However, confidential treatment for the report information can be requested, in whole or part, in accordance with the instructions to the form.

Abstract: The FR Y-6 is an annual report filed by the top-tier bank holding companies. Foreign banking organizations as defined by section 211.23(b) of Regulation K are not required to file this form. The FR Y-6 consists of consolidated and parent company financial statements in the company's own format.

The FR Y-6 report is the Federal Reserve's principal source of internally generated and independently audited financial data on individual bank holding companies and their banking and nonbanking subsidiaries. The report enables the Federal Reserve to monitor bank holding company operations and to ensure that the operations are conducted in a safe and sound manner and in compliance with the provisions of the Bank Holding Company Act and Regulation Y.

The Federal Reserve approved the following revisions to the FR Y-6:

- (1) Eliminate the requirement to submit consolidated and parent company financial statements.
- (2) Revise the requirement for audited financial statements to include only holding companies with assets of \$500 million or more.
- (3) Eliminate the requirement to submit nonbank subsidiary financial statements. This information is currently proposed to be incorporated into an expanded standardized FR Y-11 report (Financial Statement of Nonbank Subsidiaries of Bank Holding Companies).
- (4) Eliminate the requirement to submit certified copies of amendments to organizational documents.
- (5) Eliminate the collection of information on insider loans.
- (6) Eliminate the confirmation of changes in investments and activities.

SUMMARY: The proposed revisions to the Call Report that have been submitted to the Office of Management and Budget for approval are mandated by the Federal Financial Institutions Examination Council (FFIEC).

On a quarterly basis, state member banks are required to file detailed schedules of assets, liabilities, and capital in the form of a condition report

and summary statement; detailed schedule of operating income and expense, sources and disposition of income, and changes in equity in the form of an income statement; and a variety of supporting schedules. Data are used for supervisory and monetary policy purposes. The proposed changes affect several existing Call Report schedules. DELETIONS AND REDUCTIONS IN DETAIL

The level of detail with which restructured loans and leases that are in compliance with modified terms are reported in the memoranda section of Schedule RC-C, "Loans and Lease Financing Receivables," would be reduced. For all banks, the current separate items for the various non-real-estate loan categories will be combined into a single item for "All other loans and all lease financing receivables." In addition, banks with foreign offices or with \$300 million or more in total assets that file the FFIEC 031 and 032 report forms also will report a single total for their restructured commercial loans to and their restructured leases of non-U.S. addressees.

This average has not been collected from banks with less than \$100 million in assets that file the FFIEC 034 report form.

(3) The four components of mandatory convertible debt, net of dedicated stock, in Schedule RC-M, items 7.a through 7.d on the FFIEC 031 and 032, items 6.a through 6.d on the FFIEC 033, and items 8.a through 8.d on the FFIEC 034. The item for the total amount of mandatory convertible debt, net of dedicated stock, would be retained.

(4) The year-to-date reconciliation of the allocated transfer risk reserve in Schedule RI-B, Part II. This reconciliation has been collected only from banks with foreign offices or with total assets of \$300 million or more that file the FFIEC 031 or 032 report forms.
