¹ Persons at work. Economic reasons include slack work, material shortages, inability to find fulltime work, etc.

² Civilian labor force (or employment) as percent of civilian noninstitutional population; and unemployment as percent of civilian labor force.

³ Not strictly comparable with earlier data.

⁴ Data beginning January 1994 are not directly comparable with data for earlier periods because of a major redesign of the household survey questionnaire.

NOTE.—Data beginning January 1998 reflect new composite estimation procedures and revised population controls. See *Employment and Earnings*, February 1998, for details.
