Granite State Gas Transmission, Inc.;
Notice of Proposed Changes in FERC
Gas Tariff

January 10, 1995.

Take notice that on January 4, 1995, Granite State Gas Transmission, Inc. (Granite State), tendered for filing with the Commission First Revised Sheet No. 35 of its FERC Gas Tariff, Third Revised Volume No. 1, containing changes in rates to become effective on February 1, 1995.

According to Granite State, its filing is a limited Section 4 filing to direct bill its former bundled sales customers, Bay State Gas Company (Bay State) and Northern Utilities, Inc. (Northern Utilities), for unreimbursed transportation charges paid to Tennessee Gas Pipeline Company (Tennessee) for transportation services rendered during September and October, 1993, two months before Granite State commenced its restructured operations on November 1, 1993.

Granite State further asserts that, prior to restructuring, it had assembled a system supply of natural gas to support its sales services, which included purchases of Canadian gas from Boundary Gas, Inc. (Boundary Gas) and Shell Canada, Limited (Shell). Granite State purchased these supplies at the U.S.-Canadian border and arranged for transportation services on upstream pipelines, among which was Tennessee, for delivery of these supplies, to its market area under Tennessee's Rate Schedules CGT-NE, FT-A, and NET-NE.

According to Granite State, it was authorized to pass through the upstream transportation charges in a Transportation Cost Adjustment added to its sales rates during the period prior to the date it commenced restructured operations. The Transportation Cost Adjustment was approved by the Commission in Boundary Gas, Inc., *et al.*, 26 FERC ¶ 61,114 (1994).

Granite State further states that, in Docket No. RP94-293-000, it filed on June 15, 1994, to direct bill its former sales customers for unreimbursed upstream transportation charges for the period ending October 31, 1993. According to Granite State Tennessee

continues to revise and refine its billings to Granite State for transportation services during September and October, 1993, and it has received additional billings from Tennessee in the amount of \$104,426.15 for the volumetric component for services under Tennessee's Rate Schedules CGT-NE, FT-A and NET-NE for the months of September and October, 1993, which Granite State proposes to direct bill Bay State and Northern Utilities through its filing of First Revised Sheet No. 35.

According to Granite State, copies of its filing were served upon its customers, Bay State and Northern Utilities, and the regulatory commissions of the States of Maine, Massachusetts and New Hampshire.

Any person desiring to be heard or to make any protest with reference to said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426 in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before January 18, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party to the proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules. Copies of this filing are on file with the Commission and are available for public inspection.
