

## SOURCES OF PERSONAL INCOME

Personal income rose \$58.6 billion (annual rate) in January, following an increase of \$21.0 billion in December. Wages and salaries increased \$38.3 billion in January, following an increase of \$31.6 billion in December. Personal income for January reflects several special factors. It was boosted by cost-of-living adjustments to Federal transfer programs, pay raises for Federal civilian and military personnel, and Federal farm subsidy payments. It was reduced by changes in personal social insurance contributions and by lump-sum social security benefit payments that had boosted personal income in December. Excluding special factors, personal income increased \$45.8 billion in January and \$48.7 billion in December.

[Billions of dollars; monthly data at seasonally adjusted annual rates]

Period	Total personal income	Wage and salary disbursements <sup>1</sup>	Other labor income <sup>1,2</sup>	Proprietors' income <sup>3</sup>		Rental income of persons <sup>4</sup>	Personal dividend income	Personal interest income	Transfer payments <sup>5</sup>	Less: Personal contributions for social insurance

<sup>1</sup> The total of wage and salary disbursements and other labor income differs from compensation of employees (see p. 4) in that it excludes employer contributions for social insurance and the excess of wage accruals over wage disbursements.

<sup>2</sup> Consists primarily of employer contributions to private pension and private welfare funds.

<sup>3</sup> With inventory valuation and capital consumption adjustments.

<sup>4</sup> With capital consumption adjustment.

<sup>5</sup> Consists mainly of social insurance benefits, direct relief, and veterans payments.
