STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Ms. LANDRIEU (for herself and Mr. KERRY):

S. 2482. A bill to authorize funding for State-administered bridge loan programs, to increase the access of small businesses to export assistance center services in areas in which the President declared a major disaster as a result of Hurricane Katrina of 2005, Hurricane Rita of 2005, or Hurricane Wilma of 2005, to authorize additional disaster loans, to require reporting regarding the administration of the disaster loan programs, and for other purposes; to the Committee on Small Business and Entrepreneurship.

Ms. LANDRIEU. Mr. President, I come to the floor with my ranking member and leader on this issue, Senator JOHN KERRY of Massachusetts, to speak for a few moments about a bill the two of us are going to introduce today, the Gulf Coast Open for Business Act of 2006, by Senators LANDRIEU, KERRY and others. Let me first commend my colleague and thank him for joining me here today. He will be giving more details about the act, which he has worked with my staff and others to craft, so let me add some personal perspective.

I stand here again, on behalf of the people of Louisiana, and the whole gulf coast, who have just been devastated by the two most powerful storms to ever hit the United States in recorded

history, and as you yourself know, because you were down in the gulf and have been a frequent champion for our cause. It is still hard, though, to describe to our colleagues the current situation there. Not only were these two hurricanes quite powerful, at some point category 4 and 5, which are killer storms, but just as devastating was the flooding that ensued by the collapse of the Federal levee system—a collapse because of inadequate engineering. Both the hurricanes and the flooding have literally devastated a major metropolitan area which sits in the heart of America's only energy coast, the gulf coast, and has been devastating to large and small businesses alike. We are here today to talk about our small businesses and their struggle for survival. They are indeed the backbone of our economic recovery.

We have first focused on levees, appropriately, and gulf coast restoration efforts, without which no recovery will be possible. We have also tried to struggle keeping children in school, keeping families sheltered, literally from the elements in temporary housing, when we think 7 months on after Katrina and Rita, recovery is going to start with our small businesses.

As I mentioned, yesterday marked the seven month anniversary of Hurricane Katrina. Katrina was the most destructive hurricane ever to hit the United States. The next month, in September, Hurricane Rita hit the Louisiana and Texas coast. It was the second most powerful hurricane ever to hit the United States, wreaking havoc on the southwestern part of my state and the east Texas coast. This one-two punch devastated Louisiana lives, communities and jobs, stretching from Cameron Parish in the west to Plaquemines Parish in the east.

We are now rebuilding our State and the wide variety of communities that were devastated by Rita and Katrina, areas representing a diverse mix of population, income and cultures. We hope to restore the region's uniqueness and its greatness. To do that, we need to rebuild our local economies for now and far into the future.

Before last year's storms, Louisiana had 86,000 small businesses, employing over 850,000 people. Their annual payroll was \$21.9 billion.

My State estimates that there were 71,000 businesses in the Katrina and Rita disaster zones. A total of 18,752 of these businesses catastrophically destroyed. However, on a wider scale, according to the U.S. Chamber of Commerce, over 125,000 small and medium-sized businesses in the gulf region were disrupted by Katrina and Rita. As of this month, local chambers of commerce report that as many as two-thirds of their members had not resumed business operations. We will never succeed without these small businesses. They will be the key to the

revitalization. I am here with my colleague to say that the regular approach, the standard operation, the mousetrap that we created to handle past disasters is simply not sufficient.

Some of the people who work for the Small Business Administration and FEMA are terrific. You could not find better human beings on the face of the Earth. But it is not the individual human beings who are lacking here; it is the system that is insufficient and inadequate to the task.

Senator KERRY and I come to the floor today to speak about this bill that will create new models, create enhanced help from the Federal Government so that the businesses in Louisiana can at least be met halfway in their struggle to get their roofs back on, their inventories back in supply, and new markets opened up, since the markets around them have collapsed. The communities they served and hold to are in some cases destroyed, in others dispersed across the country. If we don't help them now, building a strong gulf coast will be all the more difficult without our small businesses.

After talking to the business leaders and small businesses in my State, there are three things that they need right now: technical assistance, contracting assistance, and assistance with SBA disaster loans. For example, many of our small businesses need help navigating the SBA assistance programs or, with much of their customer base in other States, others are now looking overseas for new markets. Our bill includes a provision to waive the \$100,000 cap on portability grants to SBDCs and allows SBDCs to receive these grants for disaster relief. Our bill also contains funds for the SBA to create a gulf coast international finance specialist, based in the gulf, who would provide essential technical assistance for small businesses looking for export financing.

It is vital to the economic recovery in Louisiana that our small businesses are given the opportunity to take part in the reconstruction of their State. Our businesses want to help rebuild their communities, but continue to have trouble getting Federal recovery contracts and keep getting mixed signals from FEMA.

With these facts in mind, our bill sets a small business prime contracting goal of 30 percent for Federal emergency contracts to rebuild the affected areas. This is to ensure that small businesses, particularly those located in the disaster area and that employ individuals in the affected areas, should receive a fair share of Federal contracting dollars. Our bill also makes the disaster areas eligible for HUBZones status to promote business growth.

Our businesses are struggling to deal with the SBA bureaucracy. Too often,
