REVISION IN COMMITTEE BUDGET AUTHORIZATION PROCESS

Since 1989, the Rules Committee has adopted a biennial funding authorization for committees of the Senate. Unique circumstances arising from the need to deal with Y2K computer matters before the close of 1999 affected the committee budget process. The Senate transitioned to a new Financial Management System (FMIS), which was designed to conform to the Federal Government's fiscal year which runs from October 1 through September 30. Consequently, modification to the committee funding process (in which budget years began on March 1) were necessary to reflect the Federal fiscal year for accounting purposes.

In order to make the transition as seamless as possible, the Senate agreed to S. Res. 38 on February 12, 1999, which authorized the Rules Committee to report a continuing resolution authorizing Senate committee expenditures for the period March 1, 1999, through September 30, 1999. The Rules Committee then reported and the Senate passed S. Res. 49 which continued to fund committees at the 1998 levels with a COLA adjustment for that seven-month period.

On June 14, 1999, the Senate agreed to S. Res. 122 which: (1) required committees of the Senate to report a funding resolution no later than July 15, 1999, and (2) authorized the Rules Committee to report an omnibus funding resolution for the two remaining applicable fiscal years. On Sept. 29, 1999 the Senate agreed to S. Res. 189 which authorized expenditures by committees of the Senate for the period October 1, 1999 through September 30, 2000 (12 months); and, Oct. 1, 2000 through Feb. 28, 2001 (5 months).
