States has an interest, under the same conditions as a private bank or investment company or a water conservation measure that improves the efficiency of water use, is life saving, or is engaged in recycling or reuse, improvements in operation or maintenance efficiencies, retrofit activities or other related activities, not affecting the power generating operations at a federally owned hydroelectric dam.”;

(6) DEFINITION OF STEEL COMPANIES.—Subsection (c)(3)(B) is amended to read as follows:

(B) is engaged in—

(i) the production or manufacture of a product identified by the American Iron and Steel Institute as basic steel; mill products, including ingots, slab and billets, plates, flat-rolled steel, sections and structural products, bars, rail type products, pipe and tube, and wire rod;

(ii) the production or manufacture of coke used in the production of steel; or

(iii) the mining of iron ore and.”;

(7) APPLICABILITY.—The amendments made by this section shall apply only with respect to any guarantee issued on or after the date of enactment of this Act.
the amount available for apportion under this program for each fiscal year or more than 5 percent of such amount."

On page 132, line 8, immediately following the word "expended," insert "of which $700,000 is to be used to implement management strategies in the Rio Puerco watershed, New Mexico, and"

Under United States Fish and Wildlife Service—Resource Management, on page 148, starting in line 5, strike "$845,714,000, to remain available until September 30, 2003," except as otherwise provided herein, of which $100,000 is for the University of Idaho for developing research mechanisms in support of salmon and trout recovery in the Columbia and Snake River basins and their tributaries, and"

On page 134, line 2, immediately following the ":" strike the word "Provided," and insert the following: "Provided, That not less than $125,000,000 of the funds available for hazardous fuels reduction under this heading shall be for alleviating immediate emergency threats to urban wildland interface areas as defined by the Secretary of the Interior: Provided further, That the Forest Service shall expend not less than $1,500,000 for funds provided under this heading for hazardous fuels reduction activities for alleviating immediate emergency threats to urban wildland interface areas as defined by the Secretary of Agriculture:"

On page 197, line 19 immediately following the "":" insert the following: "Provided further, That in addition to funds provided for State Fire Assistance programs, and subject to all authorities available to the Forest Service under the State and Private Forestry Appropriation, up to $15,000,000 may be used on adjacent non-federal lands for the purpose of protecting communities where hazard reduction activities are planned on national forest lands that have the potential to place such communities at risk: Provided further, That the Forest Service shall execute an analysis of the impact of restrictions on mechanical fuel treatments and forest access in the upcoming Chugach National Forest Land and Resource Management Plan, on the implementation of the National Fire Plan: Provided further, That no funds shall be reserved for use on non-federal lands in accordance with authorities available to the Forest Service under the State and Private Forestry Appropriation: Provided further, That of the amounts provided under this heading $2,638,000 is for the Ecological Restoration Institute, of which $338,000 is for ongoing activities on Mt. Trumpet:

On page 225, line 15, insert before the word "with" the following: "Provided further, That $3,000,000 shall be made available for the Sisseton Sioux Tribe Health Services clinic in Sisseton, South Dakota, and $9,157,000 shall be made available for the small ambulatory facilities program."

On page 143, line 7, after "herein," insert "of which $140,000 shall be made available for the preparation of, and not later than July 30, 2002, the Secretary of the Interior is to report on, a feasibility study and situational appraisal of the Hackensack Meadowsland, New Jersey, to identify management objectives and address strategies for preservation efforts, and"

On page 153, line 22, delete "$65,886,000," and insert "$66,387,000, of which $300,000 in emergency training funds are for the Erie Canal Way National Heritage Corridor:"

On page 153, line 22, insert the following before the period: "of which $101,000 in statutory funding is for the Brown Foundation for Educational Equity:"

On page 153, line 22, insert the following before the period: "for acquisition of 1,750 acres for the Red River National Wildlife Refuge, and of which $1,500,000 shall be for emergencies and hardships, and of which $1,500,000 shall be for inholdings."

On page 194, between lines 9 and 10, insert the following:

SEC. 1... SENSE OF CONGRESS CONCERNING COASTAL IMPACT ASSISTANCE.

(a) FINDINGS.—Congress finds that:

(1) the United States continues to be reliant on fossil fuels (including crude oil and natural gas) as a source of most of the energy consumed in this country;

(2) this reliance is likely to continue for the foreseeable future;

(3) about 65 percent of the energy needs of the United States are supplied by oil and natural gas;

(4) the United States is becoming increasingly reliant on clean-burning natural gas to fuel electricity generation and air conditioning, agricultural needs, and essential chemical processes;

(5) a large portion of the remaining crude oil and natural gas resources of this country are on Federal land located in the western United States, in Alaska, and off the coastline of the United States; and

(6) the Gulf of Mexico has proven to be a significant source of oil and natural gas and is predicted to remain a significant source in the immediate future.

(b) SENSE OF CONGRESS.—It is the sense of Congress that coastal States and counties oppose the development of Federal crude oil and natural gas resources within or near the coastline, which opposition results in congressional, state, and other initiatives to prevent the development of those resources;

(8) actions that prevent the development of certain Federal crude oil and natural gas resources do not lessen the energy needs of the United States or of those States and counties that object to exploration and development of fossil fuels;

(9) actions that prevent the development of certain Federal crude oil and natural gas resources focus development pressure on the remaining areas of Federal crude oil and natural gas resources, such as onshore and offshore Alaska, certain onshore areas in the western United States, and the central Gulf of Mexico off the coastlines of Alabama, Alaska, Louisiana, Mississippi, and Texas;

(10) the development of Federal crude oil and natural gas resources is accompanied by adverse effects on the infrastructure, services, public services, and the environment of States, counties, and local communities that host the development of those Federal resources;

(11) States, counties, and local communities do not have the power to tax adequately the development of Federal crude oil and natural gas resources located onshore, provides, outside the budget and appropriations processes of the Federal Government, payments to States in which Federal crude oil and natural gas resources are located in the context of the direct revenues received from the Federal Government for those resources; and

(13) there is no permanent provision in the Outer Continental Shelf Lands Act (30 U.S.C. 1331 et seq.) that prevents the competition for fossil fuels; and

(15) the Mineral Leasing Act (30 U.S.C. 181 et seq.), which governs the development of Federal crude oil and natural gas resources located offshore, provides, outside the budget and appropriations processes of the Federal Government, payments to States in which Federal crude oil and natural gas resources are located in the context of the direct revenues received from the Federal Government for those resources; and

(13) there is no permanent provision in the Outer Continental Shelf Lands Act (30 U.S.C. 1331 et seq.), which governs the development of Federal crude oil and natural gas resources located offshore, that authorizes the sharing of a portion of the annual revenues generated from Federal offshore crude oil and natural gas resources with adjacent coastal States that:

(A) serve as the platform for that development; and

(B) suffer adverse effects on the environment and infrastructure of the State.

(c) BELIEF.—It is hereby the sense of Congress that Congress should provide a significant portion of the Federal offshore mineral rents to coastal States that permit the development of mineral resources offshore of the coastline, including the States of Alabama, Alaska, Louisiana, Mississippi, and Texas; and

On page 144, line 15, strike "analyses" and insert "analyses: Provided further, That the Service shall conduct at least two competitively awarded grant programs for State, local, or other organizations in research areas including, but not limited to, further Atlantic salmon conservation and restoration efforts, at least $550,000 of which
shall be awarded to projects that will also assist industries in Maine affected by the listing of Atlantic salmon under the Endangered Species Act.”

NOTICES OF HEARINGS

COMMITTEE ON GOVERNMENTAL AFFAIRS

Mr. LIEBERMAN. Mr. President, I announce that the Committee on Governmental Affairs will meet on Tuesday, July 17, 2001, at 2:30 p.m. for a hearing to examine “Expanding Flexible Personnel Systems Governmentwide.”

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. BINGAMAN. Mr. President, the Subcommittee on National Parks of the Committee on Energy and Natural Resources has previously announced a hearing on Tuesday, July 17, 2001, on several national park and memorial measures pending before the subcommittee.

I would like to announce for the information of the Senate and the public that in addition to considering the measures previously announced, the subcommittee will receive testimony on H.R. 1668, to authorize the Adams Memorial Foundation to establish a commemorative work on Federal land in the District of Columbia and its environs to honor former President John Adams and his legacy.

The hearing will begin at 2:30 p.m. in room 366 of the Dirksen Senate Office Building in Washington, DC.

Because of the limited time available for the hearing, witnesses may testify by invitation only. However, those wishing to submit written testimony for the hearing record should send two copies of their testimony to the Subcommittee on National Parks, Committee on Energy and Natural Resources, United States Senate, 312 Dirksen Senate Office Building, Washington, DC 20510.

For further information, please contact David Brooks of the committee staff at (202) 224-9863.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON AGRICULTURE, NUTRITION, AND FORESTRY

Mr. LEAHY. Mr. President, I ask unanimous consent that the Committee on Agriculture, Nutrition, and Forestry be authorized to meet during the session of the Senate on Thursday, July 12, 2001, at 9:30 a.m., in open session to receive testimony on Ballistic Missile Defense Programs and Policies in Review of the Defense Authorization request for fiscal year 2002.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON BANKING, HOUSING AND URBAN AFFAIRS

Mr. LEAHY. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on July 12, 2001.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. LEAHY. Mr. President, I ask unanimous consent that the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate on Thursday, July 12, 2001, at 9:30 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. LEAHY. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Thursday, July 12, 2001 at 4:00 p.m. to hold a business meeting.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON INDIAN AFFAIRS

Mr. LEAHY. Mr. President, I ask unanimous consent that the Committee on Indian Affairs be authorized to meet on July 12, 2001, at 10:00 a.m. in room 485 Russell Senate Building to conduct a Hearing to receive testimony on the goals and priorities of the member tribes of the Montana Wyoming Tribal Leaders Council for the 107th session of the Congress.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. LEAHY. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet to conduct a markup on Thursday, July 12, 2001 at 10:00 a.m. in SD226.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON EMERGING THREATS AND CAPABILITIES

Mr. LEAHY. Mr. President, I ask unanimous consent that the Subcommittee on Emerging Threats and Capabilities of the Committee on Armed Services be authorized to meet during the session of the Senate on Thursday, July 12, 2001, at 2:00 P.M., in open session to receive testimony on Cooperative Threat Reduction, Chemical Weapons demilitarization, defense threat reduction agency, Nonproliferation Research and Engineering, and Related Programs, in review of the defense authorization request for fiscal year 2002.

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGES OF THE FLOOR

Mr. WELLSTONE. I ask unanimous consent that an intern, Archie Ingersoll, be allowed to be on the floor during the deliberations today.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, I ask unanimous consent a fellow in Senator Bingaman’s office, Geri Rivers, be given floor privileges during consideration of H.R. 2217, the Interior appropriations bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

AUTHORITY TO FILE FIRST-DEGREE AMENDMENTS TO THE BANKRUPTCY REFORM BILL

Mr. REID. Mr. President, I ask unanimous consent that Senators have until 3 p.m. Monday, July 16, to file first-degree amendments to the substitute amendment to the Bankruptcy Reform Act.

The PRESIDING OFFICER. Without objection, it is so ordered.

MEASURE PLACED ON THE CALENDAR—H.R. 2311

Mr. REID. Mr. President, I ask unanimous consent that H.R. 2311 be discharged from the Appropriations Committee and the bill be placed on the calendar.

The PRESIDING OFFICER. Without objection, it is so ordered.

UNANIMOUS CONSENT AGREEMENT—H.R. 2311

Mr. REID. Mr. President, I ask unanimous consent that on Monday, July 16, at 2 p.m., the Senate proceed to the consideration of H.R. 2311, the energy and water appropriations bill; that on Monday, there be debate only on the bill, except that it be in order for the chairman and ranking member to offer the text of the committee-reported bill, S. 171, as an amendment; that no other amendments be in order during Monday’s session.

The PRESIDING OFFICER. Without objection, it is so ordered.
ORDERS FOR MONDAY, JULY 16, 2001

Mr. REID. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 2 p.m. Monday, July 16. I further ask unanimous consent that on Monday, immediately following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the junior leaders be reserved for their use later in the day, and the Senate begin consideration of the energy and water appropriations bill for debate only.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. REID. Mr. President, the Senate will not be in session tomorrow. On Monday, the Senate will convene at 2 p.m. and begin consideration of the energy and water appropriations act for debate only during Monday’s session. There will be no roll call votes on Monday.

We have a lot of activity expected on the energy and water appropriations bill. We hope that Members will be thinking about whatever amendments they want to offer because it is the intent of the leaders and the two managers of the bill, Senators Domenici and myself, that we will ask sometime Monday for a finite list of amendments to be filed, so people should be thinking about amendments.

ORDER FOR ADJOURNMENT

Mr. REID. Mr. President, I ask unanimous consent that the senior Senator from West Virginia be recognized to speak as in morning business, and that following his statement the Senate stand in adjournment under the previous order.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BYRD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. Reid). Without objection, it is so ordered.

EMERGENCY STEEL LOAN GUARANTEE PROGRAM

Mr. BYRD. Mr. President, roughly 2 years ago, we passed legislation to create the Emergency Steel Loan Guarantee Program, Public Law 106–106. The President signed the legislation on August 17, 1999. At that time, we were alarmed by a growing crisis in the steel industry. Therefore, Congress found that the U.S. steel industry had been severely damaged by imports of more than 40 million tons of steel imports in 1998. In addition, we found that the surge had resulted in the loss of more than 10,000 steelworker jobs in 1999 and was the proximate cause of bankruptcy for three steel companies; that the imports had damaged the financial viability of the American steel industry and had affected the willingness of private lenders to make loans to the industry; that all of these developments were having serious negative effects on communities across the country; and that a strong steel industry is necessary to the adequate defense preparedness of the United States in order to have sufficient steel available to build and repair ships, tanks, planes, and armaments necessary for the national defense.

In response to this growing crisis, I offered an amendment during an appropriations conference to create a loan guarantee fund for domestic steel companies that have experienced layoffs, production losses, or financial losses since the beginning of the steel import crisis. The program was intended to provide guarantees of up to 85 percent of the principal amount of loans to qualified domestic steel companies for whom credit is not otherwise available at reasonable rates, provided there is reasonable assurance of repayment. The legislation provided budget authority of $140 million to support $1 billion in guaranteed loans.

Since we took that action, the import crisis has deepened. During the last 6 months, the number of steelworkers who have lost their jobs as a result of the crisis has increased to 29,500. The number of companies filing for bankruptcy has reached 18. Current import levels remain well above pre-crisis levels. Moreover, prices for finished steel products have fallen below the levels that prevailed during the depths of the 1980s crisis.

The U.S. industry has been driven into this state of crisis by foreign producers who are generally less efficient and less productive, and who in many cases could not compete in the U.S. market or even survive without Government support. Since 1980, steel producers outside of North America have received well over $100 billion in direct Government subsidies. This does not include the costs incurred by communist governments in the former Soviet Union, Eastern Europe, and China in establishing steel industries that would not have existed without government involvement. Enormous market distortions abroad have led to the creation of a steel market that is the largest in the world—a quarter of a century of massive foreign over-capacity—estimated 275 million tons of excess crude steel capacity, or more than twice the annual steel consumption of the United States. The U.S. steel industry, on the other hand, restructured itself in the 1980s and 1990s and emerged as the most productive in the world in terms of man-hours expended per ton of steel produced.

Unfortunately, the emergency steel loan guarantee program has not been able to fulfill its mission. By February 28, 2000, the governing board of the program had received 13 loan guarantee applications. Of that number, three were rejected for failure to comply with statutory or regulatory requirements and three others were rejected because the board did not find that there was a reasonable assurance of repayment. The board approved the other seven applications, totaling $550,525,500 and issued offers of guarantee to the applicant lenders during Fiscal Year 2000. Nevertheless, no guaranteed loans were closed and funded during Fiscal Year 2000, and only one guaranteed steel loan—$110 million to Geneva Steel Company of Vineyard, UT—has closed this year.

So, it is time to consider whether we can make changes to the program that will increase its effectiveness without imposing significant additional costs on the Federal Government. I have offered an amendment that has three key features:

No. 1, for $100 million worth of guarantee authority, the amendment increases the federal guarantee from 85 percent of principal to as much as 95 percent of principal, provided that no steel company gets more than $50 million of these more favorable guarantees. Similarly, for another $100 million worth of guarantee authority, the amendment increases the federal guarantee from 85 percent to as much as 90 percent, with a $5 million limit for any single company.

No. 2, loans approved after the effective date of the amendment could be structured so that repayment is not completed until 2015—extended from 2005 under current laws.

No. 3, the Emergency Steel Loan Guarantee Board would have guarantee authority until December 31, 2003—extended from December 31, 2001, under current laws.

The current balance of budget authority is $127.2 million for $890 million of unused guarantee authority. The Office of Management and Budget has estimated that the existing $127.2 million budget authority balance will be adequate to support the more generous terms and conditions contained in my amendment. The amendment, therefore, does not need to provide any additional budget authority.

If we do not take every action we can to support this vital industry, I am afraid the wave of bankruptcies will continue. By the end of the year, we may not have much of a steel industry to speak of. What will we then say to
those who question our defense preparedness? What will we say to the steelworkers of America, to their families, and to the communities and consuming industries that depend upon a vital American steel industry? What will we say to the industries that are next on the hit lists of foreign predators? Let us stand up for steel in its time of need, as the industry has stood up for us in times of war and times of peace. Let us not allow imports to eviscerate this efficient and productive industry, an industry that has provided quality jobs to generations of hard-working Americans.

I would like to thank several Senators who helped in crafting this amendment. Senators GRAMM of Texas and NICKLES of Oklahoma, as well as Senators VOINOVICH of Ohio and SPECTER of Pennsylvania, all of whom demonstrated creativity and flexibility—as well as good humor—in coming to agreement. I also wish to thank our distinguished majority whip for his responsibility—as well as good humor—in coming to agreement. I also wish to thank the nominees’ commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

LEGISLATIVE SESSION

The PRESIDENT pro tempore. Under the previous order of the Senate the Senate will return to legislative session.

ADJOURNMENT UNTIL 2 P.M. MONDAY, JULY 16, 2001

The PRESIDENT pro tempore. Under the previous order, the Senate stands adjourned until the hour of 2 o’clock p.m. on Monday next, July 16, this year of our Lord, 2001.

Thereupon, the Senate, at 8:30 p.m., adjourned until Monday, July 16, 2001, at 2 p.m.

NOMINATIONS

Executive nominations received by the Senate July 12, 2001:

DEPARTMENT OF AGRICULTURE

ERIC M. BOST, OF TEXAS, TO BE A MEMBER OF THE BOARD OF DIRECTORS OF THE COMMODITY CREDIT CORPORATION, VICE SHIRLEY ROSSHON WATKINS, RESIGN.

NOMINATIONS

Executive nominations received by the Senate July 12, 2001:

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Ronald Rosenfeld, of Maryland, to be President, Government National Mortgage Association.

DEPARTMENT OF TRANSPORTATION

Jennifer L. Dorn, of Nebraska, to be Federal Transit Administrator.

The above nominations were approved subject to the nominees’ commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

EXECUTIVE CHIEF, JOSEPH E. GREGORY, OF THE DISTRICT OF COLUMBIA, TO BE AN ASSISTANT SECRETARY OF DEFENSE.
JOHN W. KEYS, III, of Utah, to be Commissioner of Reclamation.

DEPARTMENT OF AGRICULTURE

JOSEPH J. JEN, of California, to be Under Secretary of Agriculture for Research, Education, and Economics.

JAMES R. MOSELEY, of Indiana, to be Deputy Secretary of Agriculture.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

ANGELA ANTONELLI, of Virginia, to be Chief Financial Officer, Department of Housing and Urban Development.

FEDERAL DEPOSIT INSURANCE CORPORATION

DONALD E. POWELL, of Texas, to be Chairperson of the Board of Directors of the Federal Deposit Insurance Corporation for a term of five years.

DONALD E. POWELL, of Texas, to be a Member of the Board of Directors of the Federal Deposit Insurance Corporation for a term of six years.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

RONALD ROSENFIELD, of Maryland, to be President, Government National Mortgage Association.

DEPARTMENT OF TRANSPORTATION

JENNIFER L. DORN, of Nebraska, to be Federal Transit Administrator.

UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT

LOHI A. FORMAN, of Virginia, to be an Assistant Administrator of the United States Agency for International Development.

DEPARTMENT OF STATE

AUBREY HOOKS, of Virginia, a Career Member of the Senior Foreign Service, Class of Minister-Counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Democratic Republic of the Congo.

DONALD J. MCCONNELL, of Ohio, a Career Member of the Senior Foreign Service, Class of Minister-Counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Eritrea.

PETER R. CHAVEAS, of Pennsylvania, a Career Member of the Senior Foreign Service, Class of Minister-Counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Sierra Leone.

NANCY J. POWELL, of Iowa, a Career Member of the Senior Foreign Service, Class of Minister-Counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Ghana.

GEORGE MCDARD STAPLES, of Kentucky, a Career Member of the Senior Foreign Service, Class of Minister-Counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Cameroon, and to serve concurrently and without additional compensation as Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Equatorial Guinea.

The above nominations were approved subject to the nominees’ commitment to respond to requests to appear and testify before any duly constituted Committee of the Senate.

DEPARTMENT OF EDUCATION

GROVER J. WHITEHURST, of New York, to be Assistant Secretary for Educational Research and Improvement, Department of Education.

SUSAN B. NEUMAN, of Michigan, to be Assistant Secretary for Elementary and Secondary Education, Department of Education.

REBECCA O. CAMPOVIRIDE, of Virginia, to be Assistant Secretary for Legislation and Congressional Affairs, Department of Education.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

ROBERT S. MARTIN, of Texas, to be Director of the Institute of Museum and Library Services.
RECOGNIZING SAM SPECTOR AND THE OSS–101 ASSOCIATION

HON. BOB BARR
OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mr. BARR of Georgia. Mr. Speaker, the OSS–101 Association Inc. represents the men of World War II Detachment 101 of the Office of Strategic Services (predecessor to today’s CIA), who served in guerrilla warfare behind the Japanese lines in Burma. Mr. Sam Spector, of Rome, Georgia, is President of this association. He and the other fighting men of “Merrill’s Marauders” have remained extremely grateful to the Kachin people of Burma, for the crucial help provided by them during the war.

By 1942 the Japanese were well experienced in jungle fighting. Burma was one of the world’s most hostile environments. It was also the home of a very special group of people—the Kachins. They lived in the northern-most state of Burma, and they cherished their freedom as we do. Though the Japanese occupied most of Burma in 1942, they were unable to secure the Kachin State. The Kachins took a stand, and became what was known as Detachment 101 of the U.S. Office of Strategic Services, also known as the American-Kachin Rangers. This was the first United States unit to form an intelligence screen and employ a large guerrilla army deep in enemy territory. General Dwight D. Eisenhower commended Detachment 101 of its exemplary performance.

After the war, members of Detachment 101 distinguished themselves in all services and in private life. An association was formed to join ex-101ers, fraternally, as well as to maintain ties with the Kachins, in Burma (now Myanmar). This friendship has been maintained in spite of the distances and years.

In 1995, 18 Americans, including 12 American veterans of 101, decided to spend their 50th Anniversary in Burma with their Kachin friends. There was a celebration of the American-Kachin Rangers. Among those attending were 3800 Kachins and more than 250 WW II Kachin veterans. Since that time, the Association has printed and distributed thousands of translated grade school readers, a book on Kachin history, and a first aid book; and is active in teaching agriculture.

During March 2001 the group visited the air strip captured by Merrill’s Marauders to place a wreath. At that time they noted the Japanese had erected a memorial to their dead, and the group decided it would like to place a memorial to the Americans (Merrill’s Marauders, Mars Task Force, the 19th Air Force, and Detachment 101 USA Kachin Rangers). There are no memorials to our veterans in Southeast Asia, although there are many in Europe, and one in the Philippines that honors those Americans and Filipinos who died.

I urge all my colleagues, and Americans everywhere to join me in saluting these brave Americans and Kachin heroes, for their sacrifices that were so vital in our victory in the Asian theatre in World War II. I especially salute Rome, Georgia’s Sam Spector, who is a leader in this effort.

TRIBUTE TO REAR ADMIRAL GWILYM H. JENKINS, JR.

HON. IKE SKELTON
OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mr. SKELTON. Mr. Speaker, let me take this opportunity to inform my colleagues on the upcoming retirement of Rear Admiral Gwilym H. Jenkins, Jr., Deputy for Acquisition and Business Management for the Assistant Secretary of the Navy. In the very near future, Admiral Jenkins will retire after over 30 years in the U.S. Navy. He has distinguished himself, the Navy, and our nation with dedicated service.

Admiral Jenkins began his service in the military in 1966, when he enlisted in the Naval Reserve. Throughout his career, Admiral Jenkins has continued his formal education. He received a bachelor’s degree in Electrical Engineering from Pennsylvania State University. He received masters degrees from the Naval Post Graduate School and is a graduate of the University of Southern California Program for Executives.

Admiral Jenkins has held many command assignments and honorably served the American people throughout the world. Admiral Jenkins has served on the U.S.S. Savannah, U.S.S. Raleigh, and U.S.S. Puget Sound. He has also served as Supply Officer and Comptroller, Ship Repair Facility, Subic Bay, Republic of the Philippines; Procuring Contracting Officer for the A06E TRAM and Business and Financial Manager of the CH–46 and CH–53 Marine helicopters, Naval Air Systems Command, Washington, D.C.

As Director of Contracts at Navy Supply Center, Jacksonville, Florida, and while working at the Aviation Supply Office, Philadelphia, Pennsylvania, he championed the use of electronic bulletin boards in contracting. Admiral Jenkins also served as Executive Director for Procurement at the Defense Logistics Agency, Fort Belvoir, Virginia, where he was responsible for the implementation of the electric commerce mall on the World Wide Web, significantly reducing unnecessary Department of Defense logistics infrastructure.

Through his work in Navy acquisition, Admiral Jenkins has consistently reached out to communities and to small business owners throughout the United States and has helped bridge the gap between military and civilian America. Admiral Jenkins, through his unique and amiable style, has worked to make this intimidating process easier for Americans to understand. I am especially grateful to Admiral Jenkins for traveling to Warrensburg, Missouri, to take part in my annual Federal Procurement Conference held each year at Central Missouri State University. I know the residents of Missouri’s Fourth Congressional District join me in
slanding their appreciation for Admiral Jenkins's contribution to Missouri's small businesses.

Mr. Speaker, Admiral Jenkins has had an impressive career in the military and has established great relationships among the civilian community. I know that the Members of the House will join me in paying tribute to this fine sailor as he enjoys his retirement with his wife, Nell, and their four daughters Ellen, Caitlan, Andrea, and Kagan.

TRIBUTE TO AMANDA PARKER OF QUINCY, MI—LEGRAND SMITH SCHOLARSHIP WINNER

HON. NICK SMITH
OF MICHIGAN
IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mr. SMITH of Michigan. Mr. Speaker, it is with great respect for the outstanding record of excellence she has compiled in academics, leadership and community service, that I rise to salute Amanda Parker, winner of the 2001 LeGrand Smith Congressional Scholarship. This award is made to young adults who have demonstrated that they are truly committed to playing important roles in our Nation's future. As a winner of the LeGrand Smith Congressional scholarship, Amanda is honored for demonstrating that same generosity of spirit, intelligence, responsible citizenship, and capacity for human service that distinguished the late LeGrand Smith of Somerset, Michigan.

Amanda Parker is an exceptional student at Quincy High School and possesses an impressive high school record. Amanda has received numerous awards for her academic achievement and her success as a young athlete. She is active in student government, as well as volunteering her time to various community service projects, such as helping to collect donations for a food drive to provide area families with a traditional Thanksgiving Day dinner.

Therefore, I am proud to join with her many admirers in extending my highest praise and congratulations to Amanda Parker. This honor is also a testament to the parents, teachers, and others whose personal interest, strong support and active participation contributed to her success. To this remarkable young woman, I extend my most heartfelt good wishes for all her future endeavors.

HONORING THE ACHIEVEMENTS OF MASTER POLICE OFFICER JOSH BROWN

HON. TOM DAVIS
OF VIRGINIA
IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mr. TOM DAVIS of Virginia. Mr. Speaker: I rise today to honor a gentleman who has devoted a great deal of his time and energy to Fairfax County, Virginia. Master Police Officer Josh Brown will retire Friday, July 13, 2001 after 23 years of service with the Mason District Station of the Fairfax County Police Department. He also gave 17 years to the Crime Prevention and Crime Prevention Through Environmental Design (CPTED).

With his prominent role as an officer of the law, MPO Brown has been able to bring many topics to the attention of his community. He has given many lectures on the importance of school security, as well as a variety of other safety lectures, including: lighting, commercial security, risk assessments, violence in the workplace, and community crime prevention. He has spoken at state, national, and international conferences on community crime prevention, lighting, and Crime Prevention Through Environmental Design (CPTED).

MPO Brown specializes in risk assessments of schools, businesses and communities. The Virginia Department of Criminal Justice Services and the International Society of Crime Prevention practitioners have certified him as a Crime Prevention Specialist. He has also been awarded the Meritorious Service Award by the Fairfax County Police and was named Officer of the Year by Police and Citizens Together, a division of the Metropolitan Washington Council of Governments.

His knowledge of crime and its prevention has enabled him to write brochures on commercial robbery prevention, substance abuse, and trail safety. He has also produced literature on rape and assault prevention, as well as Neighborhood Watch training guides. His dedication to keeping his community as safe as possible is extremely admirable, and I am proud of his achievements.

MPO Brown has many interests outside the department. He is married with three children, who take up much of his space time. In years past he has given much time to being a Scoutmaster, coach, and fundraiser for children's school groups.

Mr. Speaker, in closing, I am glad to pay tribute to MPO Josh Brown who has given so many years to the police department as well as being a devoted father and member of the community. I hope my colleagues join me in saluting such a remarkable individual.

PERSONAL EXPLANATION

HON. BOB RILEY
OF ALABAMA
IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mr. RILEY. Mr. Speaker, I was unavoidably detained for rollover No. 216, on agreeing to the amendment. Had I been present I would have voted “no.” Mr. Speaker, I was unavoidably detained for rollover No. 217, on agreeing to the amendment. Had I been present I would have voted “yea.” Mr. Speaker, I was unavoidably detained for rollover No. 218, on agreeing to the amendment. Had I been present I would have voted “no.”

INTRODUCING THE TROPICAL CYCLONE INLAND FORECASTING IMPROVEMENT AND WARNING SYSTEM DEVELOPMENT ACT

HON. BOB ETHERIDGE
OF NORTH CAROLINA
IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mr. ETHERIDGE. Mr. Speaker, I rise today to introduce legislation to improve the forecasting of inland flooding associated with tropical storms and to develop an inland flood warning system to alert residents of dangerous flooding.

The people of North Carolina are all too familiar with the death and devastation that can come from the heavy rains that hurricanes and tropical storms often bring to our state. In 1999, Hurricane Floyd killed forty-eight people and caused nearly $3 billion worth of property damage, primarily through flooding in inland communities. Recently, Tropical Storm Allison cut a path across the nation, killing more than 50 people.

If Floyd and Allison taught us anything, it was that we have been more successful preparing coastal communities for these types of storms than in preparing inland communities. Too many folks think of hurricanes or tropical storms as something that affects only the coast and beach cottages. These storms hit us where we live.

Floyd and Allison demonstrated all too clearly that the greatest threat posed by these storms are the torrential rains that do the most damage hundreds of miles inland. A new study by Ed Rappaport of the Tropical Prediction Center shows that since 1970, freshwater flooding caused 59 percent of storm deaths in the United States, whereas only one percent lost their lives in coastal storms.

Inland residents need a warning system that raises the awareness of the destructiveness of these storms so they can protect their families and their property. Currently, technology exists to help track and prepare coastal communities for the wind, rain, and storm surge damage associated with tropical cyclones. But, now we must move forward with efforts to improve inland flood forecasting and warnings. This bill will provide the funds and the road map to get us there. Ultimately, we can save lives.

This legislation builds on work being done by National Weather Service (NWS) emergency management officials, meteorologists and others to reduce the risks of injury due to inland flooding. The bill authorizes $5.75 million over five years for the National Weather Service to improve its ability to forecast inland flooding associated with tropical storms and hurricanes and to develop and deploy an inland flood warning index or system—such as one similar to the Saffir-Simpson scale for wind speed familiar to coastal residents.

Joe Albaugh, Director of the Federal Emergency Management Administration, recently expressed a too prevalent view about storm damage when he said, “I don’t think that we can fault the forecasters. No one can predict 36 inches of rain.” We must do better than that. It’s time to develop the tools so forecasters can warn the
TRIBUTE TO ASHLEY TUREK OF ADRIAN, MI—LeGrand Smith Scholarship Winner

HON. NICK SMITH
Of Michigan
In the House of Representatives
Thursday, July 12, 2001

Mr. SMITH of Michigan. Mr. Speaker, it is with great respect for the outstanding record of excellence she has compiled in academics, leadership and community service, that I am proud to salute Ashley Turek, winner of the 2001 LeGrand Smith Congressional Scholarship. This award is made to young adults who have demonstrated that they are truly committed to playing important roles in our Nation's future.

As a winner of the LeGrand Smith Congressional Scholarship, Ashley is being honored for demonstrating that same generosity of spirit, intelligence, responsible citizenship, and capacity for human service that distinguished the late LeGrand Smith of Somerset, Michigan.

Ashley is an exceptional student at Adrian High School and possesses an impressive high school record. Ashley is President of her Senior Class and has served as Captain of her Tennis and Track teams. She has received numerous awards for her excellence in academics as well as her involvement in tennis, gymnastics, and track. Outside of school, Ashley is an active volunteer in various community organizations such as the Lenawee County Youth Council.

Therefore, I am proud to join with her many admirers in extending my highest praise and congratulations to Ashley Turek. This honor is also a testament to the parents, teachers, and others whose personal interest, strong support and active participation contributed to her success. To this remarkable young woman, I extend my most heartfelt good wishes for all her future endeavors.

HONORING PATRICIA HALSEY LAVERDURE

HON. BARBARA LEE
Of California
In the House of Representatives
Thursday, July 12, 2001

Ms. LEE. Mr. Speaker, I rise today to honor and salute Patricia Halsey Laverdure for her faithfulness service to the United States Military.

Colonel Laverdure has dedicated her life to providing legal counsel to military members and their families. When she joined the U.S. Marine Corps, she was interested in criminal law, and became a very successful judge advocate. However, Colonel Laverdure was drawn to family law because she knows the burdens that military families face, such as long periods of separation, spousal abuse and low pay. She saw the need for family services so she began to practice family law. Colonel Laverdure established the first spousal abuse programs for the U.S. Marine Corps Family Service Centers.

Colonel Laverdure later became the Chief of the Legal Assistance Branch of the Maintenance and Logistics Command Pacific for the U.S. Coast Guard in Alameda, California. At a time when the military was downsizing, Colonel Laverdure was overwhelmed with huge caseloads. Despite the large amounts of casework, she enlisted the aid of military attorneys from the Navy Reserve and, together with other Coast Guard Attorneys, completed their cases and increased the number of clientele.

Colonel Laverdure has won numerous awards such as the Meritorious Achievement Award, the ABA Legal Distinguished Award and the Coast Guard Meritorious Award. It is only natural that Congress should recognize Colonel Laverdure for her patriotism, her service to the United States military service and her human compassion for her others.

I proudly join Colonel Laverdure’s family and friends to pay tribute to Colonel Patricia Halsey Laverdure.

TRIBUTE TO ANGELA PITTS OF LITCHFIELD, MI—LeGrand Smith Scholarship Winner

HON. NICK SMITH
Of Michigan
In the House of Representatives
Thursday, July 12, 2001

Mr. SMITH of Michigan. Mr. Speaker, it is with great respect for the outstanding record of excellence she has compiled in academics, leadership and community service, that I am proud to salute Angela Pitts, winner of the 2001 LeGrand Smith Congressional Scholarship. This award is made to young adults who have demonstrated that they are truly committed to playing important roles in our Nation’s future.

As a winner of the LeGrand Smith Congressional Scholarship, Angela is being honored for demonstrating that same generosity of spirit, intelligence, responsible citizenship, and capacity for human service that distinguished the late LeGrand Smith of Somerset, Michigan.

Angela Pitts is an exceptional student at Litchfield High School and possesses an impressive high school record. Angela has received numerous awards for her academic achievement and her success as a young athlete. She is active in student government, as well as the high school and jazz bands. Angela volunteers her time to various organizations, such as her community’s youth group, and coaches young children in basketball.

Therefore, I am proud to join with her many admirers in extending my highest praise and congratulations to Angela Pitts for her selection as a winner of a LeGrand Smith Congressional Scholarship. This honor is also a testament to the parents, teachers, and others whose personal interest, strong support and active participation contributed to her success.

EXTENSIONS OF REMARKS

To this remarkable young woman, I extend my most heartfelt good wishes for all her future endeavors.

AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2002

SPERCH OF
HON. THOMAS G. TANCREDO
Of Colorado
In the House of Representatives
Wednesday, July 11, 2001

The House in Committee of the Whole on the State of the Union had under consideration the bill (H.R. 2330) making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2002, and for other purposes:

Mr. TANCREDO. Mr. Chairman, I rise in opposition to H.R. 2330, the Agriculture Appropriations Act, a bill considered on the floor today which makes appropriations for the Department of Agriculture and related agencies. But more specifically, I rise in strong opposition to the increase provided in the bill for the Food and Drug Administration (FDA) and would like to call the House’s attention to a problem that one of my constituents has been having with the agency and one that I believe deserves careful consideration by the oversight committees in this chamber.

Recently, the FDA gave final approval of my constituent’s Pre-Market Application for both total and partial joint implants after an exhaustive and blatantly biased two year review, but not before costing his company over $8 million in legal fees, lost wages and profits.

In April 1999, I received a phone call and letter from TMJ Implants, a company located in Golden, Colorado, in my district, which had been having problems with the review of its Premarket Approval Application of the TMJ Total and Fossa-Eminence Prosthesis. Up until last year, the company was the premier market supplier of temporomandibular joint prostheses.

Over the last two years, I have taken an active interest and an active role in monitoring the progress of TMJ Implants’ application, which was finally approved in February. On numerous occasions, I met with Dr. Bob Christensen, President of TMJ Implants, to find out information about the approval of the Partial and Total Joint, and personally talked to FDA Commissioner Jane Henney and to members of the Agency about the status of the company’s applications. I was also, and continue to be, in contact with the House Committee on Oversight, which has sole jurisdiction over the FDA and issues relating to abuse and the internal operations of the agency.

Specifically, I closely followed this case since my office’s first contact with Dr. Christensen and TMJ Implants in early May 1999, after a meeting of the FDA’s Dental Products Panel of the Medical Devices Advisory Committee was held to review the company’s PMA and recommended approval of
the PMA by a 9–0 vote. From this point onward, the FDA engaged in an obvious pattern of delay and deception and even went as far as to remove TMJ Implants’ Fossa-Eminence Prosthesis from the market, which had been available for almost 40 years. This had done nothing more than to cause harm to patients and cost the company millions of dollars.

This was done at the same time that the application for TMJ Concepts, a competitor of TMJ Implants, sailed through the process. Several allegations have come to light over the last two years detailing the fact that several Agency employees have worked under the direction of TMJ Concepts’ associates. The agency went so far as to reconvene a new Medical Devices Advisory Committee last year, with a clear majority of its members lacking the required expertise, which denied the company’s application.

It was not until Mr. Bernard Statland, the new Director, Office of Device Evaluation (ODE) was brought in that the logjam was broken the PMA was quickly approved.

As the above demonstrates, several concerns remain about the process that has taken place over the last two years. It is no secret that everyone involved in this case believes that there have been significant questions raised about the process—the sluggish pace of the review of the engineering data for both the total and partial joint and, more importantly, the constant “moving of the goal posts” during the review of both PMAs.

Over the last two years, my office has received numerous letters from physicians all across the country—from the Mayo Clinic to the University of Maryland—each describing the benefit of the partial joint and the fact that the partial and total joint results in immediate and dramatic decrease in pain, an increase in range of motion and increased function.

While I am, of course, pleased that the application has been approved by the FDA after much delay, the circumstances of the last two years cast doubt on the integrity of the Agency and, it is for this reason that I bring it to the House’s attention.

Dr. Christensen is a true professional and a pioneer in his field and holder of the first patents. His implants are widely accepted as effective and safe throughout the dental and surgery community—indeed, several of my constituents have literally had their lives changed by the procedure. I am convinced that the work of TMJ is and always has been based on solid, scientific principles and the removal of the implants from the market had been erroneous, contrary to the Agency’s earlier findings and the statutory standard that should be applied. This was devastating to thousands in the general public and devastating to the financial status of the company.

Later this year, the House of Representatives will consider legislation reauthorizing the Food and Drug Administration and I would like to urge the House Commerce Committee to hold hearings on the TMJ Implant case and to conduct a thorough investigation into the FDA’s review of the Premarket Approval Application of TMJ Implants’ Fossa-Eminence Prosthesis. I would like to take this opportunity to submit into the record two articles from FDAWebview which shed light on the TMJ Implant case.
Mr. Speaker, the development of specialty hospitals is of great concern because they deprive full-scale hospitals of their most profitable business, leaving those existing hospitals much worse off financially. The investors in these joint ventures and specialty hospitals skim the profits of full-scale hospitals, leaving them to struggle financially. Then the hospitals must look to Medicare and to their local communities to help them financially—and all because these joint ventures are skimming high profits for their investors, including physicians.

Mr. Speaker, these situations not only harm hospitals, they violate the spirit of Medicare self-referral laws. Lawyers have found a loophole in the self-referral laws, and physicians are taking advantage of it.

Today, Rep. KLECZKA and I are joining together to introduce the Hospital Investment Act of 2001 to close the loophole. Our bill would continue to permit physician ownership in these joint ventures and specialty hospitals only if the ownership or investment interest is purchased on terms that are generally available to the public at the time. This amendment would not prohibit physicians from purchasing shares to stock, but it would make sure that such stock purchases are not the result of a sweetheart deal available only to physicians, but set up in a way to skirt the law. My amendment would make it harder for hospitals and physicians to skim profits from hospitals leaving the hospitals worse off financially.

Mr. Speaker, it is time to close this loophole in the Medicare self-referral laws, and I urge my colleagues to support it.

TRIBUTE TO 2001 LeGRAND SMITH SCHOLARSHIP FINALISTS

HON. NICK SMITH OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mr. SMITH of Michigan. Mr. Speaker, it is a sincere pleasure to recognize the finalists of the 2001 LeGrand Smith Scholarship Program. This special honor is an appropriate tribute to the academic accomplishment, demonstration of leadership, responsibility, and commitment to social involvement displayed by these remarkable young adults. We all have reason to celebrate their success, for it is in their promising and capable hands that our future rests:

Nicole Albain of Deerfield, Michigan
Laura Batho of Adrian, Michigan
Zoe Bills of Jackson, Michigan
Jonathan Chapman of East Leroy, Michigan
Bethany Decker of Adrian, Michigan
Elizabeth Flack of Jackson, Michigan

SPEECH BY AHMET ERTEGUN

HON. ROBERT WEXLER OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mr. WEXLER. Mr. Speaker, I would like to place in the CONGRESSIONAL RECORD the following speech by Ahmet Ertegun, Chief Executive Officer of Atlantic Records, on May 18, 2001, after receiving the Prestigious Federation of Turkish American Associations (FTAA) Cultural Lifetime Achievement award during the FTAA’s Turkish Cultural Week.

As co-founder of the House Caucus on U.S.-Turkish Relations and Turkish-Americans, I believe there is no individual more deserving of the FTAA Cultural Achievement Award than Ahmet Ertegun who is a leading voice in the Turkish-American community and an extraordinary humanitarian.

It would be an understatement to say that Mr. Ertegun is the epitome of the American dream. As a successful businessman and self-starter, he co-founded one of the most successful international recording studios, Atlantic Records. Mr. Ertegun has also been deeply involved in many worthwhile philanthropic activities. Thousands of individuals in the United States and throughout the world have benefited from his commitment and involvement in charities and civic organizations.

The Turkish-American community should be extremely proud to have Mr. Ertegun as a leading spokesman to promote Turkish culture and history in the United States. He, along with the Federation of Turkish American Associations, are the heart and soul of a dynamic Turkish-American community. Finally, I want to thank Mr. Ertegun and the FTAA for their commitment to strengthening the relationship between the United States and Turkey. Mr. Ertegun and the FTAA, I believe that the friendship and strategic partnership between America and Turkey are essential to both countries and will grow even more important throughout the 21st century.

Again, I join the Federation of Turkish American Associations and the Turkish-American community in celebrating Mr. Ertegun’s extraordinary achievements and congratulate him on receiving the FTAA Cultural Lifetime Achievement award.

Thank you.

Your excellencies, ladies and gentlemen:

It is a great honor for me to be recognized by the Federation of Turkish American Associations.

I deem it a great honor to have been introduced by my dear friend, Arif Mardin.

Arif, as our musical director, has made the key monumental record hits that have been the highlights of Atlantic’s history: “Respect” by Aretha Franklin, the Saturday Night Fever album by Bee Gees and “Wind Beneath My Wings” by Bette Midler just to name a few.

I was recently invited to a white-tie gala banquet in Nashville to get a music citation. This was a period when I was using crutches to walk.

As they called my name and I started to walk up to the podium to receive the award, this southern lady turned to me and said: “You must be mighty proud. This is the first time we’ve given this award to a foreigner.”

But to be serious, it is wonderful to see such a large group of Turkish Americans. Each and every one of you is an important part of what has become the beginnings of a group which could have some political influence in the near future, both here in America and also in Turkey, through our family and friends.

It is most important that we, as Turkish Americans, champion the causes of freedom and also in Turkey, through our family and friends.

As you all must know, Turkey is now going through a terrible time because of economic mismanagement. We are all aware of the rumors and accusations in the Turkish press of chaos and corruption, in both the public and the private sector.

But what has been the savior of Turkey has been the selfless and honest dedication of so many of its citizens, and the ever-present vigil of the Turkish Army, to protect the legacy of Mustafa Kemal Ataturk. They have been our saviors through the many difficulties since the formation of the Republic in 1923.

With the coming of the current crisis and the devaluation of the Turkish lira, President Bulent Ecevit sent for a top economist, both here and also in Europe.

As you all must know, Turkey is now going through a terrible time because of economic mismanagement. We are all aware of the rumors and accusations in the Turkish press of chaos and corruption, in both the public and the private sector.

But what has been the savior of Turkey has been the selfless and honest dedication of so many of its citizens, and the ever-present vigil of the Turkish Army, to protect the legacy of Mustafa Kemal Ataturk. They have been our saviors through the many difficulties since the formation of the Republic in 1923.

With the coming of the current crisis and the devaluation of the Turkish lira, President Bulent Ecevit sent for a top economist, both here and also in Europe.

As you all must know, Turkey is now going through a terrible time because of economic mismanagement. We are all aware of the rumors and accusations in the Turkish press of chaos and corruption, in both the public and the private sector.

But what has been the savior of Turkey has been the selfless and honest dedication of so many of its citizens, and the ever-present vigil of the Turkish Army, to protect the legacy of Mustafa Kemal Ataturk. Concepts of well-being for countries, for peoples, and for individuals are changing in time. In such a world, to argue for rules that never change would be to deny the reality found in scientific knowledge and rational judgement.

It is my fervent hope that all of you support Mr. Kemal Dervis' mission and support President Ecevit in this critical moment. It is an important moment in Turkish history which will disengage the economic system from the political, which will bring about transparency and accountability in government, and help Turkey reach its destiny as an important member of the modern democratic world.

May the army and the Turkish people persevere in their pursuit of Ataturk's dream.

IN HONOR OF MR. DONALD FREJSKY
HON. DENNIS J. KUCINICH
OF OHIO
IN THE HOUSE OF REPRESENTATIVES
Thursday, July 12, 2001

Mr. KUCINICH. Mr. Speaker, I rise today to honor Mr. Donald R. Frejosky. During the more than 60 years that Mr. Frejosky resided in Garfield Heights, he was an exemplar of altruism, kindness, and service—not only to his own dear family, but also to the larger family of Garfield Heights as well.

Mr. Frejosky was a proud and loving husband, father, grandfather, and brother. Not only did Mr. Frejosky embody the principle of selflessness to his own family, but his example also sets a beautiful precedent for us all to achieve. Mr. Frejosky served his Cleveland community in numerous ways: he was employed as a service and parts manager for White Motor, Richfield Truck, and G&M Towing Co., and as a musical instrument repair artist for more than 35 years, at the diligent service of the Cleveland area.

Not only did Mr. Frejosky bestow upon us his service, skills, and selfless ways, but he also served as a Councilman to Ward 5 in Garfield Heights, and until his last days was serving on the Civil Service Board of the city. Mr. Frejosky worked tirelessly, even up until his last breath, to improve the quality of life for others. It is because of his beneficence, integrity, and diligence that Mr. Frejosky can never be effaced from Garfield Heights' memory, and it is also why we are honoring him today.

Garfield Heights' loss of Mr. Frejosky is not only a loss of a husband, father, and brother, but is also a loss of one of its shining examples of sincerity and service. Today, we honor Mr. Frejosky's past, and honor his indelible imprint on our present and future.

PERSONAL EXPLANATION
HON. JOHNNY ISAKSON
OF GEORGIA
IN THE HOUSE OF REPRESENTATIVES
Thursday, July 12, 2001

Mr. ISAKSON. Mr. Speaker, I was absent for rollcall votes 148 and 149. Had I been present, I would have voted "yea" on both.

EXTENSIONS OF REMARKS
INTRODUCTION OF THE THE LAW ENFORCEMENT OFFICERS’ TRAINING ACT
HON. HOWARD P. “BUCK” MCKEON
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Thursday, July 12, 2001

Mr. MCKEON. Mr. Speaker, today I am introducing the Law Enforcement Officers’ Training Act, a bill to establish a program within the Department of Labor to provide grants for training of law enforcement officers.

Nearly every major study of police and law enforcement agencies conducted over the last forty years, from the Kerner Commission report in 1968 through the recent scandals in Los Angeles, has identified individual training as an essential element of police reform.

My proposal takes advantage of the Department of Labor’s expertise in designing, implementing and administering effective programs to improve skills and to promote professional development of our workforce. While the Justice Department makes grants available to governmental entities for projects to fight crime and improve public safety, there has been a failure to focus on individual professional development as a factor in improving the delivery of law enforcement and public safety services.

My bill directs the Labor Department to focus on training and development in six specific areas: community policing, development of policing skills in a multi-cultural environment, officer survival and defense, the application of technology in law enforcement, supervision and mid-level management skills and techniques, and identification and management of officer fatigue and sleep deprivation.

These grants could be awarded to training institutions, educational institutions, and classrooms of law enforcement officers. Funds could be used for seminars, classes, workshops, conferences or other training sessions in accordance with guidelines developed by the Department of Labor.

The Law Enforcement Officers’ Training Act will result in better relationships between police officers and the public, improved public safety, more efficient delivery of protective services, and enhanced sensitivity to our multi-cultural environment.

In developing this legislation I have had the opportunity to work with the leadership of the Immigration and Nationalization Act, AFL-CIO. I sincerely appreciate their efforts on this proposal and the support of my colleagues to join me in sponsoring this legislation which will improve the security of all of our constituents.

EDUCATION FIGHTS UNDERAGE DRINKING
HON. ILEANA ROS-LEHTINEN
OF FLORIDA
IN THE HOUSE OF REPRESENTATIVES
Thursday, July 12, 2001

Ms. ROS-LEHTINEN. Underage drinking and all kinds of distracted driving are in our headlines once again with various legal solutions being discussed both here and in our state capitols. One organization know as The Century Council, a national non-for-profit organization, funded by America’s leading distillers, has dedicated itself to fighting drunk driving and underage drinking. What remains clear is that education is a vital component of our efforts to thwart impaired driving and underage alcohol consumption.

Parents, teachers, caregivers, and the community as a whole must initiate a dialogue with young people—as early as elementary or middle school—so that positive values are formed. Teens will realize the potential consequences that result from reckless alcohol consumption and, should young people choose to drink when they are adults, they will do so responsibly and in moderation.

Our former colleague, Susan Molinari, has become Chairman of the Council, working closely with Ralph Blackman, its President and CEO. Robert Carle, former chair of the House of Representatives is its Government Affairs Director and Steven Naciero, an attorney for the Bacardi companies, has worked with the Council since its inception. They all would be happy to have your help and support.

With education we stand a real chance of diminishing some of the persistent national problems caused by underage drinking.

IN HONOR OF THE CASE WESTERN UNIVERSITY UPWARD BOUND PROGRAM
HON. DENNIS J. KUCINICH
OF OHIO
IN THE HOUSE OF REPRESENTATIVES
Thursday, July 12, 2001

Mr. KUCINICH. Mr. Speaker, I rise today in honor of the 35th anniversary of the Case Western Reserve University Upward Bound Program, which has been graciously serving the East Cleveland and Cleveland Public High School Districts from 1966–2001.

Throughout its 35 years, The Upward Bound pre-college program has worked assiduously to prepare and realize the full potential of low-income and first-generation college-bound high school students towards post-secondary studies geared towards professional health careers. The Upward Bound Program serves the low-income population, a sector which is all too often ignored. The Program nurtures and makes manifest the talents and capabilities of Cleveland’s underprivileged youth. The year-round program imbues in our youth the skills to prepare them for successful professional health careers by readying them with a well-rounded curriculum in the humanities and sciences during their summer recesses. In addition to this, Upward Bound offers a Saturday Enrichment Program, weekly tutorials, and discussion sessions, which are all geared towards encouraging the amazing personal and spiritual qualities of our youth.

The Upward Bound Program has set an unsurpassed precedent in providing much needed medical and individual care for our grossly underestimated low-income youth. For the past 35 years, the Program has carried the torch for unveiling and realizing the vast potential and gifts of today's low-income youth.
TRIBUTE TO ARCADIA UNIVERSITY

HON. JOSEPH M. HOEFFEL
OF PENNSYLVANIA
IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mr. HOEFFEL. Mr. Speaker, I rise today to recognize and congratulate Arcadia University on officially changing its name. Formerly known as Beaver College, Arcadia University is located in Glenside, Pennsylvania and for almost 150 years has provided students with a first-rate education.

Founded in 1853, Arcadia University originally began as the Beaver Female Seminary in Beaver County, Pennsylvania located north-west of Pittsburgh. It was one of the first institutions to offer a curriculum for women only. The school became co-educational in 1872, and in 1907 adopted the name of Beaver College. The college had outgrown its campus space and in 1923 moved its campus to Jenkinstown, Pennsylvania. This new location provided a larger campus, as well as development opportunities. Owing to the success of the school more land was needed, and a second campus was opened in nearby Glenside.

Today, Arcadia University has an enrollment of more than 2,800 students and boasts a student to faculty ratio of 12 to 1. 88% of the faculty hold doctoral or terminal degrees. There are over 30 undergraduate degrees offered and 11 masters degree programs. The university also operates a continuing education program with evening and weekend classes. The study abroad program is nationally recognized and offers students the opportunity to study in a foreign land. U.S. News and World Report has ranked Arcadia in the top twenty regional universities in the North. The school attained university status in 2000 after completing requirements to attain the new name.

Arcadia University has been a premier institution in Pennsylvania for many years. Our community is very fortunate to have such an outstanding educational presence in our area. I am honored to celebrate this special day with Arcadia University.

TRIBUTE TO WILLIAM E. LEONARD, OF CALIFORNIA

HON. JOE BACA
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mr. BACA. Mr. Speaker, I rise to honor William E. Leonard, of the Inland Empire of California, on the occasion of the dedication of the William E. Leonard Interchange (the Interchange of the 210 and I-15). Mr. Leonard was instrumental in the design and funding of this freeway (extension of the Foothill Freeway). William has a long history of involvement in California transportation issues. He served as a member of the California State Highway Commission from 1973 to 1977 and on the

EXTENSIONS OF REMARKS

HON. HILA L. SOLIS
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 11, 2001

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 2390) making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2002, and for other purposes.

Ms. SOLIS. Mr. Chairman, I rise in support of the Olver/Gilchrest amendment to strike the provision prohibiting funds from being spent to implement the Kyoto treaty on global warming.

The Bush Administration’s stance on the Kyoto treaty has called the United States' credibility into jeopardy. Because of this Administration’s denial of the Kyoto treaty, the U.S. has become the laughing stock of the world and—more importantly—we have seriously put into question our leadership role on global warming and environmental issues.

This amendment would allow for the U.S. to stay involved in negotiations and send a strong message to the world that—although the President has given up on this important agreement—this nation and its other leaders have not.

I encourage my colleagues to support his amendment and commend Mr. Oliver and Mr. Gilchrest for their important amendment, which will help to ensure the United States’ environmental leadership position.

THE PILOT RANGE WILDERNESS ACT

HON. JAMES V. HANSEN
OF UTAH

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mr. HANSEN. Mr. Speaker, I am pleased today to introduce the Pilot Range Wilderness Act which designates lands within the Pilot Peak range as wilderness.

My home state of Utah is blessed with some of the most beautiful scenery this country has to offer. While we often disagree on the best way to preserve these lands for future generations, sometimes those disagreements are used by outside groups to infer that there is only one way to protect these lands and that is wilderness designation. I have often disagreed with those that take this position, and on occasion with great fervor. I believe all of us agree that preservation is, indeed, a noble goal.

Wilderness designation taken to the extreme would severely harm the local economies and
restrict the ability of land managers and local governments to best manage these lands. However, there are certain areas where we must ensure is the best way to assure the preservation of the land's natural beauty and the unique historical and geological nature of these lands. One of those areas in Utah is the Pilot Range in the west desert of Box Elder County. With that in mind, I am proud to introduce a bill which would classify certain areas in the Pilot Range as wilderness.

Mr. Speaker, when one hears the great conservationists of our day speak of the natural treasures of this nation, one could very well be hearing a description of the Pilot Range. The top of the range provides a majestic view of the sun rising over the Rocky Mountains and Great Salt Lake in the East as well as the spectacular view of sunsets across the flats of Nevada. Elk and deer roam the valleys and canyons of the range, and threatened cutthroat trout makes its home in the Bettridge Creek, the largest in the range.

This is land rugged enough to test the mettle of any hearty adventurer. These mountains served as a guide to the Donner Party as they crossed over some of the Great Basin. Its streams and springs provided refreshment and a place of refuge for weary travelers. When standing on these peaks, as I have done many times, one can sense the solitude that very few places in this country can match. As wilderness, this land will continue to offer those willing to challenge its rugged terrain a breathtaking view of nature's glory, as well as multiple recreational opportunities, such as hiking, camping and horseback riding.

Given the fact that these lands are adjacent to the Utah Test and Training Range, we have gone to great lengths to ensure that wilderness designation and the role and mission of the UTRR remains compatible. We have worked to ensure that valid existing rights and the traditional and historical use of these lands is protected while removing any remaining obstacles to wilderness designation.

I was proud to introduce the Utah Wilderness Act in 1984. In my 21 years in Congress, I have had the opportunity to designate and protect more wilderness across the country than almost any other member of Congress. I believe strongly in wilderness designation when it is compatible, when the lands fit the criteria according to the definitions of the 1964 Act and wilderness the highest and best use of the public lands. The bill I am introducing when it is compatible, when the lands fit the criteria according to the definitions of the 1964 Act and wilderness the highest and best use of the public lands. The bill I am introducing today reflects my belief that wilderness designation is the best way to protect the Pilot Range as wilderness.

EXTENSIONS OF Remarks

Boy Scout Troop 201 has a long and distinguished history of molding young men in Olmsted Falls into productive individuals in our society. The troop chartered in 1926 and consisted of 12 scouts that met regularly and attended summer camps together. Over the years the troop grew and flourished, gaining respect both in the International Scouting Association and the local Cleveland community. As years turned into decades, Troop 201 began graduating Eagle Scouts, scouting's highest honor. Less than 2 percent of all Scouters attain this highest honor. Not only are scouts required to fulfill a minimum leadership requirement to attain the coveted Eagle Scout, but every young man must plan, develop, and implement an extensive community service project. Over the years Troop 201 has dedicated a great deal of time and energy to serving in the community, and scouters have selflessly given of their time and effort. The rank of Eagle is an achievement that requires years of dedication to self-improvement, hard work, and the community. Since 1926, Troops 201 has seen over 70 Eagle Scouts.

Olmsted Falls Troop 201 has always stood tall for the causes of righteousness and equity in our society. The original purpose of the Boy Scouts of America, chartered by Congress in 1916, is to provide an educational program for boys and young adults, to build character, to train in the responsibilities of participating citizenship, and to develop personal fitness. The International Scouting Association strives to instill values to develop leadership in young men, and teach them the benefits of a strong character. Scouts are taught to follow and uphold the 12 pillars of the Scout Law in their daily life and treat all people with respect and dignity. At the start of every meeting, scouts hold high their right hand and recite the scout oath, a pledge to remain physically strong, mentally awake, and morally straight. These three guiding principles instill strong values in young leaders and teach them of respect, dignity, and equality for all.

Mr. Speaker, please join me in honoring and celebrating Boy Scout Troop 201 on their 75th Anniversary. This special Diamond Anniversary marks a milestone in this troop's distinguished career and celebrates the countless young men affected by this organization. Troop 201 has continually strived to develop young leaders in the Olmsted Falls community, and has earned the respect and admiration of the entire Olmsted Falls community.

HONORING JESSICA L. WRIGHT UPON PROMOTION TO GENERAL

HON. GEORGE W. GEKAS OF PENNSYLVANIA IN THE HOUSE OF REPRESENTATIVES Thursday, July 12, 2001

Mr. GEKAS. Mr. Speaker, a wise person once said, "All glory comes from daring to begin." This is certainly true of the person I rise today to honor. Jessica Wright is a constituent from my home state of Pennsylvania, but more recently achieved the rank of Brigadier General. This is an honor and a first. For you see, the newly appointed general is the first woman to achieve this rank in the Pennsylvania National Guard. This achievement is the result of twenty-six years of dedication and duty.

General Wright has been a part of many military sorts. This Thursday during the 28th Infantry Division stationed at Fort Indiantown Gap in Lebanon County, Pennsylvania.

Mr. Speaker and Members of the House, General Wright has served her country with distinction. I ask that you join me in honoring this fine soldier for her service to the United States and the Commonwealth of Pennsylvania.

EFFORTS TO ASSIST THE HOMELESS AND HUNGRY

HON. TOM LANTOS OF CALIFORNIA IN THE HOUSE OF REPRESENTATIVES Thursday, July 12, 2001

Mr. LANTOS. Mr. Speaker, on June 1st, at the annual awards ceremony of the St. Albans School, 17 year old James Fisher was recognized and honored for his innovative project to feed the homeless of Washington, D.C. I am pleased to share his story, with the hopes that his example might inspire other teenagers throughout the nation.

Homelessness is one of America's most complicated and important social issues. In an effort to combat this complex problem, Congress continues to appropriate funds each year to the Stewart B. McKinney Homeless Act which provides funds to the Department of Housing and Urban Development to administer programs which assist homeless children and adults. In addition, there are also countless acts of compassion each day among private citizens in their communities to help stem hopelessness and hunger among our homeless population. James Fisher's is but one story among thousands in which Americans across the nation are working to help the homeless.

After noticing that the breakfast period at a neighborhood McDonald's was the slowest period of the day for sales one morning, James Fisher approached the owner, Mrs. Neva Van Valkenburg, with an idea. Mr. Fisher proposed arranging for students at St. Albans School and its sister school, the National Cathedral School, to have breakfast at the McDonald's every day for one week. In return for this increased business, Mr. Fisher asked for 15% of each morning's sales, in the form of a food credit, to be set aside for low-income and homeless children. This credit would then be used to purchase meals provided by Martha's Table in the District of Columbia. Mrs. Van Valkenburg agreed with James' idea and the program became a stellar success. James Fisher's arrangement with Mrs. Van Valkenburg provided for 250 additional meals.
for the homeless children who are fed at Martha's Table. Mr. Speaker, I commend James, Van Wanzeele and the students who participate at the program to help homeless children in their community.

Mr. Speaker, I would also like to recognize the many organizations and individuals in my own Congressional district who assist the homeless and the hungry. These services range from mental and physical health programs, help desks, meals and shelter, job training programs, health care, transitional housing and residential rehabilitation. These organizations are fighting the battle against homelessness and hunger everyday. Some of the organizations I would like to recognize for their work include the Daly City Community Services Center, the North Peninsula Dining Center in Daly City, the Grace Covenant Church in South San Francisco, the South San Francisco Food Pantry in South San Francisco, the Transgender Community Center of New York City, the North Peninsula Neighborhood High Services Center in South San Francisco, the St. Vincent de Paul Society Cafe, the St. Vincent Homeless Help Desk in South San Francisco, the San Mateo Pacifica Resource Center, CALL -Primrose Center in Burlingame, the Samaritan Family Kitchen in San Mateo, and many, many others.

All of these groups help to provide necessary services for the homeless of San Francisco and San Mateo Counties and I would like to pay tribute to the individuals who work and volunteer their time to help the homeless and the hungry in my community. Mr. Speaker, James Fisher's experience and the efforts of many other organizations, including those on the Peninsula and in the City of San Francisco, should serve as an example to all of us on how each one of us can help our communities work to alleviate hunger and homelessness.

IN HONOR OF THE REOPENING OF THE LESBIAN, GAY, BISEXUAL AND TRANSGENDER COMMUNITY CENTER OF NEW YORK

HON. CAROLYN B. MALONEY OF NEW YORK IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mrs. MALONEY of New York. Mr. Speaker, today the Lesbian, Gay, Bisexual and Transgender Community Center of New York will reopen after a two-year renovation. The Center is housed in a historic former high school in Greenwich Village. The Food and Maritime Trades High School was built in 1844 and became the spiritual home of the Gay and Lesbian community of New York in 1983.

Since its founding, the Center has served as a meeting place for those committed to improving the lives and assuring the rights of those who suffer because of their actual or perceived sexual orientation. The Center is an inclusive organization that recently changed its name to demonstrate a commitment to serving the Bisexual and Transgender community.

Newcomers to New York have always joined together in fraternal and social groups. Just as some organizations help immigrants adjust to life in the City, so too, the Center helps newcomers from the gay community as they adjust to a new life in New York. Quarterly orientations and regular support groups for young people are some of the Center's most important programs.

The Center is the “heart” of the Gay, Lesbian, Bisexual, and Transgender community in New York City. Each week, more than 5,000 people visit the center to take advantage of the numerous services and programs it offers. It has also become a social center for many people in the community. The monthly schedule at the Center includes more than 100 political and social groups. The AA program alone provides counseling and support for several hundred people in recovery. The Center Library is a valuable resource for both the gay and straight community.

The Center’s real contributions can be seen in the lives of those who have been transformed by the Center. The HIV positive patient who is strengthened through the AIDS support group, the counseled teen who is empowered to stand up to taunts, and the participant in a 12-step program who can face the future with friends from the Center, have all improved their quality of life through Center programs.

I am honored to pay tribute to the many people who work so hard at the Lesbian, Gay, Bisexual, and Transgender Community Center of New York. The reopening of the Center is indeed a cause for celebration.

CITIZENSHIP IMPORTANT

HON. DOUG BERENSTEIN OF NEBRASKA IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mr. BERENSTEIN. Mr. Speaker, this Member wishes to commend to his colleagues the July 4, 2001, editorial from the Omaha World-Herald. The editorial is particularly timely in light of exactly 225 years after America’s forefathers declared independence from England. At that time, no one could have envisioned how the ideals expressed in the Declaration of Independence would continue to attract immigrants from around the world.

Mr. Speaker, immigrants who legally traverse the U.S. immigration system should be highly lauded. Indeed, they have made incredible sacrifices to attain freedom and the chance to pursue their dreams. Therefore, it is incumbent upon this body to continue to support legal immigration and the efforts of immigrants to become U.S. citizens for only through citizenship can immigrants, who contribute so much to other aspects of American society, fully participate in our unique political process.

[From the Omaha World-Herald, July 4, 2001]

AMERICANS ALL

We hold these Truths to be self-evident, that all Men are created equal, that they are endowed by their Creator with certain unalienable Rights that among these are Life, Liberty, and the Pursuit of Happiness.—Declaration of Independence

As Midlanders celebrate the 225th anniversary of America’s decision to end its status as a collection of colonies, it is instructive and heartening to note that this region is in a real sense a showcase for the degree to which the Declaration remains a living document.

Nebraska and Iowa in particular are increasingly a focus not just of immigration but of immigrants who take the important and self-affirming step of becoming U.S. citizens. Those who are becoming themselves in the old, yet ever young, quest for life, liberty and the pursuit of happiness, which were often not available in their native lands.

The numbers are not yet huge, but the math involved is impressive. Naturalization is mostly of people who have lived in America, but also from Lithuania and Asia and points all over—have grown impressively in the last decade. Many come for jobs, often in this region’s meatpacking plants.

But it is noteworthy that increasingly they are coming here, rather than to more traditional venues like California, Texas and the East Coast. Many believe that economic prospects are brighter in this part of the country, and for the most part they find easy acceptance. Last year, 4,245 people became U.S. citizens in Iowa alone. That is more than triple the number that with the figure of 997 as recently as 1992—almost a fourfold increase. (This Friday, at least 230 new citizens will be sworn at Lexington, Neb.)

He has endeavored to prevent the Population of these States; for that Purpose obliterating the Laws for naturalization of Foreigners; refusing to pass others to encourage their Migrations hither. . . .

It is worth remembering that one of the complaints the authors of the Declaration fielded against England’s King George III was that his policies sharply restricted immigration. George correctly saw burgeoning population as a threat to his hold on the colonies. And while he could do nothing about population growth in America due to the natural margin of births over deaths, he could and did try to strangle further influx.

Today, although immigration and naturalization still present some roadblocks, the picture is much brighter. Among those who want to plant their futures here, for the most part they are better off than they were in their native lands. They then have more of a stake, more of a say. And, to their credit, the process requires work. It’s not like signing up for a supermarket discount card or acquiring a driver’s license.

The procedure usually takes about a year. There’s a standard $250 processing fee, and along the way there’s an FBI background check, an interview and a civics test. So it’s not easy, but at least it’s achievable and the process is regularized and fair. Completing it is, and ought to be, a source of pride.

Nor have we been wanting in Attentions to our British Brethren. . . . We have reminded them of the Circumstances of our Emigration and Settlement here.

As has been often noted, this is a nation of immigrants. In the Midlands, that immigration has to a great degree meant Germans and Irish, and in lesser numbers Poles, English, Scandinavians, Czechs and the descendants of freed slaves. Today, Latinos and, to a lesser degrees, those of Asian origin are changing the face of society here—figuratively and literally.

It is, we believe, incumbent on those who got here first to extend a welcome to those who are making their own trip and taking up citizenship as the 20th century fades into the 21st. For the most part, this is happening seamlessly. For the most part, this is happening because the fruits of assimilation are being assimilated and recognized for their strengths. To be candid, Iowa and Nebraska
would have difficulty sustaining population growth without them. The process feeds on itself. Newcomers who become citizens (or legal residents) are in turn entitled to serve as sponsors for relatives' applications. And so it goes. The faces change somewhat. The goals and dreams do not.

Nearly everyone who comes here and becomes a part of the American matrix is seeking essentially the same things the Founders were talking about 225 years ago. Americans are all in this together. They draw strength for new blood, new ideas. That's the indispensible past, and it is the inevitable future.

IN MEMORY OF STANLEY KRAMER

HON. DENNIS J. KUCINICH
OF OHIO
IN THE HOUSE OF REPRESENTATIVES
Thursday, July 12, 2001

Mr. KUCINICH. Mr. Speaker, I rise today to honor the memory of an exceptional film maker, Stanley Kramer.

During his lifetime, Stanley Kramer produced dozens of films. They included such classics as Guess Who’s Coming to Dinner, Judgment at Nuremberg and Inherit the Wind.

Stanley Earl Kramer was born and raised in New York City’s Hell’s Kitchen neighborhood, where he later attended New York University. Before he left for the military service in World War II, he established himself in the movie industry as a researcher, editor and writer. His first film, So This Is New York, was released in 1948.

Working in the 1950s and 60s, Kramer stood for things in which he believed and intertwined them into his works. For example, he highlighted issues such as race in Guess Who’s Coming to Dinner and The Defiant Ones, Nazi war crimes in Judgment at Nuremberg, fundamentalism vs. modern science in Inherit the Wind and nuclear holocaust in On the Beach. He also depicted his courageous demeanor in his films, not even realizing it, by creating characters who fought against fear while others stayed behind.

Even though Kramer was known as a “message director”, his friends and beloved ones knew him as much more. Steven Spielberg once said that Kramer was one of the greatest film makers due to the impact he made on the ethical world, and not solely based on the art and passion he conveyed on screen.

Eighty of his films were nominated for Oscars, 16 of them which won and six were nominated for Best Picture. Three of his finest films made the American Film Institute’s list of 100 Best Movies of All Time. Kramer himself was nominated as Best Director three times, and in 1962, he was presented the prestigious Irving B. Thalberg Memorial Award for Outstanding Work. He also received the Producers Guild of America’s David O. Selznick Life Achievement Award.

My fellow colleagues, please join me in honoring the memory of Stanley Kramer for all of his achievements in the movie industry. His love and dedication in portraying significant films has touched the hearts of all.

EXTENSIONS OF REMARKS

DISTRIBUTED POWER HYBRID ENERGY ACT

HON. MARK UDALL
OF COLORADO
IN THE HOUSE OF REPRESENTATIVES
Thursday, July 12, 2001

Mr. UDALL of Colorado. Mr. Speaker, today I am introducing the Distributed Power Hybrid Energy Act. This bill would direct the Secretary of Energy to develop and implement a strategy for research, development, demonstration, and commercial application of distributed power hybrid energy systems.

Distributed power is modular electric generation or storage located close to the point of use, well suited for the use of renewable energy technologies such as wind turbines and photovoltaics, and also of clean, efficient, fossil-fuel technologies such as gas turbines and fuel cells.

Distributed power avoids the need for and cost of additional transmission lines and pipelines, reduces associated delivery losses, and increases energy efficiency. In addition, distributed power can provide insurance against energy disruptions and expand the available energy service choices for consumers.

By their very nature, renewable resources are distributed. Our ability to cost-effectively take advantage of our renewable, indigenous resources can be greatly advanced through systems that minimize the intermittency of these resources. Distributed power hybrid systems can help accomplish this.

“Hybridizing” distributed power systems—combining two renewable sources or a renewable and a fossil source—enables us to offset the weaknesses of one technology with the strengths of another. For example, in a hybrid system, the intermittency of wind power can be offset by the reliability and affordability of power generated by a microturbine.

My bill would direct the Secretary of Energy to develop a distributed power hybrid systems strategy identifying the Distributed Power Hybrid Systems that can help accomplish this.

IN RECOGNITION OF DR. JESUS CARREON

HON. GRACE F. NAPOLITANO
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Thursday, July 12, 2001

Mrs. NAPOLITANO. Mr. Speaker, I rise today to recognize Dr. Jesus Carreon for his unfailing leadership and his dedication to the Southern California community. Dr. Jesus “Jess” Carreon, current President of Rio Hondo College, will be leaving the district to assume a new position as President of Portland Community College in Portland, Oregon.

Dr. Carreon has been an active contributor to the Southern California community over quite some time. After spending his childhood in the San Diego area, he pursued his Bachelor’s Degree from the University of San Diego. He later earned his Master’s of Science Degree from the University of California, Irvine, and his Doctorate in Education from the University of Southern California.

After completing his own education, Dr. Carreon immediately became a teacher. Since then, he has been involved in the educational process at nearly every level. He served as Assistant Dean of Instruction at Laney College in Oakland and as Assistant Dean of Vocational Education at San Bernardino Valley College. Dr. Carreon later served as Vice President of Instruction at El Centro Community College and, most recently, as President of Ventura College.

Jess has made immense strides during his tenure as President of Rio Hondo Community College. In addition to greatly improving the school’s image, Dr. Carreon has worked tirelessly to increase Rio Hondo’s involvement in the community. Under his leadership, members of the school’s management team were awarded seats on Chambers of Commerce in each of Rio Hondo’s sending districts. In addition, Dr. Carreon pioneered the creation of the school’s first satellite campuses in the towns of El Monte and Santa Fe Springs.

Still, Dr. Carreon’s involvement reaches far beyond the classroom. When not teaching, he serves on local community boards and acts as an advocate for economic development. He sits on the Board of Directors for both the American Association of Community Colleges and the Presbyterian Intercommunity Hospital. Dr. Carreon is an active member of Whittier and San Gabriel economic councils and, in 1999, was named President of the National Community College Hispanic Council.

Dr. Carreon’s expansive knowledge and considerable expertise have made him a popular speaker at the regional, state and national levels. He lectures frequently on a host of topics, including economic development, workforce preparation, and leadership.

Dr. Carreon has devoted his life to improving education throughout Southern California and the 34th Congressional District. He is a model citizen, active throughout the community. I want to personally congratulate Jess for all his contributions and wish him success in his new position.

IN STRONG SUPPORT OF THE FISCAL YEAR 2002 AGRICULTURE APPROPRIATIONS LEGISLATION

HON. KEN BENTSEN
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Thursday, July 12, 2001

Mr. BENTSEN. Mr. Speaker, I rise to express my strong support for the Fiscal Year
September 30, 2002, and for other purposes.

The House in Committee of the Whole

Mr. UDALL of Colorado, Mr. Chairman, I rise in support of the Gilchrest/Olver amendment. The amendment would strike the language that was inserted in the bill to ensure that the Kyoto Protocol is not implemented prior to its ratification in the Senate.

This language has been added over the past several years ago to numerous appropriations bills. As I understand it, the reason that some were concerned that President Clinton was moving too fast to address global warming.

In conclusion, I urge my colleagues to support this legislation which provides necessary funding for agriculture and nutrition research programs.

Mr. HALL of Ohio. Mr. Speaker, I rise to commend Ben Affleck, who came to town yesterday to host a fund-raiser on behalf of the A-T Children's Project. A-T (Ataxia-Telangiectasia) is a genetic disease that attacks children. How Ben became involved is noteworthy.

Ben met Joe Kindregan, then 10, three years ago while Ben was filming a segment of his hit film, Forces of Nature, at Dulles Airport. Joe had just started using his power wheelchair and was given the opportunity to meet Ben on the set during filming. Ben and Joe immediately hit it off and their friendship has grown since then. Ben and Joe meet occasionally and keep in touch by e-mail. Recently, Ben invited Joe and his family to the premiere of his new movie Pearl Harbor, at Honolulu. Over the last few years, Ben has been able to witness first-hand the toll A-T has taken on Joe, and Joe's increasing dependence on his family, just to get through the day. Ben's devotion to Joe—and the Kindregan family's work with the A-T Children's Project and families—has made a tremendous difference in their lives and has given them additional hope that, with the help of people like Ben, a cure is possible.

Ben is a gifted young actor, popular, and hailing from right across the board. He's was a child star in his hit film, Forces of Nature, at Dulles Airport. Joe had just started using his power wheelchair and was given the opportunity to meet Ben on the set during filming. Ben and Joe immediately hit it off and their friendship has grown since then. Ben and Joe meet occasionally and keep in touch by e-mail. Recently, Ben invited Joe and his family to the premiere of his new movie Pearl Harbor, at Honolulu. Over the last few years, Ben has been able to witness first-hand the toll A-T has taken on Joe, and Joe's increasing dependence on his family, just to get through the day. Ben's devotion to Joe—and the Kindregan family's work with the A-T Children's Project and families—has made a tremendous difference in their lives and has given them additional hope that, with the help of people like Ben, a cure is possible.

Ben has taken the time to learn about the disease and the various research projects that are focusing on finding a cure. He appeared before the Senate yesterday as a companionate and informed witness to talk about this dreadful disease, and the remarkable progress this small foundation has made in so short a period of time in its search for a cure. He requested that Congress provide increased funding to NIH for A-T research. He also joined many Members of Congress and friends last night to do push-ups and shoot hoops at an event to raise money and awareness about A-T.

I believe that Ben Affleck is an exceptional person. In his work with A-T, he has demonstrated a deep compassion and interest in his fellow man, which is particularly notable when coming from someone in the midst of achieving enormous fame and fortune. Ben has been a true hero to the A-T kids, and I extend my personal thanks to him.

Mr. KUCINICH of Ohio. Mr. Speaker, I rise today to recognize Mr. Carroll O'Connor, a truly remarkable man, who has influenced the lives of many people throughout his acting career, most notably known for his character of Archie Bunker in "All in the Family." Mr. O'Connor was very enthusiastic about "All in the Family" which began in 1971 and lasted eight seasons. Mr. O'Connor portrayed a cranky, ignorant, and even caustic man whose wholesomeness and honesty won over the sympathy of audiences. He stated about the show, "Right from the start I knew I had the idea of this show. It was frank and refreshing, a lot more true to life than anything on the air. Everybody was talking about creating shows that were relevant, but nobody wanted to touch the real thing."

As the television show grew, Mr. O'Connor's popularity soared to unbelievable heights. He was not just the character that he was famous for, but he was a lovable man who truly cared for all. The show's other cast members spoke of the cast as a family. After the death of his son he spent a significant amount of his time working against drug abuse. Mr. O'Connor was dedicated to the cause and traveled the country promoting laws in the state legislatures that would allow victims of drug abuse to sue drug dealers for monetary damages.

Let us honor the memory of Carroll O'Connor for his remarkable contributions to the people through his life of service, most notably playing the role of "Archie Bunker."
It's important to note that the Inspector General of the EPA, the Department of Energy, and the Department of State all agreed that the Clinton Administration was not trying to prematurely implement the Kyoto Protocol.

But that's all beside the point now.

We have a new President who has made it clear that he intends to do nothing about global warming, except study it. He has pronounced the Kyoto Protocol fundamentally flawed and "dead," and he has reversed his campaign promise to regulate carbon dioxide.

As it stands, this bill seems to say we still need to restrain any federal efforts to address global warming. But if there is ever a time NOT to send cautionary messages about acting too fast to address global warming, it's now. The danger we face today is in fact far too slowly.

Last year, efforts on the floor to amend the Kyoto language were successful. I urge my colleagues to send the same good message that we sent last year—this anti-Kyoto language wasn't necessary in past years, and it's not necessary now. There is now a scientific consensus that global warming is real, and it is time for Congress to confront it.

IN RECOGNITION OF MR. HOWARD L. HOGAN

HON. GRACE F. NAPOLITANO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mrs. NAPOLITANO. Mr. Speaker, I rise today to pay tribute to an extraordinary man, Mr. Howard L. Hogan, who is retiring after 36 years of dedicated service to the El Rancho Unified School District.

A native of California's 34th Congressional District, Mr. Hogan was born and raised in the town of Whittier. After graduating from Whittier High School in 1958, Howard attended California State University at Long Beach, where he received his Bachelor of the Arts Degree in 1962.

Upon completing his undergraduate education, Mr. Hogan immediately began his teaching career. He taught one year with the Santa Ana School District before serving his country in the United States Army. After his service, Howard rejoined the workforce as a teacher with the El Rancho Unified School District in 1965.

Since that day, over 36 years ago, Mr. Hogan has involved himself in all levels of the educational process. He has been a teacher of the industrial arts, a high school dean, a high school counselor, and an assistant principal. In 1986, he became Principal of the El Rancho Adult School, a position he has held ever since. In the last 15 years, he has brought significant change to the District, working constantly to elicit excellence from students.

Throughout the years, Howard has been a fervent advocate of adult study, emphasizing the importance of life-long education. As Principal of the El Rancho Adult School, he supported and directed the creation of a new site for the program. This school, designed to serve the needs of Southern California's adult community, is something that Mr. Hogan and the entire neighborhood take great pride in. After 36 years of unwavering service, Howard's retirement is greatly deserved. He plans to devote his retirement to personal business matters, volunteer activities, and, most importantly, his wife, Jo Anne.

Howard Hogan is an ideal citizen who has shown enthusiasm and commitment to the students of El Rancho Unified School District. In his 36 years as a teacher, he has made limited contributions to both faculty and students alike. I know my colleagues will join me in congratulating Howard for all his accomplishments and wishing him the best of luck in his retirement.

HON. HILDA L. SOLIS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Ms. SOLIS. Mr. Speaker, I rise today to recognize Ysabel "Mac" Arredondo Ortiz, who proudly served his country in Korea. Although he was listed as Missing In Action on Dec. 2, 1950, his family never gave up hope that he would return home. In January of 1954 his Concha, received notice that Corporal Ysabel A. Ortiz had been awarded the Purple Heart Award posthumously for making the supreme sacrifice for his country.

Cpl. Ysabel was born and raised in the 31st Congressional District city of El Monte, California. He was a third generation El Montean. His grandfather, Longino Ortiz, came to America in 1915 to look for a better life for his family and escape the troubles of the Mexican Revolution. He arrived in El Monte and sent for the rest of the family from Leon, Guanajuato, Mexico.

Cpl. Ysabel A. Ortiz, or Mac as his friends and family knew him, attended school in El Monte at a time when Mexican-American children were segregated from white school children. Mac attended school up to grade 5 at Lexington School and then Columbia school from grade 6 through 8. He attended El Monte High School and then enlisted in the U.S. Army at age 18.

Mac's service to his country has not gone unrecognized. His name appears on a bronze plaque honoring our nation's war dead at the El Monte Historical Museum. Mac's photo also hangs in the La Historia Society Museum/ Museo de Los Barrios Veterans Exhibit, which is also in El Monte. To this day, Cpl. Ysabel "Mac" A. Ortiz's Purple Heart is proudly displayed by his sister Chata.

Mac Ortiz was survived by his mother, Concha Ortiz (now deceased); his father, Ysabel M. Ortiz, Sr. of West Covina, CA; his brothers Harold Ortiz (now deceased) and Jose Lucio Ortiz, of Oklahoma; his sisters Esmeralda "Chata" Ortiz Ureno of Covina and Jennie Sanchez of Whittier; his step-brothers Manuel Ortiz of El Monte and Rudy Ortiz of Bakersfield; and his step-sisters Rose Soto of West Covina and Ana Sanchez of Arcadia.

Mac Ortiz's loving memory lives in the hearts of Chata and the entire Ortiz family. I ask my colleagues to join me in recognizing Mac Ortiz's contributions to our great nation.

THE KIDNAPPING OF THREE ISRAELI SOLDIERS

HON. MARK STEVEN KIRK

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mr. KIRK. Mr. Speaker, on October 7th of last year Hezbollah terrorists crossed the Israel-Lebanon border and perpetrated the cowardly kidnapping of three Israeli soldiers. In the last nine months Hezbollah has repeatedly refused to provide any information on the fate of these young men, leaving their families and friends in a state of torturous limbo.

Last week it was revealed that the United Nations is in possession of a video tape that was made of the scene of this crime the day it occurred. The Israeli government investigators believe that this tape may contain material evidence that will help them identify the terrorists who committed this act.

U.N. peacekeepers should be expected to keep the peace. This includes assisting in the apprehension of those who violate international borders to commit war crimes.

I have introduced a House Resolution that calls for the United Nations to immediately provide Israeli investigators with an unedited copy of the crime scene video tape and any other material evidence that would help bring these terrorists to justice and to end this nightmare for the families of Adi Avitan, Binyamin Avraham, and Omar Souad.

I urge my colleagues to join me to show our strong support for the rule of law, for the sovereignty of our ally Israel, and for these men held in captivity by terrorists.

RECOGNIZING MR. PAUL MARKLOFF

HON. JAMES C. GREENWOOD

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mr. GREENWOOD. Mr. Speaker, I rise today to recognize Mr. Paul Markloff, whose honesty and character have made him a hero to an elderly woman in the wake of Hurricane Allison. Mr. Markloff is a nineteen-year employee of Nationwide Insurance and a resident of Sellersville, Pennsylvania. On June 19 he was assigned to the case of a woman whose apartment had been flooded and then burned when the water caused a natural gas explosion in the building. She had no family to help her recover from the damage. Her apartment was devastated by the fire and she told Mr. Markloff that she had lost everything. She mentioned that she had $8,000 in cash inside her apartment. When Mr. Markloff and a maintenance worker went in and searched the charred furniture, they found a total of $420,000 cash in a dresser. Despite the fact that the woman had not mentioned this much money—she said, in fact, that she didn't even know she had that much—Mr. Markloff gathered the money together and drove her immediately to her bank. He made sure that all the money—
cash was carefully deposited in a special account and then took her to dinner and found her a room to rent for the night.

Mr. Markloff’s actions in assisting this woman in a time of crisis would have been commendable even had they not also included such an impressive display of honesty. Had he only helped her find housing, he would have earned our praise. By returning her savings, about which she herself was unaware, he has shown himself to be a man of high moral and ethical standards. It is always inspiring to know that there are people like Mr. Markloff, who are generous enough to do the right thing without thought of personal gain. Mr. Markloff told a local newspaper that he didn’t expect any reward for his actions because he was “just doing his Job.” Perhaps he was not rewarded monetarily, but he certainly deserves our recognition and thanks. His actions remind us how much good is in all of us and I am honored to pay tribute to him today.

IN HONOR OF ST. JOHN WEST SHORE HOSPITAL

HON. DENNIS J. KUCINICH
OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mr. KUCINICH. Mr. Speaker, I rise today to honor St. John West Shore Hospital in commemoration of its 20th anniversary. Since its establishment in 1981, the hospital has been faithfully serving the needs of western Cuyahoga and eastern Lorain county residents.

Since its induction as a fledgling medical facility on March 1, 1981, St. John West Shore Hospital has subsequently expanded and broadened its services, making it a bastion of service and charity for the Westlake community. The hospital’s initial years were filled with uncertainty, but its current success renders the institution an emblem of triumph and progress for us all to admire. The Westlake community welcomed and supported the hospital since its induction as a medical facility, forging the reciprocal relationship that has been so integral to the hospital’s survival and growth. A testament to this mutual support and rapport was the monumental opening of Medical Buildings 2 and 3.

In 1989, the Sisters of Charity of St. Augustine became the sole sponsors of the hospital, setting the framework for the hospital’s establishment as an institution dedicated to the well-being of the community. However, the hospital does not qualify it services to solely the physical needs of the Westlake residents, but also nurtures their spiritual needs as witnessed by its induction of the annual Festival of the Arts in 1992. In line with its commitment to serving the public, the facility pays arduous attention to the needs of each individual. To expedite the fulfillment of each patient’s particular and unique needs, the hospital became part of a not-for-profit juncture in 1999, under the auspices of University Hospitals Health System and the Sisters of Charity of St. Augustine Health System. This joint effort further compounded the hospitals’ steadfast dedication and mission as a health care advocate at the service of its people.

I laud St. John West Shore Hospital on its 20th anniversary in sincere awe and reverence for its magnanimous and unrelenting efforts in the service of the residents of Westlake.

HONORING ROBERT F. PAULTHORPE

HON. DALE E. KILDEE
OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mr. KILDEE. Mr. Speaker, it is a great honor to rise before you today to recognize the accomplishments of Chief Navy Journalist Robert F. Paulthorpe, who will be retiring September 28, after 20 years of loyal service to our country.

Born in Swartz Creek, Michigan in 1963, Robert Paulthorpe graduated from Swartz Creek High School, where he served as editor of the student newspaper, after founding a community newspaper at the age of 15. He joined the United States Navy in August 1981, and after graduation from basic training, reported to Naval Technical Training Center in Meridian, MS, where he graduated in the top 10 percent of his class, qualifying him for accelerated advancement to Petty Officer-Third Class. After a stint on the USS Saratoga, Chief Paulthorpe attended the Defense Information School at Fort Benjamin Harrison, and returned to the Saratoga as Petty Officer—Second Class. During this time, Chief Paulthorpe coordinated international media response to the American bombing of Libya after the Achille Lauro ocean liner hijacking.

Chief Paulthorpe went on to serve as Public Affairs Officer and Department Head for the Navy second largest recruiting district in Chicago. His success there resulted in two nominations as Sailor of the Year and three selections as Support Person of the Quarter. While in Chicago, Chief Paulthorpe reenrolled in the Defense Information School, where he became Commanding Officer of his class, and he was advanced to Journalist-First Class.

After completing a tour on the USS Forrestal, Chief Paulthorpe next assignment was as Assistant Public Affairs Officer and Assistant Department Head of the Navy’s Blue Angels. He oversaw the public affairs mission requirements for over 120 air shows and many other special projects during the team’s 50th Anniversary. He was nominated as Blue Angel of the Year, and selected as Blue Angel of the Quarter for his efforts.

In October 1996, Chief Paulthorpe reported to his current post, Strategic Communications Wing One as Assistant Public Affairs Officer and Administrative Department Leading Chief Petty Officer. In May 1999, he coordinated national media response in the wake of one of Oklahoma’s most powerful and destructive tornadoes.

Chief Paulthorpe has been recognized many times for his service. He has received three Navy Commendation Medals, three Navy Achievement Medals, and four Good Conduct Medals, among many other awards. In addition, he has always strived to be an important figure in his community. He has been an active member of the Boy Scouts, the Sea Cadet Corps, was editor of Chicago’s American Red Cross newspaper, was adviser and newspaper editor for the Oklahoma State Chapter to Prevent Child Abuse.

Mr. Speaker, as the father of two sons who have served in our nation’s military, I know very well that it takes a special person to serve our country in the service of the military. The City of Fayetteville is indeed privileged to honor Mr. Paulthorpe’s dedication and commitment to justice, and I ask my colleagues to please join me in congratulating him on his retirement.

TRIBUTE TO THE CITY OF FAYETTEVILLE

HON. MIKE McINTYRE
OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mr. McIntyre. Mr. Speaker, it is with great pleasure that I rise today to congratulate the City of Fayetteville on its recent selection as an All-America City for 2001. This is quite an honor, and indeed one that is well-deserved.

In particular, I would like to pay special tribute to those individuals who served on the Fayetteville All-America City Award Committee for their tremendous efforts to bring due recognition to this fine city located in the Seventh Congressional District of North Carolina.

Under this committee’s exemplary leadership, Fayetteville has been recognized as a model for all cities across the nation to emulate. By encouraging community-wide involvement to help address and solve local issues, the residents of Fayetteville have shown that they truly have what it takes to be All-America citizens.

They are to be commended for their efforts to implement three innovative programs known as Operation Inasmuch, MetroVisions, and Study Circles. By fostering an atmosphere of commitment, cooperation, and community, these programs have served to make Fayetteville an even better place to call home.

The City of Fayetteville is also privileged to have such dedicated citizens working tirelessly to promote all that this community has to offer. With hard work and dedication, the residents of Fayetteville have what it takes to make a real difference. I am confident that whatever challenges Fayetteville may face—now or in the future—the citizens of this fine city will overcome them and go forward with inspiration, imagination, and innovation.

My fellow colleagues, please join me in saluting Fayetteville for this distinguished honor of being named an All-America City for 2001.

TRIBUTE TO HEINZ PRECHTER

HON. SANDER M. LEVIN
 OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mr. LEVIN. Mr. Speaker, I rise to pay tribute to a remarkable citizen of Michigan, of our nation, indeed of the world, Heinz Prechter.

Like so many, many others, I was deeply saddened and shocked at his death on July 6.
1 did not know Heinz Prechter well enough to know about his inner self. I did not know that he had been fighting the illness of depression for many years. I did know him well enough to have seen firsthand his immense vitality, his grit, his supreme intelligence and his unique curiosity.

It was only a few weeks ago that he dropped by the office in D.C. for a chat. He was very tanned, I thought perhaps from playing golf with one or more of the endless luminaries with whom his life was intertwined. But our discussion was very down to earth, which was the hallmark of Heinz Prechter.

The day before he had been elected the new Chairman of the U.S. Automotive Parts Advisory Committee. He had agreed to take this post, even though he knew that he had already crowded his schedule with a wide variety of other endeavors such as the Global Automotive Institute, work on the board of the Henry Ford Museum and Greenfield Village, various projects in the Downriver communities, all in addition, of course, to his day to day business dealings. With enthusiasm he discussed how he intended to pick up the pace on efforts to win for American businesses and workers more equal access to the markets of other nations. On this subject, as was true for so many others in his life, there was no barrier because he was an active Republican talking with a Democratic member of Congress. For him, life was a web of different pursuits with changing alliances. He felt that he had the best chance to get things moving again, using his impeccable credentials in the automotive world and his relationships within the political party to which he was dedicated.

When he was leaving, we put our arms around each other's shoulders; the last thought in my mind at the time was that I would never see again that ball of fire, that bundle of energy.

His life is an example for all—his dedication to human endeavors and relationships.

May his death serve not only for us to remember him well, as he so richly deserves, but also to tackle with the kind of energy he possessed the illness, depression, that cost him his life and cost us an invaluable citizen and friend. My condolences reach out to the entire Prechter family.

EXTENSIONS OF REMARKS

HONORING DR. OLIVE JACK FOR HER EXTRAORDINARY SERVICE TO THE NAPA COMMUNITY

HON. MIKE THOMPSON
OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 12, 2001

Mr. THOMPSON of California. Mr. Speaker, I rise today to recognize Dr. Olive Jack's tremendous commitment to the health and well being of the citizens of the Napa community.

Dr. Jack has served admirably in many health care roles and has been a tremendous success in every one.

We can all look to Dr. Jack as a true role model for serving the public selflessly and tirelessly. Currently, Dr. Jack is serving on the Napa County Commission on Aging, the Napa-Solano Area Agency on Aging, and is membership chair of the Napa Association of Retarded Citizens Board. She is also a member of the Board and Executive Committee of ALDEA, an agency that operates residential treatment programs for disturbed teenagers.

Dr. Jack began her long career in public service in the Napa area when she started as the School Physician for Napa County Superintendent of Schools and as a consultant to Napa County Health Department, in charge of Child Health Conferences. Following her success working with the school district, Dr. Jack served five years as Director of Health Services for the County of Napa.

Previous to her career in public service, Dr. Jack served her internship and residency at the Children's Hospital in San Francisco. Following this, she practiced pediatric medicine privately in Napa as a Licentiate of the American Board of Pediatrics.

The California Medical Association, the Napa County Medical Society, and the Northern California chapter of Academy of Pediatrics are all privileged to have Dr. Jack a professional member. She holds a Bachelor of Science degree from University of Nebraska, Lincoln, a Master of Public Health from University of California, Berkeley, and has her M.D. from Temple University School of Medicine.

Mr. Speaker, it is a pleasure to honor Dr. Olive Jack on the occasion of the Napa-Solano Area Agency on Aging's tribute to her outstanding career of public service. Please join me in recognizing Dr. Jack's unparalleled work towards improving the health care of the citizens of Napa.
The House met at 2 p.m. and was called to order by the Speaker pro tempore (Mr. Miller of Florida).

DESIGNATION OF THE SPEAKER PRO TEMPORE
The SPEAKER pro tempore laid before the House the following communication from the Speaker:
WASHINGTON, DC.
I hereby appoint the Honorable Dan Miller to act as Speaker pro tempore on this day.
J. Dennis Hastert,
Speaker of the House of Representatives.

PRAYER
The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

Praise the Lord, as servants of the Lord, let us praise the name of the Lord together.
From the rising of the Sun in the east to its setting in the west may praise of the Lord be heard from coast to coast. Our God, who is above all the nations of the Earth does not overlook the most lowly or the most unfortunate in this world.
The Lord’s greatness does not distance the Lord from His people. Our God is to be found always in their midst.
None is like the Lord in love and concern. That is why the Lord is the model and the guide of the Members of this House and all public servants everywhere.
The Lord lifts up the weak to confront the proud-hearted and raises the poor to equal status with the powerful.
The Lord is mindful always that parents are the most powerful on Earth over their children, yet all are one in His sight.
For all the great deeds of mercy, let us praise the name of the Lord now and forever. Amen.

THE JOURNAL
The SPEAKER pro tempore. The Chair has examined the Journal of the House for the day.

PLEDGE OF ALLEGIANCE
The SPEAKER pro tempore led the Pledge of Allegiance as follows:
I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

MESSAGE FROM THE SENATE
A message from the Senate by Mr. Monahan, one of its clerks, announced that the Senate has passed with an amendment in which the concurrence of the House is requested, a bill of the House of the following title:
H.R. 2217. An act making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 2002, and for other purposes.
The message also announced that the Senate insists upon its amendment to the bill (H.R. 2217) “An Act making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 2002, and for other purposes” requests a conference with the House on the disagreeing votes of the two Houses thereon, and appoints Mr. Byrd, Mr. Leahy, Mr. Hollings, Mr. Reid, Mr. Dorgan, Mrs. Feinstein, Mrs. Murray, Mr. Inouye, Mr. Burns, Mr. Stevens, Mr. Cochran, Mr. Domenici, Mr. Bennett, Mr. Gregg, and Mr. Campbell to be the conferees on the part of the Senate.

ANNOUNCEMENT OF OFFICIAL OBJECTORS FOR THE PRIVATE CALENDAR FOR THE 107TH CONGRESS
The SPEAKER pro tempore. On behalf of the majority and minority leadership, the Chair announces that the official objectors for the Private Calendar for the 107th Congress are as follows:
For the majority:
Mr. Coble, North Carolina;
Mr. Barr, Georgia;
Mr. Chabot, Ohio.
For the minority:
Mr. Boucher, Virginia;
Ms. DeLauro, Connecticut.

RECESS
The SPEAKER pro tempore. Pursuant to clause 12, rule I, the House will stand in recess subject to the call of the Chair.
Accordingly (at 2 o’clock and 5 minutes p.m.) the House stood in recess subject to the call of the Chair.

□ 1906

AFTER RECESS
The recess having expired, the House was called to order by the Speaker pro tempore (Mr. Goss) at 7 o’clock and 6 minutes p.m.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 2500, DEPARTMENTS OF COMMERCE, JUSTICE, AND STATE, THE JUDICIARY, AND RELATED AGENCIES APPROPRIATIONS ACT, 2002
Mr. LINDER, from the Committee on Rules, submitted a privileged report (Rept. No. 107-141) on the resolution (H. Res. 192) providing for consideration of the bill (H.R. 2500) making appropriations for the Departments of Commerce, Justice, and State, the Judiciary, and related agencies for the fiscal year ending September 30, 2002, which was referred to the House Calendar and ordered to be printed.

ADJOURNMENT
Mr. LINDER, Mr. Speaker, I move that the House do now adjourn.
The motion was agreed to; accordingly (at 7 o’clock and 7 minutes p.m.), under its previous order, the House adjourned until tomorrow, July 17, 2001, at 9 a.m., for morning hour debates.

EXECUTIVE COMMUNICATIONS, ETC.
Under clause 8 of rule XII, executive communications were taken from the Speaker’s table and referred as follows:
2894. A letter from the Deputy Secretary of Defense, Department of Defense, transmitting the Department’s Assessment of Fiscal Year 1998 Sexual Harassment Complaints and Sexual Misconduct; to the Committee on Armed Services.
2895. By Mr. AKIN (for himself, Mr. BLAGOJEVICH, Mr. DIAZ-BALART, Mr. GONZALEZ, Mr. KUCINICH, Mrs. LOWERY, Mrs. BARTLOW, Mr. NADLER, Ms. ROS-LEHTINEN, and Ms. ROYBAL-ALLARD):

H. Con. Res. 185. Concurrent resolution expressing deep regret for the refusal of the United States to provide political asylum to the Jewish refugees aboard the S.S. ST. LOUIS in May and June of 1939; to the Committee on the Judiciary.

By Ms. KAPTUR:

H. Con. Res. 186. Concurrent resolution expressing the sense of Congress regarding the establishment of a Parents Week to recognize and support parents who actively participate in the lives of their children in space-related activities; to the Committee on Ways and Means.

By Mr. STUPAK (for himself, Mr. WELDON of Pennsylvania, Mr. HOFFMAN-114, of Texas, Mr. CAPPS, Mrs. Mccarthy of New York, Mr. HOLDEN, Mr. DOYLE, Mr. STRICKLAND, Mr. ETHERIDGE, Mr. McNULTY, Mr. WELDON of Florida, Mr. THOMAS of Texas, Mr. KING, Mr. WAMP, Mr. WYNN, Mr. LARGENT, Mr. MALONEY of Connecticut, Mr. CAPUANO, Mr. FROST, Ms. KAPTUR, Mr. PASCHELL, Mr. LUSSERT, Mr. GREENWOOD, Mr. DELAHUNT, Mr. SMITH of Washington, Mr. CROWLEY, Mr. FARRE of California, Mr. McINTYRE, Mr. HOYER, Mr. RAMSTAD, Mr. QUINN, Mrs. NAPOLEITANO, Mr. BRADY of Pennsylvania, Mr. ANDREWS, Mrs. TASCHER, Ms. HECK, Mr. BROWN of Ohio, Mr. SUNUNU, Mr. KANJORSKI, Mr. DRUTSCH, Mr. BARRETT, Mr. BALDACCI, Mr. PETRU, Mr. FILNER, Mr. BOBILITZ, Ms. ESCH, Mr. HORN, Mr. OWENS, Mr. BONIOK, Mr. OXLEY, Mr. COSTELLO, Ms. SOLIS, Mr. GONZALEZ, Mr. LANTOS, Mr. TERRY, Mr. RODRIGUEZ, Mr. CARSON of Indiana, and Ms. ROYAL-ALLARD):

H. Res. 191. A resolution requesting that the President focus appropriate attention on the issues of neighborhood crime prevention, community policing, and reduction of school crime by delivering speeches, convening meetings, and directing his Administration to make neighborhood an important priority, and for other purposes; to the Committee on the Judiciary.

By Mr. WYNN (for himself, Ms. JACKSON of Texas, Mrs. SULLIVAN of Georgia, Ms. EDDIE BERNICE JOHNSON of Texas, Mr. TOWNS, Mr. CAPUANO, Mr. CLAY, Ms. WATERS, Mr. THOMPSON of Mississippi, Mr. MEeks of New York, Mr. MckINNEY, Mr. FILNER, and Mr. KUCINICH):

H. Res. 194. A resolution concerning the establishment of a permanent United Nations security force; to the Committee on International Relations.

MEMORIALS

Under clause 3 of rule XII, memorials were presented and referred as follows:

148. The SPEAKER presented a memorial of the General Assembly of the State of Vermont, relative to Joint Senate Resolution No. 157 memorializing the United States Congress to increase federal special education funding immediately to 40 percent, the level to which Congress previously committed the federal government; to the Committee on Education and the Workforce.

149. Also, a memorial of the House of Representatives of the State of Louisiana, relative to House Resolution No. 158 memorializing the United States Congress and the President to institute and enforce legislation and diplomatic action toward the eradication of child slavery internationally; to the Committee on International Relations.

150. Also, a memorial of the House of Representatives of the State of Michigan, relative to House Resolution No. 116 memorializing the United States Congress to enact the Detroit River International Wildlife Refuge Establishment Act; to the Committee on Resources.

151. Also, a memorial of the House of Representatives of the State of Louisiana, relative to House Resolution No. 149 memorializing the United States Congress to direct the United States Congress to support, with funding, the expeditious implementation of the proposed Bayou Lafourche restoration project from the Mississippi River to the Committee on Resources.

152. Also, a memorial of the House of Representatives of the State of Louisiana, relative to House Resolution No. 114 memorializing the United States Congress to express its desire to the National Marine Fisheries Service that the pending charter boat moratorium in the Gulf of Mexico not be implemented; to the Committee on Resources.

153. Also, a memorial of the Legislature of the State of Louisiana, relative to House Concurrent Resolution No. 198 memorializing the United States Congress to direct the United States Congress to consider the removal of trade, financial, and travel restrictions relating to Cuba; jointly to the Committee on International Relations and Ways and Means.

154. Also, a memorial of the Legislature of the State of Texas, relative to Senate Concurrent Resolution No. 54 memorializing the United States Congress and the President, in light of the proposed change in federal policy that will further open the border areas to Mexican truck traffic, to support the unique planning, capacity, and infrastructure needs of Texas’ border ports of entry.

H. Con. Res. 152: Mr. KILDEE and Mr. ENGLISH.

H. Con. Res. 162: Mrs. RIVERS and Mr. HINCHENY.

H. Con. Res. 178: Mr. HOEFFEL.

CONGRESSIONAL RECORD—HOUSE

July 16, 2001

TITLE I—CHARITABLE GIVING INCENTIVES PACKAGE

SEC. 101. DEDUCTION FOR PORTION OF CHARITABLE CONTRIBUTIONS TO BE ALLOWED TO INDIVIDUALS WHO DO NOT ITEMIZE DEDUCTIONS.

(a) In General.—Section 170 of the Internal Revenue Code of 1986 (relating to charitable, etc., contributions and gifts) is amended by redesignating subsection (m) as subsection (n) and by inserting after subsection (l) the following new subsection:

(b) Deduction for Individuals Not Itemizing Deductions.

(1) In General.—In the case of an individual who does not itemize his deductions for the taxable year, there shall be taken into account as a direct charitable deduction under section 63 an amount equal to the lesser of—

(A) the amount allowable under subsection (a) for the taxable year for cash contributions, or

(B) the applicable amount.

(2) Applicable Amount.—For purposes of paragraph (1), the applicable amount shall be determined as follows:

For taxable years beginning in:

<table>
<thead>
<tr>
<th>Year</th>
<th>Applicable Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>2004</td>
<td>$25</td>
</tr>
<tr>
<td>2005</td>
<td>$50</td>
</tr>
<tr>
<td>2006</td>
<td>$75</td>
</tr>
<tr>
<td>2010 and thereafter</td>
<td>$100</td>
</tr>
</tbody>
</table>

In the case of a joint return, the applicable amount is twice the applicable amount determined under the preceding table.

(b) Direct Charitable Deduction.

(1) In General.—Subsection (b) of section 63 of such Code is amended by striking ‘‘and’’ at the end of paragraph (1), by striking the period at the end of paragraph (2) and inserting ‘‘and’’, and by adding at the end thereof the following new paragraph:

(3) the direct charitable deduction.

(2) Definition.—Section 63 of such Code is amended by redesignating subsection (g) as subsection (h) and by inserting after subsection (f) the following new subsection:

(3) Direct Charitable Deduction.—For purposes of this section, the term ‘‘direct charitable deduction’’ includes in gross income by reason of a qualified charitable distribution.

(3) Conforming Amendments.

Subsection (d) of section 63 of such Code is amended by striking ‘‘and’’ at the end of paragraph (1), by striking the period at the end of paragraph (2) and inserting ‘‘and’’, and by adding at the end thereof the following new paragraph:

(3) the direct charitable deduction.

(3) Effective Date.—The amendments made by this section shall apply to taxable years beginning after December 31, 2001.

SEC. 102. TAX-FREE DISTRIBUTIONS FROM INDIVIDUAL RETIREMENT ACCOUNTS FOR CHARITABLE PURPOSES.

(a) In General.—Section (d) of section 408 of the Internal Revenue Code of 1986 (relating to individual retirement accounts) is amended by adding at the end the following new paragraph:

(6) Distributions for charitable purposes.

(1) General.—No amount shall be includible in gross income by reason of a qualified charitable distribution.

(2) Qualified Charitable Distribution.—For purposes of this paragraph, the term ‘‘qualified charitable distribution’’ means any distribution from an individual retirement account—
If the person required to file such return knowingly fails to file such return, such person shall be personally liable for the penalty imposed pursuant to this subparagraph.

(3) CONFIDENTIALITY OF NONCHARITABLE BENEFICIARIES.—Such section 6104 of such Code (relating to inspection of annual information returns) is amended by adding at the end the following new sentence: "In the case of a trust which is required to file a return under section 6034(a), this subsection shall not apply to information regarding beneficiaries which are not organizations described in section 170(c)."

(c) EFFECTIVE DATES.—

(1) Subsection (a).—The amendment made by subsection (a) shall apply to taxable years beginning after December 31, 2001.

(2) Subsection (b).—The amendments made by subsection (b) shall apply to returns for taxable years beginning after December 31, 2001.

SEC. 103. INCREASE IN CAP ON CORPORATE CHARITABLE CONTRIBUTIONS.

(a) IN GENERAL.—Paragraph (2) of section 170(b) of the Internal Revenue Code of 1986 (relating to contributions made by corporations) is amended by striking "10 percent" and inserting "the applicable percentage".

(b) APPLICABLE PERCENTAGE.—

(1) APPLICABLE PERCENTAGE DEFINED.—For purposes of paragraph (2), the applicable percentage shall be determined in accordance with the following table:

<table>
<thead>
<tr>
<th>Year</th>
<th>Applicable Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>2010</td>
<td>15%</td>
</tr>
<tr>
<td>2009</td>
<td>14%</td>
</tr>
<tr>
<td>2008</td>
<td>13%</td>
</tr>
<tr>
<td>2007</td>
<td>12%</td>
</tr>
<tr>
<td>2006</td>
<td>11%</td>
</tr>
<tr>
<td>2005</td>
<td>10%</td>
</tr>
</tbody>
</table>

(c) CONFORMING AMENDMENTS.—

(1) Sections 512(b)(10) and 659(b)(2)(A) of such Code are each amended by striking "10 percent" each place it occurs and inserting "the applicable percentage".

(2) Sections 545(b)(2) and 556(b)(2) of such Code are each amended by striking "10 percent limitation" and inserting "applicable percentage limitation".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2001.

SEC. 104. CHARITABLE DEDUCTION FOR CONTRIBUTIONS OF FOOD INVENTORY.

(a) IN GENERAL.—

(1) AMOUNTS.—Section 170(b) of the Internal Revenue Code of 1986 (relating to special rule for certain contributions of inventory and other property) is amended by redesignating subparagraph (C) as subparagraph (D) and by inserting after subparagraph (B) the following new subparagraph:

"(C) SPECIAL RULE FOR CONTRIBUTIONS OF FOOD INVENTORY.—

(i) GENERAL RULE.—In the case of a charitable contribution of food, this paragraph shall be applied—

(I) without regard to whether the contribution is made by a C corporation, and

(II) only for food that is apparently wholesome food.

(ii) DETERMINATION OF FAIR MARKET VALUE.—In the case of a qualified contribution of apparently wholesome food to which this paragraph applies, the fair market value of such food shall be determined by taking into account the price

...
at which the same or similar food items are sold by the same taxpayer at the time of the contribution (or, if not sold at such time, in the recent past).

(iii) APPARENTLY WHOLESALE FOOD.—For purposes of this subparagraph, the term ‘apparently wholesale food’ shall mean the meaning given to such term by section 221(b)(2) of the Bill Emerson Good Samaritan Food Donation Act (42 U.S.C. 1791(b)(2)), as in effect on the date of the enactment of this subparagraph.

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to taxable years beginning after December 31, 2001.

SEC. 105. REFORM OF EXCISE TAX ON NET INVESTMENT INCOME OF PRIVATE FOUNDATIONS.

(a) In General.—Subsection (a) of section 4940 of the Internal Revenue Code of 1986 (relating to excise tax based on investment income) is amended by striking ‘2 percent’ and inserting ‘1 percent’.

(b) REPEAL OF REDUCTION IN TAX WHERE PRIVATE FOUNDATION MEETS CERTAIN DISTRIBUTION REQUIREMENTS.—Section 4940 of such Code is amended by striking subsection (e).

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2001.

SEC. 106. EXCISE TAX ON UNRELATED BUSINESS TAXABLE INCOME OF CHARITABLE REMAINS بناء وثائق.
“(ii) except as provided in subparagraph (A) and clause (i), does not include activities carried out under Federal programs providing assistance to children eligible to attend elementary schools or secondary schools, as defined in section 1410 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 8801).

“(d) Organizational Character and Autonomy.—

“(1) IN GENERAL.—A religious organization that provides assistance under a program described in subsection (c)(4) shall have the right to retain its autonomy from Federal, State, and local governments, including such organizations as the right to remain separate, in development, practice, and expression of its religious beliefs.

“(2) Additional Safeguards.—Neither the Federal government, the State government, or the local government with Federal funds, shall require a religious organization, in order to be eligible to provide assistance under a program described in subsection (c)(4), to—

“(A) alter its form of internal governance or provisions in its charter documents; or

“(B) remove religious art, icons, scripture, or other symbols of its religious character from its facilities, if alteration or removal would diminish the exercise of an organization’s autonomy recognized in section 702 or in this section shall have no effect.

“Nothing in this section alters the duty of a religious organization to comply with the nondiscrimination provisions of title VII of the Civil Rights Act of 1964 (42 U.S.C. 2000e–1) regarding employment practices not to be affected by its participation in, or receipt of funds from, programs described in subsection (c)(4), and any provision in such programs that is inconsistent with or would diminish the exercise of an organization’s autonomy recognized in section 702 or in this section shall have no effect. Nothing in this section alters the duty of a religious organization to comply with the nondiscrimination provisions of title VII of the Civil Rights Act of 1964 (42 U.S.C. 2000e–1) regarding employment practices not to be affected by its participation in, or receipt of funds from, programs described in subsection (c)(4), and any provision in such programs that is inconsistent with or would diminish the exercise of an organization’s autonomy recognized in section 702 or in this section shall have no effect.

“(e) Employment Practices.—A religious organization’s exemption provided under section 702 of the Civil Rights Act of 1964 (42 U.S.C. 2000e–1) regarding employment practices not to be affected by its participation in, or receipt of funds from, programs described in subsection (c)(4), and any provision in such programs that is inconsistent with or would diminish the exercise of an organization’s autonomy recognized in section 702 or in this section shall have no effect. Nothing in this section alters the duty of a religious organization to comply with the nondiscrimination provisions of title VII of the Civil Rights Act of 1964 (42 U.S.C. 2000e–1) regarding employment practices not to be affected by its participation in, or receipt of funds from, programs described in subsection (c)(4), and any provision in such programs that is inconsistent with or would diminish the exercise of an organization’s autonomy recognized in section 702 or in this section shall have no effect.

“(f) EFFECT ON OTHER LAWS.—Nothing in this section alters the duty of a religious organization providing assistance under a program described in subsection (c)(4) to comply with the nondiscrimination provisions in subsection (c)(3) of section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) (prohibiting discrimination against otherwise qualified disabled individuals), and the Age Discrimination Act of 1975 (42 U.S.C. 6101–6107) (prohibiting discrimination on the basis of age).

“(g) Rights of Beneficiaries of Assistance.—

“(1) IN GENERAL.—If an individual described in subsection (c)(4) has an objection to the religious character of the organization from which the individual receives, or would receive, assistance funded under any program described in subsection (c)(4), the appropriate Federal, State, or local governmental entity shall provide such individual (if otherwise eligible for such assistance) with a reasonable period of time after the date of such objection, assistance that—

“(1) is an alternative that is accessible to the individual and unobjectionable to the individual; and

“(2) has a value that is not less than the value of the assistance that the individual would have received from such organization.

“(2) EXCEPTION.—If the Federal, State, or local governmental entity shall guarantee that notice is provided to the individuals described in paragraph (3) of the rights of such individuals under this section.

“(3) INDIVIDUAL DESCRIBED.—An individual described in this paragraph is an individual who receives or applies for assistance under a program described in subsection (c)(4).

“(h) Nondiscrimination Against Beneficiaries.—

“(1) Grants and Cooperative Agreements.—A religious organization providing assistance through a grant or cooperative agreement under a program described in subsection (c)(4) shall not discriminate in carrying out the program against an individual described in subsection (g)(3) on the basis of religion, a religious belief, or a refusal to hold a religious belief.

“(2) Indirect Forms of Assistance.—A religious organization providing assistance through a voucher, certificate, or other form of indirect assistance under a program described in subsection (c)(4) shall not deny an individual described in subsection (g)(3) admission into such program on the basis of religion, a religious belief, or a refusal to hold a religious belief.

“(i) Accountability.—

“(1) IN GENERAL.—Except as provided in paragraphs (2) and (3), a religious organization providing assistance under any program described in subsection (c)(4) shall be subject to the same regulations as other nongovernmental organizations that receive grants or other arrangements, in procedures to ensure that—

“(A) grants and cooperative agreements.—A religious organization providing assistance under a program described in subsection (c)(4) shall not discriminate in carrying out the program against an individual described in subsection (g)(3) on the basis of religion, a religious belief, or a refusal to hold a religious belief.

“(B) indirect forms of assistance.—A religious organization providing assistance through a voucher, certificate, or other form of indirect assistance under a program described in subsection (c)(4) shall not discriminate in carrying out the program against an individual described in subsection (g)(3) on the basis of religion, a religious belief, or a refusal to hold a religious belief.

“(2) EFFECT ON STATE AND LOCAL FUNDS.—If a State or local government contributes State or local funds to carry out a program described in subsection (c)(4), the State or local government may segregate the State or local funds from the Federal funds provided to carry out the program or may combine the State or local funds with the Federal funds. If the State or local government commingles the State or local funds, the provisions of this section apply to the Federal funds in the same manner, and to the same extent, as the provisions apply to the Federal funds.

“(j) Treatment of Intermediate Grantors.—If a nongovernmental organization (referred to in this subsection as an ‘intermediate grantor’), acting under a grant or other arrangement with the Federal Government, or a State or local government with Federal funds, is given the authority under the agreement to select nongovernmental organizations to provide assistance under the programs described in subsection (c)(4), the intermediate grantor shall have the same duties under this section as the government entity providing funds to the intermediate grantor, if it is a religious organization, shall retain all other rights of a religious organization under this section.

“(k) Compliance.—A party alleging that the rights of the party under this section have been violated by a State or local government may bring a civil action for injunctive relief pursuant to section 1979 against the State or local government agency that has allegedly committed such violation. A party alleging that the rights of the party under this section have been violated by a State or local government agency that has allegedly committed such violation.

“(l) Training and Technical Assistance for Small Nongovernmental Organizations.—

“(1) IN GENERAL.—From amounts made available to carry out the purposes of the Office of Justice Programs (including any component of such amounts, including the Office of Community Oriented Policing Services), funds are authorized to provide training and technical assistance, directly or through another governmental entity, to organizations relating to potential application and participation in programs identified in subsection

(23) Section 407(l).
(24) Section 407(m).
(25) Section 407(n).
(26) Section 407(o).
(27) Section 407(p).

(8) INTENTIONAL MISCONDUCT.—The term “intentional misconduct” means conduct by a person with knowledge (at the time of the conduct) that the conduct is likely to be harmful to the health or well-being of another person.

(9) STATE.—The term “State” means each of the several States, the District of Columbia, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, any other territory under the possession of the United States, or any political subdivision of any such State, territory, or possession.

(10) LIABILITY.—(1) LIABILITY OF BUSINESS ENTITIES THAT DONATE EQUIPMENT TO NONPROFIT ORGANIZATIONS.—(A) IN GENERAL.—Subject to subsection (c), a business entity shall not be subject to civil liability relating to any injury or death that results from the use of equipment donated by a business entity to a nonprofit organization.

(2) LIABILITY OF BUSINESS ENTITIES PROVIDING USE OF FACILITIES TO NONPROFIT ORGANIZATIONS.—(A) IN GENERAL.—Subject to subsection (c), a business entity shall not be subject to civil liability relating to any injury or death occurring at a facility of the business entity in connection with a use of such facility by a nonprofit organization, if—

(i) the use occurs outside of the scope of business of the business entity;

(ii) such injury or death occurs during a period that such facility is used by the nonprofit organization; and

(iii) the business entity authorized the use of such facility by the nonprofit organization.

(B) APPLICATION.—This paragraph shall apply with respect to civil liability under Federal and State law.

(3) LIABILITY OF BUSINESS ENTITIES PROVIDING USE OF A MOTOR VEHICLE OR AIRCRAFT.—(A) IN GENERAL.—Subject to subsection (c), a business entity shall not be subject to civil liability relating to any injury or death occurring as a result of the operation of an aircraft, motor vehicle, or other transportation equipment loaned to a nonprofit organization for use outside of the scope of business of the business entity, if—

(i) such injury or death occurs during a period that such motor vehicle or aircraft is used by a nonprofit organization; and

(ii) the business entity authorized the use by the nonprofit organization of motor vehicle or aircraft that resulted in the injury or death.

the Agreement on Trade-Related Aspects of Intellectual Property Rights (as described in section 101(d)(15) of the Uruguay Round Agreements Act (19 U.S.C. 3511(d)(15))).
The Senate met at 2 p.m. and was called to order by the Presiding Officer, the Honorable Jon Kyl, a Senator from the State of Arizona.

Pledge of Allegiance

The Honorable Jon Kyl, a Senator from the State of Arizona, led the Pledge of Allegiance.

Prayer

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

Gracious God, thank You for this moment of prayer in which we can affirm our call to seek unity in the midst of differences in the parties and politics. So often we focus on what separates us rather than the bond of unity that binds us together. We are one in our calling to serve You and our Nation and in the belief that You are the ultimate and only sovereign. You are the magnetic and majestic Lord of all who draws us out of pride and self-serving attitudes to work together for You. We find each other as we join our hearts in gratitude for the privilege of leading our Nation. Keep us so close to You and so open to one another that this will be a week of great progress. Help us to work expeditiously and with excellence for Your glory and our Nation's good. Through our Lord and Saviour. Amen.

Appointment of Acting President pro tempore

The Presiding Officer, Mr. Byrd, announced that the Senate had appointed the Senator from Iowa to serve as Acting President pro tempore.

Reservation of Leader Time

The Acting President pro tempore decided to reserve time for Leader comments. Under the previous order, the leadership time is reserved.

Energy and Water Development Appropriations Act, 2002

Mr. Reid, as has been announced by the Chair, the Senate will begin consideration of the energy and water appropriations bill. Today will be for debate only. There will be no rollcall votes today. The next vote is expected tomorrow at approximately 12 noon on cloture on the substitute amendment to the Bankruptcy Reform Act. I am going to remind everyone that there is a 3 p.m. filing deadline for first-degree amendments to the bankruptcy reform substitute amendment.

We hope to complete action on the energy and water appropriations bill, the transportation appropriations bill, and the legislation branch appropriations bill before the end of this week.

I will say to all those listening, it is going to be extremely difficult to do that, but we can do it. There are only a few issues on the energy and water appropriations bill. We hope to resolve those so it does not take a lot of time. And then, of course, the appropriations bill dealing with transportation has in the last few years gone quite rapidly, and we hope it will again this year.

We are not in a position at this time, Senator Domenici and I, to offer a unanimous consent agreement as to when the amendments to the energy and water appropriations bill should be filed, but we are going to work on that. Senator Domenici is indisposed for the next hour and a half or so. But we expect him to be here at 3:30 today, at which time we will begin opening statements on the energy and water appropriations bill.

MORNING BUSINESS

Mr. Reid. I see my friend from Iowa here. Does he wish to speak on the bill or as if in morning business?

Mr. Grassley. Morning business.

Mr. Reid. Mr. Grassley. Mr. President, I want to visit with my colleagues and our constituents about the issues of the tax relief bill that was recently passed by the Congress of the United States and signed by the President on June 7 and will be the reason that tax rebate checks will go out, distributing $65 billion of overtaxation to the American people—back to the American people so they can spend it, so it will do more economic good than if it is politically distributed here in Washington, DC.

That bill not only has the $65 billion of tax refunds that will start going out next week and be out by September 30, but it already has reductions for other rates. The tax rebates come from the new 10-percent rate that is going into effect retroactive to January 1. It is my understanding there will be about 90 million Americans who will be getting rebates of up to $300 if they are single, $500 if they are a single parent, and also then up to $600 if they are married.

Also, remember that this is not a one-shot rate reduction, or tax rebate; that these rebates, even though they will never be received in a check again, will continue on into the future as permanent reductions in taxation for people in the 10-percent bracket. And also remember that everybody who pays taxes would pay some of that 10-percent bracket so that it does affect all taxpayers. But checks are going out for those up to the amount of $12,000 of taxable income.

I think this tax bill is going to make real changes in the lives of folks across our country. The changes I am going to discuss today result in the greatest tax relief provided in a generation—tax relief, I might add, powerfully brought about in a bipartisan consensus.

Some might ask, Why talk about something we have already done? The
answer is that the legislation is quite comprehensive and to do it just we really need to take a thorough and methodical look at this legislation. It just from the standpoint of the rebate checks that are going out, which are getting all the attention, but all the other aspects of the bill as well.

It is true there have been a lot of press reports on this legislation. Again, most of those have been related to the rebate checks going out starting next week. None of these reports, however, I believe, in the press has really tied the specific benefits of the bill back to its bipartisan purpose.

Also, the press reports have tended to analyze the bill in terms of its impact on certain types of taxpayers. At the same time, many press reports have focused exclusively on the budget angle of the bill. And this, basically a flat, people nervous, tearing out their hair because there is going to be less money coming into the Federal Treasury as a result of our letting the people keep their tax overpayment.

There are reports that tend to be very pessimistic often echo the sentiments of the harshest congressional critics of the legislation. These reports, like the congressional critics of this bill—and probably for the most part those who voted against it—tend to ignore the benefits of the bill. Tax relief legislation is just not more money in the taxpayers’ pockets in some selfish way that you let the taxpayers keep more of their money. There is great economic good that comes from the distribution of goods and services in this economy based upon an individual making that decision as opposed to a political leader in Washington, DC, making that decision through the Federal budget.

Now, of course, all of this criticism is fair play in the arena of politics. However, in recent weeks it seems to me these arguments have not been answered with the same vigor by the strong bipartisan majority of us who supported the legislation. So today I take the floor to set the record straight. Tax relief is absolutely necessary. Tax relief legislation is an important vehicle in response to our current and long-term economic problems. I talked about the short-term stimulus, but there are long-term problems. I talked about the short-term stimulus but there are long-term economic benefits from this bill that are going to enhance the economy.

Third, there is sufficient surplus outside Social Security and Medicare that is still available to accomplish a tax cut that addresses certain inequities in the Tax Code, such as the marriage penalty.

I will start with reason No. 1, that the tax cut corrected overtaxation. Before the tax cut, the Federal Government was collecting too much tax. The Federal Government was on a path to accumulate over $3.1 trillion in excess tax collections over the next 10 years. Federal tax receipts were at their highest level in our Nation’s history.

The bulk of these excess collections came from the individual income-tax payer. Individual income tax collections were near an all-time high, even higher than some levels imposed by World War II.

The chart I have in the Chamber demonstrates this better than I can, how, since 1960, we have seen very high income taxation. In this particular case, we are seeing taxes, as a whole, collected by the Federal Government, not just the income taxes but everything at the highest level by the year 2000 at 20.6 percent of gross national product.

This chart shows total tax receipts as a percentage of gross domestic product over 40 years. Tax receipts have naturally fluctuated frequently since 1960, but most shocking they spike up since the Tax Code, such as the marriage penalty.

The January 2001 Congressional Budget Office report to Congress shows that in 1992, total tax receipts were around 17 percent of gross domestic product. As I said, by the year 2000, they were at 20.6 percent. The significance of this percentage can only be appreciated in the historical comparisons to which I have already referred. But I want to be more specific.

In 1944, at the height of World War II, taxes, as a percentage of gross domestic product, were 23.9 percent. But higher than the figure today. By 1945, those taxes had dropped to 20.4 percent of GDP, which is actually lower than the collection level today.

It is unbelievable that in a time of unprecedented peace and prosperity, which defines the last decade, the Federal Government would rake in taxes at a wartime level. The sorriest part of this whole story is that this huge increase in taxes has been borne almost exclusively by the American people who pay the individual Federal income tax.

I have another chart which shows tax collection levels for payroll taxes, corporate taxes, and all other taxes over the past decade. It shows they have been relatively stable. Corporate taxes, during the past 10 years, have increased from 1.6 percent of GDP to 2.1 percent of GDP. Estate taxes have remained relatively stable over that period of time.

Even during World War II collections from individuals were 9.4 percent. So you see it was a full percentage point below what they are today in peace-time. As you can see, the source of current and future surpluses is from a big runup in individual income tax collections, and not in runups in any other form of taxes and levies that the Federal Government makes on the taxpayers of this country or the businesses of this country.

Part of this is because the 1993 Clinton tax increase overshot its mark. These excess collections are attributable to that enactment, in August 1993, of the largest tax increase in the history of the world.

Since personal income has grown an average of 5.6 percent. Federal income tax collections, however, have grown an average of 9.1 percent a year, outstripping the rate of personal income growth by 64 percent.

The Joint Committee on Taxation, at the request of the Joint Economic Committee of the Congress, estimated that just repealing the revenue-raising provisions of President Clinton’s 1993 biggest-in-the-world tax hike would yield tax relief of more than $1 trillion over 10 years.

We ought to take a closer look at that 1993 world’s biggest tax increase. The 39.6-percent top bracket reflected a
10-percent surcharge on the basic 36-percent rate. The itemized deductions you can subtract from your taxable income, income known as the Pease Rule, and the phaseout of personal exemptions, which we refer to as PEP, the personal exemption phaseout, were temporary bipartisan deficit reduction provisions that were made permanent under the 1993 tax hike.

So remember, you had a top marginal tax rate of 36. That was meant to be permanent. But you had a temporary 10 percent put on top of that, bringing that to 36.9 percent. Yet for higher brackets they wanted to camouflage it. We had a phaseout of exemptions so that higher income people did not get the full advantage of the personal exemption, as an example, which ought to tell you that in a time of budget surplus don't create a surplus now; anybody who was intellectually honest about putting a 10-percent surtax on the basic 36-percent rate just to get rid of the annual budget deficit ought to take that 10-percent rate off. But, no, it was never done by those who proposed it and those who did it. We did it through the gradual reduction of the rates that were in the bill signed by the President June 7.

The chairman of the Finance Committee at the time of the 1993 Clinton tax increase actually called the thing what I have already referred to as—‘a world record tax hike.’ Obviously, with income tax collections as high as they have ever been in the history of the country, we know that to be a fact.

The rationale for the tax increases was deficit reduction. It is reasonable to think that if deficit reduction was a reason for raising taxes to record levels, then in the era of surpluses we are in right now, any body who was intellectually honest about putting a 10-percent surtax on the basic 36-percent rate just to get rid of the annual budget deficit ought to take that 10-percent rate off. But, no, it was never done by those who proposed it and those who did it. We did it through the gradual reduction of the rates that were in the bill signed by the President June 7.

For the record, everyone on the other side of the aisle who opposed the bipartisan tax relief package had already voted for over $1.25 trillion of tax relief. Some of those people who voted that way are the very same ones who are saying we cut taxes too much. I hope you remember that on the debate on the tax bill, everyone on the other side, including every Member of the Democratic leadership, including the Democratic leadership, including the Finance Committee, the Senator from North Dakota, voted for $1.25 trillion in tax relief. Yet they are now saying we shouldn’t have this tax cut.

For instance, we had a vote on what was called the Carnahan-Daschle Democratic substitute. That amendment, if it had passed, would have represented tax cuts of that $1.25 billion I cited.

I raise this point for two reasons: One, to make the record clear on the votes on the tax cut bill; and two, to make an even more fundamental point. That fundamental point is, despite all the rhetoric, there was widespread support for significant across-the-board relief even among the most critical of the final tax package.

Let me repeat reason No. 1 for this tax cut before I go on to reason No. 2. The American people are overtaxed. The American people have paid a tax increase since the Clinton administration, it started to slow. Compared to the average 4-percent growth rate since 1998, the economy grew only a little over 1 percent.

Several factors have contributed to the economic slowdown. For the two previous years, we had a tighter monetary policy by the Federal Reserve. We had Chairman Greenspan throw out of the window his very comprehensive program of liquidity from 1988 until 1995, and then he started worrying about inflation. Worrying about inflation so much, he tightened up money so that we didn’t have enough liquidity. When he gets back on the kick of worrying about liquidity, not worrying about inflation, the monetary policy will turn it around. But a tighter monetary policy has brought about this slowdown. We have also had the rising energy rates, a decline in the stock market, and we have had rising tax burdens.

The economic slowdown has real impact on working Americans, as evidenced by this second chart we have here, as you have seen the unemployment rate go up. It shows that the unemployment rate had fallen steadily, but since the slowdown began last year, the unemployment rate has risen. It is now at 4½ percent, the same level it was in October 1998.

Although there is still considerable upward pressure on the economy, a number of factors seem to point in the right direction, and one is there is some reversal of the Federal Reserve on its monetary policy. We have had energy prices stabilize. For instance, a week ago last weekend, I bought gas in Cedar Falls, IA, at $1.19 a gallon.

Given the continued pessimism on Wall Street, however, the economy remains vulnerable to potential shocks. So we should continue to monitor signs of potential troubles. We are prepared to take additional steps should they become necessary. Republicans and Democrats have a responsibility to address this problem.
There is some speculation by some on my side of the aisle that those on the other side are hoping the recession comes about for political reasons. I disagree with that speculation. I believe everyone here wants to get the economy on a steady path. Everyone knows that the worst thing you can do in an economic downturn is to raise taxes. On the other hand, a tax cut is a stimulus to economic activity. So if your goal were to further slow down the economy, one sure way to do it would be to raise taxes. On the other hand, if you see a slow down coming, a tax cut would be a wise response to get the economy growing again.

In other words, if we had not cut taxes, not had these rebate checks going out, we would be nervously trying to cut taxes to stimulate the economy. A tax cut stimulates economic growth in two ways. First is to the extent the tax cut currently provides more money for consumers to spend, it creates more demands for goods and services. Secondly, and most importantly, the tax cut stimulates the economy through changes in expectations for workers, investors, and businesses. In other words, a lower tax bite means that workers, investors, and businesses can expect to retain more of the income generated by their activities. That expectation will change what workers and investors and businesses do right now. That does more economic good than if we have a political decision to distribute the goods and services.

Chairman Alan Greenspan and others have alluded to a new form of “bracelet creep” brought about by high tax rates. In a sense, through this new form of bracelet creep, the Federal Government was getting a windfall from workers, investors, and businesses.

With the lower marginal tax rates, some of the damaging bracelet creep has been eliminated over the long term. That change should free up more income to flow through the marketplace and stimulate the economy.

So it was pretty clear some action needed to be taken to stimulate the economy. Action was taken and now, hopefully, for the folks back home, the economy will start to grow significantly.

Now if I can go to the third and last reason why the tax bill needed to be passed—the issue of fairness. We heard during the debate, and even recently, a hue and cry from some on the other side of the aisle that not all taxpayers should receive a rate reduction. They said the bipartisan tax relief bill that was signed by the President disproportionately benefits upper income taxpayers and does not provide enough relief at the lower income scale. We have news for that group of people. None of those allegations is true, and the charts that I have will show that. But we first need to understand the current distribution of tax liability anybody has in America. We already have a highly progressive income tax system. According to the Congressional Budget Office, the top 20 percent of income taxpayers pay over 75 percent of all the income taxes coming into the Federal Government. By contrast, households in the bottom three-fifths of the income distribution pay 7 percent of all individual taxes.

Sometimes I get the feeling around here that when it comes to progressivity, the only way is to go down to satisfy anybody here is if the richest man in America is supporting the Federal Government totally. But for those who are worried about this tax bill not being progressive enough, it not only preserves an already progressive system; it actually makes it more progressive. Those who don’t like progressive income tax systems don’t like to hear me say that. But for those who say our tax bill has made it less progressive, I hope it causes them to keep their mouths shut.

So to all who are critical of the bipartisan tax relief package as a tax cut for the rich, I invite them to pay special attention to data prepared by a neutral source, the Joint Committee on Taxation. These professionals work for both sides of the aisle, Republicans and Democrats, and for both the House and the Senate. As the Joint Committee on Taxation says, the marginal tax rate reductions in our bill, as signed by the President, combined with the increase in the child credit, and its added refundability, the marriage penalty, the education provisions, and the individual retirement accounts and pension provisions—all these aspects of this bill provide the greatest reduction in tax burden for the lower income taxpayer.

I ask unanimous consent that the tables prepared by the Joint Committee on Taxation be printed in the RECORD. There being no objection, the material was ordered to be printed in the RECORD, as follows:

Mr. GRASSLEY. Mr. President, I will go to a couple of the charts I referred to prepared by Joint Tax. Look at the leverage of reduction in tax burden shown on this chart. You can see that the lowest income brackets receive the highest reduction.

Now, for the year 2006—and I say for the year 2006 because that is when the individual tax provisions or rates are implemented—taxpayers with over $100,000 of income receive a tax cut of between 5 and 6 percent. Taxpayers earning between $10,000 and $50,000 get a tax cut of between 6.5 percent and 13.6 percent, with those at the lower income levels getting the biggest percentage of reduction. Even those with incomes below $10,000, who, by and large, don’t pay income and payroll taxes, receive a tax cut under the bipartisan tax relief package.

Under the tax relief, 6 million Americans will be taken off the income tax rolls. Those are lower bracket people. Just tell 6 million people who are never going to be paying income tax in the future that they aren’t getting a benefit from this greater than higher income people who are going to be paying income taxes the rest of their lives. A four-person family earning $35,000 a year will no longer have any income tax burden.

As the Joint Tax data also shows, a large reduction of the tax burden is targeted toward taxpayers between the $30,000 and $75,000 income brackets. These taxpayers will enjoy significant effective tax relief.

I also said that the bipartisan tax relief actually makes our tax system more progressive. The Joint Tax Committee again provides the proof. As the Joint Tax tables demonstrate, under the bipartisan tax relief package, the overall burden goes down for taxpayers earning below $100,000. For taxpayers making $100,000 or more, however, their share of the Federal tax burden will actually increase under the bipartisan tax relief legislation.

For example, for taxpayers earning between $100,000 and $200,000 a year, their share of the burden will increase by three-tenths of a percent. This is not the case for taxpayers earning between $10,000 and $50,000. Their share of the overall burden will decrease by three-tenths of a percentage point.

So the bipartisan tax relief legislation not only retains the progressivity of the tax system, but that progressivity is enhanced.

Now, it is clear that distribution tables aren’t the only way to define tax fairness. There were other categories of tax relief that carried bipartisan priority in terms of fairness. First, on a bipartisan basis, there is concern about the added burden for couples who decide to marry. This important social objective was impaired by the marriage penalty. The bipartisan tax relief legislation provided marriage tax relief.

Second, on a bipartisan basis, there was concern about the Tax Code’s failure to recognize the cost of raising children. The bipartisan tax relief legislation provides tax relief for millions of families with children, including those who pay no income tax at all. In addition, the dependent care tax credit was enhanced for families with children in day care.

Third, on a bipartisan basis, there was concern about helping families with the rising cost of education. As a response, the bipartisan tax relief legislation includes a package of educational tax relief measures.

Fourth, on a bipartisan basis, there was concern about declining savings
rates and the need for more secure retirement plan benefits for more workers to help baby boomers who are saving less. As a response, the bipartisan tax relief legislation included significant enhancements to individual retirement accounts and retirement plans. This package was then perhaps the greatest improvement in our individual IRA's and retirement plans in a generation.

Finally, there was a bipartisan concern about the confiscatory impact of the death tax, especially for family farmers and small businesses. As a response, the bipartisan tax relief legislation includes death tax relief, including repeal.

Today I have talked about the three most important reasons from my perspective why we were able to pass the largest bipartisan tax relief measure in a generation.

The first reason is to correct the policy of overtaxation that stemmed from the heavy tax hikes of 1993.

The second is to respond with an economic stimulus against the current economic slowdown.

The third is there are sufficient budgetary resources to address tax fairness problems.

It is important to realize that the major tax legislation just enacted rests on a very sound foundation. It should not be dismissed, it should not be obfuscated, and it should not otherwise be distorted by budgetary demagoguery. Let us not forget that revenue is not an abstract notion. Revenue reflects the sum total payments to Washington by hard-working men and women. It is not abstract when paid and should not be treated as an entitlement by those of us fortunate enough to be blessed here to make policy decisions to represent the folks back home.

We have a very good tax bill. Our challenge is to make sure that those in Congress who want to spend more money and do not like giving the people back their money—we are intent upon keeping this reduction of revenue coming into the Federal Treasury, not because we are concerned about the taxpayers, but because if those taxpayers spend that money, it is going to do more economic good and turn over the economy, create more jobs and more wealth than if I spend it as a Member of the Senate. I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from California.

Mrs. FEINSTEIN. Mr. President, I ask unanimous consent to speak for approximately 20 minutes in morning business.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

CONTROLLING THE PROLIFERATION OF SMALL ARMS AND LIGHT WEAPONS

Mrs. FEINSTEIN. Mr. President. I rise today to speak about the proliferation of small arms around the world and, specifically, the remarks made by John Bolton, the Under Secretary of State for Arms Control and International Security Affairs before the United Nations this past July 9 at the United Nations Conference on the Illicit Trade in Small Arms and Light Weapons in All Its Aspects.

I begin by saying what I sincerely believe: I think it is right and necessary to limit the illicit sale of small arms and light weapons on a worldwide basis. In order to do that, however, one also has to address transparency and legal transfers of small arms and light weapons because so much of the illicit proliferation problem has its roots in legal sales. I was therefore very surprised that Under Secretary Bolton said the United States may well be opposed to being considered by the conference that are aimed at curtailing the international proliferation of small arms and light weapons.

Before I address Mr. Bolton’s speech, and the question it raises about the direction of the administration’s policy in this area, I would like to briefly sketch out the scope and scale of this problem:

The worldwide proliferation of small arms—this includes shoulder-mounted missiles, assault weapons, grenade launchers, and high-powered sniper rifles—is a staggering problem today. Right now there are an estimated 500 million illicit small arms and light weapons in circulation around the globe.

In the past decade alone, an estimated 4 million people have been killed in civil war and bloody fighting, many of these by small arms.

As a matter of fact, 9 out of 10 of these deaths are attributed to small arms and light weapons. According to the International Committee of the Red Cross, more than 50 percent of the 4 million people killed—that is 2 million people—are believed to be civilians. The sheer volume of available weaponry has been a major factor in the devastation witnessed in recent conflicts in Angola, Cambodia, Liberia, Mozambique, Rwanda, Sierra Leone, Somalia, Sri Lanka, and Afghanistan, as well as the sort of violence endemic to narcotics trafficking in Colombia and Mexico. These conflicts undermine the regional stability, and they endanger the spread of democracy and free markets around the world.

The United Nations and the Red Cross estimate that more than 10 million small arms and light weapons, ranging from pistols to AK-47’s to hand grenades to shoulder-launched missiles, are today in circulation in Afghanistan where the terrorist organization of Osama bin Laden is based.

The United Nations estimates that over 650,000 weapons disappeared from government depots in Albania in the 3 years following the breakup of Yugoslavia, with a possible effectiveness of the “state Militia.” Because a sawed-off shotgun was not a weapon that would be used by a “state Militia,” like the
National Guard, the Second Amendment was in no way applicable to that case, said the Government.

If a sawed-off shotgun is not protected by the Second Amendment, why does the Administration seem to be taking the position that the Second Amendment protects the international trafficking of shoulder-launched missiles?

If an American citizen cannot freely transport a sawed-off shotgun across state lines, why can’t we work to stop the international transportation of grenade launchers and high powered, military sniper rifles?

This second amendment argument simply makes no sense, and has no place in this debate.

Second, Mr. Bolton’s opening statement attacked language that calls on governments to “seriously consider” curtailing “unrestricted sales and ownership” of arms specifically designed for military purposes.

So Mr. Bolton essentially objected to even considering merely curtailing the “unrestricted sales and ownership” of military weapons.

In point of fact the United States already curtails the sale and ownership of many of these guns.

The National Firearms Act, for instance, places severe restrictions on the manufacture and possession of machine guns, sawed-off shotguns, grenades, bombs, rockets, missiles, and mines.

We also passed the 1994 assault weapons ban, which stopped the production of semi-automatic, military-style assault weapons.

These firearms have no sporting purpose, and our laws recognize that fact.

Yet these guns contribute enormously to terrorist threats, drug cartel violence, and civil strife throughout the world.

Congress has already recognized that curtailing the use of military-style weapons is reasonable, appropriate, and even life-saving. To now object to a clause that would call upon other governments around the world to do the same is nonsensical at best, and undermines U.S. security interests—and the lives of U.S. military personnel—at worst.

Next, Mr. Bolton stated that the United States would “not support measures that would constrain legal trade and legal manufacturing of small arms and light weapons.” That may be legitimate read on its face. People can understand that.

Although it is my belief that the United States is not the biggest contributor to the problem of the global proliferation of small arms and light weapons—the United Nations has found that almost 300 companies in 50 countries now manufacture small arms and related equipment—in 1999 the U.S. licensed for export more than $470 million in light military weapons.

With the average price of $100-$300 per weapon, this represents a huge volume of weapons.

The Administration is in the position of addressing the issue of the international proliferation of small arms and light weapons one cannot simply address the illicit side of the equation without also looking at the interactions between the legal trade and the illegal trade.

In fact, there is good evidence of an increased incidence of U.S. manufactured weapons—legally manufactured and legally traded or transferred—flowing into the international black market.

In April, 1998, for example, The New York Times reported that the United States had to rescind pending licenses for sale of U.S. firearms to the United Kingdom based on the European Union’s grave concern over the retransfer of guns between EU members without review or oversight.

In 1999 the State Department stopped issuing licenses from the U.S. to dealers in Venezuela because of concern that the guns—legally exported and sold—were in fact ending up in the hands of narco-traffickers and guerrillas in Colombia.

In 2000 and to date in 2001, the ATF has processed more than 19,000 trace requests from foreign countries for firearms used in crimes: 8,000 of these guns were sold legally in the United States. So they are sold legally and they get into the black market and they become part of a crime.

In 1994, Mexico reported 3,376 illegally acquired U.S.-origin firearms. Many of these weapons were originally sold legally to legitimate buyers but then transferred illegally, to many Mexican drug cartels. Between 1989 and 1993, the State Department approved 108 licenses for the export of $34 million in small arms to Mexico, but it performed only three follow-up inspections to ensure that the weapons were delivered to and stayed in the hands of the intended users.

According to the South African Institute for Security Studies, an estimated 30,000 stolen firearms—again, firearms originally manufactured and traded, sold or transferred in a legal manner—enter the illegal marketplace annually in South Africa.

Given this undeniable connection between legal sales and illicit trade, the approach suggested by Mr. Bolton to the Conference—that it should only address one part of the equation while ignoring the other, appears to me to be untenable.

I would also suggest that certain measures which may be seen by some as constraints on legal manufacture and trade—such as international agreements for the marking and tracing of small arms and light weapons, or seeing that there are international regulations governing the activities of arms brokers—are in fact wise policy.

Mr. Bolton also stated:

Neither will we, at this time, commit to begin negotiations and reach agreements on legally binding international treaties on the feasibility and necessity of which may be in question and in need of review over time.

Yet, as Mr. Bolton himself points out in his statement, the United States has passed some of the best laws and regulations on the books regarding the sale and transfers of light weapons.

In my view it is clearly in the U.S. interest to see that those standards are replicated by the world community.

Mr. Bolton’s statement is fulsome in its praise of U.S. brokering regulations. Why do we not want to see others rise to the same standards?

Mr. Bolton’s statement cites U.S. regulations governing the transfer of military articles of U.S. origin and U.S. exports of small arms and light weapons.

Instead of going it alone—with limited success even when it comes to some of our closest allies, like the United Kingdom, as the example I cited above indicates—shouldn’t we be working to see that the rest of the international community adopts similar standards?

In approaching the United Nations Conference, the U.S. government should negotiate and support making the trafficking of small arms and light weapons, which is killing millions upon millions of innocent civilians, without increasing the transparency of the legal market because so many of these weapons go from the legal market into the black market—the illicit market.

I yield the floor.

The PRESIDING OFFICER (Mr. BINGAMAN). The Senator from Arizona.

Mr. KYL. Mr. President, I ask consent to speak in morning business for 5 minutes, and following my remarks, the Senator from Washington speak.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. KYL. Mr. President, I first thank the Senator from Washington State for her kindness letting me speak next. I hope to make an appointment in my office. I will cut my remarks short and give a summary and put the remainder...
in the RECORD, I appreciate her generosity and that of the Senator from West Virginia.

The PRESIDING OFFICER. The Senator from Arizona.

CONFIRMATION OF NOMINEES

Mr. Kyl. We started this session of Congress, I think, on a fairly high note of bipartisanship. While there have been some recent events that may have detracted from that, I think most of us would like to proceed with as much bipartisanship as possible. Part of this, of course, concerns relationships between the Congress and the President.

Since the majority in the Senate and the President are of different parties, that may be a little more difficult, but I have a suggestion today which I hope will enable us to move in that direction.

The President has a number of nominees, executive branch nominees, and there are a few legislative branch nominees that require our actions, and then there are some judicial nominees. I hope in a real spirit of bipartisanship we can get those nominees cleared, that the President can confirm the President’s nominations and the personnel that he needs in the executive branch to get his work done, and that we can confirm the judges the courts need. These are people who need to be put into place so our country can move forward for all of the American people.

Up until last week, unfortunately, the Senate had been acting at a relatively slow pace. I might also add the change from the majority to the minority, and vice versa, undoubtedly complicated this, but we were not making very good progress.

Last week, I note that 54 nominees were identified by the Senate. In fact, 36 were confirmed just last Thursday. So we are finally beginning to make some progress. I urge my colleagues to continue this progress because, by my count, there are 93 executive branch nominees pending as of today. Only 26 have had hearings. But as we know, it does not take too much for the committee work to follow shortly after a hearing so the nominees can actually come to the Senate for full debate and confirmation by the full Senate.

As of today, according to the administration’s figures, approximately 347 nominees have come to the Senate, and only 187 have been confirmed. So we still have a fair amount of work to do. In terms of judicial nominees, my understanding is that there are 29 nominations pending, 3 of which have had hearings. Of those, 20 are circuit court nominees, 9 are district court nominees. The bottom line with regard to the change from today, no circuit or district court judges have been confirmed this year. We are, of course, now past the midway point of this year.

We are going to have to get going. Again, I do not want to point any fingers at the spirit of bipartisanship which I am involving here today. I am hoping Republicans and Democrats in the Senate and the administration can work very closely together.

What I would like to do, and I will do at the end of this week, is submit for the RECORD the names of the nominees who are pending. I was going to read the names of the people who are currently pending, but I do not need to do that. I will submit those for the RECORD. But I would note some of these have been pending going back to the month of April. Clearly the Senate can act on those nominees who have been before us for a long period of time, and we should expedite those who have come before us, even fairly recently. It should be on the floor that the time we conclude our work in July and return to our States for the August recess, that all of the nominees who have come to the Senate, except maybe in the last couple of days before that period of time have been cleared; that is to say, they will have had their hearings, come out of committee, and been acted upon by the full Senate. Very few of them are controversial, as I go down the list.

I do note in a couple of cases nominees are being held up by Senators—actually in four or five cases. A couple of those are being held up by Republicans, and a few more are being held up by Democrats. I am going to urge my Republican colleagues to cooperate so the concerns they have expressed can be dealt with and the nominees may move forward. I hope my Democratic colleagues will do the same on their side of the aisle. I think it is important that we act as a Senate may, and not a technical hold on a nomination, we all appreciate all that means is that they have requested to be notified if the majority leader is going to call that nominee up for a full Senate consideration so that Senator will have an opportunity to object. Obvi-

ously, we do not want to put Members in that position, but I do think it is important for the full Senate to be able to work its will on these nominees. That is why I am going to ask both Republican and Democratic colleagues to cooperate so we can proceed.

Finally, last week I worked with the distinguished majority leader and the assistant majority leader in ensuring we could both bring the appropriations bills that we have to deal with to the Senate floor and to get these nominees done at the same time. There is nothing to prevent us from bringing an appropriation bill to the floor today. Then, toward the end of the day, for those nominees that do not require debate and rollcall vote, having them considered in the wrap-up.

I will continue to do that because it is my expectation that we will not have to use the cumbersome parliamentary procedure that we all have available to us to hold up business of the Senate in order to get these nominees done since they are the top priority; that we can actually do both at the same time.

That is my request of the majority leader and of the assistant majority leader—to continue to work in that spirit moving forward both with the appropriations bills and with the nominees. I will have more to say about this later.

I ask unanimous consent that the names of the nominees that are currently pending be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

BUSH ADMINISTRATION NOMINEES PENDING

SENATE ACTION

AGRICULTURE

Thomas C. Dorr, Undersecretary for Rural Development.

Michael J. Garcia, Assistant Secretary for Export Enforcement.

Hilda Gay Legg, Administrator, Rural Utilities Services.

Mark Edward Rey, Undersecretary for Natural Resources and Environment.

COMMERCE

Samuel W. Bodman, Deputy Secretary of Commerce.

David Sampson, Assistant Secretary for Economic Development.

William Henry Lash III, Assistant Secretary for Market Access and Compliance.

DEFENSE

Stephen A. Cambone, Principal Deputy Undersecretary for Policy.

Susan Morrissey Livinston, Undersecretary of the Navy.

Alberto Jose Mora, General Counsel, Navy.

Michael Parker, Assistant Secretary for Civil Works, Army.

John Stembly, Assistant Secretary for Command, Control, Communications & Intelligence.

Ronald M. Sega, Director, Defense Research and Engineering.

Joseph E. Schmitz, Inspector General.

Michael L. Dominguez, Assistant Secretary (Air Force) for Manpower, Reserve Affairs.

Neilson P. Gibbs, Assistant Secretary (Air Force) for Installations & Environment.

H.T. Johnson, Assistant Secretary (Navy) for Installations & Environment.

Nelson P. Fiori, Assistant Secretary (Army) for Installations & Environment.

EDUCATION

Carol D’Amico, Assistant Secretary for Vocational and Adult Education.

Brian Jones, General Counsel.

Laurie Rich, Assistant Secretary for Intergovernmental and Intergency Affairs.

Robert Paetermack, Assistant Secretary for Special Education and Rehabilitative Services.

Joanne M. Wilson, Commissioner, Rehabilitation Services Administration.
Ms. CANTWELL. Mr. President, I rise today to address an issue of extraordinary importance to the State of Washington, the Pacific Northwest, and the entire west coast. That is the role of the Federal Energy Regulatory Commission in regulating our Nation's energy markets and righting the wrongs that have been visited upon ratepayers in the West by runaway energy prices over the last year.

We are now 22 days into an expedited review process by the Federal Energy Regulatory Commission, designed to determine refunds for the unjust and unreasonable rates paid by Western consumers.

At the urging of my colleagues from the Northwest, Senators MURRAY, WYDEN, SMITH, and myself, FERC finally recognized the realities of the energy markets in the West when they allowed Pacific Northwest utilities to participate in these proceedings and the expedited review process. But my
main concern is that in the haste of putting the California debacle behind it, FERC will again overlook the Northwest and consumers who have been impacted by as much as 50-percent rate increases.

I am afraid my suspicions were born out last week when the administrative law judge charged with overseeing this refund matter issued his recommendations to FERC, again paying little attention to the Northwest problem. It is now up to FERC to determine what to do with the judge’s recommendation.

I believe the Commission should not—and cannot—in the interest of fairness ignore the Northwest in its refund calculation. While many of my colleagues are well aware of the toll this crisis has taken on California, we—and FERC—cannot disregard the impact that it has had on Northwest citizens, businesses, and communities of Washington State.

Equitable treatment in this refund proceeding requires that the Commission recognize a certain fundamental truth: That Northwest consumers have been harmed, and they have been harmed by unjust and unreasonable prices that have prevailed in all energy markets throughout the West—inside and outside California, and in spot, forward, and long-term power markets.

There are differences between how California and Northwest utilities manage their obligations to serve consumers. Thus, FERC should not come up with a one-size-fits-all solution for a refund methodology. The basic litmus test should be this: Did power rates meet the commonsense test of reasonableness? If the answer is no, then FERC should not allow recovery of any profits and already forcing a handful of layoffs. In the words of the company’s president, any further rate increase will mean that the refund would have to close its doors.

This crisis has a very human face. The LIHEAP caseload in the State of Washington is expected to grow 50 percent this year. I have heard from many senior citizens who can’t afford to light their homes at night and will be making hard choices later this fall and winter about heating their homes and buying food. I have visited children who are worried that their parents, in some of those industries I mentioned, will lose their jobs. And those children are concerned they will then lose their homes when their mothers and fathers do not have the work to pay their bills.

Our schools have also had to cut corners. The Central Valley School District near Spokane, for example, has had to divert about $200,000, that would otherwise be used to purchase textbooks, to pay its energy bills.

What is more startling is the gravity of these impacts, and the number of Washington residents suffering from this crisis, is going to continue to grow. I say that because the Bonneville Power Administration, which provides Washington with 70 percent of its power, will be forced to raise its rates another 46 percent this October.

It is clear that FERC has an obligation to do more. I believe FERC—consider the judge’s recommendation to help these people I have just mentioned, and to help the State of Washington overcome the economic impacts caused by the California market and by a serious drought. FERC must not only stabilize our market and ensure fair rates in the future, but also must address past wrongs and the harm that has impacted consumers.

FERC took its first serious step in its June 19 price mitigation order. Given the economic conditions in my State, I believe this was an overdue. But it was a positive first step.

The effectiveness of FERC’s price mitigation plan will remain of vital concern to all of us from the West. We
need to remain mindful of what the effects of this California-focused mechanism on supply in the Northwest, as our region approaches peak winter heating season approaches.

But let me address specifically the issue of refunds and where we are today in the process. Of particular concern to me is the fact that, as part of the June 19 order, FERC established a 15-day settlement conference for participants in California energy markets, and others in the West, to reach agreement on potential refunds for overcharges and settlement of California's unpaid accounts.

As has been the case throughout this crisis, the order was initially silent on the issue of relief for the Pacific Northwest. It was only after the intervention of a bipartisan group of Northwest Senators—figure the Northwest its order clarifying that Northwest parties would also participate in those discussions.

But the 15-day settlement window has now closed and no agreement has been reached yet on how consumers in either Washington State or California. As I have mentioned, the administrative law judge made his recommendation last week on how to proceed. He was mostly silent on the issue of relief for the Pacific Northwest. It should also be noted that, to the extent the recommendations did comment on our concerns, it was not factually correct. While the recommendations said Pacific Northwest parties "did not have data on what they were owed, nor an amount of refunds due them," it is a matter of public record that a group of Northwest utilities—net purchasers in the West's dysfunctional power markets—submitted a claim for $580 million, as well as documentation and a proposed methodology for calculating those refunds.

That notwithstanding, this is a silence the Commission itself cannot, in the interest of fairness, sustain. FERC must seek an equitable solution for the Northwest. In order to do that I believe it is critical that FERC recognize some fundamental differences between the Northwest and California energy markets—and that fundamental fairness requires that refunds go to customers in California.

First, FERC needs to recognize that most Northwest participants in the California markets are load-serving utilities. These load-serving utilities are responsible for a very small percentage of the power sold into the California market—certainly no more than 4 percent—and they are clearly not the parties that broke the market. Further, many in the Northwest, especially the Bonneville Power Administration, have been partners in helping solve the California problem by keeping the lights on during emergencies, at costs to the Northwest that cannot necessarily be quantified—particularly when one takes into account the Northwest’s endangered species and salmon issues, and the delicate balance we generate power, it is quite a delicate balance.

Unlike power marketers or merchant generators, Northwest utilities operate under a statutory obligation to meet all their customers' electricity needs. Further, our region's power supply is essentially based on hydropower. A full 78 percent of Washington state's generation comes from hydropower. As has been made painfully clear by this year's drought—which has amounted to the second worst year of drought on record in the history of our State—the vagaries of hydroelectric production require that our utilities make other wholesale power purchases to meet load. In keeping with reasonable utility planning practices, these companies buy a portfolio of products of varying duration.

This points to a second, fundamental difference between the Northwest and California markets: Whereas California's utilities were forced, under the State's restructuring law, to make all of their purchases in a centralized hour-ahead or day-ahead market, we have no such centralized market in the Northwest. While we do have very short-term bilateral markets, our utilities have traditionally only used these to balance the difference between forecasted and actual loads, streamflows, weather conditions, and other similar factors.

Unlike the California ISO market, the Northwest utilities rely heavily on "forward" or long-term contracts that last for periods varying from a month ahead to a quarter or two or even longer. But these contracts have been closely affected by the skyrocketing spot market prices in California. It is thus absolutely crucial, for the purpose of its refund proceeding, that FERC recognize that power prices throughout the West—and not just in spot markets, but in these forward contracts as well—are unjust and unreasonable. Washington State's prices have moved in lockstep with the spot market prices.

In its June 19 order, the Commission itself commented on this, stating that there is a "critical interdependence among prices in the ISO's organized spot markets, the prices in the bilateral spot markets in California and the rest of the West, and the prices in forward markets." So the Commission itself has recognized the relationship between these prices. Indeed, when one compares forward contract prices in the Northwest with spot market rates both within the region and in California, for the last year, they show a correlation of more than 80 percent on a monthly average basis; that is, forward prices in the Northwest have moved in tandem with California's prices, which the Commission has deemed unjust and unreasonable. It is these forward prices that have largely driven the rate increases in the Northwest.

It is clear, then, that any FERC refund order that seeks to treat all Western participants fairly, as the Power Act says it must, must recognize the relationship between spot markets and forward markets.

Simply put, any refund policy must not disadvantage the utilities in the Northwest because of the contractual mechanism they have used to acquire power.

Let me just touch on the case of BPA because I mentioned it earlier. Throughout this crisis, BPA has responded to the California ISO's urgent calls for power supply when the State was teetering on the edge of rolling blackouts. In fact, on three separate occasions, the Department of Energy issued emergency orders directing Bonneville to sell power into the State of California. It should also be noted, however, that California entities have yet to repay BPA for about $100 million of these transactions.

As one of these entities has entered into bankruptcy, it remains questionable how the Northwest will ever receive this $100 million repayment. Meanwhile, BPA has at times drawn down its reservoirs, arguably compromising the reliability of Northwest power system to aid California. So while BPA has sold into the California spot market, it has actually been a net purchaser during the crisis, when one takes into account several forward contracts. And when faced with the volatile energy prices throughout the West, Bonneville earlier this year made the difficult decision to pay consumers to curtail their loads rather than to venture into the market.

I mentioned various of those efforts earlier in my remarks about the aluminum industry. Bonneville and the Northwest customers it serves have been victims of the power crisis touched off by this experimentation in partial deregulation, which has created this dysfunctional market.

In conclusion, it is important that the Commission act fairly and that my State's utilities not be penalized for sales into California when they have been forced to purchase power at a similar unjust and unreasonable rate.

It is very important that the Commission work toward a solution that gives the Northwest refunds, just as it is very important that FERC must work towards a comprehensive settlement that addresses the claims of both California and the Northwest. In order to reach an equitable solution, it must acknowledge the fundamental differences in the two markets. I believe a fair outcome requires FERC to take a few simple steps.

First, FERC must recognize an inescapable commonsense conclusion: that
all Western power markets have been dysfunctional for quite some time. The Commission’s duty under the Federal Power Act is to ensure just and reasonable rates in all markets at all times. I urge the Commission to act in accordance with section 309 of the Power Act in doing this.

Second, power prices have been unjust regardless of the type of market which the Northwest operates in. The fact is, we in the Northwest have a different market than California, and FERC simply cannot use the same formula when calculating refunds for our consumers. It must take into account both forward and long-term contracts. Those utilities that can, using this methodology, demonstrate a legitimate complaint should receive refunds.

Third, FERC must not leave the Northwest behind. NorthWestern utilities must be allowed to plead their case during the upcoming evidentiary hearing.

Finally, repayments of amounts due to the Northwest for sales into California must be an integral part of any refund calculation.

I call on the FERC Commissioners to incorporate these principles into a refund policy for the Northwest. It is indisputable that the Northwest has been harmed. Now it is up to FERC to take the action to mitigate those damages and to repay the consumers in Washington State.

The PRESIDING OFFICER. The Senator from West Virginia is recognized.

THE GREAT COMPROMISE

Mr. BYRD. Mr. President, 214 years ago today, on July 16, 1787, the members of the Constitutional Convention agreed to one of the great compromises of our history. The power of the individual states like Virginia, the State of Pennsylvania, the State of Massachusetts, and the State of New York were apportioned by population, an arrangement that would favor larger states like Virginia, the State of Pennsylvania, the State of Massachusetts.

On June 15, William Patterson had countered the “New Jersey” plan, which was really a series of amendments designed to strengthen rather than replace the Articles of Confederation. Its supporters, representing the smaller States, worried that the Virginia Plan went too far in creating a central government and that it would diminish the power of the individual States. However, the Delegates rejected the New Jersey Plan and committed themselves to the creation of a new form of government.

The smaller States had lost the first battle, but they had enough votes to keep the Convention from succeeding. Unless something was done, the new government would firmly protect their rights, the rights of the smaller States. They demanded the same equality of the States that had existed under the Articles of Confederation. On July 1, the Convention split 5 to 5 on the issue. The Georgia Delegates were split and did not vote. This tie represented a deadlock between the conflicting demands of the larger and smaller States.

When the Convention recessed to celebrate the Fourth of July, the Delegates appointed a special Committee to solve the dispute. Elbridge Gerry of Massachusetts chaired the Committee which devised a compromise that apportioned the House by population and gave the smaller states a voice in the Senate. Inasmuch as the idea for the special Committee had been proposed by Roger Sherman, a Connecticut Delegate, the “Great Compromise” is also known as the “Connecticut Compromise.” In promoting the plan, William Samuel Johnson of Connecticut explained that under this arrangement the two Houses of Congress would be “halves of a unique whole.”

The Great Compromise is one of the more momentous events in our country’s history. Most people are probably unaware of it or have forgotten their high school days during which they should have learned about it. But for the Great Compromise, the course of our country’s history might have been forever altered.

Fortunately for us, the men who attended the Philadelphia Convention were some of the ablest and brightest leaders of the time, in fact, of any time. What a gathering that was. Never before, in the history of our country, had we gathered like this one in Philadelphia, 214 years ago today.

What a gathering that was! Never before had there been such an abundance of wisdom and learning, grace and dignity—not since the Roman Senate had gathered and been observed by Cicero, the Ambassador of Pyrrhus, King of Epirus, who visited the Roman Senate at the height of its dignity in the Senate. Cicero, the philosopher, was charged by Pyrrhus to present a peace proposal to the Roman Senate. Cicero had brought with him bribes for Roman Senators. He had brought with him rich robes for the wives of Senators. But he had found no takers—none. Cicero was impressed. The sight of this great city, the city of Rome of the seven hills, its austere manner, and its patriotic zeal, struck Cicero with admiration. When he had heard the deliberations of the Roman Senate and he had observed its men, he reported to Pyrrhus that here was no mere gathering of venal politicians, here was no haphazard council of mediocre minds, but, in dignity and statesmanship, veritably “an assembly of kings.”

We might be prone to overlook the tremendous physical and mental effort expended in drafting the Constitution. In reading this short document—here it is, the Constitution of the United States—do we find as much passion and gusto, they had set about devising a plan that would create a new nation.

In our own time, in these sometimes disturbingly partisan days, many of us are prone to overlook the tremendous physical and mental effort expended in drafting the Constitution. In reading this short document—here it is, the Constitution of the United States—I hold it in my hand. When reading this short document with its precise and careful phrases, it is easy to forget the toil, the sweat, the prayers, the concerns, the frustrations, the shouting, and the argumentation and the thinking and the pleading and the speeches that went into its creation during that hot Philadelphia summer.

Progress was so slow that upon one occasion, we will remember that Benjamin Franklin, the oldest man in the gathering, stood to his feet and added, “if we spend this day in reading this short document with its precise and careful phrases, it is easy to forget the toil, the sweat, the prayers, the concerns, the frustrations, the shouting, and the argumentation and the thinking and the pleading and the speeches that went into its creation during that hot Philadelphia summer.”

Sir, I have lived a long time, and the longer I live the more convincing proof I see that God still governs the affairs of men. And if a sparrow cannot fall to the ground without our Father’s notice, is it possible that we can build an empire without our Father’s aid?

The greatest sticking point, and the most threatening that was encountered in framing the Constitution, according to Madison, was the question of whether States should be represented in Congress equally or on the basis of population. The question was far from academic. The small States feared that they would be swamped in a more centralized union: “The Constitution must be acceptable to the small States, as well as to the large States. The large States of Virginia, Massachusetts, and Pennsylvania were looked upon as Virginia alone, with fear and distress. The small States feared that a Congress based on population would be dominated by the large States. Virginia would have 16 times as
many votes as would Delaware. And this fact led New Jersey’s Delegates to declare that they would not be safe to allow the States to the least diminution of their sovereignty, counting three-fifths of the inhabitants only and in the other branch according to the whole number, counting the slaves as if free.

When Ellsworth’s motion for allowing each State an equal vote in the second branch was brought to a vote, it was lost by a tie. This deadlock gave rise to tense debate. Can you imagine the tension in that Chamber? We have seen tensions in this Chamber during the great debate of the Civil Rights Act of 1964—tension—the North and the South pitted against each other, and the great tensions during the Panama Canal debate.

The result was the adoption of a proposal that a special committee consisting of one member from each State should be appointed to devise and report some compromise. Three days later, on July 5, the committee presented two recommendations “on the condition that both shall be generally adopted.”

The first recommendation, in effect, provided that in the first branch the legislature each State would have one Representative for every 40,000 inhabitants, counting three-fifths of the slaves; and that all bills for raising or appropriating money should originate in the lower branch and not be altered or amended by the second branch; and that no money should be drawn from the public treasury but in pursuance of appropriations to be originated in the first branch. According to the second recommendation, each State was to have an equal vote in the second branch.

This compromise proposal was under debate for 10 days. And you know...
The Great Compromise, it is hard to see how the Federal Convention could have proceeded; since the beginning it had been cause for battle. The effort to resolve it, Luther Martin had written later, "nearly terminated in a duel." The rules of the Convention would have let them reconsider the subject, but it was hopeless. The large states knew that they were beaten, and, after July 17, they let the question die. From then on, matters moved more easily, the little states were more ready to meet the big states and were willing to yield on many questions. They felt safe, and they were no longer threatened by Virginia, Pennsylvania, Massachusetts, to them, the towering bullies. Caleb Strong told his colleagues in Boston that the federal Convention had been "nigh breaking up," but for the compromise. Luther Martin declared in Annapolis that even Dr. Franklin had only conceded to equality in the Senate when he found that all other terms would be accepted.

Catherine Drinker Bowen, in her book, "Miracle at Philadelphia," states that Madison "in his old age sat down a clear testimony in letters to his friends. The threatened contest in the federal Convention, he said, had not turned, as most men supposed, on the degree of power to be granted to the central government but rather on 'the rule by which the states should be represented and vote in the government.' They questioned 'the most threatening obstacle that was encountered in framing the Constitution.'" Those were Madison's words.

Mr. President, we should thank Providence for this miraculous document. Let me hold it again in my hand. There it is, the Constitution of the United States. We should thank Providence because Providence had to smile upon this gathering of illustrious men. Never had such a gathering of men, a gathering of minds, been placed anywhere in the world. We should thank Providence for this document.

One thing is clear: Without the Great Compromise, the Senate of the United States would not exist, for this body was conceived on that day 214 years ago. In Philadelphia, when the Framers agreed to compromise, they meant by it that each State—small, like West Virginia, which did not exist then but very surely exists now—would have an equal number of votes, each State would have equal representation.

The Senate is the forum that was born on that day. But for the Great Compromise, this beloved institution—the Senate—to which so many of us have dedicated our lives and our hopes and our reputations, our strength and our talents and our visions—might never have seen the light of day, let alone played an often pivotal and dramatic role in our national history over the course of more than two centuries.

The Chamber in which we sit today owes its existence to that remarkable instance of compromise and conciliation. For but for that Compromise, no Senator could wear the great title of Senator.

It recalls to my mind Majorian, who, in the Vandal empire, made himself emperor of the west, said he was "A prince who still glories in the name of 'Senator.'" None of us would be here today—the pages who are here, the Presiding Officer, the officers of the Senate—none of us would be here today. Thank God for the United States Senate. Thank God for the Great Compromise that was reached by the Framers on that day so long ago in Philadelphia.

The Romans spoke of the SPQR—Senatus Populusque Romanus: The Senate and the Roman people. Let us today, looking back on that great victory of our Framers 214 years ago, think in those Roman terms about our own Republic—Senatus Populusque Americanus.

Mr. REID. Before the Senator from West Virginia leaves the floor, I would like to say to him I watched most everything from my office and came to watch the finish.

I remind the Senator, when you were the Democratic leader, you allowed this young freshman Senator to go to the 200th anniversary of the Great Compromise in Philadelphia. We took a train over there. I had just come from New Mexico. It was in 1987, as I recall. It was a wonderful experience to do the reenactment. You brought back many memories.

I say to my friend, the distinguished Senator from West Virginia, presently second in many people in America are thinking about the Founding Fathers. The reason they are doing that is because of the great work David McCullough has written about John Adams, the forgotten President. It is on the best seller list. It is a straight history book, very well written. I still have about 70 or 80 pages to go. But as I said, he is a man to whom we have not, until now, paid much attention. He was the first Vice President, the person who became our second President. He was involved from the very beginning with the very difficult decisions made by this country. He spent 7 years of his life in Europe. He had never traveled at all. He traveled to Europe, trying to work out things during the Revolutionary War. It is a wonderful story.

Truth is stranger than fiction. As the Senator from West Virginia has so well portrayed here today, every day we should be thankful, in whatever private time we have, to think about how fortunate we are to be able to be part of this Government and especially to be part of this Senate, which was the Great Compromise.

I extend my appreciation to my friend for reminding us of how fortunate we are to be able to be part of this Senate and to represent the people from the various States we represent. To think, as a result of this Great Compromise, we have developed a country that is certainly imperfect but based on this document—which, by the way, is signed by Robert C. Byrd—even though imperfect, is the finest set of standards, the finest country in the history of the world to rule the affairs of men and women.

Again I express my deep appreciation to the Senator from West Virginia for tearing at my heart a little bit, recognizing what a real patriot is. The Senator from West Virginia exemplifies that.

Mr. BYRD. Mr. President, I thank my friend for his observations.

He might well have sat in that gallery of men who debated, who disagree, who compromised, who agreed, and who wrote that document. He cherishes it. He carries it in his pocket.

Yes, I very well remember that occasion when we went to Philadelphia. Our friend Senator Domenici, who is the Senator from New Mexico, was there that same day.

Mr. DOMENICI. Yes, sir.

Mr. BYRD. Yes, I remember that day. I am glad we three were blessed, among others, in our being able to attend that celebration in the City of Brotherly Love, on that august occasion.

The Senator’s reference to David McCullough reminds me of what a great part women have played in the creation of this country. Senator Byrd has mentioned John Adams. John Adams’ best friend, his most trusted women was his wife, Abigail. Walt Whitman said:

"Victory has a thousand fathers; but, based on this tiny little document—which, by the way, is signed by Robert C. Byrd—even though imperfect, is the finest set of standards, the finest country in the history of the world to rule the affairs of men and women.

Again I express my deep appreciation to the Senator from West Virginia for tearing at my heart a little bit, recognizing what a real patriot is. The Senator from West Virginia exemplifies that.

Mr. BYRD. Mr. President, I thank my friend for his observations.

He might well have sat in that gallery of men who debated, who disagreed, who compromised, who agreed, and who wrote that document. He cherishes it. He carries it in his pocket.

Yes, I very well remember that occasion when we went to Philadelphia. Our friend Senator Domenici, who is the Senator from New Mexico, was there that same day.

Mr. DOMENICI. Yes, sir.

Mr. BYRD. Yes, I remember that day. I am glad we three were blessed, among others, in our being able to attend that celebration in the City of Brotherly Love, on that august occasion.

The Senator’s reference to David McCullough reminds me of what a great part women have played in the creation of this country. Senator Byrd has mentioned John Adams. John Adams’ best friend, his most trusted confident—and that is the way it should have been—was his wife, Abigail. Walt Whitman said:

"Victory has a thousand fathers; but, based on this tiny little document—which, by the way, is signed by Robert C. Byrd—even though imperfect, is the finest set of standards, the finest country in the history of the world to rule the affairs of men and women.

Again I express my deep appreciation to the Senator from West Virginia for tearing at my heart a little bit, recognizing what a real patriot is. The Senator from West Virginia exemplifies that.

Mr. BYRD. Mr. President, I thank my friend for his observations.

He might well have sat in that gallery of men who debated, who disagreed, who compromised, who agreed, and who wrote that document. He cherishes it. He carries it in his pocket.

Yes, I very well remember that occasion when we went to Philadelphia. Our friend Senator Domenici, who is the Senator from New Mexico, was there that same day.

Mr. DOMENICI. Yes, sir.

Mr. BYRD. Yes, I remember that day. I am glad we three were blessed, among others, in our being able to attend that celebration in the City of Brotherly Love, on that august occasion.

The Senator’s reference to David McCullough reminds me of what a great part women have played in the creation of this country. Senator Byrd has mentioned John Adams. John Adams’ best friend, his most trusted confident—and that is the way it should have been—was his wife, Abigail. Walt Whitman said:

"Victory has a thousand fathers; but, based on this tiny little document—which, by the way, is signed by Robert C. Byrd—even though imperfect, is the finest set of standards, the finest country in the history of the world to rule the affairs of men and women.

Again I express my deep appreciation to the Senator from West Virginia for tearing at my heart a little bit, recognizing what a real patriot is. The Senator from West Virginia exemplifies that.
his “Thoughts On Government.” He distributed these writings to the Framers at the convention in those critical days. The Framers, I think were wise in reading the words by Adams and I think their work, their work product, reflected the thoughts of John Adams.

One of the great books I have read in my lifetime was “The Path Between The Seas” by David McCullough, about the Panama Canal. David McCullough was kind enough to send me a copy of the book. The Senator who delivered it to me also autographed it. That Senator was Ted Kennedy. So I prize that book. But I thank the distinguished Senator from Nevada.

Mr. REID. Will the Senator yield.

I am glad you mentioned Abigail Adams for the wonderful letters the two of them wrote before he was going to become President of the United States—he thought. He wasn’t quite sure, you will find, as you get through the book. He wound up winning that election by three votes over Thomas Jefferson.

The letters from the very beginning, from Abigail to John, are wonderful. I mean, you could put those letters together—I am sure we have only seen a few of them that David McCullough selected. But they were love letters. These two people were madly in love with each other from the time they started writing, when he went away to do his government stuff, clear across the ocean. They would wait months, sometimes, to get answers to letters they had written. But I was terribly struck by the letter she wrote to John Adams when he learned he was going to be President of the United States. In this letter she expressed her love for this man that she couldn’t bear to be away from, and that they would be together soon.

So you are absolutely right. John Adams could not have made it but for Abigail.

Mr. BYRD. Mr. President, I thank the Senator.

Mr. DOMENICI. Will the Senator yield?

Mr. BYRD. Yes, I am happy to yield. Mr. DOMENICI. I was present indeed at your invitation for that wonderful event. The reason I rise, I express to you what a great institution the Senate is, but the reason I say it to you is that over time you have, more than anyone else here, continually reminded people such as me what a great institution the Senate is. And you know, if you are not steeped in history, like I wasn’t, or if you really didn’t spend a lot of time other than in normal schooling on the constitutional framework, then you don’t know about the heroism of others. You might not know that the Senate is over there in Washington. But, essentially, when the Senator from West Virginia and the Senator from New Mexico, about 6 or 7 weeks ago got up on the floor and debated—I think the Senator from West Virginia wanted 3 hours and got 3 hours. I don’t know whether the Budget Act of the United States, a statute, in this instance, changed the basic Jeffersonian rules of the Senate or not, which the Senate voted with this Senator saying it did—50–49 is my recollection—I recall how passionate you were about reminding everyone what the rules of the Senate meant to the rights of the American people, to have their issues debated as long as the Senator, under the rules, could get them debated.

Who would have thought that was an important thing, until you figure out what they really had in mind for the Senate.

We are a very different institution than the House. Sometimes we get into arguments and deride each other—the House does this, the Senate does that, the upper and the lower, whatever the people say. But the truth is we are tied inextricably to the notion of there being sovereign States that make up America.

As a Senator, you find a way to tie that into the Senate and what we do; to the fact that the States have a tremendous amount of authority and autonomy in the United States. That is the way it is and should be. You represent your State and I represent mine. In a very real sense, we are permitted to do that because of what our Founding Fathers sacrificed to put the Senate into this basic governance approach.

Remind us, once again, of our origins and how important the Senate is, how much it was debated, of the great concern there was, and then to bring it current, as you do frequently, reminding us what we are and who we are. I think it requires that somebody from way off in New Mexico congratulate you for how you do that.

What you had to say about the Senate, not just today but over these years, will be for however long we exist and clearly will never be forgotten as part of our fabric.

I am very pleased to be here as that fabric is woven by the distinguished Senator from West Virginia.

Mr. BYRD. Mr. President, a long time ago, I was a boy in the coal fields of southern West Virginia. My coal miner dad bought a fiddle for me. There was a lad in that coal mining community named Emanuel Machinci. I remember that little boy and his family. In those coal camps were Hungarian families, Czechoslovakians, Germans, Scotch, Italians, and Greeks. This little boy, Emanuel Machinci, also had a fiddle. We took lessons together at the high school.

So I have often listened to and looked at my friend here—this man of Roman stock. My, what a heritage he has. I don’t know where his forbears may have originated—whether it was in the Apennines Mountains, or along the shore of the Tyrrenian Sea, or the Adriatic or the Po Valleys, or on the boot of Italy. But there were stalwart people in that Roman Senate. I often speak to Senator DOMENICI about the Roman Senate; what a great Senate.

Again, I refer to Majorian, the Emperor of the West in 457 A.D. As he was being made Emperor, he said he was “a prince who still glories in the name of ‘Senator.’”

I thank the Senator for his reminiscing time. I also thank the Senator from Nevada. I have been blessed by serving with both of these Senators.

ENERGY AND WATER DEVELOPMENT APPROPRIATIONS ACT, 2002—Continued

The PRESIDING OFFICER. The Senator from Nevada.

Mr. REID. Mr. President, what is the matter now pending before the Senate?

The PRESIDING OFFICER. H.R. 2311. AMENDMENT NO. 980

Mr. REID. Mr. President, I ask unanimous consent that the substitute amendment be agreed to, the bill, as amended, be considered original text for the purpose of further amendment, and that no points of order be waived for the purpose of further amendment, the amendment be agreed to, the bill, as amended, be given its final passage, and that no points of order be waived for the purpose of final passage.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered. The clerk will report. The legislative clerk read as follows: The Senator from Nevada [Mr. REID] for Mr. BYRD and Mr. STEVENS, proposes an amendment numbered 980.

(The text of the amendment is printed in today’s Record under “Amendments Submitted.”) The PRESIDING OFFICER. Under the previous order, the amendment is agreed to. The amendment (No. 980) was agreed to.

Mr. REID. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, this afternoon we begin consideration for the Fiscal Year 2002 Energy and Water Development Appropriations Act. The legislation we take up today was reported unanimously from the full Committee on Appropriations last Thursday.

Before I begin my description of the contents of this bill, I want to share one strongly felt opinion with my colleagues. It is my opinion, I believe—I have a real suspicion that Senator
Mr. President, it rained. This isn’t something I am proud of, but it is something that is a fact. It rained. It rained in a very small area. It rained very hard. But all of that water dumped down this canyon, and people looked up and they saw a wall of water 100 feet high coming at them. It washed cars away. It killed seven people. We never found the cars and mobile homes that washed away.

In southern Nevada, again Nelson’s Landing—but in Las Vegas we have had floods that have been just as devastating. We have not lost at one time seven lives but we have lost lives. Caesar’s Palace, this great resort—I can remember rains that washed away everything in the parking lot. It was just washed away as if they were toothpicks.

The Tropicana-Flamingo Wash in Nevada is the fastest growing community in the Nation. We have been able to save lives and a large amount of properties by virtue of the fact that we control projects ongoing there as we speak. It has cost a lot of money, but we have saved a lot of lives; and that is for what the Federal Government has an obligation, to assist local governments. There has been local money put in it, too.

The Everglades: I have seen the Everglades. I really do not understand them. I understand aridity. I understand when it rains, it never rains in Las Vegas. It rains 4 inches a year in Las Vegas—4 inches a year. You can get that much rain in other parts of the country in an hour, certainly in a day. But we get 4 inches a year in Las Vegas. Yet when it rains, it can be devastating because we have what we call cloudbursts.

Now we have 1.6 million people in that valley. When that rain comes, it is very difficult. I can remember as a lieutenant governor, we were told by the Park Service that we were going to have to close a little facility on the Colorado River, Nelson’s Landing. It has been there well over 100 years. We were going to have to close it. The Governor assigned me to look at that and the complaints were getting. We prevailed on the Park Service not to close it. They said we were going to have a 100-year flood. I went and talked to people and they said they had never known that much rain coming down that canyon: The Federal Government, they don’t know what they are talking about.

Mr. President, it rained. This isn’t something I am proud of, but it is something that is a fact. It rained. It rained in a very small area. It rained very hard. But all of that water dumped down this canyon, and people looked up and they saw a wall of water 100 feet high coming at them. It washed cars away. It killed seven people. We never found the cars and mobile homes that washed away.

In southern Nevada, again Nelson’s Landing—but in Las Vegas we have had floods that have been just as devastating. We have not lost at one time seven lives but we have lost lives. Caesar’s Palace, this great resort—I can remember rains that washed away everything in the parking lot. It was just washed away as if they were toothpicks.

The Tropicana-Flamingo Wash in Nevada is the fastest growing community in the Nation. We have been able to save lives and a large amount of properties by virtue of the fact that we control projects ongoing there as we speak. It has cost a lot of money, but we have saved a lot of lives; and that is for what the Federal Government has an obligation, to assist local governments. There has been local money put in it, too.

The Everglades: I have seen the Everglades. I really do not understand them because I understand the desert. I understand aridity. I understand when it does not rain. I am acquainted out of my little home in Searchlight I have creosote bushes that are not very tall that are 100 years old. They do not grow very much. So I do not really understand the Everglades. I am fascinated by them. But it is water intensive. It is as water intensive as the desert is not water intensive.

We have worked hard with the Senators from Florida on a project-by-project basis to take care of that. It is now a huge priority not only of the Senate, as it has been in the past, but of the administration. I think part of that could be that Jeb Bush is Governor. It does not matter. It is an important project that the Federal Government should be involved in—and we are. There is a lot of money in this bill for the Everglades.

Not far from where we stand is the Chesapeake Bay. Books have been written about the Chesapeake Bay. It is a wonder of nature. But because of the growth that is occurring in this area, the Chesapeake Bay has been threatened. The health of that great body of water has been threatened. It affects Maryland and Virginia very much. The bay is threatened as a natural resource.

Senators Mikulski, Sarbanes, Warner, and Allen have aggressively sought money to restore that waterway to what it used to be so oysters can be harvested there and not make people sick. The oyster industry in Maryland and Virginia is huge, but it has not been as huge recently because of the condition of that bay. The restoration of the beds at relatively low cost, we believe, will ultimately generate hundreds of millions of dollars in economic benefit and jobs. This is a water project.

The Port of Los Angeles: We move from the Chesapeake Bay 3,000 miles to the Port of Los Angeles. The administration had made a decision to stretch this out. The problem we have found with these promises is that even though it sounds OK, you stretch it out and it winds up costing much more money. You are better off doing less projects and doing them well. Congress has funded this project very aggressively and has saved the Federal Government 25 percent of the total project cost and has accelerated the economic benefits to California.

So these are just four examples of water projects. But there are many others. We have worked together with our members, our Senators, and, of course, many requests from people in the House, to do what we could with these projects.

Even with the additional funding the committee has added, we are still hundreds of millions of dollars shy of current year levels. We are also shy of the House mark. The other body was able to artificially raise their numbers for the Foreign Bureau by moving defense dollars in these nondefense accounts. We cannot do that. Under Senate rules, we cannot do that. In my opinion, not only the budget resolution but common sense does not allow us and should not allow us to move these funds back and forth.

But I will say to everyone who is listening, in the past, the water numbers have always gotten better for everyone as we have moved along the process; that is, we hope we can do a better job there. We get to conference. There is no guarantee of that, but we will work on that.

Our bill provides about $25 billion in budget authority and approximately
$24.7 billion in outlays. When you work with Senator DOMENICI, you always have to make sure the outlays are smaller than the budget authority. This bill exceeds the President's total request by $2.6 billion.

Let's talk about a few of the areas. The Army Corps of Engineers: The Senate bill provides $1.3 billion, which is $605 million above the President's request but $236 million below the current year level. Due to the funding constraints, this bill contains no new construction starts and no new environmental infrastructure projects.

The intent in drafting the bill was to continue to focus on ongoing construction and operations and maintenance projects at appropriate levels. The committee is eager to avoid stretching out schedules and costs on projects that are under development. Any new construction starts will have to be considered in conference. We will do what we can at that time.

A lot of people are very concerned about things they want to do. I have a lot of familiarity with the Bureau of Reclamation because they have had such a big presence in the State of Nevada. The very first project in the history of the Bureau of Reclamation was called the New Lands Project in 1902. It took place in Nevada. It is still there. The Senate's bill provides $884 million, which is $64 million above the President's request and $67 million above the current year level.

This funding for the Bureau is higher than it has been for many years. It is higher because of CALFED. This is a big project in California. It is a reclamation project. The State of California has spent billions of dollars on it already. The House put nothing in the bill for Senator DOMENICI and I put $40 million in this bill for the CALFED and CALFED-related projects. The subcommittee has funded CALFED-related projects using existing authorities under other accounts. Senators FEINSTEIN and BOXER have both been very tireless advocates for the Bay-Delta Program. Senator DOMENICI and I are both delighted to provide substantial funding.

The Department of Energy: We in Nevada have great familiarity with the Department of Energy. Nevada has been the place for 50 years where almost 1,000 nuclear devices have been set off in the desert—most of them underground but not all of them. I know about the Department of Energy. This bill contains over $20 billion for the Department of Energy. This is $2.1 billion over the level of the President's request and $1.9 billion over last year's level. Most of this additional funding is being used to provide adequate funding for the National Nuclear Security Administration, to enhance funding levels for these important research and development issues.

Consistent with the budget resolution, this bill provides $6.1 billion to the National Nuclear Security Administration for stockpile stewardship activities. This funding is $705 million over the President's request and $1.05 billion over the current year level. I am only going to speak a little while about the National Nuclear Security Administration, known as NNSA. I defer to Senator DOMENICI on this subject. Senator DOMENICI was the primary congressional architect of the creation of the National Nuclear Security Administration. He did it tirelessly to get it authorized and has been dogged in his pursuit of funding to make sure that this important organization gets the resources it needs to succeed. To his credit, he convinced his colleagues on the Budget Committee that the safeguarding and rehabilitation of the Nation's nuclear weapons was a critical issue that has been underaddressed and underfunded in recent years. Senators BYRD and STEVENS followed up with appropriation resources designed to support the levels in the budget resolution.

This morning I spoke to the interns for Senators LINCOLN and HUTCHINSON of Arkansas. I don't know how many interns there are. There are a lot of young men and women. One of the young people asked me: What do you think is the most important problem facing the world? I thought for a minute. I said: Nuclear weapons. I really do believe that with the deteriorating condition of the former Soviet Union, Russia's nuclear stockpile, and the responsibilities we have, that is a very important issue. I can't think of anything more important for my grandchildren than to make sure they live in a safe world.

One of these weapons that we control and certainly one that the Soviet Union controls could accidentally go off. It would be devastating. It would make Chernobyl look like nothing. Chernobyl was just a nuclear reactor gone bad. We are talking about a nuclear weapon gone bad. I believe that is the No. 1 problem facing the world. We have a number of different ways of addressing it. We have to spend more money and there are efforts being made for a nuclear shield for this country. But what we are talking about in this bill is doing what we can to make our nuclear stockpile safe and reliable. Our bill spends some money, maybe not enough, to work on the Russian Union, but we have to at least see if we can help the problem.

I have to admit, I was a skeptic when Senator DOMENICI and others approached me about the creation of this autonomous organization several years ago. I thought it was a partisan ploy to maybe embarrass the administration. But as it turned out, it is working very well. I have come to believe Senator DOMENICI was right.

One of the people who has done a good job of convincing me of that is the person running that agency. We as a country, as a world, are so fortunate that a retired general would take charge of this operation. He believes in it. He is a very competent, dedicated, patriotic American. With him heading this office, we should all go to sleep at night resting well that everything possible is being done to make sure we do have a safe and reliable nuclear stockpile. I am going to do everything I can to give him the resources he needs to do his job. He has a job that is very difficult.

I am also, of course, holding him accountable for getting the job done. I have been a long-time critic of cost overruns and management incompetence within the weapons complex. I know General Gordon will take these enhanced resources and use them to get some fresh blood and fresh thinking going on within the Department of Energy.

I am not going to go into more detail. I know Senator DOMENICI will speak about this, since this is his so-called baby. It has grown up and is about to become a teenager. It is something to which the Senator can speak with more authority than I.

Finally, I am very pleased to report that the committee has made great strides in restoring and enhancing the devastating cuts made in the Environmental Management Program at DOE. This Senate bill provides $7.23 billion, $900 million above the President's request and $650 million above the current level. The biggest beneficiaries of these additional, cut-up dollars are the Hanford, Washington site, hundreds of millions of dollars; Savannah River site, almost $200 million, that is in South Carolina; Idaho, over $150 million; Ohio and Kentucky, tens of millions of dollars.

As with water programs, I realize there are never enough resources we can spend to clean up the legacy of the cold war and other activities, but we have done our best.

These are some of the highlights, from my perspective, of this bill. It is a bill I have learned to like. It is a bill I have grown to understand. I have grown to acknowledge the importance it has to our country. I hope my colleagues will realize the hard work we have worked on this legislation.

Senator DOMENICI and I would like to have a cutoff time for the filing of
amendments. We tried tomorrow at 11 and 12, and we have received objections to that. We are here. If somebody wants to offer amendments, they can certainly do that. They have to have offsets or figure out some way to fund them because we are down to the nubs. We have no more money. If people don’t like the way we have worked the bill, it is their privilege to come forward with amendments.

I do think it would be in everyone’s interest to have a finite list of amendments filed at an appropriate time. If anyone has any suggestions when that should be, Senator DOMENICI and I are open for discussion.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Mr. President, let me first acknowledge the wonderful cooperative operation that existed here in New Mexico. I was chairman and this Senator as ranking member. I believe under the circumstances and considering the variety of things this subcommittee has to fund, we have done a pretty good job. I could offer for more understanding than I have received from the distinguished Senator, the chairman of this subcommittee.

I believe our staff has worked together, and I hope I have been equally considerate and concerned about issues of importance to the good Senator from Nevada.

As a result of this effort, we are together in trying to get this bill passed and get it off to conference and getting these issues resolved as soon as possible.

Let me say to my good friend, he was talking about a flood that occurred in the State of Nevada in one of those dry rivers where for most of the year no water is in it. But then you have a little cloudburst up in the mountains and these dry rivers turn into flooded, huge water resources plowing down the hills right into housing. In our State we call these dry rivers a Spanish name, “arroyos.”

In my home city of Albuquerque, I was pleased to serve 4 years as the city councilman, sort of chairman of the commission, which made me the closest thing to a mayor as you could have. I remember one Sunday afternoon in the year 1968, I was very wet, I had just been on this council as chairman for awhile. It started raining Sunday afternoon. I called up one of my good friends on the city council who knew more about the details of the streets and everything else than anybody in the city.

I called him up and said, “Harry, this rain is coming down in the wrong places; something is going to happen.” He said, “Where are you?” He picked me up and we rode around. Rain kept coming down harder and harder, and these dry rivers started to show a little trickle. Four hours later, we were riding the streets of Albuquerque and big manhole covers over the tunnels that carried water underground to avoid floods were standing or dancing on those manholes up 4 or 5 feet and stood them up while the place got flooded. We saw more and more of them. I told my friend, “This is a real problem.” He said, “No, things will be all right.” Finally 2 hours later, we got a call from the police chief. He said that in one whole piece of our city, maybe as many as 10,000 homes were under water. They had water in the kitchens, close to the tops of the stoves. It was a gigantic flow of water that came down these dry arroyos.

I remember coming here with a group of Albuquerqueans. I was city councilman then. We appeared before the Public Works Committee, which had to authorize the bill on which it went on to get appropriated. We came up to ask if the Federal Government would expand a program that was about to run out so we could build these rivers so they would be safe. Now if one flies over Albuquerque, as you approach the airport you see two giant cement waterways that are around the edges of the town—huge. They catch the water in these dry rivers up by the mountain and run them down these no longer dry rivers, but they are cement-lined ditches. Water comes down, and now you can be riding around and your commissioner friend Harry can say, “It is raining hard, Mr. Chairman,” and you can say, “It might hurt something else, but it won’t flood anymore.”

That is the kind of thing we pay for in this bill for hundreds of places across America. We hope we get them before they flood, but sometimes we don’t. Sometimes we pay for them after they flood. But to make sure we are not building white elephants, we require a very substantial match. The community has to come up with money. That is the way we finally decide it must be important, because they are not just asking us to have a construction project, they are going to pay for part of it.

My good friend, the chairman, outlined water issues. Clearly, there is no end to the requests in our country for water. We have the rule: the bills must go on to get appropriated. We came up to ask if the Federal Government would expand a program that was about to run out so we could build these rivers so they would be safe. Now if one flies over Albuquerque, as you approach the airport you see two giant cement waterways that are around the edges of the town—huge. They catch the water in these dry rivers up by the mountain and run them down these no longer dry rivers, but they are cement-lined ditches. Water comes down, and now you can be riding around and your commissioner friend Harry can say, “It is raining hard, Mr. Chairman,” and you can say, “It might hurt something else, but it won’t flood anymore.”

That is the kind of thing we pay for in this bill for hundreds of places across America. We hope we get them before they flood, but sometimes we don’t. Sometimes we pay for them after they flood. But to make sure we are not building white elephants, we require a very substantial match. The community has to come up with money. That is the way we finally decide it must be important, because they are not just asking us to have a construction project, they are going to pay for part of it.

My good friend, the chairman, outlined water issues. Clearly, there is no end to the requests in our country for water. We have the rule: the bills must go on to get appropriated. We came up to ask if the Federal Government would expand a program that was about to run out so we could build these rivers so they would be safe. That is the way we finally decide it must be important, because they are not just asking us to have a construction project, they are going to pay for part of it.

Overall, the proposed fiscal year 2002 energy and water bill is a very fair and balanced bill that makes important improvements in our national security, our energy security, our economic prosperity, and in the health of our environment. This bill is an important step in implementing the President’s National Energy Policy.

The Senate bill in total provides $25 billion in budget authority and approximately $24.7 billion in outlays. The bill exceeds the President’s request by $2.6 billion, and exceeds the House bill by $1.4 billion. Without going into detail about all of the many great things in this bill, I would like to focus my remarks on two broad areas: (1) What this bill does for our energy security, and (2) What this bill does for our national security.

For our nation’s energy security, this bill represents a major step in fulfilling the President’s commitment to a balanced and diversified energy policy—particularly in the area of expanding the supply of clean energy from renewable sources and nuclear power.

First, that the policy focuses on supply and ignores conservation and efficiency. And second, that the policy fails to address the possible threat of global warming.

The policy is so clear on the first point that those who argue simply haven’t read it. There are more policy recommendations impacting conservation and efficiency than supply. Over $6 billion in proposed tax reductions are targeted at conservation and efficiency.

Furthermore, the whole policy is based on substantial gains from improvements in conservation and efficiency. If we maintained the current ratio between energy demand and the growth of domestic production, we would need 77 percent more energy in 2020 than we are producing today—77 percent more. The National Energy Policy recommends conservation and efficiency measures that would reduce the required increase by over half—resulting in us only needing to produce 29 percent more energy by 2020. That is a substantial but necessary commitment to conversation and efficiency.

Let me turn to that second myth, that the policy doesn’t address the possible threat of global warming. Once again, those who have read the policy shouldn’t make that statement. The policy has strong support for clean energy sources.

Renewable sources are encouraged in many ways, including tax credits for wind, biomass, solar, and the purchase of clean fuel vehicles. The policy supports a major research program in clean-coal technologies, advocates increased funding for renewable energy R&D and recognizes nuclear energy for its very positive environmental benefits.

It is in these last two areas, renewable energy and nuclear energy, that
the energy and water bill takes a major step in implementing the President’s national energy policy.

The energy programs are funded in this bill at $435 million. That’s $60 million and 16 percent above the current year level. There’s no question that renewable sources can and should play a larger role in our energy supply, and this budget will accelerate progress towards that vision.

Within that renewable budget, several programs are slated for major increases. Just to give a few examples:

Research on hydrogen-based technologies is up almost 30 percent over last year. That research may lead to decreased use of petroleum products in transportation, certainly a critical goal.

Research on high temperature superconductivity is boosted by almost 20 percent. That's a technology that may enable dramatic reduction of losses we now experience in electric transmission lines and motors.

Geothermal research is 20 percent above the current year level. Wind systems are up more than 10 percent.

Nuclear energy received significant increases as well in this bill. I strongly agree with the President’s National Energy Policy in its recommendation supporting the expansion of nuclear energy in the United States. Nuclear plants offer emission-free power sources, help maintain diversity of fuel supply, enhance energy security, meet growing electricity demand, and protect consumers against volatility in the electricity and natural gas markets.

This bill pushes nuclear power forward with a number of important initiatives: The bill includes $19 million for university research reactor support—an increase of $7 million over current year—to make sure our country has the educational resources necessary for an economy that continues to rely substantially on nuclear power.

The bill includes $9 million—an increase of $4 million over current year—to expand a program to improve the reliability and productivity of our 103 existing nuclear power plants.

The bill continues the highly successful Nuclear Energy Research Initiative (NERI) at $38 million—$3 million more than current year.

The bill provides $14 million—an increase of $7 million—to continue work begun last year on advanced reactor development, including research on generation IV reactors—reactors that will be passively safe, produce less waste, and reduce any proliferation concerns.

The bill provides $10 million for the Nuclear Regulatory Commission to prepare to license new nuclear power plants.

The bill continues an R&D program we started two years ago on ways to reduce the quantity and toxicity of spent nuclear fuel—called “transmutation”. This technology, currently highlighted in the President’s National Energy Policy, will be continued at $70 million in 2002.

Let me emphasize that I used the phrase “spent fuel” rather than “waste” because what we’re really doing is figuring out what materials coming out of our reactors. Right now our national policy calls for disposing of those materials as waste in a future repository. But we need to remember that these materials still contain 95 percent of their initial energy content.

I’ve been concerned for years that it is highly debatable for us to decide that future generations will have no need for this rich energy source. With improved management strategies, possibly involving reprocessing and transmutation, we can recycle that material for possible later use, recover far more of the energy, and dramatically reduce the toxicity and volume of the materials that are finally declared to be waste.

As a final thought on energy security, Mr. President, I want to share with my Senate colleagues a vision, which is encompassed in this bill and which I’ve shared with President Bush. We need to reach beyond the debate over Kyoto with a blueprint that provides the tools to combat global warming.

I’m convinced that we can have growth and prosperity in America without global warming.

And I’m equally convinced that we can help provide those same benefits for the world.

I propose that we provide worldwide leadership to eliminate the threat of global warming by a commitment to prosperity and growth through clean energy.

And I further propose that we accomplish this goal through partnerships with our friends and allies, especially those in developing countries.

I’ve specifically urged the President to lead this new initiative, to accelerate our own research and build international partnerships for joint development of all the clean sources of energy—renewables, clean fossil fuels, nuclear energy, and hydrogen-based fuels. Then as we transition to improved technologies in the future, our partner nations will also be building up their energy infrastructure with the latest and cleanest technologies.

Last year’s energy and water development bill called for improvements in the federal government’s role in international development, demonstration, and deployment of advanced clean energy technologies.

With this new bill and the President’s policy, our nation is developing a suite of energy supplies that will provide us with clean, reliable, economic energy far into the future. But I continue to believe that we should be looking beyond our own borders.
We will need to spend an additional $300–$500 million a year for the next 17 years over currently planned levels to refurbish the nuclear complex to perform its basic mission. These expenditures will be required even if the nuclear stockpile is dramatically smaller.

If we do not take action on these infrastructure problems immediately, we will not be able to meet the Department of Defense schedules for refurbishing three main weapons systems representing over 50 percent of our stockpile. We will not have the scientific facilities required to certify weapons. Our technicians and scientists will continue to work in unsafe facilities—increasing health risks and the number of safety related shutdowns.

Although the work must begin immediately, the budget request included no funds to begin such an initiative. Therefore, the bill before the Senate includes $300 million to begin a major facilities improvement program in fiscal year 2002 at facilities in South Carolina, Tennessee, Missouri, Texas, New Mexico, Nevada, and California.

The second major improvement on the administration’s budget request is that the bill provides additional funding to rebuild current weapons. The average age of weapons in the stockpile is now approaching 18 years—most were designed for a life of no more than 20 years. Many weapons components degrade substantially over time and have to be replaced. The Joint Department of Defense/NNSA Nuclear Weapons Council has recognized the fact that most of our weapons will have to be rebuilt, but funds were not requested to do so.

Therefore, the bill includes an additional $290 million in fiscal year 2002 to get the weapons complex back on track to rebuild current weapons on the schedule required by the Department of Defense.

The third major improvement on the President’s request is that this bill fully funds pit production on the required schedule. Technicians and scientists who have all had to learn together. I have a genuine parochial reason, because two of the three laboratories—Los Alamos and Sandia Laboratory—represent over 50 percent of our stockpile.

We will need to spend an additional $110 million to get the program back on track.

The fourth major improvement is that the bill achieves unmet national security threat to the United States today is the danger that weapons of mass destruction or weapon-usable material in Russia could be stolen and sold to terrorists or hostile nations and used against American troops abroad or citizens at home.

The report also concluded that . . .

Current nonproliferation programs of the DOE have achieved impressive results thus far, but their limited mandate and funding fall short of what is required to address adequately the threat.

I am pleased that this bill adds over $100 million to the important nonproliferation work the NNSA carries out in Russia and other countries of the former Soviet Union. These programs to control the material and expertise necessary to make weapons of mass destruction problems identified as “the most urgent unmet national security threat to the United States today.”

Once again, Senator RIEH, I want to commend you for a balanced approach. I do not agree with every aspect of the bill, but I cannot argue with the fair manner in which you have put it together. I strongly support the bill, and urge all Members of the Senate to do likewise.

Let me proceed as quickly as I can to summarize this bill. First, I am very pleased to join with Chairman RIEH in considering this fiscal year 2002 Energy and Water bill. I note that in the chair is a new Senator. I would think that he might wonder what in the world is an appropriation bill called Energy and Water. Well, my good friend, the new Senator from New Jersey, will never sit down and rationally decide what is in this bill. You have put it together in a way that I believe will be a win-win situation for the administration, for the Congress, and for the American people.

The administration’s budget request was closed down in 1989. Plutonium pits are the “triggers” for nuclear weapons, that occasionally must be reprocessed. The original program was started in order to produce pits for nuclear weapons, but the program was shut down because two of the three laboratories frequently called the nuclear laboratories—not exactly the right name—were in my State. There is Los Alamos. Everybody knows that is where we did our first nuclear weaponry work—test the weapon on the mountains. But there is a city there now. In Albuquerque is Sandia Labs, an engineering laboratory, which is part of this. The third one is in the State of California. The three of them do much in addition to the work on nuclear. There are great researchers who are on the cutting edge of much of the science of the future in terms of energy needs and the like. So that is in this bill.

And then, obviously, since it is an energy bill, it has an awful lot in it about the energy research and development that is occurring in the Department of Energy. First, let me quickly say that part of this is the implementation of energy policy.

We are still waiting around to debate and pass judgment on whether we are going to have some tax incentives that the President asked for in terms of developing new and different kinds of energy called “renewables,” or whether or not we are going to decide to open up more of the public domain to the development of gas and oil; in this bill, we get along with getting some of these things paid for and done, which everybody knows we should be doing. But it is most interesting—and this is an opportunity to speak for a moment about the President’s energy policy in one regard. There is a lot said about: what about conservation, and what about saving our energy? I am reminded that in preparation for this activity, in marking up this bill, I chose to read the President’s policy in its entirety. I want to cite one piece, because there is a lot said about there not being enough conservation in this policy, not enough things that push us to conserve and save. Well, I have come to the following conclusion, and if I am wrong, anybody that would like to read the policy and discuss it, I would be glad to do so.
CONGRESSIONAL RECORD—SENATE

As this energy policy tells us what we need in the future, up to the year 2020, it is that we could have to produce 77 percent more to meet our needs over this next 20 years—just for reasonable needs. But would you believe that a huge portion of that possible need is projected to come from conservation and saving energy, such that, of the 77 percent, only 20 percent is from new production? So if you do the arithmetic and subtract them, it is pretty obvious that there is a very large amount that is expected by way of either legislation or conduct in our country to save and conserve energy, along with increasing production of various types of energy.

Let me talk about one. I am very pleased that both Senator Reid and I and our staffs worked very hard on what's called renewable energy programs. Because of the Senator's dedication and us working together on this, we are funding the renewable energy programs at $335 million in this bill. That is 16 percent higher than this year. There is no question that renewable resources can and should play a larger role in our energy supply, and we push that or accelerate that in this bill. Within this renewable budget, several programs are slated for major increases, and I am going to tick some of them off.

Hydrogen-based technology is up 30 percent over last year. Some people think this whole area of hydrogen-originated energy sources is one of our real solutions to clean and healthy production of energy without having any adverse impact on global warming. The research may lead to a decrease in the use of petroleum products in transportation.

We also have superconductivity and geothermal, both have 20 percent increases. All of these can have an incremental positive impact on helping us meet our energy needs without having a major impact on global warming in the future.

Incidentally, the President has suggested we should move ahead with nuclear energy in the future. And for our industrial friends in the world and, yes, indeed, for those countries which do not yet have much of an economy, we should not start on that path unless we have the arithmetic and subtract them, it is pretty obvious that there is a very large amount that is expected by way of either legislation or conduct in our country to save and conserve energy, along with increasing production of various types of energy.

and for our industrial friends in the world and, yes, indeed, for those countries which do not yet have much of an economy, we should not start on that path unless we have the arithmetic and subtract them, it is pretty obvious that there is a very large amount that is expected by way of either legislation or conduct in our country to save and conserve energy, along with increasing production of various types of energy.

We can produce clean energy for the future. With renewables, nuclear, and other forms of energy joining together, we can say to the world: You can grow and prosper. The poor countries will have an equal opportunity to do that, and we will not have to reduce growth, we will not have to put on caps, we will just have to use our ingenuity and science better.

There are a number of things we did to let America take a good, solid look at what the next generation of nuclear powerplants or even the next one after that might look like and how it will help.

I want to share with my friend, Senator Reid, and those who are paying attention to what we are doing today, a portion of my comments today which I choose to call "Reaching Beyond Kyoto." I, frankly, believe the President of the United States has a rare opportunity to lead the world beyond Kyoto.

I say to my fellow Senators, I have talked to the President about this very issue. I have suggested it is a rare opportunity for him to lead the world in reaching beyond Kyoto, and I will talk about that for a minute.

This is a vision, and part of it is in this bill because this is what we do in this bill. It says that we need to reach beyond the debate over Kyoto with a blueprint that provides tools to combat global warming. Further, we should ask the world to join as our partners and move ahead.

I am convinced we can have growth and prosperity in America without the threat of global warming. I am convinced we can help provide some benefits for the world. I propose we provide worldwide leadership to eliminate the threat of global warming by a commitment to prosperity and growth through clean energy, and I further propose we accomplish this goal through partnerships with our friends and allies, especially those in developing countries.

I have specifically urged the President to lead this new initiative to accelerate our research and build international partnerships for joint development of all clean sources of energy—renewables, clean fossil fuels which our distinguished chairman of the Appropriations Committee, Senator Byrd, alludes to frequently as it relates to coal—nuclear energy, and hydrogen-based fuels.

As we transition to improved technologies in the future, our partner nations will also be building up their energy infrastructure with the latest and cleanest technologies. And, yes, there is no question, then, that we can send a message that the poor countries in the world can grow and prosper. As a matter of fact, they, too, can participate in this abundance of growth and prosperity for their people without adverse effects on global warming.

Last year's energy and water development bill called for improvements in the Federal Government's role in international development, demonstration, and advanced clean energy technologies.

With this new bill which is before the Senate, and the President's policy, our Nation is developing a suite of energy supplies that will provide us with clean, reliable, economic energy for the future.

I continue to believe we should be looking beyond our own borders. I submit that we should be seizing every opportunity to help the developing nations around the world achieve much higher standards of living. It simply cannot do that without reliable electrical supplies. I believe we can help them with this global approach of partnerships around the world to develop this technology and produce the next generation of nuclear powerplants. But we should not start on that path unless we set the goals for achievement of what they will look like, what they will do, and what they will not do.

It is the same with clean coal technology: Set the goals and then let's achieve them in this world so we can all grow and prosper. We all know we have an abundance of energy supplies in our country. We have natural gas. And it will make a huge contribution for our country. But every nation needs diverse energy supplies, not a singular reliance on a single source.

Leadership has been shown by Senator Byrd with clean coal technologies that match this vision very well. Some nations have immense coal resources. Through this vision, they can benefit by Senator Byrd's efforts to advance clean coal technologies. Through this bill, we can fund renewables and ask our President to join worldwide with efforts to push renewables even more and to greater ends. And it is the same with all of those energies that have no effect, no impact on global warming.

I can say, it may very well be, within a very short period of time, a nuclear powerplant will be developed. It will be a small little plant instead of a thousand megawatts. It might be 50 or 100 megawatts. It will be a module. It will be self-contained. It will have no chance of having a meltdown. Just by the physical facts about its evolution and development it cannot, it will not. We might not have to touch it for 25 or 30 years.

Those are things we can work on as a criteria for development and growth and then set our great scientists in the private and public sector, with others in the world, to achieve this goal. What a great opportunity in the midst of a world that is frightened about whether
we can grow, whether poor people can get rich, where the poor countries have to remain undeveloped because they cannot grow. As I said, we will say we can all grow and prosper. We have not stopped growing and prospering, but we can do it without affecting global warming if we just say let’s take a lead, let’s do this, let’s ask our greatest companies, our best laboratories, our greatest scientists, led by America, let’s put some money in each year in a consortium-type arrangement to get this done.

If I sound like I am excited about something, obviously for some of you I have not even yet reached anything like an excited pitch, but in any event, I am because I believe it is a rare opportunity to take the genius of science—and I might say, I have a bias and prejudice but I think it was wrong. I think we have nuclear power for a reason. I don’t think we have developed nuclear power to throw it away. I believe we can develop another generation of nuclear power plants that can help this entire world prosper and put global warming behind us.

Then we can ask, what is next? What have to be next are growth and opportunities, and not just for us. We say to the world, let’s be free. But, we don’t want people to think we are for them being free and poor. We are for them being free and affluent, to grow and have what we have. It cannot be done without better sources of clean energy.

I believe this bill has things in it which, if put together by the President in a partnership arrangement, I think we could see real daylight and perhaps might be able to set some goals.

My last comments will be very brief and have to do with national security. As I said, I think what a peculiar bill, energy and water. Who would guess that sandwiched between those two words, energy and water, are the U.S. national security interests in nuclear weapons.

We have a national policy, voted on this Senate floor on an amendment by the distinguished Senator Hatfield from Oregon, we don’t test our nuclear weapons underground nor do we test them at all. We don’t do that anymore. That used to be the easy way. I say that because it is not. It is not easy. That is the way we used to determine reliability and safety. We don’t do that anymore. We don’t test underground. We have something to take its place. We have a whole body of science and computerization that we put together.

It is now in the Department of Energy, and it has reached major nuclear laboratories. We fund a program called science-based stockpile stewardship. Stockpile is the nuclear weapons stockpile. We fund a part of the Department of Energy that is called the NNSA. My good friend, Senator Reid, alluded to it when he spoke of creating this new institution within the Department. The current leader is four-star General Gordon. He’s doing a great job of pulling together and making sure we know the nuclear weapons aspects of the Department of Energy, reporting only to the Secretary. In a very real way he’s making sure we do a better job with what we spend on this stockpile. None-the-less, we have to spend money on it. The biggest difference between our budget and the President’s budget is what to do with replenishing some of the physical facilities that are now old and broken down that are part of this NNSA.

This bill says, let’s get started in multi-year repair and replenishing of some of the facilities that are nearly 50 years old in which we ask the world’s greatest scientists to work to help. And it also says we have to keep the President’s very difficult job. It will take many years to replenish these physical facilities, these laboratories.

In addition, there are specific items such as major improvements in the plant associated with the production of Uranium. You simply must soon have the capability to produce plutonium pits for weapons, a capability we lost when Rocky Flats was closed in 1989. We had to put extra money in this bill, in order to keep that program on the calendar on which it is expected to be. We have to put those funds in because we know they are needed. Add it all up and we have a very well rounded bill covering mundane things as well as the complex and difficult.

In closing, let me say that as part of this Department of Energy, we have developed some great research laboratories and not just those created and involved in nuclear work. There are many others that work on various aspects of research in America, most in the fields of energy, but not all, where some of the very best scientists in the world and some of the very best basic science research activities take place.

In summary, we think we have a bill that takes care of, as well as possible, water resource needs of our country. It takes care of the basic energy needs we can promote through the Energy Department in moving ahead with another generation of nuclear reactors. And it can do this on renewables. Through this bill and another dealing with cleaning up our coal so we can use it cleanly, we can have a prosperous future without having a negative impact on global warming and the future of our country and the world’s people. We think we have done that fairly well.

We have spent more than the President asked. We hope we will be able to explain to the White House and OMB why it has been done. We still have time after the bill is debated to do that. In the meantime, as the amendments come forward, perhaps the White House will have some suggestions. I hope they don’t ask us to change our vision. I think the vision in this bill is to move ahead with new sources of energy that will be good for America and we are going to do it in a way that everyone will grow and prosper, so the poor can get rich in the world.

I yield the floor.

Mr. REID. We are on the energy and water bill. I know the Senator from Arizona wishes to speak.

Mr. KYL. I want to take 30 seconds to compliment the Senator from New Mexico, and then I will ask unanimous consent to speak for more than 5 minutes in morning business.

Mr. REID. My friend from Oregon also wishes to speak for 20 minutes in morning business. I ask that the Senator from Arizona be recognized to speak for up to 10 minutes in morning business, and that the Senator from Oregon be recognized for up to 20 minutes.

Mr. DOMENICI. Reserving the right to object, Mr. President, what are you thinking in terms of the bill?

Mr. REID. I will visit with you now. Mr. DOMENICI? I yield the floor.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. KYL. I will not take the full 10 minutes.

I take 30 seconds to simply say. Senator DOMENICI each year has a significant responsibility, as well as the other Members of the subcommittee on which he sits, to put together a bill for energy and water. As he pointed out, a great deal of the jurisdiction of that subcommittee deals with our nuclear weapons program. Senator DOMENICI does not simply put together what he has been told is a good idea. He has taken a career to learn from these laboratories—a couple of which he represents—with the best scientists, what is best in nuclear science research laboratories, and what needs to be done. It is not a luxury, it is necessary, and there is no big political payoff. Very few people have the knowledge he does. He relies on people such as his staff, Clay Sell and Dr. Peter Lyons, a nuclear physicist from Los Alamos Laboratory, to assist him in developing the kind of plans that the Senate then needs to act upon, particularly with the comments about the development of nuclear energy that will be said. Mr. President, we need to promote for this country.

I think he is absolutely right on the mark. I plan to join him in his efforts to promote that in the coming months.

Mr. DOMENICI. Will the Senator yield?

Mr. KYL. I am happy to yield.

Mr. DOMENICI. I should have mentioned in my remarks, one of the Senators who has helped me in the many months that we engaged in trying to make the Department of Energy more focused with reference to our nuclear weapons programs was the distinguished Senator from Arizona. I thank him for that help. We are not over that
The world needs a golden anchor.

July 16, 2001

CONGRESSIONAL RECORD—SENATE

13299

hurdle yet. Indeed, General Gordon and that semiautonomous agency have not been totally formulated. They are not grown up yet and are still walking along, maybe comparing it to high school and the eighth grade. They still have to get the diploma. This bill should enhance it or give them some of the tools they claim they need.

In the meantime, I thank the Senator for observations and comments regarding a world beyond Kyoto. Clearly, if we do this right, we can have an abundance of energy and there need be no atmospheric pollution; we can do it another way. Clearly, we can get it done.

I thank the Senator for his observation.

Mr. KYL. Will the Senator yield?

Mr. REID. Will the Senator yield?

Mr. KYL. I yield.

The PRESIDING OFFICER (Mrs. CLINTON). The Senator from Nevada.

Mr. REID. The Senator from Arizona missed my brief statement today about how I had become a late believer in the work that he and Senator DOMENICI had done. That was the Nuclear Security Administration. As you may recall, last year I fought that initially. As I said to Senator DOMENICI, I thought it was being done, initially, for reasons other than what it turned out to be. I commend the Senator from Arizona—I have already done that. I commend the Senator DOMENICI—for the great work being done by General Gordon and the people working with him. It certainly has been a step in the right direction.

With the deep concern I have with the nuclear arsenal, I think there is nothing we could be more devoted to than making sure General Gordon has enough money and general resources to do what he has to do which is so important.

ECONOMIC GROWTH

Mr. LOTT. Madam President, we have seen for the past year a reduction in the growth rate of our economy. The world is experiencing a global economic slowdown. The tax cut signed into law in June contained compromises to make the tax cuts in the lowest bracket retroactive to January 1. We are also going to begin to see the tax reduction cheats in the American people's hands by the end of this month. Perhaps there has never been a better-timed tax cut. The dollars we are returning to the taxpayers and the rate cuts that will allow them to keep a little more of their own hard earned salaries will provide some stimulus to keep the economy from falling further behind.

I reject the advice of those who say that now is the time for the government to try and take more money out of the American workers' pay envelopes. Nothing could be worse for a weakening economy. In fact, I believe that now is the time to find more ways to encourage economic growth. The tax cut provides some immediate stimulus and in the long-term some growth in the economy. But we need to look at ways to kick-start the supply side of the economy. One possibility is to cut the capital gains tax rates. I will be pursuing this effort in the coming weeks and months. Nothing is more important than to get our economy moving again at full speed.

My friend Jack Kemp authored a most interesting and compelling article a couple of weeks ago in the Wall Street Journal. Thirty years ago when I came to Congress I first met Jack. He was then and continues to be a person who is not afraid to challenge the common norms of economic thought. In the 70's Jack led the charge for tax rate cuts to get the economy moving. We have too easily forgotten the hopelessness that many Americans felt in the late 1970's facing stagflation with no idea of how to turn the flagging U.S. economy around. Now we face a problem of a global slowdown. Jack suggests an answer. Many will try and dismiss his proposal. This is a debate that needs to continue.

We need to get the American economy running at full speed. The tax bill was the first step. Getting the economy back to full growth will be my primary focus.

I ask unanimous consent that the article by Mr. Kemp be printed in the Record.

There being no objection, the article was ordered to be printed in the Record, as follows:

[From the Wall Street Journal, June 28, 2001]

OUR ECONOMY NEEDS A GOLDEN ANCHOR

(By Jack Kemp)

How many more dashed hopes and false recoveries must we experience before politicians and monarchical authorities accept the fact that our inability to manage fiat currencies is causing the global economic slowdown? They have too easily settled for interest-rate reductions to kick in, yet more than six months after the Fed began lowering rates the economy continues to weaken. Waiting for the recently enacted tax cuts to provide "stimulus" will prove futile as well. The economy does not suffer a lack of consumer demand, and more money in people's pockets will not revive the supply side of the economy.

UNPRECEDEDENTED EXPERIMENT

Ronald Reagan once said he knew of no great nation in history that went off the gold standard and remained great. Since Aug. 15, 1971, when the U.S. ceased to redeem dollars held by foreign governments for gold, we have put that thesis to the test. For the first time in human history, not a single major currency in the world was linked to a commodity. Economist Milton Friedman called the situation "unprecedented" and said it was not an "optimal alternative." "The world," he said, "needs a long-term anchor of some kind."

In the short term, at least, he was vindicated. The monetary system of floating flat currencies with the stroke of a pen, President Nixon touched off a world-wide inflation that lasted through the '70s and early '80s.

Yet America recovered to preside over the demise of world communism, and overcame the rising inflation and unemployment of "stagflation" to enjoy an unparalleled 18-year economic expansion. Today, the U.S. is at the pinnacle of its power and enjoying its greatest prosperity ever.

Were Messrs. Reagan and Friedman wrong? I don't think so. If the U.S. has so far come out on top in this experiment, it is only because other countries' economies have suffered even more from floating currencies.

Once the U.S. government ceased redeeming gold at $35 an ounce, its price quadrupled on world markets to $480 to reflect the dollar's diminished value. By breaking the gold link, the Nixon economic team forced the unwanted liquidity pouring out of the Fed—which had thus far built up in the Eurodollar market and the portfolios of foreign central banks—to remain inside the U.S. economy where it would manifest itself in price inflation. Robert Mundell was the first to predict, in January 1972, that the U.S. could soon be a dramatic rise in the price of oil, with general inflation to follow.

Where the rest of the economics profession believed the Arab oil embargoes for quadrupling the oil price in 1973, Mr. Mundell and those supply-siders who followed his intellectual lead knew that gold's quadrupling had led the way. To the supply-siders through "bracket creep," capital formation stopped in its tracks, and it soon took two workers to produce the same income that one had before oil price hikes. The stagflation that had its roots in leaving the gold standard was compounded when Congress and three different presidents tried to fix it with wage and price controls and high marginal tax rates.

But discretionary monetary policy is Janus-faced, and instead of too much liquidity in the world economy we now have too little. Deflation began in 1996 when the Fed tightened monetary policy to combat some inflation it had created attempting to offset the economic drag of the Clinton tax hikes. A rising dollar then caused the dollar pegs of emerging economies to snap, set off the Asian, Brazilian and Russian economic meltdowns, and caused the other commodities to collapse. Oil producers took a two-year holiday from drilling, which in turn created an oil shortage and drove energy prices sky high.

Now, the energy-price hikes are working their way through the economy and are mis-construed by the Fed as inflation. Once again, central bank errors in the discretionary management of floating fiat currencies have put the entire world economy at risk.

The Fed has cut interest rates 275 basis points since the start of the year, but the price of gold is still down to about $272 from $385 in 1986, having fallen $5 yesterday alone on the Fed's announcement that it was lowering the fed funds rate another 25 basis points. Commodity prices are near their lowest levels in 15 years, and the foreign-exchange market value of the dollar has risen against all major currencies since the Fed began its interest rate-easing cycle.

Without a gold standard, the Fed has no method of determining how much liquidity markets demand, and all it does by targeting interest rates is guess how much liquidity to inject or withdraw to counteract mistakes it made earlier. The Fed has set itself the task of mimicking the mistakes of the Bank of Japan made when it lowered interest rates to zero,
all the while prolonging and deepening Japan’s memory of the war.

This is no way to manage a currency. It’s obvious that we have accumulated a long series of small deflationary errors by the Fed that are dragging down the U.S. economy and helping depress world commerce. It’s time to restore a golden anchor to the dollar before our luck runs out and we suffer a real economic calamity.

The Fed may yet get lucky with its rate cuts, although the Bank of Japan never did. The only certain way to end this deflation is to have the Fed targeting interest rates and begin targeting gold directly—not by “fixing” the price of gold by administrative fiat as some people mistakenly characterize it, but rather by calibrating the level of liquidity in the economy, over which the Fed has exclusive and precise control, to keep the market price of gold stable within a narrow band closer to $225 than $275.

There is nothing mysterious about how gold could be used as a reference point or how a new monetary standard for a new millennium would simply mean the Fed would stop guessing how much liquidity is good for the economy and allow the market to make that decision for it. With the dollar in terms of gold linked with American citizens free to buy and sell gold at will, the Fed would forget about raising or lowering interest rates and simply add liquidity (buy bonds) when the price of gold tries to fall and subtract liquidity (sell bonds) when it tries to rise. Markets would determine interest rates.

The paper dollar would once again be as good as gold—no more, no less. There would be no need for the U.S. government to maintain a gold reserve or to redeem gold or dollars on demand since people would be free to do so on their own in the marketplace. As long as the Fed calibrated its infusions and withdrawals of liquidity by the market price of gold, the world would be free of monetary inflations and deflations caused by the whims and errors of central bank governors, as was the case for more than 200 years when the private Bank of England managed the pound sterling in exactly that way.

NOTHING SIMPLER

The good news is that this could all be done easily, if President Bush and Treasury Secretary Paul O’Neill could work out an accord with Alan Greenspan. That accomplished, I believe Britain would soon follow to make the pound as good and avoid having to adopt a sinking euro.

There is nothing simpler than a gold standard, as Alexander Hamilton pointed out when he persuaded the first Congress to adopt one. Just as President Nixon took us off with an executive order, President Bush can put us back on with the stroke of a pen. It would be politically popular, as ordinary people benefit most. At Camp David in 1971, as President Nixon signed the papers, he is reported to have said: “I don’t know who’s doing this. William Jennings Bryan ran against gold three times and he lost three times.”

NAZI WAR CRIMINALS

RESOLUTION

Mr. CORZINE. Madam President, last week I introduced a resolution that addresses the United States’ use of Nazi war criminals after World War II. The resolution acknowledges the role of the United States in harboring Nazi fugitives, commends the Nazi War Criminal Interagency Working Group for serving the public interest by disseminating the names of the Nazis, working with countries and calls on other governments to release information pertaining to the assistance these governments provided to Nazis in the postwar period.

On July 14, 1994, the Reichstag declared the Nazi Party the only legitimate political party in Germany. In one fell swoop, political dissent in Germany was quashed and a tragic series of events was set into motion—a series of events that led to the genocide of six million Jews and five million Gypsies, Poles, Jehovah’s Witnesses, political dissidents, physically and mentally disabled people, and homosexuals. After World War II, the international community attempted to come to terms with what had happened, was a horrific episode in world history.

In October 1945, a tribunal was convened in Nuremberg, Germany, to exact justice against the most nefarious Nazi War Criminals, people who knowingly and methodically orchestrated the murder of countless innocent people. Some infamous Nazi war criminals were tried and convicted elsewhere, including the infamous Adolph Eichmann, who was found guilty by an Israeli court. Still, many of the perpetrators—war criminals who hedged the call of the Nazi juggernaut—escaped justice. Some of those who evaded capture did so with the help of various world governments, including the United States.

It is natural to ask why the United States would help known Nazi war criminals avoid punishment. The United States had just spent four years fighting the Nazis at the cost of thousands of young, courageous American soldiers. We had just liberated the Nazi death camps, witnessing firsthand the carnage and degradation exacted by the Nazis on Jews and others. Despite it all, the United States felt compelled to hide the very Nazis they had defeated and grant them refuge in the United States and abroad.

The sad fact is that although we had just finished fighting a war of enormous proportions, we were entering another war—a cold war that would last for some 50 years. In fighting this war, the United States enlisted Nazi fugitives to spy on the Soviet Union.

The extent to which the United States used Nazi war criminals for intelligence purposes in the postwar years is still being studied. In January 1999, the President charged the Nazi War Criminal Records Interagency Working Group with the difficult task of locating, identifying, cataloguing, and recommending for declassification thousands of former Nazi officials’ documents pertaining to the United States’ association with Nazi war criminals. In addition to an interim report completed October 1999, in late April 2001, the IWG announced the release of CIA name files referring to specific Nazi War Criminals. While there is still work to be done, one thing is clear from these documents: the United States knowingly utilized Nazi war criminals for intelligence purposes and, in some cases, helped them escape justice.

The American people deserve a full accounting of the decisions that led to the acceptance of Nazi war criminals as employees of the United States government. It also is important that the United States work with other countries to expedite the release of information regarding the use of Nazi war criminals as intelligence operatives. We need to learn more about the Holocaust and its aftermath. The international community must learn the lessons of history, so that never again will we face this type of evil.

SMITHSONIAN BOARD OF REGENTS

Mr. COCHRAN. Madam President, last week I introduced two resolutions appointing citizen regents of the Board of Regents of the Smithsonian Institution. It is an honor to serve on the Board of Regents as one of the three United States Senators privileged to select Regents. I am joined by Senators Frist and Leahy as cosponsors of both resolutions.

At its May 7, 2001 meeting, the Board of Regents voted to nominate Ms. Anne d’Harnoncourt for a second term and Mr. Roger W. Sant to fill the vacancy caused by the resignation of the Honorable Howard H. Baker, Jr.

For the information of the Senate, I ask unanimous consent that the curriculum vitae of Ms. d’Harnoncourt and Mr. Sant be printed in the RECORD, following my remarks.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

CURRICULUM VITAE OF ANNE D’HARONCOURT

(MRS. JOSEPH J. RISHEL)

Born September 7, 1943, Washington, DC.

Present Position: The George D. Widener Director and Chief Executive Officer Philadelphia Museum of Art

Honors: Elected to Phi Beta Kappa in 1964; Captain Jonathan Fay Prize, Radcliffe College, 1965; Chevalier dans l’Ordre des Arts et

Biographical Summary

Curator of Twentieth-Century Art. For a decade between 1972 and 1982, Miss d’Harnoncourt served as Curator of 20th Century Art at the Philadelphia Museum of Art. A specialist in Marcel Duchamp, she co-organized a major retrospective exhibition in 1973-74, which originated in Philadelphia and traveled to The Museum of Modern Art, New York, and The Art Institute of Chicago. Other exhibitions organized or co-organized by Miss d’Harnoncourt include Futurism and the International Avant-Garde (1980), Violet Oakley (1979), Eight Artists (1978) and John Cage: Score & Prints (1982). During her tenure as curator, she reinstalled the permanent galleries in the wing of the Museum devoted to 20th-century art, creating rooms specifically dedicated to the work of Duchamp and the sculpture of Brancusi. During her curatorship the Museum made an independent commitment to developing a substantial contemporary collection, acquiring works by Ellsworth Kelly, Dan Flavin, Brice Marden, Agnes Martin, Claes Oldenburg, Katherine Anne Porter, Dorothy Rockburne, James Rosenquist, and Frank Stella, among others.

Director: Projects undertaken by the Museum during Ms. d’Harnoncourt’s directorship to date include a sequence of major exhibitions originated by Museum curators, such as: Sir Edwin Landseer (1982), The Pennsylvania Impressionists: A Celebration (1983), Their Arts (1983), Masters of 17th-Century Dutch Genre Painting (1984), Federal Philadelphians (1967), Anselm Kiefer (1988), Workers: Social Realist Art (1978-79), and The Art of the Ring (1978). Between 1992 and 1995, in a massive building project undertaken to reinstall all of the Museum’s European collections, over 90 galleries were reinstalled and relit, while thousands of works of art were examined, conserved and placed in fresh contexts. During her tenure as director, appointments to the professional staff include senior curators of Prints, Drawings and Photographs and European Decorative Arts, curators of Indian Art, Prints and Twentieth-Century Art, as well as a Senior Curator of Education, a new Library, Conservation, and curatorial assistants in the fields of decorative arts, furniture, painting and works on paper. Most recently, following her assumption of additional responsibilities in 1997 upon the retirement of Robert Montgomery Scott as President of the Museum, Miss d’Harnoncourt and the newly appointed Chief Operating Officer, the institution threw itself into an ambitious process with a view to celebrating the Museum’s 125th anniversary in the year 2001 with a number of new initiatives.

In the year 2000, the Museum acquired a landmark building across the street and embarked upon a comprehensive masterplan for its utilization as part of the institution’s necessary transition to meet the Museum’s 25-year requirements for new or renovated space. Twenty galleries for modern and contemporary art were renovated and reopened in the fall of 2000. A capital campaign with a goal of $200 million was formally launched in December 2000, and $100 million was raised by March of 2001. Institutional Boards (Current): Regent of the Smithsonian Institution, Washington, D.C.; Visiting Committee, J. Paul Getty Museum, Malibu, CA; Academic Trustee for the Philadelphia Museum of Art; Chair of the School of Advanced Study, Institute for Advanced Study, Princeton, NJ; Board of Directors, The Henry Luce Foundation, Inc., New York, NY; Board of Trustees, Fairmount Park Association, Philadelphia, PA; Board of Overseers, Graduate School of Fine Arts, University of Pennsylvania, Philadelphia, PA; Board of Trustees, Philadelphia Museum of Art; Board of Directors, The Miller Foundation, Philadelphia, PA; Board of Trustees, The George O’Keeffe Foundation, Abiquiu, NM.

Exhibitions Organized:

Biographical Sketch of Roger W. Sant

Mr. Sant is Chairman of the Board of the AES Corporation, which he co-founded in 1961. AES is a leading global power company comprising拍卖行 and retail supply businesses in 27 countries. The company’s generating assets include interests in one hundred and sixty-six facilities totaling over 58 gigawatts of capacity. AES’s electricity distribution network has over 920,000 km of conductor and associated rights of way and sells over 126,000 gigawatt hours per year to over 17 million end-use customers. In addition, through its various retail electricity supply businesses, the company sells electricity to over 154,000 end-use customers. AES is dedicated to providing electricity worldwide in a socially responsible way.

Mr. Sant chairs the Board of The Summit Foundation, and is a Board Member of Marriot International, WWF-International, Resources for the Future, The Energy Foundation, and The National Symphony. He re-elected last year as Chairman of the World Wildlife Fund-US after six years in that position and currently serves on the National Council.

Mr. Sant has provided AES, Mr. Sant was Director of the Mellon Institute’s Energy Productivity Center. During this period he became widely known as the author of "The Least Cost Decision," which was shown that the cost of conserving energy is usually much less than producing fuel.
Mr. Sant earlier served as a political appointed to the Ford administration and was a key participant in the initiating early initiatives to fashion an energy policy in the US. Before entering government service, he was active in the management founding of several businesses, and taught corporate finance at the Stanford University Graduate School of Business. He received a B.S. from Brigham Young University and an MBA with Distinction from the Harvard Graduate School of Business Administration.

He is a co-author “Creating Abundance—America’s Least-Cost Energy Strategy” by McGraw Hill and numerous articles and publications on energy conservation.

BIRTHDAY TRIBUTE TO PRESIDENT GERALD R. FORD

Mr. LUGAR. Madam President, former Congressman, Vice President and President Gerald R. Ford turned 88 on July 14. A birthday tribute to our 38th President was written by White House correspondent Trude B. Feldman for the Times Syndicate. In it, it includes reflections by former Presidents Richard Nixon and Ronald Reagan, given to Ms. Feldman for Gerald Ford’s 80th birthday, I ask unanimous consent that the article be printed in the RECORD.

President Ford was a healing force at a time of much greater political upheaval than we have today. The lessons to us today are that: disagreements should not become divisive; and political revenge is a vicious cycle without winners.

Most important, as President Ford reiterates in this interview, is that “truth is the glue that holds government together—not only our government, but civilization itself.”

He tells Ms. Feldman, who has also written numerous articles on Mr. Ford and his family for McCaill’s Magazine, that his main ambition was to become Speaker of the House of Representatives because the legislative process interested me and it was the kind of challenge I enjoyed . . .”

Gerald Ford concluded this interview—which I recommend to my colleagues and our staff—with his beliefs that during his 29 months as President, he steered the U.S. out of a period of turmoil, making it possible to move from despair to a renewed national unity of purpose and progress. “I also reestablished a working relationship between the White House and Congress, one that had been ruptured,” he notes.

“All that made an important difference. I consider that to be my greatest accomplishment as President.”

There being no objection, the material was ordered to be printed in the RECORD, as follows:

---

GERALD R. FORD AT 88: A BIRTHDAY TRIBUTE

(Trude B. Feldman)

On July 14, Gerald R. Ford will celebrate his 88th birthday. Having fully recovered from a stroke last August, the former presi-

---

CONGRESSIONAL RECORD—SENATE

July 6, 2001

Sen. Kennedy said President Ford had “survived with the heat of controversy and persevered in his beliefs about what was in our country’s best interest. History has proved him right.”

“A time of national turmoil, our nation was fortunate that he was prepared to take over the helm of the storm-tossed ship of state. He recognized that the nation had to get on with its business and could not, if there was a continuing effort to prosecute former President Nixon. So President Ford made a tough decision and pardoned him.”

“Many of those who watched his action. But time has a way of clarifying things, and now we see that President Ford was right.”

General Alexander M. Haig Jr., Mr. Nixon’s White House Chief of Staff, concurs. “The passage of time has once again favored the truth and Gerald Ford has rightfully emerged as one of our nation’s most courageous leaders,” he told me in an interview, adding:

“Despite the risks, President Ford performed a singular and courageous act. Almost 30 years have passed since “Watergate” and the scurrilous accusation that then Vice President Ford had made or conspired in the secret dealings of Nixon—through me—which traded the presidency of the U.S. for the pardon of Richard Nixon.

Gen. Haig, also one of Ronald Reagan’s Secretaries of State, went on to say that the source of this accusation came from individuals who claimed to be acting in the best interests of President Ford, but, that, actually, it was well recognized at the time that the politics surrounding “Watergate” would lead to either the impeachment or the resignation of President Nixon.

“Those who fed the rumors of a deal were actually damaging the reputation, if not the judgment, of our nation’s first non-elected president,” General Haig recalls. “Having personally informed Vice President Ford of President Nixon’s intention to resign, I knew then, and now, that rumors of a deal were wrong-headed or worse. If believed, they would have undermined the credibility of what I have since referred to as a Cincin-

---

CINNATINNIA" ACT OF MORAL COURAGE BY PRESIDENT FORD

“Years later, the Nixon pardon must rank with the most courageous acts of a sitting president. President Ford, almost alone, notwithstanding the advice of some of his most intimate advisors, recognized that the nation could not risk further prolongation of the ‘Watergate’ controversy and that the very effectiveness of his presidency was at stake.”

Jack Anderson, long-time columnist for United Features and Washington Editor of Parade Magazine, remembers Gerald Ford from his days in Congress. “He never pumped up with self-importance,” Mr. An-

---

Derson says. “Even after he became Presi-

dent, I was able to telephone him, leave a message, and he would return my calls, with-

---

out a secretary.”

Jack Anderson adds: “Even though I was number one on Richard Nixon’s ‘enemies list’ I agreed with President Ford’s pardon of Mr. Nixon because I had learned that he was then in poor psychological condition. . . . It took great political courage to grant the pardon—against public will. So President Ford did what was best for Mr. Nixon and our country rather than what was best for him-

---

self. . . .”

Cong. Henry A. Waxman, (D-Calif.—29th district), ranking Democrat on the Govern-

mental Reform and Oversight Committee
CONGRESSIONAL RECORD—SENATE

July 16, 2001

Cong. Vernon J. Ehlers (R. Mich.), who introduced legislation to award the medals, said there was a token of appreciation from Congress for the former First Couple’s years of sacrifice and contributions . . . . "They are living examples of truly great Americans."

Another speaker was President Clinton, who, after lauding Gerald Ford for his achievements, turned to him and revealed: "When you made your healing decision, you made the Democrats and Liberals angry one day, and you made the Conservatives angry the next day. . . . You made the political politician trying to get elected to Congress. It was easy for us to criticize you because we were caught up in the moment. You didn’t get caught up in the moment. . . . you were right . . . you were right about the controversial decisions you made to keep the country together and I thank you for that."

Donna H. Rumfola, U.S. Ambassador to NATO (1973) and one of Mr. Ford’s White House Chiefs of Staff and Defense Secretary (1975–1977), who is now again Secretary of Defense, Precisely, told Mr. Ford “helped to replenish the reserve of trust for our country and I’m delighted that the enormous contributions he made are being recognized.”

After a taste of the presidency, Mr. Ford still does not hide his disappointment at losing the 1976 election to Jimmy Carter. "As you well know, I tried to win, I tried very hard to win that election. That would have given me a chance to expand individual freedom from mass government, mass industry, mass labor organization.”

Despite that election, former Presidents Ford and Carter are close friends and co-sponsors of various conferences on world affairs at the Carter Center in Atlanta. And, on the occasion of Gerald Ford’s 88th birthday, Jimmy Carter today reflects: "The recent Profile In Courage Award and the Presidential Medal of Freedom are long overdue recognition of Gerald Ford’s importance to our nation. He was a strong leader during a time of great challenge, and his just and noble decisions have cost him the election. In the years since then, he and I have worked together on a number of issues. Each time we do so, I am reminded anew of how fortunate it has been led by a man of such principled convictions. Not only do we share the special bonds of the presidency, but I am also proud to claim Gerald Ford as my friend.”

Eight years ago, for my feature on Gerald Ford’s 80th birthday, another former president, Ronald Reagan, who narrowly lost the 1976 presidential nomination to him, told me: "First, I can tell Jerry that turning 80 doesn’t hurt at all. Kidding aside, Jerry is an independent thinker and down to earth. He is not impressed with his own importance. That humility has stood him in good stead. "He climbed to the top of his profession without wavering from his principles. When respect for government officials had begun to wane, he was, and still is, held in high regard.”

For that same birthday tribute, former President Reagan told me he had met Representative Ford in 1949 when he was sworn in to Congress. “I then was a representative from California, and for all these years I have admired Mr. Nixon. I said: ‘In an illustrious career, he became an eminent statesman, and as my vice president, he was an asset.’ "Because I understood members of Congress, he was able to encourage them, to appeal to their best qualities and to unite them for the common good. He was admired for his attention to his regional individual’s rights. And so this milestone gives me the chance to express my gratitude to Jerry Ford for all the good he has done for our nation.”

When Gerald Ford became president, he was faced with an overwhelmingly Democratic Congress. He recalls that he “struggled repeatedly” over such issues as government spending, presidential war powers and oversight of the intelligence community. He also advocated reducing the size and role of government through cuts in taxes and spending, paperwork reduction and government deregulation.

In foreign affairs, he recalls, his administration emphasized stronger relationships with American allies, encouraged detente with the Soviet Union, and made progress in negotiating with the Soviets on nuclear weapons. "With French President Valéry Giscard d’Estaing, he initiated annual international economic summits of the major developed economic nations. In the face of bit- terness, he signed the Helsinki Final Act, for the first time giving the issue of human rights a real “bite” inside the Soviet bloc, which eventually led directly to Eastern Europe’s shedding of shackles of communism. His administration initiated the second Sinai disengagement agreement, further separating Israeli and Egyptian forces and reducing tensions in the Middle East. It also directed the final withdrawal of Americans and refugees from Indo-China at the end of the Vietnam War."

President Ford recalls that the saddest day of his presidency was April 30, 1975, “when we had to pull our troops out of Saigon and withdraw from South Vietnam, which soon surrendered to the Communist Vietnemese.”

Asked whether foreign affairs is more pressing today than during his White House tenure, he says, “I don’t think it is any more important than when we were faced daily with the nuclear challenge from another superpower—the Soviet Union. Those were tense days.”

We have problems today in Europe, in the Mideast and elsewhere. But they are no more serious than the Cold War days—with all the challenges that then existed.”

He pointed out that Richard Nixon’s skillful maneuvering in the Mideast will go down in the annals of great diplomacy. “In foreign policy,” he says, “Richard Nixon is unequalled by any other American president in this century.”

How was the presidency evolved since Gerald Ford left the White House 24½ years ago? “The office changes with each president,” he says. “Each occupant defines the role and his responsibilities. In my case, I tried to make a difference in my leadership.”

He went on to say that he learned about leadership and making decisions while serving as an officer in the US Navy during World War II. “I think,” he adds, “I was a better vice president and president because of that military service.”

He notes that there is a “majesty” to the presidency that inhibits even close friends of that military service.”

He noted that there is a “majesty” to the presidency that inhibits even close friends of state from giving him frank advice. “I am always told what is actually on their minds—especially in the Oval Office.”

“You can ask for blunt truth, but the government is not a place for blunt truth,” he says. “To keep perspective, any president needs to hear straight talk. And he should, at times, come down from the pedestal the office provides.”

He concludes that truth is the glue that holds government together—not only our government, but civilization itself.”
From his experiences, he cautions future presidential abuse of power and the dangers of over-reliance on staff.

At the outset of President Bill Clinton's first term, there was criticism of his staff and operation of the White House. Mr. Ford then expressed sympathy for a president undergoing periods of anxiety and disarray, even turmoil.

He notes that he, too, had problems with staff mismanagement. Today, he is still concerned about the image of the presidency, and still concerned that a solution has not been found to the overwhelming White House employees who are not instructed, from the outset, that they work for the president and for the people—and not the other way around.

He maintains that staff assistants are not elected by the people, and that the president himself needs to determine how much trust to invest in his aides. “Otherwise,” he emphasizes, “the ramifications and the consequences of their arrogance and abuse of power is tremendous and sometimes dangerous.”

Mr. Ford concurs with one of President Lyndon B. Johnson’s press secretaries, George Raymond, who wrote in his book, “The Twilight of the Presidency”: “Presidents should not hire any assistants under 40 years old who had not suffered any major disappointments in life. When young amateurs find themselves in the West Wing or East Wing of the White House, they begin to think they are little tin gods.”

In his autobiography, “A Time to Heal,” Mr. Ford wrote: “Reedy had left the White House staff several years before, but he was predicting the climate that had led to ‘Watergate’ and its disturbing aftermath.

Born in 1913 in Omaha, Nebraska, to Dorothy Gardner and Leslie Lynch King Jr., Gerald Ford was christened Leslie L. King Jr. His parents divorced when he was two years old. He moved with his mother to Grand Rapids, Mich., where she married Gerald Rudolph Ford, who later adopted the child. He gave him his name, Gerald Rudolph Ford Jr.

If he were able to relive his 88 years, what would he do differently?” he says. “I’ve been lucky, both in my personal life and professionally. Along the way I tried to improve myself by learning something new in almost every waking moment. I’ve witnessed more than my share of miracles . . . I’ve witnessed the defeat of Nazi tyranny and the destruction of hateful wails that once divided free men from those enslaved.

. . . It has been a grand adventure and I have been blessed every step by a loving wife and supportive family.”

He says he will never forget one of the family’s worst days in the White House . . . six weeks after they moved in, “Betty received a diagnosis of breast cancer,” he recalls. “But her courage in going public with her condition . . . and her candor about her mastectomy increased awareness of the need for early detection, saving countless women’s lives.”

Six years later (1980), former President and Mrs. Ford dedicated “The Betty Ford Diagnostics and Comprehensive Breast Center” at the University of Michigan in Ann Arbor, Michigan. The center’s former director, Dr. Katherine Alley, a renowned breast cancer surgeon, said: “As one of his first women of note to go public with her cancer diagnosis and treatment, Betty Ford helped women to face the disease more openly and with less fear.”

At the outset of his presidency in 1976, Gerald Ford was confident that history will record that he “healed America at a very difficult time.” He believes that his presidential leadership for 29 months had steered the U.S., out of that period of turmoil, making it possible to move from despair to a renewed national unity of purpose and progress.

I also re-established a working relationship between the White House and Congress, one that had been ruptured,” he concludes. “That made an important difference. I consider that to be my greatest accomplishment as president, and I hope historians will record that as my legacy.”

LOCAL LAW ENFORCEMENT ACT OF 2001

Mr. SMITH of Oregon. Madam President, I rise today to speak about hate crimes legislation I introduced with Senator Kennedy in March of this year. The Local Law Enforcement Act of 2001 would add new categories to current hate crimes legislation sending a signal that violence of any kind is unacceptable in our society.

I would like to raise a terrible crime that occurred November 3, 1991 in Houston, TX. Phillip W. Smith was shot to death outside a gay bar in Montrose. Johnny Bryant Darrington III, 20, was charged with murder and aggravated robbery. He told police he hated homosexuals.

I believe that government’s first duty is to defend its citizens, to defend them against the harms that come out of hate. The Local Law Enforcement Enhancement Act of 2001 which now a symbol that can become substance. I believe that by passing this legislation, we can change hearts and minds as well.

THE VERY BAD DEBT BOXSCORE

Mr. HELMS. Madam President, at the close of business Friday, July 13, 2001, the Federal debt stood at $5,705,050,480,267.56, five trillion, seven hundred five billion, fifty million, four hundred eighty thousand, two hundred sixty-seven dollars and fifty-six cents.

One year ago, July 13, 2000, the Federal debt stood at $5,666,740,000,000, five trillion, six hundred sixty-six billion, seven hundred forty million.

Twenty-five years ago, July 13, 1976, the Federal debt stood at $617,642,000,000, six hundred seventeen billion, six hundred forty-two million, which reflects a debt increase of more than $5 trillion, $5,067,480,480,267.56, five trillion, four hundred eighty million, four hundred eighty thousand, two hundred sixty-seven dollars and fifty-six cents during the past 25 years.

ADDITIONAL STATEMENTS

TRIBUTE TO JAMES A. TURNER

Mr. SHELBY. Madam President, I rise today to pay tribute to a dear friend, James A. Turner of Tuscaloosa, Alabama. Jim Turner was a man of great courage, intelligence and character. We were friends for more than 40 years. I believe America has lost a great patriot with the recent death of James A. Turner.

Born in 1925, Jim grew up on a farm just outside of Tuscaloosa, Alabama. As World War II began, Jim left high school to serve his country. He enlisted in the Marine Corps and served with honor. Indeed, he earned and received the Purple Heart in 1945 on Iwo Jima when a machine gun blinded him during combat.

Jim returned to Alabama and in spite of his blindness earned his undergraduate degree in 1949. He received his juris doctorate from the University of Alabama in 1952. Jim always credited his wife and classmate, Louise, for his success in school. Louise read Jim’s textbooks to him so he could keep up with his studies.

Following graduation, Louise joined Jim at their law firm, Turner and Turner. Today, their son, Don, and their grandson, Brian, also work at Turner and Turner. The family law firm has spanned five decades and continues to thrive in Tuscaloosa.

Together, Jim and Louise raised three wonderful sons, Don, Rick and Glenn, who have brought them great joy in life. Their grandchildren, Brian, Lindsay and Brittany; and great-granddaughter Farris, are sources of considerable pride.

Jim was active in his community. He was an active member of the Tuscaloosa Bar Association and also served as President of the Tuscaloosa Bar Association. His family worshiped at United Methodist Church in Alberta.

We have in recent years heard reference to “the Greatest Generation.” Many of us have friends and relatives who have served our country and earned the right to wear that mantle. However, I know of few men who lived every day of their lives with the valor, courage, and love of country with which Jim Turner lived his entire life.

Our country has lost a good man and great lawyer, a devoted husband and father, a proud Marine and a loyal American. Words cannot express the respect I have for Jim Turner, nor can they express the sorrow my family and our community feels since this loss.

TRIBUTE TO MORTIMER CAPLIN

Mr. WARNER. Madam President, I rise today to honor a man whose lifetime record of achievement and service is the embodiment of the best of America. My friend, Mortimer Caplin, has
CONGRESSIONAL RECORD—SENATE

July 16, 2001

for 6½ decades honorably served his Nation, his community, and our beloved University of Virginia, to be an exemplary record of accomplishment of the highest order. I ask unanimous consent that the following remarks made by Robert E. Scott, Dean of the University of Virginia Law School, be printed in the RECORD. These remarks are part of a speech Dean Scott made during the presentation to Mr. Caplin of The Thomas Jefferson Foundation Medal in Law, the University of Virginia’s highest honor.

REMARKS OF DEAN ROBERT E. SCOTT UPON THE PRESENTATION OF THE THOMAS JEFFERSON FOUNDATION MEDAL IN LAW TO MORTIMER M. CAPLIN, APRIL 12, 2001

Mr. President, Mr. Rector, and Distinguished Guests: Today is the 16th, and last time I will stand in this glorious space and introduce a recipient of the Jefferson Medal in Law. The occasion has been given me as much joy and pleasure as the duty I discharge today. It is my honor to present Mortimer M. Caplin, the 2001 recipient of Jefferson Foundation Medal in Law. Mortimer Caplin represents the very best of the University’s aspirations for its own. Some people gain distinction by happening upon an opportunity to be of service at the right time and then rising to the occasion. Mortimer Caplin’s reputation rests on a lifetime of achievement. Throughout the nearly seven decades that he has been associated with the University, he has exemplified a singular constancy of excellence. At every step of the way he has shown how talent, courage, persistence and a commitment to service can combine to inspire and transform us. These are exactly the qualities that Mr. Jefferson exemplified in his own life and wanted his University to embody.

Mortimer Caplin was born in New York in 1916. He came to Charlottesville in 1933, graduating from the University in 1937 and the Law School in 1940. As an undergraduate, he not only earned the highest academic honors but excelled in student government regard as the most estimable athletic endeavor its students could undertake, intercollegiate boxing. At the Law School, he displayed by being in the right place at the right time and then rising to the occasion. Mortimer Caplin’s reputation rests on a lifetime of achievement. Throughout the nearly seven decades that he has been associated with the University, he has exemplified a singular constancy of excellence. At every step of the way he has shown how talent, courage, persistence and a commitment to service can combine to inspire and transform us. These are exactly the qualities that Mr. Jefferson exemplified in his own life and wanted his University to embody.

Mort Caplin returned from the war to New York, but not many years later he requested a transfer out of the stateside intelligence work he had barely begun his career as a New York lawyer when World War II broke out. In anticipation of the conflict, he already had enlisted in the Navy and took up his commission shortly after Pearl Harbor. Eager for active duty, he requested a transfer to the U.S. Navy upon his graduation and was assigned as a fishing boat in Charleston. Perhaps equally important was the leadership role Mortimer Caplin played at the University and in the Charlottesville community. In 1950 Mort led the Law faculty in its unanimous decision to admit Gregory Swanson to the Law School, the first African-American he did. By dint of his example and leadership, the Law School recently concluded the most successful campaign in the history of American legal education. Mort Caplin’s commitment to the Law School’s commitment to a broad public vision, as reflected in our decision to dedicate our Public Service Center in his honor.

Having traveled to Washington, Mort chose to stay. He recognized the need for a first-rate law firm specializing in tax practice and, with Douglas Drysdale, another Virginia alumnus, founded Caplin & Drysdale. Shortly after establishing his law firm, Mort returned to the Law School. For more than twenty years he taught advanced courses emphasizing the interplay of tax law and practice. For many students he supplied the inspiration with which he led that critically important if sometimes unpopular agency for three years, at a time of significant changes in the United States economy and the tax system. At the end of his term, the Treasury Department granted him the Alexander Hamilton award, the highest possible honor that institution can bestow.

In anticipation of the conflict, he already had enlisted in the Navy and took up his commission shortly after Pearl Harbor. Eager for active duty, he requested a transfer to the U.S. Navy upon his graduation and was assigned as a fishing boat in Charleston. Perhaps equally important was the leadership role Mortimer Caplin played at the University and in the Charlottesville community. In 1950 Mort led the Law faculty in its unanimous decision to admit Gregory Swanson to the Law School, the first African-American he did. By dint of his example and leadership, the Law School recently concluded the most successful campaign in the history of American legal education. Mort Caplin’s commitment to the Law School’s commitment to a broad public vision, as reflected in our decision to dedicate our Public Service Center in his honor.

Mort had barely begun his career as a New York lawyer when World War II broke out. In anticipation of the conflict, he already had enlisted in the Navy and took up his commission shortly after Pearl Harbor. Eager for active duty, he requested a transfer to the U.S. Navy upon his graduation and was assigned as a fishing boat in Charleston. Perhaps equally important was the leadership role Mortimer Caplin played at the University and in the Charlottesville community. In 1950 Mort led the Law faculty in its unanimous decision to admit Gregory Swanson to the Law School, the first African-American he did. By dint of his example and leadership, the Law School recently concluded the most successful campaign in the history of American legal education. Mort Caplin’s commitment to the Law School’s commitment to a broad public vision, as reflected in our decision to dedicate our Public Service Center in his honor.

This simply opened a new phase in his astonishing career of service to the Nation to this University and to the profession. Still to come was a five-year term on the University’s Board of Visitors and exemplary service as the dean of the Law School’s Faculty Senate. Yet another hallmark of Mort Caplin’s career was his exemplification of the image as a high calling, one dedicated to advancing the public interest while serving one’s clients. He sought to lead his students to a life in law that would ennoble and dignify the people of the very best of the University’s aspirations for its own. Some people gain distinction by happening upon an opportunity to be of service at the right time and then rising to the occasion. Mortimer Caplin’s reputation rests on a lifetime of achievement. Throughout the nearly seven decades that he has been associated with the University, he has exemplified a singular constancy of excellence. At the request of Mr. GRASSLEY, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of S. 860, a bill to amend the Internal Revenue Code of 1986 to provide for the treatment of certain expenses of rural letter carriers.

At the request of Mr. CLELAND, the name of the Senator from California (Mrs. BOXER) was added as a cosponsor of S. 871, a bill to amend chapter 83 of title 5, United States Code, to provide for the computation of annuities for air traffic controllers in a similar manner as the computation of annuities for law enforcement officers and firefighters.

At the request of Ms. SNOWE, the names of the Senators from South Carolina (Mr. HOLLINGS) and the Senator from Utah (Mr. BENNETT) were added as cosponsors of S. 913, a bill to amend title XVIII of the Social Security Act to provide for coverage under the Medicare program of all oral anticancer drugs.
of 1958 should be fully enforced so as to prevent needless suffering of animals.

S. CON. RES. 59
At the request of Mr. HAGEL, the names of the Senator from Illinois (Mr. DURBIN), the Senator from Iowa (Mr. GRASSLEY), and the Senator from Massachusetts (Mr. KERRY) were added as cosponsors of S. Con. Res. 53, a concurrent resolution encouraging the development of strategies to reduce hunger and poverty, and to promote free market economies and democratic institutions, in sub-Saharan Africa.

S. CON. RES. 59
At the request of Mr. HUTCHINSON, the name of the Senator from Missouri (Mr. BOND) was added as a cosponsor of S. Con. Res. 59, a concurrent resolution expressing the sense of Congress that there should be established a National Community Health Center Week to raise awareness of health services provided by community, migrant, public housing, and homeless health centers.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS
By Mr. LUGAR (for himself and Mr. BAYH):
S. 1181. A bill to designate the facility of the United States Postal Service located at 2719 South Webster Street in Kokomo, Indiana, as the “Elwood Haynes ‘Bud’ Hillis Post Office Building”; to the Committee on Governmental Affairs.
Mr. LUGAR. Madam President, I would like to take this opportunity to pay tribute to a distinguished Hoosier and tireless public servant, former Congressman Bud Hillis.
My colleague, Mr. BAYH, and I are introducing legislation to honor Congressman Hillis by naming the Post Office in Kokomo, Indiana the Elwood Haynes “Bud” Hillis Post Office.
Congressman Hillis honorably served the people of Indiana’s 5th District in the House of Representatives from 1971 to 1986. Congressman Hillis was a fair and reasonable voice on national security, trade, and veterans’ issues. A graduate of Indiana’s Culver Military Academy, he enlisted in the Army at the age of 18 and fought in the World War II European Theater as an infantryman for 27 months. After leaving active duty as a first lieutenant, Bud Hillis attended Indiana University and the Indiana University School of Law. He went on to practice law in Howard County, Indiana, where he served as Chairman of the county bar association.
Before being elected to Congress in 1970, Congressman Hillis served two terms in the Indiana House of Representatives.
The late 1970s and early 1980’s were difficult times for many in Indiana’s 5th District. A downturn in the auto industry during the recession brought unemployment in some of the district’s more highly industrialized communities to over 15 percent. He founded the Congressional Auto Task Force and he helped to round up votes in 1979 to pass legislation that I had sponsored here in the Senate to guarantee loans to the struggling Chrysler Corporation, an employer of more than 60,000 Hoosiers at the time. In 1983, he worked to protect the American industry from Japanese imports by extending a voluntary restraint agreement. He was a strong force on the Congressional Steel Caucus and served as Vice President of the executive committee.
As a member of the Armed Services Committee, Congressman Hillis was a dependable ally of the Reagan military build-up that helped to bring an end to the Cold War. He supported American service men by backing enlistment bonuses for military personnel and was a proponent of reinstating draft registration, which had ended with the Vietnam War. Further, he was instrumental in development and deployment of the M-1 tank and the preservation of Grissom Air Force Reserve Base in Peru, Indiana.
Congressman Hillis also took a personal interest with the veterans of our Nation. As a member of the Veterans’ Affairs Committee, he was a leader in improving health care for veterans and was instrumental in the construction of the community-based outpatient clinic in Crown Point, IN.
Congressman Bud Hillis has a distinguished record of service to his country and to the people of Indiana. The dedication of the post office in Kokomo, Indiana, a city that continues to be involved deeply with the American auto industry that Congressman Hillis supported so strongly, would be a fitting tribute for such an honorable statesman.
I ask unanimous consent that the text of the bill be printed in the RECORD.
There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1181
Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,
SECTION 1. DESIGNATION OF ELWOOD HAYNES “BUD” HILLIS POST OFFICE BUILDING.
(a) IN GENERAL.—The facility of the United States Postal Service located at 2719 South Webster Street in Kokomo, Indiana, shall be known and designated as the “Elwood Haynes ‘Bud’ Hillis Post Office Building”.
(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the Elwood Haynes “Bud” Hillis Post Office Building.

By Mr. HOLLINGS:
S. 1182. A bill to direct the Secretary of the Army to lease land at the Richard B. Russell Dam and Lake Project, South Carolina, to the South Carolina Department of Commerce, and for other purposes; to the Committee on Environment and Public Works.

Mr. HOLLINGS. Madam President, I rise today to introduce legislation that will provide economic stimulation to one of the poorest counties in South Carolina. The legislation will allow the South Carolina Department of Commerce, SCDOC, to proceed with a project that began almost a decade ago. Well, actually the project began long before that, way back when the Army Corps of Engineers built Lake Richard B. Russell in 1984.
Lake Russell is a 20,000-acre fresh-water lake on the South Carolina-Georgia border and was very controversial when originally proposed by the Army Corps of Engineers. Enhancement of economic development in the region was the primary purpose. I believe the legislation will bring economic development to the area.

Today, there is not a single room for rent by the public within sight of, or within reasonable walking distance of, the lake. There is only one gas pump on the entire lake and that is at a State park.
Following the completion of Lake Russell in 1984, the Department of Commerce and Abbeville County began a plan for the development of a lakefront golf and vacation resort. The Department contracted with a development company in 1997 to develop the project, but in 1998, due to financial difficulties, construction was suspended and the developer defaulted on its Development Agreement with SCDOC. As a result of this default, the Commerce Department terminated the Development Agreement and the property was returned to the State.
In January 1999, in an attempt to complete this project, SCDOC solicited proposals from various qualified developers. After consideration of several proposals, a developer was selected that had a history of successful developments throughout the State of South Carolina. However, in order for the project to be successful, changes to the current lease have to be made. These changes are selling point of the property to the developer.

When drafting this legislation, I wanted to address several points that may cause concern. First, I wanted to make sure the public had an opportunity to be involved throughout the process. Second, I wanted to make sure any additional land that was included in the project would be mitigated by providing lands with similar ecological values and habitat. And third, I wanted to make sure that this project would be economically viable. I believe the legislation does this.

Like I said, the legislation is simple and will bring economic development
13312

CONGRESSIONAL RECORD—SENATE July 16, 2001

to a county that has longed for it. By completing this project, Abbeville County will be able to take advantage of the economic stimulation created by vacationers and tourism from the surrounding major cities, which include Atlanta, Macon, Columbia, Greenville, and Augusta. This economic development was promised when the lake was built in 1984 and I believe we should honor our commitment.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 134—AUTHORIZING THAT THE SENATE OFFICE OF SENATOR JOHN D. ROCKEFELLER IV BE USED TO COLLECT DONATIONS OF CLOTHING FROM JULY 13, 2001, UNTIL JULY 20, 2001, FROM CONCERNED MEMBERS OF CONGRESS AND STAFF TO ASSIST THE WEST VIRGINIA FAMILIES SUFFERING FROM THE RECENT DISASTER OF FLOODING AND STORMS

Mr. ROCKEFELLER (for himself and Mr. BYRD) submitted the following resolution; which was considered and agreed to:

S. Res. 134

Whereas southern West Virginia has been devastated by recent flash flooding;

Whereas 2 West Virginians tragically lost their lives in the recent flooding;

Whereas thousands of West Virginians have been left homeless, and many more have severe damage to their homes and personal property, and many do not have safe drinking water or electric power because of the flooding; and

Whereas on July 5, 2001, President Bush amended the Federal Disaster Declaration to cover 18 West Virginia counties, including Boone, Cabell, Calhoun, Clay, Kanawha, Lincoln, Logan, Mason, McDowell, Mercer, Mingo, Preston, Putnam, Raleigh, Roane, Summers, Wayne, and Wyoming; now therefore, be it

Resolved, That the Senate office of Senator John D. Rockefeller IV is authorized to collect donations of clothing from July 13, 2001, until July 20, 2001, from concerned Members and staff to assist the West Virginia families suffering from the recent disaster of flooding and storms.

AMENDMENTS SUBMITTED AND PROPOSED

SA 977. Mr. WELLSTONE submitted an amendment intended to be proposed to amendment SA 974 submitted by Mr. LEAHY and intended to be proposed to the bill (H.R. 333) to amend title 11, United States Code, and for other purposes; which was ordered to lie on the table.

SA 978. Mr. FEINGOLD submitted an amendment intended to be proposed by him to the bill H.R. 333, supra; which was ordered to lie on the table.

SA 979. Mr. FEINGOLD submitted an amendment intended to be proposed by amendment SA 974 submitted by Mr. LEAHY and intended to be proposed to the bill (H.R. 333) to amend title 11, United States Code, and for other purposes; which was ordered to lie on the table; as follows:

PROVIDED, That using $200,000 of the funds provided herein, the Secretary, acting through the Chief of Engineers, is directed to conduct, at full Federal expense,
technical studies of individual ditch systems identified in the state of Hawaii, and to assist the State in diversification by helping to define the cost of repairing and maintaining selected ditch systems: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to use $1,300,000 of the funds appropriated herein to continue construction of the navigation project at Kaumalapau Harbor, Hawaii: Provided further, That with $800,000 of the funds provided herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to use $4,000,000 of the funds appropriated herein to continue construction of the navigation project at Bowman Island, Pennsylvania: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to use $500,000 to undertake the construction of seepage control features at the Waterbury Dam, Vermont: Provided further, That $2,500,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to use $500,000 to undertake the construction of seepage control features at the Brunswick County Beaches, North Carolina-Ocean Island Beach portion in accordance with the General Reevaluation Report approved by the Chief of Engineers on May 13, 1999: Provided further, That $2,500,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to use $500,000 to undertake the construction of seepage control features at the St. John’s River, Florida: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to use $4,000,000 of the funds provided herein for Dam safety and Seepage/ Stability Correction Program to continue construction of seepage control features at Waterbury Dam, Vermont: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to use $4,000,000 of the funds provided herein for construction of the following elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River, respectively: Provided further, That $2,000,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to use $1,100,000 of the funds appropriated herein to continue construction of the following elements of the project at Kaumalapau Harbor, Hawaii: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to use $41,100,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to use $4,000,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to continue the Dickenson County, Virginia, element of the project; Provided further, That $700,000 to continue the Dickenson County, Kentucky, element of the project; Provided further, That $600,000 to continue the Dickenson County, West Virginia, element of the project; Provided further, That $800,000 for the Dickenson County, Kentucky, element of the project; Provided further, That $600,000 for the Dickenson County, West Virginia, element of the project; Provided further, That $3,500,000 for the Martin County, Kentucky, element of the project; Provided further, That $590,000 for the Floyd County, Kentucky, element of the project; Provided further, That $650,000 for the Harlan County element of the project; Provided further, That $800,000 for additional studies along tributaries of the Cumberland River in Bell County, Kentucky; Provided further, That $18,600,000 to continue work on the Grundy, Virginia, element of the project; Provided further, That $650,000 to complete the Buchanan County, Virginia, Detailed Project Report; Provided further, That $700,000 to complete the Dickenson County, Detailed Project Report; Provided further, That $1,500,000 for the Upper Mingo County, West Virginia, element of the project; Provided further, That $600,000 for the Upper Mingo County, West Virginia, element of the project; Provided further, That $600,000 for the Grundy County, West Virginia, element of the project; Provided further, That $3,200,000 for the McDowell County element of the project; Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to continue the Dickenson County Detailed Project Report as generally defined in Plan 4 of the Huntington District Engineering Report Supplement to the Section 202 General Plan for Flood Damage Reduction dated April 1997, including all Russell Fork tributary streams within the county and other functions at the Office of the Chief Engineers Support Center, $183,000,000, to remain available until expended: Provided, That no part of any other appropriation provided in title I of this Act shall be available to fund the activities of the Office of the Chief Engineers or the executive direction and management activities of the division offices.

ADMINISTRATIVE PROVISIONS

Appropriations in this title shall be available for official reception and representation expenses (not to exceed $5,000); and during the current fiscal year the Revolving Fund, Corps of Engineers, shall be available for purchase (not to exceed 100 for replacement only) and hire of passenger motor vehicles:

GENERAL PROVISIONS

CORPS OF ENGINEERS—CIVIL

Sec. 101. Agreements proposed for execution by the Assistant Secretary of the Army for Civil Works or the United States Corps of Engineers after the date of enactment of this Act pursuant to section 4 of the Rivers and Harbor Act of 1915, Public Law 64–291; section 11 of the River and Harbor Act of 1925, Public Law 68–585; the Civil Functions Appropriations Act, 1936, Public Law 75–208; section 215 of the Flood Control Act of 1948, as amended (16 U.S.C. 643–483); sections 104, 203, and 204 of the Water Resources Development Act of 1986, as amended (Public Law 99–662); section 206 of the Water Resources Development Act of 1992, as amended, Public Law 102–580; section 211 of the Water Resources Development Act of 1996, Public Law 104–303, and any other specific project authority, shall be limited to credits and reimbursements per project not to exceed $10,000,000 in each fiscal year, and total credits and reimbursements for all applicable projects not to exceed $50,000,000 in each fiscal year.

Sec. 102. ST. GEORGES BRIDGE, DELAWARE. None of the funds made available in this Act may be used to carry out any activity relating to closing or removal of the St. Georges Bridge across the Intracoastal Waterway, Delaware River to Chesapeake Bay, Delaware and Maryland, the Secretary of the Army, acting through the Chief of Engineers, is directed to reimburse the State of Delaware for funds promised to the SH1 Bridge from station 58 +0 to station 293 +00 between May 12, 1997 and September 30, 2002. Reimbursement costs shall not exceed $2,000,000. For expenses necessary to carry out any activity relating to preparation of an environmental impact statement concerning the closure or removal, $100,000. The Secretary may not expend funds to accelerate the schedule to finalize the Record of Decision for the revision of the Missouri River Master Water Control Manual and any associated changes to the Missouri River Annual Operating Plan.

TITILE II

DEPARTMENT OF THE INTERIOR

CENTRAL UTAH PROJECT

CENTRAL UTAH PROJECT COMPLETION ACCOUNT

For carrying out activities authorized by the Central Utah Project Completion Act, $94,918,000, to remain available until expended, of which $10,749,000 shall be deposited into the Utah Reclamation Mitigation and Conservation Account of the Central Utah Project Completion Act and shall be available to carry out activities authorized under that Act.

In addition, for necessary expenses incurred in carrying out related responsibilities of the Secretary of the Interior, $1,310,000, to remain available until expended:

BUREAU OF RECLAMATION

The following appropriations shall be expended to execute authorized functions of the Bureau of Reclamation:
CONGRESSIONAL RECORD—SENATE
July 16, 2001

WATER AND RELATED RESOURCES
(INCLUDING TRANSFER OF FUNDS)
For management, development, and restoration of water and related resources and for related activities, including the operation, maintenance and rehabilitation of reclamation and other facilities, participation in related federal responsibilities to Native Americans, and related grants to, and cooperative and other agreements with, State and local governments and others, $15,824,000, to remain available until expended, of which $14,669,000 shall be available for transfer to the Upper Colorado River Basin Fund and $1,155,000 shall be available for transfer to the Lower Colorado River Basin Development Fund; of which such amounts as may be necessary may be advanced to the Colorado River Dam Fund; of which $8,000,000 shall be for on-reservation water development, feasibility studies, and related administrative costs under Public Law 106–163, of which not more than 25 percent of the amount provided for drought emergency assistance may be used for financial assistance for the preparation of cooperative drought contingency plans, under title H Public Law 102–265; and of which not more than $500,000 is for high priority projects which shall be carried out by the Youth Conservation Corps established by Section 19 of the Comprehensive Environmental Response, Compensation, and Liability Act (43 U.S.C. 370a), to be carried out by the Bureau of Reclamation for site reclamation, to remain available until expended, as authorized by the Small Reclamation Act of 1981 (Public Law 97–425), as amended.

For the principal amount of direct loans not exceeding $26,000,000.

For carrying out the programs, projects, plans, and activities authorized and provisions of the Central Valley Project Improvement Act, $55,039,000, to be derived from such sums as may be collected in the Central Valley Project Restoration Fund pursuant to sections 3407(d), 3404(c)(3), 3405(f), and 3406(c)(1) of Public Law 102–575, to remain available until expended.

For such costs, including the cost of modifying or converting to meet any requirements of the Reclamation Reform Act of 1994, as amended (101 Stat. 13314), that are not otherwise made available by this or any other Act or by direct payment and units of local government or any other real property or facility or for plant or facility acquisition, construction, or expansion, and the purchase or lease of not exceeding 17 passenger motor vehicles for replacement only, $736,139,000, to remain available until expended.

POLLICY AND ADMINISTRATION
For necessary expenses of policy, administration, and related functions in the office of the Commissioner of reclamation and its offices in the five regions of the Bureau of Reclamation, to remain available until expended, $52,969,000, to be derived from the Reclamation Fund and be nonreimbursable as provided in 43 U.S.C. 377:

Provided, That no part of any other appropriation in this Act shall be available for activities or functions budgeted as policy and administration expenses.

ADMINISTRATIVE PROVISION
Appropriations for the Bureau of Reclamation shall be available for purchase of not to exceed four passenger motor vehicles for replacement only.

GENERAL PROVISIONS

DEPARTMENT OF THE INTERIOR
SEC. 201. None of the funds appropriated or otherwise made available by this Act or any other Act may be used to pay the salaries and expenses of personnel to purchase or lease water in the Middle Rio Grande or the Carlsbad Projects in New Mexico unless said purchase or lease is in compliance with the water purchase requirements of section 202 of Public Law 106–111, the Denver office, and offices in the five regions of the Bureau of Reclamation, to remain available until expended, of which $25,000,000 shall be derived from the Nuclear Enrichment Decontamination and Decommissioning Fund, all of which shall remain available until expended.

URANIUM FACILITIES MAINTENANCE AND REMEDIATION
(INCLUDING TRANSFER OF FUNDS)
For necessary expenses to maintain, decontaminate, decommission, and otherwise remediate uranium processing facilities, $308,725,000, of which $287,941,000 shall be derived from the Uranium Enrichment Decontamination and Decommissioning Fund, all of which shall remain available until expended.

SCIENCE
For Department of Energy expenses including the purchase, construction and acquisition of plant and capital equipment, and other expenses necessary for science activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or facility for or for plant or facility acquisition, construction, or expansion, and the purchase of not to exceed 25 passenger motor vehicles for replacement only, $3,268,816,000, to remain available until expended.

NUCLEAR WASTE DISPOSAL
For nuclear waste disposal activities to carry out the purposes of Public Law 97–425, as amended, including the acquisition of real property or facility construction or expansion, $296,000,000, to remain available until expended and to be derived from the Nuclear Waste Fund: Provided, That $2,500,000 shall be provided to the State of Nevada solely for expenditures, other than salaries and expenses of State employees, to conduct scientific oversight responsibilities pursuant to the Nuclear Waste Policy Act of 1982, Public Law 97–425, as amended: Provided further, That $6,000,000 shall be provided to affected units of local governments, as defined in Public Law 97–425, to conduct appropriate activities pursuant to the Act: Provided further, That the distribution of the funds as determined by the units of local government shall be approved by the Department of Energy: Provided further, That the State of Nevada shall be made available solely to the Nevada Division of Emergency Management by direct payment and units of local government by direct payment: Provided further, That within 90 days of the completion of each Federal fiscal year, the Nevada Division of Emergency Management and the Governor of the State of Nevada shall provide certification to the Department of Energy that all funds expended from
such payments have been expended for activities prohibited by Public Law 97–425 and this Act. Failure to provide such certification shall cause such entity to be prohibited from any further funding provided for similar activities. Provided further, That none of the funds appropriated may be:
1. used directly or indirectly to influence legislative action on any matter pending before Congress; or for lobbying activity as provided in 18 U.S.C. 1913; or
2. used for litigation expenses; or (3) used to support multi-State efforts or other coalitions for national security and nonproliferation activities inconsistent with the restrictions contained in this Act: Provided further, That all proceeds and recoveries by the Secretary in carrying out activities authorized by the Nuclear Waste Policy Act of 1982 in Public Law 97–245, as amended, including but not limited to, any proceeds from the sale of assets, shall be available without further appropriation and shall remain available until expended.

DEPARTMENTAL ADMINISTRATION

For salaries and expenses of the Department of Energy necessary for departmental administration, carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the hire of passenger motor vehicles and official reception and representation expenses not to exceed $50,000, $328,948,000, to remain available until expended, plus such additional amounts as necessary to cover increases in the estimated amount of cost of work for others notwithstanding the provisions of the Anti-Deficiency Act (31 U.S.C. 1511 et seq.): Provided, That such increases in cost of work are offset by increases in the same or greater amount, to remain available until expended: Provided further, That moneys received by the Department for miscellaneous revenues estimated to total $337,810,000 in fiscal year 2002 may be retained and used for operating expenses within this account, and may remain available until expended, as authorized by section 291 of Public Law 95–238, notwithstanding the provisions of 31 U.S.C. 3302: Provided further, That the sum herein appropriated shall be reduced by the amount of miscellaneous revenues received during fiscal year 2002 so as to result in a final fiscal year 2002 appropriation from the General Fund estimated at not more than $71,138,000.

OFFICE OF THE INSPECTOR GENERAL

For expenses of the Office of the Inspector General in carrying out the provisions of the Inspector General Act of 1978, as amended, $30,000,000, to remain available until expended.

ATOMIC ENERGY DEFENSE ACTIVITIES

NATIONAL NUCLEAR SECURITY ADMINISTRATION

WEAPONS ACTIVITIES

For Department of Energy expenses, including the purchase, construction and acquisition of plant and capital equipment and other incidental expenses necessary for atomic energy defense weapons activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or any facility for plant or facility construction, acquisition, or expansion, and $880,500,000, to remain available until expended: Provided, That $7,000 may be used for official reception and representation expenses for national security and nonproliferation activities, in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), and the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion: Provided further, That $35,000,000, to remain available until expended: Provided further, That the Bonneville Power Administration of the Department of Energy, in carrying out the purposes of the Act of August 4, 1977 (42 U.S.C. 7152), and other related activities including conservation and renewable resources programs as authorized, including official reception and representation expenses in an amount not to exceed $1,500, to remain available until expended.

DEFENSE ENVIRONMENTAL RESTORATION AND WASTE MANAGEMENT

For Department of Energy expenses, including the purchase, construction and acquisition of plant and capital equipment and other expenses necessary for atomic energy defense environmental restoration and waste management activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion; and the purchase of 30 passenger motor vehicles, of which 27 shall be for replacement only, $5,389,668,000, to remain available until expended.

DEFENSE FACILITIES CLOSURE PROJECTS

For expenses of the Department of Energy to accelerate the closure of defense environmental management sites, including the purchase, construction and acquisition of plant and capital equipment and other necessary expenses, $1,080,538,000, to remain available until expended.

DEFENSE ENVIRONMENTAL MANAGEMENT PRIVATIZATION

For Department of Energy expenses for privatization projects necessary for atomic energy defense environmental management activities authorized by the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), $151,377,000, to remain available until expended.

OTHER DEFENSE ACTIVITIES

For Department of Energy expenses, including the purchase, construction and acquisition of plant and capital equipment and other incidental expenses necessary for atomic energy defense activities, Defense Nuclear Nonproliferation activities, in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition of any real property or any facility for or plant or facility acquisition, construction, or expansion, $250,000,000, to remain available until expended.

POWER MARKETING ADMINISTRATIONS

BONNEVILLE POWER ADMINISTRATION FUND

Expenditures from the Bonneville Power Administration Fund, established pursuant to Public Law 98–454, are approved for official reception and representation expenses in an amount not to exceed $1,500. For the purposes of appropriations funds to assist in financing the construction, acquisition, and replacement of the transmission system of the Bonneville Power Administration up to $2,000,000,000 in borrowing authority is authorized to be appropriated, subject to subsequent annual appropriations, to remain outstanding at any given time: Provided, That no portion of such borrowing authority shall not exceed $10 in fiscal year 2002 and that the Bonneville Power Administration obligation in any fiscal year under existing amounts and facilities shall not exceed $40,000,000 of its permanent borrowing in fiscal year 2002.

OPERATION AND MAINTENANCE, SOUTHWESTERN POWER ADMINISTRATION

For necessary expenses of operation and maintenance of power transmission facilities and of marketing electric power and energy, and for construction of power facilities, for the purposes of 31 U.S.C. 3302, up to $8,000,000 collected by the Southeastern Power Administration pursuant to the Flood Control Act of 1944 (16 U.S.C. 825s), as applied to the southeastern power area, $4,891,000, to remain available until expended.

DEFENSE NUCLEAR WASTE DISPOSAL

For nuclear waste disposal activities to carry out the purposes of Public Law 97–425, as amended, including the acquisition of real property for facility construction or expansion, $250,000,000, to remain available until expended.
Reclamation Fund: Provided, That of the amounts herein appropriated, $6,053,000 shall be deposited into the Utah Reclamation Mitigation and Conservation Account pursuant to section 423 of the Reclamation Projects Authorization and Adjustment Act of 1992: Provided further, That up to $156,625,000 (as collected) from fees and other collections estimated at not more than $0. That of the amounts herein appropriated, $56,053,000 is for deposit into the Utah Reclamation Mitigation and Conservation Account pursuant to title IV of the Reclamation Projects Authorization and Adjustment Act of 1992: Provided further, That up to $156,625,000 (as collected) from fees and other collections estimated at not more than $0. That of the amounts herein appropriated, $56,053,000 is for deposit into the Utah Reclamation Mitigation and Conservation Account pursuant to title IV of the Reclamation Projects Authorization and Adjustment Act of 1992: Provided further, That up to $156,625,000 (as collected) from fees and other collections estimated at not more than $0.

SEC. 301. None of the funds appropriated by this Act may be used to carry out the provisions of the Reclamation Projects Authorization and Adjustment Act of 1992: Provided further, That the Secretary may use any amount allocated to a covered nuclear weapons production plant for activities and demonstration activities with respect to the development, test, and evaluation capabilities necessary for operations and readiness of the Nevada Test Site.

SEC. 302. None of the funds appropriated by this Act may be used to carry out the provisions of the Reclamation Projects Authorization and Adjustment Act of 1992: Provided further, That the Secretary may use any amount allocated to a covered nuclear weapons production plant for activities and demonstration activities with respect to the development, test, and evaluation capabilities necessary for operations and readiness of the Nevada Test Site.

SEC. 303. None of the funds appropriated by this Act may be used to carry out the provisions of the Reclamation Projects Authorization and Adjustment Act of 1992: Provided further, That the Secretary may use any amount allocated to a covered nuclear weapons production plant for activities and demonstration activities with respect to the development, test, and evaluation capabilities necessary for operations and readiness of the Nevada Test Site.

SEC. 304. None of the funds appropriated by this Act may be used to carry out the provisions of the Reclamation Projects Authorization and Adjustment Act of 1992: Provided further, That the Secretary may use any amount allocated to a covered nuclear weapons production plant for activities and demonstration activities with respect to the development, test, and evaluation capabilities necessary for operations and readiness of the Nevada Test Site.

SEC. 305. None of the funds appropriated by this Act may be used to carry out the provisions of the Reclamation Projects Authorization and Adjustment Act of 1992: Provided further, That the Secretary may use any amount allocated to a covered nuclear weapons production plant for activities and demonstration activities with respect to the development, test, and evaluation capabilities necessary for operations and readiness of the Nevada Test Site.

SEC. 306. None of the funds appropriated by this Act may be used to carry out the provisions of the Reclamation Projects Authorization and Adjustment Act of 1992: Provided further, That the Secretary may use any amount allocated to a covered nuclear weapons production plant for activities and demonstration activities with respect to the development, test, and evaluation capabilities necessary for operations and readiness of the Nevada Test Site.

SEC. 307. None of the funds appropriated by this Act may be used to carry out the provisions of the Reclamation Projects Authorization and Adjustment Act of 1992: Provided further, That the Secretary may use any amount allocated to a covered nuclear weapons production plant for activities and demonstration activities with respect to the development, test, and evaluation capabilities necessary for operations and readiness of the Nevada Test Site.

SEC. 308. None of the funds appropriated by this Act may be used to carry out the provisions of the Reclamation Projects Authorization and Adjustment Act of 1992: Provided further, That the Secretary may use any amount allocated to a covered nuclear weapons production plant for activities and demonstration activities with respect to the development, test, and evaluation capabilities necessary for operations and readiness of the Nevada Test Site.

SEC. 309. None of the funds appropriated by this Act may be used to carry out the provisions of the Reclamation Projects Authorization and Adjustment Act of 1992: Provided further, That the Secretary may use any amount allocated to a covered nuclear weapons production plant for activities and demonstration activities with respect to the development, test, and evaluation capabilities necessary for operations and readiness of the Nevada Test Site.
license fee revenues, notwithstanding 42 U.S.C. 2000a-11b. Further, that the sum herein appropriated shall be reduced by the amount of revenues received during fiscal year 2002 so as to result in a final fiscal year 2002 appropriation estimated at not more than $50,832,000. Provided further, That, notwithstanding any other provision of law, no funds made available under this Act or any other Act may be expended by the Commission to implement or enforce 10 C.F.R. Part 35, as adopted by the Commission on October 23, 2000.

OFFICE OF INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General in carrying out the provisions of the Inspector General Act of 1978, as amended, $5,500,000, to remain available until expended: Provided, That revenues from licensing fees, inspection services, and other services and collections estimated at $5,432,000 in fiscal year 2002 shall be retained and be available until expended, for necessary salaries and expenses in this account notwithstanding 31 U.S.C. 3302: Provided further, That, the sum herein appropriated shall be reduced by the amount of revenues received during fiscal year 2002 so as to result in a final fiscal year 2002 appropriation estimated at not more than $68,000.

NUCLEAR WASTE TECHNICAL REVIEW BOARD

SALARIES AND EXPENSES

For necessary expenses of the Nuclear Waste Technical Review Board, as authorized by Public Law 100–203, section 5051, $3,500,000, to be derived from the Nuclear Waste Fund, and to remain available until expended.

TITLE V

GENERAL PROVISIONS

Sec. 501. None of the funds appropriated by this Act may be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before Congress, other than to communicate to Members of Congress as described in section 1913 of title 18, United States Code.

Sec. 502. (a) PURCHASE OF AMERICAN-MADE EQUIPMENT AND PRODUCTS.—It is the sense of the Congress that, to the greatest extent practicable, all equipment and products purchased with funds made available in this Act should be American-made.

(b) NOTICE REQUIREMENT.—In providing financial assistance to, or entering into any contract with, any entity using funds made available in this Act, the head of each Federal agency, to the greatest extent practicable, shall provide to such entity a notice describing the statement made in subsection (a) by the Congress.

(c) PROHIBITION OF CONTRACTS WITH PERSONS FALSELY LABELING PRODUCTS AS MADE IN AMERICA.—Recreational Pursuits has been finally determined by a court or Federal agency that any person intentionally affixed a label bearing a “Made in America” inscription, or any inscription with the same meaning, to any product sold in or shipped to the United States that is not made in the United States, the person shall be ineligible to receive any contract or subcontract made with funds made available in this Act, pursuant to the debarment, suspension, and ineligibility procedures described in sections 9.400 through 9.409 of 48 Code of Federal Regulations.

This Act may be cited as the “Energy and Water Development Appropriations Act, 2002”.

NOTICE OF HEARING

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. BINGAMAN. Mr. President, I would like to announce for the information of the Senate and the public that the Committee has scheduled a hearing to consider the nomination of Dan R. Brouillette to be an Assistant Secretary of Energy (Congressional and Intergovernmental Affairs).

The hearing will take place on Wednesday, July 18, at 9 a.m. in room 366 of the Dirksen Senate Office Building.

Those wishing to submit written statements on the nominations should address them to the Committee on Energy and Natural Resources, United States Senate, Washington, DC 20510. For further information, please contact Sam Fowler at 202–224–7571.

AUTHORITY FOR COMMITTEES TO MEET

SUBCOMMITTEE ON SCIENCE, TECHNOLOGY AND SPACE

Mr. REID. Mr. President, I ask unanimous consent that the Subcommittee on Science, Technology and Space of the Committee of the Whole on Commerce, Science, and Transportation be authorized to meet on “Holes in the Net: Security Risks and the Consumer,” on Monday, July 16, 2001, at 1 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGE OF THE FLOOR

Mr. REID. Mr. President, I ask unanimous consent that Roger Cockrell and James Crum, Appropriations Committee staff, be granted privileges of the floor for the duration of the consideration of the bill now before the Senate.

The PRESIDING OFFICER. Without objection, it is so ordered.

DEPARTMENT OF THE INTERIOR

AND RELATED AGENCIES APPROPRIATIONS ACT, 2002

On July 12, 2001, the Senate amended and passed H.R. 2217, as follows:

RESOLVED, That the bill from the House of Representatives (H.R. 2217) entitled “An Act making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 2002, and for other purposes,” do pass with the following amendments:

Strike out all after the enacting clause and insert:

That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the Department of the Interior and related agencies for the fiscal year ending September 30, 2002, and for other purposes, namely:

TITEL I—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LAND AND RESOURCES

For expenses necessary for protection, use, improvement, development, disposal, cadastral surveying, classification, acquisition of easements and other rights, entrance, management, and administration of other functions, including maintenance of facilities, as authorized by law, in the management of lands and their resources under the jurisdiction of the Bureau of Land Management, including the general administration of the Bureau, and assessment of mineral potential of public lands pursuant to Public Law 96–47 (16 U.S.C. 3150a), $775,962,000, to be derived from the Nuclear Waste Fund, and to remain available until expended, of which $700,000 is for riparian management projects in the Rio Puerco watershed, New Mexico, and of which $1,000,000 is for high priority projects which shall be carried out by the Youth Conservation Corps, defined in section 250(c)(4)(E)(ii) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of such Act; of which $4,000,000 shall be available for assessment of the mineral potential of public lands in Alaska pursuant to section 1010 of Public Law 96–47 (16 U.S.C. 3150)); and of which not to exceed $1,000,000 shall be derived from the special receipt account established by the Land and Water Conservation Act of 1965 (16 U.S.C. 460–6a(ii)); and of which $3,000,000 shall be available in fiscal year 2002 subject to a match by at least an equal amount by the National Fish and Wildlife Foundation, to such Foundation for cost-shared projects supporting conservation of Bureau lands and such funds shall be advanced to the Foundation as a lump sum grant without regard to when expenses are incurred; in addition, $32,298,000 for Mining Law Administration program operations, including the cost of administering the mining claim program; to remain available, to be reduced by amounts collected by the Bureau and credited to this appropriation from annual mining claim fees so as to result in a final appropriation estimated at not more than $775,962,000, and $2,000,000, to remain available until expended, from communication site rental fees established by the Bureau for the cost of administering communication privileges.

Provided, That appropriations herein made shall not be available for the destruction of healthy, unadapted, wild horses and burros in the care of the Bureau: Provided further, That of the amount provided, $28,000,000 is for the conservation activities defined in section 250(c)(4)(E) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of such Act: Provided further, That balances in the Federal Infrastructure Improvement account shall be transferred to and merged with this appropriation, and shall remain available until expended.

WILDERNESS FIRE MANAGEMENT

For necessary expenses for fire preparedness, suppression operations, fire science and research, emergency rehabilitation, hazardous fuels reduction, and rural fire assistance by the Department of the Interior, $589,421,000, to remain available until expended:

Provided, That not to exceed $19,774,000 shall be for the renovation or construction of fire facilities: Provided, That not less than $111,255,000 of the funds available for hazardous fuels reduction, and for the renovation or construction of fire facilities shall be for alleviating immediate emergency threats to urban wildland interface areas as defined by the Secretary of the Interior: Provided further, That such funds are available for repayment of advances to other appropriation accounts from which funds were previously transferred for such purposes: Provided further, That such funds are available for repayment of advances to other appropriation accounts from which funds were previously appropriated to the “Fire Protection” and “Emergency Department of the Interior
Firefighting Fund" may be transferred and merged with other funds. Provided fur- ther, That persons hired pursuant to 42 U.S.C. 1469 may be furnished subsistence and lodging without cost from funds available from this ap-
propriation, and paid therefor. That notwithstanding 42 U.S.C. 1469 et seq., sums received from the Oregon and California Grant Lands, or by the Oregon and California Grant Lands, or by the Oregon and California Grant Lands, or by the Oregon and California Grant Lands, may be expended without further appropriation: Provided further, That such sums recovered from or paid by any party are limited to monetary pay-
ments and may include stocks, bonds or other personal or real property, which may be re-
tained, liquidated, or otherwise disposed of by the Secretary and which shall be credited to this account.

CONSTRUCTION

For construction of buildings, recreation fa-
cilities, roads, trails, and appurtenant facilities, $12,976,000, to remain available until expended.

PAYROLL TAXES

For expenses necessary to implement the Act of October 20, 1976, as amended (31 U.S.C. 6901–
6907), $220,000,000, of which not to exceed $80,000,000 shall be available for personal or real property, and of which $50,000,000 is for the con-
servation activities defined in section 250(c)(4)(E)(ii) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of such Act: Pro-
vided, That no payment shall be made to other-
wise eligible units of local government if the computed amount of the payment is less than $100.

LAND ACQUISITION

For expenses necessary to carry out sections 205, 206, 217, and 221 of Public Law 94–579, in-
cluding administrative expenses and acquisition of lands or waters, or interests therein, $45,686,000, to be derived from the Land and Water Conservation Fund, to be available until expended, and to be for the conservation activities defined in section 250(c)(4)(E)(i) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of such Act.

OREGON AND CALIFORNIA GRANT LANDS

For expenses necessary for management, pro-
tection, and development of resources and for con-
servation, operation, and maintenance of ac-
cess roads, reforestation, and other improve-
ments on the revested Oregon and California Railroad grant lands, on other Federal lands in the Oregon and California Grant Lands, to remain available until expended: Provided, That 25 percent of the aggregate of all receipts during the cur-
rent fiscal year from the revested Oregon and California Railroad grant lands is hereby made a charge against the Oregon and California land-grant fund and shall be transferred to the General Fund in the Treasury in accordance with the second paragraph of subsection (b) of title II of the Act of August 28, 1937 (50 Stat. 876).

FOREST ECOSYSTEMS HEALTH AND RECOVERY FUND (REVOLVING FUND, SPECIAL ACCOUNT)

In addition to the amounts authorized to be ex-
pended under section 307(c) of the Taylor Grazing Act, any moneys that have been allocated or are available for the action of a re-
source developer, purchaser, permittee, or any other person, without regard to whether such moneys and the amounts collected from such action are allocated or made available for the action of a re-
source developer, purchaser, permittee, or any other person, without regard to whether such moneys are in excess of amounts needed to repair damage to the exact land for which such funds were collected may be used to repair other dam-
aged public lands.

MISCELLANEOUS TRUST FUNDS

In addition to amounts authorized to be ex-
pended, not to exceed $50,000,000 shall be appro-
priated such amounts as may be contributed under section 337 of the Forest and Rangelands Conservation Act of 1910 (16 U.S.C. 557), and such amounts as may be derived from the sale of lands or interests, or from the disposal of mineral leases and other revenues, or from the sale of moneys that are in excess of amounts needed to repair damage to the exact land for which such funds were collected or are available for the action of a resource developer, purchaser, permittee, or any other person, without regard to whether such moneys are in excess of amounts needed to repair damage to the exact land for which such funds were collected may be used to repair other damaged public lands.

Appropriations for the Bureau of Land Man-
agement shall be available for purchase, erec-
tion, and dismantlement of temporary struc-
tures, and alteration and maintenance of nec-
essary buildings and appurtenant facilities to which the States have title; up to $100,000 for payments, at the discretion of the Secretary, for information or evidence concerning viola-
tions of laws administered by the Bureau; mis-
cellaneous and emergency expenses of enforce-
ment activities authorized or approved by the Secretary and to be accounted for solely on her certificate, not to exceed $10,000: Provided, That notwithstanding 41 U.S.C. 501, the Bureau may, under cooperative cost-sharing and partnership agreements authorized by law, pay for any printing services from cooperators in connection with jointly produced publications for which the cooperators share the cost of printing either in whole or in part, and determines the cooperator is capable of meeting accepted quality standards: Provided further, That section 28(a) of title 30, United States Code, is amended in subsection (a) by adding the following: (1) In section 28(a), by striking the first sen-
tence and inserting, "The holder of each
unpatented mining claim, mill, or tunnel site, located or owned by the United States, whether located before, on or after the enactment of this Act, shall pay to the Secretary of the Interior, on or before September 1 of each year through 2006, a claim and maintenance fee of $100 per claim or site; and

(2) In section 28g, by striking “and before September 30, 2007” and inserting in lieu thereof “and before September 30, 1996.”

UNITED STATES FISH AND WILDLIFE SERVICE

RESOURCE MANAGEMENT

For necessary expenses of the United States Fish and Wildlife Service, for scientific and economic studies, surveys, investigations, management, inspection and control of wildlife, investigations, protection, and utilization of fishery and wildlife resources, except whales, seals, and sea lions, maintenance of the field laboratory of long horned cattle on the Wichita Mountains Wildlife Refuge, general administration, and for the performance of other authorized functions related to such resources by direct expenditures, contracts, grants, cooperative agreements and reimbursable agreements with public and private entities, $845,814,000 to remain available until September 30, 2007, including $8,000,000 for acquisitions of lands in the Hackensack Meadows, New Jersey, to identify management objectives and design strategies for preservation efforts, and of which $31,000,000 is for conservation activities defined in section 259(c)(4)(E) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of such Act, of which $1,500,000 shall be for inholdings.

LAND ACQUISITION

For expenses necessary to carry out the Land and Water Conservation Fund Act of 1965, as amended (16 U.S.C. 460l–4 through 11), including administrative expenses, and for acquisition of land or waters, or interest therein, in accordance with statutory authority applicable to the United States Fish and Wildlife Service, $186,401,000, to be derived from the Land and Water Conservation Fund, to remain available until expended, and to be for the conservation activities defined in section 259(c)(4)(E)(ii) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of such Act, of which $500,000 shall be available for acquisition of lands in the California-Nevada and California-San Luis Obispo Blueground and Wildlife Resources, and of which $1,500,000 shall be used for the acquisition of lands in the Colorado River National Wildlife Refuge, and of which $2,000,000 shall be for high priority projects which shall be for emergencies and hardships, and of which not more than $500,000 shall be used for acquisition of 1.75 acres for the Red River National Wildlife Refuge, and of which $3,000,000 shall be for the acquisition of lands in the Cahaba River National Wildlife Refuge, and of which $1,500,000 shall be for emergencies and hardships, and of which $1,500,000 shall be for inholdings.

LANDOWNER INCENTIVE PROGRAM

For expenses necessary to carry out the Land and Water Conservation Fund Act of 1965, as amended (16 U.S.C. 460l–4 through 11), including administrative expenses, and for private conservation efforts to be carried out on private lands, $50,000,000, to be derived from the Land and Water Conservation Fund, to remain available until expended, and to be for conservation spending category activities pursuant to section 251(c) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of such Act: Provided, That the amount provided herein is for a Landowner Incentive Program established by the Secretary that provides matching, competitive, and cooperative agreements with public and private agencies, and landowners, grants, and loans for the development and implementation of programs for the benefit of wildlife and their habitat, including species that are not hunted or fished, in prioritized areas as described in the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of such Act: Provided, That the Secretary, after deducting administrative expenses, apportion the amount provided herein in the following manner: (A) To the District of Columbia and to the Commonwealth of Puerto Rico, each a sum equal to not more than one-half of 1 percent of the amount provided to the District of Columbia or to the Commonwealth of Puerto Rico; (B) To the Territories of American Samoa, the U.S. Virgin Islands, and the Commonwealth of the Northern Mariana Islands, each a sum equal to not more than one-quarter of 1 percent of the amount provided to the Territories of American Samoa, the U.S. Virgin Islands, and the Commonwealth of the Northern Mariana Islands; and (C) To the Secretary to establish a Private Stewardship Grants Program to provide grants and other assistance to individuals and groups engaged in conservation efforts to benefit federal, state, local, or other private organizations in Maine to fund on-the-ground projects to further Atlantic salmon conservation and restoration efforts, at least $500,000 of which shall assist in the management of lands covered in this paragraph for any fiscal year or more than 5 percent of such amount: Provided further, That

STEWARDSHIP GRANTS

For expenses necessary to carry out the Land and Water Conservation Fund Act of 1965, as amended (16 U.S.C. 460l–4 through 11), including administrative expenses, and for private conservation efforts to be carried out on private lands, $10,000,000, to be derived from the Land and Water Conservation Fund, to remain available until expended, and to be for conservation spending category activities pursuant to section 251(c) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of such Act: Provided, That the Secretary shall apportion the remaining amount in the following manner: (A) One-third of which is based on the ratio to which the land area of such State bears to the total land area of all such States; and (B) Two-thirds of which is based on the ratio to which the population of such State bears to the total population of all such States; and that the Secretary shall, in distributing the allocations hereunder, consider the following factors: (i) The Secretary shall determine the amount allocated to such State, based on the fiscal year or more than 5 percent of such amount: Provided further, That

COOPERATIVE ENDANGERED SPECIES

For expenses necessary to carry out section 6 of the Endangered Species Act of 1973 (16 U.S.C. 1531–1543), as amended, $91,000,000, to be derived from the Cooperative Endangered Species Conservation Fund, to remain available until expended, and to be for the conservation activities defined in section 259(c)(4)(E)(iv) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of such Act.

NATIONAL WILDLIFE REFUGE FUND

For expenses necessary to implement the Act of October 17, 1978 (16 U.S.C. 715s), $14,414,000, to remain available until expended: Provided, That the amounts available for expenses necessary to carry out the provisions of the North American Wetlands Conservation Act, Public Law 101–233, as amended, to the District of Columbia, Puerto Rico, Guam, and the Commonwealth of the Northern Mariana Islands, $13,334,000, to remain available until expended: Provided, That funds made available under this Act, Public Law 106–291, provided under the Endangered Species Act of 1982 (16 U.S.C. 1531), $4,000,000, to remain available until expended: Provided, That funds made available under this Act, Public Law 106–291, and Public Law 106–554, and any other Federal appropriations acts for rhinoceros, tiger, Asian elephant, and great ape conservation programs are exempt from any sanctions imposed against any country under section 103(b) of the Arms Export Control Act (22 U.S.C. 279aa–1).
the Federal share of planning grants shall not exceed 75 percent of the total costs of such projects and the Federal share of implementation grants shall not exceed 50 percent of the total costs of such projects: Provided further, That the non-Federal share of such projects may not exceed 74 passenger motor vehicles, of which 69 are for replacement only (including 32 for police-type use); repair or damage to public roads within and adjacent to reservation areas caused by operations of the Service; options for the purchase of land at not to exceed $1 for each option; facilities determined to such public recreational uses on conservation areas as are consistent with their primary purpose; and the maintenance and improvement of aquaria, buildings, and other facilities under the jurisdiction of the Service and to which the United States has title, and which are used pursuant to law in connection with management and investigation of fish and wildlife resources: Provided, That notwithstanding standing 44 U.S.C. 501, the Service may, under cooperative cost sharing and partnership arrangements authorized by law, procure printing services in connection with jointly produced publications for which the cooperators share at least one-half the cost of printing either in cash or services and the Service determines that the services are consistent with acceptable quality standards: Provided further, That the Service may accept donated aircraft as replacements for existing aircraft: Provided further, That notwithstanding any other provision of law, the Secretary of the Interior may not spend any of the funds appropriated in this Act for the purchase of lands or interests in lands to be used in the establishment of any new unit of the National Wildlife Refuge System unless the purchase is approved in advance by the House and Senate Committees on Appropriations in accordance with the reprogramming procedures contained in Senate Report 105–56.

NATIONAL PARK SERVICE

OPERATION OF THE NATIONAL PARK SYSTEM

For expenses necessary for the management, operation, and maintenance of areas and facilities administered by the National Park Service (including special road maintenance service to trucking permits on a reimbursable basis), and for the general administration of the National Park Service, $1,474,338,000, of which $10,881,000 for research, planning and interagency coordination in support of land acquisition for Everglades restoration shall remain available until expended, and $72,640,000, to remain available until September 30, 2003, for maintenance repair or rehabilita- tion projects for constructed assets, operation of the National Park facilities, services, maintenance management systems, and comprehensive facility condition assessments; and of which $2,000,000 is for the Youth Conservation Corps, defined in section 250(c)(4)(E)(ii) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of such Act, for high priority projects: Provided, that at least 30 percent of the amount which may be made available to support United States Park Police are those funds approved for emergency law and order incidents pursuant to established plans. The funds needed to maintain and repair United States Park Police administrative facilities, and those funds necessary to reimburse the United States Park Police account for the unobligated over-time and travel costs associated with special events for an amount not to exceed $10,000 per event subject to the review and concurrence of the Washington headquarters office.

UNITED STATES PARK POLICE

For expenses necessary to carry out the programs of the United States Park Police, $86,100,000.

CONTRIBUTION FOR ANNUITY BENEFITS

For reimbursement (not herefore made), pursuant to provisions of Public Law 85–157, to the District of Columbia on a monthly basis for pension and retirement and Disability Act (Act), to the extent provided, of the amounts paid by active Park Police members covered under the Act, such amounts as hereafter may be necessary: Provided, That hereafter the appropriations made for FY 1997 shall be available for this purpose.

NATIONAL RECREATION AND PRESERVATION

For expenses necessary to carry out recreation programs, natural programs, cultural programs, heritage partnership programs, environmental compliance and review, international park affairs, statutory or contractual aid for other activities, and grant administration, not otherwise provided, of the amount provided $390,000 in heritage partnership funds for the Erie Canalway National Heritage Corridor, of which $101,000 is statutory or contractual aid for the Brown-Woman's National Monument, and of which $250,000 is for a cultural program grant to the Underground Railroad Coalition of Delaware.

URBAN PARK AND RECREATION FUND

For expenses necessary to carry out the provisions of the Urban Park and Recreation Recovery Act of 1978 (16 U.S.C. 2591 et seq.), $20,000,000, to remain available until expended and to be for the conservation activities defined in section 250(c)(4)(E)(ii) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of such Act.

HISTORIC PRESERVATION FUND

For expenses necessary in carrying out the Historic Preservation Act of 1966, as amended (16 U.S.C. 470), and the Omnibus Parks and Public Lands Management Act (Public Law 104–333), $74,000,000, to be derived from the Historic Preservation Fund, to remain available until September 30, 2003, and to be for the conservation activities defined in section 250(c)(4)(E)(ii) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of such Act: Provided, That of the amount provided $30,000,000 shall be for Save America’s Treasures for priority preservation projects, including preservation of intellectual and cultural artifacts, preservation of historic properties, and buildings to house cultural and historic resources and to provide educational opportunities: Provided further, That any individual Save America’s Treasures grant shall be matched by non-Federal funds: Provided further, That individual projects shall only be eligible for one grant, and all projects to be funded shall be approved by the House and Senate Committees on Appropriations, and shall be conditioned on the receipt of non-Federal funds: Provided further, That Save America’s Treasures funds allocated for Federal projects shall be available by transfer to appropriate accounts of individual agencies, after approval of such projects by the Secretary of the Interior: Provided further, That none of the funds provided for administrative expenses, and staffing for the program shall be available from the existing staffing levels in the National Park Service.

CONSTRUCTION

For construction, improvements, repair or replacement of physical facilities, including the modifications authorized by section 104 of the Everglades National Park Protection and Expansion Act of 1989, $338,585,000, to remain available until expended, of which $60,000,000 is for construction activities defined in section 250(c)(4)(E) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of such Act.

LAND AND WATER CONSERVATION FUND (RESCISSION)

The contract authority provided for fiscal years 2001 and 2002 by 16 U.S.C. 460l–6 (f) to provide credit to the Land and Water Conservation Fund, to remain available until expended and to be for the conservation activities defined in section 250(c)(4)(E)(iii) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of such Act.

LAND ACQUISITION AND STATE ASSISTANCE

For expenses necessary to carry out the Land and Water Conservation Act of 1965, as amended (16 U.S.C. 460l–4 through 11), including administrative expenses, and for acquisition of lands or waters, or interest therein, in accordance with the statutory authority applicable to the National Park Service, $287,036,000, to be derived from the Land and Water Conservation Fund, to remain available until expended and to be for the conservation activities defined in section 250(c)(4)(E)(iii) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of such Act, of which $164,000,000 is for the State assistance program including $4,000,000 to administer the State assistance program, and the remaining $160,000,000 shall be for grants, not covering more than 50 percent of the total cost of any acquisition to be made with such funds, to States and local communities for purposes of acquiring interests in lands to preserve and protect Civil War battlefield sites included in the July 1993 Report on the Nation’s Civil War Battlefields prepared by the Civil War Sites Advisory Commission: Provided, That lands or interests in land acquired with Civil War battlefield grants shall be subject to the requirements of paragraph 6(f)(2) of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 460l–8(f)(2)): Provided further, That of the amounts provided under this heading, $15,000,000 may be for Federal grants to the State of Florida for the acquisition of lands or waters, or interests therein, within the Everglades watershed (consisting of lands and waters within the boundaries of the South Florida Water Management District, Florida Bay and the Florida Keys, including the areas known as the Frog Pond, the Rocky Glades and the Eight and One-Half Square Mile Area) under the terms and conditions deemed necessary by the Secretary to improve and restore the hydrological function of the Everglades watershed; and $16,000,000 may be for projects authorized by the Everglades National Park Protection and Expansion Act: Provided further, That funds provided under this heading for acquisition of lands or waters, or interests therein, within the Everglades watershed are contingent upon new matching non-Federal funds by the State and shall be
subject to an agreement that the lands to be acquired be used in perpetuity for the conservation of the Everglades. Provided further, That none of the funds provided for the State Assistance program may be used to establish a contiguous fund.

Administrative Provisions

Appropriations for the National Park Service shall be available for the purchase of not to exceed 315 passenger motor vehicles, of which 48 are for replacement only, including not to exceed 237 for police-type use, 11 buses, and 8 ambulances: Provided, That none of the funds appropriated to the National Park Service may be used to process any grant or contract documents which do not include the text of 18 U.S.C. 1933: Provided further, That none of the funds appropriated to the National Park Service may be used to implement an agreement for the redevelopment of the southern end of Ellis Island until such agreement has been submitted to the Congress and shall not be implemented prior to the expiration of 30 calendar days (not including any day in which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) from the receipt by the Speaker of the House of Representatives and the President of the Senate of a full and comprehensive report on the development of plans and a cost-benefit analysis of the facts and circumstances relied upon in support of the proposed project.

None of the funds in this Act may be spent by the National Park Service for activities taken in direct response to the United Nations Biodiversity Convention.

The National Park Service may distribute to operating units based on the safety record of each unit the costs of programs designed to improve workplace and employee safety, and to encourage preventive worker compensation benefits pursuant to chapter 81 of title 5, United States Code, to return to appropriate positions for which they are medically able.

United States Geological Survey

Surveys, Investigations, and Research

For expenses necessary for the United States Geological Survey to perform surveys, investigations, and research, and for the furnishing of topographic, hydrologic, biological, and mineral and water resources of the United States, its territories and possessions, and other areas as authorized by law, for enforcement of applicable laws and regulations applicable to oil, gas, and other minerals leases, permits, licenses and operating contracts; and for matching grants or cooperative agreements; including the purchase of not to exceed eight passenger motor vehicles for replacement only, $151,933,000, of which $84,021,000, shall be available until expended, for activities funded by appropriations herein made may be accomplished through the use of contracts, grants, or cooperative agreements as defined in 31 U.S.C. 630a.

Minerals Management Service

Royalty and Offshore Minerals Management

For expenses necessary for minerals leasing and environmental studies, regulation of industry operations, and collection of royalties, as authorized by law; for enforcement of applicable laws and regulations applicable to oil, gas, and other minerals leases, permits, licenses and operating contracts; and for matching grants or cooperative agreements; including the purchase of not to exceed eight passenger motor vehicles for replacement only, $151,933,000, of which $84,021,000, shall be available until expended, from additions to receipts applicable to this appropriation and to remain available until expended.

Coal royalties and fees paid by operators of strip mining operations under the Surface Mining Control and Reclamation Act of 1977, as amended, including the purchase of not to exceed 11 buses and eight passenger motor vehicles for replacement only, $203,171,000, to be derived from receipts of the Abandoned Mine Reclamation Fund and to remain available until expended: Provided further, That none of the funds in this Act may be spent by the Minerals Management Service for any required non-Federal share of the cost of projects funded under the Abandoned Mine Reclamation Fund.

Abandoned Mine Reclamation Fund

For necessary expenses to carry out title V of the Surface Mining Control and Reclamation Act of 1977, Public Law 95-87, as amended, including the purchase of not to exceed 315 passenger motor vehicles, of which 256 shall be for replacement only, including not to exceed 237 for police-type use, 11 buses, and 8 ambulances: Provided, That none of the funds provided for the State Assistance program may be used to establish a contiguous fund.

Administering the minerals exploration program (30 U.S.C. 641); and publish and disseminate data relative to the following activities: and to conduct inquiries into the economic conditions affecting mining and materials processing industries (30 U.S.C. 3, 21a, and 1603; 50 U.S.C. 96g(1)) and related purposes as authorized by law and to publish and disseminate data; $201,447,000, of which $76,318,000 shall be available only for cooperation with States or municipalities for water resources investigations and of which $8,000,000 shall remain available until expended for conducting inquiries into the economic conditions affecting mining and materials processing industries; and of which $8,000,000 shall remain available until expended for conducting inquiries into the economic conditions affecting mining and materials processing industries; and of which $8,000,000 shall remain available until expended for conducting inquiries into the economic conditions affecting mining and materials processing industries; and of which $8,000,000 shall remain available until expended for conducting inquiries into the economic conditions affecting mining and materials processing industries; and of which $8,000,000 shall remain available until expended for conducting inquiries into the economic conditions affecting mining and materials processing industries; and of which $8,000,000 shall remain available until expended for conducting inquiries into the economic conditions affecting mining and materials processing industries.

For expenses necessary for the United States Geological Survey shall be available for the purchase of not to exceed 315 passenger motor vehicles, of which 48 are for replacement only, $23,226,000 shall be available for one-half the cost of topographic mapping or water resources data for the United States Geological Survey, including the purchase of not to exceed 8 passenger motor vehicles for replacement only, $23,226,000 shall be available for replacement only, reimbursement to the General Services Administration for security guard services; contracting for the furnishing of topographic maps and related products or services for the making of geophysical or other specialized surveys when it is administratively determined that such procedures are in the public interest; construction and maintenance of necessary buildings and appurtenant facilities; acquisition of lands for gauging stations and observation wells; expenses of the United States National Committee on Compensatory Fishing and expenses of persons on the rolls of the Survey duly appointed to represent the United States in the negotiation and administration of compen- sation agreements and other intergovernmental agreements, and for making a full and comprehensive report on the development of plans and a cost-benefit analysis of the facts and circumstances relied upon in support of the proposed project.

None of the funds in this Act may be spent by the National Park Service for activities taken in direct response to the United Nations Biodiversity Convention.

The National Park Service may distribute to operating units based on the safety record of each unit the costs of programs designed to improve workplace and employee safety, and to encourage preventive worker compensation benefits pursuant to chapter 81 of title 5, United States Code, to return to appropriate positions for which they are medically able.

CONGRESSIONAL RECORD—SENATE

July 16, 2001

13321

emergency projects: Provided further, That pur-}
by the Federal Government for the purpose of ensuring that projects related to treatment or abatement of acid mine drainage from abandoned mines: Provided further, That such projects must be consistent with the purposes and purposes and enforcement functions of the Surface Mining Control and Reclamation Act: Provided further, That the State of Maryland may set aside the greater of $1,000,000 or 10 percent of the total of the grants made available to the State under title IV of the Surface Mining Control and Reclamation Act of 1977, as amended (30 U.S.C. 1231 et seq.), if the amount set aside is deposited in an acid mine drainage abatement and treatment fund established under a State law, pursuant to which law the amount (together with all interest earned on the amount) is expended by the State to undertake acid mine drainage abatement and treatment projects, except that before any amounts greater than 10 percent of its title IV grant are expended in such an acid mine drainage abatement and treatment fund, the State of Maryland must first complete all Surface Mining Control and Reclamation Act priority one projects.

BUREAU OF INDIAN AFFAIRS

OPERATION OF INDIAN PROGRAMS

For expenses necessary for the operation of Indian programs, as authorized by law, including the November 13, 1987 (30 U.S.C. 13), the Indian Self-Determination and Education Assistance Act of 1975 (25 U.S.C. 450 et seq.), as amended, the Education Amendments of 1978 (25 U.S.C. 2001–2019), and the Tribally Controlled Schools Act of 1988 (25 U.S.C. 2501 et seq.), as amended, $1,804,322,000, to remain available until September 30, 2003 except as otherwise provided herein, of which not to exceed $89,864,000 shall be for welfare assistance payments and notwithstanding any other provision of law, including but not limited to the Indian Health Care Improvement Act of 1990 as amended, not to exceed $130,209,000 shall be available for payments to tribes and tribal organizations for contract support costs associated with ongoing contracts, grants, grants, compacts, or cooperative agreements with the Bureau under such Act; and of which not to exceed $343,427,000 for school operations costs of Bureau-funded schools and other education programs shall become available on July 1, 2002, and shall remain available until September 30, 2003; and of which not to exceed $58,540,000 shall remain available until expended for housing improvement, road maintenance, attorney fees, litigation support, the Indian Self-Determination Fund, land records improvement, and the Navajo-Hopi Settlement Program: Provided, That notwithstanding any other provision of law, including but not limited to the Indian Self-Determination Act of 1975, as amended, and 25 U.S.C. 2008, not to exceed $43,065,000 within and available amounts made available from the Indian Guaranteed Loan Program account (including the Indian loan guarantee and insurance fund, and the Administrative provisions for the Operation of Indian programs fund) shall be available to the State for the purpose of ensuring that projects related to the operation and improvement, road maintenance, attorney fees, litigation support, the Indian Self-Determination Fund, land records improvement, and the Navajo-Hopi Settlement Program.
For necessary expenses for management of the Department of the Interior, $67,541,000, of which not to exceed $3,500 may be for official reception and representation expenses, and of which up to $1,000,000 shall be made available for reimbursing public agencies for cost-sharing payments and unemployment compensation payments associated with the orderly closure of the United States Bureau of Mines.

Office of the Solicitor

SALARIES AND EXPENSES

For necessary expenses of the Office of the Solicitor, $44,074,000.

Office of Inspector General

SALARIES AND EXPENSES

For necessary expenses of the Office of Inspector General, $34,302,000, of which $3,122,000 standing any other provision of law, the statute of limitations shall not commence to run on any such claim, including any claim in litigation pending on the date of the enactment of this Act, concerning civil rights, civil liberties, or other programs funded with trust funds of the United States or to which a tribal or individual Indian has been charged with an accounting of such funds from which the beneficiary can determine whether such funds have been used properly. Provided further, That notwithstanding any other provision of law, the Secretary shall not be required to provide a quarterly statement of performance for any Indian trust account that has not had activity for at least 18 months and has a balance of $1.00 or less: Provided further, That the Secretary shall issue an annual account statement and maintain a record of any such accounts and shall permit the balance in each such account to be withdrawn upon the express written request of the account holder.

Indian Land Consolidation

For consolidation of fractional interests in Indian lands and expenses associated with redeeming and redeeding escheated interests in allotted lands, and for necessary expenses to carry out the Indian Revestment Act of 1981, as amended, direct expenditure or cooperative agreement, $10,980,000, to remain available until expended and which may be transferred to the Bureau of Indian Affairs and Departmental Management.

Natural Resource Damage Assessment and Restoration

For necessary expenses for management of the Department of the Interior, $67,541,000, of which not to exceed $3,500 may be for official reception and representation expenses, and of which up to $1,000,000 shall be made available for reimbursing public agencies for cost-sharing payments and unemployment compensation payments associated with the orderly closure of the United States Bureau of Mines.

shall be made available under this authority until the funds are expended by the Department of the Interior for ‘wildland fire operations’ shall be exhausted within thirty days: Provided further, that all funds used pursuant to this section are hereby designated by the Secretary to be made available for periods not in excess of 12 months beginning at any time during the fiscal year.

SEC. 107. No funds provided in this title may be expended by the Department of the Interior for periods not in excess of 12 months beginning at any time during the fiscal year.

SEC. 108. No funds provided in this title may be expended by the Department of the Interior for the conduct of offshore oil and natural gas preleasing, leasing and related activities, on lands within the Northern Atlantic, Washington and Oregon; and the eastern Gulf of Mexico south of 26 degrees north latitude and east of 86 degrees west longitude.

SEC. 109. No funds provided in this title may be expended by the Department of the Interior to conduct offshore oil and natural gas preleasing, leasing and related activities, on lands within the North Alaskan Basin planning area.

SEC. 110. No funds provided in this title may be expended by the Department of the Interior to conduct offshore oil and natural gas preleasing, leasing and related activities in the eastern Gulf of Mexico planning area for any lands located on the final Outer Continental Shelf 5-Year Oil and Gas Leasing Program, 1997–2002.

SEC. 111. No funds provided in this title may be expended by the Department of the Interior to conduct offshore oil and natural gas preleasing, leasing and related activities in the Mid-Atlantic and South Atlantic planning areas.

SEC. 112. Appropriations made in this title shall be available for services rendered may be credited to the appropriations at the time such reimbursements are received.

SEC. 113. A grazing permit or lease that expires (or is transferred) during fiscal year 2002 shall be renewed under section 402 of the Federal Land Policy and Management Act of 1976, as amended (16 U.S.C. 410aaa–50). The terms and conditions of the permit or lease shall continue in effect under the new permit or lease until such time as the Secretary determines that funds appropriated pursuant to this act are expended by the Department of the Interior for services rendered.

SEC. 114. Notwithstanding any other provision of law, the Secretary may retain and use any such remaining funds to reimburse, on a pro rata basis, accounts from which funds were transferred and used to reimburse, on a pro rata basis, other appropriation from which funds were transferred and used to reimburse, on a pro rata basis, other appropriation.

SEC. 116. Funds appropriated for the Bureau of Indian Affairs for purposes of meeting the requirements for fiscal year 2002 shall be allocated among the schools proportionate to the unmet need of the schools as determined by the Secretary under paragraph (2). The Secretary shall ensure that an eligible Indian tribe currently on the Department’s priority list for construction of tribal schools shall receive the highest priority for a grant under this section.

SEC. 117. (a) The Secretary of the Interior shall take such action as may be necessary to ensure that funds made available pursuant to section 111(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, and must be replenished by a supplemental appropriation which such be requested as promptly as possible. Provided further, That such replenishment funds shall be used to reimburse, on a pro rata basis, accounts from which funds were transferred and used to reimburse, on a pro rata basis, other appropriation.

SEC. 118. Notwithstanding any other provision of law, in conveying the Twin Cities Research Center under the authority provided by Public Law 94–134, as amended by Public Law 104–208, the Secretary may accept and retain land and other forms of reimbursement: Provided, That the Secretary may retain and use any such reimbursement until expended and without further limitation: Provided further, That all funds made available pursuant to section 111(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, and must be replenished by a supplemental appropriation which such be requested as promptly as possible. Provided further, That such replenishment funds shall be used to reimburse, on a pro rata basis, accounts from which funds were transferred and used to reimburse, on a pro rata basis, other appropriation.

improvements and equipment associated with
Secretary determines to be appropriate.

(a) the costs of construction under the grant;
(b) that the Indian tribe shall be required to
contribute towards the cost of the construction
tribal share equal to 50 percent of the costs; and
(c) any other term or condition that the Sec-
retary determines to be appropriate.

(4) ELIGIBILITY.—Grants awarded under the
demonstration program shall only be for con-
struction on replacement tribally controlled
schools.

(c) Effect of Grant.—A grant received
under this section shall be in addition to any
other funds received by an Indian tribe under any
other Federal law. The receipt of a grant under this section shall not affect the eli-
gitability of an Indian tribe receiving funding, or the amount of funding received by the Indian tribe.

XXX

section 124. The Secretary of the Interior may
approve the construction of a monument.

(a) The Secretary of the Interior may
use grants for the purchase of cultural, historical, and cultural, or vehicular
magnets on the Sheldon and Nat-
ional Wildlife Refuges for the purpose of cap-
turning and transporting horses and burros.

(b) The Secretary of the Interior shall (1)
transfer not to exceed 25 percent of that State's
formula allocation under the heading "National Park Service, Land Acquisition and State As-
sistance" to increase the State's allocation
under the heading "United States Fish and
Wildlife Service, State Wildlife Grants" or (2)
transfer not to exceed 25 percent of the State's
formula allocation under the heading "United States Fish and Wildlife Service, State Wildlife Grants" to increase the State's formula alloca-
tion under the heading "National Park Service, Land Acquisition and State Assistance".

(b) The National Park Service shall conduct
an Environmental Impact Statement on vessel entries into such park taking into account possible impacts
on whale populations: Provided, That none of
such park taking into account possible impacts
on resources off the coastline of the United States, in Alaska, and off the coastline of the
United States;

(6) this reliance is likely to continue for the foreseeable future;

(7) that object to exploration and development for
resources, such as onshore and offshore Alaska,

(8) actions that prevent the development of cer-
tain onshore areas in the western United States, in Alaska, and off the coastline of the
United States;

(9) actions to prevent the development of cer-
tain Federal crude oil and natural gas resources
focus development pressure on the remaining areas of Federal crude oil and natural gas re-
sources, such as onshore areas in the western United
States, in Alaska, and off the coastline of the
United States, and the central Gulf of Mexico off the
coasts of Alabama, Alaska, Louisiana, Mississippi,
and Texas;

(10) the development of Federal crude oil and
natural gas resources is accompanied by adverse
effects on the infrastructure services, public
services, and the economies of State, local

counties, and local communities that host the develop-
ment of those Federal resources;

(11) States, counties, and local communities do not have the power to tax adequately the develop-
ment of Federal crude oil and natural gas
resources, particularly when those development...
13326

activities occur off the coastline of States that
serve as platforms for that development, such as
Alabama, Alaska, Louisiana, Mississippi, and
Texas;
(12) the Mineral Leasing Act (30 U.S.C. 181 et
seq.), which governs the development of Federal
crude oil and natural gas resources located onshore, provides, outside the budget and appropriations processes of the Federal Government,
payments to States in which Federal crude oil
and natural gas resources are located in the
amount of 50 percent of the direct revenues received from the Federal Government for those
resources; and
(13) there is no permanent provision in the
Outer Continental Shelf Lands Act (43 U.S.C.
1331 et seq.), which governs the development of
Federal crude oil and natural gas resources located offshore, that authorizes the sharing of a
portion of the annual revenues generated from
Federal offshore crude oil and natural gas resources with adjacent coastal States that—
(A) serve as the platform for that development; and
(B) suffer adverse effects on the environment
and infrastructure of the States.
(b) SENSE OF CONGRESS.—It is the sense of
Congress that Congress should provide a significant portion of the Federal offshore mineral revenues to coastal States that permit the development of Federal mineral resources off the coastline, including the States of Alabama, Alaska,
Louisiana, Mississippi, and Texas.
TITLE II—RELATED AGENCIES
DEPARTMENT OF AGRICULTURE
FOREST SERVICE
FOREST AND RANGELAND RESEARCH

For necessary expenses of forest and rangeland research as authorized by law, $242,822,000,
to remain available until expended.
STATE AND PRIVATE FORESTRY

rmajette on PROD1PC67 with BOUND RECORD

July 16, 2001

CONGRESSIONAL RECORD—SENATE

For necessary expenses of cooperating with
and providing technical and financial assistance to States, territories, possessions, and others, and for forest health management, cooperative forestry, and education and land conservation activities and conducting an international
program as authorized, $287,331,000, to remain
available until expended, as authorized by law,
of which $101,000,000 is for Forest Legacy and
Urban and Community Forestry, defined in section 250(c)(4)(E)(ix) of the Balanced Budget and
Emergency Deficit Control Act of 1985, as
amended, for the purposes of such Act, of which
$1,000,000 shall be available for the Tumbledown/Mount Blue conservation project, Maine,
and of which $4,000,000 shall be for the purchase of a conservation easement on the Connecticut Lakes Tract, located in northern New
Hampshire and owned by International Paper
Co., and of which $500,000 shall be for the purchase of a conservation easement on the Range
Creek Headwaters tract in Utah: Provided, That
none of the funds provided under this heading
for the acquisition of lands or interests in lands
shall be available until the House Committee on
Appropriations and the Senate Committee on
Appropriations provide to the Secretary, in writing, a list of specific acquisitions to be undertaken with such funds: Provided further, That
notwithstanding any other provision of law, of
the funds provided under this heading,
$5,000,000 shall be made available to Kake Tribal
Corporation as an advanced direct lump sum
payment to implement the Kake Tribal Corporation Land Transfer Act (Public Law 106–283).
NATIONAL FOREST SYSTEM

For necessary expenses of the Forest Service,
not otherwise provided for, for management,
protection, improvement, and utilization of the
National Forest System, $1,324,491,000, to remain
available until expended, which shall include 50
percent of all moneys received during prior fis-

cal years as fees collected under the Land and
Water Conservation Fund Act of 1965, as
amended, in accordance with section 4 of the
Act (16 U.S.C. 460l–6a(i)): Provided, That unobligated balances available at the start of fiscal
year 2002 shall be displayed by extended budget
line item in the fiscal year 2003 budget justification: Provided further, That of the amount
available for vegetation and watershed management, the Secretary may authorize the expenditure or transfer of such sums as necessary to the
Department of the Interior, Bureau of Land
Management for removal, preparation, and
adoption of excess wild horses and burros from
National Forest System lands: Provided further,
That of the funds provided under this heading
for Forest Products, $5,000,000 shall be allocated
to the Alaska Region, in addition to its normal
allocation for the purposes of preparing additional timber for sale, to establish a 3-year timber supply and such funds may be transferred to
other appropriations accounts as necessary to
maximize accomplishment: Provided further,
That of the funds provided for Wildlife and Fish
Habitat Management, $600,000 shall be provided
to the State of Alaska for wildlife monitoring activities.
WILDLAND FIRE MANAGEMENT

For necessary expenses for forest fire
presuppression activities on National Forest
System lands, for emergency fire suppression on
or adjacent to such lands or other lands under
fire protection agreement, and for emergency rehabilitation of burned-over National Forest System lands and water, $1,115,594,000, to remain
available until expended: Provided, That such
funds including unobligated balances under this
head, are available for repayment of advances
from other appropriations accounts previously
transferred for such purposes: Provided further,
That not less than 50 percent of any unobligated balances remaining (exclusive of amounts
for hazardous fuels reduction) at the end of fiscal year 2001 shall be transferred, as repayment
for past advances that have not been repaid, to
the fund established pursuant to section 3 of
Public Law 71–319 (16 U.S.C. 576 et seq.): Provided further, That notwithstanding any other
provision of law, $4,000,000 of funds appropriated under this appropriation shall be used
for Fire Science Research in support of the Joint
Fire Science Program: Provided further, That
all authorities for the use of funds, including
the use of contracts, grants, and cooperative
agreements, available to execute the Forest and
Rangeland Research appropriation, are also
available in the utilization of these funds for
Fire Science Research: Provided further, That
funds provided shall be available for emergency
rehabilitation and restoration, hazard reduction
activities in the urban-wildland interface, support to federal emergency response, and wildfire
suppression activities of the Forest Service: Provided further, That the Forest Service shall expend not less than $125,000,000 of funds provided under this heading for hazardous fuels reduction activities for alleviating immediate
emergency threats to urban wildland interface
areas as defined by the Secretary of Agriculture:
Provided further, That amounts under this
heading may be transferred as specified in the
report accompanying this Act to the ‘‘State and
Private Forestry’’, ‘‘National Forest System’’,
‘‘Forest and Rangeland Research’’, and ‘‘Capital Improvement and Maintenance’’ accounts
to fund state fire assistance, volunteer fire assistance, and forest health management, vegetation and watershed management, heritage site
rehabilitation, wildlife and fish habitat management, trails and facilities maintenance and restoration: Provided further, That transfers of
any amounts in excess of those specified shall
require approval of the House and Senate Committees on Appropriations in compliance with

reprogramming procedures contained in House
Report No. 105–163: Provided further, That the
costs of implementing any cooperative agreement between the Federal government and any
non-Federal entity may be shared, as mutually
agreed on by the affected parties: Provided further, That in entering into such grants or cooperative agreements, the Secretary may consider
the enhancement of local and small business employment opportunities for rural communities,
and that in entering into procurement contracts
under this section on a best value basis, the Secretary may take into account the ability of an
entity to enhance local and small business employment opportunities in rural communities,
and that the Secretary may award procurement
contracts, grants, or cooperative agreements
under this section to entities that include local
non-profit entities, Youth Conservation Corps or
related partnerships with State, local or nonprofit youth groups, or small or disadvantaged
businesses: Provided further, That in addition
to funds provided for State Fire Assistance programs, and subject to all authorities available to
the Forest Service under the State and Private
Forestry Appropriation, up to $15,000,000 may be
used on adjacent non-Federal lands for the purpose of protecting communities when hazard reduction activities are planned on national forest
lands that have the potential to place such communities at risk: Provided further, That the Forest Service shall analyze the impact of restrictions on mechanical fuel treatments and forest
access in the upcoming Chugach National Forest Land and Resource Management Plan, on
the level of prescribed burning on the Chugach
National Forest, and on the implementation of
the National Fire Plan: Provided further, That
this analysis shall be completed before the release of the Chugach Forest Plan and shall be
included in the plan: Provided further, That included in funding for hazardous fuel reduction
is $5,000,000 for implementing the Community
Forest Restoration Act, Public Law 106–393, title
VI, and any portion of such funds shall be
available for use on non-Federal lands in accordance with authorities available to the Forest Service under the State and Private Forestry
Appropriation: Provided further, That of the
amounts provided under this heading $2,838,000
is for the Ecological Restoration Institute, of
which $338,000 is for ongoing activities on Mt.
Trumbull: Provided further, That:
(1) In expending the funds provided with respect to this Act for hazardous fuels reduction,
the Secretary of the Interior and the Secretary
of Agriculture may conduct fuel reduction treatments on Federal lands using all contracting
and hiring authorities available to the Secretaries applicable to hazardous fuel reduction activities under the wildland fire management accounts. Notwithstanding Federal government
procurement and contracting laws, the Secretaries may conduct fuel reduction treatments on
Federal lands using grants and cooperative
agreements. Notwithstanding Federal government procurement and contracting laws, in
order to provide employment and training opportunities to people in rural communities, the
Secretaries may award contracts, including contracts for monitoring activities, to—
(A) local private, nonprofit, or cooperative entities;
(B) Youth Conservation Corps crews or related partnerships, with State, local and nonprofit youth groups;
(C) small or micro-businesses; or
(D) other entities that will hire or train a significant percentage of local people to complete
such contracts. The authorities described above
relating to contracts, grants, and cooperative
agreements are available until all funds provided in this title for hazardous fuels reduction
activities in the urban wildland interface are
obligated.

CONGRESSIONAL RECORD—SENATE

13327

(2)(A) The Secretary of Agriculture may transfer or realign funds to the United States Fund and Wildlife Service of the Department of the Interior, or the National Marine Fisheries Service of the Department of Commerce, for the costs of carrying out their responsibilities under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.) to consult and conference as required by section 7 of such Act in connection with wildlife management activities in fiscal years 2001 and 2002.

(B) Only those funds appropriated for fiscal years 2001 and 2002 to Forest Service (USDA) for wildfire suppression are available for transfer to the Secretary of Agriculture for such transfer or reimbursement.

(C) The amount of the transfer or reimbursement shall be as mutually agreed by the Secretary of Agriculture and the Secretary of the Interior or Secretary of Commerce, as applicable, or their designees. The amount shall in no case exceed the actual costs of consultation and conferencing in connection with wildland fire management activities affecting National Forest System.

For an additional amount to cover necessary expenses for emergency rehabilitation, wildfire suppression and other fire operations of the Forest Service, to remain available until expended, of which $100,000,000 is for emergency rehabilitation and wildfire suppression, and $65,000,000 is for other fire operations: Provided, Notwithstanding any other law, the amount available in this paragraph is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of such Act.

Lands Acquisition

For the acquisition of lands within the exterior boundaries of the Cache, Uinta, and Wasatch National Forests, Utah; the Tuleyabe National Forest, Nevada; and the Angeles, San Bernardino, San Gorgonio, and Cleveland National Forests, California, as authorized by law, $1,069,000, to be derived from forest receipts.

Range Reimbursement Fund

For necessary expenses of range rehabilitation, protection, and improvement, 50 percent of all moneys received during the prior fiscal year, as fees for grazing domestic livestock on lands in National Forests in the 16 Western States, pursuant to section 401(b)(1) of Public Law 94-579, as amended, to remain available until expended, of which not to exceed 6 percent shall be available for administrative expenses associated with on-the-ground range rehabilitation, protection, and improvements.

Gifts, Donations and Bequests for Forest and Rangeland Research

For expenses authorized by 16 U.S.C. 164(b), $92,000, to remain available until expended, to be derived from the fund established pursuant to the above Act.

Management of National Forest Lands for Grazing Purposes

For necessary expenses of the Forest Service to manage federal lands in Alaska for subsistence uses under title VIII of the Alaska National Interest Lands Conservation Act (Public Law 96-487), $5,488,000, to remain available until expended.

Administrative Provisions, Forest Service

Appropriations to the Forest Service for the current fiscal year shall be available for: (1) the retirement of not to exceed 132 passenger motor vehicles of which eight will be used primarily for law enforcement purposes and of which 130 shall be for replacement and acquisition of 25 passenger motor vehicles from excess sources, and hire of such vehicles; operation and maintenance of aircraft, the purchase of not to exceed seven for replacement only, and acquisition of sufficient aircraft from excess sources to maintain the operable fleet at 195 aircraft for use in Forest Service wildland fire programs and other Forest Service operations; (2) provisions of sections 10 and 102 of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of such Act.

No funds appropriated to the Forest Service may be reprogrammed without the advance approval of the House and Senate Committees on Appropriations in compliance with the reprogramming procedures contained in House Report No. 105-163.

No funds appropriated to the Forest Service may be available to conduct a program of not less than $2,000,000 for high priority projects within the scope of the approved budget which shall be carried out by the Youth Conservation Corps, as defined in section 250(c)(2)(A)(viii) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of such Act.

No funds made available under this Act shall be obligated or expended to establish, to move or to operate an office for National Forest System administration of the Forest Service, Department of Agriculture without the consent of the House and Senate Committees on Appropriations.

Any appropriations or funds available to the Forest Service may be transferred to the Wildland Fire Management application for forest firefighting, emergency rehabilitation of burned-over or damaged lands or waters under its jurisdiction, and fire preparedness due to a declaration of a national emergency by the President.

Funds appropriated to the Forest Service shall be available for assistance to or through the Agency for International Development and the Foreign Agricultural Service in connection with forest and rangeland research, technical information, and assistance in foreign countries, and shall be available to support forestry and related natural resource activities outside the United States and its territories and possessions, including technical assistance, education and training, and cooperation with United States and international organizations.

None of the funds made available under the Act shall be subject to transfer under the provisions of section 702(b) of the Department of Agriculture Organic Act of 1944 (7 U.S.C. 2257) or 7 U.S.C. 147b unless the proposed transfer is approved in advance by the House and Senate Committees on Appropriations.

None of the funds made available to the Forest Service under this Act shall be transferred to the Working Capital Fund of the Department of Agriculture without the approval of the Chief of the Forest Service.

Funds available to the Forest Service shall be available to conduct a program of not less than $2,000,000 for high priority projects within the scope of the approved budget which shall be carried out by the Youth Conservation Corps, as defined in section 250(c)(2)(A)(viii) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of such Act.

Funds available to the Forest Service, $2,500,000 is available to the Chief of the Forest Service for official reception and representation expenses.

Gifts, donations and bequests for forest and rangeland research.
That such gifts may be accepted notwithstanding the activities and services at the Grey Towers property for the benefit of, or in connection with, the National Forest Foundation or other non-Federal recipients for any such public or private agencies, organizations, or individuals, to provide for the development, administration, maintenance, or restoration of land, facilities, or Forest Service programs on National Forest land on the date of the enactment of this Act on Federal funds to carry out the purposes of Public Law 101–593. Provided further, That such investments may be made only in interest-bearing obligations of the United States or in obligations guaranteed as to both principal and interest by the United States.

Pursuant to section 2(b)(2) of Public Law 98–244, up to $2,650,000 of the funds available to the Forest Service shall be available for matching funds to the National Fish and Wildlife Foundation for the purpose of planning or implementing the Columbia River Gorge National Scenic Area, and may be advanced in a lump sum as Federal financial assistance, without regard to when expenses are incurred, for projects on or benefiting National Forest land in the State of Washington, and may be advanced in a lump sum as Federal financial assistance, without regard to when expenses are incurred, for projects on or benefiting National Forest land on the Tongass National Forest, provided that the Foundation shall not enter into grants, contracts, and cooperative efforts for a non-Federal recipient for a project at the same rate that the recipient has obtained the non-Federal matching funds.

Funds appropriated to the Forest Service shall be available for matching funds to the National Fish and Wildlife Foundation, provided that the Foundation shall not enter into grants, contracts, and cooperative efforts for a non-Federal recipient for a project at the same rate that the recipient has obtained the non-Federal matching funds.

Notwithstanding any other provision of law, 80 percent of the funds appropriated to the Forest Service in the “National Forest System” and “Capital Improvement and Maintenance” accounts and planned to be allocated to activities under the “Jobs in the Woods” program for projects on Federal Forest land in the State of Washington may be granted directly to the Columbia River Gorge National Scenic Area, and may be advanced in a lump sum as Federal financial assistance, without regard to when expenses are incurred, for projects on or benefiting National Forest land in the State of Washington.

Funds appropriated to the Forest Service shall be available for grants to keep within 10 percent of the funds available to the Forest Service for projects on Federal Forest land in the State of Washington.

Future budget justifications for both the Forest Service and the Department of Agriculture should clearly display the sums previously transferred and the requested funding transfers.

The Forest Service shall fund indirect expenses, that is expenses not directly related to specific programs or to the accomplishment of specific work on-the-ground, from any funds available to the Forest Service: Provided, That the Foundation shall not enter into grants, contracts, and cooperative efforts for a non-Federal recipient for a project at the same rate that the recipient has obtained the non-Federal matching funds.

Funds appropriated to the Forest Service shall be available for matching funds to the National Fish and Wildlife Foundation, provided that the Foundation shall not enter into grants, contracts, and cooperative efforts for a non-Federal recipient for a project at the same rate that the recipient has obtained the non-Federal matching funds.

Notwithstanding any other provision of law, any appropriations or funds available to the Forest Service not to exceed $500,000 may be used to reimburse the Office of the General Counsel, the Forest Service, the Forest Fire Management, and any other agency, division, fund, or account for travel and related expenses incurred as a result of OGC assistance or participation requested by the Forest Service at meetings, training sessions, management reviews, land purchase negotiations, and related non-litigation related matters. Future budget justifications for both the Forest Service and the Department of Agriculture should clearly display the sums previously transferred and the requested funding transfers.

The Forest Service shall fund indirect expenses, that is expenses not directly related to specific programs or to the accomplishment of specific work on-the-ground, from any funds available to the Forest Service: Provided, That the Foundation shall not enter into grants, contracts, and cooperative efforts for a non-Federal recipient for a project at the same rate that the recipient has obtained the non-Federal matching funds.

Funds appropriated to the Forest Service shall be available for matching funds to the National Fish and Wildlife Foundation, provided that the Foundation shall not enter into grants, contracts, and cooperative efforts for a non-Federal recipient for a project at the same rate that the recipient has obtained the non-Federal matching funds.

Notwithstanding any other provision of law, 80 percent of the funds appropriated to the Forest Service in the “National Forest System” and “Capital Improvement and Maintenance” accounts and planned to be allocated to activities under the “Jobs in the Woods” program for projects on Federal Forest land in the State of Washington may be granted directly to the Columbia River Gorge National Scenic Area, and may be advanced in a lump sum as Federal financial assistance, without regard to when expenses are incurred, for projects on or benefiting National Forest land on the Tongass National Forest.
CONGRESSIONAL RECORD—SENATE

ENERGY CONSERVATION

For necessary expenses in carrying out energy conservation activities, $470,805,000, to remain available until expended.

Strategic Petroleum Reserve

For necessary expenses for Strategic Petroleum Reserve facility development and operation, costs, and payments to cost-sharing contractors, $251,000,000 shall be for use in energy conservation grant programs as defined in section 3008(b) of Public Law 98-569 (15 U.S.C. 437t): Provided, That funds provided pursuant to sections 3008(b) and 3009 of Public Law 99-59, such sums shall be allocable to the eligible programs as follows: $213,000,000 for weatherization assistance grants and $198,000,000 for State energy conservation grants.

ECONOMIC REGULATION

For necessary expenses in carrying out the activities of the Office of Hearings and Appeals, up to $1,996,000, to remain available until expended.

Strategic Petroleum Reserve

For necessary expenses for Strategic Petroleum Reserve facility development and operation, costs, and payments to cost-sharing contractors pursuant to the Energy Policy and Conservation Act of 1975, as amended (42 U.S.C. 6201 et seq.), $168,000,000, to remain available until expended, of which $94,000,000 shall be available for the operation of a Northeast Home Heating Oil Reserve.

Energy Information Administration

For necessary expenses in carrying out the activities of the Energy Information Administration, up to $75,499,000, to remain available until expended.

Administrative Provisions, Department of Energy

Appropriations under this Act for the current fiscal year shall be available for hire of passenger motor vehicles; hire, maintenance, and operation of aircraft; purchase, repair, and cleaning of uniforms; and reimbursement to the General Services Administration or security guard services.

From appropriations under this Act, transfers of sums may be made to other agencies of the Government for the performance of work for which the appropriation is made.

None of the funds made available to the Department of Energy under this Act shall be used to implement or finance authorized price support or loan guarantee programs unless specific provision is made for such programs in an appropriation Act.

The Secretary is authorized to accept lands, buildings, equipment, and other contributions from public and private sources and to prosecute projects in cooperation with other agencies, Federal, State, private or foreign: Provided, That revenues and other moneys received by or for the account of the Department of Energy or otherwise generated by sale of products or in connection with projects of the Department appropriated under this Act may be retained by the Secretary of Energy, to be available until expended, and used, as needed, to carry out activities typically eligible for reimbursement by the General Services Administration, as needed, to carry out activities typically eligible for reimbursement by the General Services Administration.

Indian Health Service

Indian Health Services

For expenses necessary to carry out the Act of August 5, 1954 (68 Stat. 674), the Indian Self-Determination Act, the Indian Health Care Improvement Act, and titles II and III of the Public Health Service Act with respect to the Indian Health Service, $2,388,814,000, together with such sums as may be available from a technical assistance fund for the fiscal year 2002 pursuant to 42 U.S.C. 238(b) for services furnished by the Indian Health Service: Provided, That funds made available to tribes and tribal organizations through contracts, agreements, or grants authorized by the Indian Self-Determination and Education Assistance Act shall be deemed to be obligated at the time of the grant or contract award and thereafter shall remain available to the tribe or tribal organization without fiscal year limitation: Provided further, That $15,000,000 shall remain available until expended, for the Indian Catastrophic Health Emergency Fund: Provided further, That $430,378,000 for contract medical care shall remain available for obligation until September 30, 2003: Provided further, That of the funds provided for medical care, up to $22,000,000 shall be used to carry out projects authorized under section 108 of the Indian Health Care Improvement Act: Provided further, That funds provided in this Act for Indian Health Care Improvement Act projects may be used to implement or finance authorized price support and loan guarantee programs for the purpose of achieving compliance with the applicable conditions and requirements of titles XVIII and XIX of the Social Security Act (excluding of planning, design, or construction of new facilities): Provided further, That funding contained herein, and in any earlier appropriations Acts for Indian Health Improvement Act and other health care facility projects authorized under the Indian Health Care Improvement Act, as amended: Provided further, That priority, by rank order, shall be given to Indian Health Service priority list upon completion: Provided further, That the Federal Government shall not be liable for any property damages or other construction claims that may arise from YKHC undertaking this project: Provided further, That joint venture funds unallocated after March 1, 2002, shall be made available for joint venture projects on a competitive basis giving priority to tribes that currently have no existing Federally-owned health care facility, have planning documents approved by the Secretary of Health and Human Services, and can demonstrate the financial capability necessary to provide an appropriate facility: Provided further, That joint venture projects on a competitive basis giving priority to tribes that currently have no existing Federally-owned health care facility, have planning documents meeting Indian Health Service requirements, and can demonstrate the financial capability needed to provide an appropriate facility: Provided further, That joint venture projects shall be prioritized: Provided further, That the Indian Health Service shall receive additional staffing, operation and maintenance funds for these facilities in future budget requests: Provided further, That the Indian Health Service shall receive additional staffing, operation and maintenance funds for these facilities in future budget requests: Provided further, That not to exceed $500,000,000 shall be used for the Indian Health Care Improvement Act and for the Indian Health Service, to purchase TRANSAM equipment from the Yukon-Kuskokwim Health Corporation (YKHC) to continue a priority project for the acquisition of land, planning, design and construction, for 79 staff quarters at Bethel, Alaska, pursuant to the negotiated project agreement between the YKHC and the Indian Health Service.
Fund, available until expended, to be used by the Indian Health Service for demolition of Federal Government buildings: Provided further, that not more than $4,490,000, shall be made available for the Sisseton Wahpeton Sioux Tribe Indian Health Services clinic in Sisseton, South Dakota, and $9,167,000 shall be made available for the small ambulatory facilities program.

ADMINISTRATIVE PROVISIONS, INDIAN HEALTH SERVICE

Appropriations made to the Indian Health Service shall be available for services as authorized by 5 U.S.C. 3109 but at rates not to exceed the per diem rate equivalent to the maximum rate payable for senior-level positions under Title 5 U.S.C., for construction or alterations of any real or personal property acquired as a part of the contract: Provided further, That no relocatee will be provided with federal government any rights or title to any real or personal property acquired pursuant to 25 U.S.C. 640d–10.

In accordance with the provisions of the Indian Health Care Improvement Act, the repatriation of skeletal remains, not including those from the Smithsonian Institution, shall be credited to the account of the facility from which it was removed.

None of the funds in this or any other Act may be used for the construction, alteration, or renovation of existing facilities; payments for telephone service in private residences in the field, any other law or regulation, funds transferred to the Indian Health Service to fund small ambulatory facility Self-Determination and Education Assistance contracts authorized under title I of the Indian Self-Determination and Education Assistance Act of 1975, as amended, may be used rather than small ambulatory construction or after completion of the project the Federal Government have any rights or title to any real or personal property acquired as a part of the contract: Provided further, That $2,333,000 shall be available for the Indian Health Service for demolition of federal real estate: Provided further, That no relocatee will be provided with federal government any rights or title to any real or personal property acquired pursuant to 25 U.S.C. 640d–10; up to five replacement passenger vehicles; purchase, rental, repair, and cleaning of uniforms for employees, $401,192,000, of which none shall be used for environmental systems, program, research equipment, information management, and Latino programming shall remain available until expended, and including such funds as may be necessary to support American overseas research centers and a total of $125,000 for the Council of American Overseas Research Centers: Provided, That funds appropriated herein are available for advance payments to independent contractors performing research services or participating in official Smithsonian presentations: Provided further, That the Smithsonian Institution may expend Federal appropriations designated in this Act for lease or rent payments for long term and swing space, as rent payable to the Smithsonian Institution, and such rent payments may be deposited into the general fund of the Smithsonian Institution and the extent that federally supported activities are housed in the 900 H Street, N.W. building in the District of Columbia: Provided further, That the Smithsonian Institution may not be construed as debt service, a Federal guarantee of, a transfer of risk to, or an obligation of, the Federal Government: Provided further, That no appropriated funds may be used to service debt which is incurred to finance the costs of acquiring the 900 H Street building or of planning, designing, and constructing improvements to such buildings.

REPAIR, RESTORATION AND ALTERATION OF FACILITIES

None of the funds in this or any other Act may be used for the construction, alteration, or renovation of existing facilities owned or occupied by the Smithsonian Institution, by contract or otherwise, as authorized by section 2 of the Act of August 22, 1949 (63 Stat. 623), including not to exceed $10,000 for services as authorized by 5 U.S.C. 3109, $67,900,000, to remain available until expended, of which $10,000,000 is provided for maintenance, repair, renovation, and alteration of facilities at the National Zoological Park: Provided, That contracts awarded for environmental systems, protection systems, and repair or restoration of facilities at the Smithsonian Institution may be negotiated with selected contractors and awarded on the basis of contractor qualifications as well as price.

CONSTRUCTION

For necessary expenses for construction, $25,000,000, to remain available until expended.

ADMINISTRATIVE PROVISIONS, SMITHSONIAN INSTITUTION

None of the funds in this or any other Act may be used to initiate the design for any proposed expansion of current space or new facility without consultation with the House and Senate Appropriations Committees.

None of the funds in this or any other Act may be used for the construction, alteration, or renovation of existing facilities owned or occupied by the Smithsonian Institution, by contract or otherwise, as authorized by section 2 of the Act of August 22, 1949 (63 Stat. 623), including not to exceed $10,000 for services as authorized by 5 U.S.C. 3109, $67,900,000, to remain available until expended, of which $10,000,000 is provided for maintenance, repair, renovation, and alteration of facilities at the National Zoological Park: Provided, That contracts awarded for environmental systems, protection systems, and repair or restoration of facilities at the Smithsonian Institution may be negotiated with selected contractors and awarded on the basis of contractor qualifications as well as price.

CONSTRUCTION

For necessary expenses for construction, $25,000,000, to remain available until expended.
the procedures contained in House Report No. 105-163.

NATIONAL GALLERY OF ART
SALARIES AND EXPENSES

For the upkeep and operations of the National Gallery of Art, the protection and care of the works of art therein, and administrative expenses incurred therefor, as authorized by the Act of March 24, 1937 (50 Stat. 51), as amended by the public resolution of April 13, 1939 (Public Resolution 9, Seventy-sixth Congress), including services as authorized by 5 U.S.C. 3109; payment in advance when authorized by the treasurer of the Gallery for membership in library, museum, and art associations or societies whose publications and services are available to members only, or to members at a price lower than to the general public; purchase, repair, and cleaning of uniforms for guards, and uniforms, or allowances therefor, for other employees as authorized by law (5 U.S.C. 5901–5902); purchase or rental of devices and services for protecting buildings and contents thereof, and maintenance of necessary facilities of buildings, approaches, and grounds; and purchase of services for restoration and repair of works of art for the National Gallery of Art by contracts made through competitive advertising, with individuals, firms, or organizations at such rates or prices and under such terms and conditions as the Gallery may deem proper, $86,967,000, of which not more than $109,000,000 for the special exhibition program shall remain available until expended.

REPAIR, RESTORATION AND RENOVATION OF BUILDINGS

For necessary expenses of repair, restoration and renovation of buildings, grounds and facilities owned or occupied by the National Gallery of Art, $14,220,000, to remain available until expended:

Provided, That contracts awarded for environmental systems, protection systems, and exterior repair or renovation of buildings of the National Gallery of Art may be negotiated with selected contractors and awarded on the basis of contractor qualifications as well as price.

JOHN F. KENNEDY CENTER FOR THE PERFORMING ARTS

OPERATIONS AND MAINTENANCE

For necessary expenses for the operation, maintenance and security of the John F. Kennedy Center for the Performing Arts, $15,000,000, to remain available until expended.

WOODROW WILSON INTERNATIONAL CENTER FOR SCHOLARS

SALARIES AND EXPENSES

For necessary expenses in carrying out the purposes of the Woodrow Wilson International Center for Scholars, $26,899,000, to remain available until expended.

NATIONAL FOUNDATION OF ARTS AND THE HUMANITIES

SALARIES AND EXPENSES

For necessary expenses for carrying out the National Foundation on the Arts and the Humanities Act of 1965, as amended, $98,234,000, shall be available to the National Endowment for the Humanities for the support of the several functions of the Humanities Act of 1965, as amended, $98,234,000, shall be available to the National Endowment for the Humanities for the purposes of the Humanities Act of 1965, as amended, $109,822,000, to remain available until expended, of which $11,222,000 shall be available to the National Endowment for the Humanities for the purposes of section 7(h): Provided, That this appropriation shall be available for obligation only in such amounts as may be equal to the total amounts of gifts, bequests, and devises of money, and other property accepted by the chairman or by grantees of the Endowment under the provisions of subsections 11(a)(2)(B) and 11(a)(3)(B) during the current and preceding fiscal years for which equal amounts have not previously been appropriated.

INSTITUTE OF MUSEUM AND LIBRARY SERVICES

SALARIES AND EXPENSES

For carrying out subtitle C of the Museum and Library Services Act of 1996, as amended, $26,899,000, to remain available until expended.

CHALLENGE AMERICA ARTS FUND

SALARIES AND EXPENSES

For necessary expenses as authorized by Public Law 89–290, as amended, $17,000,000 for support for arts education and public outreach activities to be administered by the National Endowment for the Arts, to remain available until expended.

ADMINISTRATIVE EXPENSES

None of the funds appropriated to the National Endowment for the Arts and the Humanities may be used to process any request or application or to publish the applications or any other material that in any way tends to promote public discussion or controversy. The records of the Endowment shall be available for public inspection, except where otherwise provided by law or Executive order.

NATIONAL CAPITAL PLANNING COMMISSION

SALARIES AND EXPENSES

For expenses necessary for the performance of duties, $7,253,000: Provided, That all appropriated members of the Commission will be compensated at a rate not to exceed the daily equivalent of the annual rate of pay for positions at level V of the Executive Schedule for positions in which such member is engaged in the actual performance of duties.

UNITED STATES HOLOCARST MEMORIAL MUSEUM

SALARIES AND EXPENSES

For expenses of the Holocaust Memorial Museum as authorized by Public Law 104–292 (36 U.S.C. 2301–2310), $36,028,000, of which $1,900,000 for the museum’s repair and rehabilitation program and $1,264,000 for the museum’s exhibitions program shall remain available until expended.

PRESIDIO TRUST

SALARIS AND EXPENSES

For expenses necessary to carry out title I of the Omnibus Parks and Public Lands Management Act of 1996, $23,125,000 shall be available to the Presidio Trust, to remain available until expended.

PUBLIC LAW 104–20

SEC. 301. The expenditure of any appropriation under this Act for any consulting service through a procurement contract, pursuant to 5 U.S.C. 5901, shall be limited to those contracts where such expenditures are publicly record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. 302. No part of any appropriation under this Act shall be available to the Secretary of the Interior or the Secretary of Agriculture for the leasing of oil and natural gas by non-competitive bidding on publicly owned lands within the boundaries of the Shawnee National Forest for which legislative approval is required to order that such land is intended to inhibit or otherwise affect the sale, lease, or right to access to minerals owned by private individuals.

SEC. 303. No part of any appropriation contained in this Act shall be available for any activity or the publication or distribution of literature that in any way tends to promote public support or opposition to any legislative proposal on which congressional action is not complete.

SEC. 304. No part of any appropriation contained in this Act shall be available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 305. None of the funds provided in this Act for any department or agency shall be obligated or expended to provide a personal cook, chauffeur, or other personal servants to any officer or employee of such department or agency except as otherwise provided by law.

SEC. 306. No assessments may be levied against any program, budget activity, subactivity, or project funded by this Act unless advance notice of such assessments and the basis therefor are presented to the Committees on Appropriations and are approved by such committees.

SEC. 307. None of the funds in this Act may be used to plan, prepare, or offer for sale timber from trees classified as giant sequoia (Sequoiadendron giganteum) which are located on National Forest System or Bureau of Land Management lands in a manner different than such sales were conducted in fiscal year 2001.

SEC. 308. None of the funds made available by the Act may be obligated or expended by the National Park Service to enter into or implement a concession contract which permits or requires the removal of the underground lunchroom at the Island Caverns Nature Center.

SEC. 309. None of the funds made available in this Act may be used: (1) to demolish the bridge between Jersey City, New Jersey, and Ellis Island; or (2) to prevent pedestrian use of such bridge, when such pedestrian use is consistent with generally accepted safety standards.
SEC. 310. (a) LIMITATION OF FUNDS.—None of the funds for any other program or purpose necessary to the Bureau of Land Management shall be obligated or expended to support or carry out any provision of law which would authorize an appropriation for the Forest Service of any sum in any fiscal year or which would create a separate fund of any sum for any fiscal year; or which would create a separate fund of any sum for any fiscal year.

(b) EXCEPTIONS.—The provisions of subsection (a) shall not apply if the Secretary of the Interior determines that—

(1) a patent application was filed with the Secretary of the Interior on or before September 30, 1994; and

(2) all requirements established under sections 2325 and 2326 of the Revised Statutes (30 U.S.C. 29 and 30) for mining claims and sections 2323, 2320, 2331, and 2333 of the Revised Statutes (30 U.S.C. 33, 36, and 37) for placer claims, and section 2337 of the Revised Statutes (30 U.S.C. 42) for mill site claims, as the case may be, were fully complied with by the applicant by that date.

(c) REPORT.—On September 30, 2002, the Secretary of the Interior shall...
is surplus to the needs of domestic processors in Alaska, other deciduous timber available for domestic processors in the contiguous 48 United States at prevailing domestic prices. Should Region 10 sell, in fiscal year 2002, less than the annual average portion of the deciduous allowable sale quantity called for in the current Tongass Land Management Plan, the percentage shall be calculated by Region 10 on a rolling basis as each sale is sold (for purposes of this amendment, a “rolling basis” shall mean that the determination of how much western red cedar is eligible for sale to various markets shall be made at the time each sale is awarded). Western red cedar shall be sold to the needs of domestic processors in Alaska when the timber sale holder has presented to the Forest Service documentation of the inability to sell western red cedar logs from a given sale to domestic Alaska processors at price equal to or greater than the log selling value stated in the contract. All additional western red cedar volume not sold to Alaska or domestic United States domestic processors may be exported to foreign markets at the election of the timber sale holder. All Alaska yelloe cedar may be sold at prevailing export prices.

SEC. 324. None of the funds appropriated by this Act shall be used to propose or issue rules, regulations, decrees, or orders for the purpose of implementation, or in preparation for implementation, of the Kyoto Protocol which was adopted on December 11, 1997, in Kyoto, Japan at the Third Conference of the Parties to the United Nations Framework Convention on Climate Change, which has not been submitted to the Senate for advice and consent to ratification pursuant to section 2, clause 2(a) of the United States Constitution, and which has not entered into force pursuant to article 25 of the Protocol.

SEC. 325. The Forest Service, in consultation with the Department of Labor, shall review Forest Service campground concessions policy to determine if modifications can be made to Forest Service regulations for campgrounds so that such concessions fall within the regulatory exemption of 29 CFR 4.122(b). The Forest Service shall offer in fiscal year 2002 such concession prospects under the regulatory exemption, except that, any prospectus that does not meet the requirements of the regulatory exemption shall be offered as a service contract in accordance with the regulations of 31 U.S.C. 354–358.

SEC. 326. A project undertaken by the Forest Service under the Recreation Fee Demonstration Program as authorized by section 315 of the Department of the Interior and Related Agencies Appropriations Act for Fiscal Year 1996, as amended, shall not result in—

(1) general sale of the holder of an authorization to provide commercial recreation services on Federal lands. Prior to initiating any project, the Secretary shall consult with potentially affected Federal and State agencies to determine what impacts the project may have on the holders. Any modifications to the authorization shall be made within the terms and conditions of the authorization and approved by the affected agencies.

(2) the return of a commercial recreation service to the Secretary for operation when such services have been provided in the past by a private sector provider, except when—

(A) the private sector provider fails to bid on such opportunities;

(B) the private sector provider terminates its relationship with the agency;

(C) the agency does not provide a permit for non-compliance with the terms and conditions of the authorization.

In such cases, the agency may use the Recreation Fee Demonstration Program to provide for operations until a subsequent operator can be found through the offering of a new prospectus. The authority to enter into stencheship and end result contracts provided to the Forest Service in accordance with section 247 of title 11 of section 101(e) of division A of Public Law 105–277 is hereby expanded to authorize the Forest Service to enter into an additional 28 contracts subject to the same terms and conditions as provided in that section: Provided, That of the additional contracts authorized by this section at least 9 shall be allocated to Region 1 and at least 3 to Region 6.

SEC. 328. Any regulations or policies promulgated on developments of Agriculture or the Interior regarding recovery of costs for processing authorizations to occupy and use Federal lands under their control shall adhere to and incorporate the following principles arising from Office of Management and Budget Circular, A–25: no charge should be made for a service when the identification of the specific identifiable service is obscure, and the service can be considered primarily as benefiting broadly the general public.

SEC. 329. Notwithstanding any other provision of law, for fiscal year 2002, the Secretary of Agriculture is authorized to limit competition for fire and fuel treatment and watershed restoration contracts in the Giant Sequoia National Monument and the Sequoia National Forest. Preference for employment shall be given to dislocated and displaced workers in Tulare, Kern and Fresno Counties, California, for work associated with the establishment of the Giant Sequoia National Monument.

SEC. 330. The Secretary of Agriculture, acting through the Chief of the Forest Service shall:

(1) extend through the end of fiscal year 2002 the special use permit for the Salt Charlie Cabin in the Absaroka Beartooth Wilderness Area, Montana, held by Montana State University—Billings for a period of 30 years; and

(2) solicits public comments at the end of the 50 year period to determine whether another extension should be granted.

SEC. 331. Section 325 of the Department of the Interior and Related Agencies Appropriations Act, 1999, as included in Public Law 105–277, Division A, section 101(e), is amended by striking “2001” and inserting “2002”.

SEC. 332. Section 551(c) of the Land Between the Lakes Protection Act of 1998 (16 U.S.C. 6001–601) is amended by striking “2002” and inserting “2003”.

SEC. 333. LOCAL EXEMPTIONS FROM FOREST SERVICE DEMONSTRATION PROGRAM FEES. Section 6006 of Title 31, United States Code, is amended—

(1) by inserting “(a) IN GENERAL.—” before “Necessary”;

(2) by adding at the end the following:

“(A) LOCAL EXEMPTIONS FROM DEMONSTRATION PROGRAM FEES.—

“(1) IN GENERAL.—Each unit of general local government that lies in whole or in part within the United States National Forest and persons residing within the boundaries of that unit shall be exempt during that fiscal year from any requirement to pay a fee (as defined in paragraph (4) or (5) or (6) of section 6006) on a permit or passport issued by the Secretary of Agriculture for access to the Forest.

“(2) ADMINISTRATION.—The Secretary of Agriculture shall establish a method of identifying persons who are exempt from paying user fees under paragraph (1). This method may include use of valid form of identification including a driver’s license.”

SEC. 334. MODIFICATION TO STEEL LOAN GUARANTEE PROGRAM. (a) IN GENERAL.—Section 101 of the Emergency Steel Loan Guarantee Act of 1999 (Public Law 106–51; 15 U.S.C. 1841 note) is amended as follows:

(1) TERMS AND CONDITIONS.—Subsection (h) is amended—

(A) in paragraph (1), by striking “2005” and inserting “2015”; and

(B) by amending paragraph (4) to read as follows:

“(4) GUARANTEE LEVEL.—

“(A) IN GENERAL.—Except as provided in subparagraphs (B) and (C), any loan guarantee provided under this section shall not exceed 85 percent of the amount of principal of the loan.

“(B) INCREASED LEVEL ONE.—A loan guarantee may be provided under this section in excess of 85 percent, but not more than 90 percent, of the amount of principal of the loan, if—

(i) the aggregate amount of loans guaranteed at such percentage and outstanding under this section at any one time does not exceed $100,000,000; and

(ii) the aggregate amount of loans guaranteed at such percentage and outstanding under this section at any one time does not exceed $100,000,000; and

“(C) INCREASED LEVEL TWO.—A loan guarantee may be provided under this section in excess of 85 percent, but not more than 95 percent, of the amount of principal of the loan, if—

(i) the aggregate amount of loans guaranteed at such percentage and outstanding under this section at any one time does not exceed $50,000,000.

“(2) LOCAL EXEMPTIONS FROM DEMONSTRATION PROGRAM.—Subsection (k) is amended by striking “2001” and inserting “2003”.

“(3) APPLICABILITY. The amendments made by this section shall apply only with respect to any guarantee issued on or after the date of the enactment of this Act.

This Act may be cited as the “Department of the Interior and Related Agencies Appropriations Act, 2002”.}

AUTHORIZING SENATE OFFICE OF SENATOR JOHN D. ROCKEFELLER IV BE USED TO COLLECT DONATIONS OF CLOTHING

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of S. Res. 134, submitted earlier today by Senators ROCKEFELLER and BYRD.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk reads as follows:

A resolution (S. Res. 134) authorizing that the Senate office of Senator John D. Rockefeller IV be used to collect donations of clothing.

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of S. Res. 134, submitted earlier today by Senators ROCKEFELLER and BYRD.
West Virginia was ravaged last week by its worst flooding in years. Homes were destroyed, businesses and infrastructure were down and, most tragically, lives were lost. The outpouring of support thus far has been truly heartwarming; however, much is still needed in order to rebuild our communities. That is why I am asking my colleagues, our staffs, and our friends to support this resolution and to participate in a clothing drive that will give aid to the victims of this tragedy. I am proud to be joined by our distinguished senior Senator, Robert C. Byrd, in our effort to help West Virginians. Our drive can only be successful if the resolution before us is passed, and if we each give what we can.

Immediately following the floods, I visited some of the areas hardest hit. Although I had a clothing and assistance before, I was still taken aback by dissolved roads, collapsed homes, and splintered bridges. Fortunately, the clean-up process is already underway as federal disaster relief pours in. Organizations such as the American Red Cross and the Salvation Army have provided for residents’ most immediate needs, while agencies such as the Federal Emergency Management Agency, FEMA, begin processing damage claims. Governor Wise and state agencies are working hard to reach out to communities struggling to cope with the aftermath of the flooding. Working together, federal, state, and local officials can begin the crucial work to rebuild our communities.

Yet, much remains to be done. Today, Sharon and I will visit more of the state. With us, we will take the prayers and well-wishes we have been given. We will also present generous donations such as Pepsi Cola Company. While I am in the state, my staff will organize a clothing drive to replace some of the items lost in the floods. Clothing of all kinds is needed as residents rebuild their homes and their lives. Many have lost everything and, as they return to work and school, will need the basic items we all take for granted. Moreover, as the winter months approach and the season brings rugged weather, victims will also find themselves in need of cold-weather clothing and shoes. Once the clothing is collected on Capitol Hill, United Airlines will transport all of the donations to West Virginia and the National Guard will help distribute the clothing to families in need. These are just two examples of the generosity displayed by companies and by individuals who wish to help. Each of them has my deep gratitude.

Of course, in the rush to move on and rebuild, we cannot forget about those lost. I am so sorry for the loss of Bonnie Shumate and Bradley Jenkins, and my heart goes out to their families and friends. Though rebuilding will serve as a challenge for the average West Virginian, grieving will, of course, prove far more difficult for the Shumates and the Jenkins. It has been said that there is light at the end of every tunnel. Considering the awesome amount of support provided to date for the flood victims in West Virginia, I would have to agree. Let us continue this support by committing to and participating in a clothing drive for the people affected by the flood. On behalf of the Mountain State, thank you.

Mr. REID. Madam President, I ask unanimous consent that the resolution and preamble be agreed to en bloc, the motion to reconsider be laid on the table, and any statements and supporting documents be printed in the Record.

The PRESIDING OFFICER. Without objection, the resolution (S. Res. 134) was agreed to.

The preamble was agreed to.

The resolution (S. Res. 134) was agreed to.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDERS FOR TUESDAY, JULY 17, 2001

Mr. REID. Madam President, I ask unanimous consent that when the Senate completes its business today, it adjourn until the hour of 9 a.m. tomorrow, July 17.

I further ask consent that on Tuesday, immediately following the prayer and the pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and the Senate resume consideration of the Bankruptcy Reform Act; further, that the Senate recess from 12:30 to 2:15 for the weekly party conferences.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. REID. Madam President, therefore, on Tuesday the Senate will convene at 9 a.m. and resume consideration of the Bankruptcy Reform Act under a previous order. There will be 3 hours of debate on cloture on the Bankruptcy Reform Act, which will cause us to vote around 12 noon. We expect to return to the Energy and Water Appropriations Act on Tuesday, with rollover votes expected into the evening.

In the morning I am going to renew my request that there be a time certain for filing amendments. The reason this is so important is we are not going to be on this bill tomorrow. That will give staff time to work on the amendments that people think are important.

Some certainly are important. So I am going to renew that request tomorrow morning, and I hope Senators on both sides of the aisle will allow us to go forward.

NOMINATIONS

Mr. KYL. Madam President, let me say I appreciate what the Senator from Nevada said about the reforms that Senators Domenici, Murkowski, and I effectuated with respect to the Department of Energy. It was a time of some confusion, and reasonable people could differ about what we did there. But I think it is working out. I appreciate that the Senator from Nevada is now very much in support of that. Earlier I when spoke, I did not use the name of the Senator from Nevada because I did thank the Democratic leadership for moving nominations with such alacrity last week. I think there were 54 nominations and I think I mentioned that I hoped we could continue with that progress during the next couple of weeks. I wanted the Senator from Nevada to know I paid him a compliment today as well.

Mr. REID. I say to my colleague, if he will yield, I watched his statement from my office, and I appreciate that very much. I say to my friend from Arizona, it is important we move these nominations. There are a few that cause problems, but very few. And you will know about those. The rest of them we need to move forward to have better government.

I think it is very unfair that the system has become so complicated, so burdensome, that we are having trouble getting good people to take these jobs. It is amazing to me the quality of the people who served in the Clinton administration and those who are now willing to serve the Bush administration with all they have to go through.

I look forward to working with my friend from Arizona to move as many of these as quickly as we can. As I told my friend on Friday, we had one person with a little problem and we just went around that, took care of everybody else. Even those we have problems with, they deserve their day in court, so to speak. So I appreciate the comments of the Senator from Arizona. I appreciate his cooperation in allowing us to have this bill on the floor.

Mr. KYL. I thank the Senator from Nevada.

Madam President, will the Chair advise me when I have gone 5 minutes. I do not want to impinge anymore on the time of the Senator from Oregon.

UNITED STATES-CHINA RELATIONS

Mr. KYL. Madam President, I wanted to speak briefly about the decision
made last Friday to hold the next Olympics in Beijing, the 2008 games. Our Government was not involved in that, but we proffered a government kind of decision. But I am hopeful the fact that the United States did not, as a nation, weigh in on that decision—I am hopeful that did not send a signal to the leaders in Beijing that the U.S. Government either supports what that Chinese Government leadership does or does not object to many of the things which are done by that Government that violate human rights and in other ways suggest the country of China is not yet willing to join the family of nations.

I wanted to note a few of the activities of this recent Chinese Government that suggest to me the United States needs to take a very firm position with respect to some of what I consider to be unacceptable behavior. On July 14, I am hopeful this decision that the Olympics go to China not be mistaken for U.S. support for what China has done.

As illustrated in recent press reports, China’s bid for that honor has been the subject of much international attention. For example, the European Union Parliament recently passed a resolution declaring that China’s bid is “inappropriate” and that it is “unsuitable” for the Games due to its “disastrous record on human rights.”

The American government, however, chose to remain neutral on China’s bid—a decision that I hope will not convey to China’s leaders a signal that the United States is willing to blindly tolerate that country’s continuing failure to abide by internationally-recognized norms of behavior. Consider just a few events of recent months:

The collision of our reconnaissance plane with a Chinese fighter jet—the result of a Chinese pilot’s aggressive flying.

China’s detention and interrogation of American citizens and permanent residents without clear evidence of wrongdoing or illegal activity—including Gao Zhan, Wu Jianmin, Li Shaomin, and Tan Guangguang. Li Shaomin was convicted of espionage on July 14 and reportedly will be expelled from China in the near future.

China’s systematic torture and murder of hundreds of members of the Falun Gong—including the recent deaths of approximately fourteen peaceful adherents in a Chinese labor camp.

China’s hardening of its crackdown on this group—including a new legal directive issued by Chinese judicial authorities on June 10 authorizing courts to prosecute Falun Gong practitioners for intentional wounding or murder, or for organizing, encouraging or helping other followers commit suicide or intentional abortions. Additionally, it states that followers can be prosecuted if they produce or distribute anti-government materials.

China’s execution of at least 1,781 persons during the past three months—more than the total number of executions worldwide over the past three years.

A former Chinese doctor’s testimony on June 27 to the House International Relations Committee that his job required him “to remove skin and corneas from the corpses of over one hundred executed prisoners, and, on a couple of occasions, victims of intentionally botched executions.”

The Chinese military’s ongoing large-scale military exercises in the South China Sea aimed at preparing that country for an invasion of Taiwan. China’s detention and interrogation of hundreds of arms and explosives, the latest of which reportedly occurred in December.

China’s continuing assistance and provision of military technology to rogue regimes, including the Chinese firm that helped Iraq outfit its air defenses with fiber-optic equipment.

China’s continuing purchases from Russia of conventional weapons, including plans to purchase two additional Sovremenny destroyers armed with Sunburn anti-ship cruise missiles.

There is no doubt that dealing with China will continue to be a challenge. Whatever we do, we have to make sure that we don’t send signals to China that we approve of these kinds of actions. Not standing in the way of their getting the Olympic games I hope will not send that kind of a signal.

And there is no alternative. It is the world’s most populous nation (and biggest potential market); it has the world’s largest armed forces; and it is a permanent member of the U.N. Security Council. Its economic and military strength has grown a great deal in recent years, and is projected to continue to grow significantly in the coming decades.

There are many areas of potential disagreement with other nations, such as trade policy and human rights violations. But the one source of potentially catastrophic consequences is China’s determination to expand its sphere of influence. Taiwan must be reunited with the mainland, and that conflict with the United States is inevitable as long as we stand in the way of that objective. We cannot ignore this very real and potentially dangerous situation. How we deal with it will dictate the course of history.

The United States must develop a more comprehensive and realistic policy toward China, one which promotes its growth while not ignoring unpleasant exigencies.

In March, two days prior to the collision over the South China Sea, I spoke on the Senate floor about the challenge of dealing with China’s growing military strength. I discussed in detail China’s threatening rhetoric aimed at the United States for allowing and warned of that country’s rapid military modernization and buildup. And most importantly, I asked the question: what if China’s leaders mean what they say? To assume they do not, particularly in light of the prevalence of highly threatening public statements and military writings could mean leaving ourselves deliberately vulnerable to potential Chinese aggression, (and important to deal with Chinese aggression against others). China, unfortunately, has not been a very cooperative member of the international community. Several years ago, at a New Atlantic Initiative conference in Prague, I discussed America’s role in that community and our vision for a world in which the United States could work side-by-side with other democracies, stating:

If I had to sum up in one sentence the U.S. national interest in this century, I would say that it is promoting the security, well-being, and expansion of the community of nations that respect the democratic rights of their peoples.

China cannot become a member of this trusted family until there is a serious change in the attitude of its leadership. Indeed, China’s leaders systematically violate the most fundamental rights of the Chinese people. Moreover, they increasingly lack respect for the democratic rights of individuals visiting China, including U.S. citizens. The Chinese government seeks to maintain absolute control over all domestic political matters. It remains resistant to what it considers interference in its internal affairs, threatening the use of force, if necessary, to achieve its objectives, including reunification with Taiwan. And China actively pursues policies that risk destabilizing the South China Sea.

In the long-term, our goal must be to live in peace and prosperity with the Chinese people; however, to do so requires that we reconcile the different aspirations of our governments. It is clear that many of the Chinese government’s goals conflict with American values, and it is important that we do not compromise these values in dealing with the communist regime. We should, instead, encourage China to adopt less aggressive and less threatening attitude through firm and principled interactions with that country’s leaders.

Indeed, the formal establishment of the People’s Republic of China in 1949, the United States has purposely remained ambiguous about the degree to which we recognize the governments in Beijing and Taipei. Our “One-China” policy hailing back to the Shanghai Communique of 1972 has served U.S. strategic and economic interests, allowing the United States to peacefully retain ties with China and Taiwan.
On one subject, however, there should be no ambiguity—U.S. policy in the event China should choose to attack Taiwan. That is, we should not be pleased that President Bush made very clear to China that the United States will actively resist any such aggression. Yet even those measures ostensibly intended to eliminate any doubt of our commitment to Taiwan have not been so concrete. While we presented Taiwan with an arms package that will help that island build its defensive forces, the United States cannot ensure that Taiwan will ever receive the diesel submarines that were included since we do not build them and it remains unclear as to whether another country would be willing to provide a design for them.

Additionally, President Bush chose not to repeat Aegis destroyers in this arms package, though he reserves the right to sell them in the future should China continue or increase its belligerent behavior toward Taiwan. In light of China’s military exercises in the South China Sea, perhaps now is the time to seriously consider this option.

We must be very clear in our own minds about our strategic intentions and just as clear in signaling these intentions to China. The object is to avoid a situation in which China’s leaders miscalculate and are tempted to use force against Taiwan in the mistaken belief that they won’t meet resistance from the United States.

History is replete with examples of ambiguity fostering aggression. Perceptions of American ambivalence contributed to North Korea’s invasion of South Korea and Iraq’s invasion of Kuwait, for example.

We have also observed instances whereby a commitment occurred because of the resoluteness of our stance. Our unambiguous commitment to contain Soviet expansion and defend our Western European allies during the Cold War enabled Western Europe to escape the grip of communism. And it led to one of the greatest accomplishments in history: the West’s victory without war over the Soviet Empire.

There is an old saying that, “There is nothing wrong with making mistakes. Just don’t respond with encore.” Let us not repeat the mistake—falling short of the resoluteness of our stance. Our unambiguous commitment to contain Soviet expansion and defend our Western European allies during the Cold War enabled Western Europe to escape the grip of communism. And it led to one of the greatest accomplishments in history: the West’s victory without war over the Soviet Empire.

Unfortunately, the United States has often too often sent a signal to Beijing that its irresponsible behavior will be tolerated by failing to enforce U.S. laws requiring sanctions, or doing so in ways deliberately calculated to undermine the intent of the sanctions. For example, China has continued to transfer missiles and production technology to Pakistan in violation of the Missile Technology Control Regime, despite promising to adhere to that agreement.

While reconciling our two very different views about the relationship of a nation’s people to its government requires a short-term compromise, the United States cannot remain true to its fundamental belief in the natural rights of man without promoting respect for human rights, the rule of law, and the embrace of democracy by all governments, including the government of China.

There are five specific aspects of China’s behavior that require a straightforward, firm response from United States: China’s proliferation of ballistic missiles and weapons of mass destruction; its threats and corresponding military buildup opposite Taiwan; its threatening rhetoric and missile buildup aimed at the United States; its human rights abuses; and its insistence on refusing to play by economic rules.

China is perhaps the world’s worst proliferator of the technology used to develop and produce ballistic missiles and weapons of mass destruction. Beijing has transferred technology to Iran, North Korea, Syria, Libya, and Pakistan. It has also sold nuclear technology to Iran and Pakistan. It has aided Iran’s chemical weapons program and sold that nation advanced cruise missiles. And it has sold Iraq fiber-optic cables, and assisted with their installation between anti-aircraft batteries, radar stations, and command centers.

Chinese assistance has been vital to the missile and weapons of mass destruction programs in these countries. And because of this assistance, the American people and our forces and friends abroad now face a much greater threat.

The United States needs to impose sanctions on Chinese organizations and government entities for their proliferation activities, as required by U.S. laws. Sanctions need not be the first or only tool used in the fight against proliferation. Nor, however, should this tool grow rusty from disuse. As the Washington Post noted in an editorial on July 14, 2000, “China’s continuing assistance to Pakistan’s weapons program in the face of so many U.S. efforts to talk Beijing out of it shows the limits of a nonconfrontational approach.” We must back our frequent expressions of concern with actions if our words are to be perceived as credible.

The United States has already too often sent a signal to Beijing that its irresponsible behavior will be tolerated by failing to enforce U.S. laws requiring sanctions, or doing so in ways deliberately calculated to undermine the intent of the sanctions. For example, China has continued to transfer missiles and production technology to Pakistan in violation of the Missile Technology Control Regime, despite promising to adhere to that agreement.

U.S. law requires sanctions to be imposed on nations that transfer technology regulated by the MTCR. In 1993, the Clinton Administration imposed sanctions on China’s Ministry of Defense and eleven Chinese defense and aerospace entities for violations of Category 2 of the MTCR—despite the fact that the M-11 transfers were Category 1 violations—thereby imposing the mildest form of sanctions possible. Then, in 1994, the United States for the first time imposed “ground-to-ground missiles” covered by the MTCR, the Clinton Administration waived the sanctions.

After the waiver, despite a steady stream of press reports, Congressional testimony, and unclassified reports by the intelligence community that described China’s continued missile assistance to China, the Clinton Administration did not impose sanctions as required by law. Assistant Secretary of State for Nonproliferation Robert Einhorn said in Senate testimony in 1997 that sanctions had not been imposed on China for the sale of M-11s to Pakistan because the administration’s “... level of confidence [was] not sufficient to take a decision that [had] very far-reaching consequences.” The Clinton Administration appeared to have purposely set a standard of evidence so high that it was unattainable.

Madam President, China has promised six times during the past two decades not to transfer missiles and missile technology—in 1988, 1989, 1991, 1992, 1994 and 2000—and six times has broken its promises without any consequences. It is no wonder that China does not take seriously its obligations.

I recently joined several of my colleagues in sending a letter to President Bush expressing concern about Beijing’s continuing proliferation activities. The letter states:

The PRC’s most recent missile non-proliferation promise was made on November 21, 2000. China promised not to assist, in any way, any country in the development of ballistic missiles that can be used to deliver nuclear weapons, and to abide by the MTCR. The PRC further pledged to issue export regulations covering dual-use technology in conformity with both the MTCR and its November pledge.

In return for China’s November 2000 pledge, the previous administration “swept the decks clean,” sanctioning numerous Chinese entities for their activities and subsequently waiving those sanctions. And again it appears as though China may be continuing to transfer missile equipment and technology. We do not need more empty promises from China—we need action. It is the Administration’s signal to China by imposing sanctions required by U.S. non-proliferation statutes and making them stick that the United States will
no longer tolerate that country’s irresponsible proliferation activities.

In order to prevent proliferation, we should also resist efforts to weaken controls on the export of dual-use technologies, which China can use to further modernize its military, as well as transfer to other countries. In particular, I am concerned that the Export Administration Act of 2001 would reduce the ability of the U.S. government to maintain effective export controls on such items.

An Asian Wall Street Journal op-ed published on March 19 by two researchers at the Washington Project on Nuclear Arms Control described how the Chinese firm that helped Iraq outfit its air defenses with fiber-optic equipment has purchased a significant amount of technology from U.S. firms and is seeking to import more. For example, the op-ed indicated that one such firm has applied for an export license to teach this Chinese company how to build high-speed switching and routing equipment. This allows low-cost communications to be shuttled quickly across multiple transmission lines. The U.S. government should have the ability to deny exports of dual-use technology to a company such as the Chinese firm in this case.

The second of five areas of concern is China’s belligerent behavior toward Taiwan. China is intent on gaining control over that island—by force if necessary—and is taking the necessary military preparations that would enable it to do so. According to an article published in the Washington Post on April 27, Wu Xinbo, a professor at Fudan University’s Center for American Studies in Shanghai, stated:

At this stage, it is very difficult to argue that there’s still a high prospect for a peaceful solution of the Taiwan issue . . . From a Chinese perspective there has to be a solution by force in one way, peacefully or with the use of force. Given [the] change in U.S. policy . . . you have to give more weight to the second option."

The “change” to which he was referring was the U.S. commitment to come to Taiwan’s defense articulated by President Bush.

China’s threats have been backed by rapid efforts to modernize its military. The immediate focus of the modernization is to build a military force capable of subduing Taiwan swiftly enough to prevent American intervention. According to the Department of Defense’s Annual Report on the Military Power of the People’s Republic of China, released in June 2000, “A cross-strait conflict between China and Taiwan involving the United States has emerged as the dominant scenario guiding the Chinese Army’s force planning, military training, and war preparation.”

To solidify its ability to launch an attack against Taiwan, China is increasing its force of short-range ballistic missiles opposite the island. According to an article in the Wall Street Journal on April 23, U.S. defense officials estimate that China currently has 300 such missiles aimed at the island, and is increasing this number at a rate of 50 per year.

China is also in the process of modernizing its air force and navy. The Defense Department’s June 2000 report predicted that after 2005, “. . . if projected trends continue, the balance of air power across the Taiwan Strait could begin to shift in China’s favor.” The same report warned, “China’s submarine fleet could constitute a substantial force capable of controlling sea lanes and mining approaches around Taiwan, as well as a growing threat to submarines in the East and South China Seas.”

In response to the growing threat and Taiwan’s increasing vulnerability to an attack, President Jiang proposed the sale to Taiwan of some much-needed defensive military equipment. As noted, however, the sales are limited in practical effect and, in any event, must be accompanied by proper training and coordination between the military in order to be useful in conflict.

In addition to the Chinese military’s investment in hardware, Beijing has increasingly focused on advanced training methods, demonstrating joint-service war-fighting tactics and increasing the sophistication of its military exercises that are steadily altering the balance of power across the Taiwan Strait. Over the past several years, these exercises have shifted from an intimidation tactic to a more serious effort intended to prepare China for an invasion of Taiwan.

Beijing’s amphibious exercises at Dongsha Island in the Taiwan Strait have illustrated this increasing level of sophistication in war-fighting tactics and equipment. According to a state-owned newspaper, Hong Kong Ming Pao, reported on June 1 that China’s Central Military Commission proposed that these exercises be held near Taiwan “in order to warn the United States and the Taiwan authorities not to play with fire over the Taiwan issue.” Furthermore, according to the same article, “the main aim of this exercise will be to attack and occupy Tai- wan’s offshore islands and to counter-attack U.S. military intervention.”

In an op-ed titled “An amphibious force,” Hong Kong Wen Wei Po on June 4 stated that the purpose of the exercise “not only includes capture of [the islands around Taiwan], but also how to tenaciously defend these islands and turn them into wedges for driving into the heart of the enemy.”

According to an article in the New York Times on July 11, the official Chinese defense publication, International Outlook Magazine, described in detail these “war games.” The games reportedly occurred in three stages. The first, information warfare, was intended to paralyze enemy communications and command systems electronically. The second involved a joint navy, infantry, and air force landing on Dongsha Island. And the third, according to the Chinese publication, simulated a “counterattack against an enemy fleet attempting to intervene in the war.” It was also reported that this final stage incorporated Russian- bought SU–27 fighter aircraft. Thus far, military experts state that China has had difficulty incorporating these aircraft into its arsenal, and its ability to do so indicates a significant improvement in its ability to integrate military operations.

Taiwan’s war-fighting skills are not nearly as advanced. For over twenty years, the United States has cut Tai- wan off from the intellectual capital that should accompany the hardware we sell, thus reducing the readiness of that island’s forces. Our defense officials and military personnel need to be able work with their Taiwanese counterparts to ensure that they know how to use the equipment and they will be prepared in case of operation of U.S. forces. Increased interaction would better prepare Taiwan’s military to defend itself in the event of a Chinese attack, reduce the possibility that the United States would need to become involved in such a conflict, and inevitably save lives.

This leads directly to the third area of concern—China’s actions that directly threaten America. China’s harsh rhetoric aimed at the United States is accompanied by Beijing’s build-up of long-range missiles targeted at our cities, acquisition of anti-ship cruise missiles to counter U.S. carrier battle groups, and development of cyberwarfare and anti-satellite capabilities. China also illustrates the importance of aggressive intelligence operations against the United States.

In February 2000, the People’s Liberation Army Daily, a state-owned newspaper, warned the United States against intervening in a conflict in the Taiwan Strait, stating:

On the Taiwan issue, it is very likely that the United States will walk to the point where it injures others while ruining itself . . . China is neither Iraq or Yugoslavia . . . it is a country that has certain abilities of launching a strategic counterattack and the capacity of launching a long-distance strike. Probably it is not a wise move to be at war with a country such as China, a point which U.S. policymakers know fairly well also.”

China is, in fact, continuing to increase its capacity to launch a long-distance strike against the United States. The Defense Department’s report, Proliferation: Threat and Response, states:

China currently has over 100 nuclear warheads. . . . While the ultimate extent of China’s strategic modernization is unknown, it is clear that the number, reliability, survivability, and accuracy of Chinese strategic missiles capable of hitting the United States will increase during the next two decades. China currently has about 20 CBS–4 ICBMs with a range of over 13,000 kilometers, which
China's military has also taken steps to improve its capability to counter U.S. carrier battle groups, in response to its encounter with the U.S. Navy in 1996. It has acquired two Sovremenny destroyers from Russia armed with Sunburn anti-ship cruise missiles, and according to an article in the Washington Times on May 4, plans to purchase two more. These weapons were designed to attack U.S. carriers and Aegis ships during the Cold War and are a significant improvement to the Chinese Navy's capabilities in this area.

In addition to its buildup of conventional and nuclear weapons, China's military is also placing an emphasis on information warfare, including computer network attacks and anti-satellite operations. In September 2000, the U.S. Navy identified China, among several others, as having an acknowledged policy of preparing for cyberwarfare and as rapidly developing its capabilities. In fact, an article in the People's Liberation Army Daily in 1999 stated that the Chinese military planned to elevate information warfare to a separate service on par with its army, navy and air force.

Also of great concern is the Chinese military's development of a broad range of counterspace measures, including an anti-satellite (ASAT) capability. According to China's Strategic Modernization: Implications for the United States, written by Mark Stokes, "Chinese strategists and engineers perceive U.S. reliance on communications, reconnaissance, and navigation satellites as a potential Achilles' heel." The Defense Department's June 2000 report warned that China may already possess the capability to damage optical sensors on satellites and further, that it may have acquired high-energy laser equipment and technical assistance that could be used in the development of ground-based ASAT weapons.

An article in Jane's Missiles and Rockets on May 1 confirmed the Defense Department's warning, stating that China's state-run press reports indicate that country is, in fact, developing an ASAT capability. It is currently in the ground-testing phase and will start flight testing in 2002.

In light of China's threatening rhetoric and its efforts to acquire the capabilities that could allow it to carry out those threats, we must begin to implement a broad range of measures that will safeguard our national security.

First, we need to develop and deploy a missile defense system to protect ourselves and our allies from an accidental or deliberate missile launch and to eliminate the possibility of blackmail by hostile powers. As President Bush recently stated in a speech to the National Defense University, "We must seek security based on more than the grim premise that we can destroy those who seek to destroy us.

We need a framework that allows us to build missile defenses to counter the different threats of today's world. To do so, we must move beyond the constraints of the 30 year old ABM Treaty. This treaty does not recognize the present, or point us in the future. It endorses the past. No treaty that prevents us from developing the Chinese technology to defend ourselves, our friends and our allies is in our interests or in the interests of world peace.

Second, the United States needs to develop better anti-ship cruise missile defenses. Systems to counter the cruise missile threat have lagged behind the level of that threat, despite the fact that, according to the U.S. Navy, over 75 nations possess more than 90 different types of anti-ship cruise missiles.

We must also prepare for China's potential use of information warfare. It is important that we find ways to protect our computer networks from hacking, to eliminate future lapses in security, as most recently occurred at Sandia National Laboratory in Mexico. According to an article in the Washington Times on March 16, this attack has been partially attributed to hackers with links to the Chinese government.

The United States should also develop defenses against China's ASAT weapons. As the Commission to Assess United States National Security, Space Management and Organization recently concluded:

"...the present extent of U.S. dependence on space, the rapid pace at which this dependence is increasing and the vulnerabilities it creates, all demand that U.S. national security space interests be recognized as a top national priority.

With this goal in mind, Secretary Rumsfeld recently announced a reorganization of our Nation's space programs. Moreover, President Bush, recognizing U.S. reliance on our network of satellites for civilian and military uses, has stressed the need for "great effort and new spending" to protect our satellites from attack.

One of our capabilities to defend against China's increasing military capabilities is largely dependent on our knowledge of their development. We must do a better job of ascertaining Chinese government plans and intentions (and proliferation activities) and improve our counterintelligence vis-a-vis China.

The fourth area of concern is the Chinese government's deplorable human rights record, that, according to the State Department's Country Reports on Human Rights Practices, has continued to deteriorate over the past year. The report states:

"...the Chinese Government continued to commit widespread and well-documented human rights abuses in violation of internationally accepted norms. These abuses stemmed from the authorities' extremely limited tolerance of public dissent aimed at the Government, fear of unrest, and the limited scope or inadequate implementation of laws protecting basic freedoms... Abuses included instances of extrajudicial killings, the use of torture, forced confessions, arbitrary arrest and detention, the mistreatment of prisoners, lengthy incommunicado detention, and denial of due process.

According to an Amnesty International report on June 7, China has executed at least 1,781 persons during the past 3 months—more than the total number of executions worldwide over the past 3 years. The report indicates that 2,960 people have been sentenced to death in China during this brief period.

What is the significance to the United States of such abuses? First, they are not only directed at Chinese citizens; they are also directed at Americans. Second, if China is to become a reliable member of the international community, it must begin to adhere to accepted norms of behavior. In this regard, China's leaders seem to be oblivious to the understanding that all people deserve certain basic freedoms and that violation of such fundamental rights is an appropriate concern of the United States and the world at large. For example, when questioned by the Washington Post about China's detention of several American citizens, Chinese President Jiang Zemin stated, "...the United States is the most developed country in the world in terms of its economy and it high-tech; its military is also very strong. You have lots of things to occupy yourself with... why do you frequently take special interest in cases such as this?"

Jiang Zemin's perplexity speaks volumes. Until the Chinese leadership understands why Americans and most of the rest of the world make such "a big deal" over denial of the rule of law, it will be hard to reach a reconciliation of our mutual aspirations. For example, the Chinese government's continued detention of two American citizens and two U.S. permanent residents—Gao Zhisheng, Wu Jianmin, Zhan Guangguang—has been unacceptable, and should be much more the focus of official U.S. government attention. One of these individuals, Li Shaomin was convicted of espionage on July 16 and is expected to be deported from China. With regard to the others, China has failed to present evidence of wrongdoing or illegal activity, or indicate when their cases might begin to move forward.
President Bush addressed China's detention of Americans in a phone conversation with Chinese President Jiang Zemin, July 16, 2001. The Chinese leader made it clear that they should be "treated fairly and returned promptly." These words need to be reinforced with actions. While the State Department issued a travel advisory urging Americans to leave China, the White House has consistently called on China to respect human rights. As I mentioned earlier, I am concerned that our government's neutrality on the sensitive issue of human rights could send a signal of U.S. tolerance of China's inappropriate behavior. With the Secretary of State visiting China to hear the Chinese position, if this fall, there is an opportunity to reinforce our opposition to the repressive behavior of China's leaders. While some hope otherwise, it seems unlikely that the International Olympic Committee's choice of Beijing will bring about positive change in the communist regime. In fact, I fear that the decision could serve to strengthen the standing of China's communist leaders in the world, as the 1936 Games glorified and emboldened Nazi Germany.

The only hope for a positive result of China hosting the games is a concerted effort by our government, Europeans (and others) and human rights groups using the occasion to push China's leaders. The multitude of media covering the games can also help. During the 1980's President Reagan was a champion for human rights, standing up for freedom, democracy, and free enterprise. But his passion and the spooky of American values and universally-recognized rights, and more importantly, backed his words with action. In his 1982 "Evil Empire" speech before the British House of Commons, President Reagan stated:

"While we must be cautious about forcing the pace of change, we must not hesitate to declare our ultimate objectives and to take concrete actions to move toward them. We must be resolute in our conviction that freedom is not the sole prerogative of a lucky few but the inalienable and universal right of all human beings."

This is the course we must chart in the coming years. China must understand that a friendly, productive relationship with the United States can only be based upon mutually shared values. Beijing's human rights abuses are anathema to the American people, and relations will not reach their full potential as long as the communist government continues to violate the most fundamental rights of worship, peaceful assembly, and open discourse. A failure to reconcile this most basic attitude will result in continued strained relations.

One hope of concern is that, in addition to its violation of other international norms, China has a history of failing to play by accepted economic rules, placing an extensive set of requirements on companies that wish to do business in China and imposing an array of trade barriers on imports that compete directly with products made by domestic Chinese firms. Such barriers make it difficult for U.S. companies to penetrate China's market. The result is a burgeoning U.S. trade deficit between us, reaching $85 billion in 2000.

On June 1, President Bush submitted to Congress a determination extending normal trade relations status to China for another year, allowing that country's WTO (World Trade Organization) negotiations to continue. Not until these negotiations are completed and China has acceded to the WTO will the permanent normal trade status approved by the 106th Congress take effect.

In June, China took a significant step toward WTO accession by completing its bilateral WTO agreement with the United States. That country must now complete bilateral negotiations with Mexico and resolve several outstanding issues related to its multilateral agreement before its accession package proceeds to the WTO's Working Party, and then to the WTO's General Council, for approval.

As a member of the WTO, China will be required to play by the same rules as all other members. China's membership in this organization has the potential to improve our trading relationship, benefiting many American businesses and consumers, as long as China holds to its agreement.

Finally, we expect that China's accession to the WTO will be immediately followed by Taiwan's accession to this organization. Last September, I received a letter from President Clinton that responded to a letter I sent him in July 2000 (along with 30 other Senators), that sought assurances that his Administration remained committed to Taiwan's entry to the WTO under terms acceptable to Taiwan. In the letter the former President stated that, "My Administration remains firmly committed to the goal of WTO General Council approval of the accession packages for China and Taiwan at the same session." The letter went on to say that "China has made clear on many occasions, and at high levels, that it will not oppose Taiwan's accession to the WTO." However, the President acknowledged that, "China did submit proposed language to their working party stating that Taiwan is a separate customs territory of China."

But went on to say that it had "advised the Chinese that such language is inappropriate and irrelevant to the work of the working party and that we will not accept it."

Furthermore, in a September 2000 letter to Senators Lott and Daschle, President Clinton stated:

...I am confident we have a common understanding that both China and Taiwan will be invited to access for the language agreed to in 1992, namely as the Separate Customs Territory of Taiwan, Penghu, Kinmen and Matsu (referred to as "Chinese Taipei"). The United States will not accept any other outcome.

We must continue to make clear to China that it would be unacceptable to the United States for China to fail to live up to its commitments not to block Taiwan's entry to the WTO as a separate customs territory, Chinese Taipei, not a customs territory of China.

Mr. President, let me briefly recap the concerns I have raised today regarding China's proliferation of ballistic missiles and weapons of mass destruction, its threats and military buildup opposite Taiwan and the protection of human rights abuses, and its history of failing to play by accepted economic rules.

I believe our policy toward China should be one of strength and firmness, with friendly intentions, but never compromising U.S. principles. In the long-term, our goal must be to live in peace and prosperity with the Chinese people; however, to do so requires that China's leaders begin to alter their behavior. As Robert Kagan and William Kristol wrote on April 16 in the Weekly Standard, with regard to China's handling of the collision of our reconnaissance plane and China's fighter jet, "China hands both inside and outside the government will argue that this crisis needs to be put behind us so that the U.S.-China relationship can return to normal. It is past time for everyone to wake up to the fact that the Chinese behavior we have seen is normal. To accept this as the new norm is to embrace a communist regime that mistreats its people and threatens the security of Americans and our allies would be a dereliction of our duty as a world leader. We have no higher obligation than the protection of Americans, and the support of our friends and allies, including Taiwan, which stands to lose the freedoms it has worked so hard to sustain in face of resistance from China's communist regime."

During his "Sinews of Peace" address in 1946, Winston Churchill stated:

"Our difficulties and dangers will not be removed by closing our eyes to them. They will not be removed by mere waiting to see what happens; nor will they be removed by a policy of appeasement. As it has so often been said, those who ignore history are condemned to repeat it. In the face of obvious belligerency and determination, we must face the fact that China does not accept a different set of rules by China's leadership, the United States must not repeat the mistakes of the past. We cannot stand idle or look away in the face of
of the Chinese behavior and rhetoric I have discussed.

There is no doubt that China will play a larger role on the world stage in the coming years. Our goal must be to ensure that China’s leaders do not assume that this heightened stature grants them the right to attack Taiwan or be a force for belligerency and instability in the world.

Dealing with China will be a challenge, but America does not fear challenge. Our greatest hope for change remains, as it has always been, to stand firmly as a force for peace and progress, and to champion no less for the people of other countries what we guarantee for our own citizens. I am confident that, if we make clear our friendly intentions to China and follow through with actions that reinforce our words, our actions will send that message.

Taiwan will continue to flourish, and China can be welcomed as a peaceful and productive member to the community of nations.

I express the hope that by holding those games in Beijing, the media, human rights organizations, and others will work to hold the Chinese leadership accountable for what goes on in that nation.

The PRESIDING OFFICER. The Senator from Oregon.

Mr. WYDEN. Madam President, before he leaves the floor, I want to express my thanks to the Senator from Arizona. Because of his thoughtfulness, I am able to speak now. I want him to know I very much appreciate that.

PRESCRIPTION DRUGS

Mr. WYDEN. Madam President, tomorrow I intend to introduce bipartisan prescription drug legislation with the senior Republican on the Senate Finance Committee’s Subcommittee on Health, Ms. OLYMPIA SNOWE of Maine. For more than 3 years, Senator SNOWE and I have teamed up in an effort to address this prescription drug issue, of which the Presiding Officer is acutely aware. It is one of the most vexing and contentious of all issues. We have been trying to address it in a bipartisan fashion. Perhaps no issue in the last political campaign generated more controversy than prescription drugs. It divided us on both sides, and more bitterness rather than thoughtful discussion than the question of prescription drugs for seniors.

The reason Senator SNOWE and I are moving now with the introduction of our bipartisan legislation is that we are hopeful that when the Senate Finance Committee takes up the prescription drug legislation issue at this month, the legislation we have put together can serve as a template, a beginning, for a bipartisan effort to address this issue.

Our legislation marries what I think are the core principles that Democratic Members of this body have advocated with certain key principles that Republicans have felt very strongly about as well. I want to discuss briefly tonight how our legislation does that.

The legislation that I drafted with Senator SNOWE, for example, has a defined benefit, which is absolutely key for the Nation’s senior citizens. The alternative is what is known as a defined contribution—a sort of a voucher which you hand an older person, or a family with sort of a wish and a hope that maybe they will get meaningful benefits.

What Senator SNOWE and I have done—which has been extraordinarily important to Senator DASCHLE, and correctly so, in my view—is to make sure that under our legislation every senior would get these defined benefits.

Second, our legislation ensures that the duty, our legislative the Medicare Program. It is a part of the Medicare Program because, as the Presiding Officer of the Senate knows, the alternative is to in effect begin the privatization of Medicare and the prescription drug benefit. It is essential that this program be an integral part of Medicare. That is something that Senator SNOWE and I have felt very strongly about.

The third part of the legislation ensures that older people will have bargaining power to help make prescription drugs in this country more affordable. Older people today are in effect hit by a double whammy. Prescription drugs are not covered by the Medicare Program, of course, and they haven’t been since the program began in 1965.

When an older person isn’t able to afford prescription drugs and has no private coverage, when they go to a pharmacy—in effect that senior citizen is also subsidizing the person who gets their prescription through a group plan. An individual who is fortunate enough to have bargaining power because they have insurance coverage, in effect is subsidized by the older person who has no coverage at all.

Our legislation ensures that older people would have an opportunity to have real bargaining power. This is key for the millions of older people who spend well over a third of their income on prescription drugs.

Finally, our legislation is voluntary. We want to make sure that the message goes out far and wide that any older person who is comfortable with their prescription drug coverage today can just keep it and in no way would be required or coerced to alter the prescription drug coverage with which they are comfortable. If they have a retirement package, or in some way get this assistance, our legislation would not in any way alter what they are receiving currently.

Having had the privilege of working with the Presiding Officer on health care legislation over the years, I am pleased that I have a chance tonight to describe our bipartisan bill with you in the Chair. I think we all understand that there is no one who has studied the health care system today—not a Democrat or a Republican—if they were redesigning Medicare, who wouldn’t include a prescription drug benefit.

A physician in Washington County in my home State of Oregon wrote me not long ago saying that he put a senior citizen in the hospital for 6 weeks because that person couldn’t afford their medicine on an outpatient basis. Medicare Part A, of course—the hospital portion of the Medicare Program—covers prescription drugs. If the older person goes into the hospital, Medicare Part A will write out that check, no questions asked. Medicare Part B, of course, has no outpatient prescription drug benefit.

What happened in Washington County, in my home State of Oregon, recently is that the Medicare Program probably paid out $50,000 or $60,000 for the costs associated with hospitalizing a patient to get prescription drug coverage rather than making this benefit available on an outpatient basis the way I and Senator SNOWE and the Presiding Officer have sought to do for so many years.

Very often, when I am out around the country, people come up to me. They say: RON, can this country afford prescription drug coverage? We are going to have this demographic tsunami. Are we going to be able to afford to cover all of these older people? I think what we have learned here is that very clearly this country can’t afford not to cover prescription drugs.

We can’t afford to allow the repetition of what happened in Washington County. We are talking about this country where so many older people could have, with modest prescription drug assistance, prevented much more serious illnesses. And I could cite one drug after another tonight.

Strokes are a very important health concern for older people. The cost of caring for a person who has had a stroke can be $125,000 or $150,000. But we have many drugs available that help prevent strokes that cost $800 or $1,000 a year.

So the hour is late, and I am not going to go through one example after another. But I would say, what Senator SNOWE and I are trying to do is break the gridlock on this issue. I have been at it for more than 3 years now with Senator SNOWE. We got a majority of the Senate, in the last Congress, to vote for funding a prescription drug program that, frankly, is much broader than what we are talking about now. Senator SNOWE and I were able to get 50 Members of the Senate to vote for a tobacco tax to cover a prescription drug program.

We are not talking about that at all here. In the budget resolution we have
$300 billion to start a prescription drug program. I believe a properly designed prescription drug program would cause future Congresses to make available additional funds to meet this pressing need. The challenge today is to look at some of the sensible ideas that Senator DASCHLE, the majority leader, has advocated, such as a defined benefit, ensuring that the program is inside Medicare, providing bargaining power for older people, and marrying the sensible ideas Senator DASCHLE has talked about with some of the Republican ideas that promote choice and competition.

As I have said to my colleagues on other occasions, we have a precedent for doing that. One of the accomplishments of which I am proudest is to have been the sponsor, when I was in the House of Representatives, of the Medigap legislation which really drained the swamp of so many questionable private insurers selling senior citizens policies that really were not worth the paper on which they were written.

I remember back in the days when I was Co-director of the Oregon Gray Panthers, we would visit seniors and they would have a shoe box full of these policies. They would have seven or eight private policies. They, in effect, were wasting money on junk that could have been used to meet their heating bills or their other health needs. We drained that swamp, and we did it through a Medigap law, by ensuring that seniors had meaningful choices and strong consumer protections.

So we have an example of how you can create choice and alternatives and promote competition, and do it in the context of the Medicare Program. You do not have to go out and privatize this program that has been a lifeline for millions of older people in order to create choice and competition. You can do it within the Medicare Program, which is what I am seeking to do with the senior Senator from Maine, the ranking Republican on the Finance Subcommittee on Health Care, Ms. OLIMPIA SNOWE.

Our hope is that when the Senate Finance Committee gets together this month, on a bipartisan basis, they will look at our legislation, along with the other very good bills that have been introduced. The senior Senator from Florida, Mr. GRAHAM, for example, has talked at length with me about this issue and has a fine bill. I think there are a variety of ways the Senate Finance Committee, under the leadership of Senator BAUCUS, can take these bills and bring the Finance Committee Democrats and Republicans together and break this gridlock on a vital issue.

I know of few issues that are more important at this point to American families than prescription drugs. I think we all understand that with a well crafted prescription drug program, this country can take a significant step forward towards meaningful Medicare reform.

I say to the Presiding Officer, the hour is late, and you have been gracious to allow me, along with the Democratic leader, this extra time. I intend to keep coming back to this Chamber again and again and again throughout this Congress to, in effect, proselytize—I use that word deliberately—with my colleague from Maine, Senator SNOWE, for a bipartisan effort on this issue. It has dragged on too long. There has been too much partisan bickering and squabbling surrounding this issue.

I would like to see just a tiny fraction of the millions of dollars that were spent on attack ads during the last political campaign on this issue spent on trying to bring Democrats and Republicans—Members of Congress across the political spectrum—together on this issue. That is what older people deserve.

Every month that this issue drags on is a month where older people—who are walking an economic tightrope, having to balance their fuel needs against their medical needs—have to worry about how they are going to pay for their essentials. The Presiding Officer understands that very well. I look forward to working with her and all of our colleagues on a bipartisan basis.

With that, Madam President, I yield the floor.

ADJOURNMENT UNTIL 9 A.M. TOMORROW

The PRESIDING OFFICER. Under the previous order, the Senate stands in adjournment until 9 a.m. tomorrow.

Thereupon, the Senate, at 5:45 p.m., adjourned until Tuesday, July 17, 2001, at 9 a.m.
Mr. SMITH of Michigan. Mr. Speaker, it is a sincere pleasure to recognize the finalists of the 2001 LeGrand Smith Scholarship Program. This special honor is an appropriate tribute to the academic accomplishment, demonstration of leadership and responsibility, and commitment to social involvement displayed by these remarkable young adults. We all have reason to celebrate their success, for it is in their promising and capable hands that our future rests:

Jonathan Andert of Battle Creek, Michigan.
Jared Bignell of Reading, Michigan.
Rachel Carpenter of Eaton Rapids, Michigan.
Leslie DeBacker of Pittsford, Michigan.
Jeremy Fielder of Blissfield, Michigan.
Andrew Grasley of Deerfield, Michigan.
Nicole Hepner of Hillsdale, Michigan.
Lindsay Karthen of Lansing, Michigan.
Gabriel Lopez-Betanzos of Lansing, Michigan.
Alison McMullin of Battle Creek, Michigan.
Timothy Miller of Quincy, Michigan.
Julie Porter of Addison, Michigan.
Josh Richardson of Brooklyn, Michigan.
Meghan Silfuentes of Charlotte, Michigan.
Anna Watkins of Coldwater, Michigan.

The finalists of the LeGrand Smith Congressional Scholarship Program are being honored for showing that same generosity of spirit, depth of intelligence, and capacity for human service that distinguished the late LeGrand Smith of Somerset, Michigan. They are young men and women of character, ambition, and initiative, who have already learned well the value of hard work, discipline, and commitment.

These exceptional students have consistently displayed their dedication, intelligence, and concern throughout their high school experience. They are people who stand out among their peers due to their many achievements and the disciplined manner in which they meet challenges. While they have already accomplished a great deal, these young people possess unlimited potential, for they have learned the keys to success in any endeavor. I am proud to join with their many admirers in extending our highest praise and congratulations to the finalists of the 2001 LeGrand Smith Congressional Scholarship Program.
TRIBUTE TO TRACY EGNATUK OF ALBION, MI. LEGRAND SMITH SCHOLARSHIP WINNER

HON. NICK SMITH
OF MICHIGAN
IN THE HOUSE OF REPRESENTATIVES
Monday, July 16, 2001

Mr. SMITH of Michigan. Mr. Speaker, it is with great respect for the outstanding record of excellence she has compiled in academics, leadership and community service, that I am proud to salute Tracy Egnatuk, winner of the 2001 LeGrand Smith Congressional Scholarship. This award is made to young adults who have demonstrated that they are truly committed to playing important roles in our Nation's future.

As a winner of the LeGrand Smith Congressional Scholarship, Tracy is being honored for demonstrating that same generosity of spirit, intelligence, responsible citizenship, and capacity for human service that distinguished the late LeGrand Smith of Somerset, Michigan. Tracy is an exceptional student at Albion High School and possesses an impressive high school record. Tracy has received numerous awards for her excellence in academics, as well as her involvement in swimming and track. Outside of school, Tracy is a tutor for the HOSTS Program and a church volunteer.

EXTENSIONS OF REMARKS

Therefore, I am proud to join with her many admirers in extending my highest praise and congratulations to Tracy Egnatuk for her selection as a winner of a LeGrand Smith Congressional Scholarship. This honor is also a testament to the parents, teachers, and others whose personal interest, strong support and active participation contributed to her success. To this remarkable young woman, I extend my most heartfelt good wishes for all her future endeavors.

PAYING TRIBUTE TO SENATOR HUGH GILLIS, SR.

HON. SAXBY CHAMBLISS
OF GEORGIA
IN THE HOUSE OF REPRESENTATIVES
Monday, July 16, 2001

Mr. CHAMBLISS. Mr. Speaker, I rise today to pay tribute to Senator Hugh Marion Gillis, Sr. for his dedicated service to his country and to the state of Georgia. This year Senator Gillis has attained a distinction achieved by no other member of the Georgia House or the Senate — only one other state legislator in the nation by completing 50 years of service in the Georgia General Assembly.

Senator Gillis comes from a proud family tradition of public service. Without opposition he won the Senate seat that his father left and was then elected President Pro Tem, a seat his father too held. Senator Gillis served 12 years as a member of the House of Representatives from 1941-44, and again from 1949-56, and he first served in the Senate from the 16th District in 1957-58 and returned as the Senator from the 20th in 1963, where he has served with dedication and diligence for 38 consecutive years.

Gillis was born in Soperton where he graduated from Soperton High School and then went on to study at Georgia Military College and earn a B.S. degree in agriculture from the University of Georgia.

It has been said that “Nearly all men can stand adversity, but if you want to test a man’s character, give him power.” Senator Gillis has stood up to the challenge of leadership and power with wisdom and humility to be one of the most respected politicians of Georgia.

He has served in the General Assembly longer than any other Senator currently in office. Senator Gillis is by all accounts the nation’s longest-serving legislator. His combined Senate and House terms exceed 50 years. In his years of service, Senator Gillis has served as the Chairman of the Senate Natural Resources Committee and a member of the influential Appropriations Committee. Other committees Senator Gillis has served on are the Reapportionment Committee and the Finance and Public Utilities Committee as well as the Economic Development, Tourism and Cultural Affairs Committee. He has also served for six years as the Senate President Pro-Tempore, the highest-ranking Senate official next to the Lieutenant Governor.

Senator Gillis has served on numerous boards and commissions, including the Georgia Forestry Association, Future Farmers of America.

Senator Gillis is also a deacon at Soperton First Baptist Church and a member of the Lion’s Club. He has served as chairman of the Treutlen County Hospital Authority for 22 years.

Senator Gillis, a widower is the father of two sons, Hugh Jr. and Donald; and a daughter, Jean Marie. By profession, he is a farmer and timber grower.

Mr. Speaker, I am pleased to call to the attention of the House of Representatives the many accomplishments that have followed in the path of Senator Gillis’ career. I am privileged to know such a dedicated and upstanding citizen and to call him my good friend. I thank him for his efforts to improve the lives of so many others across Georgia.

TRIBUTE TO MAJOR GENERAL ROBERT L. Nabors

HON. FRANK PALLONE, JR.
OF NEW JERSEY
IN THE HOUSE OF REPRESENTATIVES
Monday, July 16, 2001

Mr. PALLONE. Mr. Speaker, I rise today in honor of Major General Robert L. Nabors, as he relinquishes his command of CEOM and Fort Monmouth in New Jersey.

Major General Nabors 35 years of military accomplishments will be honored at the retirement and change of command ceremony on Friday July 20, 2001. This decorated officer has been a valuable member of the armed forces. He has helped spearhead the development of advanced command, control, communications and electronic warfare technologies essential for transforming the Army. His military awards include the Defense Superior Service Medal, Legion of Merit with four Oak Leaf Clusters, the Bronze Star medal and many more.

Major General Nabors grew up in Lackawanna, N.Y. He received a Bachelor of Science in systems Engineering from the University of Arizona and is a graduate of the University of Georgia. He currently serves as a Professor of Military Science in the Civil Engineering system at the University of Arizona.

Mr. Speaker, I am pleased to call to the attention of the House of Representatives the many accomplishments that have followed in the path of Senator Gillis’ career. I am privileged to know such a dedicated and upstanding citizen and to call him my good friend. I thank him for his efforts to improve the lives of so many others across Georgia.

TRIBUTE TO CALIFORNIA’S SENIOR SUPREME COURT JUSTICE, THE LATE STANLEY MOSK

HON. ROBERT T. MATSUI
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Monday, July 16, 2001

Mr. MATSUI. Mr. Speaker, I rise today to pay tribute to California’s Senior Supreme Court Justice, the late Stanley Mosk.
For the past 37 years, Mosk served as the court's independent voice and moral compass. His trailblazing decisions brought sweeping changes to California law long before such decisions were addressed at the national level. A vigorous advocate of individual liberties, Mosk lead state courts across the country to use their own constitutions to establish individual rights beyond those required under the federal constitution. In 1976, Mosk wrote the opinion that bars the use of improperly obtained confessions arguing that such confessions could not be used to challenge the truthfulness of a defendant who later testifies. While the U.S. Supreme Court allowed for such use, Mosk invoked the state Constitution and did not approve the practice. His always careful, thoughtful and considerate opinions, totaling 1,688 over the span of his career, were widely regarded and highly acclaimed.

A native of San Antonio, Mosk's career as a giant in the court began by serving 15 years at the Missouri Supreme Court. While the Missouri Supreme Court has only one Democrat, was known for his shrewd political acumen and often criticized by his adversaries for his focused attention of the states shifting political climate. Nevertheless, Mosk remained dedicated to his role as a public servant and vigilant in his undertaking of civil and criminal law.

As a winner of the LeGrand Smith Congressional Scholarship. The award is made to young adults who have demonstrated that they are truly committed to playing important roles in our Nation's future.

As a winner of the LeGrand Smith Congressional Scholarship, Travis is being honored for demonstrating that same generation of spirit, intelligence, responsible citizenship, and capacity for human service that distinguished the late LeGrand Smith of Somerset, Michigan.

Travis Ebel is an exceptional student at Lakeview High School and possesses an impressive high school record. Travis's involvement in both the Lakeview High School and the Battle Creek Math and Science Center curriculum is truly outstanding. He participates in high school athletics, as well as being a member of the Board of Directors for the Battle Creek Art Center. Travis is also an active volunteer in Calhoun County, dedicating more than 800 hours to community service.

Therefore, I am proud to join with my many admirers in extending my highest praise and congratulations to Travis Ebel for his selection as a winner of a LeGrand Smith Congressional Scholarship. This honor is also a testament to the parents, teachers, and others whose personal interest, strong support and active participation contributed to his success.

To this remarkable young man, I extend my most heartfelt good wishes for all his future endeavors.

TRIBUTE TO SHERIFF CULEN TALTON
IN HONOR OF WILLIAM J. GIRGASH
OF OHIO
IN THE HOUSE OF REPRESENTATIVES
Monday, July 16, 2001
Mr. KUCINICH. Mr. Speaker, I rise today to honor the memory of William J. Girgash, a loving father and grandfather, who served his community in various ways throughout his lifetime. He was dearly loved, not only by his family but also by the many who knew and respected him. Girgash was a dedicated public servant who gave tirelessly to his community, leaving a legacy of commitment and dedication.

Mr. Speaker, Sheriff Cullen Talton has devoted his life to better serving his community. He spends tireless energy towards bettering his community and for that Sheriff Cullen Talton deserves our recognition and gratitude today.

Mr. Speaker, Sheriff Cullen Talton has been the only National Guard Paying Tribute to Sheriff Cullen Talton: A native of Battle Creek, Michigan, Sheriff Talton has served in various capacities, including 29 years as Sheriff of Houston County, Georgia. His dedication and service to the community have been recognized through numerous awards and honors, such as being named Georgia's Sheriff of the Year and receiving the Warner Robins/Houston County Chamber of Commerce Good Government Service Award. Sheriff Talton is a member of the State of Georgia Department of Corrections and is Chairman of the Board of Security Bank in Houston County.

Mr. Speaker, Sheriff Cullen Talton has served heroically, with his ever-present smile and tireless dedication. He has been a true advocate for his community, always looking for ways to improve the lives of those around him. His legacy will live on, as Sheriff Talton has left a lasting impact on the lives of countless individuals.
family, but by countless members of the Cleveland Community.

Mr. Girgash retired in 1987 as Board President of the Broadway School of Music and the Arts in 1996 and 1997 after many years as a board member. He also served as editor and chief writer for the school’s “Ensemble” quarterly newsletter. Those who knew him could always find him attending one of the many music recitals of the students, whom he cared about most dearly.

Mr. Girgash retired as Vice President of APCOA and served our country in the Navy during the Second World War. Friends, I’m sure that you will agree that there are few honors greater than service to our country and the education of children.

My colleagues, please join me today in celebrating the life of this remarkable man. He was a gentleman of honorable intentions and thankless acts of service to the community.

CELEBRATING THE RETIREMENT OF LIEUTENANT GENERAL HENRY T. GLISSON

HON. JAMES P. MORAN
OF VIRGINIA
IN THE HOUSE OF REPRESENTATIVES
Monday, July 16, 2001

Mr. MORAN of Virginia. Mr. Speaker, I rise today to honor a distinguished constituent of mine, Lieutenant General Henry T. Glisson, who will be retiring from the United States Army on August 31, 2001, after 35 years of outstanding service in the Armed Forces. In addition to his retirement, Lieutenant General Glisson will also step down as Director of the Defense Logistics Agency in July.

Lieutenant General Glisson was commissioned a Second Lieutenant, Quartermaster Corps, through the Reserve Officer Training Corps program at North Georgia College, where he also earned his Bachelor of Science Degree in Psychology. He received his Master’s Degree in Education from Pepperdine University in California. His military educational background includes the Quartermaster Officer Basic and Advanced Courses, the Command and General Staff College, and the Army War College.

Lieutenant General Glisson was selected as a Regular Army Officer in 1967, and detailed to the Infantry for 18 months, where his early years included assignments as a Platoon Leader for the 548th Quartermaster Company, and Aide-de-Camp for the Commanding General, U.S. Army, Japan. He was an advisor in the U.S. Military Assistance Command in Vietnam, and S4 (Logistics) and Commander, Headquarters Company, 2nd Battalion, 5th Infantry. He was also the Commander, Company C, 425th Support Battalion and Commander, 25th Supply and Transport Battalion. In addition, he served as the Executive Officer/S3, 25th Supply and Transport Battalion and the Assistant Chief of Staff, G4 (Supply), 25th Infantry Division, Hawaii.

From 1974 to 1977, Lieutenant General Glisson was the Officer-in-Charge of the Cadet Mess, United States Military Academy, West Point, New York. From 1978 to 1982, he served as the S3, Division Support Command; Executive Officer, 701st Maintenance Battalion, and Commander, Material Management Center, 1st Infantry Division, Fort Riley, Kansas. His next assignment was Commander, 87th Maintenance Battalion, 7th Support Group, United States Army, Europe. He served as Chief, Quartermaster Branch, United States Army Military Personnel Command in Alexandria, Virginia, from 1985 to 1987.

He was assigned to the Pentagon from 1987 to 1989 where he served first as Chief, Readiness Team, and then Chief, Troop Support Division, Office of the Deputy Chief of Staff for Logistics, Washington, District of Columbia. In 1989 he became Commander, Division Support Command, 4th Infantry Division, Fort Carson, Colorado. He returned to the Pentagon in 1991, serving as the Executive Officer and Special Assistant to the Deputy Chief of Staff for Logistics; and then as Deputy Director, Directorate Plans and Operations, Office of the Deputy Chief of Staff for Logistics. In 1993, Lieutenant General Glisson was promoted to Brigadier General and has served in four consecutive command assignments: Commander, Defense Personnel Support Center, Defense Logistics Agency; Commander, U.S. Army Soldier Systems Command, U.S. Army Materiel Command; and 44th Quartermaster General/Commandant, U.S. Army Quartermaster Center and School, U.S. Army Training and Doctrine Command, where he served until assuming his current position as the 13th Director of the Defense Logistic Agency.

His decorations include the Defense Distinguished Service Medal, the Defense Superior Service Medal, the Legion of Merit with 5 Oak Leaf Clusters, the Bronze Star with “V” Device, the Bronze Star, the Purple Heart, the Meritorious Service Medal with 4 Oak Leaf Clusters, the Army Commendation Medal, the Air Medal, the Combat Infantryman Badge, the Parachutist Badge, the Parachute Rigger Badge and the Army Staff Identification Badge. On behalf of my congressional colleagues, it is my honor to thank Lieutenant General Henry T. Glisson for his 5 years of service to his country and wish him the best in his future endeavors.

TRIBUTE TO MINDY ENGELHART OF DIMONDALE, MI. LEGRAND SMITH SCHOLARSHIP WINNER

HON. NICK SMITH
OF MICHIGAN
IN THE HOUSE OF REPRESENTATIVES
Monday, July 16, 2001

Mr. SMITH of Michigan. Mr. Speaker, I am proud to salute Mindy Englehart, winner of the 2001 LeGrand Smith Congressional Scholarship. This award is made to young adults who have demonstrated that they are truly committed to playing important roles in our Nation’s future.

As a winner of the LeGrand Smith Congressional Scholarship, Mindy is being honored for demonstrating that same generosity of spirit, intelligence, responsible citizenship, and capacity for human service that distinguished the late LeGrand Smith of Somerset, Michigan.

Mindy is an exceptional student at Eaton Rapids High School and possesses an impressive high school record. Mindy has received numerous awards for her excellence in academics, as well as her involvement in 4-H, tennis and golf. Outside of school, Mindy is an active volunteer at Hayes Green Beach Hospital and the Red Cross.

Therefore, I am proud to join with her many admirers in extending my highest praise and congratulations to Mindy Englehart for her selection as a winner of a LeGrand Smith Congressional Scholarship. This honor is also a testament to the parents, teachers, and others whose personal interest, strong support and active participation contributed to her success. To this remarkable young woman, I extend my most heartfelt good wishes for all her future endeavors.

TRIBUTE TO HARRY LEE COE III

HON. JIM DAVIS
OF FLORIDA
IN THE HOUSE OF REPRESENTATIVES
Monday, July 16, 2001

Mr. DAVIS of Florida. Mr. Speaker, today I would like to pay tribute to Harry Lee Coe III, a loving father, gifted athlete, dedicated judge and life-long public servant of the citizens of Florida. Harry passed away one year ago.

Harry was first known in Hillsborough County as a pitcher for the Tampa Tarpons, but he soon built a distinguished law career, serving as a civil lawyer, then as a juvenile court attorney and finally as a criminal court judge. Harry presided over his court for 20 years—always devoted to serving our community to the best of his ability.

On the bench, Harry was known not only for his unique wit and passion, but also for his unwavering integrity and commitment to justice. Some say Harry expected too much of those who came before his bench, but he always demanded the most of himself and worked tirelessly to do his best. While Harry became known as “Hanging Harry” for his stringent sentences and his deep conviction to protecting our community from dangerous criminals, he was equally passionate about giving our children the love and support they deserve to prevent the need for such rehabilitation.

Much can be said of Harry’s dedication to his job, but volumes can be written of his persona outside the court. In all of Harry’s years as an elected official he was never branded as a typical politician, for his kind and gentle demeanor with people could never be mistaken for anything other than sincerity. You could always depend on Harry to listen to what you had to say, just as much as you knew that his words were from the heart. I know Harry will be remembered for all these things.
SMALL BUSINESS RECEIVERS COMPLIANCE WITH THE HIGHWAY DIESEL FUEL SULFUR CONTROL REQUIREMENTS

HON. STEPHEN HORN
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Monday, July 16, 2001

Mr. HORN. Mr. Speaker, at the beginning of this year, on January 18, 2001, the Environmental Protection Agency (EPA) implemented heavy-duty engine and vehicle standards and highway diesel fuel sulfur control requirements. I strongly supported the final rule by the EPA as a necessary tool to reduce pollution. Under this new regulation, oil refiners must meet rigorous new standards to reduce the sulfur content of highway diesel fuel from its current level of 500 parts per million to 15 parts per million by June 2006. This diesel rule goes a long way in reducing the amount of pollution in our air.

Small business refiners produce a full slate of petroleum products including everything from gasoline, diesel, and jet fuel to asphalt, lubes, and specialty petroleum products. Today, among the 124 refiners operating in the United States, approximately 25 percent are small, independent refiners. These small business refiners contribute to the nation’s energy supply by manufacturing specific products like grade 80-aviation fuel, JP-4 jet fuel, and off-road diesel fuel.

In order for oil refiners to comply with the new rule, the EPA estimated capital costs at an average of $14 million per refinery. This is a relatively small cost for major multinational oil companies, but for smaller refiners, this is a very high capital cost that is virtually impossible to undertake without substantial assistance. Small business refiners presented information in support of this position to EPA during the rulemaking process. In fact, EPA agreed that small business refiners would likely experience a significant and disproportionate financial hardship in reaching the objectives of the diesel fuel sulfur rule.

There is currently no provision that helps small business refiners meet the objectives of the rule. That is why I am introducing a tax incentive proposal that would provide the specific, targeted assistance that small refineries need to achieve better air quality and provide complete compliance with EPA’s rule.

A qualified small business refiner—defined as refiners with fewer than 1,500 employees and less than a total capacity of 155,000 barrels per day—will be eligible to receive federal assistance of up to 35 percent of the costs necessary, through tax credits, to comply with the Highway Diesel Fuel Sulfur Control Requirements of the EPA.

Without such a provision, many small business refiners will be unable to comply with the EPA rule and could be forced out of the market. Individually, each small refiner represents about four percent of the nation’s diesel fuel and in some regions, provide over half of the diesel fuel. Small business refiners also fill a critical national security function. For example, in 1998 and 1999, small business refiners provided almost 20 percent of the jet fuel used by U.S. military bases. Small business refiners’ pricing competitiveness also assures the larger, integrated companies to lower prices for the consuming public. Without that competitive pressure, consumers will certainly pay higher prices for the same products.

Over the past decade, approximately 25 U.S. refineries have shut down. Without assistance in complying with the EPA rule, we may lose another 25 percent of U.S. refineries.

This legislation is critical—not because small business refiners do not want to comply with the EPA rule due to differences in environmental policy—but because it will help keep small business refiners as an integral part of the industry and on their way to cleaner production and full compliance with all environmental regulations.

Mr. Speaker, I rise today to honor one of Idaho’s great citizens. Ed Freeman, 73, of Boise, who will be awarded the Medal of Honor today by the President for his acts of valor during the Vietnam War. The Medal of Honor is the highest award for valor in action against an enemy force which can be bestowed upon an individual serving in the Armed Services of the United States.

On November 14th, 1965, Captain Freeman risked his life more than once to deliver ammunition and supplies to 450 men who had been surrounded by more than 2,000 North Vietnamese. In addition, each time he delivered supplies, he carried out wounded U.S. military personnel to safety.

On November 14th, 1965, Captain Freeman voluntarily flew his Army Helicopter on 14 missions to the La Dang battle zone in less than 14 hours. For each trip, he risked his life to save and supply his fellow countrymen.

Without the courage of Captain Freeman and his crew, the 450 men in the La Dang Valley would have been quickly overrun by the North Vietnamese. By the end of the day Captain Freeman had saved an estimated 30 soldiers.

Mr. Speaker I am pleased to salute Captain Freeman today for his act of bravery in 1965 and I congratulate him for receiving the highest military honor anyone can receive, the Medal of Honor.

NUCLEAR DISARMAMENT AND ECONOMIC CONVERSION ACT OF 2001

HON. ELEANOR HOLMES NORTON
OF THE DISTRICT OF COLUMBIA
IN THE HOUSE OF REPRESENTATIVES
Monday, July 16, 2001

Ms. NORTON. Mr. Speaker, I have introduced the Nuclear Disarmament and Economic Conversion Act every year since 1993, and I will continue to introduce this bill until the threat posed by the world’s nuclear arsenals is eliminated. The world was brought to my attention by constituents who have been vigilant to the continuing need to focus on nuclear proliferation. Moreover, today missile defense is being pressed by the Bush Administration, which has refused to acknowledge urgent domestic needs from health care to affordable housing.

The United States, as the sole remaining superpower and the leading nuclear power in the world, has an obligation to move first and take bold steps to encourage other nuclear powers to eliminate their arsenals and to prevent the proliferation of these weapons. That is why I have chosen today, the 56th anniversary of the first test of a nuclear explosive in Alamogordo, New Mexico, to reintroduce the Nuclear Disarmament and Economic Conversion Act of 2001. The bill would require the United States to disable and dismantle its nuclear weapons and to refrain from replacing them with weapons of mass destruction once foreign countries possessing nuclear weapons enact and execute similar requirements.

My bill has an important complementary provision that the resources used to sustain our nuclear weapons program be used to address human and infrastructure needs such as housing, health care, education, agriculture, and the environment. By eliminating our nuclear weapons arsenal, the United States can realize an additional “peace dividend” from which critical domestic initiatives can be funded, including new programs proposed in the Administration’s FY 2002 budget.

Many courageous leaders in the United States and around the world have spoken out about the obsolescence of nuclear weapons and the need for their elimination. These leaders include retired Air Force General Lee Butler and more than 60 other retired generals and admirals from 17 nations, who, on December 5, 1996, issued a statement that “the continuing existence of nuclear weapons in the armories of nuclear powers, and the ever-present threat of acquisition of these weapons by others, constitute a peril to global peace and security and to the safety and survival of the people we are dedicated to protect” and that the “creation of a nuclear-weapons-free world [is] necessary [and] possible.”

The United States and the world community must redouble their efforts to obtain commitments from the nations that possess nuclear technology to refrain from actual deployment of nuclear weapons, as well as to help contain other countries that aspire to become nuclear powers, such as Iran, Iraq, and North Korea.
from moving forward with their programs. The United States will be far more credible and persuasive if its leaders are willing to take the initiative in dismantling our own nuclear weapons program and helping arms industries to convert plants and employees to providing products and services that enhance the wealth and quality of life of citizens. I ask my colleagues to cosponsor the Nuclear Disarmament and Economic Conversion Act of 2001 and the committees with jurisdiction over the bill to mark it up quickly so that it can be considered and passed.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur. As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Tuesday, July 17, 2001 may be found in the Daily Digest of today’s RECORD.

MEETINGS SCHEDULED

JULY 18

9 a.m.

Energy and Natural Resources

To hold hearings on the nomination of Dan R. Brouillette, of Louisiana, to be Assistant Secretary of Energy for Congressional and Intergovernmental Affairs.

SD–366

9:30 a.m.

Governmental Affairs

To hold hearings on S. 1098, to amend the Energy Policy Act of 1992 to develop the United States Climate Change Response Strategy with the goal of stabilization of greenhouse gas concentrations in the atmosphere at a level that would prevent dangerous anthropogenic interference with the climate system, while minimizing adverse short-term and long-term economic and social impacts, aligning the Strategy with United States energy policy, and promoting a sound national environmental policy, to establish a research and development program that focuses on bold technological breakthroughs that make significant progress toward the goal of stabilization of greenhouse gas concentrations, and to establish the National Office of Climate Change Response within the Executive Office of the President.

SD–342

10 a.m.

Foreign Relations

To hold hearings to examine the Putin administration policies toward the non-Russian regions of the Russian Federation.

SD–419

11 a.m.

Commerce, Science, and Transportation

To hold hearings to examine safety of cross border trucking and bus operations and the adequacy of resources for compliance and enforcement purposes, focusing on the impact on United States communities, businesses, employees, and the environment as well as the application of U.S. laws to the operations.

SR–253

Armed Services

Personnel Subcommittee

To hold hearings on proposed legislation authorizing funds for fiscal year 2002 for the Department of Defense and the Future Years Defense Program, focusing on active and reserve military and civilian personnel programs.

SR–222

Indian Affairs

To hold oversight hearings on tribal good governance practices and economic development.

SR–485

Energy and Natural Resources

To hold hearings on proposals related to energy and scientific research, development, technology deployment, education, and training, including Sections 107, 114, 115, 607, Title II, and Subtitle B of Title IV of S. 388, the National Energy Security Act of 2001; Title VIII, XI, and Division E of S. 597, the Comprehensive and Balanced Energy Policy Act of 2001; Sections 111, 121, 122, 123, 125, 127, 204, 205, Title IV and Title V of S. 472, the Nuclear Energy Electricity Supply Assurance Act of 2001; S. 90, the Department of Energy Nanoscope Science and Engineering Research Act; S. 193, the Department of Energy Advanced Scientific Computing Act; S. 242, the Department of Energy University Nuclear Science and Engineering Act; S. 299, the National Laboratories Partnership Improvement Act of 2001; S. 636, a bill to direct the Secretary of Energy to establish a decommissioning pilot program to decommission and decontaminate the Sodium-cooled fast breeder experimental test-site reactor located in northwest Arkansas; S. 568, the Energy Sciences Act of 2001; and S. 1166, to establish the Next Generation Lighting Initiative at the Department of Energy.

SD–366

Appropriations

Labor, Health and Human Services, and Education Subcommittee

To hold hearings to examine stem cell research issues.

SD–124

Health, Education, Labor, and Pensions

Employment, Safety and Training Subcommittee

To hold hearings to examine the protection of workers from ergonomic hazards.

SD–430

EEXTENSIONS OF REMARKS

Commerce, Science, and Transportation

To hold hearings to examine safety of cross border trucking and bus operations and the adequacy of resources for compliance and enforcement purposes, focusing on the impact on United States communities, businesses, employees, and the environment as well as the application of U.S. laws to the operations.

SR–253

Armed Services

Personnel Subcommittee

To hold hearings on proposed legislation authorizing funds for fiscal year 2002 for the Department of Defense and the Future Years Defense Program, focusing on active and reserve military and civilian personnel programs.

SR–222

Indian Affairs

To hold oversight hearings on tribal good governance practices and economic development.

SR–485

Energy and Natural Resources

To hold hearings on proposals related to energy and scientific research, development, technology deployment, education, and training, including Sections 107, 114, 115, 607, Title II, and Subtitle B of Title IV of S. 388, the National Energy Security Act of 2001; Title VIII, XI, and Division E of S. 597, the Comprehensive and Balanced Energy Policy Act of 2001; Sections 111, 121, 122, 123, 125, 127, 204, 205, Title IV and Title V of S. 472, the Nuclear Energy Electricity Supply Assurance Act of 2001; S. 90, the Department of Energy Nanoscope Science and Engineering Research Act; S. 193, the Department of Energy Advanced Scientific Computing Act; S. 242, the Department of Energy University Nuclear Science and Engineering Act; S. 299, the National Laboratories Partnership Improvement Act of 2001; S. 636, a bill to direct the Secretary of Energy to establish a decommissioning pilot program to decommission and decontaminate the Sodium-cooled fast breeder experimental test-site reactor located in northwest Arkansas; S. 568, the Energy Sciences Act of 2001; and S. 1166, to establish the Next Generation Lighting Initiative at the Department of Energy.

SD–366

Appropriations

Labor, Health and Human Services, and Education Subcommittee

To hold hearings to examine stem cell research issues.

SD–124

Foreign Relations

To hold hearings to examine the Putin administration policies toward the non-Russian regions of the Russian Federation.

SD–419

Judiciary

To hold hearings to examine reforming the Federal Bureau of Investigation management reform issues.

SD–226

Health, Education, Labor, and Pensions

Employment, Safety and Training Subcommittee

To hold hearings to examine the protection of workers from ergonomic hazards.
