

during the draft supplemental environmental impact statement public review period, was evaluated in the FSEIS and determined not to be a significant "new and reasonable" alternative nor was it found to meet the necessary section 6(f)(3) replacement requirements.

It is determined by the NPS and State of Missouri that Alternative B (Little Creve Coeur Lake) as the preferred alternative, most closely meets the requirements of significant "additional land" for replacement of converted land at CCLMP. This alternative, 464.8 acres declared eligible for section 6(f)(3) consideration, is located to the west and south of Creve Coeur Lake Memorial Park and consists primarily of wetlands presently in agricultural use.

With the adoption of the above preferred alternative, added to the initial replacement package submitted by the State of Missouri, the total land replacement for land converted at CCLMP could amount to 723.28 acres at an estimated value of \$3,379,820. The approximate 207 acres of CCLMP land being converted has been valued at \$1,755,098.

Copies of the FSEIS may be obtained from the responsible official, Mr. William Schenk, Regional Director (refer to address below). Comments on the FSEIS must be received no later than March 26, 1995 and may be responded to in the Record of Decision.

ADDRESSES: Comments on the FSEIS should be submitted to: Mr. William W. Schenk, Regional Director, Midwest Region, National Park Service, Omaha, Nebraska 68102, 402-221-3432.

Public reading copies of the FSEIS will be available for review at: Office of Public Affairs, National Park Service, Department of Interior, 18th and C Streets NW., Washington, DC 20240, (202) 343-6843.

Dated: February 10, 1995.

William W. Schenk,
Regional Director, Midwest Region.

INTERSTATE COMMERCE COMMISSION

[Finance Docket No. 32569]

Burlington Northern Railroad Company—Construction Exemption—Butler and Platte Counties, Nebraska

The Burlington Northern Railroad Company (BN) has petitioned the Interstate Commerce Commission

(Commission) for authority to construct and operate a 4.34 mile rail line in Butler and Platte Counties, Nebraska. The Commission's Section of Environmental Analysis (SEA) has prepared an Environmental Assessment (EA). Based on the information provided and the environmental analysis conducted to date, this EA concludes that this proposal should not significantly affect the quality of the human environment if the recommended mitigation measures set forth in the EA are implemented. Accordingly, SEA preliminarily recommends that the Commission impose on any decision approving the proposed construction and operation conditions requiring Burlington Northern Railroad Company to implement the mitigation contained in the EA. The EA will be served on all parties of record as well as all appropriate Federal, state and local officials and will be made available to the public upon request. SEA will consider all comments received in response to the EA in making its final environmental recommendations to the Commission. The Commission will then consider SEA's final recommendations and the environmental record in making its final decision in this proceeding.

Comments (an original and 10 copies) and any questions regarding this Environmental Assessment should be filed with the Commission's Section of Environmental Analysis, Office of Economic and Environmental Analysis, Room 3219, Interstate Commerce Commission, Washington, D.C. 20423, to the attention of Michael Dalton (202) 927-6202. Requests for copies of the EA should also be directed to Mr. Dalton.

Date made available to the public: March 7, 1995.

Comment due date: April 6, 1995.

By the Commission, Elaine K. Kaiser, Chief, Section of Environmental Analysis, Office of Economic and Environmental Analysis.

Vernon A. Williams,

Secretary.
