

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 530—DESIGNATING THE WEEK BEGINNING OCTOBER 5, 2008, AS “NATIONAL SUDDEN CARDIAC ARREST AWARENESS WEEK”

Mr. DORGAN (for himself and Mr. CRAPO) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 530

Whereas sudden cardiac arrest is a leading cause of death in the United States;

Whereas sudden cardiac takes the lives of more than 250,000 people in the United States each year, according to the Heart Rhythm Society;

Whereas anyone can experience sudden cardiac arrest, including infants, high school athletes, and people in their 30s and 40s who have no sign of heart disease;

Whereas sudden cardiac arrest is extremely deadly, with the National Heart, Lung, and Blood Institute giving it a mortality rate of approximately 95 percent;

Whereas, to have a chance of surviving an attack, the American Heart Association states that victims of sudden cardiac arrest must receive a lifesaving defibrillation within the first 4 to 6 minutes of an attack;

Whereas, for every minute that passes without a shock from an automated external defibrillator, the chance of survival decreases by approximately 10 percent;

Whereas lifesaving treatments for sudden cardiac arrest are effective if they can be administered in time;

Whereas, according to joint research by the American College of Cardiology and the American Heart Association, implantable cardioverter defibrillators are 98 percent effective at protecting those at risk for sudden cardiac arrest;

Whereas, according to the American Heart Association, cardiopulmonary resuscitation and early defibrillation with an automated external defibrillator more than double a victim's chances of survival;

Whereas the Yale-New Haven Hospital and the New England Journal of Medicine state that women and African Americans are at a higher risk than the general population of dying as a result of sudden cardiac arrest, yet this fact is not well known to those at risk;

Whereas there is a need for comprehensive educational efforts designed to increase awareness of sudden cardiac arrest and related therapies among medical professionals and the greater public in order to promote early detection and proper treatment of this disease and to improve quality of life; and

Whereas early October is an appropriate time to observe National Sudden Cardiac Awareness Week: Now, therefore, be it Resolved, That the Senate—

(1) designates the week beginning October 5, 2008, as “National Sudden Cardiac Arrest Awareness Week”;

(2) supports—

(A) the goals and ideals of National Sudden Cardiac Arrest Awareness Week; and

(B) efforts to educate people about sudden cardiac arrest and to raise awareness about the risk of sudden cardiac arrest, identifying warning signs, and the need to seek medical attention in a timely manner;

(3) acknowledges the critical importance of sudden cardiac arrest awareness to improving national cardiovascular health; and

(4) calls upon the people of the United States to observe this week with appropriate programs and activities.

SENATE RESOLUTION 531—SUPPORTING THE GOALS AND IDEALS OF A NATIONAL CHILD CARE WORTHY WAGE DAY

Mr. MENENDEZ (for himself, Mr. KENNEDY, Mr. FEINGOLD, Mrs. BOXER, Mr. LEVIN, Mr. DURBIN, Mr. INOUE, Mr. SANDERS, Mr. DODD, Mr. CASEY, Mr. LAUTENBERG, Mr. AKAKA, and Mr. JOHNSON) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 531

Whereas approximately 63 percent of the Nation's children under age 5 are in non-parental care during part or all of the day while their parents work;

Whereas the early care and education industry employs more than 2,300,000 workers;

Whereas the average salary of early care and education workers is \$18,820 per year, and only ⅓ of these workers have health insurance and even fewer have a pension plan;

Whereas the quality of early care and education programs is directly linked to the quality of early childhood educators;

Whereas the turnover rate of early childhood program staff is roughly 30 percent per year, and low wages and lack of benefits, among other factors, make it difficult to retain high quality educators who have the consistent, caring relationships with young children that are important to the children's development;

Whereas the compensation of early childhood program staff should be commensurate with the importance of the job of helping the young children of the Nation develop their social, emotional, physical, and cognitive skills and helping them to be ready for school;

Whereas providing adequate compensation to early childhood program staff should be a priority, and resources can be allocated to improve the compensation of early childhood educators to ensure that quality care and education are accessible for all families;

Whereas additional training and education for the early care and education workforce is critical to ensuring high-quality early learning environments;

Whereas child care workers should receive compensation commensurate with their training and experience; and

Whereas the Center for the Child Care Workforce, a project of the American Federation of Teachers Educational Foundation, with support from the National Association for the Education of Young Children and other early childhood organizations, recognizes May 1 as National Child Care Worthy Wage Day: Now, therefore, be it

Resolved, That the Senate—

(1) designates May 1, 2008, as National Child Care Worthy Wage Day; and

(2) calls on the people of the United States to observe National Child Care Worthy Wage Day by honoring early childhood care and education staff and programs in their communities.

SENATE RESOLUTION 532—RECOMMENDING THAT THE LANGSTON GOLF COURSE, LOCATED IN NORTHEAST WASHINGTON, DC, AND OWNED BY THE NATIONAL PARK SERVICE, BE RECOGNIZED FOR ITS IMPORTANT LEGACY AND CONTRIBUTIONS TO AFRICAN-AMERICAN GOLF HISTORY, AND FOR OTHER PURPOSES

Mr. FEINGOLD submitted the following resolution; which was referred to the Committee on Energy and Natural Resources:

S. RES. 532

Whereas the Langston Golf Course was designated for construction by the Department of the Interior in the 1930s as a safe and expanded recreational facility for the local and national African-American communities;

Whereas Langston Golf Course was named for John Mercer Langston, the first African-American Representative elected to Congress from the State of Virginia, and who also was a founder of the Howard University Law School;

Whereas the Langston Golf Course is believed to be the first regulation course in the United States to be built almost entirely on a refuse landfill;

Whereas Langston Golf Course has been placed on the National Register of Historic Places, and the Capitol City Open golf tournament has made Langston Golf Course its home for the past 40 years;

Whereas the first American-born golf professional of African-American ancestry was John Shippen, who was born circa 1878 in the Anacostia area of Washington, placed 5th in the second United States Open golf tournament in 1896 at 16 years old, and helped found the Capitol City Golf Club in 1925;

Whereas the Capitol City Golf Club, eventually renamed the Royal Golf Club and Wake Robin Women's Club, has historically promoted a safe golf facility for African-Americans in Washington, especially during an era when few facilities were available, and these 2 clubs remain the oldest African American golf clubs in the United States;

Whereas the Langston facility continues to provide important recreational outlets, instructional forums, and a “safe haven center” for the enhancement of the lives of the city of Washington's inner city youth;

Whereas the Langston Golf Course and related recreational facilities provide a home for the Nation's important minority youth “First Tee” golf instruction and recreational program in Washington;

Whereas Langston Golf Course's operations and its related facilities seek to increase course-based educational opportunities under the auspices of the National Park Service for persons under 18 years of age, particularly those from populations of the inner-city and historically under-represented among visitors to units of the National Park System;

Whereas the preservation and ecologically balanced enhancements via future public and private funding for the lands making up the 212 acres of the Langston Golf Course will contribute a positive benefit to the National Park System's Environmental Leadership projects program, the Anacostia River Watershed, the city of Washington, and the entire metropolitan area;

Whereas Federal funds for enhancements to the Langston course have perennially been promised but rarely provided, even after the designation of Langston Golf
