#### PART 126—ADMISSION OF ALIEN SPOUSES AND ALIEN MINOR CHILDREN OF CITIZEN MEMBERS OF THE UNITED STATES ARMED FORCES

#### PART 127—FIANCÉES AND FIANCÉS OF CITIZEN MEMBERS OF THE UNITED STATES ARMED FORCES

JULY 16, 1946.

Section 126.4 (a), Title 8, Chapter I, Code of Federal Regulations is amended by striking out the last sentence, which reads "An alien who has been admitted to the United States for a temporary stay may execute Form I-135 before an immigrant inspector at any office of the Immigration and Naturalization Service and be examined at such office in the way prescribed in this paragraph for applicants prior to embarkation."

The following paragraph is added to § 126.4, Title 8, Chapter I, Code of Federal Regulations:

(e) Acquisition in the United States of permanent resident status. An alien who has been lawfully admitted to the United States for a temporary period of time and who is, or becomes, eligible for admission to the United States as a non-quota immigrant under the provisions of the act of December 28, 1945 (59 Stat. 659), may apply for the privilege of permanent residence under the provisions of that Act by executing Form I-135 before an immigrant inspector at any office of the Immigration and Naturalization Service. Upon execution of the Form I-135, the alien shall be examined by an immigrant inspector in the manner prescribed in this section. If the alien is found admissible, an endorsement shall be placed on the Form I-135 to that effect and the Form I-135 shall be forwarded to the port where the alien was temporarily admitted to the United States. At that port an endorsement to show admission for permanent residence shall be placed on the manifest record relating to the alien. The date of admission in such endorsement shall be the date on which the alien was found admissible under the provisions of the Act of December 28, 1945, and the permanent residence status of the alien for naturalization and other purposes shall commence on such date. The Form I-135 shall be disposed of in accordance with the provisions of paragraph (d) of this section. As a part of the examination prescribed by this section, any head tax due shall be remitted and handled in accordance with the provisions of § 105.2 of this chapter.

(Sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675; 8 U.S.C. 102, 222, 458; sec. 1, Reorg. Plan No. V (3 CFR, Cum. Supp., Ch. IV); 8 CFR, 1943 Supp., 90.1)

The following part is added to Title 8, Chapter I, Code of Federal Regulations:

Sec.  
127.1 Definitions.  
127.2 Scope of act.  
127.3 Laws applicable at time of entry; period of admission.  
127.4 Bonds required; approval and cancellation.  
127.5 Extension of stay.  
127.6 Acquisition of permanent resident status.  
127.7 Violation of status.

AUTHORITY: §§ 127.1 to 127.7, inclusive, issued under sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675; 8 U.S.C. 102, 222, 458; sec. 1, Reorg. Plan No. V (3 CFR, Cum. Supp., Ch. IV); 8 CFR, 1943 Supp., 90.1; and sec. 4 of the act of June 29, 1946 (Public Law 471, 79th Congress). §§ 127.1 to 127.7, inclusive, interpret and apply the last-named act.

§ 127.1 Definitions. As used in this part, the term "act", unless otherwise indicated, means the Act of June 29, 1946 (Public Law 471, 79th Congress); the term "fiancée" includes "fiancé" and pronouns of which the word "fiancée" is the antecedent include the masculine gender; and the term "immigration laws" includes any Presidential proclamations, Executive orders, or regulations issued pursuant to such laws.

§ 127.2 *Scope of act.* The provisions of the act shall be applied only to the case of a fiancée who is unable to obtain an immigration visa because she is chargeable to a quota and the nonpreference portion of such quota is exhausted at the time she applies for the immigration visa. The provisions of the general immigration laws shall be applied in the case of any fiancée who seeks to enter the United States as an immigrant and is not chargeable to a quota or who is chargeable to a quota which is not exhausted. Except for the respects in which the provisions of the act are controlling, the provisions of the general immigration laws shall be applied to fiancées seeking admission, or admitted, under the act.

§ 127.3 *Laws applicable at time of entry; period of admission.* (a) Under section 1, proviso (a), of the act, a condition for admission under the act is that "the alien is not subject to exclusion from the United States under the immigration laws". Such proviso shall be construed to mean that the alien is not subject to exclusion from the United States under the provisions of those parts of the immigration laws applicable to the cases of aliens seeking to enter the United States temporarily as visitors under the provisions of section 3 (2) of the Immigration Act of 1924, as amended, and in addition, that she is not subject to exclusion from the United States under those parts of the immigration laws applicable to the cases of aliens seeking to enter the United States as nonquota immigrants under the provisions of the act of December 28, 1945 (59 Stat. 659).

(b) Any alien admitted under the act shall be admitted for a period of three months.

§ 127.4 *Bonds required; approval and cancellation.* As a requisite to the admission of any alien pursuant to the provisions of the act, the prospective American citizen spouse of such alien shall furnish a bond on Form I-375 in the sum of not less than \$500. Such bond shall be conditioned that the alien shall either depart from the United States without expense thereto within the period of her temporary admission (or an authorized extension thereof) or actually conclude a valid marriage with the said prospective American citizen spouse within the period of her temporary admission (or an authorized extension thereof) and that evidence satisfactory to the Commissioner of Immigration and Naturalization of such marriage or departure shall be furnished within 30 days after the expiration of such period. A surety company authorized by the Treasury Department to transact Federal bond business shall be an acceptable surety, or, in lieu thereof, the United States bonds or notes described in section 15 of Title 6, United States Code, and the regulations of the Treasury Department issued thereunder. Officers in charge of the several ports or districts are authorized, either directly or through officers or employees of the Service designated by them, to approve bond Forms I-375 and any formal agreement by which a surety consents to an extension of liability on such bonds, and such

officer or employee shall have authority to cancel any bond in which all the conditions thereof have been fulfilled.

§ 127.5 *Extension of stay.* An alien fiancée admitted under the provisions of this part may apply for an extension of the period of her temporary admission. Such application shall be submitted on Form I-539 approximately 30 days before the expiration of the period of admission, or previously authorized extension thereof, to the officer in charge at the port where the admission occurred. The officer in charge shall make such verifications and inquiries as are appropriate and shall forward the application through the office of the district director to the Commissioner of Immigration and Naturalization with a report of the facts and a recommendation. The Commissioner shall make a decision on such application and shall send notice of such decision to the district director who shall in turn notify the officer in charge and the latter shall notify the alien of the decision.

§ 127.6 *Acquisition of permanent resident status.* An alien who has been lawfully admitted to the United States for a temporary period of time under the Act and who is, or becomes, eligible for admission to the United States as a non-quota immigrant under the provisions of the Act of December 28, 1945 (59 Stat. 659), may apply for the privilege of permanent residence under the provisions of § 126.4 (e) of this chapter.

§ 127.7 *Violation of status.* (a) An alien admitted to the United States under the provisions of this part shall be deemed to have remained in the United States for a longer time than permitted by the conditions of her admission or to have failed to maintain the status under which admitted if she remains in the United States after the expiration of the time for which she was temporarily admitted, or after the expiration of any authorized extension or extensions of such period, without having during such period concluded a valid marriage to a citizen of the United States who is serving in or who has been honorably discharged from the armed forces of the United States during World War II and without having during that period or any authorized extension thereof acquired the status of a lawful permanent resident.

(b) Any such alien shall be made the subject of deportation proceedings in accordance with the Provisions of section 14 of the Immigration Act of 1924 (43 Stat. 162; 8 U.S.C. 214) and the provisions of Part 150 of this chapter.

This order shall become effective on the date of its publication in the FEDERAL REGISTER.

UGO CARUSI,  
Commissioner of  
Immigration and Naturalization.

Approved: July 25, 1946.

J. HOWARD McGRATH,  
Acting Attorney General.

At a regular session of the Federal Trade Commission held at its office in the City of Washington, D. C., on the 3d day of July, A. D. 1946.

*In the Matter of Oxford Products, Inc., a Corporation, Trading as Vitamin Guild of America*

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of the respondent, and a stipulation as to the facts entered into by and between counsel for the Commission and counsel for the respondent upon the record, which provided, among other things, that without further evidence or other intervening procedure the Commission might issue and serve upon the respondent findings as to the facts and its conclusion based thereon and an order disposing of the proceeding, and the Commission having made its findings as to the facts and its conclusion that the respondent has violated the provisions of the Federal Trade Commission Act:

*It is ordered*, That the respondent, Oxford Products, Inc., a corporation, trading as Vitamin Guild of America, or under any other name, and its officers, representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of respondent's medicinal preparation designated as Calcium Pantothenate Vitamin Tablets and as Cal-Pan, or any other preparation of substantially similar composition or possessing substantially similar properties, whether sold under the same names or any other name, do forthwith cease and desist from:

(1) Disseminating or causing to be disseminated any advertisement by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents, directly or by implication:

- (a) That said preparation is a gray hair or anti-gray hair vitamin;
- (b) That said preparation will restore the original color to gray hair;
- (c) That gray hair is due to a vitamin deficiency;
- (d) That the use of said preparation will result in healthy, natural hair;
- (e) That the use of said preparation will prevent gray hair;
- (f) That said preparation strengthens the nails, or helps the skin resist freckling.

(2) Disseminating or causing to be disseminated by any means any advertisement for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal

Trade Commission Act, of respondent's preparation, which advertisement contains any representation prohibited in paragraph (1) hereof.

*It is further ordered*, That the respondent and its officers, agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of said product in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from using the word "Guild" as a part of respondent's trade name, or otherwise representing, directly or by implication, that respondent is a guild or association, or that respondent's business is anything other than a commercial enterprise operated for profit.

*It is further ordered*, That the respondent shall, within sixty (60) days after service upon it of this order file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

#### PART 903—DELEGATIONS OF AUTHORITY

[Directive 42, as Amended July 24, 1946]

#### VETERANS' EMERGENCY HOUSING PROGRAM

§ 903.155 *Directive 42*—(a) *Purpose of this directive*. This directive delegates to the National Housing Agency authority to approve applications for priorities assistance under Priorities Regulation 33 (HH ratings and the right to place certified orders, generally referred to as "HH ratings") or for authorization under Veterans' Housing Program Order 1. It describes the kinds of action which the National Housing Agency will take with respect to these applications and requires certain in-

formation and reports from the National Housing Agency. Under Civilian Production Administration Veterans' Housing Program Order 1, approval of a Form CPA-4386 constitutes authorization under that order for the construction, alterations or repairs covered by the CPA-4386.

(b) *Delegation of authority*. The National Housing Agency is hereby authorized to take the following actions in its own name on behalf of the Civilian Production Administration:

(1) To approve under Priorities Regulation 33 applications on Form CPA-4386 which it determines qualify under that regulation, and to assign the HH rating for the dwellings covered by the application as approved.

(2) To approve under Priorities Regulation 33 supplemental applications on Form CPA-4387 which it determines qualify under that regulation, and to assign the HH rating to the dwellings covered by the application as approved.

(3) To grant requests for amendments of approved applications in the following respects:

(i) As to the plans and specifications of the proposed dwellings.

(ii) As to the time by which construction of the proposed dwellings is to be started (such an amendment may be approved even if requested after the expiration date of the original application).

(iii) As to the location of the proposed dwellings.

(iv) As to the sales price, cost or rents for the dwellings.

(v) As to the number of units covered by an application.

(4) To approve under Priorities Regulation 33 to the extent permitted by paragraph (b) (1) above, applications on Form CPA-4386 superseding previous approvals where the former builder wishes to have the new applicant replace him as builder.

(5) To deny applications under Priorities Regulation 33 which it determines do not meet the requirements of that regulation.

(6) To require builders to whom HH ratings have been assigned and owners of housing accommodations built or converted under the Veterans' Emergency Housing Program to give information and file reports concerning the use of HH ratings and other facts necessary to determine the status of the program and the effect of it upon the supply of and demand for building materials and the enforcement of the program (subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942).

(7) To investigate any alleged violations of Priorities Regulation 33 with respect to preferences for veterans or the sales price, cost, rent, occupancy or disposition of dwellings, and to refer violations to the Civilian Production Administration for appropriate administrative or criminal action.

(8) To approve or deny applications on Form CPA-4415 for priorities assistance under Direction 8 to Priorities Regulation 33 within material quantity limitations established by the Civilian Production Administration.

(9) To authorize, under Direction 11 to Priorities Regulation 33, the use of certified-HH ratings, HHH ratings, and "authorized orders" by contractors for building materials for temporary re-use housing projects of the Federal Public Housing Authority.

(c) *Appeals and exceptions.* The National Housing Agency may, in its discretion, grant any appeals from the provisions of Priorities Regulation 33 or any direction to that regulation except appeals which, under the regulation or the direction, should be filed with the Civilian Production Administration. The National Housing Agency may also, in its discretion, grant priorities assistance under Priorities Regulation 33 or authorization under Veterans' Housing Program Order 1 for housing accommodations covered by the regulation, even though the application fails in some respect to satisfy the requirements of the regulation.

(d) *Instructions and procedures.* In exercising the authority given by this directive the National Housing Agency shall be governed by Priorities Regulation 33 as amended from time to time and by any written instructions which may be given by the Administrator, Deputy Administrator or Director of the Bureau of Reconversion Priorities of the Civilian Production Administration. The National Housing Agency may issue regulations, orders, and instructions under this Directive setting up criteria and standards for the approval of applications under Priorities Regulation 33 in order to carry out the purposes of that regulation and the Veterans' Emergency Housing Program.

(e) *Reports to the Civilian Production Administration.* The National Housing Agency shall furnish the Civilian Production Administration with copies of approved applications and with such reports and other information as may be requested by the Civilian Production Administration for the purpose of determining the status of the program and the effect of it upon the supply of and demand for critical building materials, and the allocation thereof.

(f) *Redelegations.* The authority delegated by this directive to the National Housing Agency may be redelegated by it to its authorized officials or to any constituent unit of the National Housing Agency which may in turn redelegate to its authorized officials or to any department of the United States Government which may in turn redelegate to its authorized officials.

Issued this 24th day of July 1946.

Director, Bureau of  
Reconversion Priorities.

PART 903—DELEGATION OF AUTHORITY  
[Directive 39]

PRIORITIES ACTION BY THE VETERANS'  
ADMINISTRATION

Section 903.153, Directive 39, is hereby  
amended to read as follows:

§903.153 *Directive 39—(a) Rating for material.* The Veterans' Administration may assign and apply within limits prescribed by Civilian Production Administration, preference ratings to the delivery of materials (including products, commodities, equipment, accessories, parts, or assemblies) subject to the condition that, unless otherwise specifically provided in a Priorities Policy Decision, the Veterans' Administration may not assign or apply ratings to the delivery of any material for which application for rating or for specific authorization is required by an order or regulation to be made on a form other than CPA 541-A.

(b) *Ratings for construction.* Preference ratings may be assigned to:

(1) Veterans' Administration construction projects.

(2) Remodeling of buildings to be leased to the Veterans' Administration for use as regional or branch offices. "Remodelling" as used in this paragraph means the minimum remodeling required to serve the purpose of the Veterans' Administration as lessee.

(c) *Restrictions on rating authority.* Any instrument which assigns a rating to the delivery of tires or tubes shall before issuance be reviewed and approved by the Civilian Production Administration.

(d) *Form of assignment of ratings.* The Veterans' Administration shall assign or apply ratings under this directive by issuance of a legend substantially as shown below, to which may be added any further provisions which conform to Civilian Production Administration orders or regulations and which are authorized by priorities policy decisions:

Under authority of the Civilian Production Administration a preference rating of MM is assigned (or applied) to the delivery of the material referred to herein. Application and extension of the rating is governed by Priorities Regulation 3 of the Civilian Production Administration.

The legend shall be endorsed on or attached to an appropriate instrument which shall include (1) the name and address of the person to whom the rating is assigned, (2) the quantity, dollar value and description of items rated, and (3) the signature and title of the official of the Veterans' Administration who assigns or applies the rating.

(e) *Application and extension of ratings.* Ratings assigned or applied under this directive may be applied and extended only in accordance with applicable regulations of the Civilian Production Administration.

(f) *General provisions.* (1) The Veterans' Administration may exercise the authority delegated in this directive through such of its officials as the Administrator of Veterans' Affairs may specifically authorize in writing to assign or apply the "MM" rating, and only through such officials.

(2) The Veterans' Administration shall make to the Director of Bureau of Reconversion Priorities such monthly reports on the exercise of authority granted by this directive as he may require from time to time.

(3) A true copy of every document on which the Veterans' Administration as-

signs or applies a preference rating pursuant to the provisions of this directive shall be maintained by the Veterans' Administration for inspection by representatives of the Civilian Production Administration at any time.

Issued this 26th day of July, 1946.

Director,  
Bureau of Reconversion Priorities.

PART 944—REGULATIONS APPLICABLE TO THE  
OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 13, Direction 17 as  
Amended July 26, 1946]

SALE OF CARBON STEEL BLACK ANNEALED OR  
GALVANIZED WIRE BY WAR ASSETS ADMIN-  
ISTRATION

The following amended direction is  
issued pursuant to PR 13:

(a) *What this direction does.* There is an urgent need for carbon steel black annealed or galvanized wire suitable for use in making wire bale ties for baling hay, straw, alfalfa, other farm products, paper and rags, since this type of wire is not readily obtainable in sufficient quantities from new production.

The purpose of this direction is to earmark not more than 7,500 tons of carbon steel black annealed or galvanized wire in gauges 12-16 inclusive held by War Assets Administration as surplus property, and to make this material available for the above uses. It permits sales by WAA only to buyers who give the certification described in paragraph (b), except that 15% of any lot may be disposed of to other buyers. The direction only applies to wire of the type described which is declared surplus in Iowa, Minnesota, Missouri, or states east of the Mississippi River.

Although this direction restricts certain sales to persons who will use the wire for the purposes specified, it does not prohibit WAA from making sales, to the persons and for the purposes specified, upon such other terms and in such quantities as WAA may determine; and preference ratings have no effect upon any sales which may be made by WAA, either by way of obliging it to sell or by way of determining as among the several buyers permitted by this direction who shall get the material from WAA.

(b) *Restriction on sales by WAA.* WAA may not sell wire of the type described in paragraph (a), except to purchasers described below:

(1) With respect to any lot of wire which WAA determines is available for sale, 85% may be sold only to buyers who give a certificate with their purchase orders in substantially the following form:

The undersigned certifies to the seller and CPA subject to the criminal penalties of section 35 (A) of the U. S. Criminal Code, that (1) he is a producer of wire bale ties; and (2) the material obtained under this purchase order will be used only for the production of wire bale ties suitable for use in baling hay, straw, alfalfa, other farm products, paper and rags.

The standard certificate in Priorities Regulation 7 may not be used instead of this certificate.

(2) The other 15% may be sold freely to other buyers in accordance with the Surplus Property Act of 1944 and applicable regulations of WAA.

(c) *Obligations of persons giving certificates.* Any person giving the certificate

described above may obtain and use the material he gets with the certificate only in accordance with its terms.

(d) *Expiration date.* Unless sooner revoked this direction shall expire on September 30, 1946, or as soon as WAA has sold to buyers under paragraph (b) (1) 7,500 tons of the type of wire described in paragraph (a), if that occurs before September 30, 1946. The expiration of the direction shall not relieve any person who has obtained wire by use of the certificate referred to above from the obligation of using the wire in accordance with the certificate which he has given.

Issued this 26th day of July 1946.

**PART 944—REGULATIONS APPLICABLE TO  
THE OPERATION OF THE PRIORITIES SYSTEM**

[Priorities Reg. 28, Schedule I, as Amended  
July 26, 1946]

**CRITICAL PRODUCTS**

(a) *Introduction.* The table in this schedule lists certain of the critical products which the Civilian Production Administration has determined to be in such tight supply that they are serious threats to the national economy. (This schedule supersedes former Directions 1 through 5 and 7 through 12 to PR-28 covering critical products.) When effective assistance of other kinds is not practicable, the CPA may assign CC preference ratings under paragraph (e) of Priorities Regulation 28 for material which is needed to sustain or increase the pro-

duction of these products. In addition to the rules explained in paragraph (b) below, the general rules in paragraphs (c) and (d) of Priorities Regulation 28 governing the application for and assignment of CC ratings are also applicable. Especially important is paragraph (d) (1) of Priorities Regulation 28, requiring a determination that the use of substitute and less scarce materials is not practicable, that reasonable efforts have been made to get the required item without a rating, and that a rating is required to obtain the item by the latest date and in the minimum quantity practicable after taking into consideration material in inventory and available without a rating.

(b) *Explanation of table.*

*Column I—Critical products.* Column I lists the critical products for which CC ratings may be granted to sustain or increase production. When "specialized machinery" for another critical product is listed in Column I, it includes only machinery and equipment designed solely for the production of that critical product. It does not include general types of equipment suitable for other use even though a particular piece of equipment is designed and built expressly for a producer of the critical product.

*Column II—Persons eligible.* Column II states the persons who may apply for CC ratings. Where Column VI indicates that CC ratings may be assigned for construction, the builder or contractor may apply instead of the person listed.

*Column III—Production materials.* (1) If the word "yes" appears in Column III, the CPA may assign CC ratings to the person named in Column II to get production materials needed to make the item listed in Column I regardless of the applicant's minimum economic rate of operation. Where the applicant regularly sells materials as maintenance, repair or operating supplies for the item he makes, CC ratings may also be assigned to him for such supplies or for mate-

rials needed to make them. Applications for CC ratings for textile fabrics or yarns should be made under Priorities Regulation 28A, and CC ratings may be assigned under paragraph (d) of that Regulation in accordance with subparagraph (d) (5) (1).

(2) If the word "no" appears in Column III, CC ratings will be assigned for production materials only as provided in Priorities Regulation 28. The same rule applies to any production materials expressly excluded from Column III.

*Column IV—Capital equipment.* (1) If the word "yes" appears in Column IV, the CPA may assign CC ratings to the person named in Column II to get capital equipment which either (i) will result in a substantial increase in production of the item listed in Column I, or (ii) is needed to replace present operating equipment which is in danger of imminent breakdown.

(2) Where the word "no" appears in Column IV, CC ratings will be assigned for capital equipment only as provided in Priorities Regulation 28. The same rule applies to any capital equipment expressly excluded from Column IV.

*Column V—MRO.* (1) If the word "yes" appears in Column V, the CPA may assign CC ratings to the person named in Column II to get maintenance, repair and operating supplies (MRO) which he needs to use in making the item listed in Column I.

(2) If the word "no" appears in Column V, CC ratings will be assigned for MRO only as provided in Priorities Regulation 28.

*Column VI—Construction.* (1) If the word "yes" appears in Column VI, the CPA may assign CC ratings to the person named in Column II, or to his builder, for material needed for incorporation in new plants or in expanded or modernized old ones where increased production of the item listed in Column I will result, or where the construction is necessary to prevent a loss of production.

(2) If the word "no" appears in Column VI, CC ratings will be assigned for construction materials only as provided in Priorities Regulation 28.

PART 1010—SUSPENSION ORDERS  
 [Suspension Order S-949]

HENRY ARONOFF & SON

Jerome Aronoff is an individual doing business as Henry Aronoff and Son, with

his principal place of business in Denver, Colorado, and is engaged in building apartment buildings. On February 5, 1946 Fidelity Investment Company, in which Jerome Aronoff is an officer and stockholder, was authorized on Form CPA-4386, Serial No. 66-101-000134, to carry on construction of a twenty-five unit apartment building located at 900 East 8th Avenue in Denver, Colorado, pursuant to Veterans Housing Program under Priorities Regulation 33, and was assigned an HH rating to procure the minimum quantities of certain construction materials listed in Schedule A to

Priorities Regulation 33 required for completion of the twenty-five unit building described in the authorization. The firm of Henry Aronoff and Son was named as the builder in such authorization. In February 1946 HH ratings granted pursuant to the above authorization were applied by Jerome Aronoff for 469,681 feet of dimension lumber and 68,000 feet of oak flooring, although the minimum quantities of such items required for completion of the 25-unit apartment were 173,000 feet of dimension lumber and 35,000 feet of oak flooring. The application of these HH rat-

ings for 296,681 feet of dimension lumber and 33,000 feet of oak flooring in excess of the quantities needed to complete the authorized housing units constituted wilful violations of Priorities Regulation 3 and Direction 1 to Priorities Regulation 33.

In connection with the extension of HH ratings, Jerome Aronoff failed to keep adequate records in violation of Priorities Regulation 1. These violations have interfered with the controls established by the Civilian Production Administration for the distribution of critical materials. In view of the foregoing, it is hereby ordered that:

§ 1010.949 *Suspension Order No. S-949.* (a) For a period of three months from the effective date of this order Jerome Aronoff shall not apply or extend any preference ratings regardless of the delivery date named in any purchase orders to which such ratings may be applied or extended.

(b) Jerome Aronoff shall cancel immediately all preference ratings which have been applied or extended to orders which have not yet been filled, except that if he has extended a customer's rating to get an item for delivery without change in form to that customer (as distinct from replacing it in inventory), he need not cancel the rating provided the item when received is promptly delivered to the customer whose rating was extended.

(c) All preference ratings, allotments and allocations presently outstanding in connection with orders for delivery of materials to Jerome Aronoff, or placed prior to the termination date of this order are void and shall not be given any effect by suppliers of Jerome Aronoff, or any other person. This does not apply to material already delivered or in transit for delivery to him on the effective date of this order.

(d) The provisions of this order shall not apply to preference ratings placed or to be placed on orders for materials necessary to complete the 25-unit apartment building at 900 East 8th Avenue, Denver, Colorado, authorized on Form CPA-4336, Project Serial No. 66-101-000134.

(e) Jerome Aronoff shall refer to this order in any application or appeal which he may file with the Civilian Production Administration or the NHA for priorities assistance.

(f) Nothing contained in this order shall be deemed to relieve Jerome Aronoff from any restriction, prohibition, or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

(g) The restrictions and prohibitions contained herein shall apply to Jerome Aronoff, doing business as Henry Aronoff and Son or any other name, his or its successors and assigns, or persons acting in his behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(h) This order shall take effect on the 5th day of August 1946.

Issued this 25th day of July 1946.

[Conservation Order M-387, Revocation]

##### ROSIN

Conservation Order M-387 is hereby revoked. This revocation does not affect any liabilities incurred for the violation of this order or any action taken by the Civilian Production Administration under it. The use and receipts of rosin remain subject to applicable CPA orders and regulations.

#### Chapter XI—Office of Price Administration

##### PART 1305—ADMINISTRATION

[SO 129, Amdt. 33]

##### EXEMPTION AND SUSPENSION FROM PRICE CONTROL OF MACHINES, PARTS, INDUSTRIAL MATERIALS AND SERVICES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Order 129 is amended in the following respects:

1. Section 12 (a) is amended by adding the following to the list of commodities thereunder:

Arc lamps.  
Batteries, primary, wet cell.  
Ducts and accessories for electrical uses, non-metallic, except wood, asbestos-cement, cement conduit and clay conduit.  
Electric meter testing equipment, not including test sets for electronic apparatus.  
Feeder voltage regulators.  
Flood lighting equipment, as defined in the National Electric Manufacturers Association Manual, Part IV, dated January 31, 1946, in Section 2-FL.  
Galvanometer and pyrometer movements.  
Hangers and accessories, disconnecting and lowering, for lighting equipment.  
Industrial control equipment as defined in the National Electric Manufacturers Association Manual, Part IV, dated January 31, 1946, in Section 4-IC, when designed and assembled for use with motors of 250 HP and larger, but not including parts when sold separately unless such parts are specifically designed for use with 250 HP motors or larger.  
Instruments, electrical, electrically or magnetically actuated for indicating, measuring, recording, or testing electrical quantities, not including automotive or electronic testing instruments.  
Instrument transformers, electrical, not including electronic parts.

Lighting equipment, electrical, usable solely for airport, airway, marine or seadrome use.

Lightning arresters.

Overhead trolley line materials as defined in the National Electric Manufacturers Association Manual, Part IV, dated January 31, 1946, in Section 8-OT.

Panels, blank, slate or composition, for electrical purposes, except parts for radio receiving sets.

Potheads, indoor and outdoor, used for making terminal connections to electrical cable.

Radio headphones.

Rail-bonds, electrical.

Rectifiers, electrical, 1 KW capacity and larger.

Searchlights, except battery operated.

Street lighting equipment and highway lighting equipment as defined in the National Electric Manufacturers Association Manual, Part IV, dated January 31, 1946, in Section 2-SH.

Signalling apparatus, electrical, rated in excess of 100 watts, not including automotive.

Theater control boards as defined in the National Electric Manufacturers Association Manual, Part IV, dated January 31, 1946, in Section 5PB-d.

Traffic signals, pre-timed and vehicle actuated systems, pedestals, controllers, signals of all types for regulating pedestrian and vehicular traffic, and electric flashing, indicating or warning beacons.

2. Section 1<sup>o</sup> (b) is amended by adding the following to the list of commodities thereunder:

Machine tools subject to MPR 1 and MPR 67, which with standard equipment weigh in excess of 2,000 pounds, including but not restricted to the following:

Automatics (bar and chucking).  
Bending rolls.  
Boring mills, horizontal and vertical.  
Brakes.  
Broaching machines.  
Bulldozers.  
Cam milling machines.  
Centering machines.  
Chambering machines.  
Chamfering machines.  
Cut-off machines.  
Diamond boring machines.  
Drills, multiple spindle, radial, sensitive.  
Filing machines.  
Forging hammers.  
Gear cutting and generating machines.  
Grinders, cutte cylindrical, disc, internal, surface, tool.  
Hammers, power.  
Headers.  
Hobbing machines.  
Honing machines.  
Jig boring machines.  
Keyseating machines.  
Lapping machines.  
Lathes, engine, turret and special purpose.  
Milling machines, hand, plain, universal, vertical.  
Nibbling machines.  
Oil grooving machines.  
Planers.  
Polishing and buffing machines.  
Presses, power.  
Profilers.  
Punching machines.  
Screw machines.  
Shapers.  
Sharpening and filing machinery.  
Slotters.  
Swaging machines.  
Tapping machines.  
Threading and thread milling machines.

The following list of machine tools subject to MPR 1 and MPR 67 which operate automatically (regardless of weight). For the purpose of this order "operate automatically" applies to a machine tool as defined in MPR 1 and MPR 67 which

- with standard equipment is capable of acting fully automatically so that when once started manually it goes through its complete cycle of operation repeatedly and continually until stopped, including only the following:
- Automatic screw machines, single and multiple spindle.
  - Automatic threading machines, single and multiple spindle.
  - Automatic milling machines.
  - Automatic chucking machines, vertical or horizontal.
  - Automatic cutting-off machines.
  - Automatic screw slotting machines.
  - Automatic tappers.
  - Automatic bolt and screw head trimmers.
  - Automatic nut forming machines.
  - Automatic turret forming machines.
- Rental of any machine or machine tool subject to MPR 1, MPR 67 or RMPR 136, except rentals for any type or class of machinery (regardless of size) listed in MPR 134 and MPR 375.
3. Section 12 (c) is amended by adding the following to the list of commodities thereunder:
- Air conditioning equipment condensing units, 25 tons capacity and over.
  - Anchors, earth and rock, except guy-line anchors.
  - Anvils and parts subject to RMPR 136.
  - Automotive testing and maintenance equipment, electrical and mechanical, subject to RMPR 136, including only the following:
    - Alignment machines.
    - Appliers, brake lining.
    - Axle straighteners.
    - Balancing machines, crankshaft, wheel, etc.
    - Bearing oil leak detectors.
    - Benches, generator test.
    - Brake drum gauges.
    - Brake lining application machines.
    - Brake lining grinders.
    - Brake lining riveting machines.
    - Combustion analyzers.
    - Creepers, automotive.
    - Dollies, wheel.
    - Front end inspection and correction machines.
    - Headlight testing machines.
    - Hoists, hydraulic, pneumatic, electrical, mechanical, except those designed for use in connection with automotive trucks and driven by power take-off from the truck engine.
    - Mileage testers.
    - Motor analyzers and testers.
    - Racks, frame straightening.
    - Speedometer testing equipment.
    - Stands, engine overhaul.
    - Straighteners, frame and axle.
    - Testers, ignition, fuel and electrical systems.
    - Tire balancing machines.
    - Tire inflation stands with or without meters.
    - Towing bars and cradles.
    - Wheel straighteners, balancers and aligners.
  - Bearings, anti-friction, subject to RMPR 136, finished weight 25 pounds or more per bearing.
  - Bearings and bushings, ferrous and non-ferrous, subject to RMPR 136, finished weight 25 pounds or more per bearing or bushing.
  - Belting, leather and textile, subject to RMPR 136.
  - Blades, fan, subject to RMPR 136.
  - Blocks, brake and friction, industrial.
  - Brushes, industrial, power driven.
  - Buffing and polishing wheels.
  - Buttons, plastic, subject to MPR 523.
  - Car loaders, unloaders and dumpers, railway and mine, subject to RMPR 136.
  - Casters.
  - Chain, chain fittings and assemblies subject to RMPR 136, not including power transmission.
  - Coal preparation machinery and equipment subject to RMPR 136, including but not restricted to the following:
    - Automatic samplers.
    - Coal cleaning and drying equipment.
    - Coal handling conveyors and picking tables.
    - Coal sizing and screening equipment.
    - Coal thickeners and clarifiers.
    - Coal tipples and head frames.
    - Layer loading equipment and coal car retarders.
    - Magnetic pulleys.
  - Compressors, air and gas, and dry vacuum pumps which normally are driven by prime movers of more than 10 HP, and assemblies of such equipment when sold with or without prime movers, storage tanks, controls, etc.
  - Condensers, steam power generation and industrial.
  - Conveyors and conveying systems, including portable, loaders and conveyors, all types, subject to RMPR 136.
  - Core, blast hole and water well drilling machinery.
  - Cranes, floating.
  - Crushers, grinders and pulverizers, including complete plants but not including grinders, crushers and pulverizers for farm use and for the preparation of animal or human food, and grinders used for shaping metals, plastics or wood.
  - Cylinders, power, hydraulic, hydropneumatic and pneumatic covered by RMPR 136.
  - Derricks, guy, stiffleg, floating, subject to RMPR 136.
  - Dollies, industrial, all metal.
  - Dredges, including equipment specially designed for such machinery.
  - Drivers, pile, including caps and extractors.
  - Dust collecting equipment, industrial, portable and stationary, including industrial vacuum cleaners.
  - Economizers, steam, industrial and marine.
  - Engines, gasoline and kerosene, stationary and marine, total cylinder volume 1,000 cubic inches or more.
  - Engines, oil, stationary and marine, normally rated for continuous duty at more than 50 HP, excluding Diesel engines.
  - Engines, gas, stationary and marine, except those engines which are designed for and sold primarily for operation on liquid fuels.
  - Facings, clutch, except automotive.
  - Fans and blowers, industrial, covered by RMPR 136, not including automotive fans and blowers, unit heaters or unit ventilators, hand blowers, desk, portable, pedestal, ceiling or wall mounted types, warm air furnace fans or blowers, attic ventilating fans, exhaust fans and blowers 24" standard diameter and smaller, designed to be built into a building, and fans and blowers which are sold to other manufacturers as component parts of machines covered by MPR 64, RMPR 111, MPR 188, MPR 591 or MPR 598.
  - Feed water heaters, industrial.
  - Fixtures and accessories, bathroom, plastic, subject to MPR 523.
  - Flame arrestors, internal combustion engine, except automotive.
  - Forges, hand or power operated.
  - Forgings, subject to MPR 351, as sold by the forger and weighing 50 pounds or more each.
  - Gears and pinions exclusively designed for use in military vehicles and equipment.
  - Generators, gas, industrial.
  - Glass products, industrial, scientific and technical, as follows:
    - Electrical glassware as follows: Flares.
    - Industrial glassware as follows:
      - Cylinders.
      - Flat gauge glasses.
      - Gauge and oil cup glasses.
      - Meter and relay covers.
  - Laboratory and pharmaceutical ware as follows:
    - Apparatus ware.
    - Chemical ware.
    - Instrument tubing.
    - Laboratory apparatus.
    - Pharmaceutical ware.
    - Rough glass blanks for optical, ophthalmic and scientific uses.
    - Signal ware as follows:
      - Airplane running lights
      - Front glasses.
      - Lenses.
      - Obstruction lights.
      - Optical ware (color and light filters).
      - Roundels.
    - Governors, except automotive.
    - Heat exchanger equipment subject to RMPR 136 for which the manufacturer had no published or established price on October 1, 1941, which is of the shell and tube type and which has a heat transfer area in excess of 100 square feet.
    - Hoists, all types, subject to RMPR 136.
    - Jacks and jack screws of more than 20 tons capacity, except those customarily purchased for or designed as original equipment for passenger automobiles or commercial trucks and busses.
    - Keys and pins, machine, covered by RMPR 136.
    - Kitchen ware, plastic, subject to MPR 523.
    - Lift trucks, portable elevators and fabricated steel racks designed for and used with lift trucks and portable elevators, subject to RMPR 136.
    - Logging and lumbering yarders and arches, including trailers.
    - Mining machinery, including but not restricted to the following, but only when designed and sold for use as mining machinery:
      - Cars, shuttle.
      - Coal cutting machines, including trucks.
      - Coal and coke sizers.
      - Coal picks, except hand tools.
      - Drills, hand, post, wheel and crawler mounted.
      - Hoists, electric and air, including tugger, slope shaft, room and mine car spotters.
      - Mine loaders.
      - Miscellaneous machinery especially designed for use in mines and sold exclusively to mines, covered by RMPR 136.
    - Pulverizers.
    - Specialized mining machinery and equipment, including but not restricted to the following:
      - Adjustable props.
      - Assaying and testing equipment.
      - Bag filling machines.
      - Buckets, skips and cages.
      - Car loaders.
      - Dumpers, mine car.
      - Giants.
      - Grizzlies.
      - Lamps.
      - Mine doors.
      - Post or prop pullers.
      - Rock dust distributors.
      - Safety equipment.
      - Splitters.
      - Timber setting machines.
      - Underground fire trucks.
    - Movements, timing and clock, industrial, subject to RMPR 136, including synchronous motors and mechanisms.
    - Ore bridges.
    - Power transmission equipment, industrial, including only the following:
      - Belt tighteners.
      - Blocks and bearing housings.
      - Brackets.
      - Hangers.
      - Pillow blocks.
      - Shifters.
    - Pumps, power operated, when sold with or without a power unit as follows:
      - Pumps, steam, direct acting, reciprocating, steam and water cylinders integrally mounted, any capacity at any head.

Pumps, reciprocating, power operated, other than steam, capacities in excess of 100 gallons per minute or working pressures in excess of 250 pounds per square inch.

Pumps, power operated, other than steam or reciprocating, capacities in excess of 100 gallons per minute at normal maximum rated head or pressure.

Refrigeration equipment condensing units, 25 HP or more.

Screening machinery subject to RMPR 136, not including machinery used for the preparation of animal or human food.

Separators, steam, industrial and marine.

Services subject to MPR 581 except abrading, assembling cutting, forming, grinding, machining, shaping and welding.

Settings, refractory lined, including soaking pit covers, especially engineered, designed and sold for use in or with furnaces, heaters, heat exchangers, boilers, incinerators and oil stills used for industrial processing purposes only, not for domestic purposes.

Ship and boat loaders and unloaders.

Sirens, air, steam, electric, power driven.

Skid platforms, skid pallets and skid boxes, all metal.

Spools and reels, metal, designed and sold for use in shipping wire, cable, rope, etc.

Springs subject to RMPR 136.

Snow plows subject to RMPR 136, not including snow plows especially designed for use with farm and garden tractors.

Surveying instruments, including levels, transits and drafting instruments, but not including drafting room supplies.

Tanks and vessels, pressure, non-pressure and open, subject to RMPR 136, except those designed for incorporation into other machinery.

Tools, specially designed, subject to RMPR 136, but not specifically listed by name in Appendix A of RMPR 136.

Tools and machinery, specially designed, subject to MPR 581.

Trailers, non-highway, used with industrial trucks, subject to RMPR 136.

Trucks, power operated, except automotive trucks, straddle trucks and lumber carriers.

Water conditioning and purifying equipment, except domestic equipment.

Water well drilling machinery.

Welding and cutting equipment subject to RMPR 136.

Winches and windlasses, hand and power operated.

4. Section 12 (e) is amended by adding the following to the list of commodities thereunder:

Beverage distilling, winery machinery and equipment and brewing and beverage processing and bottling machinery and equipment, including only the following items, and only when designed and sold for use in the manufacture of distilled, malted, carbonated and fermented beverages, subject to RMPR 136:

Aerators.

Agitators.

Attemporators.

Barrel packers.

Barrel scrubbers.

Barrel washers.

Beer kettles.

Beer mash tubs.

Beverage bottle mixers.

Bottle accumulating tables.

Bottle casers.

Bottle fillers.

Bottle inspection tables.

Bottle labeling machines.

Bottle rinsers.

Bottle screw cappers.

Bottle washers.

Brew kettles.

Can filling machines.

Can washers.

Capping machines.

Carbonators.

Carbonic acid gas fixtures.

Concentrators.

Condensers.

Coolers (self-contained).

Cooling towers.

Crowning machines.

Dissolvers.

Evaporators.

False bottoms.

Fermenters.

Filter and Filter Presses.

Filtermoss-washers.

Malt mills.

Malting equipment.

Mash tubs.

Mashing machines.

Miscellaneous Beverage distilling machinery and equipment.

Miscellaneous brewing, beverage processing and bottling machinery.

Miscellaneous winery machinery and equipment.

Mixers.

Pasteurizers.

Preheaters.

Pulp mashers.

Rackers.

Saturators.

Special bottle and can conveyors.

Syrupers.

Syrup mixers.

Tanks.

Tubs.

Unscramblers.

Vat dryers.

Vats.

Wort coolers.

Can making machinery and equipment.

Ceramics machinery subject to RMPR 136, including but not restricted to the following:

Agitators.

Attrition mills.

Autoclaves.

Ball mills.

Briquetting machines.

Centrifuges.

Clay feeders.

Crushers.

Cutting machinery.

De-airing machinery.

Feeders.

Jigging machines.

Mills and milling machines.

Mixers.

Molding machines.

Pipe making machinery, not including concrete pipe machinery.

Pottery and china-making machinery.

Presses, molding.

Pulverizers.

Rolls, grinding and crushing.

Stoneware making machinery.

Tempering machines.

Chemical process machinery subject to RMPR 136, including but not restricted to the following:

Acid feeders.

Acid making machinery.

Agitators.

Ammonia manufacturing and recovery plants.

Ammonia stills.

Autoclaves.

Bleaching machinery.

Blow cases.

Box presses.

Briquetting machinery.

Catalyst machinery.

Centrifuges.

Chlorinators.

Clarifiers.

Coal tar products machinery.

Coding machines.

Columns, absorbing and distilling.

Concentrators.

Condensers.

Coolers and cooling tanks.

Crushers.

Crystallizers.

Digestors.

Dryers.

Drums, drying and flaking.

Feeders.

Glass-lined equipment.

Granulators.

Grinders.

Machinery for producing industrial bases.

Milling machines.

Mills.

Nitrators and sulfonators.

Pans, crystallizing and evaporating.

Percolators.

Precipitators.

Presses.

Pulverizers.

Refiners.

Retorts.

Rolls, grinding and crushing.

Scrubbers.

Separators.

Sintering machinery.

Stills.

Tanks, specially designed.

Treaters.

Thickeners.

Washers.

Concrete batch measures and weighers used in connection with the production of concrete products.

Cotton-ginning and delinting machinery.

Die casting and molding machinery.

Electroplating and hot-dip metal coating equipment, including preparatory and finishing equipment used in connection with metal coating processes, including but not restricted to the following:

Anodizing equipment.

Ball anode containers.

Barrel plating machines.

Burnishers.

Electrolytic plating machinery.

Galvanizing machinery and equipment.

Plating generators.

Tanks and vats.

Tin plating machines.

Floor surfacing and floor maintenance machinery and equipment subject to RMPR 136, including only the following:

General floor machinery used for scrubbing (wet or dry), floor polishing, waxing, steel wooling and disc sanding, including combination scrubbers and water pick-up machines, sanders (drum type), floor edgers and terrazzo grinders.

Glass making machinery and equipment.

Hat making machinery and equipment, not including sewing machines, but including the following illustrative list:

Finishing shop machinery:

Brim finishing machines.

Brim ironers.

Crown finishing machines.

Crown ironers.

Flanging machines.

Perforating (leather) machines.

Renovating machines (hat cleaners equipment).

Rounding machines.

Slicking machines.

Fur shop machinery:

Cutting machines.

Clipping machines.

Cylinder mixers.

Grinders.

Plucking machines.

Skin crushing machines.

Tearing mills.

Hat shop machinery:

Apron settler machines.

Blocking machines.

Blower feeders.

Box feeders.

Conical mixers.

Dusters.

Dyeing machines.

Felting machines.

Forming machines.

Fur blowing machines.

Multi-roller machines.

Pouncers.  
Rounding machines.  
Starting machines.  
Stiffening machines.  
Stitching machines.  
Needles, industrial machine.  
Leather tanning and leather working machinery and equipment, not including sewing machines.  
Ore dressing and ore concentrating machinery, including but not restricted to the following:  
Flotation machines.  
Gravity concentrating tables.  
Jigs.  
Mills, ball, pebble, rod and tube.  
Sink-float machines.  
Paint and varnish making machinery.  
Petroleum industry drilling and producing machinery and equipment, including only the following:  
Exploration machinery and equipment:  
Prospecting machinery and equipment.  
Geophysical machinery and equipment.  
Drilling machinery and equipment:  
Cable tool surface machinery and equipment.  
Cable tool sub-surface equipment.  
Cementing, floating, guiding and shoe equipment.  
Rotary bits, reamers and core barrels.  
Rotary surface machinery and equipment.  
Rotary sub-surface equipment.  
Derricks and substructures.  
Production machinery and equipment:  
Flowing well equipment, surface and sub-surface.  
Packers, screens and miscellaneous.  
Rod lifting machinery and equipment, surface.  
Rod lifting machinery and equipment, sub-surface.  
Rodless oil lifting machinery and equipment.  
Sucker, pull and polish rods.  
Treating and storage equipment:  
Separators, treaters, heaters, water knockouts, high pressure.  
Storage tanks and accessories.  
Well servicing machinery and equipment.  
Well surveying machinery and equipment.  
Petroleum refining machinery.  
Pharmaceutical machinery designed exclusively for and sold to manufacturers of biologicals, drugs and pharmaceuticals.  
Printing trades machinery and equipment, as defined in Order No. 568 under RMPR 136.  
Pulp, paper, fiber and pulpboard making machinery, not including converting machinery, but including the following illustrative list:  
Barkers.  
Beaters, thickeners and wet machines.  
Bleaching machinery and equipment.  
Digesters.  
Hogs, chippers and splitters.  
Knotters and borers.  
Recovery machines.  
Stock preparatory machinery.  
Rubber and allied products machinery when designed for and sold primarily for use in the manufacturing, processing or fabrication of rubber and rubber products, including tire recapping and retreading machinery and accessories for tire recapping and retreading machinery, and including the following illustrative list:  
Band building machines.  
Bead making machines.  
Calendars.  
Curing bags, molds and buffers.  
Curing presses.  
Crackers.  
Compression molding presses.  
Cutting and splicing machinery.  
Debeading machinery.  
Devulcanizers.  
Dipping machines.  
Doubling drums.

Extruders.  
Fabric storage racks.  
Fabric bias cutters.  
Grinding machines.  
Lift tables.  
Looms.  
Mills.  
Mill aprons and blenders.  
Mill batch-off and cooling tanks.  
Mixers.  
Molding, vulcanizing and curing presses.  
Pelletizers.  
Plasticators.  
Polishing machines.  
Presses.  
Refiners.  
Rolls.  
Rubber bale cutters.  
Rubber and rubber products cutting and trimming machines.  
Rubber washers and sheeters.  
Steam platens, plates and tables.  
Strainers.  
Stripping machines.  
Tensile testers.  
Tire bagging machines.  
Tire building drums and machines.  
Tire shaping machines.  
Tire and tube molds.  
Thread cutters.  
Tube splicers.  
Tubing machines.  
Vulcanizers.  
Wrapping machines.  
Shoe manufacturing and repairing machinery, designed exclusively for the manufacture, repair or production of shoes, not including sewing machines.  
Stone working machinery and equipment.  
Tobacco working machinery, including but not restricted to the following:  
Cigar machinery.  
Cigarette machinery.  
Cutters, tobacco manufacturing.

#### PART 1306—IRON AND STEEL

[RPS 49, Amdt. 42]

#### RESALE OF IRON OR STEEL PRODUCTS

A statement of the considerations involved in the issuance of this Amend-

\* 8 F.R. 4608, 4542, 7257, 7595, 7769, 7909, 9630, 9750, 13553, 13669; 9 F.R. 604, 1054, 3649, 4390, 4944, 5987, 6505, 8242, 11106; 10 F.R. 2432.

ment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Price Schedule No. 49 is amended in the following respects: (1) Section 1306.159 (h) is deleted and a new § 1306.159 (h) is added reading as follows:

(h) *Maximum prices for merchant wire products (including standard wire nails, annealed merchant quality and galvanized merchant quality wire) and all types of roofing and siding.* Maximum delivered prices for less-than-carload quantities of merchant wire products and all types of roofing and siding, when such products have been put through the operations commonly known as the warehousing of iron or steel products as defined in § 1306.157 (s), shall be determined in accordance with the provisions of this paragraph. The exemption of certain sales of these products is described in subparagraph (4) below.

(1) *Maximum prices.* For all types of roofing and siding and all merchant wire products:

(i) When the destination is within the city or free delivery area in which the shipping point is located, the maximum delivered price shall be the higher of the following alternative prices:

(a) The price determined in accordance with paragraph (a) or (c) (1) of this § 1306.159, whichever is applicable; *Provided*, That the prices so determined for galvanized roofing and siding, and painted roofing and siding may be increased by 45 cents and 65 cents per 100 pounds, respectively, when the shipping point is located on the Pacific Coast; or

(b) The aggregate of:

(1) The carload basing point base price to dealers at the governing basing point, less any allowance applicable to a producer's sale of the particular product to a jobber, as established in Revised Price Schedule No. 6. "Governing basing point", in this instance, means the established basing point the use of which results in the lowest delivered price at the shipping point;

(2) Carload rate of freight (plus 3 percent) from governing basing point to shipping point. For products customarily priced by a producer on a price column basis, the freight factor shall be determined in columns and the carload rate of freight from governing basing point to shipping point shall be increased by the 3 percent before determining the applicable column;

(3) Differentials set forth in subparagraph (2) of this paragraph (h);

(4) A markup equal to 20 percent of the aggregate of (1), (2) and (3) above; plus

(5) Any additions permitted by subparagraph (3) of this paragraph (h).

(ii) When the destination is outside of the city and free delivery area in which the shipping point is located, the maximum delivered price shall be the higher of the following alternative prices:

(a) The aggregate of:

(1) The carload basing point base price to dealers at the governing basing point, less any allowance applicable to a producer's sale of that product to a jobber, as established in Revised Price Schedule No. 6. "Governing basing point," in this instance, means the established basing point the use of which results in the lowest delivered price at the destination;

(2) Differentials as set forth in subparagraph (2) of this paragraph (h);

(3) A markup equal to 20 percent of the aggregate of (1) and (2) above;

(4) The rail rate of freight from governing basing point to destination; and

(5) Any additions permitted by subparagraph (3) of this paragraph (h);

(b) The aggregate of:

(1) The maximum price established in (1) above; less

(2) Twenty-five cents per 100 pounds; plus

(3) Actual transportation costs paid from shipping point to destination.

(2) *Differentials.* This subparagraph determines differentials to be included in the maximum delivered price when reference is made to this subparagraph in the pricing provisions set out above.

(i) No differentials for quantity are applicable.

(ii) Other differentials (except those for quantity and the jobbers allowance) established in Revised Price Schedule No. 6, as applicable to sales of the kind of merchant wire products or roofing and siding furnished by the seller shall be used.

(3) *Additions.* This subparagraph (3) sets out certain additions which are referred to in the pricing provisions set out above. When applicable, these additions may be included in the maximum price only if the seller indicates on his invoice, in a manner satisfying the invoicing requirements set out in Section 1306.154 (d) of this Schedule, that the addition is being made: *Provided*, The provisions of this subparagraph (3) shall not apply to sales of "excess stock".

(i) The seller may add any excess costs actually paid by him because the producer determined his price on the basis of the emergency basing point provisions set forth in Revised Price Schedule No. 6. This addition shall not be greater than the amount by which (a) below exceeds (b) below.

(a) The sum of the carload basing point base price to dealers at the emergency basing point and the carload rate of freight (plus 3 percent) from the point from which freight was actually paid to the shipping point.

(b) The sum of the carload basing point base price to dealers at the governing basing point and the carload rate of freight (plus 3 percent) from the governing basing point to shipping point.

(ii) The seller may add any excess costs actually paid by him because the producer determined his price on the basis of an order issued under Revised Price Schedule No. 6 granting such producer an individual adjustment. This addition shall not be greater than the amount by which the delivered price ac-

tually charged by the producer exceeds the maximum delivered price which would have been applicable under Revised Price Schedule No. 6 at the time of the seller's resale if the order had not been issued.

(4) *Small quantity exemptions.* The sales described below shall be exempt from this Revised Price Schedule No. 49 except when made by a holder of excess stock. The exempted sales are covered by Maximum Price Regulation No. 133, Retail Prices for Farm Equipment, or the General Maximum Price Regulation:

(i) The following sales of nails, brads, wire tacks or staples (for the purpose of this exemption, the weights specified below shall be determined by combining all items of these products ordered by one person in one day):

(a) Sales in quantities of 2500 pounds or less to consumers; or

(b) Sales in quantities of 1500 pounds or less to contractors; industrial, commercial, or institutional buyers; or the Federal or any State Government, or political subdivisions thereof.

(ii) Sales of all other merchant wire products or roofing and siding to consumers in quantities of 2500 pounds or less. For the purpose of this exemption, the weight shall be determined by combining all items in this category ordered by one person in one day.

(5) *Definitions.* The term:

(i) "Roofing and siding" means galvanized and other metallic coated or painted iron or steel sheets in rolls or which have been corrugated or otherwise formed and which are commonly used as overhead or side covering on buildings or other structures. It does not include metallic coated sheets in coils sold for other than roofing purposes, or formed sheets sold for use in the manufacture of culvert pipe or structural arches.

(ii) "Merchant wire products" includes any wire product or fence post of a type manufactured by a producer which is sold in a form customarily used by an ultimate consumer without further processing other than recoiling, cutting, or straightening. It does not include manufacturers' wire, wire rope, or lead head nails.

(iii) "Manufacturers' wire" means any wire product of a type manufactured by a producer and which is sold to be further processed by bending, welding, or farming, etc. before being used by an ultimate consumer.

(iv) "Standard wire nails" includes any wire nails, brads, or staples for which the producer's maximum price (established by Revised Price Schedule No. 6) is determined using a basing point base price expressed in dollars and cents per 100 pounds and which is not subject to percentage discounts.

(v) "Producer", when used in this paragraph (h) shall have the meaning given it in Revised Price Schedule No. 6.

(vi) "Shipping point" means the point at which material is first loaded on a truck or car for shipment to the buyer's destination.

2. In § 1306.159 (k) (2), subdivisions (1) and (ii) are amended to read as follows:

(i) *Merchant wire products (including standard wire nails, annealed mer-*

*chant quality and galvanized merchant quality wire and all types of roofing and siding.)* For all types of roofing and siding and all merchant wire products:

(a) When the destination is within the city or free delivery area in which the shipping point is located, the maximum price shall be the aggregate of:

(1) The carload basing point base price to dealers at the governing basing point, less any allowance applicable to a producer's sale of the particular product to a jobber, as established by Revised Price Schedule No. 6. "Governing basing point", in this instance, means the established basing point the use of which results in the lowest delivered price at the destination;

(2) Carload rate of freight (plus 3 percent) from governing basing point to destination. For products customarily priced by a producer on a price column basis, the freight factor shall be determined in the columns and the carload rate of freight from governing basing point to destination shall be increased by the 3 percent before determining the applicable column;

(3) Differentials set forth in paragraph (h) (2) of this Section;

(4) A markup equal to 15 percent of the aggregate of (1), (2) and (3) above;

(5) Any additions permitted by paragraph (h) (3) of this section.

(b) When the destination is outside of the city and free delivery area in which the shipping point is located, the maximum delivered price shall be either the price established in accordance with the formula set forth in (a) above, or the aggregate of the following, whichever is higher:

(1) The carload basing point base price to dealers at the governing basing point, less any allowance applicable to a producer's sale of a particular product to a jobber as established by Revised Price Schedule No. 6. "Governing basing point", in this instance, means the established basing point the use of which results in the lowest delivered price at the shipping point.

(2) Carload rate of freight (plus 3 percent) from governing basing point to shipping point. For products customarily priced by a producer on a price column basis, the freight factor shall be determined in columns and the carload rate of freight from basing point to shipping point shall be increased by 3 percent before determining the applicable column;

(3) Differentials set forth in paragraph (h) (2) of this section;

(4) A mark-up equal to 15 percent of the aggregate of (1) (2) and (3) above;

(5) Any additions permitted by paragraph (h) (3) of this section;

(6) A deduction at the rate of 20 cents per 100 pounds; and

(7) Carload rate of freight (plus 3 percent) from shipping point to destination.

This amendment shall become effective July 26, 1946.

Issued this 26th day of July 1946.

Administrator.

PART 1309—COPPER

[RMPR 20, Amdt. 7]

COPPER SCRAP AND COPPER ALLOY SCRAP

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation No. 20 is amended in the following respects:

1. In section 16 (a) (2) for Group No. 2 and grade soft red brass borings (No. 1 composition borings) the column of maximum prices in cents per pound of material is amended to read as follows:

Group No.	Grade	Maximum price in cents per pound of material
2	Soft red brass borings (No. 1 composition borings).	10.75. An addition of 0.1175 cent per pound or a deduction of 0.1375 cent per pound shall be made for each 1% that the copper content, as determined in the button analysis, is above 84% or below 82%, respectively, and an addition of 0.4 cent or a deduction of 0.5 cent per pound shall be made for each 1% that the tin content, as determined in the button analysis, is above 5.5% or below 4.5%, respectively, with proportionate adjustments for fractional variations of 1%. As an alternative to payment on the analysis basis, the consumer, if he receives less than 5,000 pounds in a shipment at one time, may determine by inspection that the material meets the specification, but in such case the maximum price shall be 10.25 cents. In every case, the maximum price shall be subject to the deduction provided for in footnote 1.

This amendment shall become effective July 26, 1946.

Issued this 26th day of July 1946.

PAUL A. PORTER,  
Administrator.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[RMPR 131, Amdt. 5]

CAMELBACK AND TIRE AND TUBE REPAIR MATERIALS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 131 is amended in the following respects:

1. Section 3 is amended to read as follows:

Sec. 3. *Maximum prices for camelback meeting grade specifications of the Rubber Division, Civilian Production Administration*—(a) *To recappers and vulcanizers.* The maximum price for any sale of camelback which complies with

the specifications issued by the Rubber Division, Civilian Production Administration, for Grades A, C, and F when sold to a recapper or vulcanizer, shall be:

	Maximum price in cents per pound		
	Grade A	Grade C	Grade F
Camelback, other than base and lug stock	\$0.28	\$0.23	\$0.18
Base stock, 5/32-inch gauge	.36	.31	-----
Base stock, 5/16-inch gauge	.31	.26	-----
Lug stock	.34	.29	-----

Eight (8) cents per pound may be added to the maximum prices set forth above for sales to recappers or vulcanizers of camelback (other than base or lug stock) which is predesigned for use with open steam method of retreading or recapping.

(b) *To jobbers.* On sales to a jobber, the seller must deduct from the maximum prices set forth in paragraph (a) of this section a percentage discount at least as large as the seller had in effect during June 1943 on sales to purchasers of that class. The minimum discount to be used by a seller in connection with the sale to jobbers of camelback covered by this section when the seller made no sales to such class of purchaser during June 1943, shall be determined by written order issued by the Office of Price Administration upon application of the seller to the Rubber, Chemicals and Drug Price Branch, Washington 25, D. C.

2. The headnote of section 4 and paragraph (a) thereunder are amended to read as follows:

Sec. 4. *Maximum prices for certain gum stock, cord fabrics, and cements*—(a) *Commodities covered by this section.* This section applies to tire and tube repair materials which are of a type listed in Table I in paragraph (b) (1). All sizes of such materials are covered by this section except cement in containers of 1 quart or less and gum stocks (cushion stock, tread stock, tube repair gum and combination tube repair gum) sold in packages of less than 1 pound which are covered by section 6.

3. A new paragraph (e) is added to section 4 to read as follows:

(e) *Cord ends.* Notwithstanding any other provision of this regulation, the maximum prices for sales of cord ends to jobbers, manufacturers and repairmen shall be a net price of 25 cents per pound, gross weight. "Gross weight" includes the weight of the cord ends and the materials used in packing them. This price applies only to cord ends sold and delivered which have been packed in a canvas or duck liner, or backed with holland, cellophane or similar protective substance so that they may be readily used in the manufacture of tire patches or the repair of tires. Cord ends sold and delivered which have not been so properly packed or backed shall be priced in accordance with the provisions of section 6a.

4. Section 5 is revoked.

5. Section 5a is redesignated section 5, and the headnote and the first sentence

of paragraph (a) thereunder are amended to read as follows:

Sec. 5. *Maximum prices for patches and boots made from scrap materials, and for all reliners*—(a) *Applicability.* This section applies to sales to jobbers, vulcanizers, recappers, retailers, mail order houses, and chain store systems, of patches and boots made from scrap materials, and of all reliners.

6. The first literary sentence of paragraph (c) (5) of section 5 (formerly section 5a) is amended to read as follows:

(5) The maximum price of any size or type patch or boot made from scrap material, or of any reliner, meeting the minimum quality specifications of paragraph (b) but not shown in subparagraphs (1), (2), (3), or (4) above, shall be a price in line with the level of maximum prices established by this section, specifically authorized by the Office of Price Administration.

7. Paragraph (g) of section 5 (formerly section 5a) is revoked.

8. Section 6 is amended to read as follows:

Sec. 6. *Maximum prices for tube repair kits, tire patches made from new materials, air and steam bags, curing tubes, and all other tire and tube repair materials not specifically covered by other sections of the regulation.* All tire patches made in whole or in part of new materials are covered by this section. All tire reliners, including those made from new materials, are covered by section 5.

(a) *Items which are the same as items dealt in by the manufacturer or jobber during March 1942*—(1) *Definition of "same as".* An item shall be deemed to be the same as an item delivered or, if not delivered, offered for delivery by the manufacturer or jobber during March 1942:

- (i) If it has the identical specifications as the March 1942 item; or
- (ii) If its current direct costs (excluding selling and administrative expense) do not differ from the current direct costs (excluding selling and administrative expense) of the March 1942 item by more than 2 percent and it is identical in the following characteristics:

*Type and Characteristics*

- Tire patches:
    - 1. Size (regardless of shape).
    - 2. Number of plies.
    - 3. Fabric materials used (cotton, rayon, etc.)
    - 4. Number of cushions.
    - 5. Cure (uncured, semi-cured, or cured).
    - 6. Contour (flat or curved).
  - Airbags or curing tubes:
    - 1. Size.
    - 2. Type (full circle, 1/4 circle, 1/2 circle, 3/4 circle, etc.).
  - Tube repair kits:
    - 1. Total quantity of combination tube repair gum.
    - 2. Number of bevel-cut patches.
    - 3. Quantity of cement.
- Any other type: 1. Recognized use.
- (iii) Or, if the only differences are those resulting from the changes in use of any type of rubber such as synthetic, crude or reclaim.
- (2) *Maximum prices.* The maximum price for any item which is the same as

an item dealt in by the manufacturer or jobber during March 1942, shall be the highest net price to a purchaser of the same class at which price the seller delivered or if not delivered, offered to deliver the item during March 1942. If the seller did not deliver or offer for delivery at that time such item to a purchaser of the same class but to a purchaser of a different class, the maximum price for any item which is the same as the item dealt in by the seller during March 1942, shall be adjusted to reflect the seller's customary differential between the two classes of purchasers. If, during March 1942, the seller included in his selling price the Federal excise tax which was in effect on rubber products and did not customarily state and collect it separately, the amount of such tax shall be deducted from the price so determined. The maximum price of any item covered by this section which had been previously established pursuant to the provisions of Maximum Price Regulation 220 shall be the maximum price so determined under MPR 220.

(b) *Competitive items.* (Items which are not the same as any items dealt in by the seller during March 1942 but which are the same as items dealt in by other sellers during the same period.)

(1) *Manufacturers' maximum prices.* The maximum prices for sales by a manufacturer of an item which is not the same as any dealt in by that manufacturer during March 1942 but which is the same as an item dealt in by other manufacturers during March 1942, shall be determined by the Office of Price Administration upon application of such manufacturer to the Rubber, Chemicals and Drugs Price Branch, Washington 25, D. C., setting forth the following information:

(i) A detailed description of the item being priced, indicating its size, type, and construction.

(ii) A sample or photograph of the item being priced.

(iii) A description, sample or photograph of the item sold by another manufacturer during March 1942 which is deemed to be the same as the item being priced.

(iv) Proposed maximum prices for the item being priced on sales to each class of purchaser. Applicant should specify whether differentials between classes of purchasers are based upon March 1942 practices of the seller or of the industry.

(v) Statement of why the seller believes the proposed prices are consistent with the level of prices established with this regulation and a comparison of such prices.

The authorization of maximum prices will be in writing and will establish a specific maximum price or prices, or give a method for determining the maximum price or prices, to all classes of purchasers. Any manufacturer establishing a maximum price for an item under this paragraph shall notify in writing all jobbers to whom he sells such items of the maximum price established for resales by jobbers.

(2) *Jobbers' maximum prices.* Maximum prices for sales by jobbers of any item which is not the same as any item

dealt in by such jobber during March 1942, shall be the maximum price for his sales as notified by his supplier. Jobbers should receive written notification from their suppliers prior to the sale of any item covered by this paragraph. If the jobber does not receive such written notification from his supplier, he shall apply to the Office of Price Administration, Rubber, Chemicals and Drugs Price Branch, Washington 25, D. C., for such information.

(c) *Items which cannot be priced under paragraphs (a) or (b)—(1) Manufacturers' maximum prices.* The maximum price for sales by a manufacturer of any item which is not the same as an item dealt in by that manufacturer or any other manufacturer during March 1942, shall be determined by the Office of Price Administration upon application of such manufacturer to the Rubber, Chemicals and Drugs Price Branch, Washington 25, D. C., setting forth the following information:

(1) A detailed description of the item being priced, indicating its size, type, and construction.

(2) A sample or photograph of the item being priced.

(3) A breakdown of direct factory costs for the item being priced, itemizing direct labor, direct material, and factory overhead. Costs may be computed on March 1942 rates and methods or on the rates and method of any subsequent date, except that for synthetic rubber the August 1, 1943 or current costs, whichever are lower, shall be used. Applicant should specify cost period used in application.

(4) A breakdown of direct factory costs for a comparable item, if possible. Costs shall be computed as of the date used in computing the costs of the item being priced in (3) above. An item to be comparable should have been produced and sold by the applicant during March 1942, have a total direct factory cost which is within 25 percent of the factory cost of the item being priced, and have the same use as the item being priced. If several items are so comparable, the manufacturer should select the comparable item having the closest use and the nearest factory cost to the item being priced.

(5) A statement of the net dealer price of the comparable item as determined under (4) above, as well as the price to every other class of purchaser as of March 1942. Applicant should state if the differentials for classes of purchasers are based upon the March 1942 differentials of the manufacturer or of the industry generally.

The maximum price for sales by a manufacturer of items covered by this paragraph will be authorized in writing and will in general be determined by adding to the March 1942 net dealer sales price of the comparable item, the difference between the direct factory costs of the comparable item and the item being priced. Maximum prices for sales to other classes of purchasers will be based upon the customary percentage relationship to the dealer price, maintained by the manufacturer in March 1942, otherwise the relationship main-

tained by the industry generally at that time. Any manufacturer who establishes maximum prices under this paragraph shall notify in writing all jobbers to whom he sells such items of the maximum price established for resales by jobbers.

(2) *Jobbers' maximum prices.* The maximum price for sales by jobbers of any items which are not the same as an item dealt in by the jobber during March 1942 shall be determined in accordance with the provisions of subparagraph (2) to paragraph (b) above.

9. Section 7 is amended to read as follows:

SEC. 7. *Applications for adjustment.* The Office of Price Administration may adjust the maximum prices of any manufacturer of an item covered by this regulation if such maximum prices subject the manufacturer to such financial hardship as will, in the opinion of the Administrator, impede or threaten to impede his production of such commodities. Relief granted under this paragraph shall be limited to the amount necessary to permit the manufacturer to supply commodities covered by this section without substantial hardship, taking into consideration the costs of production, and the nature of his business. In no case will an adjustment be granted to a price above the level at which the bulk of that type of product is sold. The Office of Price Administration may, at the same time, adjust the maximum prices of any wholesale seller of such commodity. Applications for adjustment under this paragraph shall be filed with the Office of Price Administration, Washington, D. C., in the manner provided by Revised Procedural Regulation No. 1 and shall contain the following information:

(a) The manufacturing and total unit costs on the commodity whose price is to be adjusted.

(b) The proportion of applicant's sales of the commodity whose price is to be adjusted to his total sales during the most recent complete fiscal period.

This amendment shall become effective July 26, 1946.

(NOTE: The reporting provisions of this amendment have been approved by the Bureau in accordance with the Federal Reports Act of 1942.)

Issued this 26th day of July 1946.

Administrator.

SOLID FUELS SOLD AND DELIVERED BY DEALERS

A statement of consideration involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation No. 122 is amended in the following respects:

Section 1340.257 is amended to read as follows:

(a) *General freight rate increases.* The Interstate Commerce Commission has approved various increases in railroad freight rates set forth in its order of June 20, 1946 on Docket Ex Parte 162. The exact amount of the freight rate increase on solid fuel received in whole or in part by rail incurred as a result of the order of the Interstate Commerce Commission on Docket Ex Parte 162 may be added to maximum prices of solid fuels dealers established as follows:

(1) Prices established under Rules 1, 1A or 1B of § 1340.254 (b) of this regulation.

(2) Prices established prior to July 1, 1946 under Rule 4 of § 1340.254 (b).

(3) Prices established prior to July 1, 1946 by any order of adjustment issued under § 1340.259 (a) or by any area ceiling order issued under § 1340.260.

This amendment shall become effective July 26, 1946.

Issued this 26th day of July 1946.

PAUL A. PORTER,  
Administrator.

PART 1351—FOOD AND FOOD PRODUCTS  
[FPR 3, Amdt. 1 to Supp. 9]  
DISTILLERS' DRIED PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplement 9 to Food Products Regu-

lation 3 is amended in the following respects:

1. Section 2 (a) is amended to read as follows:

SEC. 2. *Applicability.* (a) Except for those sales exempted by paragraph (b) of this section, this supplement shall apply to all sales of distillers' dried products from the manufacture of alcohol and distilled liquors from any agricultural commodity within the United States and to all deliveries of such products, whether immediate or future.

2. The second, third, fourth and fifth paragraphs of section 4 (b) are amended to read as follows:

"Distillers' dried products" means the dried residue obtained from the manufacture of alcohol and distilled liquors from any agricultural commodity, which residue is used primarily for animal and poultry feeding and which contains less than 12 percent moisture content at time of production and including dried distillers' residue, distillers' solubles and mixtures of the two.

"Dried distillers' residue" means the dried residue obtained from the manufacture of alcohol and distilled liquors from any agricultural commodity and which by chemical analysis contains 9 percent of fibre or more.

"Distillers' solubles" means the product obtained from the manufacture of alcohol and distilled liquors from any agricultural commodity obtained by condensing to a syrupy consistency the screened stillage obtained therefrom and then further drying artificially and which contains by chemical analysis not over 4 percent fibre.

"Dried distillers' residue with solubles" means any mixture of dried distillers' residue and distillers' solubles which by chemical analysis contains more than 4 percent and less than 9 percent fibre.

3. The first paragraph of section 6 is amended to read as follows:

SEC. 6. *Base per ton prices for dried distillers' residue, distillers' solubles and dried distillers' residue with solubles.* (a) Base per ton prices by location are as follows:

	Distillers' dried residue	Distillers' dried residue with solubles	Distillers' solubles

PART 1389—APPAREL

[RMPR 506, Amdt. 4]

MAXIMUM PRICES FOR STAPLE WORK GLOVES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Revised Maximum Price Regulation 506 is amended in the following respects:

1. In section 2 (c), Example 1 is amended to read as follows:

*Example 1.* C, a retail chain, buys one dozen 8 oz. canton flannel gloves from a manufacturer at \$1.76, 2/20 net 40, which is the manufacturer's ceiling listed in the tables in Appendix A. C sells them to D, another retail chain for \$1.81 (which is equal to C's cost plus freight actually paid by him).

In figuring his retail ceiling D assumes his supplier's ceiling to be \$1.72 (\$1.76 less 2%), the net ceiling of C's supplier, not \$1.81, the price D actually paid. Accordingly, from Table II in Appendix B, D finds a retail ceiling of 19¢ per pair.

2. Section 3 (a) (2) is amended to read as follows:

(2) *Ceiling prices for "regular sales."* For the work gloves specified in Appendix A, ceiling prices for regular sales at wholesale are those stated in column (b) of the tables in that appendix, unless your supplier's ceiling price list (required by section 6 (b) bears the following citation: "Band A, RMPR 506, OPA No. —." If it does, then your ceiling price is the price listed in column (b) multiplied by the factor set forth in paragraph (b) (4) of Appendix A.

In some cases, OPA may establish by individual order manufacturers' ceiling prices for work gloves not specified in Appendix A. In each such case, the wholesaler figures his ceiling price by taking the manufacturer's Class I gross ceiling price and multiplying this price by 1.168

3. In section 3 (b) (1), Examples 1 and 2 are amended to read as follows:

*Example 1.* G, a large retailer, buys a dozen 8 oz. canton flannel gloves from a manufacturer at \$1.76, 2/20 net 40, the manufacturer's ceiling price, and pays 10¢ per dozen freight. He now wants to sell them to H, a second retailer. G's ceiling

price for this sale is \$1.82 (\$1.76 less 2%, plus the 10¢ freight.

*Example 2.* L, a wholesaler, buys one dozen hot mill gloves from a manufacturer at \$3.61, 2/20 net 40, the manufacturer's ceiling price. L now liquidates and resells the gloves to auctioneer M for \$3.30 per dozen. Now M wants to resell the gloves to another wholesaler.

In figuring his price for this second special sale, M takes as his cost \$3.54 per dozen (\$3.61 less 2%), the price paid by L, and adds freight paid by M. If M pays 10¢ for freight, M's ceiling is \$3.64.

4. The undesignated paragraph of section 4 (a) preceding subparagraph (1) is amended to read as follows:

SEC. 4. *How to find manufacturers' ceiling prices—(a) Work gloves specified in Appendix A.* Ceiling prices for sales by manufacturers are those stated in column A of the tables in Appendix A, unless you qualify for the adjustment described in paragraph (a) (4) of the instructions to the tables. If you do qualify for such adjustment, your ceiling price is the appropriate price listed in column A multiplied by the factor set forth in paragraph (a) (4).

Column A of the tables in Appendix A

lists two manufacturers' prices for each glove specified—a Group I ceiling and a Group II ceiling. Some manufacturers must use the Group I ceiling only, some may use the Group II ceiling only, and some may use both, according to the rules contained in the following subparagraphs (1), (2) and (3).

5. The last undesignated paragraph of section 4 (b), including the table, is amended to read as follows:

Maximum prices authorized by orders issued under this provision prior to May 20, 1946, may be adjusted in accordance with the steps set forth below.

Step 1. Multiply the price authorized in the order by the applicable percentage multiplier:

*Adjustment multiplier for manufacturers (to be applied to Group I and Group II authorized ceilings)*

Type of glove:	
Canton flannel.....	1.10
Jersey.....	1.03
Leather combinations.....	1.041

Step 2. Add the amount, if any, specified in the following table to the figure found in Step 1.

Type of glove and group of purchaser	Addition to be made to ceiling determined by step 1 for				
	Men's	Extra large men's	Women's	Small women's	Childs
<b>Group I ceilings:</b>

Side split leather palm gloves, gunn pattern.....	.17½	.17½	.17½	.17½	.17½

Step 3. If the manufacturer meets the conditions specified in Instruction No. 4 to paragraph (a) of Appendix A, multiply the figure found in Step 2 by 1.035.

Maximum prices for sales at wholesale, specified in orders issued under this paragraph, shall be adjusted by multiplying the manufacturer's Group I adjusted ceiling price calculated under the steps set forth above by 1.168.

The manufacturer must send corrected price notices to each of his customers with the first numbers shipped after the price changes have become effective.

6. In section 6 (b), an undesignated paragraph is added after the "Retail Ceiling List (Price)", to read as follows:

If the manufacturer is eligible to take the adjustment described in paragraph (a) (4) of Appendix A, the ceiling price list which he supplies to his distributors must bear the following citation: "Brand A, RMPR 506, OPA No. —."

7. In the "Retail Ceiling Price List" in section 6 (b), the figure "66" is amended to read ".67".

8. Subparagraph (3) is added to section 8 (c) to read as follows:

(3) *Payroll records.* Every manufacturer, who is eligible for and makes the adjustment described in paragraph (a) (4) of Appendix A, must keep the payroll records referred to in that paragraph.

9. The table in the example in section 9 (f) is amended to read as follows:

Lot No.	Quantity	Description	Price	Amount
723	Doz. 50	Men's 8 oz. single thickness canton flannel gloves, knit wrist, \$2.05½ net per dozen. Retail ceiling price 23¢ per pair.	\$2.12	\$106

10. Instruction 4 is added to paragraph (a) of Appendix A, to read as follows:

4. If you meet the following conditions, you may multiply the appropriate price listed in column (A) by 1.035:

(1) The "average hourly earnings" for all "employees" in all plants, during the four weeks preceding the date of the certification described in (iii) below, was at least 69 cents per hour.

(a) "Average hourly earnings" shall be computed by dividing your payroll for the period by the number of man hours worked in that period. Exclude from such payroll any amounts attributable to wage increases which are not "approved", within the requirements of subpart C of the Supplementary Wage and Salary Regulations issued by the Office of Economic Stabilization on March 8, 1946.

(b) "Employees" means those who perform productive or related operations in the man-

ufecture of staple work gloves. Include working foremen and all non-supervisory workers engaged in fabricating, assembling, inspection, receiving, storage, handling, packing, shipping, maintenance, repair, janitorial, and record-keeping and other services closely associated with the above production operations. Exclude supervisory employees (above the working foremen level) and their clerical staffs.

(ii) The average hourly earnings for all "experienced stitchers" in all plants, during the period in (i) above, was at least 69 cents per hour.

(a) Determine your average hourly earnings according to the rules set forth in (i) (a) above.

(b) "Experienced stitchers" are those who have been employed as work glove stitchers for at least six months.

(iii) You have certified to the Office of Price Administration (on a form similar to that set forth in Appendix D) that you meet conditions (i) and (ii). Certifications shall be filed with the Men's Clothing Section, Office of Price Administration, Washington 25, D. C.

You must not sell or deliver at prices in excess of those listed in column A of the tables, until you have received OPA acknowledgment of your certification. Certifications which meet the requirements of this instruction will be acknowledged within 10 days of their mailing, and the acknowledgment will bear a number and the following words: "Band A, RMPR 506, OPA No. —."

11. Instruction 4 is added to paragraph (b) of Appendix A, to read as follows:

4. If your supplier's ceiling price list (required by section 6 (b)) bears the citation "Band A, RMPR 506, OPA No. —," you may multiply the appropriate price listed in Column B by 1.035.

12. In Appendix A, tables 1 through 12, are amended to read as follows:

PART 1390—MACHINERY AND TRANSPORTATION EQUIPMENT [RMPR 136, Amdt. 45]  
 METAL STAMPING

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 136 is amended in the following respects:

Section 19 (g) (1) is revised and amended to read as follows:

(1) Metal stamping—(i) Manufacturers maximum prices. The maximum prices for sales by a manufacturer to any purchaser of any new metal stampings shall be the prices established under section 7 or computed under sections 8, 9 or 10, increased by 19.%. For the purposes of this paragraph, the term

"stampings" shall include all products which are subject to this regulation as otherwise definable parts; components or subassemblies fabricated by the stampings process as this process is defined under that heading in Appendix A.

(ii) *Resellers maximum prices.* The maximum prices for sales by a reseller of metal stampings as, defined above, shall be determined by adding to the maximum prices he had in effect just prior to June 30, 1946, the percentage amount by which his net invoiced cost has been increased by reason of the adjustment granted to the manufacturer of such metal stampings by subdivision (i).

(iii) Every manufacturer of metal stampings shall give written notice to

each of his resellers of the percentage amount by which the reseller's net invoiced cost has been increased by reason of the adjustment granted to such manufacturers by subdivision (i). If the reseller's supplier has given him written notice of the percentage amount of such increase and the reseller has no reason to doubt the validity of such notice, the reseller may rely on that notice.

This amendment shall become effective July 26, 1946.

Issued this 26th day of July, 1946.

PAUL A. PORTER,  
Administrator.

<sup>1</sup> The prices set forth in this table are subject to the provisions of paragraph (d) (e) (f) and (h) of section 1315, 1424 as provided by section 1315, 1425 (c).  
<sup>2</sup> These prices shall be reduced by 5 percent if the purchaser pays cash within 30 days after delivery. The discounts and transportation allowances applicable to sales by wholesalers to certain wholesalers are set forth in paragraph (h) of section 1315, 1424 which is applicable to sales in accordance with the provisions of section 1315, 1425 (c).  
<sup>3</sup> The prices shall be decreased by the customary cash discounts as provided in section 1315, 1424 (d) (2).  
<sup>4</sup> All manufacturers who had a custom in December 1941 of listing half sole prices for sizes 9, 11, 13, and 15, with different prices for each size, must continue to do so for those sizes. The maximum prices for sizes 9 and 13 must be 5 cents below the 9-11, and 13-15 prices, respectively, for the same iron and quality. The maximum prices for sizes 11 and 15 shall be 5 cents higher than the prices listed for sizes 9-11 and 13-15, respectively, for the same iron and quality.  
<sup>5</sup> All manufacturers who had a custom in December 1941 of selling assorted sizes 9-11-13 at the 9-11 prices for a given type, quality, and color, must continue to do so.

This amendment shall become effective July 26, 1946.

Issued this 26th day of July 1946.

PAUL A. PORTER,  
 Administrator.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[RMFR 229, Amdt. 8]

RETAIL AND WHOLESALE PRICES FOR RUBBER FOOTWEAR

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 229 is amended in the following respects:

1. The introductory paragraph of section 1 is amended to read as follows:

SEC. 1. *What this regulation does.* This regulation establishes maximum prices for all sales at retail and wholesale of rubber footwear. However, this

regulation does not apply to sales of rubber footwear on war orders as defined in section 1 of Maximum Price Regulation 403. When used in this regulation, the term:

2. Section 1 (a) is amended to read as follows:

(a) "Rubber footwear" means all types of waterproof, canvas, and casual rubber footwear.

3. The headnote of section 5 (a) is amended to read as follows:

(a) *Maximum prices for sales at retail of domestically produced waterproof rubber footwear and other rubber footwear that is listed in Appendix B.*

4. Section 5 (a) (1) is amended to read as follows:

(1) *Maximum prices for sales at retail of domestically produced waterproof rubber footwear.* The maximum prices for sales at retail of domestically produced waterproof rubber footwear firsts shall be determined by dividing the retailer's net price at which he purchased (not exceeding the maximum price of the supplier's sales to the retailer) by .66 for mail order retail sales by mail order houses, and by .62 for other retail sales. When used in

this subparagraph (1), "net price" means the lowest price before cash discount at which the retailer purchased that type and brand of footwear after March 31, 1946 (or the list price less all discounts except cash discounts). Manufacturers' "seconds", clearly marked as such, shall not be considered as establishing the net price for a type and brand of waterproof rubber footwear "firsts". If a price derived under this subparagraph (1) is not consistent with those otherwise established under the regulation, the Administrator may by order establish a different maximum price under section 6a and the maximum price thus established shall supersede the price derived under this subparagraph (1).

5. The headnote of section 5 (a) (2) is amended to read as follows:

(2) *Method of determining the maximum retail prices for each type and brand of domestically produced canvas rubber footwear listed in Appendix B.*

6. In the first sentence of section 5 (a) (3) (ii), the words "Appendix B" are substituted for the words "Appendix A for waterproof rubber footwear and Appendix B for canvas rubber footwear".

7. In section 5 (a) (3) (iii), the words "Appendix B" are substituted for the

words "the appropriate Appendix (Appendix A or Appendix B)".

8. In section 5 (a) (3) (v), the following is substituted for the word "The" immediately following the headnote: "When used in this subparagraph (3), the".

9. Subparagraph (4) of section 5 (a) is deleted.

10. In section 5 (b) (1) the following words are deleted in the first sentence immediately following the headnote: "Appendix A for waterproof rubber footwear and".

11. In the last sentence of section 5 (b) (1), the words "section 5 (a) (3)" are substituted for the words "section 5".

12. In the first sentence following the headnote of section 5 (b) (2), the words "section 5 (a) (3)" are substituted for the words "section 5".

13. Section 5 (c) is amended to read as follows:

(c) *Maximum prices for sales at retail of domestically produced canvas rubber footwear firsts that are not listed in Appendix B.* The maximum prices for sales at retail of domestically produced canvas rubber footwear firsts that are not listed in Appendix B, shall be derived by dividing the retailer's net price (not exceeding the maximum price of the supplier's sales to the retailer) by .62. "Net price" means "net price" as defined in section 5 (a) (3) (v). If the maximum prices for sales at retail of any footwear established under this section are not consistent with those otherwise established by the regulation, the Administrator may by order revise the maximum prices for any such footwear so as to make them consistent with the level of maximum prices otherwise established under the regulation.

14. In section 5 (d), the following is added at the end of the paragraph:

"Net price" means "net price" as defined in section 5 (a) (3) (v)". If the maximum prices for sales at retail established under this section are not consistent with those otherwise established under the regulation, the Administrator may by order revise the maximum prices for any such footwear so as to make them consistent with the level of maximum prices otherwise established under the regulation.

15. The last sentence of section 5 (e) is deleted, and the following is substituted therefor: "In pricing waterproof rubber footwear, 'net price' shall have the meaning given it in section 5 (a) (1). In pricing other rubber footwear, 'net price' shall have the meaning given it in section 5 (a) (3) (v)".

16. Substitute the words "Appendix B" for the words "Appendices A and B" or the words "Appendix A or Appendix B" in each of the following places:

a. First sentence following headnote of section 5 (a) (2)—2 places.

b. Section 5 (a) (3) (iii)—in one place only, following the words "set forth in".

c. Headnote of section 5 (b)—2 places.

d. Section 5 (b) (1)—2 places.

e. Section 5 (b) (2)—3 places.

17. In section 18 (a), the following sentence is added immediately preced-

ing the words "Sale at wholesale": "Mail order house" is an establishment selling at retail which makes offerings through catalogs or written price lists and receives orders by mail and purchases at discounts of 21 percent or more off suppliers' list prices".

18. The title of Appendix A is amended to read as follows:

APPENDIX A—TABLE OF MAXIMUM PRICES PER PAIR FOR SALES AT WHOLESALE OF CERTAIN WATERPROOF RUBBER FOOTWEAR<sup>1,2,3</sup>

19. In Appendix A, the subheading "Maximum Prices for Sales at Retail" and all the subject matter under this subheading are deleted.

20. The footnotes under Appendix A are amended to read as follows:

<sup>1</sup>The domestically produced waterproof rubber footwear here priced at the wholesale level is the footwear that is priced at the manufacturer's level by § 1315.70 (Table I) of Maximum Price Regulation 132, and that meets the requirements for pricing under that section. Sales of this footwear at retail are priced under section 5 (a) (1) of RMPR 229.

<sup>2</sup>The maximum prices for sales at wholesale of imported waterproof rubber footwear are established under section 6 (c) of this regulation. Retail sales of imported waterproof rubber footwear are priced under section 6a.

<sup>3</sup>From these wholesale prices the discounts and allowances provided by section 6 (a) must be deducted.

21. Footnote<sup>2</sup> of Appendix B is amended to read as follows:

<sup>2</sup>The maximum prices for sales at retail and wholesale of imported canvas rubber footwear are established under sections 5 (b) and 6 (c), or by specific authorization of the Office of Price Administration under section 6a.

22. Footnote<sup>2</sup> of Appendix B is amended to read as follows:

<sup>2</sup>From these retail and wholesale prices, the discounts and allowances required by section 5 (f) and section 6 (a) must be deducted.

This amendment shall become effective July 26, 1946.

Issued this 26th day of July 1946.

Administrator.

PART 1410—WOOL

[MPR 163, Amdt. 20]

WOOLEN AND WORSTED CIVILIAN APPAREL FABRICS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 163 is amended in the following respects:

1. Section 1410.102a (d) is added to read as follows:

(d) *Sales to retail stores by a manufacturer who cannot price under § 1410.102a (a).* (1) The maximum price for sales to retail stores of woolen or worsted apparel fabrics in cut lengths of 30 yards or less by a manufacturer who cannot determine a maximum price under paragraph (a) of this section shall be the quotient of the manufacturer's maximum price as established under §§ 1410.102 or 1410.119 divided by the applicable division factor as set forth below:

(i) Sponged fabrics where full piece price represents sponged goods, a division factor of .935.

(ii) Unsponged fabrics where full piece price represents unsponged goods, a division factor of .935.

(iii) Sponged fabrics where full piece price represents unsponged goods, a division factor of .935 plus actual cost of sponging and shrinkage, but in no event shall the manufacturers' maximum price for sales to retail stores exceed his maximum full piece price divided by the division factor .85.

(2) Any manufacturer who sells to retail stores under this paragraph shall conform to the terms and conditions set forth in paragraphs (b) and (c) for special sales to retail stores.

This amendment shall become effective July 26, 1946.

Issued this 26th day of July 1946.

PART 1314—RAW MATERIALS FOR SHOES AND LEATHER PRODUCTS

[MPR 61, Amdt. 5]

LEATHER

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 61 is amended in the following respects:

1. Section 3, is amended by adding a new paragraph (n) to read as follows:

(n) "Person" includes an agent, broker or representative of a domestic or foreign principal, an individual, corporation, partnership, association, joint venture, or any other organized group, or any subsidiary or affiliate of any of the foregoing or successor in interest, assignee, receiver, trustee or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government or any of its political subdivisions, or any Agency of any of the foregoing.

2. Section 5 is revoked and a new section 5 is added to read as follows:

**SEC. 5. Maximum prices for leather imported into the continental United States.** (a) The maximum price, landed at domestic port of entry, that shall be paid by any importer for leather imported into the continental United States shall be a price determined by the Office of Price Administration to be in line with the general level of prices prevailing during the base period for domestic or imported leather which is of the same and related types, weights, potential cutting values, and qualities and grades, and such maximum prices in no event shall exceed the sum of (1) the foreign invoice price or if such leather was produced by the importer or for his account the cost of the raw stock and tanning costs, and (2) all other costs and expenses actually paid by the importer including insurance, freight, duty, lighterage, wharfage, tollage, banking commissions and charges, customs entry and customs brokers charges, all commissions, warehouse, stevedore, handling and trucking charges, all other fees and service charges. No person shall purchase for importation or import into the continental United States any leather subject to this regulation unless prior to such purchase and importation he has obtained from the Office of Price Administration an order establishing his maximum import purchase price. An application for such an order shall be filed by the importer seeking to import such leather in conformity with section 14 of this regulation.

Any change in the leather after a maximum price has been established under section 5 (a) with respect to type, weight or substance, potential cutting value or quality and grade of any leather to be imported or any alteration of the type of raw stock, method of tanning or finishing, trim, pattern, standard of selection or otherwise will make it necessary for the importer seeking to import such leather to file a new application in conformity with Section 14 of the regulation and obtain an order establishing a maximum import purchase price for such leather, pursuant to section 5 (a) above.

(b) *Sale of imported leather by importer*—(i) *Leather sold exactly as purchased.* Notwithstanding the provisions of section 4 of MPR 61, any importer who sells, in exactly the same form as purchased, before or after importation, for delivery to a person in the continental United States leather for which the maximum price has been established

pursuant to section 5 (a) above, may take as his maximum price the sum of the following:

(a) The maximum price established under section 5 (a), above, and

(b) A markup of 7½ percent of the price determined under item (a). This maximum price shall constitute the maximum price for any resale of this leather by any other person.

To the maximum price so determined, transportation charges, actually paid or incurred, from dock, domestic port of entry, to importer's warehouse or place of business, may be added, or, if the leather was transported in importer's own conveyance, a charge not to exceed the lowest common carrier rate for an identical shipment.

The importer may not receive or collect transportation charges, unless every invoice or similar document furnished by him to the purchaser as required by the provisions of section 12, in connection with every sale of leather made pursuant to the provisions of this paragraph 5 (b) (i) shall separately state the amount of such transportation charge.

(ii) *Leather sold other than exactly as purchased.* The maximum price for all sales or deliveries by an importer of leather imported into the continental United States other than sales or deliveries of leather specified in section 5 (b) (i) above, shall be established pursuant to section 4 of this regulation.

(c) *Completion of contracts entered into prior to July 26, 1946 for importation of leather.* Any person who, prior to July 26, 1946, entered into a contract for the importation of leather into the continental United States may import such leather at the purchase price contracted for provided importation of such leather is completed on or before August 25, 1946.

3. Section 14 is amended in the following respects:

a. Paragraph (a) (1) is revised to read:

(1) The name and address of the seller or importer.

b. The last paragraph of section 14 is amended by inserting in the first line thereof after the word "seller" the following: "or importer."

This amendment shall become effective July 26, 1946.

NOTE: The reporting provisions of this Amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 26th day of July 1946.

#### PART 1340—FUEL

[MPR 189, Amdt. 33]

#### BITUMINOUS COAL SOLD FOR DIRECT USE AS BUNKER FUEL

A statement of considerations involved in the issuance of this amendment issued simultaneous herewith has been

filed with the Division of the Federal Register.

Maximum Price Regulation No. 189 is amended in the following respects:

1. Section 1340.310 (a) (5) is added to read as follows:

(5) Notwithstanding anything to the contrary contained in this regulation there may be added to the maximum prices established by § 1340.313 of this regulation or by order issued under this regulation prior to July 1, 1946, not more than the exact amount per net ton or per gross ton, as the case may be, of the freight rate increase authorized by the Interstate Commerce Commission on June 20, 1946, in Ex Parte 162, or by any state freight rate regulatory body and based on Ex Parte 162.

2. Section 1340.313 (c) (1) is amended to read as follows:

(1) *Tidewater bunker coal.* (i) Not more than the following respective amounts per net ton may be added to the maximum prices determined in accordance with paragraph (a) of this section for bunker fuel produced in the following respective districts:

(l) District 19.....	68
(m) District 20.....	81
(n) District 23.....	259

3. Section 1340.313 (f) (8) is amended to read as follows:

(8) The provisions of §§ 1340.310 and 1340.313 (c) (1) (i) shall not apply to this paragraph (f) except as specifically provided in § 1340.310 (a) (5) of this regulation.

4. Section 1340.313 (f) (9) is amended to read as follows:

(9) To the maximum prices set forth in subparagraphs (1) (i) (2) and (3) of this section and to the specified delivered costs set forth in subparagraph (4) of this section, there may be added the sum of 92 cents per gross ton or 82 cents per net ton, as the case may be.

5. Section 1340.313 (g) (7) is amended to read as follows:

(7) The provisions of §§ 1340.310 and 1340.313 (c) (2) (i) shall not apply to this paragraph (g), except as specifically provided in § 1340.310 (a) (5) of this regulation.

6. Section 1340.313 (g) (8) is amended to read as follows:

(8) To the maximum prices set forth in subparagraphs (1) (2) (3) and (4) of this section there may be added the sum of 70 cents per net ton.

7. In § 1340.313 (h) (1) the table of maximum prices is amended to read as follows:

Mine Index No. 22.....	838	828
Mine Index No. 44.....	723	713

8. Section 1340.313 (h) (6) is amended by deleting therefrom the date "May 1, 1945" and inserting in lieu thereof the date "June 21, 1946".

9. In § 1340.313 (h) (9) the period at the end of the subparagraph is deleted and a comma is inserted, and the following is added: "except as specifically provided in § 1340.310 (a) (5) of this regulation."

10. Section 1340.313 (i) is amended to read as follows:

(i) There may be added to the maximum prices established by Orders Nos. 9, 10, 11, L-3 and L-4 issued under this regulation the exact amount of any increase in the f. o. b. mine maximum prices authorized by Amendment No. 158 to Maximum Price Regulation No. 120. If coals from more than one producing district or group of mines within a district having a differential in price are mixed the amount that may be added to the maximum price may not exceed the weighted average increase in the f. o. b. mine maximum price for such coals.

This amendment shall become effective July 26, 1946.

Issued this 26th day of July 1946.

PAUL A. PORTER,  
Administrator.

PART 1346—BUILDING MATERIALS  
(MPR 224, Amdt. 17)

CEMENT

A statement of the considerations involved in the issuance of this Amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 224 is amended in the following respects:

1. A new § 1346.104 (a) (1) (h) is added to read as follows:

(h) The maximum prices for cement sold in Districts 1-8, inclusive, determined pursuant to the above pricing method as increased by subdivisions (a), (b), (d), (e), and (f), may be further increased by an amount not in excess

of \$0.05 per barrel when sold in containers.

Any manufacturer who has increased his maximum selling prices of cement in containers pursuant to this subdivision shall furnish to each buyer purchasing cement for resale in the same form on or before the date the manufacturer makes his first delivery to the buyer at the adjusted price, a written statement to read as follows:

Effective July 26, 1946, the Office of Price Administration has granted to manufacturers of cement in Bureau of Mines Districts 1-8, inclusive, an increase of 5¢ per barrel when packed in containers. The previous increase of 20¢ per barrel granted manufacturers in Districts No. 1-8 plus this additional increase of 5¢ results in a total permissible increase of 25¢ per barrel of packaged cement over the March 1942 maximum prices therefor. Any person who resells the cement in the same form may add to his existing maximum price for packaged cement actually purchased at this increased price an amount not exceeding the actual percentage increase in cost to him resulting from the additional increase of \$0.05 per barrel permitted manufacturers; except that where specific maximum prices are fixed by an area pricing order, such specific maximum prices shall apply in that area.

2. A new § 1346.104 (a) (1) (i) is added to read as follows:

(i) The maximum price determined pursuant to the above pricing method may be increased by a manufacturer by an amount not in excess of \$0.05 per barrel of cement when sold in containers when the following conditions are met:

The sale is made f. o. b. a mill located in the State of Texas, or

The sale is made on a delivered basis and the delivered destination point is within the State of Texas.

Any manufacturer who has increased his maximum selling prices of packaged cement pursuant to this subdivision shall furnish to each buyer purchasing packaged cement for resale in the same form on or before the date the manufacturer makes his first delivery to the buyer at the adjusted price, a written statement to read as follows:

Effective July 26, 1946, the Office of Price Administration has granted an increase to manufacturers of cement in the State of Texas of 5¢ per barrel of cement when sold in containers over the March 1942 prices therefor. Any person who resells the cement in the same form may add to his existing maximum price for packaged cement actually purchased at this increased price an amount not exceeding the actual percentage increase in cost to him resulting from the increase of \$0.05 per barrel permitted manufacturers; except that where specific maximum prices are fixed by an area pricing order, such specific maximum prices shall apply in that area.

3. Section 1346.105 (c) is amended to read as follows:

(c) Any person purchasing cement for resale in the same form may add to a maximum price established under the above provisions of this section, as follows:

(1) An amount not exceeding the dollar-and-cents increase in cost to him resulting from an increase in maximum prices permitted manufacturers under § 1346.104 (a) prior to June 30, 1946.

(2) An amount not exceeding the percentage increase in cost to him resulting from an increase in maximum prices permitted manufacturers under § 1346.104 (a) after June 30, 1946.

Notwithstanding the provisions of (1) and (2) of this paragraph, however, in areas where specific maximum prices are fixed by an area pricing order, such specific maximum prices shall apply in that area.

This Amendment No. 17 shall become effective July 26, 1946.

Issued this 26th day of July 1946.

PAUL A. PORTER,  
Administrator.

PART 1362—CERAMIC PRODUCTS, STRUCTURAL CLAY PRODUCTS AND OTHER MASONRY MATERIALS

[RMFR 206, Amdt. 23]

VITRIFIED CLAY SEWER PIPE AND ALLIED PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation No. 206 is amended in the following respects:

1. Section 4.1 (a) (4) is amended to read as follows:

(4) In the case of sewer pipe products sold f. o. b. factory on a "pick-up basis", or for "less-than-carload shipments by rail" within the Southern area as defined in Section 6.1 below, sellers may add 27.1 percent to the highest prices charged during the month of March 1942 for the same quality, kind, and quantity of sewer pipe products delivered to purchasers of the same class.

2. The table of percentage discounts in section 6.3 is amended to read as follows:

Discount No.	North Carolina	South Carolina, Georgia, Alabama	Tennessee	North Florida, Mississippi, Louisiana (east of Mississippi River)	South Florida
1.....	32	30	31	30	24
2.....	24	24	24	17	5
3.....	34	32	33	32	26
4.....	26	26	26	20	7
5.....	32	30	30	30	24
6.....	32	30	30	30	24
7.....	14	11	11	11	5

3. Section 6.5 is amended to read as follows:

SEC. 6.5 *Maximum prices for resellers of sewer pipe products.* Any reseller purchasing sewer pipe products for resale in the same form may add to his maximum prices established under the General Maximum Price Regulation as follows:

(a) An amount not exceeding the dollars-and-cents increase in cost to him

resulting from an increase in maximum prices permitted manufacturers by sections 4.1, 6.2, 6.3 and 6.4 of this regulation, prior to June 30, 1946.

(b) An amount not exceeding the percentage increase in cost to him resulting from an increase in maximum prices permitted manufacturers by sections 4.1, 6.2, 6.3 and 6.4, of this regulation, after June 30, 1946.

Notwithstanding the provisions of (a) and (b) above, however, in any area where specific maximum prices are fixed by an area pricing order, such specific maximum prices shall apply in that area.

This Amendment No. 23 shall become effective July 26, 1946.

Issued this 26th day of July 1946.

PAUL A. PORTER,  
Administrator.

PART 1346—BUILDING MATERIALS

[MPR 413, Amdt. 6]

HINGES AND BUTT HINGES

A statement of considerations accompanying this Amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 8a of Maximum Price Regulation No. 413 is amended to read as follows:

Sec. 8a. *Reconversion adjustment of maximum prices for certain hinges and butt hinges.* (a) *Scope of this section.* Pursuant to reconversion criteria, this section authorizes manufacturers to increase their maximum prices as established under section 7 for the items listed in paragraph (d) below (identified by the manufacturer's plate number), irrespective of finish, by 33 1/3 percent.

(b) *Manufacturer's reconversion ad-*

*justment.* A manufacturer may increase his maximum prices of items in paragraph (d) below (identified by the manufacturer's plate number), irrespective of finish, to each class of purchaser as established in accordance with section 7, by 33 1/3 percent, and may round off to the nearest \$0.01 the adjusted maximum prices resulting from the increase permitted herein.

(c) *Notification.* Any manufacturer who applies the increase permitted under this section shall notify each purchaser, in writing, at or before the issuance of the first invoice after July 26, 1946, of the adjusted maximum price authorized by this section.

(d) *Items covered by this section.* There follows a list of the items covered by this section. Only the specific hinges and butt hinges listed are covered. Additional items may be added to this list by the Price Administrator.

PART 1305—ADMINISTRATION  
[SO 126, Amdt. 44]

HOUSEHOLD FURNITURE, HOUSEWARES AND HARDWARE

A statement of considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Supplementary Order No. 126 is amended in the following respects:

1. Section 1 is amended to read as follows:

SECTION 1. Articles exempted from price control. Notwithstanding the provisions of any price regulation heretofore or hereafter issued by the Office of Price Administration, all purchases, sales, deliveries and rentals of any articles of consumer goods listed in sections 2, 3, 4 and 5 of this order are exempt from price control. Parts for articles listed in Section 2 are also exempt from price control. For the purpose of this section, "part" means any specific part, sub-assembly or accessory of an article which

is listed in section 2 which was originally designed for use in or in connection with such an article, and which is fabricated to such an extent that it may be identified as to its ultimate use in or in connection with that article, and which would not ordinarily be used for any other purpose.

2. Section 6 is amended to read as follows:

SEC. 6. Articles suspended from price control. Notwithstanding the provisions of any price regulation heretofore or hereafter issued by the Office of Price Administration, price control is suspended as to all purchases, sales, deliveries and rentals of any articles of consumer goods listed in sections 7, 8, 9, and 10 of this order. Price control is suspended as to all parts of articles listed in section 7. These suspensions are for an indefinite period of time except when it is otherwise specifically provided by the Administrator. For the purpose of this section, "part" means any specific part, sub-assembly, or accessory of an article which is listed in section 7 which was originally designed for use in or in connection with such an article, and which is fabricated to such an extent that it may be identified as to its ultimate use in or in connection with that article, and which would not ordinarily be used for any other purpose.

3. Section 2 (c) is amended by revising the item "Kitchenware items, when sold under the following conditions: to

consumers for \$0.30 or less, to dealers for \$0.20 or less, to jobbers for \$0.15 or less." to read as follows:

Kitchenware items and bathroom and closet fixtures (otherwise covered by Maximum Price Regulation No. 188) when sold under the following conditions: to consumers for \$0.30 or less, to dealers for \$0.20 or less, to jobbers for \$0.15 or less.

4. Section 2 (d) is amended by adding the following item:

Gang mowers.

5. Section 2 (g) is amended by adding the following items:

Poker tables.

Custom built furniture frames specifically designed and constructed to fill the particular specifications of a single purchaser, and sold in a quantity not exceeding two units, or in the case of dining room chairs, not exceeding a set of twelve. Sales of larger quantities than those specified above, or repeat sales of the same article (whether or not minor changes are made), are not exempt. Stock frames which have been changed to such an extent that the direct labor and material cost of the change is at least 10% of the total cost of the frame, and which meet all other limitations specified above.

This amendment shall become effective on the 26th day of July 1946.

Issued this 26th day of July 1946.

PAUL A. PORTER,  
Administrator.

**BUILDERS' HARDWARE AND INSECT SCREEN CLOTH**

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith, and filed with the Division of the Federal Register.

Section 1346.6b of Revised Price Schedule 40 is amended in the following respects:

1. Paragraph (b) is amended to read as follows:

(b) *Manufacturers reconversion adjustment*—(1) For items having a properly established maximum price in effect prior to March 13, 1946. The maximum price for the sale, by the manufacturer thereof, of any item of hardware covered by this section shall be his properly established maximum price under RPS 40 for the item which he had in effect to each class of his purchaser on or before March 12, 1946 (such prices being the equivalent of maximum prices in effect during the period October 1-15, 1941) increased by the applicable percentage set forth in column I of the table below.

(2) *Manufacture increase for items priced subsequent to March 12, 1946, and prior to June 28, 1946.* The maximum price for the sale by the manufacturer thereof of any item of hardware covered by this section shall be determined by increasing the maximum price established pursuant to § 1346.1 (b) (3) of RPS 40 subsequent to March 12, 1946, and prior to June 28, 1946 (such prices being the equivalent of the October 1-15, 1941, prices increased by 10%) by the applicable percentage set forth in column II of the table below.

[MPR 32, Amdt. 6]

**PAPERBOARD**

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 32 is amended in the following respects:

In Appendix C, paragraph (d) is added to read as follows:

(d) *Increased prices for certain specialty boards.* (i) To the maximum prices existing on June 29, 1946, of Tag Stock and related grades—File Folder, Red Wallet, Red Patch, Stencil Board, Pattern Board, Imitation Pressboard, Beaming Paper and Beaming Board—there may be added \$6 per ton.

(ii) To the maximum prices existing on June 29, 1946, of Sanitary Food Container Board and related grades—Milk Bottle Plug Stock; Hood Stock, Cover Cap and Lid Stock; Lid Stock; Liquid Tight Can Stock; Hot Drink Cup Stock; Dish, Tray and Plate Stock; Food Pail and Ice Cream Pail Stock; Butter Carton Stock; Solid and White Lined Manila; and Solid Bleached Board—there may be added \$10.50 per ton.

(iii) *Provided, however,* That if a manufacturer has been granted an individual adjustment of his maximum price on any commodity described in (i) or (ii) above prior to July 26, 1946, he may charge either his adjusted maximum price or his unadjusted maximum price plus the applicable increase granted herein, whichever is higher.

This amendment shall become effective July 26, 1946.

Issued this 26th day of July 1946.

PART 1388—DEFENSE RENTAL AREAS  
SECTION 1388.1181

[Rent Regulation for Housing, Amdt. 94  
(§ 1388.1181)]

HOUSING

The Rent Regulation for Housing is amended in the following respects:

1. Section 6 (d) (1) of the Rent Regulation for Housing is amended by adding the following paragraph:

If judgment for possession is sought by virtue of a confession of judgment or a warrant of attorney authorizing confession of such judgment against the tenant, the date of commencement of the

action as referred to in this section shall be deemed to be the date of the filing in court the first papers in the proceedings for the entry of such judgment.

2. Section 6 (b) (3) (i) is amended to read as follows:

(i) This paragraph (b) (3) applies to the issuance of a certificate for occupancy of housing accommodations in a structure or premises owned or leased by a cooperative corporation or association (hereinafter called "cooperative") by a purchaser of stock or other evidence of interest (hereinafter called "stock") in such cooperative who is entitled by reason of ownership of such stock to possession of such housing accommodations by virtue of a proprietary lease or otherwise. It applies only to the issuance of a certificate authorizing the pursuit of local remedies to remove or evict one who was a tenant of the housing accommodations at the time of such purchase.

Issued and effective July 26, 1946.

PART 1397—CONSTRUCTION OF BUILDINGS  
AND STRUCTURES

[RMFR 251, Amdt. 5]

CONSTRUCTION SERVICES AND SALES OF  
INSTALLED BUILDING MATERIALS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Revised Maximum Price Regulation 251 is amended in the following respects:

1. Section 8 (a) is amended to read as follows:

(a) *Government required or authorized wage increases.* Where an employer pays wage rates which are higher than those required to be used by him in determining a maximum price under section 6

or 7, he may add his increased labor cost to the maximum price determined under section 6 or 7, if the higher wage rates have been approved by the appropriate Federal Wage or Stabilization Agency. Additional compensation paid to employees for insurance and pension benefits may be treated in the same manner as approved wage increases, where such additional compensation is in a reasonable amount within the meaning of the Stabilization Act of 1942, as determined by the appropriate Stabilization Agency. For the purposes of this section, increased labor cost means the difference in amount between the employer's labor cost based on wage rates used in the determination of his maximum price under section 6 or 7, and his labor cost based on the legally approved increased rates, plus his additional payments for Federal old age benefits, unemployment compensation taxes, workmen's compensation or public liability insurance.

2. The last sentence of the first paragraph of section 9 (a) is deleted.

This amendment shall become effective July 26, 1946.

Issued this 26th day of July 1946.

PART 1436—PLASTIC AND SYNTHETIC RESINS

[MPR 406, Amdt. 11]

SYNTHETIC RESINS AND PLASTIC MATERIALS AND SUBSTITUTE RUBBER

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 406 is amended by adding a new section 20 to read as follows:

SEC. 20. *Applications for adjustment.* Any manufacturer may apply for an adjustment of maximum prices established under this regulation if it can be shown that there is a general shortage of supply of any of the commodities subject to this regulation and that the costs involved in applicant's production thereof have increased so substantially that a price adjustment is necessary to enable him to produce said commodity. Applications shall be made on Office of Price Administration Form No. 692-992 and shall contain the information specified therein. Copies of this form may be obtained from the Rubber, Chemicals and Drugs Price Branch, Office of Price Administration, Washington 25, D. C.

(a) *Amount of adjustment.* Any adjustment granted under this section shall be ordinarily limited to:

(1) An amount sufficient to make the adjusted price per unit equal to factory cost per unit where applicant's current overall profits on an annual basis are favorable as judged by his own or the industry's historical experience.

(2) An amount sufficient to make the adjusted price per unit equal to factory costs per unit, plus general administrative and selling expenses per unit, where applicant's current overall profits on an annual basis are normal as judged by his own or the industry's historical experience. However, the increase shall not ordinarily exceed an amount which will cause his current overall profits on an annual basis to be more than normal as judged by his own or the industry's historical experience.

(3) An amount sufficient to make the adjusted price per unit equal to total cost per unit, plus an adequate margin of profit per unit, where applicant's current overall profits on an annual basis are unfavorable as judged by his own or the industry's historical experience. However, the increase shall not ordinarily exceed an amount which will cause his current overall profits on an annual basis to be more than normal as judged by his own or the industry's historical experience.

(b) *Orders issued under this section.* The Price Administrator may authorize or deny by order the maximum prices requested or any modification thereof. He may require, in appropriate cases, a compensatory decrease in the maximum prices for another product or products manufactured by applicant.

Any order issued hereunder may be amended or revoked at any time.

(c) *Definitions.* When used in this section, the term:

"Overall profits" means overall aggregate dollar profit, adjusted for changes in investment and before deduction of income and excess profit taxes of applicant, or, in the event applicant is a parent, subsidiary, or affiliate of other corporations or business units, of the entire investment enterprise.

"Factory cost" means and includes raw materials less byproduct credits, direct labor, and indirect manufacturing cost.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This amendment shall become effective July 26, 1946.

Issued this 26th day of July 1946.

## EXEMPTION AND SUSPENSION FROM PRICE CONTROL OF MACHINES, PARTS, INDUSTRIAL MATERIALS AND SERVICES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith

has been filed with the Division of the Federal Register.

Supplementary Order 129 is amended in the following respects:

1. Section 12 (c) is amended by striking out the following: "Industrial machinery covered by RMPR 136 which is used in the extraction, production or processing of commodities and is not included in any of the categories of products specifically listed in Appendix A of RMPR 136" and substituting therefor the following: "Industrial machinery and equipment which is not specifically listed as machinery or equipment in Appendix A of RMPR 136. Appendix A lists both specific machinery and equipment and machinery and equipment which is designed for use in a particular industrial process or operation. Any machinery or equipment which is designed for and used exclusively in one of the processes or operations listed in Appendix A as a category of machinery or equipment is considered to be specifically listed in Appendix A. Machinery and equipment which is usable in more than one of the processes or operations listed in Appendix A as a category of machinery without a substantial modification is considered not to be listed in Appendix A. A substantial modification is one the cost of which is more than 10% of the manufacturer's net realized price for the piece of machinery or equipment before modification to the class of purchaser who commanded the lowest prices prior to April 8, 1946".

2. Section 12 (c) is amended by adding the following definitions to the product "springs, mechanical precision", listed thereto:

As used in this order, the phrase "springs, mechanical precision", means only springs which meet the following requirements:

(1) They must be elastic metallic contrivances designed for a specific mechanical purpose to support or react against applied pressure, lead or distortion, and

(2) They must be one of the following types or designs of springs:

- (a) Volute.
- (b) Flat.
- (c) Coil.
- (d) Spiral, or
- (e) Formed Wire, and

(3) They shall not fall within any one of the following types, designs, or categories:

- (a) Leaf.
- (b) Vehicle Suspension.
- (c) Screen Door.
- (d) Bed.
- (e) Upholstery, or
- (f) Standard all-purpose or dual purpose usually sold thru retail channels, and

(4) They must be manufactured to definitely specified physical requirements, and

(5) They must be manufactured of spring temper materials or annealed materials subsequently heat-treated for the purpose of obtaining precise metallurgical structure.

3. Section 12 (f) is amended by adding the following to the list of parts, attachments and accessories:

Attachments and accessories exclusively designed for incorporation in or attachment to and applicable solely to a particular machine or piece of equipment specifically suspended in this section 12 which are or have been supplied by the manufacturer of such machinery and equipment. This suspension does not apply, however, to sales of any of the following products, except in so far as they have been specifically listed in other paragraphs of this section: "Control equipment, electrical; electronic devices, equipment and parts; generators, electrical; magnetos, electrical; motors, electrical; switches and switch boxes, electrical; and transformers, electrical".

4. Section 18 (b) is amended by adding the following subparagraph (7):

(7) The reporting provisions of this paragraph apply only to manufacturers of the following machinery or equipment listed in section 12 who have a published price list which, under the applicable regulation, they were required to file with OPA prior to the inclusion of the product in section 12:

Machine tools.

Instruments, electrical, electrically or magnetically actuated for indicating, measuring, recording or testing electrical quantities, not including automotive or electronic testing instruments.

Automotive testing and maintenance equipment, electrical and mechanical, subject to RMPR 136.

Buffing and polishing wheels.

Compressors, air and gas, and dry vacuum pumps which normally are driven by prime movers of more than 10 HP, and assemblies of such equipment when sold with or without prime movers, storage tanks, controls, etc.

Internal combustion engines.

Power transmission equipment.

Pumps.

Textile machinery, except textile machinery accessories and parts.

Floor surfacing and floor maintenance machinery and equipment.

Petroleum industry drilling and producing machinery and equipment.

Printing trades machinery and equipment as defined in Order 568 under RMPR 136.

Beekeepers machinery, supplies and equipment.

Poultry farm equipment.

If any manufacturer to whom this paragraph is applicable increases or has increased the price of a product covered by this paragraph following the inclusion of the product in section 12 (whether such price increase is made by direct dollars-and-cents increase, percentage increase, change in discount structure, or change in terms of sale), he shall file with Machinery Branch, OPA, Washington 25, D. C., the following report at the following times. The report shall be either (i) A copy of the notice of price change, discount change, or change in terms of sale, or (ii) If he has issued a new price list to show the increased price, a copy of the new price list. The report shall be filed (i) If the increase has been made prior to July 26, 1946, then 30 days from July 26, 1946, or (ii) if the increase is made after July 26, 1946, then 30 days after the effective date of the increase.

NOTE: All reporting and record keeping requirements of this amendment have been

approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This amendment shall become effective July 26, 1946.

Issued this 26th day of July 1946.

#### PART 1306—ADMINISTRATION

[SO 129, Amdt. 35]

#### EXEMPTION AND SUSPENSION FROM PRICE CONTROL OF MACHINES, PARTS, INDUSTRIAL MATERIALS AND SERVICES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Order 129 is amended in the following respects:

1. Section 11 (a) is amended by adding the following to the list of commodities thereunder:

Cork, raw, including grinding, milling and corkwood types.

2. Section 14 is amended in the following respects:

a. The headline of paragraph (a) is amended to read as follows:

(a) *Automotive parts, certain sales of original equipment.*

b. Paragraph (a) (4) (ii) is amended to read as follows:

(ii) "Complete assembly" means an assembly in its final form and which will not later be incorporated in another product. Examples of such complete assemblies are farm tractors and farm combines.

c. The last sentence in the narrative immediately preceding the examples in paragraph (a) (4) (iii) is amended to read as follows:

"Automotive parts" do not include tires; batteries; radios; ferrous and non-ferrous castings covered by Regulations 41, 125, 214, 235, 241 and 244; or cut stock or any lumber item, regardless of the degree of fabrication, covered by any Regulation covering lumber, flooring or other lumber products.

d. Paragraph (b) is redesignated paragraph (d), and a new paragraph (b) and a new paragraph (c) are added to read as follows:

(b) *Automotive parts, miscellaneous sales of parts and accessories as follows—(1) Automotive parts and accessories as follows:*

Carrier racks designed to carry luggage, fish poles and pipe.  
Cowl boards and foot rails.  
Garbage truck bodies.  
Gas tank caps and locks.  
Gearshift knobs.  
License frames.  
Radiator caps and ornaments.  
Running board plates and moulding.  
Spare tire locks.  
Steering wheel spinners.  
Sun visors.

Tank bodies designed for mounting on trucks and trailers.  
Tire traction devices.  
Traction sanders.

(c) *Miscellaneous automotive equipment as follows:*

Air gauges, pencil type.  
Tow bars, cables and chains.

e. Paragraph (d) (formerly paragraph (b)) is amended by adding the following to the list of vehicles thereunder:

Tank trailers.

3. Section 15 (a) is amended by adding the following to the list of commodities thereunder:

Food trays and dishes made of white lined paperboard, groundwood paperboard and molded pulpwood and wood.  
Napkins, printed and decorated.  
Plates, molded woodpulp and paperboard, including cake circles and butter chips.  
Sanitary napkins sold by means of vending machines.  
Specialty paint-making products.  
Spoons and forks, vulcanized fiber.  
Table covers, printed and decorated.  
Towels, printed and decorated.  
Tissues, thin, as follows only:  
Cigarette paper.  
Condenser tissue.  
Carbonizing tissue (above A-grade book).  
Lens tissue.  
Stencil tissue.  
Wadding, creped cellulose, used as a protective packing and for other industrial purposes, excluding all creped cellulose wadding used in the processing or manufacture of sanitary products.

4. Section 16 (b) is amended by adding the following to the list of commodities thereunder:

Air mattresses and pillows.  
Acid bottles.  
Bands and cushions for artificial limbs.  
Bath tubs, portable.  
Blood pressure bags, bulbs and tubing.  
Blood transfusion connectors.  
Brain surgery caps.  
Cable wrapping tape.  
Caps and closures.  
Colonic bags.  
Colostomy outfits.  
Crutch parts.  
Gaskets, packings and oil seals, except auto-dilators.  
Evacuators.  
Foot appliances and parts—corrective.  
Funnels.  
Fruit jar rings.  
Gaskets, packings and oil seals, except automotive, including mechanical packings, packing in sheets, slabs and strips and other packing products.  
Glass molded neoprene surgical tubing.  
Hanger bags.  
Horse and mule shoes, horse shoe pads, calks and other horse shoe accessories.  
Inhalation bags and face pieces (Medical, surgical, dental, veterinary and laboratory).  
Insufflators.  
Intravenous connectors.  
Medicine droppers and bulbs.  
Microscope covers.  
Orsat bags.  
Orthopedic pads and parts.  
Parts for medical, surgical, veterinary and mortuary instruments.  
Parts for acoustic aids.  
Prophylactics, including:  
Diaphragms.  
Fittings, rings.  
Pessaries.  
Prophylactics.  
Vaginal applicators.  
Prostatic bags.

Prosthetic devices and parts.  
Sinus pads and bags.  
Spatulas.  
Splint cushions.  
Suppositories.  
Therapeutic applicators.  
Thermometer cases.  
Tourniquets.  
Truss parts.  
Umbilical belts.  
Urinals, individual wear.  
Veterinary sleeves.  
X-ray sheets, gloves, aprons, and cooling hose.

5. Section 16 is amended by adding the following paragraph (d):

(d) *Miscellaneous services utilizing rubber, synthetic rubber or substitute rubber, as follows:*

Repair of truck tires above the 16.00 size.

This amendment shall become effective July 26, 1946.

Issued this 26th day of July 1946.

PAUL A. PORTER,  
Administrator.

#### PART 1306—ADMINISTRATION

[SO 129, Amdt. 37]

#### EXEMPTION AND SUSPENSION FROM PRICE CONTROL OF MACHINES, PARTS, INDUSTRIAL MATERIALS AND SERVICES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Order 129 is amended in the following respects:

1. Section 10 (b) is amended to read as follows:

(b) Mechanical building equipment covered primarily by MPR 591, but also by RPS 40, 2nd Revised MPR 236, MPR 261, MPR 272, MPR 317, MPR 413, the GMPR, and SO 151, as follows:

(1) Hardware covered by RPS 40, MPR 261, MPR 317, MPR 413, MPR 591, the GMPR, and SO 151, as follows:

1. Awning hardware and awning pulleys.
2. Bright wire goods.
3. Builders' hardware, except the following items which remain subject to price control: Barrel bolts 6" or under, iron or steel, Bit key front door lock sets with wrought trim.  
Coat and hat hooks, aluminum base, cast iron, and steel base wire.  
Cellar window hardware.  
Cylinder entrance lock sets, knob or handle operated, with cylinder locks having dead bolts, latch bolts, and finger operated stop works with cast handles and wrought trim.  
Cylinder rim night latches and rim dead locks, with cast iron, steel or die-cast cases, iron or brass bolts, die-cast and brass pin tumbler cylinder, conventional operation, standard size, standard backset.  
Cylindrical type cylinder entrance handles and knob lock sets, standard commercial design.  
Door stop 3" or less, aluminum base, cast iron and steel base wire.  
Hinges and butt hinges, steel, but not including ball bearing and other type bearing hinges and checking floor hinges.  
Inside lock sets, knob operated, with tubular and light weight cylindrical locks and

latches, mortise latches, less than 2½" in height, and 1-tumbler bit key locks 3½" or less with wrought trim.

Rim lock sets, steel and iron case locks with iron bolts, pottery or steel knobs.  
Tubular type cylinder night latches and dead locks.

4. Cabinet hardware, except pulls, knobs, catches, latches and steel hinges.
5. Casket and casket shell hardware.
6. Furniture hardware including metal slides and glides but not including casters.
7. Key blanks, all types and materials.
8. Lavatory hardware.
9. Marine hardware, except turnbuckles.
10. Mail boxes, except rural.
11. Mail chutes, except pneumatic.
12. Padlocks, all types.
13. Refrigerator hardware (for commercial refrigerators).

14. Sash hardware, including sash pulleys, except the following items which remain subject to price control:

Sash fasteners and lifts, aluminum base, cast iron and wrought steel.

Sash pulleys, drive in type, wrought steel.  
15. Screen and screen door hardware, including grilles and guards and storm sash hardware, except the following items which remain subject to price control:

Rim, mortise, and tubular screen door latches, steel or cast iron.

Screen and storm sash hangers, steel.  
Spring hinges for screen and storm doors, nonadjustable type, steel or cast iron.

16. Showcase hardware.
17. Venetian blind hardware.
18. Window and door guards.

19. Hardware parts or subassemblies of any hardware item whether or not such item is suspended from price control, when the part is made specifically for and sold to a hardware manufacturer for incorporation into a product which is an item of hardware.

(2) Screenings covered by RPS 40, MPR 591, and the GMPR, as follows:

1. Aluminum screen cloth.
2. Glass cloth.
3. Glass screen cloth.
4. Monel screen cloth.
5. Plastic cloth.
6. Plastic screen cloth.
7. Custom built screens, as follows: any manufacturer who can demonstrate that more than 70 percent of his 1941 sales of screens consisted of custom-built screens, that his prospective sales may reasonably be expected to follow the same pattern, may apply to the Prefabrication and Building Equipment Price Branch, OPA, Washington 25, D. C., for an order suspending his sales of custom-built screens from price control.

(3) Miscellaneous cast and sheet metal building materials covered by MPR 591 or the GMPR, as follows:

1. Air and fume conductor devices and accessories.
2. Battenstrips.
3. Caps, corners and cornices.
4. Coal chutes.
5. Flag poles and staffs.
6. Flashings except lead.
7. Formed valley but not including rolled valley.
8. Inclinerators, metal.
9. Industrial metal doors.
10. Iron and steel gratings and flooring.
11. Iron and steel hand rails and stairway guards.
12. Iron and steel stair treads.
13. Louvres.
14. Metal awnings.
15. Metal masonry anchors and inserts.
16. Metal concrete accessories and specialties.
17. Metal concrete forms, including caisson tubing and piping.
18. Metal plastering accessories and specialties.

19. Metal roof deck.
20. Metal and metal bound weatherstripping.
21. Miscellaneous sheet metal work except metal base, and pressed steel stud and joist framing.
22. Mouldings, bindings and edgings.
23. Open web steel joists.
24. Partitions.
25. Rainwater disposal devices and accessories.
26. Ridge roll and accessories.
27. Sanitary risers.
28. Shutters, metal and metal covered.
29. Skylights.
30. Terrazzo strips.
31. Tie and timber connectors.
32. Tie rods and accessories, except bolts and nuts.
33. Vault doors.
34. Ventilators, except marine, or motor operated.
35. Walk gates not including farm gates and fences.
36. Window sash and frames, metal and metal covered, except basement, utility, residence casement and residence double hung type, all of which remain subject to price control.

(4) Heating and winter air conditioning equipment covered by MPR 236, MPR 272, MPR 591, and the GMPR, as follows:

1. Blast traps and strainers.
2. Conversion grates, except fireplace.
3. Fireplace dampers, iron or steel.
4. Furnace pipe, fittings, and accessories, all types and sizes—
  - a. Black iron.
  - b. Bright tin.
  - c. Galvanized iron.
5. Registers and grilles, all types.
6. Smoke pipe, fittings, and accessories, black and galvanized, all sizes but not including smoke stacks or breechings.
7. Solar systems, all types for heating and hot water generating.
8. Stove pipe, fittings, and accessories, all types and sizes.
9. Heating and winter air conditioning equipment specifically designed for institutional, commercial or industrial installations, as follows:
 

Any manufacturer of heating and winter air conditioning equipment specifically designed for institutional, commercial or industrial installations, not specifically suspended from price control, may apply to the Mechanical Building Equipment Price Branch, OPA, Washington 25, D. C. for an order suspending from price control sales of his items specifically designed for institutional, commercial and industrial installations.

(5) Control Equipment covered by MPR 591 and the GMPR—all sales, except of the following items:

(NOTE: The following items remain subject to price control under MPR 591 or the GMPR.)

- (a) Check and Draft Damper Regulators—Non-Electric, of the following types only:
  - (i) Boiler draft damper regulators. Hot water heating boiler damper regulators. Steam, vapor or vacuum heating boiler regulators.
  - (ii) Domestic hot water heating boiler damper regulators—all types and sizes for domestic hot water heating.
  - (iii) Warm air furnace and space heater regulators used for damper regulation on warm air furnaces and portable space heaters.
- (b) Gas Burner Primary Controls for Automatic Firing—Electric, of the following types only:
  - (i) Manual or automatic reset gas pilot light safety switch with electrical switching mechanism actuated by thermo-coupled pilot generator, liquid or gaseous expansion or metallic expansion means.

(c) Gas Burner Primary Controls for Automatic Firing—Non-electric, of the following types only:

(i) Self-contained domestic hot water heater regulators consisting of valve and immersion thermostat, or pilot safety control, or any combination of two or more of these, when designed specifically for that purpose.

(d) Limit Controls—Electric, of the following types only:

(i) High limit controls for steam heating, responsive to vacuum or pressure changes, scale range 35 lbs. pressure or less, with line or low voltage two position control circuits.

(ii) High limit controls for hot water heating, bimetallic or liquid bulb immersion type responsive to water temperature changes, for line or low voltage two position control.

(iii) High limit controls for hot water heating, bimetallic or liquid bulb surface type responsive to water temperature changes, for line or low voltage two position control.

(iv) High limit controls for warm air heating, surface or immersion types, for line or low voltage two position control.

(v) Blower control switches, single stage, for warm air heating, surface or immersion types.

(vi) Combination controls for warm air heating, incorporating high limit control and single stage blower control.

(vii) Thermostatic controls for domestic hot water heaters responsive to water temperature changes, line or low voltage.

(e) Low Water Cut-Off, with or without pressure control and with an operating pressure of 30 lbs. or less.

(f) Oil Burner Primary Controls for Automatic Firing—Electric, of the following types only:

(i) Stack mounted oil burner control relays with low voltage thermostatic control circuit.

(ii) Oil flow metering control valve, capable of automatically maintaining high and low fire, and equipped with automatic safety cut-off.

(iii) Oil lifter either separately or in combination with Oil Flowing Metering Control Valve.

(iv) Electric Conversion units for converting manually operated Oil Flow Metering Control Valve to electric operation.

(g) Oil Burner Primary Controls for Automatic Firing—Non-Electric, of the following types only:

(i) Oil Burner fuel units incorporating an oil pressure regulating valve.

(ii) Constant level flow control valves for regulating flow of oil to oil burners, and equipped with non-electric automatic metering for flame control, including those designed for domestic hot water heaters.

(iii) Constant level flow control valves, non-metering type.

(h) Refrigeration Controls—Electric, of the following types only:

(i) High or low side domestic refrigerator controls with an electrical rating of  $\frac{1}{2}$  HP, AC, or less, and especially designed for new or replacement purposes on domestic refrigerators.

(ii) Remote bulb or capillary tube domestic refrigerator temperature controllers, with an electrical rating of  $\frac{1}{2}$  HP, AC, or less, and especially designed for domestic refrigerators.

(f) Relays—Electric, of the following types only:

(i) Line or low voltage relays especially designed for temperature control circuits, rated 15 amp. 110 volt AC or less and with 2 PDT switching action or less.

(6) Valves and pipe fittings, covered by MPR 591 and the GMPR, as follows:

NOTE: The heading of this sub-paragraph is not to be construed as including plumbing and heating fixture fittings or trim. Items of plumbing and heating fixture fittings or trim are dealt with in subparagraphs (9) and

(4). The terms "brass" and "bronze" are used interchangeably.

(a) Valves, as follows:

1. All manually operated valves of iron, steel or steel alloys regardless of size or pressure designation (i. e., gates, globes, angles, cross, checks, blow offs, stop checks, needle, lubricated or asbestos packed plug, saddle or clamp type, butterfly, throttle and quick opening valves).

2. All manually operated brass valves designated by the manufacturer to operate at pressures in excess of 125# SWP (i. e., gates, globes, angles, cross, checks, blow-offs, stop checks, needle, lubricated or asbestos packed plug, saddle or clamp types, butterfly, throttle and quick opening valves).

23. Manually operated brass valves designated by the manufacturer to operate at pressures 125# SWP or less, limited to the following types and sizes:

a. Throttle, quick opening and self-closing valves.

b. Needle valves.

c. Butterfly valves.

d. Lubricated or asbestos packed plug valves.

e. Valves with bolted bonnet or outside screw and yoke.

f. Globe, angle or cross valves specifically manufactured for oil and/or gas services.

g. Sampling and vent valves, except radiator vent valves.

h. All brass valves larger than 2" I. P. S. or  $2\frac{1}{2}$ " nominal diameter tubing size.

j. Irrigation valves larger than 2" I. P. S.

k. Valves with stuffing boxes or seals for refrigerant gases.

4. Single pressure and multi-pressure 2, 3, and 4 way hydraulic and pneumatic valves.

5. All motor operated and gear valves of cast iron, steel, steel alloys, and brass when designed for industrial piping systems, power generating stations, marine services, sewage disposal plants and water works.

6. All automatic, regulating and/or float valves, except the following which remain subject to price control:

a. Flow control valves and appurtenances for domestic heating systems.

b. Low water cut off, with or without pressure control and designated to operate at a water pressure of 30# or less.

c. Brass or iron pop safety and/or relief valves for steam and hot water heating boilers, low pressure (up to 15# maximum SWP).

d. Water pressure regulators designed for domestic use.

7. Grease and oil pressure valves and fittings, except those covered by RMPR 136, MPR 246, or MPR 452.

8. All alloy iron pipe, pipe fittings and valves (i. e., copper-nickel-iron, nickel iron and silicon iron).

9. All hose fittings and valves except garden hose fittings.

10. All equipment designed for use on gasoline and oil bulk stations, filling stations, tank cars and tank trucks limited to the following: hose nozzle valves or faucets, hose nozzle check valves and strainers, fill boxes and caps, tank vents, gauge boxes, foot valves, suction strainers, truck tank faucets, manifold valves, loading valves and anti-freeze valves.

11. Valves specifically designed for marine services as follows: Any manufacturer of valves specifically designed for marine service, and which are not specifically suspended from price control, may apply to the Mechanical Building Equipment Price Branch OPA, Washington 25, D. C., for an order suspending from price control sales of his valves specifically designed for marine service.

(b) Fittings, as follows:

1. All bushings and plugs made of brass, iron and steel, except iron bushings and plugs 4" IPS or smaller for the largest dimension.

2. Cast iron drainage fittings limited to the following:

a. All fittings larger than 6" IPS.

b. All drainage fittings, regardless of size, specifically designed for support of horizontal waste above floor of wall hung, wall outlet closets.

3. Cast iron screwed and flanged fittings limited to the following:

a. All fittings larger than 4" IPS regardless of pressure designation.

b. All fittings designated by the manufacturer for 250# SWP or more regardless of size.

c. All flanged unions.

4. Malleable iron flanged or screwed fittings (but not including malleable iron unions and union fittings, and circulating boiler fittings) limited to the following:

a. All fittings larger than 4" IPS regardless of pressure designation.

b. All fittings designated by the manufacturer for more than 150# SWP regardless of size.

c. Railing fittings, drainage fittings, air tested fittings for air brake or other compressed air services.

5. Malleable iron unions and union fittings limited to the following:

a. All fittings larger than 2" IPS regardless of pressure designation.

b. All fittings designated by the manufacturer for more than 150# SWP regardless of size.

c. Flanged unions.

6. Brass flanged and screwed fittings including unions and union fittings (but not including circulating boiler fittings) limited to the following:

a. All fittings larger than 2" IPS regardless of pressure designation.

b. All fittings designated by the manufacturer for more than 125# SWP (MIP) regardless of size.

c. Railing fittings.

7. Swing joints, expansion joints, and flexible joints.

8. Copper and brass sweat or solder joint fittings limited to the following:

a. Sizes less than 3/8" O. D. tubing.

b. Sizes longer than 2 1/8" O. D. tubing.

9. Brass flare fittings limited to the following:

a. Sizes larger than 2 1/8" O. D. tubing.

b. All fittings especially designed to SAE standards and so designated by the manufacturer.

10. Bronze fittings with ends for high temperature brazing.

11. All forged or cast steel, carbon steel, steel alloy fittings, screwed, flanged or welding ends except welding and fittings designated by manufacturer for less than 250# SWP.

12. All prefabricated pipe, except pipe cut to specified length or pipe on which fittings are "made on."

13. Nipples, black and galvanized, except radiator nipples and those manufactured from standard weight welded steel pipe and welded genuine wrought iron pipe, threaded both ends, in pipe sizes 6" or less and in the lengths shown in the National Bureau of Standards Commercial Standard No. CS5-46.

(7) Piping accessories covered by MPR 591 and the GMPR, as follows:

1. Clamps and couplings except garden hose clamps and couplings.

2. Nozzles, except garden hose nozzles.

3. Pipe hangers and rests of only the roller and spring suspension types.

4. Gauges, all types.

5. Perfection oil and molasses gates.

6. Post indicators and floor stands.

7. Wood casing for pipe.

8. Valve boxes.

9. Syphons for steam gauges.

10. Try cocks.

(8) Mechanically operated commercial refrigeration and summer air conditioning equipment and accessories covered by MPR 591 and the GMPR, as follows:

1. Air conditioning units, self-contained, over 1 horsepower to 12,000 BTU and up to but not including 25 horsepower.

2. Beverage cooling and dispensing equipment.

3. Coils and fan coils, except those manufactured from glass, designed for cooling purposes only.

4. Condensing units, over 1 horsepower and up to but not including 25 horsepower, or 25 tons.

5. Cabinets as follows: Ice cube makers, cabinet type.

6. Evaporative condensers.

7. Insulated cold storage doors.

8. Refrigerated coolers as follows:

Beverage coolers.

Water coolers.

Milk coolers.

Salad coolers.

9. Refrigerated counters and display cases as follows:

Counter and back bar refrigerators.

Display cases, all types.

10. Refrigerator compressors, over 10 horsepower and up to but not including 25 horsepower, or 25 tons.

11. Refrigerators over 16 cubic feet capacity, as follows:

Commercial.

Display.

Reach-in.

Walk-in.

(9) Plumbing equipment and accessories covered by MPR 591 and the GMPR, as follows:

1. Automatic cellar and basement drainers—siphon operated only.

2. Cast iron pressure pipe and fittings.

3. Cocks, metal, all types of pressures limited to the following: steam cocks, gas and water service cocks, meter cocks, ground key, brine cocks, corporation cocks, hydrant cocks, lubricated cocks, pet cocks, cylinder cocks, gauge cocks, spring loaded cocks, asbestos packed cocks, but not including brass gas stove stops, or radiator air valves.

4. Firefighting (standpipe) equipment.

a. Nozzles.

b. Play pipes.

c. Racks.

d. Siamese (or steamer) connections.

e. Wrenches.

5. Hydrants (i. e., fire, wall, street washers, yard).

6. Liquid soap dispensing equipment except portable, or detachable self-contained unit.

7. Manhole frames and covers (i. e., catch basins, catch basin's covers, area gratings).

8. Meter boxes, outside only.

9. Permanently installed lawn sprinkler equipment.

10. Plastic pipe and tubing, and pipe fittings manufactured from co-polymer vinyl and vinylidene chlorides commercially known as Saran B-11.

11. Metal clad wood plumbing fixtures.

12. Road and curb boxes and gratings.

13. Separators—grease and oil.

14. Shower stall doors and door frames.

15. Shower enclosures to be mounted on bath tubs only.

16. Sprinkler (fire protection) system equipment—all types including heads, devices, alarm valves, wrenches, etc., but not including pipe and fittings.

17. Plumbing equipment and accessories specifically designed for institutional, commercial or industrial installations, as follows: any manufacturer of plumbing equipment and accessories specifically designed for institutional, commercial or industrial installations, and which are not specifically suspended from price control, may apply to the Mechanical Building Equipment Price Branch, OPA, Washington 25, D. C. for an order suspending from price control sales of his items specifically designed for institu-

tional, commercial and industrial installations.

2. Section 18 (b) (2) is amended to read as follows:

(2) *Mechanical building equipment; filing of published prices.* Every manufacturer of an article listed under section 10 (b) shall forward to the Mechanical Building Equipment Price Branch, OPA, Washington 25, D. C., within 20 days after such article has been suspended, unless previously submitted, copies of all published current catalogs, published price books, and published discount sheets relative to any such commodities. Copies of all such catalogs, price books, and discount sheets issued at any time after suspension of the articles involved, shall also be forwarded to the Mechanical Building Equipment Price Branch at least 5 days before issuance.

This amendment shall become effective July 26, 1946.

NOTE: The reporting requirement of this Amendment has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 26th day of July 1946.

Supplementary Order 129 is amended in the following respect:

Section 10 (a) is amended by adding the following items:

Asbestos paper.

Asbestos millboard.

Asbestos cellular section pipe covering and blocks.

Asbestos laminated sectional pipe covering and blocks.

Wool felt section pipe covering and blocks.

Colored sheet glass.

Opalescent glass.

Cathedral glass.

Cork composition products (except die cut gaskets and shape specialties).

Basic granular refractories, consisting of aggregations of dry, loose grains of basis materials such as dead-burned magnesite and dolomite, dolo-magnesia, and/or magnesia, used to construct and maintain inner surfaces of furnaces.

Expanded metal produced by metal lath manufacturers but not when sold for use as a base for plaster, stucco or ceramic wall tile.

Industrial sands as follows but not sand sold for use in masonry construction or units of masonry construction:

Glass and other melting sands.

Blasting sand.

Foundry sand.

Traction sand.

Filter sand.

Refractories sand.

Grinding sand (but not abrasive sand covered by MPR 327).

This Amendment No. 38 shall become effective July 26, 1946.

Issued this 26th day of July 1946.

PART 1305—ADMINISTRATION

[SO 162, Amdt. 2]

ADJUSTMENT OF MAXIMUM PRICES FOR  
MANUFACTURERS AND MANUFACTURING RE-  
TAILERS SALES OF CERTAIN FOOTWEAR

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Order 162 is amended in the following respects:

1. The title of Supplementary Order 162 is amended to read as follows:

*Adjustment of maximum prices for manufacturers and manufacturing retailers sales of certain footwear.*

2. Section 1 is amended to read as follows:

SEC. 1. *Purpose of this order.* This order provides a method for increasing the General Maximum Price Regulation ceiling prices established for manufacturers' and manufacturing-retailers' sales of certain footwear.

3. Footnote 1 to Section 2 is amended to read as follows:

<sup>1</sup> "Footwear" does not include shoes containing no leather or shoes or slippers which are vulcanized.

4. Section 3 is amended to read as follows:

SEC. 3. *Adjusted maximum prices.* Except as modified by section 4 (b) of this order, on or after July 26, 1946, any item or line of footwear covered by this order may be sold or delivered at the adjusted maximum price determined under this section.<sup>3</sup> The adjusted maximum price under this section shall be determined as follows:

*Step 1.* Determine the net maximum price of the item of footwear properly established under § 1499.2 (a) of the General Maximum Price Regulation, or of the line of footwear established under 3.1 of Supplementary Regulation 14E, exclusive of any adjustment granted by order issued by the Office of Price Administration under § 1499.75 (a) (10)

<sup>3</sup> 11 F.R. 6007-6667.

<sup>4</sup> Where the seller's method of distribution falls within the definition of a "manufacturing-retailer's sale" (as set forth in section 2 (b) of this order) the only maximum price which may be adjusted under this order with respect to the footwear so distributed is the maximum retail price. The maximum retail price which the manufacturing-retailer may adjust under this section is the maximum retail price which he established under § 1499.2 (a) of the General Maximum Price Regulation and may not, under this section adjust the maximum retail price which he established under Maximum Price Regulation 580.

of Supplementary Regulations 15 or under Supplementary Order 133. Then proceed with the computation under paragraph (a) or (b), below, whichever is applicable.

(a) *Where the General Maximum Price Regulation maximum price determined under Step 1 is at or below the applicable cut-off price listed in column 3 of Appendix A for the category of footwear being priced.*

*Step 2.* Add to the net maximum price determined under Step 1 the applicable cents per pair amount listed in column 2 of Appendix A for the same category of footwear. Except as provided in paragraph (c), below, the amount thus determined is the adjusted maximum price under this order for such footwear.

*EXAMPLE:* During March 1942, you delivered Style 345, a men's dress shoe at \$3.40 net to retailers. You are today manufacturing the identical shoe. Your maximum price for that shoe under § 1499.2 (a) is \$3.40 net. Under Step 2, you add 36 cents to your price of \$3.40 which is the amount of increase listed for the men's dress shoe category in column 2 of Appendix A. Accordingly, your adjusted maximum price to retailers for Style 345 is \$3.76 net.

(b) *Where the General Maximum Price Regulation maximum price determined under Step 1 is above the applicable cut-off price listed in column 3 of Appendix A for the category of footwear being priced.*

*Step 2.* Subtract from the net maximum price determined under Step 1 the applicable cut-off price listed in column 3 of Appendix A for the category of footwear being priced.

*Step 3.* Multiply the difference obtained in Step 2, above, by .075.

*Step 4.* Add to the net maximum price determined under Step 1, the amount determined under Step 3, and the applicable cents per pair amount listed in column 2 of Appendix A for the category of footwear being priced, where the resulting figure contains a fraction of a cent which is one-half or more, the fraction may be increased to the next nearest cent. Except as provided in paragraph (c), below, the amount thus determined is the adjusted maximum price under this order for such footwear.

*EXAMPLE:* During March 1942 you delivered Style 543, a men's dress shoe at \$5.15 net to retailers. You are today manufacturing the identical shoe. Your maximum price for that shoe under § 1499.2 (a) is \$5.15 net. Under Step 2 you subtract \$3.60 from \$5.15, a difference of \$1.55 which represents the difference between your net maximum price determined under Step 1 and the applicable cut-off price in column 3 of Appendix A for the appropriate category of footwear. Under Step 3 you multiply \$1.55 by .075, resulting in a total of 12 cents. Under Step 4 of this section, you add 36 cents to your price of \$5.15 which is the amount of increase listed for the men's dress shoe category in column 2 of Appendix A. Accordingly, your adjusted maximum price to retailers for Style 543 is \$5.15 plus 12 cents plus 36 cents, or \$5.63 net.

(c) *For an item of footwear containing kid or goat leather.* The adjusted maximum price properly computed under paragraph (a) or (b), above, for an item of footwear which contains kid or goat leather may be increased by an amount equal to 8.6% of the "current cost" of the actual amount of kid or goat leather used in the manufacture of the particular item. Where the resulting adjusted maximum price contains a fraction of a

cent which is one half or more, the fraction may be increased to the next nearest cent. "Current cost" means the amount actually paid by the manufacturer to his supplier (not to exceed his supplier's maximum price less available term discounts).

With respect to a line of footwear, the amount of increase permitted under this section shall be computed for each item containing kid or goat leather in the line and only the adjusted maximum price for such item within the line may be increased by the amount computed for that item.

*EXAMPLE:* Assume that the men's dress shoe, Style 543, for which you determined an adjusted maximum price of \$5.63 net, to retailers, under paragraph (b), above, contains 2 square feet of kid leather which currently costs you 50 cents per square foot (or \$1.00 total). Under paragraph (c) you multiply \$1.00 by .086, resulting in a total of 9 cents which may be added to the adjusted maximum price. Consequently, the adjusted maximum price to retailers under this order for your men's kid leather dress shoes, Style 543, is \$5.72 net.

(d) *For manufacturers' sales only.* The adjusted maximum price determined under paragraphs (a), (b), or (c) above, for a manufacturer's sale may be increased by the "OPA adjustment charge" in accordance with the provisions and requirements of § 3.13 of Supplementary Regulation 14E to the General Maximum Price Regulation.

(e) *Discounts.* An item of footwear covered by this order may be billed at a gross price provided the terms or discounts added are unconditional and that the net price, after discounts, does not exceed the net maximum price properly determined under this section.

5. Section 3a is added to read as follows:

SEC. 3a. *Special pricing provision for sellers who make both manufacturers' and manufacturing-retailers' sales.*

Any seller who has established an adjusted maximum price under this order for his manufacturers' sales for an item or line of footwear, but who is unable to determine an adjusted maximum retail price because he does not have a maximum retail price established under § 1499.2 (a) of the General Maximum Price Regulation, may multiply his adjusted maximum price as established under this order for his manufacturers' sales of such item or line by 1.495. Where the figure thus computed contains a fraction of a cent which is one half or more it may be increased to the next nearest cent. The resulting price shall be his adjusted maximum retail price for his manufacturing-retailers' sales for such footwear.

6. The first paragraph of section 4 (b) is amended to read as follows:

(b) *Reports.* No person may deliver an item of footwear at an adjusted maximum price established under this order until he has filed the report required by this section.

7. Section 4 (b) is amended to add a new item (iv) at the end thereof to read as follows:

(iv) In any case where the item of footwear, for which a report is filed under this section, contains kid or goat leather, the Office of Price Administration Form No. 6064-2847 shall include in addition to the required information the following:

(a) In column 2 a complete description of the kid or goat leather used in the item of footwear (for example, CLM black glazed Kid).

(b) In column 3 the regular cutting allowances for the pattern used.

(c) In column 4 the current price per foot of kid or goat leather actually paid to his supplier (not to exceed the supplier's maximum price established therefor under the applicable regulation less available term discounts).

8. Section 7 is amended to read as follows:

**SEC. 7. Delegation of authority.** The Administrator, including any Regional Administrator, may suspend any adjustment reported by a seller pursuant to this order whenever he has reason to believe that such adjustment was improperly determined, but shall thereupon afford to such seller an opportunity to show why the adjustment should not be modified or revoked. The Administrator may modify or revoke an adjustment if the seller within a reasonable time fails to show that the adjustment was properly determined. Any Regional Administrator may redelegate to any District Director the authority granted under this section.

9. Appendix A is amended to read as follows:

APPENDIX A—NET CUT-OFF PRICES AND CENTS PER PAIR INCREASE

Column 1 Categories	Column 2 Cents per pair adjustment for—		Column 3 Net cut-off prices for—

FOUNTAIN PENS AND MECHANICAL PENCILS  
AND FOUNTAIN PEN AND MECHANICAL PEN-  
CIL SETS

A statement of the consideration involved in the issuance of this amendment

has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation No. 564 is amended in the following respects:

1. Section 4 is amended to read as follows:

SEC. 4. *Manufacturers' invoices.* Every manufacturer must furnish each person who buys fountain pens or mechanical pencils for resale with an invoice or other similar written evidence of his purchase, showing the date of purchase, the seller's name and address, the terms of sale, the model number or other model designation, the quantity purchased, the price charged per unit, the retail ceiling price for the article determined under this regulation and the name and address of the buyer. This invoice must be kept by every person who buys any fountain pen or mechanical pencil for resale, and a copy shall be kept by the seller for inspection by the Office of Price Administration.

2. Section 5 is amended to read as follows:

SEC. 5. *Sales, model designation, retail prices.* (a) On and after November 1, 1944 a manufacturer except in the case of an article sold only to another manufacturer may not sell or deliver any fountain pen or mechanical pencil unless its retail ceiling price has been determined in accordance with the provisions of this regulation.

(1) The retail ceiling price of any article listed in Section 23 of this regulation shall be the price set forth in that section for the article.

(2) A manufacturer whose retail maximum prices are not set forth in section 23 of this regulation shall apply to the Office of Price Administration, Washington, D. C., setting forth in detail a description of the article (or submitting a sample) for which he is requesting establishment of a retail maximum price. An order will be issued under this section establishing retail maximum prices or a method of determining such maximum prices in line with the level of maximum prices fixed by this regulation. If no order is received by the manufacturer within 20 days after mailing his application (or all other information which may be requested), and maximum prices for his sales to wholesalers or dealers have been properly established, he shall determine his retail ceiling price in accordance with paragraph (3) of this section.

(3) In the case of any article for which the retail ceiling price is not set forth in section 23 and has not been established by order of the Office of Price Administration the manufacturer, except in the case of an article sold only to another manufacturer shall determine its retail ceiling price as follows:

(i) The retail maximum price of an article for which the manufacturer has a maximum price to wholesalers shall be 200% of his maximum price to wholesalers, adjusted to the nearest 5¢.

(ii) The retail maximum price of an article for which the manufacturer does not have a maximum price to wholesalers shall be 166 $\frac{2}{3}$ % of his maximum price to dealers, adjusted to the nearest 5¢.

(b) On and after January 1, 1945, a manufacturer may not sell or deliver any article covered by this regulation unless the ceiling price has been properly determined and he has fulfilled the following requirements:

(1) The manufacturer's firm name or brand name, the model designation of the article, and its retail ceiling price, are affixed to the article either by permanent and legible imprinting, stamping or engraving on any exterior surface of the article, or by a tag or band containing that information. If a tag or band is attached to the article, it may not be removed until the article has been sold at retail.

(2) The manufacturer may assign to his articles such model designations as he sees fit, except that the same model designation may not be applied to fountain pens of his manufacture which have different retail ceiling prices, nor may the same model designation be applied to mechanical pencils of his manufacture which have different retail ceiling prices.

(3) If a manufacturer chooses to sell a fountain pen and mechanical pencil only as component parts of a set (other than a desk set) he must affix the retail ceiling price for the set to each article in the set, followed by the word "set."

(4) If a manufacturer chooses to sell a holder and point as separate items in the case of a fountain pen customarily sold with a renewable or replaceable point which screws into the section or barrel, he must add the word "holder" to the price affixed to the holder, to indicate that the price stated is for the holder only; and he must affix the retail ceiling price of the renewable point to the point or its package.

3. Section 6 is amended to read as follows:

**SEC. 6. Wholesalers' maximum prices.** (a) The maximum price at which wholesalers may sell or deliver fountain pens and mechanical pencils shall be the lowest of the following amounts:

(1) The retail ceiling price for the particular article determined in accordance with section 5 or approved under section 7 of this regulation, less the customary discount granted by the wholesaler, during March 1942, on sales of the same or similar articles of the same make to the same class of purchaser and on the same terms and conditions of sale; or

(2) The retail ceiling price for the particular article determined in accordance with section 5 or approved under section 7 of this regulation, less 33 1/3%; or

(3) 133 1/3% of the wholesaler's net invoice cost plus incoming transportation costs paid by the wholesaler; or

(4) 133 1/3% of the manufacturer's ceiling price to purchasers of the wholesaler's class, plus incoming transportation costs paid by the wholesaler. At the time of or prior to each sale by a wholesaler, such wholesaler shall notify the purchaser in writing as to the retail price for that article and the method used in computing the wholesaler's maximum price. Such notice may be given in any convenient form.

4. Section 7 is amended to read as follows:

**SEC. 7. Wholesaler's applications for retail ceiling prices.** On and after January 1, 1945, a wholesaler may not sell or deliver a fountain pen or mechanical pencil until a retail ceiling price has been determined in accordance with this regulation. If the wholesaler is unable to determine his retail ceiling price under this regulation, he shall apply by letter to the appropriate District Office of the Office of Price Administration for determination of a retail ceiling price. The application must set forth a complete description of the article, the model designation, his supplier's name and address, the name of the manufacturer (if known) his acquisition cost and a proposed retail ceiling price. He may make no sales and deliveries of such articles until a retail ceiling price is established in line with the level of ceiling prices established by this regulation. The proposed retail ceiling price shall be deemed approved twenty days after mailing the application (or all additional information which may be requested) unless within that time the Office of Price Administration notifies the seller that his proposed price has been disapproved.

5. Section 9 is amended to read as follows:

**SEC. 9. Retail ceiling prices.** The maximum price (exclusive of any taxes) for the sale at retail of a fountain pen or mechanical pencil is the retail ceiling price for the article determined in accordance with Section 5 or approved under section 7 or section 11 of this regulation.

6. Section 10 is amended to read as follows:

**SEC. 10. Retail sales and tagging.** On and after November 1, 1944, a retailer may not offer for sale, sell, or deliver any fountain pen or mechanical pencil unless the manufacturer's firm name or brand name, the model designation of the article, and its retail ceiling price as determined in accordance with section 5 or as approved under section 7 or section 11 have been affixed to the article either by permanent imprinting or engraving on the exterior surface of the article, or by a tag or band containing that information.

If a tag or band is attached to the article it may not be removed until the article has been sold at retail.

The requirements of this section apply only to the transactions covered by section 2 of this regulation; that is, sales and deliveries of fountain pens and mechanical pencils shipped by the manufacturer on and after November 1, 1944, and sales and deliveries of fountain pens and mechanical pencils after January 1, 1945, regardless of the date of shipment by the manufacturer.

7. Section 11 is amended to read as follows:

**SEC. 11. Retailers' applications for retail ceiling prices.** On and after January 1, 1945, a retailer may not offer for sale, sell, or deliver a fountain pen or mechanical pencil for which a retail ceiling price has not been determined or for which a retail ceiling price has not been approved under section 7, until he has applied by letter to the appropriate District Office

of the Office of Price Administration and until a retail ceiling price has been approved for the article, under this section, in line with the level of retail ceiling prices established by this regulation. The application should set forth a complete description of the article, the model designation, his supplier's name and address, the name of the manufacturer (if known), his acquisition cost, and a proposed retail ceiling price.

The proposed retail ceiling price shall be deemed approved 20 days after mailing the application (or all additional information which may be requested) unless, within that time the Office of Price Administration notifies the seller that his proposed price has been disapproved.

This amendment may be revised or amended at any time.

This amendment shall become effective July 26, 1946.

**NOTE:** The reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 26th day of July 1946.

Chapter XVIII—Office of Economic Stabilization

TRANSFER OF FUNCTIONS TO OFFICE OF WAR MOBILIZATION AND RECONVERSION

CROSS REFERENCE: For transfer of the functions of the Office of Economic Stabilization to the Office of War Mobilization and Reconversion, see Executive Order 9762, *supra*.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of the Treasury

PART 6—SECURITY OF PORTS AND THE CONTROL OF VESSELS IN THE NAVIGABLE WATERS OF THE UNITED STATES

SUBPART C—ANCHORAGE AND RESTRICTED AREAS

Pursuant to the authority contained in Section I, Title II, of the Espionage Act approved June 15, 1917, 40 Stat. 220 as amended by the Act of November 15, 1941, 55 Stat. 763 (50 U.S.C. 191, 191c), and by virtue of Proclamation number 2412 dated June 27, 1940 (3 CFR Cum. Supp.), the Regulations for the Security of Ports and Control of Vessels in the Navigable Waters of the United States are amended as follows:

*Fifth Naval District*

A new § 6.5-140 is added reading as follows:

§ 6.5-140 *Chesapeake Bay, Bloodsworth Island, Maryland, restricted area—* (a) *The area.* In view of the continuation of shore bombardment, air bombing, air strafing, and rocket firing practices in the vicinity of Bloodsworth Island, a restricted area is established bounded by the following lines:

Parallels through: Latitude 38°08' North, Latitude 38°13' North.  
Meridians through: Longitude 76°00' West, Longitude 76°10' West.

(b) *The regulations.* (1) No vessel or craft shall enter or remain in the restricted area described above or any part thereof when notified by an enforcing authority to keep clear or when firing is in progress, except as noted in subparagraph (3) of this paragraph.

(2) Warning that firing is or will soon be in progress will be indicated by warning signals: During daylight by a red flag prominently displayed from a tower on Adam Island; and at night by a searchlight beam pointed into the air. All persons and craft will clear the area when these signals are displayed or when warned by patrol vessels or by aircraft employing the "buzzing" method which consists of low flights by an airplane, directly above, repeatedly opening and closing its throttle.

(3) During the hours when firing is in progress and warning signals are displayed, no fishing or oystering vessels or other craft not directly connected with the firing are permitted to navigate within the restricted area except that deep

draft vessels using dredged channels and propelled by mechanical power at a speed greater than five knots per hour normally will be permitted to proceed across the area. Permission for such deep draft vessels to enter and cross the area will be indicated: In daytime by dipping the red warning flag to half-mast; at night, by flashing the warning searchlight.

(4) During the hours and days when firing is not in progress and warning signals are not displayed, oystering and fishing boats and other craft may operate within the restricted area.

(5) On those days when firing will be conducted, firing will take place normally during the hours between sunrise and sunset except that occasional night firings may be conducted between sunset and twelve midnight.

(6) Prior notification of the dates and times of all firings will be made by local Notices to Mariners.

(7) Surface and/or air search will be made of the entire restricted area prior to the commencement of each day's firing for the purpose of locating and warning all craft and personnel not connected with the firing, and a patrol will be maintained throughout the duration of firing.

(8) All projectiles, bombs, and rockets will be fired to land on Bloodworth Island and/or Pone Island, but Naval activities will not be responsible for damage by such projectiles or by Naval or Coast Guard vessels to nets, traps, buoys, pots, fish pounds, stakes, or other equipment which may be located within the restricted area.

(9) These regulations will be enforced by the Commandant, 5th Coast Guard District, through such officers and enlisted men as may be designated, using all government vessels, planes, and other suitable equipment as may be necessary.

Section 6.5-240 is cancelled.

Section 6.5-300 is amended to read as follows:

§ 6.5-300 *North Carolina, Pamlico Sound, prohibited area*—(a) *The area.* The area is bounded by a circle with a radius of 1.5 miles centered in latitude 35°32'16" N., longitude 75°40'49" W.

(b) *The regulations.* (1) The area will be dangerous and closed to navigation except for military vessels as may be directed by the enforcing agency to enter on assigned duties.

(2) The regulations will be enforced by the Commanding Officer, Naval Aviation Ordnance Test Station, Chincoteague, Virginia.

#### Sixth Naval District

Section 6.6-5 (a) (1) (vii) and (viii) are amended to read as follows:

§ 6.6-5 *Port of Charleston, South Carolina*—(a) *General anchorage.* \* \* \*

(1) *Areas of prohibited anchorage.* \* \* \*

(vii) An area 1,200 feet wide extending from Ripley Daybeacon toward the head of the Seaboard Air Line wharf (foot of Hasell Street) to its junction with the prohibited area described in paragraph (a) (1) (i) of this section.

(viii) An area 1,200 feet wide extending from Ripley Daybeacon to Fort Sum-

ter light with its axis connecting these structures.

Section 6.6-5 (a) (1) (xii) is cancelled.

Section 6.6-5 (a) (2) is cancelled.

Section 6.6-105 is cancelled.

#### Seventh Naval District

Section 6.7-105 is cancelled.

Section 6.7-130 is cancelled.

Section 6.7-150 is cancelled.

Section 6.7-155 is cancelled.

Section 6.7-160 is cancelled.

Section 6.7-185 is cancelled.

#### Tenth Naval District

Section 6.10-10 (a) (4) is amended to read as follows:

§ 6.10-10 *St. Thomas Harbor, Charlotte Amalie, Virgin Islands*—(a) *The anchorage area.* \* \* \*

(4) *Anchorage E (Small craft anchorage).* All that area north of a line passing through the center of Ballast Island on a bearing of 85°.

NOTE: This anchorage shall be used by small vessels undergoing examination and also by small vessels anchoring under permit from the Captain of the Port.

Section 6.10-115 (a) (3) is amended to read as follows:

§ 6.10-115 *St. Thomas, Virgin Islands; restricted area*—(a) *The acres.* \* \* \*

(3) That area in the east end of Long Bay inclosed by the shore line of the West Indian Oil Company Dock and a line starting at a point near the east end of the West Indian Oil Company Dock in lat. 18°20'10.6", long. 64°54'13.2", thence 328° for 250 yards, thence 49° to the east shore of Long Bay.

#### Eleventh Naval District

A new § 6.11-30 is added reading as follows:

§ 6.11-30 *Newport Beach Harbor, California, anchorage area*—(a) *The anchorages*—(1) *Yacht Mooring Area A-1.* In the Lido Channel area northeasterly of a line parallel to, and 175 feet distant from, the pierhead line of the southwesterly shore of Lido Isle; northerly of a line extending from, and parallel to, the southerly U. S. Bulkhead line of Lido Isle;

southwesterly of a line parallel to, and 100 feet distant from, the pierhead line of the southwesterly shore of Lido Isle; and southwesterly of a line at a right angle out from the pierhead line off the end of Via Barcelona on Lido Isle.

(2) *Yacht Mooring Area A-2.* The area easterly of a line extending northerly from, and parallel to, the easterly side of 15th Street; northerly of a line parallel to, and 200 feet distant from, the pierhead line off 14th and 15th Streets, this line being the northerly line of the main fairway; northwesterly of a line bearing 268° true from the flashing red beacon on the southeasterly end of Lido Isle, this line being the northwesterly line of the main fairway; westerly of a line extending northerly from, and parallel to, the westerly side line of 12th Street; and southerly of a line parallel to, and 325 feet distant of, the pierhead line of the southerly shore of Lido Isle.

(3) *Yacht Mooring Area A-3.* The area easterly of a line extending south-

eastward from, and parallel to, the U. S. (7) *Yacht Mooring Area A-7.* The area easterly of a line parallel to, and 150 feet distant from, the easterly pierhead line of Bay Island; northerly of a line parallel to, and 150 feet distant from, the pierhead line off Fernando Street; northwesterly of a line parallel to, and extending out from, the easterly side of Adams Street; and southwesterly of a line bearing 130° true from the flashing green beacon off Bay Island, being parallel to, and 100 feet southwesterly of, the southwesterly line of the main channel.

(8) *Yacht Mooring Area A-8.* The area northeasterly of a line parallel to, and 270 feet distant from, the southeasterly pierhead line from Collins Isle to Balboa Island; northeasterly of a line bearing 311° true from the flashing red beacon off the southwesterly point of Balboa Island and passing through the red flashing beacon off the southerly point of Bay Shore, this line being the northeasterly line of the main channel; southwesterly of a line parallel to, and 150 feet distant from, the southeasterly pierhead line from Collins Isle to Balboa Island; and southeasterly of a line bearing 238° true from the southwesterly point of Collins Isle.

(9) *Yacht Mooring Area A-9.* The area in the North Bay easterly of a line bearing 360° true off (U. S. 151), being 25 feet westerly of the end of Emerald Avenue; northerly of a line parallel to, and 75 feet distant from, the northerly pierhead line of Balboa Island; westerly of a line parallel to and extending out from the easterly side of Amethyst Avenue; and southerly of a line parallel to, and 150 feet distant from, the northerly pierhead line of Balboa Island.

(10) *Yacht Mooring Area A-10.* The area southeasterly of a line bearing 209° true from the flashing red beacon on the southwesterly point of Balboa Island and passing through the bayside end of "A" Street; northeasterly and northerly of an irregular line parallel to, and 150 feet distant from, the northerly pierhead line of Balboa Peninsula from "A" to "K" Streets; southerly of a line, being the southerly line of the main channel; southerly and southeasterly of an irregular line parallel to, and 375 feet distant from, the northerly pierhead line of Balboa Peninsula.

(11) *Yacht Mooring Area A-11.* The area northeasterly of a line bearing 108°30' true from the flashing red beacon at the southwesterly point of Balboa Island, passing through the flashing red channel buoy No. 4, this line being the northeasterly line of the main channel; northerly of a line parallel to, and 350 feet distant from the southerly pierhead line of Balboa Island; westerly of a line parallel to and extending out southerly from the westerly bulkhead line of Grand Canal; and southerly of a line parallel to, and 150 feet from the southerly pierhead line of Balboa Island.

(12) *Yacht Mooring Area A-12 (Balboa Yacht Club).* The area southerly of a line parallel to, and 150 feet distant from the southerly pierhead line of Balboa Island; southwesterly of a line parallel to and extending 161° true from the east end pierhead line of Balboa Island; northerly of a line parallel to, and 700 feet distant from, the southerly pierhead line of Balboa Island; and easterly of a line parallel to, and 1,000 feet distant from, the easterly boundary of said area, being 161° true from the point of intersection of the easterly bulkhead line of Grand Canal and the southerly bulkhead line of Balboa Island.

NOTE: This area is reserved for single moorings, conforming to the City of Newport Beach Harbor Ordinance No. 543, for pleasure boats and yachts of such sizes and

alignments as permitted by the Harbor Master.

(13) *Mooring Area B-1 (for commercial fishing vessels.* The area southeasterly of a line having a bearing of 227° true from the flashing red beacon at the southwest corner of Lido Isle and being parallel to, and 200 feet distant from the pierhead line off the southeasterly end of Rhine Point; northeasterly of a line extending from and parallel to the southwesterly bulkhead line of Rhine Point; northerly of a line parallel to, and 200 feet distant from, the pierhead line off 15th to 18th Streets, this line being the northerly line of the main fairway; easterly of a line extending northerly from and parallel to the westerly side of 15th Street; and southerly of a line parallel to, and 325 feet distant from, the pierhead line of the southerly shore of Lido Isle.

NOTE: This area is reserved for fore and aft moorings, conforming to the City of Newport Beach Harbor Ordinance No. 543, for boats licensed for commercial fishing of such sizes and alignments as permitted by the Harbor Master.

(14) *Temporary Anchorage C-1.* The area southeasterly of a line parallel to, and 170 feet distant from, the pierhead line at the easterly end of Lido Isle; northerly of a line parallel to, and 250 feet northerly from a line bearing 268° true from the flashing green beacon off Bay Island and passing through the proposed beacon off 13th Street, this line being the northerly line of the main fairway; northwesterly of a line having a bearing of 203° true from the point of the pierhead line of the westerly end of Harbor Island, being 120 feet in length; and southwesterly of a line parallel to, and extending out from, the pierhead line of the northeasterly shore of Lido Isle.

NOTE: Vessels may anchor temporarily in this area when necessary and space permits, but shall move promptly when the necessity passes, or upon order of the Harbor Master. Vessels anchoring in this area shall comply with the requirements of Inland Rule No. 11, of the Pilot Rules for certain inland waters, requiring anchor lights at night. Floats or buoys for marking anchors or moorings in place and fixed mooring piles or stakes are prohibited.

(15) *Temporary Anchorage C-2.* The area easterly of a line parallel to, and extending northerly from, the pierhead line of the easterly end of Balboa Peninsula, being 345° true; northeasterly of a line parallel to, and 200 feet distant from, the pierhead line off the shore of Corona del Mar; westerly of a line parallel to, and 100 feet distant from, the pierhead line on the shore of Corona del Mar; and southwesterly of a line parallel to, and 100 feet distant from, the pierhead line of the southwesterly shore of Corona del Mar.

NOTE: Vessels may anchor temporarily in this area when necessary and space permits, but shall move promptly when the necessity passes, or upon order of the Harbor Master. Vessels anchoring in this area shall comply with the requirements of Inland Rule No. 11, of the Rules for certain inland waters, requiring anchor lights at night.

(b) *The Regulations.* (1) Mooring areas (1) to (12) are reserved for yachts

and other small craft, and provide for fore and aft moorings conforming to the City of Newport Beach Harbor Ordinance No. 543 for yachts and small craft of such size and alignment as permitted by the Harbor Master, except in areas (5) and (12), which are designated as single mooring areas.

All vessels under sixty-five (65) feet in length are exempt from the requirement that a white light be exhibited at night while at anchor.

(2) Mooring area (13) is reserved for commercial fishing vessels and provides for fore and aft mooring conforming to the City of Newport Beach Harbor Ordinance No. 543 for boats licensed for commercial fishing of such size and alignment as permitted by the Harbor Master.

All vessels under sixty-five (65) feet in length are exempt from the requirement that a white light be exhibited at night while at anchor.

(3) Temporary anchorages (14) and (15): Vessels may anchor temporarily in this area when necessary and space permits, but shall move promptly when the necessity passes, or upon order of the Harbor Master. Vessels anchoring in this area shall comply with the requirements of Inland Rule No. 11, of the rules for certain inland waters, requiring anchor lights at night.

Section 6.11-105 is amended to read as follows:

§ 6.11-105 *Temporary berthing area in San Diego Bay*—(a) *The area.* Beginning at North tower and extending 2500 yards 25½° to latitude 32°37'16" N., longitude 117°07' W., thence 354½° to approximately latitude 32°39'48" N., longitude 117°07'17" W., thence 270° to latitude 32°39'48" N., longitude 117°07'34" W., thence 160½° 915 yards, thence 175° 1600 yards, thence 245½° 2075 yards, and thence along shore line to latitude 32°36'20" N., longitude 117°07'30" W., intersecting line from point of beginning.

## TITLE 49—TRANSPORTATION AND RAILROADS

### Chapter I—Interstate Commerce Commission

#### PART 110—DESTRUCTION OF RECORDS

##### SUBPART B—ELECTRIC RAILWAY COMPANIES

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 15th day of July A. D. 1946.

The matter of regulations to govern the destruction of records prescribed for and kept by electric railway companies being under consideration by the Division, pursuant to the authority of section 20 of the Interstate Commerce Act, and the Division having found that the "Regulations to Govern the Destruction of Records of Electric Railway Companies, Issue of 1946," hereto attached and made a part hereof, are necessary for purposes of administration of Part I of the act; it is ordered that:

1. *Regulations prescribed.* Every electric railway company subject to the provisions of the Interstate Commerce Act, and every trustee, receiver, executor, administrator, or assignee of any such electric railway company, shall comply with the said "Regulations to Govern the Destruction of Records of Electric Railway Companies, Issue of 1946," in the destruction and retention of the operating, accounting, and financial papers, records, books, blanks, tickets, stubs, correspondence, and documents of such electric railway companies.

2. *Effective date.* This order shall become effective September 1, 1946 and

shall supersede and cancel the order of April 7, 1913, as amended by various subsequent orders, in the matter of the destruction of records of electric railway companies.

3. *Notice.* A copy of this order and the regulations herein prescribed shall be served upon every electric railway company subject to the act and upon every trustee, receiver, executor, administrator, and assignee of any such electric railway company, and notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director of the Division of the Federal Register.

*Special note.* Section 20 (7) (b) of the Interstate Commerce Act reads as follows:

Any person who shall knowingly and willfully make, cause to be made, or participate in the making of, any false entry in any annual or other report required under this section to be filed, or in the accounts of any book of accounts or in any records or memoranda kept by a carrier, or required under this section to be kept by a lessor or other person, or who shall knowingly and willfully destroy, mutilate, alter, or by any other means or device falsify the record of any such accounts, records, or memoranda, or who shall knowingly and willfully neglect or fail to make full, true, and correct entries in such accounts, records, or memoranda of all facts and transactions appertaining to the business of the carrier, lessor, or person, or shall knowingly and willfully keep any accounts, records, or memoranda contrary to the rules, regulations, or orders of the Commission with respect thereto, or shall knowingly or willfully file with the Commission any false report or other document, shall be deemed guilty of a misdemeanor and shall be subject, upon conviction in any court of the United States of competent jurisdiction to a fine of not more than five thousand dollars or imprisonment for not more than two years, or both such fine and imprisonment: *Provided,* That the Commission may in its discretion issue orders specifying such operating, accounting, or financial papers, records, books, blanks, tickets, stubs, correspondence, or documents of such carriers, lessors, or other persons as may, after a reasonable time, be destroyed, and prescribing the length of time the same shall be preserved.

The regulations set forth in this order pertain only to the accounts, records, and memoranda named or described herein. Destruction of all accounts, records, and memoranda, except as provided in the regulations, is specifically prohibited in § 110.21 subject to the penalties quoted above.

It is not intended that these regulations shall be interpreted as requiring that the records herein named shall be installed, when such records are not already kept by a carrier.

The following regulations to govern the destruction of records of electric railway companies subject to Part I of the Interstate Commerce Act are in lieu of Part 112 of Title 49, Code of Federal Regulations:

##### Sec.

- 110.20 Authority to destroy certain records.  
110.21 Preservation of other records.  
110.22 Officer having supervision of destruction.

##### Sec.

- 110.23 Written authority of supervising officer.  
110.24 Certificates of destruction.  
110.25 Committee for the destruction of certain records.  
110.26 Joint bureaus and agencies.  
110.27 Nonoperating companies.  
110.28 Method of destruction.  
110.29 Accidental destruction of records.  
110.30 Duplicate accounts, records, and memoranda.  
110.31 List of records and periods of retention.

AUTHORITY: §§ 110.20 to 110.31, inclusive, issued under 34 Stat. 594, 35 Stat. 648, 54 Stat. 918, 49 U. S. C. 20 (7).

§ 110.20 *Authority to destroy certain records.* Electric railway companies which are subject to the provisions of the Interstate Commerce Act may destroy the accounts, records, and memoranda named or described in §§ 110.20 to 110.31, inclusive, if their permanent retention is not specifically required, after preservation for the respective periods of time specified and upon compliance with requirements of the regulations. These regulations do not exempt electric railway companies from any other statutory requirements for the preservation of accounts, records, and memoranda for longer periods than those herein specified.

§ 110.21 *Preservation of other records—(a) Special permission to destroy.* (1) The destruction of all accounts, records, and memoranda of electric railway companies, except as specifically provided in §§ 110.20 to 110.31, inclusive, is prohibited under penalties contained in section 20 (7) (b) of the Interstate Commerce Act.

(2) However, an electric railway company proposing the destruction of any accounts, records, or memoranda not hereinafter specifically named or described, may petition the Commission to that effect, stating a full and detailed description of the accounts, records, or memoranda in question, clearly explaining their character, their use, and their purpose. An order entered by the Commission on any such petition shall, unless otherwise provided, be limited in its force and effect to the petitioning company.

(b) *Photographic copies.* Electric railway companies may be granted authority to preserve photographic copies of certain records in lieu of original records or other copies thereof. Application for authority shall be filed in the form of a letter which shall describe the particular records intended to be preserved by this method and the process to be used.

§ 110.22 *Officer having supervision of destruction.* (a) An officer or, where necessary, two officers shall be appointed by the company's board of directors to have supervision over the destruction of all accounts, records, and memoranda. Such officer or officers may be given (1) general supervision over the destruction of all accounts, records, and memoranda the destruction of which is permitted by these regulations, or (2) authority over the destruction of such accounts, records, and memoranda as may be specified by the board of directors. Pending confirmation by the board of directors, a

temporary appointment by an executive committee, or by a similarly authorized committee of the board of directors, shall have the same effect as if made by the board of directors. A copy of the resolution of appointment shall be filed with the Commission before accounts, records, or memoranda may be destroyed pursuant thereto.

(b) If an electric railway is in the hands of a trustee, receiver, executor, administrator, or assignee, the officer or officers to have supervision over the destruction of accounts, records, and memoranda shall be designated by the trustee, receiver, executor, administrator, or assignee. A copy of the order designating such officer or officers shall be filed with the Commission before accounts, records, or memoranda may be destroyed pursuant thereto.

(c) In designating an officer or officers to have general supervision over the destruction of accounts, records, and memoranda it is preferable to designate by title only, rather than by name and title, and thus obviate the necessity for a new resolution or order each time a successor in the office is appointed.

§ 110.23 *Written authority of supervising officer.* (a) When any accounts, records or memoranda are to be destroyed, the officer having supervision over the destruction of accounts, records, and memoranda (as designated in § 110.22 (a) or § 110.22 (b)) shall issue a written authority naming the person or persons by whom the accounts, records, or memoranda are to be destroyed (except as provided in § 110.30 (b)).

(b) The written authority (1) may be confined to certain accounts, records, and memoranda which have been retained for the periods of time specified in §§ 110.20 to 110.31, inclusive, and which the carrier proposes to destroy, in which case the authority shall specify: (i) A list of the accounts, records, and memoranda to be destroyed, expressed either in form numbers or by descriptive titles; and, (ii) The period or periods covered by the accounts, records, and memoranda the destruction of which is authorized; or (2) May be of continuing effect, applying to any or all the accounts, records, or memoranda named herein as the periods of retention of such accounts, records, or memoranda attain the limits specified herein.

(c) Such written authority, or a certified copy thereof shall be filed in the office of the issuing officer as a permanent part of the company's records. Copies of the specific written authorities need not be filed with the Commission.

§ 110.24 *Certificates of destruction.* (a) The person or persons by whom accounts, records, or memoranda are to be destroyed under the written authority referred to in § 110.23 (b) (1) shall certify (except as otherwise provided in § 110.24 (d) and § 110.30) that the accounts, records, or memoranda listed in the said authority have been destroyed and that no accounts, records, or memoranda other than those so listed have been destroyed therewith.

(b) The person or persons by whom accounts, records, or memoranda are to

be destroyed under continuing authority referred to in § 110.23 (b) (2) shall certify such destruction (except as otherwise provided in § 110.24 (d) and § 110.30), listing by form numbers and descriptive titles the accounts, records, and memoranda destroyed, naming the period or periods covered by such accounts, records, and memoranda, and stating that no accounts, records, or memoranda other than those so listed have been destroyed therewith. Lither (1) a separate certificate shall be filed each time any accounts, records, and memoranda are destroyed, or (2) cumulative certificates shall be filed with supplementary entries every time additional accounts, records, and memoranda are destroyed.

(c) Certificates of destruction shall be forwarded promptly to the officer having supervision over the destruction of accounts, records, and memoranda who issued the written authority and shall be retained in his office as a permanent part of the company's records. Cumulative certificates shall be forwarded to such officer periodically, but, at least once every six months. Copies of certificates of destruction need not be filed with the Commission.

(d) Certificates of destruction are not required for those accounts, records, and memoranda listed in § 110.31, the destruction of which is optional with the company, but a written authority for specific records or of continuing effect shall be issued (except as otherwise provided in § 110.30) by the officer having supervision over the destruction of such accounts, records, and memoranda.

§ 110.25 *Committee for the destruction of certain records.* At the option of the electric railway company a committee may be designated to destroy by conversion into pulp, or by cremation, canceled stock certificates, bonds, or other records covered by item 6 of § 110.31, in lieu of delegating authority for such destruction to an officer as provided in § 110.22. A copy of the resolution of the board of directors, or if not a corporate act a copy of the designating order, shall be filed promptly with the Commission. A certificate of destruction giving full descriptive reference to the documents destroyed shall be filed by this committee and shall be retained as a permanent part of the electric railway company's records. (See § 110.24 (c).) When documents represent debt secured by mortgage, the certificates of destruction shall also be authenticated by or for the trustees under the mortgage acting in conjunction with this committee or shall have the trustees' acceptance endorsed thereon.

§ 110.26 *Joint bureaus and agencies.* Sections 110.20 to 110.31, inclusive, apply also to the destruction of accounts, records, and memoranda of traffic associations, fast freight lines, demurrage and car service bureaus, weighing and inspection bureaus, and other joint agencies maintained by or on behalf of electric railways. The manager, chairman, or other officer in charge of the association, bureau, etc., may be delegated by the designated officer of each of the carriers to have supervision of the destruc-

tion of accounts, records, and memoranda of the association, etc., and in that event he shall issue all authorities for such destruction, and certificates of destruction shall be filed with him. Otherwise, a written authority shall be obtained from the proper officer of the member carriers concerned each time any of the accounts, records, or memoranda are to be destroyed, and a certificate of destruction shall be filed with each such officer.

§ 110.27 *Nonoperating companies.* A company owning or controlling electric railway property which it does not operate but which it leases to others for operating purposes shall observe §§ 110.20 to 110.31, inclusive, in case it desires to destroy any of its corporate or financial accounts, records, or memoranda.

§ 110.28 *Method of destruction.* (a) The precise method of destruction of accounts, records, and memoranda is not prescribed. The Commission is not concerned whether the destruction is by fire, sale, conversion into pulp, or otherwise, providing the destruction is authorized, a certificate of destruction is filed, and all other requirements of §§ 110.20 to 110.31, inclusive, are observed.

(b) If the accounts, records, and memoranda are not actually destroyed by the electric railway company, the certificate of destruction shall so state. Section 15 of the Interstate Commerce Act provides that information concerning the business of a shipper or consignee, which may be used to the detriment of such shipper or consignee, shall not be divulged. Responsibility for possible infringement of this provision of the act, by disposing of its records without actually destroying them, would rest with the carrier.

§ 110.29 *Accidental destruction of records.* If any accounts, records, or memoranda are destroyed accidentally by fire, flood, or other casualty, a statement shall be prepared listing so far as possible the records destroyed and detailing the circumstances in connection with the fire or other casualty. This statement shall be authenticated by an officer or some responsible employee of the company and shall be filed with the officer having supervision over the destruction of accounts, records, and memoranda. A copy of the statement certifying such destruction shall be filed promptly with the Commission.

§ 110.30 *Duplicate accounts, records, and memoranda.* (a) Provision is made in item 74 of § 110.31 for the destruction of agency copies of certain accounts, records, and memoranda. Certificates of destruction are not required for these copies, but a written authority as provided in § 110.23 (a) and § 110.23 (b) shall be issued and appropriately filed with the officer having jurisdiction over the destruction of records.

(b) Provision is made in item 93 of § 110.31 for the optional destruction of duplicate copies of accounts, records, and memoranda when such copies are not specifically provided for elsewhere in this subpart and when they contain no information not shown on the originals.

Neither written authority to destroy nor certificates of destruction are required for these copies. The originals (or one true copy) shall be retained for the respective periods named for such records in §§ 110.20 to 110.31, inclusive.

§ 110.31 *List of records and periods of retention.* The following list is indica-

tive of accounts, records, and memoranda specifically referred to in § 110.20. The description of the accounts, records, and memoranda enumerated below under the various general headings is merely for convenient reference and identification. Sections 110.20 to 110.31, inclusive, are intended to apply to the items as named or described, regardless of where

they are filed and regardless of departmental organization. Of the accounts, records, and memoranda which are to be retained permanently only the more important are stated in this list, the specific mention being made so that they may not be confused with any accounts, records, and memoranda for which permission to destroy is given herein.

PART 95—CAR SERVICE

DEMURRAGE CHARGES ON GONDOLA, OPEN AND COVERED HOPPER CARS

At a session of the Interstate Commerce Commission, Division 3, held at

its office in Washington, D. C., on the 25th day of July A. D. 1946.

It appearing, that gondola, open and covered hopper cars are being delayed unduly in loading and unloading, or while held for orders, bill of lading, payment of freight charges, reconsignment, diversion, reshipment, inspection, or forwarding directions, causing a shortage of equipment and impeding and diminishing the use, control, supply, movement, distribution, exchange, interchange, and return of such cars; in the opinion of the Commission an emergency requiring immediate action exists in all sections of the country. It is ordered, that:

*Demurrage charges on gondola, open and covered hopper cars—(a) Cars not subject to an average agreement.* When demurrage detention occurs, for which charges are or may be lawfully provided by tariffs, the demurrage charges on a gondola, open or covered hopper car, not included in an average agreement, held for orders, bill of lading, payment of freight charges, reconsignment, diversion, reshipment, inspection, forwarding directions, loading or unloading shall be \$2.20 per car per day or a fraction thereof for the first two (2) days; \$5.50 per car per day or a fraction thereof for the third day; \$11 per car per day or a fraction thereof for the fourth day; and \$16.50 per car per day or a fraction thereof for each succeeding day.

*(b) Cars subject to an average agreement.* When demurrage detention occurs, for which charges are or may be lawfully provided by tariffs, the demurrage charges on a gondola, open or covered hopper car, included in an average agreement, held for orders, bill of lading, payment of freight charges, reconsignment, diversion, reshipment, inspection, forwarding directions, loading or unloading shall be \$2.20 per car per day or a fraction thereof for the first two (2) days; \$5.50 per car per day or a fraction thereof for the third day; \$11 per car per day or a fraction thereof for the fourth day; and \$16.50 per car per day or a fraction thereof for each succeeding day. The \$2.20 per day debit charges may be offset or reduced by accrued credits as provided in applicable demurrage tariffs: *Provided, however,* That the \$5.50 per day, \$11 per day, and \$16.50 per day charges may not be offset or reduced.

*(c) Application.* (1) The provisions of this order shall apply to intrastate as well as interstate traffic.

(2) *Description of cars.* This order shall apply to cars suitable for interchange described under the headings Class G—Gondola Car Type, Class H—Hopper Car Type also covered hopper cars having a mechanical designation prefixed by "LO" in the current Official Railway Equipment Register.

(3) *Exemptions.* This order shall not apply to import, export, coastwise or intercoastal traffic, nor to hopper cars loaded or to be loaded with carbon black.

(4) *Computation of demurrage on effective date of order.* This order shall apply only on cars arriving on and after the effective date hereof.

*(e) Expiration date.* This order shall expire at 7:00 a. m., December 1, 1946, unless otherwise modified, changed, suspended or annulled by order of the Commission.

*(f) Tariff provisions suspended.* (1) Except as provided in section (2) of this paragraph the operation of all tariff rules, regulations or charges insofar as they conflict with the provisions of this order is hereby suspended.

(2) This order shall not affect Demurrage Rule 8 of Agent B. T. Jones' Tariff I. C. C. No. 3963 or similar rules in other tariffs, relating to adjusting, canceling or refunding demurrage charges arising from the unusual conditions or circumstances described in the said Rule 8 or similar rules in other tariffs.

*(g) Announcement of suspension.* Each railroad, or its agent, shall publish, file and post a supplement to each of its tariffs affected thereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of the operation of any of the conflicting provisions therein, and establishing the substituted provisions set forth herein. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U.S.C. 1 (10)-(17))

It is further ordered, that a copy of this order and direction shall be served upon each State railroad regulatory body and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

PART 95—CAR SERVICE

DEMURRAGE ON COAL AT GREAT LAKES

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 25th day of July A. D. 1946.

It appearing, that as the result of the inability of transshippers at ports on Lakes Michigan, Erie and Ontario to dump coal in normal manner brought about by disruption in the coal mining industry, restrictions on the forwarding of coal from mines, together with a strike of Canadian seamen and stevedores there is a shortage of coal cars; in the opinion of the Commission an emergency exists requiring immediate action at Great Lakes ports. It is ordered, that:

*(a) Offsetting excess debits.* Any excess debits accruing at any point specified in Agent B. T. Jones' tariff I. C. C. No. 3678 (except Sodus Point and Charlotte Dock, N. Y., which are governed by Serv-

ice Order No. 535) in the account of any particular consignee during the settlement period ending 7:00 a. m., July 31, 1946, which are not offset by credits accruing to the same consignee during the same period at the same point may be offset by excess credits accruing at the same point to the same consignee in the settlement period ending 7:00 a. m., January 2, 1947.

(b) *Application.* The provisions of this order shall apply to interstate and foreign commerce.

(c) *Regulations suspended—announcement required.* The operation of all rules and regulations insofar as they conflict with the provisions of this order is hereby suspended and each railroad subject to this order, or its agent, shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing such suspension.

(d) *Effective date.* This order shall become effective at 7:00 a. m., July 31, 1946.

(e) *Expiration date.* This order shall expire at 7:00 a. m., January 2, 1947, unless otherwise modified, changed, suspended, or annulled by order of this Commission. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901, 49 U. S. C. 1 (10)-(17), 15 (4)).

It is further ordered, that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

**BAY SHORE LUMBER CO.**

**CONSENT ORDER**

Ralph Raynor and Myron Raynor, co-partners doing business as Bay Shore Lumber Company at Third Avenue at the Railroad, Bayshore, Long Island, New York, are engaged in business as lumber distributors. The partners are charged by the Civilian Production Administration with violating Direction 1 to Priorities Regulation 33, in having during the months of February, March, April and May 1946 placed certified orders for the delivery of housing construction lumber for amounts in excess of the amounts authorized by paragraph (d) (1) of Direction 1 to Priorities Regulation 33; and with violating Priorities Regulation 1 in having during the period from Feb-

ruary 1, 1946 to May 31, 1946 failed to keep and preserve accurate and complete records of the details of their transactions and their inventories of materials to which the rules, regulations and orders of the Civilian Production Administration relate. Ralph Raynor and Myron Raynor admit the violations as charged, do not desire to contest the charge, and have consented to the issuance of this order.

Wherefore, upon the agreement and consent of Ralph Raynor and Myron Raynor, the Regional Compliance Manager, and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered, That:*

(a) Ralph Raynor and Myron Raynor, doing business as Bay Shore Lumber Company, their successors or assigns, shall not place any certified orders for housing construction lumber for a period of sixty days from the effective date of this order; and shall reserve and set aside for delivery on certified and rated orders 75% of the housing construction lumber received during the months of February, March, April and May, 1946 on certified orders in excess of the amounts authorized by Paragraph (d) (1) of Directive 1 to Priorities Regulation 33; it being agreed that 255,226 board feet of housing construction lumber were received during those months and that the amount authorized by Paragraph (d) (1) of Direction 1 to Priorities Regulation 33 was 120,000 board feet.

(b) Ralph Raynor and Myron Raynor, co-partners doing business as Bay Shore Lumber Company, their successors or assigns, shall keep and preserve accurate and complete records of the details of each transaction to which Direction 1 to Priorities, Regulation 33 and other rules, regulations, and orders of the Civilian Production Administration apply, and of their inventories of the material involved, as required by section 944.15 of Priorities Regulation No. 1.

(c) Nothing contained in this order shall be deemed to relieve Ralph Raynor or Myron Raynor, doing business as Bay Shore Lumber Company, their successors or assigns, from any restriction, prohibition or provision contained in any order or regulation of the Civilian Production Administration except insofar as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on the date of issuance.

Issued this 25th day of July 1946.

[Docket No. IT-6003]

MONTANA-DAKOTA UTILITIES CO.

NOTICE OF APPLICATION

JULY 24, 1946.

Notice is hereby given that on July 22, 1946, an application was filed with the

Federal Power Commission, pursuant to section 204 of the Federal Power Act, by Montana-Dakota Utilities Co., a corporation organized under the laws of the State of Delaware and carrying on electric and gas utilities business in the States of Montana, North Dakota and South Dakota and a gas utility business in the State of Wyoming, with its principal business office at Minneapolis, Minnesota, seeking an order authorizing the issuance of a \$2,000,000 Promissory Note bearing an interest rate of 2% payable quarterly, to be dated on the date of issue, and payable \$300,000 on September 1 in each of the years 1947, 1948, 1949 and 1950 and \$800,000 on September 1, 1951; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 12th day of August, 1946, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and regulations.

[Project No. 459]

UNION ELECTRIC CO. OF MISSOURI

ORDER FIXING HEARING

JULY 23, 1946.

It appearing to the Commission that:

(a) For some time consideration has been given to the question of whether construction or operation of the Bagnell Project, owned and operated by Union Electric Co. of Missouri under license pursuant to the Federal Power Act (Project No. 459), contributed to or helped reduce flood damage in the Osage River Basin below the dam;

(b) By order of September 21, 1944, as modified by order of November 24, 1944, the Commission required the licensee to submit by January 15, 1945, data relating to operation of the project and to the effect of the operation of the project on floods in the Osage River below the project dam;

(c) The licensee's response to the Commission's order of September 21, 1944, was duly filed, but no opportunity has yet been afforded for presentation by other interested persons of pertinent information which will assist the Commission in disposing of the questions involved, not only with reference to floods in the Osage River Basin but in the Missouri River below the mouth of the Osage River;

The Commission finds that: All interested persons should be afforded an opportunity to present evidence at a public hearing on the effect of project operations on floods of the Osage and Missouri Rivers below the project dam;

The Commission orders that: A public hearing be held in Room 305, U. S. Post Office and Court House, in Jefferson City, Missouri, beginning at 10:00 o'clock a. m. on October 14, 1946, concerning the operation of the Bagnell

Project, its relation to the flood conditions in the Osage and Missouri Rivers below the Bagnell dam, and possible changes in the method of operation which may be proposed.

By the Commission.

[Docket No. G-747]

NORTHERN NATURAL GAS CO.

NOTICE OF APPLICATION

JULY 25, 1946.

Notice is hereby given that on July 8, 1946, the Northern Natural Gas Company (Applicant), a Delaware corporation, having its principal place of business at the Aquila Court Building, Omaha, Nebraska, filed with the Federal Power Commission an application for a certificate of public convenience and necessity under section 7 of the Natural Gas Act, as amended, to authorize the construction and operation of certain facilities for transportation and sale of natural gas subject to the jurisdiction of the Federal Power Commission as hereinafter more fully described.

The proposed facilities to be constructed and operated by the Applicant consists of:

(1) A measuring and regulating station to be known as the St. Paul Town Border Station (Mendota Station), consisting of two 10-inch orifice meter runs, two 6-inch regulator runs, together with appurtenances thereto, and one 21' x 29' x 8' concrete, steel, brick and transit building to be located in the NE $\frac{1}{4}$  of Section 23, Township 28 North, Range 23 West, Dakota County, Minnesota.

(2) Approximately 1,200 feet of 20-inch O. D. gas pipeline, together with appurtenances thereto, from the outlet of the St. Paul Town Border Station (Mendota Station), and extending in a northerly direction to the bank of the Mississippi River at a point of connection with the header of the Northern States Power Company's proposed under-water crossing of the Mississippi River in the SE $\frac{1}{4}$  of Section 14, Township 28 North, Range 23 West, Dakota County, Minnesota.

(3) A measuring and regulating station to be known as the St. Paul Town Border Station (West St. Paul Station), consisting of one 10-inch orifice meter run, one 4-inch orifice meter run, two 2-inch regulator runs, together with appurtenances thereto, and one 16' x 20' x 8' concrete, steel and transit building, in the North  $\frac{1}{2}$  of the SE $\frac{1}{4}$  of Section 29, Township 28 North, Range 22 West, Dakota County, Minnesota.

(4) Approximately 4,200 feet of 6 $\frac{1}{2}$ -inch O. D. gas pipeline, together with appurtenances thereto, from a point of interconnection, in the E $\frac{1}{2}$  of the NE $\frac{1}{4}$  of Section 32, Township 28 North, Range 22 West, Dakota County, Minnesota, with Applicant's 12 $\frac{3}{4}$ -inch line, and extending northeasterly to the proposed St. Paul Town Border Station (West St. Paul Station).

Completion of construction, and use of above facilities is proposed by Applicant for the summer of 1947.

Applicant states that the proposed facilities will supplement Applicant's existing Town Border Station deliverability of natural gas for resale and use in St. Paul, South St. Paul, and West St. Paul, Minnesota, and environs. Applicant estimates its deliveries of natural gas during the first and fifth years under the service proposed will be as follows:

First year: firm gas 2,472,000 Mcf, interruptible gas 5,292,500 Mcf, with a maximum day firm delivery of 13,000 Mcf; and for the fifth year a firm gas delivery of 5,372,000 Mcf, interruptible gas delivery of 9,152,600 Mcf, with a maximum day firm delivery of 39,300 Mcf. The service proposed to be rendered by the Applicant is delivery and sale by Applicant of the entire gas requirements of the market area named as follows:

St. Paul, Minnesota, with a population of 287,736; West St. Paul, Minnesota, with a population of 5,733; South St. Paul, Minnesota, with a population of 11,844, together with unincorporated municipality of Rosetown, Minnesota and suburban areas supplied with gas from the gas distribution system of Northern States Power Company in any of the above cities and towns.

Applicant further states that the town border contract, dated June 3, 1942, between Applicant and Northern States Power Company for natural gas for St. Paul and environs by the terms of the contract referred to in its application as Exhibit "D", and the Commission's Order of March 9, 1943, in Docket No. G-428 would be superseded by the order and certificate sought herein.

The application recites that the town border contract dated September 7, 1945, between Applicant and People's Natural Gas Company insofar as the same pertains to the delivery of interruptible gas to such company for resale to special industrial customers in the city of St. Paul, through the use of facilities owned by Northern States Power Company will become inoperative as to such customers immediately upon the provision by Northern States Power Company of facilities enabling such company to begin to serve the two customers of People's Natural Gas Company presently supplied, namely, Ford Motor Company and Waldorf Paper Products Company. Applicant states that contracts between Applicant and Armour & Company, and Swift & Company, and Cudahy Packing Company for direct sales of interruptible priority class "C" gas for deliveries in South St. Paul and Newport, Minnesota, together with other miscellaneous and minor direct pipeline sales being made in certain communities and environs referred to in Applicant's Exhibit "D" attached to its application filed herein, will continue in effect until such time as arrangements may be completed between Applicant and Northern States Power Company for the taking over by the Northern States Power Company of such contracts and pipeline facilities of Applicant, which would be required by Northern States Power Company for the service of the customers under such contracts.

The Applicant states that the general service of gas now being made in the communities herein referred to consist of the retail distribution of gas having a heating value of 550 Btu per cubic foot, which service is being rendered by the Northern States Power Company; that at this date the Northern States Power Company does not render any straight natural gas service in these communities although it does own the natural gas lines within the city of St. Paul, Minnesota, through which People's Natural Gas Company makes deliveries of gas under contract. Applicant estimates that the cost to Northern States Power Company of the first year's volume of firm natural gas to be purchased from it under the proposed service and under the provisions of the Town Border Contract is shown by the Applicant to be \$488,900 for firm Base Load and Excess Gas in Applicant's FPC schedule as follows:

Firm	Mcf	Rate	Cost
		<i>Cents</i>	
Base load.....	2,032,300	18.0	\$365,800
Excess.....	439,700	28.0	123,100
Total firm.....	2,472,000	19.8	488,900

The stated volume of 2,472,000 Mcf of natural gas is alleged to be the approximate equivalent of 4,336,800 Mcf of 550 Btu gas and that an equivalent volume of 550 Btu coke oven gas would be \$1,257,700 which exceeds the cost of natural gas by the amounts of \$768,800 representing an estimated saving to Northern States Power Company in the cost of gas needed for its firm gas requirements during the first year of the proposed service.

Applicant estimates its gas reserves as of December 31, 1945, to approximate 2.9 trillion cubic feet at a measurement basis of 16.4 pounds absolute pressure per square inch; that Applicant's estimated total requirements of gas for the year ended approximated 81 billion cubic feet at the aforesaid measurement basis; that at such estimated rate of consumption with the addition of the first year's requirements of the proposed service the indicated life of Applicant's gas reserves will be approximately 32 years.

Applicant estimates that the total over-all capital cost of the proposed project will be \$48,311.

Any interested State Commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Part 67 of the provisional rules of practice and regulations under the Natural Gas Act, as amended, and if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of the Northern Natural Gas Company should file with the Federal Power Commission, Washington 25, D. C., not later than 15 days from the date of this publication, a petition or protest in

accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

OFFICE OF PRICE ADMINISTRATION.

[MPR 116, Amdt. 1 to Order 14]

CHINA AND POTTERY

GENERAL ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to § 1362.59b of Maximum Price Regulation No. 116 and section 6.4 of Second Revised Supplementary Regulation No. 14, It is ordered, That Order No. 14 under Maximum Price Regulation No. 116 be amended in the following respects:

1. Paragraph (a) of section 5 is amended to read as follows:

(a) A retailer shall determine his maximum price for any article of semi-vitreous china or pottery covered by this order by applying the same percentage markup which he has on the "most comparable article" for which he has properly established maximum price to:

(i) His invoice cost in the case of "low-end" articles as defined in section 14 of this order, or

(ii) 93.5% of his invoice cost in the case of all other articles which he purchases from the manufacturer or

(iii) 95% of his invoice cost in the case of all other articles which he purchases from a wholesaler.

When the result of the foregoing computation is an amount ending in a fraction of a cent, the maximum price shall be determined by rounding to the nearest cent. When such a fraction of a cent is an even half-cent the nearest cent shall be considered to be the next highest cent.

The determination of a maximum price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(2) For the purpose of this section the "most comparable article" is the one which meets all of the following tests:

(i) It is an article of semi-vitreous china or pottery which belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

2. A new section 14 is added to read as follows:

SEC. 14. Definitions (a) When used in this order, the term:

(1) "Low-end" article shall mean: (a) Any article listed at the end of this order in Appendix A hereof, provided that the invoice cost of such article to the retailer does not exceed the invoice cost for that article set forth in Column 3 of the said Appendix.

(b) Any of the articles of semi-vitreous china or pottery covered by this order which are not listed in Appendix A, the invoice cost of which to the retailer is no more than \$10.75 per pound on the pound sterling price scale.

DISTRIBUTION TRANSFORMERS

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion, issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 23 of Revised Maximum Price Regulation 136, It is ordered:

(a) For the purposes of this order, the term "distribution transformers" shall be defined as in Order No. 597 under Revised Maximum Price Regulation 136.

(b) Any seller of distribution transformers is authorized, subject to agreement with his buyer, to deliver such distribution transformers at a price which may be adjusted upwards in accordance with action to be taken by the Office of Price Administration. Until final action is taken by the Office of Price Administration, with respect to the maximum prices of these products by way of an industry-wide increase or otherwise, the manufacturer may not receive payment in excess of the maximum prices in effect at the time of delivery.

This order shall become effective July 26, 1946.

Issued this 26th day of July 1946.

10 x 6	8.50	9.75
11 x 6	9.20	10.60

"East" and "West" shall have the meaning given these terms in the manufacturer's price list for industrial tires in effect on February 1, 1944.

The maximum prices for neoprene construction retreads shall be 115 percent of the maximum prices listed above for the regular construction retreads.

(b) The maximum prices for sales to dealers of the retreads covered by paragraph (a) above when sold by The Goodyear Tire & Rubber Company shall be determined by deducting from the maximum retail prices of such retreads as

listed in paragraph (a) above, a percentage discount at least as large as that offered by the seller to such class of dealer during March 1942 on purchases of the seller's brand of Solid Industrial tires.

(c) All provisions of RMPR 528 not inconsistent with this order shall apply to retail sales of commodities covered by this order. All provisions of RMPR 143 not inconsistent with this order shall apply to wholesale sales of commodities covered by this order.

(d) This order may be revoked or amended by the Office of Price Administration at any time.

This order shall become effective July 26, 1946.

Issued this 26th day of July 1946.

HAND LAWN MOWERS  
ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.159 (e) of Maximum Price Regulation No. 188, *It is ordered:*

Revised Order No. 3 under § 1499.159 (e) of Maximum Price Regulation No. 188 is amended in the following respects:

1. Section 2 (a) is amended to read as follows:

(a) A manufacturer's ceiling price for a sale of a hand lawn mower to each class of purchaser is the highest of the following:

(1) 128% of his highest price to each class of purchaser, other than ultimate consumers in effect between October 1 and October 15, 1941.

(2) 109% of his ceiling price to each class of purchaser other than ultimate consumers established under the fourth pricing method of Maximum Price Regulation No. 188, or Section 1499.159c of Maximum Price Regulation No. 188.

(3) His ceiling price to each class of purchaser other than ultimate consumers established under the third pricing method of Maximum Price Regulation No. 188 plus the percentage increase authorized by this order for the comparable article where such ceiling price was based on the October 1-15, 1941 cost price of the comparable.

(4) His adjusted ceiling price to each class of purchaser authorized under the provisions of Supplementary Orders 118, 133, 148 or Revised Supplementary Order 119.

2. Section 5 (c) (2) (i) is amended by adding the State of Utah to the listing of States contained therein.

This amendment shall become effective on the 26th day of July 1946.

Issued this 26th day of July, 1946.

METAL TOYS

DETERMINATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.159e of Maximum Price Regulation No. 188, *It is ordered:*

Section 3 of Order No. 4 under Section 1499.159e of Maximum Price Regulation No. 188 is amended to read as follows:

Sec. 3. *Maximum prices of purchasers for resale.* A purchaser for resale shall determine his maximum resale price for an article covered by this order pursuant to the method set forth in § 1372.102 of Maximum Price Regulation No. 210 by adding his "initial percentage markup" to the actual invoice price (not to exceed his supplier's ceiling price) to him. Where such purchaser for resale is unable to use any of the rules provided in § 1372.102, he shall determine his maximum resale price pursuant to § 1372.103 of Maximum Price Regulation No. 210 using the maximum price of the most closely competitive seller of the same class who has determined his maximum price for the article under § 1372.102 of Maximum Price Regulation No. 210 after November 2, 1945.

This amendment shall become effective on the 26th day of July 1946.

Issued this 26th day of July 1946.

THERMOSTATS FOR USE IN DOMESTIC GAS  
OR ELECTRIC RANGES

ADJUSTMENT OF CEILING PRICES

Order No. 9 under § 1499.159e of Maximum Price Regulation No. 188 is revised and amended to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.159e of Maximum Price Regulation No. 188, it is ordered:

SEC. 1. *Purpose of this order.* Thermostats for use in domestic gas and electric cooking ranges have been found to be a reconversion product in accordance with the standards set forth in § 1499.159e of Maximum Price Regulation No.

188. This order issued under that section specifies a price increase factor for the product by which manufacturers of such thermostats may adjust their ceiling prices exclusive of all adjustments.

**SEC. 2. Manufacturers' ceiling prices.** Manufacturers of thermostats for use in domestic gas or electric cooking ranges shall determine their ceiling prices under this order for sales to each class of purchaser by increasing, by no more than 19 percent, their highest price in effect to that class of purchaser during October 1941, or their ceiling price (exclusive of all adjustments) properly established under the applicable OPA regulation.

**SEC. 3. Relationship of this order to the General Maximum Price Regulation and Maximum Price Regulation No. 188.** The provisions of this order supersede the provisions of the General Maximum Price Regulation and Maximum Price Regulation No. 188, with respect to sales and deliveries made on or after the effective date of this order, only to the extent that they are inconsistent with the provisions of those regulations.

This revised order shall become effective on the 26th day of July 1946.

Issued this 26th day of July 1946.

**PHOTOGRAPHIC EQUIPMENT  
ADJUSTMENT OF MAXIMUM PRICES**

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.159e of Maximum Price Regulation No. 188, *It is ordered:*

Order No. 10 under § 1499.159e of Maximum Price Regulation No. 188, is amended in the following respects:

1. Section 3 (a) (3) is amended to read as follows:

(3) His ceiling price (exclusive of Federal Excise Tax and any permitted adjustments) established under the First, Second or Third Pricing Methods of Maximum Price Regulation No. 188, plus the average percentage increase, if any, which this section permits for the comparable articles used to determine his ceiling price.

2. Section 3 (a) (4) is amended to read as follows:

(4) 107% of his ceiling price (exclusive of Federal Excise Tax) to each class of purchaser, other than ultimate consumer, established under the provisions of (i) The Fourth Pricing Method (§ 1499.158) or § 1499.159c of Maximum Price Regulation No. 188, or (ii) §§ 1499.2 or 1499.3 of the General Maximum Price Regulation, in the case of sales of articles which the manufacturer purchases from another manufacturer and for which he does not have an October 1 to October 15, 1941, price or a March 1942 established maximum price.

3. Section 3 is amended by adding a new paragraph (6) to read as follows:

(6) His ceiling price to each class of purchaser, (exclusive of Federal Excise Tax and exclusive of any adjustments) established under Maximum Price Regulation No. 188.

4. The second and third unnumbered paragraphs at the beginning of section 4 are amended to read as follows:

Method A, below, must be used to determine retail ceiling prices for all articles of photographic equipment covered by this order by manufacturers who published retail price lists prior to November 1, 1941. Manufacturers who calculate retail ceiling prices under Method A will use as the basis the retail price list he had in effect between October 1 and October 15, 1941.

Method B shall be used by all manufacturers who did not publish retail price lists prior to November 1941.

5. Section 4 (a) is amended by redesignating the paragraphs numbered (i) (a) (b) and (c) as (1), (i), (ii) and (iii) respectively.

6. Section 4 (a) (2) is amended by deleting the words "and adjusted to the nearest five cents."

7. Section 4 (b) (1) and 4 (b) (2) are amended by deleting the words "adjusted to the nearest five cents."

8. Section 4 (b) (4) is amended by adding a new subsection (iii) to read as follows:

(iii) In the case of a manufacturer who sells only to mail order houses, the retail ceiling price is 151% of the "manufacturer's price" for those sales (exclusive of Federal Excise Tax) plus 15% of that price when the entire article is subject to the Federal Excise Tax. When only part of the article is subject to that tax, the 15% shall be applied only to the taxable part of the article.

9. Section 4 (b) is further amended by adding a new paragraph (5) to read as follows:

(5) The retail ceiling prices computed in accordance with the preceding provisions of this section, shall be rounded to the nearest cent when that price is \$1.00 or less, and rounded to the nearest five cents when that price is over \$1.00.

10. Section 5 (a) is amended by deleting the words "adjusted to the nearest 5¢."

This amendment may be revoked or amended by the Price Administrator at any time.

This amendment is effective on the 26th day of July, 1946.

Issued this 26th day of July 1946.

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register, and pursuant to § 1499.159b of Maximum Price Regulation No. 188, *It is ordered:*

Revised Order No. 4332 under Maximum Price Regulation No. 188 is amended in the following respects:

1. The following is added to section 7 (b) to read as follows:

When a manufacturer has previously determined his maximum prices for his product under the provisions of Maximum Price Regulation No. 188, other than this order, it is not necessary that he re-apply for maximum prices in accordance with the foregoing provisions of this paragraph (b). In such cases manufacturers' prices established under this order shall expire on the thirtieth day after the end of the calendar month in which his net sales totaled more than stated amounts and the maximum prices previously established under other provisions of Maximum Price Regulation No. 188 shall be applicable to all sales and deliveries after that date.

2. A new section 10 is added to read as follows:

**SEC. 10. Modification of provisions of this order.** The provisions of this order as applicable to articles or persons subject thereto may be modified by orders of general applicability issued under this section.

This amendment shall become effective July 26, 1946.

GYPHUM PARTITION TILE AND GYPHUM  
HOLLOW BLOCK

MODIFICATION OF MAXIMUM PRICES

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

A new section 7.18 is added to read as follows:

SEC. 7.18 *Modification of maximum prices for sales of gypsum partition tile and gypsum hollow block.* (a) The manufacturers' maximum prices for sales of 3" gypsum partition tile and 3" gypsum hollow block shall be an amount not in excess of \$0.07 per square foot, f. o. b. the plant, when the following conditions are met:

(1) The sale is made f. o. b. a plant located at New Brighton, New York; Wheatland, New York; and Philadelphia, Pennsylvania; and

(2) Shipment is destined to points within the States of Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Delaware, Pennsylvania, Maryland, and the District of Columbia, that portion of the State of West Virginia east of the western boundaries of the counties of Grant and Pendleton; and that portion of the State of Virginia north and east of the south and west boundaries of the counties of Rockingham, Greene, Orange, Louisa, Hanover, Henry, Chesterfield, Prince George, Surry, Isle of Wight, Nansemond, Norfolk, and Princess Anne.

(b) If the manufacturer had an established differential in price during March 1942 between 3" sizes of gypsum partition tile and gypsum hollow block and other thicknesses and types of these commodities, he may convert the adjustment granted in (a) above for the 3" sizes so as to reflect his customary March 1942 dollars-and-cents differentials between the 3" sizes and the other thicknesses and types of partition gypsum tile and gypsum hollow block.

(c) Any person purchasing any of the products described in (a) and (b) above for the purpose of resale in the same form from any manufacturer who modifies his maximum prices pursuant to this section, may increase his maximum

prices established under the General Maximum Price Regulation by an amount not exceeding his actual percentage increase in cost resulting from the increase permitted in paragraphs (a) and (b) above. However, notwithstanding the provisions of this paragraph (c) in any area where specific maximum prices are fixed by an area pricing order, such specific maximum prices shall apply in that area.

(d) The maximum prices established herein shall be subject to cash, quantity, and other discounts, at least as favorable as the seller extended or rendered on comparable sales to purchasers of the same class during March 1942.

(e) Any manufacturer who adjusts his maximum prices pursuant to this section shall furnish to each buyer purchasing partition gypsum tile or gypsum hollow block for resale in the same form on or before the date the manufacturer makes the first delivery at the adjusted price, a written statement as follows:

Pursuant to Amendment No. 49 to Order 1 under Section 25 of Maximum Price Regulation 592, effective July 26, 1946, the Office of Price Administration has established a maximum price of 7 cents per square foot, f. o. b. the plant for gypsum partition tile and gypsum hollow block manufactured at the \_\_\_\_\_ plant of the \_\_\_\_\_ Company. You are permitted to add the actual percentage amount of your increased cost resulting from the adjusted price permitted the \_\_\_\_\_ Company's \_\_\_\_\_ plant to your existing maximum prices for these products purchased from it, except that in any area where specific maximum prices are fixed by an area pricing order, such specific maximum prices shall apply in this area. The manufacturers' price established in this Amendment No. 49 is applicable only when shipment is destined for certain points set forth in this Amendment.

This Amendment No. 49 shall become effective July 26, 1946.

Issued this 26th day of July 1946.

AUTOMOTIVE SERVICES  
PRICING METHOD

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order 1 to Supplementary Service Regulation 49 is amended in the following respects:

1. Paragraph (b) thereof is amended by the addition of a new sub-paragraph (4) to read as follows:

(4) Automotive Digest's Flat Rate Manual, 1946 Edition.

2. A new Appendix D is added to follow Appendix C, to read as follows:

APPENDIX D—NOTICE

Practically every automotive repair shop is covered by the provisions of OPA regula-

tion SSR 49, and must make a choice as to whether it will price under Appendix A or Appendix B of that regulation. If you have elected to price under Appendix A, you may not by the use of this manual or otherwise, charge more for one of the 56 operations there listed, than the ceiling price established for you.

**WITH THIS IMPORTANT EXCEPTION**

You are authorized by OPA to use this manual to arrive at your labor charge for a given job.

1. You are now legally pricing that job by the use of the Automotive Digest's Flat Rate Manual, or on the basis of the mechanic's actual time on the job;

2. Your present ceiling for that job is not a "fixed charge" which is lower than the price set for you by this manual (a "fixed charge" is a charge not computed on the basis of an hourly rate. Examples: Relining brakes on 1941 Blank cars, \$xxx. Quick tune-up, all Blank Models, \$xxx).

3. The supplementary statement which you file shows that the job is included among those jobs which you will hereafter price by the use of this manual.

(You must file with your local Price Control Board in accordance with Section 14 of RMPR 165 your intention to use all or any part of this manual for pricing purposes.)

**IMPORTANT**

In case of any doubt about your ceiling prices, always consult your local OPA office.

This amendment shall become effective July 26, 1946.

Issued this 26th day of July 1946.

**MODIFICATION OF MAXIMUM PRICES**

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

A new § 5.9 is added to read as follows:

Sec. 5.9 *Modification of maximum prices of insulating firebrick.* (a) The manufacturers' maximum prices established pursuant to Maximum Price Regulation 592 for insulating firebrick may be increased by adding thereto amounts not in excess of the following:

	Percent
(1) For manufacturers who sell primarily on a delivered price basis	20.1
(2) For manufacturers who sell primarily on an f. o. b. plant basis	21.6

(b) Any reseller purchasing insulating firebrick for resale in the same form from any manufacturer who has modified his maximum prices in accordance with (a) above, may increase his presently established prices under the General Maximum Price Regulation, by an amount not exceeding his actual percentage increase in cost resulting from the increase permitted the manufacturers in (a) above. However, in any area where specific maximum prices are fixed by an area pricing order, such specific maximum prices shall apply in that area.

(c) The maximum prices established herein shall be subject to at least the same cash, quantity and other discounts, transportation allowances, services, and other terms and conditions of sale as the seller extended or rendered on comparable sales to purchasers of the same class during March 1942.

BUILDING, CHEMICAL AND INDUSTRIAL LIME  
 ADJUSTMENT OF MAXIMUM PRICES

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order 1 is amended in the following respects:

1. A new section 8.1 (e) is added to read as follows:

(e) *Manufacturers' maximum prices in the United States East of the Rocky Mountains—*(1) *What this paragraph covers.* This paragraph covers the manufacturers' maximum prices for building, chemical, and industrial lime (excluding agricultural lime), produced in Lime Districts 1-3, inclusive. As used in this paragraph, Lime Districts

1-13, inclusive, means the Continental United States east of the western boundaries of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas.

(2) *Manufacturers' maximum prices.*

(i) The manufacturers' maximum net plant prices for the items covered by this paragraph established pursuant to Maximum Price Regulation 592 as increased by sections 8.1 (a), (b), (c), and (d) of Order 1 under Maximum Price Regulation 592 may be further increased by an amount not in excess of \$1.00 per net ton.

(ii) The manufacturers' maximum net plant prices for the items covered by this section established pursuant to Maximum Price Regulation 592 in areas located within Lime Districts 1-13, inclusive, whose maximum prices are not modified by sections 8.1 (a), (b), (c), and (d) of Order 1 under Maximum Price Regulation 592, may be increased by an amount not in excess of \$1.00 per net ton.

(3) *Manufacturers' individual adjustments.* (i) Any individual price adjustments granted prior to July 26, 1946, by the Price Administrator or any Regional Administrator to any manufacturer of the products set forth in (1) above, in an amount equal to or less than the in-

crease permitted by this paragraph are hereby revoked.

(ii) Any individual adjustments granted prior to July 26, 1946, by the Price Administrator or any Regional Administrator to any manufacturer of the products set forth in (1) above, in an amount greater than the increase permitted by this paragraph are hereby continued in full force and effect. Such individual adjustments shall not, however, be further increased by the increase permitted in this paragraph.

2. A new section 8.4 (c) is added to read as follows:

(c) Notwithstanding the provisions of (a) above, any reseller or agent purchasing building, chemical, and industrial lime (excluding agricultural lime) for resale from any manufacturer who has modified his maximum prices in accordance with section 8.1 (e) above, may increase his presently established maximum prices, f. o. b. yard or delivered, by the percentage increase in cost to him resulting solely from the increase permitted the manufacturer by virtue of section 8.1 (e) above. However, in areas where specific maximum prices are established by area pricing orders, such specific maximum prices shall apply.

This amendment shall become effective July 26, 1946.

Issued this 26th day of July 1946.

VITRIFIED CLAY SEWER PIPE AND ALLIED PRODUCTS

ADJUSTMENT OF MAXIMUM PRICES

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order No. 1 is amended in the following respects:

1. A new section 3.1 (b) (2) is added to read as follows:

(2) The manufacturers' maximum prices for vitrified clay sewer pipe and allied products as increased pursuant to (1) above, may be further increased by an amount not in excess of 13.2 percent.

2. Section 3.3 is amended to read as follows:

SEC. 3.3 *Maximum prices for resellers.* Any reseller purchasing vitrified clay sewer pipe and allied products, except as covered by Revised Maximum Price Regulation 206, for resale in the same form may add to his maximum prices established under the General Maximum Price Regulation, as follows:

(a) An amount not exceeding the dollars-and-cents increase in cost to him resulting from an increase in maximum prices permitted manufacturers under section 3.1 prior to June 30, 1946.

(b) An amount not exceeding the percentage increase in cost to him resulting from an increase in maximum prices permitted manufacturers under section 3.1 after June 30, 1946.

Notwithstanding the provisions of (a) and (b) above, in areas where specific maximum prices are fixed by an area pricing order, such specific maximum prices shall apply in that area.

This Amendment No. 55 shall become effective July 26, 1946.

Issued this 26th day of July 1946.

SPECIFIED CONSTRUCTION MATERIALS AND REFRACTORIES

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 5.1 (a) is amended to read as follows:

(a) *Maximum prices for manufacturers in the Eastern part of the United States.* (1) The manufacturers' f. o. b. plant or delivered maximum prices established pursuant to Maximum Price Regulation No. 592, for all qualities, sizes and shapes of fireclay and silica brick, including also ladle brick and hot tops, superclay and high alumina, ground fire clay, silica cement, and other low temperature mortars, produced in the State of Missouri and in the United States east of the Mississippi River may be increased by 6 percent. This 6 percent increase does not apply to sales of glass house brick, insulating fire brick, high temperature bonding mortars, plastic fire-brick and castables.

(2) Manufacturers of the commodities described in (1) above may round off to the nearest \$0.05 the adjusted maximum prices resulting from the increase permitted in (1) above.

(3) The manufacturers' maximum f. o. b. plant or delivered prices as modified pursuant to (1) and (2), above, may be further increased by an amount not in excess of 11 percent.

(4) Manufacturers of the commodities described in (1) above may round off to the nearest \$0.05 the adjusted maximum price resulting from the increase permitted pursuant to (3) above.

This Amendment No. 56 shall become effective July 26, 1946.

## SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-1337]

ARKANSAS POWER &amp; LIGHT CO. AND CAPITAL TRANSPORTATION CO.

## NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 24th day of July A. D. 1946.

Notice is hereby given that Arkansas Power & Light Company ("Arkansas"), an electric and gas utility subsidiary of Electric Power & Light Corporation ("Electric"), a registered holding company, and Arkansas' wholly-owned non-utility subsidiary, Capital Transportation Company ("Capital"), have filed a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 designating sections 6 (b), 9 (a), and 12 (f) thereof and Rule U-43 thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than August 6, 1946 at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter said application may be granted and said declaration permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under said act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof. Any request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. All interested persons are referred to the application-declaration, which is on file in this Commission, for a statement of the transactions therein proposed which are summarized as follows:

Capital operates, under lease from Arkansas, the latter's transportation system in Pulaski County, Arkansas, comprising street railway lines and rolling stock, motor coaches, real estate, buildings, equipment, and other facilities necessary or useful for its operation.

Arkansas proposes to sell and transfer, and Capital proposes to purchase and acquire the transportation system described above in exchange for 4,750 shares of the no par value common stock of Capital.

Arkansas proposes to record its investment in such common stock in the amount of \$2,744,182, representing an amount equal to the net book cost to Arkansas of its transportation properties as of January 1, 1944, adjusted to reflect additions and retirements to May 31, 1946. Capital proposes to record the transportation properties on its books in the same amount (net) as they are presently recorded on the books of Arkansas, assigning a stated value to the common stock proposed to be issued of \$975,000 and creating a capital surplus for the balance of \$1,769,182, which amount is

approximately equivalent to the amount of intangibles included in the property account, all of which are applicable to the railway property in existence as of December 31, 1943.

The proposed transactions and the accounting entries in connection therewith have been approved by the Arkansas Public Service Commission. The approval of such Commission is subject to the following conditions: (a) that upon retirement of any of the railway property in existence as of December 31, 1943, the total cost thereof, including that portion of the total cost represented by excess cost over original cost (74.663% of the original cost), be retired and that after such retirement there shall remain an adequate retirement reserve for that portion of the property remaining in service; and (b) provided further that Arkansas Power & Light Company write down its investment in Capital Transportation Company through charges to earned surplus by any amounts charged to capital surplus on the books of Capital Transportation Company by reason of the retirement of the railway and motor coach properties.

By the Commission.

## ORDER RELEASING JURISDICTION WITH RESPECT TO LEGAL FEES AND EXPENSES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 23d day of July A. D. 1946.

The Commission having, by order dated April 18, 1946, approved and permitted to become effective a joint application and declaration, and amendments thereto, filed by American Gas and Electric Company ("American"), a registered holding company, and its subsidiary, The Scranton Electric Company ("Scranton"), regarding the following transactions: (1) Amendment by Scranton of its charter to effect (a) a reduction in its presently authorized 100,000 shares of no par value \$6 cumulative preferred stock to 75,000 shares of cumulative preferred stock having a par value of \$100 per share, and (b) a reclassification of its authorized 2,500,000 shares of no par value common stock into 1,500,000 shares of \$5 par value common stock; (2) the sale by Scranton, pursuant to the competitive bidding provisions of Rule U-50, of 53,248 shares of \$100 par value cumulative preferred stock; (3) the redemption by Scranton of its presently outstanding shares of no par value \$6 cumulative preferred stock; (4) the sale by American, at competitive bidding, pursuant to the provisions of Rule U-50, of 1,214,000 shares of the \$5 par value common stock of Scranton; (5) the sale and transfer to Scranton of American's investments in West Pittston-Exeter Rail-

road Company; and (6) the transfer by Franklin Real Estate Company to Scranton of title to certain lands presently held in Scranton's benefit; and

The Commission having, by said order dated April 18, 1946, reserved jurisdiction with respect to all expenses and legal fees to be paid in connection with the said transactions; and the record having been completed with respect to such expenses and legal fees incurred in the total amount of \$81,860, such total consisting of fees of Simpson, Thacher & Bartlett, counsel for American and Scranton, in the amount of \$25,000, fees of O'Malley, Harris, Harris & Warren, counsel for Scranton, in the amount of \$5,000, and fees of Winthrop, Stimson, Putnam & Roberts, counsel for the successful bidders of the preferred and common stocks of Scranton, in the amount of \$15,000, and filing fees, printing and other miscellaneous expenses of \$36,860, and information having been submitted regarding the nature and extent of the services rendered by said respective counsel and the expenses and the allocation of said fees and expenses as between American and Scranton; and

The Commission having considered the record herein and finding that the said fees and expenses and the allocation thereof are not unreasonable:

It is ordered, That jurisdiction heretofore reserved over the legal fees and expenses to be paid in connection with the said transactions be, and the same hereby is, released.

By the Commission.

SUPERIOR WATER, LIGHT AND POWER CO.  
ET AL.

## ORDER GRANTING PETITION TO MODIFY PREVIOUS ORDER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa. on the 23d day of July A. D. 1946.

In the matter of Superior Water, Light and Power Company, Northern Power Company, and American Power & Light Company; File No. 70-675.

This Commission having, on April 5, 1943, entered an order permitting declarations to become effective and granting applications regarding (a) the issuance by Superior Water, Light and Power Company ("Superior") to its parent, American Power & Light Company, a registered holding company, of common stock in exchange for the common stock of Northern Power Company ("Northern"), also a subsidiary of American, (b) the merger of Northern into Superior and the dissolution of Northern, and (c) the issuance by Superior of certain securities for cash to be applied in discharge of Superior's then outstanding debt and preferred stock; and

Said order of April 5, 1943 having contained, among others, the following condition:

(1) That so long as Superior exercises the special amortization privilege resulting from its Winslow Steam Plant Necessity Certificate issued pursuant to section 124 of the Internal Revenue Code, it shall charge annually to earned Surplus and credit to a deferred credit account the difference between (a) the amount of Federal taxes, based on income, payable, and (b) the amount of such taxes which would have been payable if the special amortization privilege had not been exercised. Any amount in such deferred credit account shall remain therein until transferred to earned surplus as hereinafter set forth. The amount in such deferred credit may be transferred to earned surplus in any year subsequent to the expiration of the special amortization period to the extent of the difference between the amount of Federal taxes, based on income, payable, for any such year and the amount of such taxes which would have been payable if the special amortization privilege had not previously been exercised. At such time as the normal tax depreciation period for such facilities shall have expired or such facilities shall have been sold, abandoned, or otherwise disposed of, the remaining balance in such deferred credit, if any, shall be transferred to earned surplus; and

Superior having, on June 10, 1946, pursuant to an undertaking with the Public Service Commission of Wisconsin, petitioned this Commission to alter said order by modifying said condition to read as follows:

(1) That so long as Superior exercises the special amortization privilege resulting from its Winslow Steam Plant Necessity Certificate issued pursuant to Section 124 of the Internal Revenue Code, it shall charge annually to earned surplus and credit to a deferred credit account the difference between (a) the amount of Federal taxes, based on income, payable, and (b) the amount of such taxes which would have been payable if the special amortization privilege had not been exercised. Any amount in such deferred credit account shall remain therein until transferred to earned surplus as hereinafter set forth. The amount in such deferred credit account shall be transferred to earned surplus in each year beginning with the calendar year 1946, in annual or monthly installments which shall equal annually one-twenty-fifth of the balance in the deferred credit account at January 1, 1946. If such facilities shall be sold, abandoned, or otherwise disposed of, the remaining balance in

such deferred credit account, if any, shall be transferred to earned surplus.

The Commission having examined said petition and finding it appropriate in the public interest and in the interest of investors and consumers to grant said petition and to modify its order of April 5, 1943, as requested:

*It is hereby ordered*, That the petition filed with this Commission on June 10, 1946 by Superior be, and the same hereby is, granted, and that this Commission's order of April 5, 1943 be, and the same hereby is, modified as requested in said petition, subject, however, to the conditions contained in Rule U-24.

*It is further ordered*, That said Order of April 5, 1943 is in all other respects continued in full force and effect.

By the Commission.

CAMBRIDGE ELECTRIC LIGHT CO. AND NEW ENGLAND GAS AND ELECTRIC ASSN.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 25th day of July 1946.

New England Gas and Electric Association ("New England"), a registered holding company, and its subsidiary, Cambridge Electric Light Company ("Cambridge"), having filed a joint application-declaration pursuant to sections 6 (b), 10 and 12 of the Public Utility Holding Company Act of 1935 and Rule U-43 promulgated thereunder regarding the following transactions:

New England presently owns all of the outstanding common stock of Cambridge. Cambridge proposes to issue and sell to New England an additional 3,400

shares of common stock, of the par value of \$25 per share, at a price of \$150 per share, or an aggregate of \$510,000, said price having been fixed by the Department of Public Utilities of Massachusetts by its order dated June 28, 1946 expressly authorizing such issue and sale. The proceeds from the proposed sale are to be used for the purpose of paying presently outstanding indebtedness aggregating \$500,000 due The First National Bank of Boston on notes of the company which matured June 30, 1946, and for expenditures to plant subsequent to December 31, 1945.

Said application-declaration having been filed on July 5, 1946, and notice of said filing having been duly given in the form and manner prescribed in Rule U-23 promulgated under said Act, and the Commission not having received a request for hearing with respect to said application-declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said application under section 6 (b) of the act that the requirements of said section have been satisfied, and with respect to said application under section 10 of the act that no adverse findings are necessary under sections 10 (b) or 10 (c) (1) of the act and that the transaction involved has the tendency required by section 10 (c) (2) of the act, and that the requirements under section 12 (f) of the act and Rule U-43 promulgated thereunder are satisfied:

*It is hereby ordered*, Pursuant to said Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions prescribed in Rule U-24, that the aforesaid application-declaration be, and hereby is, granted and permitted to become effective forthwith.

By the Commission.
