Whereas asbestos-related diseases have killed thousands of people in the United States;

Whereas asbestos exposures continue and safety and prevention will reduce and has reduced significantly asbestos exposure and asbestos-related diseases;

Whereas asbestos has been a cause of occupational cancer;

Whereas thousands of workers in the United States face significant asbestos exposure;

Whereas thousands of Americans die from asbestos related diseases every year;

Whereas a significant percentage of all asbestos-related disease victims were exposed to asbestos on naval ships and in shipyards;

Whereas the United States imports more than 30,000,000 pounds of asbestos used in products throughout the Nation;

Whereas asbestos-related diseases kill 10,000 people in the United States each year, and the numbers are increasing;

Whereas asbestos exposure is responsible for 1 in every 125 deaths of men over the age of 50;

Whereas safety and prevention will reduce asbestos exposure and asbestos-related diseases;

Whereas asbestos has been the largest single cause of occupational cancer;

Whereas asbestos is still a hazard for 1,300,000 workers in the United States;

Whereas asbestos-related deaths have greatly increased in the last 20 years and are expected to continue to increase;
