GENERAL STATEMENT AND SUMMARY

The Legislative Branch appropriations bill provides funding for the Congress and for the agencies that serve the Congress. The agencies funded through this bill provide oversight of executive branch agencies, including objective, nonpartisan, and timely audits and analysis of Federal programs. The funding in this bill also ensures that the public has permanent access to printed and electronic information products of the Federal Government.

All accounts in the bill have been examined in detail to ensure that the funding provided is appropriate for the agencies to carry out their responsibilities and to continue to respond to Congress in a timely and accurate manner. Details on the accounts, the funding levels provided, and the Committee's justification for the funding levels are included in the report.

Conforming to longstanding practice under which each body of Congress determines its own housekeeping requirements and the other concurs without intervention, funds for the House are not included in the bill as reported to the Senate.

The Committee recommends new budget (obligational) authority of \$3,020,783,000 for the legislative branch for fiscal year 2017. This amount excludes House items as per normal protocol. This total is \$251,564,571 below the budget request and \$23,481,000 above the fiscal year 2016 appropriation.

The bill includes \$871,176,081 for the operations of the Senate, which is \$64,510,339 below the fiscal year 2017 request. The bill includes \$419,255,000 for the Architect of the Capitol to maintain, improve, and construct buildings and facilities for the Congress. The recommendation for the Architect of the Capitol is \$75,518,000 below the fiscal year 2017 request. The recommendation would allow for comprehensive repairs and life-safety systems improvements. The bill also includes \$387,000,000 for the Capitol Police; \$542,405,919 for the Government Accountability Office; \$608,907,000 for the Library of Congress; and \$117,068,000 for the Government Publishing Office.

Reprogramming Guidelines.—The Committee expects all agencies to notify the Committee of any significant departures from budget plans presented to the Committee in any agency's budget justifications. In particular, agencies funded through this bill are required to notify the Committee prior to each reprogramming of funds in excess of the lesser of 10 percent or \$750,000 between programs, projects or activities, or in excess of \$750,000 between object classifications (except for shifts within the pay categories, object class 11, 12, and 13 or as further specified in each agency's respective section). This includes cumulative reprogrammings that together total at least \$750,000 from or to a particular program, activity, or object classification as well as reprogramming of FTEs or funds to create new organizational entities within the Agency or to restructure en-

tities which already exist. The Committee desires to be notified of reprogramming actions which involve less than the above-mentioned amounts if such actions would have the effect of changing an agency's funding requirements in future years or if programs or projects specifically cited in the Committee's reports are affected.

Full-Time Equivalents.—The Committee is dismayed by the presentation of total full-time equivalents [FTEs] included in each agency's fiscal year 2017 budget justification. This year, the presentation of FTEs included more than could be supported by either the fiscal year 2016 enacted level or the fiscal year 2017 requested level. The primary concern of the Committee is to understand the number of FTEs that can be supported by specific funding levels. Therefore, in fiscal year 2018 and each fiscal year thereafter, the budget justifications sent to the Committee shall include a comparison of FTEs based on the number of FTEs supported by the funding provided in the current enacted appropriations legislation and the number of FTEs that would be supported by the funding requested for the following fiscal year.

Cybersecurity.—The Committee recognizes that the universe of information technology hardware and software is an ever evolving, fast paced environment in which the Federal Government operates. Therefore, the Government must be prepared to make the annual investments necessary for its departments and agencies to stay current with the constantly changing world of technology. As such, this bill provides additional funding to agencies of the Legislative Branch for information technology infrastructure and security enhancements.

The Committee is concerned, however, that a lack of standard operating procedures and known best practices related to technological investments, especially in the area of cybersecurity, may lead to wasteful spending by the government as numerous vendors claiming to have the latest and greatest cybersecurity solutions regularly approach Federal departments and agencies to sell their products. There are challenges associated with different departments and agencies of the government pursuing differing and potentially incompatible methods of data security. Therefore, the Committee directs the Government Accountability Office [GAO] to conduct studies evaluating the effectiveness of cybersecurity programs, including risk management frameworks, cybersecurity technologies, cybersecurity standard operating procedures, and staffing and training of personnel related to the protection of Federal Government information systems. The Committee also directs the Government Accountability Office to conduct a study that addresses types of technologies that do not create "lock-in" to a specific vendor; allow sharing and collaboration of protected data; enable capabilities and standards that can be leveraged for data protection across the Federal Government; enable the sharing of protected data among Federal departments and agencies, as well as applicable private sector entities; and include other capabilities and recommendations as determined appropriate by GAO. This report shall be submitted to the Senate Appropriations Committee no later than 18 months after the date of enactment of this act.

SENATORS' OFFICIAL PERSONNEL AND OFFICE EXPENSE ACCOUNT

Appropriations, 2016	\$390,000,000
Budget estimate, 2017	445,933,464
Committee recommendation	390,000,000

The Committee recommends an appropriation for fiscal year 2017 of \$390,000,000 for the Senators' Official Personnel and Office Expense Account [SOPOEA]. The recommendation is equal to the fiscal year 2016 appropriation and \$55,933,464 below the fiscal year 2017 request. Of the funding provided, \$19,109,218 is available until September 30, 2019.

This account funds salaries and benefits of Senators' staffs as well as the office expense allowance for Senators' offices. The SOPOEA is comprised of three components. Two of these are for salaries of personnel in Senators' offices.

The allowance for administrative and clerical assistance is based on the population of States, beginning with States with a population of fewer than 5 million people to States with a population of 28 million or more. The table illustrates the allowances per population category and the States which fall into those categories. The estimate for fiscal year 2017 totals \$263,948,360.

The second component of the salaries allowance is for legislative assistance to Senators, as authorized by Public Law 95–94. This allowance provides funding for three positions in each Senator's office for a total of \$477,874 per office, or \$47,787,400 for all 100 Senators.

The third component of the SOPOEA account is for official office expenses and totals \$18,921,218. Each Senator's office is allocated an amount for office expenses, as displayed in the following table. In addition, an amount of \$188,000 is provided to cover additional expenses that may be incurred in the event of the death or resignation of a Senator, and to provide for transitional expenses during election years subject to regulations set by the Committee on Rules and Administration with respect to official mail.

It should be noted that the amounts provided for the various components of the SOPOEA are interchangeable. Amounts provided for salaries may be used for expenses, and vice versa, subject to regulations set by the Committee on Rules and Administration with respect to official mail. It should also be noted that the figures in the following table are preliminary, and that official notification

of member budgets is issued by the Financial Clerk of the Senate after enactment of this bill.

The following table illustrates the several components of the SOPOEA.

SENATORS' OFFICIAL PERSONNEL AND OFFICE EXPENSE ALLOWANCE FISCAL YEAR 2017—
Continued

State	Administrative and clerical assistance allowance 10/1/2016	Legislative assistance allowance 10/1/2016	O.O.E.A. allowance 10/1/2016	Total allowance 10/1/2016
GRAND TOTAL	263,948,360	47,787,400	18,921,218	330,656,978

According to the most recent employment data compiled by the Secretary of the Senate, as of March 31, 2016, there were 4,093 individuals employed in Senators' offices throughout the United States and covered by this appropriation.

In addition to providing funds for compensation of employees within Senators' offices, this appropriation also provides for agency contributions for those employees; that is, the Senate's share, as an employer, of the various employee benefit programs for which Senate employees are eligible. These payments are mandatory, and fluctuate according to the programs in which employees are enrolled, the level of compensation, and the degree of participation. Budget requests for this account prepared by the Financial Clerk must be based on both experience and evaluation of trends. The fiscal year 2017 funding level for this account anticipates \$108,665,000 in agency contribution costs.

The amount recommended by the Committee for the SOPOEA is less than would be required to cover all obligations that could be incurred under the authorized allowances for all Senators. The Committee is able to recommend an appropriation of a lesser amount than potentially necessary because Senators typically do not obligate funds up to the absolute ceiling of their respective allowances.

The Committee recommends \$1,400,000 for the Office of Congressional Accessibility Services. This office is a successor to the Special Services Office following enactment of the Capitol Visitor Center Act of 2008.

The Office of Congressional Accessibility Services [OCAS] provides and coordinates accessibility services for individuals with disabilities, including Members of Congress, staff, and visitors to the U.S. Capitol complex. These services include sign language interpreting, adaptive tours, and wheelchair loans. OCAS also provides information regarding accessibility for individuals with disabilities, as well as related training and staff development to Members of Congress and employees of the Senate and House of Representatives.

CAPITOL POLICE

Appropriations, 2016	\$375,000,000
Budget estimate, 2017	409,588,000
Committee recommendation	387,000,000

The United States Capitol Police [USCP] is charged with the protection of the United States Congress, its legislative processes, Members, employees, visitors and facilities within the U.S. Capitol complex from crime, disruption or terrorism, so that the Congress may fulfill its constitutional responsibilities in a safe and open environment.

The Committee recommends \$387,000,000 for the USCP. The recommendation is \$12,000,000 above the fiscal year 2016 appropriation and \$22,588,000 below the fiscal year 2017 request.

Evolving Threats and Inauguration Preparation.—The core mission and highest priority of the Capitol Police is to ensure the safety and security of Americans and our visitors within the Capitol Complex. In addition to ensuring the physical safety of those under the protection of the Capitol Police, a high level of security ensures continued open citizen participation and transparency of our democratic process. The Committee directs the Capitol Police to work with its partners to ensure robust preparation for major events, such as the 2017 inauguration, in light of significant evolving and emerging global threats and capabilities, including potential threats posed by unmanned aircraft.

The Committee directs the Capitol Police to continue to prepare to combat evolving and emerging threats, including to implement emerging technology and operational capabilities that will decrease our potential vulnerability to threats in the future. The Committee also directs the Capitol Police to keep the Committee immediately and fully apprised of resource and operational needs as emerging threats to the Capitol evolve, to robustly engage with leaders in Federal and commercial research and development on technology to counter potential emerging threats, and to ensure the highest level of security for major events, such as the 2017 inauguration, foreign

heads-of-state visits, and the President’s State of the Union address.

Findings of the Office of Inspector General.—The Committee values the work of the USCP Office of Inspector General [OIG] to investigate and report on waste, fraud, and abuse and make recommendations to improve USCP operations. The Committee recognizes that the OIG has made 310 recommendations to the Department since the inception of its office in August 2006 and commends the OIG for its diligence in identifying these areas for improvement. The Committee understands that USCP has agreed to implement all recommendations and to date has fully implemented, or completed, 255 of those recommendations. The Department and the OIG have agreed to resolve the remaining 55 recommendations and are to be commended for these efforts. It is important to note that USCP has never resisted or objected to oversight activities, restricted or delayed access to information requested by the OIG, or made any attempts to interfere with the independence of the OIG. The Committee also commends USCP for earning an unmodified audit opinion on its financial statements for fiscal year 2015. An unmodified opinion is the highest rating that may be received from an auditor and USCP has received this rating for 5 consecutive years. The Committee will continue to monitor the resolution and completion of all recommendations in its regularly scheduled monthly and biweekly meetings with the Inspector General and the Department respectively.

SALARIES

Appropriations, 2016	\$309,000,000
Budget estimate, 2017	333,128,000
Committee recommendation	320,000,000

The amount provided covers salaries, benefits, and overtime costs. USCP personnel are also eligible for hazardous duty pay and comparability pay similar to locality pay adjustments granted other Federal law enforcement personnel in the Washington, DC, area.

The Committee recommends \$320,000,000 for USCP salaries, which is \$11,000,000 above the fiscal year 2016 appropriation and \$13,128,000 below the fiscal year 2017 request. The total staffing level is expected to be approximately 1,799 sworn and 370 civilian staff under the Committee recommendation.

USCP Office of Inspector General.—The Committee includes funds to support not less than six FTEs within the USCP Office of Inspector General. The Committee notes that additional oversight of the USCP is conducted by the Government Accountability Office to supplement the work of the USCP Office of Inspector General, as needed.

Overtime.—The Committee recommends no more than \$35,305,000 for overtime in fiscal year 2017. This provides for approximately 564,646 hours of additional duty.

The Committee notes that overtime pay is a standard practice law enforcement entities utilize to respond to unscheduled and unanticipated events. However, the Committee finds that keeping overtime pay at a minimum should continue to be a goal of the USCP. The Committee appreciates the efforts of the USCP to better track and manage overtime pay in order to keep overtime costs

to a minimum. The Committee directs the USCP to continue to keep the Committee apprised of these efforts.

The Committee directs the USCP to provide for overtime in accordance with the budget request, as provided for in the following table.

	Funding	Hours (est.)
Scheduled, (including training)	\$31,171,000	500,946
Unscheduled	1,879,000	30,000
LOC—non-reimbursable events	232,000	3,700
Inauguration	2,023,000	30,000
Total	35,305,000	564,646

The recommendation does not include funds for USCP overtime for requirements associated with the restoration of the U.S. Capitol Dome, the Cannon House Renewal Project, or any other major construction projects undertaken by the Architect of the Capitol [AOC] as those funds are provided to the AOC as part of the overall project costs for those major projects and are paid to the USCP on a reimbursable basis. The Committee expects the USCP to operate within the designated funding level for requirements associated with each project. The Committee directs the USCP to provide for any additional requirement costs beyond that allocation.

GENERAL EXPENSES

Appropriations, 2016	\$66,000,000
Budget estimate, 2017	76,460,000
Committee recommendation	67,000,000

Expenses include office supplies and equipment, communications, motor vehicles, uniforms and equipment, investigations, training, and miscellaneous items.

The Committee recommends \$67,000,000 for general expenses, which is \$1,000,000 above the fiscal year 2016 appropriation and \$9,460,000 below the fiscal year 2017 request.

SALARIES AND EXPENSES

Appropriations, 2016	\$3,959,000
Budget estimate, 2017	4,315,151

The Office of Compliance [OOC] is an independent nonpartisan agency established to administer and enforce the Congressional Accountability Act [CAA]. The OOC administers the dispute resolution system established to resolve disagreements that arise under the CAA; carries out an education and training program for the regulated community on the rights and responsibilities of the CAA; and advises Congress on needed changes and amendments to the

CAA. The OOC General Counsel has independent investigatory and enforcement authority for certain violations of the CAA.

The Committee recommends an appropriation of \$3,959,000 for the salaries and expenses of the OOC, which is equal to the fiscal year 2016 enacted level and \$356,151 below the fiscal year 2017 request.

The Congressional Budget Office [CBO] is responsible for providing to the Congress objective, nonpartisan, and timely analyses to aid in economic and budgetary decisions on the wide array of programs covered by the Federal budget, and the information and estimates required for the congressional budget process.

The Committee recommends an appropriation of \$46,500,000 for the CBO. The recommendation is equal to the fiscal year 2016 appropriation and \$1,137,000 below the fiscal year 2017 request.

ARCHITECT OF THE CAPITOL

The Office of the Architect of the Capitol [AOC] is responsible to the United States Congress for the maintenance, operation, development, and preservation of 16.5 million square feet of buildings and more than 450 acres of land throughout the Capitol complex. This includes the Capitol, the Capitol Visitor Center, the House and Senate office buildings, the Library of Congress buildings, the U.S. Botanic Garden, the Capitol Power Plant, and other facilities. The AOC also provides professional expertise with regard to the preservation of architectural and artistic elements entrusted to its care, and provides recommendations concerning design, construction, and maintenance of the facilities and grounds.

The Committee has recommended a funding level of \$419,255,000 for activities of the Architect of the Capitol, excluding the House Office Buildings account. The recommendation is \$8,687,000 below the fiscal year 2016 appropriation and \$75,518,000 below the fiscal year 2017 request.

The following table compares the Committee recommendation for the AOC accounts to the fiscal year 2017 request, excluding the House Office Buildings account.

Capitol Visitor Center	21,306,000	20,557,000	-749,000

Item	Fiscal year 2017 request	Committee recommendation	Difference
Total	494,773,000	419,255,000	- 75,518,000

Outdoor Recycling.—The Committee commends the efforts of the Architect of the Capitol and the United States Capitol Police [USCP] for implementing outdoor recycling programs on the Capitol grounds while maintaining security of the complex. The Committee encourages the Architect of the Capitol and the USCP to continue to collaborate and work together to expand these efforts where appropriate in high-traffic areas across the Capitol complex.

Financial Management.—The Committee commends the AOC for earning an unmodified audit opinion, without any material weaknesses, on its financial statements for fiscal year 2015. An unmodified opinion is the highest rating that may be received from an external auditor, and the AOC has earned this rating for 12 consecutive years. The AOC also successfully eliminated material weaknesses that were identified in the AOC's financial controls in prior years. This positive independent assessment of the agency's financial stewardship of taxpayer resources demonstrates the agency's strong financial foundation as it embarks on major restoration and renovation projects.

Working Capital Fund.—The Architect of the Capitol [AOC] requested legislation to create a working capital fund [WCF] to manage the salaries, benefits, employee leave, and safety training aspects of AOC's funding for its construction division. The Committee understands that WCF's are commonplace throughout the Federal Government and that they have been established for various reasons based on the specific needs of a given agency. However, the Committee has concerns about the reasons why the AOC would like to establish a WCF. Therefore, the Committee directs the Government Accountability Office to provide the Committee with alternative options for AOC's management of the construction division that are less cumbersome than the establishment of a no-year working capital fund.

Senate Restaurants.—The Committee is deeply troubled by findings by the Architect of the Capitol [AOC] that the food service provider for the Senate underpaid many of its employees by misclassifying their work duties. The Committee understands that the Senate Committee on Rules and Administration, which has oversight over the food service contract managed by the AOC, also has significant concerns. The Committee is concerned about the possibility of continued problems with contract compliance, especially related to treatment of employees. The Committee directs the AOC to closely monitor contract compliance, including routinely reviewing wage classifications. The Committee also directs AOC to immediately report any inconsistencies to the Committee on Appropriations and the Committee on Rules and Administration and to consider all recourses in ensuring compliance and accountability with the contract.

Reform of Contract Oversight.—The AOC currently has authority to seek recourses for contract compliance failures, and has exercised that authority in certain situations. However, the Government Accountability Office recently reported (GAO-16-348) that

“While the AOC has tools for addressing poor performance on specific contracts, it does not have a suspension and debarment process in place that could bar irresponsible contractors from working for the AOC or provide notice to other government agencies. Past GAO work has shown that having suspension and debarment procedures is critical to ensuring that the government only does business with responsible contractors.”

Such procedures are standard throughout the Federal government, and the Committee finds that the AOC should immediately update its contracting procedures to reflect such standard practices. To ensure accountability for the performance of contracts administered by the AOC, the Committee has included a provision requiring the AOC to establish suspension and debarment procedures, to provide notice to other Federal agencies via the existing government-wide excluded parties system, and to consult that system before awarding future contracts.

Office of Inspector General.—The Architect of the Capitol Inspector General Act of 2007 [AOC IG Act] requires the Inspector General to keep the Architect and the Congress fully and currently informed about problems and deficiencies relating to the administration of programs and operations of the Architect of the Capitol and to maintain an independent and objective office to conduct and supervise audits and investigations. The Committee notes that, other than the Semiannual Report to Congress, the Office of Inspector General [OIG] has not routinely provided written reports to Congress. In accordance with the AOC IG Act, the Committee directs the OIG to conduct timely and regular audits and investigations of the AOC; provide written audit, investigative and other reports to the Committee, complete with recommendations for improvement to the agency; track the outcomes of those recommendations; and report to the Committee with a written record on the resolution and closure of all recommendations. The Committee also directs the OIG to adhere to Generally Accepted Government Auditing Standards, which provide a framework for conducting high quality audits with competence, integrity, objectivity, and independence. The Committee expects the OIG to operate with the full level of independence required by the AOC IG Act. Furthermore, the OIG shall comply with requests from Congress for specific audits and investigations.

LIBRARY OF CONGRESS

The Library of Congress is the largest library in the world and an unmatched source of information for Congress, the American people and beyond. The Library acquires, registers, preserves, protects and makes accessible the creative record of the United States. It is the main research arm of the United States Congress and its resources and services are used by millions of people every month. Its mission is to support the Congress in fulfilling its constitutional duties and to further the progress of knowledge and creativity for the benefit of the American people. The Library's collections include more than 162 million items (books, photographs, maps, sound recordings, films, sheet music, legal materials) in 470 languages. Digital technology is transforming the way the Library does its work, and the institution plays an important leadership role in superimposing digital library collections and services on those that are analog based. The Library of Congress houses the Congressional Research Service, U.S. Copyright Office, National Library Service for the Blind and Physically Handicapped, Law Library of Congress, and numerous other programs and services.

The Committee recommends a total of \$608,907,000 for the Library of Congress, an increase of \$8,995,000 above the fiscal year 2016 appropriation and \$58,308,000 below the fiscal year 2017 request.

In addition to the appropriation, the Library estimates receipts of \$52,045,000, funds from gifts and trusts totaling \$12,211,000, and reimbursable and revolving funds totaling \$188,188,000. Total funds available to support Library operations, including the Architect of the Capitol account, are expected to be approximately \$903,530,000 in fiscal year 2017 under the Committee recommendation.

SALARIES AND EXPENSES

Appropriations, 2016:	
Salaries and expenses	\$425,971,000
Authority to spend receipts	– 6,350,000
Net, salaries and expenses	419,621,000
Budget estimate, 2017:	
Salaries and expenses	479,235,000
Authority to spend receipts	– 6,350,000
Net, salaries and expenses	472,885,000
Committee recommendation:	
Salaries and expenses	434,934,000
Authority to spend receipts	– 6,350,000
Net, salaries and expenses	428,584,000

The Committee recommends an appropriation of \$428,584,000 for salaries and expenses of the Library of Congress and approves authority to spend receipts of \$6,350,000 in fiscal year 2017, for a total of \$434,934,000. The recommendation is \$8,963,000 above the fiscal year 2016 appropriation and \$44,301,000 below the fiscal year 2017 request. Included within this recommendation, as requested by the Library for fiscal year 2017, is \$6,563,000 for information technology security enhancements; \$1,348,000 for digital collections management; and \$2,000,000 for phase I of the Law Library's compact shelving replacement program. The fiscal year 2016 FTE level of 2,501 shall be maintained; however, in order to meet the objectives of the aforementioned projects, FTEs may be shifted among PPAs within this appropriation. Also, the Library may use these funds to hire contractors where necessary.

Veterans History Project.—The Committee recommends an appropriation of \$1,923,000 for the Library of Congress' Veterans History Project [VHP]. VHP, which marked its 15th anniversary in 2015, oversees a nationwide effort to build an archive of oral histories, from World War I through current conflicts, by collecting, preserving, and making available the personal stories of American war veterans and the civilian workers who support them. The VHP collection includes submissions from every State and is the largest oral history project in the United States recently surpassing 100,000 collections. In fiscal year 2015, through an active national outreach effort to volunteer organizations, institutions, and individuals across the country, VHP gained new participants and acquired 4,430 new collections.

Teaching with Primary Sources.—The Committee recommends an appropriation of \$8,400,000 for the Library of Congress' Teaching with Primary Sources program [TPS]. TPS is a teacher training initiative that encourages educators to incorporate the Library's online primary sources into school curricula. Library staff harness the power of primary sources as teaching tools by providing educators with methods and materials that build student literacy skills, content knowledge, and critical thinking abilities. TPS has successfully worked with educators in 49 States, the District of Columbia, and American Samoa. The Committee notes that the Library sponsors many educational lectures and events and encourages the Library

to incorporate excerpts from these presentations into the curriculum materials it develops.

Preservation.—The Committee notes that the Library utilizes multiple preservation strategies to extend the life of its vast collections for future generations to enjoy, including building and operating climate-controlled storage facilities, preparing new acquisitions for commercial binding and shelving, deacidification, and digital reformatting. During 2015, the Library executed over 11.4 million preservation actions on its books, serials, prints, photographs, audio-visual and other high value, high use, and at-risk items. In 2016, the Library and the Architect of the Capitol began construction of a fifth climate-controlled storage facility at Fort Meade, Maryland. The Committee supports the Library's preservation efforts and directs the Library to continue funding for ongoing preservation activities at not less than the current level for each ongoing preservation strategy.

Digital Collections Management.—The Library of Congress Office of the Inspector General stated in its top management challenges for the Library that there is not an organization-wide, interdependent strategy for digital-collection activities, and that the goal of addressing a digital collections strategy was not included in the Library-wide strategic plan or its information technology strategic plan. The Committee understands that individual service units have been addressing their own digital collection needs. This is not the most cost effective or efficient way of managing digital collection needs across the Library, which may have driven the Library's request for \$1,348,000 and 11 FTEs to create a digital collections management unit. While the Committee supports the Library's request of funding to address digital collections management, there is concern about bringing on board additional FTEs to establish a new unit within the Library when there is no evidence of a comprehensive digital collections strategy. Therefore, the Committee encourages the Library to consult and/or contract with experts who may be able to assist with the development of an efficient, organization-wide system for acquiring, managing, and sharing digital materials. Once a comprehensive digital collections plan is in place, the Library should reevaluate the need for additional FTEs.

National Film and Sound Recording Preservation Programs.—The Committee recognizes the important work of the National Film Preservation Program and the National Sound Recording Preservation Program, including the federally chartered National Film and National Recording Preservation Foundations. Consistent with the authorizing statute, the Foundations utilize both public and private matching funds to provide grants to a wide array of educational and non-profit organizations to preserve films and sound recordings. Congress is currently considering authorizing legislation, and if the programs are reauthorized, the Committee expects the Library to provide them support.

Appropriations, 2016:	
Salaries and expenses	\$58,875,000
Authority to spend receipts	– 35,777,000

Budget estimate, 2017:

Committee recommendation:	
Salaries and expenses	68,825,000

Prior year unobligated balances	– 6,147,000
Net, salaries and expenses	23,130,000

The United States Copyright Office plays an important role in our Nation’s intellectual property system. Copyright law is the foundation for the creation and dissemination of American artistic works, leading to substantial economic and cultural benefits. The Copyright Office serves multiple central roles in the copyright system, overseeing the registration of copyrighted works, administering the copyright law, and providing counsel to Congress on copyright policy.

The Committee recommends the direct appropriation of \$23,130,000 for the Copyright Office; approves authority to spend receipts of \$39,548,000 in fiscal year 2017; and approves authority to spend prior year unobligated balances of \$6,147,000, for a total of \$68,825,000. The recommendation for total funding available is \$9,950,000 above the fiscal year 2016 appropriation and \$5,201,000 below the fiscal year 2017 request.

Information Technology Modernization.—The Committee recognizes that the digital revolution has transformed the copyright marketplace and, as a result, the role of the Copyright Office in our economy. On February 29, 2016, the Committee received a “provisional” report from the Copyright Office regarding its plan for Information Technology [IT] modernization and upgrades within the Copyright Office, in accordance with a directive in the fiscal year 2016 enacted legislation. The Committee fully understands and supports the need for improved IT infrastructure and modernized software systems for the Copyright Office. However, there are concerns that the Copyright Office did not work collaboratively with the Library’s Office of the Chief Information Officer [CIO] in the development of this plan. The Library’s CIO developed an overall IT strategy for the Library, in response to the GAO report from March 2015 regarding the need to address serious IT management weaknesses, for which the first phase of funding was requested in fiscal year 2017. However, the Copyright Office’s provisional report does not appear to align with the Library’s overall direction on IT, including taking advantage of shared services provided by the Li-

brary. In order to achieve cost efficiencies of shared servicing with the Library, it is critical that the Copyright Office work with the Library's CIO to ensure there is no duplication of any shared services. Once shared services with the Library are taken into account, funding modernized software systems that are specific to the needs of the Copyright Office should be the responsibility of the Copyright Office. The Committee directs the Copyright Office, in collaboration with the Library's CIO, to submit a revised IT modernization plan that incorporates shared servicing with the Library no later than 90 days after enactment of this act. To the extent that this collaboration results in multiple options regarding the applicability of, or potential cost savings from, a particular shared service, those options should be identified and explained in the revised plan. The Copyright Office shall also include a spend plan for the IT enhancements intended to be addressed with the funds provided in fiscal year 2017.

CONGRESSIONAL RESEARCH SERVICE

SALARIES AND EXPENSES

Appropriations, 2016	\$106,945,000
Budget estimate, 2017	114,408,000
Committee recommendation	106,945,000

The Committee recommends an appropriation of \$106,945,000 for the Congressional Research Service. The recommendation is equal to the fiscal year 2016 appropriation and \$7,463,000 below the fiscal year 2017 request.

Congressional Research Service Modernization.—The Committee recognizes the tremendous value that the Congressional Research Service [CRS] has added to Congress by providing objective, authoritative, nonpartisan, and confidential research and analysis on the breadth of policy issues considered during each legislative session since its inception in 1914. CRS has developed a 5-year strategic plan to help the agency “adapt to the challenges of change and identify opportunities to optimize its service to Congress” (CRS Strategic Plan, iii) in the years 2016–2020. However, it is not clear how CRS plans to modernize in a resource constrained environment while fulfilling the priority needs of Congress. While the increase requested in fiscal year 2017 includes support for 22 additional full-time equivalents that purports to improve service to Congress, bringing on board new employees in the midst of this budget stagnation may not be a practical or cost-effective solution to optimize service. The Committee directs CRS to examine ways in which the internal structure of the organization may be improved to meet the challenges of the ever-changing Congressional environment and provide a report to the Committee on a proposed restructuring within 120 days of enactment of this act. The report should include recommended changes to staffing, pay levels, the management structure, technology, and research priorities in order to create and support the workflow, products, and services that best meet Congress’ needs.

BOOKS FOR THE BLIND AND PHYSICALLY HANDICAPPED

SALARIES AND EXPENSES

Appropriations, 2016	\$50,248,000
Budget estimate, 2017	51,591,000
Committee recommendation	50,248,000

This appropriation supports a national reading program for eligible residents of the United States and U.S. citizens living overseas who are blind or physically handicapped. Books and magazines in braille and various recorded formats are produced by the National Library Service for the Blind and Physically Handicapped for distribution through a network of State and locally supported libraries. At present, 55 regional libraries in 49 States, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands house and circulate books and magazines to eligible readers. Thirty-two sub-regional libraries in 10 States, and Guam, assist at the local public library level. In addition, 14 Advisory and Outreach Centers assist regional libraries in provision of services. Fifty-two of the regional libraries and four separate cooperating agencies distribute sound reproducers. Two multi-State centers, under contract to the National Library Service, store and distribute books and other materials in their geographical region. The program supports a readership of approximately 800,000.

The Committee recommends an appropriation of \$50,248,000 for salaries and expenses for Books for the Blind and Physically Handicapped. The recommendation is equal to the fiscal year 2016 appropriation and \$1,343,000 below the fiscal year 2017 request.

ADMINISTRATIVE PROVISION

SEC. 1201. The Committee has included a routine administrative provision regarding reimbursable and revolving funds carried in prior years.

GOVERNMENT PUBLISHING OFFICE

The U.S. Government Publishing Office [GPO] is the Federal Government's primary centralized resource for gathering, cataloging, producing, providing, and preserving published information in all its forms. By law and tradition, the GPO's mission is to provide expert publishing and printing services to all three branches of Government; to provide, in partnership with Federal depository libraries, permanent public access to the printed and electronic information products of all three branches of the Federal Government; and to sell copies of authentic printed and electronic documents and other government information products to the public.

GPO's core mission dates to 1813 when Congress determined that information regarding the work of the Federal Government should be available to all Americans. Over 200 years later, GPO's mission remains unchanged. However, the means for producing and distributing that information has transformed dramatically with the advent of the digital revolution.

Today, GPO provides free online public access to more than 1.5 million searchable titles, including the Budget of the U.S. Government, the Code of Federal Regulations, the Congressional Record,

and congressional bills, hearings, and reports. GPO also provides access to Government information in digital format through apps, eBooks, and related technologies. Since 2009, GPO has experienced more than 1.5 billion digital retrievals from its Federal Digital System [FDsys], and in February 2016 GPO introduced the next generation of its digital information system, govinfo.gov, symbolizing the evolution of how Americans access Government information in the digital era.

CONGRESSIONAL PUBLISHING

Appropriations, 2016	\$79,736,000
Budget estimate, 2017	79,736,000
Committee recommendation	79,736,000

The appropriation for Congressional Publishing supports transparency of the congressional process by funding digital and print publication of congressional proceedings, including the Congressional Record, bills, amendments, Committee reports, and hearing transcripts. This appropriation also supports the direct publication and printing needs of Congress.

The Committee recommends \$79,736,000 for congressional publishing. The recommendation is equal to the fiscal year 2016 appropriation and the 2017 request.

The following table compares the component categories within this account for fiscal year 2016 and the fiscal year 2017 request. The Committee has not recommended separate amounts for each activity in order to give GPO the flexibility to meet changing requirements.

PUBLIC INFORMATION PROGRAMS OF THE OFFICE OF SUPERINTENDENT OF DOCUMENTS

SALARIES AND EXPENSES

Appropriations, 2016	\$30,500,000
Budget estimate, 2017	29,500,000
Committee recommendation	29,500,000

This appropriation provides for salaries and expenses associated with the distribution of electronic and printed Government docu-

ments to depository and international exchange libraries, the cataloging and indexing of Government publications, and the distribution of electronic and printed publications authorized by law at the request of Members of Congress and other Government agencies.

The Committee recommends \$29,500,000 for salaries and expenses of the Public Information Programs of the Office of the Superintendent of Documents. The recommendation is \$1,000,000 below the fiscal year 2016 appropriation and equal to the fiscal year 2017 request.

The Committee supports GPO's introduction of its next generation information system, govinfo.gov, as well as the agency's other information technology systems, given that these efforts continue to reduce costs.

GOVERNMENT PUBLISHING OFFICE BUSINESS OPERATIONS
REVOLVING FUND

Appropriations, 2016	\$6,832,000
Budget estimate, 2017	7,832,000
Committee recommendation	7,832,000

The Committee recommends \$7,832,000 for the Government Publishing Office [GPO] Business Operations Revolving Fund. The recommendation is \$1,000,000 above the fiscal year 2016 appropriation and equal to the fiscal year 2017 request.

The Committee supports continued investment in the Revolving Fund as the most efficient solution to both cutting costs and ensuring efficient online access to government documents. One reason GPO is able to meet the increased work demands and continually reduce costs is through its constant focus on capital investments to modernize information systems, production equipment, and major facility repairs.

GOVERNMENT ACCOUNTABILITY OFFICE
SALARIES AND EXPENSES

Appropriations, 2016	\$531,000,000
Budget estimate, 2017	567,825,000
Committee recommendation	542,405,919

The U.S. Government Accountability Office [GAO] is an independent nonpartisan agency that was established by the Budget and Accounting Act of 1921 to act as an auditor for Congress and investigate how the Federal Government spends taxpayer dollars.

The function of GAO includes auditing agency operations to determine whether Federal funds are being spent efficiently and effectively; investigating allegations of illegal and improper activities; reporting on how well Government programs and policies are meeting their objectives; performing policy analyses and outlining options for congressional consideration; and issuing legal decisions and opinions, such as bid protest rulings and reports on agency rules.

The Committee recommends funding of \$542,405,919 for salaries and expenses of the Government Accountability Office. The recommendation is \$11,405,919 above the fiscal year 2016 appropriation and \$25,419,081 below the fiscal year 2017 request. The fund-

ing provided will support current staffing levels and the highest priority information technology infrastructure and security improvements included in the budget request.

Additionally, \$23,350,000 is authorized in offsetting collections derived from rent receipts and reimbursements for conducting financial audits of Government corporations, for a total of \$565,755,919.

Agency Inspector General Reports.—The Committee directs GAO to examine the extent to which Inspector General reports are currently available in a timely manner on agency Web sites. GAO should examine any reasons such reports are not posted, including legal requirements, cost, or sensitivity of the reported information, and make any appropriate recommendations. GAO should also review how Inspector General reports could be made available on GPO’s govinfo.gov Web site, including any barriers to doing so. The report shall be submitted to the Senate Appropriations Committee within 120 days of enactment of this act.

OPEN WORLD LEADERSHIP CENTER TRUST FUND

Appropriations, 2016	\$5,600,000
Budget estimate, 2017	5,800,000
Committee recommendation	5,600,000

The Committee recommends \$5,600,000 as a payment to the Open World Leadership Center Trust Fund, which is equal to the fiscal year 2016 appropriation and \$200,000 below the fiscal year 2017 request. The Center for Russian Leadership Development was established on December 21, 2000 (Public Law 106–554) as a legislative branch entity. The Fiscal Year 2003 Consolidated Appropriation Resolution (Public Law 108–7) carried legislation (section 1401) changing the name to the Open World Leadership Center and expanding the mission of the program to include Newly Independent States of the former Soviet Union including the Baltic States. The mission of the Center is to enable emerging leaders in Russia and Newly Independent States at all levels of civic life to gain significant, first-hand exposure to the American free market economic system and the operation of American democratic institutions through visits to comparable governments and communities in the United States.

While the Committee recognizes the ongoing U.S. national interest in maintaining constructive relations with the Russian people, the Committee includes a provision that limits the Open World Leadership Center to using appropriated funds only for Russian participants engaging in free market development, humanitarian activities, and civic engagement, and not for senior officials of the central Government of Russia.

JOHN C. STENNIS CENTER FOR PUBLIC SERVICE TRAINING AND DEVELOPMENT

Appropriations, 2016	\$430,000
Budget estimate, 2017	430,000
Committee recommendation	430,000

The John C. Stennis Center for Public Service Training and Development was created by Congress in 1988. The mandate of the

Center is to promote and strengthen public service. The Committee recommends the budget request of \$430,000 as authorized by 2 U.S.C. 1105, for the Center's congressional staff training and development programs.

TITLE II

GENERAL PROVISIONS

Included are several routine general provisions carried annually in the bill (sections 201–210), as follows:

Section 203 provides that any pay rate and title designation for a staff position created in this act, and not specifically established by the Legislative Pay Act of 1929, is to be made permanent law by this act. Further, any pay rate and title change for a position provided for in the 1929 Act is to be made permanent law by this act and any changes in the official expenses of Members, officers, and committees, and in the clerk hire of the House and Senate are to be made permanent law by this act.

Section 204 bans the use of funds for contracts unless such contracts are matters of public record and are available for public inspection.

Section 205 authorizes legislative branch entities participating in the Legislative Branch Financial Managers Council [LBFMC] to finance the costs of the LBFMC.

Section 206 authorizes the Architect of the Capitol to maintain certain property.

Section 207 prohibits unauthorized transfers of funds to other agencies.

Section 208 ensures continuation of the staff-led tours of the Capitol.

COMPLIANCE WITH PARAGRAPH 7, RULE XVI, OF THE
STANDING RULES OF THE SENATE

Paragraph 7 of rule XVI requires that Committee reports on general appropriations bills identify, with particularity, each Committee amendment to the House bill “which proposes an item of appropriation which is not made to carry out the provisions of an existing law, a treaty stipulation, or an act or resolution previously passed by the Senate during that session.”

The Committee has recommended no such funding.

COMPLIANCE WITH PARAGRAPH 7(c), RULE XXVI OF THE
STANDING RULES OF THE SENATE
