

SOURCES OF PERSONAL INCOME

Personal income rose \$28.5 billion (annual rate) in March, following an increase of \$47.4 billion in February. The March increase reflects the effects of a strike in the motor vehicle industry, which reduced wages and salaries in that industry by about \$9 billion (annual rate). Other effects of the strike cannot easily be quantified.

[Billions of dollars; monthly data at seasonally adjusted annual rates]

Period	Total personal income	Wage and salary disbursements ¹	Other labor income ^{1,2}	Proprietors' income ³		Rental income of persons ⁴	Personal dividend income	Personal interest income	Transfer payments ⁵	Less: Personal contributions for social insurance

¹The total of wage and salary disbursements and other labor income differs from compensation of employees (see p. 4) in that it excludes employer contributions for social insurance and the excess of wage accruals over wage disbursements.

²Consists primarily of employer contributions to private pension and private welfare funds.

³With inventory valuation and capital consumption adjustments.

⁴With capital consumption adjustment.

⁵Consists mainly of social insurance benefits, direct relief, and veterans payments.
