

care facilities visits, and we have spoken to constituents about this proposed privatization plan. We have been asking them to fill out surveys on how they feel about Social Security. We have one in English and one in Spanish.

Overwhelmingly, my constituents are telling me that they are not in agreement with the proposed privatization plan. They would like to see a secure and a structured reform that would truly be available to every single individual that needs and requires Social Security assistance. I would like to tell Members that we have received well over 300 responses through e-mail and direct mail from our constituents who are resoundingly saying that the President should rethink his plan.

COMMENDING HARRY GILMORE

(Mr. RADANOVICH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RADANOVICH. Mr. Speaker, I rise today to commend Harry Gilmore, the first American Ambassador to Armenia who is the latest U.S. official to publicly acknowledge the Armenian genocide and call for international recognition.

In an interview with Radio Free Europe/Radio Liberty, the retired diplomat recently said, "There is no doubt that the Armenian events were genocide."

Gilmore's comments followed those of the current U.S. Ambassador to Armenia, John Evans, who recently evoked the Armenian Genocide during his first stateside visit to Armenian communities across the country. During a series of public exchanges with Armenians late last month, Evans stated, "The Armenian genocide was the first genocide of the twentieth century."

As a proud member of the Congressional Caucus on Armenian Issues and an ardent supporter of Fresno's Armenian American community, I thank the Ambassadors for their statements and pledge to continue my efforts for a full United States affirmation of the Armenian genocide.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.J. Res. 23

Mr. CLEAVER. Mr. Speaker, I ask unanimous consent to have my name removed as a cosponsor of H.J. Res. 23.

The SPEAKER pro tempore (Mr. CARTER). Is there objection to the request of the gentleman from Missouri?

There was no objection.

SAVE COMMUNITY DEVELOPMENT BLOCK GRANTS

(Mr. CLEAVER asked and was given permission to address the House for 1

minute and to revise and extend his remarks.)

Mr. CLEAVER. Mr. Speaker, I rise to express my opposition to the administration's budget proposal.

Although the Community Development Block Grant Program is now on its way out if this is approved, I think it is important for the Nation to know that on August 22, 1974, the Community Development Block Grant Act was signed into law by Republican President Gerald Ford, but it is the brain child of President Richard Nixon.

Today, there is a proposal that would allow for a consolidation of 18 other programs in the Department of Commerce, and the new commerce program would then be funded at a level that is 35 percent lower than the combined fiscal year 2005 appropriated level for all 18 programs.

The pro-rata reduction of CDBG alone would be \$1.42 billion. That would devastate a program, Mr. Speaker.

When I was mayor of Kansas City, Missouri, we identified 60,000 homes in need of rehabilitation or repair. We were able to complete 12,000. What will happen to the 48,000 others?

STOP YUCCA MOUNTAIN PROJECT NOW

(Ms. BERKLEY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. BERKLEY. Mr. Speaker, for the last 20 years the Nevada delegation, Republican and Democrat, have fought to keep the Yucca Mountain Project from becoming a reality.

What is the Yucca Mountain Project? 77,000 tons of toxic nuclear waste being transported across 43 States to be buried in a hole in the Nevada desert where we have groundwater issues, seismic activity, and volcanic activity.

The President when he approved this said that his decision was based on sound science. Sound science? There were 294 unresolved scientific and technical issues.

There is no canister that can safely store this radioactive waste, and we have a court decision that says that rather than a 10,000-year standard for radiation there should be a 300,000-year standard for radiation.

Now, as of yesterday, the new Secretary of Energy has come forward and disclosed that the scientific documentation for Yucca Mountain has been falsified. It is about time that the rest of the country knew what the Nevada delegation knows and has been saying for 20 years. This is not based on sound science. It is based on sound politics.

I have urged the Secretary of Energy to appoint an independent body to investigate the science. We know now it has been falsified. It is wrong. This is a bad project and I urge the President to

rescind his order to Yucca Mountain and stop this project now.

CORPORATE TAX RATE

(Mr. PRICE of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PRICE of Georgia. Mr. Speaker, more than 260,000 jobs were created last month making February the 21st straight month in which we have seen steady job gains. Companies are hiring more and more these days. More people are now collecting well-earned paychecks rather than unemployment checks. However, companies here in the U.S. are facing competition from around the globe, and to ensure economic prosperity over the long run we must be competitive in the world. To do this we have to address corporate tax rates.

Why do we penalize American companies for keeping their business here in the U.S.? Why are companies leaving America to go overseas? Should we not be trying to attract businesses rather than drive them away?

Mr. Speaker, the U.S. corporate tax rate is a whopping 40 percent. For every \$10 a company earns, \$4 has to be sent to the IRS. It is no wonder businesses are taking a look at moving out of the country. Our tax code is literally sucking jobs right out of the economy by depriving our businesses of the money that should be invested in hiring.

Only one other country, Japan, taxes its companies more than we, only one other country. Mr. Speaker, clearly that is not the road we want to travel and it is not the way we want to create jobs.

REJECT WOLFOWITZ AS WORLD BANK NOMINEE

(Ms. MCCOLLUM of Minnesota asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. MCCOLLUM of Minnesota. Mr. Speaker, I was disappointed to learn that President Bush has nominated the architect of the ongoing war of Iraq, Mr. Paul Wolfowitz, to head the World Bank.

The nominee's intimate relationship with the Iraq policy's gravest failures, phony intelligence, torture, contractor corruption, and incompetent planning, makes his nomination extremely disturbing.

□ 1015

Mr. Wolfowitz may be qualified as an expert in conducting preemptive war, but he is far from qualified to battle global poverty, overcome the AIDS pandemic or to promote gender equity, all World Bank priorities.

The world community deserves a development expert to champion the
