

Under the inspired leadership of Elizabeth A. Duffy, the first woman to be selected as Head Master, The Lawrenceville School has been faithful to its traditions as it prepares its young men and young women for leadership and service in a changing world. I ask all my colleagues to join me in congratulating this American treasure, The Lawrenceville School, which on October 8, 2010 will be celebrating its 200th birthday.

IN HONOR AND REMEMBRANCE OF
DR. ROBERT MULLER

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 29, 2010

Mr. KUCINICH. Madam Speaker, I rise today in honor and remembrance of Dr. Robert Muller, a lifelong champion for peace who served humanity tirelessly throughout his life.

Born in Belgium in 1923, Dr. Muller was raised in the Alsace-Lorraine region of France where he experienced unrelenting political and cultural turmoil. During World War II he was a member of the French Resistance and was imprisoned by the Germans during the Nazi occupation. In 1948, he won an essay contest with his entry about how to govern the world. The prize was an internship at the newly created United Nations.

The internship set him on a life path that led to 38 years of work behind the scenes at the United Nations where he rose to the official position of Assistant-Secretary General, serving three Secretaries General.

In 1986, Rodrigo Carazo, the President of Costa Rica, proposed that Dr. Muller become the chancellor of the U.N. University of Peace in Costa Rica of which he was the co-founder.

His deeply spiritual understanding of our planet and the life that graces it led him to create a "World Core Curriculum" which is taught at 34 Robert Muller Schools around the world. The Curriculum earned him the UNESCO Peace Education Prize in 1989 and the honorary title of "father of global education." He also received the Albert Schweitzer International Prize for the Humanities and the Eleanor Roosevelt Man of Vision Award.

He was a prolific writer, having published fourteen books in various languages, including "2000 Ideas and Dreams for a Better World", in which he proposed concrete, visionary ideas designed to create a peaceful and harmonious planet.

Madam Speaker and colleagues, please join me in honor and remembrance of Dr. Robert Muller, who will be deeply missed. I offer my heartfelt condolences to his entire family and to his many friends. Dr. Muller's life is one to celebrate, as he lived it with a generous heart, a true joy for living and unwavering love for his family, friends, colleagues and our beautiful planet.

A TRIBUTE IN HONOR OF THE
LIFE OF DAVID DRUKER, M.D.

HON. ANNA G. ESHOO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 29, 2010

Ms. ESHOO. Madam Speaker, I rise today to honor the life of an extraordinary physician and a distinguished constituent of California's 14th Congressional District, Dr. David Druker. After 35 years as a healer and leader in the medical community, Dr. Druker passed away on July 23, 2010, following a three-year struggle with lung cancer.

Dr. Druker was trained as a clinical dermatologist, but his interest in people was anything but skin-deep. First as a practitioner and professor, then later as an executive, he always sought to engage those around him, to collaborate with and learn from his colleagues and friends. In this way, he nurtured ties between the medical profession and the broader Peninsula community, becoming a pillar of the Palo Alto Medical Foundation and the catalyst for an expanding and increasingly effective community health network.

With all of Dr. Druker's gifts as a doctor and director, it's hard to imagine him in any other profession. But he did not initially intend to enter medicine. Raised in Marshalltown, Iowa, Dr. Druker received his Bachelors Degree in Economics from Harvard University and was accepted by the University of Michigan Law School before changing his mind and entering the University of Iowa Medical School, under the condition that he make up his pre-med requirements first. Dr. Druker's precipitous career change brought him an avalanche of science coursework and ultimately brought Palo Alto residents an exceptional doctor. With his penchant for quiet understatement, Dr. Druker recalled his first year of medical school as "a fun year."

He married his wife Karen in 1966 and served two years in the U.S. Army before finishing his residency at the University of Oregon in 1975. After a year of private practice in Portland, Dr. Druker moved to Palo Alto to join what was then the Palo Alto Medical Clinic. While seeing 30 dermatology patients a day and teaching at the Stanford University School of Medicine, Dr. Druker rose to hold a number of leadership positions in the clinic and in regional and national organizations. He became Executive Director and then Chief Operating Officer of what had become, under his leadership, the Palo Alto Medical Foundation (PAMF), before being named President and Chief Executive Officer of PAMF in 1999.

Guided by Dr. Druker's vision of high-quality outpatient care and his "multi-specialty group practice" healthcare model, PAMF vastly expanded its range and its roster. The Foundation grew from 120 to nearly 1,000 physicians and now serves locations throughout the Bay Area, including Sunnyvale, Fremont, Los Altos, San Carlos, and Burlingame. Dr. Druker played a leading role in cementing the alliance between PAMF and Sutter Health in 1993, further integrating and enhancing community health services. The Palo Alto Medical Foundation remembered Dr. Druker as man who had "a particular passion for children and edu-

cation, and fostered long standing partnerships with schools." Along with his commitment to the health of youth, Dr. Druker promoted the idea of a "Center for Innovation" at PAMF to generate new and better approaches to clinical care.

Dr. Druker made countless contributions to the wider medical community as well. He chaired the American Medical Group Association and the California Medical Group Association, and served on the Board of the Unified Medical Group Association. He was a Trustee of the California Medical Association, a Fellow of the American Academy of Dermatology, and belonged to the Santa Clara County Medical Society, the California Medical Association, and the American Medical Association, among other affiliations. In addition to these responsibilities, Dr. Druker found time to author papers and textbooks on dermatology and medical administration, all the while devoting himself to his wife, his children, and his grandchildren.

Dr. Druker's impressive accomplishments have immeasurably enriched our community, but perhaps his most lasting legacy lies in the devoted care of his patients. One patient remembered him as "a great guy and a fantastic doctor," a physician whose gentleness left the patient "with this lasting fondness after all these years." Another simply and powerfully noted that back in the early 1980's, "he saved my boyfriend's life."

Madam Speaker, I ask my colleagues to join me in extending our deepest condolences to Dr. Druker's wife, Karen; his children, Daniel and Ellie; his five grandchildren; and his two sisters, Hannah and Leah. Dr. Druker's intellect and passion led him to become the human foundation of the Palo Alto Medical Foundation and the Peninsula's physician and friend. Whether diagnosing a patient or directing new and exciting health advances, Dr. David Druker's warm heart and healing hands will be missed by all who were touched by his dedication and humanity.

HONORING GEORGE WILFORD
ARNOLD

HON. ED WHITFIELD

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 29, 2010

Mr. WHITFIELD. Madam Speaker, I rise today to honor George Wilford Arnold for his lifelong contributions within his community. I wish to recognize his accomplishments by recalling some of his many achievements as an outstanding public servant.

Mr. Arnold began his public service in the U.S. Army Air Corps during World War II, and this service to his country and community continued throughout his life. Following his military service Mr. Arnold served on multiple boards as well as civic organizations that worked to improve the quality of life in the surrounding region. After many years of service he became a self-taught visionary seeking to improve the supply and the quality of water for his city, county, and region. This dedication to improving the people's quality of life led him to serve as chairman of the Logan/Todd Regional Water Commission from 1997 to 2003
