

attend public school in the U.S. Virgin Islands. Others of his decisions set legal precedents which are referred to in cases up to this day.

I am justifiably proud of my father, but so are the people of the Virgin Islands, and judges, and attorneys who came in contact with him throughout his long career. For the rest of the United States, he is an unsung hero. So I'm proud to have had this opportunity to present this very brief and very incomplete synopsis of his life here this evening.

With that, I yield back the balance of my time

Ms. FUDGE. Mr. Speaker, I will close with this last unsung hero, Dr. Julian Earls.

He has been referred to as a Renaissance Man, holding eight university degrees. He earned a bachelor's degree in physics from Norfolk State University in Norfolk, Virginia; a Master's degree in radiation biology from the University of Rochester School of Medicine and Dentistry in Rochester, New York; and a Doctorate degree in radiation physics from the University of Michigan in Ann Arbor, Michigan. He completed the equivalent of the Master's degree in environmental health at the University of Michigan and is a graduate of the Program for Management Development at Harvard Business School.

He was awarded the honorary Doctor of Science degree by the Vaughn College of Aeronautics in New York, the honorary Doctor of Pedagogy degree by Nova Southeastern University in Florida, the honorary Doctor of Humane Letters degree by North Carolina A&T State University, Norfolk State University, and Wilberforce University in Ohio.

In January 2006, Dr. Earls retired as Director of the National Aeronautics and Space Administration's Glenn Research Center at Lewis Field in Cleveland, Ohio, after a career spanning more than 40 years. As director of NASA Glenn from 2003 to 2005, he managed a budget in excess of 600 hundred million and a workforce of over 3,000 employees.

He was responsible for planning, organizing, and directing the activities required to accomplish the center's mission which included research, technology, and systems development programs in aeronautical propulsion, space propulsion, space power, space communications, and microgravity sciences in combustion and fluid physics.

He is the author of 30 publications and has been a distinguished Honors Visiting Professor at numerous universities.

As a NASA executive, he has received medals for outstanding leadership, exceptional achievement, and distinguished service. He received the Meritorious Executive Presidential Rank

Award from President William J. Clinton in 1999 and from President George Bush in 2004.

Dr. Earls has received many humanitarian awards and founded an organization that provides college scholarships for black students. As a mentor, he has guided many students through college and the professions. Recognized internationally for his oratorical skills, Dr. Earls is a Jennings Foundation Distinguished Scholar Lecturer.

In addition to his many scholarly and work-related accomplishments, Dr. Earls is an athlete. He has completed 25 marathons, including the Boston Marathon, and was honored to carry the Olympic torch on its route through Cleveland for the 2002 Olympic Games in Salt Lake City, Utah. He is a member of Tau Boule and holds life memberships in Kappa Alpha Psi Fraternity and the NAACP.

Mr. Speaker, I thank you. I thank my colleagues, and again, I thank this Nation for recognizing that black history is indeed American history.

Following is an explanation of the Omnibus Appropriations Act, 2009, including disclosure of congressional earmarks and congressionally directed spending items as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate.

Section 4 of the Act specifies that this explanatory statement shall have the same effect with respect to the allocation of funds and implementation of this legislation as if

it were a joint explanatory statement of a committee of conference.

The Omnibus Appropriations Act includes fiscal year 2009 appropriations encompassing 9 regular annual appropriations bills, each in a separate division, plus a 10th division including further provisions relating to the Department of Homeland Security and other agencies. The divisions contained in the Act are as follows:

- Division A—Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2009;
- Division B—Commerce, Justice, Science, and Related Agencies Appropriations Act, 2009;
- Division C—Energy and Water Development and Related Agencies Appropriations Act, 2009;
- Division D—Financial Services and General Government Appropriations Act, 2009;
- Division E—Department of the Interior, Environment, and Related Agencies Appropriations Act, 2009;
- Division F—Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2009;

Section 3 states that, unless expressly provided otherwise, any reference to “this Act” contained in any division shall be treated as referring only to the provisions of that division.

#### DIVISION A

##### TITLE I—AGRICULTURAL PROGRAMS PRODUCTION, PROCESSING, AND MARKETING OFFICE OF THE SECRETARY

The bill provides \$5,174,000 for the Office of the Secretary.

The Department is directed to provide within 60 days after the date of enactment of this Act all reports and studies requested in this statement to the Committees on Appropriations of the House of Representatives and the Senate (hereafter referred to as “the Committees”) in both an electronic and hard copy format, unless another date is specified for a particular report.

The Food, Conservation, and Energy Act of 2008 (hereafter referred to as “the 2008 farm bill”) authorized many new programs, provided mandatory funding for a select number of them, and reauthorized existing programs throughout the Department of Agriculture. The Department is directed to submit a report detailing the Department’s implementation plan for the 2008 farm bill. The report should include timeframes for developing new regulations and estimated dates the Department expects to finalize the regulations and implement the new or revised programs. The Department is also directed to provide to the Committees all reports requested in the 2008 farm bill.

There is concern that agencies are being required, after appropriations have been enacted for other purposes, to support E-Gov and PART studies. This diminishes, delays, or eliminates the implementation of the activities for which funds were provided. Thirty days prior to any centrally determined charges being applied to any USDA agency

that are different from those amounts displayed in the budget justification materials, the Department must submit to the Committees a detailed explanation of the amounts assessed and the method for determining those amounts.

There continues to be strong support in Congress for programs that provide emergency food assistance throughout the world and that work to achieve sustainable food security. Among those programs is the Borlaug Dialogue (and its associated functions), which provides a forum for world leadership related to international food assistance. The Secretary is encouraged to support this activity and to ensure that the Department maintains a strong role in the fight against world hunger.

This study will consider government policies to support local food markets and reduce barriers to growth of that sector. ERS is encouraged to work in collaboration with the Agricultural Marketing Service, Rural Business-Cooperative Service, Food and Nutrition Service, and other appropriate federal agencies. ERS is also encouraged to study federal, state and local food program procurement issues as they relate to market development for small and mid-scale farms within local and regional food systems.

#### AGRICULTURAL RESEARCH SERVICE

##### SALARIES AND EXPENSES

The bill provides \$1,140,406,000 for the Agricultural Research Service (ARS), Salaries and Expenses.

The rapid spread of the wheat stem rust known as Ug99, from East Africa to the Arabian Peninsula and most recently to the

Middle East, is of great concern. Ug99 is a very virulent strain of stem rust and could threaten 80 percent of the world's wheat supply if resistant varieties of wheat are not developed. The bill provides an increase of \$1,500,000 for work to develop Ug99 resistant wheat varieties.

The Committees are concerned by the growing problem of viral hemorrhagic septicemia (VHS). The bill provides an increase of \$1,000,000 for monitoring, diagnosis, epidemiology, treatment and prevention of VHS. ARS is encouraged to work with research institutions in the Great Lakes region to ascertain the extent to which VHS is present in U.S. waters, develop an effective vaccine, and establish the genetic basis for resistance to VHS in fish.

The bill provides increases of \$254,000 each for Human Nutrition Research, Boston, MA; Chronic diseases of children, Houston, TX; West Tennessee Mississippi River Cropping Systems Unit, Jackson, TN; ARS Southwest Watershed Research Center, Tucson, AZ; and the Northwest Center for Small Fruits, Corvallis, OR.

The bill provides an increase of \$1,350,000 for research on food allergies and an increase of \$800,000 for research on colony collapse disorder, to be spent as the agency determines appropriate.

The ARS Cotton Quality Research Unit in Clemson, South Carolina, is expected to identify opportunities for increased collaboration with the University of Georgia Tifton

MicroGin that would enhance the integration of research on fiber quality from harvest to gin to textile mill and ARS is requested to report to the Committees on its findings and needs assessments.

None of the funds appropriated to ARS for the Advanced Animal Vaccine Project at the Plum Island Animal Disease Center may be directed for any other use by the Department of Homeland Security.

The fiscal year 2009 budget request proposed to relocate the Arthropod-Borne Animal Diseases Research Laboratory (ABADRL) from its current location in Laramie, Wyoming. Before deciding whether it is appropriate to relocate the lab, ARS is directed to provide a report to the Committees describing the current status of the laboratory's facilities and research. Additionally, the agency shall assess no fewer than two locations that could serve as the new location of ABADRL. When selecting the locations to assess, ARS should consider the facilities, capacity, expertise, and synergies relevant to fulfilling and expediting the ABADRL mission that are offered by each potential location. The report should include a comparative cost analysis.

Funds made available for the Center for Agroforestry should be used to continue research into all five temperate-zone agroforestry practices applicable in Midwestern states.

The National Animal Disease Center (NADC) is an important component in the

nation's animal disease research infrastructure, but it is in need of office, laboratory, and information technology equipment and designated animal space. The Department is encouraged to begin providing these items out of the funds made available in this bill. If they are not, a request for the remaining funds should be submitted by the Department for fiscal year 2010.

ARS is directed to submit a report to the Committees by May 1, 2009, that analyzes the feasibility, requirements, and cost for conducting water quality and quantity research at Arkansas State University.

The need to investigate diet-related health problems, including obesity and its associated illnesses, is recognized. With the continued support in this bill for the Grand Forks Human Nutrition Research Center, the Center is directed to continue development of programs to address obesity and diet-related health issues in rural and Native American communities, the study of minerals and other nutrients in widely consumed foods contributing to healthy diets, and the role of nutrition in the prevention of chronic diseases.

The Metabolic Diet Unit at the Human Nutrition Research Center on Aging at Tufts University is in need of upgrades and ARS is encouraged to initiate such improvements from within available funds.

Investments in areas that develop job opportunities and expand the technological skills base of rural residents are valuable for spurring economic growth and competitive-

ness. The Rural Technologies program helps provide such skills and USDA is encouraged to support other initiatives, such as the Women In Technology program, to meet these and other rural development objectives.

Funds provided for APHIS in this bill accept all transfers of funds proposed in the budget request. These transfers include the following: \$4,634,000 from "Foreign Animal Disease/FMD" and \$10,936,000 from "Trade Issues Resolution and Management" into "Overseas Technical and Trade Operations"; \$1,481,000 from "Trade Issues Resolution and Management" into "Import/Export"; \$51,047,000 from "Highly Pathogenic Avian Influenza" and \$15,610,000 from "Low Pathogenic Avian Influenza" into "Avian Influenza"; \$1,938,000 from "Biosecurity" and \$1,977,000 from "Biosurveillance" into "Emergency Management Systems"; and \$3,722,000 from "Emergency Management Systems" into "National Veterinary Stockpile".

APHIS is drafting a final rule that would allow the agency to approve, after pest risk analysis, certain new fruits and vegetables for interstate movement, subject to meeting one or any combination of five specific designated measures. APHIS is encouraged to consider allowing shipment of untreated fruits and vegetables grown in Hawaii to cold-weather states during winter months if Hawaii has specific measures in place to meet the standards set in the final rule and can reasonably ensure that potential transshipment of such produce will not jeopardize the phytosanitary standards of warm weather states.

The bill includes \$9,907,000 for Cattle Fever Ticks, including an increase of \$2,074,000 to initiate the five-year strategic plan to assist in moving the Cattle Fever Tick quarantine zone south of the U.S. border.

The bill includes \$62,320,000 for Fruit Fly Exclusion and Detection, including an increase of \$1,000,000 to enhance the Guatemala-Mexico Medfly barrier.

The bill includes \$129,180,000 for Animal Health Monitoring and Surveillance, including \$14,500,000, an increase of \$4,713,000, for the National Animal Identification System (NAIS). Given this investment, coupled with the almost \$128,000,000 that Congress has already provided for NAIS, APHIS is expected to make demonstrable progress with effectively implementing the animal identification system. Accordingly, APHIS is directed to meet the following species traceability objectives that are derived from the agency's final 2008 animal disease traceability business plan:

—Cattle: By March 1, 2009, identify 30 percent of the nation's cattle population to premises of origin within 48 hours of a disease event.

—Goats: By October 1, 2009, identify 90 percent of goat breeding herds to their birth premises within 48 hours of a disease event.

—Poultry: By July 1, 2009, achieve 98 percent traceability in the commercial poultry industry through the identification of commercial production units in the required radius within 48 hours of a disease event.

—Sheep: By October 1, 2009, identify 90 percent of sheep breeding flock to their birth premises within 48 hours of a disease event.

—Swine: By February 1, 2009, achieve 80 percent traceability in the commercial swine

industries through the identification of commercial production units in the required radius within 48 hours of a disease event.

In addition, APHIS is directed to meet the following program administration milestones that are similarly derived from the final 2008 animal disease traceability business plan:

—By February 1, 2009: Publish proposed rulemaking to consider establishing the seven-character PIN as the national location identifier standard and establish the "840" Animal Identification Number as the single version for the numbering system.

—By February 1, 2009: Incorporate the NAIS-compliant premises identification number format into existing Federal disease program activities.

—By May 1, 2009: Publish proposed rulemaking to consider using a premises identification number, in the NAIS-compliant format, for import/export facilities, the destination of imported livestock and the location of exported animals prior to the assembly.

There is concern that APHIS removed a key outcome milestone from its final animal disease traceability business plan that assessed the agency's progress on integrating tracking databases maintained by States and private organizations. APHIS is directed to submit a report to the Committees that explains why the agency dropped this important milestone from its final business plan. APHIS is further directed to provide an update on its current progress with fully integrating the Animal Trace Processing System with non-Federal tracking databases.

APHIS is directed to submit a report to the Committees within one week after each of the milestone dates outlining the status of each species traceability objective and program administration milestone and the reason the deadline was not met.

The bill includes \$13,694,000 for Animal and Plant Health Regulatory Enforcement, including an increase of \$1,111,000 to hire and train seven new investigators to address increased violations at major ports of entry referred by U.S. Customs and Border Protection.

The bill includes \$4,528,000 for viral hemorrhagic septicemia (VHS) control in Great Lakes States. APHIS is strongly encouraged to prioritize limited VHS resources, including research, to regions where the agency has confirmed cases.

The bill includes \$133,677,000 for Emerging Plant Pests. Included in this amount is \$35,389,000 for citrus health; \$19,918,000 for Asian long-horned beetle; \$22,948,000 for glassy-winged sharpshooter; \$5,305,000 for sudden oak death; \$2,136,000 for Karnal bunt; \$34,625,000 for emerald ash borer; \$8,294,000 for potato cyst nematode; \$1,001,000 for light brown apple moth; \$1,500,000 for Sirex woodwasp; \$2,092,000 for miscellaneous pests; and \$469,000 for varroa mite suppression.

APHIS is directed to work with the City of Chicago to manage the infestation of emerald ash borer and provide appropriate resources.

APHIS is encouraged to use the funding provided for sudden oak death to address im-

mediate needs in the recognized containment and control areas, to promote the research, development, and testing of new systems of nursery pest and disease management, and for programs of inspection and regulation.

This bill includes \$1,001,000 for the light brown apple moth (LBAM) program. In fiscal years 2007 and 2008, approximately \$90,000,000 in Commodity Credit Corporation (CCC) funds and \$993,000 in appropriated funds had been made available for LBAM. Of this amount, \$43,800,000 in CCC funding, as well as the \$993,000 in appropriated funding, remain available in fiscal year 2009 to continue APHIS's efforts. The Secretary is encouraged to utilize all funds necessary from CCC to carry out the recommendation of the USDA science advisory panel to eradicate LBAM in California.

The bill includes \$5,552,000 for the grasshopper program. APHIS may use funds provided for Mormon cricket activities in Utah for eradication and control of black grass bug in Utah.

A portion of the funding provided for the oral rabies vaccination funding should be made available for activities in the Appalachian region.

Due to a new occurrence of bovine tuberculosis in New Mexico, the Secretary is encouraged to use authorities and resources of the Department to provide testing, monitoring, surveillance, and other services as needed toward the control and eradication of this disease, and for the prompt restoration of split-state status for New Mexico.

APHIS is expected to make the fiscal year 2009 funding for beaver control in Mississippi available to all counties in the state.

Sericea lespedeza is an important field crop in the southeastern United States. Sericea lespedeza also poses environmental challenges to ecosystems in tall grass prairie lands in the Great Plains region. APHIS is encouraged to collaborate with conservation programs in the Great Plains region where sericea lespedeza is an invasive species to find economically and ecologically appropriate approaches.

The bill includes \$12,877,000 for Biotechnology Regulatory Services, including an increase of \$1,000,000 for the Biotechnology Quality Management System.

APHIS is currently evaluating a theobromine and caffeine mixture as a possible tool for predation management. APHIS is encouraged to continue evaluating this method, conduct field studies, and take the appropriate steps to register these compounds with the Environmental Protection Agency.

The bill includes \$5,725,000 for Physical/Operational Security, including an increase of \$1,564,000 to increase security at critical facilities.

BUILDINGS AND FACILITIES

The bill provides \$4,712,000 for Animal and Plant Health Inspection Service, Buildings and Facilities.

AGRICULTURAL MARKETING SERVICE

MARKETING SERVICES

The bill provides \$86,711,000 for the Agricultural Marketing Service (AMS), Marketing Services.

The bill provides an increase of \$9,600,000 to the agency's Marketing Services program in order to implement and enforce labeling requirements for all covered commodities under the country of origin labeling (COOL) law.

After the release of the interim final rule for COOL in September 2008, concerns were raised about USDA's interpretation of congressional intent regarding the labeling of packaged meat of domestic and foreign origin. As USDA publishes a final rule and begins enforcement in April 2009, the Department is directed to effectively enforce the food labeling law.

The bill includes \$3,867,000 for the National Organic Program. USDA is implementing draft revisions to the National Organic Program resulting from the American National Standards Institute 2004 audit and USDA Office of Inspector General 2005 audit. AMS is directed to report to the Committees on the status of these revisions. It is appreciated that the Department has moved forward with the long-overdue proposed rule on access to pasture, and the Department is strongly encouraged to thoroughly review public comments on the subject.

The bill provides \$4,766,000 to continue the Microbiological Data Program (MDP). In its 2009 budget request, the Administration criticized MDP for not providing epidemiologically valuable data to support risk assessments because the survey was "blinded" and did not collect necessary information. However, AMS's January 2008 report to the Committees stated that if the program could begin collecting specific information to trace the origin of samples, the resulting survey data would be more useful to the Food and Drug Administration and the Centers for Disease Control and Prevention. The agency's letter also noted that recent food borne illness outbreaks demonstrate that a lack of information undermines consumer confidence and causes considerable economic impact to the agricultural industry. In order to provide more valuable information and improve the program's public health effectiveness, AMS is directed to begin collecting origin of sample data.

AMS is encouraged to provide appropriate technical and financial assistance to the Windy City Harvest Initiative and to the Iowa Buy Fresh/Buy Local Program.

LIMITATION ON ADMINISTRATIVE EXPENSES

The bill includes a limitation of \$62,888,000 for Limitation on Administrative Expenses.

FUNDS FOR STRENGTHENING MARKETS, INCOME, AND SUPPLY (SECTION 32)

(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$17,270,000 for Funds for Strengthening Markets, Income, and Supply.

In addition, the bill provides \$10,000,000 for the Web-based Supply Chain Management system.

PAYMENTS TO STATES AND POSSESSIONS

The bill provides \$1,334,000 for Payments to States and Possessions.

GRAIN INSPECTION, PACKERS AND STOCKYARDS ADMINISTRATION

SALARIES AND EXPENSES

The bill provides \$40,342,000 for the Grain Inspection, Packers and Stockyards Administration (GIPSA), Salaries and Expenses.

The bill provides an increase of \$1,160,000 for the Packers and Stockyards program to support GIPSA's reorganization effort and to strengthen the agency's enforcement activities. GIPSA is directed to use the additional resources to enhance its compliance reviews and investigations capabilities, as well as to support an increase in the agency's auditing of the largest meat packers.

GIPSA must submit a report that provides details for the how the agency will deploy its resources for Packers and Stockyards Act enforcement. The report should include a description of the goals for addressing violations of the Act and packer audits, as well as key measures that the agency will use to track whether the additional funding is providing a measurable improvement in performance.

LIMITATION ON INSPECTION AND WEIGHING SERVICES EXPENSES

The bill includes a limitation of \$42,463,000 for Limitation on Inspection and Weighing Services Expenses.

OFFICE OF THE UNDER SECRETARY FOR FOOD SAFETY

The bill provides \$613,000 for the Office of the Under Secretary for Food Safety.

FOOD SAFETY AND INSPECTION SERVICE

The bill provides \$971,566,000 for the Food Safety and Inspection Service (FSIS).

The bill provides the full increase requested in the budget and the full estimated costs for fiscal year 2009 for implementation of the new interstate shipment and catfish inspection provisions in sections 11015 and 11016, respectively, of the 2008 farm bill. In addition, the bill provides an increase of \$2,000,000 for strengthened enforcement of the Humane Methods of Slaughter Act.

The Department is commended for the announcement that it intends to move forward with closing the loophole in the current rule governing non-ambulatory cattle and is strongly urged to expedite the rules process and close this loophole immediately.

The Department is currently reviewing several proposals to increase maximum line speeds at chicken slaughter facilities. FSIS is directed to make any analysis conducted by the agency on increasing maximum line speeds, and the effects such changes might have on food and employee safety, available to the Committees within 30 days.

There remain very serious concerns about contaminated foods from China and therefore the bill retains language prohibiting FSIS from using funds to move forward with rules that would allow for the importation of poultry products from China into the U.S. It is noted that China has enacted revisions to its food safety laws. USDA is urged to submit a report to the Committees on the implications of those changes on the safety of imported poultry products from China within one year. The Department is also directed to submit a plan of action to the Committees to guarantee the safety of poultry products from China. Such plan should include the systematic audit of inspection systems, and audits of all poultry and slaughter facilities that China would certify to export to the U.S. The plan also should include the systematic audit of laboratories and other control operations, expanded port-of-entry inspection, and creation of an information

sharing program with other major countries importing poultry products from China that have conducted audits and plant inspections among other actions. This plan should be made public on the Food Safety and Inspection Service web site upon its completion.

TITLE II

CONSERVATION PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR  
NATURAL RESOURCES AND ENVIRONMENT

The bill provides \$758,000 for the Office of the Under Secretary for Natural Resources and Environment.

NATURAL RESOURCES CONSERVATION SERVICE  
CONSERVATION OPERATIONS

The bill provides \$853,400,000 for Conservation Operations.

There is significant concern in the wake of the Natural Resources Conservation Service's (NRCS) first stand-alone financial audit. The November 2008 audit presented a

“disclaimer of opinion” on NRCS’s consolidated financial statements for fiscal year 2008, which means that NRCS was not able to provide the necessary information that the auditors needed to be able to express an opinion about the state of the agency’s accounts. In the spectrum of possible findings, a disclaimer of opinion is potentially the weakest outcome because an agency has been found to be unable to adequately account for its financial transactions and program activities. The auditors uncovered five material weaknesses and several other deficiencies in the agency’s financial management controls. This result, coupled with hundreds of millions of dollars in funds for contracts and conservation projects that the agency has had to cancel over the past two fiscal years, raises significant questions about not only NRCS’s financial management systems, but also its program management and delivery capabilities.

Because NRCS is responsible for disbursing billions of dollars on an annual basis, ensuring the financial integrity of the agency’s management systems is critical. The process of reviewing its books and accounting for various financial controls is valuable; NRCS may ultimately improve program delivery and performance as it rethinks how it manages its money.

Accordingly, NRCS must submit a report to the Committees that details how the agency is responding to the 2008 audit findings so that it does not receive a second disclaimer of opinion in its fiscal year 2009 audit. The report should detail a recovery plan, with milestones, for how NRCS will address all of the deficiencies identified in the 2008 audit. Finally, the report should detail a plan to improve its program delivery to ensure that all funds that Congress provides for conservation are used in a timely, accurate, and cost-effective manner.

Furthermore, the bill provides \$10,000,000 in Conservation Technical Assistance to strengthen the agency’s program and financial management capabilities. NRCS is expected to appropriately use these additional funds to enhance the agency’s budgeting, ac-

counting, contracting, and information technology systems, as well as program delivery oversight and accountability. NRCS must submit an expenditure plan to the Committees within 60 days of enactment of this Act for how the agency will use the additional funds with an explanation for how the expenditures will strengthen the agency’s performance.

The 2008 farm bill made substantive changes to the design and intended performance of the Conservation Stewardship Program (CSP). There is concern, however, that the redesigned program may place greater program delivery burdens on NRCS’s field staff and overlay additional complex requirements on top of other conservation priorities.

As NRCS prepares the design and delivery of the reauthorized program, the agency is directed to submit an assessment of the former program’s performance to the Committees. The report should describe progress made in estimating CSP’s environmental performance and detail the program’s environmental outcomes. The report should compare the cost effectiveness of CSP relative to other NRCS implemented programs, including Conservation Technical Assistance and other programs authorized by the farm bill. Finally, the report should detail how the new program that the Administration will implement will improve upon the cost efficiency and environmental performance of its predecessor.

It is understood that the President’s budget maintains the activities of the National Water Management Center in Little Rock, Arkansas, from within the funds provided in the Conservation Operations account.

Funding for fiscal year 2008 projects is not continued in fiscal year 2009 unless specifically mentioned in the following table. The following funds are directed to be used in cooperative agreements continued with the same cooperator entities as in the fiscal year 2008 agreements, except as noted.

FARM LABOR PROGRAM ACCOUNT

The bill provides \$18,269,000 for the Farm Labor Program Account.

The bill provides for an estimated loan program level of \$21,678,000; \$9,135,000 for loan subsidies; and \$9,134,000 for grants.

Section 516 (j) of the Housing Act of 1949 directs the Secretary to use up to 10 percent of the amounts available in any fiscal year to provide financial assistance to encourage the development of farm labor housing projects. USDA has used this authority only on an intermittent basis. For this reason, the Department is directed that 10 percent of section 516 grant funds be allocated by the Rural Housing Service for technical assistance for farm labor housing. The Department is directed to provide a report to the Committees detailing the amount made available for technical assistance in fiscal years 2008 and 2009.

Since the inception of the farm labor housing program, the Department has financed almost 36,000 units for over \$1,200,000,000. Yet, the Department has little information on the physical or financial status of the projects. An assessment of these units would provide information on the physical condition of projects, their financial status, occupancy issues and other management and compliance issues confronting management of developments financed under the farm labor housing program. The Government Accountability Office is directed to conduct an assessment of the properties financed under the farm labor housing program.

RURAL UTILITIES SERVICE

RURAL WATER AND WASTE DISPOSAL PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$556,268,000 for the Rural Water and Waste Disposal Program Account.

The 2008 farm bill mandates the procedure the Department will use to determine poverty and intermediate borrower interest rates for direct Water and Waste Disposal Facility loans. Borrowers in this program will be required to rely more heavily on debt and less on grants.

Under these provisions, there is a concern that needed program resources will not be delivered to the poorest, most remote communities currently served. The bill provides the same level of budget authority as in 2008 and the Secretary is expected to deliver at least the same total program level to communities with similar socio-economic and geographic characteristics as would have been served in 2008 absent this change. The Secretary shall provide a report to the Committees detailing how the Secretary plans to implement these directives. This report should include quantitative measures proposed to determine the socio-economic and geographic characteristics of communities served. The report should also identify benchmarks to evaluate if in fact communities of similar characteristics are being served. By November 1, 2009, the Secretary shall provide a comprehensive analysis and report to the Committees, utilizing these measures and benchmarks, to determine the results of this change in law. The Secretary is further directed to submit quarterly reports to the Committees on the distribution of funds between loans and grants, beginning one month after enactment of this Act.

With reference to water and waste disposal systems grants for Native Americans, including Native Alaskans and the Colonias, the Secretary is directed to provide a report to the Committees that identifies the specific areas in which water and waste disposal program resources have been provided, where additional resources are most needed, the 2009 distribution of resources, and the relative costs of program delivery to the various areas and regions covered by the authorities identified for use of these specific funds.

The Department is expected to continue to provide support for the National Drinking Water Clearinghouse through the water and waste technical assistance and training grant program.

RURAL ELECTRIFICATION AND TELECOMMUNICATIONS LOANS PROGRAM ACCOUNT  
(INCLUDING TRANSFER OF FUNDS)

The bill provides a total subsidy of \$525,000 for activities under the Rural Electrification and Telecommunications Loans Program Account.

The bill provides for an estimated loan program level of \$7,290,000,000.

The bill provides for a transfer of \$39,245,000 to the Rural Development Salaries and Expenses account.

The following table indicates loan and subsidy levels provided in the bill:

TITLE IV  
DOMESTIC FOOD PROGRAMS  
OFFICE OF THE UNDER SECRETARY FOR FOOD, NUTRITION AND CONSUMER SERVICES

The bill provides \$610,000 for the Office of the Under Secretary for Food, Nutrition and Consumer Services.

There continues to be concern about privatization of the Supplemental Nutrition Assistance Program in Indiana and the Secretary is directed to continue comprehensive oversight of this effort. The Secretary is further directed to continue providing the Committees with quarterly reports on this contract, including the effects on enrollment, program access, error rates, and spending on administrative expenses. The quarterly reports should also include the monthly Indiana Program Operations Data reports required by USDA as well as the Department's analysis of these reports. The Secretary is directed to delay further expansion of the project if the state's program does not meet basic program integrity and access standards or if performance standards as stated in the contract are not met.

Section 4307 of the 2008 farm bill requires the Secretary to carry out a nationally representative survey of the foods purchased during the most recent school year for which data is available by school authorities par-

ticipating in the school lunch program. The Secretary is directed to provide to the Committees additional information that studies the differences between foods purchased for the school lunch program by school food authorities that directly manage the school lunch program and those contracted out to food service management companies.

The Food and Nutrition Service (FNS) is directed to provide a report to the Committees evaluating the impact that nutrition education is having on preventing obesity and improving the likelihood that eligible low-income people will make healthy food choices within a limited budget. The report shall include which programs this nutrition education is funded through, how much was provided in fiscal years 2007 and 2008 for each program, and a description of all guidance materials and policy documents that were developed with this funding in fiscal years 2007 and 2008.

The Department is directed to provide the Committees with a report on federal activity related to metropolitan areas regarding links between the nutrition programs and small and local agricultural producers.

FOOD AND NUTRITION SERVICE

(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$14,951,911,000 for Child Nutrition Programs. Included in the total is an appropriated amount of \$8,496,109,000 and a transfer from section 32 of \$6,455,802,000.

The bill includes \$15,000,000 for TEAM Nutrition. Included in this amount is \$5,500,000 for food service training grants to States; \$3,000,000 for technical assistance materials; \$800,000 for National Food Service Management Institute cooperative agreements; \$1,000,000 for print and electronic food service resource systems; \$1,500,000 to assist USDA's Center for Nutrition Policy and Promotion in development and maintenance of MyPyramid and Dietary Guidelines materials in support of nutrition education for program participants and their families; and \$3,200,000 for other activities.

The bill provides the following for Child Nutrition programs:

SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS, AND CHILDREN (WIC)

The bill provides \$6,860,000,000 for the Special Supplemental Nutrition Program for Women, Infants and Children (WIC). The bill includes \$14,850,000 for continuation of the breastfeeding peer counselor program.

The amount provided in the bill takes into account several changes from the budget request.

First, both food cost and participation estimates have increased significantly since the budget request was submitted in February. USDA's Special Supplemental Nutrition Program for Women, Infants and Children December 2008 Report to Congress assumes WIC participation will be nearly 9.1 million per month, as opposed to 8.6 million assumed in the President's budget request. It further assumes that monthly food costs will be \$44.94, as opposed to \$43.55 included in the President's budget request. These new assumptions result in a budget shortfall of \$455,000,000, according to the December report.

Second, the bill again does not include a limitation on State nutrition services and administration (NSA) grants as proposed in the budget and assumed in the December report. The budget request included a reduction of \$150,000,000 associated with this limitation, although there is concern that the estimate is insufficient. Therefore, the bill provides \$180,000,000 to ensure NSA grants are fully funded. Reducing support for critical WIC services including nutrition education, obesity prevention, breastfeeding promotion and support, healthcare referrals, and immunization screening is not a wise or acceptable method of achieving budget savings.

Third, although the budget request states that the funding request for WIC includes \$150,000,000 to restore the contingency fund, this is a disingenuous statement. The budget request assumes the use of the entire contingency fund to maintain WIC participation. No funding is requested in the President's budget that would be available for unforeseen events, which is the purpose of a contingency fund. Therefore, the WIC funding level is currently estimated to be sufficient to meet program needs, and includes an additional \$125,000,000 to restore the contingency fund.

Food cost and participation estimates continue to change, and USDA is continuing to monitor estimates and provide monthly updates. This situation will be monitored and additional action will be taken as necessary to ensure that funding provided in fiscal year 2009 is sufficient to serve all eligible applicants.

The Department is directed to continue providing monthly reports to the Committees on the program performance and estimated funding requirements to fully fund the WIC program.

SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM

The bill provides \$53,969,246,000 for the supplemental nutrition assistance program. Included in this amount is a reserve of \$3,000,000,000, to remain available until September 30, 2010.

The bill includes \$48,843,897,000 for program expenses, \$1,760,435,000 for grants to Puerto Rico, \$114,914,000 for the Food Distribution Program on Indian Reservations, and \$250,000,000 for commodity purchase for the Emergency Food Assistance Program.

Included in the recommended level for other program costs are \$500,000 to increase assistance for USDA's Center for Nutrition Policy and Promotion in the development and maintenance of MyPyramid and Dietary Guidelines materials in support of nutrition education for the eligible population; an increase of \$3,000,000 for payment accuracy and cooperative services, retailer integrity and trafficking, and computer support; and an increase of \$500,000 for program evaluation and modernization.

Many low-income communities in urban centers, rural areas, and Tribal communities

have the highest rates of diet-related diseases, such as diabetes and obesity. These communities also have poor access to healthy, affordable, and fresh foods in retail grocery stores, which can limit the real healthy food choices available to their families and children. The Department is encouraged to lead an interagency review of factors contributing to a lack of access to healthy foods and recommend ways to address these issues through existing government programs as well as private sector solutions. The Department is directed to study the issue of food desserts in low-income communities and issue a report to the Committees no later than eighteen months from the date of enactment of this Act.

FNS is directed to provide a report to the Committees on the feasibility of installing electronic benefit transfer machines at all of the district or county farmers markets across the country.

The Secretary is encouraged to continue the purchase of bison from producer-owned and Native American owned cooperatives for the Food Distribution Program on Indian Reservations. Although funding is not provided specifically for bison purchase, historically these purchases have been important for the Native American population both economically and nutritionally.

COMMODITY ASSISTANCE PROGRAM

The bill provides \$230,800,000 for the Commodity Assistance Program.

Of that amount, the bill provides \$160,430,000 for the Commodity Supplemental Food Program. It is expected that with this funding level, 2008 participation will be maintained.

The bill provides \$49,500,000 for administrative funding for the Emergency Food Assistance Program (TEFAP). In addition, the bill grants the Secretary authority to transfer up to an additional 10 percent from TEFAP commodities for this purpose.

The bill provides \$19,800,000 for the Farmers' Market Nutrition Program and the Secretary is directed to obligate these funds within 45 days.

NUTRITION PROGRAMS ADMINISTRATION

The bill provides \$142,595,000 for Nutrition Programs Administration.

FNS awarded a contract to the National Academy of Sciences' Institute of Medicine (IOM) for review of National School Lunch Program and School Breakfast Program meal patterns in February 2008. In September 2008, the contract was modified to also include an examination of meal patterns in the Child and Adult Care Food Program (CACFP). A Phase I report outlining an approach to the analysis for school lunch and school breakfast was released in December 2008, and a set of recommendations for lunch and breakfast in a Phase II report is scheduled for publication in October 2009. The IOM Committee will then focus on meal patterns for the CACFP, with recommendations scheduled for publication in October 2010. FNS is directed to provide periodic updates as appropriate to the Committees.

FNS is directed to make all policy documents related to the WIC program (including, but not limited to, instructions, memoranda, guidance, and questions and answers) available to the public on the internet within one week of their release to state WIC administrators.

TITLE V

FOREIGN ASSISTANCE AND RELATED PROGRAMS

FOREIGN AGRICULTURAL SERVICE SALARIES AND EXPENSES (INCLUDING TRANSFERS OF FUNDS)

The bill provides \$165,436,000 for the Foreign Agricultural Service (FAS), Salaries and Expenses.

The OIG highlighted in its 2007 Management Challenges report that one of USDA's top challenges is to develop a "proactive, integrated strategy to assist agricultural producers to meet global trade challenges." In light of this major management hurdle, concerns exist about a number of OIG's recent findings regarding FAS's market development programs.

In 2007, OIG reviewed the extent to which FAS's market development programs help to expand trading opportunities for U.S. agricultural products. In addition, the Office of Management and Budget (OMB) also reviewed FAS's market development programs in 2005. The two offices expressed concern that the programs could not provide assurance that they were effective or served a clear need. The offices also stated that the programs subsidized entities that may not need government funding and that the programs may not even provide useful information to U.S. exporting companies.

The government's investments in market development and trade promotion activities should be cost effective and achieve measurable outcomes. Accordingly, FAS is directed to submit to the Committees a report that details how the agency has addressed OIG's recommendations and implemented management reforms; the results that newly instituted management reforms have had on program performance and accountability; and how FAS oversees the performance of grants and contracts funded through its market development programs, including the Market Access Program.

Funding is provided to continue the Cochran Fellows program at historical levels.

The bill provides \$1,000,000 for the Borlaug International Agricultural Science and Technology Fellows Program.

PUBLIC LAW 480 TITLE I AND TITLE II PROGRAM AND GRANT ACCOUNTS (INCLUDING TRANSFERS OF FUNDS)

The following table reflects the Public Law 480 program accounts:

PUBLIC LAW 480	
Title I—Salaries and expenses:	
Farm Service Agency (transfer to FSA) .....	\$2,736,000
Title II—Commodities for disposition abroad:	
Program level .....	(\$1,225,900,000)
Appropriation .....	1,225,900,000

The 2008 farm bill contained a provision mandating that a minimum level of Public Law 480 Title II resources be used for non-emergency assistance (\$375,000,000 in fiscal year 2009), thereby creating a "safe-box" for non-emergency funds. FAS is directed to immediately notify the Committees once a determination is made that the need for emergency assistance will exceed the amount available.

The Secretary, in consultation with the Administrator of the U.S. Agency for International Development, is directed to submit quarterly reports to the Committees on the status of the Bill Emerson Humanitarian Trust, as well as notify the Committees when the Trust has been drawn down.

COMMODITY CREDIT CORPORATION EXPORT  
LOANS PROGRAM ACCOUNT  
(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$5,333,000 for the Commodity Credit Corporation Export Loans Program Account.

MCGOVERN-DOLE INTERNATIONAL FOOD FOR  
EDUCATION AND CHILD NUTRITION PROGRAM  
GRANTS

The bill provides \$100,000,000 for the McGovern-Dole International Food for Education and Child Nutrition Program. This is in addition to \$84,000,000 that was included in the 2008 farm bill.

The bill provides a direct appropriation of \$2,038,964,000.

FDA is directed to provide all reports and studies requested in this statement to the Committees on Appropriations of the House of Representatives and the Senate (hereafter referred to as "the Committees") in both an electronic and hard copy format within 60 days after the enactment of this Act, unless another date is specified for a particular report.

The Food and Drug Administration has received significant increases in appropriated funds over the past several years. Specifically, the agency received an increase of \$145,093,000, or nine percent, in the fiscal year 2008 appropriations act. An additional \$150,000,000 in supplemental funding was provided to the agency during fiscal year 2008. This bill provides an increase of \$324,672,000, or 19 percent, above the fiscal year 2008 funding level.

It is expected that these substantial funding increases will lead to significant improvements in food and medical product safety. FDA should also build on these improvements by taking broader approaches to addressing safety issues. In the foods area, for example, FDA might focus on the identification of the most significant food safety

hazards, prioritized by risk and the ability to reduce such risks, and develop a plan with findings, resources and tools to address those specific risks. Further, FDA could do a compliance audit for a whole category of foods with significant safety issues, providing the agency with a much more complete understanding of their risks and what needs to be done to address them. This approach could have helped FDA in the investigation into the Salmonella outbreak during the summer of 2008, which originally focused on tomatoes before additional evidence suggested that peppers may have been the source of the contamination. This audit approach also could be taken in other product areas, especially with regard to foreign drug facilities.

To ensure that FDA efficiently applies this funding increase to its most pressing needs, FDA is directed to provide an expenditure report to the Committees no later than 15 days after the end of each fiscal year quarter following the date of enactment of this Act. This report shall include specific information for:

- The number of new hires and their estimated costs;
- The number of inspections and their estimated costs; and
- Information technology acquisition and development spending.

All cost estimates and spending in the quarterly reports must be shown on a center/field basis.

To provide a basis of comparison for the new activities in these reports, FDA is directed to include information on base funding, FTEs, inspections, and any other applicable base activity levels for each activity that has received increased funding. Finally, the reports must include up-to-date dollar obligation data for each enhanced activity.

The bill provides an increase of \$54,531,000 for cost of living adjustments instead of \$25,000,000 as requested in the budget. The amount provided reflects the full estimated cost associated with maintaining FDA's current staff levels in light of the hiring surge undertaken by the agency in fiscal year 2008. The bill provides an increase of \$3,739,000 for rental payments to the General Services Administration.

The bill includes an increase of \$141,526,000 for activities related to food safety. An increase of more than \$55,000,000 for food safety was provided in fiscal year 2008, and FDA received an additional \$72,000,000 in supplemental funds during fiscal year 2008 for food safety related activities. It is expected that this funding will result in increased safety measures for both domestic and imported food from production to consumption.

Specifically, these funding increases will, at a minimum, provide FDA with the capability to:

- Significantly increase the number of domestic and foreign, risk-based, food production and/or processing facility inspections (and other high-risk products), significantly increase the number of import food field exams, and achieve greater laboratory capacity to support increases in risk-based inspections and sampling of domestic and imported foods;
- Develop and deploy risk-based screening technologies that will allow FDA to target high-risk products at the border;
- Identify, develop and deploy new screening tools and methods to identify pathogens and other contaminants, including more rapid screening tools to be used by field investigators and analysts;
- Establish an early warning surveillance and notification system to identify adultera-

tion of the pet food supply and outbreaks of illnesses associated with pet food;

—Enhance FDA's national food emergency system, allowing FDA to develop a risk communication strategy that would result in more rapid responses and reductions in the risk of consumer contamination when food contamination occurs;

—Expand its presence in foreign countries. FDA recently opened its first foreign office in China. With this increase, FDA will be able to establish FDA offices in other foreign locations, as appropriate. These offices are intended to enhance the ability of FDA inspectors to enter foreign food facilities and to gain a greater understanding of manufacturing processes overseas, resulting in more rapid identification of and response to any potential food safety issues. The FDA also will be able to assess the ability of foreign government systems to manage food safety risks;

—Enhance FDA's traceability capabilities for more rapid and precise product tracking, which will allow FDA to contain contaminated product and to provide consumers more specific information when problems occur;

—Improve risk communications to the public during food-related events and make it easier to receive adverse events reports, including creating a reportable food registry;

—Identify additional data and information needed to increase understanding of food protection risk and vulnerabilities by improving the quality of foodborne illness attribution data; and

—Support partnerships with state and local partners through information technology, training and data sharing.

The bill provides an increase of \$1,000,000 for the Office of Cosmetics and Colors.

The bill provides an increase of \$114,211,000 for medical product safety. An increase of more than \$21,000,000 for medical product safety was provided in fiscal year 2008, and FDA received an additional \$58,000,000 in supplemental funds during fiscal year 2008 for medical product safety. As noted above, it is expected that this funding will result in safer drugs, devices, and biologic products for consumers. Similar to a recent approach FDA has taken to address overall food safety issues, FDA is directed to prepare and provide to the Committees on Appropriations a comprehensive approach to ensuring the safety of medical products from the manufacturing of raw ingredients or components to consumer use.

Specifically, these funding increases will, at a minimum, provide FDA with the capability to:

- Significantly increase foreign and domestic medical product facility inspections, improve laboratory infrastructure and rapid analysis tools, and conduct many more laboratory analyses and several thousand import exams and samples;
- Establish a unique device identification system to track devices, facilitate recalls, and support inventory management;
- Begin to implement the safety requirements outlined in the Food and Drug Administration Amendments Act;
- Upgrade the agency's information technology to enable data sharing and enhanced analysis of adverse events;
- Develop a regulated product information data warehouse that will enable information sharing with other regulatory agencies; and
- Integrate risk-based information into data systems that will support FDA's ability to improve electronic screening of imports and allow the agency to proactively identify

problems and risks associated with imported products.

The bill provides \$16,000,000 for the critical path initiative, including not less than \$4,000,000 for competitive contracts or grants to universities and non-profit organizations to support critical path projects. Funding for critical path activities is distributed throughout FDA's program areas, and the Office of Critical Path Programs (OCPP) is responsible for coordinating these activities at the agency. It is understood that OCPP, working with FDA's centers, will play a primary role in determining which critical path efforts the agency will undertake.

The bill provides an increase of \$6,620,000 for the Division of Drug Marketing, Advertising and Communication in CDER. The funding provided is to be used for the review of direct-to-consumer advertisements and is equal to the amount of funding that the budget estimated would have been raised by the fee in fiscal year 2009.

The bill provides \$2,000,000 for Demonstration Grants for Improving Pediatric Device Availability, as authorized by the Food and Drug Administration Amendments Act of 2007, in the Center for Devices and Radiological Health. Medical device products are typically developed for adults, limiting children's access to safe and effective medical devices. This program will provide grants to nonprofit pediatric medical device consortia, which will assist scientists and innovators with technical and financial resources to improve the number of medical devices available to children. The Office of Orphan Products Development will be responsible for carrying out this program.

The bill provides \$6,000,000 for the Office of Women's Health, an increase of \$1,000,000.

There is concern about the contamination of farm-raised shrimp imports with banned antibiotics. FDA currently inspects less than two percent of imported shrimp. FDA is strongly encouraged to develop, in cooperation with state testing programs, a program for increasing the inspection of imported shrimp for banned antibiotics.

FDA is encouraged to conduct workshops and engage in other forms of communication with federal agencies, organizations involved in blood collection and others, to ensure that those organizations and the public understand the latest scientific information available on blood safety issues.

There are poor survival rates and a lack of new therapies associated with many pediatric cancers, including high-risk neuroblastoma. FDA is encouraged to prioritize review of new treatments and clinical trials for pediatric oncology patients and provide a report on these activities.

The bill provides no less than the fiscal year 2008 level in appropriated funds for activities related to the Mammography Quality Standards Act (MQSA). Appropriations for this program fund research grants and various activities to develop and enforce quality standards for mammography service. On June 26, 2008, the Committees received a report on actions being taken to implement recommendations made in the Institute of Medicine report entitled "Breast Imaging Quality Standards." The report stated that FDA held an open public meeting on September 28 and 29, 2006, and has been considering potential amendments to MQSA, which would address the IOM report, since this meeting. To date, FDA has not acted on any of these recommendations. This is an unacceptable delay. FDA is directed to report to the Committees on which amendments that FDA will propose to MQSA, if any, in re-

sponse to the IOM report recommendations, and provide a timeline for these amendments.

The importance of seafood to a healthy diet is recognized, but there are concerns that FDA does not focus sufficient attention on economic integrity issues, particularly with respect to mislabeling of species, weights, country of origin, and treatment. FDA is encouraged to work with states to more aggressively combat fraud in parts of the seafood industry.

The Hawaii Department of Agriculture has proposed a state-wide standardized food safety certification system. FDA is encouraged to work with the State of Hawaii on this system and to provide funding if appropriate.

Serious concerns have been raised about illnesses and deaths from Methicillin Resistant Staphylococcus aureus (MRSA). Estimates suggest that tens of thousands of persons develop serious MRSA infections in the United States each year and thousands die. While both FDA and USDA fund research on this issue, more may need to be done. FDA is encouraged to work with USDA and CDC, through the National Antibiotic Resistance Monitoring System and/or the Antibiotic Resistance Interagency Task Force, to address the issue of the prevalence of MRSA in domestic farm animals.

The bill provides funding for the following items: \$1,650,000 for the Agricultural Products Food Safety Laboratory at New Mexico State University; \$525,000 for collaborative drug safety research at the Critical Path Institute and the University of Utah; \$1,608,000 for dietary supplements research at the National Center for Natural Products Research in Mississippi; \$2,077,000 for the National Center for Food Safety and Technology, Summit-Argo, Illinois; \$139,000 for the Interstate Shellfish Sanitation Conference (ISSC); \$174,000 for ISSC vibrio vulnificus education; \$69,000 for the Waste Management Education and Research Consortium at New Mexico State University; and \$1,399,000 for the Western Region Center of Excellence at the University of California-Davis. Funding for these items was included in the budget request.

#### BUILDINGS AND FACILITIES

The bill provides \$12,433,000 for FDA buildings and facilities, as requested in the amended budget. This funding shall be used to upgrade FDA facilities and laboratories that are currently below public safety standards and incapable of performing agency requirements. In providing this funding, specific projects are not approved, as the backlog of maintenance and repairs at FDA locations is significant. FDA is directed to prioritize this funding consistent with the backlog of maintenance and repairs and improve the average facility condition index at FDA sites. Within 30 days of the date of enactment of this Act, FDA is directed to provide a plan for allocating the funding to the Committees. The plan should include the methodology used to allocate the resources; the specific maintenance or repairs that will be conducted; whether the funding allocated to the site will complete a project or is partial funding for the project; and if partial funding for a project is provided, the full cost of completing the project.

DIVISION B—COMMERCE, JUSTICE, SCIENCE AND RELATED AGENCIES APPROPRIATIONS ACT, 2009

TITLE I—DEPARTMENT OF COMMERCE  
INTERNATIONAL TRADE ADMINISTRATION  
OPERATIONS AND ADMINISTRATION

The bill includes \$429,870,000 in total resources for the programs of the International Trade Administration (ITA). This amount includes a direct appropriation of \$420,431,000 and estimated offsetting fee collections of \$9,439,000. Funds are to be available for the following activities at no less than the following amounts:

Import administration .....	\$66,357,000
Market access and compliance (MAC) .....	42,332,000
Manufacturing and services .....	48,592,000
Executive direction .....	25,411,000
U.S. & Foreign Commercial Service .....	237,739,000

*Reporting requirements.*—ITA is directed to submit to the House and Senate Committees on Appropriations, not later than 60 days after the enactment of this Act, a spending plan for all ITA units that incorporates any carryover balances from prior fiscal years, and is updated to reflect the obligation of funds on a quarterly basis.

The positive and negative effects of a free trade agenda are difficult to balance, but it is critical that the United States government upholds its responsibility to enforce trade laws, particularly with China. If trading partners do not abide by the rules that are set in the global trading system, United States firms are unable to compete on a level playing field. The United States government has an obligation to ensure that U.S. companies are not forced to compete with foreign companies that are engaged in unfair trading practices.

*Import Administration.*—The bill includes not less than \$66,357,000 for the Import Ad-

ministration (IA). ITA is urged to implement proactive trade enforcement activities, including textile safeguard actions with respect to China's World Trade Organization Accession Agreement, bilateral quotas on non-WTO members, and textile provision of the United States preferential programs and agreements, through filling of vacancies in enforcement offices.

The bill designates \$5,900,000 for the Office of China Compliance within the IA appropriation. The office is under-staffed and undergoing a reorganization that may potentially damage its long-term effectiveness. IA is directed to fully staff anti-dumping (AD) efforts and to ensure that the office consists of experienced investigators, accountants, trade analysts, and technical experts to aggressively investigate AD cases. The office shall notify the House and Senate Committees on Appropriations of any impediments to hiring or retaining this expertise. IA is further directed to expand the size of the AD and countervailing duty (CVD) verification teams and ensure new analysts receive on-site training in verification practices and techniques.

IA's absorption of \$2,000,000 in fees in recent years has eroded resources that otherwise would have been expended in conducting investigations and reviews of AD/CVD cases. U.S. industries should not have to pay fees to file AD/CVD petitions; therefore, IA should not be charged for fees.

*Import monitoring.*—ITA is expected to undertake apparel import monitoring, focusing on prices of imports from China and Vietnam and whether their state-run industries are illegally pricing products and dumping in the U.S. market.

*Travel expenditures.*—The Department is directed to increase the number of investigative teams traveling to China and India, the sources of most trade complaints, to verify documentation of information provided by

foreign companies. The Department is expected to submit quarterly reports to the House and Senate Committees on Appropriations regarding ITA's travel expenditures, including separate breakouts of funding, number of trips and the purposes of travel to both China and India.

*Appalachian-Turkish Trade Project (ATTP).*—The Commercial Service is commended for its leadership role in helping to implement the mission of the ATTP, and is expected to continue to be a prominent ATTP sponsor.

*World Trade Organization.*—The Department of Commerce is directed, in consultation with the United States Trade Representative, to continue to negotiate within the WTO to seek express recognition of the existing right of WTO Members to distribute monies collected from antidumping and countervailing duties. The agency shall consult with and provide regular reports every 60 days to the House and Senate Committees on Appropriations. In addition, negotiations shall be conducted within the WTO consistent with the negotiating objectives contained in the Trade Act of 2002, Public Law 107-210, to maintain strong U.S. trade remedies laws, prevent overreaching by WTO Panels and the WTO Appellate Body, and prevent the creation of obligations never negotiated or agreed to by the United States.

*Reduced fees.*—ITA reduced fees for export promotion services and trade missions for 2005 hurricane-affected companies. In light of the ongoing need to encourage exporting and assist local businesses with their economic recovery efforts, ITA is encouraged to find ways to extend these fee reductions through fiscal year 2009 for companies affected by hurricanes in the Gulf region.

Within the appropriation, \$4,400,000 is provided for the following activities:

BUREAU OF INDUSTRY AND SECURITY  
OPERATIONS AND ADMINISTRATION

The bill includes \$83,676,000 for the Bureau of Industry and Security (BIS), which is \$500,000 above the budget request. Of the amount provided, \$14,767,000 is for inspections and other activities related to national security, and \$2,385,000 is for program enhancements and new initiatives that will advance BIS' export control and enforcement activities.

ECONOMIC DEVELOPMENT ADMINISTRATION

The bill includes \$272,800,000 for the programs and administrative expenses of the Economic Development Administration (EDA), which is \$149,168,000 above the request.

ECONOMIC DEVELOPMENT ADMINISTRATION  
PROGRAMS

The bill includes \$240,000,000 for the Economic Development Assistance Programs, an increase of \$147,200,000 above the request. Of the amounts provided, funds are to be distributed as follows:

Global climate change mitigation initiative .....	\$14,700,000
Public works .....	133,280,000
Planning .....	31,000,000
Technical assistance .....	9,400,000
Research and evaluation ...	490,000
Trade adjustment assistance .....	15,800,000
Economic adjustment assistance .....	35,330,000

*Global Climate Change Mitigation Fund.*—The bill provides \$14,700,000 for the Global Climate Change Mitigation Incentive Fund, \$13,600,000 above the request. Economic development must address the effects of climate change. EDA is directed to provide a

report and spend plan on the fund to the House and Senate Committees on Appropriations, no later than 90 days after enactment of the Act. The report should detail the scope of the fund, the criteria for approval of fund expenditures, and the methodology EDA will employ when reviewing grants.

*Public Works.*—The bill provides \$133,280,000 for Public Works, \$126,080,000 above the budget request. These funds are critical to local communities and industries faced with increased economic pressures and dislocations in the rapidly changing global economy.

*Planning.*—The bill provides \$31,000,000 for planning, \$4,000,000 above the request. EDA is directed to allocate \$3,700,000 of the additional planning resources to the existing network of 370 Economic Development Districts (EDDs), with the remaining \$300,000 to reduce the backlog of designated-but-unfunded EDDs. This increase provides EDDs with the flexibility needed to engage local government, business, and community leadership in setting and pursuing strategic job creation and retention initiatives effectively.

*Trade Adjustment Assistance (TAA).*—The bill provides \$15,800,000 for trade adjustment assistance, an increase of \$1,700,000 over the request. Not less than \$200,000 and no more than \$350,000 shall be available to fund permanent FTE. TAA has been heavily dependent on interns to process key program elements. While interns can supplement staff, they should not be relied upon to solve permanently staffing shortages. EDA is directed to provide quarterly reports on its progress in hiring of permanent FTE and processing levels, to the House and Senate Committees on Appropriations, with the first report to be delivered within 90 days of enactment of this Act.

*Hawaii field office.*—EDA is strongly encouraged to increase staff support for this

field office due to its exceptionally large geographic area.

*Funding disbursements.*—EDA is directed to allocate all funding, including supplemental and disaster funding, through the competitive, regional allocation process.

SALARIES AND EXPENSES

The bill includes \$32,800,000 for EDA salaries and expenses, \$1,968,000 above the budget request.

*Current operational structure.*—The bill fully funds the request for salaries and expenses appropriation, which provides adequate funding to begin filling vacancies within regional offices. EDA is directed to fill vacancies within regional offices prior to filling vacancies within headquarters. Continued commitment to the current operational structure, with six regional offices in Atlanta, Austin, Chicago, Denver, Philadelphia, and Seattle, is reiterated.

*Transfer authority.*—The bill includes language providing EDA with permissive transfer authority, not to exceed \$4,000,000, from EDA program grants, subject to the Section 505 limitations on transfers, for additional salaries and expenses for grant administration and management. EDA is also strongly encouraged to utilize retired EDA officials to address staffing needs on a volunteer basis.

MINORITY BUSINESS DEVELOPMENT AGENCY

MINORITY BUSINESS DEVELOPMENT

The bill includes \$29,825,000 for the Minority Business Development Agency, which is \$1,202,000 above the budget request. Within the funds provided, existing Native American Business Development Centers are continued, and \$825,000 is provided for the following activities:

Minority Business Development Agency  
Congressionally-designated Items  
(\$ in thousands)

Recipient	Project	Location	Amount
Rural Enterprises of Oklahoma, Inc. (REI)	REI Business and Resource Center at Eastern Oklahoma State College	Durant, OK	175

West Liberty State College	Emerging Minority Business Leaders	West Liberty, West Virginia	500

ECONOMIC AND STATISTICAL ANALYSIS  
SALARIES AND EXPENSES

The bill provides \$90,621,000 for this account, which is \$500,000 above the budget request.

BUREAU OF THE CENSUS

The bill includes a total operating level of \$3,139,850,000 for the Bureau of the Census, which is the same as the budget request.

SALARIES AND EXPENSES

The bill provides \$233,588,000 for this account, which is the same as the budget request. Of this amount, \$45,742,000 is for the Survey of Income and Program Participation (SIPP), which is \$486,000 above the budget request. This funding provides for a full SIPP sample of 45,000 households to begin in September 2008 and will allow for improvements, including security enhancements, to the current SIPP system by fiscal year 2012.

PERIODIC CENSUSES AND PROGRAMS

The bill provides \$2,906,262,000 for this account, which is the same as the budget request.

**2010 Decennial Census.**—Full funding of the request has been provided to return the 2010 Census to a more reliable, paper-based operation, with the expectation that the new Administration will focus the requisite oversight to ensure a successful Decennial. It is noted that the Department's past lack of critical oversight and the previous Administration's lack of attention to the 2010 Decennial significantly increased the risk of failure for this constitutionally-mandated effort.

**Life cycle cost estimate.**—The Census Bureau has recently negotiated a replan of the FDCA contract which will utilize the handheld devices only for the address canvassing and rely on a paper-based operation for non-response followup. This replan results in a significant increase in the life cycle cost of the Decennial Census, but allows for greater predictability in remaining cost estimates. The full impact of the life cycle increase is as yet undefined, but may increase by \$3,000,000,000. The Census Bureau is directed to implement the Government Accountability Office's June 16, 2008, report recommendations on life cycle cost estimates and provide an updated life cycle cost estimate with the submission of the fiscal year 2010 budget request.

**2010 Decennial milestones.**—Report language that accompanies the fiscal year 2008 supplemental appropriations for the Census Bureau regarding the development and reporting of milestones associated with the 2010 Census is adopted by reference.

**Communications.**—Paid media is critical to promoting increased participation in the 2010 Decennial, particularly in minority and other hard-to-count populations. In the 2000 Decennial, it improved the rate of response, particularly in communities with limited English proficiency. Despite operational improvements to the Census' conduct of the Decennial and upfront purchasing of media, the return to a paper-based nonresponse followup should result in a reevaluation of communication needs in light of changes to the process. Census is directed to conduct such reevaluation, and to submit a comprehensive communication plan in its fiscal year 2010 budget request that incorporates the effect of the replan and lack of handhelds for non-response followup.

**Partnerships.**—The Bureau of the Census is directed to allocate sufficient funding from within the appropriation provided to support robust partnership and outreach efforts in

preparation for the 2010 Decennial, with specific focus on hard-to-reach populations. Funding provided for the census partnership program will enlist community leaders to encourage their constituencies to fill out their census forms, emphasizing the importance of the census to their local community and education system. The increase in mail-back response rates as a result of such promotional efforts will likely result in substantial savings during nonresponse followup enumeration.

**Language assistance programs.**—The Census Bureau is directed to provide updates on a semi-annual basis on its language assistance program, including information on how it will reach and assist respondents who speak Asian, American Indian and Alaska Native languages, Spanish, and other languages spoken by ethnic immigrants in the United States for the American Community Survey (ACS) and the 2010 Decennial.

**Additional outreach.**—The Census Bureau is directed to provide not less than \$10,000,000 for Census in Schools competitive grants and adult education materials for the 2010 Decennial. Census in Schools and adult education materials provide significant outreach to hard-to-reach populations through the medium of take-home materials that educate students, their parents and their extended families.

**Data on small population groups.**—In many ethnic and immigrant communities, gathering accurate information about smaller subgroups is extremely important for policymakers, as the needs among the various populations vary significantly. The Census Bureau is urged to ensure that reliable information about Asian, Hispanic, Pacific Islander, and other national origins subgroups, especially numerically smaller groups, is collected from the ACS and Decennial census and published. The Bureau is directed to report back to the House and Senate Appropriations Committees within 90 days of enactment of this Act, describing the steps it will take to ensure the availability and accuracy of the data.

**Offshore U.S. jurisdictions.**—The efforts of the Census Bureau to consider new options for reporting data reflecting all citizens of the United States, including Puerto Rico and other offshore U.S. jurisdictions, are noted.

NATIONAL TELECOMMUNICATIONS AND  
INFORMATION ADMINISTRATION

SALARIES AND EXPENSES

The bill includes \$19,218,000 for the salaries and expenses of the National Telecommunications and Information Administration (NTIA), which is \$773,000 above the budget request.

**Enhance 911.**—The Digital Television Transition and Public Safety Fund made \$43,500,000 available in mandatory funding to implement the ENHANCE 911 Act of 2004. The Assistant Secretary is directed to coordinate the work of the NTIA on this critical program with other relevant Federal agencies.

**Reimbursements.**—The bill retains language from previous years allowing the Secretary of Commerce to collect reimbursements from other Federal agencies for a portion of the cost of coordination of spectrum management, analysis, and operations. The NTIA shall submit a report to the House and Senate Committees on Appropriations no later than June 1, 2009, detailing the collection of reimbursements from other agencies related to spectrum management, analyses and research.

PUBLIC TELECOMMUNICATIONS FACILITIES,  
PLANNING AND CONSTRUCTION

The bill includes \$20,000,000 for Public Telecommunications Facilities, Planning and Construction. The budget request proposed to terminate this program.

UNITED STATES PATENT AND TRADEMARK  
OFFICE

SALARIES AND EXPENSES

The bill includes \$2,010,100,000 for the United States Patent and Trademark Office (USPTO), which is the same as the USPTO revised fee collection estimate dated December 5, 2008.

**National Intellectual Property Law Enforcement Coordination Council (NIPLECC).**—The bill includes a provision that transfers \$750,000 to "Departmental Management, Salaries and Expenses" for activities associated with NIPLECC. In subsequent years, it is expected that funds will be requested through the Executive Office of the President.

**Backlog of patent applications.**—The Government Accountability Office has found that the backlog of unexamined patent applications at the USPTO has increased by nearly 73 percent since fiscal year 2002. Currently, the average pendency of applications is 32 months. If this trend continues, average pendency will be 52 months by 2012. Since 2005, the USPTO budget has grown by over \$500,000,000, yet pendency and backlog have worsened. Therefore, the bill includes language transferring \$2,000,000 to the Office of Inspector General for the express purpose of conducting continual audit engagements and oversight at the USPTO.

The USPTO has responded to the backlog by issuing final rules limiting the ability of applicants to modify their applications with additional information and claims through the use of continuing applications, even though an overwhelming majority of users of the patent system objected when given the opportunity for public comment. In addition, the United States District Court for the Eastern District of Virginia has enjoined the issuance of the rules changes as exceeding the statutory authority of the Undersecretary and Director.

However, the sustained increase in the number of applications that has given rise to the increasing backlog is largely a consequence of a globalized economy in which applicants are filing in more than one jurisdiction. This means that the USPTO and other national patent offices are duplicating one another's work. The Government Accountability Office has found that the hiring of additional patent examiners has not been sufficient to reverse this trend, and is therefore unlikely to resolve the backlog problem. Therefore, the most likely means of reducing the pendency of patent applications is for the leading patent offices to make more effective use of one another's work. The USPTO is directed to take actions to reduce duplication of work already performed by another patent office in a manner that does not compromise the quality of the examination or compromise the sovereignty of the United States. The USPTO is also encouraged to review its proposed rules changes so that they fall within the statutory authority of the Director and take into account the concerns of the majority of users of the patent system.

**USPTO operations.**—The USPTO is directed to adopt the principles of the Baldrige National Quality Program, which represents the pinnacle of performance excellence for American business. The USPTO is directed to work with the Baldrige program to begin the process of incorporating these principles

and to report to the House and Senate Committees on Appropriations on a quarterly basis on progress made towards adoption.

*Patent examiners.*—Numerous reviews conducted by the Government Accountability Office (GAO) have shown that for every two examiners hired, one leaves the agency, many citing the unreasonable work productivity goals as a major reason for their departure. These goals, first adopted in the 1970s, have not been updated to address the ever more complex technologies that encompass today's patent applications. The unrealistic goals are encouraging junior examiners to leave, and that will make it difficult to replace the productivity rates of senior examiners when they retire. Thus, the bill includes language withholding \$5,000,000 of fees from obligation pending a comprehensive reevaluation of the work productivity goals for patent examiners and submission of the results to the House and Senate Committees on Appropriations.

*Spend plan.*— Any deviations from the funding distribution provided for in this Act and in its accompanying statement, including carryover balances, are subject to the standard reprogramming procedures set forth in section 505 of this Act. The USPTO is directed to submit a spending plan to the House and Senate Committees on Appropria-

tions, incorporating all carryover balances from previous years and describing any changes to the patent or trademark fee structure, within 30 days of enactment of this Act.

*Fee estimate.*—It is noted that the USPTO's actual fee collections for the last four fiscal years have been less than the earlier estimates. The uncertainty of fees is understandable; however, results in excess appropriations. USPTO is therefore directed to provide revised fee estimates for fiscal year 2010 to the House and Senate Committees on Appropriations, no later than September 1, 2009.

#### NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY

The bill includes \$819,000,000 for the National Institute of Standards and Technology (NIST), which is \$183,000,000 above the request.

#### SCIENTIFIC AND TECHNICAL RESEARCH AND SERVICES

The bill includes \$472,000,000 for NIST's scientific and technical core programs, of which no less than \$8,522,000 shall be for the Baldrige National Quality Program. Within 30 days of enactment of this Act, NIST is directed to provide a spend plan that coincides with the budget restructuring the agency proposed to the House and Senate Commit-

tees on Appropriations on July 7, 2008. NIST is encouraged to devote resources to its Measurement & Standards for Climate Change Program and the Office of Law Enforcement Standards.

*Printed electronics study.*—Flexible, large area and printed electronics technology holds great promise for the competitiveness of the United States. NIST shall enter into an agreement with the National Academy of Sciences to undertake a study that examines the position of the United States in flexible electronics relative to efforts in other countries. The National Academies shall also consider the particular technologies and commercial sectors to which flexible electronics apply and the recommendations that must be undertaken at a Federal level for a national initiative.

*Working Capital Fund (WCF).*—Within the appropriation, the bill provides up to \$9,000,000 for transfer to NIST's WCF, which is \$3,300,000 less than the budget request.

NIST is directed to refrain from charging administrative costs for congressionally directed projects, and is expected to provide appropriate management and oversight of each grant. Within the appropriation, \$3,000,000 is provided for the following congressionally directed activities:

National Institute of Standards and Technology  
Scientific and Technical Research and Services  
Congressionally-designated Items  
(\$ in thousands)

Recipient	Project	Location	Amount

INDUSTRIAL TECHNOLOGY SERVICES

The bill includes \$175,000,000 for industrial technology services. Of this amount, \$110,000,000 is provided for the Manufacturing Extension Partnerships (MEP) and \$65,000,000 is provided for the Technology Innovation Program (TIP).

CONSTRUCTION OF RESEARCH FACILITIES

The bill includes \$172,000,000 for construction of research facilities. NIST is directed to provide to the House and Senate Committees on Appropriations a spend plan for the funding provided within 30 days of enactment of this Act. NIST is further directed to

provide annual reports on the status of all construction projects, and to provide an accounting of such projects to the House and Senate Committees on Appropriations.

Funds for NIST construction are to be available as follows:

Boulder Bldg. 1E; JILA expansion; Safety, capacity, major modifications & repairs .....	\$90,800,000
NIST Child care center .....	7,200,000
Construction grants program .....	30,000,000
Congressionally directed projects .....	44,000,000

*Competitive construction grants.*—The bill provides \$30,000,000 for competitive construction grants for research science buildings. These grants shall be awarded to colleges, universities and other non-profit science research organizations on a merit basis.

NIST is further directed to refrain from charging administrative costs for congressionally directed projects and competitive construction grants, and is expected to provide appropriate management and oversight of each grant. Within the appropriation, \$44,000,000 is provided for the following congressionally directed activities:

The bill includes a total of \$4,365,196,000 in discretionary appropriations for the National Oceanic and Atmospheric Administration, which is \$261,283,000 above the request.

*Justification.*—NOAA is directed to work with the House and Senate Committees on Appropriations to reformat its justification into a more useable and user-friendly document, starting with the fiscal year 2010 submission.

*Research and development (R&D) tracking and outcomes.*—NOAA is directed to continue tracking the division of R&D funds between intramural and extramural research, and is further directed to assure consistency and clarity in the collection and reporting of data. NOAA is also directed to state clearly its expected research outcomes and available

funding in order to provide transparency into the competitive grant process for extramural researchers. By not providing enough extramural research funding, NOAA risks discouraging extramural involvement in NOAA's research programs and the concomitant leveraging of external funds in support of mission-oriented research. Thus, NOAA is encouraged to provide additional extramural funding in future budget requests.

*Atmospheric sciences.*—NOAA is urged to make atmospheric sciences a priority within the resources made available in the bill and to request additional resources in subsequent years to advance this research.

OPERATIONS, RESEARCH, AND FACILITIES  
(INCLUDING TRANSFERS OF FUNDS)

The bill includes a total program level of \$3,133,549,000 under this account for the coastal, fisheries, marine, weather, satellite

and other programs of the National Oceanic and Atmospheric Administration. This total funding level includes \$3,045,549,000 in direct appropriations, a transfer of \$79,000,000 from balances in the "Promote and Develop Fishery Products and Research Pertaining to American Fisheries" account, a transfer of \$3,000,000 from the Coastal Zone Management Fund, and \$6,000,000 is derived from recoveries of prior year obligations. The direct appropriation of \$3,045,549,000 is \$214,296,000 above the request.

Narrative descriptions and tables that identify the specific activities and funding levels included in this Act follow.

*National Ocean Service (NOS).*—The bill includes \$496,967,000 for NOS operations, research and facilities, which is \$46,978,000 above the request. These funds are distributed as follows:

*Williston radar.*—NOAA is directed to maintain staffing and operations at the Williston Radar site through fiscal year 2009.

*National mesonet network grants.*—The National Research Council (NRC) has completed a study for NOAA, “Developing Mesoscale Meteorological Observational Capabilities to Meet Multiple National Needs” which provides a framework for a full scale national mesonet network. In particular, the NRC calls for the use of public/private partnerships, the aggregation of a network of networks and the leveraging of existing networks (public and private), as components of the national mesonet for high priority regions—mountains, coastal, and urban. The bill provides \$11,000,000 for NOAA to procure competitively a national mesonet, which will provide the critical information needed to improve short- and medium-term weather forecasting (down to local scales), plume dis-

persion and climate monitoring, as well as air quality analyses. NOAA is directed to utilize \$5,000,000 of these funds to maintain operations for existing mesonet network observation agreements. NOAA is further directed to utilize \$1,500,000 to examine the use of real time mobile data collected from commercial trucking operators to evaluate, validate and demonstrate the efficacy of providing supplemental weather information to improve the safety and efficiency of the national highway system. NOAA is directed to provide to the House and Senate Committees on Appropriations, within 90 days after enactment, a plan, including policies and requirements, for the operation of the national mesonet, as well as integration of mesonet data into NWS field offices, mesoscale numerical weather prediction models, and with the Advanced Weather Interactive Processing System (AWIPS), as part of the

AWIPS Technology Infusion program. NOAA is further directed to make awards no later than September 1, 2009.

*Central forecast guidance.*—An additional \$10,000,000 is provided above the amount requested for central forecast guidance to reflect more accurately that these funds shall be available primarily for rent, operations and security of the NOAA Center for Weather and Climate Prediction. The increase corresponds with a decrease of funds for the same amount requested for Center for Weather and Climate Prediction under NOAA’s PAC account.

*National Environmental Satellite, Data and Information Service (NESDIS).*—The bill includes \$187,422,000 for NESDIS operations, research and facilities, which is \$22,130,000 above the request. These funds are distributed as follows:

junction with NASA, which has been directed similarly.

*Data centers and information services.*—The bill includes \$56,506,000 for archive, access and assessment, which is \$16,917,000 above the request and provides for additional data and information archive services to address the backlog.

*Space-based scientific data.*—NOAA is directed to report to the House and Senate

Committees on Appropriations, within 60 days after enactment of this Act, on its plans to obtain space-based scientific data from commercial sources over the next three years.

*Program support (PS).*—The bill includes \$450,978,000 for PS operations, research and facilities, which is \$56,583,000 above the request. These funds will be distributed as follows:

*Climate modeling and information technology security.*—NOAA's plans to upgrade its high performance computing and communications are supported with \$20,000,000 above the request to accelerate climate modeling improvements and improve information technology services. NOAA is also encouraged to expand its partnership with the Department of Energy and the National Science Foundation to provide supercomputing capacity to help meet research needs.

*Competitive education grants.*—The bill provides \$8,500,000 for competitive education grants, of which \$7,500,000 is for a new ocean education grant program. Eligible recipients of the ocean education grants must be non-profit 501(c)(3) aquariums accredited by the Association of Zoos and Aquariums with informal education partnerships regarding the ocean. The grants require a 50 percent non-Federal cost share and can be used for cap-

ital improvements, exhibit space and educational program development projects originating within the aquarium.

*BWET regional programs.*—NOAA is directed to continue to support existing BWET programs and is encouraged to expand this program to additional regions.

*Marine operations and maintenance.*—Increased funding for marine services and aviation services is provided above the request to offset increased fuel charges and to ensure critical research and operations are conducted.

*Fleet planning and maintenance.*—Given the trend in lost sea days, an additional \$11,000,000 is provided above the request to better ensure NOAA vessels are manned properly and operate safely. Improving fleet conditions and increasing days at sea will strengthen NOAA's ability to carry out many critical missions, including fisheries

surveys, climate research, and nautical charting.

*Diving regulations.*—NOAA's diving program is critical to conducting scientific research, ship maintenance and marine operations, and NOAA's unique mission requires unique diving operations. Section 106 of this bill provides the Secretary the authority to prescribe diving regulations. Within 90 days of enactment, NOAA is directed to submit a plan to the House and Senate Committees on Appropriations on how the agency will implement its own scientific and working diver regulations by the end of the fiscal year, which shall include recommendations on improving the viability, safety and efficiency of the NOAA diving program in out-years.

*NOAA satellite systems.*—The bill includes \$965,667,000 for geostationary and polar orbiting satellite programs and the restoration of critical climate sensors. The impact of the GOES-R out-year costs on NOAA's traditional mission areas is troubling, as GOES-R demands an ever-increasing percentage of NOAA's budget. If investments in necessary satellite infrastructure must be funded within NOAA's budget, those requirements should be accommodated in NOAA's budget requests without impinging on NOAA's other critical mission priorities. Furthermore, both the GOES-R and NPOESS programs are entering critical phases of their respective developments during the transition of administrations. The Office of Inspector General recommended that the Department of Commerce establish thresholds and procedures for reporting and improving major deviations from GOES-R's capability, cost, and schedule baseline, as well as enhancements to the baseline. NOAA and the Department of Commerce are directed to implement this recommendation no later than March 2, 2009.

*VIIRS.*—The VIIRS instrument has consistently caused major delays and cost overruns to the NPOESS program. Development delays continue; forcing postponement in the launch of the NPP mission, and almost certainly delaying the launch of C1 and C2 of NPOESS. Therefore, NOAA is directed to

provide, no later than March 2, 2009, to the House and Senate Committees on Appropriations, a revised total cost estimate to build and install the current VIIRS instrument for NPP, C1 and C2, as well as an analysis of alternatives to the VIIRS instrument, including cost estimates and risk analysis, as well as the matrix for development and contract performance.

*Comprehensive large array data stewardship system (CLASS).*—NOAA CLASS is directed to establish a sound technical plan and implement foundation elements to move CLASS architecture to an enterprise solution that supports the anticipated increase in the demand for archival and distribution of current and planned data campaigns. NOAA CLASS is further directed to examine the technical and programmatic components required to establish an interface-to-data archives for the purpose of creating information products that would add value for stakeholders and the user community.

*Construction.*—The bill provides \$10,000,000 for program support construction, which allows NOAA to begin its highest priority construction projects.

*Cooperative Weather and Research Center.*—The southeast United States experiences more severe weather events, such as hurricanes, tornados, lightning, flooding and severe droughts, than any other region of the

country. NOAA dedicates few resources to respond and prepare for severe weather events in this area, and unlike other regions, the Southeast does not possess the surveillance, research and forecasting assets to study and predict these events. The bill provides a total of \$10,550,000 for the NWS to build a Cooperative Institute and Research Center for Southeast Weather and Hydrology and to begin to develop and acquire dual polar, phased array and multi-frequency Doppler Radars and passive radiometers to study storms, improve rainfall estimates, and to begin to provide the citizens of the Southeast with state-of-the-art weather research and prediction capabilities. Of the funding provided, up to \$1,500,000 shall be used for operations.

*NOAA Center for Weather and Climate Prediction.*—Based on revised information, the bill fully funds the request for the NCWCP building, but has shifted \$10,000,000 to the ORF appropriation to more accurately reflect that these funds will be used primarily for rent, operations, and security of this facility.

*Congressionally-directed items.*—Within the appropriation for procurement, acquisition and construction, the bill provides for the following Congressionally-directed activities:

National Oceanic and Atmospheric Administration  
Procurement, Acquisition and Construction

## PACIFIC COASTAL SALMON RECOVERY

The bill includes \$80,000,000 for Pacific Coastal Salmon Recovery, which is \$45,000,000 above the budget request.

COASTAL ZONE MANAGEMENT FUND  
(INCLUDING TRANSFER OF FUNDS)

The bill includes language transferring not to exceed \$3,000,000 from the Coastal Zone Management Fund to the "Operations, Research, and Facilities Account."

## FISHERIES FINANCE PROGRAM ACCOUNT

The bill includes language under this heading limiting obligations of direct loans to \$8,000,000 for Individual Fishing Quota loans and \$59,000,000 for traditional direct loans.

DEPARTMENTAL MANAGEMENT  
SALARIES AND EXPENSES

The bill includes \$53,000,000 for Departmental Management, which is \$7,583,000 less than the amended budget request.

*2010 Decennial report and certification.*—The bill includes language that requires the Secretary of Commerce to provide a report to the House and Senate Committees on Appropriations that audits and evaluates all decision documents and expenditures by the Bureau of Census as they relate to the 2010 Decennial. The bill also includes language that restricts \$5,000,000 of the available appropriation from obligation until the Secretary certifies to the House and Senate Committees on Appropriations that the Bureau of Census has met all standards and best management practices and Office of Management and Budget guidelines related to information technology projects and contract management.

*Emergency Steel Loan Guarantee Program (ESLG).*—The proposed rescission of the remaining unobligated subsidy balances associated with the ESLG program is rejected.

*Information Technology (IT) security.*—Within the appropriation, the bill provides an increase of \$4,117,000 to address the Department's IT security material weaknesses and other concerns raised by the Inspector General.

HERBERT C. HOOVER BUILDING RENOVATION AND  
MODERNIZATION

The bill includes \$5,000,000 for costs associated with the renovation of the Herbert C. Hoover building, which is \$2,367,000 below the budget request.

## OFFICE OF INSPECTOR GENERAL

The bill includes \$25,800,000 for the Office of Inspector General, which is \$1,034,000 above the request. The increased funding is provided to address the increasing oversight necessary for the 2010 Decennial Census and NOAA's satellite development programs.

GENERAL PROVISIONS—DEPARTMENT OF  
COMMERCE (INCLUDING TRANSFER OF FUNDS)

Section 101 makes funds available for advanced payments only upon certification of officials designated by the Secretary that such payments are considered to be in the public interest.

Section 102 makes appropriations for the Department for salaries and expenses available for hire of passenger motor vehicles, for services, and for uniforms and allowances as authorized by law.

Section 103 provides the authority to transfer funds between Department of Commerce appropriations accounts, but not between NOAA and other Departmental appropriations; the provision makes transfers subject to the standard reprogramming procedures.

Section 104 provides that any costs incurred by the Department from personnel ac-

tions taken in response to funding reductions shall be absorbed within the total budgetary resources available to the Department and shall be subject to the reprogramming limitations set forth in this Act.

Section 105 includes a permanent prohibition of funds related to the trademark of "Last Best Place".

Section 106 provides permanent authority for the Secretary of Commerce to prescribe and enforce standards or regulations affecting safety and health in the context of scientific and occupational diving within the National Oceanic and Atmospheric Administration.

Section 107 extends Congressional notification requirements for the GOES-R satellite program.

Section 108 provides for the reimbursement for services within Department of Commerce buildings.

Section 109 transfers prior year funding from the Fisheries Finance Program into NOAA Operations, Research, and Facilities appropriation.

Section 110 amends the Pacific Salmon Treaty Act.

Section 111 provides authority for the Secretary of Commerce to negotiate or reevaluate international agreements related to fisheries, marine mammals, or sea turtles.

## TITLE II—DEPARTMENT OF JUSTICE

## GENERAL ADMINISTRATION

## SALARIES AND EXPENSES

For fiscal year 2009, the bill provides \$105,805,000 for General Administration (GA), which is equal to the budget request.

*Materials in support of the annual budget request.*—The Department of Justice (DOJ) was the only agency under the CJS Subcommittee's jurisdiction which was unable to meet the liberal timetables imposed for submission of additional requested information in support of the Department's fiscal year 2009 budget. The Department is directed to take any action necessary to ensure that such delays do not occur in the fiscal year 2010 budget process.

*Office of Professional Responsibility (OPR) investigations.*—The Department shall continue to support OPR's ongoing reviews of the Federal government's interrogation methods and warrantless wiretapping practices, particularly through the provision of relevant documents and witnesses. It is expected that these investigations will be expeditiously pursued until they are complete.

*Resolution of jurisdictional disputes.*—The Department is currently engaged in several jurisdictional disputes, both among DOJ components and between DOJ and other federal agencies. Particularly troubling examples include the ongoing conflict between the Federal Bureau of Investigation (FBI) and the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) over the investigation of explosives crimes and the dispute between DOJ and the Department of Homeland Security (DHS) over the appropriate location for the Office of Bombing Prevention. The Attorney General (AG) is directed to submit a report to the House and Senate Committees on Appropriations no later than 120 days after the enactment of this Act on the steps the Department has taken in order to reconcile these disputes and clarify the jurisdictional lines between FBI and ATF and between DOJ and DHS.

*Immigration workload.*—DOJ's budget request fails to articulate, or account for, the increased resource requirements that result from other agencies' activities. This is particularly true with respect to immigration,

where the Department has been repeatedly forced to redirect internal resources in order to provide necessary judicial support and basic care for aliens turned over to DOJ by DHS. The practical effect of these redirections has been cuts to non-immigration programs at DOJ. In order to accurately estimate the magnitude of these funding pressures, a methodology is required to create defensible fiscal linkages between DHS activities and DOJ costs. The Department is directed to contract with the National Academy of Sciences to develop, test and select a budget model that accurately captures these fiscal linkages and leverages them into an estimate of DOJ's immigration-related costs. The \$1,000,000 necessary to perform this study should be funded within the appropriated level for this account, and the resulting conclusions should be submitted to the House and Senate Committees on Appropriations upon completion, but not later than 20 months after the enactment of this Act.

*Rent estimates.*—The rent estimates produced by the Justice Management Division are frequently incorrect, sometimes by tens of millions of dollars. The Department is urged to continue making improvements in its facilities and rent management system in order to improve the accuracy of future requests.

*National threat drug gangs.*—No later than one year after the enactment of this Act, the AG, in consultation with the Secretary of Homeland Security, shall submit to the House and Senate Committees on Appropriations a report, in both classified and unclassified form, identifying the three international drug gangs that present the greatest threat to law and order in the United States; describing the composition, operations, strengths and weaknesses of each of these gangs; and setting forth a national strategy to eliminate within four years the illegal operations of each identified gang.

In choosing the three gangs to be included, which will be designated as "National Threat Drug Gangs," the AG shall consider the extent to which the gang conducts activities with any international terrorist organization or state designated by the Secretary of State as a sponsor of terrorism; the volume of controlled substances that the gang imports to or distributes within the United States; and the extent to which the gang is a threat to children and schools within the United States.

*Overseas pay equivalency.*—The Department is directed to address issues relating to danger pay and locality adjustment disparities between DOJ employees serving abroad and overseas employees of other agencies. The Department is further directed to report to the House and Senate Committees on Appropriations within 90 days of the enactment of this Act on the steps taken to address these disparities.

*Data center operations.*—GAO is requested to review the operational costs of the Department's data centers from fiscal year 2006 through fiscal year 2008 and to report its findings to the House and Senate Committees on Appropriations no later than June 1, 2009.

*Budget restructuring proposals.*—All accounts within DOJ shall continue to use the fiscal year 2008 decision units and account structures unless otherwise specified in prior years or in the body of this explanatory statement.

*Representation funds for foreign field offices.*—The lack of representation funds available for foreign field office staff to perform their official duties in stations outside

of the continental United States is concerning. Agents in foreign field offices not only develop contacts with international law enforcement and intelligence agencies, but are also responsible for myriad other functions, including the detection and prevention of terrorism and crime, training, information sharing and responding to terrorist attacks internationally. These contacts serve a critical role in increasing Federal law enforcement's ability to identify and disrupt terrorist and criminal activity domestically. Therefore, FBI, ATF, the Drug Enforcement Administration (DEA) and the United States Marshals Service (USMS) are directed to increase the amount of representation funds requested for foreign field offices.

#### JUSTICE INFORMATION SHARING TECHNOLOGY

The bill provides \$80,000,000 for Justice Information Sharing Technology (JIST), which is \$13,868,000 below the budget request.

Cyber security.—No later than 60 days after the enactment of this Act, the Department is directed to report to the House and Senate Committees on Appropriations on expected cyber security costs in the JIST account for fiscal year 2009 and the Department's plan for covering these costs without additional requested resources.

*Unified Financial Management System (UFMS).*—Delays and other issues with the live deployment of UFMS at DEA have created concerns about the Department's ability to meet appropriate standards of success for this project. Rather than providing the relatively modest UFMS funding requested in this account, the bill focuses on fully funding the other important IT projects supported by JIST. Once the Department can demonstrate that UFMS deployment at DEA has proceeded successfully, a reprogramming will be considered to meet the UFMS project's projected 2009 needs. That reprogramming should include both those funds originally intended for reprogramming in 2009, as well as the balance of UFMS funds originally requested for appropriation in this account.

#### TACTICAL LAW ENFORCEMENT WIRELESS COMMUNICATIONS

The bill provides \$185,000,000 for Tactical Law Enforcement Wireless Communications, which is \$63,349,000 above the budget request.

*Integrated Wireless Network (IWN).*—The request for this account does not sufficiently address the Department's communications deficiencies and will contribute to the ongoing delays in the nationwide deployment of the IWN solution. Accordingly, the bill provides a total of \$88,249,000 for IWN and directs the Department to use these funds for accelerated IWN deployment in high priority metropolitan regions. Consistent with planning materials submitted along with the budget request, the Department is directed to use these funds only for the modernization and improvement of land mobile radio (LMR) systems. Any plans related to secure cellular or data systems, or non-LMR tactical equipment, must be budgeted for and requested separately.

To aid in program management and oversight, the Department is directed to set specific and detailed performance milestones for the use of IWN funds, including dates for planned completion. These milestones should be reported to the House and Senate Committees on Appropriations within 60 days of the enactment of this Act, and quarterly updates should be provided on the Department's progress in meeting those milestones. Continued funding support for IWN in future years will be contingent on the Department's

success in achieving its milestones within cost, schedule and performance expectations.

#### ADMINISTRATIVE REVIEW AND APPEALS

The bill provides \$270,000,000 for Administrative Review and Appeals, including \$267,613,000 for the Executive Office of Immigration Review (EOIR), which is \$6,209,000 above the budget request. The appropriation is offset by \$4,000,000 in fees that are collected by the Department of Homeland Security and transferred to EOIR.

*Hiring new immigration judges.*—Within funds provided, \$5,000,000 is made available to hire new immigration judges and support personnel to address the growing caseload. The Department and EOIR are directed, within 90 days of enactment of this Act, to submit to the House and Senate Committees on Appropriations a strategic plan to address the case backlogs.

*Legal Orientation Program (LOP).*—With funds provided in this bill and in prior year appropriations, EOIR is directed to provide not less than \$4,000,000 for the LOP program during fiscal year 2009.

*Immigration court reforms.*—Within 30 days of enactment of this Act, the Department is directed to report to the House and Senate Committees on Appropriations on the implementation status of the 22 reform measures to improve the efficiency of immigration courts that were identified by the Attorney General in August, 2006.

*Competency evaluation standards.*—EOIR is encouraged to work with experts and interested parties in developing standards and materials for immigration judges to use in conducting competency evaluations of persons appearing before the courts.

The bill provides \$2,387,000 for the Office of Pardon Attorney to support a total of 15 permanent positions and 15 FTE.

#### DETENTION TRUSTEE

The bill provides \$1,295,319,000 for the Office of the Detention Trustee (ODT), which is equal to the budget request.

*Immigration workload.*—ODT appears to have significant difficulties accurately estimating its annual funding requirements, particularly with respect to its immigration workload. If additional immigration-related funding is required in excess of the amount provided herein, the Department may submit a reprogramming request to address those needs, consistent with section 505 of this Act.

*Population and cost data.*—ODT is directed to report to the House and Senate Committees on Appropriations on a quarterly basis the projected and actual number of individuals in the detention system, the annualized costs associated with those individuals and the costs reimbursed from other Federal agencies.

*District of Columbia prisoner reimbursement.*—The Department's prisoner reimbursement agreement with the District of Columbia must be made consistent with the requirements set forth in the National Capital Revitalization Act of 1997. The Department is urged to work with the District government to review and update the reimbursable agreement in order to achieve the necessary consistency. The Department should immediately notify the House and Senate Committees on Appropriations if the updated agreement will require additional resources to implement.

#### OFFICE OF INSPECTOR GENERAL

The bill provides \$75,681,000 for the Office of Inspector General. The Inspector General is expected to continue with diligent oversight of the Department's hiring, enforce-

ment, prosecutorial and policy decision making in order to ensure integrity and public confidence.

The Inspector General is commended for its continuing oversight of the FBI's use of National Security Letters and PATRIOT Act Section 215 orders, and is expected to continue its assessment of FBI progress in implementing corrective actions in these areas.

Within funds provided, the Inspector General is expected to continue its review of the FBI's development and implementation of the Sentinel case management system, and to assess whether cost, schedule, performance and technical benchmarks are being met and whether the FBI has resolved concerns identified in its previous audits.

#### UNITED STATES PAROLE COMMISSION

##### SALARIES AND EXPENSES

*Criminal Division.*—Within available funds, \$1,800,000 is directed to be allocated for an additional 10 attorneys, six analysts and associated support personnel in the Criminal Division to investigate and prosecute individuals who violate Federal laws on serious human rights crimes, including but not limited to criminal statutes on genocide, torture and war crimes.

##### VACCINE INJURY COMPENSATION TRUST FUND

The bill provides \$7,833,000 for the Vaccine Injury Compensation Trust Fund.

##### SALARIES AND EXPENSES, ANTITRUST DIVISION

The bill includes \$157,788,000 in budget authority for the Antitrust Division, \$7,197,000 above the budget request, which is provided to lift the hiring freeze imposed during fiscal year 2008. This appropriation is offset by \$157,788,000 in pre-merger filing fee collections, resulting in a direct appropriation of \$0.

##### SALARIES AND EXPENSES, UNITED STATES ATTORNEYS

The bill provides \$1,836,336,000 for the salaries and expenses of the United States Attorneys in fiscal year 2009.

Justice rooted in law, not in politics or favor, is a founding principle of our Nation. It is deeply troubling that partisan political considerations were a factor in the removal of several U.S. Attorneys fired in 2006. These actions severely damaged the Department's credibility. It is incumbent upon the Attorney General and U.S. Attorneys to restore public confidence in the integrity and impartiality of their prosecutorial decisions.

*Ethical and professional standards.*—U.S. Attorneys are vested with enormous power, and it is their sworn duty to enforce the laws of this country fairly and impartially and to uphold the highest standards of ethical and professional conduct. The Inspector General and the Office of Professional Responsibility are directed to review allegations of misconduct and wrongdoing by U.S. Attorneys, and each to provide on a quarterly basis to the House and Senate Committees on Appropriations a summary report on such incidents investigated and any significant findings issued as a result of the investigations.

*Child exploitation investigations and prosecutions.*—The additional \$5,000,000 above the budget request is made available to support the hiring of additional assistant U.S. Attorneys to increase investigations and prosecutions of offenses related to the sexual exploitation of children, as authorized by the Adam Walsh Child Protection and Safety Act of 2006. Not less than \$33,600,000 shall be available for this purpose in fiscal year 2009.

*Prosecution of serious crimes in Indian Country.*—Due to evidence of declining rates of Federal investigation and prosecution of serious crimes in Indian Country, the Attorney General is directed to report to the House and Senate Committees on Appropriations, within 60 days of enactment of this Act, on the strategic and resource allocation plans for the prosecution of serious crimes in Indian Country, including murder and rape, which are reported to Federal law enforcement.

#### UNITED STATES TRUSTEE SYSTEM FUND

The bill provides \$217,416,000 for the United States Trustee System Fund. The appropriation is offset by \$160,000,000 in offsetting fee collections and \$5,000,000 derived from interest on investments in U.S. securities, resulting in a direct appropriation of \$52,416,000.

*Data-enabled "smart forms."*—Developed jointly by the United States Trustee Program and the Administrative Office of the Courts, data-enabled "smart forms" for filing bankruptcy petitions and schedules are cost-effective tools which are encouraged to be used to improve efficiencies in the bankruptcy system.

#### SALARIES AND EXPENSES, FOREIGN CLAIMS SETTLEMENT COMMISSION

The bill provides \$1,823,000 for salaries and expenses of the Foreign Claims Settlement Commission in fiscal year 2009.

#### FEES AND EXPENSES OF WITNESSES

The bill provides \$168,300,000 for Fees and Expenses of Witnesses, which is equal to the budget request.

#### SALARIES AND EXPENSES, COMMUNITY RELATIONS SERVICE

The bill provides \$9,873,000 for salaries and expenses of the Community Relations Service in fiscal year 2009.

#### ASSETS FORFEITURE FUND

The bill provides \$20,990,000 for the Assets Forfeiture Fund, which is equal to the budget request.

#### UNITED STATES MARSHALS SERVICE

##### SALARIES AND EXPENSES

The bill provides \$950,000,000 for the USMS, which is \$16,883,000 above the budget request.

*Adam Walsh enforcement.*—The Marshals Service has not requested the resources needed to carry out the responsibilities assigned to it under the Adam Walsh Child Protection and Safety Act. To fulfill these responsibilities, the bill provides an increase of \$5,187,000, which should be used to improve sex offender targeting through the National

Sex Offender Targeting Center and related efforts. These resources are in addition to the \$16,970,000 provided for Adam Walsh enforcement in P.L. 110-252. Together, these appropriations will provide the Marshals with a total of \$22,157,000 available for Adam Walsh enforcement activities in 2009.

*Judicial security.*—The Marshals have reported that 2008 is on pace to record the highest annual number of judicial threats and inappropriate communications in history. To address this escalating workload, the Marshals are provided \$4,000,000 to analyze and investigate threats against the Judiciary.

In addition, the Marshals are urged to develop an aggressive schedule for the rollout of state-of-the-art detection capabilities at pilot high-threat courthouses around the country. These technologies will enhance courthouse security through the use of proven equipment, training and procedures to screen for and detect evolving threats. Special consideration should be given to those technologies that have been deployed and proven effective by other Federal agencies.

*Regional Fugitive Task Forces (RFTF).*—The bill provides an increase of \$10,000,000 to the RFTF program for the establishment of new, or expansion of existing, RFTFs. Distribution of these resources should be based on fugitive workload, giving emphasis to workload created by the Adam Walsh Act.

#### CONSTRUCTION

The bill provides \$4,000,000 for Marshals Construction, which is \$1,696,000 above the budget request. These funds should be applied to the highest priority renovation projects identified by the Marshals.

#### NATIONAL SECURITY DIVISION

##### SALARIES AND EXPENSES

The bill provides \$83,789,000 for the National Security Division (NSD), which is equal to the budget request.

*Foreign Intelligence Surveillance Act (FISA) backlog.*—NSD is processing over 2,200 FISAs per year with only 100 attorneys, which has led to the creation of a backlog among non-emergency FISA requests. NSD is directed to submit a report on the trend in FISA backlog numbers over the past 5 fiscal years and NSD's plan for addressing the backlog, beginning in fiscal year 2009. The report shall be submitted to the House and Senate Committees on Appropriations no later than 60 days after the enactment of this Act.

*Intelligence oversight.*—NSD shall give immediate notice to the House and Senate Committees on Appropriations if there are any significant deviations from the current plan to perform 18 National Security Reviews of FBI investigative activity in fiscal year 2009.

*Foreign investment reviews.*—NSD is directed to submit a report on the Division's foreign investment review workload and the Division's ability to address this workload in the absence of additional requested resources. The report shall be submitted to the House and Senate Committees on Appropriations no later than 60 days after the enactment of this Act.

#### INTERAGENCY LAW ENFORCEMENT

##### INTERAGENCY CRIME AND DRUG ENFORCEMENT

The bill provides \$515,000,000 for the Organized Crime and Drug Enforcement Task Forces, which is \$16,581,000 below the budget request.

#### FEDERAL BUREAU OF INVESTIGATION

##### SALARIES AND EXPENSES

The bill provides \$7,065,100,000 for the salaries and expenses of the Federal Bureau of

Investigation (FBI), which is equal to the budget request.

*Deployment aircraft.*—The funding level provided does not include \$20,040,000 that was requested for an emergency deployment aircraft lease. The costs of that lease were funded in P.L. 110-252.

*Pay modernization.*—The bill does not include the requested funds for pay modernization because it remains unclear how the Bureau can implement an Intelligence Community-driven evaluation and compensation system within an organization with significant resources outside of the Intelligence Community. Once this and other issues are clarified, requests for this purpose may be resubmitted for consideration in the fiscal year 2010 budget.

*National Security Analysis Center (NSAC).*—The budget request included an enhancement of \$10,777,000 for NSAC. This funding has not been included in the bill due to two major concerns. First, FBI's written materials relating to NSAC expansion reference plans to engage in controversial "predictive" modeling practices that could violate the privacy and civil liberties of law abiding U.S. citizens. Second, the FBI has not completed, or submitted, the planning and implementation documentation necessary to ensure that the NSAC will be responsibly developed and deployed in accordance with policy, schedule and budget requirements.

If the FBI believes that enhanced NSAC funding is required, those funds may be requested via reprogramming or in a future appropriation request. However, the provision of those funds will be conditioned on the receipt and consideration of the following items: written clarification of NSAC's intentions with respect to the use of "predictive" behavior modeling; a detailed spending plan and deployment schedule with dates for key milestones; and completed planning documentation, including an Exhibit 300, an updated System of Records Notice, a Privacy Impact Assessment and a concept of operations or other similar implementation guide.

*Intellectual property enforcement.*—The bill provides an increase of \$9,393,000 for additional agents, dedicated solely to investigating criminal intellectual property rights (IPR) cases, in the same localities of the Department's Computer Hacking and Intellectual Property (CHIP) units. The funding level provided will allow the addition of two agents in each of the field offices in the same locality as those CHIP units which the Attorney General has determined most merit assistance in IPR investigations, with no less than 26 agents assigned for this purpose.

The funding level also provides for the creation of an additional and distinct operational unit at FBI Headquarters with at least 5 full-time, permanent agents dedicated to working with the Department of Justice's Computer Crime and Intellectual Property Section solely on complex, multi-district and international criminal IPR cases. The agents appropriated for this section shall solely investigate and support the criminal prosecution of violations of federal intellectual property laws, including Title 17 United States Code, sections 506 and 1204; Title 18 U.S. Code, sections 1831, 1832, 2318, 2319, 2319A, 2319B, and 2320.

*Mortgage fraud investigations.*—The FBI's White Collar Crime program is straining to keep pace with a mortgage fraud caseload that has increased by more than 55 percent since 2003. To address this problem, the bill provides an increase of \$10,000,000 for the FBI to dedicate additional agents to mortgage

fraud investigations and add to existing mortgage fraud task forces and working groups.

*Child exploitation investigations.*—The bill provides an increase of \$19,000,000 for FBI child exploitation investigations, including an increase of no less than \$9,000,000 for the Innocent Images program.

*Foreign human rights violators.*—The FBI is directed to increase efforts to investigate and support the criminal prosecution of serious human rights crimes committed by foreign nationals who have found safe haven in the United States. The bill provides an increase of \$1,500,000 to support these activities.

*Criminal Justice Information Services (CJIS) Division.*—CJIS is provided \$558,000,000, including \$307,000,000 in appropriated funds and \$251,000,000 in user fees. As in prior years, under no circumstances is the FBI to divert funding collected through CJIS user fees for any purpose other than CJIS, its refreshment plan or a subsequent modernization plan for the current facility.

*Retention and relocation.*—The FBI is encouraged to continue working with the FBI Agents Association to ameliorate the impact on affected agents of the FBI's Field Office Supervisory Term Limit policy.

*Foreign intelligence collection.*—The FBI's new tasking to collect non-case related foreign intelligence may dilute the FBI's primary missions and cause coordination problems with other agencies whose missions have always included foreign intelligence activities. The FBI is directed to report to the House and Senate Committees on Appropriations within 60 days of the enactment of this Act on how the Bureau will engage in foreign intelligence collection without duplicating or conflicting with activities already underway at those other agencies with longstanding foreign intelligence missions.

*Long-term planning.*—The FBI has experienced a very high rate of budget growth over the past seven years but seems unable to clearly articulate how much longer this kind of growth is going to be necessary. The "end-state capabilities" already submitted by the FBI are too vaguely defined to be used in strategic planning or budgetary decision making. Consequently, the FBI is directed to develop more discrete, quantifiable end-state goals and to submit those goals to the House and Senate Committees on Appropriations together with the fiscal year 2010 budget request.

*National Security Letters (NSLs).*—There has been little evidence that the FBI has a plan in place to work with third party information providers to educate them about their responsibilities and to reduce the incidence of mistaken productions of content and other information under an NSL. The FBI is directed to report to the House and Senate Committees on Appropriations within 60 days of the enactment of this Act on the steps it is taking to reduce and prevent third party NSL errors.

*Sentinel.*—The FBI is expected to inform immediately the House and Senate Committees on Appropriations of any significant deviations from the planned budget or schedule for the Sentinel project.

*FBI Headquarters building.*—The J. Edgar Hoover Building is inadequate for the current FBI Headquarters workforce, causing dispersal of FBI staff to over 16 annex offices. The building also lacks adequate setback and other security features, which puts FBI operations and personnel at unacceptable risk. The GAO is directed to review the Hoover Building, and associated off-site loca-

tions, and provide an analysis of the FBI's ability to fulfill its mission and security requirements under present conditions. The GAO study should also assess the benefits of a consolidated headquarters facility.

*Work force distribution.*—The FBI was extremely tardy in submitting a workforce study required by the statement accompanying P.L. 110-161. The FBI is directed to take all necessary steps to ensure that such tardiness does not recur with this year's reporting requirements.

Achieving the proper distribution of staff to field offices around the country remains a concern. As the FBI considers the distribution of agents received in this appropriation, the Bureau is encouraged to consider the allocation of agents to locations that would alleviate any unjustified disparities in the number of personnel among offices.

#### CONSTRUCTION

The bill provides \$153,491,000, which is \$110,500,000 above the budget request.

*Program increases.*—Within funds provided, \$9,800,000 is for improvements at the FBI Academy and \$41,000,000 is for the Terrorist Explosives Device Analytical Center.

#### DRUG ENFORCEMENT ADMINISTRATION

##### SALARIES AND EXPENSES

The bill provides \$1,939,084,000 for the Drug Enforcement Administration (DEA), which is \$2,500,000 above the budget request.

*Drug Flow Attack Strategy (DFAS).*—The bill fully supports the DFAS request, with the exception of funds to purchase a helicopter. Funding for that purpose was provided in P.L. 110-252.

*Diversion control program.*—Full funding of \$244,450,000 is provided for the Diversion Control program, which is fully offset with fee collections. This funding level includes an increase of \$498,000 for the Diversion Control portion of DFAS.

*Mobile Enforcement Teams (MET).*—The bill provides an increase of \$10,000,000 to allow DEA to begin rebuilding the MET program, both through the establishment of additional teams and by increasing the funds available for existing teams. The activities of MET should continue to include a focus on methamphetamine enforcement.

*Drugs on public lands.*—DEA is urged to work with Federal land management agencies, including the U.S. Forest Service and National Park Service, and State and local law enforcement partners to aggressively and permanently eradicate marijuana and other drug operations on public lands. DEA is also strongly urged to increase the resources provided to investigate, apprehend and prosecute drug trafficking on public lands and to target those resources to areas with the highest concentration of trafficking activity.

#### BUREAU OF ALCOHOL, TOBACCO, FIREARMS AND EXPLOSIVES

##### SALARIES AND EXPENSES

The bill provides \$1,054,215,000 for the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF), which is \$26,401,000 above the budget request.

*Program increases.*—The bill provides a total increase over the budget request of \$26,401,000, of which no less than \$200,000 is for the hiring of additional regulation writers to address ATF's pending regulatory backlog and no less than \$5,000,000 is for Project Gunrunner and other firearms trafficking efforts targeting Mexico and the border region. Project Gunrunner has been an effective tool in combating anti-smuggling efforts along the Southwest border, and ATF

is encouraged to make sure that sufficient resources are allocated to this important program.

*Ballistics imaging and identification.*—High-tech ballistics imaging and identification capabilities are very valuable and have been improved over time by significant investments on the part of State and local law enforcement partners in building the current data base. ATF is encouraged to ensure that ballistic imaging technology is routinely refreshed, upgraded and deployed to those State and local partners. Further, ATF is expected to ensure that upgrades and replacements for ballistic imaging technology take into account the resources already invested by those State and local partners.

*Conversion of records.*—ATF is urged to complete the conversion of tens of thousands of existing Federal firearms dealer out-of-business records from film to digital images at the ATF National Tracing Center.

*Disposition of historical documents.*—ATF is currently in possession of a letter signed by Alexander Hamilton on December 18, 1790. This letter reflects Hamilton's efforts to pay down Revolutionary War debt through the imposition of duties on distilled liquor. ATF is directed to provide immediately this letter to the National Archives and Records Administration for historical preservation and study.

*Canine transport conditions.*—ATF headquarters' recent decision to shrink the size of the vehicles used by the 34 ATF explosive detection canine teams as a cost-savings mechanism is both disappointing and short-sighted. DOJ spends, at a minimum, \$20,000 to train these assets, which are housed in agent vehicles while on deployment and while working to ensure public safety. The canines require reasonable comfortable space to not only work, but also to rest if they are to be effective when called upon to perform. ATF shall only purchase vehicles for explosive detection canine teams that provide no less usable space for the dog than the vehicles they are meant to replace. ATF shall submit a report to the House and Senate Committees on Appropriations 30 days after enactment of this Act certifying that this directive is being met.

#### FEDERAL PRISON SYSTEM

##### SALARIES AND EXPENSES

The bill provides \$5,595,754,000 for the salaries and expenses of the Federal Prison System for fiscal year 2009, which is an increase of \$160,000,000 above the budget request.

Several years of insufficient budget requests have led to a critical juncture for the Federal Prison System—in terms of safety and security for inmates and staff. The additional funds are provided to support adequate correctional staffing levels and to address shortfalls in inmate programs. Within 30 days of enactment of this Act, the Department is directed to submit a spend plan to the House and Senate Committees on Appropriations, with a proposed distribution of funds across the four Bureau of Prisons (BOP) decision units and which specifically details the allocation of the \$160,000,000 funding increase. Further, the Government Accountability Office (GAO) is directed to review BOP's methods for determining resource requirements, including pricing of fixed costs such as utilities and medical care, as well as estimates of the inmate population. The GAO should make recommendations to the House and Senate Committees on Appropriations on steps BOP should take to develop more accurate projections of funding requirements no later than August 31, 2009.

**Substance abuse treatment.**—Forty percent of inmates entering Federal prisons have a drug use disorder and require residential drug abuse treatment. Despite the Violent Crime Control and Law Enforcement Act of 1994, which requires such treatment to be provided, an estimated 8,000 eligible inmates were put on the waiting list during fiscal year 2008. The fiscal year 2009 budget request did not address this shortfall. Within amounts appropriated, \$79,200,000 is made available to provide residential and transitional drug abuse treatment for all eligible inmates.

**Inmate education, training and prisoner re-entry.**—Within amounts appropriated, \$138,000,000 is provided to reduce the backlog of inmates waiting to participate in education, vocational training and prisoner re-entry programs, which are cost effective tools in reducing the societal impacts of criminal recidivism.

**Reimbursement for U.S. Immigration and Customs Enforcement (ICE) detainees.**—The Attorney General is directed to work with the Department of Homeland Security to transfer expeditiously the estimated 700 ICE detainees who are currently housed in the Federal Prison System, or to obtain prompt and fair reimbursement from ICE for the costs of incarcerating them. The Attorney General is further directed to report to the House and Senate Committees on Appropriations not later than 60 days after enactment of this Act on actions taken to comply with this direction. In addition, the Attorney General is directed, on a quarterly basis, to report to the Committees on the costs incurred by BOP and the reimbursements received for housing ICE detainees and inmates of other Federal and State agencies.

**Staffing levels and staff-inmate ratios.**—On a monthly basis, the BOP is directed to notify the House and Senate Committees on Appropriations of current correctional officer staffing levels, by facility, and of the staff-inmate ratios for all Federal prisons.

**National Institute of Corrections (NIC).**—The budget proposal to eliminate funding for the NIC is rejected. The NIC provides valuable training and services, including research and evaluation, technical assistance, information sharing and planning to State and local adult corrections agencies, the BOP and other Federal agencies. The Department is encouraged to submit a reprogramming request if sufficient funds are not available within BOP for this effort. To address deficiencies in corrections reporting identified by the U.S. Census Bureau, the NIC is encouraged to work with State corrections agencies to develop better procedures and systems for collecting and maintaining corrections records.

**Inmate medical care.**—The BOP is currently experiencing a shortage of dentists, which is expected to worsen due to retirements and retention difficulties. BOP is directed to report to the House and Senate Committees on Appropriations by February 19, 2009, on its current and projected dentist staffing needs and its plans to address this situation.

**Prevention of sexual misconduct.**—The BOP is to be commended for its work to address and prevent sexual misconduct. With funds provided in previous years, the NIC has made meaningful progress in providing training and technical support to correctional systems throughout the country to eliminate staff sexual misconduct with inmates, provide training in investigating cases, and training the “trainers” in order that employees at every level will be more aware of, and better prepared to deal with, these cases.

The BOP is directed to continue these efforts and to report to the House and Senate Committees on Appropriations by March 31, 2009, on progress made in this area.

**Contracting out.**—The bill includes a general provision to prohibit the use of funds to conduct, process or approve a public-private competition under OMB Circular A-76 for personnel who are employees of the BOP or of Federal Prison Industries, Incorporated. This provision does not prevent BOP from meeting additional bed space needs using State, local, and private existing and new prison capacity.

**Activations and expansions.**—The BOP is expected to adhere to the activation schedule included in its budget submission, and shall notify the House and Senate Committees on Appropriations of any deviations to that schedule.

**BUILDINGS AND FACILITIES**

The bill provides \$575,807,000 for the construction, modernization, maintenance, and repair of prison and detention facilities housing Federal inmates. Within this amount, \$440,000,000 is provided for new prison construction and \$110,627,000 is provided to address the significant backlog of major health and safety repairs in Federal prison facilities. The BOP is directed to provide quarterly reports to the House and Senate Committees on Appropriations on its backlog of maintenance and repairs, and its schedule for addressing them.

**Female inmate facilities.**—Additional capacity for female inmates at new facilities will significantly reduce crowding in this population, thereby enhancing safety and security.

Within funds provided, the BOP is expected to begin site selection and development, environmental assessment and feasibility, planning, and initial design work to build an FCI in Leavenworth, Kansas.

**Reprogramming limitation.**—The bill includes language directing that BOP may not transfer “Buildings and Facilities” appropriations to cover “Salaries and Expenses” costs unless the President certifies that such a transfer is necessary to the national security interest of the United States, and also subjects any such transfer to section 505 of this Act.

**LIMITATION ON ADMINISTRATIVE EXPENSES, FEDERAL PRISON INDUSTRIES, INCORPORATED**

The bill provides a limitation on administrative expenses of \$2,328,000 for Federal Prison Industries, Incorporated. Those who are repaying their debts to society should be provided opportunities to prepare themselves to re-enter society as gainfully employed citizens. The Department is expected to continue to offer meaningful work opportunities to inmates while respecting the interests of small and medium-sized businesses.

**Office of Justice Programs (OJP) budgetary and programmatic transparency.**—The OJP is directed to provide detailed personnel, contract and other cost information, by program, for Management and Administration and Office of Audit, Assessment, and Management (OAAM) activities in its fiscal year 2010 budget justifications.

**Fairness and objectivity in the award of competitive grants.**—Allegations have been leveled that the Department steered fiscal year

2007 juvenile justice grants to favored recipients instead of awarding them to deserving grantees who ranked more highly in a peer-reviewed process. The Department is directed to report to the House and Senate Committees on Appropriations within 30 days of enactment of this Act, on the findings of its internal review of the 2007 grants process and awards, including corrective actions taken. The Inspector General is also directed to conduct an independent review of this 2007 grant award process and report expeditiously to the same Committees.

*Transparency in research decisions.*—The OJP is expected to improve transparency in research funding decisions, and is directed, within 60 days of enactment and prior to obligation of any funds, to provide a detailed report and spend plan on all National Institute of Justice (NIJ) and the Bureau of Justice Statistics (BJS) research activities, including their funding sources. The Department is also expected to produce detailed justification information on the research priorities assumed in the fiscal year 2010 budget request.

*National Crime Victimization Survey (NCVS).*—Within funds provided for BJS, \$26,000,000 is made available for the NCVS, which since the 1970s has been a critical resource to improve the understanding of the costs and context of crime victimization in the United States. To improve the usefulness of the NCVS, BJS is urged to implement the recommendations of the National Research Council's recent report, *Surveying Victims: Options for Conducting the National Crime Victimization Survey*. NIJ is also encouraged to implement the Council's recommendation to develop, promote and coordinate sub-national victimization surveys.

*NIJ sole-source contracts.*—The Attorney General is directed to submit to the House and Senate Committees on Appropriations, within 90 days of enactment of this Act, a plan that establishes competitive processes, criteria, and oversight measures to ensure that NIJ awards for studies, seminars and other activities are conducted in a fair, objective and ethical manner.

*Regional Information Sharing System (RISS).*—Within amounts provided for RISS, funds shall be available to continue funding existing local-to-local law enforcement data and information sharing programs focused on solving routine crimes, especially in rural areas, by sharing law enforcement information not categorized as criminal intelligence by the owning law enforcement agency.

*DNA and forensics.*—Within funds appropriated for NIJ, \$3,000,000 is for DNA and forensics research, of which \$500,000 shall be transferred to the National Institute of Standards and Technology Office of Law Enforcement Standards to support the development of standards for quality and proficiency in Federal, State and local crime laboratories.

*Forensic science education.*—Based on findings of a Department panel on forensic science education, the NIJ established the Forensic Science Education Program Ac-

creditation Commission. However, no Federal link has yet been established between the Department and the Commission to implement the recommended universal standards. Within 60 days of enactment of this Act, the NIJ is directed to report to the House and Senate Committees on Appropriations on the actions taken to implement recommended standards.

*Victim notification.*—The bill provides \$12,000,000 for the Bureau of Justice Assistance to continue the State Automated Victim Notification grant program to allow States to join the National Victim Notification Network. No funding may be utilized from within the Victims Assistance Program for this initiative and funds provided under this heading shall require a 50 percent match from State, local, and private sources.

*Pregnant and parenting offenders.*—The NIJ is encouraged to examine the potential of family-based treatment as an effective sentencing alternative for non-violent drug offenders who are pregnant or the parents of minor children.

*Salaries and expenses.*—The bill establishes a new salaries and expenses account to fund the management and administrative costs of OJP and other Justice Department grant programs. No administrative overhead costs shall be deducted from the programs funded from this account.

STATE AND LOCAL LAW ENFORCEMENT ASSISTANCE

The bill provides \$1,328,500,000 for State and Local Law Enforcement Assistance programs for fiscal year 2009, as follows:

(in thousands of dollars)

<i>Program</i>	<i>Conference</i>
Byrne Memorial Justice Assistance Grants .....	\$546,000

*Edward Byrne Memorial Justice Assistance Grant Program (JAG).*—The bill provides \$546,000,000 for JAG formula grants. Funding under this program is authorized for law enforcement programs; prosecution and court programs; prevention and education programs; corrections and community corrections programs; drug treatment and enforcement programs; planning, evaluation, and technology improvement programs; and crime victim and witness programs, other than compensation. Funding is not available for vehicles, vessels, or aircraft; luxury items; real estate; or construction projects. Of the amount provided, \$2,000,000 is for intelligence training for State and local law enforcement entities; and \$5,000,000 is for the National Institute of Justice to help local units of government to identify, select, develop, modernize and purchase new technologies for use by law enforcement.

Within the funds provided, \$7,000,000 shall be available to reimburse State and local law enforcement for security and related costs, including overtime, associated with the security requirements required to protect the President-elect during the Presidential transition period. These funds shall be allocated by the Department of Justice to State and local law enforcement entities that can document increased costs over and above normal law enforcement operations, which are directly attributable to security for the President-elect. Within the funds provided, \$20,000,000 is also included to reimburse State and local governments for security and other expenses related to the 2009 Presidential Inauguration. Not later than 30 days after enactment of this Act, the Department is directed to provide a report and spend plan to the House and Senate Committees on Appropriations, which details the criteria and methodology that will be used to award these grants.

*Byrne competitive grants.*—\$30,000,000 is made available for Byrne competitive, peer-reviewed grants to programs of national significance to prevent crime, improve the administration of justice or assist victims of crime. Within 90 days of enactment of this Act, the OJP is directed to provide a report and spend plan to the House and Senate Committees on Appropriations, which details the criteria and methodology that will be used to award these grants. It is expected that national programs that have previously received funding under the Byrne discretionary program will be eligible to compete for funding under this competitive grant program, including programs for which specific amounts are designated in this Act.

*Byrne discretionary grants.*—The bill provides \$178,500,000 for Byrne discretionary grants to prevent crime, to improve the criminal justice system, to provide victims' services and for other similar activities. *Justice for All Act—capital litigation and wrongful prosecution review.*—The bill provides \$5,500,000 for capital litigation and wrongful prosecution review grants. Of this amount, \$2,500,000 is for Capital Litigation Improvement Grants, authorized by section 426 of Public Law 108-405. In addition, \$3,000,000 is made available for a new program of competitive grants to public and non-profit entities that work to exonerate people who have been wrongfully convicted. Within 90 days of enactment of this Act, the OJP is directed to provide a report and spending plan to the House and Senate Committees on Appropriations, which details the criteria and methodology that will be used to award these new grants.

*Tribal government funding.*—The bill rejects the proposal to discontinue specific set-asides for tribal law enforcement, correctional facility construction, courts and juvenile justice programs. There is no evidence that the Department consulted with tribal governments on this proposal. These existing OJP and COPS programs are critical to implementing the public safety and justice priorities of tribal leaders throughout Indian Country. Further, it is unacceptable that the Department failed, in 2008, to complete a review and report to the House and Senate Appropriations Committees on the state of existing tribal detention facilities and the need for new capacity. By May 15, 2009, the Department is directed to complete this review and to report to the Appropriations Committees on its findings, including recommendations and actions that have or will be taken to address these needs.

*Hal Rogers Prescription Drug Monitoring Program.*—The bill includes \$7,000,000 for the Prescription Drug Monitoring Program to assist States in building or enhancing prescription drug monitoring systems, facilitating the exchange of information among States, and providing technical assistance and training on establishing and operating effective prescription drug monitoring programs. The OJP is expected to work with the DEA to implement this program.

*Prison rape prevention and prosecution.*—The bill includes \$12,500,000 for prison rape prevention and prosecution activities. The Attorney General is required to promulgate na-

tional standards for the prevention of and response to sexual abuse in all confinement settings based on the recommendations of the National Prison Rape Elimination Commission. These funds are provided for purposes authorized under Public Law 108-79, such as the work of the Commission; mandated statistics, data and research; prevention and prosecution assistance; and grants to protect inmates and safeguard communities. The Department shall report to the House and Senate Committees on Appropriations not later than 90 days after the enactment of this Act on the proposed distribution of funding among authorized activities under this program.

*Economic, high-tech and cybercrime prevention.*—The bill provides \$18,000,000 for competitive grants to support and train State and local law enforcement agencies in the prevention, investigation and prosecution of economic, high-tech and Internet crimes, which shall be administered by the Bureau of Justice Assistance. Within funds provided, up to \$3,000,000 is available for new competitive grants to State and local law enforcement entities to combat these crimes, including the intellectual property crimes of counterfeiting and piracy. None of the funds provided for this program shall be diverted for research.

*Missing Alzheimer's Disease Patient Program.*—The bill provides \$2,000,000 for Missing Alzheimer's Disease Patient Program grants, which shall be awarded competitively and shall be administered by the Bureau of Justice Assistance.

*National Motor Vehicle Title Information System Program.*—The Department is directed to report to the House and Senate Committees on Appropriations within 90 days of enactment, on the status of the National Motor Vehicle Title Information System program, and its recommendations to achieve implementation.

*SEARCH National Technical Assistance and Training Program.*—The Department is encouraged to support efforts to assist States in the development and use of information through criminal justice information systems to accelerate the automation of their fingerprints identification processes and criminal justice data identification processes

so that State and local law enforcement which are compatible with the FBI's Integrated Automated Fingerprint Identification System.

*Salaries and expenses.*—The bill establishes a new salaries and expenses account to fund the management and administrative costs of OJP and other Justice Department grant programs. No administrative overhead costs shall be deducted from the programs and projects funded from this account.

WEED AND SEED PROGRAM FUND

The bill provides \$25,000,000 for the Weed and Seed Program for fiscal year 2009.

*Fairness and objectivity in the award of competitive grants.*—As discussed under the Justice Assistance account, the Department is directed to report to the House and Senate Committees on Appropriations within 30 days of enactment of this Act, on the findings of its internal review of the 2007 grants process and awards, including corrective actions taken. The Inspector General is also directed to conduct an independent review of this 2007 grant award process and report expeditiously to the same Committees.

*Interoperable Standards.*—Significant progress has been made in establishing functionality standards for the Project 25 Inter-RF-Subsystem Interface [ISSI], Console Interface, and Fixed Station Interface for land mobile radio systems. Funds provided to NIST/OLEs for standards development should be used to complete the remaining aspects of these interfaces, including conformance and interoperability test standards for each of the interfaces. In addition, funds should be used to begin the development of standards for emerging technologies such as VoIP applications for public safety operations.

*Methamphetamine enforcement and clean-up.*—The bill includes \$39,500,000 for grants to address public safety associated with methamphetamine manufacturing, sale, and use. In making grants under this program, the Department is encouraged to support community-based efforts to educate the public about emerging drug threats through research-based prevention methods or to enhance the ability of a community to prevent or reduce drug abuse, including thorough training, education, and technical assistance. Within funds provided, \$5,000,000 is made available to reimburse the Drug Enforcement Administration (DEA) for assist-

ance to State and local law enforcement for proper removal and disposal of hazardous materials at clandestine methamphetamine labs, including funds for training, technical assistance, a container program, and purchase of equipment. The DEA acknowledges that prior year funding provided for this purpose is sufficient to fund these activities through the third quarter of fiscal year 2009. The accompanying table details funding for Congressionally designated activities related to methamphetamine enforcement, which are incorporated by reference in the bill:

**DNA backlog reduction.**—The bill provides \$156,000,000 for grants to strengthen State and local government DNA collection and analysis systems, which can be vital to successfully prosecuting the guilty and protecting the innocent from wrongful prosecution. Within funds provided, \$151,000,000 is for Debbie Smith DNA backlog reduction grants, and \$5,000,000 is for post-conviction DNA testing grants. Within amounts provided for Debbie Smith grants, the Department is directed to address the national shortage of Sexual Assault Nurse Examiners, who provide medical treatment to sexual assault victims and are properly trained to collect forensic evidence.

**Second Chance Act offender re-entry programs.**—The bill provides \$25,000,000 to reduce criminal recidivism by providing grants to establish and expand offender re-entry programs. Within the funds provided, \$15,000,000 is made available for grants to State and local governments for adult and juvenile offender demonstration projects to coordinate re-entry efforts and establish best practices. Allowable uses of these funds include employment services, housing, substance abuse treatment, family programming, mentoring, and victim services. In addition, \$10,000,000 is provided for grants to nonprofit organizations for mentoring and transitional services to help offenders reintegrate into society. The Department is expected to continue to work in collaboration with the Departments of Labor, Health and Human Services, Housing and Urban Development, and Education in the implementation of offender re-entry programs.

**NICS Improvement Amendments Act of 2007.**—The bill includes \$10,000,000 for grants to assist States and tribal governments in updating the National Instant Criminal Background Check System with the criminal history and mental health records of individuals who are precluded from purchasing or possessing guns.

**Criminal history record upgrades.**—In addition to the funds provided for NICS grants, the bill provides \$10,000,000 for grants to ensure that accurate criminal history records are available for use in law enforcement. This program helps States build their infrastructure to connect to national record check systems both to supply information and to conduct the requisite checks.

**Violent gangs and gun crimes.**—The bill provides \$15,000,000 for competitive grants to State and local law enforcement to combat violent crime, with special emphasis on areas plagued by violent gangs.

**Bulletproof vests.**—The bill provides \$25,000,000 to assist State and local law enforcement agencies in purchasing bullet and stab resistant vests. Of this amount, \$1,500,000 shall be transferred to the National Institute of Standards and Technology Office of Law Enforcement Standards for research, testing and evaluation. The bill provides OJP with discretion to grant a partial or full waiver of the matching requirements for bulletproof vests awards to State and local law enforcement agencies upon satisfactory, documented demonstration of severe fiscal distress which significantly impacts a law enforcement agency's ability to provide services.

**Tribal law enforcement grants.**—The bill includes \$20,000,000 for hiring, equipment and training for tribal law enforcement officers.

**Secure Our Schools Act.**—The bill includes \$16,000,000 for grants for equipment such as metal detectors, locks, lighting and other deterrent measures; security assessments; security training of personnel and students;

**Child Sexual Predator Elimination.**—The bill provides \$18,000,000 for grants to State and local governments to locate, arrest and prosecute sexual predators. The COPS Office is directed to coordinate with the U.S. Marshals and the National Center to Protect Missing and Exploited Children to develop a program that includes detection, investigation, apprehension, and prosecution of sex offenders who victimize children. The grants should assist State and local law enforcement entities to focus on sex offenders who fail to register and those who prey upon children. Within funds provided, \$5,000,000 is made available for sex offender management, and \$1,000,000 is for the National Sex Offender Registry.

**Salaries and expenses.**—The bill establishes a new salaries and expenses account to fund the management and administrative costs of COPS and other Justice Department grant programs. No administrative overhead costs shall be deducted from the programs and projects funded from this account.

#### SALARIES AND EXPENSES

To achieve greater transparency, efficiency and accountability in the management, administration and oversight of the Justice Department grant programs, there is established a new salaries and expenses account within State and Local Law Enforcement Activities to fund the management and administrative costs of the Justice Department grant programs. For this purpose, \$174,000,000 is provided, of which \$14,000,000 is for the Office on Violence Against Women (OVW); \$130,000,000 is for the Office of Justice Programs (OJP); and \$30,000,000 is for the Community Oriented Policing Services Office (COPS). In addition, \$21,000,000 is made available for the Office of Audit, Assessment, and Management (OAAM) for grants management oversight. The total amount available for management and administration of such programs shall not exceed \$195,000,000. Within funds provided, OAAM is expected to develop its capacity to evaluate, in coordination with the National Institute of Justice, the effectiveness of programs and projects funded by OJP, OVW and the COPS Office, using rigorous research and evaluation methods which generate valid evidence on which crime and violence prevention strategies are most effective.

#### TITLE III—SCIENCE

##### OFFICE OF SCIENCE AND TECHNOLOGY POLICY

The bill provides \$5,303,000 for the Office of Science and Technology Policy (OSTP). Not later than 120 days after the enactment of this Act, the reports identified below shall be submitted to the House and Senate Committees on Appropriations. Within the funds provided, OSTP shall:

(1) working with NASA and the Department of Energy, develop a plan for restarting and sustaining U.S. domestic production of radioisotope thermoelectric generator material for NASA's future science and exploration missions;

(2) working with NASA and NOAA, develop a plan and program to encourage commercial solutions to meet space-based Earth and space weather observation requirements of the United States government, similar to the Federal investments in NASA's commercial orbital transportation services (COTS) program. Such report shall consider the efficacy of providing appropriated funds to commercial entities to pursue low-cost atmospheric, environmental or space weather monitoring systems, and whether such funding should be offered to commercial entities in exchange for later concessionary rates on weather, climate or space weather data purchasers from successful vendors; and

(3) convene a series of meetings to coordinate the research and development of the next generation of ground-based radar and to report the results of the meetings and a budget plan.

NATIONAL AERONAUTICS AND SPACE  
ADMINISTRATION  
AGENCY SUMMARY

*Reporting of cost, schedule and content for NASA research and development projects.*—To better understand the underlying issues common to NASA's performance on major projects and to develop a process for identifying corrective action, the Fiscal Year 2008 Consolidated Appropriations Act mandated the Government Accountability Office (GAO) to report on the status of large-scale NASA programs, projects and activities. This report is to be delivered to the Congress semi-annually, the first of which shall be delivered in advance of the annual budget submission of the President for fiscal year 2010. To that end, NASA is directed to cooperate fully and to provide timely program analysis, evaluation data and relevant information to the GAO so that it can conduct this review and meet the annual Congressional mandate. Such information includes, but is not limited to, copies of preliminary cost estimates, access to relevant online agency applications, databases, and web portals, and access to information from contractor and agency personnel.

*Breach reporting.*—Pursuant to section 103 of Public Law 109-155, the NASA Authorization Act of 2005, NASA is required to deliver several reports to the appropriate authorizing committees when project costs grow in excess of certain thresholds. NASA shall submit concurrently to the House and Senate Committee on Appropriations the reports required by section 103 of Public Law 109-155.

*Space Shuttle transition and retirement costs.*—To ensure the Congress has a complete accounting of the full costs associated with Space Shuttle transition and retirement, NASA is directed to develop an estimate to include:

(1) not only those funds necessary within the Space Shuttle program, but all funds needed outside the Space Shuttle program that are necessary to support Space Shuttle transition and retirement activities;

(2) funds necessary under Cross Agency Support needed to support transition and re-

tirement, including environmental compliance and remediation, of the Space Shuttle program;

(3) the gross and net proceeds from exchange sales of excess Space Shuttle equipment;

(4) the costs to maintain required facilities at Kennedy Space Center during the gap in human spaceflight;

(5) the costs associated with preservation of historic properties; and

(6) the costs of workforce transition.

Accordingly, the bill includes a provision that requires NASA to provide by February 2, 2009, to the Committees on Appropriations of the Senate and the House of Representatives a report detailing the total and annual costs by fiscal year of Space Shuttle transition and retirement costs. Such data shall be presented for fiscal years 2006 through 2015 by mission directorate, program, activity and object class.

*Public availability of scientific information.*—NASA is directed to implement all recommendations by the Inspector General related to its review of public availability of scientific information and to report to the House and Senate Committees on Appropriations not later than March 2, 2009.

*Contract oversight and management.*—NASA is directed to incorporate independent cost verification as part of the process by which contracts are selected and monitored. NASA is to report to the House and Senate Committees on Appropriations within 60 days of enactment of the Act of its plans and progress in implementing this directive.

NASA is further directed to notify the House and Senate Committees on Appropriations in writing 30 days prior to allocating funds, or modifying or extending existing contracts that are in excess of 15 percent of the original contract value.

Within 45 days of enactment of this Act, NASA shall provide a report delineating the original baseline amount and schedule for each program with a life cycle cost of \$100,000,000 or more. The report shall also include the current baseline amount, confidence level and financial and delivery schedule for each such program.

*Reprogramming procedures.*—The levels against which reprogrammings are to be reported require further clarification. Accordingly, a summary table by mission directorate delineates each program, project and activity against which the reprogramming thresholds are to be measured. This display in no way curtails NASA's current flexibility in managing its diverse portfolio of research and development and operational programs. Rather, it will require NASA to inform the House and Senate Committees on Appropriations of any deviations, subject to the thresholds specified in section 505 of this Act, from the levels explicit in the agency's budget justification, as adjusted for congressional action, as shown in the accompanying summary table. In any reprogramming request and operating plan, NASA shall include the out-year budget and schedule impacts of the proposed reallocation of funds.

For purposes of the reprogramming guidelines, a new program shall be defined as any program, project or activity for which funds were not requested or provided in the current fiscal year, except those resulting from a competitive selection made pursuant to ongoing programs authorized by Congress. However, implementation of this limitation shall preclude initiation or resumption of activities pursuant to competitive solicitations for ongoing NASA programs if funding for that specific program, project or activity had been previously deferred due to lack of funds and/or were unrequested in the current fiscal year.

*Financial data disclosure.*—NASA shall include the out-year budget and schedule impacts in any reprogramming request, operating plan, and budget submission. In addition, NASA shall include a separate accounting of all program reserves and carryover funds by program, project and activity.

The funding provided for NASA is delineated more fully in the table below and in the account summaries.

## SCIENCE

The bill provides \$4,503,019,000 for science, an increase of \$61,500,000 over the budget request. The amount provided reflects an unallocated adjustment of \$70,898,000 and reflects unobligated balances carried into fiscal year 2009 from fiscal year 2008. NASA shall within 30 days of enactment of this Act provide to the House and Senate Committees on Appropriations its proposed distribution of the unallocated adjustment. In doing so, NASA shall identify offsets that do not result in delays or cancellations of missions in development or the cancellation of any selected projects, and shall not identify as offsets any increases provided above the request expressly provided by Congress.

*Earth science.*—NASA's Earth science portfolio shall have a continuous mixture of small-, medium-, and observatory class Earth science missions that guarantee regular and recurring flight opportunities for the Earth science communities.

*Earth decadal survey missions.*—A total of \$150,000,000 is provided for Earth decadal survey missions. Funds are provided to support on-going activities of the ICESat II and SMAP missions. In addition, funds are provided to accelerate and achieve a level of system development more consistent with the National Academy of Sciences' recommendations. The bill provides funds to accelerate the ICESat II mission so that it will be ready to launch in 2013 concurrently with the SMAP mission, consistent with the National Academy of Sciences' recommendations.

*Landsat data continuity mission (LDCM).*—Funding of \$10,000,000 is provided to initiate development of a thermal infra-red sensor (TSIS). NASA is directed to identify the earliest and least expensive development approach and flight opportunity for TSIS. NASA shall report its findings to the House and Senate Committees on Appropriations not later than March 2, 2009.

NASA is further directed to develop, in cooperation with the Office of Science and Technology Policy (OSTP) and the U.S. Geological Survey (USGS), a plan for a follow-on mission to LDCM consistent with the recommendations of the National Science and Technology Council's report, A Plan for A U.S. National Land Imaging Program. This plan is due to the House and Senate Committees on Appropriations no later than August 31, 2009.

*Earth science applications program.*—The bill provides \$10,000,000 over the budget request for Earth science applications under the Research Opportunities in Space and Earth Sciences (ROSES) program, which shall be available to support new competitively-selected projects under subsection A.28, Earth Science For Decision Making: Gulf of Mexico Region, to be selected during fiscal year 2009.

*Deep Space Climate Observatory (DSCOVR).* The bill provides \$9,000,000 for NASA to refurbish and ensure flight and operational readiness of DSCOVR earth science instruments.

*Servicing Opportunities for Science Missions.* Recognizing the historic successes NASA has achieved through the servicing of the Hubble Space Telescope, the National Research Council's recent report *Launching Science: Science Opportunities Provided by NASA's Constellation System* recommends that "NASA should study the benefits of designing spacecraft intended to operate around Earth or the Moon, or at the libration points for human and robotic servicing." This recommendation parallels the guidance provided by section 502 of the NASA Authoriza-

tion Act of 2008 (P.L. 110-422), which recommends that provision be made for servicing of future scientific spacecraft to the extent practicable. Therefore, it will be critical that the Constellation program demonstrate unique capabilities to maintain synergies between free-flying scientific spacecraft and human spaceflight endeavors. Accordingly, the bill provides \$20,000,000 for NASA to undertake an assessment of the feasibility of using the Constellation architecture to service existing and future observatory-class scientific spacecraft, fully utilizing the unique, core expertise and competencies for in-space servicing developed by the Goddard Space Flight Center and its private sector partners for the Hubble Space Telescope. NASA shall provide to the House and Senate Committees on Appropriations a plan for expenditure of this funding no later than 30 days after enactment of this Act.

*Lunar landers.*—The bill provides, as requested, \$10,000,000 for the selected lunar lander.

*Mars exploration.*—NASA shall continue to engage the Mars community to define missions for the next decade that will lead to a Mars sample return in the 2020s. NASA is encouraged to define a budget profile for the Mars exploration program to support a lander mission and follow-on missions through 2020; consider augmenting technology to be demonstrated as part of the 2013 Scout; and support the small, competitively-selected missions such as Mars Scouts.

*Mars science laboratory (MSL).*—The bill provides the budget request of \$223,331,000 for MSL. Over the past several months, NASA, with the concurrence of the House and Senate Committees on Appropriations, has taken reprogramming actions to address continuing project cost increases and to maintain a launch schedule in 2009; however, slower-than-expected progress, combined with late completion and deliveries of hardware, has contributed to deterioration in schedule performance. As a result, NASA has informed the House and Senate Committees on Appropriations on December 4, 2008, of its decision to delay a 2009 launch. The relative orbital location of Mars and Earth dictates that the next launch opportunity is 2011. However, in order to support a 2011 launch, NASA will need to identify additional resources in the range of \$400,000,000. NASA is directed to provide to the House and Senate Committees on Appropriations not later than February 2, 2009, the impact on the project's baseline development cost estimate consistent with reporting requirements of section 103 of the NASA Authorization Act of 2005 (Public Law 109-155); and proposed resource allocations necessary to meet a 2011 launch. A reallocation of this magnitude can be expected to have significant impacts on other projects, and accordingly, NASA is directed to consult with the space science community to ensure its views are taken into consideration in any decision regarding future funding for MSL.

*Outer planets.*—NASA plans to conduct an outer planet flagship mission in cooperation with the European community, which a launch as soon as practicable. A more detailed plan and projected launch date shall be part of the fiscal year 2010 budget. The bill includes \$101,089,000 for the outer planets program, as requested.

*Hubble Space Telescope.*—The bill provides the full requirement of \$207,697,000 for the operations and upcoming servicing of the Hubble Space Telescope.

*Astrophysics exoplanet exploration, other missions and data analysis.*—An increase of

\$20,000,000 is provided to continue NASA's efforts in assessing lower cost versions of the Space Interferometry Mission (SIM) and in completing the detailed formulation phase of a "SIM-Lite" mission that would meet the requirements laid out in the most recent decadal surveys for an astrophysics mission.

*Radiation Belt Storm Probes.*—The bill provides the full budget request of \$154,442,000 to continue this mission for launch in 2012.

*Solar Probe.*—The bill includes \$18,000,000 for the Solar Probe mission, the highest priority recommendation of the National Academies' heliophysics decadal report. NASA is directed to work to achieve a launch no later than 2015.

*Magnetospheric Multiscale Mission.*—The bill includes the budget request of \$94,582,000 for the Magnetospheric Multiscale Mission. NASA is directed to undertake no action to de-scope or reduce the project's scientific instruments or capacity.

*Wallops Flight Facility (WFF).*—The WFF is an important national asset that can be better utilized by focusing on emerging technologies that meet national needs and NASA priorities. The bill therefore provides programmatic increases of: \$5,000,000 for advanced technology development of small satellites and unmanned aerial systems (UAS) that have the potential of lowering the costs of space and Earth science missions consistent with the goals of venture class missions recommended by the National Academies' Earth science decadal report; and \$14,000,000 to improve launch pad infrastructure. NASA is directed to prepare a five-year action plan, including a proposed funding forecast, that identifies specific program and advanced technology development work that will utilize and expand the Wallops Flight Facility's role in the development of small satellites and unmanned aerial systems to meet critical earth science and other space system needs. This plan is due to the House and Senate Committees on Appropriations by June 1, 2009.

*Ocean vector wind study.*—NASA, working with NOAA and within the funds provided, shall study satellite and non-satellite alternatives for generating SeaWinds-like ocean wind data.

## AERONAUTICS

The bill provides \$500,000,000 for aeronautics research. The research and development activities undertaken with the augmentation shall not be based on the determination that the investment in an activity would result in a useable or useful product based only on one year's funding. Accordingly, the Aeronautics Research Mission Directorate is directed to provide to the Committees on Appropriations of the House and Senate in NASA's initial fiscal year 2009 operating plan a proposed expenditure analysis of the congressional augmentation to ensure that this investment of funds is devoted to long-term, multi-year research and development activities to support NextGen technology needs and solutions and "green" aircraft.

## EXPLORATION

The bill provides \$3,505,469,000 for exploration for fiscal year 2009, \$5,000,000 over the budget request. The amount provided includes an unallocated adjustment of \$18,000,000. NASA shall within 30 days of enactment of this Act provide to the House and Senate Committees on Appropriations its proposed distribution of the unallocated adjustment. In doing so, NASA shall identify offsets that do not result in delays or cancellations of missions in development or the

cancellation of any selected projects, and shall not identify as offsets any increases provided above the request expressly provided by Congress.

*Constellation systems.*—The bill includes the budget request of \$1,018,515,000 for Ares and \$1,101,436,000 for Orion.

*Constellation systems program, heavy lift cargo vehicle.*—The bill includes \$23,000,000 above the request for Ares V design requirements definition and research and development for a systems requirement review.

*International Space Station (ISS) research.*—The bill provides \$44,783,000 for ISS research and will support the study of life and physical sciences phenomenon in microgravity, as well as the partial gravity environments of the Moon and Mars.

*Commercial orbital transportation services (COTS).*—For fiscal year 2009, the bill provides \$153,045,000 for COTS program elements A through C, a reduction of \$20,000,000 from the request. The reduction is taken without prejudice to the program, and is based on NASA's estimated expenditures for fiscal year 2009 while accounting for program management costs and anticipated payments to industry partners who successfully meet milestones in current Space Act agreements.

*Lunar precursor robotic program (LPRP) management.*—The bill includes the budget request of \$56,334,000 for the LPRP.

#### SPACE OPERATIONS

The bill provides \$5,764,710,000 for space operations for fiscal year 2009. The bill designates specific amounts for Space Shuttle operations, production, research, development and support; International Space Station operations, production, research, development and support; and Space Flight Sup-

port operations, production, research, development and support.

*Space Shuttle retirement and transition.*—NASA, within 90 days of enactment of this Act, shall submit a plan that seeks to maximize utilization of all facilities, as well as partnerships with other Federal agencies to maintain NASA's skilled workforce.

*Science experiments in microgravity.*—To ensure immediate access of these types of experiments, NASA shall submit to the House and Senate Committees on Appropriations by March 2, 2009, a plan to ensure access of science experiments to a microgravity environment.

*Alpha Magnetic Spectrometer.*—NASA is directed not to take any action to preclude delivery of the Alpha Magnetic Spectrometer (AMS) to the International Space Station prior to 18 months preceding the anticipated retirement of the Space Shuttle in 2010. Should funds be necessary to preserve flight options in fiscal year 2009, NASA may reprogram funds pursuant to the authorities contained in section 505 of this Act.

*Launch services.*—The bill provides \$10,000,000 less than requested for launch services. Since the agency has yet to make a final determination of the allocation or phasing of the use of the requested increase, funding to mitigate the out-year costs of launch infrastructure and repairs has been deferred.

#### EDUCATION

The bill provides \$169,200,000 for education for fiscal year 2009.

*NASA Space Grants.*—For this program, the bill provides a total of \$40,000,000, which will fund 40 states or jurisdictions at \$815,000 each and 12 states or jurisdictions at \$615,000 each.

Not more than \$1,000,000 shall be retained for program administration.

*NASA visitor centers.*—Funds provided for NASA visitor centers are to be distributed in equal increments to each center's visitor centers for the development of educational activities.

#### CROSS AGENCY SUPPORT

The bill provides \$3,306,387,000 for cross agency support for fiscal year 2009. Within the funds provided, not more than \$2,033,000,000 shall be available for center management and operations, of which \$2,024,000,000 is provided as direct appropriations and not more than \$9,000,000 is to be derived from enhanced use lease receipts pursuant to 42 USC 2549j. In addition, the bill provides not more than \$70,000 shall be available for official reception and representation expenses. For independent verification and validation (IVV) activities, the bill provides not less than \$45,000,000, of which \$5,000,000 shall be available for the development of IVV tools in the small business community. Funds provided herein for the IVV facility and its activities shall be in addition to funds allocated by the Office of Safety and Mission Assurance for the safety assurance research program.

*Congressionally-directed projects.*—The bill includes a provision that provides that \$67,500,000 of the amounts provided under this heading shall be available for the projects, and in the amounts, specified in the table below. NASA shall refrain from charging administrative costs to these grants, and shall provide appropriate management and oversight of each grant.

*Institutional investments.*—A total of \$293,665,000 is provided for institutional investments, of which \$218,901,000 shall be available for institutional construction of facilities (ICF). Within the funds provided for ICF, not more than \$13,700,000 shall be available for facility planning and design. In addition, the amounts requested for minor revitalization of facilities at various locations (less than \$500,000) are reduced by \$4,850,000 to fully resource the repair and construction of the consolidated information technology center Dryden Flight Research Center (DFRC). This transfer reflects NASA's planned execution of repair and construction at DFRC in fiscal year 2009. Lastly, the amount requested for programmatic discrete projects is reduced by \$5,000,000. NASA shall in its initial operating plan delineate by project its proposed allocation of the resources provided herein.

*Mississippi Army Ammunition Plant (MSAAP) and Stennis Space Center (SSC).*—NASA shall provide to the House and Senate Committees on Appropriations by March 2, 2009, a report that outlines estimated costs related to the transfer of MSAAP to NASA's SSC.

*Leasing authority and collections.*—In 2003, NASA was authorized by Congress to demonstrate leasing authority and collections at two Centers. In 2007 and again in 2008, that authority was amended by Congress such that NASA may enter into leasing arrangements at all Centers after December 2008. After deducting the costs of administering the leases, Centers are then permitted to retain 65 percent of net receipt revenue, and the balance is made available agency-wide for NASA. To date, NASA estimates that in fiscal years 2008 and 2009, gross receipts and collections will total in excess of \$24,300,000, and are anticipated to grow in the future. These funds are in addition to annual appropriations.

In March 2007, the Government Accountability Office noted that NASA should develop an agency-wide policy to ensure accountability, protect the Government, and provide transparency regarding NASA's leasing authority and collections activities. Later, in December 2007, a report by the Surveys and Investigations staff of the House Appropriations Committee found NASA's reports to the Congress on its implementation of its leasing activities to be inaccurate, incomplete and uninformative. To date, evidence suggests that such deficiencies continue as information provided to the House and Senate Committees on Appropriations on existing leasing collections and expenditures remains incomplete and, provides no transparency in delineating the costs of administering such leases, and no justification supporting the activities undertaken with the expenditure of the Centers' gross or net receipts.

NASA must improve its management of the program, its oversight of its centers' use of leasing receipts and its accounting of the relationship between annual leasing receipts and appropriated funds. To ensure annual oversight and review, to improve overall program management and to protect the Government, the bill contains a provision that provides that the expenditure of gross receipts and collections in fiscal year 2009 shall be subject to a limitation of \$9,000,000, and requires NASA to submit a separate accounting of leasing collections and proposed expenditures in its annual budget justification submission to the Congress. Collections in excess of \$9,000,000 (to also include any unexpended balances of prior year collections) shall remain available for expenditure in

subsequent fiscal years. NASA is directed, not later than 90 days after enactment of this Act, to report to the House and Senate Committees on actions taken by headquarters management to better account for leasing receipts and collections and expenditures of gross receipts at each Center and to identify any activities previously budgeted from appropriated funds that are now planned to be financed with leasing receipts. NASA is further directed to submit a separate operating plan by Center on the proposed use of all receipts and collections in fiscal year 2009 prior to the expenditure of such funds, and any deviation from such approved plan shall be subject to section 505 of this Act. Further, NASA shall submit with its annual budget submission a separate accounting by Center of gross receipts and collections and proposed use of all funds collected under its leasing authority. Such material shall include a detailed presentation of all proposed expenditures, to include but not limited to full-time equivalent (FTE) staff years and object class data, and justification for such proposed expenditures by project or activity.

*Conference expenses.*—Section 1121(a) of the NASA Authorization Act of 2008 (P.L. 110-422) provides NASA with the discretion to define "conference" for the purposes of that subparagraph. In view of the requirement of the National Aeronautics and Space Act (P.L. 85-568), as amended, that NASA provide for the widest practicable and appropriate dissemination of information concerning its activities and the results thereof, in no event shall the funds appropriated by this Act be subject to the limitation of section 1121(a) of P.L. 110-422 with respect to NASA expenditures for scientific and technical conferences or education-related conferences in which NASA science, technology, engineering and mathematics (STEM) content is disseminated.

#### OFFICE OF INSPECTOR GENERAL

The bill provides \$33,600,000 for the Office of the Inspector General. In fiscal year 2009, NASA and its IG shall follow the direction included in Public Law 110-161 as it relates to the reporting of the costs of conferences. NASA and the IG are to provide a report annually on these activities to the House and Senate Committees on Appropriations not later than October 1 of each year.

#### ADMINISTRATIVE PROVISIONS

The bill contains a provision that provides for the no-year availability of funds made available for construction of facilities or environmental compliance and restoration activities within the Science, Aeronautics, Exploration, Space Operations and Cross Agency Support appropriations, except that such provision shall not apply to amounts appropriated for institutional minor revitalization and minor construction of facilities, and institutional planning and design.

The bill contains language regarding the availability of funds for announced prizes.

The bill includes language that requires NASA to submit to the House and Senate Committees on Appropriations by March 2, 2009 a report by fiscal year, object class and mission directorate costs expended to date and required for Space Shuttle retirement and transition activities for fiscal years 2006 through 2015.

The bill includes language extending the availability of expiring but not canceled funds through 2015 for close-out of Space Shuttle contracts and associated programs.

The bill includes a provision that provides that any funding designations and minimum

funding requirements in any other Act shall not be applicable to funds appropriated by this title for the National Aeronautics and Space Administration.

#### NATIONAL SCIENCE FOUNDATION RESEARCH AND RELATED ACTIVITIES

The bill includes \$5,183,100,000 for fiscal year 2009 for research and related activities. When determining the allocation of resources, the NSF shall provide for a balanced program across all science disciplines. NSF is further encouraged to invest in cost-effective and innovative solutions, such as grid-computing, to address the Nation's cyber infrastructure needs. Funds provided under this heading are not provided for adaptive systems technology.

*Public awareness.*—NSF is encouraged to maximize communication and open exchange of data and results that flow from research that is funded by NSF appropriations, consistent with existing Federal law. NSF is expected to partner with grantees to expand the visibility to the public of NSF-sponsored research, especially through the Internet. NSF is the principal Federal agency charged with promoting science and engineering education, and increasing the public awareness of NSF's high-risk, high-reward research activities will contribute to the development of the future of science and technology workforce.

*Icebreaking.*—Consistent with the direction to the U.S. Coast Guard contained in explanatory statement accompanying Public Law 110-329, NSF and the U.S. Coast Guard shall renegotiate the existing agreement between the two agencies so that operations and maintenance funding of the icebreakers is requested in the Coast Guard's annual budget beginning in fiscal year 2010. The NSF shall retain funding for the science-only related costs of icebreaking services to be procured from all entities (governmental and non-governmental). Funding to continue the caretaker status of the Polar Star is not contained within this appropriation, but rather within the funds appropriated to the Coast Guard by Public Law 110-329.

*Experimental Program to Stimulate Cooperative Research (EPSCoR).*—Within the amounts provided, the bill designates \$133,000,000 for EPSCoR, of which at least \$70,000,000 shall be used for track 1 research infrastructure improvement (RII) awards. The increase in the size of the track 1 awards as provided in the most recent EPSCoR solicitation shall continue. The fiscal year 2009 operating plan shall reflect the direction herein and indicate the anticipated allocation of funds among other activities (e.g., track II RII, co-funding, SBIR, outreach, etc.).

NSF is directed to provide not less than \$660,000,000 for NSF investments/activities in the EPSCoR jurisdictions in fiscal year 2009. Annual increases in NSF investments should be proportional to the annual growth in overall research and related activities appropriation.

*Plant Genome research program.*—Within the funds provided, \$101,220,000 shall be available for the plant genome research program.

*National Radio Astronomy Observatory.*—The bill includes \$49,790,000 for the National Radio Astronomy Observatory.

*Polar program.*—Any final selection criteria related to a competitive logistics procurement for the Polar program shall include as an evaluation measure the ability to provide high-speed communication of data to scientists.

*Mathematical and physical sciences.*—The amounts include \$3,000,000 above the request to establish a mathematical institute devoted to the identification and development

of mathematical talent and to advance mathematical topics critical to the national interest. In addition, a total of \$2,500,000 from mathematical and physical sciences is included for the maintenance and operations costs associated with IceCube.

*Astronomical sciences.*—Within the funds provided, \$2,500,000 has been provided above the request to fund the design work of the advanced technology solar telescope. In addition, a total of \$2,500,000 from astronomical sciences is included for the maintenance and operations costs associated with IceCube.

MAJOR RESEARCH EQUIPMENT AND FACILITIES CONSTRUCTION

The bill includes \$152,010,000 for major research equipment and facilities construction for fiscal year 2009. The bill provides for the following allocation of funds:

AdvLigo .....	\$51,430,000
Atacama Large Millimeter Array (ALMA) .....	82,250,000
IceCube Neutrino Observatory .....	11,330,000
Advanced Technology Solar Telescope (ATST) .....	7,000,000

EDUCATION AND HUMAN RESOURCES

The bill includes \$845,260,000 for education and human resources. Within the funds provided, the bill sets aside \$55,000,000 for the Robert Noyce Scholarship program. Adjustments to the budget request are as follows:

Graduate research fellowships .....	-\$9,700,000
Robert Noyce Scholarship Program .....	+43,400,000
Undergraduate/graduate student support programs .....	+650,000
Graduate teaching fellowships in K-12 .....	+500,000
Math and science partnership .....	+10,000,000
Climate change education program .....	+10,000,000

*Robert Noyce Scholarship program.*—Increasing the number of highly qualified K-12 math and science teachers is critical to the creation of a new generation of innovators. The Robert Noyce Teacher Scholarship Program, including NSF Teaching Fellowships and Master Teaching Fellowships, recruits and supports talented mathematics and science undergraduate students and postgraduate professionals to become K-12 mathematics and science teachers with scholarships, stipends and other support. The increase provided in the bill for the Noyce Program is for the purpose of expanding participation in the grant programs established in section 10 and section 10A of the National Science Foundation Authorization Act of 2002 (42 U.S.C. 1862n-1) as amended by the America COMPETES Act.

*Undergraduate/graduate student support programs.*—A total of \$87,500,000 is provided for undergraduate/graduate student support programs for fiscal year 2009. Funding of \$42,500,000 is provided for the Louis Stokes Alliances for Minority Participation (LSAMP); \$31,500,000 is provided for the Historically Black Colleges and Universities Undergraduate Program (HBCU-UP) and \$13,500,000 is provided for the Tribal Colleges and Universities Program (TCUP).

*Climate change education program.*—The National Science Foundation shall consult with the National Academies in the development of a plan for the distribution of funds provided herein for the climate change education program.

AGENCY OPERATIONS AND AWARD MANAGEMENT

The bill provides \$294,000,000 for agency operations and award management for fiscal year 2009.

NSF is directed to notify the House and Senate Committees on Appropriations 90 days prior to changing its existing cost sharing policies, and to include in such policy directive measures to mitigate effects on grantees, particularly on minority-serving institutions.

OFFICE OF THE NATIONAL SCIENCE BOARD

The bill includes \$4,030,000 for the Office of the National Science Board.

OFFICE OF INSPECTOR GENERAL

The bill provides \$12,000,000 for the Office of Inspector General. Funds are available for one year.

TITLE IV—RELATED AGENCIES

COMMISSION ON CIVIL RIGHTS

SALARIES AND EXPENSES

The bill provides \$8,800,000 for the salaries and expenses of the Commission on Civil Rights. Within 60 days of enactment of this Act, the Commission is directed to report to the House and Senate Committees on Appropriations on the fiscal year 2009 budget and activities of the regional offices and the State Advisory Committees, as well as on the procedures employed to ensure transparency and the participation of all Commissioners in the preparation and review of all reports and briefing papers.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

SALARIES AND EXPENSES

The bill provides \$343,925,000 for the Equal Employment Opportunity Commission (EEOC), which is \$2,000,000 above the budget request.

*Backlog reduction.*—EEOC's rising charge backlog is a significant concern, but it does not appear that this issue is being addressed by EEOC in a systematic or strategic manner. Consequently, the EEOC is provided an increase of \$6,545,000 to begin addressing this problem. EEOC is directed to report to the House and Senate Committees on Appropriations within 60 days of the enactment of this Act with a comprehensive plan for backlog reduction, including future resource requirements and hiring needs. The hiring needs section of the plan should also address EEOC's large number of unfilled existing frontline staff positions. The report should specify what steps EEOC is taking to fill those positions, the reasons for the delay in filling them and how these delays can be prevented in the future.

*Accuracy of workload projections.*—The assumptions underlying EEOC's future workload projections appear overly optimistic or otherwise inaccurate. The EEOC is urged to further refine its projections by calibrating them with actual data, such as those available through the annual midyear review.

*Customer service transition.*—The fiscal year 2009 funding level includes \$3,635,000 to complete the transition of EEOC's customer service operation to an in-house function. To ensure that callers being handled by the new in-house operation are receiving service that is equal to or better than the service that was received through the prior system, EEOC is directed to report to the House and Senate Committees on Appropriations on comparative customer satisfaction data no later than 60 days after the enactment of this Act. The report should also include a cost-benefit analysis of hiring higher credentialed employees for the call intake function.

*State, local and tribal assistance.*—EEOC is directed to submit the findings of its ongoing review of State, local and tribal per charge costs to the House and Senate Committees

on Appropriations when that data becomes available.

*Workforce planning.*—A recent GAO study found that EEOC did not strategically or systematically approach mission needs, customer expectations, workload or current workforce needs in its draft Strategic Workforce Plan. The study concluded that EEOC could better address its growing caseload if it made better use of strategic planning. EEOC is directed to implement the recommendations of GAO and to report back to the House and Senate Committees on Appropriations within 60 days of the enactment of this Act on how those recommendations were implemented.

INTERNATIONAL TRADE COMMISSION

SALARIES AND EXPENSES

The bill includes \$75,100,000 for the International Trade Commission (ITC), which is \$1,500,000 above the budget request. The ITC's increasing section 337 intellectual property investigations workload is outstripping available resources, and the additional funding will allow ITC to hire a sixth administrative law judge, lease additional courtroom space, and cover necessary renovation costs.

LEGAL SERVICES CORPORATION

PAYMENT TO THE LEGAL SERVICES CORPORATION

The bill provides \$390,000,000 for the Legal Services Corporation (LSC). Within the total provided, \$365,800,000 is for grants to basic field programs and required independent audits; \$4,200,000 is for the Office of Inspector General; \$16,000,000 is for management and administration; \$3,000,000 is for client self-help and information technology; and \$1,000,000 is for loan repayment assistance. Current LSC locality pay represents reasonable compensation for LSC officers and employees, and a provision is included to authorize the continuation of locality pay.

*Home foreclosure prevention.*—LSC shall encourage its grantees in areas experiencing high foreclosure rates to use available funds to provide and expand legal assistance related to home ownership preservation, home foreclosure prevention and tenancy protection associated with home foreclosure.

ADMINISTRATIVE PROVISION—LEGAL SERVICES CORPORATION

The bill includes language to continue the statutory requirements and restrictions contained in previous appropriations Acts.

MARINE MAMMAL COMMISSION

SALARIES AND EXPENSES

The bill includes \$3,200,000 for the Marine Mammal Commission. The increase above the request shall be for the hiring of two additional FTEs to monitor oil and gas issues such as the expansion of exploration and the clean-up of oil spills on ice, as well as emerging fishery issues.

NATIONAL VETERANS BUSINESS DEVELOPMENT CORPORATION

No funds are provided for the National Veterans Business Development Corporation. Division D contains appropriations for the Small Business Administration's veterans programs that are available to support the work of small business veterans centers.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

SALARIES AND EXPENSES

The bill includes \$47,272,000 for the Office of the United States Trade Representative (USTR), which is \$1,000,000 above the request. Additional funding is provided for USTR's pay and inflation-related increases, and to support current staffing levels.

*Intellectual Property Rights (IPR).*—Significant intellectual property issues infringe on our trading relationships with China, Russia and Canada. USTR is encouraged to continue to prioritize such issues in bilateral and multilateral trade negotiations, and in particular, to provide a report to the House and Senate Committees on Appropriations on Russia's progress in complying with intellectual property commitments.

*Textiles.*—The current path of tariff reduction negotiations under the Doha Round may result in a non-reciprocal arrangement detrimental to United States manufacturers. Such negotiations should be consistent with the trade negotiating objectives of the United States contained in section 2012 of the Bipartisan Trade Promotion Authority Act of 2002 (19 U.S.C. 3802). The USTR is directed to report to the House and Senate Committees on Appropriations within 60 days of enactment of this Act regarding adherence to these objectives.

*Reporting requirements.*—The USTR may fare better in bringing trade dispute cases to the WTO by using additional support from private counsel. In-house expertise in long-term, complex WTO dispute cases is difficult to maintain in an ever-changing international trade climate. Outside counsel in countries such as China, Russia and Brazil could assist with clarification of local laws and regulations, enforcement policies and practices, and market conditions. USTR is directed to report back to the House and Senate Appropriations Committees on the desirability of a new such authority.

*Galileo program.*—The USTR is directed to report on the status of U.S. equipment industry access to the European Community's (EC) Galileo program and European markets for related goods and services, no later than April 1, 2009, in order to assess EC compliance with the 2004 US-EU Agreement on GPS-Galileo Cooperation.

*World Trade Organization.*—The Department of Commerce is directed, in consultation with the USTR, to continue to negotiate within the WTO to seek express recognition of the existing right of WTO Members to distribute monies collected from antidumping and countervailing duties. The agency shall consult with and provide regular reports, every 60 days, to the House and Senate Committees on Appropriations. In addition, negotiations shall be conducted within the WTO consistent with the negotiating objectives contained in the Trade Act of 2002, Public Law 107-210, to maintain strong U.S. trade remedies laws, prevent overreaching by WTO Panels and the WTO Appellate Body, and prevent the creation of obligations never negotiated or agreed to by the United States.

#### STATE JUSTICE INSTITUTE SALARIES AND EXPENSES

The bill provides \$4,100,000 for the State Justice Institute (SJI), of which \$250,000 shall remain available until September 30, 2010. Within funds appropriated, \$500,000 may be used for strategic initiatives that will have national implications for the courts. SJI is directed to continue its policy of obtaining dollar-for-dollar matching funds for grants awarded during fiscal year 2009. The SJI is encouraged to continue to work with the Department of Justice Office of Justice Programs on issues involving State courts.

#### TITLE V—GENERAL PROVISIONS

Section 501 prohibits the use of funds for publicity or propaganda purposes unless expressly authorized by law.

Section 502 prohibits any appropriation contained in this Act from remaining avail-

able for obligation beyond the current fiscal year unless explicitly authorized.

Section 503 provides that the expenditure of any appropriation contained in the Act for any consulting service through procurement contracts shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law or under existing Executive Order issued pursuant to existing law.

Section 504 provides that if any provision of the Act or the application of such provision to any person or circumstance shall be held invalid, the remainder of the Act and the application of such provisions to persons or circumstances other than those to which it is held invalid shall not be affected.

Section 505 provides for the reprogramming of funds. Section 505(a) prohibits the reprogramming of funds which: (1) creates or initiates a new program, project or activity; (2) eliminates a program, project, or activity, unless the Appropriations Committees of both Houses of Congress are notified 15 days in advance; (3) increases funds or personnel by any means for any project or activity for which funds have been denied or restricted, unless the Appropriations Committees of both Houses of Congress are notified 15 days in advance; (4) relocates offices or employees, unless the Appropriations Committees of both Houses of Congress are notified 15 days in advance; (5) reorganizes or renames offices, programs, or activities, unless the Appropriations Committees of both Houses of Congress are notified 15 days in advance; (6) contracts out or privatizes any function or activity presently performed by Federal employees, unless the Appropriations Committees of both Houses of Congress are notified 15 days in advance; (7) proposes to use funds directed for a specific activity by either the House or Senate Committees on Appropriations, unless the Appropriations Committees of both Houses of Congress are notified 15 days in advance; (8) augments funds for existing programs, projects or activities in excess of \$500,000 or 10 percent, whichever is less, or reduces by 10 percent funding for any existing program, project, or activity, or numbers of personnel by 10 percent as approved by Congress, unless the Appropriations Committees of both Houses of Congress are notified 15 days in advance; or (9) results from any general savings, including savings from a reduction in personnel, which would result in a change in existing programs, activities, or projects as approved by Congress, unless the Appropriations Committees of both Houses of Congress are notified 15 days in advance. No reprogrammings of funds are permitted after August 1, except in extraordinary circumstances, and only after the House and Senate Committees are notified in advance of such reprogramming of funds. Agencies must follow reprogramming procedures with respect to carryover funds.

Section 506 prohibits funds from being used to implement, administer, or enforce any guidelines of the Equal Employment Opportunity Commission covering harassment based on religion similar to proposed guidelines published by the EEOC in October 1993.

Section 507 provides that if it is determined that any person intentionally affixes a "Made in America" label to any product that was not made in America that person shall not be eligible to receive any contract or subcontract with funds made available in this Act.

Section 508 requires quarterly reporting to Congress of unobligated balances that were received during any previous fiscal year.

Section 509 provides that any closing or downsizing costs incurred by a department or agency funded under this Act resulting from funding reductions in the Act shall be absorbed within the budgetary resources available to the Department or agency, and provides transfer authority between appropriation accounts to carry out the provision, subject to reprogramming procedures.

Section 510 prohibits funds made available in this Act from being used to promote the sale or export of tobacco or tobacco products or to seek the reduction or removal of foreign restrictions on the marketing of tobacco products, provided that such restrictions are applied equally to all tobacco products or tobacco products of the same type. This provision is not intended to impact routine international trade services provided to all U.S. citizens, including the processing of applications to establish foreign trade zones.

Section 511 prohibits funds made available in this Act from being used to implement a Federal user fee for background checks conducted pursuant to the Brady Handgun Control Act of 1993, or to implement a background check system that does not require and result in the destruction of certain information within 24 hours.

Section 512 delays the obligations of any receipts deposited into the Crime Victims Fund in excess of \$635,000,000 until October 1, 2009. This language is continued to ensure a stable source of funds will remain available for the program, despite inconsistent levels of criminal fines deposited annually into the fund.

Section 513 prohibits the use of Department of Justice funds for programs that discriminate against or denigrate the religious beliefs of students participating in such programs.

Section 514 prohibits the transfer of funds in the Act to any department or agency of the United States Government, except for transfers made under authorities provided in this, or any other appropriations Act.

Section 515 provides that funds provided for E-Government Initiatives shall be subject to the procedures set forth in section 505 of this Act.

Section 516 requires the Bureau of Alcohol, Tobacco, Firearms and Explosives to include specific language in any release of tracing study data that makes clear that trace data cannot be used to draw broad conclusions about firearms-related crime.

Section 517 requires certain timetables of audits performed by Inspectors General of the departments and agencies funded in this Act.

Section 518 prohibits the use of funds to process patents of human organisms. The intent of this provision is as expressed in the colloquy between the provision's sponsor in the House and the Ranking Minority Member of the House Committee on Appropriations as occurred on July 22, 2003, with respect to any existing patents on stem cells.

Section 519 prohibits the use of funds in this Act to be used to support or justify torture by any official or contract employee of the United States Government.

Section 520 prohibits the use of funds in this Act to require certain export licenses.

Section 521 prohibits the use of funds in this Act to deny certain import applications regarding "curios or relics" firearms, parts, or ammunition.

Section 522 prohibits the use of funds to include certain language in trade agreements.

Section 523 prohibits the use of funds in this Act to authorize or issue a National Security Letter (NSL) in contravention of certain laws authorizing the Federal Bureau of Investigation to issue NSLs.

DIVISION C—ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES APPROPRIATIONS ACT, 2009

Following is an explanation of the effects of this division (hereafter referred to as the “bill”). Funds for the individual programs and activities within the accounts in this Act are displayed in the detailed table at the end of the explanatory statement for this Act. Funding levels that are not displayed in the detailed table are identified in this explanatory statement.

TITLE I—DEPARTMENT OF DEFENSE—  
CIVIL DEPARTMENT OF THE ARMY  
CORPS OF ENGINEERS—CIVIL

The summary tables included in this title set forth the dispositions with respect to the individual appropriations, projects and activities of the Corps of Engineers. Additional items of the bill are discussed below.

*New starts.*—The passage of the Water Resources Development Act in 2007 presented the Committees on Appropriations with the reality of seven years of unmet demand for new studies and projects. This has posed a challenge in balancing the funding needs of ongoing work with the ability to fund potential new start studies and projects which are the future of the program. Ultimately, a limited number of new studies and projects are funded in this bill, and these are for traditional Corps missions. Therefore, projects and studies that met the following criteria were excluded from consideration:

1. new environmental infrastructure authorizations;
2. non-traditional project authorizations;
3. authorizations that have not been through the traditional two phase planning process;
4. new projects under sections 206 and 1135 of the Continuing Authorities Program, as these program sections are oversubscribed;
5. projects that include demonstration features;
6. new projects that would require funds from the Inland Waterway Trust Fund (IWTF) because of lack of funding in the IWTF.

*Inland Waterways Trust Fund.*—When the fiscal year 2009 budget was presented to Congress, the administration was aware that its proposed budget did not take into account the looming deficit in the IWTF due to the amount of ongoing work on the inland waterway system. More funding was proposed to be utilized from the IWTF than was estimated to be available. The administration’s

budget for fiscal year 2009 was predicated on enactment of its legislative proposal to change the revenue structure by October 1, 2008. Since neither this proposal nor any other potential fix to the IWTF shortfall has been enacted, the administration’s request as proposed is not, and cannot be, fully funded.

To address the funding shortfall in the IWTF the bill takes the unusual step of directing in legislative text that only nine inland waterway projects will have access to IWTF revenues in fiscal year 2009 in order to assure that planned work does not exceed revenues. The Corps is directed in fiscal year 2009 to utilize the general fund of the U.S. Treasury to fund inland waterway projects without specific statutory requirements for IWTF revenues. This change is intended as a single year stopgap measure to allow the new administration an opportunity to address the solvency of the trust fund. The Corps is directed to bring fiscal year 2009 inland waterway projects funded entirely with general fund revenues to a logical stopping point and defer future work until such time as the IWTF revenue stream is enhanced and these projects can again be cost shared with the IWTF. Once the revenue stream is sufficient to allow additional work, the Corps is directed to adjust the cost share so that the total project costs will be cost shared at fifty percent. Legislative text is also included to prohibit the Corps from entering into any new continuing contracts for any inland waterway project until a permanent solution to enhance IWTF revenues is enacted.

The administration should submit the fiscal year 2010 budget based on expected revenues in the IWTF, not projections predicated on legislation that may or may not happen. If the budget is submitted utilizing the same assumptions for the IWTF that the administration made this year, spending will be curtailed on all inland waterway projects in fiscal year 2010 to a level that fits within the IWTF estimated revenues. No change in law has been made, nor does this bill propose any such change, to alleviate the funding problem that will occur in fiscal year 2009.

The policy of sharing the cost of construction and major rehabilitations between the IWTF and the general fund makes the users active partners in the overall inland waterway system and provides for a better, more efficient system. As the Congress pays the full cost of the operation and maintenance of the inland waterway system, the capital

costs are properly shared at 50 percent by the beneficiaries.

*Budget Justifications.*—The Corps is commended for the layout of the budget justifications for fiscal year 2009. Grouping projects by Division rather than according to business lines makes the justifications more useful and provides more easily accessible information to the public. It is expected that this method of displaying the budget justifications will be continued for the fiscal year 2010 budget.

However, the justifications for Operation and Maintenance (O&M) projects are staggeringly inadequate. The only information provided was the business line totals for each region. For a \$2,500,000,000 account, this is an unacceptable manner to justify a budget. More information was provided for the \$40,000,000 in studies in the Investigations account than was provided for all of O&M. The justifications for the Continuing Authorities Program, Flood Plain Management Services, Planning Assistance to States and the Dam Safety/Seepage Stability Correction Program were also inadequate. The justifications for these items showed a total dollar value and listed projects, but gave no information how the program totals were derived. There is no way to know from these justifications whether the administration’s proposal underfunds or overfunds these programs. For fiscal year 2010, the Corps is directed to provide, at minimum, detailed project information for each O&M project adequately justifying the needs for each project. If the administration chooses to continue to provide the business line information, it may be provided as a separate appendix to the justifications.

*Reprogramming.*—To ensure that the expenditure of funds in fiscal year 2009 is consistent with congressional direction, to minimize the movement of funds and to improve overall budget execution, the bill incorporates by reference the projects and direction identified in the report accompanying this Act into statute. Further, the bill carries a legislative provision outlining the circumstances under which the Corps of Engineers may reprogram funds.

INVESTIGATIONS

The bill provides \$168,100,000 for Investigations.

The allocation for projects and activities within the Investigations account is shown in the following table:

*White River Navigation to Newport, Arkansas.*—Within the amounts provided, the Corps is directed to reevaluate the feasibility of the channel from Newport to Batesville given current economic conditions.

*Los Angeles River Ecosystem Restoration, California.*—Funding is included to continue the existing study. This funding shall not be applied to the new authorization for the Los Angeles River which is considered a new start.

*Long Island, Marsh and Johns Creeks, Georgia.*—No funding is included for this project as there is no identified non-federal sponsor.

*Savannah Harbor Expansion, Georgia.*—This project is funded in the Construction account.

*Louisiana Coastal Area Ecosystem Restoration, Louisiana.*—The bill includes \$3,604,000 for these important studies. The requested separate Science and Technology line item under this study is, once again, not funded. Worthwhile science work should be budgeted within the study line item as is done for all other studies and projects. To the extent

practicable, the Corps is directed to expedite preconstruction engineering and design studies of a sediment diversion at Myrtle Grove. The work should focus on project performance using capacity to take sufficient advantage of large pulsed flows during less-than-annual high-flow periods, and during river flood events, when a large amount of sediment is freely available in the river water column. The success of ongoing efforts to bolster structural hurricane protection and rebuild hurricane damaged communities depends on arrest and reversal of the coastal land loss in the near term. Resolution of the land loss issue will require construction of sediment reintroduction projects, such as the Myrtle Grove diversion.

*Great Lakes Remedial Action Plans (RAP), Michigan.*—Within the funds provided, \$150,000 is for the Niagara River area of concern and \$60,000 is for the Maumee River area of concern.

*Swope Park, Kansas City, Missouri.*—This project is funded in the Construction account.

*Corpus Christi Ship Channel, Texas.*—This project is funded in the Construction account.

*Planning Support Program.*—Additional funds are provided to support the Planning Centers of Expertise. A portion of these funds should be provided to the National Planning Center of Expertise for Coastal Storm Damage Reduction to develop a process for managing shore protection projects as part of a systems approach to coastal protection for the purpose of achieving improved project performance, increased cost effectiveness, and enhanced benefits.

*Research and Development.*—Within the funds provided, the Corps should continue submerged aquatic vegetation research in the Chesapeake Bay.

#### CONSTRUCTION

The bill provides \$2,141,677,000 for Construction.

*North Dakota Environmental Infrastructure, North Dakota.*—The bill includes \$10,000,000

for this program, including \$1,600,000 for work related to the replacement of the Devils Lake Water supply pipeline and \$8,400,000 for the Parshall water project.

*Columbia River Treaty Fishing Access Sites, Oregon and Washington.*—Within the funds provided, \$2,900,000 shall be used to complete construction of Celilo Village and transfer funds to the Department of Interior for the operation and maintenance of the completed site.

*Locks and Dams 2, 3, and 4, Monongahela River, Pennsylvania.*—The bill includes \$15,900,000 to continue construction of this project. The reduction made to this project is a result of a continuing contract that the Corps did not award in fiscal year 2008 due to insufficient funds within the Inland Waterway Trust Fund. Not awarding the contract in fiscal year 2008 obviated the need for follow-on funding in fiscal year 2009, thus lowering the amount needed for this project in fiscal year 2009. In recognition of the serious deterioration of existing infrastructure that must be maintained until this project is completed, additional funding is provided in the Operation and Maintenance account to address critical short-term activities.

*Cheyenne River Sioux Tribe, Lower Brule Sioux, South Dakota.*—Title IV of the Water Resources Development Act of 1999, Public Law 10653, authorizes funding to pay administrative expenses, implementation of terrestrial wildlife restoration plans, activities associated with land transferred or to be transferred, and annual expenses for operating recreational areas. The bill includes \$2,871,000 for this effort. Within the funds provided, not more than \$750,000 shall be for administrative expenses. The Corps is directed to distribute the remaining funds as directed by title IV to the State of South Dakota, the Cheyenne River Sioux Tribe and the Lower Brule Sioux Tribe.

*Central City, Fort Worth, Upper Trinity River, Texas.*—The Modified Central City project, which includes efficiencies and additional benefits resulting from the project's reformulation, has been found by the Secretary to be technically sound and environmentally acceptable. Further, the Secretary signed a Record of Decision on May 21, 2008, finding the project to be in the public interest. The Corps is directed to use funds provided for this project, along with any previously provided funds, to proceed expeditiously with construction of the modified project.

*Houston-Galveston Navigation Channels, Texas.*—Any amount remaining unobligated at the end of fiscal year 2009 shall be used to complete outstanding work items of the Houston Ship Channel.

*Lower Monumental Lock and Dam, Washington and Oregon.*—No funding is included for this new start recommended by the administration in the O&M account. It is imprudent to initiate the major rehabilitation report that would be cost shared in the IWTF when construction work has to be curtailed due to the funding shortfalls in the trust fund. The project should not be initiated until the revenues have been enhanced for the IWTF.

*Aquatic Plant Control Program.*—The bill includes \$3,828,000 for this program. Additional funds are included for cost-shared programs for Lake Gaston, North Carolina; Lake Champlain, Vermont; and Lake Chautauqua, New York.

*Continuing Authorities Program.*—The Corps shall give first priority to the projects listed in the tables in this explanatory statement. Projects with specified amounts shall receive no less than the amounts specified.

For each Continuing Authorities Program (CAP) section, available funds over and above the amounts specified shall be allocated to the projects listed in the table for that section, including projects with specified amounts, in the following sequence of steps until the funds are exhausted:

1. capability-level funds for ongoing projects that have executed cost sharing agreements for the applicable phase;
2. capability-level funds for projects that are ready for execution of new cost sharing agreements for the applicable phase and for which Corps Headquarters authorizes execution of the agreements;
3. funds, as permitted by Corps policies, for other projects previously funded for the applicable phase but not ready for execution of new cost sharing agreements;
4. funds as permitted by Corps policies, for projects not previously funded for the applicable phase.

Within the step at which available funds are exhausted for each CAP section, funds shall be allocated to the projects in that section that rank high according to the following factors: high overall performance based on outputs; high percent fiscally complete; high unobligated carry-in; and listing in any conference report or statement of managers from fiscal year 2003 through fiscal year 2008. Section 14 funds shall be allocated to the projects that address the most significant risks and adverse consequences, irre-

spective of phase or previous funding history.

The Corps shall continue the ongoing process for suspending and terminating inactive projects. Suspended projects shall not be reactivated or funded unless the sponsor reaffirms in writing its support for the project and establishes its willingness and capability to execute its project responsibilities.

Funds specified for projects in this report and funds specified for projects in the conference reports for fiscal years 2006 and 2008 that are carried over into fiscal year 2009 and are unobligated shall remain available for the respective projects and shall not be reprogrammed until October 1, 2010, except in the cases of completed or terminated projects.

In order to provide a mix of studies, design and construction within each CAP section, the Corps is directed to divide the funding generally 80/20 between the Design and Implementation and the Feasibility phases within each authority. The Chief of Engineers shall provide a report to the Committees on Appropriations within 30 days of enactment of this Act detailing how funds will be distributed to the individual items in the various CAP sections for the fiscal year. The Chief shall also provide an annual report at the end of each fiscal year detailing the progress made on the backlog of projects. The report should include the completions and terminations as well as progress of ongoing work.

The Corps is directed not to initiate any new continuing authorities projects in sections 205, 206, 208 or 1135 without explicit congressional direction. New projects may be initiated in the remaining sections after an assessment is made that such projects can be funded over time based on historical averages of the appropriation for that section and after prior approval by the Committees on Appropriations.

*Shore Line Erosion Control Development and Demonstration Program.*—The bill includes \$875,000 to be used along with prior year funds for an innovative approach to storm damage reduction at Sacred Falls Beach Park, Hawaii, by restoring and maintaining a pocket beach with an innovative sediment retaining structure.

*Use of prior year balances.*—A total of \$3,892,000 in previously appropriated funds are redirected to other purposes. This amount includes \$1,082,000 from the Dredge Material Disposal Facilities Program due to the lack of a local sponsor and \$2,810,000 from the Success Dam, Tule River Project, California, which is not required in fiscal year 2009.

#### MISSISSIPPI RIVER AND TRIBUTARIES

The bill provides \$383,823,000 for Mississippi River and Tributaries (MR&T).

The project's sponsors are encouraged to pursue the necessary authority for the Bureau to undertake this work.

*Lahontan Basin Project, Nevada.*—Within the funds provided, \$2,500,000 is to perform an exploration/risk analysis of the Truckee Canal, which breached in January 2008 flooding Fernley, Nevada. The analysis will determine the full extent of rehabilitation needed for the canal to resume flows above 350 cubic feet per second.

*Jicarilla Apache Reservation Rural Water System, New Mexico.*—Within funds provided, the Bureau is directed to proceed with construction of the project in a manner that comports with and complements the existing work performed by the Tribe. *Columbia Basin Project, Washington.*—Within the funds provided, \$1,750,000 is for the Potholes Reservoir Supplemental Feed Route implementation.

*Yakima Project, Washington.*—Within the funds provided, \$500,000 is for the Storage Dam Fish Passage Feasibility Study.

*Colorado River Basin Salinity Control Project, Title I.*—In fiscal years 2006 and 2008, the conference report and explanatory statement expressed concern that the Bureau of Reclamation was making excess releases of approximately 100,000 acre-feet of water per year from storage in Colorado River reservoirs to help meet the United States' Colorado River water quality obligations to Mexico. The excess releases are being made because Wellton-Mohawk Irrigation and Drainage District's agricultural return flows—that bypass the Colorado River and are discharged to the Cienega de Santa Clara in Mexico (bypass flows)—are not counted as part of the 1.5 million acre-feet of water that the United States is required to deliver annually to Mexico. Because the bypass flows are not counted, system storage from the Colorado River has been used to make up for the bypass flows. The Yuma Desalting Plant was originally constructed to treat the flows and return a portion of them to the river, thus reducing excess releases from Colorado River reservoirs. The current drought and projected long-term water demands have heightened concern about this demand on the river system. Consequently, in fiscal years 2006 and 2008, the conference report and explanatory statement also directed the Bureau of Reclamation to dedicate sufficient resources to the Yuma Desalting Plant so that one-

third operational capacity may be achieved by the end of calendar years 2006 and 2008, respectively. To date, the plant is not one-third operational, although the Bureau of Reclamation did conduct a demonstration run at one-tenth capacity for 90 days in 2007. The Bureau of Reclamation is directed, within the funds provided for the Colorado River Basin Salinity Control Project, title I, to dedicate sufficient funds to the Yuma Desalting Plant so that one-third operational capacity may be achieved by June 30, 2009. The Bureau of Reclamation is also directed to provide the Committees on Appropriations with a status report of the plant's operational status no later than September 30, 2009. If the plant is not one-third operational by June 30, 2009, the report shall include an explanation as to why the Bureau of Reclamation has failed to comply with this directive.

*Drought Emergency Assistance.*—Within the funds provided, the Bureau of Reclamation is urged to provide full and fair consideration for drought assistance to the State of Hawaii.

*Research and Development, Desalination Research and Development Program.*—Within the amounts provided, \$2,000,000 shall be provided to New Mexico State University for research activities undertaken at or associated with the National Inland Desalination Research Facility.

*Salt Cedar/Russian Olive Control.*—No funding under the 2006 Salt Cedar/Russian Olive Control Act is included in the bill. Studies have shown that there is no water salvage gained by eradication of these invasive nuisance species. Without the water salvage component, there is no nexus to the Bureau of Reclamation's mission of providing water and power to the West. This mission is much more suited to Federal agencies other than the Bureau of Reclamation.

*Title XVI, Water Reclamation, and Reuse.*—Within the funds provided, \$2,500,000 is for the WaterReuse Foundation.

*Water for America Initiative.*—A critical component of reducing tension among multiple water users is collaborative planning and joint operations. Within the amounts provided, funds are included for the Desert Research Institute to address water quality and environmental issues in ways that will bring industry and regulators to mutually acceptable answers. Within the amounts provided, the Bureau of Reclamation is urged to continue urban water conservation projects identified through the Metropolitan Water District of Southern California Innovative Conservation Program; industrial water efficiency surveys to assess opportunities to conserve water in industrial water use; and for weather based irrigation controller activities to pilot ways to speed distribution and acceptance of these landscape water efficiency devices.

The bill restates loan guarantee authority as provided in the Energy Policy Act of 2005 (EPACT), and makes this authority available indefinitely. The Department is directed to make no authority available in excess of a total of \$47,000,000,000, to be allocated as follows: \$18,500,000,000 of loan guarantees are for nuclear power facilities; \$6,000,000,000 of loan guarantees are for coal based power generation and industrial gasification activities at retrofitted and new facilities that incorporate carbon capture and sequestration or other beneficial uses of carbon; \$2,000,000,000 of loan guarantees are for advanced coal gasification; \$18,500,000,000 of loan guarantees are for renewable and/or energy efficient systems and manufacturing, and distributed energy generation, transmission and distribution; and \$2,000,000,000 are for advanced nuclear facilities for the "front-end" of the nuclear fuel cycle.

Not later than 30 days prior to issuance of a loan guarantee solicitation, the Department is directed to submit a loan guarantee implementation plan defining the award levels and eligible technologies, to the Committees on Appropriations.

While the EPACT assumes the Title XVII loan program to be self-financed, the Congressional Budget Office assumes there is a credit subsidy cost to the government. As such, the bill assumes \$440,000,000 of budget authority to cover the cost of this risk, in addition to \$25,000,000 of advanced authority from the fiscal year 2008 enacted appropriation, for an overall scoring adjustment of \$465,000,000, shown in the Comparative Statement of New Budget Authority (CSBA) in the back of the report.

*Reporting Requirement.*—The Department is directed to prepare a report to the Committees on Appropriations that describes and explains the justification for the selected risk assumptions used in the development of the credit risk subsidy model, as well as the priority weighting of the criteria. The Department is to provide a description of the economic assumptions used for the energy markets and technologies under consideration. The report is due within 60 days of enactment of this Act.

DEPARTMENTAL ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

The bill provides a net appropriation of \$155,326,000 for Departmental Administration expenses. This amount includes a transfer of \$108,190,000 from Other Defense Activities for defense-related Departmental Administration activities and the Congressional Budget Office estimate of \$117,317,000 for revenues. Specific funding levels for each organization funded under the Departmental Administration account are detailed in the accompanying table. The amended bill provides representation expenses not to exceed \$30,000.

*Chief Financial Officer.*—The bill provides \$43,257,000 for the Office of the Chief Financial Officer. The Department is directed to transfer the staff and function of the Office of Cost Analysis from the Chief Financial Officer to Management Administration, to be managed by the Office of Engineering and Construction Management.

*Office of Management.*—The bill provides \$67,790,000 for the Office of Management, of which \$790,000 is to accommodate the transfer of the Office of Cost Analysis staff.

*Office of Indian Energy Policy and Programs.*—The bill provides \$1,500,000 to establish an Office of Indian Energy Policy and

Programs, as authorized in section 502 of the Energy Policy Act of 2005.

OFFICE OF THE INSPECTOR GENERAL

The bill provides \$51,927,000 for the Office of the Inspector General.

ATOMIC ENERGY DEFENSE ACTIVITIES

NATIONAL NUCLEAR SECURITY  
ADMINISTRATION

The National Nuclear Security Administration (NNSA), a semi-autonomous agency within the Department of Energy, manages the Nation's nuclear weapons programs, nuclear nonproliferation programs, and naval reactors activities.

The bill provides \$9,129,594,000 for the National Nuclear Security Administration. The bill makes funds available until expended.

WEAPONS ACTIVITIES

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$6,380,000,000 for Weapons Activities.

*U.S. Nuclear Weapons Strategy for the 21st Century.*—In the future, if the Administration chooses to pursue a new warhead design, the Administration must first: 1) develop a 21st Century nuclear deterrent strategy sharply focused on today's and tomorrow's threats, and capable of serving national security needs; 2) determine the size and nature of the nuclear stockpile sufficient to serve that strategy; and 3) determine the size, cost, and nature of the nuclear weapons complex necessary to support the future stockpile and sustain the nuclear laboratories and scientific capabilities.

*Reprogramming authority.*—The Department is provided limited reprogramming authority within the Weapons Activities account without prior approval from the Committees on Appropriations. The reprogramming control levels shall be as follows: subprograms within Directed Stockpile Work, Life Extension Programs, Stockpile Systems, Warhead Dismantlement, and Stockpile Services. Additional reprogramming control levels shall be as follows: Science Campaigns, Engineering Campaigns, Inertial Confinement Fusion Ignition and High Yield Campaigns, Advanced Simulation and Computing Campaigns, Readiness Campaigns, and Readiness in Technical Base and Facilities (RTBF). The Department is not provided reprogramming authority between site allocations for Readiness in Technical Base and Facilities Operations of Facilities. In addition, funding of not more than \$5,000,000 may be transferred between each of these categories and each construction project, with the exception of the RTBF site allocations, subject to the following limitations: only one transfer may be made to or from any program or project; the transfer must be necessary to address a risk to health, safety or the environment or achieve cost savings; and funds may not be used for an item for which Congress has specifically denied funds or for a new program or project that has not been authorized by Congress.

The Department must notify Congress within 15 days of the use of this reprogramming authority. Transfers during the fiscal year that would result in increases or decreases in excess of \$5,000,000 or that would exceed the limitations outlined in the previous paragraph require prior notification of and approval by the Committees on Appropriations.

The Committees on Appropriations support Los Alamos National Laboratory and Sandia National Laboratories naming laboratory facilities at their respective laboratories.

DIRECTED STOCKPILE WORK

The bill provides \$1,590,152,000 for Directed Stockpile Work.

*Life Extension Program.*—The bill provides \$205,043,000 for Life Extension Program activities.

*Stockpile Systems.*—The bill provides \$328,521,000 for Stockpile Systems activities.

*Reliable Replacement Warhead (RRW).*—The bill provides no funding for the Reliable Replacement Warhead.

*Weapons Dismantlement and Disposition.*—The bill provides \$190,205,000 for Weapons Dismantlement and Disposition. Within available funds, the bill provides an additional \$22,000,000 toward expanding operations of the AIREX line to ensure there is adequate feedstock available to support MOX operations.

*Stockpile Services.*—The bill provides \$866,383,000 for Stockpile Services. The budget request for Pit Manufacturing included two elements, Pit Manufacturing at \$145,269,000 and Pit Manufacturing Capability at \$53,560,000. These two functions were not well defined or delineated. In lieu of this request, the bill provides a single \$155,269,000 appropriation for Plutonium Capability.

CAMPAIGNS

The bill provides \$1,619,186,000 for Campaigns. This includes \$2,100,000 for the University Research Program in Robotics.

*Science Campaigns.*—The bill provides \$316,690,000 for Science Campaigns. This includes \$80,181,000 for Primary Assessment Technologies, which in turn includes \$8,000,000 to support subcritical experiments, fielding and diagnostics of Powder Gun, JASPER gas gun, the Borolo experiment, and the ongoing series of Phoenix experiments.

*Engineering Campaign.*—The bill provides \$150,000,000 for the Engineering Campaign. The Committees are aware of the advantages of a modern design and strongly support improved surety. Within this Campaign, the bill therefore provides \$46,112,000 for Enhanced Surety, non-RRW.

*Inertial Confinement Fusion Ignition and High Yield.*—The bill provides \$436,915,000 for the Inertial Confinement Fusion and High Yield Campaign, including \$203,282,000 for Facility Operations and Target Production of which \$13,310,000 above the request is for National Ignition Facility operations and target production, and \$15,000,000 above the request is to support single shift operations on the Z machine and to explore advanced concepts including \$2,000,000 for linear transformer driver concepts.

*Advanced Simulation and Computing.*—The bill provides \$556,125,000 for Advanced Simulation and Computing, including \$15,000,000 to develop the new Zia Platform. The budget submitted by NNSA has a striking lack of detail regarding the NNSA's computing strategy, acquisition plan, and on what basis computing time will be allocated among the national labs. This raises the concern that the acquisition strategy for new platforms will not fit within the available budget. As computing is an essential tool in stewardship, the NNSA is directed to provide a written report addressing the following issues: 1) identify how computing capability at each of the labs will specifically contribute to stockpile stewardship goals, and on what basis computing time will be allocated to achieve the goal of a balanced program among the labs; 2) explain the NNSA's acquisition strategy for capacity and capability of machines at each of the labs and how it will fit within the existing budget constraints; and 3) identify the technical challenges facing the program and a strategy to resolve them. This report shall have the benefit of independent review, and be submitted to the House and Senate Appropriations Committees within 6 months after enactment of this Act.

*Readiness Campaign.*—The bill provides \$160,620,000 for the Readiness Campaign.

READINESS IN TECHNICAL BASE AND FACILITIES

*Construction.*—The bill provides \$314,468,000 for RTBF Construction, including \$19,300,000 for Project 09-D-007, LANSCE Reinvestment Project. Within these funds, the bill provides \$6,100,000 for 08-D-806 Ion Beam Laboratory. NNSA is directed to apply all available operating and construction carryover balances from the MESA project to the Ion Beam Laboratory construction project in order to complete this project. Within these funds, the bill provides \$93,276,170 for Project 06-D-140-05, PED, Uranium Processing Facility.

## TITLE IV—INDEPENDENT AGENCIES

## APPALACHIAN REGIONAL COMMISSION

The bill provides \$75,000,000 for the Appalachian Regional Commission.

## DEFENSE NUCLEAR FACILITIES SAFETY BOARD

## SALARIES AND EXPENSES

The bill provides \$25,000,000 for the Defense Nuclear Facilities Safety Board.

## DELTA REGIONAL AUTHORITY

## SALARIES AND EXPENSES

The bill provides \$13,000,000 for the Delta Regional Authority (DRA).

## DENALI COMMISSION

The bill provides \$11,800,000 for the Denali Commission.

## NUCLEAR REGULATORY COMMISSION

## SALARIES AND EXPENSES

The bill provides \$1,034,656,000 for the Nuclear Regulatory Commission (NRC). The total amount of budget authority is offset by estimated revenues of \$860,857,000, resulting in a net appropriation of \$173,799,000. The bill includes \$49,000,000 to be derived from the Nuclear Waste Fund.

Of the \$1,034,656,000 gross appropriation for fiscal year 2009, \$49,000,000 is drawn from the Nuclear Waste Fund, \$2,000,000 is drawn from the General Fund of the Treasury to execute NRC's responsibilities to provide oversight of certain Department of Energy activities under section 3116 of Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (P.L. 108-375), and \$27,148,000 is drawn from the General Fund of the Treasury to execute NRC's homeland security responsibilities. Ninety percent of the balance of \$956,508,000 (i.e., \$860,857,000) is funded by fees collected from NRC licensees, and the remaining 10 percent (i.e., \$95,651,000) is funded from the General Fund of the Treasury.

*Integrated University Program.*—The bill includes \$15,000,000 to support education in nuclear science, engineering, and related trades to develop a workforce capable of the design, construction, operation, and regulation of nuclear facilities and the safe handling of nuclear materials. These funds are to be used for college scholarships and graduate fellowships in nuclear science, engineering, and health physics, and for faculty development

grants supporting faculty in these academic areas for the first six years of their careers. Some of these funds are also to be used for scholarships for trade schools in the nuclear-related trades. Notwithstanding the requirements of section 243 of the Energy Policy Act of 2005, which makes employment at the Commission a condition of receiving educational assistance, the Commission is directed to make generous use of the waiver or suspension provisions available in section 243(c)(2). The nuclear education supported by this funding is intended to benefit the nuclear sector broadly (i.e., federal agencies, industry, and academia) rather than solely to benefit the Nuclear Regulatory Commission. Within available funds, \$5,000,000 is provided for the Integrated University Program cooperative research grant program.

*Fire Protection.*—The NRC is currently piloting an alternative risk-based approach to fire safety that is likely to reduce fire safety requirements in certain “low risk” areas of nuclear power plants. As the NRC continues to work on these pilots, it must ensure that its methodology for assessing risk is either validated by independent third parties or applies standards developed by an independent entity and is transparent to the public. The NRC is directed to provide a report to the Committees on Appropriations within 60 days of enactment of this Act providing the status of the fire safety pilot projects and how all licensees are able to comply with either these new or existing regulatory requirements.

*Next Generation Nuclear Plant Licensing.*—The NRC is directed to increase resources to work with the Department of Energy on the Next Generation Nuclear Plant, so that technical issues involved in licensing this new nuclear reactor will be identified and resolved as early as possible in the design process.

## OFFICE OF INSPECTOR GENERAL

The bill provides \$1,086,000 for the NRC Office of Inspector General.

## NUCLEAR WASTE TECHNICAL REVIEW BOARD

## SALARIES AND EXPENSES

The bill provides \$3,811,000 for Nuclear Waste Technical Review Board.

## TENNESSEE VALLEY AUTHORITY

## OFFICE OF INSPECTOR GENERAL

The bill includes no funds to establish a congressionally-funded Office of Inspector General for the Tennessee Valley Authority.

*Reports.*—The Inspector General is directed to forward copies of all audit and inspection reports to the Committees on Appropriations immediately after they are issued, and immediately make the Committees aware of any review that recommends cancellation of, or modification to, any major acquisition project or grant, or which recommends significant budgetary savings. The Inspector General is also directed to withhold from public distribution for a period of 15 days any final audit or investigation report that was requested by the Committees on Appropriations.

## OFFICE OF THE FEDERAL COORDINATOR FOR ALASKA NATURAL GAS TRANSPORTATION PROJECTS

The bill provides \$4,400,000 for the Office of the Federal Coordinator for Alaska Natural Gas Transportation Projects.

## TITLE V—GENERAL PROVISIONS

The bill includes a provision that prohibits the use of any funds provided in this bill from being used to influence congressional action.

The bill includes a provision that addresses transfer authority under this Act.

## DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the bill or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Reference in the following table to “The President” is a reference to President Bush. Neither the bill nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

**DIVISION D—FINANCIAL SERVICES AND GENERAL GOVERNMENT APPROPRIATIONS ACT, 2009**

Following is an explanation of the effects of division D, relating to the Financial Services and General Government Appropriations Act, 2009.

**REPROGRAMMING GUIDELINES**

The bill includes a provision (section 608) establishing the authority of agencies to reprogram funds and the limitations on that authority. The provision specifically requires the advance approval of the House and Senate Committees on Appropriations of any proposal to reprogram funds that meets specified criteria.

Each agency is required to submit an operating plan to the House and Senate Committees on Appropriations not later than 60 days after the enactment of this Act. This operating plan establishes the baseline for application of reprogramming and transfer authorities provided in this Act. Specifically, each agency should provide a table for each appropriation with columns displaying the budget request; adjustments made by Congress; adjustments for rescissions, if appropriate; and the fiscal year enacted level. The table shall delineate the appropriation both by object class and by program, project, and activity. The report must also identify items of special congressional interest.

Agencies should submit reprogramming requests in a timely manner and provide a thorough explanation of the proposed reallocations, including a detailed justification of increases and reductions and the specific impact the proposed changes will have on the budget request for the following fiscal year. Except in emergency situations, reprogramming requests should be submitted no later than June 30. When an agency submits a reprogramming or transfer request to the Committees on Appropriations and does not receive identical responses from the House and the Senate Committees, it is the responsibility of the agency to reconcile the House and the Senate differences before proceeding, and if reconciliation is not possible, to consider the request to reprogram funds denied.

**AGENCY REPORTS**

As a measure to reduce costs and conserve paper, agencies funded by this Act that currently provide separate copies of periodic reports (such as Performance and Accountability Reports) to the Chairs of the House and Senate Appropriations Committees and Subcommittees on Financial Services and General Government, and also to the Ranking Members of the Committees and Subcommittees, should send only one copy jointly addressed to the Chairs of the Committee and Subcommittee and one copy jointly addressed to the Ranking Members of the Committee and Subcommittee (separate copies should be sent to the House and the Senate). This will reduce by half (from eight to four) the copies of periodic reports agencies send to the Committees.

**COMPARISONS**

Comparisons between amounts provided by this Act, amounts enacted for fiscal year 2008, and amounts requested by the President may be found in the table at the end of this division.

**TITLE I**

**DEPARTMENT OF THE TREASURY**

**DEPARTMENTAL OFFICES**

**SALARIES AND EXPENSES**

**(INCLUDING TRANSFER OF FUNDS)**

The bill provides \$278,870,000 for departmental offices salaries and expenses.

For the activities under this heading, the bill provides the following funding levels:

Executive Direction .....	\$21,619,000
Economic Policies and Programs .....	45,910,000
Financial Policies and Programs .....	36,039,000
Terrorism and Financial Intelligence .....	62,098,000
Treasury-wide Management .....	21,600,000
Administration .....	91,604,000

Within the Financial Policies and Programs budget activity, the bill provides an increase of \$500,000 above the amount assumed in the budget request for the Department's Office of Financial Education. The Department is directed to target this increase toward financial education efforts aimed at elementary and high schools, as well as efforts aimed at combating predatory lending.

Within the funds provided for the Office of Foreign Assets Control (OFAC), not less than \$300,000 is provided to increase, above fiscal year 2008 levels, efforts to reduce the backlog of OFAC Freedom of Information Act requests.

The bill includes a provision allowing the Department to transfer up to 4 percent of funds available between budget activities upon notification of the House and Senate Committees on Appropriations. Transfers in excess of 4 percent may be made upon approval of the Committees on Appropriations.

The Department is directed to submit to the House and Senate Committees on Appropriations an operating plan for the fiscal year 2009 resources provided to the Department, including all offices and bureaus, not more than 60 days after enactment of this Act. This requirement is further addressed by section 608 of this Act. The plan must include information on program increases and major procurements at the Department. The operating plan should incorporate input from all senior level managers of the Department, and once submitted, the final plan should be made available to those managers.

The bill includes funding for the Department's Office of General Counsel within the Executive Direction budget activity, rather than as a separate budget activity. The Department is directed to include, in its budget submission for fiscal year 2010, information on actual fiscal year 2008 costs, estimated fiscal year 2009 costs, and estimated fiscal year 2010 costs associated with the Office of General Counsel.

As a result of the Emergency Economic Stabilization Act of 2008 (EESA) and other actions to stabilize the financial markets, the Department's responsibilities and activities have substantially and rapidly increased. The Department is expected to properly account for spending between amounts appropriated in the bill for specified activities and activities funded by direct spending authority under EESA.

The Department is also expected to address the recommendations provided by the Government Accountability Office (GAO) in the report titled "Troubled Asset Relief Program: Additional Actions Needed to Better Insure Integrity, Accountability, and Transparency" (GAO-09-161). Specifically, the Department is directed to implement reporting requirements to link the use of funds with the specified goals of EESA, to improve communications with Congress and the public, to monitor compliance with limitations on executive compensation, and to establish procedures for comprehensive oversight of contracts. The Committees on Appropriations

are particularly concerned with the reliance on "time and materials" contracts, as the GAO has cited that these types of contracts present a high risk for the government because they provide no positive incentive to control for costs. The Department is directed to brief the Committees on Appropriations regularly on activities relating to EESA.

The Department is directed to fully exercise its authority under EESA and its other authorities to reduce the amount of mortgage defaults and foreclosures. Preventing foreclosure is not only a key step to providing stability to domestic and global financial markets, it also will help keep American families in their homes during the economic crisis.

The Committees on Appropriations are greatly concerned by the resource allocation decisions being made by OFAC, as noted in a November 2007 report from GAO. OFAC's resource allocation decisions should be made on the basis of the most pressing national security threats facing the United States. OFAC is responsible for administering and enforcing more than 20 economic and trade sanctions programs, based on U.S. foreign policy and national security goals, against targeted foreign countries, terrorists, international narcotics traffickers, and proliferators of weapons of mass destruction. Yet, as the GAO report points out, Cuba embargo-related cases comprised 61 percent of OFAC's investigatory caseload from 2000 through 2006. In contrast, Cuba embargo-related cases comprise a minor part of the investigation caseloads of the Commerce Department's Bureau of Industry and Security (BIS)/Office of Export Enforcement and the Department of Homeland Security's Bureau of Immigration and Customs Enforcement (3 percent and 0.2 percent, respectively).

In addition, OFAC penalties for Cuba embargo violations represented more than 70 percent of OFAC's total penalties between 2000 and 2005. The report notes that most of these penalties were for infractions such as purchasing Cuban cigars. By contrast, Cuba embargo penalties comprised just 0.16 percent of the total penalties of BIS during the period of 2002-2006. The Commerce Department, the Department of Homeland Security's Bureau of Immigration and Customs Enforcement, and the Justice Department reported undertaking relatively few investigations, penalties, and prosecutions of Cuba embargo violations.

The Committees on Appropriations strongly concur with GAO's recommendation that the Secretary of the Treasury direct OFAC to assess its allocation of resources for investigating and penalizing violations of the Cuba embargo with respect to the numerous other sanctions programs OFAC administers. The Department is directed to report to the House and Senate Appropriations Committees, within 90 days of enactment of this Act, as to the steps it is taking to assess OFAC's allocation of resources, along with any plans to reallocate OFAC resources. As part of such report, the Department is additionally directed to provide the following information:

(1) for each fiscal year from 2001 to 2008, the following information related to OFAC's Cuba-related licensing:

- the number of family travel licenses issued, as well as the number denied;
- the number of religious travel licenses issued, as well as the number denied;
- the number of academic travel licenses issued, as well as the number denied;
- the number of licenses issued for the various categories of permissible travel;

- the number of licenses denied for the various categories of permissible travel;
- the number of fines issued;
- the average amount of fines;
- the total amount (in dollars) of fines issued per violation category;
- the number of Cuba travel service providers receiving licenses;
- the names of Cuba travel service providers receiving licenses;
- the number of Full-time Equivalents (FTE) used for issuing Cuba licenses; and
- the number of FTE used for issuing licenses for Cuba travel service providers;

(2) for each fiscal year from 2001 to 2008, the following information related to OFAC enforcement of the Cuba embargo:

- the number of FTE used for Cuba embargo enforcement;
- the number of fines issued;
- the average amount of fines;
- the total amount (in dollars) of fines issued, per violation category;

- the number of cases heard by OFAC Administrative Law Judges, along with information on whether these judges were OFAC's own, or whether they were borrowed from other Government agencies;

- the average fine in these cases; and
- the total amount (in dollars) of fines issued by these judges;

(3) for each fiscal year from 1990 to 2008, the following information related to OFAC enforcement of the Cuba embargo:

- the total amount of fines collected in each year;

- the number of travelers engaged in illegal travel to Cuba and apprehended, as reported to OFAC, along with statistics as to the points-of-entry where travelers were apprehended;

- the number of cases against travelers that were/are disputed by the traveler;

- the number of these cases that are settled;

- the average settlement amount; and

- the average time from the first notice sent to the traveler until final settlement was reached;

(4) for fiscal years 2007 and 2008, the number of FTE devoted to OFAC enforcement in the area of Foreign Terrorist Organizations.

The Department is directed to fully implement the sanctions and divestment measures specified in the Sudan Accountability and Divestment Act of 2007 as well as all other sanctions and divestment measures applicable to Sudan, Burma, Iran, and Zimbabwe. The Department is further directed to promptly notify the Appropriations Committees of any resource constraints that adversely impact the implementation of these sanctions programs.

Given Iran's failure to fully cooperate with International Atomic Energy Agency inspections and various resolutions passed by the United Nations Security Council, as well as continuing deficiencies in Iran's anti-money laundering and counter-terrorist financing procedures, the Department is urged to continue working with other cognizant Federal agencies and international organizations, including the Financial Action Task Force, to help deter Iran's support for weapons proliferation.

A July 2007 GAO report found that while the Department has established many of the capabilities needed to select, control, and evaluate its information technology (IT) investments, the Department has significant weaknesses that hamper its ability to effectively manage its investments. The Department has since initiated efforts to improve its IT investment management process and

recognizes the need to take proactive steps to strengthen its investment board operations and oversight. The Department is directed to continue improving the management of its capital investments, specifically focusing on integrating all of the Department's bureaus into improvement efforts and institutionalizing improvements so that taxpayers will benefit from better management of future capital projects. The Department is further directed to report to the House and Senate Committees on Appropriations on a quarterly basis, beginning not later than 90 days after the date of enactment of this Act, on any planned or implemented improvements in the area of Treasury's IT investments, including progress in addressing GAO's recommendations. The Department is further directed to ensure that adequate resources are devoted both to projects in the capital phase and to proper maintenance and modernization of existing systems.

mentation of comprehensive lifecycle planning for information technology equipment.

COMMUNITY DEVELOPMENT FINANCIAL INSTITUTIONS FUND PROGRAM ACCOUNT

The bill provides \$107,000,000 for the Community Development Financial Institutions (CDFI) Fund program. Within this amount, \$8,500,000 is for technical assistance and other purposes for Native American, Native Hawaiian, and Alaskan Native communities.

In addition, of the funds provided, \$2,000,000 is included for a new competitive grants pilot program at the Department, aimed at providing financial counseling services to prospective homebuyers, as authorized by the Housing and Economic Recovery Act of 2008 (Public Law 110-289). In developing the competitive grants process, the Department is directed to consult with other Federal agencies and public and private organizations with expertise in community-based financial counseling programs.

The Department is directed to fund the Bank Enterprise Award program at a level not less than \$22,000,000.

Poverty, lack of economic opportunity, and lack of low-cost financial services continue to be problems across much of the Nation, particularly in many Hispanic-American, African-American, Native American, Asian American, Pacific Islander, Alaskan Native, and other minority communities. The House and Senate Committees on Appropriations appreciate the ongoing efforts of the CDFI Fund to work to remedy the particular problems in these communities and strongly encourage the CDFI Fund to continue to place a heavy emphasis on these efforts.

INTERNAL REVENUE SERVICE

TAXPAYER SERVICES

The bill includes \$2,293,000,000 for Taxpayer Services, an increase of \$143,000,000 above both the request and the amount provided in fiscal year 2008. The increase above the budget request is in addition to, and not a substitute for, the \$127,000,000 in user fee collections that the Internal Revenue Service (IRS) estimated in its fiscal year 2009 budget request would be available to supplement the Taxpayer Services account. Within the overall amount, not less than \$9,500,000 is for low-income taxpayer clinic grants, and not less than \$5,100,000 is for the Tax Counseling for the Elderly Program. Not less than \$193,000,000 is provided for operating expenses of the IRS Taxpayer Advocate Service (TAS).

In addition, within the overall amount provided, \$8,000,000, available until September 30, 2010, is included to continue the Community Volunteer Income Tax Assistance matching grants program. In administering this program, the IRS is not permitted to treat any in-kind contributions from the IRS as counting toward the \$8,000,000 appropriation, nor shall the IRS reduce any current contributions toward tax return preparation services.

Within the overall funds provided, the IRS is expected to devote funding to maintaining

its processing of essential pension plan return information while transitioning to a new mandated electronic filing system in 2010.

Of the increase above the budget request, \$38,000,000 is directed to be targeted toward the following activities within the Pre-filing Taxpayer Assistance and Education budget activity: (1) increasing IRS outreach and education activities, for individuals, businesses, and tax-exempt entities, above the levels assumed in the fiscal year 2009 budget request, (2) enhancements to IRS face-to-face service, and (3) enhancements to the IRS 1-800 help line service. The Department is directed to include, in its fiscal year 2009 operating plan, a specific plan for increasing these activities above the levels assumed in the budget request. For purposes of comparison, the plan should include: (1) details on the funding levels and full-time equivalents (FTEs) assumed in the fiscal year 2009 budget request for these activities, and (2) funding levels and FTEs for these activities as funded by this Act. The IRS is directed to add this funding to the IRS base budget and include it in future budget requests. To the maximum extent possible, these funds should go toward increasing the numbers of IRS personnel devoted to these activities.

The IRS is directed to strengthen, improve, and expand taxpayer service overall. If the IRS proposes further reductions in specific taxpayer services, such reductions must be consistent with the budget justification, operating plan, and Taxpayer Assistance Blueprint, and the IRS must demonstrate that such reductions will not result in a decline in voluntary compliance. Where such reductions involve a reduction in face-to-face service, the IRS must demonstrate that the proposed reductions do not adversely impact compliance by taxpayers who are dependent on such services, by showing, through such means as a successful pilot program, survey, or other empirical means, that there is an effective and viable service alternative available.

The IRS, the IRS Oversight Board and the National Taxpayer Advocate are directed to submit annually to the House and Senate Committees on Appropriations an update to the Taxpayer Assistance Blueprint, detailing its implementation status and identifying any changes to the strategic plan for taxpayer service, including the results of any new research and relevant findings, and any open issues requiring additional research. The first update shall be submitted 120 days after enactment of this Act.

The IRS is directed to continue to report to the House and Senate Committees on Appropriations on a quarterly basis, beginning not later than 60 days after the date of enactment of this Act, with updated projections on user fee collections.

The IRS is directed to provide an assessment of lessons learned from the administration of the 2008 economic stimulus program, including recommendations for managing similar programs in the future and minimizing declines in level of core services, to the House and Senate Committees on Appropriations no later than 120 days after enactment of this Act. As part of such report, the IRS should include an analysis of the feasibility, including cost savings, of converting taxpayers who receive paper checks to electronic or debit card payment systems.

Given the remote distance of Alaska and Hawaii from the U.S. mainland and the difficulty experienced by Alaska and Hawaii taxpayers in receiving needed tax assistance by the national toll free line, it is imperative

that the TAS in each of these states is fully staffed and capable of resolving taxpayer problems of the most complex nature. The IRS is directed to continue to staff each TAS Center in each of these states with a Collection Technical Advisor and an Examination Technical Advisor in addition to the current complement of office staff.

There continues to be a steady increase in the number of tax returns filed electronically. Eighty million tax returns were e-filed in 2007. While the IRS did not meet the congressionally-mandated goal of having 80 percent of tax returns filed electronically by 2007, it achieved an overall e-file rate of 65 percent, up over 9 percent. The IRS is directed, in consultation with stakeholders, including the National Taxpayer Advocate, to implement a strategy to achieve the 80 percent e-file goal. This plan should address alternate electronic filing strategies, including Telefile and 2-D Bar Coding and methods of e-filing directly with the IRS for free.

The Department's fiscal year 2009 budget request for the IRS assumes more than \$80,000,000 in efficiency savings. While it is important for the IRS, like all Federal agencies, to explore ways to achieve cost savings, these budget assumptions also carry risks, as the IRS would need to reduce program funding if savings fail to materialize as projected. An August 2007 report from TIGTA noted that savings estimates could not be validated for more than \$146,000,000 in taxpayer service reengineering and program efficiencies initiatives over fiscal years 2006 and 2007. The IRS is directed to report to the House and Senate Committees on Appropriations, within 30 days of enactment of this Act, on the steps it is taking to improve its processes for measuring savings and efficiencies, including steps to address TIGTA's recommendations in this area.

In recent years, the IRS has made progress expanding the availability of IRS services available in languages other than English, including the establishment of a Spanish-language version of "Where's My Refund?" in 2008. However, the IRS Taxpayer Advocate has also expressed concerns in recent years about the lack of availability of certain IRS services, forms, and publications in languages other than English, even though six percent of taxpayers do not speak English at home. The IRS is urged to continue to work to translate a broad range of documents, not just education and outreach materials, but also forms and examination and collection notices.

In addition, an August 2007 TIGTA report showed that for the 2007 filing season, the quality and level of customer service for Spanish-speaking taxpayers was lower than that provided for English-speaking taxpayers. Furthermore, the accuracy rate for tax answers provided by the IRS to Spanish-speaking taxpayers was lower than that for English-speaking taxpayers. The IRS is directed to report to the House and Senate Committees on Appropriations, within 30 days of enactment of this Act, on the status of the quality and level of customer service for Spanish language applications on the IRS 1-800 help line, along with any IRS corrective actions planned or implemented to improve performance.

Many low-income taxpayers and their families are having their Earned Income Tax Credit (EITC) benefits unnecessarily diminished through high-cost, short-term products such as refund anticipation loans (RALs). The IRS is directed, in consultation with the National Taxpayer Advocate, to educate consumers about the costs associated with these

products and expand access to alternative methods of obtaining timely tax refunds.

The IRS, in consultation with the IRS Taxpayer Advocate, is directed to report to the House and Senate Committees on Appropriations, within 90 days of enactment of this Act, on improvements being made in the process for making decisions about Taxpayer Assistance Center services and locations, including progress in addressing the recent recommendations of TIGTA in this area.

The IRS has stated that it would achieve millions of dollars in cost savings as a result of the consolidation of IRS processing centers for paper tax returns. However, an August 2007 TIGTA report showed that the IRS had not provided adequate information about the actual results from the first two processing center closures. In addition, the IRS business decision to consolidate the processing centers did not include a cost-benefit analysis. Consequently, the IRS did not set financial goals for the consolidation, and thus has not had an incentive to determine how efficient its decisions have been. While the IRS has continued to successfully process individual income tax returns while implementing the consolidation, the report cited several unanticipated developments at the Fresno, CA processing site due to increased tax return volume, including delays in processing returns and a possible staffing shortfall. Prior to future processing center closures, the IRS is strongly urged to have the IRS Project Management Office complete a cost-benefit analysis, as recommended by TIGTA, to determine if the existing submission processing consolidation plan is optimal in terms of cost savings and operational effectiveness.

#### ENFORCEMENT

##### (INCLUDING TRANSFER OF FUNDS)

The bill provides \$5,117,267,000 for Enforcement.

The IRS is directed to report to the House and Senate Committees on Appropriations, within 120 days of enactment of this Act, on the status of efforts to improve IRS's system for identifying paid preparers, including addressing the recommendations of the Government Accountability Office (GAO) in this area.

The IRS is urged to continue to work to avoid unnecessary delays in the issuances of Earned Income Tax Credit (EITC) refunds, as such refunds comprise a significant portion of the annual income of eligible taxpayers. In addition, the IRS is directed to report to the House and Senate Committees on Appropriations, within 90 days of enactment of this Act, on steps it is taking to address the recommendations of the IRS Taxpayer Advocate regarding barriers faced by taxpayers when negotiating the EITC audit process.

An understanding of the causes of inadvertent noncompliance and the role of preparers in facilitating both inadvertent and intentional noncompliance will improve tax administration and should inform IRS's allocation of resources. The IRS, in administering its National Research Program (NRP) for fiscal year 2009, is directed to collect information on the causes of noncompliance, including inadvertent noncompliance, the type of return preparation method (self, volunteer, paid preparer, or IRS preparer), whether the taxpayer was represented during the examination, and the extent to which that taxpayer sought and received IRS services. The IRS is further directed to use an independent external survey firm to conduct interviews with NRP taxpayers in order to identify the causes of taxpayer noncompliance. The National Taxpayer Advocate is directed to assist with this effort.

Many types of vehicles, such as fire engines, garbage trucks, utility trucks, farm vehicles, cement trucks, dump trucks, and tow trucks use their main engine to run auxiliary equipment, which is known as "power take-off." However, current IRS regulations prohibit taxpayers from taking a credit or claiming a refund for Federal fuel excise tax paid on fuel used to power the main propulsion engine for power take-off. The IRS is encouraged to consider issuing a rule to address this issue, in order to encourage fuel efficiency and reduce emissions.

#### OPERATIONS SUPPORT

The bill provides \$3,867,011,000 for Operations Support. Of the funds provided, up to \$75,000,000 is available until September 30, 2010 for information technology support and \$1,000,000 is available until September 30, 2011 for research. In addition, not less than \$2,000,000 is provided for the IRS Oversight Board.

In addition to the normal operating plan requirements detailed in the introduction to this division of the statement, the IRS is directed to include in its fiscal year 2009 operating plan details on any planned reorganization, job reductions or increases to offices or activities within the agency, and modifications to any service or enforcement activity. The IRS is additionally directed to obtain comments on the operating plan from the IRS Oversight Board and to provide a summary of the comments as part of the operating plan submission to the House and Senate Committees on Appropriations. Further, the IRS should promptly notify the Committees on Appropriations and the IRS Oversight Board if there are any substantial changes to these plans.

The Appropriations Committees continue to support adequate staffing levels for effective tax administration and support the staffing plans for the IRS facilities in the communities of Martinsburg and Beckley, West Virginia. The IRS is urged, within the constraints of the fiscal year 2009 funding levels, to make no staffing reductions at the Martinsburg National Computing Center and the programmed level at the Finance Center in Beckley, West Virginia. Further, the IRS is directed to provide an annual report to the House and Senate Committees on Appropriations on its efforts to protect and increase staffing levels at the Martinsburg and Beckley IRS facilities.

Given the strong and legitimate concerns that continue to be raised by Congress, GAO, TIGTA, and others regarding information security vulnerabilities at the IRS and the IRS's handling of cases of identity theft, the IRS is directed to report to the House and Senate Committees on Appropriations within 60 days of enactment of this Act as to the status of its efforts at improvement in these areas.

A September 2007 GAO report noted that there are significant problems in the management of paper case files at the IRS. In particular, the report noted that the IRS does not have an effective process for ensuring that paper case files can be located within the requesters' time frames, frequently causing unnecessary taxpayer burden and hindering the oversight efforts of Congress, GAO, TIGTA, and others. The IRS has agreed it needs to review its paper case file management program and has formed a cross-functional working group to identify improvements and consider GAO's recommendations. The IRS is directed to report to the House and Senate Committees on Appropriations, within 60 days of enactment of this Act, on progress IRS is making in improving its paper case file management.

#### BUSINESS SYSTEMS MODERNIZATION

The bill provides \$229,914,000 for Business Systems Modernization (BSM). Language is included requiring approval by the House and Senate Committees on Appropriations of a GAO-reviewed expenditure plan for BSM prior to the obligation of the funds, except in the case of funds for IRS labor costs. The Department is directed to notify the House and Senate Committees on Appropriations, within seven days, if BSM management funds are reallocated to the capital asset acquisition program.

As one of the Federal Government's largest, most visible, and sensitive modernization efforts, managing the risks inherent in BSM will continue to require vigilant management attention for several years. To the IRS's credit, the program has made steady progress over the past few years. At the same time, however, GAO has noted that three recent BSM project milestones experienced significant cost or schedule delays. In addition, future releases, especially the Customer Account Data Engine and Accounts Management Services projects, continue to face significant risks and issues that could impact overall cost and schedule estimates. The IRS is urged to work diligently to improve the BSM program, including efforts to address the related concerns highlighted by GAO and TIGTA, and to immediately report to the House and Senate Committees on Appropriations any delays or cost overruns associated with BSM efforts.

#### HEALTH INSURANCE TAX CREDIT ADMINISTRATION

The bill provides \$15,406,000 for administration of the Health Insurance Tax Credit program.

#### ADMINISTRATIVE PROVISIONS—INTERNAL REVENUE SERVICE

—section 112 allowing for the transfer of funds from 'Financial Management Service, Salaries and Expenses' to the Debt Collection Fund conditional on future reimbursement;

—section 113 extending a pay demonstration program for one year;

—section 114 prohibiting funds to build a United States Mint museum without the approval of the House and Senate Committees on Appropriations and the authorizing committees of jurisdiction;

—section 115 prohibiting funding for consolidating the functions of the United States Mint and the Bureau of Engraving and Printing without the approval of the House and Senate Committees on Appropriations and the authorizing committees of jurisdiction;

—section 116 specifying that funds for Treasury intelligence activities are deemed to be specifically authorized until enactment of the fiscal year 2009 intelligence authorization act; and

—section 117 permitting the Bureau of Engraving and Printing to use up to \$5,000 from the Industrial Revolving Fund for reception and representation expenses.

#### TITLE II

#### EXECUTIVE OFFICE OF THE PRESIDENT AND FUNDS APPROPRIATED TO THE PRESIDENT

##### COMPENSATION OF THE PRESIDENT

The bill provides \$450,000 for compensation of the President, including an expense allowance as authorized by 3 U.S.C. 102.

##### WHITE HOUSE OFFICE

##### SALARIES AND EXPENSES

The bill provides \$53,899,000 for the White House Office. This amount includes \$1,400,000 for the White House Office of National AIDS Policy. The Administration is urged to develop and implement a National AIDS Strategy that engages multiple sectors in strategy development, is comprehensive across Federal agencies, sets timelines and assigns responsibility for implementing changes, identifies targets for improved prevention and treatment outcomes and reduced racial disparities, and mandates annual reporting on progress.

##### EXECUTIVE RESIDENT AT THE WHITE HOUSE

##### OPERATING EXPENSES

The bill provides \$13,363,000 for the operating expenses of the Executive Residence.

##### WHITE HOUSE REPAIR AND RESTORATION

The bill provides \$1,600,000 for White House repair and restoration.

##### COUNCIL OF ECONOMIC ADVISERS

##### SALARIES AND EXPENSES

The bill provides \$4,118,000 for the Council of Economic Advisers.

##### OFFICE OF POLICY DEVELOPMENT

##### SALARIES AND EXPENSES

The bill provides \$3,550,000 for the Office of Policy Development.

##### NATIONAL SECURITY COUNCIL

##### SALARIES AND EXPENSES

The bill provides \$9,029,000 for the National Security Council.

##### OFFICE OF ADMINISTRATION

##### SALARIES AND EXPENSES

The bill provides \$101,333,000 for the Office of Administration. Included in this amount

is \$5,700,000 for e-mail restoration activities and \$11,923,000 for continued modernization of information technology infrastructure.

The Administration should implement comprehensive policies and procedures for the preservation of all records, including electronic records such as e-mails, consistent with the requirements of the Presidential Records Act, the Federal Records Act, and other pertinent laws. The Office of Administration should also work closely with the National Archives and Records Administration (NARA) to ensure the full and complete maintenance and formatting of electronic records that will eventually be turned over to NARA. The Administration is directed to submit a report to the House and Senate Committees on Appropriations no later than June 30, 2009 describing actions it is taking to ensure such policies and procedures are in place, as well as the estimated costs, by program, activity, and fiscal year, of new systems, staff, or other resources needed to ensure the preservation of electronic Presidential records.

OFFICE OF MANAGEMENT AND BUDGET  
SALARIES AND EXPENSES

The bill provides \$87,972,000 for the Office of Management and Budget (OMB).

Included in this amount is funding to help OMB avoid further reductions in FTE as well as to help OMB meet its responsibilities related to the Emergency Economic Stabilization Act of 2008 and other Federal efforts to stabilize the economy. In addition, the bill provides funding to maintain and modernize the Federal government's core budgeting system, which is nearly 20 years old. Also included is funding, estimated at \$200,000, for the printing of paper copies of the President's annual budget submission so that Congress can properly and thoroughly evaluate the President's budget proposals. For fiscal year 2009, OMB did not provide Congress with printed copies of the budget request resulting in the Government Printing Office assuming these costs.

The value of Federal contracts has increased significantly in recent years to well over \$400 billion. OMB, through its Office of Federal Procurement Policy, should be playing a central role in coordinating contracting oversight government-wide. However, in recent years, OMB appeared to be more focused on promoting questionable workforce conversion practices rather than vigorous contracting oversight. The Administration is strongly encouraged to refocus OMB's efforts toward effective oversight of Federal contracts.

An April 2008 Government Accountability Office (GAO) report on use of purchase cards found that although purchase cards help agencies lower transaction costs for small purchases and provide procurement flexibility, 41 percent of the transactions made with purchase cards between July 2005 and June 2006 did not follow proper procedures. OMB is directed to report to the Committees on Appropriations within 120 days of enactment of this Act on actions taken to implement GAO's recommendations and improve purchase card internal controls.

OMB, working with the Environmental Protection Agency, should aggressively pursue completion of pending Integrated Risk Information System (IRIS) assessments, such as trichloroethylene (TCE), which has been under review by IRIS since 1998. In 2004, OMB initiated an interagency review of all IRIS assessments. The number of completed IRIS assessments has decreased since OMB, and in particular the Office of Information and Regulatory Affairs, became involved in

the process. According to the GAO, 32 draft assessments were sent for external review in fiscal years 2006 and 2007, but only four IRIS assessments were finalized; an unacceptable number.

The President is urged to establish the Task Force on International Cooperation for Clean and Efficient Technologies as required under section 916 of the Energy Independence and Security Act of 2007 (Public Law 110-140).

OMB is reminded of the report due to Congress no later than March 1, 2009, regarding the extent to which executive departments and agencies that administer directed funding allocate the designated amounts to intended recipients at a level less than specified in any enacted bill or accompanying report.

OFFICE OF NATIONAL DRUG CONTROL POLICY  
SALARIES AND EXPENSES

The bill provides \$27,200,000 for Office of National Drug Control Policy (ONDCP) salaries and expenses. Of this amount, \$1,300,000 is for policy research and evaluation within the Office of Planning and Budget. This funding should be used to inform policy issues relating to formulation of the National Drug Control Strategy, including attention to demand reduction programs and policies.

The findings of a recent study regarding ONDCP, requested by Congress and completed by the National Academy of Public Administration (NAPA), raise serious issues with the agency's organization and management, as well as the agency's national drug control strategy formulation, coordination, and budget. For example, the NAPA study "found ONDCP's current structure to be less than optimally aligned for the work to be done, highly compartmentalized, and out of balance, with an over-abundance of supervisors, managers, and political appointees."

The strength and diversity of ONDCP's workforce is also a serious concern. From fiscal year 2000 to fiscal year 2008, the agency's workforce declined from 123 to 106, and both racial/ethnicity and female representation have declined significantly as a percentage of the total workforce. Political appointments (with the largest portion being Schedule C appointments) constitute almost a quarter of the workforce at this 'non-partisan' organization, a level greater than other EOP components. Among career staff, the level of turnover in some years has raised concerns about continuity of leadership as well as sufficiency of expertise. Management policies and practices, particularly those relating to human capital, have resulted in a highly centralized and non-transparent structure. More than one-half of ONDCP employees report directly or secondarily to the chief of staff (a non-career SES position), while the deputy director of ONDCP, a Senate-confirmed Presidential appointee, has no supervisory responsibilities.

The NAPA study also looked closely at ONDCP's external relationships, including those with Congress. The Committees on Appropriations have had concerns for some time that ONDCP often disregards the intent of Congress. As an example, the Committees have expressed displeasure and frustration with how ONDCP approached a reorganization of its budget and Counterdrug Technology Assessment Center offices and its refusal to reverse the reorganization in spite of statutory law and directives. As the NAPA study noted, "[r]efusing to comply with statutory requirements, while not making the necessary efforts to resolve these issues with Congress, only serves to increase frustrations on both sides." NAPA goes on to recommend that ONDCP be more engaged in ad-

ressing such issues with Congress. Improved communication and cooperation between ONDCP and Congress is possible if such efforts are made.

The NAPA study contains many additional observations and recommendations. The Administration and ONDCP leadership are strongly encouraged to consider these recommendations as they review the goals, organization, and management of the agency.

Methamphetamine production, trafficking and abuse continue to be a serious problem. ONDCP should continue its efforts to work with various agencies, such as the Departments of Justice, State, Homeland Security and Health and Human Services, along with state and local governments, to develop and implement strategies to reduce the demand for and supply of methamphetamine in the U.S.

COUNTERDRUG TECHNOLOGY ASSESSMENT  
CENTER  
(INCLUDING TRANSFER OF FUNDS)

The bill provides \$3,000,000 for the Counterdrug Technology Assessment Center (CTAC) for counter-narcotics research and development. The bill requires a detailed spending plan for the use of these funds be submitted no later than 90 days after enactment of the Act.

In fiscal year 2003, the CTAC research and development program was appropriated \$22,000,000 (in addition, the Technology Transfer Program was funded under CTAC at \$26,000,000). Since that time, budget constraints and concerns about the direction and leadership of CTAC have resulted in dramatically reduced funding levels. The Committees on Appropriations are hopeful that new leadership at ONDCP and CTAC will reinvigorate this program so that this once-valuable program will again flourish.

FEDERAL DRUG CONTROL PROGRAMS  
HIGH INTENSITY DRUG TRAFFICKING AREAS  
PROGRAM  
(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$234,000,000 for the High Intensity Drug Trafficking Areas Program (HIDTA). Of the funds provided, \$2,100,000 is provided for audit activities, including \$250,000 for the continued operation and maintenance of the Performance Management System.

The bill requires that HIDTAs existing in fiscal year 2009 receive funding at least equal to the fiscal year 2008 initial allocation level or \$3,000,000, whichever is greater. The fiscal year 2009 initial allocation level (before the distribution of discretionary funds) may not exceed \$47,457,447.

The total amount provided assumes \$15,939,987 in discretionary funds for the HIDTA program. ONDCP is directed to work closely with the HIDTA Directors to develop a framework for the use of these discretionary funds. Funding is provided within this amount to provide for a program adjustment for HIDTAs that qualify under performance measurement criteria. This program adjustment should be added to the baseline for the initial allocation levels that will be received by HIDTAs in fiscal year 2010.

ONDCP is directed to transfer HIDTA funds to the appropriate drug control agencies expeditiously. On November 14, 2008, ONDCP sent a letter to HIDTAs stating that the distribution of initial allocation funding would be completed within 45 days of enactment of the fiscal year 2009 appropriation. The bill includes a requirement consistent with this timetable. The bill also includes a requirement that ONDCP submit its recommendations on discretionary funding for

approval to the House and Senate Committees on Appropriations within 90 days of enactment of this Act. The timely review and transfer of both initial allocation funding and discretionary funding will significantly improve the ability of HIDTAs to manage these funds.

The HIDTA funds should not be used to supplant existing support for ongoing Federal, state, or local drug control operations normally funded out of the operating budgets of each agency. ONDCP is directed to withhold all HIDTA funds from a state until such time as a state or locality has met its financial obligation for ongoing operations.

As a result of the many new counties established with fiscal year 2007 funds, ONDCP provided no funding for new counties in fiscal year 2008 with the Committees' concurrence. For fiscal year 2009, discretionary funds may be provided for new counties if ONDCP and the HIDTA Directors determine that the need is warranted and the appropriate criteria have been met. As with all discretionary funds, ONDCP should follow the consultation and approval process with the Committees with regard to any new county funding.

OTHER FEDERAL DRUG CONTROL PROGRAMS  
(INCLUDING TRANSFER OF FUNDS)

The bill provides \$174,700,000 for Other Federal Drug Control Programs. The following allocations are made within the amount provided:

U.S. Anti-Doping Agency .....	9,800
World Anti-Doping Agency Membership Dues .....	1,900
Performance Measures Development .....	500

Of the amount provided for the media campaign, at least \$8,000,000 is available for methamphetamine prevention messages.

The bill maintains funding for non-advertising services for the Media Campaign at no less than the fiscal year 2003 ratio of service funding to total funds. These activities should continue to include special initiatives designed to reach Hispanic audiences and engage private sector participation in the program.

As noted, the bill provides \$1,250,000 to the National Alliance for Model State Drug Laws (NAMSDL). ONDCP is directed to provide the entire amount directly to NAMSDL within 30 days of enactment of this Act.

Performance measures funding is used to conduct evaluation research for assessing the effectiveness of the National Drug Control Strategy. The bill provides \$500,000 for this program and directs ONDCP to outline and submit to the House and Senate Committees on Appropriations a detailed plan for projects that assess the effectiveness of the strategy in achieving its goals and objectives, and develop and improve needed data sources, including specific funding levels, no later than 120 days after enactment of this Act.

SALARIES AND EXPENSES

The bill includes \$30,384,000 for the United States Court of Appeals for the Federal Circuit. The bill provides one half of the requested funds for rental space for senior judges and one half the requested funding for law clerks for new judges. It is difficult to justify full funding of the Court's requests when these requests are apparently based on the assumption that the maximum amount of space and staff will be necessary at any given time. Historically, these assumptions are then not realized, negating the requirement to provide full funding. In order for the Court's request to be considered in full, the

Court is urged to request that judges who are eligible for senior status declare their intention at the earliest possible opportunity. The Court is further urged to communicate information in a transparent and ongoing manner so that decisions on funding can be made based on the most up-to-date information available.

The bill provides \$39,177,000 for a Federal payment to the District of Columbia for the costs associated with emergency planning and security. Within the amount provided, \$352,000 is for the District of Columbia National Guard for a tuition assistance program.

Due to estimates of the unprecedented number of people who visited Washington, DC for the Presidential Inauguration, and the stress this event placed on the resources of the nation's capital, the bill provides \$38,825,000 for security and planning for this event. This is \$23,825,000 more than the amount originally requested by the President and the District of Columbia. While all reports indicate that this event was unmatched in size, it may take some time for the actual costs to the District of Columbia to be clear. It is for that reason that the District of Columbia is urged to report to the House and Senate Committees on Appropriations once the actual costs to the city are known. The District of Columbia is expected to include information about the amounts and other sources of Federal funding that

were made available, or are anticipated, as a result of this event being designated a Federal emergency, when reporting to the Committees.

Beginning in fiscal year 2010, the District of Columbia government is directed to submit a detailed budget justification with the funding request for this account. The District of Columbia is also directed to provide a report to the House and Senate Committees on Appropriations, within 60 days of the end of the fiscal year, outlining the purposes and amounts expended using the funds, with attention given to detailing any deviation from the initial justification.

Funding provided for the private scholarship program shall be used for currently-enrolled participants rather than new applicants. #### TITLE V

##### INDEPENDENT AGENCIES

###### ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

###### SALARIES AND EXPENSES

The bill provides \$1,500,000 for the Administrative Conference of the United States (ACUS). The newly reauthorized ACUS is an independent agency and advisory committee which was created to study administrative processes in order to recommend improvements to Congress and agencies.

###### CHRISTOPHER COLUMBUS FELLOWSHIP FOUNDATION

###### SALARIES AND EXPENSES

The bill provides \$1,000,000 for the Christopher Columbus Fellowship Foundation.

###### COMMODITY FUTURES TRADING COMMISSION

###### SALARIES AND EXPENSES

The bill includes \$146,000,000 for the Commodity Futures Trading Commission. New authorities added through enactment of the 2008 farm bill (Public Law 110-246), coupled with escalating public concern about record energy and agricultural commodity prices, and compounded by a growing influx of financial funds into the futures markets, make the CFTC's present staffing situation unsustainable.

The CFTC is directed to devote the resources provided above the budget request to hire up to 100 additional staff positions in fiscal year 2009 to conduct aggressive market

surveillance and ensure vigorous enforcement of the laws.

The CFTC is further directed to submit an expenditure plan for the increased appropriations provided in the bill above fiscal year 2008. The plan should include details for how the agency will assign up to 100 new staff positions across its program activities. The plan should also include budget object classification information, as proscribed by OMB Circular A-11, for how the agency will obligate the increased funding provided by the bill.

###### CONSUMER PRODUCT SAFETY COMMISSION

###### SALARIES AND EXPENSES

The bill provides \$105,404,000 for the Consumer Product Safety Commission (CPSC). After years of budget cuts and staffing decline, Congress is providing the CPSC the additional resources it needs to substantially improve its product safety activities. CPSC will be expected to use this infusion of resources consistent with recently-enacted legislation to enhance efforts to keep unsafe products out of the marketplace.

Of the amount provided, \$17,098,000 is estimated for new responsibilities and requirements set by the Consumer Product Safety Improvement Act of 2008, including the development of a consumer product safety database; and \$7,138,000 is estimated for activities under the Virginia Graeme Baker Pool and Spa Safety Act. Funds are also available within the amount provided to assign a Regional Product Safety Officer and one locally-employed staff position to the United States embassy in Beijing, China. This will better enable the CPSC to aggressively promote compliance with U.S. product safety standards, requirements, and expectations by Chinese and other Asian governments, manufacturers, and exporters.

Also included is \$412,000 for three additional positions to support the Inspector General of the CPSC. This includes two auditors and one administrative officer.

The CPSC is directed to consider promulgating regulations that require cribs to be durability-tested and contain warning labels against the use of soft bedding.

The CPSC is urged to increase its capacity for screening consumer products for lead content as those products arrive at ports of entry, including through the use of innovative technologies that enable fast and accurate on-site analysis of lead content.

###### ELECTION ASSISTANCE COMMISSION

###### SALARIES AND EXPENSES

###### (INCLUDING TRANSFER OF FUNDS)

The bill provides \$17,959,000 for salaries and expenses of the Election Assistance Commission (EAC). This amount includes \$750,000 for the Help America Vote College Program and \$300,000 for mock election programs. Both programs are competitive grant programs.

The use of voting machines in student mock elections should be encouraged by the EAC in those jurisdictions that use voting machines. Such use will allow students, the Nation's voters of tomorrow, to become familiar with voting processes and technologies so that when they turn 18, they will be comfortable with their civic duties. Groups involved in student mock elections should work with local election authorities to promote the use of voting machines by students.

Concerns exist regarding voters who face alternative language accessibility challenges, including Latino, Asian American, Pacific Islander and Native American and Alaskan Native voters. Such challenges have been well documented throughout recent

election cycles and include both a failure of applicable jurisdictions to meet requirements of Section 203 of the Voting Rights Act, and general discrimination faced by such voters at polling places. Jurisdictions covered under Section 203 of the Voting Rights Act must commit the financial resources necessary to meet the requirements of the Section and the requirements under Section 301(a)(4) of the Help America Vote Act (HAVA). Funding is essential to ensure that every eligible voter has an equal opportunity to cast a vote and have that vote counted, regardless of English proficiency. States should submit plans under HAVA that are consistent with providing sufficient funding levels for alternative language accessibility, and it is noted that states are obligated by statute to comply with Section 203 irrespective of the availability of HAVA funding. The EAC is directed, in consultation with the Department of Justice, to communicate with states to reiterate the requirements of HAVA and the Voting Rights Act and to direct states to revise their plans if they are not consistent with alternative language accessibility requirements under law. The EAC is also directed to report to the House and Senate Committees on Appropriations, within 90 days of enactment of this Act, on how the EAC would develop a plan for a thorough assessment of state and local jurisdiction funding requirements for alternative language accessibility in jurisdictions covered by Section 203, including (but not limited to): 1) the type and quantity of data EAC would need to collect from the jurisdictions; 2) data quality considerations; 3) resources required by the EAC for this assessment; and 4) statutory changes for Congress to consider that would better enable the EAC to perform the assessment.

The bill includes a provision (section 625) modifying a deadline in HAVA relating to the replacement of punch card or lever voting machines. Any state with unused funds provided under section 102 of HAVA totaling \$2,000,000 or more as of the date of enactment of this Act must submit a report to the Election Assistance Commission, not later than 60 days after enactment of this Act, on the expected use of the funds and a timetable for the use of the funds. This timetable should specifically describe how the state will expend the funds by November 1, 2010. The EAC shall provide a copy of this report to the Committees on Appropriations. Any state receiving funding and failing to expend it within the stated time frame risks permanent loss of funding. States should communicate regularly with EAC if, and as, problems arise.

###### ELECTION REFORM PROGRAMS

The bill provides \$106,000,000 for election reform programs. Included in this amount is \$100,000,000 for grants to states to help them meet HAVA requirements, \$5,000,000 for grants relating to research on voting technology improvements as authorized by HAVA, and \$1,000,000 for a pilot program to provide grants to states and units of local government to fund pre-election logic and accuracy testing of voting systems, as well as post-election voting system verification.

The EAC is directed to use the \$5,000,000 to fund research into technological solutions for voting systems that ensure accessibility for voters with disabilities so that such voters can vote privately and independently, including through the use of official paper ballots. Technological solutions developed through this Federally-funded research should be non-proprietary and be made available to the public, including to voting system manufacturers. The EAC is also directed

to report to the Committees on Appropriations, within 120 days of enactment of this Act, on a plan for the award of these grants, including criteria used to evaluate grant applications and the expected timing of grant awards. Within the \$5,000,000 provided, the EAC is expected to reimburse the National Institute of Standards and Technology for review and monitoring activities related to this program.

Pre-election logic and accuracy testing will help to ensure that voting system equipment, including tabulation equipment, to be used in an upcoming election is properly prepared to support the election. Post-election voting system verification will assess the adequacy of controls in place prior to and during the election that can detect and correct, or prevent, anomalies from occurring in voting systems. The EAC is directed to report to the Committees on Appropriations, within 90 days of enactment of this Act, on a plan for the award of grants under this pilot program, including criteria used to evaluate grant applications and the expected timing of grant awards. The EAC shall also report to the Committees on Appropriations no later than March 30, 2010 for 2009 grants, and March 30, 2011 for 2010 grants, on the results of the pilot program. These reports shall include recommendations regarding future actions or funding in relation to logic and accuracy testing and post-election audits.

FEDERAL COMMUNICATIONS COMMISSION  
SALARIES AND EXPENSES  
(INCLUDING TRANSFER OF FUNDS)

The bill provides \$341,875,000 for salaries and expenses of the Federal Communications Commission (FCC), which is to be derived from offsetting collections.

The amount includes \$3,000,000 for a competitive grant program for state broadband data and development. Recipients shall be non-profit entities, contribute non-Federal matching funds of not less than 20 percent, and demonstrate the capability to work with state agencies and private sector partners. Funding shall be used to establish local technology planning teams, create programs to improve computer ownership and Internet access for unserved and underserved populations, and create a geographic inventory map of broadband service to identify gaps in such service at the census block level.

The bill includes a \$25,480,000 transfer from the Universal Service Fund (USF) for additional audits and oversight activities. Audits should focus on all USF programs, including the high cost program, schools and libraries program, and the rural health care program. The FCC's Inspector General (IG) has reported that the schools and libraries program has a payment error rate of 13 percent, the high cost program has a payment error rate of 16.6 percent, and the rural health care program has a payment error rate of 20 percent, far exceeding the government-wide average payment error rate of 3 percent and the 2.5 percent threshold that the Office of Management and Budget sets for a program to be "at-risk." The FCC is directed to follow the recommendations of both the IG and the Government Accountability Office and to assume greater managerial control over these important programs, including improvement of the improper payment rates. In addition, the FCC and the IG are expected to have appropriate auditing standards and plans in place to ensure consistency in USF auditing. This shall include ensuring that auditors are knowledgeable of the USF program rules and industry standard auditing protocols.

The bill includes funding to support the FCC's continued efforts to facilitate the nationwide transition of broadcast television signals from analog to digital. Concerns remain that many viewers may not be adequately prepared for the transition. This is particularly true with respect to disadvantaged and lower-income communities, including Hispanic, African American, disabled, and senior citizen communities. The FCC is directed to continue collaborating with the National Telecommunications and Information Administration, other government agencies, and in particular broadcasters and other private sector entities involved in the effort to ensure a smooth transition.

It is important to provide all persons living under the American flag, including those living in the United States territories, equal access to communications services. The Communications Act of 1934 established the FCC to "make available, so far as possible, to all the people of the United States, without discrimination on the basis of race, color, religion, national origin, or sex, a rapid, efficient, Nation-wide, and world-wide wire and radio communication service with adequate facilities at reasonable charges" (emphasis added). All communication services should be equally available to persons living under the American flag outside of the contiguous 48 states. Satellite radio services, for example, are currently unavailable or have limited availability in Puerto Rico, the U.S. Virgin Islands, Guam, and American Samoa, Alaska, and Hawaii. The FCC is strongly encouraged to consider equal access for persons living in these locations as it undertakes rulemakings and other actions that affect communications access.

The FCC is directed to improve its responsiveness to congressional requests and inquiries, including letters. Responses to letters to the FCC from the Committees on Appropriations have sometimes taken months to receive. For example, the FCC took over four months to respond to a 2007 letter from the Chairman of the House Financial Services Appropriations subcommittee regarding the communications access concerns described above. A letter from the Ranking Republican Member of the Senate Financial Services Appropriations subcommittee sent in April 2008 has not been responded to as of mid-January 2009. Another April 2008 letter from House Members on universal service funding for insular areas had also not been responded to as of mid-January 2009. Such delays are unacceptable.

The 9/11 Commission identified the need to increase the assignment of spectrum for first responders in its July 2004 report, and it is disappointing that the Federal Government has yet to address this critical need. The FCC is directed to work expeditiously to conduct a successful auction of the D Block spectrum so that first responders have an interoperable communications network.

Public, educational, and governmental (PEG) programming serves the public interest by providing outlets for free speech, local information and opinions, and emergency communications. The FCC is urged to ensure that PEG channels remain on the basic service tier of programming and that cable service providers do not place impediments in the way of the public's access to PEG programming.

The FCC is directed to issue a report to the House and Senate Committees on Appropriations, the House Committee on Energy and Commerce, and the Senate Committee on Commerce, Science, and Transportation

within 180 days of enactment of this Act on commercial proposals for broadcasting radio or television programs for reception onboard specially-equipped school buses operated by, or under contract with, local public educational agencies. The study shall examine the nature of the material proposed to be broadcast and whether it is age appropriate for the passengers; the amount and nature of commercial advertising to be broadcast; and whether such broadcasts for reception by public school buses are in the public interest.

Concerns exist that emergency personnel and first responders along the northern border have had difficulty securing licenses for the appropriate communications frequency from the FCC. The FCC is directed to work with Canadian officials and applicants to devise a strategy for ensuring that licensing along the northern border proceeds without delay. The FCC is also directed to issue a report, in coordination with the Department of Homeland Security, to the House and Senate Committees on Appropriations no later than 270 days after enactment of this Act that: 1) evaluates the Federal guidance provided to states working to establish interoperable first responder communications networks, 2) describes the degree to which the guidance is coordinated with the Canadian Government, and 3) identifies methods to avoid future coordination problems.

The Committees on Appropriations applaud the Commission's work with the broadcasting industry to develop family-friendly programming and direct the Commission to pursue these efforts. As a result of the Commission's efforts, many cable and satellite television operators are developing family-friendly packages for consumers. The Committees direct the Commission to continue its endeavors with the broadcast industry to empower parents with the resources and tools to effectively navigate the various broadcast channels.

ADMINISTRATIVE PROVISIONS—FEDERAL  
COMMUNICATIONS COMMISSION

Section 501 extends an exemption for the Universal Service Fund.

Section 502 prohibits the Federal Communications Commission from changing rules governing the Universal Service Fund regarding single connection or primary line restrictions.

FEDERAL DEPOSIT INSURANCE CORPORATION  
OFFICE OF INSPECTOR GENERAL

The bill includes a transfer of \$27,495,000 to fund the Office of Inspector General (OIG) of the Federal Deposit Insurance Corporation. The OIG's appropriations are derived from the Deposit Insurance Fund; however, if the OIG performed work in connection with the Federal Savings and Loan Insurance Corporation Resolution Fund, the cost of such work would be derived from that Fund.

Enacted October 14, 2008, the Inspector General Reform Act of 2008 contains various requirements affecting the OIG and its operations, including the budgetary process. The requirements of the Act will be implemented as appropriate.

FEDERAL ELECTION COMMISSION  
SALARIES AND EXPENSES

The bill provides \$63,618,000 for salaries and expenses of the Federal Election Commission (FEC).

The FEC is directed to report to the House and Senate Committees on Appropriations, no later than 270 days following enactment of this Act, on an assessment of the feasibility, including estimates of cost, time, and personnel required, to gather and make public data regarding the media expenditures of Federal campaigns.

FEDERAL LABOR RELATIONS AUTHORITY  
SALARIES AND EXPENSES

The bill provides \$22,674,000 for salaries and expenses of the Federal Labor Relations Authority (FLRA).

The FLRA is directed to issue a report to the House and Senate Committees on Appropriations, within 90 days of enactment of this Act, on all activities, including cost, that the FLRA has taken in the previous 24-month period regarding the integration and upgrade of information technology systems.

FEDERAL TRADE COMMISSION  
SALARIES AND EXPENSES

The bill provides \$259,200,000 for salaries and expenses of the Federal Trade Commission (FTC). The bill also estimates that the amount provided will be partially offset by \$168,000,000 of collections from Hart-Scott-Rodino premerger filing fees and \$21,000,000 of collections from Do-Not-Call list fees.

The appropriation provides the FTC with additional resources for consumer protection activities, including subprime lending and other financial services investigations, as well as activities to fight spam, spyware, and Internet fraud and deception. The FTC can do more to investigate, challenge, and take enforcement actions against mortgage brokers, lenders, and loan servicers who engage in deceptive or unfair marketing practices or fraudulent financial practices directed at subprime borrowers. Such practices have exacerbated the mortgage crisis by taking advantage of the most vulnerable borrowers, and the FTC needs to be aggressive in fighting this serious problem.

The FTC is also encouraged to expand its enforcement and education activities particularly with respect to consumer protections for Hispanic, African American, disabled, and senior citizen populations. For example, the FTC has an aggressive campaign against consumer fraud in the Hispanic community. As recent immigrants, many Hispanics are unaware of the fraudulent practices perpetrated by some businesses and individuals against consumers. Consequently, many fall prey to such predators and suffer great financial losses. They may also be unaware of the remedies that are available to them if they are victimized. The FTC should continue to promote increased awareness through its Hispanic Outreach initiative, and it should work with all at-risk populations to ensure the highest possible level of consumer protection.

The dramatic fluctuations in fuel prices raise serious concerns about market manipulation and anticompetitive behavior in the oil and natural gas industries. The FTC is encouraged to continue its investigations and other activities relating to these concerns. The FTC is directed to keep the House and Senate Committees on Appropriations apprised of findings made regarding fuel prices, as well as other planned activities and investigations regarding the oil and gas industries.

The FTC, together with the Commissioner of the Food and Drug Administration, the Director of the Centers for Disease Control and Prevention, and the Secretary of Agriculture, who have expertise and experience in child nutrition, child health, psychology, education, marketing, and other fields relevant to food and beverage marketing and child nutrition standards shall establish the Interagency Working Group on Food Marketed to Children (Working Group). The Working Group is directed to conduct a study and develop recommendations for standards for the marketing of food when

such marketing targets children who are 17 years old or younger or when such food represents a significant component of the diets of children. In developing such standards, the Working Group is directed to consider (1) positive and negative contributions of nutrients, ingredients, and food (including calories, portion size, saturated fat, trans fat, sodium, added sugars, and the presence of nutrients, fruits, vegetables, and whole grains) to the diets of such children; and (2) evidence concerning the role of consumption of nutrients, ingredients, and foods in preventing or promoting the development of obesity among such children. The Working Group will determine the scope of the media to which such standards should apply. The Working Group shall submit to Congress, not later than July 15, 2010, a report containing the findings and recommendations of the Working Group.

In September of 2000, the FTC released a report entitled: "Marketing Violent Entertainment to Children: A Review of Self-Regulation and Industry Practices in the Motion Picture, Music Recording & Electronic Game Industries." The report was highly critical of the entertainment industry and its persistent and calculated marketing of violent games, movies, and music to children. In response to this report, the entertainment industry has promised to impose tougher regulations on itself and to voluntarily comply with the report's recommendation. The FTC should continue with, and expand upon, its efforts in this area. The FTC is directed to continue to engage in consumer research and workshops, underage shopper-retail compliance surveys, and marketing data collection.

Concerns have been raised regarding reports of explicit content that can be easily accessed by minors on increasingly popular virtual reality web programs. The FTC is directed to issue a consumer alert to educate parents on the content that is available to children on virtual reality web programs. In addition, no later than nine months after enactment of this Act, the FTC shall submit a report to the House and Senate Committees on Appropriations discussing the types of content on virtual reality sites and what steps, if any, these sites take to prevent minors from accessing content.

GENERAL SERVICES ADMINISTRATION

The General Services Administration (GSA) is directed to consider adoption of a formaldehyde standard consistent with the EPA standard in its "green building" certification and indoor air quality program and to specify formaldehyde-free building materials when constructing new or renovating existing Federal buildings.

GSA is directed to promote energy efficiency through the use of revolving doors and report on its program 120 days after enactment of this Act.

GSA is expected to undertake a stronger effort to promote the use of stairs in Federal buildings.

GSA is encouraged to consider deploying re-usable plastic crates widely due to their environmental benefits in order to maximize resource conservation.

The importance of the Ambassador Bridge continues to be recognized as a critical link to commerce between the United States and Canada. GSA is commended for leading the efforts of the Executive Branch in improving direct highway access to the Ambassador Bridge.

GSA shall conduct a study of the measurable benefits and challenges associated with green roofs in GSA's owned and leased inventory, using the National Capital Region as an example.

GSA should consider using historic preservation funding and other resources to ensure that the Custom House in New Orleans can be remodeled and used productively in a timely manner by Federal and non-profit tenants as well as the community.

GSA is urged to reconsider the impact of Federal per diem rates upon the larger recovery efforts of New Orleans and to take steps to maintain or increase the per diem rate for fiscal year 2010, if appropriate.

REAL PROPERTY ACTIVITIES

The bill provides resources from the Federal Buildings Fund in the aggregate of \$8,427,771,000.

GSA is directed to include, in its budget submission, a detailed five-year plan for Federal building construction projects, as well as a five-year plan for land port of entry projects.

GSA is directed to provide a report, within 120 days of enactment of this Act citing three examples for which section 412 authority could be an option.

Concerns remain about the transportation plans for the Department of Homeland Security (DHS) consolidation at the St. Elizabeths campus. GSA and DHS are expected to coordinate with local transportation agencies to minimize the impact on neighboring communities.

GSA is prohibited from using funds previously appropriated for the courthouse in Los Angeles for any other project. The GSA is further prohibited from using any proceeds from the sale of the land for this project, if one were to occur, on any other project.

The United States Post Office and Federal Building in Danville, Virginia is an important component of the downtown Danville community. The GSA should make an effort to maintain the Federal Judiciary's presence in this building and to service the citizens of Danville.

GSA is also urged to request funding for the construction of a courthouse in Chattanooga, Tennessee and in Mobile, Alabama.

REPAIRS AND ALTERATIONS

The bill limits resources for repairs and alterations to \$692,374,000. The bill provides

funding for repairs and alterations of the following projects:

<i>Project Name</i>	<i>Amount</i>
Dirksen Courthouse, Chicago, Illinois .....	\$152,825,000

The bill also includes \$36,647,000 for energy and water retrofit and conservation measures and \$350,000,000 for basic repairs and alterations.

INSTALLMENT ACQUISITION PAYMENTS

The bill includes a limitation of \$149,570,000, as requested by the President for installment acquisition payments.

RENTAL OF SPACE

The bill provides a limitation of \$4,642,156,000 for payments of rental of space. The House and Senate Committees on Appropriations continue to be concerned about the allocation of leased GSA office space in the Greater Washington, DC metropolitan area, specifically the lack of space awarded in Prince Georges County, Maryland.

BUILDING OPERATIONS

The bill includes a limitation of \$2,197,354,000 for building operations.

GENERAL ACTIVITIES

GOVERNMENT-WIDE POLICY

The bill provides \$54,578,000 for government-wide policy.

OPERATING EXPENSES

The bill provides \$70,645,000 for operating expenses. This funding is intended to support 9 additional FTE for the Office of Emergency Response and Recovery. The funding level assumes a transfer of \$18,828,000 to the Federal Citizen Services Fund beginning in fiscal year 2009.

OFFICE OF INSPECTOR GENERAL

The bill includes \$54,000,000 for the Office of Inspector General (OIG) at GSA, which includes direct funding of \$2,200,000 which was previously reimbursed to the OIG through internal GSA sources.

ALLOWANCES AND OFFICE STAFF FOR FORMER PRESIDENTS

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$2,934,000 for expenses associated with the allowances and office staff of former Presidents, which is \$456,000 more than the fiscal year 2008 level in part to commence benefits for President George W. Bush.

PRESIDENTIAL TRANSITION EXPENSES

The bill includes \$8,520,000 for the expenses associated with carrying out the Presidential transition.

FEDERAL CITIZEN SERVICES FUND

The bill includes \$36,096,000 for the Federal Citizen Services Fund. This includes a transfer of \$18,828,000 from the Operating Expenses account to consolidate GSA's citizen-centric services, beginning in fiscal year 2009.

ADMINISTRATIVE PROVISIONS—GENERAL SERVICES ADMINISTRATION

(INCLUDING TRANSFERS OF FUNDS)

Section 510 authorizes the use of funds for the hire of motor vehicles.

Section 511 authorizes the transfer of funds within the Federal Buildings Fund to meet certain program requirements.

Section 512 requires that the request for courthouse construction must meet certain capital improvement plan standards.

Section 513 provides that no funds may be used to increase the amount of occupiable square feet, provide cleaning services, security enhancements or other service usually provided, to any agency which does not pay the requested rate.

Section 514 permits GSA to pay small claims made against the government.

Section 515 requires that the Administrator shall ensure that the delineated area of procurement for all lease agreements is identical to the delineated area included in the prospectus unless prior notice is given to the Committees in the form of an explanatory statement.

Section 516 authorizes an account title change from "Federal Consumer Information Center" fund to "Federal Citizen Services" fund.

Section 517 authorizes relief and disaster assistance organizations to use GSA procurement schedules.

Section 518 provides authority for the GSA Working Capital Fund.

HARRY S. TRUMAN SCHOLARSHIP FOUNDATION SALARIES AND EXPENSES

The bill includes \$500,000 for the Harry S Truman Scholarship Foundation Trust Fund. The bill also directs the Secretary of the Treasury to invest in par value special securities at the request of the Board of Trustees of the Foundation.

MERIT SYSTEMS PROTECTION BOARD SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The bill includes \$38,811,000 in direct appropriations and \$2,579,000 from appropriate trust funds, for salaries and expenses of the Merit Systems Protection Board.

MORRIS K. UDALL SCHOLARSHIP AND EXCELLENCE IN NATIONAL ENVIRONMENTAL POLICY FOUNDATION

MORRIS K. UDALL SCHOLARSHIP AND EXCELLENCE IN NATIONAL ENVIRONMENTAL POLICY TRUST FUND

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$3,750,000 for the Morris K. Udall Scholarship and Excellence in National Environmental Policy Trust Fund. Up to 60 percent of these funds may be transferred, and \$50,000 shall be used to conduct financial audits.

ENVIRONMENTAL DISPUTE RESOLUTION FUND

The bill includes \$2,100,000 for the Environmental Dispute Resolution Fund to remain available until expended.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

OPERATING EXPENSES

The bill includes \$330,308,000 for operating expenses of the National Archives and Records Administration (NARA). The fiscal year 2008 Appropriations Act included funding for an increase in archivist staff, and these additional staff will continue to be funded in fiscal year 2009 within this appropriation. In addition, this bill includes \$875,000 to provide a further increase in the number of archivist staff, in order to continue to reverse the staffing reductions that had occurred between fiscal year 2002 and fiscal year 2007. NARA is directed to report to the House and Senate Appropriations Committees, within 30 days of enactment of this

Act, as to the specific steps it is taking to continue to restore NARA's archivist workforce levels.

Also included in the amount is \$1,000,000 for NARA's new Office of Government Information Services. The Administration had proposed, in its fiscal year 2009 budget request, to fund this office at the Department of Justice. This bill funds the office at NARA, as authorized by the OPEN Government Act of 2007 (Public Law 110-175).

In addition, of the amount provided, \$650,000, available until September 30, 2010, is directed to be used to complete the review of U.S. Government documents pertaining to the activities of the Nazis and the Japanese Imperial Government. These documents are being declassified pursuant to the Nazi War Crimes Disclosure Act of 1998 (Public Law 105-246) and the Japanese Imperial Government Disclosure Act of 2000 (Public Law 106-567). These laws directed that Government agencies ensure the declassification of files pertaining to the activities of the Nazis and the Japanese Imperial Government. In 2007, following the declassification and review of thousands of files containing newly-disclosed information about the Nazis and the Japanese Imperial Government, NARA issued a report summarizing the new historical insights gained as a result of the NARA-supervised review of these documents. However, a number of additional U.S. Army and CIA/OSS documents were discovered too late in the process to be included in NARA's 2007 report. This funding is directed to be used to report separately on these remaining documents. NARA is directed to report to the House and Senate Committees on Appropriations, within 90 days of enactment of this Act, with a proposed schedule for completing the review and historical analysis of these documents and releasing a supplemental report, to serve as a companion to NARA's 2007 report.

ELECTRONIC RECORDS ARCHIVES

The bill provides \$67,008,000 for the Electronic Records Archives (ERA) project. The bill also retains the directive requiring NARA to submit, and for the Committees on Appropriations to approve, a GAO-reviewed spending plan for ERA prior to the obligation of funds.

Although there is some evidence of improvement in the ERA program, the Appropriations Committees continue to be concerned about the program, NARA's oversight of the program, and the reliability of the work of the ERA contractor, especially given the previous cost overrun, widespread replacement of contractor staff, and nine month delay in achievement of Initial Operating Capability. In order to overcome the schedule delays that occurred in 2007 and 2008, and to prepare NARA to receive the electronic records of the outgoing Administration in time for the January 20, 2009 change in Administrations, NARA and the contractor have had to develop a two-pronged development strategy, focusing on building a base ERA system, plus a second system devoted to receiving the Executive Office of the President electronic records of the outgoing Administration.

NARA is directed to provide quarterly ERA progress reports, beginning no later than 90 days after enactment of this Act, to both GAO and to the House and Senate Committees on Appropriations, and to immediately report to the Committees and to GAO any potential delays, cost overruns, or other problems associated with ERA development. As recommended by GAO, the quarterly progress reports should include summary measures of project performance against ERA cost and schedule estimates.

## REPAIRS AND RESTORATION

The bill provides \$50,711,000 for repairs and restoration. This amount includes: (1) \$17,500,000 for necessary expenses related to the repair and renovation of the Franklin D. Roosevelt Presidential Library and Museum in Hyde Park, NY, which NARA has listed as its top capital improvement priority; (2) \$22,000,000 to complete construction of an addition to the John F. Kennedy Presidential Library in Boston, MA; and (3) \$2,000,000 to complete the repair and restoration of the plaza that surrounds the Lyndon Baines Johnson Presidential Library in Austin, TX.

The Appropriations Committees recognize that they have more than adequately provided funding for NARA's portion of the LBJ Presidential Library plaza project; therefore, the Library and the university are on notice not to return to the Committees for any further funding for this project.

NATIONAL HISTORICAL PUBLICATIONS AND RECORDS COMMISSION GRANTS PROGRAM  
(INCLUDING TRANSFER OF FUNDS)

The bill includes \$11,250,000 for NARA's grant program. Of the amount provided, \$2,000,000 is to be transferred to the operating expenses account.

## ADMINISTRATIVE PROVISION—NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

The bill includes an administrative provision directing NARA to include in its annual budget submission each year a comprehensive capital needs assessment for its entire infrastructure of presidential libraries and records facilities. Funding should be included in each year's budget to address the highest priorities, including projects already underway.

NATIONAL CREDIT UNION ADMINISTRATION  
CENTRAL LIQUIDITY FACILITY

The bill provides the National Credit Union Administration (NCUA)—Central Liquidity Facility (CLF) the ability to lend, during fiscal year 2009, up to the maximum level provided for by section 307(a)(4)(A) of the Federal Credit Union Act. This provision gives the NCUA flexibility to assist with credit unions' financial liquidity during the current economic downturn. The NCUA will be expected to keep the House and Senate Committees on Appropriations fully informed on the activities of the CLF.

The bill also provides a limitation of \$1,250,000 for the administrative expenses of the CLF.

## COMMUNITY DEVELOPMENT REVOLVING LOAN FUND

The bill provides \$1,000,000 for the Community Development Revolving Loan Fund for technical assistance grants.

OFFICE OF GOVERNMENT ETHICS  
SALARIES AND EXPENSES

The bill provides \$13,000,000 for salaries and expenses of the Office of Government Ethics.

OFFICE OF PERSONNEL MANAGEMENT  
SALARIES AND EXPENSES  
(INCLUDING TRANSFER OF TRUST FUNDS)

The bill provides a general fund appropriation of \$92,829,000 for salaries and expenses of the Office of Personnel Management (OPM). The amount includes, to remain available until expended, \$5,851,000 for the Enterprise Human Resources Integration project and \$1,351,000 for the Human Resources Line of Business project.

The bill also provides \$118,082,000 for administrative expenses to be transferred from the appropriate trust funds. This amount includes \$15,200,000, to remain available until

expended, for retirement systems modernization, or the RetireEZ program. Work on RetireEZ's calculation engine was halted in 2008 due to contract performance issues. Getting this program back on track with appropriate management leadership, controls, and oversight, and with the goal of ensuring accurate and timely computation of annuities for all Federal retirees, is a high priority. The executive leadership of OPM must dedicate the highest level of support possible to ensure the success of the program. While the prompt implementation of this program is also important, the leadership is cautioned not to set an unworkable timetable as a goal to the detriment of system accuracy and performance. The Government Accountability Office should continue to assess the status of OPM's efforts toward developing and implementing RetireEZ, as well as evaluate the effectiveness of the agency's management for the modernization initiative. OPM should continue to provide the House and Senate Committees on Appropriations with quarterly reports on the implementation of RetireEZ. These reports should reflect a detailed, complete, and accurate assessment of the status of the program.

OPM's Federal Human Capital Survey provides important data for independent analyses of Federal employee satisfaction. OPM shall continue to make agencies' survey data publicly available in a consistent and consolidated format, and in a timely manner.

Sixty percent of the Federal workforce will be eligible to retire in the next 10 years, presenting an enormous challenge to the Federal Government and the delivery of services to the public. OPM is encouraged to develop approaches that agencies can use to attract the best and brightest talent; match employee skills and abilities with specific agency missions and goals; ensure that talented employees are engaged and empowered to use their talent; improve leadership development; and ensure high performance from the workforce.

OPM is urged to increase its efforts to encourage Federal agencies to reach out to diverse populations, including ethnic minorities, in their recruitment efforts. A study group relating to the employment of Hispanics in the Federal Government has been formed by the Equal Employment Opportunity Commission and the Social Security Administration, with representation from other agencies. OPM should review the findings of this study group for possible approaches to improve Hispanic recruitment, retention, and advancement government-wide.

Federal agencies should also increase recruitment efforts within the United States territories. The territories are home to thousands of U.S. citizens who may not be fully aware of the employment opportunities that exist within the Federal Government. Some agencies have taken steps to recruit from the territories, but others have not yet. OPM should spearhead the effort to encourage individual agency human resource offices to take advantage of the talent pool that exists in the U.S. territories.

OPM has improved communication with Federal agencies about dependent care programs. Many of OPM's plans to improve communications on employee benefits should be ongoing activities. No later than 45 days after enactment of this Act, OPM shall report to the Committees on Appropriations timelines for activities, and the feasibility of whether some of these activities should be annual activities. Included in the report should be timelines relating to the expansion

of the Open Season marketing campaign; targeting agencies with low enrollment; outreach to affinity groups; tuition assistance advertising; and OPM website improvements.

OPM, as the personnel agency for the Federal Government, should be committed to helping the Federal Government become the model employer Congress and the law mandate that it be, with regard to individuals with disabilities. Disability employment issues have been given inadequate attention at OPM over the past several years, resulting in a need for increased focus and action. This is particularly disappointing given that 60 percent of the Federal workforce will be eligible for retirement within 10 years and the increased hiring of disabled employees could help mitigate this retirement wave. OPM is directed to review outstanding disability concerns brought to OPM's attention, conduct outreach with disability groups about these concerns, take steps to improve matters, and advise the Committees on Appropriations as improvements are achieved.

OPM is directed to carry out the Intergovernmental Personnel Act Mobility Program with special attention provided to Federal agencies employing more than 2,000 nurses. OPM may develop guidelines that provide Federal agencies direction or guidance in using their authority under the Intergovernmental Personnel Act Mobility Program to provide financial or other assistance: (1) to Federal employees holding a degree in nursing to accept an assignment to teach in an accredited school of nursing or to obtain the training necessary to become a nurse faculty member in exchange for a commitment from the individual to serve an additional term of Federal service or a commitment from the school of nursing to take additional steps to increase its number of nursing students that will commit to Federal service upon graduation; and (2) to Federal employees who have served as a nurse in the Federal Government, are eligible for retirement, and are qualified to teach to expedite the transition of such individuals into nurse faculty positions. OPM is directed to report to the Committees on Appropriations no later than 120 days after enactment of this Act on how the Intergovernmental Personnel Act Mobility Program is being used to alleviate the nursing shortage and on the demonstrable steps OPM has taken to encourage government-employed nurses to teach at accredited schools of nursing.

OPM is encouraged to report on employment for the blind, including the opinions of Federal employee labor organizations, by July 15, 2009.

Concerns have been raised with respect to wage pay for Federal employees who work within the New Orleans, Louisiana Appropriated Fund Federal Wage System (FWS) area. OPM has authority to waive the cap on such pay if it determines that an exception is necessary to ensure the recruitment or retention of qualified employees. Existing OPM regulations specify the procedures which should be followed by Federal agencies to request such a waiver. In view of the continuing effects caused by the aftermath of Hurricane Katrina in the New Orleans area, the Department of Defense (DoD), as the lead FWS employer in the region, is strongly urged to promptly submit a consolidated waiver request to OPM consistent with existing regulations, and OPM is likewise urged to act swiftly on any such request, to include promptly notifying the Committees on Appropriations of its determination. DoD is further urged to consult with OPM prior to making such a request to ensure that the approval process does not become overly bureaucratic or complicated by unnecessary

paperwork, thus delaying the ability to promptly address recruitment and retention challenges in the New Orleans area.

Approximately 10,000 private sector employers, including more than half of the Fortune 500 companies, offer benefits to the domestic partners of their employees. OPM should consider taking steps to extend health care benefits to Federal employees' domestic partners.

OFFICE OF INSPECTOR GENERAL  
SALARIES AND EXPENSES

(INCLUDING TRANSFER OF TRUST FUNDS)

The bill provides \$1,828,000 as a general fund appropriation for salaries and expenses of the Office of Inspector General. In addition, the bill provides \$18,755,000 from OPM trust funds. Additional funding is provided to augment base resources and permit hiring of additional audit and investigative staff.

GOVERNMENT PAYMENT FOR ANNUITANTS,  
EMPLOYEES HEALTH BENEFITS

The bill provides such sums as necessary for health benefits payments.

GOVERNMENT PAYMENT FOR ANNUITANTS,  
EMPLOYEE LIFE INSURANCE

The bill provides such sums as necessary for life insurance payments.

PAYMENT TO CIVIL SERVICE RETIREMENT AND  
DISABILITY FUND

The bill provides such sums as necessary for retirement and disability payments.

OFFICE OF SPECIAL COUNSEL  
SALARIES AND EXPENSES

The bill provides \$17,468,000 for salaries and expenses for the Office of Special Counsel.

POSTAL REGULATORY COMMISSION  
SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The bill includes \$14,043,000 for the Postal Regulatory Commission.

PRIVACY AND CIVIL LIBERTIES OVERSIGHT  
BOARD

SALARIES AND EXPENSES

The bill provides \$1,500,000 for salaries and expenses of the Privacy and Civil Liberties Oversight Board, to remain available for obligation until September 30, 2010. The Board has not yet been reconstituted as required by Public Law 110-53, and, therefore, the new entity's funding requirements have not been firmly established or justified. Once reconstituted, the Board should present the House and Senate Committees on Appropriations with a detailed budget plan as quickly as possible.

SECURITIES AND EXCHANGE COMMISSION  
SALARIES AND EXPENSES

The bill provides \$943,000,000 for salaries and expenses of the Securities and Exchange Commission (SEC).

An increase of \$37,000,000 over the fiscal year 2008 enacted level and \$30,000,000 over the requested level is provided to support the SEC's performance-based pay system, as well as to enhance enforcement, capital market oversight, and investor protection activities, including investigations of accounting fraud, market manipulation, insider trading, and investment scams that target seniors and low-income communities. The SEC should also increase its efforts to improve oversight of investment banking institutions. Additional resources should also be provided to the Office of Investor Education and Advocacy to expand investor education and financial literacy activities.

With this significant increase in funding comes an increased responsibility on the

part of the SEC to aggressively safeguard the investing public. Failures to properly investigate and take appropriate actions in fraud cases will not be tolerated. The SEC must be vigilant in its enforcement of securities laws.

Concerns exist that American investors may be unwittingly investing in companies with ties to countries that sponsor terrorism or are linked to human rights violations. A company's association with sponsors of terrorism and human rights abuses, no matter how large or small, can have a materially adverse result on a public company's operations, financial condition, earnings, and stock prices, all of which can negatively affect the value of an investment. In order to protect American investors' savings and to disclose these business relationships to investors, an Office of Global Security Risk was established within the Division of Corporation Finance. The work of this Office should remain a high priority, and the SEC is directed to continue to submit quarterly reports to the House and Senate Committees on Appropriations on the Office's activities.

Small businesses have raised concerns with the burden that compliance with section 404 of the Sarbanes-Oxley Act of 2002 places on them. The SEC is studying the costs and benefits of section 404 compliance. The SEC shall keep the Committees on Appropriations informed of the progress of the study and the results of the study when completed.

The growth of unregulated hedge funds in recent years has impacted systemic risk in the financial markets and has raised investor protection concerns. The SEC is currently evaluating draft rules that address the issue of the qualifications of accredited investors in hedge funds. The SEC is encouraged to take action on these rules consistent with strong investor protections. The SEC is also urged to maintain the maximum possible effort in combating fraud that may be associated with hedge fund investing.

SELECTIVE SERVICE SYSTEM

SALARIES AND EXPENSES

The bill includes \$22,000,000 for the Selective Service System, equal to the President's budget request and the fiscal year 2008 enacted level. The bill also includes language to allow the President to waive provisions of 31 U.S.C. 1341 when it is necessary for the interest of national defense.

SMALL BUSINESS ADMINISTRATION

SALARIES AND EXPENSES

The bill provides \$386,896,000 for the salaries and expenses account of the Small Business Administration (SBA). An additional amount for initiatives related to small business development and entrepreneurship is provided under SBA administrative provisions.

Of the amounts provided under this heading, \$224,608,000 is for operating expenses of the SBA. In addition, a total of \$147,480,000 from other SBA accounts may be transferred to and merged with the salaries and expenses account, resulting in a total availability for operating expenses of \$372,088,000. The additional amount consists of \$138,480,000 from the Business Loans Program account and \$9,000,000 (provided as part of Public Law 110-329) from the Disaster Loans Program account for the administrative expenses related to those accounts.

*Non-Credit Programs.*—No less than the following amounts shall be dedicated to these non-credit programs of the SBA:

[In thousands of dollars]

Veterans Programs ..... \$1,200

7(j) Technical Assistance ...	2,380
Small Business Development Centers .....	110,000
SCORE .....	5,000
Women's Business Centers	13,750
Women's Business Council	775
Native American Outreach	1,033
Drug-free Workplace Program .....	1,000
Microloan Technical Assistance .....	20,000
PRIME .....	5,000
HUBZone .....	2,150

Total, non-credit programs ..... 162,288

The SBA shall not reduce these noncredit programs to fund operating costs. In addition, the National Ombudsman; the Office of Advocacy, including support for the Advocacy Database; international trade programs; and the defense transition program should receive no less than the fiscal year 2008 level of funding.

The bill provides \$1,200,000 for veterans programs to support additional grants to veterans business outreach centers. When determining the allocation of the additional funding, the SBA is encouraged to consider centers with significant experience in conducting outreach to veterans, including those previously receiving Federal funding.

Funds are included within operating expenses to support the modernization of SBA's loan management and accounting systems. Current systems, which are outdated and have limited capabilities, must be replaced with new systems that will enhance the management of SBA's \$85,000,000 loan portfolio. However, there are significant risks inherent in such a relatively large acquisition. To mitigate risks, SBA should dedicate in-house staff to quality assurance and contractor oversight, as well as to provide for agency-wide management, coordination, and implementation of the new system. SBA should also continue to consult with other Federal agencies regarding best practices involving design, acquisition, and implementation of new systems and regarding contractor oversight. SBA shall submit a quarterly written report to the House and Senate Committees on Appropriations summarizing the agency's progress regarding the modernization effort, including milestones planned and achieved, and progress on cost and schedule.

Funds are also included, within the amount provided, for 504 loan guarantee program liquidation activities and for additional oversight of lenders participating in the 7(a) loan guarantee program. SBA should address the Inspector General's recommendations on the oversight of SBA Supervised Lenders, including the hiring of additional lender oversight staff as necessary.

Within the funds provided under this heading, SBA is directed to provide \$300,000 to the Office of Advocacy to conduct the study on the impact of broadband speed and price on small businesses as directed under section 105 of Public Law 110-385.

The amount provided also includes \$2,649,000 over the requested amount for the direct funding of SBA's Business Gateway e-gov initiative. Direct funding for the initiative within SBA will improve administrative efficiency by eliminating the need for as many as 80 funding transfers annually from 21 participating agencies. SBA should budget for direct funding for this initiative within its fiscal year 2010 budget request.

The Committees on Appropriations are aware that there are certain rural areas that

are underutilized business areas, but are excluded from HUBZone designation based on the current program authorization. SBA is encouraged to continue to examine ways to incorporate these areas into any future revisions of the Small Business Act.

The SBA is encouraged to consider options for donating, or offering at discounted prices, used equipment, including computers, for appropriate use by small businesses located in the United States. The SBA is directed to report to the House and Senate Committees on Appropriations within 270 days after enactment of this Act on potential plans for such donations.

SBA shall submit a report to the House and Senate Committees on Appropriations within 270 days of enactment of this Act on the Microloan program. The report shall include information regarding the number and dollar amount of lending and potential unmet need in the program. The report shall also address steps SBA has taken to implement recommendations of the 2003 report from the SBA Inspector General, particularly regarding the enforcement of reporting requirements in the Microloan program.

OFFICE OF INSPECTOR GENERAL

The bill provides \$16,750,000 for the Office of Inspector General of the Small Business Administration.

The Inspector General is directed to continue routine analysis and reporting on SBA's modernization of its loan management and accounting systems, including acquisition, contractor oversight, implementation, and progress regarding budget and schedule.

SURETY BOND GUARANTEES REVOLVING FUND

The bill provides \$2,000,000 for the Surety Bond Guarantees Revolving Fund.

BUSINESS LOANS PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$140,980,000 for the Business Loans Program Account. The amount includes \$2,500,000 for subsidies for the Microloan direct loan program.

The bill also includes \$138,480,000, within the total amount appropriated, for administrative expenses related to business loan programs. The amount provided for administrative expenses may be transferred to and merged with the appropriation for SBA salaries and expenses to cover the common overhead expenses associated with business loans.

The bill supports up to \$17,500,000,000 for the 7(a) business loan program, up to \$7,500,000,000 for the 504 certified development company program, up to \$3,000,000,000 for Small Business Investment Company (SBIC) debentures, and up to \$12,000,000,000

for the Secondary Market Guarantee Program.

ADMINISTRATIVE PROVISIONS—SMALL BUSINESS ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

Section 520 of the bill allows transfers between appropriations accounts.

Section 521 requires that all loans issued in Alaska or North Dakota be administered by the Small Business Administration and not be sold during fiscal year 2009.

Section 522 prohibits the Small Business Administration from implementing a rule that would limit the use of sole-source contracts for women-owned small businesses.

Section 523 transfers \$2,953,000 of previously appropriated funds to the Salaries and Expenses account of the Small Business Administration.

Section 524 makes a technical correction to Public Law 110-161.

Section 525 provides additional amounts for small business development and entrepreneurship initiatives, including programmatic and construction activities, to be awarded as follows:

## PAYMENT TO THE POSTAL SERVICE FUND

The bill includes \$111,831,000 for payment to the Postal Service Fund, including \$29,000,000 for repayment of revenue forgone and \$82,831,000 for an advance appropriation for fiscal year 2010 to continue free mail for the blind and overseas voters.

The Postal Accountability and Enhancement Act of 2006 required the Postal Regulatory Commission (PRC) to submit a report to Congress in December of 2008 on universal postal service and the postal monopoly in the United States. The report will also include any recommended changes to universal service and the postal monopoly, and analyses of the costs and benefits of providing such services under current law. The U.S. Postal Service should keep Congress apprised of any actions the Postal Service plans to take on the PRC recommendations, including actions, if applicable, relating to five-day delivery service and its impact on fuel consumption.

The Postal Service should continue its efforts to upgrade postal operations and improve customer service in Chicago, and to assess service needs, reestablish postal facilities, improve mail delivery, and enhance product and service offerings to customers in New Orleans and other Louisiana communities.

The Postal Service should make every effort to maintain the U.S. Post Office in Danville, Virginia, and provide full postal services to the citizens of Danville.

The bill requires the Postal Service to keep the Appropriations Committees promptly and regularly informed on its mail treatment processes and to consult with the Committees on its future plans for securing mail irradiation services, including costs.

## GENERAL PROVISIONS

The following sections describe general provisions for agencies covered by this Act, agencies government-wide, and the District of Columbia. The Financial Services and General Government Appropriations Act, 2008, included several general provisions that were made permanent by inclusion of language indicating futurity. As noted by the United States Government Accountability Office:

“A provision contained in an annual appropriation act is not to be construed to be permanent legislation unless the language used therein or the nature of the provision makes it clear that Congress intended it to be permanent. The presumption can be overcome if the provision uses language indicating futurity or if the provision is of a general character bearing no relation to the object of the appropriation.

In analyzing a particular provision, the starting point in ascertaining Congress's intent is, as it must be, the language of the statute. The question to ask is whether the provision uses “words of futurity.” The most common word of futurity is “hereafter” and provisions using this term have often been construed as permanent.” (Principles of Federal Appropriations Law, Third Edition, Volume I, page 2-34)

Several provisions in the 2008 Act included the word “hereafter” as an indication of permanence. These provisions include sections 701 (concerning funds to pay travel for immediate families of employees serving abroad in cases of death or life threatening illness), 709 (concerning nominees disapproved by the Senate), 716 (concerning workplace discrimination and sexual harassment), and 737(b) and (c) (concerning E-Government). This statement reiterates that these provisions were made permanent.

DIVISION E—DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2009

TITLE I—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

Appropriation enacted, 2008	\$353,931,000
Budget estimate .....	864,827,000
Bill, 2009 .....	890,194,000
Comparisons:	
Appropriations, 2008 .....	+36,263,000
Budget estimate, 2009 .....	+25,367,000

The detailed allocation of funding by program, activity and subactivity is included in the table at the end of this section of the statement. In addition, the bill also includes the following specific funding levels and directions:

**Land Resources.** Within the funds provided for soil, water, and air management, there is a program increase of \$7,500,000 for abandoned mine remediation and inventory in the West. Of this amount, a minimum of \$6,000,000 is for actions to secure, seal, and remediate hazards from known mine openings. An amount up to \$1,500,000 may be used for discovery and inventory activities.

**Cultural Resources Management.** Within the amounts provided, there is an increase of \$500,000 to begin implementation of the Galisteo Basin Archeological Sites Protection Act of 2004 (NM).

**Wildlife Management.** Within the funds provided there is an additional \$4,600,000 for the native plant materials development program. This funding and program has been moved out of the Department's wildland fire management appropriation account. This program should continue previous activities as part of the national fire plan working closely with the Forest Service, and develop a seed bank of desirable native plant species to be available for use in burned area restoration, habitat restoration, and other related purposes by all of the Interior land management bureaus. An annual report on the accomplishments and expenditures of the

program should be submitted no later than 90 days after the end of the fiscal year.

**Recreation Resources Management.** Within the amounts provided, there is an increase of \$1,000,000 for management of the national scenic and historic trails.

**Energy and Minerals.** The bill continues the same application for permits to drill (APD) fee as in fiscal year 2008, \$4,000 per APD, which is estimated to net \$36,400,000 during fiscal year 2009 to partially offset BLM administrative costs. In addition, the bill includes \$6,000,000 for Alaska legacy well remediation, no specific funds for gas hydrates research or North Slope science, and \$1,000,000 for oil shale sample shipment and storage in Colorado. The discretionary funding total for oil and gas management is \$79,478,000, which when added to the APD fee receipts, and the off-budget pilot offices funds, is a small increase over the total fiscal year 2008 oil and gas management funding.

Future budget justifications should clearly delineate how the Bureau is complying with section 713 of the Energy Independence and Security Act of 2007 dealing with inventories of carbon dioxide sequestration in Federal mineral leaseholds.

Bill, 2009	2,131,529,000

Budget estimate, 2009	0

The detailed allocation of funding by program area and activity for the National Park Service account is included in the table at the end of this section of the statement. The amounts in this bill will support 20,923 full time equivalent (FTE) positions throughout the National Park Service, an increase of 622 FTE's over the number funded in 2008. This includes continuation of funding for the 3,000 new seasonal positions added in fiscal year 2008. Savings in personnel and contracting costs of \$9,855,000 compared to the request

have been realized due to delayed enactment of the 2009 appropriations. In addition, the bill includes the following specific funding levels and directions:

*Visitor Services.* Within the amounts provided for visitor services, the bill assumes an increase of \$3,300,000 above the amounts requested in the President's budget for the National Park Service portion of an expanded law enforcement effort to eradicate drug production and related activities on public lands.

*Park Support.* The bill assumes funding of \$11,000,000 for the National Trail System, and \$1,750,000 for the Wild and Scenic Rivers program.

*U.S. Park Police.* The \$96,555,000 provided in the bill for the U.S. Park Police annual operations budget includes sufficient funding for two additional recruit classes during 2009. In addition the bill includes the \$2,000,000 for security costs associated with the 2009 Presidential Inauguration.

*Gettysburg National Military Park (NMP).* \$200,000 is provided to continue the restoration of historic battlefield landscaping at Gettysburg NMP.

*National Mall Concerts.* The bill includes funding to continue support for the National Mall concerts program at the fiscal year 2008 level.

*Youth Conservation Corps (YCC) and Public Lands Corps (PLC).* The bill includes not less than \$3,000,000 of funding in this account for projects to be carried out by the YCC program and not less than \$3,000,000 for projects carried out by the PLC. The Committees on Appropriations are fully supportive of these partnership programs, as well as similar partnership arrangements with the Student Conservation Association, and encourages expansion of these programs in 2009.

*Special Resource Studies.* The bill includes sufficient funding to carry out all special resource studies authorized by law during the 110th and previous Congresses.

*Harpers Ferry NHP.* The Committees on Appropriations appreciate the Service's efforts to commemorate the 150th anniversary of John Brown's raid on the arsenal at Harpers Ferry National Historical Park, and authorize the use of up to \$300,000 to defray the costs of the extensive events that will surround the anniversary.

*Traditional and Folk Arts Heritage Programs.* The bill includes funding to continue National Park Service support of traditional and folk arts programs at parks whose mission includes preservation of these heritage traditions. The Committees are fully supportive of this important partnership program and encourage the National Park Service to expand its support of these programs in fiscal year 2009.

*Haleakala National Park.* The Committees on Appropriations are aware and supportive of the potential development of an Advanced Technology Solar Telescope (ATST) within the Haleakala High Altitude Observatories site at the summit of Haleakala, Maui, Hawaii. As the proposed ATST construction site can only be accessed via a road through the Haleakala National Park, the Service is expected to work cooperatively with the National Science Foundation to effectuate the issuance of a Special Use Permit as soon as possible. In turn, the Foundation is expected to complete its analysis on the effects to service standards in a timely fashion so that the Service can fully comply with all procedural requirements, with a goal of com-

pleting the permitting process within 150 days of enactment of this Act.

NATIONAL RECREATION AND PRESERVATION	
Appropriation enacted, 2008	\$67,413,000
Budget estimate, 2009 .....	45,488,000
Bill, 2009 .....	59,684,000
Comparisons:	
Appropriations, 2008 .....	-7,729,000
Budget estimate, 2009 .....	+14,196,000

The detailed allocation of funding by program area and activity for the National Recreation and Preservation account is included in the table at the end of this section of the statement. The bill also includes the following specific funding levels and directions:

*Cultural Programs.* The bill includes \$1,000,000 to initiate programmatic activities under the Japanese-American Confinement Sites Act (P.L. 109-441). The bill does not include \$1,000,000 requested to begin an inventory of historic properties requested in the President's budget.

*Heritage Partnerships Program.* The bill includes \$15,702,000 for the heritage partnerships program. This amount will fund all heritage partnerships authorized during the 110th Congress. Partnerships which received

funding in fiscal year 2008 will be funded at the same level as they received last year. In addition, the bill provides \$148,000 of planning funds for each of three newly authorized heritage partnerships. The House and Senate Committees on Appropriations are concerned that the number of authorized heritage partnership programs has expanded rapidly in recent years and many more proposals are pending action by the authorizing committees. The Committees are in agreement that the amount of funding available for this program is limited; and that expanded funding for new heritage areas should be funded principally by savings which occur when mature programs are graduated from Federal support. The National Park Service is directed to develop new guidelines for this program which require self-sufficiency plans for all heritage areas within a reasonable period of time. The adoption of a credible self-sufficiency plan, or satisfactory work towards development of such a plan, should be a condition of continued funding for all plans after fiscal year 2009.

*Statutory and Contractual Aid.* The bill includes \$5,600,000 for grants under the statutory and contractual aid program as follows:

State	Project description	Amount
AL	National Voting Rights Interpretive Center	\$350,000

The detailed allocation of funding by program area and activity is included in the table at the end of this section of the statement. The bill also includes the following specific funding levels and directions:

*Program Reductions.* The bill does not include \$10,000,000 requested in this account for the Preserve America program or \$2,000,000 requested to initiate an inventory of historic

properties. The Committees on Appropriations believe that future funding for the Preserve America program should be deferred pending a full evaluation of the effectiveness of the program in meeting national heritage tourism needs.

*Everglades.* The bill includes \$60,000,000 for the Modified Water Deliveries Project at Everglades National Park. This includes \$50,000,000 requested in the President's Budget for the Corps of Engineers. This funding level will allow construction of the first Tamiami Trail bridge to proceed expeditiously. The House and Senate Committees on Appropriations recognize, however, that this bridge is just a first step. As the next step in this critical restoration effort, the Secretary of the Interior, acting through the National Park Service, is directed to immediately evaluate the feasibility of additional

bridge length, including a continuous bridge, or additional bridges or some combination thereof, for the Tamiami Trail (U.S. Highway 41) to restore more natural water flow to Everglades National Park and Florida Bay. The feasibility study and the recommendation of the Secretary should be submitted to the Congress no later than 12 months from the date of enactment of this Act. Language is included in the bill directing that this study be completed.

The second new proviso extends the authorization for the National Park Service Advisory Board for one year.

**UNITED STATES GEOLOGICAL SURVEY**

Appropriation enacted, 2008	\$1,006,480,000

Comparisons:	
Appropriations, 2008 .....	+37,323,000
Budget estimate, 2009 .....	+75,287,000

The detailed allocation of funding by program, activity and subactivity is included in the table at the end of this section of the statement. The bill includes the proposed global change research technical adjustments which move funds from several activities into the global change activity. The proposed reductions for travel are not included for any activity. In addition, the bill also includes the following specific funding levels and directions:

**Geographic Research and Remote Sensing.** The bill includes \$1,000,000 for the national cooperative geographic information system mapping program but does not include the funding increase requested for the national land imaging program. The bill includes the requested reduction for geographic research

and the transfer of priority ecosystems science funding to biological research. The bill fully funds the budget request of \$24,150,000 for the Landsat Data Continuity Mission and \$16,000,000 to continue the Landsat 5/7 program. Satellite development and launch costs associated with future US Geological Survey (USGS) land remote sensing operations should not be transferred from the National Aeronautics and Space Administration (NASA) to the Department of the Interior (DOI). These are functions that are not a component of current DOI operations but clearly fall within NASA's jurisdiction. Until a new plan for future land imaging and remote sensing coordination is drawn up that evaluates how satellite development, launch and operations should be funded, DOI should not undertake any action that attempts to assume the funding responsibilities that have traditionally been a part of the NASA budget.

**Geologic Hazards Assessments.** The bill includes \$3,000,000 for the earthquakes portion of the multi-hazards initiative and \$500,000 for the one-time costs of seismological equipment at the Arkansas Seismological Observatory, but the requested reduction for earthquake grants is not included. There is a general increase of \$2,000,000 for volcano hazards research. The Survey should evaluate ongoing needs for important volcano research and monitoring in active areas, such as Hawaii, Yellowstone, the Cascades and Alaska, where the USGS maintains observatories. The bill also includes a \$1,500,000 increase for the global seismographic network.

**Geologic Landscapes and Coastal Assessments.** The bill does not include the funds requested for the water census. The Administration should revisit that issue and consider resubmitting a more integrated program request in the next budget cycle. The bill moves funds for priority ecosystems science from earth surface dynamics to biological research as requested, and provides \$750,000 for Great Lakes region geological mapping within the National cooperative geologic mapping subactivity. The bill includes \$3,000,000 for extended continental shelf mapping in the Arctic Ocean, a total of \$1,000,000 for the ocean action plan coastal geology effort, and \$500,000 for California sea floor mapping.

**Geologic Resources Assessments.** The bill provides the fiscal year 2008 funding level for the minerals resources activities and assessments and includes \$650,000 to initiate a minerals resource assessment of federal lands in Nye County, Nevada, in collaboration with the University of Nevada, Las Vegas and the Nevada Bureau of Mines and Geology. The Survey's April 2008 petroleum resource assessment of the Bakken Formation was an important benchmark to further our nation's energy security. The Survey is strongly encouraged to expedite its efforts to conduct further applicable assessments or make additional data publicly available that can demonstrate the full range of energy resources in the stratigraphic sequences surrounding the Bakken Formation.

**Ground Water Resources.** The bill does not provide funding for the Water for America initiative but it does include a \$500,000 general increase and \$900,000 for San Diego, CA, aquifer mapping. Although funding is not provided for new aspects of the Water for America initiative, the importance of this work is recognized and future budgets should consider a more integrated program request for this work.

**National Water Quality Assessment.** The bill does not include the large reduction requested for this vital program.

**Toxic Substances Hydrology.** As requested, the bill transfers funds for priority ecosystems science to the biological research program. In disagreement with the budget request, the bill continues funding for amphibian research and monitoring but moves that amount to biological research where the work will be accomplished.

**Hydrologic Research & Development.** The bill provides \$270,000 to continue the Hood Canal, WA dissolved oxygen study, \$295,000 to maintain the San Pedro River partnership, AZ, \$400,000 for the Long Term Estuary Assessment Group, LA, and \$500,000 to continue work pursuant to the US-Mexico Transboundary Aquifer Assessment Act.

**National Streamflow Information Program.** The bill does not include funds for the Water for America initiative but does include a general increase of \$2,000,000 for the stream gage program.

**Hydrologic Networks and Analysis.** The bill maintains the fiscal year 2008 funding level

for the ocean action plan in this subactivity, provides \$497,000 to continue the Lake Champlain basin toxic materials study and \$500,000 to maintain Hawaii water resources monitoring activities. The Survey is encouraged to evaluate the need for selenium studies in Colorado and, to the extent possible, incorporate that work into other ongoing hydrological research in the area.

*Biological Research.* The bill includes the following: a total of \$750,000 for the Healthy Lands Initiative; the requested funds for priority ecosystems science; the fiscal year 2008 level for Pacific Northwest forest biology; \$650,000 for contaminant and endocrine biology research; \$200,000 for the science excellence program with the Fish and Wildlife Service; \$500,000 to maintain the San Francisco, CA salt ponds restoration science; \$800,000 to maintain the Leetown, WV molecular biology effort; \$750,000 to maintain amphibian research and monitoring; a \$1,000,000 increase for Great Lakes biological sciences; and a total of \$5,000,000 for National Biological Information Infrastructure. The Survey is encouraged to provide full support for the southern sea otter science and monitoring effort.

*Facilities.* The bill provides the budget request, plus an additional \$4,000,000 for the deferred maintenance and capital improvement activity to continue the on-going project begun last year.

*Global Climate Change Research.* The bill includes all of the internal funding transfers recommended by the Survey in order to establish this new budget activity, and an increase of \$14,045,000 above the total request. Within the amounts provided, \$10,000,000 is for the National Global Warming and Wildlife Science Center and at least \$3,000,000 is to implement required geological and biological carbon sequestration studies as required by sections 711, 712 and 714 of the Energy Independence and Security Act of 2007.

The National Global Warming and Wildlife Science Center funding includes \$2,500,000 to complete establishment of the Center. Additionally, the funding allows the Center to develop mechanisms that will ensure that it is responsive to the research and management needs of Federal and State agencies regarding the impacts of global warming on fish, wildlife, plants and ecological processes and the mechanisms for adaptation to, mitigation of, or prevention of those impacts. The recommendation also includes \$7,500,000 for the Center to fund research projects, including use of external and independent scientific peer review, to address the needs of resource management agencies and the American public through greatly accelerated global warming research and through development of decision support tools.

The Secretary, with the assistance of the USGS National Climate Change and Wildlife Science Center and a science advisory board, including members recommended by the National Academy of Sciences, should initiate development of a national strategy to assist fish, wildlife, plants, and associated ecological processes in becoming more resilient, adapting to, and surviving the impacts of climate change. In developing this national framework for flora and fauna conservation in a changing climate, the Secretary should consult with other Federal agencies, State fish, wildlife and conservation data agencies, Territories, Tribes, scientists, and stakeholders, and the Secretary should provide the public with notice and opportunity for comment.

In addition, the bill makes permanent the authority previously given annually for the State of Maryland to set aside the greater of \$1,000,000 or 10 percent of the total of the grants made available to the State for certain acid mine drainage abatement and treatment activities. The Surface Mining Control and Reclamation Act Amendment Act of 2006 did not provide a funding source for state emergency programs, therefore, the Administration request to discontinue funding for this important program is denied.

The detailed allocation of funding by program and activity is included in the table at the end of this section of the statement. The bill includes funding for wildfire suppression at the ten-year average suppression cost. The bill does not provide the requested decreases for the preparedness program; the increased funds for preparedness are for fixed costs. Burned area rehabilitation funding has been reduced by \$4,600,000 because the Native Plant Materials Development Program has been moved to the BLM.

The Department and the Forest Service must work together, along with State and

other partners, to maintain sufficient readiness with the preparedness program. The Department should do its utmost to maintain wildfire suppression capability at least at the same levels as in fiscal years 2007 and 2008. The Department should immediately notify the Committees on Appropriations if it appears that funding shortfalls may limit needed firefighting capacity.

It is imperative that both departments expedite deployment of the fire program analysis system in order to justify further investment beyond the current fiscal year.

The Department of the Interior and the Forest Service should continue reports required by the Committees on Appropriations previously and examine, using independent panels, any individual wildfire incident which results in expenses greater than \$10,000,000.

**Categorical Grants.** The bill provides \$1,094,855,000, which is \$58,648,000 above the request, adjusted to reflect the Underground Storage Tank Program's movement to the LUST account. Within this program area, the bill includes:

**Climate Change Initiative Grants for Local Communities.**—The Bill includes \$10,000,000 for the Office of Air and Radiation to initiate a new, competitive grant program to assist local communities in establishing and implementing their own climate change initiatives. The goal of this program is to implement programs, projects and approaches, which demonstrate documentable reductions in greenhouse gases and are replicable elsewhere. The Agency is directed to follow these guidelines to implement this Program: (1) grants are to be awarded on a competitive basis; (2) they are to be one-time grants only; (3) grantees, other than tribes, are required to provide a 50 percent match for the Federal funds; (4) local, county, municipal and tribal governments are eligible to apply; (5) five percent of the funds shall be allocated to tribal governments; (6) grants will fund planning activities, demonstration pilots, innovative approaches and implementation of projects designed to reduce greenhouse gases; (7) examples of eligible projects include land use planning, programs to reduce vehicle miles traveled, improvements to building energy efficiency and projects to capture methane from agriculture operations for use as an alternative to fossil fuels. The Agency is directed to report on its progress in implementing this grant program, including a summary of the projects funded, estimates of greenhouse gases reduced and suggestions for future implementation of the program.

**Section 106 Pollution Control Grants.**—The bill provides \$218,495,000 for pollution control grants authorized by Section 106 of the Clean Water Act. The House and Senate Appropriations Committees do not support the Agency's recent National Permit Discharge and Elimination System (NPDES) rulemaking to create an incentive pool of funds for States that charge NPDES fees and have not provided funds to implement this change. The Agency is directed to award Section 106 grants using the historic allocation formula. The Committees have also rejected the Agency's proposal to direct the entire amount appropriated for water quality monitoring to statistically representative monitoring programs and direct the Agency to follow the historic allocation criteria between State capacity building and national surveys, as provided in fiscal year 2008.

**Underground Storage Tank Grants.**—The amount remaining in this account and not moved to the LUST account, is directed to fund state activities not authorized by either section 9003(h) of the Solid Waste Disposal Act or the Energy Policy Act of 2005.

**ADMINISTRATIVE PROVISIONS,  
ENVIRONMENTAL PROTECTION AGENCY  
(INCLUDING RESCISSION OF FUNDS)**

The bill includes two new administrative provisions which make permanent prior year limitations on the reimbursement of consultants, purchase of uniforms, and use of funds for facility construction projects. It also includes bill language concerning the Agency's use of Title 42 hiring authority. The bill includes a \$10,000,000 rescission from the State and Tribal Assistance Grants Account as proposed in the budget request. The Committees further direct the Agency to take this rescission from the following programs:

(1) Unobligated balances from the Title II Construction Grants program;

(2) Unobligated prior-year balances from State categorical grant programs; and

(3) Balances from special project grants appropriated in fiscal year 2002 or earlier which have not been obligated on an approved grant as of July 1, 2009.

The Agency is directed to provide a report to the Committees outlining the allocation of the rescission 15 days prior to implementation.

The bill includes a provision mandating that the Agency provide no less than \$6,500,000 from the Environmental Program and Management account for the Greenhouse Gas emissions reporting rule and restating the deadline for promulgation of a final rule, as directed by Public Law 110-161. That law directed EPA to use its existing authority under the Clean Air Act to develop and publish a rule requiring mandatory reporting of greenhouse gas emissions above appropriate thresholds in all sectors of the economy. The Committees are dismayed that the Agency missed its September 26, 2008 deadline to issue a draft rule and direct the Agency to redouble its efforts to meet the June 26, 2009 deadline to promulgate the final rule, as required by law.

**Forest Legacy.**—The forest legacy program is funded at a total level of \$57,445,000, of which \$8,000,000 is derived from prior-year

unobligated funds. This includes \$5,800,000 for program administration and \$51,645,000 for forest legacy projects. The Service is directed to fund projects in priority order according to the competitively-selected national priority list of projects. Within the prioritized projects, the Service is directed to fund the ongoing South Branch, WV project at \$3,670,000. In addition, the Service is directed to fund the Eden Forest project in Vermont at \$1,800,000.

**Urban and Community Forestry.**—Within the funds provided there is: \$50,000 for tree replacement in River Rouge, MI; \$500,000 for Seattle-Tacoma regional urban forestry (WA); \$1,000,000 to address impacts of Emerald ash borer in the Midwest, and \$300,000 for the Chicago GreenStreets Program to mitigate emerald ash borer infestation and promote urban forestry (IL).

**Economic Action Program.**—Within the funds provided there is: \$300,000 for the University of Missouri's extension program for a woody biomass technology demonstration project; \$350,000 for the State of Vermont to fund forest products business development grants and technical assistance through the Vermont Wood Products Collaborative; \$500,000 to Purdue University to fund wood products technology development through the Hardwood Scanning Technology Center; \$200,000 to New Hampshire's Northern Forest Center to fund a sustainable forestry and forest products initiative; \$1,700,000 to the Service's Region 5 headquarters to continue infrastructure assistance grants for the region's small forest products businesses; and \$1,923,000 above the request to restore funding for the Wood Education and Resource Center in Princeton, West Virginia, to the fiscal year 2007 enacted level, for a total in all Service accounts of \$2,673,000.

**NATIONAL FOREST SYSTEM  
(INCLUDING RESCISSION OF FUNDS)**

Appropriation enacted, 2008	\$1,469,579,000
Budget estimate .....	1,349,537,000
Bill, 2009 .....	1,509,805,000
Comparisons:	
Appropriations, 2008 .....	+40,226,000
Budget estimate, 2009 .....	+160,268,000

The detailed allocation of funding by program, activity and subactivity is included in the table at the end of this section of the statement. In addition, the bill also includes the following specific funding levels and directions:

**Inventory and Monitoring.**—Within the funds provided, \$1,000,000 of the funds provided for the Threat Assessment Centers program is for the NASA Stennis Space Center in Mississippi to acquire remote sensing data to inventory and monitor Federal and non-Federal lands as authorized by Title IV of Public Law 108-148, the Healthy Forests Restoration Act.

**Recreation, Heritage, and Wilderness.**—The bill provides the fiscal year 2008 funding level, plus fixed costs, plus an increase of \$10,000,000. The Committees on Appropriations expect that each individual National Forest or Grassland will comply fully with all travel management regulatory requirements, particularly the science-based analysis in 36 CFR 212.5 (b)(1), the identification of unneeded roads in 36 CFR 212.5(b)(2), and the criteria for designation in 36 CFR 212.55(a) and (b). The Committees expect the Forest Service to identify priorities, and associated resource requirements, to fully comply with the regulatory requirements of 36 CFR 212.5(b) (1) and (2).

**Forest Products.**—The bill provides the budget request of \$322,666,000 plus an increase

of \$10,000,000. The requested funds should be allocated as stipulated in the President's budget, following the Northwest Forest Plan. The funding increase should be used for those forests not covered by the Northwest Forest Plan that have budget shortfalls and capacity for additional, successful work.

The Service should consider all contract methods for implementing fuels reduction projects proposed on the Sierra and Sequoia National Forests, including the Kings River, Sugar Pine, Frog, and revised Ice projects, including stewardship contracting authority provided under Section 323 of Public Law 108-7, and utilize available agency funding to accomplish these multiple objectives.

**Vegetation and Watershed Management.**—The bill supports the budget request to continue leafy spurge eradication on the Dakota Prairie Grasslands in conjunction with the Service's local partners. There is also a \$500,000 increase within available funding to remediate hazardous materials and other natural resource damage caused by drug cultivation on national forest lands; these funds should be distributed to support high-priority restoration needs following drug eradication activity.

**Law Enforcement Operations.**—The bill provides \$135,500,000 for law enforcement operations. The Service is expected to use the increase above the request to fund uncontrollable costs, continue efforts to increase the eradication of marijuana from national forest lands and maximize the number of inter-agency drug enforcement operations conducted with Federal and non-Federal partners. In particular, funding for counterdrug operations on the Daniel Boone (KY) and Mark Twain (MO) National Forests shall be maintained at no less than their enacted levels.

**Valles Caldera National Preserve.**—The bill includes \$4,000,000 for the Valles Caldera National Preserve Trust (NM). The increase over the enacted level should be used to fund capital improvements for the preserve.

**Land Between the Lakes.**—The bill includes the budget request of at least \$8,200,000 in appropriated funds to support activities at the

Land Between the Lakes National Recreation Area (KY and TN).

**Rescission.**—The bill rescinds \$5,000,000 in unobligated, prior balances as proposed in the budget request. The bill language is within the National forest system appropriation instead of as a General Provision as proposed by the Administration.

CAPITAL IMPROVEMENT AND MAINTENANCE  
(INCLUDING TRANSFER OF FUNDS)

Appropriation enacted, 2008	\$464,768,000
Budget estimate	405,788,000
Bill, 2009	482,393,000
Comparisons:	
Appropriations, 2008	+17,625,000
Budget estimate, 2009	+76,605,000

The detailed allocation of funding by program, activity and subactivity is included in the table at the end of this section of the statement. In addition, the bill also includes the following specific funding levels and directions:

**Facilities Construction.** Within the funds provided there is: \$200,000 to begin Timberline Lodge water system upgrades, OR; \$600,000 for the Keenwild fire helicopter base, CA; \$185,000 for Uwharrie NF electrical upgrades, NC; \$250,000 for Sumter NF access improvements, SC; \$300,000 for the Kinzua recreation facility, PA; \$1,271,000 for facilities improvements on the Monongahela NF, WV; \$2,500,000 for construction of research field stations and support infrastructure in Hawaii; and \$1,500,000 for construction of a new work station for the Cherokee NF in Tennessee.

**Roads Maintenance and Construction.** The bill includes \$162,500,000 for road maintenance and \$66,325,000 for road construction; these allocations reflect new information from the Forest Service concerning appropriate allocations for maintenance versus construction. The construction activity includes \$1,000,000 for road improvements on the Tongass National Forest (AK) and \$825,000 for road improvements on the Monongahela National Forest (WV).

The Service should provide a report to the Committees on Appropriations by May 15,

2009 on road maintenance needs and policy options for designating portions of the Forest Service road system so it would be eligible for the next highway bill funding in a manner similar to Interior department bureaus.

**Trails Maintenance and Construction.** The trail maintenance activity should especially consider the needs of the Pacific Crest National Scenic Trail and the Florida National Scenic Trail. Within the funds for trail construction there is \$300,000 for the Humboldt-Toiyabe National Forest (NV) to construct the Reno-to-Tahoe Rim Trail and \$350,000 for the Monongahela National Forest (WV) trail improvements.

The bill retains previous base funding for maintenance, construction, and operation of the network of national scenic and historic trails; they should be funded at no less than the enacted level.

**Legacy Road and Trail Remediation.** The bill provides \$50,000,000 to expand the effort begun last year to begin to remedy the extensive backlog of roads and trails which harm the environment and provide poor public service. The Service should use legacy road and trail remediation funding in a strategic effort to decommission and fix roads and trails in environmentally sensitive areas, focusing on those areas where Forest Service roads may be contributing to water quality problems in streams and water bodies which support threatened, endangered or sensitive species. The Service should utilize public input to help select legacy road and trail remediation projects, and report back to the Committees on Appropriations on the selected projects, and make its selection process and implementation activities readily apparent on the Agency's web site.

Budget estimate, 2009 .....	+155,038,000

The detailed allocation of funding by program, activity and subactivity is included in the table at the end of this section of the statement. In addition, the bill also includes the following specific funding levels and directions:

**Preparedness.** The bill provides the fiscal year 2008 funding level, plus \$6,181,000 for fixed costs, plus \$3,000,000 to continue the firefighter retention initiative funded through P.L. 110-329. The Forest Service should maintain the levels of readiness needed for public safety that were established in fiscal year 2007. The Forest Service should analyze current readiness levels to determine whether maintaining preparedness resources in the field at a level not less than that established in fiscal year 2007 will, based on the best information available, result in lower overall firefighting costs. If the Forest Service makes such a determination, the Service should adjust the levels for preparedness and suppression funding accordingly and report on these adjustments to the House and Senate Committees on Appropriations. The Secretary of Agriculture should advise the House and Senate Committees on Appropriations in writing prior to the decision. In the future, the Committees on Appropriations expect the Service to request preparedness budgets that adequately cover the costs of readiness activities without undue shifts of expenses to the suppression appropriation.

The Committees are very concerned that the Service has not yet finalized or imple-

mented a comprehensive plan to improve firefighter recruitment and retention in Region 5, despite documented vacancies in firefighting positions. The Committees understand that the Service is still studying a range of options to improve firefighter recruitment and retention in Region 5 and other high-risk areas of the nation, including changes to pay rates and scheduling flexibility. Further delay is not acceptable. The Service is directed to provide a comprehensive recruitment and retention plan, including a full spending plan for the funds appropriated in P.L. 110-329, to the Committees by no later than March 1, 2009.

**Fire suppression operations.** The bill provides the request, \$993,947,000, for fire operations, an increase of \$148,327,000 above the fiscal year 2008 non-emergency funding level. The Forest Service and the Department of the Interior should continue reports required previously and examine, using independent panels, any individual wildfire incident which results in expenses greater than \$10,000,000.

**Hazardous Fuels.** The bill provides \$328,086,000 for the hazardous fuels reduction program, an increase of \$18,000,000 above the fiscal year 2008 level. This funding increase should be used in those areas facing the greatest risk from wildfires because of excessive fuel loads.

The Forest Service should provide no less than \$26,200,000 for the Quincy Library Group's hazardous fuels reduction activities (CA) as proposed in the request.

**Rehabilitation.** The bill provides \$11,500,000 to continue the rehabilitation of burned areas program as in fiscal year 2008; the Administration request eliminated this program.

**Fire Plan Research and Development.** The bill provides \$23,917,000 to continue the fire plan research and development program.

**Forest Health Management Federal Lands.** The bill provides \$17,252,000 for Federal lands forest health management, which includes the requested funding plus \$3,000,000 for a western bark beetle initiative. The increase should be allocated using the National Insect and Disease Risk map; the Service should focus its efforts on areas where tree mortality is expected to exceed at least 25 percent over the next 15 years.

**Forest Health Management Cooperative Lands.** The bill provides \$9,928,000 to continue the cooperative lands forest health program.

**State Fire Assistance.** The bill provides \$55,000,000 for State fire assistance, an increase of \$19,996,000 above the request. Within the funds provided, \$5,000,000 shall be provided to the South Lake Tahoe Public Utility District for the Lake Tahoe Community Fire Protection Project. These funds should be used by local utility districts to fund their highest priority fire protection projects such as increasing water pressure or installing new fire hydrants. Funds are to be matched by local water utility districts on at least a one-to-one basis.

**Volunteer Fire Assistance.** The bill provides \$9,000,000 for volunteer fire assistance, an increase of \$1,000,000 above the request.

**ADMINISTRATIVE PROVISIONS, FOREST SERVICE**

The bill includes administrative provisions similar to previous years. This includes limiting transfers to the USDA for reimbursable charges to the requested amount and allowing up to \$50,000,000 to be assessed for fire, administrative and other facilities maintenance. The bill provides \$3,000,000 for the National Forest Foundation and \$3,000,000 for

the National Fish and Wildlife Foundation; it is acceptable for these foundations to make grants to Federal recipients, including Forest Service offices. Bill language in Title IV, General Provisions, prevents any funding for the competitive sourcing program.

**DEPARTMENT OF HEALTH AND HUMAN SERVICES**

**INDIAN HEALTH SERVICE**

**INDIAN HEALTH SERVICES**

Appropriation enacted, 2008 .....	\$2,971,535,000
Budget estimate .....	2,971,533,000
Bill, 2009 .....	3,190,956,000

Comparisons:

Appropriations, 2008 .....	+219,421,000
Budget estimate, 2009 .....	+219,423,000

The detailed allocation of funding by program area and activity for the Indian Health Services account is included in the table at the end of this section of the statement. In addition to specifying these amounts, the bill includes the following directions:

**Domestic violence within the American Indian and Alaska Native (AI/AN) communities** continues to be an area of serious concern. Children in these communities have the second highest rate of maltreatment in the country, and one in three AI/AN women will be physically or sexually abused in her lifetime. In order to provide the Indian Health Service (IHS) with additional tools to better address child and family violence in AI/AN communities, the bill includes \$7,500,000 to implement a nationally coordinated domestic violence prevention initiative. With these funds, the IHS is encouraged to further expand its outreach advocacy programs into Native communities, expand the Domestic Violence and Sexual Assault Pilot project already in operation; and use a portion of the funding for training and the purchase of forensic equipment to support the Sexual Assault Nurse Examiner program (SANE). Within 90 days of enactment, the Service should provide an outline of how funds will be allocated, and an assessment of next steps to be taken to further advance the various components of this initiative in the coming fiscal year. The report should also address the Service's progress in developing standardized sexual assault policies, as well as a cost estimate for full implementation of the SANE program.

An additional amount of \$2,500,000 is provided to support the Service's health information technology efforts. The House and Senate Committees on Appropriations view the various components of this program—from electronic records management to telehealth technologies—as essential to the increased availability of quality health services throughout Indian Country.

The Service, and particularly the Director of Oral Health, is strongly encouraged to re-double its efforts to address the alarmingly high vacancy rates among health professionals, for example 31 percent among dental professionals, in the Indian Health Service. Therefore, an increase of \$8,299,000 over the fiscal year 2008 enacted level has been provided for Dental Services in order to maintain current levels of care and provide for the staffing of new facilities.

The bill provides \$16,391,000 to continue the grant program to treat and prevent methamphetamine abuse. This is an increase of \$2,609,000 over the amount provided in fiscal year 2008, and it is expected that the Service will use a portion of the funding for the treatment of behavioral and mental health problems associated with methamphetamine use. To determine the effectiveness of this program, which was initiated in fiscal year

2008, the Service is directed to report on the progress, accomplishments, and achievements of this program to the Committees on Appropriations within 60 days of enactment of this legislation. In addition, the Service is encouraged to participate in the Fetal Alcohol Spectrum Disorders and Alcohol Screening, Intervention and Referral Initiative.

The Indian Health Service is directed to use the Indian Health Care Improvement Fund to bring the units with the highest level of need up to at least 40 percent before allocating funds to units with needs above 40 percent.

Within the resources available to the Hospitals and Clinics program, the Service is encouraged to provide such assistance as may be necessary for the newly formed Nevada Indian Health Board to fully establish its operations.

Within the amount provided for Indian Health Professions, it is expected that the Service will fund the InMed, RAIN and InPsych programs at no less than the current levels and manage them in the same manner as in prior years. The Service is also expected to use health professions program funding for loan repayment and scholarship programs to encourage increased recruitment and retention of health professionals.

The Service is directed to re-examine the policies it currently has in place for the integration of newly recognized tribes into the IHS system. There have been complaints regarding the length of time it now takes for a newly recognized tribe to obtain the funding and services to which it is entitled under the law. While acknowledging the budgetary constraints within which the IHS must operate, it is not unreasonable for newly recognized tribes to expect that a process would be in place for the prompt assessment of tribal needs, the subsequent development of a specific plan for the delivery of health services and funding, and a timeline for doing so. The Service is directed to report to the Committees on Appropriations within 90 days of enactment of this legislation with recommendations for the improvement of the current ad hoc system.

**INDIAN HEALTH FACILITIES**

Appropriation enacted, 2008	\$374,646,000
Budget estimate .....	353,329,000
Bill, 2009 .....	390,168,000
Comparisons:	
Appropriations, 2008 .....	+15,522,000
Budget estimate, 2009 .....	+36,839,000

The detailed allocation of funding by program area and activity for the Indian Health Facilities account is included in the table at the end of this section of the statement. In addition to specifying these amounts, the bill includes the following directions:

The bill provides \$40,000,000 for health facilities construction, but it does not allocate specific projects within that amount. Instead, the Service is directed to select projects from the priority list based upon readiness, as well as need, and report to the Committees on Appropriations within 60 days of enactment on the specific construction projects it intends to fund. It is expected that facilities funding will continue to be distributed in a manner that addresses the fluctuating annual workload and maintains parity among tribes and Indian Health Service areas as the workload shifts. The Service is further expected to use savings achieved from completed health care facilities construction projects to continue other high priority projects from the Service's construction list.

The high vacancy rate of health professionals in the Indian Health Service has not

been substantially alleviated by current recruitment and retention efforts. To the extent possible, the Service is encouraged to use the construction and improvement of staffing quarters as a vital tool to recruit and retain these health professionals.

Within the overall amount provided for construction, the House and Senate Committees on Appropriations recommend \$500,000 for new mobile dental units. There is a concern, however, that high dental vacancy rates have left newly constructed units understaffed. The Service should attempt in the distribution of these funds to ensure that staffing will be available for new units and that construction can be initiated in an expeditious manner once funds are committed.

No resources have been provided for the joint venture and small ambulatory grants programs because all qualified projects on the existing list have been completed. These programs have broad support, and the Service is directed to initiate new solicitations for both in this fiscal year. As in the past, the Service is encouraged to provide additional credit to tribes that are willing to provide full funding for facility equipment in addition to providing full funding for facility construction when determining priorities for project funding under the joint ventures program for hospitals and clinics.

The recent GAO findings on the Indian Health Service's inventory management system are of particular concern. Although the IHS has reportedly taken steps to address the issues specifically identified in the report, the GAO is directed to conduct a follow-up investigation of the Service's inventory management system to ensure that proper safeguards have been put in place to ensure full accountability. In addition, the IHS is strongly encouraged to evaluate its entire inventory management system, take necessary steps to correct any deficiencies, and report to the Committees on Appropriations on these efforts no later than 60 days after enactment of this Act.

An amount of up to \$2,700,000 from within funds from both the "Facilities" and "Services" accounts is designated in the bill for the purchase of ambulances through an existing agreement with the General Services Administration. The reallocation includes \$5,000,000 from facility services in the Salaries and Expenses account and \$5,000,000 from facilities planning in the Facilities Capital account. While the bill maintains the traditional structure for appropriating facility funding in the two accounts, the House and Senate Committees on Appropriations request that the Secretary of the Smithsonian review this structure to determine whether a consolidation of these funds under the Facilities Capital account would provide a more systemic review of facility funding requirements throughout the Institution.

*Government Accountability Office Review of Reform Process.*—The House and Senate Committees on Appropriations believe that much progress has been made by the Smithsonian to address the failures which contributed to a decline in Congressional and public confidence in the management and governance of the Smithsonian Institution. The appointment of a new Secretary, the restructuring of a more active Board of Regents, and the adoption of a series of policy changes to correct fiscal and management failures are very positive signs. The Committees believe, however, that these are only the initial steps and that a continuing commitment to reform, especially to the principals of fiscal stewardship of public resources, and to accountability and openness, are essential. The Committees request that the Government Accountability Office conduct a thorough review of the reform process and submit a progress report to the Committees no later than December 31, 2009.

*National Zoo.*—The House and Senate Committees on Appropriations are pleased that the National Zoo has recently received full accreditation from the Association of Zoos and Aquariums (AZA). **Reprogramming Guidelines**

The reprogramming requirements for fiscal year 2009 applicable to funds appropriated in this Act for programs under the jurisdiction of the Interior, Environment and Related Agencies Subcommittees remain the same as in effect for fiscal year 2008 with one exception (see H. Rept. 110-187, pages 190-191). In addition to these requirements, the Committees on Appropriations direct that all major reorganizations be submitted for review prior to their implementation.

**Workforce planning**

The Department of the Interior is a highly staff-intensive agency employing approximately 70,000 people. This staff is distributed throughout eight major bureaus and numerous other offices. Similarly, the Environmental Protection Agency, which employs over 17,000 staff, has 12 offices within headquarters, 10 regions and scores of laboratories and centers, while the Forest Service has over 30,000 employees in over 750 offices in 48 States and territories. The Committees on Appropriations are concerned that workforce plans for the Department of the Inte-

rior, the Environmental Protection Agency and the Forest Service are in many cases outdated and that no comprehensive review of appropriate staffing needs for the future has been undertaken. The Committees request that the Government Accountability Office conduct a review of existing workforce planning processes throughout these institutions and make recommendations for changes based on appropriate best-practices models used by other federal agencies. The Committees request this report be submitted no later than December 31, 2009.

DIVISION F—LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS, 2009

Following is an explanation of the effects of this division (hereafter referred to as the “bill”). Funds for the individual programs and activities within the accounts in this Act are displayed in the detailed table at the end of the explanatory statement for this Act. Funding levels that are not displayed in the detailed table are identified in this explanatory statement.

Section 516 sets forth the reprogramming requirements and limitations for the Departments and agencies funded through this Act, including the requirement to make a written request to the Committees on Appropriations of the House of Representatives and the Senate 15 days prior to reprogramming, or to the announcement of intent to reprogram, funds in excess of 10 percent, or \$500,000, whichever is less, between programs, projects and activities.

Departments and agencies funded in this bill shall submit statements on the effect of this Act to the Appropriations Committees within 45 days of enactment of this Act, pursuant to section 518. The Committees on Appropriations of the House of Representatives and the Senate expect that these statements will provide sufficient detail to show the allocation of funds among programs, projects and activities, particularly in accounts where the final appropriation is different

than that of the budget request. Further, these statements shall also include the effect of the appropriation on any new activities or major initiatives discussed in the budget justifications accompanying the fiscal year 2009 budget.

TITLE I—DEPARTMENT OF LABOR

EMPLOYMENT AND TRAINING ADMINISTRATION  
TRAINING AND EMPLOYMENT SERVICES

The bill includes \$3,626,448,000 for Training and Employment Services, which is \$50,180,000 above the fiscal year 2008 funding level and \$565,525,000 above the budget request.

The bill continues the funding for Community-Based Job Training grants within the Dislocated Worker Assistance National Reserve. Within the funds provided for the Community-Based Job Training Initiative (CBJTI), the Department of Labor (DOL) should provide priority consideration to worker training programs for the energy efficiency and renewable energy industries specified in the Green Jobs Act of 2007. A similar priority should be established in awarding competitive grants for high growth industries. Consultation with the Committees on Appropriations of the House of Representatives and the Senate prior to the issuance of CBJTI and high growth industry solicitations of grant applications is requested.

The amount provided for YouthBuild will allow for the selection of additional YouthBuild grantees. The Department is encouraged to incorporate a priority for use of

green building techniques in its competitive selection of additional YouthBuild programs. The Department also should explore ways to expand assistance to YouthBuild programs to enhance their ability to teach green building techniques, to prepare youth for employment in green construction while increasing the energy efficiency of local housing. The Department should provide recommendations to the Committees on Appropriations of the House of Representatives and the Senate on how this type of assistance could be expanded beyond the current DOL grantees.

The bill includes new language that will allow YouthBuild grantees to use grant awards for program year 2009, as well as remaining funds available in program year 2008, to serve individuals who have dropped out of high school and reenrolled in an alternative school, if that reenrollment is part of a sequential service strategy. This is the same integrated approach used when the program was administered by the Department of Housing and Urban Development.

Within the amount provided for Pilots, Demonstrations and Research, the bill designates \$5,000,000 for the continuation of the program of competitive grants to address the employment and training needs of young parents.

Within the amount provided for Pilots, Demonstrations and Research, the bill includes \$41,324,000 for the following projects in the following amounts:

Within the funds provided for Re-integration of Ex-Offenders, the bill designates \$88,500,000 for youthful offender activities. Within the amount provided for youthful offender activities, \$42,900,000 is available to continue a school mentoring initiative that began in program year 2006. These funds are intended to be used to implement mentoring strategies that integrate educational and employment interventions and prevent youth violence. Within this amount, \$7,900,000 shall be used to continue those mentoring grants made with program year 2008 funds, along with the technical assistance that supports these grantees. This amount represents a down payment for continuation costs of those grants made with 2008 funds. The balance of continuation costs associated with those 2008 grants will be provided in fiscal year 2010. Bill language requires \$35,000,000 under the school mentoring initiative to be used for additional grants, and associated technical assistance, to implement mentoring strategies in schools identified as persistently dangerous.

Also within the amount provided for youthful offender activities, \$45,600,000 is available for other activities to support the employment needs of youthful offenders so as to prevent them from re-entering the criminal justice system. Of this amount, \$20,000,000 is included for a program of new competitive awards for activities that prepare young ex-offenders and school dropouts for employment. This competition should address the needs of minority communities, and shall include opportunities for national and regional intermediaries with demonstrated capacity to serve young offenders to apply. Funds not used for this new competition are available for continuation funding for existing grantees.

#### COMMUNITY SERVICE EMPLOYMENT FOR OLDER AMERICANS

The bill includes \$571,925,000 for Community Service Employment for Older Americans, which is \$50,250,000 above the fiscal year 2008 funding level and \$221,925,000 above the budget request. New bill language will allow for these funds to be recaptured and reobligated in accordance with section 517(c) of the Older Americans Act.

#### FEDERAL UNEMPLOYMENT BENEFITS AND ALLOWANCES

The bill includes \$958,800,000 for Federal Unemployment Benefits and Allowances, which is \$70,100,000 above the fiscal year 2008 funding level and the same as the budget request.

#### STATE UNEMPLOYMENT INSURANCE AND EMPLOYMENT SERVICE OPERATIONS

The bill includes \$3,694,865,000 for State Unemployment Insurance and Employment Service Operations, which is \$277,545,000 above the fiscal year 2008 level and \$911,951,000 above the budget request.

Within the amount provided for grants to the States for the administration of Unemployment Insurance (UI), the bill includes a new provision, recommended in the budget request, requiring that \$10,000,000 in base UI funds be used for in-person reemployment and eligibility assessments and UI improper payment reviews. An additional \$40,000,000 is provided for this purpose. It is expected that a portion of the funds provided will be used for technology-based overpayment prevention, detection, and collection infrastructure investments in support of these activities. The bill also contains new language allowing the Secretary of Labor, at the request of a State participating in a consortium, to reallocate funds under Title III of the Social Se-

curity Act to other consortium members to carry out activities that benefit the unemployment compensation law of the requesting State.

Within the total for Employment Service National Activities, \$18,520,000 is provided for the administration of the Work Opportunity Tax Credit. Funds for Foreign Labor Certification activities are now consolidated and separately identified in this account. Previously, funds were provided in this account and in the Employment and Training Administration Program Administration account. Due to concern about the Department's new requirement for State Workforce Agencies to assume the responsibility for employment verification in the H-2A agricultural workers program, the Secretary is directed to provide a report to the Committees on Appropriations of the House of Representatives and the Senate within 90 days of the enactment of this Act on the costs to States and legal basis for imposing this responsibility on a mandatory basis.

Within the amount provided for One-Stop Career Center and Labor Market Information, the Department is directed to fund workforce information grants to States at not less than \$32,000,000. The Department may propose adjustments to this allocation through the transfer and reprogramming guidance provided by this Act, which include requirements for advance notification of the Committees on Appropriations of the House of Representatives and the Senate.

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
ILO—IPEC contribution .....	\$39,260,000	+\$3,000,000	+\$39,260,000
Basic Grants .....	20,000,000	-1,750,000	+20,000,000
Promotion of worker rights in countries with trade preference programs .....	6,500,000	+1,777,000	+6,500,000
Research, policy, reporting and administration .....	20,314,000	+1,972,000	+5,492,000

ILAB shall ensure that these funds are spent effectively in the effort to reduce the worst forms of child labor.

The bill also provides \$20,000,000 to continue the program of basic education grants in countries where the growing number of children removed from abusive and exploita-

tive child labor need access to basic education. The Department shall continue to work with the governments of host countries to eliminate school fees that create a barrier to education.

The bill also provides \$6,500,000 to continue support for the implementation of model programs designed to address worker rights in countries with which the United States has trade preference programs. Within this amount, \$2,500,000 is included to expand the existing cooperative agreement for the de-

velopment of an effective system of monitoring and transparent public reporting on the adherence to, and enforcement of, worker rights in the Republic of Haiti. These additional funds will allow the implementation of an effective monitoring program in factories, including the training of labor inspectors, and reflect the support for a multi-year funding commitment to improve the working conditions in Haiti's garment industry

and increase compliance with core international labor standards. Cost sharing from Haiti shall continue to support this effort.

Within the funds provided for research, policy, reporting and administration, sufficient funds are included to expand the competitively awarded contract for oversight of public and private initiatives to eliminate the worst forms of child labor in the cocoa sector in Cote d'Ivoire and Ghana. These funds are intended to support the assessment of the implementation of the child labor monitoring system by industry covering 100 percent of the cocoa growing areas in Cote d'Ivoire and Ghana and other objectives of the current contract where full assessment has not been possible due to the delay in the implementation of a transparent certification system. These funds will support continued annual reporting through 2010, which should include a programmatic review of industry and national government efforts to remediate the worst forms of child labor and adult forced labor in the cocoa supply chain. The review should also include recommendations for the frequency of data collection needed in the field to accurately report on the incidence of the worst forms of child labor and adult forced labor in order to measure the decline over time of these abusive labor practices.

Also within research, policy, reporting and administration, not more than \$1,500,000 shall be available for research activities authorized by the William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008, as proposed in the budget request.

Sufficient funding within research, policy, reporting and administration also is included for the effective oversight, monitoring, audit and evaluation of ILAB's project portfolio to ensure that taxpayer dollars are well spent in the effort to eliminate exploitive child labor, increase respect for and compliance with the fundamental rights of workers, and meet ILAB's other mandates and responsibilities. ILAB shall ensure that funding in this bill is spent effectively in carrying out its mission and achieving its performance goals and objectives.

#### *Minority unemployment*

The Secretary of Labor shall provide a report to the Committees on Appropriations of the House of Representatives and the Senate by July 1, 2009 detailing the actions that the Department will take under existing authorities to ensure that its programs and policies are oriented to reduce the disparities in unemployment rates across racial and ethnic groups.

The funds provided for Job Corps Operations are intended to support the operations of the 122 current Job Corps centers, as well as allow two new centers, in Florida and Wisconsin, to begin operations, as scheduled, in program year 2009. The Department also should work to reverse the erosion in training offerings that has occurred over the past two years. In restoring career training slots, priority should be given to matching training to labor market needs, including growth sectors, such as health care, and to prepare students for careers that respond to the growing demand for energy-efficient building techniques and other "green" jobs. Within the funds provided for Job Corps renovation and construction are sufficient funds to continue the development of three new Job Corps centers, with the intention that the timelines for accepting students at these new centers—New Hampshire in September 2010, Iowa in November 2010 and Wyoming in February 2011 will be met.

The bill includes language permitting up to one percent of the amount for each project to be used for related agency administrative expenses.

The bill includes language providing \$19,642,000 as a direct lump sum payment to the Denali Commission.

The bill includes \$26,000,000 for the Delta Health Initiative and associated administrative expenses.

The bill includes language identifying \$9,201,000 for State Offices of Rural Health. The bill includes language specifying that, within the funding provided for Rural Hospital Flexibility Grants, \$15,000,000 is available for the Small Rural Hospital Improvement Grant Program for quality improvement and adoption of health information technology.

The Health Resources and Services Administration (HRSA) is encouraged to begin an initiative to expand community health center primary care services to low-income persons with serious mental illnesses.

HRSA is expected to continue to approve community health centers' proposed scope of project changes when necessary to ensure access to needed specialty services or to meet the comprehensive needs of special populations who may require care in other types of health care settings.

The bill provides \$14,200,000 for Native Hawaiian Health Care Activities within the Community Health Centers Program. Sufficient funding has been provided to permit the continuation of master's degree and certificate programs for Native Hawaiian health care administrators.

HRSA is directed to implement any new expansion initiative using the existing, and statutorily required, proportionality for urban and rural communities, as well as migrant, homeless and public housing health centers.

HRSA is urged to confirm that the Federal Torts Claims Act covers clinicians employed or individually contracted by community health centers. HRSA is encouraged to work with the U.S. Department of Agriculture Rural Development Office to assist more community health centers in accessing these resources.

The bill includes \$75,000,000 for State Health Access Grants. Grants will be awarded competitively to States that demonstrate they have a program which will expand access to affordable health care coverage for the uninsured populations in that State. States will also be required to demonstrate that they have achieved the key State and local statutory or regulatory changes required to implement the new program within twelve months from the grant start date. States that have already developed a comprehensive health insurance access program would not be eligible to apply.

The types of activities that can be supported through this grant include: "three share" community coverage (employer, State or local government, and the individual); reinsurance plans that subsidize a certain share of carrier losses within a certain risk corridor; subsidized high risk insurance pools; health insurance premium assistance; creation of a state insurance "connector" authority to develop new, less expensive, portable benefit packages for small employers and part-time and seasonal workers; development of statewide or automated enrollment systems for public assistance programs; and innovative strategies to insure low-income childless adults.

Two types of State grants will be available: target grants (\$2,000,000-\$4,000,000 annually per State) for States that choose to target particular populations such as uninsured children, small business employees, or uninsured seniors; or comprehensive grants (\$7,000,000-\$10,000,000 annually per State) for States that are planning extensive coverage initiatives. Each grant will be awarded based on a five-year grant period, subject to the availability of funds, with funding distributed each year based on attaining benchmarks that would be designated in the grant award. States shall be required to demonstrate their seriousness of intent by matching twenty percent of the Federal grant through non-Federal resources, which could be a combination of State, local, and private dollars from insurers, providers, and other private organizations. Waiver of the matching requirement shall be possible if financial hardship is demonstrated. States shall also be required to demonstrate their ability to sustain the program without Federal funding after the end of the five-year grant period. HRSA should consider geographic diversity in the allocation of these awards.

HRSA shall brief the Committees on Appropriations of the House of Representatives and the Senate on the terms and conditions of its proposed request for application prior to its public release.

States shall be required to report to HRSA the impact and results of their demonstration project at the conclusion of the five-year grant period. HRSA is encouraged to convene grantees periodically throughout the period of their award to share information with each other about their program experiences and gain ideas for refinement of their programs. HRSA is directed to submit a comprehensive report to the Committees on Appropriations of the House of Representatives and Senate about the outcomes and lessons learned from each of the State demonstrations eighteen months after the five-year grant period ends.

HRSA should use National Health Service Corps recruitment funds only to support multi-year, rather than single year, commitments.

Of the funds provided for Allied Health Training Programs, \$10,000,000 is for grants to States authorized under section 340G of the Public Health Service Act to improve access to dental care; \$1,945,000 is allocated to the Chiropractic-Medical School Demonstration Grants; and \$1,945,000 is designated for the Psychology Training Program.

Within the funding provided for the Autism and Other Related Developmental Disorders, an increase of not less than \$2,000,000 is provided to expand the Leadership Education in Neurodevelopmental and Related Disabilities Program. In addition, an increase of not less than \$2,000,000 is provided for research on evidence-based practices for interventions for individuals with autism and other developmental disabilities, for development of guidelines for those interventions, and for information dissemination.

HRSA should support Traumatic Brain Injury Protection and Advocacy Services at no less than the fiscal year 2008 level.

The bill includes \$1,000,000 to establish the Congenital Disabilities Program, which will provide information and support services to families receiving a diagnosis for Down syndrome, spina bifida, dwarfism, or other prenatally or post-natally diagnosed conditions. Competitive grants may be made to States

and territories, localities, and non-governmental organizations with expertise in these conditions.

HRSA should allocate funds for the Minority AIDS Initiative within the Ryan White HIV Programs at least at the fiscal year 2008 level.

With the \$7,550,000 provided in the bill for the Telehealth Program, the Office of the Advancement of Telehealth is directed to facilitate cooperation among health licensing boards or various States to develop and implement policies that will reduce statutory and regulatory barriers to telehealth and telehomecare. Funding supports grants for resource centers, networks, pilots, and demonstrations.

HRSA's decision to shift resources from rural health grants that specialize in rapid response policy analysis to grants that sponsor more general research is concerning. As Congress discusses healthcare reform, it will be crucial to have an accurate analysis of how specific policy proposals impact the rural population. HRSA is urged to reconsider this decision.

Rural and Community Access to Emergency Devices funding should be divided equally between urban and rural communities.

The Department of Health and Human Services is instructed to distribute to the regional offices all of the funds available for Family Planning services no later than 60 days following enactment of this Act. Regional offices should retain the authority for the review, award and administration of Family Planning funds, in the same manner and timeframe as in fiscal year 2006. At least 90 percent of Family Planning funds should be used for clinical services authorized under section 1001 of the Public Health Service Act. The Office of Family Planning is expected to spend any remaining year-end funds in section 1001 activities.

In addition, \$331,251,000 is made available under section 241 of the Public Health Service (PHS) Act, which is \$5,578,000 more than the fiscal year 2008 funding level and \$48,592,000 more than the budget request.

With the level of funding provided in the bill for the Public Health Emergency Pre-

paredness Cooperative Agreements program, CDC is expected to issue a full year of grants

rather than reducing the grant cycle to nine

months and three weeks as proposed in the budget request.

The bill provides an increase of \$16,637,000 over the fiscal year 2008 funding level for the network of quarantine stations at ports of entry across the United States. This funding is provided to maintain the current capacity at the 20 existing domestic quarantine stations, to hire additional employees to begin to adequately staff and operate these stations, and provide centralized core support to the Quarantine and Migration Health System.

The Cities Readiness Initiative (CRI) provides resources to cities and metropolitan

areas around the country to better distribute countermeasures during public health emergencies. Concerns have been raised about CDC's revised formula for the allocation of CRI funds. Several grantees are potentially facing reductions of up to 48 percent. Significantly reducing grant awards in a single fiscal year could have a damaging impact on a jurisdiction's readiness to disburse medical countermeasures. In this transition to a new formula, CDC should move gradually in implementation and limit grant award reductions in 2009. Further, before any final decision is made on the allocation of fiscal year

2009 resources, CDC should review this formula again to address the concerns raised by grantees. Further, CDC shall submit a written report and provide a briefing to the Committees on Appropriations of the House of Representatives and the Senate justifying any changes to the CRI formula distribution used in fiscal year 2007 prior to issuing final guidance to grantees.

State plans shall be consistent with the Department of Health and Human Services national action plan for reducing such infections.

The bill also includes additional funding to provide States increased support for a wide range of public and preventive health activities. States are strongly encouraged to use these increased resources to invest in strategies to reduce HAIs through collaborations with public health departments and healthcare facilities and to begin to develop statewide plans.

Collins, Colorado; and the remaining funds shall be used to begin planning and construction of Buildings 107 and 108 on the Chamblee Campus in Atlanta, Georgia.

*Business Services and Support*

Neither these funds nor any other funds provided to CDC are to be enhanced through the mechanism of program assessments or tapping at any level, including at the coordinating center level.

NATIONAL INSTITUTES OF HEALTH

The bill includes \$30,317,024,000 for the 26 accounts that comprise the National Institutes of Health (NIH) total appropriation, which is \$937,500,000 above the fiscal year 2008 level and \$1,087,500,000 above the budget request. In addition, the bill continues the allocation to NIH of \$8,200,000 in program evaluation set-aside funding, consistent with the budget request. Appropriation levels for individual institutes and centers are described in the table at the end of this explanatory statement. Guidance for specific institutes and centers is provided below.

NATIONAL CANCER INSTITUTE

The bill provides up to \$8,000,000 for facilities repairs and improvements at the National Cancer Institute (NCI)-Frederick Federally Funded Research and Development Center in Frederick, Maryland.

The NCI is directed to name a Fellowship in Surgical Pathology the "Alan S. Rabson Award" to provide lasting recognition to the work of Alan S. Rabson, M.D., Deputy Director of NCI. As a pathologist, researcher, administrator, and clinical advisor, Dr. Rabson has demonstrated unequalled service in his 53 years at NIH. He is the author of more than 100 scientific journal articles and is credited with several discoveries in virology that paved the way for other important findings in this field. But, in particular, he has made his life passion helping cancer patients and their families come to grips with their cancer diagnosis and locating the medical treatment and provider that will help them most. He is joined in his dedication to NIH by his wife, Dr. Ruth Kirschstein, who served as the Acting Director of NIH and Director of several institutes. Naming a fellowship in honor of Dr. Rabson is a modest acknowledgement of how much the country is indebted to this unparalleled public servant.

AGENCY FOR HEALTHCARE RESEARCH AND QUALITY

HEALTHCARE RESEARCH AND QUALITY

The bill includes a program level of \$372,053,000 for the Agency for Healthcare Research and Quality (AHRQ), which is \$37,489,000 more than the fiscal year 2008 program level and \$46,389,000 more than the budget request. The bill makes these funds fully available through section 241 of the Public Health Service (PHS) Act.

The bill does not include funding for the Health Insurance Decision Tool.

The bill includes \$50,000,000 for comparative effectiveness research within the total for Research on Health Costs, Quality, and Outcomes. This amount is \$20,000,000 more than the fiscal year 2008 funding level and the budget request. The objective of the program is to research difference healthcare interventions to help consumers, healthcare providers, and others make informed choices among treatment options. This investment will improve healthcare quality.

The investigator-initiated research portfolio at AHRQ has languished even though many of the sentinel studies that have changed the face of health and health care in the U.S. are the result of researchers' ingenuity and creativity. To advance discovery and the free marketplace of ideas, the bill in-

cludes increased funding to expand investigator-initiated research within the total for Research on Health Costs, Quality, and Outcomes.

Within the total for Research on Health Costs, Quality, and Outcomes, the bill includes \$41,889,000 for Patient Safety Threats and Medical Errors. The bill includes increased funding to reduce healthcare-associated infections (HAIs) and expand the Methicillin-Resistant *Staphylococcus Aureus* (MRSA) program begun in fiscal year 2008.

The bill includes \$9,304,000 for the Comprehensive Unit Based Program (CUSP), a patient safety program to reduce central-line associated blood stream infections in intensive care units (ICUs). The CUSP is modeled after the Michigan Keystone Program, which was successfully used in more than 100 ICUs in Michigan and, within three months of implementation, helped reduce infection rates to zero in more than 50 percent of the participating hospitals. With fiscal year 2008 funding, the CUSP is being implemented by State-wide consortiums in 10 different States and includes members of State hospital associations, quality improvement organizations, and public health agencies. With the increased funding in fiscal year 2009, AHRQ will be able to increase the number of participating hospitals within each of the 10 States, as well as increase the number of participating States, to bring this important and successful initiative to additional communities and healthcare facilities. In addition, AHRQ is urged to initiate a similar approach to CUSP in addressing other HAIs, including urinary tract infections and surgical site infections, as well as expand its activities to include research on ways to reduce HAIs in other healthcare settings, including hospital locations outside the ICU, dialysis centers, nursing homes, and ambulatory care settings.

AHRQ received funding in fiscal year 2008 to identify and reduce the spread of MRSA and other HAIs. Due to concern about the prevalence of these preventable infections, the bill provides AHRQ with \$8,000,000 to continue its work in this area. Funding is included to increase AHRQ's investment in evidence-based research to help healthcare providers and others implement quality improvement strategies to reduce the incidence of MRSA and other HAIs. In this effort, AHRQ is encouraged to continue to develop partnerships with healthcare delivery networks to implement system-wide MRSA prevention programs.

As a result, this bill does not include funding for LIHEAP.

The bill includes \$633,442,000 for Refugee and Entrant Assistance programs, which is \$22,189,000 below the fiscal year 2008 level and \$5,398,000 above the budget request. With carryover funds, a total of \$685,493,000 will be available for these programs. In addition, the bill includes language providing for availability of funds through September 30, 2011 to reimburse the costs of services for all programs within the jurisdiction of the Office of Refugee Resettlement (ORR).

ORR is requested to provide adequate funding under Transitional and Medical Assistance to unaccompanied refugee minor programs for capacity development so that they have the necessary infrastructure to accommodate increasing numbers of unaccompanied and separated refugee children.

Within the funds provided for Social Services, the bill includes \$19,000,000 for continued support to communities with large concentrations of Cuban and Haitian entrants of varying ages whose cultural differences make assimilation especially difficult, justifying a more intense level and longer duration of Federal assistance.

The Administration on Children and Families (ACF) is requested to continue to adequately fund refugee school impact grants.

In conjunction with the Office of Management and Budget (OMB) and the Department of Homeland Security (DHS), the Department of Health and Human Services (HHS) is directed to submit a report to the House and Senate Committees on Appropriations (Committees) no later than March 1, 2009, recommending which agency is the most appropriate to fund the transportation of unaccompanied alien children (UAC) between DHS and HHS custody. This joint report shall focus on which agency can deliver these services in the most cost effective manner. In addition, starting no later than September 1, 2009, the ORR, in conjunction with Immigration and Customs Enforcement, should provide semi-annual briefings to the Committees on the implementation of the recommendations. For fiscal year 2009, the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009, provides sufficient resources to DHS to pay for this transportation function.

With regard to the UAC program, ORR is directed to respond to the DHS initial call for placement by identifying the ORR placement facility to DHS within six hours, on average, of receiving the DHS call. In addition, ORR shall continue to work with DHS to expedite the transfer and placement of these special needs children in the most appropriate facility as quickly as possible.

Within funds for the UAC program, \$5,050,000 is provided to continue the pro bono legal services initiative to ensure legal representation of all UAC. These funds should be used to train attorneys to detect abuse, mistreatment, labor exploitation, and trafficking of these children. In addition, a portion of these funds should be used to train attorneys in methods that will ensure the appearance of children at all immigration court hearings. ORR is expected to use part of these funds to assess the overall impact of the pro bono legal services initiative, including the number and proportion of UAC provided pro bono legal representation.

The bill includes \$9,050,000 more than the budget request for the UAC program to ensure that sufficient funds are available for UAC medical and transportation services.

In addition, ACF is requested to report to the Committees on fiscal year 2009 funding allocations to Migrant and Seasonal and Indian Head Start and provide a briefing to the Committees within 30 days of the release of the study on these targeted populations required under the Head Start Act.

Within the amount provided in the bill for Child Abuse Discretionary Activities, \$13,500,000 is provided to expand the home visitation initiative. These funds shall support continuing and new competitive grants to States to encourage investment of existing funding streams into evidence-based home visitation models that have been shown to improve the health, well-being, and self-sufficiency of low-income, first-time parents and their children. As in fiscal year 2008, ACF shall ensure that these funds support models that have been shown in well-designed, randomized controlled trials to produce sizeable, sustained effects on important child outcomes such as reductions in abuse and neglect. Funds shall support activities to assist a range of home visitation programs to replicate the techniques that have met these high evidentiary standards. In carrying out this initiative, ACF is instructed to adhere closely to evidence-based models of home visitation. ACF shall not incorporate any additional initiatives that have not met these high evidentiary standards or might otherwise dilute the emphasis on home visitation.

Within the amount for Projects of National Significance, the bill provides \$2,000,000 for the purposes of providing and promoting leadership training by and for families with children with disabilities, as described in section 202(b)(2) of the Families of Children with Disabilities Support Act of 2000. Such training shall be designed to increase access to and availability of family support services and must address policy development, implementation and evaluation of family support services for families with children with disabilities. To maximize the sustainability of the outcomes of the leadership training supported by these funds, the Secretary shall distribute these funds as competitive grants to one or more national non-profit organizations with demonstrated capacity at the State and local level to foster and provide direct services to families with children with disabilities.

The bill provides a \$1,000,000 increase over the fiscal year 2008 level for the University Centers for Excellence in Developmental Disabilities, which may be used to provide a cost-of-living adjustment to existing centers and to establish new grants to work through partnerships with minority-serving institutions. These new grants, if awarded, will focus research, training and services on minority populations with disabilities.

The bill provides a \$1,500,000 increase over the fiscal year 2008 level for activities authorized under section 803C(b)(7)(A)-(C) of the Native American Programs Act (as added by the Esther Martinez Native American Languages Preservation Act of 2006).

With regard to the Community Services Block Grant (CSBG), ACF is directed to allocate \$500,000 of CSBG training and technical assistance funds for a national community economic development training and capacity development initiative. Successful implementation of community development programs requires significant investment in high-quality board and staff training and proven technical assistance. This funding will enable community action agency leaders to attain the professional skills needed to undertake projects to enhance their communities' future security through financing and implementing innovative housing, economic and community development partnerships.

The bill includes language clarifying Congressional intent regarding disposition of intangible assets—including loans and investments—acquired under the community economic development authority of the CSBG Act. The bill continues the policy in place since 1999 that establishes a regulatory period of up to 12 years after the end of the grant period. During that period, as the grantee receives repayments or program income from these loans or investments, the grantee is permitted to recycle these funds into other similar projects. After that time, the intangible assets and program income become the property of the grantee provided they are used in a manner consistent with the intent of the authorizing statute. The bill clarifies that recycled and repaid loan or investment funds or program income may be used in any low-income community for any eligible purpose under the law and is not restricted to the original target area, financing, or type of project for which the grantee was originally funded. The language applies not only to new grantees but also to grantees for whom the post-grant period has reached a point at which the disposition of intangible assets must be made.

Funds provided in the bill for the Rural Community Facilities program shall be used solely for the purpose of improving water and wastewater facilities in poor, rural communities. As in the past, these funds should be allocated to regional rural community assistance programs.

The ACF Office of Community Services is expected to remedy during fiscal year 2009 a failure (1) to report on progress made in remedying oversight deficiencies identified by the Government Accountability Office and (2) to comply with a fiscal year 2005 Congressional directive to implement a training and technical assistance needs assessment and delivery plan in consultation with CSBG State and local eligible entities.

The bill provides funds for Abstinence Education as defined in section 510(b)(2) of the Social Security Act and includes language precluding grantees who receive abstinence education funding from discussing with adolescents any other education regarding sexual conduct in the same setting as abstinence education. It also requires that information provided through abstinence education grants shall be scientifically accurate and comply with section 317P(c)(2) of the Public Health Service Act.

Further, the bill provides that up to \$10,000,000 may be used to carry out a national abstinence education campaign and \$4,455,000 shall be available from section 241 Public Health Service Act evaluation funds to carry out evaluations of adolescent pregnancy prevention approaches. Finally, up to 5 percent of funds may be set aside for technical assistance and capacity-building, which shall be used to ensure that programs are using evidence-based curricula that comply with statutory requirements.

Within Program Administration, the bill includes \$1,500,000 for the National Commission on Children and Disasters. The funds included in this bill may be used for personnel, travel, and any other necessary expenses of the Commission. The Commission is expected to build on the evaluations of other entities and avoid unnecessary duplication, by reviewing the findings, conclusions, and recommendations of various commissions, Federal, State, and local governments, and nongovernmental entities as to the needs of children as they relate to preparation for, response to, and recovery from all hazards, including major disasters and emergencies. ACF is requested to submit a report to the House and Senate Committees on Appropriations on the progress of the Commission within one year of its initial meeting. While Departmental funds will support the operations of the Commission, the Commission is expected to operate independently in order to provide unbiased recommendations to the President and the Congress.

#### PROMOTING SAFE AND STABLE FAMILIES

The bill includes \$345,000,000 in mandatory funds for the Promoting Safe and Stable Families program, which is the same as the fiscal year 2008 level and the budget request. The bill includes \$63,311,000 in discretionary funds for this program, which is the same as the fiscal year 2008 level and the budget request.

#### PAYMENTS TO STATES FOR FOSTER CARE AND ADOPTION ASSISTANCE

The bill includes \$5,050,000,000 for Payments to States for Foster Care and Adoption Assistance, which is \$17,000,000 below

the fiscal year 2008 level and \$46,000,000 below the budget request. The amount provided varies from the President's request because of the enactment of the Fostering Connections to Success and Improving Adoptions Act of 2008 and reflects updated estimates provided by the Department.

#### ADMINISTRATION ON AGING

##### AGING SERVICES PROGRAMS

The bill includes \$1,491,343,000 for Aging Services Programs, which is \$77,908,000 above the fiscal year 2008 funding level and \$109,959,000 above the budget request.

##### Protection of Vulnerable Older Americans

Within the total of \$21,383,000 provided for the Protection of Vulnerable Older Americans, \$16,327,000 is for the Long-term Care Ombudsman Program and \$5,056,000 is for the Prevention of Elder Abuse, Neglect, and Exploitation Program.

##### Program Innovations

The bill includes \$18,172,000 for Program Innovations, which is \$3,517,000 more than the fiscal year 2008 funding level and \$14,746,000 less than the budget request. The Administration on Aging (AoA) is directed to include in the fiscal year 2010 and all future budget justifications a table of Program Innovations funding broken down by account, program, and activity, which includes actual funding or estimates for the previous, current, and future fiscal years.

Within the total for Program Innovations, funding is provided at no less than the fiscal year 2008 levels for national programs scheduled to be refunded in fiscal year 2009. Within these funds, the bill includes \$2,000,000 for the Senior Legal Hotlines/Helpines, which will provide an increase in the number of States in which these services are available for older Americans. The bill also includes \$1,000,000 to continue a 24-hour call center to provide Alzheimer's family caregivers with professional care consultation and crisis intervention.

In addition, within Program Innovations the bill includes \$5,000,000 for the Community Innovations for Aging in Place program, created by the Older Americans Act reauthorization in 2006. This funding will provide grants to community-based organizations to coordinate and deliver services to elderly residents living in naturally occurring retirement communities and other model aging in place initiatives. AoA is encouraged to ensure that these initiatives are coordinated with existing programming included in the Older Americans Act, including Aging and Disability Resource Centers, Nursing Home Diversion, and Evidence-Based Prevention activities.

AoA has worked to further civic engagement among older Americans, particularly through a Memorandum of Understanding with the Corporation for National and Community Service. AoA is urged to continue to advance the field of civic engagement, as authorized under section 417 of the Older Americans Act, by entering into additional partnerships with organizations that offer innovative and proven programs to enable older Americans to effectively meet critical social needs.

*Aging Network Support Activities*

The bill recommends \$41,694,000 for Aging Network Support Activities, which is \$10,105,000 more than the fiscal year 2008 funding level and \$28,561,000 more than the budget request. AoA is directed to include in the fiscal year 2010 and all future budget justifications a table of Aging Network Support Activities funding broken down by account, program, and activity, which includes actual funding or estimates for the previous, current, and future fiscal years. Within the funds provided, the bill includes \$1,719,000 for the Pension Counseling and Information Program, to increase training and technical support for the counseling projects and to maintain the number of regional counseling projects at six.

The bill also includes \$28,000,000 to continue national implementation of the Choices for Independence program. Funding is provided for this program in Aging Network Support Activities, as reflected in the reauthorized Older Americans Act, and is intended to build on national implementation activities already in place. In contrast, the Administration requested these funds within the Program Innovations account and limited this program to narrow trials in only a few States. The Choices for Independence program seeks to establish long-term care options for seniors so they can live independently in their own communities. The program will continue and expand existing AoA programs that focus on Nursing Home Diversion, Aging and Disability Resource Centers and Evidence-Based Disease Prevention activities. In implementing these activities, AoA is encouraged to continue its close partnership efforts with the Centers for Medicare and Medicaid Services, the National Insti-

tute on Aging, the Centers for Disease Control and Prevention, and other agencies.

AoA shall report to the Committees on Appropriations of the House of Representatives and the Senate by no later than March 1, 2009 on the establishment of national standards that will be used to evaluate the Choices for Independence Program, including the performance measures and indicators States must use to track and report on the outputs and outcomes they achieve. AoA should include in future Congressional budget submissions, the number of people served by these programs, funding breakdowns for each component of the program, and on the progress States are making in implementing these activities.

The bill does not provide funding for the National Center on Senior Benefits Outreach and Enrollment. Section 119 of P.L. 110-275, the Medicare Improvements for Patients and Providers Act of 2008 provided \$17,500,000 to the AoA for Medicare enrollment assistance, including \$5,000,000 specifically to inform seniors about benefits available under existing Federal and State programs. Bill language has been included to allow the AoA to administer these funds.

OFFICE OF THE SECRETARY  
GENERAL DEPARTMENTAL MANAGEMENT  
(INCLUDING TRANSFER OF FUNDS)

The bill includes \$395,776,000 for General Departmental Management, including \$5,851,000 from Medicare trust funds. This total is \$41,762,000 above the fiscal year 2008 level and \$15,912,000 above the budget request. In addition, \$46,756,000 in program evaluation funding is provided. The bill also provides that \$1,000,000 shall be transferred, not later than 30 days after enactment of this Act, to the National Institute of Mental

Health to administer the Interagency Autism Coordinating Committee (IACC), which will support the IACC's work authorized under the Combating Autism Act of 2006.

*Office of the Secretary*

The bill includes sufficient funds to continue the Area and National Poverty Centers at no less than the fiscal year 2008 level.

The Department of Health and Human Services (HHS) is expected to maintain support for the U.S.-Mexico Border Health Commission at the same level as in fiscal year 2008.

The HHS Secretary is directed to provide a detailed inventory of the Department's greenhouse gas emissions and a plan to reduce these emissions by December 31, 2009 to the Committees on Appropriations of the House of Representatives and the Senate.

According to the Centers for Disease Control and Prevention (CDC), healthcare-associated infections (HAIs) are one of the top ten leading causes of death in the United States, accounting for an estimated 99,000 associated deaths and \$20 billion in excess healthcare costs annually. HAIs are largely preventable. HHS is commended for its work in developing a national action plan with five year targets for reducing HAIs. The Department is directed to continue the HHS Steering Committee for the Prevention of HAIs, and associated workgroups, that it has established to coordinate prevention and implementation, research, information systems and technology, compliance and oversight, and public and provider outreach activities across the operating divisions of the Department.

To accelerate progress on preventing HAIs and to begin implementation of the national action plan, the bill includes nearly

\$22,000,000 in additional funding over the fiscal year 2008 funding level for HAI-related initiatives within the Department. These increases include \$5,000,000 within the Office of the Secretary, \$7,500,000 within CDC and \$9,304,000 within the Agency for Healthcare Research and Quality (AHRQ). The Office of the Secretary shall use the additional \$5,000,000 to develop and implement a national campaign to empower consumers to be active participants in preventing HAIs; perform a comprehensive inventory of HAI data and databases; enhance prevention, surveillance, and research activities; improve integration of data across HHS systems; expand measures in CMS' Hospital Compare and improve regulatory oversight of hospitals and the hospital accreditation program; provide management support to the HHS Steering Committee for the Prevention of HAIs; and conduct other priority activities related to reducing HAIs. A description of how the funds provided to CDC and AHRQ shall be used is included in the explanatory statement under those operating divisions.

To ensure that greater attention to this problem also occurs at the State level, the bill includes language within CDC requiring States to certify to the HHS Secretary that they will submit plans for reducing HAIs by January 1, 2010 to be eligible to receive a full allotment in this Act under the Preventive Health and Health Services Block Grant. The bill also directs HHS to conduct a review of these State plans and report to the Committees on Appropriations of the House of Representatives and the Senate not later than June 1, 2010 regarding the adequacy of such plans for achieving State and national goals for reducing HAIs.

It is noted that although 27 years have passed since HIV/AIDS was first identified in the U.S., there has never been a national plan to guide the coordination of prevention, care, and treatment programs. Further, the U.S. currently requires foreign countries receiving assistance to combat HIV/AIDS to develop and implement a single coordinated national AIDS strategy. HHS is encouraged to develop and implement a single national AIDS strategy to promote coordination among Federal agencies and State and local

governments, set clear goals and benchmarks, and provide a basis for ensuring accountability.

Approximately 36 States have prescription drug repository programs, also known as prescription drug redistribution programs. These programs, often volunteer-driven, may save the health care system millions of dollars every year by allowing unused, unopened medications to be re-dispensed to patients who meet certain need-based criteria. Due to the potential for substantial savings that these programs have shown, HHS is directed to conduct a study of State drug repository programs, with recommendations for how the Federal government can assist States in implementing and expanding these programs. This study also should include an estimate of potential cost savings and identify best practices, including ways to maintain patient safety. HHS shall submit this report to the House and Senate Committees on Appropriations no later than January 1, 2010.

Due to the growing demand for, and lack of well-trained, social workers to serve a variety of needs for individuals, families, and communities throughout the nation, HHS is directed to provide a report to the Committees on Appropriations of the House of Representatives and the Senate within one year of enactment of this Act. This report shall analyze current workforce trends and gaps in incentives, and provide recommendations for the recruitment and retention of professional social workers.

The bill includes \$1,000,000 for the Interagency Working Group on Youth Programs, chaired by HHS. These funds shall be used to solicit input from young people, State children's cabinet directors, and non-profit organizations on youth programs and policies; develop an overarching strategic plan for Federal youth policy; and prepare recommendations to improve the coordination, effectiveness, and efficiency of programs affecting youth.

The bill provides \$7,000,000 for a Health Diplomacy Initiative in the Department of Health and Human Services. This health initiative will focus on training health care workers and providing other services in, but

not limited to, Central and South America. This health diplomacy initiative will help control diseases such as HIV/AIDS, tuberculosis, and malaria by giving local residents the training they need to provide basic health care in Latin America and other underserved communities.

Trauma is the most important cause of morbidity and mortality among children and adolescents, accounting for nearly 16,000 deaths, 250,000 hospital admissions and 9 million emergency department visits annually. While the goal is to deliver optimal care to injured children so that they attain the best possible outcomes after serious trauma, many questions about what constitutes optimal care remain unanswered. This gives rise to the tremendous variations in care and settings we see today. The HHS Secretary is directed to conduct a national prospective study on the variation in trauma care for children and adolescents in order to understand how the organization and processes of treatment affect outcomes and submit a report to the Committees on Appropriations of the House of Representatives and the Senate within six months of enactment of this Act that outlines how the Secretary will conduct this study.

The Assistant Secretary of Planning and Evaluation (ASPE) shall review the fiscal year 2008 awards under the home visitation initiative administered by the Administration for Children and Families and shall assess, in consultation with the Office of Management and Budget and independent experts if necessary, whether these awards met the evidentiary standards for this initiative specified in the explanatory statement for the Consolidated Appropriations Act, 2008. In addition, ASPE shall review any request for proposals for fiscal year 2009 awards for adherence to the evidentiary standards in this explanatory statement. ASPE shall report its findings to the Committees on Appropriations of the House of Representatives and the Senate by September 30, 2009.

The bill includes \$2,854,000 for the following projects in the following amounts:

The bill includes \$1,000,000 for the OMH, in conjunction with the Surgeon General and the Office of Women's Health, to conduct a national health provider education program to improve lupus diagnosis and treatment and reduce health disparities. OMH is encouraged to involve a wide array of public health, community, academic, medical, and industry organizations, including those working to improve medical curricula. OMH shall provide a report by May 1, 2009 on lupus, associated health disparities, and impact of the disease on the population to the Committees on Appropriations of the House of Representatives and the Senate.

*Office of Women's Health (OWH)*

The bill includes \$1,500,000 to expand the OWH violence against women prevention initiative. The additional funds above the budget request shall be used to enhance health care providers' understanding of domestic and dating violence, and to develop a coordinated public health response regarding the domestic violence issues.

The bill includes \$1,000,000 to continue the national lupus education campaign, in conjunction with the OMH and the Surgeon General, directed toward the general public and health professionals who diagnose and treat people with lupus.

*Minority HIV/AIDS*

The Office of the Secretary is expected to support activities that are targeted to address the growing HIV/AIDS epidemic and its disproportionate impact upon communities of color, including African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians, and Pacific Islanders, at no less than last year's funding level.

*Embryo donation and adoption*

Increasing public awareness of embryo donation and adoption remains an important goal. The bill provides \$4,200,000 for HHS's embryo donation and adoption awareness activities. The costs associated with embryo adoption may be hindering people from participating in embryo adoption. The medical procedures involved can be expensive and are not always successful. To address those challenges, the bill includes language allowing funds appropriated for embryo donation and adoption activities to be available to pay medical and administrative costs deemed necessary to facilitate embryo donations and adoptions. It is intended that funds in the bill be used for embryo donation for family building and/or embryo adoption and that eligibility not be limited based on the terminology used to describe the transfer of the embryo.

*OFFICE OF MEDICARE HEARINGS AND APPEALS*

*OFFICE OF INSPECTOR GENERAL (OIG)*

The bill includes \$45,279,000 for the Office of Inspector General, which is \$2,048,000 above the fiscal year 2008 level and \$779,000 below the budget request. Bill language is included requiring that at least forty percent of the funds provided be used only for investigations, audits, and evaluations pertaining to the discretionary programs funded in the Labor-HHS-Education Appropriations Act. The OIG should submit a report to the Committees on Appropriations of the House of Representatives and the Senate by March 1, 2009 describing the OIG workplan development process, the assessment of relative Federal risk in the discretionary programs funded in the Labor-HHS-Education Appropriations Act, and the process used to rank for action program requests from various executive and legislative branch offices. The OIG is directed to continue its investigation of contracting procedures at the Centers for Disease Control and Prevention and the agency's use of contract employees and report to the Committees on Appropriations of the House of Representatives and the Senate by June 1, 2009.

*OFFICE FOR CIVIL RIGHTS*

The bill includes \$40,099,000 for the Office for Civil Rights, of which \$3,314,000 is made available from the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund. *RETIREMENT PAY AND MEDICAL BENEFITS FOR COMMISSIONED OFFICERS*

The bill includes \$434,694,000 for retirement pay and medical benefits for commissioned officers, which is \$37,516,000 above the fiscal year 2008 level and the same as the budget request.

*PUBLIC HEALTH AND SOCIAL SERVICES EMERGENCY FUND**(INCLUDING TRANSFER OF FUNDS)*

The bill includes \$1,397,795,000 for the Public Health and Social Services Emergency Fund (PHSSEF), which is \$668,536,000 more than the fiscal year 2008 funding level and \$903,036,000 less than the budget request.

In order to accelerate progress in the procurement of medical countermeasures through Project BioShield and for pandemic influenza preparedness, the bill includes language transferring \$412,000,000 from the Project BioShield advance appropriations provided in the Department of Homeland Security Appropriations Act, 2004. Of this amount, \$275,000,000 is to fund the Biomedical Advanced Research and Development Authority (BARDA) and \$137,000,000 is for pandemic influenza preparedness and response activities.

Currently, there are large carryover balances in Project BioShield; approximately \$3,575,000,000 remains available in fiscal year 2009 from funds provided in fiscal year 2004. A significant reason for this carryover is that there are insufficient chemical, biological, radiological, or nuclear countermeasures ready for acquisition by Project BioShield into the Strategic National Stockpile. The funds provided in this bill are included to spur the development of these countermeasures from early discovery phases through the advanced clinical trials necessary for FDA approval. Without a greater investment in advanced research and devel-

opment of these countermeasures, Project BioShield will not succeed.

The Secretary of Health and Human Services is directed to provide the Committees on Appropriations of the House of Representatives and the Senate monthly reports updating the status of actions taken and funds obligated in this and previous appropriations bills for the Pandemic Influenza Preparedness activities; the Biomedical Advanced Research and Development Authority; and Project BioShield. These reports should be provided by no later than 15 days after the end of each month.

In addition, the Secretary of Health and Human Services, together with the Director of the Centers for Disease Control and Prevention, is directed to provide a report to the Committees on Appropriations of the House of Representatives and the Senate within 180 days of enactment of this Act on the Department's current supply chain management strategies. This report shall include information on how supply chain management strategies can be improved in order to enhance both State and local preparedness in a complex, multi-tiered response.

In response to the increasing problems of alcohol and drug abuse on college campuses, the Department shall use \$850,000 within the amount provided for Safe and Drug-Free Schools and Communities National Programs to identify, and provide recognition of promising and model alcohol and drug abuse education programs in higher education.

For the Carol M. White Physical Education Program, the Department shall incorporate the Centers for Disease Control and Prevention's School Health Index into the program. Further, the Department shall require new grantees to implement the index within their physical education programs, if they have not already done so.

The bill includes increased funding for the School Emergency Preparedness Initiative to enable the Department to continue assisting colleges and universities in their efforts to prepare for, and respond to traumatic events and emergencies. Within the \$138,984,000 provided for Safe and Drug-Free National activities, \$35,991,000 is reserved for this initiative. Together with \$2,237,000 provided under the Substance Abuse and Mental Health Services Administration (SAMHSA), a total of \$38,228,000 will be available for this initiative.

The bill provides \$2,500,000 for the Sober Truth on Preventing Underage Drinking (STOP Act), which finances grants to colleges, States, and non-profit organizations to combat underage drinking in communities.

Effective civic education begins in the elementary school and continues through middle and high school. Within the \$33,459,000 provided for the Civic

Education program, the bill includes \$20,076,000 for the We the People programs, including \$2,957,000 to continue the comprehensive program to improve public knowledge, understanding, and support of American democratic institutions, which is a cooperative project among the Center for Civic Education, the Center on Congress at Indiana University, and the Trust for Representative Democracy at the National Conference of State Legislatures. DIVISION G—LEGISLATIVE BRANCH  
APPROPRIATIONS ACT, 2009  
TITLE I

**Diversity in Hiring and Advancement.**—While many Legislative Branch agencies have achieved reasonable diversity at the lower wage tiers, diversity levels are sharply lower among managers and executives. More can be done to maximize diversity in the workplace, especially in the executive ranks. All Legislative Branch agencies who have not done so are directed to adopt by May 31, 2009 a formal written policy, in accordance with all applicable Federal laws, to develop and institute an affirmative action plan with specific goals and objectives to further the ability of women, minorities, and individuals with disabilities to achieve balanced representation within the Legislative Branch workforce and management.

SENATE

The bill includes \$895,030,000 for Senate operations. This amount is \$63,334,000 above the current level and is \$45,867,000 below the budget request.

HOUSE OF REPRESENTATIVES

The bill includes \$1,301,267,000 for House operations. This amount is \$118,432,000 above the current level and is \$32,594,000 below the budget request.

**Electronic Access to Hearing Documents.**—To reduce costs and reduce the carbon footprint of the operations of the House of Representatives and expand public access to congressional information, committees of the House are encouraged to post their hearings online on the Government Printing Office web site, GPO Access. Online posting of hearings can help reduce the need for printing and storage of paper copies of hearing records and facilitate accessibility for congressional staff and the general public.

**Expanded Hours for the House Fitness Center.**—The physical and mental health of House staff is important. The Chief Administrative Officer of the House is asked to review the “extended hours” pilot program and if appropriate explore the possibilities of further extending the hours of operation of the fitness facility.

**Expanded Hours for the Child Care Center.**—Expanded hours of operation at the House Child Care Center need to be considered to accommodate employees who must work late hours. The Chief Administrative Officer of the House is asked to study the feasibility and costs associated with extending the hours of operation beyond the standard work day. This study should be completed and provided to the House Committee on Appropriations no later than June 30, 2009.

**Child Care Center Playground.**—The current playground at the House Child Care Center frequently overheats in the summer, uses space inefficiently, and lacks many child development tools that would benefit children at the Center. The Architect of the Capitol (AOC) and the Office of the Chief Administrative Officer (CAO) of the House should make the project a priority and develop a plan to ensure that the playground is ready by summer 2009. Accordingly, AOC and the CAO are asked to submit a report to the House Committee on Appropriations on the status of the playground within 30 days of enactment of this Act. The report should include a detailed work plan with specific dates of when the planning, design, and construction of the playground will be complete as well as the actions being taken to ensure that the playground is open by summer 2009.

**Congressional Technology Coordination.**—The House of Representatives needs a stra-

tegic and coordinated plan that will prepare for the future technology needs of the institution. A 2006 report commissioned by the Chief Administrative Officer and the Committee on House Administration, entitled Strategic Technology Road Map for the Ten Year Vision of Technology in the House of Representatives, provided a suggested structure for Information Technology evaluation and decision making. The Chief Administrative Officer, the Clerk, and the Sergeant at Arms are asked to prepare a report by June 30, 2009 on their efforts or plans to develop House-wide data-sharing standards; implement standard legislative document formats; address the increasing resource challenges of Member offices; and identify disparate systems throughout the institution that prevent it from taking advantage of economies of scale.

JOINT ITEMS

JOINT ECONOMIC COMMITTEE

The bill provides \$4,626,000 for the Joint Economic Committee. This amount is \$228,000 above the current level and is the same as the budget request.

JOINT COMMITTEE ON TAXATION

The bill provides \$10,719,000 for the Joint Committee on Taxation. This amount is \$1,522,000 above the current level and is \$420,000 below the budget request.

OFFICE OF THE ATTENDING PHYSICIAN

The bill provides \$3,105,000 for the Office of the Attending Physician. This amount is \$314,000 above the current level and is \$7,000 above the budget request. The amount above the budget request provides an allowance for a Senior Medical Officer.

OFFICE OF CONGRESSIONAL ACCESSIBILITY  
SERVICES

The bill provides \$800,000 for the Office of Congressional Accessibility Services. This is a successor office to the Special Services Office following enactment of the Capitol Visitor Center Act of 2008.

CAPITOL GUIDE SERVICE AND SPECIAL  
SERVICES OFFICE

The bill provides \$9,940,000 for the Capitol Guide Service. This amount is available for the Architect of the Capitol to use as part of the Capitol Visitor Center appropriation due to the transfer of the Capitol Guide Service to the Architect of the Capitol following enactment of the Capitol Visitor Center Act of 2008.

STATEMENTS OF APPROPRIATIONS

The bill provides \$30,000 for Statements of Appropriations. This amount is the same as the current level and is also the same as the budget request.

CAPITOL POLICE

Salaries

The bill provides \$248,000,000 for salaries and benefits of the Capitol Police. This amount is \$15,782,000 above the current level and is \$21,223,000 below the budget request. The Capitol Police are expected to proceed with filling vacancies on the basis of management-determined priorities, and to provide the Committees on Appropriations notification of such determinations on a regular basis.

This level of funding will support the current staffing level of 1702 sworn and 414 civilian FTEs. In addition, increases in FTEs have been provided which are associated with the Library of Congress Police Merger for fiscal year 2009: 73 sworn, 24 sworn attrition, and 4 civilian support staff. An additional 10 sworn FTE have been funded re-

lated to maintaining the operations in the Cannon and Russell tunnels with the opening of the Capitol Visitor Center. The total authorized FTEs for fiscal year 2009 are 1799 sworn and 418 civilian.

It is noted that there is confusion and inconsistency concerning whether Capitol Police staffing authorization and utilization are reported as positions or FTEs. It is expected that budget submissions and agency reports use FTEs consistent with the OMB definition.

General Expenses

The bill provides \$57,750,000 for general expenses of the Capitol Police. This amount is \$8,972,000 above the current level and is \$6,681,000 below the budget request. It includes \$2,750,000 for the Capitol Police to begin migrating accounting services to the Library of Congress as part of an effort to move towards financial management cross-servicing for as many Legislative Branch agencies as practicable in order to achieve cost savings through the elimination of duplicate systems.

**Vehicle Fleet.**—There is concern about the size of the Capitol Police’s overall vehicle fleet. The Capitol Police shall submit a vehicle analysis by April 30, 2009 justifying the overall size of its fleet, including motorcycles, and showing a detailed five year plan to manage the fleet. This plan should include an analysis of Home-To-Work vehicles, including justifications for this use, and an update on the Department’s effort to utilize more energy efficient vehicles. The Department shall refrain from purchasing, leasing or acquiring vehicles without notifying the Committees on Appropriations until the Committees have reviewed the detailed five year plan.

ADMINISTRATIVE PROVISION

(INCLUDING TRANSFER OF FUNDS)

Section 1001 authorizes transfers between the Salaries and General Expenses accounts upon the approval of the Committees on Appropriations.

OFFICE OF COMPLIANCE

SALARIES AND EXPENSES

The bill provides \$4,072,000 for salaries and expenses of the Office of Compliance. This amount is \$730,000 above the current level and is \$236,000 below the budget request. It provides for 21 FTEs.

The Office of Compliance (OOC) should operate in a consistent, well-documented manner when dealing with regulated agencies, balancing compliance assistance with enforcement responsibilities. However, the OOC has not established clear documentation of the processes and criteria for issuing findings or citations, or for accepting agencies’ proposed abatement plans. Furthermore, OOC has failed to establish a process for dispute resolution mechanisms for citations or technical disagreements. It is expected that the Office will act to establish documented procedures and continue to work to improve its communication with the regulated community. A report to the Committees on Appropriations is due within 60 days of enactment of this Act.

CONGRESSIONAL BUDGET OFFICE

SALARIES AND EXPENSES

The bill provides \$44,082,000 for salaries and expenses of the Congressional Budget Office. This amount is \$6,776,000 above the current level and is \$1,342,000 above the budget request. It will fund an additional 15 FTEs required for health care analysis and other congressional priorities as well as fund the Congressional Budget Office’s new responsibilities under the Emergency Economic Stabilization Act of 2008.

ARCHITECT OF THE CAPITOL

GENERAL ADMINISTRATION

The bill includes \$90,659,000, of which \$1,505,000 will remain available until September 30, 2013, for General Administration. This amount is \$10,962,000 above the current level and is \$8,452,000 below the budget request.

It is expected that the Architect of the Capitol will be part of the cross-servicing approach being developed within the Legislative Branch. The Architect of the Capitol is directed to suspend efforts to pursue an independent effort.

*Staff Tour Training.*—Concerns have been raised about the quality and consistency of the training program for staff-led tours, known as the Congressional Historical Interpretive Training Program (CHIP). It is expected that improvements will be made to ensure this program is meeting expectations to enhance staff-led tours. The Chief Executive Officer for Visitor Services is directed to present within 30 days of enactment of this Act proposals for improving the program, without an increase in budgetary resources.

*Hispanic and Asian American Exhibits.*—There is continuing concern about the lack

of representation of Hispanic and Asian American groups in the CVC, as well as African Americans, women, and Pacific Islanders. The Architect of the Capitol and the Chief Executive Officer for Visitor Services are directed to prepare a report within 90 days after enactment of this Act on the options and costs associated to remedy these omissions.

#### ADMINISTRATIVE PROVISIONS

Section 1101 provides for proceeds from certain recycling programs being applied to other environmentally friendly efforts. Section 1102 provides for the leasing of space for the Library of Congress by the Architect of the Capitol.

#### LIBRARY OF CONGRESS

##### SALARIES AND EXPENSES

The bill includes \$412,680,000 for salaries and expenses of the Library of Congress, plus \$6,350,000 in offsetting receipts. This amount is \$24,219,000 above the current level and is \$932,000 above the budget request. The bill includes specific amounts for designated purposes and provides \$7,511,000 in support of the National Digital Information and Infrastructure Preservation Program (NDIIPP).

The Inspectors General of the Legislative Branch participating in a financial system cross-servicing agreement with the Library's Office of the Chief Financial Officer are directed to select a single independent auditing firm to conduct the annual financial statement audits for the participating agencies. The Inspectors General of these agencies shall form a committee, chaired by the Library's Inspector General or their appointee, to facilitate the effort to select a common auditor.

*Asian American and Pacific Islander Collection.*—It is encouraging that the Library of Congress has committed to establish an Asian American and Pacific Islander (AAPI) Collection within the Asian Division. The goal of the AAPI collection would not only be to finally collect and catalogue the numerous materials already within the Library, but also to expand to a nationally coordinated effort to catalogue and build upon the resources from other collections. The AAPI Collection will be a valuable national resource to libraries, museums, archives, organizations and studies programs interested in the histories and cultures of the AAPI communities. Since the AAPI Collection is in its infancy, there are concerns about its future growth. The Library of Congress is directed to provide to the Committees on Appropriations of the House and Senate, no later than April 30, 2009, a detailed strategy for the development of the AAPI Collection, including expected timelines and funding proposals.

*Child Care Center.*—There is interest in ensuring access for low-income families to the Library's child care center. The Library of Congress is requested to work with the Library of Congress Child Care Association to review whether revenues and costs are aligned to provide for the lowest possible tuition operationally feasible. This review and a report should be provided to the Committees on Appropriations of the House and Senate by May 31, 2009.

*Franklin Collection.*—There continues to be support for the goal of bringing the Library's extensive 3,000 text collection of American books that were translated into Arabic, Persian, Pashtu, and Indonesian online in a digital format. To further the availability and use of this collection, the Library of Congress, Library Services is directed to devote the required resources to obtain copyright

permission and bring this collection online in a digital format.

*American Folklife Center.*—The work of the American Folklife Center (AFC) of the Library of Congress is to preserve and present the cultural legacy of the nation. Central to this mission is its role in safekeeping major collections such as the Alan Lomax Collection. No less precious are other private collections recently acquired by the AFC that, taking up where Lomax left off, document America's folk, tribal and ethnic musical traditions from the 1960s forward to the present. A half century from now, such collections will be considered as important, and be as cherished by a new generation of Americans, as the Lomax recordings are today. The AFC is currently working to complete the preservation and digital conversion of these newer collections, which are essential to providing the nation with a complete and unbroken record of America's cultural and musical heritage. These efforts will provide American citizens with access to major cornerstones of twentieth century American folk music documentation that collectively define the essence of America's cultural legacy to the world. Once the digital conversions are completed, the AFC will showcase these new collections and their accessibility to the nation through a series of activities including scholarly symposium focused on the new collections and on the history and legacy of the folk arts organizations that created them; musical performances by great folk artists documented in the collections; the creation of a traveling exhibit; and audio/video website enhancements to showcase portions of the new collections and publicize their arrival at the AFC. It is anticipated that the cost of this effort will be \$350,000.

#### COPYRIGHT OFFICE

##### SALARIES AND EXPENSES

The bill includes \$18,277,000, and an additional \$33,315,000 made available from receipts, for salaries and expenses of the Copyright Office. This amount is \$12,956,000 above the current level and is the same as the budget request.

*Pre-1972 Sound Recordings.*—The Register of Copyrights is directed to conduct a study on the desirability of and means for bringing sound recordings fixed before February 15, 1972, under federal jurisdiction. The study is to cover the effect of federal coverage on the preservation of such sound recordings, the effect on public access to those recordings, and the economic impact of federal coverage on rights holders. The study is also to examine the means for accomplishing such coverage. As part of this effort, the Register of Copyrights should publish notice of the study and provide a period during which interested persons may submit comments. The Register of Copyrights is to submit a report on the results of this study to the Committees on Appropriations of the House and Senate no later than two years after the enactment of this Act. The report should include any recommendations that the Register considers appropriate.

#### CONGRESSIONAL RESEARCH SERVICE

##### SALARIES AND EXPENSES

The bill includes \$107,323,000 for salaries and expenses of the Congressional Research Service within the Library of Congress. This is \$4,979,000 above the current level and is the same as the budget request.

*Public Access to Legislative Data.*—There is support for enhancing public access to legislative documents, bill status, summary information, and other legislative data

through more direct methods such as bulk data downloads and other means of no-charge digital access to legislative databases. The Library of Congress, Congressional Research Service, and Government Printing Office and the appropriate entities of the House of Representatives are directed to prepare a report on the feasibility of providing advanced search capabilities. This report is to be provided to the Committees on Appropriations of the House and Senate within 120 days of the release of Legislative Information System 2.0.

#### BOOKS FOR THE BLIND AND PHYSICALLY HANDICAPPED

##### SALARIES AND EXPENSES

The bill includes \$68,816,000 for the salaries and expenses of the National Library Service for the Blind and Physically Handicapped. This amount is \$1,893,000 above the current level and is the same as the budget request. It is noted that the contract award for Digital Talking Books came back at a significantly lower cost than anticipated while still allowing the project to move forward on its expected timeline and providing more players and titles than originally planned.

#### ADMINISTRATIVE PROVISIONS

Section 1201 provides for expenses related to official representation for the incentive awards program. Section 1202 provides obligation authority for various Library programs. Section 1203 provides authority to transfer funds between Library accounts. Section 1204 provides authority for members of the Abraham Lincoln Bicentennial Commission to serve through the life of the Commission.

#### GOVERNMENT PRINTING OFFICE

##### CONGRESSIONAL PRINTING AND BINDING

##### (INCLUDING TRANSFER OF FUNDS)

The bill includes \$96,828,000 for printing and binding of congressional documents at the Government Printing Office. This amount is \$7,053,000 above the current level and is \$1,100,000 below the budget request. It will provide the funding required to pay the FY 2007 and FY 2008 shortfall as well as fund the FY 2009 revised estimate for congressional printing.

#### OFFICE OF SUPERINTENDENT OF DOCUMENTS

##### SALARIES AND EXPENSES

##### (INCLUDING TRANSFER OF FUNDS)

The bill includes \$38,744,000 for the salaries and expenses of the Superintendent of Documents. This amount is \$3,831,000 above the current level and is \$4,682,000 below the budget request.

#### GOVERNMENT PRINTING OFFICE REVOLVING FUND

The bill provides \$4,995,000 for the Government Printing Office Revolving Fund. This is \$4,995,000 above the current level and is \$28,005,000 below the budget request.

#### GOVERNMENT ACCOUNTABILITY OFFICE

##### SALARIES AND EXPENSES

The bill includes \$531,000,000 in direct appropriations for the Government Accountability Office (GAO), plus \$7,635,000 in offsetting collections derived from reimbursements for conducting financial audits of government corporations and rental of space in the GAO building. This amount is \$31,252,000 above the current level and is \$7,152,000 below the budget request.

*Technology Assessment Studies.*—Funding continues to be provided for GAO to conduct technology assessment studies that provide early indications of the probable beneficial and adverse impacts of the application of

technology and develop other related information that may assist the Congress during deliberations on pending legislation. GAO is reminded that for the assessments to be of benefit to the Congress, GAO must reach out and work with both bodies of Congress regarding these studies.

*Comptroller General Annuity.*—The lifetime salary annuity provided to the Comptroller General after completion of a 15-year term is extravagant, particularly in the current economic climate. GAO is directed to contract with the National Academy of Public Administration for the latter to conduct an independent review of the structure and compensation of the position and determine whether the existing lifetime salary annuity is necessary to preserve the Comptroller General's independence. The review should include a comparison of the Comptroller General annuity to the retirement benefits offered for other federal positions of a similar character where independence is a key concern, and explain whether the Comptroller General's position truly requires a full-salary annuity benefit to preserve independence if other positions of a similar character do not. The results of this review are to be provided to the Committees on Appropriations no later than July 31, 2009.

ADMINISTRATIVE PROVISIONS

Section 1301 repeals a number of outmoded Congressional mandates for GAO audits.

OPEN WORLD LEADERSHIP CENTER TRUST FUND

The bill includes \$13,900,000 for payment to the Open World Leadership Center Trust Fund. This is \$4,922,000 above the current level and is the same as the budget request.

*Open World Funding.*—A large portion of the Open World program is devoted to judicial issues, issues of interest to the State Department, and issues related to the legislative process. The strain on Legislative Branch resources from continuing to fund this program is difficult to sustain. Since significant emphasis is being placed on judicial issues and on issues of interest to the State Department, a shared funding for this program would be appropriate. Therefore, the Open World Leadership Center Board of Trustees is directed to work with the Department of State and the Judiciary to assess the feasibility of shared funding for this program. The Board of Trustees is expected to pursue this avenue of potential shared funding and report back to the Committees on Appropriations of the House and Senate no later than May 30, 2009.

JOHN C. STENNIS CENTER FOR PUBLIC SERVICE TRAINING AND DEVELOPMENT

The bill includes \$430,000 for the John C. Stennis Center for Public Service Training and Development. This amount is \$1,000 more

than the current level and is the same as the budget request.

TITLE II—GENERAL PROVISIONS

The bill includes nine general provisions carried in prior fiscal years. Section 210 prohibits Inspectors General of the Library of Congress and the Architect of the Capitol from using appropriated funds to purchase, maintain, or carry firearms.

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the bill or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Neither the bill nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

DIVISION H  
DEPARTMENT OF STATE, FOREIGN OPERATIONS, AND RELATED PROGRAMS  
APPROPRIATIONS ACT, 2009

TITLE I

DEPARTMENT OF STATE AND RELATED AGENCY

DEPARTMENT OF STATE

ADMINISTRATION OF FOREIGN AFFAIRS

DIPLOMATIC AND CONSULAR PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$5,360,318,000 for Diplomatic and Consular Programs, which is \$819,231,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$3,951,000 below the request. Of these funds, \$4,243,318,000 is for ongoing operations, including public diplomacy activities, and \$1,117,000,000 is for Worldwide Security Protection. The bill separates the functions funded under this heading to provide more transparency. The Department of State may reprogram funds as required, subject to consultation with, and notification of, the Committees on Appropriations. The functions are allocated as follows:

*Human resources:* \$2,118,598,000 for all American salaries at overseas and domestic United States diplomatic missions.

*Overseas programs:* \$1,548,617,000 for the operational programs of regional bureaus of the Department of State, which are responsible for managing United States foreign policy through bilateral and multilateral relationships. Funds made available for fiscal year 2009 will support 267 United States embassies, consulates, and other diplomatic posts worldwide.

*Diplomatic policy and support:* \$585,078,000 for the operational programs of the functional bureaus of the Department of State to provide overall policy direction, coordination and program management among United States missions abroad.

*Security programs:* \$1,108,025,000 for the operation of security programs, including for Worldwide Security Protection (WSP) and the Bureau of Diplomatic Security, to protect diplomatic personnel, overseas diplomatic missions, residences, domestic facilities and information. In addition to WSP programs, \$134,927,000 is included within the Human Resources function, equal to the request, for salaries to make up the total amount in the bill for security protection worldwide.

In addition, the bill includes authority to collect \$8,110,150 from certain authorized fees and payments. The Department of State also projects that \$2,124,458,000 will become available in fiscal year 2009 from authorized fee revenues for the Border Security Program of the Department of State, including an increase of \$64,396,000 to continue to improve passport processing operations.

The bill includes authority for the Secretary of State to transfer up to \$10,000,000 of the funds available under this heading to funds available under the "Emergencies in the Diplomatic and Consular Service" heading for emergency evacuations and rewards payments, as authorized.

*Enhancing Diplomatic Staffing and Readiness*

Increasing the Department of State personnel capacity and capabilities is a priority in this bill. Diplomatic staffing increases resulting from the Diplomatic Readiness Initiative undertaken by the Department of State and the Committees on Appropriations between fiscal years 2002 through 2004 were depleted due to the Department's decision to move more positions to Iraq and Afghani-

stan. This has led to vacancies at many posts overseas and has inhibited necessary training of diplomatic personnel in critical languages. The bill provides funding to fill vacant positions, expand critical language training and place more diplomats in countries where there is a growing United States strategic interest. Within the funds made available in this Act, and in Public Law 110-252, the Secretary of State should have sufficient resources to hire the 500 positions proposed in the fiscal year 2009 request. In this process, the Secretary is urged to further reduce domestic positions to bolster areas critical to United States interests around the world, such as public diplomacy and consular services.

There has been a longstanding concern with the disparity in pay between rank and file Foreign Service Officers (FSOs) and senior FSOs, whose pay is tied to the locality paid in the District of Columbia. This disparity has damaged morale, caused attrition in the Foreign Service and made it difficult to attract new hires. The bill provides \$41,000,000, as requested, to eliminate this disparity by paying eligible members of the Foreign Service up to the amount of the locality-based comparability payment that would be payable as if their official duty station were in the District of Columbia. The relevant authorizing committees are urged to pass legislation expeditiously authorizing the use of these funds.

*Worldwide Security Protection*

The bill provides \$1,117,000,000 for Worldwide Security Protection.

*Security training.*—The fiscal year 2009 budget request included \$17,551,000 to develop a consolidated training center for the Bureau of Diplomatic Security to provide expanded hard and soft skills security training to foreign affairs community members serving in increasingly dangerous environments overseas. The Secretary of State shall consult with the Committees on Appropriations in advance of funds being made available for this purpose and shall provide the Committees with regular updates on the status of the project.

*Visa and passport security plan.*—The Department of State's ongoing work to both detect and disrupt terrorist travel continues to be supported in this bill and funds are included to support additional investigative agents and support staff personnel to enhance visa and passport security.

*Funding Directives*

*Cultural heritage.*—The Department of State is directed to provide \$6,500,000 to preserve cultural heritage through Department of State programs and activities, of which \$5,500,000 shall be for the Ambassador's Fund for Cultural Preservation including for at least two large projects of approximately \$500,000 each, and \$1,000,000 shall be for the Cultural Antiquities Task Force. The Department of State should consult with the Committees on Appropriations prior to the obligation of funds.

*Human rights monitoring.*—The Secretary of State is directed to increase the number of human rights officers assigned to Beijing, People's Republic of China, and submit a report to the Committees on Appropriations not later than 90 days after enactment of this Act on these efforts.

*Intelligence and research.*—The bill includes sufficient funding to support the fiscal year 2009 request for the Bureau of Intelligence and Research. In addition, section 7034(1) makes available \$5,000,000, from funds appropriated under the "Economic Support Fund"

heading to continue the Program for Research and Training on Eastern Europe and the Independent States of the Former Soviet Union (title VIII).

*Iraq diplomatic operations.*—The Department of State is strongly urged to regularize the planning and budgeting for diplomatic operations in Iraq, to include rightsizing of personnel, and the fiscal year 2010 budget request should include funding for ongoing functions.

*IT security and coordination.*—The Department of State is directed to provide sufficient funds for IT security programs, and, through a consultative process, to improve coordination of IT and cybersecurity programs with other United States Government agencies, particularly the United States Agency for International Development (USAID) and the Department of Defense.

*Monitoring of military training and equipment.*—While considerable effort is made by the Department of State to vet candidates for United States military training, effectiveness varies significantly among embassies and there have been gaps and weaknesses. In addition, little is done to track the uses of equipment, including weapons and ammunition, which is provided to foreign forces. The bill provides \$2,000,000 above the request to the Bureau of Democracy, Human Rights, and Labor for these purposes, which continues an initiative begun in fiscal year 2008. These funds are subject to prior consultation with the Committees on Appropriations.

*Public diplomacy.*—The bill includes a total of \$394,806,000 for public diplomacy, including \$264,169,000 for programs and \$130,637,000 for salaries under this heading, and an additional \$11,000,000 is available in fee revenue generated by the Border Security Program, equal to the request.

*Soft targets.*—The Department of State shall provide \$25,500,000 for security enhancements to soft targets such as overseas schools and residential compounds. Additional funds should be used in countries and regions impacted by political instability.

*Special representative and policy coordinator for Burma.*—The Department of State shall provide necessary administrative expenses, including salary and travel, for the Policy Coordinator for Burma, as authorized by section 7 of the Tom Lantos Block Burmese JADE (Junta's Anti-Democratic Efforts) Act of 2008 (Public Law 110-286).

*Tibet.*—The Secretary of State should ensure that the Department of State, the USAID, and the Broadcasting Board of Governors (BBG) allocate funds provided in this bill for Tibetan programs in a manner that reflects the commitment of the United States Government to the Tibetan people in the areas of democracy promotion, refugee assistance, scholarships, exchange programs, and radio broadcasts in Tibet.

The Department of State shall provide up to \$1,000,000 to establish a Tibet Section within the United States Embassy in Beijing, People's Republic of China for the purposes of following political, economic, and social developments inside Tibet, including Tibetan areas of Qinghai, Sichuan, Gansu, and Yunnan provinces, until such time as a United States Consulate in Tibet is established. This section shall have the primary responsibility for reporting on human rights issues in Tibet, shall work in close cooperation with the Office of the Special Coordinator for Tibetan Issues, and the Tibet Section Chief should be of senior rank. In addition, \$1,000,000 is recommended to support the Special Coordinator for Tibetan Issues.

Trafficking in persons.—Sufficient funding is provided to increase the number of personnel in the Office to Monitor and Combat Trafficking in Persons to respond to the growing worldwide problem of human trafficking.

*Other Issues and Directives*

**Adoption task force.**—The Governments of Vietnam and Guatemala have recently restricted adoptions of orphans by families in the United States until new regulations can be developed, and thousands of adoptions already in process are being required to undergo further investigation or have been halted altogether. The Department of State and the Department of Homeland Security are directed to establish a temporary task force similar to the one employed in Cambodia in 2001 to accommodate the increased workload and assist in the resolution of outstanding issues. The Secretary of State shall report to the Committees on Appropriations not later than June 1, 2009, on actions taken and overall progress in negotiating new bilateral agreements.

**Consular affairs reform.**—The bill includes a provision, section 7006, requiring that all Inspector General recommendations regarding the Department of State's Passport Information Electronic Records System are implemented. In addition, the Department of State should examine best practices to maintain a high standard of personal privacy for all information shared with other agencies.

**Consular services demonstration.**—The Department of State should report on the implementation of a demonstration program to expand access to consular services through the use of alternative interview techniques such as videoconferencing or mobile consular units as authorized by section 565 of Public Law 110-161.

**Disability coordinator.**—In order to ensure the integration of people with disabilities in policies, programs, activities, outreach and staff opportunities, the Department of State should establish a dedicated, full-time Disability Coordinator and consult with the Committees on Appropriations not later than 90 days after enactment of this Act on efforts to address this issue.

**Foreign Service Institute.**—The Director of the Foreign Service Institute is urged to develop a program that educates United States diplomats and foreign service officers on the major world religions and provides training in techniques of interfaith dialogue and conflict resolution.

**Interagency task force.**—The bill includes funds to continue the operation of a United States Government Interagency task force to continue the monitoring of the United Nations headquarters renovation project.

**Management.**—With the consolidation of oversight for Department of State operations and foreign assistance programs under the jurisdiction of one appropriations subcommittee, the lack of coordination within the Department between budget, policy and planning related to assistance programs and operations has come into focus. As additional resources are requested to expand diplomatic staff and training, the Department of State should seek to more effectively synchronize operational and foreign assistance funding and programs.

The Department of State's top priority must be to meet the personnel requirements of its traditional diplomacy functions. The Administration is encouraged to improve existing frameworks, procedures and regulations, including those at the National Security Council, which will bolster the Department of State and USAID's responsibility

and oversight of United States diplomacy and foreign assistance.

**Minority recruitment.**—The bill includes funds requested to continue the educational partnerships focused on recruiting and preparing students from various institutions with large minority populations for positions in the Foreign Service. These programs assist the ongoing efforts to increase minority hiring and diversity by facilitating the preparation of non-traditional and minority students for careers in the Foreign Service and the Department of State.

**Office of Defense Trade Controls Licensing.**—The Secretary of State should ensure that the Office of Defense Trade Controls Licensing has the necessary budgetary resources and staff to fulfill its responsibilities in a timely and effective manner.

**Saudi Arabia.**—The Secretary of State is directed to monitor the implementation of the Government of Saudi Arabia's policies relating to religious practice and tolerance, announced in July 2006, and make these issues a regular part of the United States-Saudi Arabia Strategic Dialogue. The Secretary of State is further directed to provide a report to the Committees on Appropriations not later than 120 days after enactment of this Act on the progress and issues raised through this dialogue.

**Science programs.**—The Department of State is encouraged to sustain support for the variety of science fellowship programs and to increase the science and technology capacity within the Department of State.

**Western Hemisphere Travel Initiative (WHTI).**—The Secretary of State is directed to continue to monitor implementation of the WHTI according to the statutory deadline of no earlier than June 1, 2009, and, as needed, to increase temporary staffing to quickly respond to increases in demand for passports or passport cards. The Department of Homeland Security and the Department of State are directed to provide quarterly briefings to the Committees on Appropriations on progress being made in meeting these requirements.

**CIVILIAN STABILIZATION INITIATIVE**

The bill provides \$45,000,000 under this heading for the Civilian Stabilization Initiative (CSI). In addition, \$30,000,000 is provided under title II, for a total of \$75,000,000 in this bill to stand-up, equip and deploy a coordinated civilian response capacity at the Department of State and USAID. These funds are in addition to \$65,000,000 provided in Public Law 110-252.

Funds made available for CSI in fiscal year 2009 are to be allocated only for the active and standby response corps and to support the operations of the Office of the Coordinator for Reconstruction and Stabilization. In total, \$140,000,000 is available for this initiative in fiscal year 2009, which is \$108,631,000 below the request.

Within the funds made available for CSI in fiscal year 2009, including supplemental funds, up to \$23,014,000 may support the administrative expenses for the Office of the Coordinator for Reconstruction and Stabilization.

The bill includes a proviso requiring the Secretary of State and the USAID Administrator to submit a coordinated joint spending plan and integrated implementation strategy for funds made available in fiscal years 2008 and 2009 for the CSI not later than 60 days after enactment of this Act.

The President may exercise existing transfer authority provided in the Foreign Assistance Act of 1961 and this Act only to support an actively deployed civilian response corps

and not for the regular operations of this initiative, after consulting with and notifying the Committees on Appropriations. The President should be judicious in the use of this authority.

The Department of State, in consultation with USAID, is directed to submit in writing to the Committees on Appropriations not later than 180 days after enactment of this Act, a clarification of the relationship between the CSI and: (1) existing international disaster response capabilities of the United States Government and funding sources (including under the "International Disaster Assistance" and "Transition Initiatives" headings), and (2) the Department of Defense disaster response capabilities, assets and authorities.

**CAPITAL INVESTMENT FUND**

The bill provides \$71,000,000 for the Capital Investment Fund, which is \$11,425,000 above the fiscal year 2008 level and the same as the request.

**OFFICE OF INSPECTOR GENERAL**

The bill provides \$37,000,000 for the Office of Inspector General, which is \$3,267,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$1,492,000 above the request. The bill includes a proviso, carried in prior years, that waives the statutory requirement that every post be inspected every five years, in order to provide flexibility to the Inspector General to direct the funds provided to the areas of highest need.

**EDUCATIONAL AND CULTURAL EXCHANGE PROGRAMS**

The bill provides \$538,000,000 for Educational and Cultural Exchange Programs, which is \$36,653,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$15,556,000 above the request. Continued

(Budget authority in thousands of dollars)

Program/activity	fiscal year 2009 request	Budget authority
Total—Educational and Cultural Exchange Programs .....	522,444	538,000

Every program for which funding is enumerated in the previous table is established pursuant to an act of Congress; is a program for which funding is authorized by an act of Congress; or is included in the budget request for fiscal year 2009.

Funding is included above the prior year level in the Fulbright Program, Gilman International Scholarship Program, English Language Programs, and Educational Advising and Student Services to expand opportunities for United States students to study abroad. Additional resources should be used to increase direct grants to students, replicate existing capacity in targeted regions at quality overseas educational institutions, especially in developing countries, and engage United States educational institutions to reduce barriers to study abroad.

Taking into account current programs that support these goals and proposed legislation, the Department of State should develop a coordinated strategy to expand exchange programs to reach a greater number of Americans and foreigners from non-traditional backgrounds, particularly low income and minority populations. This strategy should inform the Administration's planning and budgeting in the near and long-term to expand exchanges and to better focus on interrelated advantages of existing programs which will ultimately benefit United States public diplomacy goals.

The Department of State should continue support for several ongoing international exchange programs with Eurasia and Eastern Europe, and the Muskie Graduate Fellowship program. In addition, the Department of State is expected to continue funding for the Future Leaders Exchange programs; the American-Serbia and Montenegro Youth Leadership Exchange; the Junior Faculty Development Program; the Language, Technology, Math and Science Exchange; citizen exchange activities of Sister Cities International; cultural exchange programs in music and the arts; and increased exchanges with Africa and countries with significant Muslim populations.

*Latin America, Central America, and the Caribbean.*—Expanded exchange programs in the Western Hemisphere are supported, with an emphasis on indigenous and other minority populations, including an additional \$3,000,000 to continue exchange programs in Central America, to be allocated as follows: \$1,250,000 for English Access Microscholarships, \$1,250,000 to continue the Community College Program, \$250,000 for undergraduate Opportunity Grants, and \$250,000 for summer institutes at United States universities.

The Department of State is directed to continue the development of expanded cultural, educational, and professional exchanges with the Caribbean.

*Women and exchanges.*—The Department of State is urged to fund professional exchanges for women in areas relating to business development, trade, leadership, and private and public sector management to enhance the economic development of participants and their countries.

*Youth Exchange and Study Program.*—The bill provides \$23,000,000 to support the goals of this program and encourages its growth in

countries with significant Muslim populations, where the perception of the United States faces the greatest challenges. In commemoration of the fifth anniversary of the program and in recognition of the impact of the program in promoting dialogue, increasing understanding and enhancing cultural diplomacy between the United States and foreign countries, it is recommended that the program be named in honor of its originators, subject to prior consultation with the Committees on Appropriations.

*One-time International Exchange Grant Program.*—The bill provides \$6,000,000 for one-time competitive grants for international exchanges. Grants shall address issues of mutual interest to the United States and other countries, consistent with the program criteria established in Public Law 110-161. Programs shall support the actual exchange of people and should benefit a population that is not being addressed through existing authorized exchanges. The Department of State shall submit a report of those organizations that are eligible for a grant and, not later than September 1, 2009, submit a report to the Committees on Appropriations describing the grant recipients and intended use of funds.

Programs which received funding under this one-time grant program in fiscal year 2008, or which were listed in the explanatory statement but did not apply, are not listed for consideration in fiscal year 2009. Programs listed in the fiscal year 2008 explanatory statement that applied, but did not receive funding, also are not listed but should be considered eligible for the fiscal year 2009 program. The Department of State is encouraged to consider new proposals for one-time funding from previously funded grantees within discretionary funding if they meet appropriate guidelines. Exchange programs eligible for consideration for this competitive program shall include:

Concordia College, for intensive critical language and cultural immersion exchange programs.

Castleton State College, for international service-learning exchange programs.

KIDmocracy, for student exchange with Egypt on democracy and governance.

Hofstra University, for critical language exchange programs.

Korean American Empowerment Council, for exchanges with the Republic of Korea.

Marquette University, for exchanges between United States and Liberian officials.

New Mexico State University/Youth Works International, for bringing young leaders from developing countries to the Gila Wilderness for land management training.

Pasadena Sister Cities Committee, for student exchanges with China.

The American Foundation for Tibetan Cultural Preservation, for cultural exchanges.

Vermont Law School, for an exchange program with China to address environment, energy, and related governance issues.

REPRESENTATION ALLOWANCES

The bill provides \$8,175,000 for Representation Allowances, which is \$66,000 above the fiscal year 2008 level and the same as the request.

PROTECTION OF FOREIGN MISSIONS AND OFFICIALS

The bill provides \$22,814,000 for Protection of Foreign Missions and Officials, the same as the fiscal year 2008 level and \$4,814,000 above the request. The bill includes sufficient funds above the request to begin to reimburse eligible costs of providing security protection of diplomatic delegations to the

United Nations and other international organizations that were incurred in prior years, and up to \$2,400,000 is available to reimburse certifiable costs incurred by municipalities hosting extraordinary events.

The Department of State is directed to prepare and submit a report not later than 60 days after enactment of this Act and every six months thereafter on the amount of claims for extraordinary protective services that have been submitted by eligible jurisdictions and certified as meeting the program requirements and the amount of unobligated funds available to pay such claims.

EMBASSY SECURITY, CONSTRUCTION, AND MAINTENANCE

The bill provides \$1,706,569,000 for Embassy Security, Construction, and Maintenance, which is \$205,994,000 above the comparable level for fiscal year 2008, excluding emergency appropriations, and \$218,390,000 below the comparable request. Of the amount provided, \$801,344,000 is for operations, maintenance and construction, \$770,000,000 is for priority worldwide security upgrades, acquisition, and construction, and \$135,225,000 is for the overseas facilities construction program of USAID. The comparable level for fiscal year 2008 includes \$75,000,000 appropriated under the "Capital Investment Fund of the United States Agency for International Development" heading.

The bill provides funding for USAID's overseas facility construction program under this heading, rather than under USAID's "Capital Investment Fund" heading, as requested and as provided in fiscal year 2009. The Department of State and USAID are directed to work in concert to manage overseas facilities to more effectively and efficiently meet United States foreign affairs objectives. Coordination should include worldwide facilities assessments, planning, requests for funding, and implementation of facilities construction and maintenance activities.

The Secretary of State is directed to submit an annual plan on the joint requirements of the Department of State and USAID, including planned facilities upgrades and new construction for each fiscal year. The Secretary of State also is directed to report to the Committees on Appropriations, not later than 90 days after enactment of this Act, on a plan to address maintenance costs.

The Under Secretary for Management shall consult with the Committees on Appropriations on a regular and ongoing basis on the design of any proposed self-financed New Embassy Compound.

Section 7034(i) provides that \$2,000,000 from funds available under this heading shall be for the Capital Security Cost-Sharing contribution of the Library of Congress. The Government Accountability Office (GAO) is requested to examine the utility of overseas facilities for the Library of Congress and report to the Committees on Appropriations not later than August 1, 2009, including recommendations on the space needed and what efficiencies can be made while maintaining the Library's resource acquisition mission.

EMERGENCIES IN THE DIPLOMATIC AND CONSULAR SERVICE

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$9,000,000 for Emergencies in the Diplomatic and Consular Service, which is \$73,000 above the fiscal year 2008 level and \$10,000,000 below the request.

The bill provides the funds under the heading for emergency evacuations and for authorized rewards payments.

**BUYING POWER MAINTENANCE ACCOUNT**

The bill provides \$5,000,000 for the Buying Power Maintenance Account to manage exchange rate losses in the cost of Department of State operations overseas. The amount provided is \$5,000,000 above both the fiscal year 2008 level, excluding supplemental appropriations, and the request. The Secretary of State is urged to include a request for funding in this account in future budget requests.

**REPATRIATION LOANS PROGRAM ACCOUNT  
(INCLUDING TRANSFER OF FUNDS)**

The bill provides \$1,353,000 for the Repatriation Loans Program Account, which is \$78,000 above the fiscal year 2008 level and the same as the request. Of this amount, \$678,000 is for the Direct Loans Subsidy and \$675,000 is for administrative expenses.

The bill includes language allowing funds under the heading for administrative expenses to be transferred to, and merged with, "Diplomatic and Consular Programs".

**PAYMENT TO THE AMERICAN INSTITUTE IN  
TAIWAN**

The bill provides \$16,840,000 for Payment to the American Institute in Taiwan, which is \$621,000 above the fiscal year 2008 level and the same as the request.

**PAYMENT TO THE FOREIGN SERVICE  
RETIREMENT AND DISABILITY FUND**

The bill provides \$157,100,000 for Payment to the Foreign Service Retirement and Disability Fund, which is \$1,800,000 below the fiscal year 2008 level and the same as the comparable request.

**INTERNATIONAL ORGANIZATIONS  
CONTRIBUTIONS TO INTERNATIONAL  
ORGANIZATIONS**

The bill provides \$1,529,400,000 for Contributions to International Organizations, which is \$185,971,000 above the fiscal year 2008 level and the same as the request. This is in addition to \$75,000,000 provided in Public Law 110-252.

The Office of Management and Budget is directed to request sufficient funds to pay annual assessed dues and any accumulated arrears to international organizations, and the Department of State is encouraged to evaluate the benefit of United States membership on an annual basis.

The decision to incorporate the United Nations (UN) Procurement Task Force (PTF) into the Office of Internal Oversight Services (OIOS) must not result in a diminished commitment by the UN to continue effective fraud and corruption investigations. Over the past three years, the PTF has been effective by identifying more than 20 significant fraud and corruption schemes in cases with an aggregate contract value in excess of \$630,000,000. The results of the PTF (and the Oil for Food investigations and prosecutions) underscore the need for the UN to be vigilant in protecting the integrity of donor funds.

Eighty-five percent of UN procurement supports peacekeeping operations, and according to GAO, peacekeeping field procurement has not been effectively reformed and remains a high-risk area for fraud and abuse.

The UN should affirm its commitment to a strong oversight body, which is independent and resistant to retaliation by UN employees and their respective governments. The Department of State is directed to make procurement reform a top priority at the UN and to ensure that sufficient resources are made available for vigorous procurement oversight and investigation capabilities.

The Department of State is directed to report to the Committees on Appropriations not later than 120 days after enactment of this Act on the voting practices of UN member states for the current and past three years on matters regarding Iran, Israel, Sudan, and Zimbabwe, as well as on the reform efforts of the UN.

**CONTRIBUTIONS FOR INTERNATIONAL  
PEACEKEEPING ACTIVITIES**

The bill provides \$1,517,000,000 for Contributions for International Peacekeeping Activities, which is \$294,483,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$20,000,000 above the request. This amount is in addition to \$150,500,000 provided in Public Law 110-252. The bill includes language (section 7051), as requested by the President, to adjust the authorized level of United States assessments for peacekeeping activities for calendar year 2009 and prior years from 25 percent to 27.1 percent, consistent with the level set in fiscal year 2008 (Public Law 110-161).

<sup>1</sup> Budget requested funding as a separate account.

The bill includes sufficient funding, including funds provided in Public Law 110-252, and funds provided in Public Law 110-329, in fiscal year 2009 to maintain broadcasting in languages services at the fiscal year 2008 program levels which the BBG proposed to reduce or eliminate in the fiscal year 2009 request. It is recognized that international broadcasting conditions and costs are variable and that estimates for maintaining language services may escalate over the course of a fiscal year due to exchange rate losses or other circumstances. The BBG is directed to notify the Committees on Appropriations of any such modifications to language service levels recommended in the table above for fiscal year 2009.

Sufficient funds are available in fiscal year 2009 to continue VOA and RFA Tibetan

broadcasts at the fiscal year 2008 surge levels. Section 7071(c)(3) of the bill directs not less than \$8,000,000 for broadcasting into North Korea through RFA Korea Service and VOA Korea Service.

The BBG is encouraged to continue its ongoing efforts to improve audience reach by utilizing the most effective means of transmission. However, going silent in many critical languages and regions is not supported. In addition, there is concern with the dismantling of shortwave capacity. The BBG should re-examine the capabilities of shortwave radio and continue to deploy it where it is determined to be most effective, particularly to countries where there is limited or no access to independent media.

The BBG is encouraged to explore the potential of digital shortwave technology as a means of delivering high-quality transmissions at low cost to millions of listeners. The BBG also is encouraged to consider whether existing English language broadcast programming can be used by VOA, if authorized standards are met.

The bill includes a provision, section 7041, intended to strengthen transparency, integrity and accountability concerning the content of broadcasts to the Middle East. Programs supported under this heading are intended to reach countries where fair and unbiased local media is limited and therefore broadcasting a variety of views is required. The BBG should continue to pursue free and fair broadcasting, and in particular provide many points of view to maintain balanced reporting. The Board is directed, in conjunction with the MBN, VOA, and RFE/RL, to make public English transcripts on a case by case basis if requested by the Committees on Appropriations. Sufficient funds are included to continue the transparency directives begun in fiscal year 2008 regarding Alhurra.

The Department is also directed to include detailed information in tabular format which identifies specific changes in funding from the current year to the budget year for each office, including each office within the office of the Secretary.

*General Provisions.*—The Department is directed to justify each general provision proposed either in its relevant modal congressional justification or in the congressional justification for the office of the Secretary of Transportation.

*Operating Plan.*—The Department shall submit an operating plan for fiscal year 2009 to the Committees on Appropriations within 60 days of the bill’s enactment. The operating plan should include funding levels for the various offices, programs and initiatives detailed down to the object class or program element covered in the budget justifications.

*Prohibitions.*—The bill prohibits any funds from being used for the position of Assistant Secretary for Public Affairs. The request for two additional FTEs in the Office of Intelligence, Security, and Emergency Response is denied.

*Protection of Air Passengers.*—Within the amounts provided to the Office of the General Counsel, an additional \$2,500,000 is provided. The Office of the General Counsel is directed to use these funds exclusively for activities that most effectively improve the enforcement of rules and the protection of air travel consumers. *Budget Request.*—The Department shall also provide more detailed justifications for this program in its fiscal year 2010 budget request. These justifications should clearly display the amount requested for OST as well as the amount included in the budget request from each modal administration.

*Expenditure Plan.*—The Department is directed to provide the Committees on Appropriations with an expenditure plan 30 days after the enactment of this Act that outlines the amount of funding for this initiative, including the amount contributed by each modal administration, as well as the benefits that will result from these investments.

The bill also provides that the limitation does not apply to non-DOT entities, and that no funds appropriated in this act to an agency of the Department of Transportation shall be transferred to the Working Capital Fund without the approval of the agency modal administrator. The bill directs that no assessments may be levied against any program, budget activity, subactivity or project funded by this Act unless notice of such assessment and the basis are presented to and approved by the Committees on Appropriations.

*Budget Justification.*—For each modal administration’s fiscal year 2010 congressional budget justification, the Department is directed to account for increases or decreases in working capital fund billings based on planned usage requested or anticipated by the modes rather than anticipated by working capital managers. The Department is also directed to update the transparency paper included in the justification for fiscal year 2009 and include it in the budget justifications for fiscal year 2010.

MINORITY BUSINESS RESOURCE CENTER PROGRAM

The bill provides a total appropriation of \$912,000 for the minority business center program; \$353,000 of which is provided for the costs of guaranteed loans for short-term working capital and \$559,000 for administrative expenses. The bill limits loans made under this program to \$18,367,000.

In addition to these funds, the program will receive \$50,000,000 in mandatory spending pursuant to the Federal Aviation Authorization Act of 1996. It is anticipated that approximately \$10,000,000 still remains available pursuant to the Deficit Reduction Act of 2005, resulting in a total program budget for fiscal year 2009 of \$133,013,000. The bill allows the Secretary to consider the relative subsidy requirements of the carriers in determining between or among competing carriers. The bill also directs the Secretary to transfer to the essential air service program such sums as may be necessary to continue service to all eligible essential air service communities. If required, the Secretary shall transfer the funds from the Office of the Secretary.

The Administration’s proposal to restructure the essential air service program is rejected.

COMPENSATION FOR AIR CARRIERS (RESCISSION)

The bill rescinds remaining balances from unobligated funds from the compensation for air carriers.

ADMINISTRATIVE PROVISIONS—OFFICE OF THE SECRETARY OF TRANSPORTATION

Section 101 allows the Secretary to transfer unexpended sums available for the bonding assistance program from “Office of the

Secretary, salaries and expenses” to “minority business outreach”.

Section 102 prohibits the Office of the Secretary of Transportation from approving assessments or reimbursable agreements pertaining to funds appropriated to the modal administrations in this Act, unless such assessments or agreements have completed the normal reprogramming process for Congressional notification.

Section 103 prohibits the use of funds to implement an essential air service local cost share participation program.

Section 104 allows the Secretary to engage in activities with states or state legislatures to consider proposals related to the reduction of motorcycle fatalities.

FEDERAL AVIATION ADMINISTRATION  
OPERATIONS  
(AIRPORT AND AIRWAY TRUST FUND)

The bill includes \$9,042,467,000 for operations of the Federal Aviation Administra-

tion which is \$44,005,000 above the budget request and \$302,467,000 above the fiscal year 2008 enacted level. Of the total amount provided, \$5,238,005,000 is to be derived from the airport and airway trust fund. Funds are distributed in the bill by budget activity.

**Controller Staffing and Training.**—The bill requires FAA to transmit an annual update to the controller workforce plan by March 31, 2009, and reduces the appropriation by \$100,000 per day each day the report is late. The FAA is directed to include facility-by-facility data as well as a new benchmark for each facility for evaluating the proportion of certified controllers to controllers-in-training and developmental controllers. The agency is also expected to promptly implement strategies from the 2004 controller workforce plan and directs that the 2009 workforce plan include an update on the agency’s progress. Funding under this heading also includes \$15,000,000 for controller training activities including additional contract trainers; for expenses needed to retain experienced controllers and to attract controllers at needed locations; and to accelerate the hiring pace of new controllers. The FAA is directed to provide a report to the House and Senate Committees on Appropriations within 30 days of enactment that describes the agency’s use of the controller training funds.

**Contract tower program.**—The bill includes \$110,000,000 for the contract tower base program and \$9,000,000 for the contract tower cost-sharing program. In addition, the FAA is permitted to use unsubscribed funds from the contract tower base line program to avoid elimination of communities from the cost share towers program, but only after all base line tower obligations have been fulfilled.

**Technical staffing requirements.**—The FAA is directed to carefully monitor the size and capability of its technical workforce and to maintain agreed upon staffing levels. The FAA is directed to provide semi-annual updates to the House and Senate Committees on Appropriations as to the agency’s technical staffing levels.

**RNAV/RNP procedures.**—Within the amounts provided for the air traffic organization, \$39,200,000 is included for RNAV/RNP procedures. FAA is directed to include a dedicated section for the FAA’s performance based navigation program in future budget submissions and to provide semi-annual reports to the House and Senate Committees on Appropriations on the number of procedures developed, average cost and steps taken to streamline the procedure approval process.

**TRACON security staffing.**—The FAA is directed to evaluate the security staffing needs at the TRACON in Seattle, Washington and then allocate the appropriate level of staff to address any shortfall.

**Aviation safety (AVS).**—The bill provides \$1,164,597,000 for aviation safety, which is an increase of \$33,670,000 over the budget request and \$82,995,000 over the fiscal year 2008 enacted level. This amount includes \$16,900,000 to annualize safety personnel in AFS and AIR that are currently on-board. The bill includes no less than \$10,000,000 to increase aviation safety staff of which \$8,000,000 is directed for additional flight standards inspectors and \$2,000,000 is directed for aircraft certification inspectors and related staff.

The Secretary is directed to continue to provide an annual report on aviation safety employment data which delineates inspector losses and gains from the beginning of fiscal year 2009 until March 31, 2009. The report is due to the House and Senate Appropriations Committees by April 10, 2009. In addition, the FAA is expected to include the fully annualized cost of the additional inspectors in the fiscal year 2010 budget. If the FAA chooses not to fund these inspectors, the agency is directed to display changes to the

aviation safety base program and how many inspector positions would be affected.

Additionally, the FAA is directed to establish a working group, including safety inspectors, to develop a benchmark to measure how much time inspectors spend in the field and to include that benchmark in the next inspector workforce plan. FAA is directed to provide semi-annual reports to the House and Senate Appropriations Committees on all overdue safety attribute inspections and element performance inspections including a target completion date.

**Air transportation oversight system (ATOS).**—The Department of Transportation Office of Inspector General (OIG) is directed to submit a report to the House and Senate Committees on Appropriations within six months of enactment which verifies the ATOS field data that is sent to FAA headquarters; describes the agency’s analysis of that data; and, evaluates the effectiveness of FAA’s use of the data.

**Inspector staffing model.**—The FAA is directed to notify the House and Senate Committees on Appropriations if the agency is 30 days delinquent on any of the milestones related to the safety inspector staffing model.

**Medallion program.**—Within the funds provided for aviation safety, \$2,375,000 is included to continue the Medallion program, a cooperative program to improve rural air safety in Alaska.

**Professional aerial application support system.**—The recommendation includes \$47,500 for the National Agricultural Aviation Research and Education Foundation’s Professional Aerial Application Support System. This program is designed to assist with agricultural pilot safety, operational security and the safe and accurate delivery of crop protection products.

*Commercial space transportation.*—The FAA is directed to provide semi-annual updates to the House and Senate Committees on Appropriations on commercial airspace test flight activities.

*Workforce diversity plans for controllers and safety staff.*—The FAA is directed to provide a further update to the workforce diversity plan required in fiscal year 2008 in order to measure the progress and specific efforts that the agency has made to eliminate barriers for underrepresented populations in the

FAA’s controller and safety workforce. The submittal date for the plan is April 1, 2009.

FACILITIES AND EQUIPMENT

The bill includes \$2,742,095,000 for FAA facilities and equipment which is \$18,585,000 above the budget request and \$228,484,000 above the fiscal year 2008 enacted level. Of the total amount available, \$460,500,000 is available until September 30, 2009, and \$2,281,595,000 is available until September 30, 2010. The bill includes language directing

FAA to transmit a detailed five-year capital investment plan to Congress with its fiscal year 2010 budget submission. Additionally, the bill requires FAA to conduct an analysis of the current air traffic control system compared to the planned NextGen system and to transmit with the fiscal year 2010 budget a list of capabilities to be achieved by 2017 and their estimated costs.

The bill includes a liquidating cash appropriation of \$3,600,000,000; an obligation limitation of \$3,514,500,000; a limitation on administrative expenses of not more than \$87,454,000; no less than \$15,000,000 for the airport cooperative research program; and no less than \$19,348,000 for airport technology research.

**Small community air service development pilot program.**—The bill includes \$8,000,000 under the obligation limitation to continue the small community air service development pilot (SCASDP) program and directs the FAA to transfer funds to OST salaries and expenses appropriation. The Secretary is prohibited from transferring the administration of the SCASDP program to the FAA.

**High priority projects.**—Of the funds covered by the obligation limitation in this bill, FAA is directed to provide not less than the following funding levels, out of available resources, for the following projects. State apportionment funds may be construed as discretionary funds for the purposes of implementing this provision. To the maximum extent possible, the Administrator should work to ensure that airport sponsors for these projects first use available entitlement funds to finance the projects. However, the FAA should not require sponsors to apply carry-over entitlements to discretionary projects funded in the coming year, but only those entitlements applicable to the fiscal year 2009 obligation limitation. The FAA is further directed that the specific funding allocated below shall not diminish or prejudice the application of a specific airport or geographic region to receive other AIP discretionary grants or multiyear letters of intent.

Section 112 allows the FAA to be reimbursed for amounts made available for 49 U.S.C. 41742(a)(1) as fees are collected and credited under 49 U.S.C. 45303.

Section 114 prohibits funds from being used to change weight restrictions or prior permission rules at Teterboro Airport in New Jersey.

Section 115 prohibits funds from being used to promulgate regulations that allow the Secretary of Transportation to auction air slots, impose congestion pricing at an airport, exact an air slot from a carrier, charge a fee for the right to use a specified portion of airspace, or establish policies that would encourage an airport to undertake such actions.

Section 116 prohibits funds limited in this Act for the Airport Improvement Program to be provided to an airport that refuses a request from the Secretary of Transportation to use public space at the airport for the purpose of conducting outreach on air passenger rights.

Section 117 requires the FAA Administrator to respond to the Committees on Appropriations and Commerce, Science and Transportation in writing within 60 days of the publication of any Government Accountability Office report on airspace redesign over the New York, New Jersey and Philadelphia region on the actions the agency intends to take in order to address any concerns or recommendations contained in the GAO report.

FEDERAL MOTOR CARRIER SAFETY  
ADMINISTRATION  
MOTOR CARRIER SAFETY OPERATIONS AND  
PROGRAMS  
(LIQUIDATION OF CONTRACT AUTHORIZATION)  
(LIMITATION ON OBLIGATIONS)  
(HIGHWAY TRUST FUND)  
(INCLUDING RESCISSION)

The bill includes a liquidation of contract authorization and a limitation on obligations of \$234,000,000 for the operating expenses of and motor carrier safety research by the Federal Motor Carrier Safety Administration (FMCSA). Of this limitation, \$8,500,000 is to remain available for obligation until September 30, 2011. The bill rescinds \$4,839,259 in unobligated balances from motor carrier safety operations. The bill provides funding in the following manner:

Program	Funding
Operating expenses .....	\$177,500,000
Research and technology .....	8,500,000
Information management .....	34,445,000
Regulatory development .....	9,680,000
Outreach and education .....	2,875,000
Commercial motor vehicle operators grants .....	1,000,000

The bill prohibits any funds relating to outreach and education from being transferred to another agency. Of the funds provided for information management, at least \$12,849,000 is directed solely for the COMPASS initiative. Funds provided for regulatory development shall only be used for the development of regulations, standards, and guidance.

**High risk carriers.**—FMCSA is directed to spend an additional \$500,000 to increase the number of compliance reviews on high risk carriers. The agency should achieve this increase by reducing other low priority expenses within its operations budget outside of the areas of inspection and enforcement. The bill directs FMCSA to provide semi-annual reports to Congress on the agency's progress in meeting the high risk carrier requirements contained in SAFETEA-LU. The reports are due March 30, 2009, and September 30, 2009.

**Americans with Disabilities Act compliance.**—In July 2008, the Over-the-Road Bus Transportation Accessibility Act of 2007 was signed into law. This law makes clear FMCSA's responsibility to enforce ADA reg-

ulations related to motorcoach accessibility. Under this law, FMCSA must deny or revoke operating authority to any over-the-road bus operator violating DOT's ADA requirements. FMCSA is directed to include information in its fiscal year 2010 budget submissions on how it has used this authority, providing detailed information on the number of enforcement actions and operation authority revocations or denials that have resulted from this law.

**Reports.**—In past years FMCSA has submitted reports to the Committees on Appropriations woefully past the report's deadline. To underscore the importance of these reports, if the pattern of lateness continues in fiscal year 2009 the Committees will consider including language reducing the amount of the agency's appropriation by \$100,000 for each day any report is late. Any reduction levied will be taken from the Office of the Administrator.

FMCSA is directed to submit a letter report to the Committees on Appropriations by April 1, 2009, providing a detailed timeline for the implementation of a national database of positive and refusal-to-test drug and alcohol test results.

**Research and technology funding report.**—FMCSA is directed to submit a report to the Committees on Appropriations by May 1, 2009, that outlines how all of its research and technology funding will be utilized. It is expected that the FMCSA research and technology program will focus on bringing low cost, effective safety technologies to commercial motor vehicle carriers, such as braking and lane departure warning systems.

**Spend plan.**—FMCSA is directed to submit a spend plan to the Committees on Appropriations which details the timeline, cost, and capability of CSA 2010 through full deployment within 90 days of enactment of this act.

**COMPASS funding.**—FMCSA is directed to submit a report to the Committees on Appropriations by April 15, 2009, that describes in detail how COMPASS funding will be utilized in fiscal year 2009 and what functions this funding will provide to the agency and its users.

ADMINISTRATIVE PROVISIONS—FEDERAL MOTOR  
CARRIER SAFETY ADMINISTRATION

Section 135 subjects funds appropriated in this Act to the terms and conditions of section 350 of Public Law 107-87 and section 6901 of Public Law 110-28, including that the Secretary submit a report on Mexico-domiciled motor carriers.

Section 136 prevents the Department from using any funds to establish, implement, continue, promote, or in any way permit a cross-border demonstration program with Mexico.

NATIONAL HIGHWAY TRAFFIC SAFETY  
ADMINISTRATION  
OPERATIONS AND RESEARCH

The bill provides \$127,000,000 from the general fund for highway and traffic safety activities, an increase of \$428,000 over the fiscal year 2008 level. Of this amount, a total of \$31,670,000 shall remain available until September 30, 2010.

The bill includes a provision carried since fiscal year 1996 that prohibits NHTSA from obligating or expending funds to plan, finalize, or implement any rulemakings that would add requirements pertaining to tire grading standards that are not related to safety performance.

OPERATIONS AND RESEARCH  
(LIQUIDATION OF CONTRACT AUTHORIZATION)  
(LIMITATION ON OBLIGATIONS)  
(HIGHWAY TRUST FUND)

The bill provides an appropriation for liquidating cash of contract authorization of \$105,500,000 from the highway trust fund for payment of obligations incurred in carrying out the provisions of the highway safety research and development program as authorized by section 403 of title 23, United States Code, and specifies that the funds are available until expended.

The bill limits obligations from the highway trust fund to \$105,500,000 for authorized activities associated with the highway safety research and development program, as proposed by the budget request. Of this limitation, a total of \$26,908,000 shall remain available until September 30, 2010, and shall be in addition to any limitation imposed on obligations in future fiscal years.

The following table summarizes the total funding level provided in the bill for operations and research (general fund and highway trust fund combined) by budget activity. The funds provided from the highway trust fund are to be used consistent with the budget request.

Salaries and benefits .....	\$69,353,000
Travel .....	1,018,000
Operating expenses .....	24,897,000
Contract programs: .....	
Safety performance (rulemaking) .....	16,968,000
Safety assurance (enforcement) .....	18,077,000
Highway safety programs .....	43,609,000
Research and analysis .....	58,578,000
<b>Total .....</b>	<b>\$232,500,000</b>

ADMINISTRATIVE EXPENSES

The bill provides \$95,268,000 for NHTSA's salaries and benefits, travel, and other operating expenses, as requested in the budget.

This funding level is sufficient to fund 635 full-time equivalent staff years.

**SAFETY PERFORMANCE (RULEMAKING)**

The bill provides \$16,968,000 for the agency's safety performance standards (rule-making) programs, an increase of \$300,000 over the budget request and \$4,200,000 over the fiscal year 2008 level.

*Fuel Economy.*—In order to ensure that NHTSA has sufficient funding to meet the critical deadlines set by Congress in the Energy Independence and Security Act (EISA), the bill provides \$4,180,000 for the agency's fuel economy program, which is \$2,300,000 more than the fiscal year 2008 enacted level and \$300,000 more than the President's request. This funding is to be used to implement the requirements of the EISA Act, including the evaluation of fuel economy standards for trucks as well as labeling fuel economy information.

*New car assessment program (NCAP).*—Within the funds provided, the bill includes \$10,393,000 for NCAP, as requested, which will allow NHTSA to continue to test the same number of vehicle models while incorporating additional tests and technologies into the program.

**SAFETY ASSURANCE (ENFORCEMENT)**
