### TITLE 5-ADMINISTRATIVE PERSONNEL

Chapter I-Civil Service Commission

PART 6-EXCEPTIONS FROM COMPETITIVE SERVICE

ENTIRE EXECUTIVE CIVIL SERVICE

Effective August 15, 1956, paragraphs (k) and (o) of § 6.101 are amended as set out below.

\$ 6.101 Entire executive civil service.

(k) Subject to prior approval of the Commission, temporary, parttime, or intermittent employment on construction or repair work of employees in recognized trades and crafts or other skilled mechanical crafts and in unskilled, semiskilled, or skilled manual-labor occupations and supervisory employees in these trades, crafts, and occupations, where the activity is carried on in places where there is no local Board of U. S. Civil Service Examiners to service the employing establishment and because of employment conditions there is a shortage of available candidates for the positions. Appointments under this paragraph shall not extend beyond one year, and the employment thereunder shall not exceed 180 working days a year. Seasonal employments of a recurring nature are not authorized under this paragraph. . . .

(o) Nonsupervisory positions of custodial laborer (levels 1, 2, and 3) and general laborer (levels 2 and 3) in field establishments outside central office and regional and branch office cities of the Commission where there is no local Board of U. S. Civil Service Examiners to service the employing establishment, as follows:

(1) For temporary, intermittent, or seasonal employment (exclusive of positions covered by paragraph (k) of this section) not to exceed 180 working days a year in the Departments of Agriculture, Commerce, and Interior, and in the International Boundary and Water Commission.

(2) When it is specifically held by the Commission that this authority is applicable, for employment in localities that are isolated with respect to labor supply and where there is a shortage of available candidates for the positions.

(R. S. 1753, sec. 2, 22 Stat. 403; 5 U. S. C. 631, 633)

(c) The items appearing in the list, contained in such instructions under the subhead Arizona, as "Allied Grain Company, 310 South 24th Avenue, Phoenix," "Southern Feed & Hardware, 25 East Southern Avenue, Phoenix," and "Tucson Hay and Grain Co., 4734 East Speedway, Tucson," are changed to read, respectively, as Advance Seed & Grain Company, 310 South 24th Avenue, Phoenix; Norton's Used Furniture, 25 East Southern Avenue, Phoenix; and Amado's Consumers Appliance & Fritz's Meats, 4734 East Speedway, Tucson.

This amendment shall become effective August 11, 1956.

This amendment revokes the designation as regulated areas of certain premises, it having been determined by the Chief of the Plant Pest Control Branch that adequate sanitation measures have been practiced for a sufficient length of time to eradicate the khapra beetle in and upon such premises. It also adds additional premises to the list of premises in which khapra beetle infestations have been determined to exist, and designates such premises as regulated areas under the khapra beetle quarantine and regulations. It further corrects certain designations of presently regulated areas

This amendment in part imposes restrictions supplementing khapra beetle quarantine regulations already effective. It also relieves restrictions insofar as it revokes the designation of presently regulated areas. It must be made effective promptly in order to carry out the purposes of the regulations and to permit unrestricted movement of regulated products from the premises being removed from designation as regulated areas. Accordingly, under section 4 of the Administrative Procedure Act (5 U.S.C. 1003), it is found upon good cause that notice and other public procedure with respect to the foregoing amendment are impracticable and contrary to the public interest, and good cause is found for making the effective date thereof less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 9, 37 Stat. 318; 7 U. S. C. 162. Interprets or applies sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 161)

Done at Washington, D. C., this 7th day of August 1956.

PART 728-WHEAT

SUSPART-1957-58 MARKETING YEAR COUNTY ACREAGE ALLOTMENTS FOR 1957 CROP

OF WHEAT

§ 728.706 Basis and purpose. The county acreage allotments for 1957 crop wheat contained herein have been determined under section 334 of the Agricultural Adjustment Act of 1938, as amended. The purpose is to apportion among the counties of each State the respective State wheat acreage allot-ments for 1957 as established by the proclamation dated May 16, 1956 (21 F. R. 3303) and to add thereto the increases required by section 1 of Public Law 117, 83d Congress. Prior to determinations of county acreage allotments for 1957 crop wheat, public notice (20 F. R. 10062) was given in accordance with the Administrative Procedure Act (5 U. S. C. 1003). The data, views, and recommendations pertaining to the determination of county acreage allotments for 1957 crop wheat which were submitted have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended, including the provisions of section 1 of Public Law 117, 83d Congress.

### Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

#### Subchapter 8—Sugar Regulrements and Quotas [Sugar Reg. 811, Amdt. 4]

#### PART 811-CONTINENTAL SUGAR REQUIRE-MENTS AND AREA QUOTAS

Basis and purpose. The purpose of Sugar Regulation 811 is to determine, pursuant to section 201 of the Sugar Act of 1943, as amended (hereinafter called the "act"), the amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1956 and to establish, pursuant to sections 202, 204 and 411 of the act, sugar quotas for the supplying areas in terms of short tons of sugar, raw value, equal to the quantity determined by the Secretary of Agriculture to be needed in 1956. This regulation also establishes pursuant to section 207 the quantity of queta that may be filled by direct-consumption sugar and pursuant to section 208, quotas of liquid sugar which may be entered into the continental United States.

The act requires that the Secretary shall revise the determination of sugar requirements at such times during the calendar year as may be necessary. It now appears that an increase in the requirements for the calendar year 1956 is necessary. The purpose of this amendment is to make such determination conform to the requirements indicated on the basis of the factors specified in section 201 of the act and to establish quotas in accordance with the provisions of the recently amended act, and to give effect to such quotas.

The quotas established herein differ from those in effect under Sugar Regulation 811, Amendment 3 (21 F. R. 5709), To permit areas for which larger quotas or prorations are hereby established to plan to market or to market in an orderly manner the larger quantity of sugar, it is essential that this amendment be made effective immediately. Therefore, it is hereby determined and found that compliance with the notice, procedure and effective date requirements of the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001), is impracticable, unnecessary and contrary to the public interest. The amendments made herein shall become effective upon publication in the FEDERAL REGISTER.

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1948, as amended (61 Stat. 922, 65 Stat. 318, 7 U. S. C. 1100, Public Law

545, 84th Congress), and the Administrative Procedure Act (60 Stat. 237), §§ 811.80, 811.81, 811.82, 811.84 (a) and 811.85 (b) (1) of Sugar Regulation 811, as amended (20 F. R. 9848; 21 F. R. 2805, 4653, 5709), are further amended to read as hereinafter set forth.

1. Section 811.80 is amended to read:

\$811.80 Sugar requirements, 1956. The amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1956 is hereby determined to be 8,675,000 short tons, raw value.

2. Section 811.81 is amended to read:

§ 811.81 Basic quotas for domestic areas. There are hereby established, pursuant to subsection (a) of section 202 of the act, for domestic sugar producing areas for the calendar year 1956 the following quotas:

	Quotas in
	terms of
	short tons,
Area:	raw value
Domestic beet sugar	1,884,975
Mainland cane sugar	580, 025
Hawaii	1,052,000
Puerto Rico	
Virgin Islands	. 12,000

3. Section 811.82 is amended to read:

\$ 811.82 Basic quotas for other areas. There are hereby established, pursuant to subsections (b) and (c) of section 202 of the act, for foreign countries for the calendar year 1956, the following quotas:

	Quotas in
	terms of
	ahort tons,
Area:	raw value
Republic of the Philippines	980,000
Cuba	2,949,300
Other foreign countries	122,890

4. Paragraph (a) of § 811.84 is amended to read as follows:

§ 811.84 Proration of quotas for foreign countries other than Cuba and the Republic of the Philippines—(a) Prorations. Pursuant to subsection (c) of section 202 of the act the 1956 quota for foreign countries other than Cuba and the Republic of the Philippines is hereby prorated, as adjusted to the extent required by section 411 of the act, as follows:

	Prorations as
	adjusted,
	short tons,
Country:	raw value
Dominican Republic	35,008
El Salvador	4, 141
Haiti	
Mexico	
Nicaragua	
Peru	
Unspecified countries	
Total	122, 890

5. Paragraph (b) (1) of § 811.85 is amended to read as follows:

§ 811.85 Direct-consumption portion of quotas or prorations.

(b) Other areas. (1) Pursuant to subsections (d), (e) and (h) of section 207 of the act, the quotas established in § 811.82 for the following listed areas may be filled by direct-consumption sugar not in excess of the following amount for each such area:

### RULES AND REGULATIONS

#### Direct-consumption sugar. short tons, raw value Republic of the Philippines .... 59,920 ---- 375,000 - 41, 783 Other foreign countries\_

Statement of bases and considerations-Requirements. In major outline the bases and considerations for this action are the same as those for the action taken on July 26, 1956, in increasing requirements to 8,625,000 short tons, raw value, except that certain features of the situation have intensified.

For the year through July 28 domestic deliveries by primary distributors amounted to 200,000 tons more than those for the corresponding period last year. Deliveries by beet processors, however, were 124,000 tons less for the period than a year earlier with the result that deliveries of cane sugar exceeded those for the corresponding period last year by 324,000 tons.

As of July 28 supplies of cane sugar remaining to be charged against all quotas were 177,000 tons less than charges after July 28, 1955, although this smaller quota balance is offset in part by larger inventories in the hands of refiners and importers.

Sugar beet processors had 202,000 tons more to deliver after July 28 than they delivered after that date in 1955. On July 1 they had approximately 140,000 tons more to deliver than they delivered during the last half of 1955.

Quotas. To give effect to the increase in total sugar requirements made effective by this order, amendments have been made to \$\$ 811.80, 811.81, 811.82, 811.84 and 811.85 of Sugar Regulation 811, pursuant to the respective sections of the act referred to in each of the sections of the regulation. These amendments to the regulation make the following changes: (1) the quotas for domestic areas are increased by 27,500 tons to total 4,622,750 tons, with the increase distributed 7.081 tons to the Domestic Beet Sugar Area, 6,669 tons to the Mainland Cane Sugar Area, and 13,750 tons to Puerto Rico; (2) the quotas for foreign countries other than the Republic of the Philippines are increased by 22,500 tons to 3,072,250 tons which is distributed among such foreign countries as provided in sections 202 (c) and 411 of the amended act: (3) the total direct-consumption portion of the quota for foreign countries other than Cuba and the Republic of the Philippines is increased by 306 tons.

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153)

### [Valencia Orange Reg. 81]

PART 922-VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALI-FORNIA

#### LIMITATION OF HANDLING

§ 922.381 Valencia Orange Regulation 81-(a) Findings. (1) Pursuant to the marketing agreement and Order No. 22, as amended (7 CFR Part 922; 21 F. R. 4392), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.: 68 Stat. 906, 1047), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seg.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Valencia **Orange** Administrative Committee held an open meeting on August 9, 1956, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting: the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) Order. (1) The quantity of Valencia oranges grown in Arizona and

designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., August 12, 1956, and ending at 12:01 a. m., P. s. t., August 19, 1956, is hereby fixed as follows:

(i) District 1: Unlimited movement;(ii) District 2: 785,400 cartons;

(iii) District 3: Unlimited movement,

(2) All Valencia oranges handled during the period specified in this section are subject also to all applicable size restrictions which are in effect pursuant to this part during such period.

(3) As used in this section, "handled," "handler." "District 1." "District 2." "District 3." and "carton" have the same meaning as when used in said marketing agreement and order, as amended.

### TITLE 24-HOUSING AND HOUSING CREDIT

Chapter I-Federal Home Loan Dank Board

Subchapter C-Federal Savings and Loan System [No. 9902]

PART 145-OPERATIONS

AMENDMENT LIBERALIZING LOAN PROVISIONS

AUGUST 7, 1956.

Resolved that, pursuant to Part 108 of the General Regulations of the Federal Home Loan Bank Board (24 CFR Part 108) and § 142.1 of the rules and regulations for the Federal Savings and Loan System (24 CFR 142.1), Part 145 of the rules and regulations for the Federal Savings and Loan System (24 CFR Part 145) is hereby amended as follows, effective August 7, 1956:

(1) The table of contents to Part 145 is hereby amended by striking out the language "145.6-7 Real estate loans and investments subject to 15-percent-ofassets limitation" and inserting in lieu thereof the language "145.6-7 Real estate loans and investments subject to 20-percent-of-assets limitation";

(2) The title of § 145.6-7 is hereby amended by striking out the language "15-percent-of-assets" and inserting in lieu thereof the language "20-percentof-assets";

(3) Section 145.6-7 is hereby amended by striking out the figure "15" and inserting in lieu thereof the figure "20";

(4) Section 145.8 is hereby amended by striking out in the first proviso the language "\$2,500" and inserting in lieu thereof the language "\$3,500".

Resolved further that, as these amendments only liberalize the terms and conditions under which Federal savings and loan associations are permitted to make or invest in certain loans, the Board hereby finds that notice and public procedure thereon are unnecessary under the provisions of § 108.12 of the general regulations of the Federal Home Loan Bank Board (24 CFR 108.12) or section 4 (a) of the Administrative Procedure Act and, as such amendments relieve restrictions, deferment of the effective date thereof is not required under section 4 (c) of said act.

MISCELLANEOUS AMENDMENTS TO CHAPTER

Subchapter B-Property Improvement Loans

#### PART 201-CLASS 1 AND CLASS 2 PROPERTY IMPROVEMENT LOANS

1. In § 201.1 paragraphs (i) and (p) are amended to read as follows:

§ 201.1 Definitions. \* \* \*

(i) "Borrower" means one who applies for and receives a loan in reliance upon the provisions of the Act and whose interest in the property to be improved is:

(1) A fee title, or

.

(2) A life estate, or

(3) A fee title or life estate subject to a mortgage, deed of trust, or other lien securing a debt, or

(4) A mutually binding contract for the purchase of the property where the borrower is rightfully in possession and the purchase price is payable in installments, or

(5) A lease having a fixed term, expiring not less than six calendar months after the maturity of the loan.

The borrower or borrowers shall have at least one-third of one of such interests in the property to be improved. .

.

(p) "Existing structure" means a residential structure completed and occupied at least 90 days prior to the application for the Title I loan or a structure for other than residential purposes which was a completed building with a distinctive functional use prior to the application for the Title I loan: Provided, That the requirement with respect to the period of occupancy and completion of a new residential structure shall not apply to loans having a principal amount, exclusive of financing charges, of \$600 or less or where such residential structures have been damaged in a disaster which the President, pursuant to section 2 (a) of Public Law 875, approved September 30, 1950, has determined to be a major disaster.

2. In § 201.2 paragraphs (c) and (d) (2) (i) are amended to read as follows:

#### § 201.2 Eligible notes. \* \* \*

(c) Payments. The note shall be payable in equal monthly installments. The first installment or the final installment may be more or less than the other installments provided that it is not less than one-half or more than one and onehalf times the amount of a regular installment. A note may not provide for a first payment more than two calendar months from the date of the note. However, if 51 percent or more of the income of the borrower is derived directly from

(Sec. 5, 48 Stat. 132, as amended; 12 U. S. C. the sale of agricultural crops, commodities, or livestock produced by him, a note may be made payable in installments corresponding to income periods shown on the Credit Application. In such cases, the first payment must be made within 12 months of the date of the note and at least one payment shall be made in each 12 months thereafter, provided that no two payments shall be more than 12 months apart, and the proportion of total principal to be paid in later years shall not exceed the proportion of total principal payable in earlier years.

(d) Maturity.
(2) Maximum.

(i) A Class 1 (a) or a Class 2 (a) loan having a principal amount, exclusive of financing charges, of \$600 or less is 3 years and 32 days from the date of the note: and a Class 1 (a) or a Class 2 (a) loan having a principal amount, exclusive of financing charges, of more than \$600 is 5 years and 32 days from the date of the note.

3. In § 201.3 paragraphs (a), (b) and (c) are amended to read as follows:

§ 201.3 Maximum amount of loans-(a) Class 1 (a) Ioan. A Class 1 (a) Ioan shall not involve a principal amount, exclusive of financing charges, in excess of \$3,500.

(b) Class 1 (b) Ioan. A Class 1 (b) loan shall not involve a principal amount, exclusive of financing charges, in excess of \$2,500 per dwelling unit in the improved structure and shall not exceed \$15,000.

(c) Class 2 loan. A Class 2 loan shall not involve a principal amount, exclusive of financing charges, in excess of \$3,500.

4. In § 201.4 paragraph (a) is amended to read as follows:

§ 201.4 Financing charges-(a) Maximum charge. The maximum permissible financing charges, exclusive of fees and charges as provided by paragraph (b) of this section which may be paid or collected for interest, discount, and fees of all kinds in connection with the transaction, shall be computed as follows:

(1) Class 1 and Class 2 loans, having a principal amount, exclusive of financing charges, not in excess of \$2,500 and having a maturity not in excess of 7 years and 32 days, may have a financing charge not in excess of an amount equivalent to \$5.00 discount per \$100 original face amount of a 1-year note, to be paid in equal monthly installments, calculated from the date of the note.

(2) Class 1 and Class 2 loans, having a principal amount, exclusive of financing charges, in excess of \$2,500 and a maturity not in excess of 7 years and 32 days, may have a financing charge equivalent to the total of (i) an amount, with respect to so much of the net loan proceeds as does not exceed \$2,500, equivalent to \$5.00 discount per \$100 original face amount of a 1-year note payable in equal monthly installments. plus (ii) an amount, with respect to any portion of the net loan proceeds in excess of \$2,500, equivalent to \$4.00 discount per \$100 original face amount of a 1-year note to be paid in equal monthly installments, calculated from the date of the note.

(3) Class 2 (b) Ioans, having a matu-rity in excess of 7 years and 32 days, shall not have a financing charge in excess of an amount equivalent to \$3.50 discount per \$100 original face amount of a one year note, to be paid in equal monthly installments, calculated from the date of the note.

(4) Such charges correctly based on tables of calculations issued by the Federal Housing Commissioner are deemed to comply with this section. An increase in the ratio of the charge to the average amount outstanding on the debt over the maximum provided in this section, which increase results from the first payment falling due less than 30 days after the date of the note, shall not be deemed to be in conflict with this section.

5. In § 201.7 paragraph (a) (1) is amended to read as follows:

§ 201.7 Eligible improvements—(a) Ineligible items. \* \*

(1) List of ineligible items. No part of the proceeds of a loan shall be used to finance any of the following items:

Barbecue pits. Bathhouses. Burgiar alarms. Burglar protection bars. Door opening and closing devices, Dumbwaiters. Fire alarms or fire detecting devices. Fire extinguishers. Flower boxes. Greenhouses (except commercial greenhouses). Hangars (airplane). Kennels. Outdoor fireplaces or hearths. Penthouses, Photo murals. Radiator covers or enclosures. Stands. Steam cleaning of exterior surfaces. Swimming pools. Television antennae. Tennis courts. Tree surgery. Valance or cornice boards, 6. In § 201.9 paragraph (b) (1) is amended to read as follows:

§ 201.9 Refinancing. . . .

(b) Maximum maturity. (1) A Class 1 (a) loan or a Class 2 (a) loan having a principal amount, exclusive of financing charges, of \$600 or less may be refinanced for an additional period not in excess of 3 years and 32 days from the date of the refinancing, but not to exceed 5 years from the date of the original note. A Class 1 (a) loan or a Class 2 (a) loan having a principal amount, exclusive of financing charges, of more than \$600 may be refinanced for an additional period not in excess of 5 years and 32 days from the date of the refinancing, but not to exceed 7 years from the date of the original note.

7. Section 201.10 is amended to read as follows:

§ 201.10 Report of loans. Loans shall be reported on the prescribed form to the Federal Housing Administration at Washington, D. C., within 15 days from the date of the note or date upon which It was purchased. Any loan refinanced as provided in § 201.9 shall likewise be reported on the prescribed form within

24

No. 156-3

15 days from date of refinancing. Any loan transferred as provided in § 201.12 (e) shall be reported on the prescribed form within 31 days from the date of such transfer. In any case, the Commissioner may, in his discretion, accept a late report.

8. In § 201.12 paragraph (c) 18 amended to read as follows:

§ 201.12 Insurance reserve. \* \* \*

(c) Adjustment of general reserve. After August 1, 1956, the amount of the general insurance reserve to the credit of each insured shall be adjusted on July 1 of each year by deducting therefrom an amount equivalent to 15 percent of the amount of such insurance reserve on the records of the Commissioner as of the date of such adjustment: Provided, That no such adjustment shall reduce the insurance reserve of any insured to an amount less than \$5,000: Provided further, That no such adjustment shall be made in the insurance reserve of any financial institution until the first day of July next following the expiration of a period of 30 months after the issuance of a contract of insurance to such institution by the Commissioner, and no such adjustment shall be made in the insurance reserve of any financial institution after the termination of the contract of insurance issued to such institution by the Commissioner, or after the termination of the Commissioner's authority to insure against losses pursuant to Title I of the National Housing Act.

9. In § 201.13 paragraphs (a), (b) and (d) (3) are amended to read as follows:

§ 201.13 Insurance charge-(a) Rate. The insured shall pay to the Commissioner an insurance charge equal to sixty-five one hundreds (0.65) of one percent per annum of the net proceeds of any eligible loan reported and acknowledged for insurance: *Provided*, That in the case of a Class 1 (b) loan in excess of \$3,500, exclusive of financing charges, and in the case of a Class 2 (b) loan having a maturity in excess of 7 years and 32 days, such insurance charge shall be forty-five one-hundredths (0.45) of one percent per annum. In computing the insurance charge, no charge shall be made for the fractional period of a month of 14 days or less, and a charge for a full month shall be made for the fractional period of a month of more than 14 days.

(b) When payable. Such insurance charge for the entire term of the loan shall be paid within 5 days after the date the Commissioner acknowledges receipt to the insured institution of the report of loan; Provided, That on loans having a maturity in excess of five years and 32 days, such charge may be paid in installments, the first of which shall be equal to the charge for 3 years and be paid within said 5 days, and the second and succeeding installments, each equal- to the charge for one year, shall be paid on the first and each succeeding anniversary of the first day of the month following the date of the note.

. (d) Refund or abatement. \* \* \*

.

(3) The charge paid on a loan or portion thereof found to be ineligible; but no refund shall be made unless a claim is denied by the Commissioner or the ineligibility is reported by the insured promptly upon discovery and an application for refund made. In no event shall charges be refunded where the application for refund is not made until after the loan is paid in full.

Subchapter C-Mutual Mortgage Insurance and Servicemen's Mortgage Insurance

PART 221-MUTUAL MORTGAGE INSURANCE : ELIGIBILITY REQUIREMENTS OF MORT-GAGE COVERING ONE- TO FOUR-FAMILY DWELLINGS

1. In § 221.17 paragraphs (a) (4), (5) and (b) are amended, and paragraph (a) (6) and (7) are added to read as follows:

§ 221.17 Maximum amount of mortgage and mortgagor's minimum investment. (a) \*\*\*

(4) 95 percent of \$9,000 of the appraised value of the property, as of the date the mortgage is accepted for insurance, and 75 percent of such value in excess of \$9,000, if the dwelling was approved for insurance prior to the beginning of construction, or if construction was completed more than one year preceding the date of the application for insurance; or

(5) 90 percent of \$9,000 of the appraised value of the property as of the date the mortgage is accepted for insurance, and 75 percent of such value in excess of \$9,000, if the dwelling was not approved for insurance prior to the beginning of construction and construction was completed within one year preceding the application for insurance.

(6) The percentages referred to in subparagraphs (4) and (5) of this paragraph shall be each reduced by 2 percent as long as this subparagraph shall remain in effect.

(7) An amount equal to 85 percent of any of the amounts computed under the provisions of this section if the mortgagor is not the occupant of the property.

(b) At the time the mortgage is insured the mortgagor shall have paid on account of the property at least five percent of the Commissioner's estimate of the cost of acquisition or such larger amount as the Commissioner may determine in cash or its equivalent: Provided, That with respect to a mortgage executed by a mortgagor who is 60 years of age or older as of the date the mortgage is accepted for insurance, the mortgagor may enter into a contract or agreement with a corporation or person satisfactory to the Commissioner, which contract may provide for the corporation or person to lend the mortgagor the payment required by this paragraph plus settlement costs including initial payments for taxes, hazard insurance, mortgage insurance premium and other prepaid expenses as determined by the Commissioner. Any such contract or agreement may require the mortgagor to give as security for the loan a note or other evidence of indebtedness which note or evidence of indebtedness may bear interest at a rate not in excess of

that permitted in the insured mortgage: *Provided further*. That the aggregate amount of the insured mortgage and the loan referred to in this paragraph shall not exceed an amount equal to 100 percent of the Commissioner's estimate of the appraised value of the property plus an amount equal to the settlement costs.

2. Section 221.18 is amended to read as follows:

§ 221.18 Payments and maturity dates. The mortgage should come due on the first of a month and must have a maturity satisfactory to the Commissioner not to be less than 10 nor more than 30 years from the date of the insurance; or three-quarters of the Commissioner's estimate of the remaining economic life of the building improvements, whichever is the lesser. The amortization period should be either 10, 15, 20, 25, or 30 years by providing for either 120, 180, 240, 300, or 360 monthly amortization payments.

3. In § 221.22 paragraph (b) is amended to read as follows:

§ 221.22 Mortgagor's payments to include other charges. \* \*

(b) Mortgages involving a principal obligation not in excess of \$6,650 may contain a provision requiring the mortgagor to pay to the mortgagee an annual service charge at such rate as may be agreed upon between the mortgagee and the mortgagor, but in no case shall such service charge exceed one-half of one percent per annum. Any such service charge shall be payable in monthly installments on the principal then outstanding.

4. In § 221.42 paragraph (f) is amended by changing the proviso at the end thereof to read as follows:

§ 221.42 Eligibility of miscellaneous type mortgages. \* \* \*

(f) \* \* \* Provided, That the principal obligation of any such mortgage shall not be in excess of \$12,000.

## Subchapter D-Multifamily and Group Housing

PART 232-MULTIFAMILY HOUSING INSUR-ANCE; ELIGIBILITY REQUIREMENTS OF MORTGAGE COVERING MULTIFAMILY HOUSING

1. In § 232.1 paragraph (d) is amended to read as follows:

§ 232.1 Information for preliminary examination.

(d) If an application is rejected before it is assigned for processing by the Commissioner, or in such other instances as the Commissioner may determine, the entire fee or any portion thereof may be returned to the applicant.

2. Section 232.4 is amended to read as follows:

-\$232.4 Maximum mortgage amounts---(a) Mortgage amount--pripate-mortgagors. A mortgage executed by a mortgagor of the character described in \$232.17 (a) may involve a principal obligation not in excess of the lesser of the following: (1) \$12,500,000;

(2) 90 percent of the estimated value (replacement cost if project is located in Alaska or in Guam) of the project;

(3) \$2,250 per room (or \$3,100 per famfly unit if the number of rooms in such project does not equal or exceed four per family unit) for such part of such project as may be attributable to dwelling use:

(4) The amount which the Commissioner estimates will be the cost of the completed improvements of the project exclusive of public utilities and streets and organization and legal expenses.

(b) Mortgage amount—public mortgagors. A mortgage executed by a mortgagor of the character described in § 232.17 (b) may involve a principal obligation not in excess of the lesser of the following:

(1) \$50,000,000;

(2) 90 percent of the estimated value (replacement cost if project is located in Alaska or in Guam) of the project.

(3) \$2,250 per room (or \$8,100 per family unit if the number of rooms in such project does not equal or exceed four per family unit) for such part of such project as may be attributable to dwelling use;

(4) The amount which the Commissioner estimates will be the cost of the completed improvements of the project exclusive of public utilities and streets and organization and legal expenses.

(c) Mortgage amount—elderly persons project. A mortgage, executed by a mortgagor of the character described in § 232.17 (c), covering a project specially designed for the use and occupancy of elderly persons (as defined in § 232.20 (c)) may involve a principal obligation not in excess of the lesser of the following:

(1) \$12,500,000;

(2) 90 percent of the amount which the Commissioner estimates will be the replacement cost of such project when the proposed physical improvements are completed.

(3) \$8,100 per family unit for such part of such project as may be attributable to dwelling use.

(d) Increased mortgage amount-elevator-type structures. With respect to a mortgage meeting the requirements of paragraphs (a) and (b) of this section and covering a project consisting of elevator-type structures, the Commissioner may, in his discretion, increase the dollar amount limitation of \$2,250 per room to not to exceed \$2,700 per room and the dollar amount limitation of \$8,100 per family unit to not to exceed \$8,400 per family unit, as the case may be, to compensate for the higher costs incident to construction of elevator-type structures of sound standards of construction and design.

(e) Increased mortgage amount—high cost areas. The Commissioner may, in any geographical area where he finds cost levels so require, increase the maximum dollar amount limitations per room set out in paragraphs (a) or (b) of this section by not to exceed \$1,000 per room. As to projects located in the Territory of Alaska, Guam, or Hawaii, if the Commissioner finds that because of high costs it is not feasible to construct dwellings without the sacrifice of sound standards of construction, design, and livability within the limitations of maximum mortgage amounts provided in this section, he may increase the maximum for the principal obligation of mortgages otherwise meeting the requirements of paragraphs (a), (b) and (c) of this section in such amounts as he shall find necessary to compensate for such high costs, but not to exceed, in any event, the maximum otherwise applicable by more than one-half thereof.

(f) Adjusted mortgage amount—rehabilitaton projects. A mortgage having a principal amount computed in compliance with the applicable provisions of paragraphs (a) to (e) of this section, and which involves a project to be repaired or rehabilitated, shall be subject to the following additional limitations:

(1) Property held in fee. If the mortgagor is the fee simple owner of the project, the maximum mortgage amount shall not exceed 100 percent of the Commissioner's estimate of the cost of the proposed repairs or rehabilitation; or

(2) Property subject to existing mortgage. If the mortgagor owns the project subject to an outstanding indebtedness, which is to be refinanced with part of the insured mortgage, the maximum mortgage amount shall not exceed: (1) The Commissioner's estimate of the cost of the proposed repairs or rehabilitation; plus (ii) such portion of the outstanding indebtedness as does not exceed 90 percent of the Commissioner's estimate of the fair market value of such land and improvements prior to completion of the proposed repair or rehabilitation; or

(3) Property to be acquired. If the project is to be acquired by the mortgagor and the purchase price is to be financed with a part of the insured mortgage, the maximum mortgage amount shall not exceed: (1) The Commissioner's estimate of the cost of the proposed repairs or rehabilitation; plus (ii) the actual purchase price of the land and improvements but not in excess of the Commissioner's estimate of the fair market value of such land and improvements prior to completion of the proposed repairs and rehabilitation.

(g) Reduced mortgage amount—leaseholds. The maximum mortgage amount based upon the limitations of this section is subject to reduction by an amount equal to the capitalized value of the ground rent in the event the mortgage is on a leasehold estate rather than on a fee simple holding.

 In § 232.17 paragraph (b) is amended, and a new paragraph (c) is added as follows;

#### § 232.17 Classification. \* \* \*

(b) Public mortgagors. A federal or state instrumentality, a municipal corporate instrumentality of one or more states, or a limited dividend or redevelopment or housing corporation formed under and restricted by federal or state laws or regulations of a state banking or insurance department as to rents, charges, capital structure, rate of return, or methods of operation; or

(c) Non-profit organizations as mortgagors. In the case of a mortgage of

14

the character described in § 232.4 (c) a financially qualified non-profit organization acceptable to the Commissioner. acceptable to the Commissioner, plus a

 Section 232.18 is amended by adding a new paragraph (d) as follows:

§ 232.18 In general. \* \* \*

(d) A mortgagor of the character described in § 232.17 (c) which cannot meet the requirements of paragraph (c) of this section shall execute a regulatory agreement or other contractual document, acceptable to the Commissioner, providing for supervision and regulation of such mortgagor.

5. Section 232.20 is amended to read as follows:

§ 232.20 Occupancy requirements-(a) Family with children. The mortgagor must certify under oath that in selecting tenants for the project covered by the mortgage, the mortgagor will not discriminate against any family by reason of the fact that there are children in the family; and that, the mortgagor will not sell the project while the mortgage insurance is in effect unless the purchaser also so certifies, such certifications to be filed with the Commissioner: Provided, That the provisions of this parsgraph shall not be applicable to a mortgagor of the character described in § 232.17 (c).

(b) Transient or hotel purposes. The mortgagor must certify under oath that, so long as the mortgage is insured by the Commissioner, the mortgagor will not rent, permit the rental or permit the offering for rental, of the housing, or any part thereof, covered by such mortgage for transient or hotel purposes. For the purpose of this certificate, rental for transient or hotel purposes shall mean (1) rental for any period less than 30 days, or (2) any rental, if the occupants of the housing accommodations are provided customary hotel services such as room service for food and beverages, maid service, furnishing and laundering of linen, and bellboy service.

(c) Elderly persons. A mortgagor under a mortgage of the character described in § 232.4 (c) shall certify under oath that so long as the mortgage is insured by the Commissioner, preference or priority of opportunity to occupy will be given to elderly persons, and that the mortgagor will not sell the project while the mortgage insurance is in effect unless the purchaser also so certifies, such certifications to be filed with the Commissioner. For the purpose of this part the term elderly person shall mean a person who is 60 years of age or older as of the date such person intends to occupy the premises, or a family the head of which (or his spouse) is an elderly person as defined herein.

6. In § 232.26 paragraph (b) is amended to read as follows:

\$232.26 Certificate of actual cost.

(b) When the work has been completed under a contract as described in \$232.25 (b), the mortgagor's certification shall be on the form prescribed therefor by the Commissioner and shall indicate all amounts as required in para-

cations of general overhead items as are acceptable to the Commissioner, plus a reasonable allowance for the builder's profit as established by the Commissioner. This form of certification shall be accompanied by a certification by the builder on the form prescribed therefor by the Commissioner, indicating all actual costs paid for labor, materials, and subcontract work under the general contract exclusive of the builder's fee and less any kickbacks, rebates, trade discounts, or other similar payments to the builder or mortgagor corporation or any of its officers, directors, or stockholders, The mortgagor shall keep and make available records as required in paragraph (a) of this section and shall in turn require the builder to keep available similar records.

Section 232.28 is amended to read as follows:

§ 232.28 Rehabilitation projects. In the event the mortgage is to finance repair or rehabilitation, the mortgagor's actual cost of such repair or rehabilitation may include the items of expense permitted for new construction in accordance with either paragraph (a) or paragraph (b) of § 232.26 and the applicable cost certification procedure described therein will be required; provided such mortgage shall be subject to the following limitations;

(a) Property held in fee. If no part of the proceeds is to be used to finance the purchase of the land or structures involved, the mortgage shall be reduced to an amount not to exceed 100 percent of the approved cost of the completed repair or rehabilitation.

(b) Property subject to existing mort-If the insured mortgage is to ingage. clude the cost of refinancing an existing mortgage acceptable to the Commissioner, the amount of the existing mortgage or 90 percent of the Commissioner's estimate of the fair market value of the repair or rehabilitation, of land and existing improvements prior to repair or rehabilitation, whichever is the lesser, shall be added to the actual cost of the repair or rehabilitation. If the principal obligation of the insured mortgage exceeds the total amount thus obtained, the mortgage shall be reduced by the amount of such excess, prior to final endorsement for insurance.

(c) Property to be acquired. If the mortgage is to include the cost of land and improvements, and the purchase price thereof is to be financed with part of the mortgage proceeds, the purchase price, or the Commissioner's estimate of the fair market value of land and existing improvements prior to repair or rehabilitation, whichever is the lesser, shall be added to the actual cost of the repair or rehabilitation. If the principal obligation of the insured mortgage exceeds the applicable statutory percentage of the total amount thus obtained, the mortgage shall be reduced by the amount of such excess, prior to final endorsement for insurance.

8. Section 232.29 is amended to read as follows:

§ 232.29 Requisites of agreement and certification. (a) Any agreement, undertaking, statement or certification required by § 232.26 shall specifically state that it has been made, presented, and delivered for the purpose of influencing an official action of the Federal Housing Administration, and of the Federal Housing Commissioner, and may be relied upon by the Commissioner as a true statement of the facts contained therein.

(b) Upon the Commissioner's approval of the mortgagor's certification as required by § 232.26 such certification shall be final and incontestable except for fraud or material misrepresentation on the part of the mortgagor.

(Sec. 211, 52 Stat. 23; 12 U. S. C. 1715b. Interpret or apply sec. 207, 52 Stat. 16, as amended; 12 U. S. C. 1713)

PART 241—COOPERATIVE HOUSING INSUR-ANCE: ELIGIBILITY REQUIREMENTS FOR PROJECT MORTGAGE

1. In § 241.1 paragraph (c) is amended, and new paragraphs (f), (g) and (h) are added, to read as follows:

§ 241.1 Definitions of terms as used in this part.

(c) The term "veteran" means a person who has served in the active military or naval service of the United States at any time on or after April 6, 1917 and prior to November 12, 1918, or on or after September 16, 1940 and prior to July 26, 1947, or on or after June 27, 1950, and prior to February 1, 1955.

(f) The term "veteran project" means a project, the mortgagor of which is a corporation or trust and at least 50 percent of the membership of the corporation or number of beneficiaries of the trust consists of veterans.

.

.

(g) The term "investor sponsored project" means a project, the mortgagor of which is a private corporation, association or trust entity which has certified in accordance with section 213 (a) (3) of the Act that it intends to sell such project to a nonprofit cooperative ownership housing corporation or trust qualifying as the mortgagor of a management type project.

(h) The term "approved percentage" means 85 percent in the case of an investor sponsored project; 90 percent in the case of a non-veteran project; and 95 percent in the case of a veteran project.

2. In § 241.3 paragraph (b) is amended by adding a new subparagraph (3) and paragraph (d) is amended as follows:

§ 241.3 Application and commitment fees.

(b) \* \* \*

.

.

.

(3) In the case of an investor sponsored project, the application and commitment fees to be paid under this section shall be based upon the commitment amount applicable to the owner of a management type project.

(d) If an application is rejected before it is assigned for processing by the Commissioner or in such other instances as the Commissioner may determine, the

.

.

entire fee or any portion thereof may be returned to the applicant.

 Section 241.7 is amended to read as follows:

\$ 241.7 Maximum mortgage amounts— (a) Management type non-veteran projects. A mortgage executed by the mortgagor of a management type nonveteran project may involve a principal obligation not in excess of the lesser of the following:

(1) \$12,500,000 (\$25,000,000 if the mortgage is executed by a mortgagor of the character described in § 241.20 (b));

(2) 90 percent of the amount which the Commissioner estimates will be the replacement cost of the project;

(3) \$2,250 per room (or \$8,100 per family unit if the number of rooms in such project averages less than four per family unit) for such part of such project as may be attributable to dwelling use, or with respect to a mortgage covering a project consisting of elevator-type structures, \$2,700 per room or \$8,400 per family unit.

(b) Management type veteran projects. A mortgage executed by the mortgagor of a management type veteran project may involve a principal obligation not in excess of the lesser of the following:

 \$12,500,000 (\$25,000,000 if the mortgage is executed by a mortgagor of the character described in § 241.20 (b));

(2) 95 percent of the amount which the Commissioner estimates will be the replacement cost of the project;

(3) \$2,375 per room (or \$8,550 per family unit if the number of rooms in such project averages less than four per family unit) for such part of such project as may be attributable to dwelling use, or with respect to a mortgage covering a project consisting of elevator-type structures, \$2,850 per room or \$8,900 per family unit.

(c) Investor sponsored projects. A mortgage executed by the mortgagor of an investor sponsored project may involve a principal obligation not in excess of the lesser of the following:

 \$12,500,000 (\$25,000,000 if the mortgage is executed by a mortgagor of the character described in § 241.20 (b));

(2) 85 percent of the amount which the Commissioner estimates will be the replacement cost of the project;

(3) \$2,250 per room (or \$8,100 per family unit if the number of rooms in such project averages less than four per family unit) for such part of such project as may be attributable to dwelling use, or with respect to a mortgage covering a project consisting of elevator-type structures, \$2,700 per room or \$8,400 per family unit.

(d) Sales type non-veteran projects. A mortgage executed by the mortgagor of a sales type non-veteran project may involve a principal obligation not in excess of the lesser of the following:

(1) \$12,500,000;

(2) The greater of the following amounts:

(1) A sum computed on the basis of a separate mortgage for each singlefamily dwelling comprising the project, equal to the total of each of the maxinum principal obligations of such mort-

gage which would meet the requirements of section 203 (b) (2) of the act if the mortgagor were the owner and occupant who had made any required payment on account of the property described in such section of the act; or

(ii) A sum equal to the maximum amount which does not exceed \$2,250 per room (or \$8,100 per family unit if the numer of rooms in such project averages less than four per family unit) for such part of such project as may be attributable to dwelling use but not in excess of 90 percent of the amount which the Commissioner estimates will be the replacement cost of the project.

(1) \$12,500,000;

(2) The greater of the following amounts:

(i) A sum computed on the basis of a separate mortgage for each single-family dwelling comprising the project, equal to the total of each of the maximum principal obligations of such mortgages which would meet the requirements of section 203 (b) (2) of the act if the mortgagor were the owner and occupant who had made any required payment on account of the property described in such section of the act; or

(ii) A sum equal to the maximum amount which does not exceed \$2,375 per room (or \$8,550 per family unit if the number of rooms in such project averages less than four per family unit) for such part of such project as may be attributable to dwelling use but not in excess of 95 percent of the amount which the Commissioner estimates will be the replacement cost of the project.

(f) Increased mortgage amount-high cost areas. The Commissioner may, in any geographical area where he finds cost levels so require, increase the maximum dollar amount limitations per room set out in the preceding paragraphs of this section by not to exceed \$1,000 per room. As to projects located in the Territory of Alaska, Guam, or Hawaii, if the Commissioner finds that because of high costs it is not feasible to construct dwellings without the sacrifice of sound standards of construction, design, and livability within the limitations of maximum mortgage amounts provided in this section, he may increase the maximum for the principal obligation of mortgages otherwise meeting the requirements of this paragraph in such amounts as he shall find necessary to compensate for such high costs, but not to exceed, in any event, the maximum otherwise applicable by more than one-half thereof.

(g) Adjusted mortgage amount—rehabilitation projects. A mortgage having a principal amount computed in compliance with the applicable provisions of the paragraphs (a) to (f) of this section, and which involves a project to be repaired or rehabilitated, shall be subject to the following additional limitations:

(1) Property held in fee. If the mortgagor is the fee simple owner of the project, the maximum mortgage amount shall not exceed 100 percent of the

Commissioner's estimate of the cost of the proposed repairs or rehabilitation; or

(2) Property subject to existing mortgage. If the mortgagor owns the project subject to an outstanding indebtedness, which is to be refinanced with part of the insured mortgage, the maximum mortgage amount shall not exceed: (i) The Commissioner's estimate of the cost of the proposed repairs or rehabilitation; plus (ii) such portion of the outstanding indebtedness which does not exceed the approved percentage of the Commissioner's estimate of the fair market value of such land and improvements prior to habilitation; or

(3) Property to be acquired. If the project is to be acquired by the mortgagor and the purchase price is to be financed with a part of the insured mortgage, the maximum mortgage amount shall not exceed: (1) The Commissioner's estimate of the cost of the proposed repairs or rehabilitation; plus (ii) the actual purchase price of the land and improvements but not in excess of the Commissioner's estimate of the fair market value of such land and improvements prior to completion of the proposed repairs and rehabilitation.

(h) Reduced mortgage amountleaseholds. The maximum mortgage amount based upon the limitations of this section is subject to reduction by an amount equal to the capitalized value of the ground rent in the event the mortgage is on a leasehold estate rather than on a fee simple holding.

invest-(i) Mortgagor's minimum ment-sales type projects. At the time a mortgage executed by a mortgagor of a sales type project is insured, the mortgagor shall have paid on account of the project at least 5 percent of the Commissioner's estimate of the cost of acquisition or such larger amount as the Commissioner may determine in cash or its equivalent and each member or stockholder of the mortgagor shall have paid the amount required by § 243.9 (b) of Part 243 of this subchapter. The amount required for working capital specified in § 241.26 may be included in the 5 percent payment required by this paragraph.

4. Section 241.10 is amended to read as follows:

§ 241.10 Interest rate. The mortgage shall bear interest, not exceeding 41/4 percent per annum, on the amount of the principal obligation outstanding at any time, as may be a greed upon between the mortgagor and the mortgagee.

5. In § 241.20 paragraph (a) <sup>15</sup> amended to read as follows:

§ 241.20 Eligibility of mortgagors. (a) In order to be eligible as a mortgagor under this part, an applicant must be the owner of:

(1) A management type project or a sales type project formed or created with the approval of the Commissioner and regulated or restricted by the Commissioner as to rents or sales, charges, capital structure, rate of return and methods of operation; or (2) An investor sponsored project formed or created with the approval of the Commissioner with the intention of providing housing for sale to the mortgagor of a management type project, and regulated by the Commissioner as to rents, charges, capital structure, rate of return, and methods of operation.

6. Section 241.31 is amended to read as follows:

§ 241.31 Mortgagors subject to regulation and restriction—(a) In general. Except as otherwise provided in this section, all mortgagors shall be subject to regulation and restriction by the Commissioner with respect to the matters set forth in this part. A mortgagor of the character described in § 241.20 (b) shall not be subject to regulation and restriction by the Commissioner with respect to matters set forth in §§ 241.24, 241.25, 241.29 and 241.30.

(b) Additional regulations and restrictions applicable to mortgagors of investor sponsored projects. In addition to the provisions of this part, the mortgagor of an investor sponsored project shall be subject to the provisions of \$232.19 (b) covering rate of return, \$232.19 (c) covering rents and charges, and \$232.25 covering form of contract of Part 232 of this subchapter. Such mortgagor shall not be subject to the provisions of §§ 241.30 (d) and 241.34.

7. Section 241.33 is amended to read as follows:

§ 241.33 Certification of cost requirements. Prior to initial endorsement for insurance of a mortgage executed by the mortgagor of a management type project or the mortgagor of an investor sponsored project, the mortgagor, the mortgagee, and the Commissioner shall enter into an agreement in form and content satisfactory to the Commissioner for the purpose of precluding any excess of mortgage proceeds over statutory limitations. Under this agreement the mortgagor shall disclose its relationship with the builder, including any collateral agreement, and agree to enter into a construction contract the terms of which shall depend on whether or not there exists an identity of interest between the mortgagor and the builder. The agreement shall require that upon completion of all physical improvements on the mortgaged property the mortgagor must execute a certificate of actual costs. The agreement shall further require that any excess of mortgage proceeds over statutory limitations based on actual cost shall be applied to reduction of the outstanding balance of the principal of the mortgage.

8. In § 241.34 paragraphs (a) and (b) are amended to read as follows:

\$ 241.34 Form of contract. \* \* \* (a) Non-identity of interest. If it is found by the Commissioner that: (1) no identity of interest exists between the mortgagor or any of its officers, directors or stockholders and the general contractor, and (2) a cost plus form of contract is not required in the interests of the Commissioner; there may be used a lump sum form of contract. (b) Identity of interest. If the Commissioner does not make the findings described in paragraph (a) of this section, the form of contract shall provide for payment of the actual cost of construction, not to exceed an upset price and may provide for payment of a specified builder's fee in addition thereto. The builder's fee shall not exceed a reasonable allowance therefor as established by the Commissioner, in accordance with customary practices in the area.

Section 241.35 is amended to read as follows:

§ 241.35 Certificate of actual cost. The mortgagor's certificate of actual cost shall be submitted upon completion of physical improvements to the satisfaction of the Commissioner and prior to final endorsement. Its content and requirements regarding verification are as follows:

(a) When the work has been completed under a lump sum contract the mortgagor's certification shall be on the form prescribed therefor by the Commissioner and shall indicate the amount actually paid under the construction contract after deduction of any kickbacks, rebates, trade discounts, or other similar payments to the mortgagor corporation, or to any of its officers, directors or stockholders; plus the cost to the mortgagor of architects' fees, off-site public utilities and streets not included in the general contract, organizational and legal work, and other items of expense approved by the Commissioner. For verification of these amounts the mortgagor shall keep and maintain adequate records of all costs of any construction or other cost items not representing work under the general contract and shall make available for examination such records, including any collateral agreements, upon request by the Commissioner.

(b) When the work has been completed under a cost plus contract the mortgagor's certification shall be on the form prescribed therefor by the Commissioner and shall indicate all amounts as required in paragraph (a) of this section, and such allocations of general overhead items as are acceptable to the Commissioner, plus a reasonable allowance for the builder's profit as estab-lished by the Commissioner. This form of certification shall be accompanied by a certification by the builder on the form prescribed therefor by the Commissioner, indicating all actual costs paid for labor, materials, and subcontract work under the general contract exclusive of the builder's fee and less any kickbacks, rebates, trade discounts, or other similar payments to the builder or mortgagor corporation or any of its officers, directors, or stockholders. The mortgagor shall keep and make available records as required in paragraph (a) of this section and shall in turn require the builder to keep available similar records.

(c) The certificates of actual cost shall be supported by a certificate as to accuracy by an independent Certified Public Accountant or independent public accountant, which shall include a statement that the accounts, records and supporting documents have been examined in accordance with generally accepted auditing standards to the extent deemed necessary to verify the actual costs.

10. Section 241.36 is amended to read as follows:

§ 241.36 Adjustment resulting from cost certification. Upon receipt of the mortgagor's certification of actual cost there shall be added to the total amount thereof the Commissioner's estimate of the fair market value of any land included in the mortgage security and owned by the mortgagor in fee, such value being prior to the construction of the improvements. In the event the land is held under a leasehold or other interest less than a fee, the cost, if any, of acquiring the leasehold or other interest is considered an allowable expense which may be added to actual cost, provided that in no event such amount is in excess of the fair market value of such leasehold or other interest exclusive of proposed improvements. If the principal obligation of the mortgage exceeds the approved percentage of this total amount, the mortgage shall be reduced by the amount of such excess prior to final endorsement for insurance.

11. Section 241.37 is amended to read as follows:

§ 241.37 Rehabilitation projects. In the event the mortgage is to finance repair or rehabilitation the mortgagor's actual cost of such repair or rehabilitation may include the items of expense permitted for new construction in accordance with either paragraph (a) or paragraph (b) of § 241.35 and the applicable cost certification procedure described therein will be required; provided such mortgage shall be subject to the following limitations:

(a) Property held in fee. If no part of the proceeds will be used to finance the purchase of the land or structures involved the mortgage shall be reduced to an amount not to exceed 100 percent of the approved cost of the completed repairs or rehabilitation.

(b) Property subject to existing mortgage. If the insured mortgage is to include the cost of refinancing an existing mortgage acceptable to the Commissioner, the amount of the existing mortgage or the approved percentage of the Commissioner's estimate of the fair market value, of land and existing improvements prior to repair or rehabilitation, whichever is the lesser, shall be added to the actual cost of the repair or rehabilitation. If the principal obligation of the insured mortgage exceeds the approved percentage of this amount, the mortgage shall be reduced by the amount of such excess, prior to final endorsement for insurance.

(c) Property to be acquired. If the mortgage is to include the cost of land and improvements, and the purchase price thereof is to be financed with part of the mortgage proceeds, the purchase price, or the Commissioner's estimate of the fair market value, of land and existing improvements prior to repair or rehabilitation, whichever is the lesser, shall be added to the actual cost of the repair or rehabilitation. If the principal obligation of the insured mortgage exceeds the approved percentage of this amount, the mortgage shall be reduced by the amount of such excess, prior to final endorsement for insurance.

12. Section 241.38 is amended to read as follows:

§ 241.38 Requisites of agreement and certification. (a) Any agreement, undertaking, statement or certification required by § 241.35 shall specifically state that it has been made, presented, and delivered for the purpose of influencing an official action of the Federal Housing Administration, and of the Federal Housing Commissioner, and may be relied upon by the Commissioner as a true statement of the facts contained therein.

(b) Upon the Commissioner's approval of the mortgagor's certification as required by § 241.35 such certification shall be final and incontestable except for fraud or material misrepresentation on the part of the mortgagor.

 The centered heading immediately preceding § 241.45 is amended to read as follows: "Other Eligible Mortgages."

Subchapter F—Rehabilitation and Neighborhood Conservation Housing Insurance

PART 266—HOME RELOCATION INSURANCE; ELIGIBILITY REQUIREMENTS OF MORT-GAGE COVERING SINGLE FAMILY DWELL-INGS

1. Section 266.5 is amended to read as follows:

§ 266.5 Maximum mortgage amount; dollar limitation. The dollar limitation on the amount of the mortgage to be insured is an amount not in excess of \$9,000, except that the Commissioner may increase this amount by not to exceed \$1,000 in any geographical area where he finds that cost levels so require. The dollar limitation is in addition to the loan-to-value limitation provided in § 266.6.

2. In § 266.6 paragraph (a) is amended to read as follows:

§ 266.6 Maximum mortgage amount; loan-to-value limitation. \* \* (a) the Commissioner's estimate of the appraised value of the property, as of the date the mortgage is accepted for insurance; or

3. Section 266.6a is amended to read as follows:

§ 266.6a Payments and maturity dates. The mortgage should come due on the first of a month and must have a maturity satisfactory to the Commissioner not to be less than 10 nor more than 40 years from the date of the insurance; or three-quarters of the Commissioner's estimate of the remaining economic life of the building improvements, whichever is the lesser. The amortization period should be either 10, 15, 20, 25, 30, 35, or 40 years by providing

for either 120, 180, 240, 300, 360, 420, or 480 monthly amortization payments.

4. Section 266.8 is amended to read as follows:

§ 266.8 Mortgagor's minimum investment. At the time the mortgage is insured, the mortgagor shall have paid on account of the property at least \$200 in cash or its equivalent, which may include amounts to cover settlement costs and initial payments for taxes, hazard insurance, mortgage insurance premium and other prepald expenses as determined by the Commissioner.

PART 268-MULTIFAMILY RELOCATION IN-SURANCE; ELIGIBILITY REQUIREMENTS OF MORTGACE

1. In § 268.1 paragraph (a) is amended by adding to, and changing, the headings of the listed provisions as follows:

§ 268.1 Incorporation by reference. (a) \* \* \*

§ 232.4 Maximum mortgage amounts.

§ 232.17 Classification.

§ 232.20 Occupancy requirements.

y zozza occupancy requirements.

\$ 232.31a Eligibility of mortgages on trailer courts or parks for trailer coach mobile dwellings.

2. Section 268.4 is amended to read as follows:

§ 268.4 Eligible mortgagors—private nonprofit entities. The mortgagor shall be a private nonprofit corporation or association or other acceptable private nonprofit organization, regulated or supervised under Federal or State laws or by political subdivisions of States or agencies thereof, or the Federal Housing Commissioner, as to rents, charges, and methods of operation. The regulation or supervision of the mortgagor must be in such form and in such manner as, in the opinion of the Commissioner, will effectuate the purposes of this part.

 Section 268.6 is amended to read as follows:

§ 268.6 Maximum mortgage amounts—(a) Limitation. A mortgage may involve a principal obligation not in excess of the lesser of the following:

(1) \$12,500,000;

(2) The Commissioner's estimate of the value of the project;

(3) \$9,000 per family unit for such part of such project as may be attributable to dwelling use.

(b) Adjusted mortgage amount—rehabilitation projects. A mortgage having a principal amount computed in compliance with this section, and which involves a project to be repaired or rehabilitated, shall be subject to the following additional limitations:

(1) Property held in fee. If the mortgagor is the fee simple owner of the project, the maximum mortgage amount shall not exceed 100 percent of the Commissioner's estimate of the cost of the proposed repairs or rehabilitation; or (2) Property subject to existing mortgage. If the mortgagor owns the project subject to an outstanding indebtedness, which is to be refinanced with part of the insured mortgage, the maximum mortgage amount shall not exceed: (i) The Commissioner's estimate of the cost of the proposed repairs or rehabilitation; and (ii) such portion of the outstanding indebtedness which does not exceed 90 percent of the Commissioner's estimate of the fair market value of such land and improvements prior to completion of the proposed repair or rehabilitation; or

(3) Property to be acquired. If the project is to be acquired by the mortgagor and the purchase price is to be financed with a part of the insured mortgage, the maximum mortgage amount shall not exceed: (i) The Commissioner's estimate of the cost of the proposed repairs or rehabilitation; and (ii) the actual purchase price of the land and improvements but not in excess of the Commissioner's estimate of the fair market value of such land and improvements prior to completion of the proposed repairs and rehabilitation.

4. Section 268.9 is amended to read as follows:

§ 268.9 Increased mortgage amounthigh cost areas. The Commissioner may, in any geographical area where he finds cost levels so require, increase the maximum dollar amount limitations per family unit, as set forth in § 268.6 to an amount not in excess of \$10,000 per family unit. As to projects located in the Territory of Alaska, Guam, or Hawaii, if the Commissioner finds that because of high costs it is not feasible to construct dwellings without the sacrifice of sound standards of construction, design, and livability within the limitations of maximum mortgage amounts provided in this section, he may increase the maximum for the principal obligation of mortgages otherwise meeting the requirements of this section in such amounts as he shall find necessary to compensate for such high costs, but not to exceed, in any event, the maximum otherwise applicable by more than onehalf thereof.

5. Part 268 is amended by adding a new § 268.9a as follows:

§ 268.9a Occupancy requirements— (a) Family with children. The mortgagor must certify under oath that in selecting tenants for the property covered by the mortgage, the mortgagor will not discriminate against any family by reason of the fact that there are children in the family, and that the mortgagor will not sell the property while the mortgage insurance is in effect unless the purchaser also so certifies, such certifications to be filed with the Commissioner.

(b) Transient or hotel purposes. The mortgagor must certify under oath that so long as the mortgage is insured by the Commissioner, the mortgagor will not rent, permit the rental, or permit the offering for rental, of the housing, or any part thereof, covered by such mortgage for transient or hotel purposes. For the purpose of this certificate, rental for transient or hotel purposes shall mean (1) rental for any period less than 30 days, or (2) any rental, if the occupants of the housing accommodations are provided customary hotel services such as room service for food and bevevages, maid service, furnishing and laundering of linen, and bellboy service. (Sec. 211, 52 Stat. 23; 12 U. S. C. 1715b. Interpret or apply sec. 221, 68 Stat. 599, as amended; 12 U. S. C. 17151)

Subchapter M-Military and Armed Services Housing Mortgage Insurance

PART 292a-ARMED SERVICES HOUSING IN-SURANCE: ELIGIBILITY REQUIREMENTS OF MORTGAGE

1. Section 292a.2 is amended to read as follows:

§ 292a.2 Certification by Secretary to Commissioner. Applications for mort-gage insurance will not be accepted unless there has been executed an instrument by the Secretary of Defense or his designee certifying to the Commissioner that the Secretary or his designee has met the requirements of section 803 (b) (2) of the National Housing Act, as amended.

2. In § 292a.7 paragraph (a) is amended to read as follows:

§ 292a.7 Maximum mortgage amount; replacement cost. (a) The mortgage shall involve a principal obligation not to exceed the amount which the Commissioner estimates will be the replacement cost of the property or project when the proposed improvements are completed including the replacement cost of ranges, refrigerators, shades, screens and fix-tures. Such cost may include the cost of the land, the physical improvements, and utilities within the boundaries of the property or project.

3. In § 292a.8 paragraph (a) is amended to read as follows:

§ 292a.8 Maximum mortgage amount; dollar limitation. (a) The mortgage shall involve a principal obligation in an amount not to exceed an average of \$16,500 per family unit for such part of the project as may be attributable to dwelling use including ranges, refrigerators, shades, screens and fixtures, less the amount of the Commissioner's estimated value of any usable utilities within the boundaries of the project where owned by the United States and not provided for out of the proceeds of the mortgage.

4. In § 292a.9 paragraph (a) is amended to read as follows:

§ 292a.9 Maximum mortgage amount: successful bid. (a) The mortgage shall involve a principal obligation not to exceed the amount of the successful bid of the eligible bidder of the project. The term "eligible bidder" means a person, partnership, firm, or corporation determined by the Secretary of Defense, after consultation with the Commissioner (1) to be qualified by experience and financial responsibility to construct housing of the type described and provided for under Title VIII of the National the lowest acceptable bid.

5. Section 292a.27 is amended to read as follows:

§ 292a.27 Completion assurance. Assurance for the completion of a project shall be a performance bond and a payment bond satisfactory to the Commissioner and the Secretary of Defense or his designee with the mortgagor and mortgagee as joint obligees.

6. In § 292a.39 the introductory text is amended to read as follows:

§ 292a.39 Title evidence. Upon insurance of the mortgage, the mortgagee, without expense to the Commissioner, shall furnish to the Commissioner, a survey satisfactory to him and such evidence of title as provided in this section, as the Commissioner may require.

PART 293a-ARMED SERVICES HOUSING INSURANCE; RIGHTS AND OBLIGATIONS OF THE MORTGAGEE UNDER THE INSURANCE CONTRACT

In § 293a.1 paragraph (g) is amended to read as follows:

§ 293a.1 Definitions. \* \* \*

(g) The term "State" includes the several States and Alaska, Hawaii, Puerto Rico, the District of Columbia, Guam, the Virgin Islands, the Canal Zone, and Midway Island.

- [DMS Regulation No. 1, Direction 9 of August 10, 1956]

#### DMS Rec. 1—BASIC RULES OF THE DEFENSE MATERIALS SYSTEM

DIR. 9-SPECIAL RULES REGARDING SHIP-MENTS BY STEEL PRODUCERS AGAINST AU-THORIZED CONTROLLED MATERIAL ORDERS

This direction under DMS Regulation No. 1 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because

the direction affects many different industries.

Sec. 1. What this direction does.

 Shipments by steel producers against certain authorized controlled material or-

ders. 3. Applicability of other regulations and or-

ders.

AUTHORITY: Sections 1 to 3 issued under sec. 704, 64 Stat. 816, as amended, sec. 1, P. L. 632, 84th Cong., 70 Stat. 408; 50 U. S. C. App. 2154. Interpret or apply sec. 101, 64 Stat. 799, as amended, sec. 705, 64 Stat. 816, as amended, sec. 1, P. L. 632, 84th Cong., 70 Stat. 408; 50 U. S. C. App. 2071, 2155; E. O. 10480, 18 F. SECTION 1. What this direction does. The purpose of this direction is to insure, so far as practicable, that all authorized controlled material orders for August or earlier delivery placed with steel mills whose production was suspended, are shipped not later than September 30, 1956.

SEC. 2. Shipments by steel producers against certain authorized controlled material orders. (a) The provisions of this section apply only to those producers of steel controlled materials whose production was suspended during the work stoppage which began during July 1956.

(b) A steel controlled materials producer who, prior to the effective date of this direction, has accepted an authorized controlled material order for steel calling for delivery on or before August 31, 1956, shall make shipment against such order as close to the requested delivery date as is practicable. In complying with this provision he may sched-· ule his production and shipments to fill such authorized controlled material orders in any sequence he desires: Provided, however, That shipment against all such authorized controlled material orders shall be made not later than September 30, 1956. To the extent that he is unable to make shipment by September 30, 1956, against any such authorized controlled material orders, he shall promptly notify BDSA, Iron and Steel Division, by letter or telegram, listing such orders.

SEC. 3. Applicability of other regulations and orders. The provisions of the DMS regulations, BDSA Order M-1A, and of any other BDSA regulations and orders as heretofore issued, including the directions and amendments thereto, are superseded to the extent to which they are inconsistent with the provisions of this direction. In all other respects the provisions of such regulations, orders, directions, and amendments shall remain in full force and effect.

This direction shall take effect August 10, 1956.

> BUSINESS AND DEFENSE SERVICES ADMINISTRATION, CHAS. F. HONEYWELL, Administrator.

### TITLE 33—NAVIGATION AND NAVIGABLE WATERS

#### Chapter I—Coast Guard, Department of the Treasury

Subchapter A-General

#### [CGFR 56-23]

PART 8-REGULATIONS, UNITED STATES COAST GUARD RESERVE

PHYSICAL EXAMINATIONS AND STANDARDS

By virtue of the authority contained in the act of July 9, 1952, (66 Stat. 481) as amended, and Title 14, U. S. Code, the following amendments are hereby prescribed and shall become effective upon publication in the FEDERAL REGISTER.

1. Section 8.1401 is hereby amended to read as follows:

§ 8.1401 Physical standards. The physical standards for appointment, enlistment, reappointment, reenlistment, promotion and retention of members of the Coast Guard Reserve shall be as set forth in the Coast Guard Medical Manual.

2. Paragraphs (a) and (b) of § 8.1403 are hereby amended to read as follows:

§ 8.1403 Persons authorized to conduct physical examinations. (a) Physical examinations of Reservists and of applicants for appointment, enlistment, or reenlistment shall, if practicable, be conducted by a board of at least two medical officers of the U. S. Public Health Service. If impracticable to assemble such a board, physical examinations shall be conducted by one medical officer of the U.S. Public Health Service. If such a medical officer is unavailable, physical examinations may be conducted by one medical officer of any component of the Armed Forces. In special cases, physical examinations may be conducted by a reputable civilian physician provided that, unless otherwise authorized, no expense to the government is incurred.

(b) A Reservist whose duties involve fiying shall be given a flight physical examination in accordance with the instructions and requirements contained in Chapter 3, Coast Guard Medical Manual.

 Section 8.1404 is hereby amended to read as follows:

§ 8.1404 Physical examination for short periods of training duty. (a) Notwithstanding any other provision of these regulations, a Reservist who is ordered or authorized to perform short periods of active duty, active duty for training or inactive duty training, with or without pay, of not more than seven days duration will establish physical qualifications incident thereto in one of the following manners:

(1) If the member indicates he has suffered injury, sickness, or disease since his last military physical examination, a physical examination complete in every respect shall be accomplished.

(2) If the member has not satisfactorily passed a military physical examination within one year, a physical examination pursuant to § 8.1407 (b) shall be accomplished.

(3) If the member has satisfactorily passed a military physical examination within one year and provided his certificate of physical condition indicates a satisfactory medical history, no physical examination will be required.

(b) Physical examination will not be required upon completion of such a period of training duty except when injury, sickness, or disease is incurred incident thereto. In such cases, a physical examination complete in every respect is required and appropriate entries shall be made in the health record and orders and required reports will be submitted.

4. Subparagraphs (2) and (7) of paragraph (a), and paragraph (b) of \$8.1406 are hereby amended to read as follows:

§ 8.1406 Reports and records of physical examinations. (a) \* \* \*

(2) Upon notification of promotion. This subparagraph applies only to Reserve officers not on active duty and in accordance with the following:

(i) Upon appointment to a higher grade for temporary service.

(ii) Upon permanent appointment to a grade higher than that in which serving.

(iii) In the case of a permanent appointment in a grade in which the Reserve officer is already serving for temporary service, the Commandant may waive physical examination and require instead submission of a certificate of physical condition.

(7) When indicated under § 8.1404. (b) Reservists on active duty shall undergo physical examinations in accordance with requirements for personnel of the Regular Coast Guard as set forth in the Coast Guard Medical Manual.

5. Paragraph (b) of § 8.1407 is hereby amended to read as follows:

§ 8.1407 Completeness of physical examinations. (a) \* \* \*

(b) Physical examinations pursuant to [8.1404 (a) (2) and, if the period of duty is not in excess of 30 days, pursuant to [8.1406 (a) (3) and (4) will be conducted as follows:

(1) The physical examination need only be sufficiently complete for the medical examiner to determine whether or not the Reservist is qualified to perform duties assigned and is free from infectious or contagious disease. Each Reservist so examined shall be required to execute a certificate of physical condition indicating a satisfactory medical history since the last military physical examination. The result of this examination shall be entered upon the Reservist's orders and in his health record if he is found to be physically qualified. The certificate of physical condition and the result of the examination may be entered upon the same report using such forms as the Commandant may require.

(2) If the Reservist is found not physically qualified, or if injury, sickness, or disease was incurred while performing active duty or during the interval since

No. 156-4

his preceding military physical examination, or if a quadrennial examination will become due within one year, a physical examination complete in every respect shall be accomplished and required reports shall be submitted.

(Sec. 4, 62 Stat. 605, as amended, 63 Stat. 545, sec. 251, 66 Stat. 495; 50 U. S. C. app. 454, 14 U. S. C. 633, 50 U. S. C. 1002)

#### Approved: June 20, 1956.

[SEAL] DAVID W. KENDALL, Acting Secretary of the Treasury.

Concurred in: July 18, 1956.

### TITLE 37—PATENTS, TRADE-MARKS, AND COPYRIGHTS

#### Chapter II—Copyright Office, Library of Congress

#### REVISION OF CHAPTER

As amended, parts 201 and 202 read as follows, effective upon publication in the FEDERAL REGISTER:

PART 201-GENERAL PROVISIONS

201.1 Communications with the Copyright Office.

201.2 Information given by the Copyright Office.

 201.3 Catalog of Copyright Entries.
 201.4 Assignments of copyright and other papers.

201.5 Amendments to completed Copyright Office registrations and other records,

201.6 Payment and refund of Copyright Office fees.

201.7 Preparation of catalog card.

201.8 Import statements.

AUTHORITY: \$\$ 201.1 to 201.8 issued under sec. 207, 61 Stat. 666; 17 U. S. C. 207.

§ 201.1 Communications with the Copyright Office. Mail and other communications shall be addressed to the Register of Copyrights, Library of Congress, Washington 25, D. C.

\$ 201.2 Information given by the Copyright Office—(a) In general. (1) Information relative to the operations of the Copyright Office is supplied without charge. A search of the records, indexes and deposits will be made for such information as they may contain relative to copyright claims upon application and payment of the statutory fee. The Copyright Office, however, does not undertake the making of comparisons of copyright deposits to determine similarity between works, nor does it give legal opinions or advice on such matters as:

 The validity or status of any copyright other than the facts shown in the records of the Office;

(ii) The rights of persons, whether in connection with cases of alleged copyright infringement, contracts between authors and publishers or other matters of a similar nature;

 (iii) Protection of works in foreign countries or interpretation of foreign copyright laws or court opinions; (iv) The sufficiency, extent or scope of compliance with the copyright law.

(2) In addition, the Office cannot undertake to furnish the names of copyright attorneys, publishers, agents, or other similar information.

(b) Inspection and copying of records. Inspection of the records, indexes and deposits may be made at such times as will not result in interference with or delay in the work of the Copyright Office. In connection with matters directly relating to copyrights and the rights of an author or proprietor in copyrighted property, copies may be made of the entries in the record books, the applications for registration after they have been passed for entry and numbered, the indexes to registrations, and similar official records of the Office. The copying from the Copyright Office records of names and addresses of copyright owners for the purpose of compiling mailing lists and other similar uses is expressly prohibited.

(c) Correspondence. (1) Official correspondence between copyright claimants or their agents and the Copyright Office, and directly relating to the registration of an application or to a recorded document, is made available for inspection by persons properly and directly concerned. Such persons who desire copies of the correspondence may obtain the same upon application to the Register of Copyrights, Library of Congress, Washington 25, D. C., and payment of the duplicating fees. The request for copies should identify the specific material desired and must contain a statement enabling the Office to determine whether the writer is properly and directly concerned.

(2) Correspondence relating either to a pending or a rejected application is considered to be of a confidential nature and is not available for inspection.

(3) The Copyright Office will return unanswered any abusive or scurrilous correspondence.

(d) Requests for copies. (1) Requests for copies of copyright deposits and Copyright Office records should be sent to the Chief, Photoduplication Service, Library of Congress, Washington 25, D. C., the accompanying fees in payment of such services being made payable to that official. When the copy is to be certified by the Copyright Office, the additional certification fee should be made payable to the Register of Copyrights and both remittances together with the transmittal letter are to be sent to the Copyright Office.

(2) Requests for copies of copyright deposits will be granted when one or more of the following conditions are fulfilled:

(i) Authorization by owner. When authorized in writing by the copyright owner or his designated agent.

(ii) Request by attorney. When required in connection with litigation, actual or prospective, in which the copyrighted work is involved; but in all such cases the attorney representing the actual or prospective plaintiff or defendant for whom the request is made shall give in writing: (a) The names of the parties and the nature of the controversy; (b) the name of the court where the action is pending, or, in the case of a prospective proceeding, a full statement of the facts of the controversy in which the copyright work is involved; and (c) satisfacfactory assurances that the requested copy will be used only in connection with the specified litigation.

(iii) Court order. When an order to have the copy made is issued by a court having jurisdiction of a case in which the copy is to be submitted as evidence.

§ 201.3 Catalog of Copyright Entries. The current subscription price for all parts of the complete yearly Catalog of Copyright Entries is \$20.00. Each part of the Catalog is published in two semiannual numbers covering, respectively, the periods January-June and July-December. The prices given in the list below are for each semiannual number. The Catalog may be obtained, upon payment of the established price, from the Register of Copyrights, Library of Congress, Washington 25, D. C., to whom requests for copies should be addressed and to whom the remittance should be made payable.

Part 1-Books and Pamphlets Including Serials and Contributions to Periodicals, \$2.50.

Part 2-Periodicals, \$1.00.

Parts 3-4-Dramas and Works Prepared for Oral Delivery, \$1.00.

Part 5A-Published Music, \$1.50. Part 5B-Unpublished Music, \$1.50.

Part 5C-Renewal Registration-Music, \$1.00.

Part 6-Maps and Atlases, \$0.50.

Parts 7-11A-Works of Art, Reproductions of Works of Art, Scientific and Technical Drawings, Photographic Works, Prints and Pictorial Illustrations, \$1.00.

Part 11B-Commercial Prints and Labels, \$1.00.

Parts 12-13-Motion Pictures and Filmstrips, \$0.50.

§ 201.4 Assignments of copyright and other papers. Assignment of copyright and other papers relative to copyrights will be recorded in the Copyright Office upon payment of the statutory fee. Examples of such papers include powers of attorney, licenses to use a copyrighted work, agreements between authors and publishers covering a particular work or works and the rights thereto, mortgages, certificates of change of coporate title, wills, and decrees of distribution. The original, signed instrument should be submitted for recordation, and is returned to the sender with a certificate of record. Where the original instrument is not available, a certified or other copy may be submitted, but it shall be accompanied by a statement that the original is not available.

§ 201.5 Amendments to completed Copyright Office registrations and other records-(a) No cancellations. No correction or cancellation of a Copyright Office registration or other record will be made (other than a registration or record provisional upon receipt of fee as provided in § 201.6) after it has been completed if the facts therein stated agree with those supplied the Office for the purpose of making such record. However, it shall be within the discre-tion of the Register of Copyrights to determine if any particular case justi-

fies the placing of an annotation upon any record for the purpose of clarification, explanation, or indication that there exists elsewhere in the records, indexes or correspondence files of the Office, information which has reference to the facts as stated in such record.

(b) Correction by new registration. In exceptional cases, where an applicant desires to correct, amend or amplify a registration previously made in accordance with information furnished by a claimant or his agent, a new application indicating its amendatory purpose shall be filed, accompanied by the statutory fee and the same number of copies required for a new application. Where it is satisfactorily established that copies of the original work cannot be obtained for submission, photostat or microfilm copies of the original may be submitted.

§ 201.6 Payment and refund of Copyright Office fees-(a) In general. All fees sent to the Copyright Office should be in the form of a money order, check or bank draft payable to the Register of Copyrights. Coin or currency sent to the Office in letters or packages will be at the remitter's risk. Remittances from foreign countries must be payable and immediately negotiable in the United States for the full amount of fee required. Uncertified checks are accepted subject to collection. Where the statutory fee is submitted in the form of a check, the registration of the copyright claim or other record made by the Office is provisional until payment in money is received. In the event the fee is not paid, the registration or other record shall be expunged.

(b) Deposit accounts. Persons or firms having a considerable amount of business with the Copyright Office may, for their own convenience, prepay copyright expenses by establishing a Deposit Account.

(c) Refunds. Money paid for applications which are rejected or payments made in excess of the statutory fee will be refunded, but amounts of twenty-five cents or less will not be returned unless specifically requested and such sums may be refunded in postage stamps. All larger amounts will be refunded by check.

(d) Return of deposit copies. Copies of works deposited in the Copyright Office pursuant to law are either retained in the Copyright Office, transferred for the permanent collections or other uses of the Library of Congress, or disposed of according to law. When an application is rejected, the Copyright Office reserves the right to retain the deposited copies.

§ 201.7 Preparation of catalog card. The catalog card which may accompany a work of foreign origin, as provided in section 215 of title 17, U.S. Code, as amended, may be a catalog card supplied by a library in the country of publication. In lieu of such a card the applicant may prepare his own card, or may fill out the form supplied by the Copyright Office. The catalog card should contain the full name of the author of the original work, title and description from the title page, paging, copyright claimant, the city and year of publica-

tion, and the names of all other authors, editors, etc., whom the applicant considers of sufficient importance to record. When available, the year of birth of each author named should be given. If the form furnished by the Office is not used. the size of the card should preferably be 5 inches wide by 3 inches deep or 12.5 centimeters wide by 7.5 centimeters deep. The Register of Copyrights reserves the right to accept catalog cards not complying with the above requirements.

§ 201.8 Import statements. The Copyright Office will issue import statements for books and periodicals first published abroad in the English language which are to be imported under the provisions of section 16 of title 17, U.S. Code, as amended. A statement for the importation of 1,500 copies will be issued to the person named in the application for ad interim copyright registration. The holder of this statement shall present it to the customs officer in charge at the port of entry. Upon receipt of a statement from the customs officer, showing importation of less than 1,500 copies, a new statement will be issued for the balance.

AUTHORITY: §§ 202.1 to 202.18 issued under sec. 207, 61 Stat. 666; 17 U. S. C. 207.

§ 202.1 Material not subject to copyright. The following are examples of works not subject to copyright and applications for registration of such works cannot be entertained:

(a) Words and short phrases such as names, titles, and slogans; familiar symbols or designs; mere variations of typographic ornamentation, lettering or coloring; mere listing of ingredients or contents:

(b) Ideas, plans, methods, systems, or devices, as distinguished from the particular manner in which they are expressed or described in a writing;

(c) Works designed for recording information which do not in themselves convey information, such as, time cards, graph paper, account books, diaries, bank checks, score cards, address books, report forms, order forms and the like;

(d) Works consisting entirely of information that is common property containing no original authorship, such as, for example; standard calendars, height and weight charts, tape measures and rulers, schedules of sporting events, and lists or tables taken from public documents or other common sources.

§ 202.2 Copyright notice-(a) General. (1) With respect to a published work, copyright is secured, or the right to secure it is lost, at the date of publication, i. e., the date on which copies are first placed on sale, sold, or publicly distributed, depending upon the adequacy of the notice of copyright on the work at that time.

(2) If publication occurs by distribution of copies or in some other manner, without the statutory notice or with an inadequate notice, the right to secure copyright is lost. In such cases, copyright cannot be secured by adding the notice to copies distributed at a later date.

(b) Defects in notice. Where the copyright notice does not meet the requirements of the law, the Copyright Office will reject an application for copyright registration. Common defects in the notice include, among others, the following:

(1) The notice lacks one or more of the necessary elements G. e., the word "Copyright", the abbreviation "Copr.", or the symbol ©; the name of the copyright proprietor; or, when required, the year date of publication) ;

(2) The elements of the notice are dispersed:

(3) The notice is not in one of the positions prescribed by law;

(4) The notice is in a foreign language: (5) The name in the notice is that of someone who had no authority to secure copyright in his name:

(6) Copyright was first secured by registration of a work in unpublished form, and copies of the same work as later published without change in substance bear a copyright notice containing a year date subsequent to the year date of the unpublished registration;

(7) A book published abroad, for which ad interim copyright has been obtained, is subsequently published in the United States without change in substance and contains a year date in the copyright notice subsequent to the year of first publication abroad;

(8) The year date in the copyright notice is subsequent to the date of actual publication (i. e., the work contains a post-dated notice) ;

(9) A notice is permanently covered so that it cannot be seen without tearing the work apart;

(10) A notice is illegible or so small that it cannot be read without the aid of a magnifying glass: Provided, however, That where the work itself requires magnification for its ordinary use (e.g., a microfilm, microcard or motion picture) a notice which will be readable when so magnified, will not constitute a reason for rejection of the claim;

(11) A notice is on a detachable tag and will eventually be detached and discarded when the work is put in use;

(12) A notice is on the wrapper or container which is not a part of the work and which will eventually be removed and discarded when the work is put in use:

(13) The notice is restricted or limited exclusively to an uncopyrightable element, either by virtue of its position on the work, by the use of asterisks, or by other means.

§ 202.3 Application forms 1-(a) In general. Section 5 of title 17 of the U.S. Code provides thirteen classes (Class A through Class M) of works in which copyright may be claimed. Examples of certain works falling within these classes are given in §§ 202.4 to 202.15 inclusive. for the purpose of assisting persons, who desire to obtain registration of a claim to copyright, to select the correct application form.

(b) Claims of copyright. (1) All works. deposited for registration shall be accompanied by a "claim of copyright" in the form of a properly executed application, together with the statutory registration fee.

(2) Where these separate elements are not received simultaneously, the Copyright Office holds the submitted elements for a reasonable time and, in default of the receipt of the missing element or elements after a request made therefor, the submitted item or items may be returned to the sender. Such action does not constitute a waiver of the right of the Register of Copyrights pursuant to section 14, title 17, U.S. Code, to demand compliance with the deposit provisions of that title.

(3) Applications for copyright registration covering published works should reflect the facts existing at the time of first publication, and should not include information concerning changes that have occurred between the time of publication and registration. The name given as copyright claimant in the application should agree with the name appearing in the copyright notice.

(4) Applications should be submitted by the copyright claimant, or by someone acting under his authority.

(c) Forms. The Copyright Office supplies without charge the following forms for use when applying for the registration of a claim to copyright in a work and for the filing of a notice of use of musical compositions on mechanical instruments.

Form A-Published book manufactured in the United States of America (Class A).

Form A-B Ad Interim-Book or periodical in the English language manufactured and first published outside the United States of America (Classes A-B).

Form A-B Foreign-Book or periodical manufactured and first published outside the United States of America, except works subject to the ad interim provisions of the copyright law of the United States of America (Classes A-B).

Form B-Periodical manufactured in the United States of America (Class B).

Form BB-Contribution to a periodical manufactured in the United States of America (Class B). Form C-Lecture or similar production

prepared for oral delivery (Class C).

<sup>1</sup>Filed as part of the original document.

Form D-Dramatic or dramatico-musical composition (Class D).

Form E-Musical composition the author of which is a citizen or domiciliary of the United States of America or which was first published in the United States of America (Class E).

Form E Foreign-Musical composition the author of which is not a citizen or domiciliary of the United States of America and which was not first published in the United States of America (Class E).

Form F-Map (Class F).

Form G-Work of art or a model or design for a work of art (Class G).

Form H-Reproduction of a work of art (Cinss H).

Form I—Drawing or plastic work of a scientific or technical character (Class I). Form J—Photograph (Class J).

Form K-Print or pictorial illustration (Class K)

Form KK-Print or label used for article

of merchandise (Class K). Form L-M-Motion picture (Classes L-M). Form R-Renewal of a copyright.

Form U-Notice of use of music on mechanical instruments.

§ 202.4 Books (Class A)-(a) Subject matter and forms. This class includes such published works as fiction and nonfiction, poems, compilations, composite works, directories, catalogs, annual publications, information in tabular form, and similar text matter, with or without illustrations, as books, either bound or in loose-leaf form, pamphlets, leaflets, cards, single pages or the like. Applications for registration of claims to copyright in published books manufactured in the United States of America are made on Form A; in books manufactured and first published outside of the United States of America, except those subject to the ad interim provisions of the copyright law, on Form A-B Foreign; and in books in the English language manufactured and first published outside the United States of America, and subject to the ad interim provisions of the copyright law, on Form A-B Ad Interim.

(b) Ad interim registrations. (1) An American edition of an English-language book or periodical identical in substance to that first published abroad will not be registered unless an ad interim registration is first made.

(2) When a book or periodical has been registered under the ad interim provisions, an American edition of the same work, to be registrable, must be manufactured and published in the United States within five years after the date of first publication abroad.

(3) Since by law ad interim copyright expires at the end of the ad interim term unless an American edition is published during that term, a renewal application covering a work registered only under the ad interim provisions will be rejected. Where both an ad interim and an American edition have been registered, the registrability of the renewal application is governed by the date of the first publication abroad.

§ 202.5 Periodicals (Class B). This class includes such works as newspapers, magazines, reviews, bulletins, and serial publications, published at intervals of less than a year. Applications for registration of claims to copyright in published periodicals manufactured in the United States of America are made on Form B; in periodicals, or in contributions thereto, manufactured and first published outside the United States of America, except those subject to the ad interim provision of the copyright law, on Form A-B Foreign; and in periodicals, or in contributions thereto. in the English language manufactured and first published outside of the United States of America, and subject to the ad interim provisions of the copyright law, on Form A-B Ad Interim. Applications for registration of claims to copyright in contributions to periodicals manufactured in the United States of America are made on Form BB. Application for registration of claims to copyright in contributions to periodicals, which contributions are prints published in connection with the sale or advertisement of an article or articles of merchandise, are made on Form KK.

§ 202.6 Lectures or similar productions prepared for oral delivery (Class This class includes the scripts of C). unpublished works prepared in the first instance for oral delivery, such as lectures, sermons, addresses, monologs, panel discussions, and variety programs prepared for radio or television. The script submitted for registration in Class C should consist of the actual text of the work to be presented orally. Formats, outlines, brochures, synopses, or general descriptions of radio and television programs are not registrable in unpublished form. When published with notice as prescribed by law, such works may be considered for registration as "books" in Class A.

§ 202.7 Dramatic and dramatico-musical compositions (Class D). This class includes published or unpublished works dramatic in character such as the acting version of plays for the stage, motion pictures, radio, television and the like, operas, operettas, musical comedies and similar productions, and pantomimes. Choreographic works of a dramatic character, whether the story or theme be expressed by music and action combined or by actions alone, are subject to registration in Class D. However, descriptions of dance steps and other physical gestures, including ballroom and social dances or choreographic works which do not tell a story, develop a character or emotion, or otherwise convey a dramatic concept or idea, are not subject to registration in Class D.

§ 202.8 Musical compositions (Class E). (a) This class includes published or unpublished musical compositions in the form of visible notation (other than dramatico-musical compositions), with or without words, as well as new versions of musical compositions, such as adaptations or arrangements, and editing when such editing is the writing of an author. The words of a song, when unaccompanied by music, are not registrable in Class E.

(b) A phonograph record or other sound recording is not considered a "copy" of the compositions recorded on it, and is not acceptable for copyright registration. Likewise, the Copyright Office does not register claims to ex-

clusive rights in mechanical recordings themselves, or in the performances they reproduce.

§ 202.9 Maps (Class F). This class includes all published cartographic representations of area, such as terrestrial maps and atlases, marine charts, celestial maps and such three-dimensional works as globes and relief models.

\$202.10 Works of art (Class G). (a) General: This class includes published or unpublished works of artistic craftsmanship, insofar as their form but not their mechanical or utilitarian aspects are concerned, such as artistic jewelry, enamels, glassware, and tapestries, as well as works belonging to the fine arts, such as paintings, drawings and sculpture.

(b) In order to be acceptable as a work of art, the work must embody some creative authorship in its delineation or form. The registrability of a work of art is not affected by the intention of the author as to the use of the work, the number of copies reproduced, or the fact that it appears on a textile material or textile product. The potential availability of protection under the design patent law will not affect the registrability of a work of art, but a copyright claim in a patented design or in the drawings or photographs in a patent application will not be registered after the patent has been issued.

(c) When the shape of an article is dictated by, or is necessarily responsive to, the requirements of its utilitarian function, its shape, though unique and attractive, cannot qualify it as a work of art. If the sole intrinsic function of an article is its utility, the fact that it is unique and attractively shaped will not qualify it as a work of art. However, where the object is clearly a work of art in itself, the fact it is also a useful article will not preclude its registration.

\$202.11 Reproductions of works of art (Class H). This class includes published reproductions of existing works of art in the same or a different medium, such as a lithograph, photoengraving, etching or drawing of a painting, sculpture or other work of art.

§ 202.12 Drawings or plastic works of a scientific or technical character (Class 1). (a) This class includes published or unpublished two-dimensional and threedimensional works which have been designed for a scientific or technical use and which contain copyrightable graphic, pictorial, or sculptural material. Works registrable in Class I include diagrams or models illustrating scientific or technical works or formulating scientific or technical information in linear or plastic form, such as, for example: a mechanical drawing, an astronomical chart, an architect's blueprint, an anatomical model, or an engineering diagram.

(b) A work is not eligible for registration as a "plastic" work in Class I merely because it is formed from one of the commonly known synthetic chemical derivatives such as styrenes, vinyl compounds, or acrylic resins. The term "plastic work" as used in this context

refers to a three-dimensional work giving the effect of that which is molded or sculptured. Examples of such works include statues of animals or plants used for scientific or educational purposes, and engineers' scale models.

§ 202.13 Photographs (Class J). This class includes published or unpublished photographic prints and filmstrips, silde films and individual slides. Photoengravings and other photomechanical reproductions of photographs are registered in Class K on Form K.

\$202.14 Prints, pictorial illustrations and commercial prints or labels (Class K). (a) This class includes prints or pictorial illustrations, greeting cards, picture postcards and similar prints, produced by means of lithography, photoengraving or other methods of reproduction. These works when published are registered on Form K.

(b) A print or label, not a trademark containing copyrightable pictorial matter, text, or both, published in connection with the sale or advertisement of an article or articles of merchandise is also registered in this class on Form KK. In the case of a print which is published in a periodical, use Form KK if the print is used in connection with the sale or advertisement of an article of merchandise, Form BB if it is not. Multipage works are more appropriately classified in Class A than in Class K.

(c) A claim to copyright cannot be registered in a print or label consisting solely of trademark subject matter and lacking copyrightable matter. While the Copyright Office will not investigate whether the matter has been or can be registered at the Patent Office, it will register a properly filed copyright claim in a print or label that contains the requisite qualifications for copyright even though there is a trademark on it. However, registration of a claim to copyright does not give the claimant rights available by trademark registration at the Patent Office.

§ 202.15 Motion pictures (classes L-M). A single application Form L-M is available for registration of works in Classes L (Motion Picture Photoplays) and M (Motion Pictures other than Fhotoplays).

(a) Photoplays (Class L). This class includes published or unpublished motion pictures that are dramatic in character and tell a connected story, such as feature films, filmed television plays, short subjects and animated cartoons having a plot.

having a plot. (b) Other than photoplays (Class M). This class includes published or unpublished non-dramatic films such as newsreels, travelogs, training or promotional films, nature studies, and filmed television programs having no plot.

§ 202.16 Deposit of photographs or other identifying reproductions in lieu of copies—(a) Availability of option. In the case of a published work which is reproduced in copies for sale, classified in Classes (g), (h), (i), and (k) of section 5, title 17, U.S. Code, copies of which are considered by the Register of Copyrights to be impracticable of deposit because of their size, weight, fragility, or monetary value, photographs or other identifying reproductions may be deposited in lieu of copies as provided by section 13, title 17, U. S. Code. The deposit of such photographs or reproductions shall be made in accordance with the following criteria:

(1) The number of sets of photographs or reproductions to be submitted shall be the same as the number of copies provided by said section 13. Each set shall consist of as many photographs or reproductions in black and white, or in color, as are necessary to identify the work.

(2) All photographs or reproductions of any one work shall be of equal size, not exceeding 9 x 12 inches, but preferably 8 x 10 inches, and shall present an image of the work not smaller than 4 inches in its greatest dimension. The exact measurement of at least one dimension of the work shall be indicated on at least one photograph of reproduction.

(3) The copyright notice and its position on the work must be clearly shown on at least one photograph or reproduction. If, because of the size or location of the copyright notice, a photographic reproduction cannot be prepared, a drawing may be submitted of the same size as the photographs or reproductions, showing the exact appearance of the notice, its dimensions, and its specific position on the work.

(4) The title of the work shall appear on the front or back of each photograph or reproduction.

(5) A copy shall be considered to be impracticable of deposit if, because of its size, weight, fragility or monetary value, it is unsuited to the filing procedures of the Copyright Office.

(b) Exceptions. The provisions of this section, permitting the deposit of photographs in lieu of copies in certain cases, shall not apply to fine prints and two-dimensional art reproductions. The Register of Copyrights reserves the right in any other particular case to require as a condition precedent to registration, the deposit of copies of the work as published.

\$ 202.17 Renewals. (a) Claims to renewal copyright must be registered within the last (28th) year of the original copyright term. The original term for a published work is computed from the date of first publication; the term for a work originally registered in unpublished form is computed from the date of registration in the Copyright Office. Unless the required application and fee are received in the Copyright Office during the prescribed period before the first term of copyright expires, copyright protection is lost permanently and the work enters the public domain. The Copyright Office has no discretion to extend the renewal time limits.

(b) Renewal claims may be registered only in the names of persons falling within one of the classes of renewal claimants specified in the copyright law. If the work was a new version of a previous work, renewal may be claimed only in the new matter.

Chapter I—Fish and Wildlife Service, Department of the Interior

### Subchapter F—Alaska Commercial Fisheries

PART 108-KODIAK AREA

#### CURTAILMENT OF FISHING

Basis and purpose. On the basis of light runs of pink salmon in the late streams of the Kodiak area, it has been determined that fishing should be curtailed.

Therefore, effective immediately upon publication in the FEDERAL REGISTER, §§ 108.3, 108.3a, 108.3b, 108.3c, 108.4, 108.5, and 108.5a are amended in text by deleting "August 13" and substituting in lieu thereof "August 11."

Since immediate action is necessary, notice and public procedure on this amendment are impracticable (60 Stat. 237: 5 U. S. C. 1001 et seq.).

FORMS FOR REGISTRATION STATEMENTS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposed revision of Form S-3 (§ 239.13) under the Securities Act of 1933. This form is used for registration of capital stock of any mining corporation which is engaged or intends to engage primarily in the exploration, development, or exploitation of mineral deposits, other than oil or gas, where the securities being registered are to be sold to the public for cash. The form is prescribed only for such companies which have no active subsidiaries or record of succession and, if in the production stage, have had only limited gross receipts from the sale of ore. The purpose of the proposed revision is to bring the form up to date and merge into it Form S-11 ( $\S 239.18$ ) which is also prescribed for mining companies in the exploratory or development stage. A copy of the proposed revision is attached hereto.<sup>4</sup>

All interested persons are invited to submit views and comments on the proposed form, in writing, to the Securities and Exchange Commission, Washington 25, D. C., on or before September 15, 1956. Except where it is requested that such communications not be disclosed, they will be considered available for public inspection.

FORMS FOR REGISTRATION STATEMENTS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposed revision of Form S-4 ( $\S$  239.14) under the Securities Act of 1933. This form is used for registration under that act of securities of closed-end management investment companies which are registered under the Investment Company Act of 1940 on Form N-8B-1 ( $\S$  274.11).

A registration statement on this form consists largely of certain of the information and documents which would be required in a registration statement under the Investment Company Act of 1940, if such a statement were currently being filed. Registrants on this form are thus permitted to base their registration statements under the 1933 Act in large part upon the information and documents filed with the Commission in the original registration statement under the 1940 Act and subsequent reports filed thereunder. This is supplemented by information and documents required for registration under the 1933 Act which have not been previously furnished under the 1940 Act.

Form S-4 is being revised at this time to bring it into line with the revised Form N-8B-1. A copy of the proposed revision is attached hereto.<sup>4</sup>

All interested persons are invited to submit their views and comments on the proposed form, in writing, to the Securities and Exchange Commission, Washington 25, D. C., on or before August 31, 1956. Except where it is requested that such communications not be disclosed, they will be considered available for public inspection.

### NOTICE OF PROPOSED RULEMAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U. S. C. 7805).

#### SUBPART A-SCOPE OF REGULATIONS

§ 212.1 Formulas for denatured alcohol. The regulations in this part, "Formulas for Denatured Alcohol" relate to formulas used for the denaturation of alcohol. The regulations give formulas for the production of specially and completely denatured alcohol, the specifications for denaturants, a listing of processes and products in which specially denatured alcohol is used and specific formulas authorized for each use, a listing of denaturants and the formulas in which used, and a table of weights of the formulas of specially denatured alcohol. The procedural and substantive requirements relative to the issuance of permits and to the production, disposition, and use of denatured alcohol are prescribed in Part 182 of this chapter.

§ 212.2 Forms prescribed. The Director, Alcohol and Tobacco Tax Division, is authorized to prescribe all forms required by this part, including bonds, applications, notices, reports, returns, and records. Information called for shall be furnished in accordance with the instructions on the forms or issued in respect thereto.

§ 212.3 Stocks of discontinued formulas. Denaturers or specially denatured alcohol dealers or users having on hand stocks of formulas of specially denatured alcohol no longer authorized by this part may (a) continue to supply or use such stocks in accordance with permits until the stocks are exhausted; (b) otherwise dispose of such stocks in a manner satisfactory to the Director, Alcohol and Tobacco Tax Division pursuant to an approved application; or (c) on approval by the assistant regional commissioner of an application to do so, destroy such stocks under such supervision as the assistant regional commissioner may prescribe.

#### SUBPART B-DEFINITIONS

§ 212.5 Meaning of terms. As used in this part, unless the context otherwise requires, terms shall have the meanings ascribed in this section.

Alcohol. "Alcohol" means that substance known as ethyl alcohol, ethanol, hydrated oxide of ethyl, or spirits of wine, from whatever source or process produced, having a proof of 160 degrees or more, but does not include the substances commonly known as whisky. brandy, rum, gin, or other spirits, produced at registered distilleries or fruit distilleries under Parts 220 and 221 of this chapter.

Assistant regional commissioner. "Assistant regional commissioner" means the assistant regional commissioner (alcohol and tobacco tax), who is responsible to, and functions under the direction and supervision of, the regional commissioner.

Commissioner. "Commissioner" means the Commissioner of Internal Revenue.

Completely denatured alcohol. "Completely denatured alcohol" means denatured alcohol in which the denaturants are of such a nature that such denatured alcohol may be sold and used within certain limitations without permit and bond.

Denaturant, "Denaturant" means a material which, when added to alcohol in accordance with formulas in this part. destroys its character as a beverage and renders it unfit for liquid medicinal purposes.

Denatured alcohol. "Denatured alcohol" means alcohol to which has been added denaturing material which destroys its character as a beverage and renders it unfit for liquid medicinal purposes.

Director, Alcohol and Tobacco Tax Division. "Director, Alcohol and Tobacco Tax Division" means the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Treasury Department, Washington, D. C.

Essential oil. "Essential oil" means one of the volatile odoriferous oils found in plants and imparting to the plants odor, and often other characteristic properties, and includes imitation essential olls, aromatic substances, and synthetic oils which possess the denaturing characteristics of essential oils.

Gallon. "Gallon" or "wine gallon" means a United States gallon of liquid measure equivalent to the volume of 231 cubic inches.

Includes and including. The terms "includes" and "including" when used in this part shall not be deemed to exclude other things otherwise within the meaning.

I.R.C. "I.R.C." means the Internal Revenue Code of 1954.

Manufacturer or user. "Manufac-turer" or "user" means a person who holds a permit to use specially denatured alcohol in any process or in the manufacturing of any substance, preparation, or product, including the product obtained by further manufacture or by combination with other materials; who recovers completely or specially denatured alcohol; or who'recovers articles containing denatured alcohol.

Proof. "Proof" means the ethyl alcohol content of a liquid at 60° Fahrenheit, stated as twice the percent of ethyl alcohol by volume.

Proprietary solvent. "Proprietary solvent" means a solvent containing more than 25 percent of alcohol by volume which is manufactured with specially denatured alcohol in accordance with a formula approved by the Director and is generally adopted for specific uses.

Regional commissioner. "Regional commissioner" means the regional commissioner of internal revenue in each of the internal revenue regions.

Rubbing alcohol compound. "Rubbing alcohol compound" means any product manufactured with specially denatured alcohol which is represented to be a "rubbing alcohol compound".

Secretary. "Secretary" means the Secretary of the Treasury.

Specially denatured alcohol. "Specially denatured alcohol" means denatured alcohol in which the denaturant or denaturants are of such a nature that such denatured alcohol may be used in a greater number of specified arts and industries than completely denatured alcohol, but, except as otherwise provided in Part 182 of this chapter, may be sold, possessed, and used only pursuant to permit and bond.

SUBPART C-COMPLETELY DENATURED ALCOHOL FORMULAS

\$ 212.10 General. Completely denatured alcohol will be denatured in accordance with formulas prescribed in this subpart.

§ 212.11 Formula No. 18. To every 100 gallons of ethyl alcohol of not less than 160° proof add:

2.50 gallons of methyl isobutyl ketone; 0.125 gallon of pyronate or a compound similar thereto:

0.50 gallon of acetaldol (b-hydroxybutyraldehyde); and 1.00 gallon kerosene.

§ 212.12 Formula No. 19. To every 100 gallons of ethyl alcohol of not less than 160° proof add:

4.0 gallons of methyl isobutyl ketone; and 1.0 gallon of kerosene.

#### SUBPART D-SPECIALLY DENATURED ALCOHOL FORMULAS AND AUTHORIZED USES

§ 212.15 General-(a) Formulas. Specially denatured alcohol will be denatured in accordance with formulas prescribed in this subpart. Alcohol of 190, 192, or 200 degrees of proof shall be used in the manufacture of all formulas of specially denatured alcohol, unless otherwise authorized by the Director, Alcohol and Tobacco Tax Division.

(b) Uses. Users and manufacturers holding approved Forms 1479-A covering manufacture of products or use in processes no longer authorized for a particular formula may continue such use. The Director, Alcohol and Tobacco Tax Division, may authorize, in his discretion, the use of any formula of specially denatured alcohol for uses not specifically authorized in this part. The code number before each item under "authorized uses" shall be used in reporting the use of specially denatured alcohol.

§ 212.16 Formula No. 1-(a) Formula. To every 100 gallons of alcohol add:

Five gallons wood alcohol.

Peppermint oil, U.S.P. Phenol, U.S.P Phenyl salicylate (salol), N. F. Pine oil, N. F. Pine needle oil, dwarf, N. F. Rosemary oil, N. F. Safrol, pure Sassafras oil, N. F. Spearmint oll, N. F. Spike lavender oil, natural (pure). Storax, U. S. P. Thyme oll, N. F. Thymol, N. F. Tolu balsam, U.S. P. Turpentine oil, N. F. Wintergreen oil (methyl salicylate), U. S. P.

Each ingredient and the amount used to make up the required 10 pounds of denatu-rants must be stated on Form 1479-A. Where it is shown that none of the above single denaturants or combinations can be used in the manufacture of a particular product, application may be made to use another essential oil or substance having denaturing properties satisfactory to the Director, Alco-hol and Tobacco Tax Division. In such case the applicant will furnish the Director, Alcohol and Tobacco Tax Division, with specifications and duplicate 8 ounce samples for examination.

(b) Authorized uses. (1) As a solvent:

- 111. Hair and scalp preparations.
- 113. Lotions and creams (hand, face and body).
- 114 Deodorants (body).
- 121. Perfumes and perfume tinctures. 122. Tollet waters and colognes.
- 131. Dentifrices.

#### SUBPART E-SPECIFICATIONS FOR **DENATURANTS**

§ 212.65 General. Denaturants prescribed in this part shall comply with the specifications set forth in this subpart: Provided, That, in order to meet requirements of national defense or for other valid reason, the Director, Alcohol and Tobacco Tax Division, may authorize variations from such specifications or authorize the use of substitute denaturants where such variation or substitution will not jeopardize the revenue.

§ 212.66 U.S.P. or N.F. Denaturing materials and products listed in this part as "U. S. P." or "N. F." shall meet the specifications set forth in the current United States Pharmacopea or National Formulary or the latest volume in which they appeared as official preparations. The designations "U. S. P." and "N. F." shall be considered interchangeable when preparations are transferred from one official publication to the other.

§ 212.67 Acetaldehyde.

Aldehyde content (as acetaldehyde). Not less than 95.0 percent by weight.

Color. Colorless. Odor. Characteristic pungent, fruity odor. Specific gravity at 15.56°/15.56° C. Not less than 0.7800.

#### § 212.68 Acetaldol.

Purity, Not less than 90 percent by weight acetaldol as determined by the following method:

Dissolve 15 grams of the acetaldol in distilled water and dilute to I liter in a rel-umetric flask. Transfer 5 ml. of this solution to a 250 ml. glass-stoppered flask containing 25 ml. distilled water. Add 25 ml. of freshly prepared 1 percent sodium bisuits solution. Prepare a blank omitting the acetaldol solution. Place the flasks in a dark place away from excessive heat or cold and allow to stand six hours. Remove flasks and titrate free bisulfite with 0.1 N. Iodine solution using starch indicator.

Percent acetaldol by weight

(ml. blank-ml. test) ×200×044 weight of sample

Titrations in excess of 100 percent may be obtained if the sample contains appreciable amounts of acetaldehyde. Specific gravity at 20° C. 1.098 to 1.105.

§ 212.69 Benzene.

Distillation range-(A. S. T. M. D-86-51) When 100 ml. of benzene are distilled by this method, not more than 1 ml. should distill below 77° C., and not less than 95 ml. below 85\* C.

Odor. Characteristic benzene odor.

Specific gravity at 15.6/15.6° C. 0.875 to 0.886.

Water solubility, When 10 ml. of benzene are shaken with an equal volume of water is a glass-stoppered cylinder, graduated to 0.1 ml., and allowed to stand 5 minutes to separate, the upper layer of liquid shall measure not less than 9.5 ml.

§ 212.70 Bone oil (Dipple's oil).

Color. The color shall be a deep brown. Distillation range. When 100 ml are di-tilled in the manner described for wood alcohol, not more than 5.0 ml. should distill below 90° C.

Pyrrol reaction. Prepare a 1.0 percent solution of bone oil in 95 percent alcohol Prepare a second solution containing 0.025 percent bone oil by diluting 2.50 ml. of the first solution to 100 ml, with 95 percent alcohol. Dip a splinter of pine, previously molatened with concentrated hydrochloric acid, into 10 ml. of the 0.025 percent bone After a few minutes the oil solution. distinct red splinter should show a coloration.

Add 5 Reaction with mercuric chloride. ml. of the 1.0 percent bone oil solution above to 5 ml. of a 2 percent alcoholic solution d mercuric chloride. A turbidity is formed at once which separates into a flocculent pre-Add cipitate on standing several minutes. 5.0 ml. of the 0.025 percent bone oil solution to 5.0 ml. of a 2.0 percent alcoholic solution of mercuric chloride. A faint turbidity appears after several minutes.

#### § 212.71 Brucine alkaloid.

Identification test. Add a few drops of concentrated nitric acid to about 10 mg. of brucine alkaloid. A vivid red color is pro-Dilute the red solution with a few duced. drops of water and add a few drops of freshly A made dilute stannous chloride solution. reddish purple (violet) color is produced.

Melting point. 178° C.  $\pm 1^{\circ}$ . Dry the alkaloid in an oven for one hour at 100° C. increase the temperature to 110" and dry to a constant weight before taking melting point.

Nore: Brucine alkaloid-4 H.O melts at 105" C. while the anhydrous form melts at 178° C.

Strychnine test. Brucine alkaloid shall be free of strychnine when tested by the method listed under Brucine Sulfate in the National Formulary, 9th Edition.

Nors: If the brucine contains as much as 0.05 percent strychnine, a clear distinctive violet color, characteristic of strychnine, will be obtained.

No white precipitate is Sulfate test. formed that is not dissolved by hydrochloric acid when several drops of a 1 N barium chloride solution are added to 10 ml. of a solution of the alkaloid.

1212.72 n-Butyl alcohol.

Acidity (as acetic acid). 0.03 percent by weight maximum.

Color, Colorless. Dryness at 20° C. Miscible without turbidity with 10 volumes of 60" Bé, gasoline.

Odor. Characteristic odor. Specific gravity at 20\*/20\* C. 0.810 to

1212.73 tert.-Butyl alcohol.

Acidity (as acetic acid). 0.003 percent by weight maximum.

Distillation range (A. S. T. M. D-1078-49-7). When 100 ml. of tertiary butyl alcohol are distilled, none should distill below 78° C. and none above 85° C. More than 95 percent should distill between 81"-83° C.

Dryness at 20" C. Miscible without turbidity with 19 volumes of 60\* Bé, gasoline.

Freezing point (first needle). Above 20° C. Identification test. Place 5 drops of a solution containing approximately 0.1 per-cent tertiary butyl alcohol in ethyl alcohol in a test tube. Add 2 ml. of Denige's reagent. (Dissolve 5 grams of red mercuric oxide in 20 ml. concentrated sulfuric acid. Add this solution to 80 ml. of distilled water, and filter when cool.) Heat the mixture just to the bolling point and remove from the flame. A yellow precipitate forms within a few seconds.

Non volatile matter. Less than 0.005 percent by weight.

Odor. Characteristic odor.

Residual odor after evaporation. None. Specific gravity at 25\*/25\* C. 0.780 to 0.786.

## \$212.74 Chloroform.

Odor. Characteristic chloroform odor, Specific gravity at 25°/25° C. Not less than 1.400.

## § 212.75 Diethyl phthalate.

Color, Colorless.

Distillation range (A. S. T. M. D-1078-49). When 100 ml. of diethyl phthalate are distilled by this method none should distill, below 290\* C. and none above 297\* C.

Ester content (as diethyl phthalate). Not less than 99 percent by weight.

Nors: The sample taken for ester determination should be approximately 0.8 gram. The number of ml. of 0.5N KOH used in saponification multiplied by 0.05555, indicates the grams of ester in the sample taken for assay,

Odor Practically odorless.

Solubility. Soluble in 2 parts of 60 percent alcohol.

Specific gravity at 25°/25° C. 1.115 to 1.118.

## § 212.76 Ethyl acetate.

Acidity (as acetic acid). Not more than 0.015 percent by weight. Color. Colorless.

Distillation range (A. S. T. M. D-1078-49-T). When 100 ml. of ethyl acetate are distilled by this method none shall distill below

To\* C.; not more than 10 ml. shall distill below 72° C., and none above 80° C. Ester content. Not less than 85 percent by weight.

Odor. Characteristic ethyl acetate odor.

Specific gravity at 20°/20° C. Not less than 0.885.

## § 212.77 Ethyl ether.

Odor. Characteristic odor.

Specific gravity at 15.56"/15.56" C. Not more than 0.728.

§ 212.78 Gasoline.

Distillation range (A. S. T. M. D-86-53). When 100 ml. of gasoline are distilled none shall distill below 90° F. Not more than 5 ml. shall be collected below 140° F., and not less than 50 ml. shall distill below 230" F.

§ 212.79 Kerosene.

Distillation range (A. S. T. M. D-86-53). No distillate should come over below 340" F. and none above 570° F. Flash point. 115° F. minimum.

Odor. Characteristic kerosene odor.

§ 212.80 Methyl alcohol.

For making Specially Denatured Alcohol Formula No. 3A.

Acctone content. 4.0 percent by weight maximum.

Purity. Commercially pure grade or better. Specific gravity at 15.56\*/15.56\* C. 0.810 maximum.

For making Specially Denatured Alcohol Formula No. 30.

Acetone content. Trace or none.

Purity. Chemically pure grade. Specific gravity at 15.56\*/15.56\* C. 0.799 maximum,

§ 212.81 Methyl isobutyl Letone.

Acidity (as acetic acid). 0.02 percent by weight, maximum.

Color. Colorless. Distillation range (A. S. T. M. D-1078-49T). No distillate should come over below 111° C. and none above 117\* C.

Odor. Characteristic methyl isobutyl ketone odor.

Specific gravity at 20\*/20\* C. 0.799 to 0.804.

#### § 212.82 Nicotine solution.

Composition: Five gallons of an aqueous solution containing 40 percent nicotine; 3.6 av. oz. methylene blue N. F.; water sufficient to make 100 gallons.

Color. One ml. of the nicotine solution (previously agitated in the presence of air) is measured into 100 ml, of water and thoroughly mixed. Fifty ml, of this colored solution is compared, using Nessler tubes, with 50 ml. of a standard color solution containing 5 grams of CuSO, 5H.O, C. P. in 100 ml. of water. The color intensity of the solution tested should be equal to or greater than that of the standard solution.

Nicotine content. The above solution must contain not less than 1.88 percent of nicotine determined by the following process: 20 ml. of the solution are measured into a 500 ml. Kjeldahl flask provided with a suitable bulb tube, 50 ml. of 0.1 N NaOH added and the mixture distilled in a current of steam until the distillate is no longer alkaline (about 500 ml.). The distillate is then titrated with 0.1 N H<sub>2</sub>SO<sub>4</sub> using rosolic acid or methyl red as indicator. Not less than 23.2 ml. should be required for neutralization.

#### § 212.83 Pyridine bases.

Alkalinity. One ml. of pyridine bases dissolved in 10 ml. of water is titrated with N H.SO, until a drop of the mixture placed upon Congo paper shows a distinct blue border, which soon disappears. A minimum of 9.5 ml, of the acid must be required for the end point. (Congo paper: filter paper treated with 0.1 percent aqueous solution of Congo red and dried.)

Distillation range. 100 ml. of the denatur-ant are distilled in the same apparatus prescribed for wood alcohol. At least 50 ml. must distill at or below 140° C, and at least 90 ml. below 160° C.

Reactions. Dissolve 1 ml. of pyridine bases in 100 ml. of water. (a) 10 ml. of this solu-tion are treated with 5 ml. of 5 percent

aqueous solution of anhydrous fused CaCl, and the mixture vigorously shaken. An abundant crystalline separation should occur within 10 minutes.

(b) 10 ml. of the pyridine solution mixed with 5 ml. of Nessler's reagent must give a white precipitate.

Water content. 20 ml. of pyridine bases are shaken with 20 ml. of a caustic soda solution having a specific gravity of 1.40  $(15.56^{\circ}/15.56^{\circ} C.)$  and the mixture allowed to stand until completely separated into two layers. The amount of the pyridine base layer should be 18.5 ml., minimum,

#### § 212.84 Puronate.

Pyronate is a product of the destructive distillation of hardwood meeting the following requirements:

Acidity (as acetic acid). Not more than 0.1 percent by weight, determined as follows: Add 5.0 ml. sample to 100 ml. distilled water in an Erlenmeyer flask and titrate

with 0.1 N NaOH to a bromthymol blue endpoint. Color. The color shall be no darker than

the color produced by 2.0 grams of potassium dichromate in 1 liter of water. The comparison shall be made in 4 oz, oil sample Distillation range—(A. S. T. M. D-1078-49).

When 100 ml. are distilled not more than 5 ml. shall distill below 70° C., and not less than 50 ml. below 160° C., and not less than 90 ml. below 205" C. Nore: Any material submitted as pyronate

must agree in color, odor, taste and denatur-ing value with a standard sample furnished by the Alcohol and Tobacco Tax Division, Internal Revenue Service, to chemists authorized to examine samples of denaturants.

§ 212.85 Rubber hydrocarbon solvent.

Rubber hydrocarbon solvent is a petroleum derivative:

Distillation range—(A. S. T. M. D-86-53). When 10 percent of the sample has been distilled into a graduated receiver, the mometer shall not read more than 162° F. nor less than 120° F. When 90 percent has been recovered in the receiver the thermometer shall not read more than 250° F.

§ 212.86 Shellac (refined).

Arsenic content. None as determined by the Marsh Method or Gutzeit Method.

Color. White or orange. Rosin content. None when tested by the following method: Add 20 ml. of absolute alcohol or glacial acetic acid (m. p. 13° to 15° C.) to 2 grams of the shellac and thoroughly dissolve. Add 100 mL of petroleum ether and mix thoroughly. Add approxi-mately 2 liters of water and separate a portion of the ether layer (at least 50 ml.) and filter if cloudy. Evaporate the petroleum ether and test as follows: Solution A-5 ml. phenol dissolved in 10 ml. carbon tetra-chloride. Solution B-1 ml. bromine dis-solved in 4 ml. carbon tetrachloride. To the residue obtained above add 2 ml. of Solution A and transfer the mixture to a porcelain spot plate, filling one cavity. Immediately fill an adjacent cavity with Solution B. Cover the plate with a watch glass and observe any color formation in Solution A. A decided purple or deep indigo blur color is an indication of the presence of rosin.

#### § 212.87 Sodium (metallic).

Color. Silvery-white (metallic luster) when freshly cut.

Identification test. Clean a platinum wire by dipping it in concentrated hydrochlorio acid and holding it over a Bunsen burner until the flame is no longer colored. Moisten the wire loop with hydrochloric acid and dip it into the sample. Hold the wire in the Bunsen flame and note the color. Sodium

produces a golden yellow fiame; not observed when viewed through a cobalt glass. Purity. Technical grade or better.

\$ 212.88 Sucrose octa-acetate.

Sucrose octa-acetate is an organic acetylation product occurring as a cream-colored, nonhydroscopic powder, having an intensely bitter taste.

Free acid (as acetic acid). Maximum percentage 0.15 by weight when determined by the following procedure: Dissolve 1.0 gram of sample in 50 ml, of neutralized ethyl alcohol (or SDA No. 30) and titrate with 0.1 N sodium hydroxide using phenolphthalein indicator.

Percent acid as acetic acid

ml. NaOH used ×0.6 weight of sample

Insoluble matter. 0.30 percent by weight

maximum.

Maximum. Melting point. Not less than 78.0° C. or more than 84.0° C. *Purity.* Sucrose octa-acetate 98% mini-mum by weight when determined by the following procedure: Transfer a weighed 1.50 gram sample to a 500 ml. Erlenmeyer flask containing 100 ml. of neutral ethyl alcohol (or SDA No. 30) and exactly 50.0 ml. of 0.5 N sodium hydroxide. Reflux for one hour on a steam bath, cool and titrate the excess sodium hydroxide with 0.5 N sul-furic acid using phenolphthalein indicator.

Percent sucrose octa-acetate

(ml. NaOH-ml. H.SO.) ×4.2412 weight of sample

#### § 212.89 Vinegar.

Acidity (as acetic acid). 9.0 percent by weight, minimum,

#### § 212.90 Wood alcohol.

The wood alcohol submitted must be a partially purified distillate from crude wood alcohol obtained only by the destructive distillation of wood. It may be a blend of these distillation fractions commonly known as the methyl acetone, methyl alcohol, and allyl fractions. This blend shall consist in its entirety of all or portions of each of the fractions.

A mere physical mixture of the essential chemical constituents will not be approved nor will the addition of water subsequent to distillation in order to make the specific gravity conform to the specifications. It is the intent of these specifications that the chemical findings outlined below shall be due only to those impurities or ingredients naturally formed in the course of the destructive distillation of wood and that the extent of the presence of such impurities or ingredients be due entirely to their natural occurrence in the fractions mentioned above.

Accione. Not less than 10.0 grams nor more than 20.0 grams of acetone and other substances estimated as acetone per 100 ml. of sample when tested by the following method: One ml. of a mixture of 10 ml. wood alcohol and 90 ml. of water is treated with 10 ml. of 2 N sodium hydroxide solution. To this mixture is added, with shaking, 50 ml. of 0.1 N iodine solution. After standing for fifteen minutes the solution is acidified with dilute sulfuric acid. The excess iodine is titrated with 0.1 N sodium thiosulfate solution using 1-2 ml. starch indicator. From 10.3 to 20.7 ml. of 0.1 N lodine solution should be required by the sample. The test should be made at a temperature between 15" and 20° C.

#### Calculation:

X=grams of acetone in 100 ml. sample. ml. of 0.1 N lodine solution required. N=ml. of sample taken for titration.

It is recommended that a blank be run with each test using a solution of 16 grams of acetone, C. P., made up to 100 ml. with absolute methanol. The difference between the known value and the titrated value of the blank is added to the amount of acetone found in the sample.

Color. Not darker than a freshly prepared solution of 2 ml. of 0.1 N lodine diluted to one liter with distilled water.

Distillation range (at 760 mm.) Of a 100 ml. sample taken, 90 ml. or more distil-late shall be collected at a temperature not exceeding 75° C, when distilled in the fol-lowing manner: The sample is placed in a short-necked glass flask of about 200 ml. capacity which is rested on an asbestos plate having a circular opening of 30 mm. in di-ameter. The neck of this flask is fitted with a frationating tube 12 mm. in diameter and 170 mm. long and having a bulb just 1 cm. below the side tube which is connected with a Liebig condenser having a water jacket not less than 400 mm. in length. A standard-ized thermometer is placed in the fractionating tube so that the mercury bulb is suspended in the center of the fractionating bulb. Heat is applied slowly and in such manner that 5 ml, of distillate is collected per minute in a graduated cylinder.

Correction may be made for variations in Correction may be made for variations in barometric pressure by allowing 1° C. for each variation of 30 mm. from normal (760 mm.). Thus, at 770 mm., 90 ml. should have distilled at 75.3° C. and at 750 mm., 90 ml. should have distilled at 74.7" C.

Esters (as methyl acetate). Not less than 3 nor more than 10 grams per 100 ml. when determined as follows: Dilute 10 ml. of wood alcohol to 500 ml. with distilled water and agitate until thoroughly mixed. Transfer 100 ml. of this mixture to a 500 ml. flask, Transfer neutralize free acid, add 50 ml. excess 0.1 N sodium hydroxide (carbonate free) connect flask with air-cooled condenser about 2 feet in length, heat for two hours on a steam bath, allow to cool and titrate excess alkali with 0.1 N sulfuric acid, using phenolphthalein indicator solution.

#### Calculation:

M=grams of methyl acetate per 100 ml. of sample.

V=ml. of sample titrated (2 ml. in this case).

B=ml. of 0.1 N sodium hydroxide solution required.

Then B(0.0074)×100 3.5v

Miscibility with water (25° to 30° C.). No distinct separation of an oily layer shall be observed three minutes after mixing with twice its volume of water.

Pyroligneous bodies (by bromine adsorp-tion). It must contain such a quantity of pyroligneous bodies (derived entirely from the methyl acetone, methyl alcohol and allyl fractions) that not less than 14 ml. nor more than 21 ml. shall be required to de-colorize a standard solution containing 0.5 gram of bromine prepared as follows: Transfer 12.406 grams of potassium bromide and 3.481 grams of potassium bromate, C. P., (oven dried for 2 hours at 105° C.) to a liter volumetric flask and make up to volume with distilled water. Transfer 50 ml. of this solution containing 0.5 gram of bromine to a 200 ml. glass-stoppered flask, acidify with dilute sulfuric acid (1 to 4) and allow to stand for five minutes. From a burette add the sample of wood alcohol dropwise, not exceeding 5 ml. per minute, until the bromine color disappears. Record the ml. of sample required. The tanhould be 20° C. The temperature of the mixture

Specific gravity 15.56\* /15.56\* C. 0.8198 minimum

In addition to the above requirements, the wood alcohol must be of such a character as to impart its characteristic odor and taste to the ethyl alcohol with which it is mixed, thereby giving an unmistakable warning of its presence.

#### SUBPART F-USES OF SPECIALLY DENATURED ALCOHOL

§ 212.95 Listing of products and processes using specially denatured alcohol and formulas authorized therefor. This section gives a listing, alphabetically by product or process, of formulas of specially denatured alcohol authorized for use in such products or processing, and a listing of the code numbers assigned thereto.

## PROPOSED RULE MAKING

## I 26 CFR (1954) Part 1 ]

#### INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

#### NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to th Administrative Procedure Act, approved June 11, 1946, that the regulations se forth in tentative form below are pro posed to be prescribed by the Commis sioner of Internal Revenue, with the ap proval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D. C., within the period of thirty days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

#### [SEAL] RUSSELL C. HARRINGTON, Commissioner of Internal Revenue.

The following regulations for taxable years beginning after December 31, 1953, and ending after August 16, 1954, except where otherwise specifically provided, are hereby prescribed under sections 681 and 682 of the Internal Revenue Code of 1954:

1.682 (c)-1 Definitions.

§ 1.681-1 Limitations on charitable contributions deduction of trust; in general. Under section 681, the unlimited charitable contributions d e d u c t i on otherwise allowable to a trust under section 642 (c) is, in general, subject to percentage limitations, corresponding to those applicable to contributions by an individual under sections 170 (b) (1) (A) and (B), under the following circumstances:

band" and "wife".

(a) To the extent that the deduction is allocable to "unrelated business income":

(b) If the trust has engaged in a "prohibited transaction";

(c) If income is accumulated for a charitable purpose and the accumulation is (1) unreasonable, (2) substantially diverted to a noncharitable purpose, or (3) invested against the interests of the charitable beneficiaries.

Further, if the circumstance set forth in paragraph (a) or (c) of this section is applicable, the deduction is limited to income actually paid out for charitable purposes, and is not allowed for income only set aside or to be used for those purposes. If the circumstance set forth in paragraph (b) of this section is applicable, deductions for contributions to the trust may be disallowed. The provisions of section 681 are discussed in detail in §§ 1.681 (a)-1 through 1.681 (c)-1. For definition of the term "income" see section 643 (b) and § 1.643 (b)-1.

§ 1.681 (a) Statutory provisions; estates and trusts; limitation on charitable contributions deduction; unrelated business income.

SEC. 681. Limitation on charitable deduction—(a) Trade or business income. In computing the deduction allowable under section 642 (c) to a trust, no amount otherwise allowable under section 642 (c) as a deduction shall be allowed as a deduction with respect to income of the taxable year which is allocable to its unrelated business income for such year. For purposes of the preceding sentence, the term "unrelated business income" means an amount equal to the amount which, if such trust were exempl from tax under section 561 (a) by reason of section 501 (c) (3), would be computed as its unrelated business taxable income under section 512 (relating to income derived from certain business activities and from certain leases).

§ 1.681 (a)-1 Limitation on charitable contributions deduction of trusts with trade or business income—(a) In general. No charitable contributions deduction is allowable to a trust under section 642 (c) for any taxable year for

amounts allocable to the trust's unrelated business income for the taxable year. For the purpose of section 681 (a) the term "unrelated business income" of a trust means an amount which would be computed as the trust's unrelated business taxable income under section 512 and the regulations thereunder, if the trust were an organization exempt from tax under section 501 (a) by reason of section 501 (c) (3). For the purpose of the computation under section 512, the term "unrelated trade or business" includes a trade or business carried on by a partnership of which a trust is a member, as well as one carried on by the trust itself. While the charitable contributions deduction under section 642 (c) is entirely disallowed by section 681 (a) for amounts allocable to "unrelated business income", a partial deduction is nevertheless allowed for such amounts by the operation of section 512 (b) (11). as illustrated in paragraphs (b) and (c) of this section. This partial deduction is subject to the percentage limitations applicable to contributions by an individual under section 170 (b) (1) (A) and (B), and is not allowed for amounts set aside or to be used for charitable purposes but not actually paid out during the taxable year. Charitable contribu-tions deductions otherwise allowable under section 170, 542 (b) (2), or 642 (c) for contributions to a trust are not disallowed solely because the trust has unrelated business income.

(b) Determination of amounts allocable to unrelated business income. In determining the amount for which a charitable contributions deduction would otherwise be allowable under section 642 (c) which are allocable to unrelated business income, and therefore not allowable as a deduction, the following steps are taken:

(1) There is first determined the amount which would be computed as the trust's unrelated business taxable income under section 512 and the regulations thereunder if the trust were an organization exempt from tax under section 501 (a) by reason of section 501 (c) (3), but without taking the charitable contributions deduction allowed under section 512 (b) (11).

(2) The amount for which a charitable contributions deduction would otherwise be allowable under section 642 (c) is then allocated between the amount determined in subparagraph (1) of this paragraph and any other income of the trust. Unless the facts clearly indicate to the contrary, the allocation to the amount determined in subparagraph (1) of this paragraph is made on the basis of the ratio (but not in excess of 100 percent) of the amount determined in subparagraph (1) of this paragraph to the taxable income of the trust, determined. without the deduction for personal exemption under section 642 (b), the charitable contributions deduction under section 642 (c), or the deduction for distributions to beneficiaries under section 661 (a).

(3) The amount for which a charitable contributions deduction would otherwise be allowable under section 642
 (c) which is allocable to unrelated busi-

No. 156-6

ness income as determined in subparagraph (2) of this paragraph, and therefore not allowable as a deduction, is the amount determined in subparagraph (2) of this paragraph reduced by the charitable contributions deduction which would be allowed under section 512 (b) (11) if the trust were an organization exempt from tax under section 501 (a) by reason of section 501 (c) (3).

(c) Examples. (1) The application of this section may be illustrated by the following examples, in which it is assumed that the Y charity is not a church, an educational organization, or a hospital described in section 170 (b) (1) (A) (see subparagraph (2) of this paragraph):

Example (1). The X trust has income of \$50,000. There is included in this amount a net profit of \$31,000 from the operation of a trade or business. The trustee is required to pay half of the trust income to A, an individual, and the balance of the trust income to the Y charity, an organization described in section 170 (c) (2). The trustee pays each beneficiary \$25,000. Under these facts, the unrelated business income of the trust (computed before the charitable contributions deduction which would be allowed under section 512 (b) (11)) is \$30,000 (\$31,-000 less the deduction of \$1,000 allowed by section 512 (b) (12)). The deduction other-wise allowable under section 642 (c) is \$25.-000, the amount paid to the Y charity. The portion allocable to the unrelated business income (computed as prescribed in paragraph (b) (2) of this section above) is \$15,000, that is, an amount which bears the same ratio to \$25,000 as \$30,000 bears to \$50,000. The portion allocable to the unrelated business income, and therefore disallowed as a deduction, is \$15,000 reduced by \$6,000 (the charitable contributions deduction which would be allowable under section 512 (b) (11)), or \$9.000.

Example (2). Assume the same facts as in example (1), except that the trustee has discretion as to the portion of the trust income to be paid to each beneficiary, and the trustee pays \$40,000 to A and \$10,000 to the Y charity. The deduction otherwise allowable under section 642 (c) is \$10,000. The portion allocable to the unrelated business income computed as prescribed in paragraph (b) (2) of this section is \$6,000, that is an amount which bears the same ratio to \$10,000 as \$30,000 bcars to \$50,000. Since this amount does not exceed the charitable contributions deduction which would be allowable under section 512 (b) (11) (\$6,000, determined as in example (1)), no portion of it is disallowed as a deduction.

Example (3). Assume the same facts as in example (1), except that the terms of the trust instrument require the trustee to pay to the Y charity the trust income, if any, derived from the trade or business, and to pay to A all the trust income derived from other sources. The trustee pays \$31,000 to the Y charity and \$19,000 to A. The deduction otherwise allowable under section 642 (c) is \$31,000. Since the ratio prescribed in paragraph (b) (2) of this section does not apply, the amount allocable to the unrelated business income computed before the charitable contributions deduction under section 512 (b) (11) is \$30,000. The amount allocable to the unrelated business income and therefore disallowed as a deduction is \$24,000.

Example (4). (1) Under the terms of the trust, the trustee is required to pay half of the trust income to A. an individual, for his life, and the balance of the trust income to the  $\Upsilon$  charity, an organization described in section 170 (c) (2). Capital gains are allocable to corpus and upon A's death the

trust is to terminate and the corpus is to be distributed to the Y charity. The trust has taxable income of \$50,000 computed without any deduction for specific exemption, charitable contributions, or distributions. The amount of \$50,000 consists of \$10,000 capital gains, \$30,000 (\$31,000 leas the \$1,000 deduction allowed under section 512 (b) (12)) unrelated business income (computed before the charitable contributions deduction which would be allowed under section 512 (b) (11)) and other income of \$10,000. The trustee pays each beneficiary \$20,000. (ii) The deduction otherwise allowable under section 642 (c) is \$30,000 (\$20,000 paid

(ii) The deduction otherwise allowable under section 642 (c) is \$30,000 (\$20,000 paid to Y charity and \$10,000 capital gains allocated to corpus and permanently set aside for charitable purposes). The portion allocable to the unrelated business income is \$15,000, that is, an amount which bears the same ratio to \$20,000 (the amount paid to Y charity) as \$30,000 bears to \$40,000 (\$50,000 less \$10,000 capital gains allocable to corpus). The portion allocable to the unrelated business income, and therefore disallowed as a deduction, is \$15,000 reduced by \$6,000 (the charitable contributions deduction which would be allowable under section 512 (b) (11)), or \$9,000.

(2) If, in the examples in subparagraph (1) of this paragraph, the Y charity were a church, an educational organization, or a hospital described in section 170 (b) (1) (A), then the deduction allowable under section 512 (b) (11) would be computed at a rate of 30 percent.

§ 1.681 (b) Statutory provisions; estates and trusts; limitation on charitable contributions deductions; prohibited transactions.

SEC. 681. Limitation on charitable deduction. \* \* \*

(b) Operations of trusts—(1) Limitation on charitable, etc., deduction. The amount otherwise allowable under section 642 (c) as a deduction shall not exceed 20 percent of the taxable income of the trust (computed without the benefit of section 642 (c) but with the benefit of section 170 (b) (1) (A)) if the trust has engaged in a prohibited transaction, as defined in paragraph (2).

(2) Prohibited transactions. For purposes of this subsection, the term "prohibited transaction" means any transaction after July 1, 1950, in which any trust while holding income or corpus which has been permanently set aside or is to be used exclusively for charitable or other purposes described in section 642 (c)—

(A) Lends any part of such income or corpus, without receipt of adequate security and a reasonable rate of interest, to;

(B) Pays any compensation from such income or corpus, in excess of a reasonable allowance for salaries or other compensation for personal services actually rendered, to; (C) Makes any part of its services avail-

able on a preferential basis to; (D) Uses such income or corpus to make any substantial purchase of securities or any other property, for more than an adequate consideration in money or money's worth,

from: (E) Sells any substantial part of the securities or other property comprising such income or corpus, for less than an adequate consideration in money or money's worth,

(F) Engages in any other transaction (F) Engages in a substantial diversion of such income or corpus to;

the creator of such trust; any person who has made a substantial contribution to such trust; a member of a family (as defined in section 267 (c) (4)) of an individual who is the creator of the trust or who has made a substantial contribution to the trust; or a corporation controlled by any such creator or person through the ownership, directly or indirectly, of 50 percent or more of the total combined voting power of all classes of stock entitled to vote or 50 percent or more of the total value of shares of all classes of stock of the corporation.

(3) Taxable years affected. The amount otherwise allowable under section 642 (c) as a deduction shall be limited as provided in paragraph (1) only for taxable years after the taxable year during which the trust is notified by the Secretary that it has engaged in such transaction, unless such trust entered into such prohibited transaction with the purpose of diverting such corpus or income from the purposes described in section 642 (c), and such transaction involved a substantial part of such corpus or income.

(4) Future charitable, etc., deductions of trusts denied deduction under paragraph (3). If the deduction of any trust under section 642 (c) has been limited as provided in this subsection, such trust, with respect to any taxable year following the taxable year in which notice is received of limitation of deduction under section 642 (c), may, under regulations prescribed by the Secretary or his delegate, file claim for the allowthe unlimited deduction under ance of section 642 (c), and if the Secretary, pursuant to such regulations, is satisfied that such trust will not knowingly again engage in a prohibited transaction, the limitation provided in paragraph (1) shall not apply with respect to taxable years after the year in which such claim is filed.

(5) Disallowance of certain charitable, etc., deductions. No gift or bequest for religious, charitable, scientific, literary, or educational purposes (including the encouragement of art and the prevention of cruelty to children or animals), otherwise allowable as a deduction under section 170, 545 (b) (2), 642 (c), 2055, 2106 (a) (2), or 2522, shall be allowed as a deduction if made in trust and, in the taxable year of the trust in which the gift or bequest is made, the deduction allowed the trust under section 642 (c) is limited by paragraph (1). With respect to any taxable year of a trust in which such deduction has been so limited by reason of entering into a prohibited transaction with the purpose of diverting such corpus or income from the purposes described in section 642 (c), and such transaction involved a substantial part of such income or corpus, and which taxable year is the same, or before the, taxable year of the trust in which such prohibited transaction occurred, such deduction shall be disallowed the donor only if such donor or (if such donor is an individual) any member of his family (as defined in section 267 (c) (4)) was a party to such prohibited transaction.

(6) Definition. For purposes of this subsection, the term "gift or bequest" means any gift, contribution, bequest, devise, or legacy, or any transfer without adequate consideration.

§ 1.681 (b)-1 Limitation on charitable contributions deduction of trusts engaged in prohibited transactions-(a) In general. (1) If a trust has engaged in a "prohibited transaction", the charitable contributions deduction which would otherwise be allowable to the trust under section 642 (c) is limited by section 681 (b) (1) to 20 percent of the taxable income of the trust (computed without any charitable contributions deduction), except that an additional deduction of up to 10 percent of such taxable income is allowed for amounts actually paid to a church, an educational organization, or a hospital qualifying under section 170 (b) (1) (A). There is no requirement that amounts subject to the 20-percent

limitation be actually paid, if they are set aside or are to be used exclusively for charitable or other purposes so that they would be deductible under section 642 (c).

(2) A "prohibited transaction" is any transaction described in section 681 (b) (2) (A) through (F), entered into after July 1, 1950, by a trust holding income or corpus permanently set aside or to be used exclusively for purposes described in section 642 (c), with (i) the creator of the trust, (ii) any substantial con-tributor to the trust, (iii) a member of the family (as defined in section 267 (c) (4), dealing with transactions between related taxpayers) of the creator or of a substantial contributor, or (iv) a corporation which the creator or a substantial contributor controls (within the meaning of the last portion of section 681 (b) (2)).

(3) If the trust entered into a prohibited transaction for the purpose of diverting income or corpus from the charitable or other purposes described in section 642 (c), and if the transaction involved a substantial portion of such income or corpus, the limitation of section 681 (b) (1) is applicable for the taxable year of the trust in which the transaction was commenced and for all subsequent taxable years. See examples under §§ 1.681 (b)-2 and 1.503-1. Otherwise, the limitation is only applicable for taxable years of the trust after the taxable year in which there is mailed to it, by registered or certified mail directed to the last known address of the fiduciary, a written notice by the Commissioner that it has engaged in a prohibited transaction.

(b) Restoration of unlimited deduc-tion. A trust whose charitable contributions deduction under section 642 (c) has been limited by reason of the provisions of section 681 (b) (1) may file, in any taxable year following the taxable year in which notice of limitation of the deduction was issued, a claim for allowance of an unlimited deduction under section 642 (c). This claim shall be filed with the district director with whom the fiduciary is required to file the income tax return of the trust. The claim must contain or have attached to it a written declaration made under the penalties of perjury by the fiduciary (or fiduciaries) that he will not knowingly permit the trust again to engage in a prohibited transaction. If the district director is satisfied that the trust will not knowingly again engage in a prohibited transaction, he shall so notify the trust in writing. In such case the trust will be allowed an unlimited deduction under section 642 (c) (subject to the provisions of section 681) with respect to taxable years subsequent to the taxable year in which the claim is filed. Section 681 (b) (3) contemplates that a trust whose charitable contributions deduction has been limited as prescribed therein shall be subject to such limitation for at least one full taxable year.

§ 1.681 (b)-2 Disallowance to donors of certain charitable, etc., deductions for gifts made in trust—(a) In general. Section 681 (b) (5) provides that no contribution which would otherwise be allowable as a deduction under sections 170 (c) (2), 545 (b) (2), or 642 (c) is allowable if made to a trust whose charitable contribution deduction under section 642 (c) is limited, in the taxable year of the trust in which the contribution is made, under the provisions of section 681 (b) (1) by reason of a prohibited transaction. However, this disallowance is applicable only to contributions made in taxable years of the trust after the taxable year in which occurred the prohibited transaction causing the trust's charitable deduction to be limited, unless—

(1) The trust has been notified in a previous taxable year (in or subsequent to the year in which the transaction was commenced) by the Commissioner, pursuant to section 681 (b) (3), that it has engaged in a prohibited transaction, or

(2) The donor of the contribution or, if the donor is an individual, any member of his family (as defined in section 267
 (c) (4), dealing with transactions between related taxpayers) was a party to the prohibited transaction.

(b) Subsection not exclusive. The prohibited transactions enumerated in section 681 (b) (2) are in addition to and not in limitation of the restrictions contained in section 170 (c) (2), 545 (b) (2), or 642 (c). A deduction may not be allowed in view of the general provisions of those sections, even though the trust has not engaged in any of the prohibited transactions referred to in section 681 (b) (2). Thus, if the donor or the fiduciary of the trust enters into a transaction with the trust, the transaction will be closely scrutinized to ascertain whether the contribution is in fact made for the stated exempt purposes.

(c) Example. Under the terms of an irrevocable trust established by A in 1954, the trustees were to pay half of the income of the trust to A's wife for life, and the trustees were given discretion either to accumulate the remaining half of the income for, or distribute it to, a specified charitable beneficiary. Upon the death of the wife, the entire corpus was to be paid to the named charity. The trust makes its income tax returns on the basis of the calendar year. For 1954, A takes a charitable contributions deduction for the amount of the gift in trust to the charity. In 1957, 1958, 1959, and 1960. A makes further contributions to the trust and he takes deductions for those years under section 170 (c) (2). In 1958, 1959, and 1960, B (not a member of A's family) also makes contributions to the trust for its designated charitable purpose and he takes deductions for those years. In 1958, the trust commences purposely to divert to A, the creator of the trust, income and corpus which had been set aside for its charitable purpose and a substantial amount of income and corpus is so diverted by the close of the year 1959. For 1958 and subsequent years, the deduction allowed the trust under section 642 (c) is limited by reason of the provisions of section 681 (b) (1). Both A and B are disallowed any deduction for their charitable contributions made during 1960 to the trust. Moreover, the deductions taken by A for contributions to the trust in the years 1958 and 1959 would also be disallowed since A was a party to the prohibited transac-

tion. If the facts and surrounding circumstances indicate that the contribution in 1957 by A was for the purpose of the prohibited transaction, then A's charitable contribution deduction for the year 1957 is also disallowed since the prohibited transaction would then have commenced with the making of the contribution and the deduction allowed the trust under section 642 (c) would then be limited for 1957 by reason of the provisions of section 681 (b) (1). The deductions taken by B for 1958 and 1959 are allowed.

§1.681 (c) Statutory provisions; estates and trusts; limitation on charitable contributions deduction; trusts accumulating income.

SEC. 681. Limitation on charitable deduc-

(c) Accumulated income. If the amounts permanently set aside, or to be used exclusively for the charitable and other purposes described in section 642 (c) during the taxable year or any prior taxable year and not actually paid out by the end of the taxable year—

 Are unreasonable in amount or duration in order to carry out such purposes of the trust;

(2) Are used to a substantial degree for purposes other than those prescribed in section 642 (c); or

(3) Are invested in such a manner as to jeopardize the interests of the religious, charitable, scientific, etc., beneficiaries,

the amount otherwise allowable under section 642 (c) as a deduction shall be limited to the amount actually paid out during the taxable year and shall not exceed 20 percent of the taxable income of the trust (computed without the benefit of section 642 (c) but with the benefit of section 170 (b) (1) (A)). Paragraph (1) shall not apply to income attributable to property of a decedent dying before January 1, 1951, which is transferred under his will to a trust created by such will. In the case of a trust created by the will of a decedent dying on or after January 1, 1951, if income is required to be accumulated pursuant to the mandatory terms of the will creating the trust, paragraph (1) shall apply only to income accumulated during a taxable year of the trust beginning more than 21 years after the date of death of the last life in being designated in the trust instrument,

1.681 (c)-1 Limitation on charitable contributions deduction of trusts accumulating income-(a) In general. If income of a trust permanently set aside or to be used by a trust exclusively for charitable or other purposes described in section 642 (c) during the taxable year or any prior taxable year (including taxable years beginning before the effective date of section 681), is not actually paid out by the end of the taxable year, the charitable contributions deduction which would otherwise be allowable to the trust under section 642 (c) for the taxable year is subject to the limitations of section 681 (c), described in paragraph (b) of this section, under the following circumstances:

(1) If accumulations of income are unreasonable. (See paragraph (c) of this section.)

<sup>(2)</sup> If income accumulated for the charitable or other purposes is used to a substantial degree for purposes other than those described in section 642 (c).

(3) If income accumulated for the charitable or other purposes is invested in such a manner as to jeopardize the interests of the religious; charitable, scientific, etc., beneficiaries.

Whether the foregoing conditions are present in any case must be determined from all relevant facts. Such conditions may result from the use of a chain of two or more organizations, as well as from the use of only one trust. Charitable contributions deductions otherwise allowable under section 170, 545 (b) (2), or 642 (c) for contributions to a trust are not disallowed solely because the trust is subject to the provisions of section 681 (c).

(b) Extent of limitation. If a trust is subject to the limitations of section 681 (c) for any taxable year, the charitable deduction which would otherwise be allowable to the trust under section 642 (c) is limited to amounts actually paid out during the taxable year, and is limited to 20 percent of the taxable income of the trust (computed without any charitable deduction), except that an additional deduction of up to 10 percent of such taxable income is allowed for amounts actually paid to a church, an educational organization or a hospital qualifying under section 170 (b) (1) (A).

(c) Unreasonable accumulations. Accumulations of income for a charitable or other purpose described in section 642 (c) are unreasonable when more income is accumulated than is needed, or when the duration of the accumulation is longer than is needed, in order to carry out the charitable or other purpose for which the income was set aside. If the gain upon the sale or exchange of property held for the production of investment income, such as dividends, interest, and rents, is not within a reasonable time reinvested in property acquired and held in good faith for the production of investment income, the gain (except the gain upon the sale or exchange of a donated asset to the extent that the gain represents the excess of the fair market value of the asset when acquired by the trust over its substituted basis in the hands of the trust) will be considered income for the purposes of this section. The limitation of section 681 (c) (1) upon trusts unreasonably accumulating income does not apply to a testamentary trust created by a decedent dying before January 1, 1951, except to the extent that its income is attributable to property transferred to the trust by some one other than the decedent. Further, the limitation of section 681 (c) (1) does not apply to income accumulated pursuant to the mandatory terms of testamentary trusts created by decedents dying on or after January 1, 1951, except as to income accumulated during a taxable year beginning more than 21 years after the death of the last life in being designated in the trust instrument.

(d) Restoration of unlimited deduction. A trust whose charitable contributions deduction under section 642 (c) has been limited by reason of the provisions of section 631 (c) may file a claim for allowance of unlimited deduction under section 642 (c). This claim shall be filed with the district director with whom the fiduciary is required to file the income tax return of the trust. The claim must contain or be accompanied by information or evidence showing that the circumstances that brought about the application of section 681 (c) no longer exist, and a written declaration made under the penalties of perjury by the fiduciary (or fiduciaries) that he will not knowingly permit the trust again to violate the terms of such section. Section 681 (c) contemplates that a trust whose charitable, etc., deduction has been limited as prescribed therein shall be subject to such limitation for at least one full taxable year.

§ 1.681 (d) Statutory provisions; estates and trusts; disallowance of certain charitable contributions deductions; cross reference.

SEC. 681. Limitation on charitable deduction. \* \* \*

(d) Cross reference. For disallowance of certain charitable, etc., deductions otherwise allowable under section 642 (c), see section 503 (e).

\$1.681 (d)-1 Disallowance of certain charitable contributions deductions. For disallowance of certain charitable contributions deductions otherwisce allowable under section 642 (c), see section 503 (e) and the regulations thereunder.

§ 1.682 (a) Statutory provisions; estates and trusts; income of an estate or trust in case of divorce; inclusion in gross income of wife.

SEC. 682. Income of an estate or trust in case of divorce, etc.-(a) Inclusion in gross income of wife. There shall be included in the gross income of a wife who is divorced or legally separated under a decree of divorce or of separate maintenance (or who is separated from her husband under a written separation agreement) the amount of the income of any trust which such wife is entitled to receive and which, except for this section, would be includible in the gross income of her husband, and such amount shall not, despite any other provision of this subtitle, be includible in the gross income of such husband. This subsection shall not apply to that part of any such income of the trust which the terms of the decree, written separation agreement, or trust instrument fix, in terms of an amount of money or a portion of such income, as a sum which is payable for the support of minor children of such husband. In case such income is less than the amount specified in the decree. agreement, or instrument, for the purpose of applying the preceding sentence, such income, to the extent of such sum payable for such support, shall be considered a payment for such support.

§ 1.632 (a)-1 Income of trust in case of divorce, etc.—(a) In general. (1) Section 682 (a) provides rules in certain cases for determining the taxability of income of trusts as between spouses who are divorced, or who are separated under a decree of separate maintenance or a written separation agreement. In such cases, the spouse actually entitled to receive payments from the trust is considered the beneficiary rather than the spouse in discharge of whose obligations the payments are made, except to the extent that the payments are specified to be for the support of the obligor spouse's minor children in the divorce or separate maintenance decree, the separation agreement or the governing trust instrument. For convenience, the beneficiary spouse will hcreafter in this section and in § 1.682 (b)-1 be referred to as the "wife" and the obligor spouse from whom she is divorced or legally separated as the "husband". (See section 7701 (a) (17).) Thus, under section 682 (a) income of a trust—

(i) Which is paid, credited, or required to be distributed to the wife in a taxable year of the wife, and

(ii) Which, except for the provisions of section 682, would be includible in the gross income of her husband,

is includible in her gross income and is not includible in his gross income.

(2) Section 682 (a) does not apply in any case to which section 71 applies. Although section 682 (a) and section 71 seemingly cover some of the same situations, there are important differences between them. Thus, section 682 (a) applies, for example, to a trust created before the divorce or separation and not in contemplation of it, while section 71 applies only if the creation of the trust or payments by a previously created trust are in discharge of an obligation imposed upon or assumed by the husband (or made specific) under the court order or decree divorcing or legally separating the husband and wife, or a written instrument incident to the divorce status or legal separation status, or a written separation agreement. If section 71 applies, it requires inclusion in the wife's income of the full amount of periodic payments received attributable to property in trust (whether or not out of trust income), while, if section 71 does not apply, section 682 (a) requires amounts paid, credited, or required to be distributed to her to be included only to the extent they are includible in the taxable income of a trust beneficiary under sections 641 through 668.

(3) Section 682 (a) is designed to produce uniformity as between cases in which, without section 682 (a), the income of a so-called alimony trust would be taxable to the husband because of his continuing obligation to support his wife or former wife, and other cases in which the income of a so-called alimony trust is taxable to the wife or former wife because of the termination of the husband's obligation. Furthermore, section 682 (a) taxes trust income to the wife in all cases in which the husband would otherwise be taxed not only because of the discharge of his alimony obligation but also because of his retention of control over the trust income or corpus. Section 682 (a) applies whether the wife is the beneficiary under the terms of the trust instrument or is an assignee of a beneficiary.

(4) The application of section 682 (a) may be illustrated by the following examples, in which it is assumed that both the husband and wife make their income tax returns on a calendar year basis:

Example (1). Upon the marriage of H and W, H irrevocably transfers property in trust to pay the income to W for her life for support, maintenance, and all other expenses. Some years later, W obtains a legal separation from H under an order of court. W, relying upon the income from the trust

payable to her, does not ask for any provision for her support and the decree recites that since W is adequately provided for by the trust, no further provision is being made for her. Under these facts, section 682 (a), rather than section 71, is applicable. Under the provisions of section 682 (a), the income of the trust which becomes payable to W after the order of separation is includible in her income and is deductible by the trust. No part of the income is includible in H's income or deductible by him.

Example (2). H transfers property in trust for the benefit of W, retaining the power to revoke the trust at any time. H, however, promises that if he revokes the trust he will transfer to W property in the value of \$100,000. The transfer in trust and the agreement were not incident to divorce, but some years later W divorces H. The court decree is silent as to alimony and the trust. After the divorce, income of the trust which becemes payable to W is taxable to her, and is not taxable to H or deductible by him. If H later terminates the trust and transfers \$100,000 of property to W, the \$100,000 is not income to W nor deductible by H.

(b) Alimony trust income designated for support of minor children. Section 682 (a) does not require the inclusion in the wife's income of trust income which the terms of the divorce or separate maintenance decree, separation agreement, or trust instrument fix in terms of an amount of money or a portion of the income as a sum which is payable for the support of minor chil-dren of the husband. The portion of the income which is payable for the support of the minor children is includible in the husband's income. If in such a case trust income fixed in terms of an amount of money is to be paid but a lesser amount becomes payable, the trust income is considered to be payable for the support of the husband's minor children to the extent of the sum which would be payable for their support out of the originally specified amount of trust income. This rule is similar to that provided in the case of periodic payments under section 71. See § 1.71-1.

§ 1.692 (b) Statutory provisions; estates and trusts; income of an estate or trust in case of divorce; wife considered a beneficiary.

SEC. 682. Income of an estate or trust in case of divorce, etc. \* \* \*

(b) Wije considered a beneficiary. For purposes of computing the taxable income of the estate or trust and the taxable income of a wife to whom subsection (a) or section 71 applies, such wife shall be considered as the beneficiary specified in this part. A periodic payment under section 71 to any portion of which this part applies shall be included in the gross income of the beneficiary in the taxable year in which under this part such portion is required to be included.

§ 1.682 (b) -1 Application of trust rules to alimony payments. (a) For the purpose of the application of sections 641 to 668, inclusive, the wife described in section 682 or section 71 who is entitled to receive payments attributable to property in trust is considered a beneficiary of the trust, whether or not the payments are made for the benefit of the husband in discharge of his obligations.

(b) A periodic payment includible in the wife's gross income under section 71 attributable to property in trust is in-

cluded in full in her gross income in her taxable year in which any part is required to be included under section 651 or 662. Assume, for example, in a case in which both the wife and the trust file income tax returns on the calendar year basis, that an annuity of \$5,000 is to be paid to the wife by the trustee every December 31 (out of trust income if possible and, if not, out of corpus) pursuant to the terms of a divorce decree. Of the \$5,000 distributable on December 31. 1954, \$4,000 is payable out of income and \$1,000 out of corpus. The actual distribution is made in 1955. Although the periodic payment is received by the wife in 1955, since under section 662 the \$4,000 income distributable on December 31, 1954, is to be included in the wife's income for 1954, the \$1,000 payment out of corpus is also to be included in her income for 1954.

MILK IN CENTRAL MISSISSIPPI MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEP-TIONS WITH RESPECT TO PROPOSED AMEND-MENTS TO TENTATIVE MARKETING AGREE-MENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.) and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator. Agricultural Marketing Service, United States Department of Agriculture, with respect to proposals to amend the tentative marketing agreement and the order, as amended, regulating the handlins of milk in the Central Mississippi marketing area. Interested persons may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington, D. C. not later than the close of business the tenth day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed r

amendments to the tentative marketing agreement and to the order, as amended, were formulated, was conducted at Jackson, Mississippi, on December 15-21, 1955 (20 F. R. 8756). The material issues of record related to:

1. Extension of the marketing area.

 The type of pool to be provided under the order for distributing payments to producers.

3. Qualifications for market-wide pool participation.

4. Order changes to conform with market-wide pooling.

5. Compensatory payment on unpriced milk.

6. Compensatory payment on sales in the marketing area of milk subject to the pricing provisions of another Federal order.

7. A change in the level of the Class Imilk price.

8. The use of a supply-demand provision for adjusting the Class I price.

9. A change in the level of the Class I milk price.

10. Rules governing the base-excess provisions.

11. The inclusion of a provision to permit a cooperative association to authorize deductions from payments made by handlers to producer members.

12. A revision of the location differential to producers and handlers.

13. A change in provision concerning adjustment of accounts to include payments due a cooperative association.

14. A revision of the marketing service provision to provide that such services may be performed by a cooperative association under the supervision of the market administrator.

15. A revision of the classification and pricing provision to include a Class III milk category.

16. The inclusion in the order of a provision directing the market administrator to notify handlers each month concerning pricing information required by the order.

17. A proviso, to be included in the provision concerning payments to the producer-settlement fund, which would require interest on overdue payments.

18. Administrative and conforming changes.

Findings and conclusions. By an exbedited decision of the Assistant Secrelary, issued March 15, 1956 (21 F. R. 1723), action has been taken with respect to Issues No. 2 through 6. Findings and conclusions with respect to the remaining material issues, all of which are based on the evidence introduced at the hearing, and the record thereof, are as follows:

<sup>1</sup> A Federal milk marketing order should not be promulgated at this time for the following counties located in the State of Mississippi : Attala, Bolivar, Carroll, Coahoma, Grenada, Holmes, Humphreys, Issaquena, Leflore, Montgomery, Quitman, Sharkey, Sunflower, Tallahatchie, Washington and Yazoo.

Proponents of the order were primarily interested in justifying the incluaion of these counties, referred to at the hearing as the "Delta" area, as part of the Central Mississippi marketing area. The proposal to establish a separate order for the "Delta" area was supported as a

second choice. Relatively little effort was made to justify the promulgation of a separate order for the "Delta" counties. It is concluded that evidence in the record on the character of commerce and marketing conditions in the aforementioned counties does not justify the issuance of a separate order at this time.

Nor should the present marketing area be extended to include the area comprising the aforesaid countles. Regulated handlers do not distribute milk in Attala, Carroll, Coahoma, Choctaw, Grenada, Issaquena, Montgomery, Quitman, Tallhatchie and Winston counties. Five regulated handlers distribute in the remaining ten counties. In Bolivar, Humphreys, Leake, Sharkey, Sunflower and Yazoo counties, two regulated handlers distribute seven percent or less of their Class I sales in all those counties combined. Two regulated handlers distribute in Holmes county. Testimony is lacking with respect to the extent of distribution by one of such handlers. The other regulated handler estimated that approximately ten percent of his Class I sales are distributed in Holmes county. The remaining regulated handler distributes approximately 39 and 7 percent of his Class I sales in Washington county (where the plant is located), and in Leflore county, respectively. The regulated plant located in Washington county is a considerable distance from the marketing area. It qualifies as a regulated plant mainly from the sales of a special type of milk primarily in the city of Jackson. The distribution of milk in the marketing area by this plant represents only a small portion of the total sales in the marketing area by regulated handlers.

Altogether, there are only a few regulated handlers involved in competition with unregulated handlers in these counties; and regulated handlers, with plants located in the marketing area, compete scarcely at all with local handlers in this area. The territory between this area and the present marketing area is predominantly rural. The trade in this area has little relation to the trade in the present marketing area. For this reason, extension of this regulation to this area, at this time, would not be justified.

Regulated handlers do not distribute in Wilkinson county. No evidence was presented at the hearing to justify the proposal that this county should be included in the marketing area. It is concluded that the marketing area should not be extended to include Wilkinson county at this time.

No testimony was submitted by proponents concerning the distribution of fluid milk by regulated handlers in Pike county. No testimony was submitted which would indicate the extent and significance of competition for fluid sales among regulated and unregulated handlers in Amite county. It is concluded that these counties should not be included in the marketing area.

The marketing area should be extended to include Lauderdale, Neshoba, Newton and Clarke counties.

Producers proposed that the marketing area be extended to include these four counties. This territory is located approximately northeast of the present marketing area. Regulated handlers are in substantial competition with unregulated handlers in the area recommended for inclusion. Plants located at Meridian and Newton (in Lauderdale and Newton counties, respectively) distribute fluid milk in the present marketing area and are regulated. In Newton county, regulated handlers distribute most of the Class I sales to consumers. In Lauderdale and Neshoba counties, regulated handlers distribute about 50 percent of the Class I sales in that area. Regulated handlers have experienced severe price competition from unregulated handlers. All milk sold in Clarke county is distributed by regulated handlers. No additional regulation would be involved by including this county in the marketing area. It is concluded that the marketing area should be extended to include Lauderdale, Neshoba, Newton and Clarke counties.

The marketing area should also be extended to include the counties of Adams, Jefferson, Lincoln, Franklin and the remainder of Lawrence county (Beats 1, 2 and 3).

Regulated handlers distribute fluid milk in these counties. The largest concentration of such distribution occurs in Adams and Lincoln counties where one regulated handler, among others, disposes of approximately 16 percent of his Class I sales in that area. Another regulated handler distributes approximately 12 percent of his Class I sales in an area which includes Jefferson, Lawrence and Lincoln counties. It is recommended that Franklin county be included in the marketing area, in order to establish a contiguous area, and to assure handlers. who may become regulated as a result of the area extension cited above, that their costs for milk distributed in Franklin county will be on a competitive basis.

It was also proposed that Beat 5 of Forrest county be deleted from the present marketing area. By a decision issued by the Acting Secretary of Agriculture on September 3, 1954, this area was included in the Central Mississippi marketing area. Official notice is hereby taken of said decision (19 F. R. 5820) Beat 5 is part of the regularly established trade area of regulated handlers located in Forrest county. It is located only 14 miles from the plant of a regulated handler. Marketing conditions in the area proposed for deletion have changed little if at all since the hearing held in March 1954. It is concluded that Beat 5 of Forrest county should not be deleted from the marketing area at this time.

7. The level of the Class I milk price should not be changed at this time.

The Class I milk price under the order is computed by adding to a basic formula price for the preceding month, seasonal differentilals of \$2.25 during each of the months of July through February and \$1.85 during all other months. The order does not provide for an adjustment of the Class I price in response to changes in supply-sales relationships. During the year 1955 the average monthly Class I price was \$5.62 f. o. b. market for milk of 4.0 percent butterfat content. Three proposals were submitted by regulated handlers. Each proposal would reduce the level of the Class I milk price.

One handler proposed that the Class I differentials be reduced to \$2.08 during each of the months of September through February and \$1.68 during the remaining months of the year. A proviso included as part of this proposal would prohibit the Class I price under Order No. 87 from exceeding the Class I price established by the Memphis, Tennessee, milk marketing Order No. 18 by more than 40 cents per hundredweight. In establishing a Class I price for Central Mississippi pursuant to this proposal, the proponent would not include any adjustment resulting from the action of the Memphis supply-demand provision. If this proposal had been in effect in 1955 it would have reduced the average monthly Class I price by approximately 26 cents per hundredweight.

One of the effects of this proposal would be to change the months during which the respective Class I differentials apply. No showing was made at the hearing by proponents as to why the lower differential should apply in July and August except to coincide with the change in seasonal differentials under the Memphis order. During the 1955 production year, the months of highest seasonal production under Order No. 87 were March through June which coincides with the present seasonal differentials for Class I milk. It is concluded that the months for which the seasonal differentials apply should not be changed at this time.

Another proposal would delete the present seasonal differentials and substitute a differential of \$1.75. This differential would apply in all months of the year. If this differential had been used in computing the Central Mississippi Class I price during the year 1955, the average Class I milk price for the year would have been reduced approximately 37 cents. While daily average produc-tion per producer has increased since the inception of the order producer numbers have decreased. The proponent testified that his plan has experienced an increase of three percent more milk although the number of producers shipping to the plant has decreased eight percent. This tendency is also reflected in market-wide statistics. Since the inception of the order in November 1955. average daily production per producer increased while producer numbers decreased.

Official notice is hereby taken of the Central Mississippi market administrator's statistical reports of December 1955 through March 1956. The relationship of producer receipts expressed as a percentage of Class I sales for the period November 1954–February 1955, compared with the same period in 1955–56, has increased from 104 to 111. This change does not signify that supplies have become excessive.

Another handler proposal would base the Central Mississippi Class I price on the Class I price established under the Memphis, Tennessee, milk marketing Order No. 18, plus 30 cents per hundred-

weight. This proposal would include as part of the Central Mississippi price any increase or decrease in the Class I price resulting from the operation of the supply-demand provisions under the Memphis order. A rigid 30 cents margin between the Memphis and Central Mississippi markets without regard for local supply-sales conditions would be undesirable in that it might preclude economic shifts in production based on comparative advantage.

The price changes proposed were generally justified on the alleged necessity to align Central Mississippi Class I prices with those established under the Memphis order only by the amount of the transportation cost between the two markets. Such cost was estimated to be approximately 30-40 cents per hundredweight. The production areas of the Memphis and Central Mississippi orders overlap in the northern portion of the State of Mississippi. At the same time, the production area for Order No. 87 also overlaps with that of the New Orleans marketing order in the southern part of the State. There is no evidence that the difference in the Class I prices under the Memphis and Central Mississippi orders has resulted in an uneconomic shifting of producers between the two markets. In the portion of the production area which overlaps with that of the New Orleans market there has been some shifting of producers to the New Orleans market. Such shifting is of no particular significance at the present time.

Handlers regulated under the Central Mississippi order complained of a disadvantageous position in competing with Memphis handlers outside the Central Mississippi marketing area, particularly in northern Mississippi. Official notice is taken of a decision on proposed amendments to the Memphis order issued by the Assistant Secretary of Agriculture, on July 13, 1956 (21 F. R. 5419). In this decision it is proposed that the annual average Class I milk price be increased approximately 14 cents. When this is accomplished, the situation complained of by Central Mississippi handlers will be relieved. It must be pointed out, however, that class prices are established primarily to supply the marketing area with an adequate supply of pure and wholesome milk. This has been accomplished at the present price level. The present price level was originally established to take into consideration the relationship of the Central Mississippi market with the New Orleans market as well as its relationship with the Memphis market. The price relationship which has been maintained among the three markets has caused no uneconomic shifts of milk supplies. It is concluded that the Class I price level should not be changed at this time.

Producers proposed that the price for Class I milk, which is received at a fluid milk plant directly from farms on bulk tank pickup routes, or bulk tank shipments received at distributing plants from supply plants, should be 30 cents per hundredweight above the regularly established Class I milk price. While the proposal included bulk farm tanks,

the evidence presented at the hearing primarily concerned receipts at distributing plants of milk in bulk tanks from supply plants.

This proposal was offered by the major milk producers' association in the area to offset a practice adopted by some handlers in the market. Such handlen closed down their receiving facilities for direct-shipped milk in producers' cant. Needed supplies were obtained in bulk tank, generally from another produces' cooperative supplying the market. Handlers operating in this manner, paying only the Class I price for milk, are relieved of the cost of receiving milk from producers in cans. The seller absorbs the cost of receiving, cooling and transporting such milk to the handler's plant The intent of the producers' proposals would be to equalize the cost of milk to handlers whether it is received in cam or in bulk as described.

Effective April 1, 1956, a market-wide pool was provided for the Central Mississippi market. This action requires all regulated handlers (including cooperatives operating as handlers) to account to the pool at the class prices for Class I sales. The returns from Class I sales are then equalized among all producers serving the market. If the members of the cooperative elect to accept a lower blend price by absorbing the hauling and handling costs on such milk, the erder does not prevent such action. Since the returns from Class I sales are equalized among all producers, as defined in the order, under a market-wide pool, and since it is recommended elsewhere herein that the Class II price be increased, an operating cooperative may not be si easily induced as under an individualhandler pool to absorb hauling and handling costs in supplying proprietary handlers with bulk milk. It should be noted that the situation described has occurred in other Federal order markets without the necessity of establishing differential as proposed. It is concluded that the adoption of the proposal to add 30 cents per hundredweight to the Class I price for milk received at a fluid mill plant in bulk tanks would not be appropriate at this time.

8. The use of a supply-demand adjustor in conjunction with the computation of the Class I price should not be adopted at this time.

Producers proposed that the order provide for a supply-demand adjustor to increase or decrease the Class I milk price depending on the relationship of supplies to sales.

The order under which the Central Mississippi milk marketing area operates became effective in November 1954. At the time of the hearing held Decenber 1955, the order had been in opertion just over a year. Data concernisupply-sales relationships are available for this period only. This is a short period on which to base the operation of a supply-demand adjustor. For this reason a supply-demand adjustor should not be established at this time. The present method of computing the Class I milk price should be terminated is amendment. Before such termination is accomplished, however, a new hearing should be convened primarily for the purpose considering the level of the Class I milk price, including an appropriate supply-demand adjustor.

9. The Class II milk price should be increased by adding a differential of 10 cents in computing the Class II price during the months of March through june and 20 cents during all other months.

Producers proposed that the method of computing the price for Class II milk should be changed. At the present time, the price for Class II milk is determined by computing an average of prices reported to the market administrator for milk of 4.0 percent butterfat content at five Mississippi milk manufacturing plants. During the year 1955, the average monthly Class II price under Order No. 87 was \$2.96 per hundredweight for milk of 4.0 percent butterfat content.

Producers proposed that the present method of computing the Class II milk price should be retained for each of the months of March through June. For all other months, it was proposed that the Class II milk price be the local milk manufacturing plant price pursuant to 136750 (c) of the present order, or the butter-powder portion of the present basis formula price less 20 cents, whichever is higher.

In the eight months of the order preteding the hearing the proposed change would have increased the Class II price an average of 32 cents per hundredveight. The average monthly Class II price on an annual basis would have been increased approximately 20 cents.

Producers based their proposal on evidence that handlers who diverted milk during the period March through June 1955 received a premium of 20 cents per hundredweight over the New Orleans Class II price. One Central Mississippi handler received premiums ranging from 10 to 20 cents per hundredweight on surplus milk sold to two manufacturing plants in Louislana. A producer representative testified that at least one plant In the Central Mississippi area is willing to pay a 35 cent premium for Grade A milk procured for manufacturing purposes. Producers contend that since such milk was diverted, and not received or otherwise handled by Central Mississippi handlers, the premiums received should have accrued to producers. The major milk producers' association in the Central Mississippi market can obtain outlets for Class II milk at the proposed price level. If a regulated handler chooses to keep milk, which might otherwise be diverted, such milk is worth at least what can be obtained for it by diversion.

Unless the Class II price is increased under the market-wide pool, handlers might be encouraged to accept increased production in order to obtain whatever premium accrues to diverted milk. A higher Class II price under the marketwide pool already established as the result of this hearing would assist in shifting milk where needed among handlers regulated by Order No. 87. The present Class II price level has encouraged some handlers in the Central Mississippl area to develop increasing supplies of Grade A milk for the purpose of utilizing such milk in Class II products. Under an individual-handler pool this is a choice which a handler may make on his own initiative knowing that his blend price will be influenced accordingly. Under a market-wide pool, however, with a market-wide uniform price, a Class II price level which encouraged handlers to procure Grade A supplies for Class II use needlessly dissipates returns to producers.

It is concluded that the Class II price level recommended will reflect the additional value accruing to surplus Grade A milk in the Central Mississippi marketing area as established by the hearing record. The Class II price level recommended will also assure producers that returns computed under the recently established market-wide pool will not be needlessly reduced.

10. The base provisions of the order should be amended to clarify them and liberalize base transfers. The order presently provides that the entire base of a producer may be transferred to another person only under conditions involving death, retirement or entry into military service, and joint holdings which are terminated.

A cooperative association of milk producers proposed that the order be amended to allow a producer to transfer his entire base to another person or to the producer association. This association also proposed that all bases of members be credited in one lump sum to the cooperative association.

The primary objective of the baseexcess plan in the order is to provide a means whereby each producer may share in the net proceeds from milk on the basis of his individual production record during the normal short period of production. If the base of member producers were credited to the association or transferred to the association, the base-excess plan would not function uniformly in encouraging level production and in the determination of plant prices for members and non-members.

The record indicates that the base rules on transfer of bases should be liberalized. Producers point out that many occasions have arisen in the past when a producer had to dispose of his herd on short notice due to death in the family or bad health of the operator. An amendment to the order to provide that a producer may transfer his earned base to another person by notifying the market administrator in writing on or before the last day of the month in which the transfer is to be effective would, in such hardship cases, prevent any financial loss to the producer in disposing of his herd.

Present provisions of the order provide that a daily base is computed by dividing all deliveries of a producer made to a handler by the number of days from the first day shipment was made on or after September 1st through January 31st, but not less than 120 days. A cooperative association of milk producers proposed that the daily base be computed by dividing deliveries to a handler by the total number of days in the base forming period. This proposal would unduly restrict the entrance on the market of new producers. New producers would have

A cooperative association of producers proposed a change in the computation of a producer's delivered base. The present order provides that a producer's delivered base be computed by multiplying the base of each producer by the number of days such producer's milk was received by a handler during the month. The record indicates that there is considerable producer milk delivered to handlers on an every-other-day basis or at infrequent intervals. This provision should be changed to provide that a producer's delivered base be computed by multiplying the daily base by the number of days' production delivered by a producer to such handlers.

11. The proposal to allow a cooperative association to authorized deductions from payments made by handlers to producers should not be adopted.

The Mississippi Milk Producers Association proposed that the payment provisions of the order be amended to permit a cooperative association to authorize proper deductions in writing from handlers' payments to producers. The order now provides that each handler may withhold proper deductions authorized by the producer to whom payment is made pursuant to the order.

The association justified the proposal on the basis that a provision of this nature would permit a cooperative to authorize deductions, which would cover the costs of diverting milk. In this connection it should be pointed out that this proposal was submitted in addition to a proposal which would permit diversions by cooperatives only. With the marketwide pool made effective April 1, 1956, diversion by handlers was authorized.

The payment provisions of the order now authorize a cooperative association to receive payment from handlers for its members. This would permit the cooperative, if it chose, to receive payments from handlers and reblend to its members, taking into account the transactions resulting from diversions handled by the cooperative. There is no need at this time to include in the order any additional provisions which would authorize a cooperative to deduct costs involved in diverting milk. It is concluded therefore that the proposal should not be adopted.

 The basis for determining location adjustments to handlers and producers should be changed.

Order No. 87 presently provides a location adjustment differential to handlers in the amount of 10 cents per hundredweight of milk received from producers at a pool plant located outside the marketing area and 50 miles or more from the State Capitol Building, Jackson, Mississippi, when the milk is moved to another pool plant and assigned to Class I or otherwise classified as Class I milk at the plant first receiving the milk. A location adjustment differential of 10 cents per hundredweight applies to all producer milk received at a pool plant located outside the marketing area and 50 miles or more from the State Capitol Building.

There were two proposals offered at the hearing which would alter the present pattern of location differentials. A cooperative association proposed that the location differentials to handlers and producers be made to apply at pool plants located 60 miles or more from the edge of the marketing area. This proposal did not offer to change the present single rate of 10 cents per hundredweight.

A regulated handler proposed that location differentials to handlers and producers be allowed at pool plants located 40 miles or more from the State Capitol Building irrespective of the plant's location with respect to the marketing area. It was further proposed that the amount of the adjustment be raised from 10 to 20 cents per hundredweight.

Elsewhere in this decision certain changes in the Central Mississippi milk marketing area are recommended which would increase the size of the marketing area. The major change in this regard is the proposed addition of the Meridian, Mississippi, area to the marketing area. The marketing area would thus include three important urban areas. These are Jackson, Meridian, and Hattlesburg, Mississippi. These cities are almost equidistant and approximately 100 miles from each other. In addition, the inclusion of Adams county will establish the city of Natchez as part of the marketing area.

Location differentials should be designed so as to reflect costs of moving milk from production areas to the principal distribution areas. In a milk marketing area built around a single metropolitan area the problem is more easily resolved in an area like Central Mississippi which embraces several sales and distribution areas.

It is recommended that the points from which location differentials shall be calculated be changed from the present point (State Capitol, Jackson, Mississippi) to locations which will be equitable from the standpoint of milk moved into the Meridian and Hattiesburg areas as well as the Jackson area. This may be achieved by basing location differentials for any plant on its distance from Jackson, Meridian, or Hattlesburg, whichever is closest. In order to assure that handlers in the southwestern portion of the marketing area, notably Natchez and Brookhaven, will be on a competitive basis with other regulated handlers in the marketing area, it is recommended that the city of Meadville, in Franklin County, be included as a basing point for the purpose of determining location adjustments. This would make the location differential for any plant contingent upon its location in relation to the nearest major sales area in the marketing area. It further would give handlers in each major sales area the same opportunity to offset part or all of the cost of moving milk from a supply plant to the area in which the milk is to be processed or

sold. At the present time, with the location differential based on distances from Jackson, handlers do not have the same opportunity to receive location credits on milk when it is moved comparable distances. Location differentials based on distances from Jackson, Meridian, Meadville or Hattiesburg would provide location differentials more uniformly applicable to all handlers in the market.

A market-wide pool was made effective for the Central Mississippi market on April 1, 1956. In order to allow for the cost of moving Class I milk from distant plants which may become eligible under the new pooling arrangement as regular sources of supply for the Central Mississippi market, it is necessary to establish the Class I price for milk delivered to plants in the marketing area, and then provide a schedule of deductions from the Class I milk price as location differentials or adjustments. The type of location adjustment provision included herein is comparable to those contained in Federal orders throughout the nation and in territory surrounding the Central Mississippi area. The terrain and conditions under which milk might be transported to the Central Mississippi area are such that the rates provided herein are reasonable. The recommended rate of 1.5 cents for every 10 miles beyond the base zone will permit handlers to move milk into the market by an efficient means.

13. The proposal to revise the adjustment of accounts provision so that the market administrator, as a result of audit, may notify handlers with respect to money due producers or a cooperative association was automatically made as a conforming change in the amended order effective April 1, 1956 and need not be dealt with further in this decision.

14. There should be no change in the marketing service assessment collectible by a cooperative association or in the method used in collecting the membership dues of cooperative members.

A cooperative association of producers proposed amendments to the order which would limit the amount of membership dues collectable by a cooperative to the seven cents per hundredweight specified in the order and provide that the market administrator would act as collecting agent for the membership dues of a cooperative association of milk producers.

The marketing service assessment provided in the order is on non-member milk and is limited in use by the market administrator to check testing and weighing of non-member producer milk and to providing non-members with marketing information on milk. A cooperative association of producers may collect the amount specified in their membership contract and may provide other services for their members than those specified for non-members. Any restriction on the amount of cooperative association dues would necessarily restrict the activities of a cooperative in marketing their producer milk.

- The record fails to substantiate any need for a change in the order to provide that the market administrator collect dues for a cooperative association. The

collection of membership dues is usually performed by cooperative association operating in Federal order markets and is considered by the Department to be an appropriate arrangement. The cooperative acts as the agent for its men bers, and operates under a membership contract with them. The collection d dues by the cooperative may be considered a routine procedure in return for the considerations specified in such contract. The proposal, if effectuated would also duplicate work involved collection and transmission of these funds and cause delay in the cooperation association receiving the dues collected from members.

15. The provisions of the order relative to the classification of milk should not be revised.

A handler proposed to add a new classification (Class III) for any milk not utilized in Class I or in the production of Class II products, and which is tranferred or diverted by a handler in bulk tanks or producer cans. It was also proposed that the price for such Class III milk should be the per hundredweight price for Class II milk as preently computed pursuant to the order. less 20 cents.

The handler stated that the purpose of this proposal was to establish a mean of recovering, wholly or partially, he costs involved in receiving, cooling as handling milk which is subsequently no used in Class I, nor manufactured into Class II products in his plant. The preent practice of the handler is to transfer such milk to any of a number of milk manufacturing plants within reach of the Central Mississippi marketing area.

An adequate market supply of milt for fluid use includes some supply in excess of daily Class I usage. The order provides a Class II classification for such reserve supplies. It is not the purposed a Federal milk marketing order to encourage the production of Class II milbeyond what is necessary to assure the market of adequate supplies of Class I milk.

The proposal to establish a new classfication (Class III), and price such Grade A milk at a level below the current price for manufacturing milk in order to recover costs involved in receiing, cooling and shipping such milk in a manufacturing plant, would encourahandlers to expand Class II operations without regard to the needs of the market for Class I usage. It is conclude that the present classification provises of the order should be maintained.

16. There should be no change in the present method of handling produce payrolls under the order. A cooperation association of producers proposed in submit payrolls containing individual producer weights, tests and deductions in the market administrator's office by the 6th of each month. The market administrator would make extensions on the payroll after computing the uniform price(s) and return the completed payroll to each handler on the 10th of each month.

The present order provisions require handlers to submit a report of their recepts and utilization of milk and milk products by the 6th of each month. The market administrator is required to notily handlers of the minimum uniform prices on the 10th of each month. Handiers then are required to pay producers by the 15th of each month and furnish the market administrator's office a copy of the producer payroll by the 20th of each month.

Historically the handlers in the Cental Mississippi marketing area have computed the producer payroll and paid producers. Handlers have the trained personnel and basic records readily available for computing the payroll. To furnish the market administrator a copy of the basic payroll on the 6th of the month would impose on the handler an added burden of bookkeeping. The market administrator would have added work in computing the payroll during the period of computing pool prices which could cause an added expense.

The present system of handling producer payrolls has operated satisfactarily, and should not be changed.

17. The proposal to add interest charges to overdue payments to the producer-settlement fund should not be adopted at this time.

In establishing a market-wide pool effective April 1, 1956, a section was included providing for a producer-settlement fund to effectuate the equalizing of returns from Class I sales among producers. A section was also included in the order as a conforming change specifying the payments to be made to the producer-settlement fund. No teslimony appears in the record, however, to support the producers' proposal to include a proviso to charge interest on payments to the producer-settlement fund which are overdue. For this reason, the proviso should not be included in the order at this time.

Rulings on proposed findings and conclusions. A number of briefs were filed which contained statement of fact, proposed findings and conclusions and arguments with respect to the provisions ofthe proposed amendments. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in the recommended decision.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk

No. 156-7

in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest: and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Recommended marketing agreement and order, amending the order, as amended. The following order amending the order, as amended, regulating the handling of milk in the Central Mississippi marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the order, as amended, and as hereby proposed to be further amended.

1. Delete § 987.6 and substitute therefor the following:

§ 987.6 Central Mississippi marketing area. "Central Mississippi marketing area" hereinafter called the "marketing area" means all the territory within the following counties: Adams, Claiborne, Clarke, Copiah, Covington, Forrest, Franklin, Hinds, Jasper, Jefferson, Jefferson Davis, Jones, Lamar (except Beat 2 thereof), Lauderdale, Lawrence, Lincoln, Madison, Marion, Neshoba, Newton, Perry, Rankin, Scott, Simpson, Smith, Walthall, Warren and Wayne, all in the State of Mississippi.

the following:

(a) Class I milk price. During an 18month period following the effective date of this subpart, the minimum price per hundredweight for Class I milk for the month shall be the basic formula price for the preceding month, plus \$1.85 during the months of March, April, May and June, and plus \$2.25 during all other months.

3. Delete § 987.51 (b) and substitute the following:

(b) Class II milk price. The price per hundredweight for Class II milk shall be the price determined pursuant to § 987.50 (c) plus 10 cents during each of the months of March, April, May and June plus 20 cents during all other months.

4. Amend § 987.81 by deleting all of the section following the colon and inserting in lieu thereof the following "multiply the daily base of such producer by the number of days production delivered by such producer to handlers during the month."

5. Amend § 987.82 (b) by deleting the entire paragraph and inserting in lieu thereof the following:

(b) An entire base shall be transferred from a person holding such base to any other person, effective as of the end of any month during which an application for such transfer is received by the market administrator, such application to be on forms approved by the market administrator and signed by the baseholder or his heirs, and by the person to whom such base is to be transferred: Provided, That if a base is held jointly, the entire base shall be transferable only upon the receipt of such application signed by all joint holders, or their heirs, and by the person to whom such base is to be transferred.

#### 6. Amend § 987.53 to read as follows:

§ 987.53 Location differentials to handlers. For that milk which is received from producers at a pool plant located 50 miles or more from the city limits of Hattiesburg, Jackson, Meadville or Meridian, Mississippi, whichever is closest by the shortest hard-surfaced highway distance as determined by the market administrator, and which is transferred in the form of fluid milk products to another pool plant and assigned to Class I pursuant to the proviso of this section, or otherwise classified as Class I milk, the price specified in § 987.51 (a) shall be reduced at the rate set forth in the following schedule:

Distance from the city limits of	Rates per
Hattlesburg, Jackson,	hundred-
Meadville or Meridian, Mis-	weight
sissippi (miles) :	(cents)
50 but not more than 60	10.0
For each additional 10 miles or	frac-
tion thereof an additional	11215

Provided: That, for the purposes of calculating such location differential, products so designated as Class I milk which are transferred between pool plants shall be assigned to any remainder of Class II milk in the transferee-plant after making the calculations prescribed in 2. Delete § 987.51 (a) and substitute ) § 987.46 (a) (1), (2), and (3), and the comparable steps in § 987.46 (b) for such plant, and after deducting from such remainder an amount equal to 0.05 times the skim milk and butterfat contained in the producer milk received at the transferee-plant, such assignment to transferor-plants to be made first to plants which the location differential is applicable.

#### 7. Amend § 987.92 to read as follows:

§ 987.92 Location differential to producers. In making payments to producers pursuant to § 987.90, the applicable uniform prices to be paid for producer milk received at a pool plant located 50 miles or more from the city limits of Hattiesburg, Jackson, Meadville, or Meridian, Mississippi, whichever is closest by the shortest hard-surfaced highway distance, as determined by the market administrator, shall be reduced at the rate set forth in the following schedule:

Distance from the city limits of	Rate per

#### PILOT EXAMINERS

Notice is hereby given that the Administrator of Civil Aeronautics contemplates the adoption of the following revision to Part 418 of the Regulations of the Administrator. Section 418.21 (a) would be revised by consolidating the current designations "Private Pilot Examiner" and "Commercial Pilot Examiner" into the single designation "Pilot Examiner". The experience standards for the new designation would be comparable with current requirements for a commercial examiner designation. The new designation would contain the privileges of both current designations.

All interested persons who desire to submit comments and suggestions for consideration by the Administrator of Civil Aeronautics in connection with the proposed rules should send them to the Civil Aeronautics Administration, Washington 25, D. C., within 30 days after publication of this notice in the FEDERAL REGISTER.

§ 418.21 Pilot examiners-(a) Types. The types of pilot examiner designations issued by the CAA are: Pilot Examiner, Instrument Rating Examiner, and Airline Transport Pilot Examiner.

TOLERANCES AND EXEMPTIONS FROM TOLER-ERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

NOTICE OF PROPOSAL TO ESTABLISH TOLER-ANCES FOR RESIDUES OF INORGANIC BROMIDES IN OR ON CERTAIN RAW AGRI-CULTURAL COMMODITIES AFTER FUMIGA-TION WITH ETHYLENE DIBROMIDE

The U.S. Department of Agriculture has requested that action be taken to permit the use of ethylene dibromide as a fumigant in the following programs:

1. The current Mediterranean Fruit Fly Control Program in Florida.

2. The Quarantine Program to prevent entry into the United States of several species of fruit fly from outside the continental United States.

In the Mediterranean Fruit Fly Program, ethylene dibromide is used as a fumigant at the rate of 8 ounces per ) corn, oats, popcorn, rice, rye, sorghum 1.000 cubic feet for 2 hours at temperatures of 77° F. and above or at 10 ounces per 1,000 cubic feet for 2 hours at temperatures of 76° F. and below. The crops involved in this program are citrus, pineapples, guavas, papayas, mangoes, cucumbers, and bell peppers.

In the Quarantine Program, ethylene dibromide is used at generally the same dose on pineapples, citrus, mangoes, bitter melon, cucumbers, Cavendish bananas, papayas, Zuccini squash, and string beans. Preshipment treatments are made in Puerto Rico, Cuba, Mexico, and Hawaii. Treatments may be made when the commodities arrive at ports of entry into the United States.

The U. S. Department of Agriculture states that the residues of inorganic bromides resulting from the treatment in either program do not exceed 10 parts per million of inorganic bromide. These residues on the crops involved will not constitute a hazard to man.

By virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (b) and (e), 68 Stat. 514; 21 U. S. C. 346a (b) and (e)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR 120.29 (a)), it is proposed by the Commissioner of Food and Drugs on his own initiative that the regulations for tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR Part 120; 21 F. R. 5620) be amended by changing § 120.146 to read as follows:

§ 120.146 Tolerances for residues of inorganic bromides resulting from Jumigation with ethylene dibromide. (a) Tolerances of 50 parts per million are established for residues of inorganic bromides (calculated as Br) in or on the

following grains that have been fumigated with ethylene dibromide: Barley, (milo), wheat.

(b) Tolerances of 10 parts per million are established for residues of inorganic bromides (calculated as Br) in or on the following commodities that have been fumigated with ethylene dibromide in accordance with the Mediterranean Fruit Fly Control Program or the Quarantine Program of the U.S. Department of Agriculture: Beans (string), bitter melon (Mormodica charantia), Cavendish bananas, citrus fruits, cucumbers, guavas, mangoes, papayas, peppers (bell), pineapples, Zuccini squash.

A person who has registered or who has submitted an application for the resistration of an economic poison under the Federal Insecticide, Fungicide, and Rodenticide Act containing ethylene dibromide, may request, within 30 days from publication of this proposal, that the proposal be referred to an advisory committee in accordance with section 408 (e) of the Federal Food, Drug, and Cosmetic Act.

Any interested person is invited at any time prior to the thirtieth day from the date of publication of this notice in the FEDERAL REGISTER to file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., written comments on the proposal. Comments may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Dated: August 6, 1956.

Applicant requests authority to construct and operate an additional 4-inch tap and metering and regulating station to serve an existing customer at a new location.

Applicant in its original application proposed the same and delivery of up to 5100 Mcf per day of natural gas on a firm basis to joint buyers East Ohio Gas Company, The Peoples Natural Gas Company, and New York State Natural Gas Company, such delivery to be transferred from applicant's Zone C to its Zone D at a delivery point at approximately Mile Post 67.39 in Blair County, Pennsylvania, on the 24-inch Texas Eastern Penn-Jersey Transmission Corporation line leased to and operated by applicant.

In the supplement filed by applicant on June 26, 1956, applicant requested authority to deliver to The Peoples Natural Gas Company through the proposed new delivery point in Blair County, Pennsylvania, up to 7,000 Mcf of natural gas per day instead of the original request which was authorized by temporary certificate granted applicant on January 24, 1956. The Peoples Natural Gas Company is one of the operating companies of the Consolidated Natural Gas System.

Applicant states that this request to increase the quantities to be delivered to the Blair County interconnection is prompted by the necessity of providing adequate gas for more efficient operation and service in The Peoples Natural Gas Company's market area in the eastern portion of its system near Altoona, Pennsylvania.

The Peoples Natural Gas Company has requested that applicant make this additional 2,000 Mcf per day available to it at this point.

Applicant alleges that no additional deliveries to the companies of the Consolidated Natural Gas System are proposed over and above the authorized volume and applicant will encounter no difficulty in transporting and delivering the 7,000 Mcf per day to Peoples without adversely affecting its other service.

No new markets are proposed to be served by Peoples from the new delivery point.

Applicant also states that on June 5. 1956, it filed its service agreement dated May 11, 1956, with the East Ohio Gas Company, The Peoples Natural Gas Company, New York State Natural Gas Corporation, and Hope Natural Gas Company as joint buyer, providing for the delivery of a maximum daily quantity of 325,500 Mcf and an annual contract quantity of 119,172,500 Mcf at 15.025 psia under its Rate Schedule DCQ-C and DCQ-D. The maximum quantity detion (applicant) filed an application on Schedule DCQ-C is 319,500 Mcf and liverable on a firm basis under Rate

under Rate Schedule DCQ-D is 7,000 Mcf. The agreement supersedes an existing agreement providing for the same maximum daily quantity but limiting deliveries under Rate Schedule DCQ-D to 5,000 Mcf per day.

It is alleged that with the recent construction of the Texas Eastern Penn-Jersey line near Peoples' eastern markets and with the growth in load of such eastern markets, Peoples has decided it would be desirable to have a new delivery point in applicant's Zone D even though the deliveries in that zone will cost more than if such deliveries were made in Zone C as at present.

Applicant further states that its proposed facilities are estimated to cost \$19,722, which will be paid out of cash on hand, and estimated sales for the year ending May 1957 in Zones C and D are 116,617,500 Mcf for \$39,416,160, or 33.7 cents per Mcf, and 2,555,000 Mcf for \$924,446, or 36.1 cents per Mcf, respectively.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 4, 1956, at 9:30 a.m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Wash-ington, D. [File No. 22-1909]

HARPENER BERGBAU-AKTIEN-GESELLSCHAFT

ORDER GRANTING APPLICATION

AUGUST 7, 1956.

Harpener Bergbau - Aktien - Gesellschaft, a corporation organized and existing under the laws of Germany, having filed an application pursuant to section 304 (d) of the Trust Indenture Act of 1939 for an order exempting from the provisions of section 310 (a) (3) of the act, 41/2 percent Debt Adjustment Bonds, due January 1, 1970, to be issued by Harpener Bergbau - Aktien - Gesellschaft under an indenture to be dated as of January 1, 1953, between Harpener Bergbau-Aktien-Gesellschaft and The First National City Bank of New York as Trustee and Deutsche Kreditsicheruns Kommanditgesellschaft Dr. Alexander Kreuter as Co-Trustee, in connection with Harpener Bergbau-Aktien-Gesellschaft's offer of settlement to be made pursuant to Annex II of the London Agreement on German External Debts of February 27, 1953, between the Government of the Federal Republic of Germany, the United States of America and other countries; and

It appearing to the Commission with respect for exemption from section 310 (a) (3) to permit certain acts to be performed by the Co-Trustee, as follows:

(1) Harpener has outstanding an issue of Gold Mortgage 6 Percent Bonds, Series of 1929, which have been in default for many years. The London Agreement provides, among other things, for the consensual settlement of foreign currency obligations of German corporate debtors by the refunding and extension of such obligations. Harpener is, however, liable only for the repay; ment of bonds which may be validated pursuant to the Validation Law for German Foreign Currency Bonds of August 25, 1952. The terms of the offer negotlated by Harpener for its outstanding obligations provide for the issuance by Harpener of the above described debi Adjustment Bonds, due January 1, 1970. in exchange for its outstanding validated bonds.

(2) The rights in the security of both the holders of the old and the new bonds are rights in German property, created under German mortgage law and to a large extent dependent upon the interpretation of the German Implementation Law; and such rights in the security should be adjudicated only by German courts.

(3) Vesting of title to the security in the Co-Trustee necessarily results in certain acts being performable by the Co-Trustee. The acts which are performable only by the Co-Trustee relate to the release of property, the reduction of the registered amount of the liens and the disposition of release moneys and such action is, in each case, subject to ultimate control by the institutional trustee.

Notice of filing of said application having been duly given, applicant having waived hearing thereon, the Commission not having received a request for hearing within the period specified in said notice and a hearing not appearing necessary or appropriate in the public interest or for the protection of investors:

It is ordered, That, insofar as the indenture permits the above described acts to be performed by the Co-Trustee, the said Debt Adjustment Bonds be, and the same hereby are, exempted from the provisions of section 310 (a) (3) of the Trust Indenture Act of 1939.
