STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. INHOFE:

S. 1833. A bill to amend the Internal Revenue Code of 1986 to eliminate the taxable income limit on percentage depletion for oil and natural gas produced from marginal properties; to the Committee on Finance.

Mr. INHOFE. Mr. President, I would like to announce the reintroduction of a bill to amend the Internal Revenue Code to eliminate the taxable income limit on percentage depletion for oil and natural gas produced from marginal properties.

Since 1926 small producers and millions of royalty owners have had the option to utilize percentage depletion to both simplify their accounting methodology and to account for the decline in the value of minerals produced from a property. Percentage depletion is particularly important to America's 700,000 low-volume marginal wells. The average marginal well produces barely 2 barrels per day, yet cumulatively they account for nearly 28 percent of domestic production in the lower 48 states. Since every on-shore natural gas and oil well eventually declines into marginal production, the economic life span and corresponding production of all wells is extended by allowing the use of percentage depletion.

Until 1998, the deduction marginal producers could take from percentage depletion was limited to 100 percent of taxable income from each individual property. Many producers, however, specialize in marginally producing wells and have many properties operating simultaneously. Naturally, some

wells in a producer's portfolio are more productive than others. Some would have depletion rates greater than 100 percent of taxable income, while others would have depletion rates lower than the limit. Removing the taxable income limitation allows producers to take percentage depletion deductions on a portfolio-wide basis, which makes their entire operation more economical.

Since 1998, Congress has understood this fact and has suspended the limitation. Unfortunately, the provision has never been made permanent. It has just been extended year after year as part of the Tax Extenders Package. Since we have had this suspension on the books for more than a decade, I think it is time to give producers the predictability they need by making this common sense tax accounting provision permanent.

At a time when our unemployment rate remains over 7 percent, we need to be doing everything we can to encourage economic growth. The energy industry is a major contributor to our economy, and it has a lot of room to grow. The Congressional Research Service released a report that says the United States has the most energy potential under its soil than any other country on earth. Hiding beneath our soil are jobs, wealth, and lower deficits. We should allow this sector to grow. This is a common sense, easy way to do this, so I urge swift passage.

By Mr. INHOFE:

S. 1834. A bill to amend the Internal Revenue Code of 1986 to permanently extend the depreciation rules for property used predominantly within an Indian reservation; to the Committee on Finance.

Mr. INHOFE. Mr. President, I would like to bring to your attention a bill I am reintroducing that would make permanent the current tax provision that allows capital assets on Indian lands to be depreciated on an accelerated schedule.

For many years, the Federal tax code has provided an incentive for businesses to invest in operations on Indian reservations and lands across the country. According to the law, businesses that purchase capital equipment and use it on Indian lands will be able to depreciate it, on average, more than 40 percent faster than would otherwise be allowed.

This tax provision is important to Oklahoma because of our longstanding history and unique relationship with Indian tribes. With our sluggish economy, we need to do all we can to encourage businesses to reinvest in and expand their operations, as this will create sustainable job growth.

The accelerated depreciation schedule gives businesses the opportunity to recover investment dollars in capital assets more rapidly. This frees money
