## TITLE 14—CIVIL AVIATION

### Chapter I—Civil Aeronautics Board

#### Subchapter A—Civil Air Regulations

[Supp. 1]

#### PART 21—AIRLINE TRANSPORT PILOT RATING

#### COPILOT EXPERIENCE CREDITED TOWARD AIRLINE TRANSPORT PILOT RATING; ENDORSEMENT

This supplement establishes policies under which a copilot may acquire flight time which will qualify him for an airline transport pilot rating, by performing the duties and functions of a pilot in command under the surveillance of the pilot in command. It also establishes policies regarding endorsement of the rating by the Administrator.

Sections 21.16-1 and 21.16-2 are adopted to read:

§ 21.16-1 *Copilot experience (CAA policies which apply to § 21.16 (a))*. In the case of a copilot employed by a certificated air carrier, the time credited toward an airline transport pilot rating "as copilot actually performing the duties and functions of a pilot in command under the surveillance of the pilot in command" should meet the following standards:

(a) *Credited flying time*. A copilot should be credited with the actual flight time in which he performs all the functions of the pilot in command, including landings and take-offs, en route flying, and low approaches. During such flights, however, the pilot in command will be responsible for the course of action to be taken when a critical decision by the copilot involves the operation of the aircraft or the conduct of the flight. The flight time credited in this manner is subject to the provisions of § 43.44 of this subchapter, whereby not more than 50 percent of such copilot time may be credited toward an airline transport pilot rating.

(b) *Ground functions*. The ground functions of the pilot in command should be performed by the copilot and include, but need not be limited to, the preparation of the flight plan, recheck of the gross load and the weight and balance computation, and ascertaining the  $V_1$  and  $V_2$  speeds. However, time consumed by the copilot in the performance of such ground functions will not be credited to the actual flight time.

(c) *Certification of experience*. The actual flight time and the aeronautical experience gained in the performance of the ground and flight functions of the pilot in command should be recorded and explained in the copilot's log book, and certified by the pilot in command under whose supervision the functions were accomplished.

(d) *Copilot qualifications*. A copilot should have had sufficient time and experience as a copilot, and have demonstrated his ability to perform efficiently the duties of a copilot, before he is permitted to perform the functions of a pilot in command for the purpose of logging pilot-in-command time.

§ 21.16-2 *Endorsement (CAA policies which apply to § 21.16 (c))*. When a copilot qualifies for an airline transport pilot rating by using flight time during which he performed the duties of a pilot in command under the surveillance of a pilot in command, his certificate will be appropriately endorsed. The endorsement will be made on the airline transport pilot rating under item XIII. It will consist of the statement "does not meet ICAO pilot-in-command standards".

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 52 Stat. 1007, as amended, 1008; 49 U. S. C. 551, 552)

These policies shall become effective November 10, 1952.

F. B. LEE,  
Acting Administrator of  
Civil Aeronautics.

| 502.4 | Actions required.                |

**AUTHORITY:** §§ 502.1 to 502.4 issued under R. S. 161; 5 U. S. C. 22. Interpret or apply 64 Stat. 1109; 42 U. S. C. Sup. 1855-1855g.

**SOURCE:** AR 500-60, Oct. 1, 1952.

§ 502.1 *General*—(a) *Scope*. Sections 502.1 to 502.4 prescribe responsibilities, policy, and guidance for the Army Establishment for operations involving disaster relief. These sections have particular application to the continental United States but where not in conflict with any public law, have equal application to United States Territories and possessions.

(b) *Definitions*—(1) *Disaster*. The catastrophic result of excessive or uncontrolled action of natural phenomena such as flood, fire, snow, earthquake, or tornado.

(2) *Major disaster*. Any disaster which is determined by the President to be of such severity and magnitude as to warrant assistance by the Federal Government under the provisions of act September 30, 1950 (64 Stat. 1109-1111; 42 U. S. C. Sup. 1855-1855g) as amended by act August 3, 1951 (65 Stat. 173). This law provides that the governor of a State (or the Board of Commissioners, District of Columbia) shall certify to the President the need for Federal assistance and give assurance of the expenditure of a reasonable amount of funds of the government of such State, local governments therein, or other agency in such disaster prior to requesting Federal assistance. When authorized or directed by the President or his designated representative, Federal agencies are authorized to provide assistance to States and local governments in such major disasters. The President or his authorized representative may direct any Federal agency to utilize its available personnel,

equipment, supplies, facilities, and other resources. The President may also reimburse any Federal agency for any of its expenditures in connection with a major disaster.

§ 502.2 *Responsibility of armed forces*. Over a number of years, the Army among the military services has been employed most often by the President to render aid to the States and local Governments in disasters and similar emergencies which have assumed such proportions as to be beyond the capabilities of local authorities. However, the capabilities of the Navy and the Air Force have similarly been utilized in rendering disaster assistance and, in some instances, they are more appropriately organized and equipped for particular types of operations. The Department of the Army has primary responsibility among the services for provision of disaster relief, with the Navy and the Air Force having unilateral responsibility. The Department of the Army is also charged with the responsibility for coordination of disaster relief activities of the military services.

(a) *Continental Army commanders*. Responsibility for operations in disaster relief under the provisions of §§ 502.1 to 502.4 is delegated to continental Army commanders. In cases of imminent necessity so dangerous as to preclude the receipt of timely instructions from higher authority, any commanding officer of troops will take such action as is necessary, and as the circumstances of the case reasonably justify, to save human life, to prevent immediate human suffering, or mitigate great destruction or damage to the public property of the United States. Such action, without prior authorization, of necessity, may be prompt and vigorous, but should be designed for the protection of life and property until such time as instructions from higher authority have been received, rather than as an assumption of functions normally performed by civilian authorities.

(b) *Corps of Engineers*. The prevention and control of floods is by statute the responsibility of the Corps of Engineers. When a flood of dangerous proportions is foreseen, District engineers will keep the Department of the Army and Army commanders informed of developments. The closest cooperation between District and Division engineers, continental Army commanders, the Red Cross, and other relief agencies is necessary to mitigate the results of disastrous floods. Efforts incident to the repair, restoration, and maintenance of flood control works and rescue of flood victims are performed by the Corps of Engineers. Army assistance in the relief of human suffering is the responsibility of the continental Army commander.

§ 502.3 *Department of the Army policies*. (a) Disaster relief will not be undertaken by the Department of the Army without the authority delegated by the Congress in act September 30, 1950, or by direction of the President, unless:

(1) The overruling demands of humanity compel immediate action to prevent starvation and extreme suffering, in which event continental Army com-

manders will use personnel, supplies, and equipment under their control within their own discretion, and advise the Department of the Army of action taken, and

(2) Local resources are clearly inadequate to cope with the situation, in which event the relief measures to be undertaken will be those deemed necessary by the continental Army commander, subject to the provisions of §§ 502.1 to 502.4. Local resources as here used comprise all resources available to the respective State and municipal authorities augmented by those available to the Red Cross in the affected areas.

(b) In order to conserve the use of troops, equipment, and supplies to the maximum, their utilization as set forth in §§ 502.1 to 502.4 is authorized only during the actual existence of the emergency. Sections 502.1 to 502.4 are not to be construed as authorizing assistance during the period of rehabilitation which normally follows a disaster. Troops and equipment will be withdrawn and the issue of supplies stopped at the earliest practicable moment.

§ 502.4 *Actions required*—(a) *"Major disasters"*. The act of September 30, 1950, as amended, in no way precludes Department of the Army action, where required in emergencies, pending determination by the President that a disaster is a "major disaster" under the terms of the law. Department of the Army action subsequent to such a finding, however, will be governed by the coordination and direction of the Federal agency appointed by the President. The extent, manner, and duration of Army participation will be as directed or requested by the agency acting as the President's designated representative and as is in consonance with §§ 502.1 to 502.4. Normal channels will be between continental Army commanders and the field representative of the agency designated to represent the President.

(b) *Direct military assistance*. In the event that direct relief is provided to distressed areas where the Red Cross and other Federal assistance under the act of September 30, 1950, are absent, the Army Establishment will provide assistance and relief consistent with the provisions of §§ 502.1 to 502.4 and with the minimum practicable diversion of Army resources. Where appropriate, the use of Naval or Air Force resources may be coordinated either separated or in conjunction with Army assistance.

(c) *Authorized sales*. If the disaster is of such a nature that no supplies are available except those in possession of the military authorities, such supplies, at the discretion of the officer in charge of relief activities, may be sold in accordance with current pricing policy, but such sales must be made only where necessary to prevent suffering directly resulting from the disaster. These sales are authorized to meet unforeseen contingencies.

## TITLE 32A—NATIONAL DEFENSE, APPENDIX

### Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 34, Amdt. 4]

#### CPR 34—SERVICES

##### MODIFICATION OF POSTING REQUIREMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment to Ceiling Price Regulation 34 is hereby issued.

##### STATEMENT OF CONSIDERATIONS

This amendment 4 to Ceiling Price Regulation 34, as amended, amends section 18 (f) (2) of that regulation to require all service establishments making sales at retail to post, on an official poster supplied by the Office of Price Stabilization, a list of the ceiling prices of its principal services. This amendment also modifies the existing requirement that service suppliers post all ceiling prices, by requiring such suppliers to keep available for public inspection, either on additional posters or in separate lists, the ceiling prices of additional services which are offered for sale.

Service establishments making sales at retail which were doing business during the base period December 19, 1950 to January 25, 1951, inclusive or which commenced doing business prior to May 16, 1951, were required by CPR 34 to file a list of their ceiling prices with the District Office of the Office of Price Stabilization and to post such ceiling prices on or before June 15, 1951. New service businesses and sellers of new services were also required to post and file their ceiling prices within thirty days of the date that the ceiling price for the service was established by this regulation. Informal surveys of service establishments by representatives of the Office of Price Stabilization has shown a lack of uniformity with respect to the size of posting, the subject matter covered, and the visual accessibility to the purchaser of the posted ceiling prices. In accordance with a basic program of price stabilization, the Director has determined that in order to apprise purchasers of services subject to Ceiling Price Regulation 34, that modification of the posting requirements as contained in section 18 (f) (2) is necessary and thus is providing official posters upon which sellers may list the ceiling prices of their most representative services, these posters be prominently displayed in the service establishment where it can be easily seen and read by the customers.

The numerous and diverse establishments which will be affected by this amendment have made it impracticable to consult formally with Industry Advisory Committees including trade association representatives, however, the Director has given consideration to informal recommendations from various service trades.

In the judgment of the Director the provisions of this regulation are generally fair and equitable and are neces-

sary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

##### AMENDATORY PROVISIONS

Ceiling Price Regulation 34, as amended, is further amended in the following respects:

1. Section 18 (f) (2) is amended to read as follows:

If you operate a service establishment making sales at retail, you must, not later than 7 days after you receive an official OPS poster, post your ceiling prices for your principal services on such official poster in a prominent place in your service establishment where it can easily be seen and read by your customers. In the event you do not receive an official poster, you must, not later than November 26, 1952, or 30 days after the date your ceiling price for a service is first established by this regulation, whichever is later, obtain an official poster from your OPS District Office and post your ceiling prices in accordance with this section. Ceiling prices for additional services must be kept readily available for public inspection at your place of business. You may use either additional posters or separate lists identifying each service and ceiling price.

2. Section 18 (f) is further amended by adding new subparagraph (3) which reads as follows:

(3) If a poster is mutilated or becomes badly soiled or otherwise damaged, it must be replaced by a new one which may be obtained from your OPS District Office. Erasures or changes in ceiling prices listed on the poster, excepted to correct clerical or arithmetical errors are prohibited, unless authorized by OPS.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

**Effective date.** This amendment 4 to Ceiling Price Regulation 34 shall be effective October 27, 1952.

**Note:** The record-keeping and reporting requirements of this supplementary regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

I concur. The records of the Bureau of Land Management will be noted accordingly.

All of the lands except secs. 2 and 12 T. 10 S., R. 9 E., and sec. 6 T. 10 S., R. 10 E., are either patented or reserved. The lands are not suitable for agricultural purposes as the soils contain high concentrations of alkali salts, the annual rainfall is very low, and there is no known source of water for irrigation. There are limited opportunities for business sites and other small tract uses.

Wells in the area are very deep and furnish poor quality brackish water.

While any application that is filed will be considered on its merits, it is unlikely that any substantial part of the restored (or opened) lands will be classified for any use other than as shown.

At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

C. 279-284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their

applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office, Los Angeles, California, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. (c) To require a copy of an order board or in lieu thereof the necessary scheduling data, covering APRA Class B products only, from a manufacturer of any such products which are in critically short supply and the lack of which products is seriously interfering with the fulfillment of other aircraft component or aircraft end-item schedules.

(d) To redelegate the authority hereby delegated to appropriate agencies of the Department of Defense or its authorized agents.

2. The exercise of this authority shall conform to the terms of the regulations and orders of the National Production Authority and to such priorities and allocations policy directives as may be issued by the Munitions Board to imple-

TEXAS UTILITIES CO.

ORDER PERMITTING ACQUISITION OF SECURITIES OF NEWLY ORGANIZED SUBSIDIARY COMPANY

OCTOBER 17, 1952.

Texas Utilities Company ("Texas Utilities"), an exempt holding company, having filed an application pursuant to sections 9 (a) (2) and 10 of the act with respect to certain proposed transactions, which are summarized as follows:

On April 5, 1950, the Commission issued its findings, opinion and order granting Texas Utilities and each of its subsidiary companies, as such, an exemption pursuant to section 3 (a) (1) of the act from all the provisions of the act except with respect to section 9 (a) (2) and certain other sections.

Texas Utilities proposes to organize a new corporation under the laws of the State of Texas and to acquire for \$500 in cash five shares (being all the shares) of the capital stock, par value \$100 per share, of such company. The new company would be named Industrial Generating Co.

Texas Power & Light Company ("Texas Power"), a subsidiary company of Texas Utilities, has entered into contracts with the Aluminum Company of America ("Alcoa") under which Texas Power will construct in its service area near Sandow, Texas a new electric generating plant and transmission line for the account of Alcoa, operate such plant and certain lignite mines for Alcoa's account, and exchange emergency and standby power and energy with Alcoa. The Industrial Generating Co., on a non-profit basis, would contract with Texas Power to perform the obligations of Texas Power to Alcoa imposed by the contract between the latter two named companies to operate Alcoa's generating plant. It is stated that the financial statements of Texas Power would be substantially distorted if there is incorporated therein the operating costs of Alcoa's generating plant with the items making up the costs of its regular normal operations. It is submitted that the newly organized company, which would operate Alcoa's generating plant, would avoid such distortion and simplify operations under the operating agreement between Alcoa and Texas Power.

It is represented that no fees or commissions are to be paid in connection with the organization of Industrial Generating Co. and that the transactions here involved are not subject to the jurisdiction of any state commission.

Notice of filing of said application having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act; the Commission not having received a request for hearing with respect thereto within the period specified in said notice or otherwise, and not having ordered a hearing thereon; and the Commission finding that the applicable requirements of the act and the rules and regulations thereunder are satisfied, and deeming it appropriate in the public interest and the interests of investors and consumers that said application be granted, effective forthwith:

*It is ordered*, Pursuant to Rule U-23 and the applicable provisions of the act that said application be, and the same hereby is, granted, effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

PHILADELPHIA CO.

ORDER GRANTING APPLICATION REGARDING PROPOSED STABILIZATION

OCTOBER 16, 1952.

Philadelphia Company ("Philadelphia"), a registered holding company, having filed an application, and amendments thereto, pursuant to the act and certain rules promulgated thereunder concerned with the following proposed transactions:

At the present time Philadelphia owns \$6,354,000 principal amount of Twenty Year 3½ Percent Sinking Fund Debentures, due March 1, 1970, of Equitable Gas Company ("Equitable"), a former public utility subsidiary of Philadelphia. This Commission by order dated June 1, 1948, as supplemented by its order of March 14, 1950, has directed Philadelphia to divest itself of all securities of Equitable owned by Philadelphia. Philadelphia has heretofore notified this Commission, pursuant to Rule U-44 (c), that it intends to sell these debentures to non-affiliated interests under competitive conditions and the Commission determined that no declaration need be filed with respect to such proposed sale.

Bids for the purchase of the debentures will be invited by a newspaper advertisement which will provide that interested persons shall notify Philadelphia of their desire for an opportunity to purchase said debentures. Thereafter, Philadelphia will advise all such persons of the conditions of sale and the time for submitting bids, which time shall not be less than twenty-four hours after such advice has been given.

Philadelphia in the instant application seeks permission to acquire debentures of Equitable by purchases on the over-the-counter market, if, in the judgment of Philadelphia's officers, such purchases are necessary or advisable to facilitate the intended sale by stabilizing the market price thereof. Purchases, if any, by Philadelphia will be made only during the period beginning on the third full business day prior to the opening of bids for the purchase of debentures and ending at the time of such opening. The application states that the aggregate amount of debentures to be purchased through stabilization operations, if any, will not exceed ten percent of \$6,354,000, the total amount of such debentures now owned by Philadelphia. Expenses in connection with these transactions are estimated at \$1,000 of which the major portion is represented as being fees and expenses of counsel.

The filing further states that any debentures which are acquired through stabilization operations will be promptly disposed of by Philadelphia after appropriate notice to the Commission.

The Commission having issued a notice of filing pursuant to Rule U-23 and not having received a request for a hearing thereon within the period specified in said notice or otherwise, and not having ordered a hearing thereon;

It appearing to the Commission that the proposed transactions meet all applicable standards of the act and the rules and regulations thereunder and

that it is appropriate in the public interest and in the interest of investors and consumers that the application, as amended, be granted forthwith:

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions of Rule U-24, that the application, as amended, be, and the same hereby is, granted forthwith.

By the Commission.

NORTH AMERICAN CO.

NOTICE OF FILING REGARDING PROPOSED  
STABILIZATION

OCTOBER 20, 1952.

Notice is hereby given that an application has been filed pursuant to the act and the rules and regulations promulgated thereunder by the North American Company ("North American"), a registered holding company. The application designates sections 9 and 10 of the act and Rule U-44 promulgated thereunder as applicable to the proposed transactions.

All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transactions therein proposed which are summarized below:

Pursuant to a plan of liquidation and dissolution of North American Utility Securities Corporation, heretofore approved by this Commission under section 11 (e) of the act and ordered enforced by the United States District Court for the District of Maryland, North American will receive, inter alia, 78,684 shares of the common stock of Pacific Gas & Electric Company ("PG&E"), a former public utility subsidiary of North American. This Commission by order dated April 14, 1942, directed North American to divest itself of all of its direct and indirect interests in PG&E.

North American has notified this Commission, pursuant to Rule U-44 (c), that upon receipt of the same it intends to sell the 78,684 shares of common stock of PG&E to non-affiliated interests pursuant to a public invitation for sealed written competitive bids.

The sale of this common stock is not part of the instant application. North American in the instant application seeks permission to acquire common stock of PG&E by purchases on the New York Stock Exchange, if, in the judgment of North American's officers, such purchases are necessary or advisable to facilitate the intended sale by stabilizing the market price thereof. Purchases by North American will be made only during the period beginning on the day of the opening of bids for the purchase of the common stock and ending at the time of such opening. The filing states that all common stock acquired through these stabilization operations will be promptly disposed of by North

American after the sale of the 78,684 shares of common stock of PG&E.

It is represented in the application that customary brokerage fees and commissions will be paid by North American in connection with purchases made by it for stabilization purposes. It is stated that other expenses incurred in connection with such stabilization operations are not separable from the fees and expenses to be incurred in connection with all the transactions enumerated above and that the aggregate fees and expenses in connection with such transactions are estimated at \$13,500 of which \$3,500 represents fees and expenses of counsel.

North American requests that the Commission's order herein become effective forthwith upon issuance.

Notice is further given that any interested person may, not later than October 28, 1952, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time thereafter such application as filed, or as amended, may be granted as provided in Rule U-23 of the rules and regulations under the act or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

Secretary.

AMERICAN GAS AND ELECTRIC CO. ET AL.

NOTICE OF FILING PROPOSAL FOR FINANCING  
OF NEW OPERATING COMPANIES, AND NOTICE  
AND ORDER FOR HEARING

OCTOBER 17, 1952.

In the matter of American Gas and Electric Company, Ohio Valley Electric Corporation, et al.; File No. 70-2945.

Notice is hereby given that American Gas and Electric Company ("American Gas"), a registered holding company, the Cincinnati Gas & Electric Company ("Cincinnati"), a public utility company, and an exempt holding company, Kentucky Utilities Company ("Kentucky"), a public utility company and an exempt holding company, Louisville Gas and Electric Company ("Louisville"), a public utility company and an exempt holding company, Ohio Edison Company ("Ohio Edison"), a public utility company and a registered holding company, the West Penn Electric Company ("West Penn Electric"), a registered holding company, Ohio Valley Electric Corporation ("Ohio Valley"), Indiana-Kentucky Electric Corporation ("Indiana-Kentucky"), and American Gas and Electric

Service Corporation ("Service Corporation"), a service company subsidiary of American Gas, have filed a joint application-declaration, pursuant to the Public Utility Holding Company Act of 1935 ("act"), and have designated sections 6, 7, 9, 10, and 13 of the act, and Rules U-90, U-91, and U-100 thereunder, as applicable to the proposed transactions, which are summarized as follows:

Ohio Valley and Indiana-Kentucky have been organized for the purpose of constructing and operating two electric generating stations, having a combined expected capability of 2,200,000 kilowatts, together with related facilities, required for the supply of power to the Atomic Energy Commission in connection with a gaseous diffusion plant of the Atomic Energy Commission to be located in the vicinity of Portsmouth, Ohio, and known as the "Portsmouth Area Project". Ohio Valley has executed a power agreement with the Atomic Energy Commission for the supply of such power. The creation of Ohio Valley and Indiana-Kentucky and the execution of this power contract are in accord with a proposal submitted on May 12, 1952, to the Atomic Energy Commission by fifteen operating utility companies, namely: applicants-declarants Cincinnati, Kentucky, Louisville and Ohio Edison; Appalachian Electric Power Company, Indiana & Michigan Electric Company, and the Ohio Power Company (subsidiaries of American Gas); Monongahela Power Company, the Potomac Edison Company and West Penn Power Company (subsidiaries of West Penn Electric); Pennsylvania Power Company (a subsidiary of Ohio Edison); and Columbus and Southern Ohio Electric Company ("Columbus"), the Dayton Power and Light Company ("Dayton"), Southern Indiana Gas and Electric Company ("Southern Indiana"), and the Toledo Edison Company ("Toledo").

The cost of the facilities proposed to be constructed by Ohio Valley and Indiana-Kentucky is estimated in the filing to range between a minimum of \$370,000,000 and a maximum of \$440,000,000. The application-declaration states that the funds for this purpose, and for the purpose of supplying necessary working capital, will be secured by the sale of debt securities to institutional investors and banks, and by the issuance of equity securities in an amount presently estimated not to exceed \$20,000,000. The definitive terms of the debt securities proposed to be issued have not yet been determined, and it is anticipated that the issuance of such debt securities will be the subject of a subsequent proceeding before the Commission.

The application-declaration seeks approval at this time of the issuance of the proposed equity securities of Ohio Valley and Indiana-Kentucky. Ohio Valley proposes to issue not in excess of 200,000 shares of common stock, par value \$100 per share, for a cash consideration of \$100 per share. It is proposed that 40,000 shares of such common stock will be issued initially, the proceeds of which will be used to proceed with the acquisition of land and land rights and with excavation and preliminary construction operations. The remaining shares of common

stock will be issued from time to time, prior to January 1, 1957, as required in connection with the construction program.

Ohio Valley proposes to issue its shares of common stock to certain of the applicants-declarants and to certain other participating operating utility companies, and such applicants-declarants (as well as such other companies) propose to acquire such common stock, in the following percentages of each issue of such stock:

Name of participating company:	Percentage
American Gas.....	37.8
Cincinnati.....	9.0
Columbus.....	4.1
Dayton.....	5.1
Kentucky.....	2.5
Louisville.....	7.0
Ohio Edison.....	16.5
Southern Indiana.....	1.5
Toledo.....	4.0
West Penn Electric.....	12.5

Indiana-Kentucky has been organized to operate as an electric utility company under the laws of the State of Indiana. All of its common stock issued upon incorporation has been acquired by Ohio Valley, which is organized to operate as an electric utility company under the laws of the State of Ohio. Ohio Valley has filed a statement on Form U-3A-2 for exemption as a holding company from the provisions of the act. Indiana-Kentucky proposes to issue not in excess of 100,000 shares of its common stock without par value, to Ohio Valley, for cash as required from time to time prior to January 1, 1957, and Ohio Valley proposes to acquire such shares.

As a result of the proposed transactions, Ohio Valley and Indiana-Kentucky will become subsidiaries of American Gas, of Ohio Edison, and of West Penn Electric. The latter three companies and Cincinnati, Kentucky, and Louisville request authority to acquire the common stock of Ohio Valley.

Service Corporation proposes to render engineering and construction services in connection with the facilities to be constructed. Such services are proposed to be performed at cost, as determined pursuant to Rule U-91, in accordance with the provisions of Rule U-90. Service Corporation has requested that, to the extent the proposed transactions involve a substantial change in the type and character of the companies to be serviced by it, or an increase in the scope of services to be rendered, from those provided in the order of the Commission dated May 11, 1939 (Holding Company Act Release No. 1528), the Commission approve such change and such proposed servicing arrangements pursuant to section 13 of the act and the rules thereunder.

The issuance of common stock by Ohio Valley, and the acquisition of shares of Ohio Valley common stock by Cincinnati, Columbus, Dayton, Ohio Edison and Toledo are proposed to be effected subject to orders of the Public Utilities Commission of Ohio. The issuance of common stock of Indiana-Kentucky is proposed to be effected subject to an order of the Public Service Commission of Indiana. The acquisition of common stock of Ohio Valley by West Penn Elec-

tric is proposed to be effected subject to an order of the Public Service Commission of Maryland.

In view of the importance and the urgent need for the prompt construction of the Atomic Energy Commission's Portsmouth Area Project, applicants-declarants desire that Ohio Valley and Indiana-Kentucky commence necessary excavation and preliminary construction operations as soon as possible, and request that the Commission issue its order at the earliest practicable date.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to the application-declaration, and that such application-declaration shall not be granted or permitted to become effective, except pursuant to the further order of the Commission:

*It is ordered*, That a hearing on said application-declaration, pursuant to the applicable provisions of the act and the rules of the Commission, be held on October 27, 1952, at 10:00 a. m., e. s. t., at the offices of the Commission, 425 Second Street NW., Washington 25, D. C. On said date the Hearing Room Clerk in Room 193 will advise as to the room in which such hearing will be held. Any person desiring to be heard or otherwise wishing to participate in this proceeding should file with the Secretary of the Commission on or before October 27, 1952, a request relative thereto as provided by Rule XVII of the Commission's rules of practice.

*It is further ordered*, That Edward C. Johnson, or any other officer or officers of this Commission designated by it for that purpose, shall preside at such hearing. The officer or officers so designated to preside are hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Public Utilities having advised the Commission that it has made a preliminary examination of the application-declaration, and that upon the basis thereof the following matters and questions are presented for consideration, without prejudice to its specifying additional matters and questions upon further examination:

1. Whether the proposed issuances of stock by Ohio Valley and Indiana-Kentucky are in accordance with the applicable standards of the act, particularly section 6 (b) or section 7 thereof;

2. Whether the proposed acquisitions of stock by the respective applicants-declarants are in accord with the applicable standards of the act, particularly section 10 thereof;

3. Whether the proposed program of services to be rendered by Service Corporation are in accord with the applicable provisions of the act, particularly section 13 thereof and the rules thereunder;

4. Whether the proposed transactions are in all respects in accordance with the standards of the act, and whether, in the event that the application-declaration should be granted and permitted to become effective, it is necessary or appropriate to impose any terms and

conditions to insure compliance with the standards of the act or in the public interest or for the protection of investors and consumers.

*It is further ordered*, That particular attention be directed at said hearing to the foregoing matters and questions.

*It is further ordered*, That the Secretary of the Commission serve a copy of this order by registered mail on the applicants-declarants herein, and that notice of said hearing shall be given to all other persons by general release of this Commission, which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935, and by publication of this order in the FEDERAL REGISTER.

By the Commission.

GENERAL MOTORS CORP.

CEILING PRICE FOR WHOLESALE LABOR WARRANTY SERVICES ON CERTAIN "SEALED RECIPROCATING COMPRESSORS"

*Statement of considerations.* This Special Order 4, issued upon application of General Motors Corporation, 3044 West Grand Boulevard, Detroit, Michi-

gan, pursuant to section 3 of Supplementary Regulation 16 to Ceiling Price Regulation 34, establishes ceiling prices for first-year wholesale labor warranty services rendered to General Motors Corporation, or its authorized distributors or dealers, on a new product line of commercial refrigeration compressors known as "sealed reciprocating compressors", by dealers who have not sold the commodity to be serviced.

Section 3 of Supplementary Regulation 16 to Ceiling Price Regulation 34 provides that a manufacturer who is offering for sale a new model of an existing commodity, and who has customarily set or proposed uniform prices that have been adopted throughout the United States for wholesale labor warranty services sold by its dealers, or by central service firms, to it or its distributor organization, as an incident of the sale of commodities, may apply to the Office of Price Stabilization, Service Trades Branch, Washington 25, D. C., for a ceiling price for each new wholesale labor warranty service.

These "sealed reciprocating compressors" are new models of existing commodities manufactured by General Motors Corporation, which has customarily set or proposed uniform prices that have been adopted throughout the United States for wholesale labor warranty services sold by its dealers to it, or its distributor organization, as an incident of the sale of commodities.

The contracts General Motors Corporation has with its authorized dealers require the dealers to provide labor warranty services to customers to whom they sell commodities, without any charge to anyone other than their markup on the commodity. If the dealer who sells the commodity, however, has no service department, or if one dealer sells in another dealer's service area, or if the customer moves from one service area to another, and in some other circumstances, the dealer who sells the commodity is not required to provide such warranty services, but he is required to pay a uniform price, set by General Motors Corporation, to his distributor who in turn will pay that price to another dealer to provide such labor warranty services. When the commodity to be serviced is located in the service area of a different distributor, the distributor whose dealer sold the commodity pays the price for the labor warranty service to General Motors Corporation which in turn pays it to the distributor in whose service area the commodity is located, who in turn pays it to a dealer to provide labor warranty services.

The ceiling price established by this Special Order is based upon anticipated direct labor costs of rendering the wholesale labor warranty service, and is in line with the ceiling prices for comparable wholesale labor warranty services furnished to General Motors Corporation. This ceiling price does not include the cost of new parts, which will be furnished by General Motors Corporation without charge to anyone.

This Special Order applies only to wholesale labor warranty services furnished to General Motors Corporation, or to its distributors or dealers, by deal-

ers who have not sold the commodities to be serviced.

*Special provisions.* For the reasons set forth in the Statement of Considerations and pursuant to section 3 of Supplementary Regulation 16 to Ceiling Price Regulation 34, this Special Order is hereby issued.

1. The ceiling price which General Motors Corporation, 3044 West Grand Boulevard, Detroit, Michigan, may pay for first-year wholesale labor warranty services, exclusive of new parts which will be furnished by General Motors Corporation without charge to anyone, on the models of sealed reciprocating compressors listed below, to dealers who have not sold the commodity, and which such dealers may charge General Motors Corporation or its distributors or dealers for such services is as follows:

2. Section 18 (c) of Ceiling Price Regulation 34 does not apply to services covered by this Special Order. All other provisions of Ceiling Price Regulation 34 except as changed by this Special Order remain in effect as to such services.

3. This Special Order, or any provision thereof, may be revoked, suspended, or amended by the Director of Price Stabilization at any time.
