

404.7(a)(1)(i) that the National Institute of Standards and Technology ("NIST"), U.S. Department of Commerce, is contemplating the grant of a field of use exclusive license to practice the invention embodied in U.S. Patent Serial No. 08/237,099, titled, "Method and Apparatus For Visualization Of Internal Stresses In Solid Non-Transparent Materials By Ultrasonic Techniques and Ultrasonic Computer Tomography Of Stresses" to ND Resources, Inc., having a place of business in Cincinnati, Ohio. The patent rights in this invention have been assigned to the United States of America.

**FOR FURTHER INFORMATION CONTACT:**

Bruce E. Mattson, National Institute of Standards and Technology, Technology Development and Small Business Program, Building 221, Room B-256, Gaithersburg, MD 20899.

**SUPPLEMENTARY INFORMATION:** The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within sixty days from the date of this published Notice, NIST receives written evidence and argument which establish that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

U.S. Patent Serial No. 08/237,099 relates to a process for the detection and mapping of internal stresses in the interior of bulk materials by scanning acoustic technique.

NIST may enter into a Cooperative Research and Development Agreement ("CRADA") to perform further research on the invention for purposes of commercialization. The CRADA may be conducted by NIST without any additional charge to any party that licenses the patent. NIST may grant the licensee an option to negotiate for royalty-free exclusive licenses to any jointly owned inventions which arise from the CRADA as well as an option to negotiate for exclusive royalty-bearing licenses for NIST employee inventions which arise from the CRADA.

The availability of the invention for licensing was published in the **Federal Register**, Vol. 59, No. 195 (October 11, 1994). NIST is also contemplating the grant of a field of use exclusive license for related patent, "Method And Apparatus For Visualization Of Internal Stresses In Solid Nontransparent Materials by Elastoacoustic Technique," U.S. Patent No. 5,307,680, to ND Resources, Inc. The notice of availability of U.S. Patent No. 5,307,680 for licensing was published in the **Federal**

**Register**, Vol. 58, No. 49 (March 16, 1993), and notice of prospective grant of exclusive license of U.S. Patent No. 5,307,680 was published in the **Federal Register**, Vol. 59, No. 187 (September 28, 1994). A copy of the patent application may be obtained from NIST at the foregoing address.

Dated: January 18, 1995.

**Samuel Kramer,**

*Associate Director.*

[FR Doc. 95-2191 Filed 1-27-95; 8:45 am]

**BILLING CODE 3510-13-M**

**National Oceanic and Atmospheric Administration**

[I.D. 122095E]

**Endangered Species; Permits**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of receipt of two applications for scientific research permits (P504F and P563A) and receipt of an application for modification 1 to scientific research permit 911 (P560).

Notice is hereby given that the U.S. Army Corps of Engineers in Walla Walla, WA (Corps) and the Northern Wasco County People's Utility District in The Dalles, OR (NWCPUD) have applied in due form for scientific research permits (P504F and P563A) and that Oregon State University in Corvallis, OR (OSU) has applied in due form for Modification 1 to scientific research Permit 911 (P560) to take listed species as authorized by the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and the NMFS regulations governing listed fish and wildlife permits (50 CFR parts 217-227).

The Corps requests authorization to capture, tag, release, recapture, and re-release juvenile, endangered, artificially propagated spring/summer chinook salmon (*Oncorhynchus tshawytscha*) as part of a turbine passage survival study at Lower Granite Dam on the Snake River in WA. The purpose of the proposed research is to determine the immediate and delayed (48- to 120-hour) survival rates of run-of-river chinook salmon smolts passing through a turbine at the dam under different locations and operating conditions. This information will be used to: (1) Develop a turbine model study, which is part of a Corps project to minimize fish turbine passage mortality; (2) refine normal dam operations to minimize adverse effects to migrating juvenile fish, and; (3) provide a baseline for turbine survival

estimates needed under the changing conditions of a reservoir drawdown. The duration of the study will be from April 15 to June 10 in 1995 only.

NWCPUD requests a permit to conduct research with a take of the following endangered species: Juvenile Snake River sockeye salmon (*Oncorhynchus nerka*), juvenile, naturally produced and artificially propagated, Snake River spring/summer chinook salmon (*Oncorhynchus tshawytscha*), and juvenile Snake River fall chinook salmon (*Oncorhynchus tshawytscha*). NWCPUD will capture and handle these fish as part of an annual study to assess the run-of-river juvenile anadromous fish condition after passage through the screened turbine intake channel at Dalles Dam, located on the Columbia River. Continued observation of juvenile fish passing through the screened intake channel during the smolt migration provides specific information on possible unsuitable passage conditions below the water surface which are not directly observable. The duration of the permit will be 5 years. The research will take place from April to September each year.

Permit 911 authorizes OSU to harass, capture, and handle juvenile and adult, endangered, Snake River spring/summer chinook salmon (*Oncorhynchus tshawytscha*) as part of a 2-year study to investigate the potential effects of climate change on thermal complexity and biotic integrity of Oregon rivers and streams, with an emphasis on the seasonal intrusion and resulting competition and predation of non-native coolwater and warmwater fish species into the historic habitats of native salmonids. For Modification 1, OSU requests an increase in the 2-year take of juvenile, endangered, Snake River spring/summer chinook salmon because they encountered larger fish densities than were expected in 1994 and they expect to exceed their current authorized juvenile take in 1995. OSU will be conducting their 1995 research activities from May 15 to September 30. Permit 911 expires on September 30, 1995.

Written data or views, or requests for a public hearing on this application should be submitted to the Chief, Endangered Species Division, Office of Protected Resources, F/PR8, NMFS, 1315 East-West Highway, Silver Spring, MD 20910-3226, within 30 days of the publication of this notice. Those individuals requesting a hearing should set out the specific reasons why a hearing on this particular application would be appropriate. The holding of such hearing is at the discretion of the

Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in this application summary are those of the applicant and do not necessarily reflect the views of NMFS.

Documents submitted in connection with the above application are available for review by interested persons in the following offices by appointment:

Office of Protected Resources, NMFS, NOAA, 1315 East-West Highway, Silver Spring, MD 20910-3226 (301-713-1401); and

Environmental and Technical Services Division, NMFS, NOAA, 525 North East Oregon St., Suite 500, Portland, OR 97232 (503-230-5400).

Dated: January 23, 1995.

**Patricia A. Montanio,**

*Acting Deputy Director, Office of Protected Resources, National Marine Fisheries Service.*  
[FR Doc. 95-2100 Filed 1-27-95; 8:45 am]

**BILLING CODE 3510-22-F**

**COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS**

**Proposed List of Products for Second and Third Phase Integration of Textile and Apparel Products Into GATT 1994**

**AGENCY:** Committee for the Implementation of Textile Agreements (CITA).

**NOTICE:** Request for public comments on the proposed list of textile and apparel products to be integrated into the GATT 1994 in the second and third phases; notice of a public hearing on integration.

**FOR FURTHER INFORMATION CONTACT:** Julie Carducci, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-3588.

**SUPPLEMENTARY INFORMATION:** The Uruguay Round Agreement on Textiles and Clothing (ATC), approved by Congress as part of the Uruguay Round Agreements Act, provides for the integration of the textiles and clothing sectors into the World Trade Organization.

The second and third phases of the integration will commence on January 1, 1998, and January 1, 2002, respectively. Products in the second phase will account for not less than 17% of the total volume of imports in 1990 of the products in the annex to the ATC. Products in the third phase will account for not less than 18% of this total volume. (The first integration was done on January 1, 1995 and the list of products in the first integration was published in the **Federal Register** on October 13, 1994 (59 FR 51942). The final phase of the integration will commence on January 1, 2005, and include textile and apparel products in the annex to the ATC which were not integrated during the first, second or third integration phases.)

The Chairman of the Committee for the Implementation of Textile Agreements (CITA) requests interested parties to submit comments on the following proposed list of products for integration in the second and third phases. (The final list for phases two and three will be published in the **Federal Register** no later than May 1, 1995. Parties interested in obtaining the proposed lists for the second, third and final phases electronically, can access the lists through the U.S. Department of Commerce's Economic Bulletin Board, (202) 482-1986.)

Comments must be received on or before February 23, 1995. Comments may be mailed to the Chairman, Committee for the Implementation of

Textile Agreements, room 3001, U.S. Department of Commerce, 14th and Constitution Avenue NW., Washington, DC 20230.

A hearing to address any significant issues related to the second and third phases of the integration will be held in mid-March in Washington, D.C. The location and time of the hearing will be announced in the **Federal Register**. Parties wishing to participate in the hearing should contact Julie Carducci, (202) 482-3588; fax (202) 482-0858, no later than February 23, 1995 to arrange for their appearance. The time available for individual presentations will be based on the number of participants attending the hearing. Note there will be reasonable time limits on parties' participation in the hearing.

Written testimony and other comments to be presented at the hearing must be submitted to the Chairman of CITA on or before March 2, 1995. Submissions in triplicate may be addressed to the Chairman, Committee for the Implementation of Textile Agreements, room 3001, U.S. Department of Commerce, 14th and Constitution Avenue NW., Washington, DC 20230.

All information submitted in response to this notice will be available for public inspection at the same address. Protection of proprietary or business confidential information from disclosure is limited to the requirements of the Freedom of Information Act (5 U.S.C. 552). Therefore, if a participant deems it necessary to submit information intended to be business confidential, the information must be designated as such and accompanied by a non-confidential version. Information designated business confidential will be protected from disclosure only to the extent required by law.
