#### EARLY CANCER DETECTION MONTH

Mr. REID. I ask unanimous consent that the Health, Education, Labor, and Pensions Committee be discharged from further consideration of H. Con. Res. 158 and the Senate proceed to the consideration of that matter.

The PRESIDING OFFICER. Without objection, it is so ordered.

The legislative clerk read as follows:

A concurrent resolution (H. Con. Res. 158) expressing support for the designation of an Early Detection Month for breast cancer and all forms of cancer.

There being no objection, the Senate proceeded to consider the concurrent resolution.

Mrs. HAGAN. Mr. President, I rise in support of Senate passage of H. Con. Res. 158, the House companion to a resolution I introduced last August to highlight greater awareness of breast and other cancers by designating an early cancer detection month. This House resolution is sponsored by my good friend and colleague from North Carolina, Congressman BOB ETHERIDGE.

Almost every person has been touched by cancer, either personally or through a family member or friend who has suffered from some form of the disease. Sadly, every year, more than 2 million new cases of cancer are diagnosed in the United States.

The most common forms of cancer diagnosed in Americans are skin cancer, breast cancer in women, prostate cancer in men, lung cancer, and colorectal cancers. And it is estimated that in 2009, over half a million Americans died from all types of cancer.

Last year, in North Carolina, there were an estimated 42,270 new cases of cancer and more than 18,000 deaths due to cancer. Of those lost, 1,300 deaths were from breast cancer in women and 860 deaths from prostate cancer.

Current cancer treatments include surgery, radiation, chemotherapy, hormone therapy, biological therapy, and targeted therapy; however, there is no cure. Many oncologists and breast cancer researchers believe that a cure for breast cancer will not be discovered until well into the future.

However, we cannot sit idly by while we wait for a cure. Instead, we must continue to support organizations, health care providers, and even our friends who work so hard to raise awareness about cancer, particularly cancer prevention and early detection. Fortunately, many forms of cancer can be prevented altogether, such as skin cancer and lung cancer. In addition, at least half of all new cancer cases can be prevented or detected earlier by screening, and if detected early enough, more than 75 percent of all people could be saved when cancer is most treatable.

For breast cancer, early detection has been proven to reduce mortality. This is encouraging, due to the fact that 1 in 8 women in the United States will develop breast cancer in her lifetime.

In 2008 alone, the overall cost of cancer in the United States was estimated at \$228.1 billion. Greater awareness and early detection of all cancers will not only save tens of thousands of lives, but also greatly reduce the financial strain on the government and private health care services by detecting cancer before it requires very expensive treatment.

Cancer has taken an enormous toll on our society's health and economy. But this disease, in all its forms, is often detectable at early stages. By designating a month to focus on early detection for breast cancer and all other forms of cancer, we will address some of the principle challenges that inhibit screening and prolong detection. Enhanced awareness and screening are the keys to reducing morbidity and mortality from cancer and reducing the financial and emotional stress that this disease places on Americans.

I want to thank Senator RICHARD DURBIN for joining me in cosponsoring the Senate resolution. I also would like to thank Representative ETHERIDGE for sponsoring the House companion, which passed on January 21. I am extremely pleased that both Chambers have been supportive of this issue and that the Senate is adopting this concurrent resolution today.

Mr. REID. I ask unanimous consent that the concurrent resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid on the table, that there be no intervening action or debate, and any statements relating to this matter be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.
