United States of America

Congressional Record

PROCEEDINGS AND DEBATES OF THE 109th CONGRESS, FIRST SESSION

SENATE—*Thursday, April 7, 2005*

The Senate met at 10 a.m. and was called to order by the Honorable LISA MURKOWSKI, a Senator from the State of Alaska.

The PRESIDING OFFICER. Today's prayer will be offered by guest Chaplain Rev. David G. Thabet, of Huntington WV.

The guest Chaplain offered the following prayer:

PRAYER

Let us pray.

O God, the Source and Giver of all wisdom, whose will is good and gracious, and whose law is truth, we pray that You so guide and bless the Congress of this Nation, and especially the United States Senate, that they enact such laws as shall be according to Your will.

Grant them the spirit of wisdom, charity, and justice, so that with clear minds and steadfast purpose they may faithfully serve in their offices. And we pray that the people of this Nation support their elected officials with understanding and encouragement.

May those assembled here always be conscious of the needs of those persons under their care, and may they always have the courage to do what is right.

Finally, we ask that You instill Your Spirit in the body of those here that they may have the strength to accomplish the tasks before them this day and throughout the session.

This we ask in Your Name.

Amen.

PLEDGE OF ALLEGIANCE

The Honorable LISA MURKOWSKI led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. STEVENS).

The bill clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, April 7, 2005.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable LISA MURKOWSKI, a Senator from the State of Alaska, to perform the duties of the Chair.

TED STEVENS,
President pro tempore.

Ms. MURKOWSKI thereupon assumed the Chair as Acting President pro tempore.

RECOGNITION OF THE ACTING MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority whip is recognized.

SCHEDULE

Mr. MCCONNELL. Madam President, today we will be in for a period of morning business. Last night, we were unable to complete work on the State Department authorization bill. Therefore, on Monday, we will turn to the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Tsunami Relief. We did make progress, however, on the State Department bill, and it is still hoped that we can reach an agreement to limit amendments on that bill, and therefore make it possible for us to complete it.

That would allow the chairman and ranking member to work together to determine how much work remains on the bill prior to reaching final passage. In the meantime, and under the consent agreement, we will begin consideration of the appropriations bill at 3 p.m. on Monday. As announced last night, there will be a vote on Monday evening at approximately 5:15. That vote will likely be on a district judge, although it is possible that additional votes will occur on amendments to the supplemental at that time.

I will have further announcements on the Monday schedule at the close of business today. Let me say, for all of our colleagues, turning to the supplemental appropriations bill next week means we will have a very busy week, with lots of votes and potentially one or more evening sessions.

With that, I yield the floor.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be a period for the transaction of morning business, with Senators permitted to speak therein for up to 10 minutes.

The Senator from Tennessee is recognized.

ORDER OF PROCEDURE

Mr. ALEXANDER. Madam President, I see my friend from Oregon here. I ask unanimous consent to speak a little bit longer than 10 minutes if that would not inconvenience him, or would he like to go?

Mr. WYDEN. That is fine with me. I am waiting for Senator SMITH. Madam President, if I could, I ask unanimous consent that after Senator ALEXANDER completes his remarks, Senator SMITH, my colleague from Oregon, and I may speak for up to 30 minutes. We may not consume all of that time.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. ALEXANDER. Madam President, I ask unanimous consent to speak for up to 20 minutes.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

THE NEW IRAQI LEADERSHIP

Mr. ALEXANDER. Madam President, I have three or four comments I want to make this morning. Most importantly, I want to say a word about the new leadership in Iraq.

● This "bullet" symbol identifies statements or insertions which are not spoken by a member of the Senate on the floor.

In a delegation led by the Democratic leader, Senator REID of Nevada, seven of us were in Iraq, in Baghdad, about 10 days ago. We met with two of the three new leaders who have been chosen. Mr. al-Hasani, the new speaker, a Sunni, spent some time with us. We spent an hour with Dr. al-Jaafari who, just an hour ago, was named the new Prime Minister of Iraq, and who will be the most important leader we will be dealing with.

I believe our delegation was one of the first from the Senate to spend that much time with the new leader of Iraq. I want to report that I was most impressed with what we saw there. We met a man in his late fifties, who had been in exile from Iraq for a number of years because of the brutality of Saddam Hussein. He is a physician. It seems as though physicians are ascending in all sorts of different places, including in the U.S. Senate and in Iraq. He is a well-educated man and conducted our discussion in English. He showed in his presence a great deal of calm. He is not a quiet man, but he is a calm man who seems to know exactly what he believes and what he thinks.

I was taken with the fact that he began his discussion with us with about a 5-minute monolog about the brutality of Saddam Hussein. He said he was ''worse than Hitler, worse than Stalin.'' Those were his words. He said Hussein had murdered a million people in 35 years. In his words, al-Jaafari said ''he had buried 300,000 people alive.'' He said that quietly, but he obviously feels that very deeply.

Second, I was most impressed with his understanding of U.S. history. We talked about the difficulty of creating a democracy and how we are expecting them to create a constitution by August. In our situation, years ago, it took us 12 years from the time of the Declaration of Independence to the time of our Constitution. Our Founders locked the news media out for 6 months while they did that. Today, we are expecting the Iraqis to come together—people of different backgrounds—and have a constitution by August, while we watch and criticize on 24/7 television everything they do.

He has a good understanding of U.S. history and, I thought, a great appreciation for democracy and freedom. He showed not only no resentment about the American presence in Iraq, he showed great gratitude for the American presence in Iraq. He wants us to stay there for a while, so that there is enough security for their constitutional government to form. He seemed very comfortable with that.

Finally, he is a brave man—brave during exile, brave today. There may be only a few thousand people in Iraq—a country the size of California with 25 million people—who are causing all the trouble, but they are making it a dangerous place to be. Even the Green Zone and the areas around it are not entirely safe.

So we have a sophisticated, English-speaking, well-educated, U.S.-history-knowing, brave man, who is the new leader of Iraq, a man who is grateful for the American presence and who is determined to help create a democracy. I congratulate the Iraqi people on the substantial achievement.

Also, Mr. al-Hasani, the new speaker, a Sunni—the new Prime Minister is a Shiite—was very impressive to us in the Senate delegation. He, as well as the Prime Minister, wore western clothing in these meetings. I say this as a fact, not as a judgment.

Mr. al-Hasani was educated in the U.S. at two major universities. He lived in Los Angeles during his exile. He created a business in Los Angeles. He went back to Iraq to help create a new democracy. He is also a sophisticated person with a strong knowledge of freedom and democracy, a strong appreciation of the United States, and he is also a brave man to be undertaking this. I congratulate the Iraqis for that.

CONSENT DECREES

Mr. ALEXANDER. Madam President, I will ask unanimous consent to have printed in the RECORD an article I wrote, which appeared in the Legal Times for the week of April 4, entitled ''Free the People's Choice.'' This involves a piece of legislation that Senators PRYOR and NELSON on the other side of the aisle and Senators CORNYN and KYL on this side of the aisle and I have introduced, which would make it possible for newly elected Governors and mayors and legislatures to do what they were elected to do and be free from outdated consent decrees their predecessors may have agreed to, and which exist with the approval of the Federal courts.

We have hundreds of outdated Federal court-approved consent decrees across America, which are running our education systems, foster care systems, Medicaid systems, and they make it impossible for democracy to flourish in the U.S., at a time when people are fighting and dying to give other people democracy in another part of the world. We have strong Democratic and Republican support in the Senate for this. In the House, I finished a meeting with the Republican whip, Roy Blunt, who with Congressman COOPER from Nashville, and all of the Democratic Congressmen from Tennessee, have introduced the same bill in the House.

This piece of legislation would put term limits on Federal court consent decrees and cause them to be more narrowly drawn and do as the Supreme Court said they should do—get these issues back into the hands of the elected officials as soon as possible.

This legislation has strong support, and I hope it will be moving through the Judiciary Committee in proper fashion. It is the No. 1 priority of the National Governors Association and National Association of Counties, and many others. We cannot expect States to control the growth of Medicaid spending if we do not allow them to make their own decisions. We need to get flexibility from our laws, and we need to get the courts to step aside and let elected officials make policy decisions.

I ask unanimous consent that this article be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the LegalTimes, Apr. 4, 2005]

FREE THE PEOPLE'S CHOICE

(By Lamar Alexander)

Imagine yourself the governor of a state grappling with a broken public health care system. Your goal is to cover the greatest number of people—particularly children—with the best medicine available. But costs are spiraling out of control, so you and your staff craft a reform package that balances the health care needs of low-income citizens with the fiscal realities of the state budget. The task is tough, but this is why you ran for public office.

The story should end there, or, at least, you've reached the point when you would present your plan to your fellow elected officials in the state legislature, and they take a vote—representative democracy at work. Only that's not what's happening in states around the country, whether the issue is health care or transportation or education.

Instead, the hands of governors, mayors, even school boards have been tied by costly and restrictive consent decrees handed down by federal courts, sometimes decades before. These judicial orders result from agreements brokered between public officials and plaintiffs engaged in civil court actions. Once these decrees are set, they are very difficult to change, making reform and common-sense adjustments over time virtually impossible.

The result is what New York Law School professors Ross Sandler and David Schoenbrod call ''democracy by decree''—public institutions being taken out of public control and placed in the hands of an unelected federal judiciary.

There are times when this is absolutely necessary, when state and local governments defy federal law and congressional intent. Desegregation is the best example. In the civil rights era, the judiciary had no choice but to exercise control over public institutions in order to guarantee African-Americans their constitutional rights.

While ensuring that states follow the rule of law, consent decrees can also preserve the separation of powers and uphold the ideals of federalism. Unfortunately, in many cases, they have done just the opposite.

ROADBLOCKS TO REFORM

The hypothetical I offer above mirrors what is currently happening in my home state of Tennessee. Three specific consent decrees blocked the implementation of Democratic Gov. Phil Bredesen's initial Medicaid reform package, which would have preserved coverage for all 1.3 million enrollees of TennCare, the state's Medicaid program. His plan was passed overwhelmingly by the state's General Assembly and endorsed by major stakeholders in the program, from patients to providers.

But mandates set forth in these consent decrees—which far exceed federal requirements—limited the governor's policy choices and continue to drive up program costs. As a result, Bredesen was recently forced to devise a new reform strategy, which would cut 323,000 adults from the program and reduce the benefits of the remaining 396,000 adults. Citing the consent decrees, the courts are now blocking this proposal as well.

The consent decrees cover a range of health care issues. One signed by U.S. District Judge John Nixon in 1979, known as the Grier consent decree, prevents the state from placing reasonable limits or controls on prescription drugs, including the use of cheaper generics in lieu of expensive brand-name pharmaceuticals. As a result, Tennessee now spends more on TennCare's pharmacy benefit than it does on higher education.

The John B. consent decree, signed by Judge Nixon in 1998 and revised in 2001 and 2004, imposes a host of special requirements for children. From one line of federal code, the court entered a consent decree that established a requirement that Tennessee offer medical screenings to 80 percent of the state's children—a laudable public policy goal but one that should be set by the elected officials whose job it is to manage the program.

Finally, the Rosen consent decree, signed by U.S. District Judge William Haynes in 1998, prevents TennCare from limiting enrollment when a person is part of an optional Medicaid population or when a person's eligibility for the program cannot be determined. To make matters worse, on Jan. 29, 2005, Judge Haynes took his authority under that consent degree a step further: He declared that he must approve any changes to the TennCare system that would reduce enrollment. With the budget clock ticking, Tennessee's state legislators are now waiting for a U.S. district judge to give them permission to do their job.

And Tennessee isn't alone. There are consent decrees in all 50 states on issues ranging from prisons to child care. In Los Angeles, a consent decree entered in 1996 by U.S. District Judge Terry Hatter Jr. has forced the Metropolitan Transit Authority to spend 47 percent of its budget on city buses, leaving just over half of the budget to pay for the rest of the transportation needs of the nation's second-largest city.

In New York, a 1974 consent decree entered by U.S. District Judge Marvin Frankel has been mandating bilingual education for more than 30 years. The result is that public schools, which should be vibrant, learning, changing institutions, have no choice but to force students into outdated bilingual programs, even over the objections of their parents.

A BETTER SOLUTION

The solution to the problem of democracy by decree is a balanced system that protects the rights of individuals to hold state and local governments accountable in court, while preserving our democratic process through narrowly drawn agreements that respect elected officials' public policy choices. These goals are not incompatible. Last month, I introduced the Federal Consent Decree Fairness Act, bipartisan legislation that does both by establishing new principles and procedures for establishing, managing, and, ultimately, terminating court supervision.

The bill takes a three-pronged approach: First, it lays out a series of findings to guide the federal courts in approving future consent decrees. These findings give congressional endorsement to the Supreme Court's call for limiting decrees, as it did in Frew v. Hawkins in 2004. The findings also advocate the entry of consent decrees that take into account the interests of state and local governments and give due deference to their policy choices. And they make it clear that consent decrees should contain explicit and realistic strategies for ending court supervision.

Second, the bill places ''term limits'' on decrees, giving states and localities the opportunity to revisit them after the earlier of four years or the expiration of the term of the highest elected official who consents to the agreement. These time frames give consent decrees an opportunity to succeed, while not tying the hands of newly elected officials. They also prevent outgoing officials from agreeing to consent decrees as a way to lock in their successors to policies those successors would not normally support.

Finally, this legislation shifts the burden of proof from state and local governments to the plaintiffs in the case for purposes of the motion to vacate or modify the decree. Currently, a consent decree can be vacated or modified only following a showing by the defendant state or local government that circumstances have so significantly changed as to render the decree unworkable. The practical effect is that they must prove a negative—that the decree is no longer necessary. Yet if the purpose of the original agreement was to protect the plaintiff, it's logical that the plaintiff should demonstrate whether continued protection is justified.

RESPECTING DEMOCRACY

The goal of the Federal Consent Decree Fairness Act is to ensure that when a federal right is no longer threatened, a consent decree meant to protect that right can be expeditiously ended. When the purpose of the decree has been met, or circumstances have significantly changed, or later officials propose new and improved solutions to a problem, there needs to be a better way to remove the strictures of a consent decree.

The Federal Consent Decree Fairness Act would not impact the court's jurisdiction. It wouldn't eliminate consent decrees or even nullify existing ones. And it exempts desegregation cases. The bill merely creates a new judicial procedure that allows state and local governments to request a review of the consent decree under a shifted burden of proof.

The intent here is not to diminish the role of the federal courts. Consent decrees are important tools of federalism because they ensure that no government is above the law. From a practical perspective, they save enormous court costs and prevent damaging legal battles.

Rather, the goal is to level the playing field for state and local governments. There is no democracy when federal courts run police departments, school districts, foster care programs, and state insurance programs. Judges are not public policy experts, and they are not accountable to the electorate for the choices they make.

While the Supreme Court upheld the consent decree in Frew, its opinion captured the problem: ''If not limited to reasonable and necessary implementations of federal law, remedies outlined in consent decrees involving state officeholders may improperly deprive future officials of their designated and executive powers. They may also lead to federal court oversight of state programs for long periods of time even absent an ongoing violation of federal law.''

The Frew Court rightly focused on the encroachment of federal power over state and local governments. Our nation's founders envisioned a dynamic but separate relationship between the federal government and the states, and among the three branches of government. The 10th Amendment is clear in its delineation of responsibility: ''The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.''

And while The Federalist No. 48 sets forth the idea that some connection between the two levels of government is necessary, its writer, James Madison, issues a clear warning: ''It is equally evident that neither of them ought to possess directly or indirectly, an overruling influence over the others in the administration of their respective powers.''

Consent decrees have, unfortunately, evolved into a mechanism for the federal judiciary to exercise ''an overruling influence'' on many state and local governments. Reform is desperately needed to fix this broken system. Democracy by decree is no democracy at all.

PRAISING THE HOUSE PAGE SCHOOL

Mr. ALEXANDER. Madam President, I would like to now praise the pages. I could say good words about the Senate pages and I will. I wanted to especially praise the House page school—and I hope the Senate pages will excuse me for doing that.

Madam President, my good friend, Alex Haley, the author of ''Roots,'' used to say, ''Find the good and praise it.'' Those words are engraved on his tombstone. When he wrote the story of Kunta Kinte, he minced no words in describing the terrible injustices his ancestors overcame, but he also acknowledged their courage and perseverance.

Since I joined this body, I have made improving the teaching of American history one of my top priorities. I have noted some deeply disturbing statistics about students' knowledge of our past. For example, of all the subjects tested by the National Assessment for Education Progress, also known as our Nation's report card, American history is our children's worst subject.

But today I am here to follow Alex Haley's advice to find the good and praise it. When it comes to teaching American history, some of the best news can be found right here on Capitol Hill.

On January 25, the College Board announced that the House page school ranked first in the Nation among institutions with fewer than 500 pupils for the percentage of the student body who achieve college-level mastery on the advanced placement exam in U.S. history. Twenty-one students, or about one-third of the school's student body, took the exam, and 18 received the required score of 3 or above to demonstrate mastery of the subject.

A number of Senate pages also take the AP U.S. history exam. Madam President, 12 students in the current class of 29 in the Senate page school

will take 22 different AP exams this year. Eleven will take the U.S. history exam. But results for the Senate pages are not collectively known in the same way we know them in the House, and that is because the Senate Page School is only half the size of the House school. Senate pages register for the exam under their home high school name, rather than as a student at the page school. But based on what she hears from students, Principal Kathryn Weeden believes Senate pages score very well, but no complete tabulation of scores is available, as is with the House.

House pages attend classes in the attic of the Jefferson Building of the Library of Congress. They are perched atop one the largest collections of historical documents about our country. But location alone cannot account for their great success. The House Page School puts a strong emphasis on social studies and American history.

Students take American history with Sebastian Hobson and Ron Weitzel, a House Page School teacher of 21 years who will retire this year. Surely, much of the credit belongs to Mr. Hobson and Mr. Weitzel. But students also find a focus on American history in their work with other teachers. On Saturdays, students participate in the Washington Seminar, a program that explores American Government and history here in the District of Columbia.

Math teacher Barbara Bowen, who is something of an expert on Presidents Jefferson and Washington, takes students to Monticello and Mount Vernon.

Computer and technology teacher Darryl Gonzalez takes students to Fort McHenry and the American History Museum.

Science teacher Walt Cuirle includes the history of U.S. energy policy when he teaches his class on energy. Mr. Cuirle also takes students to Philadelphia for the Benjamin Franklin portion of the school's Washington seminar.

Most students take English teacher Lona Klein's course on American literature, which has to include history as they read literature from the Puritans, the Enlightenment, and the slave rebellions. She also leads a field trip to Annapolis to see the State house and the Naval Academy.

Principal Linda Miranda has made the teaching of American history a priority at the House Page School, and it shows. It is no wonder the school has received this recognition from the College Board, which administers the advanced placement exams across the country. Ms. Miranda credits the outstanding quality of the students who are selected as House pages and her faculty, whom she calls ''Renaissance men and women.''

There is no question this has been a team effort at the House Page School, but I know good leadership starts at the top. So I salute Linda Miranda, her faculty, and the students at the House Page School. I hope their success may be an example to schools across the country as to how we can restore the teaching of American history to its rightful place in our schools so our children grow up learning what it means to be an American.

Madam President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Oregon.

BIPARTISAN AGENDA FOR OREGON

Mr. WYDEN. Madam President, there has been a tumultuous start to this session of Congress with often acrimonious debate about judges, budget, and the tragic situation involving Terri Schiavo and her family. But I rise this morning with my friend and colleague, Senator GORDON SMITH, to speak not of division but of bipartisanship and of the hopes we share for our home State of Oregon and for our country.

This morning marks the fifth time Senator SMITH and I have unveiled what we call our bipartisan agenda for our home State. It has been our privilege and our pleasure at the beginning of each Congress to travel together around Oregon to listen to our fellow Oregonians and to find common ground on issues that matter to our citizens around their dining room tables and in their kitchens.

We suspect that what we hear in our joint townhall meetings is what other Members of the Senate hear as well. Oregonians, and all Americans, now struggle with health care—families and farmers and business owners and health care providers. Oregonians and all Americans are struggling to make ends meet in this economy, and this means workers and employers. Oregonians and all Americans want opportunities—educational opportunities, job opportunities, opportunities so their children have better lives.

Oregon has two U.S. Senators—a Democrat and a Republican—but we realize that for the most part, our citizens are not interested first in Republican solutions or Democratic solutions; they want solutions that work for Oregon and for our country. They want ideas, and they get frustrated when they see political figures letting petty and partisan differences get in the way of their interests.

In the bipartisan agenda for Oregon in the 109th Congress, we are seeking to expand a number of our shared legislative goals to seek good for our fellow Americans. I was especially pleased to join Senator SMITH as a member of the Senate Finance Committee this year. The committee oversees vital areas of policy, including health care, technology tax, trade policy, and many of the items on our agenda fall under the jurisdiction of the Senate Finance Committee.

We are also, in this agenda, working to expand our reach not only for Oregonians but for all Americans by working to tackle one of the most important and difficult issues in American health care, and that is providing catastrophic health care coverage so that our citizens do not have to go to bed at night fearing they are going to get wiped out by medical costs. This is a matter about which Democrats and Republicans have been talking for years, and there have been good Democratic and Republican ideas about catastrophic coverage for years. The fact is that if you own a hardware store in Alaska, Oregon, Iowa, or Florida, and you have five or six people and one of them gets sick, everybody gets wiped out in terms of their medical bills.

Senator SMITH and I believe we can develop a plan that will bring this Congress together, give us the opportunity to pass catastrophic health care legislation to be enacted and the President can sign into law.

So ours is a bipartisan agenda for Oregon, but it is also an invitation on the part of the two of us to contribute ideas and good will on issues where we have struck common bipartisan ground.

Our intention for a few minutes this morning is to speak on a number of these items—in effect, one of us speaking for both of us. I am very pleased to yield to my good friend and colleague, Senator SMITH, and to thank him for all of the opportunities to work with him, particularly for his willingness to consistently meet me more than half way in our efforts to try to work for our State. I thank Senator SMITH.

The ACTING PRESIDENT pro tempore. The Senator from Oregon.

Mr. SMITH. Madam President, I thank my colleague.

It seems only yesterday but it was over 8 years ago that Senator WYDEN and I engaged in a very hotly contested race for the seat of Bob Packwood, formerly the seat of Wayne Morse. I believe he was called ''the tiger of the Senate,'' a man for whom Senator WYDEN had worked earlier in his college years.

Ours was a campaign that Oregonians will not soon forget because it was so hard fought. It was a special election. RON WYDEN won that race, and I narrowly lost that race. Yet, through a matter of circumstances, it was possible for me to continue running for the seat of Mark Hatfield with his announced retirement. So a few months later, I was elected to the U.S. Senate to the Hatfield seat, the McNary seat, the Baker seat. I think it was a question on every Oregonian's mind and certainly in the press whether RON WYDEN and I could work together in any fashion because of the difficulty of the race we had run.

What I did the morning after my victory was to call RON WYDEN and invite

him to breakfast. No sooner had the orange juice been poured than it was very apparent to both of us that we were similar in nature in terms of our desire to do right by the State of Oregon. And while we would come at two issues from different political perspectives, we quickly recognized that on the matter of one's State, there was a community of interest, indeed, an incredible resource, and if we could find a way to put partisanship aside when it came to the borders of Oregon, we could find many areas where together, as a Republican and a Democrat, we could serve the interests of our Nation but particularly the interests of Oregon.

Senator WYDEN is the most senior elected Democrat, and I am the most senior elected Republican in our State. We understand that to our parties, we owe loyalty on nearly all procedural votes, we owe to our parties support of our nominees, but to each other we owe respect, and we have found that easy to come by. So after once being competitors, we found ourselves colleagues.

In the course of 9 years, we have found a very rich friendship. We do not editorialize on one another's votes. We try to support in every way we can the initiatives of the other. And we have found that the winner is not just our friendship but, much more importantly, the people we serve in the great State of Oregon.

What we do today is announce yet another bipartisan agenda, this one for the 109th Congress, a list of items that are specific, some general, but embark us on an agenda which we think will leave our State better when this Congress goes to sine die.

The common ground we have found in some cases is not on difficult issues, but it includes supporting communities, families, and children. Much work needs to be done to confront Oregon's methamphetamine agenda, including passing the Combating Meth Act and pursuing full funding for the High Intensity Drug Trafficking Area Program.

We will help improve access to higher education by keeping 529 higher education savings tax free.

We will find new ways to alleviate hunger and the causes of hunger for Oregon's economically vulnerable citizens.

A major part of our agenda is aimed at ensuring economic stability and growth. This includes defending Oregon timber producers from unfair trade practices and pressing the administration to work diligently for a new soft wood agreement with our neighbor, the nation of Canada.

We will support our ports so they can remain vibrant. We need to maintain funding for Oregon's smaller ports and work to ensure that the port of Portland's competitiveness in the future is ensured by dredging the Columbia River channel.

Our agenda includes promoting renewable energy and furthering Oregon's status as the premier State for the development of renewable resources through tax and energy legislation.

We will work with our colleagues in the House and the Senate to protect the county payments legislation that brings over $200 million to Oregon counties annually. This is a program that was started with our effort to help vulnerable rural places that have lost timber receipts to have sufficient resources so that their schools can remain open, their streets can remain paved, and their neighborhoods can remain safe.

We will also work with the understanding that a strong economy depends upon affordable power rates. We will stand up against any attempts to force BPA to sell its power at market-based rates or restrict its access to capital for infrastructure investments.

Before I yield to Senator WYDEN, I note for our friends in the media that one of the most significant issues Senator WYDEN has already highlighted on our agenda is our effort to provide for catastrophic insurance. On the issue of health care, our Nation faces a crisis. Certainly the people of Oregon do. I have always believed that in America, and certainly in Oregon, the loss of one's health should not mean the loss of one's home. So what we are going to do together on the Finance Committee is pursue an agenda whereby people in America will have the ability to have in emergency situations health care for catastrophic illnesses so their families are not left destitute and their heirs are not left bankrupted.

I yield now to my colleague, Senator WYDEN.

The ACTING PRESIDENT pro tempore. The Senator from Oregon.

Mr. WYDEN. Madam President, the Senator has summed it up very well. I pick up on his comments with respect to health care. As my friend knows, this has always been my first love, going back to my days with the Gray Panthers. I have been especially proud that Oregon has been a leader in this area, first essentially in home health care, using dollars that could have gone for institutional care for home care, or the Oregon health plan, which began the debate about tough choices.

I particularly want to note with Senator SMITH on the floor this morning that Oregon again is in a position of leading on health care, and that is because my friend and colleague, through an extraordinary effort, has been able to send a message across this country that those on Medicaid, the most vulnerable people in our society, people who always walk an economic tightrope, balancing their food costs against their fuel costs and their fuel costs against their medical bills—because of Senator SMITH's efforts during the budget, there is an opportunity now to renew the protections those vulnerable people have.

He and I agree completely that there are opportunities to promote reforms in Medicaid and we are committed to that, but because of Senator SMITH's effort we are not going to put budget cuts ahead of reforms. So as we go to this discussion about health care, I particularly want to commend my colleague because his leadership on Medicaid is part of the long tradition of Oregon being first in terms of making judgments about health care. I am proud to be able to assist in his efforts.

My colleagues will see that the Medicaid reform commission Senator SMITH envisions and other reforms we have worked on are a big part of our effort.

With respect to catastrophic care, what is so striking about this debate is that experts have known what to do about this issue for years. One can get an awful lot of protection for a relatively small amount of dollars. For example, on any given day in our country, if somebody gets sick in a small business, it essentially blows the whole premium structure for everybody. If just one of the employees, where there is a little store of five or six people, gets sick, then rates skyrocket for everyone.

What Senator SMITH and I are going to do in our catastrophic care bill is spread the risk, look to a way, for example, where Government might pick up a bit of that risk. Democrats have proposed it. Republicans have proposed it. Once there is that kind of risk spreading, instead of what happens now when one person gets sick and everybody pays higher bills, Government picks up a bit of that risk and the costs go down for everybody.

The two of us are on the Senate Finance Committee and we are going to do everything we can to try to bring the committee and the Senate together around these ideas.

Members of both political parties have had good ideas on this for literally a couple of decades. I remember talking about catastrophic care when I had a full head of hair, and we should have done it then. Senator SMITH and I are going to try to tackle it. We will also look at some other issues that have great implications for our State but also for our country overall. One of them involves equity for health care providers.

Today, at a time when we have this demographic revolution, and we are going to have so many more older people, one would think the Federal Government would try to reward providers for doing the right thing, offering good quality care and holding costs down. Instead, the Federal Government sends the opposite message. The Federal Government basically says to Oregon and to other States that are doing a good

job, well, tough luck, folks. Instead of rewarding you, we are going to actually stick it to you. We are going to penalize you and limit your reimbursement in spite of the fact that you provide higher quality, more efficient health care.

We are going to try to change that reimbursement system. It will obviously help our State, but I would submit, if one looks at the challenges for Medicare, the head of the General Accounting Office, David Walker, has said Medicare is seven times as great a challenge as is Social Security. And we cannot afford not to have the Smith-Wyden reforms with respect to reimbursement for health care providers. I am very hopeful we will be able to win support in the Finance Committee and in the Senate for those reimbursement changes as well. They make sense for our State, but they are absolutely critical for our country as well.

In addition to health care, which will be a prime focus of our work, Senator SMITH and I want to make sure we promote the use of innovative technologies, making sure that they are accessible and affordable so as to capture the opportunity to use technology to grow incomes and strengthen our economy. Depreciation will be a topic we will focus on because right now businesses that need new technologies to keep up in tough global markets take a big tax hit if they change their equipment as frequently as they need to in order to keep up with the competition.

We intend to work together on the Finance Committee to change tax laws and be able to accelerate the depreciation of equipment and end the penalties our businesses pay for staying on the cutting edge of our economy.

We also intend to promote nanotechnology to continue to work to make Oregon a national leader in the new small science. Americans are not completely sure what this field is all about. A woman came up to me in a small store in Oregon recently and said: RON, I do not know what this nanology is, but I am glad you are working on it.

The science of small stuff is going to be the wave of the future, and unprecedented collaboration between the public and private sectors has made Oregon one of America's leading microtechnology and nanotechnology centers.

Senator SMITH and I joined to be part of an effort in the Senate to provide billions of dollars for nanotechnology that would create regional centers in this exciting field, and we intend to work to make certain that those efforts receive the Federal attention and credit they deserve.

We will also work to build out broadband and the telecommunications technologies. We intend to work again in the Finance Committee to create appropriate tax incentives that will ensure broadband gets to the four corners of our State, and, of course, to pick up on our theme that what we are doing makes sense for Oregon and for our country.

I submit that the Smith-Wyden effort, as it relates to broadband, technology, and the Web, will be of great benefit to Alaska as well. We are fortunate to have had a good relationship with Senator STEVENS as well who chairs the Senate Commerce Committee.

The last point I make with respect to technology is as we try to bring all of those folks on to the Web and to be part of our Web-based economy, we should not hit them with a variety of new taxes. The bipartisan Internet tax Freedom Act makes it illegal to level double taxes or discriminatory taxes when one surfs the Web or makes Internet purchases. The two of us will be working on our committees, both the Commerce Committee and the Finance Committee, to make the Internet tax moratorium permanent to preserve Web access and Web commerce for the future.

We want to work together with our colleagues, and we have come today to say we want to promote smart solutions, the kind Oregonians and Americans should expect from the Senate.

I will yield back to Senator SMITH so he can close out our joint presentation, and in yielding tell him that in addition to what we are trying to do for our State and the impact I think our ideas will have for the country in a variety of these areas, technology and health care and the issues we have mentioned, I hope what we are doing in the Senate today will be infectious and will cause other Senators to join in these kinds of efforts.

Very often colleagues have come up to Senator SMITH and me and sort of said, what is in the water out there? What are you guys doing? I have never heard of this. We always respond, try it, you will like it. It is not going to be painful.

I see our friend from Oklahoma, Senator INHOFE, who has always been very kind to me in working on infrastructure and other issues, and I will say that in an acrimonious time, when there are certainly divisions, let us try to find every possible way to come together. We realize it is not always possible to do it, but what is exciting about America is we debate issues in a vigorous way. Certainly Senator SMITH and I do not agree on everything under the Sun, but we certainly agree on a lot of critical matters. Even if we do not, we talk about them in a way that we think is respectful and promotes to our citizens the reality that debate can be thoughtful, it can be contemplative, and it does not always have to be about scorched earth kind of politics. I am very pleased that Senator SMITH will conclude for both of us in our joint presentation. I thank him again for all of his efforts to work with me.

When I had a chance to come to the Congress, and Senator JIM INHOFE and I were then Members of the House, I dreamed of having this kind of opportunity to work in a bipartisan way in representing our State, and I thank my colleague for doing so much to make that possible.

I yield to him to wrap up not just on behalf of himself but to wrap up on behalf of both of us.

The ACTING PRESIDENT pro tempore. The Senator from Oregon.

Mr. SMITH. Madam President, I thank the Senator.

I think he said it well. So much can be accomplished if colleagues will focus on the possible instead of the polemic. When we do that, we find that the people's business is moved forward in a positive way and our Nation makes progress.

I conclude with these words: I do not know how long Oregonians will grant me the honor of representing them in the Senate, but I do know for as long as I am in this Chamber and for as long as Senator WYDEN is my colleague, we will continue to look for ways to move beyond partisanship and to continue our partnership for Oregon.

We yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Oklahoma.

Mr. INHOFE. Let me inquire as to what is the regular order?

The ACTING PRESIDENT pro tempore. Senators are permitted to speak for up to 10 minutes in morning business.

Mr. INHOFE. Madam President, I ask unanimous consent I be allowed to speak for up to 20 minutes as in morning business.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

FOUR PILLARS OF CLIMATE ALARMISM

Mr. INHOFE. Madam President, I am returning to the floor, as I have many times in the last few years, to further address what I have considered to be probably the greatest single hoax ever perpetrated on the American people, and that is this thing called global warming. As I noted in my last speech, there is a perception, especially among the media and the environmental elitists, that the scientific community has reached a consensus on global warming. As Sir David King, the chief science adviser to the British Government, recently said:

> There is a very clear consensus from the scientific community on the problems of global warming and our use of fossil fuels.

Those problems amount to rising sea levels, floods, tsunamis, droughts, hurricanes, disease, and mass extinction of species—all caused by the ever-increasing greenhouse gas emissions. The alarmists confidently assert that most

scientists agree with this, and they vehemently dispute claims of uncertainty about whether catastrophes will occur.

It is interesting that most of the people who are talking about gloom and doom on global warming are the same ones, just a few years ago, in the 1970s, who were talking about global cooling, saying that a little ice age is coming and we are all going to die. But today, to question the science of catastrophic global warming is considered illegitimate. Consider Dr. Daomi Oreskes, who wrote in the Washington Post last December:

We need to stop repeating nonsense about the uncertainty of global warming and start talking seriously about the right approach to address it.

Global warming, then, is no longer an issue for scientific debate. It appears to have soared into the realm of metaphysics, reaching the status of revealed truth.

Madam President, this is absurd. Since 1999, almost all scientific data has shown that this whole thing is, in fact, a hoax. More then 17,000 scientists have signed the Oregon Petition—ironically, after listening to the two Senators from Oregon who had excellent presentations—stating that fears of catastrophic global warming are groundless. These and other scientists who do not subscribe to the so-called consensus are condemned as skeptics and tools of industry. Now, in order to avoid professional excommunication, one must subscribe to the four principal beliefs underlying the alarmist consensus. I am going to call these the four pillars of climate alarmism, all of which, it is said, provide unequivocal support for that consensus view.

What I am going to do is talk about all four pillars, but mainly only one today, and then wait a week and let that soak in and then maybe come back and talk about the other three. The four pillars are as follows: The 2001 National Academy of Sciences report summarizing the latest science of climate change, requested by the Bush administration. Pillar No. 2, which we will be talking about later, is the scientific work of the United Nations Intergovernmental Panel on Climate Change, the IPCC—we have heard a lot about that, most especially its Third Assessment Report, released in 2001. The third pillar is the recent report of the international Arctic Climate Impact Assessment. No. 4 is the data produced by climate models.

I will show over the next several weeks that none of these pillars support the consensus view. Today I will begin my four pillars series with the NAS.

Before I delve into the NAS report, some historical CBO context is in order.

Back in 2001 the Kyoto Treaty was on the verge of collapse. President Bush announced his rejection of the Kyoto Treaty, calling it ''fatally flawed in fundamental ways.'' Our friends in Europe expressed outrage, even shock, though it was never in doubt where the United States stood. We have not changed our position.

In 1997, here on the floor of the Senate, we passed by a vote of 95 to nothing the Byrd-Hagel resolution. Primarily, the Byrd-Hagel resolution said if you come back from Kyoto with something that treats developing nations differently from developed nations, then we will reject it, we will not ratify it. Of course, that is exactly what happened. So we are supposed to do all these things, but not China and not Mexico, not the other countries—yet that passed 95 to nothing. There was not one dissenting vote.

On June 11, 2001, President Bush delivered a speech detailing Kyoto's flaws. He also provided an overview of the current state of climate science as described in a report, which he requested, by the National Academy of Science. Although the report offered very modest conclusions about the state of climate science, as described in a report, which he requested, by the National Academy of Sciences. Though the report offered very modest conclusions about the state of climate science, alarmists repeatedly invoke it as ironclad proof of their consensus. So let's take a closer look at what the NAS had to say.

The 2001 NAS report was wide-ranging and generally informative about the state of climate science. It stated that, ''Because there is considerable uncertainty in current understanding of how the climate system varies naturally and reacts to emissions of greenhouse gases and aerosols, current estimates of the magnitude of future warming should be regarded as tentative and subject to future adjustments (either upward or downward).''

Let me repeat that: ''Considerable uncertainty in current understanding.'' ''Estimates should be regarded as tentative and subject to future adjustments.'' Does this sound like solid support for the consensus view? Surely there must be more. Well, in fact there is.

Under the headline ''The Effect of Human Activities,'' the NAS addressed the potential impact of anthropogenic emissions on the climate system. Here's what it said:

Because of the large and still uncertain level of natural variability inherent in the climate record and the uncertainties in the time histories of various forcing agents (and particularly aerosols), a causal linkage between the buildup of greenhouse gases in the atmosphere and the observed climate changes in the 20th century cannot be unequivocally established.

Again, that's worth repeating:

Because of the large and still uncertain level of natural variability . . . [u]ncertainties in the time histories of various forcing agents . . . cannot be unequivocally established.

I read numerous press accounts of the NAS report, yet I failed to come across reporting of this quote. Is this what the consensus peddlers have in mind when they assert that everything is ''settled''?

The NAS also addressed the relationship between climate change and aerosols, which are particles from processes such as dust storms, forest fires, the use of fossil fuels, and volcanic eruptions. To be sure, there is limited knowledge of how aerosols influence the climate system. This, said the NAS, represents ''a large source of uncertainty about future climate change.''

By any conceivable standard, this and other statements made by NAS cannot possibly be considered unequivocal affirmations that man-made global warming is a threat, or that man-made emissions are the sole or most important factor driving climate change. It certainly cannot provide the basis for the United States Congress to adopt economically harmful reductions of greenhouse gas emissions.

It would be a grand folly to do that, especially considering what the NAS had to say about global climate models. The NAS believes much of the uncertainty about climate change stems from those models, which researchers rely on to make projections about future climate changes. These models, as the NAS wrote, contain serious technological limitations that cast doubt on their ability to simulate the climate system:

[the models] simulation skill is limited by uncertainties in their formulation, the limited size of their calculations, and the difficulty of interpreting their answers that exhibit as much complexity as in nature.''

Model projections, as the NAS pointed out, rest on a raft of uncertain assumptions.

Projecting future climate change first requires projecting the fossil-fuel and land-use sources of CO_2 and other gases and aerosols,

the NAS found. ''However, there are large uncertainties''—please note the phrasing again, ''large uncertainties''—

in underlying assumption about population growth, economic development, life style choices, technological change and energy alternatives, so that it is useful to examine scenarios developed from multiple perspectives in considering. strategies for dealing with climate change.

For this reason, simulations produced by climate models provide insufficient proof of an absolute link between anthropoenic emissions and global warming.

The fact that the magnitude of the observed warming is large in comparison to natural variability as simulated in climate models is suggestive of such a linkage, [according to NAS] but it does not constitute proof of one because the model simulations could be deficient in natural variability on the decadal to century time scale.

That last point demands further elaboration and emphasis. The NAS thinks climate models could be off by as much as a decade, or perhaps 100 years. Why is this important? Global climate models constitute one of the Four Pillars. Alarmists frequently point to computer-generated simulations showing dramatic, even scary, pictures of what might happen decades from now: more floods, more hurricanes, more droughts, the Gulf Stream shutting down. In many cases, the media eagerly report what these models produce as pure fact, with little or no explanation of their considerable limitations.

The NAS also addressed the work of the UN's Intergovernmental Panel on Climate Change, another of the Four Pillars. The IPCC's 2001 Third Assessment Report, particularly its Summary for Policymakers, is frequently cited as proof of the consensus view. But the NAS disagrees. ''The IPCC Summary for Policymakers,'' the NAS wrote,

> could give an impression that the science of global warming is settled, even though many uncertainties still remain.

Here again, the NAS is saying the science is not settled.

The NAS also addressed the IPCC's future climate scenarios. These scenarios are the basis for the IPCC's projection that temperatures could increase to between 2.7 to 10.4 degrees Fahrenheit by 2100. The NAS said:

> The IPCC scenarios cover a broad range of assumptions about future economic and technological development, including some that allow greenhouse gas emission reductions. However, there are large uncertainties in underlying assumptions about population growth, life style choices, technological change, and energy alternatives.

Once again, the NAS says ''there are large uncertainties in underlying assumptions.''

The same is true, the NAS said, about future projections of CO_2 emissions. As the NAS stated:

> Scenarios for future greenhouse gas amounts, especially for CO_2 and CO_4, are a major source of uncertainty for projections of future climate.

To bolster the point, the NAS found that actual CO_2 emissions contradicted the IPCC, stating that:

> The increase of global fossil fuel CO_2 emissions in the past decade, averaging 0.6% per year, has fallen below the IPCC scenarios.

There are those troublesome words again: ''Large uncertainties in underlying assumptions.'' ''Major source of uncertainty.''

The NAS also expressed clear reservations about the relationship between carbon dioxide emissions and how they interact with land and the atmosphere:

> How much of the carbon from future use of fossil fuels will be seen as increases in carbon dioxide in the atmosphere will depend on what fractions are taken up by land and by the oceans. The exchanges with land occur on various time scales, out to centuries for soil decomposition in high latitudes, and they are sensitive to climate change. Their projection into the future is highly problematic.

Let me offer one final quote from the study before I turn to the media. Taking stock of the many scientific uncertainties highlighted in the report, the NAS issued explicit advice to guide climate research—advice, by the way, that alarmists reject:

> The most valuable contribution U.S. scientists can make is to continually question basic assumptions and conclusions, promote clear and careful appraisal and presentation of the uncertainties about climate change as well as those areas in which science is leading to robust conclusions, and work toward a significant improvement in the ability to project the future.

I am concerned about the media. I will talk about that in a minute.

People are trying to say that the release of CO_2 is the cause of climate change. These people have to understand that historically it doesn't work out that way. We went into a time right after World War II when we had an 85-percent increase in CO_2 emissions. What happened there was that precipitated not a warming period but a cooling period. Again, that is too logical for some of the alarmists to understand. They want so badly to feel a crisis is upon us.

It is kind of interesting. There is a well-known author, Michael Crichton, who wrote a book, ''State of Fear.'' I recommend that everyone read that. He is a scientist and a medical doctor who wrote this about how horrible things could happen with global warming. After he researched it, he came to the conclusion that it is a hoax. I recommend everyone read that book. It is very revealing. It is very accurate in the way the media and Hollywood are treating things.

It's not surprising that the media distorted and exaggerated the NAS report. The public was told that the NAS categorically accepted that carbon dioxide emissions were the overwhelming factor causing global warming, and that urgent action was needed. One factually challenged CNN reporter said the NAS study represented ''a unanimous decision that global warming is real, is getting worse, and is due to man. There is no wiggle room.'' The New York Times opined that the report reaffirmed ''the threat of global warming, declaring fearlessly that human activity is largely responsible for it.'' Of course, as the preceding quotes from the report show, this is not true.

This is the report we are talking about with all of the qualifications they have. Of course, the proceedings from this report show it is not true. It is an outrageous lie.

Unfortunately, the media wasn't burdened with any actual knowledge of the report. Rather, it seized on a sentence fragment from the report's summary, and then jumped to conclusions that, to be charitable, cannot be squared with the full report. That fragment from the summary reads as follows: ''Temperatures are, in fact, rising. The changes observed over the last several decades are likely mostly due to human activities. . .'' There's the smoking gun, we were told then and even now, proving a global warming consensus.

However, the second part of the sentence, along with much else in the report, was simply ignored. The second part of the sentence reads: ''We cannot rule out that some significant part of these changes is also a reflection of natural variability.''

And as we have seen, it is amazing how one could conclude that the NAS ''left no wiggle room'' that ''global warming is due to man.'' Dr. Richard Lindzen, a professor of meteorology at MIT, and a member of the NAS panel that produced the report, expressed his astonishment in an editorial in the Wall Street Journal on June 11, 2001. Dr. Lindzen wrote that the NAS report showed ''there is no consensus, unanimous or otherwise, about long-term climate trends and what causes them.'' Yet to this day, the media continues to report exactly the opposite.

As I noted earlier, raising uncertainties or questioning basic assertions about global warming is considered ''nonsense.'' I wonder if the same applies to the NAS. For on just about every page of the 2001 report, the NAS did exactly that.

But for the alarmists, global warming has nothing to do with science or scientific inquiry. Science is not about the inquiry to discover truth, but a mask to achieve an ideological agenda. For some, this issue has become a secular religion, pure and simple.

Dr. Richard Lindzen has written eloquently and powerfully on this point, so I will end with his words: ''Science, in the public arena, is commonly used as a source of authority with which to bludgeon political opponents and propagandize uninformed citizens. This is what has been done with both the reports of the IPCC and the NAS. It is a reprehensible practice that corrodes our ability to make rational decisions. A fairer view of the science will show that there is still a vast amount of uncertainty—far more than advocates of Kyoto would like to acknowledge—and that the NAS report has hardly ended the debate. Nor was it meant to.''

This is Dr. Lindzen. No one will question his credibility and his background.

We know the economic damage that will be done to America. We have all talked about the report on the econometrics survey. That survey showed how much energy would increase, should we have to comply with the Kyoto Treaty. It shows it would cost the average American family of four $2,175 a year. So we know how expensive that is. That is all documented.

You might say, Wait a minute. If this is true, if the science is not established and there is that much economic damage to the United States, why are we doing this? I think the answer to that could be given from quoting two individuals. One is not exactly an American hero, Jacques Chirac from France, who said:

Kyoto represents the first component of an authentic governance.

Then some of you may have heard of Margo Wallstrom, the Environmental Minister of the European Union. She said:

Global warming is not about climate. It is about leveling the economic playing field worldwide.

I hope the first pillar has been discredited, and next week we will start with pillar No. 2 in hopes that we can have a wake-up call for the American people—that these same alarmists who were concerned about global cooling two decades ago will quit worrying so much about their own agenda and start looking at the science.

I feel an obligation as chairman of the Environment and Public Works Committee to look at the science. Certainly the Presiding Officer is a valued member of that committee. We have a commitment to look at sound science, as unpopular as it may be.

I yield the floor.

The PRESIDING OFFICER (Mr. DEMINT). The Senator from Missouri.

Mr. BOND. Mr. President, I was pleased to hear the thought-provoking comments of the chairman of the Environment and Public Works Committee. I thank him much for the work he has done there. Some of the things he said reminded me of an analogy to a totally different situation. When somebody was misusing some scientific facts, the comment was, They used the facts like a drunk uses a light post—for support rather than for illumination.

But I look forward to reading the book ''State of Fear'' by Dr. Crichton.

We appreciate the ongoing discussions that we will have.

WATER RESOURCES DEVELOPMENT ACT

Mr. BOND. Mr. President, yesterday I introduced, along with Senators INHOFE, VITTER, WARNER, VOINOVICH, ISAKSON, THUNE, MURKOWSKI, OBAMA, LANDRIEU, GRASSLEY, HARKIN, TALENT, CORNYN, COCHRAN, DOMENICI and COLEMAN, the 2005 Water Resources Development Act, S. 728.

The programs administered by the U.S. Army Corps of Engineers are invaluable to this Nation. They provide drinking water, electric power production, river transportation, environmental protection and restoration, protection from floods, emergency response, and recreation.

Few agencies in the Federal Government touch so many citizens, and with such little recognition by many, I might add, and they do it on a relatively small budget. They provide one-quarter of our Nation's total hydropower output, operate 456 lakes in 43 States, hosting 33 percent of all freshwater lake fishing. They facilitate the movement of 630 million tons of cargo valued at over $73 billion annually through our inland system. They manage over 12 million acres of land and water; provide 3 trillion gallons of water for use by local communities and businesses; and they have provided an estimated $706 billion in flood damage within the past 25 years with an investment one-seventh of that value.

During the 1993 flood alone, an experience which I witnessed firsthand, an estimated $19.1 billion in flood damage was prevented by flood control facilities in place at that time.

Our ports move over 95 percent of U.S. overseas trade by weight and 75 percent by value.

Between 1970 and 2003, the value of U.S. trade increased 24-fold, and 70 percent since 1994. That was an average annual growth rate of 10.2 percent, nearly double the pace of the gross domestic product growth during the same period.

Unfortunately, the American Society of Civil Engineers has issued a grade on our navigable waterways infrastructure. They gave it a D− with over 50 percent of the locks ''functionally obsolete'' despite increased demand.

Recently, a story in the Wall Street Journal warned of the current condition. It begins:

The nation's freight-bearing waterway system, plagued by age and breakdowns, is saddling the many companies that rely on the network with a growing number of supply disruptions and added costs.

While some consider it an anachronism in the age of e-commerce, the system remains vital to a broad swath of the economy, carrying everything from jet fuel and coal to salt and the wax for coating milk cartons. The network stretches 12,000 miles, mostly through the nation's vast web of rivers, and relies on a series of dams and locks, which are enormous chambers that act as elevators for moving barges from one elevation of water to another.

Much of the infrastructure was built early in the last century. It's showing the effects of time and, according to some, of neglect. Old equipment takes longer to repair, and it's more vulnerable to nature's extremes.

The bipartisan bill is one that traditionally is produced by the Congress every 2 years. However, we have not passed a WRDA bill since 2000. The longer we wait, the more unmet needs pile up, the more complicated the demands upon the bill become, making it harder and harder to win approval. For some, the bill is small; for others, it is too big; for some, the new regulations are too onerous; and for others, the new regulations are not onerous enough.

Nevertheless, I believe we have struck a balance here, largely on a bipartisan basis, that disciplines the new projects to criteria fairly applied while addressing a great number of water resource priorities.

With the new regulations, we have embraced a commonsense, bipartisan proposal by Senators LANDRIEU and COCHRAN, similar to the bipartisan House agreement that requires major projects to be subject to independent peer review, and requires, if necessary, mitigation for projects be completed at the same time the project is completed, or, in special cases, no longer than 1 year after project completion. This compromise will impose a cost on communities, particularly smaller communities, but it is not as onerous as the new regulations proposed last year which ultimately prevented a final agreement from being reached between the House and the Senate.

The commanding features of this bill are its landmark environmental and ecosystem restoration authorities. Nearly 60 percent of the bill authorizes such efforts, including environmental restoration of the Everglades, coastal Louisiana, Chesapeake Bay, Missouri River, Long Island Sound, Salton Sea, Connecticut, the Illinois and Mississippi Rivers, and others.

Additionally, we have included the previously introduced bipartisan proposal to modernize the aging locks on the Mississippi and Illinois Rivers, designed 70 years ago for paddlewheel boats.

We should do simply for the future what our predecessors did for the present and build the systems designed to improve our competitiveness, our standard of living, and environmental protection. It does not happen overnight and we have experienced far too much delay already. We spent 12 years and $70 million to complete what was supposed to be a 6-year, $25 million study.

Without a competitive transportation system, the promise of expanded trade and commercial growth is empty, job opportunities are lost, and we will be unprepared for the challenges of this new century.

A lot of people don't appreciate the fact that one medium-sized river barge tow carries the same freight as 870 trucks. That should speak pretty significantly for the efficiency and environmental protection of water transportation.

Eighty years ago, leaders in this Nation wanting to build a better tomorrow made investments in our productive capacity to help our producers ship goods and hire workers. At that time, investments were expensive and controversial. Some even said the investments were not justified. The Corps said they were not satisfied.

But Congress decided otherwise, that it was a better idea to shape the future rather than to try to make unsound predictions of the future.

Eighty million tons of annual cargo later, it is clear Congress was right in that judgment. In the last 35 years, waterborne commerce on the upper Mississippi River has tripled, but the system is not suited to this century. It is a one-lane highway in a four-lane world economy. If we fail to act, we lose and our foreign competitors win, outsourcing jobs by Government paralysis.

Last year, the United States Department of Agriculture chief economist Keith Collins predicted corn exports through the Gulf would grow 45 percent in 10 years. We asked him why he wasn't making a 50-year prediction, which was asked of that ridiculous 12-year, $70 million study. He said nobody in their right mind could make a prediction 50 years in the future and it was taking a lot of assumptions to make a 10-year prediction. But we cannot see the exports grow, we cannot get revenue for our farmers, we cannot strengthen our rural communities and improve our balance of trade if trade is constrained by the transportation straitjacket we currently have.

A good friend of mine from Alma, MO, Neal Bredehoeft, is a soybean producer from Alma, MO, and president of the American Soybean Association. He said yesterday in St. Louis:

While U.S. farmers are fighting to maintain market share in a fiercely competitive global marketplace, our international competitors are investing in transportation infrastructure. Argentina has invested over $650 million in their transportation systems to make their exports more competitive. Brazil is restructuring its water transportation network to reduce the cost of shipping soybeans by at least 75 percent. Due in large part to these efforts, the two countries have captured 50 percent of the total growth in world soybean sales during the past three years.

Making the necessary upgrades to improve the Mississippi and Illinois waterways would also protect jobs. Navigation on the Upper Mississippi and Illinois Rivers supports over 400,000 jobs, including 90,000 high-paying manufacturing jobs.

I appreciate the strong bipartisan support for this proposal and the support from labor, the Farm Bureau, the corn growers, soybean producers, Nature Conservancy, the diverse members of MARC 2000, and other shippers and carriers fighting to protect and build markets in an increasingly competitive marketplace while improving protection for this vital resource.

It is important that we understand the budget implications of this legislation in the real world. We are contending with difficult budget realities currently. It is critical we be mindful of these realities as we make investments in the infrastructure that supports the people in our Nation who make and grow and buy and sell things so we can make our economy grow, create jobs, and secure our future.

This is an authorization bill. It does not spend $1. I repeat, regrettably, it does not spend $1. It merely authorizes the spending. With the allocation provided through the budget, the Appropriations Committee and the Congress and the President will fund such projects deemed to be of the highest priority and those remaining will not be funded because the budget will not permit. Strictly speaking, this bill provides options, not commitments. I wish it were otherwise.

I thank my colleagues on the committee and their staff for the very hard work devoted to this difficult matter. I particularly thank Chairman INHOFE for his forbearance. I believe if Members work cooperatively and aim for the center and not the fringe, we can get a bill completed this year. If demands exist that the bill be away from the center, going to the fringe, imposing unreasonable restrictions, we will go another year with Congress unable to complete our work as we did last year, unable to move forward on the 60 percent of economic and environmental restoration and the 40 percent of building the infrastructure we need to strengthen our economy and make sure we remain competitive in the 21st century.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. LAUTENBERG. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

GAS PRICES

Mr. LAUTENBERG. Mr. President, I understand the State Department bill has currently been laid aside. When it returns, I intend to offer an amendment, and I wanted to take advantage of the opportunity today to talk about it.

My amendment—we are calling it the OPEC Accountability Act—is cosponsored by Senators DURBIN and DORGAN. It will bring some sanity and fairness to the world oil markets. It will help provide some relief to our citizens from soaring gas prices that punish American families, businesses, and the entire community.

My amendment will direct the U.S. Trade Representative to initiate World Trade Organization proceedings against OPEC nations. Under the rules of the WTO, countries are not permitted to set or maintain export quotas. It is illegal. But that is exactly what OPEC does. OPEC is a cartel. Everybody knows that. The whole point of the organization is to set quotas. Why set quotas? To control prices. The mission is often to have countries beholden to them outside their little orbit, and they then are able to outrageously set prices for commodities that are essential. They collude to set quotas for the export of oil, which cause gas prices to rise.

I say to people across America, if you are wondering why gas is so expensive these days, a major part of that answer is OPEC. It is an illegal cartel, plain and simple. And we have allowed this cartel to operate for too long. Now it is time to put a stop to it. Every day American families feel the effects of the OPEC cartel at the gas pump. Look at the spike in the price of gas since 2001. Gas prices have nearly doubled since 2001.

I am going to show another chart that more particularly shows the precise prices for gasoline during those periods. In December of 2001, a gallon of gas averaged in price at $1.15. That was 2001. Today a gallon of gas averages $2.30. That is a doubling of the price in just over 4 years. This spike in gasoline prices hurts American families.

We hear a lot of talk about tax relief for middle-income families. But whatever tax cuts they received in that middle-income family in the last 4 years are being eaten up by increased gas prices. When you look at the gas price in that period of time and compare it to the Bush tax cut, the tax cut would have been $659. But the cost for gasoline the average family used in that year is $780, far more than the tax cut brought home to families.

A middle-income family who uses one tank of gas a week is going to pay an extra $780 a year because of rising gas prices eating up every penny and more that they received from the tax cut of the last 4 years.

When Americans drove up to the gas station on December 2001, this is what they saw: Regular gas $1.06 a gallon; the supreme, the high-test gas, $1.25 a gallon. Now after years of administration inaction, what we are looking at is regular is $2.22 compared to $1.06; $2.31 compared to $1.15 for plus gas; and $2.40 for supreme compared to $1.25 just over 4 years ago. It is an outrage.

One of the things that always bothers me is when I look at the forecast for inflation and I see what we are paying. I can't think of anything that is cheaper than it used to be, whether it is food, energy, or gasoline, no matter what it is. Here is the pressure. Frankly, I believe it has been administered poorly. I don't think we have tried to figure out a way to keep these costs down.

Some of these countries that are members of OPEC are totally dependent on America for their security. Yet they are willing to impair our security, our economic well-being, our job creation, our business function. They don't mind that when they have the weapon that they conveniently use against us.

Most people live on a fixed income. They can't stop driving to their job or taking the kids to school or going to the doctor's office or the grocery store.

They have to pay the increased price for gas. That means they have to cut back on other things, perhaps air-conditioning or heat or a visit to the doctor or perhaps foregoing a therapy session for an injury. All of these are taken away by this outrageous increase in the cost of gasoline.

The soaring price of gas is already taking a toll on American families. If something is not done soon, it could get a lot worse. This also is rattling the prices of stocks on the stock exchange, investments, causing all kinds of dislocation there. It is led by the increasing demand for oil.

Goldman Sachs, a very well known financial firm, one of the biggest in the world, predicts that oil could reach $105 a barrel by the end of this year. It is now in the fifties, almost double the current price. While American families suffer, I don't hear anything coming from the President, the administration, to say anything about it. As a matter of fact, during the last campaign, it was frequently suggested that if John Kerry were President, he would be raising taxes on gasoline.

What are we looking at here? However we got here, it is on the watch of the Bush administration. Here are the prices again. Now it is $2.22 for a gallon of gas. It used to be $1.06. That is a lot of money, particularly since the type of vehicle that is frequently driven today is a gas-consuming vehicle. It costs a lot of money now to have that car running and to take care of your family's needs.

President Bush has repeatedly said that he would talk to his Saudi friends in the oil business. Talk is cheap, but oil and gasoline isn't. The American people want action. This amendment is a call to action. We have to find a way to escape the grasp of these countries around our economic well-being and our functioning as a society.

I have released a report explaining exactly how OPEC nations are violating the rules of the WTO. This report is on my Web site. I invite my colleagues and the public to read it. The report reaches a simple and straightforward conclusion. OPEC manipulates world oil markets by imposing export quotas on oil. You hear them brag about it. These quotas keep the price of oil artificially high. Just think about it. Who is the leader? Which is the country that called on us in 1990, come help us; the Iraqis are headed our way; They want to overtake our country. And we sent 540,000 people in uniform to fight off Iraq's attempt to overtake Saudi Arabia.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. LAUTENBERG. Mr. President, I didn't know there was any time limit, but I ask unanimous consent to continue for 10 minutes.

The PRESIDING OFFICER. The Senate is in morning business.

Is there objection? Without objection, it is so ordered.

Mr. LAUTENBERG. Mr. President, OPEC manipulates world oil markets with their export quotas on oil, which keeps the price artificially high.

Without OPEC, market analysts have estimated that the free market price of oil would be around $10 to $15 lower than today's price. So the expectation is that oil would be lower in cost by $10 to $15 than it is today if it wasn't for this conspiracy out there by some so-called friends and avowed enemies. That includes Iraq and former antagonist of the United States, Libya; and it includes other countries. There is no reason to continue to tolerate OPEC's anticompetitive behavior.

The administration has been lax in dealing with OPEC. In my view, President Bush's close ties to the Saudis and big oil companies have prevented him from sticking up for the American consumers.

Worse yet, high oil prices mean massive profits for countries such as Saudi Arabia and Iran—countries that frequently fund terrorism.

The administration's inaction is allowing tens of billions of dollars to flow into the hands of the mullahs in Iran—money that finds its way to Hamas, Hezbollah, Islamic jihad, and other terrorist organizations that kill innocent Americans.

So while Iran, Saudi Arabia, and terrorists reap profits from OPEC's quotas, American families pay a terribly high price. It is time for us in this body to act. When the Senate returns to the State Department bill, I want to be able to see a vote taken on this issue so that we can see whether my colleagues agree with me that the cost of gasoline is to high, the cost of heating a house is too high, the cost of running a vehicle is too high, and it robs us of revenues that could otherwise go into more useful purposes.

With that, I hope my colleagues will support the Lautenberg-Durbin-Dorgan amendment when this amendment is presented.

I yield the floor.

The PRESIDING OFFICER. The Senator from Vermont is recognized.

Mr. JEFFORDS. Mr. President, I ask unanimous consent to proceed as in morning business for no more than 10 minutes.

The PRESIDING OFFICER. The Senate is in morning business. The Senator from Vermont is recognized.

JUDICIAL INDEPENDENCE

Mr. JEFFORDS. Mr. President, one of my first responsibilities when I arrived in the Senate was to recommend to the first President Bush a nominee for a district court seat. But while I was a relatively new Senator, this was in some respects a fairly easy task.

My predecessor in the Senate, Bob Stafford, had established a sound and fair process with Senator LEAHY for choosing candidates for the judiciary, which we have continued to this day with the participation of Governor Douglas, a Republican.

Vermont is a small State, but it is one with an outsized capacity for public service. Our best lawyers have been willing to accept the financial sacrifice that accompanies serving on the bench. And as a small State, I think it is fairly easy to agree on who the best candidates might be, even though you invariably pass over many very qualified individuals.

Finally, I guess I should say that I was born to it. My father, Olin Jeffords, was a judge the entire time I was growing up. In fact, he was chief justice of the Vermont Supreme Court. He was widely respected, not just by his son, but by our community locally and by the legal community throughout the State. That respect was entirely unremarkable. It reflected the appreciation of the importance of an independent judiciary stocked with able and committed individuals.

My first job following the Navy and law school was as a clerk for Judge Ernest Gibson, Jr., of Vermont. Judge Gibson, a Republican, had resigned as Governor of the State of Vermont in order to accept Harry Truman's offer of nomination to the Federal bench. Judge Gibson could have followed any path in life he wanted. He returned from service in the South Pacific during World War II a hero, and with some fame stemming from having played a role in the rescue of Lieutenant John F. Kennedy and the other survivors of PT–109.

As a young boy, I idolized him and the other heroes returning from the Pacific. To work for him years later was an incredible honor.

So having been around the judiciary all of my life, it was not especially daunting when it came time early in my Senate career to nominate an individual to the Federal district court. The late Fred I. Parker was not only the best candidate for the job, he was also a man I had hired to work with me when I served as attorney general and who had become a close friend over the years. To know Fred was to love him. Years later, when a vacancy on the Second Circuit Court of Appeals opened up, President Clinton nominated Fred to the position to which he was confirmed and served with distinction until his passing.

These three men—a father, a mentor, and a friend—would probably be the first to admit that they were more typical than exceptional of the caliber of individuals that comprise the judiciary. Fred worked hard to pay his way through school, often in the plumbing trade with his father. He was forever mindful of his father's advice that whenever he started becoming convinced of his own importance, he

should stick his fist in a bucket of water to see the kind of impression he would leave.

So I take it very personally when politicians seek to score points by attacking the judiciary. These men had and have families, just like today's judges in Florida and Georgia and Illinois. The only thing we should be doing is condemning violence directed against the judiciary, not rationalizing it or implicitly encouraging it.

Of course, my colleagues will not agree with every decision made by the judiciary. My good friend Fred Parker struck down part of the Brady law that I had supported. I might have disagreed with him, but I never would have questioned his motives or integrity.

The first lesson we teach children when they enter competitive sports is to respect the referee, even if we think he might have made the wrong call. If our children can understand this, why can't our political leaders? We shouldn't be throwing rhetorical hand grenades.

Vermonters are proud of their long history of smart, independent, forward-thinking judges. These men and women have shown the true spirit of the judiciary and upheld the law and Constitution, even if it was against what was the popular will at the time. This is what the judiciary was designed to be, a check and balance against the executive and legislative branches.

Our Founding Fathers were concerned that the legislative and executive branches of our Government could be too swayed by public opinion and not uphold the rights of Americans because of political pressure. The judiciary was designed to be independent and make sure that the law and the Constitution were followed even if it went against public opinion.

I am also concerned with the threat of the majority to take what is the so-called nuclear option. Our form of government is founded on a system of checks and balances, which serves to protect the rights of all individuals. The right in the Senate to unlimited debate is an important part of our system of checks and balances and ensures that on important, critical issues a bipartisan consensus is reached of more than a bare minimum majority of Senators.

I sincerely hope that cooler heads will begin to prevail and my colleagues will tone down the rhetoric they have been using to smear the integrity of the judiciary, and the Republican leadership will reject the divisive and unprecedented so-called nuclear option.

I yield the floor.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. REED. Mr. President, I ask unanimous consent to speak for 10 minutes in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

SOCIAL SECURITY

Mr. REED. Mr. President, I rise to express my deep concern about the negative impact the President's proposals that carve out private accounts will have on our Social Security system and also on our mounting Federal debt and the solvency of our Social Security Program in general and, ultimately, the economic prosperity of the Nation over many years.

President Bush's plan to create private accounts within Social Security would lead to the following, I believe, very unfortunate effects:

It would require a massive increase in Federal debt.

It would weaken the Social Security solvency.

It would not increase national savings and could lower it. National savings is a key function of our economy. Without national savings, we do not have the pool of capital we need for investment, innovation, and economic progress.

Finally, it would sharply cut the guaranteed Social Security benefits under the President's preferred full plan.

Let me go into some detail on these issues, drawing upon the excellent work of the Democratic staff of the Joint Economic Committee. I am very privileged to be the ranking member of the Joint Economic Committee. We have assembled a staff of professionals who have looked at all of these issues in great detail. They have concluded, as I suggested, that there are serious problems, not only in terms of solvency of the fund, not only in terms of the increase in Federal debt, but also large cuts in the guaranteed benefits of all of the beneficiaries. That will be a very unfortunate and, indeed, unnecessary consequence of any proposed reform of Social Security.

Let's take a look at this first chart. It lays out the debt issue with respect to Social Security. First, the President has proposed that his plan for private accounts and Social Security reform would begin in the year 2009. He has put no money into his budget or his long-term budget. Typically, when we budget, we at least look ahead 10 years.

In that first 10-year increment, which would be precisely from 2006 to 2015, there would be an increase of $754 billion as a result of these private accounts. Again, beginning in 2009 and essentially stretching to 2015, you would accumulate almost $1 trillion, $754 billion of debt.

But the real staggering number is the first 20 years of these programs if the private accounts are made law. That increased debt would be $4.9 trillion, an extraordinary amount of money. Again, I believe it is appropriate to look at least 20 years. We are talking about solvency for the fund for 75 years. Just in the 20 years, we would have almost $5 trillion in additional Federal debt.

The other issue that is important to point out is that this debt is on top of existing debt. This chart just describes the rapid increase of Federal debt as a result of private accounts from the year 2010 to the year 2060. By 2060, 35 percent of GDP will be equal to the debt we have accumulated for private accounts. I think we will stop for a moment: 35 percent of GDP; the debt will equal 35 percent of gross domestic product in the year 2060, but add that to current debt, the debt we are funding to operate our Government, and by 2060, the staggering total of debt relative to GDP is 70 percent.

We have not run those debt levels since the end of World War II in which we all know we dedicated every resource we had to defeat the Axis. This is a much different world than 1945 and 1946. In 1945 and 1946, we were at the sanctuary, if you will, of economic productivity for the world. Our infrastructure had not been destroyed. We had tooled up to create the most technologically advanced military force in the world. We quickly transitioned our tanks to Oldsmobiles and Chrysler automobiles and washing machines. Now we are in a world of intense competition, global competition, and if we believe we can live with debt equal to 70 percent of our gross domestic product, I think that is a fanciful notion, but that is the consequence of the President's proposal for private accounts.

The other point we should note, too, is that this proposal for private accounts actually accelerates the insolvency of the Social Security fund. Again, the President's proposal is premised on saving Social Security, of making it more solvent. His private accounts would accelerate the insolvency date. This chart shows current law. Again, it is a function of GDP, but it shows where the fund's assets cross the zero line, and that is about 2042. The President's proposal of private accounts would drive the funds into insolvency much earlier—about 2030. It makes no sense to me, if your goal is to increase the solvency of the fund, to have a proposal that actually weakens solvency. In a sense, searching for an analogy, if the boat is leaking, don't break a big hole in the bottom and have more water come in. That is not the way you save a leaking ship.

Turning away from the charts, let's go to the mathematics of how this all works.

The current Social Security shortfall, an estimate by the trustees, the actuaries of the Social Security Administration, is minus $4 trillion. That is how much money we would have to have today to cover the shortfall for the next 75 years.

Here is what the President's plan for private accounts does: First, it costs $4.7 trillion, so that is an additional $4.7 trillion. But what the President

proposes is that there is essentially a privatization tax, that those private account holders will have to pay back some money at the time they exercise their retirement benefits. That is $3.1 trillion. Still we have a gap of $1.6 trillion, the net cost of the private accounts.

Add that to $4 trillion and now we have a shortfall of $5.6 trillion. We have created a bigger problem; we have not solved the problem.

The next table also suggests the possible consequences on national savings. Again, national savings is a key macroeconomic construct when it comes to progress in terms of our economy because it is from those national savings which we draw the investment capital and resources to train people, to innovate new equipment, to invest in new plant and equipment.

This is what happens, and national savings is a simple function of private savings, what you and I, our households are saving, together with public savings, what the Government is saving. We have stopped saving. We were saving, which means we had a surplus, until 2000, 2001, and now we are in a huge deficit, about $450 billion a year.

Let us see what would happen with these private accounts. First, the public borrows more money. Public savings go down. Private savings go up because we give that money back to people and say now put it into the stock market. The net effect is zero at best, but it could even be worse than that because something could happen in terms of public behavior.

First, they could reduce their current savings saying, well, I do not have to save anymore for contingencies because now I have this private savings plan. It is a possibility. To what extent it happens in reality, it is a projection, but that is a possibility.

The second is early retirements for these funds. My sense is, every time we have constructed some type of retirement benefit we have found ways to allow people to borrow from it for emergencies. We will probably do the same here. But even if those factors do not take place, zero national savings at best. We need to develop policies that encourage national savings. We should not be devoting huge tax cuts for wealthy Americans. We should be devoting tax cuts to encourage average Americans to save more, and we cannot do both if we have a deficit. My preference obviously would be to encourage average Americans to save more.

Now, chart No. 5 walks through the effect on individuals. The President has not offered a plan yet. He has been talking about it around the country, but the suggestions, the intimations are that in order to help address the solvency problem he is going at benefit payments. Essentially, the Commission to Strengthen Social Security put out the blueprint, and this blueprint would suggest cuts in benefits. One proposal was moving away from wage replacement to simple cost-of-living increases in benefits. That would effectively be a cut over time.

If we look at the combination of guaranteed benefits and the best estimates of the yield on private accounts, here is what happens over time. This is from the Congressional Budget Office. The average earner retiring in the year 2005 is protected. I think we recognize that because we have not made a change yet. By 2015, however, if one is participating in private accounts, they are doing worse than this 2005 beneficiary, and it goes down all the way. We can see as the guaranteed benefits decrease, the private accounts do not make up the difference, and this is some of the work of CBO.

So we have a situation that, frankly, is not a good deal for the retirees and not a good deal for the country when the debt is increased so precipitously. More national savings are not encouraged. A situation is created in which the problem is not getting fixed but is being made worse in so many different dimensions.

When we look at this issue of benefit payments, many people fail to recognize that this is not just about retirees. I have a retiree here. There are a significant number of Americans who collect Social Security because they are disabled. They will not have the benefit of private accounts because by definition they cannot work. They are disabled. So they are not going to be taking their paycheck each month and putting it into their private account. All the most vulnerable Americans are going to see is a benefit reduction, and that is not fair. It is not smart either.

Moreover, there is a suggestion that this is just an issue for seniors and that is all. The Social Security Administration has an interesting statistic, at least I found it very interesting. Their estimate is, of the cohort of 20-year-olds who are out there today just joining the workforce, who are healthy and running around, who have no immediate cares for retirement like middle-aged people, that 3 out of 10 will become disabled before they reach 65 years old. So I ask, where are they going to get the disability insurance to cover the benefits that today Social Security pays to people who become disabled? They cannot afford it. They will not buy it. There will be some disability program, but it will not be the kind of program that today provides at least some modicum of support for individuals who have been disabled through no fault of their own.

This is a topic that will be discussed again and again, but it is important to look at these issues and to make a practical and pragmatic assessment. That is what the American people are doing today. They are looking at the proposal of private accounts. They are seeing it jeopardize our economic future and seeing it eventually cut their prospects for retirement or for protection if they become disabled, and they are rejecting it out of hand. I think they should.

We have to continue to keep the focus on this particular proposal.

I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. THOMAS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. SUNUNU). Without objection, it is so ordered.

Mr. THOMAS. Mr. President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. We are in morning business. The Senator is recognized.

SETTING PRIORITIES

Mr. THOMAS. Mr. President, I know we have a lot of things on our minds with some distractions, of course, but I will talk just a moment about some of the things I believe we ought to have as priorities. We need to establish our priorities so that we can work on the things we collectively believe have the most impact and should really be acted upon. Obviously, there are all kinds of ideas among us, and as we talk to people who come to see us and our people at home, why, there are a million things, but there are some that seem to be in need of consideration more quickly.

One of them is energy. We have talked about having an energy policy now for several years. The evidence now is even stronger that we need an energy policy which gives us some kind of insight as to where we need to be in 10 or 15 years so that as we approach the problems, we can discover the things it takes to attain those goals.

Our energy policy has always been a broad policy, as it should be. It has been a policy that talks about conservation, efficiency, alternative sources, renewables, as well as domestic production. Certainly, one of the things that is most important, that the administration and the President has pushed, is to do some work to make sure coal fits into the environment satisfactorily. Coal is our largest fossil fuel, and we ought to be using coal for electric generation rather than some things other than coal, such as gas. Almost all of the generation plants over the last 20 years have been gas, largely because it is more economical to build a smaller plant closer to the market with gas than coal. So not only do we need to do something about the carbon and the exhaust from coal, but we also

have to do something about transmission so that we can economically create electricity at the mine mouth and get it through our transmission system to the market.

We passed a highway bill a number of years ago, and we have never been able to get it completely passed, so we have just passed on the old one. It is certainly more than past time to get a highway bill. There is probably nothing that has more impact on our economy, creates more jobs, and allows for other things to happen in the economy than highways. We certainly need to do that.

Additionally, one of the things that becomes clear, and even more clear as we spend time on Social Security, which we should, is personal savings accounts that people can have for themselves. As I have gone about talking about Social Security, I have always tried to remind folks that Social Security was never intended to be a retirement program. It is a supplement. It is a supplement to the retirement programs that we put together.

There are a number of ways, of course, where there are incentives for savings, whether they be retirement programs or 401(k)s in which the employers participate. Now we have a potential for savings that can be spent earlier than retirement, that could be used for almost anything. One of the real issues is to have medical savings accounts so that we can buy cheaper insurance policies with a higher deductible and, therefore, have some money to pay for that.

There is nothing, perhaps, more important than to get ourselves into a position of people preparing for their own retirement. This Social Security discussion has shown basically what young people could do by putting aside a relatively small amount of money every month and having it earn interest for them.

One of the things I recognize is a little bit regional is the Endangered Species Act. It has been in place for a very long time. In my judgment, it has not been as effective as it could be. I am not for doing away with the Endangered Species Act, but we have roughly 1,300 species listed as endangered and have only recovered about a dozen. So the emphasis has been in the wrong place. We are going to have an opportunity to be able to do that, and it has great impact in many cases. It is kind of used as a land management tool so that we lose the multiple-use aspect of public and even private lands because of endangered species.

There are a lot of things I think we ought to be doing.

Finally, it seems to me that we ought to have a system that takes a look at programs after they have been in place 10 years, or whatever—after they have been there for a while. We should restudy those programs, reanalyze those programs to see if, indeed, the need for them is still what it was when they started; to see if they could be made more efficient after 10 years or, indeed, if they don't need to be there anymore. I know it is very difficult. There gets to be a support group that forms around all the programs that are funded, of course. It becomes difficult to change.

But it is too bad, when we think about it, to pass programs that are spending Federal money and have them out there when there is no longer any need for them or when the time has come where something different needs to be done.

I am hopeful we can get something done. I am thinking about putting something in bill form that will provide a review or oversight of programs that are in place to see if they are still important, to see if they are still being done efficiently, and to see if they could be done a better way or, indeed, need to be done at all.

These are some of the things I think are very important. I hope we try to set some priorities. I understand out of 100 people there are going to be many different ideas, but that is part of our challenge, to put 100 people together and decide what are the five most important issues that impact this country and impact our States.

I hope we can do that and I look forward to that opportunity.

The PRESIDING OFFICER (Mr. ALEXANDER). The Senator from Missouri.

HONORING POPE JOHN PAUL II

Mr. TALENT. Mr. President, I rise today just for a few moments to offer a few words in honor of the life of Pope John Paul II. Much has been said this week, and will be said this week, about his life. I want to pay tribute to him on behalf of all the Missourians who are mourning his passing this week.

The Pope left an indelible mark on the history of mankind and, indeed, of the world. I think the title of George Weigel's biography captured the Pope's work the best. He called him ''A Witness To Hope.'' The moral clarity his leadership provided helped spread democracy and justice around a world that desperately needed it. But even more than that, he brought faith and hope to the empty, to the hopeless, to the last and the least among us.

He was a faithful servant of God, an inspiration to Missourians, to countries and cultures around the world. Certainly he was an inspiration to me. One of the greatest honors I have had in all my years in public life was the opportunity to meet him when he visited Missouri 6 years ago.

As we mourn the Pope's passing, we celebrate his spiritual leadership. I want to say, also, we should celebrate his qualities which most impressed me in the brief moment I had to meet him at that time—I mean his humanness, his courage, his works. Those works for years to come will continue giving people hope for the next world and better lives in this one.

Ms. MURKOWSKI. Mr. President, I rise today, to join my colleagues and the rest of the world in the remembrance of Pope John Paul II.

Since the passing of the Pope, it has often been noted that this Pope was by far the most traveled of any in history—quite possibly the one person seen live by the most people of all time.

We were fortunate in my State to receive the Pope twice, once in Anchorage in 1981 and then again in Fairbanks in 1984. During his Anchorage visit, the Pope celebrated Mass with more than 40,000 Alaskans in a downtown Anchorage park. It was the largest gathering of Alaskans up until that time, and beginning in the cold, wet, early February morning, until his departure, crowds lined the streets and Alaskans strained to get a glimpse of the Pontiff. Always known for his compassion and generosity, the Pope extended his visit in Anchorage more than an hour to meet in private with 150 disabled Alaskans at Holy Family Cathedral.

The Pope's visit to the Fairbanks International Airport was even more momentous, and was transformed into the site of major diplomacy. It was an opportunity for the Pope to meet with President Ronald Reagan, who was returning from overseas and, like the Pope, stopped in Alaska to refuel his aircraft. The President, who had arrived the previous night, was the first to greet the Pope. They visited briefly and then the Pope surprised many by making an unexpected tour through the crowd that waited outside the airport in the drizzling rain.

While in Alaska, the Pope spoke about the unity of faith that binds Alaska's diverse Catholic community—from Native Alaskans to people from all over the world. During his Anchorage stopover, John Paul II even enjoyed a brief ride on a dogsled.

Like many Americans and individuals all over the world, I grieve for the loss of the Holy Father. From his humble beginnings to the principal voice for human rights for over two decades, Pope John Paul II will always be remembered. He was an extraordinary, inspirational and spiritual person and the world is a better place thanks to his service and spiritual leadership.

Mr. LIEBERMAN. Mr. President, I wish to submit for the RECORD today a statement joining my colleagues and my countrymen and women in paying tribute to the departed and beloved Pope John Paul II. I join them in mourning his loss, and I extend my condolences to Roman Catholics in Connecticut and all over the world.

It is impossible to overstate the great sense of loss that is being felt by

the 1 billion Catholics worldwide, but a telling sign of the Holy Father's lasting legacy is that his life and death have touched billions of non-Catholics as well. The Pontiff built bridges to non-Catholics and transformed forever the Church's perception of Jews in particular from a separated people to ''older'' brothers and sisters in faith.

Pope John Paul II's outreach to people of all faiths began when he was a young man. Known to his friends and family as ''Lolek,'' the future Pontiff grew up in Wadowice, Poland, in the 1920s and 1930s. Wadowice was a town of about 7,000, more than 20 percent of whom were Jewish, including young Lolek's best friend, Jurek Kluger.

One of Lolek and Jurek's favorite pastimes was soccer. One day, Jurek went to the Parish church to meet up with Lolek before heading to a soccer match together. A woman in the church expressed her amazement at the sight of a Jewish boy standing next to the altar. To the future Pope, however, it was a natural and effortless interfaith communion. As the young Lolek remarked to the amazed onlooker, ''Aren't we all God's children?''

Pope John Paul II worked to protect all of God's children as a courageous champion of religious freedom and human rights and a tireless advocate for the poor and sick throughout the world. His fervent opposition to the brutal scourge of Nazism was matched by his tireless work to break Eastern Europe free from the oppressive grip of communism.

In June of 1979, 8 months after being elected to take the throne of St. Peter, Pope John Paul II made a triumphant return to Poland. His beloved nation was struggling to survive under the iron fist of Soviet rule. An adoring crowd of 1 million supporters gave him a hero's welcome.

For his fellow Poles, who for decades were deprived of their freedom to worship, the Pontiff had a strong, clear and inspirational message. ''You are men. You have dignity. Don't crawl on your bellies,'' he said. This visit was a crucial turning point in America's Cold War with the Soviet Union.

Working together with the people of Poland and the United States, the Pontiff transformed his homeland into the spiritual battlefront of the Cold War. Forging an allegiance with Lech Walesa, the Pope provided religious support for the anti-communist Solidarity movement. Over the next decade, a tidal wave of the spirit overcame communism in Poland. One by one, the dominoes of Communist oppression fell across Eastern Europe as faith and freedom triumphed. Stalin once mocked the power of the papacy by asking, rhetorically, ''The Pope? How many divisions has he got?'' In one of history's sweet ironies, it was indeed a Pope none other than Pope John Paul II who helped dismantle Stalin's empire, not with divisions of armed soldiers, but legions of faithful followers who yearned to be free.

In another historic trip 22 years later, the Pontiff made a pilgrimage to the Holy Land. He visited Yad Vashem, the Holocaust memorial, where he prayed and met with survivors. On his last day in Jerusalem, he went to the Western Wall of the Temple. There, the Holy Father prayed silently before leaving a small written prayer stuffed into a crack in the wall, surrounded by the thousands of notes and prayers people leave there every day.

During his Papacy, while much of the world could not resist the temptation of moral compromise and material excess, Pope John Paul II remained steadfast in his morality and spirituality. He was a tower of integrity, a role model for everyone who sought to defend their values from the growing culture of moral relativism. In an age of materialism and genocide, he was the world's most consistent advocate of spiritual and humanitarian values.

While the Pope's values remained traditional, his ability to communicate was progressive and modern. He forever revolutionized how the church could spread its teachings. He masterfully used modern technology to bring the church to the world.

In each of the seven languages he spoke, he had a unique ability to touch each one in his presence as if they were the only one to whom he was speaking. The Pope was able to inspire those who came to hear his message to go forth and make the world a better place. On January 4, 2001, he called upon a group of hundreds of believers gathered in St. Peter's Square—including a Roman Catholic member of my own staff, Kenneth Dagliere—to make the most of their God-given potential. ''If you are to be what you are meant to be, you will set the world ablaze,'' he told them. Those words are as autobiographical as they are inspirational.

Much as he did in life, Pope John Paul II provided a life-affirming example of dignity in his death. While we are saddened by his death, we take solace in knowing that he left us peacefully and surrounded by those closest to him in his Papal residence. Outside, in St. Peter's Square, hundreds of thousands of adorers held constant vigil, praying for a man who had touched their lives in a way few ever could. It was a spontaneous outpouring of love for a man who seemed to possess an eternal capacity to spread strength and love wherever he went.

Mr. President, Pope John Paul II leaves behind a lasting legacy of faith and leadership. He will be truly missed by hundreds of millions of God's children throughout the world. I thank the Almighty for giving us the gift of Pope John Paul II. And I thank Lolek, who became Pope John Paul II, for using those gifts to bringing us all closer to God.

Mr. President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MCCONNELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

HONORING OUR ARMED FORCES

FIRST LIEUTENANT DAN THOMAS MALCOM, JR.

Mr. CHAMBLISS. Mr. President, I rise today to honor U.S. Army 1LT Dan Thomas Malcom, Jr., who was killed proudly fighting for his country in Fallujah, Iraq, on November 10, 2004. A marine and Citadel graduate from McDuffie and Miller County, GA, Dan was 24 years old.

First Lieutenant Dan Thomas Malcom, Jr., the son of Dan and Cherrie Malcom, was born April 4, 1979, in Augusta, GA. His father, Dan Senior, was a Marine Corps veteran of combat in Vietnam who tragically was killed in a construction accident just prior to Dan junior's birth. From the earliest age, Dan junior wanted to ''be a Marine like my Daddy''. Raised in McDuffie, then later Miller County, GA, Dan attended Miller County High School where he was a star student.

Dan graduated from the Citadel in Charleston, SC, in 2001 where he was Lima Company executive officer. Dan was well respected by his classmates and known for his attention to his academic and military duties.

Dan was commissioned into the Marine Corps upon graduation. Dan was serving his second tour in Iraq when, on November 10, 2004, he was killed by a sniper in Fallujah, a town infested with insurgents. The details of his death include the following: As the marines of 1st Battalion, 8th Infantry were clearing Fallujah of the insurgents, Dan's platoon was sent to a rooftop to provide supporting fire to marines maneuvering on the enemy. Dan's marines quickly found themselves under sniper attack from a nearby mosque. Dan left his safe position and led his entire platoon down a stair case to safety. As the last one to clear the rooftop, Dan was hit by a deflected bullet which bounced off his helmet. As Dan jumped down the stairwell, he was hit in the lower back by a second shot which killed him instantly.

Dan was buried at Arlington Cemetery on 23 November 2004, where he rested with our Nation's honored dead. Dan Thomas Malcom, Jr., was all that America stands for. By his short life and through his bravery at the end we are enriched. Dan is survived by his mother, Mrs. Cherrie Malcom, and sister, Mrs. Dana Killebrew. It is our hope that the memory of his life will serve as a beacon for others to honor and remember.

Dan Thomas Malcom, Jr., was a great American, a great marine, a great leader, and an outstanding young man. He and his comrades in Iraq deserve out deepest gratitude and respect as they go about the extraordinarily challenging but extraordinarily important job of rebuilding a country which will result in freedom and prosperity for millions of Iraqis. I join with Dan's family, friends, and fellow soldiers in mourning his loss and want them to know that Dan's sacrifice will not be lost or forgotten, but will truly make a difference in the lives of the Iraqi people.

A MATTER OF PRIORITIES

Mr. LEVIN. Mr. President, I would like to bring an editorial from Monday's edition of the New York Times to the attention of my colleagues. The editorial, titled ''Guns for Terrorists,'' is a logical commentary on several potentially dangerous shortfalls in our Nation's gun safety laws that not only potentially allow individuals on terrorist watch lists to buy guns but also require that records related to the sale be destroyed within 24 hours of the purchase.

Under current law, individuals included on Federal terrorist watch lists are not automatically prohibited from purchasing firearms. A report released by the General Accountability Office on March 8, 2005, found that from February 3, 2004, through June 30, 2004, a total of 44 attempts to purchase firearms were made by individuals designated by the Federal Government as known or suspected terrorists. In 35 cases, the transactions were authorized to proceed because federal authorities were unable to find any information in the national instant criminal background check system, NICS, that would prohibit the individual from lawfully receiving or possessing firearms. Current law also requires that records, even in these cases, where known or suspected terrorists successfully purchase firearms, be destroyed within 24 hours.

Learning about a suspected terrorist's purchase of a firearm could potentially be critical to counterterrorism investigators working to prevent a terrorist attack. Common sense tells us that the automatic destruction of documents related to the successful purchase of firearms by individuals on terrorist watch lists would significantly hamper these investigations. I have cosponsored the Terrorist Apprehension RECORD Retention Act. The legislation would require that in cases where a known or suspected terrorist successfully purchased a firearm, records pertaining to the transaction be retained for 10 years. The bill also requires that all NICS information be shared with appropriate Federal and State counterterrorism officials anytime an individual on a terrorist watch list attempts to buy a firearm.

We should be working to pass legislation to close loopholes that allow potential terrorists to buy dangerous weapons like the AK–47 assault rifle, the .50 caliber sniper rifle, and the Five-Seven armor-piercing handgun. We should be working to provide our law enforcement officials with the tools they need to protect our families and communities.

I ask unanimous consent that the April 4, 2005 New York Times editorial titled ''Guns for Terrorists'' be printed in the CONGRESSIONAL RECORD.

There being no objection, the editorial was ordered to be printed in the RECORD, as follows:

[From the New York Times, Apr. 4, 2005]

GUNS FOR TERRORISTS

If a background check shows that you are an undocumented immigrant, federal law bars you from buying a gun. If the same check shows that you have ties to Al Qaeda, you are free to buy an AK–47. That is the absurd state of the nation's gun laws, and a recent government report revealed that terrorist suspects are taking advantage of it. There are a few promising signs, however, that the federal government is considering injecting some sanity into policies on terror suspects and guns.

The Government Accountability Office examined F.B.I. and state background checks for gun sales during a five-month period last year. It found 44 checks in which the prospective buyer turned up on a government terrorist watch list. A few of these prospective buyers were denied guns for other disqualifying factors, like a felony conviction or illegal immigration status. But 35 of the 44 people on the watch lists were able to buy guns.

The encouraging news is that the G.A.O. report may be prodding Washington to act. The F.B.I. director, Robert Mueller III, has announced that he is forming a study group to review gun sales to terror suspects. In a letter to Senator Frank Lautenberg, the New Jersey Democrat, Mr. Mueller said that the new working group would review the national background check system in light of the report. We hope this group will take a strong stand in favor of changes in the law to deny guns to terror suspects.

In the meantime, Senator Lautenberg is pushing for important reforms. He has asked the Justice Department to consider making presence on a terrorist watch list a disqualifying factor for gun purchases. And he wants to force gun sellers to keep better records. Under a recent law, records of gun purchases must be destroyed after 24 hours, eliminating important information for law enforcement. Senator LAUTENBERG wants to require that these records be kept for at least 10 years for buyers on terrorist watch lists.

Keeping terror suspects from buying guns seems like an issue the entire nation can rally around. But the National Rifle Association is, as usual, fighting even the most reasonable regulation of gun purchases. After the G.A.O. report came out, Wayne LaPierre, the N.R.A.'s executive vice president, took to the airwaves to reiterate his group's commitment to ensuring that every citizen has access to guns, and to cast doubt on the reliability of terrorist watch lists.

Unfortunately, the N.R.A.—rather than the national interest—is too often the driving force on gun policy in Congress, particularly since last November's election. Even after the G.A.O.'s disturbing revelations, the Senate has continued its work on a dangerous bill to insulate manufacturers and sellers from liability when guns harm people. If it passes, as seems increasingly likely, it will remove any fear a seller might have of being held legally responsible if he provides a gun used in a terrorist attack.

OMNIBUS EMISSIONS REDUCTION ACT OF 2005

Ms. SNOWE. Mr. President, I rise today in support of S. 730, the Omnibus Emissions Reduction Act of 2005, that has been introduced by Senator LEAHY of Vermont and myself. Our legislation is the only comprehensive legislation that aims to control mercury emissions for all major sources of mercury pollution and stop releases of this toxic pollutant into the environment.

Mercury is a liquid metal that damages the nervous system through ingestion or inhalation, and is a particularly damaging toxic pollutant in the case of pregnant women and children. This is an alarming problem and I am pleased to note that our bill offers much greater protections for the public's health than the recently released Environmental Protection Agency's mercury emissions rule that simply will not get the job done.

Our bill addresses the problem of how mercury pollution gets into our environment. Mercury, which is contained in coal and emitted up through smokestacks into the atmosphere as the coal is burned, is then transported through the air and carried downwind for hundreds and hundreds of miles where, unfortunately for Maine and every State along the way, it falls to Earth in snow and rain. The mercury ends up in our lakes, rivers, and streams where it is then ingested by fish, and in turn by humans when they eat the fish from these freshwater sources.

The legislation directs the Environmental Protection Agency to promulgate mercury emissions standards for unregulated sources on a much more aggressive timetable to reduce mercury emissions as soon as possible. Our bill stops pollution at its source by requiring a ninety percent reduction of mercury emissions from coal-fired powered plants by 2010, rather than by 22 percent by 2010 as the administration's recent rule calls for.

The Leahy-Snowe bill also addresses mercury releases from other sources as well, all the way from commercial and industrial boilers and chlor-alkali plants, to requiring labeling products containing mercury as simple as a mercury thermometer.

Mercury, as we have historically thought of it, brings to mind the ancient Roman messenger of the gods, or the symbol that made us all proud, that of a small Mercury capsule carrying a lone astronaut into space.

Mercury, as we are now coming to know it, is one of the most toxic substances in our environment, causing great neurologic damage if ingested by humans. There is growing concern around the country about mercury contamination, especially in the freshwater lakes in the northeast, and the risk it posses to those most vulnerable: young children, infants, and the unborn.

Mercury emissions are affecting our wildlife as well. In Maine, the beautiful common loon with its haunting call has been known as a symbol of conservation—and even appears on license plates, the cost of which funds conservation efforts. The haunting call is now coming from biologists whose studies show that, besides the threats to humans, the loons and other birds, such as the bald eagle, may now be having trouble reproducing or fighting diseases because of mercury ingestion.

The Leahy-Snowe Act also aims to reduce transboundary atmospheric and surface mercury pollution by directing the EPA to work with Canada and Mexico to inventory the sources and pathways of mercury air and water pollution within North America. The bill dovetails nicely with the actions the State of Maine has taken and also the goals of the Mercury Action Plan of the Conference of Northeast Governors and Eastern Canadian Premiers.

This bill will go a long way towards developing a much needed solution to the problem of mercury emissions in the environment, and I look forward to the day when the fish advisories are lifted on all of our lakes in Maine so that its citizens can enjoy fuller use of their environment, and also reap greater economic benefits from its natural resources. This goal will not be easy to reach as our environment is already impacted with past and current mercury pollution.

However, the Maine Legislature has already taken a significant step toward this goal by establishing a state program to help Maine cities and towns keep mercury products out of the trash. Trash disposal, especially incineration, is one of the primary ways we introduce mercury to the Northeast's environment.

Under Maine law, some mercury products such as thermometers and thermostats had to be labeled beginning in 2002. Also by 2002, businesses were required to recycle the mercury in these products. Starting this year, a similar requirement applies to homeowners.

Maine has taken an excellent step forward to decrease regional mercury pollution, but realistically no one State or region can solve its mercury pollution problems. What is needed is a nationwide information system and controls for mercury releases starting with the largest polluters. We know that polluted air does not stop at State borders or even international boundaries. And, on the horizon is the fact that the burning coal continues to rapidly increase in developing nations around the globe.

I want to thank Senator LEAHY for his hard work in highlighting the problem of mercury emissions through the introduction of this legislation. This introduction will bring the problem before Congress and the public, to spark debate, and to begin a dialogue, especially with those industries that will be affected by any curbs in emissions and from those people most directly affected by the mercury emissions.

I look forward to working with Senator LEAHY and my Senate colleagues to come up with a fair solution and one that will truly protect the public's health from this pervasive toxic mercury pollution problem.

ADDITIONAL STATEMENTS

TRIBUTE TO ENSIGN JAMES RANDOLPH MOTLEY MCMURTRY

● Mr. SANTORUM. Mr. President, today I would like to reflect on the recent passing of Ensign James Randolph Motley McMurtry, a member of the U.S. Navy and a beloved son and friend. Ensign McMurtry tragically died while on vacation in February 2005. The McMurtry family has suffered a tremendous loss, and I offer them my condolences and deepest sympathy during this difficult time.

Ensign McMurtry grew up in Harrisburg, PA, attending the Harrisburg Academy in Wormleysburg. He was an exemplary student and excelled in athletics. As he continued his education at the United States Naval Academy in Annapolis, MD, he served as platoon commander, drill sergeant, and drill officer.

After graduating from the Naval Academy in 2003, Ensign McMurtry was assigned to the Joint Chiefs of Staff of the National Military Command Center at the Pentagon. For all those who worked with Ensign McMurtry at the Pentagon, they knew him as quiet, purposeful, and respectful.

Ensign McMurtry had dedicated his life to protecting the freedom and liberties we hold dear as Americans. I value Ensign McMurtry's courage and patriotism. I am also inspired by this young man's conviction and desire to spend his life serving our Nation. I am deeply saddened that his life ended so tragically.

Ensign McMurtry leaves behind wonderful family, friends, and coworkers. My thoughts and prayers are with those that were blessed to know Ensign McMurtry.●

25TH ANNIVERSARY OF VIETNAM VETERANS OF AMERICA'S FIRST CHAPTER, RUTLAND, VERMONT

● Mr. JEFFORDS. Mr. President. I rise before you in recognition of the 25th anniversary of the very first chapter of Vietnam Veterans of America, which was founded and nurtured in my home town of Rutland, VT.

A quarter-century ago, Vietnam veterans, their families and loved ones were suffering the slings and arrows of anti-Vietnam war sentiment that gripped our Nation. Scant recognition was given to the personal and professional sacrifices of these valiant American young men and women during their service to our country. Officially there was a great deal of denial of the unwarranted price, both physical and emotional, that had been paid by these veterans. It would be decades before post-traumatic stress disorder, PTSD, would be a recognized condition. Many years would also pass before the Federal Government would admit that use of Agent Orange had left a terrible legacy of extreme suffering for our veterans and their families.

The founders of the Vietnam Veterans of America recognized an honorbound duty as an organization to speak directly to these grave needs. The outpouring of enthusiasm from the veterans themselves demonstrated to all Americans the depth of these convictions.

In 1979, during a trip to Vermont, Vietnam Veterans of America founder Bobby Mueller met the late Don Bodette. Don supported the notion of an organization of and for Vietnam-era veterans, but felt that it would only be truly successful if they mobilized locally and established chapters. The power of Don's logic and commitment persuaded Bobby Mueller to adopt this model. On April 13, 1980, Vietnam Veterans of America Chapter One was established in Rutland, VT. Taking up the challenge, Don was joined by Jake Jacobsen, Albert and Mary Trombley, Mike Dodge, Dennis Ross, Clark Howland and Mark Truhan, to name a few.

Over the years, Vietnam Veterans of America has won huge victories in the fight for fair treatment for Vietnam veterans, and has helped ensure that no other class of veteran will ever get that same treatment. The Vietnam Veterans of America's legacy includes recognition of the effects of Agent Orange and other chemical agents of war, the growing body of science around PTSD diagnosis, and aggressive programs to aid the veteran in the struggle to reintegrate after hostilities. All subsequent veterans benefit from the expertise that has been developed by the staff of the Vietnam Veterans of America and their continuing effectiveness in pushing for better funding for VA health care, higher quality service delivery and respect in the community.

In closing, I would like to add my thanks for the tremendous work done by the Vietnam Veterans of America national and local organizations. As a Vietnam-era veteran myself, we all owe a tremendous debt of gratitude to Vietnam Veterans of America Chapter One's visionary founders and the steadfast members who have followed their lead. Thank you for your outstanding service to your fellow veterans and our country. Happy 25th birthday, Chapter One. May you have many more.●

MESSAGE FROM THE PRESIDENT

A message from the President of the United States was communicated to the Senate by Ms. Evans, one of his secretaries.

EXECUTIVE MESSAGE REFERRED

As in executive session the Presiding Officer laid before the Senate a message from the President of the United States submitting a nomination which was referred to the Committee on Armed Services.

(The nomination received today is printed at the end of the Senate proceedings.)

MESSAGE FROM THE HOUSE

At 11:44 a.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 436. An act to amend the Investment Company Act of 1940 to provide incentives for small business investment, and for other purposes.

H.R. 797. An act to amend the Native American Housing Assistance and Self-Determination Act of 1996 and other Acts to improve housing programs for Indians.

H.R. 1025. An act to amend the Fair Debt Collection Practices Act to exempt mortgage servicers from certain requirements of the Act with respect to federally related mortgage loans secured by a first lien, and for other purposes.

H.R. 1077. An act to improve the access of investors to regulatory records with respect to securities brokers, dealers, and investment advisers.

H.R. 1460. An act to designate the facility of the United States Postal Service located at 6200 Rolling Road in Springfield, Virginia, as the ''Captain Mark Stubenhofer Post Office Building''.

MEASURES REFERRED

The following bills were read the first and the second times by unanimous consent, and referred as indicated:

H.R. 436. An act to amend the Investment Company Act of 1940 to provide incentives for small business investment, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

H.R. 797. An act to amend the Native American Housing Assistance and Self-Determination Act of 1996 and other Acts to improve housing programs for Indians; to the Committee on Indian Affairs.

H.R. 1025. An act to amend the Fair Debt Collection Practices Act to exempt mortgage servicers from certain requirements of the Act with respect to federally related mortgage loans secured by a first lien, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

H.R. 1077. An act to improve the access of investors to regulatory records with respect to securities brokers, dealers, and investment advisers; to the Committee on Banking, Housing, and Urban Affairs.

H.R. 1460. An act to designate the facility of the United States Postal Service located at 6200 Rolling Road in Springfield, Virginia, as the ''Captain Mark Stubenhofer Post Office Building''; to the Committee on Homeland Security and Governmental Affairs.

MEASURE HELD AT THE DESK

The following concurrent resolution was ordered held at the desk by unanimous consent:

S. Con. Res. 25. Concurrent resolution expressing the sense of Congress regarding the application of Airbus for launch aid.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC–1526. A communication from the Principal Deputy for Personnel and Readiness, Office of the Under Secretary of Defense, transmitting, pursuant to law, the annual report on entitlement transfers of basic educational assistance to eligible dependents under the Montgomery GI Bill; to the Committee on Armed Services.

EC–1527. A communication from the Inspector General, Department of Defense, transmitting, pursuant to law, a report entitled ''Controls Over the Export Licensing Process for Chemical and Biological Items''; to the Committee on Armed Services.

EC–1528. A communication from the Inspector General, Department of Defense, transmitting, pursuant to law, a report entitled ''Evaluation of the Voting Assistance Program''; to the Committee on Armed Services.

EC–1529. A communication from the Chairman, Nuclear Regulatory Commission, transmitting, a draft of proposed legislation that would amend the Atomic Energy Act of 1954 and in one instance the Omnibus Budget Reconciliation Act of 1990; to the Committee on Environment and Public Works.

EC–1530. A communication from the Chairman, Nuclear Regulatory Commission, transmitting, a draft of proposed legislation that would amend the Atomic Energy Act of 1954; to the Committee on Environment and Public Works.

EC–1531. A communication from the Principal Deputy Associate Administrator, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Approval and Promulgation of Air Quality Implementation Plans: State of Iowa'' (FRL No. 7892–1) received on April 4, 2005; to the Committee on Environment and Public Works.

EC–1532. A communication from the Principal Deputy Associate Administrator, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Approval and Promulgation of Air Quality Implementation Plans: State of Maryland; Revised Definition of Volatile Organic Compounds'' (FRL No. 7891–3) received on April 4, 2005; to the Committee on Environment and Public Works.

EC–1533. A communication from the Principal Deputy Associate Administrator, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Approval and Promulgation of Air Quality Implementation Plans and Operating Permits Program: State of Nebraska'' (FRL No. 7894–1) received on April 4, 2005; to the Committee on Environment and Public Works.

EC–1534. A communication from the Principal Deputy Associate Administrator, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Approval and Promulgation of Air Quality Implementation Plans: District of Columbia, Maryland, Virginia and Pennsylvania; Revised Carbon Monoxide Maintenance Plans for Washington Metropolitan, Baltimore and Philadelphia Areas'' (FRL No. 7894–4) received on April 4, 2005; to the Committee on Environment and Public Works.

EC–1535. A communication from the Principal Deputy Associate Administrator, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Approval of Revisions and Notice of Resolution of Deficiency for Clean Air Act Operating Permit Program in Texas'' (FRL No. 7892–6) received on April 4, 2005; to the Committee on Environment and Public Works.

EC–1536. A communication from the Principal Deputy Associate Administrator, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Federal Implementation Plans under the Clean Air Act for Indian Reservations in Idaho, Oregon and Washington'' (FRL No. 7893–8) received on April 4, 2005; to the Committee on Environment and Public Works.

EC–1537. A communication from the Principal Deputy Associate Administrator, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Limited Approval and Promulgation of Implementation Plans; Texas; Excess Emissions During Startup, Shutdown and Malfunction Activities'' (FRL No. 7892–7) received on April 4, 2005; to the Committee on Environment and Public Works.

EC–1538. A communication from the Chairman, Federal Accounting Standards Advisory Board, transmitting, pursuant to law, a report entitled ''Heritage Assets and Stewardship Land''; to the Committee on Homeland Security and Governmental Affairs.

EC–1539. A communication from the Chairman, Federal Energy Regulatory Commission, transmitting, pursuant to law, the Commission's Fiscal Year 2004 Performance and Accountability Report; to the Committee on Homeland Security and Governmental Affairs.

EC–1540. A communication from the Acting Director, Office of Personnel Management, transmitting, pursuant to law, the Office's annual report for fiscal year 2004; to the Committee on Homeland Security and Governmental Affairs.

EC–1541. A communication from the Chairman, Federal Mine Safety and Health Review

Commission, transmitting, pursuant to law, the Commission's report regarding compliance in the calendar year 2004 with the Government in Sunshine Act; to the Committee on Homeland Security and Governmental Affairs.

EC–1542. A communication from the Deputy Director of Communications and Legislative Affairs, Equal Employment Opportunity Commission, transmitting, pursuant to law, the Commission's Annual Sunshine Act Report for 2004; to the Committee on Homeland Security and Governmental Affairs.

EC–1543. A communication from the Deputy Archivist, National Archives and Records Administration, transmitting, pursuant to law, the report of a rule entitled ''Presidential Records Act Procedures'' received on April 4, 2005; to the Committee on Homeland Security and Governmental Affairs.

EC–1544. A communication from the Acting Senior Procurement Executive, National Aeronautics and Space Administration, General Services Administration, transmitting, pursuant to law, the report of a rule entitled ''Federal Acquisition Regulation; Federal Acquisition Circular 2005–01'' (FAC 2005–1) received on March 24, 2005; to the Committee on Homeland Security and Governmental Affairs.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. KOHL (for himself and Mr. HATCH):

S. 739. A bill to require imported explosives to be marked in the same manner as domestically manufactured explosives; to the Committee on the Judiciary.

By Mr. BINGAMAN (for himself, Mr. LUGAR, Mrs. LINCOLN, Mrs. MURRAY, Mr. KERRY, Ms. CANTWELL, Mr. KOHL, Mr. LAUTENBERG, Mrs. BOXER, and Mr. CORZINE):

S. 740. A bill to amend title XIX and XXI of the Social Security Act to expand or add coverage of pregnant women under the medicaid and State children's health insurance program, and for other purposes; to the Committee on Finance.

By Mr. SMITH (for himself and Mr. WYDEN):

S. 741. A bill to provide for the disposal of certain Forest Service administrative sites in the State of Oregon, and for other purposes; to the Committee on Energy and Natural Resources.

By Ms. SNOWE (for herself, Mr. KENNEDY, Ms. COLLINS, Ms. LANDRIEU, and Mr. REED):

S. 742. A bill to amend the Federal Food, Drug, and Cosmetic Act to preserve the effectiveness of medically important antibiotics used in the treatment of human and animal diseases; to the Committee on Health, Education, Labor, and Pensions.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. FRIST (for himself, Mr. REID, Mr. GRASSLEY, Mr. BAUCUS, Mr. TALENT, Mrs. MURRAY, Ms. CANTWELL, Mr. DURBIN, and Mr. OBAMA):

S. Con. Res. 25. A concurrent resolution expressing the sense of Congress regarding the application of Airbus for launch aid; ordered held at the desk.

ADDITIONAL COSPONSORS

S. 185

At the request of Mr. NELSON of Florida, the name of the Senator from New Mexico (Mr. BINGAMAN) was added as a cosponsor of S. 185, a bill to amend title 10, United States Code, to repeal the requirement for the reduction of certain Survivor Benefit Plan annuities by the amount of dependency and indemnity compensation and to modify the effective date for paid-up coverage under the Survivor Benefit Plan.

S. 267

At the request of Mr. CRAIG, the name of the Senator from North Carolina (Mr. BURR) was added as a cosponsor of S. 267, a bill to reauthorize the Secure Rural Schools and Community Self-Determination Act of 2000, and for other purposes.

S. 304

At the request of Mr. LAUTENBERG, the name of the Senator from Oregon (Mr. WYDEN) was added as a cosponsor of S. 304, a bill to amend title 18, United States Code, to prohibit certain interstate conduct relating to exotic animals.

S. 337

At the request of Mr. GRAHAM, the name of the Senator from Florida (Mr. NELSON) was added as a cosponsor of S. 337, a bill to amend title 10, United States Code, to revise the age and service requirements for eligibility to receive retired pay for non-regular service, to expand certain authorities to provide health care benefits for Reserves and their families, and for other purposes.

S. 362

At the request of Mrs. MURRAY, her name was added as a cosponsor of S. 362, a bill to establish a program within the National Oceanic and Atmospheric Administration and the United States Coast Guard to help identify, determine sources of, assess, reduce, and prevent marine debris and its adverse impacts on the marine environment and navigation safety, in coordination with non-Federal entities, and for other purposes.

S. 495

At the request of Mr. CORZINE, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 495, a bill to impose sanctions against perpetrators of crimes against humanity in Darfur, Sudan, and for other purposes.

S. 537

At the request of Mr. BINGAMAN, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 537, a bill to increase the number of well-trained mental health service professionals (including those based in schools) providing clinical mental health care to children and adolescents, and for other purposes.

S. 619

At the request of Mrs. FEINSTEIN, the names of the Senator from Illinois (Mr. DURBIN), the Senator from South Dakota (Mr. JOHNSON) and the Senator from Massachusetts (Mr. KENNEDY) were added as cosponsors of S. 619, a bill to amend title II of the Social Security Act to repeal the Government pension offset and windfall elimination provisions.

S. 633

At the request of Mr. JOHNSON, the name of the Senator from Nevada (Mr. REID) was added as a cosponsor of S. 633, a bill to require the Secretary of the Treasury to mint coins in commemoration of veterans who became disabled for life while serving in the Armed Forces of the United States.

S. 737

At the request of Mr. CRAIG, the names of the Senator from Illinois (Mr. OBAMA), the Senator from New Mexico (Mr. BINGAMAN), the Senator from Washington (Ms. CANTWELL), the Senator from New Jersey (Mr. CORZINE) and the Senator from Massachusetts (Mr. KERRY) were added as cosponsors of S. 737, a bill to amend the USA PATRIOT ACT to place reasonable limitations on the use of surveillance and the issuance of search warrants, and for other purposes.

S. CON. RES. 17

At the request of Mr. BIDEN, the name of the Senator from Massachusetts (Mr. KERRY) was added as a cosponsor of S. Con. Res. 17, a concurrent resolution calling on the North Atlantic Treaty Organization to assess the potential effectiveness of and requirements for a NATO-enforced no-fly zone in the Darfur region of Sudan.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. KOHL (for himself and Mr. HATCH):

S. 739. A bill to require imported explosives to be marked in the same manner as domestically manufactured explosives; to the Committee on the Judiciary.

Mr. KOHL. Mr. President, I rise today with Senator HATCH to introduce the Imported Explosives Identification Act of 2005. This legislation would require imported explosives include unique identifying markings, just like explosives made here at home.

Domestic manufacturers are required to place identification markings on all explosive materials they produce, enabling law enforcement officers to determine the source of explosives found at a crime scene—an important crime

solving tool. Yet, these same identifying markings are not required of those explosives manufactured overseas and imported into our country. Our legislation would simply treat imported explosives just like those manufactured in the United States by requiring all imported explosives to carry the same identifying markings currently placed on domestic explosives.

This is not a radical idea. We already have similar requirements for firearms. For years, importers and manufacturers have been required to place a unique serial number and other identifying information on each firearm. This is a common sense security measure that we have imposed on manufacturers and importers of firearms. There is no reason not to do the same with respect to dangerous explosives.

These markings can be a tremendously useful tool for law enforcement officials, enabling investigators to quickly follow the trail of the explosives after they entered the country. According to the Bureau of Alcohol, Tobacco, Firearms and Explosives, ATF, marked explosives can be tracked through records kept by those who manufacture and sell them, often leading them to the criminal who has stolen or misused them. At a Senate hearing last year, even FBI Director Mueller recognized the usefulness of markings, saying they ''are helpful to the investigator . . . who is trying to identify the sourc[e] of that explosive.'' Failing to close this loophole unnecessarily impedes law enforcement efforts and poses a significant security risk, and closing it is simple. This bill fixes this problem by requiring the name of the manufacturer, along with the time and date of manufacture, to be placed on all explosives materials, imported and domestic.

ATF first sought to fill this gap in the regulation of explosives when it published a notice of a proposed rulemaking in November 2000. Now, more than 4 years later, this rulemaking still has not been completed. Just last week, ATF again missed its self-imposed deadline for finalizing the rule.

Each year, thousands of pounds of stolen, lost, or abandoned explosives are recovered by law enforcement. When explosives are not marked, they cannot be quickly and effectively traced for criminal enforcement purposes. Each day we delay closing this loophole, we let more untraceable explosive materials cross our borders, jeopardizing our security. Failure to address this very straightforward issue unnecessarily hinders law enforcement's efforts to keep us safe. Because ATF and the Department of Justice have not closed this loophole in a timely manner, it is now incumbent upon us to act.

By Mr. BINGAMAN (for himself, Mr. LUGAR, Mrs. LINCOLN, Mrs. MURRAY, Mr. KERRY, Ms. CANTWELL, Mr. KOHL, Mr. LAUTENBERG, Mrs. BOXER, and Mr. CORZINE):

S. 740. A bill to amend title XIX and XXI of the Social Security Act to expand or add coverage of pregnant women under the medicaid and State children's health insurance program, and for other purposes; to the Committee on Finance.

Mr. BINGAMAN. Mr. President, I rise today to introduce bipartisan legislation with Senators LUGAR, LINCOLN, MURRAY, KERRY, CANTWELL, KOHL, LAUTENBERG, BOXER and CORZINE. This legislation, entitled the ''Start Healthy, Stay Healthy Act of 2005,'' would significantly reduce the number of uninsured pregnant women and newborns by expanding coverage to pregnant women through Medicaid and the Children's Health Insurance Program, or CHIP, and to newborns through the first full year of life.

Today is World Health Day 2005 and the message this year is ''Make Every Mother and Child Count''. I can think of no better way to honor our Nation's mothers and children than to increase their access to health care services and improve their overall health.

According to a recent report by Save the Children entitled ''The State of the World's Mothers,'' the United States fares no better than 11th in the world. Why is this? According to the report, ''The United States earned its 11th place rank this year based on several factors: One of the key indicators used to calculate the well-being for mothers is lifetime risk of maternal mortality. . . . Canada, Australia, and all the Western and Northern European countries in the study performed better than the United States in this indicator.''

The study adds, ''Similarly, the United States did not do as well as the top 10 countries with regard to infant mortality rates.''

In fact, the United States ranks 21st in maternal mortality and 28th in infant mortality, the worst among developed nations. We should and must do better by our Nation's mothers and infants.

There has been long-standing policy in this country linking programs for pregnant women to programs for infants, including Medicaid, WIC, and the Maternal and Child Health Block Grant. Yet the CHIP program, unfortunately, fails to provide coverage to pregnant women beyond the age of 18. As a result, it is more likely that newborns eligible for CHIP are not covered from the moment of birth, and therefore, often miss having comprehensive prenatal care and care during those first critical months of life until their CHIP application is processed.

By expanding coverage to pregnant women through CHIP, the ''Start Healthy, Stay Healthy Act'' recognizes the importance of prenatal care to the health and development of a child. As Dr. Alan Waxman of the University of New Mexico School of Medicine has written, ''Prenatal care is an important factor in the prevention of birth defects and the prevention of prematurity, the most common causes of infant death and disability. Babies born to women with no prenatal care or late prenatal care are nearly twice as likely to [be] low birthweight or very low birthweight as infants born to women who received early prenatal care.''

Unfortunately, according to the Centers for Disease Control and Prevention, New Mexico ranked worst in the nation in the percentage of mothers receiving late or no prenatal care in 2003. The result is often quite costly—both in terms of the health of the mother and newborn but also in terms of the long-term expenses for society since the result can be chronic, lifelong health problems.

In fact, according to the Agency for Healthcare Research and Quality, ''four of the top 10 most expensive conditions in the hospital are related to care of infants with complications (respiratory distress, prematurity, heart defects, and lack of oxygen).'' In addition to reduced infant mortality and morbidity, the provision to expand coverage to pregnant women is cost effective.

The ''Start Healthy, Stay Healthy Act'' also eliminates the unintended federal policy through CHIP that covers pregnant women only through the age of 18 and cuts off that coverage once the women turn 19 years of age. Certainly, everybody can agree that the government should not be telling women that they are more likely to receive prenatal care coverage only if they become pregnant as a teenager.

This bipartisan legislation has been supported in the past by: the March of Dimes, the American Academy of Pediatrics, the American College of Obstetricians and Gynecologists, the What to Expect Foundation, the American Academy of Family Physicians, the American Academy of Pediatric Dentistry, the American Academy of Child and Adolescent Psychiatry, the National Association of Community Health Centers, the American Hospital Association, the National Association of Children's Hospitals, the Federation of American Health Systems, the National Association of Public Hospitals and Health Systems, Premier, Catholic Health Association, Catholic Charities USA, Family Voices, the Association of Maternal and Child Health Programs, the National Health Law Program, the National Association of Social Workers, Every Child By Two, the United Cerebral Palsy Associations, the Society for Maternal-Fetal Medicine, and Families USA.

This legislation is a reintroduction of a bill that was introduced in 2001 and 2003. Throughout 2001, the Administration made numerous statements in support of the passage of this type of legislation, but unfortunately, reversed course in October 2002 after publishing a regulation allowing states to redefine a ''child'' as an ''unborn child'' only and to provide prenatal care, but not postnatal care through CHIP in that manner. In a letter to Senator Nickles dated October 8, 2002, Secretary Thompson argued, ''I believe the regulation is a more effective and comprehensive solution to this issue.''

While a number of senators strongly disagreed with Secretary Thompson's assertion and sent him letters to that effect on October 10, 2002, and on October 23, 2002, we felt it was important to get the testimony of our nation's medical experts on the health and well-being of both pregnant women and newborns. We called for a hearing in the Senate Health, Education, Labor and Pensions Committee on October 24, 2002. Witnesses included representatives from the March of Dimes, the American College of Obstetricians and Gynecologists, the American Academy of Pediatrics, and the What to Expect Foundation. They were asked to compare the regulation to the legislation and I will let their testimony speak for itself.

Dr. Nancy Green testified on behalf of the March of Dimes Birth Defects Foundation. She said:

We support giving states the flexibility they need to cover income-eligible pregnant women age 19 and older, and to automatically enroll infants born to SCHIP-eligible mothers. By establishing a uniform eligibility threshold for coverage for pregnant women and infants, states will be able to improve maternal health, eliminate waiting periods for infants and streamline administration of publicly supported health programs. Currently, according to the Department of Health and Human Services' Centers for Medicare and Medicaid Services and the National Governors' Association, 36 states and the District of Columbia have income eligibility thresholds that are more restrictive for women than for their newborns. Encouraging states to eliminate this disparity by allowing them to establish a uniform eligibility threshold for pregnant women and their infants should be a national policy priority.

Dr. Green adds:

Specifically, we are deeply concerned that final regulation fails to provide to the mother the standard scope of maternity care services recommended by the American College of Obstetricians and Gynecologists (ACOG) and the American Academy of Pediatrics (AAP). Of particular concern, the regulation explicitly states that postpartum care is not covered and, therefore, federal reimbursement will not be available for these services. In addition, because of the contentious collateral issues raised by this regulation groups like the March of Dimes will find it even more difficult to work in the states to generate support for legislation to extend coverage to uninsured pregnant women.

Dr. Laura Riley testified on behalf of ACOG. In her testimony, she stated:

ACOG is very concerned that mothers will not have access to postpartum services under the regulation. The rule clearly states that ''. . . care after delivery, such as postpartum services could not be covered as part of the Title XXI State Plan . . . because they are not services for an eligible child.

On the importance of postpartum care, Dr. Riley adds:

When new mothers develop postpartum complications, quick access to their physicians is absolutely critical. Postpartum care is especially important for women who have preexisting medical conditions, and for those whose medical conditions were induced by their pregnancies, such as gestational diabetes or hypertension, and for whom it is necessary to ensure that their conditions are stabilized and treated.

As a result, Dr. Riley concludes:

Limiting coverage to the fetus instead of the mother omits a critical component of postpartum care that physicians regard as essential for the health of the mother and the child. Covering the fetus as opposed to the mother also raises questions of whether certain services will be available during pregnancy and labor if the condition is one that directly affects the woman. The best way to address this coverage issue is to pass S. 724, supported by Senators BOND, BINGAMAN and LINCOLN and many others, and which provides a full range of medical services during and after pregnancy directly to the pregnant woman.

Dr. Richard Bucciarelli testified on behalf of the American Academy of Pediatrics. He said:

Recently, the Administration published a final rule expanding SCHIP to cover unborn children. The Academy is concerned that, as written, this regulation falls dangerously short of the clinical standards of care outlined in our guidelines, which describe the importance of covering all stages of a birth—pregnancy, delivery, and postpartum care.

It is important to note that the regulation subtracts the time that an ''unborn child'' is covered from the period of continuously eligibility after birth. Consequently, children would be denied insurance coverage at very critical points during the first full year of life. As such, Dr. Bucciarelli expressed support for the legislation over the regulation because it, in his words:

. . . takes an important step to decrease the number of uninsured children by providing 12 months of continuous eligibility for those children born . . . This legislation ensures that children born to women enrolled in Medicaid or SCHIP are immediately enrolled in the program for which they are eligible. Additionally, this provision prevents newborns eligible for SCHIP from being subject to enrollment waiting periods, ensuring that infants receive appropriate health care in their first year of life.

And finally, Lisa Bernstein testified as Executive Director of The What to Expect Foundation, which takes its name from the bestselling What to Expect pregnancy and parenting series that has helped over 20 million families from pregnancy through their child's toddler years. Ms. Bernstein also supported the legislation as a far superior option over the regulation and make this simple but eloquent point:

. . . only a healthy parent can provide a healthy future for a healthy child.

The testimony of these experts speaks for itself and I urge my colleagues to pass this legislation as soon as possible.

I ask unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 740

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Start Healthy, Stay Healthy Act of 2005''.

SEC. 2. STATE OPTION TO EXPAND OR ADD COVERAGE OF CERTAIN PREGNANT WOMEN UNDER MEDICAID AND SCHIP.

(a) MEDICAID.—

(1) AUTHORITY TO EXPAND COVERAGE.—Section 1902(l)(2)(A)(i) of the Social Security Act (42 U.S.C. 1396a(l)(2)(A)(i)) is amended by inserting ''(or such higher percent as the State may elect for purposes of expenditures for medical assistance for pregnant women described in section 1905(u)(4)(A))'' after ''185 percent''.

(2) ENHANCED MATCHING FUNDS AVAILABLE IF CERTAIN CONDITIONS MET.—Section 1905 of the Social Security Act (42 U.S.C. 1396d) is amended—

(A) in the fourth sentence of subsection (b), by striking ''or subsection (u)(3)'' and inserting '', (u)(3), or (u)(4)''; and

(B) in subsection (u)—

(i) by redesignating paragraph (4) as paragraph (5); and

(ii) by inserting after paragraph (3) the following:

''(4) For purposes of the fourth sentence of subsection (b) and section 2105(a), the expenditures described in this paragraph are the following:

''(A) CERTAIN PREGNANT WOMEN.—If the conditions described in subparagraph (B) are met, expenditures for medical assistance for pregnant women described in subsection (n) or under section 1902(l)(1)(A) in a family the income of which exceeds the effective income level (expressed as a percent of the poverty line and considering applicable income disregards) that has been specified under subsection (a)(10)(A)(i)(III) or (l)(2)(A) of section 1902, as of January 1, 2005, but does not exceed the income eligibility level established under title XXI for a targeted low-income child.

''(B) CONDITIONS.—The conditions described in this subparagraph are the following:

''(i) The State plans under this title and title XXI do not provide coverage for pregnant women described in subparagraph (A) with higher family income without covering such pregnant women with a lower family income.

''(ii) The State does not apply an effective income level for pregnant women that is lower than the effective income level (expressed as a percent of the poverty line and considering applicable income disregards) that has been specified under the State plan under subsection (a)(10)(A)(i)(III) or (l)(2)(A) of section 1902, as of January 1, 2005, to be eligible for medical assistance as a pregnant woman.

''(C) DEFINITION OF POVERTY LINE.—In this subsection, the term 'poverty line' has the

meaning given such term in section 2110(c)(5).''.

(3) PAYMENT FROM TITLE XXI ALLOTMENT FOR MEDICAID EXPANSION COSTS; ELIMINATION OF COUNTING MEDICAID CHILD PRESUMPTIVE ELIGIBILITY COSTS AGAINST TITLE XXI ALLOTMENT.—Section 2105(a)(1) of the Social Security Act (42 U.S.C. 1397ee(a)(1)) is amended—

(A) in the matter preceding subparagraph (A), by striking ''(or, in the case of expenditures described in subparagraph (B), the Federal medical assistance percentage (as defined in the first sentence of section 1905(b)))''; and

(B) by striking subparagraph (B) and inserting the following:

''(B) for the provision of medical assistance that is attributable to expenditures described in section 1905(u)(4)(A);''.

(4) ADDITIONAL AMENDMENTS TO MEDICAID.—

(A) ELIGIBILITY OF A NEWBORN.—Section 1902(e)(4) of the Social Security Act (42 U.S.C. 1396a(e)(4)) is amended in the first sentence by striking ''so long as the child is a member of the woman's household and the woman remains (or would remain if pregnant) eligible for such assistance''.

(B) APPLICATION OF QUALIFIED ENTITIES TO PRESUMPTIVE ELIGIBILITY FOR PREGNANT WOMEN UNDER MEDICAID.—Section 1920(b) of the Social Security Act (42 U.S.C. 1396r–1(b)) is amended by adding at the end after and below paragraph (2) the following flush sentence:

''The term 'qualified provider' includes a qualified entity as defined in section 1920A(b)(3).''.

(b) SCHIP.—

(1) COVERAGE.—Title XXI of the Social Security Act (42 U.S.C. 1397aa et seq.) is amended by adding at the end the following:

''SEC. 2111. OPTIONAL COVERAGE OF TARGETED LOW-INCOME PREGNANT WOMEN.

''(a) OPTIONAL COVERAGE.—Notwithstanding any other provision of this title, a State may provide for coverage, through an amendment to its State child health plan under section 2102, of pregnancy-related assistance for targeted low-income pregnant women in accordance with this section, but only if the State meets the conditions described in section 1905(u)(4)(B).

''(b) DEFINITIONS.—For purposes of this title:

''(1) PREGNANCY-RELATED ASSISTANCE.—The term 'pregnancy-related assistance' has the meaning given the term child health assistance in section 2110(a) as if any reference to targeted low-income children were a reference to targeted low-income pregnant women, except that the assistance shall be limited to services related to pregnancy (which include prenatal, delivery, and postpartum services and services described in section 1905(a)(4)(C)) and to other conditions that may complicate pregnancy.

''(2) TARGETED LOW-INCOME PREGNANT WOMAN.—The term 'targeted low-income pregnant woman' means a woman—

''(A) during pregnancy and through the end of the month in which the 60-day period (beginning on the last day of her pregnancy) ends;

''(B) whose family income exceeds the effective income level (expressed as a percent of the poverty line and considering applicable income disregards) that has been specified under subsection (a)(10)(A)(i)(III) or (l)(2)(A) of section 1902, as of January 1, 2005, to be eligible for medical assistance as a pregnant woman under title XIX but does not exceed the income eligibility level established under the State child health plan under this title for a targeted low-income child; and

''(C) who satisfies the requirements of paragraphs (1)(A), (1)(C), (2), and (3) of section 2110(b).

''(c) REFERENCES TO TERMS AND SPECIAL RULES.—In the case of, and with respect to, a State providing for coverage of pregnancy-related assistance to targeted low-income pregnant women under subsection (a), the following special rules apply:

''(1) Any reference in this title (other than in subsection (b)) to a targeted low-income child is deemed to include a reference to a targeted low-income pregnant woman.

''(2) Any such reference to child health assistance with respect to such women is deemed a reference to pregnancy-related assistance.

''(3) Any such reference to a child is deemed a reference to a woman during pregnancy and the period described in subsection (b)(2)(A).

''(4) In applying section 2102(b)(3)(B), any reference to children found through screening to be eligible for medical assistance under the State medicaid plan under title XIX is deemed a reference to pregnant women.

''(5) There shall be no exclusion of benefits for services described in subsection (b)(1) based on any preexisting condition and no waiting period (including any waiting period imposed to carry out section 2102(b)(3)(C)) shall apply.

''(6) Subsection (a) of section 2103 (relating to required scope of health insurance coverage) shall not apply insofar as a State limits coverage to services described in subsection (b)(1) and the reference to such section in section 2105(a)(1)(C) is deemed not to require, in such case, compliance with the requirements of section 2103(a).

''(7) In applying section 2103(e)(3)(B) in the case of a pregnant woman provided coverage under this section, the limitation on total annual aggregate cost-sharing shall be applied to the entire family of such pregnant woman.

''(d) AUTOMATIC ENROLLMENT FOR CHILDREN BORN TO WOMEN RECEIVING PREGNANCY-RELATED ASSISTANCE.—If a child is born to a targeted low-income pregnant woman who was receiving pregnancy-related assistance under this section on the date of the child's birth, the child shall be deemed to have applied for child health assistance under the State child health plan and to have been found eligible for such assistance under such plan or to have applied for medical assistance under title XIX and to have been found eligible for such assistance under such title, as appropriate, on the date of such birth and to remain eligible for such assistance until the child attains 1 year of age. During the period in which a child is deemed under the preceding sentence to be eligible for child health or medical assistance, the child health or medical assistance eligibility identification number of the mother shall also serve as the identification number of the child, and all claims shall be submitted and paid under such number (unless the State issues a separate identification number for the child before such period expires).''.

(2) ADDITIONAL ALLOTMENTS FOR PROVIDING COVERAGE OF PREGNANT WOMEN.—

(A) IN GENERAL.—Section 2104 of the Social Security Act (42 U.S.C. 1397dd) is amended by inserting after subsection (c) the following:

''(d) ADDITIONAL ALLOTMENTS FOR PROVIDING COVERAGE OF PREGNANT WOMEN.—

''(1) APPROPRIATION; TOTAL ALLOTMENT.—For the purpose of providing additional allotments to States under this title, there is appropriated, out of any money in the Treasury not otherwise appropriated, for each of fiscal years 2006 and 2007, $200,000,000.

''(2) STATE AND TERRITORIAL ALLOTMENTS.—In addition to the allotments provided under subsections (b) and (c), subject to paragraphs (3) and (4), of the amount available for the additional allotments under paragraph (1) for a fiscal year, the Secretary shall allot to each State with a State child health plan approved under this title—

''(A) in the case of such a State other than a commonwealth or territory described in subparagraph (B), the same proportion as the proportion of the State's allotment under subsection (b) (determined without regard to subsection (f)) to the total amount of the allotments under subsection (b) for such States eligible for an allotment under this paragraph for such fiscal year; and

''(B) in the case of a commonwealth or territory described in subsection (c)(3), the same proportion as the proportion of the commonwealth's or territory's allotment under subsection (c) (determined without regard to subsection (f)) to the total amount of the allotments under subsection (c) for commonwealths and territories eligible for an allotment under this paragraph for such fiscal year.

''(3) USE OF ADDITIONAL ALLOTMENT.—Additional allotments provided under this subsection are not available for amounts expended before October 1, 2005. Such amounts are available for amounts expended on or after such date for child health assistance for targeted low-income children, as well as for pregnancy-related assistance for targeted low-income pregnant women.

''(4) NO PAYMENTS UNLESS ELECTION TO EXPAND COVERAGE OF PREGNANT WOMEN.—No payments may be made to a State under this title from an allotment provided under this subsection unless the State provides pregnancy-related assistance for targeted low-income pregnant women under this title, or provides medical assistance for pregnant women under title XIX, whose family income exceeds the effective income level applicable under subsection (a)(10)(A)(i)(III) or (l)(2)(A) of section 1902 to a family of the size involved as of January 1, 2005.''.

(B) CONFORMING AMENDMENTS.—Section 2104 of the Social Security Act (42 U.S.C. 1397dd) is amended—

(i) in subsection (a), in the matter preceding paragraph (1), by inserting ''subject to subsection (d),'' after ''under this section,'';

(ii) in subsection (b)(1), by inserting ''and subsection (d)'' after ''Subject to paragraph (4)''; and

(iii) in subsection (c)(1), by inserting ''subject to subsection (d),'' after ''for a fiscal year,''.

(3) PRESUMPTIVE ELIGIBILITY UNDER TITLE XXI.—

(A) APPLICATION TO PREGNANT WOMEN.—Section 2107(e)(1)(D) of the Social Security Act (42 U.S.C. 1397gg(e)(1)) is amended to read as follows:

''(D) Sections 1920 and 1920A (relating to presumptive eligibility).''.

(B) EXCEPTION FROM LIMITATION ON ADMINISTRATIVE EXPENSES.—Section 2105(c)(2) of the Social Security Act (42 U.S.C. 1397ee(c)(2)) is amended by adding at the end the following new subparagraph:

''(C) EXCEPTION FOR PRESUMPTIVE ELIGIBILITY EXPENDITURES.—The limitation under subparagraph (A) on expenditures shall not apply to expenditures attributable to the application of section 1920 or 1920A (pursuant

to section 2107(e)(1)(D)), regardless of whether the child or pregnant woman is determined to be ineligible for the program under this title or title XIX.''.

(4) ADDITIONAL AMENDMENTS TO TITLE XXI.—

(A) NO COST-SHARING FOR PREGNANCY-RELATED SERVICES.—Section 2103(e)(2) of the Social Security Act (42 U.S.C. 1397cc(e)(2)) is amended—

(i) in the heading, by inserting ''OR PREGNANCY-RELATED SERVICES'' after ''PREVENTIVE SERVICES''; and

(ii) by inserting before the period at the end the following: ''or for pregnancy-related services''.

(B) NO WAITING PERIOD.—Section 2102(b)(1)(B) of the Social Security Act (42 U.S.C. 1397bb(b)(1)(B)) is amended—

(i) by striking '', and'' at the end of clause (i) and inserting a semicolon;

(ii) by striking the period at the end of clause (ii) and inserting ''; and''; and

(iii) by adding at the end the following:

''(iii) may not apply a waiting period (including a waiting period to carry out paragraph (3)(C)) in the case of a targeted low-income pregnant woman.''.

(c) EFFECTIVE DATE.—The amendments made by this section apply to items and services furnished on or after October 1, 2005, without regard to whether regulations implementing such amendments have been promulgated.

SEC. 3. COORDINATION WITH THE MATERNAL AND CHILD HEALTH PROGRAM.

(a) IN GENERAL.—Section 2102(b)(3) of the Social Security Act (42 U.S.C. 1397bb(b)(3)) is amended—

(1) in subparagraph (D), by striking ''and'' at the end;

(2) in subparagraph (E), by striking the period and inserting ''; and''; and

(3) by adding at the end the following new subparagraph:

''(F) that operations and activities under this title are developed and implemented in consultation and coordination with the program operated by the State under title V in areas including outreach and enrollment, benefits and services, service delivery standards, public health and social service agency relationships, and quality assurance and data reporting.''.

(b) CONFORMING MEDICAID AMENDMENT.—Section 1902(a)(11) of such Act (42 U.S.C. 1396a(a)(11)) is amended—

(1) by striking ''and'' before ''(C)''; and

(2) by inserting before the semicolon at the end the following: '', and (D) provide that operations and activities under this title are developed and implemented in consultation and coordination with the program operated by the State under title V in areas including outreach and enrollment, benefits and services, service delivery standards, public health and social service agency relationships, and quality assurance and data reporting''.

(c) EFFECTIVE DATE.—The amendments made by this section take effect on January 1, 2006.

SEC. 4. INCREASE IN SCHIP INCOME ELIGIBILITY.

(a) DEFINITION OF LOW-INCOME CHILD.—Section 2110(c)(4) of the Social Security Act (42 U.S.C. 42 U.S.C. 1397jj(c)(4)) is amended by striking ''200'' and inserting ''250''.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies to child health assistance provided, and allotments determined under section 2104 of the Social Security Act (42 U.S.C. 1397dd) for fiscal years beginning with fiscal year 2006.

SUBMITTED RESOLUTIONS

SENATE CONCURRENT RESOLUTION 25—EXPRESSING THE SENSE OF CONGRESS REGARDING THE APPLICATION OF AIRBUS FOR LAUNCH AID

Mr. FRIST (for himself, Mr. REID, Mr. GRASSLEY, Mr. BAUCUS, Mr. TALENT, Mrs. MURRAY, Ms. CANTWELL, Mr. DURBIN, and Mr. OBAMA) submitted the following concurrent resolution; which was ordered held at the desk:

S. CON. RES. 25

Whereas Airbus is currently the leading manufacturer of large civil aircraft, with a full fleet of aircraft and more than 50 percent global market share;

Whereas Airbus has received approximately $30,000,000,000 in market distorting subsidies from European governments, including launch aid, infrastructure support, debt forgiveness, equity infusions, and research and development funding;

Whereas these subsidies, in particular launch aid, have lowered Airbus' development costs and shifted the risk of aircraft development to European governments, and thereby enabled Airbus to develop aircraft at an accelerated pace and sell these aircraft at prices and on terms that would otherwise be unsustainable;

Whereas the benefit of these subsidies to Airbus is enormous, including, at a minimum, the avoidance of $35,000,000,000 in debt as a result of launch aid's noncommercial interest rate;

Whereas over the past 5 years, Airbus has gained 20 points of world market share and 45 points of market share in the United States, all at the expense of Boeing, its only competitor;

Whereas this dramatic shift in market share has had a tremendous impact, resulting in the loss of over 60,000 high-paying United States aerospace jobs;

Whereas on October 6, 2004, the United States Trade Representative filed a complaint at the World Trade Organization on the basis that all of the subsidies that the European Union and its Member States have provided to Airbus violate World Trade Organization rules;

Whereas on January 11, 2005, the European Union agreed to freeze the provision of launch aid and other government support and negotiate with a view to reaching a comprehensive, bilateral agreement covering all government supports in the large civil aircraft sector;

Whereas the Bush administration has shown strong leadership and dedication to bring about a fair resolution during the negotiations;

Whereas Airbus received $6,200,000,000 in government subsidies to build the A380;

Whereas Airbus has now committed to develop and produce yet another new model, the A350, even before the A380 is out of the development phase;

Whereas Airbus has stated that it does not need launch aid to build the A350, but has nevertheless applied for and European governments are prepared to provide $1,700,000,000 in new launch aid; and

Whereas European governments are apparently determined to target the United States aerospace sector and Boeing's position in the large civil aircraft market by providing Airbus with continuing support to lower its costs and reduce its risk: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That—

(1) European governments should reject Airbus' pending application for launch aid for the A350 and any future applications for launch aid;

(2) the European Union, acting for itself and on behalf of its Member States, should renew its commitment to the terms agreed to on January 11, 2005;

(3) the United States Trade Representative should request the formation of a World Trade Organization dispute resolution panel at the earliest possible opportunity if there is no immediate agreement to eliminate launch aid for the A350 and all future models and no concrete progress toward a comprehensive bilateral agreement covering all government supports in the large aircraft sector; and

(4) the President should take any additional action the President considers appropriate to protect the interests of the United States in fair competition in the large commercial aircraft market.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

Mr. INHOFE. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on April 7, 2005, at 10 a.m., to conduct a hearing on ''Regulatory Reform of the Government-Sponsored Enterprises.''

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. INHOFE. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet to conduct a markup on Thursday, April 7, 2005 at 9:30 a.m., in Senate Dirksen Office Building Room 226.

Agenda

I. Nominations: Thomas B. Griffith, to be U.S. Circuit Judge for the District of Columbia Circuit; Terrence W. Boyle II, to be U.S. Circuit Judge for the Fourth Circuit; Priscella R. Owen, to be U.S. Circuit Judge for the Fifth Circuit; Robert J. Conrad, Jr., to be U.S. District Judge for the Western District of North Carolina; and James C. Dever III, to be U.S. District Judge for the Eastern District of North Carolina.

II. Bills: Asbestos; S. 378, Reducing Crime and Terrorism at America's Seaports Act of 2005, Biden, Specter, Feinstein, Kyl, Cornyn; S. 119, Unaccompanied Alien Child Protection Act of 2005, Feinstein, Schumer, Durbin, DeWine, Feingold, Kennedy, Brownback, Specter; and S. 629, Railroad Carriers and Mass Transportation Act of 2005, Sessions, Kyl.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON VETERANS' AFFAIRS

Mr. INHOFE. Mr. President, I ask unanimous consent that the Committee on Veterans' Affairs be authorized to meet during the session of the Senate on Thursday, April 7, 2005, for a hearing to consider the nomination of Mr. Jonathan B. Perlin to be Under Secretary for Health, Department of Veterans' Affairs. The hearing will take place in room 418 of the Russell Senate Office Building at 10 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

SELECT COMMITTEE ON INTELLIGENCE

Mr. INHOFE. Mr. President, I ask unanimous consent that the Select Committee on Intelligence be authorized to meet during the session of the Senate on April 7, 2005 at 2:30 p.m., to hold a closed hearing.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON STRATEGIC FORCES

Mr. INHOFE. Mr. President, I ask unanimous consent that the Subcommittee on Strategic Forces be authorized to meet during the session of the Senate on April 7, 2005, at 2:30 p.m., in open session to receive testimony on ballistic missile defense programs in review of the defense authorization request for fiscal year 2006.

The PRESIDING OFFICER. Without objection, it is so ordered.

MEASURE HELD AT DESK—S. CON. RES. 25

Mr. MCCONNELL. I send a resolution to the desk and ask unanimous consent it be held at the desk.

The PRESIDING OFFICER. Without objection, it is so ordered.

UNANIMOUS CONSENT AGREEMENT—EXECUTIVE CALENDAR

Mr. MCCONNELL. Mr. President, I ask unanimous consent at 5 p.m. on Monday, April 11, the Senate proceed to executive session for consideration of Calendar 38, the nomination of Paul A. Crotty, to be United States District Judge for the Southern District of New York; provided further that there be 30 minutes for debate equally divided between the chairman and the ranking member or designees, and that at the expiration or yielding back of time the Senate proceed to a vote on the confirmation of the nomination, with no intervening action or debate; provided further that following the vote, the President be immediately notified of the Senate's action and the Senate then resume legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

UNANIMOUS CONSENT AGREEMENT—S. 295

Mr. MCCONNELL. Mr. President, I ask unanimous consent the majority leader, after consultation with the Democratic leader, shall, no later than July 27, call up S. 295; that if the bill has not been reported by then by the Finance Committee, it be discharged at that time and that the Senate shall consider it under the following time limitation: that there be 2 hours for debate equally divided between the chairman of the Finance Committee and the Democratic leader or his designee; that no amendments or motions be in order, including committee amendments; that after the use or yielding back of time the bill be read the third time and the Senate proceed to vote on the passage of the bill with no intervening action or debate; provided further that the bill become the pending business when the Senate resumes legislative session after July 26 under the terms and conditions if it has not been considered prior to that time.

Mr. REID. Reserving the right to object, and I will not object, I will say that one of the things we are also working on, and I am willing to go forward without this stage, we were moving along with the colloquy of Senator STABENOW and Senator LINDSEY GRAHAM—I am quite certain that was the cosponsor of the amendment—an amendment dealing with international trade. I spoke to Senator GRASSLEY. Senator GRASSLEY indicated he would be willing to enter into a colloquy with her. That was being prepared when the problem arose with the New York Senators and Senator DODD. As a result of that, the colloquy was never finalized—at least brought to the floor.

I hope when we return to that bill, whenever that might be, we can complete that colloquy because, in fact, what Senator GRASSLEY said is that if the amendment were not filed at this time he would be happy to take a look at it. He has another amendment coming and he basically said he agreed with the content of her amendment, but he didn't agree it should be brought up on this bill. He felt his Finance Committee has jurisdiction.

I want that spread on the record. This does not call for anyone agreeing or disagreeing with what I said, just in the future I hope we can work that out.

Mr. MCCONNELL. Mr. President, prior to the ruling, the proponents of the legislation have also agreed they would withhold offering amendments in committee or on the floor on the subject matter for the duration of this session of Congress as part of this understanding, as well.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDERS FOR MONDAY, APRIL 11, 2005

Mr. MCCONNELL. Mr. President, I ask unanimous consent that when the Senate completes its business today, the Senate stand in adjournment until 2 p.m. on Monday, April 11. I further ask unanimous consent that following the prayer and pledge, the morning hour be deemed expired, the Journal of proceedings be approved to date, the time for the two leaders be reserved, and the Senate then begin a period of morning business with Senators permitted to speak for up to 10 minutes each; provided that at 3 p.m. the Senate proceed to the consideration of H.R. 1268, the Iraq-Afghanistan supplemental appropriations bill, as provided under the previous order.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

PROGRAM

Mr. MCCONNELL. Mr. President, on Monday, the Senate will begin consideration of the Iraq-Afghanistan supplemental. The chairman and ranking member will be here, and we will begin the amending process Monday afternoon. As I announced earlier today, the next rollcall vote will occur at 5:30 Monday afternoon on a district judge, the one we announced a few moments ago. Other votes are possible around that 5:30 time in relation to the supplemental bill.

I say to all of our colleagues, this will be a busy week. This is a big, important piece of legislation. We hope to finish it next week. But in any event, whether we finish it then or not, we are going to have a busy week, with lots of votes throughout the entire week, including the likelihood of night sessions.

ADJOURNMENT UNTIL MONDAY, APRIL 11, 2005, AT 2 P.M.

Mr. MCCONNELL. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that the Senate stand in adjournment under the previous order.

There being no objection, the Senate, at 2:16 p.m., adjourned until Monday, April 11, 2005, at 2 p.m.

NOMINATIONS

Executive nomination received by the Senate April 7, 2005:

DEPARTMENT OF DEFENSE

GORDON ENGLAND, OF TEXAS, TO BE DEPUTY SECRETARY OF DEFENSE,VICE PAUL D. WOLFOWITZ.

EXTENSIONS OF REMARKS

TRIBUTE TO DR. ANDREW MESSENGER, A TRUE FRIEND OF LIBERTY

HON. RON PAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. PAUL. Mr. Speaker, I rise to pay tribute to a friend and patriot, Dr. Andrew L. Messenger, of Riverdale, Michigan.

As a physician, I know Dr. Messenger is the type of doctor all of us would want to have to take care of us. He is capable, loves his work, genuinely cares about his patients, and is always available if someone needs him. In fact, he loves being a doctor so much that he did not retire until this past year at age 83.

Every day he would wake up early to be at the office by 6:45 a.m. He knew that many of his working patients preferred to come in early so he made himself available. Dr. Messenger felt that if he as a doctor was unavailable, he was worthless.

Dr. Messenger also applied this principle to being a father. Leaving the house early in the morning allowed him to spend time with his family in the evenings. Most nights and weekends were spent hunting, fishing, playing at the local playground, and attending athletic events with his six children.

When Dr. Messenger returned home from work, the whole family would sit around the dinner table and discuss personal and newsworthy events of the day. After dinner was done and homework finished, Dr. Messenger would take the kids out to play. Baseball and going to the park were two of the Messenger family's favorite after dinner activities.

His personal involvement in the lives of his children paid off. He has six successful children, three of whom are doctors.

Dr. Messenger lives by the principals of honesty, hard work, and caring for his fellow man, and took great care to instill these same principles into his children.

After raising a family and running a respected practice, Dr. Messenger continues to make a difference not only in his local community and across the United States through his generous support of the Leadership Institute.

When most men embrace the rewards retirement offers, Dr. Messenger pushes on to make a difference in the lives of his countrymen. Dr. Messenger's support of the Leadership Institute gives young people and working professionals the practical tools necessary to advance liberty and protect freedom. Too often freedom has few friends on our college campuses, in our state houses, and in our capitol. Dr. Messenger is providing everyday citizens with the resources necessary to defend the dream of limited government George Washington and the rest of our founding fathers created when they wrote our constitution.

Clearly, Dr. Messenger has not only contributed to society by raising six successful children, he has made provisions for future generations through investing in the long-term mission of the Leadership Institute.

Thank you, Dr. Messenger, for investing in the lives of the future leaders of this country through your faithful and generous support of the Leadership Institute.

PERSONAL EXPLANATION

HON. RON LEWIS

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. LEWIS of Kentucky. Mr. Speaker, I was absent from the House on Tuesday, April 5th due to illness. Had I been present, I would have voted the following way:

H. Res. 108: Commemorating the life of the late Zurab Zhvania, Prime Minister of Georgia, ''yea.''

H. Res. 120: Commending the outstanding efforts by members of the Armed Forces and civilian employees of the Department of State and the United States Agency for International Development in response to the earthquake and tsunami of December 26, 2004, ''yea.''

H. Con. Res. 34: Honoring the life and contributions of Yogi Bhajan, a leader of Sikhs, and expressing condolences to the Sikh community on his passing, ''yea.''

COMMENTING ON THE ONGOING DISPUTE BETWEEN THE HELLENIC REPUBLIC OF GREECE AND THE REPUBLIC OF MACEDONIA

HON. DAN BURTON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. BURTON of Indiana. Mr. Speaker, in 1991, the former nation of Yugoslavia dissolved into a number of independent nation-states, including the Republic of Macedonia. However, international recognition of Macedonia's independence from Yugoslavia was significantly delayed in large part by Greece's objection to the new state's use of what it considered to be a Hellenic name and symbols.

Greece even went so far as to impose a trade blockade against Macedonia, citing unfounded concerns of potential border destabilization within the region and fears of Macedonian territorial expansion. The Greek government even persuaded the United Nations Security Council to pass United Nations Security Council Resolution 845 in 1993, which proclaimed that for all intents and purposes the Republic of Macedonia would be referred to as the ''the former Yugoslav Republic of Macedonia,'' pending the outcome of negotiations between Greece and Macedonia on a permanent name.

Greece finally lifted its trade blockade against Macedonia in 1995, and the two countries have since agreed to normalize relations. Although inexplicable, even after 12 long years of discussion and debate between the representatives of Greece and Macedonia, and a host of international mediators, differences over Macedonia's official name remain.

Recently, last November, the United States joined 108 other nations in officially recognizing the constitutional name of the Republic of Macedonia. America's official recognition of the Republic of Macedonia should be seen as a clear message to both sides that this dispute over the name has simply gone on too long.

A new, accelerated round of discussions between officials from Greece and Macedonia—mediated by United States diplomat and United Nations mediator Matthew Nimitz—is scheduled to start before the end of April. For the good of bilateral relations, as well as broader regional stability, I urge both sides, Greek and Macedonian, to work together in a spirit of friendship and open-mindedness with UN envoy Matthew Nimitz, and ultimately conclude this emotionally-embroiled dispute in a mutually acceptable, desirable, and expedient way.

Mr. Speaker, Greece and Macedonia have more to gain by settling this dispute and working together to bring the people and governments of the region into the larger community of nations than they do by continuing this destabilizing dispute. I hope that both sides will seize this opportunity to do the right thing at the April talks and work together to bring this matter to a peaceful conclusion.

RECOGNIZING BAY CITY UNIFICATION ANNIVERSARY

HON. DALE E. KILDEE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. KILDEE. Mr. Speaker, I am happy to rise before you today, and to ask my colleagues in the 109th Congress to join me in celebrating the 100th anniversary of the unification of Bay City, Michigan. This momentous occasion will be marked by a series of events to take place on Sunday, April 10, 2005.

In 1857, a village, made up of land once used as a campground for the Chippewa Indians, was formed east of the Saginaw River. In 1865, this village, known as Bay City, was formally incorporated as a city. The years that followed saw other villages established in the area, including several to the west of the river. In 1877, three of these communities-Banks,

Salzburg, and Wenona, consolidated and formed West Bay City. The two communities coexisted and thrived with separate mayors, city councils, police and fire departments, schools, public utilities, and city services, until a campaign to unite the two began, with the hopes that a larger city would increase revenue and promote expansion.

After several consolidation referenda, as well as actions on the part of the Michigan Legislature, the concept of a united Bay City became reality on April 10, 1905, when a common council, consisting of 34 aldermen from 17 wards in the combined city convened and made history.

Mr. Speaker, in the 100 years since the unification of Bay City and West Bay City, we have seen a town rise from a collection of small lumber villages to one of Michigan's largest and most vibrant cities. The shipyards and sawmills of the past have given way to worldwide corporations that create opportunities each day. Bay City's rich heritage is seen in its renowned architecture and diverse history. For generations, the kind hearts and friendly manner of the residents have made Bay City a warm welcoming community. They are the true nucleus of the city.

I would also like to acknowledge the efforts of Mr. Robert Belleman, City Manager, for his vision in recognizing the need to acknowledge this milestone in Bay City's history. I am proud to call him my colleague, my constituent, and my friend.

Mr. Speaker, once again I ask my colleagues to join me in congratulating Bay City, Michigan on the 100th anniversary of its unification.

HONORING THE CONTRIBUTIONS OF BEXAR COUNTY JUDGE KEITH BAKER

HON. HENRY CUELLAR

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. CUELLAR. Mr. Speaker, I rise to recognize Judge Keith Baker for his long standing career of service to his country and community.

A Vietnam veteran who had served at Cam Ranh Bay and Chu Lai, Mr. Baker is no stranger to dedicated commitment and sacrifice for his country. During his stay at Chu Lai, Keith Baker worked at the Adjutant 27th Surgical Hospital. He helped to serve our troops where his assistance was greatly needed.

Having started a distinguished law career in the field of law in 1973, Keith Baker has over 30 years experience serving the needs of our citizens. He has also authored numerous articles for the American Bankruptcy Institute Journal. Mr. Baker additionally serves as Trustee to numerous community organizations, including the Texas Military Institute, the Texas Bar Foundation, the North San Antonio Chamber of Commerce, and the San Antonio Manufactures Association.

Judge Baker was first elected in Bexar County as Justice of the Peace in 1982. A dedicated civil servant, Judge Baker works hard for our communities. He specializes in misdemeanor criminal cases, civil cases involving our businesses, consumer cases, and tort.

Mr. Speaker, Judge Keith Baker is an exemplary public servant. I am proud to have the opportunity to thank him here today for all he has done for his fellow Texans.

VISA DENIAL TO INDIAN OFFICIAL LEADS TO BURNING OF PEPSI PLANT

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. TOWNS. Mr. Speaker, as you know, the United States government denied a visa to Narendra Modi, Chief Minister of Gujarat, due to the state government's complicity in the massacre of Muslims there and his insensitive statements about minorities. His visa was revoked under the law that prohibits those responsible for violations of religious freedom from getting visas. This was the right thing to do, and I salute those who made this decision.

According to the March 25 issue of India-West, the denial of a visa to Mr. Modi was met with attacks from the Indian government. Prime Minister Manmohan Singh, who, as a Sikh, is a member of a religious minority himself, complained in Parliament that "we do not believe it is appropriate . . . to make a subjective judgment question a constitutional authority in India." The Foreign Ministry said that the denial of Mr. Modi's visa "is uncalled for and displays lack of courtesy and sensitivity toward a constitutionally elected chief minister of a state of India." Of course, they completely neglected to mention Mr. Modi's lack of courtesy and sensitivity towards the 2,000 to 5,000 Muslims killed in the riots that his government helped organize. India's Human Rights Commission held Mt. Modi and his government responsible for the massacre.

The Indian government officially stated that the decision showed "a lack of courtesy and sensitivity" and that their "sovereignty" was violated by the decision. This is the standard argument of tyrants. It is the argument countries like Red China make when they are criticized.

On March 19 in New Delhi, India-West reported, fanatical Hindu nationalist fundamentalists affiliated with the militant organization Bajrang Dal rioted against the United States because Mr. Modi was denied his visa. They barged into a Pepsi-Cola warehouse, smashed bottles of Pepsi, and set fire to the building. The warehouse was partially burned. About a dozen workers fled. The rioters also ransacked a nearby Pepsi office. Another group protested the U.S. consulate in Bombay. They carried signs reading "Down With the United States." Some Bajrang Dal members tried to enter the visa application center in Ahmedabad. Modi himself said, "Let us pledge to work for such a day that an American would have to stand in line for entry into Gujarat." He accused the United States of trying to "impose its laws on other countries." He urged India to deny visas to American officials.

Mr. Speaker, this is just the latest chapter in India's ongoing repression of its minorities, which has been well documented in this House over the years, and its virulent hatred of America. Why do we spend our time, energy, and money supporting such a country?

The time has come to hold India's feet to the fire. Denying Mr. Modi a visa was simply a small first step, and a good one. We must do more. The time has come to stop our aid and trade with India until all people enjoy the full flower of human rights and to support self-determination for all the peoples and nations seeking their freedom through a free and fair plebiscite. The essence of democracy is the right to self-determination. As the world's oldest and strongest democracy, it is up to the United States to take fhese measures in support of freedom for all.

Mr. Speaker, I would like to place the India-West article of March 25 into the RECORD at this tIme.

[From the India-West, Mar. 25, 2005]

PEPSI WAREHOUSE BURNED IN VISA DENIAL UPROAR—Continued from page A1

The riots were sparked by the burning of a train coach by Muslims in Godhra, killing 59 Hindu kar sevaks.

Modi was denied a diplomatic visa to travel to the United States and his existing tourist/business visa was revoked under the U.S. Immigration and Nationality Act that bars people responsible for violations of religious freedom from getting a visa.

Modi had been scheduled to address a gathering of Indian American groups and motel owners in New York, Florida and in New Jersey.

India slammed the decision, saying it showed a ''lack of courtesy and sensitivity,'' and Prime Minister Manmohan Singh criticized the American decision in Parliament.

''The American government has been clearly informed . . . we do not believe that it is appropriate to use allegations or anything less than due legal process to make a subjective judgment to question a constitutional authority in India,'' Singh told the Rajya Sabha.

Responding to opposition leader Jaswant Singh's submission that the decision was unacceptable, Manmohan Singh said, ''We agree that this is not a matter of partisan politics, but rather a matter of concern over a point of principle. Our prompt and firm response clearly shows our principled stand in this matter.''

Earlier, Indian officials summoned Ambassador Mulford's deputy Robert Blake ''to lodge a strong protest.''

''This action . . . is uncalled for and displays lack of courtesy and sensitivity toward a constitutionally elected chief minister of a state of India,'' the Foreign Ministry said in a statement, expressing the government's ''deep concern and regret.''

The U.S. stood by its decision after a review sought by India. Mulford, who was out of town when the news broke March 18, said the U.S. decision was aimed at Modi alone, and not Gujaratis. He also denied it would affect ties with India.

In Washington, State Department spokesman Adam Ereli said the U.S. response was based on a finding by India's National Human Rights Commission that held Modi's government responsible for the 2002 Hindu-Muslim violence in the state, India's worst in a decade.

The decision led to widespread uproar in parts of Gujarat. A day after the decision,

nearly 150 Bajrang Dal activists barged into the warehouse of U.S.-based PepsiCo in the Surat, smashed bottles and set fire to the place, said Dharmesh Joshi, a witness. The warehouse was partially burned.

A witness said about a dozen workers at the warehouse fled during the attack and firefighters doused the flames.

The protesters also ransacked a nearby PepsiCo office and demonstrated outside the American consulate in Mumbai. Some carried placards reading: ''Down with the United States,'' ''Boycott the U.S. goods and the Americans.''

Up to 150 Bajrang Dal activists also tried to enter the U.S. visa application center in Ahmedabad but were turned back by police.

Modi called the U.S. decision ''an insult to India and its Constitution.'' In a public address in Ahmedabad, he lashed out at the United States.

''A man from Gujarat was thrown out of a train in South Africa. This led to a movement that overthrew the British Empire,'' Modi thundered, in a reference to Mahatma Gandhi. ''Let us pledge to work for such a day that an American would have to stand in line for entry into Gujarat,'' he added.

''The United States can't impose its laws on other countries. In the same way, India should deny visas to U.S. officials as a protest against Washington's policies in Iraq,'' Modi said.

''On what basis has the U.S. decided this?'' Modi asked. ''Where has the U.S. got its information from? The American government should know that every state in India is ruled by the Constitution and no one can violate that. No court has indicted the Gujarat government or the CM of complicity in the incidents that took place in the state.''

If the Pakistani president and the Bangladesh prime minister could visit the U.S., two countries in which minorities have suffered, Modi said he could be admitted too.

TRIBUTE TO SHERMAN W. DREISESZUN

HON. DENNIS MOORE

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. MOORE of Kansas. Mr. Speaker, I rise today to pay tribute to Sherman W. Dreiseszun, of Leawood, Kansas, who on May 14, 2005, at Kehilath Israel Synagogue of Overland Park, Kansas, will celebrate his Second Bar Mitzvah.

On May 25, 1935, at Voliner Synagogue of Overland Park, Sherman W. Dreiseszun, the son of Sam and Bertha Dreiseszun, was called to the Torah to celebrate his Bar Mitzvah and take his place as an adult in the Jewish Community.

The Old Testament defines a person's life as three score and ten (seventy years). Since the age of Bar Mitzvah is thirteen, when a man has the good fortune to reach his eighty-third birthday, he has earned the right to celebrate his Second Bar Mitzvah.

Sherman's commitment to Judaism and to Kehilath Israel Synagogue was deeply rooted in the promise he made during his service in World War II. Sherman was a waist gunner in the Air Force, and the plane to which he was assigned was forced to ditch in the Atlantic. While in the ocean, hoping to be rescued, Sherman pledged that if he was saved from that peril, he would commit himself to Judaism, his Synagogue, and to the Jewish community.

Sherman made good on that promise, first by becoming the youngest President of Kehilath Israel to ever hold that position in 1959 and 1960, and then being re-elected President in 1978 for an additional term. He has worked for and led numerous organizations, reaching out to improve individual lives in the Jewish community. Sherman's dynamic work on behalf of Kehilath Israel, the Jewish community and the overall Kansas City community has created a new face for the entire metropolitan landscape.

Sherman has been the backbone and the lifeline for Kehilath Israel Synagogue. To show the respect that the congregation has for Sherman, he has been designated as Honorary President for Life.

On July 7, 1946, Sherman married Irene Friedman. Irene and Sherman will be celebrating their 59th wedding anniversary this summer. Irene also will be celebrating her 80th birthday on August 25, 2005.

Irene and Sherman are the parents of the late Barbara Dreiseszun, the late Richard Dreiseszun; daughter-in-law Gail Dreiseszun of Shawnee Mission, Kansas; and of daughter and son-in-law Helone and Marshall Abrams of Denver, Colorado. Their grandchildren Brooke and James Levy and Erica and Evan Fisher all reside in New York City.

Mr. Speaker, I thank you for this opportunity to pay public tribute to Sherman W. Dreiseszun, who has been the backbone and the lifeline of both his Synagogue and his community at large. I congratulate him on his upcoming Second Bar Mitzvah and congratulate him and Irene on their upcoming 59th anniversary.

IN HONOR OF SIBLINGS DAY

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mrs. MALONEY. Mr. Speaker, I rise today to salute Siblings Day, a day to honor our brothers and sisters for the many ways in which they enhance our lives. This celebration gives us the opportunity to show our appreciation for our siblings, much like Mother's Day and Father's Day are celebrated. Siblings Day was founded by my constituent, Claudia Evart. Ms. Evart has worked tirelessly to promote the observance of Sibling's Day on April 10th.

Siblings make important contributions to our lives, and often, when our parents have passed away, siblings are our only remaining family. Siblings Day helps us remember the integral role brothers and sisters play in our lives, and it also provides an opportunity to remember siblings who we have lost at an early age.

April 10th marks the birthday of Claudia's sister, Lisette, who died tragically in 1972 at age 19 in a car accident that also killed their father. An additional tragedy struck in 1987, when Ms. Evart's older brother, Alan, died in an accident at his home. He was 36 years old.

According to the Siblings Day Foundation, Siblings Day was recently marked in 22 states (Arkansas, Colorado, Connecticut, Florida, Illinois, Kansas, Maine, Maryland, Massachusetts, Michigan, Missouri, Mississippi, Nebraska, New Hampshire, New Jersey, New Mexico, Pennsylvania, Rhode Island, South Carolina, Virginia, West Virginia, and Wisconsin); the governor of each of these states proclaimed the 10th of April to be Siblings Day.

I ask my colleagues to join me in recognizing the importance of family by saluting the contributions of siblings. I applaud the work of Claudia Evart, who has created a loving tribute to her deceased siblings through her work to establish Siblings Day. Her dedication should serve as an inspiration to us all.

IN CELEBRATION OF NCAA DIVISION II MEN'S BASKETBALL NATIONAL CHAMPIONSHIP

HON. ROBERT C. SCOTT

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. SCOTT of Virginia. Mr. Speaker, along with my colleague, Representative ERIC CANTOR, I rise with great pride to call attention to a group of young students who have distinguished themselves, their school, their community, and the Commonwealth of Virginia.

The Virginia Union University Panthers men's basketball team had a remarkable season and we believe the Panthers deserve formal recognition for their accomplishments. On March 26, 2005, the Virginia Union University Panthers won the NCAA Division II Men's Basketball National Championship. The Panthers completed their 2005 season with an impressive 30–4 record.

To quote from Virginia Union's hometown newspaper, the Richmond Times-Dispatch, ''Those [Virginia Union's] starters, none over 6–6 or heavier than 223 pounds, carried the Panthers all year past bigger, stronger opponents. . . . It is perhaps the most belabored sports cliché, but when the Panthers looked at each other, they saw a whole greater than the sum of its parts.''

En route to their championship victory in Grand Forks, North Dakota, the Panthers won their second straight CIAA Championship on Saturday, March 5, 2005. Their remarkable season carries on the tradition of championship basketball at Virginia Union, which now has 15 CIAA Championships and three National Championships.

Founded in 1865, Virginia Union University is an Historically Black University dedicated to providing educational equity to African-Americans. Virginia Union welcomes diversity among its faculty and staff as well as its student body. In its founding days, Virginia Union's academic missions and social visions were ahead of their time. Now, more than a century later, Virginia Union University is still an innovating and inspiring place for college students and scholar athletes.

My colleague ERIC CANTOR and I would like to extend our enthusiastic congratulations to the Virginia Union University players and their

families, Coach Robbins and the rest of his coaching staff, Virginia Union alumni, and the entire Virginia Union community for their remarkable accomplishment.

PERSONAL EXPLANATION

HON. JIM DAVIS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. DAVIS of Florida. Mr. Speaker, on rollcall No. 91, had I been present, I would have voted ''yes.''

RECOGNIZING THE ACHIEVEMENTS OF HAYS COUNTY SHERIFF DON MONTAGUE

HON. HENRY CUELLAR

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. CUELLAR. Mr. Speaker, I rise today to recognize the important achievements of Hays County Sheriff Don Montague, of my Congressional District.

Don Montague was elected Hays County Sheriff in 1996, and was re-elected in 2000. As a fourth generation Hays County resident, he began his law enforcement career in 1967 when he joined the Highway Patrol and he rose quickly through the ranks of Hays Counties finest. He has served prior posts as a Patrol Officer, Field Deputy, Sergeant, Lieutenant, and Captain. Sheriff Montague was instrumental in forming and commanding the Hays County Drug Task Force.

Under Sheriff Montague's administration, the sheriff's department has evolved into a thriving, highly successful, and professional organization with unprecedented personnel and equipment growth. He currently holds a Master Proficiency Certificate and Instructors License with the Texas Commission on Law Enforcement Officers Standards and Education.

Sheriff Montague is a man who believes in the value of community involvement and intervention. He is a past director of the Sheriffs Association of Texas, a past President of the Texas Capital Area Law Enforcement Association, a past President Hays County Criminal Justice Association, a member of the Texas Crime Prevention Association, and member of the Texas Narcotics Officers Association. Don Montague is an example of proactive law enforcement in our communities.

Along with his many contributions to the people of Hays County, Sheriff Don Montague has been married to his lovely wife, Harpie, for 36 years and has 3 children and 5 grandchildren.

Mr. Speaker, Sheriff Montague has enriched the community with his vision and I am proud to have this opportunity to thank him.

A TRIBUTE TO ROBERT RODRIGUEZ

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. TOWNS. Mr. Speaker, I rise in honor of Robert Rodriguez who is being honored at the Brooklyn Caribe Lions Club dinner dance as ''Mortgage Broker of the Year.''

Robert is a successful mortgage broker who was born in Ponce, Puerto Rico. His father, Higinio Rodriguez, was working for the Brooklyn Navy Yard many years ago when he sent for his wife, Rafaela Santos-Rodriguez and family, including a very young Robert who was three years old.

Robert attended Brooklyn College, majored in psychology and later obtained his real estate mortgage and insurance broker's licenses. He also served in the U.S. Marine Corps and received an Honorable Discharge.

Among many enterprises, he opened up Sunset Park Real Estate in 1980. It became a very successful and inspirational real estate firm in an up and coming neighborhood. In 1987, he became a founding member and President of the Fifth Avenue Merchants Association in 1987. Later, he was instrumental in converting that association to The Business Improvement District of Sunset Park. During this period, he became (and continues to be) a member of The Bay Ridge Board of Realtor and a member of the New York Association of Mortgage Brokers. Presently, he is President and sole owner of Dinero Mortgage & Funding Corp. located in Sunset Park. By helping people obtain a mortgage, Robert has personally helped many minorities in accomplishing their dreams of obtaining a home for themselves and their loved ones.

Robert is married to Julie Cardinale Rodriguez, a Loan Officer for Countrywide Mortgage. He has three children, Lisa, Robert Jr. and Shelly along with seven grandchildren. Robert is a wonderful example of how hard work and perseverance can lead to success. May this award inspire and encourage him to continue the important work he has already begun.

Mr. Speaker, Robert Rodriguez has been a leader in his community by building a successful business and helping his fellow community members realize their dream of homeownership. As such, he is more than worthy of receiving our recognition today and the award of Mortgage Broker of the Year. Thus, I urge my colleagues to join me in honoring this truly remarkable person.

TRIBUTE TO KANSAS CITY, KANSAS, SUPERINTENDENT OF SCHOOLS, DR. RAY DANIELS

HON. DENNIS MOORE

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. MOORE of Kansas. Mr. Speaker, I rise today to pay tribute to Dr. Ray Daniels, superintendent of the Kansas City, Kansas, school system, who is retiring after a distinguished career as an educator and administrator.

As superintendent of the Kansas City, Kansas, Public Schools for the last eight years, Dr. Ray Daniels has been called ''the model for what superintendents could and should be.'' He has devoted his entire professional career to the Kansas City school district.

This distinguished career began at Northwest Junior High School in 1965 where he worked as an English teacher and head boys' basketball coach. He later joined the faculty at Wyandotte High School and served as head track coach. Dr. Daniels worked his way up as an assistant principal at Wyandotte in 1973 and became Director of Personnel for the school district in 1976. He was named Assistant Superintendent for Personnel Services in 1980.

When appointed superintendent in March 1998, Dr. Daniels immediately worked to close the achievement gap for minority students and students living in poverty, and to correct low student achievement, high dropout rates, unsafe schools, and poor attendance. He is recognized as being ahead of the curve, implementing reforms in his district long before the trend of stronger accountability became popular across the country. Dr. Daniels' efforts have paid dividends for Kansas City schools and our community. His district continues to see significant progress in reading and math achievement.

He has provided leadership and served on numerous community organizations including the KCK Area Chamber of Commerce, United Way of Wyandotte County, Heart of America Family Services, Cancer Action, the Wyandotte Health Foundation, Metropolitan Lutheran Ministries, and the Downtown KCK Kiwanis Club.

Dr. Daniels has earned the respect and trust of the community as he has led his district in becoming one of the most successful examples of urban school reform in America. The Kansas Association of School Administrators named Dr. Daniels the 2005 Kansas Superintendent of the Year and he was a candidate for the National Superintendent of the Year honor. Dr. Daniels was also named ''Educator of the Year'' by Young Audiences.

There is probably not a tougher job than serving as a superintendent of an urban school district and not a better person for the job these last eight years than Dr. Ray Daniels.

Mr. Speaker, on behalf of the citizens and parents of Kansas City, Kansas, I say to Dr. Ray Daniels: thank you for your service to our community and our children. You will be missed!

RECOGNIZING JULIA HOLT AS WINNER OF THE 2005 SAFETY EDUCATION HERO AWARD

HON. JOHN S. TANNER

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. TANNER. Mr. Speaker, I rise today to congratulate Julia Holt on being awarded the 2005 Safety Education Hero Award. The public safety education she provides to children

has proven to be life-saving. She is a true hero in our community and is helping train our young people to be heroes, too.

As Public Education Officer with the Dickson Fire Department, Ms. Holt teaches fire safety lessons at six elementary schools to kids ranging from kindergarten to sixth grade. Although she has only served in that capacity for three years, Ms. Holt was named Tennessee's Fire Educator of the Year in 2004.

In February, 2004, Ms. Holt's Fire safety lessons were put to the test when seven-year-old Dustin Stephens got too close to a living room wall heater and his clothes ignited. Fortunately, Dustin's brothers Ryan and Justin were able to use what Ryan had learned the week before in Ms. Holt's class. The firefighters responding to their call said Justin's life was saved because of the boys' quick action and their exceptional training.

Ms. Holt is an extraordinary public servant, and she has proven her commitment to ensuring that all children have proper training to respond to emergencies like the one Dustin and his brothers faced. Mr. Speaker, I ask that you join me today in thanking Ms. Holt for all she does in our community and congratulating her on receiving this distinguished award.

ENDING TAX BREAKS FOR DISCRIMINATION ACT OF 2005

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mrs. MALONEY. Mr. Speaker, today we are introducing a bill to end government subsidies for private clubs that discriminate against Americans based on sex, race, or color. The Ending Tax Breaks for Discrimination Act of 2005 makes it illegal to deduct expenses at clubs with discriminatory membership policies. We think it's wrong for corporations to write off big expenditures for entertainment, meetings and advertising at clubs that keep women out on America's dollar. Men play and women pay.

I am joined by my distinguished colleague, Representative BRAD SHERMAN from California. In the early '90s Mr. SHERMAN, as a member of the California tax board, implemented legislation similar to this Act. Since then, other states have followed. The time for the federal government to take a stand and end government-subsidized discrimination is long overdue.

Right now, conventions and meetings are considered legitimate business deductions for corporate income tax purposes, including those held at private clubs that discriminate. Half the price of a business lunch is deductible. But if you're a woman, you subsidize one half of a man's lunch with your taxes, even though you can't join the club.

Augusta and other clubs on par with it are already way out of bounds by discriminating. For taxpayers to have to foot the bill for business conducted under these discriminatory conditions is obscene. This is something that comes into focus every Masters Week, but people need to know they are subsidizing discrimination every day of the year.

Members of these clubs profit—either indirectly through career opportunities and board appointments, or directly through tax deductions. Women can't get these same financial gains—just because they're women. Men get the membership, the deal, the deduction, and women get the bill. Ending Tax Breaks for Discrimination Act of 2005 would put a stop to that. It ends deductions for advertising, travel, accommodation and meals associated with these clubs, and it requires discriminatory clubs to print right on their receipts, "not tax deductible".

This bill is not an attack on deductions for big business. Legitimate tax deductions should continue, but when these deductions support clubs that bar Americans from becoming equal partners, equal players, and equal earners—just because of their sex or race—they are NOT legitimate. The time for discrimination is over.

TRIBUTE TO WOODSIDE HIGH SCHOOL WOLVERINES

HON. ROBERT C. SCOTT

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. SCOTT of Virginia. Mr. Speaker, along with my colleague, Representative JO ANN DAVIS, I rise with great pride to call attention to a group of young students who have distinguished themselves, their school, their community, and the Commonwealth of Virginia.

The Woodside High School Wolverines boy's basketball team had a remarkable season and we believe the Wolverines deserve formal recognition for their accomplishments. On March 12, 2005, Woodside won its second consecutive Group AAA Boy's Basketball State Championship at the Virginia Commonwealth University Siegel Center in Richmond. The Wolverines completed the 2005 season with a truly impressive record of 30–2.

Established in 1996, Woodside High School is a magnet school specializing in the performing arts. Students must meet rigorous academic requirements, take responsibility for academic progress, behavior and attendance, and they are expected to participate in school and community activities. The Woodside drive for excellence has now been extended into the field of athletics.

With their 2004 and 2005 championship seasons, Woodside has established a new tradition of championship basketball in Newport News. This year the Wolverines were Peninsula District Season and Tournament Champions, and the Eastern Region Champion. Two-time Coach of the Year, John Richardson, has compiled a 59–5 record over the last two years. The Virginia High School Coaches Association also awarded Player of the Year honors to Woodside senior guard, Calvin Baker.

My colleague JO ANN DAVIS and I would like to extend our enthusiastic congratulations to the Woodside High School players and their families, Coach Richardson and the rest of his coaching staff, Woodside High alumni, and the entire Woodside High community for their remarkable accomplishment.

HONORING JIN LEE

HON. RAHM EMANUEL

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. EMANUEL. Mr. Speaker, I rise today to congratulate Mr. Jin Lee for his recent appointment to the Northeastern Illinois University's Board of Trustees. Jin Lee has been an outstanding citizen of the Fifth Congressional District, and he will be a tremendous asset to Northeastern Illinois University as a member of its Board of Trustees.

Prior to this appointment, Mr. Lee's distinguished career included management positions with Ace Young Company, Daewoo International America Corporation, and Lorenzo Import-Export Company. He was also the Executive Director of the Chicago Korean American Chamber of Commerce and remains a prominent member of the City of Chicago's Human Relations Task Force. In addition, he served on the Asian American Advisory Councils for both the Illinois Secretary of State and the Illinois State Treasurer. Since 1997, Jin Lee has also served as the director of business planning and development for the Albany Park Community Center.

Hard work and determination were the hallmarks of Mr. Lee's early life. When he was 14 years old and without a working knowledge of English, he moved with his family to the United States from South Korea. He quickly mastered the language and subsequently earned a Bachelors degree from the University of Illinois at Urbana-Champaign.

Mr. Lee's reputation for hard work and determination are widely recognized and respected. He has received numerous honors and awards including Loyola University Chicago's' Leadership Certificate, the Illinois Secretary of State's Certificate of Application, and membership in the Asian American Hall of Fame.

As he begins his 4-year term as a member of the Board of Trustees for Northeastern Illinois University, I am confident that Jin Lee will continue to serve the people of the Chicago area with steadfast dedication, just as he has proven in years past.

Mr. Speaker, on behalf of the Fifth Congressional District of Illinois and indeed the entire city of Chicago, I thank Jin Lee for his many outstanding contributions to our community. I wish him continued success as he begins a new challenge and extend my heartfelt congratulations on his appointment to the Northeastern Illinois University Board of Trustees. I am proud to represent Mr. Lee and Northeastern Illinois University in the Fifth Congressional district and am confident both he and the university will find their partnership to be mutually productive and rewarding over the next four years and beyond.

HONORING THE CONTRIBUTIONS OF BISHOP SAMUEL EDWARD IGLEHART

HON. HENRY CUELLAR

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. CUELLAR. Mr. Speaker, I rise today to recognize Bishop Samuel Edward Iglehart for his unparalleled dedication to his community, church, and family.

It is rare to find many people who have gone through life so humbly helping others. However Bishop Samuel Edward Iglehart is one of them. Ordained at the age of 31, Bishop Iglehart has gained a great familiarity with the people of his church and community. Whether it is a fellow officer of the church or a small child in need of assistance, serving humanity is always a top priority for Bishop Iglehart. This priority can be seen in the everyday mission of his church, the Childless Memorial Church of God in Christ. Future goals and milestones Bishop Iglehart plans to implement for the Memorial Church consist of providing a daycare and Christian Academy for children, a learning center for adults, and a Christian book store.

Memorial Church has not been the only medium for Bishop Iglehart to serve the community. He is a life-time member of the NAACP and a strong supporter of the United Negro College Fund. For his active community involvement, Bishop Iglehart was inducted into the ''Who's Who Society of Outstanding Church Leaders'' in May of 1989.

Besides his commitment to the community Bishop Iglehart dearly loves and is dedicated to his family. His wife Glorious Cosey Iglehart and their six children have a very special bond that can stand the test of time.

Mr. Speaker, I am honored to be given the time to pay reverence to the lifetime of service of Bishop Samuel Edward Iglehart and his lifetime of service.

A TRIBUTE TO THE ESPINAL FAMILY

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. TOWNS. Mr. Speaker, I rise in honor of the Espinal Family who are being honored at the Brooklyn Caribe Lions Club dinner dance as ''Outstanding Family of the Year.''

Jose and Agueda Espinal are the parents of this family, and together, they have raised thirteen children in the community of Sunset Park, Brooklyn, New York. Jose and Agueda immigrated from the Dominican Republic in 1977. They hoped to provide a better life and education for their family. Their children are Carmen, Pablo, Pedro, Maria, Julio, Esteban, Andres, Ceferino, Carlos, Bienvenido, Rafael, Mary Carmen and Juan Martin.

All the members of the Espinal Family have established very successful community based businesses. The majority of the children and grandchildren are professionals with degrees in business administration. They are also well known for their generosity to churches, civic and community organizations, which serve the less fortunate and infirm. This distinguished family is an inspiration and a role model to everyone in the community.

May this award inspire and encourage them to continue the important work that they have already begun. The wonderful example of dedication to their fellow community members and commitment to the important value of family has surely made them worthy of this honor.

Mr. Speaker, by raising thirteen successful children and still finding time and money to assist others, the Espinal Family has been a shining example to the community. As such, they are more than worthy of receiving our recognition today and the award of Outstanding Family of the Year. Thus, I urge my colleagues to join me in honoring this truly remarkable person.

FIFTH ANNUAL MOVERS AND SHAKERS AWARDS OF THE VOLUNTEER CENTER OF JOHNSON COUNTY

HON. DENNIS MOORE

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. MOORE of Kansas. Mr. Speaker, I rise today to note an important event in the Third Congressional District of Kansas. On Apri1 18, 2005, the Volunteer Center of Johnson County in Overland Park, Kansas, will honor outstanding youth volunteers. Seventy-one young people have been nominated by school personnel and nonprofit organizations for their dedication and service to the community. Youth volunteerism continues to grow and be a strong force in Johnson County. These 71 youths exemplify the true meaning of volunteerism and giving back to their community. It is my honor to recognize each student volunteer, their school, their age, number of hours volunteered, and their hometown by listing them in the CONGRESSIONAL RECORD.

Molly Allison-Gallimore, Home School, 15, 500+, Spring Hill, KS.

Kirsten Amble, Shawnee Mission Northwest High School, 17, 150, Shawnee, KS.

Brett Beyer, Shawnee Mission Northwest High School, 18, 350, Lake Quivira, KS.

Cheryl Bornheimer, Shawnee Mission West High School, 18, 100, Shawnee Mission, KS.

Brea Buchanan, Olathe East High School, 16, 217, Olathe, KS.

Jessie Bullock, Notre Dame de Sion, 16, 130, Stilwell, KS.

Meghan Burrow, Shawnee Mission South High School, 18, Gold, Overland Park, KS.

Clayton Calder, Olathe South High School, 18, 284, Olathe, KS.

Jenna Christensen, Shawnee Mission North High School, 16, 70, Overland Park, KS.

Jill Christensen, Shawnee Mission North High School, 14, Bronze, Overland Park, KS.

Brittany Clark, Mill Valley High School, 17, 200, Shawnee, KS.

Michael Cobb, Blue Valley High School, 18, 240, Stilwell, KS.

Michelle Cook, Shawnee Mission West High School, 17, 120, Lenexa, KS.

Christopher Connell, Shawnee Mission West High School, 15, Silver, Lenexa, KS.

David Dolginow, Pembroke Hill, 18, 100, Shawnee Mission, KS.

Marissa Dorau, Shawnee Mission West High School, 18, 90, Shawnee Mission, KS.

Morgan Fasbinder, Blue Valley Northwest High School, 17, 50, Overland Park, KS.

Kate Garrett, Shawnee Mission West High School, 16, Gold, Lenexa, KS.

Kevin Garrett, Westridge Middle School, 13, Bronze, Lenexa, KS.

James Geary, Blue Valley Middle School, 12, 63, Overland Park, KS.

Lindsey Gerber, Oregon Trail Junior High, 14, 250, Olathe, KS.

Josh Gordon, Blue Valley North High School, 17, 110, Leawood, KS.

Maggie Gremminger, Mill Valley High School, 17, 165, Shawnee, KS.

Luke Hays, Oxford Middle School, 12, 81, Overland Park, KS.

Kristen Heath, Mill Valley High School, 17, 110, Shawnee, KS.

Samantha Hewitt, Shawnee Mission West High School, 17, 350, Lenexa, KS.

Bethany Hileman, Oxford Middle School, 12, 68, Overland Park, KS.

Mallory Howlett, Shawnee Mission Northwest High School, 18, 300, Shawnee, KS.

Ellen Jorgenson, Shawnee Mission North High School, 17, 150, Shawnee, KS.

Adam Kenne, Gardner-Edgerton High School, 16, 110, Gardner, KS.

Becky Kenton, Mill Valley High School, 18, 225, Shawnee, KS.

Mary Zima, Notre Dame de Sion, 17, 60, Leawood, KS.

HONORING THE CONTRIBUTIONS OF HAYS COUNTY COMMISSIONER WILL CONLEY

HON. HENRY CUELLAR

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. CUELLAR. Mr. Speaker, I rise today to recognize Hays County Commissioner Will Conley for his contributions to the community.

Will Conley was born in Lake Charles, Louisiana and then went on to attend high school in Houston, Texas. After graduating from high school, Conley spent one year ranching and outfitting in Uvalde, Texas before attending Southwest Texas State University in San Marcos. During his college tenure, Conley was involved in the Student Body Council, South West Texas Ducks Unlimited and Pi Sigma Alpha. Conley graduated in 2000 with a degree in Political Science and a minor in Business.

After receiving his bachelor's degree, Will demonstrated his entrepreneurship abilities when he founded Conley Enterprise Incorporated and the environmentally conscious business of Conley Carwash and Detail. It was working with Conley Carwash and Detail that Will's concern for the environment shown through with the company's policy of recycling 85 percent of the water used for operations. Over the years, Conley's companies have received numerous awards for environmental-soundness such as the Water Efficiency Achievement Award.

After producing great results as an entrepreneur, Conley became the youngest elected County Commissioner of Hays County in 2004. As County Commissioner, Conley has promised to work for the improvement of Hays County by focusing on economic development and instilling a more fiscally responsible policy when it comes to the appropriating of tax payer's dollars. During his short time in office, he has already shown the results he has been known for; he has improved road conditions, extended park development and done so much for the better of Hays County.

Mr. Speaker, Will Conley has a rare youthful spirit that is dedicated to improving Hays County's quality of life for its citizens and I feel greatly privileged to recognize his accomplishments.

TRIBUTE TO REVEREND DOCTOR WILLIAM RAYMOND WHITAKER, JR.

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. TOWNS. Mr. Speaker, I rise in honor of Reverend Doctor William Raymond Whitaker, Jr., in recognition of his dedication to his church and community.

Reverend Doctor William Raymond Whitaker, Jr., was born in Newport News, Virginia on November 12, 1959. The Whitaker family moved shortly thereafter to Brooklyn, New York. Dr. Whitaker is a product of the Bedford Stuyvesant Tompkins Project community. He attended Carter G. Woodson Public School 23, Mark Hopkins Junior High School 33, Fort Hamilton High School and graduated from the former Eastern District High School. Furthering his education, he attended Adelphi Academy, majoring in Business. Pastor Whitaker obtained his Bachelor of Theology degree from Community Bible Institute in Brooklyn in May 1999 and his Master of Theology from Chelsea University in London, England, where he graduated with the highest academic distinction, summa cum laude, in May 2004. On October 4, 2004, the Hope for All Bible College bestowed upon Reverend Whitaker the Honorary Doctorate of Divinity degree.

Dr. Whitaker was called to the Ministry at the young age of 16 and preached his initial sermon in October 1976 under the leadership of Reverend Joseph Stiff, Jr., of Bethel Church of God in Christ. He served faithfully as an usher, choir member and Sunday school student. In June 1985, he was licensed by Greater Free Gift and ordained in November 1986. On December 13, 1994, Rev. Whitaker was called by the Lord to serve as Pastor of the Greater Free Gift Baptist Church and since then, the ministry has and continues to multiply. He preaches the Word of God in a manner that can be applied to everyday life.

Dr. Whitaker answered yet another call on his life, which was to establish the Greater Free Gift Bible Institute where he diligently shares his knowledge and wisdom as president and teacher. Under the leadership of this great visionary, hundreds have been blessed, encouraged, inspired and delivered. He continues to lead the Greater Free Gift Baptist Church to make even greater strides in its growth and development, including the formation of the Drama and Dance Ministry and ''Serenity on Stockton Street.'' Rev. Whitaker's sole desire is to help people reach their ultimate potential spirituality by developing a personal relationship with God.

In addition to being dynamic preacher and teacher, Pastor Whitaker is a world-renowned vocalist. He has recorded songs with legendary gospel artists such as ''The Godfather of Gospel'' Elder Timothy Wright and performed throughout the world including in Paris, France. His commitment to the community is evident by his service as the Former Chair of Evangelism for the Eastern Region of the Progressive National Baptist Convention and his involvement in the National Baptist Convention Housing Staff USA, Inc. He is the former Vice-Chairman of the Board of Trustees, former Director of the Music Department of the New York Missionary Baptist Association as well as the former Ecumenical Director to Congressman ED TOWNS. Additional community affiliations include Central Brooklyn Churches, Police Benevolent Association, 303 Vernon Board of Managers and AIDS Awareness seminar (graduate of ARRIVE where he received his license as counselor). He also serves as a mentor to the students at IS 33.

Mr. Speaker, Reverend Doctor William Raymond Whitaker, Jr., has dedicated his life to his church and community. As such, he is more than worthy of receiving our recognition today and I urge my colleagues to join me in honoring this truly remarkable person.

PASSING OF FRED T. KOREMATSU

HON. NANCY PELOSI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Ms. PELOSI. Mr. Speaker, on behalf of my fellow California Representatives MIKE HONDA, BARBARA LEE, DORIS MATSUI, and PETE STARK, I rise today to pay tribute to a true champion of the civil rights movement, Fred Korematsu. Mr. Korematsu passed away on March 30, 2005 at the age of 86.

As a Japanese American facing internment during World War II, Fred Korematsu challenged government authorities by standing up for his rights as an American citizen and refusing to back down. He has earned a place in American history among our most determined fighters for justice. We will miss him greatly.

Born in Oakland, California in 1919 to Japanese immigrants, Fred Korematsu's early life was similar to many other hard-working Americans. He held a job as a welder in the San Francisco shipyards and had dreams of getting married and starting a family. Two months after the attack on Pearl Harbor, however, his dreams were suddenly taken away.

Under baseless fears of Japanese American disloyalty, Executive Order 9066 was signed, authorizing the removal of more than 120,000 Americans of Japanese descent from their homes along the West Coast to guarded camps in the interior of the United States. It displaced families and uprooted entire communities.

On May 30, 1942, Fred Korematsu was jailed for evading authorities. He was sent to Topaz Internment Camp in Utah for 2 years. He bravely filed a lawsuit against the U.S. government, and took his case all the way to the U.S. Supreme Court. The Supreme Court, however, unjustly declared that the internment

of Japanese Americans was necessary in a time of war and that allegations of racism by the government were unfounded. Mr. Korematsu, though, did not give up, and, 40 years later, he was vindicated in a ruling by the Federal District Court in San Francisco.

Mr. Korematsu's dedication to protect civil rights did not end with his own exoneration. His courage prompted lawmakers to right the wrongs committed against Japanese Americans during World War II, and in 1988, an official apology and reparations were issued by the government. His work was recognized in 1998 when President Clinton awarded him the Presidential Medal of Freedom. In the wake of the September 11 terrorist attacks, Mr. Korematsu continued to fight the backlash against Arab, Muslim, and Middle Eastern communities, recounting his own struggle against discrimination.

Today, we honor Fred Korematsu for his courage and recognize him as a symbol of justice, determination, and the true American spirit. His passing leaves the Asian American and Pacific Islander communities with a profound sense of loss.

I hope it is a comfort to his family and friends that so many people share their loss and are praying for them at this sad time.

COMMEMORATING THE GREEK REVOLUTION OF 1821

HON. JOHN F. TIERNEY

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. TIERNEY. Mr. Speaker, I rise to commemorate the Greek Revolution of 1821, which marked the beginning of a protracted struggle fought and eventually on by a people firmly committed to achieving freedom for themselves and liberation for their country.

It is a day that bears personal significance to—and instills pride in—generations of Greek Americans, who still feel a strong sense of nationalism toward Greece even though they or their ancestors may have moved away long ago.

Furthermore, irrespective of ethnicity, I believe it is a day of particular importance to all Americans, as we share a special kinship with the people of Greece. Whenever we promote democracy, civil liberties, and the principles of self-determination, we pay testament to our countries' shared values.

Mr. Speaker, on this occasion, I also rise to welcome the honorable Mayor of Messini, Messinia, Greece, Christos Christopoulos, to the City of Peabody. On March 23, 2005, in a gesture of solidarity, Mayor Christopoulos and Peabody's Mayor Michael Bonfanti signed a sister-city pact. I extend my congratulations to the mayors, the Saint Vasilios Greek Orthodox Church community, and all Greek Americans of Peabody, many of whom descend from Messinia, on this important event.

HONORING THE CONTRIBUTIONS OF ALDERWOMAN HILDA CALVILLO

HON. HENRY CUELLAR

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. CUELLAR. Mr. Speaker, I rise today to recognize Alderwoman Hilda Calvillo for her public service to the city of Charlotte, Texas.

Hilda Calvillo was born, raised, and educated in the city of Charlotte. As an active participant in local events, she understands the specific needs of her community.

As the first woman to ever be elected, Mrs. Calvillo has served in her city as Alderwoman since 1999. She spends much of her time working in school functions and focusing on local community projects. Having graduated from local schools, she works passionately to ensure that quality education is kept a priority.

Also working to keep our communities beautiful, Hilda Calvillo has recently been instrumental in the recent building of a Charlotte city park.

Hilda Calvillo lives in Charlotte with her husband. She has three children and two grandchildren. Mrs. Calvillo and her family enjoy sports and spending time with the rest of the community.

Mr. Speaker, I am deeply proud to have this opportunity to recognize Alderwoman Hilda Calvillo of Charlotte for her dedicated public service.

HONORING THE CONTRIBUTIONS OF ALDERMAN BUDDY LEE DAUGHTRY

HON. HENRY CUELLAR

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. CUELLAR. Mr. Speaker, I rise today to recognize alderman Buddy Lee Daughtry for his public service to the city of Charlotte, Texas.

Buddy Lee Daughtry is a hard working alderman in the City of Charlotte. Raised on a small farm, Mr. Daughtry is a family man who continues to help his parents whenever the need arises. While in high school he won numerous awards in science, and later graduated from Charlotte ISD.

Working for the prison system, Buddy Lee Daughtry works tirelessly to keep our streets safe. He has served the city of Charlotte as Alderman for the past eight years and has been involved in numerous local programs. It is important to recognize the contributions of citizens like Buddy Lee Daughtry. Their hard work has vastly improved our local communities.

Buddy Lee Daughtry lives with his wife Karen in Charlotte and enjoys spending time with his family. Their daughter studies at A&M Commerce.

Mr. Speaker, I am deeply proud to have this opportunity to recognize Alderman Buddy Lee Daughtry of Charlotte for his dedicated public service.

SIKHS ABOUT TO CELEBRATE VAISAKHI DAY

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. TOWNS. Mr. Speaker, April 13, which is the birthday of Thomas Jefferson, author of the Declaration of Independence, is Vaisakhi Day for the Sikhs. I wish all the Sikhs around the world a happy Vaisakhi Day.

Vaisakhi Day is the anniversary of the day in 1699 when Guru Gobind Singh, the last of the ten Sikh Gurus, created the Khalsa Panth. At that time, he said, ''I give sovereignty to the humble Sikhs.'' Yet over 300 years later, they still struggle for that sovereignty while they suffer under severe repression from ''the world's largest democracy.''

More than 250,000 Sikhs have been murdered at the hands of the Indian government, according to figures compiled by the Punjab State Magistracy. The Movement Against State Repression reports that 52,268 Sikhs are being held as political prisoners under the repressive TADA law. How can this happen in a democracy?

Sikhs have an opportunity this Vaisakhi Day to reclaim their sovereignty. In January, 35 Sikhs were arrested for simply raising the Sikh flag and making speeches in support of Khalistan, the Sikh homeland that declared its independence on October 7, 1987. Political leaders are coming out for Khalistan. All of India's efforts to suppress the Sikhs sovereignty movement have just given it new life.

What can we do to support this worthy cause? We should stop our aid and trade with India as long as it continues to kill ethnic minorities, hold political prisoners, and engage in other wholesale violations of the most basic human rights. We should go on record in support of self-determination in the form of a free and fair plebiscite on independence in Khalistan, in Kashmir, in Nagaland, and wherever the people are seeking freedom. These measures will help bring a new glow of freedom to all people in the subcontinent.

Mr. Speaker, at this time I would like to place the Council of Khalistan's Vaisakhi Day message into the RECORD for the information of my colleagues.

VAISAKHI DAY SHOULD BE CELEBRATED IN FREEDOM

I would like to take this opportunity to wish you and your family and friends and all Sikhs a Happy Vaisakhi Day. As you know, Vaisakhi Day is the anniversary of the founding of the Khalsa. On Vaisakhi Day in 1699, Guru Gobind Singh baptized the Sikhs and required them to keep the five Ks. He made the Sikhs into saints and soldiers, giving the blessing ''In grieb Sikhin ko deon Patshahi'' (''I give sovereignty to the humble Sikhs.'') Just two years after his departure from this earthly plane in 1708, the Sikhs established our own independent state in Punjab.

Today we struggle to regain the sovereignty that Guru Gobind Singh bestowed upon us over 300 years ago. Yet the Jathedar of the Akal Takht, Joginder Singh Vedanti, was quoted as saying that ''We don't want a separate territory.'' Does Jathedar Vedanti, like every other Sikh, pray ''Raj Kare Ga

Khalsa'' (''the Khalsa shall rule'') every morning and evening? Has he forgotten our heritage of freedom? How can the spiritual leader of the Sikh religion deny the Sikh Nation's legitimate aspiration for freedom and sovereignty? Is he not stung by the words of one of his predecessors, former AkalTakht Jathedar Professor Darshan Singh, who said, ''If a Sikh is not a Khalistani, he is not a Sikh''? Is Akal Takht occupied by a person who does not believe in Sikh values and Sikh apsirations?

The flame of freedom continues to burn brightly in the heart of the Sikh Nation. No force can suppress it. On Republic Day, Sikh leaders raised the Sikh flag in Amritsar and made speeches in support of Khalistan. 35 Sikhs were arrested for raising the Kesri Nishan. Eleven of them continue to be held and they have been denied bail. Is this the freedom that Guru Gobind Singh bestowed upon us? Is this the ''glow of freedom'' that Nehru promised us when Master Tara Singh and the Sikh leaders of the time chose to take our share with India?

Punjab's Chief Minister, Captain Amarinder Singh, was declared a hero of the Sikh Nation for asserting Punjab's sovereignty and preserving Punjab's natural resource, its river water, for the use of Punjab farmers by cancelling Punjab's water agreements. In so doing, Amarinder Singh and the Legislative Assembly explicitly declared the sovereignty of the state of Punjab. In December former Member of Parliament Simranjit Singh Mann again reverted to public support of Khalistan. He pledged that his party will lead a peaceful movement to liberate Khalistan. Obviously, Mr. Mann is aware of the rising support of our cause. Mann joins Sardar Atinder Pal Singh, Sardar D.S. Gill of the International Human Rights Organization, and other Sikh leaders in Punjab in supporting freedom for Khalistan openly. Jagjit Singh, President of Dal Khalsa, was quoted in the Deccan Herald as saying that ''the Indian government can never suppress the movement. Sikh aspirations can only be met when they have a separate state.'' There is no other choice for the Sikh nation but a sovereign, independent Khalistan. Every Sikh leader must come out openly for Khalistan. We salute those Sikh leaders in Punjab who have done so.

Any organization that sincerely supports Khalistan deserves the support of the Sikh Nation. However, the Sikh Nation needs leadership that is honest, sincere, consistent, and dedicated to the cause of Sikh freedom. Leaders like Dr. Jagjit Singh Chohan, Harchand Singh Longowal, Didar Bains, Ganga Singh Dhillon, the Akali Dal leadership, and others who were complicit in the attack on the Golden Temple cannot be trusted by the Sikh Nation. The evidence against them is clear in Chakravyuh: Web of Indian Secularism. The Sikh Nation cannot believe that these leaders will not betray the cause of Khalistan, just as they betrayed the Sikh Nation in 1984. We must be careful if we are to continue to move the cause of freedom for Khalistan forward in 2005 as we did in 2004.

The Akali Dal conspired with the Indian government in 1984 to invade the Golden Temple to murder Sant Bhindranwale and 20,000 other Sikh during June 1984 in Punjab. Even the Pope spoke out strongly against this invasion and desecration of our most sacred shrine. How can these so-called Sikh leaders connive with the people who carried it out? If Sikhs will not even protect the sanctity of the Golden Temple, how can the Sikh Nation survive as a nation?

The Akali Dal has lost all its credibility. The Badal government was so corrupt openly and no Akali leader would come forward and tell Badal and his wife to stop this unparallelled corruption.

If Jathedar Vedanti opposes freedom and sovereignty for the Sikh Nation, then he is not fit to sit in Akal Takht, in the seat of the Khalsa Panth. The Sikh Nation should have a Jathedar who is committed to sovereignty.

The Council of Khalistan has stood strongly and consistently for liberating our homeland, Khalistan, from Indian occupation. For over 18 years we have led this fight while others were trying to divert the resources and the attention of the Sikh Nation away from the issue of freedom in a sovereign, independent Khalistan. Khalistan is the only way that Sikhs will be able to live in freedom, peace, prosperity, and dignity. It is time to start a Shantmai Morcha to liberate Khalistan from Indian occupation.

The Akal Takht Sahib and Darbar Sahib are under the control of the Indian government, the same Indian government that has murdered more than a quarter of a million Sikhs in the past twenty years. The Jathedar of the Akal Takht and the head granthi of Darbar Sahib toe the line that the Indian government tells them. They are not appointed by the Khalsa Panth. Otherwise they would behave like a real Jathedar, Jathedar Gurdev Singh Kaunke, rather than like Indian government puppet Jathedar Aroor Singh, who gave a Siropa to General Dyer for the massacre of Sikhs and others at Jallianwala Bagh. These institutions will remain under the control of the Indian regime until we free the Sikh homeland, Punjab, Khalistan, from Indian occupation and oppression and sever our relations with the New Delhi government.

The Sikhs in Punjab have suffered enormous repression at the hands of the Indian regime in the last 25 years. Over 50,000 Sikh youth were picked up from their houses, tortured, murdered in police custody, then secretly cremated as ''unidentified bodies.'' Their remains were never even given to their families! Another 52,268 are being held as political prisoners. Some have been in illegal custody since 1984! Even now, the capital of Punjab, Chandigarh, has not been handed over to Punjab, but remains a Union Territory. How can Sikhs have any freedom living under a government that would do these things?

Sikhs will never get any justice from Delhi. The leaders in Delhi are only interested in imposing Hindu sovereignty over all the minorities to advance their own careers and their own power. Ever since independence, India has mistreated the Sikh Nation, starting with Patel's memo labelling Sikhs ''a criminal tribe.'' What a shame for Home Minister Patel and the Indian government to issue this memorandum when the Sikh Nation gave over 80 percent of the sacrifices to free India.

How can Sikhs continue to live in such a country? There is no place for Sikhs in supposedly secular, supposedly democratic India. Let us make Viasakhi Day a day of freedom. Let us dedicate ourselves this Vaisakhi Day to living up to the blessing of Guru Gobind Singh. Let us take the occasion of Vaisakhi Day to begin to shake ourselves loose from the yoke of Indian oppression and liberate our homeland, Khalistan, so that all Sikhs may live lives of prosperity, freedom, and dignity.

IN RECOGNITION OF MRS. BETH FREEMAN

HON. MIKE ROGERS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. ROGERS of Alabama. Mr. Speaker, I rise today to pay tribute to a distinguished public servant of Alabama's Third Congressional District.

Mrs. Beth Freeman, hired just two months after she turned 18, has worked for the people of Alabama for more than 30 years. Over her career she has progressed from answering phones and clipping newspaper articles to handling nearly every issue addressed by the Federal government, from military affairs to Social Security.

She has been a faithful and non-partisan public servant, having served with the four most recent officials representing this office, including the late Congressman Bill Nichols; Congressman Glenn Browder; and then-Congressman Riley.

While I have only known 'Ms. Beth' since taking office in 2002, in that short time I have developed a deep appreciation for her hard work and dedication to the people of Alabama. Families and seniors across this district have called upon her expertise for years, and relied upon her persistence to get their problems solved. She will be missed here in this office, and across East Alabama.

Beth, on behalf of the citizens of Alabama's Third Congressional District, thank you for your service to our state. We wish you all the best in your retirement.

HONORING THE MEMORY OF THE HON. HOWELL HEFLIN

HON. JO BONNER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. BONNER. Mr. Speaker, the entire state of Alabama recently lost a dear friend, and I rise today to honor him and pay tribute to his memory.

Senator Howell Heflin was a devoted family man and dedicated public servant throughout his entire life, someone who devoted nearly a quarter-century in public service to the residents of Alabama.

Born on June 19, 1921, the son of Reverend and Mrs. Marvin Heflin, Senator Heflin was a native of Poulan, Georgia, and spent his childhood moving from one Alabama community to another before his family settled in Colbert County. He was a 1942 graduate of Birmingham-Southern College. Within a short time following his graduation, he joined the United States Marine Corps and served during World War II in the Pacific Theater of Operations. He was wounded twice during his service and was awarded the Silver Star for gallantry in action before being discharged in 1946. Following the completion of his military obligations, he enrolled in the law school at the University of Alabama and graduated from that institution in 1948.

From 1948 until 1970, Senator Heflin worked as a prosecuting attorney in the City of Tuscumbia before winning election as Chief Justice of the Alabama Supreme Court. For the next six years, he served with distinction on the court and is known for many accomplishments during that time, including implementing large reforms of the state court system that eliminated years of backlogged cases. He earned so much respect for his work as Chief Justice that, even after having been elected to the United States Senate, friends, colleagues, and admirers continued to refer to him as ''The Judge.''

First elected to the Senate in 1978, Senator Heflin served with distinction for 18 years and ably represented the interests of all Alabamians. During his three terms, he served most notably as a member of the Senate Judiciary Committee and as both chairman and vice chairman of the Senate Ethics Committee, a position he held for 12 years. Additionally, he served as a member of that body's Agriculture Committee and was a strong and able advocate for the interests of Alabama's agricultural community.

During his three terms in Congress, Senator Heflin developed a reputation of working with his colleagues to find common ground on numerous issues, and always with the best interests of his constituents at heart. Many times, he put partisanship aside to support issues for which he saw great benefit, but which others were actively working to oppose. And while his personal views tended towards the conservative end of the spectrum on defense and financial matters, he was more progressive on social issues. In fact, two African-American federal judges from Alabama, U.W. Clemon of Birmingham and Myron Thompson of Montgomery, were both championed by Senator Heflin.

In an article appearing in the Mobile Register following the senator's death, former Alabama Congressman Sonny Callahan was quoted as saying, ''He was always there for us when we needed him. We had common goals for Alabama and worked towards those goals.'' Perhaps these words more than many others spoken in the days following his passing are an accurate summation of the tremendous work completed during his long career and of the faith and trust he in turn earned from his constituents.

Mr. Speaker, I ask my colleagues to join me in remembering a dedicated public servant and long-time advocate for the state of Alabama, a man whose significant impact and dedication to the needs and interests of his constituents will be felt for many years to come. Senator Heflin will be deeply missed by his family—his wife, Elizabeth Ann Heflin, his son, Tom Heflin, and his two grandchildren—as well as the countless friends he leaves behind. Our thoughts and prayers are with them all at this difficult time.

FALL RIVER HERALD NEWS SALUTES CDBG

HON. BARNEY FRANK

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. FRANK of Massachusetts. Mr. Speaker, 23 years ago, when Congressional Districts in Massachusetts were changed, one of the first issues I worked on involving the newer parts of my district concerned the Community Development Block Grant Program for the City of Fall River. Working with then Mayor Carlton Viveiros, I was successful in preserving parts of the CDBG Program in Fall River that were being threatened by legislative changes. And in the years since then, Fall River has continued to be a national exemplar of how this program works for the benefit of our constituents.

On Friday, April 1, the newspaper of Fall River, the Herald News, ran an excellent editorial, which testifies both to the value of the CDBG Program nationally, and to the good work that people have done administering it in Fall River. As the editorial eloquently pointed out, ''Allowing a community's water mains to decay does nothing to foster self-reliance. An 80-year-old widow on a small pension, living alone, will probably not be lured from the paths of righteousness if she receives some help paying her heating bills.'' As the Herald News notes, CDBG funds in Fall River ''are a good example of tax money being put to a variety of concrete uses that directly benefit people.'' Given that we are now in a national debate on this program in response to the President's proposal substantially to reduce it and reorganize it, I ask that the very thoughtful editorial by the Fall River Herald News be printed here.

The most common (and often misguided) gripe about government is that you pay your taxes and you never see your money at work.

In fact, it is popular to believe that government spends its entire budget on ''pork barrel'' projects of the ''how do butterflies fly'' variety.

This kind of thinking is so enshrined in the American consciousness that no one really believes government ever does anything useful with taxpayer dollars.

That's not true.

Witness the Community Development Block Grant Program. That program brings about $5 million to Fall River every year. That $5 million is not spent on pork.

Money from CDBG funding puts police officers on foot beats, helps poor elderly people pay their utilities and has helped reline miles of city water pipes.

Does that sound like pork to you?

At a recent press conference, Fall River Mayor Edward M. Lambert Jr. spoke strongly about the need to preserve the CDBG program.

Lambert said the program is threatened by an initiative aimed at rolling a number of similar programs together, cutting funding and handing control over to the Department of Commerce. The Department of Housing and Urban Development has always administered CDBG programs.

Frankly, any threat to CDBG money is a threat to Fall River.

Of course, numerous people will say that the cutting of another ''entitlement'' program is a good thing, that ''self-reliance'' needs to be encouraged.

It's difficult to see what these people mean. Allowing a community's water mains to decay does nothing to foster self-reliance. An 80-year-old widow on a small pension, living alone, will probably not be lured from the paths of righteousness if she receives some help paying her heating bills.

In Fall River, Community Development Block Grants are a good example of tax money being put to a variety of concrete uses that directly benefit people.

That kind of government program deserves to continue on a steady course.

HUMANITARIAN FOOD AND MEDICINE EXPORT ACT

HON. RON PAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. PAUL. Mr. Speaker, I rise to introduce legislation that will remove current, and prohibit future, embargoes on the export of food, medicine, or medical devices. Embargoes on these items, as we have seen time and time again, do not have the desired policy effect on the targeted country. In fact, they only punish the innocent and most vulnerable people in these countries. Does anyone believe that denying the people of a foreign country food or medicine because of our quarrel with their leader will make them more sympathetic toward the United States? We are fond of talking about ''humanitarian'' treatment in foreign countries. But it is our policy of embargoing the export of food and medicine to certain countries that is most un-humanitarian. We need to practice what we preach.

Also, it is very important to remember the harm we do to our own citizens when we deny them the right to sell their products to whoever they like. It is not very humanitarian to deny our own citizens the right to their livelihood because our political leadership does not get along with the political leadership of another country.

Mr. Speaker, we do ourselves no favors in denying our citizens the right to export the essentials for life to citizens abroad. And we do no real harm to leaders abroad, who actually benefit by our sanction policies, as they provide a convenient scapegoat for their own economic failures. The fact is that trade promotes peace. Forcibly cutting off trade relations with another country promotes militarism and conflict.

I hope my colleagues will join me by cosponsoring this legislation.

TRIBUTE TO THE UKRAINIAN PEOPLE AND THEIR PRESIDENT, VIKTOR YUSHCHENKO

HON. RON LEWIS

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. LEWIS of Kentucky. Mr. Speaker, I rise today to applaud the Ukrainian people and their President, Viktor Yushchenko. President Yushchenko's election last fall marked a powerful triumph of popular will over the forces of

fraud and repression. Mr. Yushchenko's vision of the Ukraine, shared in his address to Congress this week, is an inspiration to freedom loving men and women in Eastern Europe and across the globe.

Through the power of peaceful protest, the government of the Ukraine embraced the forces of freedom last fall, conducting free elections for the first time in over eight decades. The world watched as nearly 80 percent of eligible Ukrainian voters turned out to cast ballots on December 26, 2004. This remarkable participation is a measure of the collective courage of the Ukraine people, many of whom voted despite threats to their personal safety and employment.

President Yushchenko himself carries visual scars, a tangible badge of his own strength and resolute determination in the struggle for freedom. He has demonstrated enormous grace and selflessness in his perseverance. He is well known as a man of high integrity who surely, with the cooperation of global allies, will work hard to reject the corrupt political forces that sought to block him from public office.

We in this Chamber have pledged our support for the Ukraine through resolutions, words, and deeds. It is an honor to welcome President Yushchenko to the United States. I look forward to working with him and the good people of the Ukraine during this exciting moment in their nation's history.

GREEK INDEPENDENCE DAY

HON. DAN BURTON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. BURTON of Indiana. Mr. Speaker, I rise today to congratulate Greek-Americans on the occasion of Greek Independence Day, and wish all people of Greek descent across the globe, peace, happiness and prosperity. In the same spirit of friendship and brotherhood, I ask all of my Greek friends to use this joyous occasion to renew their commitment to peace by doing all that they can to facilitate and promote the end of the long-standing stalemate on the beautiful Mediterranean island, Cyprus.

Recent remarks made by Greek Foreign Minister Petros Molyviatis with regards to Greece's support for the resumption of negotiations on the Cyprus question along the lines of the United Nations' Plan for a settlement (the ''Annan Plan'') are deeply encouraging, and should be supported by the international community and the United States. Greece's role in facilitating negotiations under U.N. auspices and convincing the Greek Cypriot side, under the leadership of President Tassos Papadopoulos, to return to the negotiating table cannot be understated.

Now, the time is right for peace and reconciliation on the island. The Turkish Cypriots have already declared that they are ready and willing to sit down and discuss the ''Annan Plan''—a plan they overwhelmingly supported in the referendum held on April 24, 2004—with their Greek Cypriot counterparts. I fervently hope, Mr. Speaker, that all sides will seize the opportunity of Greek Independence Day to come together in a spirit of friendship and cooperation to achieve the final and lasting peace that has so long eluded the people of Cyprus.

HONORING SOJOURNER TRUTH AWARDEES

HON. DALE E. KILDEE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. KILDEE. Mr. Speaker, I rise today on behalf of the Flint Club of the National Association of Negro Business and Professional Women's Clubs, Inc., who on Saturday, April 9, will hold their 44th annual Sojourner Truth Founder's Day Awards Luncheon. During this ceremony, awards will be presented to nine deserving recipients.

The Sojourner Truth Awards are given each year by the National Association of Negro Business and Professional Women's Clubs, Inc., as a reminder of the endless effort which freedom demands of those who would be free and to recall the fact that slavery comes in many forms: enveloping the spirit as well as the body. In this regard, the Club annually acknowledges those members of the community who have shown to represent these ideals with dignity and distinction.

One such award is the Club's Frederick Douglass Award, which this year will be given to the Honorable Archie L. Hayman, Chief Judge of the 7th District Circuit Court in Genesee County. A lifelong resident of Flint, Judge Hayman received degrees from C.S. Mott Community College and the University of Michigan-Flint, before receiving his Juris Doctorate in 1985 from Detroit College of Law. After stints at General Motors and his own private practice, Judge Hayman was elected to the bench of the 68th District Court in 1995, and was appointed to the Circuit Court one year later by former Governor John Engler. Judge Hayman has consistently shown a willingness to improve the community, as evidenced by his involvement with the Michigan Civil Rights Commission, NAACP, Big Brothers/Big Sisters of Flint, and many others.

The next award is the Positive Image Award, and its recipient is Mrs. Mancine Broome. Mrs. Broome is known throughout the City of Flint as one of its most ardent community activists. In the political arena, she was an integral part in successful campaigns to elect her late husband, Sylvester, to the Genesee County Board of Commissioners. Other campaigns followed, as did several citywide activities designed to enhance community spirit. Mrs. Broome has often been found as an active member or leader of groups including the Greater Flint Afro-American Hall of Fame, Zeta Amicae Auxiliary of Zeta Phi Beta Sorority, Bishop Airport Authority, and the National Association of Media Women. In addition to her long history of activism, Mrs. Broome has worked with Flint Community Schools as Supervisor of Graphic Arts and Printing Services for 38 years.

The Club Appreciation Award goes to Ms. Gloria J. Coles. In 1984, Ms. Coles moved to Flint to become Director of the Flint Public Library, a position she held for 20 years, until her recent retirement. As Director, Ms. Coles led her staff in establishing the Library as a community focal point, a central location for enriching lectures and programs, and a hub for technological advances. During her tenure, Ms. Coles was appointed to the Board of Trustees of the State Library of Michigan, and in 1991, served as Board President. She also chaired Michigan's White House Conference Committees in hopes of setting a federal agenda for our nation's libraries. Ms. Coles has also been active with the Fairwinds Girl Scout Council, the United Way, and the Michigan Humanities Council.

Alexzandria Poole, a senior at Grand Blanc High School, and Otis Wiley, a senior at Carman-Ainsworth High School, have been selected to receive this year's Youth Achievement and Academic Award. Miss Poole is a multi-talented young woman who balances a 3.902 grade point average with activities such as singing, playing and tutoring piano and viola, and studying Mandarin Chinese and Japanese. Mr. Wiley has excelled in the classroom, where he earned a 3.423 grade point average, and also on the athletic front. During his high school career, Mr. Wiley made it to the State Finals in three sports: football, basketball, and track and field, and has been honored for his efforts on local, state, and national levels. Despite his hectic schedule, Mr. Wiley still finds time to volunteer for various church and community projects.

Also being honored during the ceremony are the winners of the Flint Club's Essay Contest: Miss Diamond Nelson (1st Place), Miss Breeanna Walker (2nd Place), and Miss Michelle A. Cochran (3rd Place).

Last, but certainly not least, the Sojourner Truth Award itself this year will go to Ms. Pamela Loving, President and CEO of Career Alliance, Inc. Serving in this position since 1997, Ms. Loving oversees a multi-service organization that provides workforce development strategies and assistance for residents of Genesee and Shiawassee Counties from all walks of life. Each day, 800–1,000 people utilize Career Alliance's services in hopes of learning and/or developing skills that will enable them to increase their effectiveness in the workforce. Ms. Loving draws on extensive experience in the private, public, and corporate sectors to achieve her goals. She is a tireless advocate for promoting civic and community awareness, and improving the quality of life for all those she comes into contact with. Currently Ms. Loving serves as Co-Chair for Governor Jennifer Granholm's Community Challenge, as well as the Board of Directors for the Focus Council, Mission of Peace Housing Development Agency, Flint District Public Library, and Hamilton Community Health Network. She has received numerous awards for her work, including the YWCA Nina Mills Award, and the Jewish Federation Senator Donald Riegle Award, among many others. Ms. Loving is a true role model and is deserving of the highest respect.

Mr. Speaker, I appreciate the National Association of Negro Business and Professional Women's Club's longstanding commitment to community service, and their mission to seek answers toward critical issues in the areas of health, education, employment, and economic

development. These awardees have exemplified the highest of qualities, and I ask my colleagues in the 109th Congress to please join me in congratulating them all.

TRIBUTE TO BISHOP BILLY BASKIN—PASTOR, TEACHER AND COMMUNITY LEADER

HON. KENDRICK B. MEEK

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. MEEK of Florida. Mr. Speaker, it is with great pride that I rise to pay tribute to Bishop Billy Baskin, one of the preeminent religious leaders of our community. On Sunday, April 10, 2005 beginning at 7 p.m., he will be honored at Miami's New Birth Baptist Church Cathedral of Faith International during a special appreciation service defined by the theme: ''Adding Years to Your Life—Adding Life to Your Years.'' Bishop Victor T. Curry, the Pastor of New Birth Church Cathedral, will lead other members of Miami's clergy and countless admirers throughout Miami-Dade County, in lauding this honoree portrayed as The Man, The Mandate and the Ministry.

Having founded Miami's New Way Fellowship Praise & Worship Center in 1975, Bishop Baskin truly evokes the genuine leadership of a Good Shepherd who attends to his flock in many ways, and the whole week long. As pastor and teacher, he exudes the knowledge and caring of a religious visionary who goes about empowering his congregation with his sermons. He has been a source of inspiration and a mentor to a host of other religious leaders who are now leading other congregations throughout South Florida and beyond.

Throughout the longevity of his pastorate, he has truly persevered in showing us the Way, the Truth and the Life that only his knowledge and experience could expound. As he continues to be involved with our faith-community, Bishop Baskin is never oblivious of the needs and concerns of others, particularly the less fortunate among us. It is his tireless consecration to his ministry that defines the measure of his consummate commitment to serve ''. . . the least of these.''

His timely and resilient leadership at the New Way Fellowship Praise & Worship Center for some thirty years is genuinely commendable. As a respected community leader, he has indeed earned our deepest respects and utmost admiration.

This is the legacy of Bishop Billy Baskin. I am truly privileged in thanking him for his many years of service. My honor in sharing his friendship is only exceeded by my gratitude for everything that has sacrificed on our community's behalf as he continues to teach us to live by the noble ethic of serving the community.

100TH ANNIVERSARY OF BAY CITY

HON. BART STUPAK

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. STUPAK. Mr. Speaker, I rise today to honor a community in my district that is celebrating its 100th anniversary as a city. Sunday, the residents of Bay City, Michigan celebrate their history that 100 years ago was the result of a true tale of two cities. Much of this history is documented in two excellent articles in the Bay City Times by local reporter Tim Younkman.

Like many of the towns in my district, it was the lumber industry that brought people, commerce, growth and prosperity to the Saginaw Bay area to found the village of Bay City at the mouth of the Saginaw River in 1857. It later became a city in 1865 but was known as the ''East Side'' because on the opposite side of the river, the ''West Side'' was comprised of three small communities.

In the late 1800's, the Bay City area was nationally known for being a boom town. The success of the lumber mills attracted pioneers and early entrepreneurs from the far reaches, including New York City. One pioneer in particular, Henry Sage, teamed with local businessman, John McGraw, to build the world's largest sawmill, which is now known as Veterans Memorial Park.

Sage was also credited with creating one of the three West Side communities known as Wenona. In 1877, Wenona consolidated with the community of Banks, named after the Civil War General Nathaniel Banks, and the community of Salzberg, the region of Germany where local settlers came from in the old country, to form West Bay City.

At the turn of the 20th century, lumber tycoon Spencer Fisher and shipbuilder James Davidson worked with local West Bay City families to campaign for the consolidation of the east and west communities into one community to promote more business growth. However, West Bay City Mayor C.J. Barnett, who feared an East side political take-over, opposed the idea. While East Bay City politicians supported the move, East Side business owners feared a rise in property taxes due to the poor financial health of the communities across the river.

A dual city vote in 1903 on the proposal lead to a stale mate when East Side voted in favor and West Side voted against. The measure was then taken to the Michigan Legislature to create a combined city charter to incorporate these municipalities into a unified Bay City. Governor Aaron Bliss signed the single city charter into law in June of 1903. However, in a surprise move by the West Side City Council voted to pass costly community improvement projects onto the united Bay City so the East Side voters retracted the deal and ended the consolidation effort.

To make the retraction effective, the State Legislature passed a law rescinding the consolidation charter and awaited then Governor Fred Warner's signature for completion.

Businessmen still in favor of consolidation lobbied for a veto and those opposed to the consolidation urged the Governor to sign. Governor Warner met with both sides for one hour on February 16, 1905 before departing Lansing for a meeting. Four hours later, he wired back to Lansing saying, ''I have decided to veto bill. You can make this known.'' While some were unhappy with the decision, both sides greeted the Governor's veto, which unified Bay City, with marching bands, banners and a celebration upon their return to Bay City. The newly elected Mayor Gustav Hine held the first meeting of the Bay City Council on April 10, 2005.

In a recent letter from current Mayor Robert Katt and Deputy City Manager/City Clerk Dana Muscott to local clergy on upcoming centennial events, they stated, ''it took an act of the State Legislature to force the merger of the two Bay City's. But unified we were. And unified we remain. And that is worth celebrating.''

While other cities have struggled after the early lumber boom, Bay City has persevered through innovation and maintained their prosperity. In a city of over 36,000 people and resting at the junction of I–75 and US 10, Bay City now benefits from large auto, chemical and sugar manufacturers. As a leading recreational port, a city that loves to celebrate its famous waterways is particularly proud of two Tall Ships events that bring historic sailing ships to their shores. I can personally attest to the broadly shared opinion that Bay City is a warm and welcoming community which is proud of their history and how far they have prospered together.

Mr. Speaker, I ask the United States House of Representatives to join me in congratulating Bay City and its residents on their first 100 years and in wishing them well through the next century.

HONORING DON MORRIS

HON. RON LEWIS

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. LEWIS of Kentucky. Mr. Speaker, I rise today to pay public tribute to a remarkable individual from my home district. Don Morris, a legendary High School basketball coach in Breckinridge and Hardin County, KY, was recently inducted into the Dawahares/Kentucky High School Athletic Association Hall of Fame. His induction honors his 21 years of coaching success; winning an impressive 353 games and leading two teams to the state championship game.

Most people know about Kentucky's love of basketball and the commitment many make every season to win. Coach Morris' athletic achievements epitomize a work ethic and commitment to succeed worthy of the Hall of Fame. But it was the lessons Don Morris instilled in his players about life's priorities, impressions countless young men took far off the court and applied many years after High School, that remain the true measure of his legacy.

A master of the sport, he always conducted himself in the highest standard, expecting both athletic and personal excellence from those he led. Each year, Morris shared with his team a simple message; ''Church, home, school and

ball and in that order.'' It was a priority list that has endured in the hearts and minds of hundreds of former players.

I would like to recognize Don Morris today, before the entire U.S. House of Representatives, for his many achievements as a coach. His unique dedication to the development and well-being of student-athletes and the communities they now serve make him an outstanding citizen, worthy of our collective honor and respect.

IN HONOR OF CALICO ROCK, AR'S 100TH ANNIVERSARY

HON. MARION BERRY

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. BERRY. Mr. Speaker, I am honored to rise today on behalf of Congress to honor the town of Calico Rock, AR on its 100th Anniversary.

Located in a strikingly beautiful section deep in the Ozarks and directly on the banks of the famous White River, Calico Rock affects all who visit it.

Calico Rock has grown from its roots as an important river port on the Upper White River as early as the first half of the 1800s. Legend says the town was named when an early explorer of the White River Valley saw the limestone bluff and called it ''The Calico Rocks'' because it resembled the calico fabric used to make women's dresses.

Today, Calico Rock is a picture of rural American community with good schools, a hospital, an historic downtown area and world-renown fishing. More importantly, Calico Rock is a place where ''community'' is not merely a term tossed around on the political stump, but a living, breathing entity acting as an umbrella of protection in the turbulent storm of these times.

Calico Rock lives up to a moral standard based on helping those in need and celebrating life's victories as a neighborhood, a congregation and a society.

On behalf of the Congress, I congratulate Calico Rock on their 100th Anniversary. The community that has been built during that time is a model society should take note of. Calico Rock has shown Arkansas and the entire country that a growing Rural America does not mean abandoning the ideals and values that make a group of people a community.

NATIONAL TARTAN DAY

HON. MIKE FERGUSON

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. FERGUSON. Mr. Speaker, I rise today in support of National Tartan Day, which is celebrated every year on April 6.

National Tartan Day was created with the passage of Senate Resolution 155 on March 20, 1998. April 6th was chosen as the date because the Declaration of Arbroath, the Scottish Declaration of Independence, was signed on April 6, 1320.

On March 9, 2005, the House of Representatives approved House Resolution 41, which expressed the sense of the House of Representatives that April 6 be established as National Tartan Day to recognize the outstanding achievements and contributions made by Scottish-Americans.

National Tartan Day is a time to remember the major role that Scottish Americans have played in this country throughout the course of history. Almost half of the signers of the Declaration of Independence were of Scottish descent, as were Governors in nine of the original 13 states.

Scottish Americans have made invaluable contributions to America in the fields of science, medicine, government, literature, media, and architecture. Today in America more than 200 organizations honor Scottish heritage in the United States.

On this day, let us remember the contributions Scottish-Americans have made to our country and the loyalty and commitment they have shown to the United States throughout the history of our nation.

IN MEMORY OF JOHNNIE COCHRAN

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. RANGEL. Mr. Speaker, I rise with much sadness, to mourn the passing of a great American, and one of my dear friends, Johnnie Cochran. At a time like this, I find myself very conflicted. On one hand I am deeply saddened by the loss of my dear friend and confidant, a man who I admired and respected before I came to know him well, and over the most recent years of our friendship as we worked together on the redevelopment of Harlem through the Upper Manhattan Empowerment Zone, which Johnnie chaired, he is a man I would come to love.

On the other hand, I feel great pride and gratefulness in the fact that I had the opportunity to experience his friendship. Johnnie was of one of the greatest legal crusaders of our generation, and hands down, one of the best lawyers I have ever known. Johnnie had a personality that could light up a room. Even his opponents had to acknowledge his charm.

He argued a case with a style and flare that many had never seen in a courtroom. Indeed, most may never see a persona quite like his again. However, Johnnie always remained true to himself. In the legal profession, lawyers often wear a mask. They adopt a sort of legal alter ego. Johnnie won cases being himself, and that is why he was able to connect with jurors, and the public at large, time and time again.

As we all know, Johnnie became recognized the world over through his participation in the OJ Simpson case. But anyone who knows the work of Johnnie Cochran knows that the case was simply a feather in his cap, just one more achievement in a remarkable career.

Anyone who looks beyond the surface would see that Johnnie was not about celebrity clients, he was about seeking justice for those who had been denied it. In his portfolio of clients, one does find the OJ's and P. Diddys of the world, but much more than them you find the little guy: the accused person with no money, no voice, and no hope, and then you find Johnnie right there fighting for them. That was the Johnnie that I knew, and that is the Johnnie that everyone should know.

Johnnie Cochran was born in Shreveport, Louisiana in 1937, the grandson of a sharecropper. His family would move west to California in the late 1940's, where his determined father would work his way up from a shipyard pipe fitter, to an insurance broker for California's leading Black-owned insurance company. The family would eventually settle in Los Angeles where Johnnie would spend the rest of his adolescence.

Although his family's migration to California removed him from the Jim Crow South, the repressive form of segregation and discrimination that Johnnie witnessed as a young child in Louisiana never left him. Instead it instilled in him a deep seated commitment to seek justice for all people.

Johnnie grew up wanting to be a lawyer, and he would see his dream through to fulfillment. After graduating from UCLA, he earned a degree from Loyola Law School in 1962. In the fall of 1961, during his last year in law school, he became the first Black law clerk in the Office of the City Attorney. In early 1963, he became a Deputy City Attorney.

Though he enjoyed his work, he came to realize that most of the people he was prosecuting were Black men who had been severely beaten by police authorities during their arrests. He soon came to believe that something was gravely wrong with the way the justice system related to African American citizens, and he set out to do something about it.

He would leave the City Attorney's office in the late 60's to set up his own practice. He would there begin his crusade of defending those who had been the victims of police brutality and misconduct, who in most cases happened to be minorities.

Along the way he obtained justice for dozens of every day people, who had nowhere else to turn. He would also be the first attorney to get the city of Los Angeles to financially compensate victims of police misconduct. Without question, Johnnie's personal crusade against police violence brought about changes in the law enforcement systems of both Los Angeles and the entire United States.

Johnnie's preoccupation with justice was not confined to situations where the victimization was based on race; he wanted to see justice done in every case. In 1992 he represented Reginald O. Denny, the white truck driver who was brutally beaten by a mob during the Los Angeles Riots. Johnnie argued that the LAPD's reluctance to enter the riot zone cost many people their lives, and put citizens like Denny in harm's way. Indeed, many argued that the riots would never have escalated to the level they did if police had responded sooner.

Though everyone speaks of OJ, as far as Johnnie was concerned, it was the case of Geronomo Pratt that was most meaningful and important to him. He defended Pratt in 1972, but lost the case due to police and prosecutorial misconduct. However, he never gave up on Pratt.

Though he had been elevated to celebrity status, representing rich and famous clients, he never wavered in his quest to get Pratt's conviction overturned. He would ultimately prevail. Pratt's murder conviction was overturned in May 1997. Johnnie also got the state to compensate Pratt $4.5 million, for the 27 years he wrongly spent behind bars.

Many people were opposed to the legal arguments that Johnnie used in the OJ case, regarding police corruption and misconduct. However, Johnnie was ultimately proven right in the late 1990's when the LAPD was rocked by a department wide corruption scandal.

So systemic were the problems in the LA Police Department that the U.S. Department of Justice would have to take over the department for some time. This exemplifies why Johnnie was so important. In his quest for justice, he revealed to society serious problems that they were unable or unwilling to address on their own. This is why we will miss him so. We in the Harlem community will especially miss the leadership and contributor he gave to us in his final years.

In this time of loss however, I am heartened by two things. First is the fact that Johnnie's family is still here with us. His wife Dale has been Johnnie's loving and dedicated partner through all the highs and lows. Indeed, her love may have been the only thing that could render Johnnie defenseless, which was no easy task. He loved his children Jonathan, Tiffany, and Melodie dearly, and seeing them grow and become successful adults made him prouder than any victory he ever achieved in court.

The other thing that heartens me at this time is the knowledge that Johnnie's legacy grows every day. In Los Angeles and in cities around the country, Johnnie has become something of a mythic hero, a sort of legal Robin Hood, and a real role model. Kids across America now not only dream of being like Michael Jordan, or Puff Daddy, they dream of becoming successful lawyers, and being like Johnnie.

There are several young people working in my office right now. One is a lawyer already, and many others aspire to become one. There is no question in my mind that Johnnie in some way has something to do with that. In the end, the unseen influence Johnnie has had on the next generation of passionate advocates may be his greatest legacy.

Johnnie, we will never forget you, and I know we will all meet again. In the meantime, we will continue the fight, for as long as justice reigns, so too, will your spirit live.

HONORING DELEGATE JAMES H. DILLARD

HON. TOM DAVIS

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. TOM DAVIS of Virginia. Mr. Speaker, I rise today to honor Delegate James H. Dillard for over 21 years of dedicated service to the Commonwealth of Virginia.

Delegate Dillard has served as Delegate to the Virginia General Assembly from 1972–1977 and then again from 1980–2005. Delegate Dillard represents the 41st District in central Fairfax County. He served in the United States Navy from 1955 to 1957 and received a B.A. from The College of William and Mary and a M.A. in Political Science from The American University.

Delegate Dillard previously served as a Fairfax County teacher and principal and began his political career as a member of the Fairfax Education Association by working to establish a living wage for teachers in the 1960's. His strong interest in education led him to be one of the original architects of the Virginia Standards of Learning. Additionally, he was chief sponsor of legislation placing a guidance counselor in every elementary school, and has been recognized as National Legislator of the Year by the Guidance Counselors Association.

As Chairman of the Natural Resources subcommittee of the House Appropriations Committee, Delegate Dillard initiated the largest growth in parks and conservation activities in Virginia's history. Delegate Dillard was the author and chief sponsor of the Virginia Soil and Siltation Act which protects streams and waterways from pollutants. He has also worked behind the scenes to ensure the development of the Leesylvania State Park sailing marina, one of the finest facilities of its kind on the Potomac River and has been recognized as Legislator of the Year by the Chesapeake Bay Foundation.

Mr. Speaker, in closing, I would like to extend my best wishes to Delegate Dillard on his retirement from the General Assembly. Through his long and distinguished career Delegate Dillard has touched the lives of countless Virginians. While I know that he will be greatly missed, his retirement is well deserved. I call upon my colleagues to join me in honoring Delegate Dillard and his wife Joyce. I wish them the best of luck in all future endeavors.

HONORING MR. MAX FISHER

HON. JOE KNOLLENBERG

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. KNOLLENBERG. Mr. Speaker, today I join the people of my Congressional District, as well as thousands around the country and the world, in honoring the passing of a truly great individual Mr. Max Fisher. On March 3, 2005, Max Fisher passed away at the age of 96.

Max Fisher, a resident of Franklin, Michigan, was an internationally known philanthropist, businessman, advisor, and diplomat, and universally recognized as a driving force for positive change in the United States and the world.

The son of Jewish Russian immigrants Velvil and Malka Fisch, Max was born in Pittsburgh in 1908. He attended Ohio State University on a football scholarship and graduated in 1930 with a degree in business administration. After graduating from college Max Fisher moved to the Detroit area where he became an extremely successful businessman and real estate land developer.

Max Fisher played a unique role in U.S.-Israel relations. This role has been described by many, including in the 1992 biography, Quiet Diplomat, by Peter Golden. Former Secretary of State Henry Kissinger wrote in his memoirs that Max Fisher provided an important service as an informal liaison between the White House and the American Jewish leadership under Presidents Nixon and Ford.

Max Fisher also served as the head of a variety of nonprofit and charitable Jewish organizations including United Jewish Appeal, the Republican Jewish Coalition, the Jewish Welfare Federation, the Jewish Agency, Council of Jewish Federations, United Israel Appeal, the American Jewish Committee, and the National Jewish Coalition.

Max was a self-made man who spent much of his life raising money for philanthropic and political endeavors and remained an active supporter of charitable and civic organizations. He was a major benefactor of the Detroit Symphony Orchestra, gave generously to Ohio State's College of Business, and helped found Detroit Renaissance, a nonprofit business roundtable aimed at improving conditions in the city and region.

Max also held 13 honorary degrees from educational institutions.

Max Fisher is survived by his wife, Marjorie Fisher; daughters and sons-in-law, Jane and D. Larry Sherman, Mary Fisher, Julie and Peter Cummings, Marjorie Fisher; son and daughter-in-law, Phillip and Lauren Fisher; 2 sisters; 19 grandchildren and 13 great grandchildren.

Max was a humble man of strong principle, who consistently focused on doing what was right, without seeking fame or prestige. His optimism and positive mental attitude continually motivated those around him to overcome the challenges before them.

Therefore, I express my deepest condolences to his family, friends and admirers. And I also join in honoring Max Fisher for his diplomatic contributions, exceptional philanthropic achievements, boundless generosity, unwavering principle and integrity, and achieving great financial success while maintaining admirable humility.

HONORING THE HEROIC ACTIONS OF THE 106TH AIR RESCUE WING

HON. TIMOTHY H. BISHOP

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. BISHOP of New York. Mr. Speaker, I rise in support of the heroic actions of the members of the 106th Air Rescue Wing. Over the past few days, the Northeast experienced torrential downpours causing massive flooding throughout Sussex County, New Jersey. The rain became so terrible that it washed out the only road connecting tiny Mashipacong Island to the mainland, stranding five residents. In response, Langley Air Force Base scrambled two Pave Hawk helicopters from the Air National Guard's 106th Rescue Wing, which is based at Gabreski Air Force Base in Westhampton, New York. Fortunately, the 106th was able to respond in time; not only

did they rescue the five residents, they also rescued one nearby individual on his roof, along with a dog and a cat.

This is the most recent heroic rescue in the storied history of the 106th, and I am proud to commend the men and women of this unit for their selfless dedication to duty and the protection of those in need. The exploits of the members of the 106th were made famous following their actions depicted in the book ''The Perfect Storm''. More recently, during our ongoing conflict in Iraq, the pararescue specialists of the 106th played an integral role in rescuing two downed soldiers flying on the CH–47 Chinook helicopter that was shot down west of Baghdad in November of 2003.

As the only rescue unit of its kind in the Northeast, the 106th has once again proven its unique value to the safety and security of our region and our nation. Mr. Speaker, the 106th has proven its worth time and time again. We all owe a debt of gratitude to the brave men and women of the 106th Air Rescue Wing. I hope we can show that gratitude by letting them continue to serve and protect our nation.

HONORING BRAD PARKHURST

HON. JEB BRADLEY

OF NEW HAMPSHIRE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. BRADLEY of New Hampshire. Mr. Speaker, I rise today to pay tribute to Mr. Brad Parkhurst upon his retirement from Public Service of New Hampshire after 32 years of service.

Brad Parkhurst has had a long, distinguished career in public service. Public Service of New Hampshire (PSNH) is the Granite State's largest electric utility company and has over 1,200 employees. Brad stands out among them as a recipient of the PSNH Volunteer of the Year Award in 2001 and the PSNH Humanitarian Award in 2004. He received these and numerous other awards for his many contributions to PSNH.

Brad Parkhurst's commitment to the betterment of his community extends far beyond his work at PSNH. He has held many appointed and volunteer positions throughout his hometown of Merrimack, NH. Brad presently serves on the Merrimack Chamber of Commerce Board of Directors and served as President of the Chamber from 2001 to 2003.

For the past 25 years, Brad has been an active member of the Home Builders and Remodelers Association of New Hampshire. Brad was the first-ever inductee into the Association's ''Hall of Fame'' in 2003 in recognition of his lifetime achievement in providing significant and lasting contributions to the New Hampshire housing industry.

Brad Parkhurst's service has transcended the borders of New Hampshire and the United States. Brad serves as Chair of the Riverside Christian Church Missionary Efforts program. Brad has led several teams to West Africa in efforts to provide medical, educational and nutritional aid to impoverished people. On his missions, Brad and his teams have also rehabilitated a children's orphanage, constructed a new home, and renovated a local church, school and library.

Brad has left a truly lasting impression on those he has touched with his work. I am honored to represent concerned and conscientious citizens like Brad in the U.S. House of Representatives. I wish Brad the best of luck in his well-deserved retirement.

VERMONT STUDENTS WORK TO END SWEATSHOP LABOR

HON. BERNARD SANDERS

OF VERMONT

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. SANDERS. Mr. Speaker, I want to celebrate the remarkable work done by the young Vermonters who participate in the Child Labor Education and Action group at Brattleboro Union High School. CLEA is a student-run group dedicated to community education around issues of sweatshop labor in the developing world. It examines the dark and inhumane side of globalization, doing extensive research and traveling to amass the real story on what globalization means for low-income workers who toil in third-world sweatshops. The students then take what they learn and share it with their community in a variety of ways. They have also organized student groups throughout Vermont to address the problems with global sweatshops.

Four years ago, over 20 CLEA members traveled to Guatemala to build a school. Last year, 13 CLEA members went to Nicaragua to learn about the effect of international trace policies on labor conditions in that country. Let me cite a brief report from one of those travelers, Sarah Maceda-Maciel:

When our plane touched down in Managua, our bags might have been stuffed with light cotton shirts and water bottles, but our heads were filled with numbers like 90,000—the number of Nicaraguan children who are not in school. Or 70 percent, the amount of Nicaraguans who live on less than two dollars a day. Or 6 billion dollars, the sum that Nicaragua has accumulated in foreign debt.

We found the harsh realities of life in the third world. There is something profoundly different between knowing that children are hungry and learning that eight year old children sniff glue to dull the knife of starvation. There is something profoundly different between knowing that maternity leave is not offered in sweatshops and learning that pregnant women are forced to work so hard that they end up having miscarriages in factory bathrooms.

The students returned from their trip determined to make a difference in how Americans view the harsh realities occasioned by free trade. In the words of Katherine Nopper, another CLEA member, ''Within our school we hope to engage and inform our classmates on the issues of child labor, free trade, fair trade, and what it means to be part of a sweat-free campaign. And we will continue to present our message to other area schools.''

This past year CLEA students have helped with the publication of a remarkable book, Challenging Child Labor: Education and Youth Action to Stop the Exploitation of Children. Several of the contributors are present and former CLEA members; other contributors include Senator TOM HARKIN, Charles Kernaghan of the National Labor Committee, Kailash Satyarthi of the Global March Against Child Labor, and Upala Devi Banerjee of the U.N. Development Fund for Women.

I admire the work CLEA does, and am continually impressed, year in and year out, by the dedication of these young people to making the world a better place. They see the whole world as their province; they also realize that speaking to their peers in school, speaking to the larger community in southern Vermont, is part of the struggle to create a world in which justice has a higher value than profit. These students represent what is best about American youth, just as their advisor, Tim Kipp, represents what is best about American teachers.

Combining learning with service, the international with the local, passion for justice with the willingness to work hard to achieve justice, the members of CLEA serve as a model, a shining beacon, for what high school students can accomplish.

TURKEY AND THE ARMENIAN GENOCIDE

HON. MARK FOLEY

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. FOLEY. Mr. Speaker, as reported by Reuters recently, Turkish Prime Minister Recep Tayyip Erdogan is ready for a ''political settling of accounts with history'' provided that historians would prepare an unbiased study of claims that millions of Armenians were the victims of genocide under Ottoman rule during the First World War.

That accounting has already been done. A March 7, 2000 public declaration by 126 Holocaust Scholars affirmed the incontestable fact of the Armenian Genocide and urged Western democracies to officially recognize it.

This declaration by foremost scholars from around the world was adopted at the Thirtieth Anniversary of the Scholar's Conference on the Holocaust convening at St. Joseph University, Philadelphia, Pennsylvania, March 3–7, 2000. The petitioners, among whom is Nobel Laureate for Peace Elie Wiesel, also called upon Western democracies to urge the government and parliament of Turkey to finally come to terms with this dark chapter of Ottoman-Turkish history and to recognize the Armenian Genocide. According to this renowned gathering, Turkish acknowledgment would provide an invaluable impetus to that nation's democratization.

As part of the groundbreaking conference held in September 2000 by the Library of Congress and the Armenian National Institute in cooperation with the U.S. Holocaust Museum, the prestigious Cambridge University Press, early in 2004, released a vital new publication—''America and the Armenian Genocide of 1915.'' This edition covers all facets of the leading U.S. response to the Armenian Genocide, which encompassed the first international human rights movement in American history. Oxford University's Sir Martin Gilbert, Cambridge University's Jay Winter and more than

a dozen American academics were among the participants in that landmark conference. In a keynote address, Sir Martin recalled that Rafael Lemkin, who developed the concept of genocide, derived the word itself from the atrocities inflicted on the Armenians.

Prime Minister Erdogan's apparent willingness for a political settling of accounts with history should be treated as an important opportunity for those who have been urging Turkey to come to terms with its Ottoman past. If Turkey is prepared to acknowledge the Armenian Genocide, then its leaders can proceed immediately to direct dialogue with its counterparts in Armenia to define a common vision for the future.

I also urge the government of Turkey to: decriminalize speech within Turkey, destroy all monuments, museums and public references to the specious notion that the Armenian minority committed genocide against the majority Turks, end denial within Turkey, specifically within textbooks and reference books, officially condemn any attacks against all Turks that acknowledge the facts of history, and end the global campaign of threats against any nation that is in the process of affirming the Armenian Genocide.

By so doing, Turkey will begin the vital process of preparing its citizens for a more complete and honest assessment of the final acts of the Ottoman Turkish state. Facing history squarely will liberate Turkey.

THE UNITED STATES MUST CONTINUE TO STAND WITH UKRAINE

HON. SANDER M. LEVIN

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. LEVIN. Mr. Speaker, today in this chamber we heard a compelling voice for the power of freedom and democracy in President Viktor Yushchenko of Ukraine. Just a few months ago, the Ukrainian people stood up for genuine liberty in their country by peacefully demanding free and fair elections in what has become known as the Orange Revolution.

I am proud that the United States stood with the hundreds of thousands of Ukrainians that demonstrated for democracy in the streets of Kiev. I will never forget last November 24th, when I joined nearly 1,500 Ukrainian-Americans from around the country at a demonstration in support of fair elections outside Ukraine's Embassy in Washington.

The Orange Revolution marked an important milestone in the history of Ukraine. President Yushchenko today addressed forcefully both the lessons of the past and fervent hopes for the future. Now that this peaceful revolution has been dramatically launched, we must stand with the people of Ukraine as they work to strengthen their democratic institutions and to make their country more prosperous. The U.S. should do more, not less, to help build a democratic and prosperous society in Ukraine.

In particular, we must end trade restrictions that were enacted for a different Ukraine at a different time. To achieve this result, I introduced H.R. 1170, a bill to extend permanent normal trade relations to Ukraine. The U.S. must work promptly for the admission of Ukraine to the WTO.

Mr. Speaker, I congratulate President Yushchenko on his election and the Ukrainian people for their determination to decide the future of their country. I urge the House of Representatives to make sure that the United States continues to stand with Ukraine as a friend and ally.

IN HONOR OF DR. JAMES POOLE

HON. SAM FARR

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. FARR. Mr. Speaker, I rise today to honor Dr. James A. Poole, a longtime contributor to the Pacific Grove community. Dr. Poole served as a Navy Dentist at the U.S. Naval Postgraduate School in Monterey, CA and established a general dentistry practice in Pacific Grove. He was voted ''Best Dentist'' by Monterey Peninsula residents.

Born in Portland, Oregon, Dr. Poole attended Oregon State University as a member of Phi Theta Delta. He obtained his degree in dentistry from the University of Oregon School of Dentistry.

Dr. Poole served in Vietnam as both a medical and dental officer for the United States Navy where he received the Rear Admiral's Citation for outstanding care and emergency service for the ship and field personnel. Dr. Poole also bravely established Military Outreach Programs in the form of dental clinics on nearby islands where he attended to the needs of local nationals.

''Painless Poole,'' as he was known by the Monterey Peninsula clients of his general practice office, also enjoyed hiking, camping, whitewater rafting, skiing and mountain climbing.

Dr. Poole died on March 19th after an admirable and courageous fight following an emergency surgery to correct a dissecting aortic aneurysm. He was an inspiration to family, physicians and hospital staff.

A TRIBUTE

HON. SAM JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. SAM JOHNSON of Texas. Mr. Speaker, it is my privilege to bring before this Congress the following outstanding young people who have voluntarily served orphans, public school children, college students, juvenile delinquents, and needy families under the official invitation and authority of government agencies in Russia, Mongolia, Romania, Mexico, Australia, New Zealand, Taiwan, Singapore, Indonesia, Malaysia, Philippines and China. The excellent character demonstrated by these young people, as well as their commitment to the principles upon which our Nation was founded, have not only attracted the attention of leaders, parents, the media, and students, but it has also brought honor to the United States of America and to the Lord Jesus Christ whom they serve.

RECOGNIZING GREEK CONTRIBUTIONS TO THE WORLD

HON. CLIFF STEARNS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. STEARNS. Mr. Speaker, our Western Civilization reflects the contributions of many peoples, cultures, and nations. One vital source that gave much toward the depth and richness of our culture is ancient Greece.

One of the great legacies of the city-states of Greece is the practice of self determination or democracy, the rule of the people. Many of the functions of our government are drawn from the Greek political system. Similarly, Greece greatly influenced the development of one of our major religions demonstrated through the word christos, or Jesus Christ. The Letters to the Corinthians and Thessalonians are essential parts of the New Testament.

In countless high schools and colleges throughout the nation, students study the Iliad, a poem originating nearly 3,000 years ago. Modern philosophy still revolves around the thoughts and discussions of Plato and Aristotle. Also, early Greeks developed many of the mathematical disciplines that make our world add up. And, just this past summer the world met in the glory of athletic competition, the modern Olympics, another gift of the Greeks.

I cannot imagine what our society would look like without the rich contributions of the Hellenistic age—architecture, literature, science, and art—but I am sure that it would be more drab and impoverished. In fact, the early roots of Western Civilization trace back to Greece, from where it grew out across the European continent and later across the Atlantic Ocean to the Western Hemisphere.

Unfortunately, modern shortcuts such as the English language and 21st century culture are undermining the Greek language and traditions. As the incubators of so many wonders, the Greek language and the Greek culture deserve to be preserved and celebrated. This is essential for the benefit of the current generation and the enrichment of future generations.

I have had the honor of meeting an individual dedicated to preserving the Hellenic spirit, Captain Panayotis Tsakos. He undertook this mission of love by creating the Maria Tsakos Foundation, which is devoted to honoring the various aspects of ancient, modern, and contemporary Greek culture. The Foundation provides multifaceted activities that teach the Greek language, dances, and literature. So far, more than 3,000 students have learned the language and culture. In addition, the Foundation provides scholarships for study in Greece and supports charities that uphold Greek traditions.

I appreciate this opportunity to share this information with my colleagues, and to commend Captain Tsakos for his dedication to preserving the richness of the Hellenic world.

RECOGNIZING THE JAVITS-WAGNER-O'DAY PROGRAM

HON. RAY LaHOOD

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. LAHOOD. Mr. Speaker, I rise today to recognize a small Federal program that is often overlooked as a way to provide employment opportunities for people with disabilities. The Javits-Wagner-O'Day program, often referred to as JWOD, provides more than 36,000 Americans, who are blind or who have other disabilities, with the job skills and training necessary to earn good wages and benefits as well as greater independence and quality of life. The JWOD program empowers people with disabilities who traditionally face an unemployment rate of 70 percent and rely heavily on social support programs, such as welfare and SSI.

By employing people with disabilities, the Javits-Wagner-O'Day program is able to increase independence and self esteem by helping these individuals enjoy full participation in their community and market their JWOD skills into other public/private sector jobs.

Everyday, the National Industries for the Blind and NISH are creating new employment opportunities for people with disabilities, along with local nonprofit organizations in my home district of central Illinois. Demonstrating an excellent federal-private sector partnership, NISH National Industries for the Blind and local nonprofits, such as the Community Workshop & Training Center, Inc., in my state, enhance opportunities for economic and personal independence of people with disabilities by creating, sustaining, and improving employment.

This year, the Community Workshop & Training Center Inc. will be celebrating 45 years of proudly providing employment opportunities and residential support for individuals with disabilities, enriching their quality of life, promoting social change and optimizing their potential for independence. They have been proudly participating in the JWOD program since 1991 by providing the janitorial services to the U.S. Federal Courthouse, including my office in Peoria, Illinois. In that time, 49 individuals have been involved, and David Rinaldi, William Wolf, Tom Sledge, Mary Kuebler and Tom Sieks are currently benefiting from the program.

On behalf of people with disabilities, I rise to salute the important contributions of JWOD and Community Workshop & Training Center, Inc. to central Illinois and its citizens. I hereby commend all persons who are committed to enhancing employment opportunities for people with disabilities.

SERVICES FOR ENDING LONG-TERM HOMELESSNESS ACT

HON. ANNA G. ESHOO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Ms. ESHOO. Mr. Speaker, I'm very pleased to join my colleague Representative DEBORAH PRYCE in introducing the Services for Ending Long-Term Homelessness Act (SELHA). This legislation establishes a grant program that would be administered by the Substance Abuse and Mental Health Services Administration for services related to housing for people who have experienced chronic homelessness and who also have disabling health conditions such as mental illness.

The Department of Health and Human Services currently operates grant programs for homeless individuals but none of them are specifically focused on services such as mental health services, substance abuse treatment, health education, money management, parental skills training, and general health care, coordinated with permanent supportive housing.

Chronically homeless individuals need more than housing. In order to truly help, the federal government needs to provide grants that will enable communities to coordinate and deliver health care-related services to these individuals. Without these services, it will continue to be very hard to end the root causes of chronic homelessness.

SELHA specifically: Establishes a grant program for services in supportive housing within the Department of Health and Human Services (RRS) and administered by the Substance Abuse and Mental Health Services Administration (SAMHSA);

Defines "chronically homeless" as an individual or family who is currently homeless, has been homeless continuously for at least one year or has been homeless on at least four separate occasions in the last three years, and has a head of household with a disabling condition.

Make states, cities, public, or nonprofit entities eligible to apply for the grants.

Gives priority to applicants that target funds to individuals or families that are homeless for longer than one year, frequently use the ER, or interact regularly with law enforcement.

Funds services including mental health services, substance abuse treatment, referrals for primary health care and dental services, health education, money management, and parental skills training.

Requires initial grant awardees to provide $1 for every $3 of federal money.

Requires renewal grant awardees to provide $1 for every $1 of federal money.

Permits 20 percent of the grant awardees' matching funds to come from other federal grants such as the Community Mental Health Services Block Grant. This provision will encourage collaboration with existing programs and access for homeless people to existing mainstream health and human services systems, while assisting the grant awardees in achieving their match.

Establishes initial grant terms of 3–5 years and renewal grant terms of up to 5 years. (To encourage long-term program success and stability for permanent supportive housing projects and formerly homeless tenants, renewal grant awardees only compete against each other and have priority status for additional funding.)

Chronic homelessness is a dreadful but solvable problem. In my District, the most recent one-day survey (February 27, 2004) in Santa Clara County identified over 7,000 homeless individuals, with over 1,000 defined as chronic. In San Mateo County, over 1,730 individuals are homeless, with approximately 650 defined as chronic.

Chronic homelessness is very costly to emergency rooms, psychiatric hospitals, VA hospitals and the criminal justice system. This legislation will provide more resources to reduce these costly expenditures, while simultaneously permitting individuals with complex health needs to be housed and begin their journey to a productive life.

I urge all my colleagues in the House to support this legislation.

TRIBUTE TO ARMY SPECIALIST KEITH ''MATT'' MAUPIN

HON. JOHN E. SWEENEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. SWEENEY. Mr. Speaker, Saturday, April 9, 2005 marks a tragic one-year anniversary for Army Specialist Keith "Matt" Maupin and America. Spc. Maupin, better known as Matt to his friends, went missing one year ago and is the only American soldier to be unaccounted for. His courage and valor are unquestioned and our prayers are with his family and friends as they wait daily for word on his whereabouts. The community of Batavia, OH has not forgotten their brave soldier, but we must all remember Matt and pray for his safe return.

Our brave men and women fighting on the front lines in Afghanistan, Iraq and throughout the world sacrifice so much. Beyond their own personal safety, they also sacrifice seeing their wives, husbands, parents and friends. They miss their children's first steps, soccer games and special moments. There is no way to repay the debt we owe them. But we can do the next best thing and honor them through actions. Tell them and their families how grateful we are for their sacrifice and most importantly, bring all of our troops home.

On Saturday, April 9, 2005 lets take a moment to remember Spc. Maupin and all of our American heroes.

SOCIAL SECURITY AND THE 2006 BUSH BUDGET

HON. STEPHANIE TUBBS JONES

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mrs. JONES of Ohio. Mr. Speaker, I rise today in opposition to the Bush Administration's 2006 budget which will in essence shortchange the American people. It fails to include the cost of the war in Iraq, increases the cost of health care for our veterans, and cuts billions in education, health care, housing, and environmental programs, while adding more than $4 trillion to the deficit in the next 10 years.

What is more amazing is that while the President has made the privatization of Social Security his top priority, he has failed to provide any details for his proposed program.

Most notably, the budget omits the cost of the proposed privatization which according to independent experts will cost more than $4 trillion in the first 20 years. Additionally, his budget continues the raid on the Social Security Trust Fund, borrowing and spending all of the money from the Social Security Trust Fund over the next five years.

The President's failure to provide a clear and honest accounting of the difficult tradeoffs between increases in the debt, benefit cuts, and tax increases necessary to fund the White House's privatization proposal is another attempt to pull the wool over the eyes of the Americans. But, Mr. President, I want you to know that the American public is not fooled by this false rhetoric.

So today I want to speak on behalf of the over 160,000 people in my district and the more than 48 million people across this country who currently rely on Social Security benefits. These are not just retired Americans, but also people with disabilities and those who have lost a parent. Many of them are seniors who without their Social Security benefits, nearly half would be living in poverty. Instead of privatizing and enacting a plan that will gamble benefits in the stock market we should be working on a plan to make Social Security solvent for the long term. We owe it to the American people who have worked all their lives and paid into this program to strengthen, not weaken Social Security. And we deserve better than this reckless and irresponsible budget.

A SPECIAL TRIBUTE TO THE MEMBERS OF THE OHIO AIR NATIONAL GUARD 180TH FIGHTER WING ON THE OCCASION OF THE 50TH ANNIVERSARY OF THE BASE

HON. PAUL E. GILLMOR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. GILLMOR. Mr. Speaker, it is my great pleasure to pay special tribute to the men and women, both past and present, who serve the Ohio Air National Guard's 180th Fighter Wing in Swanton, Ohio.

In 1955, the 112th Bombardment Squadron moved from the Akron-Canton Airport to Toledo and became a Fighter Interceptor Squadron. Soon after, the base became a Tactical Fighter Squadron and was activated for the Berlin Crisis. Then in 1962, the squadron became part of the newly formed 180th Tactical Fighter Group. After earning the Air Force Outstanding Unit distinction in both 1985 and 1990, members of the base were deployed to Panama during Operation Just Cause and Iraq for both Operation Desert Shield and Operation Desert Storm.

Today, the 180th Fighter Wing is equipped with F–16 Fighting Falcon aircraft and continues to be a tactical asset to the National Guard. Members have served in Operations Provide Comfort and Operation Northern Watch over Iraq in 1996, 1998, and 1999. Additionally, the brave men and women of the 180th were some of the first to scramble jets in defense of our Nation on September 11th.

Because its central location places the 180th Fighter Wing within a 30 minute flight time to nearly 50 million Americans, the base has been a vital force in American airpower for the past 50 years. The men and women who have served our area have benefited from the excellent quality of life in Northwest Ohio, and we in Northwest Ohio have benefited from their service. Many of my constituents have served honorably as members of the 180th Fighter Wing and earned numerous distinctions. In addition, the airmen of the 180th have contributed to our community through programs such as the ''Homeless Awareness'' project, the ''Adopt-A-School'' program and the Boy Scouts of America.

Mr. Speaker, I ask my colleagues to join me in paying special tribute to the men and women of the Ohio Air National Guard's 180th Fighter Wing in Swanton, Ohio. Their dedication to duty and contribution to air power has proven the airmen of the 180th Fighter Wing to be American heroes. Today, we pay respect to 50 years of dedicated service to Northwest Ohio and look forward to a future in which our children and grandchildren grow up under the protections provided by these great patriots.

TRIBUTE TO MANUEL HERNANDEZ

HON. DEVIN NUNES

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. NUNES. Mr. Speaker, I rise today with my colleague Representative JIM COSTA, to pay tribute today to Manuel Hernandez, a long-time community activist in Visalia, California, who died February 25th at the age of 91.

Mr. Hernandez was affectionately known as the ''Godfather of North Visalia,'' where he mentored many up and coming leaders in the large Latino community.

He was born in 1913 in Torreón, in the Coahuila state of northern Mexico. His family moved to the United States in the 1920s. He worked in the fields earning a living by picking cotton, oranges, peaches and other crops for as little as 15 cents an hour.

Later, he worked cleaning up after construction crews. He became a carpenter and took certification courses at College of the Sequoias to become a construction supervisor.

In the 1960s, he was involved in the formation of Self-Help Enterprises, helping low-income families build and own homes. As a longtime member of the Self-Help board and during his service with a long list of organizations and citizens advisory committees, including the Tulare County Grand Jury, he was an advocate for Visalia's less fortunate.

Hundreds gathered at his funeral in March, and as his hearse drove to the cemetery, children stood on the sidewalk and saluted him.

Once again, we urge our colleagues to join us in applauding his many years of selfless dedication to the community he loved. His legacy of hard work, compassion, and cooperation stands as an example for us all.

INTRODUCING A RESOLUTION TO EXPRESS THE SENSE OF THE HOUSE OF REPRESENTATIVES IN SUPPORT OF FEDERAL AND STATE FUNDED IN-HOME CARE OF THE ELDERLY

HON. ALCEE L. HASTINGS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. HASTINGS of Florida. Mr. Speaker, I rise today to express my support of Federal and State funded in-home care for the elderly. This legislation highlights the inadequacies seniors face with electing in-home care. By increasing financial assistance for in-home care, establishing fee payment guidelines, implementing better schooling for in-home aides, and assembling a supervisory board of care givers, we can help ensure the quality of care elderly receive in-home is as adequate as hospitalized attention.

Mr. Speaker, this is an important resolution for three crucial reasons. First, it endorses the efforts of the elderly to remain independent and sustain their viability during the last years of their life. Supporting studies show that seniors who receive in-home care have greater life expectancies than seniors who are moved from everything that is familiar to them and placed in nursing homes. Second, this resolution promotes the expansion of employment opportunities in the nursing and in-home care industries. By implementing government funded in-home care to equal that of nursing home care, more seniors will elect to be nursed at home, which in turn increases job opportunities. Finally, this resolution encourages the establishment of better treatment and guidelines for students and schools who train certified nurse assistants and home health aides. Through adoption of uniformly high standards, we can ensure our seniors have access to qualified professionals when selecting in-home care. Each of these important ambitions are achievable through raising the quality of in-home care.

Mr. Speaker, I urge my colleagues to support this legislation. As Members of Congress, we have a great opportunity to make a positive impact on this issue, an issue that is of concern to many of our grandparents, parents, and will be of concern to us. I look forward to working with my colleagues and moving this resolution forward.

PERSONAL EXPLANATION

HON. RANDY NEUGEBAUER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. NEUGEBAUER. Mr. Speaker, I was unable to return to Washington from my congressional district due to illness on April 5, 2005, and missed Rollcall vote numbers 91–93. Had I been present I would have voted ''aye'' on all three votes:

Rollcall Vote Number 91: H. Res. 108—Commemorating the life of the late Zurab Zhvania;

Rollcall Vote Number 92: H. Res. 120—Commending the efforts of the Armed Forces and civilian employees in response to the earthquake and tsunami of December 26, 2004; and

Rollcall Vote Number 93: H. Con. Res. 34—Honoring the life and contributions of Yogi Bhajan.

INTRODUCTION OF THE RURAL ACCESS TO BROADBAND SERVICES ACT OF 2005

HON. MARK UDALL

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. UDALL of Colorado. Mr. Speaker, I rise today to introduce a bill to expand broadband access into rural areas so that millions of Americans in this country are not left behind in our increasingly information-dependent society. I am introducing this bill with my colleague from Colorado, Rep. JOHN SALAZAR, and I greatly appreciate his support.

History has shown us that improvements in information-sharing have resulted in increased productivity, a better-educated society, and the growth of technology. The development and mainstream use of the Internet has changed how we conduct business and how we provide community services, and has revolutionized information sharing throughout the world.

The benefits the Internet has provided are invaluable. However, access to this technology has created a divide between haves and have-nots in our country. High speed broadband Internet is commonplace in most urban and suburban areas. Yet although nearly a quarter of the nation's population lives in rural America, rural access to broadband is either nonexistent or extremely costly.

Many rurally based industries are dependent on the rapid transfers of information. Being able to utilize broadband technologies would increase their productivity, efficiency, and in turn, profits. For example, accurate and timely weather predictions allow farmers to better gauge the necessary rate of fertilizer application necessary or use of irrigation to maximize their crop yield. Broadband technologies make in-depth predictions of temperature and rainfall accessible by any farmer throughout the world.

Hospitals are dependent on being able to send and receive information in order to save lives. However, many rural hospitals can barely afford to provide basic health services to their patients, let alone pay for access to broadband technology if it is even available.

Schools in rural areas are also at a disadvantage without access to the Internet. As students leave these schools to study at universities or to compete in the workforce, they start at a disadvantage to other students who have been educated from kindergarten with constant access to the information available online.

Comparisons have been drawn between broadband and the rural electrification. It took assistance from government and industry to bring electricity to rural areas in the 1930s. That kind of assistance is what is needed today to bridge the digital divide. Congress passed legislation in 2002 establishing a grant and loan program within the Rural Utilities Service (RUS) to help fund broadband deployment in rural areas. But the broadband program is oversubscribed and underfunded. The president's FY06 request is down 34% from FY05 levels of $545 million.

We need to push for funding for the RUS broadband program, but that isn't enough. Providing access to broadband technologies in rural America is an expensive endeavor for telecommunication companies. The cost of establishing a network to rural areas is hard to recover simply through subscriber fees. Most companies require an incentive before making such an investment. My bill, similar to the bill my colleague from Colorado, Senator SALAZAR, recently introduced, provides that necessary incentive.

First, my bill provides a tax incentive for companies that invest in broadband access in rural regions of our country. Specifically, broadband providers can expense the cost of equipment for, installation of, or connection to broadband services in the first year of service. It also encourages the development of ''next generation'' technology, typically more expensive, through the same type of incentive.

My bill also supports research in technologies that enhance broadband service and provide more effective and less expensive service to rural areas. It directs the National Science Foundation to conduct research into both the availability and access of broadband technologies. Research into advanced technologies that can provide telephone, cable television, and Internet service will enable the same equipment to provide these services and hopefully reduce costs in the process, allowing increased access.

Finally, my bill creates an office in the Department of Commerce to coordinate federal resources relating to rural broadband access. In the past, several agencies have been involved with the development and deployment of broadband. This office will provide a central point within the government to monitor this effort and reduce overlap within other agencies.

I believe this is important legislation that will provide rural regions the tools they need to increase economic opportunity and improve their quality of life. I look forward to working with my colleagues on this important legislation.

TRIBUTE TO JEANNINE MCLAUGHLIN

HON. DANIEL LIPINSKI

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. LIPINSKI. Mr. Speaker, I rise today to honor Jeannine McLaughlin for her unyielding patriotism and support of our great country. Our Nation is fortunate to have people like Jeannine who support our country in unique, but very important ways.

During the summer on 2004, while building a new home in LaGrange, Illinois, Jeannine committed an extraordinary patriotic act: she asked for her house to be built only with products made from American companies.

Throughout the design and building process, Jeannine put forth an extreme amount of time and energy in researching even the minutest details of her home; all in hopes of realizing her American dream home. From the locks on her doors, to the tiles on her bathroom floors, Jeannine assured that all that could be made by American companies in America was used in her home.

Jeannine sacrificed time and money for her American-made home. She endured a ten percent increase in the building costs of her home. Even the smallest fixtures in the house were at times double the cost of those from international competitors. As the labor of her dreams are realized, Jeannine McLaughlin now looks at her home with pride as she knows her home is as American made as any home can be.

Today, I ask my colleagues to join me in honoring Jeannine McLaughlin for her unparalleled dedication to our country. We wish her well in her new, truly American home.

TRIBUTE TO SENATOR HOWELL HEFLIN

HON. ROBERT E. (BUD) CRAMER, JR.

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. CRAMER. Mr. Speaker, with profound sadness, I rise today to honor the life of former U.S. Senator Howell Heflin. Senator Heflin served in the U.S. Senate on behalf of the State of Alabama for 18 years. He was a nationally known and popular Senator, who fought tirelessly for the people of Alabama. He passed away on March 31, 2005 at the age of 83.

Before his election to the Senate, Senator Heflin was Chief Justice of the Alabama State Supreme Court. As Chief Justice, he was the lead author of the Alabama Judicial Code, which reformed Alabama's outdated legal system. His grass roots efforts established a model for future constitutional reform not only in Alabama but across the nation.

During his time in the Senate he was known for his sharp wit and deep understanding of the issues being addressed by Congress. He had an innate ability to describe difficult and complex subjects in such a way that most anyone could understand and form an opinion on them.

Senator Heflin was a strong advocate for civil rights, the Marshall Space Flight Center, Redstone Arsenal, the Tennessee Valley Authority, and southern agriculture along with many others. His work helped lay the foundation for the new technological economy of North Alabama.

Senator Heflin was respectably referred to by his colleagues as ''The Judge,'' because of his position as Chief Justice and his long tenure as Chairman of the Senate Ethics Committee. It was said that he ruled over the Chamber with an iron fist and demanded his fellow Senators live up to higher standards.

Mr. Speaker, Senator Heflin commanded respect from his colleagues, and made the least among us feel as important as anyone else. He was a friend to me during and after his

time in Washington. He will be missed by all who knew him.

On behalf of everyone in North Alabama, I respectively rise to honor and pay tribute to a great American leader.

FREEDOM FOR THE PEOPLE OF TIBET

HON. ANTHONY D. WEINER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. WEINER. Mr. Speaker, I rise today with indignation over the situation in Tibet. In 1949, Tibet was invaded and occupied by The People's Republic of China. In the course of the invasion and occupation, an estimated 87,000 Tibetans were arrested, deported to labor camps, or killed.

The situation has not much improved over the past sixty years. Tibetan freedom of choice is still not tolerated by the People's Republic of China and harsh punishments await any who diverge from Chinese mandates.

Each year thousands of innocent people are thrown in prison or killed under a corrupt and cruel system. Even peaceful opposition is met with exacting penalties. In fact, Buddhist monks and nuns are regularly shipped to detention for exercising their religion.

The people of Tibet live in constant fear they will be imprisoned, tortured, or killed for peacefully expressing their political and religious beliefs, or in the best case scenario, they will simply disappear in the dark of the night.

We must help the Dali Lama and the people of Tibet in their quest to live free from oppression. We must all work towards a peaceful resolution to this situation so not one more Tibetan is carried off by the night.

PAYING TRIBUTE TO MARY ELLEN SHEETS OF LANSING, MICHIGAN

HON. MIKE ROGERS

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. ROGERS of Michigan. Mr. Speaker, I rise to honor the accomplishments of Mary Ellen Sheets of Lansing, Michigan, who recently was named Entrepreneur of the Year by the International Franchise Association.

Mary Ellen Sheets, founder/CEO of Two Men And A Truck, is the first businesswoman to be honored with this prestigious award which has an illustrious honor roll of recipients, including Tom Monaghan, founder of Domino's Pizza Inc., and J. Willard Marriott of the Marriott Corp., as well as leaders in other franchise organizations such as Subway, Jiffy Lube International, Pizza Hut Inc., and Holiday Inn Inc.

Mary Ellen's teenaged sons started a moving business with a pickup truck in the early 1980s. After the boys left for college, customers kept calling so in 1985, this creative mother paid $350 for an old moving truck and officially opened Two Men And a Truck.

When she first sketched the now-famous company logo, a simple graphic of two stick men in a truck cab to catch readers' attention, Mary Ellen never guessed it would lead to such phenomenal entrepreneurial success. From that simple beginning, her business was catapulted into a vibrant, growing franchised company with 152 locations in 26 states.

While becoming a successful entrepreneur, Mary Ellen Sheets never forgets about her community. This very successful businesswoman also makes time to serve on the boards of Lansing Community College, Michigan Freedom Foundation, Michigan Law Abuse Watch, and Edward Sparrow Hospital. She chaired the 2004 United Way Campaign in Lansing, and has been recognized numerous times, including as one of Michigan's Top 25 Women Business Owners, and Lansing Business Person of the Year.

Mary Ellen Sheets epitomizes the American dream. She rose from a small beginning to become a very successful businessperson who believes in giving back to her community.

Mr. Speaker, I ask my colleagues to join me in honoring this very special woman and community leader, who is truly deserving of our respect and admiration.

TRIBUTE TO PAUL ROGERS

HON. LINCOLN DAVIS

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. DAVIS of Tennessee. Mr. Speaker, I rise today to honor and pay tribute to Mr. Paul Rogers, who recently passed away following an extended illness. He will be sorely missed by his family, friends, and community. The following is a brief biography of Brother Rogers and some of the accomplishments of his long and fruitful life:

Born and raised in Birmingham, Alabama. His father, Andy W. Rogers, was a Deacon at the West End Church and Trustee for the purchase of the Central building in 1941. The Rogers family were charter members at Central (McMinnville). It was here Paul received his early training and encouragement to enter the ministry.

Upon receiving his baccalaureate degree from David Lipscomb University in Nashville and master's degree from Harding Graduate School of Religion in Searcy, AR, he embarked on a long and fruitful career in the ministry. Brother Roger's first sermon was delivered at Central Church of Christ in Birmingham. He began preaching in November, 1952 every Sunday at the Old Jefferson Church of Christ in Smyrna, Tennessee and preached there until graduation from Lipscomb in 1956. He worked as Associate Minister at Church Street Church in Lewisburg, Tennessee 8 months in 1956 and moved to Centerville Church of Christ in January 1957.

Brother Rogers was the Minister of the Centerville Church of Christ, Centerville, Tennessee for more than 48 years. No preacher in the fellowship of Churches of Christ has a longer tenure at his congregation and at no rural church quite as large as the Centerville church according to Jim McInteer, president of 21 st Century Publishing, a book publisher affiliated with the Churches of Christ. In these years, worship attendance has grown from 350 to 700; annual contribution from $19,000 to $600,000.

The congregation has built a new church building, new church camp valued at $1,000,000; off-street parking for 300 cars; $200,000 Outreach Center for benevolence and senior citizens work; a 75–unit, $2,500,000 apartment complex, Tulipwood for senior citizens, and a new $1,200,000 Educational and Fellowship Complex recently constructed. He has also conducted over 800 funeral services in Hickman County, Tennessee.

He was the first president of the Centerville Elementary PTA, past Chairman of Hickman County Library Board, served on Bluegrass Regional Library Board, chairman of Centerville Beautiful Commission, former President of Centerville Kiwanis Club, served on City Industrial Board, served on the Board of Trustees at Clover Bottom Developmental Center for the Retarded in Nashville, Tennessee, and served on Board of First Farmers and Merchants Bank, Centerville, Tennessee. Brother Rogers was awarded Honorary Membership in Hickman County Jaycees for service to the community, selected as Alumnus of the Year in 1975 at Harding Graduate School of Religion, voted Centerville Man of the Year for 1978, selected as Alumnus of the Decade at David Lipscomb College in 1982, received the Distinguished Christian Service Award from Harding University 1988, honored by Tennessee State Legislature in 1983 for long ministry and service in Centerville, honored by Tennessee House of Representatives in 1992, honored in 1997 by Tennessee State Senate on 40th Anniversary with the Centerville Church for the longest full-time tenure among churches of Christ in Tennessee history, selected in December 1999 by the Gospel Advocate as one of ''100 Trailblazers of the 20th Century'' among Churches of Christ, and in 2004 received the Lifetime Achievement Award from Hickman County Chamber of Commerce to name a few.

Brother has given lectures at David Lipscomb University, Faulkner University, Freed-Hardeman University, Abilene Christian University, Oklahoma Christian University, Harding University, Harding Graduate School of Religion, Western Christian College, Blue Ridge Encampment, Training for Service Series in Chattanooga, North Alabama Training for Service Series in Florence, Alabama, Training for Service Series in Memphis, Training Series in Evansville, Indiana. Yosemite Bible Encampment, Yellowstone Bible Encampment. He served on the Board of David Lipscomb University 1986–2003 and was secretary of the Johnson Scholarship Foundation at David Lipscomb University.

His minister includes; touring Israel and studying archaeology there in 1969, working on the London, England Campaign in 1963, and preached in India in 1975. He also traveled and preached behind the Iron Curtain in 1977, made three trips to the Holy Land, and frequent mission trips to the Turks and Caicos Islands.

Brother Rogers was the author of the following books and booklets: My God and My Service; My God and My Marriage; Things

Surely Believed Among Us (4th printing in 2004); Let the Earth Hear His Voice; When Freedom is Gone; Comments on Revelation; Building Up The Church In A Small Town; God Give Us Christian Homes. His most recent books are I Have Much People In This City (depicting 125–year history of the Centerville Church); and These Forty Years (a biography of his ministry with the Centerville Church).

He accomplished all these things in life while at the same time being a loving husband to the former Judy Johns and father to four children and six grandchildren.

Mr. Speaker, I am honored to pay tribute to Paul Rogers today. His dedication and selflessness to his community are examples to all who wish to lead. All the honors and awards that Brother Rogers has received in his life still do not do justice to recognize the contribution this man has made to his community and the world. Paul will be missed very much by all who knew him.

TRIBUTE TO MARY RITA TAMAYO

HON. LYNN C. WOOLSEY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Ms. WOOLSEY. Mr. Speaker, I rise today to honor Mary Rita Tamayo for her service to troubled young people in Sonoma County. Ms. Tamayo passed away in July of 2003 at the age of 85. On April 17, 2005, Social Advocates for Youth in Sonoma County will announce the new transitional housing facility in Santa Rosa—the Tamayo House—to commemorate Mary and Jose Tamayo's contributions to the community. The Tamayo House will provide 24 young men and women, who are aging out of the foster care system, with a place to live.

Born in 1918 in Kansas to Mexican immigrant parents, Mary was raised a devout Catholic. She moved with her husband, Jose, from Nebraska to California in 1977 to open a family owned Mexican restaurant. Husband and wife co-founded the restaurant La Tortilla Factory Mexicantessan.

Not only did Mary provide employment opportunities and support youth organizations, but she also encouraged teenagers to complete their education. Her biggest regret in life was never finishing high school, but she made sure her five sons graduated from college.

Mr. Speaker, it is my pleasure to honor Mary Tamayo, whose kindness and generosity exemplify the best that a person has to offer. Her commitment to Sonoma County's youth population is an inspiration to immigrant families and to all of us who care about our community. She is already missed, but the opening of Tamayo House will keep her memory alive for generations to come.

BROOKLYN CENTER LIONS CELEBRATE 50TH ANNIVERSARY OF SERVING MINNESOTANS

HON. JIM RAMSTAD

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. RAMSTAD. Mr. Speaker, I rise today to pay tribute to the Brooklyn Center, Minnesota, Lions Club, which has served the great City of Brooklyn Center and all of Minnesota for 50 years with extraordinary excellence.

The Brooklyn Center Lions Club rose from humble beginnings a half century ago, with early membership in the single digits, scrap drive projects and the purchase of a single pair of eyeglasses for a needy child. The Lions Club has now grown to over 70 members, who organize projects that shape the community and better the lives of thousands of people.

Membership has been strong and growing over the past 50 years, but only Lion Larry Roen remains as an original charter member. Congratulations Lion Roen!

Mr. Speaker, the Brooklyn Center Lions Club also has the distinction of producing five District 5M5 Governors over the last 50 years: Frank Erwin, Bill Legler, Richard Risley, Thomas Shinnick and Orlander "Ole" Nelson, each of whom represented the finest Lions Club tradition of public service to help those in need.

The Lions gave generously 36 years ago when they built beautiful Lions Park in Brooklyn Center. Their generosity didn't stop there, as they later added a fantastic picnic shelter to the park.

Through the Quest Youth Outreach program, which emphasizes drug abuse prevention, community service, education, environment, health, recreation and service-learning, the Brooklyn Center Lions have reached out to three school districts with their important public service.

Mr. Speaker, the Brooklyn Center Lions serve people through many important programs like Campaign Sight First, Hearing Dog and Leader Dog. The Brooklyn Center Lions are also active in the Minnesota Lions Eye Bank and the Children's Eye Clinic and Hearing Foundation. Additionally, the Lions sponsor the Earle Brown Days Parade, one of the largest parades in Minnesota, as well as numerous Halloween parties. The Brooklyn Center Lions are also active in Boy and Girl Scouts.

Deeply involved in diabetes research, the Brooklyn Center Lions, with the help of other 5M5 District Clubs, have raised $20,000 for this important cause.

Mr. Speaker, in keeping with the true spirit of the Lions' motto, "We Serve," the Brooklyn Center Lions have served the people of Brooklyn Center very well for 50 years. We thank them for their service, which they have performed with pride and distinction. Congratulations, Brooklyn Center Lions, on your 50 years of service!

IN HONOR OF HOUSING OPPORTUNITIES OF NORTHERN DELAWARE

HON. MICHAEL N. CASTLE

OF DELAWARE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. CASTLE. Mr. Speaker, it is with great pleasure that I rise today to pay tribute to Housing Opportunities of Northern Delaware, Inc., an organization that has served on the front lines of the battle for fairness in housing. Through their advocacy for equal opportunities in the sale, rental, or leasing of housing, they have made invaluable contributions to my district. On April 4, 2005, Housing Opportunities of Northern Delaware will enjoy their 22nd Annual Proclamation Ceremony, marking their continued commitment to a housing environment devoid of discrimination.

For 37 years, millions of Americans have achieved the dream of home ownership under the auspices of the Federal Housing Act. With April 2005 designated as Fair Housing Month, I believe this recognition is especially appropriate, and ask that we continue to follow in the footsteps of this landmark legislation.

Mr. Speaker, once again, I applaud the efforts of Housing Opportunities of Northern Delaware, Inc. and commend the cause which they hold so dear.

HONORING POLLY ANN GONZALEZ

HON. SHELLEY BERKLEY

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Ms. BERKLEY. Mr. Speaker, on March 28, 2005, my community of southern Nevada lost one of its most outstanding citizens. Polly Ann Gonzalez was taken from us in a highway accident, a tragic event that shocked the community. Southern Nevadans by the thousands have expressed their sense of loss and their loving memories of Polly through their e-mails of condolence, their attendance at memorial services, and their contributions in support of Polly's daughters, Sabrina and Gabriella.

The passing of Polly Gonzalez is a heartrending instance of the good dying young, far too young. In her mere 43 years, Polly attained the highest levels of accomplishment, both as a newswoman and as an advocate for people in need.

Polly first earned the reputation as a topnotch television investigative reporter in northern California, exposing the social and economic injustices faced by agricultural workers and by revealing the growing threat of gang violence, among other important stories she brought to light. Honored with an Emmy Award, Polly moved on to Las Vegas, where she quickly established herself as one of the area's most popular, admired, and energetic television news anchors.

Polly's passion for bringing truth to the public through her reporting was matched by her commitment to public service. She established herself as a most effective advocate for the advancement of the Latino community and for

the less advantaged. She went beyond the call of duty to be involved in community organizations and events, accepting myriad requests for her time, her talent, and her energy to support the people of the Las Vegas area.

As was stated on KLAS–TV8, where Polly worked for 10 years, she ''always was . . . standing up for people whose voices might not have carried as much weight as hers.'' She was a preeminent role model for young women, whom she showed, ''if they put their mind to it they could accomplish anything.''

Polly's passing has brought an overwhelming and nearly unprecedented outpouring of emotion from those who knew her personally or knew her only through her newscasts. I join all southern Nevadans in mourning the loss of a great friend, a great newswoman, and a great contributor to the building of a community with opportunity for all. I miss you, Polly, and I thank you, my friend, for the treasured moments I shared with you, for your soaring spirit, and for the marvelous work you accomplished.

THE CIVIL LIBERTIES RESTORATION ACT

HON. HOWARD L. BERMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. BERMAN. Mr. Speaker, today, I am joined by my colleague BILL DELAHUNT (D–MA) in introducing the Civil Liberties Restoration Act.

Three and a half years ago, following the attacks of Sept. 11th, the Attorney General asked Congress for a long list of new powers he felt were necessary to protect the United States from future terrorist attacks. Six weeks later, Congress granted those powers in the USA PATRIOT Act.

I voted for the PATRIOT Act in 2001 because I felt that a number of its provisions provided essential tools to fight terrorism. I did so expecting that Congress would undertake diligent oversight of the Attorney General's use of the tools we provided. Unfortunately, that has not been the case.

The Civil Liberties Restoration Act (CLRA) is our effort to return oversight to our legal system and restore the kind of checks and balances that are the foundation of our government.

Since we enacted the PATRIOT Act almost, there has been tremendous public debate about its breadth and implications on due process and privacy. I do believe that there are some misperceptions about the law and its effects, but I also believe that many of the concerns raised are legitimate and worthy of review by Congress.

The CLRA does not repeal any part of the PATRIOT Act, nor does it in any way impede the ability of agencies to share information. Instead, it inserts safeguards in a number of PATRIOT provisions.

The bill addresses two pieces of the PATRIOT Act in particular. First, it ensures that when the Attorney General asks a business or a library for personal records, he must have reason to believe that the person to whom the records pertain is an agent of a foreign power. Second, the bill would make clear that evidence gained in secret searches under the Foreign Intelligence Surveillance Act (FISA) cannot be used against a defendant in a criminal proceeding without providing, at the very least, a summary of that evidence to the defendant's lawyers. One of my biggest concerns when we passed the PATRIOT Act was that the changes we made in FISA would encourage law enforcement to circumvent the protections of the 4th Amendment by conducting searches for criminal investigations through FISA authority rather than establishing probable cause. This provision in the CLRA does not take away any of the powers we provided in the PATRIOT Act. It simply requires that if the government wants to bring the fruits of a secret search into a criminal courtroom it must share the information with the defendant under existing special procedures for classified information.

The Civil Liberties Restoration Act deals with more than the PATRIOT Act. It also addresses a number of unilateral policy actions taken by Attorney General Ashcroft both before and after enactment of the PATRIOT Act without consultation with or input from the Congress. For example, the Administration has undertaken the 'mining' of data from public and non-public databases. Left unchecked, the use of these mining technologies threatens the privacy of every American. The CLRA requires that any federal agency that initiates a data-mining program must report to Congress within 90 days so that the privacy implications of that program can be monitored.

The Attorney General unilaterally instituted a number of policies dealing with detention of noncitizens that we address. For example, the AG ordered blanket closure of immigration court hearings and prolonged detention of individuals without charges. The CLRA would permit those court hearings to be closed to protect national security on a case by-case basis and requires that individuals be charged within 48 hours, unless they are certified as a threat to national security by the AG as mandated under the Patriot Act.

The CLRA also addresses the special tracking program (known as NSEERS) created by the Attorney General, which requires men aged 16 and over from certain countries to be fingerprinted, photographed and interrogated for no specific cause. This program creates a culture of fear and suspicion in immigrant communities that discourages cooperation with antiterrorism efforts. The CLRA terminates this program and provides a process by which those individuals unjustly detained could proceed with interrupted immigration petitions. This is the only provision of the CLRA that eliminates a program outright, but this program has already been partially repealed by the Department of Homeland Security and largely replaced by the US VISIT system.

When I voted for the PATRIOT Act, I understood that my vote carried with it a duty to undertake active oversight of the powers granted by the bill and carefully monitor their use. When Congress passed this law, Mr. Speaker, we included a sunset provision that would require us to reconsider and evaluate the policies we adopted. This afternoon, the House Judiciary Committee held its first hearing to consider these sunset provisions, and we heard testimony from Attorney General Alberto Gonzales asking that we make the sunsetted provisions of the PATRIOT Act permanent.

In light of the many policies implemented unilaterally by this Administration since passage of the PATRIOT Act, our review of this Congress must go beyond just the sunset provisions in order to fulfill our duty of oversight. The review started today by the House Judiciary Committee must encompass the whole of our anti-terrorism policies. Congress should continue to examine whether the policies pursued by the Attorney General are the most effective methods to protect our nation from terrorists, whether they represent an efficient allocation of our homeland security resources, and whether they are consistent with the foundations of our democracy.

Fortunately, the 9/11 Commission laid out a standard by which we can evaluate our current policies. First, Congress should not renew any provision unless the government can show, ''(a) that the power actually materially enhances security and (b) that there is adequate supervision of the executive's use of the powers to ensure protection of civil liberties.'' Second, the Commission advises that ''if the power is granted, there must be adequate guidelines and oversight to properly confine its use.'' This is the standard that we ought to apply across the board. It is the standard that Mr. Delahunt and I applied in drafting this legislation.

It is my hope Mr. Speaker, that this standard will guide us in our work and that we will enjoy an active debate on these issues and this legislation.

TRIBUTE TO MARY NELL PORTER

HON. KENNY C. HULSHOF

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. HULSHOF. Mr. Speaker, I rise today in recognition of a Missourian who has devoted countless hours promoting the arts in my hometown of Columbia, Missouri. She is in every sense a true Renaissance woman. Mr. Speaker, I am referring to Mary Nell Porter.

After graduating from Chillicothe Business College, Mary Nell moved to Washington, D.C. to support her country in the effort that yielded victory in World War II. It was during this time that Mary Nell began what would become a lifetime commitment to volunteerism. Her unwavering support for fellow Americans is reflected in her activities that included volunteering her time at recruiting stations and at Cardinal Spellman's Foundling Home in New York.

At the end of World War II, she moved to New York City, where she defied the limits that hindered the progress of women in the workforce. By rising to positions of authority and respect in prominent companies such as American Cynamid and Alexander's Department Store, Mary Nell served as an inspiration to countless women who made the decision to pursue a professional career.

Upon her return to Missouri, Mary Nell continued her pursuit of knowledge and graduated

from the University of Missouri-Columbia with a degree in Business Administration. Since that time, she has focused her efforts on a passion for music and joined the Women's Symphony League, Friends of Music of the University of Missouri, the University of Missouri's Arts & Sciences Alum Association Board and later served on the Missouri Symphony Society Board of Directors.

Mary Nell's time, energy and generous spirit have been invaluable to the Missouri Symphony Society as well as the Missouri Theatre. She has been critical in the creation of a thriving arts community in my hometown of Columbia. I am eternally grateful for her devotion to our community, and it is my pleasure to share Mary Nell Porter's accomplishment and valuable contributions with my colleagues.

THE UNITED STATES COMMISSION ON AN OPEN SOCIETY WITH SECURITY ACT

HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Ms. NORTON. Mr. Speaker, today, I reintroduce the United States Commission on an Open Society and Security Act, expressing an idea I began working on when the first signs of the closing of parts of our open society appeared after the Oklahoma City bombing tragedy, well before 9/11. This bill has grown more urgent as increasing varieties of security throughout the country have proliferated without any thought about their effect on common freedoms and ordinary access. The bill I introduce today would begin a systematic investigation that takes full account of the importance of maintaining our democratic traditions while responding adequately to the real and substantial threats terrorism poses.

To be useful in accomplishing its difficult mission, the commission would be composed not only of military and security experts, but for the first time, they would be at the same table with experts from such fields as business, architecture, technology, law, city planning, art, engineering, philosophy, history, sociology, and psychology. To date, questions of security most often have been left almost exclusively to security and military experts. They are indispensable participants, but these experts cannot alone resolve all the new and unprecedented issues raised by terrorism in an open society. In order to strike the balance required by our democratic traditions, a cross cutting group needs to be working together at the same table.

For years now before our eyes, parts of our open society have gradually been closed down because of terrorism and fear of terrorism—whether checkpoints at the Capital even when there are no alerts or applications of technology without regard to their effects on privacy. However, particularly following the unprecedented terrorist attack on our country, Americans have a right to expect additional and increased security adequate to protect citizens against this new frightening threat. People expect government to be committed and smart enough to undertake this awesome new responsibility without depriving them of their personal liberty. These years in our history will long be remembered by the rise of terrorism in the world and in this country. As a result, American society faces new and unprecedented challenges. We must provide ever-higher levels of security for our people and public spaces while maintaining a free and open democratic society. As yet, our country has no systematic process or strategy for meeting these challenges.

When we have been faced with unprecedented and perplexing issues in the past, we have had the good sense to investigate them deeply and to move to resolve them. Examples include the National Commission on Terrorist Attacks Upon the United States (also known as the 9/11 Commission), the Commission on the Intelligence Capabilities of the United States Regarding Weapons of Mass Destruction (also known as the Silberman Robb Commission) and the Kerner Commission following riotous uprisings that swept American cities in the 1960's and 1970's.

The important difference in the Commission proposed by this bill is that it seeks to act before a crisis in basic freedoms gradually takes hold and becomes entrenched. Because global terrorism is likely to be long lasting, we can not afford to allow the proliferation of security that most often requires no advance civilian oversight or analysis of alternatives and repercussions on freedom and commerce.

With only existing tools and thinking, we have been left to muddle through, using blunt 19th century approaches, such as crude blockades and other denials of access, or risking the right to privacy using applications of the latest technology with little attention to privacy. The threat of terrorism to our democratic society is too serious to be left to ad hoc problem-solving. Such approaches are often as inadequate as they are menacing.

We can do better, but only if we recognize and then come to grips with the complexities associated with maintaining a society of free and open access in a world characterized by unprecedented terrorism. The place to begin is with a high-level presidential commission of wise men and women expert in a broad spectrum of disciplines who can help chart the new course that will be required to protect both our people and our precious democratic institutions and traditions.

THE SAFETY OF SILICONE BREAST IMPLANTS

HON. CHARLIE NORWOOD

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Mr. NORWOOD. Mr. Speaker, in addition to my remarks today, I am also submitting a letter written by Dr. Scott Spear to the Senate Health Education Labor and Pensions Committee and the House Energy and Commerce Committee. In it, Dr. Spear, who is the President of the American Society of Plastic Surgeons, brings to light an important health issue that the Food and Drug Administration (FDA) is currently debating: the safety of silicone gel-filled breast implants. The FDA's General and Plastic Surgery Devices Panel has scheduled an upcoming hearing that will focus primarily on the safety of these products for the American consumer. The information that Dr. Spear shares in his letter is important for us to take note of as this panel continues its work to make an informed, science-based decision on the safety of these implants. In addition, I am submitting for the RECORD a pamphlet entitled Safety of Silicone Breast Implants that reviews the long term studies that have been performed on silicone gel-filled breast implants. Taken along with Dr. Spear's letter, this brochure makes a compelling argument that in determining the very real and unquestionably important issue of determining the safety of these implants, we must set preconceived notions aside, and ensure that science dictates our actions. I urge my colleagues to review these two documents and I encourage you to join me in supporting the unbiased and open-minded work of the FDA panel as it determines the safety of silicone gel-filled breast implants for American consumers.

MARCH 4, 2005.

U.S. Senate Health, Education, Labor, and Pensions Committee, U.S. House Energy and Commerce Committee, (Members and Health Legislative Assistants).

DEAR SENATORS: The Food and Drug Administration (FDA) is conducting an ongoing regulatory process regarding breast implants, which the American Society of Plastic Surgeons (ASPS) fully supports. As physicians and patient advocates, we support sound science and have confidence that the FDA will review valid scientific data and make its decisions based on the best interests of patients. Moreover, we believe a strong post-market surveillance process will serve the best interests of our patients.

As part of this process, the FDA's General and Plastic Surgery Devices Panel will be conducting hearings on April 11–13 regarding the pre-market approval (PMA) applications of two manufacturers' silicone gel-filled breast implants. The FDA appointed panel represents areas of expertise and judgment relevant to the product under review including academicians in specific fields, such as from radiology, oncology, biostatistics, ethics, plastic surgery, general surgery and other disciplines. Each panelist is vigorously screened and cleared by the FDA in advance of their participation. Historically, panelists have been permitted to engage in educational activities promoting patient care. These activities have not been deemed conflicts of interest. Anti-breast implant advocates continue to raise this issue to discredit qualified and reputable clinicians.

As a matter of background, the FDA's General and Plastic Surgery Devices Panel conducted a similar hearing in October 2003. The hearings were conducted in a highly open and transparent process, with more than 20 hours of public testimony and signification deliberation. Ultimately, the 2003 Advisory Panel recommended approval of the device with a number of conditions. The conditions outlined by the panel include development of a model informed consent form, patient education, surgeon education, patient follow-up and exams, annual reports to FDA, implant retrieval testing, a breast implant registry, and recommendation for removal of ruptured implants. In January 2004, the FDA decided to postpone action pending submission of additional manufacturer data outlined in a revised draft guidance to be addressed at this subsequent panel hearing.

Given the level of interest in the FDA's review of silicone breast implants, it is important that Members of Congress are provided accurate and science-based information concerning these medical devices.

PATIENT SAFETY

The ASPS believes that the FDA's scrutiny of this product is appropriate to ensure patient safety. We are not interested in supporting any device that is not proven safe. In 2000, the Institute of Medicine (IOM) issued an exhaustive report that reviewed and analyzed the scientific literature on silicone breast implants. The IOM concluded that there is no link between silicone breast implants and systemic disease. The primary safety issues for women who choose breast implants are local in nature and include the following complications: (1) Capsular contracture or tightening of natural scar tissue around the implant (contracture is unpredictable and, when severe, may require corrective surgery); (2) Implant rupture, which carries risk of additional surgery for replacement; and (3) Infections associated with breast implants, which are generally not common. The IOM report noted that while breast implants have improved over time, patient safety issues associated with local complications require additional research. The ASPS has supported and is supporting continued research in these and other areas.

Our clinical experience over 35 years with breast augmentation surgery shows an excellent track record and the demand for breast augmentation surgery has grown steadily with nearly 250,000 procedures performed in 2003. The ASPS believes that an important component of patient safety and satisfaction with breast augmentation depends on patients being fully informed about both the benefits and risks of the surgical procedure. Consequently, ASPS has developed a comprehensive document that covers all of the risks and potential complications in breast implant surgery for plastic surgeons to use when discussing the procedure with their patients.

CHOICE

Currently saline-filled breast implants, approved by the FDA in 2000, are the only implants available for general use in breast augmentation. Silicone gel-filled implants may only be used in clinical trials for reconstructive breast surgery and limited clinical trials for breast augmentation. The FDA's device approval process will determine whether requirements for safety and efficacy have been met and whether women should have additional choices regarding the type of implants they may select for breast surgery. The implant type that provides the best aesthetic outcome depends on a variety of individual patient factors. In all cases, patient safety and informed decision making should be primary considerations in selecting a particular type of implant.

Like other implantable medical devices, breast implants may not last a lifetime. Hundreds of thousands of women understand this fact and still choose to undergo breast implant surgery. Current research shows that an overwhelming majority are happy with their decision.

HISTORY/SCIENCE

It is important to distinguish between anecdotal and scientific evidence with regard to breast implants. Anecdotal evidence and junk science do not provide valid contributions to the review and analysis of this device. Plastic surgeons actively support valid scientific research on the safety and efficacy of breast implants, as well as the psychological impact of breast augmentation. The following are select areas of scientific research that Congress should be aware of in relation to breast implants.

The National Academy of Sciences' Institute of Medicine report, issued in 2000, found no scientific evidence of an association between silicone breast implants and disease; the report represents a comprehensive and unbiased review of breast implant safety by top experts in a variety of medical fields. Safety of Silicone Breast Implants, Institute of Medicine, National Academy Press, 2000.

Recent studies about suicide among Scandinavian women who have breast implants warrant further investigation. Suicide is a very complicated problem with many contributing factors; biological, genetic, social and cultural. It is important to note that the recent studies do not show a ''cause and effect'' relationship between breast implants and suicide. Plastic surgeons and the medical community in the U.S. have studied breast implants, breast augmentation patients, and breast reconstruction patients for more than 30 years with no indication of a relationship between breast implant surgery and suicide. Further investigation of this issue is appropriate. Mortality among augmentation mammoplasty patients. Epidemiology. 2001; 12:321–326. Total and cause specific mortality among Swedish women with cosmetic breast implants: prospective study. Brit Med j. 326:527–528, 2003.

The National Institutes of Health (NIH) issued a report to Congress in May of 2003 on the status of its research on the long-term health effects of breast implants. The report stated that there was not sufficient evidence to support any relationship between breast implants and connective tissue disorders. The NIH report also cited a recent National Cancer Institute (NCI) finding that women with breast implants showed a slight decrease in the risk for breast cancer. National Institutes of Health. Breast implants: status of research at the National Institutes of Health, May 2003.

Since the Institute of Medicine report in 2000, numerous studies have been conducted which investigate the purported connection of breast implants to cancer. However, researchers have consistently found no persuasive evidence of causal association between breast implants and any type of cancer. Breast Implants and Cancer: Causation, Delayed Detection and Survival, May, 2001 Plastic and Reconstructive Surgery.

In 2000, the Plastic Surgery Educational Foundation established the National Breast Implant Registry (NaBIR). It was founded to collect and analyze data regarding breast implant surgery to further understand the risks and benefits of this procedure. To date more than 21,000 women have registered with NaBIR and there are 316 surgical facilities entering data. We believe that NaBIR is quickly becoming a world standard for an electronic breast implant registry, as it is being considered in a number of European and Latin American countries. In December of 2002, the European Union mandated that participating countries implement breast implant registries by 2004; Denmark, England, Finland, and Germany have already implemented programs. Australia and Brazil have also implemented registries.

The ASPS and its members support sound science and have been leaders in the research on the safety and efficacy of breast implant surgery. Our primary concern is the safety of our patients and we are strongly interested in the collection of accurate and reliable data pertaining to breast implants. We recently launched the medically-grounded online resource for women and other concerned parties, www.reastimplantsafety.org. We encourage you to visit the site for the latest information on breast implants and patient safety. We believe that the upcoming hearing of the FDA General and Plastic Survery Devices panel will again be rigorous and the panel deliberations will be largely based on the findings of science, rather than emotion and anecdote.

The ASPS has offered to work with the FDA, public, and manufacturer in order to address many of the conditions attached to the panel's affirmative recommendation. Specifically, the panel recommended that the manufacturer work with professional organizations to create patient and surgeon education materials, a model informed consent form, and establish a breast implant registry and we are responding to that call. We hear stories every day of women whose lives have been dramatically improved with the use of this device. We are hopeful that the FDA's regulatory review process can continue moving toward a conclusion based on science.

Sincerely,

SCOTT L. SPEAR, MD,
ASPS President.

SAFETY OF SILICONE BREAST IMPLANTS

BACKGROUND

In October, 2003, the General and Plastic Surgery Devices Panel convened by the Food and Drug Administration (FDA) concluded that there was a dearth of long-term safety data related to silicone breast implants. Contrary to this contention, there are in fact almost 100 published papers in the peer-reviewed biomedical literature assessing long-term effects of cosmetic breast implants, virtually all of which are reassuring in their lack of evidence for adverse effects.

Concerns about a link between silicone breast implants and varlious adverse health outcomes were initially raised in the 1980's and early 1990's by anecdotal case reports. However, as unanimously concluded by several independent expert review committees by the late 1990's,[1–5] these alleged health risks have not been supported by the numerous analytic epidemiologic studies of cosmetic breast implant recipients. Since publication of these independent reviews from various countries, including the United States, a large number of long-term cohort studies of connective tissue diseases, undefined connective tissue disease, cancer, neurologic disorders, mother-offspring effects and mortality have been published.[6–38]

CONNECTIVE TISSUE DISEASE

More than 20 case-control and cohort investigations have been conducted in in North America and Europe to evaluate the potential association between cosmetic silicone breast implants and the occurrence of CTDs. Initially, the primary concern was the occurrence of systemic sclerosis, although these epidemiologic studies have examined the occurrence of numerous other CTDs. The published case-control studies,[39–49] and cohort studies,[6,18,35,37,50–59] many of which have been large, long-term follow-up studies, have been remarkably consistent in finding no evidence of an association between silicone breast implants and any individual CTD or all established CTDs combined. Moreover, meta-analyses, weight-of-the-evidence, and critical reviews have unanimously concluded that there is no evidence of an association between breast implants and any of the CTDs evaluated individually or combined.[2–5,60–66]

''ATYPICAL:'' CONNECTIVE TISSUE DISEASE

An association has also been hypothesized between silicone breast implants and some new ''atypical'' disease, which does not fulfill established diagnostic criteria for any known CTD and may bear some resemblance to fibromyalgia.[67] Those studies which did include undefined CTD as an outcome, many of which have been large, long-term follow-up studies, have been strikingly consistent in finding no convincing evidence of an association between silicone breast implants and atypical connective tissue or rheumatic disease.[2,5,6,8,14,18.24,46,68]

FIBROMYALGIA

In 2001, Brown et al.[35] reported an excess of self-reported fibromyalgia among women who had ruptured implants with extracapsular silicone migration (extracapsular rupture) diagnosed by magnetic resonance imaging (MRI). However, this elevated risk ratio cannot be meaningfully interpreted, due to the inappropriate use of a combined group of women with intracapsular rupture and women with intact implants as the comparison group.[68–70] It is also noteworthy that the rates of fibromyalgia reported among women with intact implants or intracapsular ruptures in the study by Brown et al.[36] are remarkably high compared with the estimated prevalence rate of 3.4% for U.S. women[71] and with similar or lower prevalence rates reported in many other countries,[6,55,72–76] indicating a biased selection of women in that study.

Most recently, Holmich et al.[18] explicitly tested the hypothesis of an increased risk of fibromyalgia by rupture status among 238 unselected women with cosmetic silicone breast implants. There was no excess of undefined CTD or other chronic inflammatory condition, including fibromyalgia. None of the women with extracapsular rupture reported fibromyalgia. Thus, the finding by Brown et al.[35] of a greater than two-fold excess of self-reported fibromyalgia among women with extracapsular rupture was not confirmed in the study by Holmich et al.,[18] who concluded that implant rupture is not associated with fibromyalgia or other rheumatic conditions.

BREAST AND OTHER CANCERS

More than 10 epidemiologic studies, many of which have been large and able to assess long-term risks, have been conducted in Europe and North America to evaluate the potential association between cosmetic breast implants and the incidence of breast or other cancers, notably lung cancer, cancers of the cervix and vulva, leukemia, and multiple myeloma.[17,23,24,32–34,77–83] Although the primary concern has been breast cancer risk, epidemiologic studies have been remarkably consistent in finding no evidence of increased risk for breast or other cancers among women with breast implants; in fact; in most studies the risk of breast cancer was below expectation.[1,2,84,85] The rare reported excesses of lung and cervical cancer are likely due to confounding by lifestyle factors and/or reproductive characteristics. In fact only the cohort study by Brinton et al.,[34] which reported a significant excess of deaths from brain cancer, has reported an association with a cancer that is not a likely result of lifestyle factors such as smoking or other activities that are unrelated to implants. The extreme risk estimate for brain cancer reported in this study, which suffers from several methodological shortcomings, is inconsistent with the overwhelming weight of the epidemiologic evidence and is biologically implausible.[86]

BREAST CANCER DETECTION

Concern has been raised that the ability to detect early breast cancer is limited in women with breast implants. The hypothesis that breast implants may interfere with physical breast examination or mammographic visualization of breast tumors, leading to delays in breast cancer diagnosis and worse prognosis among women receiving implants, is based on the findings of a few early clinical studies,[87,88] many of them originating from the same clinic. However, the interpretation of these clinical case series is hampered by potential referral or ascertainment bias, small sample size and absence of a control group. The results of numerous analytic epidemiologic studies, which used control groups to provide comparison data, consistently show that women with breast implants do not in fact present with more advanced stages of breast cancer or experience shorter survival (the clinically relevant outcomes), thus indicating no delay in breast cancer detection following breast augmentation.[19,32,71,89–97]

In a recently published large-scale study,[98] women receiving silicone gel implants for breast reconstruction after breast cancer had significantly lower mortality rates than those women who did not receive breast implants after cancer surgery. Thus, there is no evidence that silicone gel implants adversely affect survival following breast cancer.

NEUROLOGIC DISEASE

With respect to other outcomes, during the past six years, three large, population-based cohort studies have been conducted to evaluate risk for neurologic disease among women with cosmetic breast implants,[9, 28, 99] and no association has been found.

OFFSPRING EFFECTS AND BREASTFEEDING

Similarly, three epidemiologic investigations,[10,15,100] all population-based retrospective cohort studies, have examined health outcomes among children born to mothers with silicone breast implants, and none has found evidence of adverse health outcomes among the children. Concerns about possible contamination of breast milk with silicone compounds and of potential adverse health effects to infants who are breastfed by mothers with silicone breast implants are not supported by the scientific literature. In fact, the American Academy of Pediatrics[101] policy statement on the transfer of drugs and other chemicals into human milk concluded that ''The Committee on Drugs does not feel that the evidence currently justifies classifying silicone implants as a contraindication to breastfeeding.'' Similarly, the Institute of Medicine of the National Academy of Sciences[2] concluded that ''convincing evidence is available that silicon concentrations in breast milk are the same in mothers with and without breast implants, and thus there are no data to support transmission of silicone to infants in breast milk of mothers with implants.''

RUPTURE INCIDENCE

There has been only one published study to date that directly examined the true incidence rate of breast implant rupture by repeated MRI.[21] In a follow-up to their rupture prevalence study,[12] in which 271 women study had a baseline MRI in 1999, a repeat MRI was performed two years later and a rupture incidence analysis was performed based on 317 implants (in 186 women). The authors found an overall rupture incidence rate for definite ruptures of 5.3% per year. The rupture rate increased significantly with implant age. For ''third generation'' implants (barrier-coated, low bleed implants available since 1988), the percentage of implants that remained intact was estimated as 98% at 5 years and 83%–85% at 10 years.[21] Only one prospective study to date has been conducted to address the possible health implications of ruptured, in situ silicone breast implants.

In this unique study, Holmich et al,[25] examined the possible health implications, including changes over time in MRI findings, serological markers, or self-reported breast symptoms, of untreated silicone breast implant ruptures. Sixty-four women with implant rupture diagnosed by MRI were followed for two years, and a second MRI was performed. A control group of women with no evidence of rupture on either MRI was used for comparison. The majority of women had no visible MRI changes of their ruptured implants. There was no increase in autoantibody levels, and no increase in reported breast hardness. Women did report a significant increase in non-specific breast changes compared with women in the control group. The authors concluded that, for most women, rupture is a harmless condition which does not appear to progress or to produce significant clinical symptoms.

LONG-TERM FOLLOW-UP

Over the past six years, the majority of the epidemiologic cohort studies were performed in Scandinavia, where unique nationwide databases and data-linking possibilities exist. Table 1 presents the average years of follow-up and the maximum years of follow-up for these cohort studies, by country:

TABLE 1

Country	Ave. yrs. of follow-up	Max. yrs. of follow-up
Denmark	9	23
Breiting et al.[24]	19	35
Finland	10	30
Sweden	11	29

These studies had, on average, a decade of follow-up and almost three decades of follow-up for the longest term implant recipients. In the recent Danish study by Breiting et al.,[24] the average years of follow-up was 19, with a maximum of 35 years. Thus, the large body of nationwide investigations originating in these populations belies the assertion that there is a dearth of data on long-term effects of silicone breast implants.

SUICIDE

Four mortality studies have reported elevated risks of suicide among women with cosmetic breast implants compared with the general population.[20,29,30,34] Recently, however, the suicide excess has been shown to be related to pre-implant psychiatric disorders.[30]

SUMMARY

In summary, after almost a decade of extensive epidemiologic research, the weight of the epidemiologic evidence is overwhelmingly reassuring that there are no long-term adverse effects associated with silicone breast implants.

HOUSE OF REPRESENTATIVES—Friday, April 8, 2005

The House met at 10 a.m. and was called to order by the Speaker pro tempore (Mr. THORNBERRY).

DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

HOUSE OF REPRESENTATIVES,
Washington, DC, April 8, 2005.

I hereby appoint the Honorable MAC THORNBERRY to act as Speaker pro tempore on this day.

J. DENNIS HASTERT,
Speaker of the House of Representatives.

PRAYER

Dr. Alan N. Keiran, Chief of Staff, Office of the Senate Chaplain, offered the following prayer:

Heavenly Father, as the world grieves the loss of Pope John Paul II, we pause to thank You for a life well-lived and the positive impact this incredible man had on our world.

We thank You also for the men and women of this House of Representatives and ask that You grant them the wisdom, power, and opportunity to honor You in all they are and all they do.

Bless our Nation's fighting forces serving at home, at sea, under the sea, in the air, and in foreign lands. Grant special favor to all who are in harm's way. Shield them in Your sovereign grace.

Be with their family members in the lonely hours of the night, as they prayerfully await their loved ones return.

All this I ask in Your powerful name. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. The Chair will lead the House in the Pledge of Allegiance.

The SPEAKER pro tempore led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following communication from the Clerk of the House of Representatives:

OFFICE OF THE CLERK,
HOUSE OF REPRESENTATIVES,
Washington, DC, April 7, 2005.

Hon. J. DENNIS HASTERT,
The Speaker, House of Representatives, Washington, DC.

DEAR MR. SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on April 7 at 1:37 pm:

That the Senate agreed to without amendment H. Con. Res. 34.

Appointments: Advisory Committee on the Records of Congress.

With best wishes, I am
Sincerely,

JEFF TRANDAHL,
Clerk of the House.

OMISSION FROM THE CONGRESSIONAL RECORD OF TUESDAY, MARCH 15, 2005, AT PAGE NO. 4728

SENATE BILL REFERRED

A bill of the Senate of the following title was taken from the Speaker's table and, under the rule, referred as follows:

S. 256. An act to amend title 11 of the United States Code, and for other purposes; to the Committee on the Judiciary; in addition to the Committee on Financial Services for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

ADJOURNMENT

The SPEAKER pro tempore. Without objection, the House stands adjourned until 12:30 p.m., Tuesday, April 12, 2005, for morning hour debate.

There was no objection.

Accordingly (at 10 o'clock and 3 minutes a.m.), under its previous order, the House adjourned until Tuesday, April 12, 2005, at 12:30 p.m. for morning hour debate.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 8 of rule XII, executive communications were taken from the Speaker's table and referred as follows:

1441. A letter from the Assistant Secretary of the Navy for Financial Management and Comptroller, Department of Defense, transmitting written notification of advance billing, reasons for the advance billing, an analysis of the effects of the advance billing on military readiness, and an analysis of the effects of the advance billing on the customer, pursuant to 10 U.S.C. 2208; to the Committee on Armed Services.

1442. A letter from the Secretary, Department of Defense, transmitting a letter on the approved retirement of Vice Admiral Timothy W. LaFleur, United States Navy, and his advancement to the grade of vice admiral on the retired list; to the Committee on Armed Services.

1443. A letter from the Deputy Director, Defense Security Cooperation Agency, transmitting reports in accordance with Section 36(a) of the Arms Export Control Act, pursuant to 22 U.S.C. 2776(a); to the Committee on International Relations.

1444. A letter from the Chief, Publications and Regulations Branch, Internal Revenue Service, transmitting the Service's final rule—Disclosure of Return Information to the Bureau of the Census [TD 9188] (RIN: 1545-BE-01) received March 14, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

1445. A letter from the Acting Chief, Publications and Regulations Br., Internal Revenue Service, transmitting the Service's final rule — Transition Relief for Certain Partnership and Other Pass-Thru Entities under Section 470 [Notice 2005-29] received March 14, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

1446. A letter from the Acting Chief, Publications and Regulations, Internal Revenue Service, transmitting the Service's final rule — United States dollar approximate separate transactions method [Notice 2005-27] received March 14, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

1447. A letter from the Acting Chief, Publications & Regulations Br., Internal Revenue Service, transmitting the Service's final rule — Changes in accounting periods and in methods of accounting. (Rev. Proc. 2005-17) received March 14, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

1448. A letter from the Acting Chief, Publications and Regulations Branch, Internal Revenue Service, transmitting the Service's final rule — Project nominations under the Brownfields Demonstration Program for Qualified Green Building and Sustainable Design Projects [Notice 2005-28] received March 14, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

1449. A letter from the Acting Chief, Publications and Regulations, Internal Revenue Service, transmitting the Service's final rule — Diversification Requirements for Variable Annuity, Endowment, and Life Insurance Contracts [TD 9185] (RIN: 1545-BB77) received March 2, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

1450. A letter from the Acting Chief, Publications and Regulations Br., Internal Revenue Service, transmitting the Service's

final rule — Modification of Notice 2005-04 [Notice 2005-24] received March 2, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

1451. A letter from the Acting Chief, Publications and Regulations Br., Internal Revenue Service, transmitting the Service's final rule — 2005 Calendar Year Resident Population Estimates [Notice 2005-16] received March 2, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

1452. A letter from the Acting Chief, Publications and Regulations Br., Internal Revenue Service, transmitting the Service's final rule — Tsunamis Occurring on December 26, 2004, Designated as a Qualified Disaster under Section 139 of the Internal Revenue Code [Notice 2005-23] received March 1, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

1453. A communication from the President of the United States, transmitting the Annual Report to the Congress on Foreign Economic Collection and Industrial Espionage, pursuant to Public Law 103–359, section 809(b) (108 Stat. 3454); to the Committee on Intelligence (Permanent Select).

1454. A letter from the Board Members, Railroad Retirement Board, transmitting the 2004 report of the Board for the fiscal year ended September 30, 2003, pursuant to the provisions of section 7(b)(6) of the Railroad Retirement Act and section 12(l) of the Railroad Unemployment Insurance Act; jointly to the Committees on Transportation and Infrastructure and Ways and Means.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. SENSENBRENNER: Committee on the Judiciary. S. 256. An act to amend title 11 of the United States Code, and for other purposes (Rept. 109–31 Pt. 1).

DISCHARGE OF COMMITTEE

Pursuant to clause 2 of rule XII the Committee on Financial Services discharged from further consideration. S. 256 referred to the Committee of the Whole House on the State of the Union, and ordered to be printed.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions were introduced and severally referred, as follows:

By Mr. RYAN of Wisconsin (for himself and Mr. CARDIN):

H.R. 1532. A bill to amend the Internal Revenue Code of 1986 to provide for collegiate housing and infrastructure grants; to the Committee on Ways and Means.

By Mr. TOM DAVIS of Virginia (for himself and Mr. WAXMAN):

H.R. 1533. A bill to ensure jobs for our future with secure and reliable energy; to the Committee on Energy and Commerce, and in addition to the Committee on Government Reform, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. COBLE:

H.R. 1534. A bill to suspend temporarily the duty on certain synthetic staple fibers that are not carded, combed, or otherwise processed for spinning; to the Committee on Ways and Means.

By Mr. COBLE:

H.R. 1535. A bill to suspend temporarily the duty on acrylic or modacrylic synthetic filament tow; to the Committee on Ways and Means.

By Mr. COBLE:

H.R. 1536. A bill to suspend temporarily the duty on certain synthetic staple fibers that are carded, combed, or otherwise processed for spinning; to the Committee on Ways and Means.

By Mr. COBLE:

H.R. 1537. A bill to suspend temporarily the duty on nitrocellulose; to the Committee on Ways and Means.

By Mr. ISRAEL (for himself and Mrs. LOWEY):

H.R. 1538. A bill to amend the Internal Revenue Code of 1986 to increase the exemption amounts for individuals under the alternative minimum tax; to the Committee on Ways and Means.

By Mrs. MCCARTHY:

H.R. 1539. A bill to amend the Public Health Service Act with respect to the responsibilities of a pharmacy when a pharmacist employed by the pharmacy refuses to fill a valid prescription for a drug on the basis of religious beliefs or moral convictions, and for other purposes; to the Committee on Energy and Commerce.

By Mr. GARY G. MILLER of California (for himself and Mr. CALVERT):

H.R. 1540. A bill to amend the Safe Drinking Water Act to provide procedures for claims relating to drinking water; to the Committee on Energy and Commerce, and in addition to the Committee on the Judiciary, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

MEMORIALS

Under clause 3 of rule XII, memorials were presented and referred as follows:

14. The SPEAKER presented a memorial of the Legislature of the State of Kansas, relative to Senate Concurrent Resolution No. 1607 memorializing the Congress of the United States to take such action that Corporal Travis Eichelberger, USMC, may retain the Purple Heart medal awarded to him; to the Committee on Armed Services.

15. Also, a memorial of the Senate of the State of Ohio, relative to Senate Resolution No. 36, a notice that the members of the Ohio Senate are joining ''Team DSCC,'' a team of municipal corporations, businesses, organizations, and state and local leaders protecting the Defense Supply Center Columbus (DSCC) from the Base Realignment and Closure process; to the Committee on Armed Services.

16. Also, a memorial of the General Assembly of the State of Ohio, relative to Senate Concurrent Resolution No. 26 memorializing the United States Congress to provide for a national entity to establish and enforce mandatory, national electric transmission reliability standards and to ensure federal oversight of that entity and federal authority to require transmission owner participation in a regional transmission organization; to the Committee on Energy and Commerce.

17. Also, a memorial of the Legislature of the State of Arizona, relative to Senate Memorial 1001 memorializing the Congress and President of the United States to enact the Collegiate Housing and Infrastructure Act; to the Committee on Ways and Means.

ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 13: Mr. DOOLITTLE, Mr. BARROW, Mr. BUTTERFIELD, and Mr. CAMP.

H.R. 282: Ms. MATSUI, Mr. ROGERS of Michigan, Mr. DAVIS of Tennessee, Mr. MURPHY, Mr. CUNNINGHAM, Mr. UPTON, Mr. MCCRERY, Mr. WELDON of Florida, Mr. SHAYS, Mr. COBLE, and Ms. HART.

H. R. 302: Ms. WATERS and Mr. BECERRA.

H.R. 371: Mrs. MILLER of Michigan, Ms. SCHAKOWSKY and Mr. WYNN.

H.R. 515: Mr. ALLEN.

H.R. 521: Mr. MICHAUD, Mr. LATOURETTE, and Mrs. JO ANN DAVIS of Virginia.

H.R. 583: Mr. MCGOVERN.

H.R. 605: Mr. CHANDLER.

H.R. 624: Mr. CLEAVER.

H.R. 625: Mr. GRIJALVA and Ms. MCCOLLUM of Minnesota.

H.R. 626: Mr. THORNBERRY and Mr. UPTON.

H.R. 692: Mr. WEXLER.

H.R. 764: Ms. GINNY BROWN-WAITE of Florida.

H.R. 772: Mr. FOLEY, Mr. KIND, Mr. CARDOZA, and Mr. DAVIS of Tennessee.

H.R. 807: Mrs. CAPPS, Mr. CAPUANO, Mr. HOLT, Mr. MENENDEZ, Mr. PRICE of North Carolina, Ms. ROS-LEHTINEN, Mr. SABO, Mr. FILNER, Mr. BARROW, Ms. WOOLSEY, and Mr. PETERSON of Minnesota.

H. Res. 54: Mr. DAVIS of Tennessee.

H. Res. 128: Ms. GRANGER, Mr. SESSIONS, Mr. HALL, Mr. GOHMERT, Mr. HENSARLING, Mr. REYES, Mr. MARCHANT, Mr. CARTER, Mr. BRADY of Texas, Mr. POE, Mr. HAYWORTH, Mr. DELAY, Mr. BARROW, Mr. CASE, Mr. ABERCROMBIE, Ms. MCKINNEY, Mr. PAYNE, Ms. KILPATRICK of Michigan, Ms. JACKSON-LEE of Texas, Mr. SERRANO, Mr. WYNN, Mr. GENE GREEN of Texas, Mr. BURGESS, Mr. THORNBERRY, Mr. MENENDEZ, Ms. MATSUI, Mr. NEAL of Massachusetts, Mr. CARDOZA, Mr. MCDERMOTT, Ms. LEE, Mr. HIGGINS, Mr. CROWLEY, Mr. FILNER, Mr. CLEAVER, Mr. SNYDER, Mr. FRANK of Massachusetts, Mr. RUSH, Ms. HARMAN, Mr. ENGEL, Mr. MEEK of Florida, Ms. CARSON, and Mr. MCGOVERN.

H. Res. 184: Mr. TOM DAVIS of Virginia, Mr. TANCREDO, Mr. WELDON of Florida, Mr. WAMP, Mr. HERGER, Mr. JONES of North Carolina, Mr. POE, Mrs. JO ANN DAVIS of Virginia, Mr. CHOCOLA, Mr. CONAWAY, Mr. GINGREY,

Mr. CARTER, Mr. MARCHANT, Mr. WESTMORELAND, Mr. COX, Mr. WILSON of South Carolina, Mr. RYAN of Wisconsin, Mr. HENSARLING, Mr. PENCE, Mr. MORAN of Virginia, Mr. SHUSTER, Ms. ROS-LEHTINEN, Mr. LINCOLN DIAZ-BALART of Florida, Mr. AKIN, Mr. STEARNS, Mr. UPTON, Mr. KUCINICH, Mr. BONNER, Mr. KLINE, Mr. MCCOTTER, Mr. BACHUS, Mr. PEARCE, Mr. HALL, and Mr. TOWNS.

H. Res. 185: Mr. MEEK of Florida.

PETITIONS, ETC.

Under clause 3 of rule XII, petitions and papers were laid on the clerk's desk and referred as follows:

11. The SPEAKER presented a petition of the Legislature of Tompkins County, New York, relative to Resolution No. 24 petitioning the Congress and President of the United States to pass resolutions ending federal executions as quickly as possible and sign them into law; to the Committee on the Judiciary.

12. Also, a petition of Mr. James N. Thivierge, a Citizen of Amesbury, MA, relative to a letter petitioning the creation of legislation to make it illegal for persons operating a moving school bus to use a mobile telephone, except in the case of emergency; to the Committee on Transportation and Infrastructure.

EXTENSIONS OF REMARKS

HONORING NAPA VALLEY GRAPEGROWERS

HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, April 8, 2005

Mr. THOMPSON of California. Mr. Speaker, I rise today in recognition of the Napa Valley Grapegrowers organization as it celebrates its 30th anniversary.

The Napa grapegrowers, or NVG as they are commonly referred to, started in 1975 as a group of 7 local farmers and now boasts over 400 members. Since that time the NVG has worked passionately with one goal in mind: to serve and protect the grapegrowers of the Napa Valley. The members of the NVG are dedicated, hard working individuals who care very deeply about the Napa Valley and the communities in which they live and work. They truly understand what it is that makes the Napa Valley so unique and special.

Mr. Speaker, the NVG has contributed to numerous efforts across the Napa valley and beyond, providing a powerful voice for grapegrowers in Sacramento and Washington, DC. In 1976, just one year after its foundation, the NVG played a crucial role in writing the rules that brought about the recognition of truly unique grapegrowing regions through the creation of the American Viticultural Area designation. As a result, these standards have enhanced the quality and reputation of Napa Valley Wines.

When not fighting for grapegrowers' rights, the NVG is busy on the home front conducting monthly forums, seminars, and outreach programs in order to educate the public on wine related issues. The NVG has always believed that educating its membership and the public is the best way to grow and protect their wonderful industry.

Most recently, the NVG has been an integral part of the Federal, State and local partnership that is fighting to stop the spread of the Glassy-Winged Sharpshooter and Pierce's Disease. If it is not contained, Pierce's Disease, which is spread by the Sharpshooter, could threaten the life-blood of the Napa Valley's economy and California's $45 billion a year wine industry.

Mr. Speaker, under the leadership of many outstanding individuals, the NVG has become a vital part of our local community. As a life long resident of the Napa Valley, I understand the many challenges of being a successful grapegrower and a responsible steward of our land. I speak for grapegrowers and citizens throughout the Napa Valley when I say that we are truly grateful to have the NVG looking out for our best interest. It is certainly appropriate that we take this time to recognize and honor the success of the Napa Valley Grapegrowers as they celebrate 30 years of service to the community.

REGARDING THE RECENT RUNNING OF THE HONOLULU MARATHON AND GREAT ALOHA RUN BY OUR BRAVE SOLDIERS IN AFGHANISTAN

HON. ED CASE

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

Friday, April 8, 2005

Mr. CASE. Mr. Speaker, I rise today to provide some good news out of Afghanistan.

On December 11, 2004, members of the 2nd Battalion, 5th Infantry Regiment of the United States Army organized and completed an Afghanistan adjunct to the Honolulu Marathon in the Tarin Kowt area of the country. Subsequently, on January 30, 2005, the 25th Infantry Division (Light) Headquarters Company personnel organized the running of Honolulu's Great Aloha Run in-country.

Both races were resounding successes. On February 15, 2005, I wrote to the President to ensure that he was aware that these events had occurred. I am including a copy of my letter to follow these remarks.

Mr. Speaker, I hope that you and our colleagues are as impressed as me that members of our Armed Forces were able to organize and conduct such multi-faceted events, given the perilous security situation throughout most of the country and these soldiers' many other duties. I urge all other members to join me in lauding these troops for their accomplishments and spirit.

WASHINGTON, DC, *February 15, 2005.*

The Hon. GEORGE W. BUSH,

President of the United States of America, The White House, Washington, DC

DEAR MR. PRESIDENT: This is to ensure your awareness of two recent events in Hawaii and Afghanistan that I am sure you will agree represent the best of our country.

As you know, my Hawaii is ideally suited and dedicated to physical fitness. It is also home to a larger component of our country's armed forces, over 10,000 of whom are now serving in Iraq and Afghanistan.

Two major events on Hawaii's outdoor calendar are the Honolulu Marathon, reportedly the third largest marathon event worldwide, and the Great Aloha Run, an event attracting thousands of residents and visitors. This year, the organizers of both events teamed with our military to recognize our troops serving overseas, many of whom participate in these and other events when they are home in Hawaii, in organizing and conducting these events in Afghanistan as well.

Specifically, on December 11, 2004, Honolulu Marathon day, members of the 2nd Battalion, 5th Infantry Regiment, USA organized and completed the Honolulu Marathon—Afghanistan in the Tarin Kowt area of the country. And on January 30, 2005, Great Aloha Run day, the 25th Infantry Division (Light) Headquarters Company personnel organized the running of the Great Aloha Run—Afghanistan.

All 153 participants in the Honolulu Marathon—Afghanistan were treated like every finisher of the Marathon: each received the same medals, certificates and tee-shirts. An official timing system was flown in and the finishing times were placed on the Marathon's website along with all other finishers from the race in Honolulu. I would like to highlight the reaction of the winner of the Marathon, First Lieutenant Mike Baskin; he burst into tears as he remembered his four fellow soldiers who had recently been killed.

While only military personnel ran in each race, those who ran in the Great Aloha Run—Afghanistan endured sub-freezing temperatures and, more importantly, raised money for local Afghan charities, including an orphanage in downtown Khowst. Because of its shorter distance, the race was conducted in four separate locations throughout the country, including Bagram Airfield and Forward Operating Base Salerno.

I wanted you not only to know of these heartwarming efforts, but also have the opportunity to provide whatever recognition you may wish to the organizers of both events in both Hawaii and Afghanistan and, more important, to our great troops, who demonstrated the finest spirit of our armed services under difficult circumstances. Mahalo nui loa!

With Aloha,

ED CASE,

U.S. Congressman,

Hawai'i, Second District.

IN RECOGNITION OF STAFF SERGEANT EUGENE WELSH

HON. DENNIS A. CARDOZA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, April 8, 2005

Mr. CARDOZA. Mr. Speaker, I rise today to honor Mr. Eugene Welsh. During World War II, Eugene Welsh served for 19 months in the Asia-Pacific Theater with the U.S. Army's 19th Infantry Regiment. In one single battle, he rose from the rank of private to staff sergeant and went on to fight in four more major combat actions. As a squad leader, he directed 12 men in combat. During his service, he received numerous wounds and each time was patched up and returned to duty.

Staff Sergeant Welsh's commitment to the United States Army and his fellow soldiers is truly commendable. Among the awards he received are the Purple Heart, the Bronze Star and the Combat Infantry Badge. His actions during the Second World War exemplify the spirit of the infantry soldier go well beyond the call of duty and deserve nothing less than the highest recognition and honors.

Helping ease the burden of combat was a friend back home, Bettye Cavazos. The two wrote to each other as often as possible. Following the war, on June 14, 1946 the two were married and settled in Ceres, California where they raised two sons, Michael and Ronald. Ronald is now deceased. Mr. and Mrs.

Welsh have eight grandchildren and seven great grandchildren.

After the war, Mr. Welsh committed his life to his family and community. He was the owner of Ceres Body Shop and Towing for many years. During the 1950s he served as the commander of the American Legion's Ceres Post and was the Boys State chairman numerous times.

Among his recognitions and honors are Ceres Citizen of the Year, Rotarian of the Year and Stanislaus County Senior of the Year for the 5th District.

Mr. Speaker, it is among the finest traditions and honors to rise today and recognize Mr. Welsh. His commitment to our nation, our community and his family sets an example we all should seek to follow. I wish he and his family all the best.

IN RECOGNITION OF MARY MARANGOS AND THE PANCYPRIAN ASSOCIATION'S WOMEN'S ISSUES NETWORK

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, April 8, 2005

Mrs. MALONEY. Mr. Speaker, I rise to acknowledge the achievements of the Pancyprian Association's Women's Issues Network (WIN) on the occasion of its annual Woman of the Year Award dinner dance. WIN's 2005 honoree, Dr. Mary Marangos, is a longtime community leader and dedicated public servant.

WIN was founded in 1996 to serve the Cyprian-American community, promote the Hellenic Cypriot culture and provide opportunities for future generations of Cyprian women. The organization sponsors health lectures, health fairs, cultural events and breast and cervical cancer screening for women with no health insurance. Additionally, WIN has worked against the Turkish occupation of Cyprus since 1974.

This year, WIN is honoring the noted community leader and civic activist, Mary Marangos. Dr. Marangos has served the people of the New York's 14th Congressional District with distinction, providing a critical link between the residents of western Queens and their representation in the United States Congress. She has worked to gain access for New Yorkers to constituent services and educational and cultural programs in those communities. Active in numerous causes and community organizations, Dr. Marangos has devoted herself to the Women's Issues Network and other organizations that promote and protect the Hellenic culture.

Dr. Marangos is a recent retiree of the N.Y.C. Public School System where she has served as an educator, administrator and coordinator in vocational and alternative high schools; additionally, Dr. Marangos served as a coordinator of the G.E.D. program of the Vocational Training Center at LaGuardia Airport. Dr. Marangos also coordinated an AIDS Prevention Program on the high school level, training teachers on AIDS prevention instruction, organizing conferences and workshops on the epidemic and promoting staff development on the elementary level.

A graduate of the City's public school system, Dr. Marangos earned an Associate Degree in dental hygiene from Brooklyn Community College and a Bachelor of Science degree in dental hygiene/education from the New York State Education Department. Dr. Marangos went on to earn a Masters Degree in high school administration and supervision from Fordham University and a Ph.D. from Florida State University in International-Intercultural Developmental Education under a U.S. Department of Education full fellowship.

The loving and devoted daughter of Pantelis Marangos from Kalavasos, Cyprus and Despina Kyriacou, descendant from Lesvos, Greece and Cyprus, Dr. Marangos was steadfast in her devotion to her parents.

Dr. Marangos truly exemplifies the tradition of community involvement that makes America the greatest nation in the world. On behalf of the residents of the Fourteenth Congressional District of New York, I would like to extend to Dr. Marangos, the Pancyprian Association and the Women's Issues Network my continuing respect, admiration and support.

Mr. Speaker, I request that my colleagues join me in paying tribute to this wonderful organization and its 2005 Woman of the Year, Dr. Mary Marangos.

EXPRESSING CONCERN WITH THE CUTS IN THE PROPOSED BUDGET OF THE SMALL BUSINESS ADMINISTRATION

HON. ED CASE

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

Friday, April 8, 2005

Mr. CASE. Mr. Speaker, I rise today to express my continued disappointment with the proposed budget for the Small Business Administration. The budget request for fiscal year 2006 is $593 million, nearly $100 million below what was requested last year, representing a ten percent decline in program funding. These funding cuts are coming from some of the most important programs within the SBA, including the 7(a) loan program, Disaster Loan Program, and the Program for Investment in Microentrepreneurs (PRIME).

Mr. Speaker, I hope that as this House considers the budget resolution, we can remember the important service that the SBA provides to all of our constituents. To remind my colleagues of the importance of the SBA, I have included an article that appeared in the March 16, 2005 edition of the Honolulu Advertiser. Entitled ''SBA Faces Budget Cuts,'' this article highlights several individuals in my home state whose businesses would not have survived without the timely assistance of the SBA.

[From the Honolulu Advertiser, Mar. 1, 2005]

SBA FACES BUDGET CUTS

(By Catherine E. Toth)

If Pablo Gonzalez didn't get $30,000 worth of government-backed loans over the past five years, he would have had to shut down his juice bar.

Fortunately, the U.S. Small Business Administration provided guarantees for two loans—one in 2000, another in 2002—that allowed Gonzalez to expand his business.

Since then sales at Lanikai Juice Co. have increased nearly 15 percent every year, Gonzalez said. He hopes to open a second location sometime soon.

''As a small business, your chances to survive are more difficult,'' said Gonzalez, who moved to Hawai'i eight years ago from Barcelona, Spain. ''You have to live with higher prices and less profit. . . . If It weren't for SBA, honestly, I don't think I'd still be here.''

Nearly 20 million small businesses nationwide have benefited from technical assistance, loans and grant programs offered by the SBA. Its current business loan portfolio of about 219,000 loans worth more than $45 billion makes it the largest single financial backer of U.S. businesses in the nation.

But the agency may find it harder to carry out its mission next year if Congress approves proposed cuts to its fiscal 2006 budget.

The proposed budget for SBA is $593 million, a 13 percent decline from the agency's 2005 request and a 36 percent drop over the past five years.

More than 50 small-business programs, including those in Hawai'i, are slated for cuts or elimination in the proposed budget, up from 35 last year.

Among those slated for elimination are the agency's Microloan program, its startup loan program for low-income entrepreneurs, and the SBIC Participating Securities program, its flagship venture capital program.

(As in fiscal 2005, the 7(a) loan guarantee program—the agency's primary business lending program—will not be subsidized. Instead of taxpayer funds, it will be sustained entirely on an increase in fees by lenders and borrowers.)

This doesn't bode well for entrepreneurs who can't get conventional loans, especially with the Hawaii Community Loan Fund, a lender of last resort, filing for bankruptcy last month.

''(The Microloan program) is very worthwhile because you're helping people who couldn't get a start,'' said Dr. Tin Myaing Thein, executive director of the Pacific Gateway Center, which administers SBA's microloans. ''This is for people who don't have a chance with the bank, who would have no chance at all to start their own business. We have so many success stories here.''

Abracadabra Cabinets at Campbell Industrial Park fell into a slump after the terrorist attacks of Sept. 11. Owner Joanne Gibeault needed some extra cash to keep her business going.

But she couldn't get a loan or a line of credit from her bank. So she turned to SBA.

Through the agency's Community Express loan program, which offers microloans to small-business owners, Gibeault got $15,000 last year to pay bills and grow her business.

Since then the business has grown nearly 50 percent, she said. Her biggest problem now is finding experienced cabinet-makers to hire.

''We had a hard time recovering after 9/11, like everybody did, but it took a little longer for us to catch up,'' said Gibeault, who lives in Makakilo. ''We struggled for a while. . . . The loan was just enough to get us over and keep the business going.''

Gibeault started her custom cabinet company 10 years ago in Kailua. A journeyman cabinet maker, Gibeault had no experience operating a business. She took classes and attended seminars offered by the Hawai'i Women's Business Center.

Funding for these centers also is slated for cuts in the proposed budget.

''I can build stuff,'' Gibeault said. ''But I didn't know how to run a business when I

started. These programs are definitely needed.''

As with the Women's Business Centers, funding for the agency's Small Business Development Centers may be cut or, at the least, remain flat, despite a request to increase its funding to $109 million from $88 million the year prior, said SBDC state director Darryl Mleynek.

The Hawai'i SBDC receives $500,000 from the federal government and $638,000 from the state annually. That amount hasn't changed for more than five years.

This year the Hawai'i SBDC requested another $584,000 in funding from the state to help with growing operating costs. Expenses have increased about 17 percent over the past four years, Mleynek said.

''What we do is extremely important,'' Mleynek said. ''Working with small businesses offers state governments the fastest opportunity for creating sustainable economic development. And the reason is because small businesses are such a large part of our economy and when they get assistance, they increase their sales rapidly, they hire new people, and all of that comes back very quickly.''

While his program competes with others, in particular social programs, for funding from the state, Mleynek is confident that lawmakers will realize the value of investing in small business to the overall health and growth of the economy. And he's hoping for extra money in light of potential cuts to federal funding for the center.

''I believe the Legislature understands the value of putting money into our program, but money these last few years has been very tight,'' Mleynek said. ''To put money into one program and not another, those are very difficult choices. . . . But I'm cautiously optimistic.''

RECOGNIZING HANS-PETER KLEIN OF UKIAH, CALIFORNIA

HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, April 8, 2005

Mr. THOMPSON of California. Mr. Speaker, I rise today to recognize Hans-Peter Klein for his nearly three decades of distinguished public service as Counsel for Mendocino County in California. Peter's devotion and service have left a lasting impression on Mendocino County.

Born in Germany, Peter immigrated with his parents to the United States at the age of four. He received his Bachelors Degree from the University of California before he was drafted into the United States Army during the Vietnam War. Upon his military discharge, Peter enrolled in an evening law school program. At the time, he worked for the Port of San Francisco and volunteered with Marin County Legal Aid. He received the Demetrius Sepatsis Award for Academic Excellence upon graduation.

Peter joined the Mendocino County Counsel's office in 1978, one month after its creation. In 1983, he was appointed as Mendocino's County Counsel, a position in which he has served with dedication and distinction for the past 22 years. Peter also served on the Board of Directors for the California State County Counsel Association, where he has been a long time member of the Association's Ethics Committee. The Association is dedicated to the maintenance of the highest professional standards in the practice of governmental law and service to the public.

After so many years of serving others, I know that Peter is looking forward to spending more time with his wife Toni, and their three grown children.

Mr. Speaker, it is appropriate that we recognize Hans-Peter Klein for his commitment and dedication to his profession and for his service to the people of Mendocino County and his country.

THE DEATH OF POPE JOHN PAUL II

HON. LANE EVANS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, April 8, 2005

Mr. EVANS. Mr. Speaker, it is with great sadness that I join my fellow Catholics and all citizens of the world in mourning the passing of Pope John Paul II. Though he is no longer with us, his extraordinary influence and tremendous contributions to the fight against tyranny and oppression will live on.

Pope John Paul II was the 263rd successor to Saint Peter, and was elected on October 16, 1978. He was the youngest Pope in 132 years at age 58. He was also the first Polish Pope and the first non-Italian Pope in 450 years. He was seen as active and charismatic, and could often be found on the ski slopes of Europe.

Throughout his papacy, Pope John Paul II worked tirelessly on behalf of human rights and the dignity of all mankind. In contrast with the Vatican's preoccupation with Europe, he was the most traveled Pope in history and involved the Church in world issues.

He visited Africa more than a dozen times, yet refused to visit South Africa until it had ended its apartheid system. He sought to end religious and ethnic violence in Sudan and Rwanda. In Latin America, John Paul pressured Chile's General Augusto Pinochet to hold free elections and helped defuse a dispute between Argentina and Peru. He also visited Southeast Asia, the Indian subcontinent, the Philippines, Haiti, North America, and Scandinavia, among other destinations.

Pope John Paul II is widely credited with helping depose Eastern European communism. He helped inspire the worker rebellions and the Solidarity movement in his native Poland soon after he was elected. Twenty million Poles greeted the Pope during his nine day homecoming, an exceptional show of discontent with the one-party dictatorship that ruled the country.

He also insisted that the Catholic Church confront its past misdeeds, including the Inquisition in the 15th century. In 1999, he ordered the Vatican to issue an ''act of repentance'' for the church's failure to prevent Nazi genocide against Jews in World War II and acknowledged centuries of preaching contempt for Jews. The pope expanded upon this in March 2000, when he asked forgiveness for many of his church's past sins, including its treatment of Jews, heretics, women and native peoples. While John Paul believed in the infallibility of the church, he recognized that its servants are human and sometimes stray from the teachings of Jesus.

Along with John Paul's involvement in human rights, I have been moved and personally strengthened by his active engagement in papal duties in spite of the development of Parkinson's disease. He did not shrink from activity or the public eye though his body began to shake and become unsteady. In fact, it became part of his mission: to show the world the value of each life, even in those who are suffering from physical pain and the aging process.

The world is now coming to grips with the passing of Pope John Paul II. We are comforted that his teachings live on as he moves to his final resting place. May he rest in peace.

THE INTRODUCTION OF THE COLLEGIATE HOUSING AND INFRASTRUCTURE ACT OF 2005

HON. PAUL RYAN

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Friday, April 8, 2005

Mr. RYAN of Wisconsin. Mr. Speaker, I am today introducing legislation, along with my colleague Congressman BEN CARDIN, that would allow charitable and educational organizations to make grants to fraternities, sororities, and other collegiate organizations to provide housing and student facilities to the same extent that tax-exempt colleges and universities may provide such facilities for students. We introduced this legislation in the 108th Congress and it enjoyed wide bipartisan support.

By way of background, taxpayers may generally deduct contributions to nonprofit educational organizations (i.e., educational organizations described in section 501(c)(3) of the Internal Revenue Code (''Code'')) such as colleges or universities. These colleges and universities may expend their funds (including donated funds) on student facilities such as dormitories, dining halls, study areas, libraries, computers, laundry facilities, physical fitness facilities, and social or recreational areas without jeopardizing their tax-exempt status.

State and private colleges and universities do not, and cannot, provide all of the housing and related student facilities necessary for their student bodies. Collegiate organizations such as fraternities, sororities, and other student associations (e.g., Muslim Students Association, Fellowship of Christian Athletes, and Hillel) fill a large part of the collegiate housing gap. Fraternities and sororities alone provide housing for more than 250,000 students each year. These student associations take on significant financial burdens in order to provide student housing without cost to affiliated colleges and universities.

Fraternities, sororities, and student associations provide collegiate housing through tax-exempt organizations, but their exemption comes under Code section 501(c)(7), with the result that direct contributions to these organizations are not deductible. However, educational organizations established to benefit

these fraternities, sororities, and other student associations may qualify under Code section 501(c)(3) to receive deductible contributions.

The current IRS position is that it will not give a tax-exemption ruling to these educational organizations unless they limit student facility grants to those that are solely for educational use (with exceptions for minor social or recreational use). According to this IRS position, a fraternity foundation, for example, may make grants to a fraternity for the construction (or for annual operating expenses) in a fraternity house of a library, study area, computer area, or instructional area. The fraternity foundation may also make grants for computers, computer desks, and chairs, if similar to what is provided by the specific college with which the fraternity is associated, and for Internet wiring, if the specific college also provides Internet wiring. However, the IRS says that fraternity foundations may not make student facility grants for the construction or operation of sleeping quarters, dining areas, laundry facilities, or dedicated social or recreational areas (such as physical fitness facilities or equipment), or hallways or rooms used for both educational and other purposes.

Under the current IRS position, a charitable organization could not make a grant to a section 501(c)(7) collegiate housing organization (or to an affiliated section 501(c)(2) or (c)(7) organization) to provide fire safety upgrades unless those upgrades were limited to areas that are solely for educational use. However, fire safety upgrades will not provide necessary protection unless they are made throughout an entire building. It has been estimated that just the cost of installing sprinklers in fraternity and sorority housing is over $300 million nationwide.

There is no policy reason for distinguishing between the types of student facilities that may be provided by a tax-exempt college and those that may be provided by another tax-exempt charitable or educational organization to a collegiate organization for the benefit of individuals who are full-time college students. The current IRS position, which we believe is an incorrect interpretation of the law, puts collegiate organizations at a significant disadvantage in obtaining the funds necessary to provide or maintain housing and infrastructure, including the funds necessary to provide fire safety upgrades.

I believe that clarifying that tax-exempt charitable or educational organizations may make collegiate housing and infrastructure grants will encourage private sector contributions to address student housing needs, thus relieving a burden that would otherwise fall on financially strapped colleges and universities. Accordingly, this bill provides that charitable and educational organizations may make grants to collegiate housing organizations (including affiliate organizations holding title to property) for the construction or operation of collegiate housing and infrastructure facilities that are of the type tax-exempt colleges are permitted to provide for their students, including, but not limited to, sleeping quarters, fire safety equipment and upgrades, dining areas, social and recreational areas, study areas, libraries, and computers and related furniture and wiring.

I urge our colleagues to support this important legislation.

HONORING KOREAN WAR VETERAN HAROLD ARENDT, JR.

HON. EARL BLUMENAUER

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Friday, April 8, 2005

Mr. BLUMENAUER. Mr. Speaker, it gives me great pleasure to honor Mr. Harold Arendt, Jr., Korean War veteran and Oregon resident. While in service, Harold Arendt sustained an injury inflicted by enemy forces. Now, 54 years later, it is my pleasure to award the actual Purple Heart medal for one of Oregon's treasured veterans. On Friday, April 8, 2005 Harold Arendt will be presented with this prestigious honor in recognition of his service to our nation during the Korean War. Though his injury has stayed with him throughout the years, he has been without this well-deserved recognition far too long. Today, we honor the extraordinary service of this courageous individual and recognize him and his family for their sacrifices. I am also very honored to congratulate Mr. and Mrs. Harold and Karen Arendt on their recent 50th wedding anniversary. On behalf of the Congress, I wish them our most sincere congratulations and best wishes.

HONORING PRIVATE FIRST CLASS MICHAEL ARCIOLA

HON. NITA M. LOWEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, April 8, 2005

Mrs. LOWEY. Mr. Speaker, I rise today to pay tribute to Private First Class Michael Arciola who gave his life in service to our country in Ar Ramadi, Iraq.

Michael, a resident of Elmsford, New York, was the epitome of a dedicated citizen, knowing from the day he entered high school that he wanted to serve his country as a soldier in the U.S. Army. While Michael's initial plans included attending the United States Military Academy at West Point, his priorities shifted after the terrorist attacks of September 11th. Michael instead entered the U.S. Army deferred entry program in the summer of 2002, where he received Army training during his senior year of high school, allowing him to immediately enlist upon graduation.

Less than two weeks after graduation, Michael left for Basic Training at Fort Benning, Georgia. After weeks of training, Michael emerged as a full-fledged infantryman and reported to his first unit, A Company, 1st Battalion, 503rd Parachute Infantry Regiment, 2nd Infantry Division, based in South Korea.

In July of 2004, Michael and his unit were deployed to Iraq as part of Operation Iraqi Freedom. On February 15th of this year, Michael died of injuries sustained from enemy forces using small arms fire.

Michael was a true patriot who paid the ultimate price for loyalty to his country. All Americans are truly fortunate to have had a person of Michael's caliber working to defend our nation and keep it safe, strong, and secure.

Mr. Speaker, I ask my colleagues to join me in honoring Private First Class Michael Arciola along with all of our nations' other fallen heroes.

MOURNING THE LOSS OF POPE JOHN PAUL II

HON. WALTER B. JONES

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Friday, April 8, 2005

Mr. JONES of North Carolina. Mr. Speaker, like many of my colleagues, I mourn the loss of Pope John Paul II.

However, I thank God for blessing us with the gift of such an incredible world leader. He was a wonderful moral and political leader for Catholics and non-Catholics alike, and I know he will be dearly missed by millions of Americans and billions of others around the world. He was a man of great faith and conviction, and his legacy as a servant to the Lord is sure to carry on for many years to come.

I consider him a personal role model for his courage in the face of adversity, his unwavering devotion to his beliefs and values, and his piety in everyday life.

I stand here today in support of House Resolution 190, honoring the life and achievements of His Holiness, Pope John Paul II. No one person has touched as many lives as he, and no one has been more loved. May he rest in peace with his Lord and Savior, and may we continue to be inspired by his grace and humility.

PERSONAL EXPLANATION

HON. HOWARD COBLE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Friday, April 8, 2005

Mr. COBLE. Mr. Speaker, on Thursday, March 17, I missed rollcall votes Nos. 82–89. Had I been present on this date, I would have voted ''aye'' on rollcall votes Nos. 83, 84, 88 and 89. I would have voted ''no'' on rollcall votes Nos. 82, 85, 86 and 87. On this date, I delivered a eulogy at the funeral of my friend, Alamance County Commissioner Worthy B. ''Junior'' Teague.

Additionally, on Sunday, March 21, I missed rollcall vote No. 90. Had I been present on this date, I would have voted ''aye,'' but I was traveling on official business with International Relations Committee Chairman HYDE in Mexico and Panama. As chairman of the Subcommittee on Crime, Terrorism and Homeland Security, I met with numerous government officials to discuss efforts to combat drug trafficking, prevent global terrorism, and to promote fair trade.

Finally, on Tuesday, April 5, I missed rollcall votes Nos. 91–93. Had I been present on this date, I would have voted ''aye'' on each of these votes. My mother, Mrs. Johnnie Holt Coble, died on April 2, 2005, and funeral services were conducted on April 5, 2005.

TRIBUTE TO COMMISSIONER DR. BARBARA CAREY-SHULER: A TRUE PUBLIC SERVANT

HON. KENDRICK B. MEEK
OF FLORIDA
IN THE HOUSE OF REPRESENTATIVES

Friday, April 8, 2005

Mr. MEEK of Florida. Mr. Speaker, I rise to pay tribute to one of the most dedicated public servants I have had the pleasure of working with, Miami-Dade County Commissioner Dr. Barbara Carey-Shuler.

Dr. Carey-Shuler has served in many capacities—as a teacher, counselor, administrator, university professor, assistant superintendent for Dade County Public Schools, and most importantly, ''a leader of community leaders.'' In October 2002, Dr. Carey-Shuler made history when she was selected by her peers as the first African-American woman to serve as Chairperson of Miami-Dade County Board of Commissioners—a position in which she served with distinction.

Throughout her elected service, which dates back to her appointment to the County Commission in 1979, Dr. Carey-Shuler has truly been a groundbreaking elected official. She introduced and led the effort to pass the set-aside law and affirmative action policy in Miami-Dade County, the latter of which was argued all the way to the Supreme Court. Both policies were enormously successful in producing more jobs and more business opportunities for minorities and women.

Among her many triumphs, Commissioner Carey-Shuler created the infill housing ordinance to provide clean-title lots to non-profits for the construction of low-income housing; initiated the ''No More Stray Bullets'' campaign to educate New Year's Eve revelers of the dangers of shooting weapons as part of the celebration; and established the Youth Crime Task Force which provides funding for new prevention and intervention programs to benefit at-risk youth.

During her 30-year career of service to this community, Dr. Barbara Carey-Shuler has been recognized for her outstanding service. She has received major appointments to boards, committees and task forces by U.S. presidents and state governors. She has also received hundreds of honors and recognition for her service and contributions.

Most recently she has been honored by the International Committee of Artists for Peace, a coalition supporting the United Nations International Decade for a Culture of Peace and Non-Violence for the Children of the World, and by the Dean of the Martin Luther King, Jr. International Chapel at Morehouse College in Atlanta for her work in promoting peace and non-violence. Her district includes much of the City of Miami, including the communities of Liberty City, Little Haiti, Overtown, the Upper East Side, Allapattah and Wynwood, as well as Miami Shores.

Dr. Carey-Shuler has made and continues to make significant contributions to the growth and dynamism of South Florida, and I take great pride in acknowledging and thanking her for all that she has meant to our community.

SENATE—*Monday, April 11, 2005*

The Senate met at 2 p.m. and was called to order by the Honorable RICHARD BURR, a Senator from the State of North Carolina.

The PRESIDING OFFICER. The opening prayer will be given by our guest Chaplain, COL Ralph G. Benson, Pentagon Chaplain.

PRAYER

The guest Chaplain offered the following prayer:

Won't you pray with me.

Lord God, Creator and Sustainer of the universe. You uplift us in times of prosperity and comfort us in times of want. You are the still small voice who reminds us of all that is good, all that is holy, all that is just. We live in an unstable world. Yet You, O Lord, are never changing, all forgiving, all merciful, all holy.

Provide today, O Lord, Your divine guidance and blessing. Allow our Senators to hear Your still small voice. Open their discussions to that which will bless our people and crown our Nation with blessing.

Enable us to avoid the pitfalls of sin and direct us to those decisions that are merciful, holy, and true. May we magnify Your will through our endeavors in Government today. For indeed, Lord, our desire is to please You and to follow the leadings of Your divine will. Amen.

PLEDGE OF ALLEGIANCE

The Honorable RICHARD BURR led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. STEVENS).

The legislative clerk read the following letter:

U.S. SENATE
PRESIDENT PRO TEMPORE,
Washington, DC, April 11, 2005.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable RICHARD BURR, a Senator from the State of North Carolina, to perform the duties of the Chair.

TED STEVENS,
President pro tempore.

Mr. BURR thereupon assumed the Chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. FRIST. Mr. President, the Senate will begin this afternoon with a period for morning business to allow Senators to make statements and introduce legislation. At 3 p.m. today, Chairman COCHRAN will be here to begin consideration of the Emergency Supplemental Appropriations Act for defense, the global war on terror, and tsunami relief. I expect opening statements on that bill during the afternoon. I also hope if Senators have amendments, they will begin to offer those amendments during today's session. At the very least, Senators should notify the cloakrooms of their desire to offer specific amendments so that the chairman and ranking member may begin the process of scheduling their considerations.

I remind all Senators we have a vote scheduled this afternoon at 5:30 on the confirmation of a U.S. district judge. That is the nomination of Paul Crotty to the Southern District of New York. In addition to that vote, we have a resolution relating to airbus that we will likely schedule for a rollcall vote. Therefore, Senators can expect at least two votes today. I add that if amendments are offered to the appropriations bill today, I will also be talking to the managers of the bill and the Democratic leader about scheduling votes on those as well.

This important bill provides necessary funds for the ongoing operations in Iraq and Afghanistan, as well as additional funding for humanitarian assistance related to the tsunami. I hope the Senate will act effectively and efficiently on this appropriations bill and use the underlying legislation as focus of the intent of this bill and not as target practice for other amendments. There has been a lot of discussion over the issue of immigration. I believe the Senate will need to address immigration reform. However, this is not the place for comprehensive immigration reform. We need to be thoughtful and deliberate on that issue and not allow funding for our troops to become ensnarled in that national debate. The Democratic leader and I have begun discussions on the aspect of how we might address immigration. I do urge our colleagues to show restraint on this issue and on other issues that will clearly slow down this emergency spending bill.

Having said that, we will have a very busy week on the bill. We can expect full sessions and well into some evenings as we consider this legislation. I do thank my colleagues.

RECOGNITION OF THE MINORITY LEADER

The ACTING PRESIDENT pro tempore. The minority leader is recognized.

U.S. CAPITOL POLICE

Mr. REID. Mr. President, before the Republican leader leaves the floor, I would like to say, through the Chair, that Senator FRIST and I were in his office when we were approached by the Sergeant at Arms about an incident in front of the Capitol. People were able to watch on national TV what took place. Parts of the building were evacuated.

The reason I mention this, without going into a lot of detail, is because of the great police force we have that takes care of the U.S. Capitol. They did work that was brilliant. I spoke to the Sergeant of Arms before we went into session. What they did to get ready to take that man down was extraordinary.

We have the finest trained police force anyplace in the country. I would put our men and women up against anyone else. They do such a wonderful job. I express my appreciation for the whole Senate for the work of the Sergeant at Arms and Chief Gainer. This is professionalism at its best.

What we do not see, of course, are the many times when they work off camera, when they do it late at night in various parts of this building where there are not a lot of people watching them.

Mr. President, again, I applaud and congratulate every member of our Capitol Police force.

UNANIMOUS CONSENT AGREEMENT—S. CON. RES. 25

Mr. FRIST. Mr. President, I ask unanimous consent that following the 5:30 p.m. vote today, the Senate then immediately proceed to consideration of S. Con. Res. 25; provided further, the Senate then proceed to a vote on adoption of the concurrent resolution, with no intervening action or debate, and no amendments in order to the resolution or preamble.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. FRIST. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BYRD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will be a period for the transaction of morning business, with Senators permitted to speak for up to 10 minutes each.

Mr. BYRD. Mr. President, am I recognized?

The ACTING PRESIDENT pro tempore. The Senator is recognized.

Mr. BYRD. I thank the Chair. Mr. President, my speech will probably need 40 minutes. I ask unanimous consent that I may utilize as much time as I need.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered. The Senator is recognized.

Mr. BYRD. I thank the Chair.

THE GASOLINE CRISIS—A TIME FOR ACTION

Mr. BYRD. Mr. President, in my home State of West Virginia and all across America, our people are frustrated and outraged with the soaring cost of gasoline.

The rising cost of gasoline means workers in West Virginia are seeing their paychecks dramatically reduced by the simple fact that they have to drive to get to work and to get back home. It is darned difficult and expensive for a coal miner to pay $2.25 a gallon to drive his pickup truck to work on the two-lane, hilly, winding roads of West Virginia.

Noting that West Virginians have become ''hawkish about watching gas prices,'' the Charleston, WV, Gazette of March 11, 2005, pointed out that they ''have few mass transportation options, travel farther to work, and often traverse [much] more rugged terrain.''

Automobiles are essential for West Virginians to get to work. According to Census data, although West Virginia is a relatively small State, workers in West Virginia spend more time commuting to work than the national average.

Mr. President, 86 percent of West Virginians use cars or trucks to get to work, and nearly 75 percent of West Virginians commute by themselves in their pickup trucks and other such vehicles.

The percentage of people in West Virginia who own a pickup truck is almost double the national average. Nearly one-third of West Virginians must travel outside their home county to get to work. Let me say that again. Nearly one-third of West Virginians must travel outside their home county to get to work, a figure that is 17 percent above the national average, and an average West Virginian drives more miles—now get this—the average West Virginian drives more miles each year than average Americans throughout the rest of the country.

The point is this: West Virginians rely on their cars and their pickup trucks to keep West Virginia working. Large, rugged vehicles are not an expensive luxury for workers in West Virginia and in many other rural States, and anyone who has tried to navigate the narrow, uphill climbs of West Virginia's mountains by weaving around corners, constantly slowing, constantly accelerating and stopping and starting knows the need for these rugged vehicles and, regrettably, the cost of fueling them.

Imagine navigating that kind of terrain not only to work but also in getting children to school, as well as to the grocery store.

The frustration and the outrage of West Virginians paying $25, $30, and $45 just to gas up is certainly understandable.

Family budgets already strained by the rising costs of health insurance, the rising costs of college tuition, and other everyday expenses are being stretched even thinner by these record-breaking gasoline prices in West Virginia. West Virginia's small businesses depend on deliveries. Floral shops, pizza parlors, produce shippers, taxi companies, construction and remodeling businesses, plumbers, electricians, landscapers are finding it harder to make ends meet. Many are going out of business.

I recently read of an independent trucker who lives and works in Norfolk, VA, telling the Christian Science Monitor that last year she paid more than $250 a week for fuel, and that was making her life as a single parent very difficult. She was even forced to decide between paying a doctor bill for her child or buying new tires for her truck. Guess who lost. ''My truck lost,'' she explained.

Today's record high gasoline prices in West Virginia are affecting literally everyone from commuters, consumers, and businesses to public and private agencies. Meals on Wheels programs are having trouble delivering meals. Think of it. Local governments already straining to pay for essential services in these days of cutbacks in Federal assistance are simply overwhelmed in their efforts to keep schoolbuses, police cars, firetrucks, and other city and county vehicles in operation. What a shame.

The damage is devastating and is everywhere. Last year, polling data showed that more than half of the American people said the rising cost of gasoline had been hard on them financially while more than a third said it had caused them serious problems. U.S. consumer confidence fell for a third month in March, and this is being attributed to the cost of gasoline. It is awful. It is terrible.

At one time, inflation was called the cruelest tax. Soaring energy costs are the ecumenical tax. Did everyone get that? Soaring energy costs are the ecumenical tax. Why? They tax everyone with a car or a truck—everyone, regardless of race, sex, age, occupation. Low-income workers are being hit the hardest, however, as they usually have to travel the farthest to work because of the need for affordable housing. They have less access to mass transportation. One can understand that when they look at those mountains in West Virginia. And they drive older, less fuel-efficient vehicles.

As the American people cry out for help in this current crisis, what do they do? They look to Washington for action. The White House's response to this outcry has been to moan and groan about the failure of Congress to pass its so-called energy plan and recycle old legislation.

When it comes to dealing with today's energy mess, the White House is out of gas. For three Congresses, an energy bill has clanged about Washington like Marley's ghost. The administration's national energy policy has been drafted by special interests, ironed out behind closed doors now and presented as a fait accompli for Members to support, take it or leave it. But the national energy policy in its totality would do little to seriously address our energy needs now or in the long term.

The only major provisions that might provide tangible progress are the energy tax incentives, but these, too, could be a mirage as the President's proposed fiscal year 2006 budget only provides $6.7 billion over the next 10 years for all energy incentives, only about a third of what was provided 2 years ago in the Senate Energy bill. Analysis by the Department of Energy's own Energy Information Administration, EIA, of the Energy bill of the 108th Congress has clearly shown that the bill would have a negligible impact on increasing production, reducing consumption, lowering imports, or affecting energy prices. Now, take that home for dinner.

Furthermore, this administration actually significantly slashes funding for oil and gas research programs. Like its agricultural policies, the administration's energy policy promises the

American people a rose garden. It ruminates with much rhetoric but then fails to fertilize with funding.

While the White House has failed to propose any serious policy options or take any action to remedy the current crisis, I am suggesting that it is time—it is time, I say to the White House—to get serious. It is time that this Nation makes the necessary investments so we can reduce our dependence on foreign oil.

What does this mean? It means getting the next generation of vehicles on the road. It means investing in fuels that can be made from domestically secure sources such as agricultural residues and through coal gasification. It means investments in building. It means upgrading our refining and pipeline infrastructure in order to move our petroleum products to market.

At the end of the day, it requires that we set our sights on the goal of getting off foreign oil. Senator BINGAMAN sent a letter to the Secretary of Energy and the Administrator of the Environmental Protection Agency in April 2004. That letter laid out 13 concrete actions that President Bush could take to respond to high gasoline prices. I concurred with many of these recommendations in a letter to the President myself in May 2004. However, this administration has not followed through on any of these suggestions.

Right now, more than ever, what we need are not only long-term policies but also near-term programs and actions that address the immediate problem. For one thing, as the great British economist John Maynard Keynes reminded us, ''In the long run we are all dead.''

I am also reminded of the response that an aide to President Franklin Roosevelt gave when asked why the administration was acting so quickly and forcefully at the time to put people back to work during the dark days of the Great Depression—I lived in them—when in the long run market forces would eventually do it. The aide, Harry Hopkins, snapped: People do not eat in the long run. They eat every day.

While we do need long-term energy policies to reduce our dependency on foreign energy, we still drive cars every day during the dark days of these soaring gasoline prices. American workers, American consumers, and American small businesses suffer because of the failure of their Government to provide short-term relief.

Here are some suggestions which might provide assistance. The White House could direct the Secretary of Energy to suspend the delivery of oil to the Strategic Petroleum Reserve until market conditions improve. We might consider liberalizing the vehicle depreciation allowance to assist workers who daily commute more than 30 miles one way to work, and $15.5 billion in targeted tax incentives over the next 10 years, including $2 billion to deploy advanced clean coal technologies, would help to strengthen the economy, enhance our Nation's energy resources, promote an array of advanced energy technologies and increase jobs while promoting a healthy government.

Yes, we can do more. We can do plenty. We need an investigation into what is going on and why the people in West Virginia and other States are getting squeezed, why the people in West Virginia and other States are getting gouged, when huge oil companies are enjoying recordbreaking profits. I call on the White House to direct the Federal Trade Commission to review whether speculations in the futures market may be playing a role in driving up gasoline prices. I call for a congressional investigation to ascertain the role of oil companies in setting the steep price that West Virginians and people in other rural States pay at the pump.

Finally, I urge the White House to stop wimping out and to confront OPEC. Press these oil-producing countries to increase oil supply to help stabilize global prices. While running for the Presidency, George Bush promised to get tough with OPEC, especially the Saudis. Now, Mr. President, is the time to do it.

The White House should work on rehabilitating its own weak, creaky spine which has kept it from playing hardball with the foreign countries that sell us most of our oil. In his book, ''Plan of Attack,'' Bob Woodward reported that Saudi Arabia offered to fine-tune oil prices in the months before the 2004 Presidential election. Why not use the bully pulpit now to call for increased oil production? Why not dispatch the Secretary of State to OPEC countries to twist arms and knock heads together to get an increase in oil production? Why does the White House remain silent, as silent as a stone, when OPEC announces, as it did on March 30, that it had ruled out an increase in oil production? Why does the administration hold its tongue when Middle Eastern potentates collude to separate working Americans from their hard-earned dollars?

Instead of reading headlines about tough administrative action to reduce oil prices, we read of scandals about lucrative billion-dollar, no-bid contracts for Iraqi oil fields. Instead of lowering prices at the pump in the USA, less than 18 months ago the White House asked Congress to approve $900 million in taxpayer money to send more gasoline to filling stations. Where? Baghdad.

The President might not have a short-term energy strategy for the United States, but he has a great one for Iraq. The only problem is that the American people are paying for it twice, once on April 15, the day our income taxes are due, and once again on every trip to the filling station.

I yield back the remainder of my time. I yield the floor and I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. COCHRAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

CONCLUSION OF MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Morning business is closed.

EMERGENCY SUPPLEMENTAL APPROPRIATIONS ACT, 2005

The ACTING PRESIDENT pro tempore. Under the previous order, the hour of 3 p.m. having arrived, the Senate will proceed to the consideration of H.R. 1268, which the clerk will report.

The legislative clerk read as follows:

A bill (H.R. 1268) making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for States driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes.

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on Appropriations, with an amendment to strike all after the enacting clause and insert in lieu thereof the following:

[Strike the part shown in black brackets and insert the part shown in italic.]

H.R. 1268

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

[That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the fiscal year ending September 30, 2005, and for other purposes, namely:

[DIVISION A—EMERGENCY SUPPLEMENTAL APPROPRIATIONS ACT FOR DEFENSE, THE GLOBAL WAR ON TERROR, AND TSUNAMI RELIEF, 2005

[TITLE I—DEFENSE-RELATED APPROPRIATIONS

[CHAPTER 1

[DEPARTMENT OF DEFENSE

[DEPARTMENT OF DEFENSE—MILITARY

[MILITARY PERSONNEL

[MILITARY PERSONNEL, ARMY

[For an additional amount for ''Military Personnel, Army'', $11,779,642,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[MILITARY PERSONNEL, NAVY

[For an additional amount for ''Military Personnel, Navy'', $534,080,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[MILITARY PERSONNEL, MARINE CORPS

[For an additional amount for ''Military Personnel, Marine Corps'', $1,251,726,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[MILITARY PERSONNEL, AIR FORCE

[For an additional amount for ''Military Personnel, Air Force'', $1,473,472,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[RESERVE PERSONNEL, ARMY

[For an additional amount for ''Reserve Personnel, Army'', $40,327,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[RESERVE PERSONNEL, NAVY

[For an additional amount for ''Reserve Personnel, Navy'', $11,111,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[RESERVE PERSONNEL, MARINE CORPS

[For an additional amount for ''Reserve Personnel, Marine Corps'', $4,115,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[RESERVE PERSONNEL, AIR FORCE

[For an additional amount for ''Reserve Personnel, Air Force'', $130,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[NATIONAL GUARD PERSONNEL, ARMY

[For an additional amount for ''National Guard Personnel, Army'', $430,300,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[NATIONAL GUARD PERSONNEL, AIR FORCE

[For an additional amount for ''National Guard Personnel, Air Force'', $91,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[OPERATION AND MAINTENANCE

[OPERATION AND MAINTENANCE, ARMY

[For an additional amount for ''Operation and Maintenance, Army'', $17,366,004,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[OPERATION AND MAINTENANCE, NAVY

[For an additional amount for ''Operation and Maintenance, Navy'', $3,030,801,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[OPERATION AND MAINTENANCE, MARINE CORPS

[For an additional amount for ''Operation and Maintenance, Marine Corps'', $982,464,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[OPERATION AND MAINTENANCE, AIR FORCE

[For an additional amount for ''Operation and Maintenance, Air Force'', $5,769,450,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[OPERATION AND MAINTENANCE, DEFENSE-WIDE

[For an additional amount for ''Operation and Maintenance, Defense-Wide'', $3,061,300,000 (reduced by $1,000,000) (increased by $1,000,000), of which—

[(1) not to exceed $25,000,000 may be used for the Combatant Commander Initiative Fund, to be used in support of Operation Iraqi Freedom and Operation Enduring Freedom; and

[(2) up to $1,220,000,000, to remain available until expended, may be used for payments to reimburse Pakistan, Jordan, and other key cooperating nations, for logistical, military, and other support provided, or to be provided, to United States military operations, notwithstanding any other provision of law: *Provided*, That such payments may be made in such amounts as the Secretary of Defense, with the concurrence of the Secretary of State, and in consultation with the Director of the Office of Management and Budget, may determine, in his discretion, based on documentation determined by the Secretary of Defense to adequately account for the support provided, and such determination is final and conclusive upon the accounting officers of the United States, and 15 days following notification to the appropriate congressional committees: *Provided further*, That the Secretary of Defense shall provide quarterly reports to the Committees on Appropriations on the use of funds provided in this paragraph: *Provided further*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[OPERATION AND MAINTENANCE, ARMY RESERVE

[For an additional amount for ''Operation and Maintenance, Army Reserve'', $8,154,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[OPERATION AND MAINTENANCE, NAVY RESERVE

[For an additional amount for ''Operation and Maintenance, Navy Reserve'', $75,164,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[OPERATION AND MAINTENANCE, MARINE CORPS RESERVE

[For an additional amount for ''Operation and Maintenance, Marine Corps Reserve'', $24,920,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

[For an additional amount for ''Operation and Maintenance, Army National Guard'', $188,779,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC AID

[For an additional amount for ''Overseas Humanitarian, Disaster, and Civic Aid'', $10,000,000, to remain available until September 30, 2006: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[AFGHANISTAN SECURITY FORCES FUND

[(INCLUDING TRANSFER OF FUNDS)

[For the ''Afghanistan Security Forces Fund'', $1,285,000,000, to remain available until September 30, 2006: *Provided*, That such funds shall be available to the Secretary of Defense, notwithstanding any other provision of law, for the purpose of allowing the Commander, Combined Forces Command-Afghanistan, or the Secretary's designee to provide assistance, with the concurrence of the Secretary of State, to the security forces of Afghanistan including the provision of equipment, supplies, services, training, facility and infrastructure repair, renovation, and construction, and funding: *Provided further*, That the authority to provide assistance under this section is in addition to any other authority to provide assistance to foreign nations: *Provided further*, That the Secretary of Defense may transfer the funds provided herein to appropriations for military personnel; operation and maintenance; Overseas Humanitarian, Disaster, and Civic Aid; procurement; research, development, test and evaluation; and defense working capital funds to accomplish the purposes provided herein: *Provided further*, That this transfer authority is in addition to any other transfer authority available to the Department of Defense: *Provided further*, That upon a determination that all or part of the funds so transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: *Provided further*, That contributions of funds for the purposes provided herein from any person, foreign government, or international organization may be credited to this Fund, and used for such purposes: *Provided further*, That the Secretary of Defense shall, not fewer than 5 days prior to making transfers from this appropriation, notify the congressional defense committees in writing of the details of any such transfer: *Provided further*, That the Secretary shall submit a report no later than 30 days after the end of each fiscal quarter to the congressional defense committees summarizing the details of the transfer of funds

from this appropriation: *Provided further*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[IRAQ SECURITY FORCES FUND

[(INCLUDING TRANSFER OF FUNDS)

[For the ''Iraq Security Forces Fund'', $5,700,000,000, to remain available until September 30, 2006: *Provided*, That such funds shall be available to the Secretary of Defense, notwithstanding any other provision of law, for the purpose of allowing the Commander, Multi-National Security Transition Command—Iraq, or the Secretary's designee to provide assistance, with the concurrence of the Secretary of State, to the security forces of Iraq including the provision of equipment, supplies, services, training, facility and infrastructure repair, renovation, and construction, and funding: *Provided further*, That the authority to provide assistance under this section is in addition to any other authority to provide assistance to foreign nations: *Provided further*, That the Secretary of Defense may transfer the funds provided herein to appropriations for military personnel; operation and maintenance; Overseas Humanitarian, Disaster, and Civic Aid; procurement; research, development, test and evaluation; and defense working capital funds to accomplish the purposes provided herein: *Provided further*, That this transfer authority is in addition to any other transfer authority available to the Department of Defense: *Provided further*, That upon a determination that all or part of the funds so transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: *Provided further*, That contributions of funds for the purposes provided herein from any person, foreign government, or international organization may be credited to this Fund, and used for such purposes: *Provided further*, That, notwithstanding any other provision of law, from funds made available under this heading, up to $99,000,000 may be used to provide assistance to the Government of Jordan to establish a regional training center designed to provide comprehensive training programs for regional military and security forces and military and civilian officials, to enhance the capability of such forces and officials to respond to existing and emerging security threats in the region: *Provided further*, That assistance authorized by the preceding proviso may include the provision of facilities, equipment, supplies, services, training and funding, and the Secretary of Defense may transfer funds to any Federal agency for the purpose of providing such assistance: *Provided further*, That the Secretary of Defense shall, not fewer than 5 days prior to making transfers from this appropriation, notify the congressional defense committees in writing of the details of any such transfer: *Provided further*, That the Secretary shall submit a report no later than 30 days after the end of each fiscal quarter to the congressional defense committees summarizing the details of the transfer of funds from this appropriation: *Provided further*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[PROCUREMENT

[AIRCRAFT PROCUREMENT, ARMY

[For an additional amount for ''Aircraft Procurement, Army'', $458,677,000, to remain available until September 30, 2007: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[MISSILE PROCUREMENT, ARMY

[For an additional amount for ''Missile Procurement, Army'', $340,536,000, to remain available until September 30, 2007: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

[For an additional amount for ''Procurement of Weapons and Tracked Combat Vehicles, Army'', $2,678,747,000, to remain available until September 30, 2007: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[PROCUREMENT OF AMMUNITION, ARMY

[For an additional amount for ''Procurement of Ammunition, Army'', $532,800,000, to remain available until September 30, 2007: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[OTHER PROCUREMENT, ARMY

[(INCLUDING TRANSFER OF FUNDS)

[For an additional amount for ''Other Procurement, Army'', $6,634,905,000, to remain available until September 30, 2007, of which $85,000,000 shall be derived by transfer from ''Iraq Freedom Fund'': *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[AIRCRAFT PROCUREMENT, NAVY

[For an additional amount for ''Aircraft Procurement, Navy'', $200,295,000, to remain available until September 30, 2007: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[WEAPONS PROCUREMENT, NAVY

[For an additional amount for ''Weapons Procurement, Navy'', $71,600,000, to remain available until September 30, 2007: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[PROCUREMENT OF AMMUNITION, NAVY AND MARINE CORPS

[For an additional amount for ''Procurement of Ammunition, Navy and Marine Corps'', $141,735,000, to remain available until September 30, 2007: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[OTHER PROCUREMENT, NAVY

[For an additional amount for ''Other Procurement, Navy'', $78,372,000, to remain available until September 30, 2007: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[PROCUREMENT, MARINE CORPS

[For an additional amount for ''Procurement, Marine Corps'', $3,588,495,000, to remain available until September 30, 2007: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[AIRCRAFT PROCUREMENT, AIR FORCE

[For an additional amount for ''Aircraft Procurement, Air Force'', $279,241,000, to remain available until September 30, 2007: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[PROCUREMENT OF AMMUNITION, AIR FORCE

[For an additional amount for ''Procurement of Ammunition, Air Force'', $6,998,000, to remain available until September 30, 2007: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[OTHER PROCUREMENT, AIR FORCE

[For an additional amount for ''Other Procurement, Air Force'', $2,658,527,000, to remain available until September 30, 2007: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[PROCUREMENT, DEFENSE-WIDE

[For an additional amount for ''Procurement, Defense-Wide'', $646,327,000, to remain available until September 30, 2007: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[RESEARCH, DEVELOPMENT, TEST AND EVALUATION

[RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

[For an additional amount for ''Research, Development, Test and Evaluation, Army'', $25,170,000, to remain available until September 30, 2006: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, NAVY

[For an additional amount for ''Research, Development, Test, and Evaluation, Navy'', $202,051,000, to remain available until September 30, 2006: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

[For an additional amount for ''Research, Development, Test and Evaluation, Air Force'', $121,500,000, to remain available until September 30, 2006: *Provided*, That the amounts provided under this heading are designated as an emergency requirement

pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

⟦RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE-WIDE

⟦For an additional amount for ''Research, Development, Test and Evaluation, Defense-Wide'', $159,600,000, to remain available until September 30, 2006: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

⟦REVOLVING AND MANAGEMENT FUNDS

⟦DEFENSE WORKING CAPITAL FUNDS

⟦For an additional amount for ''Defense Working Capital Funds'', $1,411,300,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

⟦NATIONAL DEFENSE SEALIFT FUND

⟦For an additional amount for ''National Defense Sealift Fund'', $32,400,000, to remain available until expended: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

⟦OTHER DEPARTMENT OF DEFENSE PROGRAMS

⟦DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES, DEFENSE

⟦(INCLUDING TRANSFER OF FUNDS)

⟦For an additional amount for ''Drug Interdiction and Counter-Drug Activities, Defense'', $257,000,000, to remain available until December 31, 2005: *Provided*, That these funds may be used for such activities related to Afghanistan and the Central Asia area: *Provided further*, That the Secretary of Defense may transfer the funds provided herein only to appropriations for military personnel; operation and maintenance; procurement; and research, development, test and evaluation: *Provided further*, That the funds transferred shall be merged with and be available for the same purposes and for the same time period as the appropriation to which transferred: *Provided further*, That the transfer authority provided in this paragraph is in addition to any other transfer authority available to the Department of Defense: *Provided further*, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: *Provided further*, That not to exceed $70,000,000 of the funds provided herein may be used to reimburse fully this account for obligations incurred for the purposes provided under this heading prior to enactment of this Act: *Provided further*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

⟦OFFICE OF THE INSPECTOR GENERAL

⟦For an additional amount for ''Office of the Inspector General'', $148,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

⟦RELATED AGENCIES

⟦INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

⟦For an additional amount for ''Intelligence Community Management Account'', $250,300,000, of which $181,000,000 is to remain available until September 30, 2006: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

⟦GENERAL PROVISIONS—THIS CHAPTER

⟦(TRANSFER OF FUNDS)

⟦SEC. 1101. Upon his determination that such action is necessary in the national interest, the Secretary of Defense may transfer between appropriations up to $2,000,000,000 of the funds made available to the Department of Defense in this chapter: *Provided*, That the Secretary shall notify the Congress promptly of each transfer made pursuant to this authority: *Provided further*, That the transfer authority provided in this section is in addition to any other transfer authority available to the Department of Defense: *Provided further*, That the authority in this section is subject to the same terms and conditions as the authority provided in section 8005 of the Department of Defense Appropriations Act, 2005, except for the fourth proviso: *Provided further*, That the amounts made available by the transfer of funds in or pursuant to this section are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

⟦SEC. 1102. Section 8005 of the Department of Defense Appropriations Act, 2005 (Public Law 108–287; 118 Stat. 969), is amended by striking ''$3,500,000,000'' and inserting ''$5,500,000,000'': *Provided*, That the amounts made available by the transfer of funds in or pursuant to this section are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

⟦(TRANSFER OF FUNDS)

⟦SEC. 1103. During fiscal year 2005, the Secretary of Defense may transfer amounts in or credited to the Defense Cooperation Account, pursuant to section 2608 of title 10, United States Code, to such appropriations or funds of the Department of Defense as he shall determine for use consistent with the purposes for which such funds were contributed and accepted: *Provided*, That such amounts shall be available for the same time period as the appropriation to which transferred: *Provided further*, That the Secretary shall report to the Congress all transfers made pursuant to this authority: *Provided further*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

⟦SEC. 1104. (a) AUTHORITY TO PROVIDE SUPPORT.—Of the amount appropriated by this Act under the heading, ''Drug Interdiction and Counter-Drug Activities, Defense'', not to exceed $34,000,000 may be made available for support for counter-drug activities of the Government of Afghanistan, and not to exceed $4,000,000 may be made available for support for counter-drug activities of the Government of Pakistan: *Provided*, That such support shall be in addition to support provided for the counter-drug activities of said Governments under any other provision of the law.

⟦(b) TYPES OF SUPPORT.—(1) Except as specified in subsections (b)(2) and (b)(3) of this section, the support that may be provided under the authority in this section shall be limited to the types of support specified in section 1033(c)(1) of the National Defense Authorization Act for Fiscal Year 1998 (Public Law 105–85, as amended by Public Law 106–398 and Public Law 108–136) and conditions on the provision of support as contained in section 1033 shall apply for fiscal year 2005.

⟦(2) The Secretary of Defense may transfer vehicles, aircraft, and detection, interception, monitoring and testing equipment to said Governments for counter-drug activities.

⟦(3) For the Government of Afghanistan, the Secretary of Defense may also provide individual and crew-served weapons, and ammunition for counter-drug security forces.

⟦SEC. 1105. The paragraph under the heading ''Operation and Maintenance, Defense-Wide'' in title II of the Department of Defense Appropriations Act, 2005 (Public Law 108–287; 118 Stat. 954), is amended in the first proviso by striking ''$32,000,000'' and inserting ''$40,000,000''.

⟦SEC. 1106. For fiscal year 2005, the limitation under paragraph (3) of section 2208(l) of title 10, United States Code, on the total amount of advance billings rendered or imposed for all working capital funds of the Department of Defense in a fiscal year shall be applied by substituting ''$1,500,000,000'' for ''$1,000,000,000''.

⟦SEC. 1107. Section 1201(a) of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (Public Law 108–375; 118 Stat. 2077), as amended by section 102 of title I of division J of the Consolidated Appropriations Act, 2005 (Public Law 108–447), is further amended by striking ''$500,000,000'' in the matter preceding paragraph (1) and inserting ''$854,000,000''.

⟦SEC. 1108. Section 8090(b) of the Department of Defense Appropriations Act, 2005 (Public Law 108–287), is amended by striking ''$185,000,000'' and inserting ''$210,000,000''.

⟦SEC. 1109. (a) During calendar year 2005 and notwithstanding section 5547 of title 5, United States Code, the head of an Executive agency may waive the limitation, up to $200,000, established in that section for total compensation, including limitations on the aggregate of basic pay and premium pay payable in a calendar year, to an employee who performs work while in an overseas location that is in the area of responsibility of the Commander of the U.S. Central Command, in support of, or related to—

⟦(1) a military operation, including a contingency operation; or

⟦(2) an operation in response to a declared emergency.

⟦(b) To the extent that a waiver under subsection (a) results in payment of additional premium pay of a type that is normally creditable as basic pay for retirement or any other purpose, such additional pay shall not be considered to be basic pay for any purpose, nor shall it be used in computing a lump-sum payment for accumulated and accrued annual leave under section 5551 of title 5, United States Code.

⟦(c) The Director of the Office of Personnel Management may issue regulations to ensure appropriate consistency among heads of executive agencies in the exercise of authority granted by this section.

⟦SEC. 1110. Section 1096(b) of the Intelligence Reform and Terrorism Prevention Act of 2004 (Public Law 108–458) is amended—

⟦(1) in the matter preceding paragraph (1), by striking ''in the fiscal year after the effective date of this Act'' and inserting ''during fiscal years 2005 and 2006''; and

[(2) in paragraph (1), by striking ''500 new personnel billets'' and inserting ''a total of 500 new personnel positions''.

[SEC. 1111. Section 1051a(e) of title 10, United States Code, is amended by striking ''September 30, 2005'' and inserting ''December 31, 2005''.

[SEC. 1112. Notwithstanding subsection (c) of section 308e of title 37, United States Code, the maximum amount of the bonus paid to a member of the Armed Forces pursuant to a reserve affiliation agreement entered into under such section during fiscal year 2005 shall not exceed $10,000, and the Secretary of Defense, and the Secretary of Homeland Security with respect to the Coast Guard, may prescribe regulations under subsection (f) of such section to modify the method by which bonus payments are made under reserve affiliation agreements entered into during such fiscal year.

[SEC. 1113. (a) INCREASE IN SGLI MAXIMUM.—Section 1967 of title 38, United States Code, is amended—

[(1) in subsection (a)(3)(A)(i), by striking ''$250,000'' and inserting ''$400,000 or such lesser amount as the member may elect in increments of $50,000'';

[(2) in subsection (a)(3)(B), by striking ''member or spouse'' in the last sentence and inserting ''member, be evenly divisible by $50,000 and, in the case of a member's spouse''; and

[(3) in subsection (d), by striking ''of $250,000'' and inserting ''in effect under subsection (a)(3)(A)(i)''.

[(b) SPOUSE CONSENT AND BENEFICIARY NOTIFICATION.—Section 1967(a)(3)(B) of such title is amended—

[(1) by inserting ''(i)'' after ''(B)''; and

[(2) by adding at the end the following new clauses:

[''(ii) A member who is married may not, without the written concurrence of the member's spouse—

[''(I) elect not to be insured under this subchapter or to be insured under this subchapter in an amount less than the maximum amount provided for under subparagraph (A)(i); or

[''(II) designate any other person as a beneficiary under this program.

[''(iii) Whenever a member who is not married elects not to be insured under this subchapter or to be insured under this subchapter in an amount less than the maximum amount provided for under subparagraph (A)(i), the Secretary concerned shall provide a notice of such election to any person designated by the member as a beneficiary or designated as the member's next-of-kin for the purpose of emergency notification, as determined under regulations prescribed by the Secretary of Defense.''.

[(c) LIMITATION ON SPOUSE COVERAGE TO AMOUNT OF MEMBER COVERAGE.—Section 1967(a)(3)(C) of such title is amended by inserting before the period at the end the following: ''as applicable to such member under subparagraph (A)(i)''.

[(d) CONFORMING AMENDMENTS TO VGLI PROVISIONS.—Section 1977 of such title is amended by striking ''$250,000'' each place it appears and inserting ''$400,000''.

[(e) MILITARY DEATH GRATUITY.—Section 1478 of title 10, United States Code, is amended—

[(1) in subsection (a), by striking ''$12,000 (as adjusted under subsection (c))'' and inserting ''$100,000''; and

[(2) by striking subsection (c).

[(f) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to deaths occurring on or after the date of the enactment of this Act.

[SEC. 1114. (a) SPECIAL DEATH GRATUITY FOR CERTAIN PRIOR DEATHS IN SERVICE.—In the case of the death of a member of the uniformed services that is a qualifying death (as specified in subsection (b)), the Secretary concerned shall pay a death gratuity of not more than $238,000. Of that amount—

[(1) $150,000 shall be paid in the manner specified in subsection (c); and

[(2) $88,000 shall be paid in the manner specified in subsection (d).

[(b) QUALIFYING DEATHS.—The death of a member of the uniformed services is a qualifying death for purpose of this section if—

[(1) the member died during the period beginning on October 7, 2001, and ending on the day before the date of the enactment of this Act;

[(2) for the purpose of section 1114(a)(2), the death was a direct result of an injury or illness (or combination of one or more injuries or illness) incurred in Operation Enduring Freedom or Operation Iraqi Freedom, as determined under regulations prescribed by the Secretary of Defense; and

[(3) for the purpose of section 1114(a)(1), the death was a direct result of an injury or illness (or combination of one or more injuries or illness) incurred by any active duty military member in the performance of duty.

[(c) SGLI BENEFICIARIES.—A payment pursuant to subsection (a)(1) by reason of a covered death shall be paid—

[(1) to a beneficiary in proportion to the share of benefits applicable to such beneficiary in the payment of life insurance proceeds paid on the basis of that death under the Servicemembers Group Life Insurance program under subchapter III of chapter 19 of title 38, United States Code; or

[(2) in the case of a member who elected not to be insured under the provisions of that subchapter, in equal shares to the person or persons who would have received proceeds under those provisions of law for a member who is insured under that subchapter but does not designate named beneficiaries.

[(d) MILITARY DEATH GRATUITY BENEFICIARIES.—A payment pursuant to subsection (a)(2) by reason of a covered death shall be paid equal shares to the beneficiaries who were paid the death gratuity that was paid with respect to that death under subchapter II of chapter 75 of title 10, United States Code.

[(e) STATUS OF PAYMENTS.—A death gratuity payable under this section by reason of a qualifying death is in addition to any other death gratuity or other benefit payable by the United States by reason of that death.

[(f) DEFINITION.—For the purposes of this section, the term ''Secretary concerned'' has the meaning given that term in section 101 of title 37, United States Code.''.

[SEC. 1115. Funds appropriated in this chapter, or made available by transfer of funds in or pursuant to this chapter, for intelligence activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414).

[SEC. 1116. None of the funds provided in this chapter may be used to finance programs or activities denied by Congress in fiscal year 2004 and 2005 appropriations to the Department of Defense or to initiate a procurement or research, development, test and evaluation new start program without prior written notification to the congressional defense committees.

[CHAPTER 2

[DEPARTMENT OF DEFENSE

[MILITARY CONSTRUCTION, ARMY

[For an additional amount for ''Military Construction, Army'', $930,100,000, to remain available until September 30, 2006: *Provided*, That $669,100,000 of such additional amount may not be obligated until after that date on which the Secretary of Defense submits to the Committees on Appropriations of the House of Representatives and Senate the comprehensive master plans for overseas military infrastructure required by House Report 108–342: *Provided further*, That notwithstanding any other provision of law, such funds may be obligated or expended to carry out planning and design and military construction projects not otherwise authorized by law: *Provided further*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[MILITARY CONSTRUCTION, NAVY AND MARINE CORPS

[For an additional amount for ''Military Construction, Navy and Marine Corps'', $92,720,000, to remain available until September 30, 2006: *Provided*, That $32,380,000 of such additional amount may not be obligated until after that date on which the Secretary of Defense submits to the Committees on Appropriations of the House of Representatives and Senate the comprehensive master plans for overseas military infrastructure required by House Report 108–342: *Provided further*, That notwithstanding any other provision of law, such funds may be obligated or expended to carry out planning and design and military construction projects not otherwise authorized by law: *Provided further*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[MILITARY CONSTRUCTION, AIR FORCE

[For an additional amount for ''Military Construction, Air Force'', $301,386,000, to remain available until September 30, 2006: *Provided*, That $301,386,000 of such additional amount may not be obligated until after that date on which the Secretary of Defense submits to the Committees on Appropriations of the House of Representatives and Senate the comprehensive master plans for overseas military infrastructure required by House Report 108–342: *Provided further*, That notwithstanding any other provision of law, such funds may be obligated or expended to carry out planning and design and military construction projects not otherwise authorized by law: *Provided further*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[MILITARY PERSONNEL, ARMY

[For an additional amount for ''Military Personnel, Army'', $1,542,100,000: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[OPERATION AND MAINTENANCE, ARMY

[For an additional amount for ''Operation and Maintenance, Army'', $66,300,000: *Provided*, That the amounts provided under this

heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[DEFENSE HEALTH PROGRAM

[For an additional amount for ''Defense Health Program'', $175,550,000 for operation and maintenance: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[TITLE II—INTERNATIONAL PROGRAMS AND ASSISTANCE FOR RECONSTRUCTION AND THE WAR ON TERROR

[CHAPTER 1

[BILATERAL ECONOMIC ASSISTANCE

[FUNDS APPROPRIATED TO THE PRESIDENT

[UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT

[INTERNATIONAL DISASTER AND FAMINE ASSISTANCE

[For an additional amount for ''International Disaster and Famine Assistance'', $44,000,000 (increased by $50,000,000), to remain available until expended, for emergency expenses related to the humanitarian crisis in the Darfur region of Sudan: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[OPERATING EXPENSES OF THE UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT

[For an additional amount for ''Operating Expenses of the United States Agency for International Development'', $24,400,000, to remain available until September 30, 2006.

Con. Res. 95 (108th Congress).

[GENERAL PROVISIONS—THIS CHAPTER

[SEC. 2101. Section 307(a) of the Foreign Assistance Act of 1961 is amended by striking ''Iraq,''.

[(RESCISSION)

[SEC. 2102. The unexpended balance appropriated by Public Law 108–11 under the heading ''Economic Support Fund'' and made available for Turkey is rescinded.

[SEC. 2103. Section 559 of division D of Public Law 108–447 is amended by adding at the end the following:

[''(e) Subsequent to the certification specified in subsection (a), the Comptroller General of the United States shall conduct an audit and an investigation of the treatment, handling, and uses of all funds for the bilateral West Bank and Gaza Program in fiscal year 2005 under the heading 'Economic Support Fund'. The audit shall address—

[''(1) the extent to which such Program complies with the requirements of subsections (b) and (c), and

[''(2) an examination of all programs, projects, and activities carried out under such Program, including both obligations and expenditures.''.

[SEC. 2104. The Secretary of State shall submit to the Committees on Appropriations not later than 30 days after enactment, and prior to the initial obligation of funds appropriated under this chapter, a report on the proposed uses of all funds on a project-by-project basis, for which the obligation of funds is anticipated: *Provided*, That up to 10 percent of funds appropriated under this chapter may be obligated before the submission of the report subject to the normal notification procedures of the Committees on Appropriations: *Provided further*, That the report shall be updated and submitted to the Committees on Appropriations every six months and shall include information detailing how the estimates and assumptions contained in previous reports have changed: *Provided further*, That any new projects and increases in funding of ongoing projects shall be subject to the prior approval of the Committees on Appropriations: *Provided further*, That the Secretary of State shall submit to the Committees on Appropriations, not later than 210 days following enactment of this Act and annually thereafter, a report detailing on a project-by-project basis the expenditure of funds appropriated under this chapter until all funds have been fully expended.

[SEC. 2105. The Comptroller General of the United States shall conduct an audit of the use of all funds for the bilateral Afghanistan counternarcotics and alternative livelihood programs in fiscal year 2005 under the heading ''Economic Support Fund'' and ''International Narcotics Control and Law Enforcement'': *Provided*, That the audit shall include an examination of all programs, projects and activities carried out under such programs, including both obligations and expenditures.

[SEC. 2106. No later than 60 days after the date of enactment of this Act, the President shall submit a report to the Congress detailing—

[(1) information regarding the Palestinian security services, including their numbers, accountability, and chains of command, and steps taken to purge from their ranks individuals with ties to terrorist entities;

[(2) specific steps taken by the Palestinian Authority to dismantle the terrorist infrastructure, confiscate unauthorized weapons, arrest and bring terrorists to justice, destroy unauthorized arms factories, thwart and preempt terrorist attacks, and cooperate with Israel's security services;

[(3) specific actions taken by the Palestinian Authority to stop incitement in Palestinian Authority-controlled electronic and print media and in schools, mosques, and other institutions it controls, and to promote peace and coexistence with Israel;

[(4) specific steps the Palestinian Authority has taken to ensure democracy, the rule of law, and an independent judiciary, and transparent and accountable governance;

[(5) the Palestinian Authority's cooperation with United States officials in their investigations into the late Palestinian leader Yasser Arafat's finances; and

[(6) the amount of assistance pledged and actually provided to the Palestinian Authority by other donors:

[*Provided*, That not later than 180 days after enactment of this Act, the President shall submit to the Congress an update of this report: *Provided further*, That up to $5,000,000 of the funds made available for assistance to the West Bank and Gaza by this title under ''Economic Support Fund'' shall be used for an outside, independent evaluation by an internationally recognized accounting firm of the transparency and accountability of Palestinian Authority accounting procedures and an audit of expenditures by the Palestinian Authority: *Provided further*, That the waiver authority of section 550(b) of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 2005 (Public Law 108–447) may not be exercised with respect to funds appropriated for assistance to the Palestinians under this chapter: *Provided further*, That the waiver detailed in

Presidential Determination 2005–10 issued on December 8, 2004, shall not be extended to funds appropriated under this chapter.

[TITLE IV—INDIAN OCEAN TSUNAMI RELIEF

[CHAPTER 1

[FUNDS APPROPRIATED TO THE PRESIDENT

[OTHER BILATERAL ASSISTANCE

[TSUNAMI RECOVERY AND RECONSTRUCTION FUND

[(INCLUDING TRANSFERS OF FUNDS)

[For necessary expenses to carry out the Foreign Assistance Act of 1961, for emergency relief, rehabilitation, and reconstruction aid to countries affected by the tsunami and earthquakes of December 2004, and for other purposes, $656,000,000 (increased by $3,000,000), to remain available until September 30, 2006: *Provided*, That these funds may be transferred by the Secretary of State to any Federal agency or account for any activity authorized under part I (including chapter 4 of part II) of the Foreign Assistance Act, or under the Agricultural Trade Development and Assistance Act of 1954, to accomplish the purposes provided herein: *Provided further*, That upon a determination that all or part of the funds so transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: *Provided further*, That funds appropriated under this heading may be used to reimburse fully accounts administered by the United States Agency for International Development for obligations incurred for the purposes provided under this heading prior to enactment of this Act, including Public Law 480 Title II grants: *Provided further*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress): *Provided further*, That of the amounts provided herein: up to $10,000,000 may be transferred to and consolidated with the Development Credit Authority for the cost of direct loans and loan guarantees as authorized by sections 256 and 635 of the Foreign Assistance Act of 1961 in furtherance of the purposes of this heading; up to $15,000,000 may be transferred to and consolidated with ''Operating Expenses of the United States Agency for International Development'', of which up to $2,000,000 may be used for administrative expenses to carry out credit programs administered by the United States Agency for International Development in furtherance of the purposes of this heading; up to $500,000 may be transferred to and consolidated with ''Operating Expenses of the United States Agency for International Development, Office of Inspector General''; and up to $5,000,000 may be transferred to and consolidated with ''Administration of Foreign Affairs Emergencies in the Diplomatic and Consular Service'' for the purpose of providing support services for U.S. citizen victims and related operations.

[GENERAL PROVISION

[SEC. 4101. Amounts made available pursuant to section 492(b) of the Foreign Assistance Act of 1961 to address relief and rehabilitation needs for countries affected by the tsunami and earthquake of December 2004, prior to the enactment of this Act, shall be in addition to the amount that may be obligated in fiscal year 2005 under that section.

[SEC. 4102. The Secretary of State shall submit to the Committees on Appropriations not later than 30 days after enactment, and prior to the initial obligation of funds appropriated under this chapter, a report on the proposed uses of all funds on a project-by-project basis, for which the obligation of funds is anticipated: *Provided*, That up to 10 percent of funds appropriated under this chapter may be obligated before the submission of the report subject to the normal notification procedures of the Committees on Appropriations: *Provided further*, That the report shall be updated and submitted to the Committees on Appropriations every six months and shall include information detailing how the estimates and assumptions contained in previous reports have changed: *Provided further*, That any proposed new projects and increases in funding of ongoing projects shall be reported to the Committees on Appropriations in accordance with regular notification procedures: *Provided further*, That the Secretary of State shall submit to the Committees on Appropriations, not later than 210 days following enactment of this Act, and every six months thereafter, a report detailing on a project-by project basis, the expenditure of funds appropriated under this chapter until all funds have been fully expended.

[CHAPTER 2

[DEPARTMENT OF DEFENSE—MILITARY

[OPERATION AND MAINTENANCE

[OPERATION AND MAINTENANCE, NAVY

[For an additional amount for ''Operations, Research, and Facilities'', $4,830,000, to remain available until September 30, 2006, for United States tsunami warning capabilities and operations: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[PROCUREMENT, ACQUISITION AND CONSTRUCTION

[For an additional amount for ''Procurement, Acquisition and Construction'', $9,670,000, to remain available until September 30, 2007, for United States tsunami warning capabilities: *Provided*, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

[TITLE V—GENERAL PROVISIONS AND TECHNICAL CORRECTIONS

[SEC. 5001. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

[(INCLUDING TRANSFERS OF FUNDS)

[SEC. 5002. Notwithstanding any other provision of law, upon enactment of this Act, the Secretary of Defense shall make the following transfers of funds previously made available in the Department of Defense Appropriations Act, 2005 (Public Law 108–287): *Provided*, That the amounts transferred shall be made available for the same purpose and the same time period as the appropriation to which transferred: *Provided further*, That the authority provided in this section is in addition to any other transfer authority available to the Department of Defense: *Provided further*, That the amounts shall be transferred between the following appropriations, in the amounts specified:

[To:

[Under the heading, ''Research, Development, Test and Evaluation, Air Force, 2005/2006'', $500,000;

[From:

[Under the heading, ''Other Procurement, Air Force'', $500,000.

[To:

[Under the heading, ''Other Procurement, Air Force, 2005/2007'', $8,200,000;

[From:

[Under the heading, ''Other Procurement, Navy, 2005/2007'', $8,200,000.

[SEC. 5003. Funds appropriated by this Act may be obligated and expended notwithstanding section 15 of the State Department Basic Authorities Act of 1956, section 313 of the Foreign Relations Authorization Act, Fiscal Years 1994 and 1995 (Public Law 103–236) and section 10 of Public Law 91–672 (22 U.S.C. 2412), and section 504(a)(1) of the National Security Act of 1947 (50 U.S.C. 414(a)(1)).

[SEC. 5004. The last proviso under the heading ''Operation and Maintenance'' in title I of division C of Public Law 108–447 is amended by striking ''Public Law 108–357'' and inserting ''Public Law 108–137''.

[SEC. 5005. Section 101 of title I of division C of Public Law 108–447 is amended by striking ''per project'' and all that follows through the period at the end and inserting ''for all applicable programs and projects not to exceed $80,000,000 in each fiscal year.''.

[SEC. 5006. The matter under the heading ''Water and Related Resources'' in title II of division C of Public Law 108–447 is amended by inserting before the period at the end the following: '': *Provided further*, That $4,023,000 of the funds appropriated under this heading shall be deposited in the San Gabriel Basin Restoration Fund established by section 110 of title I of division B of the Miscellaneous Appropriations Act, 2001 (as enacted into law by Public Law 106–554)''.

[SEC. 5007. In division C, title III of the Consolidated Appropriations Act, 2005 (Public Law 108–447), the item relating to ''Department of Energy—Energy Programs—Nuclear Waste Disposal'' is amended by—

[(1) inserting ''to be derived from the Nuclear Waste Fund and'' after ''$346,000,000,''; and

[(2) striking ''to conduct scientific oversight responsibilities and participate in licensing activities pursuant to the Act'' and inserting ''to participate in licensing activities and other appropriate activities pursuant to the Act''.

[SEC. 5008. Section 144(b)(2) of title I of division E of Public Law 108–447 is amended by striking ''September 24, 2004'' and inserting ''November 12, 2004''.

[SEC. 5009. In the statement of the managers of the committee of conference accompanying H.R. 4818 (Public Law 108–447; House Report 108–792), in the matter in title III of division F, relating to the Fund for the Improvement of Education under the heading ''Innovation and Improvement''—

[(1) the provision specifying $500,000 for the Mississippi Museum of Art, Jackson, MS for Hardy Middle School After School Program shall be deemed to read ''Mississippi Museum of Art, Jackson, MS for a Mississippi Museum of Art After-School Collaborative'';

⁅SEC. 5022. Section 308 of division B of Public Law 108–447 is amended by striking all after the words ''shall be deposited'', and inserting ''as offsetting receipts to the fund established under 28 U.S.C. 1931 and shall remain available to the Judiciary until expended to reimburse any appropriation for the amount paid out of such appropriation for expenses of the Courts of Appeals, District Courts, and Other Judicial Services and the Administrative Offices of the United States Courts.''.

⁅SEC. 5023. Section 198 of division H of Public Law 108–447 is amended by inserting ''under title 23 of the United States Code'' after ''law''.

⁅SEC. 5024. The District of Columbia Appropriations Act, 2005 (Public Law 108–335) approved October 18, 2004, is amended as follows:

⁅(1) Section 331 is amended as follows:

⁅(A) in the first sentence by striking the word ''$15,000,000'' and inserting ''$42,000,000, to remain available until expended,'' in its place; and

⁅(B) by amending paragraph (5) to read as follows:

⁅''(5) The amounts may be obligated or expended only if the Mayor notifies the Committees on Appropriations of the House of Representatives and Senate in writing 30 days in advance of any obligation or expenditure.''.

⁅(2) By inserting a new section before the short title at the end to read as follows:

⁅''SEC. 348. The amount appropriated by this Act may be increased by an additional

amount of $206,736,000 (including $49,927,000 from local funds and $156,809,000 from other funds) to be transferred by the Mayor of the District of Columbia to the various headings under this Act as follows:

''(1) $174,927,000 (including $34,927,000 from local funds, and $140,000,000 from other funds) shall be transferred under the heading 'Government Direction and Support': *Provided,* That of the funds, $33,000,000 from local funds shall remain available until expended: *Provided further,* That of the funds, $140,000,000 from other funds shall remain available until expended and shall only be available in conjunction with revenue from a private or alternative financing proposal approved pursuant to section 106 of DC Act 15–717, the 'Ballpark Omnibus Financing and Revenue Act of 2004' approved by the District of Columbia, December 29, 2004, and

''(2) $15,000,000 from local funds shall be transferred under the heading 'Repayment of Loans and Interest', and

''(3) $14,000,000 from other funds shall be transferred under the heading 'Sports and Entertainment Commission', and

''(4) $2,809,000 from other funds shall be transferred under the heading 'Water and Sewer Authority'.''.

TITLE VI—

HUMANITARIAN ASSISTANCE CODE OF CONDUCT

SEC. 6001. SHORT TITLE.

This title may be cited as the ''Humanitarian Assistance Code of Conduct Act of 2005''.

SEC. 6002. CODE OF CONDUCT FOR THE PROTECTION OF BENEFICIARIES OF HUMANITARIAN ASSISTANCE.

(a) PROHIBITION.—None of the funds made available for foreign operations, export financing, and related programs under the headings ''Migration and Refugee Assistance'', ''United States Emergency Refugee and Migration Assistance Fund'', ''International Disaster and Famine Assistance'', or ''Transition Initiatives'' may be obligated to an organization that fails to adopt a code of conduct that provides for the protection of beneficiaries of assistance under any such heading from sexual exploitation and abuse in humanitarian relief operations.

(b) SIX CORE PRINCIPLES.—The code of conduct referred to in subsection (a) shall, to the maximum extent practicable, be consistent with the following six core principles of the United Nations Inter-Agency Standing Committee Task Force on Protection From Sexual Exploitation and Abuse in Humanitarian Crises:

(1) ''Sexual exploitation and abuse by humanitarian workers constitute acts of gross misconduct and are therefore grounds for termination of employment.''.

(2) ''Sexual activity with children (persons under the age of 18) is prohibited regardless of the age of majority or age of consent locally. Mistaken belief regarding the age of a child is not a defense.''.

(3) ''Exchange of money, employment, goods, or services for sex, including sexual favors or other forms of humiliating, degrading or exploitative behavior, is prohibited. This includes exchange of assistance that is due to beneficiaries.''.

(4) ''Sexual relationships between humanitarian workers and beneficiaries are strongly discouraged since they are based on inherently unequal power dynamics. Such relationships undermine the credibility and integrity of humanitarian aid work.''.

(5) ''Where a humanitarian worker develops concerns or suspicions regarding sexual abuse or exploitation by a fellow worker, whether in the same agency or not, he or she must report such concerns via established agency reporting mechanisms.''.

(6) ''Humanitarian agencies are obliged to create and maintain an environment which prevents sexual exploitation and abuse and promotes the implementation of their code of conduct. Managers at all levels have particular responsibilities to support and develop systems which maintain this environment.''.

SEC. 6003. REPORT.

Not later than 180 days after the date of the enactment of this Act, and not later than one year after the date of the enactment of this Act, the President shall transmit to the Committee on Appropriations and the Committee on International Relations of the House of Representatives and the Committee on Appropriations and the Committee on Foreign Relations of the Senate a detailed report on the implementation of this title.

SEC. 6004. EFFECTIVE DATE; APPLICABILITY.

This title—

(1) takes effect 60 days after the date of the enactment of this Act; and

(2) applies to funds obligated after the effective date referred to in paragraph (1)—

(A) for fiscal year 2005; and

(B) any subsequent fiscal year.

TITLE VII—ADDITIONAL GENERAL PROVISIONS

SEC. 7001. None of the funds made available in this Act may be used for embassy security, construction, and maintenance.

SEC. 7002. None of the funds made available in this Act may be used to fund any contract in contravention of section 15(g)(2) of the Small Business Act (15 U.S.C. 644(g)(2)).

SEC. 7003. None of the funds made available in this Act may be used in contravention of the following laws enacted or regulations promulgated to implement the United Nations Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment (done at New York on December 10, 1984):

(1) Section 2340A of title 18, United States Code.

(2) Section 2242 of the Foreign Affairs Reform and Restructuring Act of 1998 (division G of Public Law 105–277; 112 Stat. 2681–822; 8 U.S.C. 1231 note) and any regulations prescribed thereto, including regulations under part 208 of title 8, Code of Federal Regulations, and part 95 of title 22, Code of Federal Regulations.

This division may be cited as the ''Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Tsunami Relief, 2005''.

DIVISION B—REAL ID ACT OF 2005

SECTION 1. SHORT TITLE.

This division may be cited as the ''REAL ID Act of 2005''.

TITLE I—AMENDMENTS TO FEDERAL LAWS TO PROTECT AGAINST TERRORIST ENTRY

SEC. 101. PREVENTING TERRORISTS FROM OBTAINING RELIEF FROM REMOVAL.

(a) CONDITIONS FOR GRANTING ASYLUM.—Section 208(b)(1) of the Immigration and Nationality Act (8 U.S.C. 1158(b)(1)) is amended—

(1) by striking ''The Attorney General'' the first place such term appears and inserting the following:

''(A) ELIGIBILITY.—The Secretary of Homeland Security or the Attorney General'';

(2) by striking ''the Attorney General'' the second and third places such term appears and inserting ''the Secretary of Homeland Security or the Attorney General''; and

(3) by adding at the end the following:

''(B) BURDEN OF PROOF.—

''(i) IN GENERAL.—The burden of proof is on the applicant to establish that the applicant is a refugee, within the meaning of section 101(a)(42)(A). To establish that the applicant is a refugee within the meaning of such section, the applicant must establish that race, religion, nationality, membership in a particular social group, or political opinion was or will be a central reason for persecuting the applicant.

''(ii) SUSTAINING BURDEN.—The testimony of the applicant may be sufficient to sustain the applicant's burden without corroboration, but only if the applicant satisfies the trier of fact that the applicant's testimony is credible, is persuasive, and refers to specific facts sufficient to demonstrate that the applicant is a refugee. In determining whether the applicant has met the applicant's burden, the trier of fact may weigh the credible testimony along with other evidence of record. Where the trier of fact determines, in the trier of fact's discretion, that the applicant should provide evidence which corroborates otherwise credible testimony, such evidence must be provided unless the applicant does not have the evidence and cannot reasonably obtain the evidence without departing the United States. The inability to obtain corroborating evidence does not excuse the applicant from meeting the applicant's burden of proof.

''(iii) CREDIBILITY DETERMINATION.—The trier of fact should consider all relevant factors and may, in the trier of fact's discretion, base the trier of fact's credibility determination on any such factor, including the demeanor, candor, or responsiveness of the applicant or witness, the inherent plausibility of the applicant's or witness's account, the consistency between the applicant's or witness's written and oral statements (whenever made and whether or not made under oath), the internal consistency of each such statement, the consistency of such statements with other evidence of record (including the reports of the Department of State on country conditions), and any inaccuracies or falsehoods in such statements, without regard to whether an inconsistency, inaccuracy, or falsehood goes to the heart of the applicant's claim. There is no presumption of credibility.''.

(b) WITHHOLDING OF REMOVAL.—Section 241(b)(3) of the Immigration and Nationality Act (8 U.S.C. 1231(b)(3)) is amended by adding at the end the following:

''(C) SUSTAINING BURDEN OF PROOF; CREDIBILITY DETERMINATIONS.—In determining whether an alien has demonstrated that the alien's life or freedom would be threatened for a reason described in subparagraph (A), the trier of fact shall determine whether the alien has sustained the alien's burden of proof, and shall make credibility determinations, in the manner described in clauses (ii) and (iii) of section 208(b)(1)(B).''.

(c) OTHER REQUESTS FOR RELIEF FROM REMOVAL.—Section 240(c) of the Immigration and Nationality Act (8 U.S.C. 1230(c)) is amended—

(1) by redesignating paragraphs (4), (5), and (6) as paragraphs (5), (6), and (7), respectively; and

(2) by inserting after paragraph (3) the following:

''(4) APPLICATIONS FOR RELIEF FROM REMOVAL.—

''(A) IN GENERAL.—An alien applying for relief or protection from removal has the burden of proof to establish that the alien—

[''(i) satisfies the applicable eligibility requirements; and

[''(ii) with respect to any form of relief that is granted in the exercise of discretion, that the alien merits a favorable exercise of discretion.

[''(B) SUSTAINING BURDEN.—The applicant must comply with the applicable requirements to submit information or documentation in support of the applicant's application for relief or protection as provided by law or by regulation or in the instructions for the application form. In evaluating the testimony of the applicant or other witness in support of the application, the immigration judge will determine whether or not the testimony is credible, is persuasive, and refers to specific facts sufficient to demonstrate that the applicant has satisfied the applicant's burden of proof. In determining whether the applicant has met such burden, the immigration judge shall weigh the credible testimony along with other evidence of record. Where the immigration judge determines in the judge's discretion that the applicant should provide evidence which corroborates otherwise credible testimony, such evidence must be provided unless the applicant demonstrates that the applicant does not have the evidence and cannot reasonably obtain the evidence without departing from the United States. The inability to obtain corroborating evidence does not excuse the applicant from meeting the burden of proof.

[''(C) CREDIBILITY DETERMINATION.—The immigration judge should consider all relevant factors and may, in the judge's discretion, base the judge's credibility determination on any such factor, including the demeanor, candor, or responsiveness of the applicant or witness, the inherent plausibility of the applicant's or witness's account, the consistency between the applicant's or witness's written and oral statements (whenever made and whether or not made under oath), the internal consistency of each such statement, the consistency of such statements with other evidence of record (including the reports of the Department of State on country conditions), and any inaccuracies or falsehoods in such statements, without regard to whether an inconsistency, inaccuracy, or falsehood goes to the heart of the applicant's claim. There is no presumption of credibility.''.

[(d) STANDARD OF REVIEW FOR ORDERS OF REMOVAL.—Section 242(b)(4) of the Immigration and Nationality Act (8 U.S.C. 1252(b)(4)) is amended by adding at the end, after subparagraph (D), the following: ''No court shall reverse a determination made by a trier of fact with respect to the availability of corroborating evidence, as described in section 208(b)(1)(B), 240(c)(4)(B), or 241(b)(3)(C), unless the court finds that a reasonable trier of fact is compelled to conclude that such corroborating evidence is unavailable.''.

[(e) CLARIFICATION OF DISCRETION.—Section 242(a)(2)(B) of the Immigration and Nationality Act (8 U.S.C. 1252(a)(2)(B)) is amended—

[(1) by inserting ''or the Secretary of Homeland Security'' after ''Attorney General'' each place such term appears; and

[(2) in the matter preceding clause (i), by inserting ''and regardless of whether the judgment, decision, or action is made in removal proceedings,'' after ''other provision of law,''.

[(f) REMOVAL OF CAPS.—Section 209 of the Immigration and Nationality Act (8 U.S.C. 1159) is amended—

[(1) in subsection (a)(1)—

[(A) by striking ''Service'' and inserting ''Department of Homeland Security''; and

[(B) by striking ''Attorney General'' each place such term appears and inserting ''Secretary of Homeland Security or the Attorney General'';

[(2) in subsection (b)—

[(A) by striking ''Not more'' and all that follows through ''asylum who—'' and inserting ''The Secretary of Homeland Security or the Attorney General, in the Secretary's or the Attorney General's discretion and under such regulations as the Secretary or the Attorney General may prescribe, may adjust to the status of an alien lawfully admitted for permanent residence the status of any alien granted asylum who—''; and

[(B) in the matter following paragraph (5), by striking ''Attorney General'' and inserting ''Secretary of Homeland Security or the Attorney General''; and

[(3) in subsection (c), by striking ''Attorney General'' and inserting ''Secretary of Homeland Security or the Attorney General''.

[(g) EFFECTIVE DATES.—

[(1) The amendments made by paragraphs (1) and (2) of subsection (a) shall take effect as if enacted on March 1, 2003.

[(2) The amendments made by subsections (a)(3), (b), and (c) shall take effect on the date of the enactment of this division and shall apply to applications for asylum, withholding, or other removal made on or after such date.

[(3) The amendment made by subsection (d) shall take effect on the date of the enactment of this division and shall apply to all cases in which the final administrative removal order is or was issued before, on, or after such date.

[(4) The amendments made by subsection (e) shall take effect on the date of the enactment of this division and shall apply to all cases pending before any court on or after such date.

[(5) The amendments made by subsection (f) shall take effect on the date of the enactment of this division.

[(h) REPEAL.—Section 5403 of the Intelligence Reform and Terrorism Prevention Act of 2004 (Public Law 108–458) is repealed.

[SEC. 102. WAIVER OF LAWS NECESSARY FOR IMPROVEMENT OF BARRIERS AT BORDERS.

[Section 102(c) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1103 note) is amended to read as follows:

[''(c) WAIVER.—

[''(1) IN GENERAL.—Notwithstanding any other provision of law, the Secretary of Homeland Security shall have the authority to waive, and shall waive, all laws such Secretary, in such Secretary's sole discretion, determines necessary to ensure expeditious construction of the barriers and roads under this section.

[''(2) NO JUDICIAL REVIEW.—Notwithstanding any other provision of law (statutory or nonstatutory), no court, administrative agency, or other entity shall have jurisdiction—

[''(A) to hear any cause or claim arising from any action undertaken, or any decision made, by the Secretary of Homeland Security pursuant to paragraph (1); or

[''(B) to order compensatory, declaratory, injunctive, equitable, or any other relief for damage alleged to arise from any such action or decision.''.

[SEC. 103. INADMISSIBILITY DUE TO TERRORIST AND TERRORIST-RELATED ACTIVITIES.

[(a) IN GENERAL.—So much of section 212(a)(3)(B)(i) of the Immigration and Nationality Act (8 U.S.C. 1182(a)(3)(B)(i)) as precedes the final sentence is amended to read as follows:

[''(i) IN GENERAL.—Any alien who—

[''(I) has engaged in a terrorist activity;

[''(II) a consular officer, the Attorney General, or the Secretary of Homeland Security knows, or has reasonable ground to believe, is engaged in or is likely to engage after entry in any terrorist activity (as defined in clause (iv));

[''(III) has, under circumstances indicating an intention to cause death or serious bodily harm, incited terrorist activity;

[''(IV) is a representative (as defined in clause (v)) of—

[''(aa) a terrorist organization (as defined in clause (vi)); or

[''(bb) a political, social, or other group that endorses or espouses terrorist activity;

[''(V) is a member of a terrorist organization described in subclause (I) or (II) of clause (vi);

[''(VI) is a member of a terrorist organization described in clause (vi)(III), unless the alien can demonstrate by clear and convincing evidence that the alien did not know, and should not reasonably have known, that the organization was a terrorist organization;

[''(VII) endorses or espouses terrorist activity or persuades others to endorse or espouse terrorist activity or support a terrorist organization;

[''(VIII) has received military-type training (as defined in section 2339D(c)(1) of title 18, United States Code) from or on behalf of any organization that, at the time the training was received, was a terrorist organization (as defined in clause (vi)); or

[''(IX) is the spouse or child of an alien who is inadmissible under this subparagraph, if the activity causing the alien to be found inadmissible occurred within the last 5 years,

[is inadmissible.''.

[(b) ENGAGE IN TERRORIST ACTIVITY DEFINED.—Section 212(a)(3)(B)(iv) of the Immigration and Nationality Act (8 U.S.C. 1182(a)(3)(B)(iv)) is amended to read as follows:

[''(iv) ENGAGE IN TERRORIST ACTIVITY DEFINED.—As used in this Act, the term 'engage in terrorist activity' means, in an individual capacity or as a member of an organization—

[''(I) to commit or to incite to commit, under circumstances indicating an intention to cause death or serious bodily injury, a terrorist activity;

[''(II) to prepare or plan a terrorist activity;

[''(III) to gather information on potential targets for terrorist activity;

[''(IV) to solicit funds or other things of value for—

[''(aa) a terrorist activity;

[''(bb) a terrorist organization described in clause (vi)(I) or (vi)(II); or

[''(cc) a terrorist organization described in clause (vi)(III), unless the solicitor can demonstrate by clear and convincing evidence that he did not know, and should not reasonably have known, that the organization was a terrorist organization;

[''(V) to solicit any individual—

[''(aa) to engage in conduct otherwise described in this subsection;

[''(bb) for membership in a terrorist organization described in clause (vi)(I) or (vi)(II); or

[''(cc) for membership in a terrorist organization described in clause (vi)(III) unless the solicitor can demonstrate by clear and convincing evidence that he did not know,

and should not reasonably have known, that the organization was a terrorist organization; or

[''(VI) to commit an act that the actor knows, or reasonably should know, affords material support, including a safe house, transportation, communications, funds, transfer of funds or other material financial benefit, false documentation or identification, weapons (including chemical, biological, or radiological weapons), explosives, or training—

[''(aa) for the commission of a terrorist activity;

[''(bb) to any individual who the actor knows, or reasonably should know, has committed or plans to commit a terrorist activity;

[''(cc) to a terrorist organization described in subclause (I) or (II) of clause (vi) or to any member of such an organization; or

[''(dd) to a terrorist organization described in clause (vi)(III), or to any member of such an organization, unless the actor can demonstrate by clear and convincing evidence that the actor did not know, and should not reasonably have known, that the organization was a terrorist organization.

[This clause shall not apply to any material support the alien afforded to an organization or individual that has committed terrorist activity, if the Secretary of State, after consultation with the Attorney General and the Secretary of Homeland Security, or the Attorney General, after consultation with the Secretary of State and the Secretary of Homeland Security, concludes in his sole unreviewable discretion, that this clause should not apply.''.

[(c) TERRORIST ORGANIZATION DEFINED.—Section 212(a)(3)(B)(vi) of the Immigration and Nationality Act (8 U.S.C. 1182(a)(3)(B)(vi)) is amended to read as follows:

[''(vi) TERRORIST ORGANIZATION DEFINED.—As used in this section, the term 'terrorist organization' means an organization—

[''(I) designated under section 219;

[''(II) otherwise designated, upon publication in the Federal Register, by the Secretary of State in consultation with or upon the request of the Attorney General or the Secretary of Homeland Security, as a terrorist organization, after finding that the organization engages in the activities described in subclauses (I) through (VI) of clause (iv); or

[''(III) that is a group of two or more individuals, whether organized or not, which engages in, or has a subgroup which engages in, the activities described in subclauses (I) through (VI) of clause (iv).''.

[(d) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of the enactment of this division, and these amendments, and section 212(a)(3)(B) of the Immigration and Nationality Act (8 U.S.C. 1182(a)(3)(B)), as amended by this section, shall apply to—

[(1) removal proceedings instituted before, on, or after the date of the enactment of this division; and

[(2) acts and conditions constituting a ground for inadmissibility, excludability, deportation, or removal occurring or existing before, on, or after such date.

[SEC. 104. REMOVAL OF TERRORISTS.

[(a) IN GENERAL.—

[(1) IN GENERAL.—Section 237(a)(4)(B) of the Immigration and Nationality Act (8 U.S.C. 1227(a)(4)(B)) is amended to read as follows:

[''(B) TERRORIST ACTIVITIES.—Any alien who is described in subparagraph (B) or (F) of section 212(a)(3) is deportable.''.

[(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall take effect on the date of the enactment of this division, and the amendment, and section 237(a)(4)(B) of the Immigration and Nationality Act (8 U.S.C. 1227(a)(4)(B)), as amended by such paragraph, shall apply to—

[(A) removal proceedings instituted before, on, or after the date of the enactment of this division; and

[(B) acts and conditions constituting a ground for inadmissibility, excludability, deportation, or removal occurring or existing before, on, or after such date.

[(b) REPEAL.—Effective as of the date of the enactment of the Intelligence Reform and Terrorism Prevention Act of 2004 (Public Law 108–458), section 5402 of such Act is repealed, and the Immigration and Nationality Act shall be applied as if such section had not been enacted.

[SEC. 105. JUDICIAL REVIEW OF ORDERS OF REMOVAL.

[(a) IN GENERAL.—Section 242 of the Immigration and Nationality Act (8 U.S.C. 1252) is amended—

[(1) in subsection (a)—

[(A) in paragraph (2)—

[(i) in subparagraph (A), by inserting ''(statutory or nonstatutory), including section 2241 of title 28, United States Code, or any other habeas corpus provision, and sections 1361 and 1651 of such title'' after ''Notwithstanding any other provision of law'';

[(ii) in each of subparagraphs (B) and (C), by inserting ''(statutory or nonstatutory), including section 2241 of title 28, United States Code, or any other habeas corpus provision, and sections 1361 and 1651 of such title, and except as provided in subparagraph (D)'' after ''Notwithstanding any other provision of law''; and

[(iii) by adding at the end the following:

[''(D) JUDICIAL REVIEW OF CERTAIN LEGAL CLAIMS.—Nothing in subparagraph (B) or (C), or in any other provision of this Act which limits or eliminates judicial review, shall be construed as precluding review of constitutional claims or pure questions of law raised upon a petition for review filed with an appropriate court of appeals in accordance with this section.''; and

[(B) by adding at the end the following:

[''(4) CLAIMS UNDER THE UNITED NATIONS CONVENTION.—Notwithstanding any other provision of law (statutory or nonstatutory), including section 2241 of title 28, United States Code, or any other habeas corpus provision, and sections 1361 and 1651 of such title, a petition for review filed with an appropriate court of appeals in accordance with this section shall be the sole and exclusive means for judicial review of any cause or claim under the United Nations Convention Against Torture and Other Forms of Cruel, Inhuman, or Degrading Treatment or Punishment, except as provided in subsection (e).

[''(5) EXCLUSIVE MEANS OF REVIEW.—Notwithstanding any other provision of law (statutory or nonstatutory), including section 2241 of title 28, United States Code, or any other habeas corpus provision, and sections 1361 and 1651 of such title, a petition for review filed with an appropriate court of appeals in accordance with this section shall be the sole and exclusive means for judicial review of an order of removal entered or issued under any provision of this Act, except as provided in subsection (e). For purposes of this Act, in every provision that limits or eliminates judicial review or jurisdiction to review, the terms 'judicial review' and 'jurisdiction to review' include habeas corpus review pursuant to section 2241 of title 28, United States Code, or any other habeas corpus provision, sections 1361 and 1651 of such title, and review pursuant to any other provision of law (statutory or nonstatutory).'';

[(2) in subsection (b)—

[(A) in paragraph (3)(B), by inserting ''pursuant to subsection (f)'' after ''unless''; and

[(B) in paragraph (9), by adding at the end the following: ''Except as otherwise provided in this section, no court shall have jurisdiction, by habeas corpus under section 2241 of title 28, United States Code, or any other habeas corpus provision, by section 1361 or 1651 of such title, or by any other provision of law (statutory or nonstatutory), to review such an order or such questions of law or fact.''; and

[(3) in subsection (g), by inserting ''(statutory or nonstatutory), including section 2241 of title 28, United States Code, or any other habeas corpus provision, and sections 1361 and 1651 of such title'' after ''notwithstanding any other provision of law''.

[(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect upon the date of the enactment of this division and shall apply to cases in which the final administrative order of removal, deportation, or exclusion was issued before, on, or after the date of the enactment of this division.

[(c) TRANSFER OF CASES.—If an alien's case, brought under section 2241 of title 28, United States Code, and challenging a final administrative order of removal, deportation, or exclusion, is pending in a district court on the date of the enactment of this division, then the district court shall transfer the case (or the part of the case that challenges the order of removal, deportation, or exclusion) to the court of appeals for the circuit in which a petition for review could have been properly filed under section 242(b)(2) of the Immigration and Nationality Act (8 U.S.C. 1252), as amended by this section, or under section 309(c)(4)(D) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1101 note). The court of appeals shall treat the transferred case as if it had been filed pursuant to a petition for review under such section 242, except that subsection (b)(1) of such section shall not apply.

[(d) TRANSITIONAL RULE CASES.—A petition for review filed under former section 106(a) of the Immigration and Nationality Act (as in effect before its repeal by section 306(b) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1252 note)) shall be treated as if it had been filed as a petition for review under section 242 of the Immigration and Nationality Act (8 U.S.C. 1252), as amended by this section. Notwithstanding any other provision of law (statutory or nonstatutory), including section 2241 of title 28, United States Code, or any other habeas corpus provision, and sections 1361 and 1651 of such title, such petition for review shall be the sole and exclusive means for judicial review of an order of deportation or exclusion.

[SEC. 106. DELIVERY BONDS.

[(a) DEFINITIONS.—For purposes of this section:

[(1) DELIVERY BOND.—The term ''delivery bond'' means a written suretyship undertaking for the surrender of an individual against whom the Department of Homeland Security has issued an order to show cause or a notice to appear, the performance of which is guaranteed by an acceptable surety on Federal bonds.

‘‘(2) PRINCIPAL.—The term ‘‘principal’’ means an individual who is the subject of a bond.

‘‘(3) SURETYSHIP UNDERTAKING.—The term ‘‘suretyship undertaking’’ means a written agreement, executed by a bonding agent on behalf of a surety, which binds all parties to its certain terms and conditions and which provides obligations for the principal and the surety while under the bond and penalties for forfeiture to ensure the obligations of the principal and the surety under the agreement.

‘‘(4) BONDING AGENT.—The term ‘‘bonding agent’’ means any individual properly licensed, approved, and appointed by power of attorney to execute or countersign surety bonds in connection with any matter governed by the Immigration and Nationality Act as amended (8 U.S.C. 1101, et seq.), and who receives a premium for executing or countersigning such surety bonds.

‘‘(5) SURETY.—The term ‘‘surety’’ means an entity, as defined by, and that is in compliance with, sections 9304 through 9308 of title 31, United States Code, that agrees—

‘‘(A) to guarantee the performance, where appropriate, of the principal under a bond;

‘‘(B) to perform the bond as required; and

‘‘(C) to pay the face amount of the bond as a penalty for failure to perform.

‘‘(b) VALIDITY, AGENT NOT CO-OBLIGOR, EXPIRATION, RENEWAL, AND CANCELLATION OF BONDS.—

‘‘(1) VALIDITY.—Delivery bond undertakings are valid if such bonds—

‘‘(A) state the full, correct, and proper name of the alien principal;

‘‘(B) state the amount of the bond;

‘‘(C) are guaranteed by a surety and countersigned by an agent who is properly appointed;

‘‘(D) bond documents are properly executed; and

‘‘(E) relevant bond documents are properly filed with the Secretary of Homeland Security.

‘‘(2) BONDING AGENT NOT CO-OBLIGOR, PARTY, OR GUARANTOR IN INDIVIDUAL CAPACITY, AND NO REFUSAL IF ACCEPTABLE SURETY.—Section 9304(b) of title 31, United States Code, is amended by adding at the end the following: ‘‘Notwithstanding any other provision of law, no bonding agent of a corporate surety shall be required to execute bonds as a co-obligor, party, or guarantor in an individual capacity on bonds provided by the corporate surety, nor shall a corporate surety bond be refused if the corporate surety appears on the current Treasury Department Circular 570 as a company holding a certificate of authority as an acceptable surety on Federal bonds and attached to the bond is a currently valid instrument showing the authority of the bonding agent of the surety company to execute the bond.’’.

‘‘(3) EXPIRATION.—A delivery bond undertaking shall expire at the earliest of—

‘‘(A) 1 year from the date of issue;

‘‘(B) at the cancellation of the bond or surrender of the principal; or

‘‘(C) immediately upon nonpayment of the renewal premium.

‘‘(4) RENEWAL.—Delivery bonds may be renewed annually, with payment of proper premium to the surety, if there has been no breach of conditions, default, claim, or forfeiture of the bond. Notwithstanding any renewal, when the alien is surrendered to the Secretary of Homeland Security for removal, the Secretary shall cause the bond to be canceled.

‘‘(5) CANCELLATION.—Delivery bonds shall be canceled and the surety exonerated—

‘‘(A) for nonrenewal after the alien has been surrendered to the Department of Homeland Security for removal;

‘‘(B) if the surety or bonding agent provides reasonable evidence that there was misrepresentation or fraud in the application for the bond;

‘‘(C) upon the death or incarceration of the principal, or the inability of the surety to produce the principal for medical reasons;

‘‘(D) if the principal is detained by any law enforcement agency of any State, county, city, or any politial subdivision thereof;

‘‘(E) if it can be established that the alien departed the United States of America for any reason without permission of the Secretary of Homeland Security, the surety, or the bonding agent;

‘‘(F) if the foreign state of which the principal is a national is designated pursuant to section 244 of the Act (8 U.S.C. 1254a) after the bond is posted; or

‘‘(G) if the principal is surrendered to the Department of Homeland Security, removal by the surety or the bonding agent.

‘‘(6) SURRENDER OF PRINCIPAL; FORFEITURE OF BOND PREMIUM.—

‘‘(A) SURRENDER.—At any time, before a breach of any of the bond conditions, if in the opinion of the surety or bonding agent, the principal becomes a flight risk, the principal may be surrendered to the Department of Homeland Security for removal.

‘‘(B) FORFEITURE OF BOND PREMIUM.—A principal may be surrendered without the return of any bond premium if the principal—

‘‘(i) changes address without notifying the surety, the bonding agent, and the Secretary of Homeland Security in writing prior to such change;

‘‘(ii) hides or is concealed from a surety, a bonding agent, or the Secretary;

‘‘(iii) fails to report to the Secretary as required at least annually; or

‘‘(iv) violates the contract with the bonding agent or surety, commits any act that may lead to a breach of the bond, or otherwise violates any other obligation or condition of the bond established by the Secretary.

‘‘(7) CERTIFIED COPY OF BOND AND ARREST WARRANT TO ACCOMPANY SURRENDER.—

‘‘(A) IN GENERAL.—A bonding agent or surety desiring to surrender the principal—

‘‘(i) shall have the right to petition the Secretary of Homeland Security or any Federal court, without having to pay any fees or court costs, for an arrest warrant for the arrest of the principal;

‘‘(ii) shall forthwith be provided 2 certified copies each of the arrest warrant and the bond undertaking, without having to pay any fees or courts costs; and

‘‘(iii) shall have the right to pursue, apprehend, detain, and surrender the principal, together with certified copies of the arrest warrant and the bond undertaking, to any Department of Homeland Security detention official or Department detention facility or any detention facility authorized to hold Federal detainees.

‘‘(B) EFFECTS OF DELIVERY.—Upon surrender of a principal under subparagraph (A)(iii)—

‘‘(i) the official to whom the principal is surrendered shall detain the principal in custody and issue a written certificate of surrender; and

‘‘(ii) the Secretary of Homeland Security shall immediately exonerate the surety from any further liability on the bond.

‘‘(8) FORM OF BOND.—Delivery bonds shall in all cases state the following and be secured by a corporate surety that is certified as an acceptable surety on Federal bonds and whose name appears on the current Treasury Department Circular 570:

‘‘(A) BREACH OF BOND; PROCEDURE, FORFEITURE, NOTICE.—

‘‘(i) If a principal violates any conditions of the delivery bond, or the principal is or becomes subject to a final administrative order of deportation or removal, the Secretary of Homeland Security shall—

‘‘(I) immediately issue a warrant for the principal’s arrest and enter that arrest warrant into the National Crime Information Center (NCIC) computerized information database;

‘‘(II) order the bonding agent and surety to take the principal into custody and surrender the principal to any one of 10 designated Department of Homeland Security ‘turn-in’ centers located nationwide in the areas of greatest need, at any time of day during 15 months after mailing the arrest warrant and the order to the bonding agent and the surety as required by subclause (III), and immediately enter that order into the National Crime Information Center (NCIC) computerized information database; and

‘‘(III) mail 2 certified copies each of the arrest warrant issued pursuant to subclause (I) and 2 certified copies each of the order issued pursuant to subclause (II) to only the bonding agent and surety via certified mail return receipt to their last known addresses.

‘‘(ii) Bonding agents and sureties shall immediately notify the Secretary of Homeland Security of their changes of address and/or telephone numbers.

‘‘(iii) The Secretary of Homeland Security shall establish, disseminate to bonding agents and sureties, and maintain on a current basis a secure nationwide toll-free list of telephone numbers of Department of Homeland Security officials, including the names of such officials, that bonding agents, sureties, and their employees may immediately contact at any time to discuss and resolve any issue regarding any principal or bond, to be known as ‘Points of Contact’.

‘‘(iv) A bonding agent or surety shall have full and complete access, free of charge, to any and all information, electronic or otherwise, in the care, custody, and control of the United States Government or any State or local government or any subsidiary or police agency thereof regarding the principal that may be helpful in complying with section 105 of the REAL ID Act of 2005 that the Secretary of Homeland Security, by regulations subject to approval by Congress, determines may be helpful in locating or surrendering the principal. Beyond the principal, a bonding agent or surety shall not be required to disclose any information, including but not limited to the arrest warrant and order, received from any governmental source, any person, firm, corporation, or other entity.

‘‘(v) If the principal is later arrested, detained, or otherwise located outside the United States and the outlying possessions of the United States (as defined in section 101(a) of the Immigration and Nationality Act), the Secretary of Homeland Security shall—

‘‘(I) immediately order that the surety is completely exonerated, and the bond canceled; and

‘‘(II) if the Secretary of Homeland Security has issued an order under clause (i), the surety may request, by written, properly filed motion, reinstatement of the bond. This subclause may not be construed to prevent the Secretary of Homeland Security from revoking or resetting a bond at a higher amount.

[''(vi) The bonding agent or surety must—

[''(I) during the 15 months after the date the arrest warrant and order were mailed pursuant to clause (i)(III) surrender the principal one time; or

[''(II)(aa) provide reasonable evidence that producing the principal was prevented—

[''(aaa) by the principal's illness or death;

[''(bbb) because the principal is detained in custody in any city, State, country, or any political subdivision thereof;

[''(ccc) because the principal has left the United States or its outlying possessions (as defined in section 101(a) of the Immigration and Nationality Act (8 U.S.C. 1101(a)); or

[''(ddd) because required notice was not given to the bonding agent or surety; and

[''(bb) establish by affidavit that the inability to produce the principal was not with the consent or connivance of the bonding agent or surety.

[''(vii) If compliance occurs more than 15 months but no more than 18 months after the mailing of the arrest warrant and order to the bonding agent and the surety required under clause (i)(III), an amount equal to 25 percent of the face amount of the bond shall be assessed as a penalty against the surety.

[''(viii) If compliance occurs more than 18 months but no more than 21 months after the mailing of the arrest warrant and order to the bonding agent and the surety required under clause (i)(III), an amount equal to 50 percent of the face amount of the bond shall be assessed as a penalty against the surety.

[''(ix) If compliance occurs more than 21 months but no more than 24 months after the mailing of the arrest warrant and order to the bonding agent and the surety required under clause (i)(III), an amount equal to 75 percent of the face amount of the bond shall be assessed as a penalty against the surety.

[''(x) If compliance occurs 24 months or more after the mailing of the arrest warrant and order to the bonding agent and the surety required under clause (i)(III), an amount equal to 100 percent of the face amount of the bond shall be assessed as a penalty against the surety.

[''(xi) If any surety surrenders any principal to the Secretary of Homeland Security at any time and place after the period for compliance has passed, the Secretary of Homeland Security shall cause to be issued to that surety an amount equal to 50 percent of the face amount of the bond: *Provided, however,* That if that surety owes any penalties on bonds to the United States, the amount that surety would otherwise receive shall be offset by and applied as a credit against the amount of penalties on bonds it owes the United States, and then that surety shall receive the remainder of the amount to which it is entitled under this subparagraph, if any.

[''(xii) All penalties assessed against a surety on a bond, if any, shall be paid by the surety no more than 27 months after the mailing of the arrest warrant and order to the bonding agent and the surety required under clause (i)(III).

[''(B) The Secretary of Homeland Security may waive penalties or extend the period for payment or both, if—

[''(i) a written request is filed with the Secretary of Homeland Security; and

[''(ii) the bonding agent or surety provides an affidavit that diligent efforts were made to effect compliance of the principal.

[''(C) COMPLIANCE; EXONERATION; LIMITATION OF LIABILITY.—

[''(i) COMPLIANCE.—A bonding agent or surety shall have the absolute right to locate, apprehend, arrest, detain, and surrender any principal, wherever he or she may be found, who violates any of the terms and conditions of his or her bond.

[''(ii) EXONERATION.—Upon satisfying any of the requirements of the bond, the surety shall be completely exonerated.

[''(iii) LIMITATION OF LIABILITY.—Notwithstanding any other provision of law, the total liability on any surety undertaking shall not exceed the face amount of the bond.''.

[(c) EFFECTIVE DATE.—The provisions of this section shall take effect on the date of the enactment of this division and shall apply to bonds and surety undertakings executed before, on, or after the date of the enactment of this division.

[SEC. 107. RELEASE OF ALIENS IN REMOVAL PROCEEDINGS.

[(a) IN GENERAL.—Section 236(a)(2) of the Immigration and Nationality Act (8 U.S.C. 1226(a)(2)) is amended to read as follows:

[''(2) subject to such reasonable regulations as the Secretary of Homeland Security may prescribe, shall permit agents, servants, and employees of corporate sureties to visit in person with individuals detained by the Secretary of and, subject to section 241(a)(8), may release the alien on a delivery bond of at least $10,000, with security approved by the Secretary, and containing conditions and procedures prescribed by section 105 of the REAL ID Act of 2005 and by the Secretary, but the Secretary shall not release the alien on or to his own recognizance unless an order of an immigration judge expressly finds and states in a signed order to release the alien to his own recognizance that the alien is not a flight risk and is not a threat to the United States''.

[(b) REPEAL.—Section 286(r) of the Immigration and Nationality Act (8 U.S.C. 1356(r)) is repealed.

[(c) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on the date of the enactment of this division.

[SEC. 108. DETENTION OF ALIENS DELIVERED BY BONDSMEN.

[(a) IN GENERAL.—Section 241(a) of the Immigration and Nationality Act (8 U.S.C. 1231(a)) is amended by adding at the end the following:

[''(8) EFFECT OF PRODUCTION OF ALIEN BY BONDSMAN.—Notwithstanding any other provision of law, the Secretary of Homeland Security shall take into custody any alien subject to a final order of removal, and cancel any bond previously posted for the alien, if the alien is produced within the prescribed time limit by the obligor on the bond whether or not the Department of Homeland Security accepts custody of the alien. The obligor on the bond shall be deemed to have substantially performed all conditions imposed by the terms of the bond, and shall be released from liability on the bond, if the alien is produced within such time limit.''.

[(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on the date of the enactment of this division and shall apply to all immigration bonds posted before, on, or after such date.

[TITLE II—IMPROVED SECURITY FOR DRIVERS' LICENSES AND PERSONAL IDENTIFICATION CARDS

[SEC. 201. DEFINITIONS.

[In this title, the following definitions apply:

[(1) DRIVER'S LICENSE.—The term ''driver's license'' means a motor vehicle operator's license, as defined in section 30301 of title 49, United States Code.

[(2) IDENTIFICATION CARD.—The term ''identification card'' means a personal identification card, as defined in section 1028(d) of title 18, United States Code, issued by a State.

[(3) SECRETARY.—The term ''Secretary'' means the Secretary of Homeland Security.

[(4) STATE.—The term ''State'' means a State of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, the Trust Territory of the Pacific Islands, and any other territory or possession of the United States.

[SEC. 202. MINIMUM DOCUMENT REQUIREMENTS AND ISSUANCE STANDARDS FOR FEDERAL RECOGNITION.

[(a) MINIMUM STANDARDS FOR FEDERAL USE.—

[(1) IN GENERAL.—Beginning 3 years after the date of the enactment of this division, a Federal agency may not accept, for any official purpose, a driver's license or identification card issued by a State to any person unless the State is meeting the requirements of this section.

[(2) STATE CERTIFICATIONS.—The Secretary shall determine whether a State is meeting the requirements of this section based on certifications made by the State to the Secretary of Transportation. Such certifications shall be made at such times and in such manner as the Secretary of Transportation, in consultation with the Secretary of Homeland Security, may prescribe by regulation.

[(b) MINIMUM DOCUMENT REQUIREMENTS.—To meet the requirements of this section, a State shall include, at a minimum, the following information and features on each driver's license and identification card issued to a person by the State:

[(1) The person's full legal name.

[(2) The person's date of birth.

[(3) The person's gender.

[(4) The person's driver's license or identification card number.

[(5) A digital photograph of the person.

[(6) The person's address of principle residence.

[(7) The person's signature.

[(8) Physical security features designed to prevent tampering, counterfeiting, or duplication of the document for fraudulent purposes.

[(9) A common machine-readable technology, with defined minimum data elements.

[(c) MINIMUM ISSUANCE STANDARDS.—

[(1) IN GENERAL.—To meet the requirements of this section, a State shall require, at a minimum, presentation and verification of the following information before issuing a driver's license or identification card to a person:

[(A) A photo identity document, except that a non-photo identity document is acceptable if it includes both the person's full legal name and date of birth.

[(B) Documentation showing the person's date of birth.

[(C) Proof of the person's social security account number or verification that the person is not eligible for a social security account number.

[(D) Documentation showing the person's name and address of principal residence.

[(2) SPECIAL REQUIREMENTS.—

[(A) IN GENERAL.—To meet the requirements of this section, a State shall comply with the minimum standards of this paragraph.

[(B) EVIDENCE OF LAWFUL STATUS.—A State shall require, before issuing a driver's license or identification card to a person, valid documentary evidence that the person—

[(i) is a citizen of the United States;

[(ii) is an alien lawfully admitted for permanent or temporary residence in the United States;

[(iii) has conditional permanent resident status in the United States;

[(iv) has an approved application for asylum in the United States or has entered into the United States in refugee status;

[(v) has a valid, unexpired nonimmigrant visa or nonimmigrant visa status for entry into the United States;

[(vi) has a pending application for asylum in the United States;

[(vii) has a pending or approved application for temporary protected status in the United States;

[(viii) has approved deferred action status; or

[(ix) has a pending application for adjustment of status to that of an alien lawfully admitted for permanent residence in the United States or conditional permanent resident status in the United States.

[(C) TEMPORARY DRIVERS' LICENSES AND IDENTIFICATION CARDS.—

[(i) IN GENERAL.—If a person presents evidence under any of clauses (v) through (ix) of subparagraph (B), the State may only issue a temporary driver's license or temporary identification card to the person.

[(ii) EXPIRATION DATE.—A temporary driver's license or temporary identification card issued pursuant to this subparagraph shall be valid only during the period of time of the applicant's authorized stay in the United States or, if there is no definite end to the period of authorized stay, a period of one year.

[(iii) DISPLAY OF EXPIRATION DATE.—A temporary driver's license or temporary identification card issued pursuant to this subparagraph shall clearly indicate that it is temporary and shall state the date on which it expires.

[(iv) RENEWAL.—A temporary driver's license or temporary identification card issued pursuant to this subparagraph may be renewed only upon presentation of valid documentary evidence that the status by which the applicant qualified for the temporary driver's license or temporary identification card has been extended by the Secretary of Homeland Security.

[(3) VERIFICATION OF DOCUMENTS.—To meet the requirements of this section, a State shall implement the following procedures:

[(A) Before issuing a driver's license or identification card to a person, the State shall verify, with the issuing agency, the issuance, validity, and completeness of each document required to be presented by the person under paragraph (1) or (2).

[(B) The State shall not accept any foreign document, other than an official passport, to satisfy a requirement of paragraph (1) or (2).

[(C) Not later than September 11, 2005, the State shall enter into a memorandum of understanding with the Secretary of Homeland Security to routinely utilize the automated system known as Systematic Alien Verification for Entitlements, as provided for by section 404 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (110 Stat. 3009–664), to verify the legal presence status of a person, other than a United States citizen, applying for a driver's license or identification card.

[(d) OTHER REQUIREMENTS.—To meet the requirements of this section, a State shall adopt the following practices in the issuance of drivers' licenses and identification cards:

[(1) Employ technology to capture digital images of identity source documents so that the images can be retained in electronic storage in a transferable format.

[(2) Retain paper copies of source documents for a minimum of 7 years or images of source documents presented for a minimum of 10 years.

[(3) Subject each person applying for a driver's license or identification card to mandatory facial image capture.

[(4) Establish an effective procedure to confirm or verify a renewing applicant's information.

[(5) Confirm with the Social Security Administration a social security account number presented by a person using the full social security account number. In the event that a social security account number is already registered to or associated with another person to which any State has issued a driver's license or identification card, the State shall resolve the discrepancy and take appropriate action.

[(6) Refuse to issue a driver's license or identification card to a person holding a driver's license issued by another State without confirmation that the person is terminating or has terminated the driver's license.

[(7) Ensure the physical security of locations where drivers' licenses and identification cards are produced and the security of document materials and papers from which drivers' licenses and identification cards are produced.

[(8) Subject all persons authorized to manufacture or produce drivers' licenses and identification cards to appropriate security clearance requirements.

[(9) Establish fraudulent document recognition training programs for appropriate employees engaged in the issuance of drivers' licenses and identification cards.

[(10) Limit the period of validity of all driver's licenses and identification cards that are not temporary to a period that does not exceed 8 years.

[SEC. 203. LINKING OF DATABASES.

[(a) IN GENERAL.—To be eligible to receive any grant or other type of financial assistance made available under this title, a State shall participate in the interstate compact regarding sharing of driver license data, known as the ''Driver License Agreement'', in order to provide electronic access by a State to information contained in the motor vehicle databases of all other States.

[(b) REQUIREMENTS FOR INFORMATION.—A State motor vehicle database shall contain, at a minimum, the following information:

[(1) All data fields printed on drivers' licenses and identification cards issued by the State.

[(2) Motor vehicle drivers' histories, including motor vehicle violations, suspensions, and points on licenses.

[SEC. 204. TRAFFICKING IN AUTHENTICATION FEATURES FOR USE IN FALSE IDENTIFICATION DOCUMENTS.

[(a) CRIMINAL PENALTY.—Section 1028(a)(8) of title 18, United States Code, is amended by striking ''false authentication features'' and inserting ''false or actual authentication features''.

[(b) USE OF FALSE DRIVER'S LICENSE AT AIRPORTS.—

[(1) IN GENERAL.—The Secretary shall enter, into the appropriate aviation security screening database, appropriate information regarding any person convicted of using a false driver's license at an airport (as such term is defined in section 40102 of title 49, United States Code).

[(2) FALSE DEFINED.—In this subsection, the term ''false'' has the same meaning such term has under section 1028(d) of title 18, United States Code.

[SEC. 205. GRANTS TO STATES.

[(a) IN GENERAL.—The Secretary may make grants to a State to assist the State in conforming to the minimum standards set forth in this title.

[(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for each of the fiscal years 2005 through 2009 such sums as may be necessary to carry out this title.

[SEC. 206. AUTHORITY.

[(a) PARTICIPATION OF SECRETARY OF TRANSPORTATION AND STATES.—All authority to issue regulations, set standards, and issue grants under this title shall be carried out by the Secretary, in consultation with the Secretary of Transportation and the States.

[(b) COMPLIANCE WITH STANDARDS.—All authority to certify compliance with standards under this title shall be carried out by the Secretary of Transportation, in consultation with the Secretary of Homeland Security and the States.

[(c) EXTENSIONS OF DEADLINES.—The Secretary may grant to a State an extension of time to meet the requirements of section 202(a)(1) if the State provides adequate justification for noncompliance.

[SEC. 207. REPEAL.

[Section 7212 of the Intelligence Reform and Terrorism Prevention Act of 2004 (Public Law 108–458) is repealed.

[SEC. 208. LIMITATION ON STATUTORY CONSTRUCTION.

[Nothing in this title shall be construed to affect the authorities or responsibilities of the Secretary of Transportation or the States under chapter 303 of title 49, United States Code.

[TITLE III—BORDER INFRASTRUCTURE AND TECHNOLOGY INTEGRATION

[SEC. 301. VULNERABILITY AND THREAT ASSESSMENT.

[(a) STUDY.—The Under Secretary of Homeland Security for Border and Transportation Security, in consultation with the Under Secretary of Homeland Security for Science and Technology and the Under Secretary of Homeland Security for Information Analysis and Infrastructure Protection, shall study the technology, equipment, and personnel needed to address security vulnerabilities within the United States for each field office of the Bureau of Customs and Border Protection that has responsibility for any portion of the United States borders with Canada and Mexico. The Under Secretary shall conduct follow-up studies at least once every 5 years.

[(b) REPORT TO CONGRESS.—The Under Secretary shall submit a report to Congress on the Under Secretary's findings and conclusions from each study conducted under subsection (a) together with legislative recommendations, as appropriate, for addressing any security vulnerabilities found by the study.

[(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Department of Homeland Security Directorate of Border and Transportation Security such sums as may be necessary for fiscal years 2006 through 2011 to carry out any such recommendations from the first study conducted under subsection (a).

[SEC. 302. USE OF GROUND SURVEILLANCE TECHNOLOGIES FOR BORDER SECURITY.

[(a) PILOT PROGRAM.—Not later than 180 days after the date of the enactment of this division, the Under Secretary of Homeland Security for Science and Technology, in consultation with the Under Secretary of Homeland Security for Border and Transportation

Security, the Under Secretary of Homeland Security for Information Analysis and Infrastructure Protection, and the Secretary of Defense, shall develop a pilot program to utilize, or increase the utilization of, ground surveillance technologies to enhance the border security of the United States. In developing the program, the Under Secretary shall—

[(1) consider various current and proposed ground surveillance technologies that could be utilized to enhance the border security of the United States;

[(2) assess the threats to the border security of the United States that could be addressed by the utilization of such technologies; and

[(3) assess the feasibility and advisability of utilizing such technologies to address such threats, including an assessment of the technologies considered best suited to address such threats.

[(b) ADDITIONAL REQUIREMENTS.—

[(1) IN GENERAL.—The pilot program shall include the utilization of a variety of ground surveillance technologies in a variety of topographies and areas (including both populated and unpopulated areas) on both the northern and southern borders of the United States in order to evaluate, for a range of circumstances—

[(A) the significance of previous experiences with such technologies in homeland security or critical infrastructure protection for the utilization of such technologies for border security;

[(B) the cost, utility, and effectiveness of such technologies for border security; and

[(C) liability, safety, and privacy concerns relating to the utilization of such technologies for border security.

[(2) TECHNOLOGIES.—The ground surveillance technologies utilized in the pilot program shall include the following:

[(A) Video camera technology.

[(B) Sensor technology.

[(C) Motion detection technology.

[(c) IMPLEMENTATION.—The Under Secretary of Homeland Security for Border and Transportation Security shall implement the pilot program developed under this section.

[(d) REPORT.—Not later than 1 year after implementing the pilot program under subsection (a), the Under Secretary shall submit a report on the program to the Senate Committee on Commerce, Science, and Transportation, the House of Representatives Committee on Science, the House of Representatives Committee on Homeland Security, and the House of Representatives Committee on the Judiciary. The Under Secretary shall include in the report a description of the program together with such recommendations as the Under Secretary finds appropriate, including recommendations for terminating the program, making the program permanent, or enhancing the program.

[SEC. 303. ENHANCEMENT OF COMMUNICATIONS INTEGRATION AND INFORMATION SHARING ON BORDER SECURITY.

[(a) IN GENERAL.—Not later than 180 days after the date of the enactment of this division, the Secretary of Homeland Security, acting through the Under Secretary of Homeland Security for Border and Transportation Security, in consultation with the Under Secretary of Homeland Security for Science and Technology, the Under Secretary of Homeland Security for Information Analysis and Infrastructure Protection, the Assistant Secretary of Commerce for Communications and Information, and other appropriate Federal, State, local, and tribal agencies, shall develop and implement a plan—

[(1) to improve the communications systems of the departments and agencies of the Federal Government in order to facilitate the integration of communications among the departments and agencies of the Federal Government and State, local government agencies, and Indian tribal agencies on matters relating to border security; and

[(2) to enhance information sharing among the departments and agencies of the Federal Government, State and local government agencies, and Indian tribal agencies on such matters.

[(b) REPORT.—Not later than 1 year after implementing the plan under subsection (a), the Secretary shall submit a copy of the plan and a report on the plan, including any recommendations the Secretary finds appropriate, to the Senate Committee on Commerce, Science, and Transportation, the House of Representatives Committee on Science, the House of Representatives Committee on Homeland Security, and the House of Representatives Committee on the Judiciary.]

That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the fiscal year ending September 30, 2005, and for other purposes, namely:

TITLE I—DEFENSE-RELATED APPROPRIATIONS

CHAPTER 1

DEPARTMENT OF DEFENSE—MILITARY

MILITARY PERSONNEL

MILITARY PERSONNEL, ARMY

For an additional amount for ''Military Personnel, Army'', $13,609,308,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

MILITARY PERSONNEL, NAVY

For an additional amount for ''Military Personnel, Navy'', $535,108,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

MILITARY PERSONNEL, MARINE CORPS

For an additional amount for ''Military Personnel, Marine Corps'', $1,358,053,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

MILITARY PERSONNEL, AIR FORCE

For an additional amount for ''Military Personnel, Air Force'', $1,684,943,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

RESERVE PERSONNEL, ARMY

For an additional amount for ''Reserve Personnel, Army'', $39,627,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

RESERVE PERSONNEL, NAVY

For an additional amount for ''Reserve Personnel, Navy'', $9,411,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

RESERVE PERSONNEL, MARINE CORPS

For an additional amount for ''Reserve Personnel, Marine Corps'', $4,015,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

RESERVE PERSONNEL, AIR FORCE

For an additional amount for ''Reserve Personnel, Air Force'', $130,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

NATIONAL GUARD PERSONNEL, ARMY

For an additional amount for ''National Guard Personnel, Army'', $291,100,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

NATIONAL GUARD PERSONNEL, AIR FORCE

For an additional amount for ''National Guard Personnel, Air Force'', $91,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OPERATION AND MAINTENANCE

OPERATION AND MAINTENANCE, ARMY

For an additional amount for ''Operation and Maintenance, Army'', $16,767,304,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OPERATION AND MAINTENANCE, NAVY

For an additional amount for ''Operation and Maintenance, Navy'', $3,430,801,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OPERATION AND MAINTENANCE, MARINE CORPS

For an additional amount for ''Operation and Maintenance, Marine Corps'', $970,464,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OPERATION AND MAINTENANCE, AIR FORCE

For an additional amount for ''Operation and Maintenance, Air Force'', $5,528,574,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OPERATION AND MAINTENANCE, DEFENSE-WIDE

For an additional amount for ''Operation and Maintenance, Defense-Wide'', $3,308,392,000, of which—

(1) not to exceed $25,000,000 may be used for the Combatant Commander Initiative Fund, to be used in support of Operation Iraqi Freedom and Operation Enduring Freedom; and

(2) up to $1,370,000,000, to remain available until expended, may be used for payments to reimburse Pakistan, Jordan, and other key cooperating nations, for logistical, military, and other support provided, or to be provided, to United States military operations, notwithstanding any other provision of law: Provided, That such payments may be made in such amounts as the Secretary of Defense, with the concurrence of the Secretary of State, and in consultation with the Director of the Office of Management and Budget, may determine, in his discretion, based on documentation determined by the Secretary of Defense to adequately account for the support provided, and such determination is final and conclusive upon the accounting officers of the United States, and 15

days following notification to the appropriate congressional committees: Provided further, That the Secretary of Defense shall provide quarterly reports to the congressional defense committees on the use of funds provided in this paragraph: Provided further, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OPERATION AND MAINTENANCE, ARMY RESERVE

For an additional amount for ''Operation and Maintenance, Army Reserve'', $21,354,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OPERATION AND MAINTENANCE, NAVY RESERVE

For an additional amount for ''Operation and Maintenance, Navy Reserve'', $75,164,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OPERATION AND MAINTENANCE, MARINE CORPS RESERVE

For an additional amount for ''Operation and Maintenance, Marine Corps Reserve'', $24,920,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

For an additional amount for ''Operation and Maintenance, Army National Guard'', $326,879,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

AFGHANISTAN SECURITY FORCES FUND

(INCLUDING TRANSFER OF FUNDS)

For the ''Afghanistan Security Forces Fund'', $1,285,000,000, to remain available until September 30, 2006: Provided, That such funds shall be available to the Secretary of Defense, notwithstanding any other provision of law, for the purpose of allowing the Commander, Combined Forces Command—Afghanistan, or the Secretary's designee to provide assistance, with the concurrence of the Secretary of State, to the security forces of Afghanistan including the provision of equipment, supplies, services, training, facility and infrastructure repair, renovation, and construction: Provided further, That the authority to provide assistance under this section is in addition to any other authority to provide assistance to foreign nations: Provided further, That the Secretary of Defense may transfer the funds provided herein to appropriations for military personnel; operation and maintenance; Overseas Humanitarian, Disaster, and Civic Aid; procurement; research, development, test and evaluation; and defense working capital funds to accomplish the purposes provided herein: Provided further, That this transfer authority is in addition to any other transfer authority available to the Department of Defense: Provided further, That upon a determination that all or part of the funds so transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: Provided further, That of the amounts provided under this heading, $290,000,000 shall be transferred to ''Operation and Maintenance, Army'' to reimburse the Department of the Army for costs incurred to train, equip and provide related assistance to Afghan security forces: Provided further, That contributions of funds for the purposes provided herein from any person, foreign government, or international organization may be credited to this Fund, and used for such purposes: Provided further, That the Secretary shall notify the congressional defense committees in writing upon the receipt and upon the transfer of any contribution delineating the sources and amounts of the funds received and the specific use of such contributions: Provided further, That the Secretary of Defense shall, not fewer than 5 days prior to making transfers from this appropriation, notify the congressional defense committees in writing of the details of any such transfer: Provided further, That the Secretary shall submit a report no later than 30 days after the end of each fiscal quarter to the congressional defense committees summarizing the details of the transfer of funds from this appropriation: Provided further, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

IRAQ SECURITY FORCES FUND

(INCLUDING TRANSFER OF FUNDS)

For the ''Iraq Security Forces Fund'', $5,700,000,000, to remain available until September 30, 2006: Provided, That such funds shall be available to the Secretary of Defense, notwithstanding any other provision of law, for the purpose of allowing the Commander, Multi-National Security Transition Command—Iraq, or the Secretary's designee to provide assistance, with the concurrence of the Secretary of State, to the security forces of Iraq including the provision of equipment, supplies, services, training, facility and infrastructure repair, renovation, and construction: Provided further, That the authority to provide assistance under this section is in addition to any other authority to provide assistance to foreign nations: Provided further, That the Secretary of Defense may transfer the funds provided herein to appropriations for military personnel; operation and maintenance; Overseas Humanitarian, Disaster, and Civic Aid; procurement; research, development, test and evaluation; and defense working capital funds to accomplish the purposes provided herein: Provided further, That this transfer authority is in addition to any other transfer authority available to the Department of Defense: Provided further, That upon a determination that all or part of the funds so transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: Provided further, That of the amounts provided under this heading, $210,000,000 shall be transferred to ''Operation and Maintenance, Army'' to reimburse the Department of the Army for costs incurred to train, equip, and provide related assistance to Iraqi security forces: Provided further, That contributions of funds for the purposes provided herein from any person, foreign government, or international organization may be credited to this Fund, and used for such purposes: Provided further, That the Secretary shall notify the congressional defense committees in writing upon the receipt and upon the transfer of any contribution delineating the sources and amounts of the funds received and the specific use of such contributions: Provided further, That, notwithstanding any other provision of law, from funds made available under this heading, $99,000,000 shall be used to provide assistance to the Government of Jordan to establish a regional training center designed to provide comprehensive training programs for regional military and security forces and military and civilian officials, to enhance the capability of such forces and officials to respond to existing and emerging security threats in the region: Provided further, That assistance authorized by the preceding proviso may include the provision of facilities, equipment, supplies, services and training: Provided further, That the Secretary of Defense shall, not fewer than 5 days prior to making transfers from this appropriation, notify the congressional defense committees in writing of the details of any such transfer: Provided further, That the Secretary shall submit a report no later than 30 days after the end of each fiscal quarter to the congressional defense committees summarizing the details of the transfer of funds from this appropriation: Provided further, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

PROCUREMENT

AIRCRAFT PROCUREMENT, ARMY

For an additional amount for ''Aircraft Procurement, Army'', $458,677,000, to remain available until September 30, 2007: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

MISSILE PROCUREMENT, ARMY

For an additional amount for ''Missile Procurement, Army'', $280,250,000, to remain available until September 30, 2007: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

For an additional amount for ''Procurement of Weapons and Tracked Combat Vehicles, Army'', $2,406,447,000, to remain available until September 30, 2007: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

PROCUREMENT OF AMMUNITION, ARMY

For an additional amount for ''Procurement of Ammunition, Army'', $475,000,000, to remain available until September 30, 2007: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OTHER PROCUREMENT, ARMY

For an additional amount for ''Other Procurement, Army'', $5,322,905,000, to remain available until September 30, 2007: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

AIRCRAFT PROCUREMENT, NAVY

For an additional amount for ''Aircraft Procurement, Navy'', $200,295,000, to remain available until September 30, 2007: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

WEAPONS PROCUREMENT, NAVY

For an additional amount for ''Weapons Procurement, Navy'', $66,000,000, to remain available until September 30, 2007: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

PROCUREMENT OF AMMUNITION, NAVY AND MARINE CORPS

For an additional amount for ''Procurement of Ammunition, Navy and Marine Corps'',

$133,635,000, to remain available until September 30, 2007: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OTHER PROCUREMENT, NAVY

For an additional amount for ''Other Procurement, Navy'', $78,397,000, to remain available until September 30, 2007: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

PROCUREMENT, MARINE CORPS

For an additional amount for ''Procurement, Marine Corps'', $2,929,045,000, to remain available until September 30, 2007: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

AIRCRAFT PROCUREMENT, AIR FORCE

For an additional amount for ''Aircraft Procurement, Air Force'', $269,309,000, to remain available until September 30, 2007: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

PROCUREMENT OF AMMUNITION, AIR FORCE

For an additional amount for ''Procurement of Ammunition, Air Force'', $6,998,000, to remain available until September 30, 2007: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OTHER PROCUREMENT, AIR FORCE

For an additional amount for ''Other Procurement, Air Force'', $2,653,760,000, to remain available until September 30, 2007: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

PROCUREMENT, DEFENSE-WIDE

For an additional amount for ''Procurement, Defense-Wide'', $591,327,000, to remain available until September 30, 2007: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

For an additional amount for ''Research, Development, Test and Evaluation, Army'', $37,170,000, to remain available until September 30, 2006: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

For an additional amount for ''Research, Development, Test and Evaluation, Navy'', $179,051,000, to remain available until September 30, 2006: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

For an additional amount for ''Research, Development, Test and Evaluation, Air Force'', $132,540,000, to remain available until September 30, 2006: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE-WIDE

For an additional amount for ''Research, Development, Test and Evaluation, Defense-Wide'', $203,561,000, to remain available until September 30, 2006: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

REVOLVING AND MANAGEMENT FUNDS

DEFENSE WORKING CAPITAL FUNDS

For an additional amount for ''Defense Working Capital Funds'', $1,311,300,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

NATIONAL DEFENSE SEALIFT FUND

For an additional amount for ''National Defense Sealift Fund'', $32,400,000, to remain available until expended: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OTHER DEPARTMENT OF DEFENSE PROGRAMS

DEFENSE HEALTH PROGRAM

For an additional amount for ''Defense Health Program'', $225,550,000 for Operation and maintenance: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES, DEFENSE

(INCLUDING TRANSFER OF FUNDS)

For an additional amount for ''Drug Interdiction and Counter-Drug Activities, Defense'', $227,000,000: Provided, That these funds may be used only for such activities related to Afghanistan and Pakistan: Provided further, That the Secretary of Defense may transfer the funds provided herein only to appropriations for military personnel; operation and maintenance; and procurement: Provided further, That the funds transferred shall be merged with and be available for the same purposes and for the same time period, as the appropriation to which transferred: Provided further, That the transfer authority provided in this paragraph is in addition to any other transfer authority available to the Department of Defense: Provided further, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: Provided further, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OFFICE OF THE INSPECTOR GENERAL

For an additional amount for ''Office of the Inspector General'', $148,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

RELATED AGENCY

INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

For an additional amount for ''Intelligence Community Management Account'', $89,300,000, of which $20,000,000 is to remain available until September 30, 2006: Provided, That the amounts provided under this heading are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

GENERAL PROVISIONS, THIS CHAPTER

SPECIAL TRANSFER AUTHORITY

(TRANSFER OF FUNDS)

SEC. 1101. Upon his determination that such action is necessary in the national interest, the Secretary of Defense may transfer between appropriations up to $2,000,000,000 of the funds made available to the Department of Defense in this Act: Provided, That the Secretary shall notify the Congress promptly of each transfer made pursuant to this authority: Provided further, That the transfer authority provided in this section is in addition to any other transfer authority available to the Department of Defense: Provided further, That the authority in this section is subject to the same terms and conditions as the authority provided in section 8005 of the Department of Defense Appropriations Act, 2005, except for the fourth proviso: Provided further, That the amount made available by the transfer of funds in or pursuant to this section is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

GENERAL TRANSFER AUTHORITY

(TRANSFER OF FUNDS)

SEC. 1102. Section 8005 of the Department of Defense Appropriations Act, 2005 (Public Law 108–287; 118 Stat. 969), is amended by striking ''$3,500,000,000'' and inserting in lieu thereof ''$5,685,000,000'': Provided, That the amount made available by the transfer of funds in or pursuant to this section is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

COUNTER-DRUG ACTIVITIES

SEC. 1103. (a) AUTHORITY TO PROVIDE SUPPORT.—Of the amount appropriated under the heading, ''Drug Interdiction and Counter-Drug Activities, Defense'' in this Act, not to exceed $40,000,000 may be made available for the provision of support for counter-drug activities of the Governments of Afghanistan and Pakistan: Provided, That such support shall be provided in addition to support provided for the counter-drug activities of said Government under any other provision of law.

(b) TYPES OF SUPPORT.—

(1) Except as specified in subsections (b)(2) and (b)(3) of this section, the support that may be provided under the authority in this section shall be limited to the types of support specified in section 1033(c)(1) of the National Defense Authorization Act for Fiscal Year 1998 (Public Law 105–85, as amended by Public Law 106–398 and Public Law 108–136) and conditions on the provision of support as contained in section 1033 shall apply for fiscal year 2005.

(2) The Secretary of Defense may transfer vehicles, aircraft, and detection, interception, monitoring and testing equipment to said Governments for counter-drug activities.

(3) For the Governments of Afghanistan and Pakistan, the Secretary of Defense may also provide individual and crew-served weapons, and ammunition for counter-drug security forces.

EXTRAORDINARY AND EMERGENCY EXPENSES

SEC. 1104. Under the heading, ''Operation and Maintenance, Defense-Wide'', in title II of the Department of Defense Appropriations Act, 2005 (Public Law 108–287), strike ''$32,000,000'' and insert ''$43,000,000''.

ADVANCE BILLING

SEC. 1105. Notwithstanding section 2208(l) of title 10, United States Code, during the current

fiscal year working capital funds of the Department of Defense may utilize advance billing in a total amount not to exceed $1,500,000,000.

WEAPONS PURCHASE AND DISPOSAL

SEC. 1106. Notwithstanding any other provision of law, from funds made available in this Act to the Department of Defense under ''Operation and Maintenance, Defense-Wide'', not to exceed $10,000,000 may be used to purchase and dispose of weapons from any person, foreign government, international organization or other entity, for the purpose of protecting U.S. forces overseas: Provided, That the Secretary of Defense shall provide quarterly reports to the congressional defense committees regarding the purchase and disposal of weapons under this section.

COMMANDER'S EMERGENCY RESPONSE PROGRAM

SEC. 1107. Section 1201(a) of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (Public Law 108–375), as amended by section 102, title I, division J, Consolidated Appropriations Act, 2005 (Public Law 108–447), is further amended by striking ''$500,000,000'' and inserting ''$854,000,000''.

CLASSIFIED PROGRAM

SEC. 1108. Section 8090(b) of the Department of Defense Appropriations Act, 2005 (Public Law 108–287), is amended by striking ''$185,000,000'' and inserting ''$210,000,000''.

OFFICE OF THE DIRECTOR OF NATIONAL INTELLIGENCE

SEC. 1109. Section 1096(b) of the Intelligence Reform and Terrorism Prevention Act of 2004 (Public Law 108–458), is amended—

(1) by striking ''in the fiscal year after the effective date of this Act'' and inserting in lieu thereof ''in the fiscal years 2005 and 2006''; and

(2) in paragraph (1) by striking ''500 new personnel billets'' and inserting in lieu thereof ''the total of 500 new personnel positions''.

RESERVE AFFILIATION BONUS

SEC. 1110. Notwithstanding subsection (c) of section 308e of title 37, United States Code, the maximum amount of the bonus paid to a member of the Armed Forces pursuant to a reserve affiliation agreement entered into under such section during fiscal year 2005 shall not exceed $10,000, and the Secretary of Defense and the Secretary of Homeland Security, with respect to the Coast Guard, may prescribe regulations under subsection (f) of such section to modify the method by which bonus payments are made under reserve affiliation agreements entered into during such fiscal year.

SERVICEMEMBERS' GROUP LIFE INSURANCE

SEC. 1111. SERVICEMEMBERS' GROUP LIFE INSURANCE ENHANCEMENTS. (a) INCREASED MAXIMUM AMOUNT UNDER SERVICEMEMBERS' GROUP LIFE INSURANCE.—Section 1967 of title 38, United States Code, is amended—

(1) in subsection (a)(3)(A), by striking clause (i) and inserting the following new clause:

''(i) In the case of a member—

''(I) $400,000 or such lesser amount as the member may elect;

''(II) in the case of a member covered by subsection (e), the amount provided for or elected by the member under subclause (I) plus the additional amount of insurance provided for the member by subsection (e); or

''(III) in the case of a member covered by subsection (e) who has made an election under paragraph (2)(A) not to be insured under this subchapter, the amount of insurance provided for the member by subsection (e).''; and

(2) in subsection (d), by striking ''$250,000'' and inserting ''$400,000''.

(b) ADDITIONAL AMOUNT FOR MEMBERS SERVING IN CERTAIN AREAS OR OPERATIONS.—

(1) INCREASED AMOUNT.—Section 1967 of such title is further amended—

(A) by redesignating subsection (e) as subsection (f); and

(B) by inserting after subsection (d) the following new subsection (e):

''(e)(1) A member covered by this subsection is any member as follows:

''(A) Any member who dies as a result of one or more wounds, injuries, or illnesses incurred while serving in an operation or area that the Secretary designates, in writing, as a combat operation or a zone of combat, respectively, for purposes of this subsection.

''(B) Any member who formerly served in an operation or area so designated and whose death is determined (under regulations prescribed by the Secretary of Defense) to be the direct result of injury or illness incurred or aggravated while so serving.

''(2) The additional amount of insurance under this subchapter that is provided for a member by this subsection is $150,000, except that in a case in which the amount provided for or elected by the member under subclause (I) of subsection (a)(3)(A) exceeds $250,000, the additional amount of insurance under this subchapter that is provided for the member by this subsection shall be reduced to such amount as is necessary to comply with the limitation in paragraph (3).

''(3) The total amount of insurance payable for a member under this subchapter may not exceed $400,000.

''(4) While a member is serving in an operation or area designated as described in paragraph (1), the cost of insurance of the member under this subchapter that is attributable to $150,000 of insurance coverage shall be contributed as provided in section 1969(b)(2) of this title and may not be deducted or withheld from the member's pay.''.

(2) FUNDING.—Section 1969(b) of such title is amended—

(A) by inserting ''(1)'' after ''(b)''; and

(B) by adding at the end the following new paragraph:

''(2) For each month for which a member insured under this subchapter is serving in an operation or area designated as described by paragraph (1)(A) of section 1967(e) of this title, there shall be contributed from the appropriation made for active duty pay of the uniformed service concerned an amount determined by the Secretary and certified to the Secretary concerned to be the cost of Servicemembers' Group Life Insurance which is traceable to the cost of providing insurance for the member under section 1967 of this title in the amount of $150,000.''.

(c) CONFORMING AMENDMENT.—Section 1967(a)(2)(A) of such title is amended by inserting before the period at the end the following: '', except for insurance provided under paragraph (3)(A)(i)(III)''.

(d) COORDINATION WITH VGLI.—Section 1977(a) of such title is amended—

(1) by striking ''$250,000'' each place it appears and inserting ''$400,000''; and

(2) by adding at the end of paragraph (1) the following new sentence: ''Any additional amount of insurance provided a member under section 1967(e) of this title may not be treated as an amount for which Veterans' Group Life Insurance shall be issued under this section.''.

(e) REQUIREMENTS REGARDING ELECTIONS OF MEMBERS TO REDUCE OR DECLINE INSURANCE.—Section 1967(a) of such title is further amended—

(1) in paragraph (2), by adding at the end the following new subparagraph:

''(C) Pursuant to regulations prescribed by the Secretary of Defense, notice of an election of a member not to be insured under this subchapter, or to be insured under this subchapter in an amount less than the maximum amount provided under paragraph (3)(A)(i)(I), shall be provided to the spouse of the member.''; and

(2) in paragraph (3)—

(A) in the matter preceding clause (i), by striking ''and (C)'' and inserting '', (C), and (D)''; and

(B) by adding at the end the following new subparagraphs:

''(D) A member with a spouse may not elect not to be insured under this subchapter, or to be insured under this subchapter in an amount less than the maximum amount provided under subparagraph (A)(i)(I), without the written consent of the spouse.''.

(f) REQUIREMENT REGARDING REDESIGNATION OF BENEFICIARIES.—Section 1970 of such title is amended by adding at the end the following new subsection:

''(j) A member with a spouse may not modify the beneficiary or beneficiaries designated by the member under subsection (a) without the written consent of the spouse.''.

(g) EFFECTIVE DATE.—This section and the amendments made by this section shall take effect on the first day of the first month that begins more than 90 days after the date of the enactment of this Act.

(h) TERMINATION.—The amendments made by this section shall terminate on September 30, 2005. Effective on October 1, 2005, the provisions of sections 1967, 1969, 1970, and 1977 of title 38, United States Code, as in effect on the date before the date of the enactment of this Act shall be revived.

DEATH GRATUITY

SEC. 1112. DEATH GRATUITY ENHANCEMENTS. (a) DEATHS FROM COMBAT-RELATED CAUSES OR CAUSES INCURRED IN DESIGNATED OPERATIONS OR AREAS.—

(1) AMOUNT.—Section 1478 of title 10, United States Code, is amended—

(A) in subsection (a), by inserting '', except as provided in subsection (c)'' after ''$12,000'';

(B) by redesignating subsection (c) as subsection (d); and

(C) by inserting after subsection (b) the following new subsection (c):

''(c) The death gratuity payable under sections 1475 through 1477 of this title is $100,000 (as adjusted under subsection (d)) in the case of a death resulting from wounds, injuries, or illnesses that are—

''(1) incurred as described in section 1413a(e)(2) of this title; or

''(2) incurred in an operation or area designated as a combat operation or a combat zone, respectively, by the Secretary of Defense under section 1967(e)(1)(A) of title 38.''.

(2) INCREASES CONSISTENT WITH INCREASES IN RATES OF BASIC PAY.—Subsection (d) of such section, as redesignated by paragraph (1)(B), is further amended by striking ''amount of the death gratuity in effect under subsection (a)'' and inserting ''amounts of the death gratuities in effect under subsections (a) and (c)''.

(3) CONFORMING AMENDMENT.—Subsection (a) of such section, as amended by paragraph (1), is further amended by striking ''(as adjusted under subsection (c))'' and inserting ''(as adjusted under subsection (d))''.

(4) EFFECTIVE DATE; TERMINATION.—

(A) The amendments made by this subsection shall take effect on the date of the enactment of this Act.

(B) The amendments made by this subsection shall terminate on September 30, 2005. Effective as of October 1, 2005, the provisions of section 1478 of title 10, United States Code, as in effect on the date before the date of the enactment of this Act shall be revived.

(b) ADDITIONAL GRATUITY FOR DEATHS BEFORE EFFECTIVE DATE.—

(1) REQUIREMENT TO PAY ADDITIONAL GRATUITY.—

(A) In the case of a member of the Armed Forces described in subparagraph (B), the Secretary of the military department concerned

shall pay a death gratuity in accordance with this subsection that is in addition to the death gratuity payable in the case of such death under sections 1475 through 1477 of title 10, United States Code.

(B) The requirements of this subsection apply in the case of a member of the Armed Forces who died before the date of the enactment of this Act as a direct result of one or more wounds, injuries, or illnesses that—

(i) were incurred in the theater of operations of Operation Enduring Freedom or Operation Iraqi Freedom; or

(ii) were incurred as described in section 1413a(e)(2) of title 10, United States Code, on or after October 7, 2001.

(2) AMOUNT.—The amount of the additional death gratuity is $238,000.

(3) BENEFICIARIES.—The beneficiary or beneficiaries who are entitled under section 1477 of title 10, United States Code, to receive payment of the regular military death gratuity in the case of the death of a member referred to in paragraph (2) shall be entitled to receive the additional death gratuity payable in such case. If there are two or more such beneficiaries, the portion of the total amount of the additional death gratuity payable to a beneficiary in such case shall be the amount that bears the same ratio to the total amount of the additional death gratuity under paragraph (2) as the amount of the share of the regular military death gratuity payable to that beneficiary bears to the total amount of the regular military death gratuity payable to all such beneficiaries in such case.

(4) DEFINITIONS.—In this subsection:

(A) The term ''additional death gratuity'' means the death gratuity provided under paragraph (1).

(B) The term ''regular military death gratuity'', means a death gratuity payable under sections 1475 through 1477 of title 10 United States Code.

INTELLIGENCE ACTIVITIES AUTHORIZATION

SEC. 1113. Funds appropriated in this Act, or made available by the transfer of funds in or pursuant to this Act, for intelligence activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414).

PROHIBITION OF NEW START PROGRAMS

SEC. 1114. (a) None of the funds provided in this chapter may be used to finance programs or activities denied by Congress in fiscal year 2005 appropriations to the Department of Defense or to initiate a procurement or research, development, test and evaluation new start program without prior notification to the congressional defense committees.

(b) Notwithstanding subsection (a) of this section, the Department of the Army may use funds made available in this Act under the heading, ''Procurement of Ammunition, Army'' to procure ammunition and accessories therefor that have a standard-type classification, under Army regulations pertaining to the acceptability of materiel for use, and that are the same as other ammunition and accessories therefor that have been procured with funds made available under such heading in past appropriations Acts for the Department of Defense, only for 25mm high explosive rounds for M2 Bradley Fighting Vehicles, 120mm multi-purpose anti-tank and obstacle reduction rounds for M1 Abrams tanks, L410 aircraft countermeasure flares, 81mm mortar red phosphorous smoke rounds, MD73 impulse cartridge for aircraft flares, and 20mm high explosive rounds for C–RAM, whose stocks have been depleted and must be replenished for continuing operations of the Department of the Army.

CHEMICAL WEAPONS DEMILITARIZATION

SEC. 1115. (a)(1) Notwithstanding section 917 of Public Law 97–86, as amended, of the funds appropriated or otherwise made available by the Department of Defense Appropriations Act, 2005 (Public Law 108–287), the Military Construction Appropriations and Emergency Hurricane Supplemental Appropriations Act, 2005 (Public Law 108–324), and other Acts for the purpose of the destruction of the United States stockpile of lethal chemical agents and munitions at Blue Grass Army Depot, Kentucky, and Pueblo Chemical Depot, Colorado, that had not been obligated as of March 15, 2005, shall remain available for obligation solely for such purpose and shall be made available not later than 30 days after the date of the enactment of this Act to the Program Manager for Assembled Chemical Weapons Alternatives for activities related to such purpose at Blue Grass Army Depot, Kentucky, and Pueblo Chemical Depot, Colorado.

(2) The amount of funds appropriated or otherwise made available by the Department of Defense Appropriations Act, 2005, the Military Construction Appropriations and Emergency Hurricane Supplemental Appropriations Act, 2005, and other Acts for the purpose of the destruction of the United States stockpile of lethal chemical agents and munitions at Blue Grass Army Depot, Kentucky, and Pueblo Chemical Depot, Colorado, that had not been obligated or expended as of March 15, 2005, is $372,280,000.

(3) Of the funds made available to the Program Manager under paragraph (1), not less than $100,000,000 shall be obligated by the Program Manager not later than 120 days after the date of the enactment of this Act.

(b)(1) Notwithstanding section 917 of Public Law 97–86, as amended, none of the funds appropriated or otherwise made available by the Department of Defense Appropriations Act, 2005, the Military Construction Appropriations and Emergency Hurricane Supplemental Appropriations Act, 2005, and other Acts for the purpose of the destruction of the United States stockpile of lethal chemical agents and munitions at Blue Grass Army Depot, Kentucky, and Pueblo Chemical Depot, Colorado, may be deobligated, transferred, or reprogrammed out of the Assembled Chemical Weapons Alternatives Program.

(2) The amount appropriated or otherwise made available by the Department of Defense Appropriations Act, 2005, the Military Construction Appropriations and Emergency Hurricane Supplemental Appropriations Act, 2005, and other Acts for the purpose of the destruction of the United States stockpile of lethal chemical agents and munitions at Blue Grass Army Depot, Kentucky, and Pueblo Chemical Depot, Colorado, is $813,440,000.

(c) No funds appropriated or otherwise made available to the Secretary of Defense under this Act or any other Act may be obligated or expended to finance directly or indirectly any study related to the transportation of chemical weapons across State lines.

PHILADELPHIA REGIONAL PORT AUTHORITY

SEC. 1116. Section 115 of division H of Public Law 108–199 is amended by striking all after ''made available'' and substituting '', notwithstanding section 2218(c)(1) of title 10, United States Code, for a grant to Philadelphia Regional Port Authority, to be used solely for the purpose of construction, by and for a Philadelphia-based company established to operate high-speed, advanced-design vessels for the transport of high-value, time-sensitive cargoes in the foreign commerce of the United States, of a marine cargo terminal and IT network for high-speed commercial vessels that is capable of supporting military sealift requirements.''.

CONTINUITY OF GOVERNMENT TRANSPORTATION

SEC. 1117. Notwithstanding any other provision of the law, to facilitate the continuity of Government, during fiscal year 2005, no more than 11 officers and employees of the Executive Office of the President may be transported between their residence and place of employment on passenger carriers owned or leased by the Federal Government.

LPD–17 COST ADJUSTMENT

(TRANSFER OF FUNDS)

SEC. 1118. Upon enactment of this Act, the Secretary of Defense shall make the following transfer of funds: Provided, That funds so transferred shall be merged with and shall be available for the same purpose and for the same time period as the appropriation to which transferred: Provided further, That the amounts shall be transferred between the following appropriations in the amounts specified:

From:

Under the heading, ''Shipbuilding and Conversion, Navy, 2005/2009'':

LCU (X), $19,000,000;

To:

Under the heading, ''Shipbuilding and Conversion, Navy, 1996/2008'':

LPD–17, $19,000,000:

Provided further, That the amount made available by the transfer of funds in or pursuant to this section is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

PROHIBITION ON COMPETITION OF THE NEXT GENERATION DESTROYER (DD(X))

SEC. 1119. (a) No funds appropriated or otherwise made available by this Act, or by any other Act, may be obligated or expended to prepare for, conduct, or implement a strategy for the acquisition of the next generation destroyer (DD(X)) program through a winner-take-all strategy.

(b) WINNER-TAKE-ALL STRATEGY DEFINED.—In this section, the term ''winner-take-all strategy'', with respect to the acquisition of destroyers under the next generation destroyer program, means the acquisition (including design and construction) of such destroyers through a single shipyard.

CIVILIAN PAY

SEC. 1120. None of the funds appropriated to the Department of Defense by this Act or any other Act for fiscal year 2005 or any other fiscal year may be expended for any pay raise granted on or after January 1, 2005 that is implemented in a manner that provides a greater increase for non-career employees than for career employees on the basis of their status as career or non-career employees, unless specifically authorized by law: Provided, That this provision shall be implemented for fiscal year 2005 without regard to the requirements of section 5383 of title 5, United States Code: Provided further, That no employee of the Department of Defense shall have his or her pay reduced for the purpose of complying with the requirements of this provision.

INDUSTRIAL MOBILIZATION CAPACITY

SEC. 1121. Of the amounts appropriated or otherwise made available by the Department of Defense Appropriations Act, 2005, $12,500,000 shall be available only for industrial mobilization capacity at Rock Island Arsenal.

CHAPTER 2

DEPARTMENT OF DEFENSE

MILITARY CONSTRUCTION, ARMY

For an additional amount for ''Military Construction, Army'', $897,191,000, to remain available until September 30, 2007: Provided, That such funds may be used to carry out planning and design and military construction projects not otherwise authorized by law: Provided further, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

MILITARY CONSTRUCTION, NAVY AND MARINE CORPS

For an additional amount for ''Military Construction, Navy and Marine Corps'', $107,380,000, to remain available until September 30, 2007: Provided, That such funds may be used to carry out planning and design and military construction projects not otherwise authorized by law: Provided further, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

MILITARY CONSTRUCTION, AIR FORCE

For an additional amount for ''Military Construction, Air Force'', $140,983,000, to remain available until September 30, 2007: Provided, That such funds may be used to carry out planning and design and military construction projects not otherwise authorized by law: Provided further, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

TITLE II—INTERNATIONAL PROGRAMS AND ASSISTANCE FOR RECONSTRUCTION AND THE WAR ON TERROR

CHAPTER 1

DEPARTMENT OF AGRICULTURE

FOREIGN AGRICULTURAL SERVICE

PUBLIC LAW 480 TITLE II GRANTS

For additional expenses during the current fiscal year, not otherwise recoverable, and unrecovered prior years' costs, including interest thereon, under the Agricultural Trade Development and Assistance Act of 1954, for commodities supplied in connection with dispositions abroad under title II of said Act, $150,000,000, to remain available until expended: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

CHAPTER 2

DEPARTMENT OF STATE AND RELATED AGENCY

DEPARTMENT OF STATE

ADMINISTRATION OF FOREIGN AFFAIRS

DIPLOMATIC AND CONSULAR PROGRAMS

For an additional amount for ''Diplomatic and Consular Programs'', $757,700,000, to remain available until September 30, 2006, of which $10,000,000 is provided for security requirements in the detection of explosives: Provided, That of the funds appropriated under this heading, not less than $250,000 shall be made available for programs to assist Iraqi and Afghan scholars who are in physical danger to travel to the United States to engage in research or other scholarly activities at American institutions of higher education: Provided further, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

EMBASSY SECURITY, CONSTRUCTION, AND MAINTENANCE

For an additional amount for ''Embassy Security, Construction, and Maintenance'', $592,000,000, to remain available until expended: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

INTERNATIONAL ORGANIZATIONS AND CONFERENCES

CONTRIBUTIONS FOR INTERNATIONAL PEACEKEEPING ACTIVITIES

For an additional amount for ''Contributions for International Peacekeeping Activities'', $680,000,000, to remain available until September 30, 2006: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

RELATED AGENCY

BROADCASTING BOARD OF GOVERNORS

INTERNATIONAL BROADCASTING OPERATIONS

For an additional amount for ''International Broadcasting Operations'' for activities related to broadcasting to the broader Middle East, $4,800,000, to remain available until September 30, 2006: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

BROADCASTING CAPITAL IMPROVEMENTS

For an additional amount for ''Broadcasting Capital Improvements'' for capital improvements related to broadcasting to the broader Middle East, $2,500,000, to remain available until September 30, 2006: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

BILATERAL ECONOMIC ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT

INTERNATIONAL DISASTER AND FAMINE ASSISTANCE

For an additional amount for ''International Disaster and Famine Assistance'', $44,000,000, to remain available until expended, for emergency expenses related to the humanitarian crisis in the Darfur region of Sudan: Provided, That these funds may be used to reimburse fully accounts administered by the United States Agency for International Development for obligations incurred for the purposes provided under this heading prior to enactment of this Act from funds appropriated for foreign operations, export financing, and related programs: Provided further, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

TRANSITION INITIATIVES

For an additional amount for ''Transition Initiatives'', $63,000,000, to remain available until expended, for necessary international disaster rehabilitation and reconstruction assistance pursuant to section 491 of the Foreign Assistance Act of 1961, to support transition to democracy and the long-term development of Sudan: Provided, That such support may include assistance to develop, strengthen, or preserve democratic institutions and processes, revitalize basic infrastructure, and foster the peaceful resolution of conflict: Provided further, That of the funds appropriated under this heading, not less than $2,500,000 shall be made available for criminal case management, case tracking, and the reduction of pre-trial detention in Haiti, notwithstanding any other provision of law: Provided further, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OPERATING EXPENSES OF THE UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT

For an additional amount for ''Operating Expenses of the United States Agency for International Development'', $24,400,000, to remain available until September 30, 2006: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OPERATING EXPENSES OF THE UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT OFFICE OF INSPECTOR GENERAL

For an additional amount for ''Operating Expenses of the United States Agency for International Development Office of Inspector General'', $2,500,000, to remain available until September 30, 2006: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OTHER BILATERAL ECONOMIC ASSISTANCE

ECONOMIC SUPPORT FUND

(INCLUDING TRANSFER OF FUNDS)

For an additional amount for ''Economic Support Fund'', $1,631,300,000, to remain available until September 30, 2006: Provided, That of the funds appropriated under this heading, $200,000,000 should be made available for programs, activities, and efforts to support Palestinians, of which $50,000,000 should be made available for assistance for Israel to help ease the movement of Palestinian people and goods in and out of Israel: Provided further, That of the funds appropriated under this heading, not less than $5,000,000 shall be made available for assistance for displaced persons in Afghanistan: Provided further, That of the funds appropriated under this heading, not less than $5,000,000 should be made available to support Afghan women's organizations that work to defend the legal rights of women and to increase women's political participation: Provided further, That of the funds appropriated under this heading, up to $10,000,000 may be transferred to the Overseas Private Investment Corporation for the cost of direct and guaranteed loans as authorized by section 234 of the Foreign Assistance Act of 1961: Provided further, That such costs, shall be as defined in section 502 of the Congressional Budget Act of 1974: Provided further, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

ASSISTANCE FOR THE INDEPENDENT STATES OF THE FORMER SOVIET UNION

For an additional amount for ''Assistance for the Independent States of the Former Soviet Union'' for assistance to Ukraine, $70,000,000, to remain available until September 30, 2006: Provided, That of the funds appropriated under this heading, $5,000,000 shall be made available for democracy programs in Belarus, which shall be administered by the Bureau of Democracy, Human Rights and Labor, Department of State: Provided further, That of the funds appropriated under this heading, not less than $5,000,000 shall be made available through the United States Agency for International Development for humanitarian, conflict mitigation, and other relief and recovery assistance for needy families and communities in Chechnya, Ingushetia and elsewhere in the North Caucasus: Provided further, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

DEPARTMENT OF STATE

INTERNATIONAL NARCOTICS CONTROL AND LAW ENFORCEMENT

(INCLUDING TRANSFER OF FUNDS)

For an additional amount for ''International Narcotics Control and Law Enforcement'', $660,000,000, to remain available until September

30, 2007, of which up to $46,000,000 may be transferred to and merged with ''Economic Support Fund'' if the Secretary of State, after consultation with the Committees on Appropriations, determines that this transfer is the most effective and timely use of resources to carry out counternarcotics and reconstruction programs: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

MIGRATION AND REFUGEE ASSISTANCE

For an additional amount for ''Migration and Refugee Assistance'', $108,400,000, to remain available until September 30, 2006: Provided, That of the funds appropriated under this heading, not less than $55,000,000 shall be made available for assistance for refugees in Africa and to fulfill refugee protection goals set by the President for fiscal year 2005: Provided further, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

NONPROLIFERATION, ANTI-TERRORISM, DEMINING AND RELATED PROGRAMS

For an additional amount for ''Nonproliferation, Anti-Terrorism, Demining and Related Programs'', $32,100,000, to remain available until September 30, 2006, of which not to exceed $15,000,000, to remain available until expended, may be made available for the Nonproliferation and Disarmament Fund, notwithstanding any other provision of law, to promote bilateral and multilateral activities relating to nonproliferation and disarmament: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

FUNDS APPROPRIATED TO THE PRESIDENT

OTHER BILATERAL ASSISTANCE

GLOBAL WAR ON TERROR PARTNERS FUND

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses to carry out the purposes of the Foreign Assistance Act of 1961 for responding to urgent economic support requirements in countries supporting the United States in the Global War on Terror, $40,000,000, to remain available until expended: Provided, That these funds may be used only pursuant to a determination by the President, and after consultation with the Committees on Appropriations, that such use will support the global war on terrorism to furnish economic assistance to partners on such terms and conditions as he may determine for such purposes, including funds on a grant basis as a cash transfer: Provided further, That funds made available under this heading may be transferred by the Secretary of State to other Federal agencies or accounts to carry out the purposes under this heading: Provided further, That upon a determination that all or part of the funds so transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: Provided further, That funds appropriated under this heading shall be considered to be economic assistance under the Foreign Assistance Act of 1961 for purposes of making available the administrative authorities contained in the Act for the use of economic assistance: Provided further, That funds appropriated under this heading shall be subject to the regular notification procedures of the Committees on Appropriations, except that such notifications shall be submitted no less than five days prior to the obligation of funds: Provided further, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

MILITARY ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

FOREIGN MILITARY FINANCING PROGRAM

For an additional amount for ''Foreign Military Financing Program'', $250,000,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

PEACEKEEPING OPERATIONS

For an additional amount for ''Peacekeeping Operations'', $210,000,000, to remain available until September 30, 2006, of which $200,000,000 is for military and other security assistance to coalition partners in Iraq and Afghanistan: Provided, That funds appropriated under this heading shall be subject to the regular notification procedures of the Committees on Appropriations, except that such notifications shall be submitted no less than five days prior to the obligation of funds: Provided further, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

GENERAL PROVISIONS, THIS CHAPTER

VOLUNTARY CONTRIBUTION

SEC. 2101. Section 307(a) of the Foreign Assistance Act of 1961, as amended (22 U.S.C. 2227), is further amended by striking ''Iraq,''.

REPORTING REQUIREMENT

SEC. 2102. Not later than 60 days after the date of enactment of this Act, the President shall submit a report to the Congress detailing: (1) information regarding the Palestinian security services, including their numbers, accountability, and chains of command, and steps taken to purge from their ranks individuals with ties to terrorist entities; (2) specific steps taken by the Palestinian Authority to dismantle the terrorist infrastructure, confiscate unauthorized weapons, arrest and bring terrorists to justice, destroy unauthorized arms factories, thwart and preempt terrorist attacks, and cooperate with Israel's security services; (3) specific actions taken by the Palestinian Authority to stop incitement in Palestinian Authority-controlled electronic and print media and in schools, mosques, and other institutions it controls, and to promote peace and coexistence with Israel; (4) specific steps the Palestinian Authority has taken to ensure democracy, the rule of law, and an independent judiciary, and transparent and accountable governance; (5) the Palestinian Authority's cooperation with United States officials in investigations into the late Palestinian leader Yasser Arafat's finances; and (6) the amount of assistance pledged and actually provided to the Palestinian Authority by other donors: Provided, That not later than 180 days after enactment of this Act, the President shall submit to the Congress an update of this report: Provided further, That up to $5,000,000 of the funds made available for assistance for the West Bank and Gaza by this chapter under ''Economic Support Fund'' shall be used for an outside, independent evaluation by an internationally recognized accounting firm of the transparency and accountability of Palestinian Authority accounting procedures and an audit of expenditures by the Palestinian Authority.

(RESCISSION OF FUNDS)

SEC. 2103. The unexpended balance appropriated by Public Law 108–11 under the heading ''Economic Support Fund'' and made available for Turkey is rescinded.

DEMOCRACY EXCEPTION

SEC. 2104. Funds appropriated for fiscal year 2005 under the heading ''Economic Support Fund'' may be made available for democracy and rule of law programs and activities, notwithstanding the provisions of section 574 of division D of Public Law 108–447.

TITLE III—DOMESTIC APPROPRIATIONS FOR THE WAR ON TERROR

CHAPTER 1

DEPARTMENT OF JUSTICE

GENERAL ADMINISTRATION

OFFICE OF INSPECTOR GENERAL

For an additional amount for ''Office of Inspector General'', $2,500,000, to remain available until September 30, 2006: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

UNITED STATES MARSHALS SERVICE

SALARIES AND EXPENSES

For an additional amount for ''Salaries and Expenses'', $11,935,000, to remain available until September 30, 2006: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

FEDERAL BUREAU OF INVESTIGATION

SALARIES AND EXPENSES

For an additional amount for ''Salaries and Expenses'', $66,512,000, to remain available until September 30, 2006: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

In addition, notwithstanding any other provision of law, the Federal Bureau of Investigation shall have the authority to execute a lease of up to 160,000 square feet of space for the Terrorist Screening Center within the Washington, D.C. Metropolitan area.

DRUG ENFORCEMENT ADMINISTRATION

SALARIES AND EXPENSES

For an additional amount for ''Salaries and Expenses'', $7,648,000, to remain available until September 30, 2006: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

BUREAU OF ALCOHOL, TOBACCO, FIREARMS AND EXPLOSIVES

SALARIES AND EXPENSES

For an additional amount for ''Salaries and Expenses'', $5,100,000, to remain available until September 30, 2006: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

CHAPTER 2

DEPARTMENT OF ENERGY

NATIONAL NUCLEAR SECURITY ADMINSTRATION

WEAPONS ACTIVITIES

For an additional amount for ''Weapons Activities'', $26,000,000, to remain available until expended: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

DEFENSE NUCLEAR NONPROLIFERATION

For an additional amount for ''Defense Nuclear Nonproliferation'', $84,000,000, to remain available until expended: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant

to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

CHAPTER 3

DEPARTMENT OF HOMELAND SECURITY

IMMIGRATION AND CUSTOMS ENFORCEMENT

SALARIES AND EXPENSES

For an additional amount for ''Salaries and Expenses'', $276,000,000, of which not less than $11,000,000 shall be available for the costs of increasing by no less than seventy-nine the level of full-time equivalents on board on the date of enactment of this Act: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

UNITED STATES COAST GUARD

OPERATING EXPENSES

For an additional amount for ''Operating Expenses'', $111,950,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

For an additional amount for ''Acquisition, Construction, and Improvements'', $49,200,000, to remain available until September 30, 2007: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

CHAPTER 4

CAPITOL POLICE

SALARIES

For an additional amount for salaries of employees of the Capitol Police, including overtime, hazardous duty pay differential, and Government contributions for health, retirement, social security, professional liability insurance, and other applicable employee benefits, $10,000,000, to remain available until expended: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

EXPENSES

For an additional amount for necessary expenses of the Capitol Police, $13,300,000, to remain available until expended: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

ARCHITECT OF THE CAPITOL

CAPITOL POLICE BUILDINGS AND GROUNDS

For an additional amount for Capitol Police Buildings and Grounds, $23,000,000, to remain available until September 30, 2010: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

TITLE IV—INDIAN OCEAN TSUNAMI RELIEF

CHAPTER 1

DEPARTMENT OF COMMERCE

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

OPERATIONS, RESEARCH, AND FACILITIES

For an additional amount for ''Operations, Research, and Facilities'', $7,070,000, to remain available until September 30, 2007, for United States tsunami warning capabilities and operations: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

PROCUREMENT, ACQUISITION AND CONSTRUCTION

For an additional amount for ''Procurement, Acquisition and Construction'', $10,170,000, to remain available until September 30, 2008, for United States tsunami warning capabilities: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

CHAPTER 2

DEPARTMENT OF DEFENSE—MILITARY

OPERATION AND MAINTENANCE

OPERATION AND MAINTENANCE, NAVY

For an additional amount for ''Operation and Maintenance, Navy'', $124,100,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OPERATION AND MAINTENANCE, MARINE CORPS

For an additional amount for ''Operation and Maintenance, Marine Corps'', $2,800,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OPERATION AND MAINTENANCE, AIR FORCE

For an additional amount for ''Operation and Maintenance, Air Force'', $30,000,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OPERATION AND MAINTENANCE, DEFENSE-WIDE

For an additional amount for ''Operation and Maintenance, Defense-Wide'', $29,150,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC AID

For an additional amount for ''Overseas Humanitarian, Disaster, and Civic Aid'', $36,000,000, to remain available until September 30, 2006: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

OTHER DEPARTMENT OF DEFENSE PROGRAMS

DEFENSE HEALTH PROGRAM

For an additional amount for ''Defense Health Program'', $3,600,000 for Operation and maintenance: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

CHAPTER 3

DEPARTMENT OF HOMELAND SECURITY

UNITED STATES COAST GUARD

OPERATING EXPENSES

For an additional amount for ''Operating Expenses'', $350,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

CHAPTER 4

DEPARTMENT OF THE INTERIOR

UNITED STATES GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

For an additional amount for ''Surveys, Investigations, and Research'', $8,100,000, to remain available until September 30, 2006: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

TSUNAMI RECOVERY AND RECONSTRUCTION FUND

(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses to carry out the Foreign Assistance Act of 1961, for emergency relief, rehabilitation, and reconstruction aid to countries affected by the tsunami and earthquakes of December 2004 and March 2005, $656,000,000, to remain available until September 30, 2006: Provided, That these funds may be transferred by the Secretary of State to Federal agencies or accounts for any activity authorized under part I (including chapter 4 of part II) of the Foreign Assistance Act, or under the Agricultural Trade Development and Assistance Act of 1954, to accomplish the purposes provided herein: Provided further, That upon a determination that all or part of the funds so transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: Provided further, That funds appropriated under this heading may be used to reimburse fully accounts administered by the United States Agency for International Development for obligations incurred for the purposes provided under this heading prior to enactment of this Act, including Public Law 480 Title II grants: Provided further, That of the amounts provided herein: up to $10,000,000 may be transferred to and consolidated with ''Development Credit Authority'' for the cost of direct loans and loan guarantees as authorized by sections 256 and 635 of the Foreign Assistance Act of 1961 in furtherance of the purposes of this heading; up to $20,000,000 may be transferred to and consolidated with ''Operating Expenses of the United States Agency for International Development'', of which up to $2,000,000 may be used for administrative expenses to carry out credit programs administered by the United States Agency for International Development in furtherance of the purposes of this heading; up to $500,000 may be transferred to and consolidated with ''Operating Expenses of the United States Agency for International Development Office of Inspector General''; and up to $5,000,000 may be transferred to and consolidated with ''Emergencies in the Diplomatic and Consular Service'' for the purpose of providing support services for United States citizen victims and related operations: Provided further, That of the funds appropriated under this heading, not less than $5,000,000 shall be made available for environmental recovery activities in Aceh, Indonesia, to be administered by the United States Fish and Wildlife Service: Provided further, That of the funds appropriated under this heading, not less than $12,000,000 should be made available for programs to address the needs of people with physical and mental disabilities resulting from the tsunami: Provided further, That of the funds appropriated under this heading, not less than $25,000,000 should be made available for programs to prevent the spread of the Avian flu: Provided further, That of the funds appropriated under this heading, $1,500,000 shall be

made available for trafficking in persons monitoring and prevention programs and activities in tsunami affected countries: Provided further, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

GENERAL PROVISIONS, THIS CHAPTER

ANNUAL LIMITATION

SEC. 4501. Amounts made available pursuant to section 492(b) of the Foreign Assistance Act of 1961, as amended (22 U.S.C. 2292a), to address relief and rehabilitation needs for countries affected by the Indian Ocean tsunami and earthquakes of December 2004 and March 2005, prior to the enactment of this Act, shall be in addition to the amount that may be obligated in fiscal year 2005 under that section.

AUTHORIZATION OF FUNDS

SEC. 4502. Funds appropriated by this chapter and chapter 2 of title II may be obligated and expended notwithstanding section 15 of the State Department Basic Authorities Act of 1956, section 313 of the Foreign Relations Authorization Act, Fiscal Years 1994 and 1995 (Public Law 103–236), section 10 of Public Law 91–672 (22 U.S.C. 2412), and section 504(a)(1) of the National Security Act of 1947 (50 U.S.C. 414(a)(1)).

TITLE V—OTHER EMERGENCY APPROPRIATIONS

CHAPTER 1

DEPARTMENT OF AGRICULTURE

COOPERATIVE STATE RESEARCH, EDUCATION, AND EXTENSION SERVICE

RESEARCH AND EDUCATION ACTIVITIES

For an additional amount for ''Research and Education Activities'' to provide a grant to the University of Hawaii to partially offset the cost of damages to the research and educational resources of the College of Tropical Agriculture and Human Resources incurred as a result of the catastrophic flood that occurred on October 30, 2004, as authorized by law, $3,000,000, to remain available until expended: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

NATURAL RESOURCES CONSERVATION SERVICE

EMERGENCY WATERSHED PROTECTION PROGRAM

For an additional amount for the emergency watershed protection program established under section 403 of the Agricultural Credit Act of 1978 (16 U.S.C. 2203) to repair damages to the waterways and watersheds resulting from natural disasters, $103,000,000, to remain available until expended: Provided, That of the amount provided, no less than $66,000,000 shall be for eligible work in the State of Utah: Provided further, That notwithstanding any other provision of law, the Secretary of Agriculture shall count local financial and technical resources, including in-kind materials and services, contributed toward recovery from the flooding events of January 2005 in Washington County, Utah, toward local matching requirements for the emergency watershed protection program assistance provided to Washington County, Utah: Provided further, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

GENERAL PROVISIONS, THIS CHAPTER

RURAL HOUSING SERVICE

SEC. 5101. Hereafter, notwithstanding any other provision of law, the Secretary of Agriculture may transfer any unobligated amounts made available under the heading ''Rural Housing Service'', ''Rural Housing Insurance Fund Program Account'' in chapter 1 of title II of Public Law 106–246 (114 Stat. 540) to the Rural Housing Service ''Rental Assistance Program'' account for projects in North Carolina: Provided, That the amounts made available by the transfer of funds in or pursuant to this section are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

RURAL HOUSING ASSISTANCE GRANTS

SEC. 5102. The Secretary of Agriculture shall consider the Village of New Miami (Ohio) to be eligible for loans and grants provided through the Rural Housing Assistance Grants program.

NATURAL RESOURCES CONSERVATION SERVICE

SEC. 5103. (a) Notwithstanding any other provision of law, the Natural Resources Conservation Service shall provide financial and technical assistance to carry out measures (including research, engineering operations, methods of cultivation, the growing of vegetation, rehabilitation of existing works, and changes in the use of land) to prevent damage to the Manoa watershed in Hawaii.

(b) There is hereby appropriated $15,000,000, to remain available until expended, to carry out provisions of subsection (a): Provided, That the amounts provided under this section are designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

FARM SERVICE AGENCY

SEC. 5104. The funds made available in section 786 of title VII of the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2005 as contained in division A of the Consolidated Appropriations Act, 2005 (Public Law 108–447) may be applied to accounts of Alaska dairy farmers owed to the Secretary of Agriculture.

CHAPTER 2

DEPARTMENT OF THE INTERIOR

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

For an additional amount for ''Departmental Management'', $3,000,000 to support deployment of business systems to the bureaus and offices of the Department of the Interior, including the Financial and Business Management System: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

NATIONAL FOREST SYSTEM

For an additional amount for ''National Forest System'' to pay necessary expenses of the Forest Service to restore land and facilities in the State of California damaged by torrential rainfall during fiscal year 2005, $2,410,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

CAPITAL IMPROVEMENT AND MAINTENANCE

For an additional amount for ''Capital Improvement and Maintenance'' to pay necessary expenses of the Forest Service to construct, repair, decommission, and maintain forest roads and trails in the Angeles National Forest, Cleveland National Forest, Los Padres National Forest, and San Bernardino National Forest, $31,980,000: Provided, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

CHAPTER 3

DEPARTMENT OF HEALTH AND HUMAN SERVICES

OFFICE OF THE SECRETARY

PUBLIC HEALTH AND SOCIAL SERVICES EMERGENCY FUND

(INCLUDING RESCISSIONS OF FUNDS)

For an additional amount for the ''Public Health and Social Services Emergency Fund'' in title II of Public Law 108–447, $10,000,000, to remain available until expended, for infrastructure grants to improve the supply of domestically produced vaccine: Provided, That the entire amount is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress): Provided further, That under the heading ''Health Resources and Services Administration, Health Resources and Services'', the unobligated balance for the Health Professions Teaching Facilities Program authorized in sections 726 and 805 of the Public Health Service Act; the unobligated balance of the Health Teaching Construction Interest Subsidy Program authorized in section 726 and title XVI of the Public Health Service Act; and the unobligated balance of the AIDS Facilities Renovation and Support Program authorized in title XVI of the Public Health Service Act are all hereby rescinded: Provided further, That under the heading ''Office of the Secretary, Office of the Inspector General'', the unobligated balance of the Medicaid Fraud Control Program authorized in section 1903 of the Social Security Act and appropriated to the Office of the Inspector General in the Department of Health and Human Services is hereby rescinded: Provided further, That under the heading ''Assistant Secretary for Health Scientific Activities Overseas (Special Foreign Currency Program)'' the unobligated balance of the Scientific Activities Overseas (Special Foreign Currency Program) account within the Department of Health and Human Services is hereby rescinded.

RELATED AGENCY

INSTITUTE OF MUSEUM LIBRARY SERVICES

OFFICE OF MUSEUM AND LIBRARY SERVICES: GRANTS AND ADMINISTRATION

For an additional amount for the ''Institute of Museum and Library Services, Office of Museum and Library Services: Grants and Administration'', $10,000,000, to be available until expended, for the Hamilton Library at the University of Hawaii at Manoa, including replacing the collections at the regional federal depository library: Provided, That the entire amount is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

CHAPTER 4

THE JUDICIARY

COURTS OF APPEALS, DISTRICT COURTS, AND OTHER JUDICIAL SERVICES

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

For an additional amount for ''Salaries and Expenses, Courts of Appeals, District Courts and Other Judicial Services'' for unforeseen costs associated with recent Supreme Court decisions and recently enacted legislation, $60,000,000, to remain available until September 30, 2006: Provided, That notwithstanding section 302 of division B of Public Law 108–477, such sums shall be available for transfer to accounts within the Judiciary subject to section 605 of said Act: Provided further, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

HOUSING PROGRAMS

HOUSING FOR PERSONS WITH DISABILITIES

(INCLUDING RESCISSION OF FUNDS)

Of the amount made available under this heading in Public Law 108–447, $238,080,000 are rescinded.

For an additional amount for ''Housing for Persons with Disabilities'', $238,080,000, to remain available until September 30, 2006: Provided, That these funds shall be available under the same terms and conditions as authorized for funds under this heading in Public Law 108–447.

GENERAL PROVISION, THIS CHAPTER

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SEC. 5401. (a) Notwithstanding any other provision of law, the Secretary of Housing and Urban Development shall make a grant to the University of Hawaii to cover unreimbursed expenses associated with costs resulting from the catastrophic flood that occurred on October 30, 2004.

(b) There is hereby appropriated $10,000,000, to remain available until expended, to carry out provisions of subsection (a): Provided, That the amount provided under this section is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

TITLE VI—GENERAL PROVISIONS AND TECHNICAL CORRECTIONS

AVAILABILITY OF FUNDS

SEC. 6001. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

TRANSFER AUTHORITY—DEPARTMENT OF JUSTICE

SEC. 6002. Notwithstanding section 106 of title I of division B of Public Law 108–447, the Department of Justice may transfer funds from any Department of Justice account, except ''Buildings and Facilities, Federal Prison System'' and ''Office of Justice Programs'' accounts, to the ''Detention Trustee'' account: Provided, That the notification requirement in section 605 of title VI of division B of Public Law 108–447 shall apply to any such transfers.

SPACE CONSIDERATIONS—FEDERAL BUREAU OF INVESTIGATION

SEC. 6003. Notwithstanding any other provision of law, the Special Technologies and Application Section within the Federal Bureau of Investigation shall have the authority to use existing resources to acquire, renovate, and occupy up to 175,000 square feet of additional facility space within its immediate surrounding area.

TECHNICAL CORRECTIONS—NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION—FISCAL YEAR 2005

SEC. 6004. The referenced statement of managers under the heading ''National Oceanic and Atmospheric Administration'' in title II of division B of Public Law 108–447 is deemed to be amended after ''Bonneau Ferry, SC'' by striking ''20,000'' and inserting ''19,200'': Provided, That these amounts are available for transfer to ''Response and Restoration Base''.

SEC. 6005. The referenced statement of managers under the heading ''National Oceanic and Atmospheric Administration'' in title II of division B of Public Law 108–447 is deemed to be amended under the heading ''Construction/Acquisition, Coastal and Estuarine Land Conservation Program'' by striking ''Tonner Canyon, CA'' and inserting ''Tolay Lake, Sonoma County, CA''.

SEC. 6006. The referenced statement of managers under the heading ''National Oceanic and Atmospheric Administration'' in title II of division B of Public Law 108–447 is deemed to be amended under the heading ''Construction/Acquisition, Coastal and Estuarine Land Conservation Program'' by striking ''Port Aransas Nature Preserve Wetlands Project, TX—3,000'' and under the heading ''Section 2 (FWCA) Coastal/Estuarine Land Acquisition'' by inserting ''Port Aransas Nature Preserve Wetlands Project, TX—3,000''.

LOCAL BUDGET AUTHORITY FOR THE DISTRICT OF COLUMBIA

SEC. 6007. The District of Columbia Appropriations Act, 2005 (Public Law 108–335) approved October 18, 2004, is amended as follows:

(1) Section 331 is amended as follows:

(A) in the first sentence by striking ''$15,000,000'' and inserting ''$42,000,000, to remain available until expended,'' in its place, and

(B) by amending subsection (5) to read as follows:

''(5) The amounts may be obligated or expended only if the Mayor notifies the Committees on Appropriations of the House of Representatives and Senate in writing 30 days in advance of any obligation or expenditure.''.

(2) By inserting a new section before the short title at the end to read as follows:

''SEC. 348. The amount appropriated by this Act may be increased by an additional amount of $206,736,000 (including $49,927,000 from local funds and $156,809,000 from other funds) to be transferred by the Mayor of the District of Columbia to the various headings under this Act as follows:

''(1) $174,927,000 (including $34,927,000 from local funds and $140,000,000 from other funds) shall be transferred under the heading 'Government Direction and Support': Provided, That of the funds, $33,000,000 from local funds shall remain available until expended: Provided further, That of the funds, $140,000,000 from other funds shall remain available until expended and shall only be available in conjunction with revenue from a private or alternative financing proposal approved pursuant to section 106 of DC Act 15–717, the 'Ballpark Omnibus Financing and Revenue Act of 2004' approved by the District of Columbia, December 29, 2004, and

''(2) $15,000,000 from local funds shall be transferred under the heading 'Repayment of Loans and Interest', and

''(3) $14,000,000 from other funds shall be transferred under the heading 'Sports and Entertainment Commission', and

''(4) $2,809,000 from other funds shall be transferred under the heading 'Water and Sewer Authority'.''.

DE SOTO COUNTY, MISSISSIPPI

SEC. 6008. Section 219(f)(30) of the Water Resources Development Act of 1992 (106 Stat. 4835; 106 Stat. 3757; 113 Stat. 334) is amended by striking ''$20,000,000'' and inserting ''$55,000,000'' in lieu thereof, and by striking ''treatment'' and inserting ''infrastructure'' in lieu thereof.

SEC. 6009. The Secretary is authorized and directed to reimburse the non-Federal local sponsor of the project described in section 219(f)(30) of the Water Resources Development Act of 1992 (106 Stat. 4835; 106 Stat. 3757; 113 Stat. 334) for costs incurred between May 13, 2002 and September 30, 2005 in excess of the required non-Federal share if the Secretary determines that such costs were incurred for work that is compatible with and integral to the project: Provided, That the non-Federal local sponsor, at its option, may choose to accept, in lieu of reimbursement, a credit against the non-Federal share of project costs incurred after May 13, 2002.

FORT PECK FISH HATCHERY, MONTANA

SEC. 6010. Section 325(f)(1)(A) of Public Law 106–541 is modified by striking ''$20,000,000'' and inserting in lieu thereof ''$25,000,000''.

ALI WAI CANAL, HAWAII

SEC. 6011. For an amount from within available funds from ''General Investigations'' for the expansion of studies necessitated by severe flooding, up to $1,800,000, to remain available until expended.

INTERCOASTAL WATERWAY, DELAWARE RIVER TO CHESAPEAKE BAY, SR-1 BRIDGE, DELAWARE

SEC. 6012. The first proviso under the heading ''Operation and Maintenance'' in title I of division C of Public Law 108–447 is amended by striking ''October 1, 2003, and September 30, 2004'' and inserting ''October 1, 2004, and September 30, 2005''.

OFFSHORE OIL AND GAS FABRICATION PORTS

SEC. 6013. In determining the economic justification for navigation projects involving offshore oil and gas fabrication ports, the Secretary of the Army, acting through the Chief of Engineers, is directed to measure and include in the National Economic Development calculation the benefits of future energy exploration and production fabrication contracts and transportation cost savings that would result from larger navigation channels.

MC CLELLAN KERR NAVIGATION SYSTEM ADVANCED OPERATION AND MAINTENANCE

SEC. 6014. The last proviso under the heading ''Operation and Maintenance'' in title I of division C of Public Law 108–447 is amended by striking ''Public Law 108–357'' and inserting ''Public Law 108–137''.

SILVERY MINNOW OFF-CHANNEL SANCTUARIES

SEC. 6015. The Secretary of the Interior is authorized to perform such analyses and studies as needed to determine the viability of establishing an off-channel sanctuary for the Rio Grande Silvery Minnow in the Middle Rio Grande Valley. In conducting these studies, the Secretary shall take into consideration:

(1) providing off-channel, naturalistic habitat conditions for propagation, recruitment, and maintenance of Rio Grande silvery minnows; and

(2) minimizing the need for acquiring water or water rights to operate the sanctuary.

If the Secretary determines the project to be viable, the Secretary is further authorized to design and construct the sanctuary and to thereafter operate and maintain the sanctuary. The Secretary may enter into grant agreements, cooperative agreements, financial assistance agreements, interagency agreements, and contracts with Federal and non-Federal entities to carry out the purposes of this Act.

DESALINATION ACT EXTENSION

SEC. 6016. Section 8 of Public Law 104–298 (The Water Desalination Act of 1996) (110 Stat. 3624) as amended by section 210 of Public Law 108–7 (117 Stat. 146) is amended by—

(1) in paragraph (a) by striking ''2004'' and inserting in lieu thereof ''2009''; and

(2) in paragraph (b) by striking ''2004'' and inserting in lieu thereof ''2009''.

BUREAU OF RECLAMATION, HUMBOLDT TITLE TRANSFER

SEC. 6017. Notwithstanding Public Law 108–137, title II, sec. 217(a)(3) the State of Nevada shall be exempt from any payments associated with the Humboldt Title Transfer as described in Public Law 107–282, title VIII, sec. 804(f): Provided, That transfer costs shall not exceed $850,000.

OFFICE OF SCIENCE

SEC. 6018. In division C, title III of the Consolidated Appropriations Act, 2005 (Public Law 108–447), the item relating to ''Department of Energy, Energy Programs, Science'' is amended by inserting '': Provided, That $2,000,000 is provided within available funds to continue funding for project #DE–FG0204ER63842–04090945, the Southeast Regional Cooling, Heating and Power and Bio-Fuel Application Center, and

$3,000,000 is provided from within available funds for the University of Texas Southwestern Medical Center, University of Texas at Dallas Metroplex Comprehensive Imaging Center: Provided further, That within funds made available herein $500,000 is provided for the desalination plant technology program at the University of Nevada-Reno (UNR) and $500,000 for the Oral History of the Negotiated Settlement project at UNR: Provided further, That $4,000,000 is to be provided from within available funds to the Fire Sciences Academy in Elko, Nevada, for purposes of capital debt service'' after ''$3,628,902,000''.

WEAPONS ACTIVITIES

(INCLUDING TRANSFER OF FUNDS)

SEC. 6019. In division C, title III of the Consolidated Appropriations Act, 2005 (Public Law 108–447), the item relating to ''Atomic Energy Defense Activities, National Nuclear Security Adminstration, Weapons Activities'' is amended by inserting after ''various locations'' the following: '': Provided further, That $3,000,000 shall be used to continue funding of project #DE–FC04–02AL68107, the Technology Ventures Corporation: Provided further, That notwithstanding the provisions of section 302 of Public Law 102–377 and section 4705 of Public Law 107–314, as amended, the Department may transfer up to $10,000,000 from the Weapons Activities appropriation for purposes of carrying out section 3147 of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005, Public Law 108–375''.

DEFENSE SITE ACCELERATION COMPLETION

SEC. 6020. In division C, title III of the Consolidated Appropriations Act, 2005 (Public Law 108–447), the item relating to ''Atomic Energy Defense Activities, Environmental and Other Defense Activities, Defense Site Acceleration Completion'' is amended by inserting before the period the following: '': Provided, That $4,000,000 is to be provided from within available funds for the cleanup of lands transferred from NNSA to Los Alamos County or Los Alamos School District''.

DEFENSE ENVIRONMENTAL SERVICES

SEC. 6021. To the extent activities directed to be funded from within division C, title III of the Consolidated Appropriations Act, 2005 (Public Law 108–447), in division C, title III of the Consolidated Appropriations Act, 2005 (Public Law 104–447), the item relating to the ''Atomic Energy Defense Activities, National Nuclear Security Administration, Environmental and Other Defense Activities, Defense Environmental Services'' is amended by inserting before the period the following: '': Provided, That to the extent activities to be funded within the 'Defense Environmental Services' cannot be funded without unduly impacting mission activities and statutory requirements, up to $30,000,000 from 'Defense Site Acceleration Completion' may be used for these activities''.

CHERNOBYL RESEARCH AND SERVICE PROJECT

SEC. 6022. In division C, title III of the Consolidated Appropriations Act, 2005 (Public Law 104–447), the item relating to the ''Atomic Energy Defense Activities, National Nuclear Security Administration, Environmental and Other Defense Activities, Other Defense Activities'' is amended by inserting before the period the following: '': Provided, That $5,000,000 is to be provided from within available funds to initiate the Chernobyl Research and Service Project to support radiation effects during the Chernobyl Shelter Implementation Plan within the Office of Environment Safety and Health''.

DEPARTMENT OF ENERGY SMALL BUSINESS CONTRACTS

SEC. 6023. Section 15(g) of the Small Business Act (15 U.S.C. §644), is amended by adding the following new paragraph:

''(3) For purposes of this section, the term 'prime contract' shall, with respect to the Department of Energy, mean prime contracts awarded by the Department of Energy, and subcontracts awarded by Department of Energy management and operating contractors, management and integration contractors, major facilities management contractors, and contractors that have entered into similar contracts for management of a departmental facility. Contracting goals established for the Department of Energy under this section shall be set at a level not greater than the applicable Government-wide goal.''.

YUCCA MOUNTAIN

SEC. 6024. Title III of division C of the Consolidated Appropriations Act, 2005 (Public Law 108–447; 118 Stat. 2951) is amended in the matter under the heading ''Nuclear Waste Disposal''—

(1) by inserting ''to be derived from the Nuclear Waste Fund and'' after ''$346,000,000,''; and

(2) in the second proviso, by striking ''to conduct scientific oversight responsibilities and participate in licensing activities pursuant to the Act'' and inserting ''to participate in licensing activities and other appropriate activities pursuant to that Act''.

POWER MARKETING ADMINISTRATION

SEC. 6025. In division C, title III of the Consolidated Appropriations Act, 2005 (Public Law 108–447), the item relating to ''Construction, Rehabilitation, Operation and Maintenance, Western Area Power Administration'' is amended by inserting before the period at the end the following: '': Provided further, That of the amount herein appropriated, $500,000 is provided on a non-reimbursable basis from within available funds for a transmission study on the placement of 500 megawatts of wind energy in North Dakota and South Dakota''.

DEPARTMENT OF HOMELAND SECURITY

REVOLVING FUNDS

SEC. 6026. (a) The Department of Homeland Security ''Working Capital Fund'' is abolished and any remaining unobligated or unexpended fund balances shall be immediately transferred to the ''Office of the Chief Financial Officer'' and shall be subject to section 503 of Public Law 108–334.

(b) The Department of Homeland Security may not use any funds made available under section 403 of the Government Management Reform Act of 1994 (Public Law 103–356).

(c)(1) There is established the ''Continuity of Government Operations and Emergency Management Revolving Fund'' (in this subsection referred to as the ''Revolving Fund'') which shall be administered by a board of directors designated by the Under Secretary for Emergency Preparedness and Response.

(2) There shall be deposited into the Revolving Fund such amounts—

(A) that would have been deposited into the ''Working Capital Fund'' abolished under subsection (a) in accordance with any memorandum of understanding between the Federal Emergency Management Agency and any agency or other entity providing for the funding of the ''Working Capital Fund'' before the date of enactment of Public Law 107–296;

(B) provided for in any other memorandum of understanding approved by the board of directors after the date of enactment of this Act; and

(C) derived from agreements defined in (c)(2)(A) that were transferred to the ''Office of the Chief Financial Officer'' pursuant to subsection (a).

(3) Funds in the Revolving Fund may be used only for activities and services relating to continuity of Government and emergency management carried out by the Federal Emergency Management Agency before March 1, 2003, or approved by the Committees on Appropriations of the Senate and the House of Representatives.

REPROGRAMMING PROVISIONS

SEC. 6027. Section 503 of the Department of Homeland Security Appropriations Act, 2005 (118 Stat. 1315) is amended by striking subsection (d) and inserting the following:

''(d) None of the funds provided by this Act, provided by previous appropriations Acts to the agencies in or transferred to the Department of Homeland Security that remain available for obligation or expenditure in fiscal year 2005, or provided from any accounts in the Treasury of the United States derived by the collection of fees available to the agencies funded by this Act, shall be available for obligation or expenditure for any information technology project that: (1) is funded by the 'Office of the Chief Information Officer'; or (2) is funded by multiple components through the use of reimbursable agreements; unless the Committees on Appropriations of the Senate and the House of Representatives are notified 15 days in advance of such obligation of funds.

''(e) Notifications of reprogrammings, transfers, and obligations pursuant to subsections (a), (b), (c) and (d) shall not be made later than June 30, 2005, except in extraordinary circumstances which imminently threaten the safety of human life or the protection of property.''.

SEC. 6028. Any funds made available to the Department of Homeland Security by this Act shall be subject to the terms and conditions of Title V of Public Law 108–334.

BUREAU OF LAND MANAGEMENT TECHNICAL CORRECTION

SEC. 6029. Section 144 of division E of Public Law 108–447 is amended in paragraph (b)(2) by deleting ''September 24, 2004'' and inserting ''November 12, 2004''.

FOREST SERVICE TRANSFER

SEC. 6030. Funds in the amount of $1,500,000, provided in Public Law 108–447 for the ''Forest Service, Capital Improvement and Maintenance'' account, are hereby transferred to the ''Forest Service, State and Private Forestry'' account.

WEST YELLOWSTONE VISITOR INFORMATION CENTER

SEC. 6031. Notwithstanding any other provision of law, the National Park Service is authorized to expend appropriated funds for the construction, operations and maintenance of an expansion to the West Yellowstone Visitor Information Center to be constructed for visitors to, and administration of, Yellowstone National Park.

PESTICIDES TOLERANCE FEES

SEC. 6032. None of the funds in this or any other Appropriations Act may be used by the Environmental Protection Agency or any other Federal agency to develop, promulgate, or publish a pesticides tolerance fee rulemaking.

GULF ISLANDS NATIONAL SEASHORE

SEC. 6033. (a) The Secretary of the Interior shall allow the State of Mississippi, its lessees, contractors, and permittees, to conduct, under reasonable regulation not inconsistent with timely and generally full extraction of the oil and gas minerals:

(1) exploration, development and production operations on sites outside the boundaries of Gulf Islands National Seashore that use directional drilling techniques which result in the drill hole crossing into the Gulf Islands National Seashore and passing under any land or water the surface of which is owned by the United States, including terminating in bottom hole locations thereunder; or

(2) seismic and exploration activities inside the boundaries of Gulf Islands National Seashore related to extraction of the oil and gas located within the boundaries of the Gulf Islands National Seashore, all of which oil and gas is owned by the State of Mississippi.

(b) The provisions of subsection (a) shall not take effect until the State of Mississippi enters into an agreement with the Secretary providing that any actions by the United States in relation to the provisions in this section shall not trigger any reverter of any estate conveyed by the State of Mississippi to the United States within the Gulf Islands National Seashore in Chapter 482 of the General Laws of the State of Mississippi, 1971, and the quitclaim deed of June 15, 1972.

SURFACE MINING CONTROL AND RECLAMATION ACT

SEC. 6034. Section 402(b) of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1232(b)) is amended by striking ''June 30, 2005,'' and inserting ''September 30, 2005,''.

REPEAL OF TRANSFER AUTHORITY

SEC. 6035. Section 101 and section 208 of Division F of Public Law 108–447 are hereby repealed.

TECHNICAL CORRECTIONS—FUND FOR THE IMPROVEMENT OF EDUCATION—FISCAL YEAR 2005

SEC. 6036. In the statement of the managers of the committee of conference accompanying H.R. 4818 (Public Law 108–447; House Report 108–792), in the matter in title III of division F, relating to the Fund for the Improvement of Education under the heading ''Innovation and Improvement''—

(1) the provision specifying $500,000 for the Mississippi Museum of Art, Jackson, MS for Hardy Middle School After School Program shall be deemed to read ''Mississippi Museum of Art, Jackson, MS for a Mississippi Museum of Art After-School Collaborative'';

(2) the provision specifying $2,000,000 for the Milken Family Foundation, Santa Monica, CA, for the Teacher Advancement Program shall be deemed to read ''Teacher Advancement Program Foundation, Santa Monica, CA for the Teacher Advancement Program'';

(3) the provision specifying $1,000,000 for Batelle for Kids, Columbus, OH for a multi-state effort to evaluate and learn the most effective ways for accelerating student academic growth shall be deemed to read ''Battelle for Kids, Columbus, OH for a multi-state effort to implement, evaluate and learn the most effective ways for accelerating student academic growth'';

(4) the provision specifying $750,000 for the Institute of Heart Math, Boulder Creek, CO for a teacher retention and student dropout prevention program shall be deemed to read ''Institute of Heart Math, Boulder Creek, CA for a teacher retention and student dropout prevention program'';

(5) the provision specifying $200,000 for Fairfax County Public Schools, Fairfax, VA for Chinese language programs in Franklin Sherman Elementary School and Chesterbrook Elementary School in McLean, Virginia shall be deemed to read ''Fairfax County Public Schools, Fairfax, VA for Chinese language programs in Shrevewood Elementary School and Wolftrap Elementary School'';

(6) the provision specifying $1,250,000 for the University of Alaska/Fairbanks in Fairbanks, AK, working with the State of Alaska and Catholic Community Services, for the Alaska System for Early Education Development (SEED) shall be deemed to read ''University of Alaska/Southeast in Juneau, AK, working with the State of Alaska and Catholic Community Services, for the Alaska System for Early Education Development (SEED)'';

(7) the provision specifying $25,000 for QUILL Productions, Inc., Aston, PA, to develop and disseminate programs to enhance the teaching of American history shall be deemed to read ''QUILL Entertainment Company, Aston, PA, to develop and disseminate programs to enhance the teaching of American history'';

(8) the provision specifying $780,000 for City of St. Charles, MO for the St. Charles Foundry Arts Center in support of arts education shall be deemed to read ''The Foundry Art Centre, St. Charles, Missouri for support of arts education in conjunction with the City of St. Charles, MO'';

(9) the provision specifying $100,000 for Community Arts Program, Chester, PA, for arts education shall be deemed to read ''Chester Economic Development Authority, Chester, PA for a community arts program'';

(10) the provision specifying $100,000 for Kids with A Promise—The Bowery Mission, Bushkill, PA shall be deemed to read ''Kids with A Promise—The Bowery Mission, New York, NY'';

(11) the provision specifying $50,000 for Great Projects Film Company, Inc., Washington, DC, to produce ''Educating America'', a documentary about the challenges facing our public schools shall be deemed to read ''Great Projects Film Company, Inc., New York, NY, to produce 'Educating America', a documentary about the challenges facing our public schools'';

(12) the provision specifying $30,000 for Summer Camp Opportunities Provide an Edge (SCOPE), New York, NY for YMCA Camps Skycrest, Speers and Elijabar shall be deemed to read ''American Camping Association for Summer Camp Opportunities Provide an Edge (SCOPE), New York, NY for YMCA Camps Skycrest and Speers-Elijabar''; and

(13) the provision specifying $163,000 for Space Education Initiatives, Green Bay, WI for the Wisconsin Space Science Initiative shall be deemed to read ''Space Education Initiatives, De Pere, WI for the Wisconsin Space Science Initiative''.

TECHNICAL CORRECTIONS—FUND FOR THE IMPROVEMENT OF POSTSECONDARY EDUCATION—FISCAL YEAR 2005

SEC. 6037. In the statement of the managers of the committee of conference accompanying H.R. 4818 (Public Law 108–447; House Report 108–792), in the matter in title III of division F, relating to the Fund for the Improvement of Postsecondary Education under the heading ''Higher Education''—

(1) the provision specifying $145,000 for the Belin-Blank Center at the University of Iowa, Iowa City, IA for the Big 10 school initiative to improve minority student access to Advanced Placement courses shall be deemed to read ''University of Iowa, Iowa City, IA for the Iowa and Israel: Partners in Excellence program to enhance math and science opportunities to rural Iowa students'';

(2) the provision specifying $150,000 for Mercy College, Dobbs Ferry, NY for the development of a registered nursing program shall be deemed to read ''Mercy College, Dobbs Ferry, NY, for the development of a master's degree program in nursing education, including marketing and recruitment activities'';

(3) the provision specifying $100,000 for University of Alaska/Southeast to develop distance education coursework for arctic engineering courses and programs shall be deemed to read ''University of Alaska System Office to develop distance education coursework for arctic engineering courses and programs''; and

(4) the provision specifying $100,000 for Culver-Stockton College, Canton, MO for equipment and technology shall be deemed to read ''Moberly Area Community College, Moberly, MO for equipment and technology''.

TECHNICAL CORRECTIONS—FUND FOR THE IMPROVEMENT OF EDUCATION—FISCAL YEAR 2004

SEC. 6038. In the statement of the managers of the committee of conference accompanying H.R. 2673 (Public Law 108–199; House Report 108–401), in the matter in title III of division E, relating to the Fund for the Improvement of Education under the heading ''Innovation and Improvement'' the provision specifying $1,500,000 for the University of Alaska at Fairbanks for Alaska System for Early Education Development (SEED) program to expand early childhood services and to train Early Head Start teachers with AAS degrees for positions in rural Alaska shall be deemed to read ''University of Alaska/Southeast in Juneau, AK, working with the State of Alaska and Catholic Community Services, for the Alaska System for Early Education Development (SEED) program to expand early childhood services and to train Early Head Start teachers with AAS degrees for positions in rural Alaska''.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE FOR GRANT REVIEWS

SEC. 6039. The matter under the heading ''Corporation for National and Community Service—National and Community Service Programs Operating Expenses'' in title III of division I of Public Law 108–447 is amended by inserting before the period at the end the following: '': Provided further, That the Corporation may use up to 1 percent of program grant funds made available under this heading to defray its costs of conducting grant application reviews, including the use of outside peer reviewers''.

COPYRIGHT ROYALTY JUDGES

SEC. 6040. (a) During fiscal year 2005, the Librarian of Congress shall transfer from funds under the subheading ''SALARIES AND EXPENSES'' under the heading ''LIBRARY OF CONGRESS'' under title I of the Legislative Appropriations Act, 2005 to the account under the subheading ''SALARIES AND EXPENSES'' under the heading ''COPYRIGHT OFFICE'' under the heading ''LIBRARY OF CONGRESS'' under title I of that Act such funds as necessary to carry out the Copyright Royalty Judges program under chapter 8 of title 17, United States Code, as amended by the Copyright Royalty and Distribution Reform Act of 2004 (Public Law 108–419), subject to subsection (b).

(b) No more than $485,000 may be transferred under this section.

TECHNICAL CORRECTION—DEPARTMENT OF TRANSPORTATION

SEC. 6041. The matter under the heading ''Federal Transit Administration, Capital Investment Grants'' in title I of division H of Public Law 108–447 is amended by striking ''$3,591,548'' and inserting ''$1,362,683'' and by striking ''$22,554,144'' and inserting ''$12,998,815'': Provided, That the amount of new fixed guideway funds available for each project expected to complete its full funding grant agreement this fiscal year shall not exceed the amount which, when reduced by the across-the-board rescission of 0.80 percent of such Act, is equal to the amount of new fixed guideway funds required to complete the commitment of Federal new fixed guideway funds reflected in the project's full funding grant agreement: Provided further, That of the new fixed guideway funds available in Public Law 108–447, $1,352,899 shall be available for the Northern New Jersey Newark Rail Link MOS 1 project, no funds shall be available for the Northern New Jersey Newark-Elizabeth Rail Line MOS 1 project, and $316,427 shall be available for the Northern New Jersey Hudson-Bergen Light Rail MOS 1 project.

THE JUDICIARY

SEC. 6042. Section 308 of division B of Public Law 108–447 is amended by striking ''shall be deposited'' and all that follows through ''expenses'' and inserting in lieu thereof ''shall be deposited as offsetting receipts to the fund established under 28 U.S.C. section 1931 and shall remain available to the Judiciary until expended to reimburse any appropriation for the amount paid out of such appropriation for expenses of the Courts of Appeals, District Courts, and Other Judicial Services and the Administrative Office of the United States Courts''.

SEC. 6043. Section 325 of S. 256, the Bankruptcy Abuse Prevention and Consumer Protection Act of 2005, as passed by the Senate on March 10, 2005, is amended—

(1) by striking subsection (b) and inserting the following:

''(b) UNITED STATES TRUSTEE SYSTEM FUND.—Section 589a(b) of title 28, United States Code, is amended—

''(1) by striking paragraph (1) and inserting the following:

'''(1)(A) 29.75 percent of the fees collected under section 1930(a)(1)(A) of this title; and

'''(B) 39.67 percent of the fees collected under section 1930(a)(1)(B);';

''(2) in paragraph (2), by striking 'one-half' and inserting '75 percent'; and

''(3) in paragraph (4), by striking 'one-half' and inserting '100 percent'.'';

(2) by striking subsection (c) and inserting the following:

''(c) COLLECTION AND DEPOSIT OF MISCELLANEOUS BANKRUPTCY FEES.—Section 406(b) of the Judiciary Appropriations Act, 1990 (28 U.S.C. 1931 note) is amended by striking 'pursuant to 28 U.S.C. section 1930(b)' and all that follows through '28 U.S.C. section 1931' and inserting 'under section 1930(b) of title 28, United States Code, 29.75 percent of the fees collected under section 1930(a)(1)(A) of that title, 39.67 percent of the fees collected under section 1930(a)(1)(B) of that title, and 25 percent of the fees collected under section 1930(a)(3) of that title shall be deposited as offsetting receipts to the fund established under section 1931 of that title'.''; and

(3) by striking subsections (d) and (e) in their entirety.

TECHNICAL CORRECTIONS—GENERAL SERVICES ADMINISTRATION

SEC. 6044. Under the heading ''Federal Buildings Fund'' in title IV of division H of Public Law 108–447, strike ''$60,000,000'' and insert in lieu thereof ''$60,600,000'' in reference to the Las Cruces United States Courthouse.

SEC. 6045. Section 408 in title IV of division H of Public Law 108–477 is amended by striking ''Section 572(a)(2)(ii)'' and inserting in lieu thereof ''Section 572(a)(2)(A)(ii)''.

TECHNICAL CORRECTION—DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SEC. 6046. (a) The referenced statement of the managers under the heading ''Community Development Fund'' in title II of division I of Public Law 108–447 is deemed to be amended with respect to item 230 by striking ''City'' and inserting ''Port''.

(b) The referenced statement of the managers under the heading ''Community Development Fund'' in title II of division I of Public Law 108–447 is deemed to be amended with respect to item 233 by inserting ''Port of'' before the words ''Brookings Harbor''.

(c) The referenced statement of the managers under the heading ''Community Development Fund'' in title II of division I of Public Law 108–447 is deemed to be amended with respect to item number 30 by inserting ''to be used for planning, design, and construction'' after ''California,''.

(d) The referenced statement of managers under the heading ''Community Development Fund'' in title II of division G of Public Law 108–199 is deemed to be amended with respect to item number 122 by inserting ''to be used for planning, design, and construction'' after ''California,''.

This Act may be cited as the ''Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Tsunami Relief, 2005''.

Amend the title so as to read: ''An Act Making Emergency Supplemental Appropriations for Defense, the Global War on Terror, and Tsunami Relief, for the fiscal year ending September 30, 2005, and for other purposes.''.

The ACTING PRESIDENT pro tempore. The Senator from Mississippi.

Mr. COCHRAN. Mr. President, the Senate now has under consideration H.R. 1268, the fiscal year 2005 emergency supplemental appropriations bill. Pending is the substitute amendment recommended by the Committee on Appropriations. The committee met last Wednesday, April 6, and reported the bill with the substitute amendment by a unanimous consent vote of 28 to 0.

Our recommended substitute would provide a total of $80,581,832,000 in supplemental appropriations for fiscal year 2005. The recommendation is $1,460,796,000 below the President's request and $758,046,000 below the amount recommended in the House-passed bill.

The substitute is comprised of six titles.

Title I provides a total of $74,426,257,000 for defense-related activities, primarily the costs of continuing operations in Iraq and Afghanistan.

Title II includes $4,322,700,000 for international security programs, for assistance for reconstruction in Iraq and Afghanistan, and for support for coalition allies.

Title III provides appropriations in the amount of $687,145,000 for domestic activities related to homeland security and counterterrorism.

Title IV includes appropriations for Indian Ocean tsunami relief in the amount of $907,344,000.

Title V includes $238,390,000 for other emergency appropriations.

Title VI includes general provisions and technical corrections.

This is a straightforward bill. It meets the needs of our fighting forces overseas. It provides funding to meet our international responsibilities. It offers relief to the victims of the catastrophic tsunami in the Indian Ocean and addresses emergency requirements at home. It is critically important we move this bill through the Senate in a deliberate but expeditious fashion so we may confer with our colleagues from the other body and present legislation for the President's signature by the end of this month.

I will not take further time of the Senate today to go into all of the details of the proposal. Individual subcommittee chairmen and their ranking minority members will be available to Senators to explain the details of the bill as needed and as requested by Senators.

At the appropriate time, I will move the committee substitute be adopted and be treated as original text for the purposes of further amendment.

Before yielding to my distinguished friend and colleague from West Virginia, Senator BYRD, the ranking minority member of the committee, I share with the Senate an interesting e-mail that was sent to one of my staff members by one of the helicopter pilots who was aboard the USS *Abraham Lincoln*, which steamed into the Indian Ocean immediately upon hearing about the devastating earthquakes and the tsunami tidal waves in that region of the world. They were one of our largest ships in the general region. They immediately got underway from their port when they heard the news and could tell how serious this situation was and steamed to the region.

This friend wrote an e-mail to my detailee from the Department of Defense who is a CDR Brian Glackin. At this time he has gone back to active duty for his full-time job in the Navy. He gets this e-mail, which he gave me a copy of, which I will read portions of so we can appreciate the response of the United States, as quickly as it was made, to this devastating situation.

Stationed aboard the Abraham Lincoln we were inport Hong Kong on the morning of 26 Dec when we heard of the massive earthquake and devastating Tsunamis in the Bay of Bengal. As soon as we were aware of the horrible destruction we departed Hong Kong and headed South at best speed . . .

Then he described what happened when they arrived.

I was in the first wave of helos sent ashore to establish a logistical hub and move supplies from Banda Acch airport—only a few miles from the destroyed north coast of the island.

He describes the bodies in the water, the houses floating in the ocean, the scenes along the coast as they were flying into the airport.

We arrived at the airport to a scene of confusion and near chaos. Six days after the disaster and there was no infrastructure in place to assist these people. About 500 displaced Indonesians who had survived had made their way to the airport in search of a flight out of the area.

. . . there was only one other American military member at the airport—an Army Major who had made his way up from the Embassy in Jakarta. A few Australians were already there and had set up a logistics hub to accept supplies. The Indonesian military had a base here as well and were accepting supplies but they had no other way than trucks to travel to the destroyed areas inland to move the food and water.

Then he talks about being a fixed wing pilot. He was not able to fly helicopters, but he helped coordinate the relief efforts. He complimented the nongovernment organizations that within an hour had loaded our first relief supplies to move down the west coast. He complimented the USAID and the International Organization of Migration as being invaluable in the establishing of assistance. He said:

USAID has amazing logistical support to gather supplies from all over the world. The one thing both of these organizations lacked was the ability to distribute supplies to the people in need. That is where we came into play.

We have set up a system now to have twelve of our Helicopters flying from sunrise to sunset to assist. We have been carrying everything from biscuits, rice, noodles, milk, water and medical supplies. We transport doctors and medical staff as well. The Indonesian people are in need of everything.

Their homes along the coast have been washed away and we are finding them wandering aimlessly with no ability to acquire food, water or badly needed medical assistance. They all lack the ability to communicate as all phone lines are destroyed and there is no electricity. As our pilots drop off these supplies there are stories of the Indonesians hugging them with relief and joy.

Our pilots then fly north to return back to [the airport] for resupply and they are finding small pockets of personnel who do not have any aid. They are able to pick many of them up and fly them to [the airport]. Most are near death.

Yesterday we had a helo land with seven badly injured or dehydrated personnel all in critical condition. One was a seven year old girl. The doctors told me we saved her life as she would not have lived through the night. I couldn't help but think of my beautiful daughters and it was then that I realized the gravity of what we really were doing.

He said:

I see on the news [now] the incredible outpouring of support from the US—it is a wonderful and necessary thing. The effort here at sea is equally as impressive. These young sailors are all extremely eager to get ashore and do whatever is needed despite the threat of disease and the obvious destruction.

He pointed out earlier that no sailors were asked to do anything who did not volunteer to do it. The commanding officer asked if sailors would like to participate and go ashore, and there were huge numbers who did.

My squadron alone has already put numerous sailors ashore to assist with the loading and moving of the helos. I have never been so proud to be a member of the US military. We often are focused on keeping the peace and deterring evil acts. To now be able to have a direct impact in saving lives and attempt to rebuild a society is a testament to the United States' amazing resolve and capabilities.

I thank you all for your efforts and your support. Please continue to keep the Indonesians in your thoughts and prayers. As of today this country alone is approaching 100,000 deaths from this disaster—we need to do all that is possible to mitigate any further suffering or loss of life.

Signed: CDR T.R. Williams, Executive Officer, deployed aboard the USS *Abraham Lincoln*.

Mr. President, I ask unanimous consent that the entire e-mail that I read from be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

From: Glackin, Brian CDR AAUSN–PTGN (FM&C) [mailto:brian.glackin@navy.mil]
Sent: Thursday, January 13, 2005 7:08 AM
To: Cochran, Thad (Cochran)
Subject: FW: Tsunami update from the Lincoln

SENATOR, Below is a letter from a fellow naval aviator and good friend explaining his role in the Tsunami relief efforts. I think you will find it interesting.

Very Respectfully,

BRIAN.

Hello family and friends,

I just spent 3 days ashore at Banda Aceh working to assist all of those in dire need in Indonesia.

Stationed aboard the Abraham Lincoln we were inport Hong Kong on the morning of 26 Dec. when we heard of the massive earthquake and devastating Tsunamis in the Bay of Bengal. As soon as we were aware of the horrible destruction we departed Hong Kong and headed South at best speed—without any official request from governments. As we proceeded, we were completely unaware of what we could do or even if we would be needed, but we continued through the Strait of Malacca enroute to Indonesia and Thailand. Our mission was quickly defined and we were tasked to assist Indonesia as best as able. To do so we requested volunteers aboard the ship to assist. The response as you can imagine was overwhelming as all sailors want to do is help any way possible. We also knew that this would be a job for the SH–60 Helicopters we have aboard. We have currently shut down the flying for all carrier fixed wing aircraft (that's me) as there was no mission or request. For the first time in my 17 year Naval career, I have seen us stop flying tactical fixed wing aircraft—the primary purpose of an aircraft carrier—completely as all of our focus is on this disaster.

We arrived off the north shore of Indonesia on the morning of January 1st. I was in the first wave of helos sent ashore to establish a logistical hub and move supplies from Banda Aceh airport—only a few miles from the destroyed north coast of the island. Not knowing what to expect as we lifted off the deck, we were quickly given a glimpse as we could see numerous corpses floating in the water. There were large clusters of debris that looked like one time houses floating in piles scattered all over the ocean. As we approached the decimated shore we saw a cargo ship that was at least 300 feet long capsized on the beach. Proceeding further inland we were amazed that the coastal town was gone, You could see outlines of where foundations once were, but as the earthquake shook them loose, the Tsunamis washed everything out to sea. As we continued inland, the devastation was evident more than 2 miles from the coast. We then approached very green and lush mountains—a sharp contrast to the leveled brown terrain of the decimated coast. We climbed in the helos over these 2,000 foot peaks and entered an area of surreal, beautiful countryside.

We arrived at the airport to a scene of confusion and near chaos. Six days after the disaster and there was no infrastructure in place to assist these people. About 500 displaced Indonesians who had survived had made their way to the airport in search of a flight out of the area southeast to the safe havens of Medan or Jakarta where there is little or no damage.

Upon arrival, there was only one other American military member at the airport—an Army Major who had made his way up from the Embassy in Jakarta. A few Australians were already there and had set up a basic logistics hub to accept supplies. The Indonesian military had a base here as well and were accepting supplies but had no way other than trucks which could not travel on the destroyed roads to move the food and water.

Being a Prowler pilot with no helicopter flying abilities, I was sent in to be the Carrier Air Wing Two liaison to move supplies! Realizing there was no one to liaise with, myself and my squadron mate, Lt. Ken ''Jub'' Velez became the primary coordinators to make this relief effort happen. Arriving at 0900, we were able to coordinate with the Indonesians and the NGO's (Non-Government Organizations), and within an hour have our first load of relief supplies moving down the west coast. The two primary NGO's USAID and IOM (International Organization of Migration) have been invaluable in the establishing of assistance. They have a small medical tent with trained doctors capable of triaging and stabilizing patients.

US AID has amazing logistical support to gather supplies from all over the world. The one thing both of these organizations lacked was the ability to distribute supplies to the people in need. That is were we came into play.

We have set up a system now to have twelve of our Helicopters flying from sunrise to sunset to assist. We have been carrying everything from biscuits, rice, noodles, milk, water and medical supplies. We transport doctors and medical staff as well. The Indonesian people are in need of everything. Their homes along the coast have been washed away and we are finding them wondering aimlessly with no ability to acquire food, water or badly needed medical assistance. They all lack the ability to communicate as all phone lines are destroyed and there is no electricity. As our pilots drop off these supplies there are stories of the Indonesians hugging them with relief and joy. Our pilots then fly north to return back to Banda Aceh for resupply and they are finding small pockets of personnel who do not have any aid. They are able to pick many of them up and fly them to Banda Aceh. Most are near death. Yesterday we had a helo land with seven badly injured or dehydrated personnel all in critical condition. One was a 7 year old little girl. The doctors told me we saved her life as she would not have lived through the night. I couldn't help but think of my beautiful daughters and it was then that I realized the gravity of what we really were doing.

We will continue this effort as long as we are needed. It is difficult to imagine shifting back to fixed wing flight ops and leaving the area any time soon as the work to be done is almost insurmountable. We have been working hard with the hordes of press who badly need to tell this story. I enlisted the support of my squadron mate, LCDR Dave ''Smack'' Edgarton to specifically deal with the media. With every flight of two that we send down the coast, we embark a two man journalist team, as well as member of the IOM to coordinate with any injured or displaced persons who need our help. Yesterday we hosted Dan Rather and his CBS crew for a 60 minutes evening magazine special he was doing that should air sometime this week in the states. I had breakfast with Mr. Rather aboard the carrier as we discussed the days' events and what he would like to see. He and his staff's graciousness and professionalism impressed me. We have flown Mike Chinoy from CNN and correspondents from all the major U.S. and international networks and newspapers. If something is coming from Banda Aceh, the U.S. Navy has helped them get their story.

I must say a few words about the volunteer effort here—it is truly an effort of amazement. I see on the news the incredible outpouring of support from the U.S.—it is a wonderful and necessary thing. The effort here at sea is equally as impressive. These young sailors are all extremely eager to get ashore and do whatever is needed despite the threat of disease and the obvious destruction. My squadron alone has already put numerous sailors ashore to assist with the loading and moving of the helos. I have never been so proud to be a member of the U.S. military. We often are focused on keeping the peace and deterring evil acts. To now be able to have a direct impact in saving lives

and attempt to rebuild a society is a testament to the United States' amazing resolve and capabilities. I thank you all for your efforts and your support.

Please continue to keep the Indonesians in your thoughts and prayers. As of today this country alone is approaching 100,000 deaths from this disaster—we need to do all that is possible to mitigate any further suffering or loss of life.

My best to all,

CDR T.R. WILLIAMS,
Executive Officer, VAQ–131.

Mr. COCHRAN. This bill before the Senate contains funds that help replenish the accounts that were depleted by our agencies that were actively involved in the tsunami relief. We are asking in the bill for the Senate to approve about $1 billion for related activities that were involved in that operation. The military, of course, incurred costs, too, and we hope this bill will help make up the difference in their accounts so they will continue to be able to protect our security interests around the world.

Mr. President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from West Virginia.

Mr. BYRD. Mr. President, this is the first appropriations bill brought to the floor under the chairmanship of my good friend, the senior Senator from the great State of Mississippi, THAD COCHRAN. He has scrubbed the numbers so that, as he has pointed out, the bill is under both the President's request and the House of Representatives allowance. I commend Senator COCHRAN for his efforts. This was not easy. He has been fairminded. He has been evenhanded in the processing of this bill.

I will say a few words about our former chairman, the very distinguished Senator from the State of Alaska, TED STEVENS. Because of the committee chair term limits imposed under the Republican Caucus, TED STEVENS has taken over the reins of the Senate Commerce Committee. He will do a good job there.

He is always up to the deed, up to the moment. He carries his responsibilities manfully, nobly, and he never forgets the Constitution of the United States, the fact that this Government is under that Constitution, that the separation of powers is a part of that Constitution, that the Senate is equal to the House of Representatives, and they make up the Congress of the United States, and that the Congress is equal to each of the other branches, the executive branch and the judicial branch.

But Senator STEVENS, although he has left the chairmanship, and had to leave by virtue of the Republican Caucus rules, still serves on the Appropriations Committee. He chairs the Subcommittee on Defense. He very ably chairs that subcommittee. He has had a lot of experience. He knows what he is doing, and he has a mind that is like a tar bucket. Everything that hits it sticks to it. He will continue to be a power. He has served and he continues to serve the people of Alaska with honor and dignity as their Senator.

Both of these men, the former chairman and the current chairman, are true gentlemen to the depths of their hearts in their relations with their colleagues. We know they are fair, and we are grateful for that.

Senator COCHRAN has worked hard to produce this fiscal year 2005 emergency supplemental appropriations bill. As he explained, it totals $80,581,832,000. That is $1,460,796,000 below the President's budget request and $785,046,000 below the House-passed bill. The supplemental bill that is before the Senate includes over $74.4 billion for the Department of Defense.

I must say that our men and women in uniform are indeed among the finest of our country's citizens. I heard the chairman read the letter from a man who was instrumental in helping the people who had been disadvantaged by the recent tsunami. This man was on a helicopter. He helped move that fixed-wing aircraft into the various parts of one of the islands or more than one perhaps.

I was there 50 years ago. I had to sleep in the mosquito cages, and I looked at a huge tarantula crawling around and listened to lizards over in the windows rustling about in the room in which I was to sleep. Well, this is terribly hot. Gee whiz, when I went there you had to lie down. You did not have enough energy to walk around. You slept in mosquito cages.

Well, think of what this man who wrote the letter was going through on the helicopter. He was on a mission of mercy—mercy—thank God. I salute him for that letter. What a graphic story of what was going on, and the service our men and women were performing. I salute them for their valor. I thank them for their service.

But we owe our troops more than mere gratitude for a job well done. We owe our troops the confidence of a clearly defined military mission, one that has measurable goals and benchmarks and, more importantly, one that has an identifiable endpoint. In short, we owe our troops—our men and women, our magnificent troops—in Iraq not only the resources with which to fight the war but also a strategy to end that war. I was never in favor of it in the beginning, but that is a matter of record and history.

Unfortunately, the President's supplemental budget request fails to deliver what our troops need most. The President is asking the Congress to continue to shovel out money into United States military operations in Iraq with no further clarity as to what goals the military is expected to achieve, no hint—not even a hint—of a possible timetable, and no end to the occupation in sight.

The recent elections in Iraq gave the United States a unique window of opportunity to change course in order to lower the profile of the American military presence and to open the door to greater international cooperation. But the administration, despite all of its conciliatory gestures to our European allies, has effectively squandered that opportunity.

The very size of this supplemental request sends a clear message that the United States is not winding down its military operations in Iraq. Instead, the United States appears to be gearing up either to accommodate a permanent military presence in Iraq or to establish a launching pad for other military operations in the region. Oh, how long—how long—is this going to continue in this fashion? Either way, we are sending the wrong signals to the people of Iraq, to its neighbors in the region, and to the larger international community.

Instead of taking this opportunity to temper anti-American sentiment among disaffected Iraqis and their neighbors, the administration has turned up the heat, and now the Iraqis are saying: Get out. Leave us alone. Come back some other day, but let us alone. Let us alone. Those protests are mounting. The administration has turned up the heat with the construction of new military facilities in Iraq and the construction of the most costly Embassy in the world in Iraq, a country of only 25 million inhabitants.

You taxpayers out there who are watching this debate through those magnificent lenses, it is your money, your sons, your daughters.

I am troubled by many aspects of this request. I want to support our troops. I fully intend to support our troops. I would not think of doing otherwise. They are there. They have been there too long. Few of them asked to go there, but they are there. They are the empty chairs at the table on Thanksgiving, on Christmas, on holy days—empty chairs.

I am not willing to give the executive branch carte blanche to run roughshod over the Congress and to pursue policies never debated fully on this floor.

The request sent to the Congress by this administration contained ''ambiguous flexibilities'' to spend money on unspecified activities with little or no involvement of the Members of Congress. I am grateful that Chairman COCHRAN has responded to my entreaties to limit these extraordinary authorities. I suggest the committee bill still goes too far.

The President also requested, and the bill still includes, ambitious policy initiatives, including the construction of a permanent maximum security prison at Guantanamo, Cuba, and a host of seemingly enduring military facilities in Iraq. Why? The courts have yet to determine what the legal status is of detainees from the war on terrorism or whether the United States can continue to hold them indefinitely without

charging them with any specific crime. Yet this bill includes $36 million to build a permanent prison facility at Guantanamo Bay. I went there years ago. These are policy decisions, not simply pocketbook issues. Decisions to build permanent facilities should not be made via an emergency supplemental appropriations bill.

In fact, the White House has turned on its head the definition of an emergency supplemental appropriation. In his budget, the President calls on Congress to deploy a stricter standard for what constitutes emergency spending, spending that is thus excluded from constraints on spending. He urges the Congress to only approve emergency spending for activities that are ''necessary expenditures, sudden, urgent, unforeseen, and not permanent.'' Yet the President has asked the Congress to approve funding for the most expensive U.S. Embassy in the world. And he hasn't done it in a regular bill; he has done it in an emergency war supplemental. This Embassy would be larger than the U.S. Embassy in Russia, larger than the U.S. Embassy in China, larger than the U.S. Embassy in Saudi Arabia, and 10 times the size of most U.S. Embassies. Funds to staff that Embassy, which will not be needed until fiscal year 2006, are also requested in this emergency bill. As noted earlier, to build a permanent prison at Guantanamo Bay is also requested.

A supplemental bill is being used to tunnel deeper and deeper and deeper into Iraq with no definitive exit strategy in sight and no light on the horizon. This request encompasses serious and far-reaching policy questions, and we are having it shoved down our throats.

Moreover, on July 17, 2003, the Senate voted 81 to 15 for my amendment expressing the sense of the Senate that the President should request funds for the wars in Iraq and Afghanistan—they are two different wars—in the regular budget, rather than through emergency supplemental appropriations bills.

On June 24, 2004, I offered the same sense-of-the-Senate amendment which was approved by an even wider margin in the Senate by a vote of 89 to 9. Both sides joined in. Republicans and Democrats joined in that vote. It was 89 to 9. These are strong, emphatic, definitive votes. This provision was included in both the fiscal year 2004 and fiscal year 2005 Defense Appropriations Acts. I didn't put those words in those acts alone. It was with the support of Republicans and Democrats on both sides of the aisle. So much for the views of the Senate.

Instead, the White House chose to seek an $81.9 billion emergency supplemental for fiscal year 2005 and requested nothing for the war for fiscal year 2006. This is not truth in budgeting. This is not leveling with the American people about their money. This is not truth in budgeting. This is hocus-pocus. Now you see it; now you don't. It is not there.

Tactics such as this hide the real cost of the wars. I say it to you people out there who are watching through those lenses, watching the most deliberative body, upper body in the world today—and I hope it remains that way; I hope the nuclear option is pushed aside—tactics like this, putting these requests into emergency supplementals, hiding the real costs of the wars. The American people don't see those costs. That is wrong. That is not being fair with the American people. That is not being honest with the American people. That is not being straightforward with the American people. That is not laying it on the line with the people who are going to pay the cost.

By seeking $81.9 billion as an emergency supplemental, rather than in his budget, the President avoids a debate about priorities and how the war should be paid for. By seeking an $81.9 billion emergency supplemental for the war, by asking for that much money in an emergency supplemental for the war in Iraq, the President avoids any discussion of the tradeoffs that are inherent in a decision to spend another $81.9 billion on defense and foreign aid.

If the President's emergency request for 2005 is approved, the Congress will have approved over $210 billion just for the war in Iraq. How much is $210 billion? That is $210 for every minute since Jesus Christ was born 2,000 years ago. How much is it? That is $210 for every minute that has passed since Jesus Christ was born 2,000 years ago.

While the budget deficit grows to record levels, the President tells us we have to cut domestic programs by $192 billion over the next 5 years. The President tells us we have to charge veterans—those brave men and women—for their medical care, and we have to cut grants for firefighters and first responders, that we cannot adequately fund the No Child Left Behind Act, and that we should cut funding for the National Institutes of Health.

For fiscal year 2006, the President fails to request any funding for the two wars in Iraq and Afghanistan. I will say that again. For fiscal year 2006, the President fails to request any funding for the wars in Iraq and Afghanistan. The President pretends that he cannot project what the war will cost in 2006. Well, I assure the American people the costs will not be zero. The President will not tell the American people what the war in Iraq will cost. No, he will not tell the American people what the war will cost in Iraq. It is your money, I say to the people of this country. Republicans, Democrats, Independents, whatever you will, it is your money.

Nor will the President give the American people a plan for getting out of Iraq. How long are the American people going to suffer under the weight of this colossal burden? The President continues to insist on borrowing the money to fund the war in Iraq 1 year at a time through emergency supplemental appropriations requests. So far, the Department of Defense has received appropriations of $16 billion, $14 billion, $7 billion, $10 billion, $63 billion, $65 billion, and $25 billion for the costs of the wars in Afghanistan and Iraq—all emergency spending, one piece at a time, and all of it, adding to our horrendous debt. What a shame. What a colossal shame.

In his budget for fiscal year 2006, the President's only plan to help pay for his tax cuts and his war in Iraq is to slash that small portion of the budget that pays for priorities at home. In order to hide the consequences of his proposed cuts in domestic programs—cuts of $192 billion over 5 years—the President's budget excludes the details that are traditionally included in the budget. However, based on data the Office of Management and Budget has provided to the Congress on the levels of funding in each of the next 5 years, the Center on Budget and Policy Priorities has studied the impact of the proposed cuts.

Adjusted for inflation for 2010, when the President's proposed reductions would reach their full dimensions, education funding for kindergarten through the 12th grade would be cut by $4.6 billion or 12 percent. Grants to States and localities would be cut by nearly $22 billion in 2010. The number of low-income women, infants, and young children receiving assistance through the WIC supplemental nutrition program would be cut, cut, cut by $670,000. The number of children in low-income working families who receive childcare assistance would be cut, cut, cut by $300,000. The number of low-income families, elderly people, and people with disabilities who receive rental assistance through the provision of rental vouchers that help them to afford modest apartments would be cut, cut, cut by $370,000. Environmental protection would be reduced by 23 percent, including EPA programs that support State and local efforts to ensure clean drinking water, reduce air pollution, and upgrade sewage treatment facilities which would be sliced 28 percent.

I call on the President—Mr. President, I say this to the President in the White House—to send Congress a budget amendment this week that includes his estimates for the real costs of the wars in Iraq and Afghanistan. There are tradeoffs we are making to fund these efforts to the tune of about $1 billion a week. There needs to be a debate about that. The issue becomes crystal clear when these war costs are shown as part of the regular budget process. As we consider the budget for fiscal

year 2006, Congress should understand the full cost of the wars.

I want to say that again. I shall say it again. As we consider the budget for fiscal year 2006, Congress should understand and the American people should understand the full costs of the wars, and especially the war in Iraq, so that we, the Members of Congress, can make reasoned spending choices so that we can inform our constituents about how we plan to pay for those choices.

Again, I thank my chairman. I thank the staff, the magnificent staff of the Appropriations Committee, the staff who worked hard to help our chairman and to help me and to help the members of our Appropriations Committee in our efforts to bring this full bill to the floor.

The majority staff is led by Keith Kennedy. There is a man, Keith Kennedy. He knows what he is doing. He knows this bill up and down and sideways. Keith Kennedy. I am gratified that the chair has chosen him, and I am also thankful to the chair that he has chosen a man like Mr. KENNEDY.

I am also thankful for the minority staff, led by Terry Sauvain, that man from Notre Dame, and a deputy named Chuck Kieffer. He has worked on both the legislative and executive sides. He knows the appropriations process inside, outside, from the executive branch viewpoint and from the legislative side. I thank all of the members of the appropriations staff on both sides of the aisle. I thank the Chair, and I thank all Senators. Again, I thank my illustrious chairman.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Mississippi is recognized.

Mr. COCHRAN. Mr. President, I ask unanimous consent that the committee-reported substitute be agreed to and be considered as original text for the purpose of further amendments and that no points of order be waived by virtue of this agreement.

The ACTING PRESIDENT pro tempore. Is there objection?

Mr. BYRD. Mr. President, that request is supported on this side of the aisle 100 percent.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The committee amendment in the nature of a substitute was agreed to.

Mr. COCHRAN. Mr. President, I compliment and thank most sincerely my friend from West Virginia, the distinguished senior Democratic member of the Appropriations Committee, for his support during the committee markup in terms of the procedures for the consideration of the House-passed bill. We substituted a complete text in the committee markup for the House bill and proceeded to consider amendments to that text. We made some changes in that House bill, as is reflected by the total amount we are recommending be appropriated in the bill by the Senate.

We bring the bill in below the level of funds requested by the President for this bill, and it is below the level approved by the House of Representatives. We hope Senators will consider their ideas for changes or improvements in the bill. We are not attempting to rush the Senate to completion of action on this bill, but we do want to move ahead with dispatch so we can get the funds that are provided in this bill to the agencies where they are needed, to the Department of Defense and the Department of State for depleted accounts.

The challenges we face in Iraq and Afghanistan have been costly, as we all recognize, but we need to move forward to a successful conclusion of those operations so that troops can be returned home as soon as possible, so that stability can be restored in that and other regions of the world, and so that the economy of those countries can be free flowing once again.

In that connection, I was heartened to receive a call from the Secretary of Agriculture last week advising me that the interim government in Iraq had decided to purchase 60,000 tons of rice from the United States. This is an indication, it seems to me, that their economy is beginning to move forward, that the Iraqi Government and the people of Iraq are moving toward the day when they will be able to stand on their own two feet, that they will be able to take care of themselves from a security standpoint and in every other way be a functioning entity in that region for stability and economic progress. That is the goal; that is the purpose of the sacrifices we are making today—to make this world safer for all people.

I compliment the President and the leadership of his Cabinet—particularly Secretary Rumsfeld and Secretary Rice—as they carry out the missions of the Departments of Defense and State at this very difficult time. Now is not the time for the Senate to start eroding the confidence we have in the challenges we face and the way we are proceeding to meet those challenges. I believe we are making good progress, and we ought to compliment the administration for the work they have done in this very difficult period in our Nation's history.

I urge the Senate to approve this substitute.

The ACTING PRESIDENT pro tempore. The Senator from Alaska is recognized.

Mr. STEVENS. Mr. President, I am pleased to come to the floor to support the defense portion of the emergency supplemental appropriations bill before us. I thank Senator COCHRAN and Senator BYRD for their support of the funding requested by the Pentagon to continue the efforts of our Nation in Iraq and Afghanistan and the global war on terrorism.

The bill has been highlighted by the chairman and Senator BYRD. It provides $73.3 billion in new discretionary spending authority for the Department of Defense programs. Most of those funds are to continue the operations in Iraq and Afghanistan, but we also have authorized use of that to pay back those accounts from which funds were borrowed during the first half of the current fiscal year on an emergency basis for continued operations in those areas.

Mr. President, $17.5 billion of this money will go toward military appropriations accounts. Those moneys are used to fund pay allowances and subsistence and other personnel costs for active Guard and Reserve troops activated for duty throughout the world.

This bill also includes funding for special pay, such as imminent danger pay, family separation allowances, and hardship duty pay.

We also provide additional funds for the Servicemembers' Group Life Insurance Program and for an enhanced death gratuity. Specifically, this bill increases service members' insurance coverage from $250,000 to $400,000 and raises the death gratuity from $12,000 to $100,000. This has been requested, and Congress has authorized to fund these enhanced benefits to cover those military personnel who have been or may be killed in combat operations.

We recommend an increase in the death gratuity benefit to cover those service members killed in training or in other combat-related activities. Almost half of the defense portion of this bill goes toward the operation and maintenance accounts of the Department of Defense—$37.4 billion. Now, this reflects the cost of ground operations, flying hours, logistics support, fuel, travel, transportation, and support of the global war on terrorism.

Additionally, it will finance the repair and refurbishment of equipment used in Iraq and Afghanistan to ensure that our forces remain ready to meet global operational commitments.

The bill provides $15.9 billion for procurement activity across the military. It funds force protection equipment, replacement and repair of equipment lost in operations, and the equipping of units to support upcoming rotations. Senior Department of Defense officials informed our committee that they need to receive this supplemental funding by early May in order not to impact readiness levels.

We all know it will take some time to take this bill through conference, so I urge the Senate to complete action on the supplemental bill as soon as possible so that we can proceed to confer with our friends in the House and give this bill to the President for signature so it can be reviewed by the processes downtown, which takes at least 10 days, and get this money to the Department in time to meet these contingencies so they don't have to borrow

additional moneys from other accounts. It complicates the operation when that continues.

I hope Senators will come forward with their amendments, if they have any, on this portion of the supplemental bill.

Again, I commend our distinguished chairman and senior ranking member, Senator COCHRAN and Senator BYRD, for their cooperation with us in bringing this portion of this bill before the Senate. We are a little bit lower than the House, and the bill is lower than the President's request. I think as matters continue we are going to have to review the numbers and make sure we meet the pressing, urgent needs of those who wear the uniform of the United States.

Again, I urge Senators to come forward and make suggestions for amendments, if they have them. I look forward to continued support of this bill.

The ACTING PRESIDENT pro tempore. The Senator from Hawaii is recognized.

Mr. INOUYE. Mr. President, the bill before us, as noted by the Senator from Alaska, includes $74.4 billion. Of that amount, $73.3 billion is under the jurisdiction of the Subcommittee on Defense.

The vast majority of this funding, approximately $42.5 billion, is recommended to cover the costs of operations in Iraq and Afghanistan. With 150,000 military personnel in Iraq and another 18,000 in Afghanistan, the funding included in this bill is essential to support our forces.

The bill also includes $12 billion to repair and replace equipment damaged in the operations abroad. This funding will allow the military departments to reequip our forces who are returning from combat. Without these funds, our military would not be equipped to meet future crises.

The bill provides $5.3 billion for new equipment for our Army and Marine forces as they restructure their forces to create additional combat capability. While some may question whether these funds qualify as emergencies, it should be clear that our military forces will need these funds as they begin restructuring transformation.

Finally, the remaining funds are provided to support those nations which are taking part in the operations abroad, including training and equipping the Afghanis and Iraqis, and to support related efforts for recruiting, morale welfare, recreation, and other military personnel needs.

I support this bill, and I urge all of my colleagues to join me in supporting this measure. I thank the Chair.

Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SCHUMER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

EXECUTIVE SESSION

NOMINATION OF PAUL A. CROTTY TO BE UNITED STATES DISTRICT JUDGE FOR THE SOUTHERN DISTRICT OF NEW YORK

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will now go into executive session for the consideration of Executive Calendar No. 38, which the clerk will report.

The assistant legislative clerk read the nomination of Paul A. Crotty, of New York, to be United States District Judge for the Southern District of New York.

The ACTING PRESIDENT pro tempore. Under the previous order, there will be 30 minutes of debate equally divided between the chairman and ranking member of the Committee on the Judiciary or their designees.

The Senator from New York.

Mr. SCHUMER. Mr. President, I rise to speak in favor of an extremely fine gentleman, Paul Crotty, to be confirmed to the Southern District of the New York bench. Paul Crotty is a fine man, an outstanding lawyer, and he will make a terrific judge. Paul Crotty is an impressive nominee who has long enjoyed strong bipartisan support for a judgeship in New York. I am glad that at long last his nomination has finally been brought to the floor for a vote after languishing since last November.

First, I would like to talk a little bit about Paul Crotty. He has the support of not only myself and Senator CLINTON, he has the support of a broad range of New Yorkers, in fact. I personally would like to thank two who worked religiously on behalf of Paul Crotty's nomination, two former mayors of New York City, one a Democrat and one a Republican. They are Mayor Ed Koch and Mayor Rudy Giuliani.

Both had worked with Paul Crotty when they were mayor, and both speak extremely highly of him. In fact, I would like to read from the letter, for instance, that Mayor Giuliani sent:

> Paul Crotty is one of the finest men I know. He possesses all the qualities of an excellent judge—wisdom, compassion, toughness, curiosity, common sense, unwavering integrity, and an abiding love of the law. . . . Many possess knowledge of the law or knowledge of government. Paul Crotty is the rare individual who possesses mastery of both. He has set and achieved the highest standards at every stage of his career. Our Nation will be fortunate to have him join the Federal bench.

I don't have Mayor Koch's letter, but it was Mayor Koch who suggested to me the idea that Paul Crotty be nominated to the bench. I knew Paul in many different walks of life and thought it was a great idea and was happy to not only support his nomination but to work hard to see that it would pass.

Let me tell you a little bit about Paul Crotty. He has had a long and distinguished career in both the public and private sectors of the New York legal community. He graduated from Cornell Law School in 1967. He clerked 2 years for U.S. District Court Judge Lloyd MacMahon of the Southern District, the court to which he is now nominated. He served in city government as Mayor Koch's commissioner of finance and commissioner of housing. He was a partner in the very prestigious New York law firm of Donovan Leisure Newton Irvin.

He went on to serve Mayor Giuliani as New York City's corporation counsel and the head of the city's law department, perhaps the single most difficult legal job in municipal government anywhere in America.

Mr. President, Paul Crotty is an incredible choice. I have known him for a long time. He is smart, compassionate, decent. He has the two qualities I look for in a judge: a fine and deep intellect and a practical sense. Sometimes I worry that judges without practical experience impose things on Government or on society that cannot work, even though they might sound fine when you see it in writing and in black and white.

Paul's extensive and practical experience, as well as his legal experience, makes him a perfect candidate for a judge in the district court in the Southern District of New York, one of the most important courts in the country.

I want to make one other point. In New York, Paul Crotty's nomination is not the exception, it is the rule. We have worked extremely well together—the White House, the Justice Department, and the Senator from New York—to bring judges to the floor. There have been no vacancies that have been outstanding for a long period of time in either the Second Circuit, which I know my good friend and colleague, the ranking member, Senator LEAHY, is part of as well, nor have there been in the four district courts of New York in the East, Northwest, and South.

I think we have worked together well on this Crotty nomination. In general, we have worked well together in New York. The White House and Senate, including Democrats in the Senate, can work well together to bring fine men and women to the bench.

The candidates who have been nominated in the Second Circuit and in the courts of New York—I don't agree with them on everything at all, but they are fine people. They are qualified people,

and I would say none of them are at the extremes—either far right or far left. They are not the kind of ideologues who seek to make law. They are, rather, the kind of people the Founding Fathers wanted to see on the bench, people who would interpret the law.

Judges have awesome power, and judges on the Federal level have a lifetime appointment. You combine those two and you know you need people who don't think they know better than the public, that they know better than the Congress, that they know better than others. They interpret law; they don't make law. Paul Crotty exemplifies this. I am proud to support his nomination. I hope he will get unanimous support on the floor of the Senate. I know he will make an outstanding judge.

I congratulate Paul Crotty for his great career, and his wife, his children, and the entire Crotty family, who are well known in New York for their public service from one end of the State in Buffalo, where the family originally came from, to the other end in New York City.

I yield the floor to our ranking member, Senator LEAHY.

Mr. LEAHY. Mr. President, I ask unanimous consent that the Senator from New York, Mrs. CLINTON, be recognized, but that I retain the last 5 minutes of the time before the vote.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The Senator from New York, Mrs. CLINTON, is recognized.

Mrs. CLINTON. Mr. President, I thank my colleague and our ranking member of the Judiciary Committee. I, too, am enthusiastic about this nominee. This is a supremely qualified judicial nominee, and he will serve with great distinction in the Southern District in New York. He does hail from a family and tradition of public service, and his hometown of Buffalo is particularly pleased this vote is about to occur.

Mr. President, he has distinguished himself in both the public and the private sectors. He served for years as a practicing attorney in New York City. He has served as a counsel for a major corporation, and he has always served his community. After the attack of September 11, Paul Crotty signed on to serve on the Lower Manhattan Development Board to help Lower Manhattan recover from those devastating attacks. He has been active in organizations, such as the New York Urban League, City Bar Fund, and the Tri-State United Way. He worked very closely with Mayor Ed Koch, first as commissioner of financial services, and then as commissioner of housing preservation and development.

He later served as corporation counsel to Mayor Giuliani, during which he advised the mayor on a wide variety of issues. So, without question, Paul Crotty has the intellect, demeanor, and commitment to justice to serve the people of New York and America with distinction.

I, also, congratulate the entire Crotty family: Paul's wife Jane, his children John, Elizabeth, and David, his daughter-in-law Katherine, and his brothers Bob and Jerry, because this is a family accomplishment. The Crotty family, which extends far beyond the names I have mentioned—there are too many to enumerate—is a very close-knit family. I know how much pride they take in this nomination. Paul's father, Peter J. Crotty, who passed away in 1992, was a great political leader in New York. He instilled in his children that sense of tradition.

Finally, I want to acknowledge Paul's mother Margaret who is 92 years old and still lives in Buffalo. She has been and remains a tremendous influence in Paul Crotty's life and that of the entire Crotty family.

With this nomination today, Mr. President, the Senate will have confirmed 205 of the judicial nominations sent to the Senate by the President. I am very pleased we were all able to come together across the aisle to unanimously, I hope, support someone who is so well qualified for this lifetime appointment. Again, I thank my friend and colleague from Vermont, and I yield back my time.

The ACTING PRESIDENT pro tempore. The Senator from Vermont is recognized.

Mr. LEAHY. Mr. President, I am pleased to see the Senate finally be able to vote on the nomination of Paul Crotty to be a U.S. District Court Judge for the Southern District of New York. The seat to which Mr. Crotty has been nominated has been unnecessarily vacant for months, and Democrats have been asked for months now, since last year, for this nominee to be considered, debated, voted on and confirmed.

As I have noted in earlier statements in the Judiciary Committee, among this President's renominations there are two noncontroversial judicial nominations on which we should have been able to make immediate progress. I have often spoken of the President's nomination of Mr. Crotty to the District Court for the Southern District of New York and the nomination of Michael Seabright to the District Court of Hawaii. All Democrats on the Judiciary Committee have been prepared to vote favorably on these nominations for some time. We were prepared to report them last year, but they were not listed by the then-chairman on the committee agenda. I thank Chairman SPECTER for including them at our meeting on March 17.

Last week I noted that both these consensus nominations were continuing to languish without action on the Senate calendar and that the Senate Republican leadership was refusing to work with us to schedule them for action. I thank the Senate Republican leadership for being willing to turn to the Crotty nomination this evening. I hope that they will not make Mr. Seabright, the people of Hawaii and the Hawaii District Court wait much longer before we are allowed to consider, debate and confirm Michael Seabright, as well.

Once confirmed, Mr. Crotty will be the 205th of 215 nominees brought before the full Senate for a vote to be confirmed. That means that 829 of the 875 authorized judgeships in the Federal judiciary, or 95 percent, will be filled. As late as it is in the year, we are still ahead of the pace the Republican majority set in 1999, when President Clinton was in the White House. That year, the Senate Republican leadership did not allow the Senate to consider the first judicial nominee until April 15.

Of the 46 judicial vacancies now existing, President Bush has not even sent nominees for 28 of those vacancies; more than half. I have been encouraging the Bush administration to work with Senators to identify qualified and consensus judicial nominees and do so, again, today.

It is now the second week in April, we are more than one-quarter through the year, and so far the President has sent only one new nominee for a Federal court vacancy all year—only one. Instead of sending back divisive nominees, would it not be better for the country, the courts, the American people, the Senate and the administration if the White House would work with us to identify, and for the President to nominate, more consensus nominees like Paul Crotty who can be confirmed quickly with strong, bipartisan votes?

I commend the Senators from New York for their ability and efforts in connection with Mr. Crotty's nomination. Their support is very helpful and indicative of the type of bipartisan efforts Senate Democrats have made with this President and remain willing to make. We can work together to fill judicial vacancies with qualified, consensus nominees. The vast majority of the more than 200 judges confirmed during the last 3½ years were confirmed with bipartisan support. The truth is that in President Bush's first term, the 204 judges confirmed were more than were confirmed in either of President Clinton's two terms, more than during the term of this President's father, and more than in Ronald Reagan's first term when he was being assisted by a Republican majority in the Senate. By last December, we had reduced judicial vacancies from the 110 vacancies I inherited in the summer of 2001 to the lowest level, lowest rate and lowest number in decades, since Ronald Reagan was in office.

There should be no misunderstanding; Mr. Crotty has strong Republican ties. He worked as Corporation Counsel for then-Mayor Rudolph Giuliani, and served in New York City government in a variety of posts over the years. After the terrorist attack on September 11, 2001, Mr. Crotty played a major role in coordinating Verizon's work in restoring telephone service to the New York Stock Exchange, Federal, State and local agencies and large business customers. He continues to play a significant role in Verizon's revitalization of its telephone network in Lower Manhattan. In 2002, Mr. Crotty led Verizon's efforts in a complex administrative proceeding to gain the New York Public Service Commission's authorization to rebalance retail revenues in light of the increasing competition in New York's communication market.

Mr. Crotty has also given generously of his time and currently serves on the Boards of the Lower Manhattan Development Corporation, Tri-State United Way, where he is also the Corporate Secretary, Polytechnic University, Council of Governing Boards, St. Vincent's Hospital-Manhattan, New York State Business Development Corporation, Regional Plan Association, and the New York Urban League. He has served on the Executive Committee of the Association of the Bar of the City of New York since 2001. In addition, Mr. Crotty serves on the Advisory Boards of the New York Law School and the C.U.N.Y. Irish Studies program.

Senate Democrats have long supported and requested action on this nomination. We will be delighted that the New York Senators will be able to call Mr. Crotty tonight and tell him that after 5 months of unnecessary delay the Senate finally did consider his nomination and granted consent overwhelmingly. I add my congratulations to Mr. Crotty and his family.

I have been urging this President and Senate Republicans for years to work with all Senators and engage in genuine, bipartisan consultation. That process leads to the nomination, confirmation, and appointment of consensus nominees with reputations for fairness. The Crotty nomination, the bipartisan support of his home State Senators and the Senate's act of granting its consent tonight with a strong bipartisan vote is a perfect example of what I have been urging.

I have noted that there are currently 28 judicial vacancies for which the President has delayed sending a nominee. In fact, he has sent the Senate only one new judicial nominee all year. I wish he would work with all Senators to fill those remaining vacancies rather than through his inaction and unnecessarily confrontational approach manufacture longstanding vacancies. It is as if the President and his most partisan supporters want to create a crisis. Last week we heard some extremists call for mass impeachments of judges, court-stripping and punishing judges by reducing court budgets. Rather than promote crisis and confrontation, I urge that this President do what most others have and work with us to identify outstanding consensus nominees. It ill serves the country, the courts, and most importantly the American people for this administration and the Senate Republican leadership to continue down the road to conflict. The Crotty nomination shows how unnecessary that conflict really is. Let us join together to debate and confirm these consensus nominees to these important lifetime posts on the Federal judiciary.

It is the Federal judiciary that is called upon to rein in the political branches when their actions contravene the constitutional limits on governmental authority and restrict individual rights. It is the Federal judiciary that has stood up to the overreaching of this administration in the aftermath of the September 11 attacks. It is more and more the Federal judiciary that is being called upon to protect Americans' rights and liberties, our environment and to uphold the rule of law as the political branches under the control of one party have overreached. Federal judges should protect the rights of all Americans, not be selected to advance a partisan or personal agenda. Once the judiciary is filled with partisans beholden to the administration and willing to reinterpret the Constitution in line with the administration's demands, who will be left to protect American values and the rights of the American people? The Constitution establishes the Senate as a check and a balance on the choices of a powerful President who might seek to make the Federal judiciary an extension of his administration or a wholly-owned subsidiary of any political party.

Today, Republicans are threatening to take away one of the few remaining checks on the power of the executive branch by their use of what has become known as the nuclear option. This assault on our tradition of checks and balances and on the protection of minority rights in the Senate and in our democracy should be abandoned.

Eliminating the filibuster by the nuclear option would destroy the Constitution's design of the Senate as an effective check on the executive. The elimination of the filibuster would reduce any incentive for a President to consult with home State Senators or seek the advice of the Senate on lifetime appointments to the Federal judiciary. It is a leap not only toward one-party rule but to an unchecked executive.

Rather than blowing up the Senate, let us honor the constitutional design of our system of checks and balances and work together to fill judicial vacancies with consensus nominees. The nuclear option is unnecessary. What is needed is a return to consultation and for the White House to recognize and respect the role of the Senate appointments process.

The American people have begun to see this threatened partisan power grab for what it is and to realize that the threat and the potential harm are aimed at our democracy, at an independent and strong Federal judiciary and, ultimately, at their rights and freedoms. Tonight's confirmation is a civics lesson that shows that the Republican's threatened use of the nuclear option is unnecessary and unwise.

Mr. President, I see the chairman of the committee on the floor. While I had the remainder of the time reserved, I will yield it to him, if that is possible—we are still going to vote at 5:30—if the chairman wishes. I yield the remainder of my time to the chairman.

The ACTING PRESIDENT pro tempore. The minority's time has expired. There were 15 minutes to each side. The Senator from Pennsylvania does have 15 minutes.

Mr. SPECTER. Mr. President, I thank the distinguished ranking member for his cooperation in moving the nomination of Paul A. Crotty to the U.S. District Court for the Southern District of New York.

By way of a very brief reply, I came in in the middle of the comments by the Senator from Vermont because he and I just attended a very lengthy meeting on the asbestos issue. We are working very hard and cooperatively on many matters on the Judiciary Committee. Asbestos is very high on the list. Just a brief comment there.

There are thousands of victims of mesothelioma who are dying and not being compensated because their companies have gone into bankruptcy. Some 74 companies have gone into bankruptcy, an enormous drain on the economy. I think it is fair to say that we just had a positive meeting with a number of Democrats and with Members of my side of the aisle. We are making progress.

I could not be here at the start of the argument because of the commitment there. I came in to hear the Senator from Vermont comment about the President, and I believe the President has made comments which are supportive of the Federal judiciary, as has the majority leader, Senator FRIST, made comments supportive of the Federal judiciary.

The Schaivo case raised the emotional level very high in the United States—really, beyond—for people who were on both sides of the issue. The rhetoric, I am pleased to see, has cooled, at least to some extent, but I believe that the Federal judiciary acquitted themselves in accordance with their authority under separation of power, and there has been respect for

the judicial role expressed by both the President of the United States and the majority leader of the Senate. That is enough said on that subject. I had not intended to get into it to any extent, but having heard those comments, I believe it is appropriate to respond.

Paul Crotty has a very distinguished academic record. He has a law degree from Cornell Law School, where he was a member of the Order of the Coif. He then clerked for Judge Lloyd MacMahon in the Southern District of New York. He has 35 years of legal experience. He is with the very prestigious New York firm of Donovan Leisure Newton & Irvine. He has had a notable career in public service, having served as a New York City commissioner in two mayoral administrations, first for Ed Koch and later for Rudolf Giuliani. So he worked on both sides of the aisle, Democratic and Republican.

He is currently the group president for New York and Connecticut of Verizon Communications. The American Bar Association gave him the highest rating of ''well qualified.'' He has the support of both New York Senators, and he has an excellent record.

I see the Senator from New York just arrived. He has already spoken. I do not have to make an act of generosity and give him 2 minutes, which will bring us to 5:30.

Mr. President, how much time remains?

The ACTING PRESIDENT pro tempore. The Senator has 10 minutes remaining.

Mr. SPECTER. I intend to conclude at 5:30 so we can start the vote because there are two votes. I know people are anxious to have the votes start. I do not think there is any question about Mr. Crotty being confirmed. He is an able candidate.

It is my hope that we will be able to move other nominees to the Senate floor for confirmation. The committee has reported out the nomination of William Myers, and it is my hope we will get an up-or-down vote on Mr. Myers. There is significant opposition, which I understand.

We are moving to conclude the consideration of Mr. Griffith, and then we have other nominees behind him.

I yield back the remainder of my time, and I ask for the yeas and nays on this nomination.

The ACTING PRESIDENT pro tempore. Is there a sufficient second?

There appears to be a sufficient second.

The question is, Will the Senate advise and consent to the nomination of Paul A. Crotty, of New York, to be United States District Judge for the Southern District of New York?

The clerk will call the roll.

The assistant journal clerk called the roll.

Mr. MCCONNELL. The following Senators are necessarily absent: the Senator from Wyoming (Mr. ENZI) and the Senator from Alaska (Ms. MURKOWSKI).

Mr. DURBIN. I announce that the Senator from North Dakota (Mr. DORGAN), the Senator from Iowa (Mr. HARKIN), and the Senator from New Jersey (Mr. LAUTENBERG) are necessarily absent.

The ACTING PRESIDENT pro tempore. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 95, nays 0, as follows:

[Rollcall Vote No. 87 Ex.]

YEAS—95

Akaka	DeWine	McCain
Alexander	Dodd	McConnell
Allard	Dole	Mikulski
Allen	Domenici	Murray
Baucus	Durbin	Nelson (FL)
Bayh	Ensign	Nelson (NE)
Bennett	Feingold	Obama
Biden	Feinstein	Pryor

Crapo	Lott	Warner
Dayton	Lugar	Wyden
DeMint	Martinez	

NOT VOTING—5

Dorgan	Harkin	Murkowski
Enzi	Lautenberg	

The nomination was confirmed.

The ACTING PRESIDENT pro tempore. The President will be immediately notified of the Senate's action.

Mr. DORGAN. Mr. President, I would like the RECORD to reflect that I was necessarily absent for the vote on the nomination of Paul Crotty to be United States District Judge for the Southern District of New York. Had I been present, I would have voted in support of the nomination.

LEGISLATIVE SESSION

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will return to legislative session.

AIRBUS LAUNCH AID

The ACTING PRESIDENT pro tempore. Under the previous order, the clerk will report S. Con. Res. 25 by title.

The legislative clerk read as follows:

A concurrent resolution (S. Con. Res. 25) expressing the sense of Congress regarding the application of Airbus for launch aid.

Mr. FRIST. Mr. President, I ask for the yeas and nays.

The ACTING PRESIDENT pro tempore. Is there a sufficient second? There is a sufficient second.

The question is on agreeing to the concurrent resolution. The clerk will call the roll.

The legislative clerk called the roll.

Mr. MCCONNELL. The following Senators are necessarily absent: the Senator from Wyoming (Mr. ENZI) and the Senator from Alaska (Ms. MURKOWSKI).

Mr. DURBIN. I announce that the Senator from Iowa (Mr. HARKIN) and the Senator from New Jersey (Mr. LAUTENBERG) are necessarily absent.

The PRESIDING OFFICER (Mr. CORNYN). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 96, nays 0, as follows:

[Rollcall Vote No. 88 Leg.]

NOT VOTING—4

Enzi	Lautenberg
Harkin	Murkowski

The concurrent resolution (S. Con. Res. 25) was agreed to, as follows:

S. CON. RES. 25

Whereas Airbus is currently the leading manufacturer of large civil aircraft, with a full fleet of aircraft and more than 50 percent global market share;

Whereas Airbus has received approximately $30,000,000,000 in market distorting subsidies from European governments, including launch aid, infrastructure support, debt forgiveness, equity infusions, and research and development funding;

Whereas these subsidies, in particular launch aid, have lowered Airbus' development costs and shifted the risk of aircraft development to European governments, and thereby enabled Airbus to develop aircraft at an accelerated pace and sell these aircraft at prices and on terms that would otherwise be unsustainable;

Whereas the benefit of these subsidies to Airbus is enormous, including, at a minimum, the avoidance of $35,000,000,000 in debt as a result of launch aid's noncommercial interest rate;

Whereas over the past 5 years, Airbus has gained 20 points of world market share and 45 points of market share in the United States, all at the expense of Boeing, its only competitor;

Whereas this dramatic shift in market share has had a tremendous impact, resulting in the loss of over 60,000 high-paying United States aerospace jobs;

Whereas on October 6, 2004, the United States Trade Representative filed a complaint at the World Trade Organization on the basis that all of the subsidies that the European Union and its Member States have provided to Airbus violate World Trade Organization rules;

Whereas on January 11, 2005, the European Union agreed to freeze the provision of launch aid and other government support and negotiate with a view to reaching a comprehensive, bilateral agreement covering all government supports in the large civil aircraft sector;

Whereas the Bush administration has shown strong leadership and dedication to bring about a fair resolution during the negotiations;

Whereas Airbus received $6,200,000,000 in government subsidies to build the A380;

Whereas Airbus has now committed to develop and produce yet another new model, the A350, even before the A380 is out of the development phase;

Whereas Airbus has stated that it does not need launch aid to build the A350, but has nevertheless applied for and European governments are prepared to provide $1,700,000,000 in new launch aid; and

Whereas European governments are apparently determined to target the United States aerospace sector and Boeing's position in the large civil aircraft market by providing Airbus with continuing support to lower its costs and reduce its risk: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That—

(1) European governments should reject Airbus' pending application for launch aid for the A350 and any future applications for launch aid;

(2) the European Union, acting for itself and on behalf of its Member States, should renew its commitment to the terms agreed to on January 11, 2005;

(3) the United States Trade Representative should request the formation of a World Trade Organization dispute resolution panel at the earliest possible opportunity if there is no immediate agreement to eliminate launch aid for the A350 and all future models and no concrete progress toward a comprehensive bilateral agreement covering all government supports in the large aircraft sector; and

(4) the President should take any additional action the President considers appropriate to protect the interests of the United States in fair competition in the large commercial aircraft market.

AIRBUS SUBSIDIES

Mr. FRIST. Mr. President, I am pleased that the Senate voted this afternoon in support of the resolution I submitted along with the Democratic leader, Senator REID, and the chairman and ranking member of the Senate Finance Committee expressing the Senate's concern about various subsidies provided by European governments to Airbus. This resolution sends a strong signal that the Senate supports the President's leadership and commitment to leveling the playing field in the large civil aircraft market.

As many of my colleagues know, the administration has been working hard to resolve this issue through the World Trade Organization, WTO. Last October, the United States filed a complaint at the WTO alleging that the subsidies provided to Airbus were in violation of WTO rules. This January, the European Union agreed to freeze launch aid payments and other support to Airbus while attempting to negotiate a comprehensive agreement on government support to the civil aircraft sector.

Unfortunately, despite the heroic efforts by former U.S. Trade Representative and current Deputy Secretary of State Robert Zoellick, the negotiations begun in January have broken down. Nevertheless, I want to commend him in particular for his involvement in these talks and his commitment to achieving a fair resolution of this issue. Since January, there has been little discernible progress in addressing the launch aid issue, which directly affects Boeing, Airbus's main competitor in the civil aircraft market.

The Senate, in passing this resolution today, is stating very clearly that EU subsidies to Airbus must end and that launch aid must be rejected in order to avoid WTO action by the U.S. I am encouraged by the comments of EU Trade Commissioner Mandelson in favor of extending the negotiation period that expires today to give both sides more time to reach a fair deal. However, additional discussions will only be productive if Commissioner Mandelson recommits to the framework agreed to 90 days ago. If the EU continues to flout the January agreement, WTO action may be unavoidable.

In addition, in my view, if the EU were to provide any new launch aid support for the A350, the U.S. would have no choice but to immediately request a WTO panel. This would be the largest trade dispute in the history of the WTO. I hope we do not have to go that route. It would be much better if both sides would come back to the table and restart substantive negotiations with the goal of reaching a bilateral agreement. American companies can compete with anyone in the world, but not on an uneven playing field. Airbus is a mature, profitable company that should compete on commercial terms without government subsidies. This resolution today says that we believe the playing field must be leveled for all competitors in the commercial aircraft market.

FOURTH ''RESOLVED'' CLAUSE

Mr. LOTT. Mr. President, I would ask the majority leader, who sponsored this concurrent resolution, to clarify his intended meaning of the fourth ''Resolved'' clause on page four of the resolution. I am specifically interested in the intention of the use of the terms ''any additional action'' and ''large commercial aircraft market.'' I ask because the aerospace industry is an integrated and global industry. In most every instance, aerospace companies are vertically integrated to some degree and they are engaged in many other related activities. In many instances, they are component manufacturers, as well as platform manufacturers. Would it be correct to understand that the majority leader does not intend that this clause target these other business activities that are not directly associated with the marketing and sale of large fixed-wing aircraft to commercial carriers in the passenger transportation market?

Mr. FRIST. Mr. President, I thank the Senator for his question. The phrases ''any additional action'' and ''large commercial aircraft market'' are solely intended to address those activities associated with business activities regarding the marketing and sale of large fixed-wing aircraft to commercial carriers in the passenger transportation market. They are not intended to address business activities of any specific company at the secondary or tertiary supplier level. Nor are they intended to address other business activities of any specific company engaged in other platform-related activities.

Mr. LOTT. Mr. President, I thank the majority leader for his response. Additionally, I understand that it is not the purpose of this resolution, and more specifically of the fourth ''Resolved'' clause, to suggest punitive action be taken against any company's activities related to products sold to U.S. Government agencies, such as the Department of Defense, Department of Homeland Security, or the U.S. Coast Guard, whether those products are radars, components of radars, or helicopters. Is this understanding correct?

Mr. FRIST. Mr. President, I agree with the understanding of the Senator from Mississippi.

Mr. LOTT. Mr. President, I thank the majority leader for his clarification of the resolution and its intent. I would encourage all of my colleagues to consider with care the possibility of unintended consequences. The complexity of this industry is such that my State and almost every State has numerous business and economic interests that could be negatively impacted if we are not careful about how we respond to a legitimate concern.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. INHOFE. Mr. President, I would like to be recognized for two unanimous consent requests.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. INHOFE. Mr. President, on behalf of the leader, I ask unanimous consent that there now be a period of morning business with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. INHOFE. Mr. President, I ask unanimous consent that the two Senators from Washington, Senators CANTWELL and MURRAY, be recognized now to speak for up to 30 minutes and that I be recognized to speak for up to 30 minutes at the conclusion of their remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Washington.

AIRBUS

Ms. CANTWELL. Mr. President, I thank the Senator from Oklahoma for yielding to my colleague, Senator MURRAY, and me. We are going to speak about the resolution that the Senate passed, and passed with large support from my colleagues on both sides of the aisle, which we are very happy to see. The issue of a level playing field for a competitive aerospace market is something that is critically important to the American people and to the workforce of America. I thank our leaders, Senators FRIST and REID, and Senator BAUCUS for bringing this resolution to the Senate floor today and for moving this through the process so that we can send a message from the Senate about how important we think it is to have a competitive aerospace market.

My colleague has been following this issue for years and is going to lay out some of the issues that we in the United States have been trying to elevate to the point of awareness so we can establish a competitive marketplace. The bottom line is, negotiations that were begun in January of this year between the United States and the European Union to discuss how to battle the competitive aerospace market today that doesn't unfairly have government backing and subsidization of major aerospace manufacturers, those negotiations have broken down. Now we are at a point where the issues to be resolved, specifically launch aid and the financing of the production of a new A350 plane by the European Union, are something it is important to address quickly.

The reason I say that is because we know when you have the financial backing of a government juxtaposed to the financial backing of the private sector, in the United States, when Boeing builds a plane, it goes out and finances that with the backing of the capital markets, of Wall Street, of the private banking institutions, and they have to prove that plane is a success. They don't get any forgiveness on the loan. They don't get any special rate. They don't get any discounts if the plane is not a success. When they go to the capital markets, they have to prove the success of the marketplace.

I can tell you now that success is happening with the 787 plane, the newest product that Boeing launched a year ago and is out there in the marketplace selling today. But they are competing against a plane that is being or has the potential to be financed by the European Union. So if you think about the A350 getting launch aid, or potentially getting launch aid from the European Union, it doesn't matter whether the plane is a success. It doesn't matter how many planes are sold. They have a special arrangement so that in the backing of the financing of that plane, the European Union becomes the deep pocket.

What does that mean to consumers who are buying these planes and what does it mean to the workforce? It means simply this: The Americans have a disadvantage when selling Boeing planes around the globe because they have to meet the competitive markets of private financing while the Europeans—it doesn't matter whether their plane is a success—get the backing of the European Union. The whole global economy is based on a fair and competitive marketplace in which we are going to drive down costs to consumers—the airlines, in this particular case—and we are going to let the best airplane win in the marketplace because they have designed a product that the workforce, the consumers, the aviation industry wants to see.

We don't want government making those decisions. We want the private sector making the decisions. That is why I am so glad the administration has taken an aggressive approach on this issue and has pushed for the discussions that are now ending. The administration, through the USTR office in the White House, has said if the European Union continues to use new launch aid subsidies for the A350 plane, then, yes, we are going to go to the World Trade Organization and file a complaint. That is an appropriate action by this administration.

What would be better is if the Europeans would sit down at the table and come back to this discussion that should have been part of the 1992 discussion on how to have a competitive aerospace industry. But that didn't happen. So now in January of this year, the two sides, the European Union and the United States, sat down at a table and said they were going to negotiate in good faith. Part of that negotiation was to have the parties at the table make no new government support agreements during the time of the negotiations. Yet that is exactly what Airbus is now coming in to talk about—subsidies and launch aid for the A350.

It is important that this body send the message it sent today, that we are going to be behind the administration, behind USTR, behind the White House in making sure a fair and competitive aerospace market takes place, that we are not going to sit by and see one manufacturer make a great product that has basically taken off in the marketplace, getting sales, getting people to buy the plane because they built it the old-fashioned way. They had an idea. They had the right feature set. They had the right product. They had the right design and customers are buying that. Yet they may have to compete against somebody who has the deep financial backing of a government that doesn't care whether it is the right feature set or the right product.

So we in the United States care greatly about the competitiveness of this marketplace. We have lots of jobs in aerospace, and we certainly, in Washington State, have benefited from that and so have many of my other colleagues in the Senate because there are probably aerospace manufacturing jobs all over the country.

But the point is that we have to have a competitive marketplace, not just in aerospace but in other areas. The sooner we get back to the table and address the issue of how unfair launch aid is as a concept, the sooner we can get to a competitive marketplace. And the sooner we can get a fair and competitive marketplace, the sooner the consumers will win and the United States will continue to have a level playing field in which our workforce, which is producing a great product that is winning in the marketplace, will continue to win based on the success of their results and not be basically disadvantaged because of an unlevel playing field.

So I am glad to be here with my colleagues on both sides of the aisle to speak enthusiastically about the resolution we just passed. I hope it will be noticed by the European Union that we are united—Democrats and Republicans—in getting this issue addressed and that a competitive aerospace market that is driven by private investment backing is the best way to go for us, not just as a nation but for true global competition.

I yield the floor.

The PRESIDING OFFICER. The Senator from Washington, Mrs. MURRAY, is recognized.

Mrs. MURRAY. Mr. President, I rise this evening, as well, to join my colleague in support of the fair aerospace competition resolution that passed this body 96 to 0.

Thousands of American aerospace workers have lost their jobs in the past decade. That trend is going to continue unless we take action.

This evening I especially thank leaders on both sides of the aisle—Senator FRIST and Senator REID—for their help

and support of this measure. Senators GRASSLEY and BAUCUS of the Finance Committee have been of great help. And, as always, I am proud to serve with Senator MARIA CANTWELL, my colleague from Washington State and another strong advocate for America's aerospace workers.

Our country invented the aerospace industry 100 years ago. Through it, American workers have done more than feed their families and pay for mortgages; they have made air travel safer and brought economic growth and innovation to every corner of our economy.

Many in this body have heard me talk for years about Europe's efforts to distort the commercial aerospace industry. In short, Airbus has done everything it can to kill our aerospace industry. Airbus has received billions in illegal launch aid. Airbus has tried to play tricks on this side of the ocean with their slick PR campaign. And Airbus will continue the unfair tactics until they completely dominate the global aerospace market.

While Airbus is doing all of these things to hurt American workers, it is actually trying to get us to think they are a friend to the very men and women they are putting out of work.

Unfortunately, EADS, Airbus, and European governments will do and say anything to dominate the global aerospace market. I am here today to call their bluff and show this body, once again, that Airbus is no friend of the United States or our workers and to ensure that their doubletalk is exposed for all to see.

I have worked closely with several U.S. Trade Representatives on this issue over the years. For the past several months, the United States has tried to negotiate with the Europeans, but it is very clear that the Europeans do not take our concerns seriously. Those discussions appear to have broken down, and the Europeans are threatening a radical escalation if we pursue our right to file a WTO case.

You would think after all Airbus has done to kill American jobs, they would at least make a good-faith effort now that we are finally calling them to account for their behavior. But the Airbus and European leaders have done just the opposite. They have pounded their chest about how their latest subsidized plane will dominate the industry.

Instead of coming clean—or at least stopping their trade-distorting behavior—Airbus has sought to influence public opinion. They have pursued a deceptive public relations campaign. They have taken out ads in the Capitol Hill publications and major newspapers around the country, just like the one behind me.

Airbus claims to be a good friend of American workers, but it is selling to America's sworn enemies. Airbus claims to support hundreds of thousands of American jobs, but they cannot document them. Airbus claims it wants to be a more American company, but then it turns and preaches European domination when they think we are not looking.

We need to stand up for this unfair competition and send a strong signal to the Europeans that this Congress and this country will not allow a European-subsidized company to destroy America's aerospace industry.

They can talk out of both sides of their mouth all they want, but I am here to lay the facts on the table and to stand up for our workers.

Mr. President, I applaud the Bush administration, and specifically Ambassador Robert Zoellick, for the work they are doing to end unfair trade practices in the aerospace industry. This administration entered into negotiations in good faith. They wanted to restore balance and fairness to the commercial aircraft trade.

Unfortunately, Europe has never taken these talks or this issue seriously. Our willingness to seek a negotiated settlement has been greeted by more arrogant entitlement from Airbus and its European backers. While publicly committing to negotiations, Airbus and European leaders have been working behind the scenes to continue subsidies to Airbus in spite of U.S. threats to file a WTO case.

Now European Commission Ambassador John Bruton is saying, '' . . . one result of a case would be that maximum aid would be given'' for Airbus's new A350.

Today, this campaign is more directly than ever in Congress's line of sight. I hope to clearly show Airbus is not an American company and Airbus is simply continuing its policy of saying and doing anything to get what it wants.

A week ago last Friday, European Union Trade Commissioner Peter Mandelson wrote an eye-popping piece in the Washington Post. He, once again, restated baseless accusations against Boeing in an effort to justify billions of dollars in illegal Airbus launch aid.

The issue Mandelson correctly identifies as central to American concerns is the massive subsidies in the form of launch aid, landing rights, and other giveaways that European governments give to Airbus. Now the Europeans would like you to think that we offer similar subsidies to Boeing, but the facts simply don't line up. I don't need to talk at great length about the subsidies tonight, but I think it is worthwhile to make you all understand what those subsidies actually do.

European governments give Airbus huge direct subsidies to build new airplanes. These subsidies take the form of launch aid, supplier subsidies, R&D subsidies, and facilities subsidies. These subsidies create an uneven playing field and allow Airbus to do what normal, private companies cannot afford to do. They develop new products without any risk.

One American company is playing by traditional business norms—borrowing money at commercial rates, being responsible to shareholders, and knowing if they don't make a profit, they are in trouble. That is why Boeing ''bets the company'' when they develop a new plane. Airbus enjoys virtually a risk-free product development, and it operates far outside of the bounds of fair competition. All of this comes at the expense of U.S. companies and American workers.

What does that mean in real terms? Let's take the new superjumbo Airbus A380 as an example. According to a January 20 article in the Financial Post, titled ''The Airbus 380,'' A380 subsidies are officially at $4.3 billion. Other estimates put it at over $6 billion.

The same day, the independent newspaper said:

> To break even on its own investment, Airbus needs to sell 250 of the A380. To repay the four governments it needs to shift to 700. To count as a real commercial success, Airbus needs to sell twice that number. So far, it has firm orders for 149.

It is no wonder that last summer respected industrial analyst Richard Aboulafia of the Teal Group called the plane a ''bloated airborne welfare queen.''

No other company in the world would be able to handle such huge cost overruns. But Airbus can because if the plane fails, they will simply write off the costs and move on to the next one.

To make matters worse, they have been making outlandish claims in this country for years. First, they claim Airbus has created and supports 120,000 jobs in this country. The Commerce Department can only document 500. Airbus says it subcontracts with as many as 800 firms in the United States, though they have moved that number up and down over the years. The Commerce Department can only come up with 250.

This last week, our Commerce Department released an exhaustive study done at the request of this Congress on the U.S. jet transport industry. That 150-page report once again comes to the same conclusion we have heard time and time again. Airbus is not an American company, and Airbus does almost nothing to support the hundreds of thousands of American workers who depend on this important industry.

Airbus and EADS are not helping America's aerospace industry; they are destroying it. In 15 years, 700,000 American workers have lost their jobs while Europe keeps adding new workers to the EADS and Airbus payroll. That is simply unacceptable.

Looking at their claims in American press alone, Airbus appears to be a

pseudo-American company looking to create more jobs and helping to grow our economy. That is not the real story. Take a look at what Airbus proprietors say in Europe when they think we are not looking. A few months ago, with a lot of pomp and circumstance, the latest European Airbus product, the A380, was unveiled with four heads of state. Their comments show Europe's true intentions.

From the Spanish Prime Minister, Jose Luis Rodriquez Zapetero:

The European Union has built the plane that is the standard bearer for European and global aeronautics.

He went on to boast:

What we see here today is Europe cannot be stopped.

He is saying that Europe, not a company, cannot be stopped.

From the French President, Jacques Chirac:

It is a technological feat and a great European success. When it takes to the skies, it will carry the colors of our continent, and our technological ambitions to even greater heights.

From the British Prime Minister, Tony Blair:

It is European cooperation at its best. Airbus demonstrates that we can achieve more together in Europe than we ever can alone.

Finally, the German Chancellor, when asked about subsidies to Airbus, said:

We have done that in the past, we are doing it now, and we will do so in the future.

This does not sound like a company bent on doing anything for American workers, but, again, that is what Airbus and its supporters are saying and doing to get what they want.

Unfortunately, the examples only continue. I do not have to look any further than the NBC Nightly News to find another shocking attack on American values and workers. For years, Airbus told us they will do anything to get a deal, and apparently they will sell to anyone. Not long ago, NBC News uncovered direct evidence of Airbus efforts to sell military aircraft to a country focused on destabilizing and undermining American interests in the Middle East, a country that is currently in the pursuit of nuclear weapons, a country to which no real American company would dare sell weapons.

NBC News was able to get a camera crew into an airshow in Kish, Iran, and they found EADS pitching their military helicopters to Iran.

I ask unanimous consent that the full transcript of the NBC story be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

EUROPEAN FIRMS DISPLAY WARES IN IRAN

[By Lisa Myers & the NBC Investigative Unit]

KISH, IRAN.—As President Bush pressures European allies to get tougher with Iran, NBC News got a rare glimpse inside the country—at an Iranian air show attended by some of the world's leading military contractors eager to do business with America's adversary.

On the island of Kish, mullahs mixed with Ukrainian generals amid photos of the Ayatollah Khomeini. Iran's contempt for the United States was clear—emblazoned underneath a helicopter, in Farsi: ''Death to America.''

It's generally illegal for American companies to do business with Iran. But NBC News found more than a dozen European defense and aviation firms eager to fill the void. Some do business with the Pentagon, yet they were actively selling their wares to Iran.

''We sell to Iran [sic] Air Force,'' said Francois Leloup from Aerazur, a French company that markets fighter pilot vests, anti-gravity suits and other protective gear for military pilots.

''We sell mainly to security people like police,'' said Arnaud Chevalier with Auxiliaire Technique, which was representing a group of companies at its exhibition booth. Some of the brochures on dispay showed tank helmets, communication systems for light armored vehicles and an ''infantry headset.'' Chevalier said such equipment was ''not for sale.''

NBC News showed our video from the air show to arms expert John Pike, director of the nonprofit organization GlobalSecurity.org.

''I think that the Europeans would sell their grandmothers to the Iranians if they thought they could make a buck,'' says Pike.

Also exhibiting at the show—European Aeronautic Defence and Space Company (EADS) and its subsidiary Eurocopter—which has launched a campaign in the United States to get a bigger share of Pentagon contracts, featuring ads that wrap the company in the American flag.

But if the company is so pro-American, why is it ignoring U.S. policy to isolate Iran?

''As a European company, we're not supposed to take into account embargoes from the U.S.,'' says Michel Tripier, with EADS.

''The emphasis here is on our civil helicopters. We are not offering military helicopters here,'' he adds.

Yet, prominent on the company's video in Iran—a military helicopter.

''It says 'Navy' in their own promotional videotape,'' says John Pike. ''I guess they're hoping Iran's navy is going to want to buy it.''

EADS says the helicopter just happened to be on the video, and that it abides by U.S. and European rules against selling military goods to Iran.

Another company, Finmeccanica, recently won a contract to build a new version of the presidential helicopter, Marine One, as part of a group led by U.S. contractor Lockheed Martin.

It was also in Kish showing off its helicopters to Iran.

''This company is building the American president's new helicopter, and they're trying to trade with the enemy!'' exclaims Pike.

Steven Bryen used to be the Pentagon official responsible for preventing technology from going to countries like Iran. Now he's the president of Finmeccanica in the United States. Does he think Iran is an enemy of the United States? .

''I think they're our enemy at this point,'' says Bryen. ''I mean, they're behaving like our enemy.''

So why would Bryen's company trade with an enemy?

''In Europe, they don't call it the enemy,'' he says. ''If it's a civilian item that doesn't threaten anyone, then I don't have a problem with that.''

European subsidiaries of NBC's parent company, General Electric, have sold energy and power equipment to Iran, but GE recently announced it will make no new sales. (MSNBC is a Microsoft-NBC joint venture.)

Still, even with the president now pushing hard to isolate Tehran, European allies are likely to continue their role as what one company called, ''a reliable partner for Iran.''

Mrs. MURRAY. I will read just a bit from that piece:

Also exhibiting at the show, European Aeronautic Defence and Space Company, EADS, and its subsidiary Eurocopter, which has launched a campaign in the United States to get a bigger share of Pentagon contracts, featuring ads that wrap the company in American flag.

But if the company is so pro-American, why is it ignoring U.S. policy to isolate Iran.

As a European company, we are not supposed to take into account embargoes from the U.S., says Michael Tripler, with EADS.

Michael Tripler, from EADS, once again, saying and doing anything anywhere to advance the European interests of a European company. Airbus and EADS clearly sing one tune in newspapers in the United States, another at media events in France, and quite a different one while selling their products in Iran.

Taken together, the goal is clear: EADS and Airbus do not intend to stop until they have gobbled up the entire aerospace market.

So what is next for Airbus? Any question of their intentions was answered as we tried to work out an amicable solution to the dispute this past January. On a day that could have been a turning point in the process, Airbus CEO Noel Forgeard said he would seek new launch aid from European nations for the Airbus A350.

While in one breath Airbus says it does not need launch aid to build the A350, they have nevertheless applied for, and European governments are prepared to provide, $1.7 billion in new launch aid.

To once again paraphrase German Chancellor Schroeder: They have done that in the past, they are doing it now, and they will do so in the future.

But again, no need to take my word alone on the illegality of the launch aid or their central role in the ongoing dispute. The Financial Times, a European newspaper, called the plan to subsidize the A350 and Forgeard's announcement unwise and deeply unhelpful, and went on to say:

Launch aid, Airbus' unique subsidy, is an especially blatant violation of the principles of fair competition. The EU should let it go. State support for private companies, even those with long lead times and big development costs, becomes indefensible as they mature. Infant industries must grow up.

In a Business Week commentary from the same week, Stanley Holmes writes:

The U.S. should call the Europeans' bluff. Let the facts speak for themselves, and resolve this dispute at the WTO.

Months ago, I made the same suggestion, and although there appeared to be hope of avoiding that fate within the past few weeks, I now believe we must work through the WTO and hold our line.

With the Europeans bent on keeping their subsidies, it is time to take bold action to protect our workers and send a strong message to Europe that enough is enough. Europe has to understand that continued attempts to undermine our aerospace industry and its workers will not stand.

The need to restore a competitive balance to the aerospace industry is not going away. Thousands of American jobs have been lost in the last decade, and thousands more are at risk due to continued direct subsidies to Airbus.

I will continue to work closely with the USTR and with the Bush administration to protect American jobs and ensure the future strength of the American aerospace industry. Whether through the continuation of these negotiations or through a trade case at the WTO, a competitive balance has to be restored. We in Congress have to show the Europeans that we are serious about this action.

I thank my colleagues for supporting the resolution that was just adopted by the Senate 96 to 0. I will continue to be a voice for American workers. Again, I thank the Bush administration, Senator FRIST, and Senator REID for helping us with the resolution.

Mr. INHOFE. Will the Senator yield for a comment before yielding the floor?

Mrs. MURRAY. I would be happy to yield.

Mr. INHOFE. I have been listening intently, and I applaud the Senator for all she has done. It is reminiscent that this is not something new. Back when I was serving in the other body in the late 1980s, Congressman JIM OBERSTAR and I actually made a trip to Europe—that was before the European Union days—both to Germany and France to find out the level of subsidy they had. At that time, we were not able to find out, and we did an exhaustive search. They were denying that they did, and later on they admitted they were subsidizing. With their type of accounting, perhaps it is even worse than the figures the Senator is expressing today. So I applaud the Senator for her efforts.

Mrs. MURRAY. I thank the Senator, and I look forward to working with him to fight for our aerospace industry and to make sure companies in this country have a fair playing field.

I yield the floor.

The PRESIDING OFFICER. The Senator from Oklahoma.

CHINA'S SPREADING GLOBAL INFLUENCE

Mr. INHOFE. Mr. President, I rise for a second time in 8 days to update all of us on an issue of deepest importance. In my recent speech on China I delivered this past Monday, I detailed how China is indeed a growing threat. When the fragmented pieces of current events and policies are glued together, they form an alarming picture of the threat to our national security. I believe this threat is of the most serious order, and until we address it I will continue to draw America's attention to it.

In 2000, Congress established the U.S.-China Security Economic Review Commission to act as the bipartisan authority on how our relationship with China affects our economy, industrial base, China's military and weapons proliferation, and our influence in Asia. I fear that the Commission's findings have largely been ignored.

A major part of our economic relationship with China is the growing trade deficit. This deficit grew to $162 billion in 2004, by far the largest economic imbalance the United States has with any country. One potential key factor contributing to this imbalance is the undervaluation of the Chinese yaun. Through currency manipulation, China has been able to create an uneven economic playing field in its favor. Let's keep in mind this bipartisan commission worked on this for several years. The Commission recommends that Congress pursue legislation that will push the administration toward correcting these imbalances and for the U.S. Trade Representative and Department of Commerce to undertake an investigation of China's questionable economic practices. I think this is very sound advice. In fact, I voted last Wednesday to not table a Chinese currency manipulation amendment.

China joined the World Trade Organization in December 2001. Their transition was to be overseen by the Transitional View Mechanism—TRM. Although China has made some progress in the areas of tariffs and other WTO commitments, they have consistently frustrated the TRM's ability to assess China's WTO compliance through lack of transparency. As the Commission recommends, the Bush administration must be encouraged to take action to preserve TRM's oversight and cooperate with other trading partners to create a cooperative effort to address China's shortfalls.

Another problem area is that the Chinese Government has been listing State Owned Enterprises—SOEs—on international capital markets. These companies lack accountability standards that normally track the companies' cash flow. At least one Chinese SOE, China North Industries Corporation, has been sanctioned by the U.S. Government for proliferating illegal weapons technology. As the 2004 Commission report outlines:

Without adequate information about Chinese firms trading in international capital markets, U.S. investors may be unwittingly pouring money into black box firms lacking basic corporate governance structures, as well as enterprises involved in activities harmful to U.S. security interests.

Beyond dangerous investing, there are other security aspects to China's trade practices. The hard currency that China is gaining through its manipulative economy is buying foreign technology and modernizing their military. We used to be concerned about their nuclear capability, but now it is also conventional weaponry, as the Presiding Officer knows, since he sits on the Senate Armed Services Committee. We know China is pushing very hard to get the E.U. to remove their arms embargo. The embargo was put in place after the 1989 Tiananmen Square massacre to protest China's appalling human rights record. The E.U. claims that the embargo is no longer effective, but ignores the obvious—why lift the embargo without replacing it with a better one? Their solution, an informal ''code of conduct'', allows for no comprehensive enforcement. We can also expect E.U. technology to proliferate beyond China's borders, to countries that would gladly use it against the U.S. The E.U. does not consider this a strategic threat. In fact, President Chirac just demanded an early lifting of the embargo. However, the Commission reports:

Access to more advanced systems and integrating technologies from Europe would have a much more dramatic impact on overall Chinese capabilities today than say five or ten years ago. For fourteen years China has been unable to acquire systems from the West. Analysts believe a resumption of EU arms sales to China would dramatically enhance China's military capability. If the EU arms embargo against China is lifted, the U.S. military could be placed in a situation where it is defending itself against arms sold to the PLA by NATO allies.

Think about this: we share military technology with our European allies and then find our security threatened and possibly our servicemen killed by this same technology. All this is made possible because China is exploiting economic grey areas to come up with the money to buy all this new technology. This is a critical issue to which Congress must respond to.

Further, some experts believe that China's economic policy is a purposeful attempt to undermine the U.S. industrial base and likewise, the defense industrial base. Perhaps it is hard to believe that China's economic manipulation is such a threat to our Nation. In response, I would like to read from the book Unrestricted Warfare, written by two PLA—People's Liberation Army—senior colonels:

Military threats are already no longer the major factors affecting national security . . .

traditional factors are increasingly becoming more intertwined with grabbing resources, contending for markets, controlling capital, trade sanctions and other economic factors . . . the destruction which they do in the areas attacked are absolutely not secondary to pure military wars.

The book goes on to argue that the aggressor must ''adjust its own financial strategy'' and ''use currency revaluation'' to weaken the economic base and the military strength of the other country. This is the Chinese saying this, not some American commentator. You need to hear that in context of the U.S.-China Commission's statement:

One of Beijing's stated goals is to reduce what it considers U.S. superpower dominance in favor of a multipolar global power structure in which China attains superpower status on par with the United States.

I think the picture is clear. We must link China's trading privileges to its economic practices. As China's No. 1 importing customer, accounting for 35 percent of total Chinese exports, we have the influence. As I said last Monday, a week ago, I agree that the way we handle an emerging China must be dynamic, but it must not be weak. The Commission puts it well:

We need to use our substantial leverage to develop an architecture that will help avoid conflict, attempt to build cooperative practices and institutions, and advance both countries' long-term interests. The United States has the leverage now and perhaps for the next decade, but this may not always be the case. We also must recognize the impact of these trends directly on the domestic U.S. economy, and develop and adopt policies that ensure that our actions do not undermine our economic interests . . . the United States cannot lose sight of these important goals, and must configure its policies toward China to help make them materialize . . . If we falter in the use of our economic and political influence now to effect positive change in China, we will have squandered an historic opportunity.

The bipartisan U.S.-China Commission has been doing an outstanding job in translating how recent events affect our national security. I plan on giving two more speeches highlighting the Commission's findings, followed by a resolution to effect their conclusions. I hope America is listening.

It is so similar to what we are facing right now and what we voted on, the fact that the European Union is subsidizing a company which would undermine the aerospace industry here in the United States. At the same time, if the European Union lifts the sanctions which they have right now, they would be doing essentially the same thing to our country.

I yield the floor.

VOTE EXPLANATION

Mr. CRAPO. Mr. President, on April 6, 2005, I was unable to cast a vote on amendment No. 286 to S. 600. This was due to an unavoidable medical procedure that requires me to commute daily to Baltimore. Had I been there, I would have voted ''nay.''

ANTIBIOTICS FOR HUMAN TREATMENT ACT OF 2005

Mr. KENNEDY. Mr. President, it is a privilege to join my distinguished colleagues, in proposing The Preservation of Antibiotics for Human Treatment Act of 2005. Our goal in this important initiative is to take needed action to preserve the effectiveness of antibiotics in treating diseases.

These drugs are truly a modem medical miracle. During World War II, the newly developed ''wonder drug'' penicillin revolutionized the care for our soldiers wounded in battle. Since then, they have become indispensable in modem medicine, protecting all of us from deadly infections. They are even more valuable today, safeguarding the nation from the threat of bioterrorism. Unfortunately, over the past years, we have done too little to prevent the emergence of antibiotic-resistant strains of bacteria and other germs, and many of our most powerful drugs are no longer effective.

Partly, the resistance is the result of the overprescribing of such drugs in routine medical care. But, mounting evidence also shows at the indiscriminate use of critical drugs in animal feed is also a major factor in the development of antibiotic resistant germs.

Obviously, if animals are sick, whether as pets or livestock, they should be treated with the best veterinary medications available. That is not a problem. The problem is the widespread practice of using antibiotics to promote growth and fatten healthy livestock. This nontherapeutic use clearly undermines the effectiveness of these important drugs because it leads to greater development of antibiotic-resistant bacteria that can make infections in humans difficult or impossible to treat.

In 1998—7 years ago—a report prepared at the request of the Department of Agriculture and the Food and Drug Administration, by the National Academy of Sciences, concluded ''there is a link between the use of antibiotics in food animals, the development of bacterial resistance to these drugs, and human disease.'' The World Health Organization has specifically recommended that antibiotics used to treat humans should not be used to promote animal growth, although they could still be used to treat sick animals.

In 2001, Federal interagency task force on antibiotic resistance concluded that ''drug-resistant pathogens are a growing menace to all people, regardless of age, gender, or socio-economic background. If we do not act to address the problem . . . [d]rug choices for the treatment of common infections will become increasingly limited and expensive-and, in some cases, nonexistent.''

The Union of Concerned Scientists estimates that 70 percent of all U.S. antibiotics are used nontherapeutically in animal agriculture—eight times more than in are used in all of human medicine. This indiscriminate use clearly reduces their potency.

Major medical associations have been increasingly concerned and taken strong stands against antibiotic use in animal agriculture. In June 2001, the American Medical Association adopted a resolution opposing nontherapeutic use of antibiotics in animals. Other professional medical organizations that have taken a similar stands include the American College of Preventive Medicine, the American Public Health Association, and the Council of State and Territorial Epidemiologists. The legislation we are offering has been strongly endorsed by the American Public Health Association and numerous other groups and independent experts in the field.

Ending this detrimental practice is feasible and cost-effective. In fact, most of the developed countries in the world, except for the United States and Canada, already restrict the use of antibiotics to promote growth in raising livestock. In 1999, the European Union banned such use and money saved on drugs has been invested in improving hygiene and animal husbandry practices. Researchers in Denmark found a dramatic decline in the number of drug-resistant organisms in animals—and no significant increase in animal diseases or in consumer prices.

These results have encouraged clinicians and researchers to call for a similar ban in the United States. The title of an editorial in the New England Journal of Medicine 4 years ago said it all: ''Antimicrobial Use in Animal Feed—Time to Stop.''

On Thursday, the American Academy of Pediatrics, the American Public Health Association, Environmental Defense, the Food Animal Concerns Trust, and the Union of Concerned Scientists joined together in filing a formal petition with FDA calling for the withdrawal of certain classes of drugs from animal feed.

Earlier last week, Acting FDA Commissioner Lester Crawford emphasized his own concern that the use of such drugs in food-producing animals has an adverse health impact on humans. He stated that the FDA agrees with the GAO recommendation to review approved animal drugs that are critical to human health, and described FDA's progress in doing so. He stated, however, that the review process is extremely slow and labor intensive, and that even when safety issues are identified, the FDA can do little more than hope that the animal pharmaceutical companies will cooperate in addressing the issue.

There is no question that the Nation stands at risk of an epidemic outbreak of food poisoning caused by drug-resistant bacteria or other germs. It is time to put public safety first and stop the abuse of drugs critical to human health.

The bill we propose will phase out the nontherapeutic use in livestock of medically important antibiotics, unless manufacturers can show such use is no danger to public health. The act requires applying this same strict standard to applications for approval of new animal antibiotics. Treatment is not restricted if the animals are sick or are pets or other animals not used for food. In addition, FDA is given the authority to restrict the use of important drugs in animals, if the risk to humans is in question.

According to the National Academy of Sciences, eliminating the use of antibiotics as feed additives in agriculture would cost each American consumer not more than five to ten dollars a year. The legislation recognizes, however, economic costs to farmers in making the transition to antibiotic-free practices may be substantial. In such cases, the Act provides for federal payments to defray the cost of shifting to antibiotic-free practices, with preference for family farms.

Antibiotics are among the greatest miracles of modern medicine, yet we are destroying them faster than the pharmaceutical industry can create replacements. If doctors lose these critical remedies, the most vulnerable among us will suffer the most—children, the elderly, persons with HIV/AIDS, who are most in danger of resistant infections. I urge my colleagues to support this clearly needed legislation to protect the health of all Americans from this reckless and unjustified use of antibiotics.

Ms. SNOWE. Mr. President, today we are facing a public health crisis which most of us certainly did not anticipate. Nearly a half century ago, following the development of modern antibiotics, Nobel Laureate Sir McFarland Burnet stated, ''One can think of the middle of the twentieth century as the end of one of the most important social revolutions in history, the virtual elimination of infectious diseases as a significant factor in social life.''

How things have changed. Today some of our most deadly health threats come from infectious diseases. When we consider the greatest killers—HIV, tuberculosis, malaria—it is clear that infectious diseases have not abated. At the same time we have seen an alarming trend—increasingly physicians are stymied as existing antibiotics are becoming less effective in treating infections. We know that resistance to drugs can be developed, and that the more we expose bacteria to antibiotics, the more resistance we will see. So it is crucial that we preserve antibiotics for use in treating disease.

Most Americans appreciate this fact, and now understand that colds and flu are caused by viruses. So we know that treating a cold with an antibiotic is inappropriate, and we understand that such use of antibiotics is unwise. Over 9 out of 10 Americans now know that resistance to antibiotics is growing. Our health care providers are getting the message too. Physicians know that when a patient who has been inappropriately prescribed an antibiotic actually develops a bacterial infection, it is more likely to be resistant to treatment.

When we overuse antibiotics, we risk eliminating the very cures which scientists fought so hard to develop. The threat of bioterrorism amplifies the danger. I have supported increased NIH research funding, as well as Bioshield legislation, in order to promote development of essential drugs. Yet as we work hard to develop lifesaving medications, their misuse will render them ineffective.

Every day in America antibiotics continue to be used in huge quantities for no treatment purpose whatsoever. I am speaking of the non-therapeutic use of antibiotics in agriculture. Simply put, the practice of feeding antibiotics to healthy animals jeopardizes the effectiveness of these medicines in treating ill people and animals.

Recognizing the public health threat caused by antibiotic resistance, Congress in 2000 amended the Public Health Threats and Emergencies Act to curb antibiotic overuse in human medicine. Yet today it is estimated that 70 percent of the antimicrobials used in the United States are fed to farm animals for non-therapeutic purposes including growth promotion, poor management practices and crowded, unsanitary conditions.

In March 2003, the National Academies of Sciences stated that a decrease in antimicrobial use in human medicine alone will not solve the problem of drug resistance. Substantial efforts must be made to decrease inappropriate overuse of antibiotics in animals and agriculture.

Last week five major medical and environmental groups—the American Academy of Pediatrics, the American Public Health Association, Environmental Defense, the Food Animal Concerns Trust and the Union of Concerned Scientists—jointly filed a formal regulatory petition with the U.S. Food and Drug Administration urging the agency to withdraw approvals for seven classes of antibiotics which are used as agricultural feed additives. They pointed out what we have known for years—that antibiotics which are crucial to treating human disease should never be used except for their intended purpose—to treat disease.

In a study just reported in the New England Journal of Medicine, researchers at the Centers for Disease Control and Prevention found 17 percent of drug-resistant staph infections had no apparent links to health-care settings. Nearly one in five of these resistant infections arose in the community—not in the health care setting. While must do more to address inappropriate antibiotic use in medicine, and use in our environment cannot be ignored.

This is why I have joined with Senator KENNEDY to again introduce the ''Preservation of Antibiotics for Medical Treatment Act''. This bill phases out the non-therapeutic uses of critical medically important antibiotics in livestock and poultry production, unless their manufacturers can show that they pose no danger to public health. I am pleased that we have been joined in this effort by Senator COLLINS, Senator LANDRIEU, and Senator REED in introducing this measure.

Our legislation requires the Food and Drug Administration to withdraw the approval for nontherapeutic agricultural use of antibiotics in food-producing animals if the antibiotic is used for treating human disease, unless the application is proven harmless within two years. The same tough standard of safety will apply to new applications for approval of animal antibiotics.

This legislation places no unreasonable burden on producers. It does not restrict the use of antibiotics to treat sick animals, or for that matter to treat pets and other animals not used for food. The act authorizes Federal payments to small family farms to defray their costs, and it also establishes research and demonstration programs that reduce the use of antibiotics in raising food-producing animals. The act also requires data collection from manufacturers so that the types and amounts of antibiotics used in animals can be monitored.

As we are constantly reminded, the discovery and development of a new drug can require great time and expense. It is simply common sense that we preserve the use of the drugs which we already have, and use them appropriately. I call on my colleagues to support us in this effort.

NATIONAL CRIME VICTIMS' RIGHTS WEEK

Mr. LEAHY. Mr. President, yesterday marked the beginning of National Crime Victims' Rights Week. For a quarter of a century, we have set this week aside each year to renew our commitment to address the needs of victims and their families and to promote victims' rights.

This year's commemoration comes at a critical juncture in the history of the victims' rights movement. Much has been achieved in the past 25 years to provide victims with greater rights and assistance, but perhaps none so important as the passage of the Victims of Crime Act of 1984, VOCA, and its establishment of a dedicated source of funds

to support victims' services. The Crime Victims Fund provides critical funding that helps millions of victims of all types of crime every year. The future of the fund is in doubt, however, and 25 years of progress may be at risk due to the administration's proposal to rescind all amounts remaining in the fund at the end of fiscal year 2006—an estimated $1.267 billion. That would dry up the fund, leaving it with a balance of zero going into fiscal year 2007 to support vital victim services.

Our new Attorney General, upon his confirmation, gave a speech to discuss his priorities for the Department of Justice. He stated, ''As we battle crime, we must also defend the rights of crime victims and assist them in their recovery.'' While I agree on the importance of this goal, rescinding the Crime Victims Fund is not the way to achieve it.

The Crime Victims Fund is the Nation's premier vehicle for the support of victims' services. Nearly 90 percent of the fund is used to award State crime victim compensation and victim assistance formula grants. VOCA-funded victim assistance programs serve nearly 4 million crime victims each year, including victims of domestic violence, sexual assault, child abuse, elder abuse, and drunk driving, as well as survivors of homicide victims. VOCA-funded compensation programs have helped hundreds of thousands of victims of violent crime.

The Crime Victims Fund also serves victims of Federal crimes. VOCA funding supports victim assistance services provided by U.S. Attorneys Offices and the FBI, as well as the Federal victim notification system. It is used for child abuse prevention and treatment grants, and it is also used to provide emergency relief to victims of terrorism and mass violence.

Since fiscal year 2000, Congress has set a cap on annual fund obligations expressly for the purpose of ensuring ''that a stable level of funding will remain available for these programs in future years.'' The ''rainy day'' fund created by this spending cap has been used to make up the difference between annual deposits and distributions three times during the past six years.

When Congress began considering caps on fund obligations, I proposed and Congress enacted an amendment to the Victims of Crime Act to clarify our intent to stabilize and preserve the fund for the benefit of victims. The amendment, now codified at section 10601(c) of title 42, requires that ''. . . all sums deposited in the Fund in any fiscal year that are not made available for obligation by Congress in the subsequent fiscal year shall remain in the Fund for obligation in future fiscal years, without fiscal year limitation.'' Thus, in both the authorization and the appropriations processes, Congress has clearly and emphatically stated its intent to maintain a stable source of federal support for essential victim services.

Over the past 4 years, the Bush administration and this Republican Congress have squandered record surpluses and racked up $7.6 trillion in Federal debt as a result of reckless spending and budget-busting tax cuts. Now the Bush administration proposes to reduce the deficit by siphoning off resources that we set aside to assist victims of crime. In this regard, it bears emphasis that the Crime Victims Fund does not receive appropriated funding; deposits come from Federal criminal fines, forfeited bail bonds, penalties, and special assessments, not from the pockets of American taxpayers.

Together with Senators BIDEN and SCHUMER, I wrote to President Bush on March 11, 2005, to urge him to reconsider and withdraw his proposal to rescind the Crime Victims Fund. We received no response to that letter.

On March 17, 2005, I offered and the Senate approved by voice vote a budget resolution amendment intended to head off the administration's plans to raid the Crime Victims Fund. I was joined by Senators KENNEDY, MIKULSKI, FEINGOLD, BIDEN, DURBIN, OBAMA and DODD, and I thank them again for their support. As amended, the budget resolution passed by the Senate rejects the proposed rescission by assuming that all amounts that have been and will be deposited into the Crime Victims Fund, including all amounts to be deposited in fiscal year 2006 and thereafter, will remain in the fund for use as authorized by the Victims of Crime Act.

In every State and every community across the country, the Crime Victims Fund plays an essential role in helping crime victims and their families meet critical expenses, recover from the horrific crimes they endured, and move forward with their lives. I ask unanimous consent to print in the RECORD a letter from a number of victims' organizations, representing the millions of Americans who become victims of crime every year. They wrote that rescinding the Crime Victims Fund at the end of fiscal year 2006 would create a ''disastrous'' situation for victim service providers and their clients.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

NATIONAL CRIME VICTIM ORGANIZATIONS CONTACT GROUPS,
Washington, DC, March 12, 2005.

Hon. DANIEL K. AKAKA,
Hart Senate Office Building,
Washington, DC.

DEAR SENATOR AKAKA: We, the undersigned members of the National Crime Victim Organizations Contact Group, represent the millions of citizens that become victims of crime every year in our nation and the agencies that provide supportive services to them. The Crime Victims Fund provides crucial support to thousands of nonprofit organizations and public agencies who help millions of crime victims. We have joined together to urge all members of Congress to oppose the Administration's proposal to remove $1.2 billion from this essential and life-saving fund.

The Fund was created under the Victims of Crime Act in 1984 as a ''separate account'' meaning that the revenues in the Fund are intended to be used solely for financial support of victim services, primarily through State crime victim compensation and State victim assistance formula grants. The Fund comes from the collection of Federal criminal fines, forfeitures and assessments; it does not depend on general taxpayer appropriations. Since the Fund's inception, Congress directed that all amounts deposited into the Fund would remain available to support victim services ''without fiscal year limitation.''

Over 4,400 victim service agencies in every state and every district depend upon VOCA funding for essential victim services, such as emergency shelters, counseling, legal advocacy, and assistance participating in the criminal justice system. In FY 2003, 3.8 million crime victims received VOCA-funded assistance, including victims of domestic violence, sexual assault, child abuse, elder abuse, survivors of homicide victims and drunk driving crashes. Hundreds of thousands of victims were provided financial assistance through VOCA grants to State crime victim compensation programs.

Initially, the money collected every year was released to states the following year. When collections grew to nearly $1 billion in fines in FY 1999, Congress placed a cap on the amount that was distributed each year. Congress began limiting annual Fund obligations expressly ''to ensure that a stable level of funding will remain available for these programs in future years'' (Conference Report 106–479).

Capping annual Fund obligations created a Fund balance—a ''rainy day'' fund consisting of amounts that otherwise would have been used by States to support immediate victim assistance needs. The Fund balance was used to make up the difference between annual deposits and Congressional caps three times over the past six years.

Having recently recognized the 20th anniversary of this successful and effective program, we were shocked to learn that the Administration now proposes rescinding the entire Fund at the end of FY 2006, including the amounts that Congress promised and, in fact, needed to protect against Fund fluctuations and to ensure the Fund's stability as well as deposits made during FY 2006. More stable long-term sources of funding are already required to maintain a sufficient amount in the Fund. Rescinding the Fund will zero out the Fund going into FY 2007 and unquestionably create a disastrous situation for victim service providers and their clients. The entire crime victims' field stands united in its opposition to the proposed rescission.

We ask Congress to reject the Administration's recommendation to rescind the Fund and to work with us to guarantee the Fund's future viability and support for victim services.

Sincerely,

David Beatty, Contact Group Coordinator, Justice Solutions, NPO.

Jeanette Adkins, National Organization for Victim Assistance.

Marybeth Carter, National Alliance to End Sexual Violence.

Nancy Chandler, National Children's Alliance.

Steve Derene, National Association of VOCA Assistance Administrators.

Dan Eddy, National Association of Crime Victim Compensation Boards.
Wendy Hamilton, Mothers Against Drunk Driving.
Mary Lou Leary, National Center for Victims of Crime.
Dan Levey, National Organization for Parents of Murdered Children.
Jill Morris, National Coalition Against Domestic Violence.
Diane Moyer, Pennsylvania Coalition Against Rape.
Lynn Rosenthal, National Network to End Domestic Violence.

Mr. LEAHY. Mr. President, National Crime Victims' Rights Week is upon us. I urge my colleagues to honor our longstanding commitment to crime victims by working together to preserve the Crime Victims Fund.

FREEDOM PARK

Mr. ALLARD. Mr. President, I bring to the Senate's attention the importance of Freedom Park in Edwards, CO, to commemorate the sacrifices of our Armed Forces and emergency services personnel.

Similar to many other memorials, an American flag stands waving at its center, reflecting in the clear blue waters of a mountain lake. Yet this monument differs from most in that it recognizes not only our Armed Forces but our emergency services. The liberties that we as citizens hold dear today have been protected both abroad and domestically, and this monument is a faithful reminder of all Americans who have dedicated their lives to serving freedom.

The concept of Freedom Park began with local veterans in Edwards, CO, but soon grew into a valley-wide, grassroots effort. Citizens from all walks of life have come together to accomplish this noble goal, including military veterans and their families, emergency service members, business professionals, local government officials, and countless others. The fruit of their labor will be recognized for generations to come in the name of commemorating American liberty.

From the Revolutionary War to the global war on terrorism, Freedom Park uniquely honors those who have given their lives in the line of duty throughout America's history. Clearly displayed at every entrance to the park, these words are posted: ''The greatest tribute we can give them is to become wiser through their legacy.'' This quote demonstrates the founders' goal, which is two-fold: to memorialize those who have served in the name of freedom and to teach future generations the meaning of the sacrifices that were made.

Freedom Park memorial appropriately holds the dedication of our men and women in the Armed Forces and emergency services in great esteem so that we may honor their dedication to our Nation and learn from their sacrifices.

FPI REFORM BILL

Mr. BURNS. Mr. President, today I voice my support for the Federal prison industries, FPI, reform bill.

This bill would level the playing field for small businesses and provide relief to all Federal agencies by amending the Office of Federal Procurement Policy Act to establish a Governmentwide policy requiring competition in certain executive agency procurements.

I understand the importance of keeping our Federal prisoners occupied, but not at the expense of our law abiding, American small businesses. As a Senator representing the great State of Montana, where small business dominates our economy, I have a vital interest in protecting business from unfair Government competition. Many times bids were requested from private firms that offered better pricing and more reasonable terms of delivery. I am for fair competition in the Government procurement process. Congress has a responsibility to ensure that no Government entity, such as FPI, has special status in the Government procurement process that forces Government agencies to buy from that entity. This contradicts one of the fundamental ideas in which this great Nation was founded upon, the ideal of competition. Accordingly, I provide my support to protect small business interests across Montana and America.

ADDITIONAL STATEMENTS

LIEUTENANT COLONEL JULIA COOK

• Mr. ALLARD. Mr. President, I would like to bring to the Senate's attention the retirement of a Colorado native from the U.S. Army, LTC Julia Cook.

Lieutenant Colonel Cook has distinguished herself with exceptionally meritorious conduct while serving in key positions of ever increasing responsibility as an Army quartermaster and human resources officer, culminating her career as a legislative liaison for Secretary of the Army, Office of the Chief Legislative Liaison. During her years of superlative service, Lieutenant Colonel Cook consistently demonstrated exceptional leadership, resourcefulness and professionalism while making lasting contributions to Army soldiers and families, readiness and mission accomplishment. Lieutenant Colonel Cook's 20 years of dedicated and faithful service enhanced the soldiers and the units to which she was assigned and reflects the greatest credit upon herself and the U.S. Army.

Lieutenant Colonel Cook was commissioned a second lieutenant through the ROTC program, Quartermaster Corps, after graduating from the University of Colorado in December 1984. Her first assignment, following the quartermaster officer basic course, was to Ft. Leonard Wood, MO, from 1985 to 1986, serving as XO for an AIT company that trained 63Bs and 64Cs and as an assistant brigade S4. She volunteered to serve in Korea from 1986 to 1988, distinguishing herself as tech supply platoon leader in 595th Maintenance Company, K–16 Air Base and as battalion S1, 227th Maintenance Battalion, Youngman. Following her tour in Korea, she completed the quartermaster officer advance course and was assigned to Ft. Carson, CO, from 1988 to 1993. Again she served superbly in a variety of positions, as the 4th ID DISCOM support operations officer; the S2/3, 704th Main Support Battalion; as commander, Company C, 704th Main Support Battalion; and as the division equal opportunity officer. She also deployed on a 6-month rotation to JTF–B, Honduras, serving as the logistics plans officer. From 1993 to 1997 she performed her duties as a soldier assigned to Headquarters, U.S. Army Materiel Command, AMC. She served in a variety of positions including, logistics operations officer in the Emergency Operations Center, staff action control officer for the Secretary of the General Staff, executive officer for the Chief of Staff, special project officer to Project Manager Soldier, and team executive officer for the Secretary of the Army's Senior Review Panel on Sexual Harassment after the Aberdeen Proving Ground Sexual Harassment scandal.

After graduation from the Command and General Staff College, she was assigned to the 21st Theater Support Command, Kaiserslautern, Germany, from 1998 to 2001. While overseas, she served as chief, Distribution Management Center, where she developed supply distribution initiatives for a command supporting over 65,000 soldiers in European-based units. Lieutenant Colonel Cook's work enabled the Command to reduce shipping costs through the air challenge process by $2 million for the first two quarters of fiscal year 1999. She served as executive officer of the 191st Ordnance Battalion, Miesau, Germany, and was responsible for internal operations of a 600-soldier battalion consisting of a headquarters and headquarters company, an ammunition company, a quartermaster rigging detachment, and two explosive ordnance disposal companies, all while exercising oversight of a $2 million annual budget. Lieutenant Colonel Cook finished her career serving with the Army's office of the Chief of Legislative Liaison from August 2001 to May 2005 where she was the staff action officer and legislative assistant to the Undersecretary of the Army and the Sergeant Major of the Army. She prepared the Undersecretary and Sergeant Major for all interactions with Congress including hearings, office calls, and phone calls. Finally, she served in the program division as the Army legislative liaison between the U.S. Congress

and the Army staff for all issues related to logistics.

Through these assignments, Lieutenant Colonel Cook has provided outstanding leadership, advice, and sound professional judgment on numerous critical issues of enduring importance to both the Army and Congress. Her actions and counsel were invaluable to Army leaders and Members of Congress as they considered the impact of important issues. Lieutenant Colonel Cook's dedication to accomplishing the Army's legislative liaison mission has been extraordinary. She is truly an outstanding officer who displays superb professional leadership skills and is totally dedicated to mission accomplishment in the highest traditions of military service, and I thank her for her service to this great Nation.●

RETIREMENT OF BILLY ROSS BROWN

● Mr. COCHRAN. Mr. President, my friend, Billy Ross Brown, has retired from the First South Farm Credit, ACA Board of Directors where he served faithfully for many years.

Billy Ross became a director on the Oxford, MS, PCA Board in 1968 and he served as chairman of the board from 1975 to 1985. He was then elected to serve on the First South Farm Credit Board and served from 1985 to 1990.

He left the First South Board after being recommended by me and appointed by President George H.W. Bush to serve on the Board of the Farm Credit Administration and the Farm Credit System Insurance Corporation in Washington, DC. During this time he served as the first chairman of the Farm Credit System Insurance Corporation where he nurtured it through its startup as a Federal agency and directed it as it began to capitalize the Farm Credit System insurance fund. He was subsequently appointed chairman and CEO of the Farm Credit Administration where he served with distinction until October 1974.

While at the FCA, he undertook the first critical internal review of the agency, which provided him with useful insights and perspectives as he guided the agency through a difficult period of adjustment, following the system's financial stress in the mid-1980s. At his recommendation and under his direction, FCA undertook its first efforts at relieving regulatory burdens. He authored the agency's first statement on regulatory philosophy which reflected his commitment to cost-effective regulation and risk-based examination and supervision. It was his belief that any cost savings or efficiencies derived by the cooperatively owned Farm Credit Institutions would ultimately benefit the system's farmer borrowers and thereby benefit all agricultural producers.

After Billy Ross moved back to Oxford from Washington, the First South Farm Credit nominating committee nominated Billy Ross to run again for the First South Farm Credit Board. Billy Ross served again on the First South Board from June 1999 until his mandatory retirement in March 2005.

Billy Ross has served the Farm Credit System and U.S. agricultural interests for over 36 years. Combined with his father's service to the Farm Credit and the local PCA, the immediate Brown family has over 55 years of service to American agriculture.

No person has served First South Farm Credit, ACA, the Farm Credit Administration, and the Farm Credit System Insurance Corporation with more loyalty, dignity, and honor than Billy Ross Brown.

Over the years, I have observed Billy Ross' dedicated service to his family, his community and his country. He is a true gentleman with a great heart and love for all mankind.

While I wish him well in his retirement, I suspect he will continue to be involved in the ongoing success of Mississippi agricultural interests and I hope he will still find time to fish with his friends, but only if the weather is good.●

CONGRATULATIONS TO BERNICE DICKERSON

● Mr. BUNNING. Mr. President, I pay tribute and congratulate Bernice Dickerson of Adairville, KY, for her service on the Adairville City Council.

At age 91, Mrs. Dickerson has dedicated herself to improving the community of Adairville. As a councilwoman for Adairville, Mrs. Dickerson has made a difference in people's lives and has served as an example for all who know her.

The citizens of Kentucky are fortunate to have the leadership of Bernice Dickerson. Her example of dedication, hard work and compassion should be an inspiration to all throughout the Commonwealth. She has my most sincere appreciation for her work and I look forward to her continued service to Kentucky.●

INSTITUTE OF THE MISSIONARY SISTERS OF THE SACRED HEART OF JESUS

● Mrs. CLINTON. Mr. President, it is with great pride that I commemorate the 125th anniversary of the founding of the Missionary Sisters of the Sacred Heart of Jesus whose assistance to New York's Italian community in the late 19th century is a model for immigrant outreach. The efforts of the Missionary Sisters of the Sacred Heart of Jesus initiated by the first American citizen saint, Frances Cabrini, led the Vatican to name her Patroness of Immigrants.

From the missionary sisters' first New York initiative, a home for destitute Italian orphans that opened in 1889, to the vibrant network of schools, hospitals and social service agencies serving immigrants in New Jersey, Pennsylvania, Louisiana, Illinois, Colorado, Washington State and California, as well as New York, the missionary sisters brought solace to immigrants in both urban and rural areas, visiting them in homes, public hospitals, prisons and mines. Today this enduring mission flourishes in 16 nations on six continents where the Cabrinian religious institute eases misery, works for justice, and educates new generations. The institute's compassionate work cares for AIDS orphans in Swaziland and street children in the Philippines, provides health and child care and educates young people in Australia, Central and South America and the United States.

Frances Cabrini's legacy can be seen in 21st century New York State in Dobbs Ferry at the St. Cabrini Nursing Home and the Cabrini Elder Care Consortium. Dobbs Ferry is also home to the Monsignor Terence Attridge Adult Day Health Center and Cabrini Immigrant Services. New York City is fortunate to have the Cabrini Center for Nursing and Rehabilitation, Cabrini Care at Home, Cabrini Immigrant Services, Cabrini Hospital, Sister Josephine Tsuei Senior Day Services, Cabrini High School, the Cabrini Shrine and the Cabrini Housing Development Fund's apartments for the elderly.

This year the St. Cabrini Nursing Home honors two individuals who exemplify the dedication and service of the Cabrinian values—Donna McNamara whose efforts were crucial to the creation of Cabrini Immigrant Services and Cabrini Care at Home; and James A. Smith, longtime board member who has given leadership to the Cabrini Elder Care Consortium. I am thankful for the efforts of Ms. McNamara and Mr. Smith and for the 125 years of compassion and care that are hallmarks of the life of Frances Cabrini and those who continue to serve the ideals to which she dedicated her life.●

NCAA DIVISION III MEN'S BASKETBALL CHAMPION

● Mr. FEINGOLD. Mr. President, it is with great pleasure that I congratulate the University of Wisconsin-Stevens Point men's basketball team for their second straight NCAA Division III national championship. The Pointers capped off a dominating run through the tournament with their victory over Rochester University in the championship game. With the victory, the Pointers become just the third team in NCAA Division III history to win back to back titles. The championship game was also a milestone for Head Coach Jack Bennett, who earned his 200th career victory with the win and has since been selected as the Basketball Times Coach of the Year.

The Pointers posted a terrific 29–3 record this season, winning many of their games by wide margins and tying the school record for wins in a season set last year. The Pointers had the stingiest defense in the Wisconsin Intercollegiate Athletic Conference this season, allowing just over 56 points a game. They also outscored their opponents by an overwhelming average of 17 points per game. Stevens Point led their conference in many statistical categories, including three-point and overall shooting percentage and assists. Their tough play throughout the season earned them a share of the conference championship. The Pointers also won their second straight WIAC Tournament title.

A talented roster of student-athletes, led by All-American Nick Bennett and Division III Men's Basketball Player of the Year Jason Kalsow, played unselfishly and always with passion. Members of the University of Wisconsin-Stevens Point men's basketball team that fought hard for the championship include senior Tamaris Relerford from Beloit, WI; freshman Shawn Lee from Marshfield, WI; sophomore Brett Hirsch from Menomonee Falls, WI; freshman Brad Kalsow from Huntley, IL; freshman Steve Hicklin from Sussex, WI; senior Kyle Grusczynski from Seymour, WI; sophomore Cory Krautkramer from Cameron, WI; sophomore Jon Krull from Marshall, WI; junior Matt Bouche from Dane, WI; junior Brian Bauer from Auburndale, WI; junior Mike Prey from Shawano, WI; senior Eric Maus from Green Bay, WI; freshman Gbena Awe from Milwaukee, WI; freshman Tyler Doyle from Appleton, WI; freshman Matt Atkinson from Suamico, WI; senior John Gleich from Wheaton, IL; and freshman Zach Leahy from Hartland, WI. Many of these champions are volunteers in the community at basketball camps and with Big Brothers and Big Sisters. They are also students dedicated to academics as well as to basketball.

The team's competitive spirit is an inspiration to youngsters in Wisconsin. When March Madness is in the air, Division III may not always be in the spotlight. But the Pointers' second straight national championship is a trophy all Wisconsinites are proud of. Their victory is a substantial part of the incredible postseason for Wisconsin college basketball teams.●

MESSAGE FROM THE PRESIDENT

A message from the President of the United States was communicated to the Senate by Mr. Williams, one of his secretaries.

EXECUTIVE MESSAGE REFERRED

As in executive session the Presiding Officer laid before the Senate a message from the President of the United States submitting a nomination which was referred to the Committee on Intelligence.

(The nomination received today is printed at the end of the Senate proceedings.)

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC–1545. A communication from the Administrator and Chief Executive Officer, Bonneville Power Administration, Department of Energy, transmitting, pursuant to law, a report on the Federal Columbia River Power System's financial statements and audit reports; to the Committee on Energy and Natural Resources.

EC–1546. A communication from the Director, Office of Surface Mining, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled ''Oklahoma Abandoned Mine Land Reclamation Plan'' (OK–031–FOR) received on April 4, 2005; to the Committee on Energy and Natural Resources.

EC–1547. A communication from the Director, Office of Surface Mining, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled ''Wyoming Regulatory Program'' (WY–032–FOR) received on April 4, 2005; to the Committee on Energy and Natural Resources.

EC–1548. A communication from the Assistant Secretary for Fish, Wildlife and Parks, Fish and Wildlife Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled ''Endangered and Threatened Wildlife and Plants; Designation of Critical Habitat for Riverside Fairy Shrimp (Streptocephalus woottoni)'' (RIN1018–AT42) received on April 4, 2005; to the Committee on Energy and Natural Resources.

EC–1549. A communication from the Assistant Secretary for Fish, Wildlife and Parks, Fish and Wildlife Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled ''Endangered and Threatened Wildlife and Plants; Designation of Critical Habitat for Arroyo Toad (Bufo californicus)'' (RIN1018–AT42) received on April 4, 2005; to the Committee on Energy and Natural Resources.

EC–1550. A communication from the Secretary of Veterans Affairs, transmitting, pursuant to law, the Department's biennial report on the administration of the Montgomery GI Bill (MGIB) educational assistance program; to the Committee on Veterans' Affairs.

EC–1551. A communication from the Acting Director, Office of Government Ethics, transmitting, pursuant to law, the report of a correction to page 13 of the Office's previously submitted report relative to the evaluation of the financial disclosure process for employees of the executive branch; to the Committee on Homeland Security and Governmental Affairs.

EC–1552. A communication from the Under Secretary of Defense, transmitting, pursuant to law, a report of a violation of the Antideficiency Act by the Department of the Navy, Case number 04–04; to the Committee on Appropriations.

EC–1553. A communication from the Comptroller General, Government Accountability Office, transmitting, pursuant to law, a report concerning Government Accountability Office (GAO) employees who were assigned to congressional committees during fiscal year 2004 and a report on the cost and staff days of GAO work for fiscal years 2001 to 2004; to the Committee on Homeland Security and Governmental Affairs.

EC–1554. A communication from the Chairman, International Trade Commission, transmitting, pursuant to law, the Commission's Annual Report on Category Rating for the year 2004; to the Committee on Finance.

EC–1555. A communication from the Secretary of Health and Human Services, transmitting, pursuant to law, a report containing the initial estimate of the Secretary's recommendation for the applicable percentage increase in Medicare's hospital inpatient prospective payment system (IPPS) rates for Federal fiscal year (FY) 2006; to the Committee on Finance.

EC–1556. A communication from the Regulations Coordinator, Centers for Medicare and Medicaid Services, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled ''Medicaid Program; Time Limitation on Recordkeeping Requirements Under the Drug Rebate Program'' (RIN0938–AN55) received on April 7, 2005; to the Committee on Finance.

EC–1557. A communication from the Director, Office of White House Liaison, Department of Education, transmitting, pursuant to law, the report of a vacancy in the position of Commissioner of Education Statistics, received on April 7, 2005; to the Committee on Health, Education, Labor, and Pensions.

EC–1558. A communication from the Director, Office of White House Liaison, Department of Education, transmitting, pursuant to law, the report of a vacancy in the position of Commissioner, Rehabilitation Services Commission, received on April 7, 2005; to the Committee on Health, Education, Labor, and Pensions.

EC–1559. A communication from the Director, Office of White House Liaison, Department of Education, transmitting, pursuant to law, the report of a vacancy in the position of Commissioner, Rehabilitation Services Commission, received on April 7, 2005; to the Committee on Health, Education, Labor, and Pensions.

EC–1560. A communication from the Director, Office of White House Liaison, Department of Education, transmitting, pursuant to law, the report of a vacancy in the position of General Counsel, received on April 7, 2005; to the Committee on Health, Education, Labor, and Pensions.

EC–1561. A communication from the Director, Office of White House Liaison, Department of Education, transmitting, pursuant to law, the report of a vacancy in the position of General Counsel, received on April 7, 2005; to the Committee on Health, Education, Labor, and Pensions.

EC–1562. A communication from the Director, Office of White House Liaison, Department of Education, transmitting, pursuant to law, the report of a vacancy in the position of Deputy Secretary, received on April 7, 2005; to the Committee on Health, Education, Labor, and Pensions.

EC–1563. A communication from the Director of Public Affairs, American Battle Monuments Commission, transmitting, pursuant to law, a report of the Commission's administration of the Freedom of Information Act for Fiscal Year 2004; to the Committee on the Judiciary.

EC–1564. A communication from the Assistant Attorney General for Administration, Department of Justice, transmitting, pursuant to law, a report of the Department's fiscal year 2004 inventory of inherently government and commercial activities; to the Committee on the Judiciary.

EC–1565. A communication from the Director, Office of Thrift Supervision, Department of the Treasury, transmitting, pursuant to law, the details of the Office's 2005 Compensation Plan; to the Committee on Banking, Housing, and Urban Affairs.

EC–1566. A communication from the General Counsel, Office of Federal Housing Enterprise Oversight, transmitting, pursuant to law, the report of a rule entitled ''Corporate Governance; Final Amendments'' (RIN2550–AA24) received on April 7, 2005; to the Committee on Banking, Housing, and Urban Affairs.

EC–1567. A communication from the Acting Chief Counsel, Office of Foreign Assets Control, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''31 CFR part 560: Iranian Transactions Regulations'' received on April 7, 2005; to the Committee on Banking, Housing, and Urban Affairs.

EC–1568. A communication from the General Counsel, Federal Emergency Management Agency, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled ''Final Flood Elevation Determinations 70 FR 9540 02.28.05'' (44 CFR 67) received on April 7, 2005; to the Committee on Banking, Housing, and Urban Affairs.

EC–1569. A communication from the General Counsel, Federal Emergency Management Agency, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled ''Suspension of Community Eligibility 70 FR 6364 02.27.05'' ((44 CFR 64)(Doc. No. FEMA–7865)) received on April 7, 2005; to the Committee on Banking, Housing, and Urban Affairs.

EC–1570. A communication from the General Counsel, Federal Emergency Management Agency, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled ''Suspension of Community Eligibility 70 FR 8534 02.22.05'' ((44 CFR 64)(Doc. No. FEMA–7867)) received on April 7, 2005; to the Committee on Banking, Housing, and Urban Affairs.

EC–1571. A communication from the General Counsel, Federal Emergency Management Agency, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled ''Changes in Flood Elevation Determinations 70 FR 9539 02.28.05'' (44 CFR Part 65) received on April 7, 2005; to the Committee on Banking, Housing, and Urban Affairs.

EC–1572. A communication from the General Counsel, Federal Emergency Management Agency, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled ''Changes in Flood Elevation Determinations 70 FR 9536 02.28.05'' ((44 CFR 65)(FEMA–D–7567)) received on April 7, 2005; to the Committee on Banking, Housing, and Urban Affairs.

EC–1573. A communication from the Assistant Secretary of Defense, Reserve Affairs, Department of Defense, transmitting, pursuant to law, the National Guard ChalleNGe Program Annual Report for Fiscal Year 2004; to the Committee on Armed Services.

EC–1574. A communication from the Acting Under Secretary of Defense, Acquisition, Technology, and Logistics, Department of Defense, transmitting, pursuant to law, two reports entitled ''Department of Defense (DOD) Chemical and Biological Defense Program (CBDP) Annual Report to Congress'' and ''Department of Defense (DOD) Chemical and Biological Defense Program (CBDP) Performance Plan for Fiscal Years 2004–2006''; to the Committee on Armed Services.

EC–1575. A communication from the Secretary of Defense, transmitting, pursuant to law, a report relative to chemical agent destruction operations at the Newport Chemical Agent Disposal Facility in Newport, Indiana; to the Committee on Armed Services.

EC–1576. A communication from the Under Secretary of Defense, Comptroller, Department of Defense, transmitting, pursuant to law, the quarterly report entitled ''Acceptance of contributions for defense programs, projects, and activities; Defense Cooperation Account''; to the Committee on Armed Services.

EC–1577. A communication from the Acting Under Secretary of Defense for Acquisition, Technology, and Logistics, Department of Defense, transmitting, pursuant to law, a report entitled ''Distribution of DoD Depot Maintenance Workloads''; to the Committee on Armed Services.

EC–1578. A communication from the General Counsel, Department of Defense, transmitting, a report of proposed legislation entitled ''National Defense Authorization Bill for Fiscal Year 2006''; to the Committee on Armed Services.

EC–1579. A communication from the Director, Defense Procurement and Acquisition Policy, Department of Defense, transmitting, pursuant to law, the report of a rule entitled ''Major Systems Acquisition'' (DFARS Case 2003–D030) received on April 7, 2005; to the Committee on Armed Services.

EC–1580. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of a vacancy in the position of Assistant Secretary of the Army (Civil Works), received on April 7, 2005; to the Committee on Armed Services.

EC–1581. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of a vacancy in the position of Assistant Secretary of the Army (Civil Works), received on April 7, 2005; to the Committee on Armed Services.

EC–1582. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of a vacancy in the position of Deputy Under Secretary of Defense (Acquisition and Technology), received on April 7, 2005; to the Committee on Armed Services.

EC–1583. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of a vacancy in the position of Director, Operational Test and Evaluation, received on April 7, 2005; to the Committee on Armed Services.

EC–1584. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of a vacancy in the position of Secretary of the Air Force, received on April 7, 2005; to the Committee on Armed Services.

EC–1585. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of a vacancy in the position of Deputy Under Secretary of Defense (Logistics and Materiel Readiness), received on April 7, 2005; to the Committee on Armed Services.

EC–1586. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of a vacancy in the position of Under Secretary of the Army, received on April 7, 2005; to the Committee on Armed Services.

EC–1587. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of a vacancy in the position of Assistant Secretary of Defense (Legislative Affairs), received on April 7, 2005; to the Committee on Armed Services.

EC–1588. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of a vacancy in the position of Assistant Secretary of Defense (International Security Policy), received on April 7, 2005; to the Committee on Armed Services.

EC–1589. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of a vacancy in the position of Assistant Secretary of Defense (International Security Policy), received on April 7, 2005; to the Committee on Armed Services.

EC–1590. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of a vacancy in the position of Under Secretary of Defense (Acquisition and Technology), received on April 7, 2005; to the Committee on Armed Services.

EC–1591. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of a vacancy in the position of Assistant Secretary of the Air Force (Acquisition), received on April 7, 2005; to the Committee on Armed Services.

EC–1592. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of a vacancy in the position of Assistant Secretary of the Navy (Installations and Environment), received on April 7, 2005; to the Committee on Armed Services.

EC–1593. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of a vacancy in the position of Assistant Secretary of the Navy (Installations and Environment), received on April 7, 2005; to the Committee on Armed Services.

EC–1594. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of a vacancy in the position of Assistant Secretary of the Navy (Installations and Environment), received on April 7, 2005; to the Committee on Armed Services.

EC–1595. A communication from the Assistant Director for Executive and Political Personnel, Department of Defense, transmitting, pursuant to law, the report of a vacancy in the position of Assistant Secretary of the Army (Manpower and Reserve Affairs), received on April 7, 2005; to the Committee on Armed Services.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. DURBIN:

S. 743. A bill for the relief of Nabil Raja Dandan, Ketty Dandan, Souzi Dandan, Raja Nabil Dandan, and Sandra Dandan; to the Committee on the Judiciary.

By Mr. NELSON of Florida:

S. 744. A bill to establish a Caribbean Basin Port Assistance Program; to the Committee on Foreign Relations.

By Mr. BYRD (for himself, Mr. JEFFORDS, Mr. KERRY, and Mr. BINGAMAN):

S. 745. A bill to amend the Global Environmental Protection Assistance Act of 1989 to promote international clean energy development, to open and expand clean energy markets abroad, to engage developing nations in the advancement of sustainable energy use and climate change actions, and for other purposes; to the Committee on Foreign Relations.

By Mrs. FEINSTEIN:

S. 746. A bill to amend the Reclamation Wastewater and Groundwater Study and Facilities Act to authorize the Secretary of the Interior to participate in the Inland Empire regional recycling project and in the Cucamonga Valley Water District recycling project; to the Committee on Energy and Natural Resources.

By Mr. LUGAR (for himself, Mr. BINGAMAN, Mr. COCHRAN, Mr. KERRY, Mr. DURBIN, and Mrs. FEINSTEIN):

S. 747. A bill to give States the flexibility to reduce bureaucracy by streamlining enrollment processes for the medicaid and State children's health insurance programs through better linkages with programs providing nutrition and related assistance to low-income families; to the Committee on Finance.

By Mr. GREGG (for himself and Mr. SUNUNU):

S. 748. A bill to authorize the establishment at Antietam National Battlefield of a memorial to the officers and enlisted men of the Fifth, Sixth, and Ninth New Hampshire Volunteer Infantry Regiments and the First New Hampshire Light Artillery Battery who fought in the Battle of Antietam on September 17, 1862, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. LEVIN (for himself, Mr. THOMAS, Mr. GRASSLEY, and Ms. STABENOW):

S. 749. A bill to amend the Office of Federal Procurement Policy Act to establish a governmentwide policy requiring competition in certain executive agency procurements, and for other purposes; to the Committee on Homeland Security and Governmental Affairs.

By Mr. KYL:

S. 750. A bill to amend the Internal Revenue Code of 1986 to allow look-through treatment of payments between related foreign corporations; to the Committee on Finance.

By Mrs. FEINSTEIN:

S. 751. A bill to require Federal agencies, and persons engaged in interstate commerce, in possession of data containing personal information, to disclose any unauthorized acquisition of such information; to the Committee on the Judiciary.

By Mr. LAUTENBERG (for himself, Mr. DURBIN, and Mr. DORGAN):

S. 752. A bill to require the United States Trade Representative to pursue a complaint of anti-competitive practices against certain oil exporting countries; to the Committee on Finance.

By Mr. FEINGOLD (for himself and Mr. MCCAIN):

S. 753. A bill to provide for modernization and improvement of the Corps of Engineers, and for other purposes; to the Committee on Environment and Public Works.

By Mr. KENNEDY (for himself, Mr. SMITH, and Mr. DURBIN):

S. 754. A bill to ensure that the Federal student loans are delivered as efficiently as possible, so that there is more grant aid for students; to the Committee on Health, Education, Labor, and Pensions.

By Mr. BUNNING:

S. 755. A bill to authorize the Secretary of Health and Human Services to make grants to nonprofit tax-exempt organizations for the purchase of ultrasound equipment to provide free examinations to women needing such services, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Mr. BENNETT (for himself, Mrs. MURRAY, Mr. SHELBY, and Mr. HATCH):

S. 756. A bill to amend the Public Health Service Act to enhance public and health professional awareness and understanding of lupus and to strengthen the Nation's research efforts to identify the causes and cure of lupus; to the Committee on Health, Education, Labor, and Pensions.

By Mr. CHAFEE (for himself, Mr. REID, Mr. TALENT, Mrs. CLINTON, and Mr. HATCH):

S. 757. A bill to amend the Public Health Service Act to authorize the Director of the National Institute of Environmental Health Sciences to make grants for the development and operation of research centers regarding environmental factors that may be related to the etiology of breast cancer; to the Committee on Health, Education, Labor, and Pensions.

By Mr. ALLEN (for himself and Mr. WYDEN):

S. 758. A bill to amend the Internal Revenue Code of 1986 to ensure that the federal excise tax on communication services does not apply to internet access service; to the Committee on Finance.

By Mr. SCHUMER (for himself, Mr. BIDEN, Ms. SNOWE, Mr. DURBIN, and Mr. SMITH):

S. 759. A bill to amend the Internal Revenue Code of 1986 to make higher education more affordable, and for other purposes; to the Committee on the Judiciary.

By Mr. INOUYE (for himself, Mr. HATCH, Mr. KENNEDY, Mr. DODD, Mr. DEWINE, and Mr. CONRAD):

S. 760. A bill to amend the Public Health Service Act to provide a means for continued improvement in emergency medical services for children; to the Committee on Health, Education, Labor, and Pensions.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. ALLEN (for himself and Mr. WARNER):

S. Res. 102. A resolution commending the Virginia Union University Panthers men's basketball team for winning the 2005 National Collegiate Athletic Association Division II National Basketball Championship; considered and agreed to.

By Mrs. HUTCHISON (for herself and Mr. CORNYN):

S. Res. 103. A resolution commending the Lady Bears of Baylor University for winning the 2005 National Collegiate Athletic Association Division I Women's Basketball Championship; considered and agreed to.

ADDITIONAL COSPONSORS

S. 8

At the request of Mr. ENSIGN, the name of the Senator from Ohio (Mr. VOINOVICH) was added as a cosponsor of S. 8, a bill to amend title 18, United States Code, to prohibit taking minors across State lines in circumvention of laws requiring the involvement of parents in abortion decisions.

S. 37

At the request of Mrs. FEINSTEIN, the names of the Senator from Montana (Mr. BURNS), the Senator from North Carolina (Mrs. DOLE), the Senator from New Mexico (Mr. DOMENICI), the Senator from Maryland (Ms. MIKULSKI) and the Senator from New York (Mr. SCHUMER) were added as cosponsors of S. 37, a bill to extend the special postage stamp for breast cancer research for 2 years.

S. 50

At the request of Mr. INOUYE, the name of the Senator from Nebraska (Mr. NELSON) was added as a cosponsor of S. 50, a bill to authorize and strengthen the National Oceanic and Atmospheric Administration's tsunami detection, forecast, warning, and mitigation program, and for other purposes.

S. 103

At the request of Mr. TALENT, the name of the Senator from Montana (Mr. BAUCUS) was added as a cosponsor of S. 103, a bill to respond to the illegal production, distribution, and use of methamphetamine in the United States, and for other purposes.

S. 185

At the request of Mr. NELSON of Florida, the name of the Senator from Vermont (Mr. JEFFORDS) was added as a cosponsor of S. 185, a bill to amend title 10, United States Code, to repeal the requirement for the reduction of certain Survivor Benefit Plan annuities by the amount of dependency and indemnity compensation and to modify the effective date for paid-up coverage under the Survivor Benefit Plan.

S. 193

At the request of Mr. BROWNBACK, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 193, a bill to increase the penalties for violations by television and radio broadcasters of the prohibitions against transmission of obscene, indecent, and profane language.

S. 233

At the request of Mr. ROBERTS, the name of the Senator from Montana

(Mr. BURNS) was added as a cosponsor of S. 233, a bill to increase the supply of quality child care.

S. 241

At the request of Mr. HAGEL, his name was added as a cosponsor of S. 241, a bill to amend section 254 of the Communications Act of 1934 to provide that funds received as universal service contributions and the universal service support programs established pursuant to that section are not subject to certain provisions of title 31, United States Code, commonly known as the Antideficiency Act.

S. 285

At the request of Mr. BOND, the name of the Senator from Minnesota (Mr. COLEMAN) was added as a cosponsor of S. 285, a bill to reauthorize the Children's Hospitals Graduate Medical Education Program.

S. 338

At the request of Mr. SMITH, the name of the Senator from Florida (Mr. NELSON) was added as a cosponsor of S. 338, a bill to provide for the establishment of a Bipartisan Commission on Medicaid.

S. 352

At the request of Ms. MIKULSKI, the name of the Senator from Connecticut (Mr. LIEBERMAN) was added as a cosponsor of S. 352, a bill to revise certain requirements for H–2B employers and require submission of information regarding H–2B non-immigrants, and for other purposes.

S. 370

At the request of Mr. LOTT, the name of the Senator from Utah (Mr. BENNETT) was added as a cosponsor of S. 370, a bill to preserve and protect the free choice of individual employees to form, join, or assist labor organizations, or to refrain from such activities.

S. 382

At the request of Mr. ENSIGN, the names of the Senator from Connecticut (Mr. DODD) and the Senator from North Dakota (Mr. CONRAD) were added as cosponsors of S. 382, a bill to amend title 18, United States Code, to strengthen prohibitions against animal fighting, and for other purposes.

S. 403

At the request of Mr. ENSIGN, the name of the Senator from Ohio (Mr. VOINOVICH) was added as a cosponsor of S. 403, a bill to amend title 18, United States Code, to prohibit taking minors across State lines in circumvention of laws requiring the involvement of parents in abortion decisions.

S. 409

At the request of Mr. COLEMAN, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 409, a bill to establish a Federal Youth Development Council to improve the administration and coordination of Federal programs serving youth, and for other purposes.

S. 420

At the request of Mr. KYL, the name of the Senator from Georgia (Mr. CHAMBLISS) was added as a cosponsor of S. 420, a bill to make the repeal of the estate tax permanent.

S. 424

At the request of Mr. BOND, the names of the Senator from Minnesota (Mr. COLEMAN) and the Senator from Maryland (Mr. SARBANES) were added as cosponsors of S. 424, a bill to amend the Public Health Service Act to provide for arthritis research and public health, and for other purposes.

S. 440

At the request of Mr. BUNNING, the name of the Senator from Minnesota (Mr. DAYTON) was added as a cosponsor of S. 440, a bill to amend title XIX of the Social Security Act to include podiatrists as physicians for purposes of covering physicians services under the medicaid program.

S. 471

At the request of Mr. SPECTER, the names of the Senator from Illinois (Mr. OBAMA), the Senator from Delaware (Mr. CARPER), the Senator from Massachusetts (Mr. KERRY) and the Senator from New York (Mrs. CLINTON) were added as cosponsors of S. 471, a bill to amend the Public Health Service Act to provide for human embryonic stem cell research.

S. 484

At the request of Mr. WARNER, the name of the Senator from Florida (Mr. NELSON) was added as a cosponsor of S. 484, a bill to amend the Internal Revenue Code of 1986 to allow Federal civilian and military retirees to pay health insurance premiums on a pretax basis and to allow a deduction for TRICARE supplemental premiums.

S. 485

At the request of Mr. CRAIG, the names of the Senator from Alaska (Ms. MURKOWSKI) and the Senator from Alaska (Mr. STEVENS) were added as cosponsors of S. 485, a bill to reauthorize and amend the National Geologic Mapping Act of 1992.

S. 489

At the request of Mr. ALEXANDER, the name of the Senator from Utah (Mr. HATCH) was added as a cosponsor of S. 489, a bill to amend chapter 111 of title 28, United States Code, to limit the duration of Federal consent decrees to which State and local governments are a party, and for other purposes.

S. 493

At the request of Mr. GRASSLEY, the name of the Senator from Minnesota (Mr. COLEMAN) was added as a cosponsor of S. 493, a bill to amend title II of the Higher Education Act of 1965 to increase teacher familiarity with the educational needs of gifted and talented students, and for other purposes.

S. 495

At the request of Mr. BROWNBACK, the name of the Senator from Pennsylvania (Mr. SPECTER) was added as a cosponsor of S. 495, a bill to impose sanctions against perpetrators of crimes against humanity in Darfur, Sudan, and for other purposes.

At the request of Mr. CORZINE, the names of the Senator from Arkansas (Mrs. LINCOLN) and the Senator from Colorado (Mr. SALAZAR) were added as cosponsors of S. 495, supra.

S. 503

At the request of Mr. BOND, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of S. 503, a bill to expand Parents as Teachers programs and other quality programs of early childhood home visitation, and for other purposes.

S. 506

At the request of Mr. HAGEL, the name of the Senator from Maine (Ms. COLLINS) was added as a cosponsor of S. 506, a bill to amend the Public Health Service Act to establish a scholarship and loan repayment program for public health preparedness workforce development to eliminate critical public health preparedness workforce shortages in Federal, State, local, and tribal public health agencies.

S. 515

At the request of Mr. BYRD, the name of the Senator from Arkansas (Mr. PRYOR) was added as a cosponsor of S. 515, a bill to amend title 32, United States Code, to increase the maximum Federal share of the costs of State programs under the National Guard Youth Challenge Program, and for other purposes.

S. 530

At the request of Mr. REED, the name of the Senator from New Jersey (Mr. CORZINE) was added as a cosponsor of S. 530, a bill to amend section 691 of title 10, United States Code, to increase the end strengths of the Army and the Marine Corps for fiscal years after fiscal year 2005, and for other purposes.

S. 558

At the request of Mr. REID, the name of the Senator from Alabama (Mr. SHELBY) was added as a cosponsor of S. 558, a bill to amend title 10, United States Code, to permit certain additional retired members of the Armed Forces who have a service-connected disability to receive both disability compensation from the Department of Veterans Affairs for their disability and either retired pay by reason of their years of military service or Combat-Related Special compensation and to eliminate the phase-in period under current law with respect to such concurrent receipt.

S. 569

At the request of Ms. SNOWE, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of S. 569, a bill to improve the health of women through the establishment of Offices of Women's Health within the Department of Health and Human Services.

S. 577

At the request of Ms. COLLINS, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of S. 577, a bill to promote health care coverage for individuals participating in legal recreational activities or legal transportation activities.

S. 633

At the request of Mr. JOHNSON, the names of the Senator from Montana (Mr. BAUCUS), the Senator from Connecticut (Mr. LIEBERMAN), the Senator from Minnesota (Mr. DAYTON), the Senator from Massachusetts (Mr. KENNEDY), the Senator from Alaska (Ms. MURKOWSKI), the Senator from Iowa (Mr. GRASSLEY) and the Senator from Kentucky (Mr. BUNNING) were added as cosponsors of S. 633, a bill to require the Secretary of the Treasury to mint coins in commemoration of veterans who became disabled for life while serving in the Armed Forces of the United States.

S. 642

At the request of Mr. FRIST, the name of the Senator from Arkansas (Mrs. LINCOLN) was added as a cosponsor of S. 642, a bill to support certain national youth organizations, including the Boy Scouts of America, and for other purposes.

S. 656

At the request of Mr. REED, the name of the Senator from Rhode Island (Mr. CHAFEE) was added as a cosponsor of S. 656, a bill to provide for the adjustment of status of certain nationals of Liberia to that of lawful permanent residence.

S. 659

At the request of Mr. BROWNBACK, the name of the Senator from Pennsylvania (Mr. SANTORUM) was added as a cosponsor of S. 659, a bill to amend title 18, United States Code, to prohibit human chimeras.

S. 662

At the request of Ms. COLLINS, the names of the Senator from North Dakota (Mr. DORGAN) and the Senator from Massachusetts (Mr. KENNEDY) were added as cosponsors of S. 662, a bill to reform the postal laws of the United States.

S. 688

At the request of Mr. COCHRAN, the name of the Senator from Mississippi (Mr. LOTT) was added as a cosponsor of S. 688, a bill to amend the Internal Revenue Code of 1986 to clarify the excise tax exemptions for aerial applicators of fertilizers or other substances.

S. 702

At the request of Mr. BAUCUS, the name of the Senator from Montana (Mr. BURNS) was added as a cosponsor of S. 702, a bill to amend the Internal Revenue Code of 1986 to repeal the occupational taxes relating to distilled spirits, wine, and beer.

S. 737

At the request of Mr. CRAIG, the name of the Senator from New Jersey (Mr. LAUTENBERG) was added as a cosponsor of S. 737, a bill to amend the USA PATRIOT ACT to place reasonable limitations on the use of surveillance and the issuance of search warrants, and for other purposes.

S. CON. RES. 11

At the request of Mr. SESSIONS, the names of the Senator from New Mexico (Mr. BINGAMAN), the Senator from North Carolina (Mrs. DOLE), the Senator from Iowa (Mr. HARKIN), the Senator from Hawaii (Mr. INOUYE), the Senator from Louisiana (Ms. LANDRIEU) and the Senator from Colorado (Mr. SALAZAR) were added as cosponsors of S. Con. Res. 11, a concurrent resolution honoring the Tuskegee Airmen for their bravery in fighting for our freedom in World War II, and for their contribution in creating an integrated United States Air Force.

S. CON. RES. 25

At the request of Mr. DEMINT, his name was added as a cosponsor of S. Con. Res. 25, a concurrent resolution expressing the sense of Congress regarding the application of Airbus for launch aid.

At the request of Mr. BROWNBACK, his name and the names of the Senator from North Dakota (Mr. DORGAN), the Senator from Georgia (Mr. CHAMBLISS) and the Senator from Missouri (Mr. BOND) were added as cosponsors of S. Con. Res. 25, supra.

At the request of Mr. ISAKSON, his name was added as a cosponsor of S. Con. Res. 25, supra.

At the request of Mrs. LINCOLN, her name was added as a cosponsor of S. Con. Res. 25, supra.

At the request of Mr. FRIST, the names of the Senator from Nebraska (Mr. NELSON), the Senator from Wyoming (Mr. THOMAS), the Senator from Oregon (Mr. SMITH), the Senator from New Mexico (Mr. BINGAMAN), the Senator from North Dakota (Mr. CONRAD) and the Senator from Wisconsin (Mr. KOHL) were added as cosponsors of S. Con. Res. 25, supra.

S. RES. 31

At the request of Mr. COLEMAN, the name of the Senator from New Hampshire (Mr. SUNUNU) was added as a cosponsor of S. Res. 31, a resolution expressing the sense of the Senate that the week of August 7, 2005, be designated as ''National Health Center Week'' in order to raise awareness of health services provided by community, migrant, public housing, and homeless health centers, and for other purposes.

AMENDMENT NO. 316

At the request of Mr. NELSON of Florida, the name of the Senator from Washington (Ms. CANTWELL) was added as a cosponsor of amendment No. 316 intended to be proposed to H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. DURBIN:

S. 743. A bill for the relief of Nabil Raja Dandan, Ketty Dandan, Souzi Dandan, Raja Nabil Dandan, and Sandra Dandan; to the Committee on the Judiciary.

Mr. DURBIN. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 743

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. PERMANENT RESIDENT STATUS FOR NABIL RAJA DANDAN, KETTY DANDAN, SOUZI DANDAN, RAJA NABIL DANDAN, AND SANDRA DANDAN.

(a) IN GENERAL.—Notwithstanding subsections (a) and (b) of section 201 of the Immigration and Nationality Act, Nabil Raja Dandan, Ketty Dandan, Souzi Dandan, Raja Nabil Dandan, and Sandra Dandan shall each be eligible for issuance of an immigrant visa or for adjustment of status to that of an alien lawfully admitted for permanent residence upon filing an application for issuance of an immigrant visa under section 204 of such Act or for adjustment of status to lawful permanent resident.

(b) ADJUSTMENT OF STATUS.—If Nabil Raja Dandan, Ketty Dandan, Souzi Dandan, Raja Nabil Dandan, and Sandra Dandan enter the United States before the filing deadline specified in subsection (c), Nabil Raja Dandan, Ketty Dandan, Souzi Dandan, Raja Nabil Dandan, and Sandra Dandan shall each be considered to have entered and remained lawfully and shall be eligible for adjustment of status under section 245 of the Immigration and Nationality Act as of the date of the enactment of this Act.

(c) DEADLINE FOR APPLICATION AND PAYMENT OF FEES.—Subsections (a) and (b) shall apply only if the application for issuance of an immigrant visa or the application for adjustment of status is filed with appropriate fees within 2 years after the date of the enactment of this Act.

(d) REDUCTION OF IMMIGRANT VISA NUMBER.—Upon the granting of an immigrant visa or permanent residence to Nabil Raja Dandan, Ketty Dandan, Souzi Dandan, Raja Nabil Dandan, and Sandra Dandan, the Secretary of State shall instruct the proper officer to reduce by 5, during the current or next following fiscal year, the total number of immigrant visas that are made available to natives of the country of the aliens' birth under section 203(a) of the Immigration and Nationality Act or, if applicable, the total number of immigrant visas that are made available to natives of the country of the aliens' birth under section 202(e) of such Act.

By Mr. BYRD (for himself, Mr. JEFFORDS, Mr. KERRY, and Mr. BINGAMAN):

S. 745. A bill to amend the Global Environmental Protection Assistance Act of 1989 to promote international clean energy development, to open and expand clean energy markets abroad, to engage developing nations in the advancement of sustainable energy use and climate change actions, and for other purposes; to the Committee on Foreign Relations.

Mr. BYRD. Mr. President, today I am introducing the International Clean Energy Deployment and Global Energy Markets Investment Act of 2005. This is a forward-thinking, made-in-America action plan that can serve as a building block that puts the right structure and mechanisms in place, mobilizes the necessary resources, and helps define the course we will have to take in order to better design the global energy system that will be built in coming decades. But let me also state up front what this legislation does not do. It is not intended to be a substitute for the need to seek globally binding climate change agreements that would include commitments from the largest industrial and developing country emitters of greenhouse gases. However, my legislation can serve as a meaningful first step to seriously engage developing countries in tackling the critical link between our mutual energy and climate change challenges. Additionally, such engagement can be a new cornerstone for the U.S. to demonstrate that we are committed to working with other nations on a broad range of international issues.

We must start by honestly addressing several bottom line issues. We know that the world's population will likely grow by about 50 percent during this century, and those people, most of whom will live in developing nations, will be seeking the necessary resources to live. These nations will be growing rapidly and their requirements for energy will follow suit for the foreseeable future. But at the same time, we know that growth needs to be undertaken in as clean and efficient a manner as possible. When economies heat up so does energy use, greenhouse gas emissions, and that global change. How can any nation's economy continue to grow and provide good jobs in a way that does not undermine its environment and vice versa? How do we find ways to address these problems of mutual concern for our citizens and for their children and grandchildren? These issues matter as much in the United States as they do in places in China, India, Brazil, and Mexico.

This legislation's journey began several years when I included, in the fiscal year 2001 Energy and Water Appropriations bill, language that called for a clean energy exports and market development strategic plan. The Bush administration sent that report to Congress in October 2002. Since that time, I have been urging, cajoling, and pushing Federal agencies like the Department of State, Department of Energy, Department of Commerce, and the U.S. Agency for International Development to cooperate more and increase public/private efforts to help export U.S. clean energy technologies and open more of these markets abroad. It is now time to take the next step and introduce this legislation in order to expand upon that foundation.

By taking this next step, I am suggesting that we must work together to develop a broad-based action plan that builds on American ingenuity, encourages the export of made-in-America clean energy technologies, helps advance developing country climate change engagement, increases international sustainable development, and strengthens interagency and public/private cooperation. The objectives of this legislation further include efforts to increase access to clean and reliable energy services, reduce greenhouse gas emissions, increase energy security, and integrate these goals in a manner that is consistent with U.S. foreign policy interests around the world. Finally, my legislation essentially codifies and enhances the administrative structure that has already been put in place.

On a related but separate note, I am very aware that on February 16, 2005, the Kyoto Protocol came into force. As the primary author of Senate Resolution 98, which passed unanimously in 1997, I worked to establish core principles which should be part of any future binding, international climate change agreement. Those principles were that a treaty should be cost effective and should include the participation of developing nations, especially the largest emitters. The Kyoto Protocol does not meet those principles for the United States.

There have been widely varying interpretations of that resolution, especially by the Bush administration. The Byrd-Hagel resolution was intended to guide our Nation's role in international negotiations, not kill that effort. It was meant to strengthen the hand of any administration as it sat at the international negotiating table, but this White House has used the Senate's vote as an excuse to totally abandon the negotiations and offer, instead, only hollow alternatives. Yet, it is the height of hypocrisy for the Bush administration to claim that it is defending that resolution's principles when, as a matter of fact, it has disregarded its very purpose.

That Senate resolution directed that any climate change treaty include commitments for the developing world, like China and India, which will surpass the U.S. in greenhouse gas emissions by 2025. These commitments could lead to real reductions. An international treaty with binding commitments also could allow for developing countries' continued economic growth with relatively modest requirements at first, pacing upwards, with ultimate goals to be achieved over time.

Moreover, given their expected economic growth and energy demands, developing nations are a primary market for clean energy technologies. But, this multi-billion dollar window of opportunity could close for the United States. With little pressure on developing countries to reduce or contain their emissions growth, these potentially enormous markets for clean energy technologies, made in the U.S., could slip away. Thus, my legislation can serve as a commonsense foot-in-the-door to help jump start efforts to seek fair and effective globally binding agreements in the future.

Despite this, the President has clearly stated that the U.S. would only pursue voluntary measures both domestically and internationally, and he continues to follow that path despite the fact that no major environmental problem has ever been solved by a purely voluntary basis. Since retreating from the international forum, his own climate change program is a strong testament to prove that voluntary actions are not likely to result in any serious decrease in overall emissions. While global climate change is long-term problem, it does not mean that we can put off action indefinitely. If we wait for decades to take more significant actions, then more radical measures will likely be necessary.

Additionally, I have long said that the U.S. needs a comprehensive, national energy strategy that has bipartisan support. A serious energy efficiency program, bolstered by the promotion of renewable energy and other clean home-grown energy sources, provides a compass point for a U.S. energy strategy. At its core, we must rely on our nation's domestic energy assets, especially coal. Coal must become a primary fuel source for new energy demands into the 21st century. However, to do so requires that we think differently about coal.

It is a myth to say that the U.S. or other major nations like China and India will stop burning coal any time soon. Yet, we must begin to treat this plentiful resource like black gold and use it in a much cleaner and more efficient way. We must accelerate the deployment of commercial-scale technologies that move us away from simply burning coal toward the enhanced ability to transform coal into a variety of energy products. We can begin to meet this challenge by demonstrating and deploying advanced power generation, especially coal gasification and carbon sequestration technologies, as well as by producing synthetic fuels and, eventually, hydrogen for use in

other sectors of the economy. This broad approach also requires sending strong and clear regulatory and market signals which can significantly reconcile numerous environmental and climate change concerns, stimulate technology deployment, and set the stage for coal into the future.

The path that I am proposing here today goes far beyond the energy proposals that this White House has offered. Pursuing this course will take steadfast leadership, hard work, and American ingenuity to move forward in a responsible, balanced, and intelligent way. It is time for industry, labor, academic, environmental, and community interests to work with policymakers to find common ground. Commonsense market-based and regulatory approaches, emerging technology platforms, and new policy perspectives can bring these divergent groups together.

I believe it is time to send the message that there will likely be a binding carbon management regime in place for the U.S. at some point in the future. It may not be in place tomorrow or the next day or even in the next 2 to 4 years. It may also be a modest approach initially, but it is on the horizon. We certainly cannot run until we have walked, and we cannot walk until we have taken a step. But we can no longer stand still forever. By acting boldly, we can champion a new energy and environmental legacy that will benefit all the world's citizens.

With regard to my legislation's introduction today, our Nation must recognize the incredible impact that U.S. technologies and ideas can have in helping to meet other nations' energy needs in a more sustainable way. We must work to open and expand international markets for a range of U.S. clean energy technologies and simultaneously address global energy security, economic, trade, and environmental objectives.

I thank you for this opportunity and hope this legislation will receive serious consideration. I urge Members to see this as a key component of the architecture that will be necessary if we ever hope to seriously tackle the tough energy and environment issues before us as well as a way to enhance our broader foreign policy and climate change efforts around the world.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 745

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''International Clean Energy Deployment and Global Energy Markets Investment Act of 2005''.

SEC. 2. PURPOSES.

The purposes of this Act are—

(1) to strengthen the cooperation of the United States with developing countries in addressing critical energy needs and global climate change;

(2) to promote sustainable economic development, increase access to modern energy services, reduce greenhouse gas emissions, and strengthen energy security and independence in developing countries through the deployment of clean energy technologies;

(3) to facilitate the export of clean energy technologies to developing countries;

(4) to reduce the trade deficit of the United States through the export of United States energy technologies and technological expertise;

(5) to retain and create manufacturing and related service jobs in the United States;

(6) to integrate the objectives described in paragraphs (1) through (5) in a manner consistent with interests of the United States, into the foreign policy of the United States;

(7) to authorize funds for clean energy development activities in developing countries; and

(8) to ensure that activities funded under part C of title VII of the Global Environmental Protection Assistance Act of 1989 (as added by section 3) contribute to economic growth, poverty reduction, good governance, the rule of law, property rights, and environmental protection.

SEC. 3. CLEAN ENERGY TECHNOLOGY DEPLOYMENT IN DEVELOPING COUNTRIES.

Title VII of the Global Environmental Protection Assistance Act of 1989 (Public Law 101–240; 103 Stat. 2521) is amending by adding at the end the following:

''PART C—CLEAN ENERGY TECHNOLOGY DEPLOYMENT IN DEVELOPING COUNTRIES

''SEC. 731. DEFINITIONS.

''In this part:

''(1) CLEAN ENERGY TECHNOLOGY.—The term 'clean energy technology' means an energy supply or end-use technology that, over its lifecycle and compared to a similar technology already in commercial use in any developing country—

''(A) is reliable, affordable, economically viable, socially acceptable, and compatible with the needs and norms of the host country;

''(B) results in—

''(i) reduced emissions of greenhouse gases; or

''(ii) increased geological sequestration; and

''(C) may—

''(i) substantially lower emissions of air pollutants; and

''(ii) generate substantially smaller or less hazardous quantities of solid or liquid waste.

''(2) DEPARTMENT.—The term 'Department' means the Department of State.

''(3) DEVELOPING COUNTRY.—

''(A) IN GENERAL.—The term 'developing country' means any country not listed in Annex I of the United Nations Framework Convention on Climate Change, done at New York on May 9, 1992.

''(B) INCLUSION.—The term 'developing country' may include a country with an economy in transition, as determined by the Secretary.

''(4) GEOLOGICAL SEQUESTRATION.—The term 'geological sequestration' means the capture and long-term storage in a geological formation of a greenhouse gas from an energy producing facility, which prevents the release of greenhouse gases into the atmosphere.

''(5) GREENHOUSE GAS.—The term 'greenhouse gas' means—

''(A) carbon dioxide;

''(B) methane;

''(C) nitrous oxide;

''(D) hydrofluorocarbons;

''(E) perfluorocarbons; and

''(F) sulfur hexafluoride.

''(6) INSTITUTION OF HIGHER EDUCATION.—The term 'institution of higher education' has the meaning given the term in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a)).

''(7) INTERAGENCY WORKING GROUP.—The term 'Interagency Working Group' means the Interagency Working Group on Clean Energy Technology Exports established under section 732(b)(1)(A).

''(8) NATIONAL LABORATORY.—The term 'National Laboratory' means any of the following laboratories owned by the Department of Energy:

''(A) Ames Laboratory.

''(B) Argonne National Laboratory.

''(C) Brookhaven National Laboratory.

''(D) Fermi National Accelerator Laboratory.

''(E) Idaho National Engineering and Environmental Laboratory.

''(F) Lawrence Berkeley National Laboratory.

''(G) Lawrence Livermore National Laboratory.

''(H) Los Alamos National Laboratory.

''(I) National Energy Technology Laboratory.

''(J) National Renewable Energy Laboratory.

''(K) Oak Ridge National Laboratory.

''(L) Pacific Northwest National Laboratory.

''(M) Princeton Plasma Physics Laboratory.

''(N) Sandia National Laboratories.

''(O) Stanford Linear Accelerator Center.

''(P) Thomas Jefferson National Accelerator Facility.

''(9) QUALIFYING PROJECT.—The term 'qualifying project' means a project meeting the criteria established under section 735(b).

''(10) SECRETARY.—The term 'Secretary' means the Secretary of State.

''(11) STATE.—The term 'State' means—

''(A) a State;

''(B) the District of Columbia;

''(C) the Commonwealth of Puerto Rico; and

''(D) any other territory or possession of the United States.

''(12) STRATEGY.—The term 'Strategy' means the strategy established under section 733.

''(13) TASK FORCE.—The term 'Task Force' means the Task Force on International Clean Energy Cooperation established under section 732(a).

''(14) UNITED STATES.—The term 'United States', when used in a geographical sense, means all of the States.

''SEC. 732. ORGANIZATION.

''(a) TASK FORCE.—

''(1) ESTABLISHMENT.—Not later than 90 days after the date of enactment of this part, the President shall establish a Task Force on International Clean Energy Cooperation.

''(2) COMPOSITION.—The Task Force shall be composed of—

''(A) the Secretary, who shall serve as Chairperson; and

''(B) representatives, appointed by the head of the respective Federal agency, of—

''(i) the Department of Commerce;

''(ii) the Department of the Treasury;

''(iii) the Department of Energy;

''(iv) the Environmental Protection Agency;

''(v) the United States Agency for International Development;

''(vi) the Export-Import Bank;

''(vii) the Overseas Private Investment Corporation;

''(viii) the Trade and Development Agency;

''(ix) the Small Business Administration;

''(x) the Office of United States Trade Representative; and

''(xi) other Federal agencies, as determined by the President.

''(3) DUTIES.—

''(A) LEAD AGENCY.—The Task Force shall act as the lead agency in the development and implementation of strategy under section 733.

''(B) COORDINATION AND IMPLEMENTATION.—The Task Force shall support the coordination and implementation of programs under sections 1331, 1332, and 1608 of the Energy Policy Act of 1992 (42 U.S.C. 13361, 13362, 13387).

''(4) TERMINATION.—The Task Force, including any working group established by the Task Force, shall terminate on January 1, 2016.

''(b) WORKING GROUPS.—

''(1) ESTABLISHMENT.—The Task Force—

''(A) shall establish an Interagency Working Group on Clean Energy Technology Exports; and

''(B) may establish other working groups as necessary to carry out this part.

''(2) COMPOSITION OF INTERAGENCY WORKING GROUP.—The Interagency Working Group shall be composed of—

''(A) the Secretary of Energy, the Secretary of Commerce, and the Administrator of the United States Agency for International Development, who shall jointly serve as Chairpersons; and

''(B) other members, as determined by the Task Force.

''(c) INTERAGENCY CENTER.—

''(1) ESTABLISHMENT.—There is established an Interagency Center in the Office of International Energy Market Development of the Department of Energy.

''(2) DUTIES.—The Interagency Center shall—

''(A) assist the Interagency Working Group in carrying out this part; and

''(B) perform such other duties as are determined to be appropriate by the Secretary of Energy.

''SEC. 733. STRATEGY.

''(a) INITIAL STRATEGY.—

''(1) IN GENERAL.—Not later than 1 year after the date of enactment of this part, the Task Force shall develop and submit to the President a Strategy to—

''(A) support the development and implementation of programs and policies in developing countries to promote the adoption of clean energy technologies and energy efficiency technologies and strategies, with an emphasis on those developing countries that are expected to experience the most significant growth in energy production and use over the next 20 years;

''(B) open and expand clean energy technology markets and facilitate the export of clean energy technology to developing countries, in a manner consistent with the subsidy codes of the World Trade Organization;

''(C) integrate into the foreign policy objectives of the United States the promotion of—

''(i) clean energy technology deployment and reduced greenhouse gas emissions in developing countries; and

''(ii) clean energy technology exports;

''(D) establish a pilot program that provides financial assistance for qualifying projects; and

''(E) develop financial mechanisms and instruments (including securities that mitigate the political and foreign exchange risks of uses that are consistent with the foreign policy of the United States by combining the private sector market and government enhancements) that—

''(i) are cost-effective; and

''(ii) facilitate private capital investment in clean energy technology projects in developing countries.

''(2) TRANSMISSION TO CONGRESS.—On receiving the Strategy from the Task Force under paragraph (1), the President shall transmit to Congress the Strategy.

''(b) UPDATES.—

''(1) IN GENERAL.—Not later than 2 years after the date of submission of the initial Strategy under subsection (a)(1), and every 2 years thereafter—

''(A) the Task Force shall—

''(i) review and update the Strategy; and

''(ii) report the results of the review and update to the President; and

''(B) the President shall submit to Congress a report on the Strategy.

''(2) INCLUSIONS.—The report shall include—

''(A) the updated Strategy;

''(B) a description of the assistance provided under this part;

''(C) the results of the pilot projects carried out under this part, including a comparative analysis of the relative merits of each pilot project;

''(D) the activities and progress reported by developing countries to the Department under section 736(b)(2); and

''(E) the activities and progress reported towards meeting the goals established under section 736(b)(2).

''(c) CONTENT.—In developing, updating, and submitting a report on the Strategy, the Task Force shall—

''(1) assess—

''(A) energy trends, energy needs, and potential energy resource bases in developing countries; and

''(B) the implications of the trends and needs for domestic and global economic and security interests;

''(2) analyze technology, policy, and market opportunities for international development, demonstration, and deployment of clean energy technologies and strategies;

''(3) examine relevant trade, tax, finance, international, and other policy issues to assess what policies, in the United States and in developing countries, would help open markets and improve clean energy technology exports of the United States in support of—

''(A) enhancing energy innovation and cooperation, including energy sector and market reform, capacity building, and financing measures;

''(B) improving energy end-use efficiency technologies (including buildings and facilities) and vehicle, industrial, and co-generation technology initiatives; and

''(C) promoting energy supply technologies, including fossil, nuclear, and renewable technology initiatives;

''(4) investigate issues associated with building capacity to deploy clean energy technology in developing countries, including—

''(A) energy-sector reform;

''(B) creation of open, transparent, and competitive markets for clean energy technologies;

''(C) the availability of trained personnel to deploy and maintain clean energy technology; and

''(D) demonstration and cost-buydown mechanisms to promote first adoption of clean energy technology;

''(5) establish priorities for promoting the diffusion and adoption of clean energy technologies and strategies in developing countries, taking into account economic and security interests of the United States and opportunities for the export of technology of the United States;

''(6) identify the means of integrating the priorities established under paragraph (5) into bilateral, multilateral, and assistance activities and commitments of the United States;

''(7) establish methodologies for the measurement, monitoring, verification, and reporting under section 736(b)(2) of the greenhouse gas emission impacts of clean energy projects and policies in developing countries;

''(8) establish a registry that is accessible to the public through electronic means (including through the Internet) in which information reported under section 736(b)(2) shall be collected;

''(9) make recommendations to the heads of appropriate Federal agencies on ways to streamline Federal programs and policies to improve the role of the agencies in the international development, demonstration, and deployment of clean energy technology;

''(10) make assessments and recommendations regarding the distinct technological, market, regional, and stakeholder challenges necessary to deploy clean energy technology;

''(11) recommend conditions and criteria that will help ensure that funds provided by the United States promote sound energy policies in developing countries while simultaneously opening their markets and exporting clean energy technology of the United States;

''(12) establish an advisory committee, composed of representatives of the private sector and other interested groups, on the export and deployment of clean energy technology;

''(13) establish a coordinated mechanism for disseminating information to the private sector and the public on clean energy technologies and clean energy technology transfer opportunities; and

''(14) monitor the progress of each Federal agency in promoting the purposes of this part, in accordance with—

''(A) the 5-year strategic plan submitted to Congress in October 2002; and

''(B) other applicable law.

''SEC. 734. CLEAN ENERGY ASSISTANCE TO DEVELOPING COUNTRIES.

''(a) IN GENERAL.—Subject to section 736, the Secretary may provide assistance to developing countries for activities that are consistent with the priorities established in the Strategy.

''(b) ASSISTANCE.—The assistance may be provided through—

''(1) the Millennium Challenge Corporation established under section 604(a) of the Millennium Challenge Act of 2003 (22 U.S.C. 7703(a));

''(2) the Global Village Energy Partnership; and

''(3) other international assistance programs or activities of—

''(A) the Department;

''(B) the United States Agency for International Development; and

''(C) other Federal agencies.

''(c) ELIGIBLE ACTIVITIES.—The activities supported under this section include—

''(1) development of national action plans and policies to—

''(A) facilitate the provision of clean energy services and the adoption of energy efficiency measures;

''(B) identify linkages between the use of clean energy technologies and the provision of agricultural, transportation, water, health, educational, and other development-related services; and

''(C) integrate the use of clean energy technologies into national strategies for economic growth, poverty reduction, and sustainable development;

''(2) strengthening of public and private sector capacity to—

''(A) assess clean energy needs and options;

''(B) identify opportunities to reduce, avoid, or sequester greenhouse gas emissions;

''(C) establish enabling policy frameworks;

''(D) develop and access financing mechanisms; and

''(E) monitor progress in implementing clean energy and greenhouse gas reduction strategies;

''(3) enactment and implementation of market-favoring measures to promote commercial-based energy service provision and to improve the governance, efficiency, and financial performance of the energy sector; and

''(4) development and use of innovative public and private mechanisms to catalyze and leverage financing for clean energy technologies, including use of the development credit authority of the United States Agency for International Development and credit enhancements through the Export-Import Bank and the Overseas Private Investment Corporation.

''SEC. 735. PILOT PROGRAM FOR DEMONSTRATION PROJECTS.

''(a) IN GENERAL.—Not later than 2 years after the date of enactment of this part, the Secretary, in consultation with the Secretary of Energy and the Administrator of the United States Agency for International Development, shall, by regulation, establish a pilot program that provides financial assistance for qualifying projects consistent with the Strategy and the performance criteria established under section 736.

''(b) QUALIFYING PROJECTS.—To be qualified to receive assistance under this section, a project shall—

''(1) be a project—

''(A) to construct an energy production facility in a developing country for the production of energy to be consumed in the developing country; or

''(B) to improve the efficiency of energy use in a developing country;

''(2) be a project that—

''(A) is submitted by a firm of the United States to the Secretary in accordance with procedures established by the Secretary by regulation;

''(B) meets the requirements of section 1608(k) of the Energy Policy Act of 1992 (42 U.S.C. 13387(k));

''(C) uses technology that has been successfully developed or deployed in the United States; and

''(D) is selected by the Secretary without regard to the developing country in which the project is located, with notice of the selection published in the Federal Register; and

''(3) when deployed, result in a greenhouse gas emission reduction (when compared to the technology that would otherwise be deployed) of at least—

''(A) in the case of a unit or energy-efficiency measure placed in service during the period beginning on the date of enactment of this part and ending on December 31, 2009, 20 percentage points;

''(B) in the case of a unit or energy-efficiency measure placed in service during the period beginning on January 1, 2010, and ending on December 31, 2019, 40 percentage points; and

''(C) in the case of a unit or energy-efficiency measure placed in service after December 31, 2019, 60 percentage points.

''(c) FINANCIAL ASSISTANCE.—

''(1) IN GENERAL.—For each qualifying project selected by the Secretary to participate in the pilot program, the Secretary shall make a loan or loan guarantee available for not more than 50 percent of the total cost of the project.

''(2) INTEREST RATE.—The interest rate on a loan made under this subsection shall be equal to the current average yield on outstanding obligations of the United States with remaining periods of maturity comparable to the maturity of the loan.

''(3) HOST COUNTRY CONTRIBUTION.—To be eligible for a loan or loan guarantee for a project in a host country under this subsection, the host country shall—

''(A) make at least a 10 percent contribution toward the total cost of the project; and

''(B) verify to the Secretary (using the methodology established under section 733(c)(7)) the quantity of annual greenhouse gas emissions reduced, avoided, or sequestered as a result of the deployment of the project.

''(4) CAPACITY BUILDING RESEARCH.—

''(A) IN GENERAL.—A proposal made for a qualifying project may include a research component intended to build technological capacity within the host country.

''(B) RESEARCH.—To be eligible for a loan or loan guarantee under this paragraph, the research shall—

''(i) be related to the technology being deployed; and

''(ii) involve—

''(I) an institution in the host country; and

''(II) a participant from the United States that is an industrial entity, an institution of higher education, or a National Laboratory.

''(C) HOST COUNTRY CONTRIBUTION.—To be eligible for a loan or loan guarantee for research in a host country under this paragraph, the host country shall make at least a 50 percent contribution toward the total cost of the research.

''(5) GRANTS.—

''(A) IN GENERAL.—The Secretary, in consultation with the Secretary of Energy and the Administrator of the United States Agency for International Development, may, at the request of the United States ambassador to a host country, make grants to help address and overcome specific, urgent, and unforeseen obstacles in the implementation of a qualifying project.

''(B) MAXIMUM AMOUNT.—The total amount of a grant made for a qualifying project under this paragraph may not exceed $1,000,000.

''SEC. 736. PERFORMANCE CRITERIA FOR MAJOR ENERGY CONSUMERS.

''(a) IDENTIFICATION OF MAJOR ENERGY CONSUMERS.—Not later than 1 year after the date of enactment of this part, the Task Force shall identify those developing countries that, by virtue of present and projected energy consumption, represent the predominant share of energy use among developing countries.

''(b) PERFORMANCE CRITERIA.—As a condition of accepting assistance provided under sections 734 and 735, any developing country identified under subsection (a) shall—

''(1) meet the eligibility criteria established under section 607 of the Millennium Challenge Act of 2003 (22 U.S.C. 7706), notwithstanding the eligibility of the developing country as a candidate country under section 606 of that Act (22 U.S.C. 7705); and

''(2) agree to establish and report on progress in meeting specific goals for reduced energy-related greenhouse gas emissions and specific goals for—

''(A) increased access to clean energy services among unserved and underserved populations;

''(B) increased use of renewable energy resources;

''(C) increased use of lower greenhouse gas-emitting fossil fuel-burning technologies;

''(D) more efficient production and use of energy;

''(E) greater reliance on advanced energy technologies;

''(F) the sustainable use of traditional energy resources; or

''(G) other goals for improving energy-related environmental performance, including the reduction or avoidance of local air and water quality and solid waste contaminants.

''SEC. 737. AUTHORIZATION OF APPROPRIATIONS.

''There are authorized to be appropriated such sums as are necessary to carry out this part for each of fiscal years 2006 through 2015.''.

By Mrs. FEINSTEIN:

S. 746. A bill to amend the Reclamation Wastewater and Groundwater Study and Facilities Act to authorize the Secretary of the Interior to participate in the Inland Empire regional recycling project and in the Cucamonga Valley Water District recycling project; to the Committee on Energy and Natural Resources.

Mrs. FEINSTEIN. Mr. President, I rise today to introduce legislation to authorize the Inland Empire Regional Water Recycling initiative to be part of the U.S. Bureau of Reclamation's Title XVI program. These water recycling projects will produce approximately 100,000 acre-feet of new water annually in one of the most rapidly growing regions in the United States.

The legislation would authorize two project components: the first of which will be constructed by the Inland Empire Utilities Agency, IEUA and will produce approximately 90,000 acre feet of new water annually. The second of these projects, to be constructed by the Cucamonga Valley Water District CVWD, will produce an additional 5,000 acre feet of new water annually. Combined, approximately 100,000 acre feet of new water would be produced locally by 2010, reducing the need for imported water from the Colorado River and northern California through the California Water Project.

Significantly, the Federal cost share is only 10 percent of the upfront capital costs.

We must continue to approve measures preventing water supply shortages in the Western United States. The Inland Empire region is one of the fastest growing areas in the nation. This legislation means that the Inland Empire will use less water from the Colorado

River and northern California, and the bill will have other benefits like improved water quality, energy savings, and job creation.

The development of recycled water has enormous capacity to produce significant amounts of water, and have it ''on line'' in a relatively short period of time. Recycled water provides our State and region with the ability to ''stretch'' existing water supplies significantly and in so doing, minimize conflict and address the many needs that exist. According to the State of California's Recycled Water Task Force, water recycling is a critical part of California's water future with an estimated 1.5 million acre-feet of new supplies being developed over the next 25 years.

Today's Commissioner of Reclamation said it best when, in a speech to the WateReuse Association he declared that recycled water is ''the last river to tap.''

IEUA produces recycled water for a variety of non-potable purposes, such as landscape irrigation, agricultural irrigation, construction, and industrial cooling. By replacing these water-intensive applications with high-quality recycled water, fresh water can be conserved or used for drinking, thereby reducing the dependence on expensive imported water.

As we look into the future, it is appropriate that we are guided by lessons from the recent past. In the late 1980's, California confronted a sustained, multi-year drought. It was so serious that some observed that our State had 6-year-old first graders who had never seen ''green grass.'' California faced a crisis and water agencies and water districts, particularly in Southern California found a solution—recycled water.

In 1991, the Secretary of the Interior in President George H.W. Bush's administration, Manual Lujan, recognized that California was receiving more water from the Colorado River than its allocation. The Interior Secretary looked into the future and saw a day when California would get its allocation—4.4. million acre-feet, but no longer would it get up to 800,000 acre-feet of ''surplus flows.'' As is well known, that day has arrived.

For any political leader, it's always a tremendous challenge to look into the future and design programs and solutions to a crisis. Secretary Lujan did exactly that. In August 1991, he launched the Southern California Water Initiative, a program to evaluate and study the feasibility of water reclamation projects. Mr. Lujan's vision was to build replacement water capacity to offset the anticipated Colorado River water supply reductions. In this endeavor, Secretary Lujan was assisted by then Commissioner of Reclamation Dennis Underwood. Last week, Mr. Underwood was selected by the Metropolitan Water District of Southern California, MWD, board of directors as their new general manager and CEO.

Congress saw the wisdom of the Lujan initiative too. Congress, in 1992, was completing work on major water legislation. The Lujan initiative, a year after it was first announced, became Title XVI, the Bureau of Reclamation water recycling program that today serves the entire West, not just California. Today, water recycling is an essential water supply element in Albuquerque, Phoenix, Denver, Salt Lake City, Tucson, El Paso, San Antonio, Portland and other western metropolitan areas.

The Inland Empire Regional Water Recycling Initiative has the support of all member agencies of IEUA, as well as the water agencies downstream in Orange County. IEUA encompasses approximately 242 square miles and serves the cities of Chino, Chino Hills, Fontana, through the Fontana Water Company, Ontario, Upland, Montclair, Rancho Cucamonga through the Cucamonga Valley Water District, and the Monte Vista Water District.

This bill is also supported by and fully consistent with the Metropolitan Water District of Southern California, MWD's Integrated Resource Plan, Santa Ana Watershed Project Authority, SAWPA's Integrated Watershed Plan, and the Chino Basin Watermaster's Optimum Basin Management Plan, Inland Empire Utility Agency's Feasibility Study, Cucamonga Valley Water District's ''Every Drop Counts'' Urban Water Reuse Management Strategy, the Bureau of Reclamation's Southern California Comprehensive Water Recycling and Reuse Feasibility Study, the State of California's Water Recycling Task Force, the WateReuse Association, the Association of California Water Agencies, ACWA and the U.S. Department of the Interior's Water 2025 Initiative.

Environmental groups such as the Mono Lake Committee, Environmental Defense, Clean Water and Natural Resources Defense Council strongly support recycling projects. Business leaders such as Southern Cal Edison and Building Industry Association also support these water recycling projects.

These projects were authorized for feasibility study in Public Law 102–575, Title XVI, Section 1606, the Southern California Comprehensive Water Recycling and Reuse Feasibility Study in 1992. The State of California, Metropolitan Water District of Southern California, SAWPA and others provided $3 million of the $6 million required for the regional feasibility study of which these projects were one part.

Detailed Feasibility Studies and environmentally reports have been prepared and approved by both agencies and certified by the State of California.

Congressman DAVID DREIER introduced identical legislation in the House in the 108th Congress. The House Resources Committee and then the House of Representatives both passed the bill unanimously.

His bill is cosponsored by Representatives GARY MILLER, GRACE NAPOLITANO, KEN CALVERT and JOE BACA.

And these valuable recycling projects would never have progressed at all without the hard work and dedication of Mr. Robert DeLoach, general manager of the Cucamonga Valley Water District, and Mr. Rich Atwater, CEO and general manager of the Inland Empire Utilities Agency.

I urge my colleagues to support this bill. I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 746

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. INLAND EMPIRE AND CUCAMONGA VALLEY RECYCLING PROJECTS.

(a) SHORT TITLE.—This section may be cited as the ''Inland Empire Regional Water Recycling Initiative''.

(b) IN GENERAL.—The Reclamation Wastewater and Groundwater Study and Facilities Act (43 U.S.C. 390h et seq.) is amended—

(1) by redesignating the second section 1636 (as added by section 1(b) of Public Law 108–316 (118 Stat. 1202)) as section 1637; and

(2) by adding at the end the following:

''SEC. 1638. INLAND EMPIRE REGIONAL WATER RECYCLING PROJECT.

''(a) IN GENERAL.—The Secretary, in cooperation with the Inland Empire Utilities Agency, may participate in the design, planning, and construction of the Inland Empire regional water recycling project described in the report submitted under section 1606(c).

''(b) COST SHARING.—The Federal share of the cost of the project described in subsection (a) shall not exceed 25 percent of the total cost of the project.

''(c) LIMITATION.—Funds provided by the Secretary shall not be used for operation and maintenance of the project described in subsection (a).

''(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $20,000,000.

''SEC. 1639. CUCAMONGA VALLEY WATER RECYCLING PROJECT.

''(a) IN GENERAL.—The Secretary, in cooperation with the Cucamonga Valley Water District, may participate in the design, planning, and construction of the Cucamonga Valley Water District satellite recycling plants in Rancho Cucamonga, California, to reclaim and recycle approximately 2 million gallons per day of domestic wastewater.

''(b) COST SHARING.—The Federal share of the cost of the project described in subsection (a) shall not exceed 25 percent of the capital cost of the project.

''(c) LIMITATION.—Funds provided by the Secretary shall not be used for operation and maintenance of the project described in subsection (a).

''(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section, $10,000,000.''.

(c) CONFORMING AMENDMENTS.—The table of sections in section 2 of the Reclamation

Projects Authorization and Adjustment Act of 1992 (43 U.S.C. prec. 371) is amended by striking the item relating to the second section 1636 (as added by section 2 of Public Law 108–316 (118 Stat. 1202)) and inserting the following:

''Sec. 1637. Williamson County, Texas, Water Recycling and Reuse Project.
''Sec. 1638. Inland Empire Regional Water Recycling Program.
''Sec. 1639. Cucamonga Valley Water Recycling Project.''.

By Mr. LEVIN (for himself, Mr. THOMAS, Mr. GRASSLEY, and Ms. STABENOW):

S. 749. A bill to amend the Office of Federal Procurement Policy Act to establish a governmentwide policy requiring competition in certain executive agency procurements, and for other purposes; to the Committee on Homeland Security and Governmental Affairs.

Mr. LEVIN. Mr. President, I am pleased to join with Senators CRAIG THOMAS, CHUCK GRASSLEY and DEBBIE STABENOW in introducing the Federal Prison Industries Competition in Contracting Act. Our bill is based on a straightforward premise: it is unfair for Federal Prison Industries to deny businesses in the private sector an opportunity to compete for sales to their own government.

We have made immeasurable progress on this issue since I first introduced a similar bill ten years ago. It may seem incredible, but at that time, Federal Prison Industries (FPI) could bar private sector companies from competing for a federal contract. Under the law establishing Federal Prison Industries, if Federal Prison Industries said that it wanted a contract, it would get that contract, regardless whether a company in the private sector could provide the product better, cheaper, or faster.

Four years ago, the Senate took a giant step toward addressing this inequity when we voted 74–24 to end Federal Prison Industries' monopoly on Department of Defense contracts. Not only was that provision enacted into law, we were able to strengthen it with a second provision in last year's defense bill. Last year, we took another important step, enacting an appropriations provision which extends the DOD rules to other Federal agencies. This means that, for the first time, private sector companies should be able to compete against for contracts awarded by all Federal agencies.

Despite this progress, work remains to be done. We have heard reports from federal procurement officials and from small businesses that FPI continues to claim that it retains the mandatory source status that protected it from competition for so long. This kind of misleading statement may undermine the right to compete that we have fought so hard for so long to establish.

In addition, FPI continues to sell its services into interstate commerce on an unlimited basis. I am concerned that the sale of prison labor into commerce could have the effect of undermining companies and work forces that are already in a weakened position as a result of foreign competition. We have long taken the position as a nation that prison-made goods should not be sold into commerce, where prison wages of a few cents per hour could too easily undercut private sector competition. It is hard for me to understand why the sale of services should be treated any differently than the sale of products.

The bill that we are introducing today would address these issues by making it absolutely clear that FPI no longer has a mandatory source status, by reaffirming the critical requirement that FPI compete for its contracts, and by carefully limiting the circumstances under which prison services may be sold into the private sector economy.

I look forward to working with my colleagues on these important issues, and I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 749

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. GOVERNMENTWIDE PROCUREMENT POLICY RELATING TO PURCHASES FROM FEDERAL PRISON INDUSTRIES.

(a) REQUIREMENTS.—The Office of Federal Procurement Policy Act (41 U.S.C. 401 et seq.) is amended by adding at the end the following:

''SEC. 42. GOVERNMENTWIDE PROCUREMENT POLICY RELATING TO PURCHASES FROM FEDERAL PRISON INDUSTRIES.

''(a) COMPETITION REQUIRED.—In the procurement of any product that is authorized to be offered for sale by Federal Prison Industries and is listed in the catalog published and maintained by Federal Prison Industries under section 4124(b) of title 18, United States Code, or any service offered to be provided by Federal Prison Industries, the head of an executive agency shall, except as provided in subsection (d)—

''(1) use competitive procedures for entering into a contract for the procurement of such product, in accordance with the requirements applicable to such executive agency under sections 2304 and 2305 of title 10, United States Code, or sections 303 through 303C of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253 through 253c); or

''(2) make an individual purchase under a multiple award contract in accordance with competition requirements applicable to such purchases.

''(b) OFFERS FROM FEDERAL PRISON INDUSTRIES.—In conducting a procurement pursuant to subsection (a), the head of an executive agency shall—

''(1) notify Federal Prison Industries of the procurement at the same time and in the same manner as other potential offerors are notified;

''(2) consider a timely offer from Federal Prison Industries for award in the same manner as other offers (regardless of whether Federal Prison Industries is a contractor under an applicable multiple award contract); and

''(3) consider a timely offer from Federal Prison Industries without limitation as to the dollar value of the proposed purchase, unless the contract opportunity has been reserved for competition exclusively among small business concerns pursuant to section 15(a) of the Small Business Act (15 U.S.C. 644(a)) and its implementing regulations.

''(c) IMPLEMENTATION BY AGENCIES.—The head of each executive agency shall ensure that—

''(1) the executive agency does not purchase a Federal Prison Industries product or service unless a contracting officer of the executive agency determines that the product or service is comparable to a product or service available from the private sector that best meet the executive agency's needs in terms of price, quality, and time of delivery; and

''(2) Federal Prison Industries performs its contractual obligations to the executive agency to the same extent as any other contractor for the executive agency.

''(d) EXCEPTION.—

''(1) OTHER PROCEDURES.—The head of an executive agency may use procedures other than competitive procedures to enter into a contract with Federal Prison Industries only under the following circumstances:

''(A) The Attorney General personally determines in accordance with paragraph (2), within 30 days after Federal Prison Industries has been informed by the head of that executive agency of an opportunity for award of a contract for a product or service, that—

''(i) Federal Prison Industries cannot reasonably expect fair consideration in the selection of an offeror for award of the contract on a competitive basis; and

''(ii) the award of the contract to Federal Prison Industries for performance at a penal or correctional facility is necessary to maintain work opportunities not otherwise available at the penal or correctional facility that prevent circumstances that could reasonably be expected to significantly endanger the safe and effective administration of such facility.

''(B) The product or service is available only from Federal Prison Industries and the contract may be awarded under the authority of section 2304(c)(1) of title 10, United States Code, or section 303(c)(1) of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253(c)(1)), as may be applicable, pursuant to the justification and approval requirements relating to noncompetitive procurements specified by law and the Federal Acquisition Regulation.

''(2) DETERMINATION.—

''(A) IN GENERAL.—A determination made by the Attorney General regarding a contract pursuant to paragraph (1)(A) shall be—

''(i) supported by specific findings by the warden of the penal or correctional institution at which a Federal Prison Industries workshop is scheduled to perform the contract;

''(ii) supported by specific findings by Federal Prison Industries regarding the reasons that it does not expect to be selected for award of the contract on a competitive basis; and

''(iii) made and reported in the same manner as a determination made pursuant to section 303(c)(7) of the Federal Property and

Administrative Services Act of 1949 (41 U.S.C. 253(c)(7)).

''(B) NONDELEGATION.—The Attorney General may not delegate to any other official authority to make a determination that is required under paragraph (1)(A) to be made personally by the Attorney General.

''(e) PERFORMANCE AS A SUBCONTRACTOR.—

''(1) IN GENERAL.—A contractor or potential contractor under a contract entered into by the head of an executive agency may not be required to use Federal Prison Industries as a subcontractor or supplier of a product or provider of a service for the performance of the contract by any means, including means such as—

''(A) a provision in a solicitation of offers that requires a contractor to offer to use or specify a product or service of Federal Prison Industries in the performance of the contract;

''(B) a contract clause that requires the contractor to use or specify a product or service (or classes of products or services) offered by Federal Prison Industries in the performance of the contract; or

''(C) any contract modification that requires the use of a product or service of Federal Prison Industries in the performance of the contract.

''(2) SUBCONTRACTOR OR SUPPLIER.—A contractor using Federal Prison Industries as a subcontractor or supplier in furnishing a commercial product pursuant to a contract of an executive agency shall implement appropriate management procedures to prevent an introduction of an inmate-produced product into the commercial market.

''(3) DEFINITION.—In this subsection, the term 'contractor', with respect to a contract, includes a subcontractor at any tier under the contract.

''(f) PROTECTION OF CLASSIFIED AND SENSITIVE INFORMATION.—The head of an executive agency may not enter into any contract with Federal Prison Industries under which an inmate worker would have access to—

''(1) any data that is classified or will become classified after being merged with other data;

''(2) any geographic data regarding the location of—

''(A) surface or subsurface infrastructure providing communications or water or electrical power distribution;

''(B) pipelines for the distribution of natural gas, bulk petroleum products, or other commodities; or

''(C) other utilities; or

''(3) any personal or financial information about any individual private citizen, including information relating to such person's real property however described, without the prior consent of the individual.''.

(b) CLERICAL AMENDMENT.—The table of contents in section 1(b) of such Act is amended by adding at the end the following:

''Sec. 42. Governmentwide procurement policy relating to purchases from Federal Prison Industries.''.

SEC. 2. CONFORMING AMENDMENTS.

(a) REPEAL OF INCONSISTENT REQUIREMENTS APPLICABLE TO DEPARTMENT OF DEFENSE.—

(1) IN GENERAL.—Section 2410n of title 10, United States Code, is repealed.

(2) TABLE OF SECTIONS.—The table of sections at the beginning of chapter 141 of such title is amended by striking the item relating to section 2410n.

(b) REPEAL OF INCONSISTENT REQUIREMENTS APPLICABLE TO OTHER AGENCIES.—Section 4124 of title 18, United States Code, is amended—

(1) by striking subsections (a) and (b) and redesignating subsections (c) and (d) as subsections (a) and (b), respectively; and

(2) in subsection (a), as redesignated by paragraph (1), by striking ''Federal department, agency, and institution subject to the requirements of subsection (a)'' and inserting ''Federal department and agency''.

(c) OTHER LAWS.—

(1) JAVITS-WAGNER-O'DAY ACT.—Section 3 of the Javits-Wagner-O'Day Act (41 U.S.C. 48) is amended by striking ''which, under section 4124 of such title, is required'' and inserting ''which is required by law''.

(2) SMALL BUSINESS ACT.—Section 31(b)(4) of the Small Business Act (15 U.S.C. 657a(b)(4)) is amended by striking ''a different source under section 4124 or 4125 of title 18, United States Code, or the Javits-Wagner-O'Day Act (41 U.S.C. 46 et seq.)'' and inserting ''a different source under the Javits-Wagner-O'Day Act (41 U.S.C. 46 et seq.) or Federal Prison Industries under section 40(d) of the Office of Federal Procurement Policy Act or section 4125 of title 18, United States Code''.

SEC. 3. UNLAWFUL TRANSPORTATION OR IMPORTATION OF PRODUCTS, SERVICES, OR MINERALS RESULTING FROM CONVICT LABOR.

(a) PROHIBITION.—Section 1761 of title 18, United States Code, is amended—

(1) in subsection (a), by inserting after ''reformatory institution,'' the following: ''or knowingly sells in interstate commerce any services, other than disassembly and scrap resale activities to achieve landfill avoidance, furnished wholly or in part by convicts or prisoners, except convicts or prisoners on parole, supervised release, or probation, or in any penal or reformatory institution,''; and

(2) in the matter preceding paragraph (1) in subsection (c), by inserting '', or services furnished,'' after ''or mined''.

(b) COMPLETION OF EXISTING AGREEMENTS.—Any prisoner work program operated by the Federal Government or by a State or local government which was providing a service for the commercial market through inmate labor on October 1, 2005, may continue to provide such commercial services until—

(1) the expiration that was specified in the contract or other agreement with a commercial partner on October 1, 2005; or

(2) until September 30, 2006, if no expiration date was specified in a contract or other agreement with a commercial partner.

(c) APPROVAL REQUIRED FOR LONG-TERM OPERATION OF STATE AND LOCAL PROGRAMS.—Except as provided in subsection (b), a prison work program operated by a State or local government may provide a service for the commercial market through inmate labor only if such program has been certified pursuant to section 1761(c) of title 18, United States Code, and is in compliance with the requirements of such subsection and its implementing regulations.

(d) APPROVAL REQUIRED FOR LONG-TERM OPERATION OF FEDERAL PROGRAMS.—Except as provided in subsection (b), a prison work program operated by the Federal Government may provide a service for the commercial market through inmate labor only if a Federal Prison Industries proposal to provide such services is approved in accordance with the requirements of this subsection by the Secretary of Commerce, the Secretary of Labor, and the Administrator of the Small Business Administration. Such a proposal may be approved only upon a determination, after notice and an opportunity for public comment, that—

(1) the service to be provided would be provided exclusively by foreign labor in the absence of the Federal Prison Industries proposal; and

(2) the approval of the proposal will not have an adverse impact on employment in any United States business.

(e) PROTECTION OF CLASSIFIED AND SENSITIVE INFORMATION.—A prison work program operated by a State or local government may not provide a service, including a service for the commercial market through inmate labor pursuant to section 1761(c) of title 18, United States Code, under which an inmate worker would have access to—

(1) any data that is classified or will become classified after being merged with other data;

(2) any geographic data regarding the location of—

(A) surface or subsurface infrastructure providing communications or water or electrical power distribution;

(B) pipelines for the distribution of natural gas, bulk petroleum products, or other commodities; or

(C) other utilities or transportation infrastructure; or

(3) any personal or financial information about any individual private citizen, including information relating to such person's real property however described, without the prior consent of the individual.

SEC. 4. ADDITIONAL INMATE WORK OPPORTUNITIES THROUGH PUBLIC SERVICE ACTIVITIES.

(a) COOPERATION WITH CHARITABLE ORGANIZATIONS.—Chapter 307 of title 18, United States Code, is amended by adding at the end the following:

''SEC. 4130. COOPERATION WITH CHARITABLE ORGANIZATIONS.

''(a) SALE OR DONATION OF PRODUCTS OR SERVICES TO CHARITABLE ENTITIES.—Federal Prison Industries may, subject to subsection (b), sell or donate a product or service to an organization described in section 501(c)(3) of the Internal Revenue Code of 1986 that is exempt from taxation under section 501(a) of such Code. Any product or service sold or donated under this section may be donated or sold by the charitable organization to low-income individuals who would otherwise have difficulty purchasing such products or services.

''(b) WORK AGREEMENTS WITH CHARITABLE ORGANIZATIONS.—

''(1) IN GENERAL.—Federal Prison Industries may sell or donate a product or service to a charitable organization under subsection (a) only pursuant to a work agreement with the charitable organization receiving the product or service.

''(2) TERMS.—Federal Prison Industries may enter a work agreement relating to a product and service under paragraph (1) only if—

''(A) the Attorney General determines, in consultation with the Secretary of Labor and the Secretary of Commerce, that the product or service would not be available except for the availability of inmate workers provided by Federal Prison Industries; and

''(B) the work agreement is accompanied by a written certification by the chief executive officer of the charitable organization that—

''(i) no job of a noninmate employee or volunteer of the charitable organization (or any affiliate of the charitable organization) will be abolished, and no such employee's or volunteer's work hours will be reduced, as a result of the entity being authorized to utilize inmate workers; and

''(ii) the work to be performed by the inmate workers will not supplant work currently being performed by a contractor of the charitable organization.

''(3) NONDELEGATION.—The Attorney General may not delegate authority to make determinations under paragraph (2)(A) to any person serving in a position below the lowest level of positions that are filled by appointment by the President, by and with the advice and consent of the Senate.''.

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 307 of title 18, United States Code, is amended by adding at the end the following:

''4130. Cooperation with charitable organizations.

SEC. 5. ADDITIONAL REHABILITATIVE OPPORTUNITIES FOR INMATES.

(a) ESTABLISHMENT OF PROGRAM.—

(1) IN GENERAL.—Chapter 303 of title 18, United States Code, is amended by adding at the end the following:

''SEC. 4049. ENHANCED IN-PRISON EDUCATIONAL AND VOCATIONAL ASSESSMENT AND TRAINING PROGRAM.

''(a) IN GENERAL.—There is established the Enhanced In-Prison Educational and Vocational Assessment and Training Program within the Federal Bureau of Prisons.

''(b) REQUIREMENTS.—The program established under this section shall provide, at a minimum, a full range of educational opportunities, vocational training and apprenticeships, and comprehensive release-readiness preparation for inmates in Federal prisons.''.

(2) TABLE OF SECTIONS.—The table of sections at the beginning of such chapter is amended by adding at the end the following:

''4049. Enhanced In-Prison Educational and Vocational Assessment and Training Program.

(b) IMPLEMENTATION OBJECTIVE.—It shall be the objective of the Federal Bureau of Prisons to implement the program established under section 4049 of title 18, United States Code (as added by subsection (a)), in all Federal prisons not later than 8 years after the date of the enactment of this Act.

SEC. 6. NEW PRODUCTS AND EXPANDED PRODUCTION OF EXISTING PRODUCTS.

Federal Prison Industries shall, to the maximum extent practicable, increase inmate employment by producing new products or expanding the production of existing products for the public sector that would otherwise be produced outside the United States.

SEC. 7. TRANSITIONAL PERSONNEL MANAGEMENT AUTHORITY.

Any correctional officer or other employee of Federal Prison Industries being paid with nonappropriated funds who would be separated from service because of a reduction in the net income of Federal Prison Industries before the date that is 5 years after the date of the enactment of this Act shall be—

(1) eligible for appointment (or reappointment) in the competitive service in accordance with subpart B or part III of title 5, United States Code;

(2) registered on a Bureau of Prisons reemployment priority list; and

(3) given priority for any other position within the Bureau of Prisons for which such employee is qualified.

SEC. 8. EFFECTIVE DATE.

The amendments made by this Act shall take effect 180 days after the date of the enactment of this Act.

Mr. THOMAS. President, today I am pleased to join Senator LEVIN in introducing a bill that will further my efforts to limit unfair government competition with the private sector. Throughout my career in public office, I have always taken the position that government should not compete unfairly with American small businesses. If a function or product is available in the private sector, then that should be the first avenue of choice as opposed to having that function provided by government.

For several years now, Federal Prison Industries (FPI), a government entity with the purpose of keeping prisoners busy while serving their sentences, has been providing a growing variety of products and services to both the Federal Government and the private sector. Currently, FPI employs approximately 21,000 Federal prisoners or roughly 12 percent of a population of 174,000. These prisoners are responsible for producing a diverse range of products for FPI, ranging from office furniture to clothing, as well as providing a variety of services, including telemarketing. The remaining Federal prisoners who work do so in and around Federal prisons.

Through its status as a sole provider of certain goods to the Federal Government, FPI has effectively blocked private sector businesses from having a chance to provide products, even though they may be able to provide a better product in a more cost effective and efficient manner. This situation is not in the best interest of the American taxpayer and is blatantly unfair to American small businesses across the country. Along with Senators GRASSLEY and STABENOW, SENATOR LEVIN and I propose to enact thorough and lasting reforms to Federal Prison Industries that would ensure that they no longer compete unfairly with private sector small businesses.

We have already taken steps to remedy the situation. In last year's Omnibus Appropriations bill, language was included that prohibited funding for sole source products from FPI and subjected such procurements to follow the competitive requirements set out in the Federal Acquisitions Regulations. However, there are questions as to whether the mandatory sourcing requirement still remains under these regulations. Our bill makes it very clear to Federal Managers and Federal Prison Industries that contracting officers are to use competitive procedures for the procurement of products and services. This approach allows federal agencies to select FPI for contracts if, as a result of a competitive process, FPI can meet that particular agency's requirements and the product or service is the best value offered at a fair and reasonable price. By removing FPI's status as the sole provider and subjecting procurement to competition, the above outlined provision in our bill places the control of government procurement in the hands of contracting officers and allows them to pursue the most cost effective and efficient use of taxpayer dollars.

While we believe that it is important to keep prisoners working, we do not believe that this effort should unduly harm or conflict with law-abiding businesses. This bill seeks to minimize the unfair competition that private sector companies face with the FPI. As FPI continues to expand its reach into providing services, the low costs of inmate labor is undercutting private sector businesses that provide similar services. The result is an unfair advantage for FPI. While allowing for the conclusion of current contracts, this bill also looks to limit services provided by inmates that compete with the private sector in interstate commerce. Additionally, the bill prohibits FPI from production of goods or services in which an inmate would have access to classified or sensitive data.

We support the goal of keeping prisoners busy while serving their time in prison. But FPI should not be placed in a position of advantage when providing goods to the federal government, and these activities should not unfairly compete with services already provided in the private sector. However, I recognize that there may be cases in which a particular contract is deemed essential to the safety and effective administration of a particular prison. To deal with these exceptions, a provision is included that allows the Attorney General to grant a waiver to these reform measures in certain cases.

In addition to bringing a halt to unfair business practices with the private sector, this bill allows for FPI to search for other means to keep prisoners working that do not impact the employment of individuals in the private sector. There is a need to keep inmates busy, and this legislation addresses further work opportunities though public service activities and cooperation with charitable organizations. Additionally, the bill recognizes the need for further avenues of rehabilitation and directs the Federal Bureau of Prisons to establish an Enhanced In-Prison Educational and Vocational Assessment and Training Program for inmates.

I am confident that by allowing competition for government contracts our bill will save taxpayer dollars. Through healthy competition with the private sector for procurement contracts, FPI will be forced to look internally for ways to improve its own effectiveness and efficiency. The reform of Federal Prison Industries will bring about numerous improvements, not just in cost savings, but also in preserving jobs for law abiding Americans in the private sector who work in small businesses. And the most important effect will be the better use of tax dollars. The American taxpayer is the one who will benefit most from this legislation.

A similar version of our bill was reported favorably out of the Senate Governmental Affairs Committee in the 108th Congress, and reform measures have passed overwhelming in the House of Representatives. Our bill has the support of small business groups from across the country, as well as organized labor. Clearly, reforming the way Federal Prison Industries does business is an issue that enjoys broad, bipartisan support. I believe this bill provides that reform. I would ask my colleagues to look at this legislation and consider giving it their support.

By Mr. KYL:

S. 750. A bill to amend the Internal Revenue Code of 1986 to allow look-through treatment of payments between related foreign corporations; to the Committee on Finance.

Mr. KYL. Mr. President, the 108th Congress began the necessary process, as part of the American Jobs Creation Act, of rationalizing the way the United States taxes the foreign income of U.S.-based companies, thereby helping U.S. employers to be more competitive in international markets. There was one provision, however, that passed both the Senate and the House but that was dropped out of the conference report at the eleventh hour for reasons that were unrelated to the merits of the provision. That provision extended the general rule of tax deferral to dividends, interest, rents and royalties that are paid out in the ordinary course of active business activities by one foreign affiliate of a U.S. company to another affiliate in another country. Today, I am introducing legislation to make this important change.

The United States taxes U.S. companies on their worldwide income, but the general rule is that foreign subsidiary income is not taxed by the United States until the subsidiary earnings are brought back to the U.S. parent, usually in the form of a dividend. Subpart F of the Internal Revenue Code sets forth a number of exceptions to this general rule. Subpart F imposes current tax on subsidiary earnings generally when that income is passive in nature. One such exception taxes the U.S. parent when a subsidiary receives dividends, interest, rents or royalties from another subsidiary that is located in a different country. If the two subsidiaries are in the same country, however, current taxation does not apply.

The proposal I am introducing today would extend this ''same-country'' treatment to payments between related foreign subsidiaries that are located in different countries. This proposal is identical to the one that passed the Senate last year.

Today's global economy is significantly different from the environment that existed when the subpart F rules were first introduced in 1962. As the global economy has changed, the traditional model for operating a global business has changed as well. In today's world, it makes no sense to impose a tax penalty when a company wants to fund the operations of a subsidiary in one country from the active business earnings of a subsidiary in a second country. For example, to operate efficiently, a U.S.-based manufacturer will probably establish specialized manufacturing sites, distribution hubs, and service centers. As a result, multiple related-party entities may be required to fulfill a specific customer order. U.S. tax law today inappropriately increases the cost for these foreign subsidiaries to serve their customers in a very competitive business environment by imposing current tax on these related-party payments, even though the income remains deployed in the foreign market.

Further, financial institutions have established foreign subsidiaries with headquarters in a financial center, such as London, and branches in multiple countries in the same geographic region. This permits an efficient ''hub and spoke'' form of regional operation; however, this efficient business model may make it difficult for the same country exception under current law to be met for payments of dividends and interest.

Under the existing rules, American companies are at a real and significant competitive disadvantage as compared to foreign-based companies. By creating current U.S. taxation of active business income when subsidiaries make cross-border payments, U.S.-based multinationals are penalized for responding to market or investment opportunities by redeploying active foreign earnings among foreign businesses conducted through multiple subsidiaries. To remove this impediment, subpart F should be amended to provide a general exception for interaffiliate payments of dividends, interest, rents or royalties that are generated from an active business.

The right answer is to apply ''look-through'' treatment to payments of dividends, interest, rents and royalties between subsidiaries. If the underlying earnings would not have been subject to subpart F, the payments should not be subpart F income. Look-through treatment for payments of dividends, interest, rents and royalties should be permitted as long as the payments are made out of active business, non-subpart F, income. ''Look-through'' principles are already well-developed for other purposes of the Internal Revenue Code. For example, a look-through approach to the characterization of foreign income is used for purposes of calculating foreign tax credits. A consistent application of look-through principles would simplify the interaction between subpart F and the foreign tax credit rules.

If we want to keep U.S.-based multinational companies—who employ millions of workers here at home—headquartered in the United States, we must modernize our tax rules so that our companies can be competitive around the globe I urge my colleagues to cosponsor this legislation to make a modest change in the law that will enhance the position of U.S.-based employers trying to succeed in competitive foreign markets.

By Mr. LAUTENBERG (for himself, Mr. DURBIN, and Mr. DORGAN):

S. 752. A bill to require the United States Trade Representative to pursue a complaint of anti-competitive practices against certain oil exporting countries; to the Committee on Finance.

Mr. LAUTENBERG. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 752

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''OPEC Accountability Act''.

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) Gasoline prices have nearly doubled since January, 2002, with oil recently trading at more than $58 per barrel for the first time ever.

(2) Rising gasoline prices have placed an inordinate burden on American families.

(3) High gasoline prices have hindered and will continue to hinder economic recovery.

(4) The Organization of Petroleum Exporting Countries (OPEC) has formed a cartel and engaged in anti-competitive practices to manipulate the price of oil, keeping it artificially high.

(5) Six member nations of OPEC—Indonesia, Kuwait, Nigeria, Qatar, the United Arab Emirates and Venezuela—are also members of the World Trade Organization.

(6) The agreement among OPEC member nations to limit oil exports is an illegal prohibition or restriction on the exportation or sale for export of a product under Article XI of the GATT 1994.

(7) The export quotas and resulting high prices harm American families, undermine the American economy, impede American and foreign commerce, and are contrary to the national interests of the United States.

SEC. 3. ACTIONS TO CURB CERTAIN CARTEL ANTI-COMPETITIVE PRACTICES.

(a) DEFINITIONS.—In this Act:

(1) GATT 1994.—The term ''GATT 1994'' has the meaning given such term in section 2(1)(B) of the Uruguay Round Agreements Act (19 U.S.C. 3501(1)(B)).

(2) UNDERSTANDING ON RULES AND PROCEDURES GOVERNING THE SETTLEMENT OF DISPUTES.—The term ''Understanding on Rules and Procedures Governing the Settlement of Disputes'' means the agreement described in section 101(d)(16) of the Uruguay Round Agreements Act (19 U.S.C. 3511(d)(16)).

(3) WORLD TRADE ORGANIZATION.—

(A) IN GENERAL.—The term ''World Trade Organization'' means the organization established pursuant to the WTO Agreement.

(B) WTO AGREEMENT.—The term ''WTO Agreement'' means the Agreement Establishing The World Trade Organization entered into on April 15, 1994.

(b) ACTION BY PRESIDENT.—

(1) IN GENERAL.—Notwithstanding any other provision of law, the President shall, not later than 15 days after the date of enactment of this Act, initiate consultations with the countries described in paragraph (2) to seek the elimination by those countries of any action that—

(A) limits the production or distribution of oil, natural gas, or any other petroleum product,

(B) sets or maintains the price of oil, natural gas, or any petroleum product, or

(C) otherwise is an action in restraint of trade with respect to oil, natural gas, or any petroleum product, when such action constitutes an act, policy, or practice that is unjustifiable and burdens and restricts United States commerce.

(2) COUNTRIES DESCRIBED.—The countries described in this paragraph are the following:

(A) Indonesia.

(B) Kuwait.

(C) Nigeria.

(D) Qatar.

(E) The United Arab Emirates.

(F) Venezuela.

(c) INITIATION OF WTO DISPUTE PROCEEDINGS.—If the consultations described in subsection (b) are not successful with respect to any country described in subsection (b)(2), the United States Trade Representative shall, not later than 60 days after the date of enactment of this Act, institute proceedings pursuant to the Understanding on Rules and Procedures Governing the Settlement of Disputes with respect to that country and shall take appropriate action with respect to that country under the trade remedy laws of the United States.

By Mr. FEINGOLD (for himself and Mr. MCCAIN):

S. 753. A bill to provide for modernization and improvement of the Corps of Engineers, and for other purposes; to the Committee on Environment and Public Works.

Mr. FEINGOLD. Mr. President, I rise today to introduce the Corps of Engineers Modernization and Improvement Act of 2005. I am pleased to be joined by the senior Senator from Arizona, Mr. MCCAIN, who worked with me in the 107th and 108th Congresses to reform the Corps.

We cannot ignore the record-breaking deficits that the Nation faces. Fiscal responsibility has never been so important. This legislation provides Congress with a unique opportunity to underscore our commitment to that goal. Too often, some have suggested that fiscal responsibility and environmental protection are mutually exclusive. Through this legislation, however, we can save taxpayers billions of dollars and protect the environment. As evidence of this unique opportunity, this bill is supported by Taxpayers for Common Sense, the National Taxpayers Union, the National Wildlife Federation, American Rivers, the Corps Reform Network, and Earthjustice.

Reforming the Army Corps of Engineers will be a difficult task for Congress. It involves restoring credibility and accountability to a Federal agency rocked by scandals and constrained by endlessly growing authorizations and a gloomy Federal fiscal picture, and yet an agency that Wisconsin, and many other States across the country, have come to rely upon. From the Great Lakes to the mighty Mississippi, the Corps is involved in providing aid to navigation, environmental remediation, water control and a variety of other services in my state alone.

My office has strong working relationships with the Detroit, Rock Island, and St. Paul District Offices that service Wisconsin, and I want the fiscal and management cloud over the Corps to dissipate so that the Corps can continue to contribute to our environment and our economy.

This legislation evolved from my experience in seeking to offer an amendment to the Water Resources Development Act of 2000 to create independent review of Army Corps of Engineers' projects. In response to my initiative, the bill's managers, who included the former Senator from New Hampshire, Senator Bob Smith, and the senior Senator from Montana, Mr. BAUCUS, adopted an amendment as part of their managers' package to require a National Academy of Sciences study on the issue of peer review of Corps projects.

The bill I introduce today includes many provisions that were included the bill I authored in the 108th Congress. It codifies the idea of independent review of the Corps, which was investigated through the 2000 Water Resources bill. It also provides a mechanism to speed up completion of construction for good Corps projects with large public benefits by deauthorizing low priority and economically wasteful projects.

I will note, however, that this is not the first time that the Congress has realized that the Corps needs to be reformed because of its association with pork projects. In 1836, a House Ways and Means Committee report discovered that at least 25 Corps projects were over budget. In its report, the Committee noted that Congress must ensure that the Corps institutes ''actual reform, in the further prosecution of public works.'' In 1902, Congress created a review board to determine whether Corps projects were justified. The review board was dismantled just over a decade ago, and the Corps is still linked with wasteful spending. Here we are, more than 100 years later, talking about the same issue.

The reality is that the underlying problem is not with the Corps, the problem is with Congress. All too often, Members of Congress have seen Corps projects as a way to bring home the bacon, rather than ensuring that taxpayers get the most bang for their Federal buck.

This bill puts forth bold, comprehensive reform measures. It modernizes the Corps project planning guidelines, which have not been updated since 1983. It requires the Corps to use sound science in estimating the costs and evaluating the needs for water resources projects. The bill clarifies that the national economic development and environmental protection are coequal objectives of the Corps. Furthermore, the Corps must use current discount rates when determining the costs and benefits of projects. Several Corps projects are justified using a discount rate formula established over 30 years ago, not the current government-wide discount rate promulgated by the Office of Management and Budget. By using this outdated discount rate formula, the Corps often overestimates project benefits and underestimates project costs.

This legislation also requires that a water resource project's benefits must be 1.5 times greater than the costs to the taxpayer. According to a 2002 study of the Corps backlog of projects, at least 60 Corps projects, whose combined costs total $4.6 billion, do not meet this 1.5 to 1 benefit-cost ratio. Thus, this benefit-cost ratio will save the taxpayer billions of dollars. The bill also mandates federal-local cost sharing of flood control projects and reduces the federal cost burden of these projects.

While the bill assumes a flat 50 percent cost-share for flood control projects, my home state of Wisconsin has been on the forefront of responsible flood plain management and also happens to be home to the Association of State Flood Plain Managers. As Congress considers the issue of Corps reform and the Water Resources Development Act, I hope my colleagues will take a closer look at the issue of a sliding cost scale. We should explore the possibility of creating incentives for communities with cutting-edge flood plain management practices to reduce their local share for projects.

The bill requires independent review of Corps projects. The National Academy of Sciences, the General Accounting Office, and even the Inspector General of the Army agree that independent review is an essential step to assuring that each Corps project is economically justified. Independent review will apply to projects in the following circumstances: 1. the project has costs greater than $25 million, including mitigation costs; 2. the Governor of a state that is affected by the project requests a panel; 3. the head of a federal agency charged with reviewing the project determines that the project is likely to have a significant adverse environmental or cultural impact; or 4. the Secretary of the Army determines that the project is controversial. Any party can request that

the Secretary make a determination of whether the project is controversial.

This bill also creates a Director of Independent Review within the Office of the Inspector General of the Department of the Army. The Director is responsible for empaneling experts to review projects. The Secretary is required to respond to the panel's report and explain the extent to which a final report addresses the panel's concerns. The panel report and the underlying data that the Corps uses to justify the project will be made available to the public.

The bill also requires strong environmental protection measures. The Corps is required to mitigate the environmental impacts of its projects in a variety of ways, including by avoiding damaging wetlands in the first place and either holding other lands or constructing wetlands elsewhere when it cannot avoid destroying them. The Corps requires private developers to meet this standard when they construct projects as a condition of receiving a Federal permit, and I think the Federal Government should live up to the same standards. Too often, the Corps does not complete required mitigation and enhances environmental risks.

I feel very strongly that mitigation must be completed, that the true costs of mitigation should be accounted for in Corps projects, and that the public should be able to track the progress of mitigation projects. The bill requires the Corps to develop a detailed mitigation plan for each water resources project, and conduct monitoring to demonstrate that the mitigation is working. In addition, the concurrent mitigation requirements of this bill would actually reduce the total mitigation costs by ensuring the purchase of mitigation lands as soon as possible.

This bill streamlines the existing automatic deauthorization process. Estimates of the project backlog runs from $58 billion to $41 billion. The bill requires the Corps to conduct a fiscal transparency report to review and report on the current backlog of Corps projects. Under current law, a project will be deauthorized anywhere from 7.5 to 11.5 years after authorization for construction if it receives no funding, and any type of funding will keep the project alive. This bill reduces the amount of time until automatic deauthorization based on funding to between 7.5 to 6.5 years. After 4 years of receiving no construction funding, a project goes on the Fiscal Transparency Report list. To keep one of those projects alive, Federal funds must be obligated for construction within 30 months of submission of the Fiscal Transparency Report. If no funds are obligated during that time, the project is deauthorized.

This legislation will bring out comprehensive revision of the project review and authorization procedures at the Army Corps of Engineers. My goals for the Corps are to increase transparency and accountability, to ensure fiscal responsibility, and to allow greater stakeholder involvement in their projects. I remain committed to these goals, and to seeing Corps Reform enacted as part of this Congress's Water Resources bill.

I feel that this bill is an important step down the road to a reformed Corps of Engineers. This bill establishes a framework to catch mistakes by Corps planners, deter any potential bad behavior by Corps officials to justify questionable projects, end old unjustified projects, and provide planners desperately needed support against the never-ending pressure of project boosters. Those boosters include congressional interests, which is why I believe that this body needs to champion reform—to end the perception that Corps projects are all pork and no substance.

I wish it were the case that the changes we are proposing today were not needed, but unfortunately, there is still need for this bill. I want to make sure that future Corps projects no longer fail to produce predicted benefits, stop costing the taxpayers more than the Corps estimated, do not have unanticipated environmental impacts, and are built in an environmentally compatible way. This bill will help the Corps do a better job, which is what the taxpayers and the environment deserve.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 753

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the ''Corps of Engineers Modernization and Improvement Act of 2005''.

(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.
Sec. 2. Findings and purposes.
Sec. 3. Definitions.

TITLE I—MODERNIZING PROJECT PLANNING

Sec. 101. Modern planning principles.
Sec. 102. Independent review.
Sec. 103. Benefit-cost analysis.
Sec. 104. Benefit-cost ratio.
Sec. 105. Cost sharing.

TITLE II—MITIGATION

Sec. 201. Full mitigation.
Sec. 202. Concurrent mitigation.
Sec. 203. Mitigation tracking system.

TITLE III—IMPROVING ACCOUNTABILITY

Sec. 301. Fiscal Transparency Report.
Sec. 302. Project deauthorizations.

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) the Corps of Engineers is the primary Federal agency responsible for developing and managing the harbors, waterways, shorelines, and water resources of the United States;

(2) the scarcity of Federal resources requires more efficient use of Corps resources and funding, and greater oversight of Corps analyses;

(3) appropriate cost sharing ensures efficient measures of project demands and enables the Corps to meet more national project needs;

(4) the significant demand for recreation, clean water, and healthy wildlife habitat must be fully reflected in the project planning and construction process of the Corps;

(5) the human health, environmental, and social impacts of dams, levees, shoreline stabilization structures, river training structures, river dredging, and other Corps projects and activities must be adequately considered and, in any case in which adverse impacts cannot be avoided, fully mitigated;

(6) the National Academy of Sciences has concluded that the Principles and Guidelines for water resources projects need to be modernized and updated to reflect current economic practices and environmental laws and planning guidelines; and

(7) affected interests must have access to information that will allow those interests to play a larger and more effective role in the oversight of Corps project development and mitigation.

(b) PURPOSES.—The purposes of this Act are—

(1) to ensure that the water resources investments of the United States are economically justified and enhance the environment;

(2) to provide independent review of feasibility studies, general reevaluation studies, and environmental impact statements of the Corps;

(3) to ensure timely, ecologically successful, and cost-effective mitigation for Corps projects;

(4) to ensure appropriate local cost sharing to assist in efficient project planning focused on national needs;

(5) to enhance the involvement of affected interests in feasibility studies, general reevaluation studies, and environmental impact statements of the Corps;

(6) to modernize planning principles of the Corps to meet the economic and environmental needs of riverside and coastal communities and the nation;

(7) to ensure that environmental protection and restoration, and national economic development, are co-equal goals, and given co-equal emphasis, during the evaluation, planning, and construction of Corps projects;

(8) to ensure that project planning, project evaluations, and project recommendations of the Corps are based on sound science and economics and on a full evaluation of the impacts to the health of aquatic ecosystems; and

(9) to ensure that the determination of benefits and costs of Corps projects properly reflects current law and Federal policies designed to protect human health and the environment.

SEC. 3. DEFINITIONS.

In this Act:

(1) ACADEMY.—The term ''Academy'' means the National Academy of Sciences.

(2) CORPS.—The term ''Corps'' means the Corps of Engineers.

(3) PRINCIPLES AND GUIDELINES.—The term ''Principles and Guidelines'' means the principles and guidelines of the Corps for water resources projects (consisting of Engineer Regulation 1105–2–100 and Engineer Pamphlet 1165–2–1).

(4) SECRETARY.—The term ''Secretary'' means the Secretary of the Army.

TITLE I—MODERNIZING PROJECT PLANNING

SEC. 101. MODERN PLANNING PRINCIPLES.

(a) PLANNING PRINCIPLES.—Section 209 of the Flood Control Act of 1970 (42 U.S.C. 1962–2) is amended to read as follows:

''SEC. 209. CONGRESSIONAL STATEMENT OF OBJECTIVES.

''(a) IN GENERAL.—It is the intent of Congress that—

''(1) national economic development and environmental protection and restoration are co-equal objectives of water resources project planning and management; and

''(2) Federal agencies manage and, if clearly justified, construct water resource projects—

''(A) to meet national economic needs; and

''(B) to protect and restore the environment.

''(b) REVISION OF PLANNING GUIDELINES, REGULATIONS AND CIRCULARS.—Not later than 18 months after the date of enactment of the Corps of Engineers Modernization and Improvement Act of 2005, the Secretary, in collaboration with the National Academy of Sciences, shall develop proposed revisions of, and revise, the planning guidelines, regulations, and circulars of the Corps.

''(c) ADDITIONAL REQUIREMENTS.—Corps planning regulations revised under subsection (b) shall—

''(1) incorporate new and existing analytical techniques that reflect the probability of project benefits and costs;

''(2) apply discount rates provided by the Office of Management and Budget;

''(3) eliminate biases and disincentives that discourage the use of nonstructural approaches to water resources development and management;

''(4) encourage, to the maximum extent practicable, the restoration of ecosystems through the restoration of hydrologic and geomorphic processes;

''(5) consider the costs and benefits of protecting or degrading natural systems;

''(6) ensure that projects are justified by benefits that accrue to the public at large;

''(7) ensure that benefit-cost calculations reflect a credible schedule for project construction;

''(8) ensure that each project increment complies with section 104;

''(9) include as a cost any increase in direct Federal payments or subsidies and exclude as a benefit any increase in direct Federal payments or subsidies; and

''(10) provide a mechanism by which, at least once every 5 years, the Secretary shall collaborate with the National Academy of Sciences to review, and if necessary, revise all planning regulations, guidelines, and circulars.

''(d) NATIONAL NAVIGATION AND PORT PLAN.—

''(1) IN GENERAL.—Not later than 18 months after the date of enactment of the Corps of Engineers Modernization and Improvement Act of 2005, the Corps shall develop, and update not less frequently than every 4 years, an integrated, national plan to manage, rehabilitate and, if justified, modernize inland waterway and port infrastructure to meet current national economic and environmental needs.

''(2) TOOLS.—To develop the plan, the Corps shall employ economic tools that—

''(A) recognize the importance of alternative transportation destinations and modes; and

''(B) employ practicable, cost-effective congestion management alternatives before constructing and expanding infrastructure to increase waterway and port capacity.

''(3) BENEFITS AND PROXIMITY.—The Corps shall give particular consideration to the benefits and proximity of proposed and existing port, harbor, waterway, rail and other transportation infrastructure in determining whether to construct new water resources projects.

''(e) NOTICE AND COMMENT.—The Secretary shall comply with the notice and comment provisions of chapter 551 of title 5, United States Code, in issuing revised planning regulations, guidelines and circulars.

''(f) APPLICABILITY.—On completion of the revisions required under this section, the Secretary shall apply the revised regulations to projects for which a draft feasibility study or draft reevaluation report has not yet been issued.

''(g) PROJECT REFORMULATION.—Projects of the Corps, and separable elements of projects of the Corps, that have been authorized for 10 years, but for which less than 15 percent of appropriations specifically identified for construction have been obligated, shall not be constructed unless a general reevaluation study demonstrates that the project or separable element meets—

''(1) all project criteria and requirements applicable at the time the study is initiated, including requirements under this section; and

''(2) cost share and mitigation requirements of this Act.''.

(b) CONFORMING AMENDMENTS.—

(1) Section 80 of the Water Resources Development Act of 1974 (42 U.S.C. 1962d–17) is repealed.

(2) Section 7(a) of the Department of Transportation Act (Public Law 89–670; 80 Stat. 941) is repealed.

SEC. 102. INDEPENDENT REVIEW.

(a) DEFINITIONS.—In this section:

(1) AFFECTED STATE.—The term ''affected State'', with respect to a water resources project, means a State or portion of a State that—

(A) is located, at least partially, within the drainage basin in which the project is carried out; and

(B) would be economically or environmentally affected as a result of the project.

(2) DIRECTOR.—The term ''Director'' means the Director of Independent Review appointed under subsection (c)(1).

(b) PROJECTS SUBJECT TO INDEPENDENT REVIEW.—

(1) IN GENERAL.—The Secretary shall ensure that each feasibility report, general reevaluation report, and environmental impact statement for each water resources project described in paragraph (2) is subject to review by an independent panel of experts established under this section.

(2) PROJECTS SUBJECT TO REVIEW.—A water resources project shall be subject to review under paragraph (1) if—

(A) the project has an estimated total cost of more than $25,000,000, including mitigation costs;

(B) the Governor of an affected State requests the establishment of an independent panel of experts for the project;

(C) the head of a Federal agency charged with reviewing the project determines that the project is likely to have a significant adverse impact on environmental, cultural, or other resources under the jurisdiction of the agency; or

(D) the Secretary determines under paragraph (3) that the project is controversial.

(3) CONTROVERSIAL PROJECTS.—

(A) IN GENERAL.—The Secretary shall determine that a water resources project is controversial for the purpose of paragraph (2)(D) if the Secretary finds that—

(i) there is a significant dispute as to the size, nature, or effects of the project;

(ii) there is a significant dispute as to the economic or environmental costs or benefits of the project; or

(iii) there is a significant dispute as to the benefits to the communities affected by the project of a project alternative that—

(I) was not the focus of the feasibility report, general reevaluation report, or environmental impact statement for the project; or

(II) was not considered in the feasibility report, general reevaluation report, or environmental impact statement for the project.

(B) WRITTEN REQUESTS.—Not later than 30 days after the date on which the Secretary receives a written request of any party, or on the initiative of the Secretary, the Secretary shall determine whether a project is controversial.

(c) DIRECTOR OF INDEPENDENT REVIEW.—

(1) APPOINTMENT.—The Inspector General of the Army shall appoint in the Office of the Inspector General of the Army a Director of Independent Review.

(2) QUALIFICATIONS.—The Inspector General of the Army shall select the Director from among individuals who are distinguished experts in biology, hydrology, engineering, economics, or another discipline relating to water resources management.

(3) LIMITATION ON APPOINTMENTS.—The Inspector General of the Army shall not appoint an individual to serve as the Director if the individual has a financial interest in or close professional association with any entity with a financial interest in a water resources project that, on the date of appointment of the Director, is—

(A) under construction;

(B) in the preconstruction engineering and design phase; or

(C) under feasibility or reconnaissance study by the Corps.

(4) TERMS.—

(A) IN GENERAL.—The term of a Director appointed under this subsection shall be 6 years.

(B) TERM LIMIT.—An individual may serve as the Director for not more than 2 nonconsecutive terms.

(5) DUTIES.—The Director shall establish a panel of experts to review each water resources project that is subject to review under subsection (b).

(d) ESTABLISHMENT OF PANELS.—

(1) IN GENERAL.—After the Secretary selects a preferred alternative for a water resources project subject to review under subsection (b) in a formal draft feasibility report, draft general reevaluation report, or draft environmental impact statement, the Director shall establish a panel of experts to review the project.

(2) MEMBERSHIP.—A panel of experts established by the Director for a project shall be composed of not less than 5 nor more than 9 independent experts (including 1 or more biologists, hydrologists, engineers, and economists) who represent a range of areas of expertise.

(3) LIMITATION ON APPOINTMENTS.—The Director shall not appoint an individual to serve on a panel of experts for a project if the individual has a financial interest in or close professional association with any entity with a financial interest in the project.

(4) CONSULTATION.—The Director shall consult with the Academy in developing lists of individuals to serve on panels of experts under this section.

(5) NOTIFICATION.—

(A) IN GENERAL.—To ensure that the Director is able to effectively carry out the duties of the Director under this section, the Secretary shall notify the Director in writing not later than 90 days before the release of a draft feasibility report, draft general reevaluation report, or draft environmental impact statement, for every water resources project.

(B) CONTENTS.—The notification shall include—

(i) the estimated cost of the project; and

(ii) a preliminary assessment of whether a panel of experts may be required.

(6) COMPENSATION.—An individual serving on a panel of experts under this section shall be compensated at a rate of pay to be determined by the Inspector General of the Army.

(7) TRAVEL EXPENSES.—A member of a panel of experts under this section shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for an employee of an agency under subchapter I of chapter 57 of title 5, United States Code, while away from the home or regular place of business of the member in the performance of the duties of the panel.

(e) DUTIES OF PANELS.—

(1) IN GENERAL.—A panel of experts established for a water resources project under this section shall—

(A) review each draft feasibility report, draft general reevaluation report, and draft environmental impact statement prepared for the project;

(B) assess the adequacy of the economic, scientific, and environmental models used by the Secretary in reviewing the project to ensure that—

(i) the best available economic and scientific methods of analysis have been used;

(ii) the best available economic, scientific, and environmental data have been used; and

(iii) any regional effects on navigation systems have been examined;

(C) receive from the public written and oral comments concerning the project;

(D) not later than the deadline established under subsection (f), submit to the Secretary a report concerning the economic, engineering, and environmental analyses of the project, including the conclusions of the panel, with particular emphasis on areas of public controversy, with respect to the feasibility report, general reevaluation report, or environmental impact statement; and

(E) not later than 30 days after the date of issuance of a final feasibility report, final general reevaluation report, or final environmental impact statement, submit to the Secretary a brief report stating the views of the panel on the extent to which the final analysis adequately addresses issues or concerns raised by each earlier evaluation by the panel.

(2) EXTENSIONS.—

(A) IN GENERAL.—The panel may request from the Director a 30-day extension of the deadline established under paragraph (1)(E).

(B) RECORD OF DECISION.—The Secretary shall not issue a record of decision until after, at the earliest—

(i) the final day of the 30-day period described in paragraph (1)(E); or

(ii) if the Director grants an extension under subparagraph (A), the final day of the 60-day period beginning on the date of issuance of a final feasibility report described in paragraph (1)(E) and ending on the final day of the extension granted under subparagraph (A).

(f) DURATION OF PROJECT REVIEWS.—

(1) DEADLINE.—Except as provided in paragraph (2), not later than 180 days after the date of establishment of a panel of experts for a water resources project under this section, the panel shall complete—

(A) each required review of the project; and

(B) all other duties of the panel relating to the project (other than the duties described in subsection (e)(1)(E)).

(2) EXTENSION OF DEADLINE FOR REPORT ON PROJECT REVIEWS.—Not later than 240 days after the date of issuance of a draft feasibility report, draft general reevaluation report, or draft environmental impact statement for a project, if a panel of experts submits to the Director before the end of the 180-day period described in paragraph (1), and the Director approves, a request for a 60-day extension of the deadline established under that paragraph, the panel of experts shall submit to the Secretary a report required under subsection (e)(1)(D).

(g) RECOMMENDATIONS OF PANEL.—

(1) CONSIDERATION BY SECRETARY.—

(A) IN GENERAL.—If the Secretary receives a report on a water resources project from a panel of experts under this section by the applicable deadline under subsection (e)(1)(E) or (f), the Secretary shall, at least 14 days before entering a final record of decision for the water resources project—

(i) take into consideration any recommendations contained in the report; and

(ii) prepare a written explanation for any recommendations not adopted.

(B) INCONSISTENT RECOMMENDATIONS AND FINDINGS.—Recommendations and findings of the Secretary that are inconsistent with the recommendations and findings of a panel of experts under this section shall not be entitled to deference in a judicial proceeding.

(2) PUBLIC REVIEW; SUBMISSION TO CONGRESS.—After receiving a report on a water resources project from a panel of experts under this section (including a report under subsection (e)(1)(E)), the Secretary shall—

(A) immediately make a copy of the report (and, in a case in which any written explanation of the Secretary on recommendations contained in the report is completed, shall immediately make a copy of the response) available for public review; and

(B) include a copy of the report (and any written explanation of the Secretary) in any report submitted to Congress concerning the project.

(h) PUBLIC ACCESS TO INFORMATION.—

(1) IN GENERAL.—Except as provided in paragraph (3), the Secretary shall ensure that information relating to the analysis of any water resources project by the Corps, including all supporting data, analytical documents, and information that the Corps has considered in the analysis, is made available—

(A) to any individual upon request;

(B) to the public on the Internet; and

(C) to an independent review panel, if such a panel is established for the project.

(2) TYPES OF INFORMATION.—Information concerning a project that is available under paragraph (1) shall include—

(A) any information that has been made available to the non-Federal interests with respect to the project; and

(B) all data and information used by the Corps in the justification and analysis of the project.

(3) EXCEPTION FOR TRADE SECRETS.—

(A) IN GENERAL.—The Secretary shall not make information available under paragraph (1) that the Secretary determines to be a trade secret of any person that provided the information to the Corps.

(B) CRITERIA FOR TRADE SECRETS.—The Secretary shall consider information to be a trade secret only if—

(i) the person that provided the information to the Corps—

(I) has not disclosed the information to any person other than—

(aa) an officer or employee of the United States or a State or local government;

(bb) an employee of the person that provided the information to the Corps; or

(cc) a person that is bound by a confidentiality agreement; and

(II) has taken reasonable measures to protect the confidentiality of the information and intends to continue to take the measures;

(ii) the information is not required to be disclosed, or otherwise made available, to the public under any other Federal or State law; and

(iii) disclosure of the information is likely to cause substantial harm to the competitive position of the person that provided the information to the Corps.

(i) COSTS.—

(1) LIMITATION ON COST OF REVIEW.—The cost of conducting a review of a water resources project under this section shall not exceed—

(A) $250,000 for a project, if the total cost of the project in current year dollars is less than $50,000,000; and

(B) 0.5 percent of the total cost of the project in current year dollars, if the total cost is $50,000,000 or more.

(2) TREATMENT.—The cost of conducting a review of a project under this section shall be considered to be part of the total cost of the project.

(3) COST SHARING.—A review of a project under this section shall be subject to section 105(a) of the Water Resources Development Act of 1986 (33 U.S.C. 2215(a)).

(4) WAIVER OF LIMITATION.—The Secretary may waive a limitation under paragraph (1) if the Secretary determines that the waiver is appropriate.

(j) APPLICABILITY OF FEDERAL ADVISORY COMMITTEE ACT.—The Federal Advisory Committee Act (5 U.S.C. App.) shall apply to a panel of experts established under this section.

SEC. 103. BENEFIT-COST ANALYSIS.

Section 308(a) of the Water Resources Development Act of 1990 (33 U.S.C. 2318(a)) is amended—

(1) in paragraph (1)(B), by striking ''and'' at the end;

(2) in paragraph (2), by striking the period at the end and inserting a semi-colon; and

(3) by adding at the end the following:

''(3) any projected benefit attributable to any change in, or intensification of, land use arising from the draining, reduction, or elimination of wetlands; and

''(4) any projected benefit attributable to an increase in direct Federal payments or subsidies.''.

SEC. 104. BENEFIT-COST RATIO.

(a) RECOMMENDATION OF PROJECTS.—Beginning in fiscal year 2006, in the case of a water resources project that is subject to a benefit-cost analysis, the Secretary may recommend the project for authorization by Congress, and may choose the project as a recommended alternative in any record of decision or environmental impact statement, only if the project, in addition to meeting any other criteria required by law, has projected national benefits that are at least 1.5 times as great as the estimated total costs of the project, based on current discount rates provided by the Office of Management and Budget.

(b) DEAUTHORIZATION OF PROJECTS.—

(1) REPORT.—Not later than 180 days after the date of enactment of this Act, the Secretary shall submit to Congress a report identifying each water resources project (or separable element of such a project) that is subject to a benefit-cost analysis and authorized for construction, the projected remaining benefits of which are less than 1.5 times as great as the remaining projected costs.

(2) DEAUTHORIZATIONS.—

(A) IN GENERAL.—Effective beginning on the date that is 3 years after the date of submission of the report under paragraph (1), any project identified in the report shall be deauthorized unless the project was reauthorized by Congress during the preceding 3 years.

(B) CONSTRUCTION IN PROGRESS.—If construction (other than preconstruction engineering or design) began on or before the date of enactment of this Act for a project that is deauthorized under subparagraph (A), the Secretary may take such actions with respect to the project as the Secretary determines to be necessary to protect public health and safety and the environment.

(c) PUBLIC NOTIFICATION.—The Secretary shall—

(1) publish in the Federal Register the report under subsection (b)(1); and

(2) make the report available to the public on the Internet.

(d) FINAL DEAUTHORIZATION LIST.—The Secretary shall publish in the Federal Register a list of all projects deauthorized under this section.

SEC. 105. COST SHARING.

(a) OPERATIONS AND MAINTENANCE OF INLAND WATERWAYS.—Section 102 of the Water Resources Development Act of 1986 (33 U.S.C. 2212) is amended by striking subsections (b) and (c) and inserting the following:

''(b) OPERATION AND MAINTENANCE.—

''(1) FEDERAL SHARE.—The Federal share of the cost of operation and maintenance shall be 100 percent in the case of—

''(A) a project described in paragraph (1) or (2) of subsection (a); or

''(B) the portion of the project authorized by section 844 that is allocated to inland navigation.

''(2) SOURCE OF FEDERAL SHARE.—

''(A) FROM THE GENERAL FUND.—In the case of a project described in paragraph (1) or (2) of subsection (a) with respect to which the cost of operation and maintenance is less than or equal to 2 cents per ton mile, or in the case of the portion of the project authorized by section 844 that is allocated to inland navigation, the Federal share under paragraph (1) shall be paid only from amounts appropriated from the general fund of the Treasury.

''(B) FROM THE GENERAL FUND AND INLAND WATERWAYS TRUST FUND.—In the case of a project described in paragraph (1) or (2) of subsection (a) with respect to which the cost of operation and maintenance is greater than 2 but less than or equal to 10 cents per ton mile—

''(i) 75 percent of the Federal share under paragraph (1) shall be paid only from amounts appropriated from the general fund of the Treasury; and

''(ii) 25 percent of the Federal share under paragraph (1) shall be paid only from amounts appropriated from the Inland Waterways Trust Fund.

''(C) FROM THE INLAND WATERWAYS TRUST FUND.—In the case of a project described in paragraph (1) or (2) of subsection (a) with respect to which the cost of operation and maintenance is greater than 10 cents per ton mile but less than 30 cents per ton mile, 100 percent of the Federal share under paragraph (1) shall be paid only from amounts appropriated from the Inland Waterways Trust Fund.

''(D) NON-FEDERAL RESPONSIBILITY.—In the case of a project described in paragraph (1) or (2) of subsection (a) with respect to which the cost of operation and maintenance is greater than 30 cents per ton-mile, the cost of operations and maintenance shall be a non-Federal responsibility.''.

(b) FLOOD DAMAGE REDUCTION.—Section 103 of the Water Resources Development Act of 1986 (33 U.S.C. 2213) is amended—

(1) in subsections (a)(2) and (b), by striking ''35'' each place it appears and inserting ''50'';

(2) in the paragraph heading of subsection (a)(2), by striking ''35 PERCENT MINIMUM'' and inserting ''MINIMUM''; and

(3) in the paragraph heading of subsection (b), by striking ''35'' and inserting ''50''.

TITLE II—MITIGATION

SEC. 201. FULL MITIGATION.

Section 906(d) of the Water Resources Development Act of 1986 (33 U.S.C. 2283(d)) is amended—

(1) by striking paragraph (1) and inserting the following:

''(1) PROJECTS.—

''(A) IN GENERAL.—After November 17, 1986, the Secretary shall not submit to Congress any proposal for the authorization of any water resources project, and shall not choose a project alternative in any final record of decision, environmental impact statement, or environmental assessment, unless the report contains—

''(i) a specific plan to fully mitigate losses of aquatic and terrestrial resources and fish and wildlife created by the project; or

''(ii) a determination by the Secretary that the project will have negligible adverse impact on aquatic and terrestrial resources and fish and wildlife.

''(B) SPECIFIC REQUIREMENTS.—Specific mitigation plans shall ensure that impacts to bottomland hardwood forests and other habitat types are mitigated in kind.

''(C) CONSULTATION.—In carrying out this paragraph, the Secretary shall consult with appropriate Federal and non-Federal agencies.''; and

(2) by adding at the end the following:

''(3) STANDARDS FOR MITIGATION.—

''(A) IN GENERAL.—To fully mitigate losses to fish and wildlife resulting from a water resources project, the Secretary shall, at a minimum—

''(i) acquire and restore 1 acre of superior or equivalent habitat of the same type to replace each acre of habitat adversely affected by the project; and

''(ii) replace the hydrologic functions and characteristics, the ecological functions and characteristics, and the spatial distribution of the habitat adversely affected by the project.

''(B) DETAILED MITIGATION PLAN.—The specific mitigation plan for a water resources project under paragraph (1) shall include, at a minimum—

''(i) a detailed and specific plan to monitor mitigation implementation and ecological success, including the designation of the entities that will be responsible for monitoring;

''(ii) specific ecological success criteria by which the mitigation will be evaluated and determined to be successful, prepared in consultation with the United States Fish and Wildlife Service;

''(iii) a detailed description of the land and interests in land to be acquired for mitigation and the basis for a determination that land and interests are available for acquisition;

''(iv) sufficient detail regarding the chosen mitigation sites and type and amount of restoration activities to permit a thorough evaluation of the plan's likelihood of ecological success and resulting aquatic and terrestrial resource functions and habitat values; and

''(v) a contingency plan for taking corrective actions if monitoring demonstrates that mitigation efforts are not achieving ecological success as described in the ecological success criteria.

''(C) APPLICABLE LAW.—A time period for mitigation monitoring or for the implementation and monitoring of contingency plan actions shall not be subject to the deadlines described in section 202.

''(4) DETERMINATION OF MITIGATION SUCCESS.—

''(A) IN GENERAL.—Mitigation shall be considered to be successful at the time at which monitoring demonstrates that the mitigation has met the ecological success criteria established in the mitigation plan.

''(B) REQUIREMENTS FOR SUCCESS.—To ensure the success of any attempted mitigation, the Secretary shall—

''(i) consult yearly with the United States Fish and Wildlife Service on each water resources project requiring mitigation to determine whether mitigation monitoring for that project demonstrates that the project is achieving, or has achieved, ecological success;

''(ii) ensure that implementation of the mitigation contingency plan for taking corrective action begins not later than 30 days after a finding by the Secretary or the United States Fish and Wildlife Service that the original mitigation efforts likely will not result in, or have not resulted in, ecological success;

''(iii) complete implementation of the contingency plan as expeditiously as practicable; and

''(iv) ensure that monitoring of mitigation efforts, including those implemented through a mitigation contingency plan, continues until the monitoring demonstrates that the mitigation has met the ecological success criteria.

''(5) RECOMMENDATION OF PROJECTS.—The Secretary shall not recommend a water resources project alternative or choose a project alternative in any final record of decision, environmental impact statement, or environmental assessment completed after the date of enactment of this paragraph unless the Secretary determines that the mitigation plan for the alternative will successfully mitigate the adverse impacts of the project on aquatic and terrestrial resources, hydrologic functions, and fish and wildlife.

''(6) IMPLEMENTATION OF MITIGATION BEFORE CONSTRUCTION OF NEW PROJECTS.—The Secretary shall implement all mitigation required by a record of decision for water resources projects in a particular district of the Corps before beginning physical construction of any new water resources project (or separable element of such a project) in that district.''.

SEC. 202. CONCURRENT MITIGATION.

Section 906(a) of the Water Resources Development Act of 1986 (33 U.S.C. 2283(a)) is amended—

(1) by striking ''(a)(1) In the case'' and inserting the following:

''(a) MITIGATION.—

''(1) IN GENERAL.—In the case'';

(2) in paragraph (1), by striking ''interests—'' and all that follows through

''losses),'' and inserting the following: ''interests shall be undertaken or acquired—

''(A) before any construction of the project (other than such acquisition) commences; or

''(B) concurrently with the acquisition of land and interests in land for project purposes (other than mitigation of fish and wildlife losses);'';

(3) in paragraph (2), by striking ''(2) For the purposes'' and inserting the following:

''(2) COMMENCEMENT OF CONSTRUCTION.—For the purpose''; and

(4) by adding at the end the following:

''(3) IMPLEMENTATION.—

''(A) IN GENERAL.—Except as provided in subparagraph (B), to ensure concurrent mitigation, the Secretary shall implement—

''(i) 50 percent of required mitigation before beginning construction of a project; and

''(ii) the remainder of required mitigation as expeditiously as practicable, but not later than the last day of construction of the project or separable element of the project.

''(B) EXCEPTION FOR PHYSICAL IMPRACTICABILITY.—In a case in which the Secretary determines that it is physically impracticable to complete mitigation by the last day of construction of the project or separable element of the project, the Secretary shall reserve or reprogram sufficient funds to ensure that mitigation implementation is completed as expeditiously as practicable, but in no case later than the end of the next fiscal year immediately following the last day of that construction.

''(4) USE OF FUNDS.—Funds made available for preliminary engineering and design, construction, or operations and maintenance shall be available for use in carrying out this section.''.

SEC. 203. MITIGATION TRACKING SYSTEM.

(a) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Secretary shall establish a recordkeeping system to track each water resources project constructed, operated, or maintained by the Secretary, and for each permit issued under section 404 of the Federal Water Pollution Control Act (33 U.S.C. 1344)—

(1) the quantity and type of wetland and other habitat types affected by the project, project operation, or permitted activity;

(2) the quantity and type of mitigation required for the project, project operation or permitted activity;

(3) the quantity and type of mitigation that has been completed for the project, project operation or permitted activity; and

(4) the status of monitoring for the mitigation carried out for the project, project operation or permitted activity.

(b) REQUIRED INFORMATION AND ORGANIZATION.—The recordkeeping system shall—

(1) include information on impacts and mitigation described in subsection (a) that occur after December 31, 1969; and

(2) be organized by watershed, project, permit application, and zip code.

(c) AVAILABILITY OF INFORMATION.—The Secretary shall make information contained in the recordkeeping system available to the public on the Internet.

TITLE III—IMPROVING ACCOUNTABILITY

SEC. 301. FISCAL TRANSPARENCY REPORT.

(a) DEFINITIONS.—In this section:

(1) CONSTRUCTION.—The term ''construction'' includes any physical work carried out under a construction contract relating to a water resources project.

(2) PHYSICAL WORK.—The term ''physical work'' does not include any activity relating to—

(A) project planning;

(B) project engineering and design;

(C) relocation; or

(D) the acquisition of land, an easement, or a right-of-way.

(b) REPORT.—

(1) IN GENERAL.—On the third Tuesday of January of each year beginning after the date of enactment of this Act, the Chief of Engineers shall submit to the Committee of Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a fiscal transparency report describing—

(A) the expenditures of the Corps during the preceding fiscal year;

(B) the estimated expenditures of the Corps for the fiscal year during which the report is submitted; and

(C) a list of projects that the Chief of Engineers expects to complete during the fiscal year during which the report is submitted.

(2) CONTENTS.—In addition to the information described in paragraph (1), the report shall contain a detailed account of—

(A) for each general construction project that is under construction on the date of submission of the report, or for which there is a signed cost-sharing agreement, complete information regarding planning, engineering, and design of the project, including—

(i) the primary purpose of the project;

(ii) each allocation made to the project on or before the date of submission of the report;

(iii) a description of any construction carried out relating to the project;

(iv) the projected date of completion of construction of the project;

(v) the estimated annual Federal cost of completing construction of the project on or before the projected date under clause (iv); and

(vi) the date of completion of the most recent feasibility study, reevaluation report, and environmental review of the project;

(B) for each general investigation and reconnaissance and feasibility study, information including—

(i) the number of studies initiated on or before the date of submission of the report;

(ii) the number of studies in progress on the date of submission of the report;

(iii) the number of studies expected to be completed during the fiscal year; and

(iv) a list of any completed study of a project that is not authorized for construction on the date of submission of the report, and the date of completion of the study;

(C) for each inland and intracoastal waterway operated and maintained under section 206 of the Inland Waterways Revenue Act of 1978 (33 U.S.C. 1804), information including—

(i) the estimated annual cost of operating and maintaining the reach of the waterway at the depth of the waterway;

(ii) the actual cost of operating and maintaining the reach of the waterway at the depth of the waterway during the previous fiscal year; and

(iii) the number of barges (including the number of loaded barges) and the total tonnage shipped over each waterway during the preceding fiscal year; and

(D) for each water resources project (or separable element of such a project) that is authorized for construction, for which Federal funds have not been obligated for construction during any of the 4 preceding fiscal years, information including—

(i) the primary purpose of the project;

(ii) the date of authorization of the project;

(iii) each allocation made to the project on or before the date of submission of the report, including the amount and type of the allocation;

(iv) the percentage of construction of the project that has been completed on the date of submission of the report;

(v) the estimated cost of completing the project, and the percentage of estimated total costs that has been obligated to the project on or before the date of submission of the report;

(vi)(I) a benefit-cost analysis of the project, expressed as a ratio using current discount rates;

(II) the estimated annual benefits and annual costs of the project; and

(III) the date on which any economic data used to justify the project was collected;

(vii) the date of completion of the most recent feasibility study, reevaluation report, and environmental review of the project; and

(viii) a brief explanation of any reason why Federal funds have not been obligated for construction of the project.

(c) CONGRESSIONAL AND PUBLIC NOTIFICATIONS.—On submission of a report under this section, the Secretary shall notify each Senator in the State of whom, and each Member of the House of Representatives in the district of whom, a project identified in the report is located.

(d) PUBLICATION.—For any report under this section, the Secretary shall—

(1) publish the report in the Federal Register; and

(2) make the report available to—

(A) any person, on receipt of a request of the person; and

(B) the public on the Internet.

SEC. 302. PROJECT DEAUTHORIZATIONS.

Section 1001 of the Water Resources Development Act of 1986 (33 U.S.C. 579a) is amended to read as follows:

''(a) DEFINITIONS.—In this section:

''(1) CONSTRUCTION.—The term 'construction' includes any physical work carried out under a construction contract relating to a water resources project.

''(2) PHYSICAL WORK.—The term 'physical work' does not include any activity relating to—

''(A) project planning;

''(B) project engineering and design;

''(C) relocation; or

''(D) the acquisition of land, an easement, or a right-of-way.

''(b) DEAUTHORIZATIONS.—

''(1) IN GENERAL.—Effective beginning on the date that is 30 months after the date of submission of a fiscal transparency report under section 301 of the Corps of Engineers Modernization and Improvement Act of 2005, each project identified under section 301(b)(2)(D) of that Act shall be deauthorized unless Federal funds were obligated for construction of the project during the preceding 30 months.

''(2) EFFECT OF PARAGRAPH.—Paragraph (1) does not apply—

''(A) in the case of a beach nourishment project, beginning on the date on which initial construction of the project is completed; or

''(B) in the case of any other project, beginning on the date on which construction of the project is completed.

''(c) FINAL DEAUTHORIZATION LIST.—The Secretary shall annually publish in the Federal Register a list of all projects deauthorized under this section.''.

By Mr. KENNEDY (for himself, Mr. SMITH, and Mr. DURBIN):

S. 754. A bill to ensure that the Federal student loans are delivered as efficiently as possible, so that there is more grant aid for students; to the

Committee on Health, Education, Labor, and Pensions.

Mr. KENNEDY. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 754

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Student Aid Reward Act of 2005''.

SEC. 2. STUDENT AID REWARD PROGRAM.

Part G of title IV of the Higher Education Act of 1965 (20 U.S.C. 1088 et seq.) is amended by inserting after section 489 the following:

''SEC. 489A. STUDENT AID REWARD PROGRAM.

''(a) PROGRAM AUTHORIZED.—The Secretary shall carry out a Student Aid Reward Program to encourage institutions of higher education to participate in the student loan program under this title that is most cost-effective for taxpayers.

''(b) PROGRAM REQUIREMENTS.—In carrying out the Student Aid Reward Program, the Secretary shall—

''(1) provide to each institution of higher education participating in the student loan program under this title that is most cost-effective for taxpayers, a Student Aid Reward Payment, in an amount determined in accordance with subsection (c), to encourage the institution to participate in that student loan program;

''(2) require each institution of higher education receiving a payment under this section to provide student loans under such student loan program for a period of 5 years after the date the first payment is made under this section;

''(3) where appropriate, require that funds paid to institutions of higher education under this section be used to award students a supplement to such students' Federal Pell Grants under subpart 1 of part A;

''(4) permit such funds to also be used to award need-based grants to lower- and middle-income graduate students; and

''(5) encourage all institutions of higher education to participate in the Student Aid Reward Program under this section.

''(c) AMOUNT.—The amount of a Student Aid Reward Payment under this section shall be not less than 50 percent of the savings to the Federal Government generated by the institution of higher education's participation in the student loan program under this title that is most cost-effective for taxpayers instead of the institution's participation in the student loan program that is not most cost-effective for taxpayers.

''(d) TRIGGER TO ENSURE COST NEUTRALITY.—

''(1) LIMIT TO ENSURE COST NEUTRALITY.—Notwithstanding subsection (c), the Secretary shall not distribute Student Aid Reward Payments under the Student Aid Reward Program that, in the aggregate, exceed the Federal savings resulting from the implementation of the Student Aid Reward Program.

''(2) FEDERAL SAVINGS.—In calculating Federal savings, as used in paragraph (1), the Secretary shall determine Federal savings on loans made to students at institutions of higher education that participate in the student loan program under this title that is most cost-effective for taxpayers and that, on the date of enactment of the Student Aid Reward Act of 2005, participated in the student loan program that is not most cost-effective for taxpayers, resulting from the difference of—

''(A) the Federal cost of loan volume made under the student loan program under this title that is most cost-effective for taxpayers; and

''(B) the Federal cost of an equivalent type and amount of loan volume made, insured, or guaranteed under the student loan program under this title that is not most cost-effective for taxpayers.

''(3) DISTRIBUTION RULES.—If the Federal savings determined under paragraph (2) is not sufficient to distribute full Student Aid Reward Payments under the Student Aid Reward Program, the Secretary shall—

''(A) first make Student Aid Reward Payments to those institutions of higher education that participated in the student loan program under this title that is not most cost-effective for taxpayers on the date of enactment of the Student Aid Reward Act of 2005; and

''(B) with any remaining Federal savings after making Student Aid Reward Payments under subparagraph (A), make Student Aid Reward Payments to the institutions of higher education eligible for a Student Aid Reward Payment and not described in subparagraph (A) on a pro-rata basis.

''(4) DISTRIBUTION TO STUDENTS.—Any institution of higher education that receives a Student Aid Reward Payment under this section—

''(A) shall distribute, where appropriate, part or all of such payment among the students of such institution who are Federal Pell Grant recipients by awarding such students a supplemental grant; and

''(B) may distribute part of such payment as a supplemental grant to graduate students in financial need.

''(5) ESTIMATES, ADJUSTMENTS, AND CARRY OVER.—

''(A) ESTIMATES AND ADJUSTMENTS.—The Secretary shall make Student Aid Reward Payments to institutions of higher education on the basis of estimates, using the best data available at the beginning of an academic or fiscal year. If the Secretary determines thereafter that loan program costs for that academic or fiscal year were different than such estimate, the Secretary shall adjust by reducing or increasing subsequent Student Aid Reward Payments rewards paid to such institutions of higher education to reflect such difference.

''(B) CARRY OVER.—Any institution of higher education that receives a reduced Student Aid Reward Payment under paragraph (3)(B), shall remain eligible for the unpaid portion of such institution's financial reward payment, as well as any additional financial reward payments for which the institution is otherwise eligible, in subsequent academic or fiscal years.

''(e) DEFINITION.—In this section:

''(1) STUDENT LOAN PROGRAM UNDER THIS TITLE THAT IS MOST COST-EFFECTIVE FOR TAXPAYERS.—The term 'student loan program under this title that is most cost-effective for taxpayers' means the loan program under part B or D of this title that has the lowest overall cost to the Federal Government (including administrative costs) for the loans authorized by such parts.

''(2) STUDENT LOAN PROGRAM UNDER THIS TITLE THAT IS NOT MOST COST-EFFECTIVE FOR TAXPAYERS.—The term 'student loan program under this title that is not most cost-effective for taxpayers' means the loan program under part B or D of this title that does not have the lowest overall cost to the Federal Government (including administrative costs) for the loans authorized by such parts.''.

By Mr. BENNETT (for himself, Mrs. MURRAY, Mr. SHELBY, and Mr. HATCH):

S. 756. A bill to amend the Public Health Service Act to enhance public and health professional awareness and understanding of lupus and to strengthen the Nation's research efforts to identify the causes and cure of lupus; to the Committee on Health, Education, Labor, and Pensions.

Mr. BENNETT. Mr. President, I rise today to introduce the Lupus—Research, Education, Awareness, Communication, Health Care—or REACH Amendments of 2005. This bill will strengthen the Nation's research efforts to identify the causes and cure of lupus, improve lupus data collection and epidemiology, and enhance public and health professional awareness and understanding of lupus—one of the Nation's most devastating, yet least understood autoimmune diseases. It has been almost 40 years since the FDA has approved a drug specifically to treat lupus.

Lupus is a life-threatening, life diminishing autoimmune disease that can cause inflammation and tissue damage to virtually any organ system in the body, including the skin, joints, other connective tissue, blood and blood vessels, heart, lungs, kidney, and brain. It affects women nine times more often than men and 80 percent of newly diagnosed cases of lupus develop among women of child-bearing age.

This disease is not well known or well understood despite the fact that according to the Lupus Foundation of America at least 1.5 to 2 million Americans live with some form of lupus. Many are either misdiagnosed or not diagnosed at all. As the prototypical autoimmune disease, discoveries on lupus may apply to more than 20 other autoimmune diseases.

Of serious concern is that this disease disproportionately affects women of color—it is two to three times more common among African-Americans, Hispanics, Asians and Native Americans—a health disparity that remains unexplained. According to the Centers for Disease Control and Prevention the rate of lupus mortality has increased since the late 1970s and is higher among older African-American women. Comprehensive and definitive epidemiologic studies will help improve our understanding of these health disparities and move us toward closing the gaps.

The symptoms of lupus make diagnosis difficult because they are sporadic and imitate the symptoms of many other illnesses. If diagnosed promptly and properly treated, the majority of lupus cases can be controlled. Unfortunately, because of the dearth of

medical research on lupus and the length of time it takes to make a diagnosis, many lupus patients suffer debilitating pain and fatigue. The resulting effects make it difficult, if not impossible, for these individuals to carry on normal everyday activities, including work. Thousands of these debilitating cases needlessly end in death each year. Our Nation must do more to ensure that health professionals are aware of its signs and symptoms so that people with lupus can receive the prompt, appropriate care they need and deserve.

The Lupus REACH Amendments of 2005 seek to expand biomedical research and strengthen lupus epidemiology. This bill authorizes a study and report by the Institute of Medicine, IOM, evaluating various Federal and State activities and research. This legislation will raise public awareness of lupus and improve health professional education. It aims to promote increased awareness of early intervention and treatment, direct communication and education efforts, and target at-risk women and health professionals to help them quickly achieve a correct diagnosis of lupus.

I would urge all my colleagues, to join me in sponsoring this legislation to increase research, education, and awareness of lupus.

By Mr. SCHUMER (for himself, Mr. BIDEN, Ms. SNOWE, Mr. DURBIN, and Mr. SMITH):

S. 759. A bill to amend the Internal Revenue Code of 1986 to make higher education more affordable, and for other purposes; to the Committee on the Judiciary.

Mr. SCHUMER. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 759

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Make College Affordable Act of 2005''.

SEC. 2. EXPANSION OF DEDUCTION FOR HIGHER EDUCATION EXPENSES.

(a) AMOUNT OF DEDUCTION.—Subsection (b) of section 222 of the Internal Revenue Code of 1986 (relating to deduction for qualified tuition and related expenses) is amended to read as follows:

''(b) LIMITATIONS.—

''(1) DOLLAR LIMITATIONS.—

''(A) IN GENERAL.—Except as provided in paragraph (2), the amount allowed as a deduction under subsection (a) with respect to the taxpayer for any taxable year shall not exceed the applicable dollar limit.

''(B) APPLICABLE DOLLAR LIMIT.—The applicable dollar limit for any taxable year shall be determined as follows:

''Taxable year:	**Applicable dollar amount:**
2005	$8,000
2006 and thereafter	$12,000.

''(2) LIMITATION BASED ON MODIFIED ADJUSTED GROSS INCOME.—

''(A) IN GENERAL.—The amount which would (but for this paragraph) be taken into account under subsection (a) shall be reduced (but not below zero) by the amount determined under subparagraph (B).

''(B) AMOUNT OF REDUCTION.—The amount determined under this subparagraph equals the amount which bears the same ratio to the amount which would be so taken into account as—

''(i) the excess of—

''(I) the taxpayer's modified adjusted gross income for such taxable year, over

''(II) $65,000 ($130,000 in the case of a joint return), bears to

''(ii) $15,000 ($30,000 in the case of a joint return).

''(C) MODIFIED ADJUSTED GROSS INCOME.—For purposes of this paragraph, the term 'modified adjusted gross income' means the adjusted gross income of the taxpayer for the taxable year determined—

''(i) without regard to this section and sections 199, 911, 931, and 933, and

''(ii) after the application of sections 86, 135, 137, 219, 221, and 469.

For purposes of the sections referred to in clause (ii), adjusted gross income shall be determined without regard to the deduction allowed under this section.

''(D) INFLATION ADJUSTMENTS.—

''(i) IN GENERAL.—In the case of any taxable year beginning in a calendar year after 2005, both of the dollar amounts in subparagraph (B)(i)(II) shall be increased by an amount equal to—

''(I) such dollar amount, multiplied by

''(II) the cost-of-living adjustment determined under section 1(f)(3) for the calendar year in which the taxable year begins, by substituting 'calendar year 2004' for 'calendar year 1992' in subparagraph (B) thereof.

''(ii) ROUNDING.—If any amount as adjusted under clause (i) is not a multiple of $50, such amount shall be rounded to the nearest multiple of $50.''.

(b) QUALIFIED TUITION AND RELATED EXPENSES OF ELIGIBLE STUDENTS.—

(1) IN GENERAL.—Section 222(a) of the Internal Revenue Code of 1986 (relating to allowance of deduction) is amended by inserting ''of eligible students'' after ''expenses''.

(2) DEFINITION OF ELIGIBLE STUDENT.—Section 222(d) of such Code (relating to definitions and special rules) is amended by redesignating paragraphs (2) through (6) as paragraphs (3) through (7), respectively, and by inserting after paragraph (1) the following new paragraph:

''(2) ELIGIBLE STUDENT.—The term 'eligible student' has the meaning given such term by section 25A(b)(3).''.

(c) DEDUCTION MADE PERMANENT.—Title IX of the Economic Growth and Tax Relief Reconciliation Act of 2001 (relating to sunset of provisions of such Act) shall not apply to the amendments made by section 431 of such Act.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to payments made in taxable years beginning after December 31, 2004.

SEC. 3. CREDIT FOR INTEREST ON HIGHER EDUCATION LOANS.

(a) IN GENERAL.—Subpart A of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 (relating to nonrefundable personal credits) is amended by inserting after section 25B the following new section:

''SEC. 25C. INTEREST ON HIGHER EDUCATION LOANS.

''(a) ALLOWANCE OF CREDIT.—In the case of an individual, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the interest paid by the taxpayer during the taxable year on any qualified education loan.

''(b) MAXIMUM CREDIT.—

''(1) IN GENERAL.—Except as provided in paragraph (2), the credit allowed by subsection (a) for the taxable year shall not exceed $1,500.

''(2) LIMITATION BASED ON MODIFIED ADJUSTED GROSS INCOME.—

''(A) IN GENERAL.—If the modified adjusted gross income of the taxpayer for the taxable year exceeds $50,000 ($100,000 in the case of a joint return), the amount which would (but for this paragraph) be allowable as a credit under this section shall be reduced (but not below zero) by the amount which bears the same ratio to the amount which would be so allowable as such excess bears to $20,000 ($40,000 in the case of a joint return).

''(B) MODIFIED ADJUSTED GROSS INCOME.—The term 'modified adjusted gross income' means adjusted gross income determined without regard to sections 199, 222, 911, 931, and 933.

''(C) INFLATION ADJUSTMENT.—In the case of any taxable year beginning after 2005, the $50,000 and $100,000 amounts referred to in subparagraph (A) shall be increased by an amount equal to—

''(i) such dollar amount, multiplied by

''(ii) the cost-of-living adjustment determined under section (1)(f)(3) for the calendar year in which the taxable year begins, by substituting '2004' for '1992'.

''(D) ROUNDING.—If any amount as adjusted under subparagraph (C) is not a multiple of $50, such amount shall be rounded to the nearest multiple of $50.

''(c) DEPENDENTS NOT ELIGIBLE FOR CREDIT.—No credit shall be allowed by this section to an individual for the taxable year if a deduction under section 151 with respect to such individual is allowed to another taxpayer for the taxable year beginning in the calendar year in which such individual's taxable year begins.

''(d) LIMIT ON PERIOD CREDIT ALLOWED.—A credit shall be allowed under this section only with respect to interest paid on any qualified education loan during the first 60 months (whether or not consecutive) in which interest payments are required. For purposes of this paragraph, any loan and all refinancings of such loan shall be treated as 1 loan.

''(e) DEFINITIONS.—For purposes of this section—

''(1) QUALIFIED EDUCATION LOAN.—The term 'qualified education loan' has the meaning given such term by section 221(d)(1).

''(2) DEPENDENT.—The term 'dependent' has the meaning given such term by section 152.

''(f) SPECIAL RULES.—

''(1) DENIAL OF DOUBLE BENEFIT.—No credit shall be allowed under this section for any amount taken into account for any deduction under any other provision of this chapter.

''(2) MARRIED COUPLES MUST FILE JOINT RETURN.—If the taxpayer is married at the close of the taxable year, the credit shall be allowed under subsection (a) only if the taxpayer and the taxpayer's spouse file a joint return for the taxable year.

''(3) MARITAL STATUS.—Marital status shall be determined in accordance with section 7703.''.

(b) CONFORMING AMENDMENT.—The table of sections for subpart A of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 is amended by inserting after the item relating to section 25B the following new item:

''Sec. 25C. Interest on higher education loans.''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to any qualified education loan (as defined in section 25C(e)(1) of the Internal Revenue Code of 1986, as added by this section) incurred on, before, or after the date of the enactment of this Act, but only with respect to any loan interest payment due after December 31, 2004.

Mr. INOUYE (for himself, Mr. HATCH, Mr. KENNEDY, Mr. DODD, Mr. DEWINE, and Mr. CONRAD):

S. 760. A bill to amend the Public Health Service Act to provide a means for continued improvement in emergency medical services for children; to the Committee on Health, Education, Labor, and Pensions.

Mr. INOUYE. Mr. President, today I introduce ''The Wakefield Act,'' also known as the ''Emergency Medical Services for Children Act of 2005'' along with my colleagues Mr. HATCH, Mr. KENNEDY, Mr. DODD, Mr. DEWINE, and Mr. CONRAD. Since Senator HATCH and I worked toward authorization of EMSC in 1984, this program has been the driving force toward improving a wide range of children's emergency services. From specialized training for emergency care providers to ensuring ambulances and emergency departments have state-of-the-art pediatric-sized equipment, EMSC has provided the vehicle for improving survival of our smallest citizens when accidents or medical emergencies threatened their lives.

It remains no secret that children present unique anatomic, physiologic, emotional and developmental challenges to our primarily adult-oriented emergency medical system. As has been said many times before, children are not little adults. Evaluation and treatment must take into account their special needs, or we risk letting them fall through the gap between adult and pediatric care. EMSC has bridged that gap while fostering collaborative relationships among emergency medical technicians, paramedics, nurses, emergency physicians, surgeons, and pediatricians.

Yet, with the increasing number of children with special healthcare needs, the looming prospect of bioterrorism and the increasing importance of disaster preparedness, gaps still remain in our emergency healthcare delivery system for children. Re-authorization of EMSC will ensure children's needs are given the attention and priority necessary to coordinate and expand services for victims of life-threatening illnesses and injuries.

I join the American Academy of Pediatrics, the American College of Emergency Physicians, the American College of Surgeons, and thirty other supporting healthcare organizations in celebrating the 20th anniversary of the EMSC program. EMSC remains the only Federal program dedicated to examining the best ways to deliver various forms of care to children in emergency settings. I look forward to re-authorization of this important legislation and the continued advances in our emergency healthcare delivery system.

I ask unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 760

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Wakefield Act''.

SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress makes the following findings:

(1) There are 31,000,000 child and adolescent visits to the nation's emergency departments every year, with children under the age of 3 years accounting for most of these visits.

(2) Ninety percent of children requiring emergency care are seen in general hospitals, not in free-standing children's hospitals, with one-quarter to one-third of the patients being children in the typical general hospital emergency department.

(3) Severe asthma and respiratory distress are the most common emergencies for pediatric patients, representing nearly one-third of all hospitalizations among children under the age of 15 years, while seizures, shock, and airway obstruction are other common pediatric emergencies, followed by cardiac arrest and severe trauma.

(4) Up to 20 percent of children needing emergency care have underlying medical conditions such as asthma, diabetes, sickle-cell disease, low birthweight, and bronchopulmonary dysplasia.

(5) Significant gaps remain in emergency medical care delivered to children, with 43 percent of hospitals lacking cervical collars (used to stabilize spinal injuries) for infants, less than half (47 percent) of hospitals with no pediatric intensive care unit having a written transfer agreement with a hospital that does have such a unit, one-third of States lacking a physician available on-call 24 hours a day to provide medical direction to emergency medical technicians or other non-physician emergency care providers, and even those States with such availability lacking full State coverage.

(6) Providers must be educated and trained to manage children's unique physical and psychological needs in emergency situations, and emergency systems must be equipped with the resources needed to care for this especially vulnerable population.

(7) The Emergency Medical Services for Children (EMSC) Program under section 1910 of the Public Health Service Act (42 U.S.C. 300w-9) is the only Federal program that focuses specifically on improving the pediatric components of emergency medical care.

(8) The EMSC Program promotes the nationwide exchange of pediatric emergency medical care knowledge and collaboration by those with an interest in such care and is depended upon by Federal agencies and national organizations to ensure that this exchange of knowledge and collaboration takes place.

(9) The EMSC Program also supports a multi-institutional network for research in pediatric emergency medicine, thus allowing providers to rely on evidence rather than anecdotal experience when treating ill or injured children.

(10) States are better equipped to handle occurrences of critical or traumatic injury due to advances fostered by the EMSC program, with—

(A) forty-eight States identifying and requiring all EMSC-recommended pediatric equipment on Advanced Life Support ambulances;

(B) forty-four States employing pediatric protocols for medical direction;

(C) forty-one States utilizing pediatric guidelines for acute care facility identification, ensuring that children get to the right hospital in a timely manner; and

(D) thirty-six of the forty-two States having statewide computerized data collection systems now producing reports on pediatric emergency medical services using statewide data.

(11) Systems of care must be continually maintained, updated, and improved to ensure that research is translated into practice, best practices are adopted, training is current, and standards and protocols are appropriate.

(12) Now celebrating its twentieth anniversary, the EMSC Program has proven effective over two decades in driving key improvements in emergency medical services to children, and should continue its mission to reduce child and youth morbidity and mortality by supporting improvements in the quality of all emergency medical and emergency surgical care children receive.

(b) PURPOSE.—It is the purpose of this Act to reduce child and youth morbidity and mortality by supporting improvements in the quality of all emergency medical care children receive.

SEC. 3. REAUTHORIZATION OF EMERGENCY MEDICAL SERVICES FOR CHILDREN PROGRAM.

Section 1910 of the Public Health Service Act (42 U.S.C. 300w-9) is amended—

(1) in subsection (a), by striking ''3-year period (with an optional 4th year'' and inserting ''4-year period (with an optional 5th year'';

(2) in subsection (d)—

(A) by striking ''and such sums'' and inserting ''such sums''; and

(B) by inserting before the period the following: ''$23,000,000 for fiscal year 2006, and such sums as may be necessary for each of fiscal years 2007 through 2010'';

(3) by redesignating subsections (b) through (d) as subsections (c) through (e), respectively; and

(4) by inserting after subsection (a) the following:

''(b)(1) The purpose of the program established under this section is to reduce child and youth morbidity and mortality by supporting improvements in the quality of all emergency medical care children receive, through the promotion of projects focused on the expansion and improvement of such services, including those in rural areas and those for children with special healthcare needs. In carrying out this purpose, the Secretary shall support emergency medical services for children by supporting projects that—

''(A) develop and present scientific evidence;

''(B) promote existing and innovative technologies appropriate for the care of children: or

''(C) provide information on health outcomes and effectiveness and cost-effectiveness.

''(2) The program established under this section shall—

''(A) strive to enhance the pediatric capability of emergency medical service systems originally designed primarily for adults; and

''(B) in order to avoid duplication and ensure that Federal resources are used efficiently and effectively, be coordinated with all research, evaluations, and awards related to emergency medical services for children undertaken and supported by the Federal Government.''.

Mr. HATCH. Mr. President, I am pleased to join Senator INOUYE in introducing ''The Wakefield Act'', which reauthorizes the Emergency Medical Services for Children (EMSC) program. It has been 20 years since Senator INOUYE and I first worked for passage of the original bill authorizing the EMSC program. We embarked upon this partnership after realizing that there was a critical gap in our Nation's ability to provide emergency medical services for the most precious segment of our population: our children.

Since the Emergency Medical Services for Children Act was first passed, its programs have spread across the nation, enhancing the care received in the more than 31 million visits made by children and adolescents to our nation's emergency departments every year. In part due to this program, the pediatric death rate from injuries has fallen 40 percent over the last 20 years. Imagine that—40 percent! In that light, it is extremely disappointing that President Bush would recommend eliminating funding for this very important program.

More than 30 groups have endorsed this legislation, including the American Academy of Pediatrics, American College of Emergency Physicians, American College of Surgeons, Brain Injury Association of America, Emergency Nurses Association, Family Violence Prevention Fund, National Association of Children's Hospitals, National Association of Emergency Medical Technicians, Rural Metro Corporation, Society for Pediatric Research, and the Society of Critical Care Medicine.

While much has been accomplished, more remains to be done. Children's physiology and response to illness and injury differ significantly from those of adults, necessitating specialized training to recognize and treat these patients properly. Ninety percent of the children who require emergency care receive it in general hospitals, not in free-standing specialty children's hospitals. Of those hospitals that lack pediatric intensive care units, only 47 percent have appropriate written transfer agreements with hospitals that do have such specialized units. One-third of states do not have a physician available on-call 24 hours to provide medical direction to EMTs or other non-physician emergency care providers. Of those states that do, many do not have full state coverage.

It is clear that despite the progress made since the Emergency Medical Services for Children Act was first enacted, deficiencies in our pediatric emergency care system remain. What is more, the need for a strong and healthy population, as well as a robust, prepared, and responsive health care system, has never been greater. This cannot occur in the absence of an emergency medical structure that is fully trained and ready to care for our nation's youth.

The Wakefield Act fills this role by supporting states' efforts to improve the care of children within their emergency medical services systems. EMSC-supported projects include strengthening emergency care infrastructures, assessing local provider needs, and developing comprehensive education and training modules. The impact of this program is undeniable: in 2003, 78 percent of States reported that either all or some of their pediatric emergency training programs were dependent on EMSC grant funding.

The EMSC program also ensures timely distribution of best practices and lessons learned in the area of pediatric emergency care, as well as facilitating the sharing of innovations through its national resource center. Furthermore, EMSC-supported projects have a proven record of success at the State and local level. For example, in 1997, no State disaster plan had specific pediatric components, but by 2003, 13 EMSC projects were working actively with their State's disaster preparedness offices to address children's needs in the event of a disaster.

I am proud that my home State of Utah has played a vital role in advancing the level of emergency medical care for children and teenagers. Working with the Emergency Medical Services for Children program, Utah has participated in the Intermountain Regional Emergency Medical Services for Children Coordinating Council. The University of Utah is home to both the National Emergency Medical Services for Children Data Analysis Resource Center and the Central Data Management Coordinating Center for the Pediatric Emergency Care Applied Research Network. Utah-based projects also helped pioneer the development of training materials on caring for special needs pediatric patients.

Over the course of its 20 year history, the Emergency Medical Services for Children program has made great strides in improving the lives of our Nation's children. It has largely eliminated discrepancies in regulations among States, establishing a national norm and making children's issues in emergency medical care a priority. The national EMSC program is a dynamic and flexible program that has proved to be responsive to both the Nation's and the individual States' needs. The program has funded pediatric emergency care improvement initiatives in every State, territory and the District of Columbia, as well as national improvement programs.

I urge my colleagues to support this important and necessary legislation.

Mr. CONRAD. Mr. President, I rise today to support the introduction of the Wakefield Act, which will reauthorize the Emergency Medical Services for Children, EMSC, program. This program is the only Federal program that focuses specifically on improving the quality of children's emergency care. With more than 31 million child and adolescent visits to emergency rooms each year, the EMSC program is important to ensuring that our children receive the best trauma care available.

As research shows, first responders cannot treat children as small adults, a different approach is needed. The EMSC program provides vital funding to States to improve the quality of pediatric emergency care. EMSC funds can be used for a variety of initiatives, including for the purchase of child appropriate equipment and training programs for nurses, physicians and emergency responders. These funds fill an important need. For example, 43 percent of hospitals in this country lack cervical collars for infants. The EMSC program is helping to address inadequacies in our Nation's EMS system.

This bill is particularly important to me because it is named for the family of a dear friend of mine, Mary Wakefield, who suffered a horrible tragedy this past January. Mary lost her brother, Thomas Wakefield, and two of his children, Mikal and Nicole, in a car accident. This terrible tragedy highlights the importance of providing appropriate training and equipment for children involved in trauma cases, and I urge all of my colleagues to cosponsor this important legislation.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 102—COMMENDING THE VIRGINIA UNION UNIVERSITY PANTHERS MEN'S BASKETBALL TEAM FOR WINNING THE 2005 NATIONAL COLLEGIATE ATHLETIC ASSOCIATION DIVISION II NATIONAL BASKETBALL CHAMPIONSHIP

Mr. ALLEN (for himself and Mr. WARNER) submitted the following resolution; which was considered and agreed to:

S. RES. 102

Whereas the students, alumni, faculty, and supporters of Virginia Union University are to be congratulated for their commitment to

and pride in the Virginia Union University Panthers National Champion men's basketball team;

Whereas in the National Collegiate Athletic Association (NCAA) championship game against the Bryant Bulldogs, the Panthers led throughout the first half, on the strength of senior forward Antwan Walton's 19 points and 11 rebounds;

Whereas the Panthers won the 2005 NCAA Division II National Basketball Championship with an outstanding second-half performance, answering a 17 to 9 run by Bryant to regain the lead in the final moments of the game, winning the Championship game by a score of 63 to 58;

Whereas the Panthers added the NCAA Division II title to the Central Intercollegiate Athletic Association title to claim their second championship in 2005;

Whereas every player on the Panthers basketball team—Luqman Jaaber, Lantrice Green, Duan Crockett, Antwan Walton, Steve Miller, Remington Hart, Emerson Kidd, Trevor Bryant, Quincy Smith, B.J. Stevenson, Justin Wingfield, Arthur Kidd, Ralph Brown, Darius Hargrove, Phillip Moore and Chris Moore—contributed to the team's success in this impressive championship season;

Whereas the Panthers basketball team Head Coach Dave Robbins has become only the third man to win 3 Division II National Championships;

Whereas Coach Robbins is the first coach to win at least 1 Division II National Championship in 3 different decades; and

Whereas Assistant Coaches Willard Coker, Jerome Furtado, and Mike Walker deserve high recommendation for their strong leadership of, and superb coaching support to, the Virginia Union University Panthers men's basketball team: Now, therefore, be it

Resolved, That the Senate—

(1) congratulates the Virginia Union University Panthers men's basketball team for winning the 2005 National Collegiate Athletic Association Division II National Championship;

(2) recognizes the achievements of all of the team's players, Head Coach Dave Robbins, assistant coaches, and support staff; and

(3) directs the Secretary of the Senate to transmit an enrolled copy of this resolution to the Head Coach of the National Champion Virginia Union University Panthers basketball team.

SENATE RESOLUTION 103—COMMENDING THE LADY BEARS OF BAYLOR UNIVERSITY FOR WINNING THE 2005 NATIONAL COLLEGIATE ATHLETIC ASSOCIATION DIVISION I WOMEN'S BASKETBALL CHAMPIONSHIP

Mrs. HUTCHISON (for herself and Mr. CORNYN) submitted the following resolution; which was considered and agreed to:

S. RES. 103

Whereas the Baylor University women's basketball team won its first national championship by defeating Michigan State, 84 to 62, the second largest margin of victory in the history of women's basketball championship games;

Whereas the Lady Bears finished the 2004–2005 season with a record of 33 wins and 3 losses, including winning their final 20 consecutive games;

Whereas Coach Kim Mulkey-Robertson brought the Lady Bears to their first national championship and became the first woman to have been both a head coach and a player on a national championship team;

Whereas Coach Kim Mulkey-Robertson took the Lady Bears from the bottom of the Big 12 standings in 2000 to a national championship in 5 years;

Whereas All-American Sophia Young, who averaged 22 points in the tournament, reached double figures in all 36 games in the 2004-2005 season, with 17 double-doubles, and had 26 points in the final game to be the high scorer in the championship game;

Whereas All-American Steffanie Blackmon scored 22 points and had 7 rebounds to lead the Lady Bears to the championship;

Whereas Emily Niemann made key 3-point shots to boost the Lady Bears to victory in an exciting final game;

Whereas the entire team should be commended for their work together;

Whereas Baylor University has demonstrated its excellence in both athletics and academics, and has significantly advanced the sport of women's basketball by demonstrating hard work and sportsmanship; and

Whereas the Baylor University Lady Bears are the pride of Waco and the rest of the great State of Texas: Now, therefore, be it

Resolved, That the Senate commends the Lady Bears of Baylor University for—

(1) winning the 2005 National Collegiate Athletic Association Division I Women's Basketball Championship; and

(2) completing the 2004–2005 women's basketball season with a record of 33 wins and 3 losses.

AMENDMENTS SUBMITTED AND PROPOSED

SA 333. Mr. KERRY submitted an amendment intended to be proposed by him to the bill H.R. 1268, Making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table.

SA 334. Mr. KERRY (for himself and Mr. PRYOR) submitted an amendment intended to be proposed by him to the bill H.R. 1268, supra; which was ordered to lie on the table.

SA 335. Mr. BAYH submitted an amendment intended to be proposed by him to the bill H.R. 1268, supra; which was ordered to lie on the table.

SA 336. Mr. HAGEL submitted an amendment intended to be proposed by him to the bill H.R. 1268, supra; which was ordered to lie on the table.

SA 337. Mr. HAGEL submitted an amendment intended to be proposed by him to the bill H.R. 1268, supra; which was ordered to lie on the table.

TEXT OF AMENDMENTS

SA 333. Mr. KERRY submitted an amendment intended to be proposed by him to the bill H.R. 1268, Making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

On page 169, between lines 8 and 9, insert the following:

EXTENSION OF PERIOD OF TEMPORARY CONTINUATION OF BASIC ALLOWANCE FOR HOUSING FOR DEPENDENTS OF MEMBERS OF THE ARMED FORCES WHO DIE ON ACTIVE DUTY

SEC. 1122. Section 403(1) of title 37, United States Code, is amended by striking ''180 days'' each place it appears and inserting ''365 days''.

SA 334. Mr. KERRY (for himself and Mr. PRYOR) submitted an amendment intended to be proposed by him to the bill H.R. 1268, Making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

On page 159, strike line 6 and all that follows through page 160, line 22, and insert the following:

SEC. 1112. (a) INCREASE IN DEATH GRATUITY.—

(1) AMOUNT.—Section 1478(a) of title 10, United States Code, is amended by striking ''$12,000'' and inserting ''$100,000''.

(2) EFFECTIVE DATE.—The amendments made by this subsection shall take effect on October 7, 2001, and shall apply with respect to deaths occurring on or after that date.

(3) NO ADJUSTMENT FOR INCREASES IN BASIC PAY BEFORE DATE OF ENACTMENT.—No adjustment shall be made under subsection (c) of section 1478 of title 10, United States Code, with respect to the amount in force under subsection (a) of that section, as amended by paragraph (1), for any period before the date of the enactment of this Act.

(4) PAYMENT FOR DEATHS BEFORE DATE OF ENACTMENT.—Any additional amount payable as a death gratuity under this subsection for the death of a member of the Armed Forces before the date of the enactment of this Act shall be paid to the eligible survivor of the member previously paid a death gratuity under section 1478 of title 10, United States Code, for the death of the member. If payment cannot be made to such survivor, payment of such amount shall be made to living survivor of the member otherwise highest on the list under 1477(a) of title 10, United States Code.

On page 161, line 23, strike ''$238,000'' and insert ''$150,000''.

SA 335. Mr. BAYH submitted an amendment intended to be proposed by him to the bill H.R. 1268, Making emergency supplemental appropriations for

the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

On page 170 between lines 15 and 15, insert the following:

CHAPTER 3

SEC. 1201. SHORT TITLE.

This chapter may be cited as the ''Patriot Penalty Elimination Act of 2005''.

SEC. 1202. INCOME PRESERVATION PAY FOR RESERVES SERVING ON ACTIVE DUTY IN SUPPORT OF A CONTINGENCY OPERATION.

(a) AUTHORITY.—Chapter 1209 of title 10, United States Code, is amended by inserting after section 12316 the following new section:

''§ 12316a. Reserves: income preservation pay

''(a) REQUIREMENT TO PAY.—The Secretary of the military department concerned shall pay income preservation pay under this section to an eligible member of a reserve component of the armed forces in connection with the member's active-duty service as described in subsection (b).

''(b) ELIGIBLE MEMBER.—A member is eligible for income preservation pay if—

''(1) in the case of a member who is an employee of the Federal Government—

''(A) the member is called or ordered to active duty (other than voluntarily) under a provision of law referred to in section 101(a)(13)(B) of this title;

''(B) pursuant to such call or order, the member serves on active duty outside the United States during at least 6 out of 12 consecutive months; and

''(C) with respect to such active-duty service, the amount of the member's preservice earned income determined under subparagraph (A) of subsection (c)(1) exceeds the amount of the member's military service income determined under subparagraph (B) of such subsection; or

''(2) in the case of any other member, the member—

''(A) meets the requirements of paragraph (1); and

''(B) is not receiving employment income preservation payments from the qualifying employer of the member as described in section 12316b of this title.

''(c) AMOUNT.—(1) Subject to paragraph (2), the amount payable under this section to a member in connection with active-duty service is the amount equal to the excess (if any) of—

''(A) the amount computed by multiplying—

''(i) the preservice average monthly earned income of the member, by

''(ii) the total number of the member's service months for such active-duty service, over

''(B) the amount computed by multiplying—

''(i) the military service average monthly income of the member, by

''(ii) the total number of months determined under subparagraph (A)(ii).

''(2) The total amount of income preservation pay that is paid to a member under this section may not exceed $10,000.

''(d) PRESERVICE AVERAGE MONTHLY EARNED INCOME.—For the purposes of this section, the preservice average monthly earned income of a member who serves on active duty as described in subsection (b) shall be computed by dividing 12 into the total amount of the member's earned income for the 12 months immediately preceding the member's first service month of the period for which income preservation pay is to be paid to the member under this section.

''(e) MILITARY SERVICE AVERAGE MONTHLY INCOME.—For the purposes of this section, the military service average monthly income of a member who serves on active duty as described in subsection (b) is the amount determined by dividing—

''(1) the sum of the total amount of the member's earned income (other than basic pay) and the total amount of the member's basic pay (under section 204 of title 37) for the member's service months for such active-duty service, by

''(2) the total number of such months.

''(f) TIME AND MANNER OF PAYMENT.—(1) Subject to paragraph (2), the total amount of income preservation pay that is payable under this section to a member in connection with service on active duty is due and payable, in one lump sum, not later than 30 days after the date on which the member is released from the active duty.

''(2) The Secretary concerned may make advance payment of income preservation pay in whole or in part under this section to a member, under such terms and conditions as the Secretary determines appropriate, if it is clear from the circumstances that it is likely that the member's active-duty service will satisfy the requirements of subsection (b). In any case in which advance payment is made to a member whose period of such active-duty service does not satisfy such requirements, the Secretary concerned may waive recoupment of the advance payment if the Secretary determines that recoupment would be against equity and good conscience or would be contrary to the best interests of the United States.

''(g) DEFINITIONS.—In this section:

''(1) The term ''earned income'' has the meaning given such term in section 32(c)(2) of the Internal Revenue Code of 1986.

''(2) The term 'service month', with respect to service of a member of a reserve component of the armed forces on active duty, means a month during any part of which the member serves on active duty.

''(h) TERMINATION OF AUTHORITY.—This section shall cease to be effective on the first day of the first month that begins on or after the date that is five years after the date of the enactment of the Patriot Penalty Elimination Act of 2005.''.

(b) RECHARACTERIZATION OF EXISTING SECTION ON PAYMENT OF CERTAIN RESERVES ON ACTIVE DUTY.—The heading of section 12316 of title 10, United States Code, is amended to read as follows:

''§ 12316. Reserves: payment of other entitlement instead of pay and allowances''.

(c) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 1209 of title 10, United States Code, is amended by striking the item relating to section 12316 and inserting the following new items:

''12316. Reserves: payment of other entitlement instead of pay and allowances.

''12316a. Reserves: income preservation pay.''.

(d) EFFECTIVE DATE.—Section 12316a of title 10, United States Code (as added by subsection (a)), shall take effect as of January 1, 2003, and shall apply with respect to active-duty service that begins on or after such date.

SEC. 1203. EMPLOYMENT INCOME PRESERVATION ASSISTANCE GRANTS FOR EMPLOYERS OF RESERVES.

(a) AUTHORITY.—Chapter 1209 of title 10, United States Code, as amended by section 1202(a) of this chapter, is further amended by inserting after section 12316a the following new section:

''§ 12316b. Reserves: employment income preservation assistance grants for employers of reserves

''(a) REQUIREMENT TO MAKE GRANTS.—The Secretary of the military department concerned shall make a grant to each qualifying employer to assist such employer in making employment income preservation payments to a covered member of a reserve component of the armed forces who is an employee of such employer to assist the member in preserving the preservice average monthly wage or salary of the member in connection with the member's active-duty service as described in subsection (c).

''(b) QUALIFYING EMPLOYER.—(1) Except as provided in paragraph (2), for the purposes of this section, a qualifying employer is any employer who makes employment income preservation payments to a covered member to assist the member in preserving the preservice average monthly wage or salary of the member in connection with the member's active-duty service as described in subsection (c).

''(2) A State or local government is not a qualifying employer for the purpose of this section.

''(c) COVERED MEMBER.—For the purposes of this section, a member is a covered member if—

''(1) the member is called or ordered to active duty (other than voluntarily) under a provision of law referred to in section 101(a)(13)(B) of this title;

''(2) pursuant to such call or order, the member serves on active duty outside the United States during at least 6 out of 12 consecutive months; and

''(3) with respect to such active-duty service, the amount of the member's preservice average monthly wage or salary (as determined under subsection (e)) exceeds the amount of the member's military service average monthly income (as determined under subsection (f)).

''(d) EMPLOYMENT INCOME PRESERVATION PAYMENTS.—(1) For the purposes of this section, employment income preservation payments are any payments made by a qualifying employer to a covered member in connection with the active-duty service of the member described in subsection (c) in order to make up any excess of the member's preservice average monthly wage or salary over the member's military service average monthly income.

''(2) The total amount of employment income preservation payments with respect to a covered member for which a grant may be made under subsection (a) may not exceed $10,000.

''(e) PRESERVICE AVERAGE MONTHLY WAGE OR SALARY.—For the purposes of this section, the preservice average monthly wage or salary of a covered member who serves on active duty as described in subsection (c) shall be computed by dividing—

''(1) the number of months of employment of the member with the qualifying employer during the 12-month period preceding the member's commencement on active duty as described in subsection (c); into

''(2) the total amount of the member's wage or salary paid by the qualifying employer during such months.

''(f) MILITARY SERVICE AVERAGE MONTHLY INCOME.—For the purposes of this section, the military service average monthly income of a member who serves on active duty as described in subsection (c) is the amount determined by dividing—

''(1) the sum of the total amount of the member's earned income (other than basic pay) and the total amount of the member's basic pay (under section 204 of title 37) for the member's service months for such active-duty service, by

''(2) the total number of such months.

''(g) DEFINITIONS.—In this section:

''(1) The term ''earned income'' has the meaning given such term in section 32(c)(2) of the Internal Revenue Code of 1986.

''(2) The term 'service month', with respect to service of a member of a reserve component of the armed forces on active duty, means a month during any part of which the member serves on active duty.

''(h) TERMINATION OF AUTHORITY.—This section shall cease to be effective on the first day of the first month that begins on or after the date that is five years after the date of the enactment of the Patriot Penalty Elimination Act of 2005.''.

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 1209 of title 10, United States Code, as amended by section 1202(c) of this chapter, is further by inserting after the item relating to section 12316a the following new item:

''12316b. Reserves: income preservation assistance grants for employers of reserves.''.

(c) EFFECTIVE DATE.—Section 12316b of title 10, United States Code (as added by subsection (a)), shall take effect as of January 1, 2003, and shall apply with respect to active-duty service that begins on or after such date.

SA 336. Mr. HAGEL submitted an amendment intended to be proposed by him to the bill H.R. 1268, Making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

On page 169, between lines 8 and 9, insert the following:

SEC. 1122. FUNDING FOR VETERANS HEALTH ADMINISTRATION FOR HEALTH CARE FOR VETERANS WHO SERVE ABROAD IN THE GLOBAL WAR ON TERRORISM.

(a) TRANSFER FROM OPERATION AND MAINTENANCE ACCOUNTS.—The Secretary of Defense shall transfer to the Secretary of Veterans Affairs, from amounts appropriated or otherwise made available by this Act for the Operation and Maintenance accounts of the Department of Defense, an aggregate of $975,000,000, with the amount so transferred to be derived from amounts so appropriated or otherwise made available in such distribution as the Secretary of Defense determines appropriate.

(b) DEPOSIT OF TRANSFERRED AMOUNT.—The Secretary of Veterans Affairs shall deposit the amount transferred under subsection (a) in the Medical Services account of the Veterans Health Administration of the Department of Veterans Affairs. Upon deposit, such amount shall be merged with funds in such account, and shall, subject to subsection (c), be available for the same purposes, and subject to the same limitations as the funds with which merged.

(c) AVAILABILITY OF AMOUNT.—The amount deposited in the Medical Services account of the Veterans Health Administration under subsection (b) shall be available only for the provision of care and treatment, including mental health care services, to veterans who serve abroad in the Global War on Terrorism. Such amount shall be available, without fiscal year limitation, until expended.

SA 337. Mr. HAGEL submitted an amendment intended to be proposed by him to the bill H.R. 1268, Making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

On page 159, strike line 6 and all that follows through page 161, line 21, and insert the following:

SEC. 1112. (a) INCREASE IN DEATH GRATUITY.—

(1) INCREASE.—Section 1478(a) of title 10, United States Code, is amended by striking ''$12,000'' and inserting ''$100,000''.

(2) EFFECTIVE DATE; TERMINATION.—

(A) The amendment made by paragraph (1) shall take effect on the date of the enactment of this Act.

(B) The amendment made by paragraph (1) shall terminate on September 30, 2005. Effective as of October 1, 2005, the provisions of section 1478 of title 10, United States Code, as in effect on the date before the date of the enactment of this Act shall be revived.

(b) ADDITIONAL GRATUITY FOR DEATHS BEFORE EFFECTIVE DATE.—

(1) REQUIREMENT TO PAY ADDITIONAL GRATUITY.—In the case of a member of the Armed Forces who died before the date of the enactment of this Act, but on or after October 7, 2001, the Secretary of the military department concerned shall pay a death gratuity in accordance with this subsection that is in addition to the death gratuity payable in the case of such death under sections 1475 through 1477 of title 10, United States Code.

NOTICES OF HEARINGS/MEETINGS

PERMANENT SUBCOMMITTEE ON INVESTIGATIONS

Mr. COLEMAN. Mr. President, I would like to announce for the information of the Senate and the public that the Permanent Subcommittee on Investigations of the Committee on Homeland Security and Governmental Affairs will hold a field hearing in St. Paul, MN entitled ''Tax Related Financial Products Can Be Costly,'' regarding the Subcommittee's investigations into tax-related financial products. These bank products include refund anticipation loans (RALs), refund anticipation checks (RACs) and refund transfers that are offered by tax preparers such an H&R Block and Jackson Hewitt. Also included are products offered solely by the tax preparation companies such as tax preparation guarantees. The Subcommittee field hearing will examine these products' costs, the extent to which these products are fairly marketed, and whether the costs of these products are fully disclosed. Additionally, the Subcommittee will examine the refunds, incentives and rebates that are paid by banks to tax preparers for selling these products and the ethical implications that can be presented from a client service perspective.

The Subcommittee hearing is scheduled for Friday, April 15, 2005, at 1 p.m. in ''The Reading Room'' of the James J. Hill Reference Library at 80 West 4th Street in St. Paul, Minnesota. For further information, please contact Raymond V. Shepherd, III, Staff Director and Chief Counsel to the Permanent Subcommittee on Investigations, at 224–3721.

SUBCOMMITTEE ON PUBLIC LANDS AND FORESTS

Mr. CRAIG. Mr. President, I would like to announce for the information of the Senate and the public that a hearing has been scheduled before the Subcommittee on Public Lands and Forests of the Committee on Energy and Natural Resources.

The hearing will be held on Tuesday, April 26, 2005, at 2:30 p.m. in Room SD–366 of the Dirksen Senate Office Building.

The purpose of the hearing is to review the preparedness of the Departments of Agriculture and the Interior for the 2005 wildfire season, including the agencies' assessment of the risk of fires by region, the status of and contracting for aerial fire suppression assets, and other information needed to better understand the agencies' ability to deal with the upcoming fire season.

Because of the limited time available for the hearing, witnesses may testify by invitation only. However, those wishing to submit written testimony for the hearing record should send two copies of their testimony to the Committee on Energy and Natural Resources, United States Senate, Washington, DC 20510–6150.

For further information, please contact Frank Gladics at (202) 224–2878 or Amy Millet at (202) 224–8276.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

Mr. COCHRAN. Mr. President, I ask unanimous consent that the Committee on Commerce, Science, and

Transportation be authorized to meet on the S. 241—to exempt the Universal Service Fund from sections of the Antideficiency Act, on Monday, April 11, 2005, at 2 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. COCHRAN. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Monday, April 11, 2005 at 9:30 a.m. to hold a Nomination hearing.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON EMERGING THREATS

Mr. COCHRAN. Mr. President, I ask unanimous consent that the Subcommittee on Emerging Threats and Capabilities be authorized to meet during the session of the Senate on April 11, 2005, at 2 p.m., in open session to receive testimony on the Chemical Demilitarization Program of the Department of Defense in review of the defense authorization request for fiscal year 2006.

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGES OF THE FLOOR

Mr. COCHRAN. Mr. President, I ask unanimous consent that Mr. Les Spivey, Mr. B.G. Wright, and Mr. Chad Schulken of the Appropriations Committee staff be granted full floor access during the consideration of H.R. 1268, the fiscal year 2005 emergency supplemental appropriations bill.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. COCHRAN. Mr. President, I ask unanimous consent that Harry Christie, a detailee to the committee from the U.S. Secret Service, be granted floor privileges for the duration of the debate on H.R. 1268.

The ACTING PRESIDENT pro tempore. Without objection it so ordered.

Mr. STEVENS. Mr. President, I ask unanimous consent that Katy Hagan, a detailee with the Defense Appropriations Subcommittee, be granted privileges of the floor during consideration of this bill.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. SCHUMER. Mr. President, I ask unanimous consent that Jyoti Sharma, a legal fellow for Senator CLINTON's office, be granted the privilege of the floor during today's session.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

NOTICE: REGISTRATION OF MASS MAILINGS

The filing date for 2005 first quarter mass mailings is Monday, April 25, 2005. If your office did no mass mailings during this period, please submit a form that states ''none.''

Mass mailing registrations, or negative reports, should be submitted to the Senate Office of Public Records, 232 Hart Building, Washington, DC 20510–7116.

The Public Records office will be open from 9 a.m. to 5:30 p.m. on the filing date to accept these filings. For further information, please contact the Public Records office at (202) 224–0322.

CONGRATULATING VIRGINIA UNION MEN'S BASKETBALL TEAM

Mr. FRIST. Mr. President, I ask unanimous consent that the Senate now proceed to the consideration of S. Res. 102 which was submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 102) commending the Virginia Union University Panthers men's basketball team for winning the 2005 National Collegiate Athletic Association Division II National Basketball Championship.

There being no objection, the Senate proceeded to consider the resolution.

Mr. FRIST. I ask unanimous consent the resolution be agreed to, the preamble be agreed to, and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 102) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 102

Whereas the students, alumni, faculty, and supporters of Virginia Union University are to be congratulated for their commitment to and pride in the Virginia Union University Panthers National Champion men's basketball team;

Whereas in the National Collegiate Athletic Association (NCAA) championship game against the Bryant Bulldogs, the Panthers led throughout the first half, on the strength of senior forward Antwan Walton's 19 points and 11 rebounds;

Whereas the Panthers won the 2005 NCAA Division II National Basketball Championship with an outstanding second-half performance, answering a 17 to 9 run by Bryant to regain the lead in the final moments of the game, winning the Championship game by a score of 63 to 58;

Whereas the Panthers added the NCAA Division II title to the Central Intercollegiate Athletic Association title to claim their second championship in 2005;

Whereas every player on the Panthers basketball team—Luqman Jaaber, Duan Crockett, Antwan Walton, Ralph Brown, Darius Hargrove, Lantrice Green, Steve Miller, Quincy Smith, Arthur Kid, and Chris Moore—contributed to the team's success in this impressive championship season;

Whereas the Panthers basketball team Head Coach Dave Robbins has become only the third man to win 3 Division II National Championships;

Whereas Coach Robbins is the first coach to win at least 1 Division II National Championship in 3 different decades; and

Whereas Assistant Coaches Willard Coker, Jerome Furtado, and Mike Walker deserve high recommendation for their strong leadership of, and superb coaching support to, the Virginia Union University Panthers men's basketball team: Now, therefore, be it

Resolved, That the Senate—

(1) congratulates the Virginia Union University Panthers men's basketball team for winning the 2005 National Collegiate Athletic Association Division II National Championship;

(2) recognizes the achievements of all of the team's players, Head Coach Dave Robbins, assistant coaches, and support staff; and

(3) directs the Secretary of the Senate to transmit an enrolled copy of this resolution to the Head Coach of the National Champion Virginia Union University Panthers basketball team.

CONGRATULATING BAYLOR WOMEN'S BASKETBALL TEAM

Mr. FRIST. I ask unanimous consent the Senate now proceed to the consideration of S. Res. 103 submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 103) commending the Lady Bears of Baylor University for winning the 2005 National Collegiate Athletic Association Division I Women's Basketball Championship.

There being no objection, the Senate proceeded to consider the resolution.

Mr. FRIST. I ask unanimous consent the resolution be agreed to, the preamble be agreed to, and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 103) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 103

Whereas the Baylor University women's basketball team won its first national championship by defeating Michigan State, 84 to 62, the second largest margin of victory in the history of women's basketball championship games;

Whereas the Lady Bears finished the 2004–2005 season with a record of 33 wins and 3 losses, including winning their final 20 consecutive games;

Whereas Coach Kim Mulkey-Robertson brought the Lady Bears to their first national championship and became the first woman to have been both a head coach and a player on a national championship team;

Whereas Coach Kim Mulkey-Robertson took the Lady Bears from the bottom of the Big 12 standings in 2000 to a national championship in 5 years;

Whereas All-American Sophia Young, who averaged 22 points in the tournament, reached double figures in all 36 games in the 2004-2005 season, with 17 double-doubles, and had 26 points in the final game to be the high scorer in the championship game;

Whereas All-American Steffanie Blackmon scored 22 points and had 7 rebounds to lead the Lady Bears to the championship;

Whereas Emily Niemann made key 3-point shots to boost the Lady Bears to victory in an exciting final game;

Whereas the entire team should be commended for their work together;

Whereas Baylor University has demonstrated its excellence in both athletics and academics, and has significantly advanced the sport of women's basketball by demonstrating hard work and sportsmanship; and

Whereas the Baylor University Lady Bears are the pride of Waco and the rest of the great State of Texas: Now, therefore, be it

Resolved, That the Senate commends the Lady Bears of Baylor University for—

(1) winning the 2005 National Collegiate Athletic Association Division I Women's Basketball Championship; and

(2) completing the 2004–2005 women's basketball season with a record of 33 wins and 3 losses.

COMMEMORATING THE TENTH ANNIVERSARY OF THE ATTACK ON THE ALFRED P. MURRAH FEDERAL BUILDING

Mr. FRIST. I ask unanimous consent that the Judiciary Committee be discharged from further consideration and the Senate now proceed to S. Res. 96.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 96) commemorating the 10th anniversary of the attack on the Alfred P. Murrah Federal Building.

There being no objection, the Senate proceeded to consider the resolution.

Mr. FRIST. Mr. President, I ask unanimous consent the resolution be agreed to, the preamble be agreed to, and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 96) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 96

Whereas on April 19, 1995, at 9:02 a.m. Central Daylight Time, in Oklahoma City, Oklahoma, the United States was attacked in one of the worst terrorist attacks on United States soil, which killed 168 people and injured more than 850 others;

Whereas this dastardly act of domestic terrorism affected thousands of families and horrified millions of people across the State of Oklahoma and the United States;

Whereas the people of Oklahoma and the United States responded to this tragedy through the remarkable efforts of local, State, and Federal law enforcement, firefighters, and emergency services, search and rescue teams from across the United States, public and private medical personnel, and thousands of volunteers from the community who saved lives, assisted the injured and wounded, comforted the bereaved, and provided meals and support to those who came to Oklahoma City to help those endangered and affected by this terrorist act;

Whereas the people of Oklahoma and the United States pledged themselves to build and maintain a permanent national memorial to remember those who were killed, those who survived, and those changed forever;

Whereas this pledge was fulfilled by creating the Oklahoma City National Memorial, which draws hundreds of thousands of visitors from around the world every year to the site of this tragic event in United States history;

Whereas the Oklahoma City National Memorial brings comfort, strength, peace, hope, and serenity to the many visitors who come to the memorial and its museum each year to remember and to learn;

Whereas the mission of the National Memorial Institute for the Prevention of Terrorism, to aid the Nation's emergency responders in preventing terrorist attacks, or mitigating their effects, should be promoted; and

Whereas the tenth anniversary of the terrorist bombing of the Alfred P. Murrah Federal Building in Oklahoma City, Oklahoma, is on April 19, 2005: Now, therefore, be it

Resolved, That the Senate—

(1) joins with the people of the United States in sending best wishes and prayers to the families, friends, and neighbors of the 168 people killed in the terrorist bombing of the Alfred P. Murrah Federal Building in Oklahoma City, Oklahoma;

(2) sends Congress's best wishes and thoughts to those injured in the bombing and its gratitude for their recovery;

(3) thanks the thousands of first responders, rescue workers, medical personnel, and volunteers from the Oklahoma City community and across the Nation who answered the call for help that April morning and in the days and weeks thereafter;

(4) resolves to work with the people of the United States to promote the goals and mission established by the Oklahoma City National Memorial on the tenth anniversary of that fateful day;

(5) supports the resolve for the future, written on the wall of the memorial, ''We come here to remember those who were killed, those who survived, and those changed forever. May all who leave here know the impact of violence. May this memorial offer comfort, strength, peace, hope, and serenity.'';

(6) designates the week of April 17, 2005, as the National Week of Hope, commemorating the tenth anniversary of the Oklahoma City bombing;

(7) calls on the people of the United States to participate in the events scheduled for each day of that week to teach a lesson of hope in the midst of political violence and to teach that good endures in the world even among those who commit bad acts and further to teach that there is a way to resolve differences other than resorting to terrorism or violence, including the—

(A) Day of Faith;

(B) Day of Understanding;

(C) Day of Remembrance;

(D) Day of Sharing;

(E) Day of Tolerance;

(F) Day of Caring; and

(G) Day of Inspiration;

(8) congratulates the people of Oklahoma City for making tremendous progress over the past decade and demonstrating their steadfast commitment to the ability of hope to triumph over violence;

(9) applauds the people of Oklahoma City as they continue to persevere and to stand as a beacon to the rest of the Nation and the world attesting to the strength of goodness in overcoming evil wherever it arises in our midst; and

(10) directs the Secretary of the Senate to transmit an enrolled copy of this resolution to the Memorial Foundation, as an expression of appreciation.

ORDERS FOR TUESDAY, APRIL 12, 2005

Mr. FRIST. Mr. President, I ask unanimous consent that when the Senate completes its business today, it stand in adjournment until 9:45 a.m. on Tuesday, April 12. I further ask consent that following the prayer and pledge, the morning hour be deemed expired, the Journal of proceedings be approved to date, the time for the two leaders be reserved, and the Senate then begin a period of morning business for up to 60 minutes, with the first 30 minutes under the control of the Democratic leader or his designee and the second 30 minutes under the control of the majority leader or his designee; provided that following morning business, the Senate resume consideration of H.R. 1268, the Iraq-Afghanistan supplemental appropriations bill, as provided under the previous order.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. FRIST. I further ask unanimous consent that the Senate recess from 12:30 p.m. until 2:15 p.m. for the weekly party luncheons.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. FRIST. Mr. President, tomorrow, following morning business, the Senate will resume consideration of the Iraq-Afghanistan supplemental. We began debating this important appropriations bill this afternoon, and it is my hope that we can begin the amending process early during tomorrow's session. The chairman and ranking member will be here to receive amendments, and I encourage all Senators who intend to offer an amendment to contact the managers as soon as possible.

Again, Senators should expect a busy week this week as the Senate considers the Iraq-Afghanistan appropriations bill. Senators should expect votes throughout the week, with possible late night sessions.

ADJOURNMENT UNTIL 9:45 A.M. TOMORROW

Mr. FRIST. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that the Senate stand in adjournment under the previous order.

There being no objection, the Senate, at 7:15 p.m., adjourned until Tuesday, April 12, 2005, at 9:45 a.m.

NOMINATIONS

Executive nomination received by the Senate April 11, 2005:

EXECUTIVE OFFICE OF THE PRESIDENT

LIEUTENANT GENERAL MICHAEL V. HAYDEN, UNITED STATES AIR FORCE, TO BE PRINCIPAL DEPUTY DIRECTOR OF NATIONAL INTELLIGENCE. (NEW POSITION)

CONFIRMATION

Executive nomination confirmed by the Senate: Monday, April 11, 2005:

THE JUDICIARY

PAUL A. CROTTY, OF NEW YORK, TO BE UNITED STATES DISTRICT JUDGE FOR THE SOUTHERN DISTRICT OF NEW YORK.

EXTENSIONS OF REMARKS

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Monday, April 11, 2005 may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED

APRIL 12

9:30 a.m.
Appropriations
Agriculture, Rural Development, and Related Agencies Subcommittee
To hold hearings to examine proposed budget estimates for fiscal year 2006 for the Department of Agriculture.
SD–124

Armed Services

Energy and Water, and Related Agencies Subcommittee
To hold hearings to examine proposed budget estimates for fiscal year 2006 for the National Nuclear Security Administration.
SD–124

Homeland Security and Governmental Affairs
To hold hearings to examine the ongoing need for comprehensive postal reform.
SD–342

2:30 p.m.
Armed Services
Airland Subcommittee
To hold hearings to examine Air Force acquisition oversight in review of the Defense Authorization Request for Fiscal Year 2006.
SR–232A

Judiciary
Immigration, Border Security and Citizenship Subcommittee
Terrorism, Technology and Homeland Security Subcommittee
To hold joint hearings to examine deportation and related issues relating to strengthening interior enforcement.
SD–226

APRIL 19

10 a.m.
Foreign Relations
To hold hearings to examine the Near East and South Asian experience relating to combating terrorism through education.
SD–419

Health, Education, Labor, and Pensions
To hold hearings to examine S. 334, to amend the Federal Food, Drug, and Cosmetic Act with respect to the importation of prescription drugs.
SD–430

3 p.m.
Armed Services
SeaPower Subcommittee
To hold hearings to examine the United States Marine Corps ground and rotary wing programs and seabasing in review of the Defense Authorization Request for Fiscal Year 2006.
SR–232A

APRIL 20

10 a.m.
Health, Education, Labor, and Pensions
Education and Early Childhood Development Subcommittee
To hold hearings to examine early childhood development.
SD–430

Small Business and Entrepreneurship
To hold hearings to examine the small business health care crisis, focusing on alternatives for lowering costs and covering the uninsured.
SR–428A

2 p.m.
Armed Services
Readiness and Management Support Subcommittee
To hold hearings to examine the readiness of military units deployed in support of Operation Iraqi Freedom and Operation Enduring Freedom in review of the Defense Authorization Request for fiscal year 2006.
SR–222

APRIL 21

9:30 a.m.
Foreign Relations
To hold hearings to examine the anticorruption strategies of the African Development Bank, Asian Development Bank and European Bank on Reconstruction and Development.
SD–419

10 a.m.
Health, Education, Labor, and Pensions
To hold hearings to examine Association Health Plans.
SD–430

Veterans' Affairs
To hold joint hearings with the House Committee on Veterans Affairs to examine the legislative presentations of the Fleet Reserve Association, the Air Force Sergeants Association, the Retired Enlisted Association, and the Gold Star Wives of America.
345 CHOB

2:30 p.m.
Judiciary
Intellectual Property Subcommittee
To hold hearings to examine the patent system today and tomorrow.
SD–226

APRIL 26

9:30 a.m.
Foreign Relations
To hold hearings to examine the Millennium Challenge Corporation's global impact.
SD–419

10 a.m.
Health, Education, Labor, and Pensions
Retirement Security and Aging Subcommittee
To hold hearings to examine pensions.
SD–430

2:30 p.m.
Energy and Natural Resources
Public Lands and Forests Subcommittee
To hold hearings to examine the preparedness of the Department of Agriculture and the Interior for the 2005 wildfire season, including the agencies' assessment of the risk of fires by region, the status of and contracting for aerial fire suppression assets, and other information needed to better understand the agencies ability to deal with the upcoming fire season.
SD–366

APRIL 27

9:30 a.m.
Indian Affairs
To hold oversight hearings to examine regulation of Indian gaming.
SR–485

10 a.m.
Health, Education, Labor, and Pensions
Business meeting to consider pending calendar business.
SD–430

APRIL 28

10 a.m.
Foreign Relations
To hold hearings to examine U.S. Assistance to Sudan and the Darfur Crisis.
SH–216

Health, Education, Labor, and Pensions
To hold hearings to examine Higher Education Act.
SD–430

MAY 11

9:30 a.m.
Judiciary
To hold an oversight hearing to examine the Federal Bureau of Investigation's translation program.
SD–226

SEPTEMBER 20

10 a.m.
Veterans' Affairs
To hold joint hearings with the House Committee on Veterans Affairs to examine the legislative presentation of the American Legion.
345 CHOB

CANCELLATIONS

APRIL 12

10 a.m.
Commission on Security and Cooperation in Europe
To hold hearings to examine.
2200 RHOB

9:30 a.m.
Foreign Relations
To hold hearings to examine U.S. agricultural sales to Cuba.
SD–419

APRIL 13

10 a.m.
Appropriations
Defense Subcommittee
To hold closed hearings to examine proposed budget estimates for fiscal year 2006 for intelligence and global intelligence programs.
S–407 Capitol

SENATE—*Tuesday, April 12, 2005*

The Senate met at 9:45 a.m. and was called to order by the Honorable DAVID VITTER, a Senator from the State of Louisiana.

The PRESIDING OFFICER. Today, we will be led in a prayer by our guest Chaplain, Rabbi Jehiel Orenstein, of Congregation Beth El, South Orange, NJ.

PRAYER

The guest Chaplain offered the following prayer:

Our God and God of our ancestors, who shall stand in God's holy place? The Psalmist answers, ''One who has clean hands and a pure heart who has not used God's name in false oaths.'' Almighty Legislator of our lives, our hopes, our dreams, as legislators, one may sometimes despair and say, ''Who can stand in God's place?'' After all, we are human, limited. What a vast distance between us and the Creator of the laws of the universe.

And yet, the Psalmist gives us hope. If you want our law to reflect ultimate law, ''Start,'' says the Psalmist, ''with clean hands and a pure heart.'' No worthy law has ever emanated from this place that was not first and foremost ethical.

And then the Psalmist asks us to remember our vow, a vow given to the Ultimate Legislator and to the American people, to hold fast to our vow no matter how great the pressure.

On this Tuesday in April 2005, may there be a sense of spring and renewal. Let us bridge the distance between the law of the human beings and the law of the Creator of the universe.

Rabbi Akivah taught, ''The greatest of God's law is, 'Love thy neighbor as thyself.' (Leviticus 19:18).'' May this Senate, may this Congress, may this people come ever closer through our laws to the ultimate law of love. May you be blessed in your work, and may that work make you, and through you, all of America, a home that reflects God's love on this Earth, and let us all say, Amen.

PLEDGE OF ALLEGIANCE

The Honorable DAVID VITTER led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. STEVENS).

The legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, April 12, 2005.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable DAVID VITTER, a Senator from the State of Louisiana, to perform the duties of the Chair.

TED STEVENS,
President pro tempore.

Mr. VITTER thereupon assumed the Chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. FRIST. Mr. President, this morning, following the 1 hour which is designated for morning business, the Senate will resume consideration of H.R. 1268, the emergency supplemental appropriations bill. I anticipate amendments being offered over the course of the day. Therefore, Senators can expect rollcall votes throughout the day.

I again ask Members to contact their respective cloakrooms if they intend to offer an amendment or amendments to the supplemental. This will allow Chairman COCHRAN and Senator BYRD to facilitate the amendment process.

Yesterday, I mentioned the importance and the timeliness of this legislation, and I hope Members will take that into consideration as they contemplate amendments. We would like to finish this bill which provides funding for our troops as quickly as we can.

Also, today we will have our respective policy luncheons and will recess from 12:30 p.m. to 2:15 p.m. to accommodate those meetings.

Mr. President, at this juncture I will yield to my colleagues for their brief statements and recognition of our guest Chaplain today, and then I will have a brief opening statement.

The ACTING PRESIDENT pro tempore. The Senator from New Jersey, Mr. LAUTENBERG, is recognized.

THE GUEST CHAPLAIN

Mr. LAUTENBERG. Mr. President, this is a very welcome moment for me because I have known Rabbi Orenstein personally for many years. Members of my family have worshiped at his synagogue, the Congregation Beth El in South Orange. I have worshiped with him for 35 years.

Rabbi Orenstein is going to be retiring from Congregation Beth El very shortly. He and his lovely wife Sylvia are going to be honored for their many years of service, and it is going to be done next month.

Rabbi Orenstein is a distinguished scholar. He has a master's degree in Judaica and was ordained as rabbi at the Jewish Theological Seminary of America where he also received a doctorate of divinity.

He has completed course work for a Ph.D. in linguistics at New York University. The rabbi has always inspired education and learning in his congregation and has held interesting meetings for the congregation over the years. He traveled to Russia on four separate occasions to meet and teach refuseniks.

Also, during his career, he served as a chaplain at Lackland Air Force Base in Texas and St. Alban's Naval Hospital, and he is now a chaplain for the New Jersey State police.

I have a personal message for Rabbi Orenstein, and that is, as he contemplates retirement—I speak as one who knows; I tried retirement, and I did not like it. I am not recommending anything differently for you, but I know with your active mind and your social conscience you are going to be doing lots of things that continue to benefit the community, and I expect you will be spending a lot of time with your six grandchildren. We wish all of you well.

The rabbi's daughter Debra is also a rabbi, and she serves at a synagogue in Los Angeles. She has authored a book on Jewish rituals for women. Rabbi Orenstein is justifiably proud of his family, his daughter, and his other two children, one of whom is a professor at the Law School of Indiana, and his son Raphael, who is soon to be a doctor.

I know the 575 families at Congregation Beth El will miss Rabbi Orenstein. I make the plea here: Do not take this retirement too seriously. Stay active; be available to the community. We wish you well. It has been my honor and pleasure to know you well for so many years. I look forward to our contact continuing.

Mr. President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from New Jersey, Mr. CORZINE, is recognized.

Mr. CORZINE. Mr. President, it is also my honor to bestow my congratulations on Rabbi Orenstein for his 35 years of service to Congregation Beth

El and a lifetime of service to community and mankind.

His words this morning about love and our responsibility to our communities and attention, which is demonstrated both by his family and the Congregation Beth El, are testimony to a human being who has a heart that reflects that love in his everyday life.

Senator LAUTENBERG has gone through his resume, but the real issue of a man's life is what he has done for others, and no one has contributed more to his community or reached out to lift up his fellow man than Rabbi Orenstein.

I am honored that he was able to open this morning's session, but I am also honored to have him as a friend. Thank you very much for being here.

I yield the floor.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be a period for the transaction of morning business for up to 60 minutes, with the first half of the time under the control of the Democratic leader or his designee, and the second half of the time under the control of the majority leader or his designee.

The majority leader is recognized.

Mr. FRIST. Mr. President, I will speak on leader time.

50TH ANNIVERSARY OF THE POLIO VACCINE

Mr. FRIST. Mr. President, today marks the 50th anniversary of the introduction of the polio vaccine. On April 12, 1955, Americans across the country cheered the news that Dr. Jonas Salk and his team of researchers had developed a vaccine that was ''safe, effective, and potent.'' One of mankind's most ancient enemies going as far back as ancient Egypt would finally be vanquished. It was truly a watershed in American history, launching an era of unprecedented vaccine development.

Today, vaccines protect children from more than 12 vaccine-preventable diseases, reducing disease rates by as much as 99 percent in the United States.

It is hard for today's generation to imagine the fear and the panic that gripped the Nation every summer in the first decades of the 20th century. Everyone was at risk—young and old, rich and poor. At the first signs of illness, swimming pools were closed and drained, movie theaters were padlocked shut, mothers cloistered their children for the duration, as everyone waited for that anxious cloud to pass.

Some polio victims died. Others were debilitated for life. The 1916 polio epidemic alone killed 6,000 Americans and paralyzed another 27,000.

Polio's most famous victim was, of course, Franklin Delano Roosevelt, who contracted the virus at the age of 39 while on vacation. As America would later learn, the disease permanently paralyzed the future President.

Even now, half of the 1 million polio survivors today suffer residual bouts of illness. Deborah Cunningham of Nashville, TN, recalls her childhood struggle with the vicious disease. It was 1951. She was only 6 years old. She had just begun the first grade when one morning she woke up with a severe headache. As she tried to walk across her bedroom to get dressed for school, she collapsed on the floor.

Her parents rushed her to the local hospital where doctors examined her. They asked her to try to lift her legs. As she told a newspaper, the Commercial Appeal: ''I didn't know why they gave me such funny looks.''

She thought she had done as they said but, in fact, neither of her legs moved an inch. Deborah spent the next month in isolation, unable to speak or to eat solid foods. She was then moved to a ward for children with polio for 8 months where she spent the first 3 months encased in an iron lung.

In 1946, there were 25,000 cases of polio across the country. By 1952, the annual tally had more than doubled to 58,000 new cases. Until Jonas Salk's historic breakthrough, polio was one of the most dread diseases in the world. Indeed, the development of the polio vaccine has been compared to the Moon landing.

Today, polio has been nearly eradicated from the globe. Worldwide, only six countries are still significantly afflicted. In 1988, there were 350,000 cases worldwide. In 2003, that number was down to only 784 new cases. The World Health Organization is confident they will eradicate polio from the face of the globe by the end of the year.

One gentleman who has been instrumental in the drive to eliminate polio is Tennessee's own William Sergeant, chairman of the International PolioPlus Committee. The 86-year-old has dedicated over 40 years fighting the spread of the disease. In 1998, he was the first recipient of the Hannah Neil World of Children Award.

Today, the Smithsonian's National Museum of American History will celebrate the vaccine's 50th anniversary. Dr. Salk's youngest son and FDR's granddaughter will be in attendance.

Together they will help launch the Smithsonian's monthlong exhibition on the rise and fall of polio and the heroic efforts of Dr. Salk, and people such as Mr. Sergeant who worked tirelessly to defeat the disease.

As we celebrate polio's final retreat from human history, we must be ever vigilant and aware of the new threats that are taking place today. HIV/AIDS, SARS, West Nile virus, avian flu, and most recently the Marburg virus are among the emerging dangers in the 21st century. Currently, Angola is suffering the most severe Marburg outbreak in recorded history. As of yesterday, the virus has killed 193 victims in 1 month.

Marburg, which is a variant, a cousin, of the Ebola virus, is spread by bodily fluids, by things as small as little beads of sweat. Nine out of 10 people who contract the disease die typically within a week. The virus has an incubation of 5 to 10 days. The victim then suffers a sudden onset of fever, chills, and muscle aches. These symptoms quickly escalate to nausea, vomiting, chest tightness, and abdominal pain, ultimately leading to organ failure and death. There is no cure and there is no effective vaccine.

Scientists do not know the source of the virus or how it is initially transmitted into the human population. It is one plane ride away from the United States of America. There is no cure and there is no vaccine. At this very moment, international health workers in Angola are working feverishly to contain its spread. The epidemic is expected to last up to 3 months.

Meanwhile, there is avian flu. We continue to receive disturbing reports on the avian flu outbreaks in Asia. Already 50 people have died. Experts warn that the virus may mutate into a more lethal and more transmissible form, potentially unleashing a worldwide flu epidemic. If we do not address this threat now, tens of millions of people could die as a result, and we are dangerously behind.

The flu vaccine shortage last winter underscores the fragility of our vaccine supply in this country and indeed around the world. It underscores our need to bolster Federal and State preparedness whether in the event of a bioterror attack or emerging infectious disease. We have had this discussion before. We need to take action.

There are now only five major vaccine manufacturers worldwide that have production facilities in the United States. That is for all vaccines. Only two are U.S. companies. Over the past 2 decades, the number of manufacturers that made vaccines for children has dwindled from 12 now down to 4. Only two of the four manufacturers that make lifesaving vaccines for children are in the United States of America.

Early this year, Republican leadership unveiled the Protecting America in the War on Terror Act of 2005. This legislation contains critical new provisions to strengthen our public health infrastructure, stabilize the vaccine industry, and encourage advanced research and development. It encourages

the development of countermeasures against a biological, radiological, or nuclear attack as well as emerging infectious diseases. It does not address routine childhood immunizations.

This legislation incorporates recommendations from top health officials, industry experts, and infectious disease specialists. I urge my colleagues to support these long overdue measures to keep America safe.

I am gratified by my colleagues' efforts in the House to press this public safety issue. Indeed, in a few minutes the House Subcommittee on Labor, Health and Human Services, Education and Related Agencies is holding a hearing on pandemic preparedness and influenza vaccine supply. Officials from the CDC, NAID, and the Office of the Secretary of Health and Human Services will offer testimony this morning on the status of our public health security.

We cannot afford to be complacent. Experts tell us that the emergence of the worldwide flu pandemic is not a mere possibility but an all too frightening probability. Millions of lives could be lost if we fail to act. We must continue to search for preventions and cures to the new diseases on the horizon.

Most recently, thanks to the success of U.S. immunization efforts, the Centers for Disease Control and Prevention announced that rubella is no longer a major health threat in the United States. However, Dr. Julie Gerberding, director of the CDC, stresses:

> We have to remain vigilant because, as we say in public health, our network is only as strong as the weakest link . . . [We] have to sustain our commitment to immunization. We have to strengthen all of the links in the network, and we have to do everything possible to protect the health of children here within our country, as well as beyond.

We have come a long way since the famed Ernest William Goodpasture helped pioneer the development of vaccines. His work at Vanderbilt University helped create the vaccines that protect us from chickenpox, smallpox, yellow fever, typhus, Rocky Mountain fever, and many other viral diseases. I am confident that we possess the ingenuity. America has been the engine of countless lifesaving discoveries and global health efforts. Now it is time for us to demonstrate our resolve once again for the safety of our fellow citizens and millions of people around the globe.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Delaware is recognized.

Mr. CARPER. Mr. President, we have been joined this morning by the Senator from Colorado, and I yield to him such time as he may consume.

The ACTING PRESIDENT pro tempore. The Senator from Colorado is recognized.

JUDICIAL CONFIRMATION PROCESS

Mr. SALAZAR. Mr. President, I thank the great and wonderful Senator from Delaware for yielding me the time.

I rise to speak briefly about the bipartisan action taken by the Senate yesterday when it confirmed the nomination of Paul Crotty to be U.S. district judge for the southern district of New York.

I commend my colleagues for their willingness to put aside their partisan differences and to make sure that the judicial confirmation process worked in the case of Judge Crotty. I commend them for acting so obviously for the good of the American people.

Even more importantly, it is my hope that this example will prove to be an enduring one for all of us as we move forward with the subject of judicial nominations in the future. Our duty to evaluate Presidential judicial nominations and to confirm or reject nominees is a particularly solemn obligation under our Constitution. Our 871 article III Federal judges hold positions of great respect and great power. They put criminals in jail. They decide our most important private disputes and they explain what our laws mean. Our constitutional duty to evaluate judicial nominees is doubly important because judges are appointed for life. If we make a mistake, our country is stuck with a bad judge for years and sometimes decades.

On March 1, 2005, I sent a letter to President George Bush concerning judicial nominations. I respectfully suggested to the President that there are many well-qualified candidates to serve on the Federal bench, men and women who unquestionably would gain the consensus and approval of this body. The fact that the Senate reached consensus on 205 of the President's 215 judicial nominations over the past 4 years demonstrates the willingness, indeed the strong desire, of the majority and minority in the Senate to achieve this consensus.

Let me repeat that statistic one more time: 205 of the 215 nominations of President Bush have been confirmed by this body. That is a 95-percent confirmation approval rating. When there is that kind of approval of the President's nominees, this body is doing its job and not being, as some people have suggested, an obstructionist body.

Judge Crotty is an example of the way judicial nominations should be pursued in order to be successful under our Constitution. His nomination resulted first from consultations and then from an agreement among Senator SCHUMER, Governor Pataki of New York, and the White House. That kind of collaborative consensus approach to making sure there are no problems with the confirmation of judges who are nominated by the White House is exactly what ought to be pursued in other judicial vacancies that occur in our country.

Partisanship in this particular appointment played no role whatsoever, and it should play no role. Judge Crotty was a consensus choice, a nominee without extreme ideologies or any troubling factors in his background. Judge Crotty's qualifications to sit in judgment of others were apparent to all Senators, Democrats and Republicans alike.

Our duty runs to all the people of our Nation, whether they are Republicans, Democrats, Independents, or something else. At the end of the day, I plead with my colleagues in this Chamber, which has been so much a part of our constitutional history, to avoid moving forward with the so-called nuclear option that has the potential of shutting down the work of this body on behalf of the people of the United States.

At the end of the day, I suggest to the President of the United States and to our leadership in this body that there are issues which are of much greater importance for all of us to work on on behalf of the people. The people's work should be about having a national and homeland security program that works to protect our homeland and protect our Nation. The people's business should be about making sure that we pass energy legislation that addresses our overdependence on foreign oil today. The people's business should be about how we deal with the problem of health care which is strangling so many Americans and so many businesses across our country.

There are so many issues that are important to take care of the people's business that we ought not allow ourselves to get into the distractive avenue of dealing with the controversial issue of the few judges who historically have been rejected by the Senate. I suggest to all of my colleagues that it is important we move forward in the collaborative, cooperative approach that was taken in the nomination and in the confirmation of Judge Crotty to be a Federal district judge for the State of New York.

I yield the floor and I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DURBIN. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. DURBIN. Mr. President, would you inform me how much time is remaining in morning business on the Democratic side?

The ACTING PRESIDENT pro tempore. There remains 17 minutes 24 seconds.

CONSIDERATION OF TIMELY ISSUES

Mr. DURBIN. Mr. President, I rise in morning business to speak to several issues which I believe are timely in the consideration of the business of the Senate.

We are still in this national debate relative to Social Security. President Bush has proposed a plan to privatize and change Social Security, creating the possibility of so-called personal accounts. The President has taken this message on the road, saying that he would visit 60 cities in 60 days to talk about this issue. What we found is a reaction across America opposed to the President's proposal.

What we find is when the people of this country hear the details of President Bush's privatization plan, they are very skeptical. The reason is obvious. Even the President concedes that his privatization plan for Social Security will not strengthen Social Security. Today, left untouched, the Social Security Program would, for the next 36 or 37 years at a minimum, make every payment to every retiree every year with a cost-of-living increase.

If the President had his way and privatized Social Security, we have asked how much longer would the Social Security plan last. The answer is it would not only not extend the life of Social Security, it would shorten the life of Social Security because the President's plan is to reach into the Social Security trust fund to take out money that could be invested in the stock market. As you take money out of the trust fund, there is less money, obviously, to pay retirees. So the President's approach is going to weaken Social Security, not strengthen it.

Second, the President's approach involves dramatic cuts in benefits for senior citizens. If you take the money out of the Social Security trust fund, there is less to pay. The President's White House memo that was leaked a few weeks ago discloses that they would change the index by which people are paid Social Security benefits. That index decides what increase will come each year in Social Security. The President would reduce that index, so you would find in 10 or 20 years that retirees in America would get 40 percent less when it comes to their Social Security benefits. That would drive many seniors, who have paid into Social Security for a lifetime, into a position where they would be below the poverty line. So the second aspect of President Bush's privatization plan is not only that it does not strengthen Social Security, but there are dramatic benefit cuts to those who have paid a lifetime into Social Security, driving more seniors into poverty, making them vulnerable to a life that is much different than they had anticipated as they went to work every day and paid into Social Security.

The final point is one of the more important ones as well. President Bush's privatization of Social Security is going to add dramatically to America's national debt. In fact, the estimates from the President's own agencies say that this plan of his to privatize will add $2 trillion to $5 trillion to the national debt. That is a dramatic increase in the mortgage of America that our children will have to pay off. Who will hold the mortgage of America? Right now, the people holding the mortgage happen to be Japan, China, Taiwan, Korea, OPEC. So we will find ourselves more in debt to those who are financing America's national deficit, and our children will have to pay them off. We will have to dance to their tune. If they lose confidence in the American dollar, we will have to raise interest rates in order to entice them to buy our debt. Raising interest rates to lure China and Japan onto our side means raising interest rates at home.

So President Bush's privatization plan on Social Security has run into a firestorm of criticism. It is a plan which does not strengthen Social Security; it threatens massive benefit cuts and adds dramatically to our national debt.

I see my colleague from Delaware is on the floor, so I will speak very briefly.

I ask unanimous consent to have printed in the RECORD an article from the Washington Post of April 9.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Apr. 9, 2005]

AND THE VERDICT ON JUSTICE KENNEDY IS: GUILTY

(By Dana Milbank)

Supreme Court Justice Anthony M. Kennedy is a fairly accomplished jurist, but he might want to get himself a good lawyer—and perhaps a few more bodyguards.

Conservative leaders meeting in Washington yesterday for a discussion of ''Remedies to Judicial Tyranny'' decided that Kennedy, a Ronald Reagan appointee, should be impeached, or worse.

Phyllis Schlafly, doyenne of American conservatism, said Kennedy's opinion forbidding capital punishment for juveniles ''is a good ground of impeachment.'' To cheers and applause from those gathered at a downtown Marriott for a conference on ''Confronting the Judicial War on Faith,'' Schlafly said that Kennedy had not met the ''good behavior'' requirement for office and that ''Congress ought to talk about impeachment.''

Next, Michael P. Farris, chairman of the Home School Legal Defense Association, said Kennedy ''should be the poster boy for impeachment'' for citing international norms in his opinions. ''If our congressmen and senators do not have the courage to impeach and remove from office Justice Kennedy, they ought to be impeached as well.''

Not to be outdone, lawyer-author Edwin Vieira told the gathering that Kennedy should be impeached because his philosophy, evidenced in his opinion striking down an anti-sodomy statute, ''upholds Marxist, Leninist, satanic principles drawn from foreign law.''

Ominously, Vieira continued by saying his ''bottom line'' for dealing with the Supreme Court comes from Joseph Stalin. ''He had a slogan, and it worked very well for him, whenever he ran into difficulty: 'no man, no problem,' '' Vieira said.

The full Stalin quote, for those who don't recognize it, is ''Death solves all problems: no man, no problem.'' Presumably, Vieira had in mind something less extreme than Stalin did and was not actually advocating violence. But then, these are scary times for the judiciary. An anti-judge furor may help confirm President Bush's judicial nominees, but it also has the potential to turn ugly.

A judge in Atlanta and the husband and mother of a judge in Chicago were murdered in recent weeks. After federal courts spurned a request from Congress to revisit the Terri Schiavo case, House Majority leader Tom Delay (R–Tex.) said that ''the time will come for the men responsible for this to answer for their behavior.'' Sen. John Cornyn (R–Tex.) mused about how a perception that judges are making political decisions could lead people to ''engage in violence.''

''The people who have been speaking out on this, like Tom DeLay and Senator Cornyn, need to be backed up,'' Schlafly said to applause yesterday. One worker at the event wore a sticker declaring ''Hooray for DeLay.''

The conference was organized during the height of the Schiavo controversy by a new group, the Judeo-Christian Council for Constitutional Restoration. This was no collection of fringe characters. The two-day program listed two House members; aides to two senators; representatives from the Family Research Council and Concerned Women for America; conservative activists Alan Keyes and Morton C. Blackwell; the lawyer for Terri Schiavo's parents; Alabama's ''Ten Commandments'' judge, Roy Moore; and DeLay, who canceled to attend the pope's funeral.

The Schlafly session's moderator, Richard Lessner of the American Conservative Union, opened the discussion by decrying a ''radical secularist relativist judiciary.'' It turned more harsh from there.

Schlafly called for passage of a quartet of bills in Congress that would remove courts' power to review religious displays, the Pledge of Allegiance, same-sex marriage and the Boy Scouts. Her speech brought a subtle change in the argument against the courts from emphasizing ''activist'' judges—it was, after all, inaction by federal judges that doomed Schiavo—to ''supremacist'' judges. ''The Constitution is not what the Supreme Court says it is,'' Schlafly asserted.

Former representative William Dannemeyer (R–Calif.) followed Schlafly, saying the country's ''principal problem'' is not Iraq or the federal budget but whether ''we as a people acknowledge that God exists.''

Farris then told the crowd he is ''sick and tired of having to lobby people I helped get elected.'' A better-educated citizenry, he said, would know that ''Medicare is a bad idea'' and that ''Social Security is a horrible idea when run by the government.'' Farris said he would block judicial power by abolishing the concept of binding judicial precedents, by allowing Congress to vacate court decisions, and by impeaching judges such as Kennedy, who seems to have replaced Justice David H. Souter as the target of conservative ire. ''If about 40 of them get impeached, suddenly a lot of these guys would be retiring,'' he said.

Vieira, a constitutional lawyer who wrote ''How to Dethrone the Imperial Judiciary,'' escalated the charges, saying a Politburo of ''five people on the Supreme Court'' has a ''revolutionary agenda'' rooted in foreign law and situational ethics. Vieira, his eyeglasses strapped to his head with black elastic, decried the ''primordial illogic'' of the courts. '

Invoking Stalin, Vieira delivered the ''no man, no problem'' line twice for emphasis. ''This is not a structural problem we have; this is a problem of personnel,'' he said. ''We are in this mess because we have the wrong people as judges.''

A court spokeswoman declined to comment.

Mr. DURBIN. Mr. President, if you want to know the extremes which are being reached in the debate on the role of judges in America, read this article. There was a meeting in Washington, DC, of some of the more conservative groups on the Republican side. These conservative leaders met to discuss ''Remedies to Judicial Tyranny.''

They decided that Supreme Court Justice Anthony Kennedy—a Ronald Reagan appointee, I might add—should be impeached.

Phyllis Schlafly [originally from my home State of Illinois] said [that Justice] Kennedy's opinion forbidding capital punishment for juveniles ''is a good ground of impeachment.'' To cheers and applause from those gathered at a downtown Marriott for a conference on ''Confronting the Judicial War on Faith,'' Schlafly said that Kennedy had not met the ''good behavior'' requirement for office and that ''Congress ought to talk about impeachment.''

Unfortunately, hers was not the most incendiary quote. A gentleman by the name of Edwin Vieira, a lawyer-author, the article goes on to say:

. . . not to be outdone . . . told the gathering that Justice Kennedy should be impeached because his philosophy, evidenced in his opinion striking down an anti-sodomy statute, ''upholds Marxist, Leninist, satanic principles drawn from foreign law.''

Ominously, Vieira continued by saying his ''bottom line'' for dealing with the Supreme Court comes from Joseph Stalin.

I am quoting Mr. Vieira:

He [Stalin] had a slogan, and it worked very well for him, whenever he ran into difficulty: ''no man, no problem,'' Vieira said.

The Washington Post goes on to say:

The full Stalin quote [this is what Stalin really said] . . . is ''Death solves all problems: no man, no problem.''

This type of outrageous statement from the so-called conservative Republican right is clear evidence that what we have heard from Congressman TOM DELAY in the House of Representatives, and from even Members in our own Chamber, represents a departure from the line of civility which we have refused to assault or cross when it comes to dealing with the separate branches of Government.

There is no doubt that decisions are handed down by Federal courts across America on a daily basis with which I personally disagree and find abhorrent. But to suggest retribution against judges—first from Schlafly that it should involve impeachment and then from Mr. Vieira that it should go further—suggests an assault on the independence of the judiciary about which every American should be concerned. When the men and women who don these robes for lifetime appointments have the courage to rule in cases, even in controversial cases, they should not feel they are going to be threatened on a regular basis by Members of Congress or by those in political parties who happen to see things differently.

We know how this can reach an extreme. We have seen it happen. In my home State of Illinois, the family of one of our outstanding Federal jurists was assaulted, and two of them were murdered. This type of reaction shows that when you give comfort to this crazed mindset, it can have disastrous results. The people who sponsored this conference should be embarrassed that they came together and suggested this kind of action against Federal judges.

It is time to put an end to this. We need to have an independent judiciary in touch with the ordinary lives of American citizens, in touch with the value of our families. But we always should stand and defend the independence of our judiciary and the integrity of the men and women who serve in that branch.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Delaware is recognized.

THE JUDICIARY

Mr. CARPER. Mr. President, yesterday I was in my State capital, Dover, DE, before I came down here. I was a short distance from a place called the Golden Fleece Tavern. It no longer exists, but it was the site of the place where Delaware became the first State to ratify the Constitution. They did that on December 7, 1787. That action took place a couple of months after a Constitutional Convention about 75 miles up the road in Philadelphia.

Some of my colleagues may recall that one of the last issues resolved at the time of the Constitutional Convention was the question of how they were going to select these judges, the third branch of our Government. How do we select these judges? There were some at that time who were fearful of creating a Presidency that would be too strong, having had a bite of the apple of putting up with a king of England for a number of years. They did not want to create a king or someone of royalty in this country to be our leader. Our Founding Fathers worked diligently in any number of ways to create checks and balances to ensure that we didn't end up with a king but ended up with a President. Among the checks and balances they incorporated into our Constitution is one that deals with the selection of our judges. We all know how Presidents nominate and the Senate confirms or does not confirm nominees to lifetime appointments to the Federal bench.

Twice in our Nation's history we have seen instances where a President sought to stack the courts. Both were Democrats. One was Thomas Jefferson at the beginning of his second term as President, and a second was FDR at the beginning of his second term as President. Both times, both Presidents, both Democrats, were rebuffed. Today, Democrats no longer reside in the White House. Today, the Republicans are in the majority here in the Senate and in the House of Representatives.

With the election of last November, President Bush is in a position to see much—not all, but a good deal—of his legislative agenda approved; perhaps modified but ultimately approved. He is also in a position to leave an even more enduring legacy through his nomination of hundreds of judges in the Federal courts of almost every State. In President Bush's first term, he nominated over 200 men and women to the Federal bench, and 215 nominees were actually debated here on the Senate floor, and 205 were approved. That is an approval rate of about 95 percent. Of the 10 who were not approved, our side would say they were simply out of the mainstream.

As the 108th Congress concluded last year, the vacancy rate stood at the lowest, I believe, since the Reagan era. How did that compare with the Clinton era? In President Clinton's time as President for 8 years, 81 percent of his Federal nominees were approved, as compared to 95 percent of President Bush's in the last 4 years. It is kind of an irony, at least to me, that 81 percent for President Clinton was enough, it was OK, but 95 percent for President Bush is unacceptable.

While our Republican friends are prepared to change the rules of the Senate in an effort to make it a lot easier to confirm Federal judges, and are poised, I am told, to turn some 200 years of precedent on its head because 95 percent may not be enough, I think to do so would be a mistake.

We have a chance to pass not only class action legislation, but we have a chance to pass bankruptcy legislation, asbestos litigation reform, a comprehensive energy policy, restructuring of the postal system for the 21st century, and on and on. This could be the most fruitful legislative session in recent memory. I would hate to see us destroy that potential.

I say also that the slope we get on with respect to changing the way we close off debate on judicial nominations is a slippery one. Today, we may want to apply it to judicial nominations; later on we may want to apply it to nominees for Cabinet positions or nominations for other positions. It is a slippery slope.

My Republican friends would be wise to listen to former Republican Senators who served on that side of the aisle, people such as Senators Wallop, McClure, Danforth, and today Senator Dole, Robert Dole. They reminded today's Republican Senators, the majority in the Senate, that the bed we make today is one we may have to sleep in. There won't always be a Republican President. Some day there will be a Democrat President. It could be 4 years from now. There will not always be a Republican majority in the Senate. It goes back and forth.

I say to my friends on the other side of the aisle, before we go down this road, keep in mind a couple of things. No. 1, we have the potential to get so much done this year. I would hate to see us blow that opportunity.

No. 2, this is a slippery slope—a policy change that may be designed initially to make it easier to confirm judicial appointments but could easily be applied to other appointments to other positions.

No. 3, some Democrats would take some consolation in the thought that we are not going to always be in the minority, and as there was a Democrat President for the last 8 years for the last century, there will be another one in the future.

My Republican friends, be careful of the bed you make because someday you will have to chance to sleep in it.

Thank you, Mr. President.

The ACTING PRESIDENT pro tempore. The Senator from Colorado is recognized.

JUDICIAL NOMINATIONS

Mr. ALLARD. Mr. President, I rise this morning to address one of the most important obligations that we, as Members of the Senate, are bound to fulfill—the approval or disapproval of the President's judicial nominations.

Perhaps no other constitutional duty vests as much responsibility in the executive, or this body, than article II, articulating the President's power of appointment, a power that is only realized when the Constitution works as it was intended to, when we fulfill our obligation as laid out in the clause requiring this body's advice and consent.

This fundamental duty carries with it the weight and responsibility of generations, a lifetime appointment to a position that requires a deep and mature understanding of legal thought, and a solemn oath to uphold the law.

This debate is not about numbers. It is not about percentages, how many judges that Republicans confirmed or how many judges Democrats confirmed. To frame the debate as nothing but a statistical argument is to betray the American people.

We were not sent to Congress to focus on a numerical count but instead to make sure that limited government allows for opportunity and promise without stifling individual freedom and liberty.

We were sent here to build a stronger Union and to uphold our obligations under the Constitution.

The Founding Fathers referred to judges as ''the guardians'' of the Constitution and gave to the President the responsibility to appoint them.

Alexander Hamilton once wrote that, in order to maintain the health of the three branches of government, all possible care is requisite to enable the judiciary to defend itself.

It is frightening to think that a minority in the Senate is eroding the foundation of the third branch by perpetuating obstruction and endangering the citadels of justice.

No where does the Constitution give Congress the ability to ignore the appointment process.

By refusing to give judicial nominations an up or down vote, it is nothing more than a Congressional veto with a fancy name.

James Madison characterized the appointment of judges as the remote choice of the people.

Failure to provide an up or down vote deprives the people of the United States the choice selected by their representatives, denying choice to the very same people who elected us to office and the same people who live under the Constitution that we have sworn to protect.

The legal prowess of a nominee is obviously an important factor to consider when confirming a judge.

The Constitution calls upon the Senate collectively to determine whether or not a particular nominee is qualified to serve. This determination is made in one gesture, the approval or disapproval of the nomination itself.

In 2003 and 2004, a series of votes were held on various nominees. Some were approved, while others were denied a vote altogether, even though they were clearly supported by a majority of Senators.

Procedural processes do not fulfill the advice and consent requirement. Advice and consent does not mean avoiding the question on a judicial nominee entirely by employing a filibuster.

If a Member of the Senate disapproves of a judge, then let them vote against the nominee. But do not deprive the people of the right to support a nominee through their elected representative.

It is our vote, the right of each Member to collectively participate in a show of ''advice and consent'' to the President, that exercises the remote choice of the people.

The burden of obstruction is borne by the American people. Empty seats on our highest courts delays the recourse and justice guaranteed by the Constitution.

As so many of my colleagues have stated before me, such justice delayed is justice denied.

In the shadow of September 11, 2001, we now recognize the efforts being made by the enemies of the United States to destroy the liberties and freedom of our great Nation. The most basic of our country's values and traditions are under attack.

Congress responded by enacting new laws and by providing financial assistance to businesses, families and defense; we acted swiftly to suffocate terrorists and destroy the hateful organizations that work to undermine our society.

Through strong and courageous leadership, the President has stood firm against terrorist and terrorist regimes.

But our government cannot function without an equally strong judiciary, the third branch of government. It is through the judiciary that justice is served, rights protected, and that law breakers are sentenced for their crimes.

The Senate cannot willingly refuse to provide an up or down vote on judicial nominees without acknowledging that irreparable harm may be done to an equal branch of government.

Judges must take an oath to uphold the law, regardless of their personal views.

Time after time, a nomination has been blocked by a minority of Senators because they feel that they are better judges of a nominee's ability to fulfill that oath than a majority of the Senate.

The result of this obstruction is a broken nomination process.

I sincerely hope we can work through the impasse on the judicial nomination process.

I hope those opposed to the President's nominees will vote against them and speak their mind about it. But I also hope that we will be allowed to provide the guidance we are required to provide under the Constitution.

As I have said so many times before, ''vote them up or vote them down, but just vote.''

The ACTING PRESIDENT pro tempore. The Senator from Tennessee is recognized.

Mr. ALEXANDER. Mr. President, I am the Senator from Tennessee, and we know something about country music in our State. There is an old country music song with the line that goes something like this: There is light at the end of the tunnel and I hope it ain't no train.

I am beginning to think it is a train and that there is not much way to avoid a train wreck. The train wreck I am talking about is a threat by the minority to ''shut the Senate down in every way'' if the majority adopts rules that will do what the Senate has done for 200 years, which is to vote up or down the President's appellate judicial nominees.

Until recently, not to vote at all on a President's judicial nominee was unimaginable. Take the case of Clarence Thomas in 1991: The first President Bush nominated him to the Supreme Court of the United States. I haven't seen any debate in this body with as much passion in it as the Thomas nomination. But he was nominated in July, the Senate voted in October 52 to 48, and it was done. Yet, in the last session of Congress, for some reason that escapes me, the minority felt it had to use the filibuster to deny an up-and-down vote 10 times on 52 of the President's appellate judicial nominees. That has never happened before. There are a lot of ingenious arguments being made on the other side, but that has never happened.

Some people mention Abe Fortas in 1968—I was here then; I was working for Howard Baker in the Senate. The votes against Fortas were in the majority. But even if you give that to the other side, neither party has ever used the tactic of denying an up-or-down vote on judicial nominees in 200 years.

The argument that the Senate doesn't have the power to change this procedure would get thrown out of court in a summary judgment. From 1789 when the Senate first met and adopted its rules by majority vote, it has adopted its rules by majority vote as the Constitution provides.

The nominees who the President put up who were rejected were badly abused. Charles Pickering, from Mississippi, was accused of not being sensitive to civil rights. In 1967, he put his children into desegregated schools in the middle of Mississippi. He testified in court against the grand wizard of the Ku Klux Klan, who was described by Time Magazine as the most evil terrorist in America.

Bill Pryor, not sensitive on civil rights? Too conservative? Bill Pryor was law clerk to John Minor Wisdom in New Orleans, as the Presiding Officer knows, perhaps the leading civil rights judge in the South during the 1950s, 1960s, and 1970s, and Bill Pryor has repeatedly demonstrated he can separate his views from his judicial judgments. Most recently he was part of the court—by his recess appointment—that rejected an appeal on the Terri Schiavo case. I don't know how he felt personally about it, but he felt under the law there was no recourse in Federal courts. Chairman ARLEN SPECTER has sent a certain memorandum around to Members asking us to look at Priscilla Owen's real views on Roe v. Wade. She hasn't said she wants to overturn Roe v. Wade.

The question is not whether the Senate has the power to adopt the rules by majority vote—it unquestionably does; that is common sense—but whether we should.

I am one of the Republicans who believe such a rules change is not a good idea—not good for the Senate, not for the country, not for Republicans, and not for Democrats. The Senate needs a body that by its procedures gives unusual protection to minority rights.

Tocqueville, in the early 19th century, warned of the tyranny of the majority. In South Africa we saw a political miracle when the new Black majority respected the property rights of the White minority. In 1967, when I came here—and I see the Republican whip here; he came about a year or two later—the Republicans were the ones worrying about protecting minority rights. There were 64 Democrats and 36 Republicans then. There were 38 Republicans in 1977 when I came back working with Howard Baker, and in 1979, when Senator BYRD eloquently argued the majority could make Senate rules, there were only 41 Republicans, so the Republicans were worrying about minority rights.

But minority rights can also be abused. Remember what the filibuster was used for in the 1930s, the 1940s, the 1950s, and the 1960s. The filibuster was used to deny Black Americans the right to vote. It was used to keep the poll tax. It was used to stop a Federal anti-lynching law. It was used to keep African Americans from sitting down and having lunch in Nashville. So the filibuster can also be an abuse of minority rights.

It is not my job to advise the Democrats, and I wouldn't presume to do it, but I believe it is a mistake for the Democrats to provoke a rules change, and I believe it is a bigger mistake, as they have threatened, to ''shut down the Senate,'' when it happens. Last month, three dozen Democrats stood on the steps of the Capitol and basically threatened to do that. On December 13, in the Washington Post, the Senator from New York, Mr. SCHUMER, said that the use of the nuclear option would ''make the Senate look like a banana republic . . . and cause us to try to shut it down in every way.''

Consider what the Senator from New York is saying. Not only will the minority not allow a vote on judges up or down in a country where the rule of law is of paramount concern, but they will shut the Senate down in every way at a time when natural gas prices are at $7, shut the Senate down in every way at a time when oil prices and prices at the pump are at record levels, shut the Senate down in every way when there is a Federal deficit that needs to be brought under control, shut the Senate down in every way when the immigration laws need fixing, and shut the Senate down in every way while we are at war.

I don't believe the American people like the idea of Washington politicians threatening to shut the Senate down in every way. As I remember, the last prominent political leader who said something like that was my friend, Newt Gingrich, 10 years ago. It backfired, and he was out of office in about a year.

The people expect us to go do work, to do our jobs. They expect us to vote on judges, to lower natural gas prices, to reduce the deficit, to fix the immigration laws, and to win the war on terror. We cannot do it if part of the Senate wants to shut the Senate down in every way.

Our Senate leader, BILL FRIST, has been working hard to avoid this train wreck. I still hope we can avoid it. I believe my colleagues in this body know the enormous respect I have for the new Democratic leader, HARRY REID. He and I worked together on American history. I had the privilege of being with him in a delegation for 8 days in Palestine, Israel, Iraq, Kuwait, Georgia, Ukraine, and France, and not once in those 8 days did the Democratic leader undercut the policies of the President of the United States. He conveyed the U.S. position. I am not surprised by that. That is the way it should be. But I am impressed by that. I am impressed by the Democratic leader. I am convinced he and the majority leader can make this Senate do its job if given the chance.

We need to avoid this train wreck if there is a way to do it. Twice I have offered in the Senate my suggestion about how I as one Senator could do it. I said 2 years ago that I would give up my right to filibuster a President's nominee for an appellate judgeship even if it were President KERRY or President Clinton or President REID or any other Democrat. I might vote against that nominee, but I would never filibuster as long as I were a Senator.

Now, if six Democrat Senators and six Republican Senators would say the same thing, then there would be no need for a rules change, and there would be no need for a train wreck. All we need are six Democrat Senators and six Republican Senators who believe there ought to be up-or-down votes regardless of the President's party and who believe it would be wrong to shut the Senate down. The right thing to do is to have an up-or-down vote on any of the President's Federal appellate judicial nominees. That has been the way we have done it for 200 years. The wrong thing to do is to shut the Senate down in every way.

I yield the floor, and I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DEMINT. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DEMINT. Mr. President, I rise today to address the current institutional crisis in the Senate brought on

by the insistence of a few on defeating the will of the American people in preventing the Senate from doing its job of voting on the President's nominees to the Federal bench.

We all know that the Constitution is very clear on this front. The judicial nominees are chosen solely by the President with the advice and consent of the Senate. Until President Bush was elected, no one has ever interpreted this requirement to mean anything other than a simple majority vote. The Senate has never denied an up-or-down vote to any appellate court nominee who had majority support. But the Democrats have rejected this 200-year-old Senate tradition and, with it, the very will of the American people.

The Democrats lost the election, and they seem unwilling to accept the fact. Instead, they unilaterally change the rules and politicize the judicial confirmation process. This is extreme behavior and extreme tactics—threatening to shut down the Senate if we should dare to confirm a well-qualified nominee with bipartisan majority support. This is an epitome of arrogance—assuming they know better than the majority of their colleagues and the President. The people back home want to see these nominees treated fairly and given an up-or-down vote.

Is it fair to say to nominees that they are out of the mainstream when they have the support of the Democrats and the Republicans making up the majority of the Senate? I submit it is the obstructionists who are out of the mainstream when they block an up-or-down vote on nominations of justices such as Janice Rogers Brown for years.

Extreme, arrogant, out of the mainstream—this is the anything-goes Senate Democrats who are willing to go to any length to deny exemplary judges the opportunity to dedicate their lives to service to the American people.

By trying to shred the reputation of some of the most respected and admired judges in public service in this country, a few Senators are sending a very powerful message to any others who may aspire to the bench. They are telling us, don't bother. It appears to be increasingly likely that such talent, dedication, and personal sacrifice will be rewarded with attacks on the floor of the Senate and years of uncertainty while a bipartisan majority waits powerless to confirm these nominees.

I call for a return to tradition. The American people have done their jobs and expect us to do the same. We in the Senate need to do our jobs and confirm fair judges through a fair process.

I yield the floor and suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. MCCONNELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

50TH ANNIVERSARY OF POLIO VACCINE

Mr. MCCONNELL. Mr. President, today we celebrate the 50th anniversary of the polio vaccine. The people of my generation, who were youngsters at that time, remember full well the exciting development. Now polio is virtually eradicated.

The Committee on Foreign Operations, which I have had the privilege to either chair or be ranking member for the last decade or so, has appropriated about $160 million toward that fight over the last 6 years.

Of course, the Rotary International, a private organization, deserves the lion's share of the credit for almost total eradication of polio. This private civic group with international chapters made this a project some 20 years ago and have collected and spent about $600 million and delivered the vaccine in all parts of the world. So because of this, today we can celebrate, essentially, the complete eradication of this disease from the Earth. Rotary deserves a big part of the credit for that.

I rise to talk about this for another reason. It had an enormous impact on me personally. I was struck with polio when I was 2 years old. My dad was overseas fighting in World War II. Polio was similar to having the flu—you felt sick all over. Except when polio went away there were residual effects. In my case, when my flu-like symptoms went away, I had a quadricep in my left leg that was dramatically affected.

My mother was, of course, like many mothers of young polio victims, perplexed about what to do, anxious about whether I would be disabled for the rest of my life. But we were fortunate. While my dad was overseas my mother was living with her sister in east central Alabama, only about 40 or 50 miles from Warm Springs. As everyone knows, President Roosevelt established Warm Springs, where he went to engage in his own physical therapy, as a center to treat other polio victims. So my mother was able to put me in the car, go over to Warm Springs, and actually learn, from those marvelous physical therapists who were there, what to do.

They told my mother she needed to keep me from walking. Now, imagine this. You are the mother of a 2-year-old boy. And we all know how anxious little boys are to get up and get around and get into trouble. So my mother convinced me that I could walk, but I couldn't walk—a pretty subtle concept to try to convey to a 2-year-old. In other words, she wanted me to think I could walk, but she wanted me to also understand I should not walk.

Now, obviously, the only way to enforce that with a 2-year-old is to watch them like a hawk all the time. So I was under intense observation by my mother for 2 years. She administered this physical therapy regiment at least three times a day—all of this really before my recollection. But we now know the things that happened to us in the first 5 years of our lives have an enormous impact on us for the rest of our lives.

So this example of incredible discipline that she was teaching me during this period I always felt had an impact on the rest of my life in terms of whatever discipline I may have been able to bring to bear on things I have been involved in. I really have felt my mother taught me that before I was even old enough to remember.

So this went on for 2 years. My first memory in life was stopping at a shoe store in LaGrange, GA. We had left Warm Springs for the last time, and the physical therapist there had told my mother: Your son can walk now. We think he is going to have a normal childhood and a normal life. We stopped at a shoe store in LaGrange, GA, and bought a pair of saddle oxfords, which are low-top shoes—my first recollection in life.

Thanks to my mother, I had a normal childhood. I was not able to run all that well, but I played baseball and have had a normal life. The only impact of that early childhood experience with polio is that I have a little difficulty going down stairs. Most people do not want to go up stairs and do not mind walking down stairs. I like to walk up stairs and take an elevator down because an effected quadricep impacts your ability to descend stairs.

So I am particularly moved by the fact that we can stand here today and say that polio is essentially eradicated from the face of the Earth. When I was a youngster, the fear of polio was enormous. Mothers, every summer, lived in fear that their children would come down with polio, and many did, many died. Many had much more serious aftereffects than I did, certainly.

But it is with great gratitude that I commend Rotary International today for this extraordinary accomplishment of getting this vaccine out all over the world so that we can essentially say, in 2005, that polio has been eradicated from the face of the Earth.

Mr. President, I ask unanimous consent that an article from the Wall Street Journal entitled ''Polio and Rotary'' be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Wall Street Journal, Apr. 12, 2005]

POLIO AND ROTARY

Today marks the 50th anniversary of the Salk polio vaccine. Poliomyelitis, also

known as infantile paralysis, used to be one of childhood's most feared diseases. A few years after Dr. Jonas Salk announced his vaccine on April 12, 1955, nearly every child in the U.S. was protected. Today polio has disappeared from the Americas, Europe and the Western Pacific and is nearly gone from the rest of the world.

A too-little known part of this feat is the role played by Rotary, the international businessman's club, which 20 years ago adopted the goal of wiping out the disease. Rotary understood that medical breakthroughs are worthless unless people aren't afraid to immunize their children and efficient delivery systems exist to get the vaccine to them. And so it mobilized its members in 30,100 clubs in 166 countries to make it happen.

In 1985, when Rotary launched its eradication program, there were an estimated 350,000 new cases of polio in 125 countries. Last year, 1,263 cases were reported. More than one million Rotary members have volunteered their time or donated money to immunize two billion children in 122 countries. In 1988, Rotary money and its example were the catalyst for a global eradication drive joined by the World Health Organization, Unicef and the U.S. Centers for Disease Control. In 2000 Rotary teamed up with the United Nations Foundation to raise $100 million in private money for the program. By the time the world is certified as polio-free—probably in 2008—Rotary will have contributed $600 million to its eradication effort.

An economist of our acquaintance calls Rotary's effort the most successful private health-care initiative ever. A vaccine-company CEO recently volunteered to us that the work of Rotary and the Gates Foundation, both private groups, has been more effective than any government in promoting vaccines to save lives. It's become fashionable in some quarters to deride civic volunteerism, but Rotary's unsung polio effort deserves the Nobel Peace Prize.

Mr. MCCONNELL. Mr. President, I yield the floor.

CONCLUSION OF MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, morning business is closed.

EMERGENCY SUPPLEMENTAL APPROPRIATIONS ACT, 2005

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will resume consideration of H.R. 1268, which the clerk will report.

The assistant legislative clerk read as follows:

A bill (H.R. 1268) making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes.

The PRESIDING OFFICER (Mr. SUNUNU). The Senator from Arizona.

Mr. KYL. Mr. President, as was just indicated, we are now back on the supplemental appropriations bill, which is critical to the funding of our effort to continue our activities in Iraq and Afghanistan and elsewhere around the world.

One of the reasons Senator CORNYN and I want to speak for a few minutes this morning is to make the point that we very much hope our colleagues will join with us in ensuring the quick passage of this bill so we can get on with that effort and then move to other business.

There has been a suggestion that amendments might be offered to the bill that do not relate to the funding of the war effort. For example, some of our colleagues have talked about offering amendments that relate to the subject of immigration. Now, that subject is one we are going to have to debate this year, and we are going to have to consider legislation very seriously later on this year, but our view is that it would be inappropriate to consider that legislation in the context of this supplemental appropriations bill.

We are aware of the fact there was a provision in the House bill that related to driver's license standards and asylum, but those are matters that relate more to terrorist activities than our immigration laws, as they pertain to illegal immigration. Therefore, our view is that we would refrain from offering amendments of that kind and would hope our colleagues would as well.

We would hope, by indicating what we plan to do, that our colleagues would appreciate our commitment—that is to say, Senator CORNYN and myself—to seeing that the issue of illegal immigration generally and immigration reform specifically will, in fact, be considered by the Senate a little bit later on this year.

It is our intention to introduce legislation and to work through the amendment process, perhaps before that, to ensure that we are doing everything we can in the Congress to ensure our borders are secure, that we have adequate law enforcement both at the borders and in the interior of the country, and that we, therefore, create the precondition for the consideration of immigration reform, which is that we do have a commitment to enforce the law and abide by the rule of law in this country.

There is one thing I think almost everybody interested in the immigration debate will agree on, and that is that we have a broken legal system right now. Employers pretend they are not employing illegal immigrants, but they know they are, and they have documents the Government has called for. The Government pretends to enforce the law, but it knows the documents, in many cases, are counterfeit.

The industry will very candidly tell you they do not know what they would do without the illegal employment they have today. So they are putting pressure on some of our Members to come forward with legislation to create a legal regime for these employees and, indeed, there should be.

We should get to the point where nobody in this country hires illegal immigrants anymore. To do that, we are going to have to demonstrate a couple things. The first is that we are committed to enforcing such a law, because our constituents rightly tell us: Why should we consider immigration reform—temporary worker reform, for example—if we don't think it is going to be enforced? You are not enforcing the law today. What makes us think you are going to enforce the law in the future?

It is a good question. We have to be able to answer that question in the affirmative and say we are committed to enforcing the law. It begins with enforcement at the border, and it goes right on through with the rest of the law that makes it illegal to hire illegal immigrants. Those laws do need to be adequately enforced.

If we could commit ourselves to do that, then I believe we could lay the foundation for successfully getting legislation to provide some kind of guest worker or temporary worker program that will both liberalize the ability of employers to bring legal immigrants into this country to work for them on a temporary basis and also deal with the 10 to 15 million—nobody knows exactly how many for sure—illegal immigrants who exist in the country today. Many of those people work hard. They come to work here. They intend only to send money back to their relatives in Central America or Mexico or wherever they came from. Many of them are, indeed, needed in our workforce. But we cannot condone a situation in which they are working illegally. So we have to come up with a structure that would permit us to take advantage of their desire to work here, but to do so in a legal construct and not to reward them with any kind of amnesty.

The specifics of doing that have been discussed a little bit by the President of the United States, who laid out some principles for a guest worker program, as he calls it. What Senator CORNYN and I are here to talk about today is the fact that we are working on legislation to try to embody many of the principles the President has laid out to create a legal mechanism by which we can meet our workforce needs in this country but to do so all within the rule of law, where the law will be strictly enforced, there will be no more hiring of illegal immigrants, and therefore we remove the magnet which currently exists which draws illegal immigrants into our country because they can be employed easily.

So we remove that magnet, but we do so in a way that does not reward the lawbreakers, the people who come here

illegally and use illegal documentation to obtain employment and, in many cases, are creating a drain on society, and ensure they are not rewarded for their illegal behavior by amnesty, which I think most people would agree, at a minimum, means they would not be granted a path to citizenship or be able to chain migrate their family into the country ahead of those who want to do so legally; meaning, specifically, that, of course, anyone who wanted to do that could get in line in their country of origin with a worker sponsor for legal, permanent residency or green card status. If they acquired that status, then there are other things that flow from that, such as the ability to apply for citizenship. But that should only come as a result of going home, being there, and getting in line with everybody else. It certainly should not be granted to people who came here illegally and would be permitted to stay here while that status was pending. That is the kind of thing we mean by saying no amnesty.

But at the end of the day, I think President Bush is right, that we have to come to grips with this problem. We have to find a way, as he said, to match willing workers with willing employers but to do so strictly in the confines of a legal regime. What Senator CORNYN and I have been working on for several weeks now is a bill we hope would embody many of those principles. It is not going to track exactly what the President has proposed. I would also say the President has not gotten real specific about several areas, and we are going to have to fill in a lot of those blanks.

We will talk to our colleagues, and we will talk to the various groups that are involved in this issue to see what their ideas are about how best to make this work. But the bottom line so far as we are concerned is, if we do this, we have to be able to commit to the American people that since we now have a legal and relatively easy mechanism for filling the workforce needs here in our country, we are not going to condone any illegal employment in this country. If we establish that principle, we then help to remove that magnet which is drawing so many illegal immigrants to the United States.

Just to conclude with this point. I mentioned the fact we would be introducing legislation, which we intend to do. But there are also opportunities for us to demonstrate this commitment to enforcing the law. Let me mention a few of those. In whatever way we can accomplish this, whether it be before the introduction of such legislation or in conjunction therewith, we intend to move forward.

The intelligence reform bill of last year authorized 2,000 new Border Patrol agents each year for 5 years, but we do not have enough money in the budget for any more than about a tenth of that number.

Currently, there are about 11,000 Border Patrol agents. A pre-9/11 study conducted by the University of Texas said we needed at least 16,000 Border Patrol agents on our southern border alone in order to secure the border. So we clearly have to fund the addition of more Border Patrol agents. Authorized in the intelligence bill as well were 800 additional Immigration and Customs Enforcement investigators, again for a 5-year period, an additional 800 Customs/Border Protection inspectors at our Nation's ports, 8,000 new detention bed spaces, and some other requirements that all follow if we are going to enforce the law.

We need to fund these programs to demonstrate our commitment to the law. We also need to reimburse the States for their incarceration of illegal immigrants in prisons. The so-called SCAAP funding accomplishes that. It is the State Criminal Alien Assistance Program. But there was not any money in the budget this year, and it needs to be at least $750 million. We need to do some other work to ensure that States do not bear the costs of the Federal Government's failure to enforce the Federal law.

There are a lot of things that have to be done. The point we are making is, one, this is complicated. It is big. It has to be done. It should not be attempted on a bill which we have to get passed quickly to ensure funding for our troops in Iraq and Afghanistan and elsewhere. This is a debate we can have in the future, and I am assuring our colleagues we are moving the process forward. I chair the Terrorism and Homeland Security Subcommittee of the Judiciary Committee. My colleague, JOHN CORNYN, chairs the Immigration Subcommittee. We intend to try to move this legislation through the Judiciary Committee as a matter of regular order as soon as we can get our legislation complete.

My colleague from Texas wants to make a presentation regarding this same subject.

The PRESIDING OFFICER. Who seeks time?

The Senator from Texas.

Mr. CORNYN. Mr. President, I want to follow on the comments of Senator KYL because we are working together on this important legislation, what we hope and expect will be comprehensive immigration reform. The message both of us would like to convey is that this is a complex topic. It can't be accomplished this week, especially not on supplemental appropriations designed to make sure our troops have the equipment and resources they need to fight the global war on terrorism.

Let me give a little background to explain my perspective. It tracks closely with what Senator KYL has already said.

Our Nation's immigration system is badly broken. It leaves our borders unprotected, threatens our national security, and makes a mockery of the rule of law. We have failed to enforce our laws and to protect our borders for far too long through years of neglect. In a post-9/11 world, we simply cannot tolerate this situation any longer. National security demands a comprehensive solution to our immigration problem.

Senator KYL and I have determined that we would work together. We have a particular interest, being Senators from two border States along the southern border where the illegal immigration is perhaps the most rampant. We also want to come up with a plan that addresses not only our national security but deals with the economic issues that are integrally intertwined with this complex issue in a way that is compassionate and deals with the very real human consequences and causes for illegal immigration.

We are undertaking a thorough review of our immigration laws as we speak. At the conclusion of our discussions, Senator KYL and I plan to introduce a comprehensive immigration reform bill that will dramatically strengthen enforcement, bolster border security, and comprehensively reform our laws. I particularly am glad to be working with Senator KYL. He chairs the Subcommittee on Terrorism, Technology, and Homeland Security, and I chair the Judiciary Subcommittee on Immigration, Border Security, and Citizenship. We have already had our first hearing, a joint hearing, on border security. The second one, this Thursday, will focus on interior enforcement, or maybe I should say interior nonenforcement, when it comes to our immigration laws.

In the past, we have simply not devoted the funds, the resources, or the manpower to properly enforce our immigration laws and protect our borders. That must change. If we have anything to do with it, it will change.

Let me put the matter as clearly and explicitly as I possibly can. No discussion of comprehensive immigration reform is possible without a clear commitment to, and a dramatic elevation in, our efforts to enforce the law. That includes enforcement both at the border and within the interior. We must have strong border protection between ports of entry and a strong employee verification system to put an end to the jobs magnet for illegal entry.

Our immigration laws also present substantial difficulties to our already overburdened law enforcement and border security officials, separate and apart from inadequate funding and resources. It is my belief these difficulties simply cannot be solved by additional funding and additional resources alone, as important as they are. After all, under our current immigration laws, literally millions of people enter this country outside of legal channels

to hold jobs that are offered by American businesses and are needed to ensure American economic growth. There is a serious concern that some fraction of this population may harbor evil impulses toward our country. Yet it is a practical impossibility to separate the well meaning from the ill-intentioned.

Put simply, we must focus our scarce resources on the highest risks to our country and our national security. We need our law enforcement and border security officials to spend their highest energies on people who wish to do us harm rather than those who wish only to help themselves and their families through work. Our comprehensive immigration proposal will strengthen enforcement of the law, but it will also provide laws that are capable of strong enforcement.

We agree with the President's stated principles. They are, however, just principles, and certainly he understands and looks to the Congress to come up with the specifics in the form of legislation. Such laws can be designed in a way to be compassionate and humane. Above all, they must be designed to protect U.S. sovereignty and to further U.S. interests. They must be reformed to better serve our national security and our national economy. They must ensure respect for the rule of law and not permit undocumented workers to gain an advantage over those who have followed the rules.

In the coming months we will craft a proposal that implements all those objectives, and we welcome the coming debate as well as the input and the opportunity to work with our colleagues in the Senate.

Finally, we speak today as the Senate is about to begin debate on a supplemental appropriations bill. Congress should not delay enactment of critical appropriations necessary to ensure the well-being of our men and women in uniform fighting in Iraq and elsewhere around the world. Attempting to conduct a debate about immigration reform while the supplemental appropriations bill is pending in the Senate would do just that—it would unnecessarily and inappropriately delay getting those funds to our troops who need them. Our immigration system is badly broken and fails to serve the interests of our national security and our national economy and undermines respect for the rule of law.

To solve that problem, Congress must engage in a careful and deliberate discussion about the need to bolster enforcement of and to comprehensively reform our immigration laws. We should not short-circuit that discussion by enacting legislation outside of the regular order of business in the House and the Senate. I hope we will enact this supplemental appropriations bill soon. Once that process is completed, I will continue to work closely with Senator KYL and any other Member of this body who has a good idea to contribute to enact comprehensive immigration reform that is in the best interests of our Nation.

I yield the floor.

AMENDMENT NO. 344

The PRESIDING OFFICER. The Senator from Washington.

Mrs. MURRAY. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Washington [Mrs. MURRAY], for herself, Mr. AKAKA, Mr. BYRD, Mrs. BOXER, Mr. BINGAMAN, Mr. ROCKEFELLER, Ms. MIKULSKI, Mr. JEFFORDS, Mr. SALAZAR, and Mr. DAYTON, proposes an amendment numbered 344.

Mrs. MURRAY. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To provide $1,975,183,000 for medical care for veterans)

On page 188, after line 20, add the following:

CHAPTER 5

DEPARTMENT OF VETERANS AFFAIRS

VETERANS HEALTH ADMINISTRATION

MEDICAL SERVICES

For necessary expenses for furnishing, as authorized by law, outpatient and inpatient care and treatment to beneficiaries of the Department of Veterans Affairs and veterans as described in paragraphs (1) through (8) of section 1705(a) of title 38, United States Code, including care and treatment in facilities not under the jurisdiction of the department and including medical supplies and equipment and salaries and expenses of health-care employees hired under title 38, United States Code, and to aid State homes as authorized under section 1741 of title 38, United States Code; $1,975,183,000 plus reimbursements: *Provided*, That of the amount under this heading, $610,183,000 shall be available to address the needs of servicemembers deployed for Operation Iraqi Freedom and Operation Enduring Freedom; *Provided further*, That of the amount under this heading, $840,000,000 shall be available, in equal amounts of $40,000,000, for each Veterans Integrated Service Network (VISN) to meet current and pending care and treatment requirements: *Provided further*, That of the amount under this heading, $525,000,000 shall be available for mental health care and treatment, including increased funding for centers for the provision of readjustment counseling and related mental health services under section 1712A of title 38, United States Code (commonly referred to as ''Vet Centers''), increased funding for post traumatic stress disorder (PTSD) programs, funding for the provision of primary care consultations for mental health, funding for the provision of mental health counseling in Community Based Outreach Centers (CBOCs), and funding to facilitate the provision of mental health services by Department of Veterans Affairs facilities that do not currently provide such services: *Provided further*, That the amount under this heading shall remain available until expended.

Mrs. MURRAY. Mr. President, I ask unanimous consent to add as cosponsors Senators AKAKA, BYRD, BOXER, BINGAMAN, ROCKEFELLER, MIKULSKI, JEFFORDS, SALAZAR, and DAYTON.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. MURRAY. Mr. President, today in Iraq and in Afghanistan, our men and women in uniform are making great sacrifices to serve our country. Last month I had the opportunity to meet with some of them in Baghdad and in Kuwait and all of us can be very proud of their service. Every person I met with was a dedicated professional who was putting their duty above their personal well-being.

Today, I am very concerned that when all of these new veterans come home and need medical care, they are going to be pushed into a veterans health care system that does not have the medical staff, the facilities, or the funding to take care of them.

There is a train wreck coming in veterans health care. I am offering an amendment to deal with this emergency now before it turns into a crisis. The VA health care system is overcrowded. It is underfunded. It is understaffed. It is struggling to deal with existing veterans. I fear what will happen when tens of thousands of our new veterans are added to this already strained system.

As Americans, we make a promise to those who join our military that we will take care of them when they come home. It is a promise all of us have to work together to keep, and that is why I am on the Senate floor today. This is not a Democratic issue. It is not a Republican issue. This is an American issue. I am willing to work with anyone to make sure all of our veterans get the health care they are promised.

I appreciate the leadership of many Senators, especially Senator CRAIG who chairs the Senate Veterans' Affairs Committee on which I serve. I thank Senator HUTCHISON of Texas who chairs the committee that funds veterans health care. I truly appreciate their commitment to our veterans. I look forward to working with them, and I will work with many others to make sure we are doing everything we need to do to prepare for the influx of many new veterans.

With Senator AKAKA and others, I am offering a veterans health care amendment to this emergency supplemental. Our amendment recognizes that caring for our veterans is part of the cost of war. This is being offered on the emergency supplemental because our amendment recognizes that caring for our veterans is a part of the cost of war.

Our amendment does three things: First, it makes sure all soldiers who need health care when they return home from Operation Enduring Freedom and Operation Iraqi Freedom can get that health care. To do that, this amendment provides $610 million. Second, it provides funding for mental

health care for our newest veterans. Specifically, it provides $525 million for expanded mental health services, including $150 million to treat post-traumatic stress disorder for counseling, as well as family therapy. Third, the amendment helps address the shortfalls that are crippling our regional VA networks. It provides $40 million to each and every VISN, Veterans' Integrated Service Network.

This chart shows the 21 regional health networks. For each region, our amendment provides $40 million to spend on their priorities. For some areas it is going to mean erasing big deficits. For others it will help them hire more medical staff. In other parts of the country they will use it to buy medical equipment. That flexible funding that each VISN gets will allow each region to prepare their staff and facilities for our newest veterans. It will put a total of $840 million where these local communities need it the most.

In short, this amendment will ensure that we can handle the health care needs of all the veterans who will seek care after serving our country in Operation Iraqi Freedom and Operation Enduring Freedom.

The total cost of the amendment is $1.98 billion. Let me explain how we arrived at that figure. First, we looked at the number of new veterans who will return to the VA for care. We multiplied that by the average cost per patient and added the cost of reversing the deficits that are today facing our VA hospitals and the cost of meeting increased mental health care needs that everyone assures us we are facing.

Some Senators may wonder if this is the appropriate vehicle to fund veterans health care, so let me talk about that for a minute.

I would have preferred to fund this critical need in the regular budget process. I tried to do it several times last month in the Budget Committee and on the floor with Senator AKAKA. Unfortunately, our amendments were voted down. But the need is not going away. The shortfalls are only going to get worse. So if we are not going to take care of our veterans from Iraq in the regular budget, then we have to take care of them in the bill that funds our war efforts. This is the appropriate bill because the veterans health care train wreck is an emergency, and because caring for our veterans is part of the cost of war.

As I have been talking about this amendment and discussing it with our veterans, I have been pleased by the support it has received. This amendment is supported by the Veterans of Foreign Wars, AMVETS, Disabled American Veterans, Paralyzed Veterans of America, and it is supported by the VA workers who care for our veterans, represented by the American Federation of Government Employees, AFL–CIO. I thank all of these organizations and their members for supporting my amendment and reaching out to their Senators to call for its passage.

Before I go any further, I want to note that veterans health care is a very personal issue for me. My father was a disabled World War II veteran. I grew up knowing the sacrifices that our veterans make. When I was in college, I interned in our VA hospital in Seattle during the Vietnam war, and I saw how important the services were to our soldiers who were returning. I became the first woman to serve on the Senate Veterans Affairs Committee. I know what the costs are and I know what the challenges are.

The VA provides some of the best care, research, and treatment anywhere. Our VA employees have a unique understanding of the challenges that our veterans face when they return, and their dedication is unmatched. Like them, I want to make sure this system works for every veteran of every war and every generation.

I will share some specific examples from throughout our country that illustrate the emergency in veterans health care today. These examples didn't come from me. They came from people who know our VA facilities firsthand. A couple days ago, I posted a form on my Web site, murray.senate.gov, where veterans and their advocates can share their stories and examples with me. I have been heartened with the things people have shared. I invite other veterans to share their stories with me and with their own Senators.

For anyone who thinks this is not an emergency or it doesn't merit emergency funding, I invite you to listen very closely. I am going to talk about different places, but the overall problem is the same everywhere.

For years, VA funding has not kept up with the growing demand for care and with the rising costs of health care. So VA networks around our country have held off making improvements. When a doctor or nurse left, they were not replaced. When equipment needed to be purchased, it was put on hold. When a clinic needed to be opened, it was held in limbo. When there wasn't enough money in the operating budget, they started taking money from their capital budget.

Now all those years of chronic underfunding are coming back to roost at the worst possible time, as we are about to have a major influx of new veterans, men and women serving honorably in Iraq and Afghanistan today, when they are returning, our VA facilities across the country are facing deficits, staff shortages, and inadequate facilities.

Let me give a couple of examples that have been shared with me.

In Alaska, as of yesterday, they are starting a waiting list for non-emergency care for all new priority 7 veterans who are not enrolled in VA primary care. That means those people cannot get an appointment to even see a doctor.

In Colorado, the Eastern Colorado Health Care System is $7.25 million short this year.

In California, last year, the VA hospital there in Los Angeles closed its psychiatric emergency room.

In Florida, the VISN 8 facilities were facing a $150 million deficit earlier this year. West Palm Beach Medical Center has a deficit alone of $6 million.

In Idaho, at the VA in Boise, they are resorting to hiring freezes when we have soldiers coming home.

In Kentucky, veterans at the Louisville hospital, who are having a type of bladder examination, have to lie on a broken table because there is no money to replace that broken equipment.

In Maine, the Togus VA has a $12 million deficit.

In Minnesota, at the Minneapolis VA, they have a $7 million shortfall. They have one of the VA's four sites for dealing with veterans with complex, multiple injuries but they are not hiring anymore staff for that specialized center because of the deficit.

All of us who have visited our returning soldiers at Walter Reed or Bethesda know many of them are returning with these kinds of injuries that need to be treated at hospitals such as the one in Minneapolis.

In Missouri, at the Kansas City VA Medical Center, they have a $10 million operating deficit. I am also told that in Missouri there are not enough doctors and providers to see all the veterans. If a veteran is less than 50-percent service-connected disabled, he or she is put on a waiting list.

In South Dakota, they are expecting to be $7 million in the red by the end of this fiscal year. The VA is proposing to save $2 million by not filling staff vacancies. I am told, in fact, they need 58 new beds, and that some of the bedframes in that facility are held together with duct tape and wire. So because of the deficits they cannot even buy new beds. That is unacceptable for our veterans who have served this country.

I am also told that the Black Hills Health Care System is $3 million in the hole. They have had to use the capital budget to pay staff and other expenses.

In Texas, at the Temple, Texas, VA, nurses in inpatient care are working 16-hour days several times a week because there is not enough staff. We know that nurses providing direct care should only be working 12-hour days, because longer shifts lead to medical errors and unsafe care. This is not a way to treat our veterans who are returning.

In Virginia, as of January 1, I understand that Virginia had a budget shortfall of $14.5 million.

In my home State of Washington, we have problems, too. In Tacoma, at the American Lake VA, you can only get an appointment if you are 50-percent or more service-connected disabled. That is not the promise we made to the men and women who serve our country.

In Puget Sound, as of January, there was an $11 million deficit. At the Seattle and American Lake VA they are leaving vacant positions unfilled. There are about 16 new vacancies every month and those positions are remaining empty. They hope to reduce the workforce by 160 full-time equivalents by the end of this fiscal year.

This is having a huge impact on our patients. As of this month, the next appointment at the Seattle VA urology clinic is not available until August. I can tell you that conditions like these are breaking the hearts of our VA personnel who work day in and day out with the men and women who have served this country. They are frustrated at seeing so many veterans not get the care they have earned. Why? Because Congress is not providing the money.

I share these examples not to criticize or cast blame. We have problems such as this in my State as well, as I have talked about. I share these examples because we have to look at what is happening and realize that our VA system is not prepared to handle a new generation of veterans. All of these examples, from more than a dozen States, point to one conclusion: The VA is having trouble taking care of the patients it has today. It is certainly not prepared to handle a new influx of veterans from Iraq and Afghanistan.

Many of these VA centers are in the hole for millions of dollars. They are not in a position today to begin expanding care to meet the growing need. They cannot do it alone. We have to step in and help them.

Before I close, I want to talk about one claim we made here during this debate. Some Senators have suggested that the VA doesn't need any additional funding because it has some kind of reserve for $500 million. I was troubled by the idea that the VA has extra money it is not using while so many communities are struggling, so at a hearing last week of the Senate Veterans' Affairs Committee I got to the bottom of it. I wanted to share this chart with colleagues.

At our hearing on April 7, I asked Acting Under Secretary for Veterans Health Care Dr. Jonathan Perlin:

Is there a $500 million reserve?

Dr. Perlin's reply was:

No . . . I don't know where that might have been suggested, but there is no $500 million reserve that is sitting there for future projects.

I share that with my colleagues to set the record straight. The VA is not sitting on any type of reserve it can use for medical care. That comes straight from the man who runs the program nationwide. We have VA centers that are struggling in every part of our country. They cannot deal with the caseload they have today. How in the world are they going to deal with all of the new veterans who are coming home from Iraq and Afghanistan?

We cannot kick this down the road any longer. It is an emergency today and if we do not deal with it now, it is going to be a crisis tomorrow. This is not a partisan issue; it is an American issue. It is about whether we keep the promise to the men and women we send to serve us overseas.

I am willing to work with anyone who wants to make sure our country is prepared to care for all of the veterans who will be coming home soon. They were there for us. We need to be there for them now. I urge my colleagues to support this veterans health amendment. If you are concerned about this—perhaps I mentioned your State or you have heard from your own veterans—let's talk about it and find a way to make it work.

No matter what party you are in, we are all Americans first. We all have an obligation, as President Lincoln said, ''to care for him who shall have borne the battle, and for his widow, and for his orphan.''

We need to pass a veterans health amendment and keep this promise to America's veterans. This amendment is the last opportunity we will have to make sure our veterans—the men and women serving us—are taken care of when they return home.

The PRESIDING OFFICER. The Senator from Hawaii is recognized.

Mr. AKAKA. Mr. President, I rise today with my friend Senator MURRAY to offer an amendment to address the cost of providing health care to troops serving in Iraq and Afghanistan. She has made an excellent statement about what we are facing in the country and the shortfalls we have. She has taken the leadership on this and I am supporting her. We hope we will be able to continue to help our veterans with their health care.

Following the 1991 Gulf war, returning servicemembers began to report unexplained illnesses and ailments that many linked to their service. Only those who had been granted a claim for a service-connected disability or demonstrated a financial need could turn to VA for health care services at that time. Reservists and Guard members were particularly vulnerable as military health care is lost after separation from service.

Back in 1998, this very body voted unanimously to ensure that no combat veteran would be caught up in stringent eligibility rules and be denied treatment. Today, any servicemember who participates in the theater of combat is eligible for free VA health care for 2 full years after separation or release from active duty, without regard for strict eligibility rules.

This benefit is more important than ever, especially to Reservists and Guard members. Experts calculate that about 40 percent of the lower enlisted grades in these services do not have any kind of health insurance. Because TRICARE eligibility is lost after separation or deactivation, VA is the only place many of these service members can turn.

My colleagues in the Senate have already recognized the need to provide funds that would allow VA to absorb an influx of new patients from Operations Iraqi and Enduring Freedom. In 2003, $175 million was added for VA to the supplemental appropriations bill. I point out that this amount was provided only 1 month after the war in Iraq began and before we knew about the level of troop commitment.

This amendment we offer today allows VA to provide care for returning troops, without displacing those veterans currently using the system. We are now 2 years into this conflict, and VA has already begun to see real impact. Last year, VA spent $63 million on returning veterans. Using data from the first quarter, VA will spend an unbudgeted $120 million this year. Yet, the lion's share of our troops have not yet returned home, are rehabilitating in the DoD health care system, or are pending separation.

The amount of this amendment, $1.9 billion, is drawn from what we know about past use of the VA health care system, coupled with what we know to be the cost associated with shoring up the system for all veterans.

This is what we know: VA tells us that 20 percent of returning service members are now turning to VA for care. Using this figure and VA's costs, we know that $600 million in additional funding will be needed for returning service members alone.

We also know that right now VA hospitals are running deficits of about $40 million per each health care network. Let me share some specifics:

Outpatient clinics have stopped seeing even the poorest of patients, sending them hundreds of miles away to other facilities. The Townsend, MA, clinic is only seeing a tiny percent of those who need care.

In Network 20, which serves the Northwest and Alaska, we have now seen the beginnings of what could very well become a nationwide trend. Priority 7 veterans, who often make as little as $26,000 a year, are being denied care, as the Network is running about a $40 million deficit.

Veterans in need of treatment for PTSD or addiction treatment will have one less place to go due to the VA budget. The Psychiatric rehabilitation program at the Chillicothe VA hospital is being shut down.

Thirty nursing home beds at the VA hospital in Manchester, NH, will not be

opening. VA officials expect to save $1.3 million by not opening these beds.

As my good friend Senator COLLINS has pointed out, the hospital in Togus, ME, is operating under a $14.2 million deficit. This Maine facility has a hiring freeze and cannot replace equipment.

The Kansas City VA Hospital is short-staffed because they are already $10 million in the hole. The Denver VA Hospital and its affiliated clinics are $7.25 million short. The Maryland Health Care System is $14.5 million in the red already this year. The list goes on and on.

The network that serves Minnesota, Nebraska, Iowa, North Dakota, and South Dakota is facing an overall shortfall of $61 million. South Dakota's facilities are $2.4 million short right now; Minnesota's are $25 million short; and Iowa's hospitals are at least $14 million short of what is currently needed. Bed frames are being held together by duct tape in some facilities, and cleaning staff cannot be hired to keep the facilities sanitary for patients. Health care provider positions also remain open, resulting in shortages of doctors, nurses and medical technicians, to name a few.

Furthermore, Florida's facilities are $150 million in the red. And again, this has resulted in key health care specialist positions going unfilled. In a region where so many veterans and active duty service members reside, a shortfall of this magnitude is shameful.

This trend towards hiring freezes and under-staffing of vital health care programs and services is one that is of great concern to me. I know that the American Federation of Government Employees is also very concerned about the measures being taken by many facilities to compensate for the numerous shortfalls around the country, and I commend AFGE for its support of this amendment.

It will be impossible for VA to care for returning veterans in the midst of this kind of situation. As my colleagues can see, the amount we are asking for today is actually modest when compared to the very real deficits some parts of the country are being forced to deal with. While we know that many Members of this body have worked to see that their VA facilities remain in good condition, we must do more to ensure quality of care throughout the entire VA system.

We also know that VA mental health must be improved if we are to meet the needs of returning service members. Experts predict that as many as 30 percent may need psychiatric care when they come home. Yet, we are told that the system is nowhere near ready to handle this type of workload. Steady budget cuts over the years have diminished VA mental health care capacity.

GAO recently found that VA has lagged in the implementation of recommendations made by its own advisory committee on post-traumatic stress disorder to improve treatment of veterans who suffer from this very serious mental illness. Furthermore, GAO concluded that it is questionable as to whether or not VA can keep pace with the demand for mental health treatment from veterans of Operations Iraqi and Enduring Freedom.

While veterans' clinics now dot the landscape, they do not have the ability to meet mental health needs. Vet Centers, which provide vital outreach and readjustment counseling to veterans of yesterday and today, have seen their workload double, but not one additional nickel has been sent their way. There are large pockets of this country without any access to VA mental health care whatsoever.

Fixing these problems requires resources of at least $525 million. We know this is a conservative estimate. Advocates believe that it would take more than three times this amount to bring VA mental health care up to what it should be, but this amendment gets us going down the right track. The National Mental Health Association's letter of support for this amendment states that ''. . . the nation has no higher obligation than to heal its combatants' wounds, whether physical or mental, and it has long looked to the VA health care system to carry out that obligation. To date, however, planning and budgeting for the VA health care system has been badly flawed and is failing America's veterans, and particularly the growing numbers from war.'' I ask for unanimous consent that the association's letter, as well as one from the National Alliance for the Mentally Ill, be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

NATIONAL ALLIANCE FOR THE MENTALLY ILL (NAMI),
Arlington, VA, April 11, 2005.

Hon. DANIEL AKAKA,
Hon. PATTY MURRAY,
U.S. Senate,
Washington, DC.

DEAR SENATORS AKAKA AND MURRAY: On behalf of the NAMI Veteran's Council, I am writing to thank you for your support of an amendment to increase the veteran's health care budget by $1.98 billion, with $525 million earmarked for mental health enhancements.

Like all Americans, we feel that caring for the men and women who serve our country is the commitment we make in return for their sacrifices. It is critical that they know we will not abandon that commitment upon their return from the battlefield. Treatment for mental illness is as important to their future, if not more important, than treatment for physical illness.

The Department of Veterans Affairs (VA's) current working statistics reflect a crisis in the making that Congress has the power to avoid. While it is estimated that at least 30% of veterans returning from Iraq will have mental health treatment needs, this is likely a conservative number. We are very encouraged that this amendment includes an extension of time for these needs to be assessed and treated, since we at NAMI know that often the symptoms of mental illnesses arc not apparent immediately following trauma. People who have the personal experience report that months or even years may pass before veterans and their families are finally able to determine that treatment is needed, and to seek help.

It is especially important to support the Veteran's Centers, where it is very likely a veteran or family member would initially seek information and assistance. Expansion of mental health care in VA community-based outpatient clinics (CEDCs) is already a VA priority, and an excellent plan, but current limited resources will not support the Operation Enduring Freedom/Operation Iraqi Freedom expected caseload.

We also know that many VA hospitals and clinics are experiencing major funding crises (small increases in their budgets simply do not match spiraling costs of service). As a result, there are site closings, unaddressed maintenance and equipment needs, personnel freezes, and stoppages on needed expansions. This amendment would help alleviate those shortfalls.

We strongly urge the Senate to adopt the provisions in this important amendment. Let us keep our part of the bargain.

Sincerely,

JANE E. FYER,
Chair, Veterans' Council.

NATIONAL MENTAL HEALTH ASSOCIATION,
Alexandria, VA, April 11, 2005.

Hon. DANIEL K. AKAKA,
Ranking Minority Member, Committee on Veterans Affairs, U.S. Senate, Hart Senate Office Building,
Washington, DC.

DEAR SENATOR AKAKA: On behalf of the National Mental Health Association and our 340 affiliates across the country, we are writing to offer our strong support for the Murray-Akaka VA health care amendment to the FY 2005 Emergency Supplemental. We applaud the leadership you and Senator Murray are providing in advancing this important initiative to enable the Department of Veterans Affairs to meet veterans' urgent health needs, and particularly those of veterans from Operations Iraqi and Enduring Freedom.

With a grueling war taking a frightening toll on our men and women in uniform, this nation faces a stern test: will it meet its obligations to its warriors? Surely the nation has no higher obligation than to heal its combatants' wounds, whether physical or mental, and it has long looked to the VA health care system to carry out that obligation. To date, however, planning and budgeting for the VA health care system has been badly flawed and is failing America's veterans, and particularly the growing numbers returning from war.

This important amendment squarely tackles the major funding gaps facing VA at this critical time. Among those gaps, it has long been clear that VA lacks sufficient capacity to meet veterans' mental health needs. With carefully-researched studies documenting the growing mental health needs triggered by a grueling war, Congress must make VA mental health care a major funding priority. This amendment would do so, and would close the critical gap that stands in the way of meeting a fundamental VA obligation.

VA has long had a special obligation to veterans with mental illness, given both the prevalence of mental health and substance

use problems among veterans and the large number of those whose illness is of service origin. In furtherance of that obligation, Congress, to its credit, codified in law special safeguards to assure that VA gives priority to the needs of veterans with mental illness. Notwithstanding that step, however, the VA health care system has had an uneven record of service to veterans with mental health needs. Years of oversight by the Senate Committee on Veterans Affairs and other bodies have documented the enormous variability across the country in the availability of VA mental health care, and the relatively limited capacity devoted to rehabilitative help. With the nation at war—and studies finding an already high percentage of returning veterans showing evidence of posttraumatic stress disorder and other war-related mental health problems—VA's special obligation to veterans with mental disorders has special poignancy. VA has taken important steps to make mental health a greater health-care priority, but given the wide gap between VA's mental health capacity and veterans' needs for treatment and support services, real change will require major new funding, particularly to meet war-related needs. Veterans and their families cannot wait. The failure to intervene early increases dramatically the risk that war-related mental health problems will become more severe and chronic in nature. As your amendment highlights, the time to act is now.

Established in 1909, the National Mental Health Association is the nation's oldest and largest advocacy organization dedicated to all aspects of mental health and mental illness. In partnership with our 340 state and local Mental Health Association affiliates nationwide, NMHA works to improve policies, understanding, and services for individuals with mental illness and substance abuse disorders.

Sincerely,

MICHAEL M. FAENZA, M.S.S.W.,
President and CEO.

Mr. AKAKA. The costs of the war we are fighting today will continue to add up long after the final shot is fired, mainly in the form of veterans' health care and benefits.

I urge my colleagues to join us in this effort to see that they are provided the care they are currently earning.

The PRESIDING OFFICER. The Senator from Mississippi.

Mr. COCHRAN. Mr. President, we appreciate the comments of the Senators from Hawaii and Washington concerning the situation in our Veterans Affairs Department and the concerns that they expressed about returning veterans who are now moving into the VA system and questioning whether there are sufficient funds available to take care of the needs in Veterans' Administration hospitals and other different health care facilities throughout the country.

The subcommittee that has jurisdiction over veterans affairs held a hearing recently during which they questioned the Secretary of Veterans Affairs on this subject. They were assured that the Department is not in a crisis requiring emergency appropriations. The fact is, less than 1 percent of the veterans population is made up of new eligibles who are entering into the Veterans' Administration system, and most of those who are requiring health care assistance and hospital care are older veterans who have already been in the system for a number of years.

Because of that, the Department has not asked for any emergency appropriations to be included in this bill. The administration says that sufficient funds exist now in the Department of Veterans Affairs budget to take care of this fiscal year's needs.

We are now in April and a new fiscal year will begin in October and we are already considering the request for the administration for next year's funding. We have had a budget resolution adopted. Some of these issues were raised during the consideration of this issue by the Budget Committee. I think the Senator from Washington offered an amendment to the budget resolution along the lines that she is urging the Senate to consider today, and the committee rejected the amendment.

That committee reviewed the issue closely and they have included in the budget resolution authority for funding for the fiscal year beginning next October. This Senator's amendment suggests the funds appropriated in this amendment, $1.9 billion, should be made available until expended, which means not only is this a suggestion that an emergency appropriation is needed—although the amendment does not say on its face it is an emergency appropriation—it sounds as if this is in addition to this fiscal year's budget that will go on into next fiscal year. So it is an amendment to this fiscal year's funding authority as well as to the next fiscal year and the next. ''Until expended'' is the way the amendment reads.

I am suggesting that the Senate should look at the information we have before us from the administration: The Secretary of Veterans Affairs, the Department of Defense, which is caring for injured veterans now in the military hospital system. These are not veterans hospitals, where those who have been injured in Iraq or Afghanistan are being cared for. Some may later be cared for there, and may be later cared for as part of the veterans system. But those who are returning now are at Walter Reed Hospital or other hospitals in the Department of Defense system.

I am not the person in charge of the Veterans' Affairs Committee who monitors veterans' needs on a regular basis. The Senator from Idaho, Mr. CRAIG, is chairman of that committee. I have discussed the amendment with him. I expect he wants to be heard on the amendment. The Senator from Texas, Mrs. HUTCHISON, is chair of the appropriations subcommittee that has jurisdiction over the Veterans Affairs funding, and she is available to discuss the merits of the amendment. We have talked informally with her.

At this time I hope the Senate will certainly consider the arguments that have been made by the Senators from Hawaii and Washington. I respect their concerns. I know their concerns are shared by other Senators. I share them. I don't know of any Senator who wants to come into the Chamber and vote against an amendment to fund veterans programs. It is hard to go home and explain to veterans why you voted against an appropriation for veterans health care.

What we are being told by the administration is the funds are not needed, we have the funds available to care for the veterans population. There may be problems in the system that need the attention of the administration and administrators of individual health care centers and hospitals, and certainly they ought to be addressed and we urge that they are. But it is not a matter of not having the money. If there are problems that need to be addressed we can do that, but we are assured that none of the funds being asked for in this amendment are needed for that purpose.

Mr. President, awaiting the arrival of other Senators, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. KERRY. Mr. President, I ask unanimous consent that the order for the quorum call be dispensed with.

The PRESIDING OFFICER (Mr. BURR). Without objection, it is so ordered.

Mr. KERRY. Mr. President, I ask unanimous consent that the current amendment be temporarily set aside so we can take up two amendments quickly.

Mr. COCHRAN. Mr. President, reserving the right to object, may I inquire of the Senator? We were in the process of considering the amendment of the Senators from Washington and Hawaii on Veterans Affairs and funding for that Department. The chairman of the committee has arrived on the floor to speak to that amendment. I had told the Senator from Massachusetts I would have no objection to offering his amendment and then setting it aside.

I inquire: How much time will Senator KERRY require?

Mr. KERRY. Seven minutes very quickly, and then I am happy to set those aside.

Mr. COCHRAN. Is there a problem with the Senator from Idaho?

Mr. CRAIG. How long does the Senator plan to speak?

Mr. KERRY. Seven minutes.

Mr. CRAIG. I would like to make my comments. I think we are under unanimous consent to close down at 12:30.

Mr. COCHRAN. The Senator is correct.

Mr. KERRY. Mr. President, I ask unanimous consent that I be permitted

to proceed, and after I have completed the Senator from Idaho be permitted to make his statement before we recess.

The PRESIDING OFFICER. Is there objection?

Mr. COCHRAN. I have no objection.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Massachusetts.

Mr. KERRY. Mr. President, I thank the Senator from Mississippi.

AMENDMENTS NOS. 333 AND 334, EN BLOC

Mr. KERRY. Mr. President, I call up amendments numbered 333 and 334.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Massachusetts [Mr. KERRY] proposes amendments numbered 333 and 334, en bloc.

Mr. KERRY. Mr. President, I ask unanimous consent that reading of the amendments be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendments are as follows:

AMENDMENT NO. 333

(Purpose: To extend the period of temporary continuation of basic allowance for housing for dependents of members of the Armed Forces who die on active duty)

On page 169, between lines 8 and 9, insert the following:

EXTENSION OF PERIOD OF TEMPORARY CONTINUATION OF BASIC ALLOWANCE FOR HOUSING FOR DEPENDENTS OF MEMBERS OF THE ARMED FORCES WHO DIE ON ACTIVE DUTY

SEC. 1122. Section 403(l) of title 37, United States Code, is amended by striking ''180 days'' each place it appears and inserting ''365 days''.

AMENDMENT NO. 334

(Purpose: To increase the military death gratuity to $100,000, effective with respect to any deaths of members of the Armed Forces on active duty after October 7, 2001)

On page 159, strike line 6 and all that follows through page 160, line 22, and insert the following:

SEC. 1112. (a) INCREASE IN DEATH GRATUITY.—

(1) AMOUNT.—Section 1478(a) of title 10, United States Code, is amended by striking ''$12,000'' and inserting ''$100,000''.

(2) EFFECTIVE DATE.—The amendments made by this subsection shall take effect on October 7, 2001, and shall apply with respect to deaths occurring on or after that date.

(3) NO ADJUSTMENT FOR INCREASES IN BASIC PAY BEFORE DATE OF ENACTMENT.—No adjustment shall be made under subsection (c) of section 1478 of title 10, United States Code, with respect to the amount in force under subsection (a) of that section, as amended by paragraph (1), for any period before the date of the enactment of this Act.

(4) PAYMENT FOR DEATHS BEFORE DATE OF ENACTMENT.—Any additional amount payable as a death gratuity under this subsection for the death of a member of the Armed Forces before the date of the enactment of this Act shall be paid to the eligible survivor of the member previously paid a death gratuity under section 1478 of title 10, United States Code, for the death of the member. If payment cannot be made to such survivor, payment of such amount shall be made to living survivor of the member otherwise highest on the list under 1477(a) of title 10, United States Code.

On page 161, line 23, strike ''$238,000'' and insert ''$150,000''.

Mr. KERRY. Mr. President, many of us in the Senate have had the privilege of traveling to Iraq where we have visited some of the most remarkable young men and women our country has produced. We have met with hundreds of American soldiers, airmen, Marines and naval personnel, all of whom are doing a magnificent job under, obviously, very difficult conditions. I support this supplemental bill and for the obvious reasons.

The election and increased training and the clarity of a plan that has been put forth and the increased effort of the Iraqis themselves combined provide an important opportunity for the transformation of Iraq. It is obviously vital in these circumstances to make sure our troops have the ability to be safe but to also be able to get the job done. We have always said that. But also I believe we need to do more. Supporting the troops means not just supporting them in the field and in the theaters, but it also means supporting them here at home. It means understanding that their lives, both as warriors fighting for their Nation and as spouses, parents, brothers, sisters, sons and daughters struggling to see that the needs of their families are met—the fact is that too many military families suffer when duty calls. Thousands of reservists take a very significant pay cut when they are called up. Suddenly, single parents are left to struggle with the bills. One in five members of the National Guard don't have any health insurance at all. That is devastating to their families. It is damaging to troop readiness.

I believe that everyone here understands the simple tenet that the Government has to keep faith with our troops. To do that we need to put in place a comprehensive military family bill of rights that puts action behind the promise to support our troops. I understand that the supplemental bill is not the place to ask for the full consideration of that military family bill of rights, so I am not going to propose the entire bill as an amendment here. But I am bringing two amendments to the floor that are broken out of this bill of rights that I believe we could all agree on and which would make an enormous difference in the lives of our soldiers. In agreeing to these, we can take an important step in demonstrating our support for a military family bill of rights which is long overdue.

More than a year ago, I proposed increasing the benefits paid to surviving military families to $500,000 through existing insurance benefits and an increase in the death gratuity. I am not alone in this effort. Members on both sides of the aisle have introduced legislation to improve these benefits, and with very good reason.

Today, families receive only $12,420 to supplement whatever insurance a loved one may have purchased. That $12,420 is completely inadequate. In fact, it is a disgrace. We do right by our fallen police officers and firefighters in America. Their families receive $275,000, and it is time that we did the same for our soldiers. Their survivors' lives remain to be lived, and though no one can ever put a price on the loss of a loved one, it is important for us to be as generous as we can and as realistic as we can as we help people to be able to put their lives back together. I was heartened when the administration embraced a formula to reach the $500,000 threshold, and I am glad the Appropriations Committee has included a benefit increase in this particular bill, but the bill needs to go further and eliminate any distinction between combat and noncombat deaths.

This is important for a number of different reasons.

First of all, the benefit, as matter of principle, ought to go to any American who loses their life while serving our country, and we shouldn't draw a distinction between that kind of service. The fact is that the uniformed leadership of our military doesn't believe we should, either.

GEN Richard Myers, Chairman of the Joint Chiefs of Staff, testified on this matter before the Armed Services Committee, and a number of other leaders. Let me share with colleagues.

GEN Richard Cody said:

It is about service to this country, and I think we need to be very careful about making decisions based upon what type of action. I would rather err on the side of covering all deaths rather than trying to make a distinction.

Admiral Nathman said:

This has been about how do we take care of the survivors, the families and the children? They can't make a distinction, and I don't think that we should either.

GEN Michael Moseley of the Air Force said:

I believe a death is a death and our service men and women should not be represented that way.

—i.e, they shouldn't be distinguished as to where it took place.

If you are a pilot flying in the Navy off an aircraft carrier and you are not in combat and you have a catapult failure and die, that family faces the same crisis as a family of somebody who is shot down. We need to understand that. I'm glad the bill addresses that situation, but there are other circumstances it does not.

GEN William Nyland of the Marine Corps said:

I think we need to understand that before we put any distinctions on the great services of these wonderful men and women, they are all performing magnificently. I think we have to be careful about drawing any distinctions.

The amendment I offer today with Senators PRYOR and OBAMA expands

this benefit to every member of the Armed Forces who dies on active duty.

I have a second amendment at the desk to help military families lessen the disruption that a death brings to the family.

At the present time, the survivors of those killed in action have to move out of military housing in 180 days. But for those with young children in school, that becomes entirely disruptive often with respect to the school district kids are able to go to, and it is a very difficult burden in many cases for widows and widowers to have to try to confront all of the difficulties of that transition, including the efforts of finding housing. The 180 days may mean starting a school year in one State and finishing it in another. I don't believe that is a message we ought to be extending to the families of those who give their lives in service to our country.

Given all of the disruption the loss of a parent brings to their lives, I propose allowing survivors the option to keep their housing for a whole year as they deal with the countless other challenges. It may seem like a small change, but I have heard from enough different folks on active duty in the military about the significance of this particular need, and it can make a huge difference for a family who is struggling with the loss of a father or a mother.

Investing in our military families is not just appropriating the money for the equipment or the latest technology for the deployment itself, it is investing in the families themselves. And it is not as an act of compassion, it is a smart investment in America's military. Good commanders know that while you may recruit an individual soldier or marine, you retain a whole family. That is the way we ought to look at our policies.

Nearly 50 percent of America's service members are married today. If we want to retain our most experienced service members, particularly after we have invested millions of dollars in their training, then it is important—especially for the noncommissioned officers who are the backbone of the military—that we keep faith with their families. If we don't, and those experienced enlisted leaders begin to leave, we as a nation are weakened.

The two amendments I have proposed today are the beginning of a larger effort to do right by our military families. I believe it is a strong beginning. By joining measures to take care of military families at home with legislation to take care of those remarkable young men and women serving abroad, we are going to take a firm step toward putting meaning behind the promise to support our troops. I hope these amendments are agreed to.

I yield to the Senator from Idaho.

The PRESIDING OFFICER. The Senator from Idaho is recognized.

AMENDMENT NO. 344

Mr. CRAIG. Mr. President, I thank the Senator from Massachusetts for his cooperation in the unanimous consent propounded that allows me the flexibility to speak. I will be brief. We are at the lunch hour.

The chairman of the appropriations subcommittee on MILCON and Veterans Affairs is also on the floor with me. Let me speak for a moment about the concerns we have in relation to the Murray amendment.

First and foremost, let me say for the record that in no way do I question the integrity of the Senator from Washington. She and I have worked very closely together on veterans issues. She is a valuable member of the Veterans Committee, as is the Presiding Officer.

Without question, our dedication to veterans I hope is unquestioned. The reality is are we dealing with an emergency in an emergency supplemental, or is there a very real need out in veterans land and with the Veterans Administration and the systems that it funds and operates to meet current veterans' and incoming veterans' needs? I say certainly without question that there is always a need. We could expand budgets well beyond where they are today to meet needs, but by what definition? Critical, necessary, important for the moment, dealing with the most needy veterans, the most handicapped, or simply spreading it out and making it more available?

Those are some of the tough choices you and I and members of that subcommittee and certainly members of the subcommittee on appropriations have to make. The Senator from Washington has appropriately challenged us to look at a variety of other aspects that have value. The question is, Are they an emergency at the moment? Do they serve veterans who are not being served? In some instances, that would be arguably yes. But are those veterans of critical service in the sense they can find health care elsewhere in the sense of priority?

Let me talk briefly about what we are doing. We have just finished trying to shape through a budget resolution the 2006 budget. We included $450 million more than the President's request, and we have increased the 2006 budget over the 2005 budget by about $1.2 billion—a substantial increase by anybody's observation. We have also done that without turning to veterans in the less needy categories and saying they will have to pay more for their services. We have been able to assume and bring into the system a good deal of that, which is important.

I find the number of $1.98 billion additional, not spread out over fiscal year 2006 but spent now in 2005 and the balance of 2005 in this emergency, a dramatic increase. Can the Veterans' Administration effectively and responsibly spend that kind of a bump up in money? I question that.

It is important to look at what is necessary. According to VA, they have seen approximately 48,000 OIF and OEF veterans since the war began. With Senator MURRAY's $2 billion, it would be $41,000 per patient, an extraordinary amount by any measure.

The PRESIDING OFFICER. Would the Senator suspend? Would the Senator request unanimous consent to extend past 12:30?

Mr. CRAIG. Mr. President, I ask unanimous consent I be allowed to continue. There are three Members in the Senate. I ask unanimous consent we extend to no later than 12:45.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CRAIG. Mr. President, I have given a figure of $41,000 per patient. That is an extraordinary amount by any measure. The VA's average cost per patient is about $5,000.

My point in making this an issue is I want to work with the Senator from Washington. I am never going to argue that there aren't real needs in the Veterans' Administration. I am not going to argue that there ought to be some priorities—mental health and those things that the Senator from Washington and I have shared as a common interest and a common concern.

Let me yield time to the Senator from Texas. She will take a few moments and give the Senator from Washington adequate time to respond before the 12:45 time.

I am willing to work with the Senator from Washington, to examine her numbers, but a $1.98 billion or $2 billion bump-up to be spent before close of business in September—I am getting signals from the Senator we are dealing with a 2-year appropriation. Let's look at those numbers.

I close by saying, in my opinion, there is not an emergency in the VA. This is an emergency supplemental. I will work with the Senator to see where we might go. It is wrong in an emergency to talk about things that are long term in character and necessary to finance.

I yield the floor.

The PRESIDING OFFICER. The Senator from Texas.

Mrs. HUTCHISON. Mr. President, as the chairman of the Veterans' Administration appropriations committee, I certainly want to look further at Senator MURRAY's numbers, but adding almost $2 billion to the Department of Veterans Affairs for the next 6 months, we have to look very carefully where we would spend that money and what the emergency nature of the request is.

In fact, we had our appropriations hearing with the Veterans' Administration Secretary. I asked the Secretary specifically—we would certainly be looking at supplemental appropriations in the near future; then we would

be looking at our full budget for next year—I asked if there were enough resources to meet the needs of all returning veterans from Iraq and Afghanistan for the current year, 2005. The Secretary said, yes, the VA does have the necessary resources in 2005 to continue meeting the needs of all returning veterans from Iraq and Afghanistan.

The key is when people return from Iraq and Afghanistan, we want to make sure their medical needs are met. That is something we all share. Most of the people returning from Iraq and Afghanistan are still in the Department of Defense. They are either on active duty or they are activated as Guard and Reserve. The bulk of them are still treated for their medical needs in the Department of Defense, not in Veterans Affairs. We have to look at how many people are returning and how many people actually go into the VA system, how many people actually are leaving the military service. The number comes down significantly. We have to look at this number.

All Members have the same goal, that we are going to ask for the amount of money we need to give the medical care to our returning service men and women and to people leaving the military. That is why I asked the question of our Secretary of Veterans Affairs, Do you have enough? Then I further asked if the 2006 budget was adequate for the returning veterans. The response was, yes.

I certainly want to do everything we need to do for the purpose of providing the care these veterans who have served our country, who are protecting freedom, deserve from our Government. But we have to look at the fact that is an emergency not in the 2006 budget. That would start October 1 of this year. Then we need to look further down the road at that budget, which our committee certainly intends to do.

I yield the floor.

The PRESIDING OFFICER. The Senator from Washington.

Mrs. MURRAY. I ask for regular order.

The PRESIDING OFFICER. The Senator's amendment is now pending.

AMENDMENT NO. 344, AS MODIFIED

Mrs. MURRAY. I send a modification to the desk on our amendment.

The PRESIDING OFFICER. The amendment is so modified.

The amendment (No. 344), as modified, is as follows:

On page 188, after line 20, add the following:

CHAPTER 5

DEPARTMENT OF VETERANS AFFAIRS

VETERANS HEALTH ADMINISTRATION

MEDICAL SERVICES

For necessary expenses for furnishing, as authorized by law, outpatient and inpatient care and treatment to beneficiaries of the Department of Veterans Affairs and veterans as described in paragraphs (1) through (8) of section 1705(a) of title 38, United States Code, including care and treatment in facilities not under the jurisdiction of the department and including medical supplies and equipment and salaries and expenses of health-care employees hired under title 38, United States Code, and to aid State homes as authorized under section 1741 of title 38, United States Code; $1,975,183,000 plus reimbursements: *Provided*, That of the amount under this heading, $610,183,000 shall be available to address the needs of servicemembers deployed for Operation Iraqi Freedom and Operation Enduring Freedom; *Provided further*, That of the amount under this heading, $840,000,000 shall be available, in equal amounts of $40,000,000, for each Veterans Integrated Service Network (VISN) to meet current and pending care and treatment requirements: *Provided further*, That of the amount under this heading, $525,000,000 shall be available for mental health care and treatment, including increased funding for centers for the provision of readjustment counseling and related mental health services under section 1712A of title 38, United States Code (commonly referred to as ''Vet Centers''), including the staffing of certified family therapists at each center, increased funding for post traumatic stress disorder (PTSD) programs, including funding to fully staff PTSD clinical teams at each Veterans Affairs Medical Center and to provide a regional PTSD coordinator in each VISN and in each Readjustment Counseling Service region, funding for the provision of primary care consultations for mental health, funding for the provision of mental health counseling in Community Based Outreach Centers (CBOCs), and funding to facilitate the provision of mental health services by Department of Veterans Affairs facilities that do not currently provide such services: *Provided further*, That the amount under this heading shall remain available until expended: *Provided further*, That the amount provided under this heading is designated as an emergency requirement pursuant to Section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

Mrs. MURRAY. Mr. President, let me make a couple of comments. I thank the Senators from Idaho and Texas for working with us on this critical issue. I know both of them have worked very long and hard on veterans issues and care deeply about making sure the men and women who serve are taken care of when they return home, as we promised.

Let me remind everyone, of the 240,000 men and women separated from our services since the beginning of the war in Iraq, 50,000 have already asked the VA for services. Many more of them will continue to do that as they come home and as they get back into their homes and look for services, especially mental health services, as all know who have worked with veterans for a long time.

This is an emergency. If any Members work with veterans in our States, talk to our directors at home, and talk with soldiers who have returned home, we will realize the long lines they are waiting in, the clinics that were promised that have not been opened, the tremendous services that are not being provided.

As I discussed in my opening statement, beds are held together by duct tape in our facilities. This is not how we should be treating our veterans. It is an emergency because more veterans return in higher numbers with the care not available for them.

I am willing to work with the Senators from Idaho and the Senators from Texas over the next several hours, or whatever it takes to come up with a number. If they believe $1.98 billion is too high, I would like to talk to them about that. We can work together. I know both care about this issue, and we want to find a way to make sure our veterans are taken care of.

I remind everyone when we send our men and women overseas, one of the promises we make to them is we will have the care available when they return. When we have veterans who are in beds that are held together by duct tape, when we have veterans who have to endure long waiting lines for simple services, that is an emergency.

I clarify, the money in this bill will be used until it is expended. It does not have to be expended this year. It will be used until expended, allowing our veterans and our veteran services to put in place facilities they need for our men and women coming home.

I close at this time, and I will work with Senators from Idaho and Texas and the chairman of the Appropriations Committee because I believe this is an emergency. I believe we have a responsibility. I will make sure our veterans get the care they need.

I yield the floor.

Mr. AKAKA. Mr. President, the Department of Veterans Affairs has been a recognized leader in the treatment of Post-Traumatic Stress Disorder, PTSD. With its outreach efforts and expert mental health staff, VA has made great strides in its treatment of those suffering from the psychological wounds of war. Unfortunately, VA still has a long way to go before it will achieve the level of PTSD treatment our veterans deserve. Demonstrating this fact is a February 2005 GAO report, which found that VA has not fully met any of the 24 clinical care and education recommendations made in 2004 by VA's Special Committee on PTSD.

Titled ''VA Should Expedite the Implementation of Recommendations Needed to Improve Post-Traumatic Stress Disorder Services,'' this report raises serious concerns about VA's ability to treat our veterans' mental health. In fact, I would like to quote one of the report's most disturbing points: ''VA's delay in fully implementing the recommendations raises questions about VA's capacity to identify and treat veterans returning from the Iraq and Afghanistan conflicts who may be at risk for developing PTSD, while maintaining PTSD services for veterans currently receiving them.'' Further adding to the seriousness of this statement is that GAO reported in September 2004 that officials at six of

seven VA medical facilities said they may not be able to meet an increased demand for PTSD services. Moreover, the Special Committee reported in 2004 that ''VA does not have sufficient capacity to meet the needs of new combat veterans while still providing for veterans of past wars.

This is further proof of the need for increased funding for VA health care. If we do not give VA the necessary funds, how can we expect it to properly care for the flux of new veterans when it cannot even care for those it currently treats? In fact, VA officials have cited resource constraints as the primary reason for not implementing many of the Special Committee's recommendations.

In all, GAO found that based on the time frames in VA's draft mental health strategic plan, 23 of the 24 recommendations may not be fully implemented until fiscal year 2007 or later. The remaining recommendation is targeted for full implementation by fiscal year 2005, 4 years after the Special Committee first recommended it.

Additionally, the GAO report found that ten of the recommendations are longstanding, as they are consistent with those made in the Special Committee's first report in 1985. VA agreed then that these recommendations would improve the provision of PTSD services to veterans, yet the changes still are not scheduled for full implementation for another two years at the earliest. These delayed initiatives include developing a national PTSD education plan for VA, improving VA collaboration with DoD on PTSD education, and providing increased access to PTSD services.

PTSD is caused by an extremely stressful event and can develop years after military service. Mental health experts estimate that the intensity of warfare in Iraq and Afghanistan could cause more than 15 percent of servicemembers returning from these conflicts to develop PTSD, with a total of nearly 30 percent needing some kind of mental health treatment. While there is no cure for PTSD, these experts believe early identification and treatment of PTSD symptoms may lessen their severity and improve the overall quality of life for individuals with this disorder.

Congress required the establishment of VA's Special Committee on PTSD in 1984, with the original purpose primarily to aid Vietnam-era veterans diagnosed with PTSD. One of the Special Committee's main charges is to carry out an ongoing assessment of VA's capacity to diagnose and treat PTSD and to make recommendations for improving VA's PTSD services.

In addition, a March 20, 2005, article in the Los Angeles Times pointed out how concerned veterans' advocates and even some VA psychiatrists are with VA's handling of PTSD services, saying VA hospitals are ''flirting with disaster.'' The article highlighted the situation at the VA Greater Los Angeles Healthcare System, specifically the Los Angeles VA hospital, which last year closed its psychiatric emergency room. A decade ago, VA hospitals in Los Angeles had rooms to treat 450 mentally ill patients each day. After a series of cutbacks and consolidations, however, the main hospital can now accommodate only 90 veterans overnight in its psychiatric wards. During the same 10-year period, the overall number of mental health patients treated by the VA Greater Los Angeles increased by about 28 percent, to 19,734 veterans in 2004. If this is how VA handles PTSD care for our veterans at the Nation's largest VA hospital, how does that bode for the rest of the nation?

VA must make strides in its provision of mental health services and outreach efforts to servicemembers returning from Iraq and Afghanistan. If we are not careful and do not give VA proper resources, progress will be impossible. As Ranking Member of the Committee on Veterans' Affairs, I will work to ensure that does not happen. As such, I am pleased to tell you that today I am offering an amendment to the Supplemental to partially fix this problem. Our Nation's veterans deserve the best care possible, for both their physical wounds and mental.

I ask unanimous consent that the article from the Los Angeles Times be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Los Angeles Times, Mar. 20, 2005]

MENTAL HEALTH CARE FOR VETERANS DISPUTED; WHILE NEED HAS GROWN, INPATIENT SERVICES HAVE BEEN DRASTICALLY CUT IN THE LAST DECADE.

CRITICS SAY OUTPATIENT PROGRAMS CAN'T DO THE JOB.

(By Charles Ornstein)

As troops return from Iraq and Afghanistan—including thousands with combat-related mental disorders—they enter a Veterans Affairs healthcare system sharply divided about how to care for them.

In the last decade, veterans hospitals across the country have sharply reduced the number of inpatient psychiatric beds, replacing them with outpatient programs and homeless services.

The new offerings, officials say, cost less and are just as effective.

''It used to be with mental illness that once you got it, you never got rid of it,'' said Dr. Mark Shelhorse, a national VA mental health official. But ''mental illness is perceived as a disease now just like hypertension and diabetes. We have medicines to treat it. We know that people recover and lead fully normal lives.''

But veterans' advocates and even some VA psychiatrists say the hospitals, including the massive Veterans Affairs Greater Los Angeles Healthcare System, are flirting with disaster. They say the facilities are ill-equipped to deal with veterans who need the most extensive help for psychosis, substance abuse, suicidal impulses and post-traumatic stress disorder.

Last year, the Los Angeles hospital closed its psychiatric emergency room, a move that heightened the anger of the VA's critics.

''We were too easily swayed in the past by the argument that after a while, it [PTSD] will go away,'' said Jay Morales, a Vietnam veteran who chairs the mental health consumer advisory council at the Los Angeles hospital. ''But there are Vietnam vets walking around today, 30 years after the war ended, having these problems.''

Dr. William Wirshing, a psychiatrist for 23 years at the Greater Los Angeles VA, agreed. ''It's absurd how much they've cut—and it's absurd how much they continue to cut,'' he said.

A decade ago, VA hospitals in Los Angeles had rooms to treat 450 mentally ill patients each day. After a series of cutbacks and consolidations, the main Wadsworth hospital on Wilshire Boulevard can now accommodate only 90 veterans overnight in its psychiatric wards.

During the same 10-year period, the overall number of mental health patients treated by the VA Greater Los Angeles increased by about 28 percent, to 19,734 veterans in 2004.

The VA hospital in Los Angeles, the largest veterans hospital in the nation, treats 80,000 veterans annually with a budget of more than $450 million. It includes the hospital, nursing homes, a domiciliary, three main outpatient care sites and 10 community clinics. There are an estimated 510,000 veterans in Los Angeles County alone.

VA officials say that despite the cutbacks, the Los Angeles VA hospital offers more mental health services today than ever. Instead of keeping patients in locked wards overnight, the VA offers them outpatient programs and temporary accommodations in partnership with nonprofit groups, officials say.

''It's not like we went into a hospital that was fully occupied and we said, 'We don't need this unit anymore,''' said Dr. Andrew Shaner, the hospital's acting director of mental health. ''We built programs that kept people relatively well and therefore out of the hospital, and that's why we were able to do it.''

The question remains: Are the current offerings enough?

A report last fall by the U.S. Government Accountability Office cited estimates that 15% of service members stationed in Iraq and Afghanistan would develop post-traumatic stress disorder. As of December, about 1 million troops had spent time in one of the two war zones (about one-third have done more than one tour).

The GAO determined that the VA did not have enough information to know if it could meet the increased demand.

Shelhorse, the VA's acting deputy consultant for patient care services for mental health, said the agency is monitoring the situation carefully and is pumping millions of dollars into mental health programs.

The shift from inpatient to outpatient mental health services has become a controversial issue throughout the VA system. A 1996 federal law prohibits the VA from reducing specialized treatment and rehabilitation for disabled veterans, including mental health services.

A VA committee has found that the agency hasn't abided by that law. While VA hospitals may be treating more mentally ill patients, they aren't spending as much money doing so. At the West Los Angeles VA, the amount spent on mental health has decreased from $74 million in fiscal 1997 to $64.4 million in fiscal 2003, according to a national monitoring system.

Experts disagree on whether outpatient care can replace inpatient treatment.

''I don't think that intensive community treatment can take care of all the people that no longer have the availability of inpatient beds,'' said Dr. H. Richard Lamb, a psychiatry professor at USC.

Lamb said the trend has led to an increase in homeless mentally ill and those in jails.

But Dr. Robert Rosenheck, director of the VA's Northeast Program Evaluation Center, said changes in the VA system have not produced those results.

Studies, he said, have not shown an increase in jailed veterans after inpatient psychiatric beds have been cut. Nor, he said, have there been significant increases in suicides or veterans showing up at non-VA hospitals for care.

''Veterans very much preferred coming in and being in a supportive environment for an extended period of time,'' Rosenheck said. But ''when you look at objective outcomes, we don't see scientific evidence of adverse effects'' because of the cutbacks.

Even so, veterans' advocates and psychiatrists have been complaining for years about cutbacks at the Greater Los Angeles VA.

For many, the final straw came in May when the hospital closed the psychiatric emergency room and shifted mental health emergencies to the main ER. Troubled patients are now cared for by nurses and other staff who, according to the critics, are not adequately trained to handle psychiatric emergencies.

Critics point to several instances since the transition in which psychiatric patients were admitted to inpatient wards without any written orders or treated with disrespect by ER nurses who didn't understand their disorders. At least one female patient with PTSD attempted suicide.

''This is a dangerous situation,'' said Guy Mazzeo, a veteran and member of the L.A. mental health consumer advisory council. ''None of us'' was consulted before the change, he said, referring to advocates for veterans and the VA's outside advisory groups. And none agree with it, he said.

The veterans and their doctors have been joined in their criticism by Rep. Henry A. Waxman (D-Los Angeles), whose district includes the VA health center.

He asked the VA in January to hire a full-time psychiatrist for the emergency room and arrange for specially trained psychiatric nurses to work there, among other things. The VA declined his requests.

''I'm disappointed that the VA has not responded more aggressively,'' Waxman said in an interview. ''With Iraq and Afghanistan war veterans returning, these demands are only going to increase.''

VA officials say the criticism is unfair. Care in the main ER is more coordinated than the care given in the stand-alone psychiatric emergency room, they say. Patients can get their medical and mental problems treated in one place, instead of having to be shuttled between two.

Administrators say ER staff members have received extensive training. And they say that there's no evidence that patients are receiving inferior care.

Dr. Dean Norman, the hospital's chief of staff, said the closure of the psychiatric ER made sense because the number of patients using it had been decreasing for years, and the hospital did not have enough staff.

''One of our goals is to be good stewards of taxpayer dollars,'' Norman said. ''We didn't make this in a precipitous or reckless fashion. This was well thought out, and we had good reasons for doing this.''

Mrs. BOXER. Mr. President, I am pleased to join Senator MURRAY in cosponsoring this important amendment to increase veterans health care funding. We owe it to our veterans, who have so bravely served our country, to give them the best medical care possible. It is disappointing that funding for veterans programs, especially veterans health care, has not kept pace with either the increased number of veterans in the system or medical inflation. This amendment is crucial to providing veterans with the services they have earned.

As I have talked to veterans in California—and as I have met with returning soldiers from Iraq and Afghanistan—I have come to one disturbing conclusion: we are not serving all of the needs of our veterans now and we are not prepared to serve the tens of thousands of veterans who will be returning over the next couple of years.

Senator MURRAY's amendment begins to address this situation. It will increase veterans health care funding by almost $2 billion. This includes $610 million for new veterans returning from Iraq and Afghanistan. Funding for these veterans is not included in the current VA budget. In addition, each of the 21 veterans regions will receive $40 million to address their budget shortfalls. This will allow each region to determine how the funds can best be used to benefit their veteran population.

I am especially pleased that this amendment includes funding designated for veterans mental health care. Specifically, $525 million is designated to expand mental health services, with $150 million targeted for the treatment of Post Traumatic Stress Disorder—PTSD. The VA has estimated that 30 percent of men and women currently serving in the Armed Forces will need treatment for mental illness or readjustment issues. That is why this funding is so critical.

This amendment has the support of many veterans organizations, including the Veterans of Foreign Wars, AMVETS, Disabled American Veterans, and Paralyzed Veterans of America. They realize, as I do, how crucial it is that this funding be made available. Without it, the VA will not be able to meet the needs of the men and women who have so bravely served our country. I urge my colleagues to support this amendment.

Mrs. LINCOLN. Mr. President, today, I rise in support of an amendment to the emergency supplemental to provide an additional $1.98 billion for veterans health care. I am a cosponsor of this amendment because I believe that when we talk about the costs of war, we cannot forget the brave men and women who are returning from war every single day.

In the past couple months, my home State of Arkansas has seen the return of over 3,000 brave men and women from the Army National Guard, who answered their Nation's call to serve in Operation Iraqi Freedom. Many of them will need ready access to health care as they attempt to transition back to the civilian lives they knew before the war.

I am troubled because they are returning to a veterans health care system that is underfunded and overburdened. Increasing health care costs and an influx of thousands of new veterans each month makes it essential that we do what we can to provide for veterans health care, and we do it now.

This amendment would enable the VA to absorb the new veterans being added to the system and would reverse many of the critical budget shortfalls that have left many VA facilities without the medical staff or equipment they desperately need. It would also provide $40 million for every veterans regional network so they can better meet their local needs.

My father fought in Korea and I was raised from an early age to have tremendous respect for the unselfish service of the men and women of the Armed Services. As a United States Senator, I believe we have an obligation to provide them with the health care they were promised and to honor the benefits they have earned. I urge my colleagues to support this amendment because it is the right thing to do, it is our moral responsibility, and it should be a priority for each and every one of us.

Mr. JEFFORDS. Mr. President, the Bush administration has decided that all funding for the conflicts in Iraq and Afghanistan be requested as supplemental emergency funding. I believe, therefore, that we must include in this supplemental funding legislation, additional monies to cover the cost of the war incurred by the Veterans Administration.

The President's budget did not request sufficient funding to cover the significant increases in medical costs of veterans wounded in Iraq and Afghanistan. While severely wounded service members are remaining longer in the Department of Defense health care system than in past conflicts, the VA provides all care for these men and women after they are released from the military, and provides care to Guard members and Reservists beginning immediately after they return home from a deployment.

We must cover these expenses. We cannot turn away these veterans. We also cannot turn away other veterans and deny them care in deference to the newest veterans. That would not be right either.

I am pleased to join Senators MURRAY and AKAKA in offering this amendment to provide $1.9 billion in additional funding to the Veterans Administration. Passage of this amendment would go a long way to covering existing shortfalls and allowing the VA to

ramp up to meet the current and expected needs for the coming year. I am pleased that this amendment addresses the critical issue of mental health by providing $525 million specifically for mental health care and treatment.

Unlike prior wars, where soldiers were expected to lay down their guns upon returning home and forget about the war, service members returning from Iraq and Afghanistan understand that it is very important for their mental health and the well-being of their family, that they deal with both the mental effects of the war and the emotional effects on their families of a long and stressful separation. Vet centers exist all across the country to help veterans and their families deal with the ghosts of war and manage the transition back home. These centers do a phenomenal job, but they are generally very small and have been handling a limited case load. With veterans returning from Iraq in huge numbers, particularly members of the National Guard and Reserve who do not live on or near military bases the job of the Vet centers has increased more than a hundred-fold. The Vet centers need an increase in both staff and resources commensurate with the demands now placed upon them.

We have learned from prior wars that much can be done to ease the transition back to civilian life if it is done immediately. Immediate mental health care can prevent the onset of more difficult diagnoses, such as post traumatic stress disorder. The VA has developed expertise in the diagnosis and treatment of PTSD, well beyond that of the private sector. The challenge now is to spread this expertise throughout the VA system. This takes resources. We also have learned that those soldiers who have suffered physical wounds will often need ongoing mental health assistance to face the challenges of life with a disability. We must not turn our backs on them.

The bill before the Senate is designed to cover the costs of these two conflicts. We cannot say we have done so if we do not cover the costs of the physical and emotional wounds from these conflicts. The only way that this can be done with the funding provided by the President's budget is if our obligations to other veterans are set aside. This would be wrong. The only way we can truly honor our obligations to all of our veterans is to support the amendment by the Senator from Washington, Mrs. MURRAY.

I urge my colleagues to support the Murray amendment.

RECESS

Mr. COCHRAN. I ask unanimous consent we stand in recess under the previous order.

The PRESIDING OFFICER. Under the previous order, the hour of 12:30 having arrived, the Senate will stand in recess until 2:15 p.m.

Thereupon, the Senate, at 12:39 p.m., recessed until 2:15 p.m. and reassembled when called to order by the Presiding Officer (Mr. VOINOVICH).

The PRESIDING OFFICER. The Senator from Mississippi.

EMERGENCY SUPPLEMENTAL APPROPRIATIONS ACT, 2005—Continued

AMENDMENT NO. 344, AS MODIFIED

Mr. COCHRAN. Mr. President, it is my intention to make a point of order in connection with the amendment that has been offered by Senators MURRAY and AKAKA. But I do not want to do that if they are not here on the floor. I will wait to give them an opportunity to make any statements or motions they may deem appropriate. So I do not want to foreclose anyone from having an opportunity to express themselves on that issue. But I do make that announcement just for the information of all Senators, that we have pending before us an amendment that purports to add as a matter of emergency appropriations $1.9 billion to the Veterans' Administration accounts.

The administration has not asked for these funds. Testimony before the relevant committees of jurisdiction, the Veterans Affairs' Committee and the Appropriations subcommittee that funds or recommends funding for veterans programs, has not led Senators to request funds for inclusion in the committee mark. So there is a disparity between the proponents of the amendment and what they are urging the Senate to approve and what is being requested as a matter of emergency appropriations.

In addition, the language of the amendment actually has a provision that the moneys appropriated under the amendment would be available until expended, which means the funding would carry over into the next fiscal year. We are, right now, having committees consider the funding levels that are needed in the next fiscal year, beginning October 1.

So with no requests for funds, with the administration saying they have enough funds to run the VA health programs and hospital programs between now and the end of this fiscal year, we are going to suggest that this is subject to a point of order. It is my intention to make that point of order.

Seeing that the Senators are on the floor now, Mr. President, pursuant to section 402 of S. Con. Res. 95 of the 108th Congress, I make a point of order that the amendment contains an emergency designation.

The PRESIDING OFFICER. The Senator from Washington.

Mrs. MURRAY. Mr. President, I move to waive the point of order and ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The Senator from Mississippi.

Mr. COCHRAN. Mr. President, a vote now occurs on the motion to waive, right?

The PRESIDING OFFICER. That is right.

Mr. COCHRAN. Mr. President, there is a question about how much time is going to be——

The PRESIDING OFFICER. The motion to waive is debatable.

The Senator from Mississippi.

Mr. COCHRAN. Mr. President, there is some confusion on my part. I thought the Senators were going to debate this, but there was a suggestion that we could agree on a time for a vote on the motion to waive the Budget Act. So I inquire of Senators whether that is the feeling on the other side. We would be willing to enter into an agreement for a vote to occur at a time certain that might suit the convenience of all Senators.

The PRESIDING OFFICER. The Senator from Washington.

Mrs. MURRAY. Mr. President, I am happy to talk to the chairman of the Appropriations Committee in order to work out a time agreement. I do have more I would like to say. This amendment is extremely serious. It is an emergency. We would like some more time, so I am happy to talk to the chairman about having an agreement on time, if he would like to do that.

The PRESIDING OFFICER. The Senator from Mississippi.

Mr. COCHRAN. Mr. President, I appreciate the comments of the Senator. Let me suggest, then, if there is no objection, that we enter into an agreement that we have a vote that will occur at 3:30 this afternoon.

Would that be satisfactory with the Senator?

Mrs. MURRAY. Mr. President, I assume the time will be equally divided between now and 3:30 on this amendment. That would be satisfactory.

Mr. COCHRAN. Mr. President, I ask unanimous consent that the Senate vote on the motion to waive the Budget Act with respect to the Murray amendment at 3:30 p.m. today, with debate until the vote equally divided in the usual form and no amendments in order to the amendment prior to the vote.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. COCHRAN. I thank the Chair and thank the Senator.

The PRESIDING OFFICER. Who yields time?

The Senator from Washington.

Mrs. MURRAY. Mr. President, I yield to the Senator from North Dakota.

Mr. DORGAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DORGAN. Mr. President, I rise in support of the amendment offered by my colleague, Senator MURRAY. Senator MURRAY, I believe, offered this identical amendment in the Appropriations Committee when it marked up the appropriations supplemental bill. I was very pleased to support her then.

I want to refer back to a time when we held a hearing with the Secretary of Defense. My colleague, Senator MURRAY, was at that hearing. She asked some questions, and other colleagues did, and I did, about this issue of health care, health care for soldiers and health care for veterans. One of the questions we asked was, What is the continuum here between a soldier and a veteran?

I would guess all of us in this Chamber have driven to Bethesda Naval Hospital and Walter Reed Medical Center to visit young men and women who have been wounded with respect to hostilities in Iraq. I have made many such visits. I have seen these brave soldiers lying in their hospital bed, often with an arm missing or a leg missing or other serious wounds, convalescing and recovering. In most cases, God willing, when they recover, they will get rehabilitation, and then they will, in most cases, be discharged from the service.

We asked the Secretary of Defense, at that point, What is the difference between a soldier on active duty and a young soldier who has just been released from Walter Reed Medical Center who is then discharged but continues to need medical help for the wounds they suffered in the war? Is there really any difference? And should there really be a difference in the health care that is delivered?

I am enormously proud of the men and women who work at hospitals such as Walter Reed Medical Center and Bethesda Naval Hospital, those we see most often when we visit. That health care could not be better. They do an extraordinary job.

There was recently an article about the job they do in a publication called the Washington Monthly. I discussed that article with Mr. Principi, then the head of the VA. I said, you ought to send this article out to every single employee of the VA because without sufficient money—and they have not had sufficient money—they have done an extraordinary job.

But the question is, When someone becomes a veteran, having come off active duty with a war wound, what happens? Is there full funding in that case for the kind of health care they need? The answer is no.

My colleague from the State of Washington, Senator MURRAY, understands that. She has led the fight on this issue for a long while, to say: Can't we have full funding for health care for veterans?

You can go any place in this country these days and talk about America's service men and women, and people respond to it. They care about the people who wear this country's uniform, and they want to support them. But that support does not just occur with respect to when they are in a hospital such as Walter Reed or Bethesda. That support must occur with respect to VA hospitals and community-based veterans clinics.

As you know, the President's budget does not provide funding for the clinics that were promised, the clinics that would allow a veteran who has health care issues to show up at a local storefront VA clinic instead of having to drive, particularly in rural States, hundreds and hundreds and hundreds of miles. Well, that is not funded by the President's budget. Even though they had decided they were going to do that, the President says, no, we do not have the money.

My colleague from the State of Washington, Senator MURRAY, asks the question: What is more important in this country? I am not asking you for 10 things, but just give us a couple. What is more important than keeping our promise of health care to veterans? Just give me a couple of things that are more important. These are the people to whom we offered a promise, who answered the call: Uncle Sam wants you. Wear the uniform of this country. Put yourself in harm's way, perhaps lose an arm, perhaps lose a leg, maybe lose your life.

What is more important than saying to those people who answered that call that when you need medical help in our veterans medical system, we will have adequate funding to make sure you get that help?

I recall one day a father calling me and saying: I have a son who fought in the Vietnam war, and he suffered a head wound, a bullet to the brain. It was a very serious head wound that left him in devastating condition, and because of that brain wound and his incapacity, he was suffering muscle atrophy, and at some point he had to have a toe removed. They said, well, to have that toe removed, you have to take this young veteran to Fargo, ND, which was about 250 miles away—500 miles round trip.

So for this young man, who suffered a wound to the head in a war and was incapacitated as a result of it, put him in a car and drive him 500 miles round trip to have a toe removed. I said: Isn't there some common sense here? Couldn't this be done somewhere closer? We finally resolved that.

But the fact is, the money that was left out of the President's budget for the storefront community clinics for veterans, that is exactly the kind of thing they can do in many cases. Yet somehow this is not an urgent priority, with all of the young veterans coming back with wounds from this war, the Iraqi war, and with all of the World War II veterans now reaching that age where they need maximum care, the maximum claim on health care they were promised.

If ever we need to decide as a priority in this Congress that we need to keep our promise to veterans, it is now. That is all the Senator from the State of Washington is saying: Let's keep this promise. There seems to be money for a lot of other priorities around here that rank far lower than health care for America's veterans.

All of us have stories about these veterans, about those we have visited who were involved in World War II, Korea, Vietnam, and now the gulf war. Those stories, individually and collectively, talk about heroism and commitment and service, duty, honor, country. Duty and honor, it seems to me, for us is to make the right choice.

It is always about choices in Congress. Who among us will decide today that it is the wrong choice to fully fund veterans health care in this country? Who among us will decide that is the wrong choice? For me, it is the right choice to decide veterans deserve to know we keep our promise. That is the import of the amendment from Senator MURRAY. I am proud to stand here and speak for it and support it and vote for it.

I yield the floor.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. DURBIN. Mr. President, I rise in strong support of the Murray amendment. This is an emergency supplemental bill. We are considering funding for our troops in Iraq and Afghanistan. I voted against this war. I didn't think we were prepared. I didn't think we had a coalition to stand behind us that would send in the soldiers and bring the resources to the battle. Our military went into this war and performed admirably. We were well prepared for the military invasion. Clearly we were not prepared for what happened afterward.

For 2 years now we have been in Iraq and Afghanistan. For 2 years we have seen the casualties come home and we have seen the body bags and caskets come home as well. We have lost over 16,000 of our best and bravest in Iraq to this day. Among our allies, thank goodness there have been fewer losses. But in comparison it shows we are carrying the burden of battle. Our sons and daughters are carrying the burden of battle. The taxpayers, with this bill, will put the resources into material and equipment so these soldiers can do their job and come home safely.

How many of us have stood up on the floor of the Senate on both sides of the

aisle praising these men and women in uniform, saying we have to stand behind them, keep them in your thoughts and prayers, don't be ashamed to wave that flag? We are all proud Americans.

Senator MURRAY comes to us today and asks whether our pride in our fighting men and women is enough for us to declare it an emergency to make sure our veterans hospitals and clinics are up to the task of serving these men and women. For us to give all the great speeches about how much we admire the soldiers and then, when they are hurt and come home, to throw them into a VA system unprepared to take care of them is a mockery. If we truly believe in the goodness of the men and women who risk their lives for America, why wouldn't we vote for the Murray amendment to put the money in the veterans hospitals so the very best doctors and nurses and equipment is there for our sons, our daughters, the husband, and wives of people we love.

Let me tell you about one element of this which I am particularly proud that Senator MURRAY has added at my request. It is estimated that at least one out of every five soldiers who serves will come home and face a condition known as posttraumatic stress disorder. What is it? If you saw the movie ''Patton,'' you can recall that scene where George C. Scott, playing Patton, went in the military hospital, saw a soldier on a cot and asked: Where were you hit, soldier? The soldier responded: I wasn't hit. I just can't do it anymore. And Patton reached down and slapped him. He slapped that soldier and that slap reverberated across America, a scandalous headline that this general would slap a soldier because he couldn't face battle.

In all honesty, it is that attitude and denial which have led the United States to ignore this very real problem. It wasn't until 1980, 25 years ago, that the Veterans' Administration acknowledged the fact that when you take men and women in America, train them to be soldiers and sailors, marines and airmen, serve in the Coast Guard, put them into battle, they can have life experiences and witness events which will have a dramatic impact on them personally. They may need help and counseling to come home and set their lives on the right path. The first time we acknowledged posttraumatic stress disorder was 1980. They used to call it shell shock and battle fatigue. But it was never acknowledged as a medical problem that needed attention until 1980.

A few weeks ago I went across my State of Illinois. I went to five different locations for roundtables. I invited medical counselors from the Veterans' Administration to tell me about the soldiers who were trying to come to grips with this torment in their minds over what they had done and what they had seen. I was nothing short of amazed at what happened. In every single stop, these men and women came forward and sat at tables before groups in their communities, before the media, and told their sad stories of being trained to serve this country, being proud to serve, and going into battle situations which caused an impact on their mind they never could have imagined, and coming home with their minds in this turmoil over what they had done and seen, and many times having to wait months and, in one case, a year before they could see a doctor at a VA hospital.

I couldn't believe the stories of World War II veterans. A veteran in southern Illinois who was in the Philippines couldn't come to my meeting because ''I just can't face talking about it,'' 60 years after his experience. Veterans from Korea where my two brothers served, veterans from Vietnam who came home rejected by many, who couldn't resolve their difficulties because they were afraid to even acknowledge they were veterans, tormented by this for decades.

The ones that gripped my heart the most were the Iraqi veterans. I will never forget these men and women. The one I sat next to at Collinsville, a bright, handsome, good looking young marine, talked about going into Fallujah with his unit and how his point man was riddled with bullets, and he had to carry the parts of his body out of that street into some side corner where he could be evacuated, at least the remains could be evacuated. Then he served as point man and went forward. A rocket-propelled grenade was shot at him, and it bounced off his helmet. One of the insurgents came up and shot him twice in the chest. This happened in November. He was there. He survived.

When he came home, he couldn't understand who he was because of what he had seen and been involved in. He had problems with his wife, difficult, violent problems, and he turned to the VA for help.

I said to this young marine: I am almost afraid to ask you this, but how old are you?

He said: I am 19.

Think of what he has been through. Thank goodness he is in the hands of counselors. Thank goodness he is getting some help, moving in the right direction.

But in another meeting in southern Illinois, another soldier said, in front of the group: As part of this battle, I killed children, women. I killed old people. I am trying to come to grips with this in my mind as I try to come back into civilian life.

A young woman, an activated guardswoman from Illinois, said when she came out, still in distress over what she had seen and done, they stopped her at Camp McCoy in Wisconsin and sat her down and asked: Any problems? Of course, that should have been the time for her to come forward and say: I have serious problems. She didn't. Because if you said you had a problem, you had to stay at Camp McCoy for 3 more months. She was so desperate to get home she said: No problems.

She came home and finally realized that was not true. She had serious psychological problems over what she had been through. When she turned to the VA and asked for help, they said: You can come in and see a counselor at the VA in 1 year.

What happens to these veterans, victims of posttraumatic stress disorder, without counseling at an early stage? Sadly, many of them see their marriages destroyed. One I met was on his fourth marriage. Many of them self-medicate with alcohol, sometimes with drugs, desperate to find some relief from the nightmares they face every night. These are the real stories of real people, our sons and daughters, our brothers and sisters, our husbands and wives who go to battle to defend this country and come home with the promise that we will stand behind them.

If we stand behind them, we need to stand by the Murray amendment—$2 billion to make sure these hospitals and clinics have the very best people to treat our soldiers coming home; money as well to make certain that there is family therapy, something that is often overlooked. How many times do you hear the story of the wife who says: Who is this man who came back from battle? He is not the soldier I sent away. He is so distant. He doesn't talk to me. He gets angry in a hurry. He wants to be away from us. That is not the man I sent to battle. The spouses and their children need help, too.

I implore my colleagues. I know it is considered unusual to come in on a President's request and add money for the Veterans' Administration. But we are not doing our duty as Senators to only provide the money for the troops for the battle. We have to do more. We must do that. But we need to provide the physical and mental medical help these same soldiers need when they come home.

I thank Senator MURRAY for her leadership on this amendment. I wish it were a bipartisan amendment. There is certainly bipartisan support for our troops. But maybe when the vote comes, we will find if the same Senators who have said such glowing things about the men and women in uniform will stand by them when they come home and need a helping hand.

I yield the floor.

The PRESIDING OFFICER. The Senator from Washington.

Mrs. MURRAY. Mr. President, I thank my colleague from Illinois for his heartfelt statement. I know he has worked in his State, talking to young men and women who are coming home.

He has looked them in the eyes as I have. I was with him in Kuwait and Iraq a few weeks ago talking to soldiers who are coming home.

The No. 1 question was: We are hearing that services are not going to be available for us when we get home. We are hearing that the veterans from Vietnam and World War II are waiting in line. We have been over here for a year.

They fear this country has forgotten them despite all the rhetoric on this floor. The Senator from Illinois is right. This is not a Republican issue. It is not a Democratic issue. This is an American issue. This is about our American men and women serving us honorably and who deserve to have the services when they come home.

The Senator from Illinois is right. To look into the eyes of a young family where one of them is suffering from posttraumatic stress syndrome affecting their marriage, job, their entire community, and what are we saying? Wait in lines. You don't get in to be served? That is not an emergency?

What we have now in front of us is a point of order saying this is not an emergency. If it is not an emergency to take care of our men and women who are now serving us overseas, who have come home, then I don't know what is. When I am going out and talking to service organizations and every single VISN in this country is telling us they are working under debts, they are not hiring doctors and nurses to replace those who are leaving, they have beds that are being held together by duct tape—if that is not an emergency, then I can't think of one that is.

We have talked to veterans in every single VISN. Every single one of them has given us dramatic stories of the wait lines, of clinics that have been promised and not opened, of service men and women from previous wars who are not getting served. This is not an emergency? I disagree.

I ask unanimous consent to add Senators SCHUMER, JOHNSON, CORZINE, LINCOLN, LANDRIEU, and DORGAN as cosponsors of the amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. MURRAY. I ask unanimous consent to print two letters of support in the RECORD. They are from the national veterans service organizations: The American Legion, the Veterans of Foreign Wars, Amvets, Paralyzed Veterans of America, and Disabled American Veterans.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

THE AMERICAN LEGION,
Washington, DC, April 11, 2005.

Hon. PATTY MURRAY,
U.S. Senate,
Washington, DC.

DEAR SENATOR MURRAY: Thank you for offering an amendment to the H.R. 1268, FY 2005 emergency supplemental appropriations, to add $2 billion for the Department of Veterans Affairs (VA) medical care. VA medical care is truly the ongoing cost of war. You have The American Legion's full support.

VA is not meeting the health care needs of America's veterans. Currently, certain veterans are actually denied access to the VA health care system even though they are willing to make co-payments and have third-party health care insurance, while other face lengthy delays in accessing care. Although providing quality health care, VA cannot meet its own timely access standards simply because it lacks the health care professionals to meet the demand for services.

In 2003, the President's Task Force to Improve Health Care Delivery For Our Nation's Veterans cited ''eliminating the mismatch between demand and funding'' as a major obstacle. Last year, VA officials claimed to need between 10 and 14 percent annual increases just to maintain current services because of Federal payraises and medical inflation. VA health care is still the best value for the taxpayer's dollar.

As former active-duty service members, especially National Guard and Reservists, transition to their civilian lifestyles, many new veterans will turn to VA to address their health care concerns, especially those with mental health problems associated with combat. VA is a world leader in effective treatment of post-traumatic stress disorder (PTSD) and other readjustments problems. VA must be funded to make sure this newest generation of wartime veterans are properly cared for in a timely manner and not displace other veterans seeking care due simply to limited resources.

Once again, thank you for offering an amendment to add $2 billion for VA medical care. Timely access to VA medical care is an earned benefit from a grateful nation.

Sincerely,

STEVE ROBERTSON,
Director,
National Legislative Commission.

THE INDEPENDENT BUDGET,
Washington, DC, April 6, 2005.

DEAR SENATOR: On behalf of the co-authors of The Independent Budget, AMVETS, Disabled American Veterans, Paralyzed Veterans of America, and the Veterans of Foreign Wars, we are writing to express our support for the proposed Murray-Akaka amendment to the FY 2005 Emergency Supplemental that would provide $1.9 billion in much needed funding for veterans' health care.

Providing health care to returning servicemembers is an ongoing cost of our national defense. Servicemembers who participate in a theater of combat are eligible for health care from the Department of Veterans Affairs for two years after separation or release from active duty, without regard for strict eligibility rules. VA hospitals are facing budget deficits and moving to reduce services. Neither the Administration's FY 2006 budget request nor the recently passed budget resolution, addressed the costs of providing needed health care. The Independent Budget has recommended an increase for VA health care of $3.5 billion for FY 2006. This amendment would provide the funding needed to care for these returning veterans, as well as provide the resources the VA needs to meet shortfalls that are affecting veterans today.

We ask you to support this amendment and to provide the dollars needed to care for servicemembers returning from Iraq and Afghanistan, as well as all veterans who rely upon the VA to provide their health care.

Sincerely,

RICK JONES,
National Legislative Director, AMVETS.
RICHARD B. FULLER,
National Legislative Director, Paralyzed Veterans of America.
JOSEPH A. VIOLANTE,
National Legislative Director, Disabled American Veterans.
DENNIS CULLINAN,
National Legislative Director, Veterans of Foreign Wars of the United States.

Mrs. MURRAY. Mr. President, the VA is not prepared to deal with the soldiers who are coming home. So far 240,000 soldiers have come out of our service and are now available or have available to them veterans services; 50,000 already have asked the VA for care. This is an emergency.

As I talked about this morning, in State after State, in Alaska, where priority 7 veterans who are not enrolled in VA primary care are not getting appointments to date; in Colorado, where they have a $7.25 million shortage this year; in California where the VA hospital in Los Angeles has closed its psychiatric ward at the exact time we have generals telling us that at least 30 percent of our soldiers who are coming home from Iraq will need mental health care capacity and we have psychiatric emergency rooms being closed; in Florida, where there is $150 million deficit; in Idaho, where we have the Boise Idaho VA facility with a hiring freeze; in Kentucky, where we are having soldiers lie on broken tables because there is simply no money to replace any equipment there. In Maine, we have a $12 million deficit; in Minneapolis, $7 million shortfall—I remind the Senate, there are four facilities that see the most difficult, complex injuries once they have been discharged. Minnesota is one of them, and they have a $7 million shortfall.

The list goes on and on. This is an emergency. I cannot think of a more important issue facing our country today. I can't go home and look at my veterans in north central Washington who have to drive over a mountain pass 150 miles to get care today, who have been promised the health care clinic, and say: Sorry, my colleagues don't see this as an emergency.

Any one of us who has taken the time to sit down with our soldiers when they are discharged from the service and out in their communities—they tell us the stories such as the Senator from Illinois talked about, about the help they need getting through the nightmares, the posttraumatic stress syndrome, getting help with serious injuries where they have lost arms and legs.

We should not say on this Senate floor this is not an emergency. I am appalled that that is what the argument

has come down to. I believe this vote is about whether we stand with our men and women. It is about whether you are going to vote with our veterans. I am stunned that there are those who say this one issue is not something that is an emergency.

Any one of us who has been out there working with our veterans—I come to this floor as a daughter of a disabled veteran. I lived with my father who was in a wheelchair most of his lifetime. I worked at a VA hospital long before I even thought about being in the Senate. I worked at the Seattle VA hospital during the Vietnam war. Any one of us who has taken the time to talk to people who served in wars and have come home know that if we don't have the care for them, we are doing a disservice not only to the men and women who serve today, but to the men and women whom we are going to ask to serve us in the wars to come.

This is an emergency. I don't care if the administration is saying the VA hospitals have the money they need. When we talk to them, they are all telling us they have a budget deficit, a hiring freeze; they are not replacing the doctors and nurses who are leaving, and they have equipment that is old, decrepit, falling apart, and dangerous. That is an emergency. It is one we have to deal with.

Mr. President, I see my colleague from Minnesota on the floor. I yield 2 minutes to the Senator from Minnesota.

The PRESIDING OFFICER. The Senator from Minnesota is recognized.

Mr. DAYTON. Mr. President, I thank my colleague from Washington for her leadership on this very important amendment. I share her dismay and astonishment that the other side doesn't recognize this is an emergency. It is an emergency in Minnesota and to the Minneapolis veterans hospital, which has been designated as one of the primary recipients of those returning home injured in the war in Iraq, and which does not have the money even to meet the needs of veterans already in Minnesota, much less the additional demand.

It seems to me incredible that anybody can say they support our troops, as we all do, but then when they come home injured, wounded, even maimed, we are not going to provide them with the resources necessary and everything they need to resume healthy and normal lives.

This is a fundamental question of priorities for this body and for the administration. If we don't believe that sending soldiers to Iraq constitutes an emergency, if we don't believe that supplying them and equipping them, as we will vote to do—as I have supported every time and will again here—constitutes an emergency outside of the normal budget processes, but this instance now where we talk about providing health care to those most in need, in the most emergency-type situations of their lives imaginable, that this is not an emergency expenditure that should be approved unanimously by this body, then I frankly don't see how we can say with any integrity that we support our troops.

We support our troops in Iraq and now we need to support them when they return home. This amendment of the Senator from Washington will accomplish that. I would be astonished if anyone in this body would oppose it.

I yield the floor.

The PRESIDING OFFICER. The Senator from Washington is recognized.

Mrs. MURRAY. Mr. President, how much time do we have on this side?

The PRESIDING OFFICER. The Senator has 7 minutes 16 seconds.

Mrs. MURRAY. Mr. President, I note that there is nobody from the other side on the floor. I am frankly not surprised, because I don't see how anyone can argue against making sure that our service men and women get the health care they need, whether it is for a mental or a physical need. We sent them to war. We should be there for them when they come home. Regarding this amendment, I have been trying to do this since the beginning of the year and I have been told this is not the time or the place.

I let my colleagues know this is our last chance this year to make sure our veterans have the care they need. There is no other opportunity. We are going to get to the budget at some point and to the appropriations cycle, and we are going to get to the point where we have an appropriations bill on the floor, and the budget already says there is no more money. We hear the administration say—when we talk about the VISNs, everyone tells us they don't have the resources. If you look at it, you will see these men and women don't have the care they need.

Mr. DAYTON. Will the Senator yield for a question?

Mrs. MURRAY. Yes.

Mr. DAYTON. The Senator knows this is an emergency supplemental, so it is not subject to the normal budget process. In my 4-plus years here, I have not witnessed another occasion where a budget point of order has been raised against any part of the emergency supplemental appropriations. Is the Senator aware of this happening before, or are veterans being singled out in this instance?

Mrs. MURRAY. Mr. President, I have to agree with my colleague from Minnesota. I have not seen that done before. What we are going to vote on is whether our veterans are an emergency so they can be included in the supplemental.

Mr. DAYTON. We are talking about an $82 billion supplemental here that the Senator has amended, which fits within the President's request—or most of it does. It is a small part of this, and it is the least we should be doing on behalf of veterans.

Mrs. MURRAY. The Senator is correct. Actually, the President sent us an $82 billion supplemental. The Senate is considering $80.1 billion. We have the means to still be less than what the President has sent us by adding this amendment. I sincerely cannot think of any other issue more important than to make sure that those men and women who served us, when they come home, have the services they need.

Ms. STABENOW. Will the Senator yield for a question?

Mrs. MURRAY. Yes.

Ms. STABENOW. I first thank the Senator from Washington State. She is exactly on the mark. I have joined with her on a number of occasions and appreciate her leadership on this issue of veterans health care.

Would she not agree that veterans should not have to go through the process every year, fighting every year to try to get what they need and, at the same time, knowing that they give us everything they are asked to do in terms of putting their lives on the line, keeping us safe? Our men and women in Iraq right now are doing that and we have made a promise to them. Would she not agree that as a country, every year it seems as though we are back here trying to keep the promise.

Mrs. MURRAY. The Senator from Michigan is correct. Frankly, I have joined her in trying to make veteran services mandatory so we are not here. It is disturbing to me that we are desperately pleading to our colleagues to call this an emergency. What are we doing to our soldiers when we tell them we are in a desperate fight on the floor of the Senate that we are going to lose on a partisan vote over our veterans? That is the wrong message to send to the men and women in the services. It should be part of our budget, part of the appropriations every year, that if you serve your country, you get your care. We don't have that now, so we are here in our last-ditch effort, last attempt, last ability to try to provide these services for the men and women in the services.

I find that appalling, but I will fight hard because I believe more than anything that we should be making sure if a young man or woman comes home from Iraq or Afghanistan, they are not turned away at their VA hospital. We need to make sure that anybody who serves in any war—Vietnam, Korea, or anywhere—is not turned away at a VA hospital. They should not be put in a bed held together by duct tape. That is wrong. That is why we are here arguing now that this is an emergency, because we have not dealt with it in the past. We now have to deal with it, and I urge my colleagues to join with us on the last chance we have this year to keep our word to the men and women who have served this country honorably.

Ms. STABENOW. Will my colleague yield?

Mrs. MURRAY. Mr. President, how much time do I have?

The PRESIDING OFFICER. The Senator has 2 minutes 15 seconds.

Mrs. MURRAY. I yield for a question.

Ms. STABENOW. I wanted to share with my colleague—and then ask a question—the fact that this is an emergency in Michigan. We have a big State, 10 million people, a very large State geographically, where folks often have to drive a long way in order to get to VA assistance. They are now in a situation of having to wait up to 6 months oftentimes to see a doctor and to get the services they need.

I ask my colleague if she is hearing those similar stories around the country—that we wait 6 months, we drive hours and hours to get to a facility right now? Without the additional dollars, that is only going to continue and get worse. I wonder if that is what she is hearing as well.

Mrs. MURRAY. The Senator is exactly right. We are hearing that from every region, including yours. That is why this amendment is before us.

I have little time left. I see some colleagues on the other side are on the floor. They are going to make their arguments. Again, this is an emergency; this is part of the supplemental. We should not tell our soldiers that they are not an emergency when they come home.

I yield to my colleagues on the other side.

The PRESIDING OFFICER. Who yields time?

Mr. COCHRAN. Mr. President, I yield such time as she may consume to the Senator from Texas, Mrs. HUTCHISON.

The PRESIDING OFFICER. The Senator from Texas is recognized.

Mrs. HUTCHISON. Mr. President, I want to answer some of the concerns raised by the Senator from the State of Washington.

First, there is not a Senator in the entire Senate who doesn't want to make sure that the veterans are taken care of, whether they served in World War I, II, Korea, or any other war. I have to say I am mentioning World War I because I was at a veterans event about 6 months ago, and I asked people to stand by the wars in which they served and I didn't mention World War I. This very irate veteran in a wheelchair in front of me suggested that I left out World War I. So I want to say that I am most appreciative of the veterans who are here having served in World War I and every other war.

We want to take care of our veterans. We want to make sure that we have the money to do it. We do not have a supplemental request from the administration for the Veterans' Administration. This doesn't mean that some veterans hospitals out in our country are not saying they would like to have more money; it doesn't mean that a clinic hasn't been built yet that is on the drawing boards to be built. Most certainly, we have areas that we need to address in veterans care, and I want to make sure we have the money to do it.

But I have to say that the Veterans' Administration is telling us they have the money they need to fulfill this year's budget and, specifically, to fulfill their needs.

We asked the Secretary of Veterans Affairs if he needed more money in the 2005 year—the year we are in budgetwise—for returning veterans from the Iraqi war and from the Afghanistan area. The answer was: No, we have everything we need to cover those veterans. We asked him if he needed more money than was in the current Presidential budget for 2006, which we will be considering in my subcommittee for those same returning veterans. The answer was: No, we have enough in that budget.

Now, I have to say that, as chairman of the Veterans' Affairs Subcommittee in Appropriations, I am going to look at that and I am going to try to determine for myself if there is enough for 2006. But I have to say in this budget year, 2005, which has about 6 more months to run, the Veterans Affairs Department says they have enough to cover Iraq and Afghanistan.

This does not mean everything is going exactly the way I would want it in the Veterans' Administration. There is a hospital in Dallas that is particularly being noted by the GAO investigators as not performing up to the standards we would expect, and I am asking our Secretary of Veterans Affairs to address that particular hospital. I am sure there are other specific instances.

It is not that we do not have the money put in there. It is that we have had a management problem there, and we are seeking to address that situation immediately.

I asked the Secretary to put in writing what the situation is, and I ask unanimous consent that the April 5, 2005, letter be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

THE SECRETARY
OF VETERANS AFFAIRS,
Washington, DC, April 5, 2005.

Hon. KAY BAILEY HUTCHISON,
Chairman, Subcommittee on Military Construction and Veterans Affairs, Committee on Appropriations, U.S. Senate, Washington, DC.

DEAR MADAM CHAIRMAN: Before I begin the main purpose of this letter, I want to take this opportunity to thank you for the consideration and interest you have shown VA through your leadership in this year's appropriation hearing and many other endeavors on behalf of our veterans. I very much appreciate your proactive involvement and commitment to providing for those who have served this country with such dedication.

I write to you today to address certain issues regarding VA's FY 2005 fiscal situation. I know some have said that VA must have emergency supplemental funds to continue providing the services for which veterans depend on us—timely health care and delivery of benefits. Whenever trends indicate the need for refocusing priorities, VA's leaders ensure prudent use of reserve funding for these purposes. That is just simply part of good management. It does not, however, indicate a ''dire emergency''. I can assure you that VA does not need emergency supplemental funds in FY 2005 to continue to provide the timely, quality service that is always our goal. We will, as always, continue to monitor workload and resources to be sure we have a sustainable balance. But certainly for the remainder of this year, I do not foresee any challenges that are not solvable within our own management decision capability.

I look forward to continuing to work with you as we strive to provide the very best service possible for those veterans who depend on us the most. Thank you again for your leadership in this important area.

Sincerely yours,

R. JAMES NICHOLSON.

Mrs. HUTCHISON. Now, that is the Secretary of Veterans Affairs who says there is reserve funding available if an emergency arises, and the Veterans Affairs Department does not need extra funding.

One thing has to be determined, and that is the difference between people who are returning who are on active duty, who are at our military hospitals, who are being treated in the Department of Defense because they are active duty. The Veterans Affairs Department is where the people who are going out of our military service go for their health care. There are fewer coming home in the Veterans Affairs' influence where they would be giving the service, as opposed to active duty where they are going to Bethesda, Walter Reed, and other hospitals that are treating our Active-Duty military.

So I think we have to look at where the Veterans Affairs part of this budget is, and do they need more. In fact, of the 240,000 who have gone out of our service in the last 3 years, only 48,000 have even come in to the Veterans Affairs service capability. Some already have insurance. Some might come later but that is something that we can monitor. Right now, we are told we have the reserve funding to be able to handle anyone who is going out of Active-Duty service, out of Active-Duty military health care and into the Veterans' Administration, and that we have the money to cover it.

So I do not want to take the $2 billion that is in this amendment out of other areas such as our armed services, our Active-Duty military who are on the ground, the equipment we are giving them in this supplemental. That is why I must oppose Senator MURRAY's amendment, although I do agree with her overall goal and will continue to work with her as chairman of the subcommittee to monitor the situation.

Let us get our numbers right. Let us act when it is on the budget with the hearings and the anticipation of the needs, rather than adding $2 billion to the emergency appropriations that is before us today and taking it from something else, such as Active-Duty military equipment and preventive measures that we must cover for those who are on the ground today.

With all of this said, we will reach our goal of assuring the very best military veterans' care not by adding $2 billion to the funding for the next 6 months but, instead, planning for it since we are told by the Secretary of Veterans Affairs we have the money we need for this year.

The PRESIDING OFFICER (Mr. COLEMAN). Who yields time? The Senator from Mississippi.

Mr. COCHRAN. Mr. President, the Senator from West Virginia was not able to be on the Senate floor when this was initially discussed, and in deference to his right to speak on this amendment, I yield 10 minutes from our side to the Senator from West Virginia.

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. BYRD. Mr. President, I thank the distinguished chairman of the Appropriations Committee, Senator COCHRAN of Mississippi, for his generosity and for his very gracious and courteous action in this regard. I thank him for the time. I will not use the entire 10 minutes. I take it I may yield some of that time, if I wish, to other Senators.

The wars in Iraq and Afghanistan have strained America. The cost of these wars has strained the Federal budget. The deployments of the National Guard and the Reserves have strained American families. The toll of the wars on our troops and their equipment has strained the readiness of our Armed Forces. But there is no one who bears more of the strains of these wars than the veterans who have served our country in combat.

According to the Department of Defense, nearly 12,000 troops have been wounded in Iraq and another 442 have been wounded in Afghanistan. These troops have received the finest medical care our military can offer, but untold numbers of service men and women will require long-term care from the Department of Veterans Affairs. However, the VA is also feeling the strains of war. VA hospitals are seeing more and more veterans from the wars in Iraq and Afghanistan at the same time the aging veterans from World War II, Korea, and Vietnam are most in need of the VA's health care services, to which they are entitled. However, the administration has not met this growing demand for VA health care services with budget increases.

Fortunately, Congress has stepped in and added billions in needed funds in recent years. Last year, Congress added $1.2 billion to the President's request for veterans health care. Two years ago, Congress added $1.57 billion to the President's budget for VA health care. But the shortfalls in the veterans budget continue. The Disabled American Veterans, in its independent budget for fiscal year 2006, estimated that the White House budget for VA health care is $3.4 billion less than what is required to care for all veterans who are entitled to care. Clearly, more needs to be done to care for veterans.

The Murray-Akaka-Byrd, and others, amendment would increase veterans health care by $1.98 billion. These funds are targeted to provide care for veterans returning from Iraq and Afghanistan to increase mental health services and to support local VA hospitals and clinics. This is a commonsense amendment to support the men and the women who have borne the wounds of battle. I urge my colleagues to support the amendment.

Mr. President, how much time do I have?

The PRESIDING OFFICER. The Senator has 6 minutes.

Mr. BYRD. I thank the Chair and again thank my chairman, Mr. COCHRAN.

May I yield the remaining time to Senator MURRAY and Senator AKAKA?

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. MURRAY. Mr. President, I yield some of that time to the Senator from Hawaii, as much time as he will choose to use.

The PRESIDING OFFICER. The Senator from Hawaii.

Mr. AKAKA. Mr. President, I thank the chairman of the committee, Senator COCHRAN, and also Senator BYRD and Senator MURRAY for the time.

Mr. President, the amendment before us addresses the costs of providing health care to troops serving in Iraq and Afghanistan.

My colleagues in the Senate have already recognized the need to provide funds that would allow VA to absorb an influx of new patients from Operations Iraqi and Enduring Freedom. We recognized that need in 2003, when Congress added $175 million for VA to the Supplemental Appropriations bill. I again point out that this amount was provided only one month after the war in Iraq began and before we knew about the level of troop commitment.

Does this body believe that things are better in VA today or that massive amounts of troops will not actually come for care? I don't think so.

Our amendment allows VA to provide care for returning troops—without displacing those veterans currently using the system.

The amount of this amendment—$1.9 billion—is drawn from what we know about past use of the VA health care system coupled with what we know to be the costs associated with preparing VA for veterans from the global war on terror.

Earlier we shared data and stories from VA hospitals and clinics across the country. My colleagues on the other side refute the fact that facilities are in crisis situation. I urge my colleagues to talk to VA personnel in their home States.

Perhaps the administration is reluctant to share details of budget shortfalls. Or perhaps network directors have not been allowed to request additional money. But these deficits are real, and they are deficits which will hurt veterans. In my mind that is an emergency.

To reiterate: we know of shortfalls in each and every State. The worst deficits are occurring in Florida, South Dakota, New Hampshire, Washington State, Iowa, and Ohio. These are not fiction.

I urge my colleagues to do what is right for VA hospitals and the veterans served by them.

The PRESIDING OFFICER. The Senator from Washington.

Mrs. MURRAY. Mr. President, how much time is left?

The PRESIDING OFFICER. The Senator has 3 minutes.

Mrs. MURRAY. How much time is left on the other side?

The PRESIDING OFFICER. There remain 14½ minutes.

Mrs. MURRAY. Mr. President, I do not see anybody on the other side who is going to speak. Let me just reiterate for everyone here. What we are talking about is an amendment for veterans, to make sure they have the health care and support they need when they come home from the war in Iraq and the war in Afghanistan.

What we have been very clear about is in every region across this country there is a debt and a shortfall. We have facilities that are decaying, and no money is being put in to fix them. We have long waiting lines. We have veterans in rural areas who are being told they cannot have health clinics. We are being told that veterans, the men and women who served us, have to travel over mountain passes and travel long distances to get the care they need. Most of it is inaccessible.

We are telling veterans who live in urban areas that the long lines in which they are waiting have to be there. We are telling suburban parents if they send their young son or daughter off to war, we are not going to be there for them when they come home.

I believe this is a emergency. I have outlined it this morning. I have outlined it again this afternoon. I heard from our colleagues on the other side that the Veterans Affairs Secretary, Secretary Nicholson, is saying he has the money he needs. He was on the job for 2 weeks when he said that. I invite the Secretary and any one of us to go out on the ground, go out to Michigan

and Minnesota, go to Kentucky, go to Illinois, go to California, go to Texas, go to Idaho, go to any veterans facility and look and tell me there is not an emergency. Look in the eye of any VA doctor or nurse and tell them there is not an emergency. But more importantly, look in the eyes of the young men and women who served us.

I was in Iraq and Kuwait several weeks ago. I had to look in the eyes of 150 Guard and Reserve members who had just finished in Iraq for a year. Their No. 1 concern is they are hearing the facilities will not be available for them when they get home. Their No. 1 concern? Stress. A year on the ground in Iraq. They had heard from soldiers who had already gone home about the troubles they had with migraines, posttraumatic stress syndrome, reintegrating in the community. They want to come home, and we know the support is not there, and we tell them that is not an emergency.

I find it outrageous that this body can send to war our sons and daughters, husbands and wives, and say we will not be there for you when you come home; that we will tell them you will have to wait, your budgets are not a priority, your issues are not a concern to this body. I cannot think of a more important issue, I cannot think of a more important emergency, and I cannot think of anywhere else we are going to be able to deal with this this year.

If we do not provide the funds on the emergency supplemental before us, we will be here a year from now with story after story of young men and women who served us and then came home and were told no. That is an emergency.

The PRESIDING OFFICER. The time of the Senator has expired.

The Senator from Mississippi.

Mr. COCHRAN. Mr. President, we had a full debate of this issue. This is not the first time this issue has been presented to the Senate. As a matter of fact, before this fiscal year began, 2005, there was a question about how much money would be needed by the Veterans' Administration to provide health care benefits and other services to veterans.

The President had submitted a budget request for this year, but after hearings in our Appropriations Committee, the subcommittee recommended an increase over and above what the President had requested.

As we all know, there is a considerable time gap after the President's completion of his budget submission. The hearing process takes place in Congress, a budget resolution is developed, and then the Appropriations Committee conducts hearings and reviews what the facts are and if there have been any changes in the situation that can be reflected in the recommendations made in the Appropriations Committee.

Last year, the Appropriations subcommittee recommended to the full committee an increase in funding over and above the request of the President by $1.2 billion—a substantial increase. That was approved.

In this fiscal year's budget which we are now talking about, the President has already received $1.2 billion that he did not request. As we moved into the year, there have been suggestions that additional funds might be needed. We are already, though, preparing for the next fiscal year, 2006. The other day when we had a budget resolution before the Senate, this was again presented as an issue to the Senate. Senators offered an amendment and debated it, and we had a vote on that resolution. By a vote of 53 to 47, an amendment by the Senator from Hawaii to add about $3 billion to the budget resolution was defeated by the Senate. It was well debated. It was considered carefully. And here we are again.

We have an emergency supplemental now on the floor of the Senate dealing with funds needed to successfully complete, we hope, operations in Iraq and Afghanistan at the soonest possible date so we can have a more stable and peaceful situation, not only in that part of the world but in the war against terror generally, to protect the security of American citizens.

This supplemental is directed, in large part, to that concern and to those needs—the needs of the Department of Defense and the Department of State for depleted accounts in programs under the jurisdiction of that department.

There are some other accounts that are funded in this urgent supplemental, but there are no funds requested by the administration for the Veterans' Administration programs.

The other day there was a hearing on this subject. The Secretary, as the distinguished Senator from Texas pointed out, was questioned about the need for additional funds by the Veterans' Administration. The answer was unequivocal. It was clear. It was precise. Then, to clarify that, the Senator from Washington said that was weeks ago, that was early, and all the needs weren't known then. Here is the letter, dated April 5, 2005. This is what the Secretary of the Veterans' Administration said in response to the suggestions being made by the proponent of this amendment:

> I can assure you that VA does not need emergency supplemental funds in FY 2005 to continue to provide the timely quality service that is always our goal. We will, as always continue to monitor workload and resources to be sure we have a sustainable balance, but certainly for the remainder of this year I do not foresee any challenges that are not solvable within our own management decision capability.

That is about as clear and persuasive a statement about the need for the funds at this time, for the remainder of this fiscal year, as you could possibly ask for by the person who has the responsibility for carrying out these programs and administering these programs for the benefit of our Nation's veterans.

There is another point I am going to make before my time expires.

The Secretary testified not only were the funds sufficient for fiscal year 2005 but that the financial plan is manageable. He said the Department is not in a crisis requiring emergency appropriations.

Then, on the point of the number of servicemen coming back to the States from the wars in Iraq and Afghanistan, the highest projection that has been made, if one looks at the numbers of persons entering the VA system in any given 1 year, the highest projection might be 48,000.

To put that in perspective with respect to the entire system and the entire workload of the Veterans' Administration, returning service members from the Iraqi war entering the VA system will be less than 1 percent of the total VA population.

The Senator from Texas made a point that was very persuasive. I think it should be repeated; that is, most veterans who are coming back to the States at this point and need medical care are still in the Department of Defense. They are at Walter Reed. They are at other hospitals that are under the jurisdiction of the Department of Defense. They are not going to the veterans hospitals. People who are coming back from Iraq are a small percentage of the population, and they are not as likely as older veterans to need services from the Veterans' Administration. The older veterans in the system are a much larger group and require more appointments, medical care, and assistance medications than the younger population coming into the system now.

For these reasons, I urge the Senate to reject the request of the Senators to open this emergency supplemental bill and add the additional $1.9 billion that has been requested.

I am prepared to yield the remainder of our time. I think we talked about the vote being scheduled for 3:30. As I understand, there is before the Chair a motion on the part of the Senator from Washington to waive the Budget Act. Is that correct?

The PRESIDING OFFICER. The Senator has moved to waive the point of order that was raised against her amendment.

Mr. COCHRAN. I ask for the yeas and nays on that motion.

The PRESIDING OFFICER. They have been ordered on that motion.

Mr. COCHRAN. I yield the floor and I yield our time.

The PRESIDING OFFICER. The Senator from Washington.

Mrs. MURRAY. Mr. President, I understand the other side yielded this

time. Let me simply respond by saying we are talking about a supplemental bill that talks about the cost of the war. Part of the cost of war is caring for the men and women when they return home. As President Lincoln said:

We all have an obligation to care for him who shall have borne the battle and for his widow and for his orphan.

That is what this vote is about, whether we carry forward our obligations to care for those we sent to war.

I ask my colleagues to vote with us to override this motion that says this is not an emergency so our veterans can receive the care they deserve.

I yield the floor.

The PRESIDING OFFICER. The question is on agreeing to the motion. The yeas and nays have been ordered. The clerk will call the roll.

The legislative clerk called the roll.

The yeas and nays resulted—yeas 46, nays 54, as follows:

[Rollcall Vote No. 89 Leg.]

YEAS—46

Akaka	Feingold	Murray
Baucus	Feinstein	Nelson (FL)
Bayh	Harkin	Nelson (NE)
Biden	Inouye	Obama
Bingaman	Jeffords	Pryor
Boxer	Johnson	Reed
Byrd	Kennedy	Reid
Cantwell	Kerry	Rockefeller
Carper	Kohl	Salazar
Clinton	Landrieu	Sarbanes
Conrad	Lautenberg	Schumer
Corzine	Leahy	Specter
Dayton	Levin	Stabenow
Dodd	Lieberman	Wyden
Dorgan	Lincoln	
Durbin	Mikulski	

NAYS—54

Alexander	DeMint	Martinez
Allard	DeWine	McCain
Allen	Dole	McConnell
Bennett	Domenici	Murkowski
Bond	Ensign	Roberts
Brownback	Enzi	Santorum
Bunning	Frist	Sessions
Burns	Graham	Shelby
Burr	Grassley	Smith
Chafee	Gregg	Snowe
Chambliss	Hagel	Stevens
Coburn	Hatch	Sununu
Cochran	Hutchison	Talent
Coleman	Inhofe	Thomas
Collins	Isakson	Thune
Cornyn	Kyl	Vitter
Craig	Lott	Voinovich
Crapo	Lugar	Warner

The PRESIDING OFFICER (Mr. MARTINEZ). On this vote the yeas are 46, the nays are 54. Three-fifths of the Senators duly chosen and sworn not having voted in the affirmative, the motion is rejected.

The point of order is sustained and the emergency designation is removed.

Mr. COCHRAN. Mr. President, I move to reconsider the vote.

Mr. CRAIG. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. COCHRAN. Mr. President, I make the point of order that the amendment violates section 302 of the Budget Act.

Mrs. MURRAY. Mr. President, I move to waive the applicable sections of the Budget Act, and I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

Mrs. MURRAY. Mr. President, what we voted on was whether to make the VA funding emergency funding. This vote is to say that the veterans funding is a priority for this Congress.

The PRESIDING OFFICER. The question is on agreeing to the motion. The yeas and nays have been ordered. The clerk will call the roll.

The legislative clerk called the roll.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 46, nays 54, as follows:

[Rollcall Vote No. 90 Leg.]

YEAS—46

Akaka	Feingold	Murray
Baucus	Feinstein	Nelson (FL)
Bayh	Harkin	Nelson (NE)
Biden	Inouye	Obama
Bingaman	Jeffords	Pryor
Boxer	Johnson	Reed
Byrd	Kennedy	Reid
Cantwell	Kerry	Rockefeller
Carper	Kohl	Salazar

Collins	Isakson	Thune
Cornyn	Kyl	Vitter
Craig	Lott	Voinovich
Crapo	Lugar	Warner

The PRESIDING OFFICER. On this vote, the yeas are 46, the nays are 54. Three-fifths of the Senators duly chosen and sworn not having voted in the affirmative, the motion is rejected. The point of order is sustained and the amendment falls.

Mr. COCHRAN. Mr. President, I move to reconsider the vote.

Mr. ALLARD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from Colorado.

Mr. ALLARD. Mr. President, I request 15 minutes to speak on the bill.

The PRESIDING OFFICER. The Senator is recognized.

Mr. ALLARD. Mr. President, I rise today to discuss the fiscal year 2005 Emergency Supplemental Appropriations bill. I commend Senator COCHRAN, the manager of this bill and the chairman of the Appropriations Committee, for the way he has put together this bill. His leadership was critical in ensuring that provisions in this bill are truly emergencies and are vital to our troops in the field.

I also acknowledge the work done by Senator STEVENS, the chairman of the Appropriations Subcommittee on Defense. Most of the funding in this bill comes from his subcommittee, and I know he has worked hard to ensure every penny will be wisely spent.

Both Senator COCHRAN and Senator STEVENS have also gone out of their way to assist me and Senator MCCONNELL in tackling an important issue related to our nation's chemical weapons stockpile. I will discuss this issue in greater detail in a moment.

The bill before us includes critically-needed funding for our men and women in uniform. It also ensures that the operations against the global war on terror is not interrupted. It provides certain benefits for our troops, including an increased death gratuity, life insurance extensions, and hazardous pay. I strongly support these provisions and believe they will greatly enhance the effectiveness of our military forces.

The bill also includes several provisions related to the Department of Defense chemical demilitarization program. These provisions seek to force the Department of Defense to move forward with the design and construction of two chemical weapons destruction facilities at Pueblo, CO and Blue Grass, KY.

Since the program's inception, the Department of Defense management has been dismal and ineffective. The program is behind schedule and overbudget. In 1986, Congress was told that the program was going to be completed before 2007 at a cost of approximately $2.1 billion. And now, we are told the program could possibly cost as much as $37 billion and be completed as late as 2030.

The Department of Defense has consistently failed to provide sufficient funding for this program, forcing those who run it to make programmatic decisions that pit demilitarization sites against each other.

The Department of Defense has failed to provide adequate program management. It has repeatedly stopped and restarted design work and operations, adding huge start-up costs and considerable schedule delays.

The department has failed effectively to communicate its intentions and plans to the States in which permitting is necessary, nor to local communities whose support is essential.

An example of these failures is the department's handling of the destruction of the chemical weapons stockpile at the Pueblo Depot in Colorado. In 2002, the department accelerated the destruction of the weapons at Pueblo

with the goal of completing its work by the 2012 Chemical Weapons Convention deadline.

However, in 2004, the department changed its mind. Without telling Congress, the State of Colorado, or the people in Pueblo, the department unilaterally decided to cease all design work and assign the project in Pueblo to in care-taker status for the next 6 years.

After six months of no activity, the Department of Defense changed its mind again. It ordered a study on whether the stockpile in Pueblo should be relocated to an operational incineration site, even though such an option is illegal under current law and has already been studied at least three times in the past.

A month after that, the department changed its mind again by ordering the start of preparatory construction and the redesign of the facility.

Today, the future of the project still remains uncertain and judging by the department's past performance, it seems likely that the project will be changed many more times.

I am frustrated, and the people of Colorado are frustrated. Try as we might, we cannot seem to get straight answers from the department. One day I was told by department officials that the stockpile would not be relocated outside of Colorado. The very next day, the department ordered the study of transportation options.

In an Armed Services Committee hearing yesterday, the only answer we could get out of department officials was that they needed to conduct more studies on the technology and more studies on transportation options. From my perspective, we can study this issue into eternity and never get anything done. It is time to move forward with destroying these weapons. It is time to eliminate the danger these weapons pose to the local communities. And, it is time for the department to recognize the necessity of complying with our international obligations.

I am very troubled by the Department of Defense's apparent willingness to violate the Chemical Weapons Convention, a treaty this body ratified. I believe the United States has a moral obligation to comply with it. Our Nation's reputation and moral standing are at stake.

If we are not careful, we will find it impossible to hold others to this treaty and to other treaties as well.

The department seems to be on a path towards blaming Congress for its future non-compliance. Yesterday, a DoD official actually told the Armed Services Committee that it would be the fault of Congress if the department could not meet the treaty deadline. This official seems to believe that relocating the stockpiles in Pueblo and Kentucky to operational sites would solve the problem.

I strongly reject that line of thinking. Congress is not to blame for the department's bungling of this program. The fact is that the Congress has been more than willing to provide the funds and political support to get this program done. Last year alone, the Congress added $50 million for the project at Pueblo. I am certain that if the Department of Defense requested additional funding for the overall program, Congress would be more than willing to support its request.

The fact of the matter is that the department has been trying to destroy these weapons since 1986, nearly 20 years, and has spent billions upon billion of taxpayer's hard-earned dollars. And yet we have destroyed less than 40 percent of our Nation's stockpile, which is no where near the 100 percent requirement of the Chemical Weapons Convention.

Let us also be clear that Congress has been very up front about the transport of chemical munitions across State lines. The law that prohibits this activity has been on the books since 1994. Nothing has changed since then. In fact, such a proposal would be dead on arrival if the department ever offered it in this Congress.

Let there be no mistake about it: I will fight this proposal.

The department should heed the words of Congress and get on with the business of destroying these weapons. Conducting more studies is a waste of time and money. We need to move forward, and we need to move forward now.

I believe it is important at this point to mention I am not alone in this fight. The senior Senator from Kentucky, MITCH MCCONNELL has been pushing the department to destroy our chemical weapons stockpile for nearly two decades. Over this time, he has led the fight in forcing the department to work with State and local communities to get this program off the ground.

There is no doubt in Senator MCCONNELL's mind or in my mind that the department has been inconsistent and unreliable regarding this program. We both strongly believe that it is past time for Congress to intervene.

That is why we worked with Senator COCHRAN and Senator STEVENS to include four provisions related to the Chemical Demilitarization program in this bill. These provisions will require the department to stop dragging its feet and move forward with the design and construction of the chemical demilitarization facilities in Pueblo, CO, and Blue Grass, KY.

Specifically, the provisions in this bill will require the Department to do the following:

transfer within 30 days all previous funding appropriated for the Pueblo and Blue Grass facilities to the program manager of the ACWA program;

require the Program Manager to spend at least $100 million within 120 days;

prevent the department from using the funding appropriated for the Pueblo and Blue Grass for any other purpose; and

prohibit the use of appropriated funding from any study pertaining to the transportation of chemical weapons across state lines.

These provisions prevent the department from dragging its feet and requiring more studies. The treaty deadline is fast approaching and cannot be ignored. The department must move quickly if we are to comply with the treaty, and I assure you today that we intend to hold them to it.

I thank the chair for the opportunity to speak on the supplemental appropriations bill. I urge my colleagues to support this bill and get this funding to our troops as quickly as possible.

I yield the floor.

The PRESIDING OFFICER. The Senator from Mississippi.

Mr. COCHRAN. Mr. President, for the information of Senators, there are no other amendments that I know of that will be offered this afternoon or this evening. There were two amendments that were offered earlier in the day which we set aside to dispose of the amendment of the Senator from Washington. These are offered by the Senator from Massachusetts, Senator KERRY, amendments numbered 333 and 334. It will be the intention of the manager of the bill to move to table these amendments when we convene tomorrow. We will be pleased to continue to set them aside and have them available for debate during the remainder of today's session. So if Senators want to speak on these amendments, this is the time to do it. Tomorrow when we convene and go to the bill, it will be the intention to move to table these amendments if there is no further debate.

In the meantime, we encourage Senators to let the managers know of their amendments that need to be considered to the bill. We are prepared to move forward. We remind Senators that this is an emergency appropriations bill. These funds are needed so that the Departments of Defense and State can proceed with other agencies that are funded in this bill to carry out their responsibilities.

We know that after we complete action on the bill here in the Senate, we will have to confer with the House to work out differences between the House-passed and Senate-passed bills. That will require some time as well.

This is a matter of some urgency. We encourage the Senate to continue to consider the bill and act expeditiously on amendments that may be offered so we can complete action on the bill and work with our colleagues in the House to have a final bill presented to the President as soon as possible. We appreciate very much having the cooperation of all Senators in that regard.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DURBIN. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. ALEXANDER). Without objection, it is so ordered.

Mr. DURBIN. Mr. President, I ask unanimous consent the pending business be set aside and I be allowed to file an amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 356

Mr. DURBIN. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Illinois [Mr. DURBIN], for himself, Ms. MIKULSKI, Mr. ALLEN, and Mr. CORZINE, proposes an amendment numbered 356.

Mr. DURBIN. I ask unanimous consent the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To ensure that a Federal employee who takes leave without pay in order to perform service as a member of the uniformed services or member of the National Guard shall continue to receive pay in an amount which, when taken together with the pay and allowances such individual is receiving for such service, will be no less than the basic pay such individual would then be receiving if no interruption in employment had occurred)

On page 153, between lines 15 and 16, insert the following:

SEC. 1110. NONREDUCTION IN PAY WHILE FEDERAL EMPLOYEE IS PERFORMING ACTIVE SERVICE IN THE UNIFORMED SERVICES OR NATIONAL GUARD.

(a) SHORT TITLE.—This section may be cited as the ''Reservists Pay Security Act of 2005''.

(b) IN GENERAL.—Subchapter IV of chapter 55 of title 5, United States Code, is amended by adding at the end the following:

''§ 5538. Nonreduction in pay while serving in the uniformed services or National Guard

''(a) An employee who is absent from a position of employment with the Federal Government in order to perform active duty in the uniformed services pursuant to a call or order to active duty under a provision of law referred to in section 101(a)(13)(B) of title 10 shall be entitled, while serving on active duty, to receive, for each pay period described in subsection (b), an amount equal to the amount by which—

''(1) the amount of basic pay which would otherwise have been payable to such employee for such pay period if such employee's civilian employment with the Government had not been interrupted by that service, exceeds (if at all);

''(2) the amount of pay and allowances which (as determined under subsection (d))—

''(A) is payable to such employee for that service; and

''(B) is allocable to such pay period.

''(b)(1) Amounts under this section shall be payable with respect to each pay period (which would otherwise apply if the employee's civilian employment had not been interrupted)—

''(A) during which such employee is entitled to reemployment rights under chapter 43 of title 38 with respect to the position from which such employee is absent (as referred to in subsection (a)); and

''(B) for which such employee does not otherwise receive basic pay (including by taking any annual, military, or other paid leave) to which such employee is entitled by virtue of such employee's civilian employment with the Government.

''(2) For purposes of this section, the period during which an employee is entitled to reemployment rights under chapter 43 of title 38—

''(A) shall be determined disregarding the provisions of section 4312(d) of title 38; and

''(B) shall include any period of time specified in section 4312(e) of title 38 within which an employee may report or apply for employment or reemployment following completion of service on active duty to which called or ordered as described in subsection (a).

''(c) Any amount payable under this section to an employee shall be paid—

''(1) by such employee's employing agency;

''(2) from the appropriation or fund which would be used to pay the employee if such employee were in a pay status; and

''(3) to the extent practicable, at the same time and in the same manner as would basic pay if such employee's civilian employment had not been interrupted.

''(d) The Office of Personnel Management shall, in consultation with Secretary of Defense, prescribe any regulations necessary to carry out the preceding provisions of this section.

''(e)(1) The head of each agency referred to in section 2302(a)(2)(C)(ii) shall, in consultation with the Office, prescribe procedures to ensure that the rights under this section apply to the employees of such agency.

''(2) The Administrator of the Federal Aviation Administration shall, in consultation with the Office, prescribe procedures to ensure that the rights under this section apply to the employees of that agency.

''(f) For purposes of this section—

''(1) the terms 'employee', 'Federal Government', and 'uniformed services' have the same respective meanings as given them in section 4303 of title 38;

''(2) the term 'employing agency', as used with respect to an employee entitled to any payments under this section, means the agency or other entity of the Government (including an agency referred to in section 2302(a)(2)(C)(ii)) with respect to which such employee has reemployment rights under chapter 43 of title 38; and

''(3) the term 'basic pay' includes any amount payable under section 5304.''.

(c) CLERICAL AMENDMENT.—The table of sections for chapter 55 of title 5, United States Code, is amended by inserting after the item relating to section 5537 the following:

''5538. Nonreduction in pay while serving in the uniformed services or National Guard.''.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to pay periods (as described in section 5538(b) of title 5, United States Code, as amended by this section) beginning on or after the date of enactment of this Act.

Mr. DURBIN. Mr. President, I have offered this amendment before. It has passed the Senate twice. For some reason, as soon as it passes the Senate and goes to a conference committee, it disappears, it dies. I don't understand it. It seems that the Senate by overwhelming numbers supports the concept of this amendment, but somewhere, either in the executive branch of this Government or in the House of Representatives, there is opposition to this amendment.

When I explain the amendment and what it does, you may be as puzzled as I am. Here is what the amendment says in a few words: If you are a Federal employee who is activated to serve in either a Guard or Reserve unit, the Federal Government will make up the difference in pay while you serve.

That is it. You understand, I am sure, as we all do, that we have thousands of men and women across America who are members of Guard and Reserve units who are now being activated and deployed overseas for extended periods of time, interrupting their daily lives and putting some hardship on their families and their businesses, but they serve their country. We find that many employers have decided to do not only the right thing but the patriotic thing and have said: We will stand behind our employees. If they are going to serve America, we will make up any loss of pay which they experience during the period of their service activation.

It is something we all applaud. In fact, the President has given speeches about it. There are not too many Senators who have not given speeches applauding those employers who stand behind these Guard families and Reserve families.

It turns out, when we look at all the employers across America, there is one notable omission. The U.S. Government does not make up the difference in pay between the guardsmen and reservists who are activated. So you find many Federal employees going off to serve our country are serving next to someone from the private sector who has the helping hand of their employer while those employees of our Federal Government are being disadvantaged.

America's Federal employees are a valuable asset to our Nation, not just in the public service they perform every day to keep America's Government going but today about 120,000 Federal employees serve America as well in the National Guard or Reserve—120,000. Indeed, about 17,000 have been mobilized and deployed overseas as I speak—17,000 Federal employees. Unfortunately, their employer, the U.S. Federal Government, lags behind leading businesses and States and local governments, which provide support to their workers who are activated. The Federal Government does not.

The amendment I propose is an opportunity to correct this shortcoming, update the Federal Government's support for these workers, and keep pace

with the high standards set by other employers. For many years now every employer in America has had to consider how to respond to having workers activated in the Guard and Reserve. In times of peace, companies must accommodate staffing, schedule duties for the requirement for workers to be sent for training or drills. The law requires that they do this, and they follow the law.

In wartime, however, workers can be called away for duty for months, sometimes even years. It is a big challenge for employers.

How are they responding? What we have seen since 9/11 is that America's business communities and State and local governments not only provide the employment and reemployment protections required by law, but many of them go above and beyond requirement and patriotically provide even greater benefits and protections for their workers mobilized for duty in the Guard and Reserve. Many of these same businesses and State and local governments continue health insurance and fringe benefits for the families of those Guard and Reserve soldiers who are overseas. Some provide continued full salary for a few months, and more and more employers make up the difference in lost pay that the workers suffered during mobilization.

Covering the pay gap is an important benefit because some Reserve component members suffer a loss of income during mobilization. A recently released Department of Defense study in May of 2004 reveals that 51 percent of the members of our National Guard and Reserve suffer a loss of income when mobilized for long periods of active duty because military pay is less than pay in their civilian jobs. The average reservist loses $368 a month. That calculates out to about $4,300 a year in income. For many families, that $368 a month has a significant impact. Not only must they deal with the absence of someone they love but now on top of it must also tighten the family financial belt a notch or two and endure a decline in perhaps their standard of living, pressure on the family back home, and certainly more pressure on the soldier who worries about them as they serve our country overseas.

While the average monthly income loss was $368, the DOD Status of Forces Survey found that some reservists were losing a lot more. Eleven percent of all reservists report losing income of more than $2,500 a month, $30,000 a year for the year that they are activated and deployed. That is a huge sacrifice to make in the service of your country on top of risking your life every single day.

The Department of Defense operates a program called Employer Support of the Guard and Reserve—ESGR for short. Its purpose is to help employers understand and comply with the new law regarding protections for members of the Reserve. The program highlights and recognizes those employers who do more than the law requires, particularly those who are supportive of the Guard and Reserve.

To publicize these outstanding employers, ESGR lists them on their Web site. If you scroll down the Web site, you will see listed more than 1,000 companies across America, nonprofit organizations, State and local governments, all of which stand behind their Guard and Reserve while the Federal Government does not. Of those that are listed, more than 900 are saluted for providing pay differential. Think of it: 900 companies, 900 units of government that say, We will stand behind that soldier, we will make up the difference in pay.

On the first page, you will see 3M, A.G. Edwards, Abbot Laboratories, ADT Security Service, and Aetna. That is just the beginning. If you scroll down, you will see ICBM. I am proud to say you will see Sears & Roebuck from my State of Illinois, General Motors, United Parcel Service, and Ford Motor Company. In my State of Illinois, not only Sears but Boeing, State Farm Insurance, the State of Illinois, the city of Chicago, and many other Illinois companies, local governments, and institutions cover the pay differential for Reserve and Guard members called to active duty.

More and more American employers are providing a pay differential benefit to their workers who are mobilized for active duty. The number of ''outstanding employers'' recognized on the ESGR Web site for providing pay differential has been steadily growing. Even as the war goes on, more and more companies are stepping up for their people. They are stepping up in the private sector for their employees. How can we in the Federal Government do anything less? While the major employers in America are rushing to support the guardsmen and reservists, our Federal Government has not done so.

In a recently released DOD survey, they asked Reserve component members what factors they took into consideration before they decided to leave the National Guard and Reserve.

Let me show you that list. First, as I mentioned earlier, 51 percent of those in the Reserve who are activated lose income when they are mobilized, and 11 percent lose more than $2,500 per month.

I also mentioned this Web site. The employer-supported Guard and Reserve Web site based out of Arlington, VA, has a long list of over 1,000 employers who helped their activated Guard and soldiers, and 900 of them have provided pay differential for indefinite periods of time, some for 12 months and some for 6 months. But they are standing behind their Guard and Reserve units.

When you take a look at the number of outstanding employers who are making a greater sacrifice for their members of Guard and Reserve units, look at what happened since October of 2003. The number of employers making the pay differential for their employees called to Reserve duty has been increasing. But the U.S. Government is still not one of them. They ask the members of the Reserve and Guard: Why didn't you re-up, why didn't you reenlist? Here are the reasons they gave in a survey: 95 percent said it was too great a family burden, 91 percent said too many activations and deployments, 90 percent said activations-deployments are too long, and 78 percent said income lost.

This is a factor in retention and recruitment. It is a factor in the lifestyles of these families of Guard and Reserve unit members.

How can we come before this Congress asking for additional funds for the soldiers overseas and overlook the obvious? The Federal Government is not providing its share of helping these same soldiers. How can we throw bouquets, as we should, to all of these other employers who meet their responsibility and fail to meet our own?

With recruiting numbers falling short in virtually every branch of service, we need to do everything we can to lessen the burden. By ensuring Federal employees, if they are mobilized, that their families will not have to endure loss of income, we can help reduce one of the major factors that drive people away from the Guard and Reserve.

This measure is not only good employee support, it is not only in keeping with the standards established by other leading employers, it is not only the patriotic thing to do, it is prudent management of our Reserve component forces. Reserve component soldiers face different family and professional situations than Active-Duty soldiers. They must not only perform military duties in addition to their civilian career, they have to shift back and forth between these two responsibilities.

Additionally, these Reserve component soldiers bring to their military service something special: all of their accumulated civilian time and civilian career experience.

In Iraq, thanks to Guard and Reserve forces, we have experienced teachers, construction supervisors, civil administrators, engineers, professionals over a wide range of skills, skills particularly helpful in rebuilding that ravaged nation. This derives from the unique nature of the Reserve component service and its value to the nation we must protect.

This provision has already passed the Senate twice. In October 2003, it was agreed to by vote of 96 to 3 as an amendment to the supplemental for fiscal year 2004. In June of 2004, it was

agreed to by a voice vote as an amendment to the national defense authorization bill. On both occasions, I watched as this measure went into the bipartisan conference committee and disappeared. Apparently someone is opposed to the Federal Government making up the difference in pay for activated Guard and Reserve soldiers. The same Government that is praising businesses for doing this is deep-sixing this provision when it comes time to consider it in the conference committees.

I have just been handed a letter from the Reserve Officers Association of the United States. I am happy to report it to my colleagues in the Senate.

The Reserve Officers Association, representing 75,000 Reserve component members, supports your amendment to the emergency supplemental appropriation to provide an income offset for mobilized Federal employees.

I might add that it goes on to quote an Army Times article dated March 7, 2005, entitled ''Compensating for lost pay a bad idea, reserve head says.'' It inferred in this article that a Reserve pay differential would be unfair to Active-Duty troops.

This retired Major General McIntosh goes on to say:

It is a shame that it is considered OK for Reservists to accept year-after-year pay losses during mobilization on top of the losses from missed promotions, missed contributions to a retirement account, missed incremental pay increases with their civilian job.

Helping to maintain the financial health of our military positively affects everyone by ensuring a strong economic position for the country.

I ask unanimous consent that this letter be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

RESERVE OFFICERS ASSOCIATION
OF THE UNITED STATES,
Washington, DC, April 12, 2005.

Hon. RICHARD J. DURBIN,
U.S. Senate,
Washington DC.

DEAR SENATOR DURBIN: The Reserve Officers Association, representing 75,000 Reserve Component members, supports your amendment to the emergency supplemental appropriation, SR 109–052, to provide an income offset for mobilized federal employees.

The Guard and Reserve face financial challenges whenever they are mobilized and ROA continues to hear stories of lost businesses, increasing credit card debt, and families forced to sell their homes. Many employees pay the difference between the civilian and military salary for mobilized Reservists; yet one of the largest employers, the federal government, does not.

In the Army Times Article, ''Compensating for lost pay a bad idea, reserve head says'', dated March 7, 2005, it was inferred a reserve pay differential would be unfair to active-duty troops. It is a shame that it is considered okay for Reservists to accept year-after-year of pay losses during mobilization on top of the losses from missed promotions, missed contributions to a retirement account, missed incremental pay increases with their civilian job.

Helping to maintain the financial health of our military, positively affects everyone by ensuring a strong economic position for the country. Congressional support for our nation's military men and women in the Guard and Reserve is and always will be appreciated.

Sincerely,
ROBERT A. MCINTOSH,
Major General (Ret), USAFR,
Executive Director.

Mr. DURBIN. Thank you very much, Mr. President. These folks who passed this amendment twice recognized reality.

Since the end of the Cold War, employment of our Reserve Forces has shifted profoundly from being primarily an expansion force to augment Active Forces during major war to the situation we face today where the Department of Defense acknowledges that no significant operation can be undertaken without the Guard and Reserve. Today, more than 40 percent of the forces fighting the global war on terrorism are members of our Guard and Reserve. Our part-time warriors have become full-time protectors of freedom.

The Federal Government is the Nation's largest employer. We must set an example. We must show the initiative. We must stand behind the men and women of the Federal workforce who are risking their lives for us overseas. Similar legislation has been enacted in at least 23 other States.

The Presiding Officer and I had a rare opportunity not long ago. We flew into Baghdad 2 or 3 weeks ago. It was a harrowing trip in the back of a C–130. We were strapped into our combat armor, body armor, with helmets on our head, in the C–130 as it made a corkscrew landing into Baghdad. We shared a wonderful, unforgettable opportunity to meet not only the leadership in the Green Zone but to meet with the marines and soldiers who are there risking their lives.

I sat down across the table from those three marines, recalled the guard unit I met the night before, and I thought to myself, we owe them something, not simply thanks but something significant and something tangible.

For those who work in the Federal workforce, this is something tangible we can do. We can make up the difference in lost pay. We can say to them, worry about coming home safely, but don't worry about whether your family is going to make the mortgage payment and pay the utility bills and keep things together while you are overseas.

That is what this amendment is all about. We express our gratitude in many different ways for the men and women in uniform, but this amendment which I have offered with Senator MIKULSKI, Senator ALLEN, and Senator CORZINE, says to my colleagues, on a bipartisan basis, let us offer to these men and women in uniform not only our thanks and our praise but the financial support they need to give them peace of mind.

Mr. GREGG. Mr. President, the pending Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Tsunami Relief for 2005, H.R. 1268, as reported by the Senate Committee on Appropriations, provides a net $80.582 billion in budget authority and $32.790 billion in outlays in fiscal year 2005. Of this amount, $74.763 billion is for defense activities, and the balance of $5.819 billion is for nondefense activities.

This bill is $1.299 billion less than the President's request in budget authority, but is $0.699 billion more in outlays. Compared to the House-passed bill, the Senate-reported version is $0.759 billion less in budget authority, but is $0.608 billion more in outlays.

Nearly every individual appropriation item in the bill is designated as an emergency. In total, the bill designates $81.592 billion in budget authority as an emergency, the outlays flowing from that budget authority also have the emergency designation; in fiscal year 2005, the associated outlays are estimated to be $32.790 billion. The bill includes rescission totaling $1.010 billion in budget authority only.

For the information of my colleagues, I would like to briefly summarize where the Senate stands in relation to budgetary enforcement of appropriation bills in 2005. Although the conference report on the 2005 budget resolution was not adopted by both the House and Senate, enactment of the 2005 Defense Appropriations bill, P.L. 108–287, section 14007, did give effect to some of the provisions in that resolution, including a 302(a) allocation to the Appropriations Committee and sections 402 and 403 of the 2005 budget resolution relating to emergency legislation and overseas contingency operations.

First, any appropriation for 2005 that is not designated as an emergency or as an overseas contingency would be subject to a 302(f) point of order because appropriations enacted to date have already exceeded the allocation provided for 2005.

Second, of the total amount designated as an emergency in H.R. 1268, $74.763 billion in budget authority is designated as an emergency for defense activities, which is exempt from the emergency designation point of order. Section 403 of the 2005 budget resolution provided that $50 billion was assumed in the resolution for 2005 appropriations for overseas contingency operations, which would not even require an emergency designation. The same law that gave effect to sections 402 and 403 of the 2005 budget resolution also provided $25 billion for overseas contingency operations that were designated an emergency, but the funds were provided in 2004. One way to think about

the $74.763 billion in emergency defense funds provided in this bill is that it exceeds by almost $25 billion in the amount contemplated for overseas contingency operations for fiscal year 2005 in the 2005 budget resolution.

Third, the remaining amount that is designated as an emergency in H.R. 1268—$6.829 billion—is all for nondefense activities. As a result, any member of the Senate may use the emergency designation point of order under section 402 of the 2005 budget resolution to question, or strike, the emergency designation attached to each individual nondefense appropriation item in the bill or an amendment thereto. Such a point of order can be waived with 60 votes. If the point of order is not waived, the designation would be struck from the bill or amendment, leaving only the appropriation, which, absent its emergency designation, which would have prevented the item from ''counting'' for budget enforcement purposes, would then count against the committee's allocation, meaning a 302(f) point of order would lie against the bill or amendment.

May I also point out to my colleagues that the emergency designation point of order requires that if ''a provision of legislation is designated as an emergency requirement . . . the committee report and any joint explanatory statement of managers accompanying that legislation shall include an explanation of the manner in which the provision meets the criteria,'' which are defined as follows: ''Any such provision is an emergency requirement if the underlying situation poses a threat to life, property, or national security and is—(I) sudden, quickly coming into being, and not building up over time; (II) an urgent, pressing, and compelling need requiring immediate action; (III) . . . unforeseen, unpredictable, and unanticipated; and (IV) not permanent, temporary in nature'' with the proviso that an ''emergency that is part of an aggregate level of anticipated emergencies, particularly when normally estimated in advance, is not unforeseen.'' I note that the committee report does not include any discussion of how each individual item in this bill that is designated as an emergency meets all of these criteria.

This supplemental appropriations bill has been requested by the President, and the Congress has responded. It will be conferenced quickly and signed by the President. I know the temptation is strong, almost irresistible, for my colleagues to attempt to amend the bill with extraneous items that may be quite important—but this is not the place for them. I will strongly object to making this supplemental appropriations bill ''Christmas in April'' for various nondefense discretionary items and for new or expanded mandatory spending.

I commend the distinguished Chairman of the Appropriations Committee for bringing this legislation before the Senate, and I ask unanimous consent that a table displaying the Budget Committee scoring of the bill with comparisons to the House-passed bill and the President's request be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

H.R. 1268, 2005 EMERGENCY SUPPLEMENTAL—SPENDING COMPARISONS—SENATE-REPORTED BILL

[Fiscal year 2005, in millions of dollars]

	Defense (050)	Non-Defense	Total
Senate-reported bill:			
Budget authority	74,763	5,819	80,582
Outlays	31,605	1,185	32,790
House-passed:			
Budget authority	77,175	4,166	81,341
Outlays	31,497	685	32,182
President's request:			
Budget authority	75,315	6,566	81,881
Outlays	31,219	902	32,121
Senate-reported bill compared to:			
House-passed:			
Budget authority	−2,412	1,654	−759
Outlays	108	500	608
President's request:			
Budget authority	−552	−747	−1,299
Outlays	386	283	669

Note: Details may not add to totals due to rounding. Totals adjusted for consistency with scorekeeping conventions.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. VOINOVICH. Mr. President, I ask unanimous consent to speak as in morning business for up to 15 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXCHANGE RATE OF CHINESE CURRENCY

Mr. VOINOVICH. Mr. President, I rise today to discuss last Wednesday's vote against tabling the Schumer amendment. The Schumer amendment would call on China to move toward a flexible exchange rate or face corrective tariffs on their exports to the United States. Passing the amendment would be a responsible way for the Senate to address the significant problems caused by China's fixing the exchange rate of its currency, known as the renminbi or yuan, to the United States dollar.

I have been concerned about China's trade policies for some time. I am particularly concerned about the undervaluation of the Chinese currency caused by China's currency peg. Presently, the yuan is undervalued by between 15 and 40 percent. This systematic undervaluation of China's currency makes China's exports less expensive and puts U.S. workers at a severe disadvantage. As a result, the United States has lost thousands of manufacturing jobs due to unfair competition with China's exports whose prices are artificially low on account of the undervaluation of the yuan. This is both unfair and it is unacceptable.

China's undervalued currency also harms China's economy. The Chinese people pay much higher prices for their imports and China is presently forced to keep its interest rates artificially low to support the currency peg, which is causing inefficient investment and excessive bank lending in China. Moreover, this undervaluation of the Chinese currency is fueling the dramatic rise of the United States' trade deficit with China and distorting trade relationships around the globe. Currently, we have a $162 billion trade deficit with China, the largest that we have with any country in the world.

Accordingly, supporting efforts to get China to move forward toward a flexible exchange rate is consistent with supporting a more open and efficient global marketplace.

I was recently in China and had the opportunity to meet with Premier Wen Jiabao, who is a member of the Politburo Standing Committee of the Chinese Communist Party's Central Committee. I made precisely these points to him: That it is in China's best interest to move toward a flexible exchange rate, and that the Chinese currency peg benefits neither China nor the United States. I urged him to support moving China toward a flexible exchange rate.

One of the primary arguments Chinese officials have made to defend China's currency peg is that its banking system is not sufficiently developed for China to have a flexible exchange rate, an argument that Secretary of the Treasury John Snow also makes on occasion when he gives reasons why he is not pushing them harder for them to stop fixing their currency.

I have an article from The Economist that explains in detail why exchange rate flexibility is in China's best interest, along with the best interest of the United States. The title of the article from March 19, 2005 is: ''China Ought to Allow More Flexibility in Exchange Rate, Sooner Rather Than Later.''

I ask unanimous consent to have it printed in the RECORD.

There being no objection, the material was ordered to be printed in the Record, as follows:

[From the Economist, Mar. 19, 2005]

ECONOMICS FOCUS—PUTTING THINGS IN ORDER

CHINA OUGHT TO ALLOW MORE FLEXIBILITY IN ITS EXCHANGE RATE, SOONER RATHER THAN LATER

The Chinese government says that it intends, eventually, to make its exchange rate more flexible and to liberalise capital controls. In the past year or so, it has already eased some controls on capital outflows and officials have said recently that they will open the capital account further this year. On the exchange rate, much less has been done. The yuan has been pegged to the dollar for a decade; and the government is loath to change much until the country's banking system is in healthier shape: this week the prime minister, Wen Jiabao, said that a shift would be risky. But is China putting the cart before the horse? Other countries' experience

suggests that it is, and that it is better to loosen the exchange rate before, not after, freeing capital flows.

Most commentary on the Chinese yuan tends to focus on the extent to which it is undervalued. It has been pegged to the dollar for a decade, and there is a widespread belief that it is unfairly cheap. In fact, this is not clear-cut. For instance, the increase in China's official reserves is often held up as evidence that the yuan is undervalued. Yet this largely reflects speculative capital inflows lured by the expectation of a currency revaluation. Such inflows could easily be reversed. Given the huge uncertainty about the yuan's correct level, it makes more sense for China to make its currency more flexible than to repeg it at a higher rate. Greater flexibility would be in China's interest: it would afford the country more independence in monetary policy and a buffer against external shocks. By fixing the yuan to the dollar, China has been forced to hold interest rates lower than is prudent, leading to inefficient investment and excessive bank lending.

The problem is that Chinese officials, along with many foreign commentators, tend to confuse exchange-rate flexibility and capital-account liberalisation. A commonly heard argument is that China cannot let its exchange rate move more freely before it has fixed its dodgy banking system, because that could encourage a large outflow of capital. A recent paper* by Eswar Prasad, Thomas Rumbaugh and Qing Wang, all of the International Monetary Fund, argues that, on the contrary, greater exchange-rate flexibility is a prerequisite for capital-account liberalisation.

Flexibility does not necessarily mean a free float. Initially, China could allow the yuan to move within a wider band, or peg it to a basket of currencies rather than the dollar alone. The authors first knock on the head the notion that the banking system must be cleaned up before allowing the exchange rate to move. Although financial reform is certainly essential before scrapping capital controls, the authors argue that with existing controls in place the banking system is unlikely to come under much pressure simply as a result of exchange-rate flexibility. Banks' exposure to currency risks is currently low and flexibility alone is unlikely to cause Chinese residents to withdraw their deposits or provide channels for them to send their money abroad.

The authors argue that it is also not necessary to open the capital account to create a proper foreign-exchange market. Because China exports and imports a lot, with few restrictions on currency convertibility for such transactions, it can still develop a deep, well-functioning market without a fully open capital account. A more flexible currency would itself assist the development of such a market. For example, firms would have more incentive to hedge foreign-exchange risks, encouraging the development of suitable instruments. The experience of greater exchange-rate flexibility would also help the economy to prepare for a full opening of the capital account. While capital controls shielded the economy from volatile flows, China would have time for reforms to strengthen the banking system.

China instead seems intent on relaxing capital controls before setting its exchange rate free. This ignores the history of the past decade or so: the combination of fixed exchange rates and open capital accounts has caused financial crises in many emerging economies, especially when financial systems are fragile. China would therefore be wise to move cautiously in liberalising its capital account, but should move more rapidly towards greater exchange-rate flexibility.

YUAN AT A TIME

The Chinese have tried to offset the recent upward pressure on the yuan by easing controls on capital outflows, for instance by allowing firms to invest abroad. While this is in line with the eventual objective of full capital-account liberalisation, it runs the risk of getting reforms in the wrong order. An easing of controls on outflows may even be counterproductive if it stimulates larger inflows. By making it easier to take money out of the country, investors may be enticed to bring more in.

Capital controls are not watertight. So although China will continue to be protected from international flows, its controls can be evaded through the under- or over-invoicing of trade. Multinationals can also use transfer prices (the prices at which internal transactions are accounted for) to dodge the rules. Despite extensive controls, a lot of capital left China during the Asian crisis in the late 1990s; recently, lots of short-term money has flowed in. Controls are likely to become even more porous as China becomes more integrated into the global economy. Thus, waiting for speculative and other inflows to ease before changing the exchange-rate regime might not be a fruitful strategy.

China ought to move to a flexible exchange rate soon, while its capital controls still work. Experience also suggests that it is best to loosen the reins on a currency when growth is strong and the external account is in surplus. China should take advantage of today's opportunity rather than being forced into change at a much less convenient time.

Mr. VOINOVICH. I also urge my colleagues to read a paper by the staff of the International Monetary Fund entitled ''Putting the Cart Before the Horse: Capital Account Liberalization and Exchange Rate Flexibility in China.'' That is a January publication by the IMF. I would have asked it be printed in the RECORD, but it is 30 pages long and I do not want to burden the CONGRESSIONAL RECORD with 30 pages. If my colleagues are interested in getting a copy of that article, I would be more than happy to supply it.

These papers show how exchange rate flexibility will facilitate economic development in China and why China does not have to wait until its banking system is more fully developed to move toward a flexible exchange rate.

Moreover, they note that China does not need to immediately float its currency to remedy the problems caused by an undervalued currency. All China needs to do is take steps in that direction, such as adopting a wider exchange rate ban or pegging the exchange rate to a basket of currencies instead of the dollar alone, for example, a basket of currencies of the ASEAN countries, including Japan. Either of these policies would likely cause an upward revaluation of the yuan. Unfortunately, the Bush administration has refused to take meaningful action to get China to move toward a flexible exchange rate.

Last year—I remember it well—on September 8—that happens to be my wedding anniversary—four of our leaders in this country summarily said there is no problem in terms of the exchange rate and they refused to go forward with something called a 301 investigation. The 301 investigation is allowable under the WTO. That is the way you bring into question whether somebody is following the rules. They said, no, we are not going to do it. Imagine what kind of a message that sent to the leaders of the Chinese Government, that we were not even willing to look at a 301 investigation. That was a mistake.

The United States-China Economic and Security Review Commission, a bipartisan commission established by Congress to examine China's trade policies, has concluded that China's exchange rate policy violates both its International Monetary Fund and World Trade Organization obligations. The Commission said China is intentionally manipulating its currency for trade advantage in violation of its trading agreements. Yet the administration refuses to act. Unless the United States exerts direct pressure on China, however, it is unlikely that China will address the undervaluation of its currency. During my meeting with Premier Wen, he said, We know there is a problem, but we are not sure when we will do it.

I can say they will not do it unless we continue to put pressure on them to do it and convince them that, again, it is not only in our best interest but their best interest if they want to be a player in the global marketplace.

That is why Wednesday's vote was important. It showed the Senate is willing to take matters into its own hands and take effective steps to address this serious problem if the administration continues to refuse to do so. No one wants to see tariffs imposed on Chinese exports, but the United States needs to take action to address China's unfair exchange rate policy. I hope Wednesday's vote will motivate the administration to do more to get China to address the serious market distortions caused by the undervaluation of China's currency.

I believe in fair trade and improving our trading relationship with China. I was one of the leaders in the Senate to approve normal trade relations with China. I wrote articles in Ohio magazines in support of trade with China. In fact, I gave a copy of an article to Premier Wen to prove to him I am not a protectionist, I am a free trader.

But I also believe in fair trade. It represents a huge potential market for our exports. If we want to have trade with China, though, China must be a better trading partner, starting with its exchange rate policies. Furthermore, if we want to have a free and fair global trading system, China must take actions to move toward a flexible exchange rate. I, therefore, believe

Wednesday's vote was a responsible step aimed at advancing global trade and, in particular, America's long-term trading relationship with China.

I say to the Presiding Officer, as you know, there was an agreement made that the Schumer amendment would be pulled from the foreign relations authorization bill, but that it would be considered again. There is an agreement, in the form of a UC, that we will be bringing it up again. I hope before the Senate considers voting on that amendment with an up-or-down vote the administration will get the message that they have to do something to show a little bit of spirit and indicate to us that they understand and know that the Senate and the House of Representatives are serious about moving forward to deal with this problem.

I also think the vote on this particular amendment sends a strong signal, a signal to Premier Wen and to President Hu, that we are concerned about this issue. I know they are concerned about jobs. We are concerned about jobs. They have to understand that. I am hoping instead of the administration looking at this as some kind of a negative action on the part of the Senate, that they will see that we are helping them communicate the message to Chinese officials that we are serious about this problem.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. CHAMBLISS). The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. INHOFE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. INHOFE. Mr. President, I ask unanimous consent that I be recognized for up to 30 minutes as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

GLOBAL CLIMATE CHANGE

Mr. INHOFE. Mr. President, today I continue my series of talks on the four pillars of climate alarmism. Last week I showed the first pillar, the 2001 climate change report by the National Academy of Sciences. It was really a farce, and we documented it very well. The same is true of the 2001 report of the IPCC. That is the Intergovernmental Panel on Climate Change. It supposedly provides irrefutable evidence of the global warming consensus. Simply put, it does not, as my speech today will demonstrate.

The media greeted the release of the IPCC's Third Assessment Report with the predictable hysteria with which they normally respond to things such as this. From the Independent newspaper of London:

> In a report published today by the United Nations Intergovernmental Panel on Climate Change (IPCC), hundreds of the world's leading scientists give their unqualified support to the view that global warming is real and that the release of manmade greenhouse gases is largely responsible.

It continues:

> The latest three-volume report, amounting to 2,600 pages of detailed analysis, leaves the reader in little doubt that the scientific uncertainties of the previous decade are being resolved in favor of an emerging, and increasingly pessimistic consensus.

The preceding quotes, and many that followed in the Independent's report, came from the Third Assessment's ''Summary for Policymakers.'' In fact, the media based much, if not all, of its reporting on the summary itself. It did this even though in some respects the summary distorted the actual context of the full report.

The National Academy of Sciences, in its 2001 report, criticized both how the summary was written and how the media portrayed it, as in this chart No. 1:

> The IPCC Summary for Policymakers could give an impression that the science of global warming is settled, even though many uncertainties still remain.

This clearly contradicts the claim of the Independent that there is little doubt that the scientific uncertainties in the previous decade are settled.

Another claim the media featured prominently was that temperature increases over the last century are unprecedented, at least when considered on a time scale of the last 1,000 years. According to the IPCC, the 1990s were the warmest decade on record, and 1998 was the warmest year since temperature records began in 1861. The basis for this claim is a so-called hockey stick graph, shown in chart No. 2. This is an interesting one because this plots out the temperatures over a period of time and then shows the blade, when it gets to be the 19th century, coming up.

The graph was constructed by Dr. Michael Mann of the University of Virginia and his colleagues using a combination of proxy data and modern temperature records. The hockey stick curve showed a gradual cooling period around 1400 A.D., which is the hockey stick handle—that is the horizontal line—then a sharp warming starting about 1900, the hockey stick blade. Its release was revolutionary, overturning widespread evidence adduced over many years confirming significant national variability long before the advent of SUVs. The IPCC was so impressed that the hockey stick was featured prominently in its Third Assessment Report of 2001.

As Dr. Roy Spencer, the principal research scientist at the University of Alabama, noted:

> This was taken as proof that the major climate event of the last 1,000 years was the influence of humans in the 20th century. One of its authors, Dr. Michael Mann, confidently declared in 2003 that the hockey stick ''is the indisputable consensus of the community of scientists actively involved in the research of climate variability and its causes.''

The hockey stick caused quite a stir, not just in the scientific community but also in the world of politics. It galvanized alarmists in their push for Kyoto. It is supposedly ironclad proof that manmade greenhouse gas emissions are warming the planet at an unsustainable degree. But here again, one of the essential pillars of the alarmists appears to be crumbling.

Two Canadian researchers have produced the most devastating evidence to date that the hockey stick is bad science. Before I describe their work, I want to make a prediction. The alarmists will cry foul, saying this critique is part of an industry conspiracy. And true to form, they will avoid discussion of the substance and engage in personal attacks. That is because one of the researchers, Stephen McIntyre, is a mineral exploration consultant. Dr. Mann already has accused them of having a conflict of interest. This is nonsense.

First, Stephen McIntyre and his colleague, Ross McKitrick, an economist with Canada's University of Guelph, received no outside funding for their work. They are both very well recognized professional people. Second, they published their peer-reviewed critique in geophysical research letters. This is no organ of big oil, but an eminent scientific journal, the same journal, in fact, which published the version of Dr. Mann's hockey stick that appeared in the IPCC's Third Assessment Report. Apparently the journal's editor didn't see much evidence of bias. The remarks of one editor are worth quoting in full:

> S. McIntyre and R. McKitrick have written a remarkable paper on a subject of great importance. What makes the paper significant is that they show that one of the most widely known results of climate analysis, the ''hockey stick'' diagram of Mann [and company], was based on a mistake in the application of a mathematical technique known as principle component analysis.

Further, he said:

> I have looked carefully at the McIntyre and McKitrick analysis, and I am convinced that their work is correct.

What did McKitrick and McIntyre find? In essence, they discovered that Dr. Mann misused an established statistical method called principal components analysis, PCA. As they explained, Mann created a program that ''effectively mines a data set for hockey stick patterns.'' In other words, no matter what kind of data one uses, even if it is random and totally meaningless, the Mann method always produces a hockey stick. After conducting some 10,000 data simulations, the result was nearly always the same. ''In over 99 percent of cases,'' McIntyre and McKitrick wrote, ''it produced a hockey stick shaped PCI series.'' Statistician Francis Zwiers of Environment Canada, a government agency, says he

agrees that Dr. Mann's statistical method ''preferentially produces hockey sticks when there are none in the data.'' Even to a non-statistician, this looks extremely troubling.

But that statistical error is just the beginning. On a public web site where Dr. Mann filed data, McIntyre and McKitrick discovered an intriguing folder titled ''BACKTO_1400–CENSORED.'' What McIntyre and McKitrick found in the folder was disturbing: Mann's hockey stick blade was based on a certain type of tree—a bristlecone pine—that, in effect, helped to manufacture the hockey stick.

Remember, the hockey stick shows a relatively stable climate over 900 years, and then a dramatic spike in temperature about 1900, the inference being that man-made emissions are the cause of rising temperatures. So why is the bristlecone pine important? That bristlecone experienced a growth pulse in the Western United States in the late 19th and early 20th centuries. However, this growth pulse, as the specialist literature has confirmed, was not attributed to temperature. So using those pines, and only those pines, as a proxy for temperature during this period is questionable at best. Even Mann's co-author has stated that the bristlecone growth pulse is a ''mystery.''

Because of these obvious problems, McIntyre and McKitrick appropriately excluded the bristlecone data from their calculations. What did they find? Not the Mann hockey stick, to be sure, but a confirmation of the Medieval Warm Period, which Mann's work had erased.

This is very interesting because the chart will show, if you would include the calculation—what we refer to as the Medieval Warm Period which, as everybody now understands, is a reality—then temperatures at that time exceeded the temperatures in the blade of the hockey stick. In fact, when I was over in Milan, Italy, at one of the big meetings, I pointed this out as evidence it was done, and done intentionally. Why would he start with the year when you have a level line going for 900 years and totally ignore the Medieval Warming Period, at which time the temperatures of the Earth exceeded the temperatures in this century?

As the CENSORED folder revealed, Mann and his colleagues never reported results obtained from calculations that excluded the bristlecone data. This appears to be a case of selectively using data—that is, if you don't like the result, remove the offending data until you get the answer you want. As McIntyre and McKitrick explained, ''Imagine the irony of this discovery . . . Mann accused us of selectively deleting North American proxy series. Now it appeared that he had results that were exactly the same as ours, stuffed away in a folder labeled CENSORED.''

McIntyre and McKitrick believe there are additional errors in the Mann hockey stick. To confirm their suspicion, they need additional data from Dr. Mann, including the computer code he used to generate the graph. But Dr. Mann refuses to supply it. As he told the Wall Street Journal, ''Giving them the algorithm would be giving in to the intimidation tactics that these people are engaged in.''

What we are talking about is he refused to give him the necessary computerized data to come to the conclusion. There is no way of analyzing it.

Who are ''these people''? And what ''intimidation tactics''? Mr. McIntyre and Mr. McKitrick are trying to find the truth. What is Dr. Mann trying to hide?

For many scientists, McIntyre and McKitrick's work is earth-shattering. For example, Professor Richard Muller of the University of California at Berkeley recently wrote in the MIT Technology Review that McIntyre and McKitrick's findings ''hit me like a bombshell, and I suspect it is having the same effect on many others. Suddenly the hockey stick, the poster-child of the global warming community, turns out to be an artifact of poor mathematics.'' Dr. Rob van Dorland, of the Royal Netherlands Meteorological Institute, and an IPCC lead author, said, ''The IPCC made a mistake by only including Mann's reconstruction and not those of other researchers.'' He concluded that unless the error is corrected, it will ''seriously damage the work of the IPCC.''

Or consider Dr. Hans von Storch, an IPCC contributing author and internationally renowned expert in climate statistics at Germany's Center for Coastal Research, who said McIntyre and McKitrick's work is ''entirely valid.'' In an interview last October with the German Newspaper Der Spiegel, Dr. von Storch said the Mann hockey stick ''contains assumptions that are not permissible. Methodologically it is wrong: rubbish.'' He stressed that, ''it remains important for science to point out the erroneous nature of the Mann curve. In recent years it has been elevated to the status of truth by the U.N. appointed science body, the Intergovernmental Panel on Climate Change, IPCC. This handicapped all that research which strives to make a realistic distinction between human influences and climate and natural variability.''

If McIntyre and McKitrick's work isn't convincing enough, consider the recent paper published in the February 10 issue of Nature. The paper, authored by a group of Swedish climate researchers, once again undercuts the scientific credibility of the Mann hockey stick. The press release for the study by the Swedish Research Council says, ''A new study of climate in the Northern Hemisphere for the past 2000 years shows that natural climate change may be larger than generally thought.''

According to the paper's authors, the Mann hockey stick does not provide an accurate picture of the last 1,000 years. ''The new results,'' they wrote, ''show an appreciable temperature swing between the 12th and 20th centuries, with a notable cold period around AD 1600. A large part of the 20th century had approximately the same temperature as the 11th and 12th centuries.''

In other words, here's evidence of the Medieval Warm Period and the Little Ice Age, demonstrating that climate, long before the burning of fossil fuels, varied considerably over the last 2,000 years. The researchers note that changes in the sun's output and volcanic eruptions appear to have caused considerable natural variations in the climate system. ''The fact that these two climate evolutions,'' they contend, ''which have been obtained completely independently of each other, are very similar supports the case that climate shows an appreciable natural variability—and that changes in the sun's output and volcanic eruptions on the earth may be the cause.''

Another important development chipping away at the so-called scientific consensus has to do with economics and statistics, and how both are used by the IPCC.

To determine how man-made greenhouse gases might affect the climate over the next century, the IPCC had to predict 100 years' worth of greenhouse gas emissions. Predicting emissions rates depends on several factors, including population growth, technological advances, and future economic growth rates in developed and developing countries.

Based on these and other factors, the IPCC's Third Assessment Report projected an average global temperature increase by 2100 ranging between 1.4 to 5.8 degrees Celsius, which is about 2.7 to 10.4 degrees Fahrenheit. This temperature range was determined from several different emission scenarios. In each of those scenarios, the IPCC arbitrarily assumed that incomes in poor countries and rich countries would converge by the year 2100. According to Warren McKibbin of Australia National University's Center for Applied Macroeconomics and the Brookings Institution, this assumption is unwarranted. Even if it were to happen, McKibbin and his colleagues write:

> The empirical literature suggests that the rate of convergence in income per capita would be very slow.

Even the IPCC agrees, stating:

> It may well take a century (given all the other factors set favorably) for a poor country to catch up to [income] levels that prevail in the industrial countries today, never mind the levels that might prevail in affluent countries 100 years in the future.

Nevertheless, the IPCC assumed poor and rich countries would achieve parity by the end of the century. To measure that growth over time, the IPCC had to compare what income levels look like today. It did that by using market exchange rates, but this raises a major problem. Relying on exchange rates fails to account for price differences between countries. This has the effect of vastly overstating differences in wealth. ''This comparison is valid,'' says Ian Castles, formerly head of Australia's National Office of Statistics, now with the National Center of Development Studies at Australian National University.

Castles and his colleague David Henderson, former chief economist for the Organization of Economic Cooperation and Development, now of the Westminster Business School, discovered the IPCC's error last year and have published their findings in the distinguished scientific journal Energy and Environment.

Castles and Henderson note that using exchange rates is invalid because it is based on the assumption that ''[a] poor Bangladeshi family has converted the whole of its income into foreign currency, and spent it on goods and services at average world prices rather than [at much lower] Bangladeshi prices.''

Through the use of exchange rates, the IPCC concluded the average income of rich countries right now is 40 times higher than the average income in developing countries in Asia and 12 times higher than the average income in other non-Asian developing countries.

As my colleagues can see, there is a huge gap, which raises a significant point. If the initial income gap is large, then poor countries will have to grow incredibly fast to catch up. According to the IPCC, the greater the economic growth, the greater the emissions released into the atmosphere, and hence higher temperatures.

The IPCC, as the Economist Magazine wrote, is simply wrong. They said:

> The developing-country growth rates yielded by this method [market exchange rates] are historically implausible, to put it mildly. The emissions forecasts based on those implausibly high growth rates are accordingly unsound.

Castles and Henderson have shown convincingly that the IPCC's temperature range rests on a majority of major economic error and, therefore, is wildly off the mark. Because of this error, even the IPCC's low end emission scenario is implausible. As the Economist Magazine wrote:

> But, as we pointed out before, even the scenarios that give the lowest cumulative emissions assume that incomes in the developing countries will increase at a much faster rate over the course of the century than they have ever done before.

The Economist continued:

> Disaggregated projections published by the IPCC say that—even in the lowest-emission scenarios—growth in poor countries will be so fast that by the end of the century Americans will be poorer on average than South Africans, Algerians, Argentines, Libyans, Turks and North Koreans.

And I do not think any of us are ready to accept that.

Let us get a better sense of why that is odd. Under the IPCC's low-end scenario, the amount of goods and services produced per person in developing countries in Asia would increase 70-fold by 2100, and increase nearly 30-fold for other developing countries. To put that in perspective, the United States only achieved a 5-fold increase in per capita income growth in the 19th century, and Japan achieved a nearly 20-fold increase in the 20th Century.

The IPCC's mistakes are fatal. Jacob Ryten, a leading figure in the development, evaluation, and implementation of the United Nations International Comparisons Programme, said the IPCC suffers from ''manifest ignorance of the conceptual and practical issues involved in developing and using intercountry measures of economic product.''

The Economist said that the IPCC's method proved it was guilty of dangerous economic incompetence.

Castles and Henderson, along with the Economist and other scientists, have pressed the IPCC to abandon its use of market exchange rates in its upcoming Fourth Assessment Report. They say this is essential to provide a more accurate projection of future emissions. Thus far, the IPCC has ignored their request, but this is no surprise. The IPCC has become politicized and appears more intent on pursuing propaganda over science.

Consider the case of Dr. Christopher Landsea, the world's foremost expert on hurricanes. Dr. Landsea accepted an invitation to provide input on Atlantic hurricanes for the IPCC's Fourth Assessment Report due out in 2007. But over time, Dr. Landsea realized that certain key members of the IPCC were bent on advancing a political agenda rather than providing an objective, fact-based understanding of climate change. As a result, he resigned from the IPCC process.

Dr. Landsea was outraged that Dr. Kevin Trenberth, the lead author of observations for the upcoming Fourth Assessment, and other scientists participated in a politically charged press conference at Harvard University on the supposed causal link between global warming and extreme weather events. The press conference was promoted this way:

> Experts to warn global warming likely to continue spurring more outbreaks of intense hurricane activity.

In other words, they were trying to blame these catastrophes that come up on what they consider to be global warming.

As Dr. Landsea explained, the topic was bogus. It has no scientific basis, and none of the scientists who participated had any expertise in the matter.

In his resignation letter, Dr. Landsea wrote:

> To my knowledge, none of the participants in that press conference had performed any research on hurricane variability, nor were they reporting on any new work in the field . . . It is beyond me why my colleagues would utilize the media to push an unsupported agenda that recent hurricane activity has been due to global warming.

What is the real state of the science on this topic?

> All previous and current research in the area of hurricane variability has shown no reliable, long-term trend in the frequency or intensity of tropical cyclones, either the Atlantic or any other basin.

Dr. Landsea wrote, and this is in the chart:

> Moreover, the evidence is quite strong and supported by most recent credible studies that any impact in the future from global warming upon hurricanes will likely be quite small.

Dr. Landsea noted that the most recent science shows that ''by around 2080 hurricanes may have winds and rainfall about 5 percent more intense than today. It has been proposed that even this tiny change may be an exaggeration as to what may happen by the end of the 21st Century.''

Dr. Landsea concluded that because the IPCC process has been compromised, resigning was his only option. He said:

> I personally cannot in good faith continue to contribute to a process that I view as both being motivated by preconceived agendas and being scientifically unsound.

As with Castles and Henderson, the IPCC leadership has brushed off Dr. Landsea's concerns. This is outrageous. In doing so, the IPCC is seriously undermining its credibility.

One can only hope that the IPCC will change its ways. Otherwise, we can expect yet another assessment report that is unsupported by facts and science.

It is no surprising that alarmists want to fabricate the perception that there is consensus about climate change. We know the costs of this would be enormous. Wharton Econometrics Forecasting Associates estimates that implementing Kyoto would coast an American family of four $2,700 annually. Acknowledging a full-fledged debate over global warming would undermine their agenda. And what is that agenda? Two international leaders have said it best. Margot Wallstrom, the EU's Environment Commissioner, states that Kyoto is ''about leveling the playing field for big businesses worldwide.'' French President Jacques Chirac said during a speech at the Hague in November 2000 that Kyoto represents ''the first component of an authentic global governance.''

Look at this and you realize what is motivating these people. People ask me if science is not behind this and

there is that much damage that can be effected, what is the motive? That is what the motive is.

Facts and science are showing that the catastrophic global warming consensus does not exist. The IPCC has been exposed as a political arm of U.N.'s Kyoto Protocol, with a mission to prop up its flawed scientific conclusions.

The Mann hockey stick, the flagship of the IPCC's claims that global warming is real, has now been thoroughly discredited in scientific circles. Projections of future carbon emissions—which drive temperature model conclusions—have been proven to be based on political decisions that, by the end of the century, countries like Bangladesh will be as wealthy, or wealthier, than the United States.

A world renowned scientist has just resigned from the IPCC because it is too politicized, saying that the IPCC plans to make claims that contradict scientific understanding. Increasingly, it appears that the scientific case for catastrophic global warming is a house of cards that will soon come tumbling down.

Despite this, there are still some who choose to ignore science.

After I spoke about this last week, Duke Energy CEO Paul Anderson advocated a tax on carbon dioxide and other greenhouse gases. In doing so, the company has seemingly bought into the spurious notion that the science is settled. But perhaps it is not. Unfortunately, to some global warming advocates, the science is irrelevant.

As Myron Ebell of the competitive Enterprise Institute says:

> Duke Energy has now admitted that the costs will be significant. But the fact is it will only be expensive for their competitors. Nuclear plants don't emit carbon dioxide and Duke is already one-third nuclear generation. Moreover, the company has announced plans to build even more nuclear plants, giving it an even bigger competitive edge.

This is a lot of scientific stuff. I have said several times since I became chairman of the Environment and Public Works Committee that the first thing we did was study this because it was assumed that global warming is taking place and anthropogenic gases are causing it, methane and CO_2, only to find out that is not the case. Virtually all the science since 1999 has refuted these assertions. I think we have an obligation to recognize these far-left environmentalist extremist groups are huge contributors to campaigns and they have a lot of political power, but in the long run we have to be more concerned about America than we are about political campaigns.

Mr. President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MCCONNELL. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Kentucky is recognized.

MORNING BUSINESS

Mr. MCCONNELL. Mr. President, I ask unanimous consent there now be a period of morning business, with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

TRIBUTE TO DOUG FERTIG

Mr. FRIST. Mr. President, I rise today to pay tribute to a dedicated member of the Senate family, Doug Fertig, Human Resources Director of the Senate Sergeant at Arms office, who passed away on April 2, 2005, at the age of 54.

Doug Fertig came to the Sergeant at Arms in 1996 facing a formidable challenge to standardize processes, establish pay bands and job classifications and a leave accountability system to comply with the Congressional Accountability Act. Doug Fertig's dedication, knowledge and compassion to the Senate Sergeant at Arms organization turned the Human Resources Department into the professional organization it is today.

Doug Fertig was born in Columbus, OH, received his B.A. from Oberlin College in 1972, and held Masters Degrees from Stanford University and Ohio State University. Doug Fertig was a dedicated family man who was very proud of his wife Susan, daughter Emily, and son Andrew. He was passionate about education and any sport involving Ohio State University.

During his tenure with the Senate Sergeant at Arms, Doug Fertig was faced with many challenges, including anthrax in October 2001 and ricin in February 2004.

Because of Doug's experience and calm demeanor, the challenges of relocating the Human Resources operation and continuing to serve the Senate community were met with calm leadership and competent direction and stability.

Today we honor Doug for his dedication to the Senate, his love for his family, his compassion for the staff in the Human Resources department and the Senate Sergeant at Arms organization. His passing leaves the Senate community with a profound sense of loss. I hope it is of comfort to his family that so many people share their loss at this sad time.

TRIBUTE TO TOM STONEBURNER

Mr. REID. Mr. President, I rise today to recognize the life and work of Tom Stoneburner, a Nevada labor leader who passed away on February 21, 2005.

A veteran of the U.S. Marine Corps, Tom served as a deputy sheriff in Mono County, CA, before moving to Nevada in 1969. During his 36 years in Nevada, he became one of the most effective labor leaders in the State, fighting tirelessly on behalf of the working people of Nevada. As a casino security guard, he successfully organized union elections for guards at two Reno hotel casinos and later went on to serve as president of the United Plant Guard Workers.

Tom was dedicated to helping all of Nevada's workers. That is why in 1997 he formed the Alliance for Workers Rights, an organization expressly committed to advocating on behalf of workers in Nevada who had no union representation. Through his leadership of this organization, Tom successfully lobbied for strengthened State safety protections after several workers died in industrial accidents in 1998 and 2001.

His passion and determination in protecting the rights of Nevada's workers belied the soft-spoken and mild-mannered nature that many close to him have recalled since his passing. Tom's example has undoubtedly inspired many others who will carry on his work, including his wife Kathy who will continue his important work at the Alliance for Worker's Rights.

Mr. President, please join me in recognizing Tom Stoneburner's contributions to Nevada workers and in sending condolences to Tom's family for their loss.

THE DEATH OF POPE JOHN PAUL II

Mr. DORGAN. Mr. President, with the passing of Pope John Paul II, I take this opportunity to pay homage to one of the great spiritual leaders of our time. He was a truly gifted religious leader who touched people all over the world: young and old, rich and poor, the powerful and the underprivileged, Catholics and non-Catholics.

Pope John Paul II defied political labels and was constant in his beliefs. For him, defending life included opposing capital punishment and recourse to war as well as opposing abortion. Defending families meant a commitment to faith and moral uprightness, but it also meant standing up for just wages and a social safety net. These beliefs and convictions made him a respected leader all over the world.

One of John Paul's strengths was reaching out to young adults. World Youth Day was established by the Pope on Palm Sunday, 1984. He invited the Youth of Rome to celebrate the Holy Year of Redemption with him at Saint Peter's Square. It was a great success. Building upon this success and its popularity, the Pope held this worldwide event every 3 years.

Over the last 20 years, millions of young people from hundreds of countries have participated in World Youth Day. One young woman who attended said that young people loved the Pope because the Pope loved them: ''People think that teenagers and young people are just out there and reckless, but he didn't see it that way. He said, 'You are the future and I love you for that.' ''

The world is now mourning the death of Pope John Paul II. In parishes from the Americas to Europe to Africa to Asia, millions are paying tribute to a leader whose central message was love, respect, faith and responsibility to our fellow man. That example is his legacy, and regardless of our individual faiths, it is an example for all of us of how to live and relate to our neighbors. May God grant Pope John Paul II eternal rest and peace, and we thank him for a life lived in the service of people everywhere.

IN HONOR OF THE 50TH ANNIVERSARY OF THE SUCCESSFUL SALK POLIO VACCINE TRIALS

Mr. LEVIN. Mr. President, I would like to take this opportunity to commemorate an historic event that changed the world. Fifty years ago today, Dr. Thomas Francis, Jr., director of the Poliomyelitis Vaccine Evaluation Center and founding chair of the Department of Epidemiology at the University of Michigan School of Public Health, announced that the Salk polio vaccine was ''safe, effective, and potent.''

That announcement marked the culmination of the most comprehensive field trials ever conducted, unprecedented in scope and magnitude. In the early 1950s, Dr. Jonas Salk, a postdoctoral student of Dr. Francis at the University of Michigan, developed a promising vaccine against poliomyelitis in his laboratory at the University of Pittsburgh. Dr. Salk returned to the University of Michigan to work with his longtime mentor, Dr. Francis, who led the year-long field trials demonstrating that ''the vaccine works.'' More than 300,000 individuals participated in the work of the trials, including 20,000 physicians and public health officers, 40,000 registered nurses, 14,000 school principals, and 200,000 volunteers. More than 100 statisticians and epidemiologists tabulated data from the approximately 1.8 million children across the United States, Canada, and Finland who were involved in the trial. These brave children, who stepped forward to receive a shot not knowing if it would be the real vaccine or a placebo or whether it would be safe or harmful, are now affectionately known as polio pioneers.

While we rarely consider the possibility of contracting polio today, let me remind you that for generations polio was one of the most feared childhood diseases. Poliomyelitis, a neuromuscular disease also known as infantile paralysis, is caused by the polio virus. The virus invades nerve cells in the spinal cord, resulting in weakness or paralysis of the limbs and muscles. Prior to the successful work of Drs. Salk and Thomas, no one knew how to prevent polio, and there was no cure for the disease. Hot weather in late summer was ''polio season,'' bringing on a rash of new cases of paralytic polio each year. In 1916, a devastating epidemic struck New York, killing 9,000 people and leaving 27,000 disabled. For the next 40 years, not a summer passed without an epidemic occurring somewhere in the U.S. In the 1940s and 1950s, the number of cases reported in the U.S. ranged from 40,000 to 60,000 each year. The warmer months of the year were termed ''nightmare summers of quarantine and contagion.'' President Roosevelt, who suffered personally from the effects of polio, founded the National Foundation for Infantile Paralysis, now called the March of Dimes, and called upon millions of private citizens to donate dimes to fund the foundation's work to fight polio. Today, polio has been nearly eradicated.

Fifty years ago this morning, before more than 500 scientists, physicians, and reporters at Rackham Auditorium in Ann Arbor, Dr. Francis told an anxious world of parents that the Salk vaccine had been proven to be effective in preventing polio. Please join me in honoring the success of Drs. Francis and Salk in combating this devastating disease.

ADDITIONAL STATEMENTS

COMMENDING THE EFFORTS OF BASKETBALL WITHOUT BORDERS

● Mr. DODD. Mr. President, I commend the efforts of Basketball without Borders, an initiative that promotes friendship, understanding, and healthy living for young people around the world.

Today, the National Basketball Association, NBA, and the International Basketball Federation, FIBA, announced that Basketball without Borders will hold four instructional camps in the coming year. For the first time, Basketball without Borders will be staged on four continents: North America, Europe, Asia, and Africa. It will feature professional basketball players from diverse backgrounds, including China's Yao Ming, Argentina's Manu Ginobili, Germany's Dirk Nowitzki, and Congo's Dikembe Mutombo.

The Basketball without Borders initiative is more than an opportunity for children to meet their favorite players and learn basketball skills. It is also a chance for them to learn important lessons about the world in which they live.

In addition to basketball instruction, the children who participate in Basketball without Borders will learn about HIV/AIDS prevention, the importance of education, and ways to lead a healthier life. They will also have the opportunity to meet children whose ethnicities, backgrounds, and cultures are different from their own.

I also applaud the NBA and FIBA for the charitable efforts that are part of the Basketball without Borders initiative. As part of this year's program, the NBA will be conducting several auctions on its website, with the proceeds funding community improvement efforts worldwide, particularly in disadvantaged areas.

As public figures, professional athletes can send a strong message by serving as role models both on and off the playing field. It is my hope that the players who are taking part in Basketball without Borders will inspire basketball fans around the world to take a closer look at ways they can extend a hand of friendship to diverse communities around the globe. I salute the athletes who are participating in this worthy venture, as well as all those whose hard work has made this initiative possible.●

TRIBUTE TO RALPH STURGES, CHIEF OF THE MOHEGAN TRIBE

● Mr. DODD. Mr. President, I honor Ralph Sturges, Chief of the Mohegan Tribe. On April 13, Chief Sturges will receive the Citizen of the Year award from the Chamber of Commerce of Eastern Connecticut.

Chief Sturges is known throughout southeastern Connecticut for his leadership, his community involvement, and his humility. Even as he has risen in the ranks of the Mohegan Tribe, from serving as a member of the Tribal Council in the 1980s to becoming lifetime chief in 1991, he has never lost a sense of who he is or what he stands for.

Born in 1918, Ralph Sturges served in our armed forces during the World War II as a security and intelligence officer. He went on to work for the Philadelphia Legal Aid Society and the Salvation Army, as well as the Legnos Boat Company.

Chief Sturges was renowned for his skills as a craftsman, particularly as a sculptor of traditional Mohegan cultural symbols. Among his many works were a whale sculpture donated to Governor Ella Grasso and the carving of a base for the headstone of the Mohegan chief Samuel Uncas.

When Ralph Sturges was elected lifetime chief of the Mohegan Tribe, as he puts it, he ''didn't have a telephone and didn't have an office.'' He devoted a great deal of time and energy over the coming decade to the cause of securing federal recognition for the Mohegans—a goal that was realized on March 7, 1994.

Today, the Mohegan Tribe stands as a remarkable success story. So much of this success is due to the efforts and dedication of Ralph Sturges, as well as countless others who worked with him over the years.

Chief Sturges is an outstanding citizen, a respected leader, and a devoted member of the Mohegan tribe. He has forged strong bonds between his tribe and the State of Connecticut, as well as the Federal Government. These bonds have reaped tremendous benefits, not only for the Mohegan Tribe, but all of Southeastern Connecticut. The relationship between Connecticut and the Mohegan Tribe serves as a model that other states and tribal nations would do well to emulate.

The honor Chief Sturges will receive this Wednesday is well-deserved. I applaud Ralph Sturges for all of his accomplishments, I congratulate him on this distinguished award, and I wish him continued health and happiness.●

TRIBUTE TO MARTIN MACKEY

● Mrs. BOXER. Mr. President, I rise to share with my colleagues the memory of a very special man, Martin Mackey of Marin County, CA, who died on March 25, 2005. He was 87 years old. Martin Mackey was born in San Francisco. He earned his engineering degree from Stanford and entered the Navy Midshipman Reserve Training Program. He served in the Navy during World War II and was trained in antisubmarine warfare.

Martin met his wife Mary while on leave in Seattle during World War II. They were engaged 5 days later. Martin and Mary just celebrated their 61st wedding anniversary last December.

After the war and after 22 years of steel and concrete sales with a multinational company, Martin retired with a desire to change the world. The year was 1968, and he was deeply disturbed by social injustice and the assassinations of Martin Luther King, Jr., and Robert Kennedy. He went on a weekend retreat with his wife Mary to figure out what he should contribute to make our world a better place.

Martin played a key role in bringing affordable housing to Marin County. President Lyndon Johnson had just signed the Housing Act into law. Martin's good friend, Larry Livingston, who was a city and regional planner, told Martin that Marin County badly needed low and moderate-income housing. Martin was convinced. As chairman of the Social Concerns Committee at Marin County Unitarian Church, he called upon ministers throughout the county to form a social action group to respond to the community's housing needs. They met in a rent-free office in the attic of a convent. Then he called upon other leaders and friends in the community to join their efforts. This social action group of faith and community leaders began to raise money and became the Ecumenical Association for Housing, EAH, still in existence today.

EAH began with 24 organizations, each pledging $200. Martin selflessly accepted a salary of $1 to serve as executive director. EAH quickly took off and began lending money to architects and regional groups to build affordable housing projects throughout Marin. Their first project was Pilgrim Park, a 61 unit, low-income housing development in San Rafael.

For more than 22 years, Martin devoted himself to EAH and affordable housing. Martin worked to persuade citizens and elected officials to accept low and moderate-income housing in their wealthy communities. To develop his knowledge and save EAH outside consultant fees, Martin went to Catholic University in Washington, DC, to take a 2-month course in how to be a housing consultant. He eventually expanded his services and consulted for affordable housing projects in other parts of the Bay Area as well as Arizona.

From its origins as the fledgling group Martin founded in 1968 to a 325-person staff and $6 million budget, EAH has completed 62 projects and 4,556 housing units in the Bay area and beyond.

Martin was a dynamic figure in Marin County. My staff and I always knew we could call on him for invaluable information and sound advice. He was a passionate and effective advocate for affordable housing. He led EAH with a sense of humor and a deep appreciation for the dedicated individuals who worked with him. His accomplishments in creating affordable housing for Marin residents is legendary. He was also a respected member of the Marin community and a wonderful, inspiring man who will be deeply missed. We take comfort in knowing that countless future generations will benefit from his courage, his vision and his leadership.●

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC–1596. A communication from the Principal Deputy Associate Administrator, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Air Quality Designations for the Fine Particles (PM2.5) National Ambient Air Quality Standards—Supplemental Notice'' (FRL No. 7896–8) received on April 7, 2005; to the Committee on Environment and Public Works.

EC–1597. A communication from the Principal Deputy Associate Administrator, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Approval and Promulgation of Air Quality Implementation Plans; Texas; Low-Emission Diesel Fuel Compliance Date'' (FRL No. 7895–9) received on April 7, 2005; to the Committee on Environment and Public Works.

EC–1598. A communication from the Principal Deputy Associate Administrator, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Approval and Promulgation of Implementation Plans; Texas; Locally Enforced Idling Prohibition Rule'' (FRL No. 7896–7) received on April 7, 2005; to the Committee on Environment and Public Works.

EC–1599. A communication from the Principal Deputy Associate Administrator, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''National Emission Standards for Coke Oven Batteries'' (FRL No. 7895–8) received on April 7, 2005; to the Committee on Environment and Public Works.

EC–1600. A communication from the Assistant Secretary for Fish, Wildlife and Parks, Fish and Wildlife Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled ''Endangered and Threatened Wildlife and Plants; Designation of Critical Habitat for the Astragalus jaegerainus (Lane Mountain milk-vetch)'' (RIN1018–AI78) received on April 7, 2005; to the Committee on Environment and Public Works.

EC–1601. A communication from the Assistant Secretary for Fish, Wildlife and Parks, Fish and Wildlife Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled ''Endangered and Threatened Wildlife and Plants: Establishment of a Nonessential Experimental Population for Two Fishes (Boulder Darter and Spotfin Chub) in Shoal Creek, Tennessee and Alabama '' (RIN1018–AH44) received on April 7, 2005; to the Committee on Environment and Public Works.

EC–1602. A communication from the Assistant Secretary for Fish, Wildlife and Parks, Division of Management Authority, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled ''Revisions to General Permit Procedures'' (RIN1018–AC57) received on April 7, 2005; to the Committee on Environment and Public Works.

EC–1603. A communication from the Acting Administrator, Rural Utilities Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled ''7 CFR Part 1728, Specifications and Drawings for 12.47/7.2 kV Line Construction'' received on April 7, 2005; to the Committee on Agriculture, Nutrition, and Forestry.

EC–1604. A communication from the Acting Administrator, Rural Utilities Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled ''7 CFR Part 1738, Rural Broadband Access Loans and Loan Guarantee'' (RIN0572–AB81) received on April 7, 2005; to the Committee on Agriculture, Nutrition, and Forestry.

EC–1605. A communication from the Chairman and CEO, Farm Credit Administration, transmitting, pursuant to law, the report of a rule entitled ''Rules of Practice and Procedure; Adjusting Civil Money Penalties for Inflation'' (RIN3052–AC28) received on April 7, 2005; to the Committee on Agriculture, Nutrition, and Forestry.

EC–1606. A communication from the Principal Deputy Associate Administrator, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting,

pursuant to law, the report of a rule entitled ''Triflumizole; Pesticide Tolerances for Emergency Exemptions'' (FRL No. 7701–6) received on April 7, 2005; to the Committee on Agriculture, Nutrition, and Forestry.

EC–1607. A communication from the Principal Deputy Associate Administrator, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Paecilomyces lilacinus strain 251; Exemption from the Requirement of a Tolerance'' (FRL No. 7708–4) received on April 7, 2005; to the Committee on Agriculture, Nutrition, and Forestry.

EC–1608. A communication from the Principal Deputy Associate Administrator, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Buprofezin; Pesticide Tolerance'' (FRL No. 7691–8) received on April 7, 2005; to the Committee on Agriculture, Nutrition, and Forestry.

EC–1609. A communication from the Principal Deputy Associate Administrator, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Acetamiprid; Pesticide Tolerance'' (FRL No. 7705–7) received on April 7, 2005; to the Committee on Agriculture, Nutrition, and Forestry.

EC–1610. A communication from the Vice President, Government Affairs, National Railroad Passenger Corporation, transmitting, pursuant to law, a report of the Corporation's intent to submit its annual Legislative and Grant Request for fiscal year 2006; to the Committee on Commerce, Science, and Transportation.

EC–1611. A communication from the Secretary of Commerce, transmitting, pursuant to law, the 2004 Annual Report of the Visiting Committee on Advanced Technology of the National Institute of Standards and Technology (NIST); to the Committee on Commerce, Science, and Transportation.

EC–1612. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives: Saab Model SAAB SF340A and 340B Series Airplanes;'' ((RIN2120–AA64) (2005–0126)) received on April 4, 2005; to the Committee on Commerce, Science, and Transportation.

EC–1613. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives: Airbus Model A330, A340–200, and A340–300 Series Airplanes'' ((RIN2120–AA64) (2005–0131)) received on April 4, 2004; to the Committee on Commerce, Science, and Transportation.

EC–1614. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives: Hartzell Propeller, Inc. Model HC B3TN 5 T10282 Propellers'' ((RIN2120–AA64) (2005–0125)) received on April 4, 2004; to the Committee on Commerce, Science, and Transportation.

EC–1615. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives: Boeing Model 747–400, 400D, and 400F Series Airplanes'' ((RIN2120–AA64) (2005–0118)) received on April 4, 2004; to the Committee on Commerce, Science, and Transportation.

EC–1616. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives: Saab Model SAAB SF340A and SAAB 340B Series Airplanes'' ((RIN2120–AA64) (2005–0117)) received on April 4, 2004; to the Committee on Commerce, Science, and Transportation.

EC–1617. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives: Dassault Model Falcon 10 Series Airplanes'' ((RIN2120–AA64) (2005–0116)) received on April 4, 2004; to the Committee on Commerce, Science, and Transportation.

EC–1618. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives: Bell Helicopter Textron Canada Model 222, 222B, 222U, 230, and 430 Helicopters'' ((RIN2120–AA64) (2005–0115)) received on April 4, 2004; to the Committee on Commerce, Science, and Transportation.

EC–1619. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives: Empresa Brasileira de Aeronautica SA Model EMB 135 and 145 Series Airplanes'' ((RIN2120–AA64) (2005–0122)) received on April 4, 2004; to the Committee on Commerce, Science, and Transportation.

EC–1620. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives: Boeing Model 707–100, 100B, 300B, and E3A Series Airplanes; Model 720 and 720B Series Airplanes; Model 737–100, 200, 200C, 300, 400, and 500 Series Airplanes; and Model 747 Airplanes'' ((RIN2120–AA64) (2005–0121)) received on April 4, 2004; to the Committee on Commerce, Science, and Transportation.

EXECUTIVE REPORT OF COMMITTEE

The following executive report of committee was submitted:

By Mr. CHAMBILSS for the Committee on Agriculture, Nutrition, and Forestry. Charles F. Conner, of Indiana, to be Deputy Secretary of Agriculture.

(Nominations without an asterisk were reported with the recommendation that they be confirmed.)

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. CRAIG (for himself and Mr. CRAPO):

S. 761. A bill to rename the Snake River Birds of Prey National Conservation Area in the State of Idaho as the Morley Nelson Snake River Birds of Prey National Conservation Area in honor of the late Morley Nelson, an international authority on birds of prey, who was instrumental in the establishment of this National Conservation Area, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. VOINOVICH (for himself, Mr. LEVIN, Mr. DEWINE, Ms. STABENOW, Mr. CORNYN, Mr. ALEXANDER, Mr. DEMINT, Mrs. DOLE, Mr. VITTER, Mr. MARTINEZ, Mr. ISAKSON, Mr. NELSON of Florida, Mr. LUGAR, Mr. BURR, Mr. COCHRAN, Mr. LOTT, Mrs. HUTCHISON, Mr. CHAMBLISS, Mr. BAYH, Mr. ALLEN, and Ms. LANDRIEU):

S. 762. A bill to amend title 23, United States Code, to increase the minimum allocation provided to states for use in carrying out certain highway programs; to the Committee on Environment and Public Works.

By Mr. DORGAN (for himself and Mrs. HUTCHISON):

S. 763. A bill to direct the Federal Railroad Administration to make welded rail and tank car improvements; to the Committee on Commerce, Science, and Transportation.

By Mr. CORZINE (for himself and Mr. LAUTENBERG):

S. 764. A bill to amend title XVIII of the Social Security Act to improve the coordination of prescription drug coverage provided under State pharmaceutical assistance programs with the prescription drug benefit provided under the medicare program, and for other purposes; to the Committee on Finance.

By Mr. WARNER (for himself and Mr. DURBIN):

S. 765. A bill to preserve mathe matics- and science-based industries in the United States; to the Committee on Health, Education, Labor, and Pensions.

By Mr. SANTORUM:

S. 766. A bill to remove civil liability barriers that discourage the donation of fire equipment to volunteer fire companies; to the Committee on the Judiciary.

By Mr. BOND (for himself, Ms. MIKULSKI, Mr. TALENT, Mr. HARKIN, Mr. ROBERTS, and Mr. COLEMAN):

S. 767. A bill to establish a Division of Food and Agricultural Science within the National Science Foundation and to authorize funding for the support of fundamental agricultural research of the highest quality, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. SCHUMER (for himself and Mr. NELSON of Florida):

S. 768. A bill to provide for comprehensive identity theft prevention; to the Committee on Commerce, Science, and Transportation.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. FEINGOLD (for himself and Mr. HAGEL):

S. Res. 104. A resolution expressing the sense of the Senate encouraging the active engagement of Americans in world affairs and urging the Secretary of State to take the lead and coordinate with other governmental agencies and non-governmental organizations in creating an online database of international exchange programs and related opportunities; to the Committee on Foreign Relations.

By Ms. MURKOWSKI (for herself, Mr. AKAKA, Mr. ALLEN, Mr. BAYH, Mr. BINGAMAN, Mrs. BOXER, Mrs. CLINTON, Mr. COCHRAN, Mr. COLEMAN, Ms. COLLINS, Mr. CONRAD, Mr. CORNYN, Mr. CRAIG, Mr. DEWINE, Mr. DODD, Mr.

DOMENICI, Mr. DORGAN, Mr. DURBIN, Mr. FEINGOLD, Mrs. FEINSTEIN, Mr. GREGG, Mr. HAGEL, Mr. ISAKSON, Mr. JOHNSON, Mr. KERRY, Ms. LANDRIEU, Mr. LIEBERMAN, Mr. LEVIN, Mr. LOTT, Mr. MARTINEZ, Ms. MIKULSKI, Mrs. MURRAY, Mr. NELSON of Nebraska, Mr. REED, Mr. SALAZAR, Mr. SANTORUM, Mr. SCHUMER, Mr. SESSIONS, Ms. SNOWE, Mr. SPECTER, Ms. STABENOW, Mr. STEVENS, Mr. THUNE, and Mr. BUNNING):

S. Res. 105. A resolution designating April 15, 2005, as National Youth Service Day, and for other purposes; considered and agreed to.

By Mr. CONRAD (for himself, Mr. SANTORUM, Mr. ALLARD, Mr. BAYH, Mr. BINGAMAN, Mrs. BOXER, Mr. CARPER, Mrs. CLINTON, Mr. COBURN, Mr. COCHRAN, Mr. CORZINE, Mr. DORGAN, Mr. DURBIN, Mr. ENSIGN, Mrs. FEINSTEIN, Mr. ISAKSON, Mr. JEFFORDS, Mr. JOHNSON, Ms. LANDRIEU, Mr. LEAHY, Ms. MIKULSKI, Mr. ROCKEFELLER, Mr. SALAZAR, Mr. SCHUMER, Mr. SPECTER, and Mr. STEVENS):

S. Con. Res. 26. A concurrent resolution honoring and memorializing the passengers and crew of United Airlines Flight 93; to the Committee on Rules and Administration.

ADDITIONAL COSPONSORS

S. 21

At the request of Ms. COLLINS, the name of the Senator from Rhode Island (Mr. CHAFEE) was added as a cosponsor of S. 21, a bill to provide for homeland security grant coordination and simplification, and for other purposes.

S. 35

At the request of Mr. CONRAD, the name of the Senator from Florida (Mr. NELSON) was added as a cosponsor of S. 35, a bill to amend the Internal Revenue Code of 1986 to extend the credit for production of electricity from wind.

S. 77

At the request of Mr. SESSIONS, the name of the Senator from South Dakota (Mr. THUNE) was added as a cosponsor of S. 77, a bill to amend titles 10 and 38, United States Code, to improve death benefits for the families of deceased members of the Armed Forces, and for other purposes.

S. 103

At the request of Mr. TALENT, the name of the Senator from West Virginia (Mr. BYRD) was added as a cosponsor of S. 103, a bill to respond to the illegal production, distribution, and use of methamphetamine in the United States, and for other purposes.

S. 241

At the request of Ms. SNOWE, the names of the Senator from Idaho (Mr. CRAPO) and the Senator from Washington (Mrs. MURRAY) were added as cosponsors of S. 241, a bill to amend section 254 of the Communications Act of 1934 to provide that funds received as universal service contributions and the universal service support programs established pursuant to that section are not subject to certain provisions of title 31, United States Code, commonly known as the Antideficiency Act.

S. 331

At the request of Mr. JOHNSON, the name of the Senator from West Virginia (Mr. ROCKEFELLER) was added as a cosponsor of S. 331, a bill to amend title 38, United States Code, to provide for an assured adequate level of funding for veterans health care.

S. 333

At the request of Mr. SANTORUM, the name of the Senator from Montana (Mr. BURNS) was added as a cosponsor of S. 333, a bill to hold the current regime in Iran accountable for its threatening behavior and to support a transition to democracy in Iran.

S. 352

At the request of Ms. MIKULSKI, the names of the Senator from South Dakota (Mr. JOHNSON) and the Senator from South Dakota (Mr. THUNE) were added as cosponsors of S. 352, a bill to revise certain requirements for H–2B employers and require submission of information regarding H–2B non-immigrants, and for other purposes.

S. 359

At the request of Mr. CRAIG, the name of the Senator from Illinois (Mr. OBAMA) was added as a cosponsor of S. 359, a bill to provide for the adjustment of status of certain foreign agricultural workers, to amend the Immigration and Nationality Act to reform the H–2A worker program under that Act, to provide a stable, legal agricultural workforce, to extend basic legal protections and better working conditions to more workers, and for other purposes.

S. 370

At the request of Mr. LOTT, the name of the Senator from Wyoming (Mr. THOMAS) was added as a cosponsor of S. 370, a bill to preserve and protect the free choice of individual employees to form, join, or assist labor organizations, or to refrain from such activities.

S. 397

At the request of Mr. CRAIG, the names of the Senator from Ohio (Mr. VOINOVICH) and the Senator from Utah (Mr. BENNETT) were added as cosponsors of S. 397, a bill to prohibit civil liability actions from being brought or continued against manufacturers, distributors, dealers, or importers of firearms or ammunition for damages, injunctive or other relief resulting from the misuse of their products by others.

S. 398

At the request of Mr. SANTORUM, the name of the Senator from California (Mrs. FEINSTEIN) was added as a cosponsor of S. 398, a bill to amend the Internal Revenue Code of 1986 to expand the expensing of environmental remediation costs.

S. 432

At the request of Mr. ALLEN, the name of the Senator from Pennsylvania (Mr. SANTORUM) was added as a cosponsor of S. 432, a bill to establish a digital and wireless network technology program, and for other purposes.

S. 438

At the request of Mr. ENSIGN, the names of the Senator from South Carolina (Mr. GRAHAM) and the Senator from Georgia (Mr. CHAMBLISS) were added as cosponsors of S. 438, a bill to amend title XVIII of the Social Security Act to repeal the medicare outpatient rehabilitation therapy caps.

S. 477

At the request of Mr. DORGAN, the name of the Senator from Hawaii (Mr. AKAKA) was added as a cosponsor of S. 477, a bill to amend the Homeland Security Act of 2002 to include Indian tribes among the entities consulted with respect to activities carried out by the Secretary of Homeland Security, and for other purposes.

S. 484

At the request of Mr. WARNER, the names of the Senator from Arkansas (Mr. PRYOR), the Senator from Vermont (Mr. LEAHY) and the Senator from North Carolina (Mrs. DOLE) were added as cosponsors of S. 484, a bill to amend the Internal Revenue Code of 1986 to allow Federal civilian and military retirees to pay health insurance premiums on a pretax basis and to allow a deduction for TRICARE supplemental premiums.

S. 487

At the request of Mr. SMITH, the name of the Senator from Minnesota (Mr. COLEMAN) was added as a cosponsor of S. 487, a bill to amend title 10, United States Code, to provide leave for members of the Armed Forces in connection with adoptions of children, and for other purposes.

S. 494

At the request of Mr. AKAKA, the name of the Senator from Rhode Island (Mr. CHAFEE) was added as a cosponsor of S. 494, a bill to amend chapter 23 of title 5, United States Code, to clarify the disclosures of information protected from prohibited personnel practices, require a statement in nondisclosure policies, forms, and agreements that such policies, forms, and agreements conform with certain disclosure protections, provide certain authority for the Special Counsel, and for other purposes.

S. 495

At the request of Mr. NELSON of Florida, his name was added as a cosponsor of S. 495, a bill to impose sanctions against perpetrators of crimes against humanity in Darfur, Sudan, and for other purposes.

S. 506

At the request of Mr. HAGEL, the name of the Senator from Delaware (Mr. BIDEN) was added as a cosponsor of S. 506, a bill to amend the Public Health Service Act to establish a scholarship and loan repayment program for public health preparedness workforce development to eliminate critical public health preparedness workforce

shortages in Federal, State, local, and tribal public health agencies.

S. 512

At the request of Mr. SANTORUM, the name of the Senator from Minnesota (Mr. DAYTON) was added as a cosponsor of S. 512, a bill to amend the Internal Revenue Code of 1986 to classify automatic fire sprinkler systems as 5-year property for purposes of depreciation.

S. 555

At the request of Mr. DEWINE, the name of the Senator from Pennsylvania (Mr. SPECTER) was added as a cosponsor of S. 555, a bill to amend the Sherman Act to make oil-producing and exporting cartels illegal.

S. 582

At the request of Mr. PRYOR, the names of the Senator from Montana (Mr. BURNS), the Senator from Michigan (Ms. STABENOW), the Senator from Minnesota (Mr. COLEMAN), the Senator from Montana (Mr. BAUCUS), the Senator from New Mexico (Mr. DOMENICI), the Senator from Oregon (Mr. WYDEN), the Senator from Kansas (Mr. BROWNBACK), the Senator from Indiana (Mr. BAYH), the Senator from Iowa (Mr. GRASSLEY), the Senator from New York (Mr. SCHUMER), the Senator from Kansas (Mr. ROBERTS), the Senator from California (Mrs. BOXER), the Senator from Nevada (Mr. REID), the Senator from Connecticut (Mr. DODD) and the Senator from Hawaii (Mr. AKAKA) were added as cosponsors of S. 582, a bill to require the Secretary of the Treasury to mint coins in commemoration of the 50th anniversary of the desegregation of the Little Rock Central High School in Little Rock, Arkansas, and for other purposes.

S. 586

At the request of Mr. BOND, the name of the Senator from California (Mrs. BOXER) was added as a cosponsor of S. 586, a bill to amend the Internal Revenue Code of 1986 to provide for the proper tax treatment of certain disaster mitigation payments.

S. 595

At the request of Mr. SANTORUM, the name of the Senator from Kentucky (Mr. BUNNING) was added as a cosponsor of S. 595, a bill to amend the Internal Revenue Code of 1986 to modify the work opportunity credit and the welfare-to-work credit.

S. 611

At the request of Ms. COLLINS, the name of the Senator from Minnesota (Mr. DAYTON) was added as a cosponsor of S. 611, a bill to establish a Federal Interagency Committee on Emergency Medical Services and a Federal Interagency Committee on Emergency Medical Services Advisory Council, and for other purposes.

S. 619

At the request of Mrs. FEINSTEIN, the name of the Senator from California (Mrs. BOXER) was added as a cosponsor of S. 619, a bill to amend title II of the Social Security Act to repeal the Government pension offset and windfall elimination provisions.

S. 626

At the request of Mr. NELSON of Nebraska, the name of the Senator from Indiana (Mr. BAYH) was added as a cosponsor of S. 626, a bill to amend title XVIII of the Social Security Act to improve access to diabetes self management training by designating certified diabetes educators who are recognized by a nationally recognized certifying body and who meet the same quality standards set forth for other providers of diabetes self management training, as certified providers for purposes of outpatient diabetes self-management training services under part B of the medicare program.

S. 627

At the request of Ms. CANTWELL, her name was added as a cosponsor of S. 627, a bill to amend the Internal Revenue Code of 1986 to permanently extend the research credit, to increase the rates of the alternative incremental credit, and to provide an alternative simplified credit for qualified research expenses.

S. 633

At the request of Mr. JOHNSON, the names of the Senator from Illinois (Mr. DURBIN) and the Senator from North Carolina (Mrs. DOLE) were added as cosponsors of S. 633, a bill to require the Secretary of the Treasury to mint coins in commemoration of veterans who became disabled for life while serving in the Armed Forces of the United States.

S. 642

At the request of Mr. FRIST, the name of the Senator from South Dakota (Mr. THUNE) was added as a cosponsor of S. 642, a bill to support certain national youth organizations, including the Boy Scouts of America, and for other purposes.

S. 656

At the request of Mr. REED, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of S. 656, a bill to provide for the adjustment of status of certain nationals of Liberia to that of lawful permanent residence.

S. 658

At the request of Mr. BROWNBACK, the name of the Senator from Wyoming (Mr. ENZI) was added as a cosponsor of S. 658, a bill to amend the Public Health Service Act to prohibit human cloning.

S. 662

At the request of Ms. COLLINS, the names of the Senator from Washington (Mrs. MURRAY) and the Senator from Vermont (Mr. LEAHY) were added as cosponsors of S. 662, a bill to reform the postal laws of the United States.

S. 675

At the request of Mr. DORGAN, the name of the Senator from Minnesota (Mr. COLEMAN) was added as a cosponsor of S. 675, a bill to reward the hard work and risk of individuals who choose to live in and help preserve America's small, rural towns, and for other purposes.

S. 722

At the request of Mr. SANTORUM, the names of the Senator from Colorado (Mr. ALLARD), the Senator from North Dakota (Mr. CONRAD) and the Senator from Louisiana (Mr. VITTER) were added as cosponsors of S. 722, a bill to amend the Internal Revenue Code of 1986 to reduce the tax on beer to its pre-1991 level.

S. 725

At the request of Mr. DODD, the name of the Senator from California (Mrs. BOXER) was added as a cosponsor of S. 725, a bill to improve the Child Care Access Means Parents in School Program.

S. 756

At the request of Mr. BENNETT, the name of the Senator from Louisiana (Ms. LANDRIEU) was added as a cosponsor of S. 756, a bill to amend the Public Health Service Act to enhance public and health professional awareness and understanding of lupus and to strengthen the Nation's research efforts to identify the causes and cure of lupus.

S. 758

At the request of Mr. ALLEN, the name of the Senator from Nevada (Mr. ENSIGN) was added as a cosponsor of S. 758, a bill to amend the Internal Revenue Code of 1986 to ensure that the federal excise tax on communication services does not apply to internet access service.

S. RES. 40

At the request of Ms. LANDRIEU, the name of the Senator from Maine (Ms. COLLINS) was added as a cosponsor of S. Res. 40, a resolution supporting the goals and ideas of National Time Out Day to promote the adoption of the Joint Commission on Accreditation of Healthcare Organizations' universal protocol for preventing errors in the operating room.

S. RES. 82

At the request of Mr. ALLEN, the names of the Senator from Ohio (Mr. DEWINE) and the Senator from Missouri (Mr. TALENT) were added as cosponsors of S. Res. 82, a resolution urging the European Union to add Hezbollah to the Eurpoean Union's wide-ranging list of terrorist organizations.

S. RES. 85

At the request of Mr. THOMAS, the name of the Senator from Virginia (Mr. ALLEN) was added as a cosponsor of S. Res. 85, a resolution designating July 23, 2005, and July 22, 2006, as ''National Day of the American Cowboy.''

AMENDMENT NO. 204

At the request of Mr. SMITH, the name of the Senator from Illinois (Mr.

DURBIN) was added as a cosponsor of amendment No. 204 proposed to S. Con. Res. 18, an original concurrent resolution setting forth the congressional budget for the United States Government for fiscal year 2006 and including the appropriate budgetary levels for fiscal years 2005 and 2007 through 2010.

AMENDMENT NO. 316

At the request of Mr. NELSON of Florida, the names of the Senator from Massachusetts (Mr. KENNEDY), the Senator from Arkansas (Mrs. LINCOLN) and the Senator from New Mexico (Mr. BINGAMAN) were added as cosponsors of amendment No. 316 intended to be proposed to H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes.

AMENDMENT NO. 333

At the request of Mr. KERRY, the name of the Senator from Michigan (Mr. LEVIN) was added as a cosponsor of amendment No. 333 proposed to H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes.

AMENDMENT NO. 334

At the request of Mr. KERRY, the names of the Senator from Illinois (Mr. OBAMA), the Senator from New Jersey (Mr. CORZINE) and the Senator from Michigan (Mr. LEVIN) were added as cosponsors of amendment No. 334 proposed to H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. CRAIG (for himself and Mr. CRAPO):

S. 761. A bill to rename the Snake River Birds of Prey National Conservation Area in the State of Idaho as the Morley Nelson Snake River Birds of Prey National Conservation Area in honor of the late Morley Nelson, an international authority on birds of prey, who was instrumental in the establishment of this National Conservation Area, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. CRAIG. Mr. President, I rise today to introduce, along with my colleague, Mr. CRAPO, a bill to rename a National Conservation Area in the State of Idaho after the late Morley Nelson. This bill renames it the Morley Nelson Snake River Birds of Prey National Conservation Area.

After returning home as a decorated veteran of World War II, having served with the famed 10th Mountain Division in Italy, Morley Nelson recognized the unique importance of the Snake River area for birds of prey. He worked for its protection and various designations, culminating in its establishment by Congress as a National Conservation Area.

Starting in the 1950s, Morley Nelson spent decades convincing ranchers and farmers not to shoot raptors, but rather to accept them as an integral part of the ecosystem.

Morley Nelson raised public awareness about birds of prey through scores of speeches with an eagle on his fist, and through dozens of movies and TV specials starring his eagle or hawks, including seven films for Disney.

Morley Nelson recognized the long-standing problem with raptor electrocution from power lines and the associated power outages and even resulting wildfires. In cooperation with Idaho Power, and later with other utilities, he helped develop guards and redesigned power transmission lines to reduce raptor electrocution. This technology has since spread throughout the world.

Morley Nelson once said, ''This is where the wind and the cliffs and the birds are. This is where I'll always be.'' It seems only fitting that the Snake River Birds of Prey National Conservation Area should bear his name.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 761

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Morley Nelson Snake River Birds of Prey National Conservation Area Act''.

SEC. 2. RENAMING OF SNAKE RIVER BIRDS OF PREY NATIONAL CONSERVATION AREA.

(a) RENAMING.—Public Law 103–64 is amended—

(1) in section 2(2) (16 U.S.C. 460iii–1(2)), by inserting ''Morley Nelson'' before ''Snake River Birds of Prey National Conservation Area''; and

(2) in section 3(a)(1) (16 U.S.C. 460iii–2(a)(1)), by inserting ''Morley Nelson'' before ''Snake River Birds of Prey National Conservation Area''.

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the Snake River Birds of Prey National Conservation Area shall be deemed to be a reference to the Morley Nelson Snake River Birds of Prey National Conservation Area.

(c) TECHNICAL CORRECTIONS.—Public Law 103–64 is further amended—

(1) in section 3(a)(1) (16 U.S.C. 460iii–2(a)(1)), by striking ''(hereafter referred to as the 'conservation area')''; and

(2) in section 4 (16 U.S.C. 460iii–3)—

(A) in subsection (a)(2), by striking ''Conservation Area'' and inserting ''conservation area''; and

(B) in subsection (d), by striking ''Visitors Center'' and inserting ''visitors center''.

By Mr. VOINOVICH (for himself, Mr. LEVIN, Mr. DEWINE, Ms. STABENOW, Mr. CORNYN, Mr. ALEXANDER, Mr. DEMINT, Mrs. DOLE, Mr. VITTER, Mr. MARTINEZ, Mr. ISAKSON, Mr. NELSON of Florida, Mr. LUGAR, Mr. BURR, Mr. COCHRAN, Mr. LOTT, Mrs. HUTCHISON, Mr. CHAMBLISS, Mr. BAYH, Mr. ALLEN, and Ms. LANDRIEU):

S. 762. A bill to amend title 23, United States Code, to increase the minimum allocation provided to states for use in carrying out certain highway programs; to the Committee on Environment and Public Works.

Mr. VOINOVICH. Mr. President, I rise today to introduce the Highway Funding Equity Act of 2005. I am joined on a bipartisan basis by Senators LEVIN, DEWINE, STABENOW, CORNYN, ALEXANDER, DEMINT, DOLE, VITTER, MARTINEZ, ISAKSON, NELSON of Florida, LUGAR, BURR, COCHRAN, LOTT, HUTCHISON, CHAMBLISS, BAYH, ALLEN, and LANDRIEU.

The Transportation Equity Act for the 21st Century, TEA–21 authorized more than $218 billion for transportation programs and expired in September 2003, but has been extended through May 2005. TEA–21 requires certain States, known as donor States, to transfer to other States a percentage of the revenue from federal highway user fees. Several of these donor States transfer more than 10 percent of every federal highway user fee dollar to other States. As a result, donor States receive a significantly lower rate-of-return on their transportation tax dollars being sent to Washington. Currently, over 25 States, including my State of Ohio, contribute more money to the Highway Trust Fund than they receive back.

My State of Ohio has the Nation's 10th largest highway network, the 5th highest volume of traffic, the 4th largest interstate highway network, and the 2nd largest inventory of bridges in the country. Ohio is a major manufacturing State and is within 600 miles of

50 percent of the population of North America. The interstate highways throughout Ohio and all the donor States provide a vital link to suppliers, manufacturers, distributors, and—consumers.

Maintaining our Nation's highway infrastructure is essential to a robust economy and increasing Ohio's share of federal highway dollars has been a longtime battle of mine. One of my goals when I became Governor 14 years ago was to increase our rate-of-return from 79 percent to 87 percent in the Intermodal Surface Transportation Efficiency Act of 1991, ISTEA. Then, in 1998, as chairman of the National Governors Association, I lobbied Congress to increase the minimum rate-of-return to 90.5 percent. The goal of the Highway Funding Equity Act of 2005 is to increase the minimum guaranteed rate-of-return to 95 percent.

The Highway Funding Equity Act of 2005 has two components. First, the bill would increase the minimum guaranteed rate-of-return in TEA–21 from 90.5 percent of a State's share of contributions to the Highway Trust Fund to 95 percent. The Minimum Guarantee under TEA–21 includes all major Core highway programs: Interstate Maintenance, National Highway System, Bridge, Surface Transportation Program, Congestion Mitigation and Air Quality, Metropolitan Planning, Recreational Trails, and any funds provided by the Minimum Guarantee itself.

Second, the bill uses the table of percentages now in Section 105 of Title 23 to guarantee States with a population density of less the 50 people per square mile a minimum rate-of-return that may exceed 95 percent of that State's share of Highway Account contributions. This provision is intended to ensure that every State is able to provide the quality of road systems needed for national mobility, economic prosperity, and national defense. Under the 2000 Census, this provision would benefit 15 States: Alaska, Arizona, Colorado, Idaho, Kansas, Maine, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, and Wyoming.

Increasing donor States' rate of return to 95 percent will send more than $60 million back to Ohio for road improvements we sorely need. The interstate system was built in the 1950s to serve the demands and traffic of the 1980s. Today, Ohio's infrastructure is functionally obsolete. Nearly every central urban interstate in Ohio is over capacity and plagued with accidents and congestion. Ohio's critical roadways are unable to meet today's traffic demands, much less future traffic which is expected to grow nearly 70 percent in the next 20 years. Like all the donor states, we need these funds in Ohio.

States can no longer afford to support others that are already self-sufficient. Each State has its own needs that far outweigh total available funding, especially in light of the so called ''mega projects'' coming due in the next decade. For example, the Brent Spence Bridge that carries Interstates 71 and 75 across the Ohio River into Kentucky is in need of replacement within the next 10 years at a cost of about $500 million. With the inclusion of the approach work, the total project could cost close to $1 billion.

The goal of this legislation is to improve the rate-of-return on donor States' dollars to guarantee that Federal highway program funding is more equitable for all States. Donor States seek only their fair share, and I look forward to working with my colleagues to improve highway funding equity during the upcoming surface transportation reauthorization process. I am pleased with the strong bipartisan support this legislation has received. In addition, I am hopeful that the highway bill will be brought to the Senate floor quickly, so that we can move to a conference. It is vital that our Nation's highway infrastructure needs be properly addressed to ensure continued economic growth.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 762

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Highway Funding Equity Act of 2005''.

SEC. 2. MINIMUM GUARANTEE.

Section 105 of title 23, United States Code, is amended—

(1) by striking subsection (a) and subsections (c) through (f);

(2) by redesignating subsection (b) as subsection (e);

(3) by inserting after the section heading the following:

''(a) GUARANTEE.—

''(1) IN GENERAL.—For each of fiscal years 2005 through 2009, the Secretary shall allocate among the States amounts sufficient to ensure that the percentage for each State of the total apportionments for the fiscal year for the National Highway System under section 103(b), the high priority projects program under section 117, the Interstate maintenance program under section 119, the surface transportation program under section 133, metropolitan planning under section 134, the highway bridge replacement and rehabilitation program under section 144, the congestion mitigation and air quality improvement program under section 149, the recreational trails program under section 206, the Appalachian development highway system under subtitle IV of title 40, and the minimum guarantee under this paragraph, equals or exceeds the percentage determined for the State under paragraph (2).

''(2) STATE PERCENTAGES.—

''(A) IN GENERAL.—Except as provided in subparagraph (B), the percentage for each State referred to in paragraph (1) is the percentage that is equal to 95 percent of the ratio that—

''(i) the estimated tax payments attributable to highway users in the State paid into the Highway Trust Fund (other than the Mass Transit Account) in the most recent fiscal year for which data are available; bears to

''(ii) the estimated tax payments attributable to highway users in all States paid into the Highway Trust Fund (other than the Mass Transit Account) in the most recent fiscal year for which data are available.

''(B) EXCEPTION.—In the case of a State having a population density of less than 50 individuals per square mile according to the 2000 decennial census, the percentage referred to in paragraph (1) shall be the greater of—

''(i) the percentage determined under subparagraph (A); or

''(ii) the percentage specified in subsection (e).

''(b) TREATMENT OF FUNDS.—

''(1) PROGRAMMATIC DISTRIBUTION.—The Secretary shall apportion the amounts made available under this section that exceed $2,800,000,000 so that the amount apportioned to each State under this paragraph for each program referred to in subsection (a)(1) (other than the high priority projects program, metropolitan planning, the recreational trails program, the Appalachian development highway system, and the minimum guarantee under subsection (a)) is equal to the product obtained by multiplying—

''(A) the amount to be apportioned under this paragraph; and

''(B) the ratio that—

''(i) the amount of funds apportioned to the State for each program referred to in subsection (a)(1) (other than the high priority projects program, metropolitan planning, the recreational trails program, the Appalachian development highway system, and the minimum guarantee under subsection (a)) for a fiscal year; bears to

''(ii) the total amount of funds apportioned to the State for that program for the fiscal year.

''(2) REMAINING DISTRIBUTION.—

''(A) IN GENERAL.—Subject to subparagraph (B), the Secretary shall apportion the remainder of funds made available under this section to the States, and administer those funds, in accordance with section 104(b)(3).

''(B) INAPPLICABLE REQUIREMENTS.—Paragraphs (1), (2), and (3) of section 133(d) shall not apply to amounts apportioned in accordance with this paragraph.

''(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) such sums as are necessary to carry out this section for each of fiscal years 2005 through 2009.

''(d) GUARANTEE OF 95 PERCENT RETURN.—

''(1) IN GENERAL.—For each of fiscal years 2005 through 2009, before making any apportionment under this title, the Secretary shall—

''(A) determine whether the sum of the percentages determined under subsection (a)(2) for the fiscal year exceeds 100 percent; and

''(B) if the sum of the percentages exceeds 100 percent, proportionately adjust the percentages specified in the table contained in subsection (e) to ensure that the sum of the percentages determined under subsection (a)(1)(B) for the fiscal year equals 100 percent.

''(2) ELIGIBILITY THRESHOLD FOR ADJUSTMENT.—The Secretary may make an adjustment under paragraph (1) for a State for a

fiscal year only if the percentage for the State in the table contained in subsection (e) is equal to or exceeds 95 percent of the ratio determined for the State under subsection (a)(1)(B)(i) for the fiscal year.

''(3) LIMITATION ON ADJUSTMENTS.—Adjustments of the percentages in the table contained in subsection (e) in accordance with this subsection shall not result in a total of the percentages determined under subsection (a)(2) that exceeds 100 percent.''; and

(4) in subsection (e) (as redesignated by paragraph (2)), by striking ''subsection (a)'' and inserting ''subsections (a)(2)(B)(ii) and (d)''.

Mr. LEVIN. Mr. President, today I join Senator VOINOVICH in introducing the Highway Funding Equity Act of 2005.

Our bill will allow States to get back a fairer share of what they contribute in gas taxes to the highway trust fund. We do this by increasing the Federal minimum guaranteed funding level for highways to 95 percent from the current 90.5 percent of a State's share of contributions made to the Federal Highway Trust Fund in gas tax payments.

Increasing this minimum guarantee to 95 percent will bring us one step closer to achieving fairness in the distribution of Federal highway funds to States.

Historically about 20 States, including Michigan, known as ''donor'' States, have sent more gas tax dollars to the Highway Trust Fund in Washington than were returned in transportation infrastructure spending. The remaining 30 States, known as ''donee'' States, have received more transportation funding than they paid into the Highway Trust Fund.

This came about in 1956 when a number of small States and large Western States banded together to develop a formula to distribute Federal highway dollars that advantaged themselves over the remaining States. They formed a coalition of about 30 States that would benefit from the formula and, once that formula was in place, have tenaciously defended it.

At the beginning there was some legitimacy to the large low-population predominately Western States getting more funds than they contributed to the system in order to build a national interstate highway system. Some arguments remain for providing additional funds to those States to maintain the national system and our bill will do that. However, there is no justification for any State getting more than its fair share.

Each time the highway bill is reauthorized the donor States that have traditionally subsidized other States' road and bridge projects have fought to correct this inequity in highway funding. It has been a long struggle to change these outdated formulas. Through these battles, some progress has been made. For instance, in 1978, Michigan was getting around 75 cents on our gas tax dollar. The 1991 bill brought us up to approximately 80 cents per dollar and the 1998 bill guaranteed a 90.5 cent minimum return for each State.

We still have a long way to go to achieve fairness for Michigan and other States on the return on our Highway Trust Fund contributions. At stake are tens of millions of dollars a year in additional funding to pay for badly needed transportation improvements in Michigan alone and the jobs that go with it. Based on FHWA data, we calculate that Michigan would have received over $55 million in additional funds in FY 2004 under the Voinovich-Levin 95 percent minimum guarantee bill. That's a critically important difference for Michigan each year. The same is true for other donor States that stand to get back millions more of their gas tax dollars currently being sent to other States. There's no logical reason for some States to be forced to continue to send that money to other states to subsidize their road and bridge projects and to perpetuate this imbalance is simply unfair and unjustifiable.

With the national interstate system completed, the formulas used to determine how much a State will receive from the Highway Trust Fund are antiquated and do not relate to what a State's real needs or contributions are.

The Voinovich-Levin bill is a consensus bill developed with the help of donor State Department of Transportation agencies and their coalition working group. This legislation would increase the minimum guarantee from 90.5 percent to 95 percent for all States. With this legislation, we intend to send a strong message to our colleagues and the authorizing Committee about the need to address the equity issue in the highway reauthorization bill. We are determined to make progress in this bill to distribute the highway funds in a more equitable manner so that every State gets its fair share.

This is simply an issue of fairness and we will not be satisfied until we achieve it.

By Mr. DORGAN (for himself and Mrs. HUTCHISON):

S. 763. A bill to direct the Federal Railroad Administration to make welded rail and tank car improvements; to the Committee on Commerce, Science, and Transportation.

Mr. DORGAN. Mr. President, today I am introducing bipartisan legislation to address improvements that need to be made to the Nation's rail tracks and tank cars. I am very pleased to be joined on this bill by Senator KAY BAILEY HUTCHISON.

It is vital that we address this issue of track and tank car safety. Rail accidents occur in our Nation too frequently, and can cause devastating harm, ranging from economic loss, environmental or health hazards, or the worst tragedy, the loss of human life.

In my own State of North Dakota a terrible derailment took place in Minot, ND in January of 2002. At approximately 1:37 a.m. on January 18, 2002, an eastbound Canadian Pacific Railway freight train, derailed 31 of its 112 cars about ½ mile west of the city limits of Minot, ND.

Five tank cars carrying anhydrous ammonia, a liquefied compressed gas, catastrophically ruptured, and a vapor plume covered the derailment site and surrounding area. About 146,700 gallons of anhydrous ammonia were released from the five cars, and a cloud of hydrolyzed ammonia formed almost immediately. This plume rose an estimated 300 feet and gradually expanded 5 miles downwind of the accident site and over a population of about 11,600 people. One resident was fatally injured, and 60 to 65 residents of the neighborhood nearest the derailment site had to be rescued. Over the next 5 days, another 74,000 gallons of anhydrous ammonia were released from six other anhydrous ammonia tank cars.

As a result of the accident, 11 people sustained serious injuries, and 322 people, including the 2 train crewmembers, sustained minor injuries. Damages exceeded $2 million, and more than $8 million was been spent for environmental remediation. Imagine the devastation that could have occurred if this accident had happened in a more populated area.

The National Transportation Safety Board (NTSB) investigated this terrible derailment, and in its report issued important safety recommendations on track inspections and tank car crashworthiness. The findings by the NTSB raised great concern. NTSB estimated that the pre-1989 tank cars were insufficiently crashworthy. The cars were estimated to make up approximately 60 percent of the pressure tank cars in the rail system, and with a 50-year lifespan, could continue operating until 2039. The risks posed by these cars are significant, and the NTSB set forth recommendations on addressing these safety issues.

Of further concern is the fact that statistics show that there were more than 1.23 million tank car shipments of hazardous materials in 2000, the last year for which the study had data available, in the United States and Canada. Of the top 10 hazardous materials transported by tank car, 5 were class 2 liquefied compressed gases, LPG, anhydrous ammonia, chlorine, propane, and vinyl chloride, that together accounted for more than 246,600 tank car shipments, or about 20 percent of all hazardous materials shipments by tank car.

Consequently, the NTSB specifically stated concerns about continued transportation of class 2 hazardous materials in pre-1989 tank cars. Because of the high volume of liquefied gases transported in these tank cars and the

cars' lengthy service lives, the NTSB concluded that using these cars to transport DOT class 2 hazardous materials under current operating practices poses an unquantified but real risk to the public. The NTSB also concluded that research was needed on improving the crashworthiness of all tank cars.

With regards to track safety, the NTSB also found that improved track inspection, such as visual inspections, and additional oversight by the FRA was necessary. The accident was caused in part because of undetected cracks in the rail tracks, and NTSB concluded that track inspections to identify and remove cracked rail components before the cracks grow to critical size are the primary preventive measure to ensure safety.

The findings from the NTSB's report are extremely troubling, and require immediate action by the Federal Railroad Administration (FRA) to implement the safety recommendations. Our legislation incorporates these recommendations and others on track safety, and sets forth time frames for the FRA to act so that we ensure that these critical and potentially life-saving recommendations will move forward.

It is important to note that the terrible tragedy that took place in Madrid last year demonstrates that tank and track safety are vital to prevent not only against rail accidents, but also against terrorist attacks against our rail system. We cannot delay on investigating improvements to tank cars that travel every day across this country, often carrying dangerous loads of hazardous material. This is a necessary step in improving rail security.

We will now work with the Senate Commerce Committee and the Senate leadership to speed enactment of this important legislation. Last year similar provisions were included in a larger rail security bill that passed the Senate, and I am hopeful that we can proceed along the same route this year, as both measures are vital to protect our rail system. I invite my colleagues to join me in cosponsoring this bill.

I ask unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 763

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Welded Rail and Tank Car Safety Improvement Act''.

SEC. 2. WELDED RAIL AND TANK CAR SAFETY IMPROVEMENTS.

(a) TRACK STANDARDS.—

(1) IN GENERAL.—Within 90 days after the date of enactment of this Act, the Federal Railroad Administration shall—

(A) require each track owner using continuous welded rail track to include procedures (in its procedures filed with the Administration pursuant to section 213.119 of title 49, Code of Federal Regulations) to improve the identification of cracks in rail joint bars;

(B) instruct Administration track inspectors to obtain copies of the most recent continuous welded rail programs of each railroad within the inspectors' areas of responsibility and require that inspectors use those programs when conducting track inspections; and

(C) establish a program to review continuous welded rail joint bar inspection data from railroads and Administration track inspectors periodically.

(2) Whenever the Administration determines that it is necessary or appropriate the Administration may require railroads to increase the frequency of inspection, or improve the methods of inspection, of joint bars in continuous welded rail.

(b) TANK CAR STANDARDS.—The Federal Railroad Administration shall—

(1) validate a predictive model to quantify the relevant dynamic forces acting on railroad tank cars under accident conditions within 1 year after the date of enactment of this Act; and

(2) initiate a rulemaking to develop and implement appropriate design standards for pressurized tank cars within 18 months after the date of enactment of this Act.

(c) OLDER TANK CAR IMPACT RESISTANCE ANALYSIS AND REPORT.—Within 1 year after the date of enactment of this Act the Federal Railroad Administration shall conduct a comprehensive analysis to determine the impact resistance of the steels in the shells of pressure tank cars constructed before 1989. Within 6 months after completing that analysis the Administration shall—

(1) establish a program to rank those cars according to their risk of catastrophic fracture and separation;

(2) implement measures to eliminate or mitigate this risk; and

(3) transmit a report to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Transportation and Infrastructure setting forth the measures implemented.

SEC. 3. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Federal Railroad Administration $1,000,000 for fiscal year 2006 to carry out this section, such sums to remain available until expended.

By Mr. CORZINE (for himself and Mr. LAUTENBERG):

S. 764. A bill to amend title XVIII of the Social Security Act to improve the coordination of prescription drug coverage provided under State pharmaceutical assistance programs with the prescription drug benefit provided under the medicare program, and for other purposes; to the Committee on Finance.

Mr. CORZINE. Mr. President, I rise today along with my colleague, Senator LAUTENBERG, to introduce legislation, the Preserving Access to Affordable Drugs (PAAD) Act. This legislation is essential to ensuring that our most vulnerable seniors who have existing prescription drug coverage do not see a reduction or disruption in their coverage once the Medicare prescription drug program goes into effect.

Hundreds of thousands of seniors, including 190,000 in my State, currently enrolled in state pharmacy assistance programs (SPAPs) will be forced out of those programs and into a private drug plan under the Medicare prescription drug benefit. Additionally, approximately six million seniors, including 140,000 in New Jersey, who are dually eligible for Medicare and Medicaid will lose access to their Medicaid prescription drug benefits, which are more generous and provide greater access to a variety of drugs than the Medicare benefit will.

No senior should be made worse off by the new Medicare law. The law should expand benefits—not reduce them. The PAAD Act will make critical changes to the Medicare law to ensure that the above-mentioned benefits are safeguarded.

The PAAD Act will allow States to automatically enroll SPAP and dually eligible Medicaid beneficiaries into one or more preferred prescription drug plans to ensure that these beneficiaries are enrolled in a Medicare drug plan that maximizes both their Federal and State prescription drug coverage and ensures for a seamless transition to the new Medicare Part D drug benefit.

The PAAD Act will ensure that New Jersey seniors who currently receive prescription drug benefits under PAAD or through the State's Medicaid program are not made worse off by the new Medicare law.

The PAAD Act will allow New Jersey to provide supplemental Medicaid prescription drug benefits to low-income seniors and disabled who currently receive generous prescription drug benefits under the Medicaid program and who will now receive their prescription drug benefits through Medicare.

One of the goals of medicine is to do no harm. The manner in which the Bush Administration has chosen to implement the Medicare law violates that tenet. The Medicare legislation signed by the President created the State Pharmaceutical Assistance Transition Commission specifically to address the coordination of benefits between SPAPS, State Medicaid drug programs, and the new Medicare drug plan. The Commission was explicit in its recommendation to CMS that states be permitted to automatically enroll these beneficiaries in preferred prescription drug plans to ''enhance benefits to enrollees, encourage enrollment, and promote coordination between Medicare Part D and [states].'' Members of the Commission recognized that many blind, disabled, and aged beneficiaries, those who most need coverage, would not be able to navigate the plan selection process and could face gaps in coverage. Yet, CMS recently denied New Jersey's request to automatically enroll those Medicare beneficiaries currently enrolled in New Jersey's PAAD and Medicaid programs

into a preferred Medicare prescription drug plan. This ruling effectively blocks New Jersey's efforts to preserve the generous prescription drug coverage the state currently provides to the 190,000 seniors enrolled in New Jersey's PAAD program and the 140,000 seniors and disabled enrolled in the state's Medicaid program when the new Medicare prescription drug benefit goes into effect on January 1, 2006.

Yesterday, I was joined by Senator LAUTENBERG in writing to the President to express our sincere dismay over the recent CMS ruling. It is clear that permitting states to automatically enroll these beneficiaries would guarantee that these seniors continue to receive the same level of prescription drug coverage, which is more generous than the coverage that will be available under the new Medicare benefit. Furthermore, auto enrollment would relieve beneficiaries from the anxiety of selecting the appropriate plan to ensure that their drug coverage is maximized. Certainly, beneficiaries who prefer to select their own prescription drug plan should have that choice, but those who want the state to act on their behalf to ensure that they receive the most comprehensive and seamless coverage should be afforded that option.

This legislation is critical to preserving and protecting existing prescription drug coverage while expanding it to those who currently lack such coverage. States like New Jersey, Pennsylvania, and New York, States that have well-established, generous prescription drug plans for seniors and the disabled, should not be prevented from continuing to provide the same level of coverage under the new Medicare law. I look forward to working with my colleagues to pass this legislation and preserve prescription drug benefits for all seniors.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 764

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Preserving Access to Affordable Drugs Act of 2005''.

SEC. 2. STATE AS AUTHORIZED REPRESENTATIVE.

(a) IN GENERAL.—Section 1860D–1(b)(1) of the Social Security Act (42 U.S.C. 1395w–101(b)(1)) is amended by adding at the end the following new subparagraph:

''(D) STATE AS AUTHORIZED REPRESENTATIVE.—A State Pharmaceutical Assistance Program (as defined in section 1860D–23(b)) may, at the option of the State operating the Program, act as the authorized representative for any part D eligible individual residing in the State who is enrolled in the Program or described in section 1935(c)(6)(A)(ii) in order to select one or more preferred prescription drug plans to enroll such an individual, so long as the individual is afforded the authority to decline such enrollment. A Program that acts as an authorized representative for an individual pursuant to the preceding sentence shall not be considered to have violated section 1860D–23(b)(2) solely because of the enrollment of such individual in a preferred prescription drug plan.''.

(b) CONFORMING AMENDMENT TO ANTI-DISCRIMINATION PROVISION.—Section 1860D–23(b)(2) of the Social Security Act (42 U.S.C. 1395w–133(b)(2)) is amended by inserting ''subject to 1860D–1(b)(1)(D),'' after ''which,''.

SEC. 3. FACILITATION OF COORDINATION.

Section 1860D–24(c)(1) of the Social Security Act (42 U.S.C. 1395w–134(c)(1)) is amended by striking ''all methods of operation'' and inserting ''its own methods of operation, except that a PDP sponsor or MA organization may not require a State Pharmaceutical Assistance Program or an RX plan described in subsection (b) to apply such tools when coordinating benefits''.

SEC. 4. ALLOWING MEDICAID WRAP.

Section 1935 of the Social Security Act (42 U.S.C. 1396u–5) is amended by striking subsection (d).

SEC. 5. EFFECTIVE DATE.

The amendments made by this Act shall take effect as if included in the enactment of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (Public Law 108–173; 117 Stat. 2066).

By Mr. WARNER (for himself and Mr. DURBIN):

S. 765. A bill to preserve mathematics- and science-based industries in the United States; to the Committee on Health, Education, Labor, and Pensions.

Mr. WARNER. Mr. President, I rise today to introduce, along with Senator DURBIN, an important bipartisan bill related to education and our national, homeland, and economic security. My good friend and colleague in the U.S. House of Representatives, Congressman FRANK WOLF, is introducing the same legislation today in the House.

Without a doubt, our ability to remain ahead of the curve in scientific and technological advancements is a key component to ensuring America's national, homeland and economic security in the post 9/11 world of global terrorism.

Yet alarmingly, the bottom line is that America faces a huge shortage of home-grown, highly trained scientific minds.

The situation America faces today is not unlike almost 50 years ago. On October 4, 1957, the Soviet Union successfully launched the first man-made satellite into space, Sputnik. The launch shocked America, as many of us had assumed that we were preeminent in the scientific fields. While prior to that unforgettable day America enjoyed an air of post World War II invincibility; afterwards our Nation recognized that there was a cost to its complacency. We had fallen behind.

In the months and years to follow, we would respond with massive investments in science, technology and engineering. In 1958, Congress passed legislation creating the National Defense Education Act, which was designed to stimulate advancement in science and mathematics. In addition, President Eisenhower signed into law legislation that established the National Aeronautics and Space Administration (NASA). And a few years later, in 1961, President Kennedy set the Nation's goal of landing a man on the moon within the decade.

These investments paid off. In the years following the Sputnik launch, America not only closed the scientific and technological gap with the Soviet Union, we surpassed them. Our renewed commitment to science and technology not only enabled us to safely land a man on the moon in 1969, it spurred research and development which helped ensure that our modern military has always had the best equipment and technology in the world. These post-Sputnik investments also laid the foundation for the creation of some of the most significant technologies of modern life, including personal computers and the Internet.

Why is any of this important to us today? Because, as the old saying goes—he or she who fails to remember history is bound to repeat it.

The truth of the matter is that today America's education system is coming up short in training the highly technical American minds that we now need and will continue to need far into the future.

The 2003 Program for International Student Assessment found that the math, problem solving, and science skills of fifteen year old students in the United States were below average when compared to their international counterparts in industrialized countries. While a little bit better news was presented by the recently released 2003 Trends in International Mathematics and Science Study (TIMSS), it is still nothing we should cheer about. TIMSS showed that eighth grade students in the U.S. had lower average math scores than fifteen other participating countries. U.S. science scores weren't much better.

Our colleges and universities are not immune to the waning achievement in math and science education. The National Science Foundation reports the percentage of bachelor degrees in science and engineering have been declining in the U.S. for nearly two decades. In fact, the proportion of college-age students earning degrees in math, science, and engineering was substantially higher in 16 countries in Asia and Europe than it was in the United States.

In the past, this country has been able to compensate for its shortfall in homegrown, highly trained, technical and scientific talent by importing the necessary brain power from foreign countries. However, with increased

global competition, this is becoming harder and harder. More and more of our imported brain power is returning home to their native countries. And regrettably, as they return home, many American high tech jobs are being outsourced with them.

Moreover, in the post 9/11 era, it is more important than ever from a security perspective to have American citizens performing certain tasks. We cannot run the risk of having to outsource the security of this country simply because we don't have enough highly trained U.S. citizens to meet our America's needs.

The legislation we are introducing today is a targeted measure that will help America meet its needs by providing strong incentives to students and graduates to pursue studies and careers in these important scientific and technical fields.

Our bill simply allows the Federal Government to pay the interest on undergraduate student loans for certain graduates of math, science, or engineering programs who agree to work in the United States in these fields for 5 consecutive years. Priority will be given to those students with degrees in majors that are key to protecting our national, homeland and economic security as a nation.

Almost 50 years ago our Nation learned a lesson about the cost of complacency in science and technology. While we responded with immediate vigor and ultimately prevailed, today, new dangers are upon us.

Once again, America must rise to meet a new challenge. In my view, this initiative is an important step forward that will encourage Americans to enter important fields of study that are crucial to the national, homeland, and economic security of this country.

By Mr. SANTORUM:

S. 766. A bill to remove civil liability barriers that discourage the donation of fire equipment to volunteer fire companies; to the Committee on the Judiciary.

Mr. SANTORUM. Mr. President, I am introducing the ''Good Samaritan Volunteer Firefighter Assistance Act of 2005.'' Amazingly, every year quality firefighting equipment worth millions of dollars is wasted. In order to avoid civil liability lawsuits, heavy industry and wealthier fire departments destroy surplus equipment, including hoses, fire trucks, protective gear and breathing apparatus, instead of donating it to volunteer fire departments.

The basic purpose of this legislation is to induce donations of surplus firefighting equipment by reducing the threat of civil liability for organizations, most commonly heavy industry, and individuals who wish to make these donations. The bill eliminates civil liability barriers to donations of surplus firefighting equipment by raising the liability standard for donors from ''negligence'' to ''gross negligence.'' By doing this, the legislation saves taxpayer dollars by encouraging donations, thereby reducing the taxpayers' burden of purchasing expensive equipment for volunteer fire departments.

The Good Samaritan Volunteer Firefighter Assistance Act of 2005 is modeled after a bill passed by the Texas state legislature in 1997 and signed into law by then-Governor George W. Bush which has resulted in more than $10 million in additional equipment donations from companies and other fire departments for volunteer departments which may not be as well equipped. Now companies in Texas can donate surplus equipment to the Texas Forest Service, which then certifies the equipment and passes it on to volunteer fire departments that are in need. The donated equipment must meet all original specifications before it can be sent to volunteer departments. Alabama, Arizona, Arkansas, California, Florida, Illinois, Indiana, Missouri, Nevada, South Carolina, and Pennsylvania have passed similar legislation at the State level.

In the 108th Congress, Representative CASTLE introduced the Good Samaritan Volunteer Firefighter Assistance Act, which had 64 bipartisan cosponsors in the House of Representatives. It is also supported by the National Volunteer Fire Council, the Firemen's Association of the State of New York, and a former director of the Federal Emergency Management Agency, FEMA, James Lee Witt. The legislation passed overwhelmingly in the House by a vote of 397–3. The bill has been reintroduced as H.R. 1088 in the 109th Congress and already has garnered 64 cosponsors. I introduced the Good Samaritan Volunteer Firefighter Assistance Act of 2004 in the 108th Congress that also enjoyed support from the National Volunteer Fire Council.

Federally, precedent for similar measures includes the Bill Emerson Good Samaritan Food Act, Public Law 104–210, named for the late Representative Bill Emerson, which encourages restaurants, hotels and businesses to donate millions of dollars worth of food. The Volunteer Protection Act of 1997, Public Law 105–101, also immunizes individuals who do volunteer work for non-profit organizations or governmental entities from liability for ordinary negligence in the course of their volunteer work. I have also previously introduced three Good Samaritan measures in the 106th Congress, S. 843, S. 844 and S. 845. These provisions were also included in a broader charitable package in S. 997, the Charity Empowerment Act, to provide additional incentives for corporate in-kind charitable contributions for motor vehicle, aircraft, and facility use. The same provision passed the House of Representatives in the 107th Congress as part of H.R. 7, the Community Solutions Act, in July of 2001, but was not signed into law.

Volunteers comprise approximately 73 percent of firefighters in the United States. Of the total estimated 1,078,300 firefighters across the country, 784,700 are volunteers. Of the more than 30,000 fire departments in the country, approximately 22,600 are all volunteer; 4,800 are mostly volunteer; 1,600 are mostly career; and 2,000 are all career. In 2000, 58 of the 103 firefighters who died in the line of duty were volunteers.

This legislation provides a commonsense incentive for additional contributions to volunteer fire departments around the country and would make it more attractive for corporations to give equipment to fire departments in other States. All of America has witnessed the heroic acts of selflessness and sacrifice of firefighters in New York City, Northern Virginia, and Pennsylvania. I urge my colleagues to join me in supporting this incentive for the provision of additional safety equipment for volunteer firefighters who put their lives on the line every day throughout this great Nation.

By Mr. BOND (for himself, Ms. MIKULSKI, Mr. TALENT, Mr. HARKIN, Mr. ROBERTS, and Mr. COLEMAN):

S. 767. A bill to establish a Division of Food and Agricultural Science within the National Science Foundation and to authorize funding for the support of fundamental agricultural research of the highest quality, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

Mr. BOND. I rise today to introduce legislation with Senators MIKULSKI, TALENT, HARKIN, ROBERTS and COLEMAN to establish a division of food and agricultural science within the National Science Foundation to support fundamental agricultural research of the highest quality. I present this to begin a critical discussion that I believe we must have over the next several months about how we are going to ensure we capitalize on the technology to maximize the benefits and minimize the costs of our agricultural production.

We remain the world leader in food and fiber production. We do it safely and through technology and the hard work of the American farmer. In the past half century, the number of people fed by a single U.S. farm has grown from 19 to 129. We have a tremendously innovative agricultural research program. Our farmers, our farm leaders are on the cutting edge of developing new technology. And we have seen the innovations continue to come down the pike. This has made it possible for one farmer to feed 129 people.

In addition, we export $60 billion worth of agricultural products, and we

do so at less cost and at less harm to the environment than any of our competitors around the world, again, because of new practices, diligence on the part of farmers, and new technology.

In a world that has a decreasing amount of soil available for cultivation, we have a growing population and we still have 800 million children who are hungry or malnourished throughout the world. As some have said: A person who is well fed can have many problems. A person who is hungry has but one problem. Unless we maximize technology and new practices, production will continue to overtax the world's natural resources.

Many people legitimately have raised concerns regarding new diseases and pests and related food safety issues. And they are growing. The leading competitiveness of our U.S. producers is only as solid as our willingness to invest in forward-looking investments and build upon our historic successes.

Now, we also know from past experience that with new technology the doors are being opened to novel new uses of renewable agricultural products in the fields of energy, medicine, and industrial products. In the future, we can make our farm fields and farm animals factories for everyday products, fuels, and medicines in a way that is efficient and better preserves our natural resources. Advances in the life sciences have come about, such as genetics, proteomics, and cell and molecular biology. They are providing the base for new and continuing agricultural innovations.

It was only about a dozen years ago that farmers in Missouri came to me to tell me about the potential that genetic engineering and plant biotechnology had for improving the production of food, and doing so with less impact on the environment, providing more nutritious food. Since that time, I have had a wonderful, continuing education, not in how it works but what it can do.

We know now, for example, that in hungry areas of the world as many as half a million children go blind from vitamin A deficiency, and maybe a million die from vitamin A deficiency. Well, through plant biotechnology, the International Rice Research Institute in the Philippines and others have developed Golden Rice, taking a gene from the sunflower, a beta-carotene gene, and they enrich the rice. The Golden Rice now has that vitamin A, and that is going to make a significant difference in dealing with malnutrition.

We also know that in many areas of the world, where agricultural production has overtaxed the land, where drought has cut the production, where virus has plagued production, the way we can make farmers self-sufficient, where we can restore the farm economy in many of these countries, is through plant biotechnology.

But this is just the beginning. This legislation I am introducing today seeks to lay the foundation for tremendous advances in the future.

This legislation stems from findings and recommendations produced by a distinguished group of scientists working on the Agricultural Research, Economics and Education Task Force, which I was honored to be able to include in the 2002 farm bill. The distinguished task force was led by Dr. William H. Danforth, of St. Louis, the brother of our former distinguished colleague, Senator Jack Danforth. Dr. Bill Danforth has a tremendous reputation in science and in education, with a commitment to human welfare and is known worldwide. He was joined by Dr. Nancy Betts, the University of Nebraska; Mr. Michael Bryan, president of BBI International; Dr. Richard Coombe, the Watershed Agricultural Council; Dr. Victor Lechtenbert, Purdue University; Dr. Luis Sequeira, the University of Wisconsin; Dr. Robert Wideman, the University of Arkansas; and Dr. H. Alan Wood, Mississippi State University.

I extend my congratulations and my sincere gratitude to Dr. Danforth and his team for providing the basis and the roadmap to ensure we have the mechanisms in place to solve the problems and capitalize on the opportunities in agricultural research. The full report of the task force can be found at www.ars.usda.gov/research.htm.

In summary, that study concludes that it is absolutely necessary we reinvigorate and forward focus our technology to meet the responsibilities of our time. New investment is critical for the world's consumers, the protection of our natural resources, the standard of living for Americans who labor in rural America, and for the well-being of the hungry people and the needy people throughout the world.

This legislation is supported by the some 22 Member and Associate Member Societies of the Federation of American Societies for Experimental Biology, as well as the Institute of Food Technologists, American Society of Agronomy, Crop Science Society of America, Soil Science Society of America, the Council for Agricultural Research, the National Coalition for Food and Agricultural Research, the American Soybean Association, National Cattlemen's Beef Association, National Chicken Council, National Corn Growers Association, National Farmers Union, National Milk Producers Federation, National Pork Producers Council, National Turkey Federation, Association of American Veterinary Medical Colleges and the United Fresh Fruit and Vegetable Association.

I look forward to pursuing this vision in the 109th Congress. I invite my colleagues who are interested in science and research to review this report, to look at this measure, to join with me and my cosponsors in the next session of Congress to talk about moving forward on what I think will be a tremendous opportunity to improve agriculture and its benefits to all our populations.

Madam President, this, I hope, will be the start of something really big. Today, Congressman GUTKNECHT is offering companion legislation in the House. I congratulate him on his leadership in promoting science and I am pleased to be working on this with him.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 767

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''National Food and Agricultural Science Act of 2005''.

SEC. 2. DEFINITIONS.

In this Act:

(1) COUNCIL.—The term ''Council'' means the Standing Council of Advisors established under section 4(c).

(2) DIRECTOR.—Except as otherwise provided in this Act, the term ''Director'' means the Director of Food and Agricultural Science.

(3) DIVISION.—The term ''Division'' means the Division of Food and Agricultural Science established under section 4(a).

(4) FOUNDATION.—The term ''Foundation'' means the National Science Foundation.

(5) FUNDAMENTAL AGRICULTURAL RESEARCH; FUNDAMENTAL SCIENCE.—The terms ''fundamental agricultural research'' and ''fundamental science'' mean fundamental research or science that—

(A) advances the frontiers of knowledge so as to lead to practical results or to further scientific discovery; and

(B) has an effect on agriculture, food, nutrition, human health, or another purpose of this Act, as described in section 3(b).

(6) SECRETARY.—The term ''Secretary'' means the Secretary of Agriculture.

(7) UNITED STATES.—The term ''United States'' when used in a geographical sense means the States, the District of Columbia, the Commonwealth of Puerto Rico, and all territories and possessions of the United States.

SEC. 3. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Agricultural Research, Economics, and Education Task Force established under section 7404 of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 3101 note) conducted an exhaustive review of agricultural research in the United States and evaluated the merits of establishing 1 or more national institutes focused on disciplines important to the progress of food and agricultural science. Consistent with the findings and recommendations of the Agricultural Research, Economics, and Education Task Force, Congress finds the following:

(1) Agriculture in the United States faces critical challenges, including an impending crisis in the food, agricultural, and natural resource systems of the United States. Exotic diseases and pests threaten crops and livestock, obesity has reached epidemic proportions, agriculturally-related environmental degradation is a serious problem for

the United States and other parts of the world, certain animal diseases threaten human health, and United States producers of some major crops are no longer the world's lowest cost producers.

(2) In order to meet these critical challenges, it is essential that the Nation ensure that the agricultural innovation that has been so successful in the past continues in the future. Agricultural innovation has resulted in hybrid and higher yielding varieties of basic crops and enhanced the world's food supply by increasing yields on existing acres. Since 1960, the world's population has tripled with no net increase in the amount of land under cultivation. Currently, only 1.5 percent of the population of the United States provides the food and fiber to supply the Nation's needs. Agriculture and agriculture sciences play a major role in maintaining the health and welfare of all people of the United States and in husbanding our land and water, and that role must be expanded.

(3) Fundamental scientific research that leads to understandings of how cells and organisms work is critical to continued innovation in agriculture in the United States. Such future innovations are dependent on fundamental scientific research, and will be enhanced by ideas and technologies from other fields of science and research.

(4) Opportunities to advance fundamental knowledge of benefit to agriculture in the United States have never been greater. Many of these new opportunities are the result of amazing progress in the life sciences over recent decades, attributable in large part to the provision made by the Federal Government through the National Institutes of Health and the National Science Foundation. New technologies and new concepts have speeded advances in the fields of genetics, cell and molecular biology, and proteomics. Much of this scientific knowledge is ready to be mined for agriculture and food sciences, through a sustained, disciplined research effort at an institute dedicated to this research.

(5) Publicly sponsored research is essential to continued agricultural innovation to mitigate or harmonize the long-term effects of agriculture on the environment, to enhance the long-term sustainability of agriculture, and to improve the public health and welfare.

(6) Competitive, peer-reviewed fundamental agricultural research is best suited to promoting the fundamental research from which breakthrough innovations that agriculture and society require will come.

(7) It is in the national interest to dedicate additional funds on a long-term, ongoing basis to an institute dedicated to funding competitive peer-reviewed grant programs that support and promote the highest caliber of fundamental agricultural research.

(8) The Nation's capacity to be competitive internationally in agriculture is threatened by inadequate investment in research.

(9) To be successful over the long term, grant-receiving institutions must be adequately reimbursed for their costs if they are to pursue the necessary agricultural research.

(10) To meet these challenges, address these needs, and provide for vitally needed agricultural innovation, it is in the national interest to provide sufficient Federal funds over the long term to fund a significant program of fundamental agricultural research through an independent institute.

(b) PURPOSES.—The purposes of the Division established under section 4(a) shall be to ensure that the technological superiority of agriculture in the United States effectively serve the people of the United States in the coming decades, and to support and promote fundamental agricultural research of the highest caliber in order to achieve goals, including the following goals:

(1) Increase the international competitiveness of United States agriculture.

(2) Develop knowledge leading to new foods and practices that improve nutrition and health and reduce obesity.

(3) Create new and more useful food, fiber, health, medicinal, energy, environmental, and industrial products from plants and animals.

(4) Improve food safety and food security by protecting plants and animals in the United States from insects, diseases, and the threat of bioterrorism.

(5) Enhance agricultural sustainability and improve the environment.

(6) Strengthen the economies of the Nation's rural communities.

(7) Decrease United States dependence on foreign sources of petroleum by developing bio-based fuels and materials from plants.

(8) Strengthen national security by improving the agricultural productivity of subsistence farmers in developing countries to combat hunger and the political instability that it produces.

(9) Assist in modernizing and revitalizing the Nation's agricultural research facilities at institutions of higher education, independent non-profit research institutions, and consortia of such institutions, through capital investment.

(10) Achieve such other goals and meet such other needs as determined appropriate by the Foundation, the Director, or the Secretary.

SEC. 4. ESTABLISHMENT OF DIVISION.

(a) ESTABLISHMENT.—There is established within the National Science Foundation a Division of Food and Agricultural Science. The Division shall consist of the Council and be administered by a Director of Food and Agricultural Science.

(b) REPORTING AND CONSULTATION.—The Director shall coordinate the research agenda of the Division after consultation with the Secretary.

(c) STANDING COUNCIL OF ADVISORS.—

(1) ESTABLISHMENT.—

(A) IN GENERAL.—There is established in the Division a Standing Council of Advisors composed of 12 highly qualified scientists who are not employed by the Federal Government and 12 stakeholders.

(B) SCIENTISTS.—

(i) APPOINTMENT.—The 12 scientist members of the Council shall be appointed to 4-year staggered terms by the Director of the National Science Foundation, with the consent of the Director of Food and Agricultural Science.

(ii) QUALIFICATIONS.—The persons nominated for appointment as scientist members of the Council shall be—

(I) eminent in the fields of agricultural research, nutrition, science, or related appropriate fields; and

(II) selected for appointment solely on the basis of established records of distinguished service and to provide representation of the views of agricultural research and scientific leaders in all areas of the Nation.

(C) STAKEHOLDERS.—

(i) APPOINTMENT.—The 12 stakeholder members of the Council shall be appointed to 4-year staggered terms by the Secretary, with the consent of the Director.

(ii) QUALIFICATIONS.—The persons nominated for appointment as stakeholder members of the Council shall—

(I) include distinguished members of the public of the United States, including representatives of farm organizations and industry, and persons knowledgeable about the environment, subsistence agriculture, energy, and human health and disease; and

(II) be selected for appointment so as to provide representation of the views of stakeholder leaders in all areas of the Nation.

(2) DUTIES.—The Council shall assist the Director in establishing the Division's research priorities, and in reviewing, judging, and maintaining the relevance of the programs funded by the Division. The Council shall review all proposals approved by the scientific committees of the Division to ensure that the purposes of this Act and the needs of the Nation are being met.

(3) MEETINGS.—

(A) IN GENERAL.—The Council shall hold periodic meetings in order to—

(i) provide an interface between scientists and stakeholders; and

(ii) ensure that the Division is linking national goals with realistic scientific opportunities.

(B) TIMING.—The meetings shall be held at the call of the Director, or at the call of the Secretary, but not less frequently than annually.

SEC. 5. FUNCTIONS OF DIVISION.

(a) COMPETITIVE RESEARCH.—

(1) IN GENERAL.—The Director shall carry out the purposes of this Act by awarding competitive peer-reviewed grants to support and promote the very highest quality of fundamental agricultural research.

(2) GRANT RECIPIENTS.—The Director shall make grants to fund research proposals submitted by—

(A) individual scientists;

(B) single and multi-institutional research centers; and

(C) entities from the private and public sectors, including researchers in the Department of Agriculture, the Foundation, or other Federal agencies.

(b) COMPLEMENTARY RESEARCH.—The research funded by the Division shall—

(1) supplement and enhance, not supplant, the existing research programs of, or funded by, the Department of Agriculture, the Foundation, and the National Institutes of Health; and

(2) seek to make existing research programs more relevant to the United States food and agriculture system, consistent with the purposes of this Act.

(c) GRANT-AWARDING ONLY.—The Division's sole duty shall be to award grants. The Division may not conduct fundamental agricultural research or fundamental science, or operate any laboratories or pilot plants.

(d) PROCEDURES.—The Director shall establish procedures for the peer review, awarding, and administration of grants under this Act, consistent with sound management and the findings and purposes described in section 3.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 104—EXPRESSING THE SENSE OF THE SENATE ENCOURAGING THE ACTIVE ENGAGEMENT OF AMERICANS IN WORLD AFFAIRS AND URGING THE SECRETARY OF STATE TO TAKE THE LEAD AND COORDINATE WITH OTHER GOVERNMENTAL AGENCIES AND NON-GOVERNMENTAL ORGANIZATIONS IN CREATING AN ONLINE DATABASE OF INTERNATIONAL EXCHANGE PROGRAMS AND RELATED OPPORTUNITIES

Mr. FEINGOLD (for himself and Mr. HAGEL) submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. RES. 104

Whereas the United States needs to do a better job of building personal and institutional relationships with peoples and Nations around the world in order to combat the rise in anti-American sentiment that many polls and studies have reported;

Whereas a broad bipartisan consensus in favor of strengthening United States public diplomacy emerged during 2003 in Congress and was expressed in various reports, including reports of the Council on Foreign Relations, the General Accounting Office, the Advisory Commission on Public Diplomacy, the Heritage Foundation, and the Advisory Group on Public Diplomacy for the Arab and Muslim World;

Whereas, in July 2004, the National Commission on Terrorist Attacks Upon the United States released its final report on United States intelligence, which determined that ''[j]ust as we did in the Cold War, we need to defend our ideals abroad vigorously. America does stand up for its values . . . If the United States does not act aggressively to define itself in the Islamic World, the extremists will gladly do the job for us.'';

Whereas the National Intelligence Reform Act of 2004 declares the sense of Congress that the United States should commit to a long-term and significant investment in promoting people-to-people engagement with all levels of society in other countries;

Whereas international exchange programs, which have assisted in extending American influence around the world by educating the world's leaders, have suffered from a decline in funding and policy priority;

Whereas, when students are instructed in their civic and community responsibilities during secondary education, the importance of their participation in global affairs should be underscored as well;

Whereas the number of United States university-level students studying abroad in 2002–2003 was 174,629, representing just over 1 percent of United States students;

Whereas ⅔ of United States students studying abroad study in Western Europe (18.2 percent in the United Kingdom alone), although 95 percent of the world population growth in the next 50 years is expected to occur outside of Western Europe;

Whereas there are 29,953,000 retired workers in the United States as of December 2004, meaning that there are many older Americans who have the talent, maturity, and time to volunteer their services abroad;

Whereas the average United States college graduate who has studied 1 of the less commonly taught languages reaches no more than an intermediate level of proficiency in the language, which is insufficient to meet national security requirements; and

Whereas there are hundreds of well-established organizations in the United States that implement educational and professional exchanges, international volunteering, and related programs, and the efforts of those organizations could readily be expanded to reach out to more Americans: Now, therefore, be it

Resolved,

SECTION 1. SHORT TITLE.

This resolution may be cited as the ''People-to-People Engagement in World Affairs Resolution''.

SEC. 2. SENSE OF SENATE.

It is the sense of the Senate that—

(1) the Secretary of State should coordinate with implementing partners in creating an online database that provides information on how Americans can take advantage of—

(A) international exchange programs of the Department of State, the Department of Education, and other Federal Government and non-government entities;

(B) volunteer opportunities with organizations that assist refugees and immigrants in the United States;

(C) opportunities to host international students and professionals in the United States;

(D) sister-city organizations in the United States;

(E) international fairs and cultural events in the United States; and

(F) foreign language learning opportunities;

(2) Americans should strive to become more engaged in international affairs and more aware of peoples and developments outside the United States;

(3) Americans should seize 1 or more opportunities toward this end, by such means as—

(A) participating in a professional or cultural exchange;

(B) studying abroad;

(C) volunteering abroad;

(D) working with an immigrant or refugee group;

(E) hosting a foreign student or professional;

(F) participating in a sister-city program; and

(G) learning a foreign language; and

(4) Members of Congress should raise the importance of international engagement in the districts and States the Members represent.

Mr. FEINGOLD. Mr. President, I am pleased to submit the People-to-People Engagement in World Affairs resolution with my colleague from Nebraska, Senator HAGEL.

In July 2004, the National Commission on Terrorist Attacks Upon the United States released its final report, which determined that ''just as we did in the Cold War, we need to defend our ideals abroad vigorously. . . . If the United States does not act aggressively to define itself in the Islamic world, the extremists will gladly do the job for us.'' The 9/11 Commission report clearly states that in the interests of national security, the U.S. must commit to a long-term, global strategy, which includes, among other things, effective public diplomacy.

Public diplomacy is an essential component of our efforts to define and defend America's interests and ideals abroad. But a successful, long-term approach to building solid relationships with the rest of the world is not just the mission of the State Department. It also requires the engagement of the American people.

This People-to-People Engagement in World Affairs resolution is a call to Americans to reach beyond our borders to engage with the world at an individual level. It encourages Americans to seize opportunities to engage in the global arena—through participating in a professional or cultural exchange; studying or volunteering abroad; working with an immigrant or refugee group in the United States; hosting a foreign student or professional; participating in a sister-city program; or learning a foreign language. This resolution also urges the State Department to coordinate between government agencies and non-governmental organizations to create a database where Americans can learn of opportunities to become involved in world affairs. Furthermore, it encourages all Members of Congress to work to raise the importance of citizen diplomacy in their states and districts.

Americans must make a serious investment in reaching across borders and reversing the tide of increasing anti-American sentiments abroad. According to a 2003 Pew Research Center survey, during 1999–2000, more than 50 percent of the people in surveyed countries held a favorable view of the U.S., and in at least one country, favorable views of the U.S. were held by over 80 percent of those surveyed. More recent surveys reveal a stark contrast with those figures and growing anti-American sentiment. Pew found that, by 2003, favorable views of the United States in these countries plummeted. Additionally, whereas negative public opinion of the U.S. among Muslims was once limited to the Middle East, now it has spread to populations in places like Nigeria and Indonesia. Pew found that ''the bottom has fallen out of Arab and Muslim support for the United States.''

While these sentiments are most notable in the Muslim world, they extend even farther, coloring the views of many others.

Growing anti-American sentiment abroad is dangerous and breeds misperceptions in future generations. Our ability to work with allies to foster democratic societies and tackle global problems relates directly to our image abroad. Building an international coalition with our allies requires their trust that our efforts are genuine. Success in combating terrorism, the greatest global threat, is contingent upon a unified, global participation. Members of the international community must collaborate to eliminate loopholes that terrorist networks manipulate when intelligence and communication break down between borders.

Anti-Americanism can feed a steady supply of recruits and supporters for terrorist networks, intent on our destruction. Terrorist networks capitalize on misperceptions about the U.S. to advance their own agenda and scapegoat the U.S. as the reason for the poverty, weak and corrupt states, and powerlessness that many experience on a daily basis.

International cooperation is also essential for effective progress in other important, trans-border issues, such as the proliferation of WMD, human trafficking, poverty, environmental degradation, and diseases from HIV/AIDS to polio. We cannot solve these problems alone—we need allies to help find and achieve meaningful solutions.

Combating anti-American sentiments requires that we engage in a conversation with people in all levels of society beyond our borders. And as Secretary Rice has noted, our dialogue cannot be a monologue. Talking at people about what the U.S. image abroad should be is not sustainable or effective. Talking with people, and listening to them, however, can be the start of real understanding and even trust. That conversation needs to happen at a governmental level, through public and private diplomacy, but it also needs to happen at an individual person-to-person level, through citizen diplomacy.

I have met with a number of groups from my State of Wisconsin that tell me they are concerned about misperceptions of America abroad, which they believe discourage people from coming to the U.S. to visit, study, learn about our wonderful country, and share their knowledge. I am so proud of the work people back in Wisconsin have done to overcome barriers to engaging outside our borders, whether by continuing Wisconsin's strong history of support for the Peace Corps, or by taking part in farmer to farmer initiatives and education exchange programs, building sister communities, or tirelessly working to ensure that Wisconsin maintains its success in attracting foreign visitors to our remarkable state. In 2004, Wisconsin was awarded the Goldman Sachs Foundation Prizes for Excellence in International Education in honor of its work to bring international education and skills into its curriculum. In fact, earlier this year, Wisconsin welcomed a group of teachers from Azerbaijan to study the workings of our education system to create a model for a new curriculum in their country.

Wisconsin also works to improve communities abroad. A non-profit organization based in Wisconsin helps abused children in Latvia and is working to create the first family shelter there for these children and their mothers. Another Wisconsinite who is an expert in dairy prices participated in a farmer to farmer program to assist in building a pricing system in Armenia's dairy industry. He was able to share his experiences from this program with myself and people back in the state.

Citizen diplomacy not only helps the rest of the world to understand us, it strengthens this country internally as well. Americans with insight into and understanding of the world beyond our borders become energized constituents who demand wise foreign policy and help all of us to understand global events.

President Kennedy acknowledged the importance of public diplomacy in 1960 and challenged Americans to serve their country through building stronger communities abroad. His vision is even more relevant today. It is our responsibility to connect with people outside our borders. This duty can be fulfilled by teachers, students, retirees, and anyone who can share the best of the American people. We are a generous nation. Many of our fellow Americans have dedicated their lives to bringing about change for a better world. It is in our hands to carry this mission forward.

SENATE RESOLUTION 105—DESIGNATING APRIL 15, 2005, AS NATIONAL YOUTH SERVICE DAY, AND FOR OTHER PURPOSES

Ms. MURKOWSKI (for herself, Mr. AKAKA, Mr. ALLEN, Mr. BAYH, Mr. BINGAMAN, Mrs. BOXER, Mrs. CLINTON, Mr. COCHRAN, Mr. COLEMAN, Ms. COLLINS, Mr. CONRAD, Mr. CORNYN, Mr. CRAIG, Mr. DEWINE, Mr. DODD, Mr. DOMENICI, Mr. DORGAN, Mr. DURBIN, Mr. FEINGOLD, Mrs. FEINSTEIN, Mr. GREGG, Mr. HAGEL, Mr. ISAKSON, Mr. JOHNSON, Mr. KERRY, Ms. LANDRIEU, Mr. LIEBERMAN, Mr. LEVIN, Mr. LOTT, Mr. MARTINEZ, Ms. MIKULSKI, Mrs. MURRAY, Mr. NELSON of Nebraska, Mr. REED, Mr. SALAZAR, Mr. SANTORUM, Mr. SCHUMER, Mr. SESSIONS, Ms. SNOWE, Mr. SPECTER, Ms. STABENOW, Mr. STEVENS, Mr. THUNE, and Mr. BUNNING) submitted the following resolution; which was considered and agreed to:

S. RES. 105

Whereas National Youth Service Day is an annual public awareness and education campaign that highlights the valuable contributions that young people make to their communities throughout the year;

Whereas the goals of National Youth Service Day are to mobilize youth as leaders in identifying and addressing the needs of their communities through service and service-learning, to support youth on a lifelong path of service and civic engagement, and to educate the public, the media, and policymakers about the year-round contributions of young people as community leaders;

Whereas young people in the United States, and in many other countries, are volunteering more than in any generation in history;

Whereas young people should be viewed as the hope not only of the future, but also of today, and should be valued for the idealism, energy, creativity, and commitment they bring to the challenges found in their communities;

Whereas there is a fundamental and conclusive correlation between youth service and lifelong adult volunteering and philanthropy;

Whereas through community service, young people build character and learn valuable skills, including time management, teamwork, needs-assessment, and leadership, that are sought by employers;

Whereas service-learning, an innovative teaching method combining service to the community with curriculum-based learning, is a proven strategy to increase academic achievement and strengthens civic engagement and civic responsibility;

Whereas several private foundations and corporations in the United States support service-learning because they understand that strong communities begin with strong schools and a community investment in the lives and futures of youth;

Whereas a sustained investment by the Federal Government, business partners, schools, and communities fuels the positive, long-term cultural change that will make service and service-learning the common expectation and the common experience of all young people;

Whereas National Youth Service Day, a program of Youth Service America, is the largest service event in the world and is being observed for the 17th consecutive year in 2005;

Whereas National Youth Service Day, with the support of 50 lead agencies, hundreds of grant winners, and thousands of local partners, engages millions of young people nationwide;

Whereas National Youth Service Day will involve 114 national partners, including 8 Federal agencies and 10 organizations that are offering grants to support National Youth Service Day;

Whereas National Youth Service Day has inspired Global Youth Service Day, which occurs concurrently in over 120 countries and is now in its sixth year; and

Whereas young people will benefit greatly from expanded opportunities to engage in meaningful volunteer service and service-learning: Now, therefore, be it

Resolved,

SECTION 1. RECOGNITION AND ENCOURAGEMENT OF YOUTH COMMUNITY SERVICE.

The Senate recognizes and commends the significant contributions of American youth and encourages the cultivation of a common civic bond among young people dedicated to serving their neighbors, their communities, and the Nation.

SEC. 2. NATIONAL YOUTH SERVICE DAY.

The Senate—

(1) designates April 15, 2005, as ''National Youth Service Day''; and

(2) calls on the people of the United States to—

(A) observe the day by encouraging and engaging youth to participate in civic and community service projects;

(B) recognize the volunteer efforts of our Nation's young people throughout the year; and

(C) support these efforts and engage youth in meaningful decision making opportunities today as an investment in the future of our Nation.

SENATE CONCURRENT RESOLUTION 26—HONORING AND MEMORIALIZING THE PASSENGERS AND CREW OF UNITED AIRLINES FLIGHT 93

Mr. CONRAD (for himself, Mr. SANTORUM, Mr. ALLARD, Mr. BAYH, Mr. BINGAMAN, Mrs. BOXER, Mr. CARPER, Mrs. CLINTON, Mr. COBURN, Mr. COCHRAN, Mr. CORZINE, Mr. DORGAN, Mr. DURBIN, Mr. ENSIGN, Mrs. FEINSTEIN, Mr. ISAKSON, Mr. JEFFORDS, Mr. JOHNSON, Ms. LANDRIEU, Mr. LEAHY, Ms. MIKULSKI, Mr. ROCKEFELLER, Mr. SALAZAR, Mr. SCHUMER, Mr. SPECTER, and Mr. STEVENS) submitted the following concurrent resolution; which was referred to the Committee on Rules and Administration:

S. CON. RES. 26

Whereas on September 11, 2001, acts of war involving the hijacking of commercial airplanes were committed against the United States, killing and injuring thousands of innocent people;

Whereas 1 of the hijacked planes, United Airlines Flight 93, crashed in a field in Pennsylvania;

Whereas while Flight 93 was still in the air, the passengers and crew, through cellular phone conversations with loved ones on the ground, learned that other hijacked airplanes had been used to attack the United States;

Whereas during those phone conversations, several of the passengers indicated that there was an agreement among the passengers and crew to try to overpower the hijackers who had taken over Flight 93;

Whereas Congress established the National Commission on Terrorist Attacks Upon the United States (commonly referred to as ''the 9–11 Commission'') to study the September 11, 2001, attacks and how they occurred;

Whereas the 9–11 Commission concluded that ''the nation owes a debt to the passengers of Flight 93. Their actions saved the lives of countless others, and may have saved either the U.S. Capitol or the White House from destruction.''; and

Whereas the crash of Flight 93 resulted in the death of everyone on board: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That—

(1) the United States owes the passengers and crew of United Airlines Flight 93 deep respect and gratitude for their decisive actions and efforts of bravery;

(2) the United States extends its condolences to the families and friends of the passengers and crew of Flight 93;

(3) not later than October 1, 2006, the Speaker of the House of Representatives, the minority leader of the House of Representatives, the majority leader of the Senate, and the minority leader of the Senate shall select an appropriate memorial that shall be located in the United States Capitol and that shall honor the passengers and crew of Flight 93, who saved the United States Capitol from destruction; and

(4) the memorial shall state the purpose of the honor and the names of the passengers and crew of Flight 93 on whom the honor is bestowed.

Mr. CONRAD. Mr. President, I rise today to submit a concurrent resolution to honor the memory of the passengers on flight 93. As we reflect on the events of 9/11 and mourn the great loss we suffered, we remember the innocent who perished and we are reminded of the valiant efforts of those who saved lives, including the passengers and crew of United Airlines flight 93. Those brave people gave up their lives in order to save others that fateful day.

Last fall, the 9/11 Commission released its report about the series of events that took place on September 11, 2001. The Senate has subsequently undertaken an evaluation of the Commission's findings through a series of hearings. As the story continues to unfold, it becomes clearer how important the actions of the passengers and crew of flight 93 were. We now know that flight 93 was almost certainly headed to the U.S. Capitol or the White House. We also know the passengers of flight 93 learned through a series of phone calls to loved ones that hijackers on three other flights had turned airplanes into flying bombs that morning, crashing them into the World Trade Center and the Pentagon.

Armed only with that knowledge and their own courage and resolve, those brave passengers attacked the hijackers and forced them to crash flight 93 into rural Pennsylvania far short of its intended target. The 9/11 Commission concluded that the Nation owes a debt to the passengers of flight 93. Their actions saved the lives of countless others and may have saved either the U.S. Capitol or the White House from destruction. Those of us who work here in the Capitol owe a special debt of gratitude to those heroes. Their actions saved one of the greatest symbols of our democracy.

Today I am resubmitting a resolution honoring and memorializing the passengers and crew of United Airlines flight 93. This legislation expresses our deepest respect and gratitude to them, as well as condolences to their families and friends. This bill also calls for an appropriate memorial to be placed in the Capitol by the bicameral, bipartisan leaders of Congress.

Today I bow my head in memory of those who died at the World Trade Center and the Pentagon. I also pay respect to our first responders, volunteers, and average citizens who risked their lives to save others on that day.

Finally, I pay homage to the passengers and crew of flight 93 for taking on those who wished to harm our country and Nation's Capitol. I believe it is appropriate at this time to acknowledge the actions of the passengers of flight 93 for showing such remarkable heroism and to commemorate them in the very walls that might have crumbled had they not made that ultimate sacrifice. We are forever indebted to them and should never forget their bravery or sacrifice or that of their loved ones.

The Senate unanimously passed an identical resolution last October 11, within a month of its introduction, but it did not pass the House of Representatives before the adjournment of the 108th Congress. The bipartisan legislation I am reintroducing today has the support of 25 of my colleagues, including Senator SANTORUM from Pennsylvania, who has joined me in leading this effort. I am also happy to report that Congressman SHUSTER of Pennsylvania will also be introducing companion legislation today.

I hope all my colleagues will join me in sponsoring this resolution. I hope on a broad bipartisan basis we are able to recognize those brave passengers and crew of flight 93 for what they did on that remarkable day.

Mr. SANTORUM. Mr. President, I rise today with Senator CONRAD as a proud cosponsor of a resolution which recognizes the immense bravery of the crew and passengers on flight 93. Over 3½ years have passed since September 11, 2001, but we, the American people, have not forgotten the bravery and selflessness that was shown by our fellow citizens on that day.

During the 108th Congress, the 9/11 Commission investigated the events that took place on September 11, 2001, including flight 93's crash in Somerset County, PA. As a result of a series of Senate hearings held to evaluate and gain a clearer understanding of the 9/11 Commission's findings, the actions of flight 93's passengers and crew have become increasingly evident. We know with near certainty now that the terrorists had plans of causing severe destruction to either the White House or the Capitol Building.

Having realized through phone calls to loved ones that three other planes had already been crashed that morning by terrorists, the passengers on flight 93 acted quickly and collaboratively to overtake the hijackers and force them to crash the plane into a rural part of Pennsylvania, keeping the plane's intended target safe from harm.

As a result of the 9/11 Commission's findings, we conclude that America is indebted to the heroic actions of those on flight 93, who showed great bravery so that many other lives could be spared from ruin.

We who work here in the Capitol are particularly indebted to those on board flight 93. In addition to saving the lives of thousands, the passengers on flight 93 ensured the preservation of one of the greatest symbols of America's freedom and democracy.

In an effort to recognize and honor the heroes on flight 93, I am proud to submit this resolution with Senator CONRAD. This resolution is an expression of our deep gratitude for what those on flight 93 did for each of us here in our Nation's Capital, as well as an expression of sorrow and condolence to their families and friends. Additionally, this resolution provides for a place in the Capitol Building to be memorialized in the name of the crew and

passengers of flight 93, with a remembrance plaque placed at the location.

This day presents an opportunity to remember all of those who died on September 11, 2001. Additionally, our volunteers, first responders, and the American people deserve a heartfelt ''thank you'' for the strength and strong resolve they showed in the face of destructive, cowardly acts.

I hope that all of my colleagues will join with Senator CONRAD and me in this bipartisan effort to honor the crew and passengers on flight 93 for what they did on that infamous day in America's history. May their selfless actions, taken for us and the American people, never be forgotten.

AMENDMENTS SUBMITTED AND PROPOSED

SA 338. Ms. SNOWE (for herself, Mr. KERRY, Mr. LIEBERMAN, Ms. CANTWELL, Mr. BAYH, and Mr. PRYOR) submitted an amendment intended to be proposed by her to the bill H.R. 1268, Making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table.

SA 339. Mr. DEWINE (for himself, Mr. DURBIN, Mr. ALLEN, and Mr. COLEMAN) submitted an amendment intended to be proposed by him to the bill H.R. 1268, supra; which was ordered to lie on the table.

SA 340. Mr. DEWINE (for himself, Mr. DURBIN, and Mr. COLEMAN) submitted an amendment intended to be proposed by him to the bill H.R. 1268, supra; which was ordered to lie on the table.

SA 341. Mr. DEWINE (for himself, Mr. DURBIN, and Mr. COLEMAN) submitted an amendment intended to be proposed by him to the bill H.R. 1268, supra; which was ordered to lie on the table.

SA 342. Mr. DEWINE (for himself, Mr. BINGAMAN, Mr. COLEMAN, Mr. NELSON of Florida, Mr. MARTINEZ, Mr. CORZINE, Mrs. DOLE, Mr. DODD, and Mr. CHAFEE) submitted an amendment intended to be proposed by him to the bill H.R. 1268, supra; which was ordered to lie on the table.

SA 343. Mr. PRYOR submitted an amendment intended to be proposed by him to the bill H.R. 1268, supra; which was ordered to lie on the table.

SA 344. Mrs. MURRAY (for herself, Mr. AKAKA, Mr. BYRD, Mrs. BOXER, Mr. BINGAMAN, Mr. ROCKEFELLER, Ms. MIKULSKI, Mr. JEFFORDS, Mr. SALAZAR, Mr. DAYTON, Mr. SCHUMER, Mr. JOHNSON, Mr. CORZINE, Mrs. LINCOLN, Ms. LANDRIEU, Mr. DORGAN, and Mr. BIDEN) proposed an amendment to the bill H.R. 1268, supra.

SA 345. Mr. LEVIN submitted an amendment intended to be proposed by him to the bill H.R. 1268, supra; which was ordered to lie on the table.

SA 346. Mr. CORZINE (for himself and Mr. BROWNBACK) submitted an amendment intended to be proposed by him to the bill H.R. 1268, supra; which was ordered to lie on the table.

SA 347. Mr. CORZINE (for himself, Mr. DEWINE, Mr. BROWNBACK, Mr. DURBIN, and Mr. LEAHY) submitted an amendment intended to be proposed by him to the bill H.R. 1268, supra; which was ordered to lie on the table.

SA 348. Mr. TALENT submitted an amendment intended to be proposed by him to the bill H.R. 1268, supra; which was ordered to lie on the table.

SA 349. Mr. NELSON, of Nebraska submitted an amendment intended to be proposed by him to the bill H.R. 1268, supra; which was ordered to lie on the table.

SA 350. Mr. KENNEDY submitted an amendment intended to be proposed by him to the bill H.R. 1268, supra; which was ordered to lie on the table.

SA 351. Mr. SALAZAR submitted an amendment intended to be proposed by him to the bill H.R. 1268, supra; which was ordered to lie on the table.

SA 352. Mr. SALAZAR (for himself and Mr. ALLARD) submitted an amendment intended to be proposed by him to the bill H.R. 1268, supra; which was ordered to lie on the table.

SA 353. Mr. LEVIN submitted an amendment intended to be proposed by him to the bill H.R. 1268, supra; which was ordered to lie on the table.

SA 354. Mr. GRAHAM submitted an amendment intended to be proposed by him to the bill H.R. 1268, supra; which was ordered to lie on the table.

SA 355. Mr. MARTINEZ submitted an amendment intended to be proposed by him to the bill H.R. 1268, supra; which was ordered to lie on the table.

SA 356. Mr. DURBIN (for himself, Ms. MIKULSKI, Mr. ALLEN, and Mr. CORZINE) proposed an amendment to the bill H.R. 1268, supra.

TEXT OF AMENDMENTS

SA 338. Ms. SNOWE (for herself, Mr. KERRY, Mr. LIEBERMAN, Ms. CANTWELL, Mr. BAYH, and Mr. PRYOR) submitted an amendment intended to be proposed by her to the bill H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

On page 214, strike lines 5 through 19.

SA 339. Mr. DEWINE (for himself, Mr. DURBIN, Mr. ALLEN, and Mr. COLEMAN) submitted an amendment intended to be proposed by him to the bill H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

On page 159, strike line 6 and all that follows through page 160, line 22, and insert the following:

SEC. 1112. (a) INCREASE IN DEATH GRATUITY.—

(1) AMOUNT.—Section 1478(a) of title 10, United States Code, is amended by striking ''$12,000'' and inserting ''$100,000''.

(2) EFFECTIVE DATE.—The amendments made by this subsection shall take effect on October 7, 2001, and shall apply with respect to deaths occurring on or after that date.

(3) NO ADJUSTMENT FOR INCREASES IN BASIC PAY BEFORE DATE OF ENACTMENT.—No adjustment shall be made under subsection (c) of section 1478 of title 10, United States Code, with respect to the amount in force under subsection (a) of that section, as amended by paragraph (1), for any period before the date of the enactment of this Act.

(4) PAYMENT FOR DEATHS BEFORE DATE OF ENACTMENT.—Any additional amount payable as a death gratuity under this subsection for the death of a member of the Armed Forces before the date of the enactment of this Act shall be paid to the eligible survivor of the member previously paid a death gratuity under section 1478 of title 10, United States Code, for the death of the member. If payment cannot be made to such survivor, payment of such amount shall be made to living survivor of the member otherwise highest on the list under 1477(a) of title 10, United States Code.

On page 161, line 23, strike ''$238,000'' and insert ''$150,000''.

SA 340. Mr. DEWINE (for himself, Mr. DURBIN, and Mr. COLEMAN) submitted an amendment intended to be proposed by him to the bill H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ___. INCREASED PERIOD OF CONTINUED TRICARE COVERAGE OF CHILDREN OF MEMBERS OF THE UNIFORMED SERVICES WHO DIE WHILE SERVING ON ACTIVE DUTY FOR A PERIOD OF MORE THAN 30 DAYS.

(a) PERIOD OF ELIGIBILITY.—Section 1079(g) of title 10, United States Code, is amended—

(1) by inserting ''(1)'' after ''(g)''; and

(2) by striking the second sentence and inserting the following:

''(2) In addition to any continuation of eligibility for benefits under paragraph (1), when a member dies while on active duty for a period of more than 30 days, the member's dependents who are receiving benefits under a plan covered by subsection (a) shall continue to be eligible for such benefits during the three-year period beginning on the date of the member's death, except that, in the case of such a dependent who is a child of the

deceased, the period of continued eligibility shall be the longer of the following periods beginning on such date:

''(A) Three years.

''(B) The period ending on the date on which the child attains 21 years of age.

''(C) In the case of a child of the deceased who, at 21 years of age, is enrolled in a full-time course of study in a secondary school or in a full-time course of study in an institution of higher education approved by the administering Secretary and was, at the time of the member's death, in fact dependent on the member for over one-half of the child's support, the period ending on the earlier of the following dates:

''(i) The date on which the child ceases to pursue such a course of study, as determined by the administering Secretary.

''(ii) The date on which the child attains 23 years of age.

''(3) For the purposes of paragraph (2)(C), a child shall be treated as being enrolled in a full-time course of study in an institution of higher education during any reasonable period of transition between the child's completion of a full-time course of study in a secondary school and the commencement of an enrollment in a full-time course of study in an institution of higher education, as determined by the administering Secretary.

''(4) No charge may be imposed for any benefits coverage under this chapter that is provided for a child for a period of continued eligibility under paragraph (2), or for any benefits provided to such child during such period under that coverage.''.

(b) EFFECTIVE DATE.—The amendments made by this section shall take effect as of October 1, 2001, and shall apply with respect to deaths occurring on or after such date.

SA 341. Mr. DEWINE (for himself, Mr. DURBIN, and Mr. COLEMAN) submitted an amendment intended to be proposed by him to the bill H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ___. EXPANSION OF AUTHORIZED USES OF EDUCATIONAL ASSISTANCE UNDER THE SURVIVORS' AND DEPENDENTS' EDUCATIONAL ASSISTANCE PROGRAM.

Section 3531(a) of title 38, United States Code, is amended by inserting ''room, board,'' after ''equipment,''.

SA 342. Mr. DEWINE (for himself, Mr. BINGAMAN, Mr. COLEMAN, Mr. NELSON of Florida, Mr. MARTINEZ, Mr. CORZINE, Mrs. DOLE, Mr. DODD, and Mr. CHAFEE) submitted an amendment intended to be proposed by him to the bill H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

On page 183, after line 23, add the following:

FUNDS APPROPRIATED TO THE PRESIDENT

UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT

CHILD SURVIVAL AND HEALTH PROGRAMS FUND

For necessary expenses to provide assistance to Haiti under chapter 1 of part I of the Foreign Assistance Act of 1961, for child survival, health, and family planning/reproductive health activities, in addition to funds otherwise available for such purposes, $10,000,000, to remain available until expended: *Provided*, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

ASSISTANCE TO HAITI

SEC. 2105. (a)(1) The total amount appropriated by this chapter under the heading ''ECONOMIC SUPPORT FUND'' is increased by $21,000,000. Of the total amount appropriated under that heading, $21,000,000 shall be available for necessary expenses to provide assistance to Haiti.

(2) Of the funds made available under paragraph (1), up to $10,000,000 may be made available for election assistance in Haiti.

(3) Of the funds made available under paragraph (1), up to $10,000,000 may be made available for public works programs in Haiti.

(4) Of the funds made available under paragraph (1), up to $1,000,000 may be made available for administration of justice programs in Haiti.

(5) The amount made available under paragraph (1) is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

(b)(1) The total amount appropriated by this chapter under the heading ''INTERNATIONAL NARCOTICS CONTROL AND LAW ENFORCEMENT'' is increased by $10,000,000. Of the total amount appropriated under that heading, $10,000,000 shall be available for necessary expenses to provide assistance to Haiti.

(2) Of the funds made available under paragraph (1), up to $5,000,000 may be made available for training and equipping the Haitian National Police.

(3) Of the funds made available under paragraph (1), up to $5,000,000 may be made available to provide additional United States civilian police in support of the United Nations Stabilization Mission in Haiti.

(4) The amount made available under paragraph (1) is designated as an emergency requirement pursuant to section 402 of the conference report to accompany S. Con. Res. 95 (108th Congress).

SA 343. Mr. PRYOR submitted an amendment intended to be proposed by him to the bill H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

On page 231, between lines 3 and 4, insert the following:

SEC. 6047. The United States releases to the State of Arkansas the reversionary interest described in sections 2 and 3 of the Act entitled ''An Act authorizing the transfer of part of Camp Joseph T. Robinson to the State of Arkansas'', approved June 30, 1950 (64 Stat. 311, chapter 429), in and to the surface estate of the land constituting Camp Joseph T. Robinson, Arkansas, which lies east of the Batesville Pike county road, in sections 24, 25, and 36, township 3 north, range 12 west, Pulaski County, Arkansas.

SA 344. Mrs MURRAY (for herself, Mr. AKAKA, Mr. BYRD, Mrs. BOXER, Mr. BINGAMAN, Mr. ROCKEFELLER, Ms. MIKULSKI, Mr. JEFFORDS, Mr. SALAZAR, Mr. DAYTON, Mr. SCHUMER, Mr. JOHNSON, Mr. CORZINE, Mrs. LINCOLN, Ms. LANDRIEU, Mr. DORGAN, and Mr. BIDEN) proposed an amendment to the bill H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal to ensure expeditious construction of the San Diego border fence, and for other purposes; as follows:

On page 188, after line 20, add the following:

CHAPTER 5

DEPARTMENT OF VETERANS AFFAIRS

VETERANS HEALTH ADMINISTRATION

MEDICAL SERVICES

For necessary expenses for furnishing, as authorized by law, outpatient and inpatient care and treatment to beneficiaries of the Department of Veterans Affairs and veterans as described in paragraphs (1) through (8) of section 1705(a) of title 38, United States Code, including care and treatment in facilities not under the jurisdiction of the department and including medical supplies and equipment and salaries and expenses of health-care employees hired under title 38, United States Code, and to aid State homes as authorized under section 1741 of title 38, United States Code; $1,975,183,000 plus reimbursements: *Provided*, That of the amount under this heading, $610,183,000 shall be available to address the needs of servicemembers deployed for Operation Iraqi Freedom and Operation Enduring Freedom; *Provided further*, That of the amount under this heading, $840,000,000 shall be available, in equal amounts of $40,000,000, for each Veterans Integrated Service Network (VISN) to meet current and pending care and treatment requirements: *Provided further*, That of the amount under this heading, $525,000,000 shall be available for mental health care and

treatment, including increased funding for centers for the provision of readjustment counseling and related mental health services under section 1712A of title 38, United States Code (commonly referred to as ''Vet Centers''), increased funding for post traumatic stress disorder (PTSD) programs, funding for the provision of primary care consultations for mental health, funding for the provision of mental health counseling in Community Based Outreach Centers (CBOCs), and funding to facilitate the provision of mental health services by Department of Veterans Affairs facilities that do not currently provide such services: *Provided further*, That the amount under this heading shall remain available until expended.

SA 345. Mr. LEVIN submitted an amendment intended to be proposed by him to the bill H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ____. The Secretary of Labor shall convey to the State of Michigan, for no consideration, all right, title, and interest of the United States in and to the real property known as the ''Detroit Labor Building'' and located at 7310 Woodward Avenue, Detroit, Michigan, to the extent the right, title, or interest was acquired through a grant to the State of Michigan under title III of the Social Security Act (42 U.S.C. 501 et seq.) or the Wagner-Peyser Act (29 U.S.C. 49 et seq.) or using funds distributed to the State of Michigan under section 903 of the Social Security Act (42 U.S.C. 1103).

SA 346. Mr. CORZINE (for himself and Mr. BROWNBACK) submitted an amendment intended to be proposed by him to the bill H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

On page 231, between lines 3 and 4, insert the following:

TITLE VII—ACCOUNTABILITY IN DARFUR

SECTION 7001. SHORT TITLE.

This title may be cited as the ''Darfur Accountability Act of 2005''.

SEC. 7002. DEFINITIONS.

In this title:

(1) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term 'appropriate congressional committees' means the Committee on Foreign Relations of the Senate and the Committee on International Relations of the House of Representatives.

(2) GOVERNMENT OF SUDAN.—The term ''Government of Sudan'' means the National Congress Party-led government in Khartoum, Sudan, or any successor government formed on or after the date of the enactment of this title.

(3) MEMBER STATES.—The term ''member states'' means the member states of the United Nations.

(4) SUDAN NORTH-SOUTH PEACE AGREEMENT.—The term ''Sudan North-South Peace Agreement'' means the comprehensive peace agreement signed by the Government of Sudan and the Sudan People's Liberation Army/Movement on January 9, 2005.

(5) THOSE NAMED BY THE UN COMMISSION OF INQUIRY.—The term ''those named by the UN Commission of Inquiry'' means those individuals whose names appear in the sealed file delivered to the Secretary-General of the United Nations by the International Commission of Inquiry on Darfur to the United Nations Security Council.

(6) UN COMMITTEE.—The term ''UN Committee'' means the Committee of the Security Council established in United Nations Security Council Resolution 1591 (29 March 2005); paragraph 3.

SEC. 7003. FINDINGS.

Congress makes the following findings:

(1) On July 22, 2004, the House of Representatives and the Senate declared that the atrocities occurring in Darfur, Sudan are genocide.

(2) On September 9, 2004, Secretary of State Colin L. Powell stated before the Committee on Foreign Relations of the Senate, ''[w]hen we reviewed the evidence compiled by our team, along with other information available to the State Department, we concluded that genocide has been committed in Darfur and that the Government of Sudan and the [Janjaweed] bear responsibility—and genocide may still be occurring''.

(3) President George W. Bush, in an address before the United Nations General Assembly on September 21, 2004, stated, ''[a]t this hour, the world is witnessing terrible suffering and horrible crimes in the Darfur region of Sudan, crimes my government has concluded are genocide''.

(4) On July 30, 2004, the United Nations Security Council passed Security Council Resolution 1556, calling upon the Government of Sudan to disarm the Janjaweed militias and to apprehend and bring to justice Janjaweed leaders and their associates who have incited and carried out violations of human rights and international humanitarian law and carried out other atrocities in the Darfur region.

(5) On September 18, 2004, the United Nations Security Council passed Security Council Resolution 1564, determining that the Government of Sudan had failed to meet its obligations under Security Council Resolution 1556, calling for a military flight ban in and over the Darfur region, demanding the names of Janjaweed militiamen disarmed and arrested for verification, establishing an International Commission of Inquiry into violations of international humanitarian and human rights laws, and threatening sanctions should the Government of Sudan fail to fully comply with Security Council Resolutions 1556 and 1564.

(6) United Nations Security Council Resolution 1564 declares that if the Government of Sudan ''fails to comply fully'' with Security Council Resolutions 1556 and 1564, the Security Council shall consider taking ''additional measures'' against the Government of Sudan ''as contemplated in Article 41 of the Charter of the United Nations, such as actions to affect Sudan's petroleum sector or individual members of the Government of Sudan, in order to take effective action to obtain such full compliance and cooperation''.

(7) United Nations Security Council Resolution 1564 also ''welcomes and supports the intention of the African Union to enhance and augment its monitoring mission in Darfur'' and ''urges member states to support the African Union in these efforts, including by providing all equipment, logistical, financial, material, and other resources necessary to support the rapid expansion of the African Union Mission''.

(8) On February 1, 2005, the United Nations released the Report of the International Commission of Inquiry on Darfur to the United Nations Secretary-General, dated January 25, 2005, which stated that, ''[g]overnment forces and militias conducted indiscriminate attacks, including killing of civilians, torture, enforced disappearances, destruction of villages, rape and other forms of sexual violence, pillaging and forced displacement throughout Darfur'', that such ''acts were conducted on a widespread and systematic basis, and therefore may amount to crimes against humanity'', and that the ''magnitude and large-scale nature of some crimes against humanity as well as their consistency over a long period of time, necessarily imply that these crimes result from a central planning operation''.

(9) The Report of the International Commission of Inquiry on Darfur to the United Nations Secretary-General notes that, pursuant to its mandate and in the course of its work, the UN Commission collected information relating to individual perpetrators of acts constituting ''violations of international human rights law and international humanitarian law, including crimes against humanity and war crimes'' and that the UN Commission has delivered to the Secretary-General of the United Nations a sealed file of those named by the UN Commission with the recommendation that the ''file be handed over to a competent Prosecutor''.

(10) On March 24, 2005, the United Nations Security Council passed Security Council Resolution 1590, establishing the United Nations Mission in Sudan (UNMIS) consisting of 10,000 military personnel and 715 civilian police personnel. The mandate of UNMIS includes to ''closely and continuously liaise and coordinate at all levels with the African Union Mission in Sudan (AMIS) with a view towards expeditiously reinforcing the effort to foster peace in Darfur, especially with regard to the Abuja peace process and the African Union Mission in Sudan''. Security Council Resolution 1590 also urged the Secretary-General and United Nations High Commissioner for Human Rights to increase the number and deployment rate of human rights monitors to Darfur.

(11) On March 29, 2005, the United Security Council passed Security Council Resolution 1591, establishing a Committee of the Security Council and a Panel of Experts to identify individuals who have impeded the peace process, constitute a threat to stability in Darfur and the region, commit violations of international humanitarian or human rights law or other atrocities, or who are responsible for offensive overflights, and calling on member states to prevent those individuals identified from entry into or transit of their territories and to freeze those individuals non-exempted assets.

(12) On March 31, 2005, the United Nations Security Council passed Security Council Resolution 1593, referring the situation in Darfur since July 1, 2002, to the Prosecutor of the International Criminal Court (ICC) with the proviso that personnel from a state outside Sudan not a party to the Rome Statute of the ICC shall not be subject to the ICC in this instance.

SEC. 7004. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) the atrocities unfolding in Darfur, Sudan, have been and continue to be genocide;

(2) the United States should immediately seek passage at the United Nations Security Council of a resolution that—

(A) extends the freezing of property and assets and denial of visas and entry, pursuant to United Nations Security Council Resolution 1591, to include—

(i) those named by the UN Commission of Inquiry;

(ii) family members of those named by the UN Commission of Inquiry and those designated by the UN Committee; and

(iii) any associates of those named by the UN Commission of Inquiry and those designated by the UN Committee to whom assets or property of those named by the UN Commission of Inquiry or those designated by the UN Committee were transferred on or after July 1, 2002;

(B) urges member states to submit to the Security Council the name of any individual that the government of any such member state believes is or has been planning, carrying out, responsible for, or otherwise involved in genocide, war crimes, or crimes against humanity in Darfur, along with evidence supporting such belief so that the Security Council may consider imposing sanctions pursuant to United Nations Security Council Resolution 1591;

(C) imposes additional sanctions or additional measures against the Government of Sudan, including sanctions that will affect the petroleum sector in Sudan, individual members of the Government of Sudan, and entities controlled or owned by officials of the government of Sudan or the National Congress Party in Sudan, that will remain in effect until such time as—

(i) humanitarian organizations are granted full, unimpeded access to Darfur;

(ii) the Government of Sudan cooperates with humanitarian relief efforts, carries out activities to demobilize and disarm Janjaweed militias and any other militias supported or created by the Government of Sudan, and cooperates fully with efforts to bring to justice the individuals responsible for genocide, war crimes, or crimes against humanity in Darfur;

(iii) the Government of Sudan cooperates fully with the African Union, the United Nations, and all other observer, monitoring, and protection missions mandated to operate in Sudan;

(iv) the Government of Sudan permits the safe and voluntary return of displaced persons and refugees to their homes and rebuilds the communities destroyed in the violence in Darfur; and

(v) the Sudan North-South Peace Agreement is fully implemented and a new coalition government is created under such Agreement;

(D) establishes a military no-fly zone in Darfur;

(E) supports the expansion of the African Union force in Darfur so that such force achieves the size and strength needed to prevent ongoing fighting and violence in Darfur;

(F) urges member states to accelerate assistance to the African Union force in Darfur;

(G) calls on the Government of Sudan to cooperate with, and allow unrestricted movement in Darfur by, the African Union force in the region, UNMIS, international humanitarian organizations, and United Nations monitors;

(H) extends the embargo of military equipment established by paragraphs 7 through 9 of Security Council Resolution 1556 and expanded by Security Council Resolution 1591 to include a total prohibition of sale or supply to the Government of Sudan;

(I) supports African Union and other international efforts to negotiate peace talks between the Government of Sudan and rebels in Darfur, calls on the Government of Sudan and rebels in Darfur to abide by their obligations under the N'Djamena Ceasefire Agreement of April 8, 2004, and subsequent agreements, and urges parties to engage in peace talks without preconditions and seek to resolve the conflict; and

(J) expands the mandate of UNMIS to include the protection of civilians throughout Sudan, including Dafur;

(3) the United States should work with other nations to ensure effective efforts to freeze the property and assets of and deny visas and entry to—

(A) those named by the UN Commission of Inquiry and those designated by the UN Committee;

(B) any individuals the United States believes is or has been planning, carrying out, responsible for, or otherwise involved in genocide, war crimes, and crimes against humanity in Darfur;

(C) family members of any person described in subparagraphs (A) or (B); and

(D) any associates of any such person to whom assets or property of such person were transferred on or after July 1, 2002;

(4) the United States should not provide assistance to the Government of Sudan, other than assistance necessary for the implementation of the Sudan North-South Peace Agreement, the support of the southern regional government in Sudan, or for humanitarian purposes in Sudan, unless the President certifies and reports to Congress that—

(A) humanitarian organizations are being granted full, unimpeded access to Darfur and the Government of Sudan is providing full cooperation with humanitarian efforts;

(B) concrete, sustained steps are being taken toward demobilizing and disarming Janjaweed militias and any other militias supported or created by the Government of Sudan;

(C) the Government of Sudan is cooperating fully with international efforts to bring to justice those responsible for genocide, war crimes, or crimes against humanity in Darfur;

(D) the Government of Sudan cooperates fully with the African Union, the United Nations, and all other observer, monitoring, and protection missions mandated to operate in Sudan;

(E) the Government of Sudan permits the safe and voluntary return of displaced persons and refugees to their homes and rebuilds the communities destroyed in the violence in Darfur; and

(F) the Sudan North-South Peace Agreement is fully implemented and a new coalition government is created under such Agreement;

(5) the President should work with international organizations, including the North Atlantic Treaty Organization (NATO), the United Nations, and the African Union to establish mechanisms for the enforcement of a no-fly zone in Darfur;

(6) the African Union should extend its mandate in Darfur to include the protection of civilians and proactive efforts to prevent violence, and member states should support fully this extension;

(7) the President should accelerate assistance to the African Union force in Darfur and discussions with the African Union and the European Union and other supporters of the African Union force on the needs of such force, including assistance for housing, transportation, communications, equipment, technical assistance such as training and command and control assistance, and intelligence;

(8) the President should appoint a Presidential Envoy for Sudan—

(A) to support the implementation of the Sudan North-South Peace Agreement;

(B) to seek ways to bring stability and peace to Darfur;

(C) to address instability elsewhere in Sudan; and

(D) to seek a comprehensive peace throughout Sudan;

(9) United States officials, including the President, the Secretary of State, and the Secretary of Defense, should raise the issue of Darfur in bilateral meetings with officials from other members of the United Nations Security Council and relevant countries, with the aim of passing a United Nations Security Council resolution described in paragraph (2) and mobilizing maximum support for political, financial, and military efforts to stop the genocide in Darfur;

(10) the Secretary of State should immediately engage in a concerted, sustained campaign with other members of the United Nations Security Council and relevant countries with the aim of achieving the goals described in paragraph (9);

(11) the United States fully supports the Sudan North-South Peace Agreement and urges the rapid implementation of its terms;

(12) the United States condemns attacks on humanitarian workers and calls on all forces in Darfur, including forces of the Government of Sudan, all militia, and forces of the Sudan Liberation Army/Movement and the Justice and Equality Movement, to refrain from such attacks; and

(13) The United States should actively participate in the UN Committee and the Panel of Experts established pursuant to Security Council Resolution 1591, and work to support the Secretary-General and the United Nations High Commissioner for Human Rights in their efforts to increase the number and deployment rate of human rights monitors to Darfur.

SEC. 7005. IMPOSITION OF SANCTIONS.

(a) FREEZING ASSETS.—At such time as the United States has access to the names of those named by the UN Commission of Inquiry and those designated by the UN Committee, the President shall, except as described under subsection (c), take such action as may be necessary to immediately freeze the funds and other assets belonging to anyone so named, their family members, and any associates of those so named to whom assets or property of those so named were transferred on or after July 1, 2002, including requiring that any United States financial institution holding such funds and assets promptly report those funds and assets to the Office of Foreign Assets Control.

(b) VISA BAN.—Beginning at such times as the United States has access to the names of

those named by the UN Commission of Inquiry and those designated by the UN Committee, the President shall, except as described under subsection (c), deny visas and entry to—

(1) those named by the UN Commission of Inquiry and those designated by the UN Committee;

(2) the family members of those named by the UN Commission of Inquiry and those designated by the UN Committee; and

(3) anyone the President determines has been, is, or may be planning, carrying out, responsible for, or otherwise involved in crimes against humanity, war crimes, or genocide in Darfur, Sudan.

(c) WAIVER AUTHORITY.—The President may elect not to take an action otherwise required to be taken with respect to an individual under subsection (a) or (b) after submitting to Congress a report—

(1) naming the individual with respect to whom the President has made such election;

(2) describing the reasons for such election; and

(3) including the determination of the President as to whether such individual has been, is, or may be planning, carrying out, responsible for, or otherwise involved in crimes against humanity, war crimes, or genocide in Darfur, Sudan.

(d) ASSET REPORTING REQUIREMENT.—Not later than 14 days after a decision to freeze the property or assets of, or deny a visa or entry to, any person under this section, the President shall report the name of such person to the appropriate congressional committees.

(e) NOTIFICATION OF WAIVERS OF SANCTIONS.—Not later than 30 days before waiving the provisions of any sanctions currently in force with regard to Sudan, the President shall submit to the appropriate congressional committees a report describing the waiver and the reasons therefor.

SEC. 7006. REPORTS TO CONGRESS.

(a) REPORTS ON STABILIZATION IN SUDAN.—

(1) INITIAL REPORT.—Not later than 30 days after the date of enactment of this title, the Secretary of State, in conjunction with the Secretary of Defense, shall report to the appropriate congressional committees on efforts to deploy an African Union force in Darfur, the capacity of such force to stabilize Darfur and protect civilians, the needs of such force to succeed at such mission including housing, transportation, communications, equipment, technical assistance, including training and command and control, and intelligence, current status of United States and other assistance to the African Union force, and additional United States assistance needed.

(2) SUBSEQUENT REPORTS.—

(A) UPDATES REQUIRED.—The Secretary of State, in conjunction with the Secretary of Defense, shall submit an update of the report submitted under paragraph (1) until such time as the President certifies that the situation in Darfur is stable and that civilians are no longer in danger and that the African Union is no longer needed to prevent a resumption of violence and attacks against civilians.

(B) DURATION OF REPORTING REQUIREMENT.—The Secretary of State shall submit any updated reports required under subparagraph (A)—

(i) every 60 days during the 2-year period following the date of the enactment of this Act; and

(ii) after such 2-year period, as part of the report required under section 8(b) of the Sudan Peace Act (50 U.S.C. 1701 note), as amended by section 5(b) of the Comprehensive Peace in Sudan Act of 2004 (Public Law 108–497; 118 Stat. 4018).

(b) REPORT ON THOSE NAMED BY THE UN COMMISSION OF INQUIRY.—At such time as the United States has access to the names of those named by the UN Commission of Inquiry, the President shall submit to the appropriate congressional committees a report listing such names.

SA 347. Mr. CORZINE (for himself, Mr. DEWINE, Mr. BROWNBACK, Mr. DURBIN, and Mr. LEAHY) submitted an amendment intended to be proposed by him to the bill H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

On page 183, after line 23, add the following:

REQUIREMENT FOR TRANSFER OF FUNDS

SEC. 2105. Not later than 15 days after the date of the enactment of this Act, the authority contained under the heading ''INTERNATIONAL DISASTER AND FAMINE ASSISTANCE'' in chapter 2 of title II of Emergency Supplemental Appropriations Act for Defense and for the Reconstruction of Iraq and Afghanistan, 2004 (Public Law 108–106; 117 Stat. 1227) to transfer funds made available under such chapter, shall be fully exercised and the funds transferred as follows:

(1) $53,000,000 shall be transferred to and consolidated with funds appropriated under the heading ''PEACEKEEPING OPERATIONS'' in title III of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 2005 (as enacted in division D of Public Law 108–447; 118 Stat. 2988) and used for the support of the efforts of the African Union to halt genocide and other atrocities in Darfur, Sudan; and

(2) $40,500,000 shall be transferred to and consolidated with funds appropriated under the heading ''INTERNATIONAL DISASTER AND FAMINE ASSISTANCE'' in such Act and used for assistance for Darfur, Sudan.

SA 348. Mr. TALENT submitted an amendment intended to be proposed by him to the bill H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

On page 169, between lines 8 and 9, insert the following:

PROCUREMENT OF COMMERCIAL SATELLITE BANDWIDTH SERVICES

SEC. 1122. The Secretary of Defense may not implement the action plan for the procurement of commercial satellite bandwidth services proposed by the Assistant Secretary of Defense for Networks and Information Integration on December 14, 2004, or enter into any new contract for commercial satellite communications services (other than through existing contract vehicles), until 30 days after the date on which the Comptroller General of the United States submits to the congressional defense committees a report setting forth the comprehensive assessment and recommendations of the Comptroller General regarding the Defense Information Systems Network Satellite Transmission Services–Global (DSTS–G) program, as previously requested by Congress.

SA 349. Mr. NELSON of Nebraska submitted an amendment intended to be proposed by him to the bill H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

On page 169, between lines 8 and 9, insert the following:

ACQUISITION OF VITAL LEARNING RECRUITMENT/RETENTION SCREENING TEST PROGRAM

SEC. 1122. (a) IN GENERAL.—In determining the person or entity to supply the Vital Learning Recruitment/Retention Screening Test Program to the Navy for purposes of the acquisition of that program, the Secretary of the Navy shall utilize a strategy that emphasizes past performance on technical capabilities (commonly referred to as a ''best value'' strategy) applicable to that program.

(b) VITAL LEARNING RECRUITMENT/RETENTION SCREENING TEST PROGRAM DEFINED.—In this section, the term ''Vital Learning Recruitment/Retention Screening Test Program'' means the recruitment and retention screening test program of the Navy for which $1,000,000 is available under the heading ''OPERATION AND MAINTENANCE, NAVY'' in each of the Department of Defense Appropriations Act, 2004 (Public Law 108–87; 117 Stat. 1057) and the Department of Defense Appropriations Act, 2005 (Public Law 108–287; 118 Stat. 954).

SA 350. Mr. KENNEDY submitted an amendment intended to be proposed by him to the bill H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; which

was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ___. IMPLEMENTATION OF MISSION CHANGES AT SPECIFIC VETERANS HEALTH ADMINISTRATION FACILITIES.

Section 414(c)(1) of the Veterans Health Programs Improvement Act of 2004, is amended by inserting ''', and all outpatient clinics in the VA Boston Healthcare System'' before the period at the end.

SA 351. Mr. SALAZAR submitted an amendment intended to be proposed by him to the bill H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. _. SENSE OF THE SENATE ON THE EARNED INCOME TAX CREDIT.

(a) FINDINGS.—The Senate makes the following findings:

(1) In an effort to provide support to military families, this Act includes an important increase in the maximum payable benefit under Servicemembers' Group Life Insurance from $150,000 to $400,000.

(2) In an effort to provide support to military families, this Act includes an important increase in the death gratuity from $12,000 to $100,000.

(3) In an effort to provide support to military families, this Act includes an important increase in the maximum Reserve Affiliation bonus to $10,000.

(4) The Federal earned income tax credit (EITC) under section 32 of the Internal Revenue Code of 1986 provides critical tax relief and support to military as well as civilian families. In 2003, approximately 21,000,000 families benefitted from the EITC.

(5) Nearly 160,000 active duty members of the armed forces, 11 percent of all active duty members, currently are eligible for the EITC, based on analyses of data from the Department of Defense and the Government Accountability Office.

(6) Congress acted in 2001 and 2004 to expand EITC eligibility to more military personnel, recognizing that military families and their finances are intensely affected by war.

(7) With over 300,000 National Guard and reservists called to active duty since September 11, 2001, the need for tax assistance is greater than ever.

(8) Census data shows that the EITC lifted 4,900,000 people out of poverty in 2002, including 2,700,000 children. The EITC lifts more children out of poverty than any other single program or category of programs.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that—

(1) Congress should take steps necessary to support our troops and their families;

(2) it is not in the interests of our troops and their families to reduce the earned income tax credit under section 32 of the Internal Revenue Code of 1986; and

(3) the conference committee for H. Con. Res. 96, the concurrent resolution on the budget for fiscal year 2006, should not assume any reduction in the earned income tax credit in the budget process this year, as provided in such resolution as passed by the House of Representatives.

SA 352. Mr. SALAZAR (for himself and Mr. ALLARD) submitted an amendment intended to be proposed by him to the bill H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

On page 162, between lines 22 and 23, insert the following:

SEC. 1113. RENAMING OF DEATH GRATUITY PAYABLE FOR DEATHS OF MEMBERS OF THE ARMED FORCES AS FALLEN HERO COMPENSATION.

(a) IN GENERAL.—Subchapter II of chapter 75 of title 10, United States Code, is amended as follows:

(1) In section 1475(a), by striking ''have a death gratuity paid'' and inserting ''have fallen hero compensation paid''.

(2) In section 1476(a)—

(A) in paragraph (1), by striking ''a death gratuity'' and inserting ''fallen hero compensation''; and

(B) in paragraph (2), by striking ''A death gratuity'' and inserting ''Fallen hero compensation''.

(3) In section 1477(a), by striking ''A death gratuity'' and inserting ''Fallen hero compensation''.

(4) In section 1478(a), by striking ''The death gratuity'' and inserting ''The amount of fallen hero compensation''.

(5) In section 1479(1), by striking ''the death gratuity'' and inserting ''fallen hero compensation''.

(6) In section 1489—

(A) in subsection (a), by striking ''a gratuity'' in the matter preceding paragraph (1) and inserting ''fallen hero compensation''; and

(B) in subsection (b)(2), by inserting ''or other assistance'' after ''lesser death gratuity''.

(b) CLERICAL AMENDMENTS.—(1) Such subchapter is further amended by striking ''**Death gratuity:**'' each place it appears in the heading of sections 1475 through 1480 and 1489 and inserting ''**Fallen hero compensation:**''.

(2) The table of sections at the beginning of such subchapter is amended by striking ''Death gratuity:'' in the items relating to sections 1474 through 1480 and 1489 and inserting ''Fallen hero compensation:''.

(c) GENERAL REFERENCES.—Any reference to a death gratuity payable under subchapter II of chapter 75 of title 10, United States Code, in any law, regulation, document, paper, or other record of the United States shall be deemed to be a reference to fallen hero compensation payable under such subchapter, as amended by this section.

SA 353. Mr. LEVIN submitted an amendment intended to be proposed by him to the bill H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

DEPARTMENT OF DEFENSE—CIVIL

DEPARTMENT OF THE ARMY

OPERATIONS AND MAINTENANCE, GENERAL

The Secretary of the Army, acting through the Chief of Engineers, shall use any funds appropriated to the Secretary pursuant to this Act to repair, restore, and maintain projects and facilities of the Corps of Engineers, including by dredging navigation channels, cleaning area streams, providing emergency streambank protection, restoring such public infrastructure as the Secretary determines to be necessary (including sewer and water facilities), conducting studies of the impacts of floods, and providing such flood relief as the Secretary determines to be appropriate: *Provided*, That of those funds, $32,000,000 shall be used by the Secretary for the Upper Peninsula, Michigan.

SA 354. Mr. GRAHAM submitted an amendment intended to be proposed by him to the bill H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

On page 169, between lines 8 and 9, insert the following:

PROHIBITION ON IMPLEMENTATION OF CERTAIN ORDERS AND GUIDANCE ON FUNCTIONS AND DUTIES OF GENERAL COUNSEL AND JUDGE ADVOCATE GENERAL OF THE AIR FORCE

SEC. 1122. No funds appropriated or otherwise made available by this Act, or any other Act, may be obligated or expended to implement or enforce either of the following:

(1) The order of the Secretary of the Air Force dated May 15, 2003, and entitled ''Functions and Duties of the General Counsel and the Judge Advocate General''.

(2) Any internal operating instruction or memorandum issued by the General Counsel of the Air Force in reliance upon the order referred to in paragraph (1).

SA 355. Mr. MARTINEZ submitted an amendment intended to be proposed by him to the bill H.R. 1268, making emergency supplemental appropriations for

the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

DEPARTMENT OF DEFENSE—CIVIL

DEPARTMENT OF THE ARMY

CONSTRUCTION, GENERAL

The Secretary of the Army, acting through the Chief of Engineers, shall carry out construction at the Jacksonville Harbor, Florida, in accordance with the report of the Chief of Engineers dated July 22, 2003, using the funds appropriated for that purpose under title I of division C of the Energy and Water Development Appropriations Act, 2005 (Public Law 108–447; 118 Stat. 2935).

SA 356. Mr. DURBIN (for himself, Ms. MIKULSKI, Mr. ALLEN, and Mr. CORZINE) proposed an amendment to the bill H.R. 1268, making emergency supplemental appropriations for the fiscal year ending September 30, 2005, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, to ensure expeditious construction of the San Diego border fence, and for other purposes; as follows:

On page 153, between lines 15 and 16, insert the following:

SEC. 1110. NONREDUCTION IN PAY WHILE FEDERAL EMPLOYEE IS PERFORMING ACTIVE SERVICE IN THE UNIFORMED SERVICES OR NATIONAL GUARD.

(a) SHORT TITLE.—This section may be cited as the ''Reservists Pay Security Act of 2005''.

(b) IN GENERAL.—Subchapter IV of chapter 55 of title 5, United States Code, is amended by adding at the end the following:

''§ 5538. Nonreduction in pay while serving in the uniformed services or National Guard

''(a) An employee who is absent from a position of employment with the Federal Government in order to perform active duty in the uniformed services pursuant to a call or order to active duty under a provision of law referred to in section 101(a)(13)(B) of title 10 shall be entitled, while serving on active duty, to receive, for each pay period described in subsection (b), an amount equal to the amount by which—

''(1) the amount of basic pay which would otherwise have been payable to such employee for such pay period if such employee's civilian employment with the Government had not been interrupted by that service, exceeds (if at all)

''(2) the amount of pay and allowances which (as determined under subsection (d))—

''(A) is payable to such employee for that service; and

''(B) is allocable to such pay period.

''(b)(1) Amounts under this section shall be payable with respect to each pay period (which would otherwise apply if the employee's civilian employment had not been interrupted)—

''(A) during which such employee is entitled to reemployment rights under chapter 43 of title 38 with respect to the position from which such employee is absent (as referred to in subsection (a)); and

''(B) for which such employee does not otherwise receive basic pay (including by taking any annual, military, or other paid leave) to which such employee is entitled by virtue of such employee's civilian employment with the Government.

''(2) For purposes of this section, the period during which an employee is entitled to reemployment rights under chapter 43 of title 38—

''(A) shall be determined disregarding the provisions of section 4312(d) of title 38; and

''(B) shall include any period of time specified in section 4312(e) of title 38 within which an employee may report or apply for employment or reemployment following completion of service on active duty to which called or ordered as described in subsection (a).

''(c) Any amount payable under this section to an employee shall be paid—

''(1) by such employee's employing agency;

''(2) from the appropriation or fund which would be used to pay the employee if such employee were in a pay status; and

''(3) to the extent practicable, at the same time and in the same manner as would basic pay if such employee's civilian employment had not been interrupted.

''(d) The Office of Personnel Management shall, in consultation with Secretary of Defense, prescribe any regulations necessary to carry out the preceding provisions of this section.

''(e)(1) The head of each agency referred to in section 2302(a)(2)(C)(ii) shall, in consultation with the Office, prescribe procedures to ensure that the rights under this section apply to the employees of such agency.

''(2) The Administrator of the Federal Aviation Administration shall, in consultation with the Office, prescribe procedures to ensure that the rights under this section apply to the employees of that agency.

''(f) For purposes of this section—

''(1) the terms 'employee', 'Federal Government', and 'uniformed services' have the same respective meanings as given them in section 4303 of title 38;

''(2) the term 'employing agency', as used with respect to an employee entitled to any payments under this section, means the agency or other entity of the Government (including an agency referred to in section 2302(a)(2)(C)(ii)) with respect to which such employee has reemployment rights under chapter 43 of title 38; and

''(3) the term 'basic pay' includes any amount payable under section 5304.''.

(c) CLERICAL AMENDMENT.—The table of sections for chapter 55 of title 5, United States Code, is amended by inserting after the item relating to section 5537 the following:

''5538. Nonreduction in pay while serving in the uniformed services or National Guard.''.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to pay periods (as described in section 5538(b) of title 5, United States Code, as amended by this section) beginning on or after the date of enactment of this Act.

NOTICES OF HEARINGS/MEETINGS

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. DOMENICI. Mr. President, I would like to announce for the information of the Senate and the public that the following hearing has been scheduled before the Committee on Energy and Natural Resources.

The hearing will be held on Tuesday, April 19, at 10 a.m. in room 366 of the Dirksen Senate Office Building in Washington, DC.

The purpose of this hearing is to receive testimony concerning offshore hydrocarbon production and the future of alternate energy resources on the outer Continental Shelf. Issues to be discussed include: recent technological advancements made in the offshore exploration and production of traditional forms of energy, and the future of deep shelf and deepwater production; enhancements in worker safety, and steps taken by the offshore oil and gas industry to meet environmental challenges. Participants in the hearing will also address ways that the Federal Government can facilitate increased exploration and production offshore while protecting the environment. New approaches to help diversify the offshore energy mix will also be discussed.

Because of the limited time available for the hearing, witnesses may testify by invitation only. However, those wishing to submit written testimony for the hearing record should send two copies of their testimony to the Committee on Energy and Natural Resources, United States Senate, SD–364 Dirksen Senate Office Building, Washington, DC 20510–6150.

For further information, please contact: Shane Perkins at 202–224–7555.

SUBCOMMITTEE ON WATER AND POWER

Ms. MURKOWSKI. Mr. President, I would like to announce for the information of the Senate and the public that a hearing has been scheduled before the Subcommittee on Water and Power of the Committee on Energy and Natural Resources.

The hearing will be held on Tuesday, April 19, 2005 at 2:30 p.m. in room SD–366 of the Dirksen Senate Office Building.

The purpose of the hearing is to receive testimony on S. 166, to amend the Oregon Resource Conservation Act of 1996 to reauthorize the participation of the Bureau of Reclamation in the Deschutes River Conservancy, and for other purposes; S. 251, to authorize the Secretary of the Interior to conduct a water resource feasibility study for the Little Butte/Bear Creek Subbasins in Oregon; S. 310, to direct the Secretary of the Interior to convey the Newlands Project Headquarters and Maintenance Yard Facility to the Truckee-Carson Irrigation District in the State of Nevada; S. 519, to amend the Lower Rio Grande Valley Water Resources Conservation and Improvement Act of 2000

to authorize additional projects and activities under that Act, and for other purposes; and S. 592, to extend the contract for the Glendo Unit of the Missouri Basin Project in the State of Wyoming.

Because of the limited time available for the hearing, witnesses may testify by invitation only. However, those wishing to submit written testimony for the hearing record should send two copies of their testimony to the Committee on Energy and Natural Resources, United States Senate, Washington, DC 20510–6150.

For further information, please contact Kellie Donnelly 202–224–9360 or Shane Perkins at 202–224–7555.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON ARMED SERVICES

Mr. COCHRAN. Mr. President, I ask unanimous consent that the Committee on Armed Services be authorized to meet during the session of the Senate on April 12, 2005, at 9:30 a.m., in closed session to receive testimony on the assessment of Iraqi security forces.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION.

Mr. COCHRAN. Mr. President, I ask unanimous consent that the Committee on Commerce, Science, and Transportation be authorized to meet on the nominations of Dr. Michael Griffin to be Administrator of the National Aeronautics and Space Administration, Mr. Joseph Boardman to be Administrator of the Federal Railroad Administration, Ms. Nancy Nord to be Commissioner of the Consumer Product Safety Commission, and The Honorable William W. Cobey, Jr. to be a Member of the Board of Directors of the Metropolitan Washington Airports Authority, on Tuesday, April 12, 2005, at 10:15 a.m., in SR–253.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. COCHRAN. Mr. President, I ask unanimous consent that the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate on Tuesday, April 12, at 10 a.m. in room SD–366.

The purpose of the hearing is to discuss opportunities to advance technology that will facilitate environmentally friendly development of oil shale and oil sands resources. The hearing will address legislative and administrative actions necessary to provide incentives for industry investment, as well as explore concerns and experiences of other governments and organizations and the interests of industry.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. COCHRAN. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Tuesday, April 12, 2005, at 9:30 a.m., to hold a nomination hearing.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. COCHRAN. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet in a closed briefing on Tuesday, April 12, 2005, at 11:30 a.m., in S–407, the Capitol.

The PRESIDING OFFICER. Without objection, it is so ordered.

SELECT COMMITTEE ON INTELLIGENCE

Mr. COCHRAN. Mr. President, I ask unanimous consent that the Select Committee on Intelligence be authorized to meet during the session of the Senate on April 12, 2005, at 10 a.m. and 2:30 p.m., to hold hearings.

The PRESIDING OFFICER. Without objection, it is so ordered.

SPECIAL COMMITTEE ON AGING

Mr. COCHRAN. Mr. President, I ask unanimous consent that the Special Committee on Aging be authorized to meet Tuesday, April 12, 2005, from 2:30 p.m. to 5 p.m., in Dirksen 106, for the purpose of conducting a hearing.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON NATIONAL PARKS

Mr. COCHRAN. Mr. President, I ask unanimous consent that the Subcommittee on National Parks be authorized to meet during the session of the Senate on Tuesday, April 12 at 2:30 p.m. to review management and planning issues for the National Mall, including the history of development, security projects and other planned constructions, and future development plans.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON SEAPOWER

Mr. COCHRAN. Mr. President, I ask unanimous consent that the Subcommittee on Seapower be authorized to meet during the session of the Senate on April 12 at 2:30 p.m. to receive testimony on Navy shipbuilding and industrial base status in review of the defense authorization request for fiscal year 2006.

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGE OF THE FLOOR

Mr. CARPER. Mr. President, I ask unanimous consent that Richard Litsey, a fellow on the Finance Committee staff of Senator BAUCUS, be granted the privilege of the floor during consideration of H.R. 1268, the emergency Iraq/Afghanistan supplemental appropriations, and all rollcall votes thereon.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mrs. HUTCHISON. Mr. President, I ask unanimous consent that Senator JOHN MCCAIN's legislative fellow, Navy CDR Shawn Grenier, be granted floor privileges during the consideration of H.R. 1268, the Emergency Supplemental Appropriations Act.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BYRD. Mr. President, on behalf of Senator BAUCUS, I ask unanimous consent that Cuong Huynh, a fellow on his staff at the Finance Committee, be accorded floor privileges during the consideration of H.R. 1268, the emergency Iraq-Afghanistan supplemental appropriation bill, and any votes thereon.

The PRESIDING OFFICER. Without objection, it is so ordered.

NATIONAL YOUTH SERVICE DAY

Mr. MCCONNELL. Mr. President, I ask unanimous consent the Senate now proceed to consideration of S. Res. 105, which was submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The assistant legislative clerk read as follows:

A resolution (S. Res. 105) designating April 15, 2005, as National Youth Service Day, and for other purposes.

There being no objection, the Senate proceeded to consider the resolution.

Ms. MURKOWSKI. Mr. President, I rise in support of S. Res. 105, a resolution designating April 15, 2005, as National Youth Service Day. S. Res. 105 acknowledges the remarkable community service efforts that our Nation's youth are making in communities across the country on April 15 and every day, and encourages all people to recognize and support the significance of these contributions.

National Youth Service Day is a public awareness and education campaign that highlights the extraordinary contributions that young people make to their communities throughout the year. On this day, youth from across the United states and the world will carry out community service projects in areas ranging from hunger to literacy to the environment. National Youth Service Day is the largest service event in the world that brings millions of youth and over 50 local, regional, and national partners together to support and promote youth service.

In Alaska, the following groups will engage youth in community service activities on April 15:

(1) Anchorage's Promise, along with 70 other youth/family organizations from Anchorage and the Mat-Su Valley, will mobilize all sectors of the community to build the character and competence of Anchorage's children

and youth by fulfilling the Five Promises: caring adults, safe places, a healthy start, marketable skills, and opportunities to serve. This year's National Youth Service Day celebration in anchorage hopes to engage at least 7,000 youth in service-learning projects throughout the city.

(2) Cook Inlet Tribal Council Youth Center will prepare and serve traditional Alaska Native dishes to 75–100 homeless people in downtown Anchorage.

(3) As part of the Anchorage Youth Make It Better Project, the mountain View Boys and Girls Club, Alaska Division of Juvenile Justice, members of the Boy Scouts of America Venturing Program, interested AmeriCorps/VISTA volunteers, and the Alaska Points of Light Youth Leadership Institute Student Alumni association will organize and conduct a Youth Make A Better Community essay contest involving 50 Anchorage fifth and sixth grade students. The students will write about how they would improve the community. In addition, 25 middle and high school students will design and paint an outdoor mural in Mountain View highlighting important social issues and traits of good character.

(4) In Koyukuk, young people will be helping elders with household chores they cannot do for themselves.

(5) In the Matanuska-Susitna Valley, Communities In Schools Mat-Su has organized 25 students from the Mat-Su Youth Facility School and students from the Chickaloon Tribal School to work on building a Chicken Coop for the tribal sustainability project.

Many similar and wonderful activities will be taking place all across the Nation.

I thank my colleagues—Senators AKAKA, ALLEN, BAYH, BINGAMAN, BOXER, BUNNING, CLINTON, COCHRAN, COLEMAN, COLLINS, CONRAD, CORNYN, CRAIG, DEWINE, DODD, DOMENICI, DORGAN, DURBIN, FEINGOLD, FEINSTEIN, GREGG, HAGEL, ISAKSON, JOHNSON, KERRY, LANDRIEU, LIEBERMAN, LEVIN, LOTT, MARTINEZ, MIKULSKI, MURRAY, NELSON, REED, SALAZAR, SANTORUM, SCHUMER, SESSIONS, SNOWE, SPECTER, STABENOW, STEVENS, BUNNING and THUNE—for co-sponsoring this worthwhile legislation, which will ensure that youth across the country and the world know that all of their hard work is greatly appreciated.

Mr. MCCONNELL. I ask unanimous consent the resolution be agreed to, the preamble be agreed to, and the motion to reconsider be laid on the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 105) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 105

Whereas National Youth Service Day is an annual public awareness and education campaign that highlights the valuable contributions that young people make to their communities throughout the year;

Whereas the goals of National Youth Service Day are to mobilize youth as leaders in identifying and addressing the needs of their communities through service and service-learning, to support youth on a lifelong path of service and civic engagement, and to educate the public, the media, and policymakers about the year-round contributions of young people as community leaders;

Whereas young people in the United States, and in many other countries, are volunteering more than in any generation in history;

Whereas young people should be viewed as the hope not only of the future, but also of today, and should be valued for the idealism, energy, creativity, and commitment they bring to the challenges found in their communities;

Whereas there is a fundamental and conclusive correlation between youth service and lifelong adult volunteering and philanthropy;

Whereas through community service, young people build character and learn valuable skills, including time management, teamwork, needs-assessment, and leadership, that are sought by employers;

Whereas service-learning, an innovative teaching method combining service to the community with curriculum-based learning, is a proven strategy to increase academic achievement and strengthens civic engagement and civic responsibility;

Whereas several private foundations and corporations in the United States support service-learning because they understand that strong communities begin with strong schools and a community investment in the lives and futures of youth;

Whereas a sustained investment by the Federal Government, business partners, schools, and communities fuels the positive, long-term cultural change that will make service and service-learning the common expectation and the common experience of all young people;

Whereas National Youth Service Day, a program of Youth Service America, is the largest service event in the world and is being observed for the 17th consecutive year in 2005;

Whereas National Youth Service Day, with the support of 50 lead agencies, hundreds of grant winners, and thousands of local partners, engages millions of young people nationwide;

Whereas National Youth Service Day will involve 114 national partners, including 8 Federal agencies and 10 organizations that are offering grants to support National Youth Service Day;

Whereas National Youth Service Day has inspired Global Youth Service Day, which occurs concurrently in over 120 countries and is now in its sixth year; and

Whereas young people will benefit greatly from expanded opportunities to engage in meaningful volunteer service and service-learning: Now, therefore, be it

Resolved,

SECTION 1. RECOGNITION AND ENCOURAGEMENT OF YOUTH COMMUNITY SERVICE.

The Senate recognizes and commends the significant contributions of American youth and encourages the cultivation of a common civic bond among young people dedicated to serving their neighbors, their communities, and the Nation.

SEC. 2. NATIONAL YOUTH SERVICE DAY.

The Senate—

(1) designates April 15, 2005, as ''National Youth Service Day''; and

(2) calls on the people of the United States to—

(A) observe the day by encouraging and engaging youth to participate in civic and community service projects;

(B) recognize the volunteer efforts of our Nation's young people throughout the year; and

(C) support these efforts and engage youth in meaningful decision making opportunities today as an investment in the future of our Nation.

APPOINTMENT

The PRESIDING OFFICER. The Chair announces, on behalf of the Democratic Leader, pursuant to Public Law 101–509, the appointment of Guy Rocha, of Nevada, to the Advisory Committee on the Records of Congress, vice Stephen Van Buren of South Dakota.

ORDERS FOR WEDNESDAY, APRIL 13, 2005

Mr. MCCONNELL. Mr. President, I ask unanimous consent that when the Senate completes its business today, it stand in adjournment until 9:30 a.m. tomorrow, Wednesday, April 13. I further ask unanimous consent that following the prayer and pledge, the morning hour be deemed expired, the Journal of proceedings be approved to date, the time for the two leaders be reserved, and the Senate then begin a period of morning business for up to 60 minutes, with the first 30 minutes under the control of the majority leader or his designee and the second 30 minutes under the control of the Democratic leader or his designee; provided that following morning business the Senate resume consideration of H.R. 1268, the Iraq-Afghanistan supplemental appropriations bill; provided further that there be 40 minutes equally divided in relation to Durbin amendment No. 356 prior to the vote in relation to the amendment, with no second degrees in order to the amendment prior to that vote.

The PRESIDING OFFICER. Is there objection?

Mr. DURBIN. Mr. President, reserving the right to object, I will not object, I say to my friend, the Republican whip, it is my intention to try to reduce the length of that debate depending on morning business. I understand many of our colleagues have a meeting at the White House. If we can expedite this debate time and bring the vote up before the Senator leaves, that is my intention.

Mr. MCCONNELL. That would be very good. We would either finish it before that meeting or do it after. I think we can get the vote in before that meeting. It would be very good.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. MCCONNELL. Mr. President, tomorrow, following morning business, the Senate will resume consideration of the Iraq-Afghanistan supplemental. We had a good start today and will continue to make progress tomorrow. Currently there are three amendments pending to the bill. We will try to have, as Senator DURBIN and I were discussing, the first vote at 10:50, or before if all debate is used on the Durbin amendment. As I indicated, if we are unable to vote by that point we will have to delay the vote until sometime shortly after noon. For the remainder of the day we will continue working through amendments to the bill. The chairman and ranking member will be here to receive any amendments. I certainly encourage our colleagues who wish to offer amendments to contact them as soon as possible.

Obviously rollcall votes are expected throughout the day tomorrow as the Senate continues consideration of this important appropriations bill.

Again, we are going to have a busy week as we work toward completion of the Iraq-Afghanistan appropriations measure.

ADJOURNMENT UNTIL 9:30 A.M. TOMORROW

Mr. MCCONNELL. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that the Senate stand in adjournment under the previous order.

There being no objection, the Senate, at 6:53 p.m., adjourned until Wednesday, April 13, 2005, at 9:30 a.m.

HOUSE OF REPRESENTATIVES—Tuesday, April 12, 2005

The House met at 12:30 p.m. and was called to order by the Speaker pro tempore (Mr. BARRETT of South Carolina).

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

THE SPEAKER'S ROOMS,
HOUSE OF REPRESENTATIVES
Washington, DC, April 12, 2005.

I hereby appoint the Honorable J. GRESHAM BARRETT to act as Speaker pro tempore on this day.

J. DENNIS HASTERT,
Speaker of the House of Representatives.

MORNING HOUR DEBATES

The SPEAKER pro tempore. Pursuant to the order of the House of January 4, 2005, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning hour debates. The Chair will alternate recognition between the parties, with each party limited to not to exceed 30 minutes, and each Member, except the majority leader, the minority leader, or the minority whip, limited to not to exceed 5 minutes.

The Chair recognizes the gentleman from Massachusetts (Mr. MCGOVERN) for 5 minutes.

EXPRESSING DEEP SADNESS AT THE TRAGIC DEATH OF MEGHAN AGNES BECK AND THANKING THE BECK FAMILY FOR THEIR EFFORTS ON BEHALF OF CHILDREN'S SAFETY

Mr. MCGOVERN. Mr. Speaker, I rise today with deep sadness at the tragic death of Meghan Agnes Beck of Sterling, Massachusetts. Meghan died on December 18, 2004, at the young age of 3 years old. She died from injuries sustained as a result of her dresser falling on top of her in the early morning while the rest of her family was sleeping.

Meghan was a beautiful young girl full of confidence and life. She leaves behind her twin brother Ryan, older brother Kyle, and her parents Ralph and Kimberly. Despite their sadness and pain, Meghan's parents are moving forward, spreading a message to other parents around the country. They are raising awareness about the importance of preventing furniture tip-overs that can result in injury or death to children.

Sadly, Meghan is not the first child to die from falling furniture, but the Becks hope that they can help prevent this tragedy from happening to another child. The Consumer Product Safety Commission estimates that 8,000 to 10,000 children are injured each year from furniture that falls or tips or from items on top of furniture or shelves that fall off onto the child. An average of six children tragically die each year, as Meghan did.

Through a Web site titled Meghan's Hope, her parents are bringing together fellow American families who have suffered pain from the loss or injury of a child to spread the word about furniture safety. The mission of Meghan's Hope is to make available resources and information regarding furniture safety.

Via the Web site, parents from around the country have a place to share stories, thoughts and ideas with one another. Thanks to Ralph and Kimberly Beck's efforts, awareness is rising; and more parents are taking note of the importance of securing furniture around the house.

The Web site offers several helpful suggestions for families. These include:

Securing furniture to the walls to prevent tip-overs. This includes dressers, bookcases, entertainment cabinets, TVs, toy boxes, large appliances, or any piece of furniture with shelves or drawers that can be climbed on;

Purchasing furniture ties or brackets. These should be screwed into both the wall, into a beam, and the furniture itself. If a wood beam is not accessible, use mollies or toggle bolts to give added strength;

Placing TVs on low, stable units with large bases and as far back as possible in the shelf. Secure all TV sets to the wall. Devices are sold for this purpose;

Anchoring freestanding bookcases, no matter how large or small, to the walls;

Not placing heavy or other items of interest to a child on top of the furniture or higher than a comfortable reach for the smallest child so as not to entice them to climb for it;

Putting heavy items on the lowest shelf or drawer;

And sharing this information with everyone you know.

In addition, there are things the furniture and retail industries can do, and the Becks have developed some excellent ideas. They include:

Encouraging all stores that sell furniture to also provide literature on furniture safety and to sell the safety straps;

Encouraging all furniture manufacturers to voluntarily include warning labels on furniture and information on the dangers of furniture tip-overs, recommending that the buyer secure the piece to the wall with the proper restraining devices. Ideally, the manufacturer would provide this information with the furniture until safety standard legislation is developed;

Encouraging stores that sell child safety products to also sell furniture safety straps. Many do not carry them, including large department stores and home improvement stores;

And encouraging physicians and child safety instructors to discuss furniture safety with parents.

Mr. Speaker, through this terrible loss, the Beck family has shown great strength and determination to spread their message. As parents we have an awesome responsibility to protect our children, and we must not take this responsibility lightly. While I am deeply saddened by the loss of Meghan Beck, I commend the entire family for their efforts in spreading their message.

I urge my colleagues to visit the Becks' Web site at www.meghanshope.org. There they can learn more about the important issue of furniture safety and what can be done to prevent more tragedies from occurring.

I know that our colleague, the gentlewoman from Pennsylvania (Ms. SCHWARTZ), is also concerned about this issue; and I look forward to working with her closely to see what Congress can do to help.

I am certain that the entire House of Representatives joins me in sending their deepest condolences to the Beck family and in thanking them for their effort on behalf of our children's safety.

FIGHTING CARGO THEFT

The SPEAKER pro tempore. Pursuant to the order of the House of January 4, 2005, the gentleman from Florida (Mr. STEARNS) is recognized during morning hour debates for 5 minutes.

Mr. STEARNS. Mr. Speaker, I rise today to tell my colleagues and the country about a problem that has plagued our country for some 30 years, but continues unabated today. It is a problem that travels our highways and threatens our interstate commerce. It is a problem that affects our entire country and demands a Federal response. The problem is the crime of cargo theft.

Every year, tens of billions of dollars are lost due to cargo theft, by one estimate, up to $60 billion a year in losses. But there are indirect costs as well. This huge amount of business and profit translates into the loss of at least 300,000 mid-level manufacturing jobs. Prices are increasing due to higher insurance premiums. People are losing their jobs and consumers are paying higher prices because of cargo theft. Making matters worse, law enforcement officials estimate 60 percent of cargo theft incidents go unreported, so these costs could be even greater.

Typical targets for cargo theft often include shipments of clothing, prescription drugs, computers, and jewelry. A truckload of computer microprocessors can be worth millions of dollars. A truckload of cigarettes, just another common target, can be worth up to $2 million.

Cargo thieves employ creative and highly efficient means to prey on cargo carriers and have managed to stay one step ahead of our authorities. Thieves know what they want, where they can find it, and how they can get it.

And let us not forget that cargo theft is a national security issue. We know that terrorists can make a lot of money stealing and selling cargo, not to mention the fact that terrorists have a proven record of using trucks to either smuggle weapons of mass destruction or as an instrument of delivery.

Make no mistake about it, cargo theft is a big business, and business is booming.

But despite the incredible costs and high stakes involved, we still have not been able to come up with an effective way to fight cargo theft. The trouble is, cargo theft is not well-known or a high-profile issue. And one of the reasons that cargo theft does not receive the attention it deserves is because very little information exists concerning the problem. For example, there currently is no all-inclusive database that collects, contains, or processes distinct information and data regarding cargo theft.

In order to combat the growing problem of cargo theft, I have introduced legislation, the Cargo Theft Prevention Act, which proposes commonsense solutions to this widespread crime. My legislation would require the creation of just such a database, providing a valuable source of information that would allow State and local law enforcement officials to coordinate reports of cargo theft. This information could then be used to help fight this theft in everyday law enforcement and estimating, and very importantly, estimating the exact cost of this crime.

My act, the Cargo Theft Prevention Act, proposes that cargo theft reports be reflected as a separate category in the Uniform Crime Reporting System, or the UCR, the data collection system that is used by the FBI today. Currently, no such category exists in the UCR, resulting in ambiguous data and the inability to track and monitor trends.

The last thing my bill does is have the United States Sentencing Commission take a look at whether criminals who commit cargo theft deserve stiffer penalties. This needs to be done because the high value-to-volume ratio of hi-tech and high-profit goods cargo theft has encouraged criminals previously involved in drug dealing to move into this area of activity, where they run less risk of detection and suffer less penalties if they are caught.

As it now stands, Mr. Speaker, punishment for cargo theft is a relative slap on the wrist. Throw in the fact that cargo thieves are tough to catch, and what we have here is a low-risk, high-reward crime that easily entices potential criminals. We need to determine what sentencing enhancements and increases must be made, if at all.

Members in this Chamber need to be made aware of this problem, a problem not only specific to the large port cities of this country, but a problem specific to all of our congressional districts. Billions of dollars are being sapped from our economy and this body is doing little to stop it. It is time that we get aggressive and make our highways again safe for commerce.

The Cargo Theft Prevention Act proposes to finally give law enforcement officials and lawmakers the commonsense tools they need to combat the costly and growing crime of cargo theft. I urge my colleagues to support this legislation.

THE WASHINGTON LOBBYISTS

The SPEAKER pro tempore. Pursuant to the order of the House of January 4, 2005, the gentleman from Ohio (Mr. BROWN) is recognized during morning hour debates for 5 minutes.

Mr. BROWN of Ohio. Mr. Speaker, it is springtime, and Major League Baseball is coming to Washington. The thing is, though, I am not sure they got the name right. They are calling the team the Washington Nationals. Not a bad name, but I always thought the name should reflect the true character of a city. The right choice is obvious: the new team's name should be the Washington Lobbyists.

The Washington Lobbyists and their Republican allies would play under new rules of the game.

Rule number one: pay to play. You cannot step on the field unless you ante up. But in the land where cash is king, that is just the start. For a modest added contribution, a batter can shrink the strike zone, replace the traditional hardball with a more responsive tennis ball, or move the pitcher back 10 feet.

Rule number two: no errors. Missed the ball, say, by $800 billion on your Medicare cost estimate? No worries. With enough money, enough spin and enough citizen education, the Lobbyists can make those errors vanish overnight, or at least until election day.

Rule number three: it ain't over until it's over, unless we are losing. Soccer ends after a set period of time. But do you know who plays soccer? Old Europe, that is who. Well, none of that in ''reformed'' baseball. At home games, the Lobbyists can hold the game open, adding extra innings if they are losing at the end of an arbitrary nine innings.

And the Washington Lobbyists would create a whole new fan experience too. Instead of the oh-so-boring Ball Day Or Bat Day, the Lobbyists and their corporate partners could offer U.S. Chamber of Commerce Blanket Day: Fans get blanket product-liability waivers.

Or the Washington Lobbyists baseball team could offer Golf Junket Getaway Giveaways: one lucky fan gets an all-expense sweet golf trip to Scotland, all expenses paid by the Indian gaming industry.

Or the Washington Lobbyists could give away at the ball park Timber Industry Bat Night: every bat is made from 100 percent old-growth forest.

Or Pressroom Sweepstakes: the winning fan gets White House press credentials for a day, but only if he is affiliated with an on-line escort service.

Or maybe Burger Night: free burgers for the first 5,000 fans, made with 100 percent caribou from the Arctic National Wildlife Refuge.

Maybe they could have Wal-Mart Kids Day, where kids would not get to actually watch the game, because somebody has got to work the concessions.

Or Mug Night: the lucky fan gets to keep his swank Republican leadership job, even if his mugshot is taped to his grand jury's dart board.

Or we could even have at the Washington Nationals baseball game starting Thursday night, we could have Halliburton Gasoline Night: a tank of gas for the first 1,000 fans at the patriotic Halliburton price of $8.95 a gallon.

Or the Enron Doubleheader: Fans get in early with promises of a big win, but then the team kicks you out and takes your pension away.

In the spirit of Republican Washington, the Washington Lobbyists will not care much about public opinion, making decisions in secret and ignoring criticism from the fans. And to avoid unpatriotic dissent, games will be played in the middle of the night, after sports writers have gone to bed.

□ 1245

If we want to change things and change how things really work in Washington, Mr. Speaker, we are going to have to change pitchers. Until we do, the Washington lobbyists and their friends here in Congress will always win.

MILITARY READINESS NEEDS

The SPEAKER pro tempore (Mr. BARRETT of South Carolina). Pursuant to the order of the House of January 4, 2005, the gentleman from Rhode Island (Mr. LANGEVIN) is recognized during morning hour debates for 5 minutes.

Mr. LANGEVIN. Mr. Speaker, I join my friend and colleague, the gentleman from North Carolina (Mr. BUTTERFIELD), this afternoon to address matters of importance to Democrats on the House Committee on Armed Services.

I was fortunate enough to visit our men and women overseas in Iraq about a year-and-a-half ago, and I appreciate the amazing job that they are doing. Despite the complexity of their mission, our troops have performed ably and professionally; and they are, without doubt, the strongest and best-trained fighting force in the world.

However, we must ensure that they have the appropriate equipment to continue their record of success. We often overlook the impact that the high operations tempo in Iraq and Afghanistan have had on our equipment. Though the military has accomplished a great deal with what they have, we have clear indications that we are wearing down our equipment perhaps faster than we can replace it. The frequent use of Humvees, trucks, and aircraft, coupled with the harsh climate conditions, has caused them to wear down faster than expected.

The Army estimates that trucks are being degraded at three to five times the normal peacetime rate, with the Congressional Budget Office suggesting that it could be as much as 10 times the recent average. We see similar trends in our aircraft and tanks, with wear rates ranging from two to five times the normal. Meanwhile, National Guard and Reserve units that deploy with their own equipment have left it in theater when they return, creating shortages in the United States for training and other purposes.

Mr. Speaker, we simply cannot ignore the potential impact of this trend on the long-term readiness of our military. Our worldwide prepositioned stocks, which are intended to give our troops rapid access to equipment when needed, are severely depleted, with the Army estimating that we would need 3 years to fully restore them. Also, the Department of Defense estimates that it has $12.8 billion in unfunded maintenance costs, with the CBO projecting the numbers could be as high as $13 billion to $18 billion. At the current rate of operations, it will take years to reset the force to where it needs to be.

Now, we make these points, Mr. Speaker, not to be alarmists but to raise awareness of the state of our military and to emphasize that Congress must remain committed to our troops, both in theater now and in the future. We must pledge not to send our men and women into harm's way with substandard equipment, while actively seeking to rebuild our forces to meet future needs.

Mr. Speaker, furthermore, our commitment to our troops does not end when they return home. There is growing evidence that the combat stresses on our troops may contribute to higher rates of post-traumatic stress disorder. We must improve our PTSD counseling programs as well as our veterans' health care system.

I was disappointed that, during consideration of the emergency supplemental appropriations bill, the House voted down the Democratic motion to recommit, which would have provided more funding for veterans' health programs. Mr. Speaker, our veterans' health system is strained as it is, and I can think of no greater disservice to those men and women serving now than having them return to a nation that refuses to provide appropriate support for their needs.

I know many members of our committee have fought to meet our obligations to our service members and our veterans, and I would particularly like to thank and recognize the efforts of our Ranking Member, the gentleman from Missouri (Mr. SKELTON), as well as the leadership of the gentleman from Illinois (Mr. EVANS). Again, Mr. Speaker, I thank the gentleman from North Carolina (Mr. BUTTERFIELD) for his dedication, and I urge all of my colleagues to remain committed to guaranteeing sufficient military readiness and veterans' services.

SOLEMN DUTY OF CONGRESS TO PROVIDE FOR MILITARY NEEDS

The SPEAKER pro tempore. Pursuant to the order of the House of January 4, 2005, the gentleman from North Carolina (Mr. BUTTERFIELD) is recognized during morning hour debates for 5 minutes.

Mr. BUTTERFIELD. Mr. Speaker, I rise today to join my colleague, the gentleman from Rhode Island (Mr. LANGEVIN), to talk about the position of House Democrats, particularly those of us on the Committee on Armed Services, regarding an issue of importance to our national defense.

As a new member of the Subcommittee on Readiness, I have been privy to briefings from our combatant commanders and from the Department of Defense. The testimonies provided by these great Americans have led me to the conclusion that our military equipment located in Iraq and Afghanistan has become severely worn and damaged.

The Congress of the United States has a solemn constitutional duty to provide for our military, and the Democratic Members of the Congress take this responsibility very seriously. A sufficient part of our duty is to make sure that our troops have the equipment they need to be successful when they are engaged in war. Whether it is MREs or canteens or desert uniforms or personal protective vests or up-armored Humvees, our troops deserve to have enough equipment in good working condition to get the job done. Mr. Speaker, I am concerned that our troops are on the verge of not having the equipment they need to win these wars, and that is not good.

Many of our briefings, Mr. Speaker, are top secret, and I would not dare to breach that confidence. But, Mr. Speaker, it is not classified that the pace of military operations in Iraq and Afghanistan is taking its toll on our equipment. We are simply wearing out the equipment at a fast pace.

By the Army's own estimates, trucks are wearing out at three to five times the rate as they would during peacetime operations. The Congressional Budget Office estimates that the truck usage is as much as 10 times higher than average during the last 7 years. Our aircraft are aging and wearing out at twice the rate as in peacetime. The Marine Corps reports its CH–46 helicopters are being used at 230 percent of the peacetime rate.

It is not just that our equipment is wearing out, Mr. Speaker; it is that so much of our equipment is wearing out.

Forty percent of the Army's equipment has been deployed since the start of Iraqi Freedom and Enduring Freedom. Thirty percent of the Marine Corps' equipment is deployed, and 2,300 items require depot maintenance. Twelve percent of the wheeled vehicles in Iraq are so broken down that they will have to be replaced.

We have also depleted a high percentage of our prepositioned equipment. The Army says that our stocks will not be reset for at least 3 years after the end of the conflicts.

Equipment casualties are significant. During the war in Iraq, the Army has lost 503 pieces of major equipment, including 51 helicopters, 76 heavy trucks, 217 Humvees, and 97 combat vehicle-like tanks, Bradley fighting vehicles and Strykers.

The Marine Corps reports that 1,800 pieces of equipment valued at over $94 million have been destroyed.

Why do I mention all of these statistics? I want my colleagues and the American people to understand that we are coming dangerously close to weakening our military, and we must understand the enormity of the problem. And it must be known that it is going to take a lot of money to fix the problem.

The 2005 supplemental appropriation passed by the House earlier this year includes $554 million to replace 800 worn out or damaged pieces of equipment. The CBO estimates that the Department of Defense already needs between $13 billion and $18 billion to fund

maintenance costs not covered in the budget. And the Army will require at least 2 years of supplemental appropriations after the end of the conflict in order to reset the force. I regret that the President's 2006 budget request does not include the money we need to replace and modernize our worn and lost equipment.

Mr. Speaker, the Democratic Members of the Committee on Armed Services deeply care about our troops and about our military. We must fulfill our constitutional duty to ensure that our troops have what they need to succeed wherever they are deployed. They can only succeed and we can only carry out our duty if we provide them sufficient equipment to complete their mission. That is going to be a long and expensive process.

Congress, therefore, needs to take prompt action, and I call on all of my colleagues to provide the needed support to make that happen.

REPUBLICAN BANKRUPTCY BILL MEANS FALSE HOPE AND ENDLESS DEBT BURDEN FOR AMERICANS

The SPEAKER pro tempore. Pursuant to the order of the House of January 4, 2005, the gentleman from Washington (Mr. MCDERMOTT) is recognized during morning hour debates for 5 minutes.

Mr. MCDERMOTT. Mr. Speaker, the Republican majority today or tomorrow will put before this House and the American people a WMD, a Weapon of Mass Debt. They call it the Bankruptcy Abuse and Consumer Prevention Act of 2005. This legislation is as far away from protecting consumers as a snake oil salesman pitching an elixir to cure all of your ills.

This legislation should be called the Credit Card Company Enslavement Act of 2005. It does not help the American people. It was conceived by the credit card people for the credit card people and packaged by their Republican surrogates for one reason and one reason only: to entrap low- and middle-income Americans.

As always with this Republican majority, if you are rich, do not worry, they have your back covered. But for every other American, you are the payoff for special interests and corporate greed. Disguise legislation with a phony name and let them clean your clock over and over and over again.

Debt, and pain and suffering associated with economic enslavement, has been a major concern throughout recorded history. The Bible speaks about debt in the books of Exodus, Micah, Amos, Nehemiah, Romans, Kings, and Deuteronomy, among others. I could go on all day long with that. That is a lot of spiritual guidance.

So what is this all about? Economic justice is what the Bible preached, knowing full well that debt bound a person tighter than any chain, enslaving hope as it extracted money. For thousands of years, spiritual leaders, including John Paul, have preached a gospel of economic justice for people throughout the world. Instead, today we are expected to pander to corporate greed while we deny social responsibility.

I personally am not going to go for it. The legislation before us is about grinding people into the dirt. It is not a fresh start, but false hope and an endless debt burden.

The Republican majority today would like us to condone stripping people of all of their worldly possessions and then denying them the right to hope to make a new life for themselves and their loved ones.

Here are some facts behind the fraud the Republican majority has in front of us: Ninety percent of those filing for bankruptcy protection are doing so because of losing a job, a medical emergency, or the breakup of a family. Half the personal bankruptcies in America today are because of illness or unpaid medical bills.

What are the President and Republican majority doing about health care? Nothing, nada, zippo. They have not touched it for the last 4 years, and they will pander to the special interests over the next 4 years. After all, people without health care do not go to those fancy Republican fund-raisers. They go to the emergency room when they cannot avoid illness any longer.

Mr. Speaker, 45 million Americans have no health care and no hope from this administration, and 1.6 million American households filed for bankruptcy last year. That is one measure of the President's economic program he is not talking much about. The rich get richer and the poor get outed.

Divorced women are 300 percent more likely than a single or married woman to file for bankruptcy because of the consequences of divorce, from lower wages to the financial strain of raising children alone. So much for Republican family values.

African American and Hispanics are 500 percent more likely than white homeowners to end up in bankruptcy court because of discrimination in everything from mortgage costs, to hiring, to wages. It is real, and the Republican majority would like us to look the other way.

More older Americans are filing for bankruptcy because they are being forced out of their jobs, cannot find new ones that pay when they were earning, and they are victims of runaway health costs.

□ 1300

But wait, there is even more. Credit card companies are an equal-opportunity scourge. This environment inundates students, the working poor and middle America with dozen of offers for more credit cards and more debt every week. How many offers have you received in the mail or on the phone this week, 3, 4, 5? The marketing is not aggressive. It is predatory. They tempt you with offers that promise anything and everything. Pre-approved, pre-authorized, platinum, gold, silver. The truth is, the credit cards are not made of plastic. They are made out of lead, and they are hung around your neck like a yoke.

Does this so-called consumer protection action do anything to address predatory credit card marketing? Nothing, nada, zippo.

So what exactly are the Republicans proposing? This bill allows millionaires to shelter their assets in bankruptcy by protecting an unlimited amount of value in their residences.

What about child support?

Well, the Republicans have a real deal for you. This bill, their bill, would force women and children who are owed child support to fight with the credit card companies in court for the money. Given the Republican knack for words, they will probably call this a social safety net. And on and on it goes. Vote ''no'' on this bankruptcy bill. It is bankrupt.

RECESS

The SPEAKER pro tempore (Mr. BARRETT of South Carolina). Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until 2 p.m.

Accordingly (at 1 o'clock and 1 minute p.m.), the House stood in recess until 2 p.m.

□ 1400

AFTER RECESS

The recess having expired, the House was called to order at 2 p.m.

PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

Lord God, author of truth and creator of beauty, cherry blossoms in Washington usher in spring to the Nation.

May new life be made manifest in Congress this term, bringing glory to Your holy name and peace and prosperity to the cities and fields of the land.

Lord, as You inspire creativity in artists, engineers and scientists, also stir aspirations of hopeful negotiations in troublesome areas of the world and in the corridors of government.

May the seeds of peace and the beginnings of deeper understanding grow in the hearts and minds of Your people.

This we ask, now and forever. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from New York (Mr. MCNULTY) come forward and lead the House in the Pledge of Allegiance.

Mr. MCNULTY led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Monahan, one of its clerks, announced that the Senate has passed a concurrent resolution of the following title in which the concurrence of the House is requested:

S. Con. Res. 25. Concurrent resolution expressing the sense of Congress regarding the application of Airbus for launch aid.

RIDICULOUS, WASTEFUL SPENDING AT THE FEDERAL LEVEL

(Mr. DUNCAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DUNCAN. Mr. Speaker, the Scripps-Howard News Service recently ran a story about what it describes as ''Capitol Hill's extravagant new visitors center.''

The story said: ''Another year and another $37 million in unforeseen cost increases'' in what is becoming an annual sad joke.

There have been so many examples of ridiculous, wasteful spending at the Federal level over the last 30 or 40 years that it seems the Federal Government cannot do anything in an economical, efficient manner.

The Scripps-Howard story said: ''Originally estimated to cost $40 million, the project has grown into a 5-story Taj Mahal that so far has cost taxpayers $454 million.''

The current final cost is estimated to be $559 million, and Citizens Against Government Waste describes it as ''monumental waste.''

Apparently, if we want something to cost about 10 times more than it should, just let the Federal Government do it.

Those who are in charge of managing this project should be ashamed and embarrassed, but all they will probably do is laugh at these comments, since the money is not coming out of their pockets.

LATINOS AND SOCIAL SECURITY

(Ms. SOLIS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. SOLIS. Madam Speaker, today I rise to voice my concerns regarding Social Security privatization and how it is going to affect hardworking Hispanics and Latino families and especially the women Latinas.

About 46 percent of older Latinas depend entirely on Social Security in retirement. In fact, 60 percent of Latinas over the age of 65 would live in poverty if they did not receive Social Security.

If President Bush privatizes Social Security, young Latinas in their 20s and 30s will see their benefits cut by at least 30 percent.

Latina moms rely on Social Security also if their husbands become injured or die. The work injury rate for Hispanics in the year 2000 was 16 percent compared to 11 percent of the overall population. Therefore, Social Security disability benefits are particularly important for Latinas and their families.

The President's plan will not help Latinos or our families. Let us start talking about real solutions, helping our families that work very hard day in and day out.

SOCIAL SECURITY

(Mr. PRICE of Georgia asked and was given permission to address the House for 1 minute.)

Mr. PRICE of Georgia. Madam Speaker, we have heard all about the problems with Social Security many times here on the House floor: looming deficits, benefit cuts, payroll tax hikes. These problems are very real, and they are just around the corner if we do not act.

With that being said, my colleagues across the aisle continue to criticize, continue to say to the American people that there is no problem when, in fact, the 2005 Trustees Report showed the problem to be crystal clear. Social Security will begin paying out more than it collects in 2017. By 2041, the Social Security system as we know it will be insolvent with not enough money to pay 100 percent of the promised benefits.

Raising payroll taxes is not a solution. Just look at our history. Payroll taxes have been increased over 20 times since Social Security began.

Madam Speaker, across the aisle we hear the same old rhetoric of why things will not work. The question I have for them is what are their proposals to fix Social Security?

The challenges with Social Security are not Republican, and they are not Democrat. This is a challenge for all Americans, and I call upon those across the aisle to help us find a solution. Let us put people above politics.

IT IS TIME TO END THE DEATH TAX NOW

(Mr. SAM JOHNSON of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SAM JOHNSON of Texas. Madam Speaker, the gibberish my colleagues just heard about is the President says everything's on the table. We can reform Social Security.

Madam Speaker, this week the United States House will vote to eliminate the unfair death tax.

Believe it or not, the government gives you a certificate at birth, a license when you marry and a tax bill when you die. Is that not a shame?

Taxing people when they die smacks of all the things that are wrong with the government and Washington.

The death tax was created to target people like the Vanderbilts and the Rockefellers, with the original intent of paying and winning World War I. This bill hits hardworking Americans. The death tax hurts the mom-and-pop shops on Main Street, and that is just not fair.

Sadly, now if a person saved for the future, put some money away, built a business, ran a farm or achieved the American Dream in other ways, the death tax punishes them.

That is just wrong, and it is time to end the death tax now.

ANNOUNCING 527 FAIRNESS ACT

(Mr. PENCE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PENCE. Madam Speaker, the summer of 2004 will be remembered for many years in American politics.

Groups organized on the left and the right under what was known as section 527 of the Internal Revenue Code and spent more than $300 million to support candidates, while the two major political parties and the Nation's most respected labor unions, associations, businesses, and constitutional groups watched in silence from the sidelines.

In response to this summer of 527s, some in Washington will bring measures to rein in the 527 groups with greater government control and regulation, and that is certainly their right.

The gentleman from Maryland (Mr. WYNN), a Democratic Congressman, and I have taken a different approach in introducing the 527 Fairness Act in the 109th Congress.

The 527 Fairness Act seeks to restore basic fairness to the political process for political parties and 501(c) organizations instead of attempting further regulation on political speech. More freedom is always the answer of the difficulties and challenges and the politics of a free society.

While this liberty may be a bit more chaotic and inconvenient for some in

the political class, as Thomas Jefferson said, ''I would rather be exposed to the inconveniences attending too much liberty than those attending too small a degree of it.''

I join the gentleman from Maryland (Mr. WYNN), my colleague, in urging cosponsorship and swift passage of the 527 Fairness Act.

WINE INDUSTRY IN NORTH CAROLINA

(Ms. FOXX asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. FOXX. Madam Speaker, I rise today to recognize the flourishing viticulture industry located in North Carolina's 5th District.

The Yadkin Valley is North Carolina's first federally recognized American viticultural area. Located in northwestern North Carolina, it includes all of Surry, Wilkes and Yadkin counties, as well as portions of Stokes, Davie, and Forsyth counties. There are currently 14 wineries and more than 400 acres devoted to vineyards in the Yadkin Valley.

These vineyards and wineries create jobs and attract tourist dollars to rural communities, while generating revenue for the State. They also offer an opportunity for farm diversification and farmland preservation.

Vineyards in North Carolina produce an average of nearly 3 tons per acre, valued at $1,180 per ton. That is an average gross income of $3,481 per acre. The average price per ton is among the highest in America.

The North Carolina Grape Council estimates that North Carolina vineyards and wineries bring in $100 million in revenue per year.

Congratulations to the Yadkin Valley vineyards and wineries, and I thank them for everything they contribute to our State and region.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mrs. MILLER of Michigan). Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 6 of rule XX.

Record votes on postponed questions will be taken after 6:30 p.m. today.

TWENTY-FIRST CENTURY WATER COMMISSION ACT OF 2005

Mr. DUNCAN. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 135) to establish the ''Twenty-First Century Water Commission'' to study and develop recommendations for a comprehensive water strategy to address future water needs.

The Clerk read as follows:

H.R. 135

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Twenty-First Century Water Commission Act of 2005''.

SEC. 2. FINDINGS.

Congress finds that—

(1) the Nation's water resources will be under increasing stress and pressure in the coming decades;

(2) a thorough assessment of technological and economic advances that can be employed to increase water supplies or otherwise meet water needs in every region of the country is important and long overdue; and

(3) a comprehensive strategy to increase water availability and ensure safe, adequate, reliable, and sustainable water supplies is vital to the economic and environmental future of the Nation.

SEC. 3. ESTABLISHMENT.

There is established a commission to be known as the ''Twenty-First Century Water Commission'' (in this Act referred to as the ''Commission'').

SEC. 4. DUTIES.

The duties of the Commission shall be to—

(1) use existing water assessments and conduct such additional assessments as may be necessary to project future water supply and demand;

(2) study current water management programs of Federal, Interstate, State, and local agencies, and private sector entities directed at increasing water supplies and improving the availability, reliability, and quality of freshwater resources; and

(3) consult with representatives of such agencies and entities to develop recommendations consistent with laws, treaties, decrees, and interstate compacts for a comprehensive water strategy which—

(A) respects the primary role of States in adjudicating, administering, and regulating water rights and water uses;

(B) identifies incentives intended to ensure an adequate and dependable supply of water to meet the needs of the United States for the next 50 years;

(C) suggests strategies that avoid increased mandates on State and local governments;

(D) eliminates duplication and conflict among Federal governmental programs;

(E) considers all available technologies and other methods to optimize water supply reliability, availability, and quality, while safeguarding the environment;

(F) recommends means of capturing excess water and flood water for conservation and use in the event of a drought;

(G) suggests financing options for comprehensive water management projects and for appropriate public works projects;

(H) suggests strategies to conserve existing water supplies, including recommendations for repairing aging infrastructure; and

(I) includes other objectives related to the effective management of the water supply to ensure reliability, availability, and quality, which the Commission shall consider appropriate.

SEC. 5. MEMBERSHIP.

(a) NUMBER AND APPOINTMENT.—The Commission shall be composed of 9 members who shall be appointed not later than 90 days after the date of enactment of this Act. Member shall be appointed as follows:

(1) 5 members appointed by the President;

(2) 2 members appointed by the Speaker of the House of Representatives, in consultation with the Minority Leader of the House of Representatives; and

(3) 2 members appointed by the Majority Leader of the Senate, in consultation with the Minority Leader of the Senate.

(b) QUALIFICATIONS.—Members shall be appointed to the Commission from among individuals who—

(1) are of recognized standing and distinction in water policy issues; and

(2) while serving on the Commission, do not hold any other position as an officer or employee of the United States, except as a retired officer or retired civilian employee of the United States.

(c) OTHER CONSIDERATIONS.—In appointing members of the Commission, every effort shall be made to ensure that the members represent a broad cross section of regional and geographical perspectives in the United States.

(d) CHAIRPERSON.—The Chairperson of the Commission shall be designated by the President.

(e) TERMS.—Members of the Commission shall be appointed not later than 90 days after the date of enactment of this Act and shall serve for the life of the Commission.

(f) VACANCIES.—A vacancy on the Commission shall not affect its operation, and shall be filled in the same manner as the original appointment provided under subsection (a).

(g) COMPENSATION AND TRAVEL EXPENSES.—Members of the Commission shall serve without compensation, except members shall receive travel expenses, including per diem in lieu of subsistence, in accordance with applicable provisions under subchapter I of chapter 57, United States Code.

SEC. 6. MEETINGS AND QUORUM.

(a) MEETINGS.—The Commission shall hold its first meeting not later than 60 days after the date on which all members have been appointed under section 5, and shall hold additional meetings at the call of the Chairperson or a majority of its members.

(b) QUORUM.—A majority of the members of the Commission shall constitute a quorum for the transaction of business.

SEC. 7. DIRECTOR AND STAFF.

A Director shall be appointed by the Speaker of the House of Representatives and the Majority Leader of the Senate, in consultation with the Minority Leader and chairmen of the Resources and Transportation and Infrastructure Committees of the House of Representatives, and the Minority Leader and chairmen of the Energy and Natural Resources and Environment and Public Works Committees of the Senate. The Director and any staff reporting to the Director shall be paid a rate of pay not to exceed the maximum rate of basic pay for GS–15 of the General Schedule.

SEC. 8. POWERS AND PROCEEDINGS OF THE COMMISSION.

(a) HEARINGS.—The Commission shall hold no fewer than 10 hearings during the life of the Commission. Hearings may be held in conjunction with meetings of the Commission. The Commission may take such testimony and receive such evidence as the Commission considers appropriate to carry out this Act. At least 1 hearing shall be held in Washington, D.C., for the purpose of taking testimony of representatives of Federal agencies, national organizations, and Members of Congress. Other hearings shall be scheduled in distinct geographical regions of the United States and should seek to ensure testimony from individuals with a diversity

of experiences, including those who work on water issues at all levels of government and in the private sector.

(b) INFORMATION AND SUPPORT FROM FEDERAL AGENCIES.—Upon request of the Commission, any Federal agency shall—

(1) provide to the Commission, within 30 days of its request, such information as the Commission considers necessary to carry out the provisions of this Act; and

(2) detail to temporary duty with the Commission on a reimbursable basis such personnel as the Commission considers necessary to carry out the provisions of this Act, in accordance with section 5(b)(5), Appendix, title 5, United States Code.

SEC. 9. REPORTS.

(a) INTERIM REPORTS.—Not later than 6 months after the date of the first meeting of the Commission, and every 6 months thereafter, the Commission shall transmit an interim report containing a detailed summary of its progress, including meetings and hearings conducted in the interim period, to—

(1) the President;

(2) the Committee on Resources and the Committee on Transportation and Infrastructure of the House of Representatives; and

(3) the Committee on Energy and Natural Resources and the Committee on the Environment and Public Works of the Senate.

(b) FINAL REPORT.—As soon as practicable, but not later than 3 years after the date of the first meeting of the Commission, the Commission shall transmit a final report containing a detailed statement of the findings and conclusions of the Commission, and recommendations for legislation and other policies to implement such findings and conclusions, to—

(1) the President;

(2) the Committee on Resources and the Committee on Transportation and Infrastructure of the House of Representatives; and

(3) the Committee on Energy and Natural Resources and the Committee on the Environment and Public Works of the Senate.

SEC. 10. TERMINATION.

The Commission shall terminate not later than 30 days after the date on which the Commission transmits a final report under section 9(b).

SEC. 11. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated $9,000,000 to carry out this Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee (Mr. DUNCAN) and the gentlewoman from California (Mrs. NAPOLITANO) each will control 20 minutes.

The Chair recognizes the gentleman from Tennessee (Mr. DUNCAN).

GENERAL LEAVE

Mr. DUNCAN. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 135, the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. DUNCAN. Madam Speaker, I yield myself such time as I may consume.

H.R. 135, introduced be my good friend, the distinguished gentleman from Georgia (Mr. LINDER), and cosponsored by a wide range of Members from both parties, creates the 21st Century Water Commission to find ways to increase and conserve water supplies. The gentleman from Georgia and his colleagues have properly recognized that water shortages are a common problem throughout the United States.

The goal of this legislation is for a broad-based commission to recommend a comprehensive water strategy that recognizes and upholds the primary role of the States in administering our water laws. The commissioners, appointed by the President and the Congress, would look at ways to improve interagency coordination, eliminate government duplication, create new financing opportunities and improve our Nation's water infrastructure, among other things, all very important goals.

The commission is directed to hold no less than 10 public hearings around the Nation and submit a final report no later than 3 years after its first meeting so that this commission will not drag on forever. The legislation sunsets the commission within 30 days of the final report's submission.

Madam Speaker, there is, and should be, a limited Federal role in these matters since States and localities primarily administer water rights and know the most about them. This bill does not add Federal regulation to the books. It simply creates a mechanism for further dialogue and potential solutions for all levels of government.

This idea has come a long way since it was originally introduced over two Congresses ago. It has been subject to hearings and comprehensively vetted through both the Committee on Resources and the Committee on Transportation and Infrastructure, both of which I have the privilege to serve on.

In fact, last Congress I held a series of hearings on water supply issues, including a hearing on this legislation. The witnesses who testified before my Subcommittee on Water Resources and Environment strongly supported greater planning to meet future water needs, involving all levels of government, and supported the 21st Century Water Commission Act as a means to help start that process.

It, like the identical bill passed by the House in the 108th Congress, is the right solution for the right time. It respects the primary role that States play in addressing water resources issues.

□ 1415

I urge my colleagues to adopt this bipartisan bill.

Madam Speaker, I reserve the balance of my time.

Mrs. NAPOLITANO. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise in support of H.R. 135. This legislation, as explained by my colleague, would establish the 21st Century Water Policy Commission to study Federal, State, local and private water management programs in order to develop recommendations for a comprehensive national water strategy.

The objectives of H.R. 135 are not only worthwhile but a necessity for the country, and we appreciation the cooperation we have received from the sponsor of the bill. I urge my colleagues to support the legislation.

Madam Speaker, I yield back the balance of my time.

Mr. DUNCAN. Madam Speaker, I yield such time as he may consume to the gentleman from Georgia (Mr. LINDER), probably the Member of this body who was the first to recognize the grave importance of water issues in this Nation, the distinguished primary sponsor of this bill. I commend the gentleman for his steadfast and yeoman's work on this legislation, and it should be noted that one of our leading national newspapers just a few years ago wrote a series of articles saying that water would be the oil of the 21st century.

Mr. LINDER. Madam Speaker, as the bill's sponsor, I rise to support H.R. 135, the 21st Century Water Commission Act. H.R. 135 will bring together our Nation's premier water experts to recommend strategies for meeting our water challenges in the 21st century.

I would like to thank several Members who have worked with me to bring this proposal to the floor today. First, the gentleman from California (Mr. POMBO), chairman of the Committee on Resources; the gentleman from California (Mr. RADANOVICH), chairman of the Subcommittee on Water and Power; the gentleman from Alaska (Mr. YOUNG), chairman of the Committee on Transportation and Infrastructure; and the gentleman from Tennessee (Mr. DUNCAN), chairman of the Subcommittee on Water Resources and Environment.

I thank the gentleman from Florida (Mr. KELLER), the former chairman of the subcommittee and the ranking member, and the gentlewoman from California (Mrs. NAPOLITANO), who worked so hard in getting this bill to the floor in the past Congress.

H.R. 135 was approved in the 108th Congress by a voice vote on November 21, 2003. Unfortunately, the Senate failed to act on the legislation before the Congress adjourned. Creating a comprehensive water policy to meet the needs of the 21st century is a matter of human survival and quality of life for the United States. I am excited about continuing to move this bill through the legislative process early in this Congress.

Water-related issues have been of interest to me for many years. I wrote an

article in 1978 that predicted that one of the two major challenges for our country during the next century would be providing enough fresh water for a growing population.

Since that time, about 25 years ago, America still does not have an integrated or comprehensive water policy, even with the hundreds of thousands of Federal, State, local and private sector employees working to solve water problems. The difficulty is that there is little communication and coordination among these experts. If we wait another 10 or 20 years to get serious about meeting the demand for clean water, it will be too late. We must act now to meet these challenges.

As my colleagues are aware, many States across the Nation are currently facing a water crisis or have in the last few years. Once thought to be a problem only in the arid West, severe droughts a few years ago caused water shortages up and down the East Coast. States once accustomed to unlimited access to water realized they were not immune to the problems that the West has experienced for decades.

In addition to drought, aquifers are being challenged by salt water intrusion, crops are being threatened, and our aging water pipes leak billions of gallons of freshwater in cities all over the Nation. For example, New York City loses 36 million gallons per day, Philadelphia loses 85 million gallons per day through leaky pipes.

Let me be clear about one thing. My bill does not give the Federal Government more direct authority or control over water. Rather, this Commission will make recommendations about how we can both coordinate water management issues on all levels so that localities, States, and the Federal Government can work together to enact a comprehensive water policy to avoid future shortages.

The 21st Century Water Commission would be an advisory body, and its recommendations would be nonbinding.

Some of the highlights are these: The Commission will look for ways to ensure fresh water for the next 50 years. The Commission will be composed of nine members appointed by the President and key leaders in the House and Senate. The Commission will look for ways to eliminate duplication and conflict among Federal agencies and will consider new and all available technologies to optimize water supply reliability. The Commission will hold hearings in distinct geographical regions of the United States and in Washington, DC, to seek a diversity of views, comments and inputs. Not later than 6 months after the first meeting and every 6 months thereafter, the Commission will transmit an interim report to the Congress and to the President.

A final report will be due within 3 years of the Commission's inception. The report will include a detailed statement of findings and conclusions of the Commission, as well as recommendations for legislation and other policies.

The United States cannot afford to reevaluate its water policies every time a crisis hits. Now is the time to get ahead of the issue, and I believe the Commission can serve as a channel for sharing the successful strategies and ideas that will allow us to do so. I ask my colleagues to join me in voting for H.R. 135.

Mr. DUNCAN. Madam Speaker, I yield myself such time as I may consume.

Mrs. NAPOLITANO. Madam Speaker, will the gentleman yield?

Mr. DUNCAN. I yield to the gentlewoman from California.

Mrs. NAPOLITANO. Madam Speaker, I could not agree more with the intent of the bill. I certainly hope it takes less than the 12 years it took to do the Southern California Water Study. We do have a time frame for this to happen. It is critical for us to recognize that all areas of our country have water needs, and we need to consolidate how we address them and be together with the suppliers so we can move ahead with a comprehensive plan.

Mr. DUNCAN. Madam Speaker, let me just close by saying that although this bill is not controversial and has not received a lot of publicity, that should not denigrate its significance. Because of our aging clean water infrastructure, because of water supply problems in many parts of this Nation, and for all of the other reasons that our colleague, the gentleman from Georgia (Mr. LINDER), just mentioned, this is a very important bill. I urge all of my colleagues to support it.

Madam Speaker, I submit the following exchange of letters on H.R. 135 for the RECORD.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON RESOURCES,
Washington, DC, April 5, 2005.

Hon. DON YOUNG,
Chairman, Committee on Transportation and Infrastructure, Washington, DC.

DEAR MR. CHAIRMAN: I request your assistance in scheduling H.R. 135, the Twenty-First Century Water Commission Act of 2005, for consideration by the House of Representatives. This bill was referred primarily to the Committee on resources and additionally to your committee.

As the text of this bill is identical to what passed the House of Representatives under suspension of the rules last Congress, I ask that you allow your committee to be discharged from further consideration of the bill to allow us to pass it again. Perhaps with more time, the Senate will be able to give it due consideration.

By allowing the Transportation and Infrastructure Committee to be discharged, you are not waiving any jurisdiction you may have over the bill. I also agree that in the unlikely event that this bill becomes the focus of a conference committee that I will support your request to be represented on that conference. Finally, I agree that this discharge will not serve as precedent for future referrals.

Thank you for your consideration of my request. I look forward to another Congress of extraordinary cooperation between our committees on matters of mutual interest.

Sincerely,

RICHARD W. POMBO,
Chairman.

HOUSE OF REPRESENTATIVES, COMMITTEE ON TRANSPORTATION AND INFRASTRUCTURE,
Washington, DC, April 5, 2005.

Hon. RICHARD W. POMBO,
Chairman, Committee on Resources, Washington, DC.

DEAR MR. CHAIRMAN: I am writing to you concerning the jurisdictional interest of the Transportation and Infrastructure Committee in matters being considered in H.R. 135, the Twenty-First Century Water Commission Act of 2005. As you know, this legislation was also referred to the Transportation Committee.

Our Committee recognizes the importance of H.R. 135 and the need for the legislation to move expeditiously to the House floor. Therefore, I am willing to have the Transportation Committee discharged from consideration of the bill. I would appreciate it if you would include a copy of this letter and your response in the Congressional Record.

The Committee on Transportation and Infrastructure also asks that you support our request to be conferees on the provisions over which we have jurisdiction during any House-Senate conference.

Thank you for your cooperation in this matter.

Sincerely,

DON YOUNG,
Chairman.

Mr. OBERSTAR. Madam Speaker, I rise today in support of H.R. 135, a bill to establish a commission to examine the issue of clean, safe, and reliable water supplies for this generation and for generations to come.

Madam Speaker, water may well be the most precious resource on Earth. The existence of water set the stage for the evolution of life and is an essential ingredient of all life today.

Recognizing the importance of this vital resource, the United Nations designated 2003 as the ''International Year of Freshwater.'' According to the U.N., throughout the world roughly one person in six lives without regular access to safe drinking water, and over twice that number—or 2.4 billion—lack access to adequate sanitation. In addition, water-related diseases kill a child every eight seconds.

In the United States, we have avoided many of these concerns through careful planning and decades of investment in our water infrastructure. Nationally, a combination of Federal, state, and local funds have built 16,024 wastewater treatment facilities that provide service to 190 million people, or 73 percent of the total population.

In addition, 268 million people in the United States—or 92 percent of the total population—are currently served by public drinking water systems, which provide a safe and reliable source of drinking water for much of the nation.

As I noted earlier, clean, safe, and reliable sources of water are critical to this nation's health and livelihood. However, in the past few decades, a series of natural events, as well

as, human-induced events have demonstrated that our nation remains vulnerable to shortages of water.

In my own State, we have experienced shortages of snowfall and rain which have had an adverse impact on local water supplies, agriculture, and recreation and tourism, and have contributed to historically low water levels in the Great Lakes. One thing is certain: no area of this country is immune to the threat of diminished water supplies. We must be vigilant in preparing for such occurrences.

This bill is a part of the debate on the very important issue of water resource planning in this country. The gentleman from Georgia, Mr. LINDER, has taken an important step in encouraging this debate, calling for the creation of a Federal commission to examine issues related to national water resource planning, and to report its findings on potential ways to insure against large-scale water shortages in the future.

While I believe that the legislation introduced by our colleague is a good starting point, we must be sure to examine fully all of the relevant issues for ensuring adequate supplies of clean and safe water to meet current and future needs.

For example, water resource planning should work toward increasing the efficiency of water consumption as well as increasing the supply of water. Simply increasing the supply of water can be a more costly approach to meeting future water needs, and in any case, merely postpones any potential water resource crisis.

In addition, it is important to remember that issues of water supply are closely related to water quality. Contaminated sources of freshwater are of little use to the Nation's health or livelihood; removing contaminants drives up the overall cost of providing safe and reliable water resources to our people.

In addition, human activities, whether through the pollution of waterbodies from point or non-point sources, the elimination of natural filtration abilities of wetlands, or through the destruction and elimination of aquifer recharge points, can have a significant impact on available supplies of usable water.

We cannot base our future water resource planning needs on the possibility of finding ''new'' sources of freshwater while, at the same time, tolerating practices that destroy or contaminate existing sources. All the water there ever was or ever will be on this planet is with us now; we must spare no effort to be vigilant and careful stewards of that water.

I urge my colleagues to support the bill.

Mr. DUNCAN. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mrs. MILLER of Michigan). The question is on the motion offered by the gentleman from Tennessee (Mr. DUNCAN) that the House suspend the rules and pass the bill, H.R. 135.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds of those present have voted in the affirmative.

Mr. DUNCAN. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

PINE SPRINGS LAND EXCHANGE ACT

Mr. DUNCAN. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 482) to provide for a land exchange involving Federal lands in the Lincoln National Forest in the State of New Mexico, and for other purposes.

The Clerk read as follows:

H.R. 482

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Pine Springs Land Exchange Act''.

SEC. 2. LAND EXCHANGE, LINCOLN NATIONAL FOREST, NEW MEXICO.

(a) DEFINITIONS.—In this section:

(1) FEDERAL LAND.—The term ''Federal land'' means the three parcels of land, and any improvements thereon, comprising approximately 80 acres in the Lincoln National Forest, New Mexico, as depicted on the map entitled ''Pine Springs Land Exchange'' and dated May 25, 2004, and more particularly described as S1/2SE1/4NW1/4, SW1/4SW1/4, W1/2E1/2NW1/4SW1/4, and E1/2W1/2NW1/4SW1/4 of section 32 of township 17 south, range 13 east, New Mexico Principal Meridian.

(2) NON-FEDERAL LAND.—The term ''non-Federal land'' means the parcel of land owned by Lubbock Christian University comprising approximately 80 acres, as depicted on the map referred to in paragraph (1) and more particularly described as N1/2NW1/4 of section 24 of township 17 south, range 12 east, New Mexico Principal Meridian.

(b) LAND EXCHANGE REQUIRED.—

(1) EXCHANGE.—In exchange for the conveyance of the non-Federal land by Lubbock Christian University, the Secretary of Agriculture shall convey to Lubbock Christian University, by quit-claim deed, all right, title, and interest of the United States in and to the Federal land. The conveyance of the Federal land shall be subject to valid existing rights and such additional terms and conditions as the Secretary considers appropriate to protect the interests of the United States.

(2) ACCEPTABLE TITLE.—Title to the non-Federal land shall conform with the title approval standards of the Attorney General applicable to Federal land acquisitions and shall otherwise be acceptable to the Secretary.

(3) COSTS OF IMPLEMENTING THE EXCHANGE.—The costs of implementing the land exchange shall be shared equally by the Secretary and Lubbock Christian University.

(4) COMPLETION.—Subject to paragraph (2), the Secretary shall complete, to the extent practicable, the land exchange not later than 180 days after the date of the enactment of this Act.

(c) TREATMENT OF MAP AND LEGAL DESCRIPTIONS.—The Secretary and Lubbock Christian University may correct any minor error in the map referred to in subsection (a)(1) or the legal descriptions of the Federal land and non-Federal land. In the event of a discrepancy between the map and legal descriptions, the map shall prevail unless the Secretary and Lubbock Christian University otherwise agree. The map shall be on file and available for inspection in the Office of the Chief of the Forest Service and the Office of the Supervisor of Lincoln National Forest.

(d) EQUAL VALUE EXCHANGES.—The fair market values of the Federal land and non-Federal land exchanged under subsection (b) shall be equal or, if they are not equal, shall be equalized in the manner provided in section 206 of the Federal Land Policy Management Act of 1976 (43 U.S.C. 1716). The fair market value of the land shall be determined by appraisals acceptable to the Secretary and Lubbock Christian University. The appraisals shall be performed in conformance with subsection (d) of such section and the Uniform Appraisal Standards for Federal Land Acquisitions.

(e) REVOCATION AND WITHDRAWAL.—

(1) REVOCATION OF ORDERS.—Any public orders withdrawing any of the Federal land from appropriation or disposal under the public land laws are revoked to the extent necessary to permit disposal of the Federal land.

(2) WITHDRAWAL OF FEDERAL LAND.—Subject to valid existing rights, pending the completion of the land exchange, the Federal land is withdrawn from all forms of location, entry and patent under the public land laws, including the mining and mineral leasing laws and the Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.).

(f) ADMINISTRATION OF LAND ACQUIRED BY UNITED STATES.—

(1) BOUNDARY ADJUSTMENT.—Upon acceptance of title by the Secretary of the non-Federal land, the acquired land shall become part of the Lincoln National Forest, and the boundaries of the Lincoln National Forest shall be adjusted to include the land. For purposes of section 7 of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601–9), the boundaries of the Lincoln National Forest, as adjusted pursuant to this paragraph, shall be considered to be boundaries of the Lincoln National Forest as of January 1, 1965.

(2) MANAGEMENT.—The Secretary shall manage the acquired land in accordance with the Act of March 1, 1911 (commonly known as the Weeks Act; 16 U.S.C. 480, 500, 513–519, 521, 552, 563), and in accordance with the other laws and regulations applicable to National Forest System lands.

(g) RELATION TO OTHER LAWS.—Subchapters II and III of chapter 5 of title 40, United States Code, and the Agriculture Property Management Regulations shall not apply to any action taken pursuant to this section.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee (Mr. DUNCAN) and the gentlewoman from California (Mrs. NAPOLITANO) each will control 20 minutes.

The Chair recognizes the gentleman from Tennessee (Mr. DUNCAN).

GENERAL LEAVE

Mr. DUNCAN. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. DUNCAN. Madam Speaker, I yield myself such time as I may consume.

H.R. 482 would authorize a land exchange involving Federal lands in the Lincoln National Forest in the State of New Mexico. This legislation would exchange 80 acres between the Lincoln National Forest and Lubbock Christian University for a much-needed expansion of the University's Pine Springs Camp. The camp is used in the summer for week-long camp sessions and utilized in the winter by college groups, youth groups, and churches for retreats.

In recent years, the camp has seen an increase in visitors and will soon run out of room, forcing the camp to turn visitors away. Both the camp and Lubbock Christian University are nonprofit. I urge all of my colleagues to support this important measure.

Madam Speaker, I reserve the balance of my time.

Mrs. NAPOLITANO. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, the Lincoln National Forest land exchanges takes approximately 80 acres of forest land in the Lincoln National Forest and exchanges that for private land currently owned by Lubbock Christian University. I would hope that this is in perpetuity rather than to be put up for sale at some time in the future. This has been a very grave area for me.

Our committee worked hard in the 108th Congress to refine the language that would make this exchange fair to the American taxpayer. The bill we are considering today requires that the exchange be of equal value. If the land appraisers determine the parcels are not of equal value, the bill provides for equalization of values through cash payment.

We are aware that land exchanges can often be controversial and contrary to the public interest. However, in this case we have worked to ensure a fair deal which both improves the National Forest by consolidating land ownership and enables Lubbock Christian University to extend its summer camp.

Madam Speaker, I reserve the balance of my time.

Mr. DUNCAN. Madam Speaker, I yield such time as he may consume to the gentleman from Texas (Mr. NEUGEBAUER), the author of this legislation.

Mr. NEUGEBAUER. Madam Speaker, H.R. 482 provides for a small land exchange between Lincoln National Forest in New Mexico and Lubbock Christian University in my district. This land exchange is a fair exchange and provides benefits for both parties.

One of the good things about this exchange is that we are exchanging 80 acres of pristine land that LCU currently controls that has National Forest all of the way around it, giving that 80 acres back so we do not have a doughnut in the middle of a National Forest, in consideration for 80 acres adjacent to a camp that is already up and going and has many facilities already on it and is serving many young people in the summertime. And in the fall and the winter, adult groups are able to utilize this facility.

I thank the gentleman from New Mexico (Mr. PEARCE). This land is in his district. The gentleman from New Mexico (Mr. PEARCE) has been very cooperative, and we appreciate that. I also thank the gentleman from California (Mr. POMBO) and the Committee on Resources for their work and thank them for getting this to the floor for a vote so that LCU can begin putting improvements on this land, and hopefully some of those improvements may be available for this summer.

This is a like-kind exchange between two pieces of property. This bill provides for if there is perceived to be some difference in compensation. This bill gets this off center. This request has been pending for a couple of years, and we are able to expedite this issue and get it in place. I think that is good public policy. I urge my colleagues to support and pass H.R. 482.

Mrs. NAPOLITANO. Madam Speaker, I yield back the balance of my time.

Mr. DUNCAN. Madam Speaker, I yield myself the balance of my time.

Madam Speaker, I simply want to close by commending the gentleman from Texas (Mr. NEUGEBAUER) for his very fine work on this legislation. This is a very worthwhile land exchange. I urge all of my colleagues to support it.

Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. DUNCAN) that the House suspend the rules and pass the bill, H.R. 482.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

DIRECTING CONVEYANCE OF CERTAIN LAND TO LANDER COUNTY, NEVADA, AND TO EUREKA COUNTY, NEVADA, FOR CONTINUED USE AS CEMETERIES

Mr. DUNCAN. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 541) to direct the Secretary of Agriculture to convey certain land to Lander County, Nevada, and the Secretary of the Interior to convey certain land to Eureka County, Nevada, for continued use as cemeteries.

The Clerk read as follows:

H.R. 541

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CONVEYANCE TO LANDER COUNTY, NEVADA.

(a) FINDINGS.—Congress finds that the following:

(1) The historical use by settlers and travelers since the late 1800's of the cemetery known as ''Kingston Cemetery'' in Kingston, Nevada, predates incorporation of the land within the jurisdiction of the Forest Service on which the cemetery is situated.

(2) It is appropriate that that use be continued through local public ownership of the parcel rather than through the permitting process of the Federal agency.

(3) In accordance with Public Law 85–569 (commonly known as the ''Townsite Act''; 16 U.S.C. 478a), the Forest Service has conveyed to the Town of Kingston 1.25 acres of the land on which historic gravesites have been identified.

(4) To ensure that all areas that may have unmarked gravesites are included, and to ensure the availability of adequate gravesite space in future years, an additional parcel consisting of approximately 8.75 acres should be conveyed to the county so as to include the total amount of the acreage included in the original permit issued by the Forest Service for the cemetery.

(b) CONVEYANCE ON CONDITION SUBSEQUENT.—Subject to valid existing rights and the condition stated in subsection (e), the Secretary of Agriculture, acting through the Chief of the Forest Service (referred to in this section as the ''Secretary''), not later than 90 days after the date of enactment of this Act, shall convey to Lander County, Nevada (referred to in this section as the ''county''), for no consideration, all right, title, and interest of the United States in and to the parcel of land described in subsection (c).

(c) DESCRIPTION OF LAND.—The parcel of land referred to in subsection (b) is the parcel of National Forest System land (including any improvements on the land) known as ''Kingston Cemetery'', consisting of approximately 10 acres and more particularly described as SW1/4SE1/4SE1/4 of section 36, T. 16N., R. 43E., Mount Diablo Meridian.

(d) EASEMENT.—At the time of the conveyance under subsection (b), subject to subsection (e)(2), the Secretary shall grant the county an easement allowing access for persons desiring to visit the cemetery and other cemetery purposes over Forest Development Road #20307B, notwithstanding any future closing of the road for other use.

(e) CONDITION ON USE OF LAND.—

(1) IN GENERAL.—The county (including its successors) shall continue the use of the parcel conveyed under subsection (b) as a cemetery.

(2) REVERSION.—If the Secretary, after notice to the county and an opportunity for a hearing, makes a finding that the county has used or permitted the use of the parcel for any purpose other than the purpose specified in paragraph (1), and the county fails to discontinue that use—

(A) title to the parcel shall revert to the United States to be administered by the Secretary; and

(B) the easement granted to the county under subsection (d) shall be revoked.

(3) WAIVER.—The Secretary may waive the application of paragraph (2)(A) or (2)(B) if the Secretary determines that such a waiver would be in the best interests of the United States.

SEC. 2. CONVEYANCE TO EUREKA COUNTY, NEVADA.

(a) FINDINGS.—Congress finds the following:

(1) The historical use by settlers and travelers since the late 1800s of the cemetery known as ''Maiden's Grave Cemetery'' in Beowawe, Nevada, predates incorporation of the land within the jurisdiction of the Bureau of Land Management on which the cemetery is situated.

(2) It is appropriate that such use be continued through local public ownership of the parcel rather than through the permitting process of the Federal agency.

(b) CONVEYANCE ON CONDITION SUBSEQUENT.—Subject to valid existing rights and the condition stated in subsection (e), the Secretary of the Interior, acting through the Director of the Bureau of Land Management (referred to in this section as the ''Secretary''), not later than 90 days after the date of enactment of this Act, shall convey to Eureka County, Nevada (referred to in this section as the ''county''), for no consideration, all right, title, and interest of the United States in and to the parcel of land described in subsection (c).

(c) DESCRIPTION OF LAND.—The parcel of land referred to in subsection (b) is the parcel of public land (including any improvements on the land) known as ''Maiden's Grave Cemetery'', consisting of approximately 10 acres and more particularly described as S1/2NE1/4SW1/4SW1/4, N1/2SE1/4SW1/4SW1/4 of section 10, T.31N., R.49E., Mount Diablo Meridian.

(d) EASEMENT.—At the time of the conveyance under subsection (b), subject to subsection (e)(2), the Secretary shall grant the county an easement allowing access for persons desiring to visit the cemetery and other cemetery purposes over an appropriate access route consistent with current access.

(e) CONDITION ON USE OF LAND.—

(1) IN GENERAL.—The county (including its successors) shall continue the use of the parcel conveyed under subsection (b) as a cemetery.

(2) REVERSION.—If the Secretary, after notice to the county and an opportunity for a hearing, makes a finding that the county has used or permitted the use of the parcel for any purpose other than the purpose specified in paragraph (1), and the county fails to discontinue that use—

(A) title to the parcel shall revert to the United States to be administered by the Secretary; and

(B) the easement granted to the county under subsection (d) shall be revoked.

(3) WAIVER.—The Secretary may waive the application of paragraph (2)(A) or (2)(B) if the Secretary determines that such a waiver would be in the best interests of the United States.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee (Mr. DUNCAN) and the gentlewoman from California (Mrs. NAPOLITANO) each will control 20 minutes.

The Chair recognizes the gentleman from Tennessee (Mr. DUNCAN).

GENERAL LEAVE

Mr. DUNCAN. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

□ 1430

Mr. DUNCAN. Madam Speaker, I yield myself such time as I may consume.

H.R. 541 directs the Secretary of Agriculture to convey certain land to Lander County, Nevada, and the Secretary of the Interior to convey certain land to Eureka County, Nevada, for continued use as public cemeteries. Specifically, the town of Kingston, Nevada, requires an additional 8.75 acres of Forest Service land to supplement the 1.25 acres of Forest Service land conveyed to it in 2000 for the town's cemetery. The additional acreage would ensure that areas of unmarked graves are included in the town's cemetery and that space is available for future graves in Kingston Cemetery. In addition, H.R. 541 would authorize the Bureau of Land Management to convey 10 acres of disposable land to Eureka County, Nevada, for continued use at Maiden's Grave Cemetery.

H.R. 541 is supported by the majority and the minority of the Committee on Resources and is identical to legislation that passed the House of Representatives by voice vote during the 108th Congress. I urge adoption of the bill.

Madam Speaker, I reserve the balance of my time.

Mrs. NAPOLITANO. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, as a general rule, when Congress transfers Federal lands into other hands, the United States taxpayers should be compensated for the fair market value of the lands being transferred. In this instance, however, the locations of these parcels as well as the fact that they are currently in use as local cemeteries, and I have no idea how long it has been used as cemeteries but I am assuming it has been a while, justify the making of these transfers free of charge. As a result, we will not oppose H.R. 541.

Madam Speaker, I reserve the balance of my time.

Mr. DUNCAN. Madam Speaker, I yield such time as he may consume to the very distinguished gentleman from Nevada (Mr. GIBBONS).

Mr. GIBBONS. Madam Speaker, I thank my good friend and colleague from Tennessee (Mr. DUNCAN) for allowing me time to speak on this bill, and I would also like to thank my good friend from California (Mrs. NAPOLITANO) for her support of this bill as well.

Madam Speaker, I rise in strong support of H.R. 541, a bill I introduced in the 108th Congress. The purpose of H.R. 541 is to direct the Secretary of Agriculture to convey certain land to Lander County, Nevada, and the Secretary of the Interior to convey certain land to Eureka County, Nevada, for continued use, as was said by my friend, for public cemeteries. This same legislation passed under suspension of the rules in the House in the 108th Congress. Unfortunately, the legislation was not acted upon in a timely manner by the other body; and I am pleased, Madam Speaker, to have the opportunity to revisit this issue now in the 109th Congress.

With over 90 percent of our State's land being owned by the Federal Government, Nevada has the highest percentage of public-land ownership of all the States in the Union. There are many challenges that come with such a high share of public lands. One that may surprise my colleagues is that even the burial of our loved ones and the preservation of the grave sites of our ancestors are impacted by Federal land ownership.

H.R. 541 authorizes the conveyance of public land to the respective control of Lander and Eureka counties for continued use as public cemeteries. My bill is designed to return these cemeteries to the local communities and eliminate the red tape and uncertainty associated with the Federal permitting process the cemeteries are currently required to go through in order to operate today.

Specifically, the town of Kingston, Nevada, needs an additional 8.75 acres to be added to the town's cemetery in order to protect unmarked graves and make space available for future grave sites. The bill also authorizes the conveyance of 10 acres of disposable land to Eureka County, Nevada, for continued use as the Maiden's Grave Cemetery.

Both of these parcels, Madam Speaker, have been historically used as cemeteries since the 1800s, well before either the Forest Service or the BLM was ever created. However, the land the cemeteries reside on is owned by the Federal Government today. Ninety percent of the land mass in both Eureka and Lander counties is owned by the Federal Government; 90 percent. To give my colleagues an idea of the scale of this conveyance, the acres requested by Lander County represent a mere two-thousandths of a percent of the total land owned by the Federal Government in just that county. In Eureka County, the size of the conveyance is four-thousandths of a percent of the Federal Government's holdings in that county.

As my colleagues can see, the size of the conveyance is minuscule, but the impact on the communities and those who have loved ones buried in these cemeteries is large. Relying on the Federal permitting process to ensure that these cemeteries remain used as cemeteries has been a source of uncertainty to the residents of these communities for many years. It is our intention through this bill to convey a small amount of Federal land to provide for the preservation and access to the residents of these communities

with respect to the graves of their ancestors. These land conveyances to the local governments will preserve these historic sites that are not only a part of America's and Nevada's history but part of Nevada's families.

I urge my colleagues to unanimously support this legislation that means so much to these two communities. I want to again thank you, Madam Speaker, for the opportunity to speak in support of this important legislation, and I urge an ''aye'' vote on it.

Mrs. NAPOLITANO. Madam Speaker, I yield myself such time as I may consume.

I certainly want to add my support of the bill. My understanding is there were 1.2 acres allocated to the same group back in 2000 and now this additional land. I realize it is minuscule, but certainly be it far from us to be in denial of a proper respect of those who are buried there in the unmarked graves. I concur and urge support.

Madam Speaker, I yield back the balance of my time.

Mr. DUNCAN. Madam Speaker, I yield myself such time as I may consume.

The land involved here is approximately 20 acres. Many of us believe that the Federal Government owns far too much land in the State of Nevada already. Frankly, as our colleague from Nevada pointed out, this makes two one-thousandths of 1 percent, which is a minuscule part of the State of Nevada, and so I think this is very worthwhile legislation. I commend the gentleman from Nevada for bringing this to the attention of the House, and I urge the passage of this legislation.

Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mrs. MILLER of Michigan). The question is on the motion offered by the gentleman from Tennessee (Mr. DUNCAN) that the House suspend the rules and pass the bill, H.R. 541.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds of those present have voted in the affirmative.

Mr. DUNCAN. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

SOUTHERN CALIFORNIA GROUNDWATER REMEDIATION ACT

Mr. DUNCAN. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 18) to authorize the Secretary of the Interior, acting through the Bureau of Reclamation and in coordination with other Federal, State, and local government agencies, to participate in the funding and implementation of a balanced, long-term groundwater remediation program in California, and for other purposes, as amended.

The Clerk read as follows:

H.R. 18

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Southern California Groundwater Remediation Act''.

SEC. 2. DEFINITIONS.

For the purposes of this Act:

(1) GROUNDWATER REMEDIATION.—The term ''groundwater remediation'' means actions that are necessary to prevent, minimize, clean up, or mitigate damage to groundwater.

(2) LOCAL WATER AUTHORITY.—The term ''local water authority'' means a currently existing (on the date of the enactment of this Act) public water district, public water utility, public water planning agency, municipality, or Indian Tribe located within the natural watershed of the Santa Ana River in the State of California.

(3) REMEDIATION FUND.—The term ''Remediation Fund'' means the Southern California Groundwater Remediation Fund established pursuant to section 3(a).

(4) SECRETARY.—The term ''Secretary'' means the Secretary of the Interior.

SEC. 3. SOUTHERN CALIFORNIA GROUNDWATER REMEDIATION.

(a) SOUTHERN CALIFORNIA GROUNDWATER REMEDIATION.—

(1) ESTABLISHMENT OF REMEDIATION FUND.—There shall be established within the Treasury of the United States an interest bearing account to be known as the ''Southern California Groundwater Remediation Fund''.

(2) ADMINISTRATION OF REMEDIATION FUND.—The Remediation Fund shall be administered by the Secretary, acting through the Bureau of Reclamation. The Secretary shall administer the Remediation Fund in cooperation with the local water authority.

(3) PURPOSES OF REMEDIATION FUND.—

(A) IN GENERAL.—Subject to subparagraph (B), the amounts in the Remediation Fund, including interest accrued, shall be used by the Secretary to provide grants to the local water authority to reimburse the local water authority for the Federal share of the costs associated with designing and constructing groundwater remediation projects to be administered by the local water authority.

(B) COST-SHARING LIMITATION.—

(i) IN GENERAL.—The Secretary may not obligate any funds appropriated to the Remediation Fund in a fiscal year until the Secretary has deposited into the Remediation Fund an amount provided by non-Federal interests sufficient to ensure that at least 35 percent of any funds obligated by the Secretary for a groundwater remediation project are from funds provided to the Secretary for that project by the non-Federal interests.

(ii) NON-FEDERAL RESPONSIBILITY.—Each local water authority shall be responsible for providing the non-Federal amount required by clause (i) for projects under that local water authority. The State of California, local government agencies, and private entities may provide all or any portion of the non-Federal amount.

(iii) CREDITS TOWARD NON-FEDERAL SHARE.—For purposes of clause (ii), the Secretary shall credit the appropriate local water authority with the value of all prior expenditures by non-Federal interests made after January 1, 2000, that are compatible with the purposes of this section, including—

(I) all expenditures made by non-Federal interests to design and construct groundwater remediation projects, including expenditures associated with environmental analyses, and public involvement activities that were required to implement the groundwater remediation projects in compliance with applicable Federal and State laws; and

(II) all expenditures made by non-Federal interests to acquire lands, easements, rights-of-way, relocations, disposal areas, and water rights that were required to implement a groundwater remediation project.

(b) COMPLIANCE WITH APPLICABLE LAW.—In carrying out the activities described in this section, the Secretary shall comply with any applicable Federal and State laws.

(c) RELATIONSHIP TO OTHER ACTIVITIES.—Nothing in this section shall be construed to affect other Federal or State authorities that are being used or may be used to facilitate remediation and protection of the groundwater the natural watershed of the Santa Ana River in the State of California. In carrying out the activities described in this section, the Secretary shall integrate such activities with ongoing Federal and State projects and activities. None of the funds made available for such activities pursuant to this section shall be counted against any Federal authorization ceiling established for any previously authorized Federal projects or activities.

(d) FINANCIAL STATEMENTS AND AUDITS.—The Secretary shall ensure that all funds obligated and disbursed under this Act and expended by a local water authority, are accounted for in accordance with generally accepted accounting principles and are subjected to regular audits in accordance with applicable procedures, manuals, and circulars of the Department of the Interior and the Office of Management and Budget.

(e) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Remediation Fund $50,000,000. Such funds shall remain available until expended. Subject to the limitations in section 4, such funds shall remain available until expended.

SEC. 4. SUNSET OF AUTHORITY.

This Act—

(1) shall take effect on the date of the enactment of this Act; and

(2) is repealed effective as of the date that is 10 years after the date of the enactment of this Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee (Mr. DUNCAN) and the gentlewoman from California (Mrs. NAPOLITANO) each will control 20 minutes.

The Chair recognizes the gentleman from Tennessee (Mr. DUNCAN).

GENERAL LEAVE

Mr. DUNCAN. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. DUNCAN. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, H.R. 18, authored by the gentleman from California (Mr. BACA), authorizes the Secretary of the Interior to participate in the funding and implementation of a balanced, long-term groundwater remediation program. This bill establishes a limited Federal fund to resolve groundwater problems in the Santa Ana, California, watershed. This area has approximately 30 major water wells that are currently shut down or are out of production due to groundwater contamination from man-made and naturally-occurring chemicals. For example, a local perchlorate plume has impacted 250,000 residents in Rialto, California.

This bill is just one small, but very important, part of a comprehensive solution to resolve a water emergency. The House passed identical legislation in the 108th Congress. I urge my colleagues to once again adopt this measure.

Madam Speaker, I reserve the balance of my time.

Mrs. NAPOLITANO. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, we strongly support passage of H.R. 18 which will provide financial assistance for cleaning up contaminated drinking water supplies in the Santa Ana River watershed in Southern California. There have been many problems in Southern California as well as in other parts of the Nation that deal with perchlorate, and this is just but one of them. We hope that we will be able to shed some light on how we can do a better job of assisting our communities in being able to put that water back to good use, and that is by working with the municipalities.

I commend the principal sponsor of H.R. 18, the gentleman from California (Mr. BACA), for his determination and hard work to get this legislation enacted. I also greatly appreciate the support and leadership demonstrated by the gentleman from California (Mr. POMBO) on this very critical and important matter.

Madam Speaker, I yield 5 minutes to my friend and colleague from Southern California (Mr. BACA) who has been very, very adamant about getting this addressed.

Mr. BACA. First of all, Madam Speaker, I would like to thank the gentleman from Tennessee (Mr. DUNCAN) for his support and his eloquent presentation of the legislation before us and as well the gentlewoman from California (Mrs. NAPOLITANO) in support of this legislation that impacts the State of California, especially Southern California, as it pertains to perchlorate.

Madam Speaker, I rise in support of H.R. 18, the Southern California Groundwater Remediation Act. This legislation passed the House in September 2004, and it was H.R. 4606. Today, I fight to protect Southern Californians from the growing crisis of perchlorate groundwater contamination. I reintroduced this legislation as a long-term solution to help cities in Southern California remove perchlorate from their drinking water and create safe drinking water.

This bill will authorize $50 million for groundwater remediation, including perchlorate cleanup, for most of San Bernardino, Riverside, and Orange counties in Southern California. The funds will be managed by the Department of the Interior through the Bureau of Reclamation. Perchlorate is a main ingredient in rocket fuel that has been found in drinking water supplies, lettuce, and even in the milk we drink.

Perchlorate in water supplies is left over from former military sites, defense contractors, and other industries. It has been found in 43 States, including California. Perchlorate has been linked to thyroid damage and may be harmful to infants, developing fetuses, and the elderly. There are 1.2 million women of childbearing age in San Bernardino, Riverside, and Orange counties who could be at risk from perchlorate, and we do not want them to be at risk. We want to make sure that there is good-quality drinking water. Perchlorate has been detected in 186 sources in the counties served by the Santa Ana River watershed and has jeopardized the water supplies of over 500,000 residents.

As indicated before, there are 30 wells that have been contaminated in the area. There is a perchlorate plume in the Inland Empire in California that is 10 miles long and is growing every day, and that includes my hometown, which I am a resident of, in Rialto. Perchlorate has impacted the daily lives of all of us, and we want to make sure that there is safe drinking water in the area. We have a legal and moral obligation to provide safe and healthy water to the families and children who drink this water every day.

But perchlorate contamination is more than just a health concern. The economic cost in providing safe drinking water is becoming more and more of a burden on our communities. Ninety percent of perchlorate in water comes from a Federal source. This includes DOD, NASA, and other Federal agencies. Innocent, hardworking families should not have to pay for federally created problems or problems for which no one will take the responsibility.

I urge my colleagues to support H.R. 18, which is a small price to pay for the crisis that has been forced on Southern Californians. I would like to thank the gentleman from California (Mr. POMBO) for his leadership and carrying legislation in the northern portion of California to deal with the problems that we have. I would like to thank the gentlewoman from California (Mrs. NAPOLITANO), the gentleman from California (Mr. CALVERT), the gentleman from California (Mr. GARY G. MILLER), and the gentleman from California (Mr. ROHRABACHER) for their support of this critical bill for the health of Southern California.

□ 1445

Mr. DUNCAN. Madam Speaker, I urge passage of this bill.

Madam Speaker, I yield back the balance of my time.

Mrs. NAPOLITANO. Madam Speaker, I yield myself such time as I may consume.

We have heard my colleague indicate how important the cleanup of water is, and I would urge my colleague from Georgia (Mr. LINDER), sponsor of H.R. 135, the Twenty-First Century Water Commission Act of 2005, to consider that as an issue because that is something that affects, like the gentleman stated, 40-some odd States that are beginning to understand the harshness of reality and that is that we have contaminated aquifers and water resources.

So, with that, I thank the gentleman from California (Mr. BACA) for bringing that to our attention. I do support the bill and hope my colleagues will do likewise.

Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mrs. MILLER of Michigan). The question is on the motion offered by the gentleman from Tennessee (Mr. DUNCAN) that the House suspend the rules and pass the bill, H.R. 18, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

COLORADO RIVER INDIAN RESERVATION BOUNDARY CORRECTION ACT

Mr. DUNCAN. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 794) to correct the south boundary of the Colorado River Indian Reservation in Arizona, and for other purposes.

The Clerk read as follows:

H.R. 794

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE, FINDINGS, PURPOSES.

(a) SHORT TITLE.—This Act may be cited as the ''Colorado River Indian Reservation Boundary Correction Act''.

(b) FINDINGS.—Congress finds the following:

(1) The Act of March 3, 1865, created the Colorado River Indian Reservation (hereinafter ''Reservation'') along the Colorado River in Arizona and California for the ''Indians of said river and its tributaries''.

(2) In 1873 and 1874, President Grant issued Executive Orders to expand the Reservation

southward and to secure its southern boundary at a clearly recognizable geographic location in order to forestall non-Indian encroachment and conflicts with the Indians of the Reservation.

(3) In 1875, Mr. Chandler Robbins surveyed the Reservation (hereinafter ''the Robbins Survey'') and delineated its new southern boundary, which included approximately 16,000 additional acres (hereinafter ''the La Paz lands''), as part of the Reservation.

(4) On May 15, 1876, President Grant issued an Executive Order that established the Reservation's boundaries as those delineated by the Robbins Survey.

(5) In 1907, as a result of increasingly frequent trespasses by miners and cattle and at the request of the Bureau of Indian Affairs, the General Land Office of the United States provided for a resurvey of the southern and southeastern areas of the Reservation.

(6) In 1914, the General Land Office accepted and approved a resurvey of the Reservation conducted by Mr. Guy Harrington in 1912 (hereinafter the ''Harrington Resurvey'') which confirmed the boundaries that were delineated by the Robbins Survey and established by Executive Order in 1876.

(7) On November 19, 1915, the Secretary of the Interior reversed the decision of the General Land Office to accept the Harrington Resurvey, and upon his recommendation on November 22, 1915, President Wilson issued Executive Order No. 2273 ''. . . to correct the error in location said southern boundary line . . .''—and thus effectively excluded the La Paz lands from the Reservation.

(8) Historical evidence compiled by the Department of the Interior supports the conclusion that the reason given by the Secretary in recommending that the President issue the 1915 Executive Order—''to correct an error in locating the southern boundary''—was itself in error and that the La Paz lands should not have been excluded from the Reservation.

(9) The La Paz lands continue to hold cultural and historical significance, as well as economic development potential, for the Colorado River Indian tribes, who have consistently sought to have such lands restored to their Reservation.

(c) PURPOSES.—The purposes of this Act are:

(1) To correct the south boundary of the Reservation by reestablishing such boundary as it was delineated by the Robbins Survey and affirmed by the Harrington Resurvey.

(2) To restore the La Paz lands to the Reservation, subject to valid existing rights under Federal law and to provide for continued reasonable public access for recreational purposes.

(3) To provide for the Secretary of the Interior to review and ensure that the corrected Reservation boundary is resurveyed and marked in conformance with the public system of surveys extended over such lands.

SEC. 2. BOUNDARY CORRECTION, RESTORATION, DESCRIPTION.

(a) BOUNDARY.—The boundaries of the Colorado River Indian Reservation are hereby declared to include those boundaries as were delineated by the Robbins Survey, affirmed by the Harrington Survey, and described as follows: The approximately 15,375 acres of Federal land described as ''Lands Identified for Transfer to Colorado River Indian Tribes'' on the map prepared by the Bureau of Land Management entitled ''Colorado River Indian Reservation Boundary Correction Act, and dated January 4, 2005'', (hereinafter referred to as the ''Map'').

(b) MAP.—The Map shall be available for review at the Bureau of Land Management.

(c) RESTORATION.—Subject to valid existing rights under Federal law, all right, title, and interest of the United States to those lands within the boundaries declared in subsection (a) that were excluded from the Colorado River Indian Reservation pursuant to Executive Order No. 2273 (November 22, 1915) are hereby restored to the Reservation and shall be held in trust by the United States on behalf of the Colorado River Indian Tribes.

(d) EXCLUSION.—Excluded from the lands restored to trust status on behalf of the Colorado River Indian Tribes that are described in subsection (a) are 2 parcels of Arizona State Lands identified on the Map as ''State Lands'' and totaling 320 acres and 520 acres.

SEC. 3. RESURVEY AND MARKING.

The Secretary of the Interior shall ensure that the boundary for the restored lands described in section 2(a) is surveyed and clearly marked in conformance with the public system of surveys extended over such lands.

SEC. 4. WATER RIGHTS.

The restored lands described in section 2(a) and shown on the Map shall have no Federal reserve water rights to surface water or ground water from any source.

SEC. 5. PUBLIC ACCESS.

Continued access to the restored lands described in section (2)(a) for hunting and other existing recreational purposes shall remain available to the public under reasonable rules and regulations promulgated by the Colorado River Indian Tribes.

SEC. 6. ECONOMIC ACTIVITY.

(a) IN GENERAL.—The restored lands described in section (2)(a) shall be subject to all rights-of-way, easements, leases, and mining claims existing on the date of the enactment of this Act. The United States reserves the right to continue all Reclamation projects, including the right to access and remove mineral materials for Colorado River maintenance on the restored lands described in section (2)(a).

(b) ADDITIONAL RIGHTS-OF-WAY.—Notwithstanding any other provision of law, the Secretary, in consultation with the Tribe, shall grant additional rights-of-way, expansions, or renewals of existing rights-of-way for roads, utilities, and other accommodations to adjoining landowners or existing right-of-way holders, or their successors and assigns, if—

(1) the proposed right-of-way is necessary to the needs of the applicant;

(2) the proposed right-of-way acquisition will not cause significant and substantial harm to the Colorado River Indian Tribes; and

(3) the proposed right-of-way complies with the procedures in part 169 of title 25, Code of Federal Regulations consistent with this subsection and other generally applicable Federal laws unrelated to the acquisition of interests on trust lands, except that section 169.3 of those regulations shall not be applicable to expansions or renewals of existing rights-of-way for roads and utilities.

(c) FEES.—The fees charged for the renewal of any valid lease, easement, or right-of-way subject to this section shall not be greater than the current Federal rate for such a lease, easement, or right-of-way at the time of renewal if the holder has been in substantial compliance with all terms of the lease, easement, or right-of-way.

SEC. 7. GAMING.

Land taken into trust under this Act shall neither be considered to have been taken into trust for gaming nor be used for gaming (as that term is used in the Indian Gaming Regulatory Act (25 U.S.C. 2701 et seq.)).

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee (Mr. DUNCAN) and the gentleman from Arizona (Mr. GRIJALVA) each will control 20 minutes.

The Chair recognizes the gentleman from Tennessee (Mr. DUNCAN).

GENERAL LEAVE

Mr. DUNCAN. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. DUNCAN. Madam Speaker, I yield myself such time as I may consume.

H.R. 794, which is sponsored by the gentleman from Arizona (Mr. GRIJALVA), corrects an historic injustice to the Colorado River Indian Tribes. It is substantially identical to H.R. 2941, legislation that was passed in the House last year but was not considered in the Senate.

Passage of this measure is long overdue. It restores 16,000 acres of public lands in Arizona to the Colorado River Indian Reservation wrongfully excluded from the reservation over 90 years ago.

Created by an Act of Congress in 1865, the reservation was expanded by President Grant in order to prevent encroachment by non-Indians. The expansion included a 16,000-acre area called the La Paz lands.

The La Paz expansion did not hold up for very long. The original surveys to affix the boundary of the La Paz addition were rescinded by President Wilson. A survey of dubious merit, apparently at the behest of people who coveted the Tribes' lands, was substituted for the valid surveys. As a result, the La Paz lands were excluded from the reservation.

All credible evidence indicates that the La Paz lands were wrongly deleted from the Tribes' reservation. Subsequent attempts to restore them a few times during the 1900s did not meet with success.

H.R. 794 finally restores the La Paz lands to its rightful owner, subject to valid, existing rights and interests and excluding certain parcels owned by the State of Arizona. The bill requires the boundary line of the reservation to reflect the addition of these lands.

As I explained, with one minor exception, this bill is exactly the same as H.R. 2941 that was passed by the House last year but went no further. The only difference is the title of the map has been changed to correct a typographical error.

Because this measure is unchanged from what the House approved last year, I urge my colleagues today to pass H.R. 794. With Congress' help, the

Colorado River Indian Tribes can finally put this justice behind them. I urge adoption of the bill.

Madam Speaker, I reserve the balance of my time.

Mr. GRIJALVA. Madam Speaker, I yield myself such time as I may consume.

I want to thank the gentleman from Tennessee (Mr. DUNCAN) for his comments and his leadership on this very important issue to native peoples in my district.

The Colorado River Indian Reservation Boundary Correction Act, H.R. 794, will correct a long-standing injustice. In the early part of the 20th century, nearly 16,000 acres of land known as the La Paz lands were stripped from the Colorado River Indian Tribes' reservation by executive order in response to heavy lobbying from a private mining company that wanted to mine for silver on the land. The Tribes were never provided with an opportunity to challenge the decision, nor were they ever compensated for the loss of their land.

Subsequent reviews by the Department of Interior concluded the lands were inappropriately removed from the reservation and should be returned to the Tribes. Senator Barry Goldwater recognized this fact when he introduced similar legislation to restore those lands years ago. He stated during the hearing before the Senate Indian Affairs Committee that his grandfather, who had settled in the Ehrenberg area, had long recognized that the La Paz lands were Indian lands.

Madam Speaker, the lands that will be returned to the Tribes under this legislation were part of their reservation for almost 40 years prior to the 1915 executive order. This is not an expansion of the Tribes' reservation. It is a restoration of the original reservation based on accepted Department of Interior surveys.

H.R. 794 will return 15,375 acres of land to the Tribes. These lands hold cultural and spiritual value for the Tribes, as well as potential for economic development.

During the almost 90 years that the land has been under the jurisdiction of the Bureau of Land Management, certain activities have taken place there. The legislation ensures that existing uses may continue. The Tribes have agreed to honor existing mining claims, right of way, utility corridors, hunting, and public access.

In addition, several provisions have been added related to water rights and prohibition of gaming on the lands. While I feel that these restrictions may impose upon tribal sovereignty, the Tribe itself has indicated its willingness to accept these provisions in order to achieve passage of the legislation, and I defer to them on that matter.

Madam Speaker, this bill honors our agreements and our commitments to the Native peoples of my district by returning what rightfully belongs to them. I am pleased to be joined by my colleagues from Arizona and California on both sides of the aisle in promoting this long-overdue legislation, and I particularly want to thank the leadership within the Committee on Resources for making this bill a priority for passage again in this Congress. It is my joy to see this important piece of legislation move to the House floor and come one step closer to resolution. The Colorado River Indian people have been waiting 90 years for return of their lands, and it is my hope that they will not wait much longer.

Madam Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. DUNCAN. Madam Speaker, I urge passage of this bill. I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. DUNCAN) that the House suspend the rules and pass the bill, H.R. 794.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until approximately 6:30 p.m. today.

Accordingly (at 2 o'clock and 53 minutes p.m.), the House stood in recess until approximately 6:30 p.m.

□ 1831

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. KLINE) at 6 o'clock and 31 minutes p.m.

PRIVILEGED REPORT ON HOUSE RESOLUTION 134, REQUESTING THE PRESIDENT TO TRANSMIT CERTAIN INFORMATION RELATING TO PLAN ASSETS AND LIABILITIES OF SINGLE-EMPLOYER PENSION PLANS

Mr. BOEHNER, from the Committee on Education and the Workforce, submitted a privileged report (Rept. No. 109–34) on the resolution (H. Res. 134) requesting the President to transmit to the House of Representatives certain information relating to plan assets and liabilities of single-employer pension plans, which was referred to the House Calendar and ordered to be printed.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, proceedings will resume on motions to suspend the rules previously postponed.

Votes will be taken in the following order:

H.R. 135, by the yeas and nays.

H.R. 541, by the yeas and nays.

These will both be 15-minute votes.

TWENTY-FIRST CENTURY WATER COMMISSION ACT OF 2005

The SPEAKER pro tempore. The pending business is the question of suspending the rules and passing the bill, H.R. 135.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. DUNCAN) that the House suspend the rules and pass the bill, H.R. 135, on which the yeas and nays are ordered.

The vote was taken by electronic device, and there were—yeas 402, nays 22, not voting 10, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mrs. MILLER of Michigan) (during the vote). Members are advised there are 2 minutes remaining in this vote.

□ 1900

Messrs. MANZULLO, PENCE, LAHOOD, ISTOOK, and Mrs. EMERSON changed their vote from ''yea'' to ''nay.''

Mr. LATHAM changed his vote from ''nay'' to ''yea.''

So (two thirds having voted in favor thereof) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

LANDER COUNTY AND EUREKA COUNTY, NEVADA, LAND CONVEYANCE

The SPEAKER pro tempore. The pending business is the question of suspending the rules and passing the bill, H.R. 541.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. DUNCAN) that the House suspend the rules and pass the bill, H.R. 541, on which the yeas and nays are ordered.

The vote was taken by electronic device, and there were—yeas 423, nays 0, not voting 11, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. KLINE) (during the vote). Members are advised 2 minutes remain in this vote.

□ 1917

So (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. CARTER. Mr. Speaker, on April 12, 2005, during voting on H.R. 135, the Twenty-First Century Water Commission Act and H.R. 541, the Lander County and Eureka County, Nevada land conveyance, I was unavoidably detained due to matters in my Congressional District. If I had been present, I would have voted yea on both votes.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 8, DEATH TAX REPEAL PERMANENCY ACT OF 2005

Mr. HASTINGS of Washington, from the Committee on Rules, submitted a privileged report (Rept. No. 109–35) on the resolution (H. Res. 202) providing for consideration of the bill (H.R. 8) to make the repeal of the estate tax permanent, which was referred to the House Calendar and ordered to be printed.

PAYING TRIBUTE AND HONORING THE MEMORY OF TRAVIS BRUCE

(Mr. GUTKNECHT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GUTKNECHT. Mr. Speaker, I rise to pay tribute and to honor the memory of Travis Bruce.

Mr. Speaker, it is perhaps ironic that, as the family of Specialist Travis Bruce was learning the tragic news, I was at the military hospital in Landstuhl, Germany.

We all ask ourselves the questions that have haunted leaders from Washington to Grant to this very day: Are we doing the right thing? Is it worth the sacrifice?

I can think of no better place to ask those questions than at that hospital. So I asked those young heroes, and I can honestly report that they answered ''yes.'' A few said ''absolutely.''

For Specialist Bruce, the battle is now over. He now rests in the loving arms of the God of our fathers. He takes his place in that long line of patriots who have made the ultimate sacrifice, that long line that has never failed us. It is now left for us to carry on.

There are no words adequate to express our condolences. It is enough for us to say that on behalf of a grateful Nation, we will never forget. We will always be proud, so that we will always be free.

RESTORING DEDUCTIBILITY OF SALES TAX FOR TENNESSEE PROVES WORTHWHILE

(Mrs. BLACKBURN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BLACKBURN. Mr. Speaker, today I was coming back to D.C. reading the Nashville Tennessean, the local news section, and my attention was drawn to a headline here: ''State's March Sales Tax Revenue up $14.8 Million Over Estimates.''

Mr. Speaker, there is a reason that the State sales tax revenues are up so much in the State of Tennessee, and it has to do with actions that this body took last year. Last year, we voted to restore the deductibility of sales tax to those of us from nonState income tax States. Tennessee, Texas, Washington State, several States are affected by this provision. It proves the point, you want more of something, you lower the taxes. Things that are taxed less are going to flourish.

I would like to say thank you to our Speaker, the gentleman from Illinois (Mr. HASTERT); to our leader, the gentleman from Texas (Mr. DELAY); and to our whip, the gentleman from Missouri (Mr. BLUNT), for their leadership and their support in restoring the deductibility of sales tax for my State, Tennessee, and the other States that fund their State governments by State sales tax.

VOTE TO REPEAL DEATH TAX ONCE AND FOR ALL

(Mr. KELLER asked and was given permission to address the House for 1 minute.)

Mr. KELLER. Mr. Speaker, the death tax kills small family-owned businesses, it makes financial planning nearly impossible, and it is an unfair form of double taxation.

The death tax is itself the leading cause of death for over one-third of all small, family-owned businesses who cannot afford to pay a death tax rate of up to 55 percent in order to keep the family business alive. Under current law, there will be no death tax owed in the year 2010, but, in 2011, death taxes go up to 55 percent. Unfortunately, the only family-owned business in America who knows whether someone will die in the year 2010 is the Sopranos. The rest of us have to spend thousands of dollars each year on accountants, lawyers, and financial planners to make sure our family-owned business survives.

Mr. Speaker, I urge my colleagues to vote yes to completely repeal the death tax once and for all.

PROMOTING GOOD LEADERSHIP

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, under the leadership of the gentleman from Texas (Mr. DELAY), the House has provided tax relief, creating 3 million jobs, prescription drug coverage for needy citizens, and welfare reform, promoting independence, along with a strengthened military to protect American families.

Additionally, Majority Leader DELAY and his wife Christine play a valuable role in their home community. As foster parents, they have devoted themselves to improving the lives of abused and neglected children and are now focusing their efforts on creating homes for foster children who need them. Their work is a true sign of compassion that is rarely recognized.

The gentleman from Texas (Mr. DELAY) has been called one of the most effective leaders in the history of the House of Representatives, and it is his effectiveness that motivates his critics. Radical liberals, financed by a billionaire, are leading a desperate smear campaign against a decent man who has delivered remarkable results. His critics are inspired by bitterness, hatred, and partisanship, and their smears will fail as they failed against DICK CHENEY, Donald Rumsfeld, Condoleezza Rice, and John Ashcroft.

The gentleman from Texas (Mr. DELAY) will continue his success of effectiveness for the American people.

In conclusion, God bless our troops, and we will never forget September 11.

HOLDING FEMA TO HIGH STANDARDS

(Ms. GINNY BROWN-WAITE of Florida asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. GINNY BROWN-WAITE of Florida. Mr. Speaker, I rise today to share my concern regarding continued abuses by the Federal Emergency Management Agency, or FEMA as we know it. As my colleagues know, Florida suffered devastating blows when an unprecedented four hurricanes struck down in our State last year.

My colleagues and I in the Florida delegation have been fighting with FEMA on its hurricane policies for the past few months. We have battled them about paying for debris removal in front of properties on a private road. These people pay taxes, too.

Now a new abuse has come to light. FEMA apparently paid funeral expenses for an estimated 315 deaths in Florida, although only 123 fatalities were actually recorded. Once again, it has a disregard for accuracy, efficiency, and its responsibility, I believe, to the citizens of Florida and the United States' taxpayers.

Mr. Speaker, I encourage my colleagues to join me in holding FEMA to the high standards that our citizens require.

THE PRESIDENT'S SOCIAL SECURITY PLAN

(Mr. MCDERMOTT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MCDERMOTT. Mr. Speaker, the President says he is going to change his tack; he is no longer going to scare the people. He is going to give them a solution.

This weekend, Gary Trudeau's renowned ''Doonesbury'' performed an important public service. It codified the recent words of the President describing his Social Security plan. Here it is. To ensure that every American has equal access to his remarks, let me enter ''Doonesbury'' into the RECORD and read some of the President's remarks.

This is a direct quote from the President of the United States. He is explaining the plan he has: ''There's a series of parts of the formula that are being considered. And when you couple that, those different cost drivers, affecting those, changing those with personal accounts, the idea is to get what has been promised more likely to be or closer delivered to what has been promised.''

Does anybody know what he is talking about? This President is halfway through his 60-day barnstorming tour to gain support for his Social Security plan. I personally hope he stays out for another 90 days.

I think when the American people get through with listening to this gibberish, they will recognize that it has all been a way to deflect our eyes from all the problems of this society. We are to get a bankruptcy bill out here tomorrow. We have done nothing about Social Security. We have done nothing about Medicare. Come on, Mr. President.

SEE . . . LOOK . . . COST DRIVERS! HELPS ON THE RED!

MAKE ANY SENSE?

THIS MUST BE SHARED!

HEY, FOLKS—CONFUSED ABOUT THE BUSH PLAN FOR SOCIAL SECURITY?

WELL, HELP IS ON THE WAY! HERE—IN HIS OWN WORDS*—THE PRESIDENT EXPLAINS!

*TAMPA, FL 2/04/05.

BECAUSE THE—ALL WHICH IS ON THE TABLE BEGINS TO ADDRESS THE BIG COST DRIVERS. FOR EXAMPLE, HOW BENEFITS ARE CALCULATE, FOR EXAMPLE, IS ON THE TABLE; WHETHER OR NOT BENEFITS RISE BASED UPON WAGE INCREASES OR PRICE INCREASES . . .

THERE'S A SERIES OF PARTS OF THE FORMULA THAT ARE BEING CONSIDERED. AND WHEN YOU COUPLE THAT, THOSE DIFFERENT COST DRIVERS, AFFECTING THOSE—CHANGING THOSE WITH PERSONAL ACCOUNTS, THE IDEA IS TO GET WHAT HAS BEEN PROMISED MORE LIKELY TO BE—OR CLOSER DELIVERED TO WHAT HAS BEEN PROMISED.

DOES THAT MAKE ANY SENSE TO YOU? IT'S KIND OF MUDDLED.

LOOK, THERE'S A SERIES OF THINGS THAT CAUSE THE—LIKE, FOR EXAMPLE, BENEFITS ARE CALCULATED BASED UPON THE INCREASE OF WAGES, AS OPPOSED TO THE INCREASE OF PRICES. SOME HAVE SUGGESTED THAT WE CALCULATE—THE BENEFITS WILL RISE BASED UPON INFLATION, AS OPPOSED TO WAGE INCREASES . . .

THERE IS A REFORM THAT WOULD HELP SOLVE THE RED IF THAT WERE PUT INTO EFFECT. IN OTHER WORDS, HOW FAST BENEFITS GROW, HOW FAST THE PROMISED BENEFITS GROW, IF THOSE—IF THAT GROWTH IS AFFECTED . . .

. . . IT WILL HELP ON THE RED.

'NUFF SAID!

SPECIAL ORDERS

The SPEAKER pro tempore (Mr. KUHL of New York). Under the Speaker's announced policy of January 4, 2005, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

THE NO FLY NO BUY ACT

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from New York (Mrs. MCCARTHY) is recognized for 5 minutes.

Mrs. MCCARTHY. Mr. Speaker, last month, the front pages of our Nation's newspapers contained chilling headlines: ''Terror Suspects Buying Firearms.''

At least 44 times in a 4-month period, people whom the FBI suspected of being members of terrorist groups tried to buy guns. In all but nine instances, the purchases were allowed to go through.

A background check of the would-be buyer found no automatic disqualification such as being a felon, an illegal immigrant, or deemed mentally defective. There certainly have been many more instances of suspected members of terrorist groups trying to buy these guns, but since the Justice Department destroys background check records after only 24 hours, we will never know.

So not only are we allowing suspected terrorists to arm themselves, we are destroying the records indicating how many guns they actually have bought. We are destroying critical intelligence in the war on terror, and suspected terrorists are exploiting our pre-9/11 gun laws.

The question many of my constituents ask me is, ''Why are these people allowed to be able to buy guns in the first place?''

It defies common sense. We are at war. We saw what these terrorists are capable of armed with only box cutters purchased at a hardware store. Then why do we make it so easy for our enemies to buy firearms and ammunition within our own borders?

Since 9/11, we have adopted a multitude of new laws in the wake of the war on terror. Just try to fly out of Reagan National Airport. No one is spared from the reach of these new laws. Senior citizens, children, and Members of the House have been subjected to routine inspection before boarding a commercial flight. It is an inconvenience perhaps for some, but if it prevents one terrorist from boarding a plane, it is a good law.

But our gun laws are dangerously out of step with the war on terror. The same people who are prevented from boarding a flight can walk into a gun store and purchase a hand-held weapon of mass destruction. This is absolutely ridiculous.

Let me set the record straight. I am not out to take away the right of any law-abiding citizen from being able to buy a gun.

We need common-sense gun safety regulations that protect law-abiding gun owners, while making it tougher for criminals and terrorists to obtain guns. That is why I have introduced a bill that would deny those on the Transportation Security Administration's No Fly List from purchasing firearms.

Why the No Fly List? Granted, the No Fly List includes some law-abiding citizens who are on the list in error. But it is the only Federal terrorist watch list with a procedure to get innocent people off the list, and the No Fly List is the only watch list to have public scrutiny. Other lists without practical application may be just as inaccurate but afford no due process to those wrongly listed.

My bill will ensure that these people incorrectly listed on the No Fly will be able to get their names off the list as quickly as possible. They would then be able to complete their gun purchase, no questions asked. Again, an inconvenience for some but necessary steps to ensure terrorists are not buying guns in our country.

The Federal Government charged with protecting us from terrorists should put at least as much effort into making sure terrorists and criminals are buying guns as what senior citizens and children might bring aboard a

plane. We are at war, and the Federal Government has made it easier for our enemies to arm themselves.

I have written Attorney General Gonzales and asked him to endorse my bill. And if he cannot endorse it, I want to know why. I understand the Second Amendment concerns of law-abiding citizens and gun owners. But these laws can coexist with responsible people's rights to hunt and protect their families.

Responsible gun ownership is a right of all law-abiding Americans, but we also have to take the responsibility to protect law-abiding Americans from acts of terror and crime.

Mr. Speaker, we have seen, unfortunately, many, many acts of crime and gun violence in the last few weeks. Each week for the next several weeks now, I am going to bring this subject up. I know a lot of the American people think Democrats have given up on this issue. I promise the American people, I will continue with this issue. I will fight for good gun safety laws to make this country safer.

□ 1930

IN SUPPORT OF LIEUTENANT PANTANO

The SPEAKER pro tempore (Mr. KUHL of New York). Under a previous order of the House, the gentleman from North Carolina (Mr. JONES) is recognized for 5 minutes.

Mr. JONES of North Carolina. Mr. Speaker, last Wednesday I spoke about Marine 2nd Lieutenant Ilario Pantano and his struggle to defend his actions in battle.

April of 2004 was a time of widespread violence from Iraqi insurgents. It was the deadliest month of the war.

On April 15, 2004, Lieutenant Pantano was faced with a very difficult decision. Just 3 days after he had witnessed a deadly ambush, his unit received a tip about a weapons stockpile. Leery of the tip, he led a unit of 40 men to the area and immediately noticed two Iraqis in a vehicle who appeared to be escaping the area.

After stopping the vehicle, he ordered the two Iraqis to search the vehicle themselves so as to avoid a booby trap for himself or the others under his command. Suddenly, he said, the two insurgents pivoted towards him after disobeying his command to stop, and in a split-second decision Lieutenant Pantano decided he had to fire his weapon to protect himself and his men.

It was not until 2½ months later that his radio operator mentioned the incident to another Marine, who then accused Lieutenant Pantano of murder. He now is facing charges of two counts of murder.

Mr. Speaker, I have met Lieutenant Pantano and his family. I have watched again and again the ''Dateline'' interview Stone Phillips conducted with Lieutenant Pantano, and I have researched this situation at length. I believe Lieutenant Pantano is truthful in his recounts of the events of April of 2004 and he was justified in his action while having to make a split-second battlefield decision.

I question why the radio operator would wait 2½ months to tell his report of the events if he really believed murder had taken place. Furthermore, as is noted in the ''Dateline'' video, the sergeant was never even present for the actual shooting. How can he make a judgment call on something he did not see?

Mr. Speaker, I have put in a resolution, H. Res. 167, to support Lieutenant Pantano as he faces yet another difficult fight for his life. I hope that my colleagues in the House will take some time to read my resolution and look into this situation for themselves. I believe a great unfairness has occurred here; and as the United States House of Representatives, we stand by our brave men and women in uniform as they protect and serve our Nation.

Mr. Speaker, before closing, I would like to say that there is a Web site that his mother has established. It is called defendthedefenders.org, and may God continue to bless our men and women in uniform and bless America.

EXCHANGE OF SPECIAL ORDER TIME

Mr. BROWN of Ohio. Mr. Speaker, I ask unanimous consent to take the time of the gentleman from Oregon (Mr. DEFAZIO).

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

CAFTA

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Ohio (Mr. BROWN) is recognized for 5 minutes.

Mr. BROWN of Ohio. Mr. Speaker, a bowling ball weighs about 170 times the weight of a slice of sandwich bread. It does not take a physicist to see the mismatch between a bowling ball and a slice of bread. And it does not take a trade expert to see the economic mismatch between the United States and the nations that make up the Central American Free Trade Agreement: Honduras, Costa Rica, Nicaragua, Guatemala, and El Salvador.

The way that CAFTA, the Central American Free Trade Agreement, proponents talk, you would think Central America was one of the biggest economies in the Western Hemisphere. CAFTA nations are not only among the world's poorest countries, they are among its smallest economies.

Think about this: this big trade agreement that President Bush wants, CAFTA, the combined purchasing power of the CAFTA nations is almost identical to the purchasing power of Columbus, Ohio.

Tomorrow, the Senate will hold the first congressional hearing on CAFTA. Congress typically has voted within 55 days of President Bush signing a trade agreement. May 28 will mark the 1-year anniversary of when the President signed CAFTA.

The other trade agreements were all done within only about 2 months. Because CAFTA is so unpopular and trade policy in this country is so wrong-headed, the President still has not sent CAFTA here for a vote. Clearly, there is dissension in the ranks, and for good reason.

CAFTA is the dysfunctional cousin of NAFTA, the North American Free Trade Agreement, continuing a legacy of failed trade policies.

Look at NAFTA's record: one million United States manufacturing jobs lost to the North American Free Trade Agreement. One million. NAFTA did nothing. NAFTA: Mexico, Canada, the U.S. NAFTA did nothing for Mexican workers as promised. They continue to earn just about a dollar a day, while living in abject poverty. Not exactly a great market for U.S. products.

And yet the U.S. continues to push for more of the same, more of the same job hemorrhaging, income-lowering trade agreements, more trade agreements that ship U.S. jobs overseas, more trade agreements that neglect essential environmental standards, more trade agreements that keep foreign workers in poverty.

The only difference between CAFTA and NAFTA is the first letter. Madness is repeating the same action over and over and over and expecting a different result. We hear the same promises on every trade agreement. This Congress, somehow barely, in the middle of the night, passes them. We see the same bad results.

But do not just take my word for it. Look at the numbers. Numbers do not lie. The U.S. economy, with a $10 trillion GDP in 2002, is 170 times bigger than the economies of the CAFTA nations, at about $62 billion combined. It is like pairing a bowling ball with a slice of bread.

CAFTA is not about robust markets for the export of American goods. It is about outsourcing. It is about access to cheap labor. We send our jobs overseas. The workers overseas get paid almost nothing, not able to raise their living standard. U.S. corporations make more money, American workers lose their jobs. It is the same old story.

Again, the combined purchasing power of the CAFTA nations is about that of Orlando, Florida. Trade pacts like NAFTA and CAFTA enable companies to exploit cheap labor in other countries, then import their products back to the U.S. under favorable terms.

American companies outsource their jobs to Guatemala, outsource their jobs to China, outsource their jobs to Mexico. It costs American workers their jobs. It does almost nothing for the workers in those countries, yet profits at Wal-Mart and GM and those companies continue to rise.

CAFTA will do nothing to stop the bleeding of manufacturing jobs, except make it worse, will do nothing to stop the bleeding of manufacturing jobs in the U.S., and will do even less to create a strong Central American consumer market for American goods.

Throughout the developing world, workers do not share in the wealth they create. If you work at GM in the United States, if you work at a hardware store in the United States, you create wealth for your employer and you share some of that wealth. That is how you get a middle-class existence.

But in the developing world, workers do not share in the wealth they create. Nike workers in Vietnam cannot afford to buy the shoes they make. Disney workers in Costa Rica cannot afford to buy the toys for their children. Ford workers in Mexico cannot afford to buy the cars that they make. Motorola workers in Malaysia cannot afford to buy the cell phones they make.

The United States, with its unrivaled purchasing power and its enormous economic clout, we, in our country, are in a unique position to empower workers in the developing world while promoting prosperity at home.

When the world's poorest people can buy American products, rather than just make them, then we will know our trade policies finally are working. Vote ''no'' on the Central American Free Trade Agreement.

SUPPORTING THE GOALS AND IDEALS OF FINANCIAL LITERACY MONTH

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Pennsylvania (Mr. DENT) is recognized for 5 minutes.

Mr. DENT. Mr. Speaker, I would like to take a few minutes to talk about an issue that is very important to me as a Member of Congress and as a consumer: financial literacy.

Last week we passed a resolution I cosponsored with overwhelming bipartisan support, H. Res. 148. This resolution supports the goals and ideals of Financial Literacy Month.

Tonight, on the eve of the debate of our Nation's bankruptcy laws, I believe it is only fitting to support Financial Literacy Month and speak on the benefits of personal financial literacy.

In our Nation today, half of all Americans are living from paycheck to paycheck. The average college senior has approximately $7,000 in consumer debt, and only four out of every 10 workers is saving for retirement.

As individuals incur debt, they are less likely to be prepared for retirement and more likely to become dependent solely on the Social Security system to support them into retirement.

By encouraging informed choices and wise financial decisions, our Nation's consumers will have positive credit ratings, money management skills, and be on the road to a stable and prosperous life. They will be able to build homes, buy cars, finance educations, and start businesses. It is our goal to educate the public about financial literacy.

In today's world, we must continue to expand access to financial institutions and provide all Americans with the tools they need to become productive members of society. These principles and goals are important to all of us.

The programs and seminars supported by the resolution will provide the guidance that is needed for so many Americans. I encourage those who supported this amendment and agree with these goals to work alongside us to educate Americans about finance and economics.

EXCHANGE OF SPECIAL ORDER TIME

Ms. KAPTUR. Mr. Speaker, I ask unanimous consent to assume the time of the gentleman from Washington (Mr. MCDERMOTT).

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Ohio?

There was no objection.

THE UNITED STATES TRADE DEFICIT

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Ohio (Ms. KAPTUR) is recognized for 5 minutes.

Ms. KAPTUR. Mr. Speaker, I would like to agree with the gentleman from Ohio (Mr. BROWN). The Commerce Department just announced another record trade deficit for our country. As an avalanche of imports comes in here and a whimper of our exports go out, we do not have free trade. We have a free fall in trade.

This month the Commerce Department sent out a press release saying this past month had a record-breaking trade deficit. The U.S. trade deficit soared to an all time monthly high of $61 billion negative. The Commerce Department said that, in fact, the February imbalance was up 4.3 percent from the record gap in January of $58.5 billion.

It looks like the executive branch's promises are faltering again. When it was proposed, free trade for China was promoted as a boon to America's exporters. But if we look at what is happening here, every single year the trade deficit gets deeper and deeper and deeper. And this year it is going through the bottom of the chart.

Once again, month after month, we see our manufacturers taking a hit. America truly is losing its economic prowess and our economic independence. In fact, under President Bush's watch, America has lost another three million manufacturing jobs.

One of the hardest hit sectors is textiles. For February, imports of textiles and clothing from China rose by nearly 10 percent. One can honestly ask, Is anything made in America anymore, other than debt?

The Bush administration's so-called free trade agenda is on course to bankrupt our economy. For the first 2 months of this year, just the first 2 months, the annualized trade deficit is 3 quarters of a trillion dollars, a full 100 billion more than last year. And we are watching oil prices going up over $50 a barrel, and that is adding to this growing deficit.

Combined with our faltering dollar, soaring fuel costs and an expanding Federal deficit, America is anything but independent. We are in hock to foreign countries that hold nearly half of our public debt, and we are paying them hundreds of billions of dollars annually now in interest.

The President talks about his risky plans to try to overhaul Social Security by borrowing trillions more dollars. Have they got a printing machine for money over there at the back room of the White House?

This is not the American Dream. It is the American Nightmare. Tonight Congress should be taking a stand against this irresponsible fiscal policy. The golden rule of trade should be trade balances, not trade deficits; and we should operate by the golden rule, free trade among free people.

We should reject CAFTA and any other trade bills that keep pushing American jobs offshore and pushing the trade deficit further into red ink. We should only support trade that is responsible and creates a level playing field and, at a minimum, trade balances and hopefully trade surpluses like we used to have.

Until this President can give us a plan for a healthy economy based on security and economic independence, we should say no thank you. No more NAFTAs, no CAFTAs, no more trade agreements that do not produce a balance and a surplus.

In fact, for every agreement that is currently on the books that is in the red, we ought to go back and require renegotiation if it has been in the red for 3 years or more, because it is not operating in America's interest. It might be operating in some global corporation's interest; but we should be worried about the American people and jobs here at home, both in manufacturing and agriculture, in resource and

mining, in the real muscle of this country.

We should be here to fight for America's future. It is time the President and the entire Congress did the same.

HONORING POPE JOHN PAUL II

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Florida (Ms. ROS-LEHTINEN) is recognized for 5 minutes.

Ms. ROS-LEHTINEN. Mr. Speaker, last week I was blessed to travel with a group of my colleagues to Rome to attend the funeral mass of his Holiness, Pope John Paul II, one of the greatest defenders of human life the world has ever known.

□ 1945

Pope John Paul II was a man of profound holiness, profound peace, and profound love. He not only served the Catholic Church as the Vicar of Christ on Earth, but also reached out and touched people of all faiths as he fought valiantly to liberate the oppressed, especially in his native Eastern Europe where he contributed significantly to the fall of communism.

Of all of his accomplishments, I am most appreciative of his unwavering commitments to the defense and protection of all human life, especially the most defenseless, the unborn.

The Pope came to Miami in September of 1987. I had just given birth to my youngest daughter, Patricia Marie, and so I wanted to be present to hear and see him at Tropical Park, which is located in my old State senate district, but the doctors told me I could not attend. However, as I watched on TV, I remember thinking how fitting it was that I would be holding my newborn baby in my arms while watching the staunchest defender of human life praying and saying mass in my hometown. It was a feeling I have never and I shall never forget.

The Holy Father can never imagine how he touched, in a most profound way, all those who heard and saw him wherever he traveled with his goodness and fierce protection for the sanctity of life.

In his letter, The Gospel of Life, John Paul II vigorously reaffirmed the value of human life and at the same time presents a pressing appeal addressed to each and every person to respect, protect, love and serve life, every human life.

He writes, ''Even in the midst of difficulties and uncertainties, every person sincerely open to truth and goodness can, by the light of reason and the hidden action of grace, come to recognize in the natural law the sacred value of human life from its very beginning until its end and can affirm the right of every human being to have this primary good respected to the highest degree.

''Upon the recognition of this right,'' he continued, ''every human community and the political community itself are founded.''

And as a wife and as a mother of two teenage daughters, I also seek to defend and protect the sanctity of an innocent human life; and to that end I have introduced the bill, House Resolution 748, the Child Interstate Abortion Notification Act, CIANA, which currently has 127 cosponsors and which will be marked up in the House Committee on the Judiciary tomorrow.

This legislation makes it a Federal offense to knowingly transport a minor across a State line with the intent that she obtain an abortion in circumvention of a State's parental consent or parental notification law. CIANA also requires that a parent or, if necessary, a legal guardian be notified pursuant to a default Federal parental notification rule when a minor crosses State lines to obtain an abortion unless one of several carefully drawn exceptions are met.

A minor who is forbidden to drink alcohol, to stay out past a certain hour or to get her ears pierced without a parental consent is certainly not prepared to make a life-altering, hazardous and potentially fatal decision such as an abortion without the consultation or consent of at least one parent.

My legislation will close a loophole that allows adults not only help minors break States' laws by obtaining an abortion without parental consent but also contributes to ending the life of an innocent child.

I am hopeful that in this 109th session of Congress we will be successful in securing the rights of parents. As an ardent advocate for human rights for all, especially those suffering political and religious persecution, I join our Holy Father in his desire to see a world where all may live and work together in a spirit of peace, mutual respect and solidarity and where the sanctity of human life is preserved at each and every level.

EXCHANGE OF SPECIAL ORDER TIME

Mrs. BLACKBURN. Mr. Speaker, I ask unanimous consent to claim the time of the gentleman from Minnesota (Mr. GUTKNECHT).

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Tennessee?

There was no objection.

IMMIGRATION REFORM

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Tennessee (Mrs. BLACKBURN) is recognized for 5 minutes.

Mrs. BLACKBURN. Mr. Speaker, you know it should be no secret to anyone in this body that immigration reform is a top priority for millions of Americans, and I doubt that most of us have had a single town hall meeting during this past recess when we have not been asked by our constituents to address the concerns of illegal immigration. I can tell you, I have heard time and again from my constituents who want to know why it is so incredibly difficult and it seems so difficult for the Federal Government to enforce these immigration laws that are currently on the books. They absolutely cannot understand why some politicians in Washington seem to fail to understand that illegal immigrants are in fact breaking our laws and if they do indeed actually cause a security risk.

As our constituents are preparing to pay Federal income tax, as millions of Americans are preparing to pay their Federal income tax this week, I was asked time and again in town hall meetings this weekend if we did not consider the costs, the extra cost to the American taxpayer of illegal immigration. And I can tell you, Mr. Speaker, I certainly sympathize with my constituents and I empathize with their concerns and their consternation, and I truly share their frustration when I read some of the things I read about illegal immigration.

We have an obvious flouting of the laws, and yet there are some who think that we should actually ignore this problem. Thankfully, we have made some progress this year, and we should credit the gentleman from Wisconsin (Mr. SENSENBRENNER) for much of his hard work and the Committee on the Judiciary for much of their hard work when they worked on the Real ID Act. This body passed that, and certainly it will beef up the identification security measures, many dealing with our driver's license provisions. It will speed up the construction of border barriers, and it will make it tough for those with terrorist ties to gain asylum in the United States. But, Mr. Speaker, I think we all know that that is absolutely not enough.

Just yesterday morning, the Washington Post ran a story with the headline ''Probe Faults System For Monitoring U.S. Border.''

Now I have been working with my colleagues here in the House to target waste, fraud and abuse in government spending; and I have also been a proponent of tackling our enormous illegal immigration problem. The Washington Post story contains just an astounding level of waste, fraud, and abuse in spending; and it should be a wake-up call for those who do not think immigration reform is a priority. Clearly, the system we have got is not working.

According to a General Service Administration investigation, American taxpayers footed the bill for $239 million surveillance system across our

borders. And what do we have to show for that, sir? A lot of broken equipment and lax border security. This is absolutely incredible.

You have got a bunch of concerned citizens who got tired of all the excuses so they have gone down to the Arizona border to observe illegal immigration and report to the border agents, and apparently they have been pretty effective. Meanwhile, the Federal government has a $239 million pile of useless equipment.

This is waste, fraud, and abuse; and this is lack of attention to border security. This is an issue that has my constituents talking at length in town halls, talking about how we are spending the tax money that they are writing the check for this very week.

This article is further confirmation of our belief that the borders are too open, our system is too easily abused and our government is not doing enough. I hope that my colleagues will join me in my effort to eliminate the seemingly endless examples of waste, fraud, and abuse of taxpayer dollars.

Mr. Speaker, to those who have been opposing immigration reform for years now, the time has come for America to address the growing problem of illegal immigration. Our constituents and our national security demand it.

SMART SECURITY AND NUCLEAR WEAPONS

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from California (Ms. WOOLSEY) is recognized for 5 minutes.

Ms. WOOLSEY. Mr. Speaker, last year the Subcommittee on Energy and Water Development of the Committee on Appropriations bravely stood up to the White House by rejecting the administration's request for new nuclear weapons funding.

The White House had requested over $70 million for research on the robust nuclear earth penetrator, also known as the ''bunker buster'' and other nuclear weapons initiatives.

The Subcommittee on Energy and Water Development of the Committee on Appropriations zeroed out the President's nuclear weapons initiative; and, just as importantly, they have boldly rejected all funding for the supremely misguided bunker buster nuclear bomb, labelling it provocative and unnecessary.

I credit the subcommittee's chairman, the gentleman from Ohio (Mr. HOBSON). He courageously stood up to the White House on this issue. But President Bush did not let that stop him from once again requesting funding for the bunker buster bomb in this year's 2006 budget proposal.

This year the President has requested $4 million to study the feasibility of constructing the bunker buster and another $4.5 billion for bunker buster testing in the Air Force budget. The President's budget also notes that he may request another $14 million for the bunker buster in fiscal year 2007.

What could the Bush administration possibly be thinking? The United States already possesses the most sophisticated and modern military ever created, yet sometimes it seems like President Bush and his allies still think we are fighting the Cold War. Fortunately, there are still many, many in Congress who live with the rest of us in the 21st century.

The bunker buster's proponents claim that it is an important device needed in the post-9/11 world to enable our military to attack cave and hideouts with supreme precision, but we do not need a nuclear weapon to accomplish this. The U.S. already possesses the capability to target terrorists wherever they are hiding.

The Bush administration's repeated attempts to develop new nuclear weapons like the bunker buster epitomizes the hypocrisy that underscores President Bush's foreign policy. At the same time that he seeks to prevent countries like Iran and North Korea from developing nuclear weapons, the White House has demonstrated its own nuclear weapons ambitions with a vigorous intensity.

We must remember that the creation of the bunker buster would violate the nuclear non-proliferation treaty which the United States ratified in 1972. That is why later this week I will introduce a resolution calling on the United States to uphold its binding commitment to this vital international treaty.

But these nuclear ambitions should not come as a surprise. In fact, it is just the latest in a long line of instances that demonstrate the Bush administration's petulant double standard when it comes to interacting with the rest of the world.

Before the bunker buster came along, they rejected the Kyoto Protocol on global warming, claiming that it would hurt the United States economy. Before that, it was the rejection of the International Criminal Court which President Bush opposed because it would allow Americans who violated international laws to be tried for war crimes just like war criminals from other countries.

The policy of rejecting international treaties is bad for the United States. Instead of thumbing our nose in the face of international law, America, the world's largest democracy, needs to serve as the gold standard for global consensus and agreement. That is why I have worked to develop a SMART Security platform for the 21st century.

SMART Security is a Sensible Multilateral American Response to Terrorism. Instead of creating new nuclear weapons, SMART Security would work to control the spread of such weapons through aggressive diplomacy, global weapons inspections, and comprehensive non-proliferation efforts.

We need to lead the world's nations to end the era of nuclear weapons. We need to demonstrate that nuclear weapons will not protect the people of the world because if these weapons are actually used there will be nothing left to protect.

Think about the price we have paid to eliminate weapons of mass destruction in Iraq, weapons that actually do not exist. Over 1,500 American lives lost, more than 12,000 severely wounded American soldiers, tens of thousands of Iraqi civilians killed, and more than $200 billion spent.

Should we not invest our resources in addressing genuine nuclear threats?

Mr. Speaker, if we do not start working with the other nations in the world, there may come a time when other nations no longer want to work with us.

□ 2000

INTERNATIONAL VILLAINS AND INTERNATIONAL OUTLAWS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. POE) is recognized for 5 minutes.

Mr. POE. Mr. Speaker, tonight I rise to speak about international villains, international outlaws. We need to know who they are and who they are not because these terrorists are not ministers of good, but they are ministers of evil.

The terrorists are not freedom fighters as some say, for they oppose all freedoms. Terrorists are not moral because they preach, praise, and practice immoral acts. Terrorists are not for children because they murder children. They murder their neighbor's children, and they murder their own. Terrorists are not for any peace, but are for any chaos. Terrorists are not for democracies, but proclaim the value of totalitarian dictatorships.

Terrorists are not for justice so we must bring them to justice. As related in Proverbs, when justice is done, it brings joy to the righteous and it brings terror to the evil doers. So I say let us bring terror to these evil doers.

I have dealt with local terrorists, street terrorists, all my life, first as a prosecutor and a judge in a criminal court in Texas for 22 years. These people are mean, they are violent, and you can deal with them one way. You do not ask them to try to do better. You do not blame their culture or their lack of culture for their conduct. You do not reason with them. You do not negotiate. You hold them accountable for their choices.

They live for crimes of violence, so you punish them. You make the price high, too high for them to pay so they stop it, so they leave us alone, for it is a right of all of us to be left alone. If

they choose not to leave us alone, they must face quick, sudden, and decisive action.

We must continue to deal with international terrorists the same way we deal with local street terrorists. We seek them out and we hold them accountable for their choices. It is not rational to stop once we have them on the run.

In Iraq, for example, we must finish the job. The phrase ''cut and run'' may be in the vocabulary of the French Government, but it is not in our vocabulary.

I have been to Iraq. I was there on election day January 30; and the people I talked to, those Iraqis were afraid that we would leave before the job was done. The terrorists want to wait us out because of the comments that they hear on this very House floor, that we should leave the job before it is through. Well, they will not wait us out because we will finish the job. So we will stay the course. We will finish the job before us. For it is far better to fight terrorists on their soil than on American soil, and we will know of no retreat or defeat.

We must train the Iraqi security forces so that they can protect their own borders against the insurgents. We must continue to seek out the terrorists in Afghanistan as well, but we must also deal with the cocaine and heroin traffic that is there because it funds those terrorists.

We must also allow our local law enforcement to fight that same secondary terror, that is, the terror of drugs, that is here in the United States that affects many American families, because those drugs that the terrorist cartels market in our land, they fund their evil ways. We must protect our homeland and support our first responders. For as our troops in lands across the seas battle these evil villains, our first responders are the ones who battle them here on the homeland, and they are always counted faithful.

On September 11, we all remember what we were doing. I was driving my Jeep to the courthouse, and I heard on the radio about the first plane that hit the World Trade Center; second plane, World Trade Center; third plane, crashes in Pennsylvania because of some heroes; fourth plane, hits the Pentagon.

Later that day, as many Americans like myself were watching television, I noticed the phenomena. I noticed thousands and thousands of Americans in New York City when those terrorists hit those buildings. They were running as hard as they could to get away from that terror. But there was another group of people, not very many, but they were there. When that terror hit the World Trade Center, they were running as hard as they could to get to that terror. Who were they? They were emergency medical technicians, they were firefighters, and they were cops. Because these people responded, and these are the people who we count on first, the people responsible for the deaths of the 3,000 on that day will be held accountable.

So we will not waiver in our battle against these international villains. There is no substitute for victory. For we are a people committed to remaining and continuing for centuries to be the land of the free and the home of the brave.

THE RULES THAT GOVERN THE ETHICS PROCESS IN THE HOUSE OF REPRESENTATIVES

The SPEAKER pro tempore. Under the Speaker's announced policy of January 4, 2005, the gentleman from West Virginia (Mr. MOLLOHAN) is recognized for 60 minutes as the designee of the minority leader.

Mr. MOLLOHAN. Mr. Speaker, I am joined here tonight by three distinguished colleagues.

The gentleman from Maryland (Mr. CARDIN) was a member of the Committee on Standards of Official Conduct in the 101st, 103rd, and 104th Congresses. The gentleman from Maryland (Mr. CARDIN) cochaired with Congressman Bob Livingston at the time the 1997 ethics bipartisan task force created to review and propose changes to the Committee on Standards of Official Conduct rules and procedures and was the ranking minority member of the subcommittee that investigated the complaint against then-Speaker Newt Gingrich.

Second, I am joined by the gentleman from California (Mr. BERMAN), who was ranking minority member on the Committee on Standards of Official Conduct in the 105th, the 106th, and the 107th Congresses and for the first 2 months of the 108th Congress until my appointment as ranking member. Additionally, the gentleman from California (Mr. BERMAN) was the ex officio member of the 1997 bipartisan task force created to review and propose changes to the Committee on Standards of Official Conduct's rules and procedures.

Finally, Mr. Speaker, I am joined by the gentleman from Massachusetts (Mr. DELAHUNT), who prior to coming to Congress served as the Norfolk County District Attorney for a considerable period of time, from 1975 to 1996. In the 108th Congress, he was a member of the ethics pool appointed by the minority leader and was a member of the investigative subcommittee formed to look into the allegations made by then-Representative Nick Smith arising out of the events occurring during the Medicare vote taken on November 2, 2003.

Collectively, these gentlemen have a tremendous amount of experience serving the House of Representatives on the Committee on Standards of Official Conduct over a long period of time. Not surprisingly, Mr. Speaker, that is the topic of our Special Order tonight.

The subject that we will be discussing this evening under the Special Order concerns the rules that govern the ethics process in the House of Representatives. This discussion, I think, will highlight the clear need to repeal the changes in those rules that were included in the rules package that was adopted when the House convened in January of this year, a rules package that was adopted on a strict party line vote with all Republicans voting for and all Democrats voting against.

While a discussion of the rules of this nature necessarily involves a number of technical points, Mr. Speaker, there should be no mistaking the overriding importance of what we are talking about. Because of the ethics rules changes that were included in the rules package I mentioned, the House of Representatives is now at a crossroads in its ethics process.

The issue now before the House is, in fact, whether the House will continue to have a credible ethics process that can be effective in protecting the reputation and the integrity of this institution.

Mr. Speaker, this is my 9th year as a member of the Committee on Standards of Official Conduct and my third year as ranking minority member of that committee, and I have studied the ethics process carefully during that time. My firm conclusion is that the House will not and cannot have a credible ethics process unless the rules changes that were made earlier this year are repealed.

There are at least two reasons why this is so, Mr. Speaker. First, there cannot be a credible ethics process in the House of Representatives unless changes in the ethics rules are made, as they have always been made in the House, Mr. Speaker, in the past years, in an open, thoughtful and, most importantly, in a genuinely bipartisan manner. But these rules changes were the result of a closed, secret process in which no one from this side of the aisle was ever consulted; and the votes of the rules package were, as always, strictly party line votes.

Second, the fact is that, at a minimum, these rules changes, the specific changes that are attempting to be imposed by the Committee on Rules, will seriously undermine the ability of the Committee on Standards of Official Conduct to perform its key responsibilities of investigating and making decisions on allegations of wrongdoing.

It is for these reasons that I have introduced House Resolution 131, which would entirely repeal two of the three rules changes made earlier this year and would repeal as well the objectionable provisions of the third rules change.

Mr. Speaker, let me take a moment to elaborate on each of the reasons for

the resolution that I have introduced, turning first to the closed, partisan manner in which these rules changes were adopted this past January.

Mr. Speaker, the ethics process in the House of Representatives dates back to the late 1960s, nearly 40 years ago. It was recognized at the very outset that there could not be a meaningful ethics process in this body unless it is a genuinely bipartisan one. This makes perfect sense because an ethics process that is dominated by the majority party in the House will become simply another tool of partisan warfare and will have no credibility whatsoever.

So both when the committee was created and the ethics rules were established in 1968, as well as when the rules changes were made in the rules in 1989 and again in 1997, those actions, those creation of the rules, fashioning of the rules, recommending the rules to the House, that whole process was the result of a thoughtful, deliberative process that was, in fact, genuinely bipartisan in nature.

The task force, created with an equal number of Democrats, an equal number of Republicans, whether the Republicans were in control of the House at the time or whether the Democrats were in control of the House at the time, all of the rules changes and their adoption and their recommendation to the House of Representatives came out of a genuinely bipartisan process.

The process that was used earlier this year stands in stark contrast to those earlier efforts. Those rules changes were drafted in secret, and their text was publicly released literally only hours before they were to be voted on on the House floor. At no time was anyone on this side, on the minority side, of the aisle ever consulted about those changes. Likewise, the Committee on Standards of Official Conduct itself was not consulted about those rules changes; and, indeed, it is not at all clear who was consulted about them or whether their proponents really fully understood the meaning and the implications of the changes which they wrought.

It will come as no surprise to anyone that the rules changes resulting from such a closed, summary process, it will come as no surprise that they are seriously flawed; and that leads me, Mr. Speaker, to the second reason why these changes must be repealed.

As I have mentioned, the rules changes were passed by the majority earlier this year. They fall into three categories. The first rules change relates to the automatic dismissal of complaints that are filed with the committee, automatic dismissal of complaints the first rule allows; the second rule granting certain so-called due process rights to Members, a cynical characterization of due process I might add; and the third so-called right to counsel provisions are contained in the last rules change.

Mr. Speaker, let me begin with the automatic dismissal rule. The automatic dismissal rule of the complaint, it constitutes a radical and particularly destructive change in the rules. Up until now, a complaint filed with the Committee on Standards of Official Conduct, and keep in mind that under the rules no one other than a Member of the House may file a complaint before the Committee on Standards of Official Conduct, but under the old rules a complaint could be dismissed only by a majority vote of the committee.

□ 2015

Under the automatic dismissal rule which the majority is trying to impose upon the Committee on Standards of Official Conduct in its rules passed earlier this year, a complaint can be dismissed just by the passage of time. A period as brief as 45 days from the date of the complaint is deemed to satisfy the procedural requirements of the rule; and if it is not disposed of any other way, the passage of that 45 days will result in automatic dismissal of the complaint. Members of the committee could have during that period sat on their hands, or they may have been engaged in the August recess because it is not legislative days, it is calendar days.

One wonders if the drafters of this rule were even aware that in 1997, the House strongly rejected an automatic dismissal rule that was far less restrictive than this one. The proposal considered at that time applied where a motion before the committee to refer a complaint to an investigative committee did not pass, and it provided in that instance for automatic dismissal of the complaint after 180 days from the date of the vote, a lot longer than 45 days under this automatic dismissal rule. But even with the 180-day automatic dismissal, this House of Representatives in the only recorded vote in the full House on a bipartisan basis rejected the idea of a complaint being automatically dismissed that is pending before the Committee on Standards of Official Conduct simply by the passage of time.

Even that proposal was defeated on a bipartisan vote because it was recognized that any automatic dismissal rule simply promotes deadlock and partisanship on the committee. It promotes inaction. It encourages members not to fulfill their responsibility. This is especially so in those controversial, high-profile complaints that come before the committee, and it is in the handling of complaints of that kind that the committee's credibility is most at stake.

Mr. Speaker, if the Committee on Standards of Official Conduct is to be worthy of its name, its members must give thoughtful, reasoned consideration to every complaint that comes before it; and any rule that would truncate that responsibility, that would provide for an automatic dismissal of the complaint based on the inaction of the members cannot be allowed to stand if our credibility is going to remain intact.

The rules changes that grant certain so-called due process rights to Members apply whether the committee or an investigative subcommittee proposes to conclude a matter by issuing a letter or other statement that references the conduct of a particular Member. While statements of that kind do not constitute and are not characterized as a sanction, the committee has been very cautious about issuing them; and, of course, like any other committee action, such a statement cannot be issued without the bipartisan support of committee members.

It is also important that statements of this kind are issued only where the conduct involved has not been the subject of a formal investigation, and a determination has been made that the issuance of such a statement in an appropriate way to resolve a complaint or other allegation of misconduct is an appropriate disposition.

Where a Member is going to be the subject of such a letter or similar statement, it is not, I agree, unreasonable to grant that Member certain rights, such as prior notice and a meaningful opportunity to respond, but the rules changes go well beyond this for they also grant such a Member the right to demand that the committee create an adjudicatory, a trial, if you will, subcommittee that is to conduct an immediate hearing, an immediate trial, on the conduct in question. Where the committee proposes to resolve the complaint by issuance of a letter, this trial would take place without any formal investigation of the matter ever having been conducted, without a single subpoena ever having been issued or a single deposition ever been taken. It gives the Member the right to jump immediately to the trial stage.

No committee that is at all serious about conducting its business would allow itself to be put in such a situation. It emasculates that part of the committee's power and ability to, in proper due process order, develop the factual basis for a disposition perhaps involving a trial.

It may well be that this immediate trial provision was included in the rules in order to force the committee, whenever a complaint is filed, to decide between two alternatives: either dismiss the complaint without having any comment whatsoever on the conduct of the respondent, or refer the complaint to an investigative subcommittee for formal investigation. But there is no valid reason to hamstring the committee in this manner.

The resolution I have proposed would repeal the right to demand an immediate trial but would substitute instead the far more reasonable right to demand that the committee commission a formal investigation of the conduct in question.

Mr. Speaker, the third rules change, the so-called right to counsel provision, is particularly mischievous, and it might be better characterized as the ''right to orchestrate testimony provision.''

This rules change prohibits the Committee on Standards of Official Conduct from requiring in any circumstances that a respondent or witness in a case retain an attorney who does not represent someone else in the case. This change is particularly egregious in that two separate investigative subcommittees of the Committee on Standards of Official Conduct had raised the concern that an attorney's representation of multiple clients in a case may impair the fact-finding process, and those investigative subcommittees recommended to the full committee the adoption of a rule or policy under which multiple representation could be barred. In short, the ethics process in the House has been seriously damaged by both the substance of these rules changes and the summary partisan manner in which these changes were adopted.

In the case of the latter rule, imagine the lawyer that is representing the accused having the absolute right to represent all of the witnesses that are going to be interviewed in the case, certainly undermining the ability of the committee to do its job.

But we are still in the early months of this Congress, and it is not too late to undo the damage that has been done. We can once again have an ethics process in the House that commands the confidence and respect of both the Members of this body and the public.

The first step, Mr. Speaker, is to repeal those rules changes and to affirm that any changes in either the substantive ethics rules or the rules governing committee procedure will be made as they have always been made in the past, only in a deliberative, open and genuinely bipartisan manner.

Mr. Speaker, at this time I yield to the gentleman from Maryland (Mr. CARDIN).

Mr. CARDIN. Mr. Speaker, I thank the gentleman from West Virginia (Mr. MOLLOHAN) for yielding me this time.

I had the opportunity to serve on the House Committee on Standards of Official Conduct for a little over 6 years during some very difficult times for this institution. I remember Speaker Foley calling me and asking me to serve on the Committee on Standards of Official Conduct. It was not a request. I was being drafted to carry out a very important responsibility that we all have. Under the Constitution, we must judge the conduct of our own Members. It is a solemn responsibility. How we go about doing that will reflect on the integrity of this institution, and that is why it is so important that we do it in the right manner and in a bipartisan manner.

Mr. Speaker, we are all human and we do make mistakes, and that is why we need a Committee on Standards of Official Conduct, to give guidance to Members as well as monitor the conduct so the public has confidence that in fact we are carrying out our Constitutional responsibility to judge the conduct of our Members.

For that reason, I thank the gentleman from West Virginia (Mr. MOLLOHAN) for his service on the Committee on Standards of Official Conduct, very distinguished service on behalf of this institution. And I also thank the gentleman from California (Mr. BERMAN), who has devoted much of his time to the ethics work, as has the gentleman from Massachusetts (Mr. DELAHUNT). I thank him for his work on ethics issues. We do not issue many press releases for this work. This is not something Members do because they want to do, it is something Members do because they have to.

Mr. Speaker, I was on the Committee on Standards of Official Conduct when we had the charges brought against Speaker Gingrich and the so-called banking scandal. Both of those issues were highly publicized, received a lot of attention and were extremely difficult matters. I was one of the four members of this body that served on the investigative subcommittee on Speaker Gingrich. We spent hundreds of hours in deliberations and in preparations. We spent months in work, but we reached a conclusion. We reached a conclusion not because it was easy. We reached a conclusion because we were able to listen to each other. We worked not as Democrats or Republicans. We worked as Members of this body to do what we are required to do, and that is to judge the conduct of one of our own Members, and we reached a unanimous conclusion.

As a result of that particular case, this body thought that we should review the rules under which the Committee on Standards of Official Conduct operates. We thought it was appropriate to review the process that we use. So what did we do after the Gingrich investigation? The majority leader and the minority leader sat down and worked out a process that would maintain the bipartisan reputation of the ethics process and allow a fair, transparent, open process for looking at changes in our ethics rules.

I was named the co-chair of that task force along with Bob Livingston, a Republican, who was named the other co-chair, and we had an equal number of Democrats and Republicans on that task force. We held hearings, and we had witnesses who came before us. Members came before us, and we looked at the concerns that were expressed during the Gingrich investigation about trying to move in a more timely manner to give due process to each Member and looked at ways to streamline the process but still maintain the integrity of the ethics process. That was our charge. We came up with changes, and we did that in a bipartisan vote of our commission.

The only way the ethics process works is if it is bipartisan. We cannot do it just because one side has the votes in the majority. We must maintain the bipartisan manner of the ethics process, including the way we change the rules, if we are going to be able to maintain the integrity of the process and be able to look the public in the eye and say, yes, we are carrying out our constitutional responsibilities to judge conduct of our own Members.

The gentleman from West Virginia (Mr. MOLLOHAN) has gone through the three rules changes passed at the beginning of this Congress on a partisan vote. I want to talk about one, the automatic dismissal.

It was interesting, in 1997, a Member of this body offered an amendment to our rules package and suggested after 180 days there be an automatic dismissal of a complaint, a much more modest proposal than the one ultimately brought forward by the Republican leadership and passed by the membership on the first day of this session by this Congress. That 180-day automatic dismissal was rejected by a bipartisan vote in this body in 1997. The reason was quite simple: We thought it would just add or just bring us to partisan gridlock.

Unfortunately, I think that is exactly what is happening. The first day of this session we passed a rules change that says after 45 days there is an automatic dismissal of a complaint that is brought. So inaction becomes action. There have been many serious issues that have confronted this Nation that have taken us terms of Congress to deal with. For instance, in working on the welfare reauthorization bill, we have been working on that for three Congresses, and we have not been able to pass it. It has taken time. Inaction here becomes action. That is not what it should be and obviously will not have credibility with the public.

□ 2030

Partisanship is rewarded with a deadlock being dismissal. Each of us belongs to a political party. The pressure on us would be immense just to do nothing for 45 days. I think that is quite obvious. And that gets rewarded.

The ethics process must be bipartisan. We should not have a basic rule that rewards partisanship. And then delay is rewarded. Inaction is rewarded, as I indicated. And the complexity of the issues that you have to

deal with on the Ethics Committee would give you a practical reason to say, Well, I'm sorry, we couldn't complete it in time and now there's an automatic dismissal.

I think about the Gingrich case that I had to investigate, and I think about the complexities and the documents and the depositions and all the work that we did in that case. You could not possibly have done that in 45 days and do justice to the Member who is accused or the institution that is being challenged as to whether we can, in fact, investigate a case fairly. Yet this rule change will say, if you cannot complete it in 45 days, there can be an automatic dismissal.

So, Mr. Speaker, for all the reasons that the gentleman from West Virginia has pointed out on substance, these rules changes were wrong; but I think the underlining point, the most important point here is the process must be bipartisan. It was violated in these rules changes that were passed at the beginning of this Congress. I urge my colleagues to listen to the gentleman from West Virginia. Let us repeal those three rules changes and go back to a process that has served this institution well over many, many Congresses, a bipartisan process, a true bipartisan process to look at rules of the committee and, if changes are needed, to do that in a bipartisan manner rather than by the strict votes of the majority. I would urge us to do that for the sake of the integrity of this institution.

Mr. MOLLOHAN. I thank my friend from Maryland.

I would like to invite our colleague from California (Mr. BERMAN) to join this discussion.

Mr. BERMAN. Mr. Speaker, I appreciate the gentleman yielding and to the ranking member of the committee, I thank him for involving me in what I think is a very important effort. I think both he and I are not prone to come to the floor on Special Orders, and I think our presence here tonight indicates just how strongly we feel about what is being done to a process that everyone participating in this Special Order has spent a great deal of time on.

If there is a member of the majority or a staff member of the majority watching this, I would hope they might sit back, get past the irritation over any particular action the committee has taken that they may not have liked and think what they have done and realize that what they have done in making these rules changes unilaterally and breaching the fundamental commitment to a bipartisan process, what that ultimately will do and how that will play out in terms of destroying the concept of an effective and meaningful bipartisan Ethics Committee process.

And that notwithstanding the constitutional mandate, we will be left with a situation where the rules of the House and the standards of conduct that we have promulgated and expect Members to adhere to will become essentially unenforceable because of the breach in the commitment to a bipartisan approach to these issues.

For me, that approach means the members of the committee throw aside the question of how the partisan implications of a particular action play out and search for the facts and apply the rules of official conduct and the appropriate standards that have been adopted by this body and apply those to those facts in a fair, objective, and independent way without focusing primarily on the political or partisan ramifications of that.

Both of the previous speakers have spent a great deal of time both talking about the process and developing the rule. When I was asked to become the ranking member of the Ethics Committee, Minority Leader Gephardt told me about this and after a little bit of depression at the thought that I would have to spend a serious amount of time doing this because, as the gentleman from Maryland mentioned, none of us relish this particular job, it is a great deal of time, its direct impact on our own constituents or on the substantive issues we care about is relatively minor. We are here and we have taken this position in the past because of our own commitment to the institution, a very important institution, the House of Representatives, and how the work of that House is going to be conducted.

But when Mr. Gephardt asked me to do it, I said, Dick, I don't want to fight the political battles and the partisan battles in the Ethics Committee. He says, The reason I am asking you to take this position is because I want to end the Ethics Committee as a place where partisan battles will be carried out. It is my commitment to that process that causes me to ask you to take this position.

With that understanding, I did. And I had the great pleasure of working with three separate Republican chairmen, members of the majority, our former colleague Jim Hansen for the first 2 years, my friend and colleague LAMAR SMITH for the next 2 years, and in the last 2 years of the Congress for the recent chairman of the committee, JOEL HEFLEY. In those 6 years with three different chairmen and a number of different members of the committee, particularly on the majority side, if I can think of two votes, two times where in a disciplinary matter there was a division of the vote, that we did not reach a consensus that was accepted initially by the chair and the ranking member and then by the entire committee, I cannot think of more than two votes.

And on the two times when I remember there being some divided votes, they were not done on partisan grounds; they were done on individual members' interpretations of the facts applying the rules of conduct to those facts.

What has happened here would have been unthinkable during those 6 years, that the majority party would decide to embed fundamental changes in the rules inside the larger House rules package, thereby forcing those rules to be addressed in a partisan fashion and then, without consultation with the minority, without showing the minority what those rules changes were for there to be any possible give-and-take or effort to achieve a consensus, ramming through those changes in the Ethics Committee rules in a way that I will try to establish, as I think both of the colleagues preceding me have, hurt the process and hurt it very fundamentally.

So apart from anything else and even the substantive provisions of these rules changes, the fact that it would be done on a partisan basis, without consultation, without an effort to reach a consensus, without coming from the bipartisan Ethics Committee was a terrible, terrible mistake and shakes all of our confidence in whether this process is even a process we want to participate in.

I say all of that preliminarily just to say that I hope calmer minds and people who put their concern for the institution above their irritation with a particular case will think again about what they have done and convene some process by which we can bring back the comity that has existed, I think, during the gentleman from West Virginia's tenure as ranking member and certainly for the 6 years preceding that when I was ranking member, because I think we will all be better served by that.

I do want to make one other point. This is the only committee in the House that is equally divided between Democrats and Republicans. It was the intention of this committee at the creation of this committee and the formation of this committee that things be done on a bipartisan basis, staff hired on a bipartisan basis, disciplinary matters dealt with on a bipartisan basis, advise and consent. When people want to know interpretations, we approach it without regard to the political and partisan implications of the Member who is requesting or the individual who is the object of the disciplinary investigation.

Going to the rules changes, when former Congressman Tauzin offered an amendment to the ethics task force report which provided automatic dismissal for 180 days, as both my colleagues who preceded me have mentioned, a far more lenient provision than the one adopted at this particular time, our friend and colleague HENRY HYDE said, Why not adopt it? When juries deadlock, the case is dismissed.

But in saying so, he made our point. The judge does not tell the jury, if you

don't decide in 2 days or 3 days or any number of days, if you are deadlocked at that point, the case is dismissed. You do not create incentives for people not to decide. With a rule like this in place, the respondent, the object of the complaint, knows that stonewalling ultimately leads to dismissal, that Members of the respondent's political party, be they Democrat or Republican, are now incentivized not to move ahead with the investigation because a certain result is predetermined after a certain number of days, and the kind of collaboration and coordination that takes place between the chair and the ranking member as they come to a determination of whether or not they should seek to create an investigative subcommittee or to ask the full committee to create an investigative subcommittee is over.

There can be many issues in these complaints. Some of them maybe should go forward. Some of them should not. There is a whole process by which staff and the Chair and the ranking member work together to investigate and try to come to a collaborative determination. Either one of them under the rules that have existed have a right to put the item on the agenda if they think there is no further chance at consensus. But the one thing I know is that when you set a time limit, especially a time limit as short as this one, for the automatic dismissal, you are incentivizing those who do not want the process to go forward without regard to what the facts are.

You are incentivizing them to make sure that nothing happens, because the result, the conclusion of dismissal is preordained. It is a terrible mistake. It is an assault on the collaborative process that this committee should operate under and just has to be changed if we are going to really move forward in a positive way.

The second rule that allows the demand of an immediate adjudication is also defective, because by doing so, the respondent can obviate the investigative process and it can be motivated by the same intent, to cut short the investigation, to take away the give-and-take between the parties so that they can come to an agreed-upon statement which should be sent by the full committee to the investigative subcommittee to pursue, weeding out the false complaints or the minor issues, the ones that do not raise substantial questions that the rules were violated, including the ones that do. It is just another way of undermining that process, because you cut short the whole investigation. That preliminary investigation is very important in making this whole process work.

Finally, my last comment is on the collusion rule, where you explicitly allow attorneys to represent more than one party in a matter. Not leaving it to the discretion of the committee, but saying that an attorney has a right to represent a number of the different people being investigated, you are essentially telling the Member of Congress who is the object of a complaint, Go out, hire the lawyer, pay for him to represent anybody on your staff or any of your friends who might be the subject of this investigation as well and approach a common defense which precludes the ability to really effectively ascertain the facts. It is truly a collusion rule. There may be times when it is appropriate for the attorney to represent more than one person involved in the matter, but to give it as a matter of right to the respondent in this kind of a case sets up a dynamic, again, that destroys the ability of the Ethics Committee to function effectively and efficiently.

With all of those comments, they all go to the overarching point: substantively, these rules are a mistake. The way they were done is intolerable. I do not know how one could continue to be part of a process when we have abandoned that kind of comity and bipartisanship that has been a hallmark of this process. The same leadership that decided to do this, I think, in a fit of anger and perhaps in a moment of unbridled passion has over and over again prior to this time reaffirmed their desire to have a bipartisan process as evidenced by the people they appointed and by the way those people proceeded and by the efforts to do everything on a collaborative basis.

And it worked. And it worked well. We did not go crazy going after Members on pointless grounds. We were not a runaway committee. We also, conversely, did not throw evidence of real violations into the trash can and ignore them. Why we would want to alter that fundamental process at this particular point to the damage of this institution, I do not know.

□ 2045

Mr. MOLLOHAN. Mr. Speaker, I want to thank the gentleman from California and the gentleman from Maryland alike, who, based upon years of commitment to the Committee on Standards of Official Conduct process in the House and lots of experience with different cases and the fashioning of different rules, for their very insightful comments.

I now yield to the gentleman from Massachusetts (Mr. DELAHUNT), a Member who has a very long history, a distinguished career in law enforcement as a District Attorney in his home State of Massachusetts, who in the last Congress served extremely admirably the Committee on Standards of Official Conduct as he was called off the investigative subcommittee pool to review one of the most unusual cases that the Committee on Standards of Official Conduct has looked at. I thank the gentleman for joining us tonight.

Mr. DELAHUNT. Mr. Speaker, I thank the ranking member for yielding to me.

I have to say they have all served this institution well. They provided me with a real history lesson here this evening. I am probably, maybe with one exception, their senior in terms of age, but they carry a wealth of insight and experience in this issue.

What I found particularly interesting was that single experience I had serving on that subpanel in many ways reflected what they each individually came to a conclusion. What I discovered was that it worked. We worked hard, much harder than I anticipated. It was long hours. We brought before that subcommittee a significant number of Members of this House. They fully cooperated, each and every single one of them; and we worked in a bipartisan fashion.

The two Republicans that served on that particular panel, I knew one before and I happened to be a classmate, and the other one I never really had any contact or communication with. And I have to tell my colleagues I was extremely impressed with their concern about this institution, with their professionalism, with their standards and their willingness to work in an extremely collaborative way. It truly was a lesson that bipartisanship exists in this institution, and particularly in the rubric in the format of an ethics investigation is absolutely essential.

We talked about the House today, and we all obviously go back to our home districts, and we hear our own constituents decry what they perceive to be the strident level of partisanship that, unfortunately, does exist today within this institution. But my experience on that subpanel was really informative, that those who love the institution, those who understand that if there is a lack of confidence in the integrity of this institution by the American people that we erode the health, if you will, the viability of our democracy.

It really is a sad comment that, without consultation, in a unilateral move, these rules changes came to the floor and were adopted. Because I think the real issue here will be not just the erosion of the respect of the institution over time, but there will be demands from the outside. There will be a legitimate question posed by the American people as to whether this House can, in fact, police itself, whether we have the capacity to maintain high standards.

If we abrogate that responsibility, not only do we do damage, in my opinion, to this institution, but we chip away at the health of American democracy. People will begin to believe the worst. What is happening in that institution? Are there backroom deals going on? Or is the partisanship so absolutely venomous at this point in time that they cannot work together

and there should be some sort of independent group or independent commission that polices those Members of Congress? That would indeed be unfortunate, in my judgment.

Mr. CARDIN. Mr. Speaker, will the gentleman yield?

Mr. MOLLOHAN. I yield to the gentleman from Maryland.

Mr. CARDIN. Mr. Speaker, I appreciate the gentleman from Massachusetts' comments, and I agree completely with his point. The point that all of us who have served on the Committee on Standards of Official Conduct and have gone through investigations understand that when we meet in that investigative setting when we have a specific matter before us and when we start looking at the rules of the House and the precedence of the House, we do not get into a disagreement along party lines as to what the rules are and what the expected conduct is. We then look at the facts, and once again the facts become the facts, and we do not divide along party lines as to what the facts are and how we apply them to the rules, and generally, as the gentleman from California (Mr. BERMAN) pointed out, in an overwhelming number of cases we reach consensus, unanimous judgment, as to what the rules of the House applied to the facts require us to do.

And even when we reach disagreement, it is not along party lines. Sometimes there is disagreement on the interpretation of the rules or the facts, but they are not along party lines.

In every case that I can ever recall in the Committee on Standards of Official Conduct, that is exactly how we proceeded and reached judgment, because of the point that the gentleman said, the seriousness of our work and the credibility of this institution and the confidence of this institution is very much affected by it.

I think what is extremely disappointing is that we now have rules changes that were dictated in a very partisan manner that make it impossible for the committee to function. This is one of the few bastions of nonpartisan activity within the Congress. Now that is unable to operate because of the way the rules changes were made, and I just thank the gentleman for underscoring how important this matter is.

Mr. DELAHUNT. Mr. Speaker, if the gentleman will continue to yield, if I may just pose a question, again there is a wealth of history that I am looking at right here in terms of the issue of ethical standards in this particular institution. Has there ever been before a moment in terms of ethical standards where a unilateral initiative has been imposed on the body without a collaborative effort, without consultation?

Mr. MOLLOHAN. Mr. Speaker, reclaiming my time, I think that is exactly where we are today. There, in fact, has not been such a moment, and we have this process that is offensive in and of itself, that is a serious break with all tradition with the Committee on Standards of Official Conduct when its formation was conducted in a bipartisan manner. The subsequent rules changes, as both the gentleman from Maryland (Mr. CARDIN) and the gentleman from California (Mr. BERMAN) have described in considerable detail because they were involved, all those processes were bipartisan. They brought us bipartisan rules, and they brought us rules that were voted on by the full House of Representatives as a bipartisan package. The process was not offensive. Neither were the rules offensive.

In this case, the process breaks with that tradition. It is patently partisan. The most partisan vote we have in the House of Representative is a party-line vote, and that is a vote that attempts to impose these rules upon the Committee on Standards of Official Conduct, a party-line vote. All the Republicans voting for them; all the Democrats voting against them. So the process is tainted.

So it is no surprise that these three rules are extremely offensive. If they had been fashioned in a bipartisan process, they would have been vetted. They would have been challenged. They have would have been compromised in that task force format, and they would not have come to the body flawed as they were.

When we undertake a partisan process, we cannot create a bipartisan entity. It is definitionally impossible to do.

So now we have three rules. We have had to suffer under a partisan process established to affect a bipartisan committee. But we also have three rules that are terribly flawed.

And the bottom line here is tonight and the message that we want to get across to our colleagues and to the whole Nation is that if we are going to have a bipartisan Committee on Standards of Official Conduct, we have to have a bipartisan process to fashion the rules and to constitute the committee, and we also have to challenge these three rules that are brought to us in a partisan process.

Automatic dismissal of a complaint after 45 days is extremely mischievous to the process. As all of my colleagues have pointed out, rules should exist to help people do the right thing. An automatic dismissal rule in 45 days incentivizes Members in a highly charged partisan institution to sit on their hands for 45 days and let this responsibility pass to have an automatic. The same sort of undermining is taking place with regard to a rule that will automatically allow an accused to get their lawyer to represent all of the witnesses that the committee is trying to investigate.

The gentleman from Massachusetts was a prosecutor for 25 years or however long it was, and the gentleman, I know, understands how mischievous that would be to an investigative process.

Mr. DELAHUNT. Mr. Speaker, if the gentleman will continue to yield, to be perfectly candid, I think a lawyer who would take on the assignment of multiple representation could very well find him or herself in an ethical dilemma. Because, clearly, not all witnesses have the same interests. So for an attorney to do that really has ethical overtones as well. It just does not make any sense.

In fact, one of the recommendations that came out of the subpanel that I served on was for the House to consider the sequestration of witnesses so that the fact-finding process itself would not be colored by conversations among staff and Members. And, as the gentleman knows, it was a unanimous report, and it was adopted unanimously by the House.

I hear sometimes comments about lack of due process. That is a whole other issue, but I am very proud of that product, as I know my three colleagues were on the subpanel, and not once did an individual's name ever appear in print. Not once. There was not a leak because each of us understood the significance and the importance of taking this unpleasant task on in a role that reflected well on the House and reflected the integrity of this institution.

Mr. MOLLOHAN. Mr. Speaker, the gentleman makes the point that in the case that he worked on, and it is unnecessary to mention it by name, but that his investigative subcommittee, he and his colleagues, did an excellent job. And one of the reasons they did is because they were able to keep that information between the witnesses apart. They were not able to have coordination. Their testimony was not contaminated in that way. And that is why they came up with such a clean, hard decision, which was adopted unanimously by the investigative subcommittee and was adopted unanimously by the full committee.

Mr. DELAHUNT. And we never could have done it, Mr. Speaker, in 45 days. Never.

Mr. MOLLOHAN. Mr. Speaker, I ask the gentleman, how long did it take them to come with that investigation?

Mr. DELAHUNT. I think it was in the neighborhood of 6 months, and there were multiple, multiple meetings.

□ 2100

Mr. CARDIN. I cannot think of any case that we ever had that could have been handled in 45 days. I am just trying to think about the time period for answer, the time period for staff review, the time period just to verify basic simple facts. Even in the simplest case, I do not know of any case that we could have handled in a professional manner within a 45-day period.

Mr. MOLLOHAN. Mr. Speaker, reclaiming my time, exactly. Under the new rules, to be perfectly clear about it, the 45-day period would toll once an investigative subcommittee were appointed. But the point here is that the effort of any of those who did not want to have to fulfill their responsibilities and actually consider the merits of the case, anyone, any party, any five members who had that attitude could simply avoid the question of creating an investigative subcommittee and easily do it. There are two clocks that run when a complaint is filed, a 45-day clock and a 30-day clock to answer it; and then you would have 15 days to actually dispose of the matter

Mr. BERMAN. If the gentleman would yield further, a tremendous amount goes on before it ever gets to a recommendation by the Chair and the ranking member to the full committee to create the investigative subcommittee.

I think of cases where staff had to go to county courthouses to review deeds and a whole series of public records to decide if there was any basis for moving forward. It is true that the staff at that point does not have the power of subpoena and does not have the power to get records that are not in the public domain, but they do have the power to informally talk to people who would have information about this, to look at public records.

You cannot do this in 45 days. You cannot come to a serious recommendation that you are going to make to the full committee, that both the Chair and the ranking member can feel comfortable that they can go to the full committee and say we think now is the time to create the investigative subcommittee, unless you have that preliminary work. Otherwise, you just might as well send everything to an investigative subcommittee.

The flip side of an automatic dismissal is every charge gets investigated, with subpoenas and depositions and seizing of records through warrants, which would be a terrible thing for the due process rights of Members. So we are messing with something we should not be messing with here, and it is going to hurt the institution.

By the way, if this were not part of the larger rules package on an opening day, a very small part in terms of the substantive works, I believe there are Members on the other side of the aisle who would have supported the position we are now taking on the substance of these rules; and I know there were members of the committee that would have fully, both present and former, understood how dangerous these rule changes were.

Mr. MOLLOHAN. Mr. Speaker, reclaiming my time, that opportunity exists with H. Res. 131, the resolution that I introduced on March 1, that is now pending before the Committee on Rules. Last week I wrote the distinguished chairman of the Committee on Rules and respectfully requested an opportunity to testify before the Committee on Rules in support of H. Res. 131, to raise some of the questions that have been so eloquently and capably discussed here tonight.

I think the gentleman's point is very well taken: the rules package was an omnibus rules package. These are three ethics rules embedded in the rules package, so it did not get the kind of visibility, the kind of attention that it would get if H. Res. 131 were brought to the floor of the House. Then we would have an opportunity to fully debate all of these issues and, more importantly, our colleagues, both Democrat and Republican, would have a chance to vote on these discrete rules, understanding how important they are to ensuring a credible ethics process and restoring it to a bipartisan basis.

Mr. CARDIN. Mr. Speaker, if the gentleman will yield further, just as a final comment in answer to the gentleman from Massachusetts (Mr. DELAHUNT), I do not know of it ever being done the way these rules changes were made. We have always had a deliberative process for the reasons the gentleman from California (Mr. BERMAN) and the gentleman from West Virginia (Mr. MOLLOHAN) pointed out, so we have a chance to understand the ramifications of these changes. We have never had significant changes to the ethics rules done on the opening day by the majority without working with the minority.

Mr. BERMAN. If the gentleman would yield on that, the irony was at the time of the greatest anger about committee action, which was the case the gentleman participated in dealing with a sitting Speaker of the House, the response was not then to change every rule that bothered him. It was to create a bipartisan task force to look at the rules, to look at it in the context of that case, to see if anything should be changed. That is the appropriate response if you are upset with the way some particular rule seems to be working at the present time.

Mr. DELAHUNT. Mr. Speaker, if the gentleman will continue to yield, I would say to the gentleman from Maryland (Mr. CARDIN), maybe it is time for you again and the gentleman from West Virginia (Mr. MOLLOHAN) and the gentleman from California (Mr. BERMAN) to serve on a bipartisan task force with that in mind.

Mr. MOLLOHAN. Mr. Speaker, reclaiming my time, let me thank you tonight for overseeing our Special Order. I express special appreciation to these three distinguished Members of the House, my colleagues, for their participation.

I think this has been an extremely reasoned, hopefully informative and persuasive prayer to the Republican leadership to look at this issue, to take a second look at it, be impressed by the fact that we are not operating in a bipartisan process, and we must if we are going to have a credible Committee on Standards of Official Conduct, and then to look substantively at these three rules, how they undermine, create mischief, make it impossible, really, to conduct the oversight, the ethical oversight of the House of Representatives in a way that will make the institution proud and make us credible to the American people.

SOLVING THE CHALLENGE OF SOCIAL SECURITY

The SPEAKER pro tempore (Mr. DAVIS of Kentucky). Under the Speaker's announced policy of January 4, 2005, the gentleman from Georgia (Mr. PRICE) is recognized for 60 minutes as the designee of the majority leader.

Mr. PRICE of Georgia. Mr. Speaker, I appreciate the opportunity to address the House this evening on an issue that is really of utmost importance and urgency. It is something that has been in the news an awful lot over the past number of weeks and months; and hopefully tonight we will be able, along with some of my colleagues, to bring some greater clarity to the importance of this issue, as well as the importance of solving the challenge of this issue, and that issue is Social Security.

As a freshman here in Congress, when I go home I get asked, What are your impressions of Congress? What is going on up there?

I am struck by two things. The first is that we live in challenging times, incredibly challenging times, and there are issues that demand attention and that demand the honest, hard work of the people in Congress on behalf of the citizens of our Nation, and it is imperative that we act. Our constituents demand that we act, and it is appropriate that they should do so.

The second impression that I have is that I could not be more proud to serve with a President who is not afraid to tackle big issues. We have got some incredible issues before us, Social Security being one of them, and this President has put it on the table and said, Ladies and gentlemen, let's work together honestly and sincerely and let's solve this problem.

We had a break at home recently; we were all home for 2 weeks talking to our constituents and our neighbors and friends, and I had the privilege of being with Secretary of Health and Human Services Mike Levitt, who was speaking to a group about Social Security, and he kind of crystallized it, I thought, really very, very well.

He said, There comes a time in history when a problem is large enough to see, yet still small enough to fix.

There comes a time in history when a problem is large enough to see, yet

still small enough to fix, and I believe that Social Security is exactly at that stage. The problem is large enough to see, but still small enough to fix.

Let me begin very briefly, and then have some of my colleagues join me. I would like to talk about some principles. I think it is important when we have discussions about public policy, especially on something as important as Social Security, that we stick to principles. I can outline four or five principles that I find to be incredibly important in this discussion about Social Security.

The first one is that it is a promise. I believe and I suspect that the majority of Americans believe that Social Security is not just a government program; it is not just a program that was instituted 70 years ago willy-nilly. It is more than a safety net. It is a promise. It is a covenant with the American people by all of us to the generations of hard-working Americans, and it says that Washington took money from your paycheck, your paycheck, your entire life, and they made a promise to you to return that money upon your retirement. So it is a promise.

The second principle that I think is important to keep in mind is that of generational fairness. It is imperative that we save and that we secure Social Security so that our children and our grandchildren will receive the same benefits that we when we retire will have enjoyed. So generational fairness. It only works when it is fair for all Americans.

The third principle, and this is a tough one in this institution, and I was listening to my colleagues on the other side of the aisle a little bit earlier and sometimes with amusement, but the third, which I am serious about and I believe that all of us should be, is that this issue should not be partisan. It ought not be partisan.

When it comes to the retirement of tens of millions of Americans, there are not Democrats or Republicans. We are all Americans, and those Americans are counting on us to work together and to do what is right for the current generation and for future generations and those just entering the workforce. So it ought not be partisan.

Fourth is that concept of a nest egg. All working Americans deserve the peace of mind that if they live by the rules and they work hard and they live up to their responsibilities, that there ought to be a nest egg available to them, taken from that money that they have so generously put into the Social Security system.

Finally, and we oftentimes find that Washington forgets this, but to all Americans, this is your money. This is your money. It is not the government's money; it is your money. It is your future, and it is your life.

I think if we keep in mind those principles, that it is a promise, that there ought to be generational fairness, that it ought not be partisan, that we ought to concentrate on preserving that nest egg, and, finally, it is your money, that it is Americans' money, we will go a long way towards ending up with the right solution.

I am privileged to be joined tonight by a number of my colleagues who will touch on some issues as they relate to Social Security and their perspective. First is the gentleman from South Carolina (Mr. WILSON). The gentleman from South Carolina (Mr. WILSON) recently returned from that 2-week period conducting over 20 town meetings with constituents regarding Social Security.

When I think of those Members of the House who have the highest level of honor and integrity, the gentleman from South Carolina (Mr. WILSON) is right at the top of that list. In my very short period of time here in Congress, I have come to appreciate him greatly. He is the grandfather of two young boys, and he clearly understands the demographic challenges that are facing Social Security and the need to strengthen the system now.

With that, I yield to the gentleman from South Carolina (Mr. WILSON).

Mr. WILSON of South Carolina. Mr. Speaker, I thank the gentleman from Georgia (Mr. PRICE) for his leadership tonight. It is just a great honor to be here on this very important issue of Social Security and strengthening Social Security, and I appreciate again what the gentleman is doing to bring to the attention, Mr. Speaker, of our colleagues, additionally to the American people, the importance of how we can and why we need to strengthen Social Security.

The gentleman from Georgia (Mr. PRICE) himself is an indication of the leadership in our Congress, and I am so proud. Even though he is just a freshman, he is making such a difference.

I had the extraordinary opportunity in 2001 to be part of the first Republican majority in the State Senate of South Carolina in 124 years, but the gentleman from Georgia (Mr. PRICE) had in 2002 the opportunity to be the first participant in the Republican majority in the State Senate of Georgia in 125 years. Then, as an indication of his leadership, he was elected leader of the State Senate of Georgia, again the first Republican in 125 years. Then he, of course, ran for Congress last year, and is making such a difference.

The reason that we are here indeed to discuss the issue of why we need to strengthen Social Security I believe is very simple: it is demographics. This is not criticism of a political party; it is not criticism of individuals. What we are doing is recognizing something actually very good, and that is that the American people are living longer.

In 1935, when the Social Security system was implemented, the average longevity, the age of what a person in the United States would live, was 59 years old. Today, it is 77.3. I think that is great. It is a testimonial to our health care, to the health care delivery system, to the physicians of our country, to the living standards of the American people.

□ 2115

I had the opportunity to bring this to the attention, as the gentleman from Georgia (Mr. PRICE) has indicated, to 20 town hall meetings recently: the Residence Hall Association of the University of South Carolina, to the Latin American Council of Beaufort County, to the Aiken County Chamber of Commerce, to the employees of Palmetto Electric Coop. Everywhere I went, and I spoke at Estill High School, Hampton High School, everywhere I went I was able to bring to the attention of people of all ages that, due to demographics, we need to make changes and address the concerns that we have with people living longer.

Then, of course, we had the circumstance back in 1935, there were 40 workers who paid into the system, and then there was one beneficiary. Back in 1950, that changed, of course, and there were 16 workers to a beneficiary. Currently, there are 3.3 workers to a beneficiary; and soon there will be just 2 workers to a beneficiary. That clearly indicates we need to strengthen and reform the system.

As I look at what we are doing, it is very frustrating to me that many people seem to indicate that, because the crisis is not going to come about until the year 2041, that it really does not impact people and maybe we do not need to address and make the changes that are necessary. But I need to tell my colleagues, I understand perfectly that in fact it affects everyone in this room, it affects our families.

I appreciate the gentleman from Georgia (Mr. PRICE) pointing out my grandchildren, but even before the grandchildren are impacted, it really affects persons such as me, the baby boomers of America.

Beginning in 2008, there will be 78 million people retiring; and what is going to occur is that, beginning in 2008, the number of retirees is going to dramatically impact and affect the Social Security system. In fact, it will go bankrupt in the year 2041.

The year 2041, that seems so far away. I am very hopeful. I would be 93 years old. So I have to tell my colleagues that that is maybe highly unlikely that I could be around. But a dear friend of mine, Austin Cunningham, who introduced me as I made a presentation like this one to the Orangeburg County Rotary Club, is 92 years old. So I really hope that I am there.

But that would be catastrophic for those of us as baby boomers if Social

Security goes bankrupt. At the age of 93, we cannot begin second careers. There will not be other jobs. We need to address it.

Then I need to tell my colleagues that I am really proud that our oldest son, Alan, just returned from Iraq. He is 31 years old. That is significant, 31 years old, because 36 years from today, he will be 67. He would be retiring. The moment he begins to retire, July 16, 2041, the Social Security system would go bankrupt. That is outrageous.

I am very proud of Alan. This is a picture of where he returned to Fort Stewart from a year serving in Iraq.

So our veterans of Iraq in the war on terrorism, protecting the American people, they are working to protect our country. We need to look out for young people like Alan, 31 years old, who would be catastrophically affected.

Then, of course, my grandchildren. I am very proud, because this week I was with my 2-year-old at the South Congaree Rodeo Festival, and here he is in his little cowboy hat. Little Addison would be 37, 38 years old when our system will go bankrupt. Our newest born grandchild, born just this January, will be 35 years old when the system goes bankrupt. That would be catastrophic.

My grandchildren, our grandchildren, these young people would be affected with an enormous tax increase that would be totally debilitating to their best years of earning, so debilitating to their ability to truly fulfill what we want as part of the American dream.

So I want to thank my colleagues who are here tonight. I want to thank the gentleman from Georgia (Mr. PRICE) for his leadership, and I want to thank President Bush for his courage to point out that this is an issue that needs to be addressed now. It needs to be addressed for the baby boomers, it needs to be addressed for the young people who are in their 30s, high school students, college students, infants who were just born. We need to address this, and I know my colleagues tonight will be presenting to the American people how important this is.

Mr. PRICE of Georgia. Mr. Speaker, I thank the gentleman from South Carolina (Mr. WILSON). He is absolutely right about the President, with his courage and leadership. The easy thing in this issue is to do nothing.

Mr. WILSON of South Carolina. That is right.

Mr. PRICE of Georgia. That is the easy thing to do. Because there are a few years where people are not going to feel it, they are not going to feel that pain, but the gentleman from South Carolina so vividly brings a face to that by presenting his son and his grandchildren, and I appreciate that very, very much.

I would like now to yield to the gentleman from Texas (Mr. CONAWAY), another fellow freshman who is the father of four grown children and a grandfather to six. He has demonstrated remarkable leadership in his 3 short months in Congress with me, and over the break he conducted 15 Social Security town hall meetings in his district. He brings excellent expertise to this issue, because he is a CPA and a small business owner and former chief financial officer. He truly understands the financial impact that a failing Social Security system will have on his children and his grandchildren and all of us.

So I thank the gentleman, and I yield to him to discuss this issue.

Mr. CONAWAY. Mr. Speaker, I appreciate that.

I, too, want to add my thanks to the gentleman from Georgia for hosting this hour tonight and for going to the lengths that he has gone to gather us together to talk about this very important issue. Had I realized that we could use grandchildren as props as the gentleman from South Carolina (Mr. WILSON) did, I would have brought pictures of mine, because I want to make reference to my six wonderful grandchildren in a few minutes. So the gentleman from South Carolina, as always, has set a very high standard for discussion in this Chamber.

Over the last several weeks at least, I have on occasion caught glimpses of a television commercial that I have found very troubling as we try to discuss and talk about this very important issue of Social Security reform. There is an organization out there that has a commercial running that talks about a clogged drain, a household drain, and they use that as a comparison to the problems and challenges that we face with Social Security.

On its face, it is ludicrous to compare a normal, everyday occurrence of a clogged drain, one that you fix out of your normal operating budget and one that just happens all the time, to the very difficult-to-solve problems that we face with Social Security. We cannot fix those out of our normal operating budget, the normal budgetary process, the problems that we have where in 2017 we will begin to run a cash flow deficit. That means that the payroll taxes that we collect each year will be less than the benefits that we pay out. So at that point in time, we will begin to have to use the surpluses that have accumulated in Social Security. That means that we have to borrow the money in the open market to redeem those IOUs, or we have to cut spending, Federal spending in other areas to make up for that cash flow.

So a very significant problem is coming in 2017.

Then, in 2041, we will have paid back, paid out in benefits all of the accumulated surpluses that are in the Social Security trust; and, at that point in time, current law, as it currently exists, says that the beneficiaries in that date, in 2041, will experience an immediate 27 percent haircut in their benefits. So a clogged drain and a cash flow deficit in 2017, a system that is bankrupt in 2041, a 27 percent haircut in benefits, that is a misplaced analogy if I have ever heard one.

Then this commercial goes on to say that the solutions are like tearing down the house, and they have a bulldozer that runs through this house and destroys it totally. Well, as I look at the reforms that are being talked about, every time any of us talk about it, whether it is the President in his crossing this country back and forth, trying to convince the American people that Social Security reform is something that we ought to be about today, the first thing out of his mouth, the first thing out of yours I suspect at our town hall meetings, the first out of mine, is that current beneficiaries, my mom and dad, this is not about you. We have made you promises. You are getting your Social Security benefits. You will continue to get your benefits no matter what happens. No matter what we do, we have made those promises and we are going to keep those.

Near-term beneficiaries, folks in the 55 and up bracket, if that is where we decide to draw the line, it is not about you either. Your benefits will not be affected.

And reforms that affect our grandchildren, my six and the grandchildren of the gentleman from South Carolina (Mr. WILSON), to say, look, if we think Social Security is good for my mom and dad, it is good for me, then we believe it is good for you as well. So we are going to put reforms in place for our grandchildren.

So those are the reforms that this organization equates with tearing down the house and, in effect, destroying Social Security. Again, a misplaced analogy. I do not think it is helpful to the discussion. I do not think it is helpful or adds to the effort that the gentleman from Georgia (Mr. PRICE) talked about. The gentleman is right. This is not a partisan issue.

The solutions that fit Social Security do not wear jerseys. They do not wear a Democrat jersey. They do not wear a Republican jersey. So to simply fill up the airwaves with conversations and discussions that are not productive, that are not about fixing the system; I am from west Texas. We leave off the ''G'' on the word ''fixing'' often. So, to the stenographer, there is no ''G'' in the word ''fixin','' is counterproductive to this entire process.

So I want to add my voice to trying to bring this organization to the table.

Part of our frustration is that we cannot get folks who are opposing Social Security reform to actually begin to sit down and have conversations with us in our inside voices to talk about what these solutions ought to be.

So I am going to send a letter out tomorrow to the leadership of AARP, the

American Association of Retired Persons, and it reads like this:

''Dear leadership: I write today not only as a Member of Congress, but also as a member of your organization and a grandfather. We all know that the debate over Social Security has become very political. However, I strongly believe that this program deserves to be considered above the fray of partisan politics. I am calling on you today to help craft a solution to the problem we are facing.

''I am a CPA with experience in banking, health care, and the oil and gas industry. I was a small business owner and have lived in west Texas nearly all my life. Since arriving in Washington, I have been disappointed by the political partisanship that has inhibited a substantive and honest debate on Social Security reform.

''It is time to set aside partisan differences and come to the table to seriously address Social Security reform. We must have an open debate that is free of political rhetoric and emotion and, with your cooperation, we can at least begin that discussion.

''The best way to address this problem is first to agree about the facts:

''Social Security is safe for today's seniors, but is in serious danger for our children and grandchildren.

''Social Security is a pay-as-you-go system with today's workers paying to support today's retirees. In just over a decade, the government will begin to pay out more in Social Security benefits than it collects in payroll taxes, and shortfalls then grow larger with each passing year.

''Without changes, Social Security will be able to pay 100 percent of its current benefits until 2041 when Social Security will be forced to cut benefits by at least 27 percent.

''This is an issue of generational fairness and the preservation of a promise made in 1935 to future generations of retirees. This vital program shouldn't just be safe for those who are over the age of 55, it should be an equitable and viable program for our children and our grandchildren.

''After reviewing the facts, it is clear that the current system cannot be sustained. When looking towards a solution, we all agree on two major points: benefits for individuals ages 55 and older should not change, and that Social Security needs to remain solvent for all future generations. Let's use this as a starting point for discussion that moves us closer to crafting a common sense solution that fixes the problem and does not simply place another Band-Aid over it.

''The Federal Government has collected hard-earned tax dollars from American workers and used them in a system that is on the path to bankruptcy and yields little return. We cannot idly stand by and allow such a looming financial problem to become a crisis. Every year that we wait and do nothing, it will cost the American taxpayer approximately $600 billion.

''I have six wonderful grandchildren. What kind of a grandfather would I be if I asked them to mortgage their future retirement security on a system that cannot sustain itself? I think the millions of grandparents who make up the membership of AARP would agree with me on this. We must act now.

□ 2130

''Social Security is a contract with ourselves. And that is a contract that we cannot and will not breach. Please, let us not make a partisan issue out of retirement security for our seniors and future generations of retirees.

''I would like to extend an invitation to the four of you that are addressed to discuss all of our options, including permanent solvency and some form of personal retirement accounts in dealing with the future of Social Security. I call on you today to set up a meeting with several of my colleagues to begin discussing these issues. I look forward to working with you.''

I would say to my colleague from Georgia (Mr. PRICE), this letter will go out tomorrow to the leadership of AARP. I suspect there are other letters similar to this that have gone to this very influential organization that has millions of members, most of whom we look straight in the eye when we talk about Social Security reform and we tell them in as clear and convincing a voice as we can, fixing Social Security is not about your benefits.

Those promises have been made. We are collectively going to keep those promises. The solutions that we are talking about are about my grandchildren and your grandchildren and making sure that Social Security is in place, that lifetime benefit, that lifetime annuity that protects all of us in our retirement years.

So I thank the gentleman for his leadership tonight and bringing this issue to the table.

Mr. PRICE of Georgia. I thank the gentleman from Texas (Mr. CONAWAY) for his comments. I appreciate that. And that letter really just gets to the heart of the matter. I hope to see that letter in their newsletter. They ought to be sending that kind of information out to their members because, as he said, it really is a disservice when the level of discussion about something so incredibly important sinks to these little games that are played that are not productive and that frankly do a disservice to our Nation and to its citizens. So I thank the gentleman for his participation this evening.

Now I would like to ask the gentlewoman from Virginia (Mrs. DRAKE), another stellar member of the freshman class who is going to join us. She is a Realtor and former State delegate from Virginia. As a former small business owner herself, she is extremely familiar with the positive impact protecting Social Security will have on millions of American families and small businesses. And I yield time to the gentlewoman from Virginia as she consumes.

Mrs. DRAKE. Mr. Speaker, I appreciate the opportunity to be here this evening and to speak to Americans about such an important issue as Social Security.

Mr. Speaker, protecting Social Security for future generations is an investment today's generation can no longer wait to make. My colleagues who I have joined here tonight to speak with on this important issue have very effectively made the case for protecting Social Security. Rather than to repeat their arguments in favor of reform, I would like to address a common argument against what we propose.

One argument about taking on the huge task of saving the Social Security system is what opponents to reform call the ''transition cost'' associated with the undertaking. They say our program will not make Social Security more solvent. They say it will cost more to reform Social Security than to just leave it alone.

Opponents of reform are right to be concerned about the cost of action. As stewards of the tax dollar, Congress must be fiscally responsible and spend wisely on programs that work. But that is exactly why we need to act now, because the cost of inaction is even greater.

Think about it this way: more Americans own their homes today than ever before in our history. We have all heard this a number of times, and many economists like to use homeownership as a gauge of our society's well-being.

But why? Why is homeownership such a badge of honor? What does it symbolize? Why is such a huge investment and financial liability as a mortgage considered a hallmark of success in this Nation?

It is because ownership brings a sense of fulfillment, a sense of identity and accomplishment. Providing for and protecting your family under a roof you call your own is part of the American Dream because family is at the very heart of our culture.

But buying a home requires an initial, even painful, investment, down payments, closing costs, loans, research, contracts signed, contracts lost, and even more. It requires sacrifice to buy a home. But it is universally recognized as a wise, sound decision to make because of what it yields over time.

As a former Realtor, I know firsthand the benefits and joy of homeownership. And I know what it takes to achieve it, because I have helped thousands of people to do it. I am aware of the cost of buying a home, but the long-run advantages of paying such a

high price at the beginning far outweigh the disadvantages.

And, Mr. Speaker, not once in my entire real estate career, which spanned 2 decades, did I ever hear it advised that the transition costs of homeownership outweigh the benefits of buying. And that is how we should think of the transition costs of protecting Social Security, just as we do the down payment on a new home. While the down payment may be high and more expensive than continuing to rent an apartment, the long-term pay-off of owning your own home is monumental.

Mr. Speaker, we can no longer afford to rent the Social Security program from future generations of workers who will either lose massively in benefit cuts or pay dearly through tax hikes if we do nothing. We must make the down payment now or face the consequences of our inaction.

The Social Security trustees, as the gentleman from Texas (Mr. CONAWAY) has pointed out, estimated each year that we do nothing we add $600 billion to the cost of reform, reform that everyone agrees is inevitable. Call it what you want. Call it a crisis, a problem, an issue, a concern. Whatever language you use to describe the Social Security situation that America faces, we cannot afford in this time of war and budgetary constraint to add $600 billion each year. Something must be done, and it must be done today.

But if we do not act, the current Social Security payroll tax of 12.4 percent will have to skyrocket to 18 percent in order to meet the needs of the baby boomer retirees.

As a former small business owner, I can tell you, based on my experience, and at times it was tough, that paying 12.4 percent into a system that will return me 1.6 percent on the dollar was very, very difficult. I cannot imagine trying to own a small business in the future and having to pay an even higher payroll tax. Yet this is what will happen if we do nothing.

If we leave the system alone, small businesses, the Nation's number one job creator, will pay the price. If we do not act, today's average 30-year-old will see a 27 percent decrease in Social Security benefits by the time that she retires.

Can your children get by on almost a third less of what retirees are receiving today?

Do they think it is fair to them to fund the retirement of today's retirees through their payroll taxes, only to be left high and dry when their golden years approach because their leaders did not act?

Would they not prefer to build their own nest egg and pay into a system that gives them real returns on the money for which they work so hard?

And finally, for the very first time, there will be such a thing as a Social Security trust fund. As of now, it does not exist. It never did. Every cent that is paid into Social Security goes straight to Washington, and what is not paid to the current retirees gets spent by Washington. That is the end of the story.

Make no mistake. Today there is no such thing as a Social Security trust fund. But now, for the first time ever, this Republican Congress wants to create one. We seek to implement a savings program that finally ties the taxes paid by an individual to that individual's future benefits.

For the first time, money that you pay into Social Security will belong to you and not to the politicians and bureaucrats in Washington. This is truly an American program. It promises real returns on the money hard-working Americans pay into the system; and it says, the money you have paid is yours to keep and yours to spend on your family.

For the first time, Americans will have some control over their own Social Security. And if today's workers who choose to sign up for personal accounts die prematurely, the money they divert into their personal accounts does not go away like it does today. It will remain with their family. It will be a true nest egg, an asset that is owned by that worker.

We must add to the retirement security of future generations by allowing them control over their own investment. By permitting people to voluntarily establish personal accounts, we strengthen the control they have over their own financial future.

By reforming Social Security now, we stop the $600 billion yearly cost of inaction and allow current workers to own their own nest egg.

Mr. Speaker, it is time to act. It is time to put aside partisanship. It is time to work together to solve the problem that Social Security soon will be if we do not act. Let us put aside our differences and vote on a plan that will save Social Security for future generations.

Mr. Speaker and my colleague from Georgia (Mr. PRICE), I think it is very exciting for Americans to have a choice to have an option to have a voluntary personal account, and I am only sorry that I do not personally qualify for that.

Mr. PRICE of Georgia. I thank my colleague from Virginia (Mrs. DRAKE). My goodness, she brought such clarity to this issue in her explanation there, and I really appreciate that. I also have used the analogy of refinancing a home, a home mortgage to kind of bring clarity and focus on what it is that we must do, we must do as a Nation. And so I appreciate her bringing that perspective to us.

I also just was struck as she was talking. You know, the other side seems to think that if we do not do anything, it costs nothing. Well, that could not be further from the truth. So I really appreciate her participation, and I thank her ever so much.

Mr. Speaker, I think what you have seen this evening initially with the discussions of the gentleman from South Carolina (Mr. WILSON) and the gentleman from Texas (Mr. CONAWAY) and the gentlewoman from Virginia (Mrs. DRAKE) on the issue of demographics and on the demand or the need for honesty in this discussion and the concern and the clarity with which the gentlewoman from Virginia (Mrs. DRAKE) talked about these transition costs as they are described, that they are bringing about those principles that I talked about: that it is a promise; that it is important that we make certain that generations are treated fairly; that this ought not be partisan; that there is a nest egg there; and that it is your money. It is America's money. It is not the government's money.

As I was, over the past couple of months, looking into this issue regarding Social Security, I always try to figure out where it all began, where is the fundamental problem, but also what are other folks saying on this. And I came across some interesting quotes I would like to share with you. The first one, I think, gives a great perspective on the issue of Social Security. I am a child of the 60s; and so when I grew up, President John F. Kennedy, I remember clearly the manner in which he was able to convey his passion to our Nation and to focus our energy. And he recognized back in June 1961, regarding the issue of Social Security, he said, a Nation's strength lies in the well-being of its people. And the Social Security program, remember, this is 1961. The Social Security program plays an important part in providing for families, children, and older persons in time of stress. But it cannot remain static. It cannot remain static. Changes in our population, in our working habits, and in our standard of living require constant revision. Constant revision. It cannot remain static.

Well, what has happened to our program? It has remained static. There have been no fundamental changes to our situation as it relates to Social Security. So I am fond of telling folks that our current situation is a result of demographics, the aging of our society, but also to inertia. There is an inherent inertia in government at all levels to do nothing, that it is easier to ignore a problem than it is to fix a problem. That is not only true at the city council level, where it is easier to keep the collection for garbage on the same days, even though it might work better to do it in a different manner.

But it certainly is true here in Washington where we have big issues like Social Security. It is easier to do nothing. And that is why I am so proud again to serve with a President who understands the importance of tackling this issue head on.

□ 2145

When we think about Social Security, remember the program that President Kennedy said cannot remain static. I had my staff look up what kind of things were going on 70 years ago when the program began. Social Security is 70 years old, 70 years old. There has been a little tinkering but no fundamental changes, and the world has changed significantly.

Seventy years ago we were in the midst of the Great Depression. Seventy years ago FDR was our President. Babe Ruth hit his last three home runs in one game, setting the record at 714 career home runs. Seventy years ago, Elvis Presley was born. A 1935 sedan cost $495 brand spanking new, and a modern six-room house sold for $2,800. Seventy years ago, Parker Brothers released the board game Monopoly, nylon was discovered, and the construction of the Hoover Dam was completed. Seventy years ago was a long time ago, and the world has changed, and our population has changed.

I think it is clear that when Social Security began it was a wonderful program. It was first designed for a different generation and for a different America. There are really at least four specific facts that convinced me when I began looking at this issue that the old system, the current system, is no longer workable for our society and it is no longer secure.

The first is, as the gentleman from South Carolina (Mr. WILSON) mentioned, is that our Nation has matured from the time that men were the majority of the workforce and the life expectancy was about 60 years old. Today, in the majority of households, both men and women are working; and our life expectancy is significantly over 70 years of age. We are living longer and healthier lives, and that trend is only going to increase, and that is very good for all of us. But it is not good for our Social Security system.

We have seen this demographic before. This gets to the issue of the second thing that convinced me that we have got to modify and reform the system, and that is the issue of the workers. We are in a pay-as-you-go system, which means that today's workers pay for today's retirees. And when the system began in 1935 or 1937, there were 41 workers for every retiree. In 1950, there were 16 workers paying in for every beneficiary, every retiree. Today, there are 3.3 workers for every beneficiary or retiree; and in a very short period of time there will be two workers for every retiree. That is the system that cannot sustain itself. We are on an unsustainable course.

The third issue that led me to believe and understand and appreciate that we have got to reform the system is what I call the 2008 phenomenon. 2008, what happens in 2008? Well, this graph you may have seen. In the year 2008, these are the surpluses. This is the amount of money coming into the Social Security system. In 2008, the surpluses peak, the surpluses peak and begin to decrease. And at the same time the baby boomers begin to retire. That large group of individuals in our population, me being one of them, in 2008 they begin to retire.

The baby boomers started in 1946. The average age of retirement is 62. You take 1946, you add 62 to it, 2008 and they begin to retire. 2008 is not a long way off. It is right around the corner.

Finally, fourth, if you think about the system that we have had in place for Social Security, again it is a pay-as-you-go system, so the current workers pay for the current retirees. When there were lots of workers, there was more money in the pool for retirees. But what has happened? What has happened when we get down to that area where we have got 3.3 workers and then soon 2 workers for every retiree, the amount of money that is being returned is, frankly, an embarrassment.

When the system started, people got much more money than they put into the system. Now it takes years and years for individuals to get the amount of money back that they just put into the system. In fact, most individuals are getting less than 2 percent return on the money that they put into Social Security. Less than 2 percent. That is not a nest egg. That is not secure. That is not enough to retire with security.

There was an article that came out today that I think brings clarity to that, and it is by Stuart Butler, who is a renowned and noted economist, Vice President for Domestic and Economic Policies at the Heritage Foundation. And let me just share with you a couple of paragraphs from this article. It was entitled, ''The Social Security Crisis Gets Personal.''

In this article dated today, April 12, 2005, he stated that, ''As the Social Security system itself has aged, payroll taxes have grown relentlessly and the return on those taxes has fallen dramatically. When Social Security began the payroll tax was just 2 percent of income. Now it is 12.4 percent. Today, the average male worker about to retire will typically get just 1.27 percent return on his lifetime of taxes, less than he would get from a savings account. That is bad enough, but the younger you are the worse it will get. A 25-year-old worker can expect a return of minus .647 percent.'' He loses money.

Here is the kicker right here. ''Imagine what Congress would say if a private company was taking in billions of dollars from millions of hard working Americans and then giving them back less money in retirement.'' Well, you can imagine what Congress would say.

So we have got more retirees, fewer workers, and less money. All of these facts, and facts are the same regardless of whether you are a Republican or a Democrat, all of these facts do not paint a pretty picture.

It is incumbent upon us here in Congress to put the security back in Social Security. There was a time when our friends on the other side of the aisle agreed, and we did a little work and came up with some quotes from individuals. These are actual quotes, actual statements from some very prominent individuals on the other side of the aisle when they appreciated or they admitted that they have appreciated that there was indeed a problem in Social Security.

This is a quote from President Clinton in February of 1997, 8 years ago, February of 1997. ''For the long-term health of our society, we must agree to a bipartisan process to preserve Social Security and reform Medicare for the long run so that these fundamental programs will be as strong for our children as they are for our parents.'' Clearly identifying one of the principles I spoke about.

Here is a quote from President Clinton in February of 1998. ''So that all of these achievements, the economic achievements, our increasing social coherence and cohesion, our increasing efforts to reduce poverty among our youngest children, all of them, all of them are threatened by the looming fiscal crisis in Social Security.''

Now there has been some discussion about whether or not we have a crisis or a problem or it is a challenge. This is 1998, 1998, President Clinton saying, ''threatened by the looming fiscal crisis in Social Security.'' Clearly, President Clinton understood the issue at that time.

Here is a quote from the late Senator Daniel Patrick Moynihan in March of 1998, talking about the issue of Social Security and investment, these personal retirement accounts, voluntary personal retirement accounts. ''Young people, especially, have lost faith.'' He is talking about the Social Security system. ''They wonder why they cannot take care of their own retirements with stock and bond investments, rather than trusting a system that either is headed for bankruptcy or will provide paltry or negative returns on their contributions.'' Another august individual from the other side of the aisle who certainly appreciated the problem.

And then Senator HARRY REID. He is now the Minority Leader in the United States Senate. In February of 1999, he said, ''Most of us have no problem with taking a small amount of the Social Security proceeds and putting it into the private sector,'' these voluntary personal retirement accounts that we have been talking about.

They recognized the issue. If they recognized the issue in 1997 and 1998 and 1999, what is the solution? What is the solution that they have put on the table? What are they offering to this

remarkable challenge that we have as a Nation?

Well, a little earlier I talked about the initial impressions that I have had in my freshman term here in Congress, and one of the things that may not surprise anyone is the remarkable level of partisanship. Remember I talked about the need for this to be a nonpartisan issue, but the incredible level of partisanship and nowhere is it more clear than on the issue of Social Security. The Social Security problem is clearly defined, and there is a clear recognition by both Democrats and Republicans as demonstrated here that we need to fix the system. Yet where is the plan from the other side of the aisle? What is the plan that they have on the table?

Well, we searched and we searched and we searched and we searched. And this is the plan that we have come up with. This is the plan that the other side of the aisle in this incredibly important issue, in an issue that will impact every single American, this is the plan that they have on the table.

Just say no. Just criticize. It is politics as usual. It does such a huge disservice to us as a Nation and to every one of their citizens. So we should act now. There is no doubt about it. We should act now.

The Social Security trustees, the Comptroller General of the United States, Chairman of the Federal Reserve Board all agree that the sooner we address the problem, the smaller and less abrupt the changes will be for individuals and their families.

One of the individuals who works in my office just this past week got her Social Security statement, her Social Security statement that each of us get each year, and I was reading through the text of what everybody receives from the Social Security administration about their Social Security. And it clearly says and I urge every American to read the fine print when this comes to your home. It says from the Social Security Administration, ''Unless action is taken soon to strengthen Social Security, in just 14 years we will begin paying more in benefits than we collect in taxes. Without changes, by 2042 the Social Security trust fund will be exhausted. By then the number of Americans 65 or older is expected to have doubled. There will not be enough younger people working to pay all of the benefits owed to those who are retiring.''

This is not an opinion by anybody on my side of the aisle or the other side of the aisle. This is the Social Security administration who is looking at the numbers, seeing what kind of revenue is coming in and what is going to happen and warning each and every one of us, further, that there will be enough money to pay only about 73 cents for each dollar of scheduled benefits.

So I had the plan from the other side of the aisle. This is their plan. If you wanted to put a face on it, if you wanted to draw it on a graph, that plan is this graph. What this says is that we go along and go along and go along just as we are doing now until we get to that date, 2041, when the bottom falls out of the system and individuals are only able to receive 73 or 74 percent, which is a 26 or 27 percent cut in benefits.

I promise you that that is not acceptable. It certainly is not acceptable to me. It is not acceptable to our side of the aisle, and I do not believe it is acceptable to the American people. So it is a promise. This issue ought to be nonpartisan. We ought to get together, and I urge my colleagues to do so. There needs to be generational fairness so that younger individuals have faith that some of the money certainly that they have put into the system will be able to grow and be able to provide for their nest egg.

Finally, it is your money. It is Americans' money. It is not the government's money. It is your money. These ought to be our principles, and we should focus on the facts, study the issue and alternatives that are available to us, vigorously debate, both sides of the aisle vigorously debate and then act. It is imperative that we move forward with this because, as we have heard, every year we delay costs this Nation, costs the American public, costs you $600 billion.

Social Security is a system that has worked for decades and for generations, but the current system is outdated and does not meet the needs of the American people. It is not secure.

We have a wonderful opportunity right now. Right now, imagine the peace of mind that you would have knowing that the contributions that you make each month into Social Security will result in a nest egg for your retirement that you own and that no one can take away. That is my vision and that is my dream and I hope that you share that.

□ 2200

In closing, Mr. Speaker, I urge my colleagues and I ask my colleagues to take the time now, take this time now and let us get to work. We all look forward to the discussion that is coming about on this issue, but I am hopeful that we will remember those principles, that it is a promise and ought not to be partisan and to keep in mind every single generation and be fair to them. Remember that nest egg that must be maintained for security and that it is American's money, it is not the government's money. If we do not act now, that would be the height of irresponsibility, as with saying that there is no problem or that little needs to be done.

So I urge this House, I urge the Senate and I urge the President to work together and I congratulate the President for bringing this issue forward to find a responsible and a secure solution.

HONORING THE LIFE OF FORMER CONGRESSMAN WILLIAM LEHMAN

The SPEAKER pro tempore (Mr. FORTENBERRY). Under the Speaker's announced policy of January 4, 2005, the gentleman from Florida (Mr. MEEK) is recognized for 60 minutes.

Mr. MEEK of Florida. Mr. Speaker, I would like to thank the Members of the House and also the Democratic leader for allowing me to have this time tonight.

GENERAL LEAVE

Mr. MEEK of Florida. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the life of Congressman Bill Lehman, the subject of my Special Order this evening.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. MEEK of Florida. Mr. Speaker, a few weeks ago, a great man who served in this House for 20 years went on to glory. On March 16, 2005, former U.S. Congressman Bill Lehman passed away peacefully in the presence of his family and a few close friends in Miami, Florida. He was ninety-one years old, and for 20 of those years he served in this great institution, the U.S. House of Representatives.

We are here this evening to pay tribute to Congressman Bill Lehman who served with great dignity and integrity, who the Miami Herald described as a ''legendary figure in south Florida politics considered a visionary on racial issues and public transit.''

Only three people have ever served in the 17th Congressional District of Florida, former Congressman Bill Lehman, former Congresswoman Carrie Meek and myself, Mr. Speaker. For this reason, it is a great honor for me to honor him today.

By any measure, Mr. Lehman was an extraordinary man. He was a successful businessman who went back to college, got his teaching degree and taught in the Miami Dade County schools. He also was a school board member and a chairman of the school board, and he led his school system through a very difficult time, the end of segregation in schools.

Congressman Lehman was a Member of Congress universally known for fairness, kindness and compassion. He had strong relationships on both sides of the aisle and guided national transportation policy through the 1980's.

Congressman Lehman started out as a used car dealer in Miami, and his nickname was ''Alabama Bill'' because Congressman Lehman was born in Selma, Alabama, and I think that it was very appropriate at that time for

him to be in leadership, but he was a special kind of businessman even then. He developed a reputation as a used car dealer that you could trust, and that is something that is very uncommon these days, Mr. Speaker.
