

collections for its 1994 RD&D program approved by the Commission in Docket No. RP93-140-000. GRI states that it intends to use this approach so long as GRI funding is accomplished using the post-1993 GRI Funding Mechanism.

GRI proposes a two-tiered methodology, basing funding targets and related refunds associated with 1994 GRI program funding to the maximum extent possible on actual 1994 results. GRI states that its proposal would assure that funding targets and related refunds accurately track contribution and discounting levels, thereby mitigating cost shifting among customer classes and regions of the country that receive less discounted service than the national average. On this basis, after it closes its financial books in March 1995, GRI estimates making refunds totaling approximately \$11 million to 31 of its 40 interstate pipelines members.

Any person desiring to be heard or to protest GRI's petition should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure, 18 CFR 385.214 and 385.211. All protests, motions to intervene and comments should be filed on or before January 27, 1995. All comments and protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to this proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

Midwestern Gas Transmission Company; Notice of Rate Filing

January 13, 1995.

Take notice that on January 9, 1995, Midwestern Gas Transmission Company (Midwestern) filed a request for an extension of time in which to file its report of cash out activity for its first year of operation under restructured services. Midwestern requests permission to file its cash out report by July 1, 1995.

Midwestern states that Section 6(f) of its LMS-MA Rate Schedule requires Midwestern to file a report and refund plan if necessary for cash out activity at the end of each annual period. However, as a result of technical difficulties with the volume allocation system, Midwestern does not currently have final, accurate information on which to base a report. Midwestern states that because a report with incomplete and possibly erroneous information would not be useful to anyone, it requests an extension and agrees to file the report no later than July 1, 1995.

Midwestern states that copies of the filing have been mailed to all of its jurisdictional customers and affected state regulatory commission.

Any person desiring to be heard or to make any protest with reference to said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Sections 211 and 214 of the Commission's Rules of Practice and Procedure, 18 CFR 385.211 and 385.214. All such petitions or protests should be filed on or before January 23, 1995. Any person wishing to become a party must file a petition to intervene. Copies
