COMMITTEE VIEWS

Background

In 1965, Congress passed the Elementary and Secondary Education Act (ESEA) with the limited goal of providing states and local school districts additional resources to ensure disadvantaged students have access to a quality education. The importance of ensuring students have the skills necessary to graduate high school and enroll in postsecondary education is clear. A well-educated workforce is directly tied to the nation’s ability to create jobs and maintain our competitive edge in a global economy.

In the more than four decades since passage of ESEA, federal control of education has steadily increased and spending has exploded. Today, the United States spends more than \$10,000 per pupil per year, nearly triple what was spent in 1965.¹ Despite this record investment in public education by federal, state, and local governments, national academic performance has not improved. Math and reading scores have largely remained flat, graduation rates have stagnated, and researchers have found serious shortcomings with many federal education programs.

The last 30 years have seen particularly dramatic increases in federal spending. U.S. Department of Education K–12 funding increased from less than \$7 billion in 1980 to almost \$38 billion in 2008. The last three years have seen another spike in federal spending. With the passage of the American Recovery and Reinvestment Act (ARRA), the Department’s K–12 budget ballooned to almost \$119 billion in 2009, nearly tripling in one year. As the following chart shows, federal support for elementary and secondary education represents 10.8 percent of all education spending in the United States in 2010–2011. This represents a significant growth from 2008, when the federal share of education spending stood at 7.8 percent.²

The United States is a world leader in education spending. The United States spends more public and private money on education than all but three other developed countries in the world. Using 2007 data from the Organization for Economic Cooperation and Development (OECD), the National Center on Education Statistics reported this year that the United States spent 7.6 percent of GDP on education, second only to Iceland's 7.8 percent.³

Despite these investments, student achievement has remained flat. In testimony submitted to the Committee, Andrew Coulson from the non-profit CATO Institute stated that math and reading scores for graduating high school seniors have remained unchanged over the last 40 years, while science scores have declined slightly. This tracks with international comparisons. The OECD's latest Programme for International Student Assessment report, released in December of last year, ranked the United States 17th in reading, 31st in math, and 23rd in science among developed nations.⁴ As Mr. Coulson stated, "To sum up, we have little to show for the \$2 trillion in federal education spending of the past half century. In the face of concerted and unflagging efforts by Congress and the states . . . it now costs three times as much to provide essentially the same education as we provided in 1970 . . . The only thing [spending] appears to have accomplished is to apply the brakes to the nation's economic growth, by taxing trillions of dollars out of the productive sector of the economy and spending it on ineffective programs."⁵

The Committee is pursuing a new approach to education reform by re-evaluating the federal role in elementary and secondary education. The federal government is too involved in our nation's classrooms, and we believe states and local school districts should bear the primary responsibility for public education. We aim to reduce the size and scope of the Department of Education, roll back federal bureaucratic requirements and regulations, and eliminate and consolidate ineffective and duplicative federal education programs to help balance the budget and get the federal deficit and debt under control. These efforts will empower parents, teachers, and school leaders to address unacceptable achievement gaps and successfully prepare students for postsecondary education and the workforce.

H.R. 1891 is the first step in the Committee's education reform efforts. Under the current Elementary and Secondary Education Act, the U.S. Department of Education operates more than 80 separate programs. Many of these are duplicative, ineffective, or too small to have a meaningful impact, which results in waste and inefficiency. As the Council of the Great City Schools stated in its letter of support for this legislation, ". . . an array of small grant programs contributes little to the academic attainment necessary for national competitiveness nor helps overcome the achievement gaps that serve as a persistent barrier to educational and economic opportunity."⁶

Programs eliminated

H.R. 1891 begins the process of reducing waste and inefficiencies in current law by repealing the authorizations of 42 separate elementary and secondary programs. Of the programs eliminated, 14 were defunded in H.R. 1473, the Full Year FY 2011 Continuing Resolution (FY 2011 CR), which was supported by an overwhelming bipartisan majority of this Committee and was signed into law by the President. Sixteen were proposed for consolidation or elimination in the President's FY 2012 budget proposal. Six are considered earmarks under Clause 9 of House rule XXI. Following is the list of programs eliminated in the bill.

- *Early Reading First*: The Early Reading First program has not been funded since FY 2009. A Department of Education evaluation of the program in 2007 had only mixed results, calling into question the program's effectiveness in improving student outcomes.⁷ The program is also duplicative of the Head Start program and other early learning programs that have recently been expanded, such as the Race to the Top Early Learning Challenge Grant. While early childhood programs serve a noble goal, the Committee believes that the Elementary and Secondary Education Act's focus should remain on K-12 education.

- *William F. Goodling Even Start Family Literacy Program*: The Even Start Program was defunded in the FY 2011 CR. It is duplicative of the existing Title I Aid for the Disadvantaged program, which provides funds to states and school districts to assist low-income students excel academically. Family literacy is also a supported activity under the 21st Century Community Learning Centers program. Additionally, Title II of the Workforce Investment Act helps adults in need of literacy services obtain the educational skills necessary to become full partners in the educational development of their children. Finally, the Third National Even Start Evaluation from the Department of Education found that children and parents scored low on literacy measures compared to national norms when they exited the program.⁸

- *Improving Literacy Through School Libraries*: The Improving Literacy Through School Libraries program was defunded in the FY 2011 CR. When it was received funding, it had a limited reach.

Only 50 grants were awarded in FY 2010 and several states have never received funding under this program. The program is duplicative of the existing Title I Aid for the Disadvantaged program and programs under the Institute of Museum and Library Sciences. The President's FY 2012 budget proposed consolidating this program, indicating a broad bipartisan consensus that the goals of this program can be accomplished through other activities.

- *Demonstrations of Innovative Practices: Striving Readers*, which has been funded under this authorization, was defunded in the FY 2011 CR. Striving Readers has never been authorized under the Elementary and Secondary Education Act, but has been supported through appropriations language. The program is duplicative of the Title I Aid for the Disadvantaged program, which provides funds to states and school districts to help low-income students excel academically. The President's FY 2012 budget proposed consolidating this program.

- *Close Up Fellowship Program*: The Close Up Fellowship Program directs noncompetitive funds to the Close Up Foundation, which classifies it as an earmark under Clause 9 of House Rule XXI. The program was defunded in the FY 2011 CR. The President's budget proposed no funds for this program, arguing that the Close Up Foundation has enough private financial support to continue the program.

- *Comprehensive School Reform*: The Comprehensive School Reform (CSR) program has not been funded since FY 2008. A March 2011 report evaluating the CSR model found that just 12 of 262 CSR schools made significant improvements in reading and mathematics. The report further stated, "For CSR-funded schools, at least in the first part of the decade, turnaround was a distinctly rare event, one not easily generated through federal policy intervention."⁹

- *School Dropout Prevention/High School Graduation Initiative*: The High School Graduation Initiative was created through the appropriations process in FY 2010 after the existing Dropout Prevention program was defunded because of its ineffectiveness. The new program is too small to make a meaningful impact, with only 27 school districts and two states receiving funding in FY 2010. The program is also duplicative of the Title I Aid to the Disadvantaged program and the School Improvement Grant program, both of which support similar dropout prevention activities.

- *School Leadership*: The School Leadership program has had a limited impact on national efforts to increase student academic achievement. For example, in FY 2009 and 2010, only 21 grants were awarded. The program is also duplicative of the existing Title II Teacher Quality State Grants program, which provides resources to all states for professional development for school leaders.

- *Advanced Certification or Advanced Credentialing*: The Advanced Certification or Advanced Credentialing program is operated by the National Board for Professional Teaching Standards (NBPTS) and provides funding for professional development. The program is considered an earmark under Clause 9 of House rule

XXI. The program was defunded in the FY 2011 CR, and is duplicative of the Title II Teacher Quality State Grants program.

- *Special Education Teacher Training*: The Special Education Teacher Training program assists the University of Northern Colorado train special education teachers. The program is considered an earmark under Clause 9 of House rule XXI. The program is also duplicative of the Title II Teacher Quality State Grant program and teacher training and professional development programs under Part D of the Individuals with Disabilities Education Act.

- *Early Childhood Educator Professional Development*: The Early Childhood Educator Professional Development program has not received funding since FY 2007. The program is duplicative of the Title II Teacher Quality State Grants program and Title II of the Higher Education Act, which provides funds to institutions of higher education to fund professional development and teacher training activities.

- *Teacher Mobility*: The National Panel on Teacher Mobility program has never been funded and is duplicative of the Title II Teacher Quality State Grants program.

- *National Writing Project*: This program provides noncompetitive funds to the National Writing Project, a non-profit organization. The program is considered an earmark in violation of Clause 9 of House rule XXI. The program was defunded in the FY 2011 CR and is duplicative of the Title I Aid to the Disadvantaged and Title II Teacher Quality State Grants programs. Little is known about the effectiveness of this program, and the Office of Management and Budget's (OMB) Program Assessment Rating Tool (PART) review found insufficient evidence of its effectiveness.¹⁰

- *Teaching of Traditional American History*: The Teaching of Traditional American History program has yielded questionable results from numerous evaluations that call into question its effectiveness and impact on increasing student achievement. For example, OMB's PART review found no demonstrated results from the program and determined it was duplicative of the Title II Teacher Quality State Grants program.¹¹ A follow-up Department of Education evaluation found that program participants demonstrated a "limited ability to analyze and interpret historical data" and that "projects were not well integrated with other local, state and federal teacher development initiatives."¹² The President's FY 2012 budget proposal consolidates this program.

- *Enhancing Education Through Technology (Ed-Tech)*: Ed-Tech was defunded in the FY 2011 CR. The OMB PART review found insufficient data for demonstrating the program's impact on student achievement."¹³ Elementary and secondary schools offer a greater level of technology infrastructure than just a few years ago, and there is no longer a significant need for a separate program limited to the integration of technology into schools and classrooms. States and school districts that still have this need can use funds

from the Title I Aid to Disadvantaged students and Title II Teacher Quality State Grants programs.

- *Ready To Learn Television*: Ready to Learn Television has had a limited impact on student achievement. OMB's PART evaluation found insubstantial effects on student outcomes.¹⁴ In FY 2010, only three grants were awarded, the largest of which was the Corporation for Public Broadcasting, which received \$430 million in direct appropriations in the FY 2011 CR.

- *Improving Language Instruction Educational Programs*: The Improving Language Instruction Educational Programs have never been funded, and are duplicative of the Title I Aid for the Disadvantaged and the Title III English Language Acquisition programs. Furthermore, all states receiving Title I money are held accountable for the achievement of immigrant students and limited English proficient students.

- *Bilingual and Emergency Immigrant Education Program*: The Bilingual and Emergency Immigrant Education program has not been funded since FY 2001 and is duplicative of the Title I Aid for the Disadvantaged and the Title III English Language Acquisition programs. Furthermore, all states receiving Title I money are held accountable for the achievement of immigrant students and limited English proficient students.

- *State Grants for Safe and Drug-Free Schools and Communities*: The Safe and Drug-Free Schools and Communities program has not been funded since FY 2009. The OMB PART review rated the program as "Ineffective" because of its inability to demonstrate any measurable student outcome results.¹⁵ The evaluation also found that grant funds were spread too thin to support quality interventions. According to the Department of Education, nearly two-thirds of grant recipients received allocations of less than \$10,000. The activities of this program can be supported by the Safe and Drug-Free Schools and Communities National Programs and the 21st Century Community Learning Center program.

- *Grants To Reduce Alcohol Abuse*: The Grants to Reduce Alcohol Abuse program received only \$6.9 million in the FY 2011 CR, representing a dramatic cut from FY 2010 and FY 2009 levels. The program is duplicative of activities that can be supported as part of the 21st Century Community Learning Centers program, which provides funds to school districts to support efforts that assist students in academic enrichment activities, including drug and violence prevention. The President's FY 2012 budget consolidates the program.

- *Mentoring Program*: The Mentoring Program has not received funding since FY 2009. The OMB PART evaluation found no evidence of success and reported the program is duplicative of multiple state and local mentoring programs.¹⁶ Mentoring is also being supported through the U.S. Department of Justice's Office of Juvenile Justice and Delinquency Prevention. Through the American Recovery and Reinvestment Act, projects were awarded for up to \$500,000.

- *Elementary and Secondary School Counseling Program*: The Elementary and Secondary School Counseling Program has had a limited impact on student achievement. In FY 2010, just 42 school districts in 20 states were awarded grants under this program. In general, school counselors are supported with state and local funds, but the Title I Aid for the Disadvantaged program, the 21st Century Community Learning Centers program, and the Homeless Education program all support counseling services for at-risk populations.

- *Partnerships in Character Education*: The Partnerships in Character Education program has not received funding since FY 2009. The program has an extremely limited impact. In FY 2008, only three school districts received grants, and since 2004, only 20 states plus Guam and the District of Columbia have received any funding. The Department of Education's Institute of Education Sciences conducted a review of more than 40 Character Education programs for the What Works Clearinghouse and found only two with positive results.¹⁷

- *Smaller Learning Communities (SLC)*: SLC was defunded in the FY 2011 CR. A 2008 Department of Education review of long-term outcomes from this program found no meaningful trends in student achievement.¹⁸ The program is also duplicative of the Title I Aid to the Disadvantaged program and School Improvement Grants.

- *Reading is Fundamental (RIF)*: RIF is a non-profit organization that receives a non-competitive grant through the program. Because of this, it is considered an earmark under Clause 9 of House rule XXI. The program was defunded in the FY 2011 CR. The program is also duplicative of the Title I Aid for the Disadvantaged program.

- *Javits Gifted and Talented*: The Jacob K. Javits Gifted and Talented Students Education program was defunded in the FY 2011 CR. The program has had a very limited impact, with only 16 grants awarded in the last five years. In addition, states and school districts can use funds from other programs to support the activities of this program. For example, the Title II Teacher Quality State Grants program can support professional development for teachers working with gifted and talented students.

- *Star Schools*: The Star Schools program has not been funded since FY 2007, and new awards have not been made since 2005, demonstrating the limited impact this program has had. States and school districts wishing to support the program's activities can use funds under the existing Title II Teacher Quality State Grants program for professional development to train teachers in technology-based instruction.

- *Ready To Teach Grant Program*: The Ready to Teach Grant program was funded in FY 2010. However, those funds were rescinded as an offset to the Education Jobs Fund. The program was not funded in the FY 2011 CR. Between FY 2005 and FY 2009, only two to four grants were awarded per year, demonstrating the

limited impact of this program. It is also duplicative of the existing Title II Teacher Quality State Grants program.

- *Foreign Language Assistance Program*: The Foreign Language Assistance program has had a very limited impact at the national level, with only 35 new awards in FY 2010. Funds from the Title I Aid for the Disadvantaged program, Title II Teacher Quality State Grants program, and the Higher Education Act could all be used to support foreign language programs.

- *Carol M. White Physical Education Program*: The Carol M. White Physical Education program is duplicative of initiatives administered by the Centers for Disease Control and projects and school wellness policies created and funded under the Child Nutrition Act that promote nutrition education, physical activity, and obesity prevention. Ultimately, the decision to purchase sports equipment or support the other activities of this program should be made at the state and local level.

- *Community Technology Centers*: The Community Technology Centers program has not been funded since FY 2005, when it only received \$5 million. Other federal programs can support these activities. For example, local public housing authorities and non-profit organizations can apply to the Department of Housing and Urban Development for grants to establish, operate, and expand computer centers, known as Neighborhood Network Centers. Funds are also available through the Opportunity Corps, which was established during the last reauthorization of the National and Community Service Act.

- *Educational, Cultural, Apprenticeship, and Exchange Programs for Alaska Natives, Native Hawaiians, and their Historical Whaling and Trading Partners in Massachusetts*: This program earmarks funds for certain entities in Alaska, Hawaii, and Massachusetts that support projects and education programs to increase understanding of cultural diversity. The program is considered an earmark under Clause 9 of House rule XXI. The program was defunded in the FY 2011 CR and the President's FY 2012 budget proposed its elimination.

- *Excellence in Economic Education*: The Excellence in Economic Education program is a very small categorical program that has received only \$5.6 million total over the last four years. The program supports the Council for Economic Education, a nonprofit organization that receives the support of many private individuals and corporations. The program does not need federal support to fulfill its mission, and is duplicative of other existing federal efforts. A 2009 RAND survey, recently verified by the Government Accountability Office, found that there are 21 federal agencies offering a total of 56 economic and financial literacy programs.¹⁹

- *Grants To Improve the Mental Health of Children, Mental Health Integration*: This Mental Health Integration program was defunded in the FY 2011 CR. It has had a limited impact, with only 16 school districts receiving awards in FY 2010. States and school districts that wish to support mental health activities for at-risk populations can use funds under the Title I Neglected and De-

linquent Youth program, the 21st Century Community Learning Centers program, and the Homeless Education program.

- *Grants To Improve the Mental Health of Children, Foundations for Learning:* This Foundations for Learning program was defunded in the FY 2011 CR. It has had a limited impact, with only four school districts receiving awards in FY 2009. States and school districts that wish to support mental health activities for at-risk populations can use funds under the Title I Neglected and Delinquent Youth program, the 21st Century Community Learning Centers program, and the Homeless Education program.

- *Arts in Education:* The Arts in Education program has two parts. A portion of the funds are awarded noncompetitively to two nonprofit organizations, The Kennedy Center and VSA Arts, which makes this portion of the program an earmark under Clause 9 of House rule XXI. The second part of the program provides funds to school districts to implement arts education, including professional development for teachers. These activities are duplicative of the Title II Teacher Quality State Grants program. The President's FY 2012 budget proposes consolidating this program.

- *Combating Domestic Violence:* The Combating Domestic Violence program has never been funded and has, therefore, had no national impact. Numerous other federal grant programs, primarily at the Departments of Justice and Health and Human Services, address the impact of family and domestic violence on school-aged children.

- *Healthy, High-Performance Schools:* The Healthy, High-Performing Schools program has never been funded and has, therefore, had no national impact. The federal government has historically stayed out of state and local funding decisions involving the repair and modernization of school buildings and opposed efforts to create national school construction programs. Despite this, the American Recovery and Reinvestment Act created a pot of funds to help schools and districts with modernization projects, reinforcing the need to eliminate this program.

- *Additional Assistance for LEAs Impacted by Federal Property Acquisition:* This program has never been funded and has, therefore, had no national impact. It is also duplicative of the existing Impact Aid program, which provides funds to school districts adversely impacted by the presence of federal property such as Indian lands, military bases, or national forests and parks.

- *Women's Educational Equity:* The Women's Educational Equity program was defunded in the FY 2011 CR and was proposed for elimination in the President's FY 2012 budget. A number of studies and reports over the last decade have shown that women have made educational gains matching or exceeding those of their male peers. A recent briefing by the Boys Initiative revealed, among other things, that "boys both dropout of high school and receive disciplinary action, including expulsion, more often than girls."²⁰

- *Native Hawaiian Education:* The Native Hawaiian Education program is duplicative of the Title I Aid to the Disadvantaged program, which already targets funds to disadvantaged students to increase academic achievement. In 2010–2011, Hawaii received more

than \$42.6 million in Title I funds. If the state has additional needs, the Committee should address this problem through formula changes to the Title I program. Hawaii also receives funding under other major federal education programs, including the Title II Teacher Quality State Grants program, Rural Education initiatives, and the 21st Century Community Learning Centers program. Further, the effectiveness of this program has been called into question. The program's most recent performance report found that it failed to meet any of its objectives.²¹

- *Alaska Native Education Equity*: The Alaska Native Education Equity program is duplicative of the Title I Aid to the Disadvantaged program, which already targets funds to disadvantaged students to increase academic achievement. In 2010–2011, Alaska received more than \$37.2 million in Title I funds. If the state has additional needs, the Committee should address this problem through formula changes to the Title I program. Alaska also receives funding under other major federal education programs, including the Title II Teacher Quality State Grants program, Rural Education initiatives, and the 21st Century Community Learning Centers program.

Conclusion

H.R. 1891 is the first in a series of education reform bills geared toward streamlining and simplifying the federal role in education so that states, school districts, parents, and teachers are empowered to pursue innovative reforms that meet the needs of their students. It is an important initial step that will help reduce the federal government's footprint in K–12 classrooms and ensure taxpayer dollars are not wasted on unnecessary, inefficient elementary and secondary education programs.

STATEMENT OF GENERAL PERFORMANCE GOALS AND OBJECTIVES

In accordance with clause (3)(c) of House rule XIII, the goal of H.R. 1891 is to streamline and simplify the federal role in education by repealing the authorization of unnecessary, inefficient elementary and secondary education programs. The Committee expects the Department of Education to comply with these provisions and implement the changes to the law in accordance with these stated goals.

STATEMENT OF OVERSIGHT FINDINGS AND RECOMMENDATIONS OF THE COMMITTEE

In compliance with clause 3(c)(1) of rule XIII and clause 2(b)(1) of rule X of the Rules of the House of Representatives, the Committee's oversight findings and recommendations are reflected in the body of this report.

NEW BUDGET AUTHORITY AND CBO COST ESTIMATE

With respect to the requirements of clause 3(c)(2) of rule XIII of the Rules of the House of Representatives and section 308(a) of the Congressional Budget Act of 1974 and with respect to requirements of clause 3(c)(3) of rule XIII of the Rules of the House of Representatives and section 402 of the Congressional Budget Act of 1974, the Committee has received the following estimate for H.R. 1891 from the Director of the Congressional Budget Office:

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, June 1, 2011.

Hon. JOHN KLINE,
*Chairman, Committee on Education and the Workforce,
House of Representatives, Washington, DC.*

DEAR MR. CHAIRMAN: The Congressional Budget Office has prepared the enclosed cost estimate for H.R. 1891, the Setting New Priorities in Education Spending Act.

If you wish further details on this estimate, we will be pleased to provide them. The CBO staff contact is Justin Humphrey.

Sincerely,

DOUGLAS W. ELMENDORF.

Enclosure.

H.R. 1891—Setting New Priorities in Education Spending Act

H.R. 1891 would amend the Elementary and Secondary Education Act of 1965 to eliminate more than 40 discretionary grant programs. For 2011, the Department of Education allocated \$413 million in funding from amounts appropriated in the Department of Defense and Full-Year Continuing Appropriations Act, 2011 (P.L. 112–10) to programs that would be eliminated by H.R. 1891. Under current law, however, the funds allocated to those programs may be used for other grant programs that would not be eliminated by the bill.

Because annual appropriations to the Department of Education can be used for other programs, enacting the bill would not have a significant effect on spending from the appropriation provided for

2011. Furthermore, the authorizations for all of the programs specified in the bill have expired, so CBO estimates the bill would have no impact on such authorization levels. However, savings would accrue—as compared to 2011 appropriation levels—if the total amounts provided in 2012 and subsequent years are lower than the current-year funding for the department.

Enacting the bill would have no impact on direct spending or revenues; therefore, pay-as-you-go procedures do not apply.

H.R. 1891 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act.

The CBO staff contact for this estimate is Justin Humphrey. This estimate was approved by Peter H. Fontaine, Assistant Director for Budget Analysis.

Committee Cost Estimate: Clause 3(d)(1) of rule XIII of the Rules of the House of Representatives requires an estimate and a comparison of the costs that would be incurred in carrying out HR 1891. However, clause 3(d)(2)(B) of that rule provides that this requirement does not apply when the Committee has included in its report a timely submitted cost estimate of the bill prepared by the Director of the Congressional Budget Office under section 402 of the Congressional Budget Act.

Changes in existing law made by the bill, as reported:

CHANGES IN EXISTING LAW MADE BY THE BILL, AS REPORTED

In compliance with clause 3(e) of rule XIII of the Rules of the House of Representatives, changes in existing law made by the bill, as reported, are shown as follows (existing law proposed to be omitted is enclosed in black brackets, new matter is printed in italic, existing law in which no change is proposed is shown in roman):

[Subpart 12—Educational, Cultural, Apprenticeship, and Exchange Programs for Alaska Natives, Native Hawaiians, and Their Historical Whaling and Trading Partners in Massachusetts

[SEC. 5521. SHORT TITLE.

[This subpart may be cited as the “Alaska Native and Native Hawaiian Education Through Cultural and Historical Organizations Act”.

[SEC. 5522. FINDINGS AND PURPOSES.

[(a) FINDINGS.—Congress finds the following:

[(1) Alaska Natives and Native Hawaiians have been linked for over 200 years to the coastal towns of Salem, Massachusetts, and New Bedford, Massachusetts, through the China trade from Salem and whaling voyages from New Bedford.

[(2) Nineteenth-century trading ships sailed from Salem, Massachusetts, around Cape Horn of South America, and up the Northwest coast of the United States to Alaska, where their crews traded with Alaska Native people for furs, and then went on to Hawaii to trade for sandalwood with Native Hawaiians before going on to China.

[(3) During the 19th century, over 2,000 whaling voyages sailed out of New Bedford, Massachusetts to the Arctic region of Alaska, and joined Alaska Natives from Barrow, Alaska and other areas in the Arctic region in subsistence whaling activities.

【(4) Many New Bedford whaling voyages continued on to Hawaii, where they joined Native Hawaiians from the neighboring islands.

【(5) From those commercial and whaling voyages, a rich cultural exchange and strong trading relationships developed among the three peoples involved.

【(6) In the past decades, awareness of the historical trading, cultural, and whaling links has faded among Alaska Natives, Native Hawaiians, and the people of the continental United States.

【(7) In 2000, the Alaska Native Heritage Center in Alaska, the Bishop Museum in Hawaii, and the Peabody-Essex Museum in Massachusetts initiated the New Trade Winds project to use 21st-century technology, including the Internet, to educate students and their parents about historic and contemporary cultural and trading ties that continue to link the diverse cultures of the peoples involved.

【(8) The New Bedford Whaling Museum, in partnership with the New Bedford Whaling National Historical Park, has developed a cultural exchange and educational program with the Inupiat Heritage Center in Barrow, Alaska to bring together the children, parents, and elders from the Arctic region of Alaska with children and families of Massachusetts to learn about their historical ties and about each other's contemporary cultures.

【(9) Within the fast-growing cultural sector, meaningful educational and career opportunities based on traditional relationships exist for Alaska Natives, Native Hawaiians, and low-income youth in Massachusetts.

【(10) Cultural institutions can provide practical, culturally relevant, education-related internship and apprentice programs, such as the Museum Action Corps at the Peabody-Essex Museum and similar programs at the New Bedford Oceanarium and other institutions, to prepare youths and their families for careers in the cultural sector.

【(11) The resources of the institutions described in paragraphs (7) and (8) provide unique opportunities for illustrating and interpreting the contributions of Alaska Natives, Native Hawaiians, the whaling industry, and the China trade to the economic, social, and environmental history of the United States, for educating students and their parents, and for providing opportunities for internships and apprenticeships leading to careers with cultural institutions.

【(b) PURPOSES.—The purposes of this subpart are the following:

【(1) To authorize and develop innovative culturally-based educational programs and cultural exchanges to assist Alaska Natives, Native Hawaiians, and children and families of Massachusetts linked by history and tradition to Alaska and Hawaii to learn about shared culture and traditions.

【(2) To authorize and develop internship and apprentice programs to assist Alaska Natives, Native Hawaiians, and children and families of Massachusetts linked by history and tradition with Alaska and Hawaii to prepare for careers with cultural institutions.

[(3) To supplement programs and authorities in the area of education to further the objectives of this subpart.

[(4) To authorize and develop cultural and educational programs relating to any Federally recognized Indian tribe in Mississippi.

[(7) Other Alaska Native and Native Hawaiian cultural and educational organizations.

[(8) Cultural and educational organizations with experience in developing or operating programs that illustrate and interpret the contributions of Alaska Natives, Native Hawaiians, the whaling industry, and the China trade to the economic, social, and environmental history of the United States.

[(9) Consortia of the organizations and entities described in this subsection.

[(b) USES OF FUNDS.—Activities provided through programs carried out under this subpart may include one or more of the following:

[(1) Development and implementation of educational programs to increase understanding of cultural diversity and multicultural communication among Alaska Natives, Native Hawaiians, and the people of the continental United States, based on historic patterns of trading and commerce.

[(2) Development and implementation of programs using modern technology, including the Internet, to educate students, their parents, and teachers about historic and contemporary cultural and trading ties that continue to link the diverse cultures of Alaska Natives, Native Hawaiians, and the people of Massachusetts.

[(3) Cultural exchanges of elders, students, parents, and teachers among Alaska Natives, Native Hawaiians, and the people of Massachusetts to increase awareness of diverse cultures among each group.

[(4) Sharing of collections among cultural institutions designed to increase awareness of diverse cultures and links among them.

[(5) Development and implementation of internship and apprentice programs in cultural institutions to train Alaska Natives, Native Hawaiians, and low-income students in Massachusetts for careers with cultural institutions.

TITLE VII—INDIAN, NATIVE HAWAIIAN, AND ALASKA NATIVE EDUCATION

* * * * *

[PART B—NATIVE HAWAIIAN EDUCATION

[SEC. 7201. SHORT TITLE.

[This part may be cited as the “Native Hawaiian Education Act”].

ISEC. 7202. FINDINGS.

【Congress finds the following:

【(1) Native Hawaiians are a distinct and unique indigenous people with a historical continuity to the original inhabitants of the Hawaiian archipelago, whose society was organized as a nation and internationally recognized as a nation by the United States, Britain, France, and Japan, as evidenced by treaties governing friendship, commerce, and navigation.

【(2) At the time of the arrival of the first nonindigenous people in Hawaii in 1778, the Native Hawaiian people lived in a highly organized, self-sufficient subsistence social system based on a communal land tenure system with a sophisticated language, culture, and religion.

【(3) A unified monarchical government of the Hawaiian Islands was established in 1810 under Kamehameha I, the first King of Hawaii.

【(4) From 1826 until 1893, the United States recognized the sovereignty and independence of the Kingdom of Hawaii, which was established in 1810 under Kamehameha I, extended full and complete diplomatic recognition to the Kingdom of Hawaii, and entered into treaties and conventions with the Kingdom of Hawaii to govern friendship, commerce and navigation in 1826, 1842, 1849, 1875, and 1887.

【(5) In 1893, the sovereign, independent, internationally recognized, and indigenous government of Hawaii, the Kingdom of Hawaii, was overthrown by a small group of non-Hawaiians, including United States citizens, who were assisted in their efforts by the United States Minister, a United States naval representative, and armed naval forces of the United States. Because of the participation of United States agents and citizens in the overthrow of the Kingdom of Hawaii, in 1993 the United States apologized to Native Hawaiians for the overthrow and the deprivation of the rights of Native Hawaiians to self-determination through Public Law 103-150 (107 Stat. 1510).

【(6) In 1898, the joint resolution entitled “Joint Resolution to provide for annexing the Hawaiian Islands to the United States”, approved July 7, 1898 (30 Stat. 750), ceded absolute title of all lands held by the Republic of Hawaii, including the government and crown lands of the former Kingdom of Hawaii, to the United States, but mandated that revenue generated from the lands be used “solely for the benefit of the inhabitants of the Hawaiian Islands for educational and other public purposes”.

【(7) By 1919, the Native Hawaiian population had declined from an estimated 1,000,000 in 1778 to an alarming 22,600, and in recognition of this severe decline, Congress enacted the Hawaiian Homes Commission Act, 1920 (42 Stat. 108), which designated approximately 200,000 acres of ceded public lands for homesteading by Native Hawaiians.

【(8) Through the enactment of the Hawaiian Homes Commission Act, 1920, Congress affirmed the special relationship between the United States and the Native Hawaiians, which was described by then Secretary of the Interior Franklin K. Lane, who said: “One thing that impressed me . . . was the fact that the natives of the island who are our wards, I should say,

and for whom in a sense we are trustees, are falling off rapidly in numbers and many of them are in poverty.”

[(9) In 1938, Congress again acknowledged the unique status of the Hawaiian people by including in the Act of June 20, 1938 (52 Stat. 781, chapter 530; 16 U.S.C. 391b, 391b-1, 392b, 392c, 396, 396a), a provision to lease lands within the National Parks extension to Native Hawaiians and to permit fishing in the area “only by native Hawaiian residents of said area or of adjacent villages and by visitors under their guidance.”

[(10) Under the Act entitled “An Act to provide for the admission of the State of Hawaii into the Union”, approved March 18, 1959 (73 Stat. 4), the United States transferred responsibility for the administration of the Hawaiian Home Lands to the State of Hawaii but reaffirmed the trust relationship between the United States and the Hawaiian people by retaining the exclusive power to enforce the trust, including the power to approve land exchanges and amendments to such Act affecting the rights of beneficiaries under such Act.

[(11) In 1959, under the Act entitled “An Act to provide for the admission of the State of Hawaii into the Union”, the United States also ceded to the State of Hawaii title to the public lands formerly held by the United States, but mandated that such lands be held by the State “in public trust” and reaffirmed the special relationship that existed between the United States and the Hawaiian people by retaining the legal responsibility to enforce the public trust responsibility of the State of Hawaii for the betterment of the conditions of Native Hawaiians, as defined in section 201(a) of the Hawaiian Homes Commission Act, 1920.

[(12) The United States has recognized and reaffirmed that—

[(A) Native Hawaiians have a cultural, historic, and land-based link to the indigenous people who exercised sovereignty over the Hawaiian Islands, and that group has never relinquished its claims to sovereignty or its sovereign lands;

[(B) Congress does not extend services to Native Hawaiians because of their race, but because of their unique status as the indigenous people of a once sovereign nation as to whom the United States has established a trust relationship;

[(C) Congress has also delegated broad authority to administer a portion of the Federal trust responsibility to the State of Hawaii;

[(D) the political status of Native Hawaiians is comparable to that of American Indians and Alaska Natives; and

[(E) the aboriginal, indigenous people of the United States have—

[(i) a continuing right to autonomy in their internal affairs; and

[(ii) an ongoing right of self-determination and self-governance that has never been extinguished.

[(13) The political relationship between the United States and the Native Hawaiian people has been recognized and re-

affirmed by the United States, as evidenced by the inclusion of Native Hawaiians in—

【(A) the Native American Programs Act of 1974 (42 U.S.C. 2991 et seq.);

【(B) the American Indian Religious Freedom Act (42 U.S.C. 1996);

【(C) the National Museum of the American Indian Act (20 U.S.C. 80q et seq.);

【(D) the Native American Graves Protection and Repatriation Act (25 U.S.C. 3001 et seq.);

【(E) the National Historic Preservation Act (16 U.S.C. 470 et seq.);

【(F) the Native American Languages Act (25 U.S.C. 2901 et seq.);

【(G) the American Indian, Alaska Native, and Native Hawaiian Culture and Art Development Act (20 U.S.C. 4401 et seq.);

【(H) the Workforce Investment Act of 1998 (29 U.S.C. 2801 et seq.); and

【(I) the Older Americans Act of 1965 (42 U.S.C. 3001 et seq.).

【(14) In 1981, Congress instructed the Office of Education to submit to Congress a comprehensive report on Native Hawaiian education. The report, entitled the “Native Hawaiian Educational Assessment Project”, was released in 1983 and documented that Native Hawaiians scored below parity with regard to national norms on standardized achievement tests, were disproportionately represented in many negative social and physical statistics indicative of special educational needs, and had educational needs that were related to their unique cultural situation, such as different learning styles and low self-image.

【(15) In recognition of the educational needs of Native Hawaiians, in 1988, Congress enacted title IV of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988 (102 Stat. 130) to authorize and develop supplemental educational programs to address the unique conditions of Native Hawaiians.

【(16) In 1993, the Kamehameha Schools Bishop Estate released a 10-year update of findings of the Native Hawaiian Educational Assessment Project, which found that despite the successes of the programs established under title IV of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988, many of the same educational needs still existed for Native Hawaiians. Subsequent reports by the Kamehameha Schools Bishop Estate and other organizations have generally confirmed those findings. For example—

【(A) educational risk factors continue to start even before birth for many Native Hawaiian children, including—

【(i) late or no prenatal care;

【(ii) high rates of births by Native Hawaiian women who are unmarried; and

【(iii) high rates of births to teenage parents;

【(B) Native Hawaiian students continue to begin their school experience lagging behind other students in terms of readiness factors such as vocabulary test scores;

【(C) Native Hawaiian students continue to score below national norms on standardized education achievement tests at all grade levels;

【(D) both public and private schools continue to show a pattern of lower percentages of Native Hawaiian students in the uppermost achievement levels and in gifted and talented programs;

【(E) Native Hawaiian students continue to be overrepresented among students qualifying for special education programs provided to students with learning disabilities, mild intellectual disabilities, emotional impairment, and other such disabilities;

【(F) Native Hawaiians continue to be underrepresented in institutions of higher education and among adults who have completed four or more years of college;

【(G) Native Hawaiians continue to be disproportionately represented in many negative social and physical statistics indicative of special educational needs, as demonstrated by the fact that—

【(i) Native Hawaiian students are more likely to be retained in grade level and to be excessively absent in secondary school;

【(ii) Native Hawaiian students have the highest rates of drug and alcohol use in the State of Hawaii; and

【(iii) Native Hawaiian children continue to be disproportionately victimized by child abuse and neglect; and

【(H) Native Hawaiians now comprise over 23 percent of the students served by the State of Hawaii Department of Education, and there are and will continue to be geographically rural, isolated areas with a high Native Hawaiian population density.

【(17) In the 1998 National Assessment of Educational Progress, Hawaiian fourth-graders ranked 39th among groups of students from 39 States in reading. Given that Hawaiian students rank among the lowest groups of students nationally in reading, and that Native Hawaiian students rank the lowest among Hawaiian students in reading, it is imperative that greater focus be placed on beginning reading and early education and literacy in Hawaii.

【(18) The findings described in paragraphs (16) and (17) are inconsistent with the high rates of literacy and integration of traditional culture and Western education historically achieved by Native Hawaiians through a Hawaiian language-based public school system established in 1840 by Kamehameha III.

【(19) Following the overthrow of the Kingdom of Hawaii in 1893, Hawaiian medium schools were banned. After annexation, throughout the territorial and statehood period of Hawaii, and until 1986, use of the Hawaiian language as an instructional medium in education in public schools was declared unlawful. The declaration caused incalculable harm to a cul-

ture that placed a very high value on the power of language, as exemplified in the traditional saying: “I ka “olelo no ke ola; I ka “olelo no ka make. In the language rests life; In the language rests death.”

[(20) Despite the consequences of over 100 years of non-indigenous influence, the Native Hawaiian people are determined to preserve, develop, and transmit to future generations their ancestral territory and their cultural identity in accordance with their own spiritual and traditional beliefs, customs, practices, language, and social institutions.

[(21) The State of Hawaii, in the constitution and statutes of the State of Hawaii—

[(A) reaffirms and protects the unique right of the Native Hawaiian people to practice and perpetuate their culture and religious customs, beliefs, practices, and language;

[(B) recognizes the traditional language of the Native Hawaiian people as an official language of the State of Hawaii, which may be used as the language of instruction for all subjects and grades in the public school system; and

[(C) promotes the study of the Hawaiian culture, language, and history by providing a Hawaiian education program and using community expertise as a suitable and essential means to further the program.

[PART C—ALASKA NATIVE EDUCATION

[SEC. 7301. SHORT TITLE.

[This part may be cited as the “Alaska Native Educational Equity, Support, and Assistance Act”.

[SEC. 7302. FINDINGS.

[Congress finds and declares the following:

[(1) The attainment of educational success is critical to the betterment of the conditions, long-term well-being, and preservation of the culture of Alaska Natives.

[(2) It is the policy of the Federal Government to encourage the maximum participation by Alaska Natives in the planning and the management of Alaska Native education programs.

[(3) Alaska Native children enter and exit school with serious educational handicaps.

[(4) The educational achievement of Alaska Native children is far below national norms. Native performance on standardized tests is low, Native student dropout rates are high, and Natives are significantly underrepresented among holders of baccalaureate degrees in the State of Alaska. As a result, Native students are being denied their opportunity to become full participants in society by grade school and high school educations that are condemning an entire generation to an underclass status and a life of limited choices.

[(5) The programs authorized in this part, combined with expanded Head Start, infant learning, and early childhood education programs, and parent education programs, are essential if educational handicaps are to be overcome.

[(6) The sheer magnitude of the geographic barriers to be overcome in delivering educational services in rural Alaska and Alaska villages should be addressed through the development and implementation of innovative, model programs in a variety of areas.

[(7) Native children should be afforded the opportunity to begin their formal education on a par with their non-Native peers. The Federal Government should lend support to efforts developed by and undertaken within the Alaska Native community to improve educational opportunity for all students.

[SEC. 7303. PURPOSES.

[The purposes of this part are as follows:

[(1) To recognize the unique educational needs of Alaska Natives.

MINORITY VIEWS

H.R. 1891, reported out of the Committee on Education and the Workforce, with all Committee Democrats in attendance voting in opposition, eliminates 43 education programs without regard to the needs of students, schools, communities, or the country.

Committee Democrats believe the central role of the Federal government in education policy is to ensure that all students have access to an equal, high-quality education. To truly ensure access to this type of education, Committee Democrats believe that the system must be modernized. States and districts should have easier access to Federal funds through streamlined programs with less administrative burden. States and districts should also have more flexibility. To allow for this increased flexibility, educators must rely on data-based decision making and maintain strong accountability for student outcomes. Committee Democrats also believe that Congress has a responsibility to ensure that all students are held to high standards, and that teachers are prepared to teach to those standards.

In 2009, the United States was among 34 developed countries that participated in the Programme for International Student Assessment (PISA). On that exam, our nation had improved in math and science since 2006.¹ But despite those improvements, our students were still outperformed by numerous countries. The countries at the top of the international rankings have each made it a national goal to develop the best education system in the world. Those countries have also focused on all students. While the top 10 percent of students in the United States are still competitive internationally, the country's poor and minority students continue to struggle.

H.R. 1891 does nothing to improve the United States education system. The bill does nothing to improve student outcomes, increase academic achievement, nor graduate students who are college and career ready. In actuality, the bill fails to modernize the system; it simply eliminates essential services to students provided through the Elementary and Secondary Education Act.²

ESSENTIAL LITERACY SERVICES TO STUDENTS

Committee Democrats believe that a student's ability to read, write, and comprehend material is paramount to their success in school. Unfortunately students continue to struggle in these areas. American 15-year-olds rank 14th among developed nations in reading, lagging behind countries such as Japan, Australia, and the Netherlands.³ Despite our students' moderate standing in the glob-

al education system, the Majority's bill chooses to eliminate literacy services for students.

Committee Democrats believe that when it comes to literacy services for students, research has been very clear on what works. A number of interventions and practices demonstrate a clear positive impact on student literacy skills. With federal support from programs that H.R. 1891 eliminates, 46 states are working to implement comprehensive literacy strategies to strengthen our students' ability to compete in the 21st century economy. Kentucky, for example, created a comprehensive set of state actions and implementation indicators to embed literacy learning as part of school improvement planning that will support effective implementation of the Kentucky Core Academic Standards. Louisiana developed a comprehensive plan to ensure students meet the literacy expectations that will prepare them to enter college and the workforce ready to succeed.

H.R. 1891 will undercut the work of states and districts successfully preparing our students for their future. The Majority argues the country cannot afford literacy services, but in actuality, the country cannot afford to move backwards on initiatives that work.

ESSENTIAL SUPPORT SERVICES TO STUDENTS

There is clear evidence that essential services to address students' mental health and drug and violence prevention have played a significant role in education reform. Committee Democrats believe these services must be supported and advanced for all students to graduate college and career ready. Unfortunately, H.R. 1891 eliminates these services for students, putting the students and their schools at greater risk for failure.

One such successful example can be found in New York City. A 2008 independent evaluation of five New York City schools implementing an intervention created by an expert team of senior educators and social workers, which provided family engagement services, mental health services, and school-based counseling, and it showed that the schools became calmer and more productive environments, with fewer problem behaviors and higher ratings on the NYC Department of Education Learning Environment Survey. In these schools, there was a 51 percent decrease in police-reported incidents and a 32 percent decrease in suspensions. In addition, the schools became better places for teachers to teach: there was a 77 percent decline in teacher turnover, and a 34 percent decrease in teacher absences. Over a four-year intervention period ending in 2009, students in these schools also showed notable academic gains. Students' math proficiency scores increased from 49 percent to 82 percent at the elementary level; and from 24 percent to 64 percent at the middle school level. Students' English Language Arts proficiency scores increased from 47 percent to 57 percent at the elementary level; and from 27 percent to 49 percent at the middle school level.⁴

ESSENTIAL SERVICES TO SUPPORT TEACHERS AND LEADERS

Research clearly demonstrates that teacher quality is one of the primary influences on student achievement. Committee Democrats believe that if we are serious about closing the achievement gap and graduating more students ready for college and careers, then we need an education system that is designed to have an effective teacher in every classroom. However, H.R. 1891 eliminates essential services that support teachers and leaders.

In order to compete in a global economy, students must be taught complex, analytical skills in a variety of issue areas. Currently, too many poor and minority students do not have access to great schools or great teachers who can provide these skills. Data across states show that low-income and minority students are disproportionately taught by inexperienced teachers. For example, core academic classes in high-poverty secondary schools are almost twice as likely as classes in low-poverty schools to be taught by teachers with neither a major nor certification in their assigned subject (27 percent compared to 14 percent). Furthermore, high-minority secondary schools have almost double the percentage of math classes taught by teachers with neither certification nor a major as do their low-minority counterparts.⁵

Committee Republicans claim that teacher support services eliminated by H.R. 1891 are duplicative. However, during an April 6, 2011 hearing in the Committee on Education and the Workforce, the Comptroller General, Mr. Dodaro, testified on the Government Accountability Office report entitled, “Opportunities to Reduce Potential Duplication in Government Programs, Save Tax Dollars, and Enhance Revenue”⁶ and stated that the GAO had not found any actual duplication in teaching programs.⁷ In addition, the report acknowledges that some of the potential duplication may not be unnecessary or wasteful.

Committee Democrats believe strongly that Congress must ensure that our teachers have the tools and professional development opportunities they need to successfully teach and support student achievement. Over the past decade, the country has seen the start of systemic reforms to improve teacher and leader effectiveness. Many states and districts are developing systems that recruit, prepare and reward effective teachers, that elevate the profession, and that strengthen pathways to teaching and school leadership. These reforms are integral to modernizing our education system.

Committee Democrats also believe that the Federal government has a responsibility to ensure essential services for principal and leader professional development and growth. Research finds that 60 percent of a school’s impact on student achievement is attrib-

utable to principal and teacher effectiveness.⁸ Furthermore, even though a single teacher can have a profound impact on student learning over the course of a year, that effect generally fades unless a student's subsequent teachers are equally effective, with half the gains being lost the following year, and nearly all of the gains being lost within two years.⁹ In order for students to have significant learning gains year after year, whole schools must be high-functioning and led by effective principals with effective teachers across the school. This is especially vital for turnaround schools, where studies find no examples of success without effective principal leadership.

ESSENTIAL DROPOUT PREVENTION SERVICES

Committee Democrats additionally believe that academic tutoring, summer bridge programs, early identification of at risk students, and dropout recovery efforts—all programs eliminated in H.R. 1891—are also essential services for student success. As a whole, federal policy does not address the needs of students in middle and high schools. At a time when our standing in the global economy depends more than ever on graduating an educated and skilled workforce, this lack of focus is dangerous. Eliminating the few effective programs we do have for dropout prevention is unacceptable. We need to invest in what works.

According to the Alliance for Excellent Education, minority students are disproportionately represented in the nation's dropout statistics: only 56 percent of Latino students, 54 percent of African American students, and 51 percent of American Indian and Alaska Native students graduate with a regular diploma compared to 77 percent of white students and 81 percent of Asian Americans.¹⁰

One example of a successful model for dropout prevention services is the Talent Development High School model, which is a comprehensive school reform initiative that targets some of the most troubled schools in the country. Findings from an independent evaluation of the first five high schools to begin using the model in the School District of Philadelphia found that Talent Development produced substantial gains in attendance, academic course credits earned, and promotion rates during students' first year of high school. These impacts emerged in the first year of implementation and were reproduced as the model was extended to other schools in the district and as subsequent cohorts of students entered the ninth grade. In addition, the improvements in credits earned and promotion rates for ninth-graders were sustained as students moved through high school. Improvements in student performance on the eleventh grade state standards assessment emerged in later cohorts of students due to the comprehensive and intensive elements of the model that were extended beyond the ninth grade. There are also early indications that Talent Develop-

ment is improving graduation rates.¹¹ Committee Democrats believe Congress should support more successful dropout prevention models, such as the Talent Development School model. More resources are needed at the middle and high school levels to stem the dropout crisis in our country, yet H.R. 1891 would eliminate support for dropout programs.

ESSENTIAL SERVICES TO PREVENT NARROWING OF THE CURRICULUM

In the years following the passage of No Child Left Behind,¹² one of the most consistent concerns heard from parents, teachers, and principals is that the law led to the narrowing of the curriculum for students. In some districts and schools the intense focus on increasing achievement in reading and math among students unintentionally came at the expense of other subjects such as foreign languages, the arts, history, and financial and economic education.

Passage of H.R. 1891 demonstrates that the Majority is not listening to concerns from communities. Instead of arbitrarily cutting program services, Committee Democrats believe in supporting states and districts to provide students with a well-rounded education that meets educational demands and the needs of a global economy. Committee Democrats believe that current law grant programs must be reformed and that the status quo is not working effectively as it could. Funding for services must be administratively easier to apply for and better address the needs of students, and there must also be more flexibility in how funds for services are used.

FUNDING CUTS

The Majority seems to believe that the remaining education programs not eliminated in H.R. 1891 will be robust enough to maintain all essential services to students. However, the Fiscal Year 2012 (FY 12) Republican budget includes significant funding cuts to these remaining programs. The remaining programs will be forced to do much more with much fewer resources. As a result, services to students will be lost and academic achievement is sure to suffer.

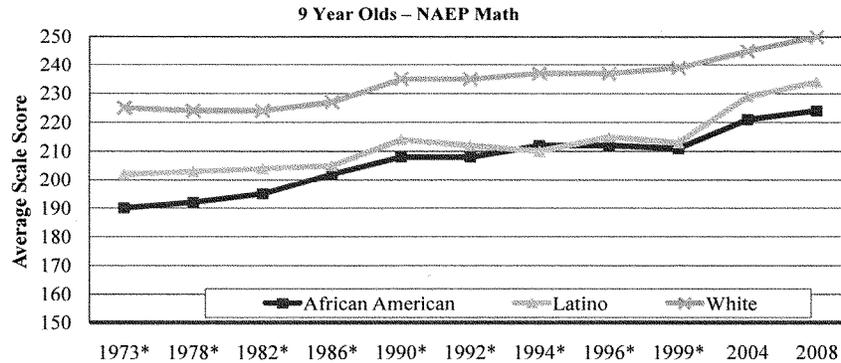

For example, the Majority claims that programs supporting the following activities are duplicative of Title I: literacy instruction; Native Hawaiians and Alaska Natives education; dropout prevention programs; and activities to support a well-rounded education. Yet the FY12 Republican budget cuts Title I funding by more than \$550 million. This cut to Title I will mean 2,400 schools serving nearly a million low-income students will lose funding and nearly 10,000 teachers and aides could lose their jobs. This cut would make it impossible for Title I to cover the essential services to students eliminated in H.R. 1891.

In addition, Committee Republicans of the Education and Workforce Committee have claimed that education funding has exponentially increased while student achievement has gone down. This claim is clearly inaccurate. Federal funding through ESEA has

gone predominately to elementary schools. Students in elementary grades have seen increases in achievement. For example, according to the NAEP chart below, there were significant gains among all 4th graders from 1999 to 2008.¹³

Unfortunately, only 17 percent of eligible low performing high schools received funding from the School Improvement Grant program, leaving 2,500 low performing high schools without federal support. For high school age students achievement gaps remain wide.

Researchers at Johns Hopkins University have identified almost 2,000 high schools (about 13 percent of American high schools) where the typical freshman class shrinks by 40 percent or more by the time the students reach their senior year. These “dropout factories” serve large numbers of minority and low-income students, and have fewer resources and less-qualified teachers than schools in more affluent neighborhoods with larger numbers of white students. In fact, 38 percent of African American students and 33 percent of Latino students attend dropout factories.¹⁴

Clearly now is not the time to be eliminating dropout prevention funding, yet the Majority eliminates essential dropout prevention services to students in H.R. 1891.

AMENDMENTS

Due to the detrimental effect H.R. 1891 would have on students and schools, Committee Democrats offered a series of amendments to ensure students have access to essential services that improve student outcomes, increase academic achievement, and graduate students who are college and career ready. The amendments simply refined current law programs and added support for public/private partnerships to enhance the delivery of services. The amendments consolidated critical functions from the programs being eliminated by H.R. 1891 in order to salvage those services for schools and students. The amendments provided that the services restored would not be duplicated elsewhere. The following Democratic amendments were offered but defeated due to the opposition of Committee Republicans:

Mr. Kildee, Mr. Hinojosa, and Mr. Grijalva offered an amendment to restore essential literacy services to students by amending the Reading First program under current law to provide students in pre-kindergarten through grade twelve literacy (reading and writing) services, including through school libraries and family literacy programs. The amendment was defeated 16–23.

Mr. Holt and Ms. Woolsey offered an amendment that would have ensured that the Federal government is not contributing to the narrowing of curriculum in schools by amending the Fund for the Improvement of Education (FIE) to support foreign language learning, arts education, and the teaching of American history through: professional development; the development of state standards and assessments; school-based student activities; distance learning and other technology needs related to the development of rigorous academic courses and curricula; services for gifted and talented students and any other activities related to the development of rigorous academic courses and curricula. The amendment was defeated 16–23.

Mr. Loeb sack offered an amendment to restore support services to students that are lost through H.R. 1891, including: crisis intervention services; mental health services; expanding counseling services through qualified school counselors, school social workers, school psychologists, other qualified psychologists, or child and adolescent psychiatrists; providing in-service training for teachers, instructional staff, and appropriate school personnel; efforts to effectively engage parents, families, and communities in the education of their children; and programs that enable students to participate actively in physical education activities (including through staff and teacher training and education). The amendment was defeated 16–23.

Ms. Davis offered an amendment that would have ensured that critical support for teachers and leaders is not lost as a result of H.R. 1891, including: the development of teacher standards; outreach, and teacher recruitment, and teacher support programs, related to teacher certification or continuing education; programs to assist high-need local educational agencies in recruiting and training principals; and professional development programs in instructional leadership and management. The amendment was defeated 16–23.

Mr. Scott, Mr. Hinojosa, and Mr. Grijalva offered an amendment to ensure that the Federal government is not contributing to the dropout crisis in this country by providing support for critical services including: strategies to identify and serve students most at risk of dropping out; strengthening teacher effectiveness; making education more relevant for students through career-themed education and strategies; ensuring that every student has a relationship with school personnel and a plan to graduate; and providing summer opportunities for at-risk students, to reduce summer learning loss. The amendment was defeated 16–23.

Ms. Hirono offered an amendment to strike the repeal of the Native Hawaiian Education Act and the Alaska Native Educational Equity Act. These competitive grant programs ensure that Native Hawaiian and Alaska Native students continue to receive quality education through rigorous culturally based curricula and edu-

cational programs. A similar amendment, offered earlier this year by Mr. Young of Alaska and Ms. Hirono, to restore these programs, passed with bipartisan support during floor consideration of H.R. 1.¹⁵ Mr. Young and Ms. Hirono also sent a letter in support of these programs during the Education and the Workforce Committee markup. The amendment was defeated 16–23.

CONCLUSION

The current state of the public education system is hindering the economic performance of the nation. Comprehensive reform of ESEA is essential to closing the achievement gap, eliminating the dropout problem, and ensuring that all students graduate from high school prepared for college and careers. Committee Democrats do not believe eliminating essential services to students in the manner undertaken by H.R. 1891 will create efficiencies or improve the performance of school districts or students. True reform efforts will.

According to the Alliance for Excellent Education, nearly 600,000 students dropped out from the Class of 2008. By graduating just half of these students, they together would earn \$4.1 billion in additional wages over the course of an average year, and as incomes grow, so too would local tax revenues—by nearly \$536 million during the average year.¹⁶

Committee Democrats believe true reform includes updating the law to respond to student, parent, local, and national needs through college and career-ready standards, modernizing the teaching and learning workforce, and modernizing the system to provide States and districts with easier access to federal funds and more flexibility to use those funds while still maintaining a strong system of accountability for all students.
